b. *Line Extensions.* The Developer shall extend wastewater mains sufficient to serve each phase of development within the PD District, sized in accordance with the City's master plan for wastewater facilities and constructed in accordance with the phasing schedule approved in conjunction with the Developer's master plat application. The Developer shall design and construct a lift station in order to serve the development within the PD District. The Developer shall be entitled to pro-rata fees for the costs of over-sizing the lift station from other future developments using the lift station, calculated on a per acreage basis. Developer also shall be eligible for credits against, wastewater impact fees otherwise due for construction of improvements identified and included in the City's wastewater improvements plan for impact fees, in accordance with the City's then existing impact fee regulations. Provisions for City participation in oversize costs, rebate of pro-rata fees or provision of impact fee credits shall be set forth in a facilities and reimbursement agreement between the Developer and the City.

c. *Payment of Impact Fees.* Wastewater impact fees shall be paid at rates and at the times provided for in the City's then existing impact fee regulations.

3. *Water Services*

a. *City as provider.* The City shall be the supplier of water services to the Property. The City represents that it has sufficient capacity to serve the Property.

b. *Line Extensions.* The Developer shall extend water mains sufficient to serve each phase of development within the PD District, sized in accordance with

BC

DRAFT ORDINANCE 09.20.2016

the City's master plan for water facilities and constructed in accordance with the phasing schedule approved in conjunction with the Developer's master plat application. The Developer shall be eligible for City participation in the costs of over-sizing water distribution mains or appurtenances that serve other land in addition to the Property, in accordance with the City's standard policies, or for collection of pro-rata fees for such facilities. Developer also shall be eligible for credits against, water impact fees otherwise due for construction of improvements identified and included in the City's water improvements plan for impact fees, in accordance with the City's then existing impact fee regulations. Provisions for City participation in oversize costs, rebate of pro rata fees or provision of impact fee credits shall be set forth in a facilities and reimbursement agreement between the' Developer and the City.

c. *Payment of Impact Fees.* Water impact fees shall be paid at rates and at the times provided for in the City's then existing impact fee regulations.

4. *Road Improvements.* The Developer shall make the following road improvements.

a. *John King Boulevard (Highway 205 Bypass).* The Developer shall have no obligation with respect to construction of John King Blvd. other than as outlined herein regarding payment of road impact fees.

b. *FM-552 Improvements.* The Developer shall dedicate rights-of-way for and construct turn lanes and acceleration/deceleration lanes concurrent with construction of any road on the Property that intersects FM 552, in accordance with City and TXDOT standards and specifications at the time of development of adjoining property.

c. *Breezy Hill Road Improvements.* The Developer shall dedicate a minimum of twenty-five feet (25') of right-of-way or such right-of-way as is needed to construct a twenty-four foot (24') concrete rural section of Breezy Hill Road and appurtenances adjacent to the Property, together with a two-foot (2') asphalt or concrete shoulder on either side of the concrete section, the total not to exceed twenty-eight feet (28') in width, from the northern point of Breezy Hill Road adjacent to the Property, to FM-552, as shown on the Development Plan. The Developer also shall dedicate and improve a minimum landscape buffer of ten feet (10') for the residential tract and fifty feet (50') for the retail tract, adjacent to the right-of-way for Breezy Hill Road, designed in accordance with the requirements of a PD District then in effect for a rural collector. The bar ditch that abuts the buffer strip, designed to a maximum slope of 3: 1, shall not encroach into the required ten-foot or fifty-foot buffer area, except to the extent that the buffers exceed ten feet (10') in width. The Developer shall dedicate right-of-way for Breezy Hill Road and the landscape buffer at the time of final plat approval for any lot abutting Breezy Hill Road. Developer shall construct Breezy Hill Road in conjunction with the retail tract that is final platted adjacent to Breezy Hill Road. Breezy Hill Road will be constructed from the northernmost intersection created by any portion of the retail tract being platted, south to FM-552. Developer shall install any

BL

DRAFT ORDINANCE 09-19-2016

DRAFT ORDINANCE 09.20.16

EXHIBIT 'D': CAPITAL FACILITIES AGREEMENT FOR BREEZY HILL

needed expansion of existing culverts created by such construction or the development, of such retail tract.

d. *Payment of Roadway Impact Fees.* Roadway impact fees shall be paid at rates and at the times provided for in the City's then existing impact fee regulations. Construction costs incurred by Developer for roadway improvements in this Agreement that are included in the City's roadway improvements plan for impact fees shall be credited against roadway impact fees otherwise due, in accordance with the City's impact fee regulations.

5. *Drainage Improvements.* Dedication of rights-of-way for and construction of drainage improvements shall be provided as specified in conditions imposed with approval of the master plat for development within the PD District and in accordance with City standards and specifications.

6. *Parks and Open Space.*

a. The Developer or a property owners association shall maintain public parklands and improvements within the development for a period of three (3) months from the completion and acceptance of the improvements. Thereafter, the City shall assume responsibilities for maintenance. All open space and improvements which are not dedicated as parkland to the City shall be maintained as common areas in perpetuity by the property owners association for the PD District. Additionally, the property owners association shall maintain Developer-installed landscaping areas in public rights-of-way and public drainage ways internal to and adjacent to the Property.

III. GENERAL PROVISIONS

1. Notice on Sale. The Developer shall provide the City with notice of the sale of any tract or parcel within the District that has not been platted at the following address:

Rockwall City Manager
Rockwall City Hall
385 S. Goliad Street
Rockwall, TX 75087

2. *Recording.* This Agreement is intended to run with the land, and shall be recorded in the Real Property Records, Rockwall County, Texas.

3. *Term of Agreement.* This Agreement shall terminate two (2) years following the City's acceptance of the dedication and construction of the public improvements described herein serving the last phase of development within the PD District, after which the City agrees, upon the request of the Developer to execute a termination of this Agreement in recordable form. Any reimbursements for payment of impact fees shall not expire.

4. *Effective Date.* This Agreement shall take effect upon the date of its execution by the last of the Parties to the Agreement; provided, however, that Breezy shall execute this Agreement no later than five (5) business days following the

BU

DRAFT ORDINANCE 09.20.2016

EXHIBIT 'D': CAPITAL FACILITIES AGREEMENT FOR BREEZY HILL

effective date of the PD zoning ordinance for the Property. If Breezy fails to execute this Agreement within such period, this Agreement shall become null and void, and unless a subsequent agreement, acceptable to the City and the Developer, is agreed to, the City may thereafter deny any PD site plan, master plat or other plat application on grounds that the application is not supported by adequate public facilities and services.

5. *Severability.* Invalidation of any provision of this Agreement by judgment or court order shall not invalidate any of the remaining provisions which shall remain in full force and effect, unless such remaining provisions are an integral part of the invalid provisions or the invalid provision is necessary to give effect to the remaining provisions.

6. *Enforcement.* This Agreement may be enforced by the Parties by any proceeding at law or in equity. Failure to do so shall not be deemed a waiver to enforce the provisions of this Agreement thereafter.

7. *Venue.* Venue for this Agreement shall be in Rockwall County, Texas.

8. *Execution.* This Agreement may be separately executed in individual counterparts, and upon execution, shall constitute one and the same instrument.

9. *Amendment.* This Agreement may only be amended in writing upon mutual consent of the City and the Developer.

10. *Joint preparation.* This Agreement shall be deemed to have been jointly prepared by all Parties hereto, and no ambiguity of this Agreement shall be construed against any party based upon the identity of the author of this Agreement or any portion thereof.

11. *Recitals Incorporated.* Statements and representations contained herein are to be considered contractual in nature and not merely recitations of fact. The Recitals contained in Part I of this Agreement hereby are expressly incorporated into this Agreement by reference.

12. *Construction.* All references herein in the singular shall be construed to include the plural where applicable, the masculine to include the feminine and neuter genders.

13. *Authority.* Each of the signatories to this Agreement represents and warrants that he is authorized to execute this Agreement and bind his principals to the terms and provisions hereof. Each Party warrants that any action required to be taken in order for this Agreement to be binding on it has been duly and properly taken prior to the execution of this Agreement.

14. *Conflicts.* In the event of a conflict between this Agreement and any provision of the Unified Development Code, the City Code, or any City ordinance, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this Agreement, the standards in this Agreement shall control.

BLJ

EXHIBIT 'D': CAPITAL FACILITIES AGREEMENT FOR BREEZY HILL

15. *No Waiver*. Developer retains the right to challenge the application of any City impact fee regulations to the Property solely on the basis that such regulations fail to comply with Chapter 395 of the Texas Local Government Code, as amended. If Developer prevails in such a claim, impact fees shall be applied to the development of the Property and paid by the Developer, as applicable, in accordance with the court order.

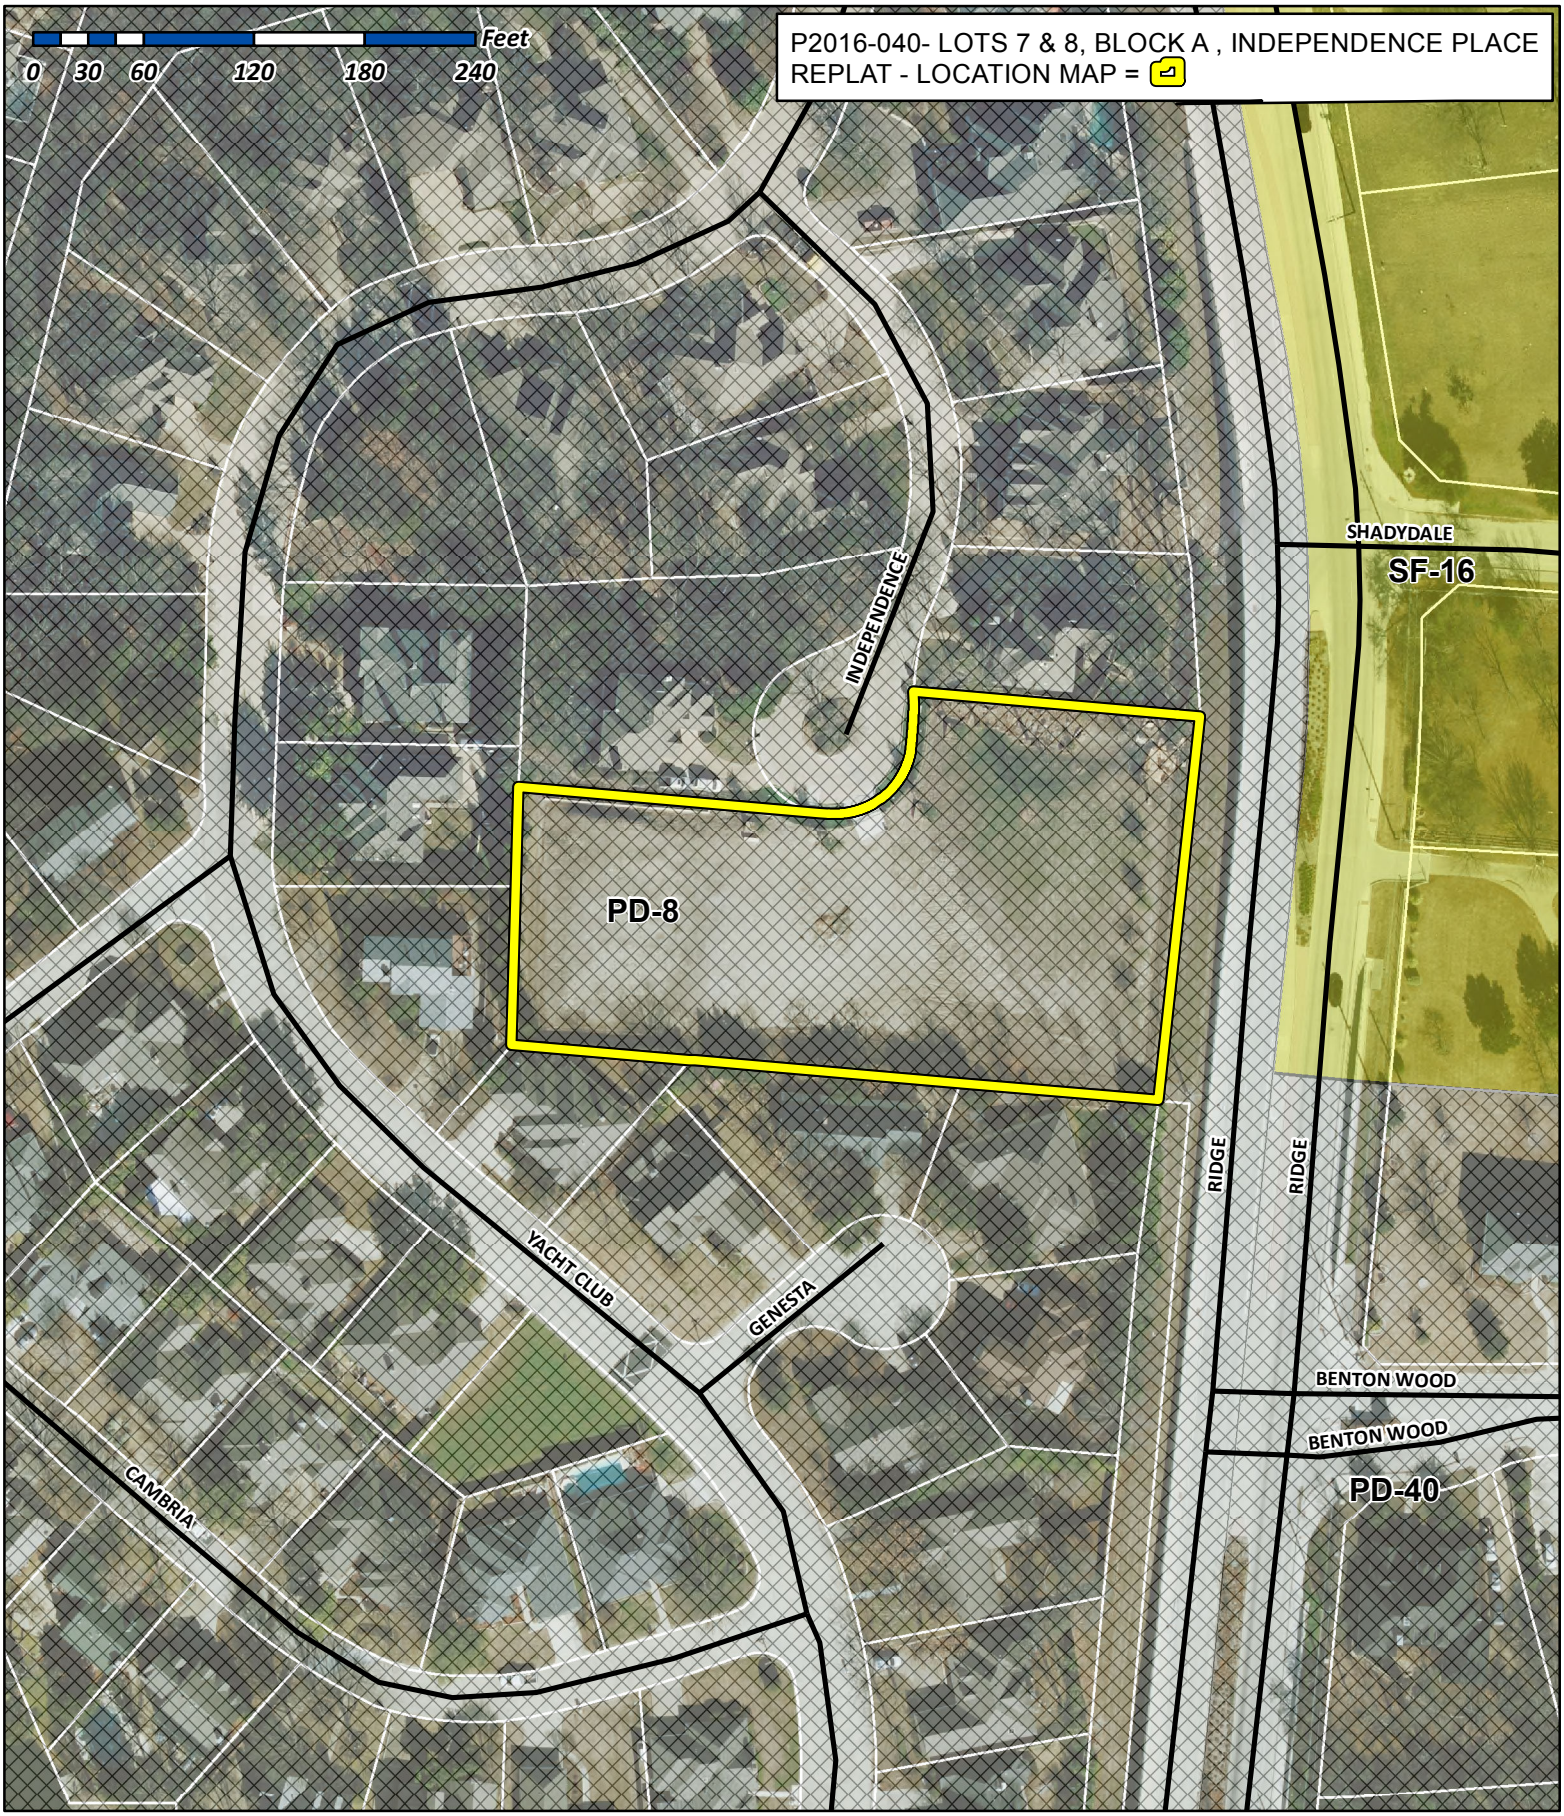
P2016-040 Independence Pass Addition Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Chad & Lindsay Hudson for the approval of a replat for Lots 7 & 8, Block A, Independence Pass Addition being a replat of a 1.4-acre parcel of land identified as Lot 5, Block A, Independence Pass Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) for single family land uses, addressed as 107 Independence Place.



I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2016-040) in the lower right hand corner of all pages on future submittals.

I.4 A mother-in-law cottage will not be allowed on a separate lot unless it conforms to the Single Family standards

I.5 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by October 4, 2016. The Planning & Zoning Worksession date for this case will be September 27, 2016. The Planning and Zoning Meeting is October 11, 2016.

I.6 The projected City Council meeting date and subsequent approval for this plat is October 17, 2016.

OWNER'S CERTIFICATE
(Public Dedication)

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS, CHAD J. HUDSON and LINDSAY B. HUDSON, BEING THE OWNER OF A TRACT OF land in the E. TEAL SURVEY, ABSTRACT NO. 207, County of Rockwall, State of Texas, said tract being described as follows:

All that certain lot, tract or parcel of land situated in the EDWARD TEAL SURVEY, ABSTRACT NO. 207, City of Rockwall, Rockwall County, Texas, and being all of Lot 5, Block A, Replat Independence Pass, Lots 5 & 6, Block A, an Addition to the City of Rockwall, Texas, according to the plat thereof recorded in Cabinet I, Slide 101, of the Plat Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner at the northeast corner of said Lot 5, Block A, said point being in the west right-of-way line of F.M. Highway 740 Ridge Road (Variable width R.O.W.) and also being at the southeast corner of Lot 6, Block A;

THENCE S. 06 deg. 09 min. 48 sec. W. along the west line of said F.M. Highway 740 Ridge Road, a distance of 207.47 feet to a 1/2" iron rod found for corner at the southeast corner of said Lot 5 and at the Northeast corner of Lot 17, of CHANDLERS LANDING, PHASE TEN, an Addition to the City of Rockwall, Texas, according to the Plat thereof recorded in Cabinet A, Slide 193 of the Plat Records of Rockwall County, Texas;

THENCE N. 85 deg. 06 min. 24 sec. W. along the south line of said Lot 4, Block A, a distance of 352.51 feet to a 1/2" iron rod found for corner at the southwest corner of said Lot 4 and the northwest corner of Lot 20, in said Phase Ten;

THENCE N. 01 deg. 36 min. 44 sec. E. a distance of 139.89 feet to a 1/2" iron rod found for corner at the northwest corner of said Lot 4 and the southwest corner of Lot 5, in Phase 19;

THENCE S. 85 deg. 04 min. 07 sec. E. a distance of 169.15 feet to a 1/2" iron rod found for corner in the curving South right-of-way line of Independence Place (41.5' radius);

THENCE in a northeasterly direction along a curve to the left having a central angle of 99 deg. 11 min. 02 sec., a radius of 41.50 feet, a tangent of 48.75 feet, a chord of N. 45 deg. 04 min. 36 sec. E., 63.20 feet, along said right-of-way line, an arc distance of 71.84 feet to a 1/2" iron rod found for corner;

THENCE in a northeasterly direction along a curve to the right having a central angle of 14 deg. 05 min. 18 sec., a radius of 88.50 feet, a tangent of 10.94 feet, a chord of N. 02 deg. 55 min. 00 sec. E., 21.71 feet along said right-of-way line, an arc distance of 21.76 feet to a "X" found chiseled in concrete for corner at the southwest corner of Lot 6;

THENCE in a eastery direction along the south boundary line of Lot 6 as follows:

S. 78 deg. 43 min. 36 sec. E. a distance of 12.98 feet;
S. 85 deg. 15 min. 17 sec. E. a distance of 52.58 feet;
S. 85 deg. 11 min. 34 sec. E. a distance of 86.38 feet;
N. 80 deg. 18 min. 23 sec. E. a distance of 4.26 feet the POINT OF BEGINNING and containing 60,953 square feet or 1.40 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

We the undersigned owner of the land shown on this plat, and designated herein as INDEPENDENCE PASS, LOTS 7 & 8, BLOCK A, an Addition to the City of Rockwall, Texas and whose name is subscribed hereto, hereby dedicated to the use of public forever all streets, alleys parks water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasional by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exaction's made herein.

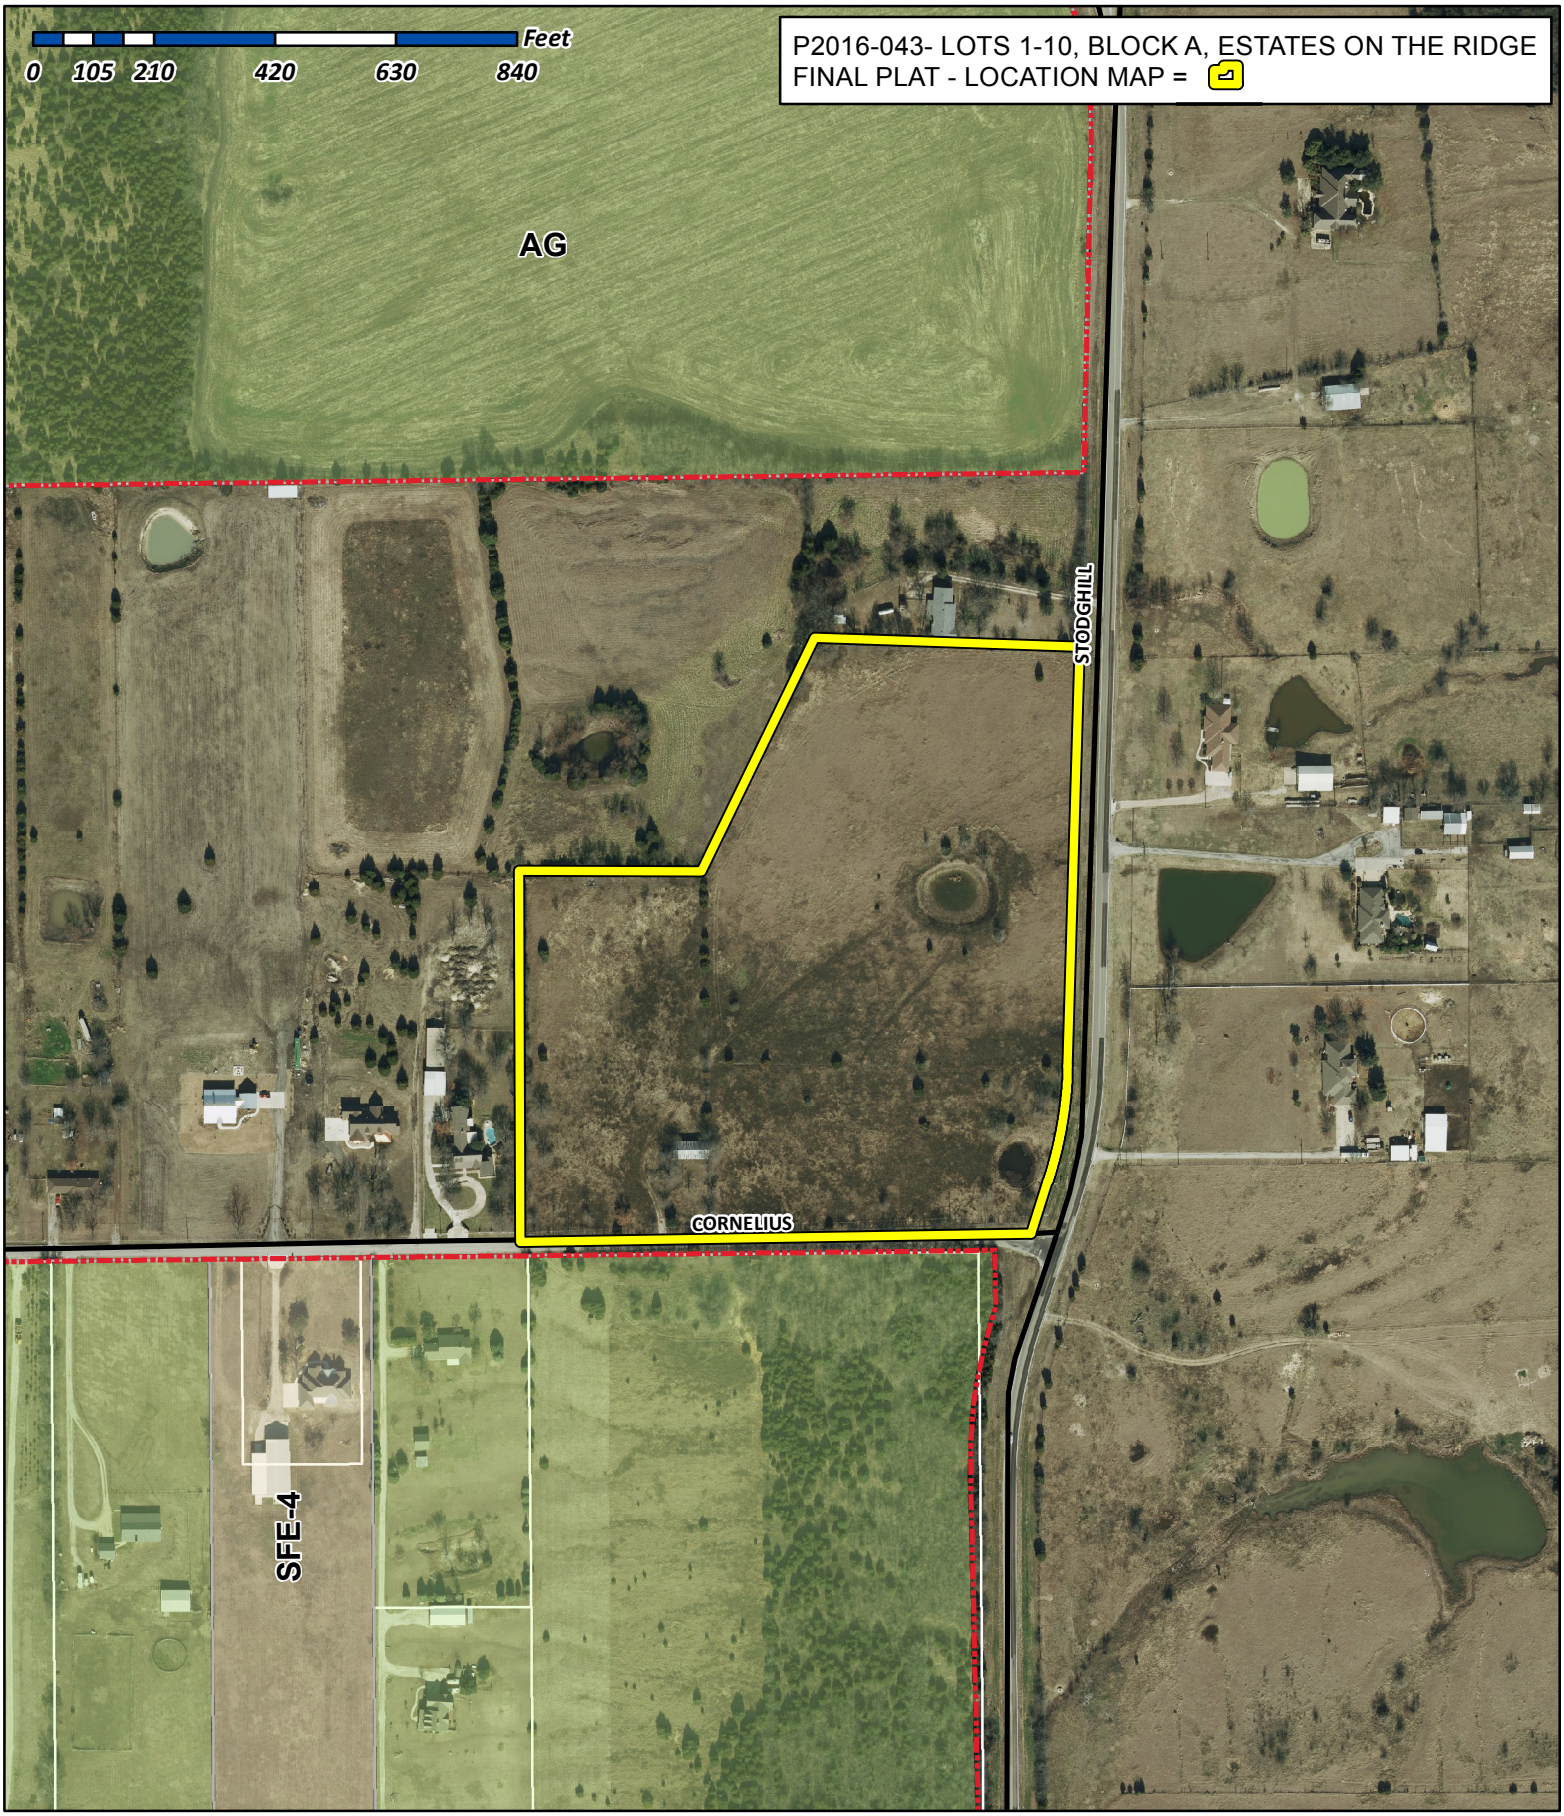
PLANNING COMMENTS - DAVID GONZALES - 09.22.2016

Discuss and consider a request by Jay Webb of Dalrock Homes, LLC for the approval of a final plat for Lots 1-10, Block A, Estates on the Ridge Subdivision, containing ten (10) single-family residential lots on an 18.84-acre tract of land identified as Tract 7-04 & 23 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, situated within the City of Rockwall's Extraterritorial Jurisdiction (ETJ), located at the northwest corner of the intersection of FM-3549 and Cornelius Road, and take any action necessary.

The following staff comments (including Rockwall County comments) are to be addressed and resubmitted no later than Tuesday, October 4, 2016. Please provide three large copies [18" X 24" FOLDED] and one PDF version for a subsequent review by staff:



1. Adherence to all Engineering and Fire Department standards shall be required.
2. Provide a label indicating "Case No. P2016-043" on the lower right corner on all pages of the revised plat.
3.Provide City staff with a .dwg file.
4. Rockwall County to approve plat.
5. County comments (Ron Merritt - e-mail): I have called the surveyer about lot 3-4-5 cant use the ponds as part of the 1 ½ acres. If they will be filled in then no problems. I will have to present this to the court for approval. If ponds are not filled, provide a net acrage for each lot.
6. Engineering comments regarding ponds: If ponds are proposed to be filled in, a Wetland and Waters of the US determination will need completed, submitted to the City and approved prior to any grading/building.
7. Use a lighter gray scale for the contour lines.
8. Remove tree layer from plat.
9. Provide adjacent property owner information for lots east of subdivision.
10. Provide Rockwall County Judge Signature Block.
11. Correct language in the standards signature block under "Approved" to indicate "...was approved by the City Council of the..."
12. Notary Certificate is not necessary when plat is stamped by Surveyor.

** As a note and once the plat has been approved by the Planning and Zoning Commission and City Council, all staff comments are to be addressed and all revisions resubmitted and approved (by staff) prior toplat submittal on mylar for filing purposes. **

Meeting Dates to Attend; Please be sure that a representative is present during both scheduled meetings as indicated below. The meetings will be held in the City's Council Chambers. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

OWNER'S DEDICATION

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS, Dalrock Homes, BEING THE OWNER OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

Owner: Dalrock Homes

Being a tract of land situated in the William Dalton Survey, Abstract No. 72 in the City of Rockwall, Rockwall County, Texas, being all of a tract of land conveyed to Dalrock Homes by deed recorded in Instrument No. _____, Official Public Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

Beginning at a Mag Nail set in asphalt at the intersection of the West line of N. F.M. 3549 (N. Stodghill Road–a variable width right–of–way) and the approximate centerline of Cornelius Road (a variable width right–of–way) being the Northeast corner of a tract of land conveyed to Ernskine Williams, Jr. by deed recorded in Volume 1122, Page 15, Deed Records, Rockwall County, Texas;

Thence South 88 degrees 46 minutes 57 seconds West, leaving said intersection and along the said approximate centerline of Cornelius Road, a distance of 886.95 feet to a Mag Nail set in asphalt at the Southeast corner of a tract of land conveyed to Jimmy Pannell and Crystal Pannell by deed recorded in Volume 5104, Page 289, Deed Records, Rockwall County, Texas;

Thence North 00 degrees 26 minutes 06 seconds West, along the East line of said Panell tract, a distance of 644.31 feet to a 1/2 inch iron rod with yellow cap stamped "CBG SURVEYING" set at the Northeast corner of said Pannell tract, being in the South line of a tract of land conveyed to Allen Brothers Investment Company by deed recorded in Volume 153, Page 629, Deed Records, Rockwall County, Texas;

Thence North 89 degrees 54 minutes 32 seconds East, along the said South line of Allen Brothers Investment Company tract, a distance of 316.33 feet to a 1/2 inch iron rod with yellow cap stamped "CBG SURVEYING" set at the Southeast corner of said Allen Brothers Investment Company tract;

Thence North 25 degrees 37 minutes 12 seconds East, along the East line of said Allen Brothers Investment Company tract, a distance of 451.18 feet to a 1/2 inch iron pipe found at the Southwest corner of a tract of land conveyed to W. Kyle Allen and wife, Dorothy E. Allen by deed recorded in Volume 124, Page 749, Deed Records, Rockwall County, Texas;

Thence South 88 degrees 15 minutes 57 seconds East, along the South line of said Allen tract, a distance of 460.48 feet to a 3/8 inch iron rod found for corner in the said West line of N. F.M. 3549;

Thence South 01 degrees 23 minutes 12 seconds West, along the said West line of N. F.M. 3549, a distance of 728.31 feet to a concrete monument found for corner, said point being the beginning of a curve to the right having a radius of 713.94 feet, a delta of 16 degrees 19 minutes 45 seconds, and a chord that bears South 09 degrees 30 minutes 39 seconds West, a distance of 202.78 feet;

Thence continuing along the said West line of N. F.M. 3549 and said curve to the right, an arc length of 203.47 feet to a 1/2 inch iron rod with yellow cap stamped "CBG SURVEYING" set for corner, from which a concrete monument found for witness bears North 80 degrees West, a distance of 0.5 feet;

Thence South 17 degrees 40 minutes 32 seconds West, continuing along the said West line of N. F.M. 3549, a distance of 95.24 feet to the Point of Beginning and containing 820,481 square feet or 18.84 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

We the undersigned owner(s) of the land shown on this plat, and designated herein as the **ESTATES ON THE RIDGE, LOTS 1–10, BLOCK A**, an addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the **ESTATES ON THE RIDGE, LOTS 1–10, BLOCK A** have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I (we) also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We, our successors and assigns hereby waive any claim, damage, or cause of action that We may have as a result of the dedication of exactions made herein.

The proposed location of the Fire Department Connection (FDC) shall be indicated on the plans. The FDC is required to be along the fire lane and within 100-feet as the hose lays, of a fire hydrant.

A minimum of a 5-foot wide sidewalk or other approved “all-weather” pathway shall be provided from the fire lane to the FDC. Parking/loading spaces are not considered a clear pathway.

(9/23/2016 10:37 AM KB)

SP2016-019 (Dunkin Academy): Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Kevin Patel, P. E. on behalf of William Shaddock of Master Developers-SNB, LLC for the approval of a site plan for a daycare facility on a 2.960-acre tract of land identified as Lot 1, Block S, Preserve, Phase 3 Addition and Tract 12 [1.4376-acres], A. Hanna Survey, Abstract No. 98, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 41 (PD-41) and Single Family 10 (SF-10) District, addressed as 1292 East Fork Drive

I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (SP2016-019) in the lower right hand corner of all pages on future submittals.

I.4 This property will be required to be plated prior to the issuance of a building permit.

M.5 Site Plan. Please show both lots on the vicinity map.

M.6 Site Plan. Please provide perimeter dimensions of all buildings. Indicate the perimeter dimensions in feet.

M.7 Site Plan. Please indicate the distance between all property lines and existing/planned buildings located on the site.

M.8 Site Plan. Please locate all playground equipment behind the building.

M.9 Site Plan. Please indicate depth of paving material.

M.10 Site Plan. Please show and label 10' landscape buffer along East Fork and along N. Lakeshore Drive.

M.11 Site Plan. Please indicate the street centerline for SH 205.

M.12 Site Plan. Please indicate whether utility equipment will be pad/ground mounted roof mounted. Pad mounted utility equipment shall be screened from horizontal view from any adjacent public street and from any adjacent property. All buildings must be designed so that no roof mounted mechanical equipment shal be visible from any direction.

M.13 Site Plan. Please remove legal description from top of site plan since this will change once it is platted. Also, since this is two lots the legal description provided is not accurate.

I.14 Site Plan. Please indicate "Public Access" instead of "Access" in the legend of the site plan.

M.15 Site Plan. Please note that the parking requirements for this site is 1 per 300 sq. ft. You are currently over-parked.

M.16 Site Plan. Please change "Summery" to "Summary" on the Site Data and Summary Table.

M.17 Landscape Plan. Please correct the parking requirements (item M.15)

M.18 Landscape Plan. Please show and label the 10' landscape buffer adjacent to East Fork and N. Lakeshore (item M.10)

I.19 Landscape Plan. Please identify all visibility triangles for all driveway and intersections and public streets.

M.20 Landscape Plan. Trees must be planted at least five feet from water, sewer, and storm sewer lines.

M.21 Landscape Plan. Please provide note indicating that irrigation will be the requirements of the UDC.

M.22 Treescape Plan. Please provide the Site Data and Summary Table on the Treescape Plan.

M.23 Treescape Plan. Please label the two protected trees being removed.

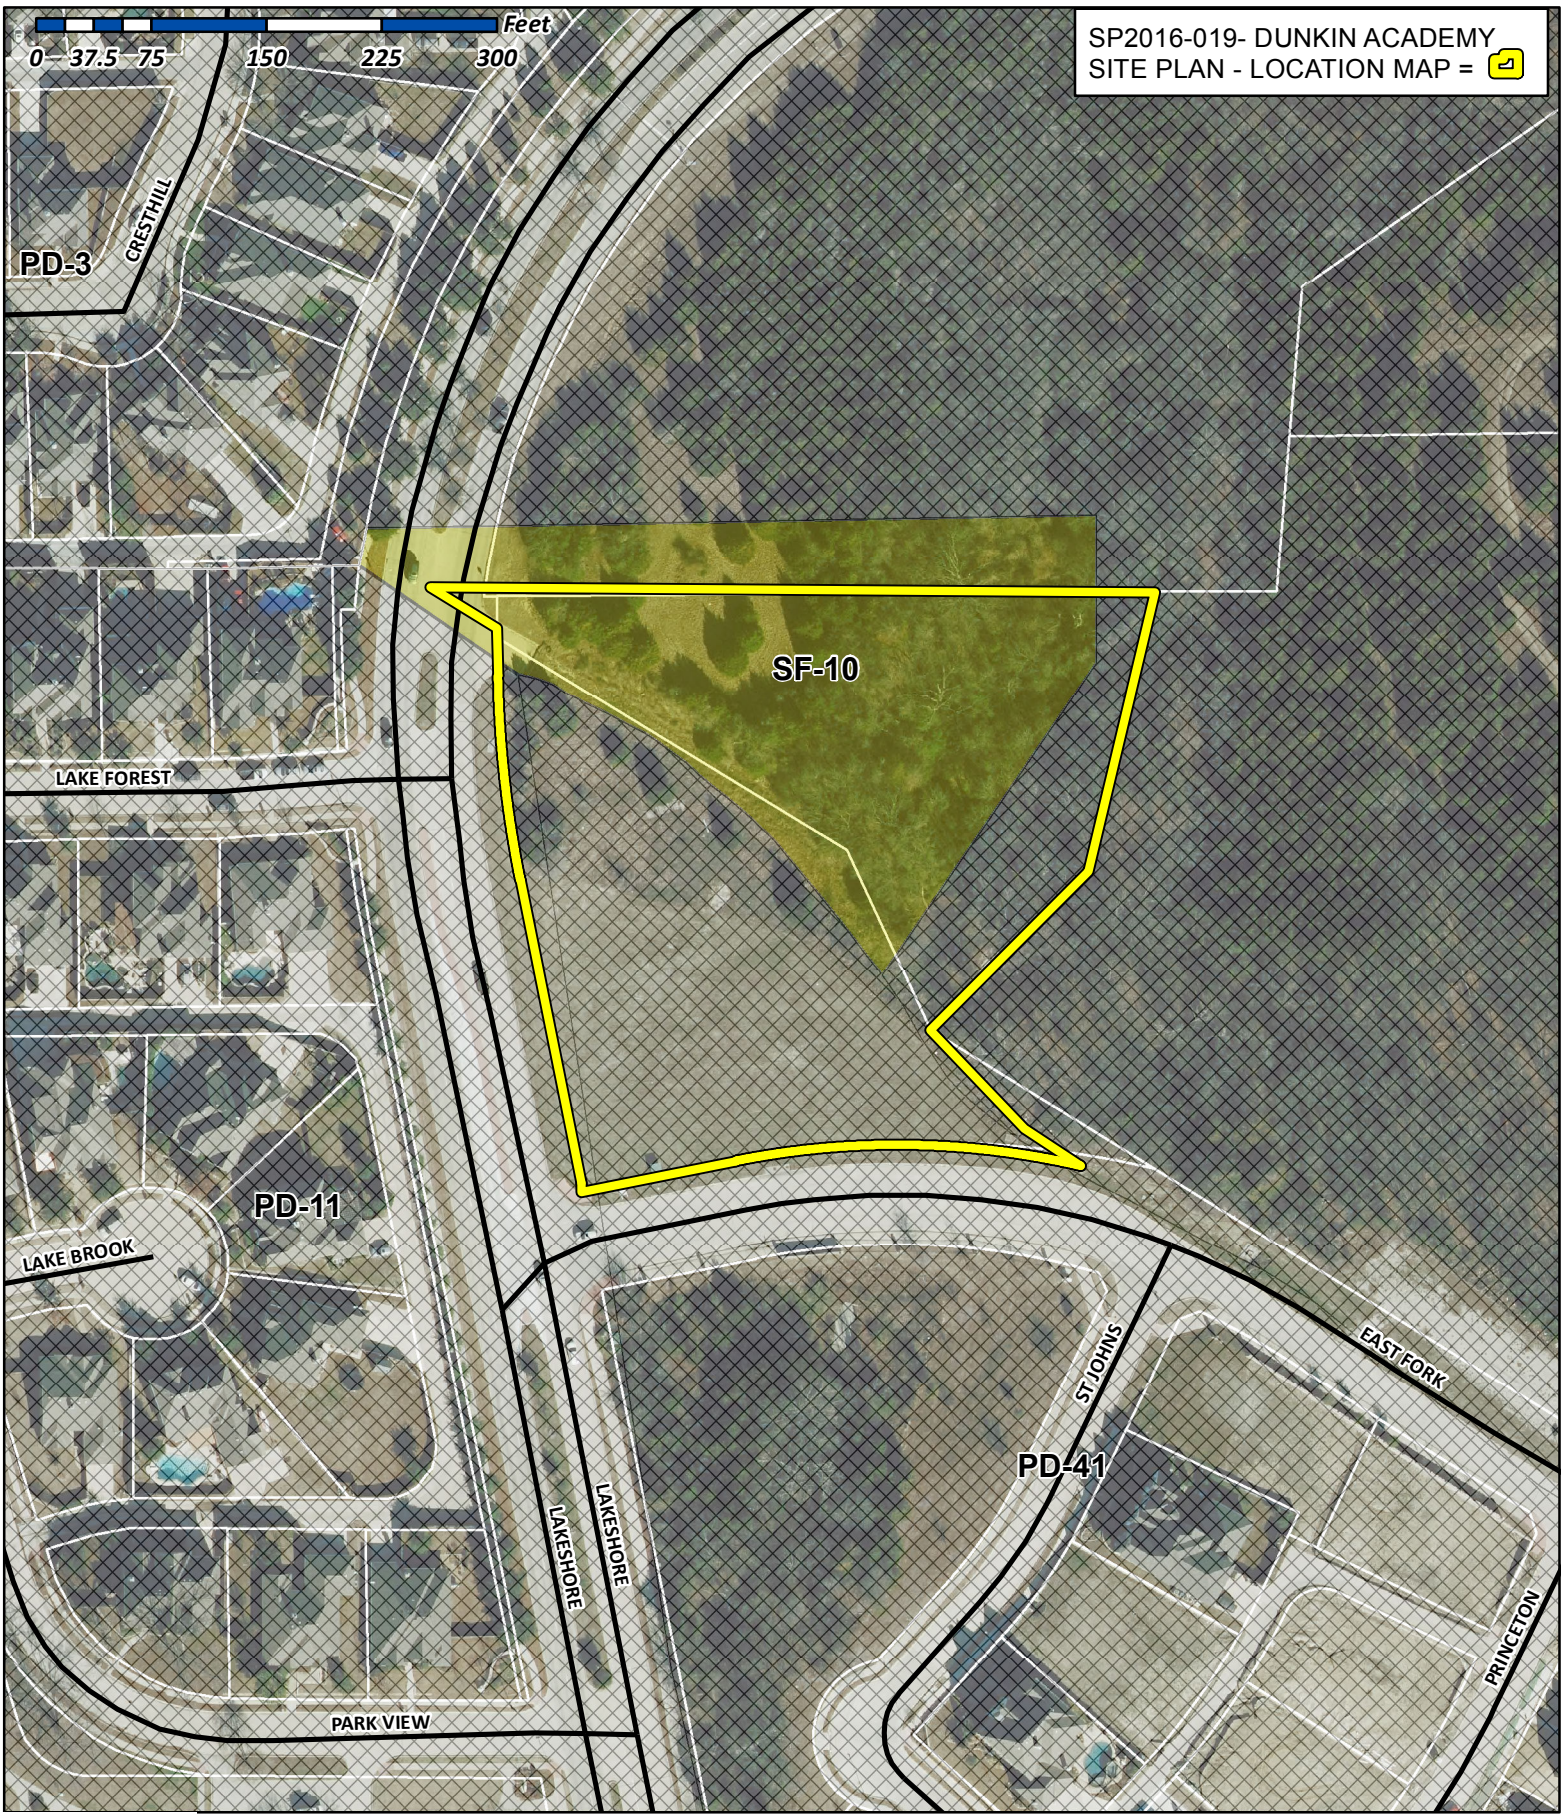
M.24 Photometric. Please show entire site so that we can verify FC at property line.

M.25 Photometric. Please provide Site Data and Summary Table.

M.26 Photometric. Please indicate the location and type of all exterior lighting including pole mounted, wall mounted, signage, etc.

M.27 Photometric. No light pole, base or combination shall exceed 30 feet, unless further restricted within an Overlay District. Please provide a detail of light pole to that we can ensure compliance.

M.28 Building Elevations. Please remove lot and block designation from the title block as it will change once the site is replatted (this site is two different lots)



M.29 Building Elevations. Please indicate elevations adjacent to public right-of-way.

M.30 Building Elevations. Please indicatethe surface area of each façade.

M.31 Building Elevations. Please indicate any additional design elements for the base, wall, or parapets. Be sure to include the location, size, color, and material of any proposed structure.

I.32 The Architectural Review Board (ARB) meeting for this case will be held on September 27, 2016 at 5 pm..

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
I.33 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on October 4; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the October 11, 2016 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on September 27, 2016 at 6 pm.							
I.34 If necessary the projected City Council meeting date for this case will be October 17, 2016.

VICINITY MAP
N.T.S

GENERAL NOTES

1. ALL CONSTRUCTION SHALL BE IN STRICT ACCORDANCE WITH THE STANDARDS OF THE CITY OF ROCKWALL.

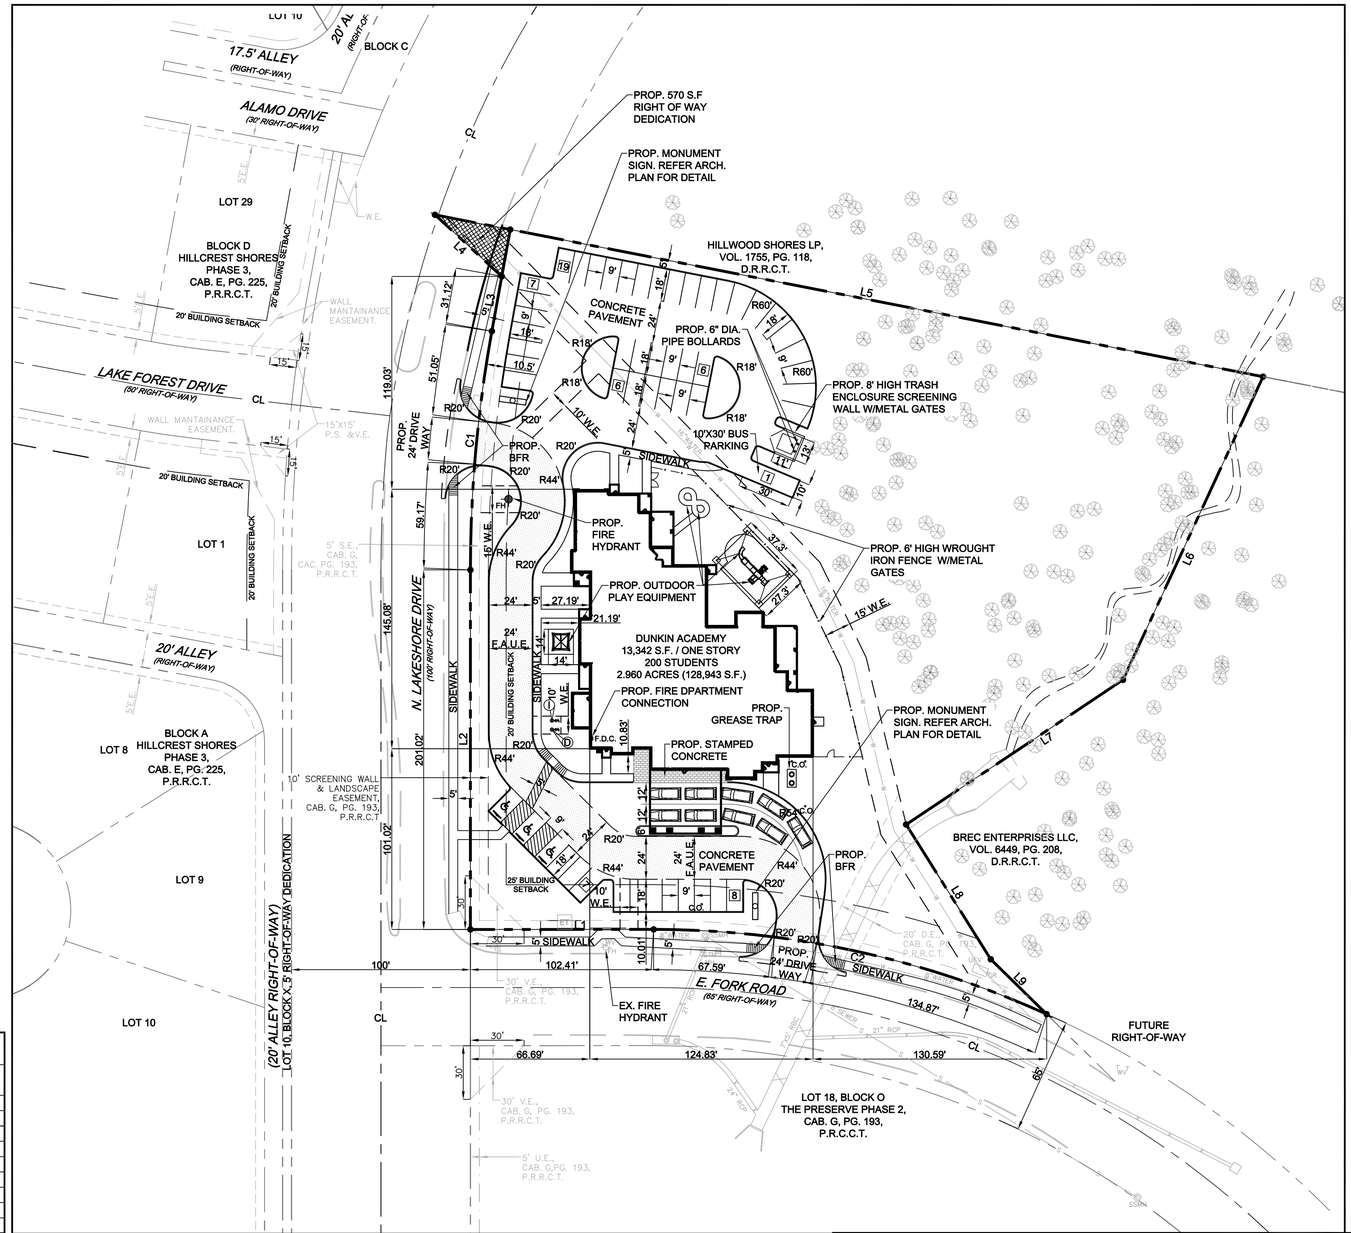
2. A PERMIT IS REQUIRED TO CUT A CITY STREET OR WORK WITHIN THE RIGHT-OF-WAY. THE PERMIT IS ISSUED BY THE PUBLIC WORKS DEPARTMENT.

3. THE LOCATION OF UNDERGROUND UTILITIES INDICATED ON THE PLANS IS TAKEN FROM PUBLIC RECORDS. IT IS THE CONTRACTOR'S RESPONSIBILITY TO MAKE ARRANGEMENTS WITH THE OWNERS OF SUCH UNDERGROUND UTILITIES PRIOR TO WORKING IN THE AREA TO CONFIRM THEIR EXACT LOCATION AND TO DETERMINE WHETHER ANY ADDITIONAL UTILITIES OTHER THAN THOSE SHOWN ON THE PLANS MAY BE PRESENT. THE CONTRACTOR SHALL PRESERVE AND PROTECT ALL UNDERGROUND UTILITIES. IF EXISTING UNDERGROUND UTILITIES ARE DAMAGED, THE CONTRACTOR WILL BE RESPONSIBLE FOR THE COST OF REPAIRING THE UTILITY.

4. WHERE EXISTING UTILITIES OR SERVICE LINES ARE CUT, BROKEN OR DAMAGED, THE CONTRACTOR SHALL REPLACE OR REPAIR THE UTILITIES OR SERVICE LINES WITH THE SAME TYPE OF ORIGINAL MATERIAL AND CONSTRUCTION, OR BETTER, UNLESS OTHERWISE SHOWN OR NOTED ON THE PLANS, AT HIS OWN COST AND EXPENSE. THE CONTRACTOR SHALL IMMEDIATELY NOTIFY THE ENGINEER AT ONCE OF ANY CONFLICTS IN GRADES AND ALIGNMENT.

5. ALL EXCAVATIONS, TRENCHING AND SHORING OPERATIONS SHALL COMPLY WITH THE REQUIREMENTS OF THE U. S. DEPARTMENT OF LABOR, OSHA, "CONST. SAFETY AND HEALTH REGULATIONS.", VOL. 29, SUBPART P. PG. 128 - 137, AND ANY AMENDMENTS THERETO.

6. ADEQUATE MEASURES SHALL BE TAKEN TO PREVENT EROSION. IN THE EVENT THAT SIGNIFICANT EROSION OCCURS AS A RESULT OF CONSTRUCTION THE CONTRACTOR SHALL RESTORE THE ERODED AREA TO ORIGINAL CONDITION OR BETTER.



7. THE CONTRACTOR SHALL RESTORE ALL AREAS DISTURBED BY CONSTRUCTION TO ORIGINAL CONDITION OR BETTER. RESTORED AREAS INCLUDE, BUT ARE NOT LIMITED TO TRENCH BACKFILL, SIDE SLOPES, FENCES, CULVERT PIPES, DRAINAGE DITCHES, DRIVEWAYS, PRIVATE YARDS AND ROADWAYS.

8. ANY CHANGES NEEDED AFTER CONSTRUCTION PLANS HAVE BEEN RELEASED, SHALL BE APPROVED BY THE CITY ENGINEER. THESE CHANGES MUST BE RECEIVED IN WRITING FROM THE FROM THE DESIGN ENGINEER. THE DIRECTOR OF PUBLIC WORKS SHALL APPROVE ANY DEVIATIONS FROM STATE REGULATIONS.

9. THE CONTRACTOR SHALL PROVIDE "RED LINED" MARKED PRINTS TO THE ENGINEER PRIOR TO FINAL INSPECTION INDICATING ALL CONSTRUCTION WHICH DEVIATED FROM THE PLANS OR WAS CONSTRUCTED IN ADDITION TO THAT INDICATED ON THE PLANS.

GENERAL LAWN NOTES

1. FINE GRADE AREAS TO ACHIEVE FINAL CONTOURS INDICATED ON CIVIL PLANS.
2. ADJUST CONTOURS TO ACHIEVE POSITIVE DRAINAGE AWAY FROM BUILDINGS. PROVIDE UNIFORM ROUNDING AT TOP AND BOTTOM OF SLOPES AND OTHER BREAKS IN GRADE. CORRECT IRREGULARITIES AND AREAS WHERE WATER MAY STAND.
3. ALL LAWN AREAS TO RECEIVE SOLID SOD SHALL BE LEFT IN A MAXIMUM OF 1" BELOW FINAL FINISH GRADE. CONTRACTOR TO COORDINATE OPERATIONS WITH ON-SITE CONSTRUCTION MANAGER.
4. IMPORTED TOPSOIL SHALL BE NATURAL, FRIABLE SOIL FROM THE REGION, KNOWN AS BOTTOM AND SOIL, FREE FROM LUMPS, CLAY, TOXIC SUBSTANCES, ROOTS, DEBRIS, VEGETATION, STONES, CONTAINING NO SALT AND BLACK TO BROWN IN COLOR..
5. *ALL LAWN AREAS TO BE FINE GRADED. IRRIGATION TRENCHES COMPLETELY SETTLED, AND FINISH GRADE APPROVED BY THE OWNER'S CONSTRUCTION MANAGER OR ARCHITECT PRIOR TO INSTALLATION.*
6. *ALL ROCKS 3/4" DIAMETER AND LARGER, DIRT CLODS, STICKS, CONCRETE SPOILS, ETC. SHALL BE REMOVED PRIOR TO PLACING TOPSOIL AND ANY LAWN INSTALLATION*
7. CONTRACTOR SHALL PROVIDE (1") ONE INCH OF IMPORTED TOPSOIL ON ALL AREAS TO RECEIVE LAWN.

SOLID SOD NOTES

1 FINE GRADE AREAS TO ACHIEVE FINAL CONTOURS INDICATED. LEAVE AREAS TO RECEIVE TOPSOIL 3" BELOW FINAL DESIRED GRADE IN PLANTING AREAS AND 1" BELOW FINAL GRADE IN TURF AREAS.

2. ADJUST CONTOURS TO ACHIEVE POSITIVE DRAINAGE AWAY FROM BUILDINGS. PROVIDE UNIFORM ROUNDING AT TOP AND BOTTOM OF SLOPES AND OTHER BREAKS IN GRADE. CORRECT IRREGULARITIES AND AREAS WHERE WATER MAY STAND.
3. ALL LAWN AREAS TO RECEIVE SOLID SOD SHALL BE LEFT IN A MAXIMUM OF 1" BELOW FINAL FINISH GRADE. CONTRACTOR TO COORDINATE OPERATIONS WITH ON-SITE CONSTRUCTION MANAGER.
4. CONTRACTOR TO COORDINATE WITH ON-SITE CONSTRUCTION MANAGER FOR AVAILABILITY OF EXISTING TOPSOIL.
5. PLANT SOD BY HAND TO COVER INDICATED AREA COMPLETELY. INSURE EDGES OF SOD ARE TOUCHING. TOP DRESS JOINTS BY HAND WITH TOPSOIL TO FILL VOIDS.
6. ROLL GRASS AREAS TO ACHIEVE A SMOOTH, EVEN SURFACE, FREE FROM UNNATURAL UNDULATIONS.
7. WATER SOD THOROUGHLY AS SOD OPERATION PROGRESSES.
8. CONTRACTOR SHALL MAINTAIN ALL LAWN AREAS UNTIL FINAL ACCEPTANCE. THIS SHALL INCLUDE, BUT NOT LIMITED TO: MOWING, WATERING, WEEDING, CULTIVATING, CLEANING AND REPLACING DEAD OR BARE AREAS TO KEEP PLANTS IN A VIGOROUS, HEALTHY CONDITION.
9. CONTRACTOR SHALL GUARANTEE ESTABLISHMENT OF AN ACCEPTABLE TURF AREA AND SHALL PROVIDE REPLACEMENT FROM LOCAL SUPPLY IF NECESSARY.
10. IF INSTALLATION OCCURS BETWEEN SEPTEMBER 1 AND MARCH 1, ALL SOD AREAS TO BE OVER-SEEDED WITH WINTER RYEGRASS, AT A RATE OF (4) POUNDS PER ONE THOUSAND (1000) SQUARE FEET.

LANDSCAPE NOTES

1. CONTRACTOR SHALL VERIFY ALL EXISTING AND PROPOSED SITE ELEMENTS AND NOTIFY ARCHITECT OF ANY DISCREPANCIES. SURVEY DATA OF EXISTING CONDITIONS WAS SUPPLIED BY OTHERS.
2. CONTRACTOR SHALL LOCATE ALL EXISTING UNDERGROUND UTILITIES AND NOTIFY ARCHITECT OF ANY CONFLICTS. CONTRACTOR SHALL EXERCISE CAUTION WHEN WORKING IN THE VICINITY OF UNDERGROUND UTILITIES.
3. CONTRACTOR IS RESPONSIBLE FOR OBTAINING ALL REQUIRED LANDSCAPE AND IRRIGATION PERMITS.
4. CONTRACTOR TO PROVIDE A MINIMUM 2% SLOPE AWAY FROM ALL STRUCTURES.
5. ALL PLANTING BEDS AND LAWN AREAS TO BE SEPARATED BY STEEL EDGING. NO STEEL TO BE INSTALLED ADJACENT TO SIDEWALKS OR CURBS.
6. ALL LANDSCAPE AREAS TO BE 100% IRRIGATED WITH AN UNDERGROUND AUTOMATIC IRRIGATION SYSTEM AND SHALL INCLUDE RAIN AND FREEZE SENSORS.
7. ALL LAWN AREAS TO BE SOLID SOD BERMUDAGRASS, UNLESS OTHERWISE NOTED ON THE DRAWINGS.

EXISTING TREE NOTES

1. *Existing trees to remain shall be protected during construction from tree structure damage and compaction of soil under and around dripline (canopy) of tree.*
2. *If any root structure is damaged during adjacent excavation/construction, notify the Architect immediately. It is recommended that a licensed Arborist be secured for the treatment of any possible tree wounds.*
3. *No disturbance of the soil greater than 4" shall be located closer to the tree trunk than 1/2 the distance of the drip line to the tree trunk. A minimum of 75% of the drip line and root zone shall be preserved at natural grade.*
4. *Any fine grading done within the critical root zones of the protected trees must be done with light machinery such as a bobcat or light tractor. No earth moving equipment with tracks is allowed within the critical root zone of the trees.*
5. *Material Storage: No materials intended for use in construction or waste materials accumulated due to excavation or demolition shall be placed within the limits of the dripline of any tree.*
6. *Equipment Cleaning/Liquid Disposal: No equipment may be cleaned, toxic solutions, or other liquid chemicals shall be deposited within the limits of the dripline of a tree. This would include but not be limited to paint, oil, solvents, asphalt, concrete, mortar, primers, etc.*
7. *Tree Attachments: No signs, wires or other attachments, other than those of a protective nature shall be attached to any tree.*
8. *Vehicular Traffic: No vehicular and construction equipment traffic or parking is allowed within the limits of the dripline of trees.*
9. *Boring of Utilities: May be permitted under protected trees in certain circumstances. The minimum length of the bore shall be the width of the tree's canopy and shall be a minimum depth of forty-eight (48") inches.*
10. *Trenching: Any irrigation trenching which must be done within the critical root zone of a tree shall be dug by hand and enter the area in a radial manner.*
11. *Tree Flagging: All trees to be removed from the site shall be flagged by the Contractor with bright red vinyl tape (3" width) wrapped around the main trunk at a height of four (4') feet above grade. Flagging shall be approved by Landscape Architect prior to any tree removal. Contractor shall contact Landscape Architect with 72 hour notice to schedule on-site meeting.*
12. *Protective Fencing: All trees to remain, as noted on drawings, shall have protective fencing located at the tree's dripline. The protective fencing may be comprised of snow fencing, orange vinyl construction fencing, chain link fence or other similar fencing with a four (4) foot approximate height. The protective fencing will be located as indicated on the Tree Protection Detail(s).*
13. *Bark Protection: In situations where a tree remains in the immediate area of intended construction, the tree shall be protected by enclosing the entire circumference of the tree's trunk with lumber encircled with wire or other means that does not damage the tree. Refer to Tree Protection Detail(s).*
14. *Construction Pruning: In a case where a low hanging limb is broken during the course of construction, the Contractor shall notify the Landscape Architect immediately. In no instance shall the Contractor prune any portion of the damaged tree without the prior approval by the Landscape Architect.*

Based on the information provided, all dimensions and luminaire locations shown represent recommended positions. The engineer and/or architect must determine applicability of the layout to existing or future field conditions.

This lighting pattern represents illumination levels calculated from laboratory data taken under controlled conditions utilizing current industry standard lamp ratings in accordance with Illuminating Engineering Society approved methods. Actual performance of any manufacturer's luminaire may vary due to variation in electrical voltage, tolerance in lamps and other variable field conditions.

WLS LIGHTING SYSTEMS

CLX LED AREA SERIES

DIMENSIONS

SPECIFICATIONS

HOUSING - One-piece, die-formed aluminum housing contains factory prewired driver. Wiring access door (with safety lanyard) located underneath.

OPTICAL UNIT - Clear tempered flat glass lens permanently sealed to weather-tight aluminum optic frame creates an IP65 rated optical unit (includes pressure-stabilizing breather). Optic frame recessed into housing cavity and sealed to the housing with one piece EPDM gasket.

EXPECTED LIFE - Minimum 60.000 hours to 100.000 hours depending upon the ambient temperature of the installation location.

LEDS - Select high-brightness LEDs in Cool White (5000K nominal), or Neutral White (4000K nominal) color temperature, 70 CRI (nominal).

DISTRIBUTION / PERFORMANCE - Types III, FT, 5 and enhanced 5E and FTE. Exceptional uniformity creates bright environment at lower levels. Internal Louver (IL) option available for improved backlight control without sacrificing street side performance for FT distribution.

ELECTRICAL - Two-stage surge protection (including separate surge protection built into electronic driver) meets Location Category C Low. Available with universal voltage power supply 120-277 VAC (50/60Hz input), and 347-480 VAC. Optional button-type photocells (PCI) are available in 120, 208, 240, 277 or 347 volt (supply voltage must be specified).

DRIVER - Available in SS (Super Saver) and HO (High Output) drive currents. Components are fully encased in potting material for moisture resistance. Driver complies with FCC standards. Driver and key electronic components can easily be accessed.

MOUNTING - Use with 5" traditional drilling pattern. An extruded radius 8" arm is shipped standard and compatible with all fixture mounting configurations. The fixture may also be mounted to 3"-5" round poles using the round pole plate adaptor accessory (RPP), which must be ordered separately.

OPERATING TEMPERATURE - -40°C to +50°C (-40°F to +122°F)

FINISH - Fixtures are finished with WLS DuraGrip® polyester powder coat finishing process. The DuraGrip finish withstands extreme weather changes without cracking or peeling, and is guaranteed for five full years.

WARRANTY - WLS LED fixtures carry a limited 5-year warranty.

LISTING - ETL listed to U.S. and Canadian safety standards. Suitable for wet locations.

WLS LIGHTING SYSTEMS

SNTS11 SQUARE NON-TAPERED STEEL SERIES

SPECIFICATIONS

POLE SHAFT - Pole shaft is elctro-welded ASTM-A500 Grade C steel tubing with a minimum yield strength of 50,000 psi. On Tenon Mount steel poles, tenon is 2-3/8" O.D. high-strength pipe. Tenon is 4-3/4" in length. Straight poles are 4", 5" and 6" square.

HAND HOLE - Standard hand-hole location is 12" above pole base. Poles 22' and above have a 3" x 6" reinforced hand-hole. Shorter poles have a 2" x 4" non-reinforced hand-hole.

BASE - Pole base is ASTM-A36 hot-rolled steel plate with a minimum yield strength of 36,000 psi. Two-piece square base cover is optional.

ANCHOR BOLTS - Poles are furnished with anchor bolts featuring zinc-plated double nuts and washers. Galvanized anchor bolts are optional. Anchor bolts conform to ASTM-A36 with a minimum yield strength of 36,000 psi.

GROUND LUG - Ground lug is standard.

DUPLEX RECEPTACLE - Weatherproof duplex receptacle is optional.

GROUND FAULT CIRCUIT INTERRUPTER - Ground fault circuit interrupter.

FINISH - Each pole is finished with WLS DuraGrip® polyester powder coat finishing process to give the pole an exceptionally attractive appearance. The process electrostatically applies and thermally fuses a polyester powder to the pole. This unique protection process provides an extremely smooth and uniform finish which withstands extreme weather changes without cracking or peeling. DuraGrip® finish features a five-year limited warranty. Standard finish colors available for poles are bronze, black, platinum plus, buff, white, satin verde green, metallic silver, and graphite. Optional DuraGrip® Plus features added protection with a 3.0 to 5.0 mil thickness of polyester-powder coat finish plus an inner coating. This specially designed inner coating is a thermal plastic hydrocarbon resin applied to the inside of the pole to seal and protect against atmospheric and corrosive matter. DuraGrip® Plus finish features a seven-year limited warranty.

DETERMINING THE LUMINAIRE/POLE COMBINATION FOR YOUR APPLICATION

- Select luminaire from Luminaire Ordering Information.
- Select bracket configuration.
- Refer to luminaire EPA chart to determine EPA value.
- Select height of pole.
- Select MPH to match the wind speed in the application area. (Windspeed Map located in Appendix)
- Confirm the pole EPA that is equal to or exceeds the luminaire/bracket EPA as was previously determined.

EPA INFORMATION:

All WLS Lighting Systems' poles are guaranteed to meet the EPA requirements listed. WLS Lighting Systems is not responsible if a pole order has a lower EPA rating than the indicated wind-loading zone where the pole is located.

CAUTION:

This guarantee does not apply if the pole/bracket/fixture combination is used to support any other items such as flags, pennants, or signs, which would add stress to the pole. WLS Lighting Systems cannot accept responsibility for harm or damage caused in these situations.

The proposed location of the Fire Department Connection (FDC) shall be indicated on the plans. The FDC is required to be along the fire lane and within 100-feet as the hose lays, of a fire hydrant.

A minimum of a 5-foot wide sidewalk or other approved "all-weather" pathway shall be provided from the fire lane to the FDC. Parking/loading spaces are not considered a clear pathway.

(9/23/2016 11:20 AM KB)

SP2016-020 (Presbyterian Hospital of Rockwall Addition): Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Cindy Paris of Rockwall Regional Hospital, LLC for the approval of a site plan for a medical office building on a 5.75-acre portion of a larger 17.8321-acre parcel of land being identified as Lot 15, Block A, Presbyterian Hospital of Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, located east of the intersection of Summer Lee Drive and Rockwall Parkway

I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (SP2016-020) in the lower right hand corner of all pages on future submittals.

I.4 This property will be required to be plated prior to the issuance of a building permit.

M.5 Site Plan. Please provide a vicinity map.

M.6 Site Plan. Please provide perimeter dimensions of all buildings. Indicate the perimeter dimensions in feet.

M.7 Site Plan. Please provide perimeter dimensions of the site.

M.8 Site Plan. Please indicate property line and show entire property.

M.9 Landscape Plan. Please show the impervious area v.s. pervious area.

Landscape Plan. Please identify visibility triangles.

Landscape Plan. Trees must be planted at least five feet from water, sewer, and storm sewer lines.

M.10 Photometric. Please show entire site so that we can verify FC at property line.

M.11 Photometric. Please provide Site Data and Summary Table.

M.12 Photometric. Please indicate the location and type of all exterior lighting including pole mounted, wall mounted, signage, etc.

M.13 Photometric. No light pole, base or combination shall exceed 30 feet, unless further restricted within an Overlay District. Please provide a detail of light pole to that we can ensure compliance.

M.14 Photometric. Please show the entire site including the parking lot to the South. Also please provide FC for that parking lot.

Photometric. Please provide drawings and/or cut sheets of proposed light fixtures.

M.15 Building Elevations. Currently, the elevations do not meet the 20% stone requirement, therefore a variance will be required. (I believe that you applied for a variance for the other MOB)

M.16 Building Elevations. Please indicate any proposed roof mounted mechanical equipment and indicate how these will be screened.

I.17 The Architectural Review Board (ARB) meeting for this case will be held on September 27, 2016 at 5 pm.

I.18 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on October 4; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the October 11, 2016 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on September 27, 2016 at 6 pm.

I.19 If necessary the projected City Council meeting date for this case will be October 17, 2016.

B TREE PRESERVATION NOTES

CONTRACTOR SHALL ADHERE TO THE FOLLOWING TREE PROTECTION MEASURES:

1. THE CONTRACTOR SHALL ERECT A PLASTIC MESH FENCE A MINIMUM OF FOUR (4') FEET IN HEIGHT AROUND EACH TREE OR GROUP OF TREES TO PREVENT THE PLACEMENT OF DEBRIS OR FILL WITHIN THE DRIP LINE.
2. DURING THE CONSTRUCTION PHASE OF DEVELOPMENT, THE CONTRACTOR SHALL PROHIBIT CLEANING, PARKING OR STORAGE OF EQUIPMENT OR MATERIALS UNDER THE CANOPY OF ANY TREE OR GROUP OF TREES BEING PRESERVED. THE CONTRACTOR SHALL NOT ALLOW THE DISPOSAL OF ANY WASTE MATERIAL SUCH AS, BUT NOT LIMITED TO, PAINT, OIL, SOLVENTS, ASPHALT, CONCRETE, MORTAR, ETC. IN THE CANOPY AREA.
3. NO ATTACHMENTS OR WIRES OF ANY KIND, OTHER THAT THOSE OF A PROTECTIVE NATURE, SHALL BE ATTACHED TO ANY TREE.
4. NO FILL OR EXCAVATION MAY OCCUR WITHIN THE DRIP LINE OF A TREE TO BE PRESERVED.

E EXISTING TREE NOTES

1. NO EXISTING TREES ARE REMOVED

C PREPARATION GENERAL NOTES

1. PLAN PREPARED BY:

   MICHAEL S. KENDALL
   KENDALL + LANDSCAPE ARCHITECTURE

SP2016-021 (Woodbridge Montessori Academy of Rockwall): Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Vinod Sharma of Little Genius of Texas, LLC for the approval of a site plan for a private pre-school facility on a 2.28-acre tract of land identifiec as Tract 2-3 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for General Retail (GR) District land uses, located at the southeast corner of the intersection of FM-552 and Stone Creek Drive, a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Cindy Paris of Rockwall Regional Hospital, LLC for the approval of a site plan for a medical office building on a 5.75-acre portion of a larger 17.8321-acre parcel of land being identified as Lot 15, Block A, Presbyterian Hospital of Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, located east of the intersection of Summer Lee Drive and Rockwall Parkway

I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (SP2016-021) in the lower right hand corner of all pages on future submittals.

I.4 This property will be required to be plated prior to the issuance of a building permit.

M.5 Site Plan. Please provide perimeter dimensions of all buildings. Indicate the perimeter dimensions in feet.

M.6 Site Plan. Please provide perimeter dimensions of the site.

M.7 Site Plan. Please indicate the distance between all property lines and the planned buildings.

Site Plan. Please show the 15' building setback along Stone Creek Drive and FM. 552.

Site Plan. Your legend shows a symbol for sidewalks, however, it is not used on the site plan.

Site Plan. Your call out for the proposed dumpster does not point to the dumpster.

M.8 Landscape Plan. Please show and label 10' landscape buffer adjacent to Stone Creek Drive and FM 552.

Landscape Plan. Please note that 1 tree per 50' is required on Stone Creek Drive and FM. 552.

Landscape Plan. If no protected trees are being removed, please provide a note stating that.

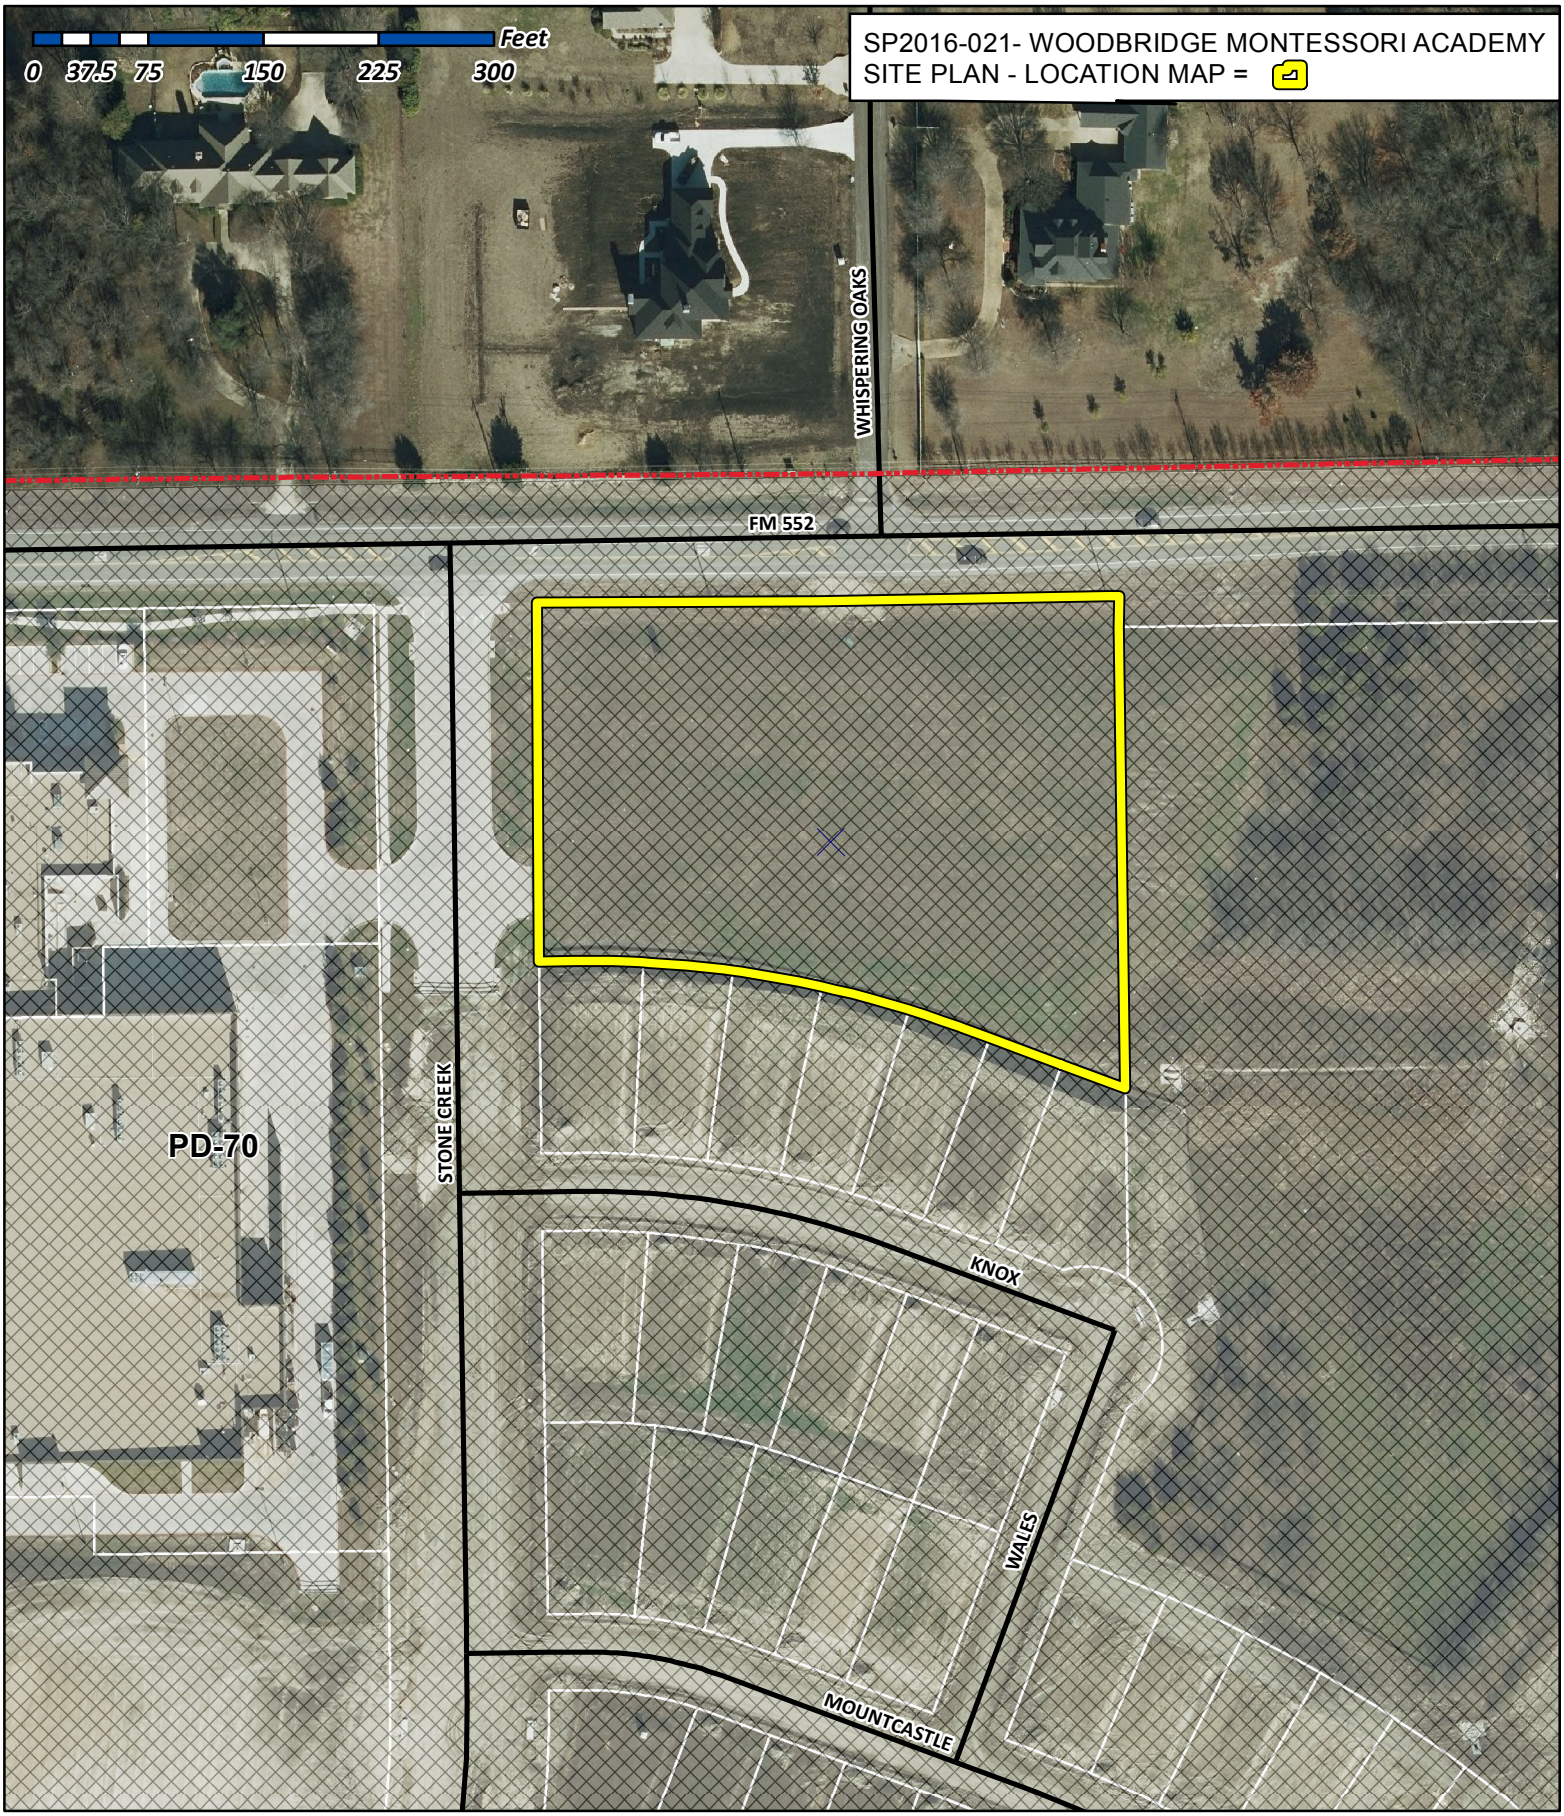
M.9 Photometric. Please show FC of entire site. (it usually looks like a grid of FC numbers across the entire site)

M.10 Photometric. Please indicate the location and type of all exterior lighting including pole mounted, wall mounted, signage, etc.

M.11 Photometric. No light pole, base or combination shall exceed 30 feet, unless further restricted within an Overlay District. Please provide a detail of light pole to that we can ensure compliance.

M.12 Photometric. Please show the entire site including the parking lot to the South. Also please provide FC for that parking lot.

Photometric. Please provide drawings and/or cut sheets of proposed light fixtures.

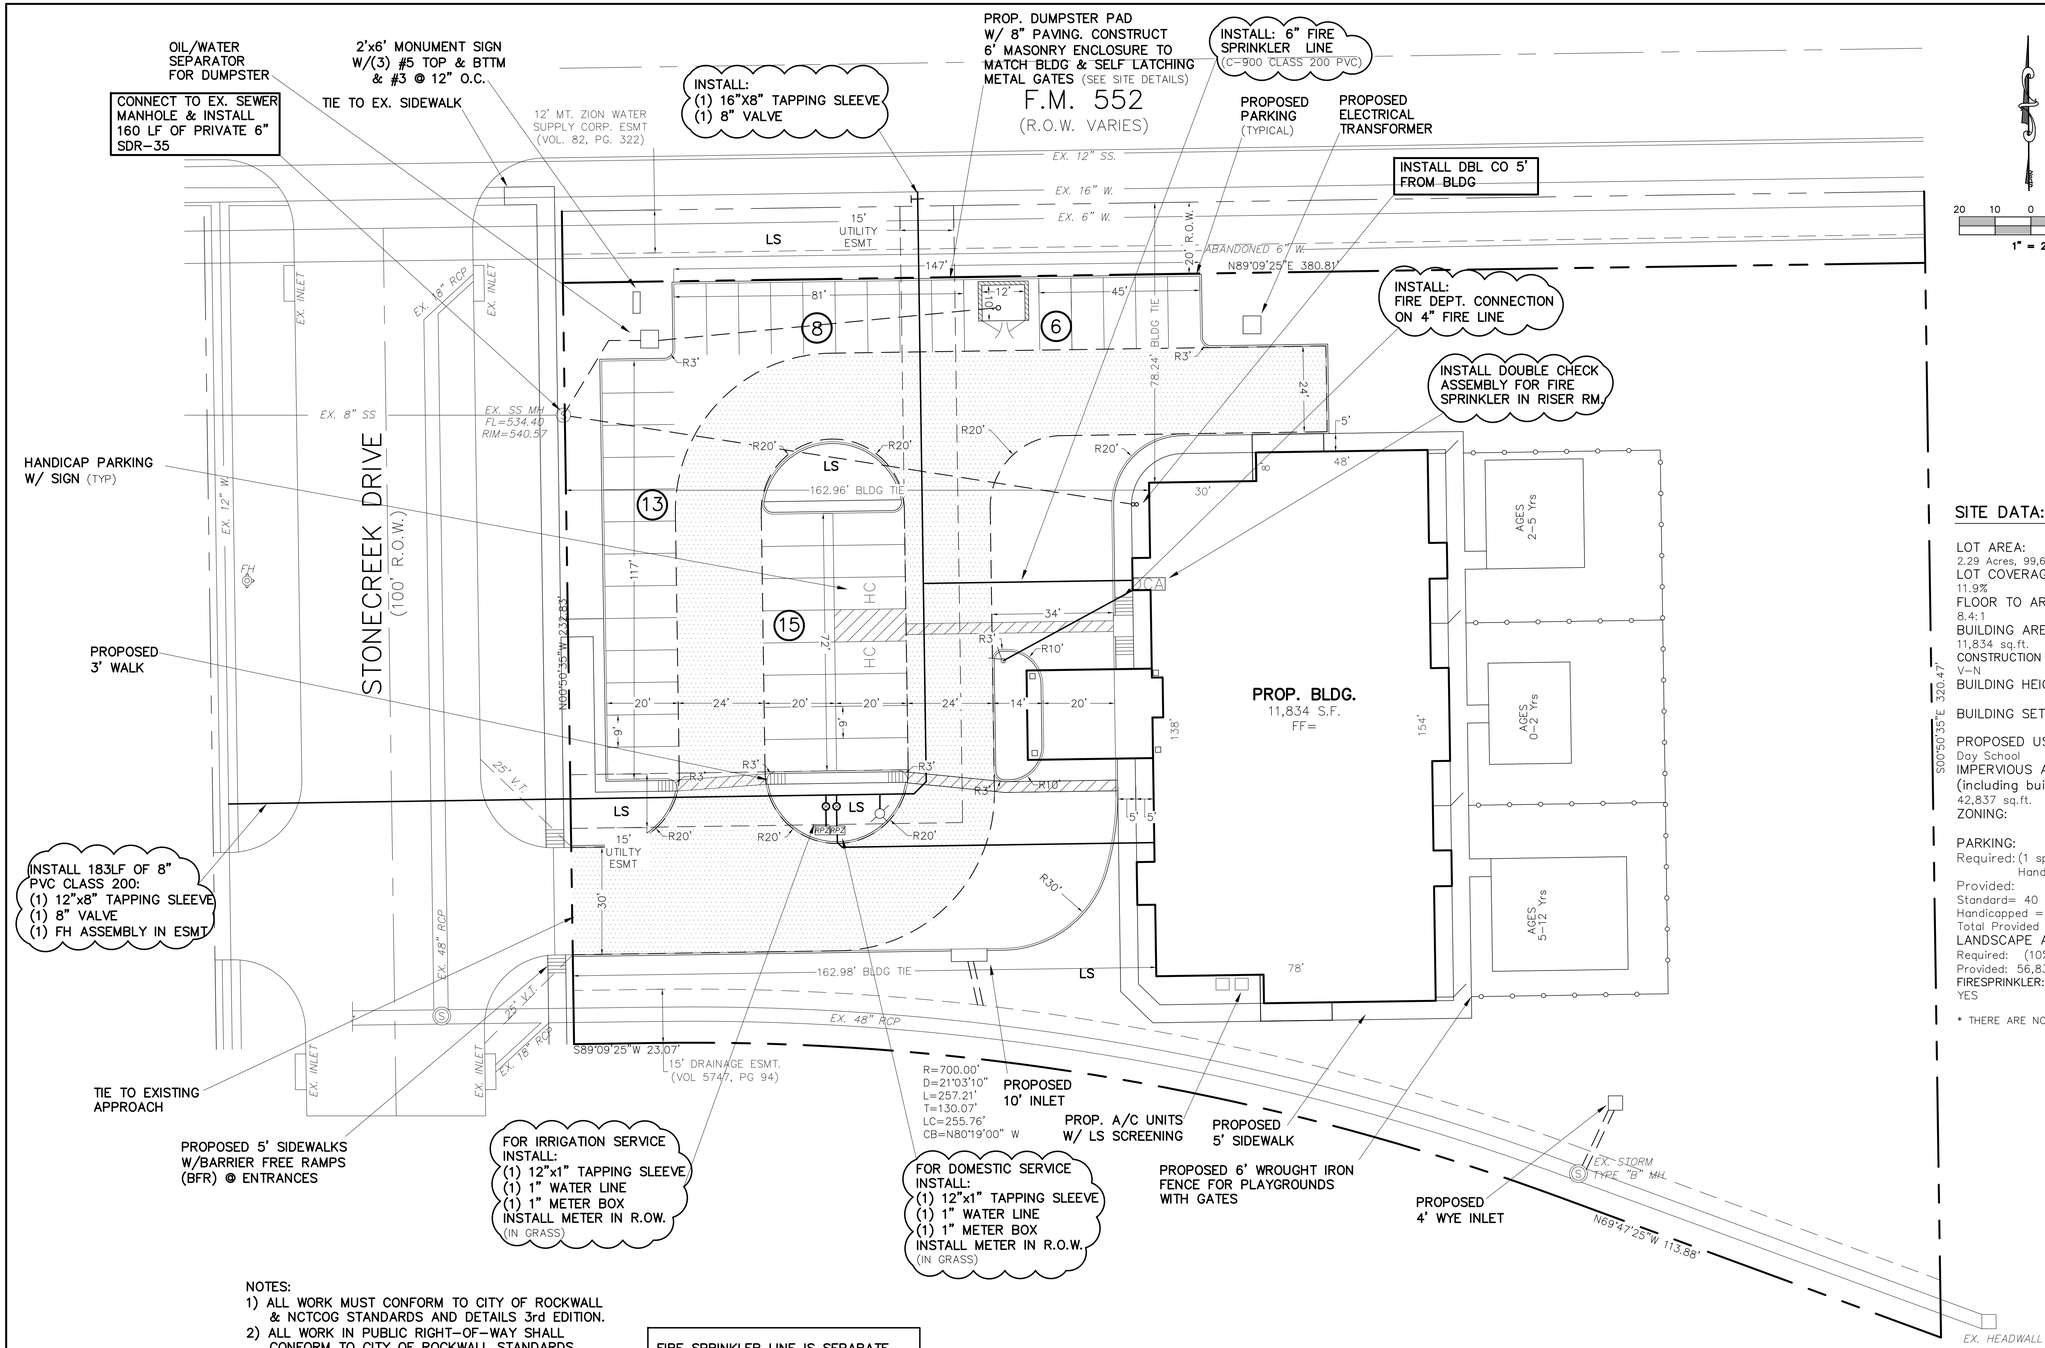


M.13 Building Elevations. Currently, the elevations do not meet the 20% stone requirement for each facade, therefore a variance your elevation directions are incorrect. Please see markups.

Building Elevations. Please change "Spring Creek" to "Stone Creek" and FM 255 to FM 552"

I.14 The Architectural Review Board (ARB) meeting for this case will be held on September 27, 2016 at 5 pm.

I.15 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on October 4; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the October 11, 2016 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on September 27, 2016 at6 pm.



I.16 If necessary the projected City Council meeting date for this case will be October 17, 2016.

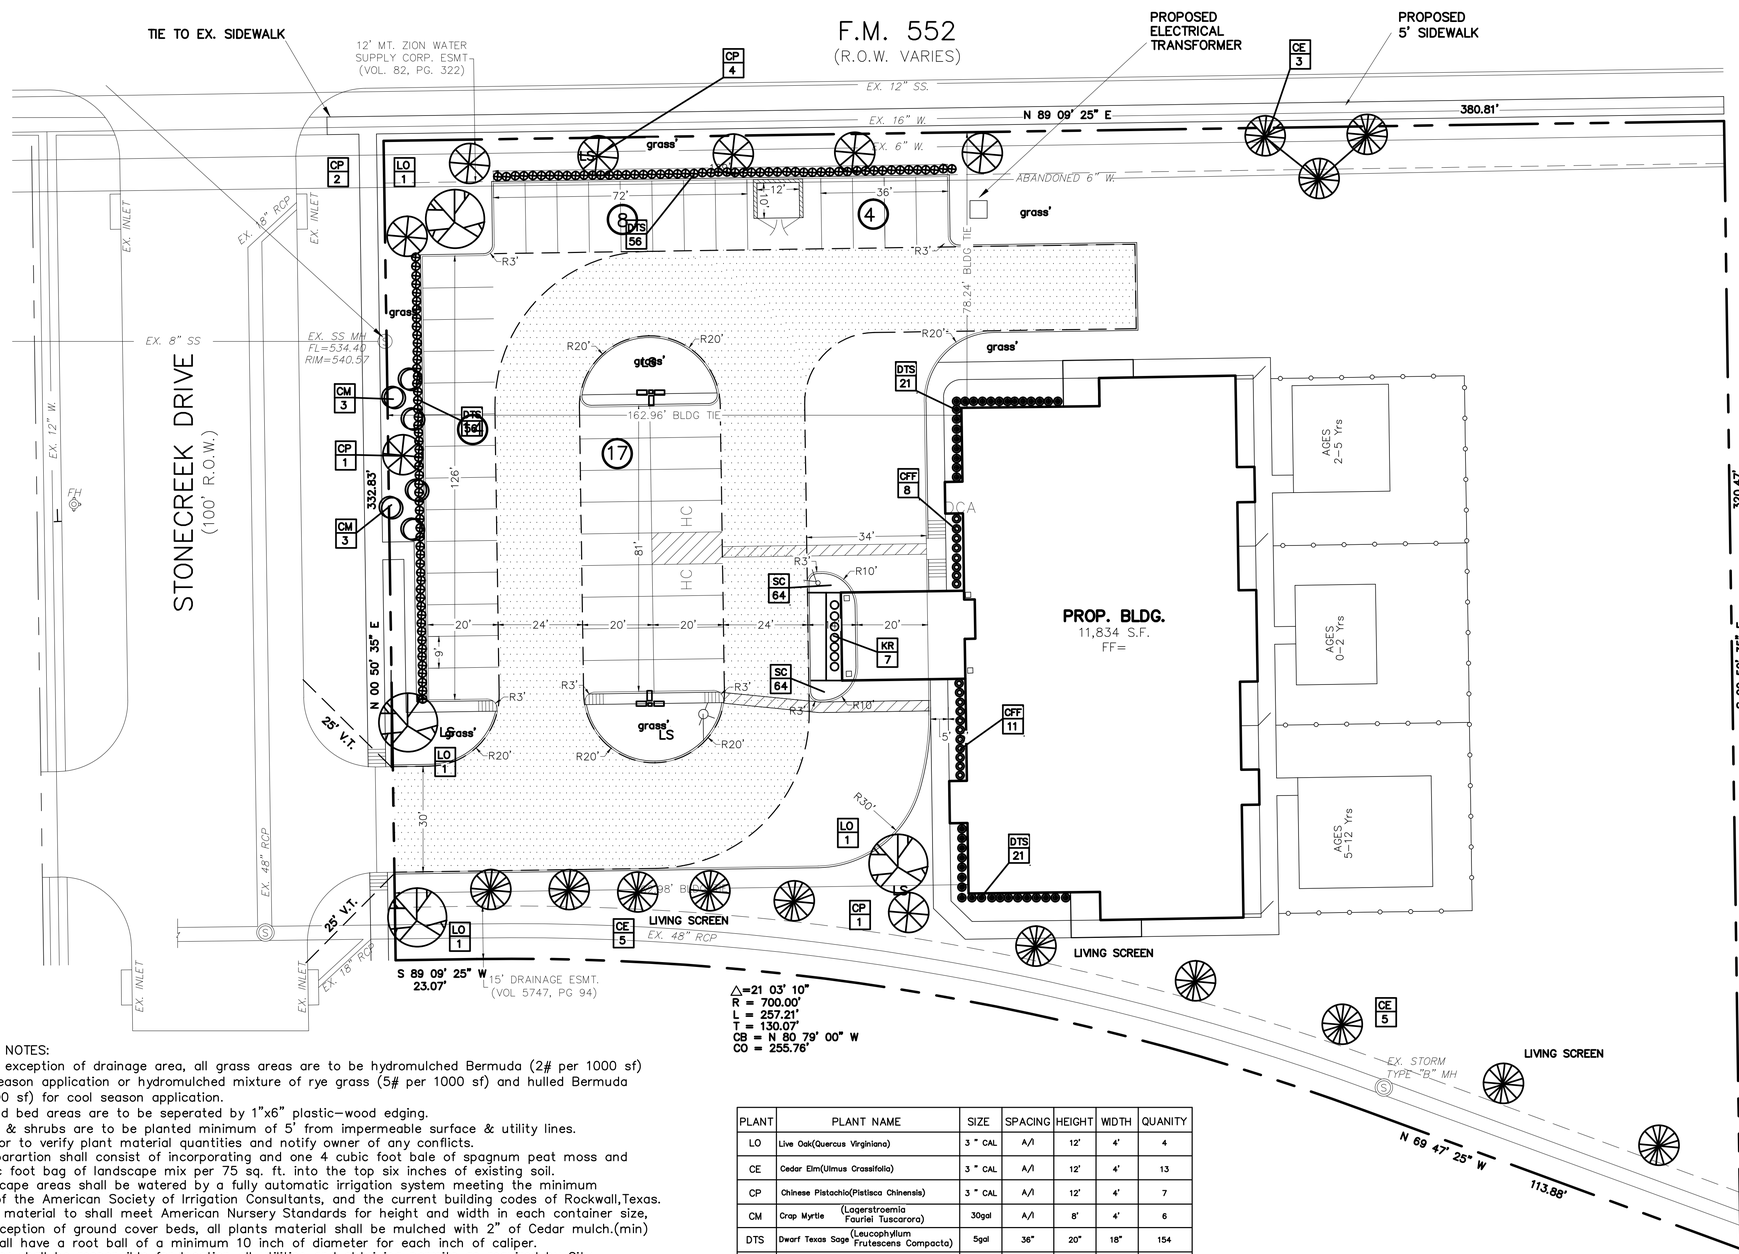
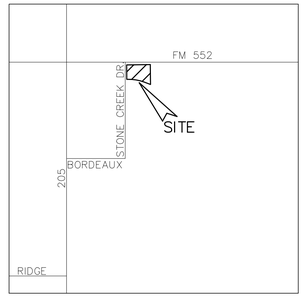
5) NO SAND UNDER PAVING.

FIRE SPRINKLER LINE IS SEPARATE PERMIT FROM THE FIRE DEPARTMENT



WARNING:
PRIOR TO THE BEGINNING OF ANY CONSTRUCTION OR CONSTRUCTION STAKING, IT SHALL BE THE CONTRACTORS RESPONSIBILITY TO CONTACT THE CIVIL ENGINEER TO ENSURE THAT ALL PARTIES ARE IN POSSESSION OF THE MOST CURRENT SET OF CONSTRUCTION DOCUMENTS.

NOTE:
THE CONTRACTOR SHALL BE RESPONSIBLE FOR FIELD VERIFYING THE LOCATION OF ALL EXISTING UTILITIES AND EASEMENTS PRIOR TO START OF OPERATIONS. CONTRACTOR WILL NOTIFY THE OWNER'S REPRESENTATIVE OF ANY DISCREPANCIES PRIOR TO STARTING THE WORK. EXISTING UTILITIES AND UNDERGROUND FACILITIES INDICATED ON THESE PLANS HAVE BEEN LOCATED FROM REFERENCE INFORMATION. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO VERIFY BOTH THE HORIZONTAL AND VERTICAL LOCATION OF ALL EXISTING UTILITIES AND UNDERGROUND FACILITIES PRIOR TO START OF CONSTRUCTION. TAKE THE NECESSARY PRECAUTIONS IN ORDER TO PROTECT ALL FACILITIES ENCOUNTERED. THE CONTRACTOR SHALL PRESERVE AND PROTECT ALL EXISTING UTILITIES FROM DAMAGE DURING CONSTRUCTION.



ALL RESPONSIBILITY FOR ADEQUACY OF DESIGN REMAINS WITH THE DESIGN ENGINEER. THE CITY OF ROCKWALL, IN REVIEWING AND RELEASING PLANS FOR CONSTRUCTION, ASSUMES NO RESPONSIBILITY FOR ADEQUACY OF ACCURACY OF DESIGN.

GENERAL NOTES
1. Buildings 5,000 square feet or greater shall be sprinkled. Alternative fire protective measures may be approved by the Building inspector and Fire Department.
2. Fire lanes shall be designed and constructed per city standards.
3. Handicapped parking areas shall be designed and provided per city standards and shall comply with requirements of the current adopted Uniform Building Code.
4. Mechanical units, dumpster and trash compactors shall be screened in accordance with the Zoning Ordinance
5. All signage contingent upon Building Inspection Department.
6. Approval of the site plan is not final until all engineering plans are approved.
7. Open storage, where permitted, shall be screened in accordance with the Zoning Ordinance
8. Please contact the Building Inspection Department to determine the type of construction and occupancy group.
9. All electrical transmission, distribution and service lines must be underground.

PLANNING COMMENTS - DAVID GONZALES - 09.22.2016

Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Gerald Houser of Colin-G Properties, LTD for the approval of a site plan for the expansion of an existing industrial facility on a 6.19-acre parcel of land identified as Lot 1, Block A, Houser Addition, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, situated within the SH-276 Corridor Overlay (SH-276 OV) District, addressed as 1611 SH-276, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, October 4, 2016. Please provide three large copies [24" X 36" FOLDED] anc one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Label revised site plan documents with "Case No. SP2016-022" at the lower right corner of each plan.
3. Provide a materials sample board for ARB review.
4. Where are the A/C units located? Locate units on site plan/roof top and provide screening detial. Must be screened from public rights-of-way and adjacent properties.

VARIANCES AND EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:

* 1. Art V, Sec. 6.14.C.1.a of the SH 276 OV (and the UDC) requires each exterior wall to consist of 90% masonry materials,..., and shall be limited to 50% cementaceous (stucco) materials. All elevations for bldg #2 exceeds 50% stucco.
* 2. Art V, Sec. 6.14.C.2 of the SH 276 OV requires structures having a footprint of 6,000 sq. ft. or less be contructed with a pitched roof system. Bldg #2 (4,950 sq. ft.) has a flat roof system.
* 3. Art V, Sec. 6.14.C.4 of the SH 276 OV requires all buildings to be designed to incoporate no less than four architectural elements (from the list provided in the ordinance) to be present on both buildings.
* 4. Art V, Sec. 6.14.C.5 of the SH 276 OV requires thatall buildings be architecturally finished on all four sides with the same materials, details, and features to be present on both buildings. (Sec. 6.14.C.1.a requires natural or quarried stone unless approved by the Planning and Zoning Commission for the use of high quality manufactured or cultured stone meeting the standards as outlined in the ordinance (both bldgs).

* Approval of the variances to the SH 276 OV requires passage by a 3/4 majority vote of City Council.

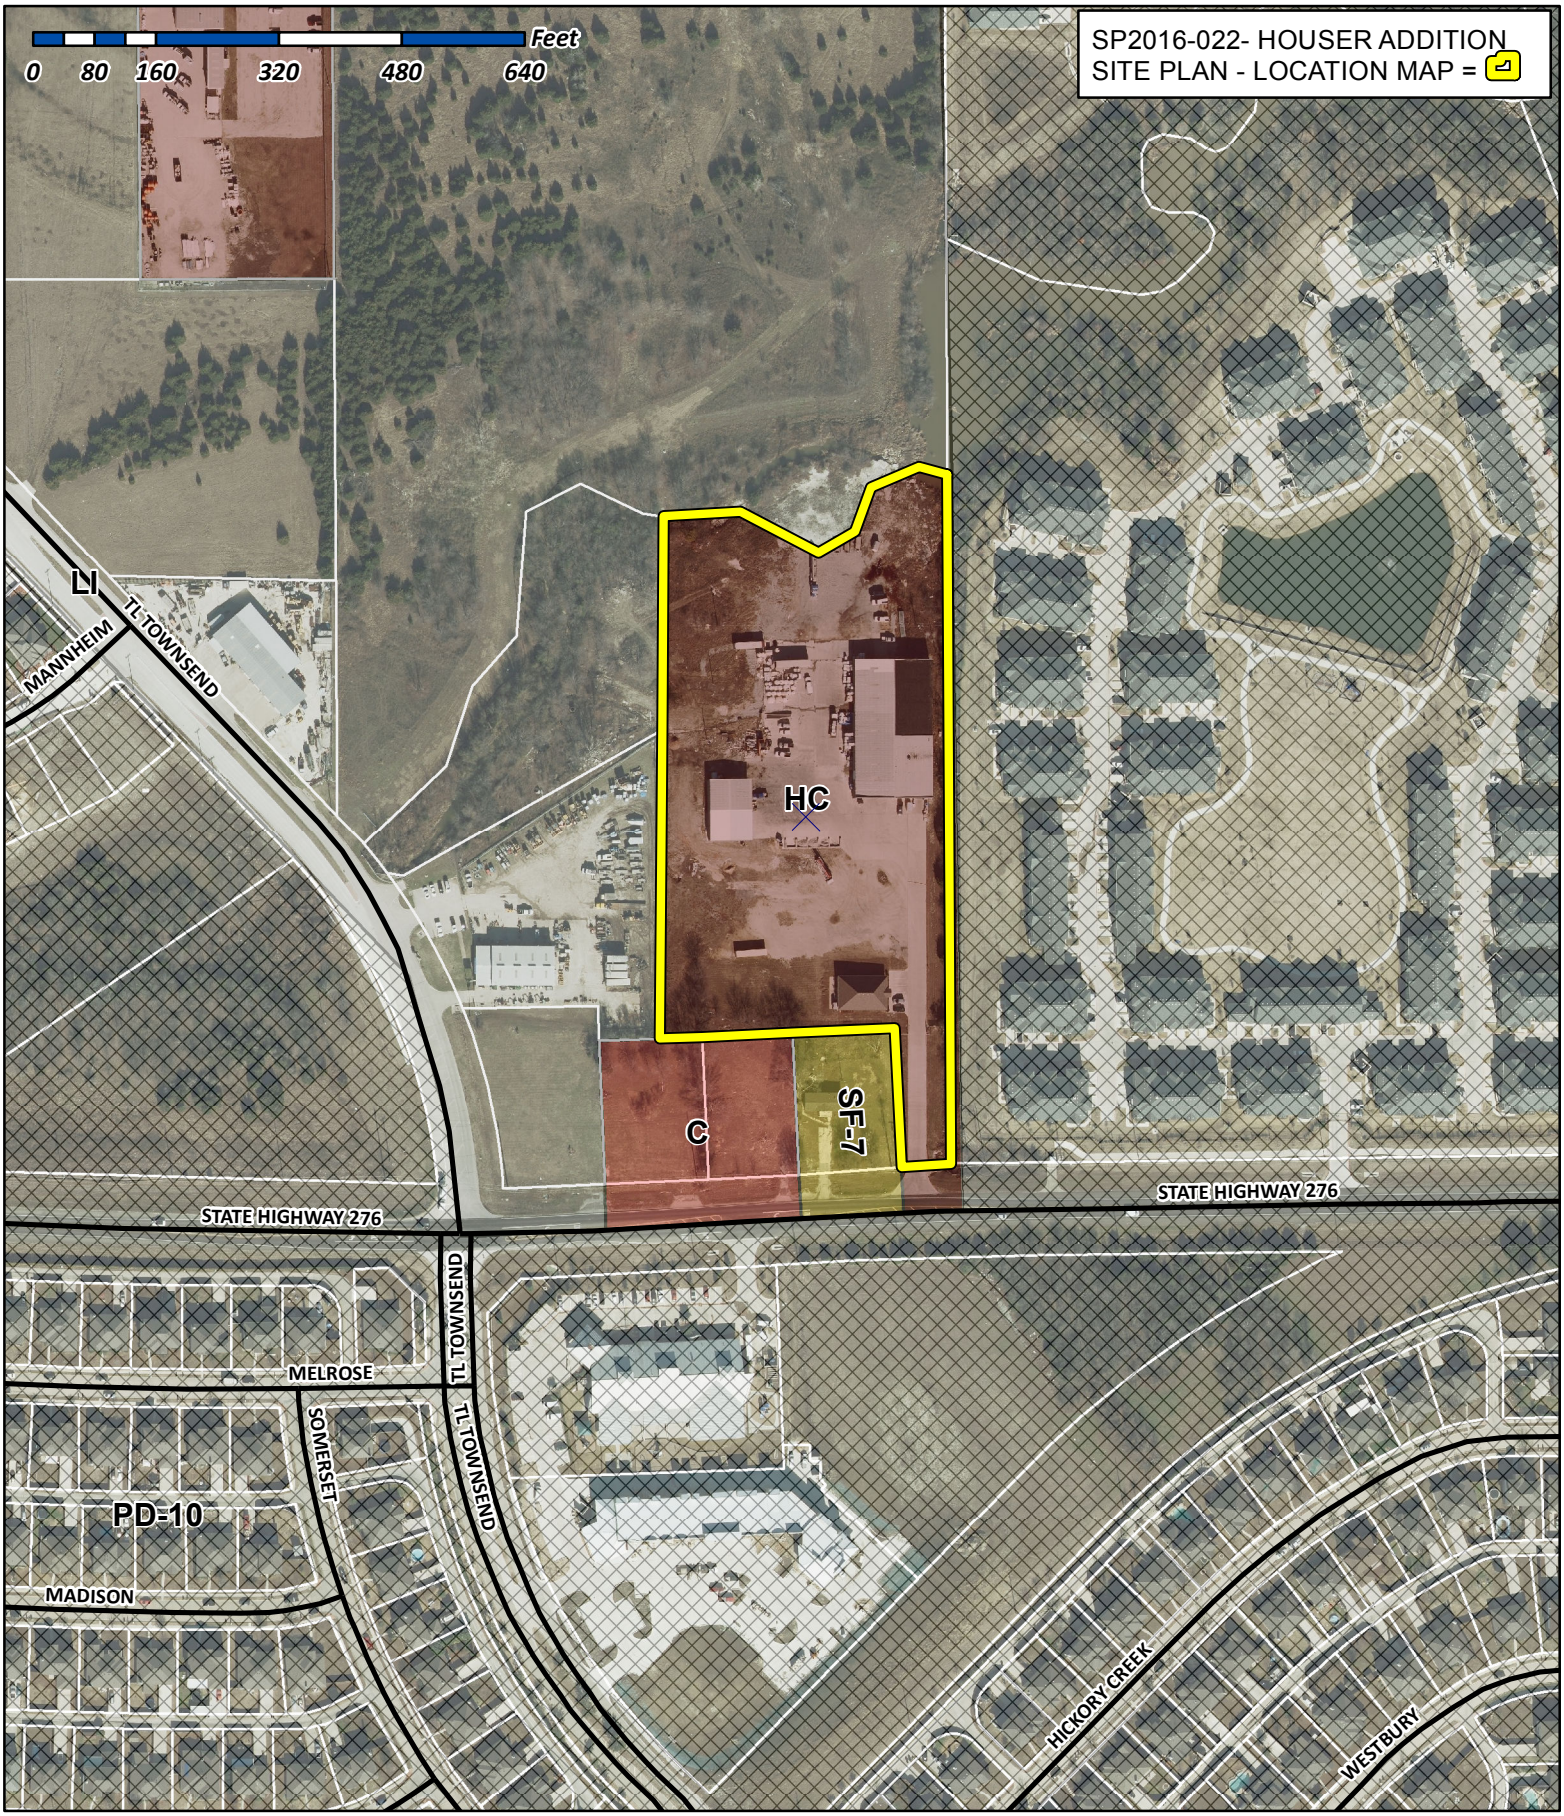
** 5. UDC, Article VI Parking and Loading, Sec. 2.3. - Expansion of an existing use - If any building, improvement, or use of land is expanded, the provisions for parking and loading shall be provided for the portion of land use and/or building that has been added. The proposed (office bldgs) structure requries a minimum of 25 spaces (1:300).
**6. Art. V, Sec. 4.1. of the UDC - Exception to the Horizontal (both buildings) & Vertical Articulation (bldg #2) Standards - the buildings elevation (all four sides of both bldgs) as submitted is not meeting the minimum requirements establish for the General Commercial District Standards. Requires a simple majority vote of council for approval.

** Approval of the variance and exceptions to the UDC for parking and the horizontal and vertical articulation standards requires passage by a simple majority vote o City Council.

Please addressthe following Planning Comments for each plan submitted:

Site Plan:
1. Provide labels for each "Existing Building" and "Sq. Ft."
2. Provide label for '24-ft Firelane and Public Access Easement' where applicable.
3. Variance to the parking standards to allow for 9 less spaces requires approval by the City Council as noted above. The applicant is providing 16 new spaces for the site.
4. Can you provide a row of trees for screening of the proposed buildings along the front property line?

Building Elevations:
1. Provide calculation for all exterior materials for both bldgs.
2. Approval of the variances& exceptions as submitted is required by the City Council as indicated above.

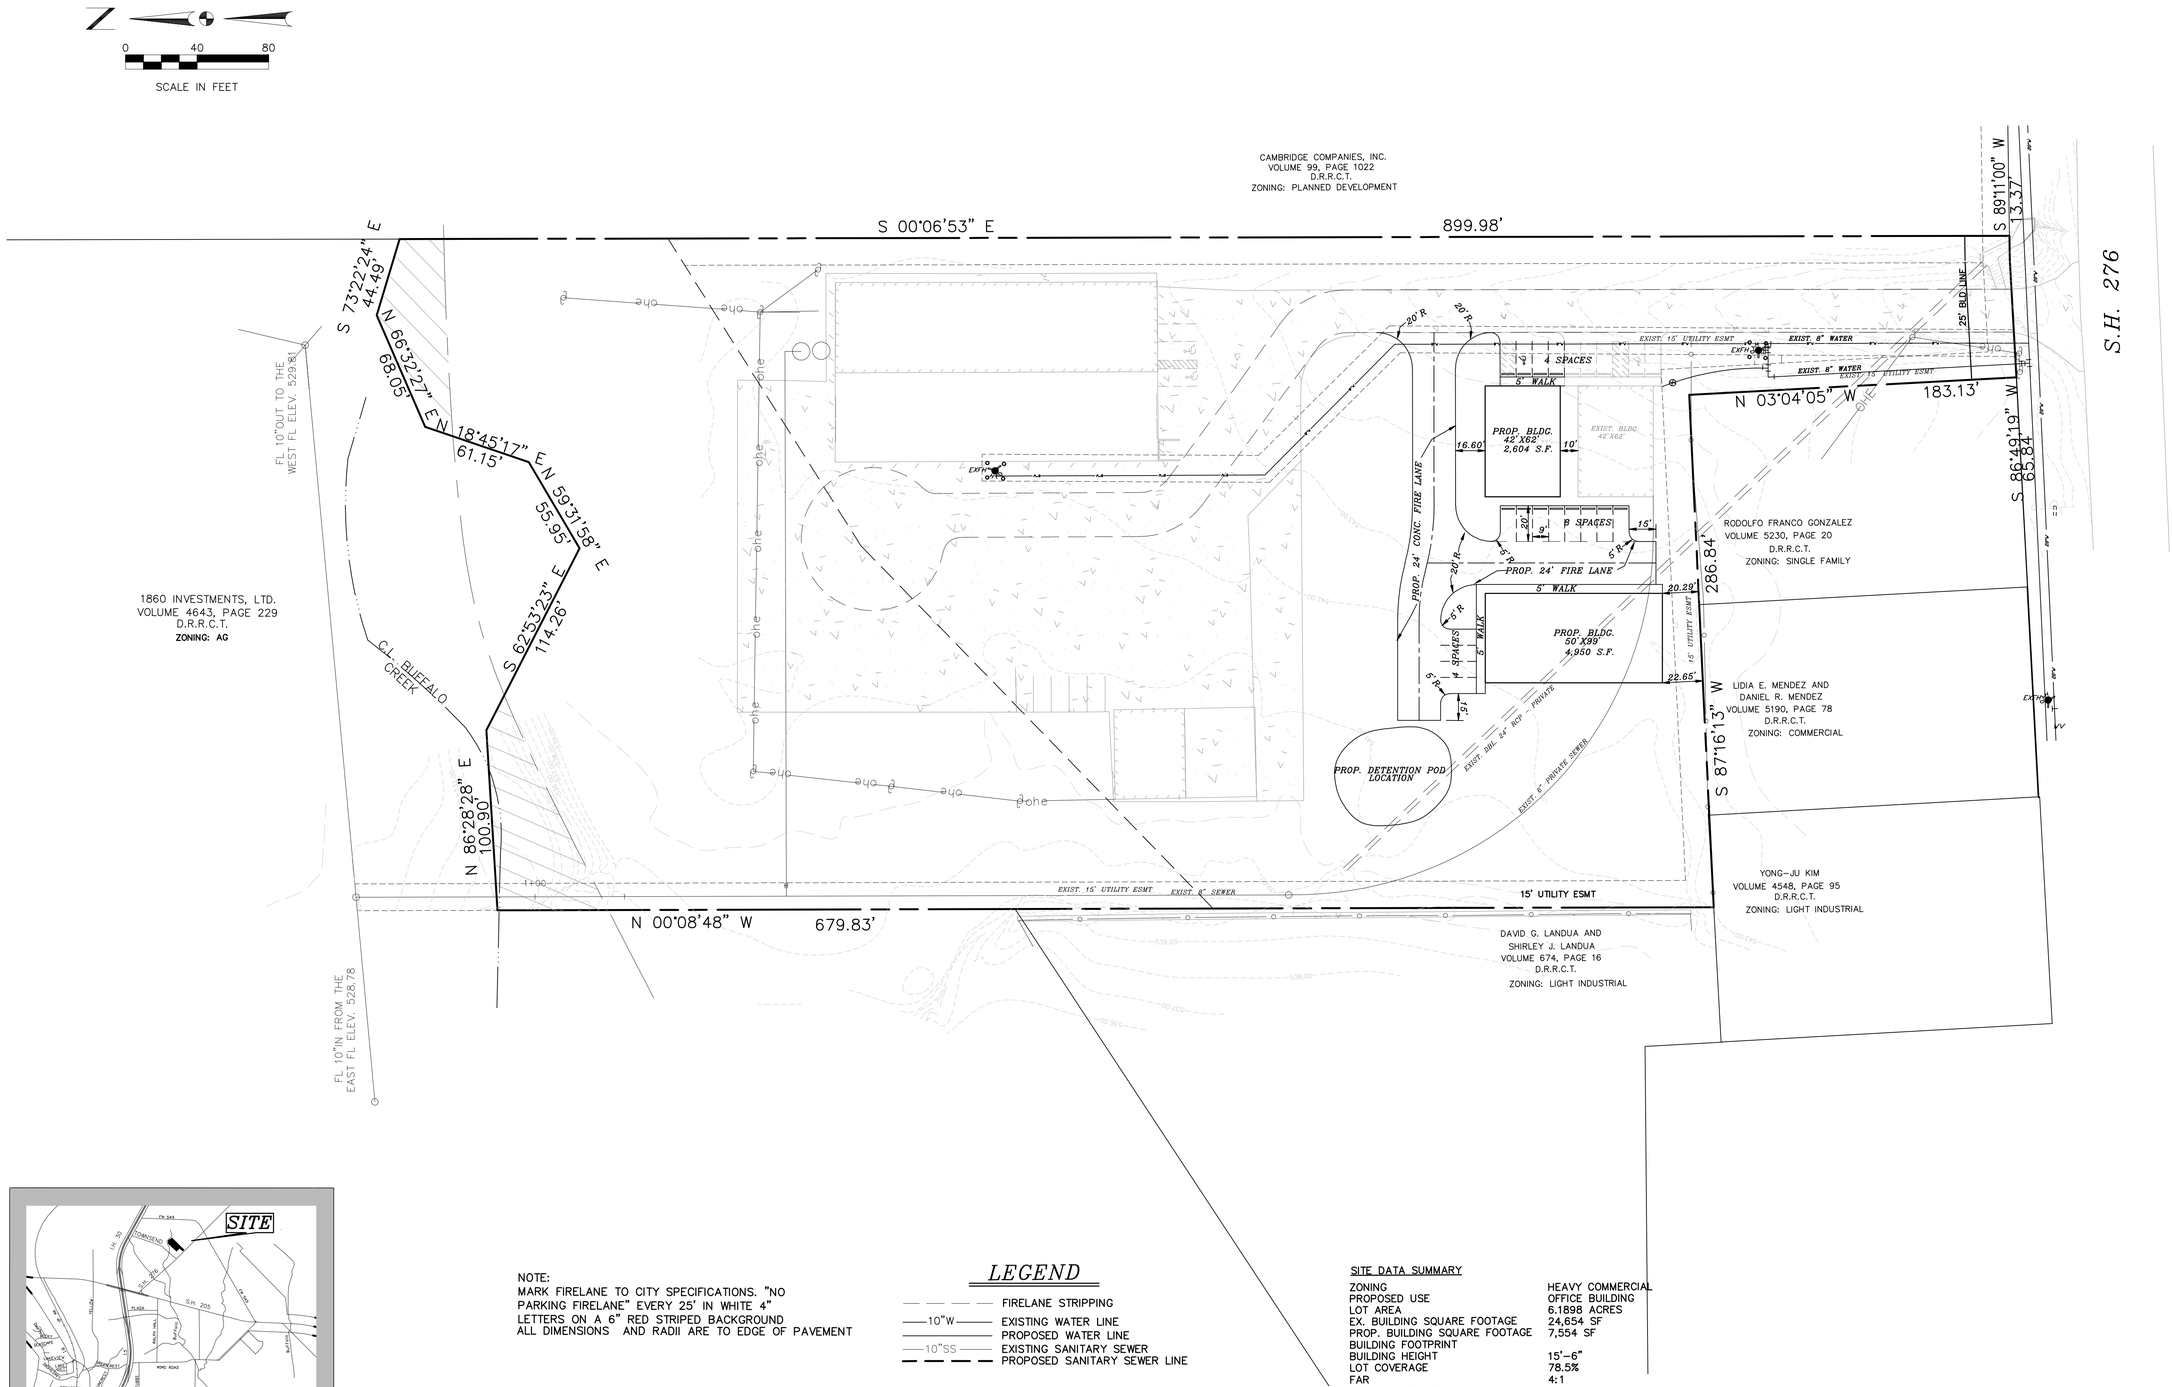


The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: September 27, 2016 (6:00 p.m.) [Applicant to provide presenation and discuss project]

Planning - Action: October 11, 2016 (6:00 p.m.) [P&Z to take action (i.e. approve, approve with conditions, or deny)



City Council - Action: October 17, 2016 (6:00 p.m.) [FOR VARIANCE & EXCEPTION REQUESTS ONLY]

(9/21/2016 9:52 AM AW)
Must show floodplain
Must show detention (not allowed in floodplain)
Engineering will not be approved until LOMR-F is approved by FEMA and the project that removed this property from the flood plain is accepted by the City.
Engineering on this project will not be accepted until the infrastructure plans are approved
See markups on site plan
No bullhead services...separate services
Need to label all "exisiting" as proposed by others
Dumpster to have a drain to grease trap
All parking adjacent to the building to be 20'x9'
Sidewalk along North Lakeshore is to be 2' from the right-of-way...not to be installed at the back of curb.

Landscape Plan:
Add Note:"No trees to be planted within 5' of any utilities"

(9/22/2016 12:26 PM AA)
The proposed location of the Fire Department Connection (FDC) shall be indicated on the plans. The FDC is required to be along the fire lane and within 100-feet as the hose lays, of a fire hydrant.

A minimum of a 5-foot wide sidewalk or other approved “all-weather” pathway shall be provided from the fire lane to the FDC. Parking/loading spaces are not considered a clear pathway.

PLANNING COMMENTS - DAVID GONZALES - 09.22.2016

Discuss and consider a request by Worth Williams of Moore Worth Investments, LLC for the approval of a site plan for a multi-tenant commercial/retail building on a 1.56-acre tract of land being a portion of a larger 6.1091-acre tract of land identified as Tract 8-4 of the J. H. B. Jones Survey, Abstract No. 8-4, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the southwest corner of Quail Run Road and N. Goliad Street [SH-205], and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, October 4, 2016. Please provide three large copies [24" X 36" FOLDED] anc one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Label revised site plan documents with "Case No. SP2016-018" at the lower right corner of each plan.
3. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO). Plat mylars are to be submitted prior to issuance of building permit.

THE FOLLOWING PLANS ARE NOT ACCEPTED OR REVIEWED - separate submittal through the building inspections department required:
1. Irrigation plan
2. Signation plan

VARIANCES AND EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:

* 1. Art V, Sec. 6.11.C.1a of the N-SH 205 BY OV requires each exterior wall to consist of 90% masonry materials,..., including 20% natural or stone on walls which are visible from a public street or open space. The North elevation does not meet the requirement and is providing 15.55% stone.

* Approval of the variance requested to the N-SH 205 OV requires passage by a 3/4 majority vote of City Council.

Please addressthe following Planning Comments for each plan submitted:

Site Plan:
1. Dumpster enclosure gates to be metal panel per Ord. 08-02.
2. Provide label for firelane: "24-ft Firelane, Utility, and Public Access Easement" or as appropriate.

Building Elevations:
1. The Planning and Zoning Commission may consider the use of high quality manufacuted or cultured stone if it meets the standards (as listed in the ordinance). The stone submitted is not natural or quarried and requries P&Z approval. Provide cut sheet for determination.
2. A variance request for less than 20% stone on the North elevation requires approval by a 3/4 majority vote of City Council (as indicated above).
3. All RTU's are not to be visible from the property line or adjacent properties. The west elevations RTU's as dashed-in appear to be visible. Provide a line of sight study or an appropiate means of screening the units.

Landscape Plan:

1. Grass to be established (use of hydroseed) - prior to release of C.O., grass must be established or an erosion control method approved by the Engineering Department and functioning with an escrow deposit for assurance.
2. Parking on this plan is not consistent with the site plan. Revise plan.

Photometric Plan:
1. The lighting pole standards are not to exceed a maximum overall heightof 20-ft (includes pole, base, or combination thereof) per the PD Ord. 08-02 standards. Provide detail.
2. All lighting sources are to be directed down and contained on site with in order to control glare. Maximum lighting intensity at the property line is not to exceed 0.2-FC.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: September 27, 2016 (6:00 p.m.) [Applicant to provide presenation and discuss project]

Planning - Action: October 11, 2016 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, or deny)

City Council - Action: October 17, 2016 (6:00 p.m.) [FOR VARIANCE & EXCEPTION REQUESTS ONLY]

4		Taxodium distichum 3 to 3 1/2 in cal	14ft - 16ft	4ft - 6ft	Per Plan
Grass					
		Eragrostis curvula - hydroseed at 5 lbs per acre			

LANDSCAPE TABULATIONS

	Required	Provided
10 ft. Landscape Buffer Strip 1 tree per 50 ft. of Street Frontage (430.03 FT)	9 Trees	9 Trees
Parking and Maneuvering Space (27,340 SF) 1 tree per 10 Req. Parking Spaces (40 req. spaces)	4 Trees	6 Trees
Amount of Landscaping Commercial / General Retail	15% (9618 SF)	28% (18,435 SF)

Landscape Notes

All areas to be hydroseeded must be fine graded before seeding.

All shrub beds and tree wells to be mulched with 4 to 6 inches of shredded hardwood mulch.

All hydroseeded areas and planting beds to have BIOSOL FORTE 7-2-1 fertilizer applied at manufacturers recommended rate.

DESCRIPTION

The Galleon™ LED luminaire delivers exceptional performance in a highly scalable, low-profile design. Patented, high-efficiency AccuLED Optics™ system provides uniform and energy conscious illumination to walkways, parking lots, roadways, building areas and security lighting applications. IP66 rated and UL/cUL Listed for wet locations.

Catalog #		**Type**

Comments		**Date**
Prepared by		

SPECIFICATION FEATURES

Construction
Extruded aluminum driver enclosure thermally isolated from Light Squares for optimal thermal performance. Heavy-wall, die-cast aluminum end caps enclose housing and die-cast aluminum heat sinks. A unique, patent pending interlocking housing and heat sink provides scalability with superior structural rigidity. 3G vibration tested and rated. Optional tool-less hardware available for ease of entry into electrical chamber. Housing is IP66 rated.

Optics
Patented, high-efficiency injection-molded AccuLED Optics technology. Optics are precisely designed to shape the distribution maximizing efficiency and application spacing. AccuLED Optics create consistent distributions with the scalability to meet customized application requirements. Offered standard in 4000K (+/- 275K) CCT 70 CRI. Optional 3000K, 5000K and 6000K CCT.

Electrical
LED drivers are mounted to removable tray assembly for ease of maintenance. 120-277V 50/60Hz, 347V 60Hz or 480V 60Hz operation. 480V is compatible for use with 480V Wye systems only. Standard with 0-10V dimming. Shipped standard with Eaton proprietary circuit module designed to withstand 10kV of transient line surge. The Galleon LED luminaire is suitable for operation in -40°C to 40°C ambient environments. For applications with ambient temperatures exceeding 40°C, specify the HA (High Ambient) option. Light Squares are IP66 rated. Greater than 90% lumen maintenance expected at 60,000 hours. Available in standard 1A drive current and optional 600mA, 800mA and 1200mA drive currents (nominal).

Mounting
STANDARD ARM MOUNT: Extruded aluminum arm includes internal bolt guides allowing for easy positioning of fixture during mounting. When mounting two or more luminaires at 90° and 120° apart, the EA extended arm may be required. Refer to the arm mounting requirement table. Round pole adapter included. For wall mounting, specify wall mount bracket option. QUICK MOUNT ARM: Adapter is bolted directly to the pole. Quick mount arm slide into place on the adapter and is secured via two screws, facilitating quick and easy installation. The versatile, patent pending, quick mount arm accommodates multiple drill patterns ranging from 1-1/2" to 4-7/8". Removal of the door on the quick mount arm enables wiring of the fixture without having to access the driver compartment. A knock-out enables round pole mounting.

Finish
Housing finished in super durable TGIC polyester powder coat paint, 2.5 mil nominal thickness for superior protection against fade and wear. Heat sink is powder coated black. Standard housing colors include black, bronze, grey, white, dark platinum and graphite metallic. RAL and custom color matches available.

Warranty
Five-year warranty.

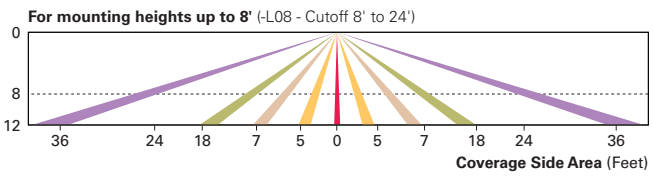
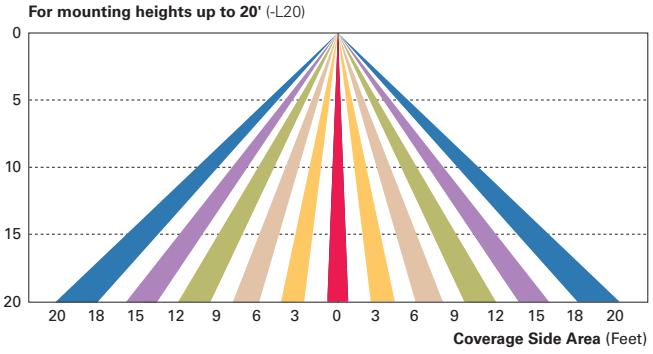
CONTROL OPTIONS

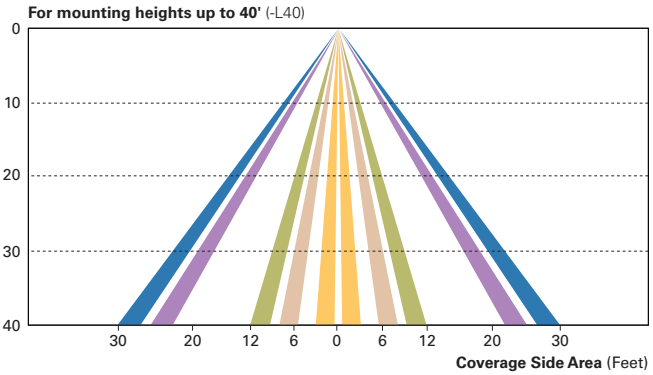
0-10V (DIM)
This fixture is offered standard with 0-10V dimming driver(s). The DIM option provides 0-10V dimming wire leads for use with a lighting control panel or other control method.



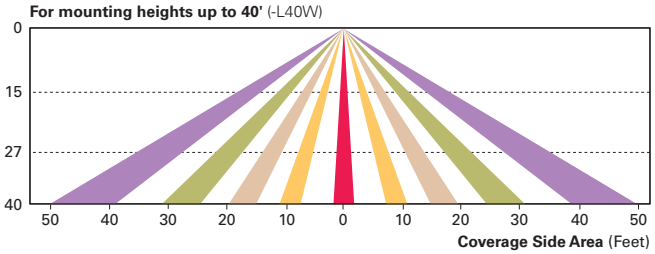
Photocontrol (P, R and PER7)
Optional button-type photocontrol (P) and photocontrol receptacles (R and PER7) provide a flexible solution to enable "dusk-to-dawn" lighting by sensing light levels. Advanced control systems compatible with NEMA 7-pin standards can be utilized with the PER7 receptacle.



After Hours Dim (AHD)
This feature allows photocontrol-enabled luminaires to achieve additional energy savings by dimming during scheduled portions of the night. The dimming profile will automatically take effect after a "dusk-to-dawn" period has been calculated from the photocontrol input. Specify the desired dimming profile for a simple, factory-shipped dimming solution requiring no external control wiring. Reference the After Hours Dim supplemental guide for additional information.

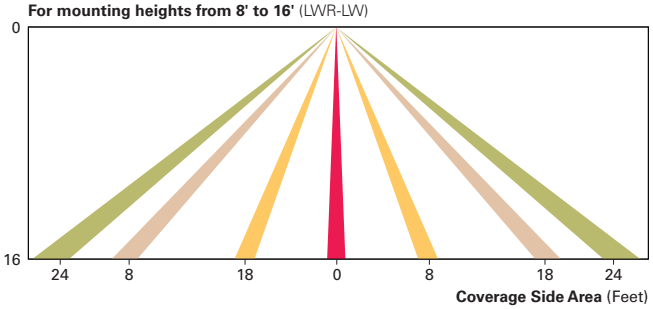


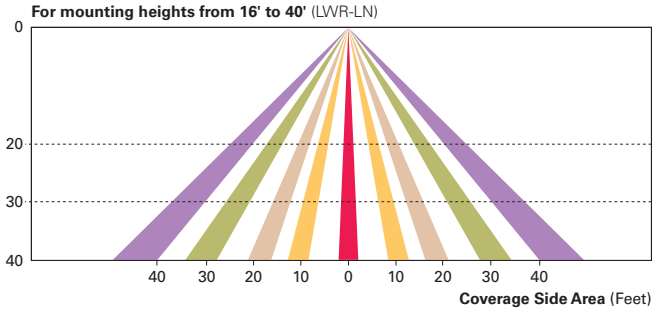
Dimming Occupancy Sensor (MS/DIM-LXX, MS/X-LXX and MS-LXX)
These sensors are factory installed in the luminaire housing. When the MS/DIM-LXX sensor option is selected, the occupancy sensor is connected to a dimming driver and the entire luminaire dims when there is no activity detected. When activity is detected, the luminaire returns to full light output. The MS/DIM sensor is factory preset to dim down to approximately 50 percent power with a time delay of five minutes. The MS-LXX sensor is factory preset to turn the luminaire off after five minutes of no activity. The MS/X-LXX is also preset for five minutes and only controls the specified number of light engines to maintain steady output from the remaining light engines.



These occupancy sensors includes an integral photocell that can be activated with the FSIR-100 accessory for "dusk-to-dawn" control or daylight harvesting - the factory preset is OFF. The FSIR-100 is a wireless tool utilized for changing the dimming level, time delay, sensitivity and other parameters.

A variety of sensor lens are available to optimize the coverage pattern for mounting heights from 8'-40'.





LumaWatt Wireless Control and Monitoring System (LWR-LW and LWR-LN)
The LumaWatt system is a peer-to-peer wireless network of luminaire-integral sensors for any sized project. Each sensor is capable of motion and photo sensing, metering power consumption and wireless communication. The end-user can securely create and manage sensor profiles with browser-based management software. The software will automatically broadcast to the sensors via wireless gateways for zone-based and individual luminaire control. The LumaWatt software provides smart building solutions by utilizing the sensor to provide easy-to-use dashboard and analytic capabilities such as improved energy savings, traffic flow analysis, building management software integration and more.

For additional details, refer to the LumaWatt product guides.

NOTES:
1. Customer is responsible for engineering analysis to confirm pole and fixture compatibility for all applications. Refer to our white paper WP513001EN for additional support information.
2. DesignLights Consortium™ Qualified. Refer to www.designlights.org Qualified Products List under Family Models for details.
3. Standard 4000K CCT and minimum 70 CRI.
4. Not compatible with extended quick mount arm (QMEA).
5. Not compatible with standard quick mount arm (QM) or extended quick mount arm (QMEA).
6. Requires the use of an internal step down transformer when combined with sensor options. Not available with sensor at 1200mA. Not available in combination with the HA high ambient and sensor options at 1A.
7. Only for use with 480V Wye systems. Per NEC, not for use with ungrounded systems, impedance grounded systems or corner grounded systems (commonly known as Three Phase Three Wire Delta, Three Phase High Leg Delta and Three Phase Corner Grounded Delta systems).
8. May be required when two or more luminaires are oriented on a 90° or 120° drilling pattern. Refer to arm mounting requirement table.
9. Factory installed.
10. Maximum 8 light squares.
11. Maximum 6 light squares.
12. Extended lead times apply. Use dedicated IES files for 3000K, 5000K and 6000K when performing layouts. These files are published on the Galleon luminaire product page on the website.
13. Extended lead times apply. Use dedicated IES files for 3000K, 5000K and 6000K when performing layouts. These files are published on the Galleon luminaire product page on the website.
14. 1 Amp standard. Use dedicated IES files for 600mA, 800mA and 1200mA when performing layouts. These files are published on the Galleon luminaire product page on the website.
15. Not available with HA option.
16. 2L is not available with MS, MS/X or MS/DIM at 347V or 480V. 2L in AF-02 through AF-04 requires a larger housing, normally used for AF-05 or AF-06. Extended arm option may be required when mounting two or more fixtures per pole at 90° or 120°. Refer to arm mounting requirement table.
17. Not available with LumaWatt wireless sensors.
18. Requires the use of P photocontrol or the PER7 or R photocontrol receptacle with photocontrol accessory. See After Hours Dim supplemental guide for additional information.
19. 50°C lumen maintenance data applies to 600mA, 800mA and 1A drive currents.
20. The FSIR-100 configuration tool is required to adjust parameters including high and low modes, sensitivity, time delay, cutoff and more. Consult your lighting representative at Eaton for more information.
21. Approximately 22' detection diameter at 8' mounting height.
22. Approximately 40' detection diameter at 20' mounting height.
23. Approximately 60' detection diameter at 40' mounting height.
24. Approximately 100' detection diameter at 40' mounting height.
25. Replace X with number of Light Squares operating in low output mode.
26. LumaWatt wireless sensors are factory installed only requiring network components RF-EM-1, RF-GW-1 and RF-ROUT-1 in appropriate quantities. See www.eaton.com/lighting for LumaWatt application information.
27. Not available with house side shield (HSS).
28. Only for use with SL2, SL3, SL4 and AFL distributions. The Light Square trim plate is painted black when the HSS option is selected.
29. CE is not available with the LWR, MS, MS/X, MS/DIM, P, R or PER7 options. Available in 120-277V only.
30. One required for each Light Square.

McGraw-Edison

DESCRIPTION

The Impact Elite family of wall luminaires is the ideal complement to site design. Incorporating modular LightBAR™ technology, the Impact Elite luminaire provides outstanding uniformity and energy-conscious illumination. Combined with a rugged construction, the Impact Elite luminaire is the ideal facade and security luminaire for zones surrounding schools, office complexes, apartments and recreational facilities. UL/cUL listed for wet locations.

SPECIFICATION FEATURES

Construction
Heavy-wall, die-cast aluminum housing and removable hinged door frame for precise tolerance control and repeatability. Hinged door inset for clean mating with housing surface and secured via two captive fasteners. Optional tamper-resistant Torx™ head fasteners offer vandal resistant access to the electrical chamber.

Optics
Choice of six patented, high-efficiency AccuLED Optics™ distributions. Optics are precisely designed to shape the light output, maximizing efficiency and application spacing. AccuLED Optics technology creates consistent distributions with the scalability to meet customized application requirements. Offered Standard in 4000K (+/- 275K) CCT and minimum 70 CRI. Optional 3000K CCT, 5000K CCT and 5700K CCT.

Electrical
LED drivers mount to die-cast aluminum back housing for optimal heat sinking, operation efficacy, and prolonged life. Standard drivers feature electronic universal voltage (120-277V 50/60Hz), 347V 60Hz or 480V 60Hz operation, greater than 0.9 power factor, less than 20% harmonic distortion, and are suitable for operation in -40°C to 40°C ambient environments. All fixtures are shipped standard with 10kV/10kA common – and differential – mode surge protection. LightBARs feature an IP66 enclosure rating and maintain greater than 95% lumen maintenance at 60,000 hours per IESNA TM-21. Emergency egress options for -20°C ambient environments and occupancy sensor available.

Mounting
Gasketed and zinc plated rigid steel mounting attachment fits directly to 4" j-box or wall with the Impact Elite "Hook-N-Lock" mechanism for quick installation. Secured with two captive corrosion resistant black oxide coated allen head set screws concealed but accessible from bottom of fixture.

Finish
Cast components finished in a five-stage super TGIC polyester powder coat paint, 2.5 mil nominal thickness for superior protection against fade and wear. Standard colors include black, bronze, grey, white, dark platinum and graphite metallic. RAL and custom color matches available. Consult the McGraw-Edison Architectural Colors brochure for the complete selection.

Warranty
Five-year warranty.

NOTES:

1. DesignLights Consortium® Qualified. Refer to www.designlights.org Qualified Products List under Family Models for details.
2. Standard 4000K CCT and greater than 70 CRI. LightBARs for downlight use only.
3. 21 LED LightBAR powered by 350mA and 7 LED LightBAR powered by 1A.
4. Only for use with 480V Wye systems. Per NEC, not for use with ungrounded systems, impedance grounded systems or corner grounded systems (commonly known as Three Phase Three Wire Delta, Three Phase High Leg Delta and Three Phase Corner Grounded Delta systems).
5. Custom and RAL color matching available upon request. Consult your lighting representative at Eaton for more information.
6. Low-level output varies by bar count. Consult factory. Not available with 347V or 480V. Available with two bars (E02 or F02) only.
7. Extended lead times apply.
8. Available with E02 or F02, only one bar on street side will be wired to sensor. Time delay factory setting 15-minutes. When ordered with PC option, both bars are connected to photocontrol as primary switching means. Standard sensor lens covers 8' mounting height, 360° coverage, maximum 48' diameter. Not available in all configurations or with BBB or CWB options.
9. Specify 120V or 277V. LED standard integral battery pack is rated for minimum operating temperature 32°F (0°C). Operates one bar for 90-minutes. Not available in all configurations or with OSB option. Consult factory.
10. Specify 120V or 277V. LED cold weather integral battery pack is rated for minimum operating temperature -4°F (-20°C). Operates one bar for 90-minutes. Not available in all configurations or with OSB option. Consult factory.
11. Replace XX with color suffix.

Moonlite LED®
LED Outdoor Egress Emergency with Night Lighting Option

Mullion Mount Emergency Light
Series MUE

MUE.4.16.13

The Brightest Idea is Emergency Lighting

GENERAL DESCRIPTION

Operating in emergency mode or optional normal- on, this fixture is designed to mount directly on structural mullion beams used in typical glass-fronted entrances, with vertical surface as small as 2". This fixture has full 90° cut-off and will provide efficient emergency lighting in front of egress doorways, or along extended pathways.

CONSTRUCTION

- Rugged extruded aluminum housing with stainless hardware is corrosion proof.
- Wet location listed UL 924. Certified IP66.
- Uniform, high brightness lighting over the path of egress.
- Full 90° cut- off.
- Three versions are available:

RE= Central Battery System Series CBS or other qualified source 12V- 24 VDC.
BB= Battery backup from Remote Battery Supply Series RPS.
AC= 120/ 277 VAC supply.

ELECTRONICS

- Dual operation from either a battery or optional normally on power source.
- Lamps are connected in parallel-series strings, as required to meet requirements of NEC and Life Safety Codes. Lighting continues even after failure of One lamp or circuit.

ENERGY EFFICIENT OPERATION

- Dual function operation for optional normally on night or security lighting as well as emergency lighting.
- Very low power consumption in optional night/ security mode. The security lighting circuit is independent of emergency lighting and may be switched manually, by an exterior photocell, or other automatic means.
- Over 50,000 hour lamp life in normal use.
- IES photometric data available for all models.

CODES

- Manufactured and tested to UL Standard 924 and NFPA Life Safety Code 101.

WARRANTY

- 5 year total customer satisfaction warranty. For Details see product catalog technical data section.

Mullion Mount Emergency Light
Series MUE

MUE.4.16.13

SUGGESTED SPECIFICATIONS:

Supply and install the MOONLITE LED Series MUE Mullion Mount emergency lighting fixture manufactured by Signtex Lighting Inc. The MUE assembly shall be listed for installation in wet locations in compliance with UL 924 and IP66 standards and shall be capable of operating from Signtex remote power supply Series RPS, the Signtex central battery system Series CBS, or from other remote power sources supplying 12-24 VDC or VAC. Upon loss of AC building power, emergency models shall operate for a minimum of 90 minutes in compliance with UL Standard 924 and NFPA LSC 101.

AGENDA
PLANNING AND ZONING COMMISSION PUBLIC HEARING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
October 11, 2016
6:00 P.M.

CALL TO ORDER

CONSENT AGENDA

1. **Approval of Minutes** for the *September 27, 2016* Planning and Zoning Commission meeting.

2. **P2016-043** **(David)**
   Discuss and consider a request by Jay Webb of Dalrock Homes, LLC for the approval of a final plat for Lots 1-10, Block A, Estates on the Ridge Subdivision, containing ten (10) single-family residential lots on an 18.84-acre tract of land identified as Tract 7-04 & 23 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, situated within the City of Rockwall's Extraterritorial Jurisdiction (ETJ), located at the northwest corner of the intersection of FM-3549 and Cornelius Road, and take any action necessary.

APPOINTMENTS

3. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

PUBLIC HEARING ITEMS

4. **Z2016-030** **(Korey)**
   Hold a public hearing to discuss and consider a request by James Shaw for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4692-acre parcel of land identified as Lot 14, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1910 Copper Ridge Circle, and take any action necessary.

5. **Z2016-031** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Kasey Weadon of New Craft Brewing, LLC on behalf of the owner Benbrooke Ridge Partners, LP for the approval of an amendment to Planned Development District 1 (PD-1) for the purpose of allowing the *Brewery or Distillery (Excluding Brew Pub)* land use in the Planned Development District, being identified as ~39.5249-acre tract of land situated in the B. J. T. Lewis Survey, Abstract No. 255 and the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, situated within the Scenic Overlay (SOV) District, located on the eastside of Ridge Road south of the intersection of Ridge Road [*FM-740*] and SH-205, and take any action necessary.

6. **Z2016-032** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of BH Balance IV, LLC for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan to allow for additional single-family residential lots and for the purpose of incorporating changes to the development standards contained in Exhibit 'C' of *Ordinance No. 14-26* for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, Texas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary.

7. **P2016-040** **(Korey)**
   Discuss and consider a request by Chad & Lindsay Hudson for the approval of a replat for Lots 7 & 8, Block A, Independence Pass Addition being a replat of a 1.4-acre parcel of land identified as Lot 5, Block A, Independence Pass Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) for single family land uses, addressed as 107 Independence Place, and take any action necessary.

ACTION ITEMS

8. **P2016-044** **(David)**
   Discuss and consider a request by Chris Cuny, P.E. of FC Cuny Corporation for the approval of a reinstatement request for the preliminary plat for the Fontanna Ranch Addition in accordance with *Section 38-8(f)* of the Subdivision Ordinance contained in the Municipal Code of Ordinances, and being an 27.89-acre tract of land, zoned Planned Development District 67 (PD-67), generally located south of SH-276 and east of FM-549, originally approved by City Council on July 17, 2006, and take any action necessary.

9. **SP2016-019** **(Korey)**
   Discuss and consider a request by Kevin Patel, P. E. on behalf of William Shaddock of Master Developers-SNB, LLC for the approval of a site plan for a daycare facility on a 2.960-acre tract of land identified as Lot 1, Block S, Preserve, Phase 3 Addition and Tract 12 [*1.4376-acres*], A. Hanna Survey, Abstract No. 98, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 41 (PD-41) and Single Family 10 (SF-10) District, addressed as 1292 East Fork Drive, and take any action necessary.

10. **SP2016-020** **(Korey)**
    Discuss and consider a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Cindy Paris of Rockwall Regional Hospital, LLC for the approval of a site plan for a medical office building on a 5.75-acre portion of a larger 17.8321-acre parcel of land being identified as Lot 15, Block A, Presbyterian Hospital of Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, located east of the intersection of Summer Lee Drive and Rockwall Parkway, and take any action necessary.

11. **SP2016-021** **(Korey)**
    Discuss and consider a request by Vinod Sharma of Little Genius of Texas, LLC for the approval of a site plan for a private pre-school facility on a 2.28-acre tract of land identified as Tract 2-3 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for General Retail (GR) District land uses, located at the southeast corner of the intersection of FM-552 and Stone Creek Drive, and take any action necessary.

12. **SP2016-022** **(David)**
    Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Gerald Houser of Colin-G Properties, LTD for the approval of a site plan for the expansion of an existing industrial facility on a 6.19-acre parcel of land identified as Lot 1, Block A, Houser Addition, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, situated within the SH-276 Corridor Overlay (SH-276 OV) District, addressed as 1611 SH-276, and take any action necessary.

13. **SP2016-023** **(David)** ***POSTPONED TO THE 10-25-2016 P&Z MEETING***
    Discuss and consider a request by Worth Williams of Moore Worth Investments, LLC for the approval of a site plan for a multi-tenant commercial/retail building on a 1.56-acre tract of land being a portion of a larger 6.1091-acre tract of land identified as Tract 8-4 of the J. H. B. Jones Survey, Abstract No. 8-4, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the southwest corner of Quail Run Road and N. Goliad Street [*SH*-205], and take any action necessary.

14. **MIS2016-009** **(Korey)**
    Discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of the owner Lakeside Church of Christ of Rockwall for the approval of a *Tree Mitigation Plan* in conjunction with an approved Planned Development (PD-81) for the Ridgecrest Subdivision being a 29.541-acre tract of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District No. 81 (PD-81) and located on the north side of Airport Road, west of the intersection of Airport Road and FM3549, and take any action necessary.

DISCUSSION ITEMS

15. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2016-042: Amending Plat for the Preserve, Phase 1 Addition [*Approved*]
- ✓ Z2016-023: SUP for 1970 Copper Ridge Circle (*2nd Reading*) [*Approved*]
- ✓ Z2016-025: Harbor Urban Center Condominiums (*2nd Reading*) [*Approved*]
- ✓ Z2016-028: Zoning Change AG to RO (*2nd Reading*) [*Approved*]

- ✓ Z2016-029: SUP for a Gas Station (*2nd Reading*) [*Approved*]

ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator of the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 7th day of October, 2016 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

AGENDA
ARCHITECTURAL REVIEW BOARD MEETING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers Conference Room
October 11, 2016
5:00 P.M.

ACTION ITEMS

1. **Election of a Chair and Vice Chair** (Ryan)
   Discuss and consider the election of a chair and vice chair in accordance Section 13.4, *Officers*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code, and take any action necessary.

2. **SP2016-021** (Korey)
   Discuss and consider a request by Vinod Sharma of Little Genius of Texas, LLC for the approval of a site plan for a private pre-school facility on a 2.28-acre tract of land identified as Tract 2-3 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for General Retail (GR) District land uses, located at the southeast corner of the intersection of FM-552 and Stone Creek Drive, and take any action necessary.

3. **SP2016-023** (David) ***POSTPONED TO THE 10-25-2016 ARB MEETING***
   Discuss and consider a request by Worth Williams of Moore Worth Investments, LLC for the approval of a site plan for a multi-tenant commercial/retail building on a 1.56-acre tract of land being a portion of a larger 6.1091-acre tract of land identified as Tract 8-4 of the J. H. B. Jones Survey, Abstract No. 8-4, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the southwest corner of Quail Run Road and N. Goliad Street [*SH*-205], and take any action necessary.

ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 7th day of October, 2016, by 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MINUTES

PLANNING AND ZONING COMMISSION WORK SESSION

City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
September 27, 2016
6:00 P.M.

I. CALL TO ORDER

Chairman Craig Renfro called the meeting to order at 6:12 p.m. The Commissioners present at the meeting were, Johnny Lyons, Patrick Trowbridge, and Annie Fishman. Commissioners absent were Mark Moeller, Sandra Whitley, and Tracey Logan. Staff members present were Planning Director, Ryan Miller, Senior Planner, David Gonzales, Planner, Korey Brooks, Planning Coordinator, Laura Morales, Assistant City Engineer, Amy Williams, Civil Engineer, Jeremy White and Fire Marshall, Ariana Hargrove.

II. CONSENT AGENDA

1. Approval of Minutes for the September 13, 2016 Planning and Zoning Commission meeting.

2. P2016-042

Discuss and consider a request by Greg Helsel of Spiars Engineering on behalf of the owner Will Shaddock of Master Developers-SNB, LLC for the approval of an amended plat for Phase 1 of the Preserve Subdivision, containing 132 single-family residential lots on a 52.545-acre tract of land identified as the Preserve, Phase 1 Subdivision, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 41 (PD-41) for Single Family 10 (SF-10) District land uses, located at the southeast at corner of the intersection of Highland Drive and East Fork Drive, and take any action necessary.

3. SP2016-018

Discuss and consider a request by Greg Wallis of Mershawn Architects on behalf of Natalee Davenport for the approval of a site plan for the purpose of converting an existing single-family home into an office building on a 0.24-acre parcel of land identified as a part of Lot 1, Austin Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 50 (PD-50) for Residential Office (RO) District land uses, situated within the North Goliad Corridor Overlay (NGC OV) District, addressed as 902 N. Goliad Street, and take any action necessary.

Chairman Renfro made a motion to approve the consent agenda. Commissioner Lyons seconded the motion which passed by a vote of 4-0, with Commissioners Whitley, Logan and Moeller absent.

III. APPOINTMENTS

4. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

Chairman Renfro stated the item would be discussed at the time site plans that were reviewed by the Architectural Review Board come up.

IV. DISCUSSION ITEMS

5. Z2016-030

Hold a public hearing to discuss and consider a request by James Shaw for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4692-acre parcel of land identified as Lot 14, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1910 Copper Ridge Circle, and take any action necessary.

Planner Korey Brooks stated that applicant was present.

Chairman Renfro asked the applicant to come forward.

James Shaw
1910 Copper Ridge Circle
Rockwall, TX

Mr. Shaw came forward and stated the reason for the request is to allow him to store quite a bit of equipment he has and also to have a place to work on.

Chairman Renfro asked for questions for the applicant from the Commission.

Chairman Renfro asked what he would be storing. Mr. Shaw stated he would be storing a boat, several trailers and work equipment.

Commissioner Trowbridge asked if there would be a business run out of the building. Mr. Shaw stated there would not.

Mr. Brooks added that the reason for the SUP is because it does not meet the masonry requirements. He is not using the masonry of the main home; it is going to be a metal building.

There being no further questions, Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

6. Z2016-031

Hold a public hearing to discuss and consider a request by Kasey Weadon of New Craft Brewing, LLC on behalf of the owner Benbrooke Ridge Partners, LP for the approval of an amendment to Planned Development District 1 (PD-1) for the purpose of allowing the *Brewery or Distillery (Excluding Brew Pub)* land use in the Planned Development District, being identified as ~39.5249-acre tract of land situated in the B. J. T. Lewis Survey, Abstract No. 255 and the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, situated within the Scenic Overlay (SOV) District, located on the eastside of Ridge Road south of the intersection of Ridge Road [*FM-740*] and SH-205, and take any action necessary.

Planning Director, Ryan Miller, stated the applicant was present.

Chairman Renfro asked the applicant to come forward.

Kasey Weadon
1201 Ridge Road
Rockwall, TX

Mr. Weadon came forward and stated they are seeking to open and establish a microbrewery which they will be selling and distributing less than fifteen thousand barrels of beer per year. They will be a production brewery which classifies as not a brew pub and will not be manufacturing or selling food from the location.

Chairman Renfro asked Mr. Weadon if this was his first brewery and what got him in this line of business. Mr. Weadon stated it was his first brewery and his parents have owned restaurants throughout his life as well as s a brother in law in production brewery. While he was an undergraduate student began house brewing and striking up a business plan.

Commissioner Trowbridge asked will they be selling for retail. Mr. Weadon stated they will be selling in what is called a tap room where they will sell their own beer which is the only one they are legally allowed to sell and produce on site. They will also be offering tours of the brewery.

Commissioner Trowbridge asked what square footage would be for the retail portion for customers walking in. Mr. Weadon stated the tap room will be about 4,000 square feet of space and would be sealed off by fire walls and sectioned off.

Commissioner Trowbridge asked if in the business plan was there a projection of how much would be retail versus how much would be wholesale that would be sold. Mr. Weadon stated that due to how the market is and also because it depends on the location, it is difficult to say. They are looking a big influx when they first open; they are looking to be very involved with the

community by running different events and having a grand opening and those will create different influxes of sales.

Commissioner Lyons asked what the hours of operation would be. Mr. Weadon stated they are looking at being open Wednesday thru Sunday. On weekdays it would be 5:00-10:00 p.m. and on the weekends the hours would be extended to possibly noon to midnight or 11:00 but no later than midnight. They will be doing tours as most typical breweries do and that is the reason for opening earlier on the weekends when those will take place.

Commissioner Lyons asked Mr. Miller that with this location being zoned Commercial, for a microbrewery that is more for a Light Industrial; it does require the change and therefore the reason why the proposal needed to come before the Commission. Mr. Miller explained that the Cities ordinances and codes were written before the big shift in the Texas Alcoholic Beverage Code. Breweries have changed in the way they operate, especially microbreweries in the last few years. The Code treats breweries more like an industrial type use. There are other breweries in the city one of which went in at a Light Industrial area which is allowed by right. This area is zoned PD-1 it is one of the first PD's of the City which was zoned for shopping centers which is no longer a use and is tied to the General Retail District standard. Mr. Miller went on to explain that the brewery use has really changed, if one looks at Dallas some of the other areas they are integrating to Commercial Retail areas pretty successfully.

Mr. Miller clarified the request by stating that right now the Commission is just looking to inserting this use to Planned Development District 1. The entire PD did have to be opened up, but it will only affect Area 1 as that's the area regulated by Ordinance No. 7202, which is the original PD Ordinance. What that will do is allow that use, right now it is being proposed as a by right use. In comments given to the applicant it was suggested to potentially look at a Specific Use Permit because of the adjacencies and also it gives the Planning and Zoning Commission and City Council some discretion with future uses moving forward. That will be brought back at the following public hearing meeting in an ordinance format.

Chairman Renfro expressed that to be the direction he was looking at because of the proximity to the residential areas, through a Specific Use Permit it would allow to for some control to be included. Chairman Renfro asked the applicant if that would be something they would consider doing. Mr. Weadon stated that it would be something they would consider.

Mr. Miller added that right now the zoning for all of PD-1 is being opened and all three areas that make up PD-1 were notified within 500 feet. If this was an allowed by right use, should the zoning be approved, the applicant would then move straight to the Certificate of Occupancy portion of the process; however if the Commission requires a Specific Use Permit the applicant would be required to come back in. SUP's add additional constraints based on individual locations and the specific lease area would be tied down in an ordinance with regulations associated with the use and the property and would be a two stage zoning process.

There being no further questions, Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

7. Z2016-032

Hold a public hearing to discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of BH Balance IV, LLC for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan to allow for additional single-family residential lots and for the purpose of incorporating changes to the development standards contained in Exhibit 'C' of *Ordinance No. 14-26* for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, Texas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary.

Planning Director, Ryan Miller, stated his applicant was present.

Noah Flabiano
8214 Westchester suite 710
Dallas, TX

Mr. Flabiano came forward and gave a brief summary and provided a power point outlining the request which is to have 40 units with 60 foot lots with the option of some having front entry garages.

Mr. Miller added that this request came before the Commission as 50's previously and the Planning and Zoning Commission made a recommendation that it be 60's as opposed to 50's and that carried to Council and it was approved at first reading that way; however the applicant requested to withdraw the case in order to bring it back in its current format adding front entry. The only thing that is changing in the ordinance beside the lot E type being added in is the ability to do a mixture of front entry and j-swing whereas previously, had it been approved at second reading it would have just been j-swing only in one pod.

Chairman Renfro asked the applicant to clarify how the option for the front entry would be.

Adam Buzcek
8214 Westchester suite 710
Dallas, TX

Mr. Buzcek came forward and stated concerning the front entry option they would like to have the ability to have some front entry mix of product in this area that will back up the commercial area going with the 60 foot lot size. They are having customers that would like a bigger backyard and the front entry provides about 20 feet of extra backyard with the same size house. It is basically market driven and would like to have more options. Concerning how many will be front entry, it will be inner mixed.

Chairman Renfro expressed concern of not having a certain allocation for how many front entry there will be from the beginning and asked the applicant if they would be willing to do an allocation. Mr. Buzcek stated they would and will discuss it with staff.

Commissioner Lyons made comment on also wanting some allocation and does like the idea of variety but by allocating it will provide some control of that variety staying intact.

Commissioner Trowbridge asked if the PD has the anti-monotony requirements. Mr. Miller stated that the anti-monotony requirements don't currently pertain to garage swing because the existing PD just incorporated the two garage swings required by the UDC the swing of the driveway was not addressed in the anti-monotony requirement in the same manner.

There being no further questions, Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

8. P2016-040
Discuss and consider a request by Chad & Lindsay Hudson for the approval of a replat for Lots 7 & 8, Block A, Independence Pass Addition being a replat of a 1.4-acre parcel of land identified as Lot 5, Block A, Independence Pass Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) for single family land uses, addressed as 107 Independence Place, and take any action necessary.

Planner Korey Brooks gave brief explanation of the request stating the plat does meet the technical requirements and is coming before the Commission because it is a residential replat where the applicant is adding an additional lot and therefore one notification was sent out. Applicant is subdividing the lot because he is going to build a house on each lot.

Commissioner Trowbridge asked if there would be access for a street between lot 7 and lot 8. Mr. Brooks stated there will be shared access for both lots from the cul-de-sac and would be a private road.

There being no further questions, Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

9. P2016-043
Discuss and consider a request by Jay Webb of Dalrock Homes, LLC for the approval of a final plat for Lots 1-10, Block A, Estates on the Ridge Subdivision, containing ten (10) single-family residential lots

on an 18.84-acre tract of land identified as Tract 7-04 & 23 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, situated within the City of Rockwall's Extraterritorial Jurisdiction (ETJ), located at the northwest corner of the intersection of FM-3549 and Cornelius Road, and take any action necessary.

Senior Planner, David Gonzales, stated the applicant was present.

Chairman Renfro asked the applicant to come forward.

Jay Webb
912 Hamilton Court
McClendon Chism, TX

Mr. Webb came forward and stated the subject property is a 19 acre tract in the ETJ and has it divided into 10 individual lots of 1 ½ -2 acre tracts. He received some comments from the County that it needed to be an acre and a half net of ponds. They have met with TXDOT concerning the lots that face FM3549 and they've approved.

There being no further questions, Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

10. SP2016-019
Discuss and consider a request by Kevin Patel, P. E. on behalf of William Shaddock of Master Developers-SNB, LLC for the approval of a site plan for a daycare facility on a 2.960-acre tract of land identified as Lot 1, Block S, Preserve, Phase 3 Addition and Tract 12 [*1.4376-acres*], A. Hanna Survey, Abstract No. 98, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 41 (PD-41) and Single Family 10 (SF-10) District, addressed as 1292 East Fork Drive, and take any action necessary.

Planner, Korey Brooks, stated the applicant was present.

Chairman Renfro asked the applicant to come forward.

Kevin Patel
1503 Istoria Drive
Allen, TX

Mr. Patel came forward came forward and stated they are proposing a 13,000 square foot daycare facility and is available for any question from the Commission.

Chairman Renfro asked if this area is already zoned for daycare facilities.

Mr. Brooks stated it is and added that a few years ago the City Council approved an SUP for daycare facilities with certain conditions which are that for the landscape plan a ten foot landscape buffer will need to be in place along North Lakeshore and Old Alamo Road which is East Fork at least one evergreen canopy tree per thirty linear feet, along with a combination of berms, shrubs and accent trees to ensure appropriate screening of the parking areas from adjacent residential uses. That all permanent free standing signs shall be limited to monument signs not exceeding five feet in height or a maximum of sixty square feet in area per sign face. That in addition to the requirements of the outdoor lighting ordinance, no light pole including base or wall-mounted light fixture shall exceed fifteen feet in height, and all lighting fixtures shall focus light downward and be contained entirely on the site. That any daycare constructed on this site shall be limited to single story, and shall be designed with a pitched roof system. That all outdoor play areas shall be located towards the rear of the building as depicted on the conceptual site plan. The existing prescriptive right-of-way of the original Alamo Road shall be corrected prior to or concurrently with the final replat of the subject property.

Chairman Renfro asked for questions for staff or the applicant.

Commissioner Trowbridge asked for clarification of what City Council had approved the site for, asked what the Commission is approving. Mr. Brooks stated the Commission is only approving

the site plan. The original SUP had certain guidelines the applicant had to follow and they have done so.

Mr. Brooks added that staff and the applicant met with the Architectural Review Board earlier and they approved the building elevations that were submitted.

There being no further questions, Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

11. SP2016-020

Discuss and consider a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Cindy Paris of Rockwall Regional Hospital, LLC for the approval of a site plan for a medical office building on a 5.75-acre portion of a larger 17.8321-acre parcel of land being identified as Lot 15, Block A, Presbyterian Hospital of Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, located east of the intersection of Summer Lee Drive and Rockwall Parkway, and take any action necessary.

Planner, Korey Brooks, stated the applicant was present.

Chairman Renfro asked the applicant to come forward.

Matt Moore
1903 Central Drive
Bedford, TX

Mr. Moore came forward and stated they are proposing a 55,000 square foot medical office building adjacent to the existing medical office building and hospital. It will have roughly about 280 parking spaces; the architecture of the building is matching the first medical office building and will mimic the same landscape features.

Chairman Renfro made comment of the building ties to what already exists and asked the Commission if there were any questions.

Chairman Renfro asked if the Architectural Review Board review the item. Mr. Brooks stated that part of the original site plan outlined that there would be a future expansion and the masonry variance that was approved would apply for this building as well as long as it matches the existing building and they have done that.

There being no further questions, Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

12. SP2016-021

Discuss and consider a request by Vinod Sharma of Little Genius of Texas, LLC for the approval of a site plan for a private pre-school facility on a 2.28-acre tract of land identified as Tract 2-3 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for General Retail (GR) District land uses, located at the southeast corner of the intersection of FM-552 and Stone Creek Drive, and take any action necessary.

Planner, Korey Brooks, stated the applicant was present.

Chairman Renfro asked the applicant to come forward.

Charles Voight
(No address given)

Mr. Voight came forward and stated he was representing Mr. Sharma and he gave brief explanation of request stating it is a 12,000 square feet one story private school with about 200 students and ten classrooms. He met with the Architectural Review Board earlier in the evening and they had several recommendations concerning the front elevation, add more stone in a few areas and increase the dormers and they will be addressing those for the next meeting.

Mr. Brooks added that the ARB also recommended that on the north elevation that faces FM-552 on the middle wall that there be more landscaping and stone. Mr. Brooks stated this use is allowed by right in this PD.

Commissioner Trowbridge asked what the land use for PD-70 which is across the street was. Mr. Brooks stated that it is residential. Mr. Miller added that the subject property is in PD-70 which is mixed uses and incorporates the retail at the hard corner of FM-552 and SH-205.

There being no further questions, Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

13. SP2016-022

Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Gerald Houser of Colin-G Properties, LTD for the approval of a site plan for the expansion of an existing industrial facility on a 6.19-acre parcel of land identified as Lot 1, Block A, Houser Addition, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, situated within the SH-276 Corridor Overlay (SH-276 OV) District, addressed as 1611 SH-276, and take any action necessary.

Senior Planner, David Gonzales, gave brief explanation of request stating the subject property is zoned Heavy Commercial and has been there for quite some time and there are associated variances and exceptions that are being proposed. Those were discussed earlier with the Architectural Review Board and they made a recommendation for approval of the variances associated with what the applicant plans on doing, however there is one item that the Commission will have to consider and that is the parking of the facility which is nine spaces short.

Chairman Renfro asked the applicant to come forward.

Gerald Houser
1108 Aspen Court
Rockwall, TX

Mr. Houser came forward and stated the subject property is on an industrial site and they plan to build two buildings. He is requesting to keep it at the existing 19 parking spaces, there are 10 employees.

Chairman Renfro asked what would be needed to meet the parking requirements. Mr. Gonzales stated it is 1 per 300 square feet.

Commissioner Fishman asked if aside from employees would there be any additional traffic generated. Mr. Houser stated there would not be any additional traffic.

There being no further questions, Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

14. SP2016-023

Discuss and consider a request by Worth Williams of Moore Worth Investments, LLC for the approval of a site plan for a multi-tenant commercial/retail building on a 1.56-acre tract of land being a portion of a larger 6.1091-acre tract of land identified as Tract 8-4 of the J. H. B. Jones Survey, Abstract No. 8-4, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the southwest corner of Quail Run Road and N. Goliad Street [*SH*-205], and take any action necessary.

Senior Planner, David Gonzales, stated the Architectural Review Board made a recommendation to the applicant and what they are going to do is revise their elevations and bring those back for the ARB to review the revised elevations at the next scheduled meeting. Mr. Gonzales provided a sample bard and stated that the subject property being located within PD-65 and on an Overlay District requires natural or quarried stone and the applicant is providing a cultured stone.

Commissioner Trowbridge asked if the concern is that the applicant is requesting to use manufactured stone instead of natural stone. Mr. Gonzales stated that was correct.

Commissioner Trowbridge asked if the 20% stone requirement would apply. Mr. Gonzales stated 20% would be required and looking at the elevations they are providing more stone on four of the elevations however on the front elevation they are not up to the 20% and that will be a variance to the Overlay District.

Chairman Renfro asked if the ARB had approved the material. Mr. Gonzales stated the applicant will be bringing back revised elevations and the ARB will be looking at a manufactured cut sheet to ensure that the materials meet the high quality standards outlined in the ordinance.

Chairman Renfro asked the applicant to come forward.

Worth Williams
700 Eastern Ave.
Dallas, TX

Mr. Williams came forward and stated they will work with staff as well as the Architectural Review Board and bring back the revised elevations they are asking for.

Commissioner Trowbridge asked how many tenants space would allow for and were there any pre-leasing to date. Mr. Williams stated there will probably be six tenants and they have about 60 percent pre-leased.

There being no further questions, Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

15. Director's Report of post Council meeting outcomes of Planning & Zoning cases.

- ✓ P2016-038: Lots 1 & 2, Block A, Autumn Addition [*Approved*]
- ✓ P2016-039: Lots 1 & 2, Block A, Burke Addition [*Approved*]

Planning Director, Ryan Miller, **provided a brief update about the outcome of the above referenced case at the City Council meeting. No discussion took place concerning this agenda item.**

V. ADJOURNMENT

The meeting adjourned at 7:16 p.m.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2016.

_____
Craig Renfro, Chairman

Attest:

_____
Laura Morales, Planning Coordinator

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 10/11/2016

APPLICANT: Jay Webb of *Dalrock Homes, LLC*

AGENDA ITEM: **P2016-043**; Estates on the Ridge Subdivision (*ETJ Final Plat*)

SUMMARY:

Discuss and consider a request by Jay Webb of Dalrock Homes, LLC for the approval of a final plat for Lots 1-10, Block A, Estates on the Ridge Subdivision, containing ten (10) single-family residential lots on an 18.84-acre tract of land identified as Tract 7-04 & 23 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, situated within the City of Rockwall's Extraterritorial Jurisdiction (ETJ), located at the northwest corner of the intersection of FM-3549 and Cornelius Road, and take any action necessary.

PLAT INFORMATION:

- ✓ The purpose of the applicant's request is to final plat 10 single-family residential lots on an 18.84-acre tract of land situated within the City of Rockwall's Extraterritorial Jurisdiction (ETJ). The development will be known as the Estates on the Ridge Subdivision. The development will be located at the northwest corner of the intersection of FM-3549 and Cornelius Road.

- ✓ Per the *Interlocal Cooperation Agreement* between the City of Rockwall and Rockwall County, any property situated within Rockwall County in the City's Extraterritorial Jurisdiction (ETJ) is subject to the City's subdivision regulations. In addition, the City of Rockwall is the governing body responsible for approving said plats upon a recommendation/comment from the County's designated representative. In this case, the plat has been reviewed by Rockwall County and the County's comments have been provided to the applicant.

- ✓ The Surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for plats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ✓ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the Recommendation section below.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the final plat as requested, staff would offer the following conditions:

1) All staff comments (*Project Plan Review*) provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit and to include the following additional Planning comments;

    a. Adherence to all Engineering and Fire Department standards shall be required.

2) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING COMMENTS - DAVID GONZALES - 10.04.2016 The following staff comments (including Rockwall County comments) are to be addressed and resubmitted no later than Tuesday, October 19, 2016. Please provide two large copies [18" X 24" FOLDED] and one PDF version for a final review by staff: 1. Adherence to all Engineering and Fire Department standards shall be required. 2.Provide City staff with a .dwg file. The CD submitted was blank. 3. Rockwall County to approve plat. 4. Please add this statement to the General Notes as #6: If ponds are proposed to be filled-in, a Wetland and Waters of the U.S. determination will need to be completed, submitted to the City of Rockwall, and approved prior to any grading and/or building. ** As a note and once the plat has been approved by the Planning and Zoning Commission and City Council, all staff comments are to be addressed and all revisions resubmitted and approved (by staff) prior to plat submittal on mylar for filing purposes. ** Meeting Dates to Attend: Although it is not mandatory, staff would recommend that someone be present for all meetings scheduled below in the event there are questions from either P&Z, or City Council. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.. Planning - Consent Agenda: October 11, 2016 (6:00 p.m.) City Council - Consent Agenda: October 17, 2016 (6:00 p.m.)

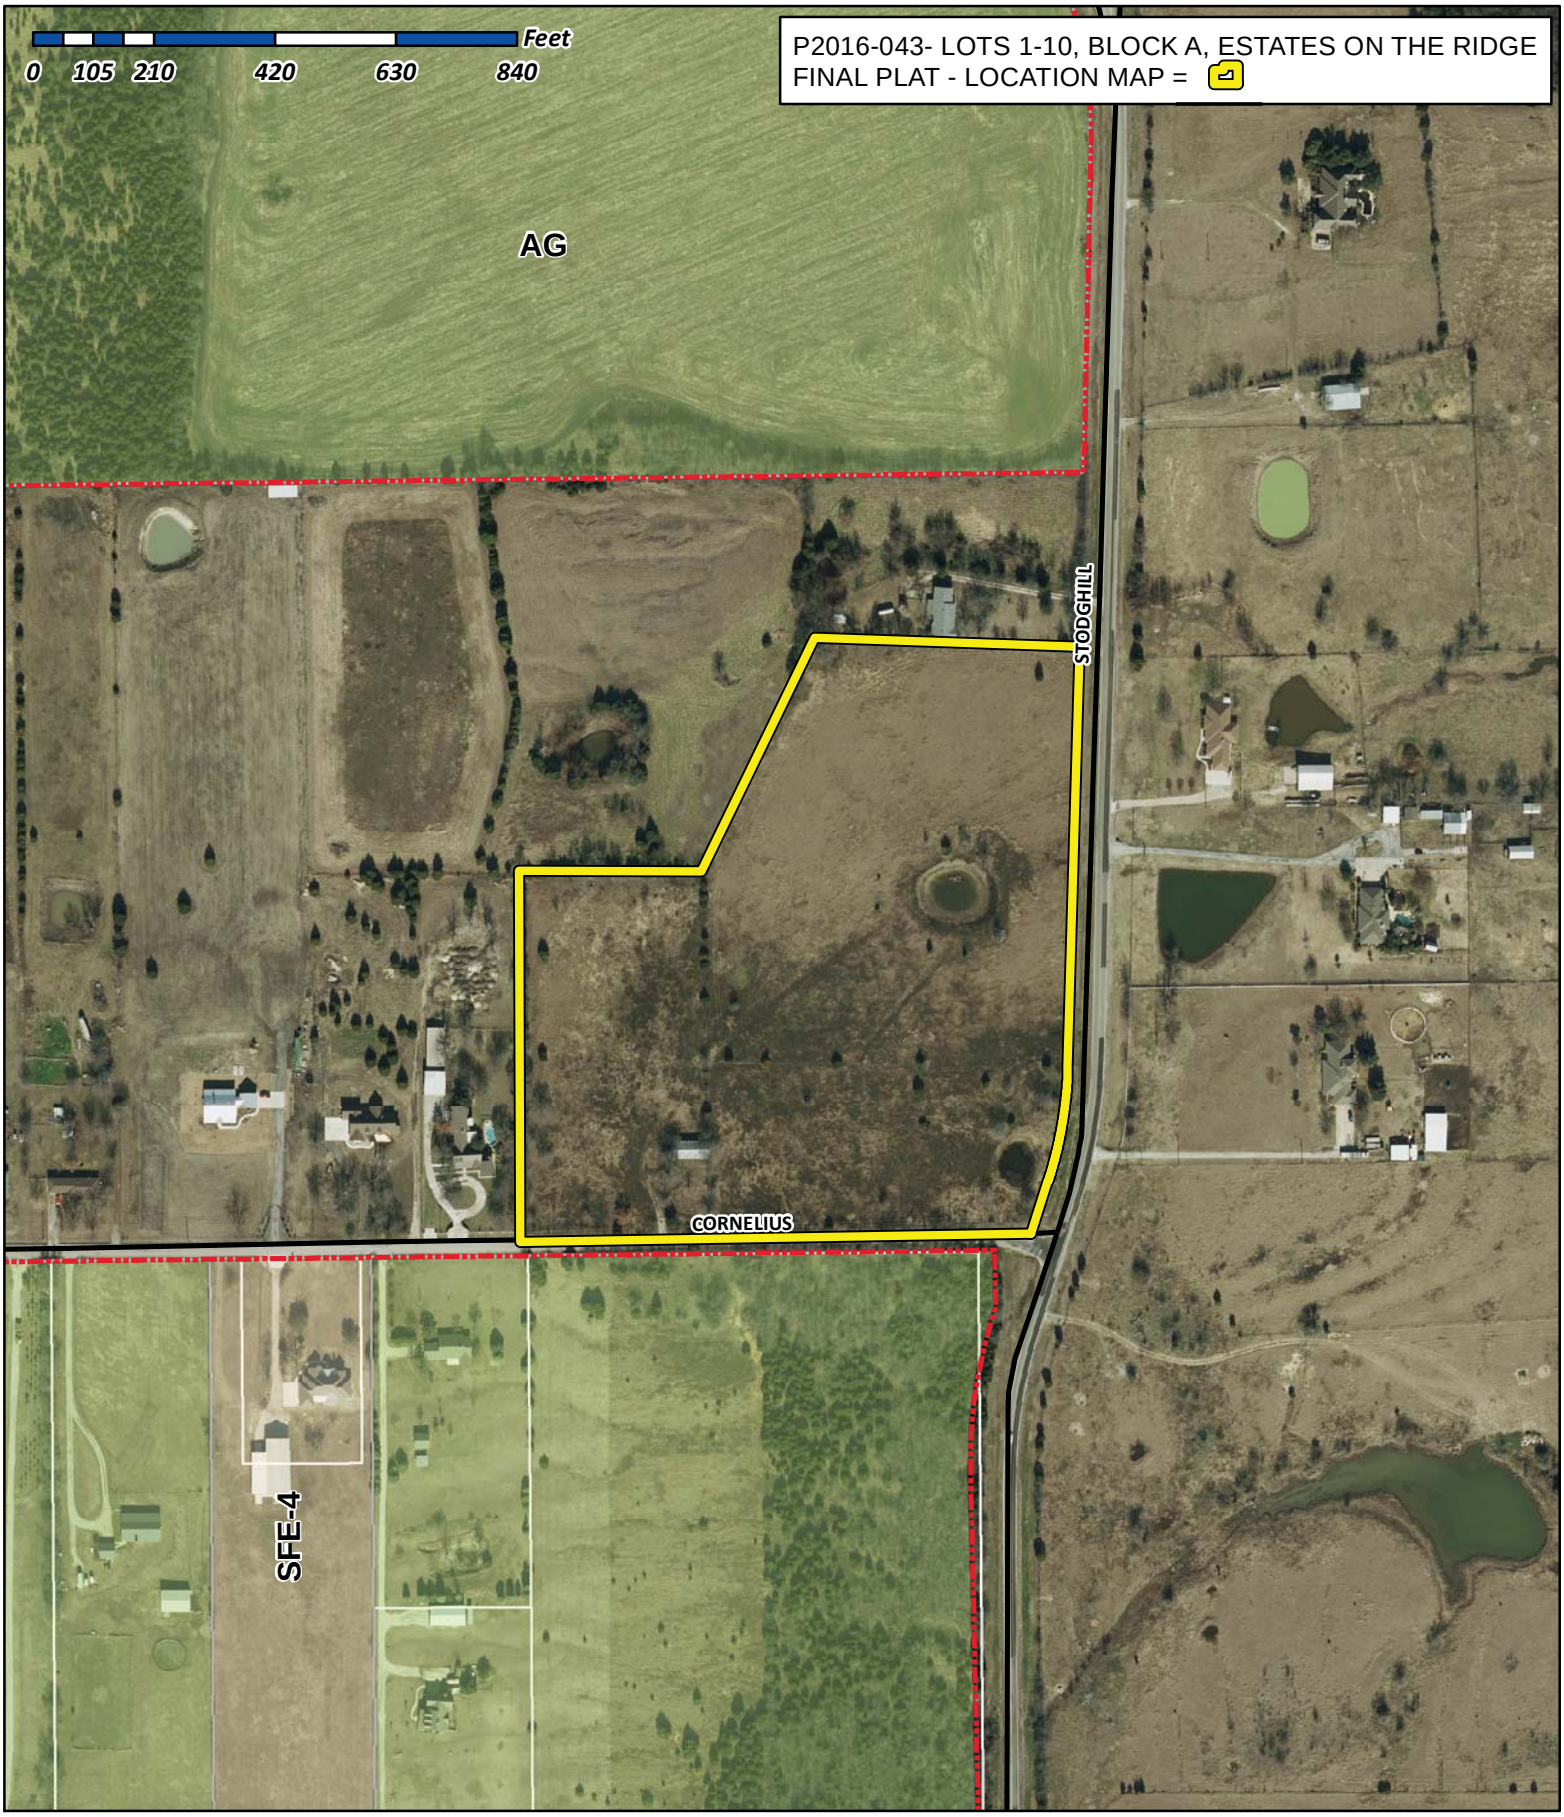
PLANNING COMMENTS - DAVID GONZALES - 09.22.2016

Discuss and consider a request by Jay Webb of Dalrock Homes, LLC for the approval of a final plat for Lots 1-10, Block A, Estates on the Ridge Subdivision, containing ten (10) single-family residential lots on an 18.84-acre tract of land identified as Tract 7-04 & 23 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, situated within the City of Rockwall's Extraterritorial Jurisdiction (ETJ), located at the northwest corner of the intersection of FM-3549 and Cornelius Road, and take any action necessary.

The following staff comments (including Rockwall County comments) are to be addressed and resubmitted no later than Tuesday, October 4, 2016. Please provide three large copies [18" X 24" FOLDED] and one PDF version for a subsequent review by staff:



1. Adherence to all Engineering and Fire Department standards shall be required.
2. Provide a label indicating "Case No. P2016-043" on the lower right corner on all pages of the revised plat.
3.Provide City staff with a .dwg file.
4. Rockwall County to approve plat.
5. County comments (Ron Merritt - e-mail): I have called the surveyer about lot 3-4-5 cant use the ponds as part of the 1 ½ acres. If they will be filled in then no problems. I will have to present this to the court for approval. If ponds are not filled, provide a net acrage for each lot.
6. Engineering comments regarding ponds: If ponds are proposed to be filled in, a Wetland and Waters of the US determination will need completed, submitted to the City and approved prior to any grading/building.
7. Use a lighter gray scale for the contour lines.
8. Remove tree layer from plat.
9. Provide adjacent property owner information for lots east of subdivision.
10. Provide Rockwall County Judge Signature Block.
11. Correct language in the standards signature block under "Approved" to indicate "...was approved by the City Council of the..."
12. Notary Certificate is not necessary when plat is stamped by Surveyor.

** As a note and once the plat has been approved by the Planning and Zoning Commission and City Council, all staff comments are to be addressed and all revisions resubmitted and approved (by staff) prior toplat submittal on mylar for filing purposes. **

Meeting Dates to Attend; Please be sure that a representative is present during both scheduled meetings as indicated below. The meetings will be held in the City's Council Chambers. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

CASE NO. P2016-043

OWNER'S DEDICATION

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS, Dalrock Homes, BEING THE OWNER OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

Owner: Dalrock Homes

Being a tract of land situated in the William Dalton Survey, Abstract No. 72 in the City of Rockwall, Rockwall County, Texas, being all of a tract of land conveyed to Dalrock Homes by deed recorded in Instrument No. _____, Official Public Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

Beginning at a Mag Nail set in asphalt at the intersection of the West line of N. F.M. 3549 (N. Stodghill Road–a variable width right–of–way) and the approximate centerline of Cornelius Road (a variable width right–of–way) being the Northeast corner of a tract of land conveyed to Mary Warriner Williams and Ernskine Williams, Jr. by deed recorded in Volume 1122, Page 15, Deed Records, Rockwall County, Texas;

Thence South 88 degrees 46 minutes 57 seconds West, leaving said intersection and along the said approximate centerline of Cornelius Road, a distance of 886.95 feet to a Mag Nail set in asphalt at the Southeast corner of a tract of land conveyed to Jimmy Pannell and Crystal Pannell by deed recorded in Volume 5104, Page 289, Deed Records, Rockwall County, Texas;

Thence North 00 degrees 26 minutes 06 seconds West, along the East line of said Panell tract, a distance of 644.31 feet to a 1/2 inch iron rod with yellow cap stamped "CBG SURVEYING" set at the Northeast corner of said Pannell tract, being in the South line of a tract of land conveyed to Allen Brothers Investment Company by deed recorded in Volume 153, Page 629, Deed Records, Rockwall County, Texas;

Thence North 89 degrees 54 minutes 32 seconds East, along the said South line of Allen Brothers Investment Company tract, a distance of 316.33 feet to a 1/2 inch iron rod with yellow cap stamped "CBG SURVEYING" set at the Southeast corner of said Allen Brothers Investment Company tract;

Thence North 25 degrees 37 minutes 12 seconds East, along the East line of said Allen Brothers Investment Company tract, a distance of 451.18 feet to a 1/2 inch iron pipe found at the Southwest corner of a tract of land conveyed to W. Kyle Allen and wife, Dorothy E. Allen by deed recorded in Volume 124, Page 749, Deed Records, Rockwall County, Texas;

Thence South 88 degrees 15 minutes 57 seconds East, along the South line of said Allen tract, a distance of 460.48 feet to a 3/8 inch iron rod found for corner in the said West line of N. F.M. 3549;

Thence South 01 degrees 23 minutes 12 seconds West, along the said West line of N. F.M. 3549, a distance of 728.31 feet to a concrete monument found for corner, said point being the beginning of a curve to the right having a radius of 713.94 feet, a delta of 16 degrees 19 minutes 45 seconds, and a chord that bears South 09 degrees 30 minutes 39 seconds West, a distance of 202.78 feet;

Thence continuing along the said West line of N. F.M. 3549 and said curve to the right, an arc length of 203.47 feet to a 1/2 inch iron rod with yellow cap stamped "CBG SURVEYING" set for corner, from which a concrete monument found for witness bears North 80 degrees West, a distance of 0.5 feet;

Thence South 17 degrees 40 minutes 32 seconds West, continuing along the said West line of N. F.M. 3549, a distance of 95.24 feet to the Point of Beginning and containing 820,481 square feet or 18.84 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

We the undersigned owner(s) of the land shown on this plat, and designated herein as the **ESTATES ON THE RIDGE, LOTS 1–10, BLOCK A**, an addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the **ESTATES ON THE RIDGE, LOTS 1–10, BLOCK A** have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I (we) also understand the following:

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We, our successors and assigns hereby waive any claim, damage, or cause of action that We may have as a result of the dedication of exactions made herein.

CASE NO. P2016–043

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 10/11/2016

APPLICANT: James Shaw

AGENDA ITEM: **Z2016-030;** 1910 Copper Ridge Circle (*SUP*)

SUMMARY:

Hold a public hearing to discuss and consider a request by James Shaw for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4692-acre parcel of land identified as Lot 14, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1910 Copper Ridge Circle, and take any action necessary.

BACKGROUND INFORMATION

The applicant James Shaw is requesting the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum masonry requirements stipulated Article VI, *Permissible Uses*, of the Unified Development Code (UDC). The applicant is proposing to construct a metal building that is 30-feet by 40-feet or approximately 1,200 sq. ft. According to the UDC, the exterior materials of an accessory building must match those of the main structure. The applicant is requesting an exception to the masonry requirement to construct an accessory building out of a steel building system with a standing seam metal roof for an accessory building in an SFE-1.5 District.

NOTIFICATION:

On October 1, 2016, Staff mailed 33 notices to property owners and occupants within 500-feet of the subject property. Staff also notified the Lofland Farms and Timber Creek Estates HOAs, which are the only HOA's/Neighborhood Organizations that are within 1,500-feet of the subject property and participating in the notification program. Additionally, staff posted a sign on the subject property as required by the Unified Development Code (UDC). At the time this report was drafted, staff had not received any notices returned.

RECOMMENDATIONS:

Should the Planning and Zoning Commission and City Council choose to approve the SUP request, staff would offer the following conditions of approval:

1) The accessory building be subject to the operational conditions contained in the SUP ordinance, which are as follows:

    A. The accessory building shall generally conform to the approved site plan and building elevations depicted in Exhibits 'A' & 'B' of the attached ordinance.

    B. The accessory building shall not exceed a maximum size of 1,200 square feet.

    C. The accessory building shall not exceed a maximum overall height of 20-feet.

D. The accessory building is subject to administrative review in the event that the Subject Property is sold, conveyed or altered in any manner

2) Any construction or building necessary to complete this request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Z2016-030 SUP for Accessory Building:
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by James Shaw for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4692-acre parcel of land identified as Lot 14, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1910 Copper Ridge Circle.
I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (Z2016-030) in the lower right hand corner of all pages on future submittals.
I.4 Please review the attached draft ordinance prior to the October 11, 2016 Planning & Zoning Commission meeting.
I.5 The Planning and Zoning Worksession is September 27. The Planning and Zoning Meeting is September 13.
I.6 The projected City Council meeting dates for this case will be October 17, 2016 [1st Reading] & November 7, 2016 [2nd Reading].

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [ORDINANCE NO. 04-38] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR AN ACCESSORY BUILDING THAT DOES NOT MEET THE MINIMUM REQUIREMENTS ON A 1.4692-ACRE PARCEL OF LAND ZONED SINGLE FAMILY ESTATE 1.5 (SFE-1.5) AND IDENTIFIED AS LOT 14, BLOCK B, STERLING FARMS ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by James Shaw for the approval for a Specific Use Permit (SUP) for the purpose constructing an accessory building that does not meet the minimum masonry requirements, situated on a 1.4692-acre parcel of land, zoned Single Family Estate 1.5 (SFE-1.5) District, and being identified as Lot 14, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, addressed as 1910 Copper Ridge Circle, and being more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit allowing for the establishment of a metal accessory building that does not conform to the minimum masonry requirements for accessory buildings in a Single Family Estate 1.5 (SFE-1.5) District as stipulated by *Article IV, Permissible Uses,* and *Article V, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes described in this Specific Use Permit (SUP) ordinance and as specifically set forth in *Section 3.2, Single-Family Estate (SF/E 1.5) District, of Article V, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by the granting of this zoning change, and as my be amended in the future, and shall be subject to the additional following conditions:

DRAFT ORDINANCE 10.17.2016

1) The accessory building shall generally conform to the approved site plan and building elevations depicted in *Exhibits 'A' & 'B'* of this ordinance.

2) The accessory building shall not exceed a maximum size of 1,200 square feet.

3) The accessory building is subject to administrative review in the event that the *Subject Property* is sold, conveyed or altered in any manner.

Section 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

Section 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

Section 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* (*$2,000.00*) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

Section 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

Section 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 7th DAY OF NOVEMBER, 2016.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 10/11/2016

APPLICANT: Kasey Weadon; *New Craft Brewing*

AGENDA ITEM: **Z2016-031**; *Amendment to Planned Development District 1 (PD-1)*

SUMMARY:

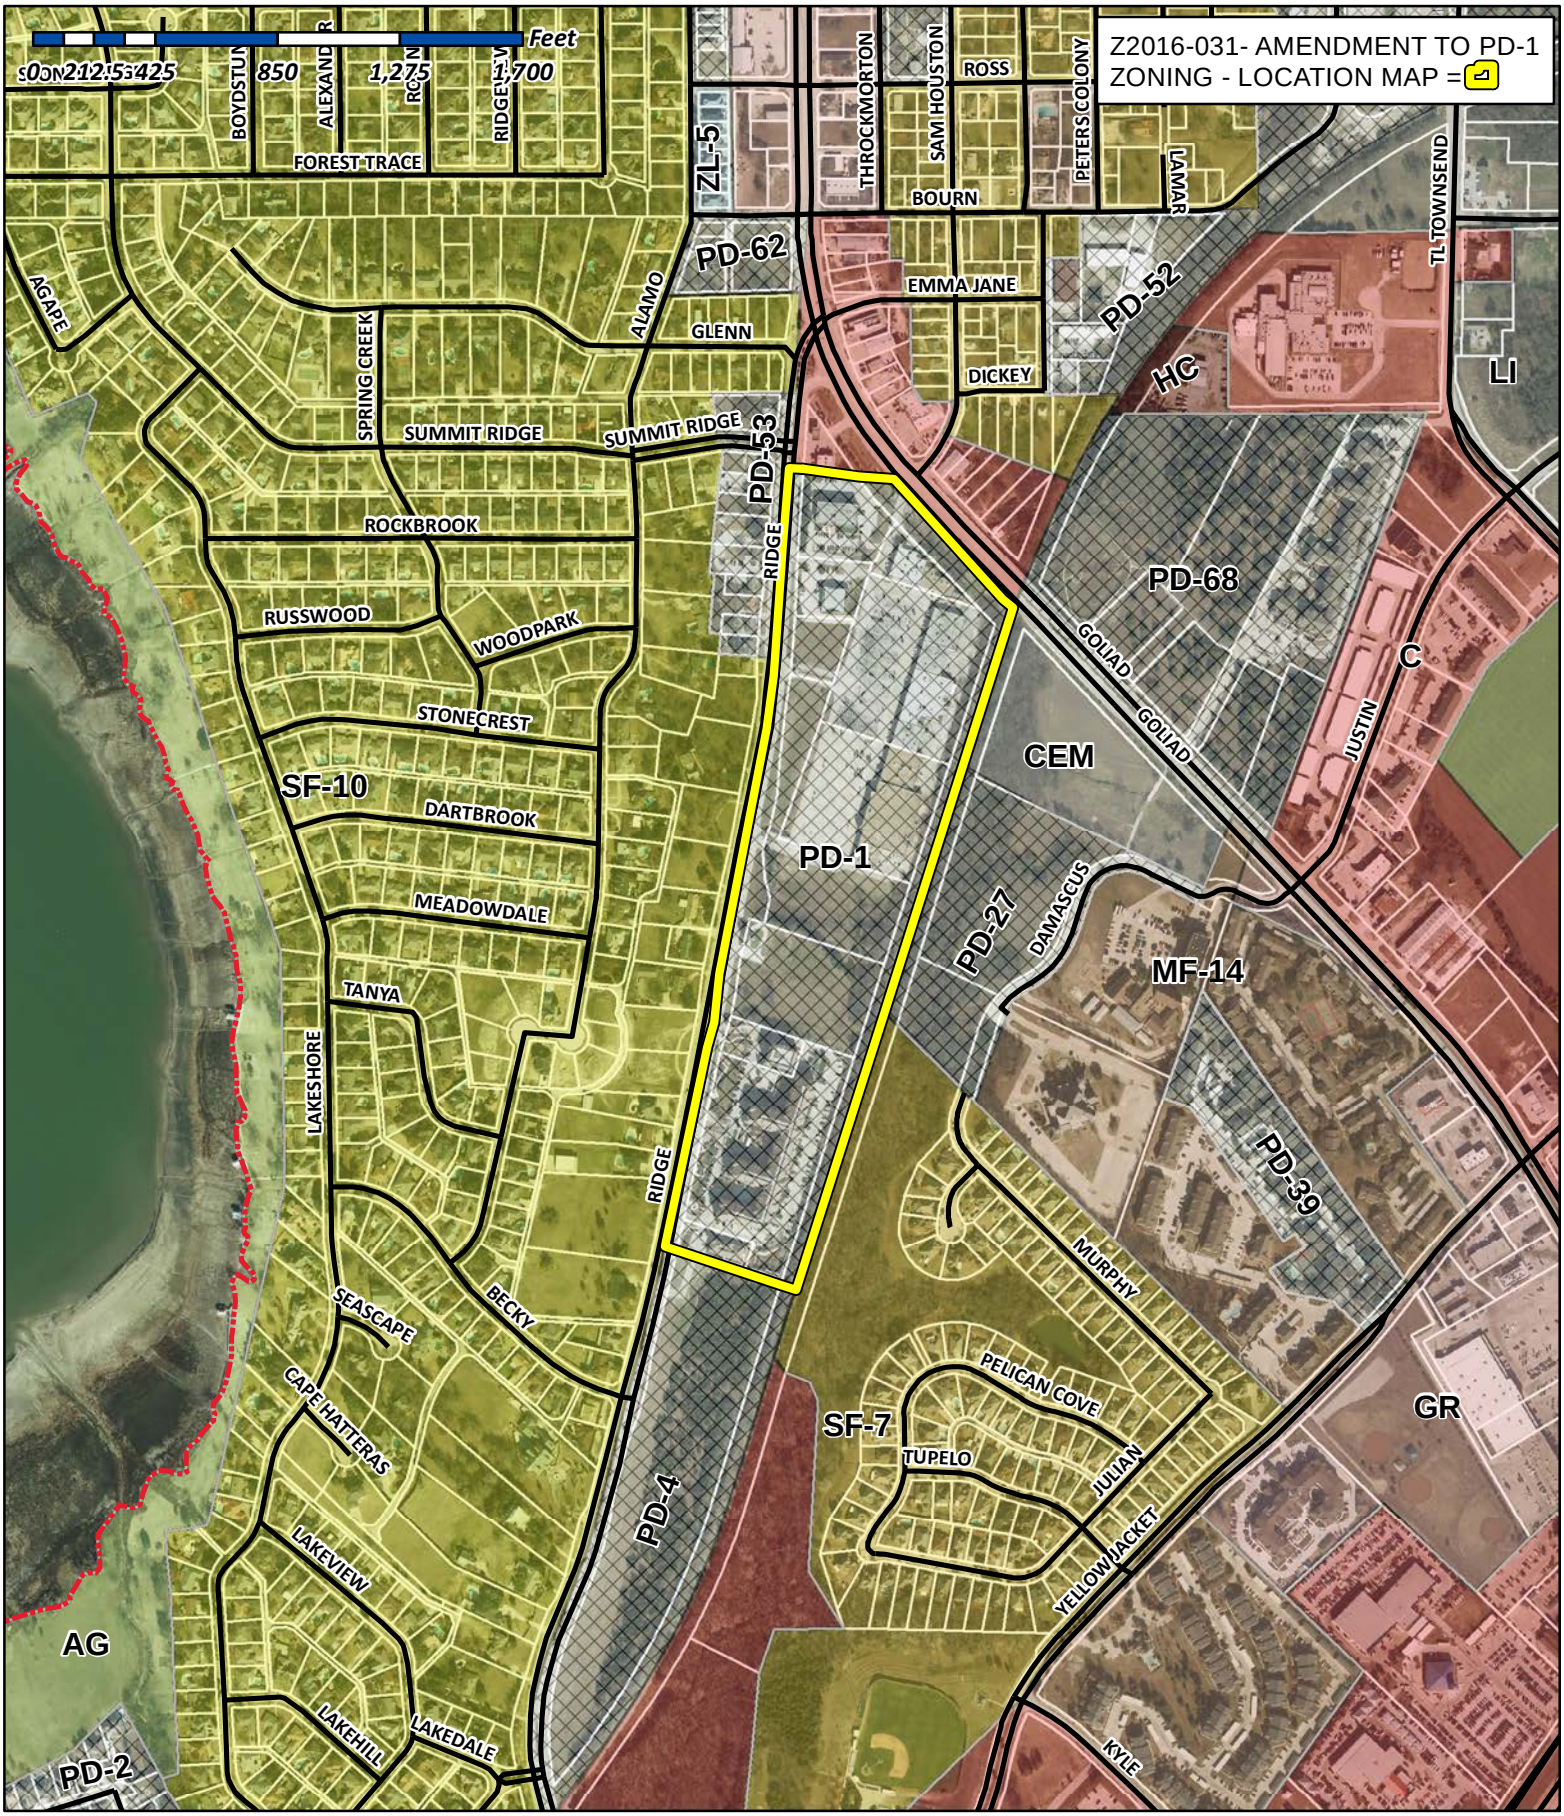
Hold a public hearing to discuss and consider a request by Kasey Weadon of New Craft Brewing, LLC on behalf of the owner Benbrooke Ridge Partners, LP for the approval of an amendment to Planned Development District 1 (PD-1) for the purpose of allowing the Brewery or Distillery (Excluding Brew Pub) land use in the Planned Development District, being identified as ~39.5249-acre tract of land situated in the B. J. T. Lewis Survey, Abstract No. 255 and the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, situated within the Scenic Overlay (SOV) District, located on the eastside of Ridge Road south of the intersection of Ridge Road [*FM-740*] and SH-205, and take any action necessary.

BACKGROUND:

Planned Development District 1 (PD-1) was approved by City Council on February 1, 1971, but not adopted until January 3, 1972 when it was incorporated into the *Comprehensive Zoning Ordinance* by *Ordinance No. 72-02*. At the time of incorporation, the planned development district permitted all uses allowed for General Retail (GR) and Multi Family (MF) Districts. This ordinance was amended in 1983 by *Ordinance No. 83-21* to add office uses to a 12.5-acre portion of PD-1.

On November 4, 2002, City Council approved *Ordinance No. 02-49* amending an 8.108-acre portion of PD-1 to allow a mixed-use (*i.e. general retail, office, townhouse and multi-family uses)* development (*i.e. the Commons, Phase I*). PD-1 was again amended by *Ordinance No. 12-03* on February 6, 2012 to allow a mixed residential/retail development on a 2.88-acre tract of land (*i.e. the Commons, Phase 2*).

PURPOSE & REQUEST:



The applicant, Kasey Weadon of *New Craft Brewing, LLC*, is requesting to further amend PD-1 to allow for the *Brewery or Distillery (Excluding Brew Pub)* land use to be permitted on a ~25.97-acre portion of the planned development district. Currently, the *Brewery or Distillery (Excluding Brew Pub)* land use is only permitted *by-right* in the Light Industrial (LI) and Heavy Industrial (HI) Districts. The purpose of these designations is that -- *until recently* -- a brewery or distillery was viewed as a manufacturing or industrial type of use; however, in 2013 the *Texas Alcoholic Beverage Commission (TABC)* passed amendments designed to loosen the restrictions on *microbreweries* or *craft-breweries*. According to the Brewer's Association, a *craft-brewer* is a small independent and traditional brewery with *small* being defined as an annual production of less than six (6) million barrels and *independent* defined as at least 75% owned or controlled by the craft brewer. Specifically under the new *TABC* requirements, a *Brewer's Permit (B)* allows a brewery that produces fewer than 225,000 barrels annually to sell ale *produced on the brewer's premise* to consumers for consumption on the brewer's premise; however, these sales may not exceed 5,000 barrels annually and cannot include ale (*or any other alcoholic product*) not produced on the brewer's premise. This also excludes package sales for off-site consumption. This has allowed craft-breweries the ability to open tasting rooms (*also called taprooms*), which are typically utilized in the same manner a vineyard would use a wine tasting room. In addition, *Section 105.081* of the TABC code was added to

address the hours of operation for businesses holding a *Brewers Permit (B)*. This section allows these businesses to operate tasting rooms between the hours of 8:00 AM – 12:00 AM Monday through Saturday and 10:00 AM – 12:00 AM on Sunday. With the passage of the new *TABC* requirements, craft-breweries have been established in commercial, retail and industrial areas in cities across Texas.

As part of the applicant's request, staff has suggested to the applicant that the use may be better served through a Specific Use Permit (SUP). This would grant the Planning and Zoning Commission and City Council discretion with regard to the use on a case-by-case basis, and allow a regulating ordinance to be adopted that can be tailored to the specific request. The applicant agrees with staff's suggestion and is requesting that the *Brewery or Distillery (Excluding Brew Pub)* land use be allowed by Specific Use Permit (SUP). This means that if the City Council chooses to approve the amendment to PD-1, the applicant would be required to submit a request for a Specific Use Permit (SUP) prior to requesting a Certificate of Occupancy (CO). Staff has included an excerpt from the permitted use chart showing how the use is currently being regulated, an excerpt from the *TABC* code showing the changes implemented in 2013, a letter from the applicant and a draft ordinance. As staff has been done in past amendments to planned development districts that consist of several regulating ordinances, staff has taken this opportunity to consolidate the regulating ordinances of PD-1 into one (1) ordinance; however, while staff has clarified several sections of these ordinances in the new regulating ordinance, no changes with regard to the requirements, intent or permitted land uses have been made to any other portion of the planned development district (*with the exception of adding the requested land use*).

NOTIFICATION:

On September 30, 2016, staff mailed 176 notices to property owners and residents within 500-feet of Planned Development District 1 (PD-1). Staff also emailed notices to the Turtle Cove and Waterstone Estates Homeowner's Associations (HOA) and the Southside Residential Neighborhood Organization, which are the only neighborhood groups located within 1,500 feet of the subject property participating in the Neighborhood Notification Program. Additionally, staff posted a sign on the subject property along Ridge Road as required by the Unified Development Code (UDC). At the time this case memo was drafted no responses were received by staff.

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. The City of Rockwall Planning and Zoning Commission will hold a public hearing on Tuesday, October 11, 2016 and the Rockwall City Council will hold a public hearing on Monday, October 17, 2016. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on ***September 30, 2016***. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

PLANNED DEVELOPMENT DISTRICT 1
LEGAL DESCRIPTION

PD1

PLANNED DEVELOPMENT NO. 1
LEGAL DESCRIPTION

BEING an approximate 39.6443 acre tract of land situated in the Eastridge Center Addition, Oreilly Addition, and Rockwall Commons Addition, as recorded in the County of Rockwall, Texas and being more particularly described as follows:

BEGINNING at a point in the south right of way line of State Highway 205 (S. Goliad St) and the most northeastern corner of the Eastridge Center Addition (Plat Date 06/27/1977), said point being the **POINT OF BEGINNING**;

THENCE S.85°55'54"E., a distance of 122.63 feet to a point in the right of way of State Highway 205 (S. Goliad St);
THENCE S.42°16'51"E., a distance of 562.88 feet;
THENCE S.50°16'49"E., a distance of 45.96 feet for a corner;
THENCE S.17°37'07"W., a distance of 574.34 feet along the centerline of the Dallas, Garland and Northeastern Railroad;
THENCE continue southerly along said line, a distance of 902.87 feet;
THENCE S.17°45'42"W., a distance of 1,008.68 feet for a corner;
THENCE N.73°24'37"W., a distance of 57.97 feet;
THENCE N.71°22'39"W., a distance of 378.33 feet;
THENCE N.71°58'06"W., a distance of 42.15 feet for a corner;
THENCE N.11°18'18"E., a distance of 736.84 feet;
THENCE N.10°53'56"E., a distance of 85.39 feet;
THENCE N.11°21'07"E., a distance of 223.50 feet;
THENCE N.10°54'10"E., a distance of 790.62 feet;
THENCE N.07°16'40"E., a distance of 181.57 feet;
THENCE N.04°08'39"E., a distance of 60.22 feet;
THENCE N.04°08'38"E., a distance of 387.24 feet;
THENCE N.04°21'49"E., a distance of 274.21 feet for a corner;
THENCE S.83°09'43"E., a distance of 244.04 feet to the **POINT OF BEGINNING**.
Containing 1,726,906.82 square feet or 39.6443 acres, more or less.

END OF DESCRIPTION.

Kasey Weadon | New Craft BrewCo

1201 Ridge Rd. | Rockwall, TX 75087

Written Request for Rezoning of 1201 Ridge Rd. Rockwall TX 75087 Currently under the ownership of Benbrooke Ridge Partners

---

Rockwall City Council

City of Rockwall

385 S. Goliad St.

Rockwall, TX 75087

September 15 , 2016

To the members of the Rockwall City Council,

New Craft Brewing Company would like to notify the City of Rockwall of our intent to open a micro-brewery at 1201 Ridge Rd in the Ridge Road Shopping Center. At present our business location is not zoned for our required light industrial use. However, with the approval of the planning and zoning commission, New Craft Brewing Company is respectfully requesting a zoning change to allow the manufacturing and distribution of beer for the above address with no further or future land use. The conditional use will be consistent with the goals, objectives, and policies of the comprehensive plan and land regulations as well as all city, state, and federal licensing.

The primary intent of opening our brewery facility is to manufacture beer for distribution and to sell the beer we produce in kegs and cans to retail vendors. The large majority of our sales will be made from the distribution of our product to local and surrounding markets. Our brewery will also have a front of house taproom where customers can come to our location and try our beers. The taproom will serve jointly as a venue which will host various events and functions as well. However, we are foremost a manufacturer of beer, not a restaurant, brewpub, or bar. While in operation, we will allow and encourage patrons to purchase food from local area restaurants and food trucks, but we will not serve food as a means of revenue.

The micro-brewery industry has been explosive in recent years and there is only more room for growth. Breweries of our nature have very positive economic impact on growing suburban cities such as Rockwall. The beer we produce is taxed both in house at the tap and the keg in retail. The tax revenue we generate will be collected and reused in our local community. We can ensure that our brewery will make appropriate use of the zoning change and positively affect the community and public interest.

Respectfully,

[Signature Here]

Kasey Weadon

Owner and Founder of New Craft BrewCo

Sec. 11.73. AFFIRMATION OF COMPLIANCE. A person who holds a permit under Chapter 19, 20, 21, or 23 may not be subject to an administrative sanction for selling or delivering an alcoholic beverage to a retailer not authorized to purchase and receive the alcoholic beverage if the permit holder:

(1) reasonably believes that the retailer is authorized to purchase and receive that type of alcoholic beverage; and

(2) obtains from the retailer at the time of delivery a written affirmation, which may be printed or stamped on a sales invoice evidencing the sale or delivery of alcoholic beverages by the permit holder, that the retailer is authorized to purchase and receive the type of alcoholic beverage sold and delivered by the permit holder.

CHAPTER 12. BREWER'S PERMIT (B)

Sec. 12.01. AUTHORIZED ACTIVITIES. (a) The holder of a brewer's permit may:

(1) manufacture, bottle, package, and label malt liquor;

(2) import ale and malt liquor acquired from a holder of a nonresident brewer's permit;

(3) sell the ale and malt liquor only to wholesale permit holders in this state or to qualified persons outside the state;

(4) dispense ale and malt liquor for consumption on the premises; [~~and~~]

(5) conduct samplings of ale or malt liquor, including tastings, at a retailer's premises; and

(6) enter into an alternating brewery proprietorship or contract brewing arrangement as provided by Section 12.06.

(b) An agent or employee of the holder of a brewer's permit may open, touch, or pour ale or malt liquor, make a presentation, or answer questions at a sampling event.

Sec. 12.02. FEE. The annual state fee for a brewer's permit is $1,500.

Sec. 12.03. ALE OR MALT LIQUOR FOR EXPORT. Regardless of any other provision of this code, a holder of a brewer's permit may manufacture and package malt beverages, or import them from outside the state, for shipment out of the state, even though the alcohol content, containers, packages, or labels make the beverages illegal to sell within the state. The permittee may export the beverages out of the state or deliver them at his premises for shipment out of the state without being liable for any state tax on beer, ale, or malt liquor sold for resale in the state.

Sec. 12.04. CONTINUANCE OF OPERATION AFTER LOCAL OPTION ELECTION. The right of a brewer's permittee to continue operation after a prohibitory local option election is covered by Section 251.75 of this code.

~~**Sec. 12.05. SALES BY CERTAIN BREWERS.** The holder of a brewer's permit whose annual production of ale in this state does not exceed, together with the annual production of beer by the holder of a manufacturer's license acting under the authority of Section 62.12 of this code at the same premises, a total of 75,000 barrels, may sell ale produced under the permit to those persons to whom the holder of a general class B wholesaler's permit may sell malt liquor under Section 20.01(3) of this code. With regard to such a sale, the brewer has the same authority and is subject to the same requirements that apply to a sale made by the holder of a general class B wholesaler's permit.~~

NOTE: Section 12.05 repealed by Senate Bill 516, 83rd Legislature, Regular Session, 2013, effective June 14, 2013.

Sec. 12.052. SALES BY CERTAIN BREWERS TO CONSUMERS. (a) In addition to the activities authorized by Section 12.01, the holder of a brewer's permit whose annual production of ale together with the annual production of beer by the holder of a manufacturer's license at the same premises does not exceed a total of 225,000 barrels may sell ale produced on the brewer's premises under the

permit to ultimate consumers on the brewer's premises for responsible consumption on the brewer's premises.

(b) The total combined sales of ale to ultimate consumers under this section, together with the sales of beer to ultimate consumers by the holder of a manufacturer's license under Section 62.122 at the same premises, may not exceed 5,000 barrels annually.

Sec. 12.06. USE OF FACILITIES. (a) The holder of [~~An entity or successor to an entity that on May 1, 2005, held~~] a brewer's or nonresident brewer's permit [~~or whose brand was legally sold in this state~~] may contract with the holder of a brewer's permit:

(1) to provide brewing services; or

(2) for the use of the permit holder's brewing facilities under an alternating brewery proprietorship if each party to the proprietorship:

(A) has filed the appropriate Brewer's Notice and Brewer's Bond, as required by the Alcohol and Tobacco Tax and Trade Bureau of the United States Department of the Treasury; and

(B) if applicable, has posted with the commission a bond in an amount determined by the commission under Subsection (e) or (f) [~~or to provide brewing services~~].

(b) An entity [~~or successor to an entity that on May 1, 2005, held a brewer's or nonresident brewer's permit or whose brand was legally sold in this state~~] is not required to own its brewing facilities if the entity operates under an alternating brewery proprietorship as provided by Subsection (a).

(c) Each entity that is a party to an alternating brewery proprietorship or contract brewing arrangement must hold a permit at the location where brewing services are conducted under the arrangement [~~More than one brewer's permit may be issued for a single premises if the permit holder for the premises has contracted with an entity or successor to an entity that on May 1, 2005, held a brewer's or nonresident brewer's permit or whose brand was legally sold in this state for the use of the permit holder's brewing facilities or to provide brewing services~~].

(d) This section does not authorize a person acting as an agent for a brewery located outside of this state to contract with the holder of a brewer's permit to brew ale or malt liquor on the person's behalf. A contract described by this subsection may only be entered into by the holder of a brewer's permit and another person holding a permit under this code.

(e) Subject to Subsection (f), the commission by rule may require an entity that is a party to an alternating brewery proprietorship or contract brewing arrangement to post with the commission a bond in an amount determined by the commission not to exceed $200,000.

(f) An entity that is a party to an alternating brewery proprietorship or contract brewing arrangement must post with the commission a bond in an amount determined by the commission of not less than $30,000 if the entity does not own a fee interest in a brewing facility.

CHAPTER 12A. BREWER'S SELF-DISTRIBUTION PERMIT(DA)

Sec. 12A.01. ELIGIBILITY FOR PERMIT. A brewer's self-distribution permit may be issued only to the holder of a brewer's permit under Chapter 12 or the holder of a nonresident brewer's permit under Chapter 13.

Sec. 12A.02. AUTHORIZED ACTIVITIES. (a) A holder of a brewer's self-distribution permit whose annual production of ale under the brewer's or nonresident brewer's permit, together with the annual production of beer by the holder of a manufacturer's or nonresident manufacturer's license at the same premises, does not exceed 125,000 barrels may sell ale produced under the brewer's or nonresident brewer's permit to those persons to whom the holder of a general class B wholesaler's permit may sell ale under Section 20.01(3).

(b) The total combined sales of ale under this section, together with the sales of beer by the holder of a manufacturer's self-distribution license under Section 62A.02 at the same premises, may not exceed 40,000 barrels annually.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 1 (PD-1) AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO GRANT A CHANGE IN ZONING BY AMENDING THE PERMITTED LAND USES TO ALLOW THE *BREWERY AND DISTILLERY (EXCLUDING BREWPUB)* LAND USE FOR A 25.97-ACRE PORTION OF THE ~39.6443-ACRE PLANNED DEVELOPMENT DISTRICT BEING SITUATED WITHIN THE B. J. T. LEWIS SURVEY, ABSTRACT NO. 225 & THE D. ATKINS SURVEY, ABSTRACT NO. 1, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS (*$2,000.00*) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Kasey Weadon of New Craft Brewing, LLC for the approval of an amendment to Planned Development District 1 (PD-1) and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall for the purpose of incorporating the Brewery and Distillery (Excluding Brewpub) land use for a 29.97-acre portion of the ~39.6443-acre planned development district, being situated within the B. J. T. Lewis Survey, Abstract No. 225 & the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 1 (PD-1) [*Ordinance No.'s 72-02, 83-21, 02-49 & 12-03*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No.'s 72-02, 83-21, 02-49 & 12-03*;

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Location Map/Area Concept Plan*, described in *Exhibit 'A'* of this ordinance, attached hereto and

DRAFT ORDINANCE 10.4.16

incorporated herein by reference as *Exhibit 'A'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 4. That development of the *Subject Property* shall generally be in accordance with the *PD Development Standards*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 6. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 7. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 8. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 7TH DAY OF NOVEMBER, 2016.

DRAFT ORDINANCE 10.11.2016

Exhibit 'A':
Legal Description

BEING an approximate 39.6443-acre tract of land situated in the Eastridge Center Addition, O'Reilly Addition, and Rockwall Commons Addition, as recorded in the County of Rockwall, Texas and being more particularly described as follows:

BEGINNING at a point in the south right of way line of State Highway 205 (*S. Goliad Street*) and the most northeastern corner of the Eastridge Center Addition (*Plat Dated June 27, 1977*), said point being the *POINT OF BEGINNING*;

THENCE S.85°55'54"E., a distance of 122.63-feet to a point in the right of way of State Highway 205 (*S. Goliad Street*);

THENCE S.42°16'51"E., a distance of 562.88-feet;

THENCE S.50°16'49"E., a distance of 45.96-feet for a corner;

THENCE S.17°37'07"W., a distance of 574.34-feet along the centerline of the Dallas, Garland and Northeastern Railroad;

THENCE continue southerly along said line, a distance of 902.87-feet;

THENCE S.17°45'42"W., a distance of 1,008.68-feet for a corner;

THENCE N.73°24'37"W., a distance of 57.97-feet;

THENCE N.71°22'39"W., a distance of 378.33-feet;

THENCE N.71°58'06"W., a distance of 42.15-feet for a corner;

THENCE N.11°18'18"E., a distance of 736.84-feet;

THENCE N.10°53'56"E., a distance of 85.39-feet;

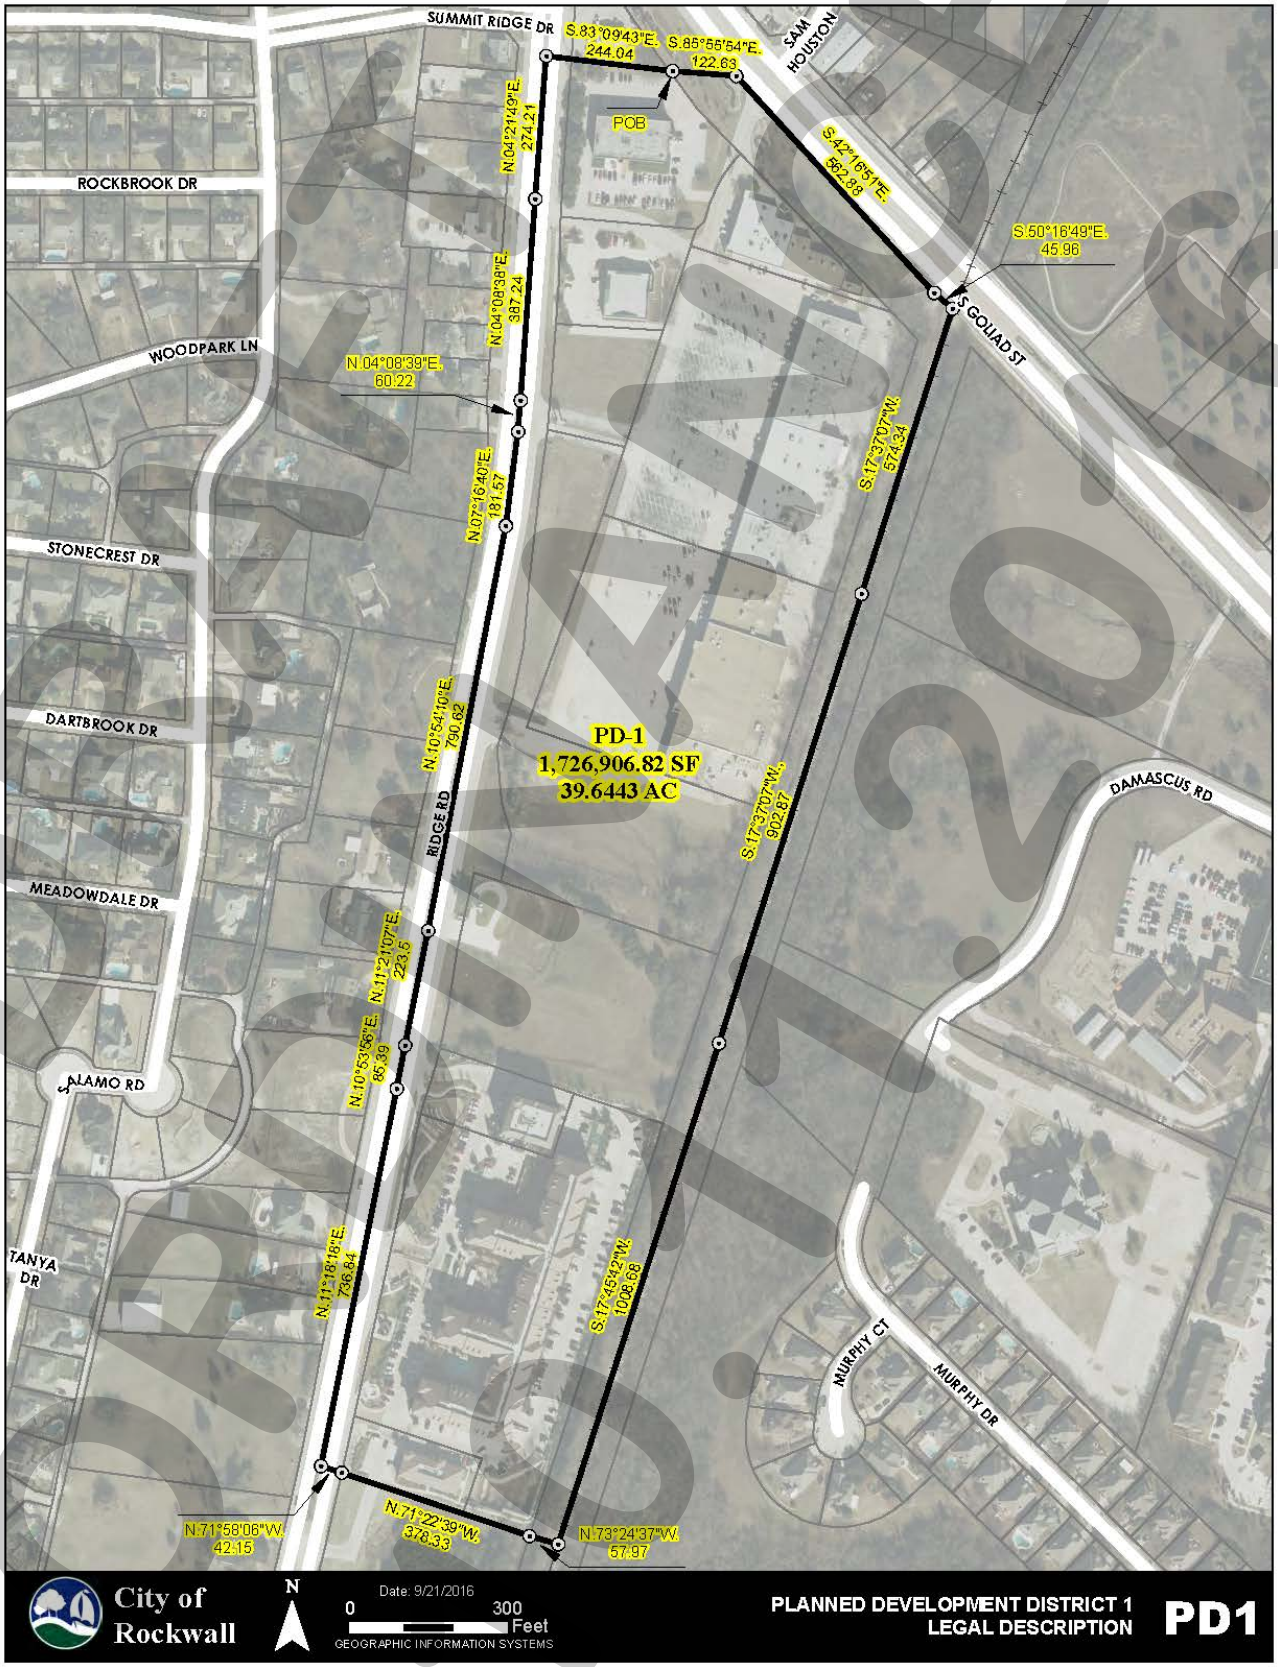
THENCE N.11°21'07"E., a distance of 223.50-feet;

THENCE N.10°54'10"E., a distance of 790.62-feet;

THENCE N.07°16'40"E., a distance of 181.57-feet;

THENCE N.04°08'39"E., a distance of 60.22-feet;

THENCE N.04°08'38"E., a distance of 387.24-feet;



THENCE N.04°21'49"E., a distance of 274.21-feet for a corner;

THENCE S.83°09'43"E., a distance of 244.04-feet to the *POINT OF BEGINNING*.

Containing 1,726,906.82 square-feet or 39.6443-acres, more or less.

Exhibit 'B':
PD Development Standards

Purpose.

The purpose of this amendment to Planned Development District 1 (PD-1) is to consolidate *Ordinance No.'s 72-02*, *83-21*, *02-49* & *12-03*; however, this ordinance does not change the intent, restrictions or land uses established in any previous ordinance with the exception of adding the *Brewery or Distillery (Excluding Brew Pub)* land use to *Area 1* as depicted in *Exhibit 'A'* of this ordinance.

Area 1 [Ordinance No. 72-02].

1. *Permitted Uses.* *Area 1* as depicted in *Exhibit 'A'* of this ordinance shall be subject to the land uses permitted in the General Retail (GR) District and Multi-Family 14 (MF-14) District as stipulated by Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future, with the following additional uses being permitted *by-right*:

   ☑ General/Medical Office

   In addition, the following additional uses being permitted by Specific Use Permit (SUP):

   ☑ Brewery or Distillery (*Excluding Brew Pub*)

2. *Density and Dimensional Requirements.* The development of *Area 1* as depicted in *Exhibit 'A'* of this ordinance shall be subject to the development standards stipulated for properties within a General Retail (GR) and Multi-Family 14 (MF-14) Districts as required by Section 3.9, *Multi-Family 14 (MF-14) District*, and Section 4.4, *General Retail (GR) District*, of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future.

Area 2 [Ordinance No. 12-03].

1. *Permitted Uses.* *Area 2* as depicted in *Exhibit 'A'* of this ordinance shall be subject to the land uses permitted in the General Retail (GR) District as stipulated by Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future, with the following additional uses being permitted *by-right*:

   ☑ General/Medical Office
   ☑ Urban Residential Housing (*as Defined by the Unified Development Code [Ordinance No. 04-38]*)

2. *Density and Dimensional Requirements.* The development of *Area 2* as depicted in *Exhibit 'A'* of this ordinance shall be in accordance with the *PD Concept Plan* contained in *Exhibit 'C'* of this ordinance, and with the Mixed Use Overlay (MUO) District standards stipulated by Section 6.5, *Mixed Use Overlay (MUO) District*, of the Unified Development Code [*Ordinance No. 04-38*]. In addition, *Area 2* shall be subject to the following additional requirements:

   (a) A maximum of 140 urban residential units shall be allowed.

(b) The average dwelling unit size shall not be less than 980 square feet.

(c) The development must contain a minimum of 12,000 square feet of non-residential space.

(d) The overall height may not exceed 65-feet as measured to the midpoint of the sloped roof from the average grade along the front of the building, and as depicted on the *Section Through Center of Site* drawing attached hereto as *Exhibit 'C'*.

(e) A minimum of 20% open space shall be provided, and the open space shall be developed to the extent reflected on the Concept Plan. A pool for the use of the residents shall be provided.

(f) The interiors of all residential units shall include higher grade finish-out materials such as granite or other comparable counter tops, durable high quality flooring, and stainless steel and other high end appliances.

3. *Procedure.* The procedure for submittals associated with the development of *Area 2* shall be as follows:

(a) Submittal and approval of a detailed *PD Site Plan*, for review and approval by the Architectural Review Board (ARB) and Planning and Zoning Commission.

(b) Submittal and approval of a final plat.

Area 3 [Ordinance No. 02-49].

1. *Permitted Uses.* *Area 3* as depicted in *Exhibit 'A'* of this ordinance shall be subject to the land uses permitted in the General Retail (GR) District and Multi-Family 14 (MF-14) District as stipulated by Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future, with the following additional uses being permitted *by-right*:

- ☑ Townhomes
- ☑ General/Medical Office
- ☑ Multifamily (*with a Maximum Density of 15 Dwelling Units/Acre*)

2. *Density and Dimensional Requirements.* The development of *Area 3* as depicted in *Exhibit 'A'* of this ordinance shall in accordance with the *PD Concept Plan* contained in *Exhibit 'D'* of this ordinance. In addition, *Area 3* shall be subject to the following additional requirements:

(a) *Residential.* Residential uses shall be governed by the following standards:

(i) Residential uses must be integrated with retail and/or office uses in terms of site planning. The separate uses must not be perceived or discrete developments.

(ii) The development may not exceed four (4) square feet of residential use for at least one (1) square foot of non-residential use (unless approved as part of this PD) for each phase of the development.

DRAFT ORDINANCE 10.17.2016

(b) *Open Space.* A minimum of 20% of the site shall be devoted to open space. This requirement may be satisfied by either public or by a combination of public and private open space. Open space shall be satisfied with each phase of development, or the developer must execute a reservation of open space in a form that will assure the City that such open space will be provided.

(c) *Height.* The development should average two (2) to three (3) stories in height, but not exceed three (3) stories unless otherwise approved as part of this PD. If adjacent to single family zoned areas, this height should taper down to two (2) stories if the development is close to the property line.

(d) *Enhancements.*

(i) Pedestrian areas shall be enhanced with trees, decorative paving and pedestrian-level lighting.

(ii) Public and private open space shall be developed to the extent reflected in the plan.

(e) *Parking.* Parking shall meet the following standards:

(i) Parking required for a building shall primarily be located behind the building. On-street parking may be allowed to partially meet the required parking for a building or use.

(ii) A majority of parking shall be structured or decked to minimize the amount of land given over to parking.

(iii) Site access and non-residential use parking shall be shared between non-residential uses.

(iv) The minimum amount of required parking may be 10% below the City's standard requirement.

(v) The minimum amount of parking may be further reduced where parking is shared by multiple uses and is justified by the applicant.

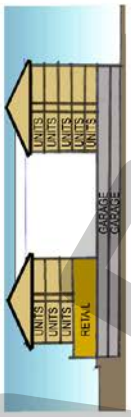
(f) *Amenities.* A pool for the use of the residents will be provided.

(g) *Traffic.* A facilities agreement will be required to address traffic improvements as called for in the traffic engineer's recommendations.

(h) *Phasing.* If constructed in phases, no phase shall exceed the allowed ratio of 4 square feet of residential to 1 square foot of non-residential uses.

3. <u>Procedure.</u> A *PD Site Plan* is mandatory and is the final step of the *PD Development* process. The purposes of a *PD Site Plan* is to assure that the development of individual building lots, parcels, or tracts within the *PD District* are consistent with the approved Concept Plan and Development Plan, if any, and to assure that the standards applicable within the *PD District* are met for each such lot, parcel or tract. Following approval by the City Council a *PD Site Plan* shall continue to be valid for a period of three years. However, the Council may extend the three (3) year time period following a recommendation of said extension from the Planning and Zoning Commission.

DRAFT ORDINANCE 10-1-2016



The Site Plan shall be accompanied by building elevations and landscape and master sign plans, which shall be reviewed by the Architectural Review Board (ARB) for consistency with the overall objectives of the district. The Board's recommendation shall be forwarded to the Planning & Zoning Commission for consideration in their recommendation to City Council.

A *PD Site Plan* shall terminate at the end of such three (3) year period (*or extended period if approved by the City Council*) unless, within such period, a preliminary plat has been filed with the City for the entire land covered by the *PD Site Plan*. In which case, the Site Plan will remain valid as long as there is an approved plat for the property. If a *PD Site Plan* terminates, development of the land covered by the terminated plan cannot occur until a new *PD Site Plan* has been approved for the land as provided by this Ordinance.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 10/11/2016

APPLICANT: Noah Flabiano, *Skorburg Company*

AGENDA ITEM: **Z2016-032**; *Amendments to PD-74 (Breezy Hill Subdivision)*

SUMMARY:

Hold a public hearing to discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of BH Balance IV, LLC for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan to allow for additional single-family residential lots and for the purpose of incorporating changes to the development standards contained in *Exhibit 'C'* of *Ordinance No. 14-26* for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, Texas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary.

BACKGROUND:

The property was annexed in 2008 after three (3) years of litigation that lead to the execution of a Chapter 212 Development Agreement. In accordance with this agreement, the property was zoned to Planned Development District 74 (PD-74) on April 20, 2009 with the intention of being a master planned residential community that offered tracts of land designated for retail/office, residential, and institutional land uses. The approval of this zoning change altered the existing 212 Development Agreement -- *which originally permitted 810 single-family residential lots and did not contain any retail acreage* -- to include 658 single-family residential lots and a 59-acre tract of land designated for general retail land uses. The retail tract of land is located at the northeast corner of the intersection of FM-552 and John King Boulevard.

On October 1, 2012 the City Council approved an amendment to Planned Development District 74 (PD-74) modifying the concept plan to remove the school sites that were originally required by the *Facilities Agreement* and adjust the lot mix accordingly [*i.e. increasing the number of lots from 658 to 691*]. The lot mix was again increased on July 7, 2014 from 691 lots to 742 lots for the purpose of incorporating two (2) additional phases (*i.e. Phases IXA & IXB*) and to reduce the land designated as commercial/retail from 59.4-acres to 33.7-acres (see *Figure 1* for the adjusted lot mix).

Figure 1: Current Lot Mix

Lot Types	*A*	*B*	*C*	*D*
Typical Lot Frontage (Feet)	*60*	*70*	*80*	*100*
Typical Lot Depth (Feet)	*120*	*120*	*125*	*200*
Minimum Lot Size (Sq. Ft.)	*7,200*	*8,400*	*10,000*	*20,000*
Number of Units	*206*	*112*	*326*	*98*
Dwelling Unit %	*27.80%*	*15.10%*	*43.90%*	*13.20%*

On May 16, 2016, the applicant submitted an alternate concept plan depicting a reduction in the number of acres designated for retail land uses from 33.7-acres to 19.49-acres for the purpose of amending Planned Development District 74 (PD-74) to include an additional residential phase of 50' x 120' lots (*i.e. minimum of 6,000 SF*). In addition, this case proposed raising the number

of lots from 742 to 789, and changing the density from 2.0-units/acre to 2.07-units/acre. On June 20, 2016, the City Council approved a motion adopting the amendments to PD-74 and stipulating that the proposed residential phase consist of 60-foot lots (*i.e. Lot Type 'A'*) in lieu of the proposed 50-foot lots (*i.e. Lot Type 'E'*). Prior to the second reading of the ordinance the applicant made a request to withdraw the case; however, at the July 5, 2016 meeting, the City Council approved a motion to deny the case by a vote of 4-3, with Mayor Pruitt and Council Members Townsend and White dissenting. As the City Attorney indicated in the July 5, 2016 meeting, the denial motion would not preclude the applicant from submitting a different request (*e.g. a request for 60-foot lots*) within the one (1) year time period that the applicant would be restricted from submitting the same request (*see Section 8.3.D, Reapplication Due to Changed Conditions, of Article II, Authority and Administrative Procedures, of the Unified Development Code*).

PURPOSE:

The applicant has submitted an application requesting to amend Planned Development District 74 (PD-74) [*Ordinance No. 14-26*] to approve an alternate concept plan and development standards. Specifically, the applicant is requesting to reduce the number of acres designated for retail land uses from 33.7-acres to 19.44-acres for the purpose incorporating an additional residential phase that will be composed of 60' x 120' lots (*i.e. minimum of 7,200 SF*).

CHARACTERISTICS OF THE REQUEST:

The 14.25-acres of land that the applicant is proposing to remove from the retail acreage will establish a new phase of the Breezy Hill Subdivision that will contain 40 single-family homes. The new phase will be located north of the remaining retail acreage, adjacent to Phase IIA. These new homes will be constructed on 60' x 120' lots that will be a minimum of 7,200 square feet in size. The development standards for this new lot type (identified below in *Figure 2* as *Lot Type 'E'*) are the same as the *Lot Type 'A'*. The only difference in the proposed *Lot Type 'E'* and *Lot Type 'A'* will be the ability to have a garage door, in a front entry format, even with the front façade of the primary structure on up to 50% of the proposed garages (*i.e. 20 lots*). Currently, *Lot Type 'A'* requires that the garage be situated in a *'J' Swing* or *Traditional Swing* format or be a minimum of 20-feet behind the front façade of the primary structure. *Lot Type 'E'* (*like Lot Type 'A'*) will also have the ability to orient garages in a *'J' Swing* or *Traditional Swing* format.

Figure 2: Proposed Lot Mix

Lot Types	*A*	*B*	*C*	*D*	*E*
Typical Lot Frontage (Feet)	*60*	*70*	*80*	*100*	*60*
Typical Lot Depth (Feet)	*120*	*120*	*125*	*200*	*120*
Minimum Lot Size (Sq. Ft.)	*7,200*	*8,400*	*10,000*	*20,000*	*7,200*
Number of Units	*186*	*117*	*326*	*107*	*40*
Dwelling Unit %	*23.97%*	*15.08%*	*42.01%*	*13.79%*	*5.15%*

Considering the proposed new lot type and the proposed changes to the lot mix, the total number of single-family lots will be increased from 742 to 776. This proposed change increases the density from ~2.0-units/acre to ~2.02-units/acre (*i.e. currently the subdivision has 742 lots on ~371-acres, and the applicant is proposing 776 lots on ~385-acres*). With the exception of the proposed changes to the concept plan and lot mix tables, and subsequent changes to accommodate the new lot type, the applicant is not requesting any additional changes to Planned Development District 74 (PD-74).

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

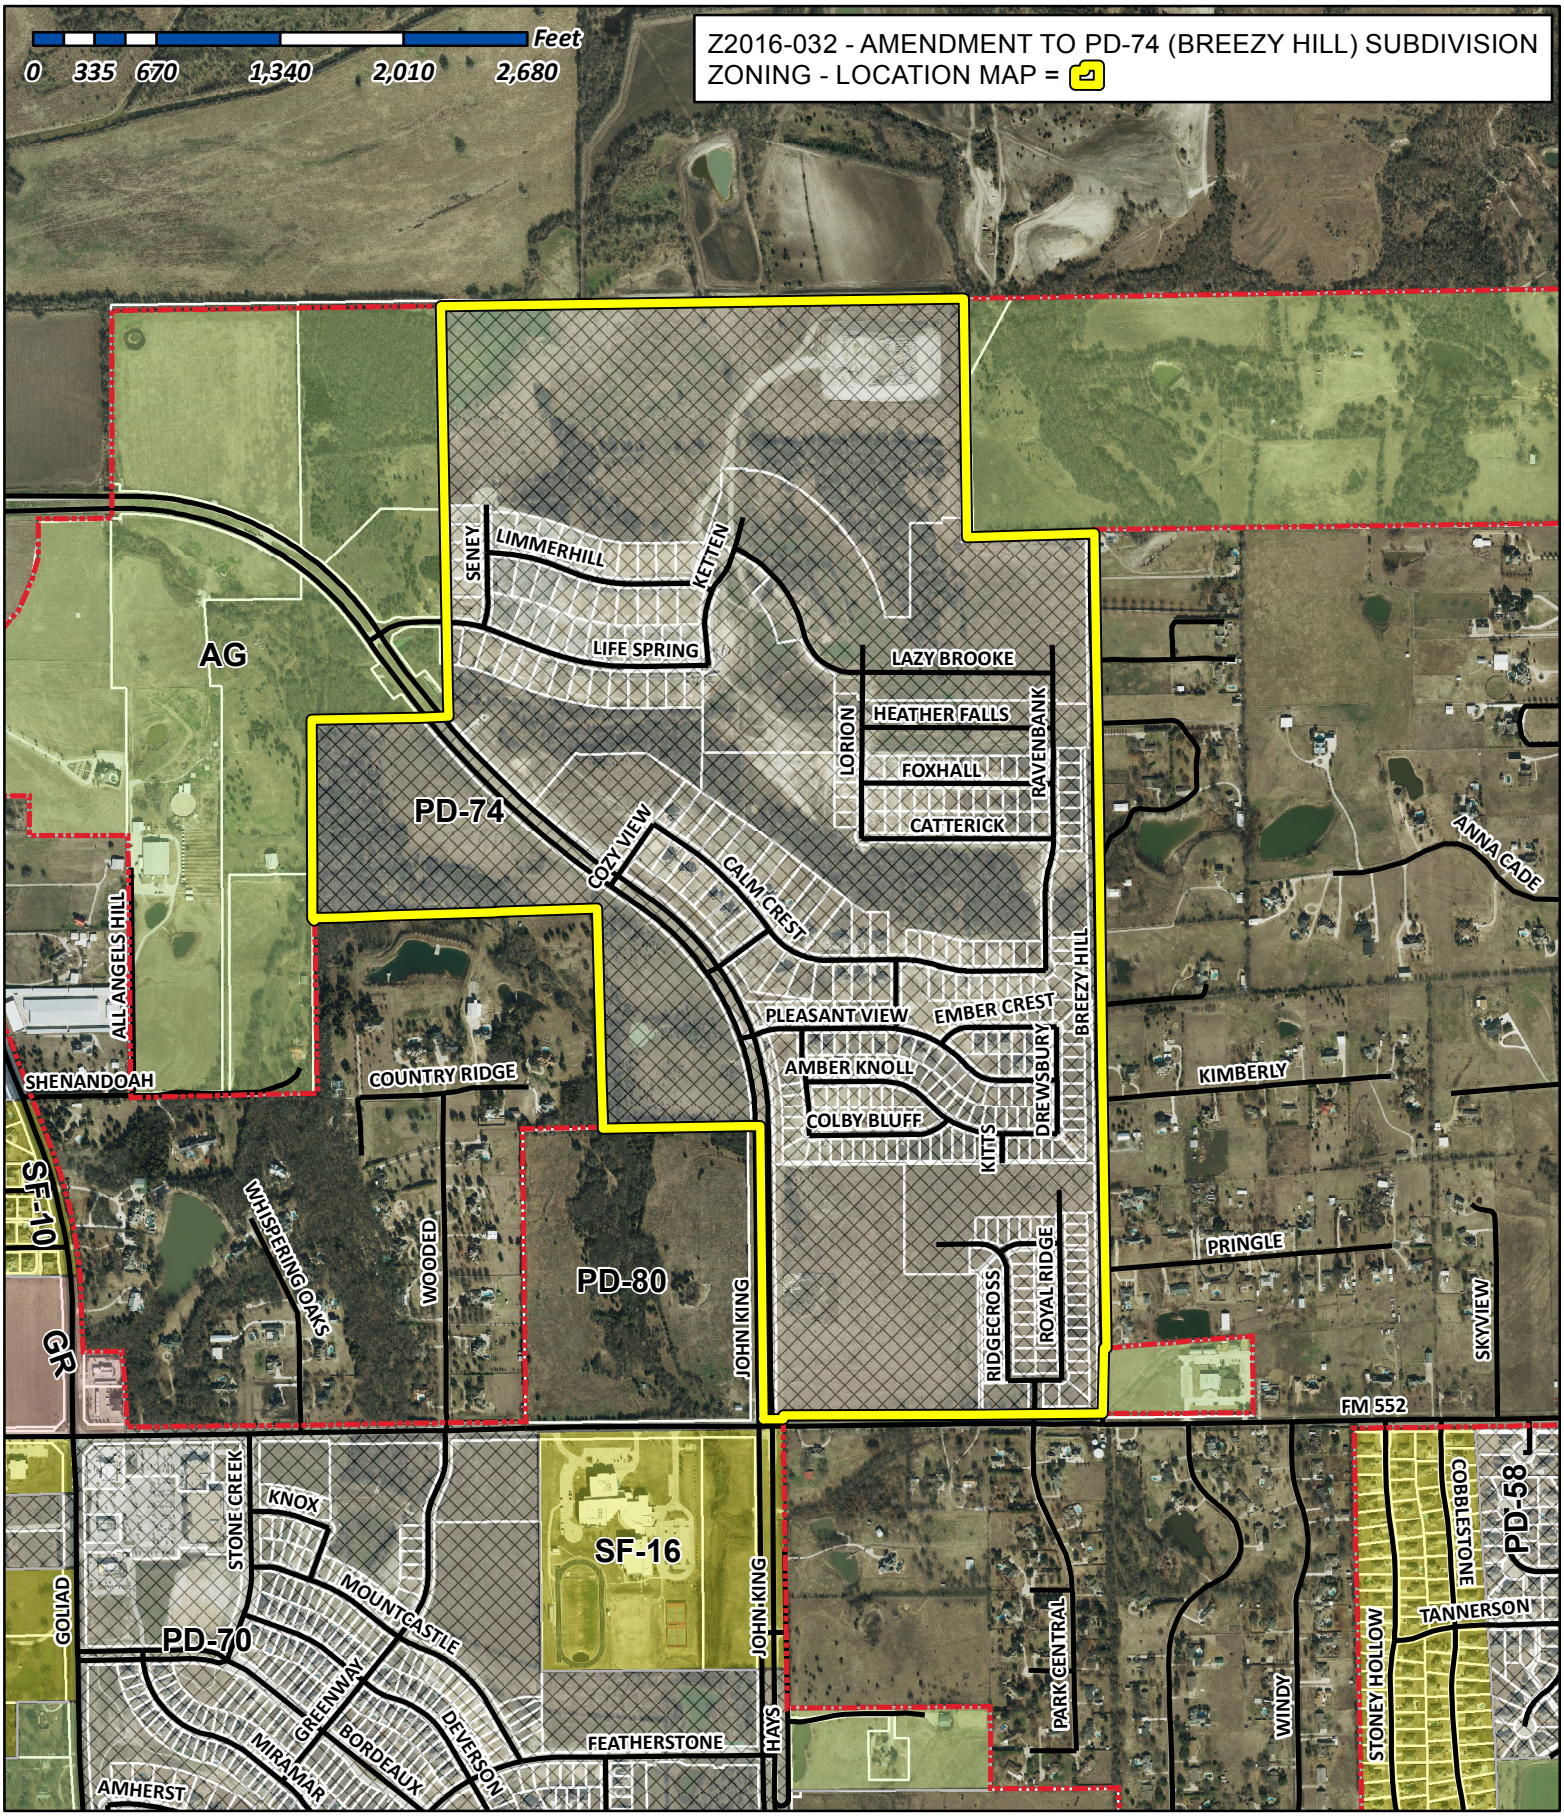
The Future Land Use Map contained within the Comprehensive Plan designates the subject property for *Commercial* land uses. Should the City Council approve the applicant's request, the Future Land Use Map will be amended to reflect the proposed changes in land use from a *Commercial* designation to a *Low Density Residential* designation. *This has been added to the conditions of approval contained in the Recommendations section of this case memo.*

NOTIFICATION:

On September 30, 2016, staff mailed 363 notices to property owners and residents within 500-feet of the subject property. Staff also emailed a notice to the Stoney Hollow and Breezy Hill Homeowner's Associations (HOA's), which are the only HOA's located within 1,500 feet of the subject property. Additionally, staff posted a sign at the corner of FM-552 and John King Boulevard, and advertised the public hearings in the Rockwall Harold Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted staff had not received any notices.

RECOMMENDATIONS:

If the Planning and Zoning Commission recommends approval of the applicant's request to amend Planned Development District 74 (PD-74) then staff would propose the following conditions of approval:



1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) By approving this zoning change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of the subject property from a *Commercial* designation to a *Low Density Residential* designation;

3) Prior to accepting a final plat for the proposed phase (*i.e. depicted in pink of the PD Concept Plan*) the applicant shall be required to administratively amend the PD site plan in order to show all necessary entry features/signage, landscaping and hardscaping proposed for the new phase;

4) Prior to accepting a preliminary plat for the proposed phase (*i.e. depicted in pink of the PD Concept Plan*) the applicant shall be required to administratively amend the preliminary plat for Phase IXB to show the new street layout; and,

5) Any construction resulting from the approval of this *zoning amendment* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Case Number: Z2016-032
Case Name: Breezy Hill Amendment to PD-74
Case Type: Zoning
Zoning: Planned Development District 74
Case Address: North of FM 552 and west of Breezy Hill Road

Date Created: *09/20/2016*

For Questions on this Case Call (972) 771-7745

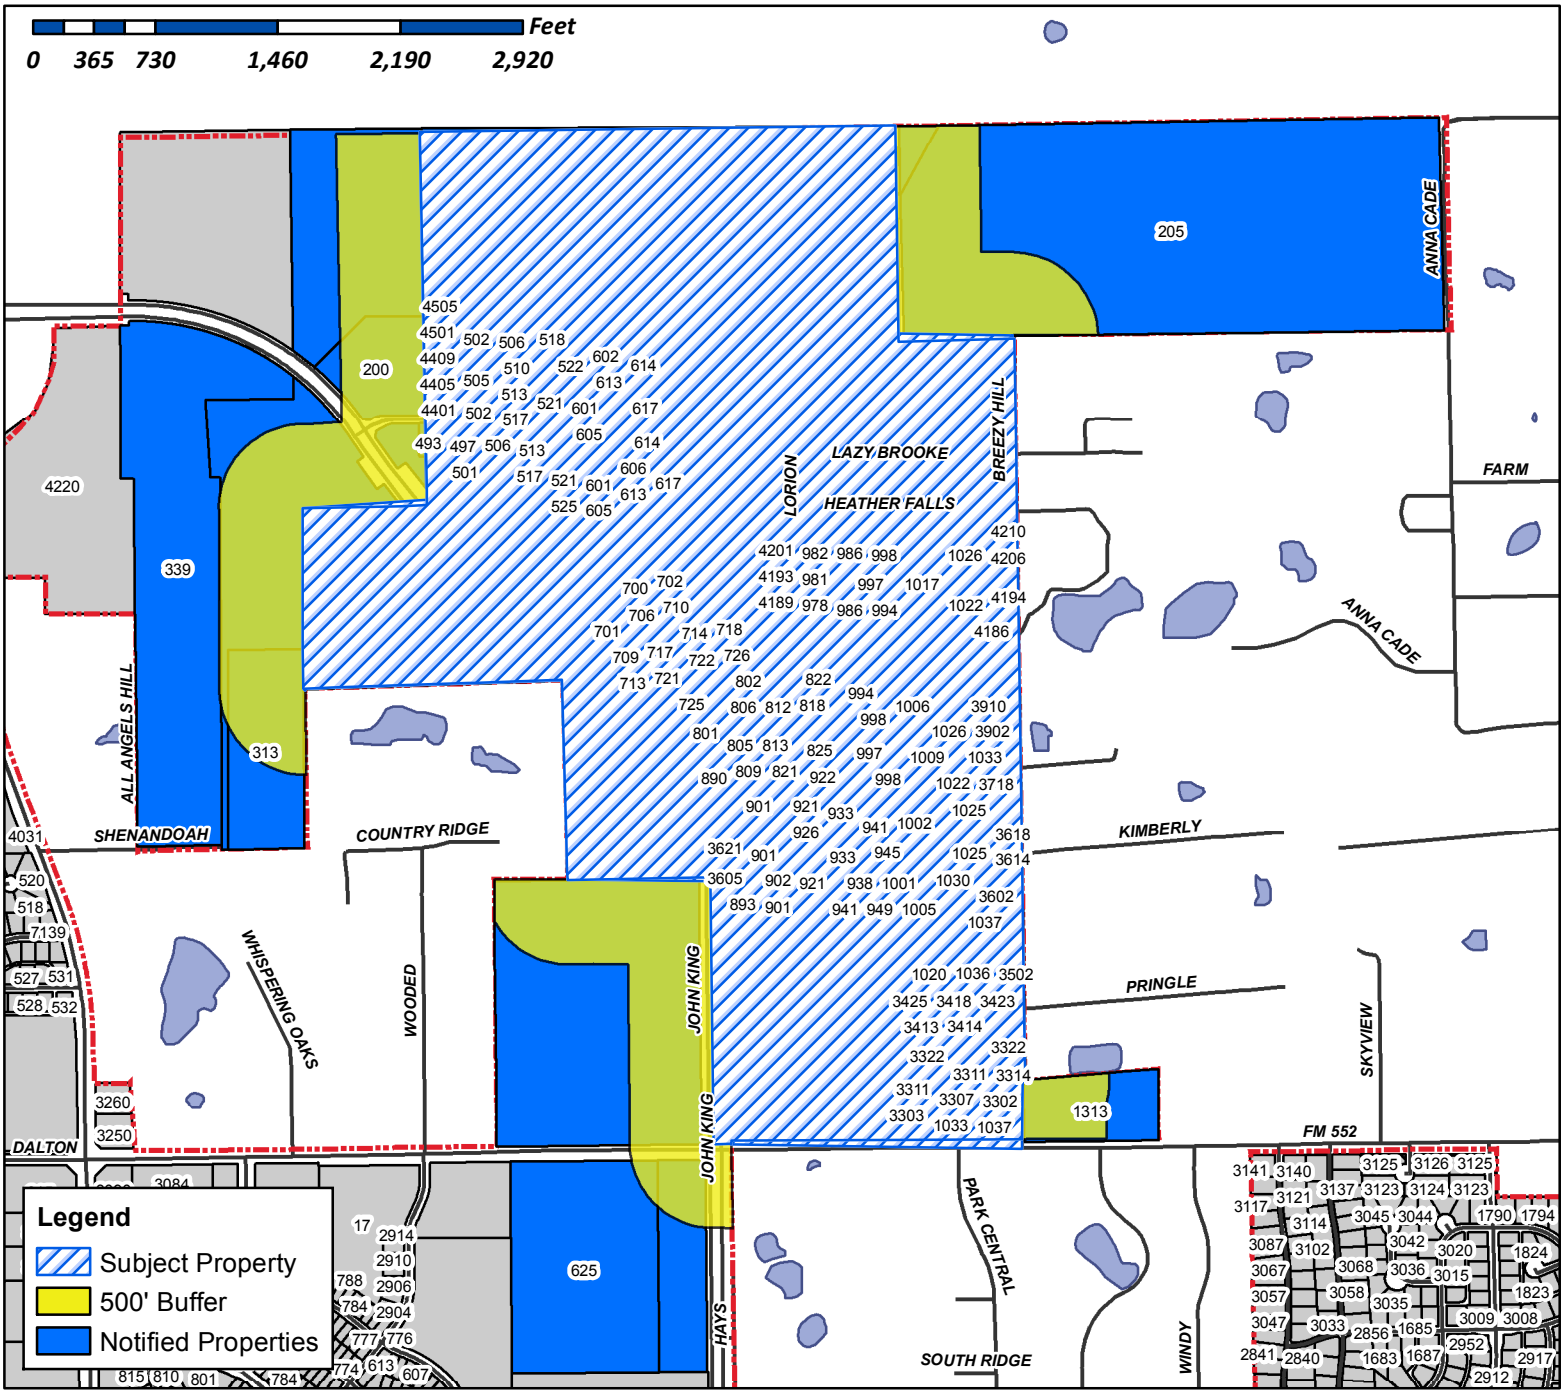
From:	Morales, Laura
To:	[redacted]
Cc:	Miller, Ryan; Gonzales, David; Brooks, Korey
Subject:	Neighborhood Noification Program: Notice of zoning request
Date:	Friday, September 30, 2016 11:28:17 AM

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. The City of Rockwall Planning and Zoning Commission will hold a public hearing on Tuesday, October 11, 2016 and the Rockwall City Council will hold a public hearing on Monday, October 17, 2016. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on September 30, 2016. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-032-Hold a public hearing to discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of BH Balance IV, LLC for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan to allow for additional single-family residential lots and for the purpose of incorporating changes to the development standards contained in Exhibit 'C' of *Ordinance No. 14-26* for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, exas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary.**

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.



Sincerely,

Laura Morales
Planning & Zoning Coordinator

Infrastructure Statement

Drainage Facilities:
There are natural drainage ways within the project and detention will be required.

Sanitary Sewer Facilities:
This site will utilize lift stations and force mains to send the sewer flows to the existing sewer trunk line located at the intersection of FM 552 and Highway 205

Water Facilities:
There is an existing water line located in FM 552. A new 16"water line will be constructed along John King Boulevard north of FM 552 to service this tract.

Roadway Facilities:
The west side of the project is bounded by John King Boulevard, the south side is bounded by FM 552, the east side is bounded by Breezy Hill Road.

CASE #2015-XXX

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 74 (PD-74) [*ORDINANCE NO. 14-26*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING THE PLANNED DEVELOPMENT CONCEPT PLAN AND THE DEVELOPMENT STANDARDS APPROVED WITH ORDINANCE NO. 14-26, BEING A 405.184-ACRE TRACT OF LAND SITUATED IN THE J. STRICKLAND SURVEY, ABSTRACT NO. 187, T. R. BAILEY SURVEY, ABSTRACT NO. 30 AND THE J. SIMMONS SURVEY, ABSTRACT NO. 190, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY EXHIBIT 'A'; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE..

WHEREAS, the City has received a request by the Noah Flabiano of the Skorburg Company on behalf of Breezy Hill 405, LTD for an amendment to the Planned Development Concept Plan and Development Standards contained within Planned Development District 74 (PD-74) [specifically contained within *Ordinance No. 14-26*] and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, for a 405.184-acre tract of land situated in the J. Strickland Survey, Abstract No. 187, T. R. Bailey Survey, Abstract No. 30 and the J. Simmons Survey, Abstract No. 190, Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 74 [*Ordinance No. 14-26*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 14-26*;

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of

DRAFT ORDINANCE 10.17.16

approval of the amended zoning classification for the *Subject Property*;

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That a master parks and open space plan for the Property, prepared in accordance with this ordinance and consistent with the *Planned Development Concept Plan*, (*Open Space Master Plan*) shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

Section 6. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 5(b) through 5(f) below*), shall be the exclusive procedures applicable to the subdivision and platting of the Property.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in Section 212.009 of the Texas Local Government Code.

1. Open Space Master Plan
2. Master plat
3. PD development plans (*required for retail areas only*)
4. PD site plans
5. Preliminary plats
6. Final plats

(c) A Master Plat application covering all of the *Subject Property*, other than the area designated on the *Planned Development Concept Plan* as *Retail*, shall be submitted and shall identify each phase of development. No master plat application shall be approved until the *Open Space Master Plan* for all of the Property has been approved; however, the *Open Space Master Plan* may be processed by the City concurrently with the master plat application.

(d) A *PD Development Plan* must be approved for the area designated on the Concept Plan as *Retail* prior to submittal of a *PD Site Plan* application and/or a preliminary plat application. No master plat is required for the area designated on the Concept Plan as *Retail*. A traffic impact analysis for the retail tract shall be submitted with the *PD Development Plan* to determine the extent and timing of any recommended facilities and/or improvements to the surrounding roadway network. The traffic impact analysis may be updated with each *PD Site Plan* for the retail tract.

(e) A preliminary plat application shall be submitted for each phase of residential development. A *PD Site* Plan application, including a site plan application for improvements for parkland or trails, may be processed by the City concurrently with a preliminary plat application for that phase of the development.

(f) A *Capital Facilities Agreement* in the form of *Exhibit 'D',* attached hereto and incorporated herein by reference as *Exhibit 'D',* shall be executed by Developer providing for delivery of adequate public facilities and services within the District.

Section 7. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine

DRAFT ORDINANCE 10-24-16

not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 8. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 9. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 10. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 7TH DAY OF NOVEMBER, 2016.

ALL THAT CERTAIN TRACT OR PARCEL OF LAND LYING AND BEING SITUATED IN PARTS OF THE J. STRICKLAND SURVEY, ABSTRACT NUMBER 187, T. R. BAILEY SURVEY, ABSTRACT NUMBER 30 AND THE J. SIMMONS SURVEY, ABSTRACT NUMBER 190 OF ROCKWALL COUNTY, AND BEING THAT TRACT OF LAND CONVEYED TO W.W. CARUTH, JR. ACCORDING TO THE DOCUMENT FILED OF RECORD IN VOLUME 66, PAGE 493, DEED RECORDS OF ROCKWALL COUNTY, TEXAS (D.R.R.C.T.) ALSO A PORTION OF THE J. STRICKLAND SURVEY, ABSTRACT 794•3 LYING IN COLLIN COUNTY, TEXAS, THAT TRACT OF LAND CONVEYED TO MABEL CARUTH ACCORDING TO THE FILE OF RECORD IN COUNTY CLERK FILE NUMBER 92-0054539 OF COLLIN COUNTY, TEXAS, SAID TRACT BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING AT A 1/2" IRON ROD FOUND AT THE BASE OF A CORNER POST, SAID IRON ROD BEING THE SOUTHWEST CORNER OF A 1RACT OF LAND DESCRIBED IN DEED TO DONG WON KANG RECORDED IN VOLUME 4703, PAGE 1402, D.R.R.C.T., AND SAME (BEING THE SOUTHEAST CORNER OF SAID TRACT "ONE" AS SHOWN HEREON;

THENCE NORTH 89°21'28" EAST, A DISTANCE OF 2077.92 FEET TO A 1/2" IRON ROD FOUND FOR A CORNER OF THIS TRACT;

THENCE SOUTH 00°01'37" EAST, GENERALLY ALONG THE CENTER OF A GRAVEL ROAD, A DISTANCE OF 1274.60 FEET TO A 5/8" IRON ROD WITH YELLOW PLASTIC CAP STAMPED "CARTER BURGESS" SET FOR CORNER FOR A CORNER OF THIS TRACT;

THENCE SOUTH 89°19'07" EAST, GENERALLY ALONG THE CENTER OF A GRAVEL ROAD, A DISTANCE OF 686.18 FEET TO A 5/8" IRON ROD WITH YELLOW PLASTIC CAP STAMPED "CARTER BURGESS" SET FOR CORNER FOR A CORNER OF THIS TRACT;

THENCE SOUTH 00'42'37" EAST, ALONG THE CENTER OF BREEZY HILLS ROAD, A DISTANCE OF 4777.93 FEET TO A 5/8" IRON ROD WITH YELLOW PLASTIC CAP STAMPED "CARTER BURGESS" SET FOR CORNER IN THE NORTH LINE OF F.M. HIGHWAY 552, FOR THE SOUTHEAST CORNER OF THIS TRACT;

THENCE SOUTH 89°20'36" WEST, ALONG THE NORTH LINE OF SAID F.M. HIGHWAY, A DISTANCE OF 1887.13 FEET, TO A 5/8" IRON ROD WITH YELLOW PLASTIC CAP STAMPED "CARTER BURGESS" SET FOR CORNER IN A ENTRYWAY OF A RANCH ROAD, FOR THE SOUTHWEST CORNER OF THIS TRACT;

THENCE NORTH 00°31'43" WEST, GENERALLY ALONG THE CENTER OF SAID RANCH ROAD, PASSING AT A DISTANCE OF 10.00 FEET A 1/2" IRON ROD FOUND ON THE WEST LINE OF THIS TRACT AND CONTINUING A TOTAL DISTANCE OF J593.55 FEET TO A S/S" IRON ROD WITH YELLOW PLASTIC CAP STAMPED "CARTER BURGESS" SET FOR CORNER FOR A CORNER OF THIS TRACT;

THENCE SOUTH S9°15'47" WEST, A DISTANCE OF S03.29 FEET TO A 5/8" IRON ROD WITH YELLOW PLASTIC CAP STAMPED "CARTER BURGESS" SET FOR CORNER FOR A CORNER OF THIS TRACT;

THENCE NORTH 01"31'06" WEST, A DISTANCE OF 1189.10 FEET TO A 5/8" IRON ROD FOUND AT THE BASE OF A CORNER POST, FOR A CORNER OF THIS TRACT;

THENCE SOUTH 88°05'58" WEST, A DISTANCE OF 1546.66 FEET TO A 3/8" IRON ROD

PD Development Standards

TEXT TO BE ADDED TO THE ORDINANCE
~~***TEXT TO BE REMOVED FROM THE ORDINANCE***~~

A. GENERAL REQUIREMENTS

1. *Uses Allowed.* The following uses are permitted for the Property.

   a. *Residential uses*. Uses permitted of right or by special use permit for the Single Family 10 (SF-10) District, as set forth in Article IV, Permissible Uses, of the City of Rockwall Unified Development Code, shall be allowed for areas designated as Single-Family on the Concept Plan, subject to approval of a Special Use Permit if required by the SF-10 District Regulations.

   b. *Non-residential uses*. Non-residential uses shall be allowed only within the area designated as Retail on the approved Concept Plan for the District, and are limited to those uses permitted of right or by special use permit for the General Retail (GR) District subject to approval of a PD Development Plan and PD Site Plan in accordance with the Planned Development District regulations, Article X, Section 2 of the Unified Development Code, and subject to approval of a Special Use Permit if required by the General Retail (GR) District regulations; provided, however, that the following uses are expressly prohibited:

   - ☑ Animal Hospital, Clinic
   - ☑ Convent or Monastery
   - ☑ Hotel or Motel
   - ☑ Hotel, Residence
   - ☑ Cemetery/Mausoleum
   - ☑ Mortuary of Funeral Chapel
   - ☑ Social Service Provider
   - ☑ Billiard Parlor or Pool Hall
   - ☑ Carnival, Circus, or Amusement Ride
   - ☑ Commercial Amusement/Recreation (Outside)
   - ☑ Gun Club, Skeet or Target Range (indoor)
   - ☑ Astrologer, Hypnotist, or Psychic Art and Science
   - ☑ Garden Supply/Plant Nursery
   - ☑ Night Club, Discotheque, or Dance Hall
   - ☑ Secondhand Dealer
   - ☑ Car Wash, Self Service*
   - ☑ Service Station*
   - ☑ Mining and Extraction (Sand, Gravel, Oil & other)
   - ☑ Helipad
   - ☑ Railroad Yard or Shop
   - ☑ Transit Passenger Facility

   ** Not including a convenience store with an accessory car wash use or more than four (4) gas pumps, which accessory uses are permitted by SUP.*

   The following additional use shall be permitted of right in the PD District:

   - ☑ Grocery Store with a maximum building area of one hundred and thirty thousand (130,000) square feet.

   c. *Design of non-residential uses.* The retail area shall be designed to be pedestrian-oriented and easily accessible to adjacent residential neighborhoods. Additionally, the retail area shall be designed and constructed to be integrated with adjacent uses, not separated from them by screening walls or other physical barriers. This will be accomplished by creating paths from adjacent development into the retail area and

DRAFT ORDINANCE 10.11.2016

through the use of landscaping buffers, building design and other urban design elements to create compatibility with the surrounding residential neighborhood.

d. *Density and lot composition*. If the retail develops in accordance with the attached Concept Plan, no more than ~~***742***~~ ***776*** single-family residential dwelling units may be constructed within the Property. Except as provided in subsection (e), single-family residential units shall be allocated by product type in accordance with the following table:

Table 1: Lot Composition

Lot Type	Lot Size Minimum	Lot SF Minimum	Driveway Access	Total Units	Total Dwelling Units (%)
A	60' x 120'	7,200	Front	~~***206***~~ ***186***	~~***27.80***~~ ***23.97%***
B	70' x 120'	8,400	Front	~~***112***~~ ***117***	~~***15.10***~~ ***15.08%***
C	80' x 125'	10,000	Front	326	~~***43.90***~~ ***42.01%***
D	100' x 200'	20,000	Front	~~***98***~~ ***107***	~~***13.20***~~ ***13.79%***
E	***60' x 120'***	***7,200***	***Front***	***40***	***5.15%***
AVERAGE LOT SIZE:		**10,000**			
			MAXIMUM ALLOWED TOTAL UNITS:	~~***742***~~ ***776***	**100%**

e. *Variation in lot composition.* The allocation of single-family dwellings among lot types may deviate from that in subsection (d), provided that the maximum allowed total dwelling units does not exceed ~~***742***~~ ***776*** units, the average lot size for the development is not less than 10,000 sq. ft., and the following rules are met:

(1) Lot types "A & B" may increase not more than 5% in aggregate number.
(2) Lot type "C" shall not be decreased below ~~***42%***~~ ***42.01%*** of the total ~~***742***~~ ***776*** lots.
(3) Lot Type "D" shall not be decreased below ~~***98***~~ ***107*** of the total lots.
(4) Lot Type "E" shall not increase above 40 of the total lots.

2. *Development Standards Applicable.* Except as may be modified by these Development Standards, residential uses shall be subject to the development standards for a (SF-10) Single Family Residential District, as set forth in Article V, District Development Standards for Section 3.4 of the City of Rockwall Unified Development Code; to the development standards in the 205 Bypass Overlay District; and to all supplemental standards contained in the Unified Development Code, including but not limited to the tree preservation regulations in the Unified Development Code.

DRAFT ORDINANCE 10.4.2016

B. SPECIAL DEVELOPMENT STANDARDS

1. *Dimensional Standards for Residential Uses*

Table 2: Lot Type Matrix

Lot Types	A	B	C	D	E
Maximum Building Height	36'	36'	36'	36'	***36'***
Minimum Air Conditioned Square Footage	2,200	2,400	2,600 [2]	3,000	***2,200***
Minimum Front Yard Building Setback	20' [4]	20'	20'	40' [3]	***20' [4]***
Minimum Rear Yard Building Setback	10'	10'	15'	15'	***10'***
Minimum Side Yard (*Interior*)	5'	5'	6'	7'	***5'***
Minimum Side Yard Adjacent to a Street	15'	15'	15'	15'	***15'***
Minimum Distance of Driveway (*from Property Line*)	20'	20'	20'	40'	***20'***
Minimum Lot Area (*Square Feet*)	7,200	8,400	10,000	20,000	***7,200***
Minimum Lot Frontage [1]	60'	70'	80'	100'	***60'***

Notes:

[1]: Lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may be reduced by twenty percent (20%) in lot width measured at the front property line provided that the lot width will be met at the front building line. Additionally, the lot depth on lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may be reduced by up to 10 percent (10%) but shall meet the minimum lot size for each lot type as referenced within *Table 1*.

[2]: A maximum of 20% of the lots may have homes not less than 2,500 sq. ft.

[3]: The Director of Planning or his designee may grant a reduction in the required 40-foot front yard building setback of up to five (5) feet for lots situated along cul-de-sacs or curvilinear streets, or where a 40-foot front yard building setback would create an undue hardship on the property.

[4]: Front porch may encroach to within 10-feet of the front property line.

2. *Development Standards for Residential Uses by Lot Product/Type*

a. *Detached Single Family Lot Type A*

Development Standards	
Minimum Lot Size	7,200 SF
Minimum Lot Width (@ Front Building Line)	60'
Minimum Lot Depth	110'
Minimum Lot Width (Corner Lot)	65'
Minimum Side Yard Setback	5'
Minimum Front Yard Building Setback	20'
Minimum Rear Yard Building Setback	10'
Minimum Air Conditioned Square Footage	2,200 SF
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Garages will be allowed to have the garage accessed from the street using traditional "swing" or "J" drive. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. A minimum of 33% of Type 'A' lots shall have 3-car garages.
Maximum Lot Coverage	65%

DRAFT ORDINANCE 10.11.2016

b. *Detached Single Family Lot Type B*

Development Standards	
Minimum Lot Size	8,400 SF
Minimum Lot Width (@ Front Building Line)	70'
Minimum Lot Depth	120'
Minimum Lot Width (Corner Lot)	75'
Minimum Side Yard Setback	5'
Minimum Front Yard Building Setback	20'
Minimum Rear Yard Building Setback	10'
Minimum Air Conditioned Square Footage	2,400 SF
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Garages will be allowed to have the garage accessed from the street using traditional "swing" or "J" drives. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. A minimum of 33% of Type 'B' lots shall have 3 car garages.
Maximum Lot Coverage	65%

c. *Detached Single Family Lot Type C*

Development Standards	
Minimum Lot Size	10,000 SF
Minimum Lot Width (@ Front Building Line)	80'
Minimum Lot Depth	125'
Minimum Lot Width (Corner Lot)	85'
Minimum Side Yard Setback	6'
Minimum Front Yard Building Setback	20'
Minimum Rear Yard Building Setback	15'
Minimum Air Conditioned Square Footage	2,600 SF [1]
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Traditional "swing" or "J" drive required. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. A minimum of 80% of Type 'C' lots shall have 3 car garages.
Maximum Lot Coverage	65%

Notes:

[1]: A maximum of 20% of the lots may have homes not less than 2,500 sq. ft.

DRAFT ORDINANCE 10.11.2016

d. *Detached Single Family Lot Type D*

Development Standards	
Minimum Lot Size	20,000 SF
Minimum Lot Width (@ Front Building Line)	100'
Minimum Lot Depth	175'
Minimum Lot Width (Corner Lot)	100'
Minimum Side Yard Setback	7'
Minimum Front Yard Building Setback	40' [1]
Minimum Rear Yard Building Setback	15'
Minimum Air Conditioned Square Footage	3,000 SF
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Traditional "swing" or "J" drive required. Single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. 80% of Type D lots shall have a minimum of 3 car garages.
Maximum Lot Coverage	70%

Notes:

[1]: The Director of Planning or his designee may grant a reduction in the required 40-foot front yard building setback of up to five (5) feet for lots situated along cul-de-sacs or curvilinear streets, or where a 40-foot front yard building setback would create an undue hardship on the property.

e. ***Detached Single Family Lot Type E***

Development Standards	
Minimum Lot Size	***7,200 SF***
Minimum Lot Width (@ Front Building Line)	***60'***
Minimum Lot Depth	***110'***
Minimum Lot Width (Corner Lot)	***65'***
Minimum Side Yard Setback	***5'***
Minimum Front Yard Building Setback	***20' (Front porch may encroach to within 10-feet of the front property line)*** [1]
Minimum Rear Yard Building Setback	***10'***
Minimum Air Conditioned Square Footage	***2,200 SF***
Minimum Roof Pitch	***8:12 Except for 4:12 on Porch Roofs***
Minimum Masonry Requirement [Brick, Stone, Cultured Stone, 3-Part Stucco]	***80%***
Garage Orientation [1]	***Up to 50% of garages will be allowed to be accessed from the street in a front entry format (i.e. facing the street even with the front façade of the primary structure); however, a minimum driveway length of 20-feet must be provided. The remaining garages will be in a "traditional swing" or "j-swing" format or have a garage door that is a minimum of 20-feet behind the front façade of the primary structure.***
Maximum Lot Coverage	***65%***

DRAFT
OFFICIAL
10.31.2016

Notes:

[1]: No two adjacent lots on the same side of the street may have front entry only garages facing the street.

3. *Fencing.* All individual residential fencing for lots less than 20,000 square feet shall be cedar standard fencing material (minimum ½" thickness) or better (spruce fencing will not be allowed). All cedar pickets shall be placed on the "public side" facing the street, alley or neighboring property. Lots containing 20,000 sq. ft., lots located along perimeter roadways, and lots abutting open spaces, greenbelts and parks shall be required to install tubular steel fencing. Corner lot fencing (adjacent to the street) shall provide masonry columns at forty-five feet (45') off center spacing that begins at the rear property line corner and terminates ten feet (10') behind the front yard building setback line. A maximum six (6') foot solid board on board "panel" cedar fencing shall be allowed between the masonry columns along the side and/or rear yard lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five feet (5'). The property owner shall maintain that portion of the property outside the fence.
4. *Anti-Monotony Features.* Lot types shall incorporate the following elevation features.

Table 3 : Anti-Monotony Matrix

Lot Type	Lot Size (Approx.)	Elevation Features
A	60' x 120'	i., ii., iii.
B	70' x 120'	i., ii., iii.
C	80' x 125'	i., ii., iii.
D	100' x 200'	i., ii., iii.
E	***60' x 120'***	***i., ii.***

i. Exterior facade must be composed of eighty percent (80%) masonry (brick, stone, cultured stone, or three-part stucco). Identical brick blends may not occur to adjacent (side-by-side) properties. Elevations shall not repeat along the fronting or siding streetscape without at least four (4) intervening homes of sufficient dissimilarity (to be determined by the ARC) on the same side of the street and (2) intervening homes on the opposite side of the street). The rear elevation of homes backing to open spaces or thoroughfares shall not repeat without at least two (2) intervening homes of sufficient dissimilarity (to be determined by the ARC). Masonry (brick, stone, cultured stone, or three-part stucco) chimneys shall be required on all homes.

ii. Minimum of 8:12 roof pitch, except for 4:12 roof pitches on porches. For each phase, a maximum of four compatible roof colors may be used. Dimensional shingles shall be used. Crown molding will be installed in all living and family rooms, unless vaulted or pop-up ceilings are utilized. No Formica counters in kitchens and bathrooms, no blown acoustic ceilings. No vinyl flooring will be used in kitchens.

iii. For front entry driveway access a traditional "swing" or "J" drive will be used. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only.

5. Streetscape Landscape. Prior to issuance of a Certificate of Occupancy, yards for all single-family lots in the District shall be landscaped with large canopy trees.

(1) Two minimum three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of an interior lot.

DRAFT
ORDINANCE
NO. 20-XX

(2) Two minimum three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of a corner lot and two additional trees of same caliper shall be planted in the side yard facing the street.
(3) For purposes of this section only, the term "front yard" includes the area within the dedicated right-of-way for a parkway immediately adjoining the front yard of the lot.

6. *Master Design Guidelines.* Additional design guidelines specific to each phase of development that shall apply to all single-family dwellings units within that phase of development, shall be submitted to the City prior to issuance of any building permits for that portion of the development.

C. STANDARDS FOR DISTRICT DESIGN AND CONNECTIVITY

1. *Streetscape Standards for Collectors & Non-Fronting Thoroughfares.* All streets, excluding drives, fire lanes and private parking areas, shall be built according to City of Rockwall street standards. Sidewalks and Hike / Bike trails are to be placed according to city requirements and as set forth in the Open Space Master Plan for the District.

   a. *Buffer-Strip* and Sidewalks (John King Boulevard Overlay District). The landscape buffer strip along John King Blvd shall be as described in the City of Rockwall Unified Development Code, Article V (District Development Standards), Section 6.10 E (Landscape Standards) and be a minimum width of fifty (50) feet as shown on the Planned Development Concept Plan in Exhibit 'B'. Additionally, the developer shall construct a minimum of a ten (10) foot sidewalk, on both sides of John King Boulevard, within the fifty (50) foot landscape buffer strip as recommended by the John King Boulevard Design Concept Plan located in the Comprehensive Plan of the City of Rockwall.
   b. *Buffer-Strip (FM 552).* A landscape buffer strip with a minimum width of fifteen (15) feet shall be provided along the frontage of FM 552, and shall be landscaped with at least one canopy tree per 30-ft and a combination of berms and shrubbery to be reviewed with the PD Site Plan(s) for the retail tract.
   c. *Buffer-Strip (Breezy Hill) Retail.* The minimum buffer width between the proposed retail area and Breezy Hill Rd shall be fifty (50) feet, and shall include a berm with a minimum height of five (5) feet with at least three (3) canopy trees and four (4) accent trees per 100-ft of frontage. A detail of this landscape buffer shall be approved by the Planning and Zoning Commission and City Council at the time of PD Development Plan for the retail tract.
   d. *Buffer-Strip (Breezy Hill) Residential.* A landscape buffer strip with a minimum width of ten (10) feet shall be provided between any residential area and Breezy Hill Rd.
   e. *Irrigation.* Any irrigation installed in landscape areas and public parks must be designed by a Texas licensed irrigator or landscape architect.
   f. *Fencing.* The Association will maintain all common area and perimeter fencing surrounding the Property. Such perimeter fencing shall be composed of six foot (6') tall tubular steel fencing with masonry entry features or such other fencing as may be approved by the City at the time of platting. Perimeter screening may also be accomplished by earthen berms landscaped with living screening. Property owners will maintain all fences constructed on private property.
   g. *Curvilinear Walks.* Walks are to be a minimum of five feet (5') wide to six feet (6') maximum width (hike and bike trail) consistent with the approved Open Space Master Plan. "Collector streets" with or without center medians may incorporate sidewalks six feet (6') in width adjacent to or within "front yard" landscape easements. Walks may

DRAFT
ORDINANCE

meander within parkway and common area; however, edge of walk shall be no closer than four feet (4') from back-of-curb.

h. *Medians.* Any proposed median openings shall meet the City standards at the time of PD site plan approval.

2. *Lighting.* Light poles shall not exceed twenty feet (20') in height. All light fixtures shall direct light downward and be contained to the site.
3. *Sidewalks.* At a minimum, sidewalks located on lay down curb section streets shall begin four feet (4') behind the back of curb and be five feet (5') in overall width. Sidewalks will not be required on rural street sections.
4. Curbing. Within certain lot types "A, B, & C" "roll up, lay down curbing" may be incorporated in an effort to minimize frequent curb cuts and maximize streetscape continuity, as approved by the City of Rockwall (Engineering Department) with approval of the final plat application.
5. *Buried Utilities.* New distribution power-lines required to serve the Property shall be placed underground, whether such lines are located internally or along the perimeter of the Property, unless otherwise authorized by the City Council. New transmission power-lines, or distribution lines of a size not typically or cost effectively placed underground (3 phase lines), or additional lines that are added to existing poles, may be above ground, if located along the perimeter of the Property, except along the 205 Bypass. Additionally, if such above ground lines are installed along the perimeter of the property and adjacent to non-residential use, then the lines shall be installed behind the non-residential buildings where the installation is possible. The Developer shall not be required to re-locate existing overhead power-lines along the perimeter of the Property. Temporary power-lines constructed across undeveloped portions of the Property to facilitate development phasing and looping may be allowed above ground, but shall not be considered "existing lines" at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph.
6. *Parks and Open Space.*
   a. Residential and retail acreages (net of right-of-way dedication) shall contain no less than 20% open space and.
   b. Allowable open space may include but is not limited to 50% of floodplain, amenity center, public or private parks, trails, natural areas, buffers, traffic circle medians, entry features, common areas (including any Association recreation center or similar facilities) and other features depicted on the Development Plan, as set forth in the Open Space Master Plan prepared in accordance with subparagraph (c) below. Street right of way will not be included as open space. At least 80% of the single-family dwellings within the development shall be located within eight hundred feet (800') of public or private open space. In order to qualify, such open space must be at least one (1) continuous acre in area, not including roadway buffers less than fifty (50') feet in width.
   c. The Developer shall prepare the Open Space Master Plan to be consistent with the approved Development Plan. The purpose of an Open Space Master Plan is to supplement the Development Plan by providing an additional level of detail for public and private open space areas. The Open Space Master Plan shall identify the locations of and improvements to public parks, and other public and private open space or common areas and shall illustrate an integral system of trail improvements that, together with intervening land held by other property owners or the City, is designed to connect residential areas, schools and retail areas within the District to parks and open space within the District and that provides for continuation and connection of the trail system to off-site parks and open space, in accordance with the City's Master Park and Recreation Plan. The Open Space Master Plan shall clearly differentiate public parks from private facilities and common lands to be maintained by the Association. The locations of public parks, school sites and other public and private open space or common areas shown on

DRAFT NOT FOR ORDINANCE

the Open Space Master Plan shall be in conformance with the Development Plan. The Open Space Master Plan shall include a phasing plan for construction of all trails, parks, common open space and facilities. The Open Space Master Plan shall be considered for approval if it complies with this section, the applicable City regulations, the Development Plan, and generally accepted park-planning practices.

d. The District shall contain not less than eleven (11) acres of land to be used as public or private parkland. A minimum of eleven (11) contiguous acres shall be dedicated to the City in accordance with the City's Neighborhood Parkland Dedication Ordinance on approval of the final plats for those phases adjacent to or abutting the proposed parkland dedication and will provide access to said parkland area. The remaining parkland area will be retained as a private park within the District. Park improvements shall be constructed in accordance with the approved Open Space Master Plan. The site plan incorporating the design of park improvements and hike/bike trail improvements shall be considered for approval with the final plat for the phase of the development containing such improvements. Performance of the obligations in this subparagraph shall be deemed to fully satisfy the City's Neighborhood Parkland Dedication Ordinance regarding land dedication. At the time of recordation of final plats for each phase, the Developer shall pay park improvement fees to the City. These fees shall be held in an escrow account until the parkland is dedicated to the City, at which time the Developer shall inform the City if the Developer wishes to use the escrowed fees as well as future fees to construct park improvements. Prior to construction, said improvements shall be approved by Parks Director, approval not to be unreasonably withheld, and invoices for improvements shall be submitted to Parks Director for approval. Performance of the obligations in this subparagraph shall be deemed to fully satisfy the City's Neighborhood Parkland Dedication Ordinance regarding park development fees, provided that park improvements are installed at a value equal or exceeding the value of park improvement fees for the entire District applicable at that time, or improvement fees are paid. Thereafter, the Developer shall not be responsible for additional parkland dedication or park development fees associated with the Property, except as otherwise may be provided in a capital facilities agreement approved by the City.

7. Developer shall provide a minimum of one (1) retention pond in the District with hard edges and fountain features. The exact configuration and location of the ponds will be determined at development. All retention pond hardedges shall be similar to the hardedge shown on Figure 1 (below).

DRAFT
ORDINANCE
10.17.2016

Figure 1: *Retention Pond with Hardedge.*

8. *Signage.* Permanent subdivision identification signage shall be permitted at all major entry points, in general conformance to the signage shown in Figure 2 & 3 (below). Final design of entry features to be determined with the Planned Development Site Plan.

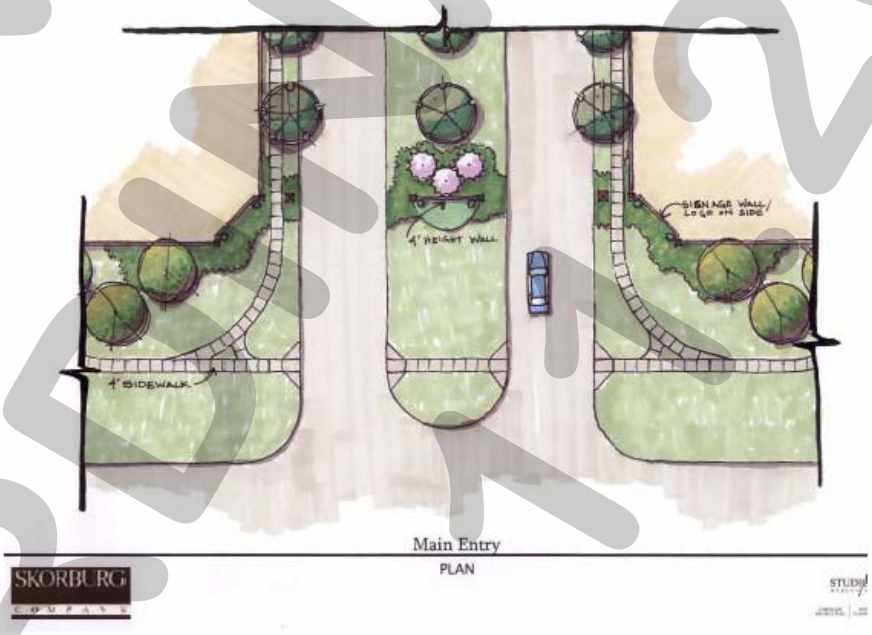

Figure 2: *Example of Subdivision Signage Locations*

DRAFT
ORDINANCE
10.17.2016

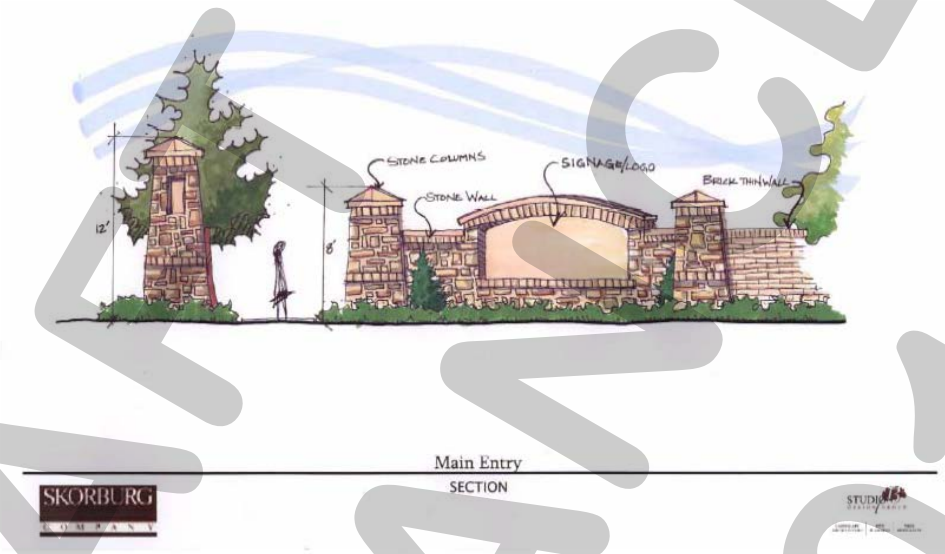

Figure 3: *Example of Subdivision Signage Design Standard*

9. *Variances.* The variance procedures and standards for approval set forth in the Unified Development Code shall apply to any application for variances to this ordinance.
10. *Amenity Center.* Site plan, landscape plan and building elevations for the Amenity Center shall be approved by the Planning and Zoning Commission prior to construction.
11. *Trees.* All trees planted within the District shall be a minimum three (3) inch caliper measured six (6) inches above the root ball.

DRAFT ORDINANCE 10.11.2016

EXHIBIT 'D': CAPITAL FACILITIES AGREEMENT FOR BREEZY HILL

THIS CAPITAL FACILITIES AGREEMENT (the "Agreement") is by and among the Breezy Hill 405, Ltd, ("Breezy" or "Developer") and the City of Rockwall, Texas ("City" or "Rockwall "),

I. RECITALS

1. Breezy seeks to rezone and subdivide the Property for single-family residential use and certain commercial uses. Breezy shall submit an application to rezone the 405 acres north of FM-552 (the "Property") as a planned development (PD) district for a development currently known as Breezy Hill (the "PD District"),

NOW, THEREFORE, in consideration of the foregoing recitals and mutual covenants contained herein, the Parties hereto agree as follows:

II. ADEQUATE PUBLIC FACILITIES

1. *General Provisions.*

a. *Adequacy Required.* Development of the Property shall be supported with adequate levels of public facilities and services, Adequate facilities and services are those that (i) comply with the applicable City regulations, including this Agreement, and (ii) are consistent with generally accepted engineering and planning practices for similar developments, The Parties agree that the dedication and construction of public improvements, or the contribution of proportionate development fees, required to support development of the Property shall precede or be concurrent with the construction of private improvements to the land, in accordance with the phasing provisions incorporated within this section, or as otherwise may be provided through approval of a master plat.

b. *Proportionality.* The Parties agree that the dedication or construction of public improvements, or the contributions of development fees, provided for in this Agreement are roughly proportional to the nature and extent of the proposed development of the Property on the City's public facilities systems. Breezy hereby covenants not to sue the City for any claim, or otherwise consent to participate in any action against the City arising from any claim by such party or by its affiliates, alleging that application of the adequate facilities requirements set forth in this Part II of the Agreement to the development of the Property, or the imposition of conditions to a plat application for a portion of the Property that are consistent with the requirements of this section, are not roughly proportional to the impacts of the development depicted in the Concept Plan, including but not limited to any action premised upon Tex. Loc. Gov't Code sec. 212.904 or successor statute. Such covenant not to sue touches and concerns the Property, and is a covenant running with the land such that it binds successors-in-interest and assigns of Breezy. Should any successor-in-interest or assign of Breezy other than an affiliate of Breezy assert any of the foregoing claims in a court of competent jurisdiction, in violation of this Subsection 1 (b), with respect to the development of any portion of the Property, the Parties agree that, with respect to such portion of the Property or all of the Property, at the City's option, this Agreement thereupon shall become null and void and any rights that may otherwise have

BLS

DRAFT ORDINANCE 10/4/16

vested under then existing state law shall be waived upon such event. Breezy further agrees that the City may expressly rely upon the provisions of this paragraph in any certification under section 212.904 and that a court in determining rough proportionality may consider all of the Property. Should Breezy or an affiliate of Breezy violate the covenant not to sue contained in this paragraph, the City may either enforce the covenant or pursue the remedies provided for herein that are applicable to successors or assigns, other than affiliates. As used in this Agreement, the term "affiliate" means any person, corporation, partnership, or other entity controlled by, controlling, or under common control with Breezy.

c. *No Waiver.* The requirements in this Part II shall be considered additional standards and conditions applicable to development within the PD District. Except in the event of a conflict between the standards in this Agreement and other standards applicable within the District, nothing in this Agreement shall be construed as superseding any requirement or standard in the City's subdivision or utility regulations relating to provision of adequate public facilities and services.

2. *Wastewater Services.*

a. *City as Provider.* The City shall be the supplier of wastewater services to the Property.

b. *Line Extensions.* The Developer shall extend wastewater mains sufficient to serve each phase of development within the PD District, sized in accordance with the City's master plan for wastewater facilities and constructed in accordance with the phasing schedule approved in conjunction with the Developer's master plat application. The Developer shall design and construct a lift station in order to serve the development within the PD District. The Developer shall be entitled to pro-rata fees for the costs of over-sizing the lift station from other future developments using the lift station, calculated on a per acreage basis. Developer also shall be eligible for credits against, wastewater impact fees otherwise due for construction of improvements identified and included in the City's wastewater improvements plan for impact fees, in accordance with the City's then existing impact fee regulations. Provisions for City participation in oversize costs, rebate of pro-rata fees or provision of impact fee credits shall be set forth in a facilities and reimbursement agreement between the Developer and the City.

c. *Payment of Impact Fees.* Wastewater impact fees shall be paid at rates and at the times provided for in the City's then existing impact fee regulations.

3. *Water Services*

a. *City as provider.* The City shall be the supplier of water services to the Property. The City represents that it has sufficient capacity to serve the Property.

b. *Line Extensions.* The Developer shall extend water mains sufficient to serve each phase of development within the PD District, sized in accordance with

BC

DRAFT ORDINANCE 10.17.2016

the City's master plan for water facilities and constructed in accordance with the phasing schedule approved in conjunction with the Developer's master plat application. The Developer shall be eligible for City participation in the costs of over-sizing water distribution mains or appurtenances that serve other land in addition to the Property, in accordance with the City's standard policies, or for collection of pro-rata fees for such facilities. Developer also shall be eligible for credits against, water impact fees otherwise due for construction of improvements identified and included in the City's water improvements plan for impact fees, in accordance with the City's then existing impact fee regulations. Provisions for City participation in oversize costs, rebate of pro rata fees or provision of impact fee credits shall be set forth in a facilities and reimbursement agreement between the' Developer and the City.

c. *Payment of Impact Fees.* Water impact fees shall be paid at rates and at the times provided for in the City's then existing impact fee regulations.

4. *Road Improvements.* The Developer shall make the following road improvements.

a. *John King Boulevard (Highway 205 Bypass).* The Developer shall have no obligation with respect to construction of John King Blvd. other than as outlined herein regarding payment of road impact fees.

b. *FM-552 Improvements.* The Developer shall dedicate rights-of-way for and construct turn lanes and acceleration/deceleration lanes concurrent with construction of any road on the Property that intersects FM 552, in accordance with City and TXDOT standards and specifications at the time of development of adjoining property.

c. *Breezy Hill Road Improvements.* The Developer shall dedicate a minimum of twenty-five feet (25') of right-of-way or such right-of-way as is needed to construct a twenty-four foot (24') concrete rural section of Breezy Hill Road and appurtenances adjacent to the Property, together with a two-foot (2') asphalt or concrete shoulder on either side of the concrete section, the total not to exceed twenty-eight feet (28') in width, from the northern point of Breezy Hill Road adjacent to the Property, to FM-552, as shown on the Development Plan. The Developer also shall dedicate and improve a minimum landscape buffer of ten feet (10') for the residential tract and fifty feet (50') for the retail tract, adjacent to the right-of-way for Breezy Hill Road, designed in accordance with the requirements of a PD District then in effect for a rural collector. The bar ditch that abuts the buffer strip, designed to a maximum slope of 3: 1, shall not encroach into the required ten-foot or fifty-foot buffer area, except to the extent that the buffers exceed ten feet (10') in width. The Developer shall dedicate right-of-way for Breezy Hill Road and the landscape buffer at the time of final plat approval for any lot abutting Breezy Hill Road. Developer shall construct Breezy Hill Road in conjunction with the retail tract that is final platted adjacent to Breezy Hill Road. Breezy Hill Road will be constructed from the northernmost intersection created by any portion of the retail tract being platted, south to FM-552. Developer shall install any

BL)

DRAFT ORDINANCE 10-3-2016

needed expansion of existing culverts created by such construction or the development, of such retail tract.

d. *Payment of Roadway Impact Fees.* Roadway impact fees shall be paid at rates and at the times provided for in the City's then existing impact fee regulations. Construction costs incurred by Developer for roadway improvements in this Agreement that are included in the City's roadway improvements plan for impact fees shall be credited against roadway impact fees otherwise due, in accordance with the City's impact fee regulations.

5. *Drainage Improvements.* Dedication of rights-of-way for and construction of drainage improvements shall be provided as specified in conditions imposed with approval of the master plat for development within the PD District and in accordance with City standards and specifications.

6. *Parks and Open Space.*

a. The Developer or a property owners association shall maintain public parklands and improvements within the development for a period of three (3) months from the completion and acceptance of the improvements. Thereafter, the City shall assume responsibilities for maintenance. All open space and improvements which are not dedicated as parkland to the City shall be maintained as common areas in perpetuity by the property owners association for the PD District. Additionally, the property owners association shall maintain Developer-installed landscaping areas in public rights-of-way and public drainage ways internal to and adjacent to the Property.

III. GENERAL PROVISIONS

1. Notice on Sale. The Developer shall provide the City with notice of the sale of any tract or parcel within the District that has not been platted at the following address:

Rockwall City Manager
Rockwall City Hall
385 S. Goliad Street
Rockwall, TX 75087

2. *Recording.* This Agreement is intended to run with the land, and shall be recorded in the Real Property Records, Rockwall County, Texas.

3. *Term of Agreement.* This Agreement shall terminate two (2) years following the City's acceptance of the dedication and construction of the public improvements described herein serving the last phase of development within the PD District, after which the City agrees, upon the request of the Developer to execute a termination of this Agreement in recordable form. Any reimbursements for payment of impact fees shall not expire.

4. *Effective Date.* This Agreement shall take effect upon the date of its execution by the last of the Parties to the Agreement; provided, however, that Breezy shall execute this Agreement no later than five (5) business days following the

BU

DRAFT ORDINANCE 10.4.2016

effective date of the PD zoning ordinance for the Property. If Breezy fails to execute this Agreement within such period, this Agreement shall become null and void, and unless a subsequent agreement, acceptable to the City and the Developer, is agreed to, the City may thereafter deny any PD site plan, master plat or other plat application on grounds that the application is not supported by adequate public facilities and services.

5. *Severability.* Invalidation of any provision of this Agreement by judgment or court order shall not invalidate any of the remaining provisions which shall remain in full force and effect, unless such remaining provisions are an integral part of the invalid provisions or the invalid provision is necessary to give effect to the remaining provisions.

6. *Enforcement.* This Agreement may be enforced by the Parties by any proceeding at law or in equity. Failure to do so shall not be deemed a waiver to enforce the provisions of this Agreement thereafter.

7. *Venue.* Venue for this Agreement shall be in Rockwall County, Texas.

8. *Execution.* This Agreement may be separately executed in individual counterparts, and upon execution, shall constitute one and the same instrument.

9. *Amendment.* This Agreement may only be amended in writing upon mutual consent of the City and the Developer.

10. *Joint preparation.* This Agreement shall be deemed to have been jointly prepared by all Parties hereto, and no ambiguity of this Agreement shall be construed against any party based upon the identity of the author of this Agreement or any portion thereof.

11. *Recitals Incorporated.* Statements and representations contained herein are to be considered contractual in nature and not merely recitations of fact. The Recitals contained in Part I of this Agreement hereby are expressly incorporated into this Agreement by reference.

12. *Construction.* All references herein in the singular shall be construed to include the plural where applicable, the masculine to include the feminine and neuter genders.

13. *Authority.* Each of the signatories to this Agreement represents and warrants that he is authorized to execute this Agreement and bind his principals to the terms and provisions hereof. Each Party warrants that any action required to be taken in order for this Agreement to be binding on it has been duly and properly taken prior to the execution of this Agreement.

14. *Conflicts.* In the event of a conflict between this Agreement and any provision of the Unified Development Code, the City Code, or any City ordinance, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this Agreement, the standards in this Agreement shall control.

BLJ

DRAFT ORDINANCE 10.4.2016

EXHIBIT 'D': CAPITAL FACILITIES AGREEMENT FOR BREEZY HILL

15. *No Waiver*. Developer retains the right to challenge the application of any City impact fee regulations to the Property solely on the basis that such regulations fail to comply with Chapter 395 of the Texas Local Government Code, as amended. If Developer prevails in such a claim, impact fees shall be applied to the development of the Property and paid by the Developer, as applicable, in accordance with the court order.

DRAFT ORDINANCE 10.17.2016

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 10/11/2016

APPLICANT: Chad & Lindsay Hudson

AGENDA ITEM: **P2016-040;** *Lots 7 & 8, Block A, Independence Pass Addition*

SUMMARY:

Discuss and consider a request by Chad & Lindsay Hudson for the approval of a replat for Lots 7 & 8, Block A, Independence Pass Addition being a replat of a 1.4-acre parcel of land identified as Lot 5, Block A, Independence Pass Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) for single family land uses, addressed as 107 Independence Place, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of the request is to replat one (1) 1.4-acre lot [Lot 5, Block A, Independence Pass Addition] into two (2) .70-acre lots [Lots 7 & 8, Block A, Independence Pass Addition] for the purpose of subdividing one (1) lot into two (2) lots.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the *replat* for *Lots 7 & 8, Block A, Independence Pass Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *replat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

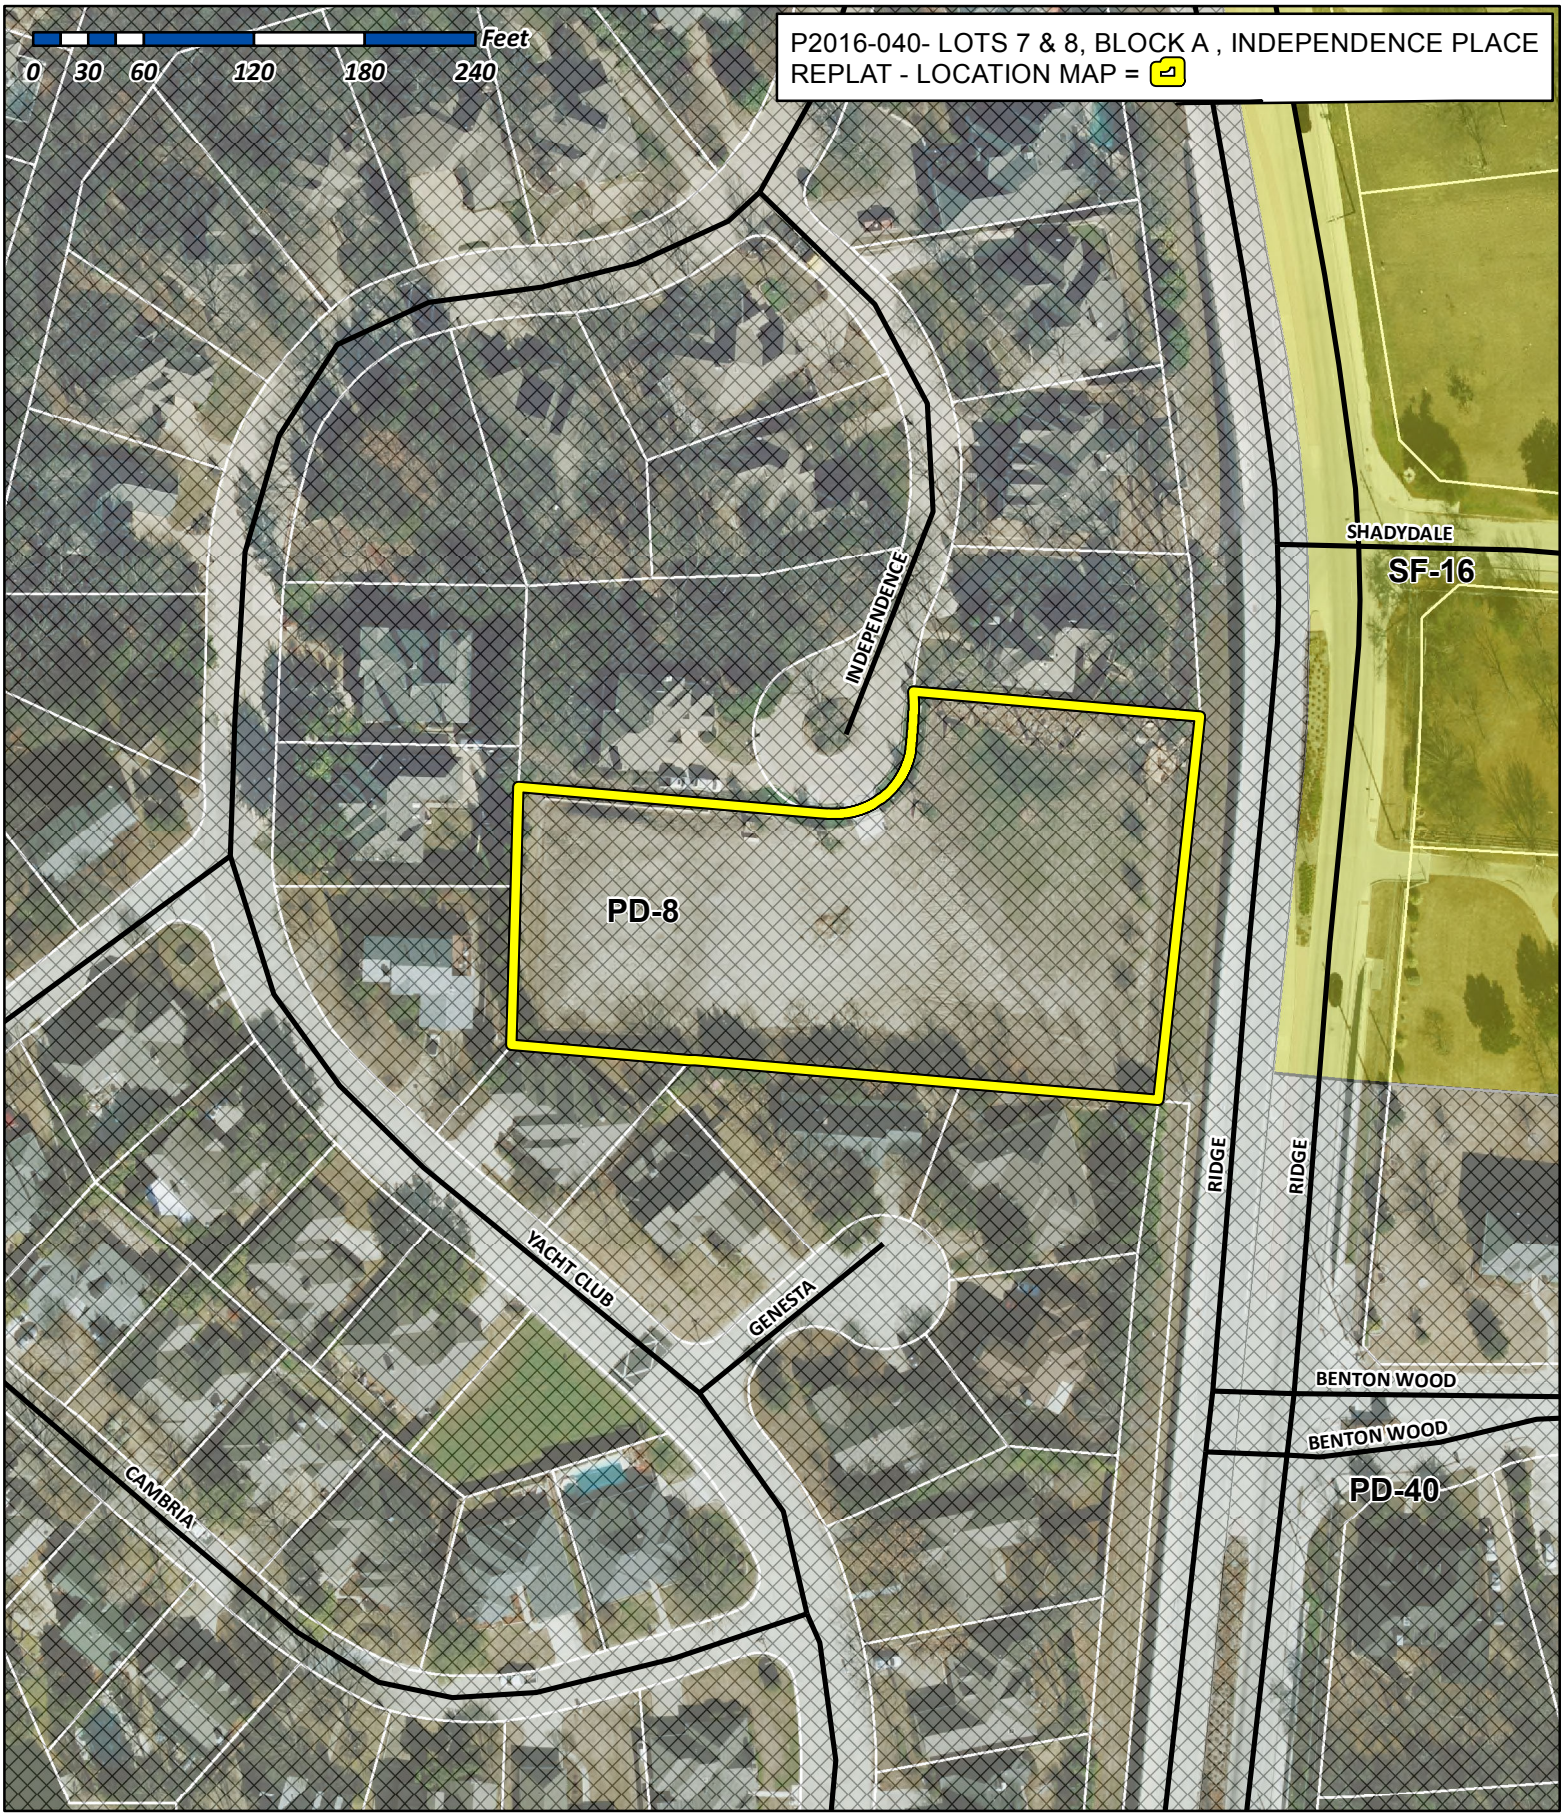
P2016-040 Independence Pass Addition Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Chad & Lindsay Hudson for the approval of a replat for Lots 7 & 8, Block A, Independence Pass Addition being a replat of a 1.4-acre parcel of land identified as Lot 5, Block A, Independence Pass Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) for single family land uses, addressed as 107 Independence Place.



I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2016-040) in the lower right hand corner of all pages on future submittals.

I.4 A mother-in-law cottage will not be allowed on a separate lot unless it conforms to the Single Family standards

I.5 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by October 4, 2016. The Planning & Zoning Worksession date for this case will be September 27, 2016. The Planning and Zoning Meeting is October 11, 2016.

I.6 The projected City Council meeting date and subsequent approval for this plat is October 17, 2016.

OWNER'S CERTIFICATE
(Public Dedication)

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS, CHAD J. HUDSON and LINDSAY B. HUDSON, BEING THE OWNER OF A TRACT OF land in the E. TEAL SURVEY, ABSTRACT NO. 207, County of Rockwall, State of Texas, said tract being described as follows:

All that certain lot, tract or parcel of land situated in the EDWARD TEAL SURVEY, ABSTRACT NO. 207, City of Rockwall, Rockwall County, Texas, and being all of Lot 5, Block A, Replat Independence Pass, Lots 5 & 6, Block A, an Addition to the City of Rockwall, Texas, according to the plat thereof recorded in Cabinet I, Slide 101, of the Plat Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner at the northeast corner of said Lot 5, Block A, said point being in the west right-of-way line of F.M. Highway 740 Ridge Road (Variable width R.O.W.) and also being at the southeast corner of Lot 6, Block A;

THENCE S. 06 deg. 09 min. 48 sec. W. along the west line of said F.M. Highway 740 Ridge Road, a distance of 207.47 feet to a 1/2" iron rod found for corner at the southeast corner of said Lot 5 and at the Northeast corner of Lot 17, of CHANDLERS LANDING, PHASE TEN, an Addition to the City of Rockwall, Texas, according to the Plat thereof recorded in Cabinet A, Slide 193 of the Plat Records of Rockwall County, Texas;

THENCE N. 85 deg. 06 min. 24 sec. W. along the south line of said Lot 4, Block A, a distance of 352.51 feet to a 1/2" iron rod found for corner at the southwest corner of said Lot 4 and the northwest corner of Lot 20, in said Phase Ten;

THENCE N. 01 deg. 36 min. 44 sec. E. a distance of 139.89 feet to a 1/2" iron rod found for corner at the northwest corner of said Lot 4 and the southwest corner of Lot 5, in Phase 19;

THENCE S. 85 deg. 04 min. 07 sec. E. a distance of 169.15 feet to a 1/2" iron rod found for corner in the curving South right-of-way line of Independence Place (41.5' radius);

THENCE in a northeasterly direction along a curve to the left having a central angle of 99 deg. 11 min. 02 sec., a radius of 41.50 feet, a tangent of 48.75 feet, a chord of N. 45 deg. 04 min. 36 sec. E., 63.20 feet, along said right-of-way line, an arc distance of 71.84 feet to a 1/2" iron rod found for corner;

THENCE in a northeasterly direction along a curve to the right having a central angle of 14 deg. 05 min. 18 sec., a radius of 88.50 feet, a tangent of 10.94 feet, a chord of N. 02 deg. 55 min. 00 sec. E., 21.71 feet along said right-of-way line, an arc distance of 21.76 feet to a "X" found chiseled in concrete for corner at the southwest corner of Lot 6;

THENCE in a eastery direction along the south boundary line of Lot 6 as follows:

S. 78 deg. 43 min. 36 sec. E. a distance of 12.98 feet;
S. 85 deg. 15 min. 17 sec. E. a distance of 52.58 feet;
S. 85 deg. 11 min. 34 sec. E. a distance of 86.38 feet;
N. 80 deg. 18 min. 23 sec. E. a distance of 4.26 feet the POINT OF BEGINNING and containing 60,953 square feet or 1.40 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

We the undersigned owner of the land shown on this plat, and designated herein as INDEPENDENCE PASS, LOTS 7 & 8, BLOCK A, an Addition to the City of Rockwall, Texas and whose name is subscribed hereto, hereby dedicated to the use of public forever all streets, alleys parks water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasional by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exaction's made herein.

COUNTY OF ROCKWALL

Before me, the undersigned authority, on this day personally appeared LINDSAY B. HUDSON, known to me to be the person whose name is subscribed to the foregoing instrument, and acknowledged to me that he executed the same for the purpose and consideration therein stated.

Given upon my hand and seal of office this _____ day of _____, 20__.

~~Notary Public in and for the State of Texas~~ ~~My Commission Expires:~~

NOTE: It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal useand fire protection within such plat, as required under Ordinance 83-54.

SURVEYOR'S CERTIFICATE

NOW THEREFORE KNOW ALL MEN BY THESE PRESENTS:

THAT I, Harold D. Fetty, III, R.P.L.S. No. 5034, do hereby certify that I prepared this plat from an actual and accurate survey of the land, and that the corner monuments shown thereon were properly placed under my personal supervision.

_____
Harold D. Fetty, III

CITY CASE NO P2016-

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: David Gonzales, *Senior Planner*

COPY: Ryan Miller, *Director of Planning and Zoning*

DATE: October 11, 2016

SUBJECT: Reinstatement of the Preliminary Plat for Fontanna Ranch Phase III

On September 22, 2016, the Planning and Zoning Department received a written request (attached as *Exhibit 'A'*) from Chris Cuny, of F. C. Cuny Corporation on behalf of Fontanna Ranch, LTD requesting the reinstatement of a preliminary plat for Phase III of the Fontanna Ranch Subdivision. This phase consists of 52 single family residential lots on a 27.89-acre tract of land. The subject property is currently zoned Planned Development District 67 (PD-67), and is generally located south of SH-276 and east of FM-549.

The City's subdivision regulations specify that a preliminary plat shall be expired after one (1) year if a final plat for the entire area has not been submitted. Generally, if a developer submits a final plat or engineering plans for any portion of the overall tract, and continues to submit subsequent plans for additional *phases* of the development, the City will continue to consider that preliminary plat active. In this case the preliminary plat (depicted in *Exhibit 'B'*) was approved by the City Council on July 17, 2006 under *Case No. P2006-021*; however, with no final plat being requested within the one (1) year time limit (*July 17, 2007*), the preliminary plat was considered to be officially expired. The applicant will be required to submit a PD Site Plan, civil engineering plans, and a final plat before development of the site can begin.

Section 38-8(f), *Lapse and Extension of Preliminary Plat Approval*, of the City's *Subdivision Ordinance* contained in the Municipal Code of Ordinances, lays out the procedure and criteria for considering the extension of a preliminary plat. In this case, the applicant's request is generally in conformance with this criterion. Additionally, the zoning ordinance approved with Planned Development District 67 (PD-67) incorporated a concept plan that provided the general layout of the proposed Phase III of the Fontanna Ranch Subdivision. This ordinance, having not changed in a manner that would necessitate the creation and submittal of a new preliminary plat, staff would recommend approval of the reinstatement request for a period of one (1) year.

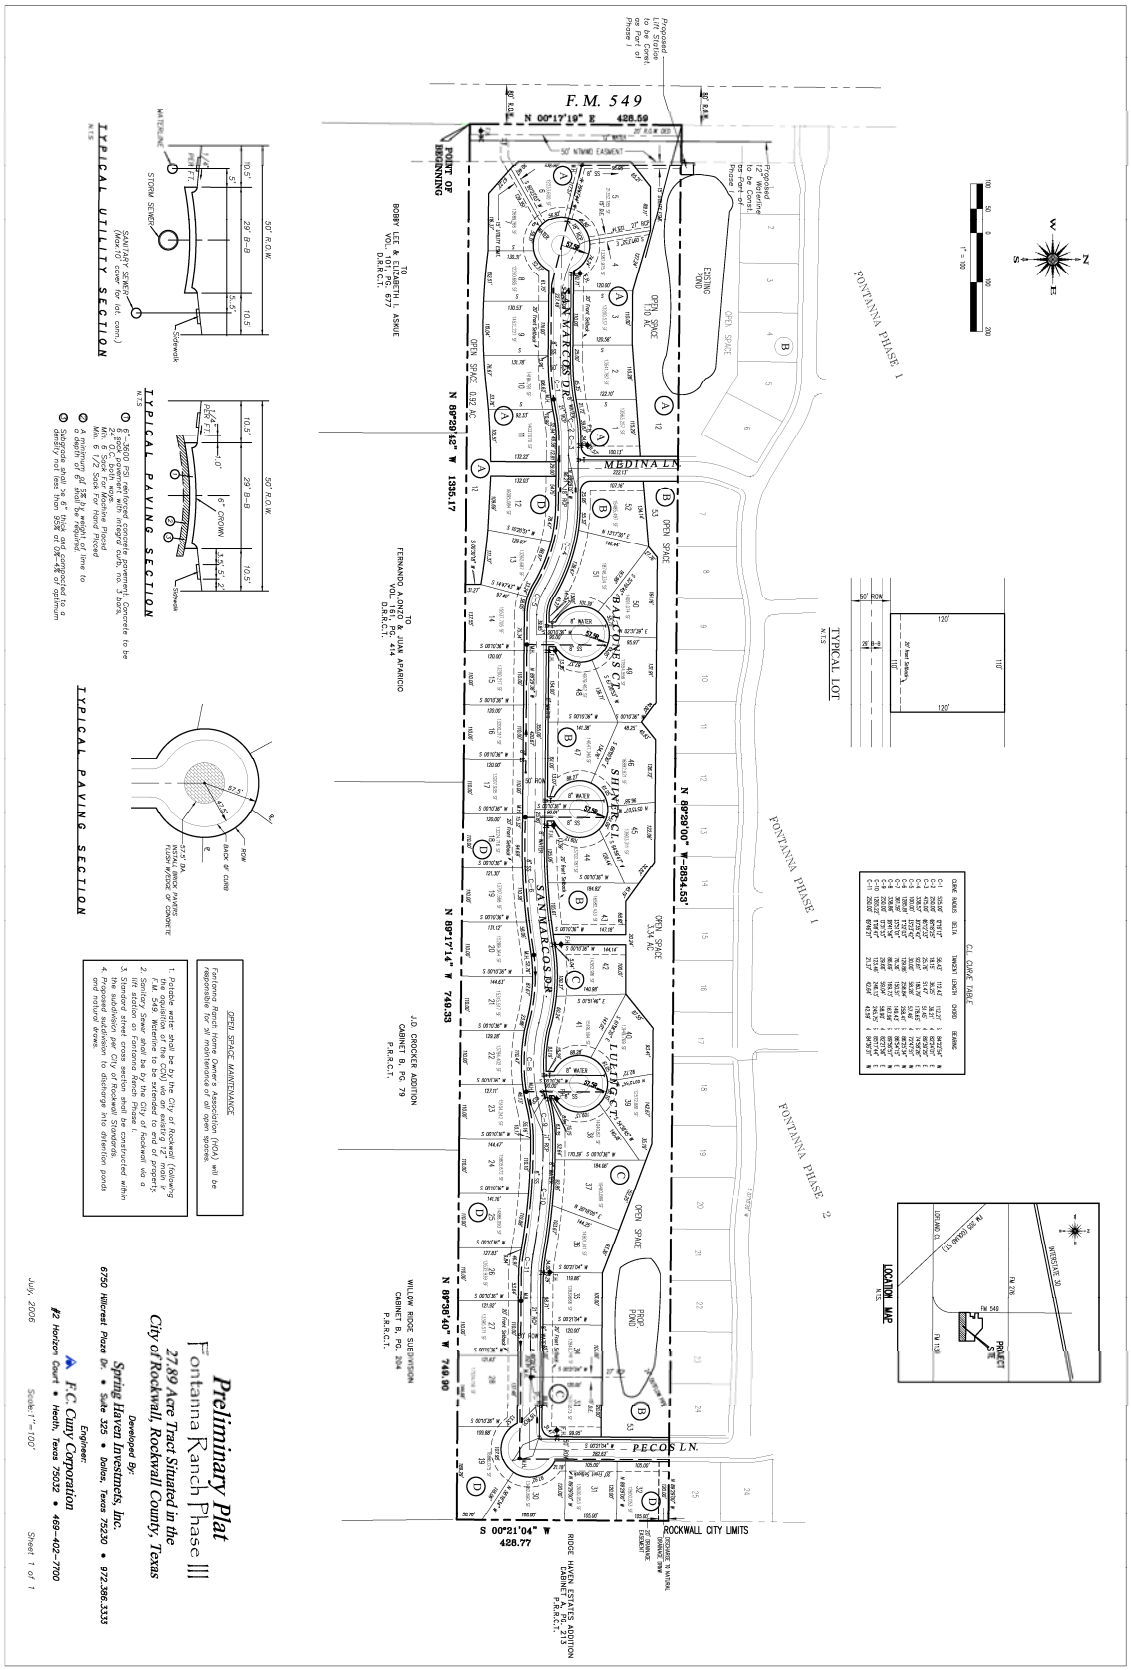
Mr. Ryan Miller:
Planning Director – City of Rockwall
385 South Goliad
Rockwall, Texas 75087

RE: Re-instatement of Fontanna Ranch Phase III Preliminary Plat

Dear Ryan,



This letter is to formally request that you please re-instate the Preliminary Plat for Fontanna Ranch Phase III at the earliest available meeting. This Preliminary Plat is the last and third phase of this project. The third Phase consists of 52-residential lots and is the portion my client, Spring Haven Investments, Inc., desires us to commence work on for final platting and engineering to provide for ultimate development. I believe that the appropriate plat referred to 27.89 acres and was dated July 2006.

Please contact me if you have any questions regarding this process.

Sincerely,

Chris Cuny, P.E. – President, FC Cuny Corporation

Exhibit 'B': Preliminary Plat

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 10/11/2016

APPLICANT: Kevin Patel; *Masters Developers-SNB, LLC*

AGENDA ITEM: **SP2016-019;** Dunkin Academy

Discuss and consider a request by Kevin Patel, P. E. on behalf of William Shaddock of Master Developers-SNB, LLC for the approval of a site plan for a daycare facility on a 2.960-acre tract of land identified as Lot 1, Block S, Preserve, Phase 3 Addition and Tract 12 [1.4376-acres], A. Hanna Survey, Abstract No. 98, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 41 (PD-41) and Single Family 10 (SF-10) District, addressed as 1450 East Fork Drive, and take any action necessary.

PURPOSE:

In 2008, the City Council approved a Specific Use Permit (SUP) [Ordinance No. 08-39] to allow for a "Daycare (7 or more children)" on the subject property. The applicant is requesting approval of a Site Plan for the purpose of constructing a 13,342 sq. ft. *daycare* facility. The proposed daycare is situated on two (2) tracts of land. One (1) tract of land [Lot 1, Block S, Preserve, Phase 3 Addition] is 1.511-acres and is zoned Planned Development District 41 (PD-41). The other tract of land [Tract 12, A Hanna Survey, Abstract No. 98] is 1.4376-acres and is zoned Single Family 10 (SF-10) District. The site is located at the northeast corner of East Fork Drive and North Lakeshore Drive and is addressed as 1450 East Fork Drive.

DENSITY AND DIMENSIONAL REQUIREMENTS:

The submitted site plan, landscape plan, and photometric plan conform to the technical requirements contained within the approved SUP [Ordinance No. 08-39] as well as the Unified Development Code (UDC) for properties located in Planned Development District 41 (PD-41) and Single Family 10 (SF-10) District. A summary of the density and dimensional requirements of the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*10,000 SF*	*~128,943 SF; In Conformance*
Minimum Lot frontage	*80-Feet*	*X>80-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*X>100-Feet; In Conformance*
Minimum Front Yard Setback	*25-Feet*	*25-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*	*X>10-Feet; In Conformance*
Minimum Side Yard Setback (Abutting an Arterial)	*20-Feet*	*20-Feet; In Conformance*
Maximum Building Height	*60-Ft w/o SUP*	*27-Ft; In Conformance*
Max Building/Lot Coverage	*35%*	*10.34%; In Conformance*
Minimum Masonry Requirement	*90%*	*X>90%; In Conformance*
Minimum Number of Parking Spaces	*45*	*45 Provided; In Conformance*
Minimum Landscaping Percentage	*15%*	*X>15%; In Conformance*
Maximum Impervious Coverage	*85%*	*61.51%; In Conformance*

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:

On September 27, 2016, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. The Board's motion to recommend approval of the building elevations as submitted by the applicant pass by a vote of 6 to 0 with Board Member Strohmeyer absent.

RECOMMENDATIONS:

If the Planning & Zoning Commission chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All technical comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) That development of the daycare meet the conditions as stipulated in SUP Ordinance No. 08-39;

3) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

SP2016-019 (Dunkin Academy): Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Kevin Patel, P. E. on behalf of William Shaddock of Master Developers-SNB, LLC for the approval of a site plan for a daycare facility on a 2.960-acre tract of land identified as Lot 1, Block S, Preserve, Phase 3 Addition and Tract 12 [1.4376-acres], A. Hanna Survey, Abstract No. 98, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 41 (PD-41) and Single Family 10 (SF-10) District, addressed as 1292 East Fork Drive

I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (SP2016-019) in the lower right hand corner of all pages on future submittals.

I.4 This property will be required to be plated prior to the issuance of a building permit.

M.5 Site Plan. Please show both lots on the vicinity map.

M.6 Site Plan. Please provide perimeter dimensions of all buildings. Indicate the perimeter dimensions in feet.

M.7 Site Plan. Please indicate the distance between all property lines and existing/planned buildings located on the site.

M.8 Site Plan. Please locate all playground equipment behind the building.

M.9 Site Plan. Please indicate depth of paving material.

M.10 Site Plan. Please show and label 10' landscape buffer along East Fork and along N. Lakeshore Drive.

M.11 Site Plan. Please indicate the street centerline for SH 205.

M.12 Site Plan. Please indicate whether utility equipment will be pad/ground mounted roof mounted. Pad mounted utility equipment shall be screened from horizontal view from any adjacent public street and from any adjacent property. All buildings must be designed so that no roof mounted mechanical equipment shal be visible from any direction.

M.13 Site Plan. Please remove legal description from top of site plan since this will change once it is platted. Also, since this is two lots the legal description provided is not accurate.

I.14 Site Plan. Please indicate "Public Access" instead of "Access" in the legend of the site plan.

M.15 Site Plan. Please note that the parking requirements for this site is 1 per 300 sq. ft. You are currently over-parked.

M.16 Site Plan. Please change "Summery" to "Summary" on the Site Data and Summary Table.

M.17 Landscape Plan. Please correct the parking requirements (item M.15)

M.18 Landscape Plan. Please show and label the 10' landscape buffer adjacent to East Fork and N. Lakeshore (item M.10)

I.19 Landscape Plan. Please identify all visibility triangles for all driveway and intersections and public streets.

M.20 Landscape Plan. Trees must be planted at least five feet from water, sewer, and storm sewer lines.

M.21 Landscape Plan. Please provide note indicating that irrigation will be the requirements of the UDC.

M.22 Treescape Plan. Please provide the Site Data and Summary Table on the Treescape Plan.

M.23 Treescape Plan. Please label the two protected trees being removed.

M.24 Photometric. Please show entire site so that we can verify FC at property line.

M.25 Photometric. Please provide Site Data and Summary Table.

M.26 Photometric. Please indicate the location and type of all exterior lighting including pole mounted, wall mounted, signage, etc.

M.27 Photometric. No light pole, base or combination shall exceed 30 feet, unless further restricted within an Overlay District. Please provide a detail of light pole to that we can ensure compliance.

M.28 Building Elevations. Please remove lot and block designation from the title block as it will change once the site is replatted (this site is two different lots)

M.29 Building Elevations. Please indicate elevations adjacent to public right-of-way.

M.30 Building Elevations. Please indicatethe surface area of each façade.

M.31 Building Elevations. Please indicate any additional design elements for the base, wall, or parapets. Be sure to include the location, size, color, and material of any proposed structure.

I.32 The Architectural Review Board (ARB) meeting for this case will be held on September 27, 2016 at 5 pm..

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
I.33 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on October 4; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the October 11, 2016 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on September 27, 2016 at 6 pm. I.34 If necessary the projected City Council meeting date for this case will be October 17, 2016.

RE: Comment response letter for Dunkin Academy, N Alamo Road, Rockwall, Texas 75087 (City Project # SP2016-019)

Dear Korey

Please find comment responses below.

Engineering:

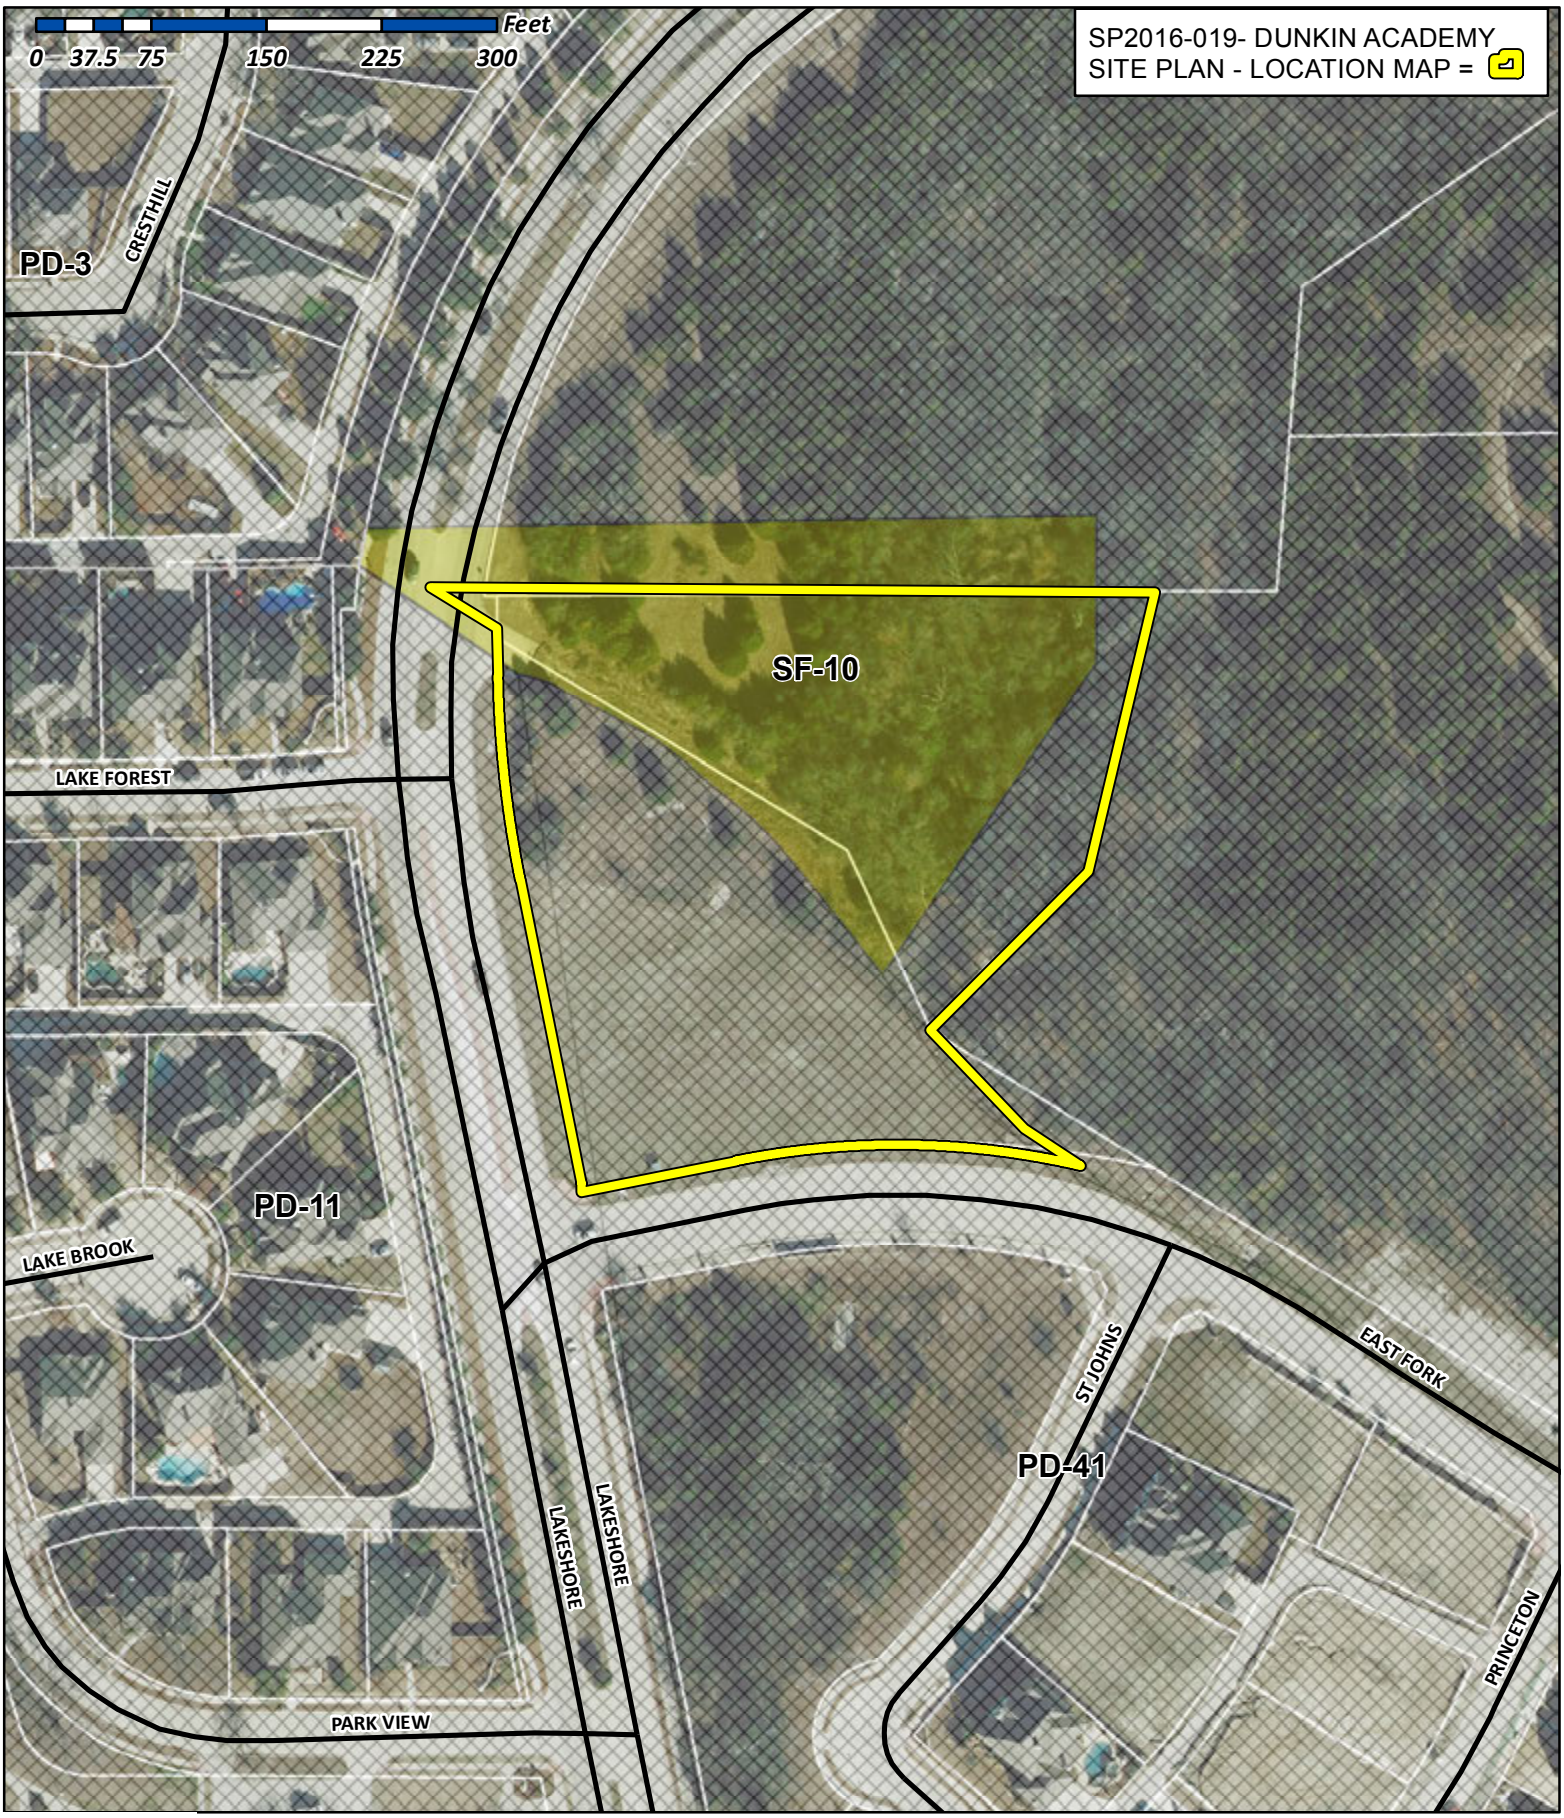
1. Removal of the old driveway shown per this comment.
2. Comment Addressed. Parking sizes changed.
3. Comment addressed. Fully Developed 100 year water surface limit shown.
4. Detention will be provided outside the 100 year water surface area.
5. No need to relocate water line. We have field verify location of the existing water line. We will have to relocate existing water easement to accommodate accurate water line per field survey.
6. Comment addressed Grease trap and oil water separator shown.

Fire:

1. FDC is shown within 100 feet from FH.
2. Sidewalk provided to access FDC.

Planning:

1. Informational.
2. Informational.
3. Comment addressed. City Project number shown.
4. Informational.
5. Comment addressed. Vicinity map corrected.
6. Comment addressed. Perimeter dimensions shown.
7. Comment addressed. Dimensions added.
8. Comment addressed. Playground moved to the back.
9. Comment addressed. Paving depth shown.
10. Comment addressed. Landscape buffer shown.
11. Comment addressed. Street centerline shown.
12. Comment addressed. Location of the HVAC units shown with the wrought iron fence and shrub screening.
13. Comment addressed. Legal removed.
14. Comment addressed.



15. Comment addressed. Extra spaces are removed.
16. Comment addressed.
17. Site Data table and landscape tabulations updated to show the correct parking count.
18. The 10' landscape buffer has been labeled on the plans
19. 15' Visibility triangles at the drive have been added to the plan.
20. Trees are at least 5' from water, sewer and storm line. A note is on the plan specifying the same.
21. A note has been added that irrigation is required per the UDC.
22. The site date table has been added to the tree plan.
23. The two protected trees proposed to be removed have been labeled on the tree plan.

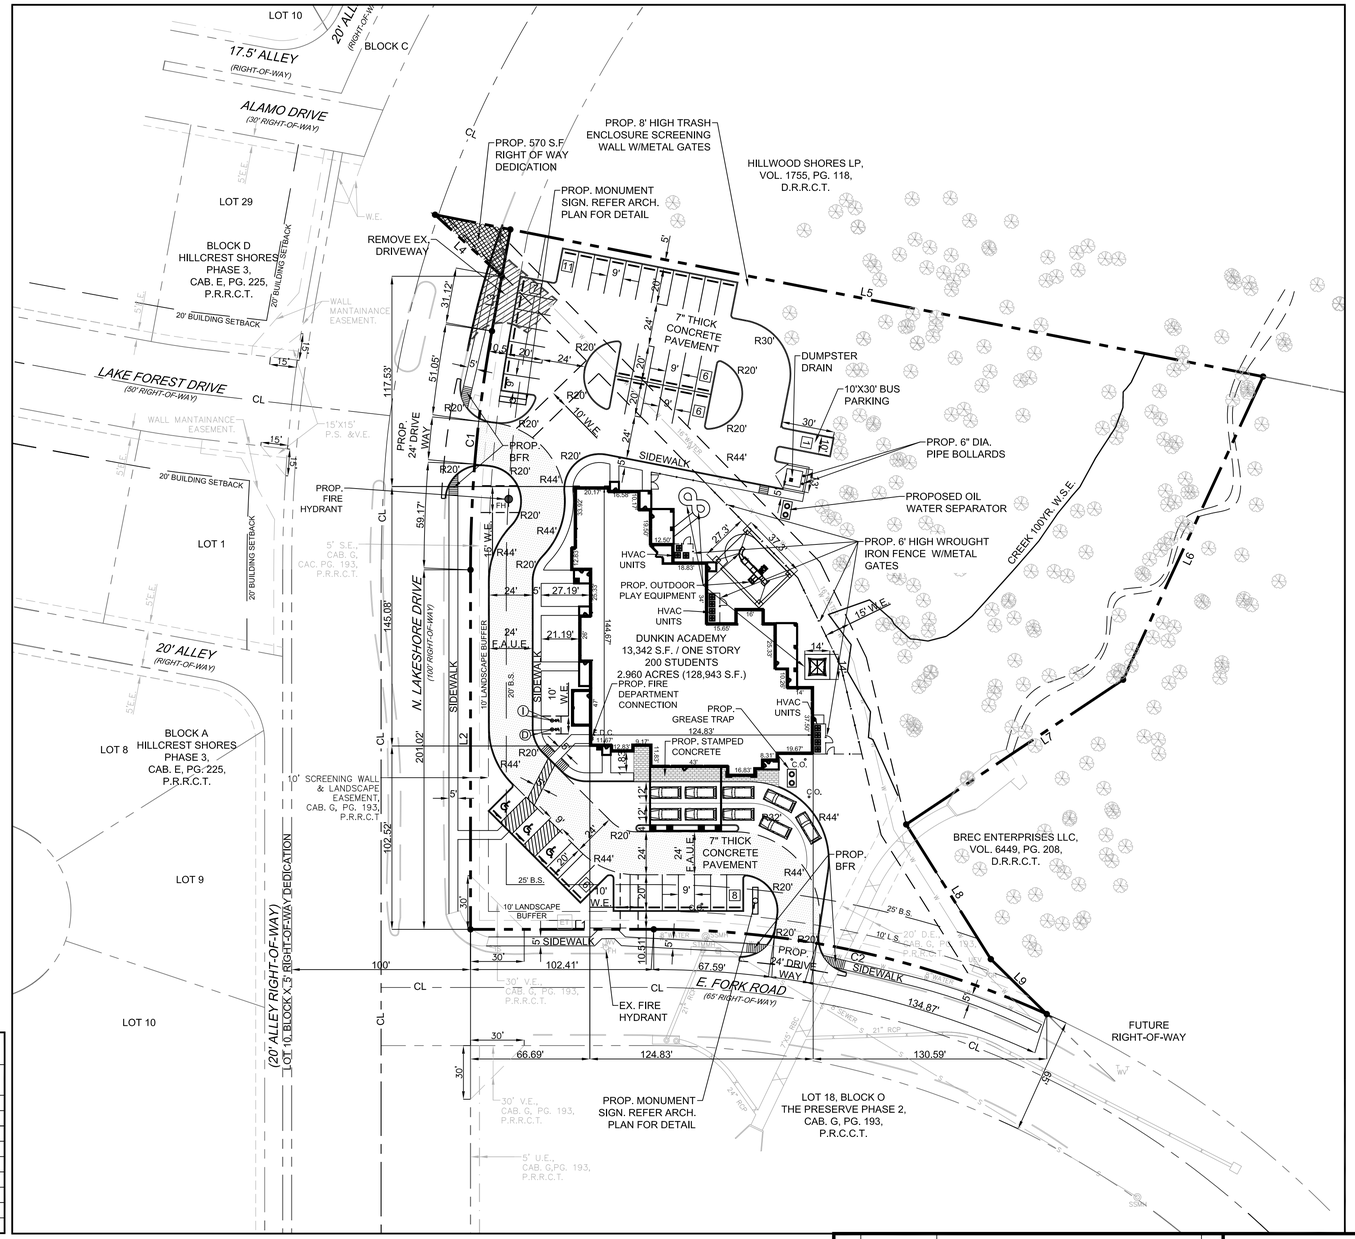
GENERAL NOTES

1. ALL CONSTRUCTION SHALL BE IN STRICT ACCORDANCE WITH THE STANDARDS OF THE CITY OF ROCKWALL.

2. A PERMIT IS REQUIRED TO CUT A CITY STREET OR WORK WITHIN THE RIGHT-OF-WAY. THE PERMIT IS ISSUED BY THE PUBLIC WORKS DEPARTMENT.

3. THE LOCATION OF UNDERGROUND UTILITIES INDICATED ON THE PLANS IS TAKEN FROM PUBLIC RECORDS. IT IS THE CONTRACTOR'S RESPONSIBILITY TO MAKE ARRANGEMENTS WITH THE OWNERS OF SUCH UNDERGROUND UTILITIES PRIOR TO WORKING IN THE AREA TO CONFIRM THEIR EXACT LOCATION AND TO DETERMINE WHETHER ANY ADDITIONAL UTILITIES OTHER THAN THOSE SHOWN ON THE PLANS MAY BE PRESENT. THE CONTRACTOR SHALL PRESERVE AND PROTECT ALL UNDERGROUND UTILITIES. IF EXISTING UNDERGROUND UTILITIES ARE DAMAGED, THE CONTRACTOR WILL BE RESPONSIBLE FOR THE COST OF REPAIRING THE UTILITY.

4. WHERE EXISTING UTILITIES OR SERVICE LINES ARE CUT, BROKEN OR DAMAGED, THE CONTRACTOR SHALL REPLACE OR REPAIR THE UTILITIES OR SERVICE LINES WITH THE SAME TYPE OF ORIGINAL MATERIAL AND CONSTRUCTION, OR BETTER, UNLESS OTHERWISE SHOWN OR NOTED ON THE PLANS, AT HIS OWN COST AND EXPENSE. THE CONTRACTOR SHALL IMMEDIATELY NOTIFY THE ENGINEER AT ONCE OF ANY CONFLICTS IN GRADES AND ALIGNMENT.



5. ALL EXCAVATIONS, TRENCHING AND SHORING OPERATIONS SHALL COMPLY WITH THE REQUIREMENTS OF THE U. S. DEPARTMENT OF LABOR, OSHA, "CONST. SAFETY AND HEALTH REGULATIONS.", VOL. 29, SUBPART P. PG. 128 - 137, AND ANY AMENDMENTS THERETO.

6. ADEQUATE MEASURES SHALL BE TAKEN TO PREVENT EROSION. IN THE EVENT THAT SIGNIFICANT EROSION OCCURS AS A RESULT OF CONSTRUCTION THE CONTRACTOR SHALL RESTORE THE ERODED AREA TO ORIGINAL CONDITION OR BETTER.

7. THE CONTRACTOR SHALL RESTORE ALL AREAS DISTURBED BY CONSTRUCTION TO ORIGINAL CONDITION OR BETTER. RESTORED AREAS INCLUDE, BUT ARE NOT LIMITED TO TRENCH BACKFILL, SIDE SLOPES, FENCES, CULVERT PIPES, DRAINAGE DITCHES, DRIVEWAYS, PRIVATE YARDS AND ROADWAYS.

8. ANY CHANGES NEEDED AFTER CONSTRUCTION PLANS HAVE BEEN RELEASED, SHALL BE APPROVED BY THE CITY ENGINEER. THESE CHANGES MUST BE RECEIVED IN WRITING FROM THE FROM THE DESIGN ENGINEER. THE DIRECTOR OF PUBLIC WORKS SHALL APPROVE ANY DEVIATIONS FROM STATE REGULATIONS.

9. THE CONTRACTOR SHALL PROVIDE "RED LINED" MARKED PRINTS TO THE ENGINEER PRIOR TO FINAL INSPECTION INDICATING ALL CONSTRUCTION WHICH DEVIATED FROM THE PLANS OR WAS CONSTRUCTED IN ADDITION TO THAT INDICATED ON THE PLANS.

GENERAL LAWN NOTES

1. FINE GRADE AREAS TO ACHIEVE FINAL CONTOURS INDICATED ON CIVIL PLANS.
2. ADJUST CONTOURS TO ACHIEVE POSITIVE DRAINAGE AWAY FROM BUILDINGS. PROVIDE UNIFORM ROUNDING AT TOP AND BOTTOM OF SLOPES AND OTHER BREAKS IN GRADE. CORRECT IRREGULARITIES AND AREAS WHERE WATER MAY STAND.
3. ALL LAWN AREAS TO RECEIVE SOLID SOD SHALL BE LEFT IN A MAXIMUM OF 1" BELOW FINAL FINISH GRADE. CONTRACTOR TO COORDINATE OPERATIONS WITH ON-SITE CONSTRUCTION MANAGER.
4. IMPORTED TOPSOIL SHALL BE NATURAL, FRIABLE SOIL FROM THE REGION, KNOWN AS BOTTOM AND SOIL, FREE FROM LUMPS, CLAY, TOXIC SUBSTANCES, ROOTS, DEBRIS, VEGETATION, STONES, CONTAINING NO SALT AND BLACK TO BROWN IN COLOR..
5. *ALL LAWN AREAS TO BE FINE GRADED. IRRIGATION TRENCHES COMPLETELY SETTLED, AND FINISH GRADE APPROVED BY THE OWNER'S CONSTRUCTION MANAGER OR ARCHITECT PRIOR TO INSTALLATION.*
6. *ALL ROCKS 3/4" DIAMETER AND LARGER, DIRT CLODS, STICKS, CONCRETE SPOILS, ETC. SHALL BE REMOVED PRIOR TO PLACING TOPSOIL AND ANY LAWN INSTALLATION*
7. CONTRACTOR SHALL PROVIDE (1") ONE INCH OF IMPORTED TOPSOIL ON ALL AREAS TO RECEIVE LAWN.

SOLID SOD NOTES

1. FINE GRADE AREAS TO ACHIEVE FINAL CONTOURS INDICATED. LEAVE AREAS TO RECEIVE TOPSOIL 3" BELOW FINAL DESIRED GRADE IN PLANTING AREAS AND 1" BELOW FINAL GRADE IN TURF AREAS.
2. ADJUST CONTOURS TO ACHIEVE POSITIVE DRAINAGE AWAY FROM BUILDINGS. PROVIDE UNIFORM ROUNDING AT TOP AND BOTTOM OF SLOPES AND OTHER BREAKS IN GRADE. CORRECT IRREGULARITIES AND AREAS WHERE WATER MAY STAND.
3. ALL LAWN AREAS TO RECEIVE SOLID SOD SHALL BE LEFT IN A MAXIMUM OF 1" BELOW FINAL FINISH GRADE. CONTRACTOR TO COORDINATE OPERATIONS WITH ON-SITE CONSTRUCTION MANAGER.
4. CONTRACTOR TO COORDINATE WITH ON-SITE CONSTRUCTION MANAGER FOR AVAILABILITY OF EXISTING TOPSOIL.
5. PLANT SOD BY HAND TO COVER INDICATED AREA COMPLETELY. INSURE EDGES OF SOD ARE TOUCHING. TOP DRESS JOINTS BY HAND WITH TOPSOIL TO FILL VOIDS.
6. ROLL GRASS AREAS TO ACHIEVE A SMOOTH, EVEN SURFACE, FREE FROM UNNATURAL UNDULATIONS.
7. WATER SOD THOROUGHLY AS SOD OPERATION PROGRESSES.
8. CONTRACTOR SHALL MAINTAIN ALL LAWN AREAS UNTIL FINAL ACCEPTANCE. THIS SHALL INCLUDE, BUT NOT LIMITED TO: MOWING, WATERING, WEEDING, CULTIVATING, CLEANING AND REPLACING DEAD OR BARE AREAS TO KEEP PLANTS IN A VIGOROUS, HEALTHY CONDITION.
9. CONTRACTOR SHALL GUARANTEE ESTABLISHMENT OF AN ACCEPTABLE TURF AREA AND SHALL PROVIDE REPLACEMENT FROM LOCAL SUPPLY IF NECESSARY.
10. IF INSTALLATION OCCURS BETWEEN SEPTEMBER 1 AND MARCH 1, ALL SOD AREAS TO BE OVER-SEEDED WITH WINTER RYEGRASS, AT A RATE OF (4) POUNDS PER ONE THOUSAND (1000) SQUARE FEET.

LANDSCAPE NOTES

1. CONTRACTOR SHALL VERIFY ALL EXISTING AND PROPOSED SITE ELEMENTS AND NOTIFY ARCHITECT OF ANY DISCREPANCIES. SURVEY DATA OF EXISTING CONDITIONS WAS SUPPLIED BY OTHERS.
2. CONTRACTOR SHALL LOCATE ALL EXISTING UNDERGROUND UTILITIES AND NOTIFY ARCHITECT OF ANY CONFLICTS. CONTRACTOR SHALL EXERCISE CAUTION WHEN WORKING IN THE VICINITY OF UNDERGROUND UTILITIES.
3. CONTRACTOR IS RESPONSIBLE FOR OBTAINING ALL REQUIRED LANDSCAPE AND IRRIGATION PERMITS.
4. CONTRACTOR TO PROVIDE A MINIMUM 2% SLOPE AWAY FROM ALL STRUCTURES.
5. ALL PLANTING BEDS AND LAWN AREAS TO BE SEPARATED BY STEEL EDGING. NO STEEL TO BE INSTALLED ADJACENT TO SIDEWALKS OR CURBS.
6. ALL LANDSCAPE AREAS TO BE 100% IRRIGATED WITH AN UNDERGROUND AUTOMATIC IRRIGATION SYSTEM AND SHALL INCLUDE RAIN AND FREEZE SENSORS.
7. ALL LAWN AREAS TO BE SOLID SOD BERMUDAGRASS, UNLESS OTHERWISE NOTED ON THE DRAWINGS.

PLANT MATERIAL SCHEDULE

TREES					
TYPE	QTY	COMMON NAME	*BOTANICAL NAME*	SIZE	REMARKS
CE	13	Cedar Elm	*Ulmus crassifolia*	3" cal.	B&B, 13' ht., 5' spread min., 5' clear trunk
CM	5	Crepe Myrtle	*Lagerstroemia indica*	6' ht.	container, 3-5 canes, tree form
LO	10	Live Oak	*Quercus virginiana*	3" cal.	container, 14' ht., 6' spread, 5' clear straight trunk

SHRUBS					
TYPE	QTY.	COMMON NAME	*BOTANICAL NAME*	SIZE	REMARKS
DYH	42	Dwarf Yaupon Holly	*Ilex vomitoria 'nana'*	3 gal.	ccontainer grown, 20" spread
IH	45	Indian Hawthorn 'Clara'	*Rhaphiolepis indica 'clara'*	3 gal.	container, 18" ht., 18" spread
MIS	23	Adagio Maiden Grass	*miscanthus sinensus 'Adagio'*	3 gal.	container full, well rooted
NPH	245	Needlepoint Holly	*Ilex cornuta "Needlepoint"*	5 gal.	container, 24" ht., 20" spread
NRS	11	Nellie R. Stevens Holly	*Ilex x 'Nellie R. Stevens'*	48" ht.	container, 36" spread, full to base

GROUNDCOVERS					
TYPE	QTY	COMMON NAME	*BOTANICAL NAME*	SIZE	REMARKS
		'419' Bermudagrass	*Cynodon dactylon '419'*		Solid Sod refer to notes

NOTE: Plant list is an aid to bidders only. Contractor shall verify all quantities on plan. All heights and spreads are minimums. All plant material shall meet or exceed remarks as indicated. All trees to have straight trunks and be matching within varieties.

SP-2016-019

TREES COUNTED TOWARDS MEETING MITIGATION REQUIREMENTS

ALL TREES TO BE LOCATED A MINIMUM OF 5' FROM PUBLIC UTILITIES.
ALL SHRUBS ADJACENT FROM HEAD IN PARKING SHALL BE PLANTED 4' FROM BACK OF CURB

IRRIGATION IS REQUIRED PER THE UDC

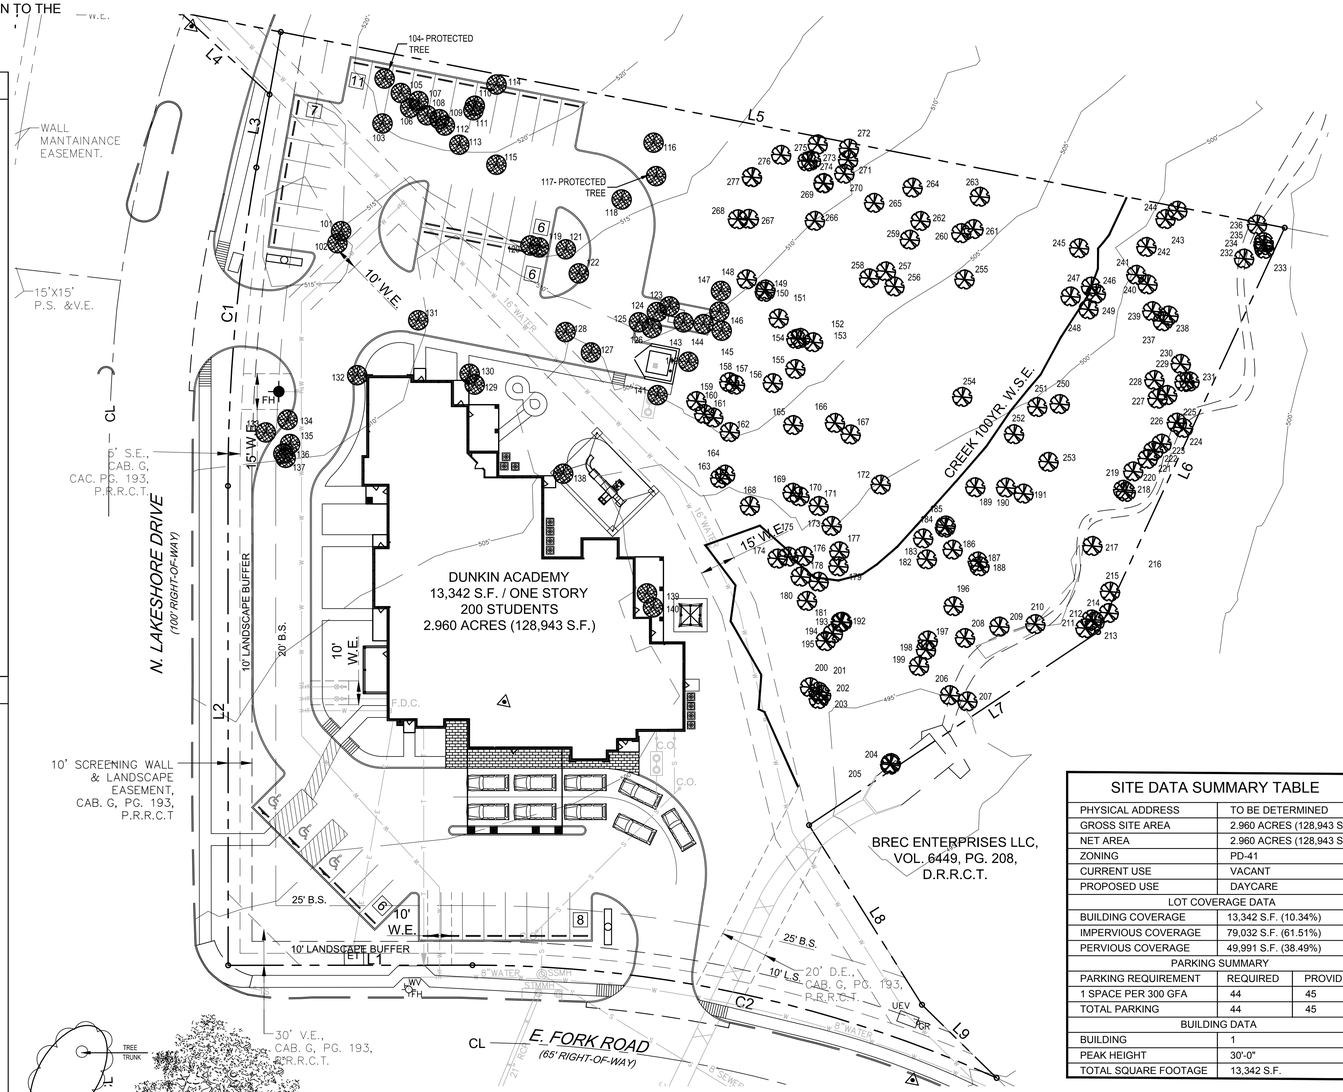
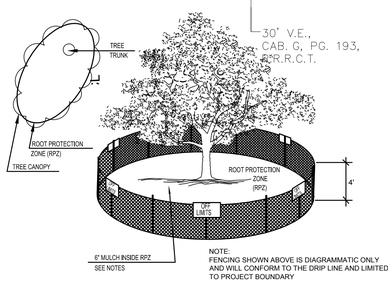
VICINITY MAP
N.T.S.



EXISTING TREE NOTES



1. *Existing trees to remain shall be protected during construction from tree structure damage and compaction of soil under and around dripline (canopy) of tree.*
2. *If any root structure is damaged during adjacent excavation/construction, notify the Architect immediately. It is recommended that a licensed Arborist be secured for the treatment of any possible tree wounds.*
3. *No disturbance of the soil greater than 4" shall be located closer to the tree trunk than 1/2 the distance of the drip line to the tree trunk. A minimum of 75% of the drip line and root zone shall be preserved at natural grade.*
4. *Any fine grading done within the critical root zones of the protected trees must be done with light machinery such as a bobcat or light tractor. No earth moving equipment with tracks is allowed within the critical root zone of the trees.*
5. *Material Storage: No materials intended for use in construction or waste materials accumulated due to excavation or demolition shall be placed within the limits of the dripline of any tree.*
6. *Equipment Cleaning/Liquid Disposal: No equipment may be cleaned, toxic solutions, or other liquid chemicals shall be deposited within the limits of the dripline of a tree. This would include but not be limited to paint, oil, solvents, asphalt, concrete, mortar, primers, etc.*
7. *Tree Attachments: No signs, wires or other attachments, other than those of a protective nature shall be attached to any tree.*
8. *Vehicular Traffic: No vehicular and construction equipment traffic or parking is allowed within the limits of the dripline of trees.*
9. *Boring of Utilities: May be permitted under protected trees in certain circumstances. The minimum length of the bore shall be the width of the tree's canopy and shall be a minimum depth of forty-eight (48") inches.*
10. *Trenching: Any irrigation trenching which must be done within the critical root zone of a tree shall be dug by hand and enter the area in a radial manner.*
11. *Tree Flagging: All trees to be removed from the site shall be flagged by the Contractor with bright red vinyl tape (3" width) wrapped around the main trunk at a height of four (4) feet above grade. Flagging shall be approved by Landscape Architect prior to any tree removal. Contractor shall contact Landscape Architect with 72 hour notice to schedule on-site meeting.*
12. *Protective Fencing: All trees to remain, as noted on drawings, shall have protective fencing located at the tree's dripline. The protective fencing may be comprised of snow fencing, orange vinyl construction fencing, chain link fence or other similar fencing with a four (4') foot approximate height. The protective fencing will be located as indicated on the Tree Protection Detail(s).*
13. *Bark Protection: In situations where a tree remains in the immediate area of intended construction, the tree shall be protected by enclosing the entire circumference of the tree's trunk with lumber encircled with wire or other means that does not damage the tree. Refer to Tree Protection Detail(s).*
14. *Construction Pruning: In a case where a low hanging limb is broken during the course of construction, the Contractor shall notify the Landscape Architect immediately. In no instance shall the Contractor prune any portion of the damaged tree without the prior approval by the Landscape Architect.*

Based on the information provided, all dimensions and luminaire locations shown represent recommended positions. The engineer and/or architect must determine applicability of the layout to existing or future field conditions.

This lighting pattern represents illumination levels calculated from laboratory data taken under controlled conditions utilizing current industry standard lamp ratings in accordance with Illuminating Engineering Society approved methods. Actual performance of any manufacturer's luminaire may vary due to variation in electrical voltage, tolerance in lamps and other variable field conditions.

CLX LED AREA SERIES

DIMENSIONS

SPECIFICATIONS

HOUSING - One-piece, die-formed aluminum housing contains factory prewired driver. Wiring access door (with safety lanyard) located underneath.

OPTICAL UNIT - Clear tempered flat glass lens permanently sealed to weather-tight aluminum optic frame creates an IP65 rated optical unit (includes pressure-stabilizing breather). Optic frame recessed into housing cavity and sealed to the housing with one piece EPDM gasket.

EXPECTED LIFE - Minimum 60.000 hours to 100.000 hours depending upon the ambient temperature of the installation location.

LEDS - Select high-brightness LEDs in Cool White (5000K nominal), or Neutral White (4000K nominal) color temperature, 70 CRI (nominal).

DISTRIBUTION / PERFORMANCE - Types III, FT, 5 and enhanced 5E and FTE. Exceptional uniformity creates bright environment at lower levels. Internal Louver (IL) option available for improved backlight control without sacrificing street side performance for FT distribution.

ELECTRICAL - Two-stage surge protection (including separate surge protection built into electronic driver) meets Location Category C Low. Available with universal voltage power supply 120-277 VAC (50/60Hz input), and 347-480 VAC. Optional button-type photocells (PCI) are available in 120, 208, 240, 277 or 347 volt (supply voltage must be specified).

DRIVER - Available in SS (Super Saver) and HO (High Output) drive currents. Components are fully encased in potting material for moisture resistance. Driver complies with FCC standards. Driver and key electronic components can easily be accessed.

MOUNTING - Use with 5" traditional drilling pattern. An extruded radius 8" arm is shipped standard and compatible with all fixture mounting configurations. The fixture may also be mounted to 3"-5" round poles using the round pole plate adaptor accessory (RPP), which must be ordered separately.

OPERATING TEMPERATURE - -40°C to +50°C (-40°F to +122°F)

FINISH - Fixtures are finished with WLS DuraGrip® polyester powder coat finishing process. The DuraGrip finish withstands extreme weather changes without cracking or peeling, and is guaranteed for five full years.

WARRANTY - WLS LED fixtures carry a limited 5-year warranty.

LISTING - ETL listed to U.S. and Canadian safety standards. Suitable for wet locations.

WLS LIGHTING SYSTEMS

SNTS11 SQUARE NON-TAPERED STEEL SERIES

SPECIFICATIONS

POLE SHAFT - Pole shaft is elctro-welded ASTM-A500 Grade C steel tubing with a minimum yield strength of 50,000 psi. On Tenon Mount steel poles, tenon is 2-3/8" O.D. high-strength pipe. Tenon is 4-3/4" in length. Straight poles are 4", 5" and 6" square.

HAND HOLE - Standard hand-hole location is 12" above pole base. Poles 22' and above have a 3" x 6" reinforced hand-hole. Shorter poles have a 2" x 4" non-reinforced hand-hole.

BASE - Pole base is ASTM-A36 hot-rolled steel plate with a minimum yield strength of 36,000 psi. Two-piece square base cover is optional.

ANCHOR BOLTS - Poles are furnished with anchor bolts featuring zinc-plated double nuts and washers. Galvanized anchor bolts are optional. Anchor bolts conform to ASTM-A36 with a minimum yield strength of 36,000 psi.

GROUND LUG - Ground lug is standard.

DUPLEX RECEPTACLE - Weatherproof duplex receptacle is optional.

GROUND FAULT CIRCUIT INTERRUPTER - Ground fault circuit interrupter.

FINISH - Each pole is finished with WLS DuraGrip® polyester powder coat finishing process to give the pole an exceptionally attractive appearance. The process electrostatically applies and thermally fuses a polyester powder to the pole. This unique protection process provides an extremely smooth and uniform finish which withstands extreme weather changes without cracking or peeling. DuraGrip® finish features a five-year limited warranty. Standard finish colors available for poles are bronze, black, platinum plus, buff, white, satin verde green, metallic silver, and graphite. Optional DuraGrip® Plus features added protection with a 3.0 to 5.0 mil thickness of polyester-powder coat finish plus an inner coating. This specially designed inner coating is a thermal plastic hydrocarbon resin applied to the inside of the pole to seal and protect against atmospheric and corrosive matter. DuraGrip® Plus finish features a seven-year limited warranty.

DETERMINING THE LUMINAIRE/POLE COMBINATION FOR YOUR APPLICATION

- Select luminaire from Luminaire Ordering Information.
- Select bracket configuration.
- Refer to luminaire EPA chart to determine EPA value.
- Select height of pole.
- Select MPH to match the wind speed in the application area. (Windspeed Map located in Appendix)
- Confirm the pole EPA that is equal to or exceeds the luminaire/bracket EPA as was previously determined.

EPA INFORMATION:

All WLS Lighting Systems' poles are guaranteed to meet the EPA requirements listed. WLS Lighting Systems is not responsible if a pole order has a lower EPA rating than the indicated wind-loading zone where the pole is located.

CAUTION:

This guarantee does not apply if the pole/bracket/fixture combination is used to support any other items such as flags, pennants, or signs, which would add stress to the pole. WLS Lighting Systems cannot accept responsibility for harm or damage caused in these situations.

CASE NO.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 10/11/2016

APPLICANT: Matt Moore; *Claymoore Engineering; Inc.*

AGENDA ITEM: **SP2016-020;** Rockwall Regional Hospital, LLC

Discuss and consider a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Cindy Paris of Rockwall Regional Hospital, LLC for the approval of a site plan for a medical office building on a 5.75-acre portion of a larger 17.8321-acre parcel of land being identified as Lot 15, Block A, Presbyterian Hospital of Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, located east of the intersection of Summer Lee Drive and Rockwall Parkway, and take any action necessary.

PURPOSE:

The applicant is requesting approval of a Site Plan for the purpose of constructing a 55,827 sq. ft. *medical office building (MOB)* facility. The proposed medical office building is situated on a 5.75-acre portion of a larger 17.8321-acre parcel of land and is zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses. The site is located east of the intersection of Summer Lee Drive and Rockwall Parkway and is addressed as 914 Rockwall Parkway.

On January 8, 2007, the Planning and Zoning Commission approved a site plan for a MOB development that was to include two (2) buildings (MOB #1 and MOB #2). On January 22, 2008 City Council approved variances to the stone requirements, rooftop screening of mechanical equipment, and vertical articulation requirements. The submitted site plan is for MOB #2 for future development.

DENSITY AND DIMENSIONAL REQUIREMENTS:

The submitted site plan, landscape plan, photometric plan, and building elevations conform to the technical requirements contained within the Unified Development Code (UDC) for properties located in Planned Development District 9 (PD-9) and zoned for General Retail (GR) District land uses. A summary of the density and dimensional requirements of the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*6,000 SF*	*~250,470 SF; In Conformance*
Minimum Lot frontage	*60-Feet*	*~112-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*X>100-Feet; In Conformance*
Minimum Front Yard Setback	*15-Feet*	*X>15-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*	*X>10-Feet; In Conformance*
Minimum Side Yard Setback	*10-Feet*	*X>10-Feet; In Conformance*
Maximum Building Height	*60-Ft w/o SUP*	*48'-8"; In Conformance*
Max Building/Lot Coverage	*40%*	*4.3%; In Conformance*
Minimum Masonry Requirement	*90%*	*X>90%;*
Minimum Number of Parking Spaces	*280*	*281 Provided; In Conformance*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Landscaping Percentage	*10%*	*10%; In Conformance*
Maximum Impervious Coverage	*85%*	*43%; In Conformance*

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:

On January 8, 2008, the Architectural Review Board (ARB) recommended approval of the building elevations by a vote of 6 to 0 with Board member Jeffus absent. Staff should note that conditions of approval were that the building elevations of the future MOB #2 be finished out with materials and design matching the front building elevations of the hospital and the proposed MOB #1.

On September 27, 2016, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site and recommended approval of the building elevations, as submitted, by a vote of 6 to 0 with Board Member Strohmeyer absent.

RECOMMENDATIONS:

If the Planning & Zoning Commission chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All technical comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

(9/23/2016 11:20 AM KB)
SP2016-020 (Presbyterian Hospital of Rockwall Addition): Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Cindy Paris of Rockwall Regional Hospital, LLC for the approval of a site plan for a medical office building on a 5.75-acre portion of a larger 17.8321-acre parcel of land being identified as Lot 15, Block A, Presbyterian Hospital of Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, located east of the intersection of Summer Lee Drive and Rockwall Parkway
I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (SP2016-020) in the lower right hand corner of all pages on future submittals.
I.4 This property will be required to be plated prior to the issuance of a building permit.
M.5 Site Plan. Please provide a vicinity map.
M.6 Site Plan. Please provide perimeter dimensions of all buildings. Indicate the perimeter dimensions in feet.
M.7 Site Plan. Please provide perimeter dimensions of the site.
M.8 Site Plan. Please indicate property line and show entire property.
M.9 Landscape Plan. Please show the impervious area v.s. pervious area.
Landscape Plan. Please identify visibility triangles.
Landscape Plan. Trees must be planted at least five feet from water, sewer, and storm sewer lines.
M.10 Photometric. Please show entire site so that we can verify FC at property line.
M.11 Photometric. Please provide Site Data and Summary Table.
M.12 Photometric. Please indicate the location and type of all exterior lighting including pole mounted, wall mounted, signage, etc.
M.13 Photometric. No light pole, base or combination shall exceed 30 feet, unless further restricted within an Overlay District. Please provide a detail of light pole to that we can ensure compliance.
M.14 Photometric. Please show the entire site including the parking lot to the South. Also please provide FC for that parking lot.
Photometric. Please provide drawings and/or cut sheets of proposed light fixtures.
M.15 Building Elevations. Currently, the elevations do not meet the 20% stone requirement, therefore a variance will be required. (I believe that you applied for a variance for the other MOB)
M.16 Building Elevations. Please indicate any proposed roof mounted mechanical equipment and indicate how these will be screened.
I.17 The Architectural Review Board (ARB) meeting for this case will be held on September 27, 2016 at 5 pm.
I.18 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on October 4; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the October 11, 2016 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on September 27, 2016 at 6 pm.
I.19 If necessary the projected City Council meeting date for this case will be October 17, 2016.

B TREE PRESERVATION NOTES

CONTRACTOR SHALL ADHERE TO THE FOLLOWING TREE PROTECTION MEASURES:

1. THE CONTRACTOR SHALL ERECT A PLASTIC MESH FENCE A MINIMUM OF FOUR (4') FEET IN HEIGHT AROUND EACH TREE OR GROUP OF TREES TO PREVENT THE PLACEMENT OF DEBRIS OR FILL WITHIN THE DRIP LINE.
2. DURING THE CONSTRUCTION PHASE OF DEVELOPMENT, THE CONTRACTOR SHALL PROHIBIT CLEANING, PARKING OR STORAGE OF EQUIPMENT OR MATERIALS UNDER THE CANOPY OF ANY TREE OR GROUP OF TREES BEING PRESERVED. THE CONTRACTOR SHALL NOT ALLOW THE DISPOSAL OF ANY WASTE MATERIAL SUCH AS, BUT NOT LIMITED TO, PAINT, OIL, SOLVENTS, ASPHALT, CONCRETE, MORTAR, ETC. IN THE CANOPY AREA.
3. NO ATTACHMENTS OR WIRES OF ANY KIND, OTHER THAT THOSE OF A PROTECTIVE NATURE, SHALL BE ATTACHED TO ANY TREE.
4. NO FILL OR EXCAVATION MAY OCCUR WITHIN THE DRIP LINE OF A TREE TO BE PRESERVED.

ET LED

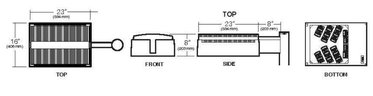
Entablature® Large PicoPrism® LED

kl_etpled_spec.pdf

JOB PRESBYTERIAN - ROCKWALL TYPE

NOTES APPROVALS

FEATURES



- Full Cutoff PicoPrism technology
- Patented low profile luminaire¹
- Available in 5800nm, 3000K, 4000K and 5000K standard CCT
- Type 1, 2, 3, 4, 5, R, L distributions
- 0-10V dimming drivers standard
- Sealed optical chamber, IP66 certified

Certifications

3000K and warmer CCTs only

SPECIFICATIONS

Max. Weight = 45 lbs. EPA 1.8 for 1A.
See Configuration for additional EPAs.

ORDERING CODE

2B	ET	3	P70	80L	4K		DB

Configuration — EPA

1A	1 Arm Side Mt	1.8
2B	2 Arm Side Mt	3.6
2L	2 Arm Side Mt	2.6
3T	3 Arm Side Mt	4.1
3Y	3 Arm Side Mt	4.1
4C	4 Arm Side Mt	4.7
1W	Single Wall Mt	n/a
HSF	Horizontal Slip-fitter Mount	

Trunnion mounting only EPA 1.8. Not for field retrofit.

Housing — ET: Large, 80 LEDs 54W (350mA) 108W (700mA)

Distribution — 1 Type I; 2 Type II; 3 Type III; 4 Type IV; 5 Type V; R Type R, Right; L Type L, Left

Drive Current — P35: 350mA PicoPrism; P70: 700mA PicoPrism

Source — 80L: 80 LEDs

Color Temperature* — 2K: 2200K; 3K: 3000K; 4K: 4200K; 5K: 5100K

Voltages — 120: 120V*; 208: 208V*; 240: 240V*; 277: 277V*; 347: 347V*; 480: 480V*. *120V through 277V is a variable driver.

Fixture Finish — BL: Black; DB: Dark Bronze; LG: Light Gray; PS: Platinum Silver; TT: Titanium; WH: White; CC: Custom Color, consult representative

Photocell Options — A25-7: 7-pin Photocell Receptacle; A30: 120V Button Photocell; A31: 208V Button Photocell; A32: 240V Button Photocell; A33: 277V Button Photocell; A34: 480V Button Photocell; A35: 347V Button Photocell

Fuse Options — SF: 120, 277, 347 Line Volts; DF: 208, 240, 480 Line Volts

NFO Option — NFO: Neighbor Friendly Optic. Photometry available for type III/IV. All others, consult factory.

Optional Entablatures — A1: Arch; A2: Broken Arch; A3: Stepped Arch; A4: Stepped Brock Arch; A5: Standard Entablature; P6: Peak; P7: Broken Peak; P8: Stepped Peak; P9: Stepped Broken Peak; P10: Stepped

Controls

Motion
- SCL: Fixture Mounted Occupancy Sensor up to 16'
- SCH: Fixture Mounted Occupancy Sensor 16' to 30'

Wireless
- WIR-RML-HO: 120-347V, 1000' range, WiGrope. Wireless control system with altitude/dim, motion, photo, GPS location, alert, monitoring and metering capabilities.

Mounting Options
- VSF: Vertical Slipfitter Mount round for 3" pipe (3.68" O.D.) tenon
- SVSF: Vertical Slipfitter Mount square for 3" pipe (3.68" O.D.) tenon
- Side Arm Mount: 3: 3" O.D. Pole; 3.5: 3.5" O.D. Pole; 4: 4" O.D. Pole; 5: 5" O.D. Pole; 6: 6" O.D. Pole; SQ: Square Pole

Mount on 30" concrete base

1. Maximum EPA (Effective Projected Area) and weight values are based on side mounted fixtures only. Consult factory on loading criteria for pole top mounted luminaires and/or brackets. Variations from sizes above are available upon inquiry at the factory. Satisfactory performance of poles is dependent upon the pole being properly attached to a supporting foundation of adequate design.
2. Nominal wall thk. is a nominal value which includes the pole shell and base plate only.
3. Belled bottom will have reduced thickness due to the cold-working process. However, the belled-bottom meets or exceeds the structural capacity of the original square section. In addition, the rounded section provides better fatigue resistance.

Project Case #:
September 16th, 2016

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 10/11/2016

APPLICANT: Vinod Sharma; *Little Genius of Texas, LLC*

AGENDA ITEM: **SP2016-021;** Woodbridge Montessori Academy

Discuss and consider a request by Vinod Sharma of Little Genius of Texas, LLC for the approval of a site plan for a private pre-school facility on a 2.28-acre tract of land identified as Tract 2-3 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for General Retail (GR) District land uses, located at the southeast corner of the intersection of FM-552 and Stone Creek Drive, and take any action necessary

PURPOSE:

The applicant is requesting approval of a Site Plan for the purpose of constructing an 11,834 sq. ft. *private pre-school* facility. The proposed preschool is situated 2.28-acre tract of land [Tract 2-3 of the W.T. Deweese Survey, Abstract No. 71] and is zoned Planned Development District 70 (PD-70) for General Retail (GR) District land uses. The site is located at the southeast corner FM-552 and Stone Creek Drive and is addressed as 3100 Stone Creek Drive.

DENSITY AND DIMENSIONAL REQUIREMENTS:

The submitted site plan, landscape plan, photometric plan, and building elevations conform to the technical requirements contained within the Unified Development Code (UDC) for properties located in Planned Development District 70 (PD-70) and zoned for General Retail (GR) District land uses. A summary of the density and dimensional requirements of the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*6,000 SF*	*~99,669 SF; In Conformance*
Minimum Lot frontage	*60-Feet*	*~213-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*~381-Feet; In Conformance*
Minimum Front Yard Setback	*15-Feet*	*15-Feet; In Conformance*
Minimum Rear Yard Setback	*20-Feet*	*X>20-Feet; In Conformance*
Minimum Side Yard Setback	*10-Feet*	*X>10-Feet; In Conformance*
Maximum Building Height	*60-Ft w/o SUP*	*32-Ft; In Conformance*
Max Building/Lot Coverage	*35%*	*11.9%; In Conformance*
Minimum Masonry Requirement	*90%*	*X>90%; In Conformance*
Minimum Number of Parking Spaces	*40*	*40 Provided; In Conformance*
Minimum Landscaping Percentage	*10%*	*10%; In Conformance*
Maximum Impervious Coverage	*85%*	*43%; In Conformance*

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:

On September 27, 2016, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. The Board asked the applicant to make revisions to the symmetry of the

building, add more detail to the vertical elements on the West Elevation, to add landscaping to provide screening to the North Elevation, and to widen the columns on the West Elevation. The applicant agreed to make revisions and have submitted revisions to staff for the ARB to review.

RECOMMENDATIONS:

If the Planning & Zoning Commission chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All technical comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

City of Rockwall

SP2016-021 (Woodbridge Montessori Academy of Rockwall): Please address the following comments (M= Mandatory Comments; I = Informational Comments) I.1 This is request by Vinod Sharma of Little Genius of Texas, LLC for the approval of a site plan for a private pre-school facility on a 2.28-acre tract of land identified as Tract 2-3 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for General Retail (GR) District land uses, located at the southeast corner of the intersection of FM-552 and Stone Creek Drive (CORRECTED CAPTION) I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com. M.3 For reference, include the case number (SP2016-021) in the lower right hand corner of all pages on future submittals. I.4 This property will be required to be plated prior to the issuance of a building permit. M.5 Site Plan. Please provide perimeter dimensions of all buildings. Indicate the perimeter dimensions in feet. M.6 Site Plan. Please provide perimeter dimensions of the site. M.7 Site Plan. Please indicate the distance between all property lines and the planned buildings. M.8 Site Plan. Please show the 15' building setback along Stone Creek Drive and FM. 552. M.9 Site Plan. Your legend shows a symbol for sidewalks, however, it is not used on the site plan. M.10 Site Plan. Your call out for the proposed dumpster does not point to the dumpster. M.11 Landscape Plan. Please show and label 10' landscape buffer adjacent to Stone Creek Drive and FM 552. M.12 Landscape Plan. Please note that 1 tree per 50' is required on Stone Creek Drive and FM. 552. M.13 Landscape Plan. If no protected trees are being removed, please provide a note stating that. M.14 Photometric. Please show FC of entire site. (it usually looks like a grid of FC numbers across the entire site) M.15 Photometric. Please indicate the location and type of all exterior lighting including pole mounted, wall mounted, signage, etc. M.16 Photometric. No light pole, base or combination shall exceed 30 feet, unless further restricted within an Overlay District. Please provide a detail of light pole to that we can ensure compliance. M.17 Photometric. Please provide drawings and/or cut sheets of proposed light fixtures. M.18 Building Elevations. Currently, the elevations do not meet the 20% stone requirement for each facade, therefore a variance your elevation directions are incorrect. Please see markups. M.19 Building Elevations. Please change "Spring Creek" to "Stone Creek" and FM 255 to FM 552" I.20 The Architectural Review Board (ARB) meeting for this case will be held on September 27, 2016 at 5 pm. I.21 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on October 4; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the October 11, 2016 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on September 27, 2016 at 6 pm. I.22 If necessary the projected City Council meeting date for this case will be October 17, 2016.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

SP2016-021 (Woodbridge Montessori Academy of Rockwall): Please address the following comments (M= Mandatory Comments; I = Informational Comments)

M.1 Site Plan. Please note the address as 3100 Stone Creek Drive in the Title Block
M.2 Site Plan. This site is not platted. Please remove the Lot and Block designation from title block. This will be assigned during the final plat stage.
M.3 Site Plan. I cannot determine where the firelane is on the site plan. There is a symbol in the legend, however, I do not see that symbol used on any of the drives on the site.
M.4 Landscape Plan. The "10' LS Buffer" text adjacent to Stone Creek Drive is covered by landscaping. Please move the text so that it is clearly visible.
M.5 Landscape Plan. Please note that 1 tree per 50' is required on Stone Creek Drive and FM. 552.
M.6 Landscape Plan. I am unable to determine where the firelane is. There is a symbol in the legend, however, I do not see that symbol used on any of the drives on the site.
M.7 Landscape Plan. Please note the address as 3100 Stone Creek Drive in the Title Block.
M.8 Landscape Plan. This site is not platted. Please remove the Lot and Block designation from the Title Block. This will be assigned during final platting.
M.9 Photometric. The allowable maximum light intensity measured at the property line of any nonresidentially zoned lot shall be 0.2 of one footcandle. Please look at the lighting adjacent to Stone Creek Drive and try to get it as close as possible to 0.2 FC.
M.10 Building Elevations. Please indicate the materials of the structures on the West Elevation. (Please see markups)
M.11 Building Elevations. Please provide separate North and South Elevations. Currently they are combined.
M.12 Building Elevations. It may be helpful to provide a rendering of the building. Especially to show the landscaping that the ARB asked for on the North Elevation (adjacent to FM. 552).
M.13 Building Elevations. Please take a look at the surface area calculations on the North and South Elevations. The brick (57%), cast stone (5%), and stone (21%) only adds up to 89%. (This elevation still meets the 90% masonry requirement.)
M.14 Building Elevations. Please correct "Decoratice Truss" to "Decorative Truss"
M.15 The Architectural Review Board (ARB) meeting for this case will be held on October 11, 2016 at 5 pm.
M.16 The Planning and Zoning Meeting is October 11, 2016.
I.17 Staff has not identified any variances for this Site Plan.

WARNING:
PRIOR TO THE BEGINNING OF ANY CONSTRUCTION OR CONSTRUCTION STAKING, IT SHALL BE THE CONTRACTORS RESPONSIBILITY TO CONTACT THE CIVIL ENGINEER TO ENSURE THAT ALL PARTIES ARE IN POSSESSION OF THE MOST CURRENT SET OF CONSTRUCTION DOCUMENTS.

NOTE:
THE CONTRACTOR SHALL BE RESPONSIBLE FOR FIELD VERIFYING THE LOCATION OF ALL EXISTING UTILITIES AND EASEMENTS PRIOR TO START OF OPERATIONS. CONTRACTOR WILL NOTIFY THE OWNER'S REPRESENTATIVE OF ANY DISCREPANCIES PRIOR TO STARTING THE WORK. EXISTING UTILITIES AND UNDERGROUND FACILITIES INDICATED ON THESE PLANS HAVE BEEN LOCATED FROM REFERENCE INFORMATION. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO VERIFY BOTH THE HORIZONTAL AND VERTICAL LOCATION OF ALL EXISTING UTILITIES AND UNDERGROUND FACILITIES PRIOR TO START OF CONSTRUCTION. TAKE THE NECESSARY PRECAUTIONS IN ORDER TO PROTECT ALL FACILITIES ENCOUNTERED. THE CONTRACTOR SHALL PRESERVE AND PROTECT ALL EXISTING UTILITIES FROM DAMAGE DURING CONSTRUCTION.

ALL RESPONSIBILITY FOR ADEQUACY OF DESIGN REMAINS WITH THE DESIGN ENGINEER. THE CITY OF ROCKWALL, IN REVIEWING AND RELEASING PLANS FOR CONSTRUCTION, ASSUMES NO RESPONSIBILITY FOR ADEQUACY OF ACCURACY OF DESIGN.

GENERAL NOTES
1. Buildings 5,000 square feet or greater shall be sprinkled. Alternative fire protective measures may be approved by the Building Inspector and Fire Department.
2. Fire lanes shall be designed and constructed per city standards.
3. Handicapped parking areas shall be designed and provided per city standards and shall comply with requirements of the current adopted Uniform Building Code.
4. Mechanical units, dumpster and trash compactors shall be screened in accordance with the Zoning Ordinance
5. All signage contingent upon Building Inspection Department.
6. Approval of the site plan is not final until all engineering plans are approved.
7. Open storage, where permitted, shall be screened in accordance with the Zoning Ordinance
8. Please contact the Building Inspection Department to determine the type of construction and occupancy group.
9. All electrical transmission, distribution and service lines must be underground.

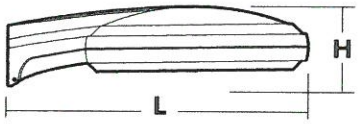
MR2 LED
LED Area Luminaire

Catalog Number	"A"
Notes	20' POLE
Type	

OMERO

Specifications



EPA: 0.9 ft² (0.08 m²)

Length: 32-7/8" (83.5 cm)

Width: 25" (63.5 cm)

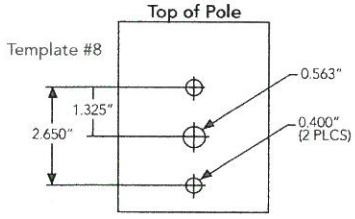
Height: 8-1/4" (21.0 cm)

Weight (max): 42 lbs (19.1 kg)

Introduction

The Omero™ family of luminaires blends a traditional round dayform with contemporary, low-profile styling to accent architectural elements in a variety of applications.

The MR2 LED combines the latest in LED technology with the designer aesthetic of the Omero™ family for stylish, high-performance illumination that lasts. The MR2 LED is ideal for replacing 250-400W metal halide in area lighting applications with typical energy savings of 65% and expected service life of over 100,000 hours.



Ordering Information

EXAMPLE: MR2 LED 60C 1000 40K T5M MVOLT SPA DDBXD

Drilling

Omero™ shares a unique drilling pattern with the AERIS™ family. Specify this drilling pattern when specifying poles, per the table below.

DM19AS	Single unit	**DM29AS**	2 at 90° *
DM28AS	2 at 180°	**DM39AS**	3 at 90° *
DM49AS	4 at 90° *	**DM32AS**	3 at 120° **

Example: SSA 20 4C **DM19AS** DDBXD

Visit Lithonia Lighting's POLES CENTRAL to see our wide selection of poles, accessories and educational tools.

**Round pole top must be 3.25" O.D. minimum.*
***For round pole mounting (RPA) only.*

Accessories

Ordered and shipped separately.

DLL127F 1.5 JU	Photocell - SSL twist-lock (120-277V) [10]
DLL347F 1.5 CUL JU	Photocell - SSL twist-lock (347V) [10]
DLL480F 1.5 CUL JU	Photocell - SSL twist-lock (480V) [10]
SC U	Shorting cap [10]
MR2LEDHS U	House-side shield (includes 2 shields)
MR2VG U	Vandal guard accessory
KMA8 DDBXD U	Mast arm mounting bracket adaptor (specify finish) [4]
RPUMBA DDBXD U*	Round and square pole universal mounting bracket adaptor (specify finish)

For more control options, visit DTL and ROAM online.

Tenon Mounting Slipfitter **

4"	AST35-190	AST35-280	AST35-290	AST35-320	AST35-390	AST35-490

NOTES

1. MVOLT driver operates on any line voltage from 120-277V (50/60 Hz). Specify 120, 208, 240 or 277 options only when ordering with fusing (SF, DF options).
2. Also available as a separate accessory; see Accessories information at left.
3. 1.5 G vibration load rating per ANCI C136.31.
4. Requires "SPA" mounting option. Must be ordered as a separate accessory; see Accessories information. For use with 2-3/8" mast arm (not included).
5. Specifies a ROAM® enabled luminaire with 0-10V dimming capability; PER option required. Not available with 347 or 480V. Add'l hardware and services required for ROAM® deployment; call 1-800-442-6745 or email: sales@roamservices.net. N/A with BL30, BL50, or DS.
6. Single fuse (SF) requires 120, 277 or 347 voltage option. Double fuse (DF) requires 208, 240 or 480 voltage option.
7. Provides 50/50 luminaire operation via two independent drivers on two separate circuits. N/A with PER or DCR.
8. Requires an additional switched line.
9. Dimming driver standard. MVOLT only. Not available with DCR.
10. Requires luminaire to be specified with PER option. Ordered and shipped as a separate line item.

Lumen Ambient Temperature (LAT) Multipliers

Use these factors to determine relative lumen output for average ambient temperatures from 0-40°C (32-104°F).

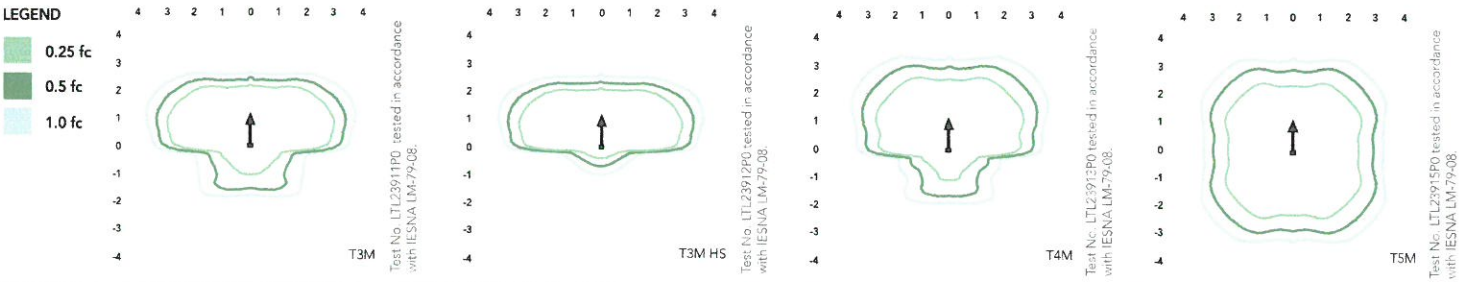
Ambient		Lumen Multiplier
0°C	32°F	1.02
10°C	50°F	1.01
20°C	68°F	1.00
25°C	**77°F**	**1.00**
30°C	86°F	1.00
40°C	104°F	0.99

Projected LED Lumen Maintenance

Data references the extrapolated performance projections for the **MR2 LED 60C** platform in a **25°C ambient**, based on 10,000 hours of LED testing (tested per IESNA LM-80-08 and projected per IESNA TM-21-11).

To calculate LLF, use the lumen maintenance factor that corresponds to the desired number of operating hours below. For other lumen maintenance values, contact factory.

Operating Hours	0	25,000	50,000	100,000
Lumen Maintenance Factor	1.0	0.94	0.90	0.82



Electrical Load

Number of LEDs	Drive Current (mA)	System Watts	Current (A)					
			120V	208V	240V	277V	347V	480V
60C	700	132W	1.321	0.756	0.659	0.580	0.462	0.337
	1000	206W	2.068	1.198	1.056	0.943	0.764	0.605

Photometric Diagrams

FEATURES & SPECIFICATIONS

INTENDED USE

Highly efficient and long-lasting, the MR2 LED is ideal for parking areas, street lighting, walkways and car lots.

CONSTRUCTION

Single-piece die cast housing has a unique flow-through design that allows for optimized thermal management through convective cooling. A perforated housing prevents debris build-up while allowing natural cleaning of the heat sinks. Modular design allows for ease of maintenance and future light engine upgrades. The LED driver and electronics are thermally isolated from the light engine(s), ensuring long life. Housing is completely sealed against moisture and environmental contaminants. Low EPA (0.9 ft²) for optimized pole wind loading.

FINISH

Exterior parts are protected by a zinc-infused Super Durable TGIC thermoset powder coat finish that provides superior resistance to corrosion and weathering. A tightly controlled multi-stage process ensures a minimum 3 mils thickness for a finish that can withstand extreme climate changes without cracking or peeling. Standard Super Durable colors include dark bronze, black, natural aluminum and white. Available in textured and non-textured finishes.

OPTICS

Precision-molded acrylic lenses provide optimal luminaire spacing and improved uniformity. Lenses are indexed to the circuit board to ensure consistent optical alignment and delivering repeatable photometric performance. Light engines are available in standard 4000 K (67 CRI) or optional 5000 K (67 CRI) configurations. The MR2 has zero uplight and qualifies as a Nighttime Friendly™ product, meaning it is consistent with the LEED® and Green Globes™ criteria for eliminating wasteful uplight.

ELECTRICAL

Light engine(s) consist of 60 high-efficacy LEDs mounted to metal-core circuit boards to maximize heat dissipation and promote long life (100,000 hrs at 40°C, L70). Class 1 electronic driver designed to provide a power factor >90%, THD <20%, with an expected life of 100,000 hours with <1% failure rate. Easily-serviceable surge protection device meets a minimum Category C Low operation (per ANSI/IEEE C62.41.2).

INSTALLATION

Integral arm provides easy installation to a pole and assists in alignment and leveling. Secure connection withstands up to 2.0 G vibration load rating per ANSI C136.31. The MR2 utilizes the AERIS™ series pole drilling pattern for SPA and RPA options; wall mounting bracket also available.

LISTINGS

CSA certified to U.S. and Canadian standards. Light engines are IP66 rated; luminaire is IP65 rated. **U.S. Patent No. D556,357.**

DesignLights Consortium® (DLC) qualified product. Not all versions of this product may be DLC qualified. Please check the DLC Qualified Products List at www.designlights.org to confirm which versions are qualified.

WARRANTY

5-year limited warranty. Complete warranty terms located at: www.acuitybrands.com/CustomerResources/Terms_and_conditions.aspx.

Note: Actual performance may differ as a result of end-user environment and application. All values are design or typical values, measured under laboratory conditions at 25 °C. Specifications subject to change without notice.

MRW LED 2 10A700 40K SR4, MRW 175M FT Probe, 12' Mounting Ht

FEATURES & SPECIFICATIONS

INTENDED USE
The classic architectural shape of the MRW LED was designed for applications such as hospitals, schools, malls, restaurants, and commercial buildings. The long life LEDs and driver make this luminaire nearly maintenance-free.

CONSTRUCTION
The single-piece die-cast aluminum housing integrates secondary heat sinks to optimize thermal transfer from the internal light engine heat sinks and promote long life. The driver is mounted in direct contact with the casting for a low operating temperature and long life. The die-cast door frame is fully gasketed with a one-piece solid silicone gasket to keep out moisture and dust, providing an IP65 rating for the luminaire.

FINISH
Exterior parts are protected by a zinc-infused Super Durable TGIC thermoset powder coat finish that provides superior resistance to corrosion and weathering. A tightly controlled multi-stage process ensures a minimum 3 mils thickness for a finish that can withstand extreme climate changes without cracking or peeling. Standard Super Durable colors include dark bronze, black, natural aluminum, sandstone and white. Available in textured and non-textured finishes.

OPTICS
Precision-molded acrylic lenses are engineered for superior distribution, uniformity, and spacing in wall-mount applications. Light engines are 4000K (70 CRI). The MRW LED has zero uplight and qualifies as a Nighttime Friendly™ product, meaning it is consistent with the LEED® and Green Globes™ criteria for eliminating wasteful uplight.

ELECTRICAL
Light engine(s) consist of 10 high-efficacy LEDs mounted to a metal core circuit board and integral aluminum heat sinks to maximize heat dissipation and promote long life (100,000 hrs at 25°C, L77). Class 2 electronic driver has a power factor >90%, THD <20%. Easily-serviceable surge protection device meets a minimum Category B (per ANSI/IEEE C62.41.2).

INSTALLATION
A universal mounting plate with integral mounting support arms allows the fixture to hinge down for easy access while making wiring connections.

LISTINGS
CSA certified to U.S. and Canadian standards. Light engines are IP66 rated; luminaire is IP65 rated and suitable for wet locations when mounted with the lenses down. WLU option offers wet location listing in "up" orientation. Rated for -30°C minimum ambient.

DesignLights Consortium® (DLC) qualified product. Not all versions of this product may be DLC qualified. Please check the DLC Qualified Products List at www.designlights.org to confirm which versions are qualified.

WARRANTY
Five year limited warranty. Full warranty terms located at www.acuitybrands.com/CustomerResources/Terms_and_conditions.aspx.

Note: Actual performance may differ as a result of end-user environment and application. All values are design or typical values, measured under laboratory conditions at 25 °C. Specifications subject to change without notice.

LITHONIA LIGHTING®

Catalog Number	"C1 & C2"
Notes	
Type	

LDN6

6" OPEN and WALLWASH LED
Non-IC
New Construction Downlight

FEATURES & SPECIFICATIONS

INTENDED USE — Typical applications include corridors, lobbies, conference rooms and private offices.

CONSTRUCTION — Galvanized steel mounting/plaster frame; galvanized steel junction box with bottom-hinged access covers and spring latches. Reflectors are retained by torsion springs.

Vertically adjustable mounting brackets with commercial bar hangers provide 3-3/4" total adjustment.

Two combination ½"-3/4" and four ½" knockouts for straight-through conduit runs. Capacity: 8 (4 in, 4 out). No. 12 AWG conductors, rated for 90°C.

Accommodates 12"-24" joist spacing.

Passive cooling thermal management for 25°C standard; high ambient (40°C) option available. Light engine and drivers are accessible from above or below ceiling.

Max ceiling thickness 1-1/2".

OPTICS — LEDs are binned to a 3-step SDCM; 80 CRI minimum.

LED light source concealed with diffusing optical lens.

General illumination lighting with 1.0 S/MH and 55° cutoff to source and source image.

Self-flanged anodized reflectors in specular, semi-specular, or matte diffuse finishes. Also available in white and black painted reflectors.

ELECTRICAL — Multi-volt (120-277V, 50/60Hz) eldoLED 0-10V dimming drivers mounted to junction box, 10% or 1% minimum dimming level available.

0-10V dimming fixture requires two (2) additional low-voltage wires to be pulled.

70% lumen maintenance at 50,000 hours.

LISTINGS — Certified to US and Canadian safety standards. Damp location standard (wet location, covered ceiling optional).

WARRANTY — 5-year limited warranty. Complete warranty terms located at www.acuitybrands.com/CustomerResources/Terms_and_conditions.aspx

Note: Actual performance may differ as a result of end-user environment and application.

All values are design or typical values, measured under laboratory conditions at 25 °C.

Specifications subject to change without notice.

ORDERING INFORMATION

MR2 LED
LED Area Luminaire

Catalog Number	"A"
Notes	20' POLE
Type	

OMERO

Specifications

EPA: 0.9 ft² (0.08 m²)

Length: 32-7/8" (83.5 cm)

Width: 25" (63.5 cm)

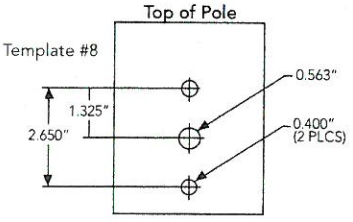
Height: 8-1/4" (21.0 cm)

Weight (max): 42 lbs (19.1 kg)

Introduction

The Omero™ family of luminaires blends a traditional round dayform with contemporary, low-profile styling to accent architectural elements in a variety of applications.

The MR2 LED combines the latest in LED technology with the designer aesthetic of the Omero™ family for stylish, high-performance illumination that lasts. The MR2 LED is ideal for replacing 250-400W metal halide in area lighting applications with typical energy savings of 65% and expected service life of over 100,000 hours.



Ordering Information

EXAMPLE: MR2 LED 60C 1000 40K T5M MVOLT SPA DDBXD

4"	AST35-190	AST35-280	AST35-290	AST35-320	AST35-390	AST35-490

NOTES

1. MVOLT driver operates on any line voltage from 120-277V (50/60 Hz). Specify 120, 208, 240 or 277 options only when ordering with fusing (SF, DF options).
2. Also available as a separate accessory; see Accessories information at left.
3. 1.5 G vibration load rating per ANCI C136.31.
4. Requires "SPA" mounting option. Must be ordered as a separate accessory; see Accessories information. For use with 2-3/8" mast arm (not included).
5. Specifies a ROAM® enabled luminaire with 0-10V dimming capability; PER option required. Not available with 347 or 480V. Add'l hardware and services required for ROAM® deployment; call 1-800-442-6745 or email: sales@roamservices.net. N/A with BL30, BL50, or DS.
6. Single fuse (SF) requires 120, 277 or 347 voltage option. Double fuse (DF) requires 208, 240 or 480 voltage option.
7. Provides 50/50 luminaire operation via two independent drivers on two separate circuits. N/A with PER or DCR.
8. Requires an additional switched line.
9. Dimming driver standard. MVOLT only. Not available with DCR.
10. Requires luminaire to be specified with PER option. Ordered and shipped as a separate line item.

Lumen Ambient Temperature (LAT) Multipliers

Use these factors to determine relative lumen output for average ambient temperatures from 0-40°C (32-104°F).

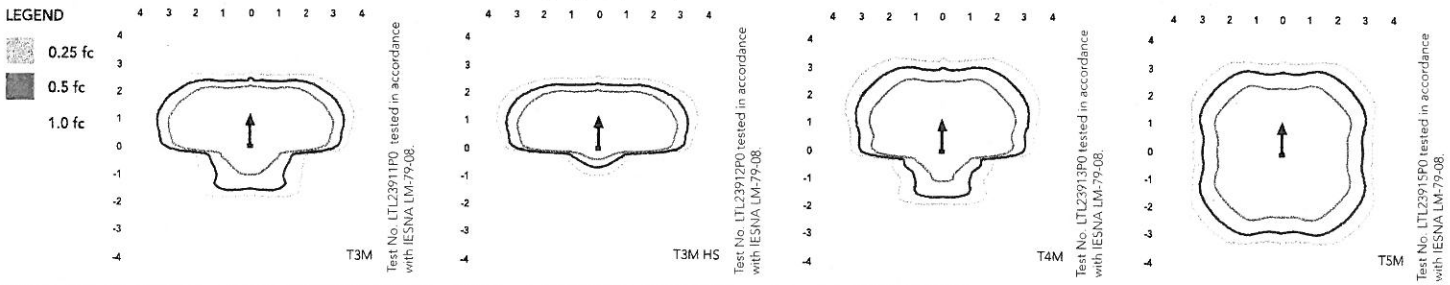
Ambient		Lumen Multiplier
0°C	32°F	1.02
10°C	50°F	1.01
20°C	68°F	1.00
25°C	**77°F**	**1.00**
30°C	86°F	1.00
40°C	104°F	0.99

Projected LED Lumen Maintenance

Data references the extrapolated performance projections for the **MR2 LED 60C** platform in a **25°C ambient**, based on 10,000 hours of LED testing (tested per IESNA LM-80-08 and projected per IESNA TM-21-11).

To calculate LLF, use the lumen maintenance factor that corresponds to the desired number of operating hours below. For other lumen maintenance values, contact factory.

Operating Hours	0	25,000	50,000	100,000
Lumen Maintenance Factor	1.0	0.94	0.90	0.82



Electrical Load

Number of LEDs	Drive Current (mA)	System Watts	Current (A)					
			120V	208V	240V	277V	347V	480V
60C	700	132W	1.321	0.756	0.659	0.580	0.462	0.337
	1000	206W	2.068	1.198	1.056	0.943	0.764	0.605

Photometric Diagrams

To see complete photometric reports or download .ies files for this product, visit Lithonia Lighting's MR2 LED homepage.

Isofootcandle plots for the MR2 LED 60C 1000 40K. Distances are in units of mounting height (20').

FEATURES & SPECIFICATIONS

INTENDED USE
Highly efficient and long-lasting, the MR2 LED is ideal for parking areas, street lighting, walkways and car lots.

CONSTRUCTION
Single-piece die cast housing has a unique flow-through design that allows for optimized thermal management through convective cooling. A perforated housing prevents debris build-up while allowing natural cleaning of the heat sinks. Modular design allows for ease of maintenance and future light engine upgrades. The LED driver and electronics are thermally isolated from the light engine(s), ensuring long life. Housing is completely sealed against moisture and environmental contaminants. Low EPA (0.9 ft²) for optimized pole wind loading.

FINISH
Exterior parts are protected by a zinc-infused Super Durable TGIC thermoset powder coat finish that provides superior resistance to corrosion and weathering. A tightly controlled multi-stage process ensures a minimum 3 mils thickness for a finish that can withstand extreme climate changes without cracking or peeling. Standard Super Durable colors include dark bronze, black, natural aluminum and white. Available in textured and non-textured finishes.

OPTICS
Precision-molded acrylic lenses provide optimal luminaire spacing and improved uniformity. Lenses are indexed to the circuit board to ensure consistent optical alignment and delivering repeatable photometric performance. Light engines are available in standard 4000 K (67 CRI) or optional 5000 K (67 CRI) configurations. The MR2 has zero uplight and qualifies as a Nighttime Friendly™ product, meaning it is consistent with the LEED® and Green Globes™ criteria for eliminating wasteful uplight.

ELECTRICAL
Light engine(s) consist of 60 high-efficacy LEDs mounted to metal-core circuit boards to maximize heat dissipation and promote long life (100,000 hrs at 40°C, L70). Class 1 electronic driver designed to provide a power factor >90%, THD <20%, with an expected life of 100,000 hours with <1% failure rate. Easily-serviceable surge protection device meets a minimum Category C Low operation (per ANSI/IEEE C62.41.2).

INSTALLATION
Integral arm provides easy installation to a pole and assists in alignment and leveling. Secure connection withstands up to 2.0 G vibration load rating per ANSI C136.31. The MR2 utilizes the AERIS™ series pole drilling pattern for SPA and RPA options; wall mounting bracket also available.

LISTINGS
CSA certified to U.S. and Canadian standards. Light engines are IP66 rated; luminaire is IP65 rated. **U.S. Patent No. D556,357.**

DesignLights Consortium® (DLC) qualified product. Not all versions of this product may be DLC qualified. Please check the DLC Qualified Products List at www.designlights.org to confirm which versions are qualified.

WARRANTY
5-year limited warranty. Complete warranty terms located at:
www.acuitybrands.com/CustomerResources/Terms_and_conditions.aspx.

Note: Actual performance may differ as a result of end-user environment and application. All values are design or typical values, measured under laboratory conditions at 25 °C. Specifications subject to change without notice.

MRW LED
Architectural Wall Sconce

Catalog Number: "B2 & B4"

Notes:

Type:

Inverted available with WLU option only.

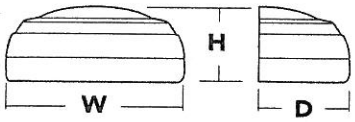
OMERO

Introduction

The classic Architectural Wall Sconce is now available with the latest in LED technology. The result is a long-life, maintenance-free product with typical energy savings of 75% compared to metal halide versions. The integral battery backup option provides emergency egress lighting, without the use of a back-box or remote gear, so installations maintain their aesthetic integrity.

The MRW LED is ideal for replacing existing 50 – 175W metal halide wall-mounted products. The expected service life is 20+ years of nighttime use.

Specifications



Luminaire

Height: 7-1/4" (18.4 cm)

Width: 18" (45.7 cm)

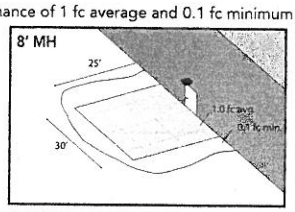
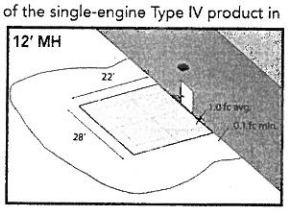
Emergency Battery Operation



The emergency battery backup (ELCW option) is integral to the luminaire - no external housing required! This design provides reliable emergency operation while maintaining the aesthetics of the product.



All ELCW configurations include an independent secondary driver with an integral relay to immediately detect AC power loss. Dual light engines are wired in parallel so both engines operate in emergency mode and provide additional component redundancy. These design features meet various interpretations of NFPA 70/NEC 2008 - 700.16

The emergency battery will power the luminaire for a minimum duration of 90 minutes (maximum duration of three hours) from the time supply power is lost, per International Building Code Section 1006 and NFPA 101 Life Safety Code Section 7.9, provided luminaires are mounted at an appropriate height and illuminate an open space with no major obstructions.

The examples below show illuminance of 1 fc average and 0.1 fc minimum of the single-engine Type IV product in emergency mode.

WST LED 1 10A700/40K SR4
MVOLT ELCW
10' x 10' Gridlines
8' and 12' Mounting Height

NOTES

1. MVOLT driver operates on any line voltage from 120-277V (50/60 Hz). Specify 120, 208, 240 or 277 options only when ordering with photocell (PE), fusing (SF, DF), or dual switching (DS).
2. May also be ordered separately as an accessory. Ex: WSBBW DDBXD U. Must specify finish.
3. Must be ordered with fixture; cannot be field installed.
4. Not available with MVOLT option. Button photocell (PE) can be ordered with a dedicated voltage option. Single fuse (SF) requires 120, 277 or 347 voltage option. Double fuse (DF) requires 208, 240 or 480 voltage option.
5. Not available with 480V option. Not available with motion/ambient light sensor (PIR).
6. Integral battery pack is rated for -20° to 60°C operating temperature. ELCW warranty is 3-year period. Not available with 347V or 480V. Not available with WLU.
7. WLU not available with PIR or ELCW.
8. Specifies the SensorSwitch SFOD-7-ODP control (photocell included); see Motion Sensor Guide for details. Includes ambient light sensor. Not available with "PE" option (button type photocell). Dimming driver standard. Not available with WLU, VG or WG.
9. Provides 50/50 luminaire operation via two independent drivers and light engines on two separate circuits. Not available with one engine, MVOLT, ELCW, WLU, SF, or DF. Must specify voltage; voltage must be the same for both drivers. When ordered with photocell (PE) or motion sensor (PIR), only the primary power source leads will be controlled.

"B2 & B4"

Performance Data

Lumen Output

Lumen values are from photometric tests performed in accordance with IESNA LM-79-08. Data is considered to be representative of the configurations shown, within the tolerances allowed by Lighting Facts.

Light Engines	Drive Current (mA)	Performance Package	System Watts (MVOLT[1])	Dist. Type	40K (4000K, 70 CRI)				
					Nominal Lumens	B	U	G	LPW
1 (10 LEDs)	700	10A700/--K	24W	SR2	2,005	1	0	1	84
				SR3	2,029	1	0	1	84
				SR4	1,959	1	0	1	82
2 (20 LEDs)	700	10A700/--K	47W	SR2	3,944	1	0	1	84
				SR3	4,028	1	0	1	86
				SR4	3,851	1	0	1	82

1 See electrical load chart for 347/480V system watts.

Lumen Ambient Temperature (LAT) Multipliers

Use these factors to determine relative lumen output for average ambient temperatures from 0-40°C (32-104°F).

Ambient		Lumen Multiplier
0°C	32°F	1.10
10°C	50°F	1.06
20°C	68°F	1.02
25°C	**77°F**	**1.00**
30°C	86°F	0.98
40°C	104°F	0.92

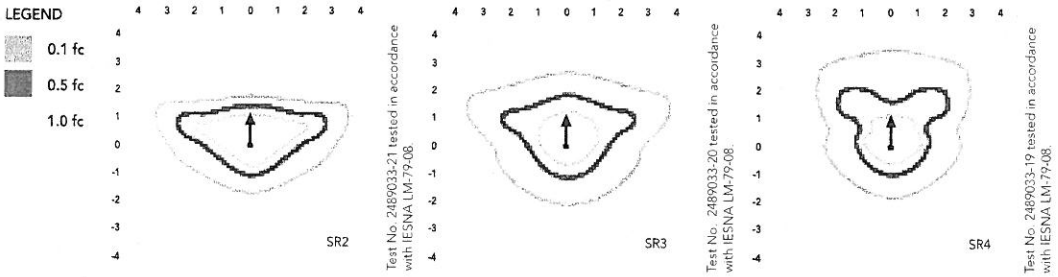
Projected LED Lumen Maintenance

Data references the extrapolated performance projections for the **MRW LED 2 10A700** platform in a **25°C ambient**, based on 10,000 hours of LED testing (tested per IESNA LM-80-08 and projected per IESNA TM-21-11).

To calculate LLF, use the lumen maintenance factor that corresponds to the desired number of operating hours below. For other lumen maintenance values, contact factory.

Operating Hours	0	25,000	50,000	100,000
Lumen Maintenance Factor	1.0	0.94	0.88	0.77

Electrical Load



Light Engines	Drive Current (mA)	System Watts	Current (A)					
			120	208	240	277	347	480
1	700	24W	0.24	0.14	0.12	0.1	-	-
		29W[1]	-	-	-	-	0.09	0.07
2	700	47W	0.44	0.27	0.23	0.20	-	-
		53W[1]	-	-	-	-	0.17	0.12

1 Higher wattage is due to electrical losses from step-down transformer.

MRW LED 2 10A700 40K SR4, MRW 175M FT Probe, 12' Mounting Ht

FEATURES & SPECIFICATIONS

INTENDED USE

The classic architectural shape of the MRW LED was designed for applications such as hospitals, schools, malls, restaurants, and commercial buildings. The long life LEDs and driver make this luminaire nearly maintenance-free.

CONSTRUCTION

The single-piece die-cast aluminum housing integrates secondary heat sinks to optimize thermal transfer from the internal light engine heat sinks and promote long life. The driver is mounted in direct contact with the casting for a low operating temperature and long life. The die-cast door frame is fully gasketed with a one-piece solid silicone gasket to keep out moisture and dust, providing an IP65 rating for the luminaire.

FINISH

Exterior parts are protected by a zinc-infused Super Durable TGIC thermoset powder coat finish that provides superior resistance to corrosion and weathering. A tightly controlled multi-stage process ensures a minimum 3 mils thickness for a finish that can withstand extreme climate changes without cracking or peeling. Standard Super Durable colors include dark bronze, black, natural aluminum, sandstone and white. Available in textured and non-textured finishes.

OPTICS

Precision-molded acrylic lenses are engineered for superior distribution, uniformity, and spacing in wall-mount applications. Light engines are 4000K (70 CRI). The MRW LED has zero uplight and qualifies as a Nighttime Friendly™ product, meaning it is consistent with the LEED® and Green Globes™ criteria for eliminating wasteful uplight.

ELECTRICAL

Light engine(s) consist of 10 high-efficacy LEDs mounted to a metal core circuit board and integral aluminum heat sinks to maximize heat dissipation and promote long life (100,000 hrs at 25°C, L77). Class 2 electronic driver has a power factor >90%, THD <20%. Easily-serviceable surge protection device meets a minimum Category B (per ANSI/IEEE C62.41.2).

INSTALLATION

A universal mounting plate with integral mounting support arms allows the fixture to hinge down for easy access while making wiring connections.

LISTINGS

CSA certified to U.S. and Canadian standards. Light engines are IP66 rated; luminaire is IP65 rated and suitable for wet locations when mounted with the lenses down. WLU option offers wet location listing in "up" orientation. Rated for -30°C minimum ambient.

DesignLights Consortium® (DLC) qualified product. Not all versions of this product may be DLC qualified. Please check the DLC Qualified Products List at www.designlights.org to confirm which versions are qualified.

WARRANTY

Five year limited warranty. Full warranty terms located at www.acuitybrands.com/CustomerResources/Terms_and_conditions.aspx.

Note: Actual performance may differ as a result of end-user environment and application. All values are design or typical values, measured under laboratory conditions at 25 °C. Specifications subject to change without notice.

LITHONIA LIGHTING®

Catalog Number	"C1 & C2"
Notes	
Type	

LDN6

6" OPEN and WALLWASH LED
Non-IC
New Construction Downlight

FEATURES & SPECIFICATIONS

INTENDED USE — Typical applications include corridors, lobbies, conference rooms and private offices.

CONSTRUCTION — Galvanized steel mounting/plaster frame; galvanized steel junction box with bottom-hinged access covers and spring latches. Reflectors are retained by torsion springs.

Vertically adjustable mounting brackets with commercial bar hangers provide 3-3/4" total adjustment.

Two combination ½"-3/4" and four ½" knockouts for straight-through conduit runs. Capacity: 8 (4 in, 4 out). No. 12 AWG conductors, rated for 90°C.

Accommodates 12"-24" joist spacing.

Passive cooling thermal management for 25°C standard; high ambient (40°C) option available. Light engine and drivers are accessible from above or below ceiling.

Max ceiling thickness 1-1/2".

OPTICS — LEDs are binned to a 3-step SDCM; 80 CRI minimum.

LED light source concealed with diffusing optical lens.

General illumination lighting with 1.0 S/MH and 55° cutoff to source and source image.

Self-flanged anodized reflectors in specular, semi-specular, or matte diffuse finishes. Also available in white and black painted reflectors.

ELECTRICAL — Multi-volt (120-277V, 50/60Hz) eldoLED 0-10V dimming drivers mounted to junction box, 10% or 1% minimum dimming level available.

0-10V dimming fixture requires two (2) additional low-voltage wires to be pulled.

70% lumen maintenance at 50,000 hours.

LISTINGS — Certified to US and Canadian safety standards. Damp location standard (wet location, covered ceiling optional).

WARRANTY — 5-year limited warranty. Complete warranty terms located at www.acuitybrands.com/CustomerResources/Terms_and_conditions.aspx

Note: Actual performance may differ as a result of end-user environment and application.

All values are design or typical values, measured under laboratory conditions at 25 °C.

Specifications subject to change without notice.

ORDERING INFORMATION

Lead times will vary depending on options selected. Consult with your sales representative.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 10/11/2016

APPLICANT: Dub Douphrate *of Douphrate & Associates, Inc*

AGENDA ITEM: **SP2016-022;** Houser Addition – *Amend Site Plan*

SUMMARY:

Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Gerald Houser of Colin-G Properties, LTD for the approval of a site plan for the expansion of an existing industrial facility on a 6.19-acre parcel of land identified as Lot 1, Block A, Houser Addition, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, situated within the SH-276 Corridor Overlay (SH-276 OV) District, addressed as 1611 SH-276, and take any action necessary.

PURPOSE:

The applicant is requesting approval of a site plan for the purpose of expanding an existing heavy commercial operation by constructing two (2) additional buildings. An amendment to the site plan is required due to the two (2) proposed buildings' total area exceeding 50% of the size of the existing buildings area (*when originally site planned in 1984*). Each new facility will be built emulating an existing structure in terms of appearance and materials; however, the proposed two new buildings will not meet certain standards established in the SH-276 Corridor Overlay (*SH-276 OV*) District and the Unified Development Code (*UDC*). This will require approval by the City Council for variances and exceptions (*as outlined in staff's report*) and has been added as a condition of approval. The property is a 6.19-acre parcel of land that is zoned Heavy Commercial (HC) District, situated within the SH-276 OV, and is addressed as 1161 SH-276.

DENSITY AND DIMENSIONAL REQUIREMENTS:

The existing site has a total of five (5) parking spaces located adjacent to the existing office building; however, based on the total square footage of the additional two (2) buildings, an additional 25 parking spaces are required. The applicant's proposed site plan indicates the addition of 16 parking spaces and is requesting a variance to allow for less than the required 25 spaces. This is due to the sites building #2 being used as a laboratory rather than a traditional office use. This variance request has also been included as a condition of approval.

Aside from the exceptions and variances requested for the tow (2) building's exterior facades, the variance to the parking standards, and the conditions listed in the *Recommendations* section of this report, the submitted site plan and building elevations are in substantial compliance with the technical requirements contained within the SH-276 OV and the Unified Development Code (*UDC*).

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*12,500 sq. ft.*	*6.19-Acres; In Conformance*
Minimum Lot Frontage	*100-Feet*	*x=80-Feet; Lot of Record*
Minimum Lot Depth	*125-Feet*	*x>679-Feet; In Conformance*
Minimum Front Yard Setback	*25-Feet*	*x>25-Feet; In Conformance*
Minimum Rear Yard Setback	*0-Feet*	*x>130-Feet; In Conformance*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Side Yard Setback	*0-Feet*[1]	*x=25-Feet; In Conformance*
Maximum Building Height	*60-Ft w/o SUP*[2]	*20-Feet; In Conformance*
Max Building/Lot Coverage	*60%*	*x<60%; In Conformance*
Minimum Masonry Requirement	*90%*	*x> 90% ; Bldg #1 In Conformance* *x<90%; Bldg #2 Metal Wall Panel – N. Elevation* *Exception Request*
Floor Area Ratio	*4:1*	*x<4:1; In Conformance*
Minimum Number of Parking Spaces	*25 new*	*16 Provided;* *Variance Request*
Minimum Stone Requirement (SH276 OV)	*20% ea facade*	*Bldg #1 Stone-South Elev. Only* *Bldg #2=100% Split Face CMU;* *Variance Request*
Minimum Landscaping Percentage	*15%*	*Existing Site; In Conformance*
Maximum Impervious Coverage	*85 to 90%*	*<85%; In Conformance*

NOTES: 1. With fire retardant wall: zero feet plus one-half of the building height over 36 feet.
2. Maximum building height: 240 feet. Any structure over 60 feet shall require a specific use permit.

EXCEPTION AND VARIANCE REQUESTS:

The applicant is requesting exceptions and variances to the SH-276 Corridor (*SH-276 OV*) District and the Unified Development Code (*UDC*) for the sections as outlined below. As a note, a variance request to the SH-276 OV requires approval by a ¾ majority vote of City Council whereas an exception request to the UDC requires passage by a simple majority vote.

The requests are as follows:

1. Art V, Sec. 6.14.C.1.a of the SH 276 OV (*and the UDC*) requires each exterior wall to consist of 90% masonry materials...including a minimum of 20 percent natural or quarried stone on walls visible from a public street or open space. Building #2's north elevation is metal wall panel with split face CMU on the remainder of the building. Stone is not present on the north, east, and west elevations of building #1, and with no stone present on building #2.

2. Art V, Sec. 6.14.C.4 of the SH 276 OV requires all buildings to be designed to incorporate no less than four architectural elements to be present. Both buildings do not meet this requirement.

3. Art V, Sec. 6.14.C.5 of the SH 276 OV requires that all buildings be architecturally finished on all four sides with the same materials, details, and features. Both buildings do not meet this standard. (*Sec. 6.14.C.1.a requires natural or quarried stone unless approved by the Planning and Zoning Commission for the use of high quality manufactured or cultured stone meeting the standards as outlined in the ordinance for building #1*).

4. Art. V, Sec. 4.1. of the UDC – An exception to allow for not meeting the horizontal articulation standards of both buildings' east and west elevations.

5. Article VI, Parking and Loading, Sec. 2.3. of the UDC- Expansion of an existing use - If any building, improvement, or use of land is expanded, the provisions for parking and loading shall be provided for the portion of land use and/or building that has been added. Based on the two (2) proposed office buildings area requires a minimum of 25 parking spaces to be added based on a ratio of 1 parking space per 300 sq. ft. for a general office use. The exception would allow for the addition of 16 new spaces as depicted on the site plan.

A request for the exceptions and variances as outlined above are considered discretionary decisions for the City Council.

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:

On September 27, 2016, the Architectural Review Board (*ARB*) reviewed the proposed two (2) building elevations for the site. General discussion concerning the agenda item took place between the Board Members and city staff regarding the location and visibility for the site along SH-276 and the multi-family apartment complex to the east. The ARB recommended the applicant plant trees along the southern and eastern property boundary in order to screen the use from the surrounding properties.

The ARB made a motion to recommend approval of the elevations for both buildings with staff conditions. The motion also included the planting of trees along the southern and eastern property lines for screening purposes. The motion passed by a vote of 6 to 0 with Board Member Strohmeyer absent.

RECOMMENDATIONS:

The site plan submitted by the applicant meets all the technical criteria stipulated by the SH-276 OV and the Unified Development Code (*UDC*) with the exception of the variances and exceptions requested as outlined in this report. Should the Planning and Zoning Commission and the City Council choose to approve the applicant's request, then the following conditions of approval should be adopted with this case:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) Approval of the exceptions requested by the City Council as outlined in this report.

3) Approval of the variances requested by the City Council as outlined in this report.

4) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING COMMENTS - DAVID GONZALES - 10.05.2016

The following staff comments for the revised plans are to be addressed and resubmitted no later than Tuesday, October 25, 2016. Please provide two large copies [24" X 36" FOLDED] and one PDF version for a final/subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Indicate where the A/C units are located on the site plan/building elevations? Must be screened from public rights-of-way and adjacent properties; provide screening detail.

VARIANCES AND EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:

* 1. Art V, Sec. 6.14.C.1.a of the SH 276 OV (and the UDC) requires each exterior wall to consist of 90% masonry materials,..., including a minimum of 20 percent natural or quarried stone on walls visible from a public street or open space. Stone is not present on the north, east, and west elevations of bldg #1 and is not present on bldg #2.
* 2. Art V, Sec. 6.14.C.4 of the SH 276 OV requires all buildings to be designed to incoporate no less than four architectural elements (from the list provided in the ordinance) to be present on both buildings.
* 3. Art V, Sec. 6.14.C.5 of the SH 276 OV requires that all buildings be architecturally finished on all four sides with the same materials, details, and features (both buildings). (Sec. 6.14.C.1.a requires natural or quarried stone unless approved by the Planning and Zoning Commission for the use of high quality manufactured or cultured stone meeting the standards as outlined in the ordinance (bldg #1).

* Approval of the variances to the SH 276 OV requires passage by a 3/4 majority vote of City Council.

** 4. UDC, Article VI Parking and Loading, Sec. 2.3. - Expansion of an existing use - If any building, improvement, or use of land is expanded, the provisions for parking and loading shall be provided for the portion of land use and/or building that hasbeen added. The proposed (office bldgs) structure requries a minimum of 25 spaces (1:300).
**5. Art. V, Sec. 4.1. of the UDC - Exception to the horizontal articulation standards - both buildings' east and west elevations do not meet the minimum requirements establish for the General Industrial District Standards regarding articulation. Requires a simple majority vote of council for approval.

** Approval of the variance and exceptions to the UDC for parking and the horizontal and vertical articulation standards requires passage by a simple majority vote o City Council.

Please addressthe following Planning Comments for each plan submitted:

Site Plan:
1. Variance to the parking standards to allow for not meeting the required number of parking spaces. Providing 16 new parking spaces; the new facilities require a minimum of 25 parking spaces or 9 less spaces. This requries approval by the City Council as noted above.
2. ARB recommendation for a row of trees along the front property line and the eastern property line for screening purposes. Provide detail on site plan.

Building Elevations:
1. Approval of the variances & exceptions as submitted is required by the City Council as indicated above.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745. Meeting Dates to Attend: 1. Planning - Action: October 11, 2016 (6:00 p.m.) [P&Z to take action (i.e. approve, approve with conditions, or deny) 2. City Council - Action: October 17, 2016 (6:00 p.m.) [FOR VARIANCE & EXCEPTION REQUESTS ONLY]

PLANNING COMMENTS - DAVID GONZALES - 09.22.2016

Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Gerald Houser of Colin-G Properties, LTD for the approval of a site plan for the expansion of an existing industrial facility on a 6.19-acre parcel of land identified as Lot 1, Block A, Houser Addition, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, situated within the SH-276 Corridor Overlay (SH-276 OV) District, addressed as 1611 SH-276, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, October 4, 2016. Please provide three large copies [24" X 36" FOLDED] anc one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Label revised site plan documents with "Case No. SP2016-022" at the lower right corner of each plan.
3. Provide a materials sample board for ARB review.
4. Where are the A/C units located? Locate units on site plan/roof top and provide screening detial. Must be screened from public rights-of-way and adjacent properties.

VARIANCES AND EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:

* 1. Art V, Sec. 6.14.C.1.a of the SH 276 OV (and the UDC) requires each exterior wall to consist of 90% masonry materials,..., and shall be limited to 50% cementaceous (stucco) materials. All elevations for bldg #2 exceeds 50% stucco.
* 2. Art V, Sec. 6.14.C.2 of the SH 276 OV requires structures having a footprint of 6,000 sq. ft. or less be contructed with a pitched roof system. Bldg #2 (4,950 sq. ft.) has a flat roof system.
* 3. Art V, Sec. 6.14.C.4 of the SH 276 OV requires all buildings to be designed to incoporate no less than four architectural elements (from the list provided in the ordinance) to be present on both buildings.
* 4. Art V, Sec. 6.14.C.5 of the SH 276 OV requires thatall buildings be architecturally finished on all four sides with the same materials, details, and features to be present on both buildings. (Sec. 6.14.C.1.a requires natural or quarried stone unless approved by the Planning and Zoning Commission for the use of high quality manufactured or cultured stone meeting the standards as outlined in the ordinance (both bldgs).

* Approval of the variances to the SH 276 OV requires passage by a 3/4 majority vote of City Council.

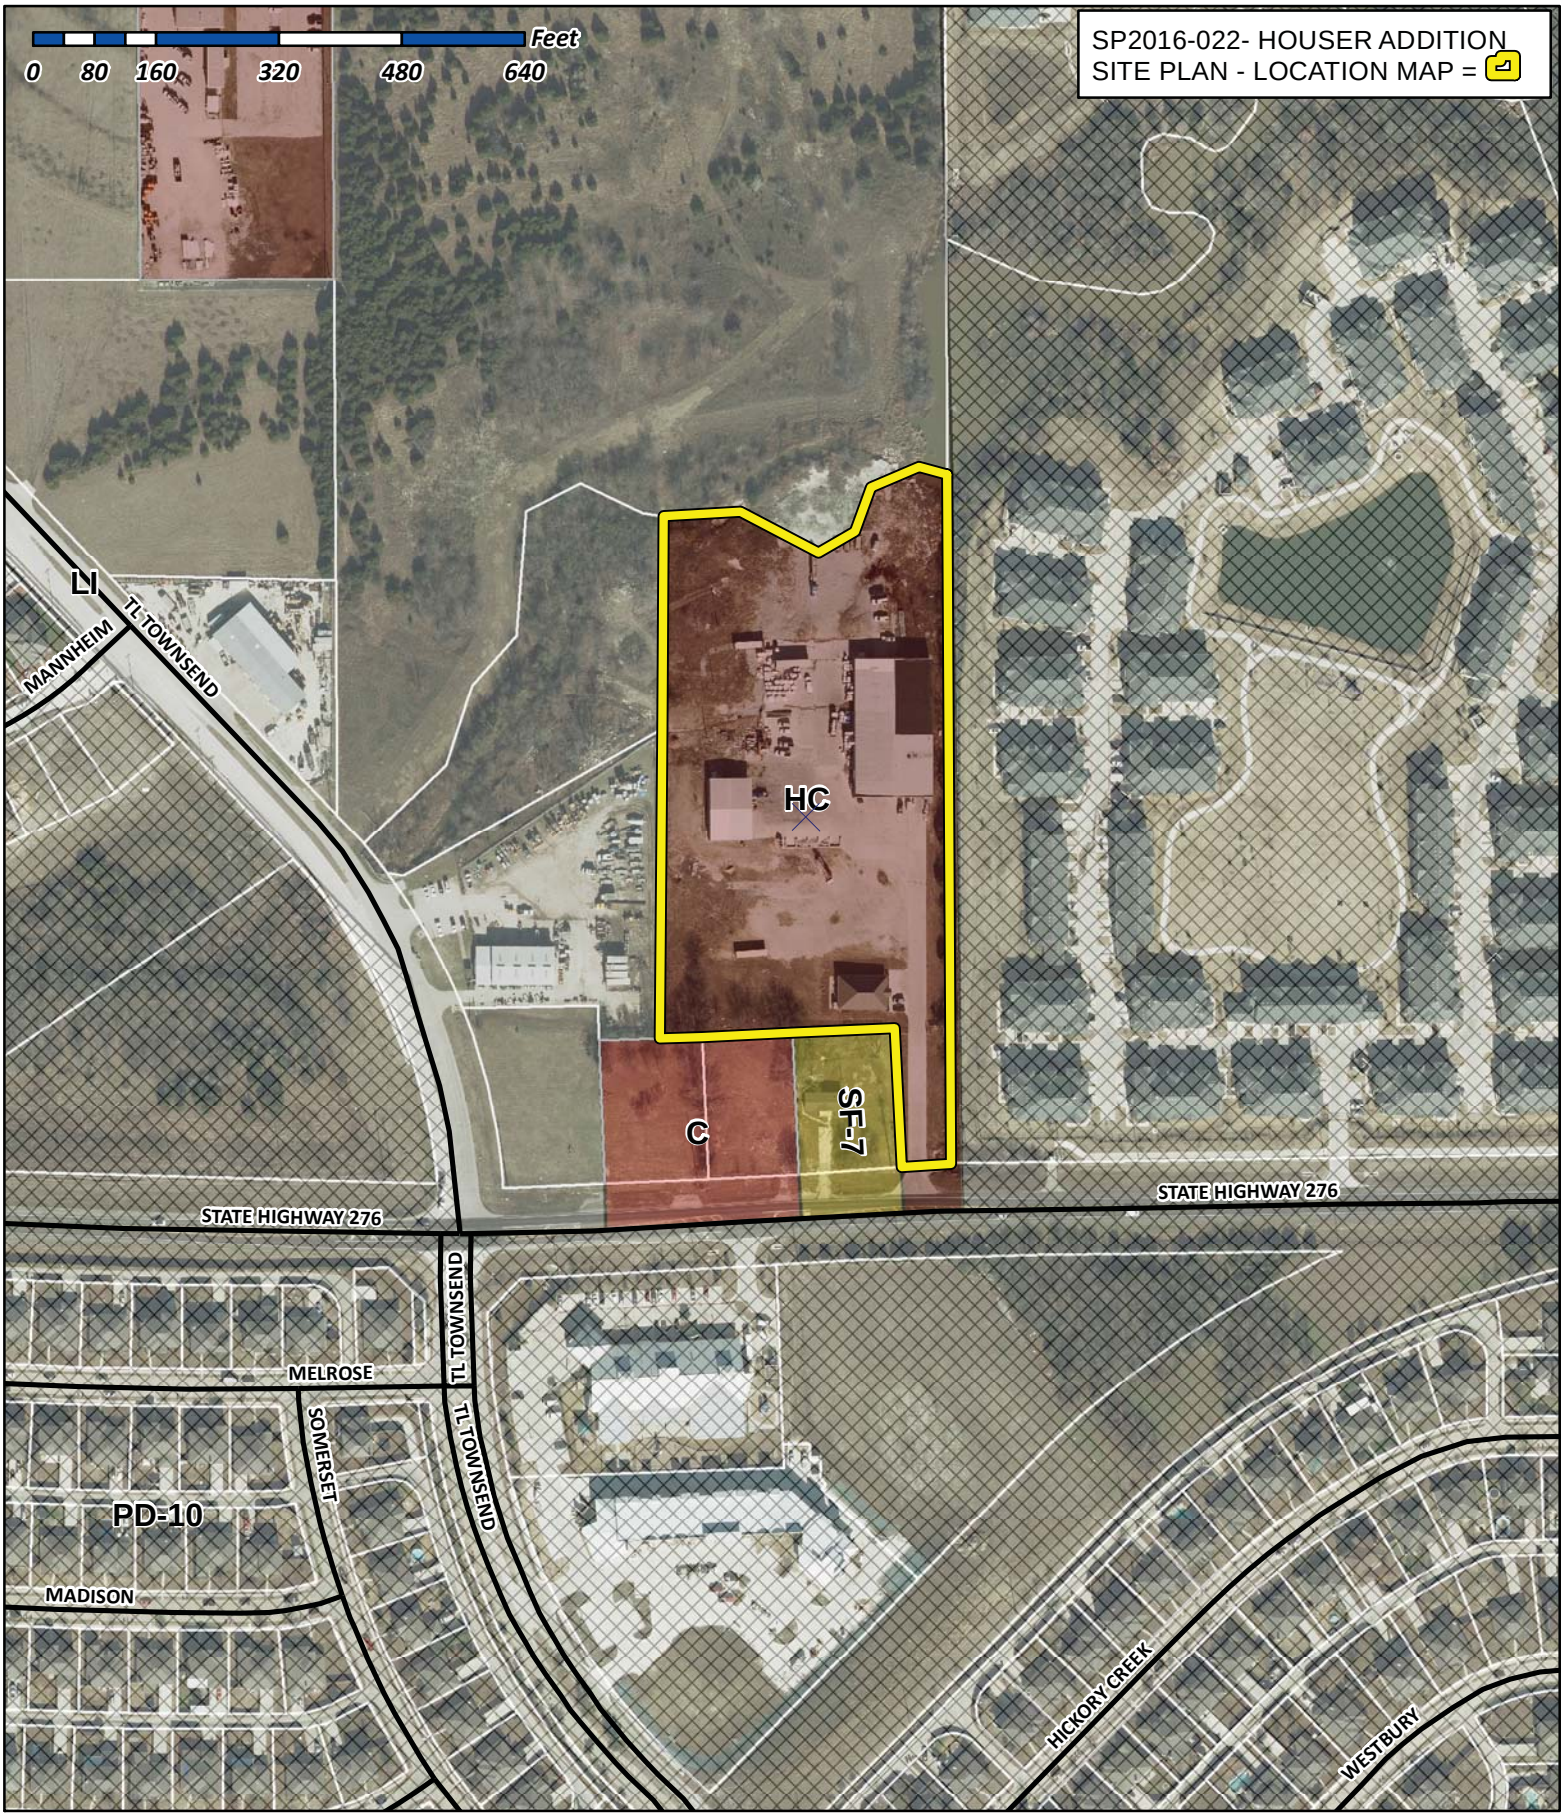
** 5. UDC, Article VI Parking and Loading, Sec. 2.3. - Expansion of an existing use - If any building, improvement, or use of land is expanded, the provisions for parking and loading shall be provided for the portion of land use and/or building that has been added. The proposed (office bldgs) structure requries a minimum of 25 spaces (1:300).
**6. Art. V, Sec. 4.1. of the UDC - Exception to the Horizontal (both buildings) & Vertical Articulation (bldg #2) Standards - the buildings elevation (all four sides of both bldgs) as submitted is not meeting the minimum requirements establish for the General Commercial District Standards. Requires a simple majority vote of council for approval.

** Approval of the variance and exceptions to the UDC for parking and the horizontal and vertical articulation standards requires passage by a simple majority vote o City Council.

Please addressthe following Planning Comments for each plan submitted:

Site Plan:
1. Provide labels for each "Existing Building" and "Sq. Ft."
2. Provide label for '24-ft Firelane and Public Access Easement' where applicable.
3. Variance to the parking standards to allow for 9 less spaces requires approval by the City Council as noted above. The applicant is providing 16 new spaces for the site.
4. Can you provide a row of trees for screening of the proposed buildings along the front property line?

Building Elevations:
1. Provide calculation for all exterior materials for both bldgs.
2. Approval of the variances& exceptions as submitted is required by the City Council as indicated above.

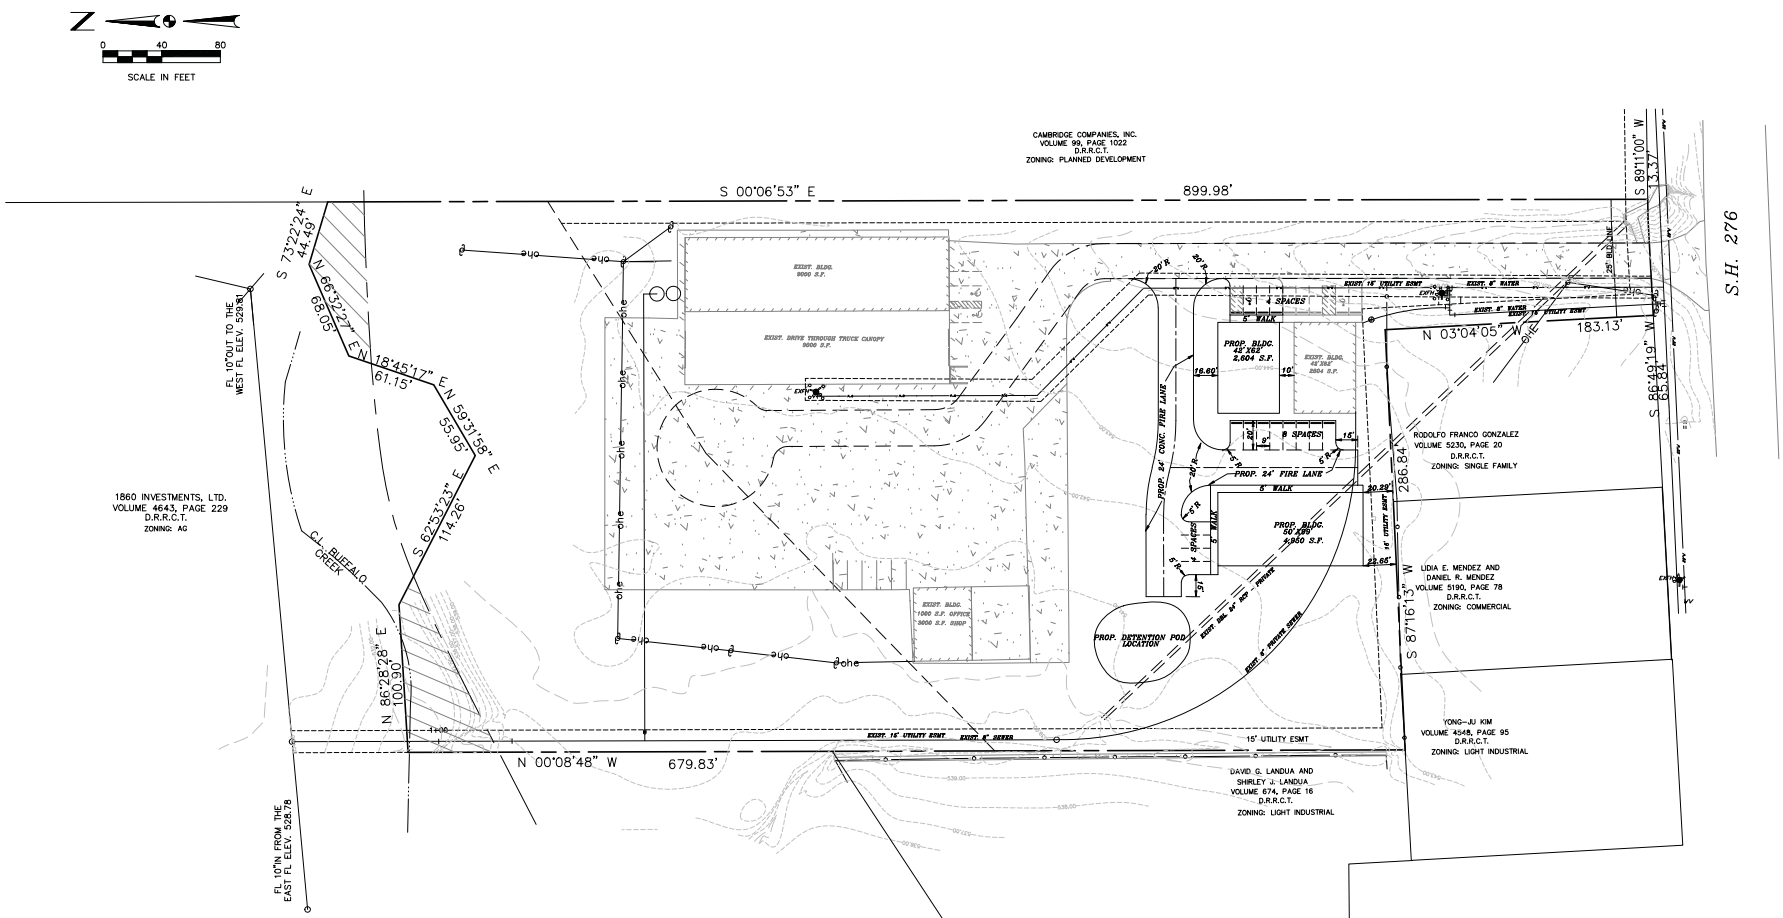


The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: September 27, 2016 (6:00 p.m.) [Applicant to provide presenation and discuss project]

Planning - Action: October 11, 2016 (6:00 p.m.) [P&Z to take action (i.e. approve, approve with conditions, or deny)



City Council - Action: October 17, 2016 (6:00 p.m.) [FOR VARIANCE & EXCEPTION REQUESTS ONLY]

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: David Gonzales, *Senior Planner*

COPY: Ryan Miller, *Director of Planning and Zoning*

DATE: October 11, 2016

SUBJECT: **SP2016-023**; *Lakeshore Commons Site Plan*

The applicant, Worth Williams of Moore Worth Investments, LLC, has requested that action on the site plan for the *Lakeshore Commons Retail Facility* be postponed until the *October 25, 2016* Planning and Zoning Commission Work Session meeting. The purpose of this postponement request is to allow the applicant more time to address specific issues related to the site. This will not require any action of the Planning and Zoning Commission.

Gonzales, David

From: Worth Williams [redacted]>
Sent: Wednesday, October 05, 2016 4:45 PM
To: Gonzales, David
Cc: Amy (Cho) Sumners; 'Mark Hickman [redacted]'; [redacted]
Subject: Lakeshore Commons Project

Hi David,

As a follow up to our conversation, we would respectfully request tabling the above referenced project until the Planning and ARB meeting scheduled for October 25th. Please let us know if this is acceptable.

Kindest regards,
Worth Williams

CITY OF ROCKWALL, TEXAS
MEMORANDUM

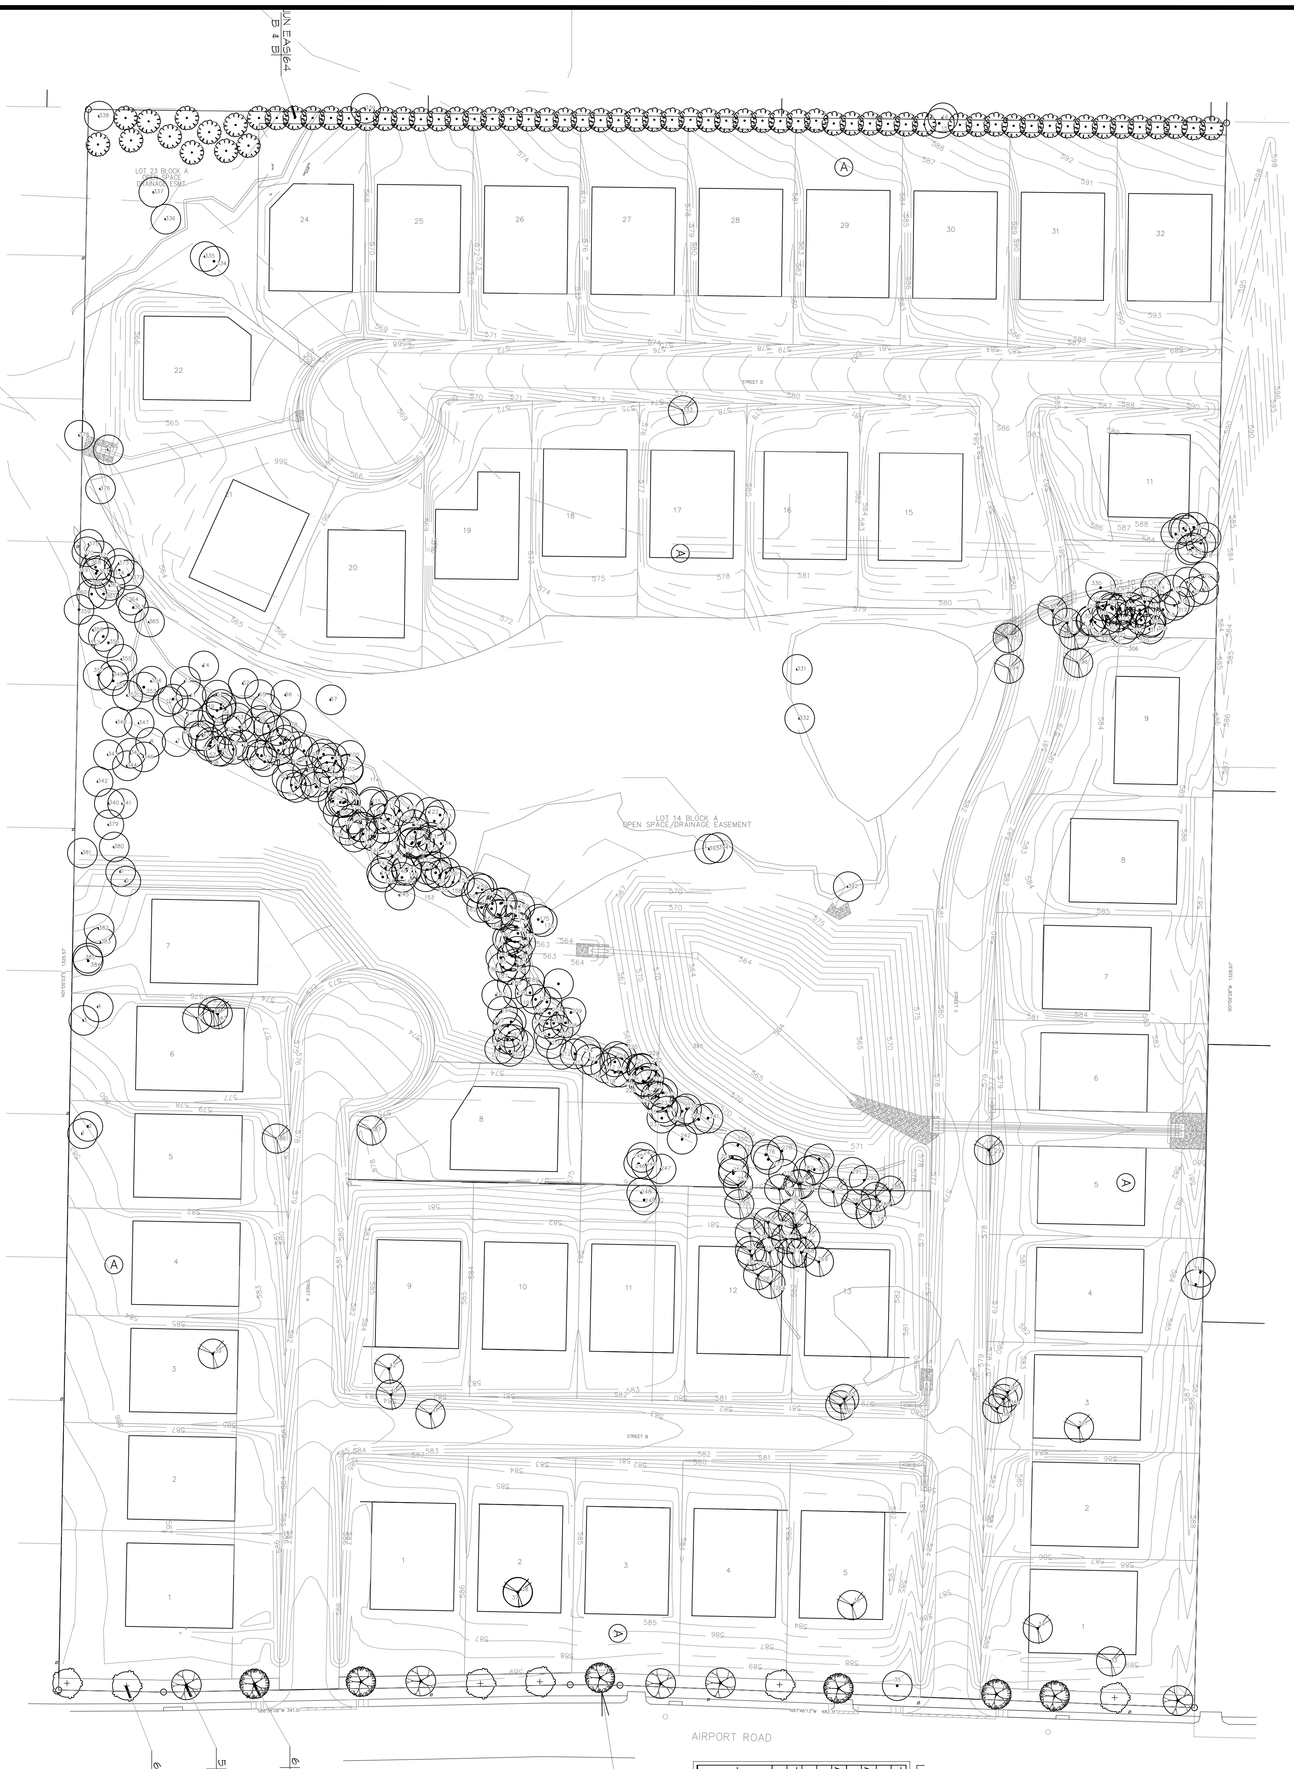
TO: Planning and Zoning Commission

CC: Ryan Miller, *Director of Planning and Zoning*

FROM: Korey Brooks, *Planner*

DATE: October 11, 2016

SUBJECT: MIS2016-009; *Tree Mitigation Plan (Skorburg Company)*



The applicant, Noah Flabiano of the Skorburg Company, has submitted a *Tree Mitigation Plan* for a planned subdivision (Ridgecrest Subdivision) being a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and located on the north side of Airport Road, west of the intersection of Airport Road and FM3549.

The applicant has provided a tree survey identifying a total of fifty-one (51) trees [*totaling 468.4-caliper inches*] that require removal in order to develop the property. All of the trees identified are considered to be protected trees and require mitigation. Of the trees being removed, five (5) of the trees [totaling 32.65 caliper-inches] are Cedar trees. According to the Unified Development Code (UDC) Cedar trees that are eleven (11) inches dbh or larger, shall be replaced at fifty (50) percent the total caliper inches being removed. Therefore, the applicant is only required to mitigate for 16.325-caliper inches of Cedar trees

According to the Unified Development Code (UDC) *feature trees* may not be removed without the approval of the Planning and Zoning Commission and are to be replaced on an inch-for-inch bases. Feature trees are identified as any pecan, oak, or elm that has a dbh of four (4) inches or greater or any tree that has a dbh of 30 inches or greater. The submitted *tree mitigation plan* identifies three (3) feature trees that will be removed and require Planning and Zoning approval.

The total required mitigation balance **[*totaling 435.75-caliper inches or 142.25 3-inch caliper trees*]** will be satisfied at the time of development of the site. It should be noted that the approval of the applicant's request is a discretionary decision for the Planning and Zoning Commission.

AGENDA
PLANNING AND ZONING COMMISSION WORK SESSION
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
October 25, 2016
6:00 P.M.

CALL TO ORDER

APPOINTMENTS

1. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

ACTION ITEMS

2. **SP2016-023** **(David)**
   Discuss and consider a request by Worth Williams of Moore Worth Investments, LLC for the approval of a site plan for a multi-tenant commercial/retail building on a 1.56-acre tract of land being a portion of a larger 6.1091-acre tract of land identified as Tract 8-4 of the J. H. B. Jones Survey, Abstract No. 8-4, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the southwest corner of Quail Run Road and N. Goliad Street [SH-205], and take any action necessary.

DISCUSSION ITEMS

3. **Z2016-033** **(Korey)**
   Hold a public hearing and consider a request by Philip Craddock of Craddock Architecture, PLLC on behalf of the owner Pastem Corporation for the approval of a Specific Use Permit (SUP) for the purpose of allowing a hotel in a Commercial (C) District that exceeds 36-feet in height in the Scenic Overlay (SOV) District for a 1.74-acre parcel of land identified as Lot 1, Block A, Comfort Inn & Suites Rockwall Towne Centre Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, addressed as 700 E. IH-30, and take any action necessary.

4. **Z2016-034** **(David)**
   Hold a public hearing to discuss and consider a request by David Palmer of Cencor Acquisition Co., Inc on behalf of Hossain Makvandi of Home Boy Enterprises, Inc. for the approval of a zoning change from an Agricultural (AG) District to a Commercial (C) District for a 7.1692-acre tract of land identified as Tract 10-1 of the W. W. Ford Survey, Abstract No. 80, Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of FM-549 and S. Goliad Street [*SH-205*], and take any action necessary.

5. **Z2016-035** **(David)**
   Hold a public hearing to discuss and consider a request by Robert A, Howman of Glenn Engineering Corp. on behalf of James Watson of the Rockwall Independent School District (RISD) for the approval of a Specific Use Permit (SUP) for the purpose of allowing a *Public School* in an Agricultural (AG) District for a 24.209-acre portion of a larger 173.0-acre tract of land identified as Tract 7-1 of the W. H. Baird Survey, Abstract No. 25, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Bypass Corridor Overlay (205 BY-OV) District, located directly east of the intersection of John King Boulevard and Trail View Drive, and take any action necessary.

6. **Z2016-036** **(David)**
   Hold a public hearing to discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (R. & R. Hance Investments, LP) for the approval of a zoning amendment to Planned Development District 79 (PD-79) [*Ordinance No. 16-07*] for the purpose of amending the development standards to allow front entry garages on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.

7. **Z2016-037** **(David)**
   Hold a public hearing to discuss and consider a request by Douglas F. DeMarco on behalf of John G. Robertson for the approval of a zoning change from an Agricultural (AG) District to a Commercial (C) District for a 23.27-acre tract of land identified as Tract 2-28 of the J. R. Johnson Survey, Abstract No. 128, Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2922 S. Goliad Street [*SH-205*], and take any action necessary.

8. **P2016-045** **(Korey)**
   Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of Ridgecrest SF, LTD. for the approval of a final plat for the Ridgecrest Subdivision creating 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.

9. **P2016-046** **(Korey)**
   Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Balance I LLC for the approval of a final plat for Breezy Hill, Phase VII creating 10 single-family residential lots on 6.802-acres of land identified as Tract 7-10 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single Family 10 (SF-10) District land uses, situated within the 205 By-Pass Corridor Overlay (205 BY-OV) District, located at the northeast corner of N. John King Boulevard and Cozy View Drive, and take any action necessary.

10. **SP2016-024** **(Korey)**
    Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of Ridgecrest SF, LTD. for the approval of a site plan for the Ridgecrest Subdivision containing 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.

11. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2016-043: Lots 1-10, Block A, Estates on the Ridge Subdivision [*Approved*]
- ✓ P2016-040: Lots 7 & 8, Block A, Independence Pass Addition [*Approved*]
- ✓ SP2016-022: Exceptions and Variances at 1611 SH-276 [*Approved*]
- ✓ Z2016-030: SUP for 1910 Copper Ridge Circle (*1st Reading*) [*Approved*]
- ✓ Z2016-031: Amendment to PD-1 for a Brewery (*1st Reading*) [*Tabled to the November 7th Meeting*]
- ✓ Z2016-032: Amendment to PD-74 (*1st Reading*) [*Approved*]

ADJOURNMENT

TRAINING SESSION

12. *Planning and Zoning Commission Training Session*
    A work session with the GIS Department will be held in the City Council meeting room immediately following the adjournment of the October 25, 2016 Planning and Zoning Commission work session meeting.

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator of the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 21st day of October, 2016 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 10/25/2016

APPLICANT: Worth Williams of *Moore Worth Investments, LLC*

AGENDA ITEM: **SP2016-023;** Indoor Recreation Facility - *Adventure Sports*

SUMMARY:

Discuss and consider a request by Worth Williams of Moore Worth Investments, LLC for the approval of a site plan for a multi-tenant commercial/retail building on a 1.56-acre tract of land being a portion of a larger 6.1091-acre tract of land identified as Tract 8-4 of the J. H. B. Jones Survey, Abstract No. 8-4, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the southwest corner of Quail Run Road and N. Goliad Street [*SH*-205], and take any action necessary.

PURPOSE:

The applicant is requesting approval of a Site Plan for the purpose of constructing a 9,862 sq. ft. retail facility that will house three (3) users (*i.e. retail, restaurant, and medical office*). The site will be comprised of a 1.56-acre tract of land being a portion of larger 6.1091-acre tract of land. The property is zoned Planned Development 65 (*PD-65*) for General Retail (*GR*) District land uses and is situated within the North SH-205 Overlay (N SH-205 OV) District and is generally located at the southwest corner of Quail Run Road and N. Goliad Street (*SH-205*).

DENSITY AND DIMENSIONAL REQUIREMENTS:

The proposed retail facility is a use permitted by right on the subject property. A preliminary plat was approved in April of this year and indicates a total of four lots available for development for this intersection. The preliminary plat also indicates one primary drive that connects all four (4) lots and has entrance/exit points along SH-205 and North Lakeshore Drive. The primary access for the *subject property* (Lot #1) will be from North Lakeshore Drive. The *subject property* will incorporate a total of 57 parking spaces for the retail development.

The submitted site plan, building elevations, landscape plan, treescape plan, and photometric plan are in substantial compliance with the technical requirements contained within the Unified Development Code (*UDC*), with the exception of the variances and conditions as listed in this report and the *Recommendations* section below.

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*6,000 sq. ft.*	*1.56-Acres; In Conformance*
Minimum Lot Frontage	*60-Feet*	*x>60-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*x>100-Feet; In Conformance*
Minimum Front Yard Setback	*15-Feet*	*x>15-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*	*x>10-Feet; In Conformance*
Minimum Side Yard Setback	*0-Feet*[1]	*x>0-Feet; In Conformance*
Maximum Building Height	*36-Ft w/o SUP*	*30-ft; In Conformance*
Max Building/Lot Coverage	*40%*	*~15.3%; In Conformance*
Minimum Masonry Requirement	*90%*	*x>90%;In Conformance*
Floor Area Ratio	*2:1*	*x<2:1; In Conformance*
Minimum Number of Parking Spaces	*55*	*57 Provided; In Conformance*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*	*x<20%; Exception Request*
Minimum Landscaping Percentage	*15%*	*X=28%; In Conformance*
Maximum Impervious Coverage	*85 to 90%*	*<85%; In Conformance*

NOTES: 1. With fire retardant wall: zero feet.

TREE MITIGATION PLAN:

As you may recall, the applicant provided a *Tree Mitigation Plan* earlier this year (*February 23, 2016*) indicating a total mitigation balance due of 731 caliper inches. The Planning and Zoning Commission approved the mitigation plan that would allow the applicant to satisfy the mitigation balance at the time of development of the 6.1091-acre site. The landscape plan for the *subject property* indicates a total of 16 trees being added to the site with each tree being a minimum of four (4) caliper inches for a total of 64 inches. The mitigation balance will be adjusted to indicate a total of 667 inches due at the time of future development.

VARIANCE AND EXCEPTION REQUESTS:

The applicant is requesting a variance to the North SH-205 Overlay (*N. SH-205 OV*) District masonry requirements and an exception to allow cultured stone as specified by the Unified Development Code (*UDC*) for the sections as outlined below. As a note, a variance to the N. SH-205 OV requires passage by a ¾ (*super majority*) vote of City Council for approval whereas, an exception request to the N. SH-205 OV requires passage by a simple majority vote of the Planning and Zoning Commission for approval. The request is as follows:

1) *Masonry requirements.* According to *Section 6.11, C.1.a. Architectural Standards*, of Article V, *District Development Standards*, of the UDC, each exterior wall is required to be constructed of 90% masonry materials (*i.e. brick, stone, etc.*) on walls visible from a public street or open space, including *a minimum of 20% being natural or quarried stone.* In this case, the front facade (*north elevation*) contains 16.38% stone and does not meet the minimum 20% standard. A variance to allow for not meeting the minimum stone standard is a discretionary decision for the City Council and requires a ¾ majority vote for approval.

2) Also to consider for *Section 6.11, C.1.a. Architectural Standards*, is an exception to the natural/quarried stone standard of the N. SH-205 OV. The applicant is requesting to use cultured stone instead of natural/quarried stone and has been provided a specifications sheet with the packet for your review. The Planning and Zoning Commission may consider the use of high quality manufactured or cultured stone if the following standards of manufacturing and warranty apply to the product;

    i. *That the manufacturing molds should be made from actual stones and each piece should complement each other having the right shape, texture, size, and detail of natural stone;*

    ii. *That the overtones of color should be integrated into the stone during the molding process, while the base color of the stone is blended entirely throughout;*

    iii. *That highly skilled artisans should be utilized to hand paint each piece in order to give each stone depth and variation of color;*

    iv. *That the use of the highest quality synthetic minerals oxides should be used to infuse the surface with rich, authentic tones; and*

    v. *That the manufactured stone product shall have a minimum warranty of 75 years*.

The cultured stone that the applicant is proposing does not meet the minimum warranty requirement; however, the stone provided by the applicant does carry a 50-year warranty. Additionally, ledgestone (*stacked stone*) is a product that has been utilized in other developments within the city. With this being said, the approval of an exception to use cultured stone is a discretionary decision for the Planning and Zoning Commission.

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:

On September 27, 2016, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. General discussion concerning the buildings' appearance took place between the Board Members and city staff. The ARB recommended the applicant increase the presence of the cornice and to revise the front buildings' elevation by providing balance with the tower elements and center massing of the structure. The ARB's motion to review the revised elevations prior to forwarding a recommendation to the Planning and Zoning Commission at the October 25th meeting passed by a vote of 6 to 0 with Board Member Strohmeyer absent.

RECOMMENDATIONS:

The site plan submitted by the applicant meets all the technical criteria stipulated by the Unified Development Code (UDC) with the exception of the items listed above. Should the Planning and Zoning Commission choose to approve the applicant's request, then the following conditions of approval should be adopted with this case:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) Approval of the variance requested from the City Council for not meeting the minimum 20% stone standard of the *Unified Development Code* as noted in this report.

3) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

(9/21/2016 9:52 AM AW)
Must show floodplain
Must show detention (not allowed in floodplain)
Engineering will not be approved until LOMR-F is approved by FEMA and the project that removed this property from the flood plain is accepted by the City.
Engineering on this project will not be accepted until the infrastructure plans are approved
See markups on site plan
No bullhead services...separate services
Need to label all "exisiting" as proposed by others
Dumpster to have a drain to grease trap
All parking adjacent to the building to be 20'x9'
Sidewalk along North Lakeshore is to be 2' from the right-of-way...not to be installed at the back of curb.

Landscape Plan:
Add Note:"No trees to be planted within 5' of any utilities"

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
(9/22/2016 12:26 PM AA) The proposed location of the Fire Department Connection (FDC) shall be indicated on the plans. The FDC is required to be along the fire lane and within 100-feet as the hose lays, of a fire hydrant. A minimum of a 5-foot wide sidewalk or other approved “all-weather” pathway shall be provided from the fire lane to the FDC. Parking/loading spaces are not considered a clear pathway.

PLANNING COMMENTS - DAVID GONZALES - 10.20.2016

Any additional comments are to be addressed and resubmitted ASAP. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a final/subsequent review by staff:

Planning Department General Comments to be addressed and will be considered as a conditions of approval:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Label revised site plan documents with "Case No. SP2016-023" at the lower right corner of each plan.
3. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO). Plat mylars are to be submitted prior to issuance of building permit.

VARIANCES AND EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:

* 1. Art V, Sec. 6.11.C.1a of the N-SH 205 BY OV requires each exterior wall to consist of 90% masonry materials,..., including 20% natural or stone on walls which are visible from a public street or open space. The North elevation does not meet the requirement and is providing 15.55% stone.

* Approval of the variance requested to the N-SH 205 OV requires passage by a 3/4 majority vote of City Council.

Please addressthe following Planning Comments for each plan submitted:

Site Plan:
1. Indicate and label firelane: "24-ft Firelane, Utility, and Public Access Easement" or as appropriate.

Building Elevations:
1. The Planning and Zoning Commission may consider the use of high quality manufacuted or cultured stone if it meets the standards (as listed in the ordinance). The stone submitted is not natural or quarried and requries P&Z approval. Provide cut sheet for determination.
2. A variance request for less than 20% stone on the North elevation requires approval by a 3/4 majority vote of City Council (as indicated above).

Landscape Plan:
1. Grass to be established (use of hydroseed) - prior to release of C.O., grass must be established or an erosion control method approved bythe Engineering Department and functioning with an escrow deposit for assurance.
2. Mtigation balance for the development has been reduced for 16- 4" trees to be planted on site. Revised mitigation balance due = 667 inches.

Photometric Plan:
1. The lighting pole standards are not to exceed a maximum overall heightof 20-ft (includes pole, base, or combination thereof) per the PD Ord. 08-02 standards. Provide detail.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

PLANNING COMMENTS - DAVID GONZALES - 09.22.2016

Discuss and consider a request by Worth Williams of Moore Worth Investments, LLC for the approval of a site plan for a multi-tenant commercial/retail building on a 1.56-acre tract of land being a portion of a larger 6.1091-acre tract of land identified as Tract 8-4 of the J. H. B. Jones Survey, Abstract No. 8-4, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the southwest corner of Quail Run Road and N. Goliad Street [SH-205], and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, October 4, 2016. Please provide three large copies [24" X 36" FOLDED] anc one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Label revised site plan documents with "Case No. SP2016-018" at the lower right corner of each plan.
3. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO). Plat mylars are to be submitted prior to issuance of building permit.

THE FOLLOWING PLANS ARE NOT ACCEPTED OR REVIEWED - separate submittal through the building inspections department required:
1. Irrigation plan
2. Signation plan

VARIANCES AND EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:

* 1. Art V, Sec. 6.11.C.1a of the N-SH 205 BY OV requires each exterior wall to consist of 90% masonry materials,..., including 20% natural or stone on walls which are visible from a public street or open space. The North elevation does not meet the requirement and is providing 15.55% stone.

* Approval of the variance requested to the N-SH 205 OV requires passage by a 3/4 majority vote of City Council.

Please addressthe following Planning Comments for each plan submitted:

Site Plan:
1. Dumpster enclosure gates to be metal panel per Ord. 08-02.
2. Provide label for firelane: "24-ft Firelane, Utility, and Public Access Easement" or as appropriate.

Building Elevations:
1. The Planning and Zoning Commission may consider the use of high quality manufacuted or cultured stone if it meets the standards (as listed in the ordinance). The stone submitted is not natural or quarried and requries P&Z approval. Provide cut sheet for determination.
2. A variance request for less than 20% stone on the North elevation requires approval by a 3/4 majority vote of City Council (as indicated above).
3. All RTU's are not to be visible from the property line or adjacent properties. The west elevations RTU's as dashed-in appear to be visible. Provide a line of sight study or an appropiate means of screening the units.

Landscape Plan:

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

1. Grass to be established (use of hydroseed) - prior to release of C.O., grass must be established or an erosion control method approved by the Engineering Department and functioning with an escrow deposit for assurance.
2. Parking on this plan is not consistent with the site plan. Revise plan.

Photometric Plan:
1. The lighting pole standards are not to exceed a maximum overall heightof 20-ft (includes pole, base, or combination thereof) per the PD Ord. 08-02 standards. Provide detail.
2. All lighting sources are to be directed down and contained on site with in order to control glare. Maximum lighting intensity at the property line is not to exceed 0.2-FC.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: September 27, 2016 (6:00 p.m.) [Applicant to provide presenation and discuss project]

Planning - Action: October 11, 2016 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, or deny)

City Council - Action: October 17, 2016 (6:00 p.m.) [FOR VARIANCE & EXCEPTION REQUESTS ONLY]

SITE PLAN NOTES:

1 FIRE LANES SHALL BE DESIGNED AND CONSTRUCTED PER CITY STANDARDS.

2 ALL SIGNAGE BY SEPARATE PERMIT.

3 ALL MATERIALS AND CONSTRUCTION SHALL BE IN ACCORDANCE WITH THE CITY OF ROCKWALL STD SPECIFICATIONS AND CONSTRUCTION STDS, AND STD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION PREPARED BY NORTH CENTRAL TEXAS COUNCIL OF GOVERNMENTS (LATEST REVISION).

4 THE CONTRACTOR SHALL BE RESPONSIBLE FOR PROTECTING ALL EXISTING IMPROVEMENTS IN THE CONSTRUCTION OF THIS PROJECT. THE CONTRACTOR IS RESPONSIBLE FOR REPAIRS OF DAMAGE TO ANY EXISTING IMPROVEMENTS DURING CONSTRUCTION. REPAIRS SHALL BE EQUAL TO OR BETTER THAN CONDITION PRIOR TO CONSTRUCTION.

5 THE LIGHTING FOR THE SUBJECT PROPERTY WILL BE CONSTRUCTED IN CONFORMANCE WITH CITY REQUIREMENTS. SEE BLDG PLANS.

SITE LAYOUT NOTES:

1 ALL FIRE LANES ARE 24' WIDE WITH MIN 20' INSIDE RADIUS AND MIN 44' OUTSIDE RADIUS. FIRE LANES SHALL BE CONSTRUCTED AND STRIPED PER CITY OF ROCKWALL FIRE DEPT REQUIREMENTS.

2 ALL PARKING STALLS, UNLESS SHOWN OTHERWISE, SHALL BE 9' WIDE x 18' DEEP EXCEPT STALLS IN FRONT OF BLDG SHALL BE 9' WIDE x 20' DEEP.

VAN ACCESSIBLE AREA SHALL BE 9' MIN WIDE x 18' (OR 20') DEEP. OTHER ACCESS AISLES ADJACENT TO H/C PARKING SHALL BE 5' WIDE x 18' (OR 20') DEEP. ALL PARKING STALLS SHALL BE CONSTRUCTED PER PAVING PLAN.

3 ALL OTHER DRIVING LANES SHALL BE MIN 24' WIDE AND CONSTRUCTED PER THE PAVING.

NOTE:
CONTRACTOR TO VERIFY HORIZONTAL & VERTICAL LOCATION OF ALL EXISTING UTILITIES PRIOR TO BEGINNING ANY CONSTRUCTION/EXCAVATION AND NOTIFY THE ENGINEER OF ANY DISCREPANCIES EXISTING UTILITIES SHOWN ON THESE PLANS ARE BASED ON COMBINATION OF FIELD SURVEY & CITY RECORD DRAWINGS

ADA BARRIER-FREE RAMP REQUIREMENTS:

1 TEXTURE: SHALL CONSIST OF EXPOSED CRUSHED STONE AGGREGATE, ROUGHENED CONCRETE, RUBBER, RAISED ABRASIVE STRIPS, OR TRUNCATED DOMES (SEE TAS/ADS STDS FOR ADDITIONAL OPTIONS). SURFACE MUST BE DETECTABLE UNDER FOOT. SURFACES THAT ARE RAISED OR ETCHED IN A WAY THAT WOULD ALLOW WATER TO ACCUMULATE ARE

2 CONTRAST: FOR PURPOSES OF WARNING, THE FULL WIDTH AND DEPTH OF CURB RAMPS SHALL HAVE A LIGHT REFLECTIVE VALUE AND TEXTURE THAT SIGNIFICANTLY CONTRASTS WITH THAT OF ADJOINING PEDESTRIAN ROUTES.

3 RAMPS WITHIN THE CITY RIGHT OF WAY SHALL BE CONSTRUCTED PER CITY STD. PROVIDE TRUNCATED DOMES AT PLATFORM BOARDING EDGES SHALL BE A MIN OF 24" WIDE AND SHALL EXTEND THE FULL LENGTH OF THE PUBLIC USE AREA OF THE PLATFORM.

ADA/TAS SLOPE REQUIREMENTS	
ACCESSIBLE ROUTE	<5% SLOPE <2% CROSS SLOPE
RAMP & CURB RAMP	<8.33% (1:12) <2% CROSS SLOPE
TAS PARKING & ACCESS AISLE	<2% SLOPE IN ANY DIRECTION
CONTRACTOR TO ENSURE THAT GRADES ALONG ADA ROUTES MEET THESE SLOPE REQUIREMENTS	

NOTE:
PARKING & ACCESSIBLE ROUTES FOR DISABLED PERSONS SHALL BE DESIGNATED, DESIGNED & CONSTRUCTED PER CITY, TAS & ADA REQUIREMENTS

DESCRIPTION

The Galleon™ LED luminaire delivers exceptional performance in a highly scalable, low-profile design. Patented, high-efficiency AccuLED Optics™ system provides uniform and energy conscious illumination to walkways, parking lots, roadways, building areas and security lighting applications. IP66 rated and UL/cUL Listed for wet locations.

Catalog #		**Type**
Project		
Comments		**Date**
Prepared by		

SPECIFICATION FEATURES

Construction
Extruded aluminum driver enclosure thermally isolated from Light Squares for optimal thermal performance. Heavy-wall, die-cast aluminum end caps enclose housing and die-cast aluminum heat sinks. A unique, patent pending interlocking housing and heat sink provides scalability with superior structural rigidity. 3G vibration tested and rated. Optional tool-less hardware available for ease of entry into electrical chamber. Housing is IP66 rated.

Optics
Patented, high-efficiency injection-molded AccuLED Optics technology. Optics are precisely designed to shape the distribution maximizing efficiency and application spacing. AccuLED Optics create consistent distributions with the scalability to meet customized application requirements. Offered standard in 4000K (+/- 275K) CCT 70 CRI. Optional 3000K, 5000K and 6000K CCT.

Electrical
LED drivers are mounted to removable tray assembly for ease of maintenance. 120-277V 50/60Hz, 347V 60Hz or 480V 60Hz operation. 480V is compatible for use with 480V Wye systems only. Standard with 0-10V dimming. Shipped standard with Eaton proprietary circuit module designed to withstand 10kV of transient line surge. The Galleon LED luminaire is suitable for operation in -40°C to 40°C ambient environments. For applications with ambient temperatures exceeding 40°C, specify the HA (High Ambient) option. Light Squares are IP66 rated. Greater than 90% lumen maintenance expected at 60,000 hours. Available in standard 1A drive current and optional 600mA, 800mA and 1200mA drive currents (nominal).

Mounting
STANDARD ARM MOUNT: Extruded aluminum arm includes internal bolt guides allowing for easy positioning of fixture during mounting. When mounting two or more luminaires at 90° and 120° apart, the EA extended arm may be required. Refer to the arm mounting requirement table. Round pole adapter included. For wall mounting, specify wall mount bracket option. QUICK MOUNT ARM: Adapter is bolted directly to the pole. Quick mount arm slide into place on the adapter and is secured via two screws, facilitating quick and easy installation. The versatile, patent pending, quick mount arm accommodates multiple drill patterns ranging from 1-1/2" to 4-7/8". Removal of the door on the quick mount arm enables wiring of the fixture without having to access the driver compartment. A knock-out enables round pole mounting.

Finish
Housing finished in super durable TGIC polyester powder coat paint, 2.5 mil nominal thickness for superior protection against fade and wear. Heat sink is powder coated black. Standard housing colors include black, bronze, grey, white, dark platinum and graphite metallic. RAL and custom color matches available.

Warranty
Five-year warranty.

* Nominal data for 70 CRI.

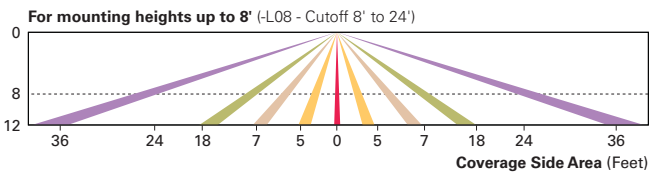
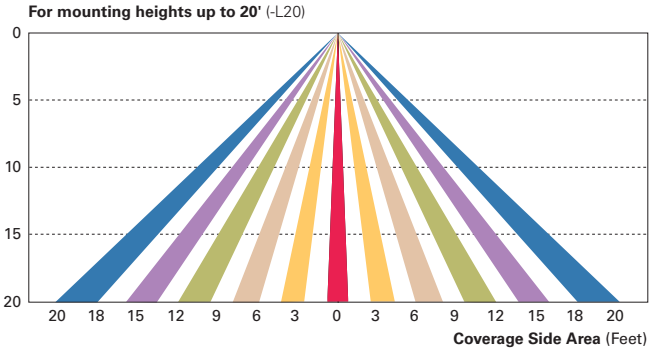
CONTROL OPTIONS

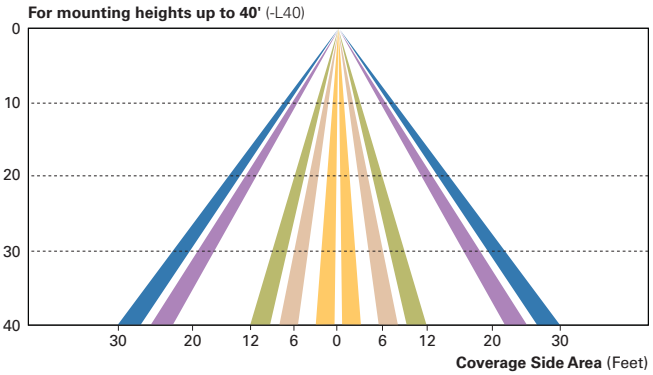
0-10V (DIM)
This fixture is offered standard with 0-10V dimming driver(s). The DIM option provides 0-10V dimming wire leads for use with a lighting control panel or other control method.



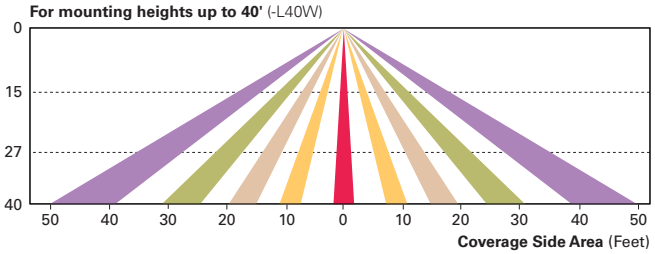
Photocontrol (P, R and PER7)
Optional button-type photocontrol (P) and photocontrol receptacles (R and PER7) provide a flexible solution to enable "dusk-to-dawn" lighting by sensing light levels. Advanced control systems compatible with NEMA 7-pin standards can be utilized with the PER7 receptacle.



After Hours Dim (AHD)
This feature allows photocontrol-enabled luminaires to achieve additional energy savings by dimming during scheduled portions of the night. The dimming profile will automatically take effect after a "dusk-to-dawn" period has been calculated from the photocontrol input. Specify the desired dimming profile for a simple, factory-shipped dimming solution requiring no external control wiring. Reference the After Hours Dim supplemental guide for additional information.

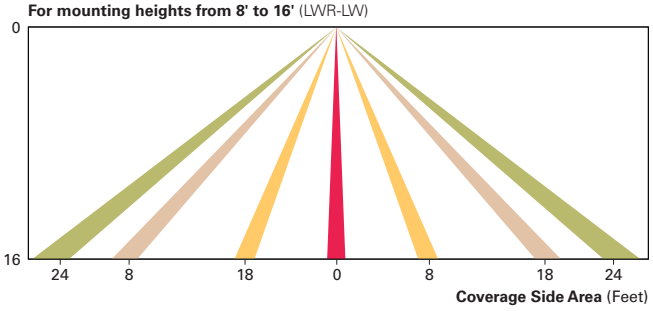


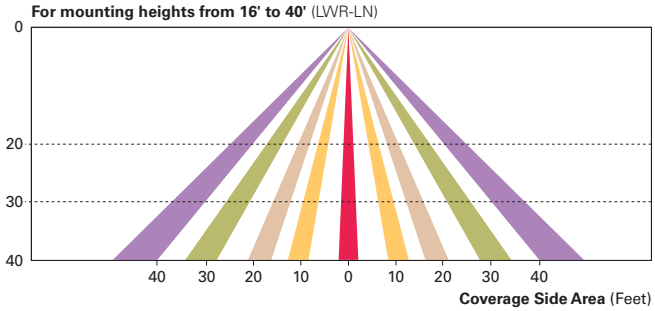
Dimming Occupancy Sensor (MS/DIM-LXX, MS/X-LXX and MS-LXX)
These sensors are factory installed in the luminaire housing. When the MS/DIM-LXX sensor option is selected, the occupancy sensor is connected to a dimming driver and the entire luminaire dims when there is no activity detected. When activity is detected, the luminaire returns to full light output. The MS/DIM sensor is factory preset to dim down to approximately 50 percent power with a time delay of five minutes. The MS-LXX sensor is factory preset to turn the luminaire off after five minutes of no activity. The MS/X-LXX is also preset for five minutes and only controls the specified number of light engines to maintain steady output from the remaining light engines.



These occupancy sensors includes an integral photocell that can be activated with the FSIR-100 accessory for "dusk-to-dawn" control or daylight harvesting - the factory preset is OFF. The FSIR-100 is a wireless tool utilized for changing the dimming level, time delay, sensitivity and other parameters.

A variety of sensor lens are available to optimize the coverage pattern for mounting heights from 8'-40'.





LumaWatt Wireless Control and Monitoring System (LWR-LW and LWR-LN)
The LumaWatt system is a peer-to-peer wireless network of luminaire-integral sensors for any sized project. Each sensor is capable of motion and photo sensing, metering power consumption and wireless communication. The end-user can securely create and manage sensor profiles with browser-based management software. The software will automatically broadcast to the sensors via wireless gateways for zone-based and individual luminaire control. The LumaWatt software provides smart building solutions by utilizing the sensor to provide easy-to-use dashboard and analytic capabilities such as improved energy savings, traffic flow analysis, building management software integration and more.

For additional details, refer to the LumaWatt product guides.

GLEON-MT4=Field Installed Mesh Top for 9-10 Light Squares
GLEON-QM=Quick Mount Arm Kit
GLEON-QMEA=Quick Mount Extended Arm Kit
LS/HSS=Field Installed House Side Shield [28, 30]

NOTES:
1. Customer is responsible for engineering analysis to confirm pole and fixture compatibility for all applications. Refer to our white paper WP513001EN for additional support information.
2. DesignLights Consortium™ Qualified. Refer to www.designlights.org Qualified Products List under Family Models for details.
3. Standard 4000K CCT and minimum 70 CRI.
4. Not compatible with extended quick mount arm (QMEA).
5. Not compatible with standard quick mount arm (QM) or extended quick mount arm (QMEA).
6. Requires the use of an internal step down transformer when combined with sensor options. Not available with sensor at 1200mA. Not available in combination with the HA high ambient and sensor options at 1A.
7. Only for use with 480V Wye systems. Per NEC, not for use with ungrounded systems, impedance grounded systems or corner grounded systems (commonly known as Three Phase Three Wire Delta, Three Phase High Leg Delta and Three Phase Corner Grounded Delta systems).
8. May be required when two or more luminaires are oriented on a 90° or 120° drilling pattern. Refer to arm mounting requirement table.
9. Factory installed.
10. Maximum 8 light squares.
11. Maximum 6 light squares.
12. Extended lead times apply. Use dedicated IES files for 3000K, 5000K and 6000K when performing layouts. These files are published on the Galleon luminaire product page on the website.
13. Extended lead times apply. Use dedicated IES files for 3000K, 5000K and 6000K when performing layouts. These files are published on the Galleon luminaire product page on the website.
14. 1 Amp standard. Use dedicated IES files for 600mA, 800mA and 1200mA when performing layouts. These files are published on the Galleon luminaire product page on the website.
15. Not available with HA option.
16. 2L is not available with MS, MS/X or MS/DIM at 347V or 480V. 2L in AF-02 through AF-04 requires a larger housing, normally used for AF-05 or AF-06. Extended arm option may be required when mounting two or more fixtures per pole at 90° or 120°. Refer to arm mounting requirement table.
17. Not available with LumaWatt wireless sensors.
18. Requires the use of P photocontrol or the PER7 or R photocontrol receptacle with photocontrol accessory. See After Hours Dim supplemental guide for additional information.
19. 50°C lumen maintenance data applies to 600mA, 800mA and 1A drive currents.
20. The FSIR-100 configuration tool is required to adjust parameters including high and low modes, sensitivity, time delay, cutoff and more. Consult your lighting representative at Eaton for more information.
21. Approximately 22' detection diameter at 8' mounting height.
22. Approximately 40' detection diameter at 20' mounting height.
23. Approximately 60' detection diameter at 40' mounting height.
24. Approximately 100' detection diameter at 40' mounting height.
25. Replace X with number of Light Squares operating in low output mode.
26. LumaWatt wireless sensors are factory installed only requiring network components RF-EM-1, RF-GW-1 and RF-ROUT-1 in appropriate quantities. See www.eaton.com/lighting for LumaWatt application information.
27. Not available with house side shield (HSS).
28. Only for use with SL2, SL3, SL4 and AFL distributions. The Light Square trim plate is painted black when the HSS option is selected.
29. CE is not available with the LWR, MS, MS/X, MS/DIM, P, R or PER7 options. Available in 120-277V only.
30. One required for each Light Square.

McGraw-Edison

DESCRIPTION

The Impact Elite family of wall luminaires is the ideal complement to site design. Incorporating modular LightBAR™ technology, the Impact Elite luminaire provides outstanding uniformity and energy-conscious illumination. Combined with a rugged construction, the Impact Elite luminaire is the ideal facade and security luminaire for zones surrounding schools, office complexes, apartments and recreational facilities. UL/cUL listed for wet locations.

Catalog #		**Type**

SPECIFICATION FEATURES

Construction
Heavy-wall, die-cast aluminum housing and removable hinged door frame for precise tolerance control and repeatability. Hinged door inset for clean mating with housing surface and secured via two captive fasteners. Optional tamper-resistant Torx™ head fasteners offer vandal resistant access to the electrical chamber.

Optics
Choice of six patented, high-efficiency AccuLED Optics™ distributions. Optics are precisely designed to shape the light output, maximizing efficiency and application spacing. AccuLED Optics technology creates consistent distributions with the scalability to meet customized application requirements. Offered Standard in 4000K (+/- 275K) CCT and minimum 70 CRI. Optional 3000K CCT, 5000K CCT and 5700K CCT.

Electrical
LED drivers mount to die-cast aluminum back housing for optimal heat sinking, operation efficacy, and prolonged life. Standard drivers feature electronic universal voltage (120-277V 50/60Hz), 347V 60Hz or 480V 60Hz operation, greater than 0.9 power factor, less than 20% harmonic distortion, and are suitable for operation in -40°C to 40°C ambient environments. All fixtures are shipped standard with 10kV/10kA common – and differential – mode surge protection. LightBARs feature an IP66 enclosure rating and maintain greater than 95% lumen maintenance at 60,000 hours per IESNA TM-21. Emergency egress options for -20°C ambient environments and occupancy sensor available.

Mounting
Gasketed and zinc plated rigid steel mounting attachment fits directly to 4" j-box or wall with the Impact Elite "Hook-N-Lock" mechanism for quick installation. Secured with two captive corrosion resistant black oxide coated allen head set screws concealed but accessible from bottom of fixture.

Finish
Cast components finished in a five-stage super TGIC polyester powder coat paint, 2.5 mil nominal thickness for superior protection against fade and wear. Standard colors include black, bronze, grey, white, dark platinum and graphite metallic. RAL and custom color matches available. Consult the McGraw-Edison Architectural Colors brochure for the complete selection.

Warranty
Five-year warranty.

NOTES:
1. DesignLights Consortium® Qualified. Refer to www.designlights.org Qualified Products List under Family Models for details.
2. Standard 4000K CCT and greater than 70 CRI. LightBARs for downlight use only.
3. 21 LED LightBAR powered by 350mA and 7 LED LightBAR powered by 1A.
4. Only for use with 480V Wye systems. Per NEC, not for use with ungrounded systems, impedance grounded systems or corner grounded systems (commonly known as Three Phase Three Wire Delta, Three Phase High Leg Delta and Three Phase Corner Grounded Delta systems).
5. Custom and RAL color matching available upon request. Consult your lighting representative at Eaton for more information.
6. Low-level output varies by bar count. Consult factory. Not available with 347V or 480V. Available with two bars (E02 or F02) only.
7. Extended lead times apply.
8. Available with E02 or F02, only one bar on street side will be wired to sensor. Time delay factory setting 15-minutes. When ordered with PC option, both bars are connected to photocontrol as primary switching means. Standard sensor lens covers 8' mounting height, 360° coverage, maximum 48' diameter. Not available in all configurations or with BBB or CWB options.
9. Specify 120V or 277V. LED standard integral battery pack is rated for minimum operating temperature 32°F (0°C). Operates one bar for 90-minutes. Not available in all configurations or with OSB option. Consult factory.
10. Specify 120V or 277V. LED cold weather integral battery pack is rated for minimum operating temperature -4°F (-20°C). Operates one bar for 90-minutes. Not available in all configurations or with OSB option. Consult factory.
11. Replace XX with color suffix.

Moonlite LED®
LED Outdoor Egress Emergency with Night Lighting Option

Mullion Mount Emergency Light
Series MUE

MUE.4.16.13

The Brightest Idea is Emergency Lighting

GENERAL DESCRIPTION

Operating in emergency mode or optional normal- on, this fixture is designed to mount directly on structural mullion beams used in typical glass-fronted entrances, with vertical surface as small as 2". This fixture has full 90° cut-off and will provide efficient emergency lighting in front of egress doorways, or along extended pathways.

CONSTRUCTION

- Rugged extruded aluminum housing with stainless hardware is corrosion proof.
- Wet location listed UL 924. Certified IP66.
- Uniform, high brightness lighting over the path of egress.
- Full 90° cut- off.
- Three versions are available:

RE= Central Battery System Series CBS or other qualified source 12V- 24 VDC.
BB= Battery backup from Remote Battery Supply Series RPS.
AC= 120/ 277 VAC supply.

ELECTRONICS

- Dual operation from either a battery or optional normally on power source.
- Lamps are connected in parallel-series strings, as required to meet requirements of NEC and Life Safety Codes. Lighting continues even after failure of One lamp or circuit.

ENERGY EFFICIENT OPERATION

- Dual function operation for optional normally on night or security lighting as well as emergency lighting.
- Very low power consumption in optional night/ security mode. The security lighting circuit is independent of emergency lighting and may be switched manually, by an exterior photocell, or other automatic means.
- Over 50,000 hour lamp life in normal use.
- IES photometric data available for all models.

CODES

- Manufactured and tested to UL Standard 924 and NFPA Life Safety Code 101.

WARRANTY

- 5 year total customer satisfaction warranty. For Details see product catalog technical data section.

Z2016-033 SUP: Hotel on Vigor Way Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 Hold a public hearing and consider a request by Philip Craddock of Craddock Architecture, PLLC on behalf of the owner Pastem Corporation for the approval of a Specific Use Permit (SUP) for the purpose of allowing a hotel in a Commercial (C) District that exceeds 36-feet in height in the Scenic Overlay (SOV) District for a 1.74-acre parcel of land identified as Lot 1, Block A, Comfort Inn & Suites Rockwall Towne Centre Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, addressed as 700 E. IH-30, and take any action necessary.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (Z2016-033) in the lower right hand corner of all pages on future submittals.
M.4 Please provide North, East, South, and West Elevations
M.5 The original SUP states that a “Residence Hotel” is prohibited. Please provide a unit mix of suites vs. non suites.
I.6 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, The Planning & Zoning Worksession date for this case will be October 25, 2016. The Planning and Zoning Meeting for this case is November 15, 2016.
I.7 The City Council meeting date and subsequent approval for this SUP is November 21, 2016 [1st Reading] and December 5, 2016 [2nd Reading].

ROCKWALL HOTEL

CRADDOCK
ARCHITECTURE

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A HOTEL IN A COMMERCIAL (C) DISTRICT AND TO ALLOW FOR A STRUCTURE THAT EXCEEDS 36-FEET IN HEIGHT WITHIN THE SCENIC OVERLAY (SOV) DISTRICT, ON A 1.783-ACRE PARCEL OF LAND BEING IDENTIFIED AS LOT 8, BLOCK A, ROCKWALL TOWNE CENTER, PHASE 4, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, the City has received a request from Phillip Craddock of Craddock Architecture, PLLC on behalf of the owner Pastem Corporation for the approval of a Specific Use Permit (SUP) to allow for a *Hotel* in a Commercial (C) District and to allow for a structure that exceeds 36-feet in height within the Scenic Overlay (SOV) District on a 1.783-acre parcel of land being described as Lot 8, Block A, Rockwall Towne Center, Phase 4, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) and the IH-30 Overlay (IH-30 OV) Districts, addressed as 700 E. IH-30, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] and Specific Use Permit (SUP) No. S-55 [*Ordinance No. 08-37*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Rockwall, Texas;

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 08-37*;

Section 2. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing a *hotel* within a Commercial (C) District as stipulated by Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] and to allow for a structure that exceeds 36-feet in height within the Scenic Overlay (SOV) District as stipulated by Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*], on the *Subject Property*; and

Section 3. That the Specific Use Permit (SUP) shall be subject to the conditions set forth in *Section 4.5, Commercial District; Section 6.6, IH-30 Overlay (IH-30 OV) District; and Section 6.8,*

DRAFT ORDINANCE 10-05-16

Scenic Overlay (SOV) District, of Article V, District Development Standards, Unified Development Code [*Ordinance No. 04-38*] as heretofore amended and as may be amended in the future, and shall be subject to the additional following additions:

1) A *Residence Hotel* or a *Hotel, Residence* as defined in the Unified Development Code [*Ordinance No. 04-38*] shall be a prohibited land use.

2) The building shall generally conform to the site plan and building elevations, depicted in *Exhibit 'A'* and *Exhibit 'B'* of this ordinance.

3) The building shall be limited to a maximum of 60-feet in height as specified in the Unified Development Code [*Ordinance No. 04-38*].

4) Freestanding signage associated with this development shall be limited to a monument sign (i.e. *no pole sign shall be allowed*).

5) The City Council reserves the right to review the Specific Use Permit granted herein upon the expiration of one (1) year from the date hereof.

Section 4. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

Section 5. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict

Section 6. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of TWO THOUSAND DOLLARS ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

Section 7. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

Section 8. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 5TH DAY OF DECEMBER, 2016.

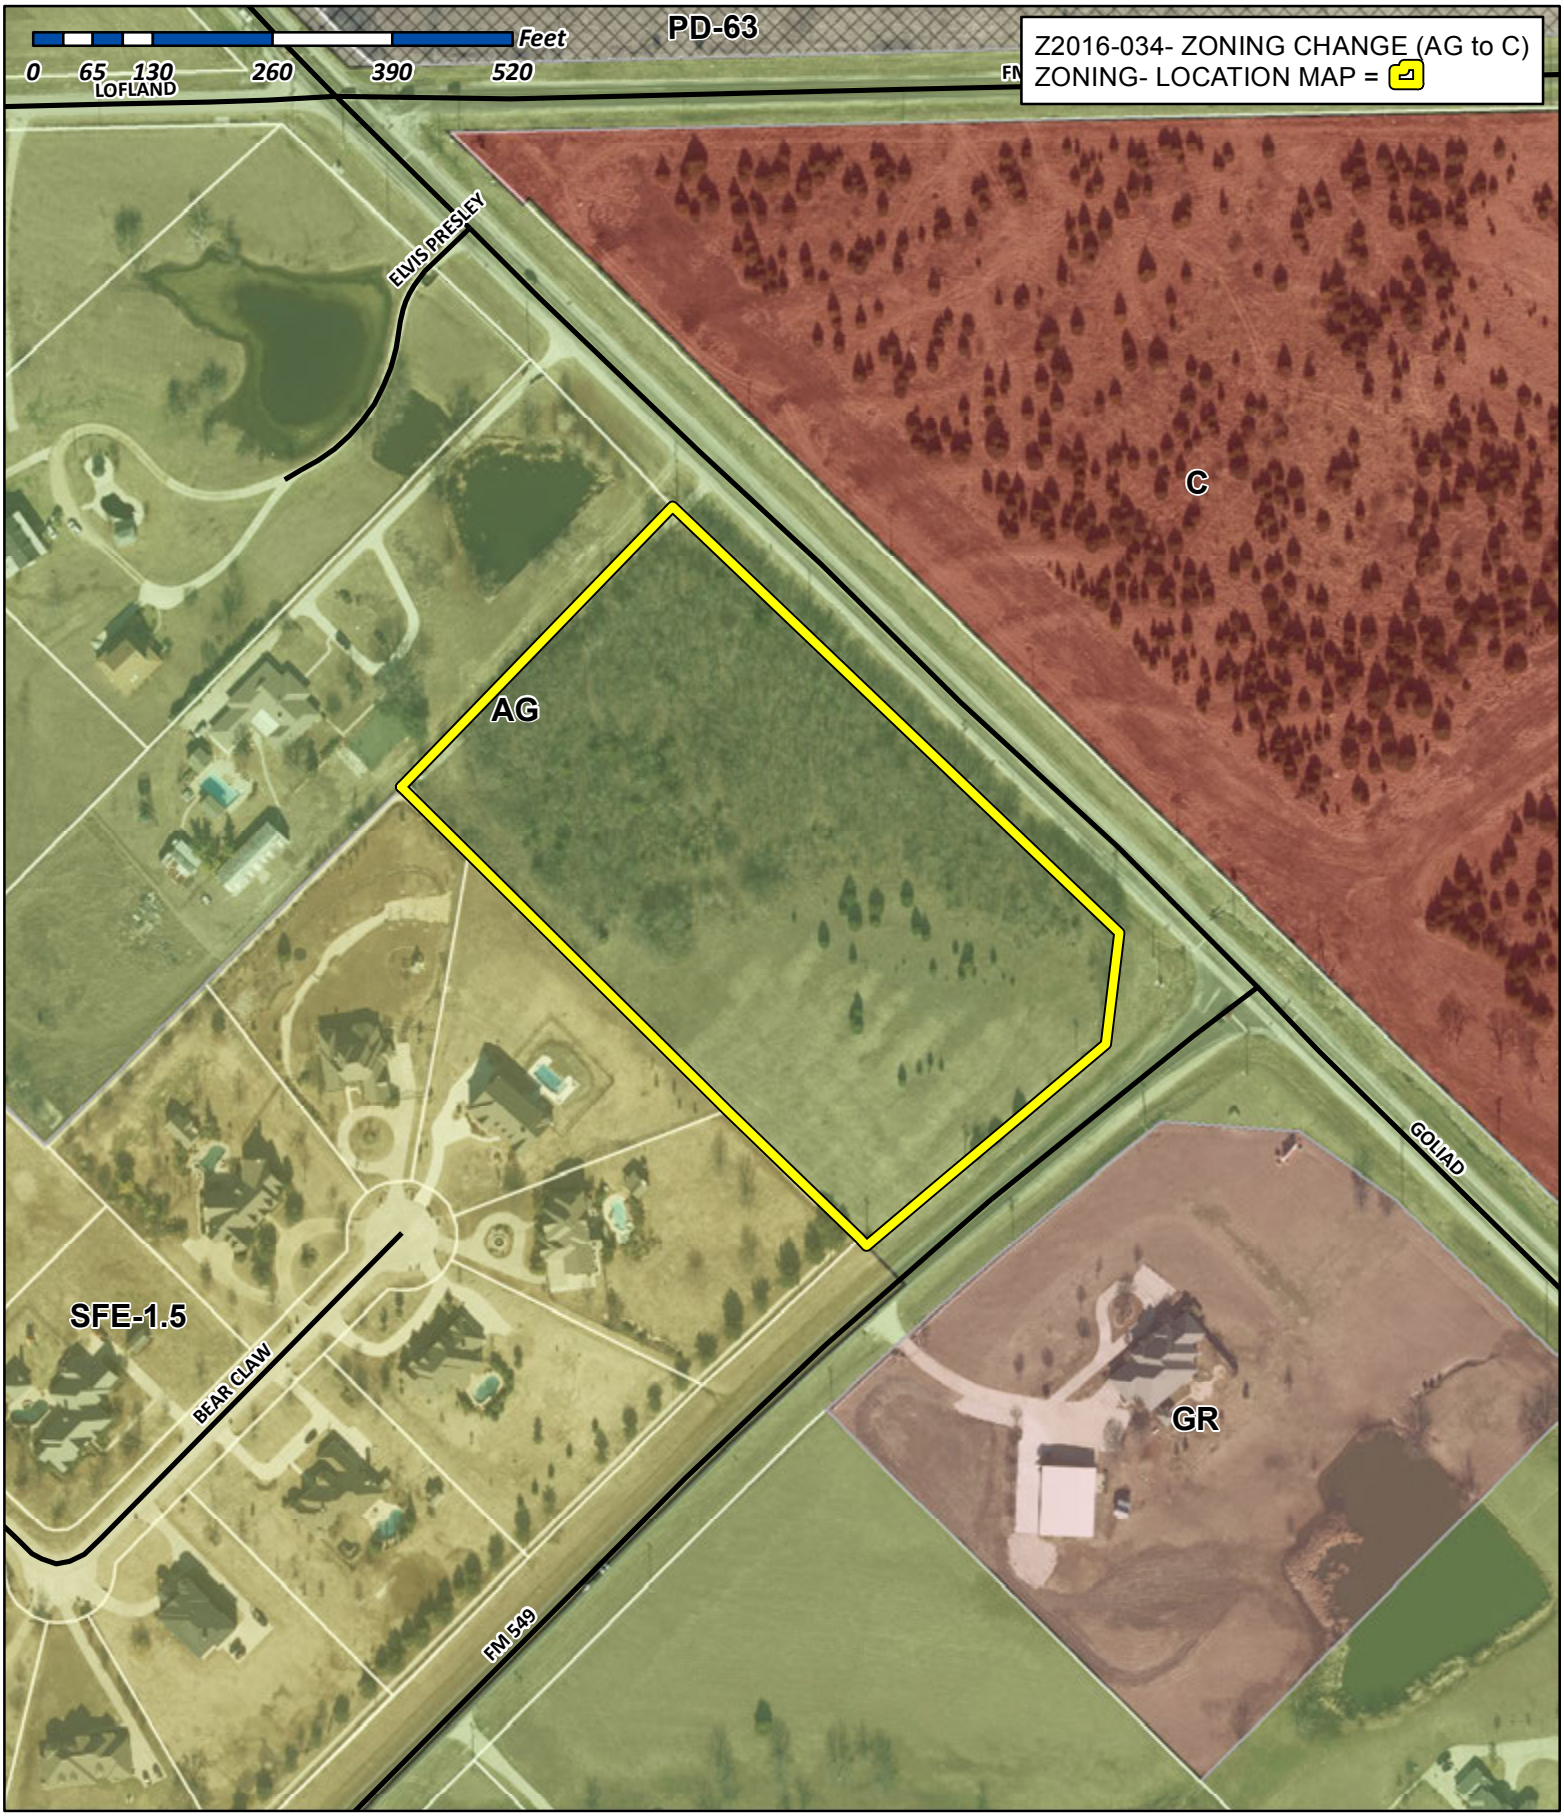
Hold a public hearing to discuss and consider a request by David Palmer of Cencor Acquisition Co., Inc on behalf of Hossain Makvandi of Home Boy Enterprises, Inc. for the approval of a zoning change from an Agricultural (AG) District to a Commercial (C) District for a 7.1692-acre tract of land identified as Tract 10-1 of the W. W. Ford Survey, Abstract No. 80, Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of FM-549 and S. Goliad Street [SH-205], and take any action necessary.

General Planning Comments to be addressed:



1. On all revised plan submittals please include the Case Number (Z2016-034) in the lower right hand corner.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the zoning change request. Most importantly, be sure tha you and/or your representative(s) are present for both Public Hearings as per the scheduled dates below. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: October 25, 2016 (6:00 p.m.)
Planning - Public Hearing: November 15, 2016 (6:00 p.m.)

City Council - Public Hearing: November 21, 2016 (1st Reading of Ordinance) [6:00 p.m.]
City Council - December 5, 2016 (2nd Reading of Ordinance) [6:00 p.m.]

SURVEY PLAT

TO ALL PARTIES INTERESTED IN PREMISES SURVEYED:

THIS IS TO CERTIFY THAT I HAVE, THIS DATE, MADE A CAREFUL AND ACCURATE SURVEY ON THE GROUND OF THE FOLLOWING DESCRIBED PROPERTY:

BEING ALL THAT CERTAIN LOT, TRACT OR PARCEL OF LAND SITUATED IN THE W. W. FORD SURVEY, ABSTRACT NO. 80, ROCKWALL COUNTY, TEXAS, AND BEING THE SAME CALLED 7.13 ACRE TRACT OF LAND CONVEYED BY DEED TO HOME BOY ENTERPRISES, INC. AS RECORDED IN VOLUME 1743, PAGE 254, DEED RECORDS, ROCKWALL COUNTY, TEXAS AND IN VOLUME 2015, PAGE 46 OF THE CORRECTION WARRANTY DEED OF THE REAL PROPERTY RECORDS OF ROCKWALL COUNTY, TEXAS, AND BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

BEGINNING AT A CONCRETE MONUMENT FOUND FOR CORNER AT THE NORTH END OF A CUT-OFF LINE AT THE INTERSECTION OF THE NORTHWEST RIGHT-OF-WAY LINE OF F.M. ROAD NO. 549 AND THE SOUTHWEST RIGHT-OF-WAY LINE OF STATE HIGHWAY NO. 205, SAID POINT BEING THE EASTERLY CORNER OF SAID 7.1692 ACRE HOME BOY ENTERPRISES, INC. TRACT;

THENCE FOLLOWING ALONG THE NORTHWESTERLY RIGHT-OF-WAY LINE OF SAID F.M. ROAD NO. 549 THE FOLLOWING:

1. SOUTH 05° 32' 15" WEST (S 6° 45' 30" W – DEED) FOR A DISTANCE OF 132.17 FEET TO A CONCRETE MONUMENT FOR CORNER;

2. SOUTH 51° 27' 16" WEST (S 52° 40' 31" W – DEED) FOR A DISTANCE OF 103.37 FEET TO A CONCRETE MONUMENT FOR CORNER SAID POINT BEING THE BEGINNING OF A CURVE TO THE LEFT HAVING A RADIUS OF 5970.76 FEET WITH A CENTRAL ANGLE OF 02° 13' 26" (02° 18' 24" – DEED) AND A CHORD BEARING SOUTH 50° 19' 27" WEST AT A CHORD DISTANCE OF 231.73 FEET;

THENCE FOLLOWING ALONG SAID NORTHWESTERLY RIGHT-OF-WAY LINE OF F.M. ROAD NO. 549 AND CURVE TO THE LEFT FOR AN ARC DISTANCE OF 231.74 FEET (232.67' – DEED) TO A 1/2" IRON ROD FOUND FOR THE SOUTHEASTERLY CORNER OF AFORESAID 7.1692 ACRE HOME BOY ENTERPRISES INC. TRACT;

THENCE NORTH 45° 21' 09" WEST (N 44° 01' 29" E – DEED) DEPARTING THE NORTHWESTERLY RIGHT-OF-WAY LINE OF F.M. ROAD NO. 549 AND PASSING THE EAST CORNER OF LOT 12 OF THE OAKS OF BUFFALO WAY ADDITION, AN ADDITION TO THE CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS ACCORDING TO THE PLAT THEREOF RECORDED IN CABINET "D", SLIDE 27 OF THE PLAT RECORDS OF ROCKWALL COUNTY, TEXAS AND CONTINUING ALONG THE NORTHEASTERLY LINE OF SAID OAKS OF BUFFALO WAY ADDITION, FOR A DISTANCE OF 710.06 FEET (711.97 FEET – DEED) TO A 1/2" IRON ROD FOUND FOR THE WESTERLY CORNER OF AFORESAID 7.1692 ACRE HOME BOY ENTERPRISES, INC. TRACT, SAID POINT ALSO BEING THE NORTHERLY CORNER OF LOT 10 OF SAID OAKS OF BUFFALO WAY ADDITION AND BEING IN THE SOUTHEASTERLY LINE OF A CALLED 4.99 ACRE TRACT OF LAND DESCRIBED IN DEED TO WILLIAM D. HOUSER AND RECORDED IN VOLUME 3272, PAGE 160 OF THE DEED RECORDS OF ROCKWALL COUNTY, TEXAS;

THENCE NORTH 44° 29' 57" EAST (N 45° 58' 31" E – DEED) AND DEPARTING THE NORTHEAST LINE OF THE OAKS OF BUFFALO WAY ADDITION AND ALONG THE SOUTHEASTERLY LINE OF SAID 4.99 ACRE WILLIAM D. HOUSER TRACT, FOR A DISTANCE OF 429.24 FEET (428.84 FEET – DEED) TO A 1/2" IRON ROD FOUND FOR CORNER IN THE SOUTHWEST RIGHT-OF-WAY LINE OF AFORESAID STATE HIGHWAY NO. 205, SAID POINT BEING THE NORTHERLY CORNER OF 7.1692 ACRE HOME BOY ENTERPRISES, INC. TRACT;

THENCE SOUTH 45° 55' 07" EAST (S 44° 41' 52" E – DEED) ALONG THE SOUTHWEST RIGHT-OF-WAY LINE OF AFORESAID STATE HIGHWAY NO. 205 FOR A DISTANCE OF 663.00 FEET TO THE POINT OF BEGINNING AND CONTAINING 7.1692 ACRES OF LAND, MORE OR LESS.

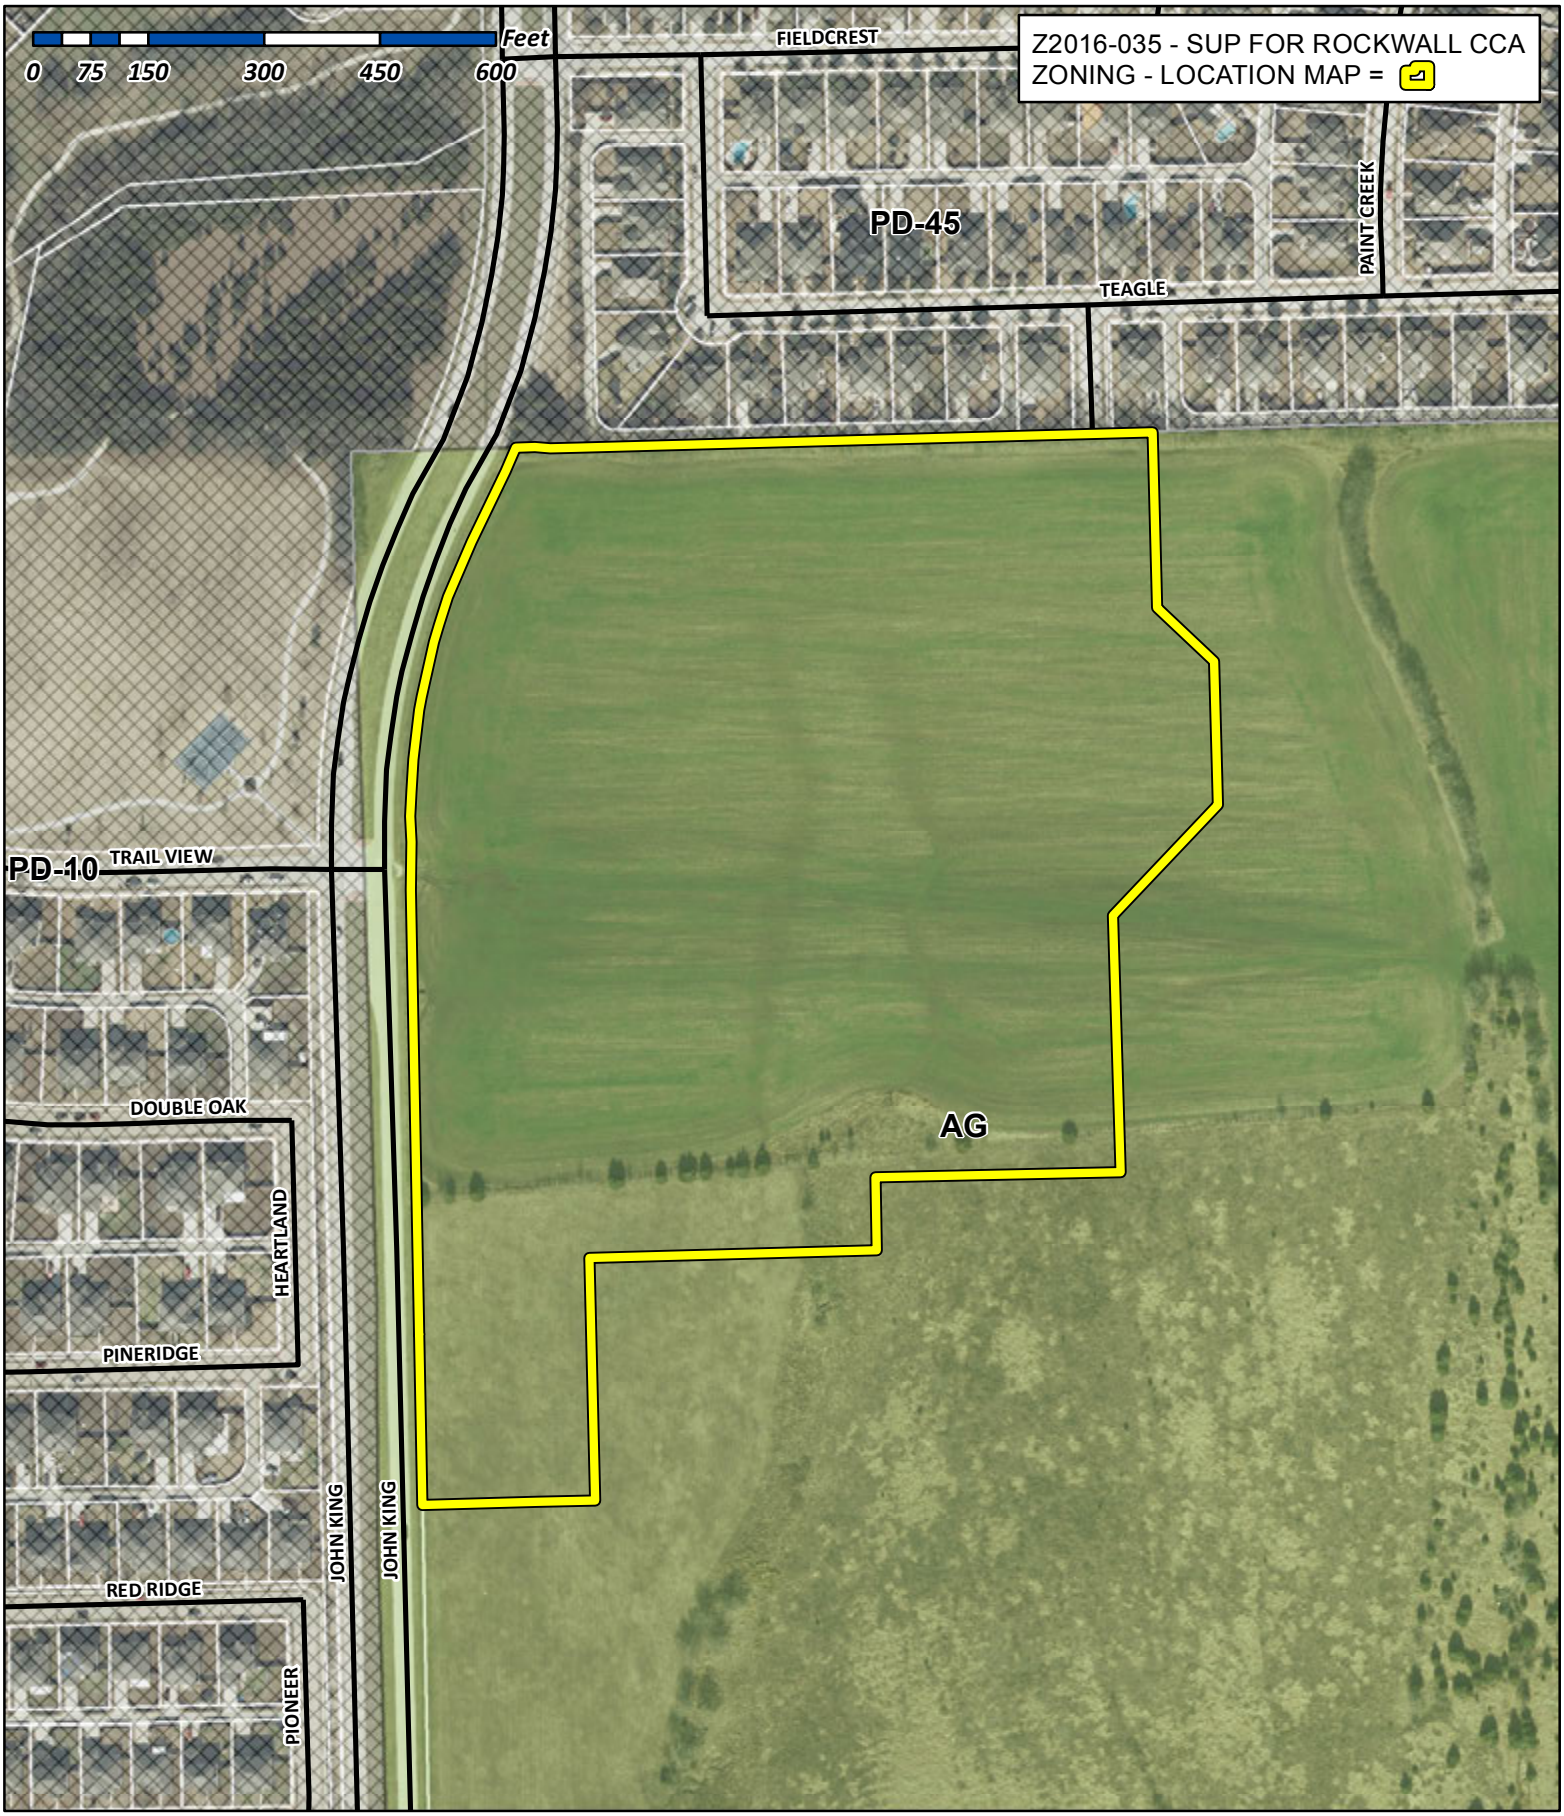
Hold a public hearing to discuss and consider a request by Robert A, Howman of Glenn Engineering Corp. on behalf of James Watson of the Rockwall Independent School District (RISD) for the approval of a Specific Use Permit (SUP) for the purpose of allowing a Public School in an Agricultural (AG) District for a 24.209-acre portion of a larger 173.0-acre tract of land identified as Tract 7-1 of the W. H. Baird Survey, Abstract No. 25, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Bypass Corridor Overlay (205 BY-OV) District, located directly east of the intersection of John King Boulevard and Trail View Drive, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, November 1, 2016. Please provide three (3) large copies [24" X 36" FOLDED] of the Conceptual Site Plan and one PDF version for a subsequent review by staff:

• On all future plan submittals please include the Case Number (Z2016-035) in the lower right hand corner.

Planning Staff General Comments/Conditions of SUP:



1. The development must meet all Fire Department, Building Inspections, and Engineering standards.
2. Submittal and approval of a site plan and final plat (mylars in house for filing purposes) are required prior to the issuance of a building permit.
3. Future expansion of the approximately 173 acre site requires a Specific Use Permit (SUP) [or amendment] for each additional phase of the development.
4. Relabel document title to read: Zoning Exhibit - Conceptual Site Plan.
5. The City Council reserves the right to review the Specific Use Permit granted herein upon the expiration of one (1) year from the date hereof.
6. Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the zoning matter. Most importantly, be sure that you and/or your representative(s) are present for both Public Hearings as per the scheduled dates below. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: October 25, 2016 (6:00 p.m.)
Planning - Public Hearing: November 15, 2016 (6:00 p.m.)

City Council - Public Hearing: November 21, 2016 (1st Reading of Ordinance) [6:00 p.m.]
City Council - December 5, 2016 (2nd Reading of Ordinance) [6:00 p.m.]

Hold a public hearing to discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (R. & R. Hance Investments, LP) for the approval of a zoning amendment to Planned Development District 79 (PD-79) [Ordinance No. 16-07] for the purpose of amending the development standards to allow front entry garages on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the zoning matter. Most importantly, be sure that you and/or your representative(s) are present for both Public Hearings as per the scheduled dates below. If you have any quesitons regarding this case, please feel free tc contact David Gonzales with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: October 25, 2016 (6:00 p.m.)
Planning - Public Hearing: November 15, 2016 (6:00 p.m.)

City Council - Public Hearing: November 21, 2016 (1st Reading of Ordinance) [6:00 p.m.]
City Council - December 5, 2016 (2nd Reading of Ordinance) [6:00 p.m.]

Hold a public hearing to discuss and consider a request by Douglas F. DeMarco on behalf of John G. Robertson for the approval of a zoning change from an Agricultural (AG) District to a Commercial (C) District for a 23.27-acre tract of land identified as Tract 2-28 of the J. R. Johnson Survey, Abstract No. 128, Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2922 S. Goliad Street [SH-205], and take any action necessary.

General Planning Comments to be addressed:

1. On all revised plan submittals please include the Case Number (Z2016-037) in the lower right hand corner.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the zoning matter. Most importantly, be sure that you and/or your representative(s) are present for both Public Hearings as per the scheduled dates below. If you have any quesitons regarding this case, please feel free to contact David Gonzales with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: October 25, 2016 (6:00 p.m.)
Planning - Public Hearing: November 15, 2016 (6:00 p.m.)

City Council - Public Hearing: November 21, 2016 (1st Reading of Ordinance) [6:00 p.m.]
City Council - December 5, 2016 (2nd Reading of Ordinance) [6:00 p.m.]

Gonzales, David

Subject: FW: Re-zoning request for Rockwall Indoor Sports Expo

David,

Rockwall Indoor Sports Expo ("RISE") requests to have its property rezoned from the current Agriculture designation to a Commercial designation. The only purpose for this modification is to allow for a Special Use Permit (SUP) permitting installation and use of 60 foot light posts and lights for our baseball complex. The addition of these lights would provide RISE the opportunity to better serve the baseball community. RISE currently provides a low cost alternative to more expensive private facilities. These lights would allow RISE to provide our outdoor baseball facilities after dark, thereby increasing the hours of usage on a daily basis. This would also allow for sanctioned baseball tournaments. RISE would fully adhere to light pollution restrictions and curfews. Our baseball complex once had 30 foot lights which were lost in a storm. It's been determined that 60 foot light replacements are the only safe alternative because shorter lights are blinding to the players and not sanctioned. We respectfully request that Rockwall city allow us the opportunity to serve the community in a more efficient manner.

P.S. David, would it be more efficient for the SUP to be adjudicated in parallel with the zoning request. This would speed the process and provide context to the zoning request for those charged in this determination.

Thank you for your consideration.
Cheryle deMarco
Owner/operator of RISE

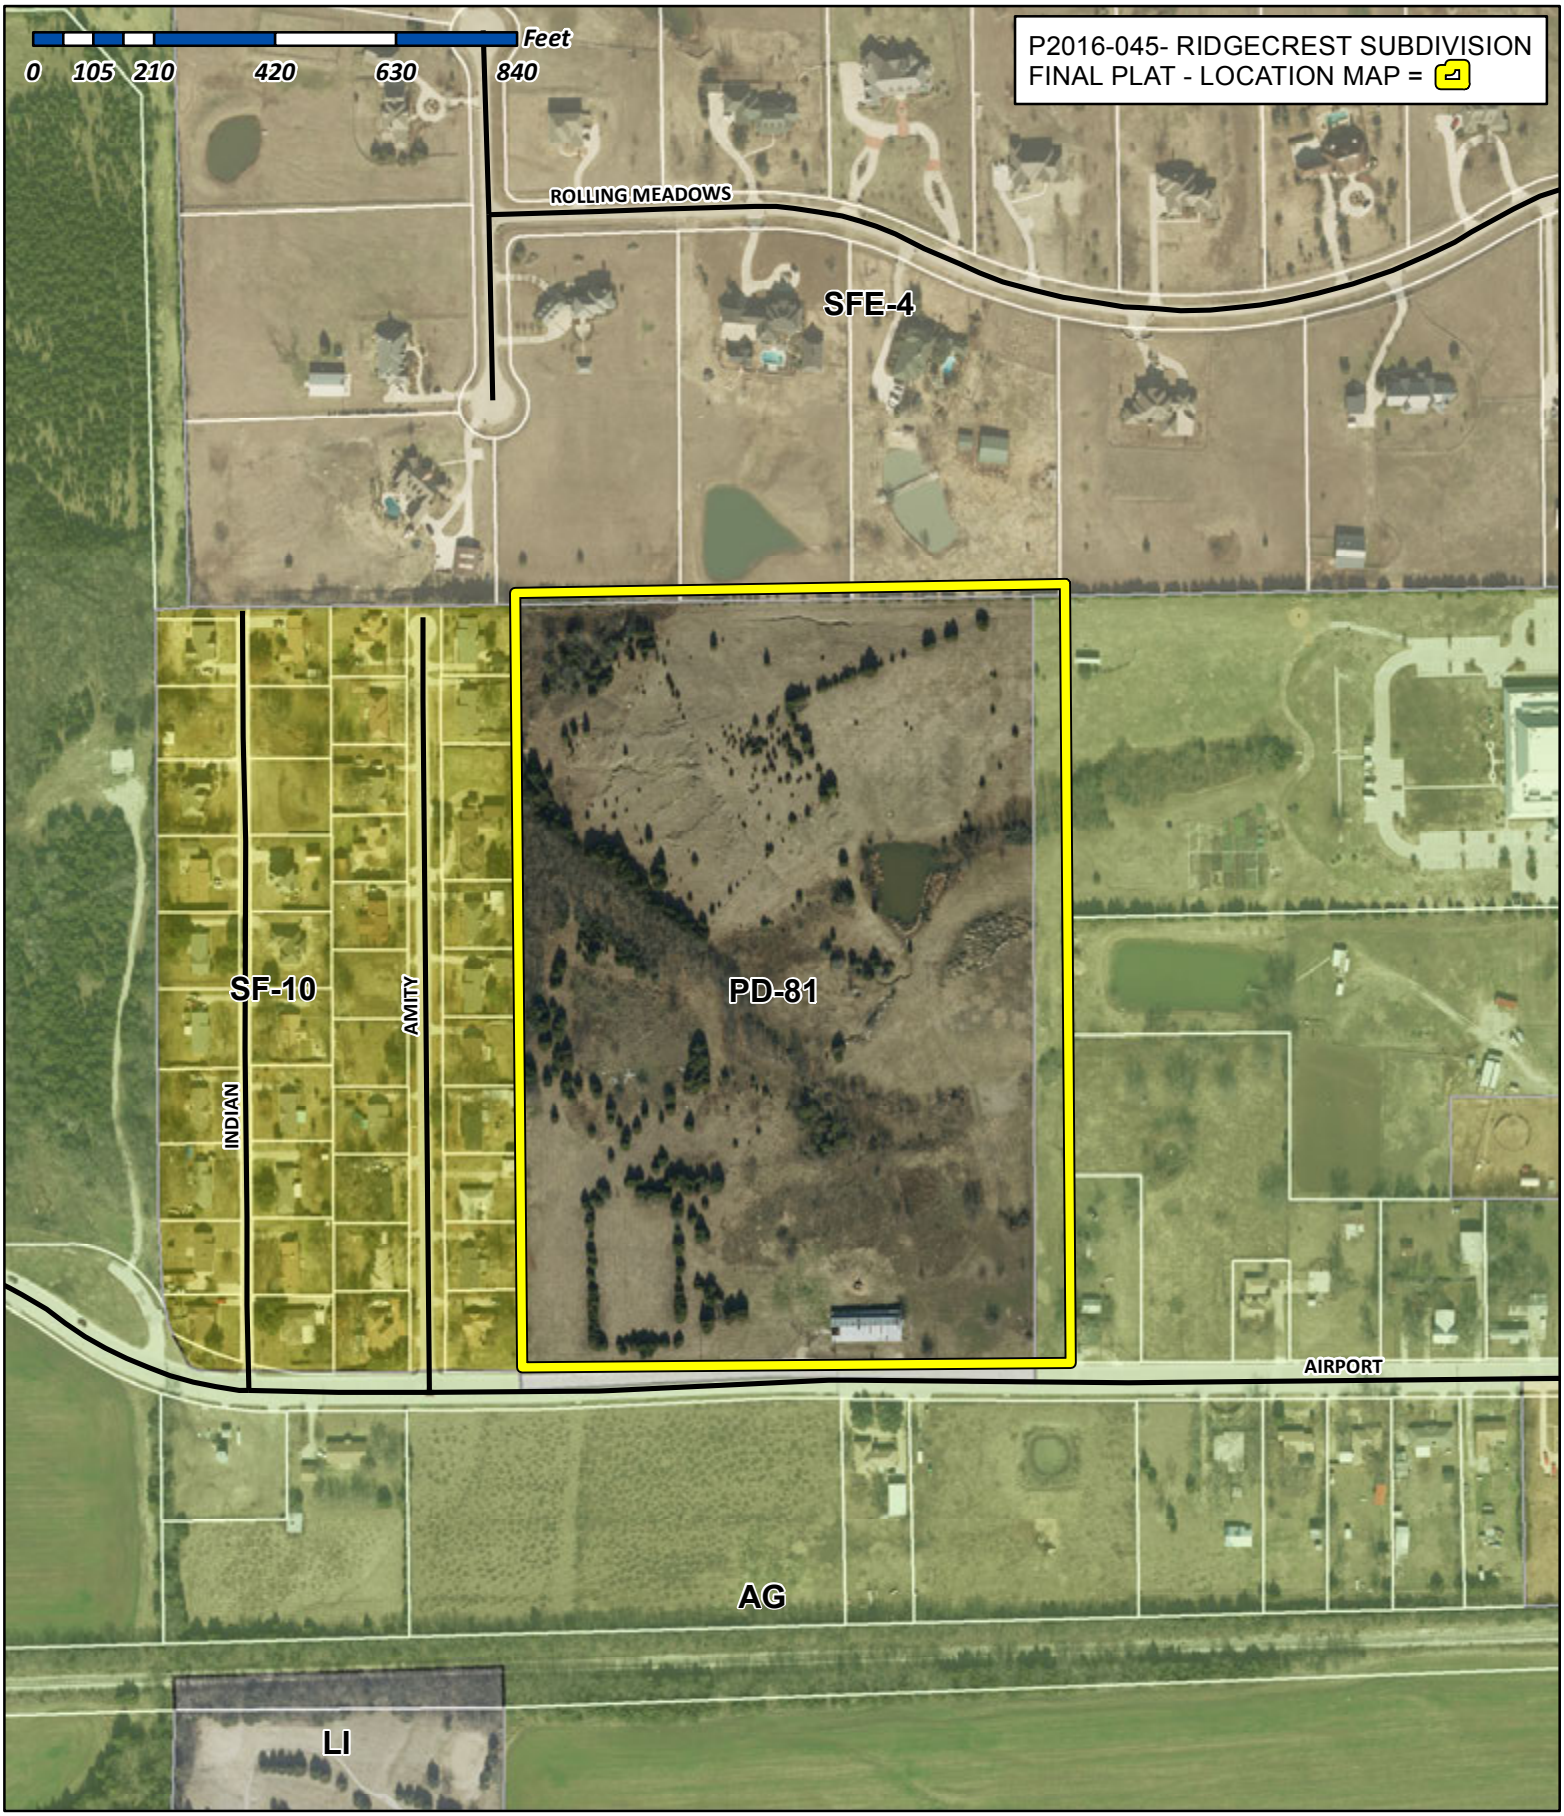
P2016-045 Ridgecrest Subdivision Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of Ridgecrest SF, LTD. for the approval of a final plat for the Ridgecrest Subdivision creating 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.



M.3 For reference, include the case number (P2016-045) in the lower right hand corner of all pages on future submittals.

M.4 Please show the street centerline for Airport Road.

M.6 Will the deed to the property be filed before this goes to City Council? If not, the Church will have to sign the plat.

I.6 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by November 1, 2016. The Park Board Meeting is November 1, 2016. The Planning & Zoning Worksession date for this case will be October 25, 2016. The Planning and Zoning Meeting for this case is November 15, 2016.

I.7 The City Council meeting date and subsequent approval for this plat is November 21, 2016.

OWNER'S CERTIFICATE

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:
STATE OF TEXAS
COUNTY OF ROCKWALL
We the undersigned owners of the land shown on this plat, and designated herein as the RIDGECREST, subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the RIDGECREST, subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following:

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. The detention drainage system is to be maintained, repaired and owend by the subdivision.

7. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

P2016-046 Breezy Hill Phase VII Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Balance I LLC for the approval of a final plat for Breezy Hill, Phase VII creating 10 single-family residential lots on 6.802-acres of land identified as Tract 7-10 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single Family 10 (SF-10) District land uses, situated within the 205 By-Pass Corridor Overlay (205 BY-OV) District, located at the northeast corner of N. John King Boulevard and Cozy View Drive, and take any action necessary.

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2016-046) in the lower right hand corner of all pages on future submittals.

M.4 Please add note "John King is indicated as a Principle 6-lane divided highway on the City's Master Thoroughfare Plan."

I.5 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by November 1, 2016. The Park Board Meeting is November 1, 2016. The Planning & Zoning Worksession date for this case will be October 25, 2016. The Planning and Zoning Meeting for this case is November 15, 2016.

I.6 The City Council meeting date and subsequent approval for this plat is November 21, 2016.

BEFORE ME, the undersigned, a Notary Public in and for the State of Texas, on this day personally appeared WARREN L. CORWIN, known to me to be the person whose name is subscribed to the foregoing instrument and acknowledged to me that he executed the same in the capacity therein stated and for the purposes and considerations therein expressed.

WITNESS MY HAND AND SEAL OF OFFICE, this the_____day of _____, 2016.

_____
Notary Public in and for the State of Texas

OWNER'S CERTIFICATE

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:
STATE OF TEXAS
COUNTY OF ROCKWALL
We the undersigned owner"s" of the land shown on this plat, and designated herein as the BREEZY HILL PHASE VII, subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the BREEZY HILL PHASE VII, subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following:

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips: and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall: or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done: or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City: we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

(10/21/2016 9:40 AM KB)
SP2016-024 Ridgecrest Subdivision Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of Ridgecrest SF, LTD. for the approval of a site plan for the Ridgecrest Subdivision containing 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (SP2016-024) in the lower right hand corner of all pages on future submittals.
I.4 This site plan in being reviewed concurrently with a Tree Mitigation Plan [MIS2016-009] and a Final Plat [P2016-045]
M.5 Please show water and sewer easements. Also, please do this on the Tree Mitigation Plan.
M.6 Please remove all trees that are in the 15' Water and Sewer Easements and add to your landscaping for mitigation. Also, please do this on the Tree Mitigation Plan. Once these trees are identified, we will be able to determine if these are feature trees that require P&Z approval.
M.7 Please add an additional "Concept Landscape Plan" but change the title to Site Plan. This way, the set will include a "Site Plan", "Landscape Plan", Tree Preservation Plan", and "Tree Preservation Data"
I.8 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by November 1, 2016. The Park Board Meeting is November 1, 2016. The Planning & Zoning Worksession date for this case will be October 25, 2016. The Planning and Zoning Meeting for this case is November 15, 2016.

    - ✓ Z2016-032: Amendment to PD-74 (*2nd Reading*) [*Approved*]

ADJOURNMENT

TRAINING SESSION

15. *Planning and Zoning Commission Training Session*
    A work session with the GIS Department will be held in the City Council meeting room immediately following the adjournment of the November 15, 2016 Planning and Zoning Commission work session meeting.

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator of the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 11th day of November, 2016 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MINUTES

PLANNING AND ZONING COMMISSION PUBLIC HEARING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
October 11, 2016
6:00 P.M.

I. CALL TO ORDER

Chairman Craig Renfro called the meeting to order at 6:00 p.m. The Commissioners present at the meeting were, Johnny Lyons, Patrick Trowbridge, Annie Fishman, Mark Moeller, Sandra Whitley, and Tracey Logan. Staff members present were Planning Director, Ryan Miller, Senior Planner, David Gonzales, Planner, Korey Brooks, Planning Coordinator, Laura Morales, Assistant City Engineer, Amy Williams, Civil Engineer, Jeremy White and Fire Marshall, Ariana Hargrove.

II. CONSENT AGENDA

1. Approval of Minutes for the September 27, 2016 Planning and Zoning Commission meeting.

2. P2016-043

Discuss and consider a request by Jay Webb of Dalrock Homes, LLC for the approval of a final plat for Lots 1-10, Block A, Estates on the Ridge Subdivision, containing ten (10) single-family residential lots on an 18.84-acre tract of land identified as Tract 7-04 & 23 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, situated within the City of Rockwall's Extraterritorial Jurisdiction (ETJ), located at the northwest corner of the intersection of FM-3549 and Cornelius Road, and take any action necessary.

Commissioner Lyons made a motion to approve the consent agenda. Commissioner Trowbridge seconded the motion which passed by a vote of 7-0.

III. APPOINTMENTS

3. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

Chairman Renfro stated the item would be discussed at the time site plans that were reviewed by the Architectural Review Board come up on the agenda.

IV. PUBLIC HEARING ITEMS

4. Z2016-030

Hold a public hearing to discuss and consider a request by James Shaw for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4692-acre parcel of land identified as Lot 14, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1910 Copper Ridge Circle, and take any action necessary.

Planner, Korey Brooks, gave brief explanation of request stating the applicant is requesting the approval of a Specific Use Permit to allow for an accessory building that does not meet the minimum requirements as stipulated by the UDC. The applicant is proposing to construct a metal building that that will be 30-feet by 40-feet or approximately 1,200 sq. ft. According to the UDC, in an SFE/1.5 District, a single accessory building no larger than 1,250 sq. ft. and 15-feet in height or less, provided the exterior materials contains the same materials as found on the main structure is allowed; in this case the main structure is clad in brick. The proposed accessory building conforms to the size requirement, however, the applicant is requesting an exception to the height requirement to allow for an accessory building that is 20-feet in height, approximately 5-feet taller than the allowed maximum height in an SFE/1.5 District, as well as the masonry requirement to construct an accessory building out of a steel building system with a standing

seam metal roof. Additionally, the accessory building will be located behind the main structure and not visible from the street.

Mr. Brooks went on to state that staff mailed 33 notices to property owners and occupants within 500-feet of the subject property as well as the Lofland Farms and Timber Creek Estates HOA's. Staff received one notice in favor of the request.

Chairman Renfro asked the applicant if he had anything additional to add or wished to speak, the applicant indicated he did not.

Chairman Renfro opened up the public hearing and asked if anyone who wished to speak to come forward and do so, there being no one indicating such, Chairman Renfro closed the public hearing and brought the item back to the Commission for discussion.

Commissioner Lyons made a motion to approve the item with staff recommendations. Commissioner Fishman seconded the motion which passed by a vote of 7-0.

5. Z2016-031

Hold a public hearing to discuss and consider a request by Kasey Weadon of New Craft Brewing, LLC on behalf of the owner Benbrooke Ridge Partners, LP for the approval of an amendment to Planned Development District 1 (PD-1) for the purpose of allowing the *Brewery or Distillery (Excluding Brew Pub)* land use in the Planned Development District, being identified as ~39.5249-acre tract of land situated in the B. J. T. Lewis Survey, Abstract No. 255 and the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, situated within the Scenic Overlay (SOV) District, located on the eastside of Ridge Road south of the intersection of Ridge Road [*FM-740*] and SH-205, and take any action necessary.

Planning Director, Ryan Miller, gave brief description of request stating that the Planned Development District 1, which is south of the intersection of Ridge Road and South Goliad, has been around since 1971 and was originally approved for General Retail District Land Uses, however it wasn't adopted to the Unified Development Code until January 3, 1972. Since then it had updates in 1983, 2002 and 2012 and as of today it allows for a mixed commercial and residential uses. It is broken into three pieces and the piece that is being discussed is called Area 1 and includes the old Brookshire's it is the Ridge Road Shopping Center. Kasey Weadon of New Craft Brewing is requesting to amend this area of Planned Development District 1, specifically to add the brewery or distillery land use but does exclude brew pubs. That is the only change that is being considered. They are proposing to allow this by a Specific Use Permit and currently the use is only allowed by right in the Light Industrial and Heavy Industrial Districts and this is pretty typical of the use, until recently it was considered to be more of a manufacturing type of use however with changes from the Texas Alcohol Beverage Commission over the last couple of years, the use has somewhat changed. What is being considered is to add this use into the General Retail District. It will not allow any other uses or will it be making any other changes to the Code it would only be allowing this use to be included into Planned Development District 1.

Mr. Miller went on to explain that changes that the TABC put forward allow craft breweries the ability to open up a tasting room or tap room which is essentially used in the same manner that a vineyard would use a tasting room. It also set up limitations to the hours of operation. It allows these businesses to operate between 8 am and 12am Monday thru Saturday and 10am to 12 am on Sundays which does match the City's current ordinance for alcohol related businesses. In addition by allowing it by a Specific Use Permit, it gives the Planning and Zoning Commission and City Council the ability to review these requests on a case by case basis. What that means for the applicant is that if the City Council approves the request, he will be required to submit a Specific Use Permit for his specific use on this property.

Mr. Miller added that on September 30, 2016, staff mailed 176 notices to property owners and residents within 500-feet of Planned Development District 1 and also emailed notices to the Turtle Cove and Waterstone Estates Homeowner's Associations and the Southside Residential Neighborhood Organization, which are the only neighborhood groups located within 1,500 feet of the subject property. Of the 176 notices sent, staff has received 2 responses in favor of the request.

Chairman Renfro asked for questions from the Commission for staff.

Commissioner Fishman asked if there was going to be a time limit determined on the Specific Use Permit, or would that come at a later time. Mr. Miller stated that the Specific Use Permit will allow the Commission to set operational conditions for the specific use, at this time the only thing that is being decided is whether to allow the use in Planned Development District 1 by Specific Use Permit.

Chairman Renfro asked if regulating hours would be something the Commission would do at this time. Mr. Miller stated it would not, that would be done during the Specific Use Permit request.

Chairman Renfro asked the applicant to come forward.

Kasey Weadon
1201 Ridge Road
Rockwall, TX

Commissioner Lyons asked if they would be manufacturing and distributing the product. Mr. Weadon stated they would be manufacturing and distributing. They have a loading dock in the back. In the tasting room is where people would be able to sample what they are seeing manufactured.

Commission Lyons asked what the reason behind choosing the location since it would be between a fitness gym and an MMA Dojo. Mr. Weadon stated the footprint fits to what they are looking to use it for.

Commissioner Trowbridge asked how much retail versus wholesale. Mr. Weadon stated it would not be much retail, as they are mainly manufacturing the product.

Commissioner Lyons asked concerning safety would there be any risk of anything being combustible. Mr. Weadon stated there are safety measures in place with their equipment to avoid that.

Commissioner Whitley asked about their market plan since they are not selling the product there how does it impact the community in terms of sales. Mr. Weadon stated their product will be in restaurants in Rockwall where beer on tap is sold.

Chairman Renfro opened the public hearing and asked if anyone wished to speak to come forward and do so. There being no one indicating such, Chairman Renfro closed the public hearing and brought the item back for discussion.

Commissioner Lyons expressed concern of allowing this use at this location.

Commissioner Trowbridge made a motion to approve the item with staff recommendations. Commissioner Fishman seconded the motion, which passed by a vote of 6-1 with Commissioner Lyons dissenting.

6. Z2016-032

Hold a public hearing to discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of BH Balance IV, LLC for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan to allow for additional single-family residential lots and for the purpose of incorporating changes to the development standards contained in Exhibit 'C' of *Ordinance No. 14-26* for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, Texas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary.

Planning Director, Ryan Miller, provided a slide summary of location and gave brief explanation of request stating this is an amendment to PD-74 which is identified as the Breezy Hill Subdivision located on the northeast corner of John King and FM552. Currently the Planned Development District allows for 33.7 acres of retail, the applicant has submitted an application

requesting to amend Planned Development District 74 to approve an alternate concept plan and development standards. Specifically, the applicant is requesting to reduce the number of acres designated for retail land uses from 33.7-acres to 19.44-acres for the purpose incorporating an additional residential phase that will be composed of 60' x 120' lots. The applicant did propose 50 foot lots earlier this year and that did go through the process with Planning and Zoning's recommendation of 60 foot lots and it did go up to City Council but the applicant requested to withdraw the case. They have now brought the request back with 60 foot lots the proposed new lot type and the proposed changes to the lot mix, the total number of single-family lots will be increased from 742 to 776. That will have a net effect on the overall lot types. Mr. Miller referenced page two of the Commission's packet that shows the proposed lot mixes. Lot type A which is the 60 foot lots will be decreased by 20. Those 20 lots are moving to Lot type E and increased by another 20. The applicant is also proposing to increase lot type B which is the 7x120 by 5 lots and Lot type D which is the lager lot 100x200 by 9 lots. This has an added effect on the overall density increasing it from 2.0 units per acre to 2.02 units per acre.

Mr. Miller went on to state that in looking at the Comprehensive Plan, should the Commission chose to send this forward, the Commission would also be sending forward a recommendation to change the Comprehensive Plan designation from a Commercial Designation to a Low Density Residential and that has been added as a condition of approval.

Mr. Miller added that staff mailed 363 notices to property owners and residents within 500-feet of the subject property and also emailed a notice to the Stoney Hollow and Breezy Hill Homeowner's Associations, which are the only HOA's located within 1,500 feet of the subject property. At the time this case memo was drafted staff received five responses against the request.

Mr. Miller stated the applicant was present and staff was available for questions.

Chairman Renfro asked for questions from the Commission for staff.

Commissioner Trowbridge asked concerning PD80 that is depicted on the map, if that is a Single Family development or a Commercial Development. Mr. Miller stated that is a Single Family Development.

Mr. Miller further added that the applicant is requesting a front entry product and at the previous work session the Commission asked the applicant to come back at this meeting with a certain percentage of front entry and j-swing. The applicant is proposing a 50/50 split that would be 20 lots with the ability to have j-swing and 20 lots with the ability to have front entry.

Chairman Renfro made mention of a comment on one of the letters that were received in opposition of the request that expressed concern of a meeting that took place with the developer and builder. Mr. Miller referred that question to the applicant to answer and or explain.

Chairman Renfro asked the applicant to come forward and speak.

Noah Flabiano
Skorburg Company
8214 Westchester Suite 710
Dallas, TX

Mr. Flabiano came forward and gave a brief summary of the request and provided a power point that gave a brief history of the subdivision and the development. In 2007 there was the 212 Agreement in place that had some entitlement power the same 2.0 units per acre, 20% open zoned Single Family for this particular subject property which per the agreement allowed for 810 units. In 2009 the 55 acres, per Councils direction was for commercial. In 2012 the school site was removed and the zoning was changed to Single Family where the school was set to be. In 2014 26 acres on the east side of the commercial tract was rezoned leaving 33.7 acres which is what they are looking to reduce to 19.44 acres to incorporate the additional residential phase for forty 60x120 foot lots. They feel they have owned this commercial tract for quite some time and are looking to sell. He went on to show slides of product types and lot mixes. They are requesting for up to 50% of the lots to be front entry only. At this time it is not decided the amount that would be front entry it is just up to 50% it may be less than that. They also have put

in a prevision after a neighborhood meeting last week that no two houses on the same side of the street can have front entry. They feel the commercial squared off will be more efficient.

Chairman Renfro asked the Commission for questions or discussion.

Commissioner Logan asked for better understanding concerning the amount of lots that were allowed per the 212 agreement and how that number has changed.

Adam Buzcek
Skorburg Company
8214 Westchester Suite 710
Dallas, TX

Mr. Buzcek came forward and stated he could better answer since he was here during that time. He stated the 212 agreement established 2 units per acre density on the overall tract. He added that at Council's direction the 55 acres were zoned commercial with the understanding that if the market did not end up warranting that much commercial it could be rezoned to decrease the size of the commercial. It would be 10 acres in the back which is an off piece and would square off what would be left of the commercial.

Commissioner Trowbridge asked if Skorborg Company develops commercial property or do will it be sold. Mr. Buzcek stated they have developed some over the years, but have not done any vertical commercial in the last 14 years that he has been with the company; essentially they are a single family development company and will be selling to a third party commercial developer.

Chairman Renfro opened the public hearing and asked anyone who wished to come forward to speak to come forward.

Bruce Clark
313 Shenandoah Lane
Rockwall, TX

Mr. Clark came forward and stated details concerning his career, which he stated he was a planner for close to 50 years and therefore feels he is familiar with the planning process. He stated that his property abuts part of the Skorburg property further down on John King Blvd.
He feels that most of the commercial development has occurred near FM 552 and SH-205 and therefore there is not really a need for a big commercial at this location. He added that he is in favor of the request and feels it is a good move to reduce the commercial in favor of more residential lots and they produce a good product and will be an added asset for the area.

Stan Parks
998 Calm Crest
Rockwall, TX

Mr. Parks came forward and stated there was HOA meeting that took place with the developer last week and in his opinion as well as others that attended that meeting there was a support for the effort to switch from commercial to single family homes. The opposition from mainly all in attendance at the meeting was specific to the front entry drive. He feels it will take up most of the front yard and won't allow for much of a yard. That type entry depicts more of a townhome development rather than a single family home. And although there will be the provision of not having two homes on the same side of the street with front entry still feels the final product will be ending up with one side of the development completely different than the other. He is in opposition of the three front entry drives, although he is in support of the reduction in commercial to add the additional residential.

Bob Wacker
806 Mira Mar Drive
Rockwall, TX

Mr. Wacker came forward and stated he is in favor of the request. He feels the market is calling for the 60 foot lot product and feels there is already enough commercial in that area. Although he questions if 3 front entry can be built on 60 foot lots.

Chairman Renfro asked the applicant to come forward for rebuttal and any additional comments they wish to make.

Mr. Buzcek came forward and added that they will be able to build the 3 front entry on the 60 foot lots.

Commissioner Lyons asked how big the front yards will be on the 60 foot lots with the 3 front entry garages. Mr. Buzcek stated it will be the same setback the building will be the same as at they are building now with a 20 foot front setback, the only difference will be instead of it having to be the side of the garage it can be a/c square footage area. The actual streetscape in terms of where the building will be will be the same setback.

Commissioner Whitley asked for clarification if only 50% are front access, would the other 50% be j-swing and would that mean they all will have the driveway in the front. Mr. Buzcek stated the 50% that's not only front entry will be identical to category A. Mr. Miller added that in addition to j-swing they're allowed to have a garage that's recessed 20 feet behind the front façade of the house. They can have a forward facing garage, it just has to be recessed and the reason that is required is to require an additional 20 feet of setback between the garage and the street.

Commissioner Logan asked would there be any 3 bay wide in the combination of j-swing and front entry. Mr. Buzcek stated they have plans where there could be 3 or a 2 and 1 with 2 doors facing the garage and provided slide pictures showing the different options.

Chairman Renfro closed the public hearing and brought the item back to the Commission for discussion.

Commissioner Trowbridge expressed concern of the economic impact of the land use.

Commissioner Moeller expressed concern with changing the land use map.

General discussion took place concerning if it would be a good fit to the area and pros and cons.

Commissioner Moeller made motion to approve with staff recommendations. Commissioner Fishman seconded the motion, which passed by a vote of 7-0.

7. P2016-040

Hold a public hearing to discuss and consider a request by Chad & Lindsay Hudson for the approval of a replat for Lots 7 & 8, Block A, Independence Pass Addition being a replat of a 1.4-acre parcel of land identified as Lot 5, Block A, Independence Pass Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) for single family land uses, addressed as 107 Independence Place, and take any action necessary.

Planner, Korey Brooks, advised the Commission that they were given an amended case memo, a letter from the applicant and photos of the property. He stated that the applicant is requesting to replat one 1.4-acre lot into two 0.70-acre lots for the purpose of subdividing one lot into two lots to build a single family home on each lot. The applicant currently has a play set as a standalone structure on one of the lots and has provided a letter indicating that on March 21, 2016 the property was granted a variance by the Chandlers Landing Community Association to allow for the play set as a stand-alone structure on a lot with the condition that the foundation slab for the residence must be in place within one year of the Board Meeting. Additionally the applicant is proposing a front yard fence and according to the UDC it states that no fence shall be constructed in the required front yard of a residentially zoned area without first being granted a special permit by the City Council. The City Council approved a request on April 2, 2012 for a 48-inch, wrought iron fence to be constructed in the front yard of the property located at 107 Independence Place. However, at time of approval, the subject property contained all 1.42-acres. Should the Planning and Zoning Commission and City Council approve the replat as submitted, this would essentially approve a front yard fence on two properties, 107 Independence Place and 108 Independence Place therefore this issue makes the approval of this replat a discretionary decision for the Planning and Zoning Commission and City Council.

Mr. Brooks added that on October 1, 2016, staff mailed one notice to property owners and occupants within 200 feet of the subject property and located within the Independence Pass Subdivision. Staff did not receive any notices returned.

Chairman Renfro asked the applicant to come forward.

Chad Hudson
422 Colombia Drive
Rockwall, TX

Mr. Hudson came forward and stated he has been a resident of Rockwall since 2000 and has lived in Chandlers Landing since 2003 and has owned the subject property since 2006. He and his wife planned on building on it, and initially subdivided it into three lots. The private security fence goes around the entire project and they tied into Chandlers Landing existing fence. The front yard fence was installed in 2012 and a shared access is in place. After designing the house Mr. Hudson and his wife decided they will live at 107, there are already three water meters in place, and they want to take up two of the lots. It is 1.4 acres and they would like to keep the shared driveway, have .7 for their house and .7 for an additional house at some point. He is asking for a variance for the front yard fence.

Mr. Miller added that all front yard fences in the City of Rockwall are required to go to the City Council for approval. City Council did approve a front yard fence in 2012 for this property as one lot, one property. However, now that the applicant is replatting the property, and although the plat meets the technical requirements, what makes it discretionary to the Planning and Zoning Commission and City Council is that he would be subdividing it creating two lots with two front yard fences.
Chairman Renfro asked what the pros/cons would be for them to consider the variance, is it visual appeal or a safety issue. Mr. Miller stated that the reason the ordinance is in place is to review front yard fences on a case by case basis based on the area they're in, adjacent properties, visual appeal and those are discretionary to the City Council.

Commissioner Lyons asked what is changing from going from one lot to two since the fence is already in place and wouldn't look any different whether it would be on one or two lots. Mr. Hudson stated the fence would not look any different even if three houses were built on the lot.

Mr. Hudson added that the accessory building, play set, was put there for their two daughters to play while he and his wife worked on the property. Initially Chandlers did have a problem with it, but after appealing to them the Board just asked that they put a slab in place and they will have a foundation within a year.

Chairman Renfro asked staff if that would be part of the request. Mr. Miller stated that is between the HOA and the applicant and is not part of the replat request.

Chairman Renfro opened up the public hearing and asked if anyone who wished to speak to come forward and do so, there being no one indicating such, Chairman Renfro closed the public hearing and brought the item back to the Commission for discussion.

Commissioner Lyons made a motion to approve the item with staff recommendations. Commissioner Logan seconded the item by a vote of 7-0.

V. ACTION ITEMS

8. P2016-044
Discuss and consider a request by Chris Cuny, P.E. of FC Cuny Corporation for the approval of a reinstatement request for the preliminary plat for the Fontanna Ranch Addition in accordance with *Section 38-8(f)* of the Subdivision Ordinance contained in the Municipal Code of Ordinances, and being an 27.89-acre tract of land, zoned Planned Development District 67 (PD-67),
take any action necessary.

Senior planner David Gonzales gave brief explanation of request stating that this was approved by City Council in 2006 as a preliminary plat, and generally what happens after that is the

developer submits a final plat or engineering plans for any portion of the overall tract, and continues to submit subsequent plans for additional phases of the development and they have one year to get that done. However, in this case that did not happen and that is the reason for the request. Phase III of the Fontanna Ranch represents the final phase for the Fontanna Ranch Subdivision and essentially they have not changed anything as far as the general layout of the preliminary plat and because of that and the concept plan that was approved with the PD, staff would recommend the approval of the reinstatement for the one year to allow them to submit engineering and final plat for the property and begin development.

Mr. Gonzales advised the Commission the applicant was not present but staff was available for questions.

Chairman Renfro asked for questions or discussion from the Commission.

Commissioner Moeller made a motion to approve the item with staff recommendations. Commissioner Lyons seconded the motion which passed by a vote of 7-0.

9. SP2016-019

Discuss and consider a request by Kevin Patel, P. E. on behalf of William Shaddock of Master Developers-SNB, LLC for the approval of a site plan for a daycare facility on a 2.960-acre tract of land identified as Lot 1, Block S, Preserve, Phase 3 Addition and Tract 12 [*1.4376-acres*], A. Hanna Survey, Abstract No. 98, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 41 (PD-41) and Single Family 10 (SF-10) District, addressed as 1292 East Fork Drive, and take any action necessary.

Planner, Korey Brooks, gave brief explanation of request stating that in 2008, the City Council approved a Specific Use Permit to allow for a Daycare on the subject property. The applicant is requesting approval of a Site Plan to construct a 13,342 sq. ft. daycare facility. The proposed daycare is situated on two tracts of land. One tract is 1.511-acres and is zoned Planned Development District 41 and the other tract of land is 1.4376-acres and is zoned Single Family 10 District. The submitted site plan, landscape plan, photometric plan, and building elevations do conform to the technical requirements contained within the approved SUP as well as the UDC.

Mr. Brooks went on to state that the ARB met with the applicant at the last Planning and Zoning Commission meeting and they did approved the site plan as submitted and there were no additional requirements from the ARB. Mr. Brooks provided the Commission slide pictures showing the approved elevations as well as pictures northeast and west view of the site.

Mr. Brooks advised the Commission that staff as well as the applicant were available for questions.

Chairman Renfro brought the item back for discussion/questions.

Commissioner Trowbridge asked if PD41 incorporated mostly single family or is it split between commercial and single family and would this use align with the PD. Mr. Brooks stated it is a mix-use, General Retail as well as Single Family.

Commissioner Trowbridge made a motion to approve the item with staff recommendations. Commissioner Lyons seconded the motion, which passed by a vote of 7-0.

10. SP2016-020

Discuss and consider a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Cindy Paris of Rockwall Regional Hospital, LLC for the approval of a site plan for a medical office building on a 5.75-acre portion of a larger 17.8321-acre parcel of land being identified as Lot 15, Block A, Presbyterian Hospital of Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, located east of the intersection of Summer Lee Drive and Rockwall Parkway, and take any action necessary.

Planner, Korey Brooks, advised the Commission he provided them with a revised case memo and went on to state that the applicant is requesting approval of a Site Plan for the purpose of constructing a 55,827 sq. ft. medical office building facility. The proposed medical office

building is situated on a 5.75-acre portion of a larger 17.8321-acre parcel of land that was originally intended for two medical office buildings to be constructed. The first one was approved on 2008 and this request is for the second of the two buildings. On January 22, 2008 the City Council approved variances to the stone requirements, rooftop screening of mechanical equipment, and vertical articulation requirements. The submitted site plan is for MOB #2; and therefore will not require additional variances pending conformance with the 2008 site plan case.

Mr. Brooks went on to state that the submitted site plan, landscape plan, photometric plan, and building elevations conform to the technical requirements contained within the UDC. As with the last case, ARB did recommend approval as long as this site plan conforms to the 2008 approved MOB site plan.

Mr. Brooks advised the Commission that staff as well as the applicant were available for questions.

Chairman Renfro made motion to approve with staff recommendations. Commissioner Trowbridge seconded the motion which passed by a vote of 7-0.

11. SP2016-021

Discuss and consider a request by Vinod Sharma of Little Genius of Texas, LLC for the approval of a site plan for a private pre-school facility on a 2.28-acre tract of land identified as Tract 2-3 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for General Retail (GR) District land uses, located at the southeast corner of the intersection of FM-552 and Stone Creek Drive, and take any action necessary.

Planner, Korey Brooks, gave brief explanation of request stating the applicant is requesting approval of a Site Plan for the purpose of constructing an 11,834 sq. ft. private pre-school facility. The proposed preschool is situated 2.28-acre tract of land and is zoned Planned Development District 70 for General Retail District land uses. The submitted site plan, landscape plan, photometric plan, and building elevations do conform to the technical requirements contained within the UDC.

Mr. Brooks went on to state that at the previous meeting the applicant met with ARB and the Board asked the applicant to make revisions to the symmetry of the building, add more detail to the vertical elements on the West Elevation, to add landscaping to provide screening to the North Elevation, and to widen the columns on the West Elevation. The applicant agreed to make revisions and submitted those changes, and ARB did recommend approval at their earlier held meeting.

Mr. Brooks advised the Commission that staff as well as the applicant were available for questions.

Chairman Renfro asked for questions or discussion.

Commissioner Lyons made a motion to approve the item with staff recommendations. Commissioner Fishman seconded the motion which passed by a vote of 7-0.

12. SP2016-022

Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Gerald Houser of Colin-G Properties, LTD for the approval of a site plan for the expansion of an existing industrial facility on a 6.19-acre parcel of land identified as Lot 1, Block A, Houser Addition, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, situated within the SH-276 Corridor Overlay (SH-276 OV) District, addressed as 1611 SH-276, and take any action necessary.

Senior Planner, David Gonzales, gave brief explanation of request stating the applicant is seeking approval for a site plan for the expansion of an existing industrial facility on a 6.19-acre parcel of land. The subject property is zoned Heavy Commercial and the properties to the east and south are zoned PD10 and Light Industrial; there are a couple properties in front that are Commercial and one that is a Single Family Residential. The applicant is requesting approval of a site plan for the purpose of expanding an existing heavy commercial operation by constructing two additional buildings. The Architectural Review Board took into consideration when it reviewed this particular request that this property has been here since 1984 it's a concrete

mixing facility. Mr. Gonzales provided pictures of the property and of the site plan that showed the two building that the applicant is requesting to expand. The two buildings that are going on the site exceed the 50% of the size of the existing buildings area and due to the nature of the buildings there are some variances and exceptions that the applicant is requesting.

Mr. Gonzales went on to state that when ARB looked at the elevations, they considered the location and the age of the property. Based on what is there now, the applicant is providing buildings that are similar to what is currently there to keep in with what is on the ground. He is building an office building that is going to be located right adjacent to behind the existing office building as well as the other new facility which will be the lab which will be west of that. In looking at the lab facility building elevations, when ARB met with the applicant at the previous meeting the applicant showed that a building on site that has split face CMU, and new building will be right next to the current building and would be split CMU as well. However the applicant has since changed that and he is now proposing a brick that will be on the exterior of the building and will match the office building and since the building will be up front it will be more in line with what is present at the front of the property.

Mr. Gonzales further stated that the ARB in their deliberations, recommended the applicant plant trees along the southern and eastern property boundary in order to screen the use from the surrounding properties.

Mr. Gonzales also added that the existing site has a total of five parking spaces located adjacent to the existing office building; however, based on the total square footage of the additional two buildings, an additional 25 parking spaces are required. The applicant's proposed site plan indicates the addition of 16 parking spaces and is requesting a variance to allow for less than the required 25 spaces. This is due to the sites building #2 being used as a laboratory rather than a traditional office use. This variance request has also been included as a condition of approval. Aside from the exceptions and variances requested for the tow (2) building's exterior facades, the variance to the parking standards, and the conditions listed in the Recommendations section of this report, the submitted site plan and building elevations are in substantial compliance with the technical requirements contained within the SH-276 OV and the UDC. The ARB made a motion to recommend approval of the elevations for both buildings with staff conditions. The motion also included the planting of trees along the southern and eastern property lines for screening purposes.

Mr. Gonzales advised the Commission that staff as well as the applicant were available for questions.

Chairman Renfro asked for clarification of what is being approved if it is for approval for a site plan for the expansion of an existing industrial facility, simply the site plan. Mr. Gonzales state the approval would be for the site plan; however the recommendation as well would be forwarded to City Council for the variances and exceptions.

Chairman Renfro asked for questions or discussion.

Chairman Renfro made a motion to approve with staff recommendations. Commissioner Lyons seconded the motion which passed by a vote of 7-0.

13. SP2016-023 ***POSTPONED TO THE 10-25-2016 P&Z MEETING***

Discuss and consider a request by Worth Williams of Moore Worth Investments, LLC for the approval of a site plan for a multi-tenant commercial/retail building on a 1.56-acre tract of land being a portion of a larger 6.1091-acre tract of land identified as Tract 8-4 of the J. H. B. Jones Survey, Abstract No. 8-4, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the southwest corner of Quail Run Road and N. Goliad Street [*SH*-205], and take any action necessary.

Senior Planner, David Gonzales, advised the applicant asked the item to be postponed.

14. MIS2016-009

Discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of the owner Lakeside Church of Christ of Rockwall for the approval of a *Tree Mitigation Plan* in conjunction with an approved Planned Development (PD-81) for the Ridgecrest Subdivision being a 29.541-acre tract of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District No. 81 (PD-81) and located on the north side of Airport Road, west of the intersection of Airport Road and FM3549, and take any action necessary.

Planner, Korey Brooks, gave brief explanation of request has submitted a Tree Mitigation Plan for a planned subdivision (Ridgecrest Subdivision) being a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 and located on the north side of Airport Road, west of the intersection of Airport Road and FM3549.

Mr. Brooks further explained that the applicant has provided a tree survey identifying a total of 51 trees, totaling 468.4-caliper inches that require removal in order to develop the property. All of the trees identified are considered to be protected trees and require mitigation. Of the trees being removed, 5 of the trees, totaling 32.65 caliper-inches, are Cedar trees. According to the UDC Cedar trees that are 11 inches dbh or larger, shall be replaced at fifty 50 percent the total caliper inches being removed; therefore, the applicant is only required to mitigate for 16.325-caliper inches of Cedar trees. According to the UDC feature trees may not be removed without the approval of the Planning and Zoning Commission and are to be replaced on inch-for-inch bases. Feature trees are identified as any pecan, oak, or elm that has a dbh of 4 inches or greater or any tree that has a dbh of 30 inches or greater. The submitted tree mitigation plan identifies 3 feature trees, totaling 31.2-caliper inches that will be removed and require the Planning and Zoning Commission's approval.

Mr. Brooks went on to state that the total required mitigation balance, totaling 435.75-caliper inches or 142.25 3-inch caliper trees, will be satisfied at the time of development of the site. It should be noted that the approval of the applicant's request is a discretionary decision for the Planning and Zoning Commission.

Commissioner Trowbridge asked if the request complies with the mitigation plan. Mr. Brooks stated it does.

Commissioner Trowbridge made a motion to approve the item with staff recommendations. Commissioner Fishman seconded the motion which passed by a vote of 7-0.

VI. DISCUSSION ITEMS

15. Director's Report of post Council meeting outcomes of Planning & Zoning cases.

- ✓ P2016-042: Amending Plat for the Preserve, Phase 1 Addition [*Approved*]
- ✓ Z2016-023: SUP for 1970 Copper Ridge Circle (*2nd Reading*) [*Approved*]
- ✓ Z2016-025: Harbor Urban Center Condominiums (*2nd Reading*) [*Approved*]
- ✓ Z2016-028: Zoning Change AG to RO (*2nd Reading*) [*Approved*]
- ✓ Z2016-029: SUP for a Gas Station (*2nd Reading*) [*Approved*]

Planning Director, Ryan Miller, **provided a brief update about the outcome of the above referenced case at the City Council meeting. No discussion took place concerning this agenda item.**

VII. ADJOURNMENT

Meeting adjourned at 8:06 p.m.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2016.

Craig Renfro, Chairman

Attest:

Laura Morales, Planning Coordinator

MINUTES

PLANNING AND ZONING COMMISSION WORK SESSION

City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
October 25, 2016
6:00 P.M.

I. CALL TO ORDER

Vice-Chairman Johnny Lyons called the meeting to order at 6: p.m. The Commissioners present at the meeting were, Sandra Whitley, Tracey Logan, Annie Fishman, and Mark Moeller. Absent were Chairman Craig Renfro and Commissioner Patrick Trowbridge. Staff members present were Planning Director, Ryan Miller, Senior Planner, David Gonzales, Planner, Korey Brooks, Planning Coordinator, Laura Morales, Assistant City Engineer, Amy Williams, Civil Engineer, Jeremy White and Fire Marshall, Ariana Hargrove.

II. APPOINTMENTS

1. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

Architectural Review Board representative Jerry Welch gave brief explanation of agenda item that was discussed at the ARB meeting.

No further discussion took place concerning this agenda item.

III. ACTION ITEMS

2. SP2016-023

Discuss and consider a request by Worth Williams of Moore Worth Investments, LLC for the approval of a site plan for a multi-tenant commercial/retail building on a 1.56-acre tract of land being a portion of a larger 6.1091-acre tract of land identified as Tract 8-4 of the J. H. B. Jones Survey, Abstract No. 8-4, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the southwest corner of Quail Run Road and N. Goliad Street [SH-205], and take any action necessary.

Senior Planner, David Gonzales, gave brief explanation of request stating the applicant the applicant is requesting approval of a Site Plan for the purpose of constructing a 9,862 sq. ft. retail facility that will house three uses, retail, restaurant, and medical office. The site will be comprised of a 1.56-acre tract of land being a portion of larger 6.1091-acre tract of land. The proposed retail facility is a use permitted by right on the subject property. A preliminary plat was approved in April of this year and indicates a total of four lots available for development for this intersection. The preliminary plat also indicates one primary drive that connects all four lots and has entrance/exit points along SH-205 and North Lakeshore Drive. The primary access for the subject property will be from North Lakeshore Drive. The subject property will incorporate a total of 57 parking spaces for the retail development.

Mr. Gonzales further stated that, the applicant provided a Tree Mitigation Plan earlier this year indicating a total mitigation balance due of 731 caliper inches. The Planning and Zoning Commission approved the mitigation plan that would allow the applicant to satisfy the mitigation balance at the time of development of the 6.1091-acre site. The landscape plan for the subject property indicates a total of 16 trees being added to the site with each tree being a minimum of 4 caliper inches for a total of 64 inches. The mitigation balance will be adjusted to indicate a total of 667 inches due at the time of future development.

Mr. Gonzales went on to state that concerning variances and exceptions for the request, the Architectural Review Board did consider the cultured stone and approved it. The cultured stone is something that has been incorporated into the Overlay District requirements that allows for the Planning Commission to be able to review the cultured stone product as long as meets a certain criteria. Also, part of the variance to the site plan on the north elevation the applicant is

requesting a variance to allow for a reduction in the amount that is required. The Overlay District requires a minimum of 20% stone for all facades. They exceed that on the remaining facades; however on the north elevation facing Lakeshore Blvd that is less than 20% stone, it is approximately 16% on that elevation. They are seeking a variance for that and the Commission would forward a recommendation to City Council for their next scheduled meeting. Other comments are outlined in the staff report that was provided to the Commission.

Mr. Gonzales stated staff was available for questions and the applicant was present and available for questions as well.

Vice-Chairman Lyons asked the Commission for any questions or discussion.

Commissioner Fishman asked concerning one of the requirements for cultured stone that is for it to have a minimum warranty of 75 years and the requested cultured stone shows to be only 50 years, would that need to be looked at as an exception. Mr. Gonzales stated it would be something the Commission would need to take a look at and consider. There have been two other cases that have come before the Commission where the issue of warranty has been discussed. When the ordinance was originally brought to the Commission, the 75 year warranty is something that is hard to achieve, there are only a handful of companies that offer that warranty therefore it limits the amount of cultured stone that a developer can go out and find for their project.

Vice-Chairman Lyons asked the applicant to come forward.

Worth Williams
7700 Eastern Avenue
Dallas, TX

Mr. Williams came forward came forward and stated that in looking for the stone they wanted a product that would "pop" and create a lot of interest for the shopping center to compliment the balance of what they have proposed for the three lots.

Vice-Chairman Lyons asked the Commission for any questions or discussion.

Commissioner Moeller made a motion to approve the agenda item with staff recommendations. Commissioner Fishman seconded the motion which passed by a vote of 5-2, with Chairman Renfro and Commissioner Trowbridge absent.

IV. DISCUSSION ITEMS

3. Z2016-033

Hold a public hearing and consider a request by Philip Craddock of Craddock Architecture, PLLC on behalf of the owner Pastem Corporation for the approval of a Specific Use Permit (SUP) for the purpose of allowing a residence hotel in a Commercial (C) District that exceeds 36-feet in height in the Scenic Overlay (SOV) District for a 1.74-acre parcel of land identified as Lot 1, Block A, Comfort Inn & Suites Rockwall Towne Centre Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, addressed as 700 E. IH-30, and take any action necessary.

Planner, Korey Brooks, advised the Commission the applicant was present.

Vice-Chairman Lyons asked the applicant to come forward.

Phillip Craddock
Craddock Architecture
750 E. IH-30 Suite 160
Rockwall, TX

Mr. Craddock came forward and gave a brief explanation of the request and provided a power point showing different view of what it will look like overall inside and outside. It will be in a highly visible site and the intention is to bring a high end hotel that will focus more on the executive upscale community. It will have a nice look of the lake from the second thru the fifth

floor of the building. It will have 24 hour operation, full complimentary breakfast, a fitness center and indoor pool. The mix of the hotel is going to be 50% studios and four mini suites that have one bedroom. It will be modern and upscale and they will meet the ordinance with the beam and stone. It will be a Best Western Plus/ Executive Residency. It will have a roof deck which will provide a nice view of the lake. The rooms will not have a separate dining room or a full range. They will be entered through a shared wall.

Mr. Brooks added that when the request originally came in the applicant was not proposing to do a Residence Hotel but subsequently after speaking with him, it was decided it would probably be best to allow for a Residence Hotel with the condition that no more than 50% of the rooms would offer an extended stay option.

Mr. Miller further added that they reviewed that before the meeting, there are four suits that do meet the definition of a Residency Hotel where they incorporate a full size fridge in a kitchenette and allow for a longer stay.

Mr. Craddock further clarified by stating that there will only be four of the suits that would be considered a residency type and they would be willing to put that on the ordinance. There will be a total of 77 rooms. The suites will be located in the corners most likely in the upper floor. The slide show he provided showed different views of the rooms what the suites would have in them as well as the view of the lake from the upper floors. He went on to add that the intent is to provide a nice upscale hotel experience for the guests. They will be asking for a variance for the 60 foot height.

Vice-Chairman Lyons asked what the allowed height was. Mr. Brooks stated that the current SUP for this property allows for a building that is 58 feet in height the request is for 60 feet.

Commissioner Logan asked staff if the height variance is the only variance being requested and if the residence hotel is allowed because it is zoned Commercial. Mr. Brooks stated it was the only variance being requested and the use was allowed with a Specific Use Permit.

Commissioner Logan expressed concern with a residence hotel, and the Best Western not typically what is considered upscale. Mr. Craddock responded that the Best Western brand is changing and has changed significantly in the last few years than what it may have been considered some years ago and also the location is going to be a key part.

Commissioner Whitley asked if the pool would be screened and will there be any meeting rooms. Mr. Craddock stated the pool would be screened and the conference room would accommodate approximately 40-50 people.

Commissioner Moeller expressed concern with the naming of residence hotels, asked staff if there could be a different terminology that could be used such as what was mentioned executive stay would be more appealing. Mr. Miller stated the brand is Executive Stay and the term Executive Residence could be used.

Vice-Chairman asked what the signage would say. Mr. Craddock stated it would be Best Western Plus/ Executive Residency.

Commissioner Fishman asked if the company retains long term ownership. Mr. Craddock stated they would be maintaining it long term. To further explain the answer he asked his colleague to add.

Clark Staggs
1601 Seascape
Rockwall, TX

Mr. Staggs came forward and stated that the Best Western that is currently in Rockwall has been owned by the same owner for the last six years and within that time has made substantial improvements every year and is currently making renovations to the lobby. He added that the price range for the rooms will start at minimum $100 a night; it is an expensive proposition as opposed to what is sometimes thought of with an extended stay.

There being no further questions, Vice-Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

4. Z2016-034

Hold a public hearing to discuss and consider a request by David Palmer of Cencor Acquisition Co., Inc on behalf of Hossain Makvandi of Home Boy Enterprises, Inc. for the approval of a zoning change from an Agricultural (AG) District to a Commercial (C) District for a 7.1692-acre tract of land identified as Tract 10-1 of the W. W. Ford Survey, Abstract No. 80, Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of FM-549 and S. Goliad Street [*SH-205*], and take any action necessary.

Senior Planner, David Gonzales, advised the Commission that the applicant was present.

Vice-Chairman Lyons asked the applicant to come forward.

David Palmer
3102 Maple Avenue Suite 500
Dallas, TX

Mr. Palmer came forward and stated he is a partner with Cencor Realty; Cencor Acquisition is their purchasing entity. They are purchasing this property and are seeking to have it zoned so they can determine what direction they will proceed with it in terms of marketing. They intend to develop it for a retail shopping center.

Vice-Chairman Lyons asked the Commission for any questions or discussions. There being no questions or discussion, Vice-Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

5. Z2016-035

Hold a public hearing to discuss and consider a request by Robert A, Howman of Glenn Engineering Corp. on behalf of James Watson of the Rockwall Independent School District (RISD) for the approval of a Specific Use Permit (SUP) for the purpose of allowing a *Public School* in an Agricultural (AG) District for a 24.209-acre portion of a larger 173.0-acre tract of land identified as Tract 7-1 of the W. H. Baird Survey, Abstract No. 25, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Bypass Corridor Overlay (205 BY-OV) District, located directly east of the intersection of John King Boulevard and Trail View Drive, and take any action necessary.

Senior Planner, David Gonzales, advised the Commission that the applicant was present.

Vice-Chairman Lyons asked the applicant to come forward.

Jimmy Strohmeyer
2701 Sunset Ridge
Rockwall, TX

Mr. Strohmeyer came forward and stated that this is a tract of land that the school district owns and the request is for an SUP for the purpose of building a College and Career Academy.

Commissioner Moeller asked in looking at the layout of the school were the access points only showing to be off of John King with an alley way going through a side street. Mr. Strohmeyer stated that was correct. Commissioner Moeller expressed concern over peak times of drop off and pick up and the traffic issue it may cause. Mr. Strohmeyer clarified that it would be older kids and that would not pose a problem.

There being no further questions, Vice-Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

6. Z2016-036

Hold a public hearing to discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (R. & R. Hance Investments, LP) for the approval of a zoning amendment to Planned Development District 79 (PD-79) [*Ordinance*

No. 16-07] for the purpose of amending the development standards to allow front entry garages on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.

Senior Planner, David Gonzales, advised the Commission that the applicant was present.

Vice-Chairman Lyons asked the applicant to come forward.

Pat Atkins
3076 Hays Lane
Rockwall, TX

Mr. Atkins came forward and gave brief explanation of the request. This subject property has come before the Commission in the past and during the zoning process they had not committed to a builder team; however Highland Homes and David Weekly Homes, which are one of the best builders in the metroplex, have committed to the building of this development Saddle Star South. In the contract discussions and negotiations they have had with the builders the concern with regard to garage orientation came up, and that poses an issue with the commitment they will make. He is coming forward with the direction of these builders in asking to allow flexibility with their design and how they accommodate to the market.

Vice-Chairman Lyons asked the Commission for any questions or discussion.

Vice-Chairman Lyons asked for clarification of request, is it to allow all of the development to be front entry. Mr. Atkins stated the desire of both builders is to let the market tell them what they need to provide. The non-monotony clause gives them the design element of mixing up product and how it's constructed. The desire it to allow the builder the flexibility to allow to decide as the market and the buyer calls.

Mr. Gonzales added that currently how the ordinance reads that for the 138 homes in that PD, 50% minimum must be j-swing drive with the remaining lots can be just 20 foot setback from the property line where the entire façade would be a flat façade where you can have the front entry. That is what is being considered, to see how many j-swing will be there and/or will it include more of the other product type where there wouldn't have the recessed garage.

Mr. Miller clarified that it would allow for 100% flat front entry if that were to be their request.

Vice-Chairman Lyons asked if the builders expressed that the deal was dependent on this condition. Mr. Atkins stated their contractual requirement is that they be allowed to do front entry. Vice-Chairman Lyons stated he feels the Commissioners that are not present may also have some concerns because typically what is preferred is to have some diversity, asked if they would be open to asking for a different percentage instead of 100%. Mr. Atkins stated he will discuss that with the builders.

Mr. Miller added that staff could also work with the applicant through the process before the public hearing to touch on that question and address the Commissions concerns.

Commissioner Whitley expressed concern that both potential builders are seeking total flexibility and are not willing to work with the City when other builders have. She stated concern with the lack of diversity.

There being no further questions, Vice-Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

7. Z2016-037

Hold a public hearing to discuss and consider a request by Douglas F. DeMarco on behalf of John G. Robertson for the approval of a zoning change from an Agricultural (AG) District to a Commercial (C) District for a 23.27-acre tract of land identified as Tract 2-28 of the J. R. Johnson Survey, Abstract No. 128, Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205

Overlay (SH-205 OV) District, addressed as 2922 S. Goliad Street [*SH-205*], and take any action necessary.

Senior Planner, David Gonzales, gave brief explanation of request and stated that staff met with the applicant a few weeks ago when they were looking into pulling a building permit for the RISE which is an athletic complex that includes a baseball diamond. They have indicated to staff that years ago it had lighting on the field and those were destroyed at some point due to a storm. The lighting ordinance does not accommodate this; it accommodates commercial properties, retail properties where there are lighting poles that go up 20 or maximum 30 feet in height. For a sporting complex 30 feet would create blinding lights for those playing on the fields and that is what the applicant pointed out to staff. What staff indicated to them in order to move forward it would have to go through an SUP process. Since the property is zoned Agriculture District they have to go through the zoning process first in order to rezone to a commercial use and if that goes through it would then go through the SUP to establish the lighting standards within the SUP.

Vice-Chairman asked if it would only be one ballfield. Mr. Gonzales stated they have only indicated it would be one and when the SUP comes forward they would provide the lighting plan.

Commissioner Logan stated she was unaware that the building was in the City. Mr. Gonzales stated it was an existing building at the time of annexation and because of that they have a non-conforming use on the property.

Commissioner Logan asked if by requesting the SUP would they be required to be conforming. Mr. Gonzales stated once the SUP goes through it establishes zoning on the property and anything new that would come in would then have to meet the City's code standards.

Commissioner Whitley asked what the neighboring area to the north was. Mr. Gonzales stated it is zoned Heavy Commercial.

Commissioner Moeller asked for clarification of how many ballfields there are because in the packet they reviewed it showed two, he would like to know which one of the two will have the lighting. Mr. Gonzales stated that at the time they met with the applicant they indicated it would only be for one, but if they would want to put lighting on both it would be a request they can ask for during the SUP process and it then would be a discretionary approval.

There being no further questions, Vice-Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

8. P2016-045

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of Ridgecrest SF, LTD. for the approval of a final plat for the Ridgecrest Subdivision creating 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.

Vice-Chairman Lyons stated agenda items #8 and #10 would be combined and discussed together.

Planner, Korey Brooks, gave brief explanation of the request and stated that both the site plan an final plat are for the purpose of creating 45 single family residential lots. The site plan and final plat both meet the technical requirements and will be going to the Park Board on November 1st to have park fees accessed and will be on the consent agenda at the Commissions next scheduled meeting.

Vice-Chairman Lyons asked the Commission for any questions or discussion.

Commissioner Moeller asked for clarification of the street layout of where street D would that end up as it appears it dead ends to the church property. Mr. Brooks stated it will be a stub out connecting the church property to the subject property.

There being no further questions, Vice-Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

9. P2016-046

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Balance I LLC for the approval of a final plat for Breezy Hill, Phase VII creating 10 single-family residential lots on 6.802-acres of land identified as Tract 7-10 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single Family 10 (SF-10) District land uses, situated within the 205 By-Pass Corridor Overlay (205 BY-OV) District, located at the northeast corner of N. John King Boulevard and Cozy View Drive, and take any action necessary.

Planner, Korey Brooks gave brief explanation of request stating it is a request to final plat 10 lots for single family residential homes. It does meet the technical requirements and will be going to the Park Board on November 1st to have park fees accessed and will be on the consent agenda at the Commissions next scheduled meeting.

Vice-Chairman Lyons asked the Commission for any questions or discussions. There being no questions, Vice-Chairman Lyons indicated the case will return to the Commission for action at the next scheduled meeting.

10. SP2016-024

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of Ridgecrest SF, LTD. for the approval of a site plan for the Ridgecrest Subdivision containing 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.

Vice-Chairman Lyons stated agenda items #8 and #10 would be combined and discussed together.

11. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2016-043: Lots 1-10, Block A, Estates on the Ridge Subdivision [*Approved*]
- ✓ P2016-040: Lots 7 & 8, Block A, Independence Pass Addition [*Approved*]
- ✓ SP2016-022: Exceptions and Variances at 1611 SH-276 [*Approved*]
- ✓ Z2016-030: SUP for 1910 Copper Ridge Circle (*1st Reading*) [*Approved*]
- ✓ Z2016-031: Amendment to PD-1 for a Brewery (*1st Reading*) [*Tabled to the November 7th Meeting*]
- ✓ Z2016-032: Amendment to PD-74 (*1st Reading*) [*Approved*]

Planning Director, Ryan Miller, **provided a brief update about the outcome of the above referenced case at the City Council meeting. No discussion took place concerning this agenda item.**

V. ADJOURNMENT

The meeting adjourned at 7:12 p.m.

VI. TRAINING SESSION

12. *Planning and Zoning Commission Training Session*

A work session with the GIS Department will be held in the City Council meeting room immediately following the adjournment of the October 25, 2016 Planning and Zoning Commission work session meeting.

Mr. Miller advised noted that the training session would be postponed until the next scheduled meeting.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2016.

Laura Morales, Planning Coordinator

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/15/2016

APPLICANT: Chase Finch, *Corwin Engineering, Inc.*

AGENDA ITEM: **P2016-045**; *Ridgecrest Subdivision*

SUMMARY:

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of Ridgecrest SF, LTD. for the approval of a final plat for the Ridgecrest Subdivision creating 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.

PLAT INFORMATION:

☑ The Ridgecrest Subdivision will consist of 45 single-family lots on 29.541-acres of land. The development will incorporate a rural street cross-section and larger front yard setback (i.e 40-feet) to give the appearance of a rural neighborhood. The development will also incorporate 6-acres (i.e. 20%) of open space. The residential subdivision will be composed of 45 single-family lots on 29.541-acres of land. In conjunction with this final plat, the applicant has submitted a site plan [*Case No. SP2016-024*]. A summary of the proposed density and dimensional requirements is as follows:

Minimum Lot Width/Frontage	*80'*
Minimum Lot Depth	*100'*
Minimum Lot Area	*15,000 SF*
Minimum Front Yard Setback	*40'*
Minimum Side Yard Setback	*5'*
Minimum Side Yard Setback (Adjacent to a Street)	*10'*
Minimum Length of Driveway Pavement	*20'*
Maximum Height	*36'*
Minimum Rear Yard Setback	*10'*
Minimum Area/Dwelling Unit (SF)	*1,800 SF*
Maximum Lot Coverage	*65%*

☑ The proposed Final Plat conforms to the concept plan and development standards included in Planned Development 81 District (PD-81) approved by the City Council on May 16, 2016 under *Case No. Z2016-014* [*Ordinance No. 16-42*] and to the Preliminary Plat approved by City Council on June 20, 2016 under *Case No. P2016-029*.

☑ On November 1, 2016 the Parks Board reviewed the *Final Plat* and made a recommendation to approve the plat with the following conditions:

1) The developer is to pay the pro-rata equipment fees required in the amount of $54,180 [*i.e. 45 Lots @ $1,204.00 Per Lot*].

2) The developer is to pay the cash-in-lieu of land fees required in the amount of $41,985 [i.e. 45 Lots @ $933.00 Per Lot].

3) The shade structure presented in the plan be changed to a play structure.

4) The six (6)-acre open space and drainage easement shall remain as HOA maintained and not accepted as a public park.

NOTE: This condition has been added to the conditions of approval below.

☑ The Surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for plats as stated in the *Subdivision Ordinance* in the *Municipal Code of Ordinances*, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the *final plat* for *Ridgecrest Subdivision* staff would recommend the following conditions:

1) The *final plat* shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments;

2) The development shall conform to the recommendations made by the Parks Board; and,

3) Any construction resulting from the approval of this *final plat* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

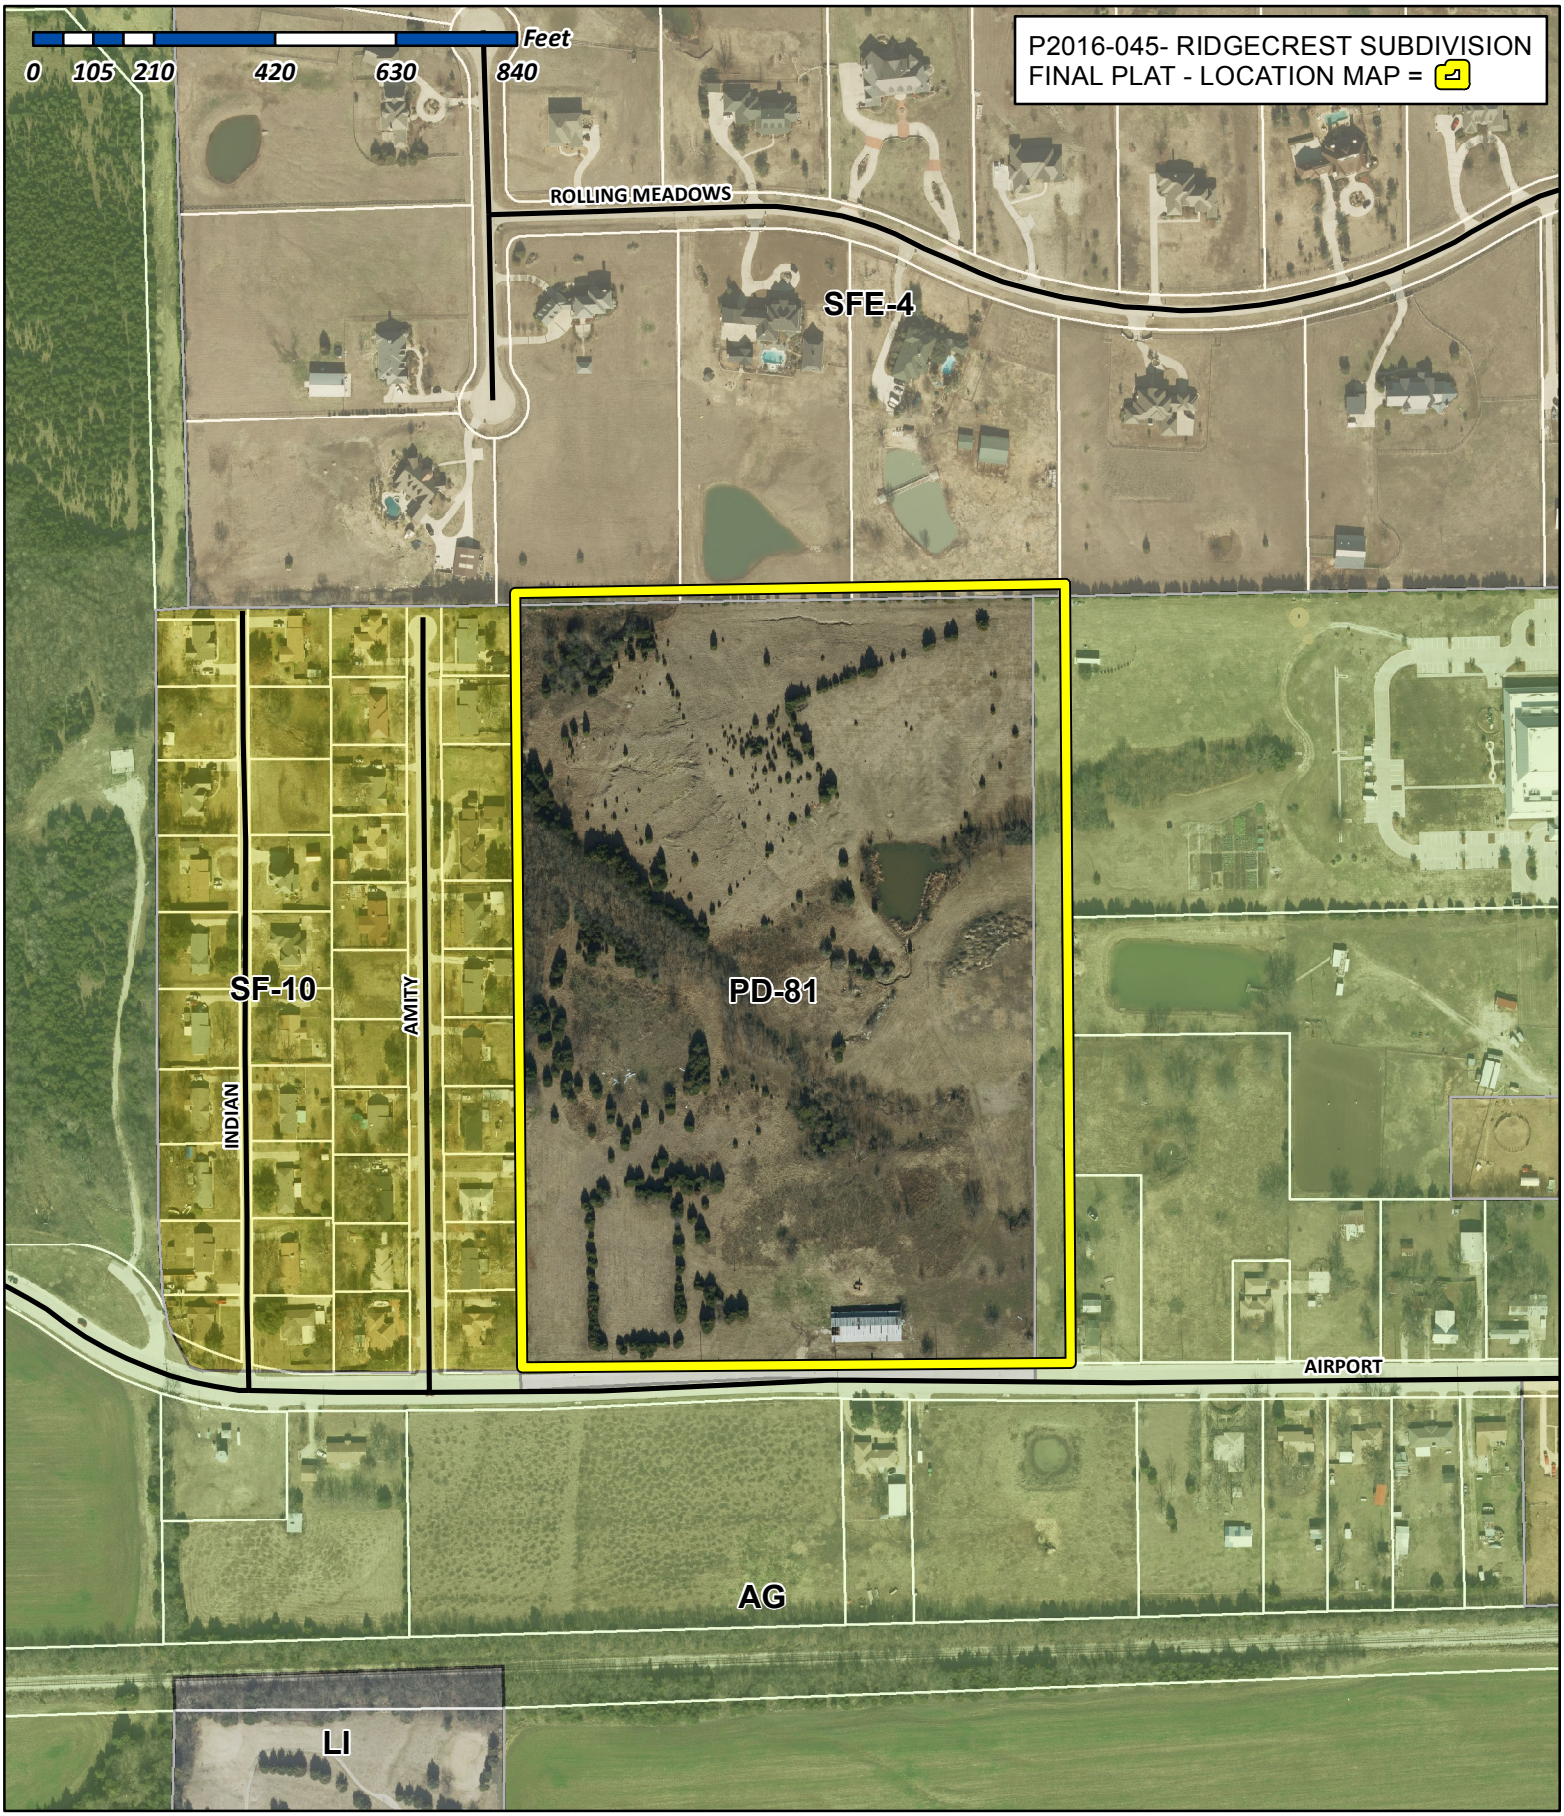
P2016-045 Ridgecrest Subdivision Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of Ridgecrest SF, LTD. for the approval of a final plat for the Ridgecrest Subdivision creating 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.



M.3 For reference, include the case number (P2016-045) in the lower right hand corner of all pages on future submittals.

M.4 Please show the street centerline for Airport Road.

M.6 Will the deed to the property be filed before this goes to City Council? If not, the Church will have to sign the plat.

I.6 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by November 1, 2016. The Park Board Meeting is November 1, 2016. The Planning & Zoning Worksession date for this case will be October 25, 2016. The Planning and Zoning Meeting for this case is November 15, 2016.

I.7 The City Council meeting date and subsequent approval for this plat is November 21, 2016.

OWNER'S CERTIFICATE

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:
STATE OF TEXAS
COUNTY OF ROCKWALL
We the undersigned owners of the land shown on this plat, and designated herein as the RIDGECREST, subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the RIDGECREST, subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. The detention drainage system is to be maintained, repaired and owend by the subdivision.

7. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/15/2016

APPLICANT: Chase Finch; *Corwin Engineering, Inc*.

AGENDA ITEM: **P2016-046**; *Breezy Hill, Phase VII*

SUMMARY:

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Balance I LLC for the approval of a final plat for Breezy Hill, Phase VII creating 10 single-family residential lots on 6.802-acres of land identified as Tract 7-10 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single Family 10 (SF-10) District land uses, situated within the 205 By-Pass Corridor Overlay (205 BY-OV) District, located at the northeast corner of N. John King Boulevard and Cozy View Drive, and take any action necessary.

PLAT INFORMATION:

☑ The Breezy Hill Subdivision is a master planned community that will provide approximately 405-acres of residential and commercial development. The residential subdivision will be composed of 776 single-family lots on ~385-acres of land, and to be broken down per the lot mix indicated in Planned Development District 74 (PD-74). The lot mix in this Planned Development District is as follows.

Lot Types	*A*	*B*	*C*	*D*	*E*
Typical Lot Frontage (Feet)	*60*	*70*	*80*	*100*	*60*
Typical Lot Depth (Feet)	*120*	*120*	*125*	*200*	*120*
Minimum Lot Size (Sq. Ft.)	*7,200*	*8,400*	*10,000*	*20,000*	*7,200*
Number of Units	*186*	*117*	*326*	*107*	*40*
Dwelling Unit %	*23.97%*	*15.08%*	*42.01%*	*13.79%*	*5.15%*

☑ The purpose of this request is to *final plat* Phase VII of the Breezy Hill Subdivision for the purpose of laying out ten (10) of the 776 lots. The ten (10) proposed lots will be constructed to the Type "D" standards (*all standards are displayed in the above table*) and be situated on approximately 6.802 acres. All of the lots will be subject to PD-74 District and the 205 By-Pass Overlay (205 BY-OV) District Standards.

☑ The proposed *final plat* generally conforms to the revised concept plan approved by the City Council on July 7, 2014 under *Case No. Z2014-007* [Ordinance No 14-26].

☑ On November 1, 2016 the Parks Board reviewed the *Final Plat* and made a recommendation to approve the plat with the following conditions:

1) The developer is to pay the pro-rata equipment fees required in the amount of $2,105 [i.e. 10 Lots @ $215.00 Per Lot].

2) The developer shall continue the ten (10)-foot concrete trail portion that is adjacent to John King Blvd. within Phase VII.

☑ The Surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for *Final Plats* as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this *final plat* by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

RECOMMENDATIONS

If the Planning & Zoning Commission and City Council choose to approve the Final Plat for Breezy Hill Phase VII, staff would recommend the following conditions of approval:

1) The Final Plat shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments;

2) The development shall adhere to the recommendations of the Park Board as noted in this report;

3) The development will need to have an approved *site plan* before any building permits will be released; and,

4) Any construction resulting from the approval of this Final Plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

P2016-046 Breezy Hill Phase VII Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Balance I LLC for the approval of a final plat for Breezy Hill, Phase VII creating 10 single-family residential lots on 6.802-acres of land identified as Tract 7-10 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single Family 10 (SF-10) District land uses, situated within the 205 By-Pass Corridor Overlay (205 BY-OV) District, located at the northeast corner of N. John King Boulevard and Cozy View Drive, and take any action necessary.

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2016-046) in the lower right hand corner of all pages on future submittals.

M.4 Please add note "John King is indicated as a Principle 6-lane divided highway on the City's Master Thoroughfare Plan."

I.5 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by November 1, 2016. The Park Board Meeting is November 1, 2016. The Planning & Zoning Worksession date for this case will be October 25, 2016. The Planning and Zoning Meeting for this case is November 15, 2016.

I.6 The City Council meeting date and subsequent approval for this plat is November 21, 2016.

LEGAL DESCRIPTION

BEING, a tract of land situated in the J. Strickland Survey, Abstract No. 187 in the City of Rockwall, Rockwall County, Texas, being out of Tract 2, as described in Clerks File No. 20130000498884 in the Deed Records of Rockwall County, Texas and being more particularly described as follows:

BEGINNING, at a ½ inch iron rod found at the northwest corner Breezy Hill Phase I, an addition to the City of Rockwall, as described in Cab. H, Pgs. 375-376 in the Plat Records of Rockwall County, Texas and being the most eastely corner of said Tract 2:

THENCE, South 38° 38'15" West, along the west line of said Breezy Hill Phase I, for a distance of 264.75 feet, to a ½ inch iron rod found:

THENCE, North 54° 02'00" West, continuing along said west line, for a distance of 15.83 feet, to a ½ inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.":

THENCE, South 35° 45'14" West, continuing along said west line, for a distance of 339.01 feet, to a ½ inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", at the most westerly southwest corner of said Breezy Hill Phase I, being in the north line John King Boulevard (120' R.O.W.), being in a curve to the right, having a radius of 4940.00 feet, a central angle of 06° 38'02", and a tangent of 286.31 feet:

THENCE, continuing along said north line and with said curve the to the right for an arc distance of 571.98 feet (Chord Bearing North 50° 34'40" West - 571.66 feet), to a ½ inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", at the most southerly southwest corner of Breezy Hill Phase 4, an addition to the City of Rockwall, as described in Cab. I, Pgs.155-156 in said Plat Records:

THENCE, North 40° 25'33" East, departing said north line and along the south line of said Breezy Hill Phase 4, for a distance of 348.46 feet, to a ½ inch iron rod set with a yellow cap stamped "Corwin Eng. Inc":

THENCE, South 75° 18'52" East, continuing along said south line, for a distance of 29.78 feet, to a ½ inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.":

THENCE, North 89° 29'27" East, continuing along said south line, for a distance of 156.65 feet, to a ½ inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.":

THENCE, North 88° 32'31" East, continuing along said south line, for a distance of 191.34 feet, to a ½ inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.":

THENCE, South 54° 20'06 " East, continuing along said south line, for a distance of 264.77 feet, to the POINT OF BEGINNING and containing 6.802 acres of land.

SURVEYOR CERTIFICATE

I, WARREN L. CORWIN, do hereby certify that the plat shown hereon accurately represents the results of an on-the-ground survey made under my direction and supervision and all corners are as shown thereon and there are no encroachments, conflicts, protrusions or visible utilities on the ground except as shown and said plat has been prepared in accordance with the platting rules and regulations of the City Plan Commission of the City of Rockwall, Texas.

Notary Public in and for the State of Texas

OWNER'S CERTIFICATE

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:
STATE OF TEXAS
COUNTY OF ROCKWALL
We the undersigned owner"s" of the land shown on this plat, and designated herein as the BREEZY HILL PHASE VII, subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the BREEZY HILL PHASE VII, subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following:

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

JUNE 2016

CASE #P2016-XXX

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/15/2015

APPLICANT: Christopher Orr, *Arcadia Lakes of Somerset Holdings, LLC*

AGENDA ITEM: **P2016-047**; *Somerset Park Subdivision*

SUMMARY:

Discuss and consider a request by Christopher Orr of Arcadia Lakes of Somerset Holdings, LLC for the approval of a preliminary plat for Phase 1 of the Somerset Park Subdivision, containing 144 single-family residential lots on a 56.276-acre tract of land being a portion of a larger 139.354-acre tract of land identified as Tracts 1 & 7 of the A. Johnson Survey, Abstract No. 123, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 63 (PD-63) for Single Family 10 (SF-10) District land uses, situated within the SH-205 Overlay (SH-205 OV) District, located at the northeast corner of the Intersection of FM-549 and S. Goliad Street (SH-205), and take any action necessary.

PLAT INFORMATION:

☑ The Somerset Park Subdivision is a two (2) phase, master planned community that will be composed of 309 single-family, residential lots on approximately 139.354-acres land. The 309 single-family lots will be broken down into three (3) lot types with 93 lots being allocated to the 7,200 SF lot type, 135 lots being allocated to the 8,400 SF lot type, and 81 lots being allocated to the 10,400 SF lot type. Additionally, the plan will consist of 38.7-acres of open space (*or ~27.05% of total land area*). A summary of the proposed density and dimensional requirements is as follows:

Table 1: Density and Dimensional Requirements

	A	***B***	***C***
Minimum Lot Width [1]	60’	70’	80’
Minimum Lot Depth	120’	120’	130’
Minimum Lot Area	7,200 SF	8,400 SF	10,400 SF
Minimum Front Yard Setback [2] & [5]	20’	20’	20’
Minimum Side Yard Setback	5’	5’	5’
Minimum Side Yard Setback (Adjacent to a Street) [2] & [5]	10’	10’	10’
Minimum Length of Driveway Pavement	25’	25’	25’
Maximum Height [3]	30’	30’	30’
Minimum Rear Yard Setback [4]	20’	20’	20’
Minimum Area/Dwelling Unit (SF)	2,200 SF	2,700 SF	3,200 SF
Maximum Lot Coverage	65%	65%	65%
Permitted Encroachment into Required Setbacks [5]	Allowed	Allowed	Allowed

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the single family home.

[4]: As measured from the rear yard property line.

[5]: Sunrooms, porches, stoops, bay windows, balconies, masonry clad chimneys, eaves and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to ten (10) feet for any property; however, the encroachment shall not exceed five (5) feet on *Side Yard Setbacks (Adjacent to a Street)* and shall not encroach into public right-

of-way [a *Sunroom* is an enclosed room no more than 15-feet in width that has glass on at least 50% of each of the encroaching faces] (*see Exhibit 'F' of the Ordinance*).

☑ The purpose of this request is to *final plat* 144 of the 309 single-family, residential lots and 5.998-acres of private park and open space. The lot mix for the proposed 144 lots is as follows:

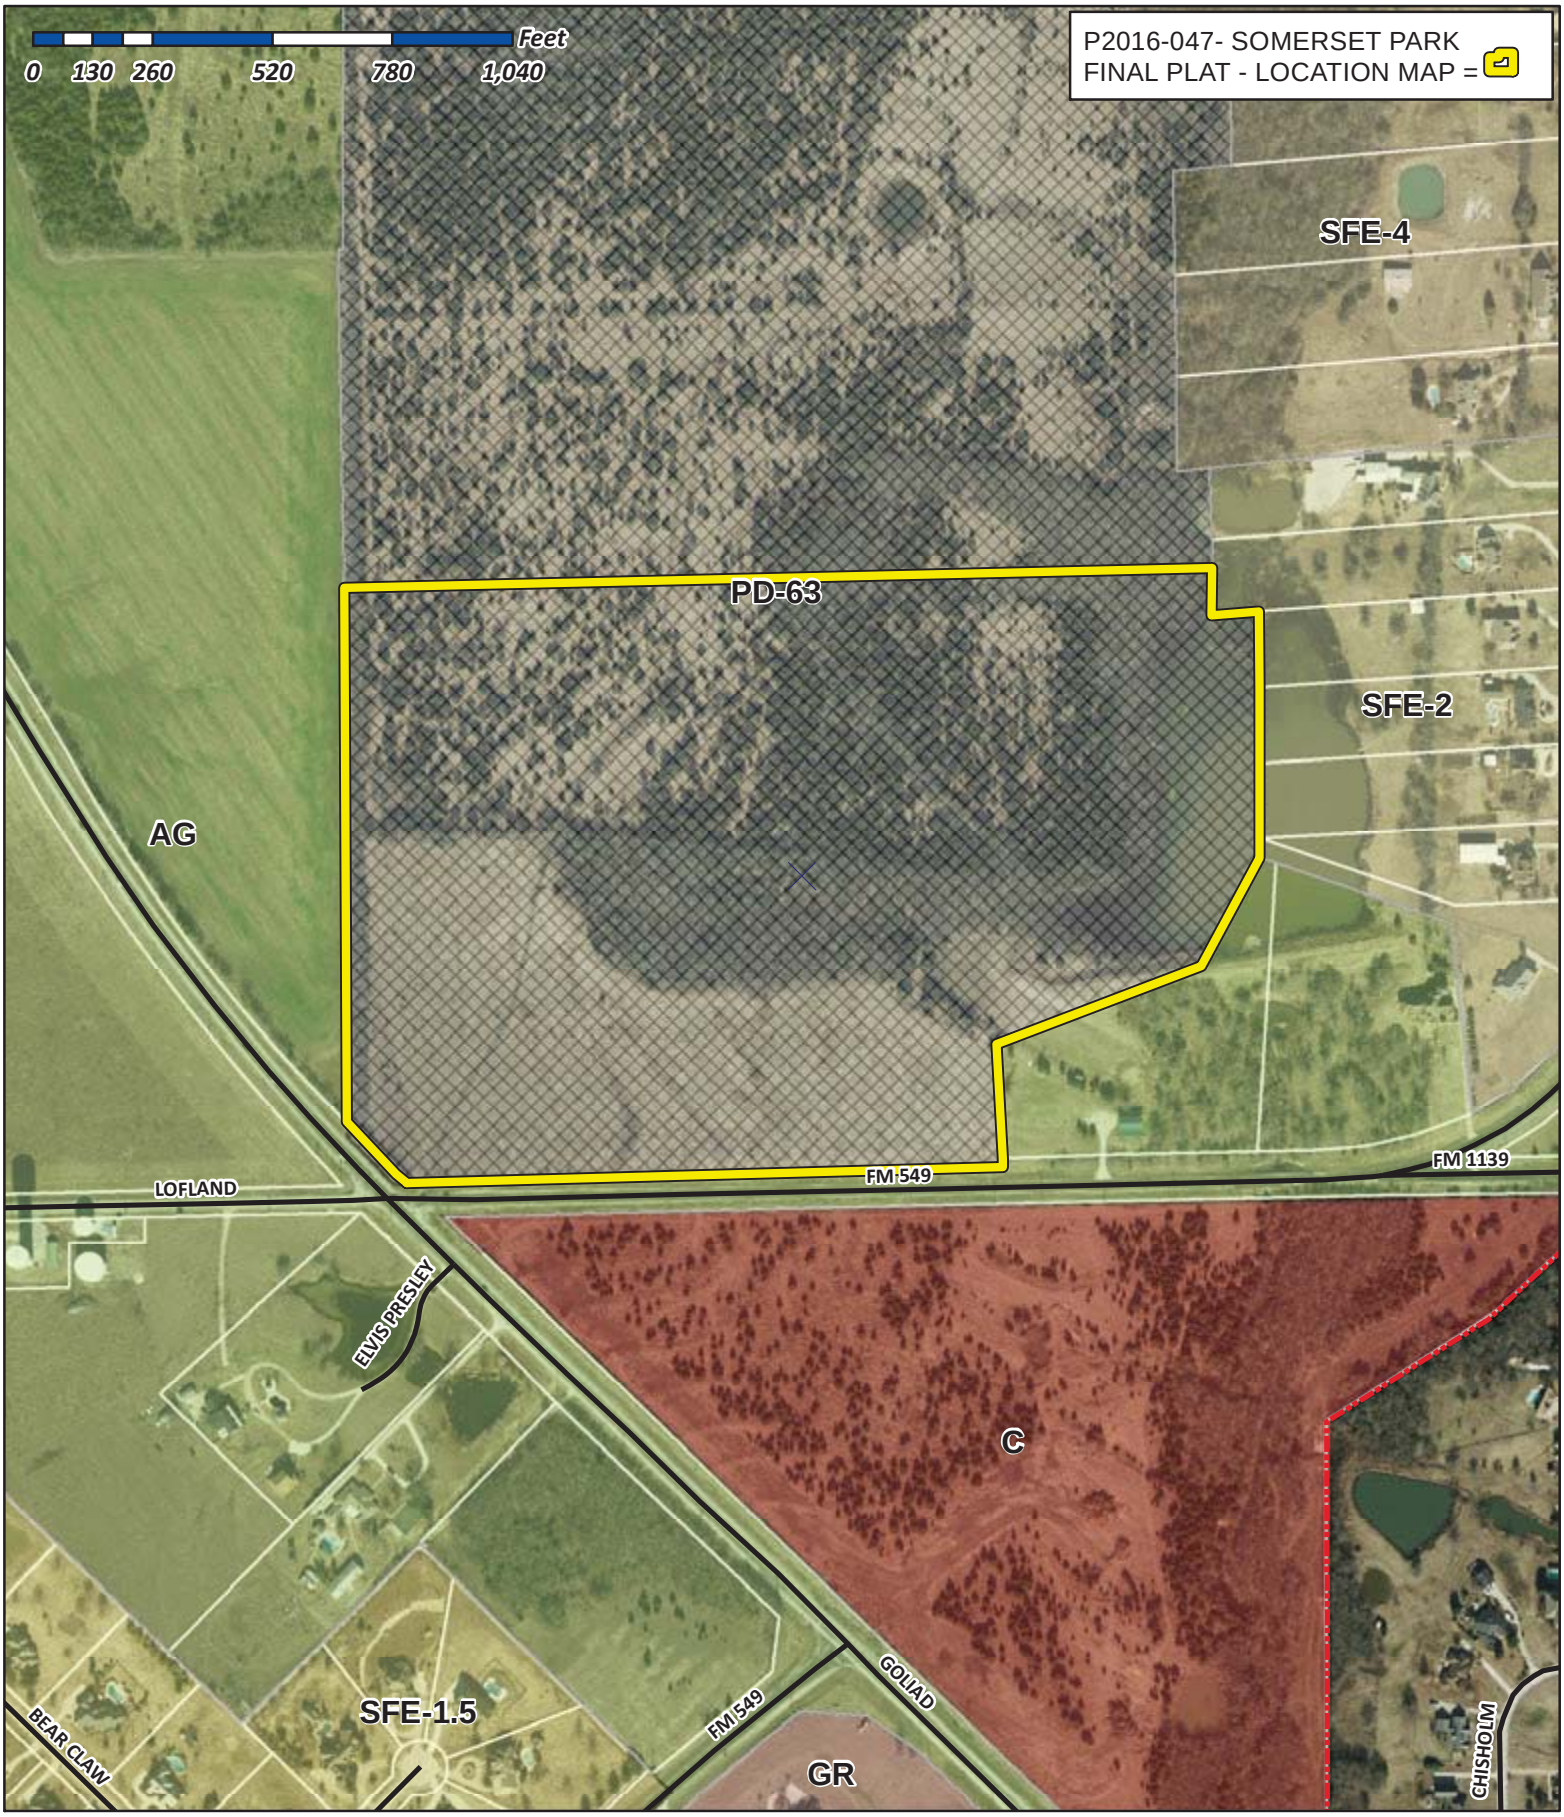
Table 2: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Dwelling Units (#)*	*Dwelling Units (%)*
A	60' x 120'	7,200 SF	40	27.8%
B	70' x 120'	8,400 SF	58	40.3%
C	80' x 130'	10,400 SF	46	31.9%
		Total Lots:	*144*	*100.00%*

☑ The *final plat* conforms to Planned Development District 63 (PD-63) [*Ordinance No. 14-49*], which was approved by the City Council on November 17, 2014 under *Case No. Z2014-025*.

☑ The Surveyor/Engineer has completed the majority of the technical revisions requested by staff, and this *final plat*, conforming to the requirements for *Final Plats* as stated in the *Subdivision Ordinance* in the *Municipal Code of Ordinances*, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

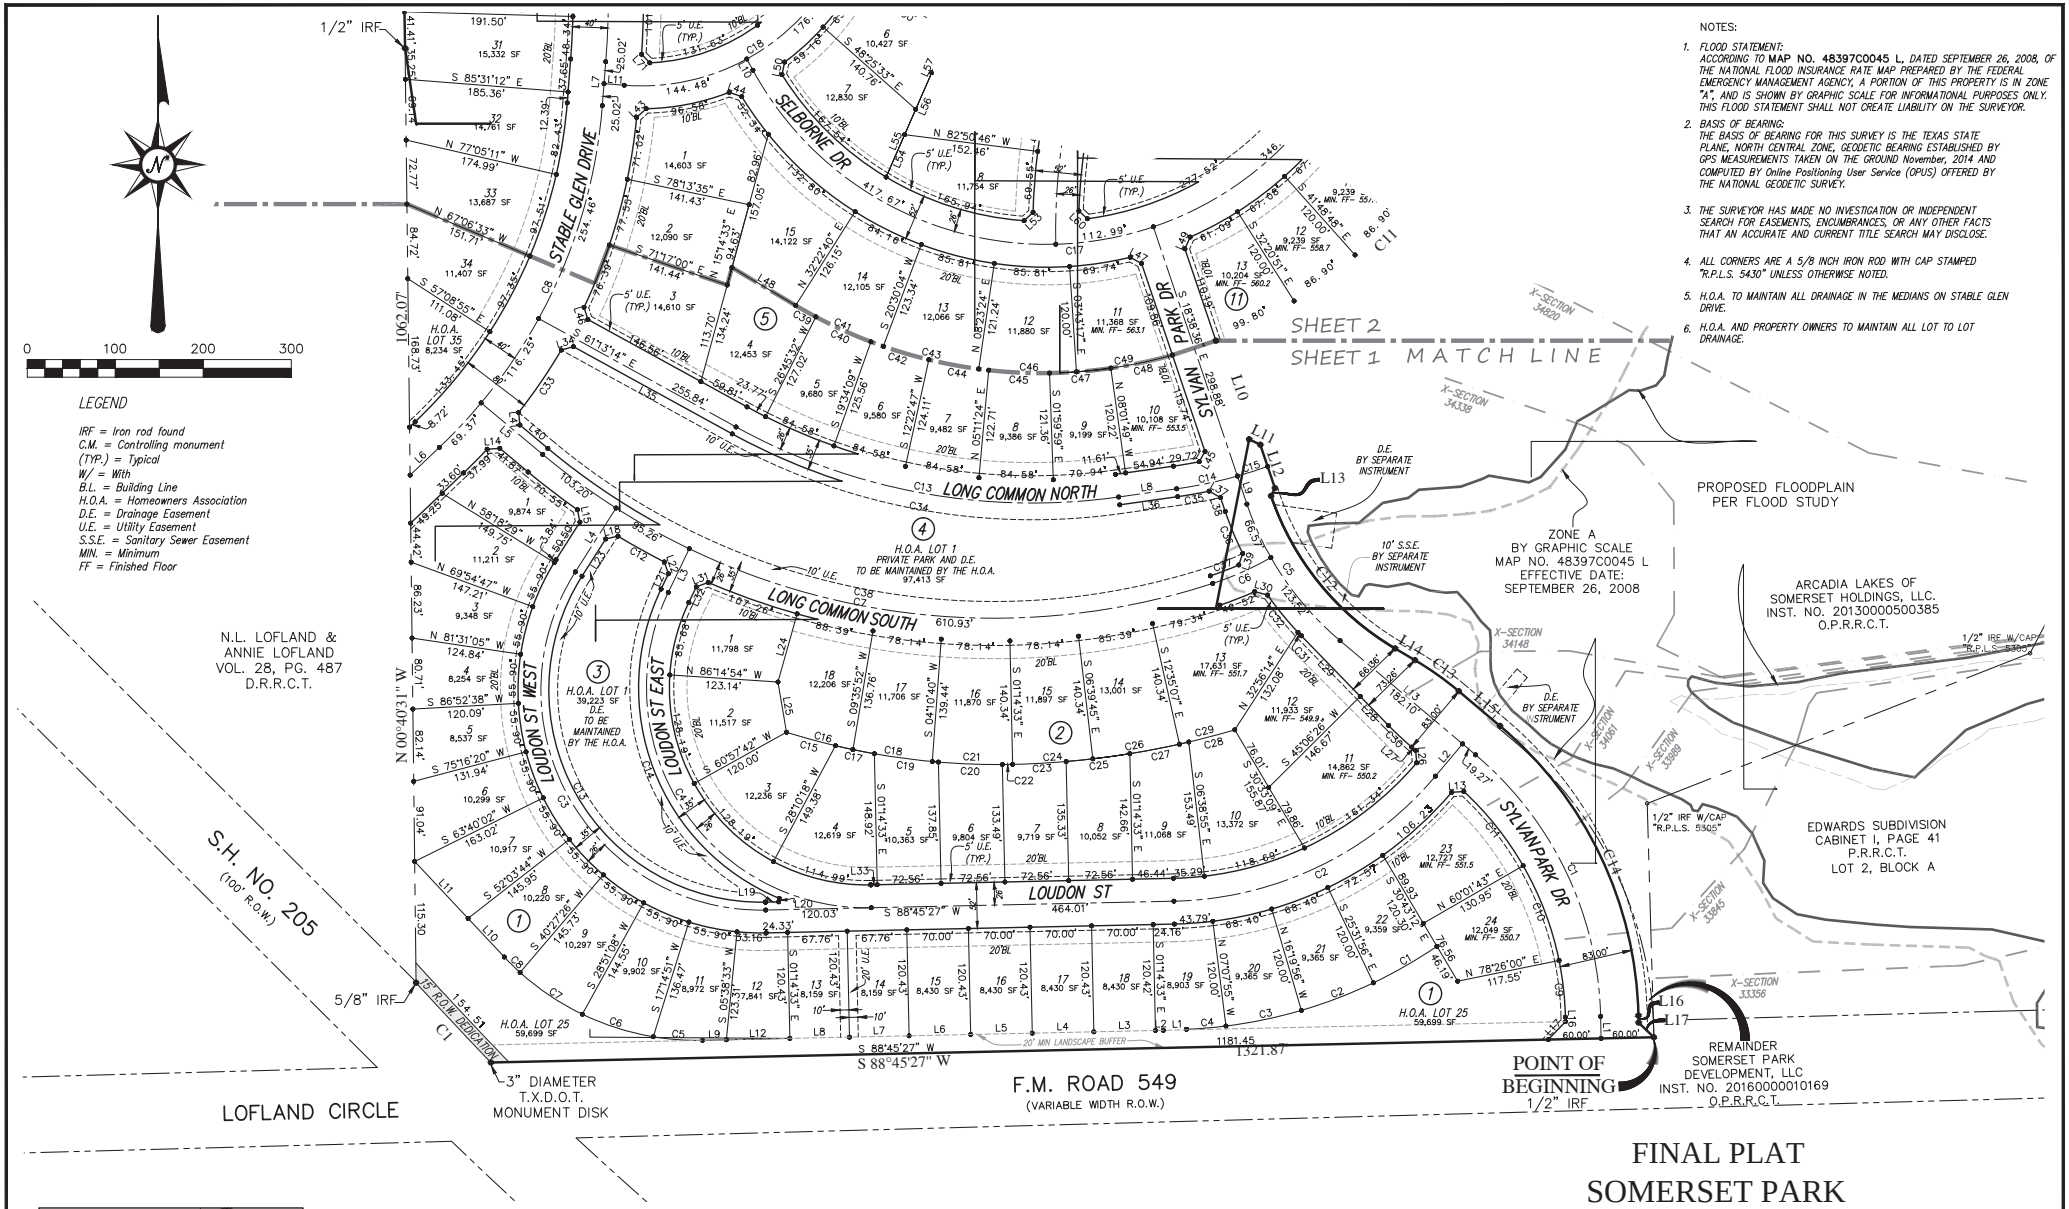


RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the *final plat* for the *Somerset Park Subdivision* staff would recommend the following conditions of approval:

1) The *final plat* shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments;

2) The site plan will be required to go to the Park Board.



3) Any construction resulting from the approval of this *final plat* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

NOTES:

1. FLOOD STATEMENT:
ACCORDING TO **MAP NO. 48397C0045 L**, DATED SEPTEMBER 26, 2008, OF THE NATIONAL FLOOD INSURANCE RATE MAP PREPARED BY THE FEDERAL EMERGENCY MANAGEMENT AGENCY, A PORTION OF THIS PROPERTY IS IN ZONE "A", AND IS SHOWN BY GRAPHIC SCALE FOR INFORMATIONAL PURPOSES ONLY. THIS FLOOD STATEMENT SHALL NOT CREATE LIABILITY ON THE SURVEYOR.
2. BASIS OF BEARING:
THE BASIS OF BEARING FOR THIS SURVEY IS THE TEXAS STATE PLANE, NORTH CENTRAL ZONE, GEODETIC BEARING ESTABLISHED BY GPS MEASUREMENTS TAKEN ON THE GROUND November, 2014 AND COMPUTED BY Online Positioning User Service (OPUS) OFFERED BY THE NATIONAL GEODETIC SURVEY.
3. THE SURVEYOR HAS MADE NO INVESTIGATION OR INDEPENDENT SEARCH FOR EASEMENTS, ENCUMBRANCES, OR ANY OTHER FACTS THAT AN ACCURATE AND CURRENT TITLE SEARCH MAY DISCLOSE.
4. ALL CORNERS ARE A 5/8 INCH IRON ROD WITH CAP STAMPED "R.P.L.S. 5430" UNLESS OTHERWISE NOTED.
5. H.O.A. TO MAINTAIN ALL DRAINAGE IN THE MEDIANS ON STABLE GLEN DRIVE.
6. H.O.A. AND PROPERTY OWNERS TO MAINTAIN ALL LOT TO LOT DRAINAGE.

OWNERS DEDICATION

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS}
COUNTY OF ROCKWALL}

I the undersigned owner of the land shown on this plat, and designated herein as the SOMERSET PARK to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Addition upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

OWNERS CERTIFICATE

STATE OF TEXAS}
COUNTY OF ROCKWALL}

WHEREAS, Somerset Park Development, LLC, and Arcadia Lakes of Somerset Holdings, LLC. are the owner's of a tract of land in the Abner Johnson Survey, Abstract No. 123, situated in the City of Rockwall, in Rockwall County, Texas, being a portion of a tract of land to Somerset Park Development, LLC, as recorded in Instrument Number 20160000010169 of the Official Public Records of Rockwall County, Texas and a portion of a remainder of a tract of land to Arcadia Lakes of Somerset Holdings, LLC. recorded in Instrument Number 20130000500385 of the Official Public Records of Rockwall County, Texas and being more particularly described as follows:

BEGINNING at a 1/2 inch iron rod found for the southeast corner of said Somerset Park tract, lying on the north Right of Way of Farm to Market (F.M.) 549, a variable width right-of-way;

THENCE South 88 degrees 45 minutes 27 seconds West along the south line of said Somerset Park tract and the north line of said F.M. 549, a distance of 1321.87 feet to a 3 inch T.X.D.O.T. right-of-way disk found for the southwest corner of said Somerset Park tract, said point also lying on the east line of State Highway (S.H.) 205 a called 100 feet wide right-of-way and at the beginning of a curve to the right;

THENCE with said curve to the right and along the east line of said S.H. 205, having a radius of 5005.59 feet, a central angle of 01 degrees 25 minutes 19 seconds, an arc length of 124.23 feet, a chord bearing of North 43 degrees 10 minutes 28 seconds West, a distance of, 124.23 feet to a 5/8 inch iron rod found for the most northerly southwest corner of said Somerset Park tract, same being the south corner of a tract of land to N.L. Lofland & Annie Lofland as recorded in Volume 28, Page 487 of the Deed Records of Rockwall County, Texas;

THENCE North 00 degrees 40 minutes 31 seconds West along the common line of said N.L. Lofland & Annie Lofland tract and said Somerset Park tract, a distance of 1062.07 feet to a 1/2 inch iron rod found at an angle point in same;

THENCE North 00 degrees 59 minutes 21 seconds West continuing along said N.L. Lofland & Annie Lofland tract and said Somerset Park tract common line, a distance of 869.90 feet to a 60-D nail found at the northerly base of a fence corner post for the northeast corner of said N.L. Lofland & Annie Lofland tract and at an inner ell corner of said Somerset Park tract;

THENCE North 85 degrees 28 minutes 38 seconds West continuing along said N.L. Lofland & Annie Lofland tract and said Somerset Park tract common line, a distance of 10.57 feet to a 1/2 inch iron rod found for the southeast corner of a tract of land to N.L. Lofland recorded in Volume 30, Page 548, of the Deed Records of Rockwall County, Texas, same point lying on the north line of said N.L. Lofland & Annie Lofland tract and on the west line of said Somerset Park tract;

THENCE North 00 degrees 08 minutes 29 seconds East along the common line of said N.L. Lofland tract and said Somerset Park tract, a distance of 428.94 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for the northwest corner of said Somerset Park tract;

THENCE departing the east line of said N.L. Lofland tract, along the north/east lines of said Somerset Park tract and partially through the interior of said Arcadia tract the following courses and distances;

THENCE North 64 degrees 22 minutes 07 seconds East, a distance of 255.05 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the left;

THENCE with said curve to the left having a radius of 574.00 feet, a central angle of 13 degrees 40 minutes 50 seconds, an arc length of 137.05 feet,a chord bearing of South 32 degrees 28 minutes 18 seconds East, a distance of 136.73 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE North 86 degrees 43 minutes 34 seconds East, a distance of 11.91 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the right;

THENCE with said curve to the right having a radius of 1040.00 feet, a central angle of 01 degrees 26 minutes 00 seconds, an arc length of 26.02 feet, a chord bearing of North 34 degrees 15 minutes 20 seconds East a distance of 26.02 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 55 degrees 02 minutes 34 seconds East a distance of 80.00 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the left;

THENCE with said curve to the left having a radius of 960.00 feet, a central angle of 02 degrees 27 minutes 29 seconds, an arc length of 41.19 feet, a chord bearing of South 33 degrees 44 minutes 40 seconds West a distance of 41.18 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 08 degrees 23 minutes 58 seconds East a distance of 15.18 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the left;

THENCE with said curve to the left having a radius of 574.00 feet, a central angle of 13 degrees 44 minutes 06 seconds, an arc length of 137.60 feet, a chord bearing of South 56 degrees 22 minutes 56 seconds East a distance of 137.27 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a reverse curve to the right;

THENCE with said reverse curve to the right having a radius of 606.00 feet, a central angle of 19 degrees 54 minutes 48 seconds, an arc length of 210.62 feet, a chord bearing of South 53 degrees 17 minutes 35 seconds East, a distance of, 209.56 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a reverse curve to the left;

THENCE with said reverse curve to the left having a radius of 424.00 feet, a central angle of 50 degrees 39 minutes 01 seconds, an arc length of 374.82 feet, a chord bearing of South 68 degrees 39 minutes 41 seconds East, a distance of, 362.73 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 03 degrees 59 minutes 12 seconds East, a distance of 52.00 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 00 degrees 57 minutes 49 seconds East, a distance of 142.77 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 06 degrees 11 minutes 04 seconds East, a distance of 184.22 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the right;

THENCE with said curve to the right having a radius of 1000.00 feet, a central angle of 23 degrees 47 minutes 40 seconds, an arc length of 415.29 feet, a chord bearing of South 05 degrees 42 minutes 46 seconds West, a distance of, 412.31 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 71 degrees 47 minutes 52 seconds East, a distance of 173.23 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the right;

THENCE with said curve to the right having a radius of 1476.00 feet, a central angle of 00 degrees 54 minutes 00 seconds, an arc length of 23.18 feet, a chord bearing of South 18 degrees 39 minutes 08 seconds West, a distance of, 23.18 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a compound curve continuing to the right;

THENCE with said compound curve continuing to the right having a radius of 406.00 feet, a central angle of 00 degrees 41 minutes 12 seconds, an arc length of 4.86 feet, a chord bearing of South 19 degrees 26 minutes 43 seconds West, a distance of, 4.86 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 70 degrees 12 minutes 41 seconds East, a distance of 120.00 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the right;

THENCE with said curve to the right having a radius of 526.00 feet, a central angle of 48 degrees 44 minutes 05 seconds, an arc length of 447.41 feet, a chord bearing of South 44 degrees 09 minutes 22 seconds West, a distance of, 434.04 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 18 degrees 38 minutes 36 seconds East a distance of 118.21 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 63 degrees 53 minutes 02 seconds East a distance of 14.08 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 18 degrees 38 minutes 36 seconds East a distance of 52.01 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 26 degrees 04 minutes 50 seconds West a distance of 9.95 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the left;

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/15/2016

APPLICANT: Eric Morff of *Cole*

AGENDA ITEM: **P2016-048;** Lot 3 Road Runner Addition

SUMMARY:

Discuss and consider a request by Eric Morff of Cole on behalf of the owner 2804 Ridge, LLC for the approval of a replat for Lot 3 of Road Runner Addition being a 0.93-acre parcel of land identified as Lot 2, Road Runner Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, addressed as 2804 S. Goliad Street, and take any action necessary.

COMMENTS:

- ✓ The applicant is requesting approval of a replat for the purpose of constructing a 4,300 sq. ft. restaurant with a drive-through facility (*i.e. Panera Bread*). The 0.93-acre parcel of land is zoned Commercial (C) District, is within the IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, and is generally located on the southwest corner of IH-30 and Ridge Road and is addressed as 2804 S. Goliad Street.

- ✓ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ✓ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions listed in the *Recommendations* section below.

- ✓ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the request for replat, staff would recommend the following conditions of approval:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit; and,

2) Any construction resulting from the approval of this final plat shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

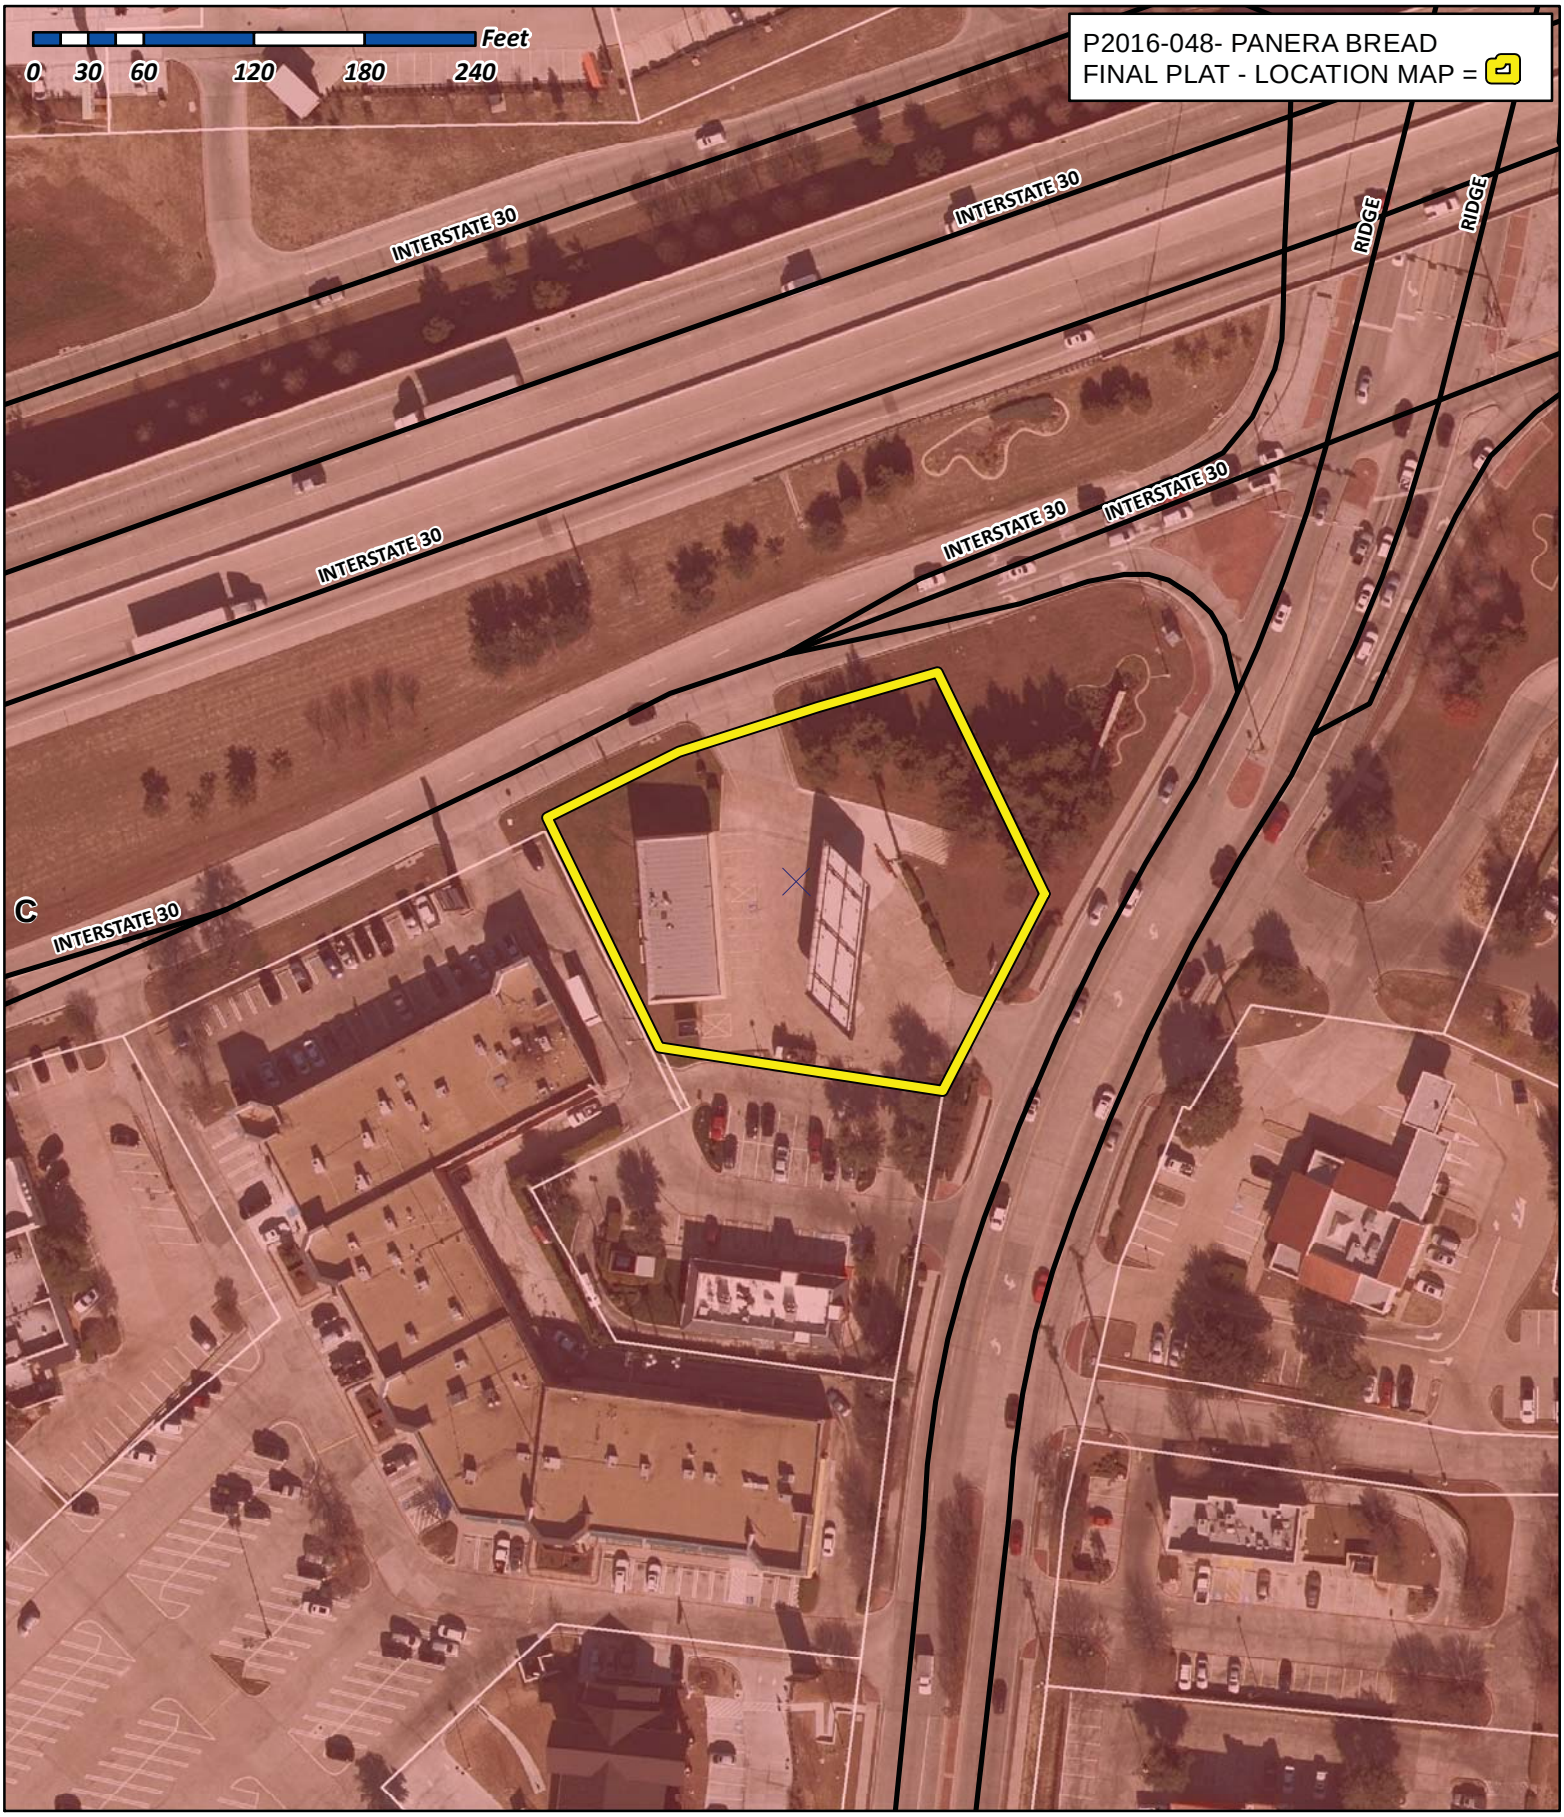
PLANNING COMMENTS - DAVID GONZALES - 11.07.2016

Discuss and consider a request by Eric Morff of Cole on behalf of the owner 2804 Ridge, LLC for the approval of a replat for Lot 3 of Road Runner Addition being a 0.93-acre parcel of land identified as Lot 2, Road Runner Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, addressed as 2804 S. Goliad Street, and take any action necessary.

The following staff comments (including Rockwall County comments) are to be addressed and resubmitted no later than Tuesday, November 22, 2016. Please provide three large copies [18" X 24" FOLDED] and one PDF version for a subsequent review by staff:

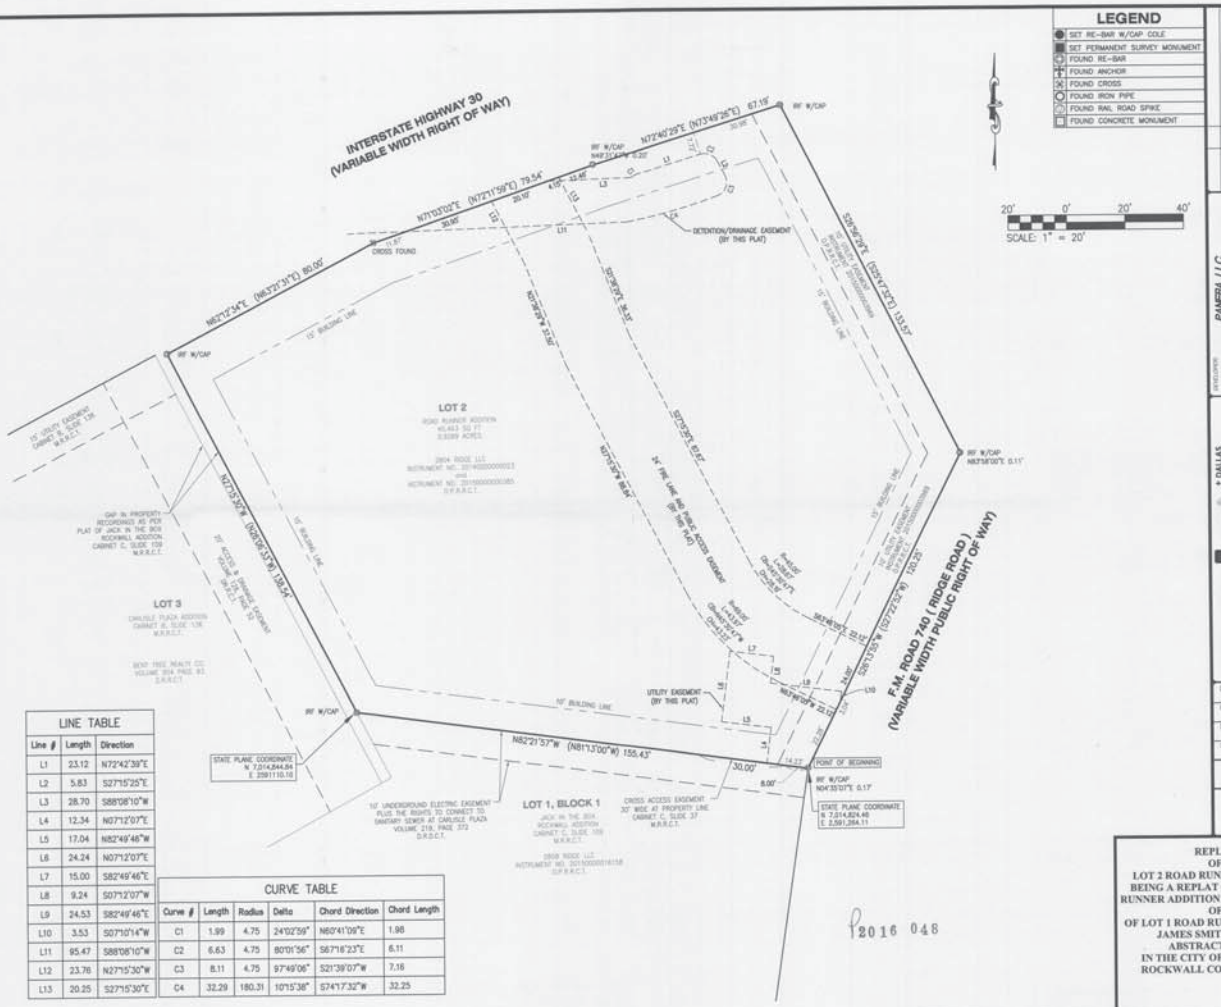


1. Adherence to all Engineering and Fire Department standards shall be required.
2. Provide a label indicating "Case No. P2016-048" on the lower right corner on all pages of the revised plat.
3.Provide City staff with a .dwg file.
4. Provide cross access easement and dimensions to/from Jack in the Box for south propery line.
5. Change Title Block to read as follows:
Final Plat
Lot 3 Road Runner Addition
being a replat of
Lot 2 Road Runner Addition
James Smith suryvey
City of Rockwall, Rockwall County, Texas
6. Provide adjacent property owner information for the adjacent lot east of subdivision (TXDOT?).
7. Move Location Map from page two (2) to page one (1).
8. Correct Owners Certificate:
a) 1st paragraph needs to read,..."Whereas, 2804...the sole owner of one tract of land..."the the plat thereof recorded in "cabinet I,slide 157..."
b) Now, thereof, know all men by these presents,...1st paragraph - does hereby adopt this plat..."change from Lot 2 to LOT 3"

As a note and once the plat has been approved by the Planning and Zoning Commission and City Council, all staff comments are to be addressed and all revisions resubmitted and approved (by staff) prior to plat submittal on mylar for filing purposes. **

Meeting Dates to Attend; Since this item is on the Consent Agenda you are not required to attend either meeting; however, staff recommends that a representative is present during both scheduled meetings as indicated below. The meetings will be held in the City's Council Chambers. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Planning - Consent Agenda: November 17, 2016 (6:00 p.m.)



City Council - Consent Agenda: November 21, 2016 (6:00 p.m.)

COUNTY OF ROCKWALL
CITY OF ROCKWALL

THAT, 2804 RIDGE, LLC, A TEXAS LIMITED LIABILITY COMPANY, DOES HEREBY ADOPT THIS PLAT DESIGNATING THE HEREINABOVE DESCRIBED PROPERTY AS REPLAT ROAD RUNNER ADDITION, LOT 2, A SUBDIVISION TO THE CITY OF ROCKWALL, TEXAS, AND WHOSE NAME IS SUBSCRIBED HERETO, HEREBY DEDICATE TO THE USE OF THE PUBLIC FOREVER ALL STREETS, ALLEYS, PARKS, WATER COURSES, DRAINS, EASEMENTS AND PUBLIC PLACES THEREON SHOWN FOR THE PURPOSES AND CONSIDERATION THEREIN EXPRESSED. I FURTHER CERTIFY THAT ALL OTHER PARTIES WHO HAVE A MORTGAGE OR LEN INTEREST IN THE REPLAT ROAD RUNNER ADDITION, LOT 2, SUBDIVISION HAVE BEEN NOTIFIED AND SIGNED THIS PLAT.

I UNDERSTAND AND DO HEREBY RESERVE THE EASEMENTS STRIPS SHOWN ON THIS PLAT FOR THE PURPOSES STATED AND FOR THE MUTUAL USE ACCOMMODATION OF ALL UTILITIES DESIRING TO USE OR USING SAME. I ALSO UNDERSTAND THE FOLLOWING:

1. NO BUILDINGS SHALL BE CONSTRUCTED UPON, OVER, OR ACROSS THE UTILITY EASEMENTS AS DESCRIBED HEREIN.
2. ANY PUBLIC UTILITY SHALL HAVE THE RIGHT TO REMOVE AND KEEP REMOVED ALL OR PART OF ANY BUILDING, FENCES, TREES, SHRUBS, OR OTHER GROWTHS OR IMPROVEMENTS WHICH IN ANY WAY ENDANGER OR INTERFERE WITH CONSTRUCTION, MAINTENANCE, OR EFFICIENCY OF THEIR RESPECTIVE SYSTEM ON ANY OF THESE EASEMENTS STRIPS, AND ANY PUBLIC UTILITY SHALL AT ALL TIMES HAVE THE RIGHT TO INGRESS OR EGRESS TO, FROM AND UPON THE SAID EASEMENT STRIPS FOR THE PURPOSE OF CONSTRUCTION, RECONSTRUCTING, INSPECTING, PATROLLING, MAINTAINING, AND OTHER ACTION TO OR REMOVING ALL OR PART OF THE RESPECTIVE SYSTEM WITHOUT THE NECESSITY OR, AT ANY TIME, PROCURING THE PERMISSION OF ANYONE.
3. THE CITY OF ROCKWALL WILL NOT BE RESPONSIBLE FOR ANY CLAIMS OF ANY NATURE RESULTING FROM OR OCCASIONED BY THE ESTABLISHMENT OF GRADE OF STREETS IN THE SUBDIVISION.
4. THE DEVELOPER AND SUBDIVISION ENGINEER SHALL BEARS TOTAL RESPONSIBILITY FOR STORM DRAIN IMPROVEMENTS.
5. THE DEVELOPER SHALL BE RESPONSIBLE FOR THE NECESSARY FACILITIES TO PROVIDE DRAINAGE PATTERN AND DRAINAGE CONTROLS SUCH THAT PROPERTIES WITHIN THE DRAINAGE AREA ARE NOT ADVERSELY AFFECTED BY STORM DRAINAGE FROM THE DEVELOPMENT.
6. NO HOUSE DWELLING UNIT, OR OTHER STRUCTURE SHALL BE CONSTRUCTED ON ANY LOT IN THIS ADDITION BY THE OWNER OR ANY OTHER PERSON UNTIL DEVELOPER AND/OR OWNER HAS COMPLIED WITH ALL REQUIREMENTS OF THE SUBDIVISION REGULATIONS OF THE CITY OF ROCKWALL REGARDING IMPROVEMENTS WITH RESPECT TO THE ENTIRE BLOCK ON THE STREET OR STREETS ON WHICH PROPERTY ABUTS, INCLUDING THE ACTUAL INSTALLATION OF STREETS WITH REQUIRED BASE AND PAVING, CURB AND GUTTER, WATER AND SEWER, DRAINAGE STRUCTURES, STORM STRUCTURES, STORM SEWERS, AND ALLEYS, ALL ACCORDING TO THE SPECIFICATIONS OF THE CITY OF ROCKWALL; OR

UNTIL AN ESCROW DEPOSIT SUFFICIENT TO PAY FOR THE COST OF SUCH IMPROVEMENTS, AS DETERMINED BY THE CITY'S ENGINEER AND/OR CITY ADMINISTRATOR, COMPUTED ON A PRIVATE COMMERCIAL RATE BASIS, HAS BEEN MADE WITH THE CITY SECRETARY, ACCORDING BY AN AGREEMENT SIGNED BY THE DEVELOPER AND/OR OWNER, AUTHORIZING THE CITY TO MAKE SUCH IMPROVEMENTS AT PREVAILING PRIVATE COMMERCIAL RATES, OR HAVE THE SAME MADE BY A CONTRACTOR AND PAY THE SAME OUT OF ESCROW DEPOSIT, SHOULD THE DEVELOPER AND/OR OWNER FAIL OR REFUSE TO INSTALL THE REQUIRED IMPROVEMENTS WITHIN THE TIME STATED IN SUCH WRITTEN AGREEMENT, BUT IN NO CASE SHALL THE CITY BY OBLIGATE TO MAKE SUCH IMPROVEMENTS ITSELF. SUCH DEPOSIT MAY BE USED BY THE DEVELOPER AND/OR OWNER AS PROGRESS PAYMENTS AS THE WORK PROGRESSED IN MAKING SUCH IMPROVEMENTS BY MAKING CERTIFIED REQUISITIONS TO THE CITY SECRETARY, SUPPORTED BY EVIDENCE OF WORK DONE; OR

UNTIL THE DEVELOPER AND/OR OWNER FILES A CORPORATE SURETY BOND WITH THE CITY SECRETARY IN A SUM EQUAL TO THE COST OF SUCH IMPROVEMENTS FOR THE DESIGNATED AREA, GUARANTEEING THE INSTALLATION THEREOF WITHIN THE TIME STATED IN THE BOND, WHICH TIME SHALL BE FIXED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL.

I FURTHER ACKNOWLEDGE THAT THE DEDICATIONS AND/OR EXACTIONS MADE HEREIN ARE PROPORTIONAL TO THE IMPACT OF THE SUBDIVISION UPON THE PUBLIC SERVICES REQUIRED IN ORDER THAT THE DEVELOPMENT WILL COMPORT WITH THE PRESENT AND FUTURE GROWTH NEEDS OF THE CITY. OUR SUCCESSORS AND ASSIGNS HEREBY WAIVE ANY CLAIM, DAMAGE, OR CAUSE OF ACTION THE WE MAY HAVE AS A RESULT OF THE DEDICATION OF EXACTIONS MADE HEREIN.

GENERAL NOTES:

1. ALL BEARINGS AND DISTANCES ARE RECORDED (R) AND SURVEYED (S), UNLESS OTHERWISE NOTED.
2. BEARINGS SHOWN HEREON (EXAMPLE: N62°12'34"E ARE BASED ON STATE PLANE COORDINATES ESTABLISHED FROM THE TEXAS COORDINATE SYSTEM, NAD 1983, (TEXAS NORTH CENTRAL ZONE). THE COORDINATES WERE DETERMINED USING A TRIMBLE R8 GNSS RECEIVER, TRIMBLE TSC3 CONTROLLER, TRIMBLE ACCESS AND ASSOCIATED SOFTWARE, AND THE RTKNET 2011 REAL TIME NETWORK OF GNSS CONTINUOUSLY OPERATING REFERENCE STATIONS (CORS) OBSERVED DURING MAY, 2016.
3. BASIS OF BEARING SHOWN HEREON IN PARENTHESIS: (N62°21'31"E) RECORDED PLAT OF JACK IN THE BOX ADDITION, AN ADDITION TO THE CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, ACCORDING TO THE PLAT THEREOF RECORDED IN CABINET C, SLIDE 109, MAP RECORDS OF ROCKWALL COUNTY, TEXAS.
4. COORDINATES SHOWN ARE BASED UPON THE TEXAS STATE PLANE COORDINATE SYSTEM, NORTH CENTRAL ZONE, NORTH AMERICAN DATUM OF 1983 ON GRID COORDINATE VALUES, NO SCALE AND NO PROJECTION.
5. TOTAL AREA OF BOUNDARY = 40,463 SQUARE FEET OR 0.838 ACRES
6. SELLING A PORTION OF THIS ADDITION BY METES AND BOUNDS IS A VIOLATION OF CITY ORDINANCE AND STATE LAW AND IS SUBJECT TO FINES AND WITHHOLDING OF UTILITIES AND BUILDING PERMITS.
7. AS DETERMINED THROUGH GRAPHIC PLOTTING ONLY, SUBJECT TRACT FALLS IN ZONE "X"; AREAS DETERMINED TO BE OUTSIDE THE 0.2% ANNUAL CHANCE FLOODPLAIN PER THE FEDERAL EMERGENCY MANAGEMENT AGENCY FLOOD INSURANCE RATE MAP FOR ROCKWALL COUNTY, TEXAS AND INCORPORATED AREAS, PANEL 45 OF 145, MAP NUMBER 48397C0045L, EFFECTIVE DATE OF SEPTEMBER 26, 2008
8. THE UNDERGROUND UTILITIES SHOWN HAVE BEEN LOCATED FROM FIELD SURVEY INFORMATION. THE SURVEYOR MAKES NO GUARANTEES THAT THE UNDERGROUND UTILITIES SHOWN COMPRISE ALL SUCH UTILITIES IN THE AREA, EITHER IN-SERVICE OR ABANDONED. THE SURVEYOR FURTHER DOES NOT WARRANT THE UNDERGROUND UTILITIES SHOWN ARE IN THE EXACT LOCATION INDICATED ALTHOUGH THE SURVEYOR DOES CERTIFY THAT THEY ARE LOCATED AS ACCURATELY AS POSSIBLE FROM INFORMATION AVAILABLE. THE SURVEYOR HAS NOT PHYSICALLY LOCATED THE UNDERGROUND UTILITIES.
9. BLOCKING THE FLOW OF WATER OR CONSTRUCTION IMPROVEMENTS IN DRAINAGE EASEMENTS, AND FILLING OR OBSTRUCTION OF THE FLOODWAY IS PROHIBITED.
10. PURPOSE OF THIS PLAT IS TO ESTABLISH NEW EASEMENTS.
11. THE PROPERTY OWNER SHALL BE RESPONSIBLE FOR THE MAINTENANCE, REPAIRING AND REPLACEMENT OF THE DETENTION SYSTEM

RECOMMENDED FOR FINAL APPROVAL:

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/15/2016

APPLICANT: Matt Moore, PE; *Claymoore Engineering, Inc.*

AGENDA ITEM: **P2016-049;** Presbyterian Hospital Addition

SUMMARY:

Discuss and consider a request by Matt Moore, PE of Claymoore Engineering, Inc. on behalf of the owner Cindy Paris of Rockwall Regional Hospital, LLP for the approval of a replat for Lot 22, Block A, Presbyterian Hospital Addition being a 18.867-acre parcel of land identified as Lot 15, Block A, Presbyterian Hospital of Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, located east of the intersection of Summer Lee Drive and Rockwall Parkway, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to replat an 18.867-acre parcel of land [*Lot 15, Block A, Presbyterian Hospital of Rockwall Addition*] for the purpose of constructing a 55,827 sq. ft. medical office building.

- ☑ On October 11, 2016, the Planning and Zoning Commission approved a site plan [*SP2016-020]* for a medical office building to be located on the subject property. Currently, the subject property has a hospital (i.e. Presbyterian Hospital), an existing medical office building, and a future medical office building.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

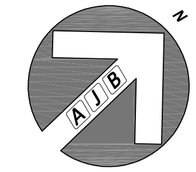
- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the Recommendation section below.

- ☑ With the exception of the items listed in the Recommendation section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the applicant's request, staff would recommend the following conditions of approval:

1) All technical comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;



2) Any construction or building necessary to complete this replat request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

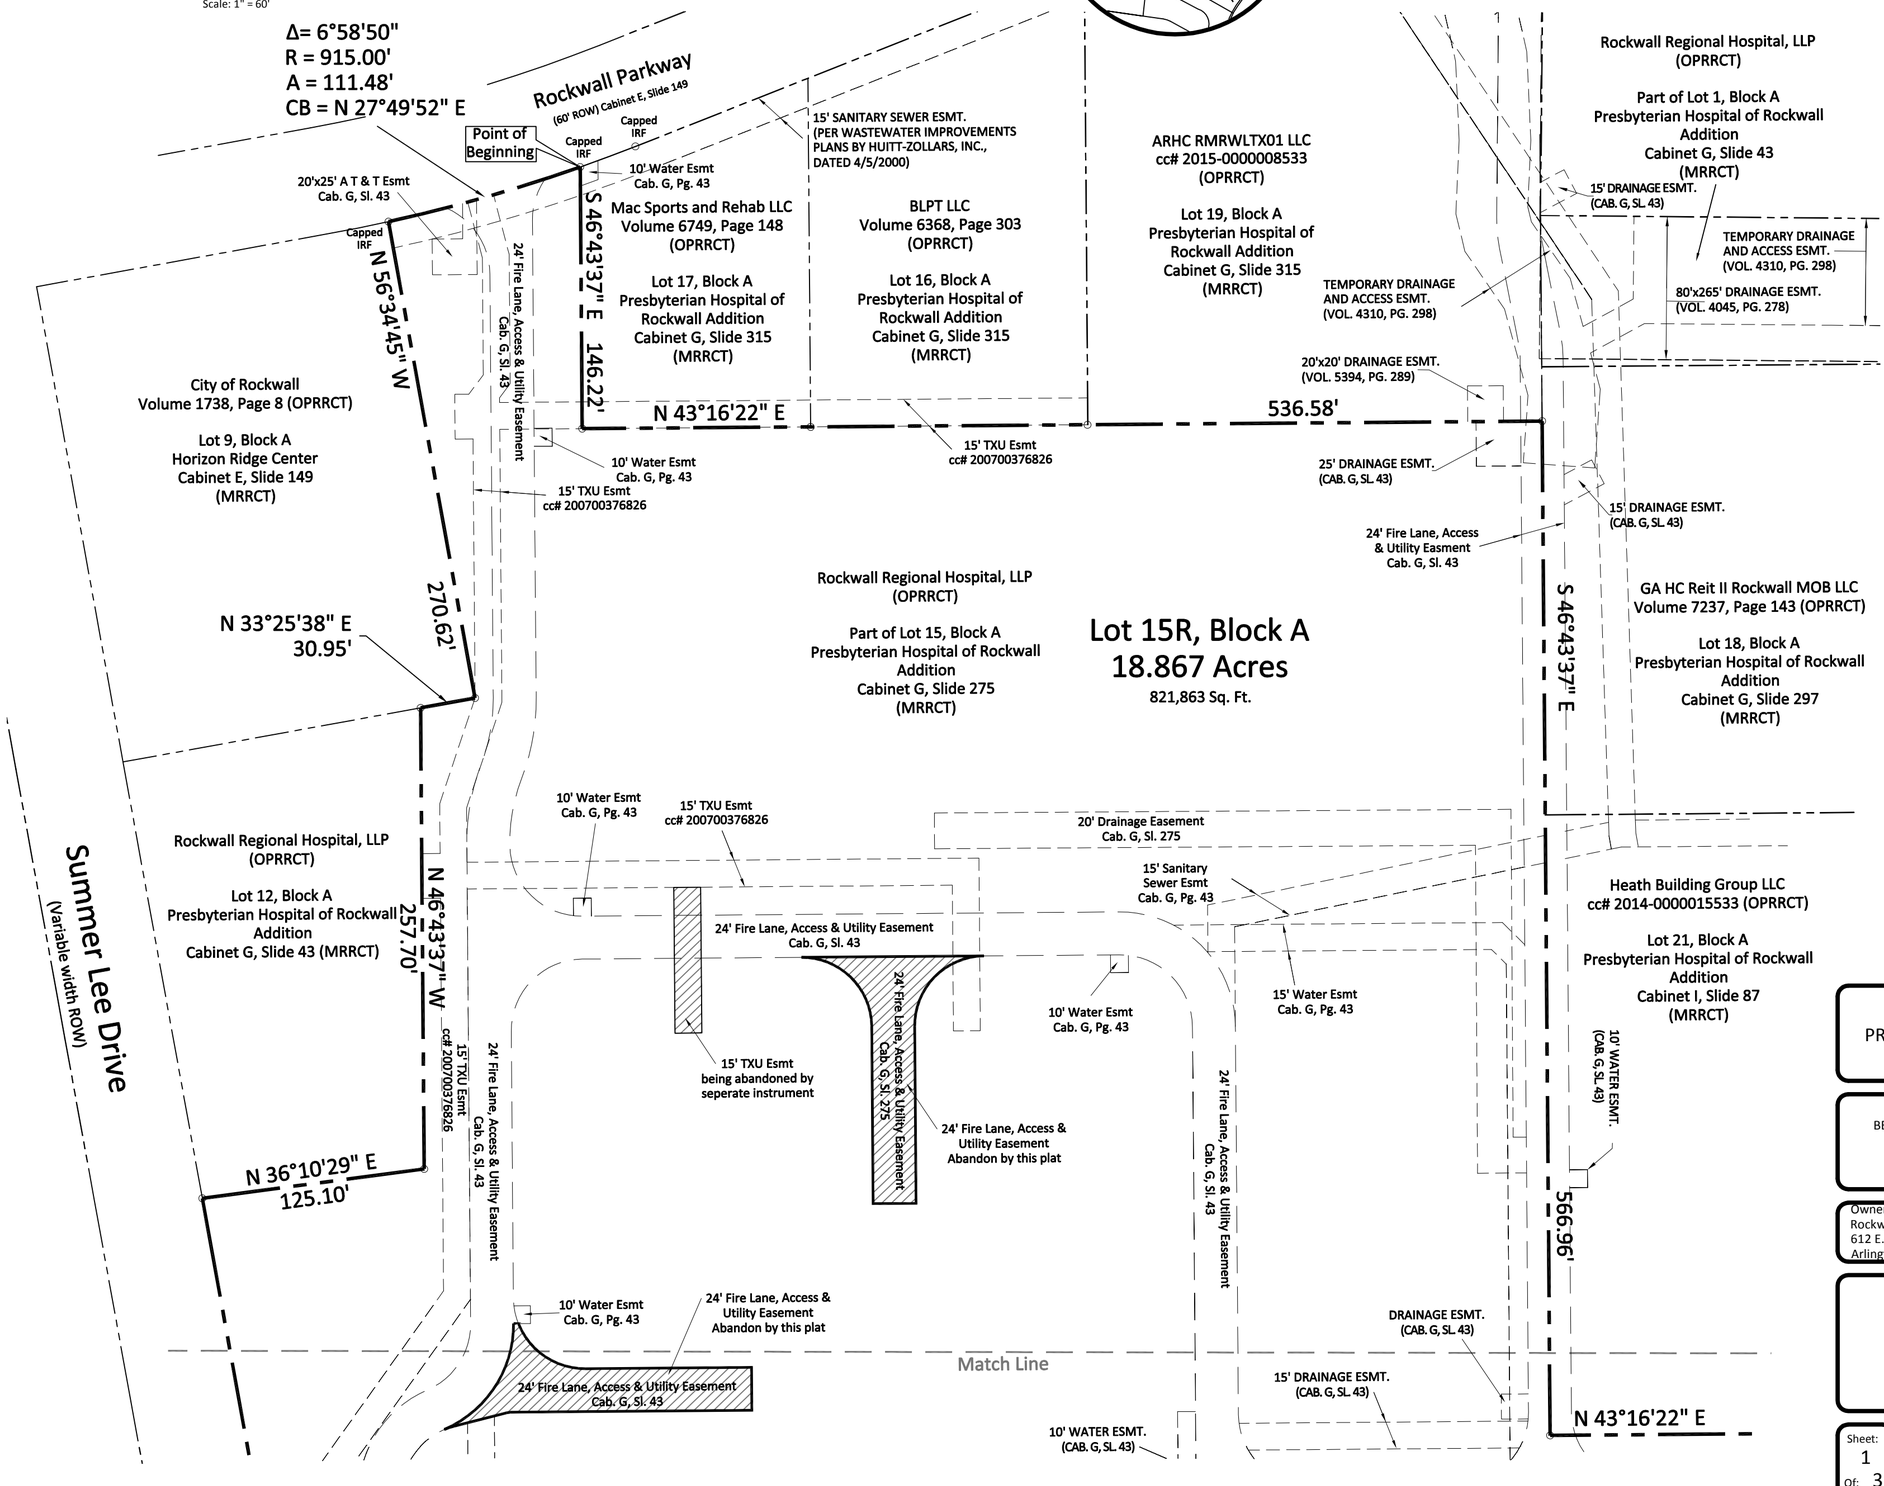
GENERAL NOTES:



The use of the word "certify or certificate" used hereon constitutes an expression of professional opinion regarding those facts of findings which are the subject of the certification, and does not constitute a warranty or guarantee, either expressed or implied.

Basis of Bearings: Bearings are based on those cited on plat of Presbyterian Hospital of Rockwall Addition recorded in Cabinet G, Slide 275, Map/Plat Records Rockwall County, Texas.

FLOOD STATEMENT: According to Community Panel No. 48397C0040L, dated September 26, 2008 of the Federal Emergency Management Agency, National Flood Insurance Program map this property is within Flood Zone "X", which is not a special flood hazard area. If this site is not within an identified special flood hazard area, this flood statement does not imply that the property and/or the structures thereon will be free from flooding or flood damage. On rare occasions, greater floods can and will occur and flood heights may be increased by man-made or natural causes. This statement shall not create liability on the part of the Surveyor

UTILITY NOTE:

The location of utilities shown hereon are from observed evidence of above ground appurtenances and/or surface ground markings provided by others only. The surveyor has not been provided with underground plans to determine the location of any subterranean uses. No excavation has been performed to determine depth or size of any underground utility shown hereon.

OWNER'S CERTIFICATE

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS ROCKWALL REGIONAL HOSPITAL, LLP, BEING THE OWNER OF A TRACT OF LAND IN THE COUNTY OF ROCKWALL, STATE OF TEXAS, said tract being described as follows:

BEING an 18.867 acre tract of land situated in the Edward Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas and being a portion of Lot 15, Block A of Presbyterian Hospital of Rockwall Addition an addition to the City of Rockwall according to the plat recorded in Cabinet G, Slide 275, Map Records, Rockwall County, Texas (MRRCT) and being more particularly described as follows:

BEGINNING at a capped iron rod found for corner in the easterly line of Rockwall Parkway a 60 feet wide right of way as dedicated in Cabinet E, Slide 149 (MRRCT), and being the westerly corner of Lot 17, Block A of Presbyterian Hospital of Rockwall Addition according to the plat recorded in Cabinet G, Slide 315 (MRRCT);

THENCE along the common line of said Lot 15 and Lot 17, SOUTH 46°43'37" EAST a distance of 146.22 feet to a capped iron rod found for corner;

THENCE continuing along said common line, NORTH 43°16'22" EAST a distance of 536.58 feet to a capped iron rod found for corner in the southwest line of lot 18, Block A of Presbyterian Hospital of Rockwall Addition as recorded in Cabinet G, Slide 297 (MRRCT);

THENCE along the common line of said Lot 15 and Lot 18, SOUTH 46°43'37" EAST a distance of 566.96 feet to a capped iron rod found for corner at the southerly corner of Lot 21, Block A of Presbyterian Hospital of Rockwall Addition according to the plat recorded in Cabinet I, Slide 87 (MRRCT);

THENCE along the common line of said Lot 15 and Lot 21, NORTH 43°16'22" EAST a distance of 233.23 feet to a capped iron rod found for corner in the southwest line of Horizon Road (FM 3097) a variable width right of way as dedicated to the State of Texas by deed recorded in County Clerk's File No. 20140000002244, Official Public Records, Rockwall County, Texas (OPRRCT);

THENCE along the south line of said Horizon Road (FM 3097), SOUTH 45°47'15" EAST a distance of 112.01 feet to a capped iron rod found for corner at the northerly corner of Lot 20, Block A of Presbyterian Hospital of Rockwall Addition according to the plat recorded in Cabinet H, Slide 63 (MRRCT);

THENCE along the common line of said Lot 15 and Lot 20, SOUTH 43°16'22" WEST a distance of 231.39 feet to a capped iron rod found for corner;

THENCE continuing along said common line, SOUTH 46°43'37" EAST a distance of 444.69 feet to a point for corner at an ell corner of Lot 6, Block A of Presbyterian Hospital of Rockwall Addition according to the plat recorded in Cabinet G, Slide 43 (MRRCT);

THENCE along the common line of said Lot 15 and Lot 6 as follows:

SOUTH 01°40'00" EAST a distance of 29.38 feet to a capped iron rod found for corner;

SOUTH 43°16'22" WEST a distance of 55.03 feet to a capped iron rod found for corner;

SOUTH 01°43'35" EAST a distance of 23.89 feet to a capped iron rod found for corner;

SOUTH 46°43'37" EAST a distance of 213.68 feet to a capped iron rod found for corner in the northwesterly line of Tubbs Road an 85 feet wide right of way dedicated by Cabinet G, Slide 11 (MRRCT) and being the beginning of a non-tangent curve to the left having a radius of 1042.50 feet and a chord bearing of SOUTH 46°08'05" WEST;

THENCE along the northwesterly line of said Tubbs Road and along said non-tangent curve to the left through a central angle of 03°44'34" for an arc length of 68.10 feet to a capped iron rod found for corner at the easterly corner of Lot 7, Block A of Presbyterian Hospital of Rockwall Addition according to the plat recorded in Cabinet G, Slide 43 (MRRCT);

THENCE along the common line of said Lot 15 and Lot 7 as follows:

NORTH 46°43'37" WEST a distance of 210.30 feet to a capped iron rod found for corner;

SOUTH 88°16'25" WEST a distance of 28.49 feet to a capped iron rod found for corner and being the beginning of a non-tangent curve to the left having a radius of 1411.52 feet and a chord bearing of SOUTH 35°33'50" WEST;

Along said non-tangent curve to the left through a central angle of 15°40'34" for an arc length of 386.19 feet to a capped iron rod found for corner in the northwest line of Lot 9, Block A of Presbyterian Hospital of Rockwall Addition according to the plat recorded in Cabinet G, Slide 43 (MRRCT);

THENCE along the common line of said Lot 15 and Lot 9, SOUTH 27°14'58" WEST a distance of 32.73 feet to a capped iron rod found for corner in the northeasterly line of Summer Lee Drive a variable width right of way;

THENCE along said Summer Lee drive as follows:

NORTH 62°45'02" WEST a distance of 177.12 feet to a capped iron rod found for corner and being the beginning of a curve to the right having a radius of 825.00 feet and a chord bearing of NORTH 59°39'54" WEST;

Along said curve to the right through a central angle of 06°10'17" for an arc length of 88.86 feet to a capped iron rod found for corner;

NORTH 56°34'45" WEST a distance of 524.21 feet to a capped iron rod found for corner at the southerly corner of Lot 12, Block A of Presbyterian Hospital of Rockwall Addition according to the plat recorded in Cabinet G, Slide 43 (MRRCT);

THENCE along the common line of said Lot 15 and Lot 12, NORTH 36°10'29" EAST a distance of 125.10 feet to a capped iron rod found for corner;

THENCE continuing along said common line, NORTH 46°43'37" WEST a distance of 257.70 feet to a capped iron rod found for corner in the southeast line of Lot 9, Block A of Horizon Ridge Center an addition to the City of Rockwall according to the plat recorded in Cabinet E, Slide 149 (MRRCT);

THENCE along the common line of said Lot 15 and Lot 9, NORTH 33°25'38" EAST a distance of 30.95 feet to a capped iron rod found for corner;

THENCE continuing along said common line, NORTH 56°34'45" WEST a distance of 270.62 feet to a capped iron rod found for corner in the southeast line of said Rockwall Parkway and being the beginning of a non-tangent curve to the left having a radius of 915.00 feet and a chord bearing of NORTH 27°49'52" EAST;

THENCE along the southeast line of said Rockwall Parkway and along said non-tangent curve to the left through a central angle of 06°58'50" for an arc length of 111.48 feet to the POINT OF BEGINNING;

CONTAINING 18.867 acres or 821,863 square feet of land more or less.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:
STATE OF TEXAS
COUNTY OF ROCKWALL

We, **ROCKWALL REGIONAL HOSPITAL, LLP** , the undersigned owner of the land shown on this plat, and designated herein as the **PRESBYTERIAN HOSPITAL OF ROCKWALL ADDITION** subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the **PRESBYTERIAN HOSPITAL OF ROCKWALL ADDITION** subdivision have been notified and signed this plat. We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall;

7. Property owner is responsible for maintenance, repair, and replacement of all detention/drainage facilities in easements;

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We, my (our) successors and assigns hereby waive any claim, damage, or cause of action that We may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/15/2016

APPLICANT: Phillip Craddock; *Craddock Architecture, PLLC*

AGENDA ITEM: **Z2016-033**; Hotel on Vigor Way

SUMMARY:

Hold a public hearing and consider a request by Philip Craddock of Craddock Architecture, PLLC on behalf of the owner Pastem Corporation for the approval of a Specific Use Permit (SUP) for the purpose of allowing a residence hotel in a Commercial (C) District that exceeds 36-feet in height in the Scenic Overlay (SOV) District for a 1.74-acre parcel of land identified as Lot 1, Block A, Comfort Inn & Suites Rockwall Towne Centre Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, addressed as 700 E. IH-30, and take any action necessary.

PURPOSE AND CHARACTERISTICS OF THE REQUEST:

The applicant is requesting the approval of a Specific Use Permit (SUP) to allow a residence hotel on a 1.74-acre parcel of land located north of IH-30 on Vigor Way. This property is currently zoned Commercial (C) District. According to the Section 1, *Land Use Table*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC) a *hotel, residence* requires an SUP in a Commercial (C) District.

On August 4, 2008, the City Council approved an SUP [*Ordinance No. 08-37*] to allow for a hotel in a Commercial (C) District. At that time, the ordinance restricted *hotel, residence* on the subject property. Additionally, the ordinance required that the building elevations *strictly adhere* to the elevations contained in the ordinance. Also, the ordinance required that the building be limited to a maximum of 58-feet in height. Since this original approval, the applicant has requested to change the SUP to allow a *residence hotel* with the provision that four (4) of the suites be residence suites. In addition, the applicant is proposing new building elevations, which would be required to generally conform to the building elevations in the attached ordinance at the time of site plan. The hotel will also be limited 65-feet in height.

With the exception of the proposed residence suites, the applicant's request conforms to all applicable requirements; however, granting a Specific Use Permit (SUP) is a discretionary act to the City Council. If approved, the applicant will be required to submit a site plan and replat conforming to all applicable requirements. Additionally, this SUP shall supersede all requirements stipulated in Ordinance No. 08-37. Contained in the attached packet is a copy of the applicant's letter, a concept plan, and draft ordinance.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are all follows:

North: Directly north of the subject property there are two restaurants (i.e. Popeyes and Culvers). Beyond that is Ridge Road which is identified as an *M4D (major collector,*

four [4] lane divided highway) in the City's *Master Thoroughfare Plan*. This area is zoned Commercial (C) District.

South: Directly south of the subject property is a restaurant (*i.e. Denny's*), an automotive shop (*i.e. Valvoline Oil Change*), and a tire shop (*i.e. Goodyear*). Beyond this is IH-30. This area is zoned Commercial (C) District.

East: Directly east of the subject property is Vigor Way, which is a private road. Beyond this street is a shopping center (*i.e. Rockwall Towne Centre*), which is zoned Commercial (C) District.

West: Directly west of the subject property there are two (2) restaurants (i.e. Wendy's and McDonalds), a shopping center (i.e. Rockwall Towne Centre), and a gas station (i.e. Chevron). Beyond this is Ridge Road which is identified as an M4D (major collector, four [4] lane, divided highway] on the City's *Master Thoroughfare Plan*. This area is zoned Commercial (C) District.

NOTIFICATION:

On October, 27, 2016, staff sent 35 notices to property owners/residents within 500-feet of the subject property. Staff also mailed notices to the Lakeside Village and Turtle Cove HOA's, which are the only HOA's/Neighborhood associations that are within 1,500-feet and participating in the notification program. Additionally, staff posted a sign on the subject property as required by the Unified Development Code (UDC). At the time this report was drafted, staff has received one (1) notice in opposition of the request.

RECOMMENDATIONS:

Should the Planning and Zoning Commission and City Council choose to approve the SUP request, staff would offer the following conditions of approval:

1) The building shall generally conform to the site plan and building elevations, depicted in Exhibit 'A' and Exhibit 'B' of the attached ordinance.

2) The hotel shall be limited to four (4) residence suites. The remaining rooms shall be typical hotel rooms (i.e. not contain kitchen facilities).

3) The building shall be no more than 65-feet in height.

4) Freestanding signage associated with this development shall be limited to a monument sign (i.e. no pole sign shall be allowed).

5) Any construction or building necessary to complete this request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Z2016-033 SUP: Hotel on Vigor Way Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 Hold a public hearing and consider a request by Philip Craddock of Craddock Architecture, PLLC on behalf of the owner Pastem Corporation for the approval of a Specific Use Permit (SUP) for the purpose of allowing a hotel in a Commercial (C) District that exceeds 36-feet in height in the Scenic Overlay (SOV) District for a 1.74-acre parcel of land identified as Lot 1, Block A, Comfort Inn & Suites Rockwall Towne Centre Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, addressed as 700 E. IH-30, and take any action necessary.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (Z2016-033) in the lower right hand corner of all pages on future submittals.
M.4 Please provide North, East, South, and West Elevations
M.5 The original SUP states that a “Residence Hotel” is prohibited. Please provide a unit mix of suites vs. non suites.
I.6 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, The Planning & Zoning Worksession date for this case will be October 25, 2016. The Planning and Zoning Meeting for this case is November 15, 2016.
I.7 The City Council meeting date and subsequent approval for this SUP is November 21, 2016 [1st Reading] and December 5, 2016 [2nd Reading].

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on ***November 4, 2016***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday, 11/15/2016 at 6:00 p.m.***, and the City Council will hold a public hearing on ***Monday, 11/21/2016 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2016-033: Residence Hotel on Vigor Way

Hold a public hearing and consider a request by Philip Craddock of Craddock Architecture, PLLC on behalf of the owner Pastem Corporation for the approval of a Specific Use Permit (SUP) for the purpose of allowing a residence hotel in a Commercial (C) District that exceeds 36-feet in height in the Scenic Overlay (SOV) District for a 1.74-acre parcel of land identified as Lot 1, Block A, Comfort Inn & Suites Rockwall Towne Centre Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, addressed as 700 E. IH-30, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 11/15/2016 at 6:00 p.m.**, and the City Council will hold a public hearing on **Monday, 11/21/2016 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

Korey Brooks
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **11/21/2016** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A HOTEL IN A COMMERCIAL (C) DISTRICT AND TO ALLOW FOR A STRUCTURE THAT EXCEEDS 36-FEET IN HEIGHT WITHIN THE SCENIC OVERLAY (SOV) DISTRICT, ON A 1.783-ACRE PARCEL OF LAND BEING IDENTIFIED AS LOT 8, BLOCK A, ROCKWALL TOWNE CENTER, PHASE 4, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, the City has received a request from Phillip Craddock of Craddock Architecture, PLLC on behalf of the owner Pastem Corporation for the approval of a Specific Use Permit (SUP) to allow for a *Hotel* in a Commercial (C) District and to allow for a structure that exceeds 36-feet in height within the Scenic Overlay (SOV) District on a 1.783-acre parcel of land being described as Lot 8, Block A, Rockwall Towne Center, Phase 4, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) and the IH-30 Overlay (IH-30 OV) Districts, addressed as 700 E. IH-30, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] and Specific Use Permit (SUP) No. S-55 [*Ordinance No. 08-37*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Rockwall, Texas;

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 08-37*;

Section 2. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing a *hotel* within a Commercial (C) District as stipulated by Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] and to allow for a structure that exceeds 36-feet in height within the Scenic Overlay (SOV) District as stipulated by Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*], on the *Subject Property*; and

Section 3. That the Specific Use Permit (SUP) shall be subject to the conditions set forth in *Section 4.5, Commercial District; Section 6.6, IH-30 Overlay (IH-30 OV) District; and Section 6.8,*

DRAFT ORDINANCE 10.05.16

Scenic Overlay (SOV) District, of Article V, District Development Standards, Unified Development Code [*Ordinance No. 04-38*] as heretofore amended and as may be amended in the future, and shall be subject to the additional following additions:

1) The building shall generally conform to the site plan and building elevations, depicted in Exhibit 'A' and Exhibit 'B' of the attached ordinance.

2) The hotel shall be limited to four (4) residence suites. The remaining rooms shall be typical hotel rooms (i.e. not contain kitchen facilities).

3) The building shall be no more than 65-feet in height.

4) Freestanding signage associated with this development shall be limited to a monument sign (i.e. no pole sign shall be allowed).

5) Any construction or building necessary to complete this request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Section 4. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

Section 5. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict

Section 6. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of TWO THOUSAND DOLLARS ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

Section 7. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

Section 8. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 5TH DAY OF DECEMBER, 2016.

CITY OF ROCKWALL
PLANNING AND ZONING MEMO

AGENDA DATE: 11/15/2016

APPLICANT: David Palmer of *Cencor Acquisition Co., Inc.*

AGENDA ITEM: **Z2016-034**; N.W. Corner FM-549 & SH-205 (*AG to C*)

SUMMARY:

Hold a public hearing to discuss and consider a request by David Palmer of Cencor Acquisition Co., Inc on behalf of Hossain Makvandi of Home Boy Enterprises, Inc. for the approval of a zoning change from an Agricultural (AG) District to a Commercial (C) District for a 7.1692-acre tract of land identified as Tract 10-1 of the W. W. Ford Survey, Abstract No. 80, Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of FM-549 and S. Goliad Street [*SH-205*], and take any action necessary.

BACKGROUND INFORMATION AND PURPOSE:

The subject property is a 7.1692-acre tract of land generally located on the northwest corner of FM-549 and SH-205 and is adjacent to the Oaks of Buffalo Way Subdivision. The *subject property* was annexed into the City on May 19, 1986 (*Ordinance No. 86-37*) and zoned Agricultural (AG) District. The applicant is requesting to change the zoning of the *subject property* from an Agricultural (AG) District to a Commercial (C) District. The subject property is within the SH-205 Overlay (*SH-205 OV*) District and if approved, is subject to the development standards of such district.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is a single-family residence situated on a 4.99-acre tract of land zoned Agricultural (AG) District.

South: Directly south of the subject property is a 7.32-acre tract of land zoned General Retail (*GR*) District that currently has an office facility and two (2) practice baseball in-fields. A portion of the property has been granted an SUP for a retail store with gasoline sales.

East: Directly east of the subject property is a 45.4871-acre vacant tract of land zoned Commercial (C) District.

West: Directly west of the subject property is the Oaks of Buffalo Way Subdivision zoned Single-Family Estate (SFE-1.5) District.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The Future Land Use Map, adopted with the Comprehensive Plan, designates the subject property for *Commercial* land uses, which is in conformance with the Comprehensive Plan and the applicants request for the zoning change to Commercial (C) District.

NOTIFICATION:

On October 27, 2016, staff mailed 17 notices to property owners and residents within 500-feet of the subject property. Staff also sent a notice to the Oaks of Buffalo Way Homeowner's Associations (*HOA*), which is the only HOA located within 1,500 feet of the subject property and participating in the notification program. Additionally, staff posted a sign along SH-205, adjacent to the *subject property* as required by the Unified Development Code (UDC). At the time this case memo was drafted staff has received two (2) notices against the zoning change request.

CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2016-034: Zoning Change (AG to C)

Hold a public hearing to discuss and consider a request by David Palmer of Cencor Acquisition Co., Inc on behalf of Hossain Makvandi of Home Boy Enterprises, Inc. for the approval of a zoning change from an Agricultural (AG) District to a Commercial (C) District for a 7.1692-acre tract of land identified as Tract 10-1 of the W. W. Ford Survey, Abstract No. 80, Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of FM-549 and S. Goliad Street [SH-205], and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 11/15/2016 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 11/21/2016 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **11/21/2016** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

Subject: Case no. 22016-034 (Zoning Change)

David,

I just bought the house at 5155 Bear Claw Lane, so, I did not know about the zoning issue, and my submittal will therefore be late.
Needless to say, I would not have purchased the house, had I known that the city was planning on putting a gas station in my backyard, and, I am OPPOSED to the request to change the zoning.

I have 3 small children, so having a gas station in my backyard will endanger my children, as transients will be loitering around the station.
The station will cause noise pollution, and harm my family.
The station will cause air pollution and harm my family.
The construction and station will disrupt the school bus routes.

It is my intent to hire a lawyer to represent my family in opposition to this zoning change.

Please be advised.

Greg Shockley

Subject: Re: ZONING CHANGE REQUEST

To: Ryan Miller, David Gonzales, Korey Brooks, Laura Morales:

In regards to the zoning change request (as listed below) that lies within 1500 feet of the boundaries of the neighborhood in which we live, Oaks of Buffalo Way, we wanted to reach out to you formally via email to express our concern and opposition. As involved, supportive, and invested residents of the community of Rockwall, we think it is imperative for the benefit of all Rockwall residents, that well-established and well-regarded neighborhoods be protected from commercial zoning within such close proximity.

Not only is there concern that a commercial venue within such close proximity will lessen the value of our individual properties, we are also concerned that this change would bring an increase in traffic, noise, activity level, light pollution and safety issues to our neighborhood. The traffic at the intersection in question, (205 & 549) during prime hours of travel, is already a problem... adding a commercial venue at that intersection, located right next door to our neighborhood, will increase the traffic issues, devalue the worth of our homes, and negatively impact the quality of our lives and the welfare of our families.

We value your time and consideration regarding this matter and would appreciate a confirmation that this email has been received and will be formally noted in regards to the upcoming hearings scheduled for November 15th and 21st.

Best Regards,
Marcia Carroll Burzair and Edward Burzair
Oaks of Buffalo Way residents for 15 years

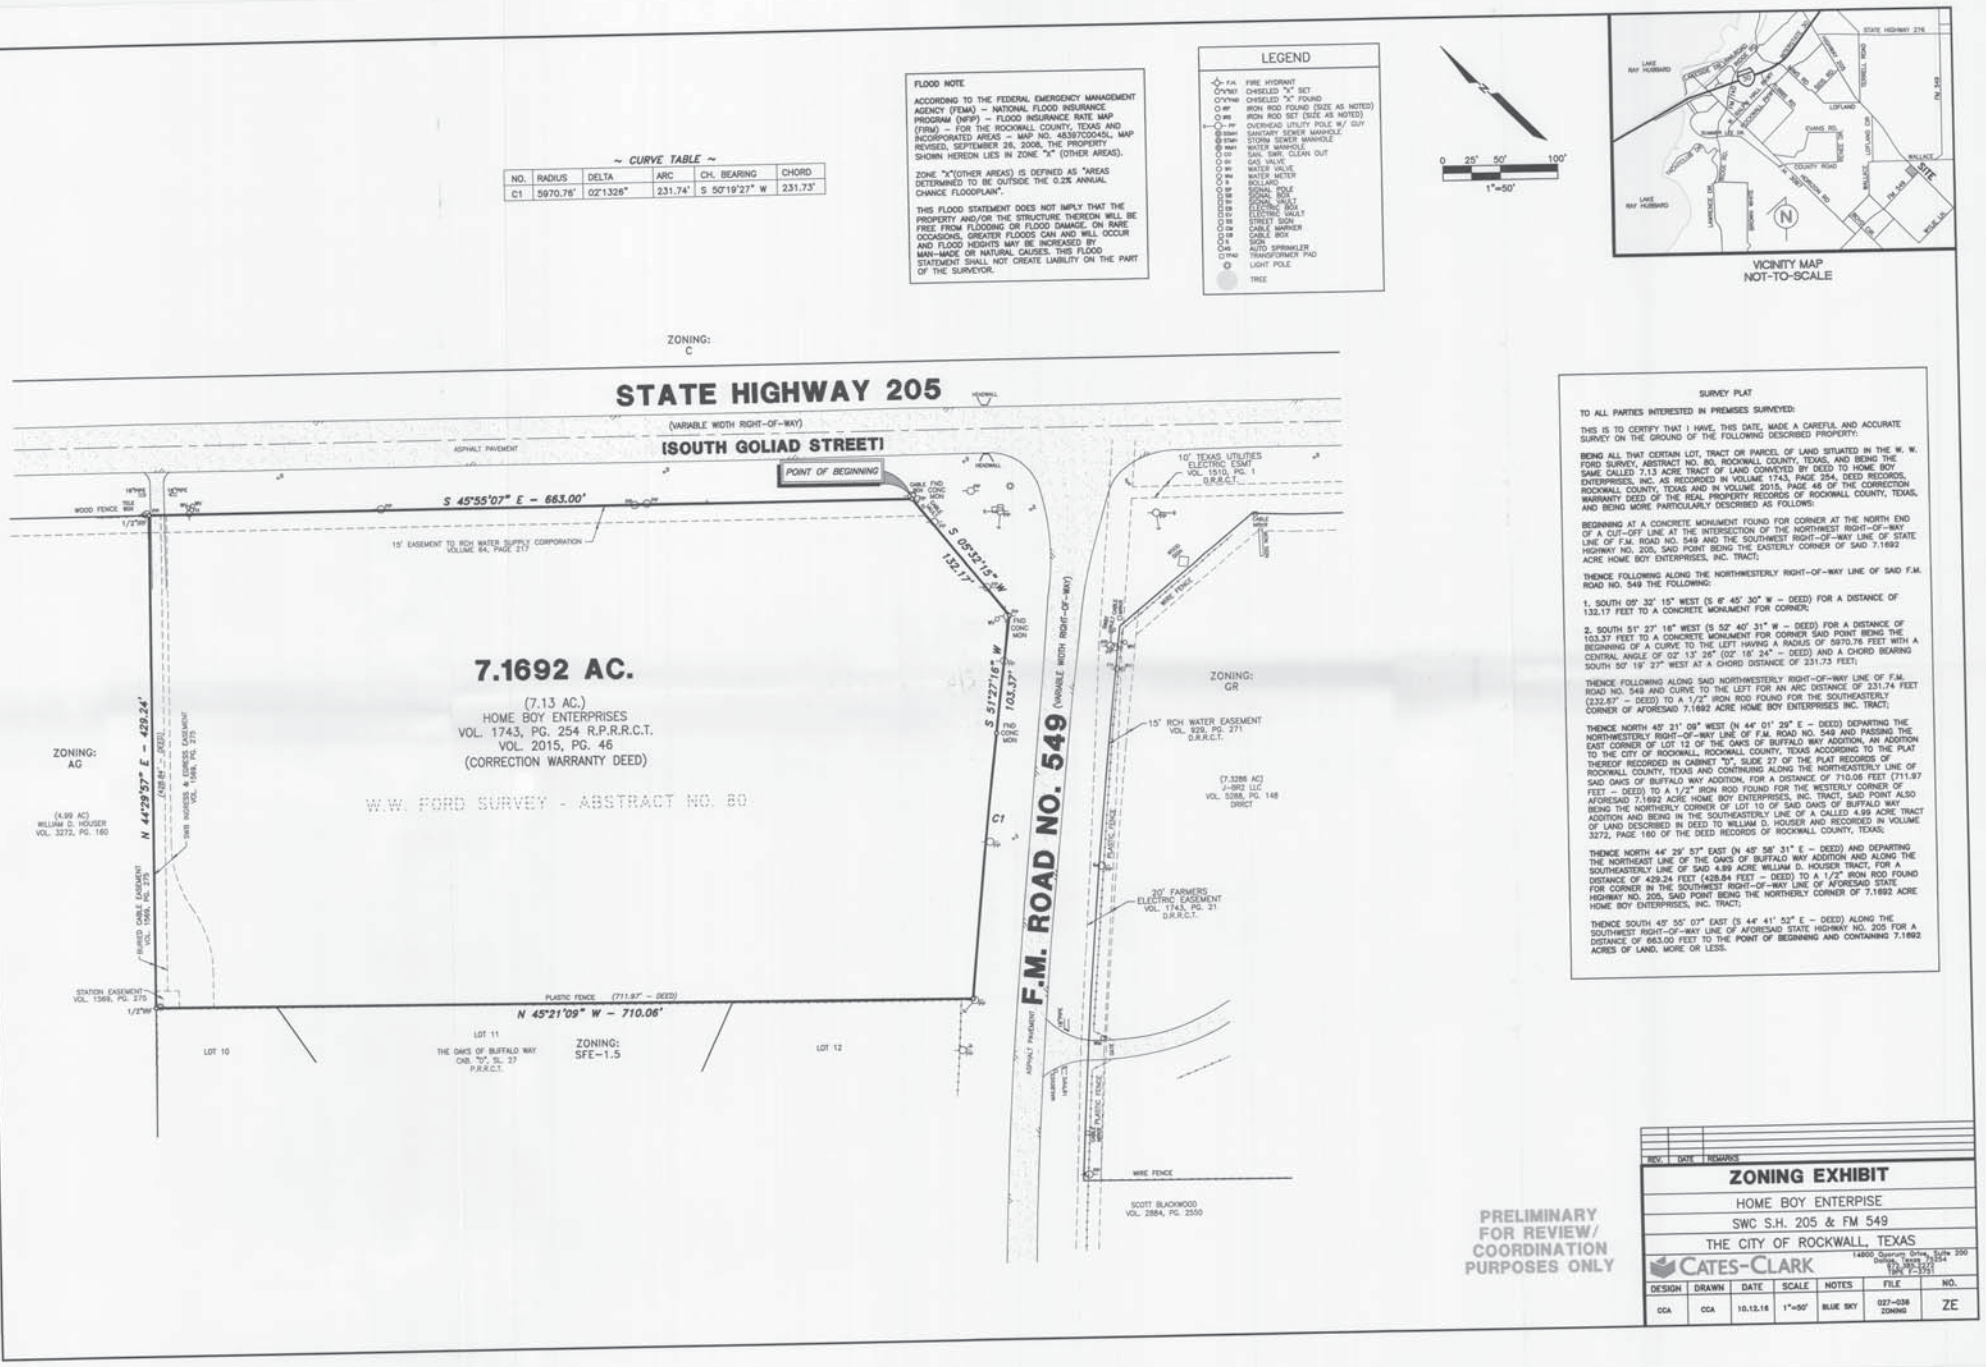
Re: NWC 205 & 549 - Rockwall, TX
Zoning Change



Dear Mr. Miller:

The applicant desires to change the zoning on the referenced seven acre tract from Agricultural to Commercial. With property frontage on 205, and the planned extension of 549, the site is most suited to commercial development. The Future Land Use Map designates the site as Commercial.

Specific uses and a site plan have not yet been determined. Having the proper zoning in place is necessary to effectively market the property to potential users.

Sincerely,

David C. Palmer.
Executive Vice President

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO FURTHER AMEND THE ZONING MAP TO ADOPT A CHANGE IN ZONING FROM AN AGRICULTURAL (AG) DISTRICT TO A COMMERCIAL (C) DISTRICT ON A 7.1692-ACRE TRACT OF LAND IDENTIFIED AS TRACT 10-1 OF THE W. W. FORD SURVEY, ABSTRACT NO. 80, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, AND BEING MORE SPECIFICALLY DESCRIBED IN *EXHIBIT 'A'* OF THIS ORDINANCE; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by David Palmer of Cencor Acquisition Co., Inc. on behalf of Hossain Makvandi of Home Boy Enterprises, Inc. for a change in zoning from an Agricultural (AG) District to a Commercial (C) District on a 7.1692-acre tract of land identified as Tract 10-1 of the W. W. Ford Survey, Abstract No. 80, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A',* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, Texas, as heretofore amended, be and the same are hereby amended by amending the zoning map of the City of Rockwall so as to change the zoning of the *Subject Property* from an Agricultural (AG) District to a Commercial (C) District; and

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes provided for a *Commercial* (*C*) *District* in *Section 1.1, "Use of Land and Buildings,"* of *Article IV, "Permissible Uses", Section 4.5, "Commercial* (*C*) *District", and Section 6.7, "SH-205 Overlay (SH-205 OV) District"* of *Article V, "District Development Standards",* of the *Unified Development Code* of the City of Rockwall as heretofore amended, as amended herein by granting of this zoning change, and as maybe amended in the future;

Section 3. That the official zoning map of the City be corrected to reflect the changes in the zoning described herein.

Section 4. Any person, firm, or corporation violating any of the provisions of this ordinance shall

be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of two thousand dollars ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

Section 5. If any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code of the City of Rockwall, Texas, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable.

Section 6. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be and the same are hereby repealed, and all other ordinances of the City of Rockwall not in conflict with the provisions of this ordinance shall remain in full force and effect.

Section 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 5th DAY OF DECEMBER, 2016.

DRAFT

Exhibit 'A':
Legal Description & Zoning Exhibit

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/15/2016

APPLICANT: Robert Howman of *Glenn Engineering Corp.*

AGENDA ITEM: **Z2016-035;** RISD - CCA (*SUP*)

SUMMARY:

Hold a public hearing to discuss and consider a request by Robert A, Howman of Glenn Engineering Corp. on behalf of James Watson of the Rockwall Independent School District (*RISD*) for the approval of a Specific Use Permit (*SUP*) for the purpose of allowing a *Public School* in an Agricultural (AG) District for a 24.209-acre portion of a larger 173.0-acre tract of land identified as Tract 7-1 of the W. H. Baird Survey, Abstract No. 25, City of Rockwall, Rockwall County, Texas, zoned Agricultural (*AG*) District, situated within the SH-205 Bypass Corridor Overlay (*205 BY-OV*) District, located directly east of the intersection of John King Boulevard and Trail View Drive, and take any action necessary.

BACKGROUND INFORMATION:

The applicant is requesting approval of a Specific Use Permit (*SUP*) for the purpose of allowing a *Public School* in an Agricultural (*AG*) District. The property is located east of the intersection of John King Boulevard and Trial View Drive, and is adjacent to and south of the Lofland Farms Addition. The proposed public school facility will be located on a 24.209-acre portion of a larger 173.0-acre tract of land that is situated within the SH-205 By-Pass Corridor Overlay (*205 BY-OV*) District.

As part of the Specific Use Permit (*SUP*) submittal, the applicant has submitted a conceptual site plan indicating the proposed layout (*building footprint, parking, access, etc*.) of the Rockwall - CCA [*College and Career Academy*]. The site will provide two (2) primary points of access along John King Boulevard and one (1) secondary access point from Sugar Valley Drive (*Lofland Farms Addition*). If approved, the applicant will be required to submit a site plan and replat the property.

Included in your packet is the applicant's concept plan indicating the location of the proposed site in relation to the overall boundary of the property. As a note, a request for an *SUP* is a discretionary decision for the Planning and Zoning Commission and the City Council.

NOTIFICATION:

Staff mailed 102 notices to property owners and residents within 500-feet of the subject property. Staff also notified four (*4*) HOA/Neighborhood Organization's (*Lofland Farms, Meadow Creek Estates, Hickory Ridge, and Hickory Ridge East*) that are within 1,500 feet of the *subject property* and participating in the notification program. Additionally, staff posted a sign on the property as required by the Unified Development Code *(UDC).* At the time this report was drafted, staff has not received any notices for or against the zoning change request.

RECOMMENDATIONS:

Should the Specific Use Permit be approved, staff would offer the following conditions:

1. The development must meet all Fire Department, Building Inspections, and Engineering standards.

2. Submittal and approval of a site plan and final plat are required prior to the issuance of a building permit.

3. Expansion of the approximately 173-acre site will require a Specific Use Permit for each additional phase of the development.

4. The City Council reserves the right to review the Specific Use Permit granted herein upon the expiration of one (1) year from the date hereof.

5. Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

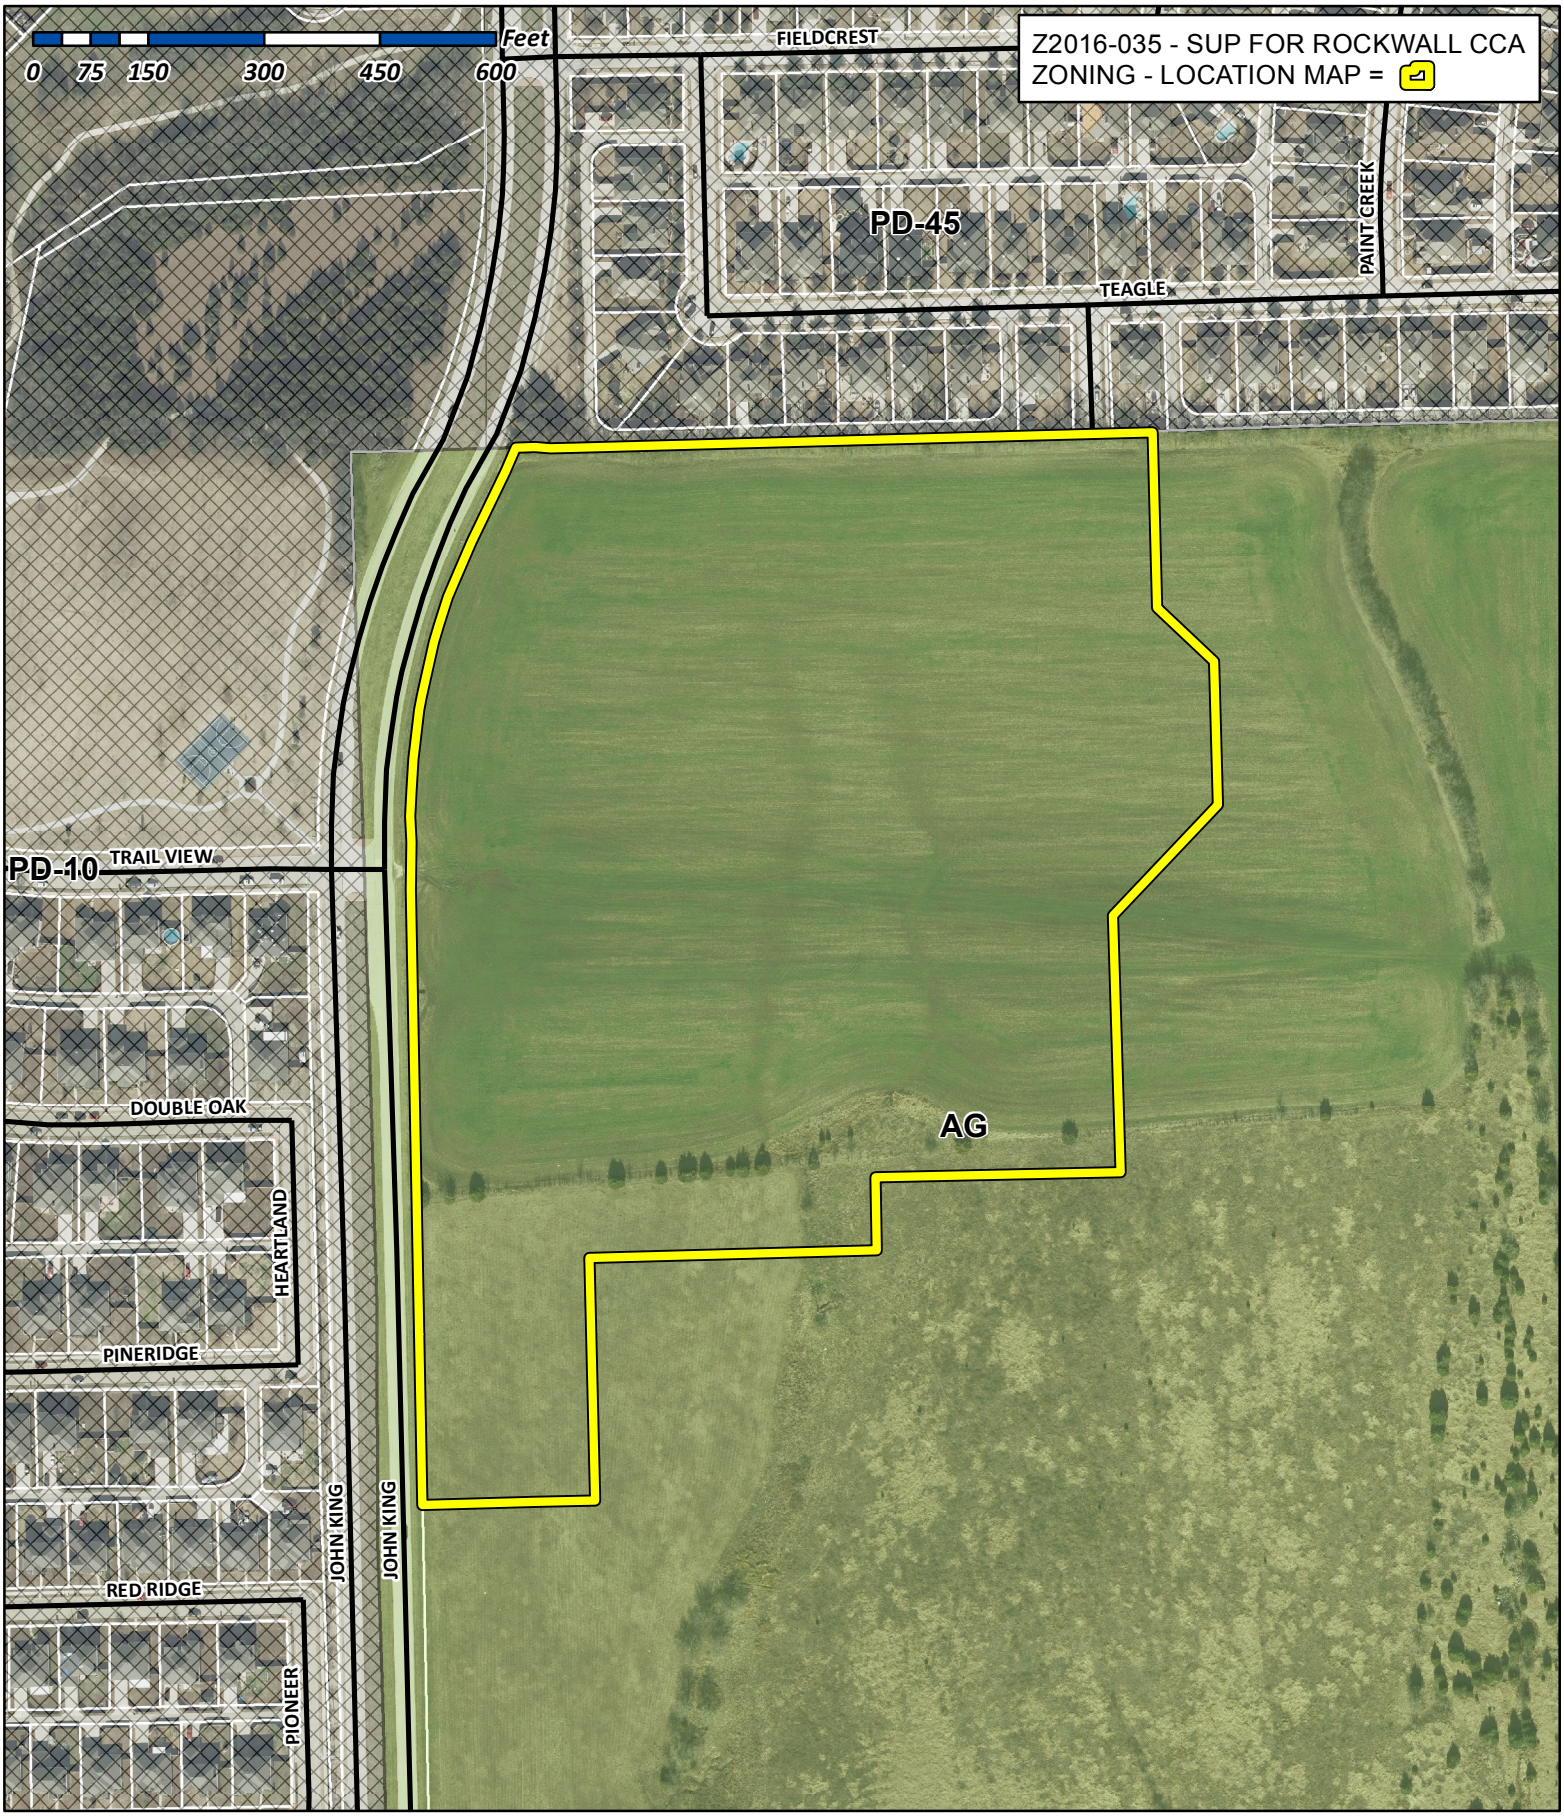
Hold a public hearing to discuss and consider a request by Robert A, Howman of Glenn Engineering Corp. on behalf of James Watson of the Rockwall Independent School District (RISD) for the approval of a Specific Use Permit (SUP) for the purpose of allowing a Public School in an Agricultural (AG) District for a 24.209-acre portion of a larger 173.0-acre tract of land identified as Tract 7-1 of the W. H. Baird Survey, Abstract No. 25, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Bypass Corridor Overlay (205 BY-OV) District, located directly east of the intersection of John King Boulevard and Trail View Drive, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, November 1, 2016. Please provide three (3) large copies [24" X 36" FOLDED] of the Conceptual Site Plan and one PDF version for a subsequent review by staff:

• On all future plan submittals please include the Case Number (Z2016-035) in the lower right hand corner.

Planning Staff General Comments/Conditions of SUP:



1. The development must meet all Fire Department, Building Inspections, and Engineering standards.
2. Submittal and approval of a site plan and final plat (mylars in house for filing purposes) are required prior to the issuance of a building permit.
3. Future expansion of the approximately 173 acre site requires a Specific Use Permit (SUP) [or amendment] for each additional phase of the development.
4. Relabel document title to read: Zoning Exhibit - Conceptual Site Plan.
5. The City Council reserves the right to review the Specific Use Permit granted herein upon the expiration of one (1) year from the date hereof.
6. Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the zoning matter. Most importantly, be sure that you and/or your representative(s) are present for both Public Hearings as per the scheduled dates below. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: October 25, 2016 (6:00 p.m.)
Planning - Public Hearing: November 15, 2016 (6:00 p.m.)

City Council - Public Hearing: November 21, 2016 (1st Reading of Ordinance) [6:00 p.m.]
City Council - December 5, 2016 (2nd Reading of Ordinance) [6:00 p.m.]

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on ***November 4, 2016***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday, 11/15/2016 at 6:00 p.m***., and the City Council will hold a public hearing on ***Monday, 11/21/2016 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2016-035: SUP for Rockwall CCA

Hold a public hearing to discuss and consider a request by Robert A, Howman of Glenn Engineering Corp. on behalf of James Watson of the Rockwall Independent School District (RISD) for the approval of a Specific Use Permit (SUP) for the purpose of allowing a Public School in an Agricultural (AG) District for a 24.209-acre portion of a larger 173.0-acre tract of land identified as Tract 7-1 of the W. H. Baird Survey, Abstract No. 25, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Bypass Corridor Overlay (205 BY-OV) District, located directly east of the intersection of John King Boulevard and Trail View Drive, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 11/15/2016 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 11/21/2016 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **11/21/2016** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

SPECIFIC USE PERMIT NO. S-1XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A PUBLIC SCHOOL ON A 24.209-ACRE TRACT OF LAND BEING A PORTION OF A LARGER 173.0-ACRE TRACT OF LAND, ZONED AGRICULTURAL (AG) DISTRICT, AND IDENTIFIED AS TRACT 7-1 OF THE W. H. BAIRD SURVEY, ABSTRACT NO. 25, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, AND MORE SPECIFICALLY DESCRIBED IN *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Robert A. Howman of Glenn Engineering Corp. on behalf of James Watson of the Rockwall Independent School District (RISD) for the approval of a Specific Use Permit (*SUP*) to allow for a *Public School* on a 24.209-acre tract land being a portion of a larger 173.0-acre tract of land, zoned Agricultural (AG) District, and identified as Tract 7-1 of the W. H. Baird Survey, Abstract No. 25, City of Rockwall, Rockwall County, Texas, and more specifically described in *Exhibit* 'A' of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ord. No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the Unified Development Code [*Ord. No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (*SUP*) to allow for a *Public School* within an Agricultural (AG) District as stipulated by Article IV, *Permissible Uses*, of the Unified Development Code [*Ord. No. 04-38*] for the *Subject Property;* and,

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes described in this Specific Use Permit (*SUP*) ordinance granted herein and shall be subject to the conditions set forth in *Article V, Section 2.1, Agricultural (AG) District Standards of the Unified Development Code* [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting of this Specific Use Permit (*SUP*), and as may be amended in the future; and,

Section 3. That the *Subject Property* shall be developed only in the manner and for the purposes described in this Specific Use Permit (*SUP*) ordinance granted herein and shall be subject to the conditions set forth in *Article V, Section 4.5, Commercial (C) District Standards and Section 6.10, 205 By-Pass Corridor Overlay (205 BY-OV) District Standards of the Unified Development Code* [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting of this Specific Use Permit (*SUP*), and as may be amended in the future, and shall be subject to the additional following conditions:

3.1 Conditions for Operation and Development of a Public School.

The following conditions pertain to the operation and development of a *Public School* on the *Subject Property*, and conformance to these development conditions is required for continued operations:

1) Prior to the issuance of a building permit, submittal and approval of a site plan and final plat shall be approved by the Planning & Zoning Commission and the City Council (*if applicable*); and,

2) Expansion of the approximately 173-acre site will require approval of a Specific Use Permit (SUP) for each additional phase of the development; and,

3) The City Council reserves the right to review the Specific Use Permit granted herein upon the expiration of one (1) year from the date hereof.

Section 4. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

Section 5. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

Section 6. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of TWO THOUSAND DOLLARS ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

Section 7. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

Section 8. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 5th DAY OF December, 2016.

DRAFT

Exhibit 'A':
Legal Description & Boundary

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

CC: Ryan Miller, *Director of Planning and Zoning*

FROM: David Gonzales, *Senior Planner*

DATE: November 15, 2016

SUBJECT: Z2016-036; *Amendment to PD-79 (Saddle Star Estates South)*

On January 4, 2016, the City Council approved Planned Development District 79 (PD-79) [*Case No. Z2015-034*], which rezoned the 45.292-acre *subject property* from an Agricultural (AG) District to a Planned Development District establishing a single-family residential subdivision consisting of 113 single-family lots. In May of this year, the applicant voluntarily annexed an additional 11.121-acre tract of land [*A2016-001*] and amended PD-79 [*Z2016-015*], incorporating this property into the subdivision. The annexation created a 55.413-acre tract of land for the Saddle Star Estates South development. The amendment to PD-79 increased the lot count from 113 to 138 lots. At the time of this proceeding, the applicant requested and was granted a maximum of 50% of the garages to be oriented in a front entry configuration (*i.e. allowing the garage to be flush with the front façade of the primary structure*).

According to the applicant, David Weekly and Highland Homes will be the builders for the subdivision. During the work session held on October 25, 2016 the applicant indicated that the builders do not have a traditional swing (*or j-swing*) product and because of this he was requesting 100% front entry configuration. Since this meeting, the applicant has modified his request to allow for a minimum of 20% of the garages to be oriented in a traditional swing (*or j-swing*) configuration, thereby allowing for up to 80% front entry garage configuration [flush with the front façade (*or optional 5-foot off-set*) of the primary structure]. The purpose of the garage orientation requirements in the UDC (*i.e. 20-ft setback from the front façade*) is intended to provide variation and articulation to the front façade of the proposed home where the development is not alley served.

It should be noted that if approved, the remainder of the PD ordinance will not be affected by this request; however, it is at the discretion of the Planning and Zoning Commission and City Council to approve the applicant's requrest. Staff has provided a *Draft Ordinance* indicating the proposed changes [i.e. Exhibit 'C', Section 4 (c)]. Should the Planning and Zoning Commission and City Council have any questions concerning the request staff will be available at the meeting.

Staff mailed three (3) notices to property owners and residents within 500-feet, and notified the Stoney Hollow and Stone Creek Homeowner's Associations (*HOA's*), which are the only HOA's located within 1,500 feet of the subject property. Additionally, staff posted a sign along John King Boulevard, and advertised the public hearings in the Rockwall Harold Banner as required by the Unified Development Code (UDC). At the time this memo was drafted, staff received one (1) notice from the Skorburg Companies comprising two (2) properties that are *"opposed to"* the zoning change request. The notice constitutes a protest from more than 20% of the property owners within 200-ft of the proposed property and will require a super-majority vote by the City

Council for approval of the PD Amendment. A super-majority vote is ¾ of all Council members present.

Gonzales, David

Ryan, As requested by Commission at our October 25, 2016 meeting we further discussed with our Builders , Highland and David Weekly Homes Garage orientation . We can amend our request from 100% Front Flush Garages to 80% Front Flush and 20% J-Swing and option Front Entry with a 5' offset from main structure.

Sincerely

Pat Atkins Director of Land Development and Acquisitions Saddle Star Land Development L.L.C.

Hold a public hearing to discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (R. & R. Hance Investments, LP) for the approval of a zoning amendment to Planned Development District 79 (PD-79) [Ordinance No. 16-07] for the purpose of amending the development standards to allow front entry garages on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the zoning matter. Most importantly, be sure that you and/or your representative(s) are present for both Public Hearings as per the scheduled dates below. If you have any quesitons regarding this case, please feel free tc contact David Gonzales with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: October 25, 2016 (6:00 p.m.)
Planning - Public Hearing: November 15, 2016 (6:00 p.m.)

City Council - Public Hearing: November 21, 2016 (1st Reading of Ordinance) [6:00 p.m.]
City Council - December 5, 2016 (2nd Reading of Ordinance) [6:00 p.m.]

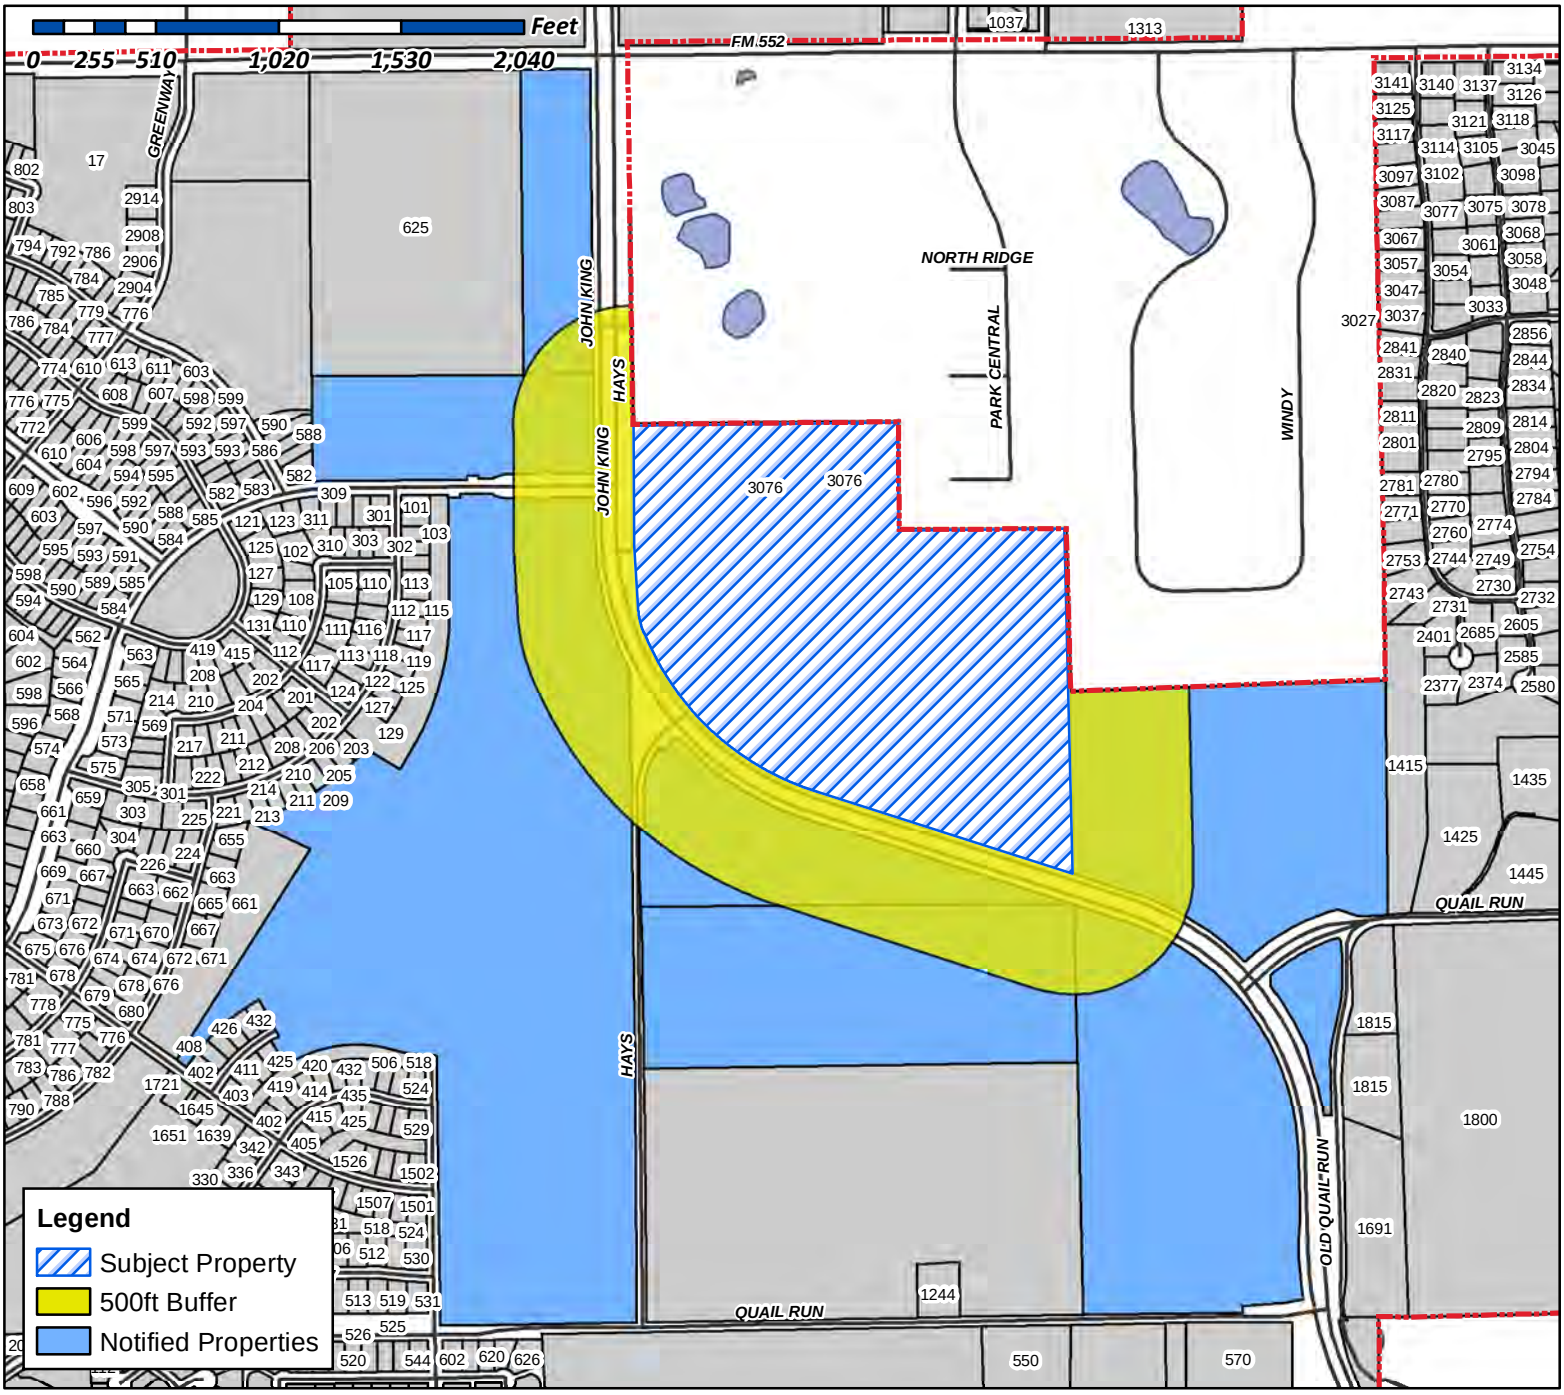
Subject:	Neighborhood Noification Program: Notice of zoning request
Date:	Wednesday, October 26, 2016 4:22:04 PM
Attachments:	Z2016-036 HOA Map.pdf

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on ***November 4, 2016***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday, 11/15/2016 at 6:00 p.m***., and the City Council will hold a public hearing on ***Monday, 11/21/2016 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-036-Hold a public hearing to discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (R. & R. Hance Investments, LP) for the approval of a zoning amendment to Planned Development District 79 (PD-79) [*Ordinance No. 16-07*] for the purpose of amending the development standards to allow front entry garages on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.**

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.



Sincerely,

Laura Morales

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO FURTHER AMEND PLANNED DEVELOPMENT DISTRICT 79 (PD-79) [*ORDINANCE NO. 16-39*] FOR THE PURPOSE OF AMENDING THE DEVELOPMENT STANDARDS TO ALLOW FOR FRONT ENTRY GARAGES FOR A 55.413-ACRE TRACT OF LAND, ZONED PLANNED DEVELOPMENT DISTRICT 79 (PD-79) FOR SINGLE FAMILY 8.4 (SF-8.4) DISTRICT LAND USES, BEING IDENTIFIED AS TRACTS 1, 1-5 & 2-03 OF THE P. B. HARRISON SURVEY, ABSTRACT NO. 97, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Pat Atkins of Saddle Star Land Development, LLC. on behalf of the owners Randa Hance of R&R Hance Investment, LP and Gwen Reed for the approval of an amendment to Planned Development District 79 (PD-79) [*Ordinance No. 16-39*] for the purpose of amending the Development Standards to allow for front entry garages for 55.413-acre tract of land, zoned Planned Development District 79 (PD-79) for Single Family 8.4 (SF-8.4) District land uses, being a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 79 [*Ordinance No. 16-39*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 16-39*;

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 3. That development of the *Subject Property* shall generally be in accordance with

the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 5(b) through 5(g) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) Open Space Master Plan
(2) Master Plat
(3) PD Site Plan
(4) Preliminary Plat
(5) Final Plat

(c) *Open Space Master Plan.* An *Open Space Master Plan* for the *Subject Property*, prepared in accordance with this ordinance and consistent with the *Planned Development Concept Plan*, and shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

(d) *Master Plat.* A *Master Plat* for the *Subject Property* shall be submitted and shall identify the proposed timing of each phase of the proposed development. A *Master Plat* application may be processed by the City concurrently with a *Open Space Master Plan* for the development.

(e) *PD Site Plan.* A *PD Site Plan* covering all of the *Subject Property* shall be submitted and shall identify all site/landscape/hardscape plan(s) for all open space, neighborhood parks, trail systems, street buffers and entry features. A *PD Site Plan* application may be processed by the City concurrently with a *Preliminary Plat* application for the development.

(f) *Preliminary Plat.* A *Preliminary Plat* covering all of the *Subject Property* shall be submitted and shall include a *Treescape Plan*. A *Preliminary Plat* application may be processed by the City concurrently with a *PD Site Plan* application for the development.

(g) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat*, conforming to the *Preliminary Plat*, for all of the *Subject Property* shall be submitted for approval.

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 5th DAY OF DECEMBER, 2016.

Concept Plan

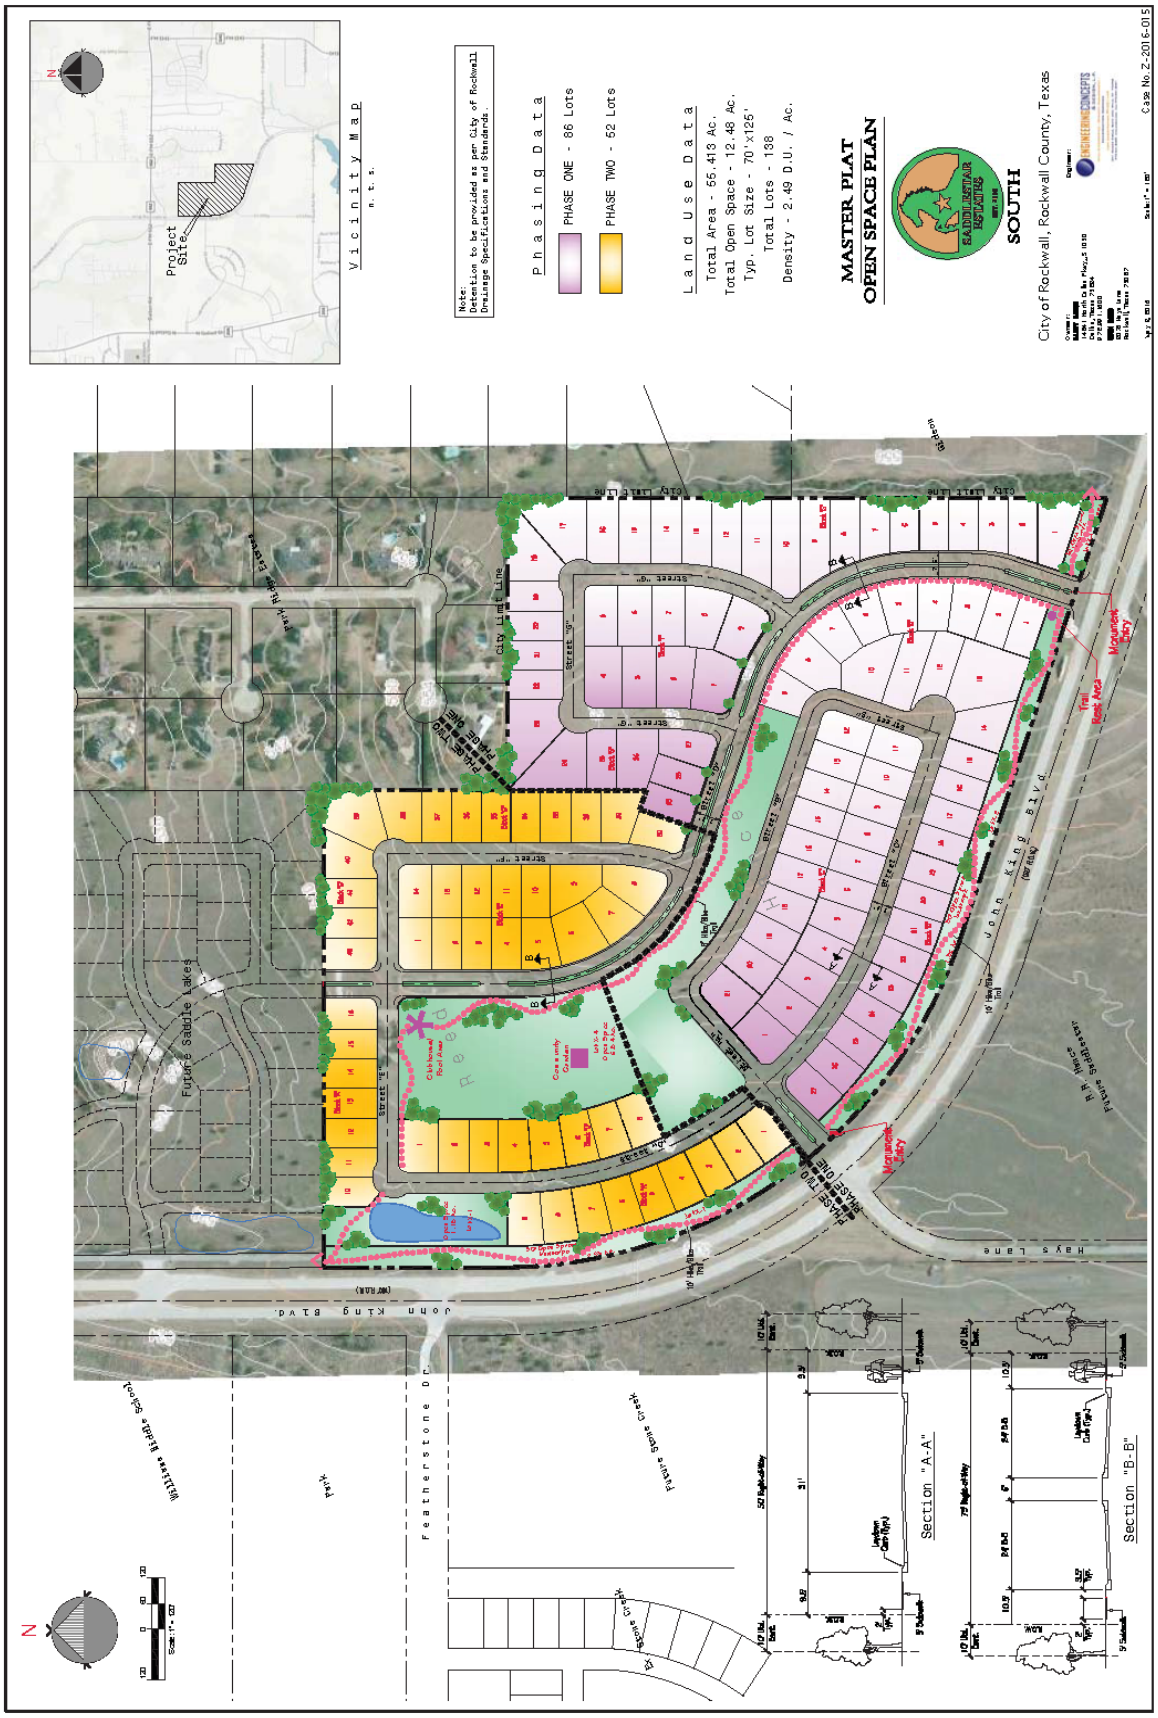

Exhibit 'C':
Development Standards

TEXT TO BE ADDED TO THE ORDINANCE
~~TEXT TO BE REMOVED FROM THE ORDINANCE~~

Development Standards.

1. *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Single Family 8.4 (SF-8.4) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

2. *Lot Composition and Layout.* The lot layout and composition shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Table 1*, which is as follows:

Table 1: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Dwelling Units (#)*	*Dwelling Units (%)*
A	70' x 125'	8,750 SF	138	100.00%
		Maximum Permitted Units:	*138*	*100.00%*

3. *Density and Dimensional Requirements.* Unless specifically provided by this Planned Development ordinance, the development standards stipulated by the Single Family 8.4 (SF-8.4) District, as specified by Article V, *District Development Standards*, of the Unified Development Code are applicable to all development on the *Subject Property.* The maximum permissible density for the *Subject Property* shall not exceed *2.49* dwelling units per gross acre of land; however, in no case should the proposed development exceed *138* units. All lots shall conform to the standards depicted in *Table 2*, which is as follows:

Table 2: Lot Dimensional Requirements

Minimum Lot Width [1]	70'
Minimum Lot Depth	125'
Minimum Lot Area	8,750 SF
Minimum Front Yard Setback [2] & [5]	20'
Minimum Side Yard Setback	5'
Minimum Side Yard Setback (Adjacent to a Street) [2] & [5]	10'
Minimum Length of Driveway Pavement	25'
Maximum Height [3]	30'
Minimum Rear Yard Setback [4]	20'
Minimum Area/Dwelling Unit (SF)	2,700 SF
Maximum Lot Coverage	65%
Permitted Encroachment into Required Setbacks [5]	Allowed

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the single family home.

[4]: As measured from the rear yard property line.

[5]: Sunrooms, porches, stoops, bay windows, balconies, masonry clad chimneys, eaves and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to ten (10) feet for any property; however, the encroachment shall not exceed five (5) feet on *Side Yard Setbacks (Adjacent to a Street)* and shall not encroach into public right-of-way [a *Sunroom* is an enclosed room no more than 15-feet in width that has glass on at least 50% of each of the encroaching faces].

4. *Building Standards.* All development shall adhere to the following building standards:

   (a) Masonry Requirement. The minimum masonry requirement for the exterior façades of all buildings shall be 90%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the masonry requirement; however, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) shall be permitted through a Specific Use Permit (SUP) only.

   (b) Roof Pitch. A minimum of an *8:12* roof pitch is required on all structures with the exception of sunrooms and porches, which shall have a minimum of a *4:12* roof pitch.

   ~~*(c)*~~ *Garage Orientation.* A minimum of **~~50%~~ 20%** of garages shall be oriented in a *traditional swing* (or *j-swing*) configuration. The remainder of garages maybe configured in a front entry configuration with a minimum setback of 20-feet (i.e. allowing the garage to be flush with the front façade of the primary structure). In this case the front façade of the primary structure does not include a permitted encroachment (*e.g. a porch, sunroom, etcetera*) allowed in *Table 2* above. **~~All garage configurations that are not front entry shall meet the requirements of Article VI, *Parking and Loading*, of the Unified Development Code.~~**

5. *Anti-Monotony Restrictions.* The development shall adhere to the *Anti-Monotony Matrix* depicted in *Table 3* below (*for spacing requirements see the illustration below*).

Table 3 : Anti-Monotony Matrix

Lot Type	*Minimum Lot Size*	*Elevation Features*
A	70' x 120'	(1), (2), (3), (4)

(1) Identical brick blends or paint colors may not occur on adjacent (*side-by-side*) properties along any block face without at least five (5) intervening homes of differing materials on the same side of the street beginning with the adjacent property and six (6) intervening homes of differing materials on the opposite side of the street.

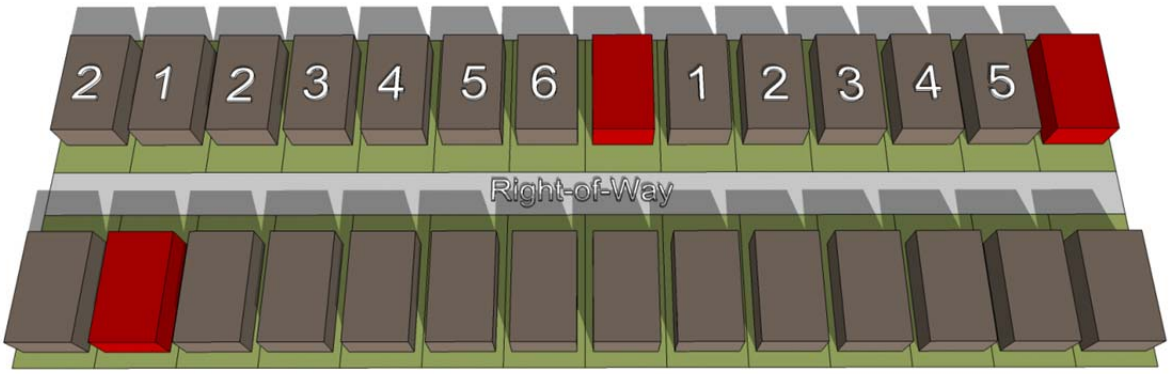
(2) Front building elevations shall not repeat along any block face without at least five (5) intervening homes of differing appearance on the same side of the street and six (6) intervening homes of differing appearance on the opposite side of the street. The rear elevation of homes backing to open spaces or on John King Boulevard shall not repeat without at least five (5) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

(a) Number of Stories
(b) Permitted Encroachment Type and Layout
(c) Roof Type and Layout
(d) Articulation of the Front Façade

(3) Permitted encroachments (*i.e. porch and sunroom*) elevations shall not repeat or be the same along any block face without at least five (5) intervening homes of sufficient dissimilarity on the same side of the street beginning with the home adjacent to the subject property and six (6) intervening homes beginning with the home on the opposite side of the street.

(4) Each phase of the subdivision will allow for a maximum of four (4) compatible roof colors, and all roof shingles shall be an architectural or dimensional shingle (*3-Tab Roofing Shingles are prohibited*).

Illustration 1: Properties line up on the opposite side of the street. Where RED is the subject property.



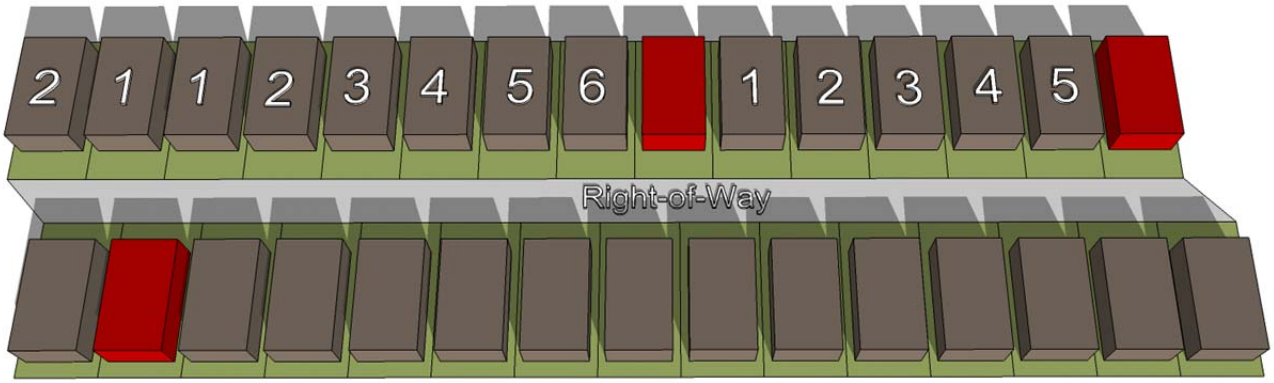


Illustration 2: Properties do not line up on opposite side of the street. Where RED is the subject property.

6. *Fencing Standards.* All individual residential fencing and walls shall be architecturally compatible with the design, materials and colors of the primary structure on the same lot, and meet the following standards:

(a) *Wood Fences*. All wood fences shall be constructed of a standard fencing material (*minimum of ½" thickness or better; spruce fencing will not be allowed*), and use fasteners that are hot dipped galvanized or stainless steel. Wood fences facing onto a street shall be painted and/or stained and sealed with all pickets being placed on the *public side* facing the street. All wood fences shall be smooth-finished, free of burs and splinters, and be a maximum of six (6) feet in height.

(b) *Wrought Iron/Tubular Steel*. Lots located along the perimeter of roadways, abutting open spaces, greenbelts and parks shall be required to install a wrought iron or

tubular steel fence. Wrought iron/tubular steel fences can be a maximum of six (6) feet in height.

(c) Corner Lots. Corner lots fences (*i.e. adjacent to the street*) shall provide masonry columns at 45-feet off center spacing that begins at the rear of the property line. A maximum of six (6) foot solid *board-on-board panel* fence constructed utilizing cedar fencing shall be allowed between the masonry columns along the side and/or rear lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five (5) feet. The property owner shall be required to maintain both sides of the fence.

(d) Solid Fences (including Wood Fences). All solid fences shall incorporate a decorative top rail or cap detailing into the design of the fence.

7. Landscape and Hardscape Standards.

(1) *Landscape.* Landscaping shall be reviewed and approved with the PD Site Plan. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height. The following tree species are approved for planting within this subdivision:

(a) Canopy/Shade Trees. Bald Cyprus, Cedar Elm, Texas Red Oak, Homestead Elm, Lace Bark Elm, Alle Elm, Chinese Pistachio, Shumard Oak, Sycamore, and Burr Oak.

(b) Accent/Ornamental/Under-Story Trees. Texas Redbud, Eve's Necklace, Mexican Plum, Downy Hawthorn, Crepe Myrtle, Texas Mountain Laurel, Vitex, and Desert Willow.

(2) *Landscape Buffers.* All landscape buffers and plantings located within the buffers shall be maintained by the Homeowner's Association (HOA).

(a) Landscape Buffer and Sidewalks (John King Boulevard). A minimum of a 50-foot landscape buffer shall be provided along the frontage of John King Boulevard (*outside of and beyond any required right-of-way dedication*), and shall incorporate ground cover, a *built-up* berm and/or shrubbery or a combination thereof along the entire length of the frontage. Berms and/or shrubbery shall have a minimum height of 30-inches and a maximum height of 48-inches. In addition, three (3) canopy trees and four (4) accent trees shall be planted per 100-feet of linear frontage. The developer shall also be responsible for the construction of a ten (10) foot sidewalk situated within the 50-foot landscape buffer adjacent to John King Boulevard.

(3) *Streetscape Landscaping.* Prior to the issuance of a Certificate of Occupancy (CO), all residential, single family lots situated within the proposed subdivision shall be landscaped with canopy trees from the list stipulated by *Section 7(1)* of this ordinance in the following sizes and proportions:

(i) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of an interior lot.

(ii) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of a corner lot and two (2), three (3) inch caliper trees shall be planted in the side yard facing the street.

Note: For the purposes of this section only [i.e. Section 7(3)], the term "front yard" includes the area within the dedicated right-of-way for a parkway immediately adjoining the front yard of the lot.

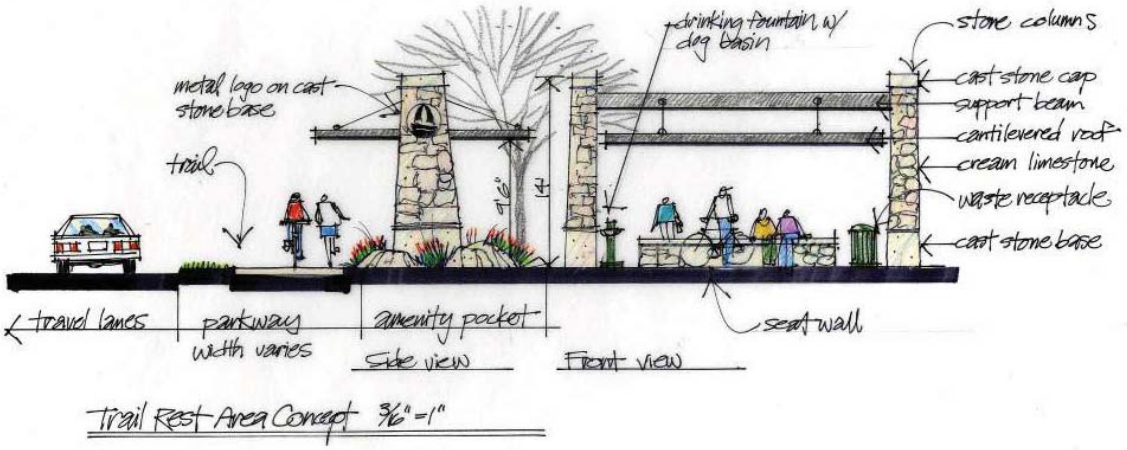
(4) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect and shall be maintained by the Homeowner's Association.

(5) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the PD Site Plan.

8. *Street.* All streets (*excluding drives, fire lanes and private parking areas*) shall be built according to City street standards.

9. *Lighting.* Light poles shall not exceed 20-feet in total height (*i.e. base and lighting standard*). All fixtures shall be directed downward and be positioned to contain all light within the development area.

10. *Sidewalks.* At a maximum, all sidewalks adjacent to a street shall begin two (2) feet behind the right-of-way line and be five (5) feet in overall width.



11. *Buried Utilities.* New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. New transmission power-lines, or distribution lines of a size not typically or cost effectively placed underground (3-phase lines), or additional lines that are added to existing poles, may be above ground, if located along the perimeter of the *Subject Property*. The *Developer* shall not be required to re-locate existing overhead power-lines along the perimeter of the *Subject Property*. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be considered *existing lines* at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph. Franchise utilities shall be placed within a ten (10) foot public utility easement behind the sidewalk, between the home and the property line.

12. *Open Space.* The development shall consist of a minimum of *20%* open space (*or 11.29-acres*), and generally conform to the *Concept Plan* contained in *Exhibit 'B'* of this ordinance. All open space areas shall be maintained by the Homeowner's Association (HOA).

Continued on Next Page …

13. *Trail Rest Area.* The developer shall be responsible for the construction of a *Trail Rest Area* that generally conforms to the rest area depicted in *Figure 1* (*below*).

Figure 1: *Trail Rest Area Concept*

14. *Neighborhood Signage.* Permanent subdivision identification signage shall be permitted at all major entry points for the proposed subdivision. Final design and location of any entry features shall be reviewed and approved with the *PD Site Plan*.

15. *Drainage Standards.* The development shall comply with existing drainage standards including the permissible spread of water in the streets and permissible gutter flow through intersections as outlined in the City of Rockwall's *Standards of Design and Construction* (*approved in August 2003 and updated in October 2007*). The proposed drainage areas, flow patterns, and storm drain system that will be constructed shall be based on the City's drainage criteria and be identified on a *Conceptual Drainage Plan*, which shall be submitted with the *Civil Plans* at the time of *Engineering* submittal. The *Conceptual Drainage Plan* shall be reviewed and approved by the Engineering Department in compliance with engineering standards.

16. *Homeowner's Association (HOA)*. A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of Section 38-15 of the Subdivision Regulations contained within the Municipal Code of Ordinances of the City of Rockwall. The HOA shall also maintain all neighborhood parks, trails, open space and common areas, irrigation, landscaping, screening fences associated with this development.

17. *Variances*. The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

CITY OF ROCKWALL
PLANNING AND ZONING MEMO

AGENDA DATE: 11/15/2016

APPLICANT: Douglas F. DeMarco

AGENDA ITEM: **Z2016-037**; 2922 S. Goliad Street *(AG to C)*

SUMMARY:

Hold a public hearing to discuss and consider a request by Douglas F. DeMarco on behalf of John G. Robertson for the approval of a zoning change from an Agricultural (AG) District to a Commercial (C) District for a 23.27-acre tract of land identified as Tract 2-28 of the J. R. Johnson Survey, Abstract No. 128, Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2922 S. Goliad Street [*SH-205*], and take any action necessary.

BACKGROUND INFORMATION AND PURPOSE:

The subject property is a 23.27-acre tract of land generally located on the west side of SH-205, is adjacent to and south of the development along National Drive, and is addressed as 2922 S. Goliad Street. The *subject property* was annexed into the City on March 22, 2004 by *Case No. A2003-002* (*Ordinance No. 04-20*), and was zoned Agricultural (AG) District. Currently, an existing sporting complex, also known as the Rockwall Indoor Sports Expo (*RISE*), is situated on the *subject property*. The applicant is requesting to change the zoning of the *subject property* from an Agricultural (AG) District to a Commercial (C) District for the purpose of installing light poles adequate to serve the outdoor baseball complex for usage at night. It should be noted that the outdoor lighting of the baseball complex will require the approval of a Specific Use Permit (*SUP*) once the zoning has been established as a Commercial (C) District.

Additionally, the property being in existence prior to the adoption of the Unified Development Code (UDC) is considered to be a Lot of Record, "…or a parcel of land not a part of an urban or town lot subdivision, the deed of which has been recorded in the office of the county clerk of Rockwall County prior to the adoption date of the ordinance [*1983*] from which this [the] Unified Development Code [UDC] is derived which has not been divided since recording."

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is a Heavy Commercial (HC) District with several parcels of land that have a majority of uses and buildings considered to be legal non-conforming (*National Drive*).

South: Directly south of the subject property is a 4.0-acre vacant tract of land zoned Agricultural (AG) District. PD-75 (*Lake Rockwall Estates*) is adjacent to and west of this vacant tract of land.

East: Directly east of the subject property are two (2) vacant tracts of land (i.e. 7.0 acres & 15.276-acres) zoned Agricultural (AG) District.

West: Directly west of the subject property is a 5.0-acre vacant tract of land zoned Agricultural (AG) District and was annexed into the City in 1999. PD-75 (*Lake Rockwall Estates*) is adjacent to and west of this vacant tract of land.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The Future Land Use Map, adopted with the Comprehensive Plan, designates the subject property for *Commercial/Industrial* land uses. Should the City Council approve the applicant's request, staff has included a condition of approval that would amend the Future Land Use Map to reflect the proposed change in land use from a *Commercial/Industrial* designation to a *Commercial* designation.

NOTIFICATION:

On October 27, 2016, staff mailed 56 notices to property owners and residents within 500-feet of the subject property. Staff also sent a notice to the Hickory Ridge and Hickory Ridge East Homeowner's Associations (*HOA*), which are the only HOA's located within 1,500 feet of the subject property and participating the in the notification program. Additionally, staff posted a sign along SH-205, adjacent to the *subject property* as required by the Unified Development Code (UDC). At the time this case memo was drafted staff has received one (1) notice in favor of the zoning change request.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to change the zoning of the subject property from an Agricultural (AG) District to a Commercial (C) District then staff would propose the following conditions of approval:

1) By approving this zoning change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of the subject property from a *Commercial/Industrial* designation to a *Commercial* designation; and,

2) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

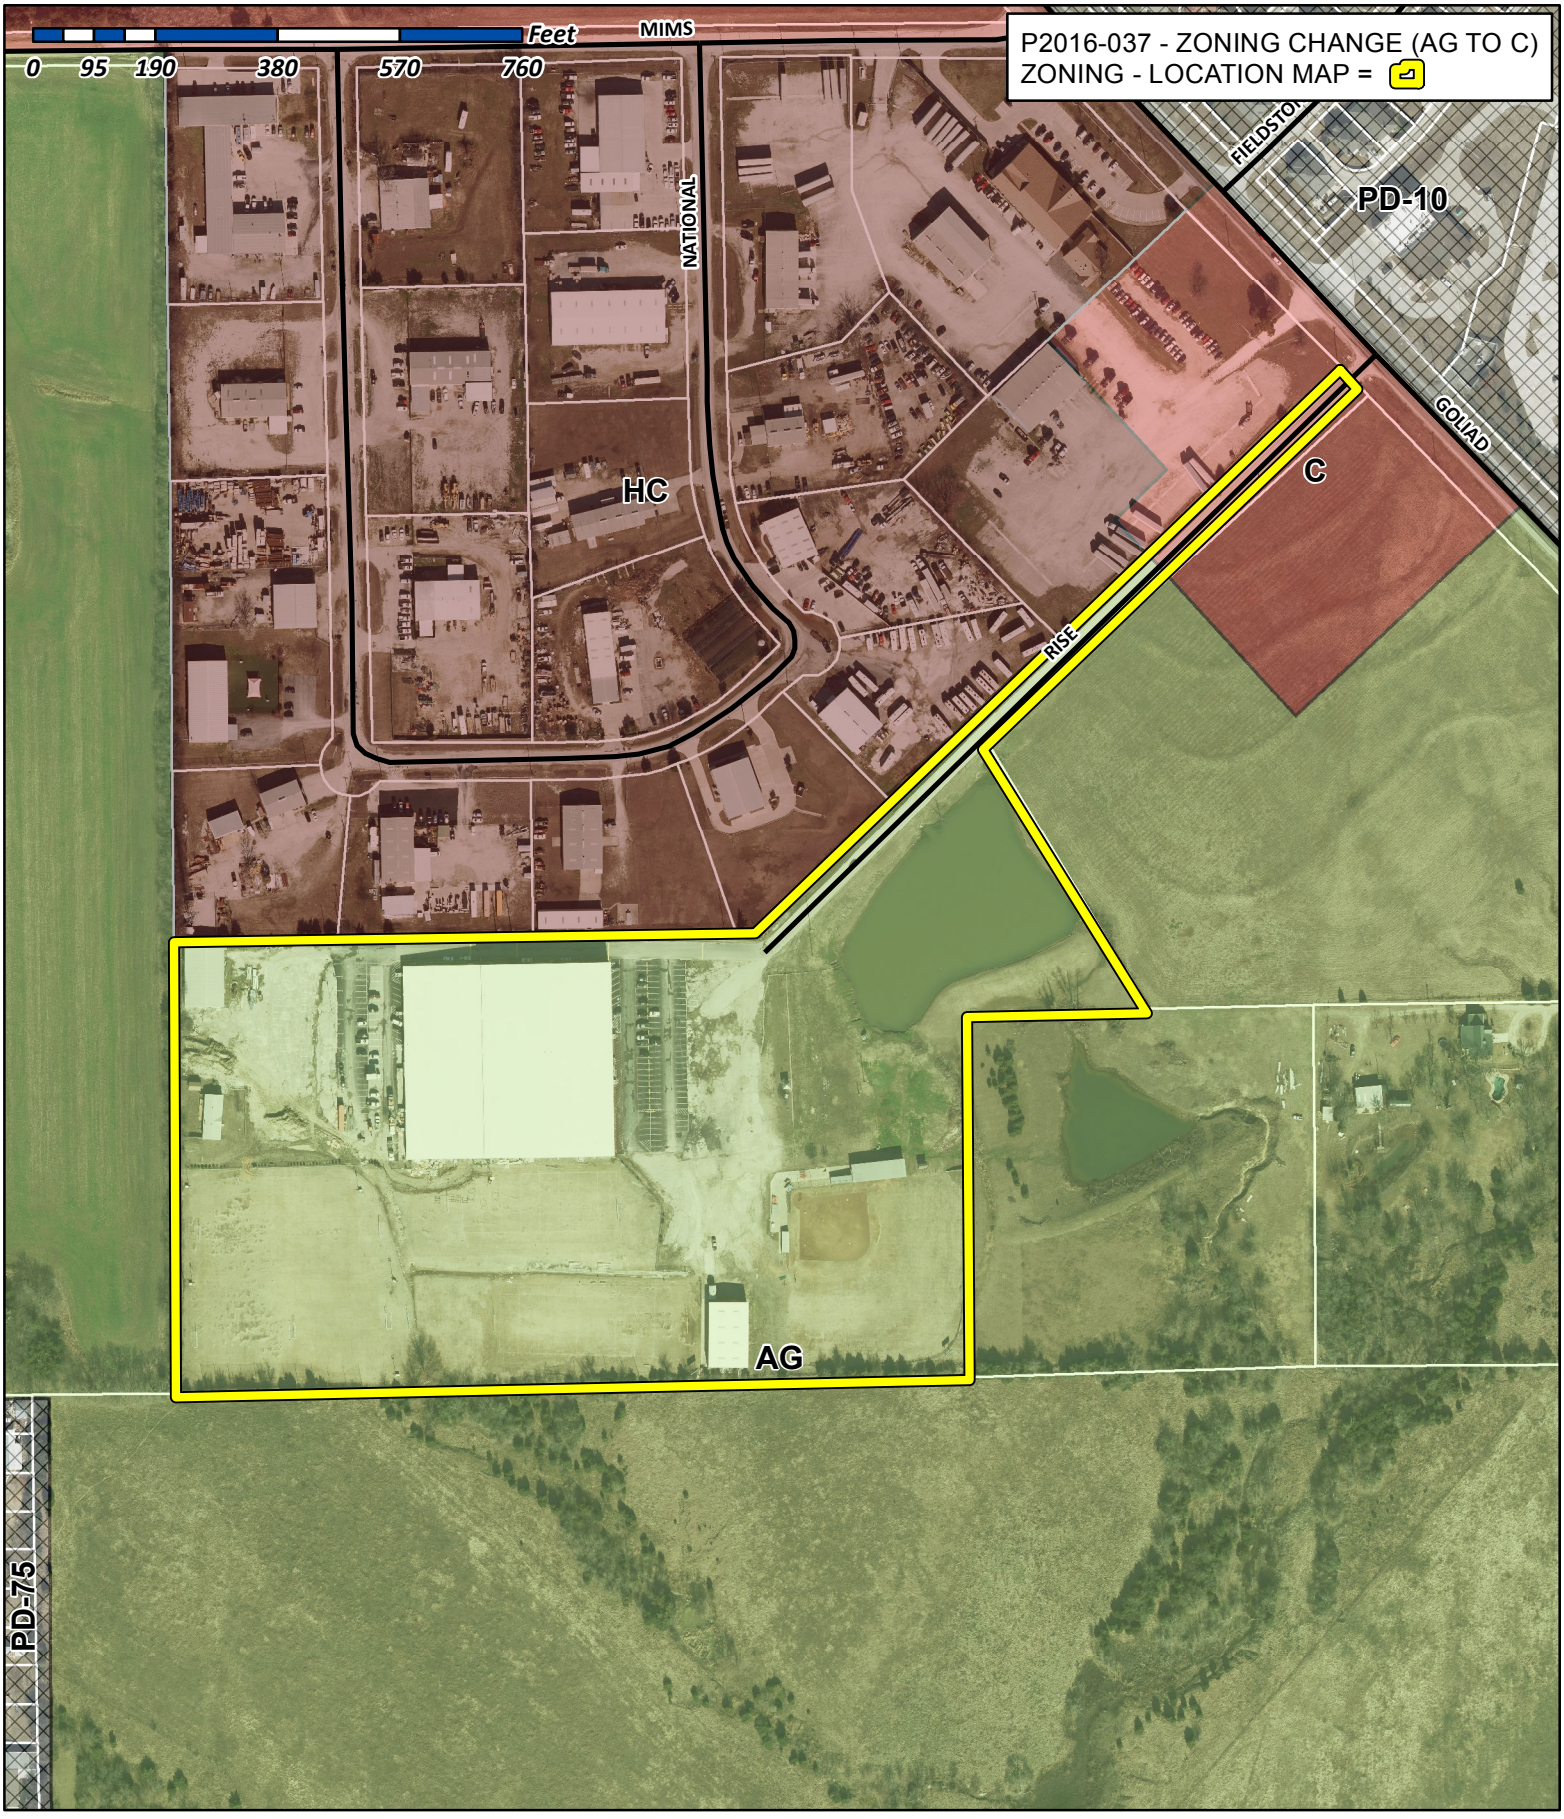
Hold a public hearing to discuss and consider a request by Douglas F. DeMarco on behalf of John G. Robertson for the approval of a zoning change from an Agricultural (AG) District to a Commercial (C) District for a 23.27-acre tract of land identified as Tract 2-28 of the J. R. Johnson Survey, Abstract No. 128, Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2922 S. Goliad Street [SH-205], and take any action necessary.

General Planning Comments to be addressed:



1. On all revised plan submittals please include the Case Number (Z2016-037) in the lower right hand corner.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the zoning matter. Most importantly, be sure that you and/or your representative(s) are present for both Public Hearings as per the scheduled dates below. If you have any quesitons regarding this case, please feel free to contact David Gonzales with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: October 25, 2016 (6:00 p.m.)
Planning - Public Hearing: November 15, 2016 (6:00 p.m.)

City Council - Public Hearing: November 21, 2016 (1st Reading of Ordinance) [6:00 p.m.]
City Council - December 5, 2016 (2nd Reading of Ordinance) [6:00 p.m.]

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on ***November 4, 2016***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday, 11/15/2016 at 6:00 p.m***., and the City Council will hold a public hearing on ***Monday, 11/21/2016 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2016-037: Zoning Change (AG to C)

Hold a public hearing to discuss and consider a request by Douglas F. DeMarco on behalf of John G. Robertson for the approval of a zoning change from an Agricultural (AG) District to a Commercial (C) District for a 23.27-acre tract of land identified as Tract 2-28 of the J. R. Johnson Survey, Abstract No. 128, Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2922 S. Goliad Street [SH-205], and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 11/15/2016 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 11/21/2016 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

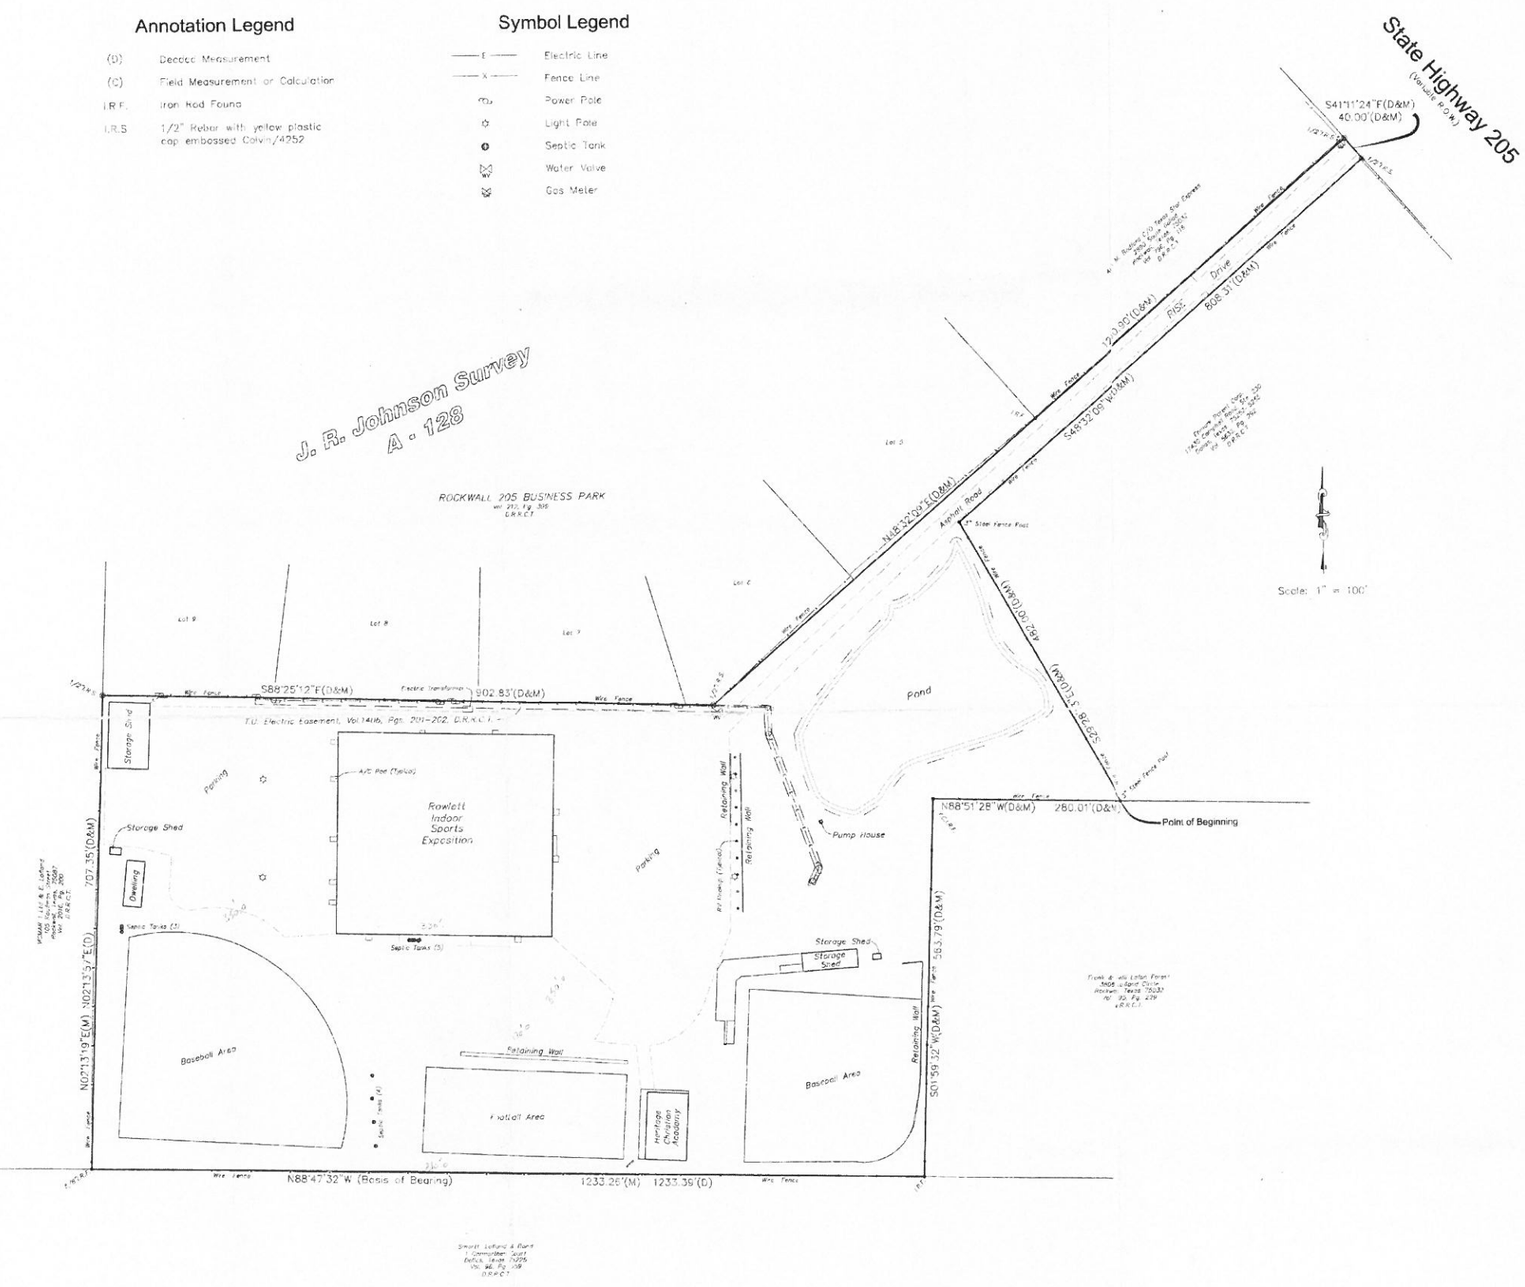
Subject: FW: Re-zoning request for Rockwall Indoor Sports Expo

David,

Rockwall Indoor Sports Expo ("RISE") requests to have its property rezoned from the current Agriculture designation to a Commercial designation. The only purpose for this modification is to allow for a Special Use Permit (SUP) permitting installation and use of 60 foot light posts and lights for our baseball complex. The addition of these lights would provide RISE the opportunity to better serve the baseball community. RISE currently provides a low cost alternative to more expensive private facilities. These lights would allow RISE to provide our outdoor baseball facilities after dark, thereby increasing the hours of usage on a daily basis. This would also allow for sanctioned baseball tournaments. RISE would fully adhere to light pollution restrictions and curfews. Our baseball complex once had 30 foot lights which were lost in a storm. It's been determined that 60 foot light replacements are the only safe alternative because shorter lights are blinding to the players and not sanctioned. We respectfully request that Rockwall city allow us the opportunity to serve the community in a more efficient manner.

P.S. David, would it be more efficient for the SUP to be adjudicated in parallel with the zoning request. This would speed the process and provide context to the zoning request for those charged in this determination.



Thank you for your consideration.
Cheryle deMarco
Owner/operator of RISE

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO FURTHER AMEND THE ZONING MAP TO ADOPT A CHANGE IN ZONING FROM AN AGRICULTURAL (AG) DISTRICT TO A COMMERCIAL (C) DISTRICT ON A 23.27-ACRE TRACT OF LAND IDENTIFIED AS TRACT 2-28 OF THE J. R. JOHNSON SURVEY, ABSTRACT NO. 128, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, AND BEING MORE SPECIFICALLY DESCRIBED IN *EXHIBIT 'A'* OF THIS ORDINANCE; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Douglas F. DeMarco on behalf of John G. Robertson for a change in zoning from an Agricultural (AG) District to a Commercial (C) District on a 23.27-acre tract of land identified as Tract 2-28 of the J. R. Johnson Survey, Abstract No. 128, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A',* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, Texas, as heretofore amended, be and the same are hereby amended by amending the zoning map of the City of Rockwall so as to change the zoning of the *Subject Property* from an Agricultural (AG) District to a Commercial (C) District; and

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes provided for a *Commercial* (*C*) *District* in *Section 1.1, "Use of Land and Buildings,"* of *Article IV, "Permissible Uses", Section 4.5, "Commercial* (*C*) *District", and Section 6.7, SH-205 Overlay (SH-205 OV) District* of *Article V, "District Development Standards",* of the *Unified Development Code* of the City of Rockwall as heretofore amended, as amended herein by granting of this zoning change, and as maybe amended in the future;

Section 3. That the official zoning map of the City be corrected to reflect the changes in the zoning described herein.

Section 4. Any person, firm, or corporation violating any of the provisions of this ordinance shall

be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of two thousand dollars ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

Section 5. If any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code of the City of Rockwall, Texas, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable.

Section 6. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be and the same are hereby repealed, and all other ordinances of the City of Rockwall not in conflict with the provisions of this ordinance shall remain in full force and effect.

Section 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

DRAFT

Exhibit 'A':
Legal Description & Zoning Exhibit

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/15/2016

APPLICANT: Chase Finch, *Corwin Engineering, Inc.*

AGENDA ITEM: **SP2016-024**; *Ridgecrest Subdivision*

SUMMARY:

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of Ridgecrest SF, LTD. for the approval of a site plan for the Ridgecrest Subdivision containing 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.

PURPOSE:

The Ridgecrest Subdivision will consist of 45 single-family lots on 29.541-acres of land. The development will incorporate a rural street cross-section and larger front yard setback (i.e 40-feet) to give the appearance of a rural neighborhood. The development will also incorporate 6-acres (i.e. 20%) of open space. The residential subdivision will be composed of 45 single-family lots on 29.541-acres of land, and be broken down per the lot mix indicated in Planned Development District 81 (PD-81) and shown in *Table 1* below.

Table 1: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Dwelling Units (#)*	*Dwelling Units (%)*
A	80' x 100'	15,000 SF	45	100.00%
	Average Lot Size:	15,000 SF		
		Maximum Permitted Units:	*45*	*100.00%*

DENSITY AND DIMENSIONAL REQUIREMENTS:

The submitted site plan conforms to the technical requirements contained in the Unified Development Code (UDC) for properties located in Planned Development District 81 (PD-81). The maximum permissible density for the Subject Property shall not exceed 1.52 dwelling units per gross acre of land and in no case shall the proposed development exceed 45 units. A summary of the density and dimensional requirements of the subject property is as follows.

Table 2: Lot Dimensional Requirements

Minimum Lot Width/Frontage [(1)]	*80'*
Minimum Lot Depth	*100'*
Minimum Lot Area	*15,000 SF*
Minimum Front Yard Setback [(2)]	*40'*

Minimum Side Yard Setback	*5'*
Minimum Side Yard Setback (Adjacent to a Street)	*10'*
Minimum Length of Driveway Pavement	*20'*
Maximum Height	*36'*
Minimum Rear Yard Setback	*10'*
Minimum Area/Dwelling Unit (SF)	*1,800 SF*
Maximum Lot Coverage	*65%*

General Notes:

[1]: Lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may have the front lot width reduced by 20% as measured at the front property line provided that the lot width will be met at the front building line. Additionally, the lot depth on lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may be reduced by up to 10%, but shall meet the minimum lot size for each lot type as referenced within *Table 1*.

[2]: The Director of Planning or his designee may grant a reduction in the required 40-foot front yard building setback of up to five (5) feet for lots situated along cul-de-sacs or curvilinear streets, or where a 40-foot front yard building setback would create an undue hardship on the property.

In accordance with the requirements of Ordinance No. 16-46 the applicant has indicated an approximate six (6) acre park that will remain privately owned and maintained by the Homeowner's Association (HOA). The inclusion of this parkland satisfies all parkland dedication for this development. *See the Park Board Recommendations section below for further detail concerning the private park.*

A *Tree Mitigation Plan [Case No. MIS2016-009]* approved on October 11, 2016 indicates the removal of 580-caliper inches of tree with a total mitigation requirement of 547.35-caliperinches. Of the trees being removed, five (5) of the trees [totaling 32.65-caliper inches] are Cedar trees. According to the Unified Development Code (UDC) Cedar trees that are eleven (11) inches dbh or larger shall be replaced at fifty (50) percent the total caliper inches being removed. Therefore, the applicant is only required to mitigate for 16.325-caliper inches of Cedar trees. Staff has determined that the required mitigation is more than satisfied by the landscaping plan provided by the applicant.

PARKS BOARD RECOMMENDATIONS:

On November 1, 2016 the Parks Board reviewed the *final plat* and *site plan* and made the following recommendations:

1) The developer pay the pro-rata equipment fees required in the amount of $54,180 [i.e. 45 Lots @ $1,204.00 Per Lot].

2) The developer pay the cash-in-lieu of land fees required for in the amount of $41,985 [i.e. 45 Lots @ $933.00 Per Lot].

3) The shade structure presented in the plan be changed to a play structure.

4) The 6-acre open space and drainage easement remain as HOA maintained and not accepted as a public park.

NOTE: This condition has been added to the conditions of approval below.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the *Site Plan* for the *Ridgecrest Subdivision* staff would recommend the following conditions:

1) The *Site Plan* shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments. Specifically, the *Site Plan* should meet the following conditions:

2) A *Final Plat* shall be required to be submitted prior to the issuance of any building permits for this project;

3) The development shall conform to the recommendations made by the Parks Board for the *Final Plat (Case No. P2016-045);* and,

4) Any construction resulting from the approval of this *Site Plan* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

SP2016-024 Ridgecrest Subdivision Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of Ridgecrest SF, LTD. for the approval of a site plan for the Ridgecrest Subdivision containing 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (SP2016-024) in the lower right hand corner of all pages on future submittals.
I.4 This site plan in being reviewed concurrently with a Tree Mitigation Plan [MIS2016-009] and a Final Plat [P2016-045]
M.5 Please show water and sewer easements. Also, please do this on the Tree Mitigation Plan.
M.6 Please remove all trees that are in the 15' Water and Sewer Easements and add to your landscaping for mitigation. Also, please do this on the Tree Mitigation Plan. Once these trees are identified, we will be able to determine if these are feature trees that require P&Z approval.
M.7 Please add an additional "Concept Landscape Plan" but change the title to Site Plan. This way, the set will include a "Site Plan", "Landscape Plan", Tree Preservation Plan", and "Tree Preservation Data"
I.8 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by November 1, 2016. The Park Board Meeting is November 1, 2016. The Planning & Zoning Worksession date for this case will be October 25, 2016. The Planning and Zoning Meeting for this case is November 15, 2016.

CONSENT AGENDA

1. **P2016-050** **(Korey)**
   Discuss and consider a request by Joel Wells on behalf of Tom Walker for the approval of a replat for Lots 3 & 4, Block A, Walker Addition being a 1.10-acre tract of land currently identified as Lot 1, Block A, Walker Addition and Tract 28 of the B. J. T. Lewis Survey, Abstract No. 255, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 53 (PD-53) & Single Family 10 (SF-10) District, addressed as 1301 S. Alamo Road and 1020 Ridge Road, and take any action necessary.

2. **P2016-051** **(Korey)**
   Discuss and consider a request by Annalyse Olson on behalf of Ronald Valk for the approval of a replat for Lots 4 & 5, Block A, Platinum Storage Addition being a 5.549-acre tract of land currently identified as Lots 2 & 3, Block A, Platinum Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 1450 T. L. Townsend Drive, and take any action necessary.

APPOINTMENTS

3. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

4. Appointment with Terry W. Gwin of SWBC Real Estate, LLC to consider a request to submit a new zoning application for a zoning change from a Light Industrial (LI) District to a Planned Development District for a multi-family apartment complex on a 42.50-acre tract of land identified as Tract 1-4 of the J. M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas, in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code, and take any action necessary. **(Ryan)**

ACTION ITEMS

5. **MIS2016-010** **(Ryan)**
   Discuss and consider a request by Marc Camacho for the approval of an exception to the minimum masonry requirements stipulated in Section 3.1, *General Residential District Standards*, of Article V, *District Development Standards*, of the Unified Development Code, for a 0.259-acre parcel of land identified as Lot 14, Block C, Harbor Landing, Phase 2, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) for single family land uses, addressed as 306 Harborview Drive, and take any action necessary.

DISCUSSION ITEMS

6. **Z2016-038** **(David)**
   Hold a public hearing to discuss and consider a request by Michael Scott for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4947-acre parcel of land identified as Lot 16, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1950 Copper Ridge Circle, and take any action necessary.

7. **Z2016-039** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Worth Williams of Moore Worth Investments, LLC on behalf of the owner Mark S. Kelldorf of Arkoma Development, LLC for the approval of an amendment to Planned Development District 65 (PD-65) being a 49.35-acre tract of land situated within the S. King Survey, Abstract No. 131 and the J. B. Jones Survey, Abstract No. 124, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65), situated within the North SH-205 Overlay (N. SH-205 OV) District, located on the west side of N. Goliad Street [*N. SH-205*] and N. Lakeshore Drive, and take any action necessary.

8. **Z2016-040** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of the owner East Shore Joint Venture for the approval of an amendment to allow 47 single-family homes in Planned Development District 68 (PD-68) being a 25.45-acre tract of land identified as Lots 1-7, Block A, Eastshore Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 68 (PD-68), situated within the SH-205 Overlay (SH-205 OV) District, located on the east side of S. Goliad Street [*S. SH-205*] north of the intersection of S. Goliad Street and Justin Road, and take any action necessary.

9. **Z2016-041** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Tony Austin of TAC, Inc. on behalf of the owner Cameron & Cameron for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for a multi-family apartment complex on a 12.59-acre tract of land identified as Tract 8 of the B. J. T. Lewis Survey, Abstract No. 255, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Overlay (SH-205 OV) District, located on the west side of T. L. Townsend Drive south of Justin Road, and take any action necessary.

10. **Z2016-042** **(Ryan)**
    Hold a public hearing to discuss and consider a request by Fred Hazel of Davis Development on behalf of Jim Kirby of Rockway Partners, LLC for the approval of a zoning change from a Commercial (C) District to a Planned Development District for a multi-family apartment complex on a 17.60-acre tract of land identified as Lots 6-11, Block A, La Jolla Pointe Addition, Phase 2, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, located east of the intersection of Laguna Drive and La Jolla Pointe Drive, and take any action necessary.

11. **SP2016-025** **(Korey)**
    Discuss and consider a request by Christopher Orr of Arcadia Lakes of Somerset Holdings, LLC for the approval of a site plan for Phase 1 of the Somerset Park Subdivision, containing 144 single-family residential lots on a 56.276-acre tract of land being a portion of a larger 139.354-acre tract of land identified as Tracts 1 & 7 of the A. Johnson Survey, Abstract No. 123, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 63 (PD-63) for Single Family 10 (SF-10) District land uses, situated within the SH-205 Overlay (SH-205 OV) District, located at the northeast corner of the Intersection of FM-549 and S. Goliad Street (SH-205), and take any action necessary.

12. **SP2016-026** **(David)**
    Discuss and consider a request by Tim Seymore of Seymore Custom Homes, LLC on behalf of James & Robin Meade for the approval of a site plan for the construction of a commercial/industrial building on an existing 1.5-acre commercial/industrial facility identified as Tract 2-20 of the J. R. Johnson Survey, Abstract No. 128, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, addressed as 242 National Drive, and take any action necessary.

13. **SP2016-027** **(David)**
    Discuss and consider a request by William Baker of Jones Baker on behalf of Elias Pope of 8020 Restaurants, LLC for the approval of amended site plan for a restaurant on a 0.90-acre parcel of land identified as Lot 3, Block A, Harbor District Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the IH-30 Overlay (IH-30 OV) District, located at the southeast corner of the IH-30 Frontage Road and Sunset Ridge Drive, and take any action necessary.

14. **SP2016-028** **(David)**
    Discuss and consider a request by Rick Bates of RLK Engineering, Inc. on behalf of James Watson of the Rockwall Independent School District (RISD) for the approval of a site plan for a public school on a 18.407-acre tract of land identified as Rockwall School Addition No. 1, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, addressed as 901 Nash Street, and take any action necessary.

15. **SP2016-029** **(David)**
    Discuss and consider a request by Robert A, Howman of Glenn Engineering Corp. on behalf of James Watson of the Rockwall Independent School District (RISD) for the approval of a site plan for a public school on a 24.209-acre portion of a larger 173.0-acre tract of land identified as Tract 7-1 of the W. H. Baird Survey, Abstract No. 25, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Bypass Corridor Overlay (205 BY-OV) District, located directly east of the intersection of John King Boulevard and Trail View Drive, and take any action necessary.

16. SP2016-030 (David)

Discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a site plan for a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Interior Subdistrict, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [FM-3097] and Summer Lee Drive, and take any action necessary.

17. SP2016-031 (David)

Discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a site plan for 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Residential Subdistrict and within the Scenic Overlay (SOV) District, located north of the intersection of Ridge Road [FM-740] and Glen Hill Way, and take any action necessary.

18. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2016-045: Final Plat for the Ridgecrest Subdivision [*Approved*]

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/29/2016

APPLICANT: Joel Wells

AGENDA ITEM: **P2016-050;** *Lots 3 & 4, Block A, Walker Addition*

SUMMARY:

Discuss and consider a request by Joel Wells on behalf of Tom Walker for the approval of a replat for Lots 3 & 4, Block A, Walker Addition being a 1.10-acre tract of land currently identified as Lot 1, Block A, Walker Addition and Tract 28 of the B. J. T. Lewis Survey, Abstract No. 255, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 53 (PD-53) & Single Family 10 (SF-10) District, addressed as 1301 S. Alamo Road and 1020 Ridge Road, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of the request is to replat one (1), 1.10-acre tract of land *[Lot 1, Block A, Walker Addition*] into two (2), lots [*Lots 3 & 4, Block A, Walker Addition*] for the purpose of subdividing one (1) lot into two (2) lots.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the *replat* for *Lots 3 & 4, Block A, Walker Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *replat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

SURVEY ACCEPTED BY:

_____ DATE _____

_____ DATE _____

DESCRIPTION

All that certain lot, tract or parcel of land situated in the B.J.T. LEWIS SURVEY, ABSTRACT NO. 255, City of Rockwall, Rockwall County, Texas, and being a part of Lot 1, Block A, Walker Addition, an Addition to the City of Rockwall, Texas, according to the Plat thereof recorded in Cabinet F, Slide 185 of the Plat Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner at the southwest corner of Lot 1, Block A, and being at the inner "L" corner in the east line of a tract of land as described in a Warranty deed from John P. Chance Investments, LLC to Joel A. Wells and Sholana K. Wells, dated March 17, 2015 and being recorded in Document no. 20150000003684, of the Official Public Records of Rockwall County, Texas;

THENCE N. 05 deg. 10 min. 04 sec. E. along the west line of Lot 1, Block A and the east line of said Wells tract, a distance of 125.03 feet to a 1/2" iron rod found for corner at the northeast corner of Wells tract;

THENCE S. 83 deg. 09 min. 50 sec. E. a distance of 3.00 feet to a point for corner under a shed;

THENCE S. 01 deg. 24 min. 57 sec. E. across Lot 1, Block A, a distance of 124.72 feet to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner in the south boundary line of Lot 1, Block A;

THENCE N. 88 deg. 17 min. 12 sec. W. along the south line of Lot 1, a distance of 17.33 feet to the POINT OF BEGINNING and containing 1,266 square feet or 0.03 acres of land.

NOTES

1) According to F.E.M.A. Flood Insurance Rate Map. Community Panel No. 48397C0040 L dated Sept. 26, 2008, this property lies in Zone X. This property does not appear to lie within a 100-year flood plain.

2) BEARING SOURCE: RECORDED PLAT.

3) ALL 1/2" IRS ARE CAPPED WITH YELLOW PLASTIC CAPS "RPLS 5034."

SURVEYOR'S CERTIFICATE

I, Harold D. Fetty, III, Registered Professional Land Surveyor No. 5034, do hereby certify that the above plat of the property surveyed for Joel and Sholana Wells at 1303 South Alamo Street, Rockwall, Rockwall County, Texas, is the result of a careful collection of the best evidence available to me and my opinion is based on the facts as found at the time of survey. This survey meets the requirements of the Minimum Standards of Practice as approved and published by the Texas Board of Professional Land Surveying, effective September 1, 1992 and subsequent revisions, and the same was surveyed under my supervision on the ground this the 26th day of October, 2016.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 11/29/2016

APPLICANT: Annalyse Olson

AGENDA ITEM: **P2016-051;** *Lots 4 & 5, Block A, Platinum Storage Addition*

SUMMARY:

Discuss and consider a request by Annalyse Olson on behalf of Ronald Valk for the approval of a replat for Lots 4 & 5, Block A, Platinum Storage Addition being a 5.549-acre tract of land currently identified as Lots 2 & 3, Block A, Platinum Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 1450 T. L. Townsend Drive, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of the request is to replat two (2) parcels of land *[Lots 4 & 5, Block A, Platinum Storage Addition*] for the purpose of establishing necessary fire lane and easements.

- ☑ On December 21, 2015, City Council granted a variance to the minimum street frontage requirement for Lot 4. This parcel of land is accessible from a cross-access easement that extends from T.L. Townsend Drive and through the CostCo Wholesale Center's property to SH-276.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the *replat* for *Lots 4 & 5, Block A, Platinum Storage Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *replat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

(11/22/2016 11:01 AM KB) P2016-051 Platinum Storage Addition Please address the following comments (M= Mandatory Comments; I = Informational Comments). I.1 This is a request by Annalyse Olson on behalf of Ronald Valk for the approval of a replat for Lots 4 & 5, Block A, Platinum Storage Addition being a 5.549-acre tract of land currently identified as Lots 2 & 3, Block A, Platinum Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 1450 T. L. Townsend Drive. I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com. M.3 For reference, include the case number (P2016-051) in the lower right hand corner of all pages on future submittals. M.4 Please correct the lot numbers in title block. See markups. I.5 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by December 6, 2016. The Planning & Zoning date for this case will be November 29, 2016. I.6 The projected City Council meeting date and subsequent approval for this plat is December 5, 2016

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

We the undersigned owner of the land shown on this plat, and designated herein as the _____ subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, watercourses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the_____ subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or Development Process Guidelines (Updates 2012) Page 99 of 154 Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We, our successors and assigns hereby waive any claim, damage, or cause of action that We may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: November 29, 2016

SUBJECT: Change of Request Letter by SWBC Real Estate, LLC

On August 15, 2016, the City Council denied a request to change the zoning of a 42.50-acre tract of land located along Discovery Boulevard (*see attached location map*) from a Light Industrial (LI) District to a Planned Development District for a multi-family apartment complex [*Case No. Z2016-019*]. Since the request was denied without an indication of prejudice the action was considered to be a denial with prejudice (*§8.3.B, Article II*). This motion restricts the ability to submit a zoning application for any portion of the subject property -- *unless the application is for a more restrictive, less intense use or development (§8.3.B, Article II)* -- for a period of one (1) year from the date of denial. In accordance with Section 8.3.D, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code the applicant submitted a written request to the Director of Planning on November 18, 2016 seeking approval from the Planning and Zoning Commission to refile a zoning change requesting a Planned Development District for a multi-family apartment complex. As part of the written request, the applicant has submitted a concept plan, unit breakdown and rendering of the proposed building elevations. In addition, the applicant has stated that this request does represent a substantial change in the density, unit count, average unit size, and amenities provided. The following is a side-by-side comparison of the previous project and the applicant's proposal:

	Z2016-019	*Proposed*
Maximum Density	*18 Units/Acre*	*15.5 Units/Acre*
Maximum Number of Units	*750 Units*	*650 Units*
Average Unit Size	*1,000 SF*	*981 SF*
Minimum Unit Size	*680 SF*	*650 SF*
Number of Phases	*2*	*2*

Staff has determined that the proposed changes to the original request are substantial enough to bring forward to the Planning and Zoning Commission. The Commission is tasked with determining if the changes that the applicant has submitted represent 1) a more restrictive or less intense use or development, and/or 2) if there is an actual change in conditions relating to zoning principles of the tract or parcel of land or the property surrounding it.

The applicant and staff will be available at the meeting to answer any questions.

November 18, 2016

Mr. Ryan Miller
Director of Planning & Zoning
City of Rockwall
385 S. Goliad, Rockwall Texas, 75087

Dear Mr. Miller:

SWBC Real Estate, LLC, respectfully requests consideration to file a new zoning application regarding the property described as a 42.50-acre tract within Tract 1-4 of the J.M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas, and located east of the intersection of Discovery Boulevard and John King Boulevard. Our company, SWBC Real Estate, LLC, is currently under contract with the property owner to purchase the land with the intent of developing a high quality multi-family community. The following points represent what are the significant changes from the previous zoning application:

- Maximum density is proposed to be 15.5 units per acre
- Maximum number of units to be 650
- Average unit size will be 981 sf and minimum unit size will be 650 sf
- Development will be constructed in two phases with the same mix of units, the same average unit size and minimum unit size for both phases
- Both phases will be separate properties with each having its own individual clubhouse and upgraded amenities
- Exterior architecture will be a more traditional design
- A new conceptual plan will be submitted

Please review this proposal and forward our request to the Planning & Zoning Commission for their consideration at the next scheduled meeting.

Sincerely,

Terry W. Gwin
President

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

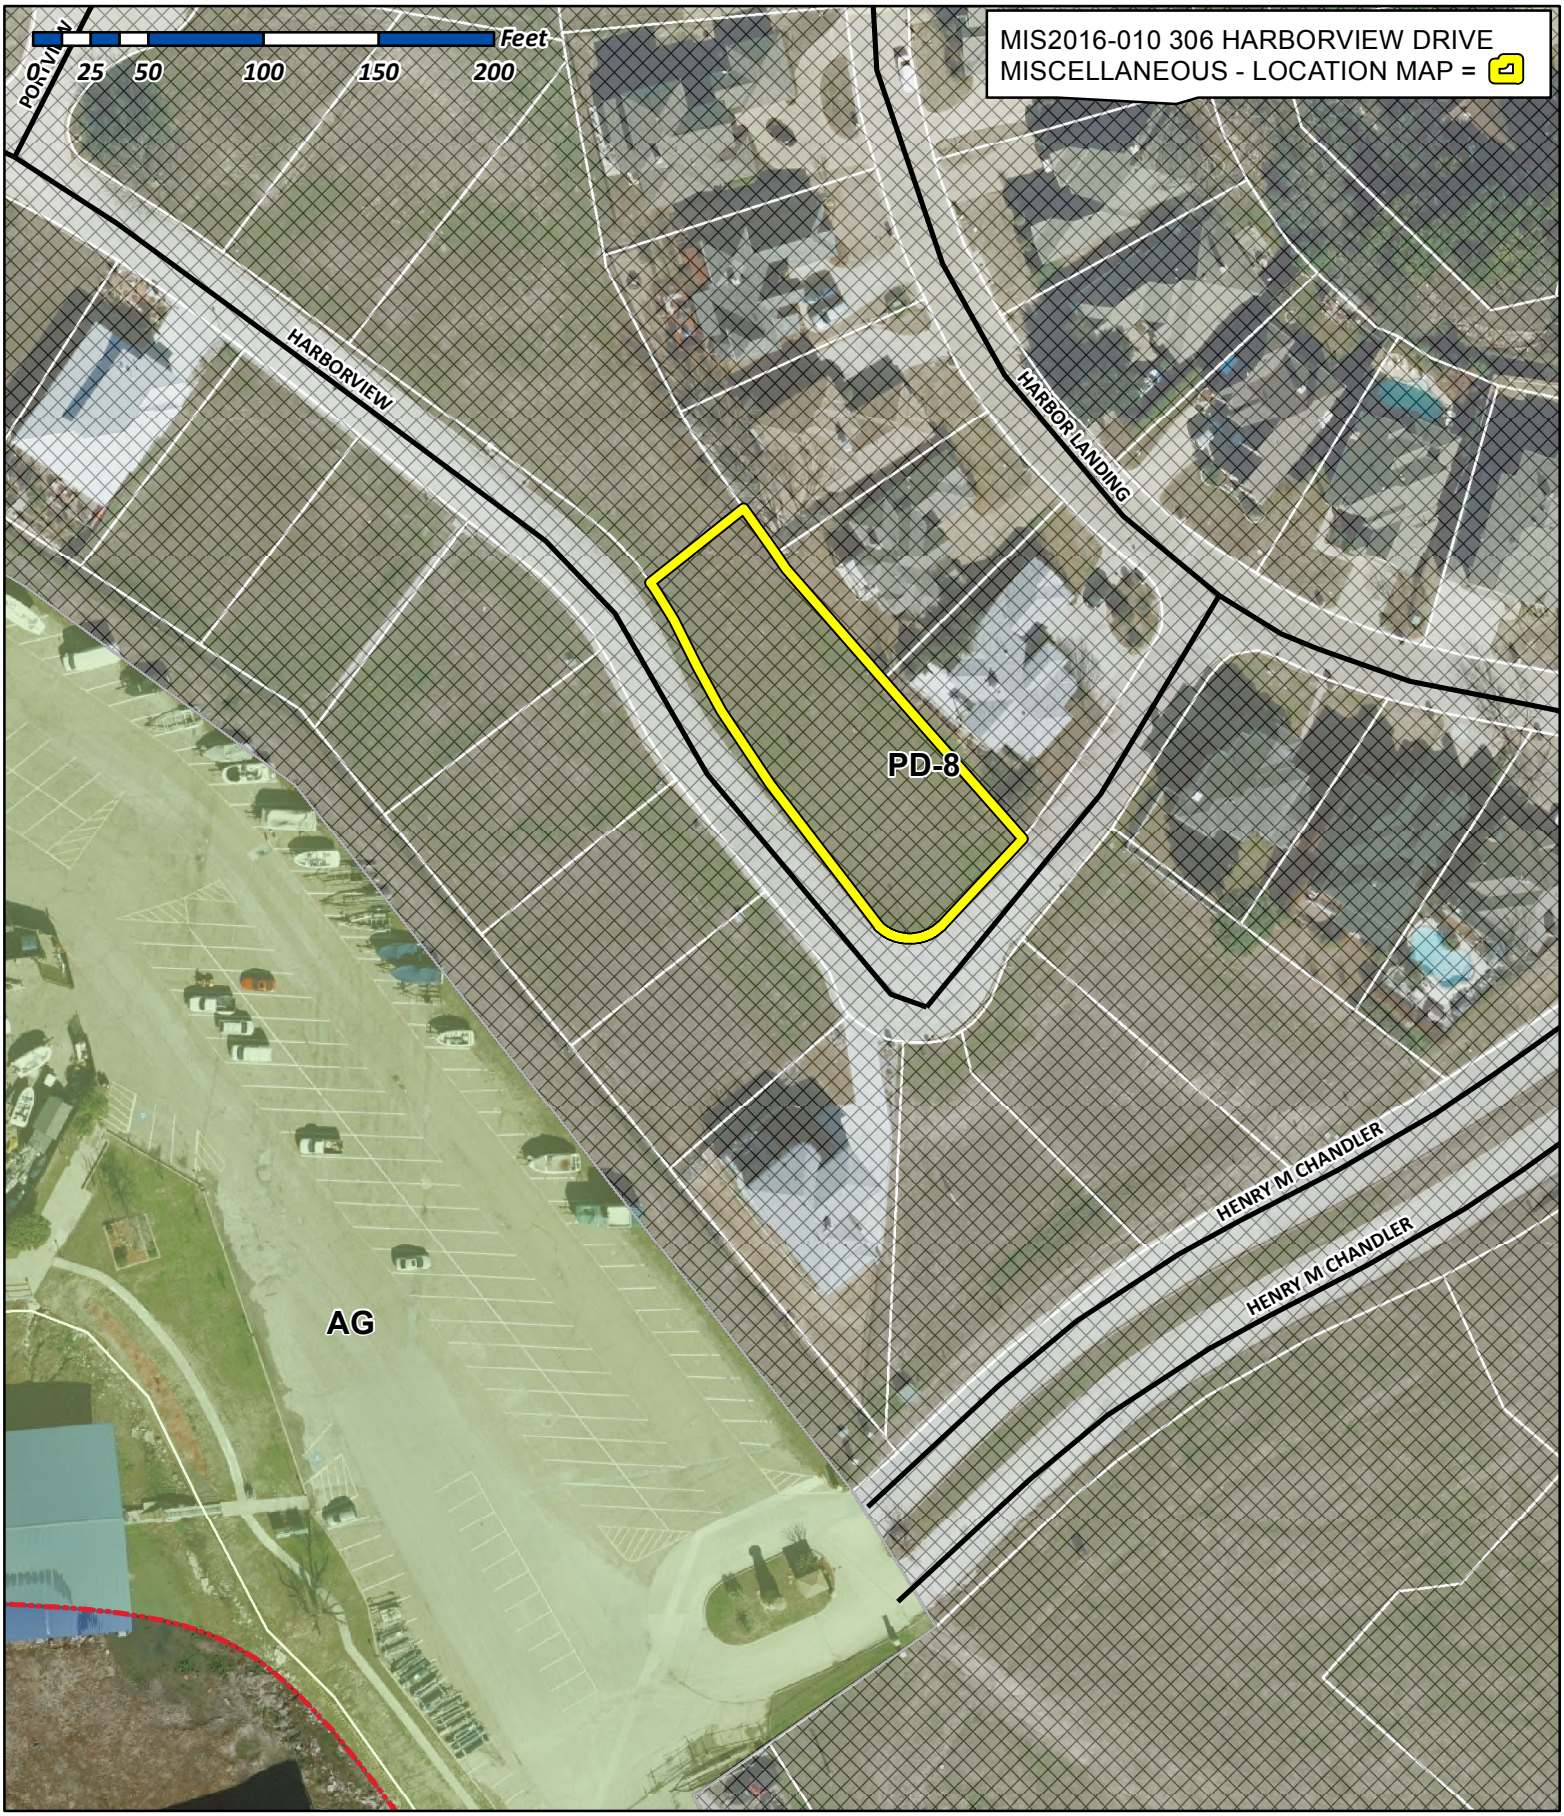
AGENDA DATE: 11/29/2016

APPLICANT: Marc Camacho

AGENDA ITEM: **MIS2016-010**; *Masonry Exception (306 Harborview Drive)*

SUMMARY:

Discuss and consider a request by Marc Camacho for the approval of an exception to the minimum masonry requirements stipulated in Section 3.1, *General Residential District Standards*, of Article V, *District Development Standards*, of the Unified Development Code, for a 0.259-acre parcel of land identified as Lot 14, Block C, Harbor Landing, Phase 2, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) for single family land uses, addressed as 306 Harborview Drive, and take any action necessary.



CHARACTERISTICS OF REQUEST:

The applicant, Marc Camacho, is requesting an exception to the masonry requirements for the purpose of constructing a 4,999 SF single-family home. According to the applicant's letter to staff, the single-family home will utilize a mixture of fiber cement board [74%] (*i.e. HardiBoard*), stone masonry [12%], concrete panels [9%] and clear red cedar [5%]. According to Section 3.1, *General Residential District Standards*, of Article V, *District Development Standards*, of the Unified Development Code the minimum masonry (*i.e. brick, stone -- natural, cast or cultured -- glass block, tile and/or CMU*) requirement for exterior walls on structures that are 120 square feet or greater is 80%; with a maximum of 50% of this masonry requirement being permitted to be Hardy Plank®, stucco or a similar cementaceous material. Additionally, the code states that, "(e)xceptions to these requirements … may be permitted on a case-by-case basis by the [*city*] council upon submission and approval of elevation drawings of the subject structure, and materials samples." The applicant has submitted building elevations/renderings, a set of construction drawings showing the proposed single-family home, and has stated in the letter submitted to staff that the Chandler's Landing Homeowner's Association (HOA) has approved the proposed elevations. The subject property is located in Chandler's Landing Subdivision off Harborview Drive, which is east of Henry M. Chandler Drive. The property is addressed as 306 Harborview Drive.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the applicant's request staff would recommend the following conditions:

1) Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

To: Gonzales, David
Subject: RE: Request for Exception to Exterior Material Requirement - 306 Harborview Dr

From: Marc Camacho [redacted]
Sent: Friday, November 18, 2016 3:22 PM
To: Gonzales, David
Cc: Jarita Green
Subject: Request for Exception to Exterior Material Requirement - 306 Harborview Dr

Mr. Gonzales,

This letter represents a formal request for exception to exterior material requirement for a new residential construction at 306 Harborview Dr, Rockwall 75032.

The proposed building finishes are as follows:
- 74% Fiber Cement Cladding (white and dark gray, integrally colored)
- 12% Stone Masonry
- 9% Concrete Panels (white, integrally colored)
- 5% Clear Red Cedar

I have attached the drawings as well as some exterior renderings for you perusal.

The Chandlers Landing HOA has already approved our proposed exterior finishes. However, we do not have an official letter from them just yet; at the end of our meeting with the HOA committee they communicated a conditional approval subject to receipt of city permit.

We were granted our building permit by the city yesterday.

Please let me know if you need anything else.

Respectfully,
Marc Camacho

PROJECT NOTES

GENERAL NOTES:

ALL WORK SHALL BE DONE IN COMPLIANCE WITH THE 2015 INTERNATIONAL RESIDENTIAL & BUILDINGS CODES, AS APPLICABLE, AND SHALL BE IN ACCORDANCE WITH ANY ADDITIONAL REQUIREMENTS OF THE STATE OF TEXAS, CITY OF ROCKWALL, AND CHANDLERS LANDING ASSOCIATION. THE CONTRACTOR SHALL ASSUME FULL RESPONSIBILITY FOR ANY WORK PERFORMED CONTRARY TO SUCH LAWS, ORDINANCES, OR REGULATIONS. THE CONTRACTOR SHALL ALSO PERFORM COORDINATION WITH ALL UTILITIES AND STATE SERVICE AUTHORITIES.

THE CONTRACTOR SHALL VERIFY THAT SITE AND BUILDING CONDITIONS ARE CONSISTENT WITH THESE PLANS BEFORE STARTING WORK. WORK NOT SPECIFICALLY DETAILED SHALL BE CONSTRUCTED TO THE SAME QUALITY AS SIMILAR WORK THAT IS DETAILED. WORK PERFORMED SHALL ALSO MEET THE WORKMANSHIP AND METHODOLOGY GUIDELINES AS RECOMMENDED BY THE RESPECTIVE GOVERNING BODY.

WRITTEN DIMENSIONS AND SPECIFIC NOTES SHALL TAKE PRECEDENCE OVER SCALED DIMENSIONS AND GENERAL NOTES. CONTRACTORS SHALL VERIFY AND ARE RESPONSIBLE FOR ALL DIMENSIONS (INCLUDING ROUGH OPENINGS) AND CONDITIONS ON THE JOB. CAMACHO ENGINEERING SHALL BE CONSULTED FOR CLARIFICATION IF SITE CONDITIONS ARE ENCOUNTERED THAT ARE DIFFERENT THAN SHOWN, IF DISCREPANCIES ARE FOUND IN THE PLANS OR NOTES, OR IF QUESTIONS ARISES OVER THE INTENT OF THE PLANS OR NOTES. CONTRACTOR SHALL VERIFY AND IS RESPONSIBLE FOR ALL DIMENSIONS (INCLUDING ROUGH OPENINGS).

PLUMBING, HVAC AND ELECTRICAL CONTRACTORS ARE RESPONSIBLE FOR THE PROPER FUNCTION THE RESPECTIVE SYSTEMS. THE CONTRACTOR SHALL NOTIFY THE DESIGNER WITH ANY PLAN CHANGES OR BUILDING/FRAMING MODIFICATIONS REQUIRED FOR PROPER INSTALLATION AND FUNCTION OF PLUMBING, HVAC, AND ELECTRICAL SYSTEMS.

CAMACHO ENGINEERING WILL NOT BE RESPONSIBLE FOR CONSTRUCTION METHODS, ACTS, OR OMISSIONS OF THE CONTRACTOR OR SUBCONTRACTOR, OR FAILURE OF ANY OF THEM TO CARRY OUT WORK IN ACCORDANCE WITH THE CONSTRUCTION DOCUMENTS. ANY INCONSISTENCY OR IRREGULARITY DISCOVERED IN THE CONSTRUCTION DOCUMENTS SHALL BE BROUGHT TO THE ATTENTION OF CAMACHO ENGINEERING BY WRITTEN NOTICE BEFORE PROCEEDING WITH WORK. CONTRACTOR SHALL CONFIRM RECEIPT OF WRITTEN NOTICE AND SHALL ALLOW REASONABLE TIME FOR ISSUE TO BE ADDRESSED PRIOR TO COMMENCING WORK AND ENACTING MODIFICATIONS. THE BURDEN OF COST AND LIABILITY FROM DEFECTIVE OR SUBSTANDARD WORK, OR WORK THAT DOES NOT SATISFY THE PLANS AND SPECS WILL REST UPON THE CONTRACTOR.

FOUNDATION, PATIOS, TERRACES, AND GARAGE AREAS ARE NOT INCLUDED IN LIVING AREA. ALL PENETRATIONS OF THE BUILDING ENVELOPE SHALL BE SEALED WITH CAULK OR FOAM.

ROOF SURFACES SHALL NOT TO THROUGH-FASTENED, CUT, OR PENETRATED FOR ANY REASON, OR USED FOR EQUIPMENT SUPPORT/INSTALLATION; UNLESS INDICATED OTHERWISE IN THE CONSTRUCTION DOCUMENTS, OR UNLESS PROVIDED WITH WRITTEN CONSENT AND OVERSIGHT FROM CAMACHO ENGINEERING. ALL PLUMBING AND FLUE VENTS SHALL BE ROUTED THROUGH A SIDEWALL AND EXTENDED ABOVE THE EAVE ELEVATION AS REQUIRED. SEE ROOF NOTES FOR ADDITIONAL INFORMATION AND DETAILS.

PLEASE SEE ADDITIONAL NOTES CALLED OUT ON OTHER SHEETS.

RENDERINGS:

RENDERINGS ARE NOT TO SCALE; ALL RENDERINGS ARE FOR ARTISTIC DEPICTION ONLY. PLAN UPDATES MAY NOT BE REFLECTED IN RENDERINGS. RENDERINGS SHALL NOT BE USED FOR CONSTRUCTION.

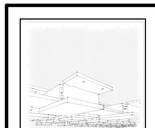
PROVIDE INSULATION BAFFLES AT EAVE VENTS BETWEEN RAFTERS.

SPECIFIC MANUFACTURES AND MODEL NUMBERS SHOWN ON THE PLANS ARE INDICATIONS OF QUALITY ONLY. THE OWNER/BUILDER SHALL NOT BE PROHIBITED FROM SUBSTITUTING MATERIALS AND/OR APPLIANCES OF EQUAL QUALITY/STRENGTHS FROM NON-SPECIFIED MANUFACTURERS.

THE OWNER/BUILDER SHALL NOT BE SUBSTITUTING MATERIALS PROVIDED THEY MEET CURRENT BLDG. CODE, AND ARE APPROVED FOR THAT SPECIFIC USE BY THE BUILDING OFFICIAL

MISCELLANEOUS NOTES:



EACH BEDROOM TO HAVE A MINIMUM WINDOW OPENING OF 5.7 SQ. FT. WITH A MINIMUM WIDTH OF 20 IN. AND A SILL LESS THAN 44" ABOVE FIN. FLR.

ALL TUB AND SHOWER ENCLOSURES ARE TO BE GLAZED WITH SAFETY GLASS.

ALL EXTERIOR WINDOWS ARE TO BE DOUBLE GLAZED AND ALL EXTERIOR DOORS ARE TO BE SOLID CORE WITH WEATHERSTRIPPING. PROVIDE 1/2 IN. DEADBOLT LOCKS ON ALL EXTERIOR DOORS, AND LOCKING DEVICES ON ALL DOORS AND WINDOWS WITHIN 10 FT. (VERTICAL) OF GRADE. PROVIDE PEEPHOLE 54-66 IN. ABOVE FIN. FLOOR ON EXTERIOR ENTRY DOORS.

PROVIDE ONE SMOKE DETECTOR IN EACH ROOM AND ONE IN EACH CORRIDOR ACCESSING BEDROOMS. CONNECT SMOKE DETECTORS TO HOUSE POWER AND INTER-CONNECT SMOKE DETECTORS TO HOUSE POWER AND INTERCONNECT SO THAT, WHEN ANY ONE IS TRIPPED, THEY ALL WILL SOUND. PROVIDE BATTERY BACKUP FOR ALL UNITS.

BATHROOMS AND UTILITY ROOMS ARE TO BE VENTED TO THE OUTSIDE WITH A FAN CAPABLE OF PRODUCING A MINIMUM OF 5 AIR EXCHANGES PER HOUR.

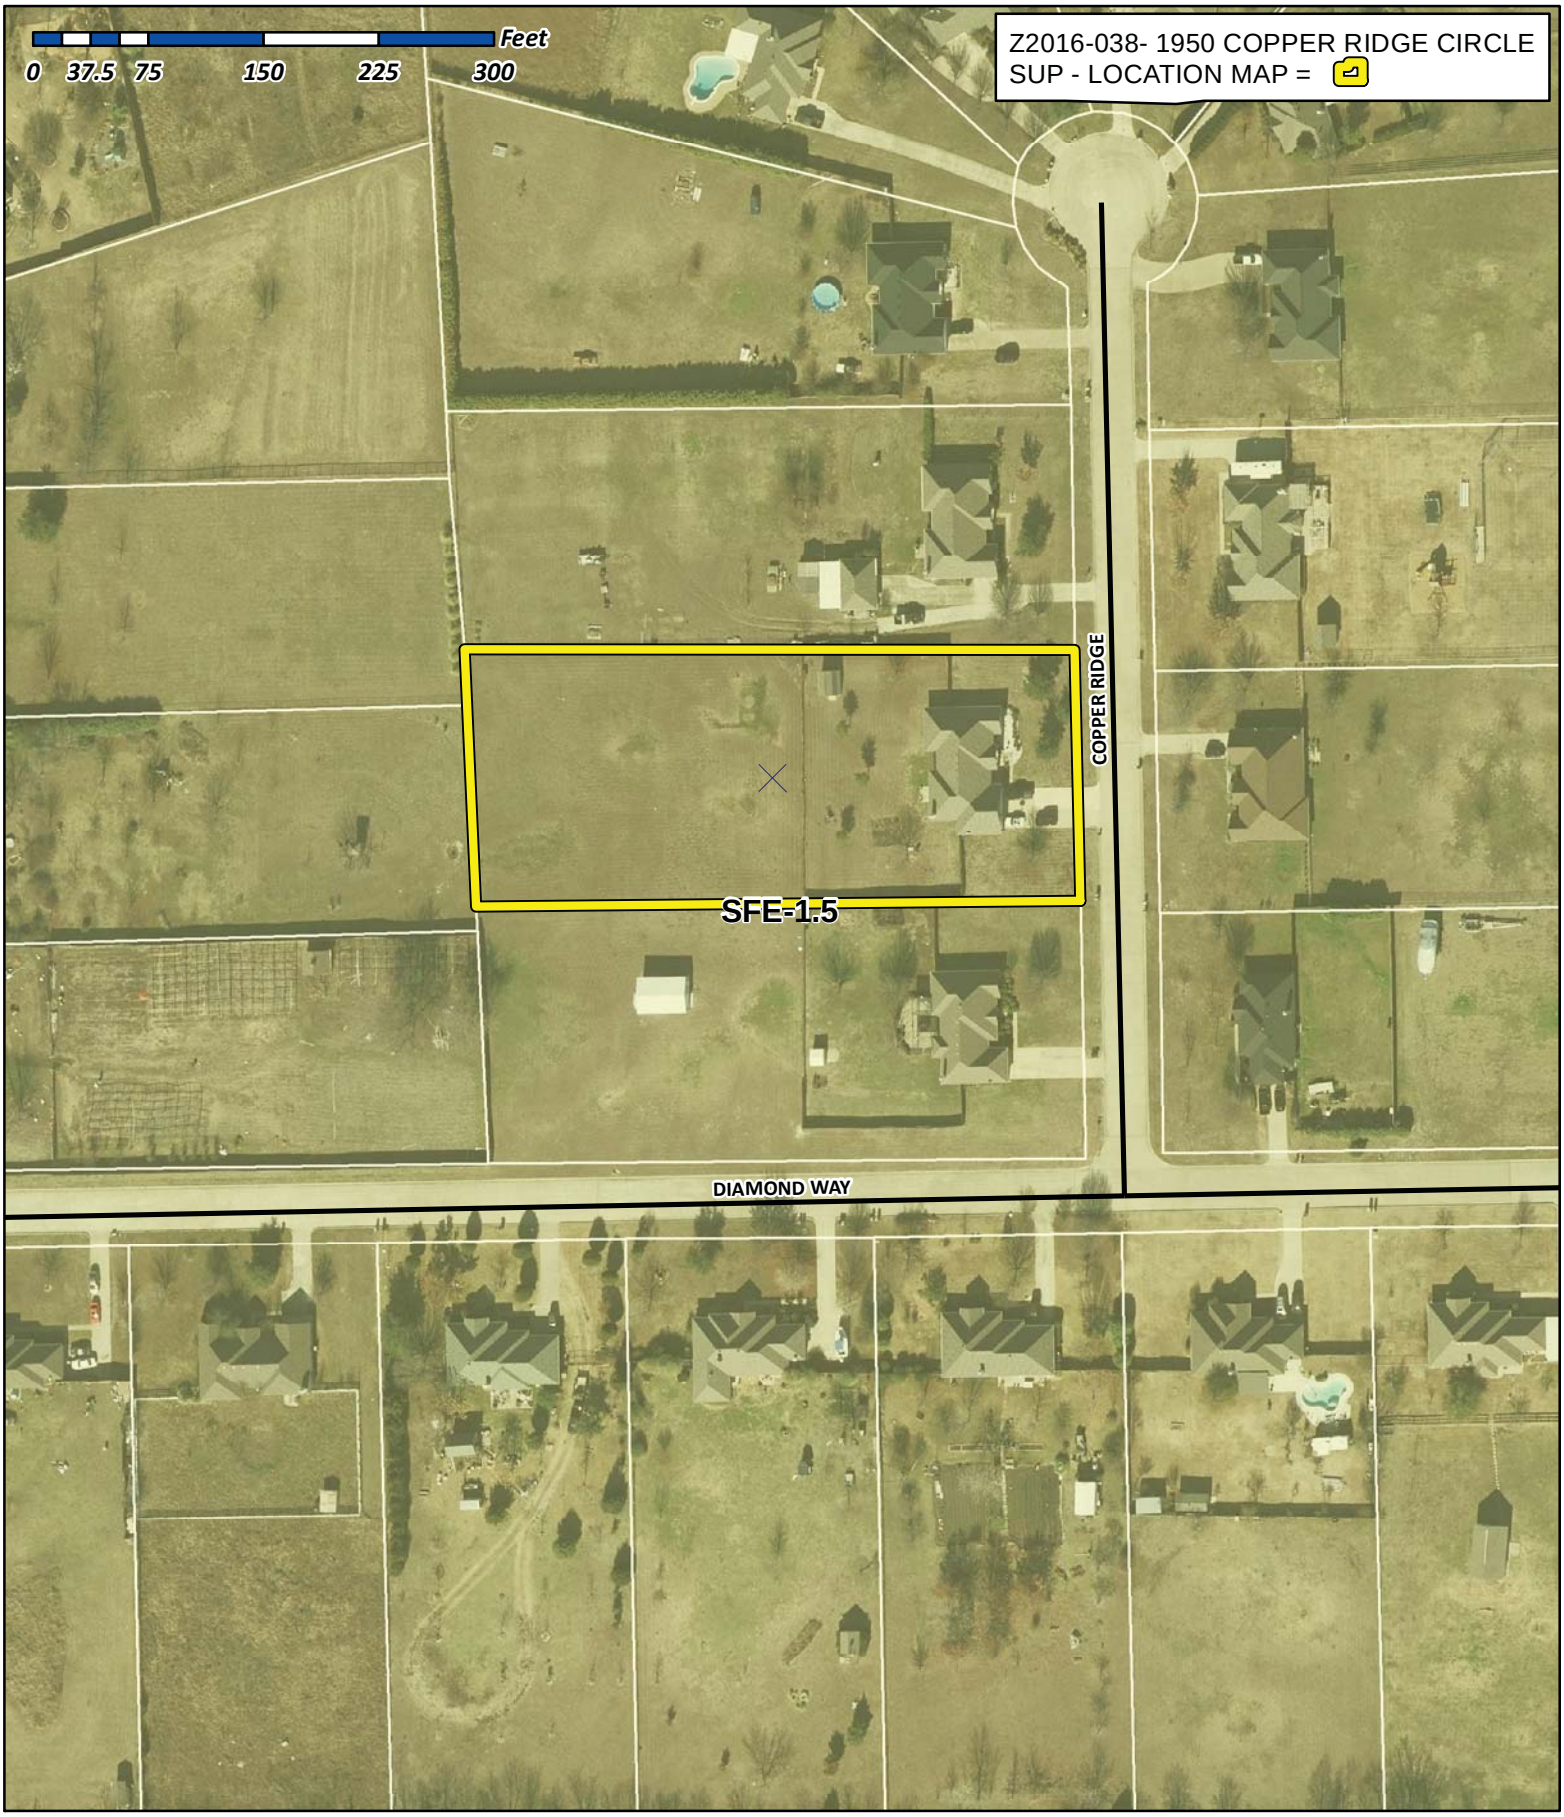
Hold a public hearing to discuss and consider a request by Michael Scott for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4947-acre parcel of land identified as Lot 16, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1950 Copper Ridge Circle, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 11.22.2016

The following staff comments are to be addressed and resubmitted no later than Tuesday, December 6, 2016. Please provide three (3) copies and one PDF version fo a subsequent review by staff:

• On all future plan submittals please include the Case Number (Z2016-038) in the lower right hand corner.

Planning Staff General Comments/Conditions of SUP:



1. The development must meet all Fire Department, Building Inspections, and Engineering standards.
2. The accessory structure is generally not to exceed a maximum area of 1250 sq. ft.
3. The accessory structure is generally not ot exceed an maximaum overall height of 15-ft.
4. The accessroy structure is to generally be comprised of 100% metal paneling.
5. The City Council reserves the right to review the Specific Use Permit granted herein upon the expiration of one (1) year from the date hereof.
6. Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/o enforced by the state and federal government.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the zoning matter. Most importantly, be sure that you and/or your representative(s) are present for both Public Hearings as per the scheduled dates below. If you have any quesitons regarding this case, please feel free t contact David Gonzales,AICP with the Planning Department at 972-771-7745 or e-mail at dgonzales@rockwall.com.

Meeting Dates to Attend:

Planning - Work Session: November 29, 2016 (6:00 p.m.) [The applicant to present case to P&Z]
Planning - Public Hearing: December 13, 2016 (6:00 p.m.) [The applicant/representative required to be present for the public hearing process]

City Council - Public Hearing: December 19, 2016 (1st Reading of Ordinance) [6:00 p.m.]
City Council - December 5, 2016 [If approved during 1st reading of ordinance (2nd Reading of Ordinance)] [6:00 p.m.]

SURVEY PLAT

TO ALL PARTIES INTERESTED IN PREMISES SURVEYED:

This is to certify that I have this date, made a careful and accurate survey on the ground of the property located at 1950 COPPER RIDGE CIRCLE, in Rockwall County, Texas, and being Lot 16, Block B, of STERLING FARMS ADDITION SUBDIVISION, an Addition in Rockwall County, Texas, according to the Plat thereof recorded in Cabinet C, Slide 395, Plat Records of Rockwall County, Texas.

FLOOD CERTIFICATE

According to the Flood Insurance Rate Maps, Panel No. 480543 00458, effective date SEPT. 17, 1980, this property is NOT IN a flood prone area, Zone C

NOTE: EASEMENT GRANTED TO THE STATE OF TEXAS AS RECORDED IN VOL. 46, PG. 197 DOES NOT AFFECT SUBJECT LOT. EASEMENT GRANTED TO BLACKLAND WATER SUPPLY CORP. AS RECORDED IN VOL. 75, PG. 583 DOES NOT AFFECT SUBJECT LOT. EASEMENT GRANTED TO TP & L AS RECORDED IN VOL. 113, PG. 35 DOES NOT AFFECT SUBJECT LOT.

The plat hereon is a true, correct and accurate representation of the property as determined by survey, the lines and dimensions of said property being indicated by the plat, the size, location and type of buildings and improvements are shown, all improvements being within the boundaries of the property, set back from property lines the distance indicated, and the distance from the nearest intersecting street or road is indicated on said plat. There are no apparent visible encroachments, conflicts, or protrusions except as shown. All easements shown are as per referenced plat unless noted otherwise. This plat was prepared specifically for the transaction referenced below. The undersigned assumes no responsibility for any other use.

Description
Hold a public hearing to discuss and consider a request by Worth Williams of Moore Worth Investments, LLC on behalf of the owner Mark S. Kelldorf of Arkoma Development, LLC for the approval of an amendment to Planned Development District 65 (PD-65) being a 49.35-acre tract of land situated within the S. King Survey, Abstract No. 131 and the J. B. Jones Survey, Abstract No. 124, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65), situated within the North SH-205 Overlay (N. SH-205 OV) District, located on the west side of N. Goliad Street [N. SH-205] and N. Lakeshore Drive, and take any action necessary.

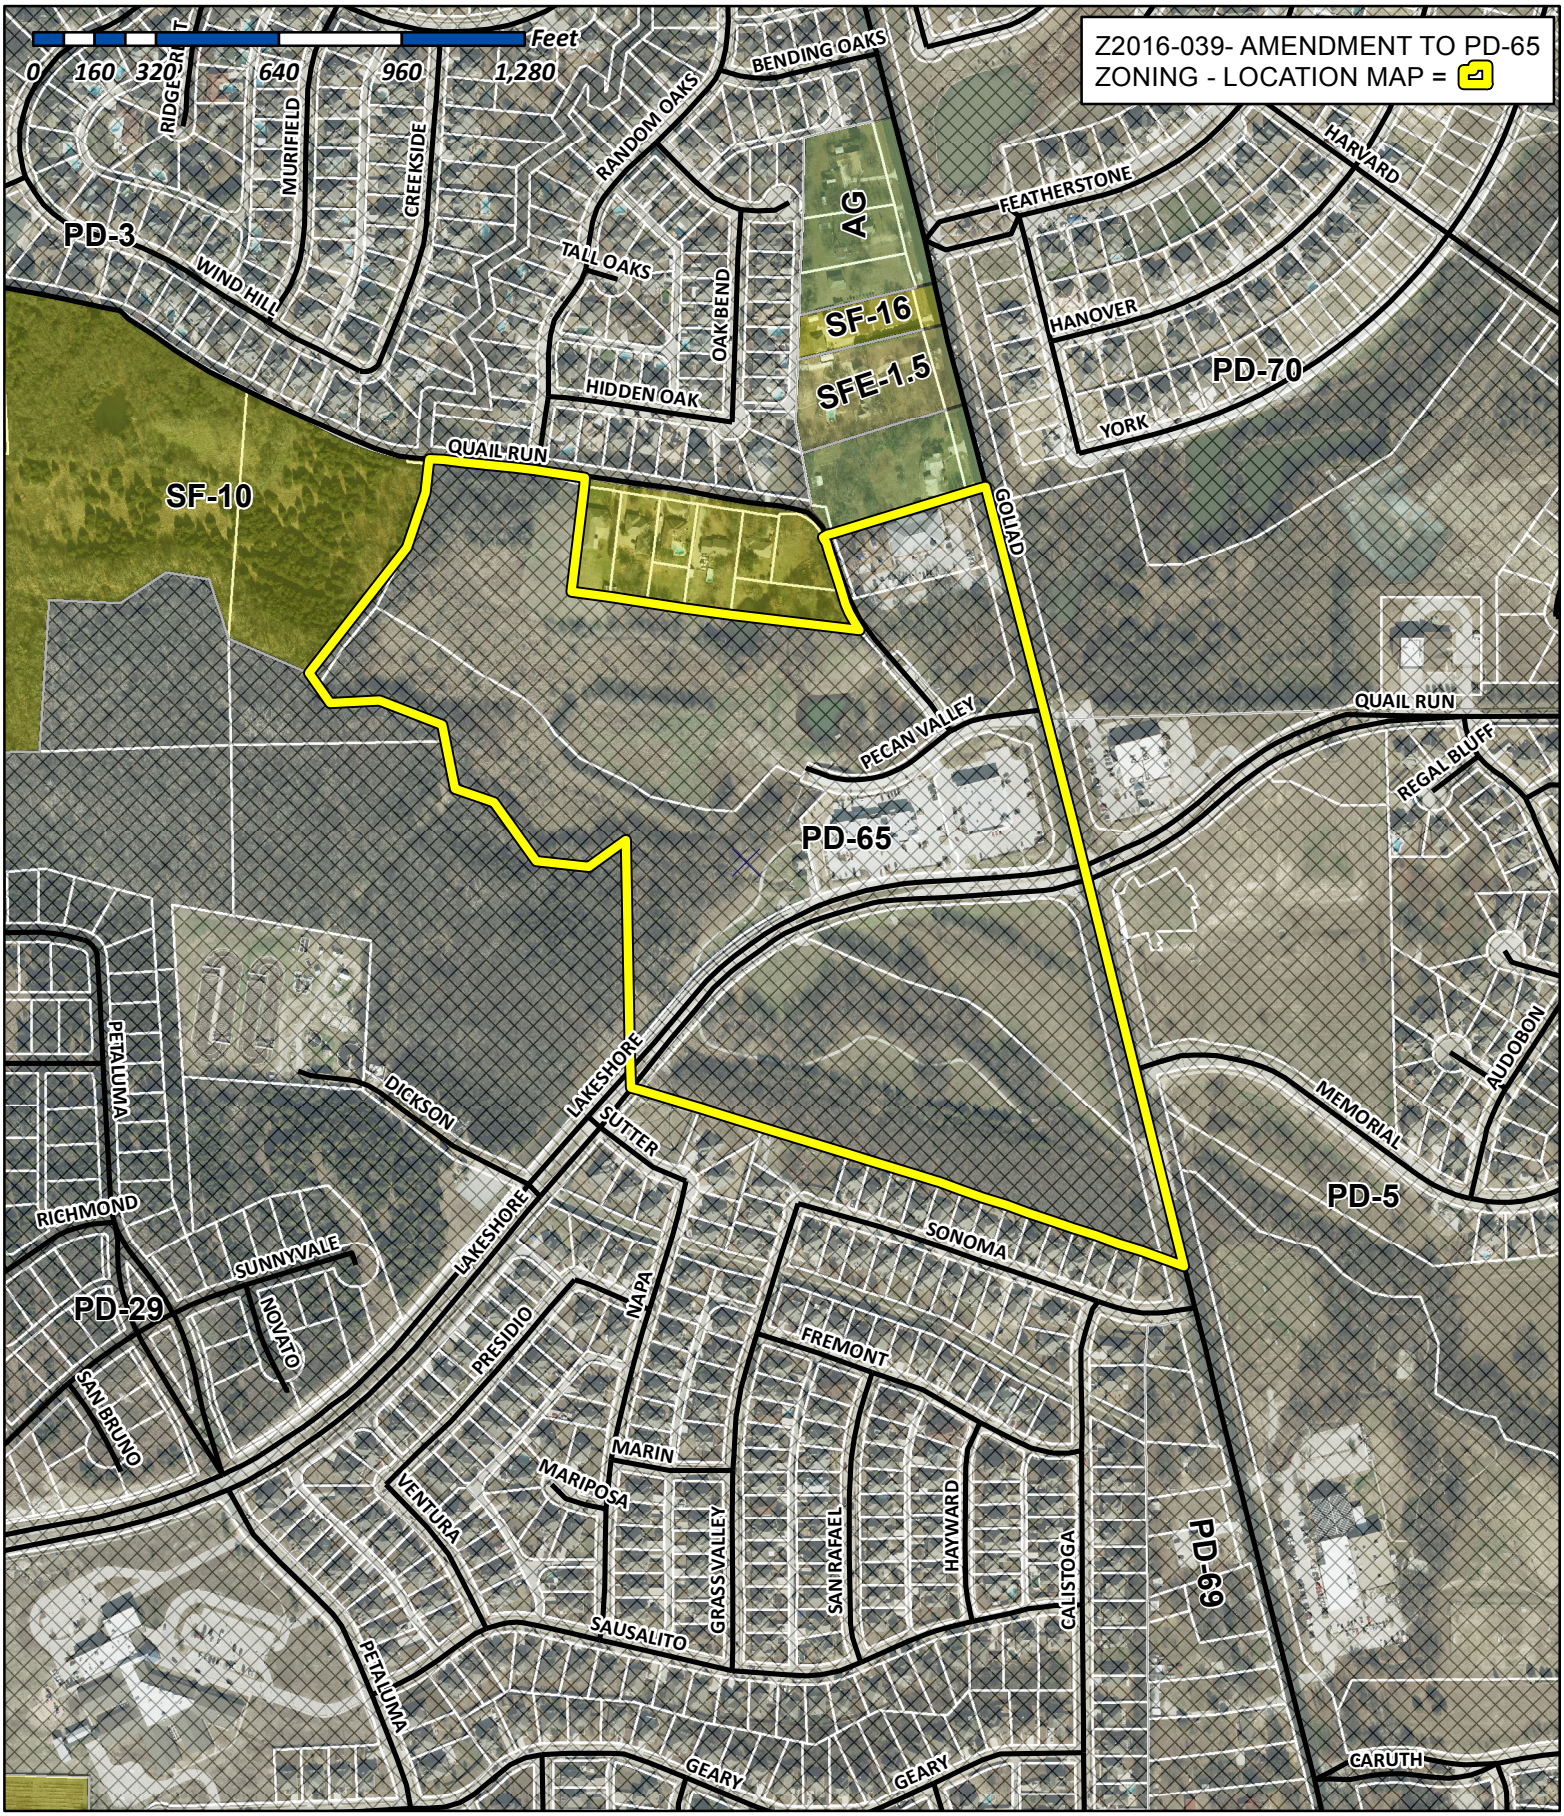
Notes: Z2016-039 (Amendment to PD-65): Please address the following comments (M= Mandatory Comments; I = Informational Comments).



I.1 Hold a public hearing to discuss and consider a request by Worth Williams of Moore Worth Investments, LLC on behalf of the owner Mark S. Kelldorf of Arkoma Development, LLC for the approval of an amendment to Planned Development District 65 (PD-65) being a 49.35-acre tract of land situated within the S. King Survey, Abstract No. 131 and the J. B. Jones Survey, Abstract No. 124, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65), situated within the North SH-205 Overlay (N. SH-205 OV) District, located on the west side of N. Goliad Street [N. SH-205] and N. Lakeshore Drive, and take any action necessary.
I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 On all future submittals please include the case number (Z2016-039) in the lower right hand corner.
I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on December 13, 2016.
I.5 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that has been requested. Revisions for this case will be due to staff on December 6, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the December 13, 2016 Planning & Zoning Meeting.
I.6 The projected City Council dates for this case are project to be: 1) December 19, 2016 [1st Reading], and 2) January 3, 2017 [2nd Reading].

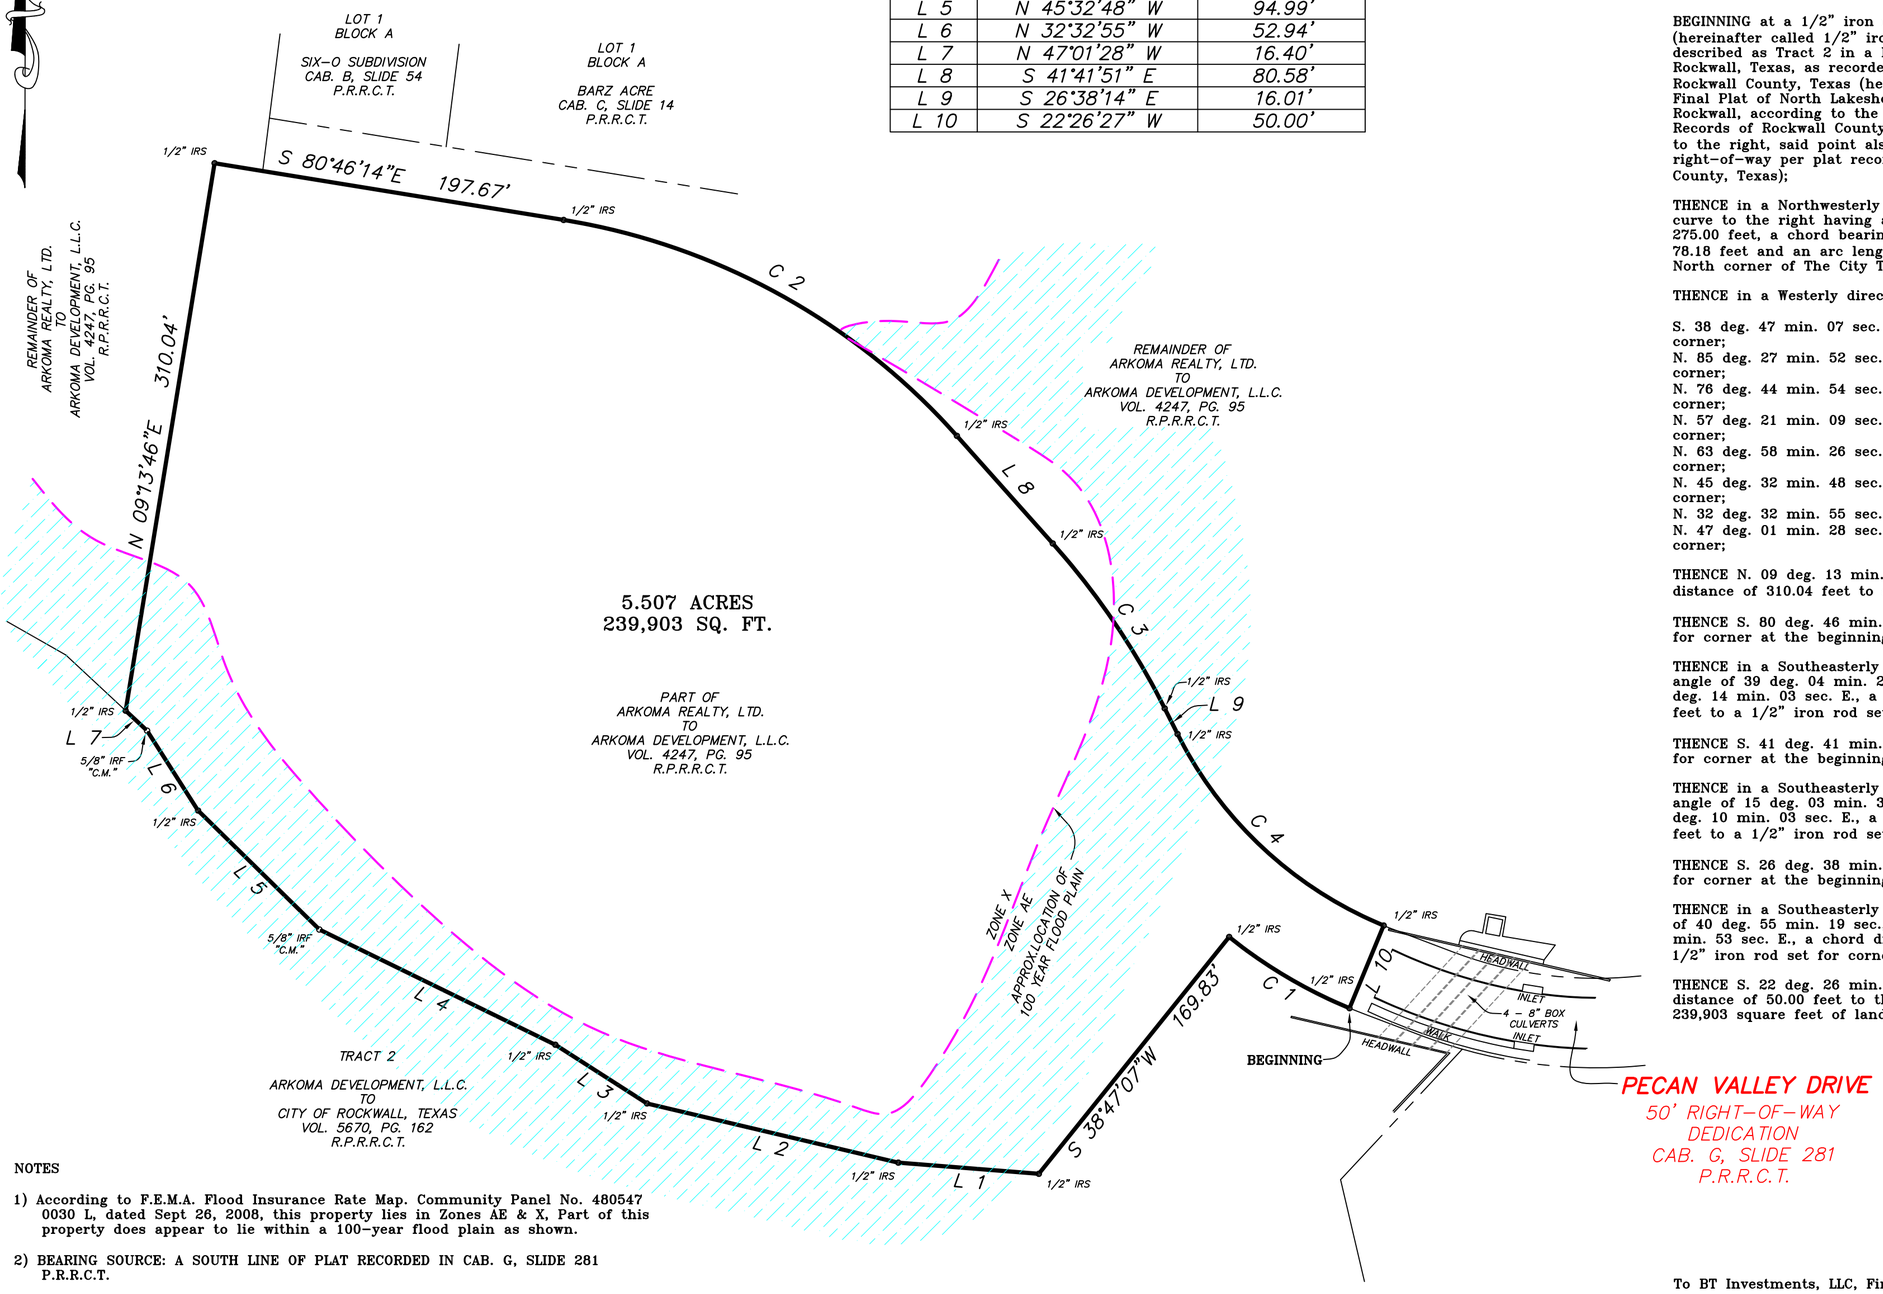
RE: Letter of Explanation for Zoning Request to Amend Ordinance 06-02 for Parcel 5 and Parcel 3.

Dear Ryan:



Please accept this letter as formal request to amend the above referenced Ordinance to delete Section 4.7 and 4.8 for Parcel 3 in their entirety and delete Section 6.9 and 6.10 for Parcel 5 in their entirety. This request is being made on behalf of our proposed tenants who include Chick-fil-A, Wells Fargo Bank, Starbucks and 7-Eleven. All tenants have their own unique prototypical buildings, which include a flat *not* pitched roof. The flat roof is an essential feature and integral part their "brand identity". In addition, we would like to transfer the ability to have a maximum of six (6) dispensers that could accommodate twelve (12) vehicles for a retail/gas store from Parcel 5 to Parcel 3 and will agree to waive the right to have retail/gas store as a permitted use on Parcel 5. Thank you in advance for your time and consideration concerning our request and we look forward to hearing from you.

Sincerely,

Worth Williams

DESCRIPTION

All that certain lot, tract or parcel of land situated in the J.H.B. Jones Survey, Abstract No. 124 and the S. King Survey, Abstract No. 131, City of Rockwall, Rockwall County, Texas, and being part of that tract of land described in a Deed from Arkoma Realty, Ltd., to Arkoma Development, L.L.C., as recorded in Volume 4247, Page 95 of the Real Property Records of Rockwall County, Texas (hereinafter called Subject Tract), and being more particularly described as follows:

BEGINNING at a 1/2" iron rod with plastic cap stamped "STOVALL & ASSOC." set (hereinafter called 1/2" iron rod set) for corner in a North line of that tract of land described as Tract 2 in a Deed from Arkoma Development, L.L.C., to the City of Rockwall, Texas, as recorded in Volume 5670, Page 162 of the Real Property Records of Rockwall County, Texas (hereinafter called The City Tract), at a West corner of the Final Plat of North Lakeshore Valley, Lots 1 & 2, Block B, an Addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet G, Slide 281 of the Plat Records of Rockwall County, Texas, said point also being at the beginning of a curve to the right, said point also being at the Southwest corner of Pecan Valley Drive (50' right-of-way per plat recorded in Cabinet G, Slide 281, Plat Records of Rockwall County, Texas);

THENCE in a Northwesterly direction with a North line of The City Tract and with said curve to the right having a central angle of 16 deg. 20 min. 41 sec., a radius of 275.00 feet, a chord bearing of N. 59 deg. 23 min. 12 sec. W., a chord distance of 78.18 feet and an arc length of 78.45 feet to a 1/2" iron rod set for corner at a North corner of The City Tract;

THENCE in a Westerly direction with the North line of The City Tract the following:

S. 38 deg. 47 min. 07 sec. W. a distance of 169.83 feet to a 1/2" iron rod set for corner;
N. 85 deg. 27 min. 52 sec. W. a distance of 78.82 feet to a 1/2" iron rod set for corner;
N. 76 deg. 44 min. 54 sec. W. a distance of 144.35 feet to a 1/2" iron rod set for corner;
N. 57 deg. 21 min. 09 sec. W. a distance of 60.80 feet to a 1/2" iron rod set for corner;
N. 63 deg. 58 min. 26 sec. W. a distance of 146.84 feet to a 5/8" iron rod found for corner;
N. 45 deg. 32 min. 48 sec. W. a distance of 94.99 feet to a 1/2" iron rod set for corner;
N. 32 deg. 32 min. 55 sec. W. a distance of 52.94 feet to a 5/8" iron rod found;
N. 47 deg. 01 min. 28 sec. W. a distance of 16.40 feet to a 1/2" iron rod set for corner;

THENCE N. 09 deg. 13 min. 46 sec. E. leaving the North line of The City Tract, a distance of 310.04 feet to a 1/2" iron rod set for corner;

THENCE S. 80 deg. 46 min. 14 sec. E. a distance of 197.67 feet to a 1/2" iron rod set for corner at the beginning of a curve to the right;

THENCE in a Southeasterly direction with said curve to the right having a central angle of 39 deg. 04 min. 23 sec., a radius of 375.00 feet, a chord bearing of S. 61 deg. 14 min. 03 sec. E., a chord distance of 250.81 feet and an arc length of 255.73 feet to a 1/2" iron rod set for corner;

THENCE S. 41 deg. 41 min. 51 sec. E. a distance of 80.58 feet to a 1/2" iron rod set for corner at the beginning of a curve to the right;

THENCE in a Southeasterly direction with said curve to the right having a central angle of 15 deg. 03 min. 37 sec., a radius of 425.00 feet, a chord bearing of S. 34 deg. 10 min. 03 sec. E., a chord distance of 111.39 feet and an arc length of 111.71 feet to a 1/2" iron rod set for corner;

THENCE S. 26 deg. 38 min. 14 sec. E. a distance of 16.01 feet to a 1/2" iron rod set for corner at the beginning of a curve to the left;

THENCE in a Southeasterly direction with said curve to the left having a central angle of 40 deg. 55 min. 19 sec., a radius of 225.00 feet, a chord bearing of S. 47 deg. 05 min. 53 sec. E., a chord distance of 157.31 feet and an arc length of 160.70 feet to a 1/2" iron rod set for corner at a Northwest corner of Pecan Valley Drive;

THENCE S. 22 deg. 26 min. 27 sec. W. with the West line of Pecan Valley Drive a distance of 50.00 feet to the POINT OF BEGINNING and containing 5.507 acres or 239,903 square feet of land.

To BT Investments, LLC, First American Title Insurance Company:

This is to certify that this map or plat and the survey on which it is based were made in accordance with the 2011 Minimum Standard Detail Requirements for ALTA/ACSM Land Title Surveys, jointly established and adopted by ALTSA and NSPS, and includes Items 1, 2, 3, 4, 7(a), 8, 9 and 11 of Table A thereof. The fieldwork was completed on August 31, 2015.

Date of Plat or Map: August 31, 2015

DESCRIPTION

All that certain lot, tract or parcel of land situated in the S. King Survey, Abstract No. 131, City of Rockwall, Rockwall County, Texas, and being part of that tract of land described in a Deed from Arkoma Realty, Ltd., to Arkoma Development, L.L.C., as recorded in Volume 4411, Page 290 of the Real Property Records of Rockwall County, Texas (hereinafter called Subject Tract), and being more particularly described as follows:

BEGINNING at a 1/2" iron rod with plastic cap stamped "STOVALL & ASSOC." set (hereinafter called 1/2" iron rod set) for corner in the West line of State Highway No. 205 at the Southeast corner of Lot 1, Block D of Lot 1, Block D, North Lakeshore Valley, an Addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet G, Slide 247 of the Plat Records of Rockwall County, Texas, said point being S. 14 deg. 09 min. 38 sec. E. a distance of 197.47 feet from a 5/8" iron rod found at the Northeast corner of the above cited Subject Tract;

THENCE S. 14 deg. 09 min. 38 sec. E. with the West line of State Highway No. 205 a distance of 311.99 feet to a concrete monument found for corner;

THENCE S. 43 deg. 35 min. 00 sec. W. with a Northwest line of State Highway No. 205 a distance of 110.62 feet to an "X" cut in concrete found for corner at the intersection of the Northwest line of State Highway No. 205 with the North line of Pecan Valley Drive (50' right-of-way per plat recorded in Cabinet G, Slide 281, Plat Records of Rockwall County, Texas), said point also being an East corner of the Final Plat of North Lakeshore Valley, Lots 1 & 2, Block B, an Addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet G, Slide 281 of the Plat Records of Rockwall County, Texas (hereinafter called North Lakeshore Valley Plat), said point also being at the beginning of a non-tangent curve to the left;

THENCE in a Southwesterly direction with the North line of Pecan Valley Drive and with said non-tangent curve to the left having a central angle of 18 deg. 24 min. 13 sec., a radius of 275.00 feet, a chord bearing of S. 71 deg. 24 min. 38 sec. W., a chord distance of 87.95 feet and an arc length of 88.33 feet to a 1/2' iron rod set for corner at an interior corner of said North Lakeshore Valley Plat;

THENCE N. 35 deg. 33 min. 55 sec. W. with a Northeast line of said North Lakeshore Valley Plat a distance of 69.89 feet to a 1/2" iron rod set for corner;

THENCE N. 41 deg. 00 min. 51 sec. W. with a Northeast line of said North Lakeshore Valley Plat, passing a 5/8" iron rod found at a North corner of said North Lakeshore Valley Plat at a distance of 160.70 feet, and continuing for a total distance of 308.74 feet to a 1/2" iron rod set for corner;

THENCE N. 18 deg. 54 min. 05 sec. W. a distance of 37.43 feet to a 5/8" iron rod with cap stamped "KHA" found for corner at the Southwest corner of Lot 1, Block D;

THENCE N. 75 deg. 50 min. 22 sec. E. with the South line of Lot 1, Block D a distance of 349.30 feet to the POINT OF BEGINNING and containing 2.246 acres or 97,847 square feet of land.

NOTES

1) According to F.E.M.A. Flood Insurance Rate Map. Community Panel No. 480547 0030 L, dated Sept 26, 2008, this property lies in Zones AE & X, Part of this property does appear to lie within a 100-year flood plain as shown.

DESCRIPTION

All that certain lot, tract or parcel of land situated in the J.H.B. Jones Survey, Abstract No. 124, City of Rockwall, Rockwall County, Texas, and being part of that tract of land described in a Deed from Arkoma Realty, Ltd., to Arkoma Development, L.L.C., as recorded in Volume 4247, Page 95 of the Real Property Records of Rockwall County, Texas (hereinafter called Subject Tract), and being more particularly described as follows:

BEGINNING at an "X": cut in concrete set for corner in the West line of State Highway No. 205 at the most Easterly Northeast corner of that tract of land described as Tract 1 in a Deed from Arkoma Development, L.L.C., to the City of Rockwall, Texas, as recorded in Volume 5670, Page 162 of the Real Property Records of Rockwall County, Texas, said point being N. 14 deg. 17 min. 14 sec. W. a distance of 271.10 feet from the Southeast corner of the above cited Subject Tract;

THENCE in a Northwesterly direction with the Northeast line of said City of Rockwall tract the following:

N. 47 deg. 23 min. 51 sec. W. a distance of 518.06 feet to a 1/2" iron rod with plastic cap stamped "STOVALL & ASSOC." set (hereinafter called 1/2" iron rod set) for corner;
N. 56 deg. 32 min. 05 sec. W. a distance of 71.85 feet to a 1/2" iron rod set for corner;
N. 72 deg. 36 min. 05 sec. W. a distance of 167.88 feet to a 1/2" iron rod set for corner;
N. 67 deg. 33 min. 43 sec. W. a distance of 289.26 feet to an "X" cut in concrete set for corner in the South line of North Lakeshore Drive (85' right-of-way per Deed recorded in Volume 3828, Page 23 of the Real Property Records of Rockwall County, Texas), at the North corner of said City of Rockwall tract, said point also being at the beginning of a non-tangent curve to the right;

THENCE in a Northeasterly direction with the South line of North Lakeshore Drive and with said non-tangent curve to the right having a central angle of 23 deg. 46 min. 19 sec., a radius of 807.50 feet, a chord bearing of N. 75 deg. 05 min. 15 sec. E. a chord distance of 332.63 feet and an arc length of 335.03 feet to a 1/2" iron rod set for corner;

THENCE N. 86 deg. 58 min. 24 sec. E. with the South line of North Lakeshore Drive a distance of 174.94 feet to a 5/8" iron rod with cap stamped "KHA" found for corner at the beginning of a curve to the right;

THENCE in a Southeasterly direction with the South line of North Lakeshore Drive and with said curve to the right having a central angle of 10 deg. 38 min. 55 sec., a radius of 240.00 feet, a chord bearing of S. 87 deg. 42 min. 09 sec. E., a chord distance of 44.54 feet and an arc length of 44.60 feet to a 5/8" iron rod with cap stamped "KHA" found for corner at the beginning of a reverse curve to the left;

THENCE in a Southeasterly direction with the South line of North Lakeshore Drive and with said reverse curve to the left having a central angle of 14 deg. 25 min. 03 sec., a radius of 260.00 feet, a chord bearing of S. 89 deg. 35 min. 12 sec. E., a chord distance of 65.25 feet and an arc length of 65.42 feet to a 1/2" iron rod set for corner at the beginning of a compound curve to the left;

THENCE in a Northeasterly direction with the South line of North Lakeshore Drive and with said compound curve to the left having a central angle of 01 deg. 20 min. 20 sec., a radius of 902.50 feet, a chord bearing of N. 82 deg. 32 min. 06 sec. E., a chord distance of 21.09 feet and an arc length of 21.09 feet to a 5/8" iron rod with cap stamped "KHA" found for corner at the beginning of a reverse curve to the right;

THENCE in a Southeasterly direction with the South line of North Lakeshore Drive and with said reverse curve to the right having a central angle of 83 deg. 51 min. 15 sec., a radius of 80.00 feet, a chord bearing of S. 56 deg. 12 min. 26 sec. E. a chord distance of 106.91 feet and an arc length of 117.08 feet to a 1/2" iron rod set for corner;

THENCE N. 75 deg. 43 min. 11 sec. E. with a South line of North Lakeshore Drive a distance of 3.66 feet to a 1/2" iron rod set for corner at the intersection of the South line of North Lakeshore Drive with the West line of State Highway No. 205;

THENCE S. 14 deg. 17 min. 14 sec. E. with the West line of State Highway No, 205 a distance of 606.43 feet to the POINT OF BEGINNING and containing 4.706 acres or 204,993 square feet of land.

To BT Investments, LLC, First American Title Insurance Company:

This is to certify that this map or plat and the survey on which it is based were made in accordance with the 2011 Minimum Standard Detail Requirements for ALTA/ACSM Land Title Surveys, jointly established and adopted by ALTSA and NSPS, and includes Items 1, 2, 3, 4, 7(a), 8, 9 and 11 of Table A thereof. The fieldwork was completed on August 31, 2015.

Date of Plat or Map: August 31, 2015

CITY OF ROCKWALL

ORDINANCE NO. 17-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 65 (PD-65) AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO GRANT A CHANGE IN ZONING TO AMEND *ORDINANCE NO. 06-02, 08-02 & 10-28*, BEING IDENTIFIED AS A 49.35-ACRE TRACT OF LAND SITUATED WITHIN THE S. KING SURVEY, ABSTRACT NO. 131 AND THE J. B. JONES SURVEY, ABSTRACT NO. 124, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS (*$2,000.00*) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Worth Williams of Moore Worth Investments, LLC on behalf of the owner Mark S. Kelldorf of Arkoma Development, LLC for the approval of an amendment to Planned Development District 65 (PD-65) for the purpose of amending *Ordinance No.'s 06-02, 08-02 & 10-28* being identified as a 49.35-acre tract of land situated within the S. King Survey, Abstract No. 131 and the J. B. Jones Survey, Abstract No. 124, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 1 (PD-1) [*Ordinance No.'s 06-02, 08-02 & 10-28*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No.'s 06-02, 08-02 & 10-28*;

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Location Map/Area Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

DRAFT ORD. 2016

Section 4. That development of the *Subject Property* shall generally be in accordance with the *PD Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 6. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 7. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 8. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3RD DAY OF JANUARY, 2017.

DRAFT ORDINANCE 10.29.16

Exhibit 'A':
Legal Description

Tract One: 32.83-Acres

BEING of a tract of land out of the S. King Survey, Abstract No. 131 and the J. B. Jones Survey, Abstract No. 124, in the City of Rockwall, Rockwall County, Texas, being part of the 46.81 tract of land described in deed to Arkoma Realty, recorded in *Volume 2279, Page 273* of the *Deed of Record* of Rockwall County, Texas, being part of the 6.40 acre tract of land described in deed to Granville Davis recorded in Volume 69, Page 595 of the Deed of Record of Rockwall County, Texas and being more particularly described as follows:

BEGINNING at a point for the intersection of the northwest right-of-way line of North Lakeshore Drive (*85-feet ROW at this point*) with the southerly most west line of said 46.81-acre tract;

THENCE with the west lines of said 46.81-acre tract, the following courses and distances to wit:

North 00°26'38" West, a distance of 543.18-feet to a point for corner;
South 54°58130" West, a distance of 122.35-feet to a point for corner;
North 83°16'59" West, a distance of 136.00-feet to a point for corner;
North 35°30'59" West, a distance of 188.00-feet to a point for corner;
North 70°43'59" West, a distance of 107.50-feet to a point for corner;
North 10°45159" West, a distance of 171.00-feet to a point for corner;
North 70°07'59" West, a distance of 175.00-feet to a point for corner;
South 89°07'01" West, a distance of 130.00-feet to a point for corner;
North 36°05159" West, a distance of 56.87-feet to a point for corner;
North 33°07'21" East, a distance of 116.67-feet to a point for corner;
North 39°50'57"' East, a distance of 311.65-feet to a point for corner;
North 04°37'55" East, a distance of 217.53-feet to a point for corner;
North 11°37'41" West, a distance of 50.53-feet to a point in Quail Run Road;

THENCE along said Quail Run Road, the following courses and distances to wit:

South 83°27'28" East, a distance of 295.32-feet to a point for corner;
South 82°32'17'' East, a distance of 129.27-feet to a point for corner;

THENCE leaving said Quail Run Road and with the west line of *Six-0 Subdivision*, an addition to the City of Rockwall according to the plat thereof recorded in *Cabinet B, Page 54* of the *Plat Records* of Rockwall County, Texas part of the way, South 07°07'49" West, a distance of 299.69-feet to a point for corner;

THENCE with the south line of said *Six-0 Subdivision*, the south line of Barz Acres, an addition to the City of Rockwall according to the plat thereof recorded in *Cabinet C, Page 14* of the *Plat Records* of Rockwall County, Texas, the south line of Wilson Addition, an addition to the City of Rockwall according to the plat thereof recorded in *Cabinet A, Page 275* of the *Plat Records* of Rockwall County, Texas and the south line of a 0.49 acre tract of land described in deed to Dean Lanty recorded in *Volume 349, Page 4* of the Deed Records of Rockwall County, Texas, South 80°48'3711 East, a distance of 420.59-feet to a point for corner;

THENCE continuing with the south line of said 0.49-acre tract, North 88°281 17" East, a distance of 313.50-feet to a point in the centerline of Quail Run Road;

THENCE with said centerline, North 18°54'05" West, a distance of 211.45-feet to a point for corner;

THENCE leaving said centerline, North 72°55'01" East, a distance of 389.63-feet to a point for corner in the west right-of-way line of State Highway 205 (variable width ROW);

THENCE with said west right-of-way line, the following courses and distances to wit:

South 14°09'38" East, a distance of 509.46-feet to a point for corner;
South 43°34'59" West, a distance of 158.82-feet to a point for corner;
South 71°57'06" East, a distance of 159.25-feet to a point for corner;

DRAFT ORDINANCE 10.25.2016

South 14°17'14" East, a distance of 243.88-feet to a point in the north right-of-way line of said North Lakeshore Drive;

THENCE with said north right-of-way line, the following courses and distances to wit:

South 75°56'40" West, a distance of 3.43 feet to a point for the beginning of a non-tangent curve to the right with a radius of 65.00-feet, a central angle of 96°44'10" and a chord bearing and distance of South 34°18'46" West, 97.17-feet;

Southwesterly, with said curve, an arc distance of 109.74-feet to a point for the beginning of a compound curve to the right with a radius of 807.50-feet, a central angle of 4°17'33" and a chord bearing and distance of South 84°49'37" West, 60.48-feet;

Southwesterly, with said curve, an arc distance of 60.50-feet to a point for corner; South 86°58'24" West, a distance of 225.10-feet to a point for the beginning of a tangent curve to the left with a radius of 892.50-feet, a central angle of 47°07'08", and a chord bearing and distance of South 63°24'50" West, 713.47-feet;

Southwesterly, with said curve, an arc distance of 733.97-feet to a point for corner;

THENCE South 39°51'16" West, a distance of 192.14-feet to the *POINT OF BEGINNING* and containing 32.83-acres of land.

DRAFT ORDINANCE 10.29.2016

Exhibit 'A':
Legal Description

Tract Two: 16.52-Acres

BEING of a tract of land out of the J. B. Jones Survey, Abstract No. 124, in the City of Rockwall, Rockwall County, Texas, being part of the 46.81-tract of land described in deed to Arkoma Realty, recorded in *Volume 2279, Page 273* of the *Deed of Record* of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a point for the intersection of the south right-of-way line of North Lakeshore Drive (*85-feet ROW at this point*) with the south line of said 46.81-acre tract;

THENCE with said south right-of-way line, the following courses and distances to wit:

North 39°51'16" East, a distance of 249.64-feet to a point for the beginning of a tangent curve to the right with a radius of 807.50-feet, a central angle of 47°07'08", and a chord bearing and distance of North 63°24'50" East, 645.52-feet;

Northeasterly, with said curve, an arc distance of 664.07-feet to a point for corner;

North 86°58'24" East, a distance of 174.93-feet to a point for the beginning of a tangent curve to the right with a radius of 240.00-feet, a central angle of 10°38'58", and a chord bearing and distance of South 87°42'08" East, 44.54-feet;

Southeasterly, with said curve, an arc distance of 44.61-feet to a point for the beginning of a reverse curve to the left with a radius of 260.00-feet, a central angle of 14°25'10", and a chord bearing and distance of South 89°35'14" East, 65.26-feet;

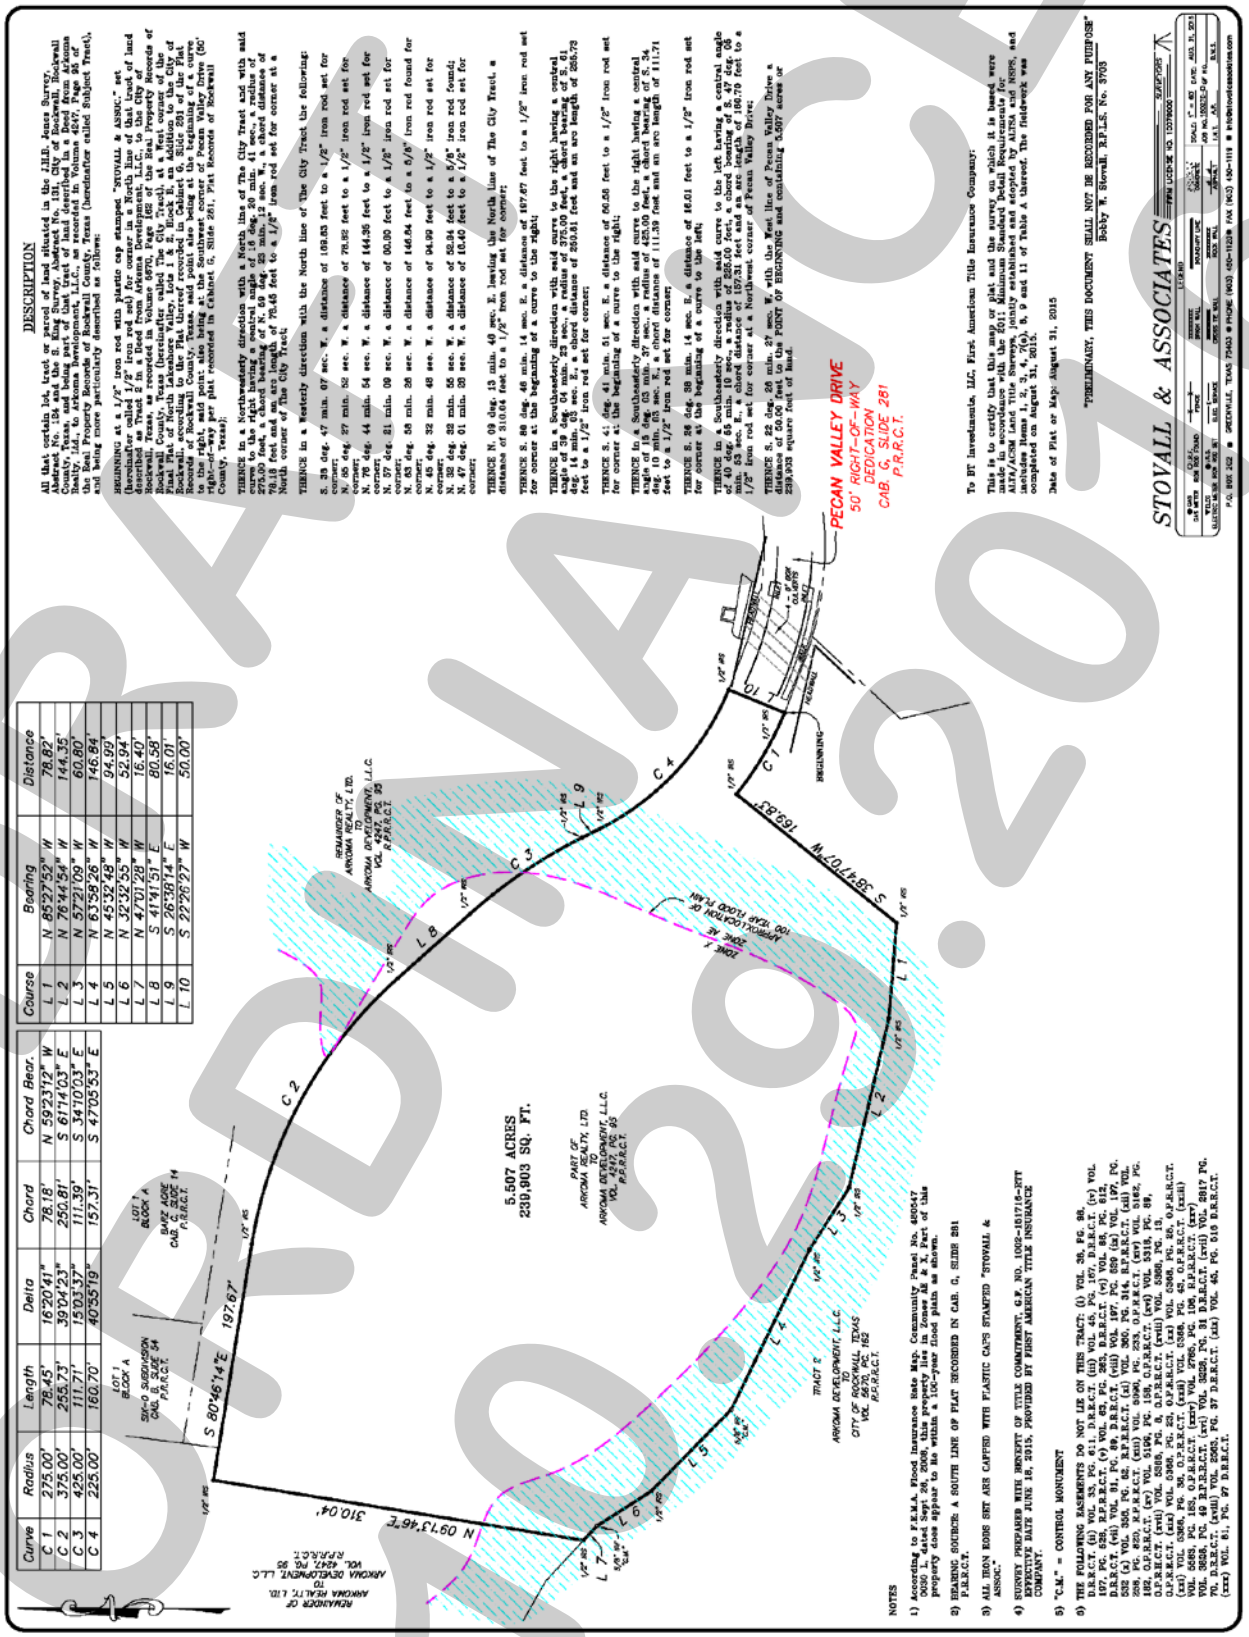
Southeasterly, with said curve, an arc distance of 65.43-feet to a point for the beginning of a compound curve to the left with a radius of 902.50-feet, a central angle of 1°20'16" and a chord bearing and distance of North 82°32'03" East, 21.07-feet;

Northeasterly, with said curve, an arc distance of 21.07-feet to a point for the beginning of a reverse curve to the right with a radius of 80.00-feet, a central angle of 83°51'17'', and a chord bearing and distance of South 56°12'26" East, 106.91-feet;

Southeasterly, with said curve, an arc distance of 117.08-feet to a point for corner;

North 75°43'11" East, a distance of 3.66-feet to a point for corner in the west right-of-way line of State Highway 205 (*variable width ROW*);

THENCE with said west right-of-way line, South 14°17'14" East, a distance of 877.52-feet to a point for the northeast corner of Lakeview Summit Phase IV, an addition to the City of Rockwall according to the plat thereof recorded in *Cabinet D, Page 378* of the *Plat Records* of Rockwall County, Texas;



THENCE with the north line of said addition part of the way, the following courses and distances to wit:

South 88°40'43" West, a distance of 46.97-feet to a point for corner;
North 71°15'19" West, a distance of 564.26-feet to a point for corner;

THENCE North 72°47'58" West, a distance of 806.31-feet to the POINT OF BEGINNING and containing 16.52-acres of land.

DESCRIPTION

All that certain lot, tract or parcel of land situated in the J.E.H. Jones Survey, Abstract No. 134, City of Rockwall, Rockwall County, Texas, and being part of that tract of land described as Tract 1 from Arkoma Realty, Ltd. to Arkoma Development, L.L.C., as recorded in Volume 4247, Page 85 of the Real Property Records of Rockwall County, Texas (hereinafter called Subject Tract), and being more particularly described as follows:

BEGINNING at an "X" cut in concrete set for corner in the West line of State Highway No. 205 (a 100' R.O.W.), said point being the Northeast corner of Lot 1, Block A, Replat of a Deed from Arkoma Development, L.L.C., to the City of Rockwall, Texas, as recorded in Volume 5870, Page 162 of the Real Property Records of Rockwall County, Texas, said point also being the Southeast corner of a tract of land described in deed to Arkoma Realty, Ltd. recorded in Volume 3802, Page 23 of the Real Property Records of Rockwall County, Texas, said point also being the Northeast corner of said Subject Tract;

THENCE in a Southwesterly direction with the West line of said State Highway No. 205 and with the East line of said Subject Tract, S 14°17'14" E, a distance of 606.43 feet to a 1/2" iron rod with plastic cap stamped "STOVALL & ASSOC." set (hereinafter called 1/2" iron rod set) for corner;

THENCE S 47°23'51" W, a distance of 518.06 feet to a 1/2" iron rod set for corner;

THENCE N 72°36'05" W, a distance of 289.26 feet to an "X" cut in concrete set for corner in the South line of said Subject Tract;

THENCE N 67°33'43" W, a distance of 167.88 feet to a 1/2" iron rod set for corner;

THENCE N 86°58'24" E, a distance of 174.94 feet to a 1/2" iron rod set for corner;

THENCE N 47°23'51" E, a distance of 271.10 feet from the Northeast corner of the above cited Subject Tract;

THENCE in a Northwesterly direction with the Northeast line of said City of Rockwall tract the following:

N. 47 deg. 23 min. 51 sec. W. a distance of 510.00 feet to a 1/2" iron rod with plastic cap stamped "STOVALL & ASSOC. set (hereinafter called 1/2" iron rod set) for corner;

N. 72 deg. 36 min. 05 sec. W. a distance of 289.26 feet to a 1/2" iron rod set for corner;

N. 67 deg. 33 min. 43 sec. W. a distance of 167.88 feet to a 1/2" iron rod set for corner;

N. 86 deg. 58 min. 24 sec. W. a distance of 174.94 feet to an "X" cut in concrete set for corner in the South line of North Lakeshore Drive (85' right-of-way per Deed recorded in Volume 3802, Page 23 of the Real Property Records of Rockwall County, Texas), at the Northeast corner of said Rockwall tract, said point also being at the beginning of a non-tangent curve to the right;

THENCE in a Northwesterly direction with the South line of North Lakeshore Drive and with said non-tangent curve to the right having a central angle of 23 deg. 46 min. 19 sec. a radius of 807.50 feet, a chord bearing of N. 75 deg. 05 min. 15 sec. E. a chord distance of 332.63 feet and an arc length of 335.03 feet to a 1/2" iron rod set for corner;

THENCE N. 86 deg. 58 min. 24 sec. E. with the South line of North Lakeshore Drive a distance of 174.94 feet to a 5/8" iron rod with cap stamped "KHA" found for corner at the beginning of a curve to the right;

THENCE in a Southeasterly direction with the South line of North Lakeshore Drive and with said curve to the right having a central angle of 10 deg. 38 min. 55 sec. a radius of 240.00 feet, a chord bearing of S. 87 deg. 42 min. 09 sec. E. a chord distance of 44.54 feet and an arc length of 44.60 feet to 5/8" iron rod with cap stamped "KHA" found for corner at the beginning of a reverse curve to the left;

THENCE in a Southeasterly direction with the South line of North Lakeshore Drive and with said reverse curve to the left having a central angle of 14 deg. 25 min. 03 sec. a radius of 260.00 feet, a chord bearing of S. 89 deg. 35 min. 12 sec. E. a chord distance of 65.25 feet and an arc length of 65.42 feet to a 1/2" iron rod set for corner at the beginning of a compound curve to the left;

THENCE in a Southeasterly direction with the South line of North Lakeshore Drive and with said compound curve to the left having a central angle of 1 deg. 20 min. 20 sec. a radius of 902.50 feet, a chord bearing of N. 82 deg. 32 min. 06 sec. E. a chord distance of 21.09 feet and an arc length of 21.09 feet to a 5/8" iron rod with cap stamped "KHA" found for corner at the beginning of a reverse curve to the right;

THENCE in a Southeasterly direction with the South line of North Lakeshore Drive and with said reverse curve to the right having a central angle of 83 deg. 51 min. 15 sec. a radius of 80.00 feet, a chord bearing of S. 56 deg. 12 min. 26 sec. E. a chord distance of 106.91 feet and an arc length of 117.08 feet to a 1/2" iron rod set for corner;

THENCE N. 79 deg. 43 min. 11 sec. E. with a South line of North Lakeshore Drive a distance of 3.66 feet to a 1/2" iron rod set for corner at the intersection of the South line of North Lakeshore Drive with the West line of State Highway No. 205;

THENCE S. 14 deg. 17 min. 14 sec. E. with the West line of State Highway No. 205 a distance of 271.10 feet to the POINT OF BEGINNING and containing 4.706 acres or 204,993 square feet of land.

DRAFT ORDINANCE 10.25.16

Exhibit 'C':
PD Development Standards

TEXT TO BE ADDED TO THE ORDINANCE
~~***TEXT TO BE REMOVED FROM THE ORDINANCE***~~

Open Space

1. *Open Space.* All common areas and dedicated landscape easements and open space areas shall be maintained by a Property Owner's Association (POA), including areas of landscaping in the public right-of-way along Quail Run Road, SH-205 [*N. Goliad Street*] and N. Lakeshore Drive.

Parcel 1A & 1B (Lot 4, Block B & Lot 1, Block A)

2. *Permitted Uses.* *Parcel 1* as depicted in *Exhibit 'B'* of this ordinance shall be subject to the development standards and land uses permitted for the Single Family 10 (SF-10) District as stipulated by Article IV, *Permissible Uses*, and Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future, with the following additions:

   Permitted By-Right:
   ☑ Church/House of Worship
   ☑ ~~***Maximum Building Size of 10,000 Square Feet***~~

3. *Maximum Building Height.* ***A maximum building height of*** *60-feet* ***shall be permitted; however,*** any building over *36-feet* shall require a ***Specific Use Permit (****SUP****)***.
4. *Maximum Building Size.* ***A maximum building size of*** *10,000 SF* ***shall be permitted.***
5. *Maximum Number of Residential Units.* ***One (****1****) residential unit shall be allowed on Parcel 1.***
6. ~~***All proposed developments within Parcel 1-A shall be subject to future site plan and Architectural review. All four (4) facades of each building throughout the development shall be constructed with a consistent design scheme and materials as approved by the Architectural Review Board.***~~
7. ~~***In addition to the requirements of the outdoor lighting requirements of the Unified Development Code, no light pole, pole base or combination thereof shall exceed twenty (20) feet. All lighting fixtures shall focus light downward and be contained on the site.***~~
8. ~~***All exterior lighting shall have a maximum of 0.2 foot-candles when measure three feet above grade at the property line.***~~
9. ~~***All structures having a footprint of 6,000 square feet or less shall be constructed with a pitched roof system.***~~
10. ~~***All development to adhere to the General Commercial District Standards (Section 4.1) and the standards set forth in the North SH 205 Overlay District.***~~
11. ~~***All rooftop and ground mounted equipment must be orientated away from existing single-family residences and screened from adjacent properties & public rights-of-way.***~~
12. ~~***Dumpsters shall be orientated away from existing single-family residences and shall be screened from adjacent properties & public rights-of-ways. All dumpster enclosures shall be constructed of the same material and color as the primary structure. All dumpster enclosure gates shall be metal panel.***~~
13. ~~***All permanent free standing signs shall be monument signs not exceeding five (5) feet in height or a maximum of sixty (60) square feet in area per sign face.***~~

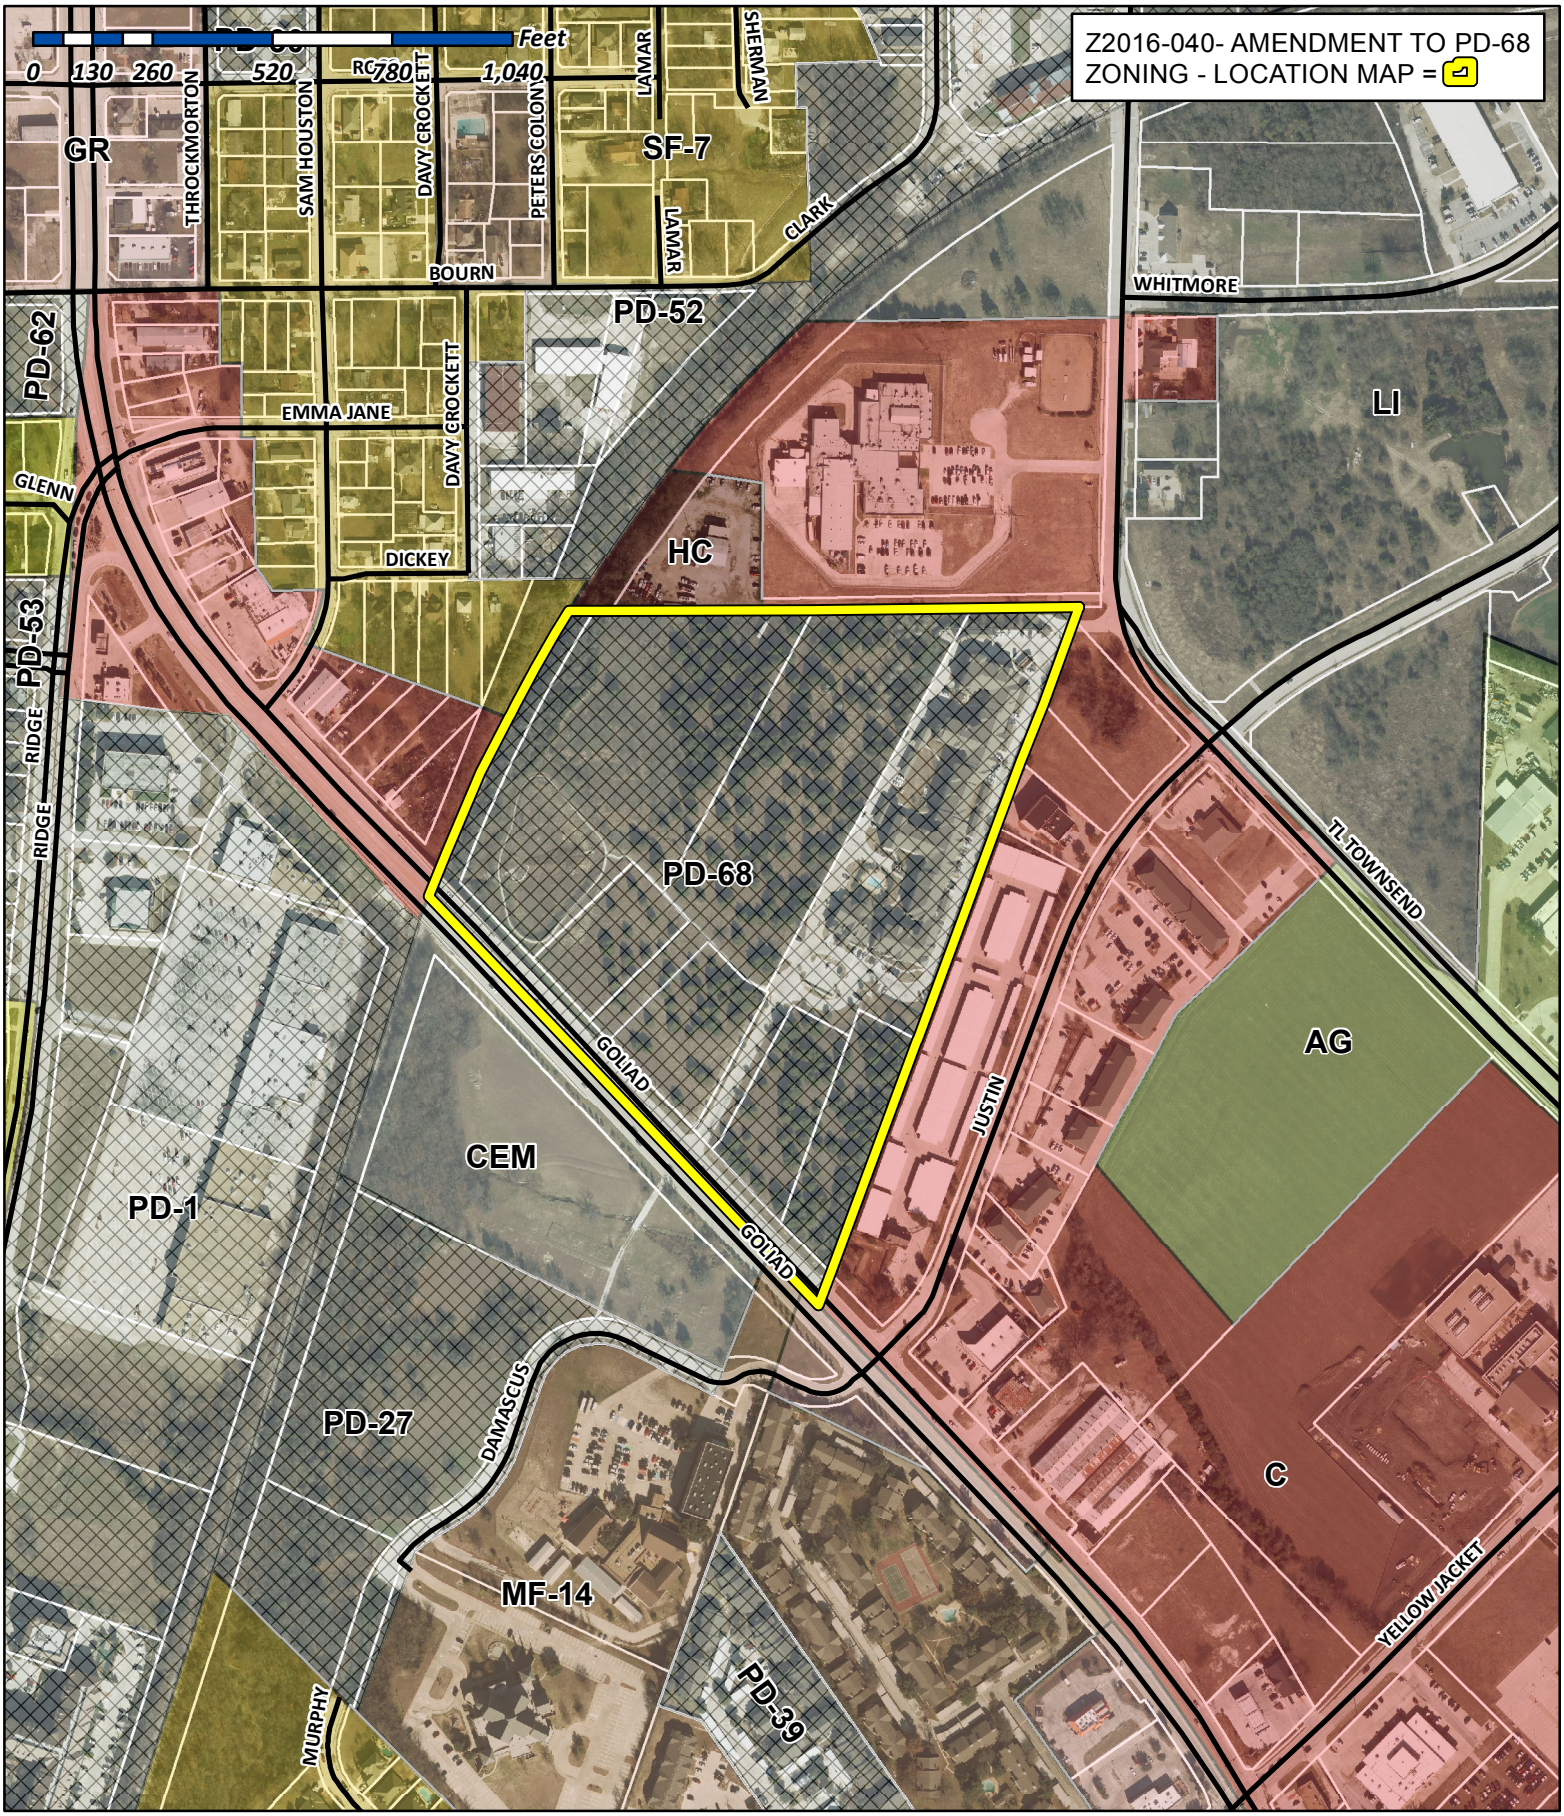
Notes: Z2016-040 (Fireside Village): Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 Hold a public hearing to discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of the owner East Shore Joint Venture for the approval of an amendment to allow 47 single-family homes in Planned Development District 68 (PD-68) being a 25.45-acre tract of land identified as Lots 1-7, Block A, Eastshore Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 68 (PD-68), situated within the SH-205 Overlay (SH-205 OV) District, located on the east side of S. Goliad Street [S. SH-205] north of the intersection of S. Goliad Street and Justin Road, and take any action necessary.
I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 On all future submittals please include the case number (Z2016-040) in the lower right hand corner.
I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on December 13, 2016.
I.5 The following are a list of Comprehensive Plan policies that have not been satisfied or could benefit from clarification:
(1) The Comprehensive Plan stipulates that "(r)etail areas should be pedestrian-oriented and easily accessible to adjacent residential and commercial neighborhoods." In this case, trails and sidewalks could be used to allow pedestrian traffic to circulate to the adjacent retail pads southwest of the subject property.
(2) The Comprehensive Plan stipulates that alleys should be incorporated on all lots less than 16,000 SF in size. In addition, the UDC states that a J-Swing or garage that is recessed 20-feet behind the front building façade should be incorporated. This will require a City Council approval. Staff would recommend providing some off-set between the front façade and the front of the garage (i.e. 5-feet forward or backward could be used to create a better articulated product).
(3) The currently provided product does not/will not meet the anti-monotony standards depicted in the Comprehensive Plan (i.e. Resolution 07-03; Exhibit C). To correct this more elevations could be added, variations in roof color/type could be incorporated, garage type and variation could be incorporated, etc.

M.6 Please indicate the following on the plan:
(1) Indicate conformance to the 20% open space requirement (i.e. indicate the amount of open space being provided).
(2) Indicate an 800-foot buffer around the open space to indicate that all lots are within 800-feet of a public park or open space.
(3) Indicate the provision of cross access from Street A to Lots 4 & 6 on the concept plan.
(4) Please provide a cross section for all streets depicted on the plan.



M.7 Street B on the Concept Plan does not meet the City's minimum standards for residential streets. Please provide a cross section showing the proposed right-of-way. It should be noted that franchise utilities require a minimum of ten (10) foot utility easements on either sides of the roadway.
I.8 The Future Land Use Map contained within the Comprehensive Plan currently identifies this property as being designated for Commercial land uses. The proposed use requires the City Council to amend the Future Land Use Map to reflect a High Density Residential land use designation. This will be a condition of approval.
I.9 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that has been requested. Revisions for this case will be due to staff on December 6, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the December 13, 2016 Planning & Zoning Meeting.
I.10 The projected City Council dates for thiscase are project to be: 1) December 19, 2016 [1st Reading], and 2) January 3, 2017 [2nd Reading].

DEVELOPMENT STANDARDS

DEVELOPMENT STANDARDS.

1. *Permitted Uses*. Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Single Family 1 (SF-1) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

2. *Density and Dimensional Requirements*. The maximum permissible density for the *Subject Property* shall not exceed the 46 lots shown on the concept plan. All lots shall conform to the standards depicted in Table 1 below.

Table 1: Lot Dimensional Requirements

Minimum Lot Width	*65'*
Minimum Lot Depth	*82'*
Minimum Lot Area	*5,330 SF*
Minimum Front Yard Setback	*20'*
Minimum Side Yard Setback	*6'*
Minimum Side Yard Setback (adjacent to a street)	*13'*
Minimum Length of Driveway Pavement	*20'*
Maximum Height	*20'*
Minimum Rear Yard Setback	*10'*
Minimum Area/Dwelling Unit (SF)	*1,352 SF*
Maximum Lot Coverage	*45%*
Minimum Distance Between Buildings	*12'*

3. *Building Standards*. All development shall adhere to the following building standards:
   (a) *Masonry Requirement*. The minimum masonry requirement for the exterior facades of all buildings shall be 100%. For the purposes of this ordinance the masonry requirement shall be limited to full width brick, natural stone, cast stone, cementaceous fiberboard and horizontal lap-siding (e.g. HardiBoard or Hardy Plank). Cementaceous products (e.g. HardiBoard or Hardy Plank) shall be limited to 20% of the masonry requirement.
   (b) *Roof Pitch*. A minimum of a 10:12 roof pitch is required on all structures with the exception of porches, which shall have a minimum of a 4:12 roof pitch.

EXHIBIT C
FIRESIDE VILLAGE
DEVELOPMENT STANDARDS

4. *Anti-Monotony Restrictions.* The development shall adhere to the following *Anti-Monotony Restrictions*:
   (1) Exterior wall materials must comply with the Masonry Requirements listed in Section 3. (a).
   (2) Identical brick blends or paint colors may not occur on adjacent (side-by-side) properties along any block face without at least four (4) intervening homes of differing materials on the same side of the street beginning with the adjacent property and two (2) intervening homes of differing materials on the opposite side of the street.
   (3) Front building elevations shall not repeat along any block face without at least five (5) intervening homes of differing appearance on the same side of the street and two (2) intervening homes of differing appearance on the opposite side of the street.
   (4) Crown molding will be installed in all living rooms, family rooms and master bedrooms, unless vaulted or pop-up ceilings are utilized. No Formica countertops may be installed in kitchens and/or bathrooms, and vinyl flooring and blown acoustic ceilings are prohibited.
   (5) All roof shingles shall be weathered wood color and all rated at thirty (30) years.

5. *Fencing Standards.* Fences are mandatory for any lot within this subdivision; and all must be four (4) foot wrought iron fencing.

6. *Landscaping.* At the time of final inspection, all single-family lots shall be landscaped per the attached landscape plan.

(a) Two (2) minimum three (3) inch caliper trees, as measured six (6) inches above the root ball, shall be planted in the front and back yard of all interior lots per the landscape plan.

Note: Any existing trees that are in conformance with the tree mitigation requirements stipulated by Article IX, Tree Preservation, of the Unified Development Code, which can be preserved, will be counted as credits towards all required landscaping requirements.

7. *Lighting*. Light poles shall not exceed 20-feet in total height (i.e. base and lighting standard). All fixtures shall be directed downward and be positioned to contain all light within the development area.

8. Streets. The HOA shall be responsible for maintaining the area between edge of pavement and their property line.

EXHIBIT C
FIRESIDE VILLAGE
DEVELOPMENT STANDARDS

9. *Sidewalks*. Sidewalks shall be required to be located as shown on all streets and shall begin two (2') feet behind the right-of-way line and be a minimum of five (5') feet in width.

10. *Buried Utilities.* New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. New transmission power-lines, or distribution lines of a size not typically or cost effectively placed underground (3-phase lines), or additional lines that are added to existing poles, may be above ground, if located along the perimeter of the *Subject Property*. The *Developer* shall not be required to relocate existing overhead power-lines along the perimeter of the *Subject Property*.

11. *Neighborhood Signage.* Permanent subdivision identification signage shall be permitted at all major entry points for the proposed subdivision. Final design and location of any entry features shall be reviewed and approved with the PD Site Plan.

12. *Homeowner's Association (HOA).* A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of *Section 38-15* of the *Subdivision Regulations* contained within the *Municipal Code of Ordinances* of the City of Rockwall. The HOA shall also maintain all residents front and back yard, neighborhood parks, trails, open space and common areas, irrigation, landscaping, screening fences associated with this development.

13. *Variances.* The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

14. *Other.* This development is Deed Restricted to allow only residents 55 or older.

CITY OF ROCKWALL

ORDINANCE NO. 17-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 68 (PD-68) AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO GRANT A CHANGE IN ZONING TO ALLOW FOR THE INCORPORATION OF A SINGLE-FAMILY SUBDIVISION FOR A ~14.475-ACRE PORTION OF THE 25.45-ACRE PLANNED DEVELOPMENT DISTRICT BEING IDENTIFIED AS LOTS 1-7, BLOCK A, EASTSHORE ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS (*$2,000.00*) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by the Dub Douphrate of Douphrate & Associates, Inc. on behalf of the owner East Shore Joint Venture for the approval of an amendment to Planned Development District 68 (PD-68) being a 25.45-acre tract of land identified as Lots 1-7, Block A, Eastshore Addition, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A' & Exhibit 'B'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 68 (PD-680 [*Ordinance No. 06-32*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 06-32*

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plans*, contained in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

DRAFT ORD. 2016

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'D'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'D'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That development of *Area 3* as depicted in *Exhibit 'B'* of this ordinance shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 5(b) through 5(f) below*), shall be the exclusive procedures applicable to the subdivision and platting of *Area 3* as depicted in *Exhibit 'B'* of this ordinance.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) Open Space Master Plan
(2) Master Plat
(3) Preliminary Plat
(4) PD Site Plan
(5) Final Plat

(c) *Open Space Master Plan.* An *Open Space Master Plan* for *Area 3* as depicted in *Exhibit 'B'* of this ordinance, prepared in accordance with this ordinance and consistent with the *Exhibit 'C'* of this ordinance, and shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

(d) *Master Plat.* A *Master Plat* for *Area 3* as depicted in *Exhibit 'B'* of this ordinance shall be submitted and shall identify the proposed timing of each phase of the proposed development. A *Master Plat* application may be processed by the City concurrently with an *Open Space Master Plan* for the development.

(e) *Preliminary Plat.* A *Preliminary Plat* covering all of *Area 3* as depicted in *Exhibit 'B'* of this ordinance shall be submitted and shall include a *Treescape Plan*. A *Preliminary Plat Application* may be processed by the City concurrently with a *Master Plat* and an *Open Space Master Plan Application* for the development.

(f) *PD Site Plan.* A *PD Site Plan* covering all of *Area 3* as depicted in *Exhibit 'B'* of this ordinance shall be submitted and shall identify all site/landscape/hardscape plan(s) for all open space, neighborhood parks, trail systems, street buffers and entry features. A *PD Site Plan* application may be processed by the City concurrently with a *Final Plat Application* for the development.

(g) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat*, conforming to the *Preliminary Plat*, for all of *Area 3* as depicted in *Exhibit 'B'* of this ordinance shall be submitted for approval.

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a

DRAFT ORDINANCE 2016

penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3RD DAY OF JANUARY, 2017.

_____
Jim Pruitt, *Mayor*

DRAFT ORDINANCE 1.29.16

Exhibit 'A':
Legal Description

Being a 25.45-acre tract of land in the B. J. T. Lewis Survey, Abstract No. 255, and being part of the same tract of land conveyed to N. L. Lofland by deed recorded in *Volume 24, Page 437*, *Deed Records*, Rockwall County, Texas and said tract being more particularly described as follows:

BEGINNING at a point for a corner at the intersection of the southeast right-of-way line of the M. K. & T. Railroad and the northeast right-of- way line of State Highway 205 [*N. Goliad Street*], said point also being on a curve to the right having a central angle of 10 Degrees 02 Minutes 59 Seconds, a radius of 3,769.72-feet and a chord that bears North 27 Degrees 53 Minutes 16 Seconds East, a distance of 660.36-feet;

THENCE around said curve in a northeasterly direction with the southeast right-of-way line of said railroad, an arc distance of 661.21 feet to a point for a corner;

THENCE South 88 Degrees 12 Minutes 53 Seconds East, a distance of 1,042.46-feet to an iron rod for a corner in a fence line;

THENCE South 23 Degrees 03 Minutes 24 Seconds West along said fence, a distance of 306.93 feet to a point for a corner;

THENCE South 21 Degrees 37 Minutes 22 Seconds West along said fence, a distance of 1,216.35-feet to an iron rod for a corner on the northeast right-of-way line of State Highway No. 205 [*N. Goliad Street*];

THENCE North 42 Degrees 13 Minutes 47 Seconds West with said right-of-way line, a distance of 1,164.12-feet to the *POINT OF BEGINNING* and containing 25.45 acres of land, which includes 0.61-acres in easements, leaving a net of 24.84-acres of land.

PD Development Standards.

Area 1: Evergreen Senior Community (~6.5749-Acres)

(1) *Permitted Uses. Area 1* as depicted in *Exhibit 'B'* of this ordinance shall be subject to the development standards and land uses permitted in the Commercial (C) District as stipulated by Article IV, *Permissible Uses*, and Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future, with the following additions:

Permitted By-Right. The following uses are permitted *by-right*:

(a) Age Restricted Senior Housing. Age Restricted Senior Housing -- *which shall be defined in accordance with the State of Texas Federal Fair Housing Laws* -- shall include but not be limited to the following:

- ☑ All of the occupied units are occupied by at least one (1) person who is 55-years of age or older, or handicapped.
- ☑ The housing facility or community publishes and adheres to policies and procedures that demonstrate their intent to meet all provisions of the *Housing for Older Persons Act* of 1995.
- ☑ The housing facility or community complies with all rules issued by the *Secretary of Housing and Urban Development* for verification of occupancy.
- ☑ The housing facility has significant facilities and services specifically designated to meet the physical or social needs of older persons.

(b) Private Streets.

Permitted as Accessory Uses. The following uses shall be permitted as accessory uses to *Age Restricted Senior Housing*:

- ☑ Barber and Beauty Shop
- ☑ Cafeteria/Common dining facilities
- ☑ Chapel
- ☑ Community Center
- ☑ Drug Store or Pharmacy
- ☑ Game Court
- ☑ Greenhouse
- ☑ Handcraft or Art Work Studio
- ☑ Health Studio
- ☑ Instructional Art Studio
- ☑ Medical Treatment Services (*e.g. medical clinic, physical therapy services, inhalation therapy, and other related uses*)
- ☑ Office
- ☑ Private Recreation Club or Area
- ☑ Retail store with Food and Personal Goods
- ☑ Snack Bar
- ☑ Swimming Pool

Specific Uses. The following uses shall be permitted by Specific Use Permit:

- ☑ Retail Store with Gasoline Sales with more than two (2) dispenser (*i.e. servicing four [4] vehicles*). This may also include a car wash as an accessory use.

Prohibited Uses. The following uses shall be prohibited:

- ☑ Animal Boarding/Kennel with or without Outside Pens
- ☑ Cemetery

DRAFT ORDINANCE 11.29.2016

- ☑ Billiard Parlor or Pool Hall
- ☑ Carnival, Circus or Amusement Ride
- ☑ Commercial Amusement Recreation (*Outside*)
- ☑ Gun Club, Skeet or Target Range (*Indoor*)
- ☑ Astrologer, Hypnotist or Psychic
- ☑ Night Club, Discotheque or Dance Hall
- ☑ Pawn Shop
- ☑ Secondhand Dealer
- ☑ Building and Landscape Material Sales with or without Outside Storage
- ☑ Research and Technology/ Light Assembly
- ☑ Auto Repair Garage (Minor)
- ☑ Boat and Trailer Dealership (New and Used)
- ☑ Car Wash with Auto Detail
- ☑ Self Service Car Wash
- ☑ Motor Vehicle Dealership (New or Used)
- ☑ RV Sales and Service
- ☑ Service Station
- ☑ Mining and Extraction (e.g. Sand, Gravel, Oil and/or Other)
- ☑ Helipad
- ☑ Railroad Yard or Shop

(2) *Number of Units.* The maximum number of *Age Restricted Senior Housing* units shall not exceed 145 units.

(3) *Unit Size.* The minimum unit size shall not be less than 700 SF and the average unit size shall not be less than 800 SF.

(4) *Building Height.* The maximum building height shall be 60-feet. Building with multiple stories shall be required to provide interior elevators.

(5) *Lot Coverage.* The maximum lot coverage shall be 45%.

(6) *Masonry Requirement*. All buildings shall be consist 95% masonry -- *excluding windows and doors* -- and shall adhere to the building elevations contained in *Exhibit 'E'* of this ordinance. For the purposes of this ordinance, masonry shall be defined as brick, stone, cultured stone, cementaceous fiberboard (*i.e. HardiPlank, HardiBoard or similar; nine (9) inches or smaller in width*) and cementaceous stucco. The masonry requirements for all building facades shall include a minimum of 20% natural or quarried stone.

(7) *Articulation.* The buildings shall be highly articulated in a similar manner to the building elevations contained in *Exhibit 'E'* of this ordinance.

(8) *Parking.* No less than 1.2 parking spaces per unit shall be provided. Any attached or detached garages or carports shall be approved during the review of the site plan (*with building elevations*), and shall be constructed with materials matching the primary structure.

(9) *Common Recreation Amenity.* The *Age Restricted Senior Housing* area (*i.e. Area 1*) shall have a clubhouse facility including residence dining areas and a kitchen. In addition, other amenities such as an exercise club and pool shall be provided.

(10) *Parks*. All development within *Area 1* shall be subject to review by the City of Rockwall's Parks Board at the time of *PD Site Plan* and/or platting. The Parks Board shall make recommendations to the City Council regarding trail requirements, parkland dedication requirements and pro-rata equipment fees for the development.

DRAFT ORDINANCE 11.29.2016

(11) *Open Space*. A minimum of 20% of *Area 1* shall be developed as open space, which may include landscaping buffers and islands, landscaped detention areas, hardscape gathering areas, and pool and other outdoor recreational areas.

(12) *Phasing.* No phasing of *Age Restricted Senior Housing* shall be permitted.

(13) *Screening from Adjacent Land Uses.* Additional landscaping and/or screening shall be provided on all perimeter property lines adjacent to other uses. This may consist of solid landscaping such as hedgerows or a combination of iron (*i.e. tubular steel*) fencing and landscaping, or as otherwise approved by the Planning and Zoning Commission. A detail of this screening shall be indicated on the *PD Site Plan*.

(14) *PD Site Plan.* The Planning and Zoning Commission shall review the *PD Site Plan* for *Area 1* and forward its recommendation to the City Council who shall review the final *PD Site Plan* and shall approve, conditionally approve, or deny the *PD Site Plan*. All required off-site improvements such as fire lanes and access, utility and drainage facilities, and open space shall be approved as part of the *PD Site Plan* for *Area 1*.

Area 2: Property Adjacent to SH-205 [N. Goliad Street] (~4.3998-Acres)

(1) *Permitted Uses. Area 2* as depicted in *Exhibit 'B'* of this ordinance shall be subject to the development standards and land uses permitted in the Commercial (C) District as stipulated by Article IV, *Permissible Uses*, and Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future, with the following additions:

Specific Uses. The following uses shall be permitted by Specific Use Permit:

☑ Retail Store with Gasoline Sales with more than two (2) dispenser (*i.e. servicing four [4] vehicles*). This may also include a car wash as an accessory use.

Prohibited Uses. The following uses shall be prohibited:

☑ Animal Boarding/Kennel with or without Outside Pens
☑ Cemetery
☑ Billiard Parlor or Pool Hall
☑ Carnival, Circus or Amusement Ride
☑ Commercial Amusement Recreation (*Outside*)
☑ Gun Club, Skeet or Target Range (*Indoor*)
☑ Astrologer, Hypnotist or Psychic
☑ Night Club, Discotheque or Dance Hall
☑ Pawn Shop
☑ Secondhand Dealer
☑ Building and Landscape Material Sales with or without Outside Storage
☑ Research and Technology/ Light Assembly
☑ Auto Repair Garage (Minor)
☑ Boat and Trailer Dealership (New and Used)
☑ Car Wash with Auto Detail
☑ Self Service Car Wash
☑ Motor Vehicle Dealership (New or Used)
☑ RV Sales and Service
☑ Service Station
☑ Mining and Extraction (e.g. Sand, Gravel, Oil and/or Other)
☑ Helipad
☑ Railroad Yard or Shop

DRAFT 11.29.2016

(2) *PD Development Plan.* All property within *Area 2* shall require the approval of a *PD Development Plan* in accordance with Article X, *Planned Development Regulation*, of the Unified Development Code [*Ordinance No. 04-38*]. Each *PD Development Plan* shall be reviewed for its conformity with the spirit and intent of this ordinance and to ensure overall connectivity within the *Planned Development District.*

(3) *PD Site Plan*. A *PD Site Plan* shall be required for all development in *Area 2* in accordance with Article X, *Planned Development Regulation*, of the Unified Development Code [*Ordinance No. 04-38*] prior to any application for a building permit. The *PD Site Plan* will be reviewed for its conformity with the spirit and intent of this ordinance.

(4) *Architectural Review Board (ARB)*. All development within the PD shall be subject to Architectural Review Board's (*ARB*) recommendation as part of the approval of the *PD Site Plan*. All development shall adhere to architectural symmetry and design features that encourage connectivity and consistency with similar design themes.

(5) *Buried Utilities*. All overhead utilities shall be placed under ground except as otherwise approved by the City of Rockwall.

(6) *Lighting*. No light pole shall exceed 20-feet in height. All light fixtures shall focus light downward and all light shall be contained on-site.

(7) *Open Space*. A minimum of 20% of each site shall be developed as open space, which may include landscaping buffers and islands, landscaped detention areas, and hardscape gathering areas.

(8) *Conformity with Other Ordinances*. Unless in conflict with the standards herein, development shall comply with the standards and procedures established by the City that are in effect at the time.

(9) *Additional Provisions*. Any additional provisions not covered within these requirements shall refer to the Unified Development Code [*Ordinance No. 04-38*].

Area 3: Fireside Village (~14.4753-Acres)

(1) *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Single Family 7 (SF-7) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

(2) *Density and Dimensional Requirements.* The maximum permissible density for the *Subject Property* shall not exceed 3.6-units/acre; however, in no case should the proposed development exceed 46 single-family, residential lots. All lots shall conform to the standards depicted in *Table 1* below.

Table 1: Lot Dimensional Requirements

Minimum Lot Width [1]	65'
Minimum Lot Depth	82'
Minimum Lot Area	5,330 SF
Minimum Front Yard Setback [2]	20'
Minimum Side Yard Setback	6'
Minimum Side Yard Setback (Adjacent to a Street)	13'
Minimum Length of Driveway Pavement (Rear and Side Yard Only)	20'
Maximum Height [3]	36'
Minimum Rear Yard Setback [4]	10'
Minimum Area/Dwelling Unit (SF) [5]	1,300 SF

DRAFT
ORD. 17-XX

Maximum Lot Coverage	45%
Minimum Number of Paved Off-Street Parking Spaces	2 Spaces
Minimum Distance Between Buildings	10'

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the single family home.

[4]: As measured from the rear yard property line.

[5]: The minimum area/dwelling unit only includes air conditioned square space.

(3) *Building Standards*. All development shall adhere to the following building standards:

(A) Masonry Requirement. The minimum masonry requirement for the exterior façades of all buildings shall be 100%. For the purposes of this ordinance the masonry requirement shall be limited to full width brick, natural stone, and cultured stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and/or stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) shall be permitted to be used to meet up to 20% of the masonry requirement.

(B) Roof Pitch. A minimum of a *10:12* roof pitch is required on all structures with the exception of porches, which shall have a minimum of a *4:12* roof pitch.

(C) Garage Orientation. Garages are permitted to be in a front-entry format (*i.e. even with the front façade of the primary structure*). In addition, the garage may encroach the front-yard building setback (*i.e. extend beyond the front façade of the primary structure towards the front property line*) by a distance not to exceed five (5) feet.

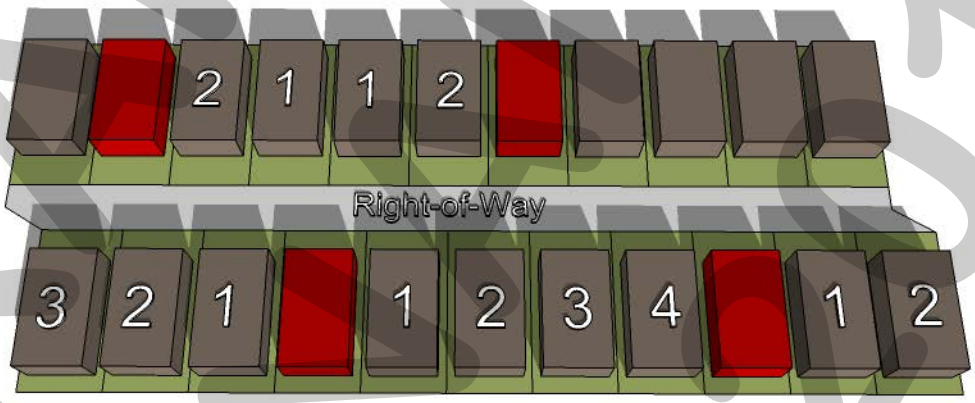
(D) Anti-Monotony Restrictions. The development shall adhere to the following Anti-Monotony requirements (*for spacing requirements see the illustration on the following page*):

(1) Identical brick blends or paint colors may not occur on adjacent (side-by-side) properties along any block face without at least four (4) intervening homes of differing materials on the same side of the street beginning with the adjacent property and two (2) intervening homes of differing materials on the opposite side of the street.

(2) Front building elevations shall not repeat along any block face without at least four (4) intervening homes of differing appearance on the same side of the street and two (2) intervening homes of differing appearance on the opposite side of the street. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

(a) Number of Stories
(b) Brick Color
(c) Roof Type and Layout
(d) Articulation of the Front Façade

(3) Crown molding shall be installed in all living rooms, family rooms and master bedrooms, unless vaulted or pop-up ceilings are utilized. No Formica countertops maybe installed in kitchens and/or bathrooms, and vinyl flooring and blown acoustic ceilings shall be prohibited.



(4) All roof shingles shall be weathered wood color, an architectural or dimensional shingle, and have a 30-year rating. (*3-Tab Roofing Shingles are prohibited*).

DRAFT ORDINANCE 10.25.16

Illustration 1: Properties line up on the opposite side of the street. Where RED are the same.

Illustration 2: Properties do not line up on opposite side of the street. Where RED are the same.

(E) Fencing Standards. All residential fencing shall be four (4) foot wrought iron/tubular steel fencing.

(F) Landscape and Hardscape Standards.

(1) *Residential Landscape.* Landscaping shall be reviewed and approved with the *PD Site Plan*. All *Canopy/Shade Trees* planted within the residential development shall be a minimum of three (3) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height unless otherwise provided within this document. Prior to the issuance of a Certificate of Occupancy (CO) all single-family lots shall have a minimum of two (2), three (3) inch caliper trees, as measured at breast height [*i.e. the diameter in inches of a tree as measured through the main trunk at a point of four and one-half (4½) inches above the natural ground level*]. These trees may be planted in the front and/or backyard of all interior lots.

Note: For the purposes of this section only, the term "front yard" includes the area within the dedicated right-of-way for a parkway immediately adjoining the front yard of the lot.

(2) *Landscape Buffers.* All landscape buffers and plantings located within the buffers shall be maintained by the Homeowner's Association (HOA).

(a) Landscape Buffer (SH-205). A minimum of a 20-foot landscape buffer shall be provided along the frontage of SH-205, and shall incorporate ground

DRAFT ORDINANCE 10.19.16

cover, a *built-up* berm and/or shrubbery or a combination thereof along the entire length of the frontage. Shrubbery shall have a minimum height of 30-inches and a maximum height of 48-inches. In addition, at least two (2) canopy trees and four (4) accent trees shall be planted per 100-feet of linear frontage. In addition, all buffer-strip planting requirements shall conform to the requirements of Section 6.7, *SH-205 Corridor Overlay (SH-205 OV) District*, of Article V, *District Development Standards*, of the Unified Development Code (*i.e. minimum four [4] inch caliper trees required*).

(3) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect and shall be maintained by the Homeowner's Association (HOA).

(4) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the *PD Site Plan*.

(G) Lighting. Light poles shall not exceed 20-feet in total height (*i.e. base and lighting standard*). All fixtures shall be directed downward and be positioned to contain all light within the development area.

(H) Sidewalks. Sidewalks shall be a minimum of five (5) feet in width and begin two (2) feet inside the right-of-way line.

(I) Streets. With the exception of *Street B* as indicated in *Exhibit 'C'* of this ordinance, all streets shall have a minimum of 50-feet of right-of-way and incorporate a 29-foot *back-to-back* street. *Street B* as indicated in *Exhibit 'C'* of this ordinance shall be allowed to reduce the right-of-way width to a minimum of 37-feet of right-of-way; however a 29-foot *back-to-back* street will need to be provided.

(J) Cross Access. Cross access from *Street A* to Lots 4 & 6 -- *which are depicted in Exhibit 'C' of this ordinance* -- shall be required and indicated on the *PD Site Plan*.

(K) Open Space. The development shall consist of a minimum of 20% open space as calculated from the gross land area, and generally conform to the *Concept Plan* contained in *Exhibit 'C'* of this ordinance. The Homeowner's Association (HOA) shall maintain all open space areas.

(L) Neighborhood Signage. Permanent subdivision identification signage shall be permitted at all major entry points for the proposed subdivision. Final design and location of any entry features shall be reviewed and approved with the *PD Site Plan*.

(M) Homeowner's Association (HOA). A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of *Section 38-15* of the Subdivision Regulations contained within the *Municipal Code of Ordinances* of the City of Rockwall. The HOA shall also maintain all neighborhood parks, trails, open space and common areas, irrigation, landscaping, amenity centers, screening fences associated with this development.

DRAFT ORDINANCE 4.29.16

(N) Buried Utilities. New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. New transmission power-lines, or distribution lines of a size not typically or cost effectively placed underground (*3-phase lines*), or additional lines that are added to existing poles, may be above ground, if located along the perimeter of the *Subject Property*. The *Developer* shall not be required to re-locate existing overhead power-lines along the perimeter of the *Subject Property*. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be considered existing lines at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph. Franchise utilities shall be placed within a ten (10) foot public utility easement behind the sidewalk, between the home and the property line.

(O) *Variances.* The variance procedures and standards for approval that are set forth in the Unified Development Code [*Ordinance No. 04-38*] shall apply to any application for variances to this ordinance.

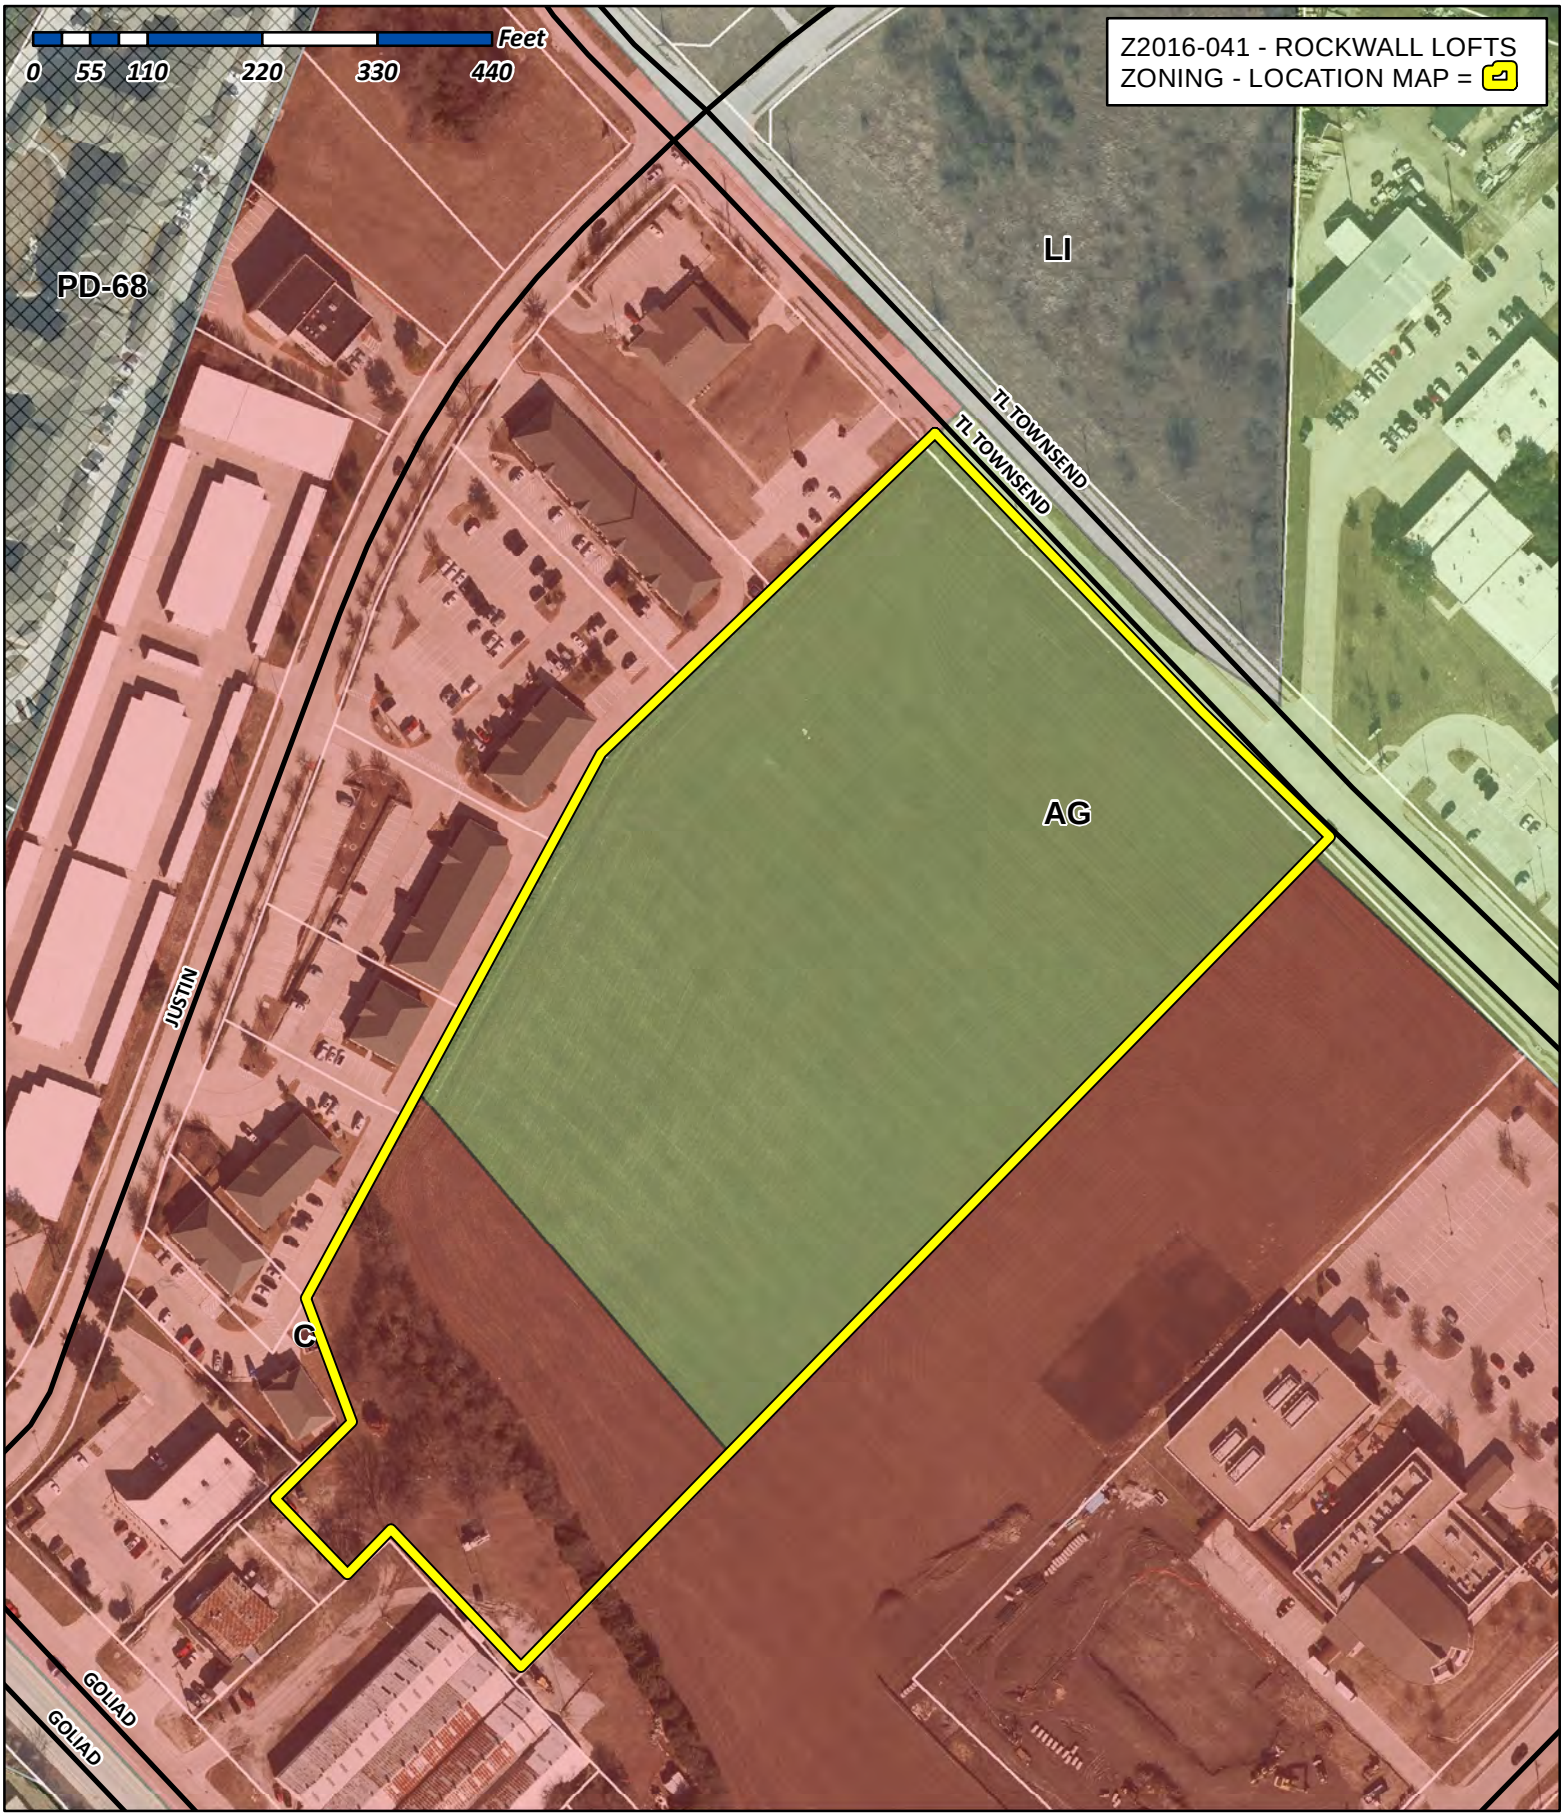
PLANNING	11/18/2016	11/25/2016	11/22/2016
Ryan Miller	APPROVED	See Comments	

Notes: Z2016-041 (Rockwall Lofts [AG to PD]): Please address the following comments (M= Mandatory Comments; I = Informational Comments).



I.1 Hold a public hearing to discuss and consider a request by Tony Austin of TAC, Inc. on behalf of the owner _ Cameron of Cameron & Cameron for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for a multi-family apartment complex on a 12.59-acre tract of land identified as Tract 8 of the B. J. T. Lewis Survey, Abstract No. 255, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Overlay (SH-205 OV) District, located on the west side of T. L. Townsend Drive south of Justin Road, and take any action necessary.
I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 On all future submittals please include the case number (Z2016-041) in the lower right hand corner.
I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on December 13, 2016.
I.5 The following are a list of Comprehensive Plan policies that have not been satisfied or could benefit from clarification:

(1) The Comprehensive Plan stipulates that "(r)etail areas should be pedestrian-oriented and easily accessible to adjacent residential and commercial neighborhoods." In this case, trails and sidewalks could be used to allow pedestrian traffic to circulate to the adjacent restaurants west/southwest of the subject property.

I.6 The Future Land Use Map contained within the Comprehensive Plan currently identifies this property as being designated for Commercial land uses. The proposed use requires the City Council to amend the Future Land Use Map to reflect a High Density Residential land use designation. This will be a condition of approval.
I.7 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that has been requested. Revisions for this case will be due to staff on December 6, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the December 13, 2016 Planning & Zoning Meeting.
I.8 The projected City Council dates for this case are project to be: 1) December 19, 2016 [1st Reading], and 2) January 3, 2017 [2nd Reading].

Being a 12.59 acres tract of land situated in Rockwall County, Texas, of the B.J. Lewis Survey, Abstract No. 225, and being the remainder of a tract of land conveyed to Bill R. Cameron and Raymond B. Cameron, by Deed recorded in Volume 101, Page 837, Deed Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

BEGINNING at a at a point for corner lying in the Southwest right-of-way line of Townsend Drive (variable width right-of-way) said point being the Northeasterly corner of the remainder of said Cameron tract from which a 1/2 inch iron rod found bears South 45 degrees 34 minutes 26 seconds West a distance of 12.42 feet said iron rod being the North corner of Lot 5, Block 1 of First United Methodist Church Addition, an Addition to the City of Rockwall, Rockwall County, Texas, according to the Map or Plat thereof recorded in Cabinet G, Page 345, Map Records, Rockwall County, Texas;

THENCE South 45 degrees 34 minutes 26 seconds West, along the Northwest line of said Lot 5, a distance of 1111.29 feet to an "X" set for corner at the West corner of said Lot 5 and lying in the Northeast line of a tract of land conveyed to T Rock, L.P., a Texas limited liability partnership, by Deed recorded in Volume 3321, Page 302, Deed Records, Rockwall County, Texas;

THENCE North 41 degrees 58 minutes 25 seconds West, along said Northeast line of T Rock tract, a distance of 181.27 feet to a 1/2 inch iron rod found for corner at the North corner of said T Rock tract;

THENCE South 45 degrees 30 minutes 05 seconds West, along the Northwest line of said T Rock tract, a distance of 60.60 feet to a 1/2 inch iron rod set for corner at the East corner of a tract of land conveyed to Donald Richard Whitford, by Deed recorded in Volume 102, Page 686, Deed Records, Rockwall County, Texas;

THENCE North 42 degrees 13 minutes 19 seconds West, along the Northeast line of said Whitford tract, a distance of 100.00 feet to a 1/2 inch iron rod set for corner at the North corner of said Whitford tract and lying in the Southeast line of Lot 2A, Block A of Lofland Industrial Park Addition, an Addition to the City of Rockwall, Rockwall County, Texas, according to the Map or Plat thereof recorded in Cabinet D, Page 63, Map Records, Rockwall County, Texas;

THENCE North 48 degrees 09 minutes 15 seconds East, a distance of 103.71 feet to a 1/2 inch iron rod found for corner at the East corner of Lot 2B-B of Lot 5, Block 1 of Lofland Industrial Park Addition, an Addition to the City of Rockwall, Rockwall County, Texas, according to the Map or Plat thereof recorded in Cabinet E, Page 356, Map Records, Rockwall County, Texas;

THENCE North 19 degrees 02 minutes 57 seconds West, along the Northeast line of said Lot 2B-B, a distance of 126.59 feet to a 1/2 inch iron rod found for corner at the North corner of said Lot 2B-B and the common South corner of Lot 5-R of Lofland Industrial Park Addition, an Addition to the City of Rockwall, Rockwall County, Texas, according to the Map or Plat thereof recorded in Cabinet E, Page 228, Map Records, Rockwall County, Texas;

THENCE North 29 degrees 46 minutes 36 seconds East, along the Southeast line of said Lofland Industrial Park Addition, a distance of 594.01 feet to an "X" found for corner;

THENCE North 47 degrees 24 minutes 56 seconds East, along said Southeast line of said Lofland Industrial Park Addition, passing at a distance of 430.2 feet a 1/2 inch iron rod set for witness and continuing a total distance of 443.65 feet to a point for corner lying in said Townsend Drive;

THENCE South 42 degrees 29 minutes 30 seconds East, along said Southwest right-of-way line of Townsend Drive, a distance of 368.83 feet to a point for corner;

THENCE South 44 degrees 21 minutes 15 seconds East, continuing along the Southwest right-of-way line of Townsend Drive, a distance of 173.11 feet to the POINT OF BEGINNING and containing 548,470 square feet or 12.59 acres of land.

This survey is made in conjunction with the information provided by the client. CBG Surveying, Inc. has not researched the land title records for the existence of easements, restrictive covenants or other encumbrances.

Executed this 24th day of May, 2012

MF-14 ZONING COMPRESSION TO PD-ZONING REQUEST

Sec. 3.9. - Multi-Family Residential (MF-14) District.	Requested PD Compliance with MF-14
C. Development standards.	
1 Duplexes shall meet the requirements of the 2-F District, with only one duplex per lot.	NA
2 Minimum site area: 10,000 square feet.	YES
3 Minimum lot area: 2,000 square feet of lot per unit.	YES
4 Maximum density per gross acre: 14 units/acre.	REQUEST 16.92 Unit/Acre
5 Minimum lot frontage on a public street: 60 feet.	YES
6 Minimum lot depth: 100 feet.	YES
7 Minimum depth of front yard setback: 25 feet.	YES
8 Minimum depth of rear yard setback*:	
a. Abutting a single-family, townhouse, or duplex district:	NA
One-story structure: 25 feet.	
Two-story structure: 50 feet.	
Three-story structure: 75 feet.	
b. Abutting any other district: ten feet.	
*Unenclosed carports may be built up to within five feet of any property line that abuts an alley and no closer than 20 feet from any street intersection.	
9 Minimum width of side yard setback:	YES
11. Maximum building coverage as a percentage of lot area: 45 percent. Each development containing over 100 dwelling units shall provide 300 square feet of open space per two- and three-bedroom unit, with at least one open area with the minimum dimensions of 200 feet by 150 feet.	YES
12. Minimum amount of permanent, landscaped open space: 20 percent of total lot area, with 30 percent of total requirement located in front and alongside buildings along street frontages. See article VIII, section 5.12, Required Landscaping.	YES
13. Maximum building height: 36 feet.	YES

Justin Road & Townsend Drive

Being a 12.59 acres tract of land situated in Rockwall County, Texas, of the B.J. Lewis Survey, Abstract No. 225, and being the remainder of a tract of land conveyed to Bill R. Cameron and Raymond B. Cameron, by Deed recorded in Volume 101, Page 837, Deed Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

BEGINNING at a at a point for corner lying in the Southwest right-of-way line of Townsend Drive (variable width right-of-way) said point being the Northeasterly corner of the remainder of said Cameron tract from which a 1/2 inch iron rod found bears South 45 degrees 34 minutes 26 seconds West a distance of 12.42 feet said iron rod being the North corner of Lot 5, Block 1 of First United Methodist Church Addition, an Addition to the City of Rockwall, Rockwall County, Texas, according to the Map or Plat thereof recorded in Cabinet G, Page 345, Map Records, Rockwall County, Texas;

THENCE South 45 degrees 34 minutes 26 seconds West, along the Northwest line of said Lot 5, a distance of 1111.29 feet to an "X" set for corner at the West corner of said Lot 5 and lying in the Northeast line of a tract of land conveyed to T Rock, L.P., a Texas limited liability partnership, by Deed recorded in Volume 3321, Page 302, Deed Records, Rockwall County, Texas;

THENCE North 41 degrees 58 minutes 25 seconds West, along said Northeast line of T Rock tract, a distance of 181.27 feet to a 1/2 inch iron rod found for corner at the North corner of said T Rock tract;

THENCE South 45 degrees 30 minutes 05 seconds West, along the Northwest line of said T Rock tract, a distance of 60.60 feet to a 1/2 inch iron rod set for corner at the East corner of a tract of land conveyed to Donald Richard Whitford, by Deed recorded in Volume 102, Page 686, Deed Records, Rockwall County, Texas;

THENCE North 42 degrees 13 minutes 19 seconds West, along the Northeast line of said Whitford tract, a distance of 100.00 feet to a 1/2 inch iron rod set for corner at the North corner of said Whitford tract and lying in the Southeast line of Lot 2A, Block A of Lofland Industrial Park Addition, an Addition to the City of Rockwall, Rockwall County, Texas, according to the Map or Plat thereof recorded in Cabinet D, Page 63, Map Records, Rockwall County, Texas;

THENCE North 48 degrees 09 minutes 15 seconds East, a distance of 103.71 feet to a 1/2 inch iron rod found for corner at the East corner of Lot 2B-B of Lot 5, Block 1 of Lofland Industrial Park Addition, an Addition to the City of Rockwall, Rockwall County, Texas, according to the Map or Plat thereof recorded in Cabinet E, Page 356, Map Records, Rockwall County, Texas;

THENCE North 19 degrees 02 minutes 57 seconds West, along the Northeast line of said Lot 2B-B, a distance of 126.59 feet to a 1/2 inch iron rod found for corner at the North corner of said Lot 2B-B and the common South corner of Lot 5-R of Lofland Industrial Park Addition, an Addition to the City of Rockwall, Rockwall County, Texas, according to the Map or Plat thereof recorded in Cabinet E, Page 228, Map Records, Rockwall County, Texas;

THENCE North 29 degrees 46 minutes 36 seconds East, along the Southeast line of said Lofland Industrial Park Addition, a distance of 594.01 feet to an "X" found for corner;

THENCE North 47 degrees 24 minutes 56 seconds East, along said Southeast line of said Lofland Industrial Park Addition, passing at a distance of 430.2 feet a 1/2 inch iron rod set for witness and continuing a total distance of 443.65 feet to a point for corner lying in said Townsend Drive;

THENCE South 42 degrees 29 minutes 30 seconds East, along said Southwest right-of-way line of Townsend Drive, a distance of 368.83 feet to a point for corner;

THENCE South 44 degrees 21 minutes 15 seconds East, continuing along the Southwest right-of-way line of Townsend Drive, a distance of 173.11 feet to the POINT OF BEGINNING and containing 548,470 square feet or 12.59 acres of land.

This survey is made in conjunction with the information provided by the client. CBG Surveying, Inc. has not researched the land title records for the existence of easements, restrictive covenants or other encumbrances.

CITY OF ROCKWALL

ORDINANCE NO. 17-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO CHANGE THE ZONING FROM AN AGRICULTURAL (AG) DISTRICT TO PLANNED DEVELOPMENT DISTRICT XX (PD-XX) FOR A MULTI-FAMILY APARTMENT COMPLEX ON THE SUBJECT PROPERTY, BEING A 12.59-ACRE TRACT OF LAND IDENTIFIED AS TRACT 8 OF THE B. J. T. LEWIS SURVEY, ABSTRACT NO. 255, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Tony Austin of TAC, Inc. on behalf of Cameron & Cameron for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for a multi-family apartment complex on a 12.59-acre tract of land identified as Tract 8 of the B. J. T. Lewis Survey, Abstract No. 255, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 2. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

DRAFT ORDINANCE 10.25.16

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Concept Building Elevations*, contained in *Exhibit 'D'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'D'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City Council, as amended by this ordinance (*including Subsections 5(b) through 5(e) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) PD Site Plan
(2) Open Space/Amenity Plan
(3) Final Plat

(c) *PD Site Plan.* A *PD Site Plan* covering all of the *Subject Property* shall be submitted and shall include a *Site Plan*, *Building Elevations*, *Treescape Plan*, *Landscape Plan* and a *Photometric Plan*. A *PD Site Plan* application may be processed by the City concurrently with an *Open Space/Amenity Plan* for the development.

(d) *Open Space/Amenity Plan.* An *Open Space/Amenity Plan* covering all of the *Subject Property* shall be submitted and shall include a detailed depiction of all proposed public and private amenities. An *Open Space/Amenity Plan* may be processed by the City concurrently with a *PD Site Plan Application* for the development.

(e) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat* for the *Subject Property* shall be submitted for approval.

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that

DRAFT ORD. 16-29.0

is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3RD DAY OF JANUARY, 2017.

Survey/Legal Description

DRAFT ORDINANCE 11.29.2016

Exhibit 'B':
Concept Plan

DRAFT
ORDINANCE
11.09.2016

Exhibit 'C':
Development Standards

1. *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Multi-Family 14 (MF-14) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

2. *Unit Composition.* The unit composition shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Table 1* below; however, in no case should the average net unit area decrease below 900 square feet.

Table 1: Unit Composition

Unit Name	Unit Type	Minimum Net Unit Area (SF) [1]	Number of Units (#)	Total Area (SF)	Units as Percentage (%)
A1	1 Bedroom/1 Bathroom	576 SF	27	15,552 SF	12.68%
A2	1 Bedroom/1 Bathroom	680 SF	31	21,080 SF	14.55%
A3	1 Bedroom/1 Bathroom	740 SF	33	24,420 SF	15.49%
A4	1 Bedroom/1 Bathroom	772 SF	21	16,212 SF	9.86%
A5	1 Bedroom/1 Bathroom	773 SF	6	4,638 SF	2.82%
B1	2 Bedroom/2 Bathroom	1,029 SF	26	26,754 SF	12.21%
B2	2 Bedroom/2 Bathroom	1,156 SF	30	34,680 SF	14.08%
B3	2 Bedroom/2 Bathroom	1,196 SF	21	25,116 SF	9.86%
C1	3 Bedroom/3 Bathroom	1,321 SF	18	23,778 SF	8.45%
		Average Net Unit Area:		*902.49 SF*	
		Maximum Permitted Units:	*213*		*100.00%*

General Notes:
[1]: The net square footage includes only air-condition space and is exclusive of patios, balconies and exterior storage areas.

3. *Density and Dimensional Requirements.* Unless specifically provided by this Planned Development ordinance, the development standards stipulated by the Multi-Family 14 (MF-14) District and the IH-30 Overlay (IH-30 OV) District, as specified by Article V, *District Development Standards*, of the Unified Development Code are applicable to all development on the *Subject Property*. The maximum permissible density for the *Subject Property* shall not exceed *17* dwelling units per gross acre of land; however, in no case should the proposed development exceed *213* units. All lots shall conform to the standards depicted in *Table 2*, which is as follows:

Table 2: Lot Dimensional Requirements

Minimum Lot Width	60'
Minimum Lot Depth	100'
Minimum Lot Area	10,000 SF
Minimum Lot Area/Unit	2,000 SF
Minimum Front Yard Building Setback	25'
Minimum Side Yard Building Setback	10'
Minimum Rear Yard Building Setback	10'
Minimum Front Yard Carport/Parking Setback	15'
Minimum Side Yard Carport/Parking Setback	5'
Minimum Rear Yard Carport/Parking Setback	5'
Minimum Separation Between Main Buildings [1]	20'
Minimum Separation Between a Main Structure to an Accessory Structure	10'
Maximum Height [2]	62'
Maximum Lot Coverage	45%
Minimum Landscape	20%
Minimum Open Space [3]	20%

General Notes:
[1]: The minimum separation between two (2) buildings without doors or windows on facing walls shall be a minimum of 15-feet.
[2]: The height of the building shall be measured from the average elevation of the finished grade along the front of the building to the highest point of the roof or parapet of the building if it is a flat, mansard or shed roof; or to the midpoint of the roof if it is gable, hip or gambrel roof.

[3]: The minimum open space area will be calculated based on the gross area of the lot, and will include both active and passive recreational areas.

4. *Parking and Loading Standards.* The parking and loading requirements shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Table 3*, which is as follows:

Table 3: Parking Requirements

Unit Name	*Unit Type*	*Parking Requirement Per Unit* [2]	*Number of Units (#)*	*Parking Requirement* [1]
A1	*1 Bedroom/1 Bathroom*	1.5	27	40.5
A2	*1 Bedroom/1 Bathroom*	1.5	31	46.5
A3	*1 Bedroom/1 Bathroom*	1.5	33	49.5
A4	*1 Bedroom/1 Bathroom*	1.5	21	31.5
A5	*1 Bedroom/1 Bathroom*	1.5	6	9
B1	*2 Bedroom/2 Bathroom*	2	26	52
B2	*2 Bedroom/2 Bathroom*	2	30	60
B3	*2 Bedroom/2 Bathroom*	2	21	42
C1	*3 Bedroom/3 Bathroom*	2.5	18	45
			Parking Requirements:	376

General Notes:

[1]: Tandem parking spaces (*i.e. parking spaces in front of garages*) are *NOT* be permitted; however, the proposed garage parking spaces may count toward the parking requirement.

[2]: This table is subject to change based on the proposed development; however, all one (1) bedroom units shall provide a minimum of 1.5 parking spaces/unit, all two (2) bedroom units shall provide a minimum of two (2) parking spaces/unit and all three (3) bedroom units shall provide a minimum of 2.5 parking spaces/unit.

5. *Building Standards.* The building elevations shall generally conform to the *Concept Building Elevations* depicted in *Exhibit '*D'; however, all development shall adhere to the following building standards:

(a) Masonry Requirements. The minimum masonry requirement for the exterior façades of all buildings shall be 90%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the exterior of the building; however, stucco may not be used within the first four (4) feet above grade on a façade visible from a public street or open space. A minimum of 20% natural stone is required on all building façades.

(b) Roof Design Requirements. All buildings shall be designed such that no roof mounted mechanical equipment (*i.e. HVAC, satellite, vents, etc.*) shall be visible from any direction. *Note: Screening of mechanical equipment is necessary for all equipment regardless of location (i.e. roof mounted, ground mounted, or otherwise attached to the building and/or located on the site).*

Screening of roof mounted mechanical equipment and/or other rooftop appurtenances shall be accomplished through the construction of an architectural feature, which is integral to the building's design and ensures that such equipment is not visible from adjacent public rights-of-way.

(c) Architectural Requirements. All buildings shall be architecturally finished on all four (4) sides with the same materials, detailing and features. In addition, all buildings shall be subject to the architectural requirements of the SH-205 Overlay (SH-205 OV) District contained in Section 6, *Overlay Districts*, of Article V, *District Development Standards*, of the Unified Development Code.

DRAFT ORDINANCE 10.25.16

6. *Landscaping and Hardscaping Standards*.

   (a) *Landscape Requirements.* Landscaping shall be reviewed and approved with the *PD Site Plan*. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height. The following tree species are approved for planting within this development:

      i) *Canopy/Shade Trees*. Afghan Pine, Bald Cypress, Bur Oak, Cedar Elm, Eastern Red Cedar, Homestead Elm, Lacebark Elm, Little Gem Magnolia, Live Oak, October Glory Maple, Red Oak, Texas Ash, Texas Red Oak.

      ii) *Accent/Ornamental/Under-Story Trees*. Desert Willow, Eastern Redbud, Eves Necklace, Mexican Buckeye, Possumhaw Holly, Shangtung Maple, Yaupon Holly.

   (b) *Landscape Buffers.* A minimum of a ten (10) foot landscape buffer shall be provided along the frontage of T. L. Townsend Drive, and shall incorporate a minimum of one (1) canopy tree per 50-feet of linear frontage. The developer shall also be responsible for the construction of sidewalks and trails required along T. L. Townsend Drive.

   (c) *Parking Lot Landscaping.* All parking lot landscaping shall conform to the requirements of Article VII, *Landscape Standards*, of the Unified Development Code with the exception of the following:

      i) One (1) canopy tree per ten (10) parking spaces shall be provided. Trees shall be planted within the required parking islands or within 20-feet of a parking space.

      ii) Parking island shall be provided at a spacing not exceed a maximum distance of 20 parking spaces.

   (d) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect.

   (e) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the *PD Site Plan* and/or *Opens Space/Amenity Plan*.

7. *Trash Receptacles.* Trash and recycling receptacles shall be four (4) sided, with eight (8) foot walls constructed and cladded with materials matching the primary structures, and have a self-latching gate. All trash and recycling receptacles shall be internal to the site and not be situated within any established building setbacks or landscape buffers.

8. *Fence Standards*. Fences located along the perimeter of roadways, abutting open spaces, greenbelts and parks shall be required to be wrought iron or a tubular steel fence. Wrought iron/tubular steel fences can be a maximum of eight (8) feet in height.

9. *Variances*. The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

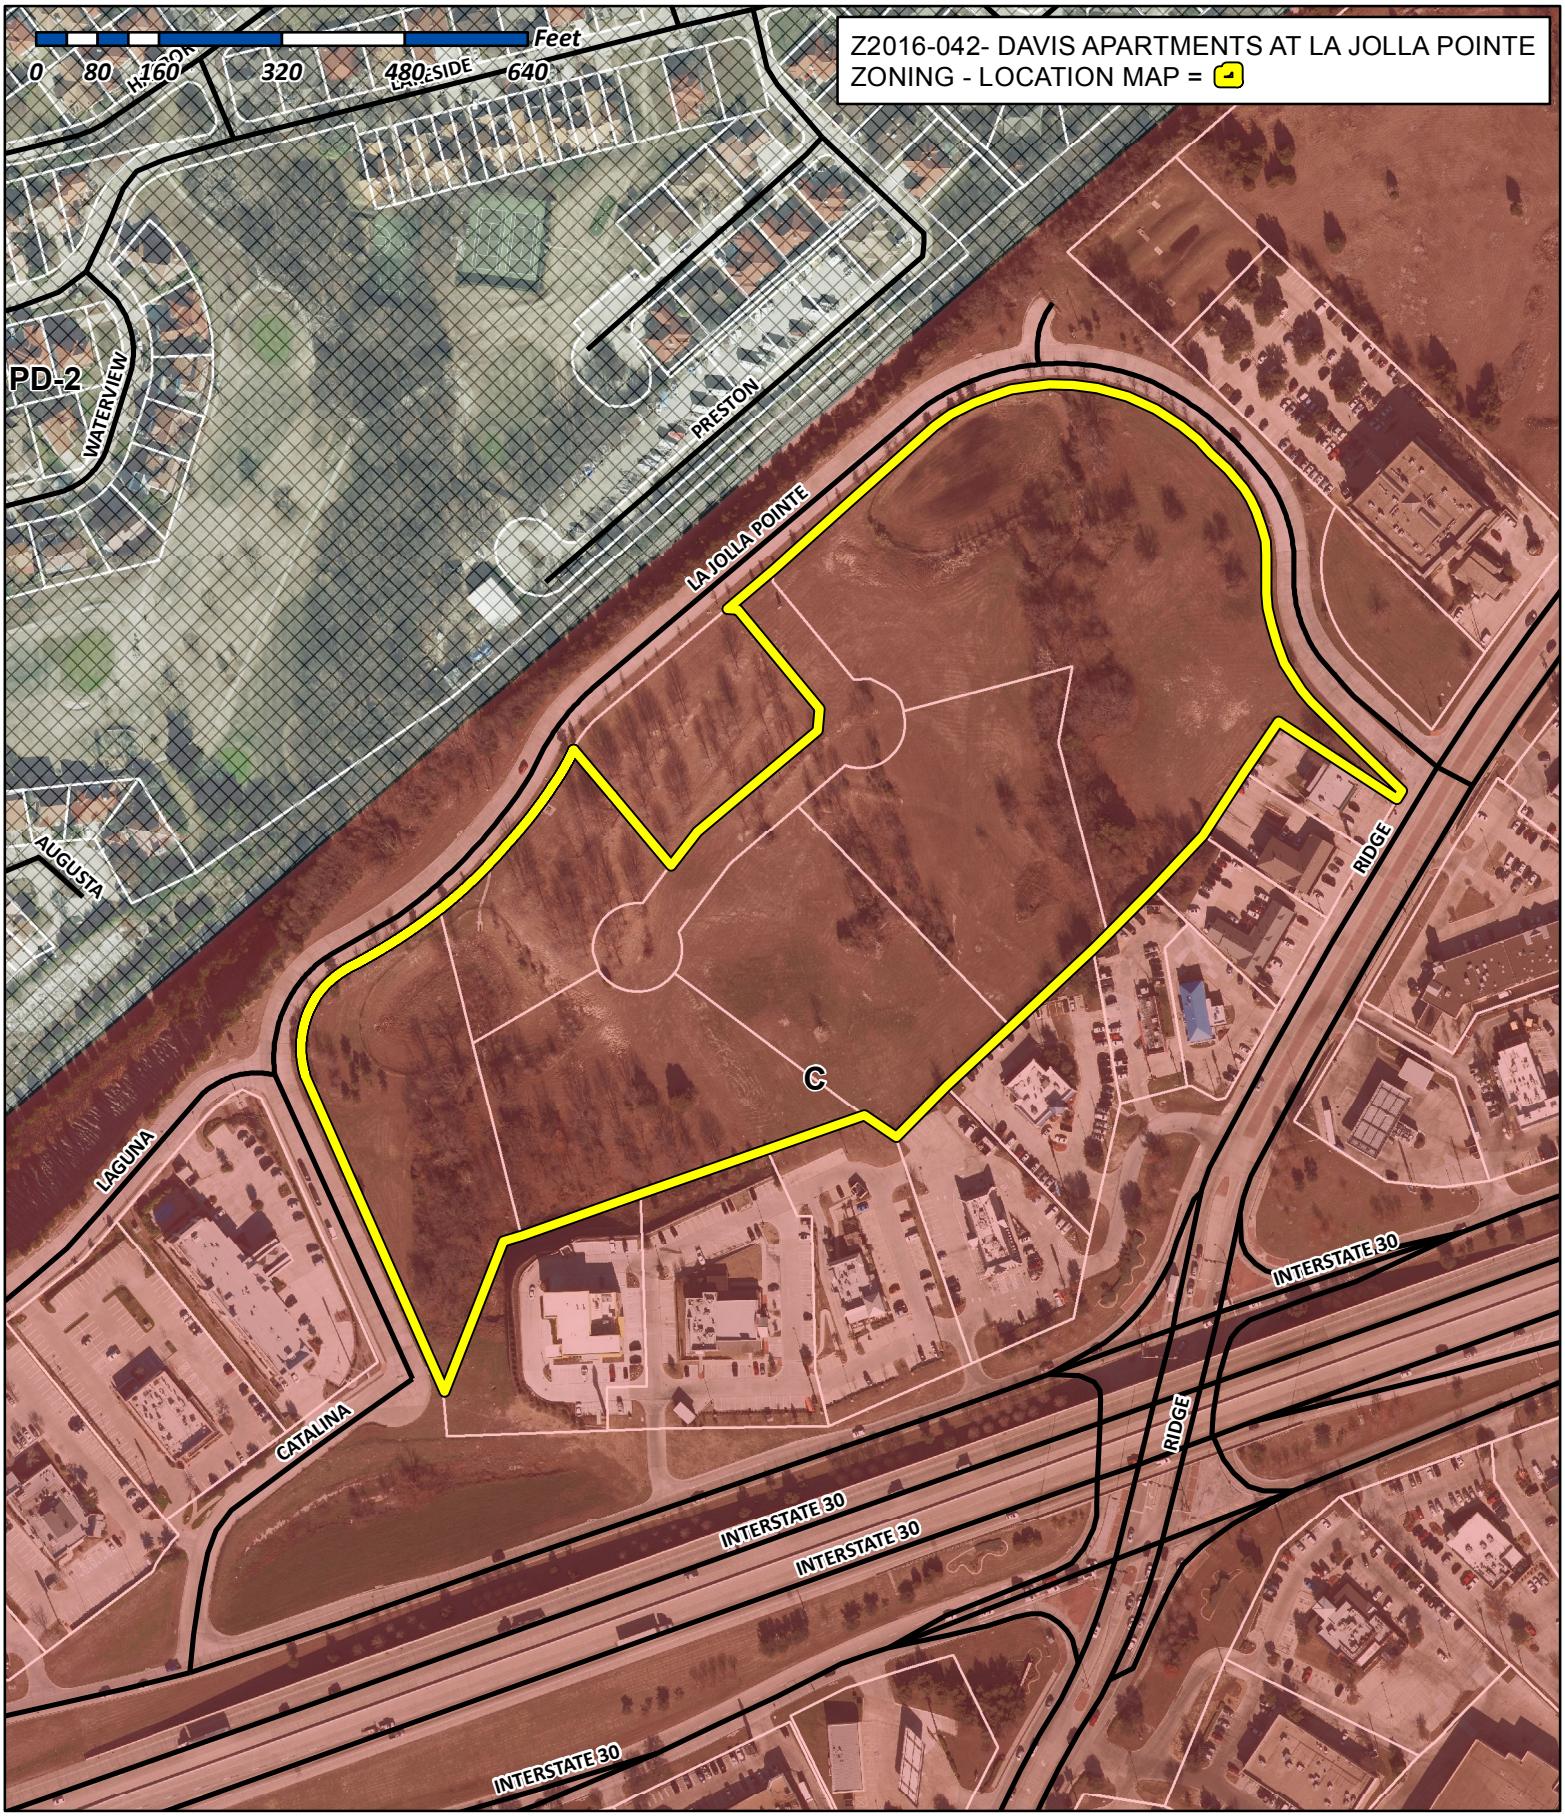
PLANNING	11/21/2016	11/28/2016	11/22/2016
	COMMENTS	See Comments	

Notes: Z2016-042 (Davis Apartments at La Jolla Pointe [C to PD]): Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 Hold a public hearing to discuss and consider a request for the approval of a zoning change from a Commercial (C) District to a Planned Development District for a multi-family apartment complex on a 17.60-acre tract of land identified as Lots 6-11, Block A, La Jolla Pointe Addition, Phase 2, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, and located east of the intersection of Laguna Drive and La Jolla Pointe Drive.
I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 On all future submittals please include the case number (Z2016-042) in the lower right hand corner.
I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on December 13, 2016.
I.5 The following are a list of Comprehensive Plan policies that have not been satisfied or could benefit from clarification:

(1) The Comprehensive Plan stipulates that "(r)etail areas should be pedestrian-oriented and easily accessible to adjacent residential and commercial neighborhoods." In this case, trails and sidewalks could be used to allow pedestrian traffic to circulate to the adjacent restaurants south of the subject property.
(2) The Comprehensive Plan states that all residents should be within ¼-mile of a public or private park, greenway or common for their use. The area being dedicated as open space could be improved to meet this requirement.



I.6 The approval of this zoning case will be contingent upon the City Council abandoning the dedicated right-of-way for Carmel Circle and offering the right-of-way at fair market value to the applicant.
I.7 The Future Land Use Map contained within the Comprehensive Plan currently identifies this propertyas being designated for Commercial land uses. The proposed use requires the City Council to amend the Future Land Use Map to reflect a High Density Residential land use designation. This will be a condition of approval.
I.8 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that has been requested. Revisions for this case will be due to staff on December 6, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the December 13, 2016 Planning & Zoning Meeting.
I.9 The projected City Council dates for this case are project to be: 1) December 19, 2016 [1st Reading], and 2) January 3, 2017 [2nd Reading].

City of Rockwall - Planning and Zoning Department
Attention: Ryan Miller, AICP, Director of Planning
385 S. Goliad Street
Rockwall, Texas 75087

Re: Letter of Intent – 17.595 Acre Planned Development (Davis Apartments at La Jolla Pointe)

To Planning and Zoning Department:

Our Client, Davis Development, would like to formally submit an application for a 17.595 acre multi-family (MF) planned development (PD) in Rockwall. The subject property is bounded by La Jolla Pointe Drive on the north, east and west and is located on the north side of I-30 behind existing commercial development including the Mellow Mushroom, Logan's Roadhouse, Taco Cabana, Steak 'n Shake, IHOP among others. The 17.595 acre PD is proposed to include Lots 6 – 11, Block A of La Jolla Point Addition, Phase 2 (16.449 acres) and the proposed public right-of-way of Carmel Circle (1.146 acres). Carmel Circle was platted as a public right-of-way when the subject property was subdivided. We propose that Carmel Circle will be abandoned and included within the PD boundary. The subdivided lots (Lots 6-11) and Carmel Circle will be recombined during the platting process, after the zoning change process is complete.

The site is currently zoned Commercial (C), located in the IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, and our Client requests that the site be rezoned as a Planned Development for multi-family use. The proposed PD will be developed in one (1) phase and consist of seven (7), 3-story/4-story split level buildings and one (1) 3-story building with approximately 272 total units. A leasing office, clubhouse and fitness area will also be included in the "L" shaped building located at the main entrance. The building mix chart that lists the approximate unit mix, unit size and overall building square footages, is shown on the PD Concept Plan attached with this letter. A mail kiosk, maintenance/car wash building and a pool amenity area are also proposed for the residents' use.

Attached with this letter are the following: (1) Check for $464 for zoning change application fee, (2) Completed Development Application for zoning change, (3) Letter of Explanation Supporting Zoning Change (Rockwall Comp. Plan), (4) PD Development Standards, (5) Location Map with aerial photograph and PD Boundary Overlay, (6) Property Description of PD area, (7) PD Concept Plan, (8) Tree Survey, (9) TIA Report, and (10) Typical Building Elevations (colored) for city review and comment. Should you have any questions, please feel free to contact me at 972.620.1255, extension 6037.

Respectfully submitted,

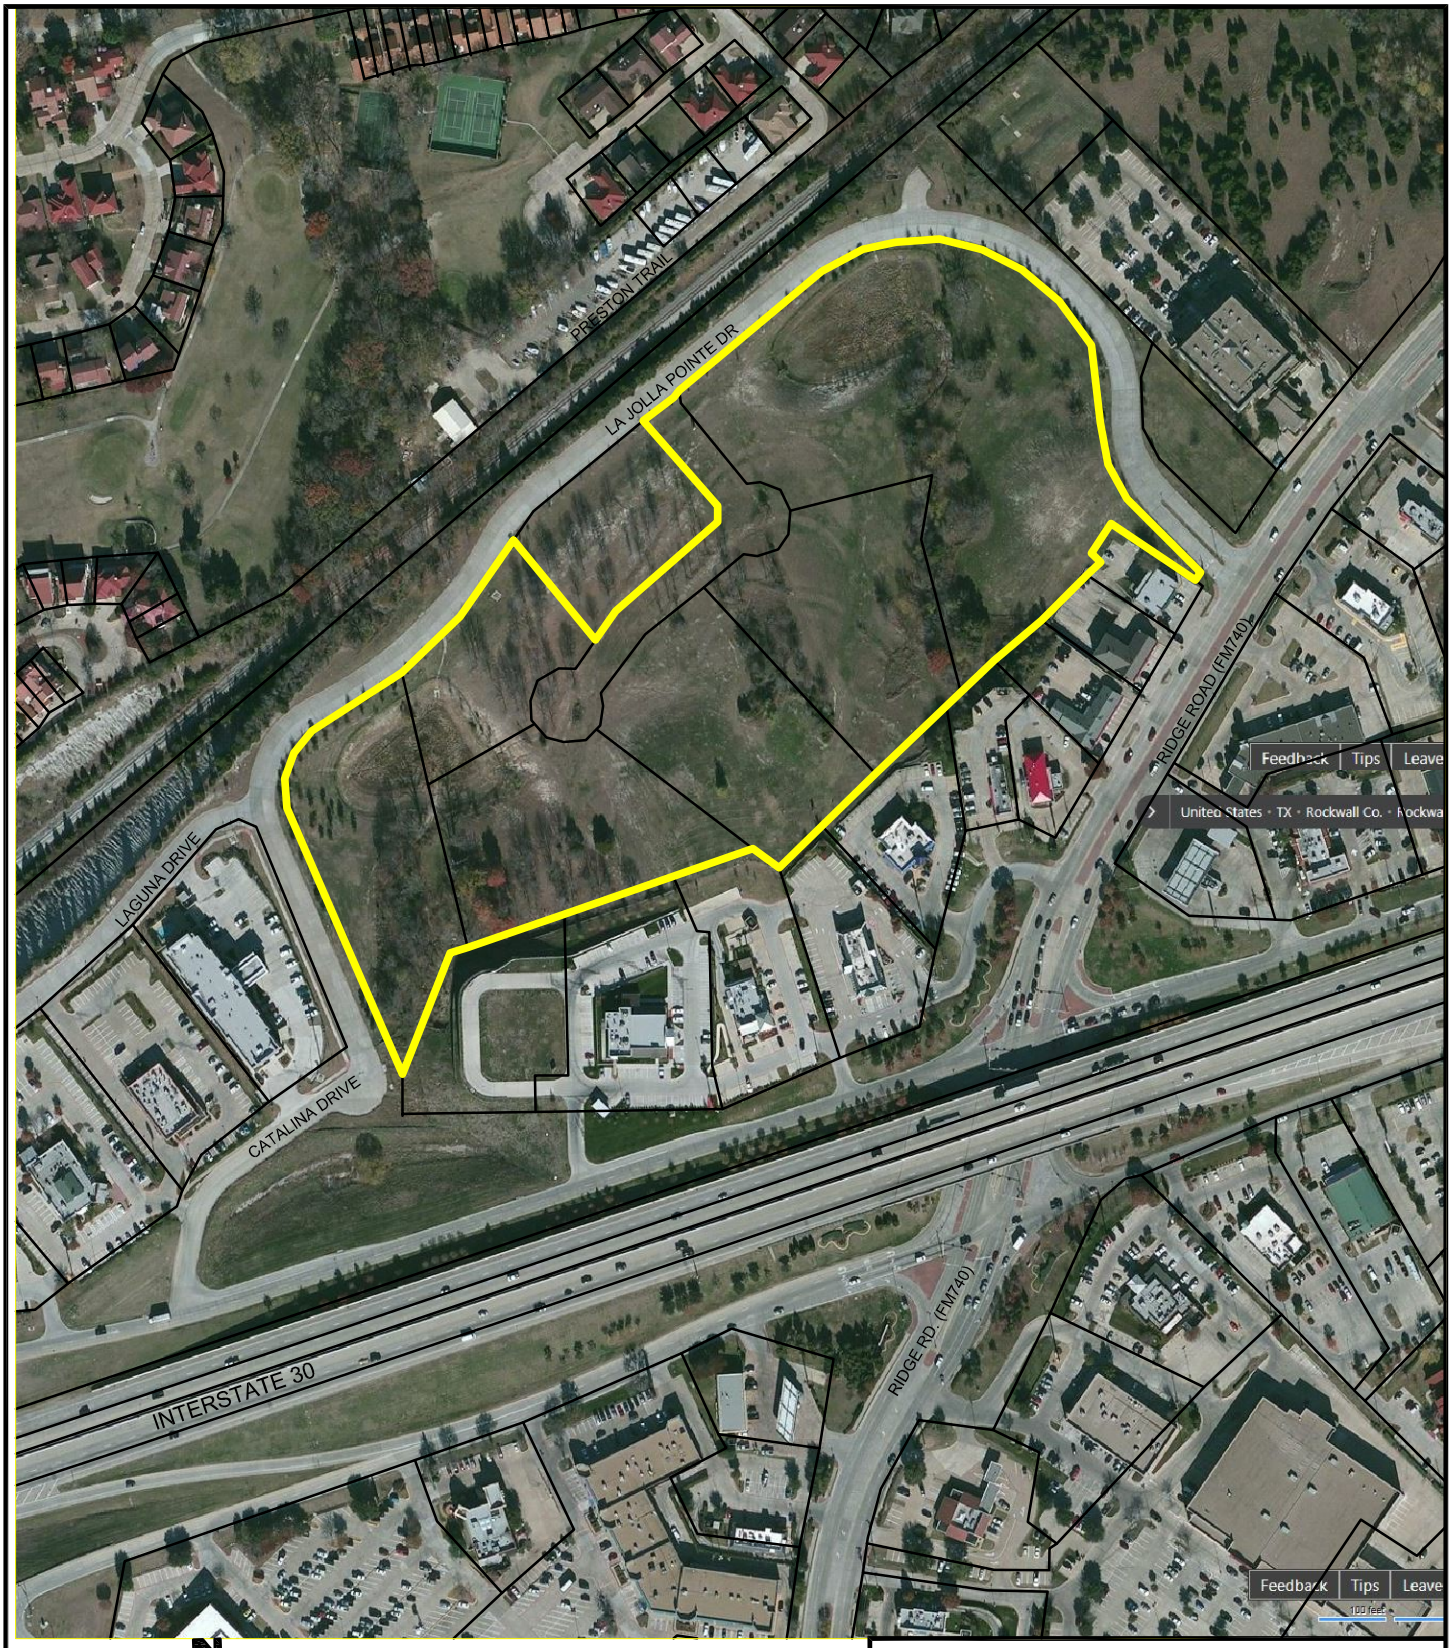
DAVIS URBAN RESIDENTIAL AT LA JOLLA POINTE AND THE ROCKWALL COMPREHENSIVE PLAN



Support for the proposed zoning amendment for the Davis Urban Residential at La Jolla Pointe may be found under the City's Comprehensive Plan. The City's Future Land Use map designates the Property as "Commercial," with "Medium Density Single-Family Residential" to the north and west, and "Commercial" to the west, south and east along I-30. The "Commercial" future land use designation states that *(z)oning should only be allowed where the commercial use is eminent and where it would be planned and integrated with the adjacent residential neighborhoods.* The subject property is situated behind a row of retail buildings blocking the view of the site from the nearby major roadways. Further, access to the site from Ridge Road and the I-30 service road is limited and not ideal for a major retail development. Additionally, the topography of the site is not conducive for a retail development. Therefore, due to visibility, access and topography, retail is not eminent for the subject property..

The "Commercial" designation also sets forth the need for the commercial use to be "integrated with the adjacent residential neighborhoods." This policy is consistently reflected within the "Land Use Policies" of the Comprehensive Plan. Given the separation of the subject property from nearby residential uses by a railroad track, a commercial development on this property could not be integrated with the adjacent residential neighborhoods.

The proposed development does, however, satisfy further policies in the Comprehensive Plan that suggest a transition between the retail and the single-family homes to be accomplished through more condensed housing. For example, the land use policies in the Comprehensive Plan provide "general residential policies," which provide that "(h)igh density residential should be used as a transitional use from commercial (or existing retail) use, or where it will serve as a logical extension of an existing high density development." The addition of multi-family uses between the single family homes to the north and west of the Property and the commercial uses along I-30 would serve as this transition.

Another land use policy states that there should be a "blending of land uses that will result in a strong sense of community and neighborhood identity, and in the efficient use of land." As support for this policy, the Comprehensive Plan describes the current segregation of land uses in Rockwall, which "forces everyone to have to hop into a car, wind through a neighborhood and onto an already crowded arterial roadway to go even a few hundred feet away." The introduction of multifamily residential on the subject property provides a blend of horizontally mixed uses.

The land use policies also encourage the provision of a range of housing types to "accommodate different age groups, incomes and life styles," as well as to improve economic vitality. Specifically, "a greater variety of housing should be provided in specific areas of the city to accommodate a broad range of individual and family demand." Multifamily residential on the subject property would provide an additional choice of housing that could accommodate different age groups, incomes and life styles.

Notes: (11/21/2016 12:06 PM AW)
mpact fees and 4% engineering fees due prior to construction
Adhere to all engineering standards
Engineering Comments on plans.
All parking adjacent (if dimensions are to back of curb) to any building to be 20.5'x9' minimum and the other parking to be 18.5'x9' with a clear two foot overhang and 4' clear from any landscaping
No walls in any easements
All fire hydrants to be a minimum of 5' from back of curb
Need to show proposed water and sewer on site plan (when submitting for site plan approval)

CITY OF ROCKWALL
ROCKWALL COUNTY, TEXAS

CASE NO. Z2016-011

DATE: 11/18/2016

CITY OF ROCKWALL

ORDINANCE NO. 17-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO CHANGE THE ZONING FROM A COMMERCIAL (C) DISTRICT TO PLANNED DEVELOPMENT DISTRICT XX (PD-XX) FOR A MULTI-FAMILY APARTMENT COMPLEX ON THE SUBJECT PROPERTY, BEING A 17.60-ACRE TRACT OF LAND IDENTIFIED AS LOTS 6-11, BLOCK A, LA JOLLA POINTE ADDITION, PHASE 2, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Fred Hazel of Davis Development on behalf of Jim Kirby of Rockway Partners, LLC for the approval of a zoning change from a Commercial (C) District to a Planned Development District for a multi-family apartment complex on a 17.60-acre tract of land identified as Lots 6-11, Block A, La Jolla Pointe Addition, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 2. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

DRAFT 12.05.16

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Concept Building Elevations*, contained in *Exhibit 'D'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'D'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City Council, as amended by this ordinance (*including Subsections 5(b) through 5(e) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) PD Site Plan
(2) Open Space/Amenity Plan
(3) Final Plat

(c) *PD Site Plan.* A *PD Site Plan* covering all of the *Subject Property* shall be submitted and shall include a *Site Plan*, *Building Elevations*, *Treescape Plan*, *Landscape Plan* and a *Photometric Plan*. A *PD Site Plan* application may be processed by the City concurrently with an *Open Space/Amenity Plan* for the development.

(d) *Open Space/Amenity Plan.* An *Open Space/Amenity Plan* covering all of the *Subject Property* shall be submitted and shall include a detailed depiction of all proposed public and private amenities. An *Open Space/Amenity Plan* may be processed by the City concurrently with a *PD Site Plan Application* for the development.

(e) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat* for the *Subject Property* shall be submitted for approval.

Section 6. That the City Council, in accordance with Section 272.001(b) of the Texas Local Government Code, does hereby authorize the abandonment of the right-of-way for Carmel Circle (*as depicted in Exhibits 'A' & 'B' of this ordinance*) to the adjacent landowners and the Mayor is hereby authorized to issue and sign a quitclaim deed to the adjacent landowners who last appear on the current tax rolls of the City;

Section 7. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 8. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have

DRAFT
09.29.16

adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 9. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 10. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3RD DAY OF JANUARY, 2017.

Exhibit 'C':
Development Standards

1. *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Multi-Family 14 (MF-14) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

2. *Unit Composition.* The unit composition shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Table 1* below; however, in no case should the average net unit area decrease below 1,032 square feet.

Table 1: Unit Composition

Unit Name	Unit Type	Minimum Net Unit Area (SF) [1]	Number of Units (#)	Total Area (SF)	Units as Percentage (%)
A1	1 Bedroom/1 Bathroom	667 SF	33	22,011 SF	12.13%
A2	1 Bedroom/1 Bathroom	804 SF	4	3,216 SF	1.47%
A3	1 Bedroom/1 Bathroom	816 SF	39	31,824 SF	14.34%
A3-ALT	1 Bedroom/1 Bathroom	833 SF	20	16,660 SF	7.35%
A4	1 Bedroom/1 Bathroom/1 Den	975 SF	21	20,475 SF	7.72%
B1	2 Bedroom/2 Bathroom	1,083 SF	79	85,557 SF	29.04%
B2	2 Bedroom/2 Bathroom	1,175 SF	8	9,400 SF	2.94%
B3	2 Bedroom/2 Bathroom	1,245 SF	33	41,085 SF	12.13%
C1	3 Bedroom/3 Bathroom	1,445 SF	35	50,575 SF	12.87%
		Average Net Unit Area:		*1,032.36 SF*	
		Maximum Permitted Units:	*272*		*100.00%*

General Notes:
[1]: The net square footage includes only air-condition space and is exclusive of patios, balconies and exterior storage areas.

3. *Density and Dimensional Requirements.* Unless specifically provided by this Planned Development ordinance, the development standards stipulated by the Multi-Family 14 (MF-14) District and the IH-30 Overlay (IH-30 OV) District, as specified by Article V, *District Development Standards*, of the Unified Development Code are applicable to all development on the *Subject Property*. The maximum permissible density for the *Subject Property* shall not exceed *16* dwelling units per gross acre of land; however, in no case should the proposed development exceed *275* units. All lots shall conform to the standards depicted in *Table 2*, which is as follows:

Table 2: Lot Dimensional Requirements

Minimum Lot Width	60'
Minimum Lot Depth	100'
Minimum Lot Area	10,000 SF
Minimum Lot Area/Unit	2,000 SF
Minimum Front Yard Building Setback	25'
Minimum Side Yard Building Setback	10'
Minimum Rear Yard Building Setback	10'
Minimum Front Yard Carport/Parking Setback	15'
Minimum Side Yard Carport/Parking Setback	5'
Minimum Rear Yard Carport/Parking Setback	5'
Minimum Separation Between Main Buildings [(1)]	20'
Minimum Separation Between a Main Structure to an Accessory Structure	10'
Maximum Height [(2)]	62'
Maximum Lot Coverage	45%
Minimum Landscape	20%
Minimum Open Space [(3)]	20%

General Notes:
[1]: The minimum separation between two (2) main buildings without doors or windows on facing walls shall be a minimum of 15-feet.
[2]: The height of the building shall be measured from the average elevation of the finished grade along the front of the building to the highest point of the roof or parapet of the building if it is a flat, mansard or shed roof; or to the midpoint of the roof if it is gable, hip or gambrel roof.

DRAFT ORDINANCE 11-29-2016

[3]: The minimum open space area will be calculated based on the gross area of the lot, and will include both active and passive recreational areas.

4. *Parking and Loading Standards.* The parking and loading requirements shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Table 3*, which is as follows:

Table 3: Parking Requirements

Unit Name	*Unit Type*	*Parking Requirement Per Unit* [2]	*Number of Units (#)*	*Parking Requirement* [1]
A1	*1 Bedroom/1 Bathroom*	1.5	33	49.5
A2	*1 Bedroom/1 Bathroom*	1.5	4	6
A3	*1 Bedroom/1 Bathroom*	1.5	39	58.5
A3-ALT	*1 Bedroom/1 Bathroom*	1.5	20	30
A4	*1 Bedroom/1 Bathroom/ 1 Den*	1.5	21	32.5
B1	*2 Bedroom/2 Bathroom*	2	79	158
B2	*2 Bedroom/2 Bathroom*	2	8	16
B3	*2 Bedroom/2 Bathroom*	2	33	66
C1	*3 Bedroom/3 Bathroom*	2.5	35	87.5
			Parking Requirements:	504

General Notes:

[1]: Tandem parking spaces (*i.e. parking spaces in front of garages*) are *NOT* be permitted; however, the proposed garage parking spaces may count toward the parking requirement.

[2]: This table is subject to change based on the proposed development; however, all one (1) bedroom units shall provide a minimum of 1.5 parking spaces/unit, all two (2) bedroom units shall provide a minimum of two (2) parking spaces/unit and all three (3) bedroom units shall provide a minimum of 2.5 parking spaces/unit.

5. *Building Standards.* The building elevations shall generally conform to the *Concept Building Elevations* depicted in *Exhibit 'D'*; however, all development shall adhere to the following building standards:

(a) *Masonry Requirements.* The minimum masonry requirement for the exterior façades of all buildings shall be 90%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the exterior of the building; however, stucco may not be used within the first four (4) feet above grade on a façade visible from a public street or open space. A minimum of 20% natural stone is required on all building façades.

(b) *Roof Design Requirements.* All buildings shall be designed such that no roof mounted mechanical equipment (*i.e. HVAC, satellite, vents, etc.*) shall be visible from any direction. *Note: Screening of mechanical equipment is necessary for all equipment regardless of location (i.e. roof mounted, ground mounted, or otherwise attached to the building and/or located on the site).*

Screening of roof mounted mechanical equipment and/or other rooftop appurtenances shall be accomplished through the construction of an architectural feature, which is integral to the building's design and ensures that such equipment is not visible from adjacent public rights-of-way.

(c) *Architectural Requirements.* All buildings shall be architecturally finished on all four (4) sides with the same materials, detailing and features. In addition, all buildings shall be subject to the architectural requirements of the IH-30 Overlay (IH-30 OV) District contained in Section 6, *Overlay Districts*, of Article V, *District Development Standards*, of the Unified Development Code.

6. *Landscaping and Hardscaping Standards*.

DRAFT NOT FOR APPROVAL 10/6/2016

(a) *Landscape Requirements.* Landscaping shall be reviewed and approved with the *PD Site Plan*. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height. The following tree species are approved for planting within this development:

i) *Canopy/Shade Trees*. Afghan Pine, Bald Cypress, Bur Oak, Cedar Elm, Eastern Red Cedar, Homestead Elm, Lacebark Elm, Little Gem Magnolia, Live Oak, October Glory Maple, Red Oak, Texas Ash, Texas Red Oak.

ii) *Accent/Ornamental/Under-Story Trees*. Desert Willow, Eastern Redbud, Eves Necklace, Mexican Buckeye, Possumhaw Holly, Shangtung Maple, Yaupon Holly.

(b) *Landscape Buffers.* A minimum of a ten (10) foot landscape buffer shall be provided along the frontage of La Jolla Pointe Drive, and shall incorporate a minimum of one (1) canopy tree per 50-feet of linear frontage. The developer shall also be responsible for the construction of sidewalks and trails required along La Jolla Pointe Drive.

(c) *Parking Lot Landscaping.* All parking lot landscaping shall conform to the requirements of Article VII, *Landscape Standards*, of the Unified Development Code with the exception of the following:

i) One (1) canopy tree per ten (10) parking spaces shall be provided. Trees shall be planted within the required parking islands or within 20-feet of a parking space.

ii) Parking island shall be provided at a spacing not exceed a maximum distance of 20 parking spaces.

(d) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect.

(e) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the *PD Site Plan* and/or *Opens Space/Amenity Plan*.

7. *Trash Receptacles.* Trash and recycling receptacles shall be four (4) sided, with eight (8) foot walls constructed and cladded with materials matching the primary structures, and have a self-latching gate. All trash and recycling receptacles shall be internal to the site and not be situated within any established building setbacks or landscape buffers.

8. *Fence Standards*. Fences located along the perimeter of roadways, abutting open spaces, greenbelts and parks shall be required to be wrought iron or a tubular steel fence. Wrought iron/tubular steel fences can be a maximum of eight (8) feet in height.

9. *Variances*. The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

SP2016-025 Somerset Park Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 Discuss and consider a request by Christopher Orr of Arcadia Lakes of Somerset Holdings, LLC for the approval of a site plan for Phase 1 of the Somerset Park Subdivision, containing 144 single-family residential lots on a 56.276-acre tract of land being a portion of a larger 139.354-acre tract of land identified as Tracts 1 & 7 of the A. Johnson Survey, Abstract No. 123, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 63 (PD-63) for Single Family 10 (SF-10) District land uses, situated within the SH-205 Overlay (SH-205 OV) District, located at the northeast corner of the Intersection of FM-549 and S. Goliad Street (SH-205), and take any action necessary.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (SP2016-025) in the lower right hand corner of all pages on future submittals.
M.4 Please provide overall site plan and landscape plan
I.6 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by December 6, 2016. The Planning & Zoning date for this case will be November 29, 2016. The Park Board Meeting will be December 14, 2016.
I.7 The projected City Council meeting date and subsequent approval for this plat is December 5, 2016

GENERAL SITEWORK NOTES:

1) THE CONTRACTOR SHALL BE FAMILIAR WITH EXISTING SITE CONDITIONS AND UNDERGROUND UTILITIES, PIPES AND STRUCTURES. THE CONTRACTOR SHALL TAKE SOLE RESPONSIBILITY OF ANY COST INCURRED DUE TO BODILY INJURY AND/OR DAMAGE OF OWNER'S PROPERTY OR SAID UTILITIES. THE CONTRACTOR IS RESPONSIBLE FOR CONTACTING UTILITY COMPANIES BEFORE EXCAVATION.

2) ALL CONFLICTING INFORMATION SHALL BE BROUGHT TO THE ATTENTION OF THE LANDSCAPE ARCHITECT.

3) THE CONTRACTOR SHALL NOT WILLFULLY PROCEED WITH CONSTRUCTION AS DESIGNED WHEN OBSTRUCTIONS AND/OR GRADE DIFFERENCES EXIST THAT MAY HAVE NOT BEEN KNOWN DURING DESIGN. SUCH CONDITIONS SHALL BE IMMEDIATELY BROUGHT TO THE ATTENTION OF THE LANDSCAPE ARCHITECT. THE CONTRACTOR SHALL ASSUME FULL RESPONSIBILITY FOR ALL NECESSARY REVISIONS DUE TO FAILURE TO GIVE SUCH NOTIFICATION.

4) THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL COORDINATION WITH HIS SUBCONTRACTORS TO ACCOMPLISH HIS SCOPE OF WORK. THE CONTRACTOR SHALL COORDINATE CONSTRUCTION WITH OTHER TRADES WORKING ON THE SITE SIMULTANEOUSLY.

5) THE CONTRACTOR IS RESPONSIBLE FOR LOCATING AND PROTECTING EXISTING IRRIGATION AND LANDSCAPE ON SITE FROM ANY DAMAGE. THE CONTRACTOR SHALL NOTIFY THE LANDSCAPE ARCHITECT OF ANY CONFLICTS IMMEDIATELY.

6) THE CONTRACTOR SHALL NOTIFY THE OWNER AND LANDSCAPE ARCHITECT 48 HOURS PRIOR TO THE COMMENCEMENT OF WORK TO COORDINATE PROJECT INSPECTION SCHEDULES.

7) THE CONTRACTOR SHALL BE RESPONSIBLE FOR FIELD VERIFICATION OF EXISTING CONDITIONS, AND SHALL PERFORM FIELD MEASUREMENTS PRIOR TO FABRICATION AND/OR PURCHASE OF ANY MATERIAL. THE CONTRACTOR SHALL CONTACT THE LANDSCAPE ARCHITECT SHOULD EXISTING CONDITIONS BE DIFFERENT FROM THE DESIGN DRAWINGS FOR THIS PROJECT. ALL CONFLICTS ARISING DUE TO LACK OF COORDINATION SHALL BE THE RESPONSIBILITY AND THE EXPENSE OF THE CONTRACTOR.

8) ANY REQUIRED CHANGES TO THE DRAWINGS RESULTING FROM THE ACCEPTANCE OF THE CONTRACTOR'S ALTERNATES AND/OR SUBSTITUTIONS ARE THE RESPONSIBILITY OF THE CONTRACTOR AND SHALL BE SUBMITTED TO THE LANDSCAPE ARCHITECT AND THE OWNER FOR APPROVAL.

9) THE CONTRACTOR SHALL COORDINATE THE STORAGE OF MATERIALS, PARKING OF VEHICLES AND RESTRICTIONS OF WORK WITH THE OWNER. UNDER NO CIRCUMSTANCES SHALL ANY CONTRACTOR STORE MATERIALS OR PARK VEHICLES UNDER THE CANOPY OF EXISTING TREES.

10) THE CONTRACTOR SHALL COMPLY WITH ALL APPLICABLE FEDERAL, STATE, AND LOCAL LAWS, ORDINANCES & CODE REQUIREMENTS. REQUIRED PERMITS SHALL BE OBTAINED BY THE CONTRACTOR.

11) THE CONTRACTOR SHALL PROVIDE UNIT PRICES BASED UPON THE QUANTITIES SHOWN WITHIN THE DOCUMENTS. FIELD CONDITIONS MAY REVISE ACTUAL LOCATION, INCREASING OR DECREASING THE EXTENT OF WORK BID. CHANGES TO THE EXTENT OF WORK RESULTING IN AN INCREASE WILL BE BASED ON UNIT PRICES AND PERFORMED SUBJECT TO APPROVAL OF THE LANDSCAPE ARCHITECT AND THE OWNER IN THE FORM OF A CHANGE ORDER.

12) THE CONTRACTOR SHALL PROVIDE ALL LABOR, MATERIALS AND SUPERVISION NECESSARY TO ACCOMPLISH THE WORK AS SHOWN AND NOTED ON THE DRAWINGS UNLESS OTHERWISE SPECIFIED.

13) THE CONTRACTOR IS RESPONSIBLE FOR PROVIDING AND SERVICING TEMPORARY TOILET FACILITIES.

14) ALL CONTRACTORS AND SUBCONTRACTORS ARE RESPONSIBLE FOR REMOVAL OF TRASH AND REPAIR OF HAZARDOUS CONDITIONS (TOOL, OPEN HOLES, ETC.) ON A DAILY BASIS BY END OF WORK DAY. REMOVE ALL EXCESSIVE DIRT BUILD UP ON HAUL ROUTE AS REQUIRED DAILY AND BY NOON EVERY FRIDAY.

15) UPON COMPLETION OF CONSTRUCTION AND PRIOR TO FINAL APPROVAL, THE CONTRACTOR SHALL THOROUGHLY CLEAN UP THE PROJECT SITE OF ALL TRASH, SCRAP, BRICK PIECES, MORTAR AND LITTER, ETC. AND REPAIR ALL DAMAGE TO FINISH GRADE INCLUDING TAILINGS FROM EXCAVATIONS, WHEEL RUTS, ETC., CAUSED BY CONSTRUCTION.

16) PROVIDE EXPANSION AND/OR ISOLATION JOINTS IN ALL CASES WHERE CONCRETE FLATWORK MEETS VERTICAL STRUCTURES SUCH AS WALLS, CURBS, STEPS AND BUILDINGS, OR WHERE CONCRETE ABUTS UTILITY VAULTS OR BOXES.

LAYOUT NOTES:

1) THE CONTRACTOR IS RESPONSIBLE FOR LOCATING AND PROTECTING ALL EXISTING UTILITIES.

2) ALL DIMENSIONS MUST BE VERIFIED ON-SITE. THE CONTRACTOR IS RESPONSIBLE FOR NOTIFYING THE LANDSCAPE ARCHITECT OF ANY DISCREPANCIES BEFORE PROCEEDING WITH THE WORK.

3) ALL DIMENSIONS ARE TAKEN PERPENDICULAR TO WALL, CURB, P.O.B., OR CENTERLINE UNLESS OTHERWISE NOTED. DIMENSIONS AT CURB ARE FROM BACK OF CURB.

4) VERIFY LOCATIONS OF ALL SITE IMPROVEMENTS INSTALLED UNDER OTHER SECTIONS. IF ANY PART OF THIS PLAN CANNOT BE FOLLOWED DUE TO SITE CONDITIONS CONTACT THE LANDSCAPE ARCHITECT FOR INSTRUCTION PRIOR TO COMMENCING WORK.

5) WRITTEN DIMENSIONS TAKE PRECEDENCE OVER SCALE. DO NOT SCALE DRAWINGS.

6) THESE DRAWINGS INCLUDE THE REFERENCE TO THE LOCATION OF VARIOUS MECHANICAL, ELECTRICAL, AND CIVIL DEVICES. COORDINATE CONSTRUCTION, DETAILS AND UTILITY CONNECTIONS WITH RELATED ARCHITECTURAL AND ENGINEERING DRAWINGS. CONFIRM LOCATIONS WITH THE LANDSCAPE ARCHITECT PRIOR TO ROUGH IN.

7) REFERENCE CIVIL DRAWINGS FOR LAYOUT, GRADES, DETAILS OF VEHICULAR DRIVES, ROADS, PARKING AND ALL CURBS (UNLESS NOTED OTHERWISE).

8) THE SITE BASE INFORMATION & ROADWAY LAYOUT ARE FROM COMPUTER BASE DATA SUPPLIED BY JONES & CARTER.

Discuss and consider a request by Tim Seymore of Seymore Custom Homes, LLC on behalf of James & Robin Meade for the approval of a site plan for the constructior of a commercial/industrial building on an existing 1.5-acre commercial/industrial facility identified as Tract 2-20 of the J. R. Johnson Survey, Abstract No. 128, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, addressed as 242 National Drive, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 11.21.2016

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans (if required) prior to issuance of a Certificate of Occupancy (CO).
3. Label site plan documents with "Case No. SP2016-026" at the lower right corner of each revised plan.

EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:
1. Art V, Sec. 4.1.A.1 requires each exterior wall to consist of 90% masonry materials,..., including 20% stone on walls which are visible from a public street or open space. North, South, East & West elevations require a minimum 20% stone and do not meet this standard.
2. Art V, Sec. 4.1.A.1 requires each exterior wall to consist of 90% masonry materials,..., on walls which are visible from a public street or open space. North, South, East & West elevations do not provide a minimum 90% masonry material and exceed 10% secondary materials with the use of metal wall panels.

** Approval of exceptions to the exterior materials requested requires passage by a simple majority vote of City Council. **

Please addressthe following Planning Comments for each plan submitted:

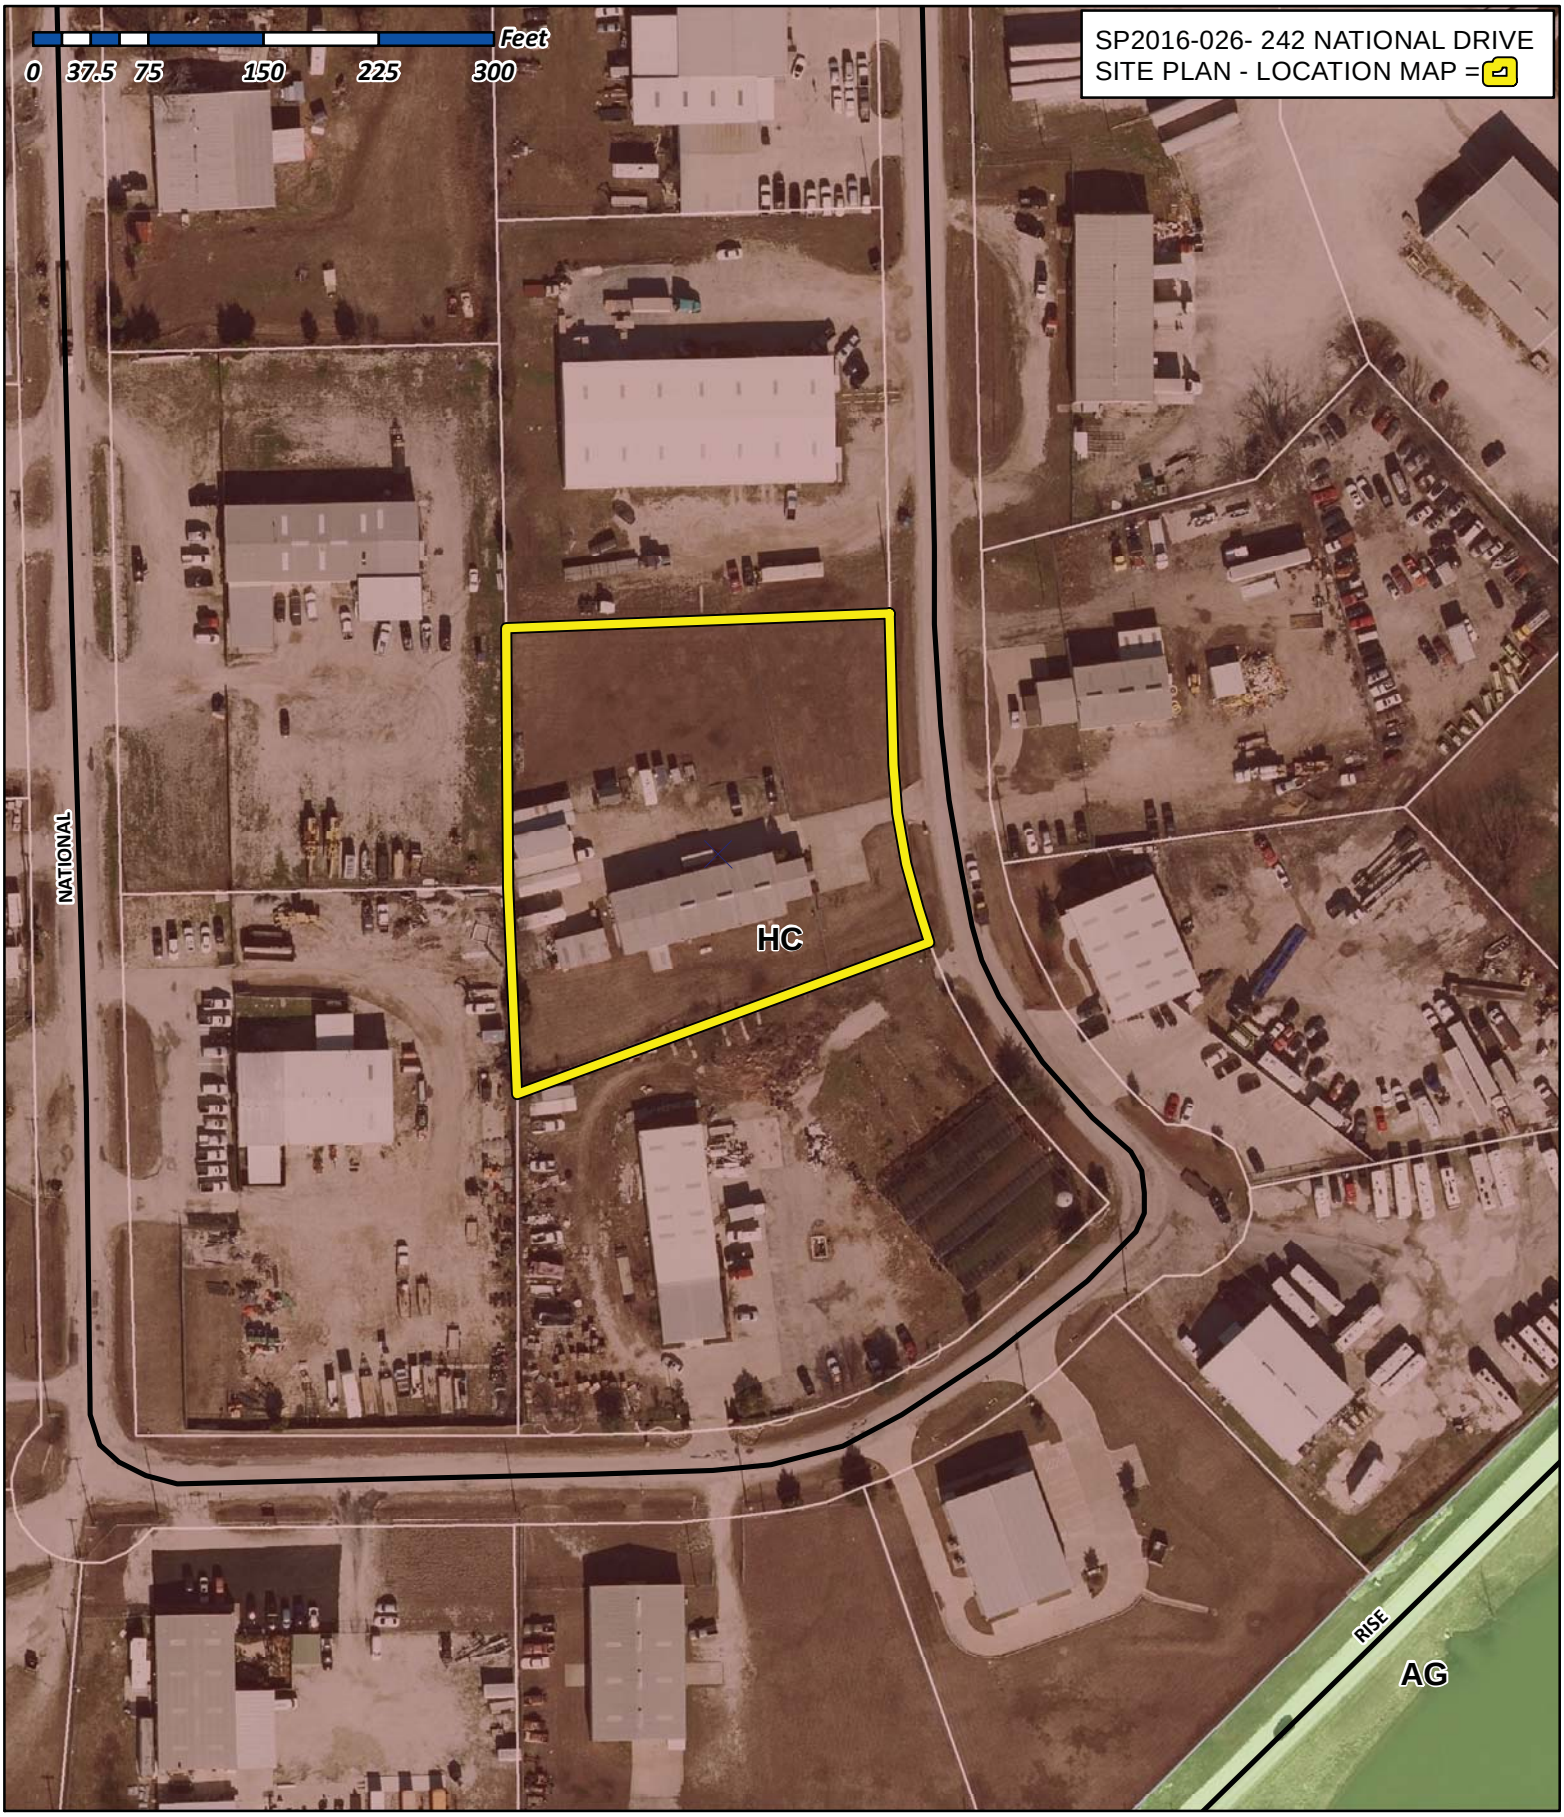
Site Plan:
OK as submitted.

Landscape Plan:
1. Are you providing any (additional) landscapeing?

Photometric Plan:
1. Will there be any additional exterior lighting (wall packs, poles, etc.) for the proposed building/site? If so, please provide a photometric plan for the new lighting fixtures meeting city standards.
2. Additional lighting pole standards are not to exceed a maximum overall heightof 30-ft (includes pole, base, fixtures, etc.) per the UDC standards. Provide detail.
3. Provide cut sheets for all exterior lighting fixtures (e.g. pole lights, wall packs, etc.)
4. Any additional lighting sources are to be directed down and sheilded with a full cut-off or partial cut-off source and a maximum 1 inch reveal in order to control glare.
5. Maximum lighting intensity at the property line is not to exceed 0.2-FC. Resubmit photometric plan and indicate readings to all property lines and in compliance with UDC (i.e. 0.2-FC)

Building Elevations:
1. What type of metal wall paneling is being used for the exterior of the proposed structure?
2. Approval of the exceptions to the exterior material standards is required by the City Council as indicated above.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

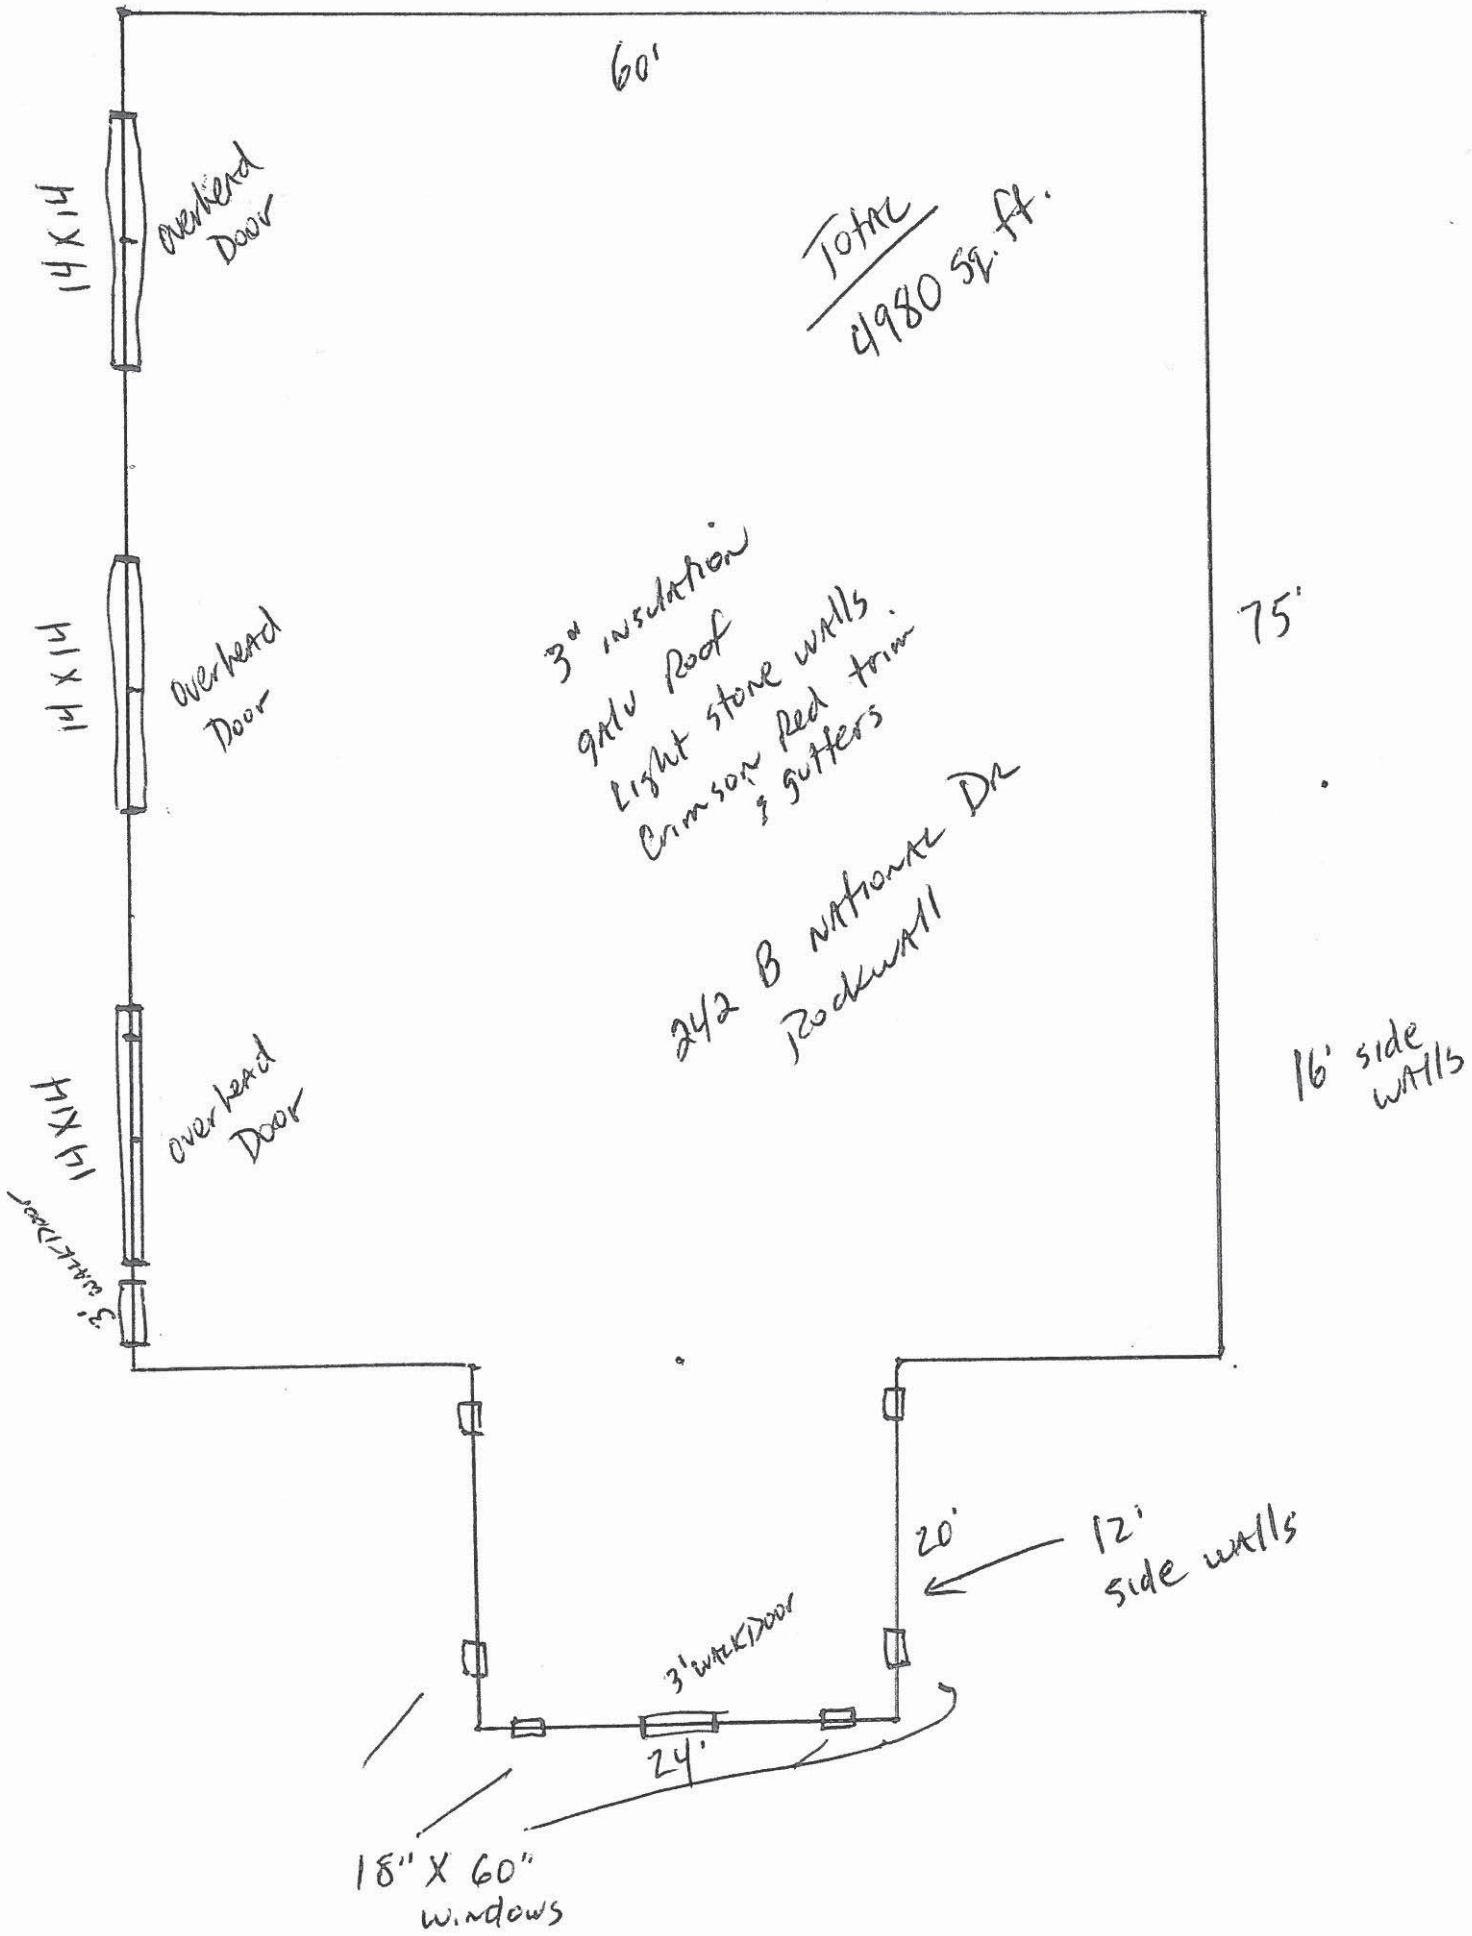


The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: November 29, 2016 (6:00p.m.) [applicant to present case to P&Z for discussion].

Planning - Action: December 13, 2016 (6:00p.m.) [P&Z totake action (i.e. approve, approve with conditions, etc.)



City Council - Action: December 19, 2016 (6:00 p.m.) [FOR VARIANCE & EXCEPTION REQUEST ONLY]

SITE/GRADING PLAN

DESCRIPTION

BEING Lot 3, Block B of ROCKWALL 205 BUSINESS PARK ADDITION, an Addition to the City of Rockwall, Rockwall County, Texas, according to the Plat thereof recorded in Cabinet C, Slide 8, of the Plat Records of Rockwall County, Texas.

NOTES

1) According to F.E.M.A. Flood Insurance Rate Map. Community Panel No. 48397C0040 L dated Sept. 26, 2008, this property lies in Zone X. This property does not appear to lie within a 100-year flood plain.

2) BEARING SOURCE: RECORDED PLAT.

3) ALL 1/2" IRS ARE CAPPED WITH YELLOW PLASTIC CAPS "RPLS 5034."

SURVEYOR'S CERTIFICATE

I, Harold D. Fetty, III, Registered Professional Land Surveyor No. 5034, do hereby certify that the above plat of the property surveyed for TIM SEYMORE at 242 NATIONAL DRIVE, ROCKWALL, ROCKWALL County,Texas, is the result of a careful collection of the best evidence available to me and my opinion is based on the facts as found at the time of survey. This survey meets the requirements of the Minimum Standards of Practice as approved and published by the Texas Board of Professional Land Surveying, effective September 1, 1992 and subsequent revisions, and the same was surveyed under my supervision on the ground this the 29th day of February, 2016.

Harold D. Fetty III, R.P.L.S. No. 5034

Discuss and consider a request by William Baker of Jones Baker on behalf of Elias Pope of 8020 Restaurants, LLC for the approval of amended site plan for a restauran on a 0.90-acre parcel of land identified as Lot 3, Block A, Harbor District Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the IH-30 Overlay (IH-30 OV) District, located at the southeast corner of the IH-30 Frontage Road and Sunset Ridge Drive, and take any action necessary

PLANNING COMMENTS - DAVID GONZALES - 11.21.2016

Any additional comments are to be addressed and resubmitted ASAP. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a final/subsequent review by staff:

Planning Department General Comments to be addressed and will be considered as a conditions of approval:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Label revised site plan documents with "Case No. SP2016-027" at the lower right corner of each plan.
3. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO). Plat mylars are to be submitted prior to issuance of building permit.

VARIANCES AND EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:

** 1. Art V, Sec. 6.6.C.1a of the IH-30 OV requires each exterior wall to consist of 90% masonry materials,..., including 20% natural or stone on walls which are visible from a public street or open space. The elevations do not indicate the use of a natural or quarried stone material and do not meet this requirement.
** 2. Art V, Sec. 6.6.C.1b of the IH-30 OV requires secondary material used on the facade of a building to comprise less than 10% of an elevations area. The elevations exceed 10% for one or more of the following materials - wood screen, metal panels, and tile elements - as follows: West (42.7%), South (48%), and East (19.1%).

** Approval of the variance requested to the 205 BY-OV requires passage by a 3/4 majority vote of those Council members present.

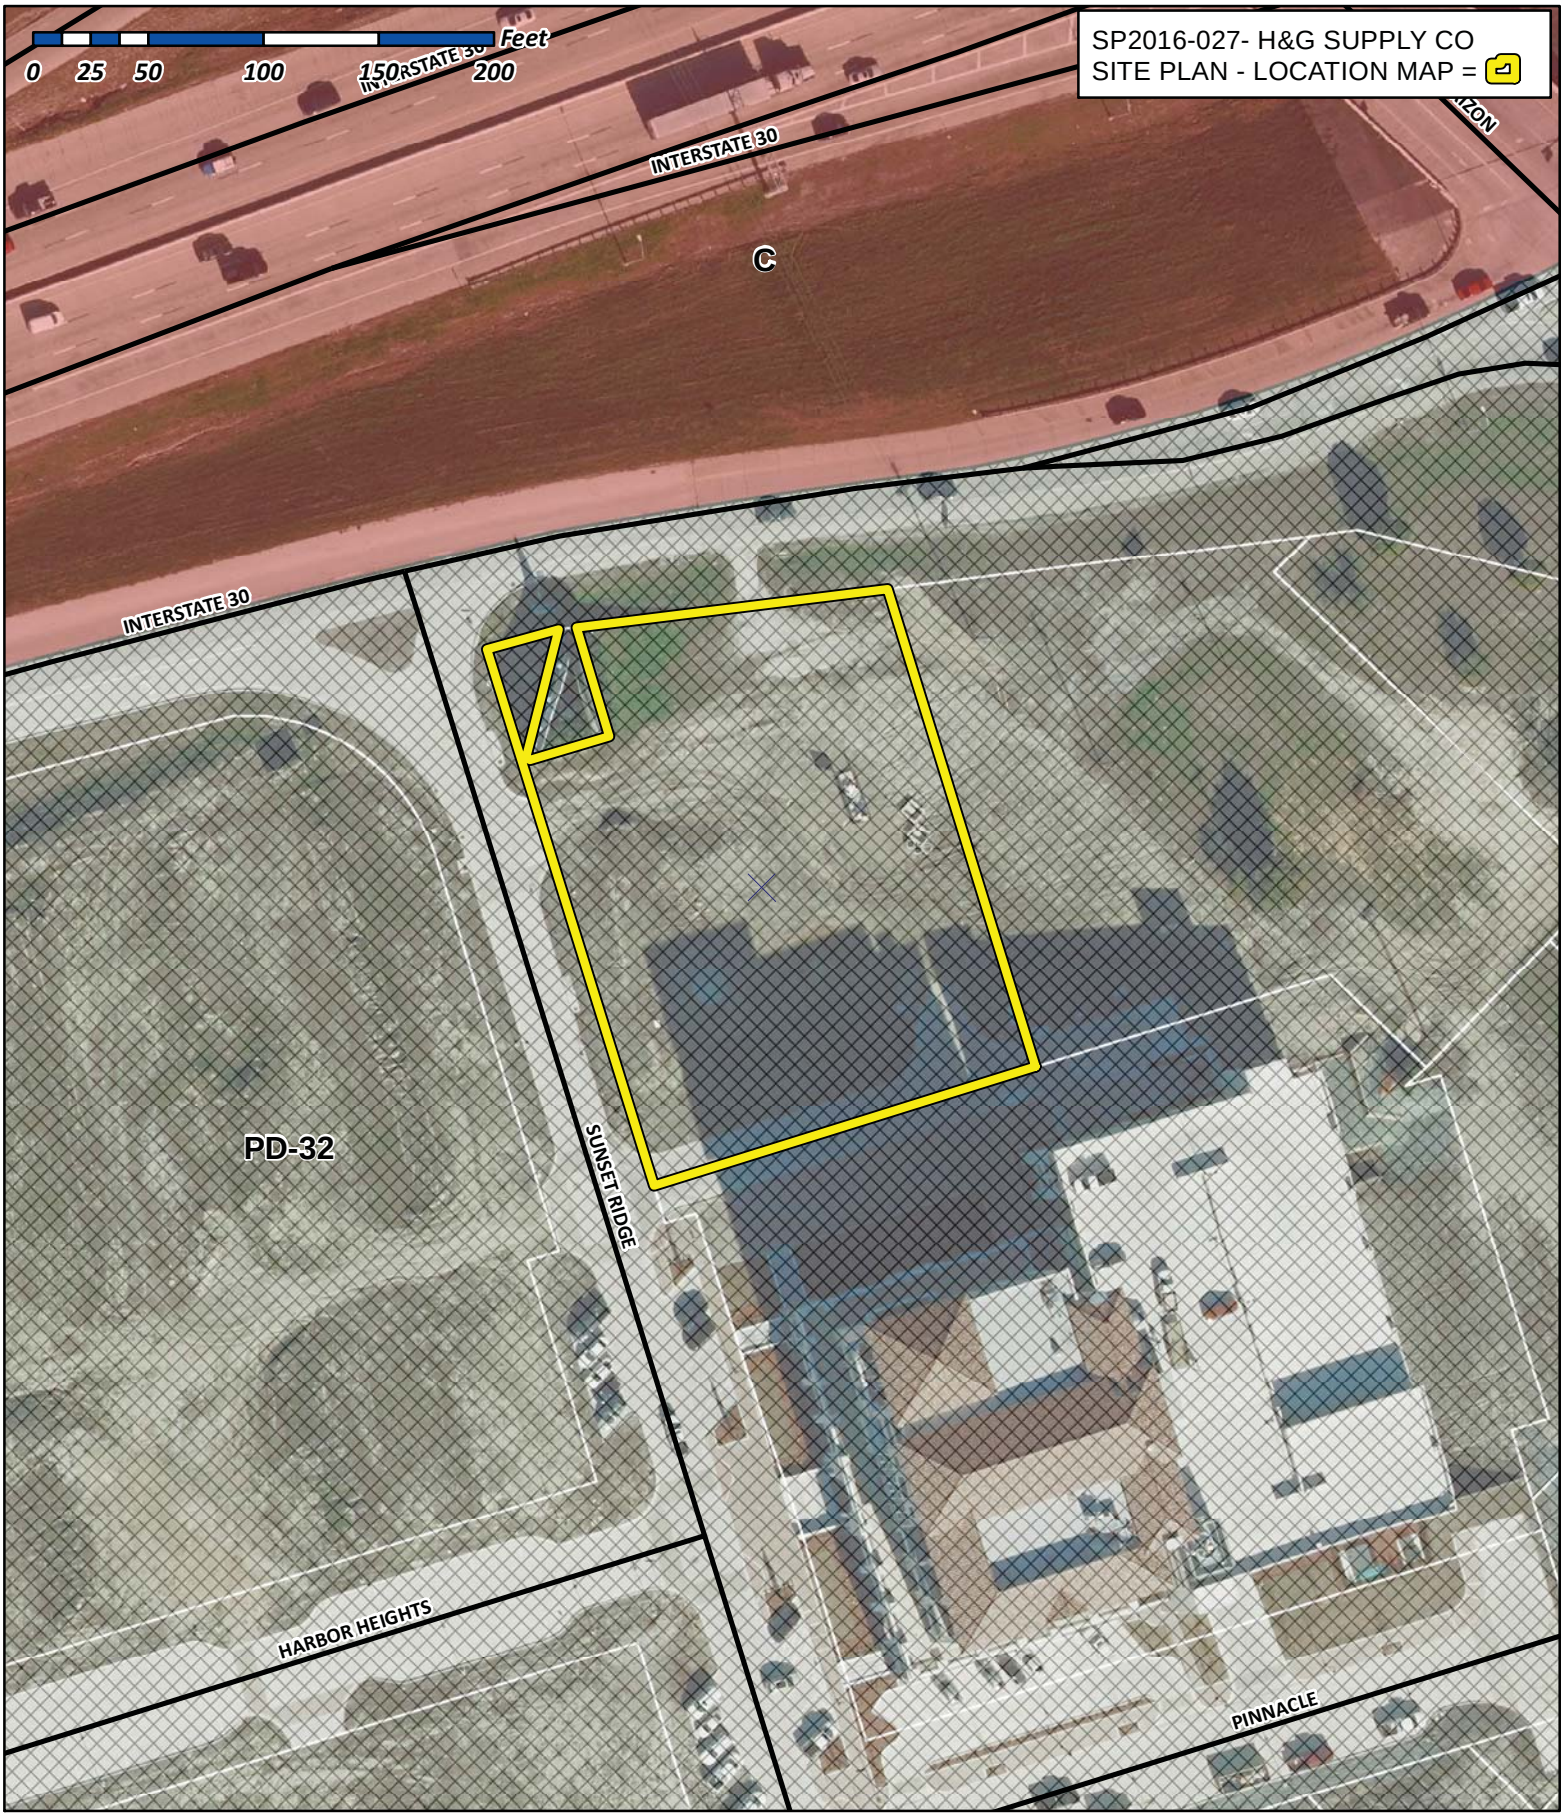
Site Plan:
OK as submitted.

Building Elevations:
1. Variances for the items as indicated above.

Landscape Plan:
OK as submitted.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

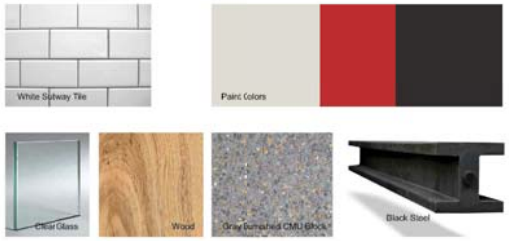


ARB - Review: November 29, 2016 (5:00 p.m.) [ARB to forward recommendation to P&Z]

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

Planning - Work Session: November 29, 2016 (6:00p.m.) [applicant to present case to P&Z for discussion].

Planning - Action: December 13, 2016 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, etc.)



City Council - Action: December 19, 2016 (6:00 p.m.) [FOR VARIANCE & EXCEPTION REQUEST ONLY]

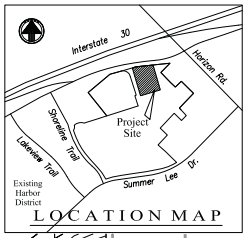
LANDSCAPE IRRIGATION WARRANTEE

1. LANDSCAPE CONTRACTOR SHALL WARRANTEE ALL PLANT MATERIAL FOR A PERIOD OF ONE YEAR FROM TIME OF FINAL ACCEPTANCE AND PAYMENT OF THE COMPLETED WORK.
2. IRRIGATION SYSTEM SHALL BE WARRANTED FOR ONE YEAR PARTS AND LABOR FOR NEW ITEMS.

IRRIGATION AFFIDAVIT

ALL REQUIRED LANDSCAPE AREAS SHALL BE PROVIDED WITH AN AUTOMATIC UNDERGROUND IRRIGATION SYSTEM WITH RAIN AND FREEZE SENSORS AND EVAPOTRANSPORATIVE (ET) WEATHER BASED CONTOLLERS AND SAID IRRIGATION SYSTEM SHALL BE DESIGNED BY A QUALIFIED PROFESSIONAL AND INSTALLED LICENSED IRRIGATOR.

CITY OF ROCKWALL MAINTENANCE NOTE;

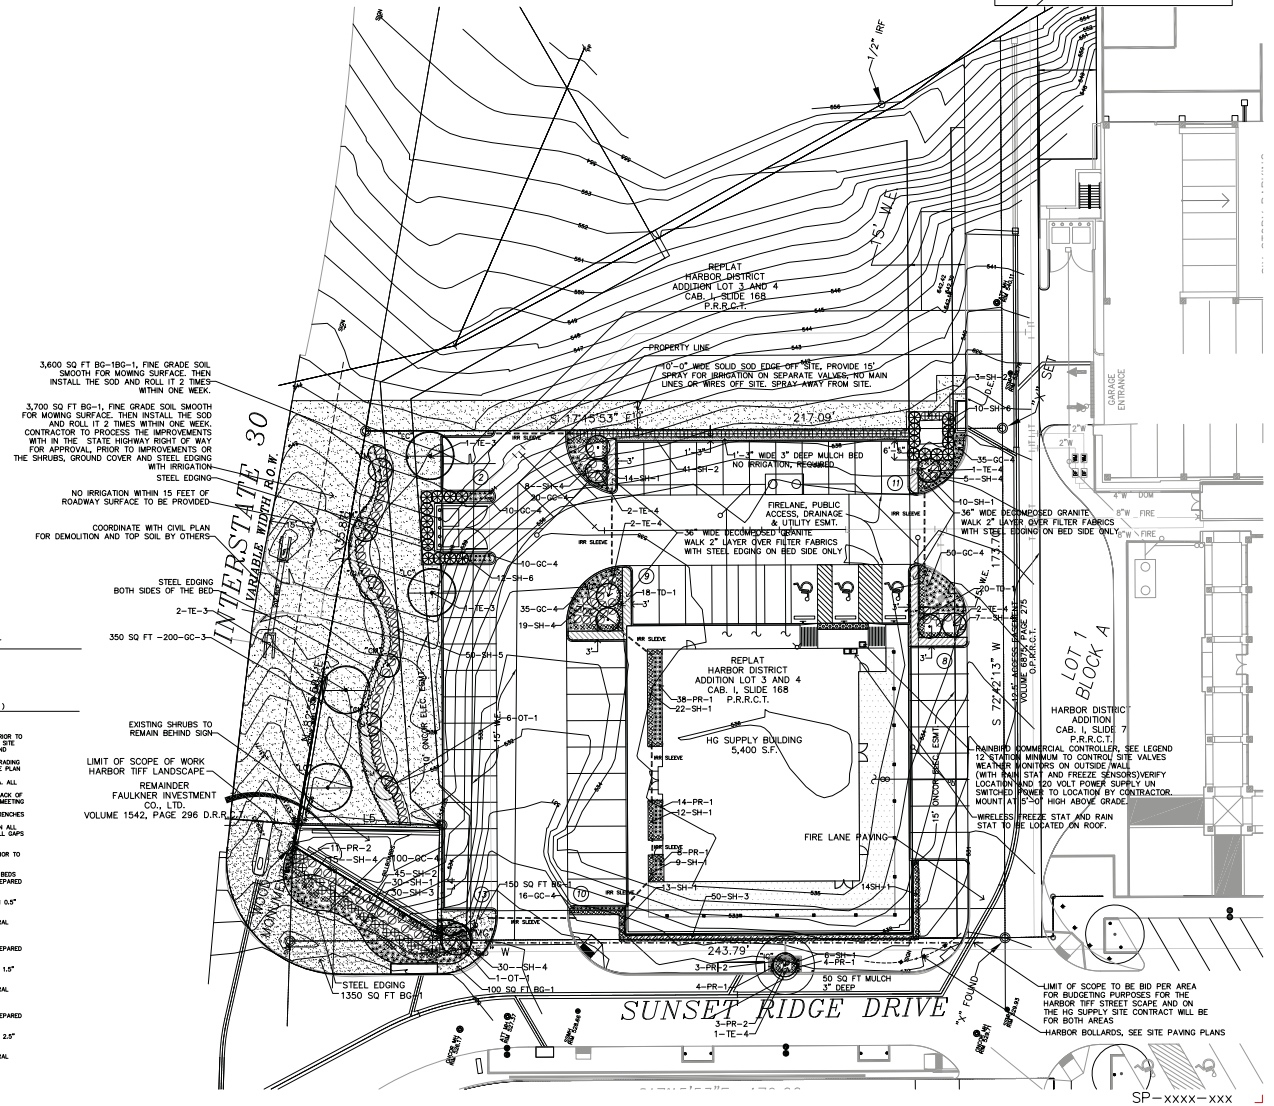


MAINTENANCE: THE CURRENT OWNER AND SUBSEQUENT OWNERS OF THE LANDSCAPED PROPERTY, OR MANAGER OR AGENT OF THE OWNER, SHALL BE RESPONSIBLE FOR MAINTENANCE OF THE LANDSCAPED AREAS. ALL LANDSCAPING AND BUFFER YARD MATERIALS SHALL BE MAINTAINED IN A HEALTHY, NEAT AND ORDERLY APPEARANCE AT ALL TIMES AND SHALL BE KEPT FREE OF REFUSE AND DEBRIS. MAINTENANCE WILL INCLUDE REPLACEMENT OF ALL DEAD PLANT MATERIAL IF THAT MATERIAL WAS USED TO MEET THE REQUIREMENTS OF THE UDC. ALL SUCH PLANTS SHALL BE REPLACED WITHIN SIX (6) SIX MONTHS OF NOTIFICATION, OR BY THE NEXT PLANTING SEASON, WHICH EVER COMES FIRST. A PROPERTY/HOMEOWNERS ASSOCIATION MAY ASSUME RESPONSIBILITY FOR MAINTENANCE OF COMMON AREAS.

ROOT BARRIERS AT UTILITIES AND PAVING EDGES

1. NO TREE SHALL BE PLANTED WITHIN 5 FEET OF ALL UTILITIES WATER, SEWER, ELEC, CABLE, STORM, ECT.
2. ROOT BARRIERS ARE REQUIRED ON ALL TREES WITHIN UTILITY EASEMENTS AND AT EDGE OF PAVING WITHIN 5 FEET. PROVIDE ON ALL TREES SHOWN, UNLESS NOTED
3. DEEP ROOT BARRIERS, 1-800-458-7668, INSTALL UB-48-2 PER SPECIFICATIONS AT EACH TREE ON SIDE OF PAVING OR UTILITY. INCLUDE 4" WIDE TRENCH OF 3/4" DRAIN GRAVEL ON OUT SIDE OF BARRIER, 24" DEEP. BARRIER TO EXTEND 1" ABOVE GRADE.

TEXAS EXCAVATION SAFETY SERVICES 1-800-344-8377



LOCATION MAP

GRAPHIC SCALE 1"=20' , 20 SCALE

PLANT MINIMUM CRITERIA STATEMENT

1. PLANTS ARE REQUIRED TO MEET MINIMUM SPECIFICATIONS OF THE AMERICAN STANDARD FOR NURSERY STOCK" PUBLISHED BY THE AMERICAN NURSERY & LANDSCAPE ASSOCIATION, MAY 12, 204, AND RECOMMENDED BY THE TEXAS NURSERY & LANDSCAPE ASSOCIATION.

SOIL AMENDMENT NOTES; (LISTED FOR BASE BID)

INCLUDE THE NOTES BELOW AND LANDSCAPE SPECIFICATIONS IN SHEET L2-02

SOIL PREPARATION FOR GRASS AREAS ON SITE.
1. SPRAY ROUND UP TWO TIMES IN HEAT OVER 70 DEGREES OR MANUALLY REMOVE THE EXISTING BERMUDA GRASS, TWO WEEKS PRIOR TO SITE WORK AND IRRIGATION SYSTEM INSTALLATION FOR THE TOTAL SITE AREA. CONTINUE TO REVIEW AND REMOVE ALL BERMUDA GRASS AND WEEDS FROM THE SITE DURING CONSTRUCTION.
2. TILL IN TO DEPTH OF 12" AFTER THE CLEAN UP PER THE APPROVED GRADING AND DRAINAGE PLANS FOR THE SITE. THE SUB-2 CONTRACTOR HAS THE PLAN ON FILE, OR CALL FOR A PDF FILE.
3. REMOVE ALL DEBRIS FROM SITE. ROCKS AND TILES OVER 1" DIA. ALL EXTRA CONCRETE, FORM BOARDS.
4. HAND RAKE SOIL SMOOTH AND SHAPE BEDS AND EDGES OF BACK OF CURB PER LANDSCAPE ARCHITECTS DIRECTIONS. CALL TO SET UP MEETING PRIOR TO ACCEPTANCE OF THE FINAL GRADE.
5. AFTER IRRIGATION SYSTEM INSTALLATION. WATER SETTLE ALL TRENCHES AND RAKE SMOOTH FOR FINISHED GRADES FOR THE SITE.
6. INSTALL SOD SOD GRASS, ALLOWING FOR TIGHT JOINTS BETWEEN ALL SECTIONS OF SOD, DO NO LEAVE GAPS OR ADD AZALEA MIX IN ALL GAPS OVER 0.5" TO FILL IN AFTER SODDING IF GAPS REMAIN.
7. WATER AND ROLL THE SOD TWO TIMES.
8. IN BASE BID ALLOW FOR ONE (1) TIME MOWING AND EDGING PRIOR TO FINAL ACCEPTANCE.

SOIL PREPARATION FOR 4" POTS AND 1 GALLON GROUND COVER BEDS.
1. SOIL AMENDMENTS. EXCAVATE BEDS OR ALLOW FOR 4" SOIL PREPARED BY LIVING EARTH TECHNOLOGY OR EQUAL.
2. TILL IN TO DEPTH OF 8" AND MIX WITH NATIVE SOIL.
3. INSTALL BEDDING PLANTS SETTING THE TOP OF BALLS, MINIMUM 0.5" ABOVE SOIL GRADE.
4. MULCH 3" WITH FINE PINE BARK MULCH OR HARDWOOD MULCH.
5. IN BASE BID ALLOW FOR FINE PRUNING AS REQUIRED BY GENERAL CONTRACTOR PRIOR TO FINAL ACCEPTANCE.

SOIL PREPARATION FOR 3 GALLON AND 5 GALLON SHRUB BEDS
1. SOIL AMENDMENTS. EXCAVATE BEDS OR ALLOW FOR 6" SOIL PREPARED BY LIVING EARTH TECHNOLOGY OR EQUAL.
2. TILL IN TO DEPTH OF 12" AND MIX WITH NATIVE SOIL.
3. INSTALL SHRUBS PLANTS SETTING THE TOP OF BALLS, MINIMUM 1.5" ABOVE SOIL GRADE.
4. MULCH 3" WITH FINE PINE BARK MULCH OR HARDWOOD MULCH.
5. IN BASE BID ALLOW FOR FINE PRUNING AS REQUIRED BY GENERAL CONTRACTOR PRIOR TO FINAL ACCEPTANCE.

SOIL PREPARATION FOR 25 GALLON AND 65 GALLON SHRUB BEDS
1. SOIL AMENDMENTS. EXCAVATE BEDS OR ALLOW FOR 8" SOIL PREPARED BY LIVING EARTH TECHNOLOGY OR EQUAL.
2. TILL IN TO DEPTH OF 16" AND MIX WITH NATIVE SOIL.
3. INSTALL SHRUBS PLANTS SETTING THE TOP OF BALLS, MINIMUM 2.5" ABOVE SOIL GRADE.
4. MULCH 3" WITH FINE PINE BARK MULCH OR HARDWOOD MULCH.
5. IN BASE BID ALLOW FOR FINE PRUNING AS REQUIRED BY GENERAL CONTRACTOR PRIOR TO FINAL ACCEPTANCE.

SOIL PREPARATION FOR 100 GALLON AND LARGER TREES
1. SEE TREE PLANTING ON LA-2.

ROCKWALL, TX 75032

L1-01

LANDSCAPE SPECIFICATIONS

SECTION 02900

PART 1 GENERAL

1.1 REFERENCED DOCUMENTS
A. REFER TO BIDDING REQUIREMENTS, SPECIAL PROVISIONS, AND SCHEDULES FOR ADDITIONAL REQUIREMENTS.

1.2 DESCRIPTION OF WORK
A. WORK INCLUDED: FURNISH ALL SUPERVISION, LABOR, MATERIALS, SERVICES, EQUIPMENT AND APPLIANCES REQUIRED TO COMPLETE THE WORK COVERED IN CONJUNCTION WITH THE LANDSCAPING COVERED IN THE SPECIFICATIONS AND LANDSCAPE PLANS, INCLUDING:
1. PLANTING (TREES, SHRUBS, GROUND COVERS, PERENNIALS, GRASS)
2. BED PREPARATIONS AND FERTILIZATION
3. NOTIFICATION OF SOURCES OF PLANT MATERIALS AND AMENDMENTS
4. WATER AND MAINTENANCE UNTIL FINAL ACCEPTANCE
5. GUARANTEE PERIOD DESCRIBED ON DRAWINGS

1.3 REFERENCE STANDARDS
A. AMERICAN STANDARD FOR NURSERY STOCK PUBLISHED BY AMERICAN ASSOCIATION OF NURSERYMEN; OCTOBER 27, 1980, EDITION; BY AMERICAN NATIONAL STANDARDS INSTITUTE, INC. (Z60.1)– PLANT MATERIAL.
B. AMERICAN JOINT COMMITTEE ON HORTICULTURE NOMENCLATURE : ADDITION 1942 EDITION STANDARDIZED PLANT NAMES
C. TEXAS ASSOCIATION OF NURSERYMEN, GRADES AND STANDARDS
D. HORTIS THIRD 1976 – CORNELL UNIVERSITY

1.4 NOTIFICATION OF SOURCES AND SUBMITTALS
A. THE CONTRACTOR SHALL, WITHIN TEN (10) DAYS FOLLOWING ACCEPTANCE OF BID, NOTIFY THE LANDSCAPE ARCHITECT/ENGINEER/OWNER OF THE SOURCES OF PLANT MATERIALS AND BED PREPARATION REQUIRED FOR THE PROJECT.
B. SAMPLES: PROVIDE REPRESENTATIVE QUANTITIES OF SANDY LOAM SOIL, MULCH, BED MIX MATERIAL, PEA GRAVEL, DRAIN GRAVEL, DECOMPOSED GRANITE, STEEL EDGING, HARDWOOD MULCH,LITTE MESH, SOIL SEPARATOR, STONE NOTED ON DRAWINGS. SAMPLES SHALL BE APPROVED BY THE LANDSCAPE ARCHITECT/ENGINEER/OWNER BEFORE USE ON THE PROJECT.
C. PRODUCT DATA: SUBMIT COMPLETE PRODUCT DATA AND SPECIFICATION ON ALL OTHER SPECIFIED MATERIALS.
D. SUBMIT THREE REPRESENTATIVE SAMPLES, 8"X 10" PHOTOGRAPHS, OF EACH VARIETY OF LARGE TREES, ORNAMENTAL TREES, SHRUBS, GROUND COVER, PERENNIALS FOR LANDSCAPE ARCHITECT/ENGINEER/OWNER APPROVAL. WHEN APPROVED, TAG, INSTALL, AND MAINTAIN AS REPRESENTATIVE SAMPLES FOR FINAL COMPARISON OF THE WORK.
E. FILE CERTIFICATES OF INSPECTION OF PLANT MATERIAL BY STATE, COUNTY, AND FEDERAL AUTHORITIES WITH LANDSCAPE ARCHITECT/ENGINEER/OWNER.
F. SOIL ANALYSIS: PROVIDE AN EXISTING SOIL ANALYSIS FROM THE SITE WITH RECOMMENDATIONS ON AMENDING THE SOIL BY A LICENSED SOILS AND PLANT LAB. PROVIDED SOILS ANALYSIS TO LANDSCAPE ARCHITECT/ENGINEER/OWNER.

1.5 JOB CONDITIONS:
A. GENERAL CONTRACTOR TO COMPLETE THE FOLLOWING PUNCH LIST: PRIOR TO THE LANDSCAPE CONTRACTOR INITIATING ANY PORTION OF THE LANDSCAPE INSTALLATION, GENERAL CONTRACTOR SHALL LEAVE PLANTING BED AREAS THREE (3) INCHES BELOW FINISHED GRADE OF SIDEWALKS, DRIVES, AND CURBS AS SHOWN ON THE DRAWINGS. ALL LAWN AREAS TO RECEIVE SOLID SOD SHALL BE LEFT ONE (1") INCH BELOW GRADE OF SIDEWALKS, DRIVES AND CURBS. ALL CONSTRUCTION DEBRIS SHALL BE REMOVED PRIOR TO LANDSCAPE CONTRACTOR BEGINNING WORK.
B. GENERAL CONTRACTOR SHALL PROVIDE TOPSOIL AS DESCRIBED IN SECTION 02200 – EARTHWORK.
C. STORAGE OF MATERIALS AND EQUIPMENT AT THE JOB SITE WILL BE AT THE RISK OF THE LANDSCAPE CONTRACTOR. THE OWNER CAN NOT BE HELD RESPONSIBLE FOR THEFT OR DAMAGE.

1.6 MAINTENANCE AND GUARANTEE
A. MAINTENANCE
1. THE LANDSCAPE CONTRACTOR WILL BE HELD RESPONSIBLE FOR THE MAINTENANCE OF ALL WORK FROM THE TIME OF PLANTING UNTIL FINAL ACCEPTANCE BY THE LANDSCAPE ARCHITECT/ENGINEER/OWNER. NO TREES, SHRUBS, GROUND COVERS OR GRASS TO BE ACCEPTED UNLESS THEY SHOW A HEALTHY GROWTH AND SATISFACTORY FOLIAGE CONDITION.
2. MAINTENANCE SHALL INCLUDE WATERING OF TREES AND PLANTS, CULTIVATION, WEEDING, SPRAYING, PRUNING OF TREES AND SHRUBS, MOWING OF GRASS WEEKLY, SITE LANDSCAPE BED MULCHING, DEBRIS AND TRASH CLEANING UP WEEKLY AND ALL OTHER WORK NECESSARY OF MAINTENANCE.
3. WRITTEN NOTICE REQUESTING FINAL INSPECTION AND FINAL ACCEPTANCE SHOULD BE SUBMITTED TO THE OWNER AT LEAST SEVEN (7) DAYS PRIOR TO COMPLETION, AN ON–SITE INSPECTION BY THE OWNER AND LANDSCAPE CONTRACTOR WILL BE COMPLETED PRIOR TO WRITTEN ACCEPTANCE.
4. AFTER FINAL ACCEPTANCE LANDSCAPE INSTALLATION, THE LANDSCAPE CONTRACTOR WILL NOT BE REQUIRED TO DO ANY OF THE ABOVE MAINTENANCE WORK AS PART OF THESE PLANS.

B. GUARANTEE
1. TREES SHALL BE GUARANTEED FOR TWELVE (12) MONTH PERIOD AFTER FINAL ACCEPTANCE. SHRUBS AND GROUND COVERS SHALL BE GUARANTEED FOR A PERIOD OF TWELVE (12) MONTHS AFTER FINAL ACCEPTANCE. THE CONTRACTOR SHALL REPLACE ALL DEAD PLANT MATERIALS AS SOON AS WEATHER PERMITS AND UPON NOTIFICATION OF THE OWNER. PLANTS, INCLUDING TREES, WHICH HAVE PARTIALLY DIED SO THAT SHAPE, SIZE, OR SYMMETRY HAS BEEN DAMAGED, SHALL BE CONSIDERED SUBJECT TO REPLACEMENT UNDER THE GUARANTEE PERIOD. IN ANY AND ALL CASES THE FINDINGS OF THE OWNER OR OWNER REPRESENTATIVE SHALL BE FINAL.
A. PLANTS USED AS REPLACEMENT SHALL BE OF SAME KIND AND SIZE AS THOSE ORIGINALLY PLANTED AND SHALL BE PLANTED AS ORIGINALLY SPECIFIED, UNLESS APPROVED BY THE OWNER AND ALLOWED ON THE CITY APPROVED LANDSCAPE PLAN MATERIAL LIST. ALL WORK, INCLUDING DEMOLITION OF DEAD PLANTS, MATERIALS, LABOR AND EQUIPMENT USED IN REPLACEMENTS, SHALL CARRY A TWELVE (12) MONTH GUARANTEE FROM TIME OF COMPLETION OF REPLACEMENTS. ANY DAMAGE, INCLUDING RUTS, IN LAWN OR BED AREAS, INCURRED AS A RESULT OF MAKING REPLACEMENTS SHALL BE IMMEDIATELY REPAIRED.
B. AT THE DIRECTION OF THE OWNER, PLANTS MAY BE REPLACED AT THE START OF THE NEXT YEAR'S PLANTING SEASON. IN SUCH CASES, DEAD PLANTS SHALL BE REMOVED FROM THE PREMISES WITHIN TEN (10) DAYS OF NOTIFICATION BY THE OWNER.
C. WHEN PLANT REPLACEMENTS ARE MADE, PLANTS, SOIL MIX, FERTILIZER AND MULCH ARE TO BE UTILIZED AS ORIGINALLY SPECIFIED AND RE INSPECTED FOR FULL COMPLIANCE WITH THE CONTRACT REQUIREMENTS. ALL REPLACEMENTS ARE TO BE INCLUDED UNDER "WORK" OF THIS SECTION.
2. THE OWNER AGREES THAT FOR THE GUARANTEE TO BE EFFECTIVE, HE WILL WATER PLANTS AT LEAST TWICE A WEEK DURING DRY PERIODS AND CULTIVATE BEDS ONCE A MONTH AFTER FINAL ACCEPTANCE.
3. THE ABOVE GUARANTEE SHALL NOT APPLY WHERE PLANTS DIE AFTER FINAL ACCEPTANCE BECAUSE OF INJURY BY SNOWING, HEAT STRESS, INSECTS, DISEASE, INJURY BY HUMANS, MACHINES OR THEFT.
4 ACCEPTANCE FOR ALL LANDSCAPE WORK SHALL BE GIVEN AFTER FINAL INSPECTION BY THE LANDSCAPE ARCHITECT/ENGINEER/OWNER PROVIDED THE JOB IS IN A COMPLETED, UNDAMAGED CONDITION, AND THERE IS A STAND OF GRASS IN ALL LAWN AREAS. AT THIS TIME, THE OWNER WILL ASSUME MAINTENANCE ON THE ACCEPTED WORK.

1.7 QUALITY ASSURANCE
1. GENERAL: COMPLY WITH APPLICABLE FEDERAL, STATE, COUNTY, AND LOCAL REGULATIONS GOVERNING LANDSCAPE MATERIALS AND WORK.
B. PERSONNEL: EMPLOY ONLY EXPERIENCED PERSONNEL WHO ARE FAMILIAR WITH THE REQUIRED WORK. PROVIDE FULL–TIME SUPERVISION BY QUALIFIED FOREMAN ACCEPTABLE TO LANDSCAPE ARCHITECT/ENGINEER/OWNER.
C. SELECTION OF PLANT MATERIALS:
1. MAKE CONTACT WITH SUPPLIERS IMMEDIATELY UPON OBTAINING NOTICE OF CONTRACT ACCEPTANCE TO SELECT AND BOOK MATERIALS. DEVELOP A PROGRAM OF MAINTENANCE (PRUNING AND FERTILIZATION) WHICH WILL INSURE THE PURCHASED MATERIALS WILL MEET AND OR EXCEED PROJECT SPECIFICATIONS.
2. LANDSCAPE ARCHITECT/ENGINEER WILL PROVIDE A KEY IDENTIFYING EACH TREE LOCATION ON SITE. WRITTEN VERIFICATION WILL BE REQUIRED TO DOCUMENT MATERIAL SELECTION, SOURCE AND DELIVERY SCHEDULE TO SITE.
3. OWNER AND OR LANDSCAPE ARCHITECT/ENGINEER SHALL INSPECT ALL PLANT MATERIALS, WHEN REASONABLE AT PLACE OF GROWTH FOR COMPLIANCE WITH REQUIREMENTS FOR GENUS, SPECIES, CULTIVAR/VARIETY, SIZE, AND QUALITY.
4. OWNER AND OR LANDSCAPE ARCHITECT/ENGINEER RETAINS THE RIGHT TO FURTHER INSPECT ALL PLANT MATERIALS UPON ARRIVAL AT THE SITE AND FOR SIZE, QUALITY AND CONDITION OF ROOT BALLS, LIMBS, BRANCHING HABIT, INSECTS, INJURIES, AND LATENT DEFECTS.
5. OWNER AND OR LANDSCAPE ARCHITECT/ENGINEER MAY REJECT UNSATISFACTORY OR DEFECTIVE MATERIAL AT ANY TIME DURING THE PROCESS OF WORK. REMOVE REJECTED PLANTS FROM THE SITE IMMEDIATELY. PLANTS DAMAGED IN TRANSIT OR AT JOB SITE SHALL BE REJECTED.

1.8 PRODUCT DELIVERY, STORAGE AND HANDLING
A. PREPARATION:
1. BALLED AND BURLAPPED (B&B) PLANTS: DIG AND PREPARE SHIPMENT IN A MANOR THAT WILL NOT DAMAGE ROOTS, BRANCHES, SHAPE AND FUTURE DEVELOPMENT.
2. CONTAINER GROWN PLANTS: DELIVER PLANTS IN RIGID CONTAINER TO HOLD BALL SHAPE PROTECT ROOT MASS.
B. DELIVERY:
1. DELIVER PACKAGED MATERIALS IN SEALED CONTAINERS SHOWING WEIGHT, ANALYSIS AND NAME OF MANUFACTURER. PROTECT MATERIALS FROM DETERIORATION DURING DELIVERY.
2. DELIVER ONLY PLANT MATERIALS THAT CAN BE PLANTED IN ONE DAY UNLESS ADEQUATE STORAGE AND WATERING FACILITIES ARE AVAILABLE ON JOB SITE.
3. PROTECT ROOT BALLS BY HEELING IN WITH SAWDUST OR OTHER APPROVED MOISTURE RETAINING MATERIAL IF NOT PLANTED WITHIN 24 HOURS OF DELIVERY.
4. PROTECT PLANTS DURING DELIVERY TO PREVENT DAMAGE TO ROOT BALLS OR DESICCATION OF LEAVES. KEEP PLANTS MOIST AT ALL TIMES. COVER ALL MATERIALS DURING TRANSPORT.
5. NOTIFY LANDSCAPE ARCHITECT/ENGINEER/OWNER OF DELIVERY SCHEDULE 72 HOURS IN ADVANCE SO PLANT MATERIAL MAY BE OBSERVED UPON ARRIVAL AT JOB SITE.
6. REMOVE REJECTED PLANT MATERIALS IMMEDIATELY FROM SITE.
7. TO AVOID DAMAGE OR STRESS, DO NOT LIFT, MOVE, ADJUST TO PLUMB, OR OTHERWISE MANIPULATE PLANTS BY TRUNK OR STEMS.

PART 2 – PRODUCTS

2.1 PLANTS
A. GENERAL: WELL FORMED NO. 1 GRADE OR BETTER NURSERY GROWN STOCK. LISTED PLANT HEIGHTS ARE FROM TOPS OF ROOT BALLS TO NOMINAL TOPS OF PLANTS. PLANT SPREAD REFERS TO NOMINAL OUTER WIDTH OF THE PLANT, NOT TO THE OUTER LEAF TIPS. PLANTS WILL BE INDIVIDUALLY APPROVED BY THE LANDSCAPE ARCHITECT/ENGINEER AND THAT DECISION AS TO THEIR ACCEPTABILITY SHALL BE FINAL.
B. QUANTITIES: THE DRAWINGS AND SPECIFICATIONS ARE COMPLIMENTARY, ANYTHING CALLED FOR ON ONE AND NOT THE OTHER IS A BINDING AS IF SHOWN AND CALLED FOR ON BOTH. THE PLANT SCHEDULE IS AN AID TO BIDDERS ONLY. CONFIRM ALL QUANTITIES ON THE PLAN.
C. QUALITY AND SIZE: PLANT MATERIALS SHALL CONFIRM TO THE SIZE GIVEN ON THE PLAN, AND SHALL BE OF TYPICAL MATURE SYMMETRICAL WELL SHAPED, FULL BRANCHED, AND WELL ROOTED. THE PLANTS SHALL BE FREE FROM INJURIOUS INSECTS, DISEASES, INJURIES TO THE BARK OR ROOTS, BROKEN BRANCHES, OBJECTIONABLE DISFIGUREMENTS, INSECT EGGS AND LARVAE AND ARE TO BE SPECIMEN QUALITY.
D. TREES SHALL BE OF SIZES AND GRADES COMPLYING WITH STANDARD FOR NURSERY STOCK. MINIMUM DIAMETER AND HEIGHT REQUIREMENTS OF THE PLANT SCHEDULE. BALLED AND BURLAPPED SHALL BE FIRM, NEAT, SLIGHTLY TAPERED, AND WELL WRAPPED IN BURLAP. ANY TREE LOOSE IN THE BALL OR WITH BROKEN BALL AT TIME OF PLANTING WILL BE REJECTED. BALLS SHALL BE TEN (10") INCHES IN DIAMETER FOR EACH ONE (1") INCH OF TRUNK DIAMETER, MEASURED SIX (6") INCHES ABOVE THE TOP OF BALL.
1. NOMENCLATURE CONFORMS TO CUSTOMARY NURSERY USAGE; FOR CLARIFICATION, THE TERM "MULTI – TRUNK" DEFINES A PLANT HAVING THREE (3) OR MORE TRUNKS OF NEARLY EQUAL DIAMETER. TO CALCULATE THE TOTAL CALIPER OF MULTI TRUNK TREES, ADD THE CALIPER OF THE LARGEST TRUNK IN INCHES TO THE REMAINING CALIPER IN INCHES DIVIDED BY 2. THEN ADD THAT TOTAL CALIPER INCHES OF TRUNKS FOR THE TOTAL SPECIFIED CALIPER INCHES PROVIDED ON THE MULTI – TRUNK TREE.
F. PRUNING: ALL PRUNING OF TREES AND SHRUBS, AS DIRECTED BY LANDSCAPE ARCHITECT/ENGINEER, SHALL BE EXECUTED BY LANDSCAPE CONTRACTOR AT NO ADDITIONAL COST TO THE OWNER.

2.2 SOIL PREPARATION MATERIALS

A. SANDY LOAM:
1. FRIABLE, FERTILE, DARK, LOAMY SOIL FREE OF CLAY LUMPS, SUBSOIL, GRASS, STONES OVER ONE (1") INCH AND OTHERS EXTRANEOUS MATERIAL AND REASONABLY FREE OF WEEDS AND FOREIGN GRASS. LOAM CONTAINING JOHNSON GRASS OR NUT GRASS SHALL BE REJECTED.
2. PHYSICAL PROPERTIES AS FOLLOWS
CLAY – BETWEEN 7–27 PERCENT
SILT – BETWEEN 15–25 PERCENT
SAND – LESS THAN 52 PERCENT.
3. ORGANIC MATTER SHALL BE 3%–10% OF TOTAL DRY WEIGHT.
4. IF REQUIRED, PROVIDE CERTIFIED SOIL ANALYSIS CONDUCTED BY AN APPROVED SOIL TESTING LABORATORY VERIFYING THAT THE SANDY LOAM MEETS THE ABOVE REQUIREMENTS.
B. DECOMPOSED GRANITE: COMPOST WITH A MIXTURE OF 80% SCREENING AND 20% ANIMAL WASTE. INGREDIENTS SHOULD BE A MIX OF COURSE AND FINE TEXTURED MATERIAL.
C. PREMIXED BEDDING SOIL AS SUPPLIED BY VITAL EARTH RESOURCES, GLADEWATER, TEXAS: PROFESSIONAL BEDDING SOIL AS SUPPLIED BY LIVING EARTH TECHNOLOGY, DALLAS, TEXAS OR ACID GRO (MUNICIPAL MIX AS SUPPLIED BY SOIL BUILDING SYSTEMS, DALLAS, TEXAS OR APPROVED EQUAL.
D. SHARP SAND: SHARP SAND MUST BE FREE OF SEEDS, SOIL PARTICLES AND WEEDS.
E. MULCH: DOUBLE SHREDDED HARDWOOD MULCH, PARTIALLY DECOMPOSED, DARK BROWN, LIVING EARTH OR THE ENGINEER APPROVED EQUAL.
F. ORGANIC FERTILIZER: SUSTANE, FERTILAID, OR GREEN SENSE OR EQUAL AS RECOMMENDED FOR REQUIRED APPLICATIONS. FERTILIZER SHALL BE DELIVERED TO THE SITE IN ORIGINAL UNOPENED CONTAINERS, EACH BEARING THE MANUFACTURER'S GUARANTEED STATEMENT OF ANALYSIS.
G. COMMERCIAL FERTILIZER: 10–20–10 OR SIMILAR ANALYSIS. NITROGEN SOURCE TO BE A MINIMUM 50% SLOW RELEASE ORGANIC NITROGEN (SCU OR UF) WITH A MINIMUM OF 8% SULFUR AND 4% IRON, PLUS MICRONUTRIENTS.
H. PEAT: COMMERCIAL SPHAGNUM PEAT MOSS OR PARTIALLY DECOMPOSED SHREDDED PINE BARK OR OTHER APPROVED ORGANIC MATERIAL.

2.3 MISCELLANEOUS MATERIALS

A. STEEL EDGING: SHALL BE RYERSON "ESTATE CURBING", DARK GREEN, 1/8" X 4" WITH STAKES FOUR (4') FEET ON CENTER OR APPROVED EQUAL.
B. TREE STAKING MATERIALS:
1. POST; STUDDED "T"– POST, NO 1 ARMCO WITH ANCHOR PLATE; SIX (6') FEET IN LENGTH, PAINT FLAT BLACK, PRIOR TO INSTALLING.
2. WIRE: 12 GAUGE, SINGLE STRAND, GALVANIZED WIRE.
3. RUBBER HOSE: 2 PLY, FIBER REINFORCED HOSE, MINIMUM HALF (.5") INCH INSIDE DIAMETER. COLOR BLACK.
C. GRAVEL: WASHED NATIVE PEA GRAVEL, GRADED ONE (1") INCH TO ONE AND HALF (1.5") INCH
D. FILTER FABRIC: MIRAFI 140N CELANESE FIBERS MARKETING COMPANY, AVALIABLE AT CMC REBAR CO., (214)–631–5250 OR AS APPROVED.

PART 3 – EXECUTION

3.1 BED FERTILIZER AND FERTILIZATION

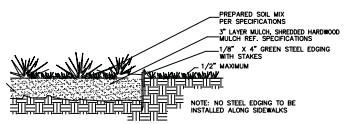
A. LANDSCAPE CONTRACTOR TO INSPECT ALL EXISTING CONDITIONS AND REPORT ANY DEFICIENCIES TO THE LANDSCAPE ARCHITECT/ENGINEER/OWNER.
B. ALL PLANTING AREAS SHALL BE CONDITIONED AS FOLLOWS:
1. PREPARE NEW PLANTING BEDS BY REMOVING ANY EXISTING GRASS AND WEEDS AS NECESSARY. IN ADDITION AT BACK OF CURBS AND EDGES OF PAVING REMOVE THE EXISTING SOIL TO A DEPTH OF SIX (6") INCHES PRIOR TO FERTILIZER AND COMPOST APPLICATION. FINAL CONDITION OF EXISTING SOIL TO BE FRIABLE, FINABLE, CONSISTENT DEPTH, AND FREE OF ROCKS AND ROOTS AND ALL CLODS WHEN COMPLETELY TILLED. APPLY FERTILIZER AS PER MANUFACTURER RECOMMENDATIONS. ADD SIX (6") INCHES OF COMPOST AND TILL INTO A DEPTH OF SIX (6") INCHES OF EXISTING SOIL. APPLY ORGANIC FERTILIZER SUCH AS SUSTANE OR GREEN SENSE AT THE RATE OF TWENTY (20) POUNDS PER ONE THOUSAND (1,000) SQUARE FEET.
2. ALL PLANTING BEDS SHALL RECEIVE A MINIMUM OF THREE (3") INCH LAYER OF SPECIFIED MULCH.
3. BACKFILL FOR TREE PITS SHALL BE AS FOLLOWS; USE EXISTING TOP SOIL ON SITE, FREE FROM LARGE CLUMPS, ROCK, DEBRIS, CALICHE, SUBSOIL, ETC., PLACED IN NINE (9") INCH LAYERS AND WATERED IN THOROUGHLY.
C. GRASS AREA:
1. AREAS TO BE SOLID SOD GRASS TYPES SPECIFIED. BLOCKS OF SOD SHOULD BE LAID END TO END (WITH STAGGERED JOINTS) AFTER FERTILIZING THE GROUND FIRST, WATER AND ROLL. GRASS AREAS TO ACHIEVE A SMOOTH, EVEN SURFACE. ROLLING IS TO BE COMPLETED WITHIN 24 HOURS OF INSTALLING THE SOD. IN CERTAIN AREAS, THE LANDSCAPE ARCHITECT/ENGINEER/OWNER MAY REQUEST ADDITIONAL ROLLING BY THE LANDSCAPE CONTRACTOR OVER GRASS AREAS TO ACHIEVE THE FINAL SMOOTH SURFACE. THE JOINTS BETWEEN THE BLOCKS OF SOD SHALL BE FILLED WITH TOP SOIL WHERE THEY ARE EVIDENTLY GAPED OPEN, THEN WATERED THOROUGHLY.
2. AREAS TO BE HYDRO MULCHED GRASS SEED: HYDRO MULCH WITH SPECIFIED SEED OR COMMON BERMUDA GRASS SEED AT A RATE OF TWO (2) POUNDS PER ONE THOUSAND (1,000) SQUARE FEET, USE A FOUR (4') FOOT X EIGHT (8') FOOT BATTER BOARD AGAINST BED AREAS TO REDUCE OVER SPRAY.

3.2 INSTALLATION

A. MAINTENANCE OF PLANT MATERIALS SHALL BEGIN IMMEDIATELY AFTER EACH PLANT IS DELIVERED TO SITE AND SHALL CONTINUE UNTIL ALL CONSTRUCTION HAS BEEN SATISFACTORILY ACCOMPLISHED.
B. PLANT MATERIALS SHALL BE DELIVERED TO THE SITE ONLY AFTER THE BEDS ARE PREPARED AND ARE READY FOR PLANTING. ALL SHIPMENTS OF NURSERY MATERIALS SHALL BE THOROUGHLY PROTECTED FROM DRYING WINDS DURING TRANSIT. ALL PLANTS, WHICH CANNOT BE PLANTED AT ONCE, AFTER DELIVERY TO SITE, SHALL BE WELL PROTECTED AGAINST POSSIBILITY OF DRYING BY WIND AND SUN. BALLS OF EARTH OF B & B PLANTS SHALL BE KEPT COVERED WITH SAWDUST OR OTHER ACCEPTABLE MATERIAL. ALL PLANTS REMAIN THE PROPERTY OF THE CONTRACTOR UNTIL FINAL ACCEPTANCE.
C. POSITION THE TREES AND SHRUBS IN THEIR INTENDED LOCATION AS PER PLAN.
D. NOTIFY THE LANDSCAPE ARCHITECT/ENGINEER FOR INSPECTION AND APPROVAL OF ALL POSITIONING OF PLANT MATERIALS.
E. EXCAVATE PITS WITH VERTICAL SIDES AND HORIZONTAL BOTTOM. TREE PITS SHALL BE LARGE ENOUGH TO PERMIT HANDLING AND PLANTING WITHOUT INJURY TO BALLS OR EARTH OR ROOTS AND SHALL BE OF SUCH DEPTH THAT, WHEN PLANTED AND SETTLED, THE CROWN OF THE PLANT SHALL BEAR THE SAME RELATION TO THE FINISH GRADE THAT IT DID TO SOIL SURFACE IN PLACE OF GROWTH. NOTE TO ALLOW AS MUCH AS TWO (2') FEET FOR SETTLEMENT IN CLAY SOIL.
F. SHRUB AND TREE PITS SHALL BE NO LESS THAN TWO (2') FEET, TWENTY–FOUR (24") INCHES WIDER THAN THE LATERAL DIMENSION OF THE EARTH BALL AND SIX (6") INCHES DEEPER THAN ITS VERTICAL DIMENSION. REMOVE AND HAUL FROM SITE ALL ROCKS OR STONES OVER ONE (1") INCH IN DIAMETER. PLANTS SHOULD BE THOROUGHLY MOIST BEFORE REMOVING FROM CONTAINERS.
G. DIG A WIDE, ROUGH SIDED HOLE EXACTLY THE SAME DEPTH AS THE HEIGHT OF THE BALL, ESPECIALLY AT THE SURFACE OF THE GROUND. THE SIDES OF THE HOLE SHOULD BE ROUGH AND JAGGED, NEVER SMOOTH OR GLAZED. DO NOT DRILL OR AUGER HOLES IN CLAY SOILS.
H. PERCOLATION TEST: FILL THE HOLE WITH WATER. IF THE WATER LEVEL DOES NOT PERCOLATE WITHIN TWENTY FOUR (24) HOURS, THE TREE NEEDS TO BE MOVED TO ANOTHER LOCATION OR HAVE TWO FOUR (4") FOOT DEEP PIER HOLE DRAINAGE ADDED.
I. BACKFILL ONLY WITH 5 PARTS EXISTING SOIL OR SANDY LOAM AND ONE (1) PART BED PREPARATION. WHEN HOLE IS DUG IN SOLID ROCK, TOPSOIL FROM THE SAME AREA SHOULD NOT BE USED. CAREFULLY SETTLE BY WATERING TO PREVENT AIR POCKETS. REMOVE THE BURLAP FROM THE TOP THIRD OF THE BALL AS WELL AS THE NYLON, PLASTIC STRING AND WIRE MESH FROM THE BURLAP. BE AWARE OF SOIL PLACED ON TOP OF THE ROOT BALL DURING DIGGING. THIS SOIL TO BE REMOVED ALONG WITH ANY GRASS, WEEDS, VINES TO EXPOSE THE ROOT FLARE AND NATIVE TOP SOIL.
J. DO NOT WRAP TREES.
K. DO NOT PRUNE TREES. UNLESS DIRECTED BY LANDSCAPE ARCHITECT/ENGINEER.
L. MULCH THE TOP OF THE BALL. DO NOT PLANT GRASS ALL THE WAY TO THE TREE TRUNK OF THE TREE. LEAVE THE AREA ABOVE THE TOP OF THE BALL UNPLANTED AND MULCH WITH AT LEAST THREE (3") INCHES OF SPECIFIED AND APPROVED MULCH.

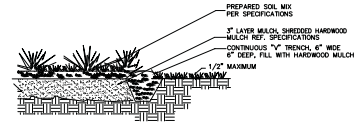
3.2 INSTALLATION (CONTINUED)

M. ALL PANT BEDS AND TREES TO BE MULCHED WITH A MINIMUM SETTLED THICKNESS OF THREE (3") INCHES OVER THE ENTIRE BED OR PIT.
N. OBSTRUCTION BELOW GROUND: IN THE EVENT ROCK OR UNDERGROUND CONSTRUCTION WORK OR OBSTRUCTIONS ARE ENCOUNTERED IN ANY PLANT PIT EXCAVATION WORK TO BE DONE UNDER THIS SECTION, ALTERNATE LOCATIONS MAY BE SELECTED BY THE LANDSCAPE ARCHITECT/ENGINEER/OWNER. WHERE LOCATIONS CAN NOT BE CHANGED, THE OBSTRUCTION SHALL BE REMOVED TO A DEPTH OF NOT LESS THAN THREE (3') FEET BELOW GRADE AND NO LESS THAN SIX (6") INCHES BELOW BOTTOM OF THE BALL WHEN PLAN IS PROPERLY SET AT THE REQUIRED GRADE. THE WORK OF THIS SECTION SHALL INCLUDE THE REMOVAL FROM THE SITE SUCH ROCK OR UNDERGROUND OBSTRUCTIONS ENCOUNTERED AT THE COST OF THE LANDSCAPE CONTRACTOR.
O. TREES AND LARGE SHRUBS SHALL BE STAKED AS SITE CONDITIONS REQUIRE. POSITION STAKES TO SECURE TREE AGAINST SEASONAL WINDS. LANDSCAPE CONTRACTOR TO INSPECT AND MAINTAIN STAKES IN A SECURED CONDITION DURING CONSTRUCTION UNTIL FINAL ACCEPTANCE.
P. PRUNING AND MULCHING: EACH AREA SHALL BE PRUNED IN ACCORDANCE WITH STANDARD HORTICULTURAL PRACTICE TO PRESERVE THE NATURAL CHARACTER OF THE PLANT AND IN THE MANNER FITTING ITS USE IN THE LANDSCAPE DESIGN.
1. DEAD WOOD OR SUCKERS AND BROKEN OR BADLY BRUISED BRANCHES SHALL BE REMOVED ; GENERAL TIPPING OF ALL BRANCHES IS NOT PERMITTED.
2. PRUNING SHALL BE DONE WITH CLEAN SHARP TOOLS.
3. IMMEDIATELY AFTER PLANTING OPERATIONS ARE COMPLETED, ALL TREE PITS SHALL BE COVERED WITH LAYER OF SPECIFIED MULCH THREE (3") INCHES IN DEPTH. THIS LIMIT OF SPECIFIED MULCH FOR TREES SHALL BE THE DIAMETER OF THE PLANT PIT. ALLOW A SPACE OF THREE (3") INCHES FROM TREE BARK TO THE MULCHED SURFACE.
Q. STEEL CURBING INSTALLATION:
1. CURBING SHALL BE ALIGNED AS INDICATED ON DRAWINGS.
2. ALL STEEL CURBING SHALL BE FREE OF KINKS OR ABRUPT BENDS.
3. TOP OF STEEL CURBING SHALL BE ONE (1") INCH HIGHER THAN EXISTING GRADE.
4. STAKES ARE TO BE INSTALLED ON THE PLANTING BED SIDE OF THE CURBING, AS OPPOSED TO THE GRASS SIDE.
5. DO NOT INSTALL STEEL EDGING ALONG SIDEWALKS OR BACK OF CURBS.
6. CUT AN EDGE ON THE STEEL CURBING AT 45 DEGREE ANGLE WHERE EDGING MEETS PAVING EDGES. FILE EDGES CUT TO BE ROUNDED, SMOOTH AND NOT SHARP.



3.3 CLEANUP AND FINAL ACCEPTANCE

A. CLEANING: DURING THE WORK, THE PREMISES SHALL BE KEPT NEAT AND ORDERLY AT ALL TIMES. STORAGE AREA FOR ALL MATERIALS SHALL BE MAINTAINED THAT THEY, TOO, ARE NEAT AND ORDERLY. ALL TRASH AND DEBRIS SHALL BE REMOVED FROM SITE AS WORK PROGRESSES. KEEP PAVED AREAS CLEAN BY SWEEPING OR HOSING AT END OF EACH DAY'S WORK.
1. ON LEED APPLIED FOR ON PROJECTS TO BE LEED CERTIFIED COORDINATE WITH THE GENERAL CONTRACTOR FOR ADDITIONAL DISPOSAL OF TRASH, WASTE, SOILS, PLANT MATERIALS, FERTILIZERS SO AS RECYCLE CREDITS MAYBE TRACKED BY VOLUME.



NOTE: NO STEEL EDGING TO BE INSTALLED ALONG SIDEWALKS

LOCATION MAP

NOTE:

– DUMPSTER ENCLOSURE MATERIAL AND FINISH TO MATCH THAT OF THE RESTAURANT EXTERIOR.

– A FINAL GEOTECHNICAL REPORT HAS NOT BEEN PROVIDED. A REINFORCED CONCRETE PAVEMENT SECTION WITH DETAILS WILL BE PROVIDED IN THE ENGINEERING PLANS SUBMITTAL.

SITE INFORMATION

LAND AREA:	0.90 ACRES (39,184 S.F.)
CURRENT ZONING:	PD-32
EXISTING USE:	UNUSED
PROPOSED USE:	RESTAURANT
BUILDING AREA:	6,800 S.F
BUILDING TO LOT COVERAGE:	6,800/39,184=.174 –> 17.4%
BUILDING HEIGHT:	38 FEET
BUILDING REQUIRED PARKING:	68 SPACES (SEE BREAKDOWN BELOW)
BUILDING PARKING PROVIDED:	68 TOTAL (*15 TREND TOWER GARAGE, 53 PARKING LOT) (INCLUDES 3 HANDICAP SPACES)
IMPERVIOUS AREA:	30,655 S.F.
LANDSCAPE AREA REQUIRED:	0 S.F.
LANDSCAPE AREA PROVIDED:	9,551 S.F.

PARKING REQUIREMENT BREAKDOWN:

RESTAURANT SPACE AT 1 SPACE/100 S.F. –> 6,800/100 = 68 SPACES

* TREND TOWER PARKING REQUIREMENT:
OFFICE SPACE AT 1 SPACE/300 S.F. –> 107,129/300 = 357 SPACES
TREND TOWER PARKING GARAGE CURRENTLY PROVIDES 441 PARKING SPACES SO PER THE SHARED PARKING AGREEMENT, A PORTION OF THIS PARKING MAY BE USED BY LOT 3 BLOCK A, THEREFORE 15 PARKING STALLS FROM THE TREND TOWER PARKING GARAGE WILL BE AVAILABLE FOR USE ON LOT 3 BLOCK A.

Discuss and consider a request by Rick Bates of RLK Engineering, Inc. on behalf of James Watson of the Rockwall Independent School District (RISD) for the approval of a site plan for a public school on a 18.407-acre tract of land identified as Rockwall School Addition No. 1, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, addressed as 901 Nash Street, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 11.21.2016

Any additional comments are to be addressed and resubmitted ASAP. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a final/subsequent review by staff no later than December 6, 2016:

Planning Department General Comments to be addressed and will be considered as a conditions of approval:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Label revised site plan documents with "Case No. SP2016-028" at the lower right corner of each revised plan.
3. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO). Plat mylars are to be submitted prior to issuance of building permit.

EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:

* 1. Art V, Sec. 4.1.1 of the General Commercial District Standards requires each exterior wall to consist of 90% masonry materials,..., including 20% stone on walls which are visible from a public street or open space. The north (12%) and south (18%) elevations do not meet the minimum 20% requirement.

* Approval of the exception to the material standards requires passage by a simple majority vote of City Council of those present.

Please addressthe following Planning Comments for each plan submitted:

Site Plan:
1. Turn off tree layer so that there are no trees showing on the site plan.
2. The dumpster enclosure is not to face a public street; reorient the enclosure.

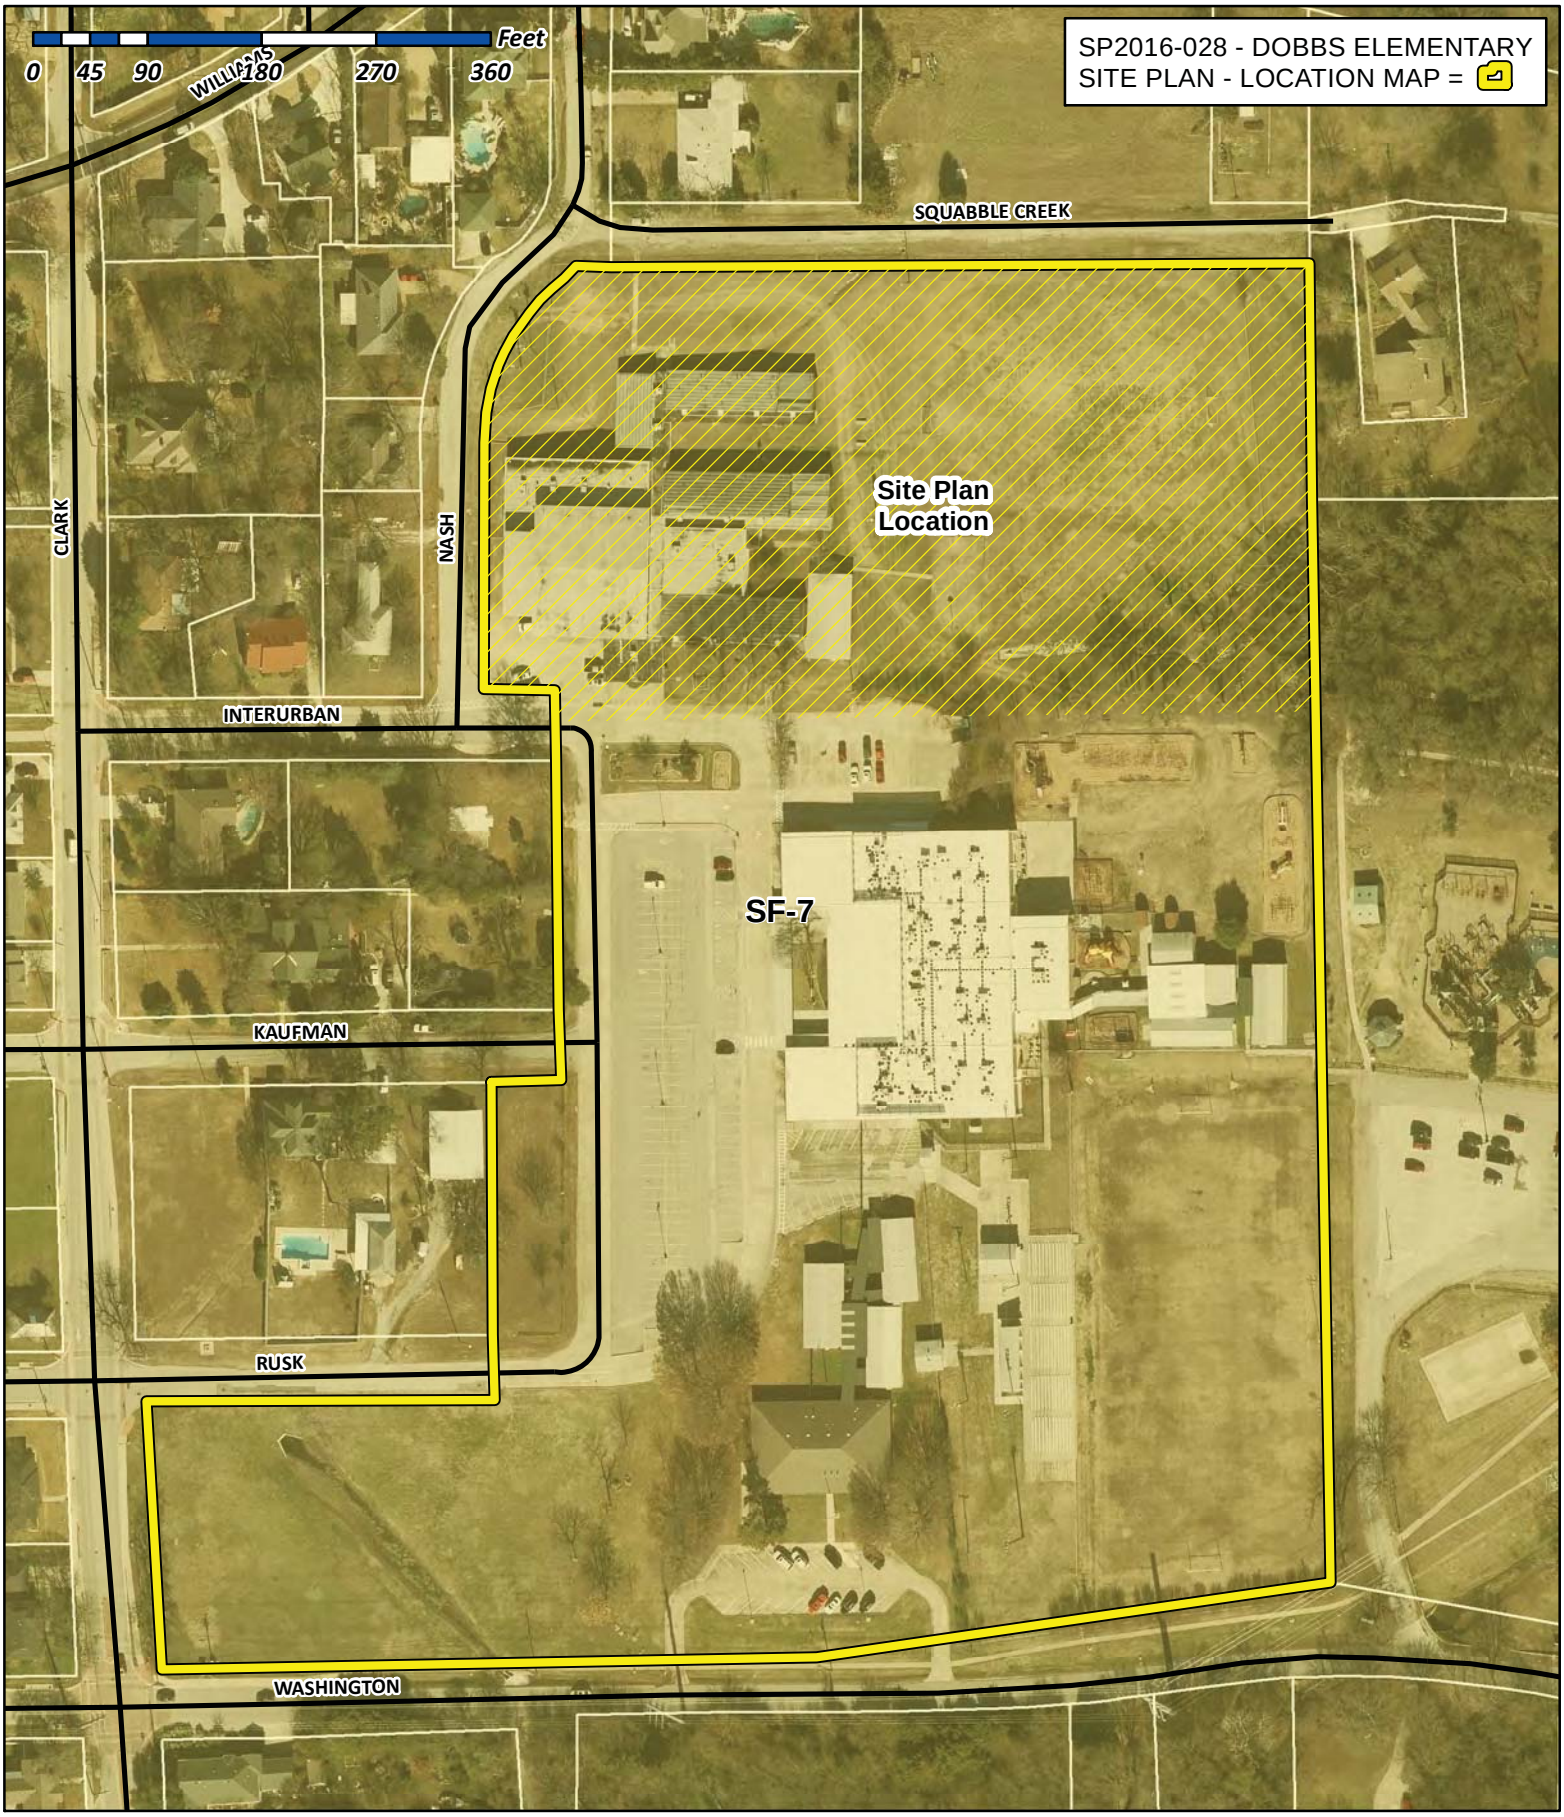
Building Elevations:
1. Approval of an exception to the material standards (as indicated above).
2. Remove the calculation percentage for the glass and re-calc the exterior materials. Glass and doors are not used in the calculation.
3. Dash-in the RTU's; must be screened from adjacent properties and rights-of-way.

Landscape Plan:
Ok as sumbitted.

Photometric Plan:
OK as submitted.

Treescape Plan:
1. Any oak, pecan, and/or elm trees requires approval by the Planning Commission prior to removal. Tree No. 4, 5, & 6 (elms) require approval to be removed.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

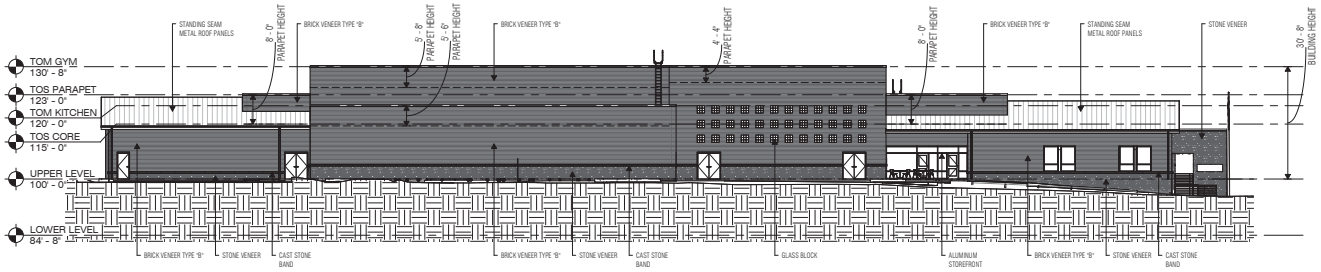


The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: November 29, 2016 (6:00p.m.) [applicant to present case to P&Z for discussion].

Planning - Action: December 13, 2016 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, etc.)



City Council - Action: December 19, 2016 (6:00 p.m.) [FOR EXCEPTION REQUEST ONLY]

of

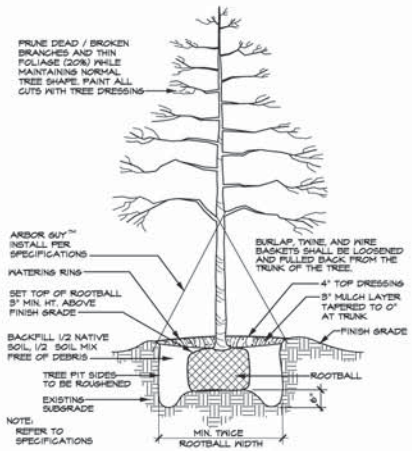
1. EXISTING TREES WITHIN CONTRACT LIMITS ARE SHOWN ON THE DRAWINGS. EXISTING TREES DESIGNATED FOR REMOVAL SHALL BE FLAGGED AT THE PROJECT SITE WITH FLAGGING BY THE CONTRACTOR.
2. PROTECT ALL INDIVIDUAL TREES OR GROUPS OF TREES TO BE PRESERVED BY ERECTING A BARRIER AROUND EACH TREE OR GROUP OF TREES. INSTALL AND MAINTAIN BARRIER AT TREE DRIPLINE. BARRIERS SHALL REMAIN IN PLACE UNTIL REMOVAL IS NECESSARY.
3. IN THE EVENT THAT HEAVY CONSTRUCTION IS SCHEDULED TO OCCUR WITHIN THE DRIPLINE OF AN EXISTING TREE, CONTRACTOR SHALL ERECT A PROTECTION FENCE OUTSIDE THE DRIPLINE UNTIL THIS CONSTRUCTION IS SCHEDULED TO OCCUR. THE PROTECTION FENCE MAY THEN BE ADJUSTED AS REQUIRED TO COMPLETE THE PROPOSED CONSTRUCTION. AFTER CONSTRUCTION IN THIS AREA IS COMPLETED, THE PROTECTION FENCE SHALL BE ADJUSTED TO IT'S ORIGINAL LOCATION.
4. CONTRACTORS SHALL NOT PARK, CLEAN TOOLS AND EQUIPMENT OR STORE MATERIALS WITHIN THE DRIPLINE OF ANY TREE.
5. ALL ROOTS OVER 1" IN DIAMETER SHALL BE CUT CLEAN WITH A HAND SAW.

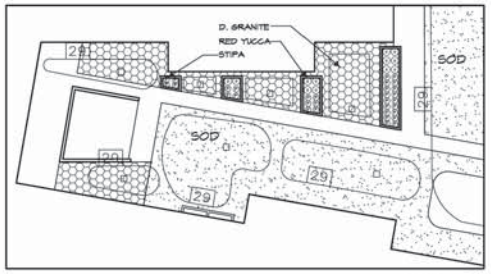
TREE PROTECTION FENCE



SCALE: N.T.S.

LANDSCAPE NOTES

LANDSCAPE CONTRACTOR SHALL GRASS ALL AREAS DISTURBED BY CONSTRUCTION. THE DISTURBED AREAS SHALL BE REPLACED WITH SOD PER THE SPECIFICAITONS UNLESS NOTED OTHERWISE ON THE PLANS.



LANDSCAPE CONTRACTOR SHOULD VISIT SITE AND REFERENCE CIVIL ENGINEER'S GRADING PLAN PRIOR TO BIDDING AND COMMENCEMENT OF CONSTRUCTION TO VERIFY AREAS TO BE DISTURBED BY CONSTRUCTION ACTIVITIES.

REFERENCE CIVIL PLANS FOR FINAL GRADING AND UTILITIES.

Discuss and consider a request by Robert A, Howman of Glenn Engineering Corp. on behalf of James Watson of the Rockwall Independent School District (RISD) for the approval of a site plan for a public school on a 24.209-acre portion of a larger 173.0-acre tract of land identified as Tract 7-1 of the W. H. Baird Survey, Abstract No. 25, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Bypass Corridor Overlay (205 BY-OV) District, located directly east of the intersection of John King Boulevard and Trail View Drive, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 11.21.2016

Any additional comments are to be addressed and resubmitted ASAP. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a final/subsequent review by staff on or before December 6, 2016:

Planning Department General Comments to be addressed and will be considered as a conditions of approval:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Label revised site plan documents with "Case No. SP2016-029" at the lower right corner of each plan.
3. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO). Plat mylars are to be submitted prior to issuance of building permit.

VARIANCES AND EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:

** 1. Art V, Sec. 6.10.C.1a of the 205 BY OV requires each exterior wall to consist of 90% masonry materials,..., including 20% natural or stone on walls which are visible from a public street or open space. The East (9% stone) and North (4% stone) elevations do not meet this requirement.
** 2. Art V, Sec. 6.10.C.1b of the 205 BY OV requires Secondary Material used on the facade of a building to comprise less than 10% of an elevation area. The elevations exceed 10% ACM (composite metal panel) as follows: West (23%), South (14%), East (18%) and North (11%).

** Approval of the variance requested to the 205 BY-OV requires passage by a 3/4 majority vote of City Council.

Please addressthe following Planning Comments for each plan submitted:

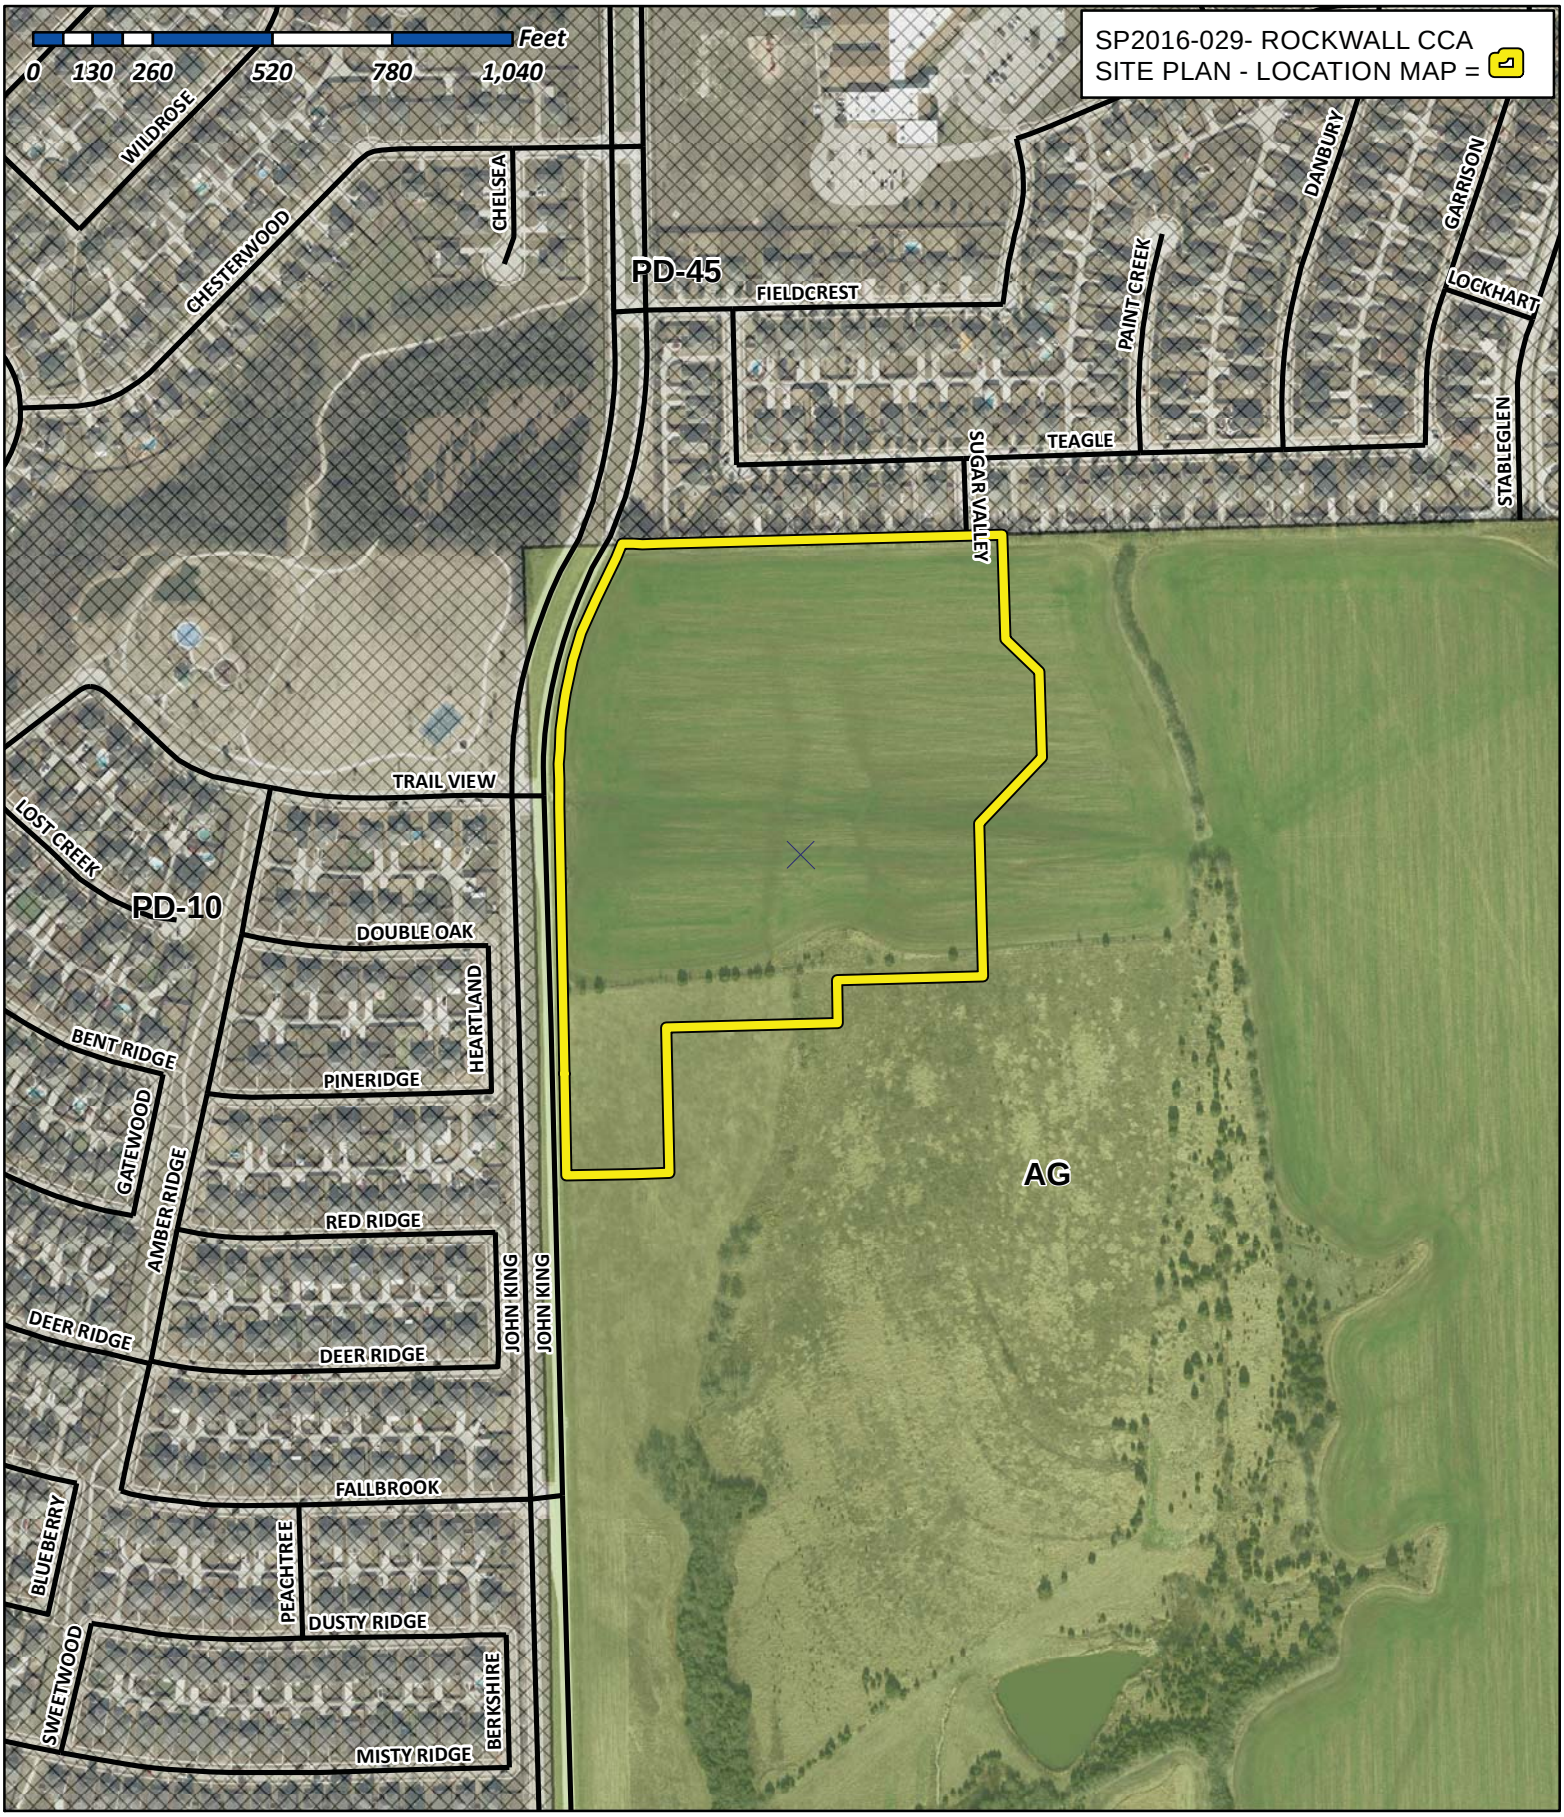
Site Plan:
1. Indicate and label firelane: "24-ft Firelane, Utility, and Public Access Easement" or as appropriate.

Building Elevations:
1. Variance's to the 205 BY-OV as stated above for stone and acm panel requires approval of a 3/4 majority vote of City Council (of those Council members present).

Landscape Plan:
1. Delineate and label landscape buffers (as appropriate).

Photometric Plan:
1. The lighting pole standards are not to exceed a maximum overall heightof 20-ft (includes pole, base, or combination thereof) per the PD Ord. 08-02 standards. Provide detail.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this

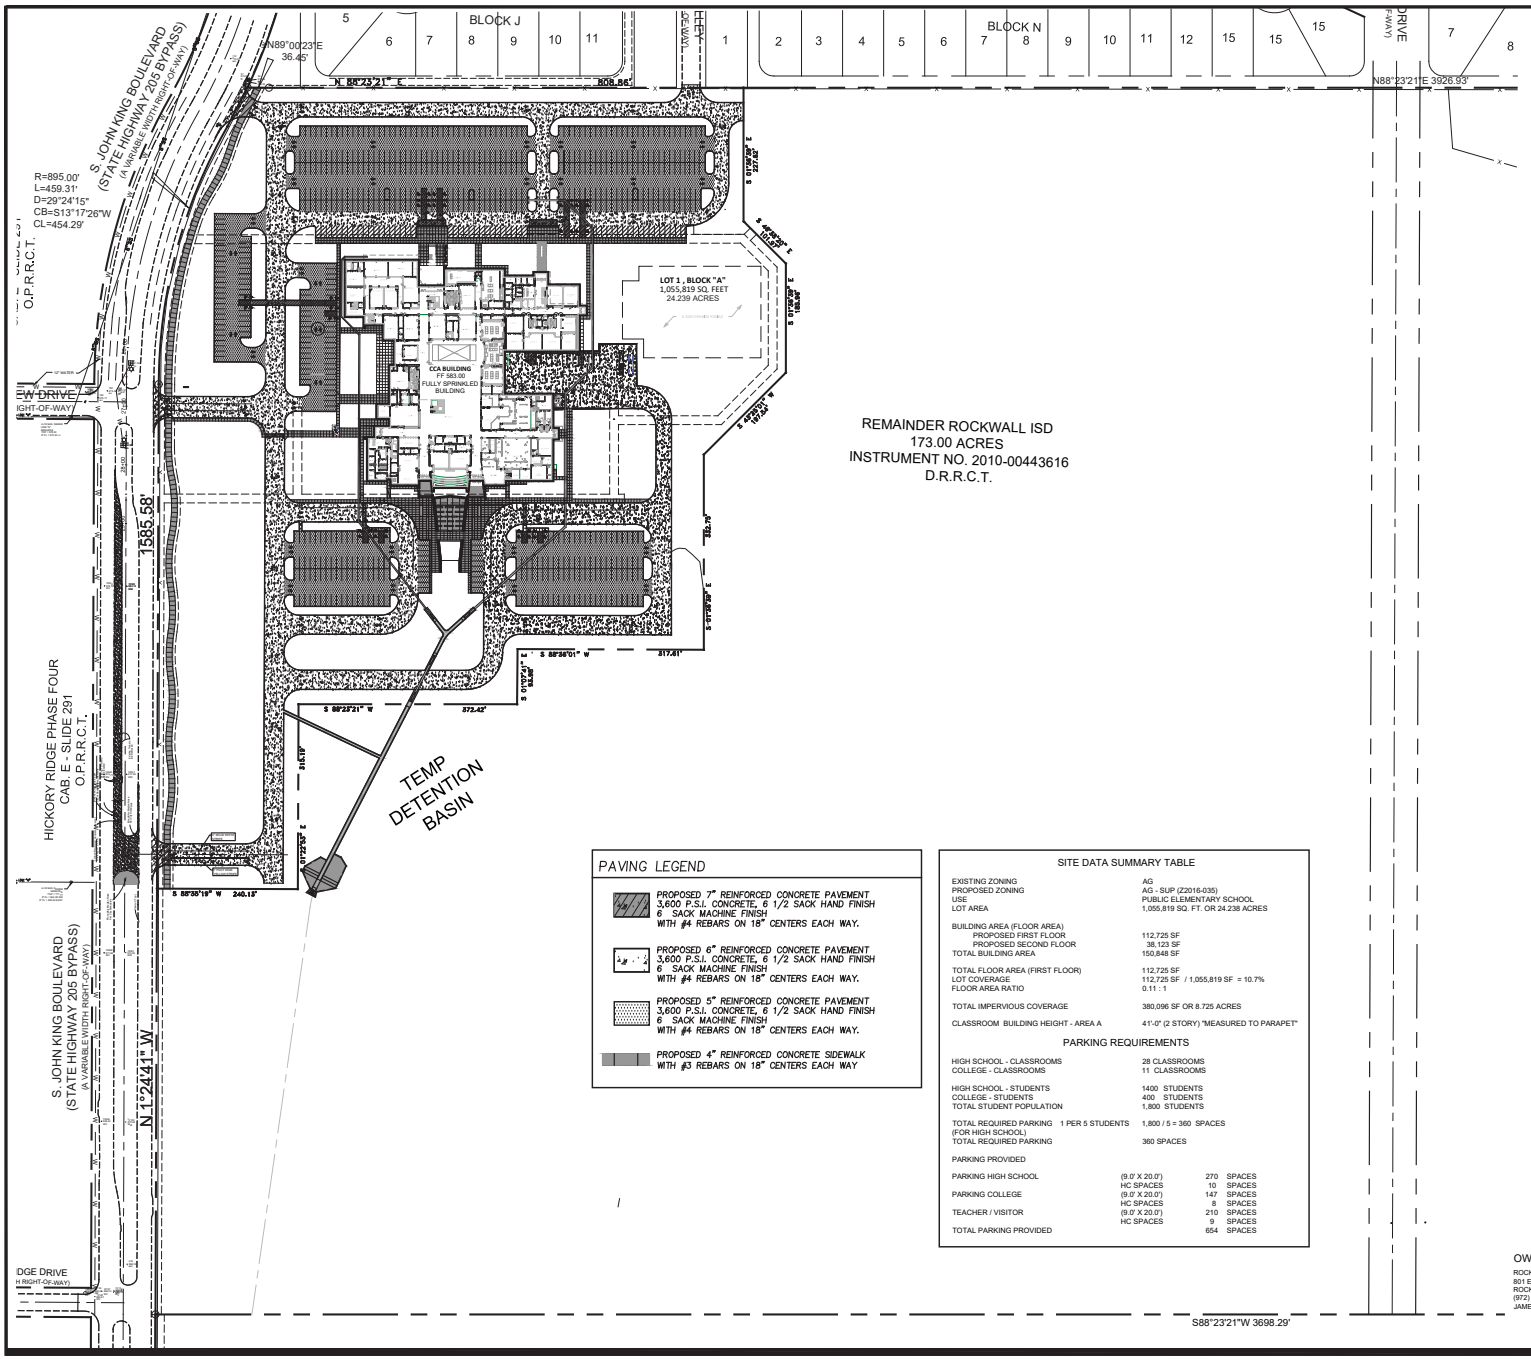


case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: November 29, 2016 (6:00p.m.) [applicant to present case to P&Z for discussion].

Planning - Action: December 13, 2016 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, etc.)



City Council - Action: December 19, 2016 (6:00 p.m.) [FOR VARIANCE & EXCEPTION REQUEST ONLY]

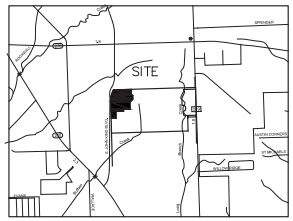
GENERAL NOTES:



1. STRIPING & SIGNAGE DIMENSIONS ARE FROM FACE OF CURB
2. ALL FIRE LANES, PARKING STRIPING, HDCP PARKING STRIPING & SIGNAGE ARE TO BE IN ACCORDANCE WITH CITY OF ROCKWALL REQUIREMENTS, TYP.
3. PRIOR TO ANY CONSTRUCTION THE CONTRACTOR SHALL FAMILIARIZE HIMSELF WITH THE CONTRACT DOCUMENTS AND SPECIFICATIONS, THE PLANS INCLUDING ALL NOTES, THE CITY OF ROCKWALL SPECIFICATIONS AND ANY OTHER APPLICABLE STANDARDS OR SPECIFICATIONS RELEVANT TO THE PROPER COMPLETION OF THE WORK SPECIFIED, FAILURE ON THE PART OF THE CONTRACTOR TO FAMILIARIZE HIMSELF WITH ALL STANDARDS OR SPECIFICATIONS PERTAINING TO THIS WORK SHALL IN NO WAY RELIEVE THE CONTRACTOR OF RESPONSIBILITY FOR PERFORMING THE WORK IN ACCORDANCE WITH ALL SUCH APPLICABLE STANDARDS AND SPECIFICATIONS.
4. CONTRACTOR SHALL HAVE IN HIS POSSESSION, PRIOR TO CONSTRUCTION, ALL NECESSARY PERMITS, LICENSES, ETC. CONTRACTOR SHALL HAVE AT LEAST ONE SET OF APPROVED ENGINEERING PLANS AND SPECIFICATIONS ON-SITE AT ALL TIMES.
5. ALL WORK SHALL CONFORM TO THE CITY OF ROCKWALL SPECIFICATIONS, STANDARDS, AND DETAILS.
6. IF UNFORESEEN PROBLEMS OR CONFLICTS ARE ENCOUNTERED IN THE CONSTRUCTION, FOR WHICH AN IMMEDIATE SOLUTION IS NOT APPARENT, THE ENGINEER AND OWNER SHALL BE NOTIFIED IMMEDIATELY.
7. IT WILL BE THE RESPONSIBILITY OF EACH CONTRACTOR TO PROTECT ALL EXISTING PUBLIC AND PRIVATE UTILITIES THROUGHOUT THE CONSTRUCTION OF THIS PROJECT. CONTRACTOR SHALL CONTACT THE APPROPRIATE UTILITY COMPANIES FOR LINE LOCATIONS PRIOR TO COMMENCEMENT OF CONSTRUCTION AND SHALL ASSUME FULL LIABILITY TO THOSE COMPANIES FOR ANY DAMAGES CAUSED TO THEIR FACILITIES.
8. CONTRACTORS SHALL BE RESPONSIBLE FOR FIELD LOCATING EXISTING UTILITIES AND IMPROVEMENTS PRIOR TO CONSTRUCTION.
9. TRENCH SAFETY DESIGN WILL BE THE RESPONSIBILITY OF THE UTILITY CONTRACTOR. CONTRACTOR SHALL SUBMIT DESIGN TO THE CITY OF ROCKWALL ENGINEERING DEPARTMENT FOR REVIEW.
10. MARK FIRE LANES TO THE CITY OF ROCKWALL SPECIFICATION. "NO PARKING FIRE LANE" EVERY 25' WHITE 4" LETTERS ON A 6" RED STRIPED BACKGROUND.

NOTE

UTILITIES HAVE BEEN PLOTTED FROM AVAILABLE MAPS AND RECORDS AND THEREFORE, THEIR LOCATIONS ARE APPROXIMATE ONLY. ELEVATIONS SHOWN ARE BASED ON FIELD MEASUREMENTS. THERE MAY BE OTHER UTILITIES, THE EXISTENCE OF WHICH ARE NOT KNOWN TO THE UNDERSIGNED, SIZE AND LOCATION OF ALL UNDERGROUND UTILITIES MUST BE VERIFIED PRIOR TO ANY CONSTRUCTION.

0 100 200

Scale 1" = 100'

VICINITY MAP
N.T.S.

GENERAL NOTES:

CONTRACTOR TO VERIFY LOCATION OF ALL EXISTING UTILITIES.

BARRIER FREE RAMPS (BFR) IN PUBIC R.O.W. SHALL BE PER CITY STANDARDS AND DETAILS.

REFER TO DEVELOPMENT PLANS FOR GRADING DETAILS.

OUTDOOR LIGHTING NOTE:

ALL OUTDOOR LIGHTING MUST BE ORIENTED SO THAT LIGHTING LEVELS AT ALL PROPERTY LINES ARE 1 FOT-CANDLE OR LESS.

2. ALL FIRE LANES, PARKING STRIPING, HDCP PARKING STRIPING & SIGNAGE ARE TO BE IN ACCORDANCE WITH CITY OF ROCKWALL REQUIREMENTS, TYP.
3. PRIOR TO ANY CONSTRUCTION THE CONTRACTOR SHALL FAMILIARIZE HIMSELF WITH THE CONTRACT DOCUMENTS AND SPECIFICATIONS, THE PLANS INCLUDING ALL NOTES, THE CITY OF ROCKWALL SPECIFICATIONS AND ANY OTHER APPLICABLE STANDARDS OR SPECIFICATIONS RELEVANT TO THE PROPER COMPLETION OF THE WORK SPECIFIED. FAILURE ON THE PART OF THE CONTRACTOR TO FAMILIARIZE HIMSELF WITH ALL STANDARDS OR SPECIFICATIONS PERTAINING TO THIS WORK SHALL IN NO WAY RELIEVE THE CONTRACTOR OF RESPONSIBILITY FOR PERFORMING THE WORK IN ACCORDANCE WITH ALL SUCH APPLICABLE STANDARDS AND SPECIFICATIONS.
4. CONTRACTOR SHALL HAVE IN HIS POSSESSION, PRIOR TO CONSTRUCTION, ALL NECESSARY PERMITS, LICENSES, ETC. CONTRACTOR SHALL HAVE AT LEAST ONE SET OF APPROVED ENGINEERING PLANS AND SPECIFICATIONS ON-SITE AT ALL TIMES.
5. ALL WORK SHALL CONFORM TO THE CITY OF ROCKWALL SPECIFICATIONS, STANDARDS, AND DETAILS.
6. IF UNFORESEEN PROBLEMS OR CONFLICTS ARE ENCOUNTERED IN THE CONSTRUCTION, FOR WHICH AN IMMEDIATE SOLUTION IS NOT APPARENT, THE ENGINEER AND OWNER SHALL BE NOTIFIED IMMEDIATELY.
7. IT WILL BE THE RESPONSIBILITY OF EACH CONTRACTOR TO PROTECT ALL EXISTING PUBLIC AND PRIVATE UTILITIES THROUGHOUT THE CONSTRUCTION OF THIS PROJECT. CONTRACTOR SHALL CONTACT THE APPROPRIATE UTILITY COMPANIES FOR LINE LOCATIONS, PRIOR TO COMMENCEMENT OF CONSTRUCTION AND SHALL ASSUME FULL LIABILITY TO THOSE COMPANIES FOR ANY DAMAGES CAUSED TO THEIR FACILITIES.
8. CONTRACTORS SHALL BE RESPONSIBLE FOR FIELD LOCATING EXISTING UTILITIES AND IMPROVEMENTS PRIOR TO CONSTRUCTION.
9. TRENCH SAFETY DESIGN WILL BE THE RESPONSIBILITY OF THE UTILITY CONTRACTOR. CONTRACTOR SHALL SUBMIT DESIGN TO THE CITY OF ROCKWALL ENGINEERING DEPARTMENT FOR REVIEW.
10. MARK FIRE LANES TO THE CITY OF ROCKWALL SPECIFICATION. "NO PARKING FIRE LANE" EVERY 25' WHITE 4" LETTERS ON A 6" RED STRIPED BACKGROUND.

LANDSCAPE TABULATIONS

LANDSCAPE BUFFER STRIP

10' WIDE ALONG PERIMETER OF COMMERCIAL THAT ABUTS WITHOUT ALLEY OR DRIVE SEPARATION OR IS DIRECTLY ACROSS STREET FROM RESIDENTIAL, IF COMMERCIAL STRUCTURE EXCEEDS 24' ADJ. TO AN ALLEY 10' BUFFER SHALL BE REQUIRED ALONG ALLEY.

NORTH RESIDENTIAL BUFFER REQUIRED	10' BUFFER
BUFFER PROVIDED	10' BUFFER

STREET LANDSCAPING

10' BUFFER ALONG MAJOR ARTERIAL OR COLLECTOR, 1 LG. TREE PER 50 LF

WEST STREET BUFFER REQUIRED	10' BUFFER
BUFFER PROVIDED	10' BUFFER
WEST BUFFER TREES REQUIRED (1,345 LF X 50 LF =)	28 TREES
BUFFER PROVIDED	28 TREES

PARKING LOT LANDSCAPING

LOT WITH 2 ROWS HAVE GREATER OF 5% OR 200 SF LANDSCAPE, IF LOT OVER 20,000 SF 1 LG TREE PER 10 SPACES INTERIOR TO LOT, MAX 80 LF FROM TREE TO SPACE.

PARKING SPACES	557 SPACES
PARKING LANDSCAPE REQUIRED 149,100 SF X 5% =)	7,455 SF
PARKING LANDSCAPE PROVIDED	9,950 SF

AMOUNT OF LANDSCAPING

% LANDSCAPE BY ZONING, COMMERCIAL 15%, 50% LOCATED FRONT AND SIDE, DETENTION LANDSCAPED GRASSES, SHRUBS, TREES IN NATURAL MANNER, 1 TREE PER 750 SF OF DRY LAND AREA.

SITE AREA	987,900 SF
SITE LANDSCAPE REQUIRED 987,900 SF X 15% =)	148,185 SF
SITE LANDSCAPE PROVIDED	231,350 SF
% LANDSCAPE PROVIDED FRONT/SIDE	(82%) 121,600 SF
SITE IMPERVIOUS AREA	380,096 SF

205 BY-PASS CORRIDOR OVERLAY DISTRICT

15' BUFFER FOR COMMERCIAL 25' RESID. W/ 30' FROM QUAIL RUN TO 205, 50' FOR OFFICE, RESEARCH, TECH, AND INDUSTRIAL AND INCLUDE BERM AND/OR SHRUBS OR COMBO ALONG JOHN KING, BERM/SHRUB MIN HT. 30" MAX. HT. 48".

BUFFER PLANTINGS: 2 LG. TREES AND 4 ACCENT TREES PER 100 LF OF JKB, LG. TREES 4", BUR RED LIVE OAK, CED. ELM, LACEBARK. SHRUBS 15" ACCENT 4', YAUPON/POSSHM, RED BUD, PEAR, ELDARICA PINE, WAX MYRTLE, MEX. PLUM

205 OVERLAY (WEST) BUFFER REQUIRED	30' BUFFER
205 OVERLAY (WEST) BUFFER PROVIDED	30' BUFFER
205 OVERLAY LARGE TREES REQUIRED (1,345 LF / 100 LF X 2 =)	28 4" TREES
205 OVERLAY LARGE TREES PROVIDED	28 4" TREES
205 OVERLAY ACCENT TREES REQUIRED (1,345 LF / 100 LF X 4 =)	56 4' TREES
205 OVERLAY ACCENT TREES PROVIDED	56 4' TREES

ALL REQUIRED LANDSCAPE AREAS TO RECEIVE AUTOMATIC UNDERGROUND IRRIGATION WITH RAIN AND FREEZE PROTECTION TO MEET REQUIREMENTS OF UDC.

LANDSCAPE NOTES

LANDSCAPE CONTRACTOR SHALL REPLACE ALL AREAS DISTURBED BY CONSTRUCTION. THE DISTURBED AREAS SHALL BE REPLACED WITH SOD OR HYDRO PER THE SPECIFICAITONS UNLESS NOTED OTHERWISE ON THE PLANS.

LANDSCAPE CONTRACTOR SHOULD VISIT SITE AND REFERENCE CIVIL ENGINEER'S GRADING PLAN PRIOR TO BIDDING AND COMMENCEMENT OF CONSTRUCTION TO VERIFY AREAS TO BE DISTURBED BY CONSTRUCTION ACTIVITIES.

REFERENCE CIVIL PLANS FOR FINAL GRADING AND UTILITIES.

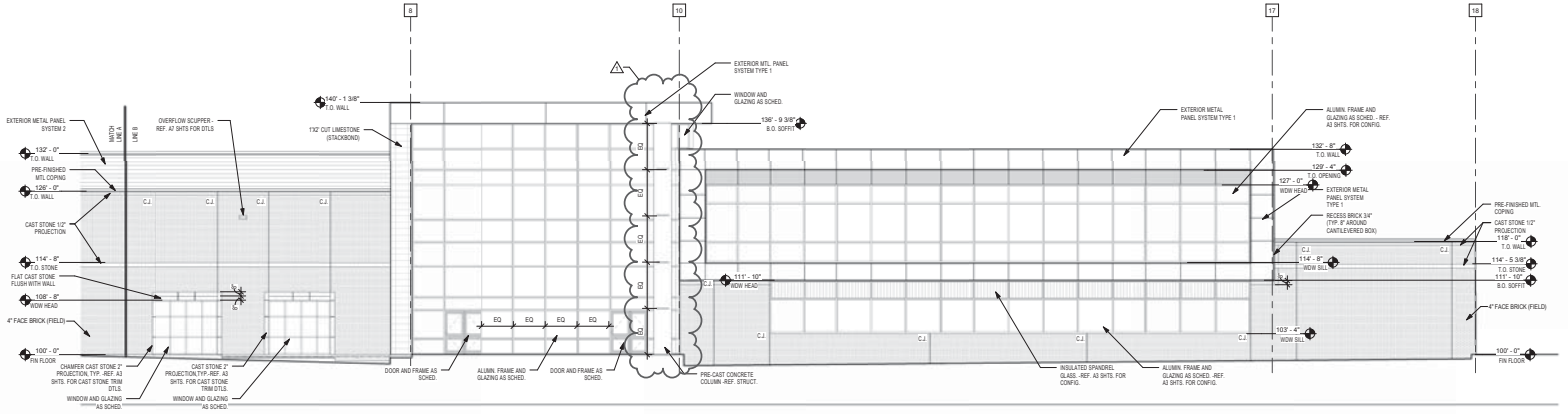
City of Rockwall
Site Plan Review Checklist

Re: Rockwall ISD
Project Name: Rockwall College and Career Academy
Project Number: 01738-01-01

Architectural Building Materials:

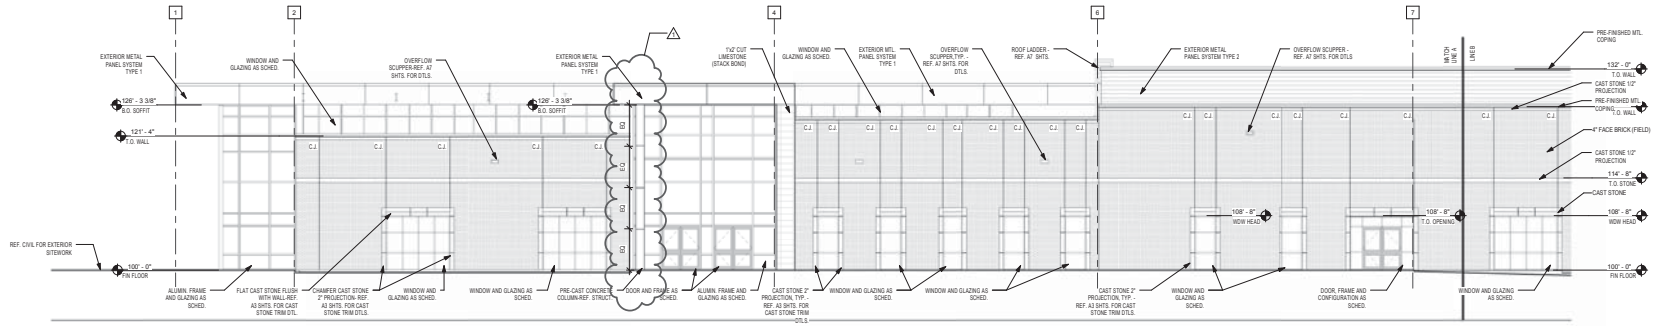
1. Building Total: (City Council Presentation for approval)
    a. 74% Masonry
        i. 33% Brick
        ii. 23% Glazing
        iii. 12% Cut Limestone
        iv. 6% Cast Stone
    b. 26% Other (ACM, Metal Panel Profile, Synthetic wood)
        i. 21% ACM (composite metal panel)
        ii. 3% Profile Metal Panel
        iii. 2% Synthetic wood

2. Facades: (Based on literal head on Elevations for sf)
    a. West Façade (Facing John King Blvd.) - 16,446 SF
        i. Glazing - 30% (4898 sf)
        ii. Brick - 23% (3825 sf)
        iii. ACM - 23% (3875 sf)
        iv. Cut Limestone - 20% (3278 sf)
        v. Cast Stone - 4% (570 sf)
    b. South Façade (Facing Open area/ Future HS) - 12,675 SF
        i. Glazing - 32% (4081 sf)
        ii. Brick - 26% (3260 sf)
        iii. Cut Limestone - 24% (3040 sf)
        iv. ACM - 14% (1806 sf)
        v. Cast Stone - 4% (488 sf)
    c. East Façade – 14,272 SF
        i. Brick - 46% (6565 sf)
        ii. ACM - 18% (2527 sf)
        iii. Glazing - 17% (2374 sf)
        iv. Cut Limestone - 9% (1308 sf)
        v. Profile Metal Panel - 5% (778 sf)
        vi. Cast Stone - 5% (720 sf)



d. North Façade - 16,611 SF
    i. Glazing - 41% (6752 sf)
    ii. Brick - 34% (5703 sf)
    iii. ACM - 11% (1826 sf)
    iv. Profile Metal Panel - 6% (1044 sf)
    v. Cut Limestone - 4% (711 sf)
    vi. Cast Stone - 4% (574 sf)

3. Roofing Materials:
    a. ACM Overhang Fascia along clerestory roof overhangs. This accounts for a good percentage of the ACM numbers above.
    b. Single ply white color roofing, behind parapets. Non-visible from exterior.



4. Design Elements:
    a. Tall Entry elements with folded form and cylindrical columns at Main Entry, Student Entries (North & South) and College Entry.
    b. Vertical sun louvers on west curtain wall
    c. Geometrical massing forms represented with ACM panels
    d. Cantilevered form/second floor at North
    e. South Plaza with presentation wall
    f. Raised clerestory windows above large common spaces and circulation

5. Articulation:
    a. Horizontal Articulation: Meets or Exceeds standards – see elevations and rendered perspectives issued as part of this submittal.
    b. Vertical Articulation: Meets or Exceeds standards – see elevations and rendered perspectives issued as part of this submittal.

3 NORTH ELEVATION - SECTION 3/A5.1
A5.1 1/8" = 1'-0"

2 NORTH ELEVATION - SECTION 2/A5.1
A5.1 1/8" = 1'-0"

1 NORTH KEY ELEVATION
A5.1 1/16" = 1'-0"

KEY PLAN - 1ST FLOOR
N.T.S.

THIS DRAWING IS NOT TO SCALE AND IS PROVIDED FOR REFERENCE PURPOSES ONLY. DRAWING IS NOT INTENDED FOR REGULATORY APPROVAL, PERMITTING, OR CONSTRUCTION. REFER TO FLOOR PLANS AND DETAILS FOR SPECIFIC PROJECT INFORMATION.

3D VIEW DISCLAIMER

DURING CONSTRUCTION CONTRACTOR SHALL PROVIDE SHOP DRAWINGS FOR NOMINAL ELEVATIONS, LENGTH, AND HEIGHT OF CUT STONE VENEER. COORDINATE WITH ARCHITECT BEFORE MASONRY VENEER CONSTRUCTION BEGINS.

CUT STONE VENEER

1) INSTALL ALL WINDOW, DOOR, AND OTHER WALL PENETRATION SYSTEMS AND MEMBRANE FLASHING AND WATER TEST PRIOR TO VENEER FINISH INSTALLATION.

2) REFER TO A7 SHEETS FOR TYPICAL FLASHING CONFIGURATIONS.

GENERAL NOTES APPLICABLE TO ALL A5 SHEETS

1 ROOF PLAN
A7.1 1/16" = 1'-0"

TYPICAL ROOF NOTES

1) PROVIDE AND INSTALL SINGLE-PLY ROOFING SYSTEM WITH RIGID INSULATION AS SPECIFIED. REFER TO SPECIFICATIONS FOR ATTACHMENT REQUIREMENTS FOR ROOF INSULATION BOARD. REFER TO SPECIFICATIONS AND STRUCTURAL DRAWINGS FOR DESCRIPTION OF UNDERLYING STEEL DECK.

2) PROVIDE PERLITE TAPERED INSULATION AS SHOWN ON THE DRAWINGS. TAPERED INSULATION SHALL BE INSTALLED TO PROVIDE TWO PERCENT (1/4" PER FOOT) MINIMUM SLOPE IN ANY ROOF PLANE AND ONE PERCENT (1/8" PER FOOT) MINIMUM SLOPE DOWN VALLEYS TOWARD ROOF DRAINS.

3) EXPANSION JOINT COVERS SHALL BE AS SHOWN ON TYPICAL ROOF DETAILS. EXPANSION JOINT COVERS SHALL BE INSTALLED WHERE INDICATED ON PLANS AND IN FULL ACCORDANCE WITH CONVENTIONAL ROOFING AND SHEET METAL PRACTICES. ALL EXPANSION JOINT COVERS AND END CLOSURES AT SINGLE-PLY ROOF SHALL BE 24 GA. G.I. (REFER TO EXPANSION JOINT DETAILS AND ROOFING PLAN FOR LOCATION).

4) REF. TO PLUMBING DRAWINGS FOR ROOF DRAIN SIZING & LEADER INFORMATION. INSULATE THE EXPOSED ROOF DRAIN PIPING AND ROOF DRAIN BODY IN THE ATTIC. EXTEND DOWNSPOUTS THROUGH CHASES INTO UNDERGROUND COLLECTION SYSTEM. REFER TO MECH AND CIVIL DRAWINGS FOR EXTENSION. IF ROOF DRAINS CONFLICT WITH STRUCTURAL, MOVE AS DIRECTED, BUT MAKE ALL WALL PENETRATIONS AS SHOWN. REFER TO PLUMBING SHTS. FOR UNDERGROUND PIPING.

5) ROOFING CONTRACTOR SHALL PROVIDE & INSTALL ALL FLASHINGS, COUNTERFLASHINGS, EXPANSION JOINT COVERS, & GUTTERS. ROOFING CONTRACTOR SHALL INSTALL ROOF DRAINS AND FLASHING & COUNTER FLASHING CALLED FOR ON ALL MECHANICAL EQUIPMENT. ALL ROOF FLASHINGS AND COUNTERFLASHINGS SHALL BE MIN. 24 GA. G.I. WHEN CONCEALED FROM VIEW AND MIN. 24 GA. PRE-FINISHED GALV. METAL WHEN EXPOSED TO VIEW. SCUPPERS SHALL BE PRE-FINISHED GALV. METAL.

6) SEE MECHANICAL AND ELECTRICAL SHEETS FOR VENTS, GAS LINES, A/C UNITS, EXHAUST FANS, ETC.

7) REFER TO STRUCTURAL DRAWINGS FOR ROOF MOUNTING FRAME SUPPORT DETAILS.

8) GENERAL CONTRACTOR SHALL COORDINATE ROOFING, PLUMBING, AND MECHANICAL CONTRACTOR ON ALL WORK.

9) COUNTERFLASHINGS SHALL BE MIN. 24 GA. G.I. WHERE SINGLE-PLY ROOF SLOPES AT WALL LINE UNIFORMLY STEP FLASHINGS AS DIRECTED BY ARCHITECT AND LAP JOINTS 3" MINIMUM IN A WATERTIGHT CONDITION.

10) ALL WOOD MATERIALS INCLUDED IN THE ROOF OR PARAPET ASSEMBLY, INCLUDING CURBS, BLOCKING, AND NAILERS SHALL BE PRESERVATIVE-TREATED AS SPECIFIED.

11) WOOD NAILER FASTENING: FASTENER PER FACTORY MUTUAL SYSTEM, LOSS PREVENTION DATA 1-49.

12) WOOD BLOCKING TO METAL DECK: ATTACH NAILER TO THE METAL DECK WITH TWO ROWS OF NO. 15 GALVANIZED STEEL METAL SCREWS AT 24" O.C. PROVIDE A GALVANIZED STEEL WASHER (SIT O.D.) AT EACH SCREW. TOP NAILER PLATE SHALL BE FASTENED TO BOTTOM NAILER PLATE WITH NAILS LONG ENOUGH TO PENETRATE 1 1/4" INTO BOTTOM NAILER AND SPACED 24" STAGGERED IN TWO ROWS. SPACING SHALL NOT EXCEED 12" FOR A MINIMUM OF 8' - 0" EACH WAY FROM AN OUTSIDE CORNER. WITHDRAWAL RESISTANCE SHALL BE 100 LBS. PER NAIL MINIMUM.

13) ALL CURBS (FOR MECHANICAL EQUIPMENT, EXPANSION JOINTS, ETC.) SHALL PROVIDE A MINIMUM OF 8" FLASHING HEIGHT ABOVE FINISH ROOF LEVEL AT ALL CONDITIONS, INCLUDING ABOVE CRICKETS.

14) ALL WORK SHALL BE COMPLETED SO AS TO PRODUCE A 100 PERCENT WATERTIGHT CONDITION FOR THE LIFE OF THE ROOF WARRANTY.

Discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a site plan for a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Interior Subdistrict, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [FM-3097] and Summer Lee Drive, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, December 6, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. Label site plan documents with "Case No. SP2016-030" at the lower right corner of each plan.
4. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department (if any).
5. Is there a Streetscape Plan? PD-32 (Ord. 10-21) Exhibit C-4 has streetscape elements that must be adhered to:
a) Street Furnishings (i.e. benches, trash receptacles, bike racks, etc.).
b) Lighting (i.e. tree uplighting)
c) Landscape (i.e. tree leave-outs, decorative pots, etc.)
** You may also refer to the resolution establishing Design Guidelines for the district. See Ord. 10-40.
6. Refer to PD-32 (Ord. 10-21) Exhibit F-2 for retaining wall requirements for all retaining walls associated with the development (if any). If so, provide detail.

Please address the following Planning Comments for each plan submitted:

Site Plan:
1.Label street as "24-ft Firelane & Public Access & Utility Easement."
2. Provide a street name for street type G1.
3. Use a darker gray scale in order to delineate the courtyard area.
4. Provide label for 2-ft parkway.
5. Stub out west bound street to property line (south side of condo's).
6. Provide a legend with site details and abbreviations.

Building Elevations:
1. The buildings' elevations are subject to Ord. 16-54 as depicted in Exhibit 'C' and the Residential Subdistrict architectural guidelines of Ord. 10-21, Exhibit E-9.
2. Based on the elevations submitted, will you be requesting to amend the PD Ord. 16-54 to allow for the submitted elelvations?
3. The building elevations are required to be reviewed by the Architectural Review Board per Ord. 16-54 and PD-32 (Ord. 10-21).
4. Provide a color rendering/perspective and a materials sample board for ARB review.

Photometric Plan:
1. Meet the intent of PD-32, the Unified Development Code (UDC), and is OK as submitted.

**The following plans are required to be submitted in order to continue the site plan process:
a) Landscape Plan:

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

b) Treescape Plan:
c) Open Space Master Plan (ASAP - requires Parks Board review and approval - refer to schedule below)
d) Streetscape Plan

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the PD Site Plan request. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICPwith the Planning Department at 972-771-7745 or e-mail dgonzales@rockwall.com

Meeting Dates to Attend:

Parks Board Meeting - Discussion - December 6, 2016 (6:00 p.m.) Open Space Master Plan - Review

Architecural Review Board - Discussion/Recommendation to P&Z: November 29, 2016 (5:00 p.m.)

Planning& Zoning - Work Session: November 29, 2016 (6:00 p.m.) [Applicant to provide presentation/discussion with the Planning Commission]

Planning & Zoning - Action: December 13, 2016 (6:00 p.m.) [P&Z to take action on request: approve, approve with conditions, or deny]

City Council - Action: December 19, 2016 (6:00 p.m.) [FOR VARIANCE REQUESTS ONLY]

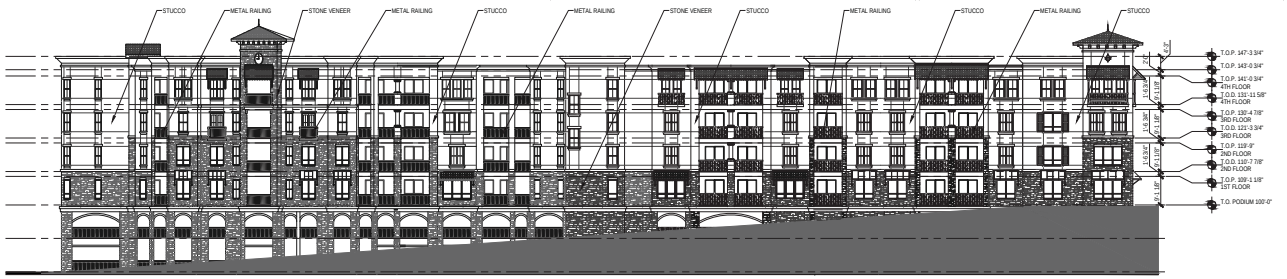
COLOR LEGEND

1. ALL BUILDING TRIM, FASCIA, HEADERS, SILLS, TRELLIS, CORNICES, PARAPETS, BALCONY BASE TRIM, STAIR OVERHANGS, AND STAIR WING WALLS TO BE SW 7006 PACER WHITE. WINDOW FRAMES AND ALUMINUM CANOPIES TO MATCH.
2. ALL EXPOSED ALUMINUM MCHIHA CORNERS, EDGING, AND CONNECTIONS TO BE DARK ANTIQUE BRONZE.
3. ILLUMINATION SERIES CORNERS TO BE PATTERN OF SW 2806 ROCKWOOD BROWN, SW 2848 ROYCROFT PEWTER, SW 2855 SYCAMORE TAN, SWTOTN CYBER SPACE, AND SW606 BLACK BEAN. ARCHITECT TO DISTRIBUTE COLOR KEY.
4. FLASHING & EXPANSION JOINT COVERS TO MATCH ADJACENT WALL COLOR.
5. BALCONY RAILS, DOORS, GUTTERS, AND DOWNSPOUTS TO BE BROWN IN COLOR SELECTED FROM MANUFACTURER STANDARD COLORS BY ARCHITECT DURING THE SUBMITTAL PROCESS.
6. CONTRACTOR TO SUBMIT MANUFACTURER COLOR OPTIONS FOR COILING GARAGE DOOR, NICHIHA METAL TRIM, WINDOW FRAMES, AND ALUMINUM CANOPIES.



P1	FIELD COLOR 1	C1	**CANOPY #1 REF A7.XX**
P2	FIELD COLOR 2	C2	CANOPY #2 REF A7.XX
P3	FIELD COLOR 3		

ELEVATION NOTES

1. PROVIDE 1/2" MINIMUM OF SLOPE AWAY FROM WALL ON TOP SURFACE OF WALL PROJECTIONS.
2. MOUNT ALL EXTERIOR WALL LIGHT FIXTURES WHERE BOTTOM OF LIGHT FIXTURE IS AT 6'-8" A.F.F. WHERE THEY PROJECT MORE THAN 4" FROM FACE OF WALL.
3. REFER TO CIVIL AND STRUCTURAL DRAWINGS FOR F.F.E. AND SLAB BREAKS
4. FLASHING, WATERPROOF MEMBRANES, PROPER CAULKS AND SEALANTS (BACKER RODS AS REQUIRED) SHALL BE INSTALLED AROUND ALL WINDOWS, DOORS, ROOF OPENINGS, HORIZONTAL AND VERTICAL JOINTS OF DISSIMILAR MATERIALS, MATERIAL TRANSITIONS, TRIMS, BALCONIES AND OTHER WEATHER EXPOSED AREAS.
5. PROVIDE A WATER TIGHT BUILDING(S), ROOF AND EXTERIOR ENVELOPE THAT SHEDS WATER PROPERLY.
6. ALL PATIOS, PORCHES, BALCONIES, AND SIDEWALKS TO BE SLOPED 1/4" PER 1'-0" MINIMUM IN DIRECTION INDICATED ON PLANS AND AWAY FROM EXTERIOR WALLS.
7. GRADES AROUND ALL EXTERIOR WALLS OF THE BUILDING TO BE 8 INCHES MINIMUM BELOW THE FINISHED FLOOR AND IS TO SLOPE AWAY FROM THE BUILDING 5% MIN FOR 10' PER IBC 1804.3.
8. GRADE ELEVATIONS ARE APPROXIMATE. REFER TO CIVIL & HARDSCAPE DRAWINGS FOR FINE GRADING.
9. PROJECT ADDRESS SIGNAGE TO BE 12" HT. INDIVIDUAL MOUNT, METAL REVERSE PAN CHANNEL NUMBER, STREET NUMBERS ONLY.
10. SIGNS ARE FOR REFERENCE ONLY. ALL SIGNS SHALL BE REVIEWED AND INSTALLED UNDER SEPARATE PERMIT.
11. ALL EXTERIOR COLORS, FINISHES, AND DECORATIVE TRIM BANDS TO TERMINATE AT AN INSIDE CORNER. U.N.O.
12. ALIGN ALL MECHANICAL VENTS BOTH HORIZONTALLY AND VERTICALLY.
13. PER 2012 IBC SECTION 1406.2.2(2), ARCHITECTURAL TRIM THAT EXCEEDS 40'-0" AFG IN HEIGHT ON BUILDING (I-B, III CONSTRUCTION) SHALL BE OF APPROVED, NON-COMBUSTIBLE MATERIALS AND SHALL BE SECURED TO THE WALL WITH METAL OR OTHER APPROVED, NON-COMBUSTIBLE BRACKETS.
14. PITCHED ROOFS, CRICKETS, DORMERS, ETC. TO HAVE A MINIMUM ROOF PITCH OF 4:12. REFER TO ROOF PLAN FOR ROOF PITCHES.

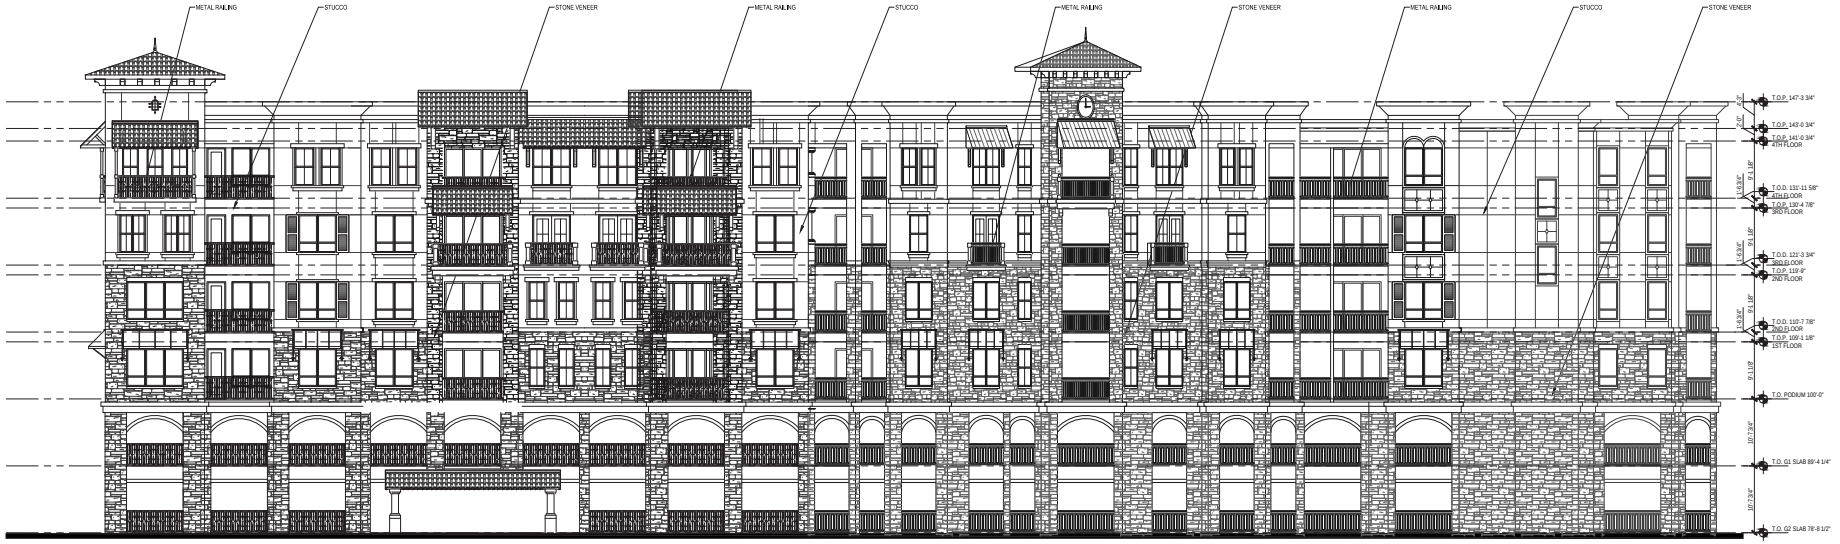
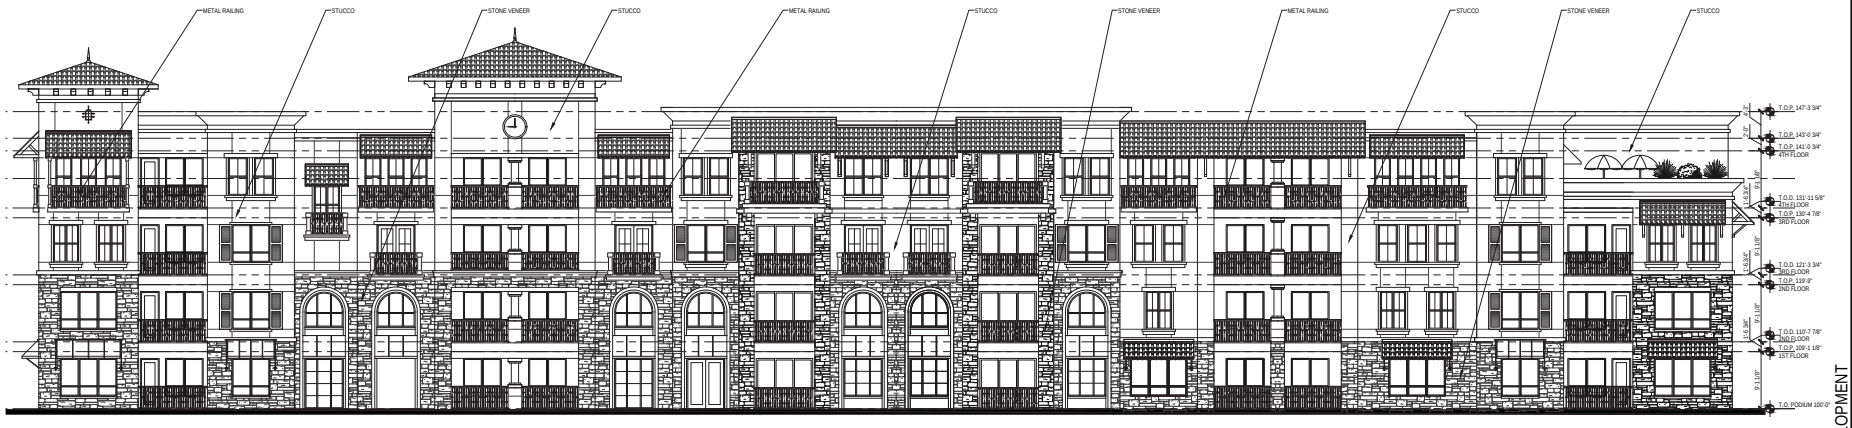
2. ALL EXPOSED ALUMINUM NICHIHA CORNERS, EDGING, AND CONNECTIONS TO BE DARK ANTIQUE BRONZE.
3. ILLUMINATION SERIES CORNERS TO BE PATTERN OF SW 2806 ROCKWOOD BROWN, SW 2848 ROYCROFT PEWTER, SW 2855 SYCAMORE TAN, SW7076 CYBER SPACE, AND SW6004 BLACK BEAN. ARCHITECT TO DISTRIBUTE COLOR KEY.
4. FLASHING & EXPANSION JOINT COVERS TO MATCH ADJACENT WALL COLOR.
5. BALCONY RAILS, DOORS, GUTTERS, AND DOWNSPOUTS TO BE BROWN IN COLOR SELECTED FROM MANUFACTURER STANDARD COLORS BY ARCHITECT DURING THE SUBMITTAL PROCESS.
6. CONTRACTOR TO SUBMIT MANUFACTURER COLOR OPTIONS FOR COILING GARAGE DOOR, NICHIHA METAL TRIM, WINDOW FRAMES, AND ALUMINUM CANOPIES.



P1	FIELD COLOR 1	C1	**CANOPY #1 REF A7.XX**
P2	FIELD COLOR 2	C2	CANOPY #2 REF A7.XX
P3	FIELD COLOR 3		

ELEVATION NOTES



1. PROVIDE 1/2" MINIMUM OF SLOPE AWAY FROM WALL ON TOP SURFACE OF WALL PROJECTIONS.
2. MOUNT ALL EXTERIOR WALL LIGHT FIXTURES WHERE BOTTOM OF LIGHT FIXTURE IS AT 6'-8" A.F.F. WHERE THEY PROJECT MORE THAN 4" FROM FACE OF WALL.
3. REFER TO CIVIL AND STRUCTURAL DRAWINGS FOR F.F.E. AND SLAB BREAKS
4. FLASHING, WATERPROOF MEMBRANES, PROPER CAULKS AND SEALANTS (BACKER RODS AS REQUIRED) SHALL BE INSTALLED AROUND ALL WINDOWS, DOORS, ROOF OPENINGS, HORIZONTAL AND VERTICAL JOINTS OF DISSIMILAR MATERIALS, MATERIAL TRANSITIONS, TRIMS, BALCONIES AND OTHER WEATHER EXPOSED AREAS.
5. PROVIDE A WATER TIGHT BUILDING(S), ROOF AND EXTERIOR ENVELOPE THAT SHEDS WATER PROPERLY.
6. ALL PATIOS, PORCHES, BALCONIES, AND SIDEWALKS TO BE SLOPED 1/4" PER 1'-0" MINIMUM IN DIRECTION INDICATED ON PLANS AND AWAY FROM EXTERIOR WALLS.
7. GRADES AROUND ALL EXTERIOR WALLS OF THE BUILDING TO BE 8 INCHES MINIMUM BELOW THE FINISHED FLOOR AND IS TO SLOPE AWAY FROM THE BUILDING 5% MIN FOR 10' PER IBC 1804.3.
8. GRADE ELEVATIONS ARE APPROXIMATE. REFER TO CIVIL & HARDSCAPE DRAWINGS FOR FINE GRADING.
9. PROJECT ADDRESS SIGNAGE TO BE 12" HT. INDIVIDUAL MOUNT, METAL REVERSE PAN CHANNEL NUMBER, STREET NUMBERS ONLY.
10. SIGNS ARE FOR REFERENCE ONLY. ALL SIGNS SHALL BE REVIEWED AND INSTALLED UNDER SEPARATE PERMIT.
11. ALL EXTERIOR COLORS, FINISHES, AND DECORATIVE TRIM BANDS TO TERMINATE AT AN INSIDE CORNER. U.N.O.
12. ALIGN ALL MECHANICAL VENTS BOTH HORIZONTALLY AND VERTICALLY.
13. PER 2012 IBC SECTION 1406.2.2(2), ARCHITECTURAL TRIM THAT EXCEEDS 40'-0" AFG IN HEIGHT ON BUILDING (I-B, III CONSTRUCTION) SHALL BE OF APPROVED, NON-COMBUSTIBLE MATERIALS AND SHALL BE SECURED TO THE WALL WITH METAL OR OTHER APPROVED, NON-COMBUSTIBLE BRACKETS.
14. PITCHED ROOFS, CRICKETS, DORMERS, ETC. TO HAVE A MINIMUM ROOF PITCH OF 4:12. REFER TO ROOF PLAN FOR ROOF PITCHES.

Discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a site plan for 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Residential Subdistrict and within the Scenic Overlay (SOV) District, located north of the intersection of Ridge Road [FM-740] and Glen Hill Way, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, December 6, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. Label site plan documents with "Case No. SP2016-031" at the lower right corner of each revised plan.
4. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department (if any).
5. Is there a Streetscape Plan? PD-32 (Ord. 10-21) Exhibit C-4 has streetscape elements that must be adhered to:
a) Street Furnishings (i.e. benches, trash receptacles, bike racks, etc.).
b) Lighting (i.e. tree uplighting)
c) Landscape (i.e. tree leave-outs, decorative pots, etc.)
** You may also refer to the resolution establishing Design Guidelines for the district. See Ord. 10-40.
6. Refer to PD-32 (Ord. 10-21) Exhibit F-2 for retaining wall requirements for all retaining walls associated with the development (if any). If so, provide detail.

Please address the following Planning Comments for each plan submitted:

Site Plan:
1. Stub out east & west bound access points to property line.
2. Provide a legend with site details and abbreviations.

Building Elevations:
1. The buildings' elevations are subject to Ord. 16-48 as depicted in Exhibit 'C' and the Residential Subdistrict architectural guidelines of Ord. 10-21, Exhibit E-9.
2. Based on the elevations submitted, will you be requesting to amend the PD Ord. 16-48 to allow for the submitted elelvations?
3. The building elevations are required to be reviewed by the Architectural Review Board per Ord. 16-54 and PD-32 (Ord. 10-21).
4. Provide a color rendering/perspective and a materials sample board for ARB review.

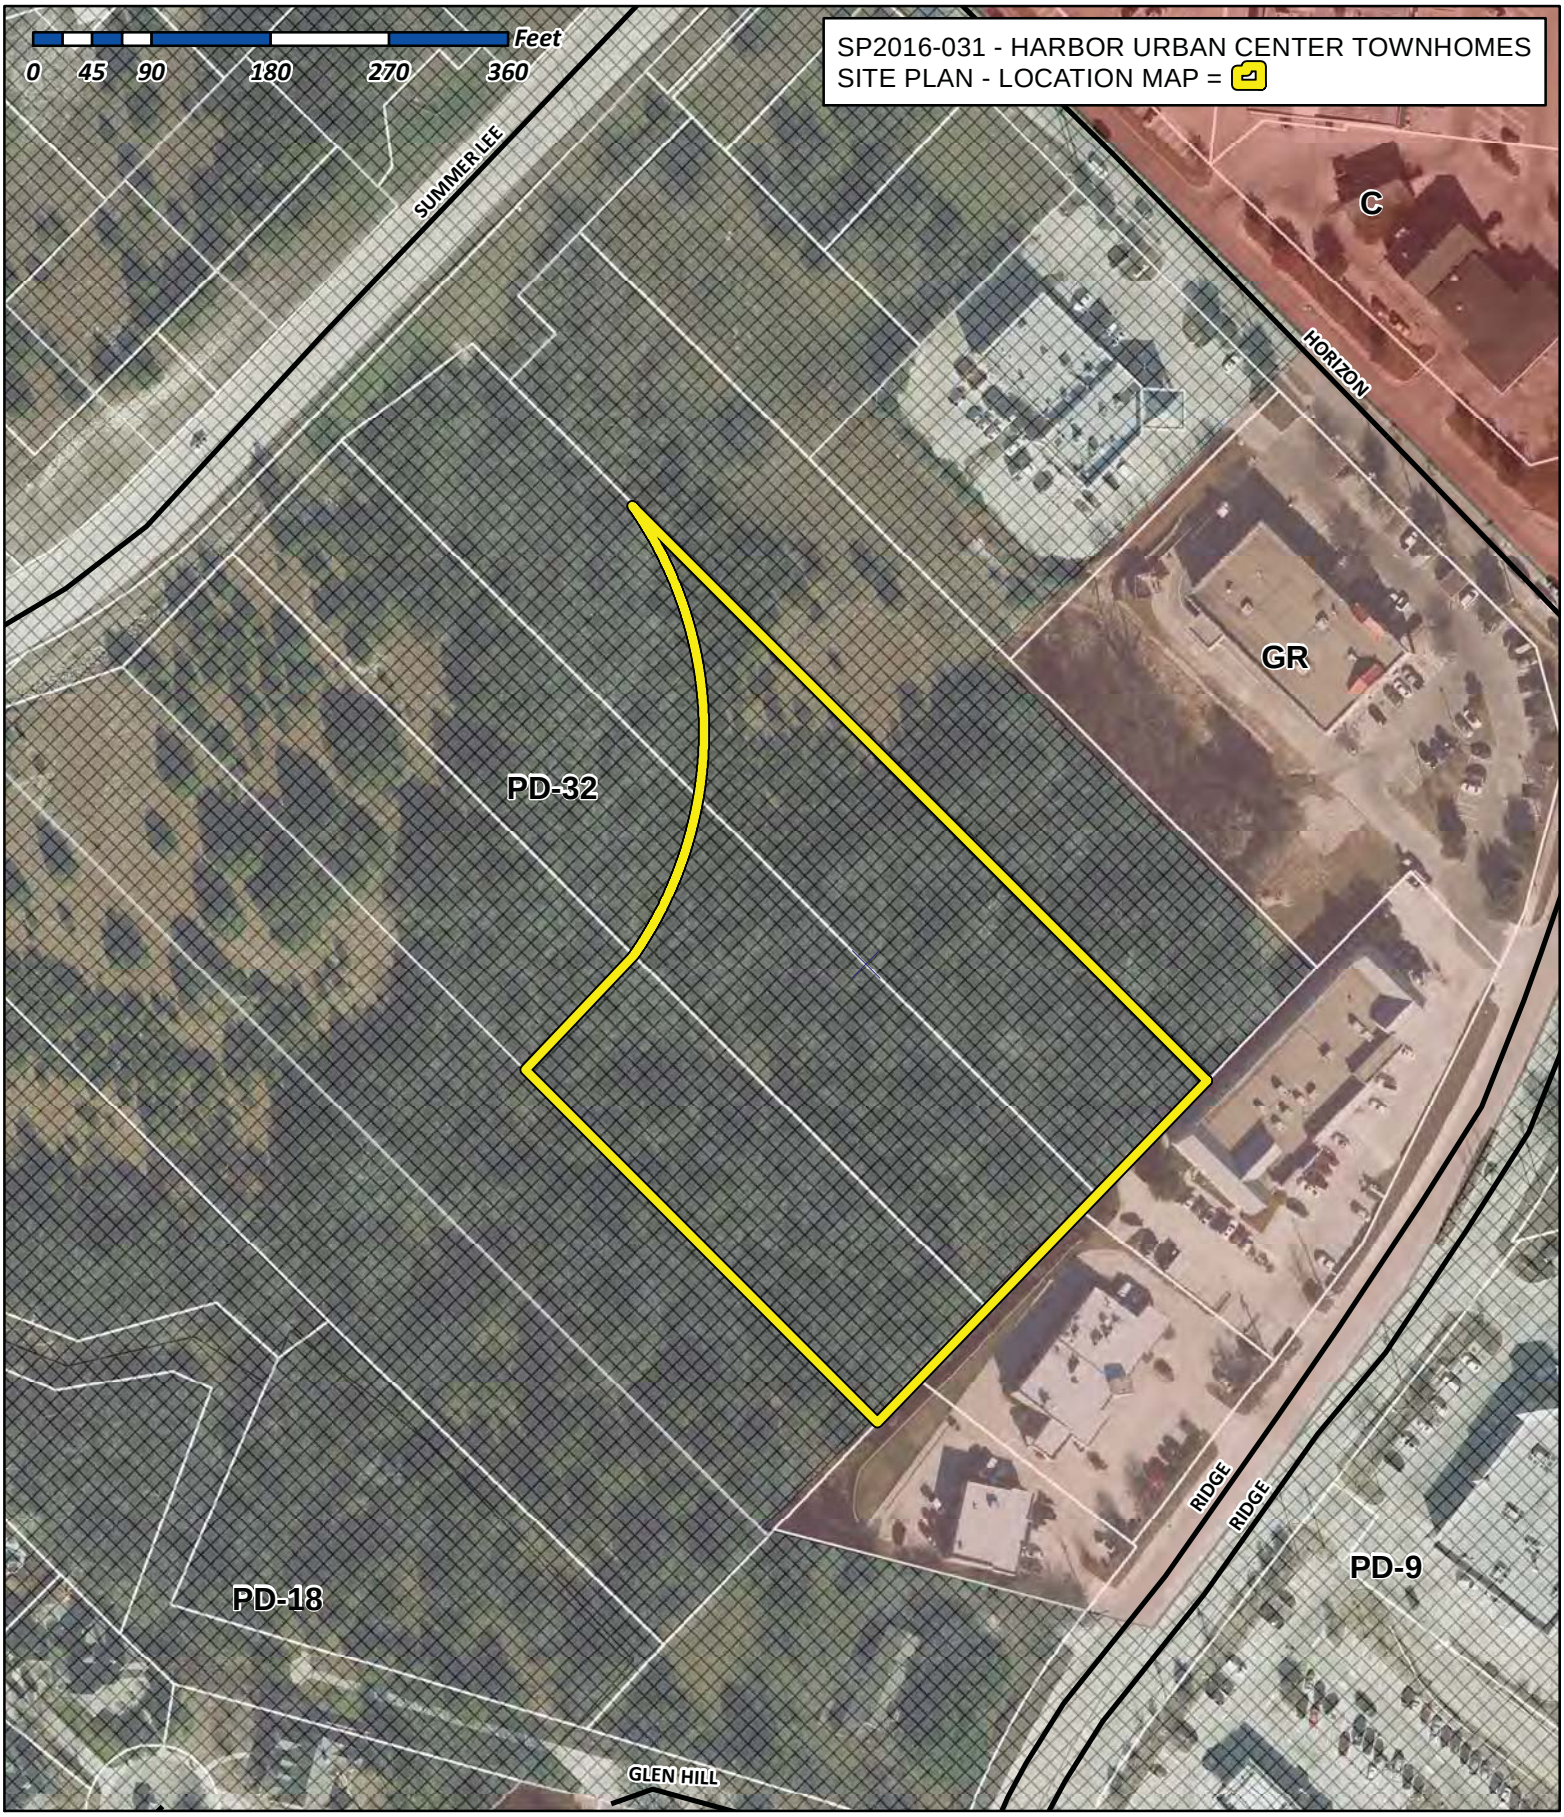
Photometric Plan:
1. Meet the intent of PD-32, the Unified Development Code (UDC), and is OK as submitted.

**The following plans are required to be submitted in order to continue the site plan process:
a) Landscape Plan:
b) Treescape Plan:
c) Open Space Master Plan (ASAP - requires Parks Board review and approval - refer to schedule below)
d) Streetscape Plan

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the PD Site Plan request. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICPwith the Planning Department at 972-771-7745 or e-mail dgonzales@rockwall.com

Meeting Dates to Attend:



Parks Board Meeting - Discussion - December 6, 2016 (6:00 p.m.) Open Space Master Plan - Review

Architecural Review Board - Discussion/Recommendation to P&Z: November 29, 2016 (5:00 p.m.)

Planning & Zoning - Work Session: November 29, 2016 (6:00 p.m.) [Applicant to provide presentation/discussion with the Planning Commission]

Planning & Zoning - Action: December 13, 2016 (6:00 p.m.) [P&Z to take action on request: approve, approve with conditions, or deny]

City Council - Action: December 19, 2016 (6:00 p.m.) [FOR VARIANCE REQUESTS ONLY]

TYPE 'SA' BEGA 9701 MH 100W PSMH FIXTURE ON BEGA 1108 11'8" TAPERED ROUND POLE WITH INTEGRAL BANNER ARMS. POWDER COAT RAL #7003 MOSS GREY

Pole top luminaire with symmetrical light distribution

Housing: Two interlocking die cast aluminum housings. Heavy gauge .093" (mm) aluminum shards with rolled edge, finished white inside. Top castings are marine grade, copper free (≤ 0.3% copper content ASTM A360) aluminum alloy.
Arm/Riser: Arm is a integrally die cast into lower luminaire housing and bolted into one piece cast aluminum flat-blade extension with integral cap. Riser slip fits a 3" O.D. pole top and is secured to pc (6) socket head stainless steel set screws threaded into stainless steel inserts.
Enclosure: Hard Mine, seamless three-ply cast glass with screw neck and crimp-on, 75% transmission, fully gasketed for weather tight optimum using a high temperature silicone rubber O-ring gasket.
Electrical: Lampholder: are medium base porcelain with nickel-plated copper screw shell supplied with 200°C high temperature leads—mogul (ME) ballasts are magnetic, located in the base of the electrical ballasts are available in 120V or 240V or 277V specify.
Finish: All BEGA standard finishes are polyester powder coat with minimum 3 mil thickness. These luminaires are available in four standard BEGA colors: Black (BLK), White (WHT), Bronze (BRZ), Silver (SLV). To specify, add appropriate suffix to catalog number. Custom colors, supplied on special order.
UL: listed for US and Canadian Standards, suitable for wet locations. Protection type: IP 65.

AGENDA
PLANNING AND ZONING COMMISSION WORK SESSION
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
December 13, 2016
6:00 P.M.

CALL TO ORDER

CONSENT AGENDA

1. **Approval of Minutes** for the *November 15, 2016* Planning and Zoning Commission meeting.

2. **SP2016-025** **(Korey)**
   Discuss and consider a request by Christopher Orr of Arcadia Lakes of Somerset Holdings, LLC for the approval of a site plan for Phase 1 of the Somerset Park Subdivision, containing 144 single-family residential lots on a 56.276-acre tract of land being a portion of a larger 139.354-acre tract of land identified as Tracts 1 & 7 of the A. Johnson Survey, Abstract No. 123, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 63 (PD-63) for Single Family 10 (SF-10) District land uses, situated within the SH-205 Overlay (SH-205 OV) District, located at the northeast corner of the Intersection of FM-549 and S. Goliad Street (SH-205), and take any action necessary.

3. **MIS2016-012** **(Ryan)**
   Discuss and consider a request by John Arnold of BH Balance I LLC for the approval of a tree mitigation plan for Breezy Hill, Phase VI being 79 single-family residential lots on 32.020-acre portion of a larger 61.528-acre tract of land identified as Tract 7 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single Family 10 (SF-10) District land uses, generally located northeast of the intersection of N. John King Boulevard and Life Springs Drive, and take any action necessary.

APPOINTMENTS

4. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

PUBLIC HEARING ITEMS

5. **Z2016-038** **(David)**
   Hold a public hearing to discuss and consider a request by Michael Scott for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4947-acre parcel of land identified as Lot 16, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1950 Copper Ridge Circle, and take any action necessary.

6. **Z2016-039** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Worth Williams of Moore Worth Investments, LLC on behalf of the owner Mark S. Kelldorf of Arkoma Development, LLC for the approval of an amendment to Planned Development District 65 (PD-65) being a 49.35-acre tract of land situated within the S. King Survey, Abstract No. 131 and the J. B. Jones Survey, Abstract No. 124, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65), situated within the North SH-205 Overlay (N. SH-205 OV) District, located on the west side of N. Goliad Street [*N. SH-205*] and N. Lakeshore Drive, and take any action necessary.

7. **Z2016-040** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of the owner East Shore Joint Venture for the approval of an amendment to allow 47 single-family homes in Planned Development District 68 (PD-68) being a 25.45-acre tract of land identified as Lots 1-7, Block A, Eastshore Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 68 (PD-68), situated within the SH-205 Overlay (SH-205 OV) District, located on the east side of S. Goliad Street [*S. SH-205*] north of the intersection of S. Goliad Street and Justin Road, and take any action necessary.

8. **Z2016-041** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Tony Austin of TAC, Inc. on behalf of the owner Cameron & Cameron for the approval of a zoning change from an Agricultural (AG) and Commercial (C) District to a Planned Development District for a multi-family apartment complex on a 12.59-acre tract of land identified as Tract 8 of the B. J. T. Lewis Survey, Abstract No. 255, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) and Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, located on the west side of T. L. Townsend Drive south of Justin Road, and take any action necessary.

9. **Z2016-042** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Fred Hazel of Davis Development on behalf of Jim Kirby of Rockway Partners, LLC for the approval of a zoning change from a Commercial (C) District to a Planned Development District for a multi-family apartment complex on a 17.60-acre tract of land identified as Lots 6-11, Block A, La Jolla Pointe Addition, Phase 2, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, located east of the intersection of Laguna Drive and La Jolla Pointe Drive, and take any action necessary.

ACTION ITEMS

10. **SP2016-026** **(David)**
    Discuss and consider a request by Tim Seymore of Seymore Custom Homes, LLC on behalf of Tim & Ray Seymore for the approval of a site plan for the construction of a commercial/industrial building on an existing 1.5-acre commercial/industrial facility identified as Tract 2-20 of the J. R. Johnson Survey, Abstract No. 128, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, addressed as 242 National Drive, and take any action necessary.

11. **SP2016-027** **(David)**
    Discuss and consider a request by William Baker of Jones Baker on behalf of Elias Pope of 8020 Restaurants, LLC for the approval of amended site plan for a restaurant on a 0.90-acre parcel of land identified as Lot 3, Block A, Harbor District Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the IH-30 Overlay (IH-30 OV) District, located at the southeast corner of the IH-30 Frontage Road and Sunset Ridge Drive, and take any action necessary.

12. **SP2016-028** **(David)**
    Discuss and consider a request by Rick Bates of RLK Engineering, Inc. on behalf of James Watson of the Rockwall Independent School District (RISD) for the approval of a site plan for a public school on a 18.407-acre tract of land identified as Rockwall School Addition No. 1, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, addressed as 901 Nash Street, and take any action necessary.

13. **SP2016-029** **(David)**
    Discuss and consider a request by Robert A, Howman of Glenn Engineering Corp. on behalf of James Watson of the Rockwall Independent School District (RISD) for the approval of a site plan for a public school on a 24.209-acre portion of a larger 173.0-acre tract of land identified as Tract 7-1 of the W. H. Baird Survey, Abstract No. 25, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Bypass Corridor Overlay (205 BY-OV) District, located directly east of the intersection of John King Boulevard and Trail View Drive, and take any action necessary.

14. **SP2016-030** **(David)**
    Discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a site plan for a 228 unit, condo development situated on a 2.87-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Interior Subdistrict, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [FM-3097] and Summer Lee Drive, and take any action necessary.

15. **SP2016-031** **(David)**
    Discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a site plan for 36 townhomes on a 4.03-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Residential Subdistrict and within the Scenic Overlay (SOV) District, located north of the intersection of Ridge Road [FM-740] and Glen Hill Way, and take any action necessary.

DISCUSSION ITEMS

16. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2016-050: Lots 3 & 4, Block A, Walker Addition [*Approved*]
- ✓ P2016-051: Lots 4 & 5, Block A, Platinum Storage Addition [*Approved*]
- ✓ MIS2016-010: Masonry Exception for 306 Harborview Drive [*Approved*]
- ✓ Z2016-034: NWC of FM-549 & SH-205 (AG to C) (*2nd Reading*) [*Approved; General Retail (GR) District*]
- ✓ Z2016-035: SUP for the CCA (*2nd Reading*) [*Approved*]
- ✓ Z2016-036: Amendment to PD-79 (*1st Reading*) [*Denied*]
- ✓ Z2016-037: The RISE (AG to C) (*2nd Reading*) [*Approved*]

ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator of the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 9th day of December, 2016 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

AGENDA
ARCHITECTURAL REVIEW BOARD MEETING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers Conference Room
December 13, 2016
5:00 P.M.

ACTION ITEMS

1. **SP2016-027** **(David)**
   Discuss and consider a request by William Baker of Jones Baker on behalf of Elias Pope of 8020 Restaurants, LLC for the approval of amended site plan for a restaurant on a 0.90-acre parcel of land identified as Lot 3, Block A, Harbor District Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the IH-30 Overlay (IH-30 OV) District, located at the southeast corner of the IH-30 Frontage Road and Sunset Ridge Drive, and take any action necessary.

2. **SP2016-029** **(David)**
   Discuss and consider a request by Robert A, Howman of Glenn Engineering Corp. on behalf of James Watson of the Rockwall Independent School District (RISD) for the approval of a site plan for a public school on a 24.209-acre portion of a larger 173.0-acre tract of land identified as Tract 7-1 of the W. H. Baird Survey, Abstract No. 25, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Bypass Corridor Overlay (205 BY-OV) District, located directly east of the intersection of John King Boulevard and Trail View Drive, and take any action necessary.

3. **SP2016-030** **(David)**
   Discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a site plan for a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Interior Subdistrict, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [FM-3097] and Summer Lee Drive, and take any action necessary.

4. **SP2016-031** **(David)**
   Discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a site plan for 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Residential Subdistrict and within the Scenic Overlay (SOV) District, located north of the intersection of Ridge Road [FM-740] and Glen Hill Way, and take any action necessary.

ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 9th day of December, 2016, by 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MINUTES
PLANNING AND ZONING COMMISSION WORK SESSION
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
November 15, 2016
6:00 P.M.

I. CALL TO ORDER

Chairman Renfro called the meeting to order at 6:00 p.m. The Commissioners present at the meeting were, Patrick Trowbridge, Sandra Whitley, Tracey Logan, Annie Fishman, and Mark Moeller. Absent was Commissioner Johnny Lyons. Staff members present were Planning Director, Ryan Miller, Senior Planner, David Gonzales, Planner, Korey Brooks, Planning Coordinator, Laura Morales, Assistant City Engineer, Amy Williams, Civil Engineer, Jeremy White and Fire Marshall, Ariana Hargrove.

II. CONSENT AGENDA

1. Approval of Minutes for the October 11, 2016 Planning and Zoning Commission meeting.

2. Approval of Minutes for the October 25, 2016 Planning and Zoning Commission meeting.

3. P2016-045

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of Ridgecrest SF, LTD. for the approval of a final plat for the Ridgecrest Subdivision creating 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.

4. P2016-046

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Balance I LLC for the approval of a final plat for Breezy Hill, Phase VII creating 10 single-family residential lots on 6.802-acres of land identified as Tract 7-10 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single Family 10 (SF-10) District land uses, situated within the 205 By-Pass Corridor Overlay (205 BY-OV) District, located at the northeast corner of N. John King Boulevard and Cozy View Drive, and take any action necessary.

5. P2016-047

Discuss and consider a request by Christopher Orr of Arcadia Lakes of Somerset Holdings, LLC for the approval of a preliminary plat for Phase 1 of the Somerset Park Subdivision, containing 144 single-family residential lots on a 56.276-acre tract of land being a portion of a larger 139.354-acre tract of land identified as Tracts 1 & 7 of the A. Johnson Survey, Abstract No. 123, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 63 (PD-63) for Single Family 10 (SF-10) District land uses, situated within the SH-205 Overlay (SH-205 OV) District, located at the northeast corner of the Intersection of FM-549 and S. Goliad Street (SH-205), and take any action necessary.

6. P2016-048

Discuss and consider a request by Eric Morff of Cole on behalf of the owner 2804 Ridge, LLC for the approval of a replat for Lot 3 of Road Runner Addition being a 0.93-acre parcel of land identified as Lot 2, Road Runner Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, addressed as 2804 S. Goliad Street, and take any action necessary.

7. P2016-049

Discuss and consider a request by Matt Moore, PE of Claymoore Engineering, Inc. on behalf of the owner Cindy Paris of Rockwall Regional Hospital, LLP for the approval of a replat for Lot 22, Block A, Presbyterian Hospital Addition being a 18.867-acre parcel of land identified as Lot 15, Block A, Presbyterian Hospital of Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, located east of the intersection of Summer Lee Drive and Rockwall Parkway, and take any action necessary.

Commissioner Trowbridge made motion to approve the item. Commissioner Whitley seconded the motion which passed by a vote of 6-0, with Commissioner Lyons absent.

III. PUBLIC HEARING ITEMS

8. Z2016-033

Hold a public hearing to discuss and consider a request by Philip Craddock of Craddock Architecture, PLLC on behalf of the owner Pastem Corporation for the approval of a Specific Use Permit (SUP) for the purpose of allowing a residence hotel in a Commercial (C) District that exceeds 36-feet in height in the Scenic Overlay (SOV) District for a 1.74-acre parcel of land identified as Lot 1, Block A, Comfort Inn & Suites Rockwall Towne Centre Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, addressed as 700 E. IH-30, and take any action necessary.

Planner, Korey Brooks, gave brief explanation of item stating that in 2008 the City Council approved a Specific Use Permit to allow for a hotel in a Commercial District and at that time Specific Use Permit limited the height to 58 feet and also prohibited a Residence Hotel and that the building elevations had to strictly adhere to the proposed elevation in that SUP ordinance. Since that time, the new applicant is requesting some changes to the SUP; the first is to allow a residence hotel with the provision that four of the suites be residence suites and the remaining to be standard rooms that do not have a kitchen facility. The next change the applicant is proposing is to go 65 feet in height whereas the original SUP is limited to 58 feet, and lastly the applicant would like to propose different building elevations, therefore the provision that the building elevations strictly adhere would be changed that the building elevations would generally conform to the proposed elevations at the time of site plan. With the exception of the proposed suited, the request does conform to all applicable requirements, however an SUP is discretionary decision to City Council. Should this SUP be approved, the applicant will be required to submit a site plan and at that time it would also go to ARB to review the building elevations, which do generally conform.

Mr. Brooks went on to state that all the surrounding properties are all commercial properties. North of the subject property there are two restaurants, a Culvers and Popeye's. West there is a McDonalds and a Chevron gas station and beyond that is Ridge Road. Directly south there are some automotive uses and beyond that there is IH-30 and east there is a Rockwall Town Center.

Mr. Brooks further added that on October, 27, 2016, and sent 35 notices to property owners/residents within 500-feet of the subject property. Staff also mailed notices to the Lakeside Village and Turtle Cove HOA's. One notice was received in opposition of the request.

Mr. Brooks stated the applicant was present and staff is available for questions.

Chairman Renfro asked the Commission for questions for staff.

Commissioner Trowbridge asked if the request is to modify the original SUP form 2008. Mr. Brooks stated that was correct, it would modify the height from 58 to 65, the use of a residence limited to four suites and instead of strictly adhering to the old elevations the ordinance would change to state they generally conform to the new proposed elevations should they be approved by ARB.

Chairman Renfro asked if procedurally if they wanted to tie the elevations, subject to change by the Architectural Review Board, in a motion, when that would be done. Mr. Brooks stated that that would need to be added to the motion.

Commissioner Fishman asked if the applicant changed the proposed height change from the previous meeting. Mr. Brooks stated the applicant did increase the height since the previous meeting and the applicant can elaborate further.

Chairman Renfro asked the applicant to come forward.

Phillip Craddock
Craddock Architecture
750 E. IH-30 Suite 160

Rockwall, TX

Mr. Craddock came forward and provided a power point and stated it the proposal is based on a new prototype of the brand of Best Western. The look and the corporate structure is changing, it is being brought up to a higher scale, executive type hotels from what it may have been known in the past. He provided pictures of the new elevations. It will be an all brick façade which would meet the requirements of the ordinance. He further spoke of what the hotel will provide such as nice looks of the lake from the third floor up, a lounge on the fifth floor, meeting rooms. The minimum room rates will be $100 per night. The four suites will have a full size refrigerator, dishwasher, the cooktop and a microwave.

Mr. Craddock went on to explain that the intention is to provide a very nice hotel and a nice experience for the guests and be a nice addition to Rockwall. The owner of this hotel also owns the Best Western currently in Rockwall and resides in the City as well.

Chairman Renfro asked the Commission for questions for the applicant.

Commissioner Logan asked if the number of suites could be changed to add any additional ones if for example the applicant decided a standard room would be converted to a suite, what would prevent that from happening. Mr. Brooks stated the SUP limits it to only four, if the applicant would want to change that he would need to come back before the Commission and Council.

Commissioner Trowbridge asked from 58 feet to 65 feet, was it an architectural thing. Mr. Craddock stated it was an architectural decision to give it more punch in some of the levels and angels. Commissioner Trowbridge asked what the thought behind four residency suites. Mr. Craddock stated it was meant to provide for the executive clientele.

Chairman Renfro asked why it had to be classified residency just because they are larger. Mr. Craddock stated it was due to it having a kitchen.

Commissioner Fishman asked if the owner would retain long term ownership of the property. Mr. Craddock stated that was the intent to keep both the one he owns now and this one should it be approved.

Chairman Renfro asked what the purpose of the 36 foot height limit. Mr. Miller stated that the subject property is sandwiched in between two of the Overlay Districts. Ridge Road has an Overlay District that tries to be preserve the views of the lake that is the Scenic Overlay that caps the height for all uses at 36 feet with the ability to get an SUP to go higher. It is also within the IH30 Overlay District and as depicted on the aerial the applicant provided, it is more within the IH30 Overlay than the Scenic Overlay but since it crosses both, it is subject to both Overlays restrictions. The thinking behind the 36 feet was to allow all views from the lake from the Ridge Road area.

Chairman Renfro opened the public hearing and asked anyone who wished to speak to come forward and do so. There being no one indicating such, Chairman Renfro closed the public hearing and brought the item back to the Commission for discussion.

Commissioner Trowbridge expressed concern over changing the original Specific Use Permit as well as this being a Residence Hotel which is making a long term land use decision not a short term marketing decision.

Commissioner Logan expressed concern with it being a Residence Suites and how it will work in the long term. She also expressed concern with the height, with it being one of the first views as you travel into Rockwall that is seen.

Commissioner Trowbridge made motion to deny the item. Commissioner Logan seconded the motion, which passed with a vote of 5-1, with Commissioner Whitley dissenting and Commissioner Lyons absent.

9. Z2016-034

Hold a public hearing to discuss and consider a request by David Palmer of Cencor Acquisition Co., Inc on behalf of Hossain Makvandi of Home Boy Enterprises, Inc. for the approval of a zoning change from

an Agricultural (AG) District to a Commercial (C) District for a 7.1692-acre tract of land identified as Tract 10-1 of the W. W. Ford Survey, Abstract No. 80, Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of FM-549 and S. Goliad Street [*SH-205*], and take any action necessary.

Senior Planner, David Gonzales, gave brief explanation of request stating subject property is located at the northwest corner of FM549 and 205 and is currently zoned Agricultural District. Taking a look at the property to the south of the subject property that is zoned General Retail District, east is zoned Commercial and to the north of it that is Agricultural District as well. There are a couple of existing homes and the Oaks of Buffalo Way that is to the west and adjacent to the subject property. The applicant is requesting to rezone the property to a Commercial zoning and in looking at the Comprehensive Plan, the Future Land Use Map shows that this particular property would be a Commercial land use therefore the applicant is requesting to rezone that to the Commercial land use with it being in conformance with the Comprehensive Plan.

Mr. Gonzales went on to state that on October 27, 2016, staff mailed 17 notices to property owners and residents within 500-feet of the subject property and also sent a notice to the Oaks of Buffalo Way Homeowner's Associations. Two notices were received in opposition of the request.

Mr. Gonzales stated the applicant was present and staff available for questions.

Chairman Renfro asked if rather than going to a Commercial designation could it go to General Retail instead and how would General Retail restrict the applicant from doing what they wish to do. Mr. Gonzales stated the applicant is requesting Commercial land use; however the General Retail use is less intense than that of a Commercial use. For example building heights, on a Commercial it is 60 feet in height without an SUP but on General Retail it is 36 feet in height without an SUP.

Mr. Gonzales added that the applicant is seeking entitlement to the property, and currently there is no site plan and staff does not at this point know what the use will be.

Planning Director, Ryan Miller, added that the General Retail use would still conform to the Future Land Use map it is under the Commercial designation it would represent a more restrictive zoning than the Commercial.

Chairman Renfro asked the applicant to come forward.

David Palmer
Cencor Realty Services
3102 Maple Ave
Dallas, TX

Mr. Palmer came forward and stated they are a retail development, shopping center ownership company and brokerage company. They have this land under contract to purchase it not for what it is today but for where it's going to be at the rather critical commercial intersection in the future when the State brings FM 549 thru the adjacent property to the east. The request today is to have the property zoned in conformance with the City's Comp Plan and land use plan. They do not intend on developing the property in the near future, but would like it entitled consistent with the land use and comp plan in order to market the property. Cencor Realty Partnerships are approximately 200 retail centers in the four major Texas markets and are retail developers. It will be a retail center, the shape and intensity of which will depend on the market in the future. They are not asking for any exceptions other than it be zoned according to the Comp Plan and land use plan.

Chairman Renfro asked the Commission for any questions.

Commissioner Trowbridge asked if they will be selling or developing. Mr. Palmer stated they will only develop and it will be a retail center, restaurant, with some garden medical uses.

Commissioner Whitley asked what the reason for going Commercial instead of General Retail. Mr. Gonzales stated the applicant is who is requesting Commercial, the General Retail was a

question brought up by the Chairman. Also, the Future Land Use map designates that for Commercial land uses.

Mr. Palmer added that the 45 acres across the street which the extension of SH 205 will split, is also commercial. He believes Council considered this to be a commercial intersection when they did the Land Use plan.

Chairman Renfro opened the public hearing and asked anyone who wished to speak to come forward.

Matt Scott
4925 Bear Claw Lane
Rockwall, TX

Mr. Scott came forward and stated he lives in the Oaks of Buffalo Way although not directly behind the subject property since 2002 and knows it was always expected that particular corner would develop in some form or fashion and would not mind a 7-11. He stated his concerns is when there is AG it allows all the flexibility for someone to come in wanting to change it instantly to Commercial and they don't have a project that causes concern by not knowing what will be coming. If there is going to be any blanket rezone he would like to see the Commission ask for it to be zoned General Retail rather than Commercial. He also expressed concern of there not being any information available for the company Home Boy Enterprises believes the goal is to turn this into a bigger plan than what was discussed by the applicant. His biggest concern is giving someone a Commercial designation when there is no information as to what will be going in. He rather it stay AG until a use is known.

Greg Shockley
5155 Bear Claw Lane
Rockwall, TX

Mr. Shockley came forward and stated his property abuts the subject property and every property that abuts it are all families with young children. He stated his concerns are safety, noise, and traffic. Believes a gas station is a horrible idea, in looking at every direction down surrounding 205 it is all residential. He along with five other families that he is speaking for do not want a 7-11, a Walmart or anything similar. He agrees with the previous speaker to leave it AG until something positive for all the families that live in the area is brought up.

Steve Romo
2230 Arrowhead Court
Rockwall, TX

Mr. Romo came forward and stated his opposition to the request and agrees with the previous two speakers. The CORE that is the General Retail that is across the street that is something they would welcome something similar to that. Feels it is not good to go from AG to full blown Commercial will create a traffic and safety problem. He is also concerned with the environmental issues that would be created by the drainage that goes thru the property. He would like the City to develop that as a City Park for that side of the City.

Chairman Renfro asked how many lanes will the road be when completed. Mr. Gonzales stated it will be four lanes divided. Chairman Renfro added that is something that should be taken into consideration as well.

Michael Pollock
1885 Broken Lance
Rockwall, TX

Mr. Pollock came forward and stated he lives in the neighborhood and is president of the HOA and has received many emails. There are differing opinions as to what should go in there and therefore it is hard to represent the neighborhood overall as there is not one shared solution but the neighborhood does want to be involved in what does go in there. By going straight commercial the neighborhood feels it loses any connection to any decision making or having input with those types of decisions going forward. They would like to see its intended use in

whatever format that may be prior to the approval to allow some sort of input by the neighborhood.

Chairman Renfro asked if there was anyone else who wished to speak, there being no one indicating such; Chairman Renfro closed the public hearing and asked the applicant to come forward for rebuttal.

Mr. Palmer came forward and stated they are a large retail developer and shopping center owner and do that because they build first class retail centers and build them to own them. They work with neighborhoods all over the metroplex when they develop. He went on to state he was not sure it was the province of the Commission to say a property cannot be rezoned for what is consistent with a Comp Plan and Land Use Plan. They need the rezoning in order to market the property, and the subject property will not fit a Walmart or a large retail shopping center of that sort but rather a smaller grocer such as a Whole Foods or a Trader Joe's. Most likely it will be retail and restaurants, free standing buildings. They will meet the requirements of the City and build projects to own indefinitely and will shield the center from residences as is required by the ordinances.

Chairman Renfro brought the item back to the Commission for discussion.

Commissioner Trowbridge made a motion to deny the item. There being no second, the motion failed to pass and Chairman Renfro brought the item back for discussion.

Commissioner Logan how long the Comprehensive Plan would have shown that the future use of this land would be commercial, where someone new moving into the City would have had the opportunity to know before moving into this area that the future use would be commercial. Mr. Gonzales stated he did not know the specific answer to that, but it would have been at least since 2010. Mr. Miller stated it has been on the Future Land Use map as a commercial designation for some time and that roadway FM 549 is expected to eventually meet up and create a four way intersection at the southeast corner of this property.

Commissioner Fishman asked for clarification of the process involved in terms of the ordinance by allowing a rezoning of commercial without knowing what will be going in there, is that something that is typical. Mr. Gonzales stated the applicant has indicated he does not have a plan at this point nor does he have a site plan. Mr. Gonzales added when a developer comes in and wants to rezone a property and the Comp Plan designates is for commercial land uses it then is up to the Commission to make that decision whether they want to allow that or not.

Commissioner Moeller expressed concern with going straight to commercial within a residential area without knowing what will be developed.

Commissioner Whitley also expressed concerned with going only commercial, feels the citizens need to be heard as they are the ones that are building their lives in our communities and is not unreasonable for the citizens to be kept in the process.

Chairman Renfro made a motion to approve the item with a General Retail designation. Commissioner Trowbridge seconded the motion which passed by a vote of 6-0, with Commissioner Lyons absent.

10. Z2016-035

Hold a public hearing to discuss and consider a request by Robert A, Howman of Glenn Engineering Corp. on behalf of James Watson of the Rockwall Independent School District (RISD) for the approval of a Specific Use Permit (SUP) for the purpose of allowing a *Public School* in an Agricultural (AG) District for a 24.209-acre portion of a larger 173.0-acre tract of land identified as Tract 7-1 of the W. H. Baird Survey, Abstract No. 25, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Bypass Corridor Overlay (205 BY-OV) District, located directly east of the intersection of John King Boulevard and Trail View Drive, and take any action necessary.

Senior Planner, David Gonzales, gave brief explanation of request stating that the applicant is requesting an SUP to allow for a public school, college and career academy, for this particular location located on a 24.209-acre portion of a larger 173.0-acre tract of land that is situated within the SH-205 By-Pass Corridor Overlay. Staff discussed with the applicant that although the Future Land Use map designates it as Low Density Residential, however by taking a look at

what's required on that it would have to be rezoned to a Low Density Residential and they would still have to come in for a Specific Use Permit, therefore the applicant is requesting to a Specific Use Permit and keep the property AG and that will allow for the CCA to be constructed if approved. They have submitted a conceptual site plan and if the SUP is approved, a site plan as well as platting will be brought forward to the Commission.

Mr. Gonzales added that staff mailed 102 notices to property owners and residents within 500feet of the subject property and did not receive any notices for or against the request.

Chairman Renfro asked the applicant to come forward

Robert Helman
Glenn Engineering
(No address given)

Mr. Helman came forward and stated he is present on behalf of the Rockwall Independent School District to bring the Career and Technology center forward and respectfully asking for approval.

Chairman Renfro opened the public hearing and asked anyone who wished to speak to come forward and do so.

Jennifer Jeffus
1669 Westbury
Rockwall, TX

Ms. Jeffus came forward and stated she lives in Meadowcreek Estates as well as her parents and wants clarification as to what exactly will be in the Career and Technology Center. She stated she is an educator and is all for schools, but would like to know exactly what will be going in and is generally in favor of the request.

Chairman Renfro asked if there was anyone else who wished to speak, there being no one indicating such; Chairman Renfro closed the public hearing and asked the applicant to come forward for rebuttal.

Mr. Helman came forward and stated the building will be separated into several different buildings which will include a studio for teaching of radio, and law offices as well as a college section where evening classes will be offered. As the students' progress they will be able to get college credit. It is a sublet to all the high schools and is more of a vocational and trade type training that will be offered.

Chairman asked for questions or discussions from the Commission.

Commissioner Fishman asked if the evening classes would be available to other than high school students. Mr. Heldman stated they would be and they are working with the community college to house classes in the alternate wing.

Commissioner Trowbridge made a motion to approve the item with staff recommendations. Commissioner Whitley seconded the motion which passed by a vote of 6-0, with Commissioner Lyons absent.

11. Z2016-036
Hold a public hearing to discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (R. & R. Hance Investments, LP) for the approval of a zoning amendment to Planned Development District 79 (PD-79) [*Ordinance No. 16-07*] for the purpose of amending the development standards to allow front entry garages on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.

Senior Planner, David Gonzales, gave brief explanation of the request stating that the applicant earlier in the year came before the Commission and rezoned the subject property from AG to PD and it became PD-79 and incorporated some 45 plus acres and established 113 single family lots and in May of this year voluntarily annexed additional 11.121-acre tract of land and amended PD-79, incorporating this property into the subdivision. The annexation created a 55.413-acre tract of land for the Saddle Star Estates South development. The amendment to PD-79 increased the lot count from 113 to 138 lots. At the time of this proceeding, the applicant requested and was granted a maximum of 50% of the garages to be oriented in a front entry configuration, allowing the garage to be flush with the front façade of the primary structure.

Mr. Gonzales went on to state that in the October 25, 2016 work session the applicant indicated that David Weekly and Highland Homes will be the builders for the subdivision and indicated that the builders do not have a traditional swing or j-swing product and because of this he was requesting 100% front entry configuration. Since this meeting, the applicant has modified his request to allow for a minimum of 20% of the garages to be oriented in a traditional swing, or j-swing configuration, thereby allowing for up to 80% front entry garage configuration, flush with the front façade or optional 5-foot off-set of the primary structure. The purpose of the garage orientation requirements in the UDC which is a 20-ft setback from the front façade is intended to provide variation and articulation to the front façade of the proposed home where the development is not alley served. It should be noted that if approved, the remainder of the PD ordinance will not be affected by this request; however, it is at the discretion of the Planning and Zoning Commission and City Council to approve the applicant's request.

Mr. Gonzales added that staff mailed three notices to property owners and one staff received one notice from the Skorburg Companies comprising two properties that are opposed to the zoning change request. The notice constitutes a protest from more than 20% of the property owners within 200-ft of the proposed property and will require a super-majority vote by the City Council for approval of the PD Amendment.

Mr. Gonzales advised the applicant was present and staff was available for questions.

Commissioner Trowbridge asked if it was originally approved for 50 percent. Mr. Gonzales stated the original PD allowed for 50 percent j-swing drives and 50 percent front entry.

Commissioner Moeller asked for clarification if it will be locked down to 80/20. Mr. Gonzales stated that it is the purpose of the ordinance to lock that down where the developer cannot have more than 80% front entry drives and 20% is a minimum for j-swing.

Commissioner Whitley asked for clarification of what the previous request was for 100% front entry and came back with a compromise of 80% front entry and 20% j-swing but is the surrounding neighborhood, Stone Creek, is 50/50. Mr. Gonzales stated that Stone Creek is less than 20% front entry and the Gideon tract that is just to the east requires j-swing but allows for front entry but the garage needs to be setback 20 feet.

General discussion took place concerning the percentages and setback requirements.

Chairman Renfro asked the applicant to come forward.

Pat Atkins
3076 Hays Lane
Rockwall, TX

Mr. Atkins came forward and stated in the previous meeting the Commission asked he go back to the builders, David Weekly and Highland Homes, and after discussion both came back with a compromise request to allow of 80/20 % as they feel that is what the market dictates, and would like to have that flexibility. They are respectfully asking for approval.

Chairman Renfro opened the public hearing and asked anyone who wished to speak to come forward and do so. There being no one indicating such, Chairman Renfro closed the public hearing and brought the item back for discussion.

Commissioner Trowbridge asked if the builder does not have enough floor plans. Mr. Atkins stated that they have a variation of floor plans, but have stated that the market is dictating this articulation of front entry.

Commissioner Logan expressed concern with the opposition that was received of the surrounding properties, if it's being requested to waiver from the original plan there should be some uniformity to what has been agreed in another neighborhood.

Commissioner Moeller expressed concern from it being quite a leap from the 50% compromise and now are up to requesting 80% the market may dictate it but it is risky to end up with that much front entry.

Commissioner Whitley expressed concern that other builders have been able to work within the parameters of the City and would like to see 50% front entry.

General discussion took place as to what an appropriate percentage would be that would allow the builder flexibility but not compromise City standards.

Chairman Renfro asked the Commission for any additional comments or questions.

Commissioner Trowbridge made a motion to approve with a minimum of 35% j-swing garages to be constructed within the development. Chairman Renfro seconded the motion, which passed by a vote 6-0, with Commissioner Lyons absent.

12. Z2016-037

Hold a public hearing to discuss and consider a request by Douglas F. DeMarco on behalf of John G. Robertson for the approval of a zoning change from an Agricultural (AG) District to a Commercial (C) District for a 23.27-acre tract of land identified as Tract 2-28 of the J. R. Johnson Survey, Abstract No. 128, Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2922 S. Goliad Street [*SH-205*], and take any action necessary.

Senior Planner, David Gonzales, gave brief explanation of request stating that the applicant is requesting to change the zoning of the subject property from an Agricultural District to a Commercial District for the purpose of installing light poles adequate to serve the outdoor baseball complex for usage at night. They used to have lights some years ago but a storm damaged them. Since they are zoned Agriculture they would need to be rezoned to Commercial and if that change is approved they will then come back with an SUP and the lights will be looked at during that time.

Mr. Gonzales further stated that staff mailed 56 notices to property owners and residents within 500-feet of the subject property and also sent a notice to the Hickory Ridge and Hickory Ridge East Homeowner's Associations. Staff received one notice in favor of the request.

Mr. Gonzales added the applicant was present and staff is available for questions.

Chairman Renfro asked the applicant to come forward.

Cher DeMarco
2922 S. Goliad
Rockwall, TX

Mrs. DeMarco came forward and stated she is the owner of the RISE. A customer approached them a few months ago and wants to donate the lights. They feel it is going to be a great asset to the community.

Chairman Renfro opened up the public hearing and asked anyone who wished to speak to come forward

Kyle Burke
401 E. Boydstun
Rockwall, TX

Mr. Burke came forward and stated he is the baseball director for the RISE. They have started a program to outreach to the community. The RISE itself does not have teams, but they do lessons and have teams that use the facility and many teams want to use the field. Currently during the winter months the field is of no use. He feels allowing the request will be very beneficial to the community.

Chairman Renfro asked if the request is to light only the existing field. Mr. Burke stated it would that was correct and there are currently lights there but are inoperable. Chairman Renfro asked what the height of the lights would be. Mr. Burke stated currently with the zoning being Agriculture the requirement is 36 feet but the Commercial would be 60 feet. Chairman Renfro asked if they can go higher than the 60 feet. Mr. Gonzales stated that when the SUP comes forward it would be able to establish standards of heights of the poles and the lighting standards. The current request is only for the zoning change.

Chairman Renfro closed the public hearing and brought the item back to the Commission.

Commissioner Trowbridge expressed concern with how the surrounding neighborhoods may be affected by the lights and therefore could it possibly be zoned something lighter than Commercial. Mr. Miller added that the Future Land Use map designates this property to be Heavy Commercial and therefore the Commercial would be a lighter use than what is planned.

Commissioner Trowbridge made a motion to approve the item with staff recommendations. Commissioner Fishman seconded the motion, which passed by a motion of 6-0, with Commissioner Lyons absent.

IV. ACTION ITEMS

13. SP2016-024

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of Ridgecrest SF, LTD. for the approval of a site plan for the Ridgecrest Subdivision containing 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.

Planner, Korey Brooks, gave brief explanation of request stating the property came before the Commission in May of this year when it went through the Planned Development phase and at the previous meeting the tree mitigation plan was approved. The subdivision will include 45 single family lots and will also include a rural street cross-section and larger front yard setback to give it a more rural feel and will be 80 foot lots. The submitted site plan conforms to the technical requirements contained in the UDC for properties located in Planned Development District 81. The maximum permissible density for the property should not exceed 1.52 dwelling units per gross acre of land and also the development should not exceed 45 units.

Mr. Brooks went on to state that with the proposed site plan the applicant has indicated that approximately six acres will be open space that will be maintained by the HOA and therefore that satisfies the park land dedication for the development. It went before the Park Board November 1st and the recommendations were that developer pay pro-rata equipment fees cash-in-lieu of land fees. Also on the site plan there is a shading structure towards the middle of the property and the Park Board recommended that that be changed into a play structure.

Chairman Renfro asked the Commission for any questions or discussion.

Commissioner Fishman approved the item. Commissioner Moeller seconded the motion which passed by a vote of 6-0, with Commissioner Lyons absent.

V. DISCUSSION ITEMS

14. Director's Report of post Council meeting outcomes of Planning & Zoning cases.

- ✓ SP2016-023: Variance for Lakeshore Commons [*Approved*]
- ✓ Z2016-030: SUP for 1910 Copper Ridge Circle (*2nd Reading*) [*Approved*]

- ✓ Z2016-031: Amendment to PD-1 for a Brewery (*1st Reading*) [*Approved*]
- ✓ Z2016-032: Amendment to PD-74 (*2nd Reading*) [*Approved*]

Planning Director, Ryan Miller, **provided a brief update about the outcome of the above referenced case at the City Council meeting. No discussion took place concerning this agenda item.**

VI. ADJOURNMENT

Chairman Renfro adjourned the meeting at 8:02 p.m.

VII. TRAINING SESSION

15. *Planning and Zoning Commission Training Session*
A work session with the GIS Department will be held in the City Council meeting room immediately following the adjournment of the November 15, 2016 Planning and Zoning Commission work session meeting.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2016.

_____
Craig Renfro, Chairman

Attest:

_____
Laura Morales, Planning Coordinator

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/13/2015

APPLICANT: Christopher Orr, *Arcadia Lakes of Somerset Holdings, LLC*

AGENDA ITEM: **SP2016-025**; *Somerset Park Subdivision, Phase 1*

SUMMARY:

Discuss and consider a request by Christopher Orr of Arcadia Lakes of Somerset Holdings, LLC for the approval of a site plan for Phase 1 of the Somerset Park Subdivision, containing 144 single-family residential lots on a 56.276-acre tract of land being a portion of a larger 139.354-acre tract of land identified as Tracts 1 & 7 of the A. Johnson Survey, Abstract No. 123, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 63 (PD-63) for Single Family 10 (SF-10) District land uses, situated within the SH-205 Overlay (SH-205 OV) District, located at the northeast corner of the Intersection of FM-549 and S. Goliad Street (SH-205), and take any action necessary.

PURPOSE

The Somerset Park Subdivision is a two (2) phase, master planned community that will be composed of 309 single-family, residential lots on approximately 139.354-acres land. The 309 single-family lots will be broken down into three (3) lot types with 93 lots being allocated to the 7,200 SF lot type, 135 lots being allocated to the 8,400 SF lot type, and 81 lots being allocated to the 10,400 SF lot type. Additionally, the plan will consist of 38.7-acres of open space (*or ~27.05% of total land area*). The purpose of this request is to *site plan* 144 of the 309 single-family, residential lots and 5.998-acres of private park and open space. The lot mix for the proposed 144 lots is as follows:

Table 1: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Dwelling Units (#)*	*Dwelling Units (%)*
A	60' x 120'	7,200 SF	40	27.8%
B	70' x 120'	8,400 SF	58	40.3%
C	80' x 130'	10,400 SF	46	31.9%
		Total Lots:	*144*	*100.00%*

DENSITY AND DIMENSIONAL REQUIREMENTS:

The submitted site plan and landscape plan conform to the technical requirements contained in the Unified Development Code (UDC) for properties located in Planned Development District 63 (PD-63). The maximum permissible density for the subject property shall not exceed 2.22 units per gross acre of land. A summary of the proposed density and dimensional requirements is as follows:

Table 2: Density and Dimensional Requirements

	A	***B***	***C***
Minimum Lot Width [1]	60'	70'	80'
Minimum Lot Depth	120'	120'	130'
Minimum Lot Area	7,200 SF	8,400 SF	10,400 SF
Minimum Front Yard Setback [2] & [5]	20'	20'	20'

Minimum Side Yard Setback	5'	5'	5'
Minimum Side Yard Setback (Adjacent to a Street) [2] & [5]	10'	10'	10'
Minimum Length of Driveway Pavement	25'	25'	25'
Maximum Height [3]	30'	30'	30'
Minimum Rear Yard Setback [4]	20'	20'	20'
Minimum Area/Dwelling Unit (SF)	2,200 SF	2,700 SF	3,200 SF
Maximum Lot Coverage	65%	65%	65%
Permitted Encroachment into Required Setbacks [5]	Allowed	Allowed	Allowed

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

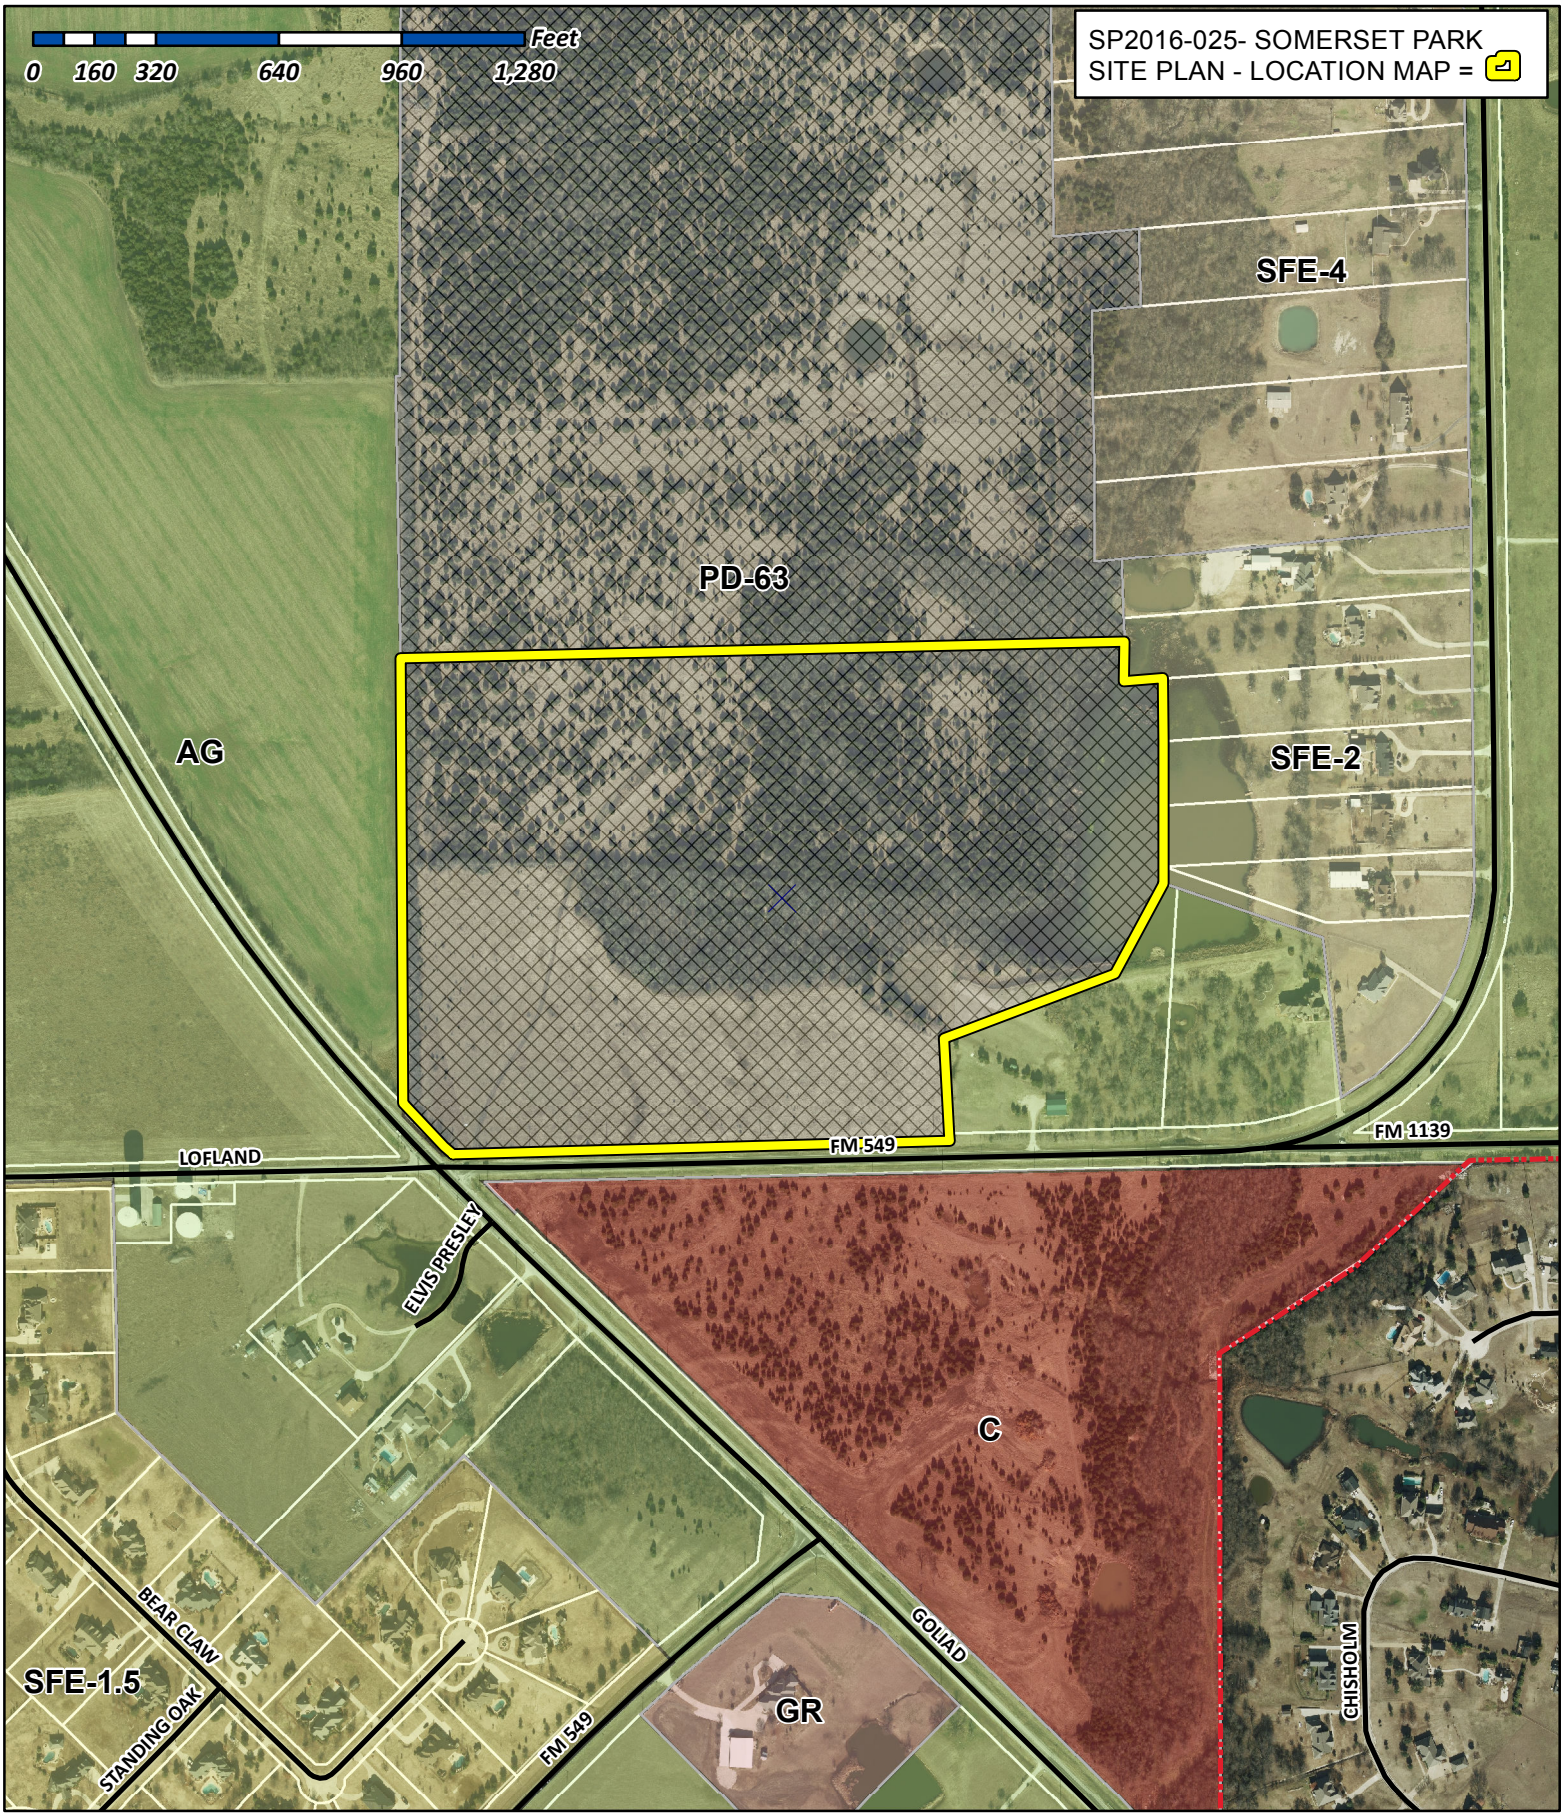
[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the single family home.

[4]: As measured from the rear yard property line.

[5]: Sunrooms, porches, stoops, bay windows, balconies, masonry clad chimneys, eaves and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to ten (10) feet for any property; however, the encroachment shall not exceed five (5) feet on *Side Yard Setbacks (Adjacent to a Street)* and shall not encroach into public right-of-way [a *Sunroom* is an enclosed room no more than 15-feet in width that has glass on at least 50% of each of the encroaching faces] (*see Exhibit 'F' of the Ordinance*).

TREESCAPE PLAN:

The *Treescape Plan* submitted by the applicant shows that a total of 330-caliper inches of trees will be removed from the *subject property*. The applicant has stated that the tree mitigation balance will be satisfied through the *per lot* planting requirements (*i.e. two [2], three [3] inch caliper street trees per lot*), which will total 864-inches of trees provided.



RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the *site plan* for *Phase 1* of the *Somerset Park Subdivision* staff would recommend the following conditions of approval:

1) The site plan shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments.

2) The development shall conform to the recommendations made by the Parks Board at the December 14, 2016 Parks Board meeting; and,

3) Any construction resulting from the approval of this site plan shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

SP2016-025 Somerset Park Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 Discuss and consider a request by Christopher Orr of Arcadia Lakes of Somerset Holdings, LLC for the approval of a site plan for Phase 1 of the Somerset Park Subdivision, containing 144 single-family residential lots on a 56.276-acre tract of land being a portion of a larger 139.354-acre tract of land identified as Tracts 1 & 7 of the A. Johnson Survey, Abstract No. 123, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 63 (PD-63) for Single Family 10 (SF-10) District land uses, situated within the SH-205 Overlay (SH-205 OV) District, located at the northeast corner of the Intersection of FM-549 and S. Goliad Street (SH-205), and take any action necessary.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (SP2016-025) in the lower right hand corner of all pages on future submittals.
M.4 Please provide overall site plan and landscape plan
I.6 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by December 6, 2016. The Planning & Zoning date for this case will be November 29, 2016. The Park Board Meeting will be December 14, 2016.
I.7 The projected City Council meeting date and subsequent approval for this plat is December 5, 2016

GENERAL SITEWORK NOTES:

1) THE CONTRACTOR SHALL BE FAMILIAR WITH EXISTING SITE CONDITIONS AND UNDERGROUND UTILITIES, PIPES AND STRUCTURES. THE CONTRACTOR SHALL TAKE SOLE RESPONSIBILITY OF ANY COST INCURRED DUE TO BODILY INJURY AND/OR DAMAGE OF OWNER'S PROPERTY OR SAID UTILITIES. THE CONTRACTOR IS RESPONSIBLE FOR CONTACTING UTILITY COMPANIES BEFORE EXCAVATION.

2) ALL CONFLICTING INFORMATION SHALL BE BROUGHT TO THE ATTENTION OF THE LANDSCAPE ARCHITECT.

3) THE CONTRACTOR SHALL NOT WILLFULLY PROCEED WITH CONSTRUCTION AS DESIGNED WHEN OBSTRUCTIONS AND/OR GRADE DIFFERENCES EXIST THAT MAY HAVE NOT BEEN KNOWN DURING DESIGN. SUCH CONDITIONS SHALL BE IMMEDIATELY BROUGHT TO THE ATTENTION OF THE LANDSCAPE ARCHITECT. THE CONTRACTOR SHALL ASSUME FULL RESPONSIBILITY FOR ALL NECESSARY REVISIONS DUE TO FAILURE TO GIVE SUCH NOTIFICATION.

4) THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL COORDINATION WITH HIS SUBCONTRACTORS TO ACCOMPLISH HIS SCOPE OF WORK. THE CONTRACTOR SHALL COORDINATE CONSTRUCTION WITH OTHER TRADES WORKING ON THE SITE SIMULTANEOUSLY.

5) THE CONTRACTOR IS RESPONSIBLE FOR LOCATING AND PROTECTING EXISTING IRRIGATION AND LANDSCAPE ON SITE FROM ANY DAMAGE. THE CONTRACTOR SHALL NOTIFY THE LANDSCAPE ARCHITECT OF ANY CONFLICTS IMMEDIATELY.

6) THE CONTRACTOR SHALL NOTIFY THE OWNER AND LANDSCAPE ARCHITECT 48 HOURS PRIOR TO THE COMMENCEMENT OF WORK TO COORDINATE PROJECT INSPECTION SCHEDULES.

7) THE CONTRACTOR SHALL BE RESPONSIBLE FOR FIELD VERIFICATION OF EXISTING CONDITIONS, AND SHALL PERFORM FIELD MEASUREMENTS PRIOR TO FABRICATION AND/OR PURCHASE OF ANY MATERIAL. THE CONTRACTOR SHALL CONTACT THE LANDSCAPE ARCHITECT SHOULD EXISTING CONDITIONS BE DIFFERENT FROM THE DESIGN DRAWINGS FOR THIS PROJECT. ALL CONFLICTS ARISING DUE TO LACK OF COORDINATION SHALL BE THE RESPONSIBILITY AND THE EXPENSE OF THE CONTRACTOR.

8) ANY REQUIRED CHANGES TO THE DRAWINGS RESULTING FROM THE ACCEPTANCE OF THE CONTRACTOR'S ALTERNATES AND/OR SUBSTITUTIONS ARE THE RESPONSIBILITY OF THE CONTRACTOR AND SHALL BE SUBMITTED TO THE LANDSCAPE ARCHITECT AND THE OWNER FOR APPROVAL.

9) THE CONTRACTOR SHALL COORDINATE THE STORAGE OF MATERIALS, PARKING OF VEHICLES AND RESTRICTIONS OF WORK WITH THE OWNER. UNDER NO CIRCUMSTANCES SHALL ANY CONTRACTOR STORE MATERIALS OR PARK VEHICLES UNDER THE CANOPY OF EXISTING TREES.

10) THE CONTRACTOR SHALL COMPLY WITH ALL APPLICABLE FEDERAL, STATE, AND LOCAL LAWS, ORDINANCES & CODE REQUIREMENTS. REQUIRED PERMITS SHALL BE OBTAINED BY THE CONTRACTOR.

11) THE CONTRACTOR SHALL PROVIDE UNIT PRICES BASED UPON THE QUANTITIES SHOWN WITHIN THE DOCUMENTS. FIELD CONDITIONS MAY REVISE ACTUAL LOCATION, INCREASING OR DECREASING THE EXTENT OF WORK BID. CHANGES TO THE EXTENT OF WORK RESULTING IN AN INCREASE WILL BE BASED ON UNIT PRICES AND PERFORMED SUBJECT TO APPROVAL OF THE LANDSCAPE ARCHITECT AND THE OWNER IN THE FORM OF A CHANGE ORDER.

12) THE CONTRACTOR SHALL PROVIDE ALL LABOR, MATERIALS AND SUPERVISION NECESSARY TO ACCOMPLISH THE WORK AS SHOWN AND NOTED ON THE DRAWINGS UNLESS OTHERWISE SPECIFIED.

13) THE CONTRACTOR IS RESPONSIBLE FOR PROVIDING AND SERVICING TEMPORARY TOILET FACILITIES.

14) ALL CONTRACTORS AND SUBCONTRACTORS ARE RESPONSIBLE FOR REMOVAL OF TRASH AND REPAIR OF HAZARDOUS CONDITIONS (TOOL, OPEN HOLES, ETC.) ON A DAILY BASIS BY END OF WORK DAY. REMOVE ALL EXCESSIVE DIRT BUILD UP ON HAUL ROUTE AS REQUIRED DAILY AND BY NOON EVERY FRIDAY.

15) UPON COMPLETION OF CONSTRUCTION AND PRIOR TO FINAL APPROVAL, THE CONTRACTOR SHALL THOROUGHLY CLEAN UP THE PROJECT SITE OF ALL TRASH, SCRAP, BRICK PIECES, MORTAR AND LITTER, ETC. AND REPAIR ALL DAMAGE TO FINISH GRADE INCLUDING TAILINGS FROM EXCAVATIONS, WHEEL RUTS, ETC., CAUSED BY CONSTRUCTION.

16) PROVIDE EXPANSION AND/OR ISOLATION JOINTS IN ALL CASES WHERE CONCRETE FLATWORK MEETS VERTICAL STRUCTURES SUCH AS WALLS, CURBS, STEPS AND BUILDINGS, OR WHERE CONCRETE ABUTS UTILITY VAULTS OR BOXES.

LAYOUT NOTES:

1) THE CONTRACTOR IS RESPONSIBLE FOR LOCATING AND PROTECTING ALL EXISTING UTILITIES.

2) ALL DIMENSIONS MUST BE VERIFIED ON-SITE. THE CONTRACTOR IS RESPONSIBLE FOR NOTIFYING THE LANDSCAPE ARCHITECT OF ANY DISCREPANCIES BEFORE PROCEEDING WITH THE WORK.

3) ALL DIMENSIONS ARE TAKEN PERPENDICULAR TO WALL, CURB, P.O.B., OR CENTERLINE UNLESS OTHERWISE NOTED. DIMENSIONS AT CURB ARE FROM BACK OF CURB.

4) VERIFY LOCATIONS OF ALL SITE IMPROVEMENTS INSTALLED UNDER OTHER SECTIONS. IF ANY PART OF THIS PLAN CANNOT BE FOLLOWED DUE TO SITE CONDITIONS CONTACT THE LANDSCAPE ARCHITECT FOR INSTRUCTION PRIOR TO COMMENCING WORK.

5) WRITTEN DIMENSIONS TAKE PRECEDENCE OVER SCALE. DO NOT SCALE DRAWINGS.

6) THESE DRAWINGS INCLUDE THE REFERENCE TO THE LOCATION OF VARIOUS MECHANICAL, ELECTRICAL, AND CIVIL DEVICES. COORDINATE CONSTRUCTION, DETAILS AND UTILITY CONNECTIONS WITH RELATED ARCHITECTURAL AND ENGINEERING DRAWINGS. CONFIRM LOCATIONS WITH THE LANDSCAPE ARCHITECT PRIOR TO ROUGH IN.

7) REFERENCE CIVIL DRAWINGS FOR LAYOUT, GRADES, DETAILS OF VEHICULAR DRIVES, ROADS, PARKING AND ALL CURBS (UNLESS NOTED OTHERWISE).

8) THE SITE BASE INFORMATION & ROADWAY LAYOUT ARE FROM COMPUTER BASE DATA SUPPLIED BY JONES & CARTER.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: December 13, 2016

SUBJECT: MIS2016-012; *Breezy Hill, Phase VI Tree Mitigation Plan*

The applicant, John Arnold of the Skorburg Company, has submitted a tree mitigation plan for Phase VI of the Breezy Hill Subdivision in accordance with Section 1.2, *Plan Required*, of Article IX, *Tree Preservation*, of the Unified Development Code; and, in accordance with Section 1.4, *Authority to Review and Approval*, of this code staff is bringing the plan forward to the Planning and Zoning Commission for approval. According to the plan, a total of 1,091-inches of trees will be removed to accommodate the proposed development. It should also be noted that some of the trees being removed are located on parkland that was previously dedicated by the developer; however, the City has reached an agreement with the Skorburg Company with regard to this land. To satisfy the outstanding mitigation balance the applicant has indicated that they will be preserving 318-inches of existing trees, which entitles them to a maximum tree credit of 64-inches. In addition, the applicant has shown that the balances from other phases of the Breezy Hill Subdivision coupled with the proposed *per lot* planting requirements (*i.e. two [2], three [3] inch canopy trees per lot -- 79 lots x 2 trees x 3-inches = 474-inches*) can be used to satisfy the balance. Specifically, the applicant will be applying: (1) the tree balance from the landscaping provided with the amenity center (*i.e. 88-inches*), (2) the tree balance from the park improvements used with *Phase 3* (*i.e. 169-inches*), (3) remaining tree balance from *Phase 1* (*i.e. 92-inches*), (4) remaining tree balance from *Phase 7* (*i.e. 60-inches*), and (5) remaining tree balance from *Phases 2A & 2B* (*i.e. 214-inches*). This means that the tree balance for the entire Breezy Hill Subdivision to date is +70-inches. This balance can be carried over to future phases of the proposed subdivision.

Miller, Ryan

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/13/2016

APPLICANT: Michael Scott

AGENDA ITEM: **Z2016-038;** 1950 Copper Ridge Circle (*SUP*)

SUMMARY:

Hold a public hearing to discuss and consider a request by Michael Scott for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4947-acre parcel of land identified as Lot 16, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1950 Copper Ridge Circle, and take any action necessary.

BACKGROUND INFORMATION

The applicant Michael Scott is requesting the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements stipulated by Article VI, *Permissible Uses*, of the Unified Development Code (UDC). Specifically, the applicant is proposing to construct a metal building that will be 30-feet by 40-feet, or approximately 1,200 sq. ft. in area.

According to the UDC, in an SFE/1.5 District, a property can have a maximum of two (2) accessory structures as long as each structure does not exceed 625 sq. ft. or a single accessory building no larger than 1,250 sq. ft. and 15-feet in height (or less), provided the exterior materials contains the same materials as found on the main structure. In this case the main structure is brick and the proposed accessory building will be 100% metal panel.

It should be noted that the accessory building does conform to the size and height requirements of the UDC. The applicant has also included a letter indicating the removal of an existing accessory building located in the rear yard, this will bring the property into compliance with the UDC's requirements regarding the number of accessory structures to be located on one SFE/1.5 lot. This will be added as a condition of approval. Additionally, the accessory building will be located behind the main structure and should not be visible from the street. A request for an SUP is a discretionary decision for the Planning and Zoning Commission and the City Council.

NOTIFICATION:

On November 29, 2016, Staff mailed 35 notices to property owners and occupants within 500-feet of the subject property. Staff also notified the Lofland Farms and Timber Creek Estates HOAs, which are the only HOA's/Neighborhood Organizations that are within 1,500-feet of the subject property and participating in the notification program. Additionally, staff posted a sign on the subject property as required by the Unified Development Code (UDC). At the time this report was drafted, staff has received one (1) notice in favor of the request.

RECOMMENDATIONS:

Should the Planning and Zoning Commission and City Council choose to approve the SUP request, staff would offer the following conditions of approval:

1) The accessory building be subject to the operational conditions contained in the SUP ordinance, which are as follows:

    A. The accessory building shall generally conform to the approved site plan and building elevations depicted in Exhibits 'A' & 'B' of the attached ordinance.

    B. The accessory building shall not exceed a maximum size of 1,250 square feet.

    C. The accessory building shall not exceed a maximum overall height of 15-feet.

    D. The accessory building is generally to be comprised of 100% metal paneling.

    E. The accessory building is subject to administrative review in the event that the Subject Property is sold, conveyed or altered in any manner

2) Any construction or building necessary to complete this request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Hold a public hearing to discuss and consider a request by Michael Scott for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4947-acre parcel of land identified as Lot 16, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1950 Copper Ridge Circle, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 11.22.2016

The following staff comments are to be addressed and resubmitted no later than Tuesday, December 6, 2016. Please provide three (3) copies and one PDF version fo a subsequent review by staff:

• On all future plan submittals please include the Case Number (Z2016-038) in the lower right hand corner.

Planning Staff General Comments/Conditions of SUP:

1. The development must meet all Fire Department, Building Inspections, and Engineering standards.
2. The accessory structure is generally not to exceed a maximum area of 1250 sq. ft.
3. The accessory structure is generally not ot exceed an maximaum overall height of 15-ft.
4. The accessroy structure is to generally be comprised of 100% metal paneling.
5. The City Council reserves the right to review the Specific Use Permit granted herein upon the expiration of one (1) year from the date hereof.
6. Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/o enforced by the state and federal government.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the zoning matter. Most importantly, be sure that you and/or your representative(s) are present for both Public Hearings as per the scheduled dates below. If you have any quesitons regarding this case, please feel free t contact David Gonzales,AICP with the Planning Department at 972-771-7745 or e-mail at dgonzales@rockwall.com.

Meeting Dates to Attend:

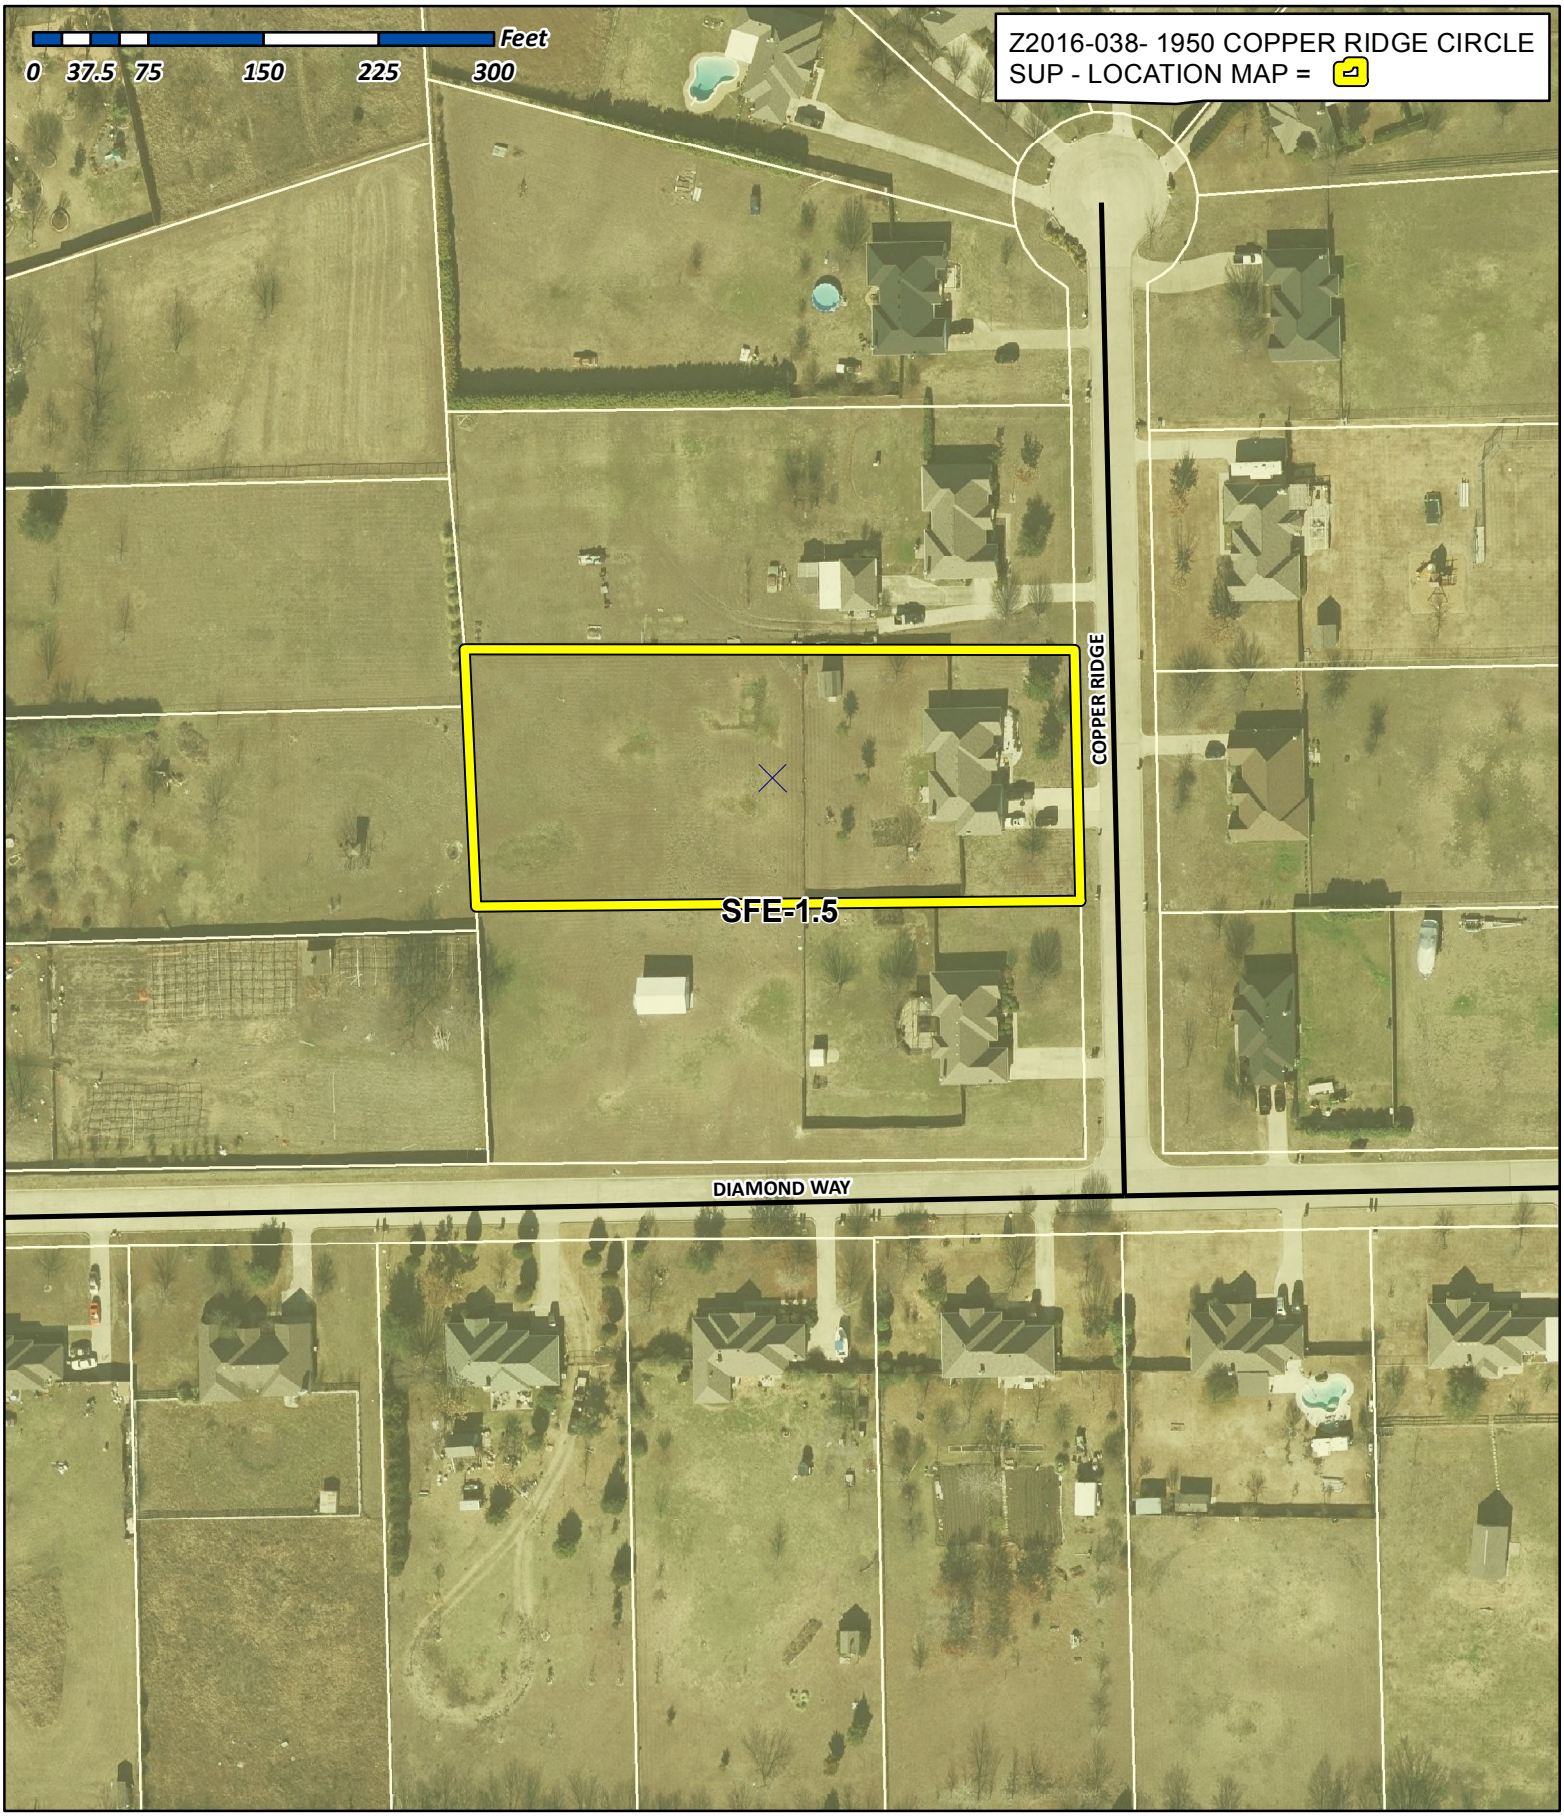
Planning - Work Session: November 29, 2016 (6:00 p.m.) [The applicant to present case to P&Z]
Planning - Public Hearing: December 13, 2016 (6:00 p.m.) [The applicant/representative required to be present for the public hearing process]

City Council - Public Hearing: December 19, 2016 (1st Reading of Ordinance) [6:00 p.m.]
City Council - December 5, 2016 [If approved during 1st reading of ordinance (2nd Reading of Ordinance)] [6:00 p.m.]

purpose

The purpose of this development application for Specific Use Permit for Property located at 1950 Copper Ridge Circle Rockwall, TX 75032.

The purpose is to build an accessory building consisting of a detached garage. This building will be used as storage and for hobby purposes.



November 29, 2016

RE: Existing 12x16 wood structure as pertains to SUP application for 1950 Copper Ridge Circle

The existing barn like structure on the north side of the back yard area will be eliminated and replaced by the new 30 x 40 metal building per the site plan.

Thanks,

Mike C. Scott

Subject: Neighborhood Noification Program: Notice of zoning request

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on ***November 25, 2016***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday, 12/13/2016 at 6:00 p.m***., and the City Council will hold a public hearing on ***Monday, 12/19/2016 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-038- Hold a public hearing to discuss and consider a request by Michael Scott for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4947-acre parcel of land identified as Lot 16, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1950 Copper Ridge Circle, and take any action necessary.**

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2016-038: SUP for 1950 Copper Ridge Circle

Hold a public hearing to discuss and consider a request by Michael Scott for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4947-acre parcel of land identified as Lot 16, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1950 Copper Ridge Circle, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 12/13/2016 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 12/19/2016 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **12/19/2016** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

CITY OF ROCKWALL

ORDINANCE NO. 17-XX

SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [ORDINANCE NO. 04-38] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR AN ACCESSORY BUILDING THAT DOES NOT MEET THE MINIMUM REQUIREMENTS ON A 1.4947-ACRE PARCEL OF LAND ZONED SINGLE FAMILY ESTATE 1.5 (SFE-1.5) AND IDENTIFIED AS LOT 16, BLOCK B, STERLING FARMS ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Michael Scott for the approval for a Specific Use Permit (SUP) for the purpose constructing an accessory building that does not meet the minimum masonry requirements, situated on a 1.4947-acre parcel of land, zoned Single Family Estate 1.5 (SFE-1.5) District, and being identified as Lot 16, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, addressed as 1950 Copper Ridge Circle, and being more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit allowing for the establishment of a metal accessory building that does not conform to the minimum masonry requirements for accessory buildings in a Single Family Estate 1.5 (SFE-1.5) District as stipulated by *Article IV, Permissible Uses,* and *Article V, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes described in this Specific Use Permit (SUP) ordinance and as specifically set forth in *Section 3.2, Single-Family Estate (SF/E 1.5) District, of Article V, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by the granting of this zoning change, and as my be amended in the future, and shall be subject to the additional following conditions:

DRAFT 12.15.16

1) The accessory building shall generally conform to the approved site plan and building elevations depicted in *Exhibits 'A' & 'B'* of this ordinance.

2) The accessory building shall not exceed a maximum size of 1,250 square feet.

3) The accessory building shall not exceed a maximum overall height of 15-feet.

4) The exterior composition of the accessory building shall generally be comprised of 100% metal paneling.

5) The accessory building is subject to administrative review in the event that the *Subject Property* is sold, conveyed or altered in any manner.

Section 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

Section 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

Section 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* (*$2,000.00*) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

Section 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

Section 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3rd DAY OF JANUARY, 2017.

DRAFT ORDINANCE 12.13.2016

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/13/2016

APPLICANT: Worth Williams, *Moore Worth Investments, LLC*

AGENDA ITEM: **Z2016-039**; *Amendment to PD-65*

SUMMARY:

Hold a public hearing to discuss and consider a request by Worth Williams of Moore Worth Investments, LLC on behalf of the owner Mark S. Kelldorf of Arkoma Development, LLC for the approval of an amendment to Planned Development District 65 (PD-65) being a 49.35-acre tract of land situated within the S. King Survey, Abstract No. 131 and the J. B. Jones Survey, Abstract No. 124, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65), situated within the North SH-205 Overlay (N. SH-205 OV) District, located on the west side of N. Goliad Street [*N. SH-205*] and N. Lakeshore Drive, and take any action necessary.

BACKGROUND:

Planned Development District 65 [*Ordinance No. 06-02*] was originally approved on January 3, 2006 under *Case No. Z2005-039*. Contained in the approved ordinance was a duplicated set of the North SH-205 Overlay (N. SH-205 OV) District development standards; however, Subsection J, *Variance*, of the overlay district standards was omitted. This section grants the City Council the ability to approve variances to the overlay district requirements. This basically made these requirements obligatory for any development within PD-65 without exception. Also, approved with this ordinance was the ability for the applicant to establish a *Retail Store w/ Gasoline Sales (Limited to Six [6] Dispensers or 12 Vehicles)* on *Parcel No. 4* (*i.e. the parcel at the northwest corner of the intersection of SH-205 [N. Goliad Street] and N. Lakeshore Drive*). On January 7, 2008, the City Council approved an amendment to PD-65 (*i.e. Ordinance No. 08-02; Case No. Z2007-034*), which changed the maximum building height for *Parcel No.'s 3, 4 & 5* (*see attached zoning exhibit*) from 28-feet to 36-feet. In addition, the amendment moved the *Retail Store w/ Gasoline Sales (Limited to Six [6] Dispensers or 12 Vehicles)* from *Parcel No. 4* to *Parcel No. 5* (*i.e. the parcel at the southwest corner of the intersection of SH-205 [N. Goliad Street] and N. Lakeshore Drive*).

PURPOSE:

On November 18, 2016, the applicant, Worth Williams, submitted an application requesting that the overlay district standards be removed from the Planned Development District 65 (PD-65) zoning ordinance. In addition, the applicant is also requesting that the *Retail Store w/ Gasoline Sales (Limited to Six [6] Dispensers or 12 Vehicles)* be moved from *Parcel No. 5* to *Parcel No. 3* (*i.e. directly south of the Children's Lighthouse Daycare*).

PROPOSED CHANGES TO THE ORDINANCE:

With regard to the North SH-205 Overlay (N. SH-205 OV) District requirements that were incorporated into the zoning ordinance the applicant has stated in a letter to staff that several prospective tenants have brand identities with regard to their building designs, and would like the ability to request variances as part of their site plan request. As stated above, under the current ordinance variances and exceptions to these requirements cannot be granted. If the request is approved -- *and because the majority of the properties are still within the North SH-*

205 Overlay (N. SH-205 OV) District -- these requirements would still be in effect for the properties along SH-205; however, *Parcel No.'s 1a, 1b & 2* would be exempted due to their proximity to the overlay districts' boundaries. The change in the entitlements for the *Retail Store w/ Gasoline Sales (Limited to Six [6] Dispensers or 12 Vehicles)* would only affect *Parcel No. 5* and *Parcel No. 3*, and would not have implications on any other portion of the Planned Development District. It should also be noted that by making this change *Parcel No. 3* would not retain the *Retail Store w/ Gasoline Sales (Limited to Six [6] Dispensers or 12 Vehicles)* land use.

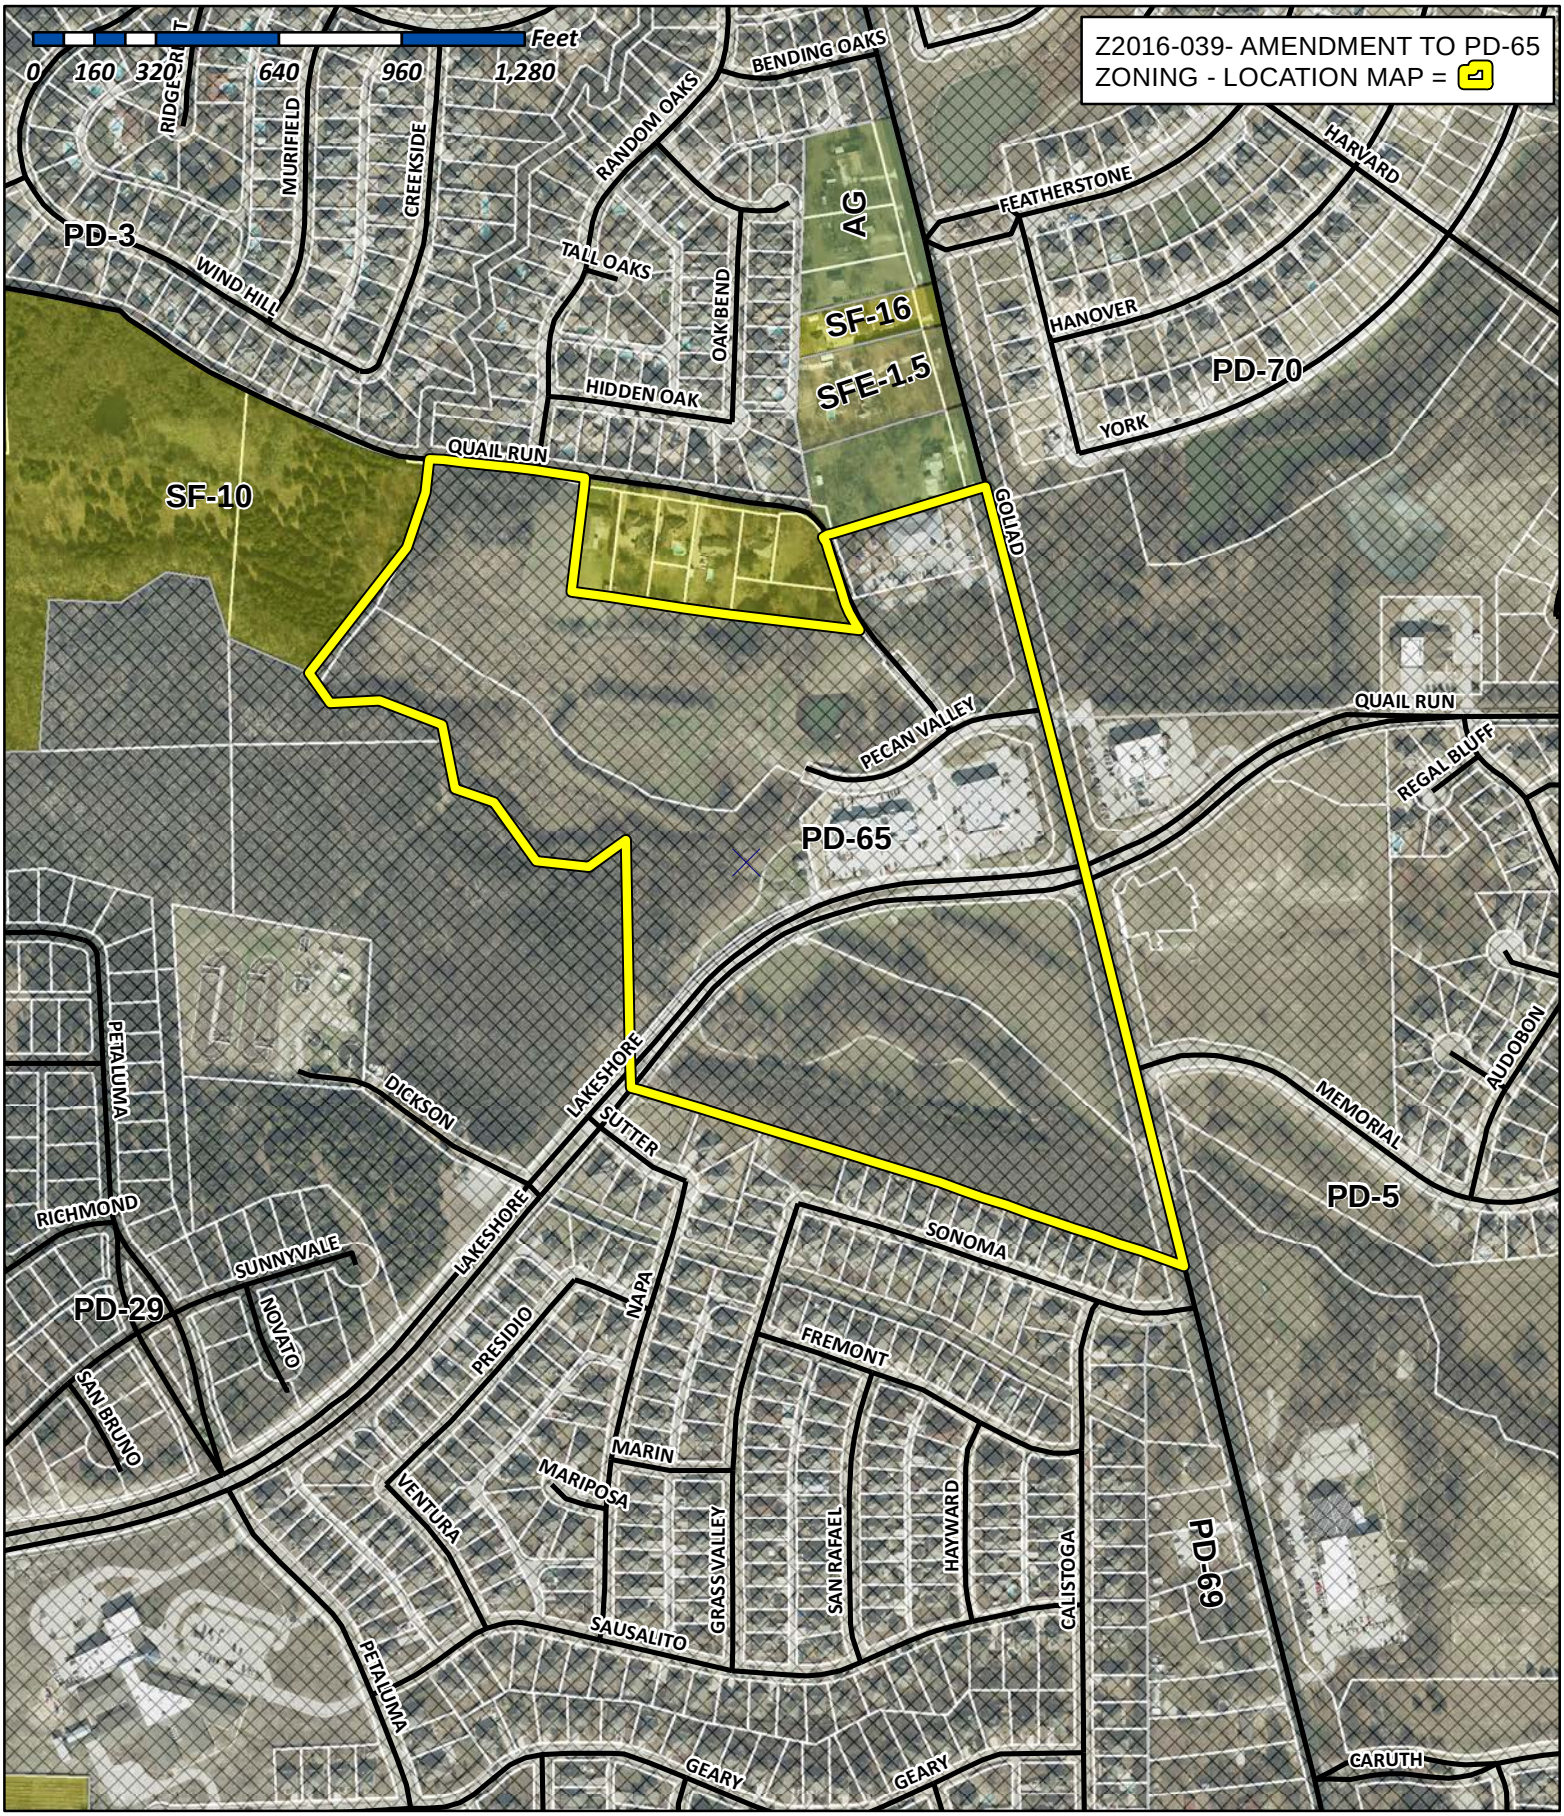
As with other Planned Development Districts that have multiple regulatory ordinances, staff has taken this opportunity to consolidate all ordinances associated with PD-65 (*i.e. Ordinance No.'s 06-02 & 08-02*) into one (1) regulatory ordinance. The approval of any changes to an existing zoning ordinance remains a discretionary decision for the City Council.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

Since the proposed zoning request does not make any changes to the proposed land uses, the request does not have any implications with regard to the Comprehensive Plan.

NOTIFICATION:

On November 23, 2016, staff mailed 36 notices to property owners and residents within 500-feet of the subject property. Additionally, staff posted a zoning sign along T. L. Townsend Drive, and advertised the public hearings in the Rockwall Harold Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted, staff had received one (1) notice and five (5) emails in opposition to the applicant's request. All the emails stated opposition to the *Retail Store w/ Gasoline Sales (Limited to Six [6] Dispensers or 12 Vehicles)*, but did not address the remainder of the request.



RECOMMENDATIONS:

If the Planning and Zoning Commission recommends approval of the applicant's request to amend Planned Development District 65 (PD-65) then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) All conditions of approval approved with *Case No.'s Z2005-039, Z2007-034* & *P2006-053* shall still be conditions of approval with this case. Specifically, the condition that all common area be maintained by a Property Owner Association (POA). Documents for the POA shall be filed with the approval of a final plat for *Parcel No. 5*.

3) Any construction resulting from the approval of this *zoning amendment* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

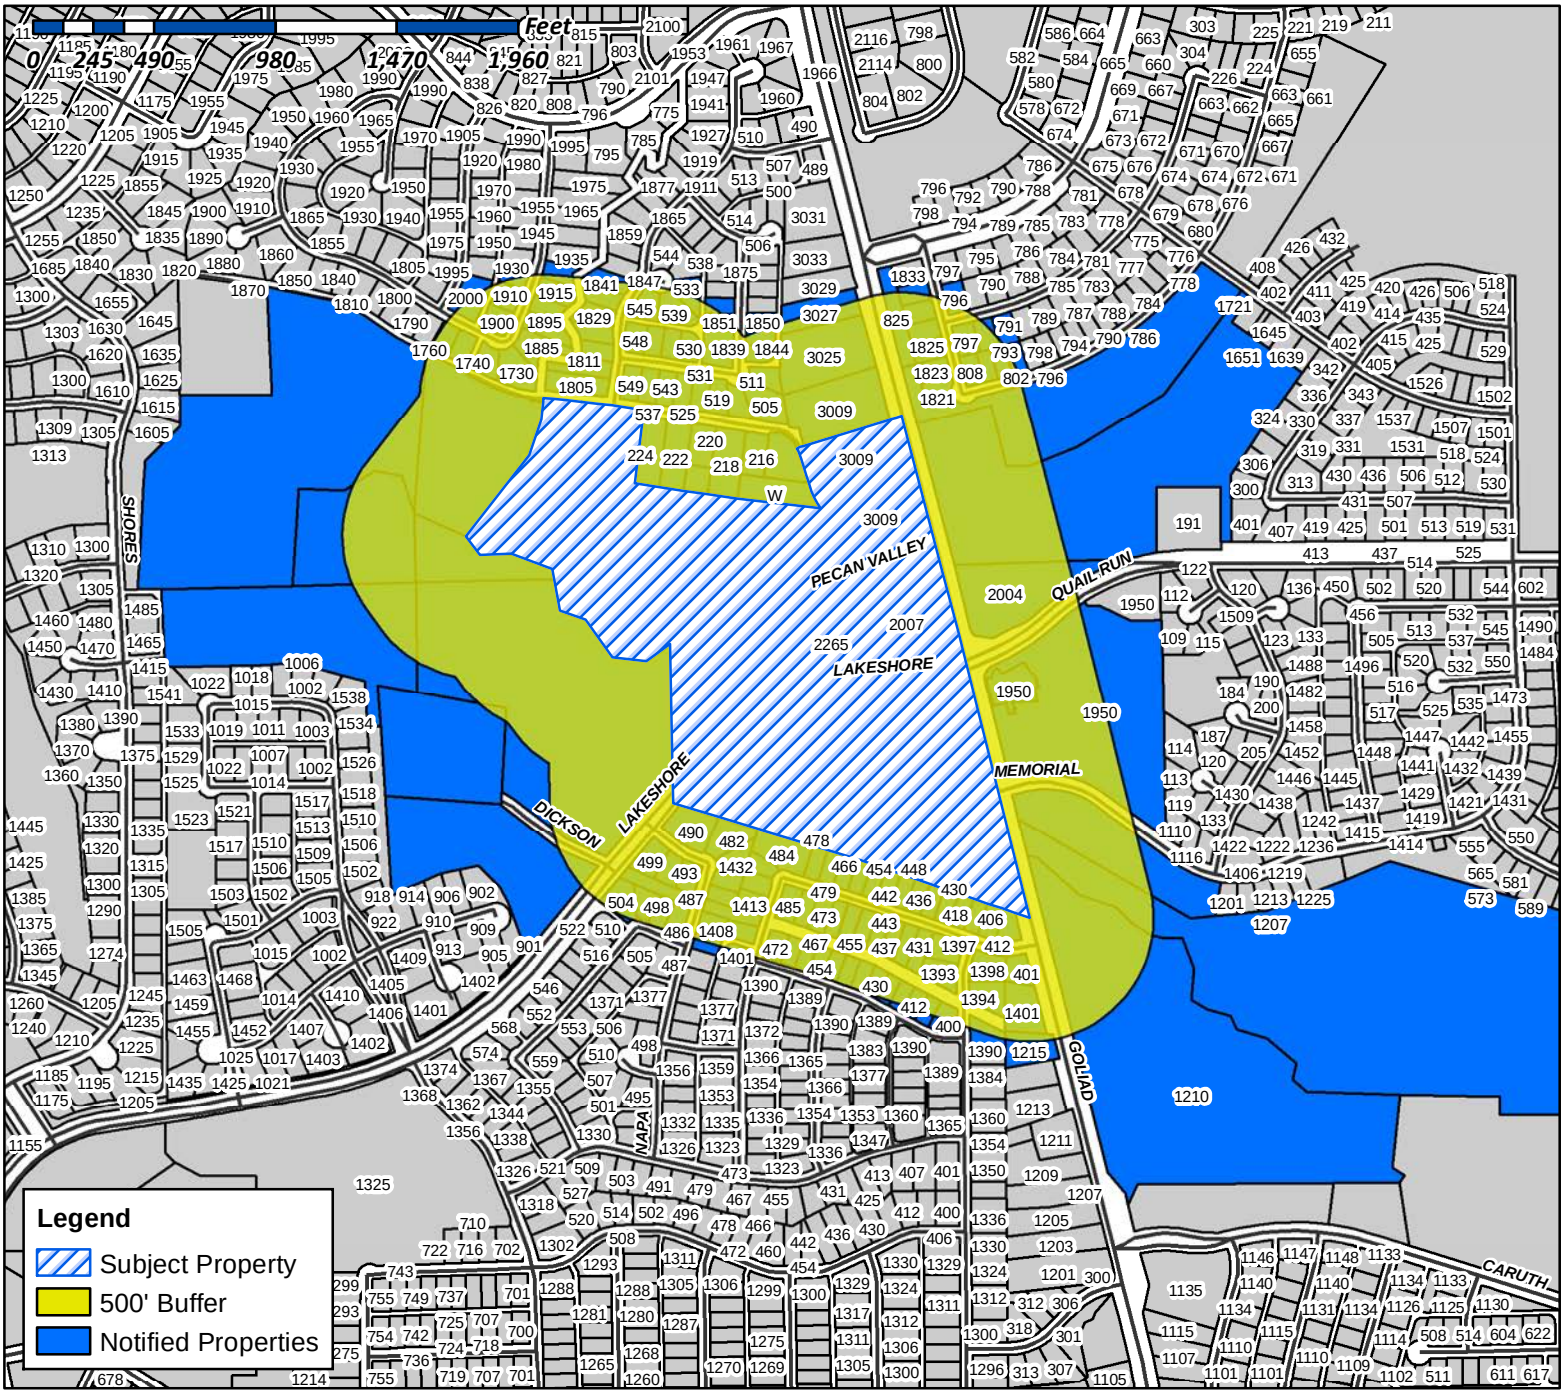
From:	Morales, Laura
To:	[redacted]
Cc:	Miller, Ryan; Brooks, Korey; Gonzales, David
Subject:	Neighborhood Noification Program: Notice of zoning request
Date:	Tuesday, November 22, 2016 11:37:13 AM

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on ***November 25, 2016***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday, 12/13/2016 at 6:00 p.m***., and the City Council will hold a public hearing on ***Monday, 12/19/2016 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-039- Hold a public hearing to discuss and consider a request by Worth Williams of Moore Worth Investments, LLC on behalf of the owner Mark S. Kelldorf of Arkoma Development, LLC for the approval of an amendment to Planned Development District 65 (PD-65) being a 49.35-acre tract of land situated within the S. King Survey, Abstract No. 131 and the J. B. Jones Survey, Abstract No. 124, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65), situated within the North SH-205 Overlay (N. SH-205 OV) District, located on the west side of N. Goliad Street [*N. SH-205*] and N. Lakeshore Drive, and take any action necessary.**

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.



Sincerely,

Laura Morales
Planning & Zoning Coordinator

PLEASE RETURN THE BELOW FORM

Case No. Z2016-039: Amendment to PD-65 (Lakeshore Commons)

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☑ I am opposed to the request for the reasons listed below.

PLEASE KEEP THIS AREA THE SAME WITHOUT ADDITIONAL BUILDINGS! I LOVE THE HOMETOWN FEEL & THE BIRDS IN THE PARK AREA. I WOULD RATHER HEAR NATURE IN THE SPRING & SUMMERTIME THAN CARS & NOISE. THERE IS AN OWL FAMILY LIVING IN THOSE TREES!

Name: BELINDA MERAZ

Address: 1425 GRASS VALLEY DR ROCKWALL 75087

Tex. Loc. Gov. Code, Sec. 211.006 (d) **If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either: (1) the area of the lots or land covered by the proposed change; or (2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.**

PLEASE SEE LOCATION MAP OF SUBJECT PROPERTY ON THE BACK OF THIS NOTICE

Subject: Development Case Z2016-039

Please do not allow the development of a gas station on parcel 3. (Near Goliad & Quail Run) Horrible idea of putting a transient business like a gas station in this spot adjacent to a an established and growing daycare facility for young children.

Thank you

Subject: 7-11

Please reconsider any plans regarding a 7-11 store on Goliad and Pecan Valley Drive next to the Children's Lighthouse. This area is going to be completely over-run with traffic as is with the unfortunate addition of the Chick-fil-a and Starbucks of all things. The area has neither space nor roads to accommodate all the traffic that will be engendered by this development and a 7-11 will only complicate matters. Additionally, surely you will question the wisdom of a 7-11 selling alcohol next door to a day care?

I respectfully request that this planning and zoning change be denied. There are 7-11's within spitting distance of this location and leaving a small pocket or two of green is not a negative thing.
"It's beginning to look a lot like Garland" here. Not a compliment.
Thank you for your consideration.

To: Morales, Laura
Subject: 205 proposed zoning change

Hello,

My name is Matt Ward and I'm a resident of Rockwall. I wanted to voice my opposition to the zoning change on 205. There are too many 7-11's in north Rockwall and I don't want to see another built. This would make three 7-11's within in 3 miles of each other, and all on 205.

Rockwall should encourage more high quality development. There should be no rush to develop land when it doesn't bring development wanted and needed by the residents.

Sincerely,

Matt Ward

Subject: FW: Relocating 7 -11 and it's gas pumps to Plat 3 SH 205 (N Goliad)

-----Original Message-----
From: dhiester [mailto:dhiester@att.net]
Sent: Friday, December 02, 2016 12:42 PM
To: Planning
Subject: Relocating 7 -11 and it's gas pumps to Plat 3 SH 205 (N Goliad)

I argue against revising Plat 3 to accommodate 7-11 and gas it's gas pumps from its current planned location on Plat 5. Locating such a busy business next to a day care center creates an even more dangerous entry/exit (to/from) SH 205 issues for the increasing number of families using that daycare center, and potential safety and security issues for the children. Further, relocating that business and its many many in/out customers away from the traffic light controlled Lakeshore Drive/SH 205 intersection (Plat) to an 50 mph uncontrolled entry/exit to SH 205 location will pose an even more potentially dangerous situation for the thousands of vehicles now speeding north and south on NARROW SH 205 between Lakeshore and Dalton (552) Rd and screeching to a stop and "rubber banding" as they approach the Lakeshore Drive light.
Although my opinion matters not on economic considerations- is there REALLY a need to inject such problematic vehicular to and fro traffic at Plat 3 when (a) there are 7-11s a Mike or two in either direction in better controlled controlled traffic locations, and (2) Plat 5 has inherently better traffic management?

Respectfully,
David Hiester

Subject: Construction-Moore West Investments request for Lakeshore Dr/Hwy 205 (S. Goliad)
Date: Sunday, December 04, 2016 8:17:17 PM

>
> Mr. Miller,

> As residents of north Rockwall I do want to see continued growth for this sector of town. However, we want the growth to be the correct growth for us residents and not just development for the sake of new development.
>
> I have been made aware of the November 3, 2016 letter from Moore Worth Investments requesting the move of a gas/retail store from parcel 5 to parcel 3 of the proposed development at Lakeshore/Pecan Valley/ Hwy 205.
>
> This proposal is not acceptable! The wooded area should be protected!
>
> The idea of a retail/gas station (7-Eleven) in parcel 5 is unacceptable as well, since there is a grocery store/ gas station (Kroger) already on the southeast side of the Lakeshore/Quail Run/ Hwy 205 location, not to mention two existing gas stations (Tom Thumb and 7-Eleven) within a mile of the proposed location. If there must be a retail gas outlet at Lakeshore/Hwy 205, parcel 5 at least would be the better choice since there would be some controlled traffic with the signal light. However, traffic congestion will definitely be hazardous with ingress/egress directly onto Hwy 205 for all businesses locating here.
>
> I'm not sure why a Starbucks would want to locate in parcel 3 when there are two existing locations within a mile of the new development (and there are at least eight Starbucks outlets within Rockwall). If there is still any room for discussion on this matter, please enter our negative vote on this, as well.
>
> There are limitations to your authority, I realize, but please hear us and do not approve the requested changes.
>

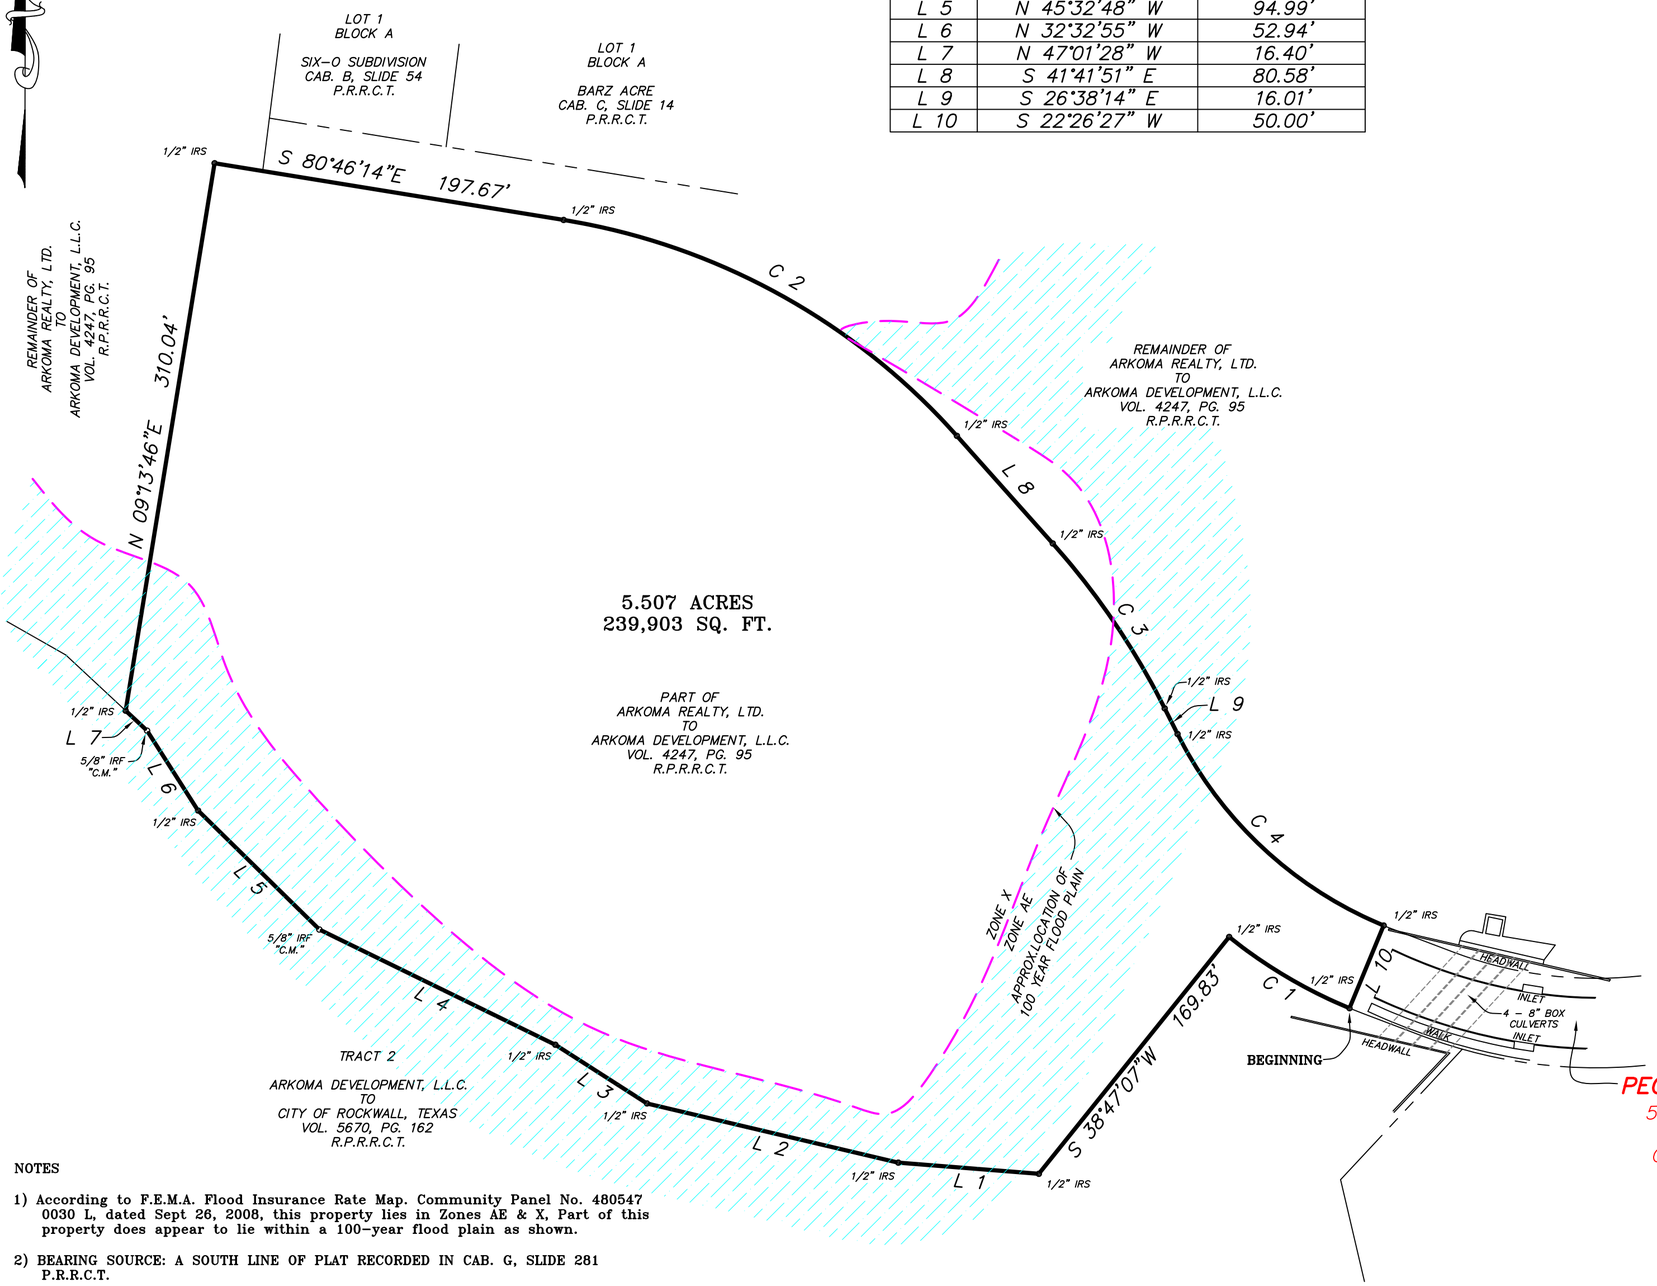
Moore Worth Investments

November 3, 2016

Ryan Miller
Planning Director
City of Rockwall
385 S. Goliad Street
Rockwall, TX 75087

RE: Letter of Explanation for Zoning Request to Amend Ordinance 06-02 for Parcel 5 and Parcel 3.

Dear Ryan:



Please accept this letter as formal request to amend the above referenced Ordinance to delete Section 4.7 and 4.8 for Parcel 3 in their entirety and delete Section 6.9 and 6.10 for Parcel 5 in their entirety. This request is being made on behalf of our proposed tenants who include Chick-fil-A, Wells Fargo Bank, Starbucks and 7-Eleven. All tenants have their own unique prototypical buildings, which include a flat *not* pitched roof. The flat roof is an essential feature and integral part their "brand identity". In addition, we would like to transfer the ability to have a maximum of six (6) dispensers that could accommodate twelve (12) vehicles for a retail/gas store from Parcel 5 to Parcel 3 and will agree to waive the right to have retail/gas store as a permitted use on Parcel 5. Thank you in advance for your time and consideration concerning our request and we look forward to hearing from you.

Sincerely,

Worth Williams

DESCRIPTION

All that certain lot, tract or parcel of land situated in the J.H.B. Jones Survey, Abstract No. 124 and the S. King Survey, Abstract No. 131, City of Rockwall, Rockwall County, Texas, and being part of that tract of land described in a Deed from Arkoma Realty, Ltd., to Arkoma Development, L.L.C., as recorded in Volume 4247, Page 95 of the Real Property Records of Rockwall County, Texas (hereinafter called Subject Tract), and being more particularly described as follows:

BEGINNING at a 1/2" iron rod with plastic cap stamped "STOVALL & ASSOC." set (hereinafter called 1/2" iron rod set) for corner in a North line of that tract of land described as Tract 2 in a Deed from Arkoma Development, L.L.C., to the City of Rockwall, Texas, as recorded in Volume 5670, Page 162 of the Real Property Records of Rockwall County, Texas (hereinafter called The City Tract), at a West corner of the Final Plat of North Lakeshore Valley, Lots 1 & 2, Block B, an Addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet G, Slide 281 of the Plat Records of Rockwall County, Texas, said point also being at the beginning of a curve to the right, said point also being at the Southwest corner of Pecan Valley Drive (50' right-of-way per plat recorded in Cabinet G, Slide 281, Plat Records of Rockwall County, Texas);

THENCE in a Northwesterly direction with a North line of The City Tract and with said curve to the right having a central angle of 16 deg. 20 min. 41 sec., a radius of 275.00 feet, a chord bearing of N. 59 deg. 23 min. 12 sec. W., a chord distance of 78.18 feet and an arc length of 78.45 feet to a 1/2" iron rod set for corner at a North corner of The City Tract;

THENCE in a Westerly direction with the North line of The City Tract the following:

S. 38 deg. 47 min. 07 sec. W. a distance of 169.83 feet to a 1/2" iron rod set for corner;
N. 85 deg. 27 min. 52 sec. W. a distance of 78.82 feet to a 1/2" iron rod set for corner;
N. 76 deg. 44 min. 54 sec. W. a distance of 144.35 feet to a 1/2" iron rod set for corner;
N. 57 deg. 21 min. 09 sec. W. a distance of 60.80 feet to a 1/2" iron rod set for corner;
N. 63 deg. 58 min. 26 sec. W. a distance of 146.84 feet to a 5/8" iron rod found for corner;
N. 45 deg. 32 min. 48 sec. W. a distance of 94.99 feet to a 1/2" iron rod set for corner;
N. 32 deg. 32 min. 55 sec. W. a distance of 52.94 feet to a 5/8" iron rod found;
N. 47 deg. 01 min. 28 sec. W. a distance of 16.40 feet to a 1/2" iron rod set for corner;

THENCE N. 09 deg. 13 min. 46 sec. E. leaving the North line of The City Tract, a distance of 310.04 feet to a 1/2" iron rod set for corner;

THENCE S. 80 deg. 46 min. 14 sec. E. a distance of 197.67 feet to a 1/2" iron rod set for corner at the beginning of a curve to the right;

THENCE in a Southeasterly direction with said curve to the right having a central angle of 39 deg. 04 min. 23 sec., a radius of 375.00 feet, a chord bearing of S. 61 deg. 14 min. 03 sec. E., a chord distance of 250.81 feet and an arc length of 255.73 feet to a 1/2" iron rod set for corner;

THENCE S. 41 deg. 41 min. 51 sec. E. a distance of 80.58 feet to a 1/2" iron rod set for corner at the beginning of a curve to the right;

THENCE in a Southeasterly direction with said curve to the right having a central angle of 15 deg. 03 min. 37 sec., a radius of 425.00 feet, a chord bearing of S. 34 deg. 10 min. 03 sec. E., a chord distance of 111.39 feet and an arc length of 111.71 feet to a 1/2" iron rod set for corner;

THENCE S. 26 deg. 38 min. 14 sec. E. a distance of 16.01 feet to a 1/2" iron rod set for corner at the beginning of a curve to the left;

THENCE in a Southeasterly direction with said curve to the left having a central angle of 40 deg. 55 min. 19 sec., a radius of 225.00 feet, a chord bearing of S. 47 deg. 05 min. 53 sec. E., a chord distance of 157.31 feet and an arc length of 160.70 feet to a 1/2" iron rod set for corner at a Northwest corner of Pecan Valley Drive;

THENCE S. 22 deg. 26 min. 27 sec. W. with the West line of Pecan Valley Drive a distance of 50.00 feet to the POINT OF BEGINNING and containing 5.507 acres or 239,903 square feet of land.

To BT Investments, LLC, First American Title Insurance Company:

This is to certify that this map or plat and the survey on which it is based were made in accordance with the 2011 Minimum Standard Detail Requirements for ALTA/ACSM Land Title Surveys, jointly established and adopted by ALTSA and NSPS, and includes Items 1, 2, 3, 4, 7(a), 8, 9 and 11 of Table A thereof. The fieldwork was completed on August 31, 2015.

Date of Plat or Map: August 31, 2015

DESCRIPTION

All that certain lot, tract or parcel of land situated in the J.H.B. Jones Survey, Abstract No. 124, City of Rockwall, Rockwall County, Texas, and being part of that tract of land described in a Deed from Arkoma Realty, Ltd., to Arkoma Development, L.L.C., as recorded in Volume 4247, Page 95 of the Real Property Records of Rockwall County, Texas (hereinafter called Subject Tract), and being more particularly described as follows:

BEGINNING at an "X": cut in concrete set for corner in the West line of State Highway No. 205 at the most Easterly Northeast corner of that tract of land described as Tract 1 in a Deed from Arkoma Development, L.L.C., to the City of Rockwall, Texas, as recorded in Volume 5670, Page 162 of the Real Property Records of Rockwall County, Texas, said point being N. 14 deg. 17 min. 14 sec. W. a distance of 271.10 feet from the Southeast corner of the above cited Subject Tract;

THENCE in a Northwesterly direction with the Northeast line of said City of Rockwall tract the following:

N. 47 deg. 23 min. 51 sec. W. a distance of 518.06 feet to a 1/2" iron rod with plastic cap stamped "STOVALL & ASSOC." set (hereinafter called 1/2" iron rod set) for corner;
N. 56 deg. 32 min. 05 sec. W. a distance of 71.85 feet to a 1/2" iron rod set for corner;
N. 72 deg. 36 min. 05 sec. W. a distance of 167.88 feet to a 1/2" iron rod set for corner;
N. 67 deg. 33 min. 43 sec. W. a distance of 289.26 feet to an "X" cut in concrete set for corner in the South line of North Lakeshore Drive (85' right-of-way per Deed recorded in Volume 3828, Page 23 of the Real Property Records of Rockwall County, Texas), at the North corner of said City of Rockwall tract, said point also being at the beginning of a non-tangent curve to the right;

THENCE in a Northeasterly direction with the South line of North Lakeshore Drive and with said non-tangent curve to the right having a central angle of 23 deg. 46 min. 19 sec., a radius of 807.50 feet, a chord bearing of N. 75 deg. 05 min. 15 sec. E. a chord distance of 332.63 feet and an arc length of 335.03 feet to a 1/2" iron rod set for corner;

THENCE N. 86 deg. 58 min. 24 sec. E. with the South line of North Lakeshore Drive a distance of 174.94 feet to a 5/8" iron rod with cap stamped "KHA" found for corner at the beginning of a curve to the right;

THENCE in a Southeasterly direction with the South line of North Lakeshore Drive and with said curve to the right having a central angle of 10 deg. 38 min. 55 sec., a radius of 240.00 feet, a chord bearing of S. 87 deg. 42 min. 09 sec. E., a chord distance of 44.54 feet and an arc length of 44.60 feet to a 5/8" iron rod with cap stamped "KHA" found for corner at the beginning of a reverse curve to the left;

THENCE in a Southeasterly direction with the South line of North Lakeshore Drive and with said reverse curve to the left having a central angle of 14 deg. 25 min. 03 sec., a radius of 260.00 feet, a chord bearing of S. 89 deg. 35 min. 12 sec. E., a chord distance of 65.25 feet and an arc length of 65.42 feet to a 1/2" iron rod set for corner at the beginning of a compound curve to the left;

THENCE in a Northeasterly direction with the South line of North Lakeshore Drive and with said compound curve to the left having a central angle of 01 deg. 20 min. 20 sec., a radius of 902.50 feet, a chord bearing of N. 82 deg. 32 min. 06 sec. E., a chord distance of 21.09 feet and an arc length of 21.09 feet to a 5/8" iron rod with cap stamped "KHA" found for corner at the beginning of a reverse curve to the right;

THENCE in a Southeasterly direction with the South line of North Lakeshore Drive and with said reverse curve to the right having a central angle of 83 deg. 51 min. 15 sec., a radius of 80.00 feet, a chord bearing of S. 56 deg. 12 min. 26 sec. E. a chord distance of 106.91 feet and an arc length of 117.08 feet to a 1/2" iron rod set for corner;

THENCE N. 75 deg. 43 min. 11 sec. E. with a South line of North Lakeshore Drive a distance of 3.66 feet to a 1/2" iron rod set for corner at the intersection of the South line of North Lakeshore Drive with the West line of State Highway No. 205;

THENCE S. 14 deg. 17 min. 14 sec. E. with the West line of State Highway No, 205 a distance of 606.43 feet to the POINT OF BEGINNING and containing 4.706 acres or 204,993 square feet of land.

To BT Investments, LLC, First American Title Insurance Company:

This is to certify that this map or plat and the survey on which it is based were made in accordance with the 2011 Minimum Standard Detail Requirements for ALTA/ACSM Land Title Surveys, jointly established and adopted by ALTSA and NSPS, and includes Items 1, 2, 3, 4, 7(a), 8, 9 and 11 of Table A thereof. The fieldwork was completed on August 31, 2015.

Date of Plat or Map: August 31, 2015

SHEET 1 OF 1

CITY OF ROCKWALL

ORDINANCE NO. 17-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 65 (PD-65) AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO GRANT A CHANGE IN ZONING TO AMEND *ORDINANCE NO. 06-02, 08-02 & 10-28*, BEING IDENTIFIED AS A 49.35-ACRE TRACT OF LAND SITUATED WITHIN THE S. KING SURVEY, ABSTRACT NO. 131 AND THE J. B. JONES SURVEY, ABSTRACT NO. 124, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS (*$2,000.00*) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Worth Williams of Moore Worth Investments, LLC on behalf of the owner Mark S. Kelldorf of Arkoma Development, LLC for the approval of an amendment to Planned Development District 65 (PD-65) for the purpose of amending *Ordinance No.'s 06-02, 08-02 & 10-28* being identified as a 49.35-acre tract of land situated within the S. King Survey, Abstract No. 131 and the J. B. Jones Survey, Abstract No. 124, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 1 (PD-1) [*Ordinance No.'s 06-02, 08-02 & 10-28*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No.'s 06-02, 08-02 & 10-28*;

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Location Map/Area Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

DRAFT ORD. 2016

Section 4. That development of the *Subject Property* shall generally be in accordance with the *PD Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 6. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 7. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 8. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3RD DAY OF JANUARY, 2017.

DRAFT ORDINANCE 10.29.16

Exhibit 'A':
Legal Description

Tract One: 32.83-Acres

BEING of a tract of land out of the S. King Survey, Abstract No. 131 and the J. B. Jones Survey, Abstract No. 124, in the City of Rockwall, Rockwall County, Texas, being part of the 46.81 tract of land described in deed to Arkoma Realty, recorded in *Volume 2279, Page 273* of the *Deed of Record* of Rockwall County, Texas, being part of the 6.40 acre tract of land described in deed to Granville Davis recorded in Volume 69, Page 595 of the Deed of Record of Rockwall County, Texas and being more particularly described as follows:

BEGINNING at a point for the intersection of the northwest right-of-way line of North Lakeshore Drive (*85-feet ROW at this point*) with the southerly most west line of said 46.81-acre tract;

THENCE with the west lines of said 46.81-acre tract, the following courses and distances to wit:

North 00°26'38" West, a distance of 543.18-feet to a point for corner;
South 54°58130" West, a distance of 122.35-feet to a point for corner;
North 83°16'59" West, a distance of 136.00-feet to a point for corner;
North 35°30'59" West, a distance of 188.00-feet to a point for corner;
North 70°43'59" West, a distance of 107.50-feet to a point for corner;
North 10°45159" West, a distance of 171.00-feet to a point for corner;
North 70°07'59" West, a distance of 175.00-feet to a point for corner;
South 89°07'01" West, a distance of 130.00-feet to a point for corner;
North 36°05159" West, a distance of 56.87-feet to a point for corner;
North 33°07'21" East, a distance of 116.67-feet to a point for corner;
North 39°50'57"' East, a distance of 311.65-feet to a point for corner;
North 04°37'55" East, a distance of 217.53-feet to a point for corner;
North 11°37'41" West, a distance of 50.53-feet to a point in Quail Run Road;

THENCE along said Quail Run Road, the following courses and distances to wit:

South 83°27'28" East, a distance of 295.32-feet to a point for corner;
South 82°32'17'' East, a distance of 129.27-feet to a point for corner;

THENCE leaving said Quail Run Road and with the west line of *Six-0 Subdivision*, an addition to the City of Rockwall according to the plat thereof recorded in *Cabinet B, Page 54* of the *Plat Records* of Rockwall County, Texas part of the way, South 07°07'49" West, a distance of 299.69-feet to a point for corner;

THENCE with the south line of said *Six-0 Subdivision*, the south line of Barz Acres, an addition to the City of Rockwall according to the plat thereof recorded in *Cabinet C, Page 14* of the *Plat Records* of Rockwall County, Texas, the south line of Wilson Addition, an addition to the City of Rockwall according to the plat thereof recorded in *Cabinet A, Page 275* of the *Plat Records* of Rockwall County, Texas and the south line of a 0.49 acre tract of land described in deed to Dean Lanty recorded in *Volume 349, Page 4* of the Deed Records of Rockwall County, Texas, South 80°48'3711 East, a distance of 420.59-feet to a point for corner;

THENCE continuing with the south line of said 0.49-acre tract, North 88°281 17" East, a distance of 313.50-feet to a point in the centerline of Quail Run Road;

THENCE with said centerline, North 18°54'05" West, a distance of 211.45-feet to a point for corner;

THENCE leaving said centerline, North 72°55'01" East, a distance of 389.63-feet to a point for corner in the west right-of-way line of State Highway 205 (variable width ROW);

THENCE with said west right-of-way line, the following courses and distances to wit:

South 14°09'38" East, a distance of 509.46-feet to a point for corner;
South 43°34'59" West, a distance of 158.82-feet to a point for corner;
South 71°57'06" East, a distance of 159.25-feet to a point for corner;

DRAFT ORDINANCE 10.25.2016

South 14°17'14" East, a distance of 243.88-feet to a point in the north right-of-way line of said North Lakeshore Drive;

THENCE with said north right-of-way line, the following courses and distances to wit:

South 75°56'40" West, a distance of 3.43 feet to a point for the beginning of a non-tangent curve to the right with a radius of 65.00-feet, a central angle of 96°44'10" and a chord bearing and distance of South 34°18'46" West, 97.17-feet;

Southwesterly, with said curve, an arc distance of 109.74-feet to a point for the beginning of a compound curve to the right with a radius of 807.50-feet, a central angle of 4°17'33" and a chord bearing and distance of South 84°49'37" West, 60.48-feet;

Southwesterly, with said curve, an arc distance of 60.50-feet to a point for corner; South 86°58'24" West, a distance of 225.10-feet to a point for the beginning of a tangent curve to the left with a radius of 892.50-feet, a central angle of 47°07'08", and a chord bearing and distance of South 63°24'50" West, 713.47-feet;

Southwesterly, with said curve, an arc distance of 733.97-feet to a point for corner;

THENCE South 39°51'16" West, a distance of 192.14-feet to the *POINT OF BEGINNING* and containing 32.83-acres of land.

DRAFT ORDINANCE 10.29.2016

Exhibit 'A':
Legal Description

Tract Two: 16.52-Acres

BEING of a tract of land out of the J. B. Jones Survey, Abstract No. 124, in the City of Rockwall, Rockwall County, Texas, being part of the 46.81-tract of land described in deed to Arkoma Realty, recorded in *Volume 2279, Page 273* of the *Deed of Record* of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a point for the intersection of the south right-of-way line of North Lakeshore Drive (*85-feet ROW at this point*) with the south line of said 46.81-acre tract;

THENCE with said south right-of-way line, the following courses and distances to wit:

North 39°51'16" East, a distance of 249.64-feet to a point for the beginning of a tangent curve to the right with a radius of 807.50-feet, a central angle of 47°07'08", and a chord bearing and distance of North 63°24'50" East, 645.52-feet;

Northeasterly, with said curve, an arc distance of 664.07-feet to a point for corner;

North 86°58'24" East, a distance of 174.93-feet to a point for the beginning of a tangent curve to the right with a radius of 240.00-feet, a central angle of 10°38'58", and a chord bearing and distance of South 87°42'08" East, 44.54-feet;

Southeasterly, with said curve, an arc distance of 44.61-feet to a point for the beginning of a reverse curve to the left with a radius of 260.00-feet, a central angle of 14°25'10", and a chord bearing and distance of South 89°35'14" East, 65.26-feet;

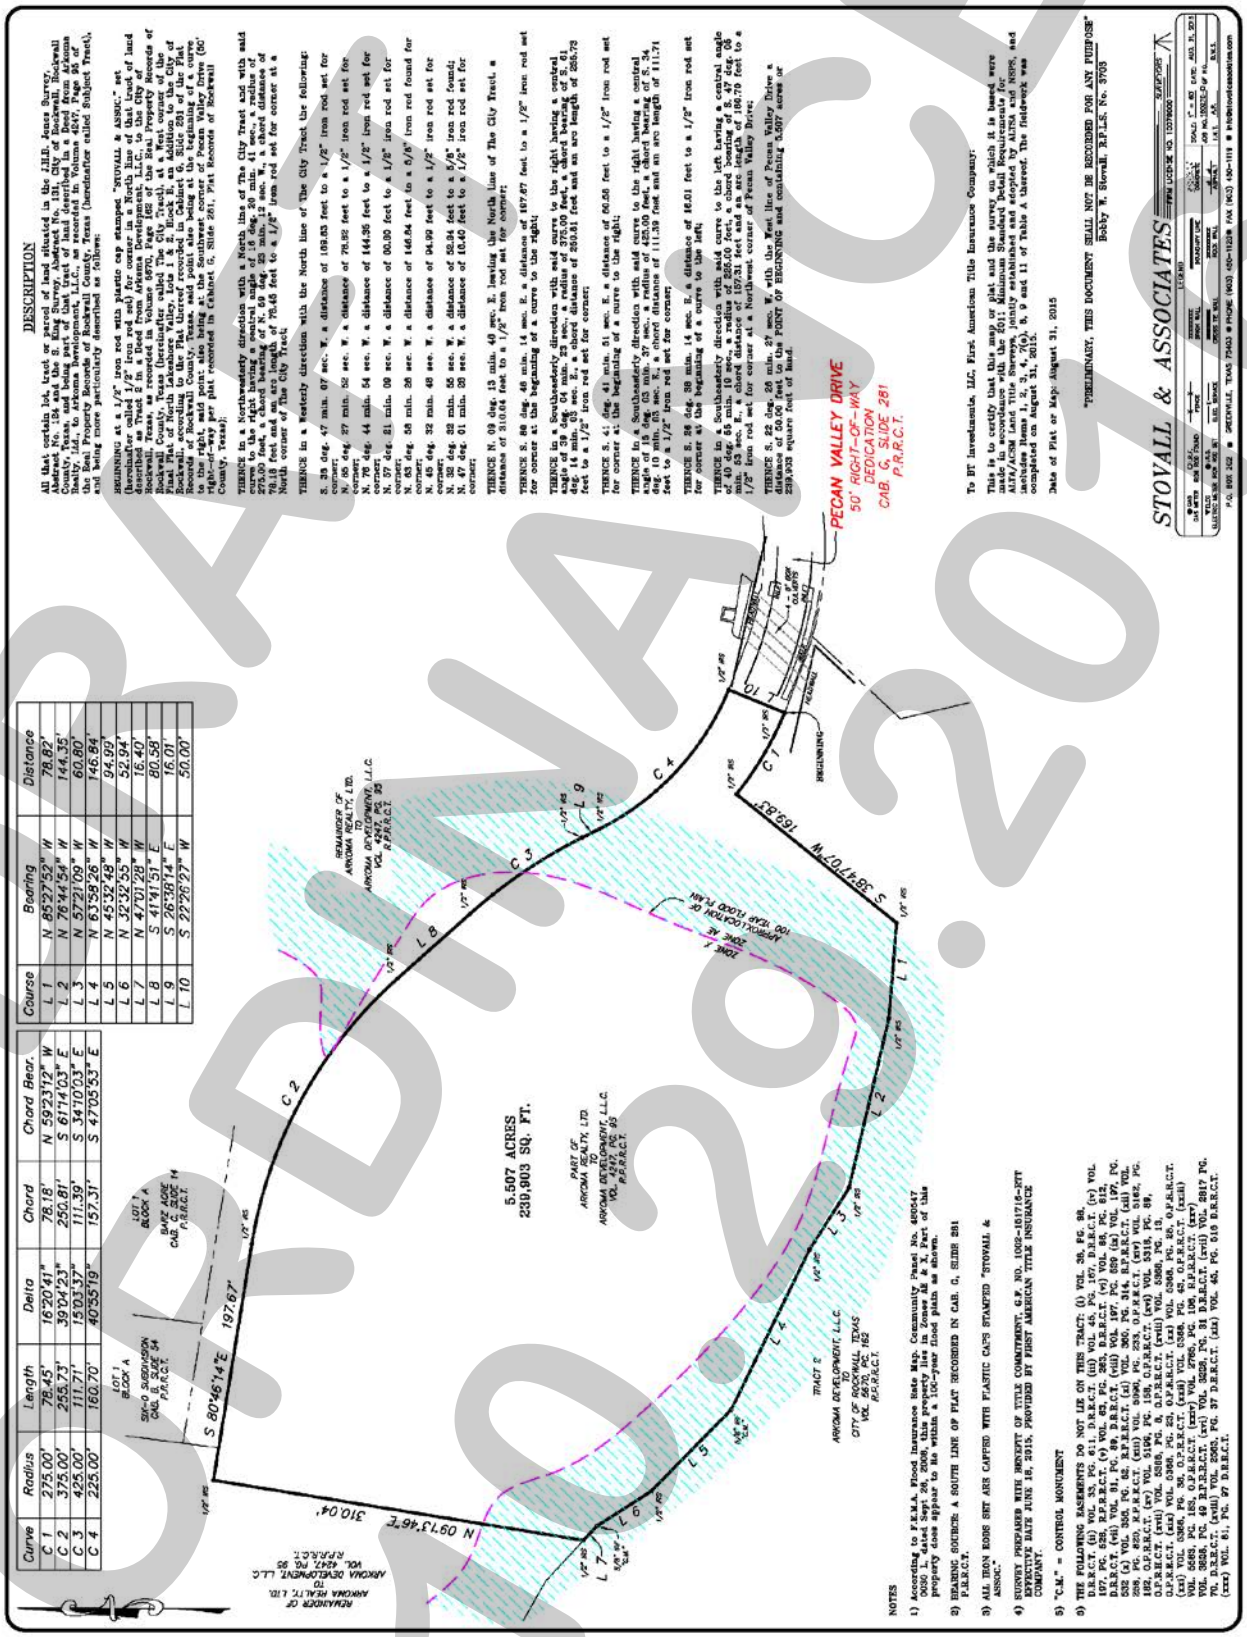
Southeasterly, with said curve, an arc distance of 65.43-feet to a point for the beginning of a compound curve to the left with a radius of 902.50-feet, a central angle of 1°20'16" and a chord bearing and distance of North 82°32'03" East, 21.07-feet;

Northeasterly, with said curve, an arc distance of 21.07-feet to a point for the beginning of a reverse curve to the right with a radius of 80.00-feet, a central angle of 83°51'17'', and a chord bearing and distance of South 56°12'26" East, 106.91-feet;

Southeasterly, with said curve, an arc distance of 117.08-feet to a point for corner;

North 75°43'11" East, a distance of 3.66-feet to a point for corner in the west right-of-way line of State Highway 205 (*variable width ROW*);

THENCE with said west right-of-way line, South 14°17'14" East, a distance of 877.52-feet to a point for the northeast corner of Lakeview Summit Phase IV, an addition to the City of Rockwall according to the plat thereof recorded in *Cabinet D, Page 378* of the *Plat Records* of Rockwall County, Texas;



THENCE with the north line of said addition part of the way, the following courses and distances to wit:

South 88°40'43" West, a distance of 46.97-feet to a point for corner;
North 71°15'19" West, a distance of 564.26-feet to a point for corner;

THENCE North 72°47'58" West, a distance of 806.31-feet to the POINT OF BEGINNING and containing 16.52-acres of land.

DRAFT ORDINANCE 10.25.16

Exhibit 'C':
PD Development Standards

TEXT TO BE ADDED TO THE ORDINANCE
~~***TEXT TO BE REMOVED FROM THE ORDINANCE***~~

Open Space

1. *Open Space.* All common areas and dedicated landscape easements and open space areas shall be maintained by a Property Owner's Association (POA), including areas of landscaping in the public right-of-way along Quail Run Road, SH-205 [*N. Goliad Street*] and N. Lakeshore Drive.

Parcel 1A & 1B (Lot 4, Block B & Lot 1, Block A)

2. *Permitted Uses.* *Parcel 1* as depicted in *Exhibit 'B'* of this ordinance shall be subject to the development standards and land uses permitted for the Single Family 10 (SF-10) District as stipulated by Article IV, *Permissible Uses*, and Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future, with the following additions:

   Permitted By-Right:
   ☑ Church/House of Worship
   ☑ ~~***Maximum Building Size of 10,000 Square Feet***~~

3. *Maximum Building Height.* ***A maximum building height of*** *60-feet* ***shall be permitted; however,*** any building over *36-feet* shall require a ***Specific Use Permit (****SUP****)***.
4. *Maximum Building Size.* ***A maximum building size of*** *10,000 SF* ***shall be permitted.***
5. *Maximum Number of Residential Units.* ***One (****1****) residential unit shall be allowed on Parcel 1.***
6. ~~***All proposed developments within Parcel 1-A shall be subject to future site plan and Architectural review. All four (4) facades of each building throughout the development shall be constructed with a consistent design scheme and materials as approved by the Architectural Review Board.***~~
7. ~~***In addition to the requirements of the outdoor lighting requirements of the Unified Development Code, no light pole, pole base or combination thereof shall exceed twenty (20) feet. All lighting fixtures shall focus light downward and be contained on the site.***~~
8. ~~***All exterior lighting shall have a maximum of 0.2 foot-candles when measure three feet above grade at the property line.***~~
9. ~~***All structures having a footprint of 6,000 square feet or less shall be constructed with a pitched roof system.***~~
10. ~~***All development to adhere to the General Commercial District Standards (Section 4.1) and the standards set forth in the North SH 205 Overlay District.***~~
11. ~~***All rooftop and ground mounted equipment must be orientated away from existing single-family residences and screened from adjacent properties & public rights-of-way.***~~
12. ~~***Dumpsters shall be orientated away from existing single-family residences and shall be screened from adjacent properties & public rights-of-ways. All dumpster enclosures shall be constructed of the same material and color as the primary structure. All dumpster enclosure gates shall be metal panel.***~~
13. ~~***All permanent free standing signs shall be monument signs not exceeding five (5) feet in height or a maximum of sixty (60) square feet in area per sign face.***~~
14. ~~***All landscaping and screening shall comply with Article VIII Landscape Standards of***~~

DRAFT ORDINANCE 10-25-16

~~the Unified Development Code.~~
~~15. No outside storage/display or merchandising.~~

Parcel 2 (Lot 3, Block B)

1. *Permitted Uses.* *Parcel 3* as depicted in *Exhibit 'B'* of this ordinance shall be subject to the development standards and land uses permitted for the General Retail (GR) District as stipulated by Article IV, *Permissible Uses*, and Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future, with the following additions:

   Permitted By-Right:
   - ☑ Assisted Living Facility
   - ☑ Nursing Home/Convalescent Care Facility
   - ☑ Private Streets
   - ☑ Office

   Permitted by Specific Use Permit (SUP):
   - ☑ College, University or Seminary
   - ☑ Trade School

   Prohibited Uses:
   - ☑ ***Outside Storage/Display and/or Merchandising***

2. *Maximum Building Height.* ***A maximum building height of 60-feet shall be permitted; however,*** any building over *36-feet* shall require a ***Specific Use Permit (SUP)***. ***In addition any structure exceeding 40,000 SF shall be limited to maximum height of 28-feet.***
~~3. Maximum height for any building over 40,000 square feet - 28 feet~~

DRAFT
ORDINANCE
10.29.2016

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/13/2016

APPLICANT: Dub Douphrate, *Douphrate & Associates, Inc.*

AGENDA ITEM: **Z2016-040**; *Amendment to PD-68 for Fireside Village*

SUMMARY:

Hold a public hearing to discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of the owner East Shore Joint Venture for the approval of an amendment to allow 47 single-family homes in Planned Development District 68 (PD-68) being a 25.45-acre tract of land identified as Lots 1-7, Block A, Eastshore Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 68 (PD-68), situated within the SH-205 Overlay (SH-205 OV) District, located on the east side of S. Goliad Street [*S. SH-205*] north of the intersection of S. Goliad Street and Justin Road, and take any action necessary.

BACKGROUND:

Ordinance No. 59-02 annexed the 25.45-acre subject property into the City on July 6, 1959. The property was originally zoned Light Industrial (LI) District, but was rezoned to a Commercial (C) District on May 1, 2000 by *Case No. PZ2000-032-01* [*Ordinance No. 2000-12*]. This designation was further amended on August 21, 2006, when the City Council approved Planned Development District 68 (PD-68) [*Ordinance No. 06-32*] under *Case No. Z2006-013*. The concept plan contained within this ordinance showed the 25.45-acre subject property being divided into four (4) separate uses: [*1*] an assisted living facility, [*2*] independent/active senior living community, [*3*] an office/commercial/medical development, and [*4*] retail. In addition, the plan established a 1.53-acre park and regional detention system, and a 0.79-acre site for a future lift station (*see the attached concept plan*). On September 18, 2006, the City Council approved the site plan for a 141-unit, three (3) story independent/active senior living community on a 6.43-acre portion of the subject property under *Case No. SP2006-031*. This facility was constructed in 2007. The *Evergreen at Rockwall Senior Living* facility remains the only development on the 25.45-acre subject property.

PURPOSE:

On November 18, 2016, the applicant -- *Dub Douphrate of Douphrate & Associates, Inc.* -- submitted an application requesting to amend Planned Development District 68 (PD-68) for the purpose of establishing an age restricted, residential subdivision consisting of 46 single-family, residential lots on a 14.475-acre portion of the existing PD.

ADJACENT LAND USES AND ACCESS:

The subject property is adjacent to the eastern right-of-way of S. Goliad Street [*SH-205*] south of the railroad right-of-way. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is a 1.844-acre parcel of land zoned Heavy Commercial (HC) District, which is currently occupied by a towing company [*i.e. Chubs Towing and Recovery Inc.*]. Beyond this are the Rockwall County Sheriff's offices and the Rockwall County Jail. These uses are situated on a 10.193-acre parcel of land zoned Commercial (C) District.

South: Directly south of the subject property is SH-205 (*South Goliad Street*), which is identified as a *P6D* (*i.e. principal arterial, six [6] lane, divided roadway*) on the City's *Master Thoroughfare Plan*. Beyond this is a 7.879-acre cemetery [*i.e. Rockwall Cemetery*].

East: Directly east of the subject property (*i.e. beyond Evergreen at Rockwall Senior Living facility*) is a 4.8164-acre parcel of land zoned Commercial (C) District that is currently occupied by a mini-warehouse facility [*i.e. Advantage Self Storage*]. Beyond this is Justin Road, which is identified as a M4D (*i.e. major collector, four [4] lane, divided roadway*) on the City's *Master Thoroughfare Plan*.

West: Directly west of the subject property, is a variable width right-of-way owned and operated by the *Missouri, Kansas & Texas Railroad*. Beyond this are six (6) properties zoned Commercial (C) District with various uses established on them. In addition, six (6) properties with five (5) single-family homes, zoned Single Family (SF-7) District also exist east of the subject property.

CHARACTERISTICS OF THE REQUEST:

The applicant has submitted a concept plan and development standards for the proposed age restricted, residential subdivision. The concept plan shows how the subdivision will be accessible from one (1) point entry adjacent to S. Goliad Street, and will be buffered from the thoroughfare by two (2) of the four (4) retail pads sites contained in Planned Development District 65 (PD-65). The 1.53-acre drainage area and parkland will also buffer the proposed subdivision. In addition, the property will have an emergency access point that will connect to the existing *Evergreen at Rockwall Senior Living* facility through a common area adjacent to *Lot 1, Block A*.

The proposed residential lots will be a minimum of 82' x 65', and be accessible from the street by forward facing garages (*i.e. no alleyways will be incorporated into the site*). Staff should note that the proposed lot size does not currently conform to the minimum standards of the City's established zoning districts; however, the applicant has stated that his target market (*i.e. people 55 years and older*) are looking for smaller lots, and the Homeowner's Association (HOA) will be responsible for maintaining all outside areas. This will also including the residents' private lots. The development will incorporate 20% open space (*i.e. 2.895-acres*), the majority of which currently provides regional detention for the remainder of PD-65. A summary of the proposed development standards is as follows:

Minimum Lot Width [1]	65'
Minimum Lot Depth	82'
Minimum Lot Area	5,330 SF
Minimum Front Yard Setback [2]	20'
Minimum Side Yard Setback	6'
Minimum Side Yard Setback (Adjacent to a Street)	13'
Minimum Length of Driveway Pavement (Rear and Side Yard Only)	20'
Maximum Height [3]	36'
Minimum Rear Yard Setback [4]	10'
Minimum Area/Dwelling Unit (SF) [5]	1,300 SF
Maximum Lot Coverage	45%
Minimum Number of Paved Off-Street Parking Spaces	2 Spaces
Minimum Distance Between Buildings	10'

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the single family home.

[4]: As measured from the rear yard property line.

[5]: The minimum area/dwelling unit only includes air conditioned square space.

The applicant has submitted proposed building elevations depicting four (4) product types all of which will be single story homes. The exteriors will be a combination of brick and stone and will contain 100% masonry materials. Of the four (4) building elevations, the applicant has stated that four (4) variations of each building elevation exist. This creates 16 different possibilities of housing design. The applicant is proposing to meet the City's minimum anti-monotony restrictions.

CONFORMANCE WITH THE CODE OF ORDINANCES:

It should be noted that the development standards contained within the PD Ordinance deviate from the requirements of the Unified Development Code (UDC) and the Engineering Department's *Standards of Design and Construction* Manual in the following ways:

- ☑ According to the Engineering Department's *Standards of Design and Construction* Manual, "(t)he City Council may waive the residential alley requirement upon determination by the Council, if it is in the best interest of the City." In addition, the Unified Development Code (UDC) requires all garages accessible from the street be configured in a J-Swing (*Traditional Swing*) or recessed garage format (*i.e. the garage is setback a minimum of 20-feet from the front façade of the primary structure*). Currently, the applicant is requesting to allow *Front Entry* garages in lieu of alleys. The proposed *Front Entry* garages will be situated even with the front façade of the primary structure or extend up to five (5) feet toward the street. In addition, the proposed garages will be configured in a tandem format (*i.e. one [1] car will be required to park in front of the other*) and be 12' x 43½'. This will give the appearance of a single car garage from the street.

By approving the proposed Planned Development District, the City Council is waiving these standards.

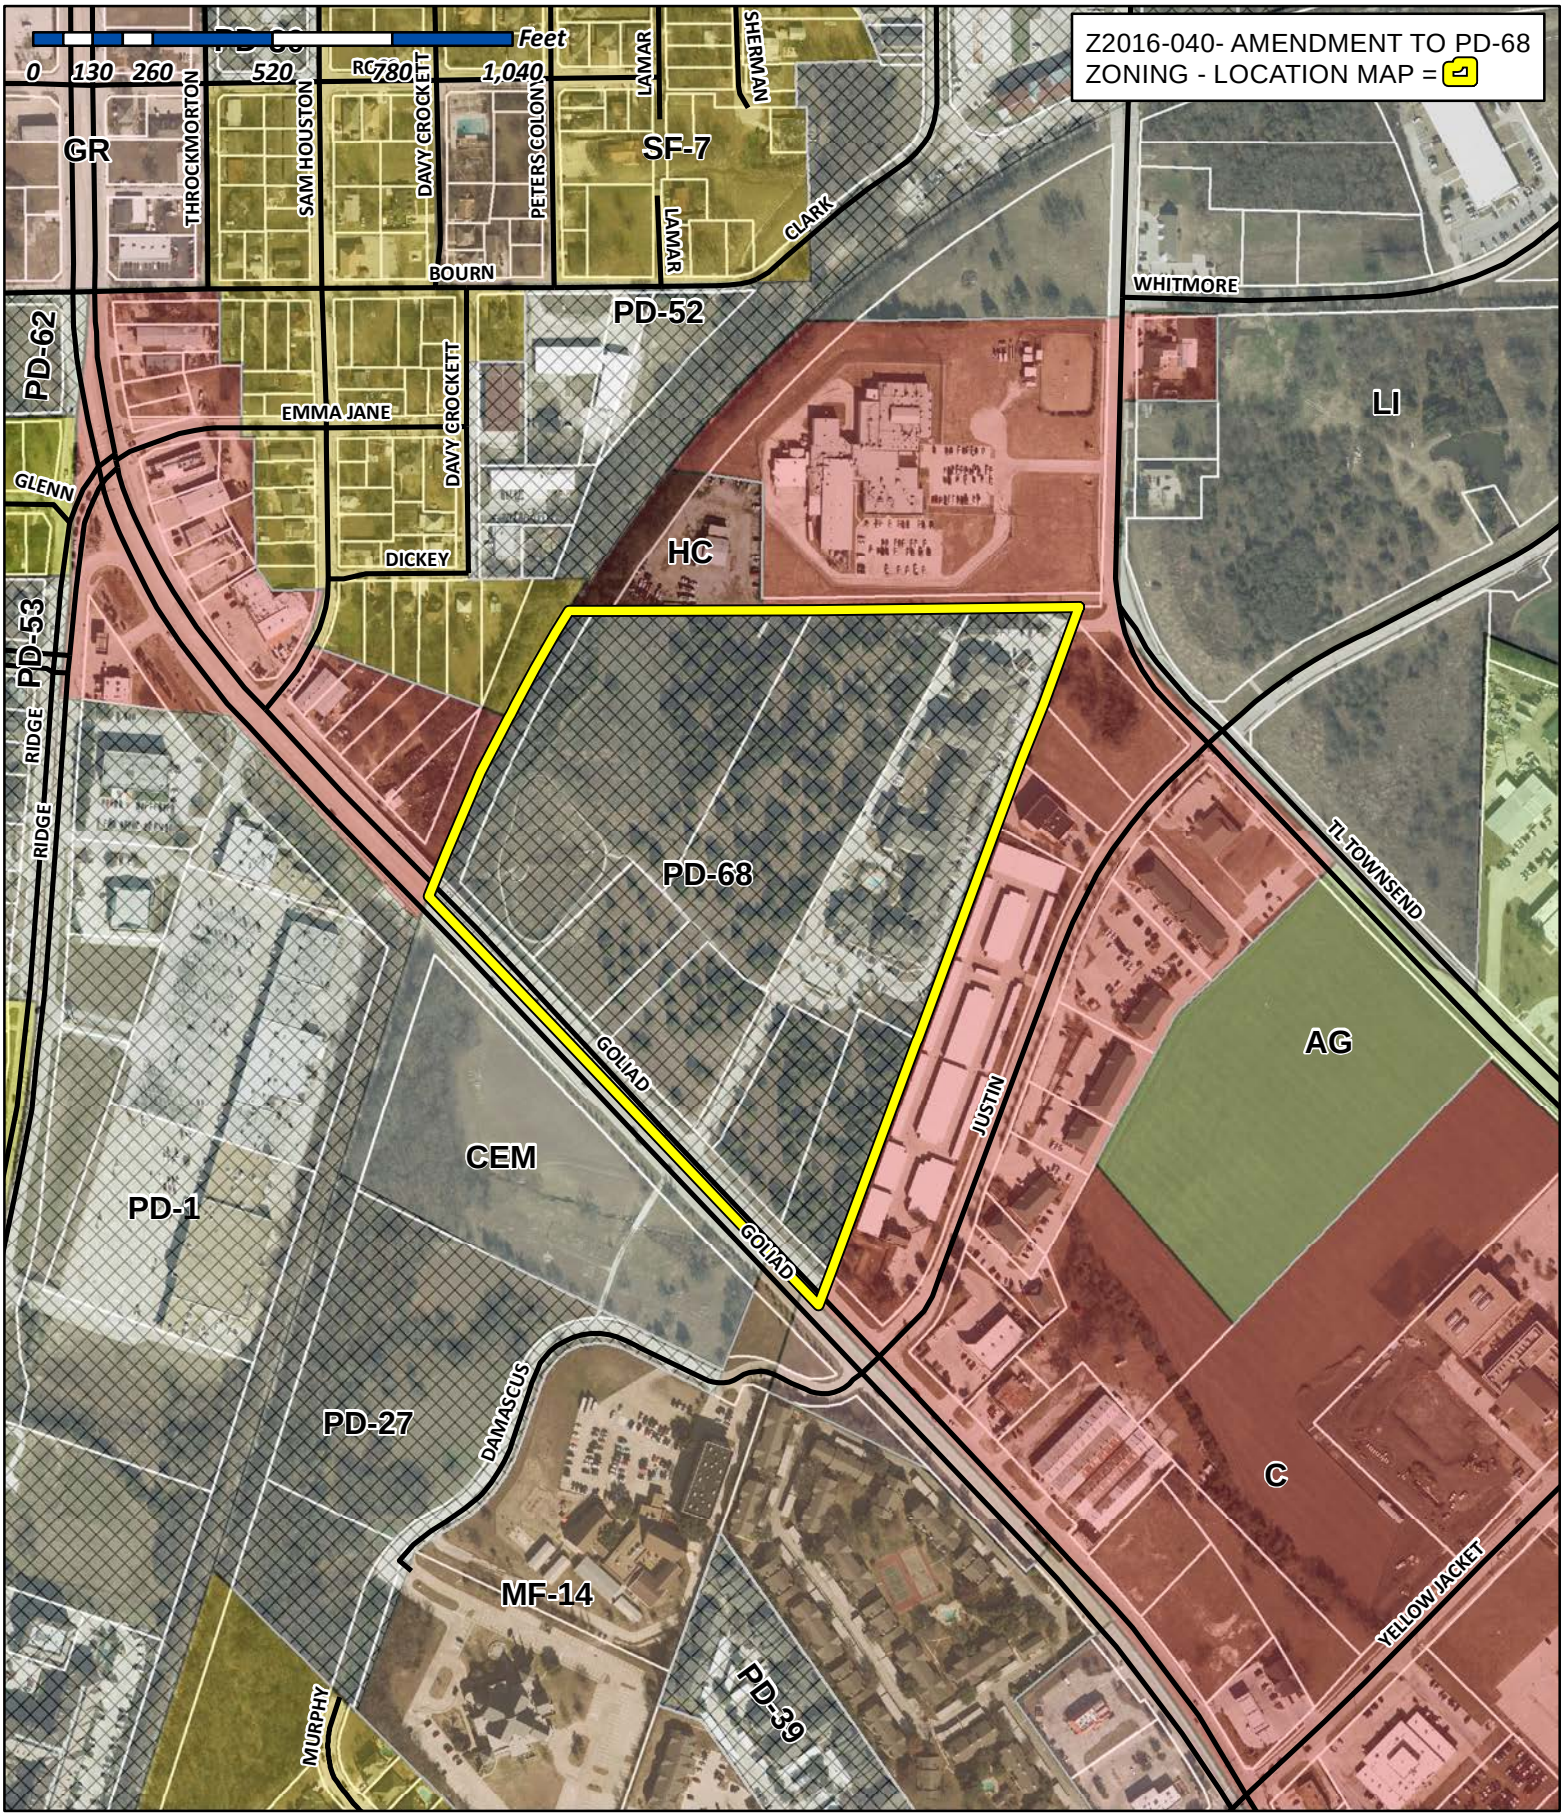
CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The zoning proposal conforms to the majority of the policies and guidelines contained in the Comprehensive Plan; however, in reviewing the proposed concept plan staff has identified that better connection with the adjacent retail properties could be incorporated at the time of site plan. Should the City Council choose to approve the applicant's request staff will recommend that the subdivision include cross connectivity with the retail parcels to the south at the time of site plan.

In addition, the Future Land Use Map contained within the Comprehensive Plan, designates the subject property for ***Commercial*** land uses. Staff has verified that the subject property has been designated under the ***Commercial*** land use designation since the zoning was changed in 2000. The proposed zoning change would necessitate that this designation be amended from a ***Commercial*** designation to a ***High Density Residential*** designation. According to the Comprehensive Plan, a ***High Density Residential*** land use is defined as any development that exceeds three (3) units per gross acre. In this case, the density of the proposed subdivision is at 3.6-units per gross acre. In addition, the Comprehensive Plan states that "(h)igh density residential [*land uses*] should be used as a transitional use from commercial (*or existing retail*) use, or where it will serve as a logical extension of an existing high density development. Staff should point out that the adjacent land use (*i.e. Evergreen at Rockwall Senior Living facility*) currently has a density of 21.45-units per gross acre and is designated as a ***High Density Residential*** property. It should also be noted that this property will be buffered from S. Goliad Street [*SH-205*] by four (4) retail parcels to the south and a railroad track to the west. With this being said, the approval of any changes to the Future Land Use Map is a discretionary decision for the City Council. Should the City Council choose to approve the applicant's request staff has included a condition of approval that would amend the Future Land Use Map to reflect the proposed change in land use from a ***Commercial*** designation to a ***High Density Residential*** designation.

NOTIFICATION:

On November 23, 2016, staff mailed 76 notices to property owners and residents within 500-feet of the subject property. Staff also emailed the Waterstone Homeowner's Association (HOA), which was the only HOA/Neighborhood Organization within 1,500-feet of the subject property that is currently participating in the Neighborhood Notification Program (*staff does not currently have contact information on the Southside Residential Neighborhood*). Additionally, staff posted a zoning sign along S. Goliad Street [*SH-205*], and advertised the public hearings in the Rockwall Harold Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted, staff had received one (1) notification in opposition to the applicant's request.



RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to amend Planned Development District 65 (PD-65), then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) By approving this zoning change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of the subject property from a *Commercial* designation to a *High Density Residential* designation; and,

3) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

CITY OF ROCKWALL

ORDINANCE NO. 17-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 68 (PD-68) AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO GRANT A CHANGE IN ZONING TO ALLOW FOR THE INCORPORATION OF A SINGLE-FAMILY SUBDIVISION FOR A ~14.475-ACRE PORTION OF THE 25.45-ACRE PLANNED DEVELOPMENT DISTRICT BEING IDENTIFIED AS LOTS 1-7, BLOCK A, EASTSHORE ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS (*$2,000.00*) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by the Dub Douphrate of Douphrate & Associates, Inc. on behalf of the owner East Shore Joint Venture for the approval of an amendment to Planned Development District 68 (PD-68) being a 25.45-acre tract of land identified as Lots 1-7, Block A, Eastshore Addition, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A' & Exhibit 'B'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 68 (PD-680 [*Ordinance No. 06-32*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 06-32;*

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plans*, contained in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

DRAFT ORD. 2016

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'D'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'D'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That development of *Area 3* as depicted in *Exhibit 'B'* of this ordinance shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 5(b) through 5(f) below*), shall be the exclusive procedures applicable to the subdivision and platting of *Area 3* as depicted in *Exhibit 'B'* of this ordinance.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) Open Space Master Plan
(2) Master Plat
(3) Preliminary Plat
(4) PD Site Plan
(5) Final Plat

(c) *Open Space Master Plan.* An *Open Space Master Plan* for *Area 3* as depicted in *Exhibit 'B'* of this ordinance, prepared in accordance with this ordinance and consistent with the *Exhibit 'C'* of this ordinance, and shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

(d) *Master Plat.* A *Master Plat* for *Area 3* as depicted in *Exhibit 'B'* of this ordinance shall be submitted and shall identify the proposed timing of each phase of the proposed development. A *Master Plat* application may be processed by the City concurrently with an *Open Space Master Plan* for the development.

(e) *Preliminary Plat.* A *Preliminary Plat* covering all of *Area 3* as depicted in *Exhibit 'B'* of this ordinance shall be submitted and shall include a *Treescape Plan*. A *Preliminary Plat Application* may be processed by the City concurrently with a *Master Plat* and an *Open Space Master Plan Application* for the development.

(f) *PD Site Plan.* A *PD Site Plan* covering all of *Area 3* as depicted in *Exhibit 'B'* of this ordinance shall be submitted and shall identify all site/landscape/hardscape plan(s) for all open space, neighborhood parks, trail systems, street buffers and entry features. A *PD Site Plan* application may be processed by the City concurrently with a *Final Plat Application* for the development.

(g) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat*, conforming to the *Preliminary Plat*, for all of *Area 3* as depicted in *Exhibit 'B'* of this ordinance shall be submitted for approval.

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a

DRAFT ORDINANCE 12.13.16

penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3RD DAY OF JANUARY, 2017.

PD Development Standards.

Area 1: Evergreen Senior Community (~6.5749-Acres)

(1) *Permitted Uses. Area 1* as depicted in *Exhibit 'B'* of this ordinance shall be subject to the development standards and land uses permitted in the Commercial (C) District as stipulated by Article IV, *Permissible Uses*, and Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future, with the following additions:

Permitted By-Right. The following uses are permitted *by-right*:

(a) Age Restricted Senior Housing. Age Restricted Senior Housing -- *which shall be defined in accordance with the State of Texas Federal Fair Housing Laws* -- shall include but not be limited to the following:

- ☑ All of the occupied units are occupied by at least one (1) person who is 55-years of age or older, or handicapped.
- ☑ The housing facility or community publishes and adheres to policies and procedures that demonstrate their intent to meet all provisions of the *Housing for Older Persons Act* of 1995.
- ☑ The housing facility or community complies with all rules issued by the *Secretary of Housing and Urban Development* for verification of occupancy.
- ☑ The housing facility has significant facilities and services specifically designated to meet the physical or social needs of older persons.

(b) Private Streets.

Permitted as Accessory Uses. The following uses shall be permitted as accessory uses to *Age Restricted Senior Housing*:

- ☑ Barber and Beauty Shop
- ☑ Cafeteria/Common dining facilities
- ☑ Chapel
- ☑ Community Center
- ☑ Drug Store or Pharmacy
- ☑ Game Court
- ☑ Greenhouse
- ☑ Handcraft or Art Work Studio
- ☑ Health Studio
- ☑ Instructional Art Studio
- ☑ Medical Treatment Services (*e.g. medical clinic, physical therapy services, inhalation therapy, and other related uses*)
- ☑ Office
- ☑ Private Recreation Club or Area
- ☑ Retail store with Food and Personal Goods
- ☑ Snack Bar
- ☑ Swimming Pool

Specific Uses. The following uses shall be permitted by Specific Use Permit:

- ☑ Retail Store with Gasoline Sales with more than two (2) dispenser (*i.e. servicing four [4] vehicles*). This may also include a car wash as an accessory use.

Prohibited Uses. The following uses shall be prohibited:

- ☑ Animal Boarding/Kennel with or without Outside Pens
- ☑ Cemetery

DRAFT ORDINANCE 12.13.2016

- ☑ Billiard Parlor or Pool Hall
- ☑ Carnival, Circus or Amusement Ride
- ☑ Commercial Amusement Recreation (*Outside*)
- ☑ Gun Club, Skeet or Target Range (*Indoor*)
- ☑ Astrologer, Hypnotist or Psychic
- ☑ Night Club, Discotheque or Dance Hall
- ☑ Pawn Shop
- ☑ Secondhand Dealer
- ☑ Building and Landscape Material Sales with or without Outside Storage
- ☑ Research and Technology/ Light Assembly
- ☑ Auto Repair Garage (Minor)
- ☑ Boat and Trailer Dealership (New and Used)
- ☑ Car Wash with Auto Detail
- ☑ Self Service Car Wash
- ☑ Motor Vehicle Dealership (New or Used)
- ☑ RV Sales and Service
- ☑ Service Station
- ☑ Mining and Extraction (e.g. Sand, Gravel, Oil and/or Other)
- ☑ Helipad
- ☑ Railroad Yard or Shop

(2) *Number of Units.* The maximum number of *Age Restricted Senior Housing* units shall not exceed 145 units.

(3) *Unit Size.* The minimum unit size shall not be less than 700 SF and the average unit size shall not be less than 800 SF.

(4) *Building Height.* The maximum building height shall be 60-feet. Building with multiple stories shall be required to provide interior elevators.

(5) *Lot Coverage.* The maximum lot coverage shall be 45%.

(6) *Masonry Requirement*. All buildings shall be consist 95% masonry -- *excluding windows and doors* -- and shall adhere to the building elevations contained in *Exhibit 'E'* of this ordinance. For the purposes of this ordinance, masonry shall be defined as brick, stone, cultured stone, cementaceous fiberboard (*i.e. HardiPlank, HardiBoard or similar; nine (9) inches or smaller in width*) and cementaceous stucco. The masonry requirements for all building facades shall include a minimum of 20% natural or quarried stone.

(7) *Articulation.* The buildings shall be highly articulated in a similar manner to the building elevations contained in *Exhibit 'E'* of this ordinance.

(8) *Parking.* No less than 1.2 parking spaces per unit shall be provided. Any attached or detached garages or carports shall be approved during the review of the site plan (*with building elevations*), and shall be constructed with materials matching the primary structure.

(9) *Common Recreation Amenity.* The *Age Restricted Senior Housing* area (*i.e. Area 1*) shall have a clubhouse facility including residence dining areas and a kitchen. In addition, other amenities such as an exercise club and pool shall be provided.

(10) *Parks*. All development within *Area 1* shall be subject to review by the City of Rockwall's Parks Board at the time of *PD Site Plan* and/or platting. The Parks Board shall make recommendations to the City Council regarding trail requirements, parkland dedication requirements and pro-rata equipment fees for the development.

DRAFT ORDINANCE 12.19.2016

(11) *Open Space*. A minimum of 20% of *Area 1* shall be developed as open space, which may include landscaping buffers and islands, landscaped detention areas, hardscape gathering areas, and pool and other outdoor recreational areas.

(12) *Phasing.* No phasing of *Age Restricted Senior Housing* shall be permitted.

(13) *Screening from Adjacent Land Uses.* Additional landscaping and/or screening shall be provided on all perimeter property lines adjacent to other uses. This may consist of solid landscaping such as hedgerows or a combination of iron (*i.e. tubular steel*) fencing and landscaping, or as otherwise approved by the Planning and Zoning Commission. A detail of this screening shall be indicated on the *PD Site Plan*.

(14) *PD Site Plan.* The Planning and Zoning Commission shall review the *PD Site Plan* for *Area 1* and forward its recommendation to the City Council who shall review the final *PD Site Plan* and shall approve, conditionally approve, or deny the *PD Site Plan*. All required off-site improvements such as fire lanes and access, utility and drainage facilities, and open space shall be approved as part of the *PD Site Plan* for *Area 1*.

Area 2: Property Adjacent to SH-205 [N. Goliad Street] (~4.3998-Acres)

(1) *Permitted Uses. Area 2* as depicted in *Exhibit 'B'* of this ordinance shall be subject to the development standards and land uses permitted in the Commercial (C) District as stipulated by Article IV, *Permissible Uses*, and Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future, with the following additions:

Specific Uses. The following uses shall be permitted by Specific Use Permit:

☑ Retail Store with Gasoline Sales with more than two (2) dispenser (*i.e. servicing four [4] vehicles*). This may also include a car wash as an accessory use.

Prohibited Uses. The following uses shall be prohibited:

☑ Animal Boarding/Kennel with or without Outside Pens
☑ Cemetery
☑ Billiard Parlor or Pool Hall
☑ Carnival, Circus or Amusement Ride
☑ Commercial Amusement Recreation (*Outside*)
☑ Gun Club, Skeet or Target Range (*Indoor*)
☑ Astrologer, Hypnotist or Psychic
☑ Night Club, Discotheque or Dance Hall
☑ Pawn Shop
☑ Secondhand Dealer
☑ Building and Landscape Material Sales with or without Outside Storage
☑ Research and Technology/ Light Assembly
☑ Auto Repair Garage (Minor)
☑ Boat and Trailer Dealership (New and Used)
☑ Car Wash with Auto Detail
☑ Self Service Car Wash
☑ Motor Vehicle Dealership (New or Used)
☑ RV Sales and Service
☑ Service Station
☑ Mining and Extraction (e.g. Sand, Gravel, Oil and/or Other)
☑ Helipad
☑ Railroad Yard or Shop

DRAFT
ORDINANCE
12.13.2016

(2) *PD Development Plan.* All property within *Area 2* shall require the approval of a *PD Development Plan* in accordance with Article X, *Planned Development Regulation*, of the Unified Development Code [*Ordinance No. 04-38*]. Each *PD Development Plan* shall be reviewed for its conformity with the spirit and intent of this ordinance and to ensure overall connectivity within the *Planned Development District.*

(3) *PD Site Plan*. A *PD Site Plan* shall be required for all development in *Area 2* in accordance with Article X, *Planned Development Regulation*, of the Unified Development Code [*Ordinance No. 04-38*] prior to any application for a building permit. The *PD Site Plan* will be reviewed for its conformity with the spirit and intent of this ordinance.

(4) *Architectural Review Board (ARB)*. All development within the PD shall be subject to Architectural Review Board's (*ARB*) recommendation as part of the approval of the *PD Site Plan*. All development shall adhere to architectural symmetry and design features that encourage connectivity and consistency with similar design themes.

(5) *Buried Utilities*. All overhead utilities shall be placed under ground except as otherwise approved by the City of Rockwall.

(6) *Lighting*. No light pole shall exceed 20-feet in height. All light fixtures shall focus light downward and all light shall be contained on-site.

(7) *Open Space*. A minimum of 20% of each site shall be developed as open space, which may include landscaping buffers and islands, landscaped detention areas, and hardscape gathering areas.

(8) *Conformity with Other Ordinances*. Unless in conflict with the standards herein, development shall comply with the standards and procedures established by the City that are in effect at the time.

(9) *Additional Provisions*. Any additional provisions not covered within these requirements shall refer to the Unified Development Code [*Ordinance No. 04-38*].

Area 3: Fireside Village (~14.4753-Acres)

(1) *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Single Family 7 (SF-7) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future, with the following restriction:

(a) Age Restricted Senior Housing. Age Restricted Senior Housing -- *which shall be defined in accordance with the State of Texas Federal Fair Housing Laws* -- shall include but not be limited to the following:

- ☑ All of the occupied units are occupied by at least one (1) person who is 55-years of age or older, or handicapped.
- ☑ The community publishes and adheres to policies and procedures that demonstrate their intent to meet all provisions of the *Housing for Older Persons Act* of 1995.
- ☑ The housing facility or community complies with all rules issued by the *Secretary of Housing and Urban Development* for verification of occupancy.
- ☑ The housing facility has significant facilities and services specifically designated to meet the physical or social needs of older persons.

(2) *Density and Dimensional Requirements.* The maximum permissible density for the *Subject Property* shall not exceed 3.6-units/acre; however, in no case should the

DRAFT 08.18.2016

proposed development exceed 46 single-family, residential lots. All lots shall conform to the standards depicted in *Table 1* below.

Table 1: Lot Dimensional Requirements

Minimum Lot Width [1]	65'
Minimum Lot Depth	82'
Minimum Lot Area	5,330 SF
Minimum Front Yard Setback [2]	20'
Minimum Side Yard Setback	6'
Minimum Side Yard Setback (Adjacent to a Street)	13'
Minimum Length of Driveway Pavement (Rear and Side Yard Only)	20'
Maximum Height [3]	36'
Minimum Rear Yard Setback [4]	10'
Minimum Area/Dwelling Unit (SF) [5]	1,300 SF
Maximum Lot Coverage	45%
Minimum Number of Paved Off-Street Parking Spaces	2 Spaces
Minimum Distance Between Buildings	10'

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the single family home.

[4]: As measured from the rear yard property line.

[5]: The minimum area/dwelling unit only includes air conditioned square space.

(3) *Building Standards.* All development shall adhere to the following building standards:

(A) Masonry Requirement. The minimum masonry requirement for the exterior façades of all buildings shall be 100%. For the purposes of this ordinance the masonry requirement shall be limited to full width brick, natural stone, and cultured stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and/or stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) shall be permitted to be used to meet up to 20% of the masonry requirement.

(B) Roof Pitch. A minimum of a *10:12* roof pitch is required on all structures with the exception of porches, which shall have a minimum of a *4:12* roof pitch.

(C) Garage Orientation. Garages are permitted to be in a front-entry format (*i.e. even with the front façade of the primary structure*). In addition, the garage may encroach the front-yard building setback (*i.e. extend beyond the front façade of the primary structure towards the front property line*) by a distance not to exceed five (5) feet.

(D) Anti-Monotony Restrictions. The development shall adhere to the following Anti-Monotony requirements (*for spacing requirements see the illustration on the following page*):

(1) Identical brick blends or paint colors may not occur on adjacent (side-by-side) properties along any block face without at least four (4) intervening homes of differing materials on the same side of the street beginning with the adjacent property and two (2) intervening homes of differing materials on the opposite side of the street.

(2) Front building elevations shall not repeat along any block face without at least four (4) intervening homes of differing appearance on the same side of the

DRAFT ORDINANCE 12.13.2016

street and two (2) intervening homes of differing appearance on the opposite side of the street. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

(a) Number of Stories
(b) Brick Color
(c) Roof Type and Layout
(d) Articulation of the Front Façade

(3) Crown molding shall be installed in all living rooms, family rooms and master bedrooms, unless vaulted or pop-up ceilings are utilized. No Formica countertops maybe installed in kitchens and/or bathrooms, and vinyl flooring and blown acoustic ceilings shall be prohibited.

(4) All roof shingles shall be weathered wood color, an architectural or dimensional shingle, and have a 30-year rating. (*3-Tab Roofing Shingles are prohibited*).

Illustration 1: Properties line up on the opposite side of the street. Where RED are the same.

Illustration 2: Properties do not line up on opposite side of the street. Where RED are the same.

(E) Fencing Standards. All residential fencing shall be four (4) foot wrought iron/tubular steel fencing.

(F) Landscape and Hardscape Standards.

(1) *Residential Landscape.* Landscaping shall be reviewed and approved with the *PD Site Plan*. All *Canopy/Shade Trees* planted within the residential development shall be a minimum of three (3) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in

DRAFT ORDINANCE 12.5.16

total height unless otherwise provided within this document. Prior to the issuance of a Certificate of Occupancy (CO) all single-family lots shall have a minimum of two (2), three (3) inch caliper trees, as measured at breast height [*i.e. the diameter in inches of a tree as measured through the main trunk at a point of four and one-half (4½) inches above the natural ground level*]. These trees may be planted in the front and/or backyard of all interior lots.

Note: For the purposes of this section only, the term "front yard" includes the area within the dedicated right-of-way for a parkway immediately adjoining the front yard of the lot.

(2) *Landscape Buffers.* All landscape buffers and plantings located within the buffers shall be maintained by the Homeowner's Association (HOA).

(a) Landscape Buffer (SH-205). A minimum of a 20-foot landscape buffer shall be provided along the frontage of SH-205, and shall incorporate ground cover, a *built-up* berm and/or shrubbery or a combination thereof along the entire length of the frontage. Shrubbery shall have a minimum height of 30-inches and a maximum height of 48-inches. In addition, at least two (2) canopy trees and four (4) accent trees shall be planted per 100-feet of linear frontage. In addition, all buffer-strip planting requirements shall conform to the requirements of Section 6.7, *SH-205 Corridor Overlay (SH-205 OV) District*, of Article V, *District Development Standards*, of the Unified Development Code (*i.e. minimum four [4] inch caliper trees required*).

(3) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect and shall be maintained by the Homeowner's Association (HOA).

(4) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the *PD Site Plan*.

(G) Lighting. Light poles shall not exceed 20-feet in total height (*i.e. base and lighting standard*). All fixtures shall be directed downward and be positioned to contain all light within the development area.

(H) Sidewalks. Sidewalks shall be a minimum of five (5) feet in width and begin two (2) feet inside the right-of-way line.

(I) Streets. With the exception of *Street B* as indicated in *Exhibit 'C'* of this ordinance, all streets shall have a minimum of 50-feet of right-of-way and incorporate a 29-foot *back-to-back* street. *Street B* as indicated in *Exhibit 'C'* of this ordinance shall be allowed to reduce the right-of-way width to a minimum of 37-feet of right-of-way; however a 29-foot *back-to-back* street will need to be provided.

(J) Cross Access. Cross access from *Street A* to Lots 4 & 6 -- *which are depicted in Exhibit 'C' of this ordinance* -- shall be required and indicated on the *PD Site Plan*.

DRAFT ORDINANCE 17-13

(K) Open Space. The development shall consist of a minimum of 20% open space as calculated from the gross land area, and generally conform to the *Concept Plan* contained in *Exhibit 'C'* of this ordinance. The Homeowner's Association (HOA) shall maintain all open space areas.

(L) Neighborhood Signage. Permanent subdivision identification signage shall be permitted at all major entry points for the proposed subdivision. Final design and location of any entry features shall be reviewed and approved with the *PD Site Plan*.

(M) Homeowner's Association (HOA). A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of *Section 38-15* of the Subdivision Regulations contained within the *Municipal Code of Ordinances* of the City of Rockwall. The HOA shall also maintain all neighborhood parks, trails, open space and common areas, irrigation, landscaping, amenity centers, screening fences associated with this development.

(N) Buried Utilities. New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. New transmission power-lines, or distribution lines of a size not typically or cost effectively placed underground (*3-phase lines*), or additional lines that are added to existing poles, may be above ground, if located along the perimeter of the *Subject Property*. The *Developer* shall not be required to re-locate existing overhead power-lines along the perimeter of the *Subject Property*. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be considered existing lines at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph. Franchise utilities shall be placed within a ten (10) foot public utility easement behind the sidewalk, between the home and the property line.

(O) *Variances.* The variance procedures and standards for approval that are set forth in the Unified Development Code [*Ordinance No. 04-38*] shall apply to any application for variances to this ordinance.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/13/2016

APPLICANT: Tony Austin; *TAC, Inc.*

AGENDA ITEM: **Z2016-041**; *Rockwall Lofts (AG & C to PD)*

SUMMARY:

Hold a public hearing to discuss and consider a request by Tony Austin of TAC, Inc. on behalf of the owner Cameron & Cameron for the approval of a zoning change from an Agricultural (AG) District and Commercial (C) District to a Planned Development District for a multi-family apartment complex on a 12.59-acre tract of land identified as Tract 8 of the B. J. T. Lewis Survey, Abstract No. 255, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Overlay (SH-205 OV) District, located on the west side of T. L. Townsend Drive south of Justin Road, and take any action necessary.

PURPOSE AND BACKGROUND:

On November 18, 2016, the applicant submitted an application requesting to rezone a 10.369-acre tract of land from an Agricultural (AG) and Commercial (C) District to a Planned Development District for a multi-family apartment complex that will consist of 213 units. The subject property, which was annexed into the City on June 20, 1959 and February 6, 1961 by *Ordinance No.'s 59-02 & 60-01*, is located north of the intersection of E. Yellow Jacket Lane and T. L. Townsend Drive, and is currently a vacant tract of land. In addition, the subject property is currently unplatted.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is eight (8) parcels of land zoned Commercial (C) District. Situated on these parcels are several multi-tenant office buildings and the Rockwall Central Appraisal District's (RCAD) office building. Beyond this is Justin Road, which is identified as a M4D (*i.e. major arterial, four [4] lane, divided roadway*) on the City's *Master Thoroughfare Plan*. Beyond this is a mini-warehouse facility (*i.e. Advantage Self Storage*), which is zoned Commercial (C) District.

South: Directly south of the subject property are two (2) parcels of land (*i.e. 9.7804-acres and 8.2983-acres*), which are occupied with a church and community garden (*i.e. First United Methodist Church*). Both of these parcels are zoned Commercial (C) District. Beyond this quasi-public use is E. Yellow Jacket Lane, which is identified as a M4U (*i.e. major arterial, four [4] lane, divided roadway*) on the City's *Master Thoroughfare Plan*.

East: Directly east of the subject property is T. L. Townsend Road, which is identified as a M4U (*i.e. major arterial, four [4] lane, divided roadway*) on the City's *Master Thoroughfare Plan.* Beyond this are a vacant 12.484-acre parcel of land -- *zoned Light Industrial (LI) District* -- and, a 41.649-acre parcel of land -- *zoned Agricultural (AG) District*. Situated on the 41.649-acre parcel of land is Herman E. Utley Middle School.

West: Directly west of the subject property are three (3) parcels of land *(i.e. AutoZone, Cole Mountain BBQ, and Rustic Warehouse*). All of these properties are zoned Commercial (C)

District and are situated within the SH-205 Overlay (SH-205 OV) District. Beyond these uses is SH-205 [*S. Goliad Street*], which is identified as a P6D (*i.e. principal arterial, six [6] lane, divided roadway*) on the City's *Master Thoroughfare Plan.*

CHARACTERISTICS OF THE REQUEST:

Along with the application, the applicant has submitted a concept plan, building elevations, and development standards for the proposed multi-family apartment complex. The concept plan shows that the proposed 213-unit apartment complex will consist of seven (7), three (3) story buildings and one (1) leasing/club building. This building will house the leasing office and clubhouse/amenity center, with an exterior pool adjacent to the northwestern building façade. The leasing office will be a one (1) story building that will be highly articulated (*see the rendering contained within the attached packet*). A summary of the proposed product type and unit composition is as follows:

Unit Name	*Unit Type*	*Minimum Net Unit Area (SF)* [1]	*Number of Units (#)*	*Total Area (SF)*	*Units as Percentage (%)*
A1	*1 Bedroom/1 Bathroom*	576 SF	27	15,552 SF	12.68%
A2	*1 Bedroom/1 Bathroom*	680 SF	31	21,080 SF	14.55%
A3	*1 Bedroom/1 Bathroom*	740 SF	33	24,420 SF	15.49%
A4	*1 Bedroom/1 Bathroom*	772 SF	21	16,212 SF	9.86%
A5	*1 Bedroom/1 Bathroom*	773 SF	6	4,638 SF	2.82%
B1	*2 Bedroom/2 Bathroom*	1,029 SF	26	26,754 SF	12.21%
B2	*2 Bedroom/2 Bathroom*	1,156 SF	30	34,680 SF	14.08%
B3	*2 Bedroom/2 Bathroom*	1,196 SF	21	25,116 SF	9.86%
C1	*3 Bedroom/3 Bathroom*	1,321 SF	18	23,778 SF	8.45%

The above unit composition equals a minimum unit size of ~902.5 SF. Based on the size of the subject property and the number of units proposed, the requested density will be 16.92 units per acre. Currently, the highest density-zoning district that the City permits is the Multi-Family 14 (MF-14) District, which permits up to 14 units per acre. Since the applicant is proposing to rezone the subject property to a Planned Development District, additional density maybe requested of the City Council; however, this does remain a discretionary decision for the City Council, and the City Council does have the power to reduce the density of the request. This development conforms with all other requirements of the Multi-Family 14 (MF-14) District.

Article VI, *Parking and Loading*, of the Unified Development Code (UDC) stipulates that multi-family apartment complexes be parked as follows: *[1]* one (1) bedroom or efficiency units require 1½ parking spaces per unit, *[2]* two (2) bedroom units require two (2) parking spaces per unit, and *[3]* three (3) bedroom units require 2½ parking spaces per unit. This equates to 376 required parking spaces for the proposed development. To meet the requirement the concept plan indicates that a mixture of 91 internal garages, 32 detached garages and 260 surface parking spaces will be utilized. This will exceed the parking requirement by seven (7) spaces. The proposed 91 internal garages will be integrated into the design of the eight (8) buildings and will not incorporate tandem parking spaces (*i.e. a parking space within a group of two [2] or more parking spaces arranged one behind the other such that the space nearest the street serves as the only means of access to the garage*). The ratio of garages to units equals *123:213* or ~57.75%.

The building elevations submitted by the applicant show that seven (7) buildings will utilize a mixture of stucco, natural cut stone, and porcelain tile cladding on the exterior façades, and a combination of a *Thermoplastic Polyolefin* (TPO) membrane roof and composition shingled roof. In addition, the elevations conform to the four (4) sided architecture requirements stipulated by the SH-205 Overlay (SH-205 OV) District as required by the UDC. Staff has incorporated these elevations into the Planned Development District Ordinance, and general conformance to these elevations -- *pending a recommendation by the Architectural Review Board (ARB) at the time of site plan* -- is a requirement of the proposed zoning district.

With all this being said, staff has prepared a *Draft Ordinance* that includes all pertinent development standards and design guidelines based on the applicant's request. The *Draft Ordinance* is attached to this case memo for the City Council's review.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

Conformance with Policies and Guidelines

In reviewing the concept plan for conformance to the policies and guidelines of the Comprehensive Plan, staff made the following recommendations to the applicant:

1) *Retail areas should be pedestrian-oriented and easily accessible to adjacent residential neighborhoods [Land Use; Page 13; Policy #4].*

2) *The site layout for commercial and urban style housing developments should encourage buildings to be placed close to the roadway, with parking primarily located to the rear or side of buildings [Urban Design Development; Page 36; Policy #1].*

Currently, the applicant's site plan shows *Building No. 2* and the leasing/club building being directly adjacent to the roadway. The applicant has stated that his intent is to impair the visibility of the interior of the development, hiding as much of the parking and building areas as possible. With this being said, the applicant has done little to address the connectivity with the adjacent commercial and office land uses. Should this be approved staff will be requesting the applicant redesign aspects of the development to better conform to the requirements of the Comprehensive Plan.

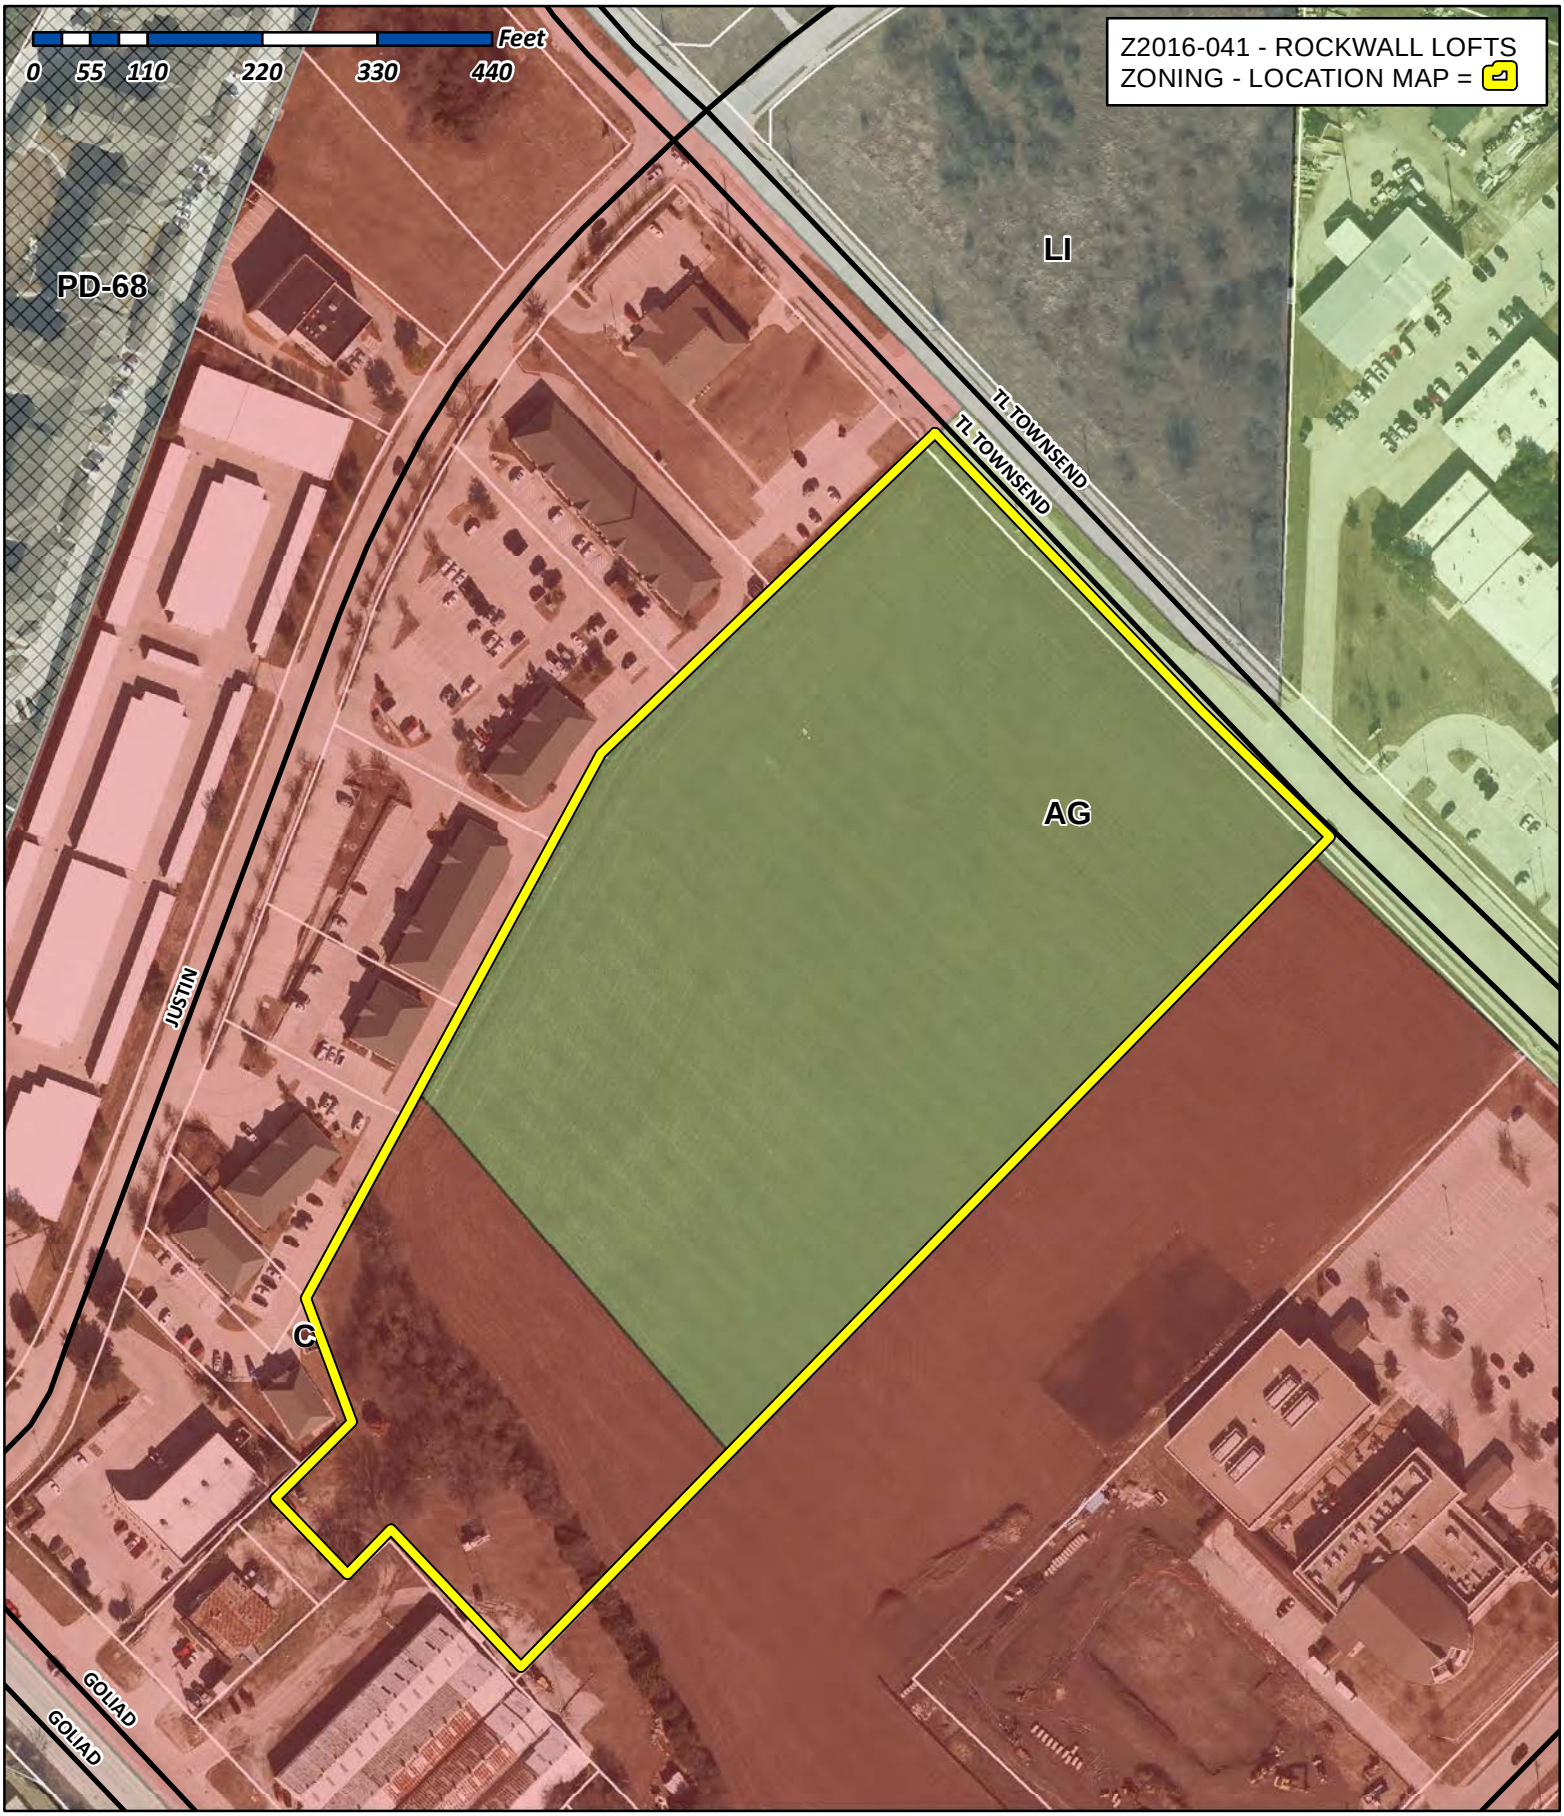
Conformance with the Future Land Use Map

The Future Land Use Map, contained within the Comprehensive Plan, designates the subject property for *Commercial* land uses. Staff has verified that this designation has existed since at least 1995 (*the subject property was designated as Commercial/Office on the 1986 Future Land Use Map*). The proposed development would require this designation to be changed to a *High Density Residential* designation, which according to the Comprehensive Plan is defined as any use that exceeds three (3) units per acre. In addition, the Comprehensive Plan states that "(h)igh density residential should be used as a transitional use from commercial (or existing retail) use, or where it will serve as a logical extension of an existing high density development." (*Land Use; Page 17; Policy #9.e*) In this case, the proposed subject property and zoning change does appear to conform to the majority of the Comprehensive Plan's policies and guidelines with regard to the *High Density Residential* designation. The subject property also has limited visibility, only having direct frontage on a roadway on T. L. Townsend Road. With this being said, the density being proposed and any change to the *Future Land Use Map* is a discretionary decision for the City Council. Should the City Council approve the applicant's request, staff has included a condition of approval that would amend the Future Land Use Map to reflect the proposed change in land use from a *Commercial* designation to a *High Density Residential* designation.

NOTIFICATION:

On November 23, 2016, staff mailed 36 notices to property owners and residents within 500-feet of the subject property. Additionally, staff posted a zoning sign along T. L. Townsend Drive, and advertised the public hearings in the Rockwall Harold Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted, staff received one (1) email opposed to the applicant's request.

RECOMMENDATIONS:



If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to rezone the subject property from an Agricultural (AG) and Commercial (C) District to a Planned

Development District for an apartment complex, then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) By approving this zoning change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of the subject property from a ***Commercial*** designation to a ***High Density Residential*** designation; and,

3) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

From: [redacted]
To: Miller, Ryan
Subject: Fw: Case Z2016-041
Date: Thursday, December 08, 2016 1:11:33 PM

When I sent this email this morning I listed the Case number incorrectly…it is corrected above, to be Z2016-041 ROCKWALL LOFTS. I am still very opposed to this building…there is currently a very nice tree line that separates my building from the property in question. I can only imagine losing the lovely tree line, looking out over apartments and them looking into my building, and inhabitants of the apartments walking across my property to get to stores. This already happens now by some individuals who cross my property, look into our windows, and return later to repeat the same behavior. The Methodist Church has been a great neighbor, but I have heard their members are not happy about this either. There are other ways to develop property in Rockwall. STOP THE FLOOD OF APARTMENTS TO ROCKWALL! Please go drive to Plano and see what has happened there…it looks like a city of apartments rather than homeowners, and it has become that! Please share my concerns with all parties involved and VOTE NO TO ROCKWALL LOFTS Z2016-041.
Dr. Robert Breen, Owner

Dear Mr. Miller:
I am emailing you to express my opposition to the amended property listed above. I own property adjacent to the proposal and believe this addition will create further exacerbated traffic flow in the area. It is already overcrowded with the school, aquatics center, church, library and court house. It will also disturb the tranquil setting that my office and other offices adjacent to mine now enjoy. As a property owner, I urge you to NOT SUPPORT Case Z2016-040.
Dr. Robert Breen, owner

CITY OF ROCKWALL

ORDINANCE NO. 17-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO CHANGE THE ZONING FROM AN AGRICULTURAL (AG) DISTRICT TO PLANNED DEVELOPMENT DISTRICT XX (PD-XX) FOR A MULTI-FAMILY APARTMENT COMPLEX ON THE SUBJECT PROPERTY, BEING A 12.59-ACRE TRACT OF LAND IDENTIFIED AS TRACT 8 OF THE B. J. T. LEWIS SURVEY, ABSTRACT NO. 255, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Tony Austin of TAC, Inc. on behalf of Cameron & Cameron for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for a multi-family apartment complex on a 12.59-acre tract of land identified as Tract 8 of the B. J. T. Lewis Survey, Abstract No. 255, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 2. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

DRAFT ORDINANCE 10.25.16

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Concept Building Elevations*, contained in *Exhibit 'D'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'D'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City Council, as amended by this ordinance (*including Subsections 5(b) through 5(e) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) PD Site Plan
(2) Open Space/Amenity Plan
(3) Final Plat

(c) *PD Site Plan.* A *PD Site Plan* covering all of the *Subject Property* shall be submitted and shall include a *Site Plan*, *Building Elevations*, *Treescape Plan*, *Landscape Plan* and a *Photometric Plan*. A *PD Site Plan* application may be processed by the City concurrently with an *Open Space/Amenity Plan* for the development.

(d) *Open Space/Amenity Plan.* An *Open Space/Amenity Plan* covering all of the *Subject Property* shall be submitted and shall include a detailed depiction of all proposed public and private amenities. An *Open Space/Amenity Plan* may be processed by the City concurrently with a *PD Site Plan Application* for the development.

(e) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat* for the *Subject Property* shall be submitted for approval.

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that

DRAFT ORD. 16-29.0

is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3RD DAY OF JANUARY, 2017.

Concept Plan

DRAFT
ORDINANCE
11.09.2016

Exhibit 'C':
Development Standards

1. *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Multi-Family 14 (MF-14) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

2. *Unit Composition.* The unit composition shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Table 1* below; however, in no case should the average net unit area decrease below 900 square feet.

Table 1: Unit Composition

Unit Name	Unit Type	Minimum Net Unit Area (SF) [1]	Number of Units (#)	Total Area (SF)	Units as Percentage (%)
A1	1 Bedroom/1 Bathroom	576 SF	27	15,552 SF	12.68%
A2	1 Bedroom/1 Bathroom	680 SF	31	21,080 SF	14.55%
A3	1 Bedroom/1 Bathroom	740 SF	33	24,420 SF	15.49%
A4	1 Bedroom/1 Bathroom	772 SF	21	16,212 SF	9.86%
A5	1 Bedroom/1 Bathroom	773 SF	6	4,638 SF	2.82%
B1	2 Bedroom/2 Bathroom	1,029 SF	26	26,754 SF	12.21%
B2	2 Bedroom/2 Bathroom	1,156 SF	30	34,680 SF	14.08%
B3	2 Bedroom/2 Bathroom	1,196 SF	21	25,116 SF	9.86%
C1	3 Bedroom/3 Bathroom	1,321 SF	18	23,778 SF	8.45%
		Average Net Unit Area:		*902.49 SF*	
		Maximum Permitted Units:	*213*		*100.00%*

General Notes:
[1]: The net square footage includes only air-condition space and is exclusive of patios, balconies and exterior storage areas.

3. *Density and Dimensional Requirements.* Unless specifically provided by this Planned Development ordinance, the development standards stipulated by the Multi-Family 14 (MF-14) District and the IH-30 Overlay (IH-30 OV) District, as specified by Article V, *District Development Standards*, of the Unified Development Code are applicable to all development on the *Subject Property*. The maximum permissible density for the *Subject Property* shall not exceed *17* dwelling units per gross acre of land; however, in no case should the proposed development exceed *213* units. All lots shall conform to the standards depicted in *Table 2*, which is as follows:

Table 2: Lot Dimensional Requirements

Minimum Lot Width	60'
Minimum Lot Depth	100'
Minimum Lot Area	10,000 SF
Minimum Lot Area/Unit	2,000 SF
Minimum Front Yard Building Setback	25'
Minimum Side Yard Building Setback	10'
Minimum Rear Yard Building Setback	10'
Minimum Front Yard Carport/Parking Setback	15'
Minimum Side Yard Carport/Parking Setback	5'
Minimum Rear Yard Carport/Parking Setback	5'
Minimum Separation Between Main Buildings [1]	20'
Minimum Separation Between a Main Structure to an Accessory Structure	10'
Maximum Height [2]	62'
Maximum Lot Coverage	45%
Minimum Landscape	20%
Minimum Open Space [3]	20%

General Notes:
[1]: The minimum separation between two (2) buildings without doors or windows on facing walls shall be a minimum of 15-feet.
[2]: The height of the building shall be measured from the average elevation of the finished grade along the front of the building to the highest point of the roof or parapet of the building if it is a flat, mansard or shed roof; or to the midpoint of the roof if it is gable, hip or gambrel roof.

[3]: The minimum open space area will be calculated based on the gross area of the lot, and will include both active and passive recreational areas.

4. *Parking and Loading Standards.* The parking and loading requirements shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Table 3*, which is as follows:

Table 3: Parking Requirements

Unit Name	*Unit Type*	*Parking Requirement Per Unit* [2]	*Number of Units (#)*	*Parking Requirement* [1]
A1	*1 Bedroom/1 Bathroom*	1.5	27	40.5
A2	*1 Bedroom/1 Bathroom*	1.5	31	46.5
A3	*1 Bedroom/1 Bathroom*	1.5	33	49.5
A4	*1 Bedroom/1 Bathroom*	1.5	21	31.5
A5	*1 Bedroom/1 Bathroom*	1.5	6	9
B1	*2 Bedroom/2 Bathroom*	2	26	52
B2	*2 Bedroom/2 Bathroom*	2	30	60
B3	*2 Bedroom/2 Bathroom*	2	21	42
C1	*3 Bedroom/3 Bathroom*	2.5	18	45
			Parking Requirements:	376

General Notes:

[1]: Tandem parking spaces (*i.e. parking spaces in front of garages*) are *NOT* be permitted; however, the proposed garage parking spaces may count toward the parking requirement.

[2]: This table is subject to change based on the proposed development; however, all one (1) bedroom units shall provide a minimum of 1.5 parking spaces/unit, all two (2) bedroom units shall provide a minimum of two (2) parking spaces/unit and all three (3) bedroom units shall provide a minimum of 2.5 parking spaces/unit.

5. *Building Standards.* The building elevations shall generally conform to the *Concept Building Elevations* depicted in *Exhibit '*D'; however, all development shall adhere to the following building standards:

(a) Masonry Requirements. The minimum masonry requirement for the exterior façades of all buildings shall be 90%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the exterior of the building; however, stucco may not be used within the first four (4) feet above grade on a façade visible from a public street or open space. A minimum of 20% natural stone is required on all building façades.

(b) Roof Design Requirements. All buildings shall be designed such that no roof mounted mechanical equipment (*i.e. HVAC, satellite, vents, etc.*) shall be visible from any direction. *Note: Screening of mechanical equipment is necessary for all equipment regardless of location (i.e. roof mounted, ground mounted, or otherwise attached to the building and/or located on the site).*

Screening of roof mounted mechanical equipment and/or other rooftop appurtenances shall be accomplished through the construction of an architectural feature, which is integral to the building's design and ensures that such equipment is not visible from adjacent public rights-of-way.

(c) Architectural Requirements. All buildings shall be architecturally finished on all four (4) sides with the same materials, detailing and features. In addition, all buildings shall be subject to the architectural requirements of the SH-205 Overlay (SH-205 OV) District contained in Section 6, *Overlay Districts*, of Article V, *District Development Standards*, of the Unified Development Code.

DRAFT ORDINANCE 10.25.16

6. *Landscaping and Hardscaping Standards*.

   (a) *Landscape Requirements.* Landscaping shall be reviewed and approved with the *PD Site Plan*. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height. The following tree species are approved for planting within this development:

      i) *Canopy/Shade Trees*. Afghan Pine, Bald Cypress, Bur Oak, Cedar Elm, Eastern Red Cedar, Homestead Elm, Lacebark Elm, Little Gem Magnolia, Live Oak, October Glory Maple, Red Oak, Texas Ash, Texas Red Oak.

      ii) *Accent/Ornamental/Under-Story Trees*. Desert Willow, Eastern Redbud, Eves Necklace, Mexican Buckeye, Possumhaw Holly, Shangtung Maple, Yaupon Holly.

   (b) *Landscape Buffers.* A minimum of a ten (10) foot landscape buffer shall be provided along the frontage of T. L. Townsend Drive, and shall incorporate a minimum of one (1) canopy tree per 50-feet of linear frontage. The developer shall also be responsible for the construction of sidewalks and trails required along T. L. Townsend Drive.

   (c) *Parking Lot Landscaping.* All parking lot landscaping shall conform to the requirements of Article VII, *Landscape Standards*, of the Unified Development Code with the exception of the following:

      i) One (1) canopy tree per ten (10) parking spaces shall be provided. Trees shall be planted within the required parking islands or within 20-feet of a parking space.

      ii) Parking island shall be provided at a spacing not exceed a maximum distance of 20 parking spaces.

   (d) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect.

   (e) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the *PD Site Plan* and/or *Opens Space/Amenity Plan*.

7. *Trash Receptacles.* Trash and recycling receptacles shall be four (4) sided, with eight (8) foot walls constructed and cladded with materials matching the primary structures, and have a self-latching gate. All trash and recycling receptacles shall be internal to the site and not be situated within any established building setbacks or landscape buffers.

8. *Fence Standards*. Fences located along the perimeter of roadways, abutting open spaces, greenbelts and parks shall be required to be wrought iron or a tubular steel fence. Wrought iron/tubular steel fences can be a maximum of eight (8) feet in height.

9. *Variances*. The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

DRAFT ORDINANCE 16-16

Exhibit 'D':
Concept Building Elevations

DRAFT ORDINANCE 12.09.2016

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/13/2016

APPLICANT: Fred Hazel; *Davis Development*

AGENDA ITEM: **Z2016-042**; *Davis Apartments at La Jolla Pointe (C to PD)*

SUMMARY:

Hold a public hearing to discuss and consider a request by Fred Hazel of Davis Development on behalf of Jim Kirby of Rockway Partners, LLC for the approval of a zoning change from a Commercial (C) District to a Planned Development District for a multi-family apartment complex on a 17.60-acre tract of land identified as Lots 6-11, Block A, La Jolla Pointe Addition, Phase 2, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, located east of the intersection of Laguna Drive and La Jolla Pointe Drive, and take any action necessary.

PURPOSE:

On March 11, 2016, the applicant submitted an application proposing to rezone a 17.60-acre tract of land from a Commercial (C) District to a Planned Development District for a multi-family apartment complex that would have consisted of 272 units. This case -- *Case No. Z2016-011* -- was denied by the Planning and Zoning Commission on April 12, 2016 by a vote of 6-1. In response to this action, the applicant requested that the case be withdrawn, and on April 18, 2016 the applicant's request was granted by the City Council by a vote of 6-1. Since this action was taken, the applicant has resubmitted an application proposing the same zoning change as was requested on March 11, 2016. Since no action was taken (*i.e. to approve or deny*) on *Case No. Z2016-011* the applicant is able to make the same submittal without restriction.

BACKGROUND:

The subject property, which was annexed into the City on November 7, 1960 by *Ordinance No. 60-03*, is located on the north side of Interstate Highway 30 (IH-30) -- *west of Ridge Road along La Jolla Pointe Drive* -- and is currently a vacant tract of land. The subdivision was originally platted in 2003 as *La Jolla Pointe Addition, Phase 2* [*Case No. PZ2002-83-001*], and was replatted into its current configuration in 2007 [*Case No. P2006-019*].

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is La Jolla Pointe Drive, which is identified as a *Minor Collector* on the City's *Master Thoroughfare Plan.* North of La Jolla Pointe Drive is a variable width right-of-way for the *Missouri-Kansas-Texas Railroad*. Beyond this are Phases 2 & 3 of the Lakeside Village Subdivision, which are zoned Planned Development District 2 (PD-2) for single-family land uses.

South: Directly south of the subject property are ten (10) parcels of land zoned Commercial (C) District. Situated on these parcels are seven (7) restaurants (*i.e. Mellow Mushroom, Logan's Roadhouse, Taco Cabana, Steak & Shake, IHOP, Waffle House, and Long John*

Silver's) and three (3) office buildings. South of these uses are the access roadways and main lanes of Interstate Highway 30 (IH-30).

East: Directly east of the subject property is La Jolla Pointe Drive, which is identified as a *Minor Collector* on the City's *Master Thoroughfare Plan.* Beyond this is a vacant 0.688-acre parcel of land, a 2.427-acre parcel of land with a medical office building situated on it, and a vacant 0.752-acre parcel of land. All of these parcels are zoned Commercial (C) District.

West: Directly west of the subject property is La Jolla Pointe Drive, which is identified as a *Minor Collector* on the City's *Master Thoroughfare Plan.* Beyond this thoroughfare are five (5) parcels of land zoned Commercial (C) District. Situated on these parcels are one (1) hotel (*i.e. Hampton Inn*), four (4) restaurants (*i.e. Kyoto, Saltgrass, Genghis Grill and Starbucks*), and one (1) bank (*i.e. BB&T*). In addition, a variable width right-of-way for the *Missouri-Kansas-Texas Railroad* followed by Phases 2 & 3 of the Lakeside Village Subdivision are also located west of the subject property.

CHARACTERISTICS OF THE REQUEST:

Along with the application, the applicant has submitted a concept plan, building elevations and development standards for the proposed multi-family apartment complex. The concept plan shows that the proposed 272-unit apartment complex will consist of eight (8) buildings that range in height from three (3) to four (4) stories, and contain 24-36 units each; with the exception of *Building No. 1*, which will consist of 49 units. This building will also house a clubhouse/amenity center and the leasing office, with an exterior pool adjacent to the southern building façade. A summary of the proposed product type and unit composition is as follows:

Unit Name	*Unit Type*	*Minimum Net Unit Area (SF)*	*Number of Units (#)*	*Total Area (SF)*	*Units as Percentage (%)*
A1	*1 Bedroom/1 Bathroom*	667 SF	33	22,011 SF	12.13%
A2	*1 Bedroom/1 Bathroom*	804 SF	4	3,216 SF	1.47%
A3	*1 Bedroom/1 Bathroom*	816 SF	39	31,824 SF	14.34%
A3-ALT	*1 Bedroom/1 Bathroom*	833 SF	20	16,660 SF	7.35%
A4	*1 Bedroom/1 Bathroom/1 Den*	975 SF	21	20,475 SF	7.72%
B1	*2 Bedroom/2 Bathroom*	1,083 SF	79	85,557 SF	29.04%
B2	*2 Bedroom/2 Bathroom*	1,175 SF	8	9,400 SF	2.94%
B3	*2 Bedroom/2 Bathroom*	1,245 SF	33	41,085 SF	12.13%
C1	*3 Bedroom/3 Bathroom*	1,445 SF	35	50,575 SF	12.87%

The above unit composition equals a minimum unit size of ~1,032 SF. Based on the size of the subject property and the number of units proposed, the requested density will be 15.45 units per acre. Currently, the highest density-zoning district that the City permits is the Multi-Family 14 (MF-14) District, which permits up to 14 units per acre. Since the applicant is proposing to rezone the subject property to a Planned Development District, additional density maybe requested of the City Council; however, this does remain a discretionary decision for the City Council, and the City Council does have the power to reduce the density of the request.

Article VI, *Parking and Loading*, of the Unified Development Code (UDC) stipulates that multi-family apartment complexes be parked as follows: 1) one (1) bedroom or efficiency units require 1½ parking spaces per unit, 2) two (2) bedroom units require two (2) parking spaces per unit, and 3) three (3) bedroom units require 2½ parking spaces per unit. This equates to 504 required parking spaces for the proposed development. To meet the requirement the concept plan indicates that a mixture of 38 garages and 482 surface parking spaces will be utilized. This will exceed the parking requirement by 16 spaces. The proposed 38 garages will be integrated into the design of the eight (8) buildings and will not incorporate tandem parking spaces (*i.e. a parking space within a group of two or more parking spaces arranged one behind the other such that the space nearest the street serves as the only means of access to the garage*).

It should be noted that the concept plan includes the public right-of-way for Carmel Circle, which was dedicated with *Case No.'s P2006-019 & P2004-068*. The applicant is requesting that the City Council abandon this right-of-way as part of this case. If the City Council chooses to approve this request, staff will begin the abandonment process by establishing the *fair market value* of the right-of-way and offering one-half of the right-of-way to the adjacent property owners. Staff should point out that currently the subject property excludes an outparcel that is situated at the southwest corner of Carmel Circle and La Jolla Pointe Drive, and that the property owner of this outparcel would have the right to purchase a portion of this right-of-way. This could lead to changes in the concept plan at the time of site plan depending on the adjacent property owner's decision to purchase or not purchase the right-of-way.

As part of the original submittal on March 11, 2016, staff required the applicant to submit a Traffic Impact Analysis (TIA). Due to the size of the document (*i.e. 222 pages*) staff has included an abbreviated/preliminary version of the TIA in the attached packet. According to the abridged and full version of the TIA, the current traffic service level of the area ranges from a *LOS A-E* (*i.e. the intersection of Laguna Drive and Village Drive being a LOS A-B, the intersection of Village Drive and IH-30 W. Frontage Road being a LOS C-D, the intersection of Horizon Road and IH-30 E. Frontage Road being a LOS D-E, and the intersection of Catalina Drive and La Jolla Pointe Drive/Laguna Drive being LOS A*). *LOS* stands for *Level of Service* and refers to the standard measurement used by transportation officials to reflect the relative ease of traffic flow on a scale of *A* to *F*, with *A* signifying free-flowing traffic and *F* indicating congested conditions (*ref. Federal Highway Administration*). Staff should note that the TIA was submitted to the City's traffic consultant (*i.e. Kimley Horn*) for outside review. The traffic consultant has submitted a letter of concurrence, agreeing with the analysis contained in the TIA. Should the Planning and Zoning Commission or City Council require the full version of the TIA staff will bring a complete copy to the public hearings. Staff should also note that the concept plan submitted by the applicant indicates that the existing regional detention will be retained and utilized. This detention area will be sufficient for the proposed development and no additional drainage improvements will be necessary.

The building elevations submitted by the applicant show that four (4) different architectural styles will be used for the proposed eight (8) buildings. Each of the buildings will utilize a mixture of stucco, natural cut stone, and brick on the exterior façades, and a combination of standing seam metal and architectural shingles on the roofs. In addition, the elevations conform to the four (4) sided architecture requirements stipulated by the IH-30 Overlay (IH-30 OV) District as stipulated by the UDC. Staff has incorporated these elevations into the Planned Development District Ordinance, and general conformance to these elevations -- *pending a recommendation by the Architectural Review Board (ARB) at the time of site plan* -- is a requirement of the proposed zoning district.

With all this being said, staff has prepared a *Draft Ordinance* that includes all pertinent development standards and design guidelines based on the applicant's request. The *Draft Ordinance* is attached to this case memo for the City Council's review.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

Conformance with Policies and Guidelines

In reviewing the concept plan for conformance to the policies and guidelines of the Comprehensive Plan, staff made the following recommendations to the applicant:

1) *Retail areas should be pedestrian-oriented and easily accessible to adjacent residential neighborhoods [Land Use; Page 13; Policy #4].*

2) *The site layout for commercial and urban style housing developments should encourage buildings to be placed close to the roadway, with parking primarily located to the rear or side of buildings [Urban Design Development; Page 36; Policy #1].*

3) *Require 20% open space for all new residential subdivisions over five (5) acres in size … [Resolution 07-03; Section 1.c].*

In response to these comments, the applicant has made a concerted effort to provide a sidewalk system that will connect to the adjacent commercial properties south of the subject property and provide 20% open space. In addition, the majority of the parking areas are situated internal to the site; however, the parking areas adjacent to *Building No.'s 6* & *7* are situated directly adjacent to La Jolla Pointe Drive. Should this be approved staff will be requesting the applicant redesign this area on the site plan to better conform to the requirements of the Comprehensive Plan.

Conformance with the Future Land Use Map

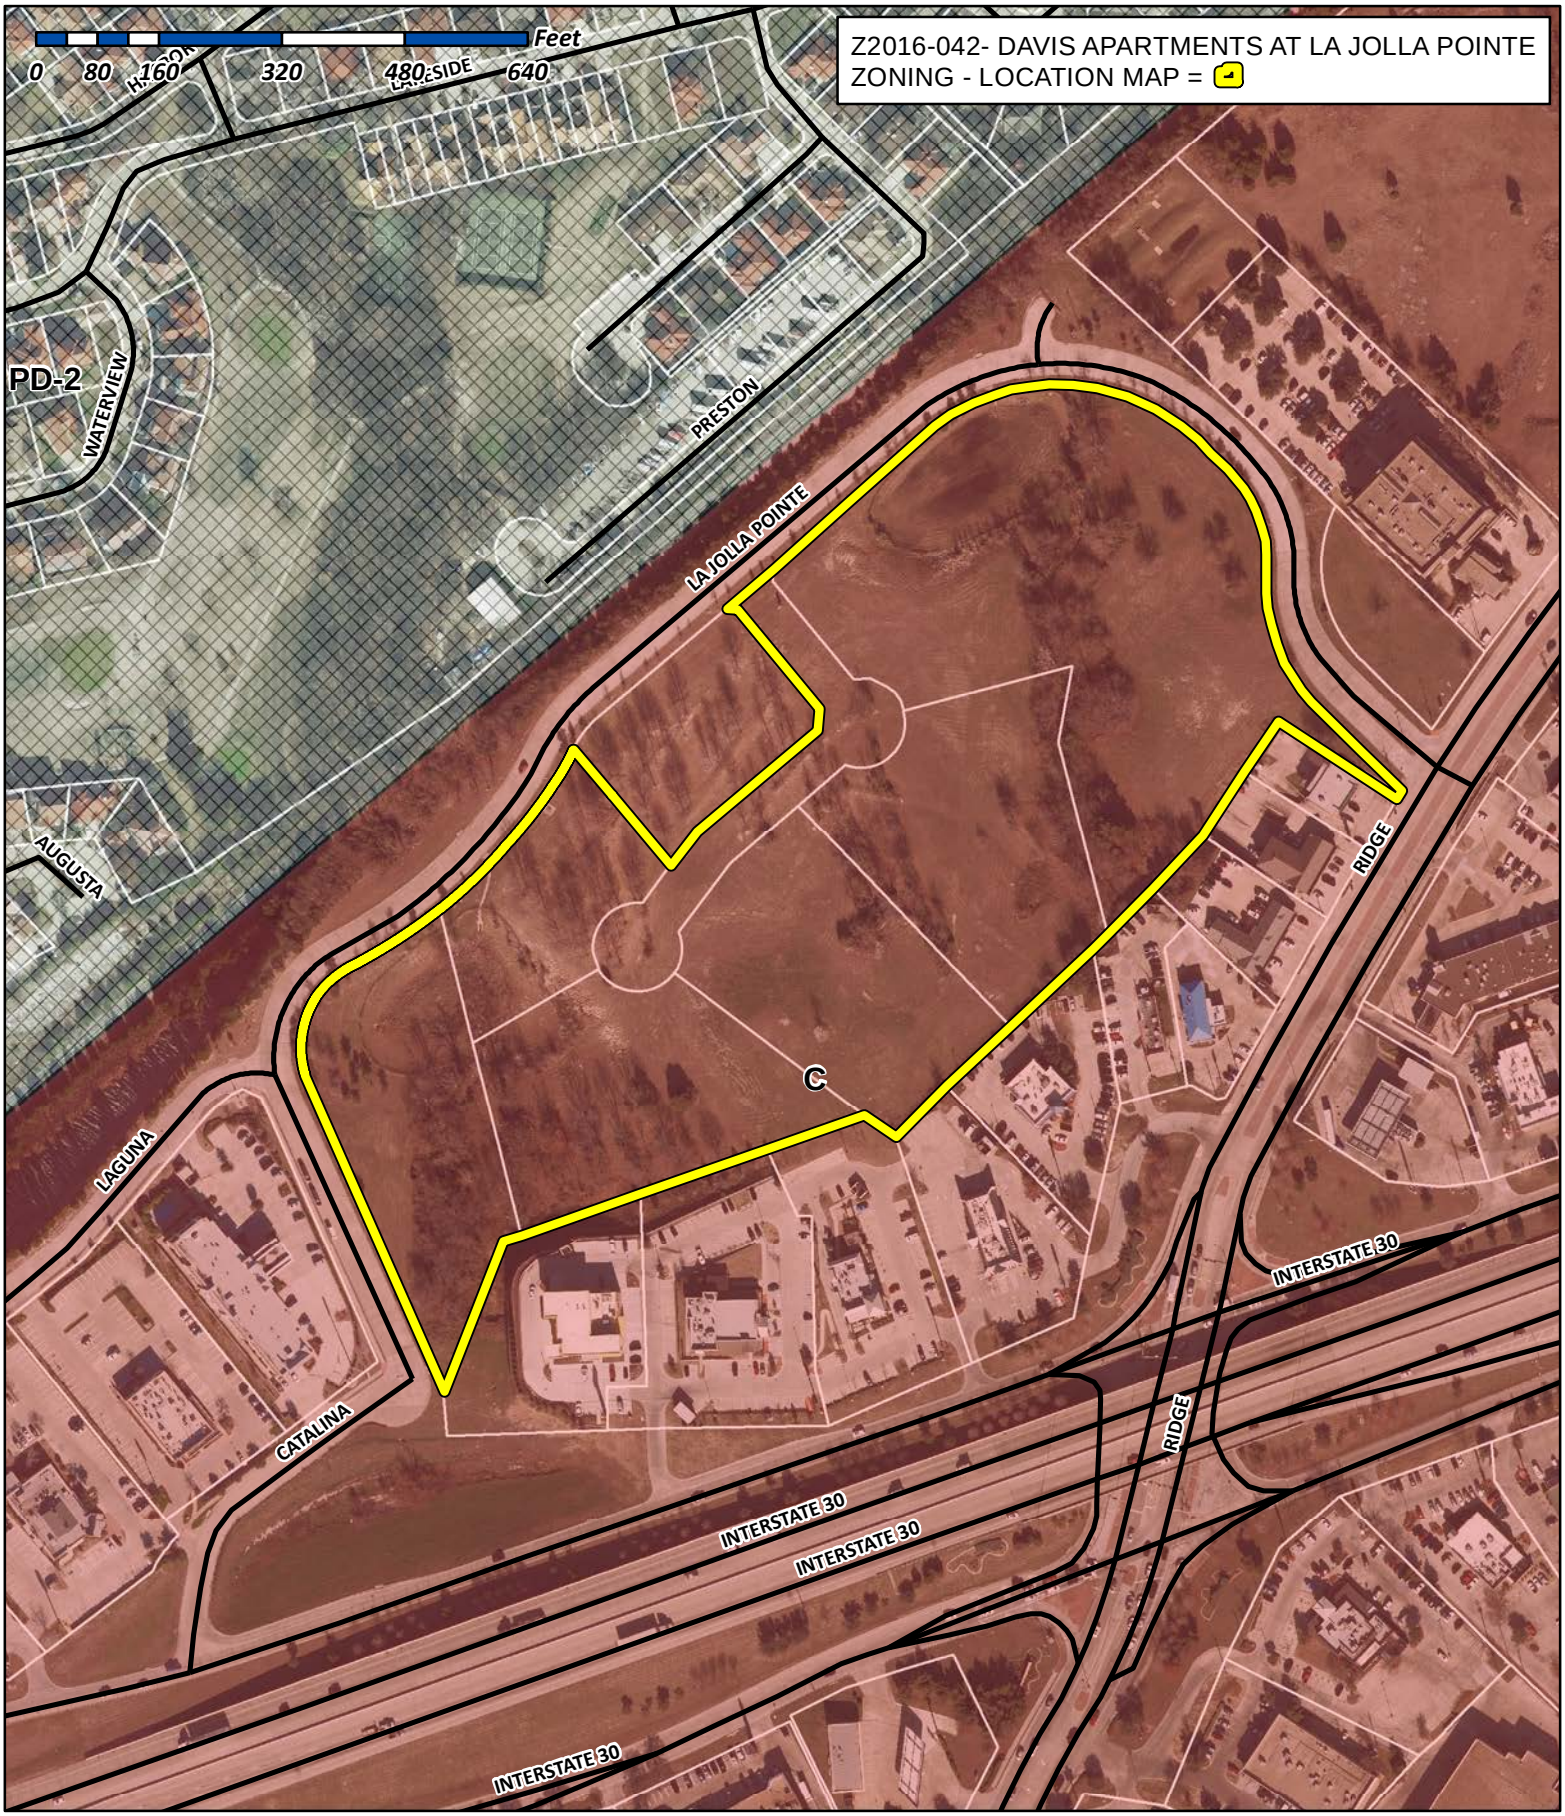
The Future Land Use Map, contained within the Comprehensive Plan, designates the subject property for *Commercial* land uses. Staff has verified that this designation has existed since at least 1986. The proposed development would require this designation to be changed to a *High Density Residential* designation, which according to the Comprehensive Plan is defined as any use that exceeds three (3) units per acre. In addition, the Comprehensive Plan states that "(h)igh density residential should be used as a transitional use from commercial (*or existing retail*) use, or where it will serve as a logical extension of an existing high density development." (*Land Use; Page 17; Policy #9.e*) In this case, the proposed subject property and zoning change does appear to conform to the majority of the Comprehensive Plan's policies and guidelines with regard *High Density Residential* designation. With this being said, the density being proposed and any change to the *Future Land Use Map* is a discretionary decision for the City Council. Should the City Council approve the applicant's request, staff has included a condition of approval that would amend the Future Land Use Map to reflect the proposed change in land use from a ***Commercial*** designation to a ***High Density Residential*** designation.

NOTIFICATION:

On November 23, 2016, staff mailed 95 notices to property owners and residents within 500-feet of the subject property. Staff also emailed notices to the Lakeside Village and Turtle Cove Homeowner's Associations (HOA's), which are the only HOA's located within 1,500 feet of the subject property. Additionally, staff posted a zoning sign at the corner of Ridge Road and La Jolla Pointe Drive, and advertised the public hearings in the Rockwall Harold Banner as required by the Unified Development Code (UDC). In addition, staff re-noticed property owners and residents within 500-feet of the subject property on December 2, 2016 for the purpose of correcting the caption in the original notice. At the time this case memo was drafted, staff had received the following notices:

- ☑ One (1) Property owner notice in ***Support*** of the request within the notification area;
- ☑ Six (6) Property owner notices in ***Opposition*** to the request within the notification area;
- ☑ 18 Property owner notices (*i.e. non-city form*) in ***Opposition*** to the request outside of the notification area;
- ☑ 100 Emails in ***Opposition*** to the request outside of the notification area;
- ☑ One (1) letter in ***Opposition*** to the request outside of the notification area;

RECOMMENDATIONS:



If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to rezone the subject property from a Commercial (C) District to a Planned Development District for an apartment complex, then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) The City Council agrees to the abandonment of Carmel Circle as stated in the attached *Planned Development District* ordinance and directs staff to begin the abandonment process;

3) By approving this zoning change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of the subject property from a ***Commercial*** designation to a ***High Density Residential*** designation; and,

4) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Subject: Neighborhood Noification Program: Notice of zoning request
Date: Tuesday, November 22, 2016 11:42:06 AM

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on ***November 25, 2016***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday, 12/13/2016 at 6:00 p.m***., and the City Council will hold a public hearing on ***Monday, 12/19/2016 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-042 -Hold a public hearing to discuss and consider a request by Fred Hazel of Davis Development on behalf of Jim Kirby of Rockway Partners, LLC for the approval of a zoning change from a Commercial (C) District to a Planned Development District for a multi-family apartment complex on a 17.60-acre tract of land identified as Lots 6-11, Block A, La Jolla Pointe Addition, Phase 2, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, located east of the intersection of Laguna Drive and La Jolla Pointe Drive, and take any action necessary.**

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2016-042: Davis Apartments at La Jolla Pointe

Hold a public hearing to discuss and consider a request by Michael Scott for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4947-acre parcel of land identified as Lot 16, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1950 Copper Ridge Circle, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 12/13/2016 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 12/19/2016 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

Ryan Miller
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **12/19/2016** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

No, no, no, no — please don't let this happen! The traffic alone is the biggest issue!! If there is a bad wreck on I30 it is hard to get out of our neighborhood (Lakeside Village). Having apartments will add to the extra traffic — it will be a huge nightmare! Also will drive my property value down! Anything but Apartments! in that area would be better.

Address: 3712 Sycamore Ln

Ryan Miller,

The complex that Davis Development plans to construct will not be "upscale." Davis states on their website (http://lajollapoint.com/#) that they intend to rent units at $1.25 per square foot. At that price an 800 square foot unit would cost only $1000 a month to rent. This is a very low price apartment and will not attract "upscale" residents. Crime will go up, therefore needing increased officers on the force which will in turn raise taxes and lowering property values. Obviously, this one complex will not have an immediate effect, but all of them will. People love the small town feel of Rockwall. Apartment complexes on every corner will diminish this community's atmosphere.

How will this affect Crime in our Neighborhood? (From the Davis website)

Our target markets are young professionals, single parents, recently married couples and empty nesters and our rents are in the $1.25 cent per square foot range. These are not the types of tenants that commit crimes. Our rents are equivalent to $250,000-$300,000 mortgage.

ENTER INFORMATION

Current Monthly Rent Payment	$ 1750
Interest Rate Click For Current Rates	4 %
Mortgage Term (in Years)	◉ 30 ○ 20 ○ 15 ○ 10

Calculate Clear

The Monthly Rent Payment listed would relate to a Mortgage Amount of	$ 293,245

Note: This includes an estimate of taxes and insurance as part of your payment.

For a community that will reap the costs (traffic) and benefits (economic) of having Crystal Lagoon in their backyard, it does not seem responsible to allow this questionable developer who publicly lies (rent and mortgage equivalents) do business in Rockwall.

Thank you for your time.

Barbara Neville

RE: Case Z2016-042: Davis Apartments at La Jolla Pointe

The undersigned homeowner(s) and/or residents of Rockwall hereby notifies the Planning and Zoning Dept. of their response to the application by Davis Development to re-zone the subject land from a Commercial District to a Planned Development District for a multi-family apartment complex to be built on the site where such zoning change has been requested.

.

(check appropriate response below)

The undersigned hereby approves _____ the rezoning request.
The undersigned hereby objects _____**X**_____to the rezoning request.

If objecting, the undersigned objects to the re-zoning and proposed apartment development for the following reasons: (add additional sheets if necessary)

Increased traffic load to an already over congested area.
Traffic from this proposed apartment project would dump out onto La Jolla Pointe Drive and the I-30 service road between Ridge Road and Horizon/Village Drive. Currently this traffic intersection is easily congested with all roads leading into it experiencing severe backups during heavy traffic hours. Those trying use Horizon Road to enter I-30 toward Dallas would suffer even longer waits to get through that intersection. Likewise, those attempting to exit from Lakeside Village would find backups all the way into the gates of the neighborhood. All traffic using the I-30 eastbound service road approaching the Horizon/Village Drive intersection before the entrance ramp to I-30 would similarly experience more gridlocks on the service road.

Traffic study has already been already done.
A traffic study at the intersection of Horizon Rd/Village Drive and the I-30 service road/overpass resulted in an "F" rating. Why would we want any additional traffic burden to exacerbate the situation?

Proposed rezoning not consistent with comprehensive planning.
This area is a commercial corridor at the gateway into Rockwall from I-30. It was carefully planned as a commercial use district. Rezoning to a multifamily residential area would defeat these carefully thought out land planning objectives, and would not be consistent with immediately surrounding land uses.

High occupancy apartments will have adverse impact on property values.
Multifamily apartment complexes consistently over time have a negative impact on adjacent, nearby established residential neighborhoods. Apartments are non-owner occupied, with a more transient population and consequently with a potential for increased crime, especially over time as the properties age and lose the "upscale, high-end" character the developer claims they will have when first built.

Multifamily residential zoning has already been approved close by. The Harbor District has already been zoned to allow up to 1,161 condos and townhouses, and construction has not yet been commenced on any of those units. If capacity for high density multifamily resident currently exists nearby just across I-30, why is it necessary to rezone the La Jolla Pointe property to add even more multifamily units to this area?

Increased student load on Reinhardt Elementary School.
Concerned parents have already submitted complaints that Reinhardt Elementary School is over capacity. The additional children of families in these apartments (and who will not be paying school taxes) within Reinhardt's attendance zone will make a bad situation even worse.

Respectfully submitted by:

Patrick and Mary Wilkins

ENEMY AT THE GATES

Hello Neighbors: The landowner and a developer wanting to buy that land are attempting (for the second time) to obtain a rezoning of the 17.5 acres along LaJolla Pointe Drive (back behind the row of restaurants between IHOP and Mellow Mushroom).

Most people in our adjacent neighborhoods do not want this rezoning to be approved by the City of Rockwall. We opposed it last April and it failed at the Planning & Zoning department stage, and likely would have failed at the City Council hearing, but the developer asked to withdraw its application and the City allowed it, and supposedly the City was told by the developer that they wouldn't be back with this request any time soon. Now six months later they're back again. Same project, same story about why they think this is going to be the most desirable use for that land. Those in opposition oppose their rezoning request for these reasons, among others:

- **Increased traffic load to an already over congested area.** Traffic from this proposed apartment project would dump out onto La Jolla Pointe Drive and the I-30 service road between Ridge Road and Horizon/Village Drive. Currently this traffic intersection is easily congested with all roads leading into it experiencing severe backups during heavy traffic hours. Those trying to use Horizon Road to enter I-30 toward Dallas would suffer even longer waits to get through that intersection. Likewise, those attempting to exit from Lakeside Village would find backups all the way into the gates of the neighborhood. All traffic using the I-30 eastbound service road approaching the Horizon/Village Drive intersection before the entrance ramp to I-30 would similarly experience more gridlocks on the service road.
- **Traffic study has already been done and received worst possible rating.** A traffic study at the intersection of Horizon Rd/Village Drive and the I-30 service road/overpass resulted in an "F" rating. The developer theorizes since the intersection already has an "F" rating, additional apartment traffic to the area should not make it any appreciably worse.
- **Proposed rezoning not consistent with comprehensive planning.** This area is a commercial corridor at the gateway into Rockwall from I-30. It was carefully planned as a commercial use district. Rezoning to a multifamily residential area would defeat these carefully thought out land planning objectives, and would not be consistent with immediately surrounding land uses.
- **High occupancy apartments will have adverse impact on property values.** Multifamily apartment complexes consistently over time have a negative impact on adjacent, nearby established residential neighborhoods. Apartments are non-owner occupied, with a more transient population and consequently with a potential for increased crime, especially over time as the properties age and lose the "upscale, high-end" character the developer claims they will have when first built.
- **Multifamily residential zoning has already been approved close by.** The Harbor District has already been zoned to allow up to 1,161 condos and townhouses, and construction has not yet been commenced on any of those units. If capacity for high density multifamily resident currently exists nearby just across I-30, why is it necessary to rezone the La Jolla Pointe property to add even more multifamily units to this area?
- **Increased student load on Reinhardt Elementary School.** Concerned parents have already submitted complaints that Reinhardt Elementary School is over capacity. The additional children of families in these apartments (and who will not be paying school taxes) within Reinhardt's attendance zone will make a bad situation even worse.

WHAT DO YOU THINK?

It is very important to make your opinions on this rezoning request known to our City leaders. Attached is a Homeowner Response form that you should fill out and send in to make your voice heard to the people that will be making the decisions.

Rockwall Planning + Zoning Dept
Attn: Ryan Miller

Ref: Case Z2016-42 Davis Development

I object to this zoning change request for the following reasons.

1. Traffic in this area is already overloaded. adding another 500+ cars adds to the problem. No traffic solutions have been offered except to state that " A comercial development would be worse." Trying to make a positive from a negative is odd logic.

2. Parking is inadequate. 504 parking spots for 272 appartments isn't enough. Try to find a parking spot in the Onion complex for example.

Please reject this zoning change

Hello Ryan ,
I am writing to let you know that I have not changed my position regarding this development ! It was a bad idea on the first try and it remains a bad idea ! Infrastructure in this area cannot accommodate for additional population increase of this magnitude in an already over populated portion of the city!
Please express my position on my behalf as I will be traveling on the 13th.

Thank you !

I am very much OPPOSED to the re-zoning of this area in order to build apartment units.

I have lived in Rockwall and Lakeside Village since 1981, so I have witnessed the growth and continued growth of this community for a number of years to say the least. While I enjoy much of our growth, lets not be greedy and ruin our small town feel.
In my opinion, the city is starting to reach its full potential of growth with businesses and residences, if it hasn't already.
Our roads can barely handle our current traffic and adding to that only increases further hardship for the residents.

This particular area is already so congested with traffic from the restaurants that at times it is quite difficult to get into or out of Lakeside Village. This is quite evident particularly when residents are leaving for work and returning. I leave for work between 6:15 – 6:30 am and at times it is quite difficult to get out. The stop light is not synched to allow more then 3 to 4 vehicles through at one time. In the evening returning from work – 5:00 rush hour is not much better. It has become a dangerous intersection. I shudder at the prospect of putting more cars in this area.

I feel that building apartments in this area will cause property values to decrease and possibly increase vandalism. Even though Lakeside Village is a gated community it is still possible for those that do not live there to have access even without using a resident's gate code.

I would appreciate you reconsidering your decision to choose this location to build apartments.

Thank you.

I would like to address Rockwall's P & Z department regarding the Davis Apartments at La Jolla Pointe, case # Z2016-042
why I oppose the building of the said apartments on that particular partial of land is for the following reasons;

a) substantial increase in area traffic
b) possible devaluation of area single family dwellings
c) the level of inhabitants moving into the apartments in the not so near future but yet years later

I recall, not so long ago, coming to the P & Z department with a planned office/retail/residential development project just east of the harbor project and was told that
"there will be NO additional apartments built in Rockwall's city limits"
PLEASE take that into consideration when making your long-term impacting decisions

THANK-YOU very much for your time

Dear Ryan,

Please accept this as my strong opposition to the zoning request from commercial to multi-family by Davis Development on behalf of Jim Kirby of Rockaway Partners, Case # Z2016-042**.** I fully realize that commercial development has its downside as well but I prefer that the property be used for commercial development and not multi-family housing.

> This location does not have adequate roads to handle the traffic that will be created by a project of this magnitude and will add to heavy traffic in this area. The access to IH 30 where Laguna, La Jolla and Horizon Road converge is beyond capacity at high traffic hours, M – F 6:30 – 9:00 AM, 4:00 – 7:00 PM and during most of the day on Saturday and 12:00 on Sunday. Adding to this will create gridlock at a critical entry and exit point to Rockwall from both
> the east and west.

The City of Rockwall Comprehensive Plan has outlined future land use. It is a well-conceived plan and should be maintained. We have already been through this just a few months ago!

I, respectfully, request that the Rockwall Planning and Zoning Commission **deny** any request for a zoning change for multi-family housing on this property.

Subject: Case Z2016-042 : Davis Development
Date: Sunday, December 04, 2016 11:29:42 AM

On behalf of myself, Paul Husting and my Wife Susan who reside at 3313 Lakeside Drive, Lakeside Village, Rockwall TX 75087, are using this email to express our objection to the rezoning of the subject land to apartments.
Nothing has changed since the last time this was suggested.
This location does not have adequate roads to handle the traffic that will be created by a project of this magnitude and will add to heavy traffic in this area. The access to IH 30 where Laguna, La Jolla and Horizon Road converge is beyond capacity at high traffic hours, M – F 6:30 – 9:00 AM, 4:00 – 7:00 PM and during most of the day on Saturday and 12:00 onSunday. Adding to this will create gridlock at a critical entry and exit point to Rockwall from both the east and west.
In addition, if there is an accident on I30, especially on the westbound side, Lakeside Village becomes isolated. If any emergency vehicles need to come into the village it's impossible for them to get there because everything is at a standstill until I30 is cleared.
Please reinforce your previous stand to prevent this to happen.
Sincerely yours
Paul & Susan Husting

Cc:	Planning
Subject:	Case Z2016-042
Date:	Friday, December 02, 2016 9:33:19 AM

Mr. Miller:

I am writing to you about a rezoning request before the Rockwall Planning and Zoning Commission that I believe will negatively impact everyone who uses Horizon Road to enter and exit from I-30, as well as those who take the back way to Ridge Road from Village Drive.

This is of particular significance to residents of Lakeside Village, Chandler's Landing and Signal Ridge.

The request before the Commission is to change the zoning of a parcel of land on La Jolla Pointe that is just east of the restaurant row that includes Snuffer's on the west to Mellow Mushroom on the east from commercial to multi-family residential to accommodate a 272-unit apartment complex.

I object to this request for three reasons.

First, the development plans indicate 400 parking spaces for this complex. Presumably, that means as many as 400 cars could go in and out of the complex. Assuming that a large percentage of those cars would be used for commuting to the west on I-30, that means an additional burden on the already congested Village-Horizon overpass during commute hours. Anyone who uses that overpass now will tell you that it's already overcrowded. More cars means more traffic and a greater chance of accidents.

Now imagine as few as 10 additional cars trying to make a quick "Z" turn from Laguna to Village to the I-30 onramp at any time of the day, and you can appreciate how precarious this will be. During commute hours, this will make the situation downright dangerous, as a long line of impatient apartment dwellers scurry through the Z to get to work.

Second, I utilize Laguna Drive to go to Planet Fitness, weekly Toastmasters meetings at the Northstar Bank, and to go to businesses on Ridge, downtown and Highway 66 as needed. Some consider this the back way but it's the most direct way to get from Horizon to Ridge from Lakeside Village. The choke point is the T intersection at Ridge. I often have to wait as long as five minutes to turn left onto Ridge when there are as few as three cars ahead of me that are also waiting to turn left. And it's a precarious turn because it's hard to see cars coming up the hill from the right. This is now – without some 400 more cars. (In my opinion, a traffic signal is needed at this intersection now, and certainly should be mandatory for ANY further development along Laguna.)

The developer claims to have done a traffic study that said, in part, that the apartments would not add significantly to the current traffic problem. In other words, the developer's own study admits *there already is a problem.*

Third, although Lakeside Village has an entrance gate that controls motor vehicles, there is no barrier to enter on foot, bicycle or even motorcycle. You might even squeeze in with a golf cart. It would be easy to sneak in to our course to play or practice, since no one monitors the course during off-peak hours. No one monitors our pool or tennis courts, either. I believe that the temptation to poach on our property will attract unwanted visitors from the apartment complex and, perhaps, people whose intentions are more ominous.

I am all in favor of controlled development in our community, but I believe that allowing this project go forward would be bad for the people who work and live off the Village-Horizon overpass and I urge the Commission to decline the request.

Respectfully,

Nick Nichols

I strongly appose the Davis Development building apartments by Lakeside Village. The traffic is bad at Horizon and 30. So you are going to add to this! Traffic in Rockwall is getting worse than Plano ... let Davis build out where traffic is not congested to begin with. Is Rockwall going to just add more driving headaches! Vicki Ritter

As I have written many objections to this rezoning request from these people, I am mystified at how your department rules and regulations allow this to continue. Yes, we are all willing to gather at hearings, sign petitions and go through all these things again to keep them out, but seriously believe you all need a limit to the process. You told me in the last email you had no control over sign content, 1st amendment and all that. Now they have signs up that say New Construction Coming Soon. Do they own this land, if not, who does? I and hundreds more in this zip code DO NOT WANT THIS IN OUR NEIGHBORHOOD! Now, please take care of this on your end!
Thanks
PS try to make sure they don't pull a bait and switch again by pulling their request only to refile 6 months from now!!!!

Mr. Miller,
As a long time Rockwall residents, my wife and I are totally opposed to the Davis Development that will be presented within the next 2 weeks. This proposal was correctly rejected when it was presented months ago, and the City Council should have voted it down then to avoid having to present again. Certainly there as not been a change of heart during this time, unless deep pockets have the council to change their minds. We and the rest of Rockwall will be watching closely and we urge you, along with the Mayor and City Council, to say NO to the rezoning request for La Jolla Pointe. It is senseless, will create more traffic issues, destroy beautiful trees and wildlife, strain the already crowded school system, and add to the over congestion of traffic in the already over burdened area. SAY NO, please!

From: Kathy Oswalt
To: Planning
Subject: La Jolla Point - Davis Development
Date: Wednesday, November 16, 2016 2:07:53 PM

Please be advised that as a resident of Lakeside Village, Rockwall, I am adamantly opposed to multi-residential development on La Jolla.

- Traffic in Rockwall as a whole is horrific. From Horizon to I30, traffic backs up back to Ridge Road at peak traffic times and weekends. The service roads of I30 are treacherous at best.
- Adding multi-residential housing to a small area like La Jolla Point, will add to the burden of access to I30 whether traveling from La Jolla to Village or to Ridge Road.
- Village Drive is a small road. If traffic increases from La Jolla point to Village in effort to access I30, it will virtually be a nightmare to try to get out of Lakeside Village.

Multi-residential housing cannot be the best option for Rockwall. There is very little land near I30 available. We have PLENTY, if not too many apartment and condos in the area.

To: Planning
Subject: La Jolla Point project communication
Date: Friday, November 18, 2016 7:11:09 PM

This communication is for consideration for the Planning and Zoning commission public hearing to be held on Tuesday, December 13. It is direct response to the filing made today, Friday, November 18, by the owners of the property at La Jolla Point. They filed a request to rezone the property from C - commercial to Multi family with the intent to build a very large apartment complex. This request was also made last April and not approved. The citizens of Rockwall were opposed then and the reasons remain. This property is not suited for a large apartment complex.

This location does not have adequate roads to handle the traffic that will be created by a project of this magnitude and will add to heavy traffic in this area. The access to IH 30 where Laguna, La Jolla and Horizon Road converge is beyond capacity at high traffic hours, M – F 6:30 – 9:00 AM, 4:00 – 7:00 PM and during most of the day on Saturday and 12:00 on Sunday. Adding to this will create gridlock at a critical entry and exit point to Rockwall from both the east and west.

The City of Rockwall Comprehensive Plan has outlined future land use. It is a well-conceived plan and should be maintained.

Thank you for making decisions in the best interest of the city of Rockwall.

Subject: La Jolla Point Rezoning
Date: Friday, November 18, 2016 6:31:26 PM

To whom it may concern,
My husband and I are in strong opposition to the proposed rezoning of the land on La Jolla Drive. We have serious concerns about that area being rezoned as residential. I have been a Rockwall resident for over 27 years, and want this city to continue to develop in a smart and safe manner. The addition of such a large residential structure in the proposed location would create significant, undue stress and problems for the residents of this wonderful community. I'm sure there is some other stretch of land that would be more appropriate for a multi-family living complex and the traffic it will bring with it. The City of Rockwall Comprehensive Plan seems to have laid out a much more agreeable plan for the use of that land. Let's save ourselves the brain damage and say NO to rezoning for La Jolla Point!

Thank you,
Emi Long

Dear Mr Miller:

As current residents of Rockwall and former residents of Lakeside Village, close to the site of the proposed apartments project, we would like to express our concerns in regard to this particular project.

We feel that it would:
1. unreasonably increase the volume of traffic in an area which is already quite congested;
2. cause a danger for exiting from Lakeside Village, which currently only has the one exit from the development;
3. aesthetically, it would occupy prime estate that would detract from the approach to Rockwall from the west.

Thank you for your attention to our concerns.

Sincerely,

As current residents of Rockwall and former residents of Lakeside Village, close to the site of the proposed apartments project, we would like to express our concerns in regard to this particular project.

We feel that it would:
1. unreasonably increase the volume of traffic in an area which is already quite congested;
2. cause a danger for exiting from Lakeside Village, which currently only has the one exit from the development;
3. aesthetically, it would occupy prime estate that would detract from the approach to Rockwall from the west.

Thank you for your attention to our concerns.

Sincerely,

Elizabeth K. Bucher
Kevin D. Bucher

To whom it may concern,

I am resident at 3917 Roma Ct. Rockwall Texas 75087 [redacted]

It is to be noted that I am against the rezoning of the La Jolla Pointe land. I do not wish the property to have a multifamily use for the following reasons:
Increase traffic to already over loaded area.
Sudden increase of children to our schools.
Increased flow of people with boats and trailers into the Marina next to Lakeside Village.
Four story complex would be an eyesore and block the view to the lake.
Decreased property values. No matter how "luxury" they claim to build the apartments, they are still apartments. The people that live there are transient. I want permanent residents of Rockwall.
The builder is not from Rockwall and does not know what our community wants or needs, otherwise he would have purchased land already zoned multifamily. He is wanting to build what he wants to make the most money possible without any consideration to the impact it will have on our community. His website is embarrassingly claims that if he cannot build what he wants that he will have no choice but to build a loud ugly rundown commercial building. What does that say about what kind of builder he is? I don't want him building anything here if that is his claim. Do you?

We have enough apartments for here in Rockwall, currently. What would be the purpose of more? Apartments do not bring tax paying permanent residents who take pride and value in their homes.

Also, attached you will find another request from another property owner in Rockwall.

Please, no more apartments.

Date: Tuesday, December 06, 2016 7:37:32 AM

I, the undersigned homeowner and resident of Rockwall hereby notify the City of Rockwall's Planning and Zoning Dept. of my response to the application of Davis Development to rezone the land located along LaJolla Pointe Dr from a Commercial District to a Planned Development District for a multi-family apartment complex to be built on the site where such zoning change has been requested.
My husband and I **object** strongly to the rezoning request for the following reasons:
- increased traffic for a congested area
- burden on an over loaded elementary school

Subject: Lajolla Apartments Opposition
Date: Monday, November 21, 2016 2:50:59 PM

Hello,

As a resident of Turtle Cove near the proposed apartment project, Case# Z2016-042, I am opposed to any rezoning request to allow apartments on that land. Traffic is already a major problem in the area, schools are crowded, and we do need our property values lowered or crime increased in Rockwall. There are several better uses for that land that would be better suited for the community long term.

The developers and sellers should not have put up the signs saying construction is beginning soon without including that it is subject to rezoning request. I understand that the owners have a right to refile the request since the city council did not turn them down the last time and I will request the reasons from them.

Thanks for listening,

Scott Phillips

Subject: Opposition to proposed rezoning mentioned below

Re: Davis Development's application to change the zoning from Commercial to Planned Development for the land on La Jolla Pointe Drive back behind the restaurants on the I-30 service road.

I am adamantly opposed. We moved to Rockwall 40 years ago and have watched it grow into a beautiful town with many amenities. However, this proposal would be a backward step. It would bring about the destruction of at least two established residential areas.....Lakeside Village and Turtle Cove.

Our way of life would be adversely affected. Traffic is already an issue due to people using La Jolla Pointe Drive to bypass the service road. Morning and evening commutes are affected. Traffic lights would need to be placed on Village Drive by Snuffers and also one onto Ridge Road. We have severe backups in the mornings presently. Can you image the backup if you added 500 or more cars to this small area (272 apartments with at least 2 vehicles)? Added to this congestion, you also have the noise and pollution factors from same.

Furthermore, it should be noted that property values will decline in the aforementioned neighborhoods, because people will not wish to live in such a congested area. Thus, there would be less tax revenue for the city of Rockwall. This would probably be the beginning of urban blight. More homes would become rentals and thus not well-maintained.

Please, I ask you to vote against and continue to vote against this proposed zoning change. Help preserve our communities.

I am writing to express my concern and opposition to the proposed multi family complex by Davis Development at La Jolla Point. I recently purchased a home on Lakeside Dr in Lakeside Village to escape the traffic and congestion of 205/30 intersection. Regardless of planning and expansion this area would still be limited a feeder road that was never intended to accommodate a multi family apartment complex of this size, creating a huge bottleneck at Village and 30. I am also concerned about the impact on property values (congestion, noise, crime, etc.) in a single family housing area where I have just made a major investment. I support the commercial designator in place and hope that the Rockwall Planning and Zoning Division look out for our best interest in this matter. Thank you.

MR. MILLER
AS TWO SENIOR CITIZEN OF ROCKWALL, I WOULD LIKE TO PUT MY TWO CENTS WORTH IN TO THIS VERY CONCERNING VENTURE! ROCKWALL IS A VERY AWESOME CITY, WE LIVE HERE BECAUSE IT IS CLOSE TO DOCTORS THAT WE TRUST, VERY CONVIENT STORES AND A GOOD SCHOOL SYSTEM!
WHEN WE GO TO OUR SONS HOUSE WHICHIS ABOUT 3 MILES OR LESS, HE LIVES AT HARBOR BAY! THE TRAFIC IS SO BAD (NOW) THAT IT IS VERY DANGEROUS TO GO IN THAT AREA ! THE TRAFFIC BETWEEN THE HIGH SCHOOL AND THE BACK OF THE RESTURANTS ON HYW 30 IS SCAREY!!! NO ONE STOPS AT THE STOP LIGHTS OR SIGNS!!! THE SCHOOLS ARE OVER FULL AND THERE NEEDS TO BE SO MANY PLACES THAT WE NEED MORE POLICE PATROLING! BUT THEY ARE TIEDED UP ON HYW 30!
THE APARTMENTS THAT YOU ARE PROPOSING IS GOING TO CREATE MORE TRAFFIC IN ALREADY OVER CROWDED AREA! LOOK AT THE HARBOR, SO CROWDED WITH NO PLACE TO PARK!
I AM A VOTING SENIOR AND WOULD LIKE FOR YOU TO CONCIDER THE ISSUES THAT THIS WILL CREATE!!!!

I AM IN MY MID 70'S AND STILL DRIVE IN THIS FAST PASSED CITY THAT WAS VERY EASY TO DRIVE IN. BECAUSE OF THE OVER CROUDING IT HAS ALREADY MADE ME TAKE THE BACK ROADS!!!

PLEASE CONCIDER THE FOLKS THAT ALREADY LIVE HERE!

THANK YOU AND PLEASE THINK OF THE FOLKS THAT ALREADY LIVE HERE!

ALWAYS KEEP SMILING IT MAKES THE WORLD WONDER WHAT YOU ARE UP TOO!

Date: Wednesday, November 30, 2016 6:52:56 PM

Mr. Miller,
As a long time Rockwall residents, my wife and I are totally opposed to the Davis Development that will be presented within the next 2 weeks. This proposal was correctly rejected when it was presented months ago, and the City Council should have voted it down then to avoid having to present again. Certainly there as not been a change of heart during this time, unless deep pockets have the council to change their minds. We and the rest of Rockwall will be watching closely and we urge you, along with the Mayor and City Council, to say NO to the rezoning request for La Jolla Pointe. It is senseless, will create more traffic issues, destroy beautiful trees and wildlife, strain the already crowded school system, and add to the over congestion of traffic in the already over burdened area. SAY NO, please!

Date:	Sunday, November 27, 2016 12:53:29 AM

Good morning.

I'm Janell Baker and I reside at 3616 Hilltop Circle in Lakeside Village.
I am writing this to let you know how disastrous the multifamily housing would be if approved for this location.
I was very outspoken last time Davis proposed this property and things have not changed since.

Traffic is already horrible on LaJolla (this was a BIG concern last time this project up for vote, their independent survey results even showed that) and when there is an accident on I30 or anywhere around Village Horizon
Area, we are unable to get out of our community due to long traffic waits.
Reinhardt Elementary will be the elementary school where the children of the multifamily community would attend,
and we are already overcrowded. I'm afraid that crime will rise in our community and outsiders will enter into our community to use our
Golf course, tennis courts and/or swimming pool.

I oppose this project and will stand with others in my community in voicing my opposition at all public meetings that concern
this project. Please hear our concerns and do not allow this to pass. It would be devastating!

Thank you for your time.

From: Sally Meek
To: Planning
Subject: Opposition to townhouse/apartment project
Date: Saturday, November 19, 2016 11:34:01 AM

My name is Sally Meek and I live in Turtle Cove at 939 Briar Oak Drive. I chose to purchase a home in Rockwall because of the sense of community and continuity that exists here. The proposed townhouse project La Jolla Point, I believe, would work against all of the goals of community and family life that exist in Rockwall. Rockwall has no need for this type of high density community that tends to be rather transient. Please know that I am against any variance that would allow the construction of these townhouses. And I will help many others in both the Turtle Cove and Lakeside communities in working to stop this proposed project.
These developers are not from Rockwall and have no understanding of our community. When they made a presentation to our HOA it was clear that they knew nothing about our community. Additionally, they did not listen to the concerns of our community.
Please help us keep the family community of Rockwall as strong as it is currently.
Sally Meek

From: Paul Husting
To: Planning
Subject: Proposed rezoning of La Jolla Point
Date: Sunday, November 20, 2016 4:41:56 PM

On behalf of myself, Paul Husting and my Wife Susan who reside at 3313 Lakeside Drive, Lakeside Village, Rockwall TX 75087, are using this email to express our objection to the rezoning of the subject land to apartments. Nothing has changed since the last time this was suggested.
This location does not have adequate roads to handle the traffic that will be created by a project of this magnitude and will add to heavy traffic in this area. The access to IH 30 where Laguna, La Jolla and Horizon Road converge is beyond capacity at high traffic hours, M – F 6:30 – 9:00 AM, 4:00 – 7:00 PM and during most of the day on Saturday and 12:00 onSunday. Adding to this will create gridlock at a critical entry and exit point to Rockwall from both the east and west.
In addition, if there is an accident on I30, especially on the westbound side, Lakeside Village becomes isolated. If any emergency vehicles need to come into the village it's impossible for them to get there because everything is at a standstill until I30 is cleared.
Please reinforce your previous stand to prevent this to happen.
Sincerely yours
Paul & Susan Husting

Date: Tuesday, November 22, 2016 9:24:31 PM

Dear members of P&Z,

It is disturbing to discover that Davis Development is once again petitioning for a change in zoning for La Jolla Point in Rockwall. Last spring they made the same proposal before your board and the Board recommended refusal of the request to the Council. Davis Development then withdrew their request before the City Council. I was at that meeting and was relieved. Now I realize that this was not a sincere acceptance on their part of the will of the community but simply a stalling tactic allowing them to return now with a new request. This type of legal maneuvering feels sneaky to me and almost borders on dishonest.

This project will cause significant problems for our Lakeside Village area. We have only one exit for our property and this development would create very difficult traffic issues. Please recommend refusal once again.

Respectfully,

David McKeon
[redacted]

From: Todd Slayton
To: Planning
Subject: RE: Case Z2016-042: Davis Development
Date: Wednesday, November 30, 2016 2:42:07 PM

I would like to voice my opposition to the planned multi-family development.

All approvals for new apartment complexes should be denied for a number of years. Rockwall needs to grow wisely, not too rapidly which overburdens the schools and crowded roadways. Even upscale apartments can have a detrimental effect on property values in the short and long term. Homes and condominiums have an ownership element that encourages properties to be taken care of long term, whereas apartment communities do not and decline more rapidly as they age. Please deny the rezoning request.

Thanks for your consideration,

Todd Slayton

Rockwall, TX 75032

From: [redacted]
To: Planning
Subject: RE: LaJolla Point
Date: Wednesday, November 16, 2016 8:30:53 PM

Dear Members,

I understand that Davis Development is preparing to make another petition to the Board to change zoning allowing multi-family apartment building at LaJolla Point. This is the second time in less than a year. Last time your board recommended to the City Counsel that the request be denied. Thank you for that decision. Unfortunately, Davis withdrew the request and the counsel accepted the withdrawal and never took a vote. That enables Davis to return quickly with anther request.

I strongly encourage you to once again recommend denial. I live in Lakeside Village and there is only one exit from our development. An apartment complex that close to us would lead to very serious traffic problem in our area.

Thank you for your consideration.

From: Barbara Lee
Subject: RE: Re-zoning Case No .Z2016-042- Davis Apartments at La Jolla Pointe
Date: Tuesday, November 22, 2016 7:36:52 AM

Concerning Case No. Z2016-042- Davis Apartments at La Jolla Pointe

We are again writing this to express our strong opposition to the referenced zoning change. The community spoke and the P and Z board voted this down previously this year. The developer was allowed to withdrawn the petition before it reached the city counsel and we were told that they heard the community and were not going to reapply. This was obviously not their intention and we find ourselves spending time fighting this again the same year. The fact that the signs put up on the property by the owner are misleading and the website that is up that the signs drive traffic to try to use scare tactics and half truths to get what they want does not show concern for the community, or integrity of the parties involved in my opinion. I personally sent a comment to the comment section of their website stating opposition with reasons and received a letter from Mr. Hammerback restating his position but my comments or anyone else that opposes this are not included in the site, only comments that agree with his position. This time around I would ask that it be taken all the way through and defeated so that it can be put to rest. I understand they can make changes and come at it again in future but it should not be this easy for them to manipulate the system.

As residents of the community of Lakeside Village the zoning change and construction of a multi-family apartment complex on La Jolla would have a devastating impact on our community for a number of reasons. A high density community of this size built on a residential sized street that would feed into an already congested traffic situation at Laguna and Village or Ridge and I-30 would cripple the traffic flow into and out of our community served by only one entrance on Village. The road is also the only way in and out of Harbor Bay Marina with seasonal traffic flow that gets very congested. The commercial zoning is appropriate for office, restaurant etc. with limited traffic flow that those entail as proposed in the IH-30 Overlay district in which this property is located. The traffic delays and congestion at peak hours at Village/Horizon and I-30 Westbound would be even worse than it currently is and traffic in and out would be intolerable. The privacy issues and light and noise pollution to sections of our community

would also negatively affect Lakeside Village and the overall values of property in the community with these issues values would likely decline. Lakeside Village has been a vital part of Rockwall for many years and I would like it to stay a place we all want to live.

I received a call from Gene Babb with Davis Development when this project came up before. He reached out to assure me that they build a quality product as well as having the community's best interest at heart. He said Davis Development did all phases from development, through construction and management. When I asked him how many properties that Davis constructed that they still own and manage he said that "was a loaded question in the current real estate market". I'm sure it fluctuates when they complete new projects but at the time they didn't currently manage any of the properties they have constructed, all were sold, so to say they will be around as an active part of our community into the future would be a stretch to say the least. I also inquired about the traffic study which had not been available to the public to view at that time, to which he said on a grade scale of A to F, the traffic in the area received a score of F. He informed me that it was so bad that the opinion was that adding this to it won't make a huge difference. I cannot see how adding up to 500 plus vehicles (roughly 2 per unit) with only one way in and out of a complex dumping into an already bad situation would not make it an abominable situation to deal with for not only current homeowners in the area but also the new tenants to the proposed complex. I would ask that the Planning and Zoning Commissioners as well as the City Council would investigate these same questions about this development with heavy consideration on the effect of quality of life and home values for current Rockwall homeowners.

We currently have 6 grandchildren, and one more on the way all living with Rockwall ISD, and thou they don't live in the Reinhart district the effect on the ISD and the already crowded school would certainly be negative. Reinhart and it's current students would suffer from an influx of a large lump of students that would come from a property with 273 units, who over half are 2 to 3 bedrooms and would almost certainly have children as occupants. I would ask the commission and the council get input from parents and administrators in the affected schools in consideration of the effect of this petition on our schools and students.

Please vote to deny this petition for zoning change and have it carry through to a vote of the counsel.

Thank you for your service and your consideration in this matter,

Sincerely,

James and Barbara Lee

Subject: Re: TZ2016-042 Davis Development
Date: Monday, November 28, 2016 8:51:06 PM

I would like to make known my disapproval to rezone LaJolla Pointe for a 272 unit apartment complex for the following reasons:

1) As the city leaders must be aware, we do not have the infra structiure in Rockwall to handle this increase on our roads. There is already considerable congestion on Ridge Rd. /Horizon intersection. When 1-30 has traffic problems, the access road and intersection become blocked. The only was out for the residence of Lakeside is LaJolla. Increasing the traffic load in this area would be disastrous.

2) A transient population would decrease the value of the Lakeside properties and open the door to increase in crime.

3) Destroying all the beautiful trees that were years in the making would be tragic. This is what happened on Ridge Rd. and Whilte Hill. Run off would also create problems.

4) This would create a strain on the Rockwall school system that already seems to be strained.

NB: It was disappointing that the City Council did not allow this matter to be voted on the last time. If Davis Development is allowed to resubmit the offer then we request that the council allow a vote to be taken so we do not have to go through this again.

Thank you for giving this your sincere attention.

Date: Monday, November 21, 2016 5:13:23 PM

Sir,

Once again we are going through this with Davis Development. I humbly ask Rockwall Planning and Zoning to deny the re-zoning on La Jolla.

I sent an email when the re-zoning situation came up last spring. I do want Rockwall businesses to grow. i love being able to shop in Rockwall. I remember when we did not have very many stores in Rockwall.

I am against the re-zoning because it will cause Lakeside Village a hardship. The residents of Lakeside Village pay a monthly maintenance fee to keep our golf course and other amenities in working condition. We already have people who are not residents sneaking in to use the golf course. If Rockwall allows Davis to build apartments on La Jolla, i fear we will have even more trespassing.

Many thanks for listening to my stance,

Sandra Anderson

Dear Sir/Madam,

I am writing you today to express my concern and opposition to any re-zoning that would allow multi-family apartments to be built in LaJollaPoint.

In addition to the increase in crime that such dwelling generate, such apartments would make the traffic is worse than it already is.

For the good of Rockwall please do not allow LaJollaPoint to be re-zoned.

Kind regards,

Erick Nunez

Subject:	Rezoning of LaJolla Point property
Date:	Saturday, November 19, 2016 6:53:03 AM

To Whom it May Concern,

Please do not change the zoning for the LaJolla Point. I use that entrance/exit to I-30 at Horizon/Village daily and the wait at peak hours is already a severe inconvenience. A multi-family complex would only make that many times worse. I know others have also objected for other reasons, and from what I have read and heard from my neighbors and friends, all their objections are also supported.

Again, please DO NOT allow the change in zoning at LaJolla Point.

Thank you.

Subject: Rezoning Request for La Jolla Pointe
Date: Wednesday, November 30, 2016 10:18:36 PM

I am a property owner in Lakeside Village. I am opposed to the Rezoning Request for La Jolla Pointe to Multi-family Residential. I feel that adding more multi-family apartments to Rockwall will lower the property values for all property owners in the city. I have been a real estate professional for nearly 30 years and have first hand knowledge that Multi-Family zoning brings an element of society that typically are transient and of lower socio-economic status. There is a direct correlation between apartments and increased crime and lower property values. This is not something I think Rockwall needs and I am especially concerned that the City of Rockwall is considering such a move, which will impact my home values since I live directly across the railroad tracks, backing up to where the proposed rezoning is to occur.

Subject: Rezoning Request for LaJolla Point
Date: Monday, November 21, 2016 7:34:42 AM

As a property owner in Lakeside Village I would like to strongly discourage the rezoning request from commercial to multi-family on LaJolla Point.

This location does not have adequate roads to handle the traffic that will be created by a project of this magnitude and will add to heavy traffic in this area. The access to IH 30 where Laguna, La Jolla and Horizon Road converge is beyond capacity at high traffic hours, M – F 6:30 – 9:00 AM, 4:00 – 7:00 PM and during most of the day on Saturday and 12:00 on Sunday. Adding to this will create gridlock at a critical entry and exit point to Rockwall from both the east and west.

Subject:	Say NO to 22016-042 Davis/ 272 APARTMENTS ON LA JOLLA!!!
Date:	Thursday, December 01, 2016 3:57:35 PM

Mr. Ryan Miller.
Rockwall Planning.

Dear Mr. Miller,

I am very concerned re the possibility of 272 apartments next to Lakeside Village here in Rockwall. This would change the safe environment we have chosen to live here and to pay our taxes.

The biggest impact would be traffic congestion. As it is already difficult to access Ridge Rd now there would need to be added traffic light access on to Ridge Rd. We would also need more access to I30 so a ramp would need to be added between Ridge Rd and Horizon and on the opposite side an exit ramp. There would be the added school buses.

If these apartments have 3 or 4 bedrooms this would mean a large number of added school students to our school district. Would the school district have to add school buildings to accommodate these students.

Then there is the safety issue. This would change the lovely environment we have here with concerns of trespassing and heft. We have chosen to live in Rockwall as we love to be in this beautiful, safe city by the lake, away from Dallas.

Please say no to apartments at La Jolla Point. Thank you.

Yours Sincerely,

Wendy Wood, RN, BSC.

Rockwall, TX 75087
Attn: Ryan Miller
Email: Planning@rockwall.com

RE: Case Z2016-042: Davis Development

I, the undersigned homeowner and/or resident of Rockwall hereby notify the City of Rockwall's Planning and Zoning Dept. of my response to the application by Davis Development to rezone the land located along LaJolla Pointe Drive from a Commercial District to a Planned Development District for a multi-family apartment complex to be built on the site where such zoning change has been requested.

(Place a check mark or an X in appropriate response below)

I **OBJECT** X to the rezoning request

I **SUPPORT** _____ the rezoning request

For the following reasons:

- I believe the area is correctly zoned and in time more commercial development will be needed. This is an ideal area + is zoned properly for the future.
- Rockwall does not need more mult-family.

Planning Commissioners –

I live in Turtle Cove Subdivision in the great City of Rockwall. I am writing this to you to yet again oppose the Davis Development's rezoning application. As you know, this rezoning was already declined by your commission and I, and my neighbors and other residents, would greatly appreciate your support in declining the application again. There are numerous reasons to object to this zoning request, however, the main reason for my objection is the already unbelievable traffic congestion along the I30/Ridge Road corridor. On Saturdays you can barely make it through the lights and to add yet another development that would routinely be adding significant more traffic just does not make sense until the roads catch up. I am also greatly concerned at the level of dishonesty that the Davis Development group has displayed. They have already displayed "Coming Soon" and "Construction Beginning" signs on the property. I believe in integrity. I don't personally know any of these individuals in this Development group, but I am very concerned about people doing business in Rockwall that have displayed such a lack of integrity. They are perfectly within their legal rights to file a new application, however, the manner in which they have done so shows dishonesty and lack of integrity in their organization. This is not someone with whom I would even consider doing business. I hope the City of Rockwall thinks so too.

I have seen integrity in your work in other re-zoning decisions you have made. You have a tough job and I do appreciate you.

Thank you for the opportunity to comment.

All,

I'm strongly opposed to the Davis Development rezoning application and the apartment project. Bringing more apartments into Rockwall will increase traffic, crime and hurt our property values.

Furthermore, any elected official who votes to approve this rezoning application will not be representing the majority of their constituents, thus they will be opposed and defeated the next time an election is held for city council seats in Rockwall.

Attention: Ryan Miller and Planning and Zoning Members

This email is to notify the planning and zoning department that we are very much opposed to the proposed Davis Development high density apartment project scheduled to be heard for rezoning on December 13. This piece of land would directly devalue homes on either side of the project. In addition, the increased traffic in the area that would result would make an already congested area even worse. In particular the access to and from I 30 would be increasingly difficult. There may be other areas of Rockwall where this type of project might be better suited. The area the Davis Development is asking to be rezoned is not in the best interests in keeping Rockwall the wonderful community we all love and wish to live in and raise our families.

To:	Miller, Ryan; Gonzales, David; patrick.trowbridge@att.net; Sandi Whitley; Pruitt, Jim
Subject:	Z2016-042 PROPOSED APARTMENTS
Date:	Friday, December 02, 2016 11:32:49 PM

Dear Jim, Ryan, David, Patrick, and Sandi,

I am so disturbed at the way Rockwall is going these days. It sickens me to see our once beautiful Ridge Road at Yellow Jacket Lane clear cut. Hundred year old trees are gone and left behind is a scraped off piece of ugly land with a gully running through it. Rockwall has a tree ordinance and I was told that the developer paid the city $150,000 for trees to be planted elsewhere but there is NO way the trees and parklike setting can ever be replaced. I fully understand that development is coming to Rockwall and that the owner of the property has the right to build on it, but development should at least not destroy the beauty of this community and the rare, mature trees we have. I don't know ONE person who doesn't grimace when they drive past that eyesore that was once beautiful land.

As a homeowner of this city, there is no way I approve of more apartments, condo's, or high density housing being built here. I think we already have too many that have over crowded our schools and streets. Example: Reinhardt was the perfect size for 25 years until the apartments were built on Ridge Rd next to the old Brookshires Grocery store and all along Yellow Jacket Lane. The enlargement of Reinhardt in the last bond proposal is directly related to and caused by the many apartments built in the last 8 to 10 years. We haven't even felt the grid lock on our already, maddeningly, crowded streets from the apartments being built by The Harbor. I now dread having to leave my home after 3:00 p.m because of traffic. It is worse than in Plano. No one moves to a community because there are so many nice apartments. They move to a city for the quality neighborhoods and schools. High density housing brings in property tax money but in no way does it offset the cost of educating students and providing school buildings. People move to Rockwall to get away from Mesquite type communities and it seems we are working as hard as we can to become one.

I know the street well where the proposed apartments would be built and commercial buildings would suit our community much better than more than high density housing. Please respect the wishes of the citizens of this city and deny this request. Quality of life matters!!

Sincerely,
Carol Crow

Dear Members of the Zoning committee:

I wish to express my concerns about the Davis Development plans for a multi-family apartments on LaJolla Point.
My concerns involve:

1) The congestion that will be caused by the increase in traffic. When I-30 gets stopped up, which is all too frequently,
and the access road blocked, this access road is very important for the residence of Lakeside Village. This will
be a serious problem if the area is overpopulated.

2) Removing all the beautiful trees on the Point would be a travesty. This is what happened on Ridge Rd. It would
be a shame to have this repeated.

To whom it may concern,

I have already voiced my opposition to this in the past and am frustrated that I need to do it again. I live right behind where they want to put this housing project. I don't care if it is nice or not. I don't care what kind of money the land owners want or the money that these out of state developers think they can get from here. The owners have this land and they knew it was zoned commercial. We as the people living in this community who don't want this zoning to be changed to multi-family dwellings should not be on the defensive if we don't want this. The developers should be on the defensive and they should not get their way. We shouldn't have to explain all the reasons that we don't want this even though we already have. If we just say we don't want it and you are supposed to represent us, that should be enough. Their scare tactics will not work on us or any other nonsense they come up with. That land is zoned commercial and I am sure that something commercial like more restarants or office space or even shopping will be put there eventually. Please deny this request again and hopefully our City Council will put this to bed for good the next time they meet so we don't have to keep playing this game.

Respectfully,

Dannon Childs

Sent from Outlook

From:	Hervas, David
To:	Planning
Subject:	Z2016-042: Davis Development
Date:	Monday, November 21, 2016 6:19:38 PM

Dear Mr. Miller, Director of Planning and Zoning for the City of Rockwall:

My wife and I are writing this email to express our opinion in regards to the re-zoning from Commercial to Planned Development on La Jolla Pointe Drive behind the row of restaurants along the I-30 service road between Ridge Rd. and Village Drive/Horizon Rd.

We want to let you all know that we OPPOSE to the re-zoning for this construction project, item "Z2016-042: Davis Development".

This is the second time we take action to express this opposition as last April, we the neighbors from the affected area already expressed opposition by writing letters and emails, and being present at the hearings.

We are especially motivated this second time as we have seen the developer signs in the property when they in fact do not have a construction permit. On top of that, they created a website to promote the construction and suggesting that neighbors are wrong about their concern. Along with other neighbors, we consider this intolerable.

We are homeowners at Lakeside Village. Our address is 3103 Lakeside Dr., Rockwall, TX 75087. My family consistent of my wife and 15 years-old son live at this address. As you may know, Lakeside Village is the residential community adjacent to the affected area.

By the means of this written notification, we would like to be considered as active opponents to this project.

My family and I are residents in Rockwall because we appreciate the comfort of living and high standards of the area. We moved in six years ago to enjoy what we considered an optimum place to start our family. The conditions we found then in Rockwall were ideal for us, and we would like to keep Rockwall that way.

I adhere to the same concerns as my fellow residents and neighbors at Lakeside Village and Turtle Cove.

Briefly,
- The traffic situation in this area is already very busy at peak hours. The new apartment complex would add in more driving inconvenient.
- This area is already densely populated; adding more neighbors would increase difficulties and lowering the standard of living.
- Usually, an introduction of rental units to a location results in devaluation of existing single family residential neighborhoods in the nearby area. This is a highly negative impact to all neighbors in Lakeside Village and Turtle Cove.

We consider Rockwall an exemplary model of life style which made us move over this city. We want the future of Rockwall to keep being the same exemplary model for the cities in the Metroplex area.

We would greatly appreciate that you considered the voices of the people like us who are going to be affected by this project.

Thank you very much for your attention.

Absolutely opposed to this development. The area already experiences horrible traffic and frankly I do not believe that an overpass situation would be practical, economical or empirically workable. Some things look better on paper than they do once they are completed and I believe an overpass in this situation would be exactly in that category.

Additionally the burden that this would place on schools, public works such as libraries, emergency services and existing infrastructure would do nothing more than enrich the developer at the expense of the standard of living of existing Rockwall County citizens.

Thank you for your consideration of my views in this matter.

Kindest regards,

Brad Kirk

Date:	Wednesday, November 23, 2016 1:22:06 PM

Please do not consider the development of the LaJolla lots. The traffic in this area is becoming worse by the day, and over 200 apartments in this small area will be overwhelming. There is more vacant land on the north side of Ridge that could handle this project.
These apartments would also cause problems for the Lakeside Village area with the availability of just walking into the community. Please keep our community safe and a little less crowded.
How many times will Davis Development attempt to develop this land? What is the draw for this development?
Please do not grant this request.

Subject: "Z2016-042 Davis Development"

Dear Mr Miller

I am extremely concerned about the proposed rezoning of the above mentioned area along I 30. It is concerning to me on several different planes. First being the burden on the already congested area as well as traffic safety.

Also, as you and I will know there will be an adverse affect on property values in the area. Especially in light of the already zoned multi family area across the road.

Most importantly, is the burden on multi family housing on an already taxed school district, namely Reinhart elementary. I understand you are the caseworker for this proposal and I would urge you to do everything you can to again say no to the rezoning application.

Re: Letter of Intent – 17.595 Acre Planned Development (Davis Apartments at La Jolla Pointe)

To Planning and Zoning Department:

Our Client, Davis Development, would like to formally submit an application for a 17.595 acre multi-family (MF) planned development (PD) in Rockwall. The subject property is bounded by La Jolla Pointe Drive on the north, east and west and is located on the north side of I-30 behind existing commercial development including the Mellow Mushroom, Logan's Roadhouse, Taco Cabana, Steak 'n Shake, IHOP among others. The 17.595 acre PD is proposed to include Lots 6 – 11, Block A of La Jolla Point Addition, Phase 2 (16.449 acres) and the proposed public right-of-way of Carmel Circle (1.146 acres). Carmel Circle was platted as a public right-of-way when the subject property was subdivided. We propose that Carmel Circle will be abandoned and included within the PD boundary. The subdivided lots (Lots 6-11) and Carmel Circle will be recombined during the platting process, after the zoning change process is complete.

The site is currently zoned Commercial (C), located in the IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, and our Client requests that the site be rezoned as a Planned Development for multi-family use. The proposed PD will be developed in one (1) phase and consist of seven (7), 3-story/4-story split level buildings and one (1) 3-story building with approximately 272 total units. A leasing office, clubhouse and fitness area will also be included in the "L" shaped building located at the main entrance. The building mix chart that lists the approximate unit mix, unit size and overall building square footages, is shown on the PD Concept Plan attached with this letter. A mail kiosk, maintenance/car wash building and a pool amenity area are also proposed for the residents' use.

Attached with this letter are the following: (1) Check for $464 for zoning change application fee, (2) Completed Development Application for zoning change, (3) Letter of Explanation Supporting Zoning Change (Rockwall Comp. Plan), (4) PD Development Standards, (5) Location Map with aerial photograph and PD Boundary Overlay, (6) Property Description of PD area, (7) PD Concept Plan, (8) Tree Survey, (9) TIA Report, and (10) Typical Building Elevations (colored) for city review and comment. Should you have any questions, please feel free to contact me at 972.620.1255, extension 6037.

Respectfully submitted,
Burgess & Niple, Inc.

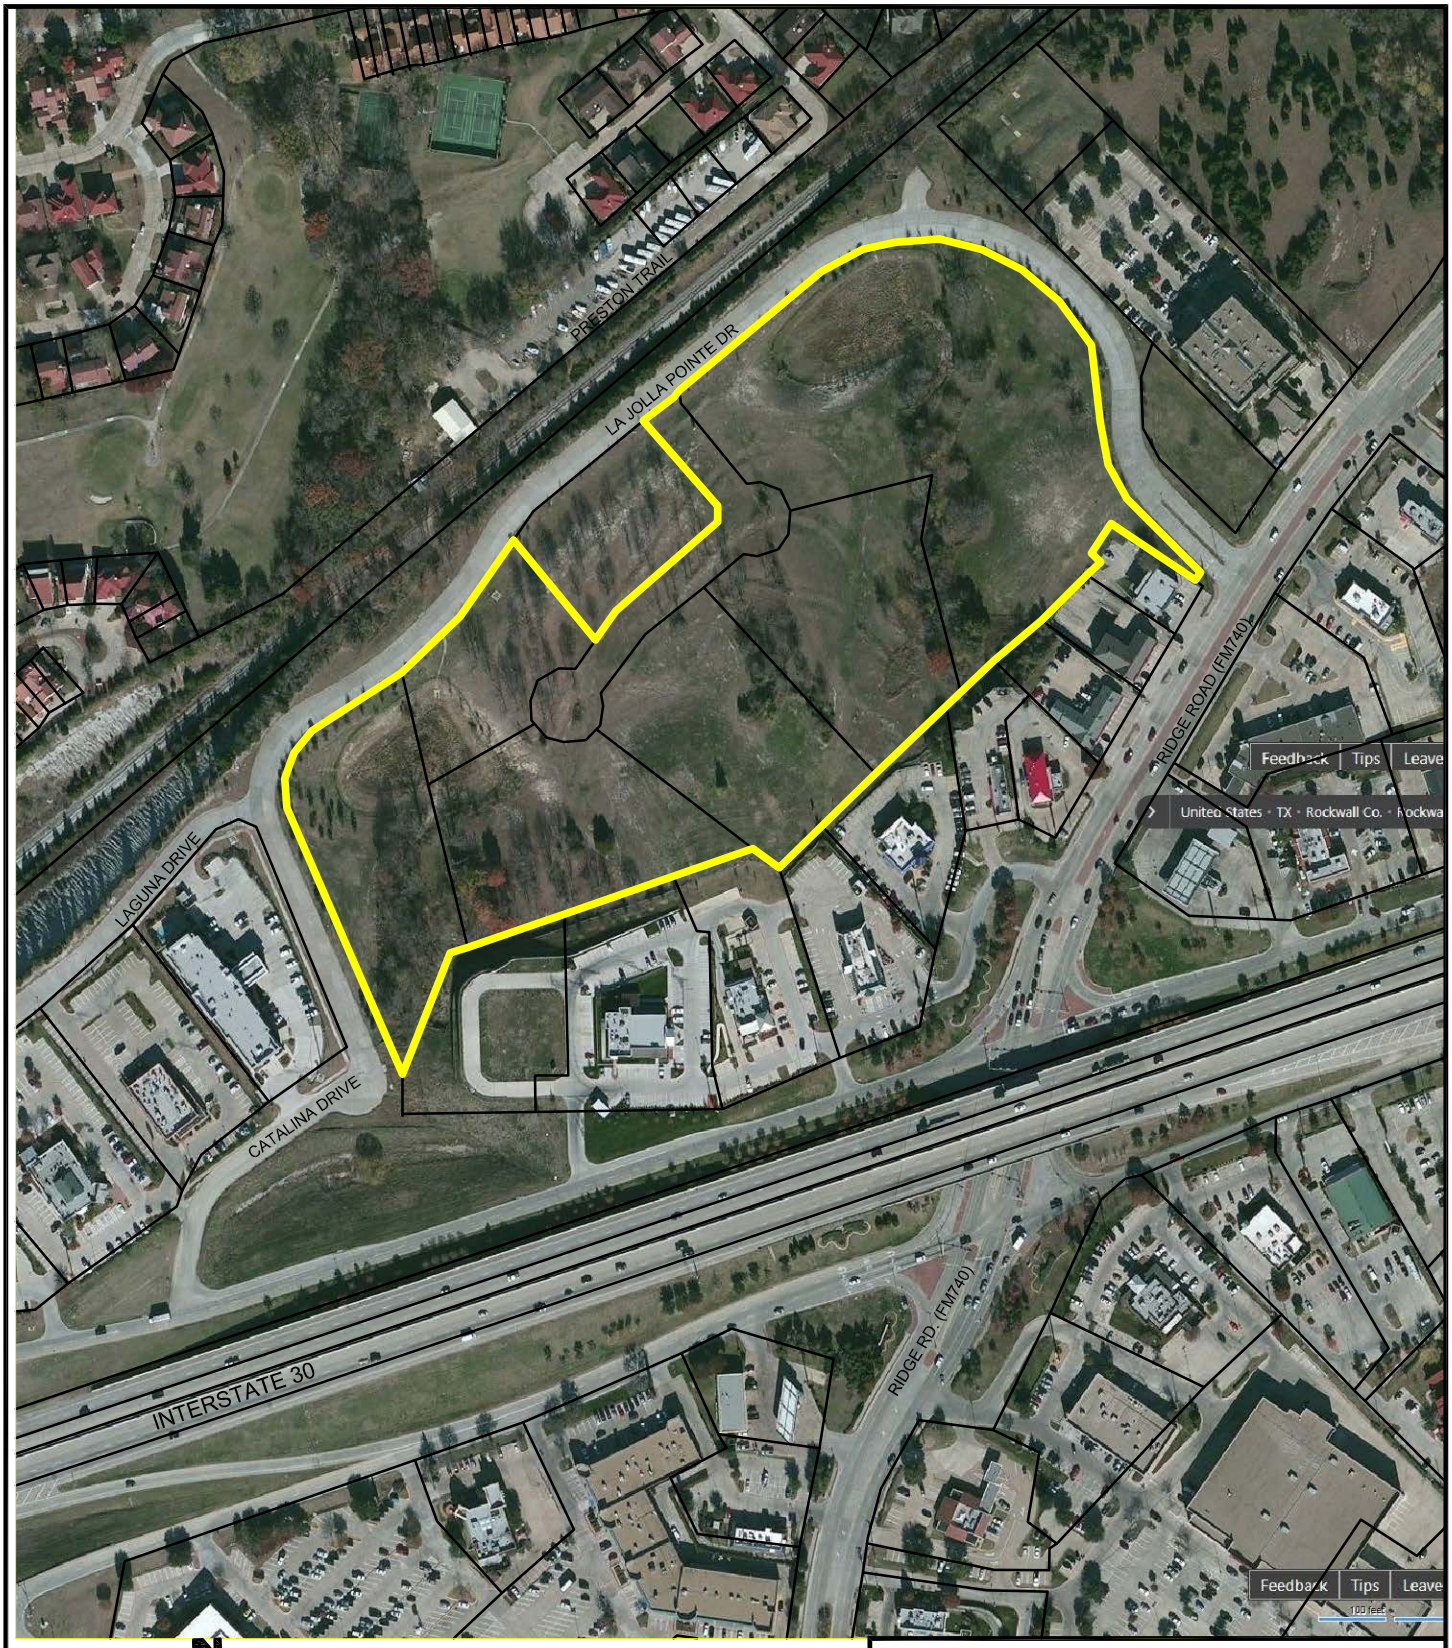
DAVIS URBAN RESIDENTIAL AT LA JOLLA POINTE AND THE ROCKWALL COMPREHENSIVE PLAN



Support for the proposed zoning amendment for the Davis Urban Residential at La Jolla Pointe may be found under the City's Comprehensive Plan. The City's Future Land Use map designates the Property as "Commercial," with "Medium Density Single-Family Residential" to the north and west, and "Commercial" to the west, south and east along I-30. The "Commercial" future land use designation states that *(z)oning should only be allowed where the commercial use is eminent and where it would be planned and integrated with the adjacent residential neighborhoods.* The subject property is situated behind a row of retail buildings blocking the view of the site from the nearby major roadways. Further, access to the site from Ridge Road and the I-30 service road is limited and not ideal for a major retail development. Additionally, the topography of the site is not conducive for a retail development. Therefore, due to visibility, access and topography, retail is not eminent for the subject property..

The "Commercial" designation also sets forth the need for the commercial use to be "integrated with the adjacent residential neighborhoods." This policy is consistently reflected within the "Land Use Policies" of the Comprehensive Plan. Given the separation of the subject property from nearby residential uses by a railroad track, a commercial development on this property could not be integrated with the adjacent residential neighborhoods.

The proposed development does, however, satisfy further policies in the Comprehensive Plan that suggest a transition between the retail and the single-family homes to be accomplished through more condensed housing. For example, the land use policies in the Comprehensive Plan provide "general residential policies," which provide that "(h)igh density residential should be used as a transitional use from commercial (or existing retail) use, or where it will serve as a logical extension of an existing high density development." The addition of multi-family uses between the single family homes to the north and west of the Property and the commercial uses along I-30 would serve as this transition.

Another land use policy states that there should be a "blending of land uses that will result in a strong sense of community and neighborhood identity, and in the efficient use of land." As support for this policy, the Comprehensive Plan describes the current segregation of land uses in Rockwall, which "forces everyone to have to hop into a car, wind through a neighborhood and onto an already crowded arterial roadway to go even a few hundred feet away." The introduction of multifamily residential on the subject property provides a blend of horizontally mixed uses.

The land use policies also encourage the provision of a range of housing types to "accommodate different age groups, incomes and life styles," as well as to improve economic vitality. Specifically, "a greater variety of housing should be provided in specific areas of the city to accommodate a broad range of individual and family demand." Multifamily residential on the subject property would provide an additional choice of housing that could accommodate different age groups, incomes and life styles.

Re: Traffic Impact Analysis Review for Davis Apartments at La Jolla Pointe

Dear Mr. Tumulty,

Kimley-Horn and Associates, Inc. (Kimley-Horn) reviewed the *Traffic Impact Analysis for Davis Apartments at La Jolla Pointe* by Lee Engineering, dated April 5, 2016.

We offer the following comments:

1. Project Trip Generation
    a. The project trip generation appears appropriate for the apartment complex.
    b. There is a typo in Table 3 showing the variable as 220 dwelling units instead of 272 dwelling units. The estimated trip generation for each time period in this table is correct for 272 dwelling units, so it did not ripple through the analysis.
2. Project Trip Distribution
    a. The project trip distribution appears reasonable for the development.
    b. It appears that the majority of the traffic heads to/from Dallas using the IH-30 at Village Drive / Horizon Road interchange.
3. Historic Growth Rate
    a. The TxDOT count location referenced in the TIA is on FM 740 south of IH-30 and shows a negative 4% average growth rate. We noticed a TxDOT count location that is closer to the development on FM 740 just north of IH-30, although it still has a negative growth rate from 2009 – 2014.
    b. The 2% average annual growth rate for the TIA from 2016 to 2022 is an acceptable assumption.
4. Thoroughfare Roadways
    a. La Jolla Point Drive, Catalina Drive, Village Drive, and Laguna Drive are all shown on the City of Rockwall's Master Thoroughfare Plan as Minor Collectors, which are typically 40' curb to curb. Currently, each of these streets is striped as a two-lane roadway that can accommodate on-street parking on each side (not marked) or they could be striped to have left turn lanes at driveways or intersections.
    b. Ridge Road, which is also FM 740, is shown as a Major 4-lane Divided (M4D) roadway on the City of Rockwall's Master Thoroughfare Plan. A center turn lane exists that acts a left turn bay at the intersection with La Jolla Pointe Drive.

5. Site Access
    a. The driveways appear to meet City spacing standards for full access. The TIA mentions that Driveway 2 is approximately 185' of Ridge Road, although it appears to be approximately 300' away from Ridge Road based on scaling from the site plan.
    b. No deceleration lanes are proposed at the site driveways based on the TxDOT thresholds. Our understanding is that the City does not have a formal standard for requirements, so the TxDOT thresholds are appropriate.
    c. The highest volume entering movement is expected to be the right turn at Driveway 1 and is close to the threshold for a right turn lane. As no on-street parking is present in the area and a train track is on the opposite side of the street that will limit other development, we would recommend striping the eastbound approach to have a through lane and right turn lane within the existing pavement (it is an existing two-lane undivided roadway with 40' of pavement).
    d. For the left turning movements at Driveway 2, we would also recommend striping a left turn lane and a through lane. This could also be accomplished within the existing 40' pavement (currently striped as a two-lane undivided roadway). This striping improvement would help prevent possible backups towards the intersection of Ridge Road at La Jolla Pointe Drive, since this driveway will be gated near the street.
    e. The TIA mentions that vegetation along La Jolla Point Drive creates a sight distance issue for Driveway 2 just north of Ridge Road. We agree with the TIA recommendation that the vegetation (which appears to be on the development property) in conflict with meeting sight distance requirements should be removed. We recommend that the City require the removal of the vegetation as necessary to meet sight distance.
    f. Sidewalks are not currently provided along La Jolla Point Drive. From the site plan, a 5' sidewalk is proposed along the entire frontage of the development that will tie into the sidewalk at Ridge Road.
6. Intersection Capacity Analysis
    a. The TIA mentions Level of Service (LOS) D as the typically minimum acceptable condition, which is a good rule of thumb. The City of Rockwall does not have a defined LOS standard.
    b. The Synchro analysis inputs and outputs appear appropriate.
    c. One minor item we noticed is that the intersection of Ridge Road at La Jolla Pointe Drive appears to be analyzed with a shared left-through lane for northbound approach of Ridge Road. Ridge Road has a center turn lane, which operates as a separate left turn lane currently. This would likely have only a minor impact on the analysis and not change any recommendations.
    d. The TIA mentions that the intersection of Ridge Road at La Jolla Pointe Road does not meet a traffic signal warrant. One possible improvement would be a southbound right turn lane on Ridge Road, although this is not expected to significantly reduce the delay on the side street (La Jolla Pointe Drive).
    e. The interchange of IH-30 at Village Drive / Horizon Road is shown as being overcapacity with existing conditions. At site buildout in 2017, the maximum

development percent impact at the intersection of IH-30 WBFR at Village Drive is expected to be 5.8% during the PM peak hour (4.8% during the AM peak hour).

f. The interchange has regional impacts and operations should be improved once the proposed WB entrance ramp to IH-30 between Ridge Road and Horizon Road is constructed (bond project). This project was not included in the analysis for this TIA.

Based on our review, this TIA appears to accurately analyze the existing and future conditions. The proposed development is expected to have a minor impact at the regional intersections and no off-site improvements away from the project driveways are anticipated.

Please contact me if you have any questions.

Sincerely,

KIMLEY-HORN AND ASSOCIATES, INC.

ORDINANCE NO. 17-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO CHANGE THE ZONING FROM A COMMERCIAL (C) DISTRICT TO PLANNED DEVELOPMENT DISTRICT XX (PD-XX) FOR A MULTI-FAMILY APARTMENT COMPLEX ON THE SUBJECT PROPERTY, BEING A 17.60-ACRE TRACT OF LAND IDENTIFIED AS LOTS 6-11, BLOCK A, LA JOLLA POINTE ADDITION, PHASE 2, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Fred Hazel of Davis Development on behalf of Jim Kirby of Rockway Partners, LLC for the approval of a zoning change from a Commercial (C) District to a Planned Development District for a multi-family apartment complex on a 17.60-acre tract of land identified as Lots 6-11, Block A, La Jolla Pointe Addition, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 2. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

DRAFT 12.05.16

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Concept Building Elevations*, contained in *Exhibit 'D'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'D'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City Council, as amended by this ordinance (*including Subsections 5(b) through 5(e) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) PD Site Plan
(2) Open Space/Amenity Plan
(3) Final Plat

(c) *PD Site Plan.* A *PD Site Plan* covering all of the *Subject Property* shall be submitted and shall include a *Site Plan*, *Building Elevations*, *Treescape Plan*, *Landscape Plan* and a *Photometric Plan*. A *PD Site Plan* application may be processed by the City concurrently with an *Open Space/Amenity Plan* for the development.

(d) *Open Space/Amenity Plan.* An *Open Space/Amenity Plan* covering all of the *Subject Property* shall be submitted and shall include a detailed depiction of all proposed public and private amenities. An *Open Space/Amenity Plan* may be processed by the City concurrently with a *PD Site Plan Application* for the development.

(e) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat* for the *Subject Property* shall be submitted for approval.

Section 6. That the City Council, in accordance with Section 272.001(b) of the Texas Local Government Code, does hereby authorize the abandonment of the right-of-way for Carmel Circle (*as depicted in Exhibits 'A' & 'B' of this ordinance*) to the adjacent landowners and the Mayor is hereby authorized to issue and sign a quitclaim deed to the adjacent landowners who last appear on the current tax rolls of the City;

Section 7. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 8. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have

DRAFT
09.29.16

adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 9. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 10. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3RD DAY OF JANUARY, 2017.

Development Standards

1. *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Multi-Family 14 (MF-14) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

2. *Unit Composition.* The unit composition shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Table 1* below; however, in no case should the average net unit area decrease below 1,032 square feet.

Table 1: Unit Composition

Unit Name	Unit Type	Minimum Net Unit Area (SF) [1]	Number of Units (#)	Total Area (SF)	Units as Percentage (%)
A1	1 Bedroom/1 Bathroom	667 SF	33	22,011 SF	12.13%
A2	1 Bedroom/1 Bathroom	804 SF	4	3,216 SF	1.47%
A3	1 Bedroom/1 Bathroom	816 SF	39	31,824 SF	14.34%
A3-ALT	1 Bedroom/1 Bathroom	833 SF	20	16,660 SF	7.35%
A4	1 Bedroom/1 Bathroom/1 Den	975 SF	21	20,475 SF	7.72%
B1	2 Bedroom/2 Bathroom	1,083 SF	79	85,557 SF	29.04%
B2	2 Bedroom/2 Bathroom	1,175 SF	8	9,400 SF	2.94%
B3	2 Bedroom/2 Bathroom	1,245 SF	33	41,085 SF	12.13%
C1	3 Bedroom/3 Bathroom	1,445 SF	35	50,575 SF	12.87%
		Average Net Unit Area:		*1,032.36 SF*	
		Maximum Permitted Units:	*272*		*100.00%*

General Notes:
[1]: The net square footage includes only air-condition space and is exclusive of patios, balconies and exterior storage areas.

3. *Density and Dimensional Requirements.* Unless specifically provided by this Planned Development ordinance, the development standards stipulated by the Multi-Family 14 (MF-14) District and the IH-30 Overlay (IH-30 OV) District, as specified by Article V, *District Development Standards*, of the Unified Development Code are applicable to all development on the *Subject Property*. The maximum permissible density for the *Subject Property* shall not exceed *16* dwelling units per gross acre of land; however, in no case should the proposed development exceed *275* units. All lots shall conform to the standards depicted in *Table 2*, which is as follows:

Table 2: Lot Dimensional Requirements

Minimum Lot Width	60'
Minimum Lot Depth	100'
Minimum Lot Area	10,000 SF
Minimum Lot Area/Unit	2,000 SF
Minimum Front Yard Building Setback	25'
Minimum Side Yard Building Setback	10'
Minimum Rear Yard Building Setback	10'
Minimum Front Yard Carport/Parking Setback	15'
Minimum Side Yard Carport/Parking Setback	5'
Minimum Rear Yard Carport/Parking Setback	5'
Minimum Separation Between Main Buildings [(1)]	20'
Minimum Separation Between a Main Structure to an Accessory Structure	10'
Maximum Height [(2)]	62'
Maximum Lot Coverage	45%
Minimum Landscape	20%
Minimum Open Space [(3)]	20%

General Notes:
[1]: The minimum separation between two (2) main buildings without doors or windows on facing walls shall be a minimum of 15-feet.
[2]: The height of the building shall be measured from the average elevation of the finished grade along the front of the building to the highest point of the roof or parapet of the building if it is a flat, mansard or shed roof; or to the midpoint of the roof if it is gable, hip or gambrel roof.

DRAFT ORDINANCE 11-29-2016

[3]: The minimum open space area will be calculated based on the gross area of the lot, and will include both active and passive recreational areas.

4. *Parking and Loading Standards.* The parking and loading requirements shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Table 3*, which is as follows:

Table 3: Parking Requirements

Unit Name	*Unit Type*	*Parking Requirement Per Unit* [2]	*Number of Units (#)*	*Parking Requirement* [1]
A1	*1 Bedroom/1 Bathroom*	1.5	33	49.5
A2	*1 Bedroom/1 Bathroom*	1.5	4	6
A3	*1 Bedroom/1 Bathroom*	1.5	39	58.5
A3-ALT	*1 Bedroom/1 Bathroom*	1.5	20	30
A4	*1 Bedroom/1 Bathroom/ 1 Den*	1.5	21	32.5
B1	*2 Bedroom/2 Bathroom*	2	79	158
B2	*2 Bedroom/2 Bathroom*	2	8	16
B3	*2 Bedroom/2 Bathroom*	2	33	66
C1	*3 Bedroom/3 Bathroom*	2.5	35	87.5
			Parking Requirements:	504

General Notes:

[1]: Tandem parking spaces (*i.e. parking spaces in front of garages*) are *NOT* be permitted; however, the proposed garage parking spaces may count toward the parking requirement.

[2]: This table is subject to change based on the proposed development; however, all one (1) bedroom units shall provide a minimum of 1.5 parking spaces/unit, all two (2) bedroom units shall provide a minimum of two (2) parking spaces/unit and all three (3) bedroom units shall provide a minimum of 2.5 parking spaces/unit.

5. *Building Standards.* The building elevations shall generally conform to the *Concept Building Elevations* depicted in *Exhibit 'D'*; however, all development shall adhere to the following building standards:

(a) *Masonry Requirements.* The minimum masonry requirement for the exterior façades of all buildings shall be 90%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the exterior of the building; however, stucco may not be used within the first four (4) feet above grade on a façade visible from a public street or open space. A minimum of 20% natural stone is required on all building façades.

(b) *Roof Design Requirements.* All buildings shall be designed such that no roof mounted mechanical equipment (*i.e. HVAC, satellite, vents, etc.*) shall be visible from any direction. *Note: Screening of mechanical equipment is necessary for all equipment regardless of location (i.e. roof mounted, ground mounted, or otherwise attached to the building and/or located on the site).*

Screening of roof mounted mechanical equipment and/or other rooftop appurtenances shall be accomplished through the construction of an architectural feature, which is integral to the building's design and ensures that such equipment is not visible from adjacent public rights-of-way.

(c) *Architectural Requirements.* All buildings shall be architecturally finished on all four (4) sides with the same materials, detailing and features. In addition, all buildings shall be subject to the architectural requirements of the IH-30 Overlay (IH-30 OV) District contained in Section 6, *Overlay Districts*, of Article V, *District Development Standards*, of the Unified Development Code.

6. *Landscaping and Hardscaping Standards*.

DRAFT NOT FOR APPROVAL 10/6/2016

(a) *Landscape Requirements.* Landscaping shall be reviewed and approved with the *PD Site Plan*. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height. The following tree species are approved for planting within this development:

i) *Canopy/Shade Trees*. Afghan Pine, Bald Cypress, Bur Oak, Cedar Elm, Eastern Red Cedar, Homestead Elm, Lacebark Elm, Little Gem Magnolia, Live Oak, October Glory Maple, Red Oak, Texas Ash, Texas Red Oak.

ii) *Accent/Ornamental/Under-Story Trees*. Desert Willow, Eastern Redbud, Eves Necklace, Mexican Buckeye, Possumhaw Holly, Shangtung Maple, Yaupon Holly.

(b) *Landscape Buffers.* A minimum of a ten (10) foot landscape buffer shall be provided along the frontage of La Jolla Pointe Drive, and shall incorporate a minimum of one (1) canopy tree per 50-feet of linear frontage. The developer shall also be responsible for the construction of sidewalks and trails required along La Jolla Pointe Drive.

(c) *Parking Lot Landscaping.* All parking lot landscaping shall conform to the requirements of Article VII, *Landscape Standards*, of the Unified Development Code with the exception of the following:

i) One (1) canopy tree per ten (10) parking spaces shall be provided. Trees shall be planted within the required parking islands or within 20-feet of a parking space.

ii) Parking island shall be provided at a spacing not exceed a maximum distance of 20 parking spaces.

(d) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect.

(e) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the *PD Site Plan* and/or *Opens Space/Amenity Plan*.

7. *Trash Receptacles.* Trash and recycling receptacles shall be four (4) sided, with eight (8) foot walls constructed and cladded with materials matching the primary structures, and have a self-latching gate. All trash and recycling receptacles shall be internal to the site and not be situated within any established building setbacks or landscape buffers.

8. *Fence Standards*. Fences located along the perimeter of roadways, abutting open spaces, greenbelts and parks shall be required to be wrought iron or a tubular steel fence. Wrought iron/tubular steel fences can be a maximum of eight (8) feet in height.

9. *Variances*. The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/13/2016

APPLICANT: Tim Seymore of *Seymore Custom Homes, LLC*

AGENDA ITEM: **SP2016-026;** Commercial/Industrial Facility – *242 National Drive*

SUMMARY:

Discuss and consider a request by Tim Seymore of Seymore Custom Homes, LLC on behalf of James & Robin Meade for the approval of a site plan for the construction of a commercial/industrial building on an existing 1.5-acre commercial/industrial facility identified as Tract 2-20 of the J. R. Johnson Survey, Abstract No. 128, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, addressed as 242 National Drive, and take any action necessary.

PURPOSE:

The applicant is requesting approval of a site plan for the purpose of constructing a 4,980 sq. ft. building that will serve as an additional facility (*for office and storage purposes*) to an existing ~4,800 sq. ft. building. An amendment to the site plan is required due to the proposed building exceeding 50% of the size of the existing building. The applicant is proposing the new facility to be constructed with 100% metal panels on the exterior. This will require approval of an exception to the exterior material requirements and has been added as a condition of approval. The property is a 1.5-acre parcel of land that is zoned Heavy Commercial (HC) District and is addressed as 242 National Drive.

DENSITY AND DIMENSIONAL REQUIREMENTS:

The proposed office/storage facility is permitted by right on the subject property. The existing site has a total of 3 parking spaces and requires five (5) additional spaces. The applicant is providing a total of eleven (11) spaces for the site. Also, the applicant will be extending the use of a septic system for the entire site (*which includes the new building*); however, Rockwall's County Health Coordinator, Ron Merritt, has indicated there would be no issue with both buildings using the same system as long as the buildings were not sold separately or the property not being subdivided. This has been added as a condition of approval and will be added as a note on the final plat.

Aside from the exterior material exceptions and the conditions listed in the *Recommendations* section of this report, the submitted site plan and building elevations are in substantial compliance with the technical requirements contained within the Unified Development Code (UDC).

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*12,500 sq. ft.*	*1.5-Acres; In Conformance*
Minimum Lot Frontage	*100-Feet*	*x=350-Feet; In Conformance*
Minimum Lot Depth	*125-Feet*	*x=250-Feet; In Conformance*
Minimum Front Yard Setback	*25-Feet*	*x>25-Feet; In Conformance*
Minimum Rear Yard Setback	*20-Feet*	*x>20-Feet; In Conformance*
Minimum Side Yard Setback	*0-Feet*[1]	*X=30-Feet; In Conformance*
Maximum Building Height	*60-Ft w/o SUP*[2]	*16-Feet; In Conformance*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Max Building/Lot Coverage	*60%*	*X<60%; In Conformance*
Minimum Masonry Requirement	*90%*	*100% Metal Wall Panels; Exception Request*
Floor Area Ratio	*4:1*	*x<4:1; In Conformance*
Minimum Number of Parking Spaces	*11*	*10 Provided;*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*	*100% Metal Wall Panels; Exception Request*
Minimum Landscaping Percentage	*15%*	*x>15%; In Conformance*
Maximum Impervious Coverage	*85 to 90%*	*<85%; In Conformance*

NOTES: 1. With fire retardant wall: zero feet plus one-half of the building height over 36 feet.
2. Maximum building height: 240 feet. Any structure over 60 feet shall require a specific use permit.

EXCEPTION AND VARIANCE REQUESTS:

The applicant is requesting exceptions and a variance to the Unified Development Code (*UDC*) for the sections outlined below. As a note, an exception request to the UDC requires passage of a simple majority vote of those City Council members present. The code reads as follows:

> **Exterior walls.** *Each exterior wall shall consist of 90 percent masonry materials as defined in article XIII…on walls which are visible from a public street or open space, including a minimum of 20 percent stone.*
>
> *All buildings shall have exterior walls constructed of stone, brick, glass block, tile, cast metal, cast or cultured stone, or a combination of those materials. The use of other cementaceous products (e.g., stucco, Hardy Plank, or other similar materials) shall be limited to 50 percent of the building's exterior finishes…*
>
> *Exceptions to this requirement may be permitted on a case by case basis by the council upon submission and approval of elevation drawings of the subject structure, and material samples.*

The applicant is requesting the following exceptions to the exterior materials:

a. *Article V, Section 4.1.A.1 General Commercial District Standards* – An exception to allow for not meeting the 90% (*exterior*) masonry material requirements by allowing 100% metal wall panels for all elevations as submitted.

b. *Article V, Section 4.1.A.1 General Commercial District Standards* – An exception to allow for not meeting the 20% stone requirements by allowing 100% metal wall panels for all elevations as submitted.

A request for an exception to the exterior material requirements is a discretionary decision for the City Council.

RECOMMENDATIONS:

The site plan submitted by the applicant meets all the technical criteria stipulated by the Unified Development Code (UDC) with the exception of the items listed above. Should the Planning and Zoning Commission choose to approve the applicant's request and recommend approval of the requested variances to the City Council, then staff would offer the following conditions of approval:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) A statement is to be added at the time of final plat indicating the entire property is not to be subdivided or any building sold separately without discontinuing the use of the septic system and connecting to the City's sanitary sewer system.

3) Any construction or building necessary to complete this site plan request must conform to the requirements set forth by the UDC, the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

REVISED PLANS - DAVID GONZALES - 12.07.2016 Planning Department General Comments to be included as conditions of approval: 1. Adherence to all Engineering and Fire Department standards shall be required. 2. Submittal and approval of a Civil Engineering Plans (if required) prior to issuance of a Certificate of Occupancy (CO). 3. 2. Submittal and approval of a Final Plat prior to issuance of a building permit and release of a Certificate of Occupancy (CO). EXCEPTIONS FOR CITY COUNCIL TO CONSIDER: 1. Art V, Sec. 4.1.A.1 requires each exterior wall to consist of 90% masonry materials,..., including 20% stone on walls which are visible from a public street or open space. North, South, East & West elevations require a minimum 20% stone and do not meet this standard. 2. Art V, Sec. 4.1.A.1 requires each exterior wall to consist of 90% masonry materials,..., on walls which are visible from a public street or open space. North, South, East & West elevations do not provide a minimum 90% masonry material and exceed 10% secondary materials with the use of metal wall panels. ** Approval of exceptions to the exterior materials requested requires passage by a simple majority vote of City Council. ** Please addressthe following Planning Comments for each plan submitted: Site Plan: 1. A revised plan indicating and labeling the detention area per egineering comments...see engineering mark-ups. 2. A revised plan indicating the proper spacing for backing out of parking area...see engineering mark-ups. Building Elevations: 1. Approval of the exceptions to the exterior material standards is required by the City Council as indicated above. The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745. Meeting Dates to Attend: Planning - Action: December 13, 2016 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, etc.) City Council - Action: December 19, 2016 (6:00 p.m.) [FOR EXCEPTION REQUEST ONLY]

Discuss and consider a request by Tim Seymore of Seymore Custom Homes, LLC on behalf of James & Robin Meade for the approval of a site plan for the constructior of a commercial/industrial building on an existing 1.5-acre commercial/industrial facility identified as Tract 2-20 of the J. R. Johnson Survey, Abstract No. 128, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, addressed as 242 National Drive, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 11.21.2016

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans (if required) prior to issuance of a Certificate of Occupancy (CO).
3. Label site plan documents with "Case No. SP2016-026" at the lower right corner of each revised plan.

EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:
1. Art V, Sec. 4.1.A.1 requires each exterior wall to consist of 90% masonry materials,..., including 20% stone on walls which are visible from a public street or open space. North, South, East & West elevations require a minimum 20% stone and do not meet this standard.
2. Art V, Sec. 4.1.A.1 requires each exterior wall to consist of 90% masonry materials,..., on walls which are visible from a public street or open space. North, South, East & West elevations do not provide a minimum 90% masonry material and exceed 10% secondary materials with the use of metal wall panels.

** Approval of exceptions to the exterior materials requested requires passage by a simple majority vote of City Council. **

Please addressthe following Planning Comments for each plan submitted:

Site Plan:
OK as submitted.

Landscape Plan:
1. Are you providing any (additional) landscapeing?

Photometric Plan:
1. Will there be any additional exterior lighting (wall packs, poles, etc.) for the proposed building/site? If so, please provide a photometric plan for the new lighting fixtures meeting city standards.
2. Additional lighting pole standards are not to exceed a maximum overall heightof 30-ft (includes pole, base, fixtures, etc.) per the UDC standards. Provide detail.
3. Provide cut sheets for all exterior lighting fixtures (e.g. pole lights, wall packs, etc.)
4. Any additional lighting sources are to be directed down and sheilded with a full cut-off or partial cut-off source and a maximum 1 inch reveal in order to control glare.
5. Maximum lighting intensity at the property line is not to exceed 0.2-FC. Resubmit photometric plan and indicate readings to all property lines and in compliance with UDC (i.e. 0.2-FC)

Building Elevations:
1. What type of metal wall paneling is being used for the exterior of the proposed structure?
2. Approval of the exceptions to the exterior material standards is required by the City Council as indicated above.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: November 29, 2016 (6:00p.m.) [applicant to present case to P&Z for discussion].

Planning - Action: December 13, 2016 (6:00p.m.) [P&Z totake action (i.e. approve, approve with conditions, etc.)

City Council - Action: December 19, 2016 (6:00 p.m.) [FOR VARIANCE & EXCEPTION REQUEST ONLY]

RE: Septic System

As long as the city agrees that this property can never be Replatted or that the buildings can never be sold separately while utilizing the On Site Sewage Facility,

This office does not have a problem with both buildings using the same system that is already in use on the property

Thanks Ron Merritt

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/13/2016

APPLICANT: William Baker of *Jones Bake*

AGENDA ITEM: **SP2016-027**; *Amended Site Plan for HG Supply Co.*

SUMMARY:

Discuss and consider a request by William Baker of Jones Baker on behalf of Elias Pope of 8020 Restaurants, LLC for the approval of amended site plan for a restaurant on a 0.90-acre parcel of land identified as Lot 3, Block A, Harbor District Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the IH-30 Overlay (IH-30 OV) District, located at the southeast corner of the IH-30 Frontage Road and Sunset Ridge Drive, and take any action necessary.

PURPOSE:

On July 20, 2015, a site plan was approved showing the proposed layout of a 6,800 SF restaurant on a 0.90-acre parcel of land. At that time, the applicant was granted variances to the masonry and stone requirements. The purpose of this application is to amend the building elevations for this site. It should be noted that the changes the applicant is requesting does not increase the variances that were originally approved in July of 2015; therefore, the prior approval is considered to remain in effect. The subject property is located directly north of Trend Tower adjacent to the IH-30 Frontage Road and Sunset Ridge Drive, and is zoned Planned Development District 32 (PD-32) [*Ordinance No. 10-21*].

According to Ordinance No. 10-21, the proposed use (*i.e. a restaurant, 2,000 SF or more, without a Drive-Thru or Drive-In*) is permitted *by-right* in the *Summit Office Subdistrict*, and will not require any additional approvals by the Planning and Zoning Commission. The submitted site plan, building elevations, and landscape plan, conform to the technical requirements contained within the Unified Development Code (UDC) and Planned Development District 32 (PD-32) with the exception of the items listed in the *Recommendations* section of this case memo. A summary of the density and dimensional requirements is as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*6,000 SF*	*0.90-Acres; In Conformance*
Minimum Lot Width	*60-Feet*	*217.09-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*173.70-Feet; In Conformance*
Minimum Build-to-Line (Sunset Ridge Drive)	*10-Feet*	*17-Feet; In Conformance*
Minimum Setback (Sunset Ridge Drive)	*5-Feet*	*17-Feet; In Conformance*
Maximum Permitted Encroachment [1]	*5-Feet*	*2-Feet; In Conformance*
Maximum Height	*8 Stories or 120-Feet*	*38-Feet; In Conformance*
Maximum Mechanical Screen Height	*20-Feet*	*6½-Feet; In Conformance*
Minimum Masonry Requirement	*90%*	*48%-59%; Variance Approved*
Minimum Stone Requirement	*20% Natural or Quarried*	*0%; Variance Approved*
Minimum Parking Spaces Required	*68*	*53/15* [2]*; In Conformance*
Maximum Lot Coverage	*60%*	*17.4%; In Conformance*

Notes:
[1]*: Canopies, awnings, balconies and roof overhangs may encroach over the Build-to-Line.*
[2]*: 53 surface parking spaces are provided and 15 will be located in the Trend Tower garage. This will not put surface parking over the 20% maximum.*

ARCHITECTURAL REVIEW BOARD (ARB):

On November 29, 2016, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. General discussion concerning the agenda item took place between the board members and city staff. The board expressed concern with the changes made from the originally approved 2015 elevations, and more specifically with the north and east elevations as being to monochromatic and requested to see more detail with the overall appearance of these two elevations. To address these concerns the ARB recommended that the applicant extend the lateral wood screen wall elements through the entire north elevation and include additional contrasting elements on both elevations. The ARB requested to review the revised elevations in order to provide a recommendation to the Planning and Zoning Commission during the next scheduled meeting to be held on December 13, 2016.

RECOMMENDATIONS:

If the Planning & Zoning Commission chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Prior to the issuance of a Certificate of Occupancy (CO) the applicant will be required to submit a Photometric Plan that conforms to Article VII, *Environmental Performance*, of the UDC; and,

3) Any construction or building necessary to complete this *Site Plan* request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, City adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Discuss and consider a request by William Baker of Jones Baker on behalf of Elias Pope of 8020 Restaurants, LLC for the approval of amended site plan for a restauran on a 0.90-acre parcel of land identified as Lot 3, Block A, Harbor District Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the IH-30 Overlay (IH-30 OV) District, located at the southeast corner of the IH-30 Frontage Road and Sunset Ridge Drive, and take any action necessary

PLANNING COMMENTS - DAVID GONZALES - 11.21.2016

Any additional comments are to be addressed and resubmitted ASAP. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a final/subsequent review by staff:

Planning Department General Comments to be addressed and will be considered as a conditions of approval:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Label revised site plan documents with "Case No. SP2016-027" at the lower right corner of each plan.
3. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO). Plat mylars are to be submitted prior to issuance of building permit.

VARIANCES AND EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:

** 1. Art V, Sec. 6.6.C.1a of the IH-30 OV requires each exterior wall to consist of 90% masonry materials,..., including 20% natural or stone on walls which are visible from a public street or open space. The elevations do not indicate the use of a natural or quarried stone material and do not meet this requirement.
** 2. Art V, Sec. 6.6.C.1b of the IH-30 OV requires secondary material used on the facade of a building to comprise less than 10% of an elevations area. The elevations exceed 10% for one or more of the following materials - wood screen, metal panels, and tile elements - as follows: West (42.7%), South (48%), and East (19.1%).

** Approval of the variance requested to the 205 BY-OV requires passage by a 3/4 majority vote of those Council members present.

Site Plan:
OK as submitted.

Building Elevations:
1. Variances for the items as indicated above.

Landscape Plan:
OK as submitted.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

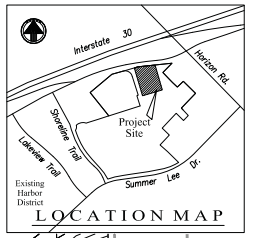
2. IRRIGATION SYSTEM SHALL BE WARRANTED FOR ONE YEAR PARTS AND LABOR FOR NEW ITEMS.

IRRIGATION AFFIDAVIT

ALL REQUIRED LANDSCAPE AREAS SHALL BE PROVIDED WITH AN AUTOMATIC UNDERGROUND IRRIGATION SYSTEM WITH RAIN AND FREEZE SENSORS AND EVAPOTRANSPORATIVE (ET) WEATHER BASED CONTOLLERS AND SAID IRRIGATION SYSTEM SHALL BE DESIGNED BY A QUALIFIED PROFESSIONAL AND INSTALLED LICENSED IRRIGATOR.

CITY OF ROCKWALL MAINTENANCE NOTE;

MAINTENANCE: THE CURRENT OWNER AND SUBSEQUENT OWNERS OF THE LANDSCAPED PROPERTY, OR MANAGER OR AGENT OF THE OWNER, SHALL BE RESPONSIBLE FOR MAINTENANCE OF THE LANDSCAPED AREAS. ALL LANDSCAPING AND BUFFER YARD MATERIALS SHALL BE MAINTAINED IN A HEALTHY, NEAT AND ORDERLY APPEARANCE AT ALL TIMES AND SHALL BE KEPT FREE OF REFUSE AND DEBRIS. MAINTENANCE WILL INCLUDE REPLACEMENT OF ALL DEAD PLANT MATERIAL IF THAT MATERIAL WAS USED TO MEET THE REQUIREMENTS OF THE UDC. ALL SUCH PLANTS SHALL BE REPLACED WITHIN SIX (6) SIX MONTHS OF NOTIFICATION, OR BY THE NEXT PLANTING SEASON, WHICH EVER COMES FIRST. A PROPERTY/HOMEOWNERS ASSOCIATION MAY ASSUME RESPONSIBILITY FOR MAINTENANCE OF COMMON AREAS.



ROOT BARRIERS AT UTILITIES AND PAVING EDGES

1. NO TREE SHALL BE PLANTED WITHIN 5 FEET OF ALL UTILITIES WATER, SEWER, ELEC, CABLE, STORM, ECT.
2. ROOT BARRIERS ARE REQUIRED ON ALL TREES WITHIN UTILITY EASEMENTS AND AT EDGE OF PAVING WITHIN 5 FEET. PROVIDE ON ALL TREES SHOWN, UNLESS NOTED
3. DEEP ROOT BARRIERS, 1-800-458-7668, INSTALL UB-48-2 PER SPECIFICATIONS AT EACH TREE ON SIDE OF PAVING OR UTILITY. INCLUDE 4" WIDE TRENCH OF 3/4" DRAIN GRAVEL ON OUT SIDE OF BARRIER, 24" DEEP. BARRIER TO EXTEND 1" ABOVE GRADE.

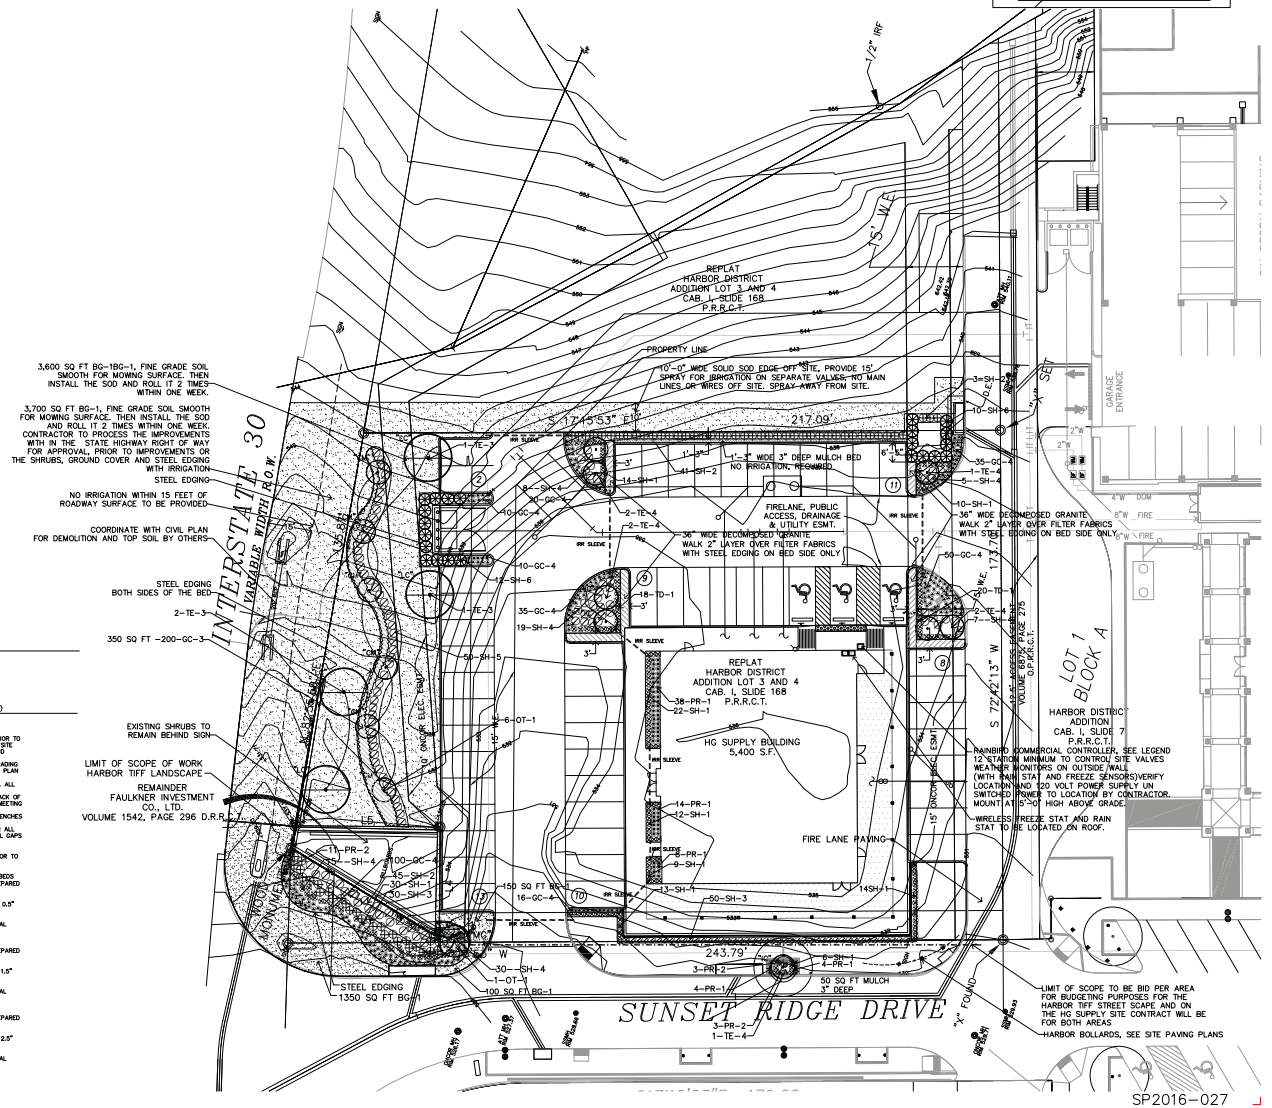
PLANT MINIMUM CRITERIA STATEMENT

1. PLANTS ARE REQUIRED TO MEET MINIMUM SPECIFICATIONS OF THE AMERICAN STANDARD FOR NURSERY STOCK" PUBLISHED BY THE AMERICAN NURSERY & LANDSCAPE ASSOCIATION, MAY 12, 204, AND RECOMMENDED BY THE TEXAS NURSERY & LANDSCAPE ASSOCIATION.

SOIL AMENDMENT NOTES; (LISTED FOR BASE BID)

INCLUDE THE NOTES BELOW AND LANDSCAPE SPECIFICATIONS IN SHEET L2-02



SOIL PREPARATION FOR GRASS AREAS ON SITE.
1. SPRAY ROUND UP TWO TIMES IN HEAT OVER 70 DEGREES OR MANUALLY REMOVE THE EXISTING BERMUDA GRASS, TWO WEEKS PRIOR TO SITE WORK AND IRRIGATION SYSTEM INSTALLATION FOR THE TOTAL SITE AREA. CONTINUE TO REVIEW AND REMOVE ALL BERMUDA GRASS AND WEEDS FROM THE SITE DURING CONSTRUCTION.
2. ROUGH GRADE PLANTING BEDS AFTER FINAL CLEAN UP PER THE APPROVED GRADING AND DRAINAGE PLAN FOR THE ENTIRE SITE. THE SW-2 CONTRACTOR HAS THE PLAN ON FILE, OR CALL FOR A PDF FILE.
3. REMOVE ALL DEBRIS FROM SITE. ROCKS AND TILES OVER 1" DIA. ALL EXTRA CONCRETE, FORM BOARDS.
4. HAND RAKE SOIL SMOOTH AND SHAPE BEDS AND EDGES OF BACK OF CURB PER LANDSCAPE ARCHITECTS DIRECTIONS. CALL TO SET UP MEETING PRIOR TO ACCEPTANCE OF THE FINAL GRADE.
5. AFTER IRRIGATION SYSTEM INSTALLATION. WATER SETTLE ALL TRENCHES AND RAKE SMOOTH FOR FINISHED GRADES FOR THE SITE.
6. INSTALL SOLID SOD GRASS, ALLOWING FOR TIGHT JOINTS BETWEEN ALL SECTIONS OF SOIL. DO NO LEAVE GAPS OR ADD AZALEA MIX IN ALL GAPS OVER 0.5" TO FILL IN AFTER ROLLING IF GAPS REMAIN.
7. WATER AND ROLL THE SOD TWO TIMES.
8. IN BASE BID ALLOW FOR ONE (1) TIME MOWING AND EDGING PRIOR TO FINAL ACCEPTANCE.

SOIL PREPARATION FOR 4" POTS AND 1 GALLON GROUND COVER BEDS.
1. SOIL AMENDMENTS. EXCAVATE BEDS OR ALLOW FOR 4" SOIL PREPARED BY LIVING EARTH TECHNOLOGY OR EQUAL.
2. TILL IN TO DEPTH OF 8" AND MIX WITH NATIVE SOIL.
3. INSTALL BEDDING PLANTS SETTING THE TOP OF BALLS, MINIMUM 0.5" ABOVE SOIL GRADE.
4. MULCH 3" WITH FINE PINE BARK MULCH OR HARDWOOD MULCH.
5. IN BASE BID ALLOW FOR FINE PRUNING AS REQUIRED BY GENERAL CONTRACTOR PRIOR TO FINAL ACCEPTANCE.

SOIL PREPARATION FOR 3 GALLON AND 5 GALLON SHRUB BEDS
1. SOIL AMENDMENTS. EXCAVATE BEDS OR ALLOW FOR 6" SOIL PREPARED BY LIVING EARTH TECHNOLOGY OR EQUAL.
2. TILL IN TO DEPTH OF 12" AND MIX WITH NATIVE SOIL.
3. INSTALL SHRUBS PLANTS SETTING THE TOP OF BALLS, MINIMUM 1.5" ABOVE SOIL GRADE.
4. MULCH 3" WITH FINE PINE BARK MULCH OR HARDWOOD MULCH.
5. IN BASE BID ALLOW FOR FINE PRUNING AS REQUIRED BY GENERAL CONTRACTOR PRIOR TO FINAL ACCEPTANCE.

SOIL PREPARATION FOR 25 GALLON AND 65 GALLON SHRUB BEDS
1. SOIL AMENDMENTS. EXCAVATE BEDS OR ALLOW FOR 8" SOIL PREPARED BY LIVING EARTH TECHNOLOGY OR EQUAL.
2. TILL IN TO DEPTH OF 16" AND MIX WITH NATIVE SOIL.
3. INSTALL SHRUBS PLANTS SETTING THE TOP OF BALLS, MINIMUM 2.5" ABOVE SOIL GRADE.
4. MULCH 3" WITH FINE PINE BARK MULCH OR HARDWOOD MULCH.
5. IN BASE BID ALLOW FOR FINE PRUNING AS REQUIRED BY GENERAL CONTRACTOR PRIOR TO FINAL ACCEPTANCE.

SOIL PREPARATION FOR 100 GALLON AND LARGER TREES
1. SEE TREE PLANTING ON LA-2.

LANDSCAPE SPECIFICATIONS

SECTION 02900

PART 1 GENERAL

1.1 REFERENCED DOCUMENTS
A. REFER TO BIDDING REQUIREMENTS, SPECIAL PROVISIONS, AND SCHEDULES FOR ADDITIONAL REQUIREMENTS.

1.2 DESCRIPTION OF WORK
A. WORK INCLUDED: FURNISH ALL SUPERVISION, LABOR, MATERIALS, SERVICES, EQUIPMENT AND APPLIANCES REQUIRED TO COMPLETE THE WORK COVERED IN CONJUNCTION WITH THE LANDSCAPING COVERED IN THE SPECIFICATIONS AND LANDSCAPE PLANS, INCLUDING:
1. PLANTING (TREES, SHRUBS, GROUND COVERS, PERENNIALS, GRASS)
2. BED PREPARATIONS AND FERTILIZATION
3. NOTIFICATION OF SOURCES OF PLANT MATERIALS AND AMENDMENTS
4. WATER AND MAINTENANCE UNTIL FINAL ACCEPTANCE
5. GUARANTEE PERIOD DESCRIBED ON DRAWINGS

1.3 REFERENCE STANDARDS
A. AMERICAN STANDARD FOR NURSERY STOCK PUBLISHED BY AMERICAN ASSOCIATION OF NURSERYMEN; OCTOBER 27, 1980, EDITION; BY AMERICAN NATIONAL STANDARDS INSTITUTE, INC. (260.1)– PLANT MATERIAL.
B. AMERICAN JOINT COMMITTEE ON HORTICULTURE NOMENCLATURE : ADDITION 1942 EDITION STANDARDIZED PLANT NAMES
C. TEXAS ASSOCIATION OF NURSERYMEN, GRADES AND STANDARDS
D. HORTIS THIRD 1976 – CORNELL UNIVERSITY

1.4 NOTIFICATION OF SOURCES AND SUBMITTALS
A. THE CONTRACTOR SHALL WITHIN TEN (10) DAYS FOLLOWING ACCEPTANCE OF BID, NOTIFY THE LANDSCAPE ARCHITECT/ENGINEER/OWNER OF THE SOURCES OF PLANT MATERIALS AND BED PREPARATION REQUIRED FOR THE PROJECT.
B. SAMPLES: PROVIDE REPRESENTATIVE QUANTITIES OF SANDY LOAM SOIL, MULCH, BED MIX MATERIAL, PEA GRAVEL, DRAIN GRAVEL, DECOMPOSED GRANITE, STEEL EDGING, HARDWOOD MULCH,JUTTE MESH, SOIL SEPARATOR, STONE NOTED ON DRAWINGS. SAMPLES SHALL BE APPROVED BY THE LANDSCAPE ARCHITECT/ENGINEER/OWNER PRIOR TO USE ON THE PROJECT.
C. PRODUCT DATA: SUBMIT COMPLETE PRODUCT DATA AND SPECIFICATION ON ALL OTHER SPECIFIED MATERIALS.
D. SUBMIT THREE REPRESENTATIVE SAMPLES, JPG FILE PHOTOGRAPHS, OF EACH VARIETY OF LARGE TREES, ORNAMENTAL TREES, SHRUBS AND GROUNDCOVER PLANTS FOR LANDSCAPE ARCHITECT/ENGINEER/OWNER APPROVAL WHEN APPROVED, TAG, INSTALL, AND MAINTAIN AS REPRESENTATIVE SAMPLES FOR FINAL INSTALLED PLANT MATERIAL.
E. FILE CERTIFICATES OF INSPECTION AS REQUIRED BY STATE, COUNTY, AND FEDERAL AUTHORITIES WITH LANDSCAPE ARCHITECT/ENGINEER/OWNER , IF REQUIRED.
F. SOIL ANALYSIS: PROVIDE SOIL ANALYSIS AND RECOMMENDATIONS WITH RECOMMENDATIONS ON AMENDING THE SOIL BY A LICENSED SOILS AND PLANT LAB. PROVIDED SOILS ANALYSIS TO LANDSCAPE ARCHITECT/ENGINEER/OWNER.

1.5 JOB CONDITIONS:
A. GENERAL CONTRACTOR TO COMPLETE THE FOLLOWING PUNCH LIST: PRIOR TO THE LANDSCAPE CONTRACTOR INITIATING ANY PORTION OF THE LANDSCAPE INSTALLATION, GENERAL CONTRACTOR SHALL LEAVE PLANTING BED AREAS THREE (3") INCHES BELOW FINISHED GRADE OF SIDEWALKS, DRIVES, AND CURBS AS SHOWN ON THE DRAWINGS. ALL LAWN AREAS TO RECEIVE SOLID SOD SHALL BE LEFT ONE (1") INCH BELOW THE FINISHED GRADE AT SIDEWALKS, DRIVES AND CURBS. ALL CONSTRUCTION DEBRIS SHALL BE REMOVED PRIOR TO LANDSCAPE CONTRACTOR BEGINNING WORK.
B. GENERAL CONTRACTOR SHALL PROVIDE TOPSOIL AS DESCRIBED IN SECTION 02200 – EARTHWORK.
C. STORAGE OF MATERIALS AND EQUIPMENT AT THE JOB SITE WILL BE AT THE RISK OF THE LANDSCAPE CONTRACTOR. THE OWNER CAN NOT BE HELD RESPONSIBLE FOR THEFT OR DAMAGE.

1.6 MAINTENANCE AND GUARANTEE
A. MAINTENANCE.
1. THE LANDSCAPE CONTRACTOR WILL BE HELD RESPONSIBLE FOR THE MAINTENANCE OF ALL WORK FROM THE TIME OF PLANTING UNTIL FINAL ACCEPTANCE BY THE LANDSCAPE ARCHITECT/ENGINEER/OWNER. NO TREES, SHRUBS, GROUND COVERS OR GRASS TO BE ACCEPTED UNLESS THEY SHOW A HEALTHY GROWTH AND SATISFACTORY FOLIAGE CONDITION.
2. MAINTENANCE SHALL INCLUDE WATERING OF TREES AND PLANTS, CULTIVATION, WEEDING, SPRAYING, PRUNING OF TREES AND SHRUBS, MOWING OF GRASS WEEKLY, SITE LANDSCAPE BED MULCHING, DEBRIS AND TRASH CLEANING UP WEEKLY AND ALL OTHER WORK NECESSARY OF MAINTENANCE.
3. WRITTEN NOTICE REQUESTING FINAL INSPECTION AND FINAL ACCEPTANCE SHOULD BE SUBMITTED TO THE OWNER AT LEAST SEVEN (7) DAYS PRIOR TO COMPLETION. AN ON-SITE INSPECTION BY THE OWNER AND LANDSCAPE CONTRACTOR WILL BE COMPLETED PRIOR TO WRITTEN ACCEPTANCE.
4. AFTER FINAL ACCEPTANCE LANDSCAPE INSTALLATION, THE LANDSCAPE CONTRACTOR WILL NOT BE REQUIRED TO DO ANY OF THE ABOVE MAINTENANCE WORK AS PART OF THESE PLANS.

B. GUARANTEE
1. TREES SHALL BE GUARANTEED FOR TWELVE (12) MONTH PERIOD AFTER FINAL ACCEPTANCE. SHRUBS AND GROUND COVERS SHALL BE GUARANTEED FOR A PERIOD OF TWELVE (12) MONTHS AFTER FINAL ACCEPTANCE. THE CONTRACTOR SHALL REPLACE ALL DEAD PLANT MATERIALS AS SOON AS WEATHER PERMITS AND UPON NOTIFICATION OF THE OWNER. PLANTS, INCLUDING TREES, WHICH HAVE PARTIALLY DIED SO THAT SHAPE, SIZE OR SYMMETRY HAS BEEN DAMAGED, SHALL BE CONSIDERED SUBJECT TO REPLACEMENT UNDER THE GUARANTEE PERIOD. IN ANY AND ALL CASES THE FINDINGS OF THE OWNER OR OWNER REPRESENTATIVE SHALL BE FINAL.
A. PLANTS USED AS REPLACEMENT SHALL BE OF SAME KIND AND SIZE AS THOSE ORIGINALLY PLANTED AND SHALL BE PLANTED AS ORIGINALLY SPECIFIED, UNLESS APPROVED BY THE OWNER AND ALLOWED ON THE CITY APPROVED LANDSCAPE PLAN MATERIAL LIST. ALL WORK, INCLUDING DEMOLITION OF DEAD PLANTS, MATERIALS, LABOR AND EQUIPMENT USED IN REPLACEMENTS, SHALL CARRY A TWELVE (12) MONTH GUARANTEE FROM TIME OF ACCEPTANCE OF THE REPLACEMENTS. ANY DAMAGE, INCLUDING RUTS IN LAWN OR OTHER AREAS, INCURRED AS A RESULT OF MAKING REPLACEMENTS SHALL BE IMMEDIATELY REPAIRED.
B. AT THE DIRECTION OF THE OWNER, PLANTS MAY BE REPLACED AT THE START OF THE NEXT YEAR'S PLANTING SEASON. IN SUCH CASES, DEAD PLANTS SHALL BE REMOVED FROM THE PREMISES WITHIN TEN (10) DAYS OF NOTIFICATION BY THE OWNER.
C. WHEN PLANT REPLACEMENTS ARE MADE, PLANTS, SOIL MIX, FERTILIZER AND MULCH ARE TO BE UTILIZED AS ORIGINALLY SPECIFIED AND INSPECTED FOR FULL COMPLIANCE WITH THE CONTRACT REQUIREMENTS. ALL REPLACEMENTS ARE TO BE INCLUDED UNDER "WORK" OF THIS SECTION.
2. THE OWNER AGREES THAT FOR THE GUARANTEE TO BE EFFECTIVE, HE WILL WATER PLANTS AT LEAST TWICE A WEEK DURING DRY PERIODS AND CULTIVATE BEDS MONTH AFTER FINAL ACCEPTANCE.
3. THE ABOVE GUARANTEE SHALL NOT APPLY WHERE PLANTS DIE AFTER FINAL ACCEPTANCE BECAUSE OF INJURY BY STORMS, HEAT STRESS, HAIL, FREEZE, INSECTS, DISEASE, INJURY BY HUMANS, MACHINES OR THEFT.
4 ACCEPTANCE FOR ALL LANDSCAPE WORK SHALL BE GIVEN AFTER FINAL INSPECTION BY THE LANDSCAPE ARCHITECT/ENGINEER/OWNER WITH NO PLANTS DISEASED, INJURED OR IN UNHEALTHY CONDITION, AND THERE IS A STAND OF GRASS IN ALL LAWN AREAS. AT THIS TIME, THE OWNER WILL ASSUME MAINTENANCE ON THE ACCEPTED WORK.

1.7 QUALITY ASSURANCE
A. GENERAL: COMPLY WITH APPLICABLE FEDERAL, STATE, COUNTY, AND LOCAL REGULATIONS GOVERNING LANDSCAPE MATERIALS AND WORK.
B. PERSONNEL: EMPLOY ONLY EXPERIENCED PERSONNEL WHO ARE FAMILIAR WITH THE REQUIRED WORK. PROVIDE FULL-TIME SUPERVISION BY QUALIFIED FOREMAN ACCEPTABLE TO LANDSCAPE ARCHITECT/ENGINEER/OWNER.
C. SELECTION OF PLANT MATERIALS:
1. MAKE CONTACT WITH SUPPLIERS IMMEDIATELY UPON OBTAINING NOTICE OF CONTRACT ACCEPTANCE TO SELECT AND BOOK MATERIALS. DEVELOP A PROGRAM OF MAINTENANCE (PRUNING AND FERTILIZATION) WHICH WILL INSURE THE PURCHASED MATERIALS WILL NOT EXCEED PROJECT SPECIFICATIONS.
2. LANDSCAPE ARCHITECT/ENGINEER WILL PROVIDE A KEY IDENTIFYING EACH TREE LOCATION ON SITE. WRITTEN VERIFICATION WILL BE REQUIRED TO DOCUMENT MATERIAL SELECTION, SOURCE AND DELIVERY SCHEDULE TO SITE.
3. OWNER AND OR LANDSCAPE ARCHITECT/ENGINEER SHALL INSPECT ALL PLANT MATERIALS, WHEN REASONABLE AT PLACE OF GROWTH FOR COMPLIANCE WITH REQUIREMENTS FOR GENUS, SPECIES, CULTIVAR/VARIETY, SIZE, AND QUALITY.
4. OWNER AND OR LANDSCAPE ARCHITECT/ENGINEER RETAINS THE RIGHT TO FURTHER INSPECT ALL PLANT MATERIALS UPON ARRIVAL AT THE SITE AND DURING INSTALLATION FOR SIZE AND CONDITION OF ROOT BALLS, LIMBS, BRANCHING HABIT, INSECTS, INJURIES, AND LATENT DEFECTS.
5. OWNER AND OR LANDSCAPE ARCHITECT/ENGINEER MAY REJECT UNSATISFACTORY OR DEFECTIVE MATERIAL AT ANY TIME DURING THE PROGRESS OF WORK. REMOVE REJECTED MATERIALS FROM THE SITE IMMEDIATELY. PLANTS DAMAGED IN TRANSIT OR AT JOB SITE SHALL BE REJECTED.

1.8 PRODUCT DELIVERY, STORAGE AND HANDLING
A. PREPARATION:
1. BALLED AND BURLAPPED (B&B) PLANTS: DIG AND PREPARE SHIPMENT IN A MANOR THAT WILL NOT DAMAGE ROOTS, BRANCHES, SHAPE AND FUTURE DEVELOPMENT.
2. CONTAINER GROWN PLANTS: DELIVER PLANTS IN RIGID CONTAINER TO HOLD BALL SHAPE PROTECT ROOT MASS.
B. DELIVERY:
1. DELIVER PACKAGED MATERIALS IN SEALED CONTAINERS SHOWING WEIGHT, ANALYSIS AND NAME OF MANUFACTURER. PROTECT MATERIALS FROM DETERIORATION DURING DELIVERY.
2. DELIVER ONLY PLANT MATERIALS THAT CAN BE PLANTED IN ONE DAY UNLESS ADEQUATE STORAGE AND WATERING FACILITIES ARE AVAILABLE ON JOB SITE.
3. PROTECT ROOT BALLS BY HEELING IN WITH SAWDUST OR OTHER APPROVED MOISTURE RETAINING MATERIAL IF NOT PLANTED WITHIN 24 HOURS OF DELIVERY.
4. PROTECT PLANTS DURING DELIVERY TO PREVENT DAMAGE TO ROOT BALLS OR DESICCATION OF LEAVES. KEEP PLANTS MOIST AT ALL TIMES. COVER ALL MATERIALS DURING TRANSPORT.
5. NOTIFY LANDSCAPE ARCHITECT/ENGINEER/OWNER OF DELIVERY SCHEDULE 72 HOURS IN ADVANCE SO PLANT MATERIAL MAY BE OBSERVED UPON ARRIVAL AT JOB SITE.
6. REMOVE REJECTED PLANT MATERIALS IMMEDIATELY FROM SITE.
7. TO AVOID DAMAGE OR STRESS, DO NOT LIFT, MOVE, ADJUST TO PLUMB, OR OTHERWISE MANIPULATE PLANTS BY TRUNK OR STEMS.

PART 2 – PRODUCTS

2.1 PLANTS
A. GENERALL WELL FORMED NO. 1 GRADE OR BETTER NURSERY GROWN STOCK. LISTED PLANT HEIGHTS ARE FROM TOPS OF ROOT BALLS TO NOMINAL TOPS OF PLANTS. PLANT SPREAD REFERS TO NOMINAL OUTER WIDTH OF THE PLANT, NOT TO THE OUTER LEAF TIPS. PLANTS WILL BE INDIVIDUALLY APPROVED BY THE LANDSCAPE ARCHITECT/ENGINEER AND THAT DECISION AS TO THEIR ACCEPTABILITY SHALL BE FINAL.
B. QUANTITIES: THE DRAWINGS AND SPECIFICATIONS AND COMPLIMENTARY; ANYTHING CALLED FOR ON ONE AND NOT THE OTHER IS A BINDING AS IF SHOWN AND CALLED FOR ON BOTH. THE PLANT SCHEDULE IS AN AID TO BIDDERS ONLY. CONFIRM ALL QUANTITIES ON THE PLAN.
C. QUALITY AND SIZE: PLANT MATERIALS SHALL CONFIRM TO THE SIZE GIVEN ON THE PLAN, AND SHALL BE HEALTHY, SYMMETRICAL, WELL SHAPED, FULL BRANCHED, AND WELL ROOTED. THE PLANTS SHALL BE FREE FROM INJURIOUS INSECTS, DISEASES, INJURIES TO THE BARK OR ROOTS, BROKEN BRANCHES, OBJECTIONABLE DISFIGUREMENTS, INSECT EGGS AND LARVAE AND ARE TO BE SPECIMEN QUALITY.
E. TREES SHALL BE HEALTHY, FULL BRANCHED, WELL SHAPED, AND SHALL MEET THE TRUNK DIAMETER AND HEIGHT REQUIREMENTS OF THE PLANT SCHEDULE. BALLED AND BURLAPPED SHALL BE FIRM, NEAT, SLIGHTLY TAPERED, AND WELL WRAPPED IN BURLAP. ANY TREE LOOSE IN THE BALL OR WITH BROKEN BALL AT TIME OF PLANTING WILL BE REJECTED. BALLS SHALL BE TEN (10") INCHES IN DIAMETER FOR EACH ONE (1") INCH OF TRUNK DIAMETER, MEASURED SIX (6") INCHES ABOVE THE TOP OF BALL.
1. NOMENCLATURE CONFORMS TO CUSTOMARY NURSERY USAGE; FOR CLARIFICATION, THE TERM "MULTI – TRUNK" DEFINES A PLANT HAVING THREE (3) OR MORE TRUNKS OF NEARLY EQUAL DIAMETER. TO CALCULATE THE TOTAL CALIPER OF MULTI TRUNK TREES, ADD THE CALIPER OF THE LARGEST TRUNK IN INCHES TO THE REMAINING CALIPER IN INCHES DIVIDED BY 2. THEN ADD THAT TOTAL CALIPER INCHES OF TRUNKS FOR THE TOTAL SPECIFIED CALIPER INCHES PROVIDED ON THE MULTI – TRUNK PLANT.
F. PRUNING: ALL PRUNING OF TREES AND SHRUBS, AS DIRECTED BY LANDSCAPE ARCHITECT/ENGINEER, SHALL BE EXECUTED BY LANDSCAPE CONTRACTOR AT NO ADDITIONAL COST TO THE OWNER.

2.2 SOIL PREPARATION MATERIALS

A. SANDY LOAM:
1. FRIABLE, FERTILE, DARK, LOAMY SOIL, FREE OF CLAY LUMPS, SUBSOIL, GRASS, STONES OVER ONE (1") INCH AND OTHERS EXTRANEOUS MATERIAL AND REASONABLY FREE OF WEEDS AND FOREIGN GRASS, LOAM CONTAINING DALLAS GRASS OR NUT GRASS SHALL BE REJECTED.
2. PHYSICAL PROPERTIES AS FOLLOWS
CLAY – BETWEEN 7–27 PERCENT
SILT – BETWEEN 15–25 PERCENT
SAND – LESS THEN 52 PERCENT
3. ORGANIC MATTER SHALL BE 3%–10% OF TOTAL DRY WEIGHT.
4. IF REQUESTED, PROVIDE A CERTIFIED SOIL ANALYSIS CONDUCTED BY AN APPROVED SOIL TESTING LABORATORY TO CONFIRM THAT THE SANDY LOAM MEETS THE ABOVE REQUIREMENTS.
B. ORGANIC MATERIAL: COMPOST WITH A MIXTURE OF 80% VEGETATIVE MATTER AND 20% ANIMAL WASTE. INGREDIENTS SHOULD BE A MIXTURE OF COARSE AND FINE TEXTURED MATERIAL.
C. PREMIXED BEDDING SOIL AS SUPPLIED BY VITAL EARTH RESOURCES, GLADEWATER, TEXAS: PROFESSIONAL BEDDING SOIL AS SUPPLIED BY LIVING EARTH TECHNOLOGY, DALLAS, TEXAS OR ACID GRO MUNICIPAL MIX AS SUPPLIED BY SOIL BUILDING SYSTEMS, DALLAS, TEXAS OR APPROVED EQUAL.
D. SHARP SAND: SHARP SAND MUST BE FREE OF SEEDS, SOIL PARTICLES AND WEEDS.
E. MULCH: UNLESS OTHERWISE NOTED ON DRAWINGS, ALL LAWN AREAS TO RECEIVE SOLID SOD SHALL BE LEFT ONE (1") INCH BELOW THE FINISHED GRADE AT SIDEWALKS, DRIVES AND CURBS. ALL CONSTRUCTION DEBRIS SHALL BE REMOVED PRIOR TO LANDSCAPE CONTRACTOR BEGINNING WORK.
F. ORGANIC FERTILIZER: SUSTANE, FERTILAID, OR GREEN SENSE OR EQUAL AS RECOMMENDED FOR REQUIRED APPLICATIONS. FERTILIZER SHALL BE DELIVERED TO THE SITE IN ORIGINAL UNOPENED CONTAINERS, EACH BEARING THE MANUFACTURER'S GUARANTEED STATEMENT OF ANALYSIS.
G. COMMERCIAL FERTILIZER: 10–20–10 OR SIMILAR ANALYSIS. NITROGEN SOURCE TO BE A MINIMUM 50% SLOW RELEASE ORGANIC NITROGEN (SCU OR UF) WITH A MINIMUM OF 8% SULFUR AND 4% IRON, PLUS MICRONUTRIENTS.
H. PEAT: COMMERCIAL SPHAGNUM PEAT MOSS OR PARTIALLY DECOMPOSED SHREDDED PINE BARK OR OTHER APPROVED ORGANIC MATERIAL.

2.3 MISCELLANEOUS MATERIALS

A. STEEL EDGING: SHALL BE RYERSON "ESTATE CURBING", DARK GREEN, 1/8" X 4" WITH STAKES FOUR (4') FEET ON CENTER OR APPROVED EQUAL.
B. TREE STAKING MATERIAL FOR SHADE TREES:
1. POST: STUDDED T-POST, STEEL, 1 ARMCO WITH ANCHOR PLATE; SIX (6') FEET IN LENGTH, PAINT FLAT BLACK, PRIOR TO INSTALLING.
2. WIRE: 12 GAUGE SINGLE STRAND, GALVANIZED WIRE.
3. RUBBER HOSE: 2 PLY, FIBER REINFORCED HOSE, MINIMUM HALF (.5") INCH INSIDE DIAMETER. COLOR BLACK.
C. GRAVEL: WASHED NATIVE PEA GRAVEL GRADED ONE (1") INCH TO ONE AND HALF (1.5") INCH
D. FILTER FABRIC: MIRAFI 140N, COMMERCIAL FIBERS MARKETING COMPANY, AVAILABLE AT CMC REBAR CO., (214)–631–5250 OR AS APPROVED.

PART 3 – EXECUTION

3.1 BED FERTILIZER AND FERTILIZATION

A. LANDSCAPE CONTRACTOR TO INSPECT ALL EXISTING CONDITIONS AND REPORT ANY DEFICIENCIES TO THE LANDSCAPE ARCHITECT/ENGINEER/OWNER.
B. ALL PLANTING AREAS SHALL BE CONSTRUCTED AS FOLLOWS:
1. PREPARE NEW PLANTING BED BY SCRAPING AWAY EXISTING GRASS AND WEEDS AS NECESSARY. IN ADDITION AT BACK OF CURBS OR EDGES OF PAVING REMOVE THE EXISTING SOIL TO A DEPTH OF SIX (6") INCHES TO ALLOW FOR THE AMENDMENTS. THEN TILL EXISTING SOIL TO A DEPTH OF SIX (6") INCHES PRIOR TO FERTILIZER AND COMPOST APPLICATION. FINAL CONDITION OF EXISTING SOIL TO BE FINE, FRIABLE, CONSISTENT DEPTH, AND FREE OF ROCKS AND ROOTS AND ALL CLODS WHEN COMPLETELY TILLED. APPLY FERTILIZER AS PER MANUFACTURER RECOMMENDATIONS. ADD SIX (6") INCHES OF COMPOST AND TILL INTO A DEPTH OF SIX (6") INCHES OF EXISTING SOIL. APPLY ORGANIC FERTILIZER AT THE RATE OF SUSTANE OR GREEN SENSE AT THE RATE OF TWENTY (20) POUNDS PER ONE THOUSAND (1,000) SQUARE FEET.
2. ALL PLANTING BED AREAS SHALL RECEIVE A THREE (3") INCH LAYER OF SPECIFIED MULCH.
3. BACKFILL FOR TREE AND SHRUB PITS SHALL CONSIST OF THE FOLLOWING: USE EXISTING TOP SOIL FREE FROM LARGE CLUMPS, ROCK, DEBRIS, CALICHE, SUBSOIL, ETC., PLACED IN NINE (9") INCH LAYERS AND WATERED IN THOROUGHLY.
C. GRASS AREA:
1. AREAS TO BE SOLID SOD GRASS TYPES SPECIFIED; BLOCKS OF SOD SHOULD BE LAID END TO END (WITH STAGGERING JOINTS) AFTER FERTILIZING THE GROUND FIRST. WATER AND ROLL GRASS AREAS TO ACHIEVE A SMOOTH, EVEN SURFACE. ROLLING TO BE COMPLETED WITHIN 24 HOURS OF INSTALLING THE SOD. THE LANDSCAPE ARCHITECT/ENGINEER/OWNER MAY REQUEST ADDITIONAL ROLLING OF THE LANDSCAPE CONTRACTOR OVER GRASS AREAS TO ACHIEVE THE FINAL SMOOTH SURFACE. THE JOINTS BETWEEN THE BLOCKS OF SOD SHOULD BE FILLED WITH TOP SOIL WHERE THEY ARE EVIDENTLY GAPED OPEN, THEN WATERED THOROUGHLY.
2. AREAS TO BE HYDRO MULCHED GRASS SEED: HYDRO MULCH WITH SPECIFIED SEED OR COMMON BERMUDA GRASS SEED AT A RATE OF TWO (2) POUNDS PER ONE THOUSAND (1,000) SQUARE FEET. USE A FOUR (4') FOOT X EIGHT (8') FOOT BATTER BOARD AGAINST BED AREAS TO REDUCE OVER SPRAY.

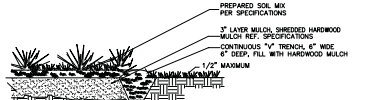
3.2 INSTALLATION

A. MAINTENANCE OF PLANT MATERIALS SHALL BEGIN IMMEDIATELY AFTER EACH PLANT IS DELIVERED TO SITE AND SHALL CONTINUE UNTIL ALL CONSTRUCTION HAS BEEN SATISFACTORILY ACCOMPLISHED.
B. PLANT MATERIALS SHALL BE DELIVERED TO THE SITE ONLY AFTER THE BEDS ARE PREPARED AND ARE READY FOR PLANTING. SHIPMENTS OF NURSERY MATERIALS SHALL BE THOROUGHLY PROTECTED FROM DRYING WINDS DURING TRANSIT. ALL PLANTS, WHICH CANNOT BE PLANTED AT ONCE, AFTER DELIVERY TO SITE, SHALL BE WELL PROTECTED AGAINST POSSIBILITY OF DRYING BY WIND AND SUN. BALLS OF EARTH OF B & B PLANTS SHALL BE KEPT COVERED WITH SAWDUST OR OTHER ACCEPTABLE MATERIAL. ALL PLANTS REMAIN THE PROPERTY OF THE CONTRACTOR UNTIL FINAL ACCEPTANCE.
C. POSITION THE TREES AND SHRUBS IN THEIR INTENDED LOCATION AS PER PLAN.
D. NOTIFY THE LANDSCAPE ARCHITECT/ENGINEER FOR INSPECTION AND APPROVAL OF ALL POSITIONING OF PLANT MATERIAL.
E. EXCAVATE PITS WITH VERTICAL SIDES AND HORIZONTAL BOTTOM. TREE PITS SHALL BE LARGE ENOUGH TO PERMIT HANDLING AND PLANTING WITHOUT INJURY TO BALLS OR EARTH OR ROOTS AND SHALL BE OF SUCH DEPTH THAT, WHEN PLANTED AND SETTLED, THE CROWN OF THE PLANT SHALL BEAR THE SAME RELATION TO THE FINISH GRADE THAT IT DID TO SOIL SURFACE IN PLACE OF GROWTH. NOTE TO ALLOW AS MUCH AS TWO (2") FEET FOR SETTLEMENT IN CLAY SOIL.
F. SHRUB AND TREE PITS SHALL BE NO LESS THAN TWO (2") FEET, TWENTY–FOUR (24") INCHES WIDER THAN THE LATERAL DIMENSION OF THE EARTH BALL AND SIX (6") INCHES DEEPER THAN ITS VERTICAL DIMENSION. REMOVE AND HAUL FROM SITE ALL ROCKS OR STONES OVER ONE (1") INCH IN DIAMETER. PLANTS SHOULD BE THOROUGHLY MOIST BEFORE REMOVING FROM CONTAINERS.
G. DIG A WIDE, ROUGH SIDED HOLE EXACTLY THE SAME DEPTH AS THE HEIGHT OF THE BALL, ESPECIALLY AT THE SURFACE OF THE GROUND. THE SIDES OF THE HOLE SHOULD BE ROUGH AND JAGGED, NEVER SLICK OR GLAZED. DO NOT DRILL OR AUGER HOLES IN CLAY SOILS.
H. PERCOLATION TEST: FILL THE HOLE WITH WATER. IF THE WATER LEVEL DOES NOT PERCOLATE WITHIN TWENTY FOUR (24) HOURS, THE TREE NEEDS TO BE MOVED TO ANOTHER LOCATION OR HAVE TWO FOUR (4") FOOT DEEP PIER HOLE DRAINAGE ADDED.
I. BACKFILL ONLY WITH 5 PARTS EXISTING SOIL OR SANDY LOAM AND ONE (1) PART BED PREPARATION. WHEN SOIL IS DUG IN SOLID ROCK, TOPSOIL FROM THE SAME AREA SHOULD NOT BE USED. CAREFULLY SETTLE BY WATERING TO PREVENT AIR POCKETS. REMOVE THE BURLAP FROM THE TOP THIRD OF THE BALLS AS WELL AS THE NYLON, PLASTIC STRING AND WIRE MESH FROM THE BURLAP. BE AWARE OF SOIL PLACED ON TOP OF THE ROOT BALL DURING DIGGING. THIS SOIL TO BE REMOVED ALONG WITH ANY GRASS, WEEDS, VINES TO EXPOSE THE ROOT FLARE AND NATIVE TOP SOIL.
J. DO NOT WRAP TREES.
K. DO NOT PRUNE TREES, UNLESS DIRECTED BY LANDSCAPE ARCHITECT/ENGINEER.
L. MULCH THE TOP OF THE BALL: DO NOT PLANT GRASS ALL THE WAY TO THE TREE TRUNK OF THE TREE. LEAVE THE AREA ABOVE THE TOP OF THE BALL UNPLANTED AND MULCH WITH AT LEAST THREE (3") INCHES OF SPECIFIED AND APPROVED MULCH.

3.2 INSTALLATION (CONTINUED)

M. ALL PANT BEDS AND TREES TO BE MULCHED WITH A MINIMUM SETTLED THICKNESS OF THREE (3") INCHES OVER THE ENTIRE BED OR PIT.
N. OBSTRUCTION BELOW GROUND: IN THE EVENT ROCK OR UNDERGROUND CONSTRUCTION WORK OR OBSTRUCTIONS ARE ENCOUNTERED IN ANY PLANT PIT EXCAVATION WORK TO BE DONE UNDER THIS SECTION, ALTERNATE LOCATIONS MAY BE SELECTED BY THE LANDSCAPE ARCHITECT/ENGINEER/OWNER. WHERE LOCATIONS CAN NOT BE CHANGED, THE OBSTRUCTION SHALL BE REMOVED TO A DEPTH OF NOT LESS THAN THREE (3') FEET BELOW GRADE AND NO LESS THAN SIX (6") INCHES BELOW BOTTOM OF THE BALL WHEN PLAN IS PROPERLY SET AT THE REQUIRED GRADE. THE WORK OF THIS SECTION SHALL INCLUDE THE REMOVAL FROM THE SITE SUCH ROCK OR UNDERGROUND OBSTRUCTIONS ENCOUNTERED AT THE COST OF THE LANDSCAPE CONTRACTOR.
O. TREES AND LARGE SHRUBS SHALL BE STAKED AS SITE CONDITIONS REQUIRE. POSITION STAKES TO SECURE TREE AGAINST SEASONAL WINDS. LANDSCAPE CONTRACTOR TO INSPECT AND MAINTAIN STAKES IN A SECURED CONDITION DURING CONSTRUCTION UNTIL FINAL ACCEPTANCE.
P. PRUNING AND MULCHING: EACH AREA SHALL BE PRUNED IN ACCORDANCE WITH STANDARD HORTICULTURAL PRACTICE TO PRESERVE THE NATURAL CHARACTER OF THE PLANT AND IN THE MANNER FITTING ITS USE IN THE LANDSCAPE DESIGN.
1. DEAD WOOD OR SUCKERS AND BROKEN OR BADLY BRUISED BRANCHES SHALL BE REMOVED ; GENERAL TIPPING OF ALL BRANCHES IS NOT PERMITTED.
2. PRUNING SHALL BE DONE WITH CLEAN SHARP TOOLS.
3. IMMEDIATELY AFTER PLANTING OPERATIONS ARE COMPLETED, ALL TREE PITS SHALL BE COVERED WITH LAYER OF SPECIFIED MULCH THREE (3") INCHES IN DEPTH. THIS LIMIT OF SPECIFIED MULCH FOR TREES SHALL BE THE DIAMETER OF THE PLANT PIT. ALLOW A SPACE OF THREE (3") INCHES FROM TREE BARK TO THE MULCHED SURFACE.
Q. STEEL CURBING INSTALLATION:
1. CURBING SHALL BE ALIGNED AS INDICATED ON DRAWINGS.
2. ALL STEEL CURBING SHALL BE FREE OF KINKS OR ABRUPT BENDS.
3. TOP OF STEEL CURBING SHALL BE ONE (1") HIGHER THAN EXISTING GRADE.
4. STAKES ARE TO BE INSTALLED ON THE INSIDE SIDE OF THE CURBING, AS OPPOSED TO THE GRASS SIDE.
5. DO NOT INSTALL STEEL EDGING ALONG SIDEWALKS OR BACK OF CURBS.
6. CUT AN EDGE ON THE STEEL CURBING AT 45 DEGREE ANGLE WHERE EDGING MEETS PAVING EDGES. FILE EDGES CUT TO BE ROUNDED, SMOOTH AND NOT SHARP.

3.3 CLEANUP AND FINAL ACCEPTANCE



A. CLEANING: DURING THE WORK, THE PREMISES SHALL BE KEPT NEAT AND ORDERLY AT ALL TIMES. STORAGE AREA FOR ALL MATERIALS SHALL BE ORGANIZED THAT THEY, TOO, ARE NEAT AND ORDERLY. ALL TRASH SHALL BE REMOVED FROM SITE AS WORK PROGRESSES. KEEP PAVED AREAS CLEAN BY SWEEPING OR HOSING AT END OF EACH DAYS WORK.
1. ON LEED APPLICATION FOR PROJECTS TO BE LEED CERTIFIED WITH THE GENERAL CONTRACTOR FOR ACCEPTABLE DISPOSAL OF TRASH, WASTE, SOILS, PLANT MATERIALS, FERTILIZERS SO AS RECYCLE CREDITS MAYBE TRACKED BY VOLUME.

CASE NO. SP2016-027

12/6/2016 10:47:23 AM

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/13/2016

APPLICANT: Rick Bates of *RLK Engineering, Inc.*

AGENDA ITEM: **SP2016-028;** *Dobbs Elementary School Expansion*

SUMMARY:

Discuss and consider a request by Rick Bates of RLK Engineering, Inc. on behalf of James Watson of the Rockwall Independent School District (RISD) for the approval of a site plan for a public school on a 18.407-acre tract of land identified as Rockwall School Addition No. 1, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, addressed as 901 Nash Street, and take any action necessary.

PURPOSE:

The applicant is requesting approval of a Site Plan for the purpose of constructing a (2) story, 93,281 sq. ft. elementary school (*i.e. Dobbs Elementary*). The 18.407-acre tract of land is zoned Single Family (SF-7) District, addressed as 901 Nash Street, and is currently vacant (*i.e. the existing building was demolished*).

BACKGROUND INFORMATION:

The proposed public elementary school is permitted *by-right* within a Single Family 7 (SF-7) District. The site will incorporate an additional 29 parking spaces, expanding the existing parking lot from 140 parking spaces to a total of 169 parking spaces. Two (2) points of ingress/egress -- *one from Nash Street and one from Interurban Street* – provide access the site.

A consider for the Planning and Zoning Commission is the location of the dumpster enclosure, which is located at the front of the building, along the northwest portion of the lot. The Unified Development Code (*UDC*) under Article V, Section 2. states the enclosure "…shall not face a public street unless otherwise approved during site plan approval." Although the enclosure technically does not face a public street due to its angled orientation, the UDC under the same section goes on to say that the "dumpster storage should be located to the rear of the building(s) with proper access." The applicant is requesting to keep the dumpster enclosure at its proposed location due to ease of access for the service provider and staff. The location of the dumpster has been included as a condition of approval.

Finally, the treescape plan provided by the applicant indicates 135 caliper inches of trees will be removed from the site and require mitigation. The applicant will be installing 136 caliper inches on site, which will satisfy the mitigation balance. However, there are three (3) Cedar Elm trees being removed that are considered to be feature trees (*any pecan, oak, or elm 4" or greater*) that require approval by the Planning and Zoning Commission prior to their removal. They are *Tree No.'s 4, 5, & 6* and total 44 caliper inches. The trees are located in the proposed detention area. The removal of the trees has been included as a condition of approval.

The submitted site plan, building elevations, landscape plan, treescape plan, and photometric plan are in substantial compliance and conform to the technical requirements contained within the Unified Development Code (UDC), with the exception of the conditions as listed in the Recommendations section of this report.

RECOMMENDATIONS:

Should the Planning and Zoning Commission choose to approve the applicant's request, then the following conditions of approval should be adopted with this case:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) The location of the dumpster enclosure requires approval by the Planning and Zoning Commission.

3) The removal of *Tree No.'s 4, 5, & 6* identified on the *Treescape Plan* requires approval of the Planning and Zoning Commission.

4) Any construction or building necessary to complete this site plan request must conform to the requirements set forth by the UDC, the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Discuss and consider a request by Rick Bates of RLK Engineering, Inc. on behalf of James Watson of the Rockwall Independent School District (RISD) for the approval of a site plan for a public school on a 18.407-acre tract of land identified as Rockwall School Addition No. 1, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, addressed as 901 Nash Street, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 11.21.2016

Any additional comments are to be addressed and resubmitted ASAP. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a final/subsequent review by staff no later than December 6, 2016:

Planning Department General Comments to be addressed and will be considered as a conditions of approval:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Label revised site plan documents with "Case No. SP2016-028" at the lower right corner of each revised plan.
3. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO). Plat mylars are to be submitted prior to issuance of building permit.

EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:

* 1. Art V, Sec. 4.1.1 of the General Commercial District Standards requires each exterior wall to consist of 90% masonry materials,..., including 20% stone on walls which are visible from a public street or open space. The north (12%) and south (18%) elevations do not meet the minimum 20% requirement.

* Approval of the exception to the material standards requires passage by a simple majority vote of City Council of those present.

Please addressthe following Planning Comments for each plan submitted:

Site Plan:
1. Turn off tree layer so that there are no trees showing on the site plan.
2. The dumpster enclosure is not to face a public street; reorient the enclosure.

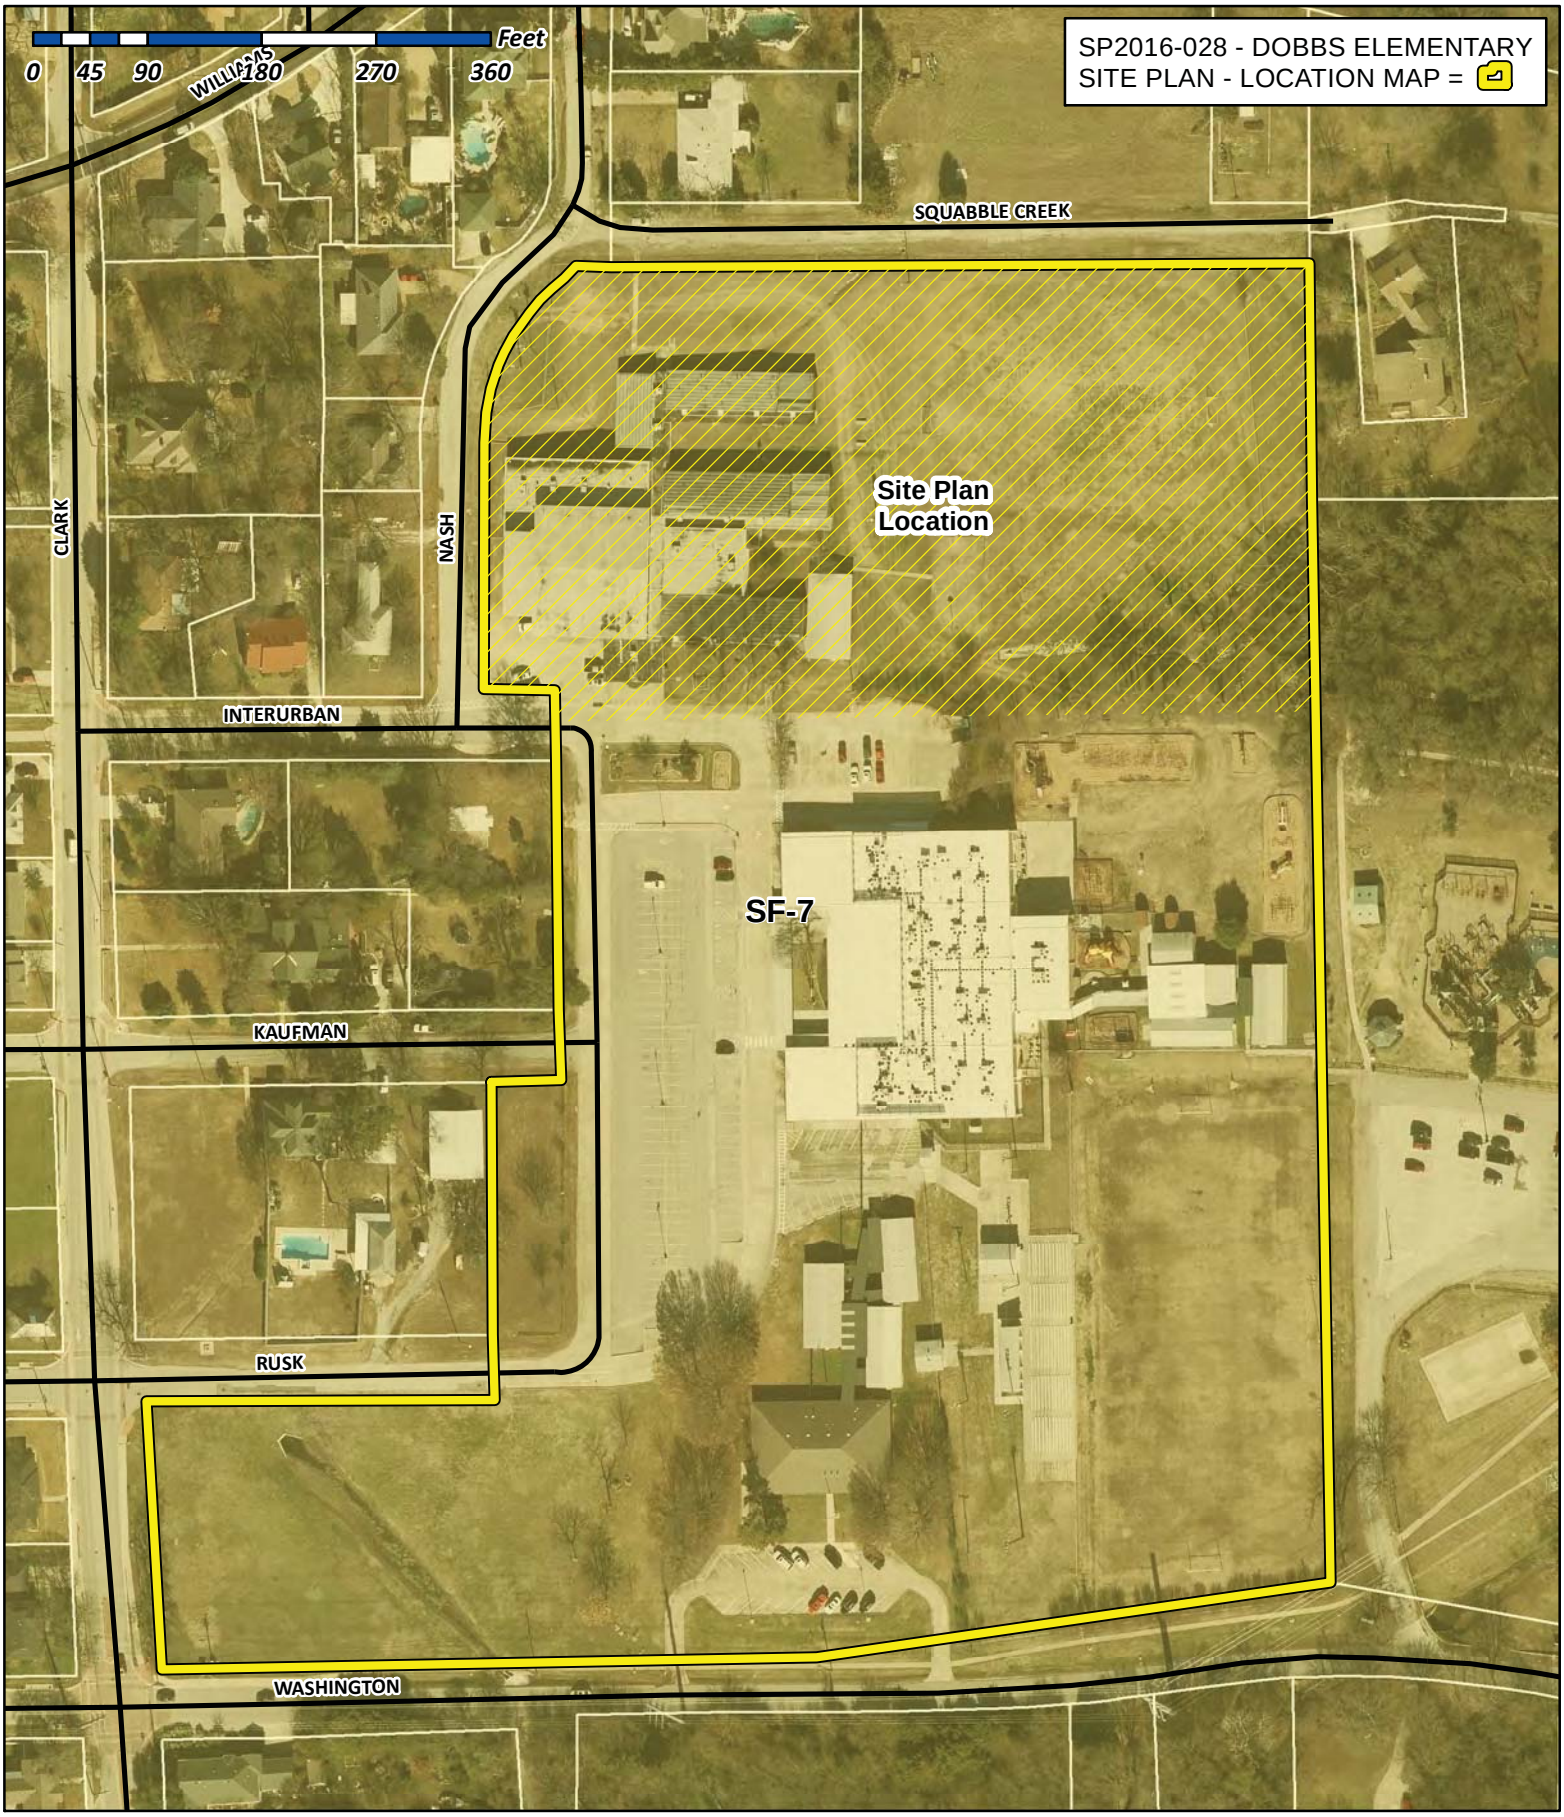
Building Elevations:
1. Approval of an exception to the material standards (as indicated above).
2. Remove the calculation percentage for the glass and re-calc the exterior materials. Glass and doors are not used in the calculation.
3. Dash-in the RTU's; must be screened from adjacent properties and rights-of-way.

Landscape Plan:
Ok as sumbitted.

Photometric Plan:
OK as submitted.

Treescape Plan:
1. Any oak, pecan, and/or elm trees requires approval by the Planning Commission prior to removal. Tree No. 4, 5, & 6 (elms) require approval to be removed.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks



The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: November 29, 2016 (6:00p.m.) [applicant to present case to P&Z for discussion].

Planning - Action: December 13, 2016 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, etc.)

City Council - Action: December 19, 2016 (6:00 p.m.) [FOR EXCEPTION REQUEST ONLY]

RE: Request for Fire Code Modifications for new Dobbs Elementary Project

Dear Mr. Bates:

The Rockwall Fire Marshal Division received your request for two code modifications for the construction of the new Dobbs Elementary Project as outlined in a letter dated October 25, 2016.

The Rockwall Fire Marshal Division has approved your request to utilize Exception 1 under Section 503.1.1 1 (Fire Apparatus Access Roads) of the 2009 International Fire Code with the following conditions:

1. The building is equipped throughout with an approved automatic sprinkler system installed in accordance with NFPA 13, 2013 edition.
2. Approved fire apparatus access roads shall extend to within 250 feet of all portions of the exterior walls of the first story of the building as measured by an approved route around the exterior.

The Rockwall Fire Marshal Division has approved your request to utilize Exception 2 under Section 507.5.1 (Fire Protection Water Supplies) of the 2009 International Fire Code with the following conditions:

1. The building is equipped throughout with an approved automatic sprinkler system installed in accordance with NFPA 13, 2013 edition.
2. No portion of the building shall be more than 600 feet from a hydrant on a fire apparatus access road, as measured by an approved route around the exterior of the building.

Should you have any questions or concerns, please contact our office.

Thank you,

Ariana M Hargrove
Division Chief/Fire Marshal

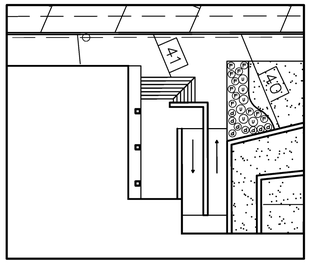
.

1. EXISTING TREES WITHIN CONTRACT LIMITS ARE SHOWN ON THE DRAWINGS. EXISTING TREES DESIGNATED FOR REMOVAL SHALL BE FLAGGED AT THE PROJECT SITE WITH FLAGGING BY THE CONTRACTOR.
2. PROTECT ALL INDIVIDUAL TREES OR GROUPS OF TREES TO BE PRESERVED BY ERECTING A BARRIER AROUND EACH TREE OR GROUP OF TREES. INSTALL AND MAINTAIN BARRIER AT TREE DRIPLINE. BARRIERS SHALL REMAIN IN PLACE UNTIL REMOVAL IS NECESSARY.
3. IN THE EVENT THAT HEAVY CONSTRUCTION IS SCHEDULED TO OCCUR WITHIN THE DRIPLINE OF AN EXISTING TREE, CONTRACTOR SHALL ERECT A PROTECTION FENCE OUTSIDE THE DRIPLINE UNTIL THIS CONSTRUCTION IS SCHEDULED TO OCCUR. THE PROTECTION FENCE MAY THEN BE ADJUSTED AS REQUIRED TO COMPLETE THE PROPOSED CONSTRUCTION. AFTER CONSTRUCTION IN THIS AREA IS COMPLETED, THE PROTECTION FENCE SHALL BE ADJUSTED TO IT'S ORIGINAL LOCATION.
4. CONTRACTORS SHALL NOT PARK, CLEAN TOOLS AND EQUIPMENT OR STORE MATERIALS WITHIN THE DRIPLINE OF ANY TREE.
5. ALL ROOTS OVER 1" IN DIAMETER SHALL BE CUT CLEAN WITH A HAND SAW.

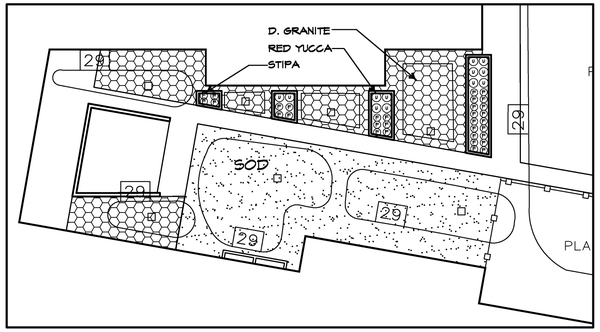
TREE PROTECTION FENCE



SCALE: N.T.S.

LANDSCAPE NOTES

LANDSCAPE CONTRACTOR SHALL GRASS ALL AREAS DISTURBED BY CONSTRUCTION. THE DISTURBED AREAS SHALL BE REPLACED WITH SOD PER THE SPECIFICAITONS UNLESS NOTED OTHERWISE ON THE PLANS.



LANDSCAPE CONTRACTOR SHOULD VISIT SITE AND REFERENCE CIVIL ENGINEER'S GRADING PLAN PRIOR TO BIDDING AND COMMENCEMENT OF CONSTRUCTION TO VERIFY AREAS TO BE DISTURBED BY CONSTRUCTION ACTIVITIES.

REFERENCE CIVIL PLANS FOR FINAL GRADING AND UTILITIES.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/13/2016

APPLICANT: Robert Howman of *Glenn Engineering Corp.*

AGENDA ITEM: **SP2016-029;** *Rockwall ISD – CCA*

SUMMARY:

Discuss and consider a request by Robert A, Howman of Glenn Engineering Corp. on behalf of James Watson of the Rockwall Independent School District (RISD) for the approval of a site plan for a public school on a 24.209-acre portion of a larger 173.0-acre tract of land identified as Tract 7-1 of the W. H. Baird Survey, Abstract No. 25, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Bypass Corridor Overlay (205 BY-OV) District, located directly east of the intersection of John King Boulevard and Trail View Drive, and take any action necessary.

PURPOSE:

The applicant is requesting approval of a site plan for the purpose of constructing a two-story, 150,848 sq. ft. public school facility [*i.e. College and Career Academy* (*CCA*)]. The CCA will be located on a 24.209-acre portion of a larger 173.0-acre tract of land zoned Agricultural (AG) District. A Specific Use Permit (*SUP*) to allow for the public school was approved by the City Council on December 6, 2016. The site is generally situated east of the intersection of John King Boulevard and Trail View Drive.

BACKGROUND INFORMATION:

The proposed Rockwall ISD College and Career Academy will accommodate approximately 1,800 students (*high school and college*) and will have 39 classrooms. Parking for the facility is calculated at one (1) space per five (5) students, requiring a total of 360 parking spaces. The site will incorporate a total of 654 parking spaces that will accommodate all students and faculty, and any additional events that may necessitate additional parking. The site will be accessed by three (3) points of ingress/egress from John King Boulevard, two (2) for students/faculty and one (1) for buses only.

The submitted site plan, building elevations, landscape plan, and photometric plan are in substantial compliance and conform to the technical requirements contained within the Unified Development Code (UDC), with the exception of the variance requests and conditions as listed in the Recommendations section of this report. The density and dimensional requirements are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*One (1) Acre*	*24.209-Acres; In Conformance*
Minimum Lot frontage	*100-Feet*[1]	*x>100-Feet; In Conformance*
Minimum Lot Depth	*200-Feet*	*x>200-Feet; In Conformance*
Minimum Front Yard Setback	*40-Feet*	*x>40-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*[2]	*x>10-Feet; In Conformance*
Minimum Side Yard Setback	*6-Feet*[3]	*x>6-Feet; In Conformance*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Maximum Building Height	*36-Ft*	*40-ft; Approved with SUP*
Max Building/Lot Coverage	*N/A*	*In Conformance*
Minimum Masonry Requirement	*90%*	*>90%; In Conformance*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*	*X<20%; Variance Requested*
Minimum Number of Parking Spaces	*360*	*654 Provided; In Conformance*

VARIANCE REQUESTS:

The applicant is requesting variances to the 205 Bypass Corridor Overlay (*205 BY OV*) District and the Unified Development Code (*UDC*) for the sections as outlined below. As a note, a variance request to the 205 BY OV District requires approval of a ¾ majority vote of all City Council members present.

The variance requests are as follows:

1. Art V, Sec. 6.10.C.1.a of the 205 Bypass Corridor Overlay (*205 BY OV*) District of the UDC requires each exterior wall to consist of 90% masonry materials including a minimum of 20 percent natural or quarried stone on walls visible from a public street or open space. The north elevation consists of 18% stone and does not meet this standard.

2. Art V, Sec. 6.10.C.1.b of the 205 Bypass Corridor Overlay (*205 BY OV*) District of the UDC requires secondary materials to comprise less than 10% of an exterior elevation. The elevations exceed 10% ACM (composite metal panel) on the following facades: West (27%), South (12%), East (12%), and North (11%).

Requests for the variances as outlined above are considered discretionary decisions for the City Council.

ARCHITECTURAL REVIEW BOARD:

On November 29, 2016, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. General discussion concerning the agenda item took place between the board members and city staff. The board expressed concern with the amount of stone and that it does not meet the intent of the 205 Bypass Overlay (205 BY OV) District requirements. The ARB made a motion to approve the elevations if the materials were adjusted and to meet the intent of the 205 BY OV.

RECOMMENDATIONS:

Should the Planning and Zoning Commission choose to approve the applicant's request and recommend approval of the requested variances to the City Council, then staff would offer the following conditions of approval:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) Any construction or building necessary to complete this site plan request must conform to the requirements set forth by the UDC, the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Baird Survey, Abstract No. 25, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 Bypass Corridor Overlay (205 BY-OV) District, located directly east of the intersection of John King Boulevard and Trail View Drive, and take any action necessary.

PLANNING COMMENTS - DAVID GONZALES - 11.21.2016

Any additional comments are to be addressed and resubmitted ASAP. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a final/subsequent review by staff on or before December 6, 2016:

Planning Department General Comments to be addressed and will be considered as a conditions of approval:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Label revised site plan documents with "Case No. SP2016-029" at the lower right corner of each plan.
3. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO). Plat mylars are to be submitted prior to issuance of building permit.

VARIANCES AND EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:

** 1. Art V, Sec. 6.10.C.1a of the 205 BY OV requires each exterior wall to consist of 90% masonry materials,..., including 20% natural or stone on walls which are visible from a public street or open space. The East (9% stone) and North (4% stone) elevations do not meet this requirement.
** 2. Art V, Sec. 6.10.C.1b of the 205 BY OV requires Secondary Material used on the facade of a building to comprise less than 10% of an elevation area. The elevations exceed 10% ACM (composite metal panel) as follows: West (23%), South (14%), East (18%) and North (11%).

** Approval of the variance requested to the 205 BY-OV requires passage by a 3/4 majority vote of City Council.

Please addressthe following Planning Comments for each plan submitted:

Site Plan:
1. Indicate and label firelane: "24-ft Firelane, Utility, and Public Access Easement" or as appropriate.

Building Elevations:
1. Variance's to the 205 BY-OV as stated above for stone and acm panel requires approval of a 3/4 majority vote of City Council (of those Council members present).

Landscape Plan:
1. Delineate and label landscape buffers (as appropriate).

Photometric Plan:
1. The lighting pole standards are not to exceed a maximum overall heightof 20-ft (includes pole, base, or combination thereof) per the PD Ord. 08-02 standards. Provide detail.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this

case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: November 29, 2016 (6:00p.m.) [applicant to present case to P&Z for discussion].

Planning - Action: December 13, 2016 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, etc.)

City Council - Action: December 19, 2016 (6:00 p.m.) [FOR VARIANCE & EXCEPTION REQUEST ONLY]

GLENN ENGINEERING

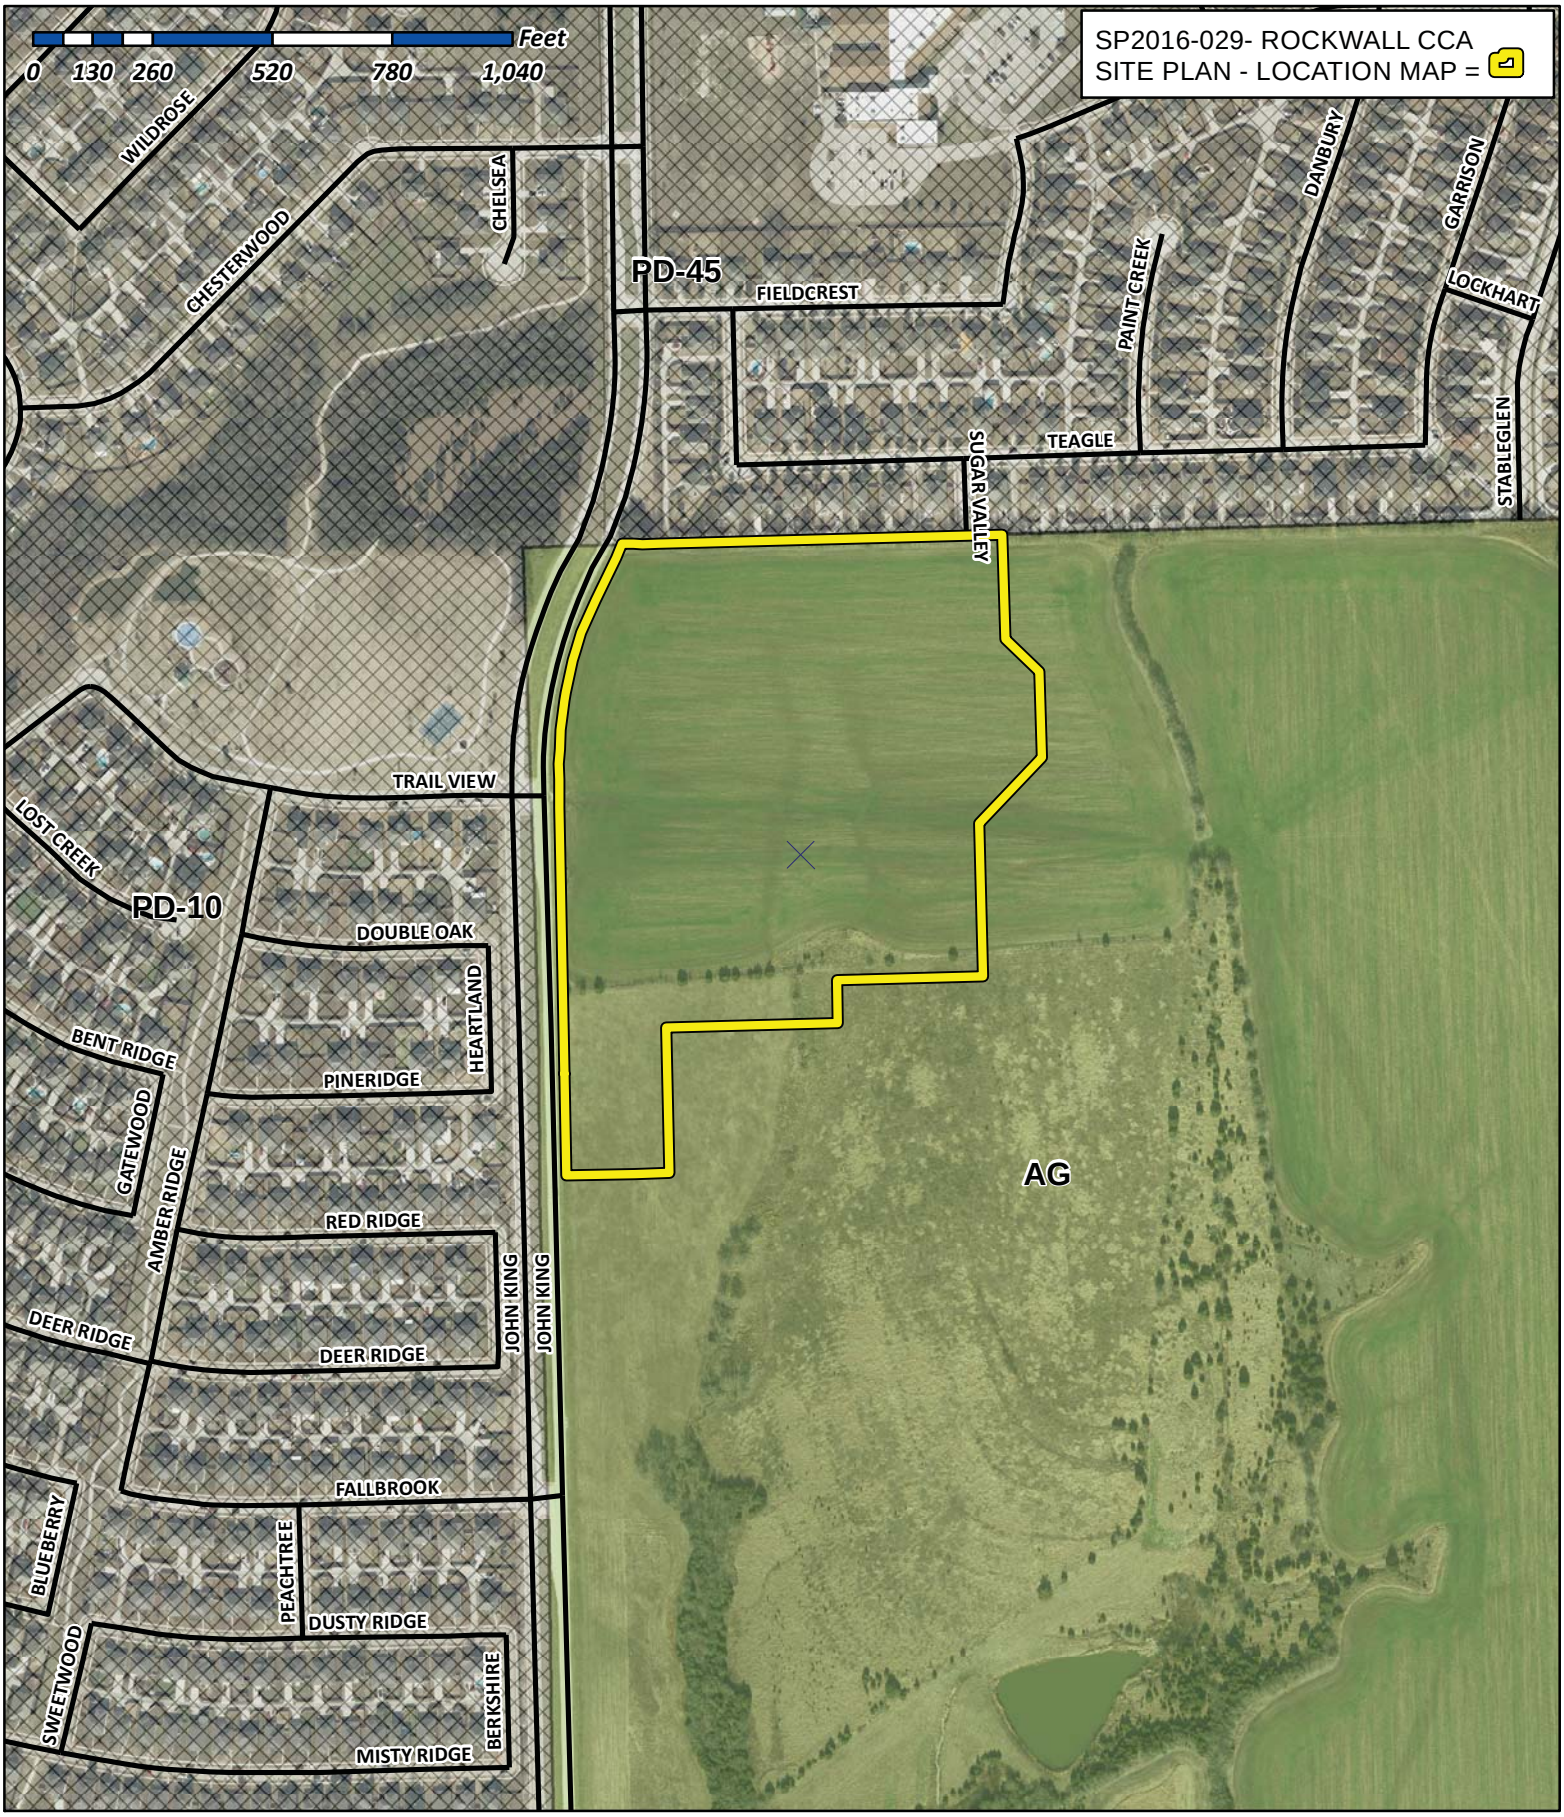
December 6, 2016

ATTN: Ms. Ariana Hargrove
Rockwall Fire Department
305 East Boydstum
Rockwall, TX 75087

Re: New Rockwall CCA High School
SP2016-029

Dear Ms. Hargrove,

This letter is to formally request a variance to extend the fire lane coverage to 215 feet for the above referenced project, which will be fully sprinklered. The location of the requested variance is shown on the attached Site Plan. We also request a variance on the fire hydrant coverage from 300' to 600'. The Site Plan will be coordinated with Rockwall Planning Department.



If you have any comments, questions, or require any additional information, please contact me.

Sincerely,

Robert A. Howman

Robert A. Howman.

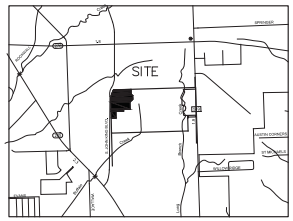
SITE DATA SUMMARY TABLE

EXISTING ZONING	AG
PROPOSED ZONING	AG - SUP (Z2016-035)
USE	PUBLIC ELEMENTARY SCHOOL
LOT AREA	1,055,819 SQ. FT. OR 24.238 ACRES
BUILDING AREA (FLOOR AREA)	
PROPOSED FIRST FLOOR	112,725 SF
PROPOSED SECOND FLOOR	38,123 SF
TOTAL BUILDING AREA	150,848 SF
TOTAL FLOOR AREA (FIRST FLOOR)	112,725 SF
LOT COVERAGE	112,725 SF / 1,055,819 SF = 10.7%
FLOOR AREA RATIO	0.11 : 1
TOTAL IMPERVIOUS COVERAGE	380,096 SF OR 8.725 ACRES
CLASSROOM BUILDING HEIGHT - AREA A	41'-0" (2 STORY) "MEASURED TO PARAPET"

PARKING REQUIREMENTS

HIGH SCHOOL - CLASSROOMS	28 CLASSROOMS	
COLLEGE - CLASSROOMS	11 CLASSROOMS	
HIGH SCHOOL - STUDENTS	1400 STUDENTS	
COLLEGE - STUDENTS	400 STUDENTS	
TOTAL STUDENT POPULATION	1,800 STUDENTS	
TOTAL REQUIRED PARKING (FOR HIGH SCHOOL)	1 PER 5 STUDENTS	1,800 / 5 = 360 SPACES
TOTAL REQUIRED PARKING	360 SPACES	
PARKING PROVIDED		
PARKING HIGH SCHOOL	(9.0' X 20.0')	270 SPACES
	HC SPACES	10 SPACES
PARKING COLLEGE	(9.0' X 20.0')	147 SPACES
	HC SPACES	8 SPACES
TEACHER / VISITOR	(9.0' X 20.0')	210 SPACES
	HC SPACES	9 SPACES
TOTAL PARKING PROVIDED		654 SPACES

GENERAL NOTES:



1. STRIPING & SIGNAGE DIMENSIONS ARE FROM FACE OF CURB
2. ALL FIRE LANES, PARKING STRIPING, HDCP PARKING STRIPING & SIGNAGE ARE TO BE IN ACCORDANCE WITH CITY OF ROCKWALL REQUIREMENTS, TYP.
3. PRIOR TO ANY CONSTRUCTION THE CONTRACTOR SHALL FAMILIARIZE HIMSELF WITH THE CONTRACT DOCUMENTS AND SPECIFICATIONS, THE PLANS INCLUDING ALL NOTES, THE CITY OF ROCKWALL SPECIFICATIONS AND ANY OTHER APPLICABLE STANDARDS OR SPECIFICATIONS RELEVANT TO THE PROPER COMPLETION OF THE WORK SPECIFIED. FAILURE ON THE PART OF THE CONTRACTOR TO FAMILIARIZE HIMSELF WITH ALL STANDARDS OR SPECIFICATIONS PERTAINING TO THIS WORK SHALL IN NO WAY RELIEVE THE CONTRACTOR OF RESPONSIBILITY FOR PERFORMING THE WORK IN ACCORDANCE WITH ALL SUCH APPLICABLE STANDARDS AND SPECIFICATIONS.
4. CONTRACTOR SHALL HAVE IN HIS POSSESSION, PRIOR TO CONSTRUCTION, ALL NECESSARY PERMITS, LICENSES, ETC. CONTRACTOR SHALL HAVE AT LEAST ONE SET OF APPROVED ENGINEERING PLANS AND SPECIFICATIONS ON-SITE AT ALL TIMES.
5. ALL WORK SHALL CONFORM TO THE CITY OF ROCKWALL SPECIFICATIONS, STANDARDS, AND DETAILS.
6. IF UNFORESEEN PROBLEMS OR CONFLICTS ARE ENCOUNTERED IN THE CONSTRUCTION, FOR WHICH AN IMMEDIATE SOLUTION IS NOT APPARENT, THE ENGINEER AND OWNER SHALL BE NOTIFIED IMMEDIATELY.
7. IT WILL BE THE RESPONSIBILITY OF EACH CONTRACTOR TO PROTECT ALL EXISTING PUBLIC AND PRIVATE UTILITIES THROUGHOUT THE CONSTRUCTION OF THIS PROJECT. CONTRACTOR SHALL CONTACT THE APPROPRIATE UTILITY COMPANIES FOR LINE LOCATIONS PRIOR TO COMMENCEMENT OF CONSTRUCTION AND SHALL ASSUME FULL LIABILITY TO THOSE COMPANIES FOR ANY DAMAGES CAUSED TO THEIR FACILITIES.
8. CONTRACTORS SHALL BE RESPONSIBLE FOR FIELD LOCATING EXISTING UTILITIES AND IMPROVEMENTS PRIOR TO CONSTRUCTION.
9. TRENCH SAFETY DESIGN WILL BE THE RESPONSIBILITY OF THE UTILITY CONTRACTOR. CONTRACTOR SHALL SUBMIT DESIGN TO THE CITY OF ROCKWALL ENGINEERING DEPARTMENT FOR REVIEW.
10. MARK FIRE LANES TO THE CITY OF ROCKWALL SPECIFICATION, "NO PARKING FIRE LANE" EVERY 25' WHITE 4" LETTERS ON A 6" RED STRIPED BACKGROUND.
11. NO TREES ARE TO BE PLANTED WITHIN 5' OF ANY UTILITIES.
12. THE HICKORY RIDGE LIFT STATION WILL BE UPGRADED TO ACCOMMODATE THE SCHOOL SITE.
13. ADHERENCE TO ENGINEERING AND FIRE DEPARTMENT STANDARDS SHALL BE REQUIRED

NOTE

UTILITIES HAVE BEEN PLOTTED FROM AVAILABLE MAPS AND RECORDS AND THEREFORE, THEIR LOCATIONS ARE APPROXIMATE ONLY. ELEVATIONS SHOWN ARE BASED ON FIELD MEASUREMENTS. THERE MAY BE OTHER UTILITIES, THE EXISTENCE OF WHICH ARE NOT KNOWN TO THE UNDERSIGNED. SIZE AND LOCATION OF ALL UNDERGROUND UTILITIES MUST BE VERIFIED PRIOR TO ANY CONSTRUCTION.

0 100 200

Scale 1" = 100'

VICINITY MAP
N.T.S.

GENERAL NOTES:

CONTRACTOR TO VERIFY LOCATION OF ALL EXISTING UTILITIES.

BARRIER FREE RAMPS (BFR) IN PUBIC R.O.W. SHALL BE PER CITY STANDARDS AND DETAILS.

REFER TO DEVELOPMENT PLANS FOR GRADING DETAILS.

OUTDOOR LIGHTING NOTE:

ALL OUTDOOR LIGHTING MUST BE ORIENTED SO THAT LIGHTING LEVELS AT ALL PROPERTY LINES ARE 1 FOT-CANDLE OR LESS.

PHOTOMETRIC CALCULATIONS GENERAL NOTES

(SOME NOTES MAY NOT BE USED)

1. THESE PLANS ARE ACCURATE AND DESIGNED IN COMPLIANCE WITH AND MEET THE REQUIREMENTS OF THE CITY OF ROCKWALL OUTDOOR LIGHTING ORDINANCE IN EFFECT AT THE TIME OF THE SUBMISSION OF PLANS.
2. ALL CALCULATIONS SHOWN ARE AT THE GROUND LEVEL AND ARE MEASURED HORIZONTALLY IN FOOTCANDLES (FC).
3. LIGHTING CALCULATIONS HAVE BEEN PRODUCED USING AGI32 LIGHTING SOFTWARE BY LIGHTING ANALYSTS, INC.
4. ALL MOUNTING HEIGHTS (MH) INDICATED ARE IN FEET.

LUMINAIRE SCHEDULE FOR ROCKWALL ISD - COLLEGE & CAREER ACADEMY

EMA PROJECT # 1-067-0079-001

Unless otherwise indicated, all fluorescent ballasts are to be PS with a minimum B.F. of .87. All HID ballasts are to be EL with a minimum B.F. of 1. Ballasts & Drivers that exceed max V.A. or operate below minimum B.F. will not be accepted. See specs for IECC and NFPA controls requirements.

FOR ALL LUMINAIRES ENDING IN "E", PROVIDE A BODINE GENERATOR TRANSFER DEVICE. FOR LINEAR LUMINAIRES EVERY THIRD 4' SECTION SHALL BE EMERGENCY.

TYPE	DESCRIPTION	PART NUMBERS	LAMPS	QTY	BALLASTS / DRIVERS	VOLTS	WATTAGE

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/13/2016

APPLICANT: Jason Lentz; *Atticus Rockwall, LLC*

AGENDA ITEM: **SP2016-030;** *Harbor Urban Center Condominiums*

SUMMARY:

Discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a site plan for a 228 unit, condo development situated on a 2.87-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Interior Subdistrict, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [FM-3097] and Summer Lee Drive, and take any action necessary.

PURPOSE & BACKGROUND:

On November 18, 2016, the applicant submitted an application for a site plan showing the proposed layout of a 228-unit condominium development on the 2.87-acre tract of land being a portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A, & 5A, Isaac Brown Addition. The subject property is situated within the Interior Subdistrict, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [FM-3097] and Summer Lee Drive, and is zoned Planned Development District 32 (PD-32) [*Ordinance No. 10-21*]. It should be noted that a PD Development Plan [*Ordinance No. 16-54*] for the proposed development was approved in October of this year.

SITE PLAN:

According to *Ordinance No. 10-21*, the proposed use (*i.e. urban residential – condominiums only*) is permitted *by-right* in the *Interior Subdistrict*, and will not require any additional approvals by the Planning and Zoning Commission or City Council. The submitted site plan, building elevations, landscape plan, hardscape plan, treescape plan, and photometric plan conform to the technical requirements contained within the Unified Development Code (UDC) and Planned Development District 32 (PD-32), with the exception of the items listed in the Recommendation section of this case memo. The following is a summary of the density and dimensional requirements for the subject property.

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*N/A*	*2.87-acres; In Conformance with Ord. 16-54*
Minimum Lot Width	*N/A*	*In Conformance with Ord. 16-54*
Minimum Lot Depth	*N/A*	*In Conformance with Ord. 16-54*
Minimum Build-to-Line (Street Type G1)	*5-Feet*	*In Conformance with Ord. 16-54*
Minimum Setback (Summer Lee)	*20-Feet*	*15-Feet; In Conformance with Ord. 16-54*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Maximum Permitted Encroachment [1]	*5-Feet*	*In Conformance with Ord. 16-54*
Maximum Height	*5 Stories or 75-Feet*	*47'4"-Feet; In Conformance*
Maximum Lot Coverage	*60%*	*In Conformance with Ord. 16-54*
Minimum Masonry Requirement	*90%*	*In Conformance with Ord. 16-54*
Minimum Stone Requirement	*20% Natural or Quarried*	*In Conformance with Ord. 16-54*
Minimum Parking Spaces Required	*342*	*342; In Conformance*

Notes:
[1]*: Canopies, awnings, balconies and roof overhangs may encroach over the Build-to-Line.*

TREESCAPE PLAN:

The applicant has provided a treescape plan indicating a total of 3,561 caliper inches of trees will be removed from the subject property and will require mitigation. Cedar and Hackberry trees that are 11 inches dbh or larger, shall be replaced at 50 percent of the total caliper inches being removed; however, Cedar and Hackberry trees that are less than 11 inches dbh shall not be considered a protected tree. Also being removed from the site are 126 feature (*any oak, pecan, or elm*) trees that are considered to be protected. Feature trees may not be removed without the approval of the Planning and Zoning Commission. Feature trees are mitigated on an inch-for-inch basis. It should be noted that credit is being applied to the mitigation balance for a 36-inch pecan that is being saved. Taking into account the protected and feature trees being removed, the amount of landscaping to be installed, and the credit applied being for the saved tree, the total mitigation due for the site is 2,529 caliper inches. The total mitigation balance due has been added as a condition of approval.

ARCHITECTURAL REVIEW BOARD (ARB):

On November 29, 2016, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. General discussion concerning the agenda item took place between the board members and city staff. The board expressed concern with the changes as presented compared to with the elevations attached to the PD Ordinance that was approved in October of this year. More specifically they were concerned with the roof detail, amount of stone, and other architectural elements that were changed and/or missing. However, the ARB did agree with the Tuscan styled condominiums and requested to see revisions to these that are more in line with the ordinance requirements. The applicant agreed to provide a side-by-side comparison of the approved versus the modified Tuscan elevations. The ARB will review the revised elevations and is to provide a recommendation to the Planning and Zoning Commission during the next scheduled meeting to be held on December 13, 2016.

RECOMMENDATIONS:

Should the Planning and Zoning Commission choose to approve the applicant's request, then the following conditions of approval should be adopted with this case:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) The total tree mitigation balance of 2,529 caliper inches is required to be satisfied in accordance with Section 7 and/or Section 11 of Article IX, Tree Preservation, of the Unified Development Code prior to the release of building permits.

3) The development shall conform to the recommendations made by the Parks Board at the December 14, 2016 Parks Board meeting.

4) Any construction or building necessary to complete this site plan request must conform to the requirements set forth by the UDC, the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

REVISED PLANS - DAVID GONZALES - 12.07.2016

The following staff comments are to be addressed and resubmitted prior to submittal of engineering plans. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a final review by staff:

Planning Department General Comments will be considered as conditions of approval:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department (if any).
4. Adherence to Parks Board recommendations for Park District No. 17:
   a. Cash in lieu of land fees of $147.00 per lot to be paid at the time of final plat approval.
   b. Pro-rata equipment feesof $189.00 per lot to be paid at the time of final plat approval.
5. Tree mitigation balance to be satisfied. Total mitigation balance due = 2529 inches.

Please address the following Planning Comments for each plan submitted:

Building Elevations:
1. The buildings' elevations are subject to Ord. 16-54, Exhibit 'C' and the Residential Subdistrict architectural guidelines of Ord. 10-21, Exhibit E-9. The elevations will require a recommendation from the Architectural Review Board and approval from the Planning and Zoning Commission.

Hardscape Plan:
1. Verify street section (appears to be 60-ft ROW) - to match site plan or vice versa.
2. Not necessary to repeat labeling - reduce font, create legend, etc.

Landscape Plan:
1. Verify street section (appears to be 60-ft ROW) - to match site plan or vice versa.

Treescape Plan:
1. Correction to totals from the mitigation chart reduced the amount of the total mitigation balance due to 2529 inches.
2. Mitigation balance to be satified as a condition of approval of the site plan.
3. Provide a letter of agreement from the owner(s)of the adjacent property(s) allowing for the off-site tree removal located on their property.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the PD Site Plan request. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745 or e-mail dgonzales@rockwall.com

Meeting Dates to Attend:

Parks Board Meeting - Discussion - ** DATE CHANGED TO DECEMBER 14, 2016 (6:00 p.m.) ** Open Space Master Plan - Review

Architecural Review Board - Recommendation to P&Z: December 13, 2016 (5:00 p.m.)

Planning & Zoning - Action: December 13, 2016 (6:00 p.m.) [P&Z to take action on request: approve, approve with conditions, or deny]

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
PLANNING	David Gonzales	11/21/2016	11/28/2016	11/22/2016	1	COMMENTS	See comments

Discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a site plan for a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Interior Subdistrict, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [FM-3097] and Summer Lee Drive, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, December 6, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. Label site plan documents with "Case No. SP2016-030" at the lower right corner of each plan.
4. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department (if any).
5. Is there a Streetscape Plan? PD-32 (Ord. 10-21) Exhibit C-4 has streetscape elements that must be adhered to:
a) Street Furnishings (i.e. benches, trash receptacles, bike racks, etc.).
b) Lighting (i.e. tree uplighting)
c) Landscape (i.e. tree leave-outs, decorative pots, etc.)
** You may also refer to the resolution establishing Design Guidelines for the district. See Ord. 10-40.
6. Refer to PD-32 (Ord. 10-21) Exhibit F-2 for retaining wall requirements for all retaining walls associated with the development (if any). If so, provide detail.

Please address the following Planning Comments for each plan submitted:

Site Plan:
1.Label street as "24-ft Firelane & Public Access & Utility Easement."
2. Provide a street name for street type G1.
3. Use a darker gray scale in order to delineate the courtyard area.
4. Provide label for 2-ft parkway.
5. Stub out west bound street to property line (south side of condo's).
6. Provide a legend with site details and abbreviations.

Building Elevations:
1. The buildings' elevations are subject to Ord. 16-54 as depicted in Exhibit 'C' and the Residential Subdistrict architectural guidelines of Ord. 10-21, Exhibit E-9.
2. Based on the elevations submitted, will you be requesting to amend the PD Ord. 16-54 to allow for the submitted elelvations?
3. The building elevations are required to be reviewed by the Architectural Review Board per Ord. 16-54 and PD-32 (Ord. 10-21).
4. Provide a color rendering/perspective and a materials sample board for ARB review.

Photometric Plan:
1. Meet the intent of PD-32, the Unified Development Code (UDC), and is OK as submitted.

**The following plans are required to be submitted in order to continue the site plan process:
a) Landscape Plan:

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

b) Treescape Plan:
c) Open Space Master Plan (ASAP - requires Parks Board review and approval - refer to schedule below)
d) Streetscape Plan

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the PD Site Plan request. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICPwith the Planning Department at 972-771-7745 or e-mail dgonzales@rockwall.com

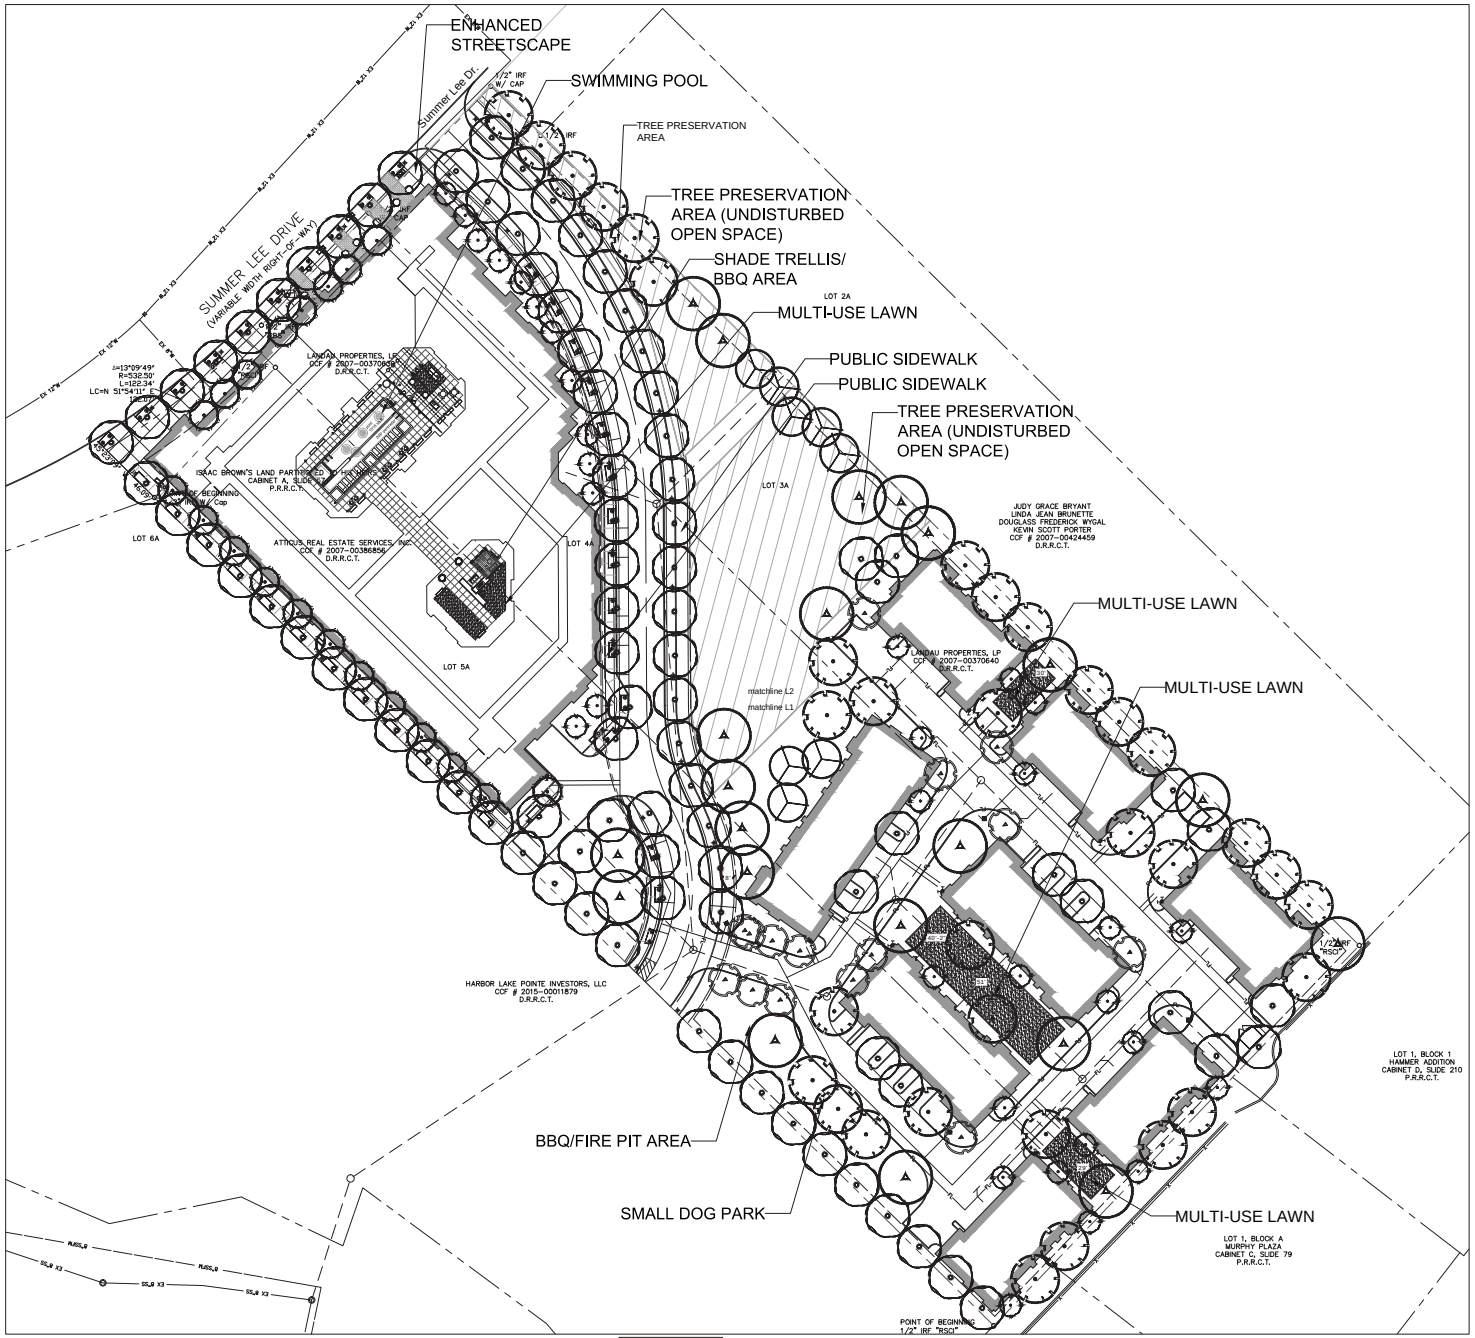
Meeting Dates to Attend:

Parks Board Meeting - Discussion - December 6, 2016 (6:00 p.m.) Open Space Master Plan - Review

Architecural Review Board - Discussion/Recommendation to P&Z: November 29, 2016 (5:00 p.m.)

Planning& Zoning - Work Session: November 29, 2016 (6:00 p.m.) [Applicant to provide presentation/discussion with the Planning Commission]

Planning & Zoning - Action: December 13, 2016 (6:00 p.m.) [P&Z to take action on request: approve, approve with conditions, or deny]



City Council - Action: December 19, 2016 (6:00 p.m.) [FOR VARIANCE REQUESTS ONLY]

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 12/13/2016

APPLICANT: Jason Lentz; *Atticus Rockwall, LLC*

AGENDA ITEM: **SP2016-031;** *Harbor Urban Townhomes*

SUMMARY:

Discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a site plan for 36 townhomes on a 4.03-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District No. 32 (PD-32), situated within the Residential Subdistrict and within the Scenic Overlay (SOV) District, located north of the intersection of Ridge Road [FM-740] and Glen Hill Way, and take any action necessary.

PURPOSE & BACKGROUND:

On November 18, 2016, the applicant submitted an application for a site plan showing the proposed layout of a 36 townhome development on the 4.03-acre tract of land being a portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A, & 5A, Isaac Brown Addition. The subject property is situated within the Interior Subdistrict, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [FM-3097] and Summer Lee Drive, and is zoned Planned Development District No. 32 (PD-32) [*Ordinance No. 10-21*]. It should be noted that a PD Development Plan [*Ordinance No. 16-48*] for the proposed development was approved in October of this year.

SITE PLAN:

According to *Ordinance No. 10-21*, the proposed use (*i.e. townhomes*) is permitted *by-right* in the *Interior Subdistrict*, and will not require any additional approvals by the Planning and Zoning Commission or City Council. The submitted site plan, building elevations, landscape plan, treescape plan, and photometric plan conform to the technical requirements contained within the Unified Development Code (UDC) and Planned Development District 32 (PD-32), with the exception of the items listed in the Recommendation section of this case memo. The following is a summary of the density and dimensional requirements for the subject property.

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*N/A*	*2.87-acres; In Conformance with Ord. 16-54*
Minimum Lot Width	*N/A*	*In Conformance with Ord. 16-54*
Minimum Lot Depth	*N/A*	*In Conformance with Ord. 16-54*
Minimum Build-to-Line (Street Type G1)	*5-Feet*	*In Conformance with Ord. 16-54*
Minimum Setback (Summer Lee)	*20-Feet*	*15-Feet; In Conformance with Ord. 16-54*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Maximum Permitted Encroachment [1]	*5-Feet*	*In Conformance with Ord. 16-54*
Maximum Height	*5 Stories or 75-Feet*	*47'4"-Feet; In Conformance*
Maximum Lot Coverage	*60%*	*In Conformance with Ord. 16-54*
Minimum Masonry Requirement	*90%*	*In Conformance with Ord. 16-54*
Minimum Stone Requirement	*20% Natural or Quarried*	*In Conformance with Ord. 16-54*
Minimum Parking Spaces Required	*342*	*342; In Conformance*

ARCHITECTURAL REVIEW BOARD (ARB):

On November 29, 2016, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. General discussion concerning the agenda item took place between the board members and city staff. The board expressed concern with the changes as presented compared to with the elevations attached to the PD Ordinance that was approved in October of this year. More specifically they were concerned with the roof detail and the amount of stone that was reduced on the elevations presented. The applicant agreed to provide a side by side comparison of the approved versus the modified elevations. The ARB will review the revised elevations and is to provide a recommendation to the Planning and Zoning Commission during the next scheduled meeting to be held on December 13, 2016.

RECOMMENDATIONS:

Should the Planning and Zoning Commission choose to approve the applicant's request, then the following conditions of approval should be adopted with this case:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) The total tree mitigation balance of 2,529 caliper inches is required to be satisfied in accordance with Section 7 and/or Section 11 of Article IX, Tree Preservation, of the Unified Development Code prior to the release of building permits.

3) The development shall conform to the recommendations made by the Parks Board at the December 14, 2016 Parks Board meeting.

4) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

REVISED PLANS - DAVID GONZALES - 12.07.2016

The following staff comments are to be addressed and resubmitted prior to submittal of engineering plans. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a final review by staff:

Planning Department General Comments will be considered as conditions of approval:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department (if any).
4. Adherence to Parks Board recommendations for Park District No. 17:
   a. Cash in lieu of land fees of $147.00 per lot to be paid at the time of final plat approval.
   b. Pro-rata equipment feesof $189.00 per lot to be paid at the time of final plat approval.
5. Tree mitigation balance to be satisfied. Total mitigation balance due = 2529 inches. (for both projects)

Please address the following Planning Comments for each plan submitted:

Building Elevations:
1. The buildings' elevations are subject to Ord. 16-54, Exhibit 'C' and the Residential Subdistrict architectural guidelines of Ord. 10-21, Exhibit E-9. The elevations will require a recommendation from the Architectural Review Board and approval from the Planning and Zoning Commission.

Hardscape Plan: Submitted with Condo Project
1. Verify street section (appears to be 60-ft ROW) - to match site plan or vice versa.
2. Not necessary to repeat labeling - reduce font, create legend, etc.

Landscape Plan:
1. Verify street section (appears to be 60-ft ROW) - to match site plan or vice versa.

Treescape Plan:
1. Correction to totals from the mitigation chart reduced the amount of the total mitigation balance due to 2529 inches.
2. Mitigation balance to be satified as a condition of approval of the site plan.
3. Provide a letter of agreement from the owner(s)of the adjacent property(s) allowing for the off-site tree removal located on their property.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the PD Site Plan request. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745 or e-mail dgonzales@rockwall.com

Meeting Dates to Attend:

Parks Board Meeting - Discussion - ** DATE CHANGED TO DECEMBER 14, 2016 (6:00 p.m.) ** Open Space Master Plan - Review

Architecural Review Board - Recommendation to P&Z: December 13, 2016 (5:00 p.m.)

Planning & Zoning - Action: December 13, 2016 (6:00 p.m.) [P&Z to take action on request: approve, approve with conditions, or deny]

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
PLANNING	David Gonzales	11/21/2016	11/28/2016	11/22/2016	1	COMMENTS	See comments

Discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a site plan for 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Residential Subdistrict and within the Scenic Overlay (SOV) District, located north of the intersection of Ridge Road [FM-740] and Glen Hill Way, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, December 6, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. Label site plan documents with "Case No. SP2016-031" at the lower right corner of each revised plan.
4. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department (if any).
5. Is there a Streetscape Plan? PD-32 (Ord. 10-21) Exhibit C-4 has streetscape elements that must be adhered to:
a) Street Furnishings (i.e. benches, trash receptacles, bike racks, etc.).
b) Lighting (i.e. tree uplighting)
c) Landscape (i.e. tree leave-outs, decorative pots, etc.)
** You may also refer to the resolution establishing Design Guidelines for the district. See Ord. 10-40.
6. Refer to PD-32 (Ord. 10-21) Exhibit F-2 for retaining wall requirements for all retaining walls associated with the development (if any). If so, provide detail.

Please address the following Planning Comments for each plan submitted:

Site Plan:
1. Stub out east & west bound access points to property line.
2. Provide a legend with site details and abbreviations.

Building Elevations:
1. The buildings' elevations are subject to Ord. 16-48 as depicted in Exhibit 'C' and the Residential Subdistrict architectural guidelines of Ord. 10-21, Exhibit E-9.
2. Based on the elevations submitted, will you be requesting to amend the PD Ord. 16-48 to allow for the submitted elelvations?
3. The building elevations are required to be reviewed by the Architectural Review Board per Ord. 16-54 and PD-32 (Ord. 10-21).
4. Provide a color rendering/perspective and a materials sample board for ARB review.

Photometric Plan:
1. Meet the intent of PD-32, the Unified Development Code (UDC), and is OK as submitted.

**The following plans are required to be submitted in order to continue the site plan process:
a) Landscape Plan:
b) Treescape Plan:
c) Open Space Master Plan (ASAP - requires Parks Board review and approval - refer to schedule below)
d) Streetscape Plan

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the PD Site Plan request. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICPwith the Planning Department at 972-771-7745 or e-mail dgonzales@rockwall.com

Meeting Dates to Attend:

Pole top luminaire with symmetrical light distribution

Housing: Two interlocking die cast aluminum housings. Heavy gauge .093" (mm) aluminum shards with rolled edge, finished white inside. Top castings are marine grade, copper free (≤ 0.3% copper content ASTM A360) aluminum alloy.
Arm/Riser: Arm is a integrally die cast into lower luminaire housing and bolted into one piece cast aluminum flat-blade extension with integral cap. Riser slip fits a 3" O.D. pole top and is secured to pc (6) socket head stainless steel set screws threaded into stainless steel inserts.
Enclosure: Hard Mine, seamless three-ply cast glass with screw neck and crimp-on, 75% transmission, fully gasketed for weather tight optimum using a high temperature silicone rubber O-ring gasket.
Electrical: Lampholder: are medium base porcelain with nickel-plated copper screw shell supplied with 200°C high temperature leads—mogul (ME) ballasts are magnetic, located in the base of the electrical ballasts are available in 120V or 240V or 277V specify.
Finish: All BEGA standard finishes are polyester powder coat with minimum 3 mil thickness. These luminaires are available in four standard BEGA colors: Black (BLK), White (WHT), Bronze (BRZ), Silver (SLV). To specify, add appropriate suffix to catalog number. Custom colors, supplied on special order.
UL: listed for US and Canadian Standards, suitable for wet locations. Protection type: IP 65.

P3	FIELD COLOR 3		

ELEVATION NOTES

1. PROVIDE 1/2" MINIMUM OF SLOPE AWAY FROM WALL ON TOP SURFACE OF WALL PROJECTIONS.
2. SOUND ALL EXTERIOR WALL LIGHT FIXTURES WHERE BOTTOM OF LIGHT FIXTURE IS AT 8'-6" A.F.F. WHERE THEY PROJECT MORE THAN 8" FROM FACE OF WALL.
3. REFER TO CIVIL AND STRUCTURAL DRAWINGS FOR FF.E. AND SLAB BREAKS
4. FLASHING, WATERPROOF MEMBRANES, PROPER CAULKS AND SEALANTS (BACKER RODS AS REQUIRED) SHALL BE INSTALLED AROUND ALL WINDOWS, DOORS, ROOF OPENINGS, HORIZONTAL AND VERTICAL JOINTS OF DISSIMILAR MATERIALS, MATERIAL TRANSITIONS, TRIMS, BALCONIES AND OTHER WEATHER-EXPOSED AREAS.
5. PROVIDE A WATER TIGHT BUILDING'S, ROOF AND EXTERIOR ENVELOPE THAT SHEDS WATER PROPERLY.
6. ALL PATIOS, PORCHES, BALCONIES, AND SIDEWALKS TO BE SLOPED 1/4" PER 1'-0" MINIMUM IN DIRECTION INDICATED ON PLANS AND AWAY FROM EXTERIOR WALLS.
7. GRADES AROUND ALL EXTERIOR SILLS OF THE BUILDING TO BE 8 INCHES MINIMUM BELOW THE FINISHED FLOOR AND IS TO SLOPE AWAY FROM THE BUILDING. EN. 606.1106 1/2 PER IBC 1804.3.
8. GRADE ELEVATIONS ARE APPROXIMATE. REFER TO CIVIL & HARDSCAPE DRAWINGS FOR FINE GRADING
9. PROJECT ADDRESS SIGNAGE TO BE 12" HT. INDIVIDUAL MOUNT, METAL REVERSE PAN CHANNEL NUMBER, STREET NUMBERS ONLY.
10. SIDING ARE FOR REFERENCE ONLY. ALL SIDING SHALL BE REVIEWED AND INSTALLED UNDER SEPARATE PERMIT.
11. ALL EXTERIOR COLORS, FINISHES, AND DECORATIVE TRIM BANDS TO TERMINATE AT AN INSIDE CORNER, U.N.O.
12. ALIGN ALL MECHANICAL VENTS BOTH HORIZONTALLY AND VERTICALLY.
13. PER 2012 IBC SECTION 1406.2.2(2) ARCHITECTURAL TRIM THAT EXCEEDS 40 SF. ARE IN HEIGHT ON BUILDING 3-R, IN CONSTRUCTION SHALL BE OF APPROVED, NON-COMBUSTIBLE MATERIALS AND SHALL BE SECURED TO THE WALL WITH METAL OR OTHER APPROVED, NON-COMBUSTIBLE BRACKETS.
14. PITCHED ROOFS, CRICKETS, DORMERS, ETC. TO HAVE A MINIMUM ROOF PITCH OF 4:12. REFER TO ROOF PLAN FOR ROOF PITCHES.
