OSQ Series

OSQ™ LED Area/Flood Luminaire – Large

Product Description

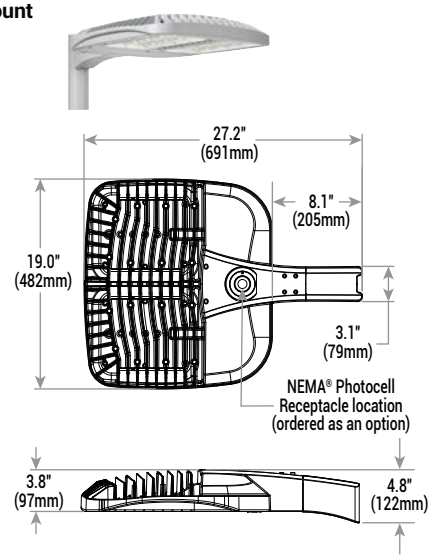
The OSQ™ Area/Flood luminaire blends extreme optical control, advanced thermal management and modern, clean aesthetics. Built to last, the housing is rugged cast aluminum with an integral, weathertight LED driver compartment. Versatile mounting configurations offer simple installation. Its slim, low-profile design minimizes wind load requirements and blends seamlessly into the site providing even, quality illumination. 'S' Input power designator is a suitable upgrade for HID applications up to 750 Watts.

Applications: Parking lots, walkways, campuses, auto dealerships, office complexes, and internal roadways

Performance Summary

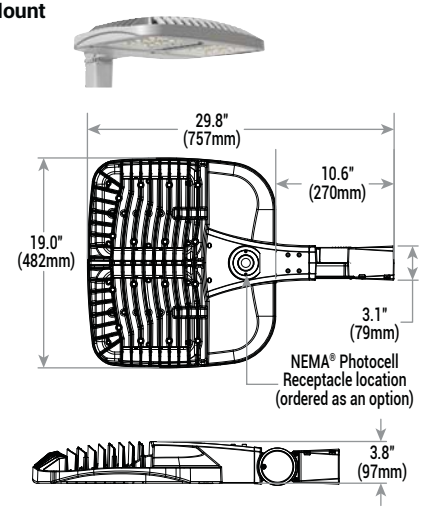
NanoOptic® Precision Delivery Grid™ optic

Made in the U.S.A. of U.S. and imported parts



CRI: Minimum 70 CRI (4000K & 5700K); 80 CRI (3000K)

CCT: 3000K (+/- 300K), 4000K (+/- 300K), 5700K (+/- 500K)



Limited Warranty†: 10 years on luminaire/10 years on Colorfast DeltaGuard® finish

† See www.cree.com/lighting/products/warranty for warranty terms

* Available with Backlight Shield when ordered with field-installed accessory (see table above)

Product Specifications

CONSTRUCTION & MATERIALS

- Slim, low profile design minimizes wind load requirements
- Luminaire housing is rugged die cast aluminum with an integral, weathertight LED driver compartment and high performance heat sink
- Convenient interlocking mounting method on direct arm mount. Mounting adaptor is rugged die cast aluminum and mounts to 3-6" (76-152mm) square or round pole, secured by two 5/16-18 UNC bolts spaced on 2" (51mm) centers
- Mounting for the adjustable arm mount adaptor is rugged die cast aluminum and mounts to 2" (51mm) IP, 2.375" (60mm) O.D. tenon
- Adjustable arm mount can be adjusted 180˚ in 2.5˚ increments
- Designed for uplight and downlight applications
- Exclusive Colorfast DeltaGuard® finish features an E-Coat epoxy primer with an ultra-durable powder topcoat, providing excellent resistance to corrosion, ultraviolet degradation and abrasion. Silver, bronze, black, and white are available
- **Weight:** 28.5 lbs. (13kg)

ELECTRICAL SYSTEM

- **Input Voltage:** 120-277V or 347-480V, 50/60Hz, Class 1 drivers
- **Power Factor:** > 0.9 at full load
- **Total Harmonic Distortion:** < 20% at full load
- Integral 10kV surge suppression protection standard
- To address inrush current, slow blow fuse or type C/D breaker should be used
- **10V Source Current:** 0.15mA

REGULATORY & VOLUNTARY QUALIFICATIONS

- cULus Listed
- Suitable for wet locations
- Enclosure rated IP66 per IEC 60529 when ordered without R option
- Consult factory for CE Certified products
- Certified to ANSI C136.31-2001, 3G bridge and overpass vibration standards
- 10kV surge suppression protection tested in accordance with IEEE/ANSI C62.41.2
- Meets FCC Part 15 standards for conducted and radiated emissions
- Luminaire and finish endurance tested to withstand 5,000 hours of elevated ambient salt fog conditions as defined in ASTM Standard B 117
- Meets Buy American requirements within ARRA
- DLC qualified when ordered with 30K (5ME, 5SH optics), or 40K and 57K (2ME, 3ME, 4ME, 5ME, 5SH, 15D, 25D, 40D, 60D optics). Please refer to www.designlights.org/QPL for most current information
- Dark Sky Friendly, IDA approved. Please refer to www.darksky.org/ for most current information
- RoHS compliant. Consult factory for additional details

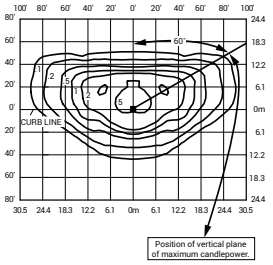
[1] Lumen maintenance values at 25˚C (77˚F) are calculated per TM-21 based on LM-80 data and in-situ luminaire testing
[2] In accordance with IESNA TM-21-11, Projected Values represent interpolated value based on time durations that are within six times (6X) the IESNA LM-80-08 total test duration (in hours) for the device under testing ((DUT) i.e. the packaged LED chip)
[3] In accordance with IESNA TM-21-11, Calculated Values represent time durations that exceed six times (6X) the IESNA LM-80-08 total test duration (in hours) for the device under testing ((DUT) i.e. the packaged LED chip)



Photometry

All published luminaire photometric testing performed to IESNA LM-79-08 standards by a NVLAP accredited laboratory. To obtain an IES file specific to your project consult: www.cree.com/Lighting/Products/Outdoor/Area/OSQ-Series

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 06/14/2016

APPLICANT: Clay Cristy of ClayMoore Engineering

AGENDA ITEM: **SP2016-013;** Urgent Care Facility (*CareNow*)

SUMMARY:

Discuss and consider a request by Clay Cristy of ClayMoore Engineering on behalf of the owner Tom R. Briscoe of Briscoe Oil, Inc. for the approval of a *PD Site Plan* for an urgent care facility on a 1.042-acre tract of land identified as Lots 1 & 2, Block A, Briscoe/Hillcrest Addition and Tract 41-2 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Summit Office Subdistrict* and the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of Horizon Road [FM3097] and the IH-30 frontage road, and take any action necessary.

PURPOSE:

On May 11, 2016, the applicant submitted an application for a *PD Site Plan* showing the proposed layout of a 6,235 SF urgent care facility on a 1.042-acre tract of land identified as Lots 1 & 2, Block A, Briscoe/Hillcrest Addition and Tract 41-2 of the E. Teal Survey, Abstract No. 207. The subject property is located directly east of Trend Tower -- *adjacent to the IH-30 Frontage Road and Horizon Road* --, and is zoned Planned Development District 32 (PD-32) [*Ordinance No. 10-21*]. It should be noted that a PD Development Plan [*Ordinance No. 16-28*] was approved in May of this year.

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Ordinance No. 10-21, the proposed use (*i.e. urgent care facility*) is permitted *by-right* in the *Summit Office Subdistrict*, and will not require any additional approvals by the Planning and Zoning Commission. The submitted site plan, building elevations, landscape plan, and photometric plan conform to the technical requirements contained within the Unified Development Code (UDC) and Planned Development District 32 (PD-32), with the exceptions of the items listed in the *Variance* section of this case memo. A summary of the density and dimensional requirements for the subject property is as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*6,000 SF*	*0.92-Acres; In Conformance*
Minimum Lot Width	*60-Feet*	*x>60-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*x>100-Feet; In Conformance*
Minimum Build-to-Line (Horizon Road)	*10-Feet*	*10-Feet; In Conformance*
Minimum Setback (Horizon Road)	*5-Feet*	*5-Feet; In Conformance*
Maximum Permitted Encroachment [1]	*5-Feet*	*0-Feet; In Conformance*
Maximum Height	*8 Stories or 120-Feet*	*28-Feet; In Conformance*
Maximum Mechanical Screen Height	*20-Feet*	*10-Feet; In Conformance*
Minimum Masonry Requirement	*90%*	*100%; In Conformance*
Minimum Stone Requirement	*20% Natural or Quarried*	*x<20%; Variance*
Minimum Parking Spaces Required	*31*	*46; In Conformance*
Maximum Lot Coverage	*60%*	*11.5%; In Conformance*

TREESCAPE PLAN:

The applicant has provided a treescape plan indicating a total of 351 caliper inches being removed from the site, the majority of which are Hackberry trees. Cedar and Hackberry trees that are 11 inches dbh or larger, shall be replaced at 50 percent of the total caliper inches being removed; however, Cedar and Hackberry trees that are less than 11 inches dbh shall not be considered a protected tree. In this case, there are a total 225 caliper inches considered to be non-protected trees. Also being removed from the site are six (6) feature trees that are considered to be protected. These total 64 caliper inches. Feature trees may not be removed without approval of the Planning and Zoning Commission and are required to be replaced on an inch for inch basis. Taking into account the protected trees being removed, the total mitigation required for the site is 126 inches. The applicant's landscape plan depicts the provision of 23 three (3) inch caliper trees, leaving a balance of 57 inches due. The applicant has chosen to pay into the City's Tree Fund an amount equal to $125 per caliper inch for the mitigation balance due for a total of $7,125.00. This will satisfy the tree mitigation requirements.

VARIANCES REQUEST:

The applicant is requesting a variance to the *IH-30 Overlay (IH-30 OV) District* standards of the *Unified Development Code* (UDC) as outlined below. As a note, approval of a variance request to the IH-30 OV requires passage of a 3/4 majority vote of City Council. With this being said, the approval of a variance to the IH-30 OV is a discretionary decision for the City Council. The request is as follows:

1) *Masonry requirements.* According to *Section 6.6, C. Architectural Standards*, of Article V, *District Development Standards*, of the UDC, each exterior wall is required to be constructed of 90% masonry materials (*i.e. brick, stone, etc.*) on walls visible from a public street or open space, including *a minimum of 20% being natural or quarried stone.* In this case, the proposed building will be comprised of 100% masonry materials with two (2) of the facades incorporating a minimum of 35% natural chopped stone. The two (2) remaining facades (north and west elevations) do not meet the minimum 20% standard for stone. *A variance to allow for not meeting the minimum stone standard requires a ¾ majority vote by the City Council for approval.*

ARCHITECTURAL REVIEW BOARD (ARB):

On May 31, 2016, the Architectural Review Board (ARB) reviewed the proposed site plan and building elevations. Through internal discussion with the applicant, the ARB recommended removing the stone from the tower element adjacent to IH-30 (*i.e. northern façade*) and placing it on the southern elevation for the purpose of *wrapping* the chopped stone around the building from the southern elevation to eastern elevation. This will also have the effect of increasing the stone that faces onto Pinnacle Way Drive. In lieu of stone on the tower element the ARB recommended that the applicant utilize one (1) of the two (2) proposed brick materials. In addition, the ARB agreed with the applicant that the western elevation did not need to incorporate stone since it will face Trend Tower and not be visible from a public right-of-way. Finally, the ARB recommended that the applicant consider incorporating more adornments (*i.e. cast stone medallions*) in the banding elements and trim the windows out in an opposing materials (*e.g. if the wall is stone then use brick to frame the windows and vice-versa*). The applicant agreed with the ARB's assessment and provided elevations demonstrating conformance to these recommendations.

RECOMMENDATIONS:

The site plan submitted by the applicant meets all the technical criteria stipulated by the IH-30 OV and the UDC with the exception of the requested variance. Should the Planning and Zoning Commission choose to approve the applicant's request, then the following conditions of approval should be adopted with this case:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Discuss and consider a request by Clay Cristy of ClayMoore Engineering on behalf of the owner Tom R. Briscoe of Briscoe Oil, Inc. for the approval of a PD Site Plan for an urgent care facility on a 1.042-acre tract of land identified as Lots 1 & 2, Block A, Briscoe/Hillcrest Addition and Tract 41-2 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Summit Office Subdistrict and the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of Horizon Road [FM3097] and the IH-30 frontage road, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, June 7, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. Label site plan documents with "Case No. SP2016-013" at the lower right corner of each plan.
4. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department.
5. Is there a Streetscape Plan? PD-32 (Ord. 10-21) Exhibit C-4 has streetscape elements regarding the following that must be adhered to:
a) Street Furnishings (i.e. benches, trash receptacles, bike racks, etc.).
b) Lighting (i.e. pedestrian scale street lights, parking lot light fixture, tree uplighting)
c) Landscape (i.e. tree leave-outs, decorative pots, etc.)
** You may also refer to the resolution establishing Design Guidelines for the district. See Ord. 10-40.
6. Refer to PD-32 (Ord. 10-21) Exhibit F-2 for retaining wall requirements for all retaining walls associated with the development. Provide detail.

The Following is/are Variances to the IH-30 Overlay (IH-30 OV) District Requirments (per submittal). Please provide a letter specifically requesting each variance, and providing a rational for the approval of these variances.

1. Variance request to allow for a roof design that does not meet the required pitched roof standard of the IH-30 OV District for buildings less than 6,000 sq. ft. and allowing for a flat roof design (with parrapet walls).
2. Variance request to allow for not meeting the 20% stone requirement for all four sides of the building (as depicted on the submitted elevations).
3. The Architectural Standards of the IH-30 OV requires buildings to be architecturally finished on all four side with the same materials, detailing, and features. A variance to allow for not meeting the four sided articulation standards as established in the IH-30 OV will be requried.

** Variances to the IH-30 OV requires approval of a 3/4 majority vote of council **

Please address the following Planning Comments for each plan submitted:

Site Plan:
1. Re-label Firelane as "24-ft Firelane & Public AccessEasement."
2. Dumpster enclosure walls are to be a minimum of 8-ft in height with materials to match the primary structure with an opaque gate and a self latching mechanism. Provide detail and label as such.
3. Buildings footprint is less than 6,000 sq. ft. - requires a pitched roof system per the IH-30 OV. Variance required.
4. Provide a label for the roadway width of Pinnacle Way Drive (indicated as 12' + 12' to center line.

5. 7' to 8' retaining wall with guard rail cannot be located within the right-of-way. Relocate.
6. Use a lighter gray scale for TOPO or turn off layer an provide a separate topographic exhibit.
7. Provide Vol. Pg. for 35-ft ROW Dedication.
8. There is an additonal distance marker connected to the 35-ft ROW arrow within the property that is not identifed. Provide label or remove.
9. Along Horizon Rd, at the bend of the property line, there is an incomplete label with an arrow/distance of 2' - What is this representing?
10. Verify parking count - 46 spaces counted. If correct, change the parking count in the legend.
11. Hatch the area to be abandoned of the 22-ft access easement that runs north and south (generally).

Landscape Plan:
1. With the exception of the streetscape element requirements of PD-32, the landscape plan as submitted meets or exceeds the intent of the UDC and the IH-30 OV.

Treescape Plan:
1. Any oak, pecan, or elm four caliper inches or greater requires P&Z approval prior to removal (Tree No. 16, 17, 18, 22, 25, & 26).
2. Mitigation balance of 57 inches to be paid to the City's Tree Fund ($7,125) as indicated on the plan.

Photometric Plan:
1. Please provide a detail of the lighting poles for the parking lot and pedestrian area(s) meeting the streetscape elements standards as established in Exhibit C-4 of PD-32 (Ord. 10-21).
2. All lighting sources are to be directed down and sheilded with a full cut-off or partial cut-off source and a maximum 1 inch reveal in order to control glare. Provide cut sheets for all exterior lighting sources.
3. The lighting levels along all property lines are not to exceed 0.2-FC in order to reduce glare. The lighting levels along the northwest property boundary exceed the standard and require an adjustment to reduce the intensity.

Building Elevations:
1. The Architectural Standards of the IH-30 OV require all stuctures with a building footprint less than 6,000 SF to be constructed with a pictched roof design. A variance to allow for a flat roof design rather than the picthed roof standard will be required.
2. The Architectural Standards of the IH-30 OV requires a minimum of 20% natural or quarried stone for each exterior wall. A variance to allow for not meeting the 20% stone requirement (as depicted on the submitted elevations) will be requried.
3. The Architectural Standards of the IH-30 OV requires buildings to be architecturally finished on all four side with the same materials, detailing, and features. A variance to allow for not meeting the four sided articulation standards as established in the IH-30 OV will be requried.
4. The building elevations are required to be reviewed by the Architectural Review Board per PD-32.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Architecural Review Board - Discussion/Recommendation to P&Z: May 31, 2016 (5:00 p.m.)

Planning - Discussion: May 31, 2016 (6:00 p.m.)

Planning - Action: June 14, 2016 (6:00 p.m.)

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
City Council - Action: June 20, 2016 (6:00 p.m.) [FOR VARIANCE REQUESTS ONLY]							
PLANNING	David Gonzales	6/9/2016	6/16/2016	6/9/2016		COMMENTS	See comments

The following staff comments for the revised plans are to be addressed and resubmitted no later than Tuesday, June 28, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a final review by staff:

Planning Department General Comments and Conditions:

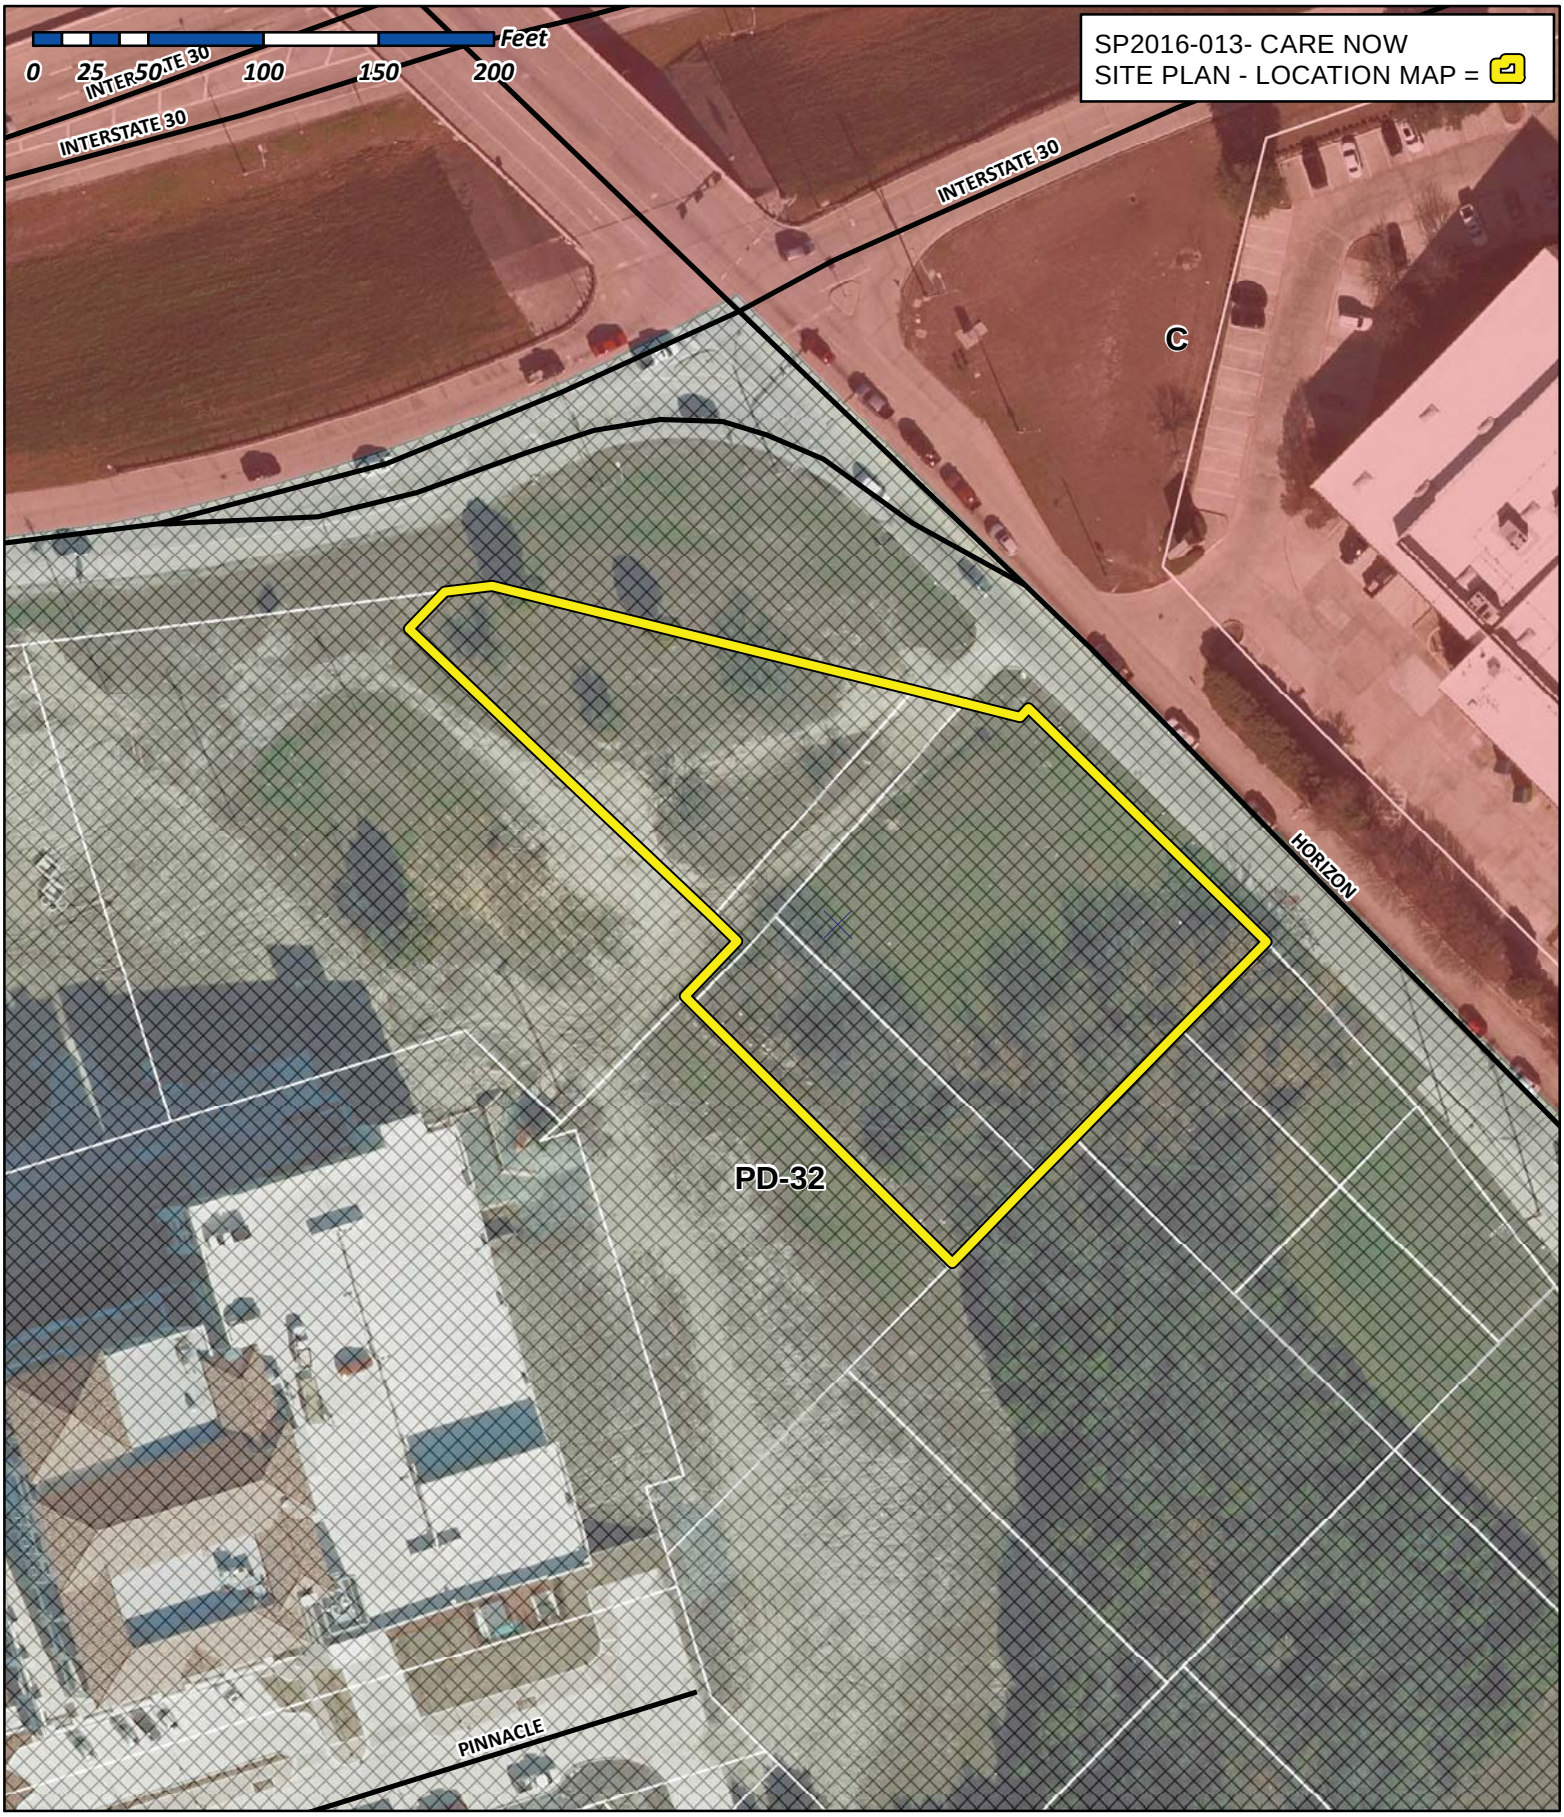
1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department.
4. Provide a letter indicating compliance with a Streetscape Plan listing elements to be used. PD-32 (Ord. 10-21) Exhibit C-4 has streetscape elements regarding the following that must be adhered to:
a) Street Furnishings (i.e. benches, trash receptacles, bike racks, etc.).
b) Lighting (i.e. pedestrian scale street lights, parking lot light fixture, tree uplighting)
c) Landscape (i.e. tree leave-outs, decorative pots, etc.)
** You may also refer to the resolution establishing Design Guidelines for the district. See Ord. 10-40.
5. Refer to PD-32 (Ord. 10-21) Exhibit F-2 for retaining wall requirements for all retaining walls associated with the development. Provide detail.

The following variance to the IH-30 Overlay (IH-30 OV) District requirments. A variance to the IH-30 OV requires approval of a 3/4 majority vote of council.

1. Variance request to allow for not meeting the 20% stone requirement on all four sides of the building (as depicted on the submitted elevations).

Please address the following outstanding Planning Comments for the following revised plans:

Site Plan:
1.The 7' to 8' retaining wall with guard rail cannot be located within the right-of-way. This will need to be addressed with the Engineering Department.

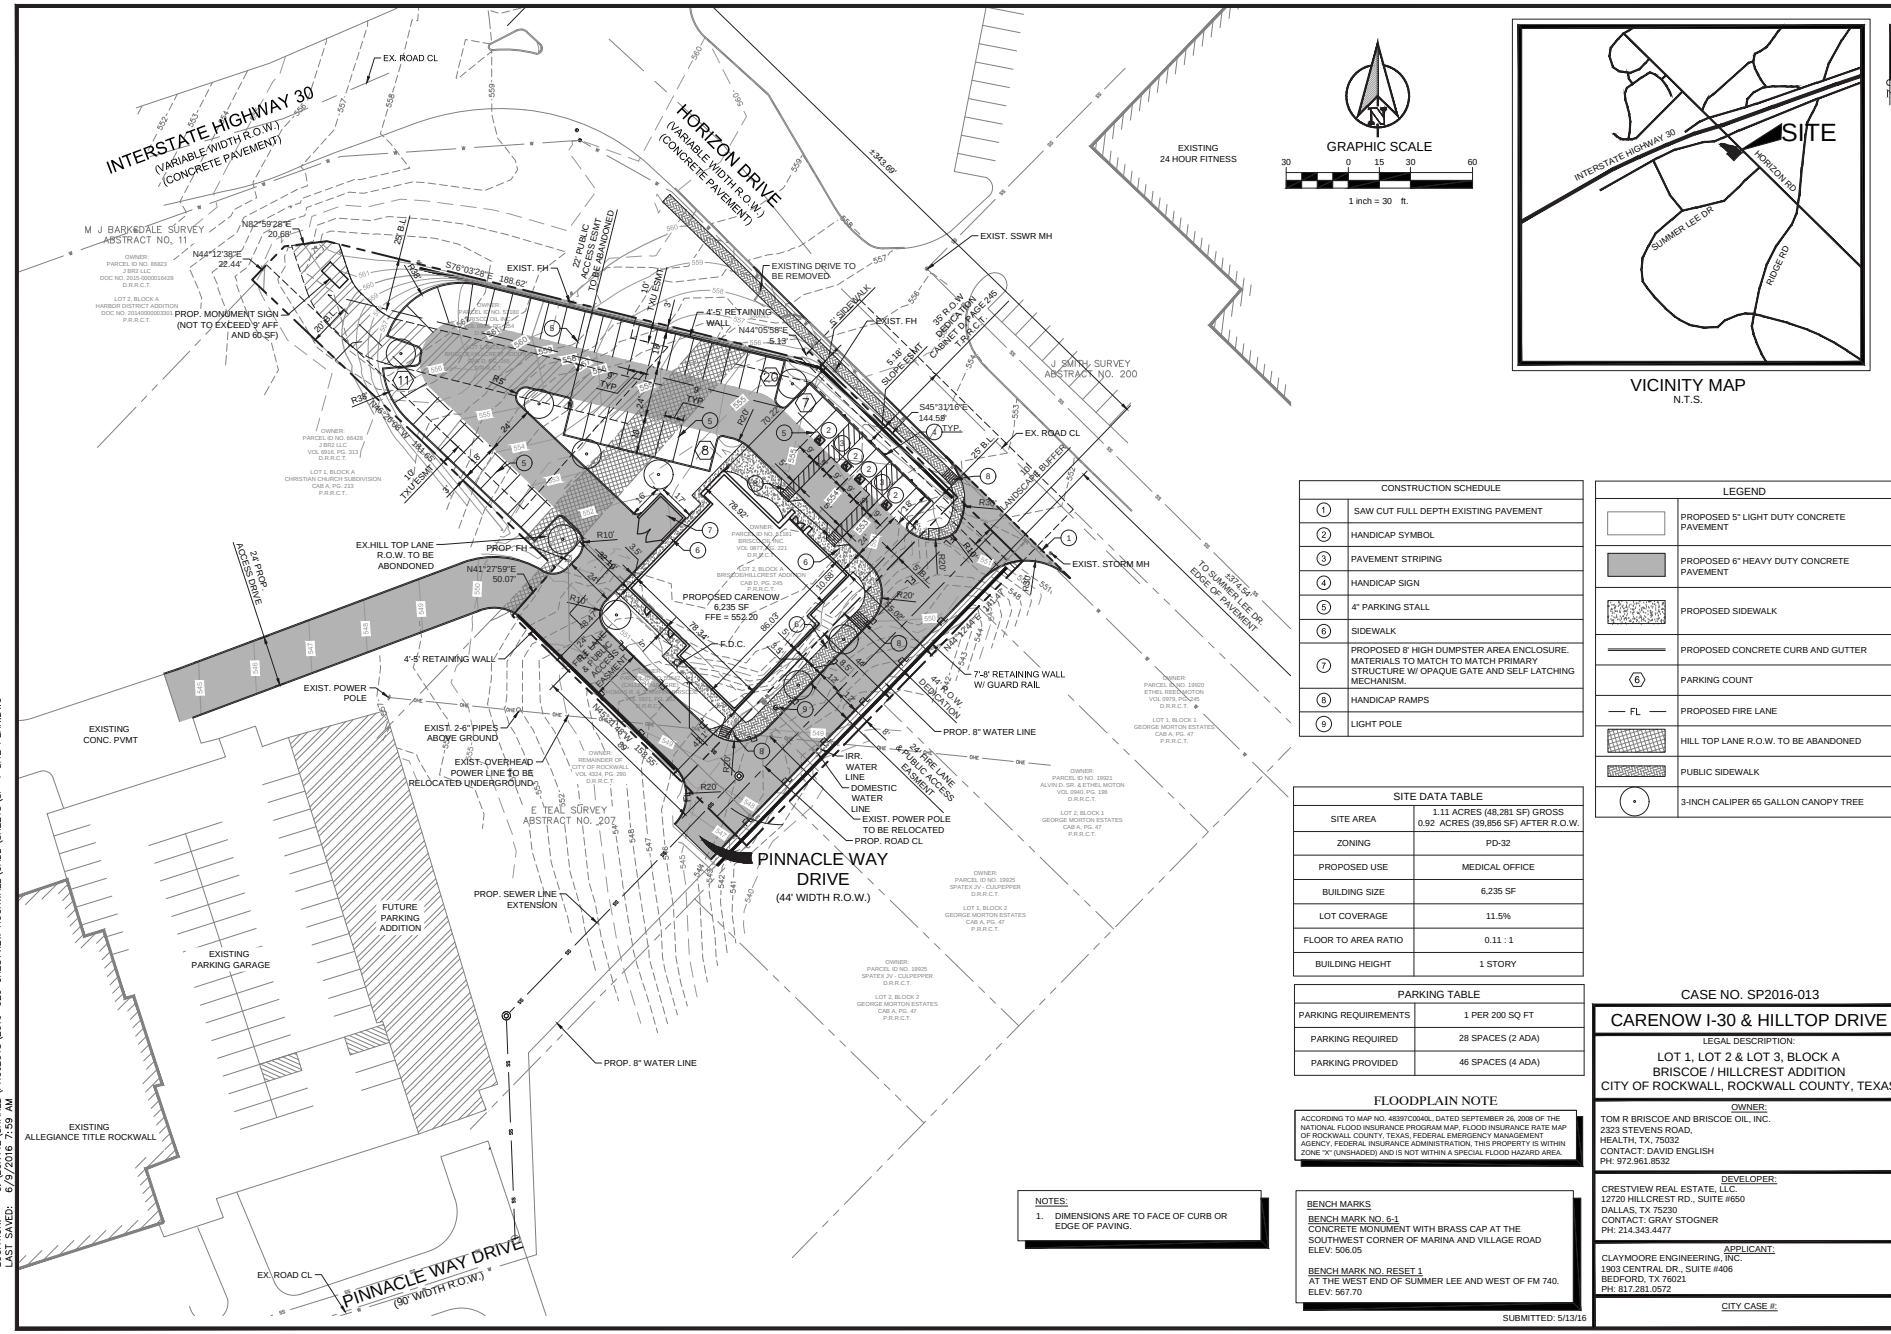


The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Architecural Review Board - Discussion/Recommendation to P&Z: June 14, 2016 (5:00 p.m.)

Planning - Action: June 14, 2016 (6:00 p.m.)



City Council - Action: June 20, 2016 (6:00 p.m.) [FOR VARIANCE REQUESTS ONLY]

NOTE: ALL TREES SHALL HAVE STRAIGHT TRUNKS AND BE MATCHING WITHIN VARIETIES.
PLANT LIST IS AN AID TO BIDDERS ONLY. CONTRACTOR SHALL VERIFY ALL QUANTITIES ON PLAN.
ALL HEIGHTS AND SPREADS ARE MINIMUMS. ALL PLANT MATERIAL SHALL MEET OR EXCEED REMARKS AS INDICATED.

SCALE: 1" = 30'-0"
0 15 30 60

LANDSCAPE NOTES

1. CONTRACTOR SHALL VERIFY ALL EXISTING AND PROPOSED SITE ELEMENTS AND NOTIFY LANDSCAPE ARCHITECT OF ANY DISCREPANCIES. SURVEY DATA OF EXISTING CONDITIONS WAS SUPPLIED BY OTHERS.
2. CONTRACTOR SHALL LOCATE ALL EXISTING UNDERGROUND UTILITIES AND NOTIFY LANDSCAPE ARCHITECT OF ANY CONFLICTS. CONTRACTOR SHALL EXERCISE CAUTION WHEN WORKING IN THE VICINITY OF UNDERGROUND UTILITIES.
3. CONTRACTOR SHALL PROVIDE A MINIMUM 2% SLOPE AWAY FROM ALL STRUCTURES.
4. CONTRACTOR SHALL FINE GRADE AREAS TO ACHIEVE FINAL CONTOURS AS INDICATED. LEAVE AREAS TO RECEIVE TOPSOIL 3" BELOW FINAL FINISHED GRADE IN PLANTING AREAS AND 1" BELOW FINAL FINISHED GRADE IN LAWN AREAS.
5. ALL PLANTING BEDS AND LAWN AREAS SHALL BE SEPARATED BY STEEL EDGING. NO STEEL EDGING SHALL BE INSTALLED ADJACENT TO BUILDINGS, WALKS, OR CURBS. CUT STEEL EDGING AT 45 DEGREE ANGLE WHERE IT INTERSECTS WALKS AND CURBS.
6. TOP OF MULCH SHALL BE 1/2" MINIMUM BELOW THE TOP OF WALKS AND CURBS.
7. ALL LAWN AREAS SHALL BE SOLID SOD BERMUDAGRASS, UNLESS OTHERWISE NOTED ON THE DRAWINGS.
8. ALL REQUIRED LANDSCAPE AREAS SHALL BE PROVIDED WITH AN AUTOMATIC UNDERGROUND IRRIGATION SYSTEM WITH RAIN AND FREEZE SENSORS AND EVAPOTRANSPIRATION (ET) WEATHER-BASED CONTROLLERS AND SAID IRRIGATION SYSTEM SHALL BE DESIGNED BY A QUALIFIED PROFESSIONAL AND INSTALLED BY A LICENSED IRRIGATOR.
9. CONTRACTOR SHALL PROVIDE BID PROPOSAL LISTING UNIT PRICES FOR ALL MATERIAL PROVIDED.
10. CONTRACTOR SHALL BE RESPONSIBLE FOR OBTAINING ALL REQUIRED LANDSCAPE AND IRRIGATION PERMITS.

MAINTENANCE NOTES

1. THE OWNER, TENANT AND THEIR AGENT, IF ANY, SHALL BE JOINTLY AND SEVERALLY RESPONSIBLE FOR THE MAINTENANCE OF ALL LANDSCAPE.
2. ALL LANDSCAPE SHALL BE MAINTAINED IN A NEAT AND ORDERLY MANNER AT ALL TIMES. THIS SHALL INCLUDE MOWING, EDGING, PRUNING, FERTILIZING, WATERING, WEEDING AND OTHER SUCH ACTIVITIES COMMON TO LANDSCAPE MAINTENANCE.
3. ALL LANDSCAPE AREAS SHALL BE KEPT FREE OF TRASH, LITTER, WEEDS AND OTHER SUCH MATERIAL OR PLANTS NOT PART OF THIS PLAN.
4. ALL PLANT MATERIAL SHALL BE MAINTAINED IN A HEALTHY AND GROWING CONDITION AS IS APPROPRIATE FOR THE SEASON OF THE YEAR.
5. ALL PLANT MATERIAL WHICH DIES SHALL BE REPLACED WITH PLANT MATERIAL OF EQUAL OR BETTER VALUE.
6. CONTRACTOR SHALL PROVIDE SEPARATE BID PROPOSAL FOR ONE YEAR'S MAINTENANCE TO BEGIN AFTER FINAL ACCEPTANCE.

NO TREES WITHIN 5'-0" OF ANY UTILITIES

GENERAL LAWN NOTES

1. CONTRACTOR SHALL COORDINATE OPERATIONS AND AVAILABILITY OF EXISTING TOPSOIL WITH ON-SITE CONSTRUCTION MANAGER.
2. CONTRACTOR SHALL LEAVE LAWN AREAS 1" BELOW FINAL FINISHED GRADE PRIOR TO TOPSOIL INSTALLATION.
3. CONTRACTOR SHALL FINE GRADE AREAS TO ACHIEVE FINAL CONTOURS AS INDICATED ON CIVIL PLANS. ADJUST CONTOURS TO ACHIEVE POSITIVE DRAINAGE AWAY FROM BUILDINGS. PROVIDE UNIFORM ROUNDING AT TOP AND BOTTOM OF SLOPES AND OTHER BREAKS IN GRADE. CORRECT IRREGULARITIES AND AREAS WHERE WATER MAY STAND.
4. ALL LAWN AREAS SHALL BE FINE GRADED, IRRIGATION TRENCHES COMPLETELY SETTLED AND FINISH GRADE APPROVED BY THE OWNER'S CONSTRUCTION MANAGER OR LANDSCAPE ARCHITECT PRIOR TO LAWN INSTALLATION.
5. CONTRACTOR SHALL REMOVE ALL ROCKS 3/4" DIAMETER AND LARGER, DIRT CLODS, STICKS, CONCRETE SPOILS, ETC. PRIOR TO PLACING TOPSOIL AND LAWN INSTALLATION.
6. CONTRACTOR SHALL MAINTAIN ALL LAWN AREAS UNTIL FINAL ACCEPTANCE. THIS SHALL INCLUDE, BUT NOT BE LIMITED TO: MOWING, WATERING, WEEDING, CULTIVATING, CLEANING AND REPLACING DEAD OR BARE AREAS TO KEEP PLANTS IN A VIGOROUS, HEALTHY CONDITION.
7. CONTRACTOR SHALL GUARANTEE ESTABLISHMENT OF ACCEPTABLE TURF AREA AND SHALL PROVIDE REPLACEMENT FROM LOCAL SUPPLY IF NECESSARY.

SOLID SOD NOTES

1. PLANT SOD BY HAND TO COVER INDICATED AREAS COMPLETELY. ENSURE EDGES OF SOD ARE TOUCHING. TOP DRESS JOINTS BY HAND WITH TOPSOIL TO FILL VOIDS.
2. ROLL GRASS AREAS TO ACHIEVE A SMOOTH, EVEN SURFACE, FREE FROM UNNATURAL UNDULATIONS.
3. WATER SOD THOROUGHLY AS SOD OPERATION PROGRESSES.
4. IF INSTALLATION OCCURS BETWEEN SEPTEMBER 1 AND MARCH 1, OVER-SEED BERMUDAGRASS SOD WITH WINTER RYEGRASS, AT A RATE OF FOUR (4) POUNDS PER ONE THOUSAND (1000) SQUARE FEET.

LANDSCAPE TABULATIONS

THE CITY OF ROCKWALL, TEXAS

STREET LANDSCAPING
1. 10' wide landscape buffer with one tree per 50 l.f.

HORIZON DR.: 144 l.f.

Required	Provided
(3) trees, 3" cal.	(3) trees, 3" cal.

PARKING LOT LANDSCAPING
1. 5% of the interior parking lot shall be landscape.

Total interior parking lot area: 16,286 s.f.
Total parking spaces: 46 spaces

Required	Provided
814 s.f. (5%)	1,404 s.f. (8%)

SITE LANDSCAPING
1. 15% of the total site shall be landscaped for COMMERCIAL.
2. 50% of the total requirements shall be located in the front of and along side buildings for COMMERCIAL.

Total site: 1.10 AC; 48,268 s.f.

Required	Provided
7,240 s.f. (15%)	11,646 s.f. (24%)
3,620 s.f. (50%)	10,454 s.f.

File No. 2016-029

SECTION 32 9300 - LANDSCAPE

PART 1 - GENERAL

1.1 REFERENCED DOCUMENTS

A. Refer to Landscape Plans, notes, details, bidding requirements, special provisions, and schedules for additional requirements.

1.2 DESCRIPTION OF WORK

A. Work included: Furnish all supervision, labor, materials, services, equipment and appliances required to complete the work covered in conjunction with the landscaping covered in these specifications and landscaping plans, including:

1. Planting (trees, shrubs and grasses)
2. Bed preparation and fertilization
3. Notification of sources
4. Water and maintenance until final acceptance
5. Guarantee

1.3 REFERENCE STANDARDS

A. American Standard for Nursery Stock published by American Association of Nurserymen: 27 October 1980, Edition; by American National Standards Institute, Inc. (Z60.1) – plant material

B. American Joint Committee on Horticultural Nomenclature: 1942 Edition of Standardized Plant Names.

C. Texas Association of Nurserymen, Grades and Standards

D. Hortis Third, 1976 - Cornell University

1.4 NOTIFICATION OF SOURCES AND SUBMITTALS

A. Samples: Provide representative quantities of sandy loam soil, mulch, bed mix material, gravel and crushed stone. Samples shall be approved by Owner's Authorized Representative before use on the project.

1.5 JOB CONDITIONS

A. General Contractor to complete the following punch list: Prior to Landscape Contractor initiating any portion of landscape installation, General Contractor shall leave planting bed areas three (3") inches below final finish grade of sidewalks, drives and curbs as shown on the drawings. All lawn areas to receive solid sod shall be left one (1") inch below the final finish grade of sidewalks, drives and curbs. All construction debris shall be removed prior to Landscape Contractor beginning any work.

B. Storage of materials and equipment at the job site will be at the risk of the Landscape Contractor. The Owner cannot be held responsible for theft or damage.

1.6 MAINTENANCE AND GUARANTEE

A. Maintenance:

1. The Landscape Contractor shall be held responsible for the maintenance of all work from the time of planting until final acceptance by the Owner. No trees, shrubs, groundcover or grass will be accepted unless they show healthy growth and satisfactory foliage conditions.
2. Maintenance shall include watering of trees and plants, cultivation, weeding spraying, edging, pruning of trees, mowing of grass, cleaning up and all other work necessary of maintenance.
3. A written notice requesting final inspection and acceptance should be submitted to the Owner at least seven (7) days prior to completion. An on-site inspection by the Owner's Authorized Representative will be completed prior to written acceptance.

B. Guarantee:

1. Trees, shrubs and groundcover shall be guaranteed for a twelve (12) month period after final acceptance. The Contractor shall replace all dead materials as soon as weather permits and upon notification of the Owner. Plants, including trees, which have partially died so that shape, size, or symmetry have been damaged, shall be considered subject to replacement. In such cases, the opinion of the Owner shall be final.
   a. Plants used for replacement shall be of the same size and kind as those originally planted and shall be planted as originally specified. All work, including materials, labor and equipment used in replacements, shall carry a twelve (12) month guarantee. Any damage, including ruts in lawn or bed areas, incurred as a result of making replacements shall be immediately repaired.
   b. At the direction of the Owner, plants may be replaced at the start of the next year's planting season. In such cases, dead plants shall be removed from the premises immediately.
   c. When plant replacements are made, plants, soil mix, fertilizer and mulch are to be utilized as originally specified and re-inspected for full compliance with the contract requirements. All replacements are to be included under "Work" of this section.
2. The Owner agrees that for the guarantee to be effective, he will water plants at least twice a week during dry periods and cultivate beds once a month after final acceptance.
3. The above guarantee shall not apply where plants die after acceptance because of injury from storms, hail, freeze, insects, diseases, injury by humans, machines or theft.
4. Acceptance for all landscape work shall be given after final inspection by the Owner provided the job is in a complete, undamaged condition and there is a stand of grass in all lawn areas. At that time, the Owner will assume maintenance on the accepted work.

C. Repairs: Any necessary repairs under the Guarantee must be made within ten (10) days after receiving notice, weather permitting. In the event the Landscape Contractor does not make repairs accordingly, the Owner, without further notice to Contractor, may provide materials and men to make such repairs at the expense to the Landscape Contractor.

1.7 QUALITY ASSURANCE

A. General: Comply with applicable federal, state, county and local regulations governing landscape materials and work.

B. Personnel: Employ only experienced personnel who are familiar with the required work. Provide full time supervision by a qualified foreman acceptable to Landscape Architect.

C. Selection of Plant Material:
1. Make contact with suppliers immediately upon obtaining notice of contract acceptance to select and book materials. Develop a program of maintenance (pruning and fertilization) which will ensure the purchased materials will meet and / or exceed project specifications.
2. Substitutions: Do not make plant material substitutions. If the specified landscape material is not obtainable, submit proof of non-availability to Landscape Architect, together with proposal for use of equivalent material. At the time bids are submitted, the Contractor is assumed to have located the materials necessary to complete the job as specified.
3. Landscape Architect will provide a key identifying each tree location on site. Written verification will be required to document material selection, source and delivery schedules to site.
4. Measurements: Measure trees with branches and trunks or canes in their normal position. Do not prune to obtain required sizes. Take caliper measurements six inches above ground for trees up to and including 4" caliper size, and twelve inches above ground for larger sizes. Measure main body of all plant material of height and spread dimensions, do not measure from branch or root tip-to-tip.
5. Owner's Authorized Representative shall inspect all plant material with requirements for genus, species, cultivar / variety size and quality.
6. Owner's Authorized Representative retains the right to further inspect all plant material upon arrival to the site and during installation for size and condition of root balls and root systems, limbs, branching habit, insects, injuries and latent defects.
7. Owner's Authorized Representative may reject unsatisfactory or defective material at any time during the process work. Remove rejected materials immediately from the site and replace with acceptable material at no additional cost to the Owner. Plants damaged in transit or at job site shall be rejected.

1.8 PRODUCT DELIVERY, STORAGE AND HANDLING

A. Preparation:
1. Balled and Burlapped (B&B) Plants: Dig and prepare shipment in a manner that will not damage roots, branches, shape and future development.
2. Container Grown Plants: Deliver plants in rigid container to hold ball shape and protect root mass.

B. Delivery:
1. Deliver packaged materials in sealed containers showing weight, analysis and name of manufacturer. Protect materials from deterioration during delivery and while stored on site.
2. Deliver only plant materials that can be planted in one day unless adequate storage and watering facilities are available on job site.
3. Protect root balls by heeling in with sawdust or other approved moisture retaining material if not planted within 24 hours of delivery.
4. Protect plants during delivery to prevent damage to root balls or desiccation of leaves. Keep plants moist at all times. Cover all materials during transport.
5. Notify Owner's Authorized Representative of delivery schedule 72 hours in advance job site.
6. Remove rejected plant material immediately from job site.
7. To avoid damage or stress, do not lift, move, adjust to plumb, or otherwise manipulate plants by trunk or stems.

PART 2 - PRODUCTS

2.1 PLANTS

A. General: Well-formed No. 1 grade or better nursery grown stock. Listed plant heights are from tops of root balls to nominal tops of plants. Plant spread refers to nominal outer width of the plant, not to the outer leaf tips. Plants will be individually approved by the Owner's Authorized Representative and his decision as to their acceptability shall be final.

B. Quantities: The drawings and specifications are complimentary. Anything called for on one and not the other is as binding as if shown and called for on both. The plant schedule is an aid to bidders only. Confirm all quantities on plan.

C. Quality and size: Plant materials shall conform to the size given on the plan, and shall be healthy, symmetrical, well-shaped, full branched and well rooted. The plants shall be free from injurious insects, diseases, injuries to the bark or roots, broken branches, objectionable disfigurements, insect eggs and larvae, and are to be of specimen quality.

D. Approval: All plants which are found unsuitable in growth, or are in any unhealthy, badly shaped or undersized condition will be rejected by the Owner's Authorized Representative either before or after planting and shall be removed at the expense of the Landscape Contractor and replaced with acceptable plant as specified at no additional cost to the Owner.

E. Trees shall be healthy, full-branched, well-shaped, and shall meet the minimum trunk and diameter requirements of the plant schedule. Balls shall be firm, neat, slightly tapered and well wrapped in burlap. Any tree loose in the ball or with a broken root ball at time of planting will be rejected. Balls shall be ten (10") inches in diameter for each one (1") inch of trunk diameter, measured six (6") inches above ball. (Nomenclature confirms to the customary nursery usage. For clarification, the term "multi-trunk" defines a plant having three (3) or more trunks of nearly equal diameter.)

F. Pruning: All pruning of trees and shrubs, as directed by the Landscape Architect prior to final acceptance, shall be executed by the Landscape Contractor at no additional cost to the Owner.

2.2 SOIL PREPARATION MATERIALS

A. Sandy Loam:
1. Friable, fertile, dark, loamy soil, free of clay lumps, subsoil, stones and other extraneous material and reasonably free of weeds and foreign grasses. Loam containing Dallasgrass or Nutgrass shall be rejected.
2. Physical properties as follows:
   a. Clay – between 7-27 percent
   b. Silt – between 15-25 percent
   c. Sand – less than 52 percent
3. Organic matter shall be 3%-10% of total dry weight.
4. If requested, Landscape Contractor shall provide a certified soil analysis conducted by an approved soil testing laboratory verifying that sandy loam meets the above requirements.

B. Organic Material: Compost with a mixture of 80% vegetative matter and 20% animal waste. Ingredients should be a mix of course and fine textured material.

C. Premixed Bedding Soil as supplied by Vital Earth Resources, Gladewater, Texas; Professional Bedding Soil as supplied by Living Earth Technology, Dallas, Texas or Acid Gro Municipal Mix as supplied by Soil Building Systems, Dallas, Texas or approved equal.

D. Sharp Sand: Sharp sand must be free of seeds, soil particles and weeds.

E. Mulch: Double Shredded Hardwood Mulch, partially decomposed, dark brown. Living Earth Technologies or approved equal.

F. Organic Fertilizer: Fertilaid, Sustane, or Green Sense or equal as recommended for required applications. Fertilizer shall be delivered to the site in original unopened containers, each bearing the manufacturer's guaranteed statement of analysis.

G. Commercial Fertilizer: 10-20-10 or similar analysis. Nitrogen source to be a minimum 50% slow release organic Nitrogen (SCU or UF) with a minimum 8% sulfur and 4% iron, plus iconutrients.

H. Peat: Commercial sphagnum peat moss or partially decomposed shredded pine bark or other approved organic material.

2.3 MISCELLANEOUS MATERIALS

A. Steel Edging: All steel edging shall be 3/16" thick x 4" deep x 16' long with 6 stakes per section, painted black at the factory as manufactured by The J.D. Russell Company and under its trade name DURAEDGE Heavy Duty Steel.

B. Staking Material for Shade Trees: refer to details.

C. Gravel: Washed native pea gravel, graded 1 inch to 1-1/2 inch.

D. Filter Fabric: 'Mirafi Mirascape' by Mirafi Construction Products available at Lone Star Products, Inc., (469) 523-0444 or approved equal.

E. River Rock: 'Colorado' or native river rock, 2" - 4" dia.

F. Decomposed Granite: Base material shall consist of a natural material mix of granite aggregate not to exceed 1/8" diameter in size and shall be composed of various stages of decomposed earth base.

PART 3 - EXECUTION

3.1 BED PREPARATION & FERTILIZATION

A. Landscape Contractor to inspect all existing conditions and report any deficiencies to the Owner.

B. All planting areas shall be conditioned as follows:
1. Prepare new planting beds by scraping away existing grass and weeds as necessary. Till existing soil to a depth of six (6") inches prior to placing compost and fertilizer. Apply fertilizer as per Manufacturer's recommendations. Add six (6") inches of compost and till into a depth of six (6") inches of the topsoil. Apply organic fertilizer such as Sustane or Green Sense at the rate of twenty (20) pounds per one thousand (1,000) square feet.
2. All planting areas shall receive a two (2") inch layer of specified mulch.
3. Backfill for tree pits shall be as follows: Use existing top soil on site (use imported topsoil as needed) free from large clumps, rocks, debris, caliche, subsoils, etc., placed in nine (9") inch layers and watered in thoroughly.

C. Grass Areas:
1. Blocks of sod should be laid joint to joint (staggered joints) after fertilizing the ground first. Roll grass areas to achieve a smooth, even surface. The joints between the blocks of sod should be filled with topsoil where they are evidently gaped open, then watered thoroughly.

3.2 INSTALLATION

A. Maintenance of plant materials shall begin immediately after each plant is delivered to the site and shall continue until all construction has been satisfactorily accomplished.

B. Plant materials shall be delivered to the site only after the beds are prepared and areas are ready for planting. All shipments of nursery materials shall be thoroughly protected from the drying winds during transit. All plants which cannot be planted at once, after delivery to the site, shall be well protected against the possibility of drying by wind and Balls of earth of B & B plants shall be kept covered with soil or other acceptable material. All plants remain the property of the Contractor until final acceptance.

C. Position the trees and shrubs in their intended location as per plan.

D. Notify the Owner's Authorized Representative for inspection and approval of all positioning of plant materials.

E. Excavate pits with vertical sides and horizontal bottom. Tree pits shall be large enough to permit handling and planting without injury to balls of earth or roots and shall be of such depth that,when planted and settled, the crown of the plant shall bear the same relationship to the finish grade as it did to soil surface in original place of growth.

F. Shrub and tree pits shall be no less than twenty-four (24") inches wider than the lateral dimension of the earth ball and six (6") inches deeper than it's vertical dimension. Remove and haul from site all rocks and stones over three-quarter (¾") inch in diameter. Plants should be thoroughly moist before removing containers.

G. Dig a wide, rough sided hole exactly the same depth as the height of the ball, especially at the surface of the ground. The sides of the hole should be rough and jagged, never slick or glazed.

H. Percolation Test: Fill the hole with water. If the water level does not percolate within 24 hours, the tree needs to move to another location or have drainage added. Install a PVC stand pipe per tree planting detail as approved by the Landscape Architect if the percolation test fails.

I. Backfill only with 5 parts existing soil or sandy loam and 1 part bed preparation. When the hole is dug in solid rock, topsoil from the same area should not be used. Carefully settle by watering to prevent air pockets. Remove the burlap from the top ½ of the ball, as well as all nylon, plastic string and wire. Container trees will usually be root bound, if so follow standard nursery practice of 'root scoring'.

J. Do not wrap trees.

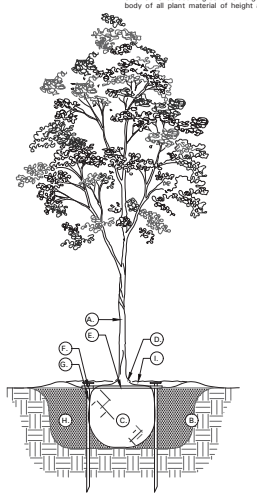
K. Do not over prune.

L. Mulch the top of the ball. Do not plant grass all the way to the trunk of the tree. Leave the area above the top of the ball and mulch with at least two (2") inches of specified mulch.

M. All plant beds and trees to be mulched with a minimum settled thickness of two (2") inches over the entire bed or pit.

N. Obstruction below ground: In the event that rock, or underground construction work or obstructions are encountered in any plant pit excavation work to be done under this section, alternate locations may be selected by the Owner. Where locations cannot be changed, the obstructions shall be removed to a depth of not less than three (3') feet below grade and no less than six (6") inches below the bottom of ball when plant is properly set at the required grade. The work of this section shall include the removal from the site of such rock or underground obstructions encountered at the cost of the Landscape Contractor.

O. Trees and large shrubs shall be staked as site conditions require. Position stakes to secure trees against seasonal prevailing winds.



P. Pruning and Mulching: Pruning shall be directed by the Landscape Architect and shall be pruned in accordance with standard horticultural practice following Fine Pruning, Class I pruning standards provided by the National Arborist Association.
1. Dead wood, suckers, broken and badly bruised branches shall be removed. General tipping of the branches is not permitted. Do not cut terminal branches.
2. Pruning shall be done with clean, sharp tools.
3. Immediately after planting operations are completed, all tree pits shall be covered with a layer of organic material two (2") inches in depth. This limit of the organic material for trees shall be the diameter of the plant pit.

Q. Steel Curbing Installation:
1. Curbing shall be aligned as indicated on plans. Stake out limits of steel curbing and obtain Owners approval prior to installation.
2. All steel curbing shall be free of kinks and abrupt bends.
3. Top of curbing shall be ½" maximum height above final finished grade.
4. Stakes are to be installed on the planting bed side of the curbing, as opposed to the grass side.
5. Do not install steel edging along sidewalks or curbs.
6. Cut steel edging at 45 degree angle where edging meets sidewalks or curbs.

3.3 CLEANUP AND ACCEPTANCE

A. Cleanup: During the work, the premises shall be kept neat and orderly at all times. Storage areas for all materials shall be so organized so that they, too, are neat and orderly. All trash and debris shall be removed from the site as work progresses. Keep paved areas clean by sweeping or hosing them at end of each work day.

END OF SECTION

01 TREE PLANTING DETAIL
NOT TO SCALE

TREE PLANTING DETAIL LEGEND AND NOTES

A. TREE: TREES SHALL CONFORM WITH LATEST AMERICAN STANDARD FOR NURSERY STOCK. www.anla.org

B. TREE PIT: WIDTH TO BE AT LEAST TWO (2) TIMES THE DIAMETER OF THE ROOT BALL CENTER TREE IN HOLE & REST ROOT BALL ON UNDISTURBED NATIVE SOIL.

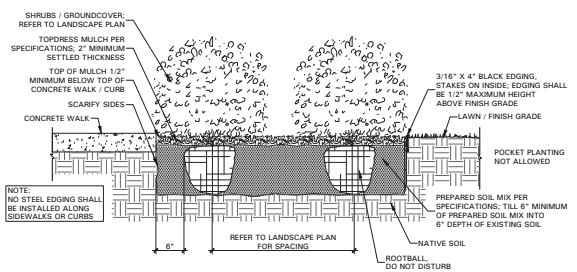
C. ROOT BALL: REMOVE TOP ⅓ BURLAP AND ANY OTHER FOREIGN OBJECT; CONTAINER GROWN STOCK TO BE INSPECTED FOR GIRDLING ROOTS.

D. ROOT FLARE: ENSURE THAT ROOT FLARE IS EXPOSED, FREE FROM MULCH, AND AT LEAST TWO INCHES ABOVE GRADE. TREES SHALL BE REJECTED WHEN GIRDLING ROOTS ARE PRESENT & ROOT FLARE IS NOT APPARENT.

E. ROOTBALL ANCHOR RING: REFER TO MANUFACTURER'S GUIDELINES FOR SIZING. PLACE ROOTBALL ANCHOR RING ON BASE OF ROOTBALL, TRUNK SHOULD BE IN THE CENTER OF THE RING.

F. 'U' BRACKET.

G. NAIL STAKE: REFER TO MANUFACTURER'S GUIDELINES FOR SIZING. INSTALL NAIL STAKES WITH HAMMER OR MALLET FIRMLY INTO UNDISTURBED GROUND. DRIVE NAIL STAKES FLUSH WITH "U" BRACKET ADJACENT TO ROOTBALL (DO NOT DISTURB ROOTBALL).



H. BACKFILL: USE EXISTING NATIVE SOIL (no amendments) WATER THOROUGHLY TO ELIMINATE AIR POCKETS.

I. MULCH: DOUBLE SHREDDED HARDWOOD MULCH 2 INCH SETTLED THICKNESS, WITH 2" HT. WATERING RING; ENSURE THAT ROOT FLARE IS EXPOSED, BELOW GROUND STAKE SHOULD NOT BE VISIBLE.

J. TREE STAKES:
TREE STAKE SOLUTIONS 'SAFETY STAKE' BELOW GROUND MODEL AVAILABLE FROM:
Tree Stake Solutions
ATTN: Jeff Tuley
(903) 676-6143
jeff@treestakesolutions.com

- EXISTING TREE TO BE REMOVED
- TREE PROTECTION FENCING TO REMAIN DURING CONSTRUCTION REFER TO 01/L1.01

01 TREE PROTECTIVE FENCING
NOT TO SCALE

TREE PRESERVATION NOTES

1. EXISTING TREES TO REMAIN SHALL BE PROTECTED DURING CONSTRUCTION FROM TREE STRUCTURE DAMAGE AND COMPACTION OF SOIL UNDER AND AROUND DRIP LINE (CANOPY) OF TREE.
2. IF ANY ROOT STRUCTURE IS DAMAGED DURING ADJACENT EXCAVATION / CONSTRUCTION, NOTIFY OWNER'S AUTHORIZED REPRESENTATIVE IMMEDIATELY. IT IS RECOMMENDED THAT A LICENSED ARBORIST BE SECURED FOR THE TREATMENT OF ANY POSSIBLE TREE WOUNDS.
3. NO DISTURBANCE OF THE SOIL GREATER THAN 4" SHALL BE LOCATED CLOSER TO THE TREE TRUNK THAN 1/2 THE DISTANCE OF THE DRIP LINE TO THE TREE TRUNK. A MINIMUM OF 75% OF THE DRIP LINE AND ROOT ZONE SHALL BE PRESERVED AT NATURAL GRADE.
4. ANY FINE GRADING DONE WITHIN THE CRITICAL ROOT ZONES OF THE PROTECTED TREES MUST BE DONE WITH LIGHT MACHINERY SUCH AS A BOBCAT OR LIGHT TRACTOR. NO EARTH MOVING EQUIPMENT WITH TRACKS IS ALLOWED WITHIN THE CRITICAL ROOT ZONE OF THE TREES.
5. NO MATERIALS INTENDED FOR USE IN CONSTRUCTION OR WASTE MATERIALS ACCUMULATED DUE TO EXCAVATION OR DEMOLITION SHALL BE PLACED WITHIN THE LIMITS OF THE DRIP LINE OF ANY TREE.
6. NO EQUIPMENT MAY BE CLEANED OR TOXIC SOLUTIONS, OR OTHER LIQUID CHEMICALS, SHALL BE DEPOSITED WITHIN THE LIMITS OF THE DRIP LINE OF A TREE, INCLUDING BUT NOT LIMITED TO: PAINT, OIL, SOLVENTS, ASPHALT, CONCRETE, MORTAR, PRIMERS, ETC.
7. NO SIGNS, WIRES OR OTHER ATTACHMENTS, OTHER THAN THOSE OF A PROTECTIVE NATURE, SHALL BE ATTACHED TO ANY TREE.
8. NO VEHICULAR / CONSTRUCTION EQUIPMENT TRAFFIC OR PARKING IS ALLOWED WITHIN THE LIMITS OF THE DRIP LINE OF TREES.
9. BORING OF UTILITIES MAY BE PERMITTED UNDER PROTECTED TREES IN CERTAIN CIRCUMSTANCES. THE MINIMUM LENGTH OF THE BORE SHALL BE THE WIDTH OF THE TREE'S CANOPY AND SHALL BE A MINIMUM DEPTH OF FORTY-EIGHT (48") INCHES.
10. IRRIGATION TRENCHING WHICH MUST BE DONE WITHIN THE CRITICAL ROOT ZONE OF A TREE SHALL BE DUG BY HAND AND ENTER THE AREA IN A RADIAL MANNER.
11. ALL TREES TO BE REMOVED FROM THE SITE SHALL BE FLAGGED BY THE CONTRACTOR WITH BRIGHT RED VINYL TAPE (3" WIDTH) WRAPPED AROUND THE MAIN TRUNK AT A HEIGHT OF FOUR (4') FEET ABOVE GRADE. FLAGGING SHALL BE APPROVED BY OWNER'S AUTHORIZED REPRESENTATIVE PRIOR TO ANY TREE REMOVAL. CONTRACTOR SHALL CONTACT OWNER'S AUTHORIZED REPRESENTATIVE WITH 72 HOURS NOTICE TO SCHEDULE ON-SITE MEETING.
12. ALL TREES TO REMAIN, AS NOTED ON DRAWINGS, SHALL HAVE PROTECTIVE FENCING LOCATED AT THE TREE'S DRIP LINE. THE PROTECTIVE FENCING MAY BE COMPRISED OF SNOW FENCING, ORANGE VINYL CONSTRUCTION FENCING, CHAIN LINK FENCE OR OTHER SIMILAR FENCING WITH A FOUR (4') FOOT APPROXIMATE HEIGHT. THE PROTECTIVE FENCING SHALL BE LOCATED AS INDICATED ON THE TREE PROTECTION DETAIL.
13. WHEN A LOW HANGING LIMB IS BROKEN DURING THE COURSE OF CONSTRUCTION, THE CONTRACTOR SHALL NOTIFY THE OWNER'S AUTHORIZED REPRESENTATIVE IMMEDIATELY. UNDER NO CIRCUMSTANCE SHALL THE CONTRACTOR PRUNE ANY PORTION OF THE DAMAGED TREE WITHOUT THE PRIOR APPROVAL BY THE OWNER'S AUTHORIZED REPRESENTATIVE.

Based on the information provided, all dimensions and luminaire locations shown represent recommended positions. The engineer and/or architect must determine applicability of the layout to existing or future field conditions.

This lighting pattern represents illumination levels calculated from laboratory data taken under controlled conditions utilizing current industry standard lamp ratings in accordance with Illuminating Engineering Society approved methods. Actual performance of any manufacturer's luminaire may vary due to variation in electrical voltage, tolerance in lamps and other variable field conditions.

CERTIFICATIONS/LISTINGS

SPECIFICATIONS

CONSTRUCTION -

- Stylish vertically finned die-cast solid top housing for maximum heat dissipation. Stops collection of unsightly debris from gathering on top of the housing.
- Rugged lower die-cast aluminum heat sink accelerates thermal management and optimizes PCB and optical performance.
- Separate optical and electrical compartment for optimum component operation.
- One piece die cut silicone gasket ensures weather proof seal around each individual LED for IP65 rating.
- Backlight Control (BC) option available for 85% spill light reduction, doesn't change fixture appearance or EPA. Recommended for Type III and Type IV distributions.
- Stamped bezel provides mechanical compression to seal the optical assembly.
- Weight - 45.0 pounds, EPA - 1.3ft^2
- Suitable for applications requiring 3G testing prescribed by ANSI C136.31

OPTICS -

- Choice of 72 brightness LED configurations with individual acrylic lenses specially designed for IES Type II, III,IV and V distributions.
- Auto optics designed for front row 1A and interior rows 2A.
- CCT: 3000K (80 CRI), 4000K (70CRI), 5000K (70 CRI) and turtle friendly Amber LED options.

ELECTRICAL -

- Universal input voltage 120-277 VAC, 50/60 Hz.
- Integral step-down transformer for 347V & 480V.
- Ambient operating temperature -40° C to 40° C.
- Automatic thermal self protection
- Drivers have greater than 90% power factor and less than 10% THD.
- Optional continuous dimming to 10% of dual circuitry provided.
- LED drivers have o output power over-voltage, over-current protection and short circuit protection with auto recovery.
- 1050 mA driver available with 90L configuration for increased lumen output.
- LED electrical assembly, including PR devices, consumes no power in the "off" state.
- Surge protection - 20KA; Turns fixtures off at the end of life. Includes LED for end of life indication.

CONTROLS -

- Drivers are 0-10V dimming standard. Photocell, occupancy sensor and wireless controls available for complete on/off and dimming controls.

FINISH -

- TGIC thermoset polyester powder paint finish applied at normal 2.5 mil thickness.

INSTALLATION -

- Two die-cast aluminum arm designs. The decorative arm offers a sleek upswept look while the straight arm follows the housings contoured lines for continuity of style.
- Fixture ships with arm installed for ease of installation and mounts to #2 drilling pattern.
- Wall bracket, mast arm fitter and pole are also available allowing easy mounting for virtually any application.

WARRANTY -

- Five year limited warranty

FOOTNOTES:

1- For BL option 90L and 60L: N/A 347V & 480V.
2- BL and CD cannot be combined.
3- Fuse option not available with universal voltage.
4- Select F# fusing option for 220V.
5- Photocell receptacle not available with BL option.
6- Recommended for Type III and IV distribution only.
7- Available in 350mA drive current only Type IV, 5M.
8- 0-10V fully adjustable dimming with automatic daylight calibration and different time delay settings, must order minimum of one SCP-REMOTE control to program dimming settings.
9- Must specify 120V, 208V, 240V or 277V; not available with PR option; consult factory for 347V and 480V applications, not available with BL or CD options.
10- Not available with AD arm.
11- Not available with 480V.
12- Not available with 347V or 480V.
13- Not available with WIR or WIRSC.
14- Not available with SCO, SCL, SCP or SCPW.

RNTS ROUND NON-TAPERED STEEL SERIES

RNTS –
N= 2-3/8"(60mm) O.D. x 4-3/4"(121mm) Tall Tenon
4N= 4"(102mm) O.D. x 4-7/8"(124mm) Tall Tenon

RPB3, RPB5 –
Bolt-On Mount,
2-Bolt Pattern

SF –
Single Flood
Pole Preparation

SPECIFICATIONS

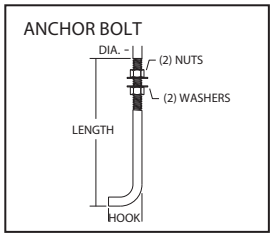
POLE SHAFT - Pole shaft is electro-welded ASTM-A500 Grade C steel tubing with a minimum yield strength of 46,000 psi. On Tenon Mount steel poles, tenon is high-strength pipe. Tenon N option is 2-3/8" O.D. x 4-34" tall. Tenon 4N option is 4" O.D. x 4-7/8" tall/ Steel round poles are 4" and 5" in diameter.

HAND HOLE - Standard hand-hole location is 12" above pole base. Poles 18' and above have a 3" x 6" reinforced hand-hole. Shorter poles have a 2" x 4" non-reinforced hand-hole.

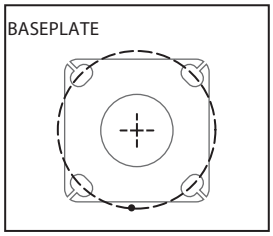
BASE - Pole base is ASTM-A36 hot-rolled steel plate with a minimum yield strength of 36,000 psi. Two-piece square base cover is optional.

ANCHOR BOLTS - Poles are furnished with anchor bolts featuring zinc-plated double nuts and washers. Galvanized anchor bolts are optional. Anchor bolts conform to ASTM F 1554-07a Grade 55 with a minimum yield strength of 55,000 psi.

GROUND LUG - Ground lug is standard.



DUPLEX RECEPTACLE - Weatherproof duplex receptacle is optional.



GROUND FAULT CIRCUIT INTERRUPTER - Self-testing ground fault circuit interrupter is optional.

FINISH - Each pole is finished with WLS DuraGrip® polyester powder coat finishing process to give the pole an exceptionally attractive appearance. The process electrostatically applies and thermally fuses a polyester powder to the pole. This unique protection process provides an extremely smooth and uniform finish which withstands extreme weather changes without cracking or peeling. DuraGrip® finish features a five-year limited warranty. Standard finish colors available for poles are bronze, black, platinum plus, buff, white, satin verde green, metallic silver, and graphite. Optional DuraGrip® Plus features added protection with a 3.0 to 5.0 mil thickness of polyester-powder coat finish plus an inner coating. This specially designed inner coating is a thermal plastic hydrocarbon resin applied to the inside of the pole to seal and protect against atmospheric and corrosive matter. DuraGrip® Plus finish features a seven-year limited warranty.

DETERMINING THE LUMINAIRE/POLE COMBINATION FOR YOUR APPLICATION

- Select luminaire from Luminaire Ordering Information.
- Select bracket configuration.
- Refer to luminaire EPA chart to determine EPA value.
- Select height of pole.
- Select MPH to match the wind speed in the application area. (Windspeed Map located in Appendix)
- Confirm the pole EPA that is equal to or exceeds the luminaire/bracket EPA as was previously determined.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Korey Brooks, *Planner*

CC: Ryan Miller, *Director of Planning and Zoning*

DATE: June 10, 2016

SUBJECT: SP2016-014; *Platinum Storage Site Plan*

Staff has postponed the *Platinum Storage: Warehouse/Office* case until the *June 28, 2016* Planning and Zoning Commission Work Session meeting. The purpose of this postponement is to allow the applicant more time to address staff's comments. This will not require any action of the Planning and Zoning Commission.

AGENDA
PLANNING AND ZONING COMMISSION WORK SESSION
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
June 28, 2016
6:00 P.M.

CALL TO ORDER

CONSENT AGENDA

1. **Approval of Minutes** for the *June 14, 2016* Planning and Zoning Commission meeting.

APPOINTMENTS

2. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

ACTION ITEMS

3. **SP2016-014** **(Korey)**
   Discuss and consider a request by Ron Valk of Platinum Storage Rockwall, LLC on behalf of Shawn Valk of Platinum Construction for the approval of site plan for a multi-tenant office/warehouse facility on a 2.692-acre parcel of land identified as Lot 3, Block A, Platinum Storage Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, located on the west side of T. L. Townsend Drive, south of the intersection of T. L. Townsend Drive and IH-30, and take any action necessary.

DISCUSSION ITEMS

4. **Z2016-020** **(Korey)**
   Hold a public hearing to discuss and consider a request by Sandra Peterson for the approval of a Specific Use Permit (SUP) to allow for a carport that does not meet the minimum setback requirements stipulated by Section 2.1.2, *Residential and Lodging Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] for a 0.231-acre parcel of land identified as Lot 10, Block D of Northshore, Phase 2A Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 509 Sunset Hill Drive, and take any action necessary

5. **Z2016-021** **(David)**
   Hold a public hearing to discuss and consider a request by Mike Hogue for the approval of a zoning amendment to Planned Development District 52 (PD-52) for the purpose of allowing townhomes on a 2.17-acre tract of land identified as Lot 1, Block 1, Allen Hogue Subdivision (*0.7910-acres*) and Lots 67 & 68, Block B, B. F. Boydston Addition (*1.257-acres*), City of Rockwall, Rockwall County, Texas, zoned Planned Development District 52 (PD-52) for Heavy Commercial (HC) District land uses, being addressed as 703, 705 & 709 E. Boydstun Avenue, and take any action necessary.

6. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2016-020: Final Plat for Fontanna Ranch, Phase II [*Approved*]
- ✓ P2016-028: Master Plat and Open Space Plan for the Ridgecrest Estates Subdivision [*Approved*]
- ✓ P2016-029: Preliminary Plat for the Ridgecrest Estates Subdivision [*Approved*]
- ✓ Z2016-013: Terracina Estates (AG to PD) (*2nd Reading*) [*Approved*]
- ✓ Z2016-017: Text Amendment for Used Motor Vehicle Sales [*Approved*]
- ✓ Z2016-018: Amendment to Planned Development District 74 (PD-74) (*1st Reading*) [*Approved*]
- ✓ MIS2016-008: Masonry Exception for 905 N. Alamo Street [*Approved*]
- ✓ SP2015-018: Variance to the Material Standards for RaceTrak Site Plan [*Approved*]
- ✓ SP2016-012: Variances for Pratt Site Plan [*Approved*]
- ✓ SP2016-013: Variance to the Material Standards for CareNow Site Plan [*Approved*]

ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator of the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 24th day of June, 2016 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MINUTES

PLANNING AND ZONING COMMISSION PUBLIC HEARING

City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
June 14, 2016
6:00 P.M.

I. CALL TO ORDER

Chairman Renfro called the meeting to order at 6:00 p.m. Present were, Commissioners Johnny Lyons, Tracy Logan, Annie Fishman, Sandra Whitley and John McCutcheon. Absent was Commissioner Patrick Trowbridge. Staff members present were Planning Director, Ryan Miller, Senior Planner, David Gonzales, Planner, Korey Brooks, Planning Coordinator, Laura Morale, and Civil Engineer, Jeremy White.

II. CONSENT AGENDA

1. Approval of Minutes for the May 31, 2016 Planning and Zoning Commission meeting.

2. P2016-020

Discuss and consider a request by Cameron Slown of FC Cuny Corporation on behalf of Randal Currington of Fontanna Ranch Phase II, LP for the approval of a final plat for Phase II of the Fontanna Ranch Subdivision containing 49 single-family residential lots on a 19.167-acre tract of land identified as Tract 5 of the J. A. Ramsey Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 64 (PD-64) for Single Family 16 (SF-16) land uses, generally located east of FM-549 and south of SH-276, and take any action necessary.

3. P2016-028

Discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of the owner Lakeside Church of Christ of Rockwall for the approval of a master plan/ open space plan for the Ridgecrest Subdivision containing 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.

4. P2016-029

Discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of the owner Lakeside Church of Christ of Rockwall for the approval of a preliminary plat for the Ridgecrest Subdivision containing 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.

Commissioner Lyons made a motion to approve the consent agenda. Commissioner McCutcheon seconded the motion, which passed by a vote of 6-0, with Commissioner Trowbridge absent.

III. APPOINTMENTS

5. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

Chairman Renfro noted that the item that was reviewed by the Architectural Review Board will be discussed later in the agenda.

IV. PUBLIC HEARING ITEMS

6. Z2016-017

Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 1, *Land Use Schedule*, and Section 2.1.8, *Auto and Marine-Related Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code for the purpose of changing the requirements for *Used Motor Vehicle Dealerships*, and take any action necessary.

Planning Director, Ryan Miller, gave brief explanation of item stating that staff was directed by City Council on May 16th to amend our current ordinance to allow for Used Automotive dealerships in a Light Industrial District by a Specific Use Permit. Currently they are only allowed as an accessory use to New Motor Vehicle dealerships in the City. The ordinance change would affectively allow them as a standalone use through a Specific Use Permit in a Light Industrial District.

Mr. Miller went on to explain that at the May 31st work session the Commission asked staff for a map of all the Light Industrial District properties be provided. Staff did provide that map as well as a copy of the proposed draft ordinance in the Commissions packet for review. A fifteen day notice was sent out in accordance with State Law and all local requirements were met as well. Mr. Miller stated he was available for questions.

Chairman Renfro opened the public hearing and asked anyone who wished to speak to come forth and do so.

Maxwell Fisher
900 Jackson Street Suite 640
Dallas, TX

Mr. Fisher came forward and stated that he will not be making the full presentation as it was already shown to the Commission in the work session. He went on to state he represents Echo Park and believes the ordinance should be adopted to allow Pre-Owned Auto Sales by SUP in the Light Industrial District as well as the IH-30 Overlay. He added that he was available for questions.

Chairman Renfro reminded the Commission that when this item was previously brought before them there were some questions concerning the motivation of the request and asked Mr. Miller to clarify what Council is directing the Commission to do to make sure everyone is clear.

Mr. Miller stated originally staff received the direction from Council and an ordinance was brought before the Commission three meetings ago and what that ordinance proposed to allow the Used Automotive Dealership by SUP in the Light Industrial District; however staff included that it should be allowed by right in a High Industrial District and also be restricted within certain Overlay Districts. That was voted down by the Planning and Zoning Commission by a vote of 6-1 and staff took it to the City Council and they made a motion to deny by a vote of 6-1and as part of that motion redirected staff to bring back an ordinance only allowing the Used Automotive Dealerships in a Light Industrial District with a Specific Use Permit and in accordance with that staff is bringing it back to the Commission.

Commissioner Logan asked for clarification of the automotive sales tax asked if that is a tax that goes to the State and therefore there is no income generated for the City by Used Car dealerships in Light Industrial or anywhere else. Mr. Miller stated there is a tax on real property, on inventory. Commissioner Logan asked in comparison with other business would it be significantly less. Mr. Miller stated that was a question he was unable to answer.

Chairman Renfro stated it was his understanding that when Commissioner Trowbridge and himself at the previous meeting the concern was that there is very few real-estate left especially in the IH-30 corridor and that is considered the gateway as travelers come in and exiting the City and therefore must be very conscientious and careful of what type of business uses go into that corridor. Although it is within the IH-30 Overlay District and there are restrictions built in but believes the concern was that this would be a standalone Used Car Dealership, unlike what is now where the New Car dealerships have a designated area within their dealerships for the used vehicles and currently there is an ordinance in place that allows for Used Auto Dealerships as

long as the business is ran in an enclosed building and is typically off the IH-30 overlay and deals with more internet sales and therefore most of the time it is not known what those buildings are. Chairman Renfro further asked if this was being done for the sense that another ordinance was needed for a specific use that he feels may never be used in that area but has to be in that area.

Mr. Miller stated that Council redirected staff because there was nothing in the original direction, and that staff was directed to provide an ordinance that made the change in the Light Industrial District standard, which is what is being brought forward at this time without the additional restrictions.

Chairman Renfro asked for more clarification as to why amendment was asked to be drawn up and stated he was unaware of a person or company was asking to come in to build a standalone car dealership and therefore we have to have an ordinance showing that the City allows that.

Mr. Miller stated Echo Park had an appointment item with City Council where they made the original request for Council to change the ordinance and that is what started this process off. At that time staff was directed to bring the original ordinance forward which staff did however added the additional restrictions and Council since has redirected staff to bring back this ordinance.

Commissioner McCutcheon asked if this was approved as its being brought forward would any of the current New/Used Car dealerships now be allowed to change to an only Used Vehicle dealership. Mr. Miller stated they would be required to apply for a Specific Use Permit and is discretionary to Planning and Zoning and City Council.

Commissioner Fishman asked if additional Used Car dealerships alone were to come into this area would they be required to come before the Commission or would they be allowed to go in by right. Mr. Miller stated that the only change being made requires a Specific Use Permit therefore any Used Car dealership coming into a Light Industrial District would be required to go through this discretionary process prior to being able to apply for a Certificate of Occupancy.

Chairman Renfro noted that that being the case it could be done on an individual case by case basis. Mr. Miller stated that was correct.

Commissioner McCutcheon expressed concern that although there could be good opportunities that come in but as a whole how will it affect the overall look if it becomes obsolete and and would end up as an empty parking lot as many of our neighboring cities have had that happen and expressed concern of Rockwall ending up like that and does not feel he has heard a good enough reason to allow this change and although Rockwall is more restrictive than other cities but also one of the smallest cities that does not have the land mass that other cities do and therefore have to be more conscientious of what is allowed.

Commissioner Fishman reiterated some of Commissioner McCutcheon's concerns stating that she feels that by allowing Used Car dealerships into this area how it will deter other businesses from wanting to come into Rockwall, for example some of the high end car dealerships will they be as inclined to come to Rockwall and although the product being presented is very nice, she is concerned with not knowing what the impact will be in the long term and has not heard enough information to change her position from when this was presented a few weeks ago.

Commissioner Logan stated that it was her understanding that for both New and Used Car dealerships motor vehicle sales tax goes to the State therefor all of the land that is dedicated to a car dealership produces, other than property tax revenue, no taxable benefit to the City and feels that allowing this use would add a negative aspect of putting more property invested in car dealerships, with Used Car dealerships being slightly lower in the chain than a New Car dealership.

Chairman Renfro asked the Commissioners if they were prepared to go with the same decision as they reached when it was brought before them a few weeks ago. He expressed concern with there being only so much property along the IH-30 corridor and when it's gone it's gone and therefore it is necessary to be careful with what is allowed to go in, feels that the market has shown that when there are nice flagship dealerships here and is concerned that when the Used

Car dealerships start coming in the New Car dealerships may feel the need to leave and then there would be the end result of who would occupy those nice New Car dealerships, it would most likely be more Used Car dealerships and will create the problem that some neighboring cities have ended up with.

Commissioner McCutcheon made motion to deny case Z2016-017. Chairman Renfro asked for clarification as to what was being denied if it was the introduction of a text amendment. Mr. Miller stated that by denying what is basically being said is to leave the ordinance as is. Commissioner Logan seconded the motion, which passed by a vote of 6-0, with Commissioner Trowbridge absent.

7. Z2016-018

Hold a public hearing to discuss and consider a request by Jeff Parker of the Skorburg Company on behalf of BH Balance IV, LLC for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan to allow for additional single-family residential lots and for the purpose of incorporating changes to the development standards contained in *Exhibit 'C'* of *Ordinance 14-26* for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, Texas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary.

Planning Director, Ryan Miller, gave brief explanation and background of the item stating the subject property was originally annexed into the City after it was put into a 212 Development Agreement. The original 212 Agreement allowed the property to have 810 single-family residential lots however when it was brought into the City it was changed to 658 single-family residential lots with a 59 acre general retail tract of land that was at the hard corner of John King Blvd. and FM 552. In October of 2012 it was amended to allow up to 691 lots and amended again in 2014 to allow 742 lots and that is where the current lot count stands. On March 13, 2015 the applicant submitted an application requesting to increase it to 762 lots at 2 units per acre and this request also included a new lot type that would be 50x120 foot lots, however that was denied and since that time period a year has passed and the applicant has resubmitted an application requesting to amend the concept plan to allow for a new lot type and to remove about 14.21 acres of land from the retail portion. Mr. Miller provided the Commission a map that showed where the 14.21 acres of land was depicted in the concept plan as Phase 10 and that would be a new lot type, lot type E, which would be a 50x120 foot lot with a minimum of 6,000 square feet and the applicant is proposing to incorporate 47 of those into the overall concept plan. This would increase the overall lot count from 742 lots to 789 lots and increase the density from 2 units per acre to 2.07 units per acre.

Mr. Miller went on to state that it should be noted that if the City Council chooses to approve this case, the Future Land Use map will need to be amended to change the designation for this area from a Commercial designation to a Low Density Residential designation and that has been added to the conditions of approval for this case.

Mr. Miller went on to state staff mailed out 334 notifications on May 27, 2016 and also sent out notices to the Stoney Hollow and Breezy Hill Homeowner's Associations. Of the notices sent out, staff received 7 notices returned in opposition of the request, 2 were provided for the Commission this evening and 5 were provided in the packet. Mr. Miller added the applicant was present and staff was available for questions.

Chairman Renfro opened the public hearing and asked the applicant to come forward.

Adam Buzcek
8214 Westchester Drive Suite 710
Dallas, TX

Mr. Buzcek came forward and provided a slide show of request which included other Skorburg projects in Rockwall which include Breezy Hill and Stone Creek. The slide show provided plat history, subject property location, proposed concept plan, zoning request, and development standards.

Mr. Buczek went on to give a brief history of the subject property stating that the original 212 Agreement back in 2007 when the property was purchased had all single-family zoning with up to 810 residential lots and it accommodated an area for a school site, because at that time Rockwall Independent School District had expressed interest in wanting a site on the project. In 2009 with the direction of Council and working with staff, they looked to rezone and improve the PD by zoning with a 55 acre commercial site at the south, that was the second version of the item and it reduced the lot count to 658 lots because they converted form residential to commercial maintaining the 2 lots per acre for overall residential density. In 2012 the PD was once again amended the PD for 691 residential units and RISD did not want to build the school site in Breezy Hill therefore they made a master plan that conformed to the 2 units per acre and kept the same lot mix. In 2014 a proposal for 50 foot product was proposed and that request was denied at that time and now there are currently 60 foot lots along the retail and that request was denied at that time. The reason that was done is due to the success of the 50 foot product and the 60 foot product harmoniously co-existing in pods in a transitional zoning from the retail of the Tom Thumb center by Stone Creek was very successful and was a different product line and saw that they were running out of that lot mix.

Mr. Buczek stated that they are before the Commission now 15 months later asking for the City to approve and support their request for the 50 foot product of lots that would be a transitional zoning from the remaining commercial which will be approximately 20 acres and leaving about 20 acres on the hard corner and then transition to the proposed 50's and then it would transition to 60's, 70's, 80's and then the half acre lots.

Mr. Buczek went on to show slide show that showed subject property location, trail system, open space plan. If request is approved it will have a residential increase of approximately 10 acres the residential units would increase from 741 to 789 which is still under the original 810 lot vision before the commercial component was added. The residential density goes up 700th of an acre from 2.0 to 2.07. M. Buczek went on to state reasons they feel this request should be approved is because it is a logical transitional zoning between the commercial and that has been proven by Stone Creek, the 50's and 60's have harmoniously existed. They are high quality and high price point and the builder would be Windsor Homes. This proposal would offer some diversity of housing product for Breezy Hill which it currently does not have. Stone Creek will be out of that lot type by the end of this year. He went on to state that they feel the remaining 20 acres of commercial will still accommodate a good anchor and some pad sites down the road. The projected price points will be 280's 290's and mid 300's that is what is selling in Stone Creek currently. The projected square footage is 1800square feet minimum but most of the product that they are selling is in the 2,000's and goes as high as 4,000.

Mr. Buzcek stated he and his team were available for questions.

Chairman Renfro asked what the square footage range would be. Mr. Buzcek stated they would be 1,800 to 4,000 and for this area would be predominantly 2,400 to 3,500 square feet and the price range for those would be the high 280's to mid-300.

Chairman Renfro stated he read the concerns of the residents and one major concern that was expressed by numerous residents was that this product type is going to either cap or reduce market values in adjacent neighborhoods and asked what a response to that concern would be. Mr. Buczek stated his response would be to look at Stone Creek and look at Breezy Hill the 50 foot lots have not dragged the 60 foot lots down at all. In Stone Creek have had 50 foot product since 2009 and feels it is just a different product type and looking at the concept plan you can see it is 400 acres and was originally intended to be a life cycle neighborhood and Stone Creek had the 50x120 component in it although Breezy Hill did not but it did not start out with a retail component it started out all residential but after Council's direction the retail component was added with the thinking that it could go back to residential as the market dictated. Now realizing that much commercial is not necessary and is not the highest best land use they would like to reduce the 20 acres of commercial and incorporate that same transitional buffer that was done in Stone Creek. Looking at the price point history they have exceeded the price points in all categories including in every lot category, so in answer does not feel the price values of adjacent homes will be affected.

Commissioner Logan asked concerning the original concept plan that included the site for the school was that when it was proposing 810 lots. Mr. Buczek stated it was.

Commissioner Logan asked what year they began to produce the majority of homes. Mr. Buczek stated it was in 2012. Commissioner Logan expressed concern of what the residents that originally bought in Breezy Hill with the premise that the developer established when they made their big investment and now that is being changed how that would cause a feeling to them of having been misguided of what would be developed in subject property when they first bought their homes.

Commissioner Whitley expressed stated she understood the change from commercial to residential and is not opposed to that but her concern is with arguments that focus on the price points, aside from the profit motive, why not just continue with the 60 foot lots in this particular section as opposed to bringing it down to the 50 foot lots. Mr. Buczek stated there was a clear and pristine answer and that is that the residual land at Stone Creek is entirely zoned for 60 foot lots, and therefore there is an abundant amount of 60 foot lots and zero 50 foot lots left in Stone Creek. There are about 300 of the 60 foot lots in the balance of the Stone Creek Property and that is not to say it will all be developed that way, may choose to do bigger lots but there is plenty of 60 foot lots for that market demand for that lot size, but there is zero on the 50 foot market and there are a lot of people that do not want to pay and maintain a 60 foot lot. If the 50 foot lots are approved it will be a high end product just as the 60 foot product is, Windsor Homes will be the builder.

Chairman Renfro noted again this is a public hearing and asked those who wanted to speak to form a line and come forward.

Amanda Warner
890 Pleasant View Dr.
Rockwall, TX

Ms. Warner came forward and stated she had questions for the developer. One, what is the percentage sold of the half acres, the 80 foots, and the 70 foots that are currently already established in the neighborhood. Two, what is the average price of what is existing, either built or in the process of being built as far as the price point.

Kelli Nori
4189 Lorion Drive
Rockwall, TXX

Ms. Nori came forward and stated she is in opposition of the request. She stated she moved to Rockwall because these types of developments were available where they weren't available somewhere else and wants to keep the value of her home. She feels that by bringing in the proposed product it will drive the value of her property down and affects the investment that they made. They made the investment with the understanding that the minimum standards were set at the threshold and now the developer wants to lower them. She doesn't have an issue if they were kept at the 60 foot lots its going down to the 50 foot lot that makes a big difference. Also, she stated it was her understanding that the 50 foot lots of which the developer just mentioned had sold two lots was having trouble selling those due to the fact that Windsor Homes does not have a floor plan that fits the 50 foot lots.

Dave Parks
3718 Drewsbury Drive
Rockwall, TX

Mr. Parks stated his opposition to the proposal. He moved to Rockwall and made a contract to build a home in Breezy Hill in November of 2014 and at that time their builder relayed to them that the developer had certain limits to the lot and house size and sold us on Breezy Hill being a premiere level home neighborhood, the next step up from Stoney Creek and there would be a certain lot size and the price point ranges would be that of 350's to 500's so therefore felt good about making the decision to make the investment. Feels the developer changing it now is wrong and lacks integrity on their part.

Nancy Parks
3718 Drewsbury Drive
Rockwall, TX

Ms. Parks came forward and stated she is the wife of Mr. Parks that just spoke and she also is in opposition to the request. She is a real estate agent here in Rockwall and one of the things she can say is selling a house in Stone Creek versus selling a house in Breezy Hill, there is a quite a bit of a price difference. They came to Rockwall from New York and paid a premium to live in that neighborhood and would like to keep that neighborhood like it is and that is a premium neighborhood. Has no issue if they would like to go back to 60 foot lots.

Norm Fontan
805 Calm Crest Drive
Rockwall, TX

Mr. Fontane expressed his opposition to the request. He mentioned the earlier discussion about the used car lot and what kind of town we want Rockwall to be, feels the desire should be for it to be a town everyone is proud of and he is very proud to have moved here from Michigan. He would like for the lot sizes to stay the same or even bigger because it is beautiful there and by adding more smaller homes the character of the neighborhood would be lost urged the Commission to vote against the proposal.

Julli Cavalli
721 Calm Crest Drive
Rockwall, TX

Mrs. Cavalli came forward and stated her opposition of the request. She moved here from Georgia over a year ago and moved into a half acre in Breezy Hill and did so to get away from the feel of being so close to other properties and the sight of so much concrete. They looked into Stoney Creek at the start of their home search but felt the houses there were just too close together. She also feels it will affect the price value of her home and the look of her neighborhood. Feels the developer should stay with the original plan they had when they created Breezy Hill because that is what was sold to them and that should be honored.

David Cavalli
721 Calm Crest Drive
Rockwall, TX

Mr. Cavalli came forward and stated he is the spouse of Ms. Julli Cavalli who just spoke and he is also in opposition of the request and agrees with all the concerns his wife spoke of, but wanted to add that in looking at the 50 foot lots that are supposed to be transitional, the commercial and the rest of the neighborhood but in looking at that feels there is a big fault in their logic because half of the commercial is backed up to 60 foot lots and therefore is not really a transitional. He feels it is more about the product. Both Stone Creek and Breezy Hill are both beautiful developments for Rockwall but feels the developer is trying to get more for them, while taking away what was promised to the residents of Breezy Hill.

Chairman Renfro asked if there was anyone else wishing to come forward and speak, there being no one indicating such, Chairman Renfro closed the public hearing and asked the applicant to come back up for rebuttal.

Chairman Renfro asked Mr. Buczek if he could start from the beginning of the concerns and questions that were shared starting with the price points. Mr. Buczek began with the question concerning the average price on all lot sizes that is a statistic that is not really tracked cannot give a specific number but if he had to guess his prognostication would be that they are probably averaging somewhere around $400,000 to $525,000 somewhere in that range between all size houses.

Chairman Renfro asked concerning the value, minimum standards were 60 foot lots and question of those lots being harder to sell. Mr. Buczek stated they have been selling the 60 foot lots since 2009 in Stone Creek so the answer is no, there has not been a problem selling 60 foot lots and Windsor has floor plans that fit the customer can come in and pick a lot there are lots to choose from between both master plans.

Chairman Renfro asked about the question that came up concerning the minimal lot size on original plan being 60 foot and it was never disclosed to the residents of any plan for 50 foot lots when they made their purchase. Mr. Buczek stated that is correct because they never had a 50 foot lot type in Breezy Hill since day one going back to 2012. The comment that was made concerning why didn't the developer disclose that on a map during time of purchase, but at that time not being sure if that would be introduced, feels it is much easier to add something at a later time than retract something form the plan that was already offered. Markets, demands and cycles change and PD's are always subject to potentially re-opened and modified as the market conditions change when new market opportunities present themselves or go away.

Chairman Renfro asked why the sixty foot product would not work in this particular location. Mr. Buczek stated it would work in time, but it would come down to the loss they are taking by losing part of the commercial by turning it into residential and in turn losing profit, but feels that the market has spoken and with this commercial are sitting there the last three years with nothing coming in. They are trying to have a differentiated product because it is a differentiated price point and a differentiated product line and it's only 10 acres of land out of 400 acres, and although he does understand everyone's concerns he asks that the look at the price points of Windsor Homes on this product and can be assured that this price point with this square footage is not going to bring down values but instead will enhance the values for the 60 foot lots that are to the north of the site.

Mr. Buczek went on to state that after all the discussion and the concerns of the neighbors if it would appease the Commission and the neighbors to some degree to convert the lots that are on the north end edge of the ten acres to make those all 60's they would be willing to do that. If that is something that can be considered it is an option for them. What they are trying to do is to have the different product on a small piece of land that has no traffic circulation connectivity with any of the other phases of Breezy Hill. It will have its own dedicated entrance in and out, out of John King. It is like its own pod within the master plan neighborhood.

Commissioner Fishman expressed concern that the smaller lots to eventually turn into transitional properties especially when they're backed up to retail. And although that may be something that will happen in the very near future, it is still a concern. Mr. Buczek stated they would be willing to add a deed restriction for this lot type that would not allow a property to be rented for longer than a 12 month period.

Commissioner Logan asked concerning the j-swing garages versus the front entry garages that one resident that spoke had concerns about. Mr. Buczek stated the 60 foot wide lot does afford more options with a two in one garage floor plan. The 50 foot lot does not it is a front entry product like the Stone Creek 50 foot product but the visual simulation of these 50's will have zero impact on the visual streetscape of the rest of Breezy Hill because the only way you'll be driving through there is if you live there.

Chairman Renfro asked concerning the open space. Mr. Buczek stated the minimum was 20% and according to the concept plan they are exceeding the open space requirement.

There being no other questions for the applicant or staff, Chairman Renfro brought the item back to the Commission for discussion.

Commissioner Whitley point of clarification if the Commission denies the request, would it be a year before they can come back or can a motion to approve be made with the amendment that all the lots be 60 foot, how would that work. Mr. Miller stated that the options are to approve and that would go onto Council and require a simple majority for approval. If a motion was made to deny the request and that were to pass that would kick in the three quarter majority vote meaning a super majority would be needed to approve the case by Council. If a recommendation by the Commission be made to Council to incorporate 60's as the applicant offered on the northern part that would be a recommendation to approve with those additional recommendations.

Commissioner Whitley asked concerning the time frame the applicant would be required to wait before making another application if the request is denied. Mr. Miller explained that if Council denies the request, they're prohibited from bringing back the same request for a period of one year. However, the ordinance calls for a substantial change to be able to bring the request prior to the one year and the Planning and Zoning Commission is the body that makes the determination on whether or not it is a substantial change. If the applicant were to bring something back the Planning Director has the ability to allow that to come in, however typically it is brought to the Planning and Zoning Commission to make the determination if there is a substantial change.

Commissioner Lyons stated that he feels that the community would be best served in this situation by sticking with the 60's the reason being that that is what the plan has been on this portion of it and feels many of the residents did purchase their homes with that understanding that there was not going to be smaller lots and 60's was the standard. Feels it is not much of a difference from 50's to 60's and the developer would still make a good profit and remaining consistent to what they committed to the residents.

Commissioner Lyons made a motion to deny case Z2016-018. Chairman Renfro asked staff for clarification if the motion is to deny but Commissioner Lyons amends it to add the 60 foot lots, does he have to deny it. Mr. Miller explained if Commissioner Lyons denies the recommendation for the 60 foot lots can be made to City Council.

Commissioner Lyons made a motion to approve case Z2016-018 with the amendment to make the lots from 50 foot lots to 60 foot lots.

Commissioner Whitley asked for clarification if all would be 60 foot lots and not just the contiguous lots that the applicant discussed. Chairman Renfro clarified motion was to make all the lots 60 foot lots, there would be no 50's.

Commissioner McCutcheon commented on point of order as far as if the Commission makes this change and it's approved, what are City Councils options if they chose to approve it with 50's. Mr. Miller stated City Council could approve the request as presented, and it would require a simple majority vote.

Commissioner Logan commented on what the developer said concerning reason they are proposing the request is because they already have so many of the 60 foot lots and that only attracts a certain size of home owner and had concerns. Mr. Miller pointed out that a second motion was required before further discussion could take place.

Commissioner McCutcheon seconded the motion. Commissioner Logan expressed concern of tying down the developer with all 60's when they have so many 60's that have not been sold yet and that only attracts a certain income level and sees how they are interested in drawing different income levels for the entire neighborhood.

Chairman Renfro noted there was a motion on the table and called for a vote. The motion passed by a vote of 6-0, with Commissioner Trowbridge absent.

V. ACTION ITEMS

8. MIS2016-008

Discuss and consider a request by Theresa and Ronald Briones for the approval of an exception to the minimum masonry requirements stipulated in Section 3.1, *General Residential District Standards*, of Article V, *District Development Standards*, of the Unified Development Code, for a 0.248-acre parcel of land identified as part of Lot 7, Block 5, Garner Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 905 N. Alamo Street/906 N. West Street, and take any action necessary.

Planner, Korey Brooks, gave explanation of request stating the applicant is requesting to construct a new home on the vacant lot at 905 N. Alamo Street and they want to utilize Hardy Plank or a similar siding material. The subject property is located just north of the intersection of Heath Street and N. Alamo Street and is zoned Single Family 10 District. According to the UDC, the minimum masonry requirement for exterior walls on structures that are 120 square feet or

greater is 80%; with a maximum of 50% of this masonry requirement being permitted to be Hardy Plank, stucco or a similar cementaceous material. Additionally, the code states that exceptions to these requirements may be permitted on a case-by-case basis by the City Council. The applicant did submit building elevations and photos of other homes in the neighborhood that have Hardy Board or similar siding.

Mr. Brooks further stated that additionally, the applicant has stated in a letter submitted to staff that the purpose of requesting the masonry exception is to match the materials and architectural style of the adjacent properties. Also something else to note is that the majority of the structures on the adjacent properties utilize vinyl/wood siding or a similar cementaceous lap siding material.

Mr. Brooks stated he has a sample of the product that is being proposed and has passed that around for the Commissions review and the applicant was present and available for questions, as well as staff.

Commissioner McCutcheon asked concerning sample if that was the actual color that would be used. Mr. Brooks stated he would refer that question to the applicant.

Chairman Renfro asked the applicant to come forward and speak.

Theresa Briones
1401 Bayline
Rockwall, TX

Ms. Briones came forward and answered Commissioner McCutcheon's question stating that the color sample presented is not the color that she plans on doing a light gray. She explained reason for request was to keep the same look of the existing neighborhood.

There being no further questions for the applicant or staff, Chairman Renfro brought the item back to the Commission for discussion.

Commissioner McCutcheon made a motion to pass MIS2016-008. Commissioner Whitley seconded the motion which passed by a vote of 6-0, with Commissioner Trowbridge absent.

9. SP2015-018

Discuss and consider a request by Brad Williams of Winstead PC on behalf of RaceTrac for the approval of an amended site plan for a retail store with gasoline sales on a 2.46-acre parcel of land identified as Lots 1R & 2R of the Woods at Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) District, located at the southeast corner of the intersection of Ridge Road and Yellow Jacket Lane, and take any action necessary.

Senior Planner, David Gonzales, gave brief explanation of request stating the subject property is located on the southeast corner of Ridge Road and Yellow Jacket and stated as the Commission may recall the applicant was before the Commission in December of 2015 requesting an amendment to the site plan specifically to the elevations at that time, and part of that request was concerning the secondary materials to the building's elevations. At that time they had brought forward a material that was not only EIFS but also trek board. Mr. Gonzales passed around a sample of material for the Commissions review and noted reminded the Commission that after both the Architectural Review Board and the Planning Commission's approval it did go to City Council and the variance to that particular material and the allowance to the secondary material to exceed 10% was approved however, after having put up a mockup of the trex board they realized it did not work and now are coming forward with another material they are proposing which is a compact wood material that looks more like wood but is not a 100% wood product and will be considered secondary material. Mr. Gonzales provided a spec sheet of the material for the Commission's review as well as a calculation sheet.

Mr. Gonzales further noted that the purpose of the request is not only for the increase of the secondary material but also for a change in the elevation which includes the tower element has been removed however what the approved elevation of 2015 and the proposed elevation, the

change is a patio area that has been extended on the north side of the building they are including a roll of glass that will be an open air type patio which they can close in the winter. That changed required them to increase the secondary material and those percentages and numbers are shown on the calculation report provided to the Commission. Mr. Gonzales gave a brief breakdown of the numbers by explaining that staff essentially reviews elevations for each elevation and in this case the top portion of the calculation sheet indicates an average of secondary material of each elevation and that can be anywhere from 10% to 29% for an average of 21% however with the elevations that were brought forward in December, that elevation total was for the entire building and that was a 14%, the purpose of the calculation report was to compare the numbers of the new proposed numbers as opposed to those which were brought in December.

Mr. Gonzales stated the applicant was present and staff was available for questions.

Chairman Renfro asked the applicant to come forward.

Brad Williams
2728 N. Harwood
Dallas, TX

Mr. Williams came forward and stated he represents RaceTrac and provided a slide show that showed pictures of proposed perspectives and changes. The patio is what is driving the changes RaceTrac felt that adding the enclosed patio would be more useful for the customers for a year round use and one of the reasons to eliminate the tower was also to direct the customers to the front entrance. He further noted that the illustration provided helps show the change in materials. Looking at the old elevation and the new elevations there is a very small increase in the secondary materials. Mr. Williams went through a comparison of trex versus compact wood. He stated he is available for any questions.

Chairman Renfro asked concerning the difference in the years of warranty between the two materials. Mr. Williams explained that the trex is warrantied for ten years for its intended application as a deck and when taking the trex out of the deck and using it in the way that is being proposed the question was why that warranty wouldn't continue to apply, so it is a ten year as a deck, and the compact wood is warrantied for the proposed application interior as well as exterior.

Commissioner Logan expressed concern of compact wood not looking more like real wood than the trex asked staff if it was a variance to stone. Mr. Gonzales stated the trex board is simply a variance to allow for more than 10% of a secondary material and they do meet the stone requirement.

Commissioner McCutcheon asked staff concerning the stone increase appears there is more stone than what was shown initially. Mr. Gonzales state there is stone in the interior of the patio area and that is the reason for the increase and the interior wall is not part of the calculation.

Chairman Renfro asked for discussion or motions from the Commission.

Commissioner Fishman made a motion to approve the item with staff recommendations. Commissioner McCutcheon seconded the motion which passed by a vote of 6-0, with Commissioner Trowbridge absent.

10. SP2016-012
Discuss and consider a request by Chet Leugers, PE of Pacheco Koch on behalf of Michael Hampton of the Rockwall Economic Development Corporation for the approval of a site plan for a warehouse/manufacturing facility on a 30.6-acre portion of a larger 86.806-acre tract of land identified as Tract 1 of the H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the northwest corner of Discovery Boulevard and Data Drive, and take any action necessary.

Senior Planner, David Gonzales, gave brief explanations of request stating the subject property is located within the Rockwall Technology Park along Data Drive and Discovery Blvd. The applicant, Pratt Industries a Georgia-based packaging company, that is requesting to construct

389,500 SF warehouse/manufacturing facility and will be taking up a 30.6-acre tract of land, it is zoned Light Industrial there are three main points of access to the site.

Mr. Gonzales went on to explain that as discussed in the work session the parking for the site with it being 389,000 square feet facility does require 389 parking spots and that will be a variance they are requesting. With consideration to the site plan they do meet the elevations, landscape plan, treescape plan and photometric plan within the Unified Development Code for the Light Industrial District with the exception of the variances that are being requested. Concerning the treescape plan looking at the site it is a vacant tract of land and has quite a few trees on it, the applicant will be removing about 3,700 inches from the site but the majority of those are cedar trees and within the City's ordinance are mitigated at 50% of those trees that are over 11 inches and 2,600 of the trees are considered not protected. Also within the tree mitigation there are two elm trees that total 18 inches and for those removal does require Planning Commission's approval. Total mitigation will be 576 inches for the property, however they will be providing 192 3 inch calper trees minimum size trees for the entire site and that will clear out the balance for the mitigation and will have no trees owed.

Mr. Gonzales further noted that concerning the variances the applicant is requesting, since it is not in an Overlay District, they will require a simple majority vote by City Council. There are six variances to the Unified Development Code, starting with the parking. The UDC requires them to have 389 parking spaces but the applicant will be providing 132 spaces and that is based on the number of employees that will be on site and therefore are asking for the parking to be reduced. The next variance is for tilt wall construction and that is considered on a case by case basis through City Council and that leads to the material variance stone or brick is required but since it will be 100% tilt wall, 20% cultured stone is required on walls that are visible from a public street. They will also be requesting variances to the vertical and horizontal articulations as well as a variance to the detention base. Anytime an applicant comes in and they have on site detention as the applicant in this case does, they are required one tree per 750 square feet of dry detention area. In this case the applicant indicated that the detention area will be only temporary because the REDC has a regional detention that connects to the property, and this is to eliminate the need for the detention for this particular site.

Mr. Gonzales went on to note that all six variances that are being requested require a simple majority vote from City Council, and staff and applicant are available for questions.

Commissioner McCutcheon asked staff except for the parking and detention variances, did the existing Bimbo as well as neighboring properties ask for similar variances. Mr. Gonzales stated they have.

Commissioner Logan asked concerning the detention plan. Mr. Gonzales stated the applicant would be better fitted to answer that question.

Chairman Renfro asked the applicant to come forward.

Michael Hampton
REDC
2610 Observation Trail
Rockwall, TX

Mr. Hampton came forward and gave brief summary of request stating this particular spot is referred to as Phase IV has about 95 acres of developable property that the REDC has been actively marketing out area. Pacheco Koch is the engineer on the project and REDC is working with them for the detention pond it is on the far northwest corner that will serve as a detention pond for these 95 acres have permission to utilize an existing lake in the Discovery Lakes subdivision. The temporary pond primarily is to serve the western half because their timeline is faster than that of the REDC although they are actively working on completing that. The applicant would prefer not to build the temporary pond only to have to fill it once the permanent one that is under way is completed.

Mr. Hampton went on to explain that the REDC goes through a lengthy process that is used to qualify prospects and part of that is understanding not only the company and their financials but also the quality of business they will run. There is several building in the surrounding area in

which variances similar to these have been approved. They will have very extensive landscaping plan to embellish the buildings overall look.

Chairman Renfro brought the item back to the Commission for discussion. There being no questions or discussion, Chairman Renfro made a motion to approve the item. Commissioner McCutcheon seconded the motion, which passed by a vote of 6-0, with Commissioner Trowbridge absent.

11. SP2016-013

Discuss and consider a request by Clay Cristy of ClayMoore Engineering on behalf of the owner Tom R. Briscoe of Briscoe Oil, Inc. for the approval of a *PD Site Plan* for an urgent care facility on a 1.042-acre tract of land identified as Lots 1 & 2, Block A, Briscoe/Hillcrest Addition and Tract 41-2 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Summit Office Subdistrict* and the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of Horizon Road [FM3097] and the IH-30 frontage road, and take any action necessary.

Senior Planner, David Gonzales, gave brief explanation of request stating that on May 11, 2016, the applicant submitted an application for a PD site plan showing the proposed layout of a 6,235 SF urgent care facility on a 1.042-acre tract of land and is located directly east of Trend Tower adjacent to the IH-30 Frontage Road and Horizon Road and is zoned Planned Development District 32 and that PD Development Plan was approved in May of this year.

Mr. Gonzales went on to state that according to Ordinance No. 10-21, the proposed use is permitted by-right in the Summit Office Subdistrict, and will not require any additional approvals by the Planning and Zoning Commission. The submitted site plan, building elevations, landscape plan, and photometric plan conform to the technical requirements contained within the UDC and Planned Development District. The applicant is requesting a variance to the IH-30 Overlay District standards of the UDC and Mr. Gonzales added that as a note, approval of a variance request to the IH-30 OV requires passage of a 3/4 majority vote of City Council and the approval of a variance to the IH-30 OV is a discretionary decision for the City Council. The request for the masonry requirements according to the UDC, each exterior wall is required to be constructed of 90% masonry materials on walls visible from a public street or open space, including a minimum of 20% being natural or quarried stone. In this case, the proposed building will be comprised of 100% masonry materials with two of the facades incorporating a minimum of 35% natural chopped stone. The two remaining facades, the north and west elevations, do not meet the minimum 20% standard for stone. A variance to allow for not meeting the minimum stone standard requires a ¾ majority vote by the City Council for approval.

Mr. Gonzales further stated that on May 31, 2016, the Architectural Review Board reviewed the proposed site plan and building elevations. Through internal discussion with the applicant, the ARB recommended removing the stone from the tower element adjacent to IH-30 and placing it on the southern elevation for the purpose of wrapping the chopped stone around the building from the southern elevation to eastern elevation. This will also have the effect of increasing the stone that faces onto Pinnacle Way Drive. In lieu of stone on the tower element the ARB recommended that the applicant utilize one of the two proposed brick materials. In addition, the ARB agreed with the applicant that the western elevation did not need to incorporate stone since it will face Trend Tower and not be visible from a public right-of-way. Finally, the ARB recommended that the applicant consider incorporating more adornments in the banding elements and trim the windows out in opposing materials for example if the wall is stone then what would be uses is brick to frame the windows and vice-versa. The applicant agreed with the ARB's assessment and provided elevations demonstrating conformance to these recommendations.

Mr. Gonzales stated the applicant was present and staff is available for questions.

Chairman Renfro asked the applicant to come forward.

Greg Stoggner
12720 Hillcrest Suite 650
Dallas, TX

Mr. Stoggner came forward and stated they met with the Architectural Review Board and received good suggestions from them north elevations were originally stone, the Board recommended those go to brick which they will do and the building will be 19.98% stone and is 100% masonry therefor he feels they meet the intent.

Chairman Renfro brought the item back to the Commission for discussion.

Commissioner Lyons made a motion to approve the item with staff recommendations. Commissioner Fishman seconded the motion which passed by a vote of 6-0, with Commissioner Trowbridge absent.

12. SP2016-014

Discuss and consider a request by Ron Valk of Platinum Storage Rockwall, LLC on behalf of Shawn Valk of Platinum Construction for the approval of site plan for a multi-tenant office/warehouse facility on a 2.692-acre parcel of land identified as Lot 3, Block A, Platinum Storage Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, located on the west side of T. L. Townsend Drive, south of the intersection of T. L. Townsend Drive and IH-30, and take any action necessary.

Chairman Renfro noted this item has been tabled until further notice.

VI. DISCUSSION ITEMS

13. Director's Report of post Council meeting outcomes of Planning & Zoning cases.

- ✓ P2016-021: Preliminary Plat for Lot 1, Block A, Rockwall CCA Addition [*Approved*]
- ✓ P2016-022: Preliminary Plat for Lot 1, Block 1, Dobbs Elementary Addition [*Approved*]
- ✓ P2016-026: Lot 6, Block M, Sanger Brothers Addition [*Approved*]
- ✓ SP2016-006: Variances for Service King Collision Repair [*Approved*]
- ✓ Z2016-012: SUP for Kroger Gas Station at 2901 Ridge Road (*2nd Reading*) [*Approved*]
- ✓ Z2016-013: Terracina Estates (AG to PD) (*1st Reading*) [*Approved*]
- ✓ Z2016-014: Ridgecrest Subdivision (AG to PD) (2nd *Reading*) [*Approved*]
- ✓ Z2016-015: Amendment to Planned Development District 79 (PD-79) (2nd *Reading*) [*Approved*]
- ✓ Z2016-016: Text Amendment to Southside Residential Neighborhood Overlay (SRO) District (2nd *Reading*) [*Approved*]

Planning Director, Ryan Miller, **provided a brief update about the outcome of the above referenced case at the City Council meeting. No discussion took place concerning this agenda item.**

Mr. Miller added that the Texas Chapter of the APA is providing a workshop and the Commission is welcome to attend, information regarding this will be sent via email.

VII. ADJOURNMENT

Chairman Renfro adjourned the meeting at 8:29 p.m.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2016.

_____

Craig Renfro, Chairman

Attest:

Laura Morales, Planning Coordinator

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 06/28/2016

APPLICANT: Ron Valk; *Platinum Storage Rockwall, LLC*

AGENDA ITEM: **SP2016-014;** Platinum Storage

SUMMARY:

Discuss and consider a request by Ron Valk of Platinum Storage Rockwall, LLC on behalf of Shawn Valk of Platinum Construction for the approval of site plan for a multi-tenant office/warehouse facility on a 2.692-acre parcel of land identified as Lot 3, Block A, Platinum Storage Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, located on the west side of T. L. Townsend Drive, south of the intersection of T. L. Townsend Drive and IH-30, and take any action necessary.

PURPOSE:

The applicant is requesting approval of a Site Plan for the purpose of constructing two (2) office/warehouses (one ~ 9,180 sq. ft. and the other ~ 11,300 sq. ft.). The 2.692-acre parcel is zoned Commercial (C) District, is within the IH-30 Overlay (IH-30 OV) District, and is generally located on the west side of T. L. Townsend Drive, south of the intersection of T. L. Townsend Drive and IH-30.

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Section 4.5, *Commercial (C) District,* of Article V, *District Development Standards*, of the Unified Development Code (UDC), the proposed use *(i.e. an office/warehouse)* is a use permitted by right and will not require any additional approvals from the Planning and Zoning Commission. The submitted site plan, landscape plan, and photometric plan conform to the technical requirements contained within the Unified Development Code (UDC) for properties located in a Commercial (C) District and located within the IH-30 Overlay (IH-30 OV) District. A summary of the density and dimensional requirements of the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*10,000 SF*	*~117,000 SF; In Conformance*
Minimum Lot frontage	*60-Feet*	*~60-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*~100-Feet; In Conformance*
Minimum Front Yard Setback	*15-Feet*	*~15-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*	*X>10-Feet; In Conformance*
Minimum Side Yard Setback	*10-Feet*	*X>10-Feet; In Conformance*
Maximum Building Height	*60-Ft w/o SUP*	*25-Ft; In Conformance*
Max Building/Lot Coverage	*60%*	*17.46%; In Conformance*
Minimum Masonry Requirement	*90%*	*X>90%; In Conformance*
Max Floor Area Ratio	*4:1*	*X<4:1; In Conformance*
Minimum Number of Parking Spaces	*30*	*33 Provided; In Conformance*
Minimum Stone Requirement (IH-30 OV)	*20% ea facade*	*X<20%; Exception Requested*
Minimum Landscaping Percentage	*15%*	*33.91 %; In Conformance*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Maximum Impervious Coverage	*85%*	*64.5%; In Conformance*

VARIANCES:

Based on the applicant's submittal, staff has identified the following variances:

A) *Four (4) Sided Architecture:* According to Section 6.6, *IH-30 Overlay (IH-30 OV) District*, of Article V, *District Development Standards*, of the UDC, commercial buildings shall be architecturally finished on all four (4) sides (i.e. incorporating the same materials detailing, and features). The building elevations submitted by the applicant show that the south elevation will have loading doors located along the entire length of the façade to allow for loading and unloading of materials. The applicant is also requesting to utilize 2% natural or quarried stone on this elevation. The lack of stone and articulation do not meet the four (4) sided architecture requirements (see a., b., and c. below to see how the four (4) sided architecture requirements are evaluated).

   a. *Horizontal articulation.* According to Section 4.1, *General Commercial District Standards*, of Article V, *District Development Standards,* of the Unified Development Code (UDC) no building wall shall extend for a distance equal to three times the wall's height without having an offset of 25 percent of the wall's height, and that new plane shall extend for a distance equal to at least 25 percent of the maximum length of the first plane.

   b. *Vertical articulation.* According to Section 4.1, *General Commercial District Standards*, of Article V, *District Development Standards,* of the Unified Development Code (UDC) no horizontal wall shall extend for a distance greater than three times the height of the wall without changing height by a minimum of 25 percent of the wall's height.

   c. *Stone.* According to Section 6.6, *IH-30 Overlay (IH-30 OV) District*, of Article V, *District Development Standards,* of the Unified Development Code (UDC), each exterior wall shall consist of 90 percent masonry materials including a minimum of 20% natural or quarried stone.

B) *Secondary Materials*. According to Section 6.6, *IH-30 Overlay (IH-30 OV) District*, of Article V, *District Development Standards,* of the Unified Development Code (UDC), (s)econdary materials used on the façade of a building are those that comprise less than ten (10) percent of an elevation area. On the South Elevation, the applicant is proposing to use 14% EIFS, however, this will not be visible from any major public streets.

All variances in this case pertain to the southern building façade of both buildings which the applicant has stated will incorporate loading docks and will not be visible from the street. Additionally the applicant feels that the articulation requirement would impact the location and usability of the building for the proposed uses. These variances will require a

¾ majority vote by the City Council to be approved since the property is situated in the IH-30 Overlay (IH-30 OV) District.

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:

On May 31, 2016, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. General discussion concerning the agenda item took place between the Board Members and city staff. The board expressed concern with the vertical articulation on the two buildings and requested that the applicant raise the height of some of the vertical structures to break up the monotony of the two (2) buildings. Additionally, the board suggested that the applicant flip the northern building to that the two buildings face each other. The board expressed how this would create a courtyard so that one building is not facing the back of another. Subsequently, the applicant made changes to the vertical structures by increasing the height of all the structures as well as providing some variation in some of the vertical structures to provide more depth to the building. The applicant decided not to make the suggested change of flipping the northern building so that it faces the southern building.

RECOMMENDATIONS:

If the Planning & Zoning Commission chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All technical comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

(5/24/2016 8:57 AM KB)

SP2016-014 (Platinum Storage Rockwall, LLC): Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Ron Valk of Platinum Storage Rockwall, LLC on behalf of Shawn Valk of Platinum Construction for the approval of site plan for a multi-tenant office/warehouse facility on a 2.692-acre parcel of land identified as Lot 3, Block A, Platinum Storage Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, located on the west side of T. L. Townsend Drive, south of the intersection of T. L. Townsend Drive and IH-30.

I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (SP2016-014) in the lower right hand corner of all pages on future submittals.

I.4 This property will be required to be plated prior to the issuance of a building permit.

I.5 This property is located in the IH 30 Overlay (IH-30 OV) District and is subject to stricter architectural/site design standards. Each exterior wall shall consist of 90% masonry including a minimum 20% natural or quarried stone.

M.6 Site Plan. Please provide Material Sample Board with samples of proposed materials.

M.7 Site Plan. Please show entire lot to show frontage on Townsend Drive.

M.8 Site Plan. Please show and label the 15-foot setback on Townsend Drive.

M.9 Site Plan. Please show vicinity map.

M.10 Site Plan. Please show distance from building to all property lines.

M.11 Site Plan. Please indicate depth of paving material.

M.12 Site Plan. All trash and recycling receptacles shall be four-sided with a gate and located outside buffer strips and to the rear of the primary building. The receptacles shall be screened by a minimum 8-foot solid masonry screen and shall utilize similar masonry materials to the primary structure. Please ensure that the screening wall is 8-feet and add a detail of the dumpster enclosure to show that it is 8-feet in height.

M.13 Site Plan. Please indicate the distance between all buildings on site.

M.14 Site Plan. Please indicate the street centerline for T.L. Towsend Drive.

M.15 Site Plan. Please provide dimensions of all walls.

M.16 Site Plan. Please indicate required accessible parking spaced in addition to showing the provided number of accessible spaces.

M.17 Site Plan. Please indicate whether utility equipment will be pad/ground mounted roof mounted. Pad mounted utility equipment shall be screened from horizontal view from any adjacent public street and from any adjacent property. All buildings must be designed so that no roof mounted mechanical equipment shal be visible from any direction.

M.18 Landscape Plan. Please provide the same site data information required in Sec 2.1 Site Plan: Miscellaneous and Density and Dimensional Requirements of this checklist.

M.19 Landscape Plan. Please indicate the applicable zoning district percentage of landscaping required and provided in addition to the impervious areas vs. the amount of landscaping and open spaces required and provided.

I.20 Landscape Plan. Please ensure that the Impervious Area is no greater than 85% and that the pervious area is at least 15%.

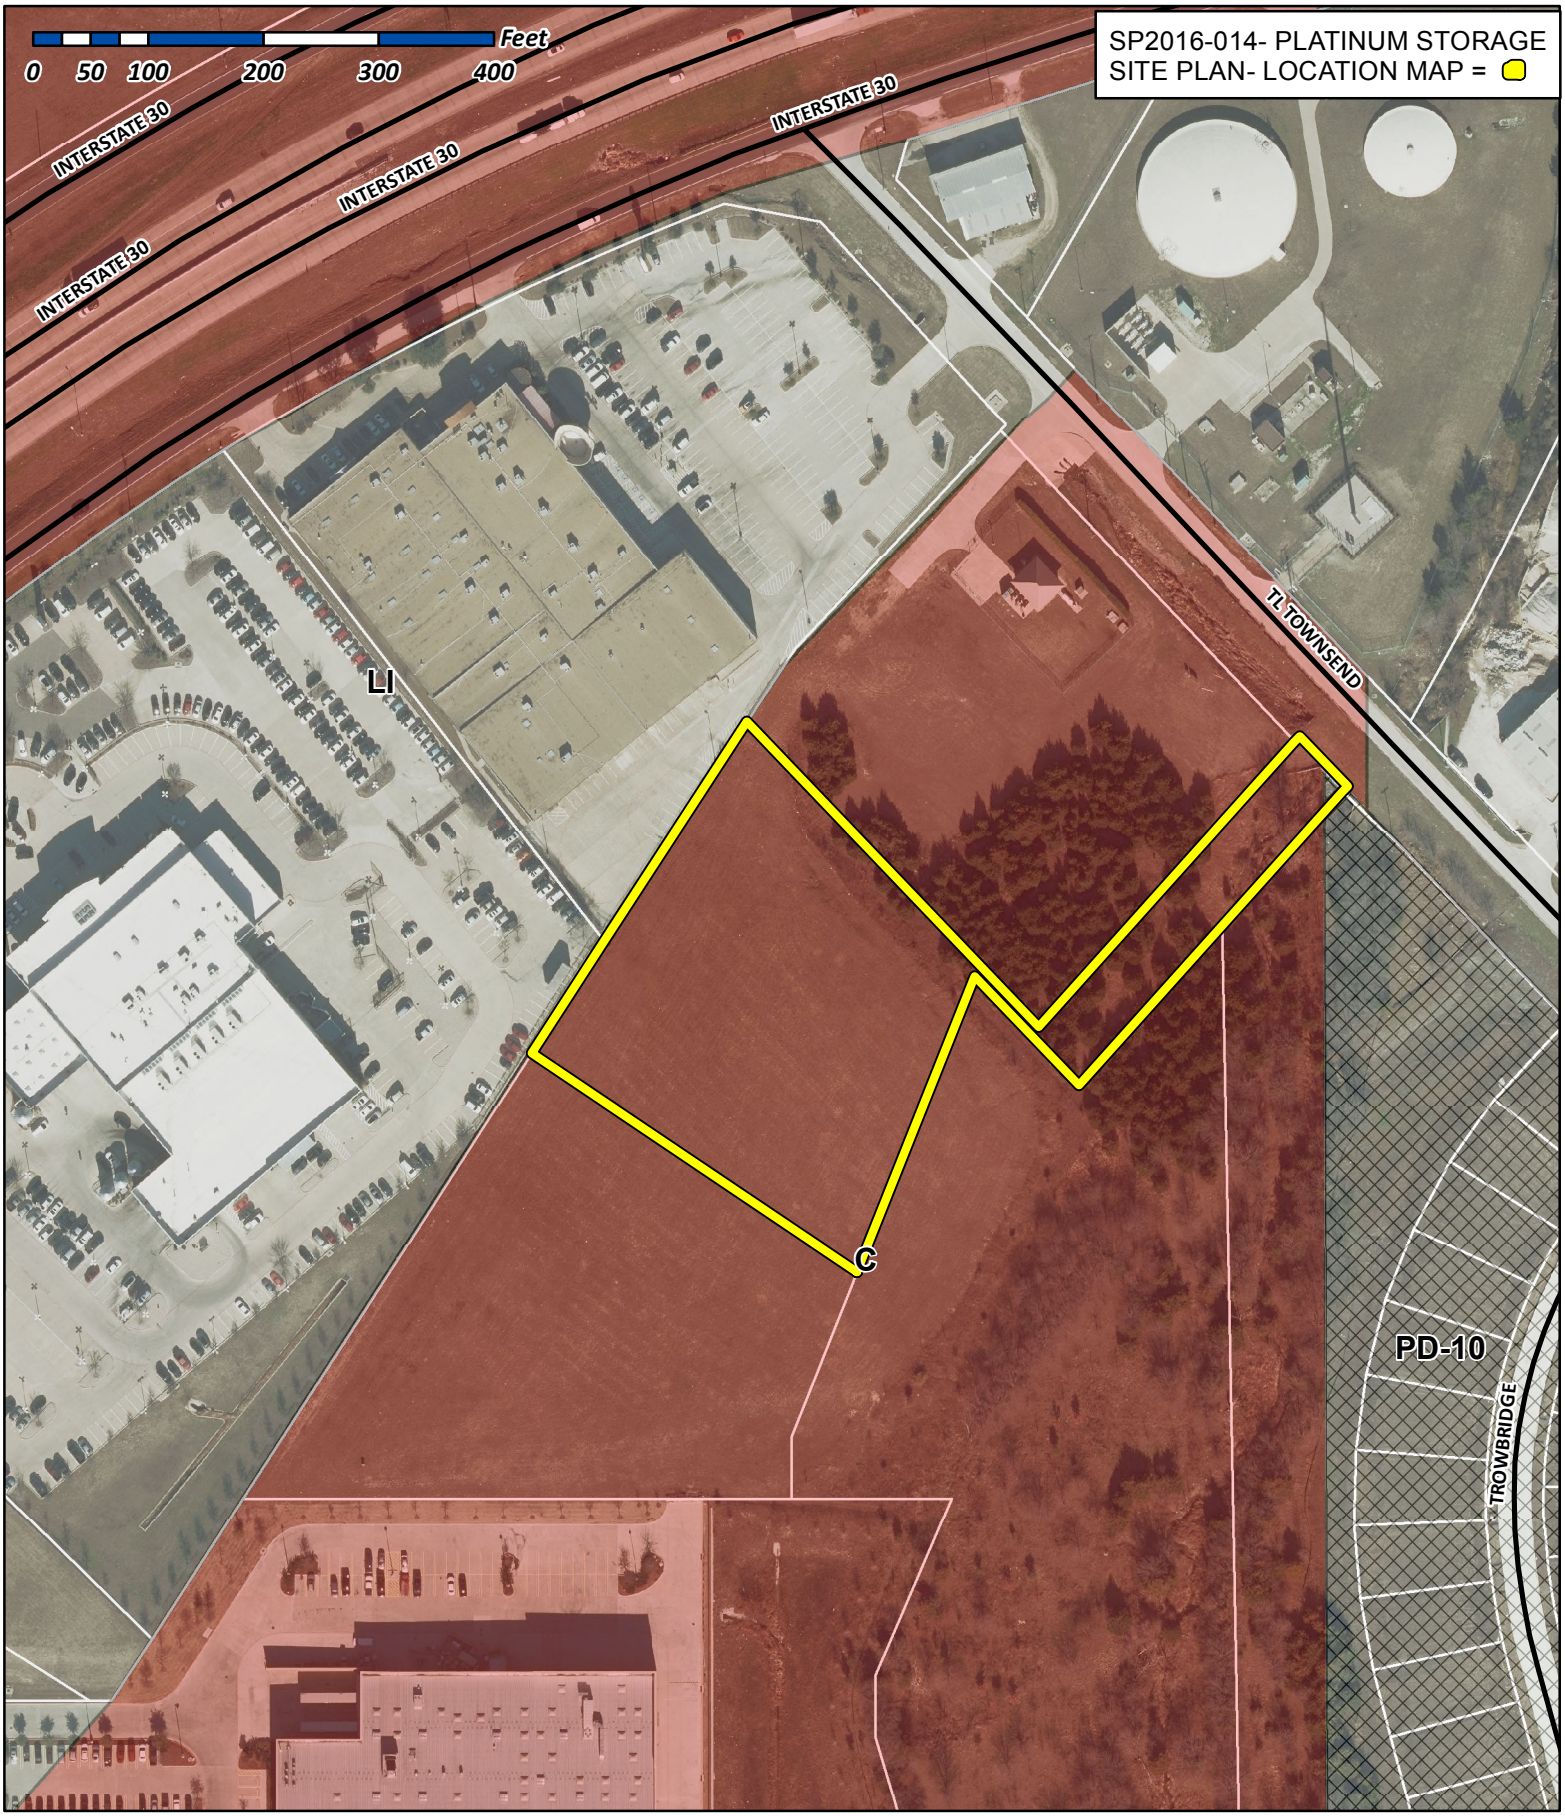
M.21 Landscape Plan. Canopy trees must be at least 4" caliper. Currently the canopy trees are 1-inch below the requirement.

M.22 Landscape Plan. A street landscape buffer-strip with a minimum width of ten feet, must be provided along the entire length of the property to be developed that is adjacent to a major arterial or collector street, as defined in the city's thoroughfare plan. Please indicate the 10' landscape buffer along Townsend Drive.

M.23 Landscape Plan. Please provide a note indicating that the irrigation will meet requirements in of the UDC.

M.24 Photometric. Please provide the same site data information required in Section 2.1 Site Plan; Miscellaneous and Density and Dimensional Requirements of the Development Application Checklist.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

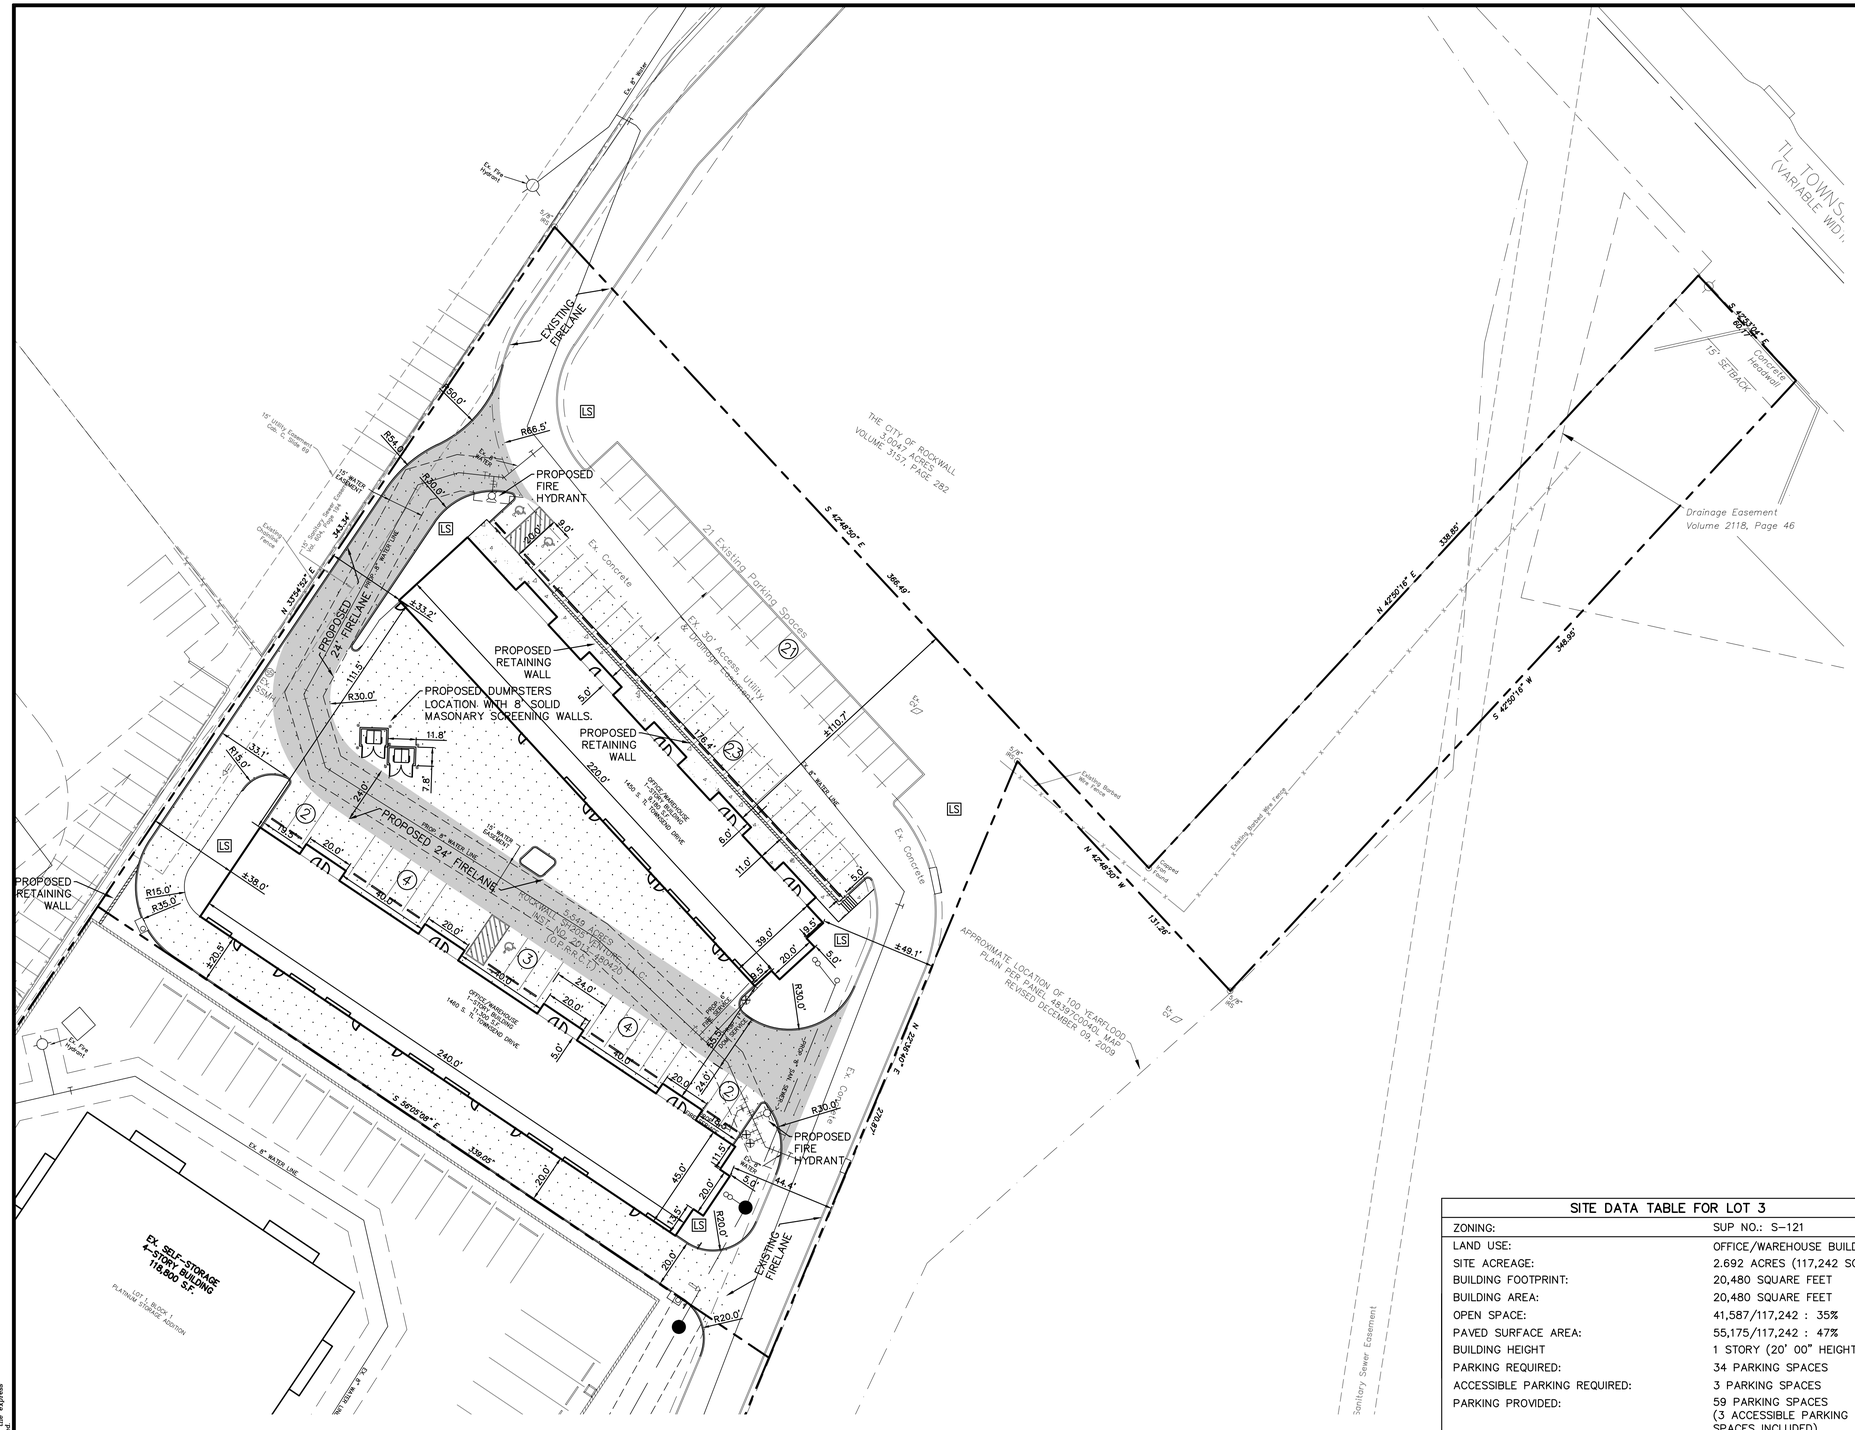


M.25 Photometric. Please darken the property lines on the Photometric Plan.
M.26 Photometric. Please provide cut-sheets for all exterior lighting (e.g. wall packs, canister lighting, etc.).
M.27 Building Elevations. Please label all roof mounted mechanical equipment and how these will be screened from view.
M.28 Building Elevations. Each exterior wall shall consist of 90 percent masonry material including a minimum of 20 percent natural or quarried stone. Please ensure that the all elevations include 90% masonry, including 20% natural or quarried stone, or please apply for a variance from City Council.
M.29 Building Elevations. Please indicate the parapet wall by dashing in the top of roof deck.
M.30 Building Elevations. Please indicate the surface area (sq. ft.) of each façade and the percentage and square footage of each material used on that façade using a table.
M.31 Building Elevations. Please provide specifications and descriptions of all proposed building materials on all proposed buildings.
M.32 Building Elevations. The vertical articulations must be at least 5-feet in order to meet vertical articulation standards. Currently these articulations are 2-feet.
M.33 Building Elevations. Please look at the South Elevation. It currently does not meet the vertical or horizontal articulation requirements. Additionally, it does not meet the minimum stone requirements. Also, all retail/commercial buildings shall be architecturally finished on all four sides with same materials, detailing, and features as the front.
M.34. Please provide a letter outlining all variance requests.
I.35 The Architectural Review Board (ARB) meeting for this case will be held on May 31, 2016.
I.36 Staff has identified the aforementioned items necessary tocontinue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on June 7, 2016; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the June 14, 2016 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on May 31, 2016.
I.37 If necessary the projected City Council meeting date for this case will be June 20, 2016.

PLANNING	Korey Brooks	6/22/2016	6/29/2016	6/22/2016		COMMENTS	See Comments

(6/22/2016 10:40 AM KB)
SP2016-014 (Platinum Storage Rockwall, LLC): Please address the following comments (M= Mandatory Comments; I = Informational Comments)

M.1 Landscape Plan. Please provide the same site data information required in Sec 2.1 Site Plan: Miscellaneous and Density and Dimensional Requirements of this checklist.
M.2 Landscape Plan. Please indicate the applicable zoning district percentage of landscaping required and provided in addition to the impervious areas vs. the amount of landscaping and open spaces required and provided.
I.3 Landscape Plan. Please ensure that the Impervious Area is no greater than 85% and that the pervious area is at least 15%.
M.4 Landscape Plan. Canopy trees must be at least 4" caliper. Currently the canopy trees are 1-inch below the requirement.
M.5 Landscape Plan. A street landscape buffer-strip with a minimum width of ten feet, must be provided along the entire length of the property to be developed that is adjacent to a major arterial or collector street, as defined in the city's thoroughfare plan. Please indicate the 10' landscape buffer along Townsend Drive.
M.6 Landscape Plan. Please provide a note indicating that the irrigation will meet requirements in of the UDC.
M.7 Landscape Plan. Please show the entire site to show frontage on T.L. Townsend Drive.
M.8 Landscape Plan. Please show 10' landscape buffer adjacent to T.L. Townsend Drive.
M.9 Building Elevations. Please indicate the parapet wall by dashing in the top of roof deck on the North and South Elevations.
M.10 Building Elevations. No smooth-face CMU is allowed. Please indicate the type of CMU you will be using.
M.11 Building Elevations. No more than 10% of secondary materials are allowed on any elevation so a variance will be required for the 14% EIFS being used on the South Elevation.
M.12 Building Elevations. Please provide a Materials Sample Board.
M.13 Building Elevations. Please ensure that stucco must be 3-part stucco.
I.14 The Architectural Review Board (ARB) meeting for this case will be held on June 28, 2016.
I.15 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any



Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
additional information that is requested as soon as possible.							
I.16 The Planning and Zoning Meeting for this case will be June 28, 2016 Planning & Zoning Meeting.							
I.1 The City Council meeting date for this case will be July 5, 2016.

SITE NOTES:

1. THE PROPOSED BUILDING WILL BE FIRE SPRINKLERED.
2. ALL DIMENSIONS ARE TO FACE OF CURB, EDGE OF PAVEMENT, FACE OF BUILDING OR AS OTHERWISE INDICATED.
3. ALL SIDEWALKS SHALL MAINTAIN A 2% MAXIMUM CROSS SLOPE AND 5% MAXIMUM IN THE DIRECTION OF PEDESTRIAN TRAVEL. ALL ADA SIDEWALKS SHOULD INCLUDE ALL LANDINGS, MARKINGS, ETC AS REQUIRED BY CODE.
4. THERE ARE NO EXISTING TREES TO BE REMOVED FROM THE SITE FOR CONSTRUCTION.
5. DETENTION HAS BEEN PROVIDED AS REQUIRED, PER THE CITY OF ROCKWALL'S ENGINEERING DEPARTMENT.
6. ANY CONSTRUCTION OR BUILDING NECESSARY TO COMPLETE THIS SITE PLAN REQUEST MUST CONFORM TO THE REQUIREMENTS SET FORTH BY THE UNIFIED DEVELOPMENT CODE, THE 2015 INTERNATIONAL BUILDING CODE, THE ROCKWALL MUNICIPAL CODE OF ORDINANCES, CITY ADOPTED ENGINEERING AND FIRE CODES AND WITH ALL OTHER APPLICABLE REGULATORY REQUIREMENTS ADMINISTERED AND/OR ENFORCED BY THE STATE AND FEDERAL GOVERNMENT.
7. THE MECHANICAL EQUIPMENT SHALL BE ROOF MOUNTED AND BE SCREENED FROM PUBLIC VIEW.

L70 Lifespan:	100000
Lumens:	5,196
Efficacy:	100 LPW

Technical Specifications

Listings

UL Listing:

Suitable for wet locations as a downlight.

IESNA LM-79 & IESNA LM-80 Testing:

RAB LED fixtures have been tested by an independent laboratory in accordance with IESNA LM-79 and 80, and have received the Department of Energy "Lighting Facts" label.

Dark Sky Approved:

The International Dark Sky Association has approved this product as a full cutoff, fully shielded luminaire.

DLC Listed:

This product is on the Design Lights Consortium (DLC) Qualified Products List and is eligible for rebates from DLC Member Utilities.
DLC Product Code: P0000178Y

LED Characteristics

Lifespan:

100,000-hour LED lifespan based on IES LM-80 results and TM-21 calculations.

LEDs:

Multi-chip, high-output, long-life LEDs

Color Consistency:

7-step MacAdam Ellipse binning to achieve consistent fixture-to-fixture color.

Color Stability:

LED color temperature is warrantied to shift no more than 200K in CCT over a 5 year period.

Color Uniformity:

Correlated Color Temperature (CCT) follows the guidelines of the American National Standard for Specifications for the Chromaticity of Solid State Lighting (SSL) Products, ANSI C78.377-2011.

Construction

IES Classification:

The Type IV distribution (also known as a Forward Throw) is especially suited for mounting on the sides of buildings and walls, and for illuminating the perimeter of parking areas. It produces a semiCircular distribution with essentially the same candlepower at lateral angles from 90° to 270°.

Effective Projected Area:

EPA = 0.75

IP Rating:

Ingress Protection rating of IP66 for dust and water.

Ambient Temperature:

Suitable for use in 40°C ambient temperatures.

Cold Weather Starting:

The minimum starting temperature is -40°F/-40°C.

Thermal Management:

Superior patent pending thermal management design with external Air-Flow fins provides maximum operational life, even in high ambient temperature environments.

Housing:

Die cast aluminum housing, lens frame and mounting arm.

Mounting:

Heavy-duty mounting arm with "O" ring seal & stainless steel screws.

Reflector:

Specular vacuum-metallized polycarbonate

Gaskets:

High temperature silicone gaskets

Finish:

Our environmentally friendly polyester powder coatings are formulated for high-durability and long-lasting color, and contains no VOC or toxic heavy metals.

Green Technology:

Mercury and UV free, and RoHS compliant. Polyester powder coat finish formulated without the use of VOC or toxic heavy metals.

Electrical

Driver:

Constant Current, Class 2, 1400mA, 100-277V, 50-60Hz, 0.8A, Power Factor 99%

THD:

6.9% at 120V, 7.8% at 277V

Surge Protection:

6kV surge suppression protection tested in accordance with IEEE/ANSI C62.41.2.

Other

Equivalency:

ALED™ 50W replaces 200W metal halide

California Title 24:

See ALED4T50/PC, ALED3T50/PCS or ALED3T50/PCT for a 2013 California Title 24 compliant model.

Copyright © 2014 RAB Lighting Inc. All Rights Reserved Note: Specifications are subject to change at any time without notice

ALED4T50

RAB LIGHTING

Technical Specifications (continued)

Other

Patents:

The ALED™ design is protected by patents pending in the U.S., Canada, China, Taiwan and Mexico.

Warranty:

RAB warrants that our LED products will be free from defects in materials and workmanship for a period of five (5) years from the date of delivery to the end user, including coverage of light output, color stability, driver performance and fixture finish.

Country of Origin:

Designed by RAB in New Jersey and assembled in the USA by RAB's IBEW Local 3 workers.

Buy American Act Compliant:

This product is a COTS item manufactured in the United States, and is compliant with the Buy American Act.

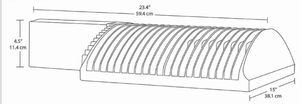
Recovery Act (ARRA) Compliant:

This product complies with the 52.225-21 "Required Use of American Iron, Steel, and Manufactured Goods– Buy American Act– Construction Materials (October 2010).

Trade Agreements Act Compliant:

This product is a COTS item manufactured in the United States, and is compliant with the Trade Agreements Act.

GSA Schedule:



Suitable in accordance with FAR Subpart 25.4.

Optical

BUG Rating:

B0 U0 G2

Dimensions

Features

- 66% energy cost savings vs. HID
- 100,000-hour LED lifespan
- Type IV distribution
- 5-year warranty

(6/24/2016 9:42 AM KB)
Z2016-020 SUP for Carport:
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Sandra Peterson for the approval of a Specific Use Permit (SUP) to allow for a carport that does not meet the minimum setback requirements stipulated by Section 2.1.2, Residential and Lodging Use Conditions, of Article IV, Permissible Uses, of the Unified Development Code [Ordinance No. 04-38] for a 0.231-acre parcel of land identified as Lot 10, Block D of Northshore, Phase 2A Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 509 Sunset Hill Drive.
I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (Z2016-020) in the lower right hand corner of all pages on future submittals.
M.4 Please review the attached draft ordinance prior to the July 12, 2016 Planning & Zoning Commission meeting.
M.5 Please provide rendering of how the carport will look.
M.6 Please be sure to stay out of the easement. We do not allow structures or overhangs in easements.
I.7 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on July 6, 2016; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the July 12, 2016 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on June 28, 2016.
I.8 The projected City Council meeting dates for this case will be July 18, 2016 [1st Reading] & August 1, 2016 [2nd Reading].

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [ORDINANCE 04-38] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A CARPORT THAT DOES NOT CONFORM TO THE REQUIREMENTS AS STIPULATED BY SECTION 2.1.2, RESIDENTIAL AND LODGING USE CONDITIONS, OF ARTICLE IV, PERMISSIBLE USES, OF THE UNIFIED DEVELOPMENT CODE, BEING A 0.231-ACRE TRACT OF LAND, ZONED SINGLE-FAMILY RESIDENTIAL (SF-10) DISTRICT, AND ADDRESSED AS 509 SUNSET HILL DRIVE, AND IDENTIFIED AS LOT 10, BLOCK D OF NORTHSHORE, PHASE 2A ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, AND MORE SPECIFICALLY DEPICTED IN *EXHIBIT 'A' OF THIS ORDINANCE*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Sandra Peterson for the approval of a Specific Use Permit (SUP) to allow for a *Carport* that does not conform to the requirements as stipulated by Section 2.1.2, *Residential and Lodging Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*], being a 0.231-acre tract of land, zoned Single-Family Residential (SF-10) District, and identified Lot 10, Block D, of Northshore, Phase 2A Addition, City Rockwall, Rockwall County, Texas, addressed as 509 Sunset Hill Drive and more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing for a *Carport* that does not conform to the requirements stipulated by Section 2.1.2, *Residential and Lodging Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] for a property within a Single Family Residential (SF-10) District and

more specifically described as the *Subject Property*; and

SECTION 2. That the *Subject Property* shall be used only in the manner and for the purposes described in this Specific Use Permit (SUP) granted herein and shall be subject to the conditions set forth in *Article IV, Permissible Uses, Sec. 2.1.2 Residential and Lodging Uses* of the Unified Development Code [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting of this Specific Use Permit (SUP), and as may be amended in the future, and shall be subject to the additional following conditions:

1) The carport generally conforms to the approved site plan depicted in *Exhibit 'B'* of this ordinance;

2) The carport shall not exceed 530 square feet in area;

3) The carport shall not exceed a maximum height of 10 feet;

4) The carport is subject to administrative review in the event that the *Subject Property* is sold or conveyed in any manner to another party, subdivided, or re- platted.

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS ($2,000.00)* for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 1st DAY OF AUGUST, 2016.

Hold a public hearing to discuss and consider a request by Mike Hogue for the approval of a zoning amendment to Planned Development District 52 (PD-52) for the purpose of allowing townhomes on a 2.048-acre tract of land identified as Lot 1, Block 1, Allen Hogue Subdivision (0.7910-acres) and Lots 67 & 68, Block B, B. F. Boydston Addition (1.257-acres), City of Rockwall, Rockwall County, Texas, zoned Planned Development District 52 (PD-52) for Heavy Commercial (HC) District land uses, being addressed as 703, 705 & 709 E. Boydstun Avenue, and take any action necessary.

Planning Staff General Comments:

1. Submittal and approval of a site plan and plat are required for the proposed development prior to issuance of a building permit.
2. Development of the proposed property must meet the intent of the PD Conceptual Site Plan and the PD Conceptual Building Elevations as attached to the PD Ordinance.
3. The development shall adhere to the city's engineering and fire department standards as established.
4. Waiver required from City Council for not meeting the street frontange requirements.
5. Once a draft PD Ordinance has been written and provided to you, please review and make any corrections/additions you feel are appropriate for your development.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

The following staff comments are to be addressed and resubmitted no later than Tuesday, July 5, 2016 (three large copies FOLDED and one PDF version) for subsequent/final review by staff. For questions or comments concerning this case please contact David Gonzales, AICP in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com

• On all future plan submittals please include the Case Number (Z2016-021) in the lower right hand corner.

• Adherence to the Parks Board Recommendations for Park District No. 21.

Please make the following corrections/additions to the Conceptual Site Plan:

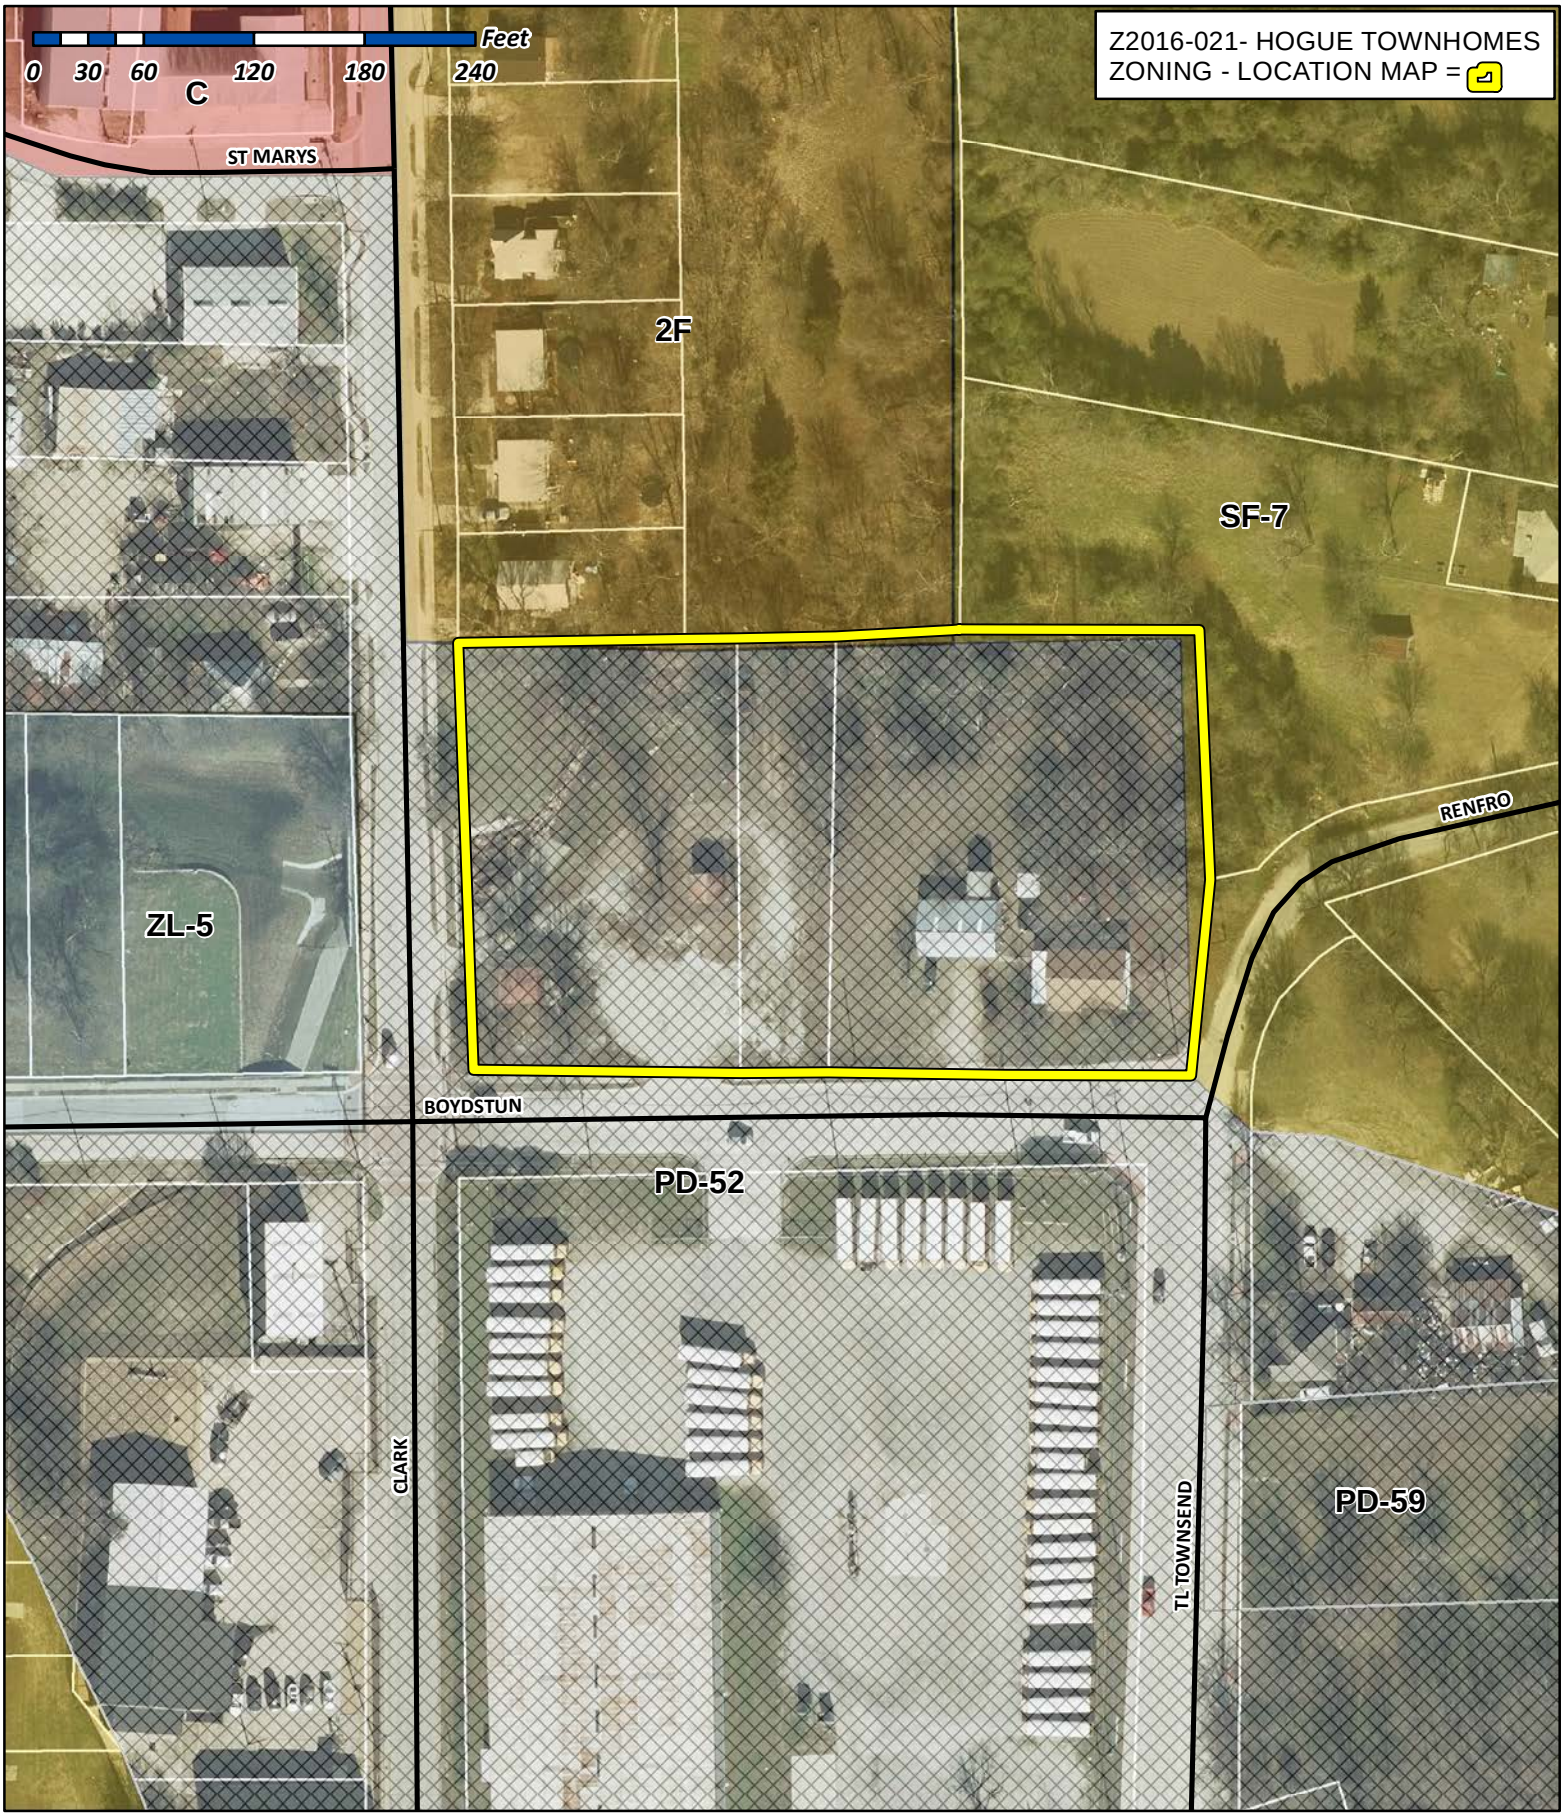
1) Provide a label (i.e. BLOCK A & BLOCK B) delineating the townhouse lots (e.g. 10 lot area) from the remainder of the total lot area (i.e. open space, park area, road section, etc.). Also, label each separate lot within the townhouse area (e.g. Lot 1, Lot 2,..., Lot 10).
2) Provide and label 10-ft landscape buffers adjacent to E. Boydstun Ave and S. Clark St. Also indicate large canpoy trees (min. 3 caliper inch) spaced 50-ft apart along those streets.
3) Provide and label a 10-ft front building setback line for the townhouse lots only (BLOCK A).
4) Remove the labels and lines indicating the 15-ft and 50-ft building lines.
5) Make adjustments and redraw lots # 1 & # 10 - those portions of the lot corners are not to be encroaching onto the street section.
6) Delineate/provide dimensions to the park area. Also, what amenities will be offered for the park?
7) Although not a requirement, how much open space will remain within the development (net acreage and/or percentage of total area).
8) Relabel the Site Plan submitted as "Conceptual Site Plan."

Please make the following corrections/additions to the Conceptual Building Elevations:

1) Provide an exterior materails type and calculation for each elevation.
2) Provide the overall height of the building.

• The following are a list of Comprehensive Plan (plan) policies that have not been satisfied or could benefit from clarification:

(1) The comp plan requires higher standards for residential design and that townhomes should differ in appearance through the use of varying entry features, use of detail and trim, use of materials, articulation and setback. A request to waive this requirement by the City Council may be approved through the PD Ordinance.



• Please make these revisions and corrections, and provide any additional information that has been requested. Revisions for this case will be due to staff by July 5,2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible. All outstanding items may be listed or considered as conditions ofapproval should the request be approved by City Council.

• Please mark your calendar for the scheduled meeting dates as follows:

1) Planning and Zoning Work Session: June 28, 2016

2) Planning and Zoning Public Hearing: July 12, 2016

2) City Council dates: a) July 18, 2016 [Public Hearing - 1st Reading] and b) August 1, 2016 [2nd Reading (if approved at 1st Reading)].

AGENDA
PLANNING AND ZONING COMMISSION WORK SESSION
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
July 26, 2016
6:00 P.M.

CALL TO ORDER

CONSENT AGENDA

1. **Approval of Minutes** for the *June 28, 2016* Planning and Zoning Commission meeting.

2. **P2016-030** **(Korey)**
   Discuss and consider a request by Clint Groomer of CBG Surveying, Inc. on behalf of Anusha Malineni of Sriven Vista, LLC for the approval of a replat for Lots 5 & 6, Block C, Sanger Bros. Addition being a 0.23-acre parcel of land currently identified as a portion of Lots 1 & 2, Block C, Sanger Bros. Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, addressed as 703 Sam Houston Street, and take any action necessary.

3. **P2016-031** **(David)**
   Discuss and consider a request by Randy Helmberger of Our Lady of the Lake Catholic Church on behalf of Dr. Brad Helmer of Heritage Christian Academy for the approval of a replat for Lots 2 & 3, Block A, Heritage Christian Academy, Phase 2 being a 8.83-acre tract of land currently identified as Lot 1, Block A, Heritage Christian Academy, Phase 2, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 27 (PD-27) for Multi-Family 14 (MF-14) District, located west of the intersection of Damascus Road and SH-205 [*S. Goliad Street*], and take any action necessary.

4. **P2016-032** **(Korey)**
   Discuss and consider a request by Chet Leugers, PE of Pacheco Koch on behalf of Michael Hampton of the Rockwall Economic Development Corporation (REDC) for the approval of a final plat of Lot 1, Block B, Rockwall Technology Park, Phase IV being an 8.761-acre portion of a larger 9.73-acre tract of land identified as Tract 2-01-1 of the J. H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the FM-549 Overlay (FM-549 OV) District, located at the northeast corner of the intersection of Corporate Crossing and Capital Boulevard, and take any action necessary.

5. **P2016-033** **(Korey)**
   Discuss and consider a request by Chet Leugers, PE of Pacheco Koch on behalf of Michael Hampton of the Rockwall Economic Development Corporation (REDC) for the approval of a final plat of Lot 1, Block A, Rockwall Technology Park, Phase IV being an 30.035-acre portion of a larger 49.85-acre tract of land identified as Tract 1, J. H. B. Jones Survey, Abstract 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the northeast corner of the intersection of Discovery Boulevard and Data Drive, and take any action necessary.

6. **P2016-034** **(David)**
   Discuss and consider a request by Jay Holman & Don Silverman of Rockwall 205-552, LLC for the approval of final plat for Lots 1-3, Block A, Dalton Goliad Addition being a 9.232-acre tract of land identified as Tract 4-1 of the T. R. Bailey Survey, Abstract No. 30, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the northwest corner of the intersection of SH-205 [*N. Goliad Street*] and FM-552, and take any action necessary.

PUBLIC HEARINGS

7. **Z2016-020** **(Korey)**
   Hold a public hearing to discuss and consider a request by Sandra Peterson for the approval of a Specific Use Permit (SUP) to allow for a carport that does not meet the minimum setback requirements stipulated by Section 2.1.2, *Residential and Lodging Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] for a 0.231-acre parcel of land identified as Lot 10, Block D of Northshore, Phase 2A Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 509 Sunset Hill Drive, and take any action necessary

8. **Z2016-021** **(David)**
Hold a public hearing to discuss and consider a request by Mike Hogue for the approval of a zoning amendment to Planned Development District 52 (PD-52) for the purpose of allowing townhomes on a 2.17-acre tract of land identified as Lot 1, Block 1, Allen Hogue Subdivision (*0.7910-acres*) and Lots 67 & 68, Block B, B. F. Boydston Addition (*1.257-acres*), City of Rockwall, Rockwall County, Texas, zoned Planned Development District 52 (PD-52) for Heavy Commercial (HC) District land uses, being addressed as 703, 705 & 709 E. Boydstun Avenue, and take any action necessary.

DISCUSSION ITEMS

9. **Z2016-019** **(Ryan)**
Hold a public hearing to discuss and consider a request by Miller Sylvan of JPI on behalf of the owner Gene Lambreth of Pneuma Ventures, LTD for the approval of a zoning change from a Light Industrial (LI) District to a Planned Development District for a multi-family apartment complex on a 42.50-acre tract of land identified as Tract 1-4 of the J. M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-205 By-Pass Overlay (205 BY-OV) District, located east of the intersection of Discovery Boulevard and John King Boulevard, and take any action necessary.

10. **Z2016-022** **(David)**
Hold a public hearing to discuss and consider a request by Mark W. Pross of Pross Design Group, Inc. on behalf of Robert Reece of SPR Packaging, LLC for the approval of a Specific Use Permit (SUP) to allow for a structure that exceeds 60-feet in height in a Light Industrial (LI) District in conjunction with an existing manufacturing facility situated on 10.1893-acre parcel of land identified as Lot 2, Block A, SPR Packaging Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1480 Justin Road, and take any action necessary

11. **Z2016-024** **(Korey)**
Hold a public hearing to discuss and consider a request by Kyle Vrla of Dynamic Engineering Consultants, PC on behalf of the owner Wilson Osee of Osee Properties, LLC for the approval of a zoning change from a Commercial (C) District to a Heavy Commercial (HC) District for a 6.588-acre portion of a larger 24.818-acre tract of land identified as Tract 3-13 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, located south of the intersection of Sids Road and SH-205 [*S. Goliad Street*], and take any action necessary.

12. **Z2016-025** **(Ryan)**
Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Interior Subdistrict*, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [*FM-3097*] and Summer Lee Drive, and take any action necessary.

13. **Z2016-026** **(Ryan)**
Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Residential Subdistrict* and within the Scenic Overlay (SOV) District, located north of the intersection of Ridge Road [*FM-740*] and Glen Hill Way, and take any action necessary.

14. **Z2016-027** **(Ryan)**
Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 2.1, *Agriculture (AG) District*; Section 3.3, *Single-Family Residential (SF-16)* District; and Section 3.4, *Single-Family Residential (SF-10) District*, of Article V, *District Development Standards*, of the Unified Development Code for the purpose of increasing the minimum square footage per dwelling unit in these zoning districts, and take any action necessary.

15. **SP2016-015** **(David)**
Discuss and consider a request by Jerry Monk of Monk Consulting on behalf of Dr. Steve Arze of Zaph & Ath Properties, LLC for the approval of a site plan for an indoor recreation facility on a 4.88-acre tract of land identified as Tract 4-01 of the N. Butler Survey, Abstract No. 20, City of Rockwall, Rockwall County, Texas,

zoned Commercial (C) District, located north of the intersection of Industrial Boulevard and Airport Road, and take any action necessary.

16. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ Z2016-017: Text Amendment for Used Motor Vehicle Sales (*2nd Reading*) [*Denied*]
- ✓ Z2016-018: Amendment to Planned Development District 74 (PD-74) (*2nd Reading*) [*Approved*]
- ✓ SP2016-014: Variances for Platinum Self Storage Site Plan [*Approved*]

ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator of the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 22nd day of June, 2016 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MINUTES

PLANNING AND ZONING COMMISSION WORK SESSION

City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
June 28, 2016
6:00 P.M.

I. CALL TO ORDER

Chairman Renfro called the meeting to order at 6:00 p.m. Present were, Commissioners Johnny Lyons, Tracy Logan, Patrick Trowbridge, Sandra Whitley and John McCutcheon. Absent was Commissioner Annie Fishman. Staff members present were Planning Director, Ryan Miller, Senior Planner, David Gonzales, Planner, Korey Brooks, Planning Coordinator, Laura Morales, Assistant City Engineer, Amy Williams and Civil Engineer, Jeremy White.

II. CONSENT AGENDA

1. Approval of Minutes for the June 14, 2016 Planning and Zoning Commission meeting.

Chairman Renfro made a motion to pass the consent agenda. Commissioner McCutcheon seconded the motion which passed by a vote of 6-0, with Commissioner Fishman absent.

III. APPOINTMENTS

2. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

The Architectural Review Board representative, Julian Meyrat, came forward and gave brief summary of recommendations pertaining to the item on the agenda that required architectural review.

IV. ACTION ITEMS

3. SP2016-014

Discuss and consider a request by Ron Valk of Platinum Storage Rockwall, LLC on behalf of Shawn Valk of Platinum Construction for the approval of site plan for a multi-tenant office/warehouse facility on a 2.692-acre parcel of land identified as Lot 3, Block A, Platinum Storage Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, located on the west side of T. L. Townsend Drive, south of the intersection of T. L. Townsend Drive and IH-30, and take any action necessary.

Senior Planner, Korey Brooks, gave brief explanation of request stating this case was postponed in the last meeting in order for the applicant to address comments that the Architectural Review Board recommended. The applicant is requesting approval of a Site Plan for the purpose of constructing two office/warehouses builds of which one will be a 9,180 sq. ft. and the other 11,300 sq. ft. According to the Unified Development Code the proposed use, which will be an office/warehouse, is a permitted by right use and therefore will not require any additional approval by the Planning and Zoning Commission. The submitted site plan, landscape plan, and photometric plan all conform to the technical requirements stipulated in the UDC.

Mr. Brooks went on to state that with this site plan the applicant has requested some variances to the four sided architecture and according to the UDC, the Commercial buildings should be architecturally finished on all four sides and incorporate the same materials detailing, and features. The building elevations that the applicant submitted show that the south façade of the building will have loading doors along the entire length of the façade to allow for loading and unloading of materials. Also the applicant is requesting to utilize 2% natural or quarried stone on this elevation versus the 20%, in that the lack of stone and articulation does not meet the four sided architecture requirements and therefore are requesting a variance. Additionally on the south elevation the applicant is requesting to use 14% EIFS and in the UDC is states that it should not be less than 10% EIFS and therefore are also requesting a variance on this as well.

All variances pertaining to this case are referring to the south elevation, which the applicant has stated will incorporate loading docks and will not be visible from any major public street. On the north side there are some trees as well as some City owned property that will be shielding the view along Townsend. The variances will require a ¾ majority vote by the City Council to be approved since the property is situated in the IH-30 Overlay District.

Mr. Brooks further stated that the applicant met with the Architectural Review Board last month and they discussed this particular site plan and they requested for more articulation on the building and also suggested that they flip the north building to face the south building this would create a courtyard so that one building is not facing the back of another. The applicant made changes to the vertical structures by increasing the height of all the structures as well as providing some variation in some of the vertical structures to provide more depth to the building. The applicant decided not to make the suggested change of flipping the northern building so that it faces the southern building. The ARB's main concern with that was that the back of one building would be facing the front of the other and preferred the buildings face each other, however since this will be sheltered from public view, the applicant felt that was not a major issue.

Mr. Brooks advised the Commission the applicant was present and available for questions as well as staff.

Chairman Renfro asked although it is located in the IH-30 Overlay and it was noted that is it not visible from the freeway and the corridor what happens if a variance is approved within that IH-30 Overlay and another request comes in that the Commission does not want to approve, does by approving this particular one set a precedent that should be of concern or is it determined on a case by case basis. Mr. Brooks stated it is discretionary to the Planning and Zoning Commission and City Council on a case by case basis.

Commissioner Trowbridge asked pertaining to the buildings facing each other as opposed to ARB's recommendation of the back of one building not facing the front of another. Mr. Brooks stated the southern building will look at the back of the northern building.

Chairman Renfro asked if there were any further questions for staff or for the applicant. No further questions or discussion took place.

Commissioner Trowbridge made a motion to approve the item with staff recommendations as well as variances. Commissioner McCutcheon seconded the motion which passed by a vote of 6-0, with Commissioner Fishman absent.

V. DISCUSSION ITEMS

4. Z2016-020

Hold a public hearing to discuss and consider a request by Sandra Peterson for the approval of a Specific Use Permit (SUP) to allow for a carport that does not meet the minimum setback requirements stipulated by Section 2.1.2, *Residential and Lodging Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] for a 0.231-acre parcel of land identified as Lot 10, Block D of Northshore, Phase 2A Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 509 Sunset Hill Drive, and take any action necessary

Planner, Korey Brooks, stated the applicant was not present and would present the case on their behalf. He explained that the applicant is requesting to get an SUP for a carport. The subject property is located within an SF-10 District and they are proposing a 20x20 carport on the rear of their home. The carport will be attached to the home and extend off of the current garage. Mr. Brooks went on to explain that the purpose of bringing this request before the Commission is because according to the UDC in a Single Family 10 District the minimum depth of the rear setback should be 10 feet and the applicant is proposing an 8 feet setback instead, therefore need a variance of 2 feet. The carport will face an alley as it is in the rear of the home, and will not be visible from any public street.

Mr. Brooks provided pictures for the Commission to see where approximately what the rear of the building looked like and showed where the carport would be and stated he was available for questions.

Chairman Renfro asked if it did not meet the minimum setback requirements where would the carports posts be going because according to the pictures it appeared there was new concrete that was poured. Mr. Brooks stated the carport will be 20x20 and believes the posts will be on the four corners of the existing pad, believes the applicant will be removing existing concrete and pave it again. However there is an easement on one side of the driveway and therefore cannot go much further than the shown concrete.

Planning Director, Ryan Miller, added that a portion of the concrete is situated within the easement therefore the posts will have to be inside that easement, they cannot encroach the easement.

Commissioner McCutcheon expressed concern and questions as to how it will be placed with the actual driveway encouraged applicant to be present at the next meeting for those questions to be answered.

Commissioner Lyons asked why not go with an 18 foot instead of 20 and then they would be in compliance because they would have the 5 foot set back. Mr. Miller added that 20x20 is a typical carport size.

Commissioner Trowbridge asked if what was being waived is the idea that the will extend 2 feet into the 10 foot setback and if that is the single variance that is being requested. Mr. Brooks stated that was correct. Commissioner Trowbridge also asked if there was an HOA within this neighborhood with restrictions. Mr. Brooks stated there was not.

Chairman Renfro asked if a permit was needed to pour concrete over the easement. Mr. Miller stated that flat work is allowed within the easement however what is not permitted is vertical structures.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

5. Z2016-021

Hold a public hearing to discuss and consider a request by Mike Hogue for the approval of a zoning amendment to Planned Development District 52 (PD-52) for the purpose of allowing townhomes on a 2.17-acre tract of land identified as Lot 1, Block 1, Allen Hogue Subdivision (*0.7910-acres*) and Lots 67 & 68, Block B, B. F. Boydston Addition (*1.257-acres*), City of Rockwall, Rockwall County, Texas, zoned Planned Development District 52 (PD-52) for Heavy Commercial (HC) District land uses, being addressed as 703, 705 & 709 E. Boydstun Avenue, and take any action necessary.

Planning Director stated applicant was present and would be presenting the case.

Greg Wallace
Mershawn Architects
2303 Ridge Road
Dallas, TX

Mr. Wallace came forward and gave brief explanation of request and provided pictures of a model that the request is being patterned on from an existing project the client liked. It will be 100% masonry, brick and stucco with some clay tile accents. The rear will be two car garages across the back on the first floor and the rear will be all brick construction and some stucco on it. The site plan itself will sit in front of a floodplain area which is heavily treed which will be retained and make a park area there. They will be privately owned townhouses and the project will be fire sprinkled. There will be some visitor parking off of the fire lane in the back as well as the 20 foot approach to each garage. Mr. Wallace went on to state that each unit on the first floor will have a two car garage stair up to the second floor to what will be called a bonus room that can be used as an office, guest bedroom or media room that would serve for a well use for the first floor. The second floor is open concept with a kitchen, dining, and living area as well as a small balcony in the front. The third floor will consist of two bedrooms the master and a

second large bedroom both with private bathrooms. The square footage will be 2258 per each unit air conditioned and total square footage is just under 3,000 square feet.

Mr. Wallace stated he is available for any questions and added that the property at this time is zoned Heavy Commercial with an amendment for metal buildings and therefore feels this proposal will certainly clean up that corner and will provide a much less density than that of a Heavy Commercial use.

Chairman Renfro asked concerning deed restrictions, what is in place to prevent these townhouses from going investor driven where a group comes in and buys several and then chooses to rent them out or it turn it into an income producing property that may result in ending up with a different design concept than that of which is being proposed.

Mr. Wallace stated it is early in the project and deed restrictions have not been considered as of yet, but the owner is present and can say whether or not he has given any thought to deed restrictions.

Mr. Wallace added that the property around the project is going to be maintained by other than the owners of the units, mainly the fire lane and the park area, and will be a quality project.

Chairman Renfro asked if there is a plan once the project is complete to secure the property from flipping into a rental opportunity.

General discussion took place concerning the risk of property becoming a multi-family property.

Chairman Renfro asked the applicant to come forward.

Michael Hogue
1498 Hubbard Drive
Forney, TX

Mr. Hogue came forward and stated he plans to have a Home Owner's Association in place that will make sure, through a contract , that when people buy or rent they are taking care of the property.

Commissioner Trowbridge asked if the Home Owner's Association would be controlled by residents in the project and/or the owner. Mr. Hogue stated he will be the one controlling the HOA until whoever buys it at which time that person will have to be the one in control because it will be responsible for maintaining the park that will be on site.

Commissioner Trowbridge asked if the intent is to have a standard HOA that will maintain as new ownership comes in. Mr. Hogue stated that he didn't know how exactly how it will work but it will be to where the property will be taken care of by the HOA.

Chairman Renfro asked if at the time case comes forward at the Public Hearing could that restriction for an HOA be put into the recommendations. Mr. Miller stated that it is not an enforceable zoning recommendation it would have to be something that the applicant would have to put in their deed restrictions and it is not something this Board can make a recommendation for or require them to do.

Commissioner Logan asked if request is approved will it be changed to Single Family High Density. Mr. Miller stated it would be changed to a Planned Development District allowing Townhomes, it will be through an ordinance much like is seen in a typical subdivision, however it will be tailored directly to what the applicant is proposing. The applicant is proposing to put them on individual lots however it will be addressed through the PD how those lots will be arranged because they won't have street frontage but staff will be bringing that PD at the Public Hearing.

Mr. Hogue added that the size of lots on the property are not high density, each lot is going to be over 10,000 feet.

Mr. Miller further added that according to the Comprehensive Plan it qualifies as medium density residential, it's not more than 5 units per acre because it is 2.17 acres which is right underneath the high density level which is 5 units per acre or more.

Commissioner Trowbridge asked if applicant has built a project like this before and where. Mr. Hogue stated he had in a project in Dallas and was larger than what is being proposed.

Commissioner Trowbridge also asked if the ratio discussed include the surrounding floodplain. Mr. Miller stated yes it is incorporated; density is done on the gross.

Commissioner Whitley asked staff concerning the list of surrounding home owners, when would notifications of this proposal be sent out to them. Mr. Miller stated those notifications were sent out last Friday and staff has at this time received a couple responses back and the complete list will be brought to the Commission at the Public Hearing.

Mr. Hogue added that they reached out to home owners in the area of which many expressed they were in favor.

Mr. Miller pointed out that on the property notification map, the notification areas is larger. This property is already in a Planned Development District which is tied to a zoning concept plan and because of that staff felt that it was necessary to notify not only everybody in the PD but also the typical 500 feet because it is a change to the concept plan which could affect adjacent properties.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

6. Director's Report of post Council meeting outcomes of Planning & Zoning cases.

- ✓ P2016-020: Final Plat for Fontanna Ranch, Phase II [*Approved*]
- ✓ P2016-028: Master Plat and Open Space Plan for the Ridgecrest Estates Subdivision [*Approved*]
- ✓ P2016-029: Preliminary Plat for the Ridgecrest Estates Subdivision [*Approved*]
- ✓ Z2016-013: Terracina Estates (AG to PD) (*2nd Reading*) [*Approved*]
- ✓ Z2016-017: Text Amendment for Used Motor Vehicle Sales [*Approved*]
- ✓ Z2016-018: Amendment to Planned Development District 74 (PD-74) (*1st Reading*) [*Approved*]
- ✓ MIS2016-008: Masonry Exception for 905 N. Alamo Street [*Approved*]
- ✓ SP2015-018: Variance to the Material Standards for RaceTrak Site Plan [*Approved*]
- ✓ SP2016-012: Variances for Pratt Site Plan [*Approved*]
- ✓ SP2016-013: Variance to the Material Standards for CareNow Site Plan [*Approved*]

Planning Director, Ryan Miller, **provided a brief update about the outcome of the above referenced case at the City Council meeting.**

Commissioner Trowbridge asked concerning the text amendment, asked for an explanation of what the process is for the unanimous approval to deny and the majority approval within Council for a first reading for text amendments. Mr. Miller explained that with text amendments they require only a simple majority vote, with a lot of the zoning cases that deal with real property the Planning and Zoning Board has the ability to approve a denial recommendation which would kick in a three quarter majority vote. The other way a three quarter majority vote would kick in in those cases is with a 20% protest from adjacent property owners; however text amendments while they are considered zoning cases, the do not have a protest option and therefore are not subject to the three quarter majority vote.

Commissioner Trowbridge asked if it is actually approved at the first reading or at the second meeting. Mr. Miller stated two readings are required for an ordinance therefore it is not approved until the second reading. Commissioner Trowbridge asked if a Public Hearing takes place at the second reading. Mr. Miller stated no one does not, the Public Hearing happens at the first reading of the ordinance. The second reading is either a consent or action item.

No further discussion took place concerning this agenda item.

VI. ADJOURNMENT

Chairman Renfro adjourned the meeting at 6:37 p.m.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2016.

_____
Craig Renfro, Chairman

Attest:

_____
Laura Morales, Planning Coordinator

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 07/26/2016

APPLICANT: Clint Groomer; *CBG Surveying*

AGENDA ITEM: **P2016-030**; *Lots 5 & 6, Block C, Sanger Bros. Addition*

SUMMARY:

Discuss and consider a request by Clint Groomer of CBG Surveying, Inc. on behalf of Anusha Malineni of Sriven Vista, LLC for the approval of a replat for Lots 5 & 6, Block C, Sanger Bros. Addition being a 0.23-acre parcel of land currently identified as a portion of Lots 1 & 2, Block C, Sanger Bros. Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, addressed as 703 Sam Houston Street, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to subdivide portions of two (2) existing parcels (*i.e. Lot 1 and Lot 2 of Block C, Sanger Bros. Addition*) for the purpose of recreating two (2) parcels of land (*i.e. Lot 5 [0.115 acres] & Lot 6 [0.115 acres],* for the purpose of conveying Lots 5 and 6.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

Staff recommends approval of the replat plat for *Lots 5 & 6, Block C, Sanger Bro. Addition,* in conformance with the following conditions of approval:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *replat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

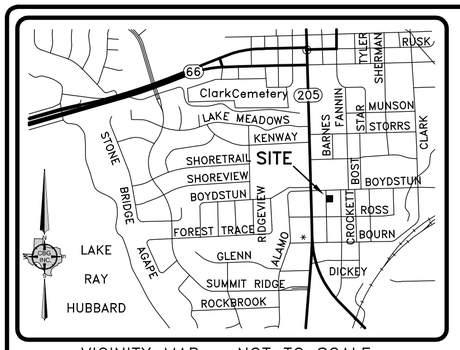
P2016-030 Sanger Bros. Addition Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Clint Groomer of CBG Surveying, Inc. on behalf of Anusha Malineni of Sriven Vista, LLC for the approval of a replat for Lots 5 & 6, Block C, Sanger Bros. Addition being a 0.23-acre parcel of land currently identified as a portion of Lots 1 & 2, Block C, Sanger Bros. Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, addressed as 703 Sam Houston Street.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (P2016-030) in the lower right hand corner of all pages on future submittals.
M.4 Please change Lot 2A to Lot 5 and Lot 2B to Lot 6.
M.5 Please show and label 20-foot setback adjacent to Sam Houston Street.
M.6 Please indicate the number of lots in the title block
M.7 Please indicate the Survey and Abstract No. in the Owner's dedication.



Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
M.8 Please remove trees, driveways, and contours.							
M.9 Please label the dashed line on the north side of Lot 5.							
I.10 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by June 7, 2016. The Planning & Zoning meeting date for this case will be May 31, 2016.							
I.11 The projected City Council meeting date and subsequent approval for this plat is June 6, 2016.

OWNER'S DEDICATION

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS, Sriven Vista, LLC, BEING THE OWNER OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

Owner: Sriven Vista, LLC
Being a tract of land situated in the _____ Survey, Abstract No. _____ in the City of Rockwall, Rockwall County, Texas, being the West 100 feet of the South 5 feet of Lot 1 and the West 100 feet of the North 95 feet of Lot 2, Block C, Sanger Bros. Addition, an addition to the City of Rockwall, Rockwall County, Texas, according to the plat thereof recorded in Volume Q, Page 100, Plat Records, Rockwall County, Texas, same being conveyed to Sriven Vista, LLC by deed recorded in Instrument No. 20160000005538, Official Public Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

Beginning at a 1/2 inch iron rod with yellow plastic cap stamped "CBG SURVEYING" found for corner in the East line of Sam Houston Street (a 50 foot right-of-way), being North along the said East line of Sam Houston Street a distance of 5.00 feet from the common Southwest corner of said Lot 1 and the Northwest corner of said Lot 2, said point being the Southwest corner of that portion of said Lot 1 conveyed to Freddie R. Williams and wife, Jo Ann Williams by deed recorded in Volume 907, Page 61, Deed Records, Rockwall County, Texas;

Thence North 89 degrees 02 minutes 21 seconds East, leaving the said East line of Sam Houston Street and along the South line of said Williams tract and along the South line of a tract of land conveyed to the Lanier Family Trust by deed recorded in Volume 1254, Page 219, Deed Records, Rockwall County, Texas, a distance of 100.00 feet to a 1/2 inch iron rod with yellow plastic cap stamped "CBG SURVEYING" found at the Northwest corner of a tract of land conveyed to the United States of America by deed recorded in Volume 113, Page 682, Deed Records, Rockwall County, Texas;

Thence South 00 degrees 57 minutes 39 seconds East, along the West line of said United States of America tract, a distance of 100.00 feet to a 1/2 inch iron rod with yellow plastic cap stamped "CBG SURVEYING" found at the Southwest corner of said United States of America tract;

Thence South 89 degrees 02 minutes 21 seconds West, a distance of 100.00 feet to a 1/2 inch iron rod with yellow plastic cap stamped "CBG SURVEYING" found in the said East line of Sam Houston Street;

Thence North 00 degrees 57 minutes 39 seconds West, along the said East line of Sam Houston Street, a distance of 100.00 feet to the Point of Beginning and containing 10,000 square feet or 0.23 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

We the undersigned owner(s) of the land shown on this plat, and designated herein as the **REPLAT SANGER BROS. ADDITION, LOT 2R, BLOCK C**, an addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the **REPLAT SANGER BROS. ADDITION, LOT 2R, BLOCK C** have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I (we) also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We, our successors and assigns hereby waive any claim, damage, or cause of action that We may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 07/26/2016

APPLICANT: Ray Helmberger of Our Lady of the Lake Catholic Church

AGENDA ITEM: **P2016-031;** *Lts 2&3, Blk A, Heritage Christian Academy, Phase 2*

SUMMARY:

Discuss and consider a request by Randy Helmberger of Our Lady of the Lake Catholic Church on behalf of Dr. Brad Helmer of Heritage Christian Academy for the approval of a replat for Lots 2 & 3, Block A, Heritage Christian Academy, Phase 2 being a 8.83-acre tract of land currently identified as Lot 1, Block A, Heritage Christian Academy, Phase 2, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 27 (PD-27) for Multi-Family 14 (MF-14) District, located west of the intersection of Damascus Road and SH-205 [*S. Goliad Street*], and take any action necessary.

COMMENTS:

- ✓ The objective of this request is to subdivide one (1) parcel of land into two (2) parcels of land (i.e. Lot 3 [*approx. 1.901 acres*] & Lot 2 [*approx. 6.626 acres*]) for the purpose of conveying Lot 3 to Our Lady of the Lake Catholic Church. Heritage Christian Academy will also be dedicating a 60-ft wide right-of-way totaling 0.306-acres located along Damacus Road. This dedication will line up with the existing Murphy Drive (50-ft right-of-way) located in the Waterstone Estates Subdivision.

- ✓ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements

- ✓ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions listed in the *Recommendations* section below.

- ✓ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the request for final plat, staff would recommend the following conditions of approval:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit; and,

2) Any construction resulting from the approval of this final plat shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

OWNER'S CERTIFICATION:

LEGAL DESCRIPTION:

WHEREAS, HERITAGE CHRISTIAN ACADEMY is the owner of a tract of land situated in the City of Rockwall, Rockwall County, Texas, being in the B.J.T. Lewis Survey, Abstract No. 225 and being all of Lot 1, of **HERITAGE CHRISTIAN ACADEMY PHASE TWO**, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet G, Slides 57–58, of the Map Records of Rockwall County, Texas (M.R.R.C.T.), said tract being more particularly described as follows:

BEGINNING at a 1/2" iron rod with a yellow plastic cap stamped "RPLS 5686" found for the most westerly corner of said Lot 1, same being the most northerly corner of Lot 60, Block A, of WATERSTONE ESTATES, an addition to the City of Rockwall, as recorded in Cabinet C, Page 237, M.R.R.C.T., said corner also being in the southeasterly monumented line of the M. K. & T. Railroad (100' right–of–way);

THENCE North 17°38'38" East, along said southeasterly monumented line of the M. K. & T. Railroad, same being the northwesterly line of said Lot 1, a distance of 906.21' to a 1/2" iron rod with a yellow plastic cap stamped "RPLS 5686" found for the most northerly corner of said Lot 1, same being the most westerly corner of the Rockwall Colored Burial Club Cemetery, as recorded in Volume 35, Page 568, of the Deed Records, Rockwall County, Texas (D.R.R.C.T.);

THENCE South 63°47'53" East, along the northeasterly line of said Lot 1, a distance of 670.82' to a 1/2" iron rod with a plastic cap stamped "R.S.C.I." found for the most easterly corner of said Lot 1, same being in the northerly monumented line of Damascus Road, said corner also being in a curve to the left, having a radius of 185.00', a central angle of 97°52'53", and a chord which bears, South 67°19'39" West, a chord distance of 278.99';

Thence along said curve to the left, in a northwesterly direction, an arc length of 316.05' to a 1/2" iron rod with a yellow plastic cap stamped "RPLS 5686" found at the end of said curve;

THENCE South 18°23'15" West, along the northwesterly monumented line of Damascus Road, a distance of 142.05' to a point for corner from which a 1/2" iron rod found bears North 25°54'18" East, a distance of 2.21', said point for corner being at the beginning of a curve to the right, having a radius of 270.00', a central angle of 44°11'19", and a chord which bears, South 40°28'29" West, a chord distance of 203.11';

Thence along said curve to the right, in a southwesterly direction, an arc length of 208.23' to a point for corner from which a 1/2" iron rod found bears, North 01°34'10" West, a distance of 1.43', said point for corner being at the beginning of a curve to the left, having a radius of 330.00', a central angle of 43°51'20", and a chord which bears, South 40°38'11" West, a chord distance of 246.47';

Thence along said curve to the left, in a southwesterly direction, an arc length of 252.59' to a point for corner, from which a 1/2" iron rod found bears, North 07°06'47" West, a distance of 1.07', said point for corner being the most westerly corner of said Damascus Road;

THENCE South 71°32'47" East, along the southwesterly monumented line of Den Road, a distance of 60.00' to a 1/2" iron rod found for corner, said corner being in the southeasterly monumented line of Damascus Road, said corner also being in the northwesterly line of Lot 1, Block A, of **OUR LADY OF THE LAKE CATHOLIC CHURCH**, an addition to the City of Rockwall, as recorded in Cabinet B, Page 217, M.R.R.C.T.;

THENCE South 18°27'13" West, along the northerly line of last said Lot 1, Block A, a distance of 236.67' to a 1/2" iron rod found for the most westerly corner of said Lot 1, Block A, same being in the northeasterly line of the aforementioned **WATERSTONE ESTATES**;

THENCE North 45°26'07" West, along the common line between said Lot 1, and **WATERSTONE ESTATES**, a distance of 370.49' to the **POINT OF BEGINNING** and containing 8.833 acres of land, more or less.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:
STATE OF TEXAS
COUNTY OF ROCKWALL

We, HERITAGE CHRISTIAN ACADEMY, the undersigned owners of the land shown on this plat, and designated herein as **LOTS 3–4, BLOCK A – HERITAGE CHRISTIAN ACADEMY PHASE TWO** subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in **LOTS 3 AND 4, BLOCK A, HERITAGE CHRISTIAN ACADEMY PHASE TWO**, of this subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 07/26/2016

APPLICANT: Chet Luegers, PE; *Pacheco Koch*

AGENDA ITEM: **P2016-032**; *Lot 1, Block B, Rockwall Technology Park, Phase IV*

SUMMARY:

Discuss and consider a request by Chet Leugers, PE of Pacheco Koch on behalf of Michael Hampton of the Rockwall Economic Development Corporation (REDC) for the approval of a final plat of Lot 1, Block B, Rockwall Technology Park, Phase IV being an 8.761-acre portion of a larger 9.73-acre tract of land identified as Tract 2-01-1 of the J. H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the FM-549 Overlay (FM-549 OV) District, located at the northeast corner of the intersection of Corporate Crossing and Capital Boulevard, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to final plat 8.761 acres of a larger 9.73-acre tract of land (*i.e. Tract 2-01-1 of the J. H. B. Jones Survey, Abstract No. 125*) into one (1) parcel of land (*i.e. Lot 1, Block B, Rockwall Technology Park, Phase IV [8.761 acres]* for the purpose of establishing a regional detention pond.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for final plats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

Staff recommends approval of the final plat for *Lot 1, Block B, Rockwall Technology Park, Phase IV,* in conformance with the following conditions of approval:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *final plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

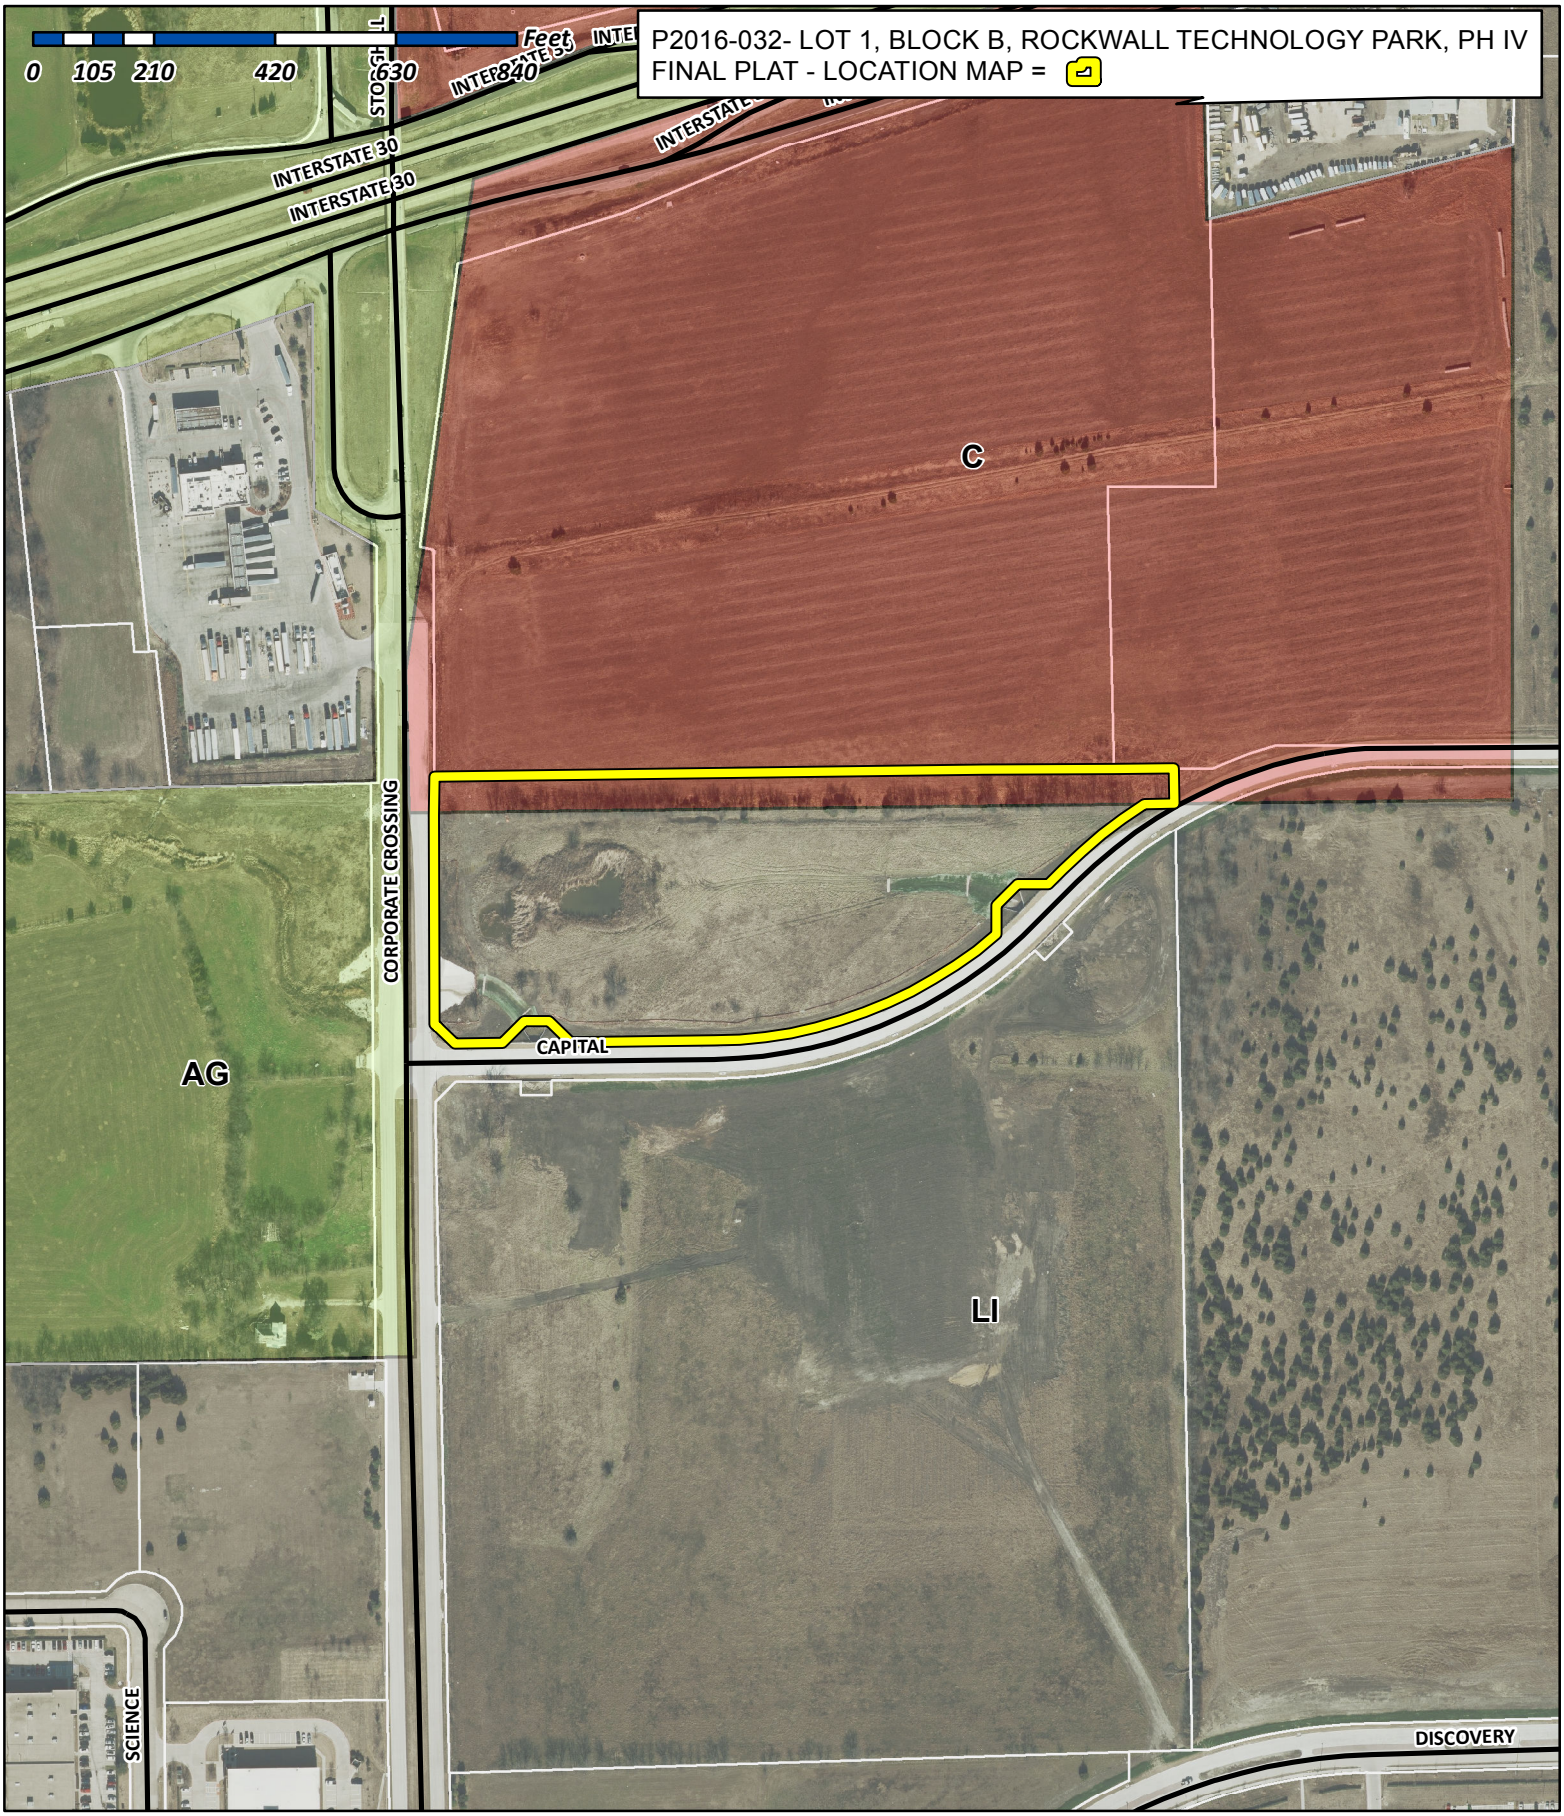
P2016-032 Rockwall Technology Park Phase IV Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Chet Leugers, PE of Pacheco Koch on behalf of Michael Hampton of the Rockwall Economic Development Corporation (REDC) for the approval of a final plat of Lot 1, Block B, Rockwall Technology Park, Phase IV being an 8.761-acre portion of a larger 9.73-acre tract of land identified as Tract 2-01-1 of the J. H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the FM-549 Overlay (FM-549 OV) District, located at the northeast corner of the intersection of Corporate Crossing and Capital Boulevard

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2016-032) in the lower right hand corner of all pages on future submittals.



M.4 Please indicate the number of proposed lots on the final plat.

M.5 Please correct the title block with the correct acreage. Currently it shows “30.035-ACRES.” It should say “8.761-ACRES.”

M.6 Please show and label the 50-foot setback adjacent to Corporate Crossing and the 25-foot setback adjacent to Capital Boulevard.

M.7 Please include the appropriate statement of developer responsibility for storm drainage improvements (found in the application packet).

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
I.8 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by August 2, 2016. The Planning & Zoning meeting date for this case will be July 26, 2016.							
I. The projected City Council meeting date and subsequent approval for this plat is August 1, 2016

OWNER'S CERTIFICATE

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS, Rockwall Economic Development Corporation, is the owner of an 8.761 acre tract of land in the City of Rockwall, Rockwall County, Texas; said tract of land being described as follows:

LEGAL DESCRIPTION

DESCRIPTION, of a 8.761 acre tract of land situated in the John H.B. Jones Survey, Abstract No. 125, Rockwall County, Texas; said tract being part of that certain tract of land described in Special Warranty Deed to Rockwall Economic Development Corporation recorded in Instrument No. 20130000496918 of the Official Public Records of Rockwall County, Texas; said 8.76 acre tract being more particularly described as follows:

BEGINNING, at a 1/2–inch iron rod with "WIER & ASSOC. INC." cap found for corner at northwest end of a right–of–way corner clip at the intersection of the east right–of–way line of Corporate Crossing (a variable width right–of–way) and the north right–of–way line of Capital Boulevard (a variable width right–of–way);

THENCE, North 00 degrees, 43 minutes, 28 seconds West, along the said east line of Corporate Crossing, a distance of 369.50 feet to a point for corner; from said point a 1/2–inch iron rod found bears North 89 degrees, 20 minutes, East, a distance of 0.6 feet; said point being the southwest corner of that certain tract of land described in Special Warranty Deed with Vendor's Lien to Capstar Holdings Corporation recorded in Instrument No. 20140000007994 of said Official Public Records;

THENCE, North 89 degrees, 11 minutes, 19 seconds East, departing the said east line of Corporate Crossing and along the south line of said Capstar Holdings Corporation tract, a distance of 1,231.34 feet to a point for corner; said point being in an angle point in the northwest line of said Capital Boulevard; said point being the beginning of a non–tangent curve to the left;

THENCE, in a southwesterly direction, along the north and northwest line of said Capital Boulevard, the following eleven (11) calls:

Along said curve to the left, having a central angle of 13 degrees, 29 minutes, 06 seconds, a radius of 770.06 feet, a chord bearing and distance of South 51 degrees, 03 minutes, 47 seconds West, 180.82 feet, an arc distance of 181.18 feet to a 1/2–inch iron rod with "WIER & ASSOC. INC." cap found at the end of said curve;

South 44 degrees, 49 minutes, 42 seconds West, a distance of 35.72 feet to point for corner;

South 89 degrees, 49 minutes, 42 seconds West, a distance of 53.74 feet to a 1/2–inch iron rod with "WIER & ASSOC. INC." cap found for corner;

South 44 degrees, 49 minutes, 42 seconds West, a distance of 52.15 feet to a 1/2–inch iron rod with "WIER & ASSOC. INC." cap found for corner;

South 00 degrees, 10 minutes, 18 seconds East, a distance of 50.26 feet to a 1/2–inch iron rod with "WIER & ASSOC. INC." cap found for corner; said point being the beginning of a non–tangent curve to the right;

Along said curve to the right, having a central angle of 39 degrees, 52 minutes, 02 seconds, a radius of 767.50 feet, a chord bearing and distance of South 69 degrees, 21 minutes, 06 seconds West, 523.33 feet, an arc distance of 534.04 feet to a 1/2–inch iron rod with "WIER & ASSOC. INC." cap found at the end of said curve;

South 89 degrees, 17 minutes, 07 seconds West, a distance of 249.50 feet to a 1/2–inch iron rod with "WIER & ASSOC. INC." cap found for corner;

North 45 degrees, 42 minutes, 53 seconds West, a distance of 53.03 feet to a 1/2–inch iron rod with "WIER & ASSOC. INC." cap found for corner;

South 89 degrees, 17 minutes, 07 seconds West, a distance of 43.38 feet to a 1/2–inch iron rod with "WIER & ASSOC. INC." cap found for corner;

South 44 degrees, 17 minutes, 07 seconds West, a distance of 53.03 feet to a 1/2–inch iron rod with "WIER & ASSOC. INC." cap found for corner;

South 89 degrees, 17 minutes, 07 seconds West, a distance of 82.43 feet to a 1/2–inch iron rod with "WIER & ASSOC. INC." cap found for corner at the southeast end of said corner clip;

THENCE, North 45 degrees, 42 minutes, 53 seconds West, along said corner clip, a distance of 42.44 feet to the POINT OF BEGINNING;

CONTAINING: 381,629 square feet or 8.761 acres of land, more or less.

Notary Public in and for the State of Texas My Commission Expires:

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I, the undersigned owner of the land shown on this plat, and designated herein as the **LOT 1, BLOCK B, ROCKWALL TECHNOLOGY PARK PHASE IV** to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, watercourses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the **ROCKWALL TECHNOLOGY PARK PHASE IV** have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 07/26/2016

APPLICANT: Chet Luegers, PE; *Pacheco Koch*

AGENDA ITEM: **P2016-033**; *Lot 1, Block A, Rockwall Technology Park, Phase IV*

SUMMARY:

Discuss and consider a request by Chet Leugers, PE of Pacheco Koch on behalf of Michael Hampton of the Rockwall Economic Development Corporation (REDC) for the approval of a final plat of Lot 1, Block A, Rockwall Technology Park, Phase IV being an 30.035-acre portion of a larger 49.85-acre tract of land identified as Tract 1, J. H. B. Jones Survey, Abstract 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the northeast corner of the intersection of Discovery Boulevard and Data Drive, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to final plat 30.035 acres of a larger 49.85-acre tract of land (*i.e. Tract 1 of the J. H. B. Jones Survey, Abstract No. 125*) into one (1) parcel of land (*i.e. Lot 1, Block A [30.035 acres]* for the purpose of establishing an industrial facility.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for final plats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

Staff recommends approval of the final plat for *Lot 1, Block A, Rockwall Technology Park, Phase IV,* in conformance with the following conditions of approval:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *final plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

P2016-033 Rockwall Technology Park Phase IV Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Chet Leugers, PE of Pacheco Koch on behalf of Michael Hampton of the Rockwall Economic Development Corporation (REDC) for the approval of a final plat of Lot 1, Block A, Rockwall Technology Park, Phase IV being an 30.035-acre portion of a larger 49.85-acre tract of land identified as Tract 1, J. H. B. Jones Survey, Abstract 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the northeast corner of the intersection of Discovery Boulevard and Data Drive.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.							
M.3 For reference, include the case number (P2016-033) in the lower right hand corner of all pages on future submittals.							
M.4 Please indicate the number of proposed lots on the final plat.							
M.5 Please change the setbacks on Data Drive and Discovery Boulevard from “25-Foot Rear Setback” to “25-Foot Front Setback” or “25-Foot Setback”.							
M.6 Please include the appropriate statement of developer responsibility for storm drainage improvements (found in the application packet).							
I.7 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by August 2, 2016. The Planning & Zoning meeting date for this case will be July 26, 2016							
I.8 The projected City Council meeting date and subsequent approval for this plat is August 1, 2016.

OWNER'S CERTIFICATE

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS, Rockwall Economic Development Corporation, is the owner of an 30.035 acre tract of land in the City of Rockwall, Rockwall County, Texas; said tract of land being described as follows:

LEGAL DESCRIPTION

DESCRIPTION, of a 30.035 acre tract of land situated in the John H.B. Jones Survey, Abstract No. 125, Rockwall County, Texas; said tract being part of that certain tract of land described in Special Warranty Deed to Rockwall Economic Development Corporation recorded in Volume 3495, Page 314 of the Deed Records of Rockwall County, Texas; said 30.035 acre tract being more particularly described as follows:

BEGINNING, at a 1/2–inch iron rod with "WIER & ASSOC. INC." cap found for corner at the northeast end of a right–of–way corner clip; said point being at the intersection of the west right–of–way line of Data Drive (a variable width right–of–way) and the north right–of–way line of Discovery Boulevard (a variable width right–of–way);

THENCE, South 43 degrees, 22 minutes, 30 seconds West, along the said corner clip, a distance of 42.41 feet to a 5/8–inch iron rod with "PACHECO KOCH" cap set for corner; said point being the southwest end of said corner clip;

THENCE, South 88 degrees, 23 minutes, 49 seconds West, along the said north line of Discovery Boulevard, a distance of 961.50 feet to a 5/8–inch iron rod with "PACHECO KOCH" cap set for corner; said point being the beginning of a curve to the left;

THENCE, in a southwesterly direction, continuing along said north line of Discovery Boulevard and along said curve to the left, having a central angle of 05 degrees, 04 minutes, 29 seconds, a radius of 1,042.50 feet, a chord bearing and distance of South 85 degrees, 51 minutes, 35 seconds West, 92.30 feet, an arc distance of 92.33 feet to a 5/8–inch iron rod with "PACHECO KOCH" cap set for corner at the end of said curve;

THENCE, North 01 degrees, 38 minutes, 50 seconds West, departing the said north line of Discovery Boulevard and over and across said Rockwall Economic Development Corporation tract, a distance of 1,212.90 feet to a 5/8–inch iron rod with "PACHECO KOCH" cap set for corner;

THENCE, North 88 degrees, 21 minutes, 10 seconds East, continuing over and across said Rockwall Economic Development Corporation tract, a distance of 1,083.68 feet to a 5/8–inch iron rod with "PACHECO KOCH" cap set for corner in the said west line of Data Drive;

THENCE, along the said west line of Data Drive, the following six (6) calls:

South 01 degrees, 41 minutes, 05 seconds East, a distance of 60.00 feet to a 5/8–inch iron rod with "PACHECO KOCH" cap set for corner;

South 01 degrees, 38 minutes, 50 seconds East, a distance of 302.51 feet to a 1/2–inch iron rod with "WIER & ASSOC. INC." cap found for corner;

South 43 degrees, 21 minutes, 10 seconds West, a distance of 36.77 feet to a 1/2–inch iron rod with "WIER & ASSOC. INC." cap found for corner;

South 01 degrees, 38 minutes, 50 seconds East, a distance of 43.14 feet to a 1/2–inch iron rod with "WIER & ASSOC. INC." cap found for corner;

South 46 degrees, 38 minutes, 50 seconds East, a distance of 36.77 feet to a 5/8–inch iron rod with "PACHECO KOCH" cap set for corner;

South 01 degrees, 38 minutes, 50 seconds East, a distance of 722.00 feet to a the POINT OF BEGINNING;

CONTAINING: 1,308,340 square feet or 30.035 acres of land, more or less.

Before me, the undersigned authority, on this day personally appeared Paul Hubert, known to me to be the person whose name is subscribed to the foregoing instrument, and acknowledged to me that he executed the same for the purpose and consideration therein stated.

Given upon my hand and seal of office this _____ Day of _____ , 2016.

_____ _____ _____
Notary Public in and for the State of Texas My Commission Expires:

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I, the undersigned owner of the land shown on this plat, and designated herein as the **LOT 1, BLOCK A, ROCKWALL TECHNOLOGY PARK PHASE IV** to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, watercourses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the **ROCKWALL TECHNOLOGY PARK PHASE IV** have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 07/26/2016

APPLICANT: Jay Holman & Don Silverman of Rockwall 205-552, LLC

AGENDA ITEM: **P2016-034;** *Lots 1-3, Block A, Dalton Goliad Addition*

SUMMARY:

Discuss and consider a request by Jay Holman & Don Silverman of Rockwall 205-552, LLC for the approval of final plat for Lots 1-3, Block A, Dalton Goliad Addition being a 9.232-acre tract of land identified as Tract 4-1 of the T. R. Bailey Survey, Abstract No. 30, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the northwest corner of the intersection of SH-205 [*N. Goliad Street*] and FM-552, and take any action necessary.

COMMENTS:

- ✓ The objective of the request is to subdivide a 9.323-acre tract of land into three (3) lots for the purpose of developing Lots 1 & 3. Earlier this year two (2) site plans were approved for the two (2) lots in the subdivision. Lot 1 will accommodate an 18,663 sq. ft. Aldi (*grocery store*) and Lot 3 will be an 11,310 sq. ft. retail facility. The remainder (Lot 2) of the property will continue to be vacant for future development. The final plat will establish the necessary fire lane, public access, utility, detention and drainage easements for the new developments.

- ✓ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ✓ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions listed in the *Recommendations* section below.

- ✓ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the request for final plat, staff would recommend the following conditions of approval:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit; and,

2) Any construction resulting from the approval of this final plat shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state

and federal government.

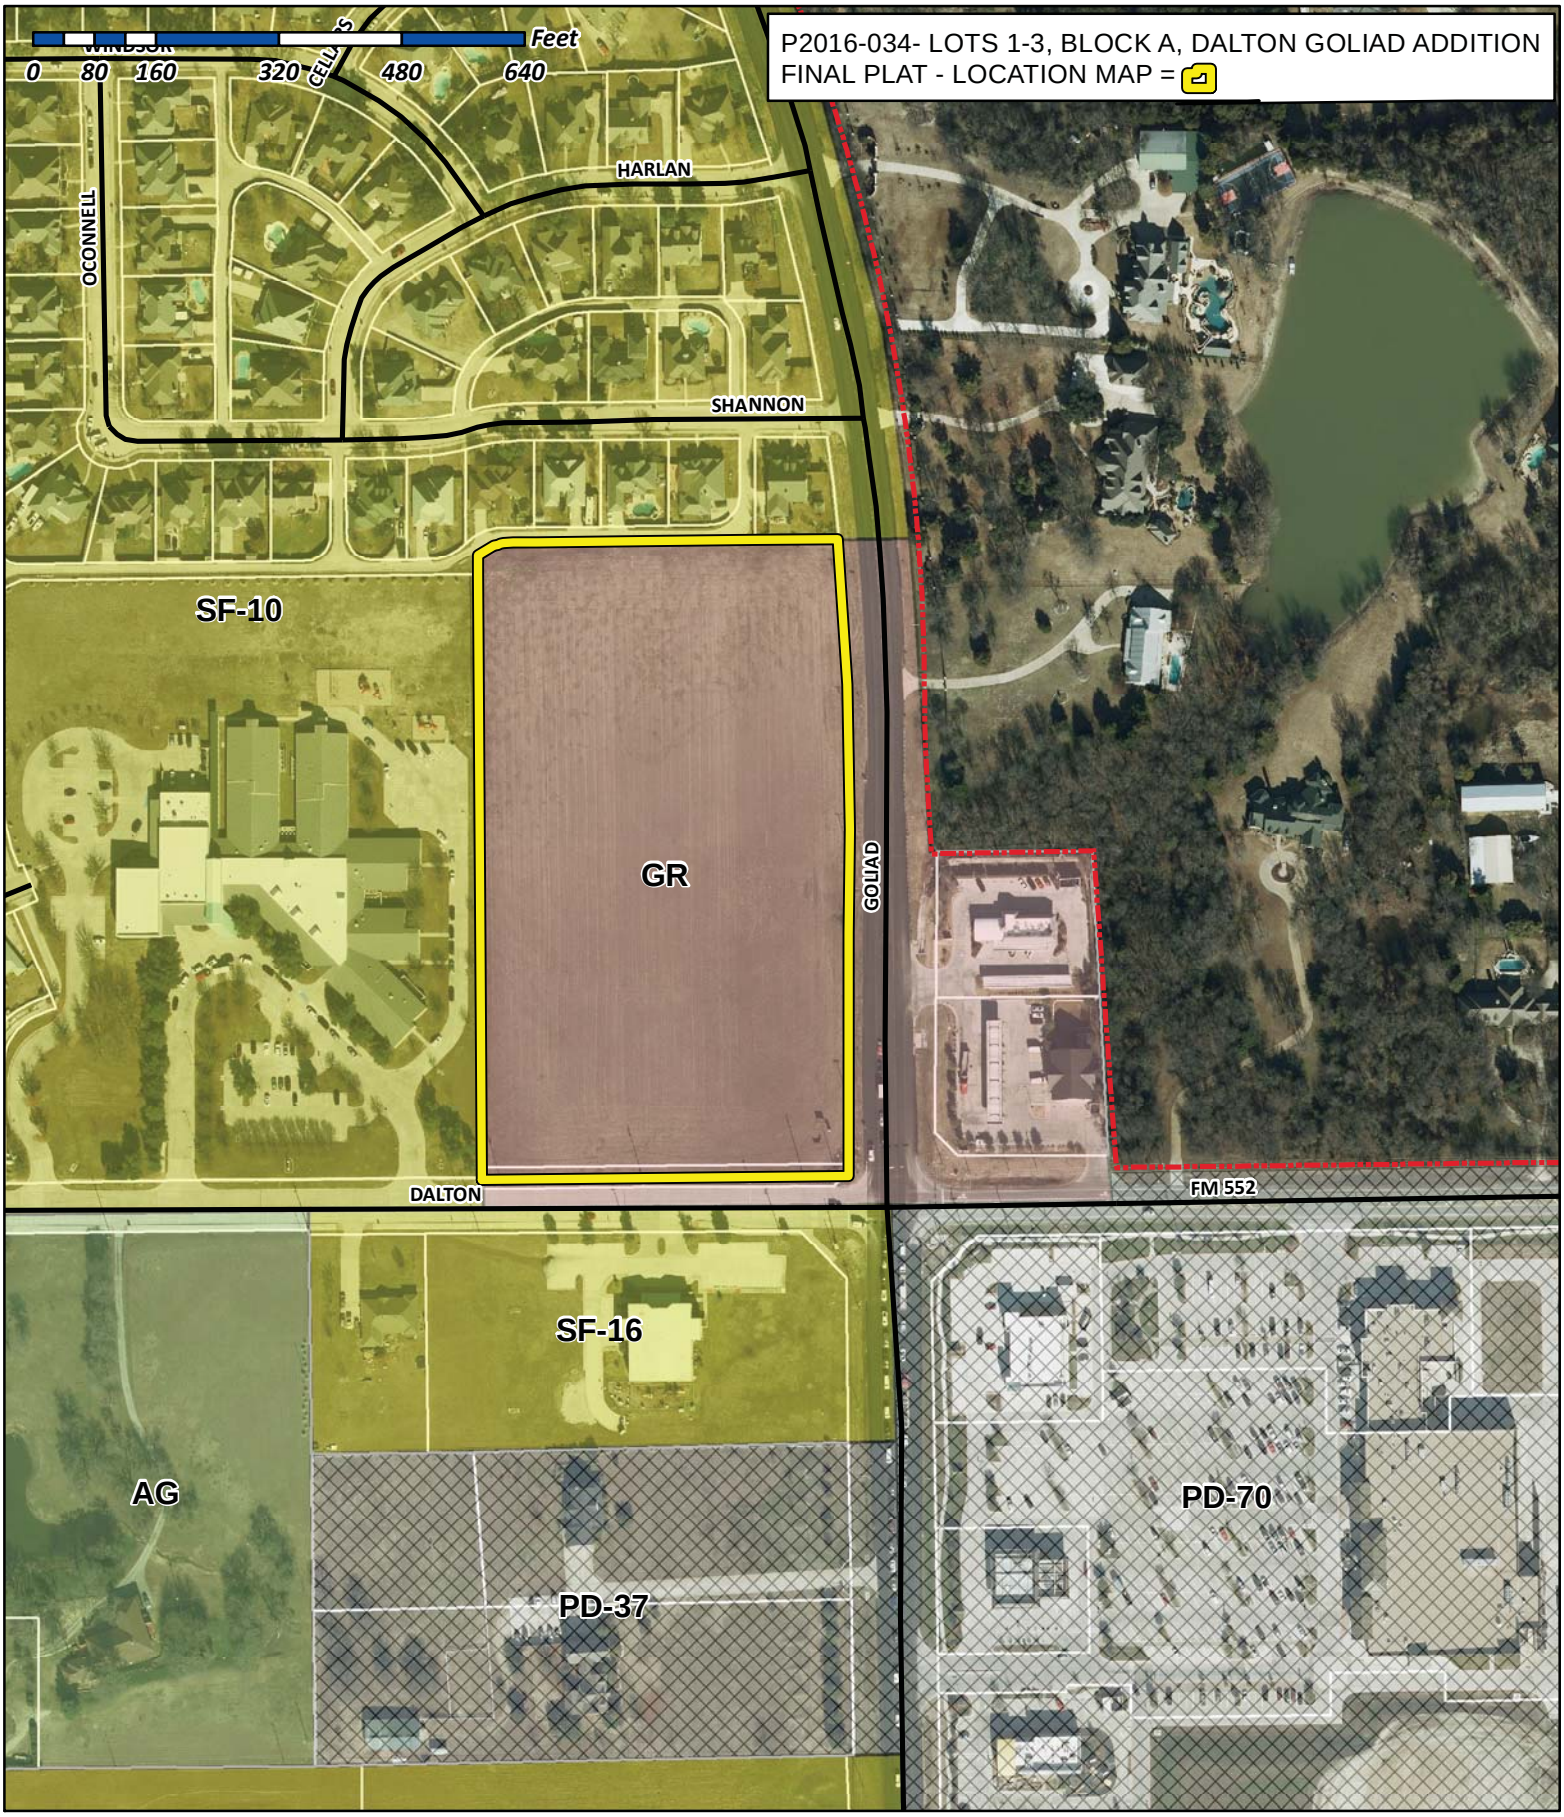
SH-205 OV) District, located at the northwest corner of the intersection of SH-205 [N. Goliad Street] and FM-552, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, August 2, 2016. Please provide three large copies [18" X 24" FOLDED] and one PDF version for a subsequent review by staff:

1. Adherence to all Engineering and Fire Department standards shall be required.
2. Provide a label indicating "Case No. P2016-034" on the lower right corner on all pages of the revised plat.
3. Relabel XX-ft Firelane, Access...Easement to "XX-ft Firelane, Public Access, Drainage, and Utility Easement."
4. Change acreage on Title Block to read 9.232 Acres - [0.049 Acre ROW Dedication was not included in total acres].
5. Notary Certificate is not necessary when plat is stamped by Surveyor.



** As a note and once the plat has been approved by the Planning and Zoning Commission and City Council, all staff comments are to be addressed and all revisions resubmitted and approved (by staff) prior toplat submittal on mylar for filing purposes. **

STATE OF TEXAS
COUNTY OF TARRANT

BEFORE me, the undersigned authority, a Notary Public in and for the State of Texas, on this day personally appeared TIMOTHY R. MANKIN, known to me to be the person or persons whose name is subscribed to the foregoing instrument, and acknowledged to me that he executed the same in the capacity herein stated and the act and deed of said company.

GIVEN UNDER MY HAND AND SEAL OF OFFICE, this _____ day of _____ 2016.

_____
Notary Public in and for the State of Texas

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS

COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as the **DALTON GOLIAD ADDITION** subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the **DALTON GOLIAD ADDITION** subdivision have been notified and signed this plat. I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. All detention/drainage systems to be maintained, repaired, and replaced by property owner.

7. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall. I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

SHEET 2 OF 2

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 07/26/2016

APPLICANT: Sandra Peterson

AGENDA ITEM: **Z2016-020;** 509 Sunset Hill Drive (*SUP*)

SUMMARY:

Hold a public hearing to discuss and consider a request by Sandra Peterson for the approval of a Specific Use Permit (SUP) to allow for a carport that does not meet the minimum setback requirements stipulated by Section 2.1.2, Residential and Lodging Use Conditions, of Article IV, Permissible Uses, of the Unified Development Code [Ordinance No. 04-38] for a 0.231-acre parcel of land identified as Lot 10, Block D of Northshore, Phase 2A Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 509 Sunset Hill Drive, and take any action necessary.

BACKGROUND INFORMATION

The applicant, Sandra Peterson is requesting a Specific Use Permit (SUP) to allow for a carport that does not meet the minimum rear yard setback requirements stipulated in Section 2.1.2, *Residential and Lodging Use Conditions,* of Article IV, *Permissible Uses*, of the Unified Development Code (UDC). According to this section the minimum depth of rear yard setback is ten (10) feet for properties located in a Single Family 10 (SF-10) District. The applicant is proposing to construct the carport 8-feet from the street. According to Section 2.1.2, *Residential and Lodging Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code, (UDC), carports that do not meet the minimum rear yard setbacks can apply for a Specific Use Permit (SUP) to be approved by the City Council. The proposed carport will stand approximately ten (10) feet in height and will have a building footprint of approximately 24-feet x 22-feet or 530 square feet. The carport will be located behind the main residential structure and attach to the existing home where the garage is located. The carport will be constructed of metal and will not visible from the street.

NOTIFICATION:

Staff mailed 25 notices to property owners and occupants within 500-feet of the subject property. Staff also notified the Preserve HOA, which is the only HOA/Neighborhood Organization that is within 1,500-feet and participating in the notification program. Additionally, staff posted a sign on the subject property as required by the Unified Development Code (UDC). At the time this report was drafted, staff has received five (5) notices returned in favor of the carport.

RECOMMENDATIONS:

Should the Planning and Zoning Commission and City Council choose to approve the SUP request, staff would offer the following conditions of approval:

1) The carport be subject to the operational conditions contained in the SUP ordinance, which are as follows:

A. The carport shall generally conform to the approved site plan depicted in Exhibit 'B' of the SUP ordinance;

B. The carport shall not exceed 530 square feet in area;

C. The carport shall not exceed a maximum height of 10 feet;

D. The carport shall not encroach the 7’5” utility easement.

E. The carport is subject to administrative review in the event that the Subject Property is sold or conveyed in any manner to another party, subdivided, or re-platted.

2) Any construction or building necessary to complete this request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Z2016-020 SUP for Carport:
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Sandra Peterson for the approval of a Specific Use Permit (SUP) to allow for a carport that does not meet the minimum setback requirements stipulated by Section 2.1.2, Residential and Lodging Use Conditions, of Article IV, Permissible Uses, of the Unified Development Code [Ordinance No. 04-38] for a 0.231-acre parcel of land identified as Lot 10, Block D of Northshore, Phase 2A Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 509 Sunset Hill Drive.
I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (Z2016-020) in the lower right hand corner of all pages on future submittals.
M.4 Please review the attached draft ordinance prior to the July 12, 2016 Planning & Zoning Commission meeting.
M.5 Please provide rendering of how the carport will look.
M.6 Please be sure to stay out of the easement. We do not allow structures or overhangs in easements.
I.7 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on July 6, 2016; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the July 12, 2016 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on June 28, 2016.
I.8 The projected City Council meeting dates for this case will be July 18, 2016 [1st Reading] & August 1, 2016 [2nd Reading].

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [ORDINANCE 04-38] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A CARPORT THAT DOES NOT CONFORM TO THE REQUIREMENTS AS STIPULATED BY SECTION 2.1.2, RESIDENTIAL AND LODGING USE CONDITIONS, OF ARTICLE IV, PERMISSIBLE USES, OF THE UNIFIED DEVELOPMENT CODE, BEING A 0.231-ACRE TRACT OF LAND, ZONED SINGLE-FAMILY RESIDENTIAL (SF-10) DISTRICT, AND ADDRESSED AS 509 SUNSET HILL DRIVE, AND IDENTIFIED AS LOT 10, BLOCK D OF NORTHSHORE, PHASE 2A ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, AND MORE SPECIFICALLY DEPICTED IN *EXHIBIT 'A' OF THIS ORDINANCE*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Sandra Peterson for the approval of a Specific Use Permit (SUP) to allow for a *Carport* that does not conform to the requirements as stipulated by Section 2.1.2, *Residential and Lodging Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*], being a 0.231-acre tract of land, zoned Single-Family Residential (SF-10) District, and identified Lot 10, Block D, of Northshore, Phase 2A Addition, City Rockwall, Rockwall County, Texas, addressed as 509 Sunset Hill Drive and more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing for a *Carport* that does not conform to the requirements stipulated by Section 2.1.2, *Residential and Lodging Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] for a property within a Single Family Residential (SF-10) District and

DRAFT ORDINANCE 7.26.16

more specifically described as the *Subject Property*; and

SECTION 2. That the *Subject Property* shall be used only in the manner and for the purposes described in this Specific Use Permit (SUP) granted herein and shall be subject to the conditions set forth in *Article IV, Permissible Uses, Sec. 2.1.2 Residential and Lodging Uses* of the Unified Development Code [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting of this Specific Use Permit (SUP), and as may be amended in the future, and shall be subject to the additional following conditions:

1) The carport generally conforms to the approved site plan depicted in *Exhibit 'B'* of this ordinance;

2) The carport shall not exceed 530 square feet in area;

3) The carport shall not exceed a maximum height of 10 feet;

4) The carport shall not encroach the 7'5" utility easement;

5) The carport is subject to administrative review in the event that the *Subject Property* is sold or conveyed in any manner to another party, subdivided, or re- platted.

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS ($2,000.00)* for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 1st DAY OF AUGUST, 2016.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 07/26/2016

APPLICANT: Mike Hogue

AGENDA ITEM: **Z2016-021**; Hogue Townhouse *(PD Amendment)*

SUMMARY:

Hold a public hearing to discuss and consider a request by Mike Hogue for the approval of a zoning amendment to Planned Development District 52 (PD-52) for the purpose of allowing townhomes on a 2.048-acre tract of land identified as Lot 1, Block 1, Allen Hogue Subdivision (*0.7910-acres*) and Lots 67 & 68, Block B, B. F. Boydston Addition (*1.257-acres*), City of Rockwall, Rockwall County, Texas, zoned Planned Development District 52 (PD-52) for Heavy Commercial (HC) District land uses, being addressed as 703, 705 & 709 E. Boydstun Avenue, and take any action necessary.

PURPOSE AND CHARACTERISTICS OF THE REQUEST:

On June 17, 2016 the applicant, Mike Hogue, submitted an application requesting a zoning amendment to Planned Development District 52 (PD-52) [*Ordinance No. 02-14*] for the purpose of allowing *Townhomes* on a 2.048-acre tract of land. The development will consist of eleven (11) single-family (*attached)* townhomes. The subject property has an underlying zoning of Heavy Commercial (HC) District, is located at the intersection of E. Boydstun Avenue and S. Clark Street, and addressed as 703, 705, & 709 E. Boydstun Avenue.

The Conceptual Site Plan submitted by the applicant indicates the 2.048-acre development will be sub-divided into twelve (12) lots for the purpose of constructing eleven (11) single-family "attached" homes [*townhomes*] and providing a park and open space. Based on the Conceptual Site Plan, each home site will share at least one (1) common wall; however, five (5) of the townhomes will have common walls on both sides. The ordinance will establish a minimum lot size of 24-ft x 75-ft, and a total minimum lot area of 1800 sq. ft.

The applicant intends to build three (3) story, two (2) bedroom townhomes consisting of 2,258 sq.-ft. of air conditioned space on each lot. The conceptual rendering (*photo*) provides a perspective of a traditional attached three (3) story home site that will incorporate a mixture flat and pitched roofs with gabled elements, articulated entry features, and balconies. Each townhome will be identified as a separate unit. Anti-monotony standards have been incorporated within the ordinance. The overall minimum masonry requirement for this development will be calculated at 90% masonry material(s), excluding windows and doors. Hardy Plank or a similar cementaceous material may be used up to 70 percent of the masonry requirement on units that do not have a cementaceous material on the adjoining property façade. This will help maintain the traditional design and style the applicant is attempting to create. Each townhome will also have a two (2) car garage located to the rear of each property.

In addition, the applicant will provide a minimum of a 10-foot landscape buffer along S. Clark Street and Boydstun Avenue with large canopy trees planted at 50-ft intervals. Additional landscaping for each property will be provided as depicted on the concept plan.

A summary of the requested density and dimensional requirements is as follows:

Table 2: Lot Dimensional Requirements

Lot Type (see Concept Plan) ►	***Townhouse***
Minimum Lot Width	24'
Minimum Lot Depth	75'
Minimum Lot Area	1,800 SF
Minimum Front Yard Setback [2]	15'
Minimum Side Yard Setback	0'
Minimum Side Yard Setback (Adjacent to a Street)	20'
Minimum Length of Driveway Pavement from Rear Property Line	20'
Maximum Height [3]	39'
Minimum Rear Yard Setback [4]	10'
Minimum Area/Dwelling Unit (SF) [Sum of All Floor Area's]	2,200 SF
Maximum Lot Coverage	75%
Permitted Encroachment into Required Setbacks [5]	5'

General Notes:

[2]: The location of the Front Yard Building Setback as measured from the front property line.

[3]: The Maximum Height shall be measured to the midpoint of the roof of the single family home.

[4]: As measured from the rear yard property line.

[5]: Porches, stoops, bay windows, balconies, eaves and similar architectural features may encroach beyond the Front Yard Building Setback by up to five (5) feet for any property; however, the encroachment shall not exceed five (5) feet on Side Yard Setbacks where appropriate for such use and shall not encroach into public right-of-way.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property are existing single family homes zoned for Duplex (Two Family) Residential (2F) District land uses.

South: Directly south of the subject property is non-residential land uses zoned Planned Development No. 52 (PD-52) for Heavy Commercial (HC) District land uses.

East: Directly east of the subject property are single family homes zoned for Single Family 7 (SF-7) District land uses.

West: Directly west of the subject property are single family homes zoned for Zero Lot Line Residential (ZL-5) District land uses.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

Mr. Hogue's property is located within Planned Development No. 52 (PD-52) District, which allows for Heavy Commercial (HC) land uses. Adjacent to and within the vicinity of his property are Commercial (C), Duplex Residential (2F), and Single-Family Residential (SF-7) land uses. The Future Land Use Map contained within the Comprehensive Plan designates the subject property for Commercial/Industrial land uses. However, due to the adjacent land uses (i.e. Single-Family) this property could be utilized as a transitional zone if approved by City Council. According to the Comprehensive Plan, "(h)igh density residential (uses) should be used as a transitional use from commercial (or existing retail) use, or where it will serve as a logical extension of an existing high density development." The zoning change proposed by the applicant would require this designation to be amended to a *High Density Residential* designation. This has been added as a condition of approval for this case.

It should be pointed out that according to the *Comprehensive Plan* the applicant is not required to provide 20% open space since the site is less than five (5) acres in total area; however, the concept plan indicates that an 1.64-acre park and open space area will be provided in the northern portions

of the property adjacent to the flood plain area. This area is heavily treed and represents 80% of the total property. With this being said, the proposed amendment to PD-52 to allow for townhomes as depicted on the Conceptual Site Plan is a discretionary decision for the City Council.

NOTIFICATION:

On July 1, 2016, staff mailed 250 notices to property owners and residents within 500-feet of the subject property. Staff also emailed a notice to the Park Place Homeowner's Associations (HOA), which is the only HOA located within 1,500 feet of the subject property. Additionally, staff posted a sign adjacent to the subject property along Boydstun Avenue and advertised the public hearings in the Rockwall Harold Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted, staff has received six (6) notices "in favor of" and four (4) notices "opposed to" the request.

RECOMMENDATIONS:

Should the Planning & Zoning Commission and City Council approve the applicant's request, staff recommends the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the all conditions contained within the Planned Development District ordinance;

2) The applicant shall adhere to Fire Department standards as follows:
   a) Fire sprinkler system is required.
   b) All fire code requirements shall be met including:
      i) Fire hydrant and Fire Lane Coverage. Location of fire hydrant and fire lane will be dependent upon location of fire department connections (FDC's). Discuss locations with Fire Marshal.

3) That a replat of the proposed townhome development be required prior to the issuance of a building permit;

4) Development of the proposed eleven (11) lots shall generally conform with the intent of the PD Development Standards, Conceptual Site Plan, and the Conceptual Rendering as depicted and attached to the PD Ordinance;

5) By approving this zoning change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of the subject property from a *Heavy Commercial* designation to a *High Density Residential* designation; and,

6) Prior to acceptance of a Final Plat application, a PD Site Plan must be submitted and approved by the Planning and Zoning Commission, and;

7) Any construction resulting from the approval of this zoning ordinance shall conform to the requirements set forth by Planned Development District Ordinance, the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Planning Staff General Comments:

1. Submittal and approval of a site plan and plat are required for the proposed development prior to issuance of a building permit.
2. Development of the proposed property must meet the intent of the PD Conceptual Site Plan and the PD Conceptual Building Elevations as attached to the PD Ordinance.
3. The development shall adhere to the city's engineering and fire department standards as established.
4. Waiver required from City Council for not meeting the street frontange requirements.
5. Once a draft PD Ordinance has been written and provided to you, please review and make any corrections/additions you feel are appropriate for your development.

The following staff comments are to be addressed and resubmitted no later than Tuesday, July 5, 2016 (three large copies FOLDED and one PDF version) for subsequent/final review by staff. For questions or comments concerning this case please contact David Gonzales, AICP in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com

• On all future plan submittals please include the Case Number (Z2016-021) in the lower right hand corner.

• Adherence to the Parks Board Recommendations for Park District No. 21.

Please make the following corrections/additions to the Conceptual Site Plan:

1) Provide a label (i.e. BLOCK A & BLOCK B) delineating the townhouse lots (e.g. 10 lot area) from the remainder of the total lot area (i.e. open space, park area, road section, etc.). Also, label each separate lot within the townhouse area (e.g. Lot 1, Lot 2,..., Lot 10).
2) Provide and label 10-ft landscape buffers adjacent to E. Boydstun Ave and S. Clark St. Also indicate large canpoy trees (min. 3 caliper inch) spaced 50-ft apart along those streets.
3) Provide and label a 10-ft front building setback line for the townhouse lots only (BLOCK A).
4) Remove the labels and lines indicating the 15-ft and 50-ft building lines.
5) Make adjustments and redraw lots # 1 & # 10 - those portions of the lot corners are not to be encroaching onto the street section.
6) Delineate/provide dimensions to the park area. Also, what amenities will be offered for the park?
7) Although not a requirement, how much open space will remain within the development (net acreage and/or percentage of total area).
8) Relabel the Site Plan submitted as "Conceptual Site Plan."

Please make the following corrections/additions to the Conceptual Building Elevations:

1) Provide an exterior materails type and calculation for each elevation.
2) Provide the overall height of the building.

• The following are a list of Comprehensive Plan (plan) policies that have not been satisfied or could benefit from clarification:

(1) The comp plan requires higher standards for residential design and that townhomes should differ in appearance through the use of varying entry features, use of

detail and trim, use of materials, articulation and setback. A request to waive this requirement by the City Council may be approved through the PD Ordinance.

• Please make these revisions and corrections, and provide any additional information that has been requested. Revisions for this case will be due to staff by July 5,2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible. All outstanding items may be listed or considered as conditions ofapproval should the request be approved by City Council.

• Please mark your calendar for the scheduled meeting dates as follows:

1) Planning and Zoning Work Session: June 28, 2016

2) Planning and Zoning Public Hearing: July 12, 2016

2) City Council dates: a) July 18, 2016 [Public Hearing - 1st Reading] and b) August 1, 2016 [2nd Reading (if approved at 1st Reading)].

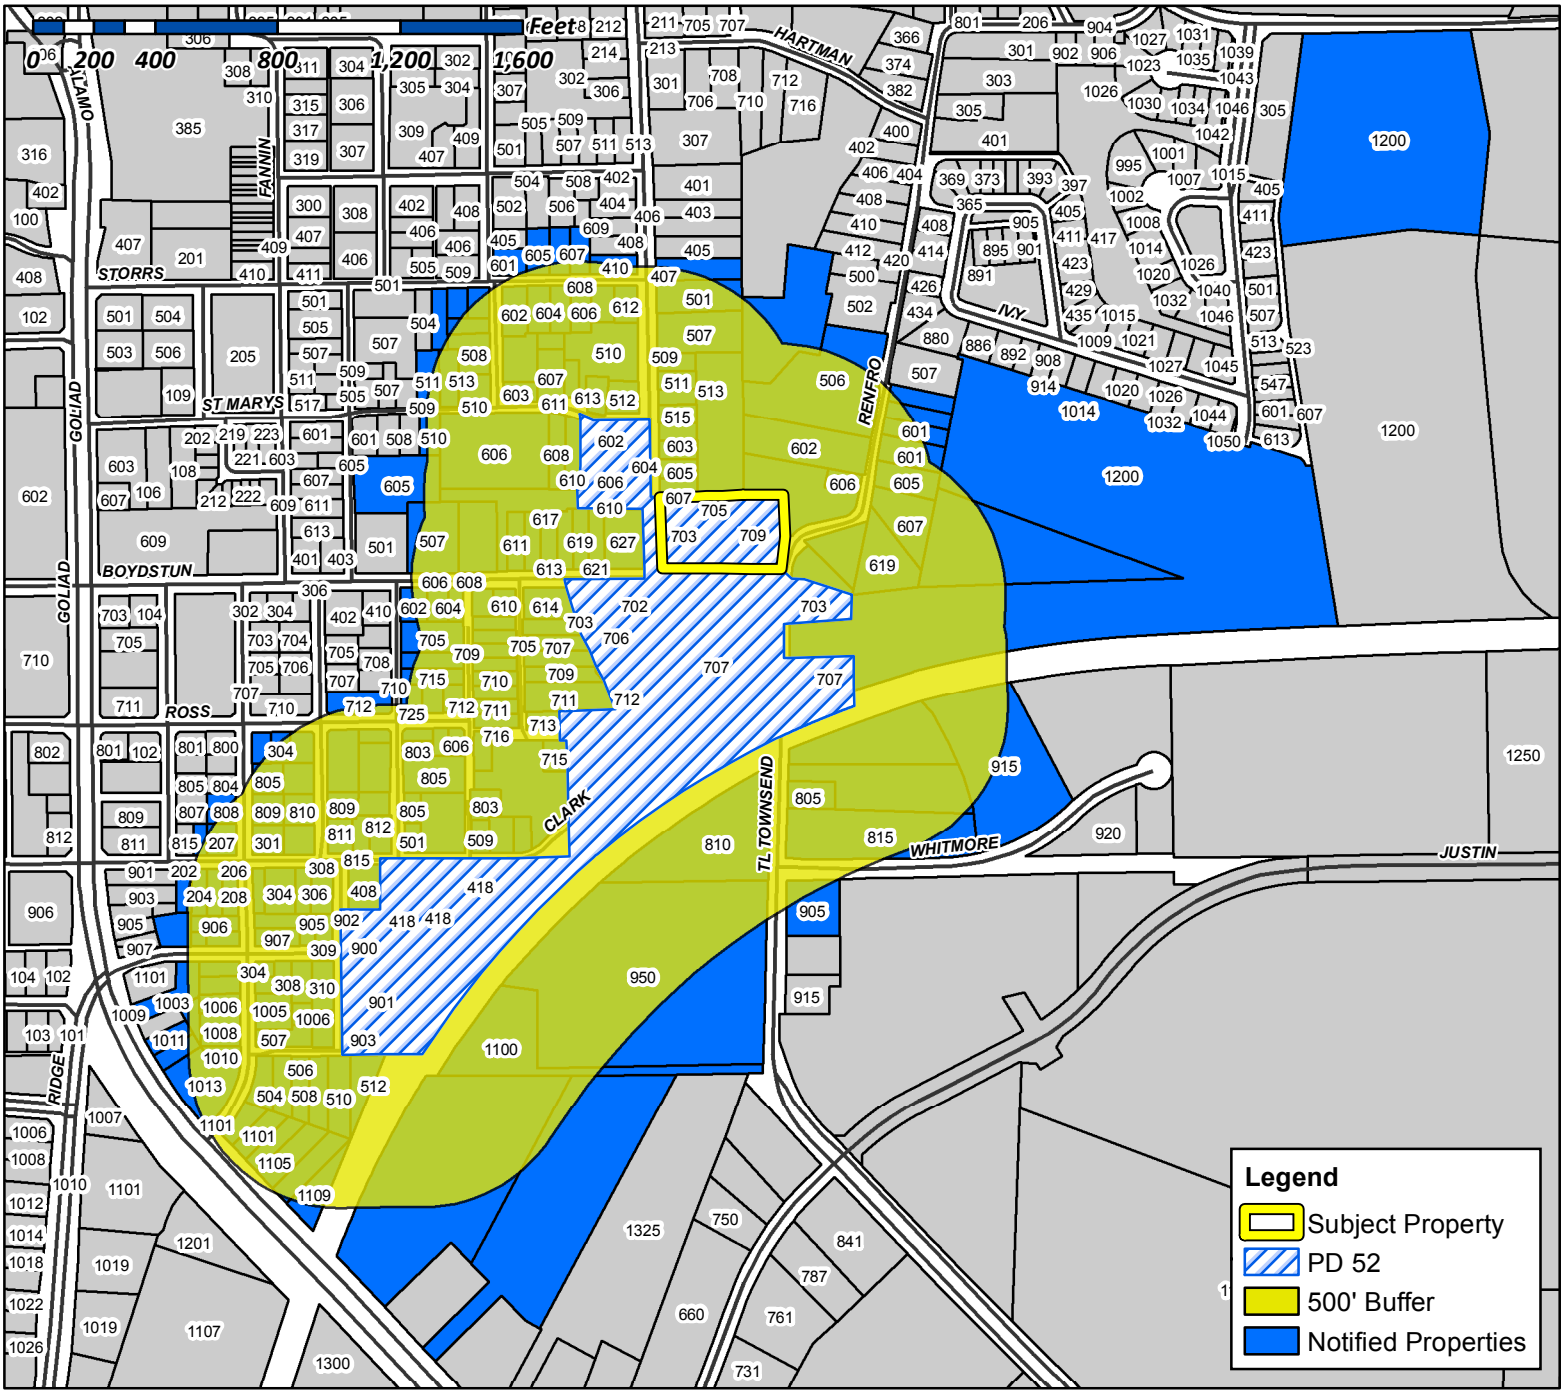
Subject:	Neighborhood Noification Program: Notice of zoning request
Date:	Friday, June 24, 2016 4:49:12 PM

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on June 3, 2016. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

Z2016-021-Hold a public hearing to discuss and consider a request by Mike Hogue for the approval of a zoning amendment to Planned Development District 52 (PD-52) for the purpose of allowing townhomes on a 2.17-acre tract of land identified as Lot 1, Block 1, Allen Hogue Subdivision (*0.7910-acres*) and Lots 67 & 68, Block B, B. F. Boydston Addition (*1.257-acres*), City of Rockwall, Rockwall County, Texas, zoned Planned Development District 52 (PD-52) for Heavy Commercial (HC) District land uses, being addressed as 703, 705 & 709 E. Boydstun Avenue, and take any action necessary.

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.



Sincerely,

Laura Morales

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

UPDATED NOTICE

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2016-021: Hogue Townhomes

Hold a public hearing to discuss and consider a request by Mike Hogue for the approval of a zoning amendment to Planned Development District 52 (PD-52) for the purpose of allowing townhomes on a 2.048-acre tract of land identified as Lot 1, Block 1, Allen Hogue Subdivision (0.7910-acres) and Lots 67 & 68, Block B, B. F. Boydston Addition (1.257-acres), City of Rockwall, Rockwall County, Texas, zoned Planned Development District 52 (PD-52) for Heavy Commercial (HC) District land uses, being addressed as 703, 705 & 709 E. Boydstun Avenue, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 7/26/2016 at 6:00 p.m.**, and the City Council will hold a public hearing on **Monday, 8/1/2016 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **7/18/2016** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

MORE INFORMATION ON THIS CASE CAN BE FOUND ON THE CITY'S WEBSITE: HTTPS://SITES.GOOGLE.COM/SITE/ROCKWALLPLANNING/DEVELOPMENT-CASES

PLEASE RETURN THE BELOW FORM

Case No. Z2016-021: Hogue Townhomes

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☐ I am opposed to the request for the reasons listed below.

Name:	
Address:	

Tex. Loc. Gov. Code, Sec. 211.006 (d) If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either: (1) the area of the lots or land covered by the proposed change; or (2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.

PLEASE SEE LOCATION MAP OF SUBJECT PROPERTY ON THE BACK OF THIS NOTICE

To: Gonzales, David
Subject: FW: Case No. Z2016-021: Hogue Townhomes

From: Sherri Johnston [mailto:sherri1955mt@yahoo.com]
Sent: Friday, July 08, 2016 2:16 PM
To: Planning
Subject: Case No. Z2016-021: Hogue Townhomes

As a Rockwall resident and homeowner I do have a few concerns in reference to Case No. Z2016-021: Hogue Townhomes.

- Parking availability at each townhome. This is a busy area with the RISD bus barn located right across the street. If there is not ample parking on each townhome lot, vehicles will be parking in a street that is already heavily traveled, especially when school is in session.

- Will there be any open space requirements that Mr. Hogue will have to comply with?

- What will the landscaping requirements be? There are several large trees on this property. Hopefully they will be able to be saved should this development move forward.

- What type of street lighting will be required for this area?

- How will the drainage be affected in this area? There is a large creek that runs behind this property.

I am opposed to this request as it will add to the traffic in our area which is already busy as Clark Street is used by many as a cut through to Hwy. 66.

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2016-021: Hogue Townhomes

Hold a public hearing to discuss and consider a request by Mike Hogue for the approval of a zoning amendment to Planned Development District 52 (PD-52) for the purpose of allowing townhomes on a 2.048-acre tract of land identified as Lot 1, Block 1, Allen Hogue Subdivision (0.7910-acres) and Lots 67 & 68, Block B, B. F. Boydston Addition (1.257-acres), City of Rockwall, Rockwall County, Texas, zoned Planned Development District 52 (PD-52) for Heavy Commercial (HC) District land uses, being addressed as 703, 705 & 709 E. Boydstun Avenue, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 7/12/2016 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 7/18/2016 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **7/18/2016** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

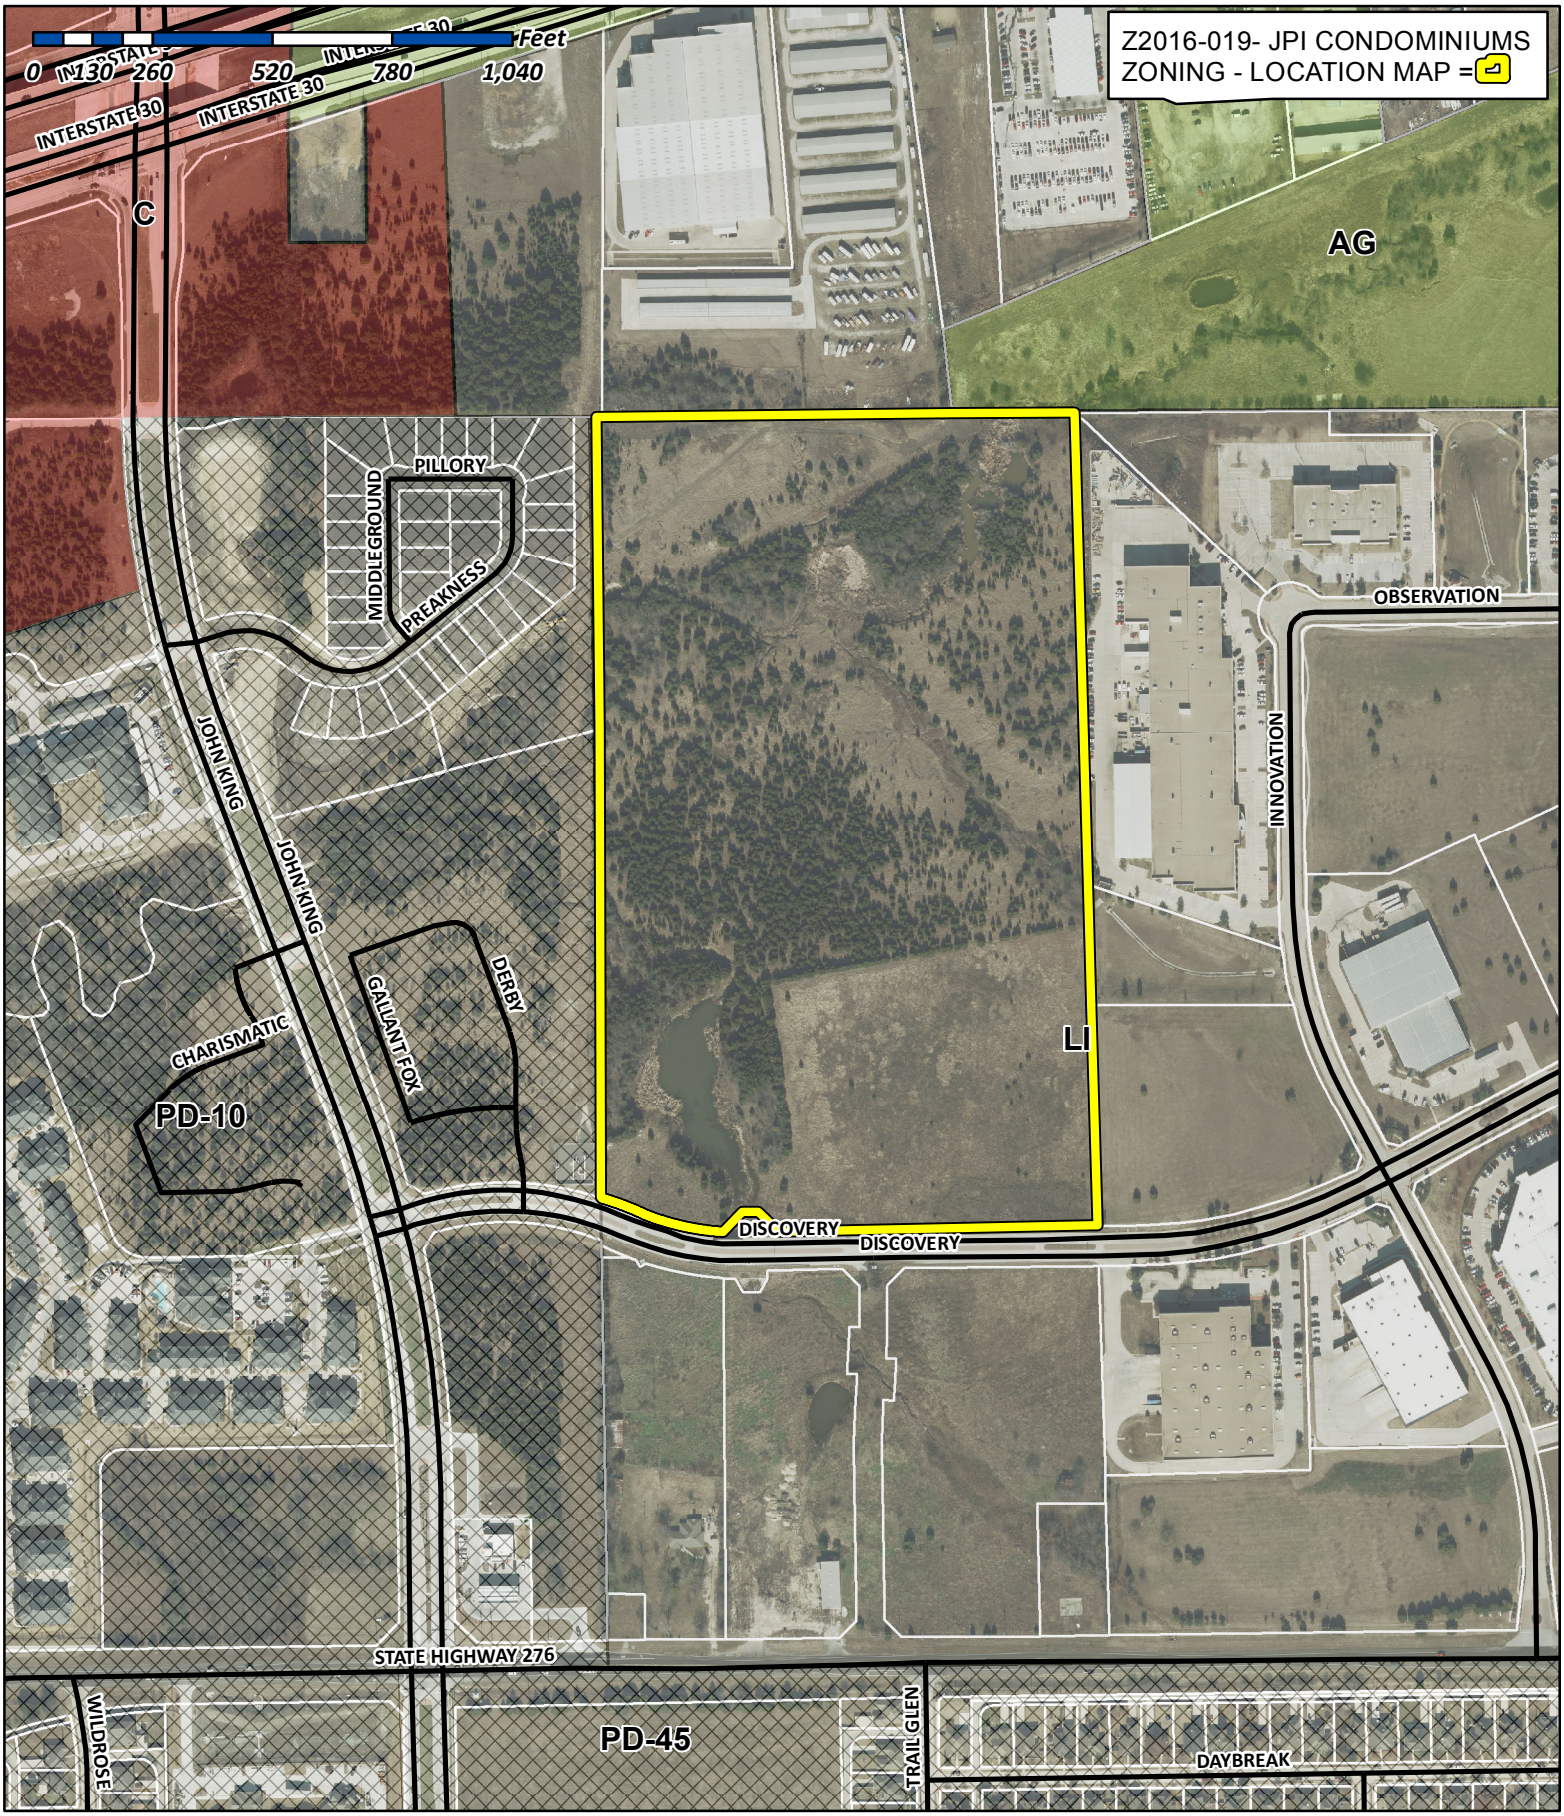
Z2016-019 (JPI Apartments [LI to PD]): Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 Hold a public hearing to discuss and consider a request for the approval of a zoning change from a Light Industrial (LI) District to a Planned Development District for a multi-family apartment complex on a 42.50-acre tract of land identified as Tract 1-4 of the J. M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-205 By-Pass Overlay (205 BY-OV) District, and located east of the intersection of Discovery Boulevard and John King Boulevard.
I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 On all future submittals please include the case number (Z2016-019) in the lower right hand corner.
I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on August 9, 2016.



Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

I.5 If approved an open space master plan will need to be submitted with the final plat laying out all proposed amenities on the site. This will require a recommendation from the Parks Board prior to approval by the City Council with the final plat.

I.6 The Future Land Use Map contained within the Comprehensive Plan currently identifies this property as being designated for Technology/Light Industrial land uses. The proposed use requires the City Council to amend the Future Land Use Map to reflect a High Density Residential land use designation. This will be a condition of approval.

I.7 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that has been requested. Revisions for this case will be due to staff on August 2, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the August 9, 2016 Planning & Zoning Meeting.

I.8 The projected City Council dates for this case are project to be: 1) August 15, 2016 [1st Reading], and 2) September 6, 2016 [2nd Reading].

Subject:	Neighborhood Noification Program: Notice of zoning request
Date:	Wednesday, July 20, 2016 11:21:51 AM

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on June 3, 2016. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-019- Hold a public hearing to discuss and consider a request by Miller Sylvan of JPI on behalf of the owner Gene Lambreth of Pneuma Ventures, LTD for the approval of a zoning change from a Light Industrial (LI) District to a Planned Development District for a multi-family apartment complex on a 42.50-acre tract of land identified as Tract 1-4 of the J. RE: ***Zoning Submittal Application Letter of Explanation***

Planning and Zoning:

The purpose of this zoning application is to change the zoning district for the subject property from Light Industrial (LI) to a Planned Development District with a base zoning of MF-14. The attached development standards and concept plan define the parameters requested in the development application.

Sincerely,

Kimley»Horn

LEGAL DESCRIPTION
42.55 ACRES

BEING a tract of land situated in the James M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas; and being part of a tract of land described as Tract Three in General Warranty Deed without Title Examination to Pneuma Ventures, L.T.D. recorded in Volume 2924, Page 314 of the Official Public Records of Dallas County, Texas; and being more particularly described as follows:

BEGINNING at the northwest corner of Block C, Rockwall Technology Park, an addition to the City of Rockwall according to the plat recorded in Cabinet E, Page 329 of the Plat Records of Rockwall County, Texas and being in the south line of that tract of land described in Warranty Deed to The Hitt Family Limited Partnership recorded in Volume 1875, Page 238 of said Official Public Records;

THENCE with the west line of said Block C, South 1°33'45" East, a distance of 1767.79 feet the southwest corner of said Block C and being in the north right-of-way line of Discovery Boulevard (an 85-foot wide right-of-way);

THENCE with said north right-of-way line of Discovery Boulevard, the following courses and distances:

South 89°12'13" West, a distance of 687.07 feet to a point for corner;
North 45°47'47" West, a distance of 61.52 feet to a point for corner;
South 89°12'13" West, a distance of 35.13 feet to a point for corner;
South 44°12'13" West, a distance of 59.92 feet to a point at the beginning of a non-tangent curve to the right having a central angle of 21°45'33", a radius of 557.50 feet, a chord bearing and distance of North 75°37'03" West, 210.45 feet;
In a northwesterly direction, with said curve to the right, an arc distance of 211.72 feet to a point at the beginning of a non-tangent curve to the left having a central angle of 5°25'19", a radius of 642.50 feet, a chord bearing and distance of North 67°28'57" West, 60.78 feet;
In a northwesterly direction, with said curve to the left, an arc distance of 60.80 feet to the southeast corner of a tract of land described as Parcel 1 in General Warranty Deed to Rockwall Downes Development, LLC recorded in Instrument No. 20150000005937 of said Official Public Records;

THENCE departing said north right-of-way line of Discovery Boulevard and with the east line of said Parcel 1 and the east line of Block E, Rockwall Downes Phase 1, an addition to the City of Rockwall according to the plat recorded in Cabinet I, Page 187 of said Plat Records, North 0°38'31" West, a distance of 1694.55 feet to the northeast corner of said Block E and in the south line of Lot 1, Block A, LaFon Subdivision, an addition to the City of Rockwall according to the plat recorded in Cabinet B, Page 42 of said Plat Records;

THENCE with the south line of said LaFon Subdivision, the south line of McKeown-Belaustegui Addition, an addition to the City of Rockwall according to the plat recorded in Cabinet E, Page 233 of said Plat Records and said south line of The Hitt Family Limited Partnership tract, North

89°36'02" East, a distance of 1038.82 feet to the **POINT OF BEGINNING** and containing 42.55 acres of land.

The bearings are based on a bearing of North 89°36'02" East for the north line of that tract of land described as Tract Three in the General Warranty Deed without Title Examination to Pneuma Ventures, L.T.D. recorded in Volume 2924, Page 314 of the Official Public Records of Dallas County, Texas.

This document was prepared under 22 TAC §663.21, does not reflect the results of an on the ground survey, and is not to be used to convey or establish interests in real property except those rights and interests implied or established by the creation or reconfiguration of the boundary of the political subdivision for which it was prepared.

PD Development Standards/Rockwall Project

These PD Development Standards apply to the property (the "Property") described on Exhibit "A" attached hereto and made a part hereof for all purposes.

1. Flood Plain as Open Space. The Flood Plain will be maintained as private open space by an Owner/Property Management Company.

2. Site Plan. A Site Plan shall be submitted and approved prior to any application for a building permit. Site Plan shall conform to the requirements of this Ordinance, the City's Engineering Standards, and Fire Code. Modifications may be made to the Concept Plan attached to these standards, provided the modifications meet the requirements of this Ordinance, do not exceed the maximum number of allowable units, meet minimum setbacks provided by MF-14 requirements, and meet Fire Codes.

3. Architectural Review. All projects within the PD shall receive Architectural Review as part of the approval of Site Plans.

4. Conformity with Other Ordinances. Unless in conflict with the standards herein, development shall comply with the standards and procedures established by the City that are in effect at the time of this Ordinance.

5. Streetscape.

Discovery Boulevard

a. **Landscape Buffer.** The landscape buffer along Discovery Boulevard shall be a minimum of twenty (20) feet wide along the entire length of the street frontage. Sidewalk shall be allowed within the buffer as an access easement.

b. **Landscape Buffer Plantings**: Three (3) canopy trees, along with two (2) accent trees shall be required per one hundred (100) feet of right of way along Discovery Boulevard. Canopy trees, accent trees, and shrubs shall be as defined in the City of Rockwall landscape ordinance requirements in effect at the time of this Ordinance.

6. Screening Walls. No continuous solid screening walls shall be constructed adjacent to Discovery Boulevard.

7. Lighting. No light poles shall exceed 20 feet in height. All lighting fixtures shall focus light downward and be contained on site.

8. Land Uses. Multi-Family and recreational uses such as an exercise club, a pool, tennis courts, centralized dining or other similar amenities which are ancillary to the residential shall be the only uses allowed. However, a temporary on-site Real Estate Sales Office shall be allowed provided that it and all the other uses meet the city's ordinance requirements at the time they are permitted.

9. Density. Maximum number of units.

a. Multi-Family. No more than 750 units.

10. **Open Space.** A minimum of 20% of the gross site area, including the floodplain, shall be open space. Open space contributing to this requirement may occur anywhere on the site, floodplain area may count up to 50% of the 20% requirement. No required percentage of open space has to occur in front or alongside buildings, or street frontages.

11. **Masonry Requirement**. Building facades shall contain 90% masonry, excluding windows and doors. For the purposes of this ordinance, masonry shall be defined as brick, stone, cultured stone, cementaceous fiber board (Hardy Plank or similar in 9-inch or smaller width boards) and cementaceous stucco.

12. **Building Height** Building height shall not exceed 60 feet and 3 stories.

13. **Unit Sizes.** The average unit size shall be greater than 900 s.f. and no unit shall be less than 600 s.f.

14. **Parking.** A minimum of 1.5 parking spaces per unit shall be required.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO CHANGE THE ZONING FROM A LIGHT INDUSTRIAL (LI) DISTRICT TO PLANNED DEVELOPMENT DISTRICT XX (PD-XX) FOR A MULTI-FAMILY APARTMENT COMPLEX ON THE SUBJECT PROPERTY, BEING A 42.50-ACRE TRACT OF LAND IDENTIFIED AS TRACT 1-4 OF THE J. M. ALLEN SURVEY, ABSTRACT NO. 2, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Miller Sylvan of JPI on behalf of the owner Gene Lambreth of Pneuma Ventures, LTD for the approval of a zoning change from a Light Industrial (LI) District to a Planned Development District for a multi-family apartment complex on a 42.50-acre tract of land identified as Tract 1-4 of the J. M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 2. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

DRAFT ORDINANCE 01.26.16

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Concept Building Renderings*, contained in *Exhibit 'D'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'D'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City Council, as amended by this ordinance (*including Subsections 5(b) through 5(e) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) PD Site Plan
(2) Open Space/Amenity Plan
(3) Final Plat

(c) *PD Site Plan.* A *PD Site Plan* covering all of the *Subject Property* shall be submitted and shall include a *Site Plan*, *Building Elevations*, *Treescape Plan*, *Landscape Plan* and a *Photometric Plan*. A *PD Site Plan* application may be processed by the City concurrently with an *Open Space/Amenity Plan* for the development.

(d) *Open Space/Amenity Plan.* An *Open Space/Amenity Plan* covering all of the *Subject Property* shall be submitted and shall include a detailed depiction of all proposed public and private amenities. An *Open Space/Amenity Plan* may be processed by the City concurrently with a *PD Site Plan Application* for the development.

(e) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat* for the *Subject Property* shall be submitted for approval.

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City

DRAFT ORDINANCE 07.26.16

Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 6TH DAY OF SEPTEMBER, 2016.

DRAFT ORDINANCE 07.26.2016

Exhibit 'A':
Legal Description

BEING a tract of land situated in the James M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas; and being part of a tract of land described as Tract Three in General Warranty Deed without Title Examination to Pneuma Ventures , L.T.D. recorded in Volume 2924, Page 314 of the Official Public Records of Dallas County, Texas; and being more particularly described as follows:

BEGINNING at the northwest corner of Block C, Rockwall Technology Park, an addition to the City of Rockwall according to the plat recorded in Cabinet E, Page 329 of the Plat Records of Rockwall County, Texas and being in the south line of that tract of land described in Warranty Deed to The Hitt Family Limited Partnership recorded in Volume 1875, Page 238 of said Official Public Records;

THENCE with the west line of said Block C, South 1°33'45" East, a distance of 1767.79 feet the southwest corner of said Block C and being in the north right-of-way line of Discovery Boulevard (an 85-foot wide right-of-way) ;

THENCE with said north right-of-way line of Discovery Boulevard, the following courses and distances:

South 89°12'13" West, a distance of 687.07 feet to a point for corner;
North 45°47'47" West, a distance of 61.52 feet to a point for corner;
South 89°12'13" West, a distance of 35.13 feet to a point for corner;
South 44°12'13" West, a distance of 59.92 feet to a point at the beginning of a non-tangent curve to the right having a central angle of 21°45'33", a radius of 557.50 feet , a chord bearing and distance of North 75°37'03" West , 210.45 feet ;
In a northwesterly direction, with said curve to the right, an arc distance of 211.72 feet to a point at the beginning of a non-tangent curve to the left having a central angle of 5°25'19", a radius of 642.50 feet, a chord bearing and distance of North 67°28'57" West , 60.78 feet;
In a northwesterly direction, with said curve to the left, an arc distance of 60.80 feet to the southeast corner of a tract of land described as Parcel 1 in General Warranty Deed to Rockwall Downes Development , LLC recorded in Instrument No. 20150000005937 of said Official Public Records;

THENCE departing said north right-of-way line of Discovery Boulevard and with the east line of said Parcel 1 and the east line of Block E, Rockwall Downes Phase 1, an addition to the City of Rockwall according to the plat recorded in Cabinet I, Page 187 of said Plat Records, North 0°38'31" West, a distance of 1694.55 feet to the northeast corner of said Block E and in the south line of Lot 1, Block A, LaFon Subdivision, an addition to the City of Rockwall according to the plat recorded in Cabinet B, Page 42 of said Plat Records;

THENCE with the south line of said LaFon Subdivision, the south line of McKeown-Belaustegui Addition , an addition to the City of Rockwall according to the plat recorded in Cabinet E, Page 233 of said Plat Records and said south line of The Hitt Family Limited Partnership tract, North 89°36'02" East, a distance of 1038.82 feet to the **POINT OF BEGINNING** and containing 42.55 acres of land.

The bearings are based on a bearing of North 89°36'02" East for the north line of that tract of land described as Tract Three in the General Warranty Deed without Title Examination to Pneuma Ventures , LTD recorded in Volume 2924, Page 314 of the Official Public Records of Dallas County , Texas.

This document was prepared under 22 TAC §663.21, does not reflect the results of an on the ground survey , and is not to be used to convey or establish interests in real property except those rights and interests implied or established by the creation or reconfiguration of the boundary of the political subdivision for which it was prepared.

Exhibit 'C':
Development Standards

1. *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Multi-Family 14 (MF-14) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

2. *Unit Composition.* The unit composition for *Phases I & II* shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Tables 1A & 1B* below; however, in no case should the average net unit area decrease below 950 SF for *Phases I* & *II*. In addition, the minimum net unit area of the smallest unit shall not be decreased below 680 SF for *Phase I* and 600 SF for *Phase II*.

Table 1A: Unit Composition for Phase I

Unit Name	*Unit Type*	*Minimum Net Unit Area (SF)*	*Number of Units (#)*	*Total Area (SF)*	*Units as Percentage (%)*
A1	*One (1) Bedroom*	680 SF	38	25,840 SF	7%

		Total Units:	*360*		*100.00%*

3. *Density and Dimensional Requirements.* Unless specifically provided by this Planned Development ordinance, the development standards stipulated by the Multi-Family 14 (MF-14) District and the SH-205 By-Pass Overlay (SH205 BY-OV) District, as specified by Article V, *District Development Standards*, of the Unified Development Code are applicable to all development on the *Subject Property.* The maximum permissible density for the *Subject Property* shall not exceed ***18*** dwelling units per gross acre of land; however, in no case should the proposed development exceed ***750*** units. All lots shall conform to the standards depicted in *Table 2*, which is as follows:

DRAFT ORIGINAL 07.26.2016

Table 2: Lot Dimensional Requirements

Minimum Lot Width	60'
Minimum Lot Depth	100'
Minimum Lot Area	10,000 SF
Minimum Lot Area/Unit	2,000 SF
Minimum Front Yard Building Setback	25'
Minimum Side Yard Building Setback	10'
Minimum Rear Yard Building Setback	10'
Minimum Separation Between Main Buildings	20'
Minimum Separation Between a Main Structure to an Accessory Structure	10'
Maximum Height [(1)]	60'
Maximum Lot Coverage	45%
Minimum Landscape	20%

General Notes:

[1]: The height of the building shall be measured from the average elevation of the finished grade along the front of the building to the highest point of the roof or parapet of the building if it is a flat, mansard or shed roof; or to the midpoint of the roof if it is gable, hip or gambrel roof.

4. *Parking and Loading Standards.* A minimum of 1.5 parking spaces per unit shall be required with a minimum of 20% of the unit count being provided as covered parking spaces.

5. *Building Standards.* The building elevations shall generally conform to the *Concept Building Renderings* depicted in *Exhibit* 'D' of this ordinance; however, these elevations are subject to change pending recommendations by the City's Architectural Review Board (ARB). In addition, all development on the subject property shall conform to the following building standards:

   (a) *Masonry Requirements.* The minimum masonry requirement for the exterior façades of all buildings shall be 90% (*excluding windows and doors*). For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, cultured stone and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the exterior of the building; however, stucco may not be used within the first four (4) feet above grade on a façade visible from a public street or open space. A minimum of 20% stone is required on all building façades.

   (b) *Roof Design Requirements.* All buildings shall be designed such that no roof mounted mechanical equipment (*i.e. HVAC, satellite, vents, etc.*) shall be visible from any direction. *Note: Screening of mechanical equipment is necessary for all equipment regardless of location (i.e. roof mounted, ground mounted, or otherwise attached to the building and/or located on the site).*

   Screening of roof mounted mechanical equipment and/or other rooftop appurtenances shall be accomplished through the construction of an architectural feature, which is integral to the building's design and ensures that such equipment is not visible from adjacent public rights-of-way.

   (c) *Architectural Requirements.* All buildings shall be architecturally finished on all four (4) sides with the same materials, detailing and features. In addition, all buildings shall be subject to the architectural requirements of the SH-205 By-Pass Overlay (SH205 BY-OV) District contained in Section 6, *Overlay Districts*, of Article V, *District Development Standards*, of the Unified Development Code.

6. *Landscaping and Hardscaping Standards*.

DRAFT ORDINANCE 07-25-16

(a) *Landscape Requirements.* Landscaping shall be reviewed and approved with the *PD Site Plan*. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height. The following tree species are approved for planting within this development:

i) *Canopy/Shade Trees*. Afghan Pine, Bald Cypress, Bur Oak, Cedar Elm, Eastern Red Cedar, Homestead Elm, Lacebark Elm, Little Gem Magnolia, Live Oak, October Glory Maple, Red Oak, Texas Ash, Texas Red Oak.

ii) *Accent/Ornamental/Under-Story Trees*. Desert Willow, Eastern Redbud, Eves Necklace, Mexican Buckeye, Possumhaw Holly, Shangtung Maple, Yaupon Holly.

(b) *Landscape Buffers (Discovery Boulevard).* A minimum of a 20-foot landscape buffer shall be provided along the frontage of Discovery Boulevard, and shall incorporate a minimum of three (3) canopy and two (2) accent trees per 100-feet of linear frontage. The developer shall also be responsible for the construction of sidewalks along Discovery Boulevard.

(c) *Parking Lot Landscaping.* All parking lot landscaping shall conform to the requirements of Article VII, *Landscape Standards*, of the Unified Development Code.

(d) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect.

(e) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the *PD Site Plan* and/or *Opens Space/Amenity Plan*.

7. *Trash Receptacles.* Trash and recycling receptacles shall be four (4) sided, with eight (8) foot walls constructed and cladded with materials matching the primary structures, and have a self-latching gate. All trash and recycling receptacles shall be internal to the site and not be situated within any established building setbacks or landscape buffers.

8. *Open Space.* The development shall consist of a minimum of 20% open space (or a minimum of 8.5-acres), and generally conform to the *Concept Plan* contained in *Exhibit 'B'* of this ordinance. Floodplain acreage may count for up to 50% of the 20% open space requirement. All open space and floodplain shall be maintained as private open space by the owner/property management company.

9. *Screening Fence Standards*. Fences located along the perimeter of roadways, abutting open spaces, greenbelts and parks shall be required to be wrought iron or a tubular steel fence. Wrought iron/tubular steel fences can be a maximum of eight (8) feet in height. *No continuous solid screening walls shall be constructed adjacent to Discovery Boulevard.*

10. *Variances*. The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

Hold a public hearing to discuss and consider a request by Mark W. Pross of Pross Design Group, Inc. on behalf of Robert Reece of SPR Packaging, LLC for the approva of a Specific Use Permit (SUP) to allow for a structure that exceeds 60-feet in height in a Light Industrial (LI) District in conjunction with an existing manufacturing facility situated on 10.1893-acre parcel of land identified as Lot 2, Block A, SPR Packaging Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1480 Justin Road, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, August 2, 2016. Please provide three large copies [24" X 36" FOLDED] of the building elevations and one PDF version for a subsequent review by staff:

• On all future plan submittals please include the Case Number (Z2016-021) in the lower right hand corner.

Planning Staff General Comments/Conditions of SUP:

1. The structure must meet all Fire Department, Building Inspections, and Engineering standards.
2. Submittal and approval of a building permit is required prior to consturction of the high bay expansion for extruders.
3. The high bay expansion will generally comply with the approved site plan and building elevations.
4. The high bay expansion area as depicted on the building elevations and site plan is generally not to exceed an over all height of 70 feet.
5. The City Council reserves the right to review the Specific Use Permit granted herein upon the expiration of one (1) year from the date hereof.
6. Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/o

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2016-022: SUP for SPR Packaging

Hold a public hearing to discuss and consider a request by Mark W. Pross of Pross Design Group, Inc. on behalf of Robert Reece of SPR Packaging, LLC for the approval of a Specific Use Permit (SUP) to allow for a structure that exceeds 60-feet in height in a Light Industrial (LI) District in conjunction with an existing manufacturing facility situated on 10.1893-acre parcel of land identified as Lot 2, Block A, SPR Packaging Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1480 Justin Road, and take any action necessary

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 8/9/2016 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 8/15/2016 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **8/15/2016** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP

Z2016-024 Zoning Change C to HC:
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is request by Kyle Vrla of Dynamic Engineering Consultants, PC on behalf of the owner Wilson Osee of Osee Properties, LLC for the approval of a zoning change from a Commercial (C) District to a Heavy Commercial (HC) District for a 6.588-acre portion of a larger 24.818-acre tract of land identified as Tract 3-13 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, located south of the intersection of Sids Road and SH-205 [S. Goliad Street].
I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
I.3 Please review the attached draft ordinance prior to the August 9, 2016 Planning & Zoning Commission meeting.
I.4 The Future Land Use Map, adopted with the Comprehensive Plan, designates the subject property for Commercial/Industrial land uses, which is defined as a district with intensive commercial/industrial uses and large volumes of retail traffic. This designation is in conformance with the applicant's request to rezone the subject property to a Heavy Commercial (HC) District.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
I.5 The proposed use, major auto repair garage, is permitted by right in a Heavy Commercial (HC) District.							
I.6 The Planning and Zoning Worksession for this case will be July 26, 2016. The Planning and Zoning Meeting will be August 9, 2016. The projected City Council meeting dates for this case will be August 15, 2016 [1st Reading] & September 6, 2016 [2nd Reading].

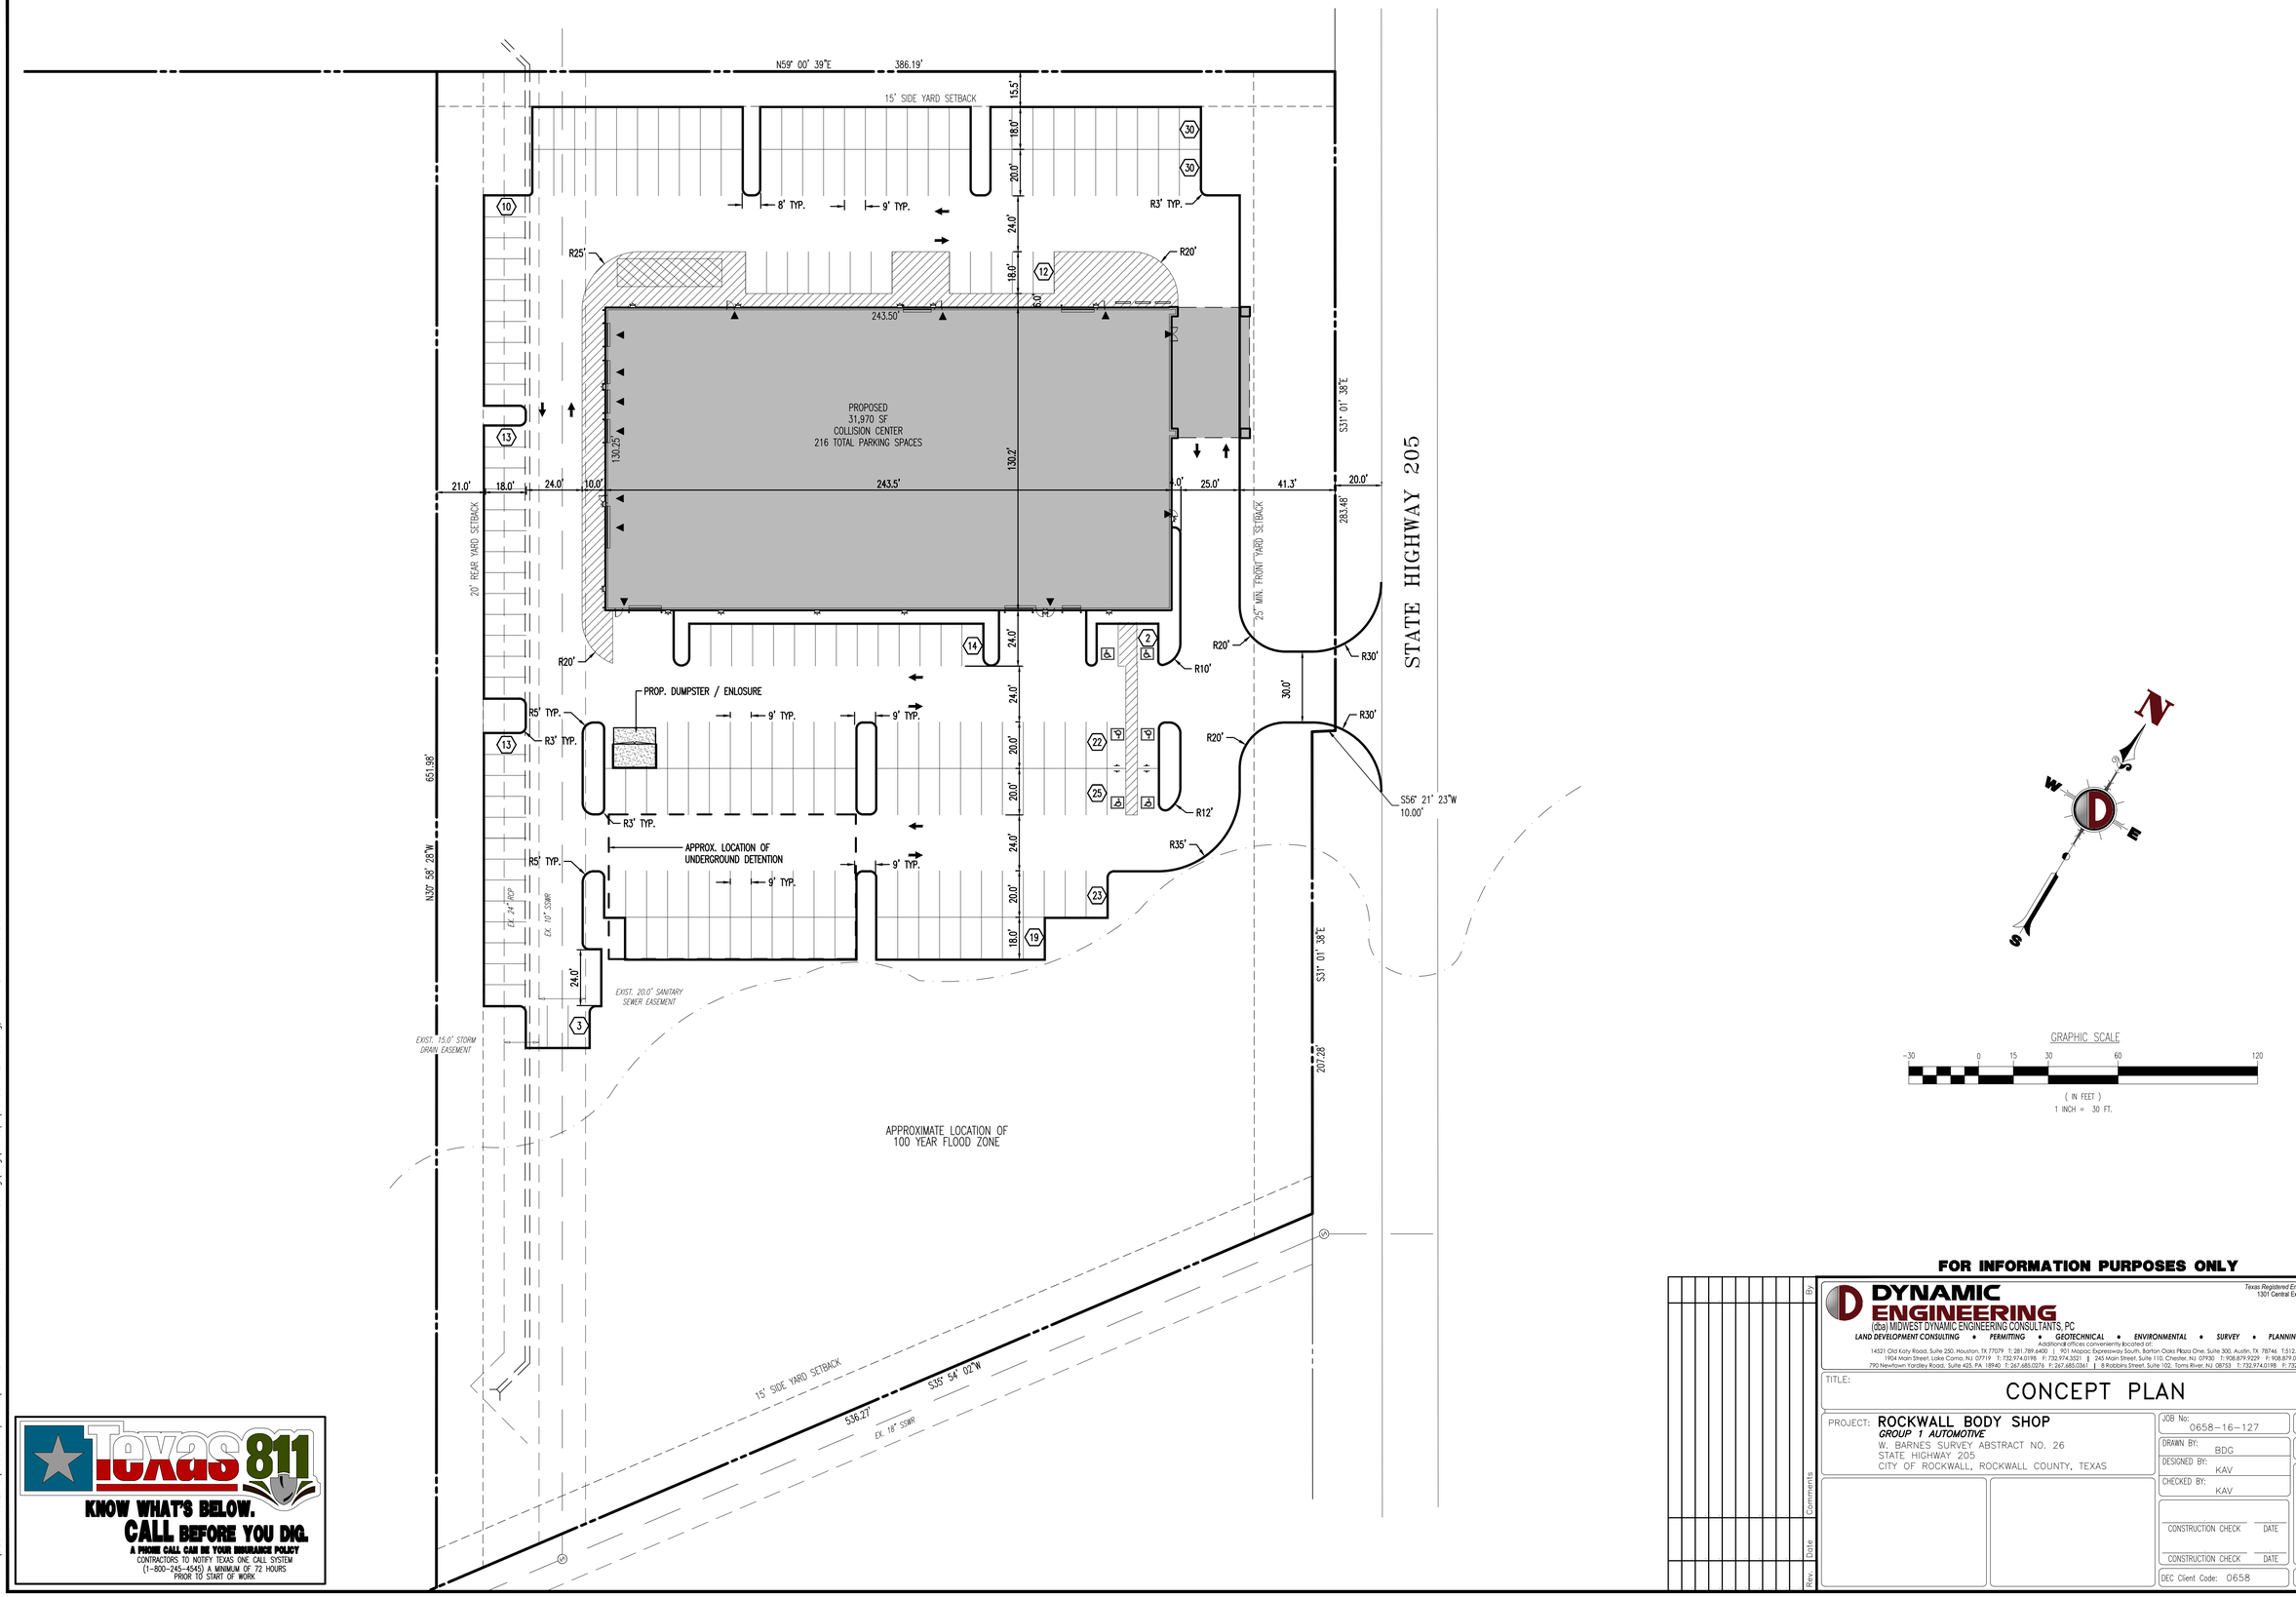
Subject: Neighborhood Noification Program: Notice of zoning request
Date: Wednesday, July 20, 2016 11:22:11 AM

To whom it may concern:



Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on June 3, 2016. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-024- Hold a public hearing to discuss and consider a request by Kyle Vrla of Dynamic Engineering Consultants, PC on behalf of the owner Wilson Osee of Osee Properties, LLC for the approval of a zoning change from a Commercial (C) District to a Heavy Commercial (HC) District for a five (5) acre portion of a larger 24.818-acre tract of land identified as Tract 3-13 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, located south of the intersection of Sids Road and SH-205 [*S. Goliad Street*], and take any action necessary.**

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.

RE: Zoning Change Application
Letter of Explanation
SH-205 between Sids Rd. & Mims Rd.
City of Rockwall
Rockwall County, Texas

To Whom It May Concern,

This letter of explanation is in connection with the Zoning Change Application submitted today, July 14th, 2016 for the property located approximately 765 feet southeast of the intersection of Sids Road and State Highway 205. The current property in question is undeveloped and totals approximately 25 acres with a portion of this area on the south property line within the floodplain. The majority of this site, approximately 20 acres is currently zoned Heavy Commercial (HC) and the remaining five (5) acres, which fronts State Highway 205 is zoned as Commercial (C). This zoning request is being requested to convert the front five (5) acres to Heavy Commercial (HC).

The purpose of the request from Commercial (C) to Heavy Commercial (HC) is to accommodate the development of an Automotive Body Shop for Rockwall Ford, which is currently not allowed within the Commercial district. This facility would be developed as an additional building for Rockwall Ford located at 990 East I-30. The addition of this building will allow the dealership to relocate their current body repair area and free up more space either in their service area or showroom to service more customers at their main facility.

In reviewing the surrounding properties to this re-zoning case, the neighbor to the north is TransAm Trucking which is a freight company that utilizes large trucks and trailers to move goods. On the south side, as described above, the site is bordered by flood plain and heavy tree cover. The west side of the property, which extends back to Sids Road, is currently zoned as Heavy Commercial (HC) as well, which would match with the proposed re-zoning request.

Due to the existing uses and tenants surrounding this site, it's expected that large trucks will often be coming and going nearby the property where the proposed Automotive Body Shop would be located. This truck traffic would not be disruptive to a heavy commercial business like an Automotive Body Shop, but would be disruptive to any retail shop if the property were to remain zoned for commercial use. Additionally, the City of Rockwall Future Land Use Map (11/25/2014) shows the site being used for commercial/industrial purposes, which allows for the development of an Automotive Body Shop.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED SO AS TO FURTHER AMEND THE ZONING MAP TO ADOPT A CHANGE IN ZONING FROM A COMMERCIAL (C) DISTRICT TO A HEAVY COMMERCIAL (HC) DISTRICT FOR A 6.588-ACRE PORTION OF A LARGER 24.818-ACRE TRACT OF LAND IDENTIFIED AS TRACT 3-13 OF THE W. H. BARNES SURVEY, ABSTRACT NO. 26, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE SPECIFICALLY DESCRIBED IN *EXHIBIT 'A'* OF THIS ORDINANCE; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Kyle Vrla for the approval of an amendment to the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall to adopt a change in zoning from a Commercial (C) District to a Heavy Commercial (HC) District for a 6.588-acre portion of a larger 24.818-acre tract of land identified as Tract 3-13 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, and more specifically depicted in *Exhibit 'A'* and described as *Exhibit 'B'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, Texas, as heretofore amended, be and the same are hereby amended by amending the zoning map of the City of Rockwall so as to change the zoning of the *Subject Property* from a Commercial (C) District to a Heavy Commercial (HC) District; and

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes provided for a *Heavy Commercial (HC) District* in *Section 1.1, "Use of Land and Buildings,"* of *Article IV, "Permissible Uses"* and *Section 4.7, "Heavy Commercial (HC) District",* of *Article V, "District Development Standards",* of the *Unified Development Code* of the City of Rockwall as heretofore amended, as amended herein by granting of this zoning change, and as may be amended in the future;

Section 3. That the official zoning map of the City be corrected to reflect the changes in the

DRAFT ORDINANCE 09.06.16

zoning described herein.

Section 4. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of two thousand dollars ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

Section 5. If any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code of the City of Rockwall, Texas, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable.

Section 6. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be and the same are hereby repealed, and all other ordinances of the City of Rockwall not in conflict with the provisions of this ordinance shall remain in full force and effect.

Section 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ON THIS THE 6TH DAY OF SEPTEMBER, 2016.

Fire Apparatus Access Roadway:
Approved fire apparatus access roads shall be provided for every building. The fire apparatus access road shall extend to within 150 feet of all portions of the facility and all portions of the exterior walls of the first story of the building as measured by an approved route around the exterior of the building or facility.

Exception: The fire code official is authorized to increase the dimension of 150 feet where:

1. The building is equipped throughout with an approved automatic sprinkler system installed in accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3, up to 250-ft.

2. Fire apparatus access roads cannot be installed because of location on property, topography, waterways, nonnegotiable grades or other similar conditions, and an approved alternative means of fire protection is provided.

Multiple-family residential projects having more than 200 dwelling units shall be provided with two separate and approved fire apparatus access roads . Where two access roads are required, they shall be placed a distance apart equal to not less than one half of the length of the maximum overall diagonal dimension of the property or area to be served, measured in a straight line between accesses.

Fire Hydrant Coverage:
All portions of the exterior walls of the first story of the building shall be within 600-ft. of a fire hydrant as measured by an approved route around the exterior of the facility or building.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

Fire Hydrant shall be located within 100-ft. of the Fire Department Connection (FDC) and within 8-ft. of fire apparatus access roadway.

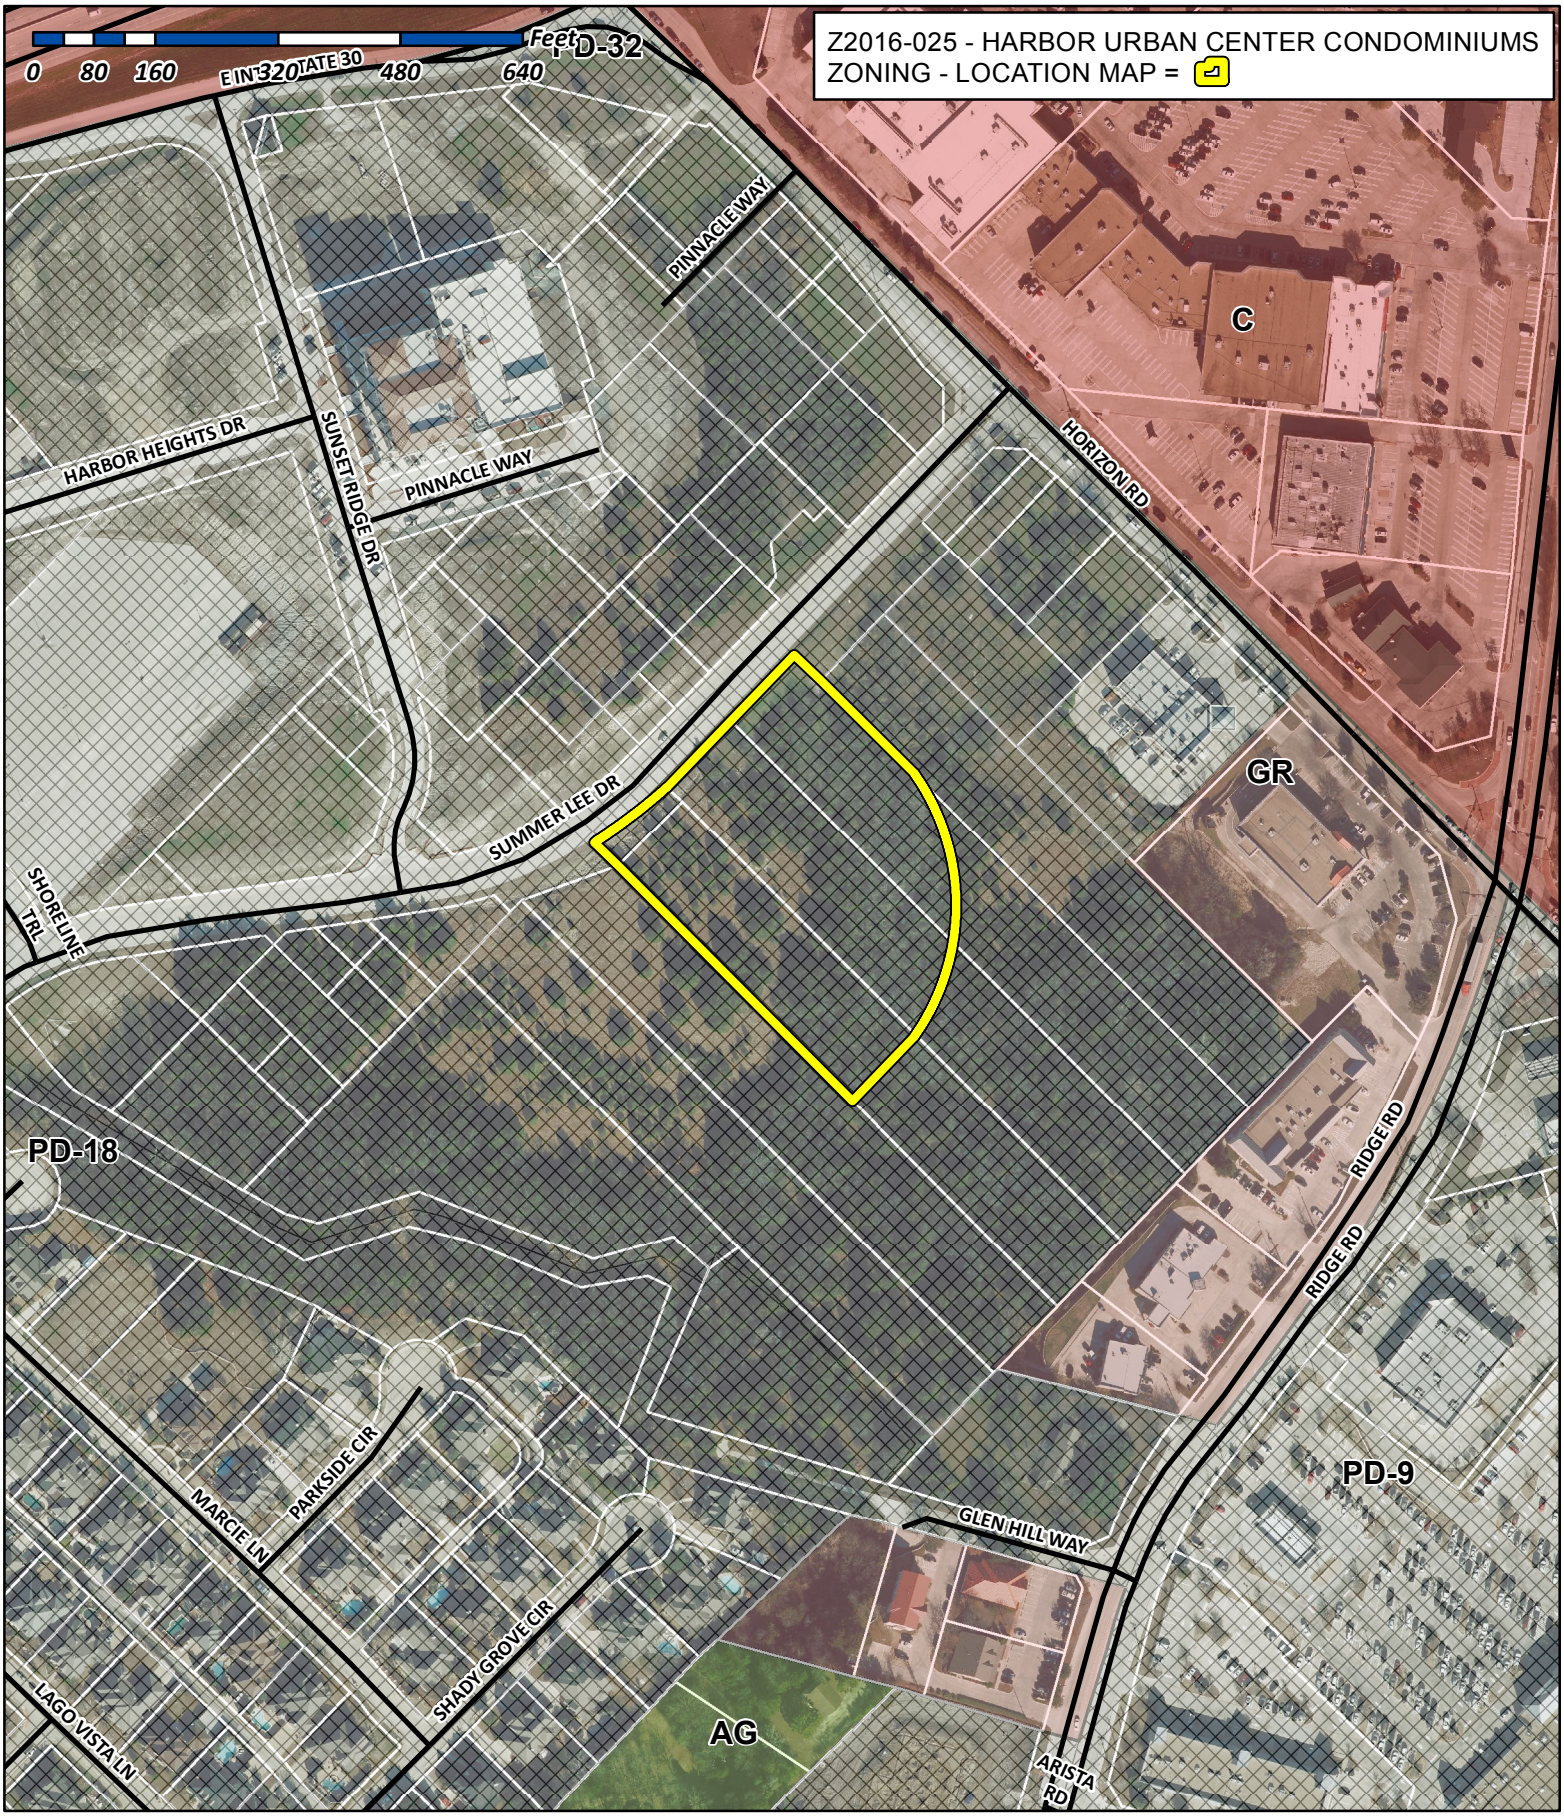
Z2016-025 (PD Development Plan for the Harbor Urban Center Condominiums): Please address the following comments (M= Mandatory Comments; I = Informational Comments).



I.1 This case is for the PD Development Plan establishing a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Residential Subdistrict and within the Scenic Overlay (SOV) District, and located north of the intersection of Ridge Road [FM-740] and Glen Hill Way.
I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 On all future submittals please include the case number (Z2016-025) in the lower right hand corner.
I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on August 9, 2016.
M.5 A legal description covering the area of the townhomes will be required to be submitted prior to the first City Council meeting.
I.6 Per conversations on July 21, 2016, it is staff's understanding that a public roadway ranging from 36 – 40 feet will be established, extending from Summer Lee Drive to the southwestern corner of the subject property.
M.7 Provide a site plan that better delineates the requested development (i.e. remove the townhome data on the right side of the page and the line work not relating to this project).
M.8 Submit four (4) sided elevations of the proposed condominium building. These will be placed in the PD Development ordinance to ensure general conformance is met at the time of site plan (Update 07/21/2016: The applicant stated that the building may be five [5] stories in height. This is permitted but must be established on the submitted building elevations. In addition, the building rendering will need to be updated).
I.9 Please note that the minimumbuilding height for the first floor is 15-feet. This is intended to provide a commercial look to the first floor of the building. It should also be noted that the Planned Development District does allow for mixed use building should the proposed development wish to incorporate commercial or office uses/flex space on the first floor (Note: most commercial and retail uses require the approval of a Specific Use Permit).
I.10 Per Ordinance No. 10-21 all elevations shall be required to be reviewed by the Architectural Review Board (ARB). This review will be required at the time of site plan approval.
I.11 If approved, an open space master plan will be required to be reviewed by the Parks Board prior to City Council approval.
I.12 If approved, the applicant will be required to submit a site plan and final plat for the subject property.
M.13 Based on the applicant's submittal staff would make the following recommendations concerning the proposed townhome development:

1) The development plan should look to incorporate a pedestrian way as required by the Interior Subdistrict's standards. See Page 4 of Resolution No. 10-40 for details on pedestrian ways.
2) The applicant should incorporate streetscape elements into the condominium development. Staff will require a streetscape plan at the time of site plan.
3) With regard to the two (2) interior courtyards depicted on the concept plan please see Page 8 of Resolution No. 10-40 for opportunities to add further amenities to the development.
4) If any portion of the parking garage is going to be visible please be aware that there are requirements contained in Planned Development District 32 (PD-32) to reduce the impact of the exposed parking areas. Additional guidelines are contained on Page 10 of Resolution No. 10-40.

All recommendations are intended to bring the plan closer into conformance with the City's Comprehensive Plan and with the intent of Planned Development District 32 (PD-32).

I.14 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due to staff on August 2, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the August 9, 2016 Planning & Zoning Meeting.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
I.15 The projected City Council dates for this case are project to be: 1) August 15, 2016 [1st Reading], and 2) September 6, 2016 (Tuesday) [2nd Reading].

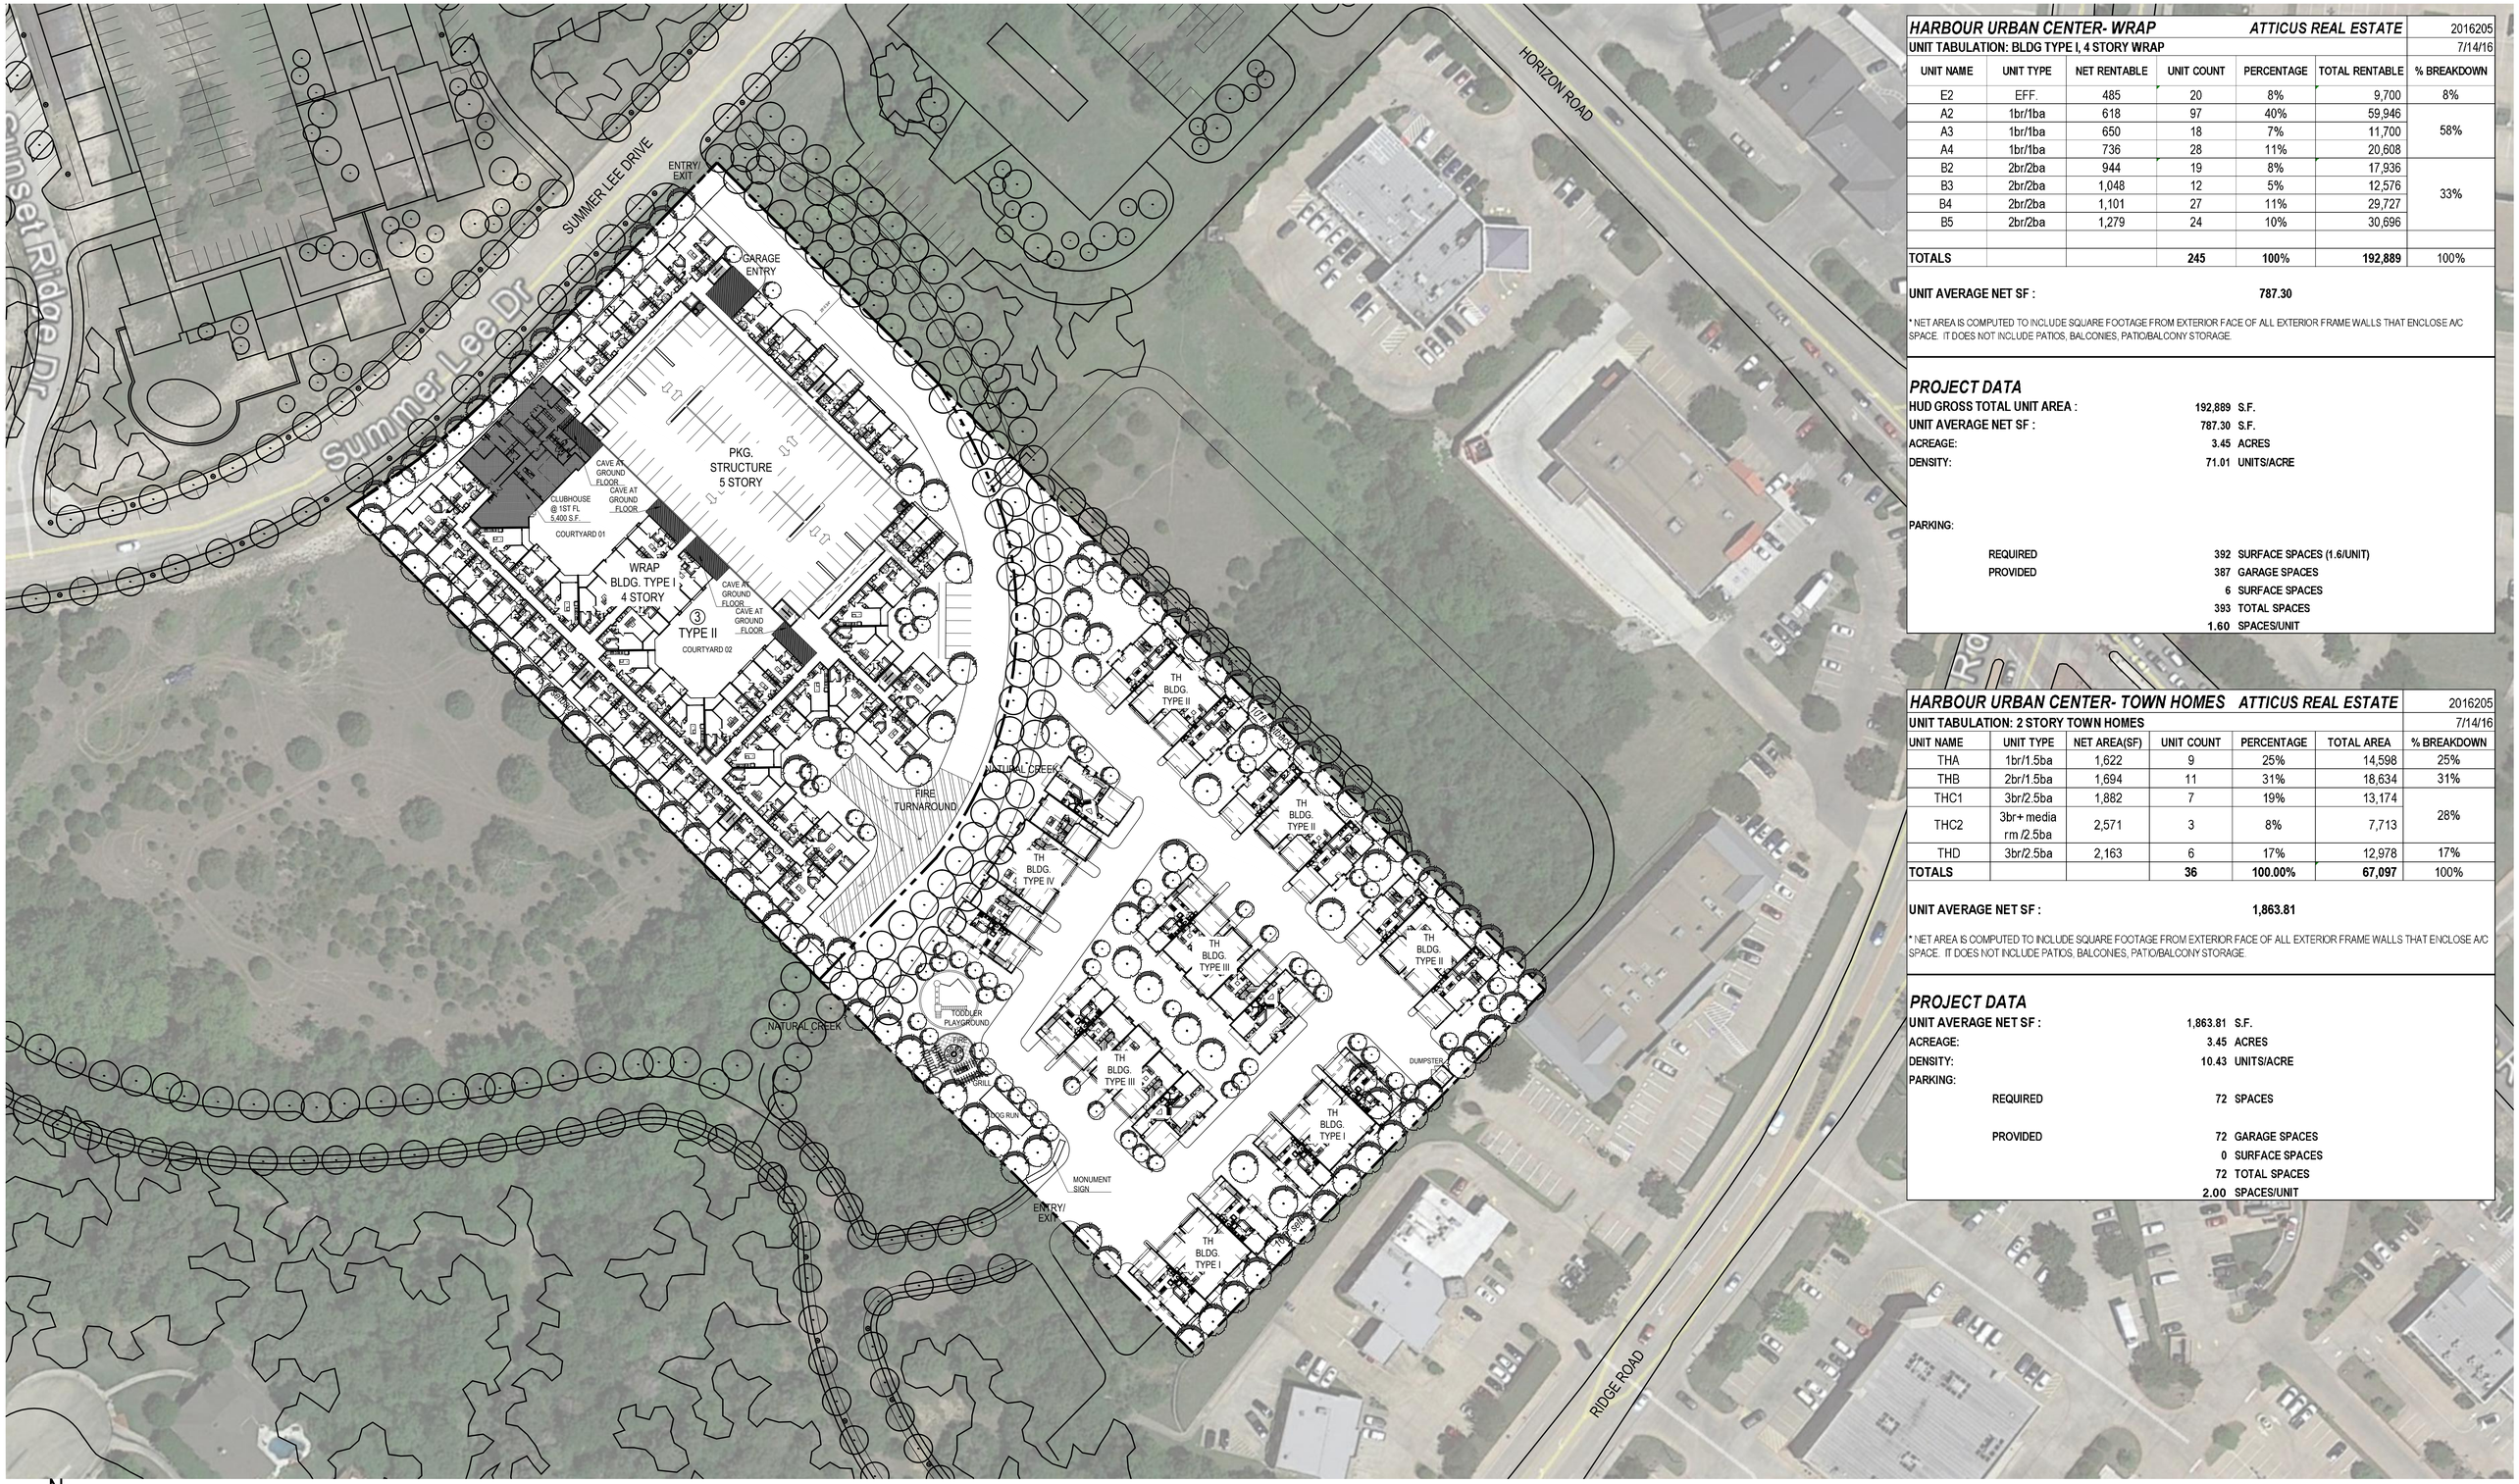
Subject:	Neighborhood Noification Program: Notice of zoning request
Date:	Wednesday, July 20, 2016 11:22:20 AM

To whom it may concern:



Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on June 3, 2016. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-025- Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Interior Subdistrict*, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [*FM-3097*] and Summer Lee Drive, and take any action necessary.**

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.

Sincerely,

Laura Morales

(7/21/2016 4:13 PM AA)
Fire Apparatus Access Roadway:
Approved fire apparatus access roads shall be provided for every building. The fire apparatus access road shall extend to within 150 feet of all portions of the facility and all portions of the exterior walls of the first story of the building as measured by an approved route around the exterior of the building or facility.

Exception: The fire code official is authorized to increase the dimension of 150 feet where:

1. The building is equipped throughout with an approved automatic sprinkler system installed in accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3, up to 250-ft.

Fire Hydrant Coverage:
All portions of the exterior walls of the first story of the building shall be within 600-ft of a fire hydrant as measured by an approved route around the exterior of the facility or building.

Fire Hydrant shall be located within 100-ft. of the Fire Department Connection (FDC) and within 8-ft. of fire apparatus access roadway.

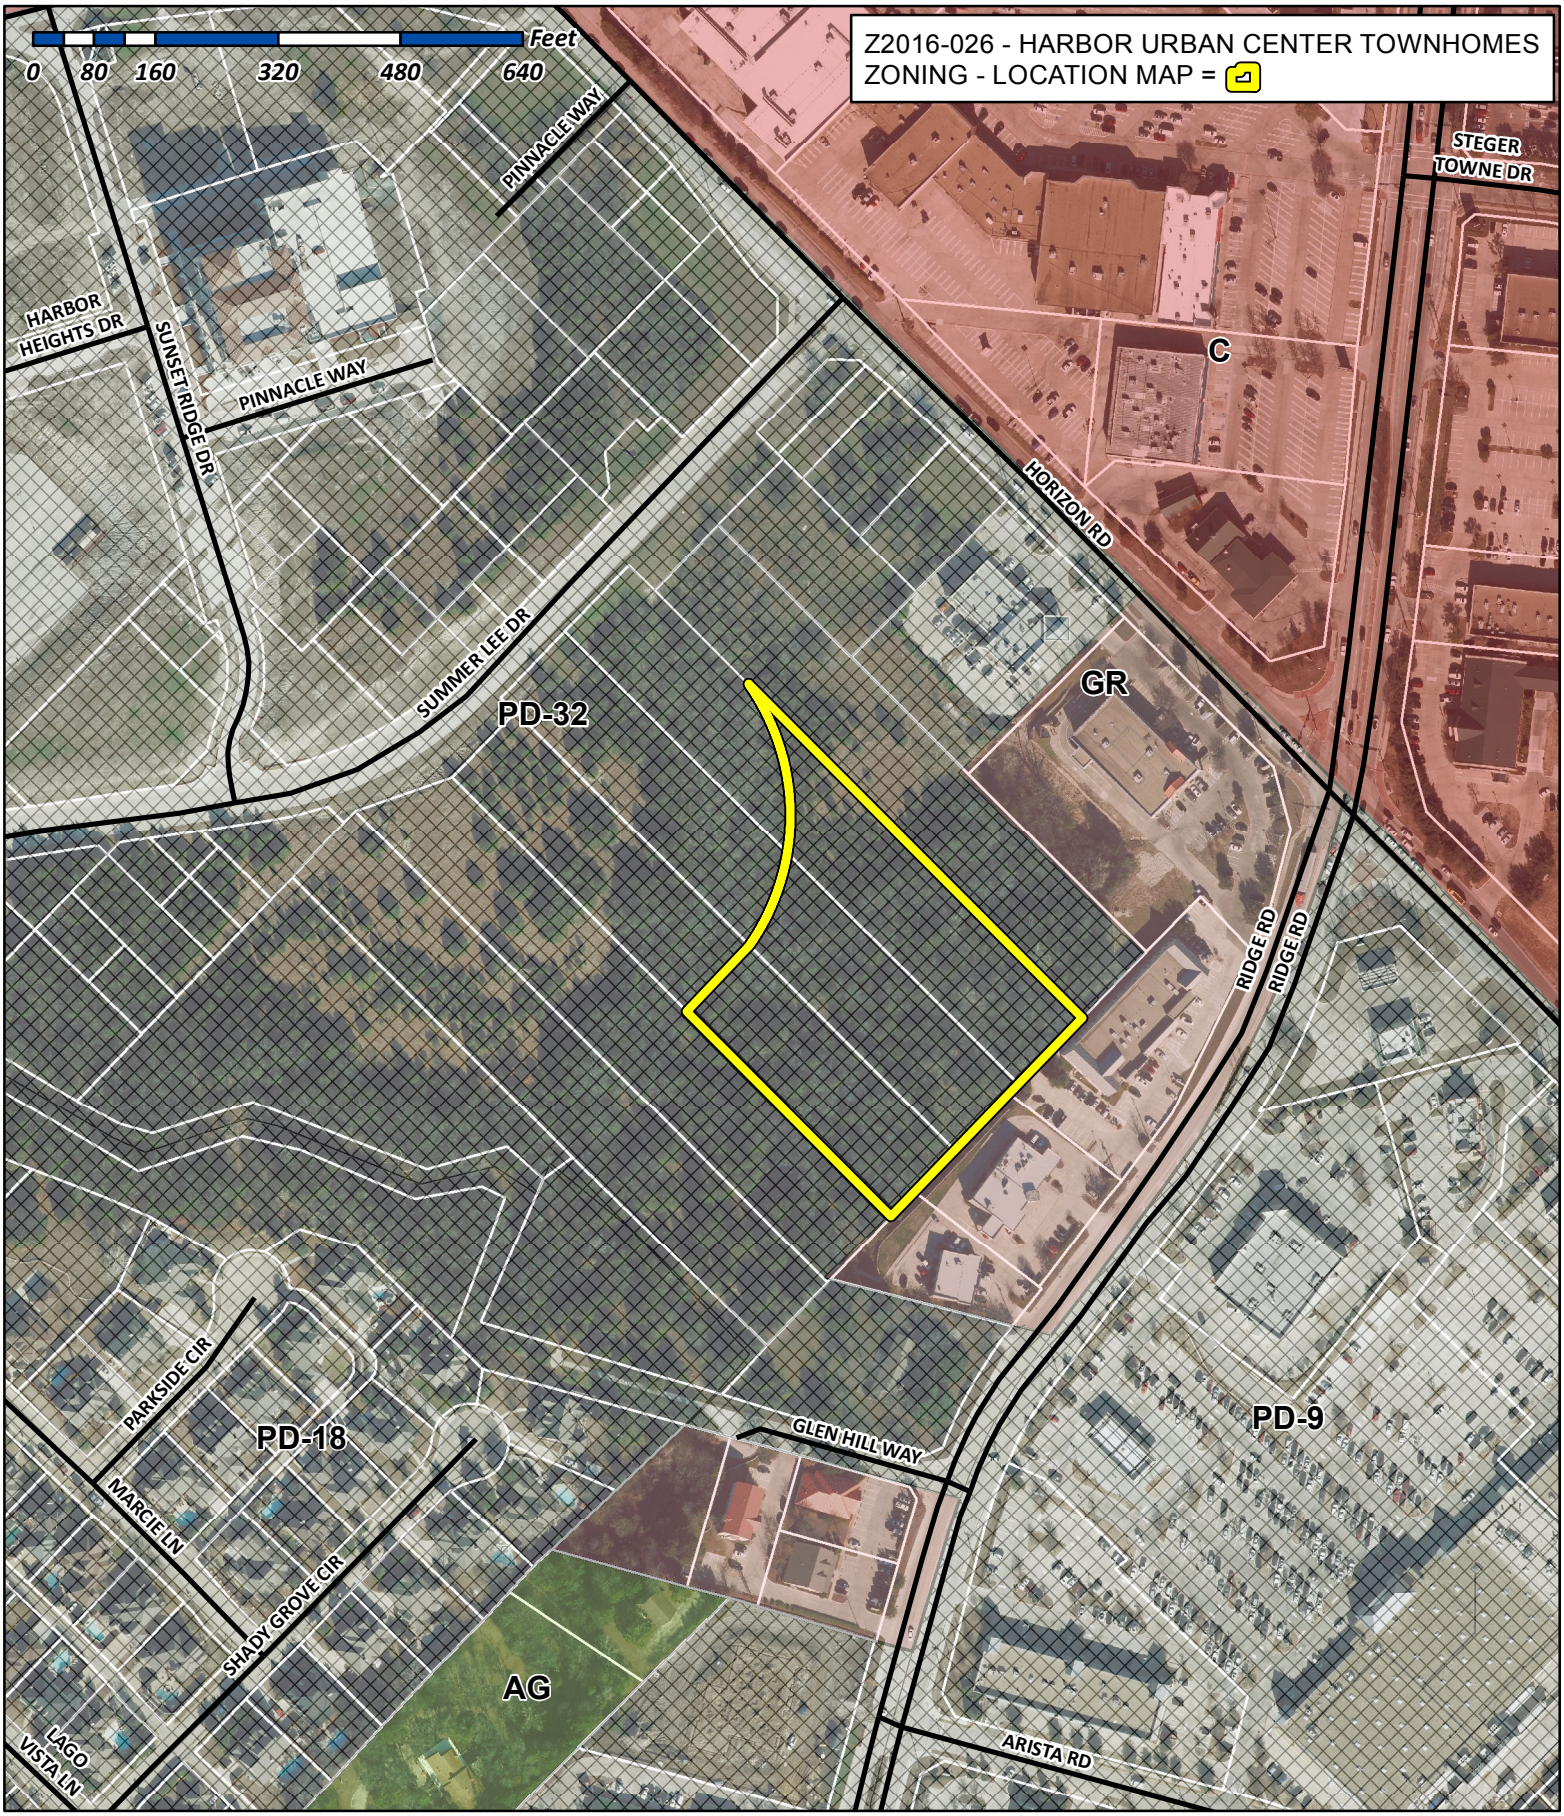
Z2016-026 (PD Development Plan for the Harbor Urban Center Townhomes): Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This case is for the PD Development Plan establishing 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A,

Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Residential Subdistrict and within the Scenic Overlay (SOV) District, and located north of the intersection of Ridge Road [FM-740] and Glen Hill Way.
I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 On all future submittals please include the case number (Z2016-026) in the lower right hand corner.
I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on August 9, 2016.
M.5 A legal description covering the area of the townhomes will be required to be submitted prior to the first City Council meeting.
I.6 According to Ordinance No. 10-21, "…adequate access necessary to serve that development in conformance with the streetscape plan for the Sub-District or with Exhibit C-4 [Streetscape Map] shall be constructed." In this case, the development does not conform to the streetscape map for the district and reduces access for the property to the north. Due to this and the proposed use not conforming to the intent of the Residential Sub-District, staff is requiring a PD Development Plan. According to the use charts contained in PD-32 townhomes require a Specific Use Permit; however, since the project will require City Council to approve a PD Development Plan, which will change the intent of the Sub-District the Specific Use Permit will not be required. Please see staff's recommendations below for strategies to reduce impact within the Sub-District.
M.7 Provide a site plan that betterdelineates the requested development (i.e. remove the condominium data on the right side of the page and the line work not relating to this project -- the roadway that would connect this project to Summer Lee Drive should remain on the plan [roadway referenced below]).
M.8 Submit four (4) sided elevations of the proposed townhomes. These will be placed in the PD Development ordinance to ensure general conformance is met at the time of site plan.
I.9 The submitted rendering does not seem to match the submitted concept plan. The elevation shown on the rendering does not include garages and all buildings adjacent to the roadway have garages [this is also true with regard to the submitted building elevations].
I.10 Per Ordinance No. 10-21 all elevations shall be required to be reviewed by the Architectural Review Board (ARB). This review will be required at the time of site plan approval.
I.11 If approved, an open space master plan will be required to be reviewed by the Parks Board prior to City Council approval at the time of final plat..
I.12 If approved, the applicant will be required to submit a site plan and final plat for the subject property.
M.13 Are these townhomes on individual lots? If they are on individual lots please submit a subdivision plan showing how the development will be subdivided and indicating minimum .lot width and depth. If the development is intended to be one (1) lot please indicate how ownership will be calculated (i.e. as a share of the total development or other). This is needed to establish conformance with the intent of the Sub-District.
M.14 Based on the applicant's submittal staff would make the following recommendations concerning the proposed townhome development:

1) The applicant should consider incorporating alleyways with rear-facing garages. According to the City's Comprehensive Plan "Townhouses should have a minimum required square footage of livable space (e.g. 1,200 SF), with no maximum size … Townhouses mustalso have rear-entry garages."
2) The streets within the development should be public streets to allow connectivity for adjacent properties. Currently, the applicant's plan limits the connectivity of the adjacent property (i.e. the property directly northeast of the subject property), and changes the adjacent property owners ability to conform to the plan (Update 07/21/2016: The applicant has stated that a cross access easement with a stub out to the adjacent property to the north will be provided. This should provide sufficient cross access).
3) The townhome property should connect to the roadway extending adjacent to the condominium project in order to increase connectivity and access to the site. It should also be pointed out that under the current development scheme the townhome site would not be able to be developed until the adjacent properties construct future roadways.
4) The applicant should consider patterning the internal streets of the development off the mew concept contained on Page 5 of Resolution No. 10-40. Staff will review the streetscape elements with the site plan.
5) The applicant should consider incorporating parallel or niche parking to accommodate visitors.
6) The applicant should incorporate streetscape elements into the townhome development. Staff will require a streetscape plan at the time of site plan.



All recommendations are intended to bring the plan closer into conformance with the City's Comprehensive Plan and with the intent of Planned Development

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

District 32 (PD-32).

I.15 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due to staff on August 2, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the August 9, 2016 Planning &Zoning Meeting.

I.16 The projected City Council dates for this case are project to be: 1) August 15, 2016 [1st Reading], and 2) September 6, 2016 (Tuesday) [2nd Reading].

Case Name: Harbor Urban Center Townhomes
Case Type: PD Development Plan
Zoning: PD-32
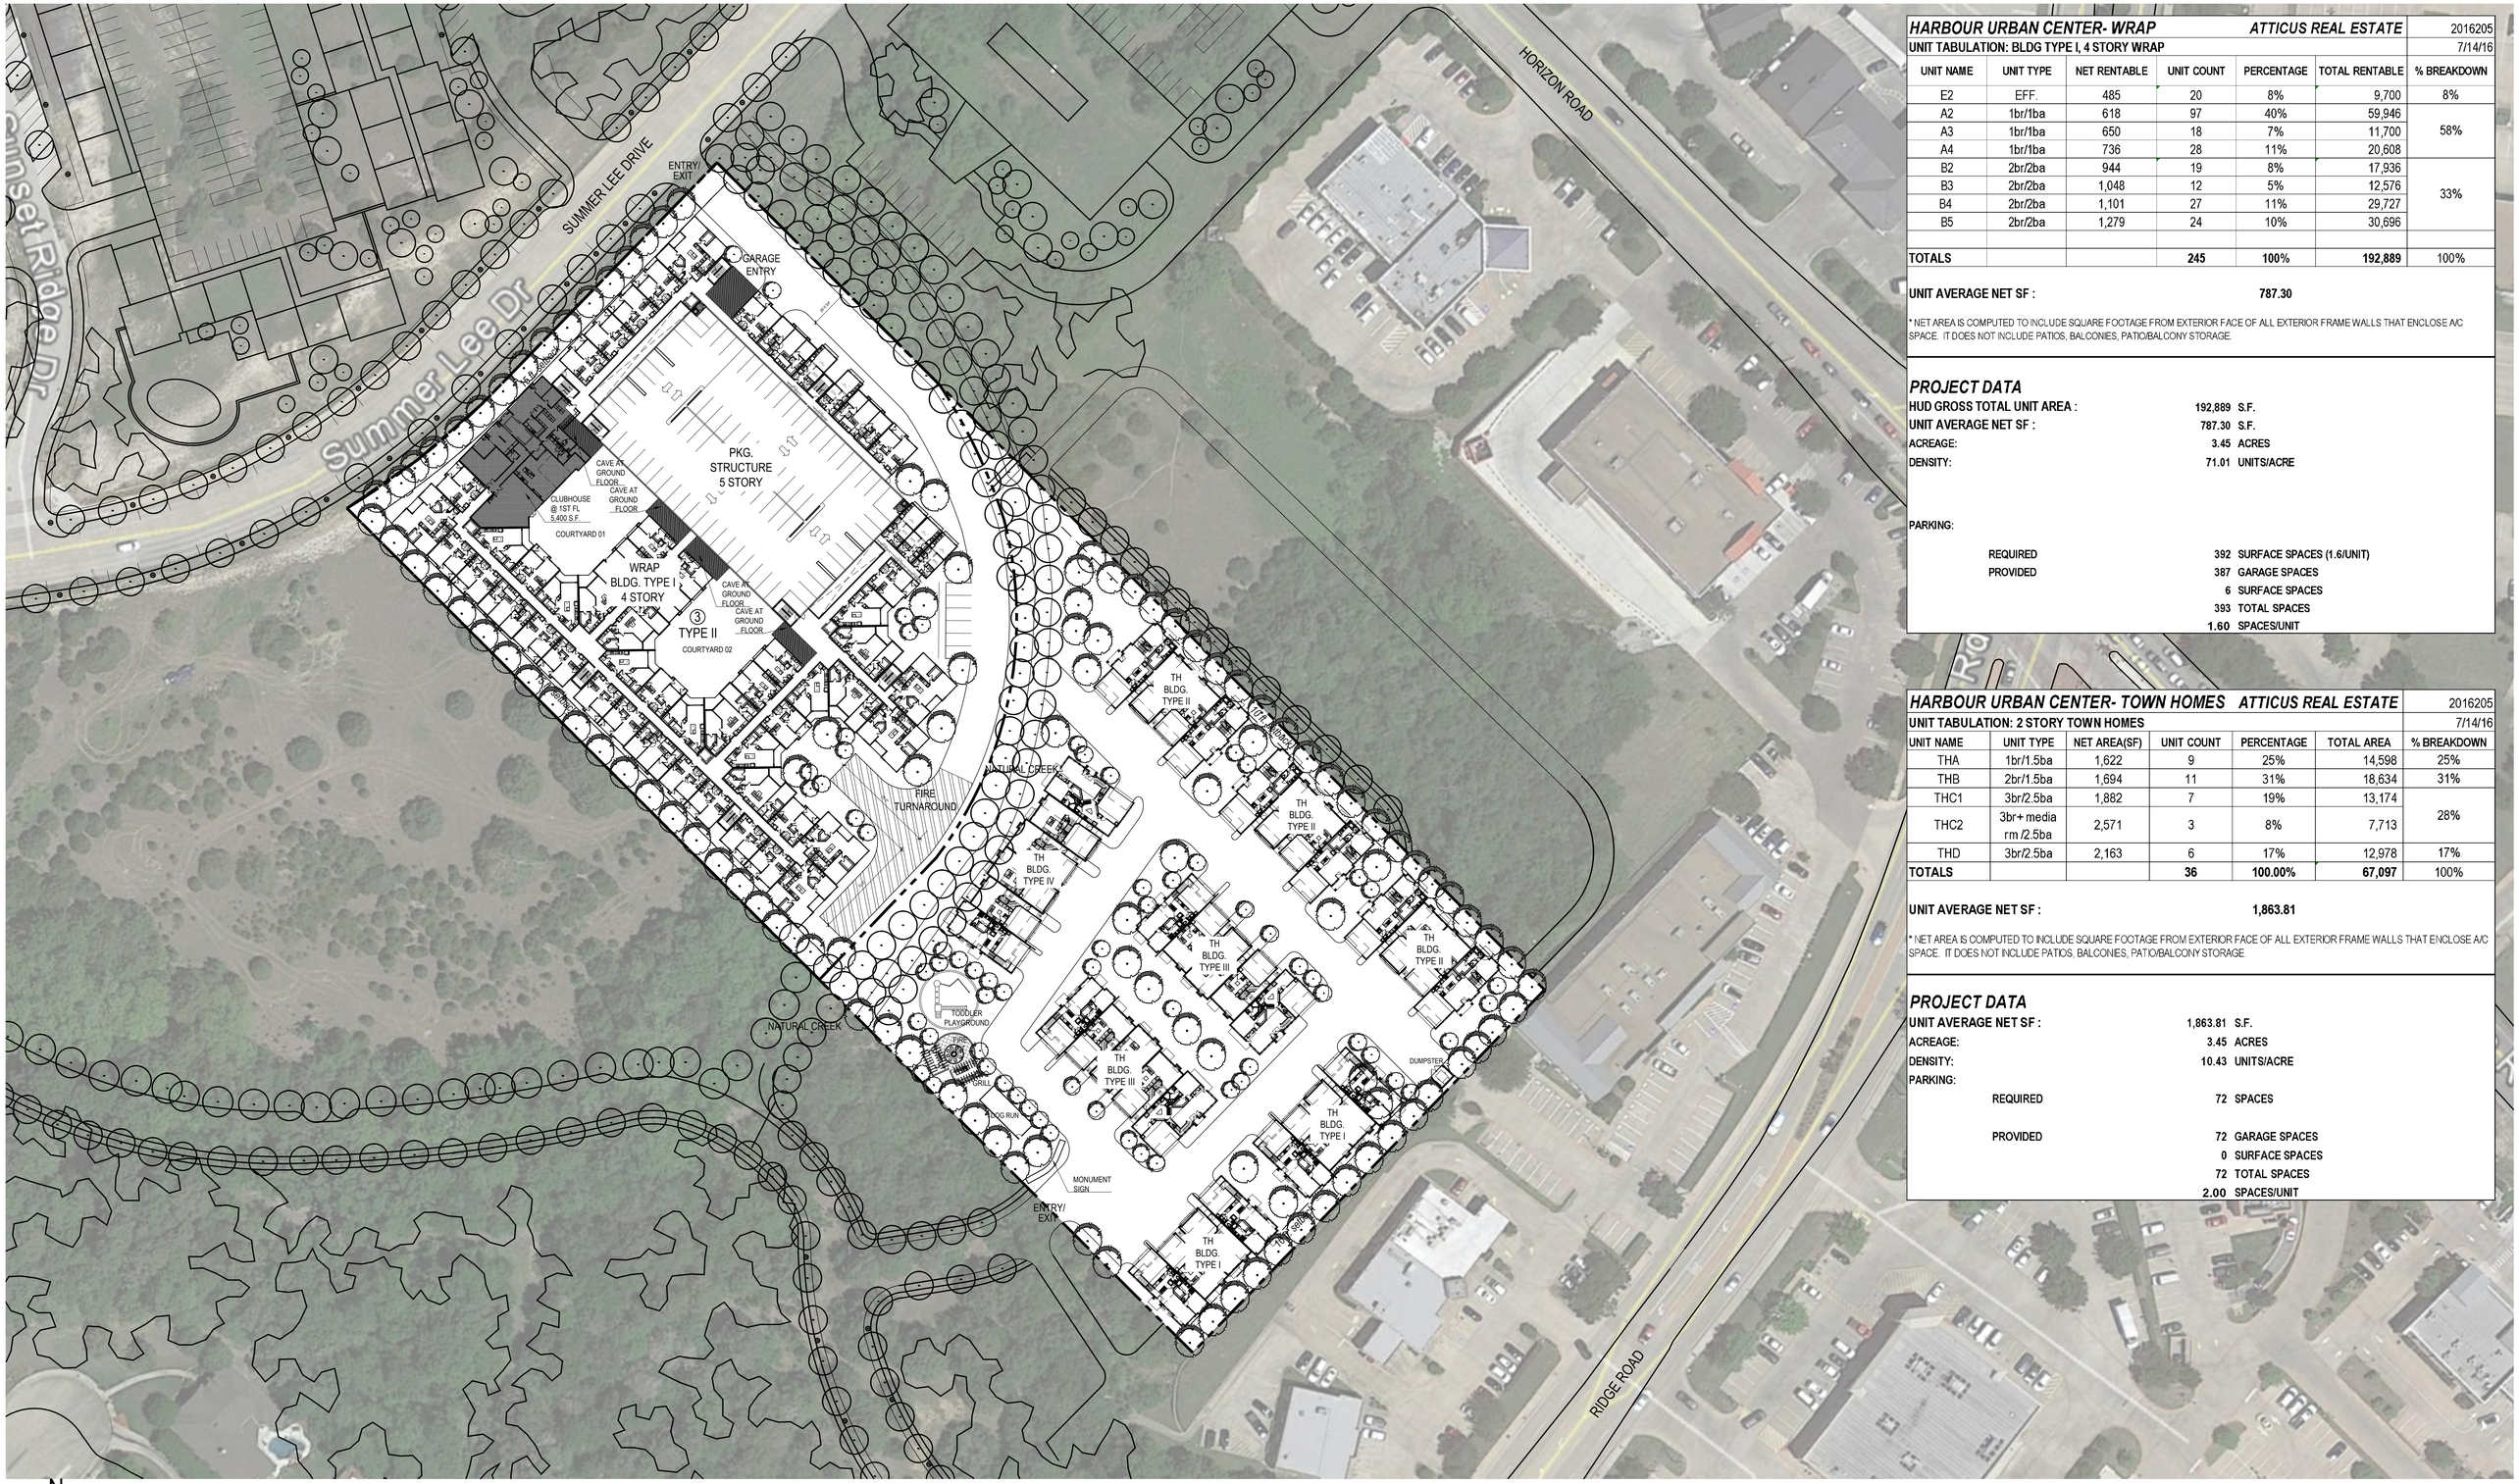
Case Address: North of Intersection of Ridge Road and Glen Hill Way

Date Created: *07/19/2016*
For Questions on this Case Call (972) 771-7745

From: Morales, Laura
To: [redacted]
Cc: Miller, Ryan; Gonzales, David; Brooks, Korey
Subject: Neighborhood Noification Program: Notice of zoning request
Date: Wednesday, July 20, 2016 11:22:32 AM

To whom it may concern:



Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on June 3, 2016. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-026- Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Residential Subdistrict* and within the Scenic Overlay (SOV) District, located north of the intersection of Ridge Road [*FM-740*] and Glen Hill Way, and take any action necessary.**

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.

Sincerely,

Laura Morales
Planning & Zoning Coordinator

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: July 26, 2016

SUBJECT: Z2016-027; *Amendment to the Minimum Square Footage Requirements*

On July 5, 2016, the City Council directed staff to prepare a text amendment increasing the minimum square footage requirements for dwelling units in the Single Family 10 (SF-10) and Single Family 16 (SF-16) Districts. In addition, the Council directed staff to establish a minimum square footage requirement for dwelling units in the Agriculture (AG) District. Specifically, the motion by the City Council directed staff to establish the following:

- ☑ Single Family 16 (SF-16) District: 2,400 SF
- ☑ Single Family 10 (SF-10) District: 2,200 SF
- ☑ Agricultural (AG) District: 1,600 SF

This motion passed by a vote of 5-2, with Council Members White and Lewis dissenting. In accordance, with Section 4.2 of Article XI, *Zoning Related Applications*, of the Unified Development Code (UDC) staff is bringing the proposed amendments forward to the Planning and Zoning Commission for a recommendation to the City Council. Staff has included a comparison of comparable city's square footage requirements in similar zoning districts for the Planning and Zoning Commission's review. In addition, staff has prepared a summary of all residential zoning districts density and dimensional requirements -- *with the proposed modifications* -- for the Planning and Zoning Commission's review. Staff has also attached a preliminary version of the draft ordinance that will be brought forward during the public hearing process. The anticipated schedule for this text amendment is as follows:

Planning and Zoning Work Session: July 26, 2016
Planning and Zoning Public Hearing: August 9, 2016
City Council Public Hearing [*1st Reading*]: August 15, 2016
City Council [*2nd Reading*]: September 6, 2016

Staff will has sent out a 15-day notice to the Rockwall County News in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC. The anticipated publish date for this notice is *Friday, July 22, 2016*.

Notes:

[1]: Public and private open space. Unless otherwise provided by the UDC, a minimum of 20 percent of the gross land area within the entire SF-1 District over five acres shall be devoted to open space, except where floodplain shall count for up to 50% of the 20% open space requirement and shall be consistent with the open space requirements of the city's parks and open space plan. Open space requirements for SF-1 District may be satisfied by public open space shall be dedicated to the city, and shall be approved by the parks board and city council during the platting process. The open space requirement is in addition to the landscaping and buffering requirements.

[2]: Frontage on a Public Street.

[3]: Side on street is treated the same as a front yard building setback.

[4]: Minimum maintenance easement is ten feet. Minimum maintenance easement on the non-zero lot line side, when adjacent to another lot in the same zoning district: five feet (this easement shall be maintained as an open space except upon a finding by the building official that the proposed improvements do not impede the use of said easement for maintenance of the adjoining structure).

[5]: Abutting structures separated by fire retardant walls.

[6]: Townhouses separated by firewall meeting the requirements of the building code may build to the property line where such structures abut.

[7]: Minimum length of driveway pavement from public right-of-way for rear and side yard is 20 feet. Carports and garages are required to be an additional 20 feet behind the front façade of the primary structure.

[8]: An enclosed garage shall not be considered in meeting the off-street parking requirements. For all other uses see Article VI, Parking and Loading, of the UDC.

[9]: Plus a two car garage.

[10]: Two off-street parking spaces plus one garage parking space for each dwelling unit.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTION 2.1, *AGRICULTURE (AG) DISTRICT*; SECTION 3.3, *SINGLE-FAMILY RESIDENTIAL (SF-16) DISTRICT*; AND SECTION 3.4, *SINGLE-FAMILY RESIDENTIAL (SF-10) DISTRICT*, OF ARTICLE V, *DISTRICT DEVELOPMENT STANDARDS*, FOR THE PURPOSE OF INCREASING THE MINIMUM SQUARE FOOTAGE PER DWELLING UNIT IN THE SINGLE FAMILY 10 (SF-10) & SINGLE FAMILY 16 (SF-16) DISTRICTS AND ESTABLISHING A MINIMUM SQUARE FOOTAGE PER DWELLING UNIT IN THE AGRICULTURE (AG) DISTRICT; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Sections 2.1, *Agriculture (AG) District*; Section 3.3, *Single-Family Residential (SF-16) District*; and Section 3.4, *Single-Family Residential (SF-10) District* of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] for the purpose of increasing the minimum square footage per dwelling unit in the Single Family 10 (SF-10) and Single Family 16 (SF-16) Districts, and establish a minimum square footage per dwelling unit in the Agriculture (AG) District; and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That Section 2.1, *Agriculture (AG) District,* of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'A'* of this ordinance.

Section 2. That Section 3.3, *Single-Family Residential (SF-16) District,* of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'B'* of this ordinance.

Section 3. That Section 3.4, *Single-Family Residential (SF-10) District,* of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in

DRAFT ORDINANCE 07.26.16

Exhibits 'C' of this ordinance.

Section 4. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 5. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 6. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 6TH DAY OF SEPTEMBER, 2016.

_____

Jim Pruitt, *Mayor*

ATTEST:

_____

Kristy Cole, *City Secretary*

2nd Reading: *September 6, 2016*

DRAFT ORDINANCE 07.26.2016

Section 2.1. Agriculture (AG) District.

A. *Purpose.* The Agricultural District is a reserved area in which the future growth of the city might *occur. It is the intent of this district that agricultural land be held in that use for as long as is* practical and reasonable to promote orderly growth. This zoning is suitable for areas where development is premature because of a lack of utilities, capacity, or service, or where the ultimate land use has not been determined. The zone is also to be used:

1. To protect those areas that are unsuitable for development because, of physical problems or potential health or safety hazards such as flooding. The use of the land would be permanently restricted to low intensity agricultural uses until such time as the property is proven to be suitable for development and is rezoned.

2. To provide a permanent greenbelt to preserve natural areas or open space buffer around uses that might otherwise be objectionable or pose environmental or health hazards.

B. *Permitted Uses*. In general, farming and ranching-related activities and accessory uses, including the owner's single-family dwelling on more than ten acres, shall be allowed. However, no building or land may be used, unless in accordance with the use tables and requirements in article IV, Permissible Uses.

C. *Area Requirements.*

1. Minimum lot area: 43,560 square feet (one acre).
2. Minimum lot frontage on a public street: 100 feet.
3. ***Minimum square footage per dwelling unit: 1,600 square feet.***
4. Minimum lot depth: 200 feet.
5. Minimum depth of front setback: 40 feet.
6. Minimum depth of rear setback: ten feet.
7. Minimum width of side setback.

    a. Internal lot: six feet.

8. Minimum distance between buildings on the same lot or parcel of land: 12 feet.
9. Minimum length of driveway pavement from the public right-of-way on a side or rear yard: 20 feet.
10. Maximum building coverage as a percentage of lot area: N/A.
11. Maximum height of structures: 36 feet.
12. Minimum number of off-street parking spaces required for:

    a. One single dwelling unit: two. An enclosed garage shall not be considered in meeting the off-street parking requirements.
    b. All other uses: see article VI, *Parking and Loading*.

DRAFT ORDINANCE 07-26-2016

Section 3.3. Single-Family Residential (SF-16) District.

A. *Purpose.*

1. This district is considered to be the proper zoning classification for large lot developments for single-family dwelling use. It is intended to be composed of single-family dwellings together with public, denominational and private schools, churches and public parks essential to create basic neighborhood units.
2. Areas that are zoned for this use shall have or provide for water, wastewater, drainage and access to paved streets based on single-family use required by the allowed density.
3. It is intended for areas that are properly buffered from nonresidential uses, and protected from pollution and/or environmental hazards or from high volume of non-single-family traffic.

B. *Permitted Uses.* In general, single-family dwellings together with public, denominational and private schools, churches and public parks essential to create basic neighborhood units, may be allowed. However, no building or land may be used, unless in accordance with the use tables and requirements in Article IV [*of this Unified Development Code*], *Permissible Uses*.

C. *Development Standards.*

1. Minimum lot area: 16,000 square feet.
2. Maximum number of single-family detached dwellings units per lot: one.
3. Minimum square footage per dwelling unit: ~~***1,800***~~ ***2,400*** square feet.
4. Minimum lot frontage on a public street: 90 feet.
5. Minimum lot depth: 100 feet.
6. Minimum depth of front yard setback: 25 feet.
7. Minimum depth of rear yard setback: ten feet.
8. Minimum width of side yard setback:

    a. Internal lot: eight feet.

9. Minimum distance between separate buildings on the same lot or parcel of land: ten feet.
10. Minimum length of driveway pavement from the public right-of-way for rear and side yard: 20 feet.
11. Maximum building coverage as a percentage of lot area: 45 percent.
12. Maximum building height: 36 feet.
13. Minimum number of paved off-street parking spaces required for:

    a. One single-family dwelling unit: two. An enclosed garage shall not be considered in meeting the off-street parking requirements.
    b. For all other uses: see article VI [of this Unified Development Code], *Parking and Loading*.

DRAFT ORDINANCE 07-26-2016

Section 3.4. Single-Family Residential (SF-10) District.

A. *Purpose.*

1. This district comprises a major portion of the existing single-family dwelling development of the city. It is intended to be composed of single-family dwellings together with public, denominational and private schools, churches and public parks essential to create basic neighborhood units.
2. Areas that are zoned for this use shall have or provide for water, wastewater, drainage and transportation capacities based on single-family use required by the allowed density.
3. It is intended for areas that are properly buffered from nonresidential uses, and protected from pollution and/or environmental hazards or from high volume of non-single-family traffic.

B. *Permitted Uses.* In general, single-family dwellings together with public, denominational and private schools, churches and public parks essential to create basic neighborhood units, may be allowed. However, no building or land may be used, unless in accordance with the use tables and requirements in Article IV [*of this Unified Development Code*], *Permissible Uses*.

C. *Development Standards.*

1. Minimum lot area: 10,000 square feet.
2. Maximum number of single-family detached dwellings units per lot: one.
3. Minimum square footage per dwelling unit: ~~***1,500***~~ ***2,200*** square feet.
4. Minimum lot frontage on a public street: 80 feet.
5. Minimum lot depth: 100 feet.
6. Minimum depth of front yard setback: 20 feet.
7. Minimum depth of rear yard setback: ten feet.
8. Minimum width of side yard setback:

    a. Internal lot: six feet.

9. Minimum distance between separate buildings on the same lot or parcel of land: ten feet.
10. Minimum length of driveway pavement from the public right-of-way for rear and side yard: 20 feet.
11. Maximum building coverage as a percentage of lot area: 45 percent.
12. Maximum building height: 36 feet.
13. Minimum number of paved off-street parking spaces required for:

    a. One single-family dwelling unit: two. An enclosed garage shall not be considered in meeting the off-street parking requirements.
    b. For all other uses: see article VI [of this Unified Development Code], *Parking and Loading*.

Discuss and consider a request by Jerry Monk of Monk Consulting on behalf of Dr. Steve Arze of Zaph & Ath Properties, LLC for the approval of a site plan for an indoor recreation facility on a 4.88-acre tract of land identified as Tract 4-01 of the N. Butler Survey, Abstract No. 20, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located north of the intersection of Industrial Boulevard and Airport Road, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, August 2, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. Label site plan documents with "Case No. SP2016-015" at the lower right corner of each plan.
4. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department.

EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:
1. Art V, Sec. 4.1.A.1 requires each exterior wall to consist of 90% masonry materials,..., including 20% stone on walls which are visible from a public street or open space. South, East & West elevations require a minimum 20% stone and do not meet this standard.
2. Art V, Sec. 4.1.A.1 requires each exterior wall to consist of 90% masonry materials,..., on walls which are visible from a public street or open space. South, East & West elevations do not provide a minimum 90% masonry material and exceed 10% for metal wall panels.

** Approval of exceptions to the exterior materials requested requires passage by a simple majority vote of City Council. **

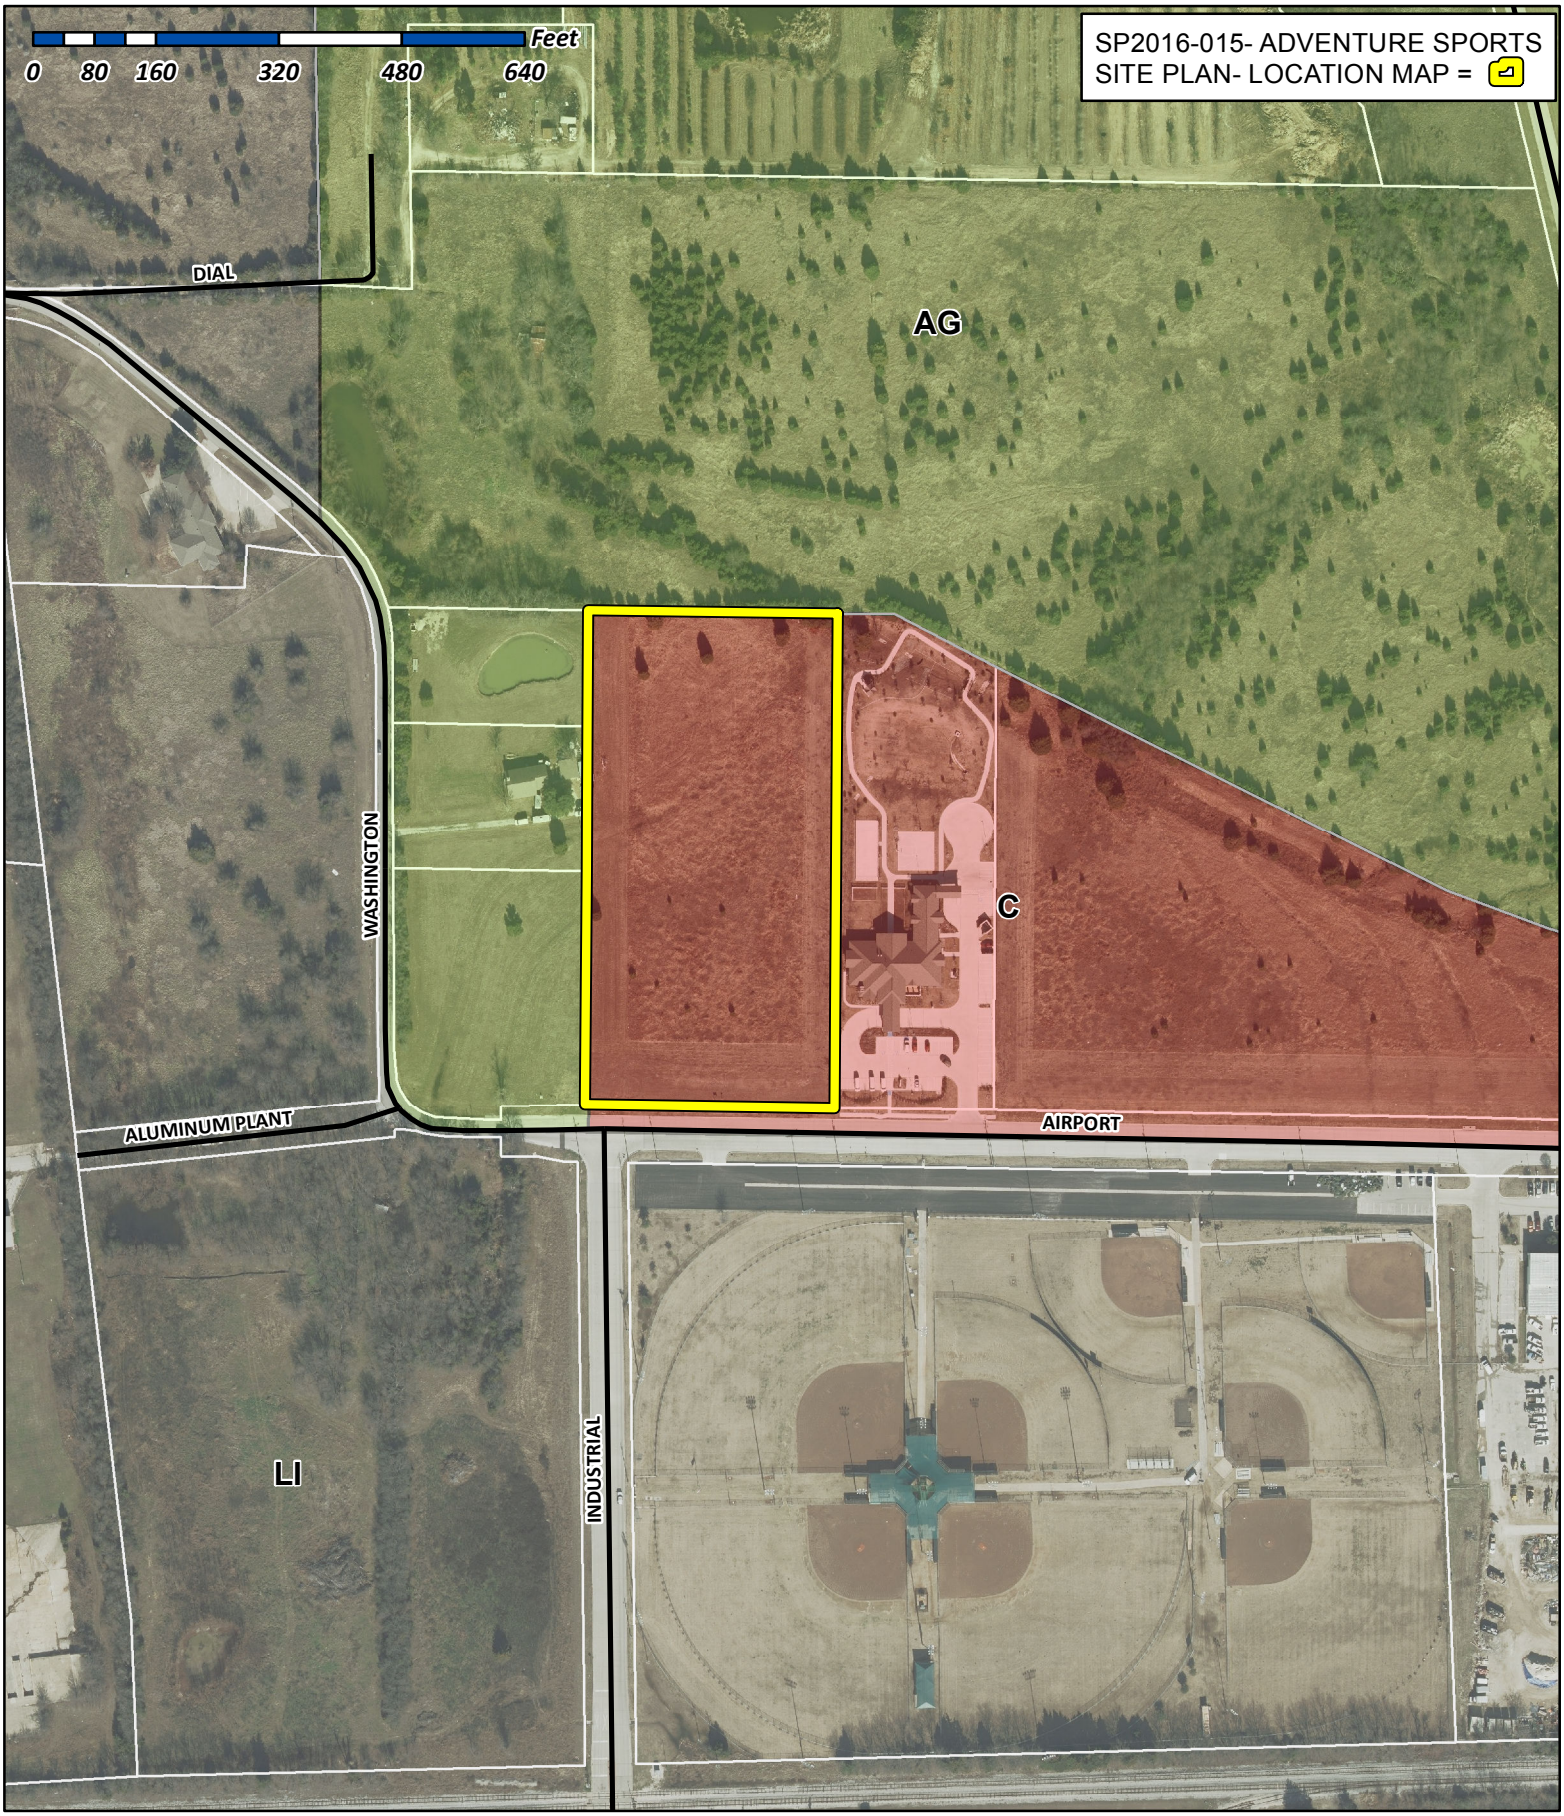
Please addressthe following Planning Comments for each plan submitted:

Site Plan:

1. Will there be three separate lots developed? If so, provide a lot/phasing plan. Also, this lot and the rear (north) lot will require lot frontage. A minimum of 60-ft width required to create a flag lot for each.
2. Remove the label (By Plat) where indicated.
3. Relabel 24-ft Firelanes as "24-ft Firelane, Public Access & Utility Easement"
4. Dumpster Enclosure: What is the exterior material of the enclosure? The exterior material is to match the primary structure with an opaque gate. Provide a self latching mechanism for the dumpster enclosure gate.

Landscape Plan:
1. Meets the intent of the UDC and is OK as submitted.

Photometric Plan:
1. The lighting pole standards are not to exceed a maximum overall heightof 30-ft (includes pole, base, fixtures, etc.) per the UDC standards. Provide detail.
2. Provide cut sheets for all exterior lighting fixtures (e.g. pole lights, wall packs, etc.)
3. All lighting sources are to be directed down and sheilded with a full cut-off or partial cut-off source and a maximum 1 inch reveal in order to control glare.
4. Maximum lighting intensity at the property line is not to exceed 0.2-FC. Resubmit photometric plan and indicate readings to all property lines and in compliance with UDC (i.e. 0.2-FC)

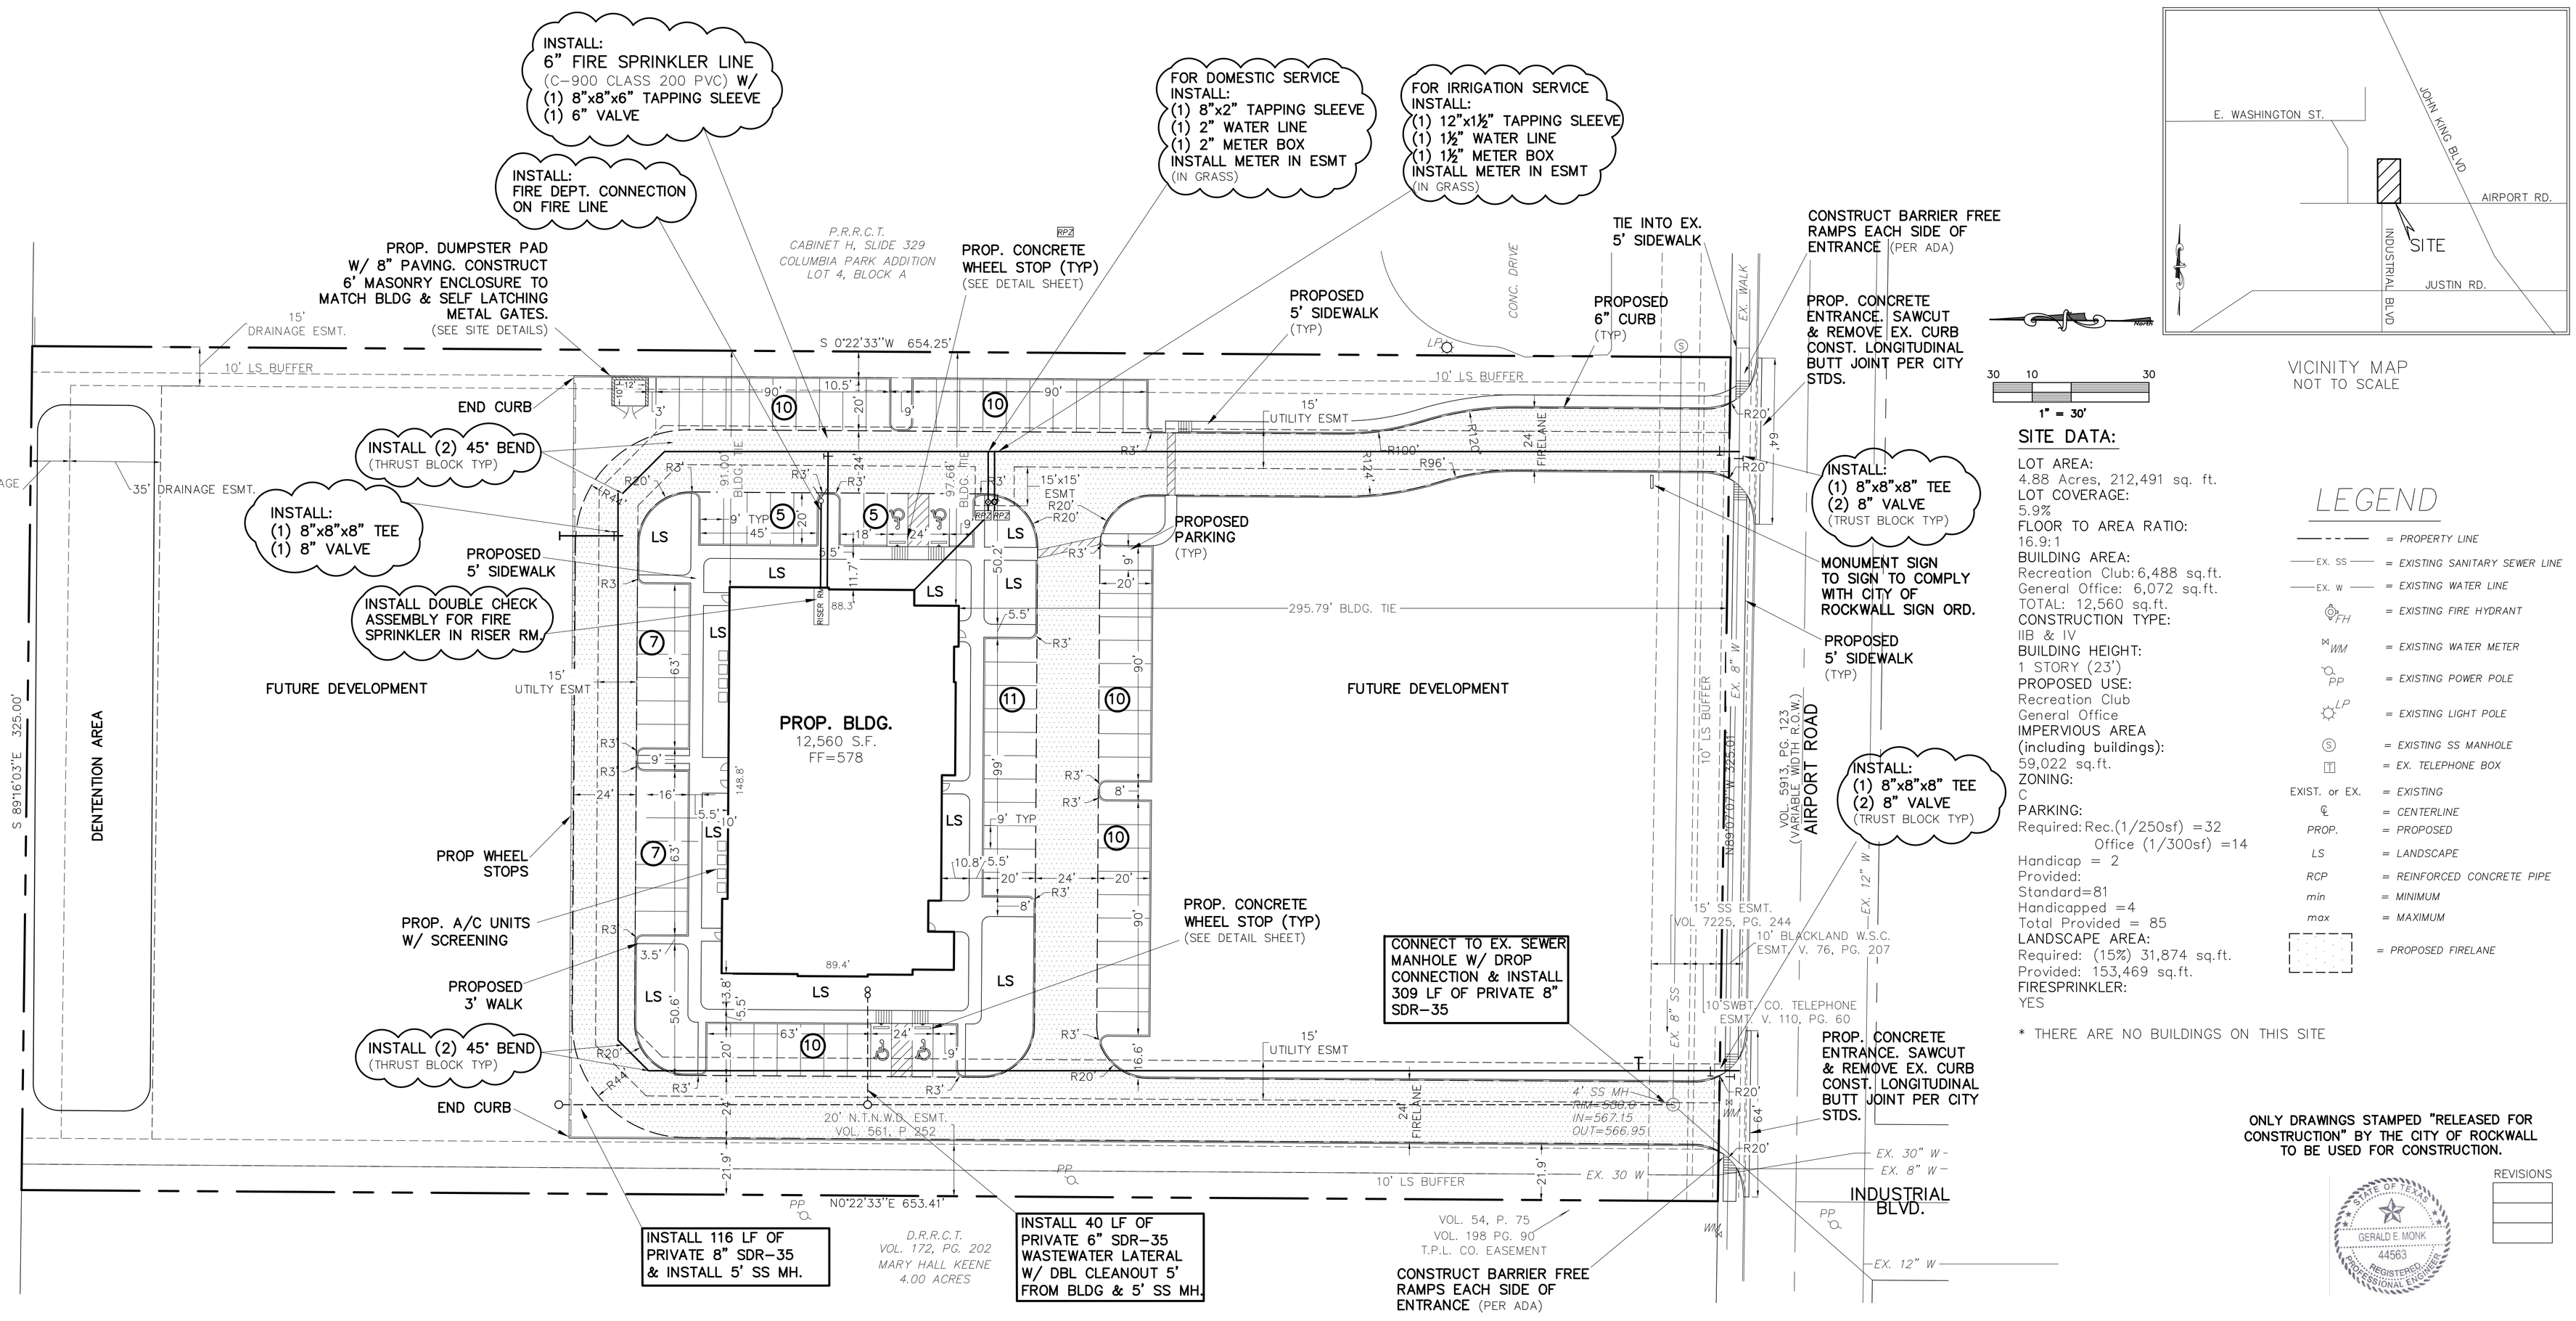


Building Elevations:
1. Provide exterior material percentage calculations for each exterior material and for each elevation (north, south, east, & west).
2. Label the north facing elevation - there are two south elevations.
3. Approval of exceptions by City Council as indicated above.

The following are scheduled meetingdatesthat you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: July 26, 2016 (6:00 p.m.) [Applicant to provide presenation and discuss project]
Planning - Action: August 9, 2016 (6:00 p.m.) [P&Z to take action (i.e. approve, approve with conditions, or deny)



City Council - Action: August 15, 2016 (6:00 p.m.) [FOR EXCEPTION REQUESTS ONLY]

**** NOTICE TO CONTRACTORS ****

TOPOGRAPHIC INFORMATION TAKEN FROM A TOPOGRAPHIC SURVEY PERFORMED BY **H.D. FETTY LAND SURVEYOR** OF **ROYSE CITY, TEXAS**. THE CONTRACTOR SHALL NOTIFY THE ENGINEER IMMEDIATELY, IN WRITING, OF ANY DISCREPANCIES OR OMISSIONS TO THE TOPOGRAPHIC INFORMATION. THE CONTRACTOR(S) SHALL BE RESPONSIBLE FOR CONFIRMING THE LOCATION (HORIZONTAL/VERTICAL) OF ANY BURIED CABLES, CONDUITS, PIPES, AND STRUCTURES (STORM SEWER, SANITARY SEWER, WATER, GAS, TELEVISION, TELEPHONE, ETC.) WHICH IMPACT THE CONSTRUCTION SITE. THE CONTRACTOR(S) SHALL NOTIFY THE OWNER AND ENGINEER IF ANY DISCREPANCIES ARE FOUND BETWEEN THE ACTUAL CONDITIONS VERSUS THE DATA CONTAINED IN THE CONSTRUCTION PLANS. ANY COSTS INCURRED AS THE RESULT OF NOT CONFIRMING THE ACTUAL LOCATION (HORIZONTAL/VERTICAL) OF SAID CABLES, CONDUITS, PIPES, AND STRUCTURES SHALL BE BORNE BY THE CONTRACTOR. ADDITIONALLY, THE CONTRACTOR(S) SHALL NOTIFY THE OWNER AND ENGINEER IF ANY ERRORS OR DISCREPANCIES ARE FOUND ON THE CONSTRUCTION DOCUMENTS, WHICH NEGATIVELY IMPACT THE PROJECT. ENGINEER AND OWNER SHALL BE INDEMNIFIED OF PROBLEMS AND/OR COST WHICH MAY RESULT FROM CONTRACTOR'S FAILURE TO NOTIFY ENGINEER AND OWNER.

NOTES:
1) ALL WORK MUST CONFORM TO CITY OF ROCKWALL & NCTCOG STANDARDS AND DETAILS 3rd EDITION.
2) ALL WORK IN PUBLIC RIGHT-OF-WAY SHALL CONFORM TO CITY OF ROCKWALL STANDARDS AND DETAILS
3) SEE PLAT FOR ALL INFORMATION REGARDING EASEMENTS, PROPERTY LINES, ETC.
4) ALL DIMENSIONS ARE FACE OF CURB TO FACE OF CURB UNLESS OTHERWISE NOTED.

PAVING NOTES:
1) FIRELANE & APPROACHES TO BE 6" THICK, 3600 psi, 6.5 SACK MIX, REINFORCED WITH #3 BARS @ 18" ON CENTER. (O.C.)
2) ALL NON-FIRELANE PAVING CAN BE 6" THICK, 3000 psi, 6 SACK MIX, REINFORCED WITH #4 BARS @ 18" O.C.
3) ALL FILL (IF REQUIRED) SHALL BE PLACED ON 8" LIFTS AND COMPACTED TO 95% OF STD. PROCTOR @ MOISTURE RANGE OF 0% TO +6% OF OPTIMUM MOISTURE. (UNLESS OTHERWISE NOTED) USING A SHEEPS-FOOT ROLLER.
4) SIDEWALK TO BE 4" THICK CONCRETE, 3000 psi, 5.5 SACK MIX IN R.O.W.
5) NO SAND UNDER PAVING.

FIRE SPRINKLER LINE IS SEPARATE PERMIT FROM THE FIRE DEPARTMENT

WARNING:
PRIOR TO THE BEGINNING OF ANY CONSTRUCTION OR CONSTRUCTION STAKING, IT SHALL BE THE CONTRACTORS RESPONSIBILITY TO CONTACT THE CIVIL ENGINEER TO ENSURE THAT ALL PARTIES ARE IN POSSESSION OF THE MOST CURRENT SET OF CONSTRUCTION DOCUMENTS.

NOTE:
THE CONTRACTOR SHALL BE RESPONSIBLE FOR FIELD VERIFYING THE LOCATION OF ALL EXISTING UTILITIES AND EASEMENTS PRIOR TO START OF OPERATIONS. CONTRACTOR WILL NOTIFY THE OWNER'S REPRESENTATIVE OF ANY DISCREPANCIES PRIOR TO STARTING THE WORK. EXISTING UTILITIES AND UNDERGROUND FACILITIES INDICATED ON THESE PLANS HAVE BEEN LOCATED FROM REFERENCE INFORMATION. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO VERIFY BOTH THE HORIZONTAL AND VERTICAL LOCATION OF ALL EXISTING UTILITIES AND UNDERGROUND FACILITIES PRIOR TO START OF CONSTRUCTION. TAKE THE NECESSARY PRECAUTIONS IN ORDER TO PROTECT ALL FACILITIES ENCOUNTERED. THE CONTRACTOR SHALL PRESERVE AND PROTECT ALL EXISTING UTILITIES FROM DAMAGE DURING CONSTRUCTION.

ALL RESPONSIBILITY FOR ADEQUACY OF DESIGN REMAINS WITH THE DESIGN ENGINEER. THE CITY OF ROCKWALL, IN REVIEWING AND RELEASING PLANS FOR CONSTRUCTION, ASSUMES NO RESPONSIBILITY FOR ADEQUACY OF ACCURACY OF DESIGN.

GENERAL NOTES
1. Buildings 5,000 square feet or greater shall be sprinkled. Alternative fire protective measures may be approved by the Building inspector and Fire Department.
2. Fire lanes shall be designed and constructed per city standards.
3. Handicapped parking areas shall be designed and provided per city standards and shall comply with requirements of the current adopted Uniform Building Code.
4. Mechanical units, dumpster and trash compactors shall be screened in accordance with the Zoning Ordinance
5. All signage contingent upon Building Inspection Department.
6. Approval of the site plan is not final until all engineering plans are approved.
7. Open storage, where permitted, shall be screened in accordance with the Zoning Ordinance
8. Please contact the Building Inspection Department to determine the type of construction and occupancy group.
9. All electrical transmission, distribution and service lines must be underground.

AGENDA
PLANNING AND ZONING COMMISSION PUBLIC HEARING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
August 9, 2016
6:00 P.M.

CALL TO ORDER

CONSENT AGENDA

1. **Approval of Minutes** for the *July 26, 2016* Planning and Zoning Commission meeting.

2. **P2016-023** **(Ryan)**
   Discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (*R. & R. Hance Investments, LP*) for the approval of a master plat/open space plan for the Saddle Star South Subdivision containing 138 single-family residential lots on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of Featherstone Drive John King Boulevard, and take any action necessary.

3. **P2016-024** **(Ryan)**
   Discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (*R. & R. Hance Investments, LP*) for the approval of a preliminary plat for the Saddle Star South Subdivision containing 138 single-family residential lots on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of Featherstone Drive John King Boulevard, and take any action necessary.

4. **P2016-035** **(Korey)**
   Discuss and consider a request by Matt Hibbitt of Spry Surveyors on behalf of the owner Racetrac Petroleum, Inc. for the approval of a final plat for Lot 1, Block 1, Carmel Carwash Addition being a 2.059-acre tract of land currently identified as Lot 1, Block 1, Crossings Addition (*i.e. 1.004-acres*) and a 1.052-acre portion of Lot 1, Block 1, Rockwall Business Park Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2003 S. Goliad Street, and take any action necessary.

PUBLIC HEARING ITEMS

5. **Z2016-019** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Miller Sylvan of JPI on behalf of the owner Gene Lambreth of Pneuma Ventures, LTD for the approval of a zoning change from a Light Industrial (LI) District to a Planned Development District for a multi-family apartment complex on a 42.50-acre tract of land identified as Tract 1-4 of the J. M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-205 By-Pass Overlay (205 BY-OV) District, located east of the intersection of Discovery Boulevard and John King Boulevard, and take any action necessary.

6. **Z2016-022** **(David)**
   Hold a public hearing to discuss and consider a request by Mark W. Pross of Pross Design Group, Inc. on behalf of Robert Reece of SPR Packaging, LLC for the approval of a Specific Use Permit (SUP) to allow for a structure that exceeds 60-feet in height in a Light Industrial (LI) District in conjunction with an existing manufacturing facility situated on 10.1893-acre parcel of land identified as Lot 2, Block A, SPR Packaging Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1480 Justin Road, and take any action necessary

7. **Z2016-024** **(Korey)**
   Hold a public hearing to discuss and consider a request by Kyle Vrla of Dynamic Engineering Consultants, PC on behalf of the owner Wilson Osee of Osee Properties, LLC for the approval of a zoning change from a

Commercial (C) District to a Heavy Commercial (HC) District for a 6.588-acre portion of a larger 24.818-acre tract of land identified as Tract 3-13 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, located south of the intersection of Sids Road and SH-205 [*S. Goliad Street*], and take any action necessary.

8. **Z2016-025** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Interior Subdistrict*, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [*FM-3097*] and Summer Lee Drive, and take any action necessary.

9. **Z2016-026** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Residential Subdistrict* and within the Scenic Overlay (SOV) District, located north of the intersection of Ridge Road [*FM-740*] and Glen Hill Way, and take any action necessary.

10. **Z2016-027** **(Ryan)**
    Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 2.1, *Agriculture (AG) District*; Section 3.3, *Single-Family Residential (SF-16)* District; and Section 3.4, *Single-Family Residential (SF-10) District*, of Article V, *District Development Standards*, of the Unified Development Code for the purpose of increasing the minimum square footage per dwelling unit in these zoning districts, and take any action necessary.

ACTION ITEMS

11. **SP2016-015** **(David)**
    Discuss and consider a request by Jerry Monk of Monk Consulting on behalf of Dr. Steve Arze of Zaph & Ath Properties, LLC for the approval of a site plan for an indoor recreation facility on a 4.88-acre tract of land identified as Tract 4-01 of the N. Butler Survey, Abstract No. 20, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located north of the intersection of Industrial Boulevard and Airport Road, and take any action necessary.

DISCUSSION ITEMS

12. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2016-030: Replat for Lots 5 & 6, Block C, Sanger Bros. Addition [*Approved*]
- ✓ P2016-031: Replat for Lots 2 & 3, Block A, Heritage Christian Academy, Phase 2 [*Approved*]
- ✓ P2016-032: Final Plat for Lot 1, Block B, Rockwall Technology Park, Phase IV [*Approved*]
- ✓ P2016-033: Final Plat for Lot 1, Block A, Rockwall Technology Park, Phase IV [*Approved*]
- ✓ P2016-034: Final Plat for Lots 1-3, Block A, Dalton Goliad Addition [*Approved*]
- ✓ Z2016-020: SUP for a Carport at 509 Sunset Hill Drive (*1st Reading*) [*Approved*]
- ✓ Z2016-021: Zoning Amendment to PD-52 for Townhomes (*1st Reading*) [*Approved*]

ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator of the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 5th day of August, 2016 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MINUTES

PLANNING AND ZONING COMMISSION WORK SESSION

City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
July 26, 2016
6:00 P.M.

I. CALL TO ORDER

Chairman Renfro called the meeting to order at 6:02 p.m. Present were, Commissioners Johnny Lyons, Patrick Trowbridge, Sandra Whitley, Annie Fishman and John McCutcheon. Absent was Commissioner Tracey Logan. Staff members present were Planning Director, Ryan Miller, Senior Planner, David Gonzales, Planner, Korey Brooks, Planning Coordinator, Laura Morales, and Assistant City Engineer, Amy Williams.

II. CONSENT AGENDA

1. Approval of Minutes for the June 28, 2016 Planning and Zoning Commission meeting.

2. P2016-030
Discuss and consider a request by Clint Groomer of CBG Surveying, Inc. on behalf of Anusha Malineni of Sriven Vista, LLC for the approval of a replat for Lots 5 & 6, Block C, Sanger Bros. Addition being a 0.23-acre parcel of land currently identified as a portion of Lots 1 & 2, Block C, Sanger Bros. Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, addressed as 703 Sam Houston Street, and take any action necessary.

3. P2016-031
Discuss and consider a request by Randy Helmberger of Our Lady of the Lake Catholic Church on behalf of Dr. Brad Helmer of Heritage Christian Academy for the approval of a replat for Lots 2 & 3, Block A, Heritage Christian Academy, Phase 2 being a 8.83-acre tract of land currently identified as Lot 1, Block A, Heritage Christian Academy, Phase 2, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 27 (PD-27) for Multi-Family 14 (MF-14) District, located west of the intersection of Damascus Road and SH-205 [*S. Goliad Street*], and take any action necessary.

4. P2016-032
Discuss and consider a request by Chet Leugers, PE of Pacheco Koch on behalf of Michael Hampton of the Rockwall Economic Development Corporation (REDC) for the approval of a final plat of Lot 1, Block B, Rockwall Technology Park, Phase IV being an 8.761-acre portion of a larger 9.73-acre tract of land identified as Tract 2-01-1 of the J. H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the FM-549 Overlay (FM-549 OV) District, located at the northeast corner of the intersection of Corporate Crossing and Capital Boulevard, and take any action necessary.

5. P2016-033
Discuss and consider a request by Chet Leugers, PE of Pacheco Koch on behalf of Michael Hampton of the Rockwall Economic Development Corporation (REDC) for the approval of a final plat of Lot 1, Block A, Rockwall Technology Park, Phase IV being an 30.035-acre portion of a larger 49.85-acre tract of land identified as Tract 1, J. H. B. Jones Survey, Abstract 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the northeast corner of the intersection of Discovery Boulevard and Data Drive, and take any action necessary.

6. P2016-034
Discuss and consider a request by Jay Holman & Don Silverman of Rockwall 205-552, LLC for the approval of final plat for Lots 1-3, Block A, Dalton Goliad Addition being a 9.232-acre tract of land identified as Tract 4-1 of the T. R. Bailey Survey, Abstract No. 30, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the northwest corner of the intersection of SH-205 [*N. Goliad Street*] and FM-552, and take any action necessary.

Chairman Renfro made motion to approve the consent agenda. Commissioner McCutcheon seconded the motion which passed by a vote of 6-0, with Commissioner Logan absent.

III. PUBLIC HEARINGS

7. Z2016-020

Hold a public hearing to discuss and consider a request by Sandra Peterson for the approval of a Specific Use Permit (SUP) to allow for a carport that does not meet the minimum setback requirements stipulated by Section 2.1.2, *Residential and Lodging Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] for a 0.231-acre parcel of land identified as Lot 10, Block D of Northshore, Phase 2A Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 509 Sunset Hill Drive, and take any action necessary.

Planner, Korey Brooks, gave brief explanation of the item stating the applicant is requesting a Specific Use Permit to allow for a carport that does not meet the minimum rear yard setback requirements. According to the Unified Development Code the minimum depth of rear yard setback is ten feet for properties located in a Single Family 10 District. The applicant is proposing to construct the carport 8-feet from the street. According to Section 2.1.2, Residential and Lodging Use Conditions, of Article IV, Permissible Uses, of the Unified Development Code, carports that do not meet the minimum rear yard setbacks can apply for a Specific Use Permit to be approved by the City Council. The proposed carport will stand approximately ten feet in height and will have a building footprint of approximately 24-feet x 22-feet or 530 square feet. The carport will be located behind the main residential structure and attach to the existing home where the garage is located. The carport will be constructed of metal and will not visible from the street.

Mr. Brooks went on to state that staff mailed 25 notices to property owners and occupants within 500-feet of the subject property and also notified the Preserve HOA, and additionally, staff posted a sign on the subject property. Staff received five notices returned in favor of the carport.

Chairman Renfro opened the public hearing and asked the applicant to come forward.

Bryce Peterson
509 Sunset Hill Drive
Rockwall, TX

Mr. Peterson came forward and stated his truck is 19 feet long and they are requesting the variance for the carport to add additional room in front of the truck to facilitate room to circulate in front of the truck.

Chairman Renfro asked if there was anyone wishing to speak to come forward and do so. There being no one indicating such, Chairman Renfro closed the public hearing.

Commissioner McCutcheon made motion to pass agenda item with staff recommendations. Commissioner Lyons seconded the motion which passed by a vote of 6-0, with Commissioner Logan absent.

8. Z2016-021

Hold a public hearing to discuss and consider a request by Mike Hogue for the approval of a zoning amendment to Planned Development District 52 (PD-52) for the purpose of allowing townhomes on a 2.17-acre tract of land identified as Lot 1, Block 1, Allen Hogue Subdivision (*0.7910-acres*) and Lots 67 & 68, Block B, B. F. Boydston Addition (*1.257-acres*), City of Rockwall, Rockwall County, Texas, zoned Planned Development District 52 (PD-52) for Heavy Commercial (HC) District land uses, being addressed as 703, 705 & 709 E. Boydstun Avenue, and take any action necessary.

Senior Planner, David Gonzales, advised that the applicants, Mike Hogue as well as a representative from Marshawn Architects are both present and stated the request is for a zoning amendment to Planned Development District 52 for the purpose of allowing Townhomes on a 2.048-acre tract of land. The development will consist of eleven single-family attached townhomes. The subject property has an underlying zoning of Heavy Commercial and is located at the intersection of E. Boydstun Avenue and S. Clark Street.

Mr. Gonzales went on to explain that Mr. Hogue's property is located within Planned Development No. 52 District, which allows for Heavy Commercial land uses. Adjacent to and within the vicinity of his property are Commercial, Duplex Residential, and Single-Family Residential land uses. The Future Land Use Map contained within the Comprehensive Plan designates the subject property for Commercial/Industrial land uses. However, due to the adjacent land uses this property could be utilized as a transitional zone if approved by City Council. According to the Comprehensive Plan, high density residential uses should be used as a transitional use from commercial or existing retail use, or where it will serve as a logical extension of an existing high density development. The zoning change proposed by the applicant would require this designation to be amended to a High Density Residential designation and has been added as a condition of approval.

Mr. Gonzales further explained that after the previous work session the applicant has been working with staff and after listening to what the Commission had to say during the work session what the applicant intends to build is a three story, two bedroom townhomes consisting of 2,258 sq.-ft. of air conditioned space on each lot. The conceptual rendering provides a perspective of a traditional attached three story home site that will incorporate a mixture flat and pitched roofs with gabled elements, articulated entry features, and balconies. Each townhome will be identified as a separate unit. Anti-monotony standards have been incorporated within the ordinance. The overall minimum masonry requirement for this development will be calculated at 90% masonry materials, excluding windows and doors. Hardy Plank or a similar cementaceous material may be used up to 70 percent of the masonry requirement on units that do not have a material on the adjoining property façade. This will help maintain the traditional design and style the applicant is attempting to create. Each townhome will also have a two car garage located to the rear of each property. In addition, the applicant will provide a minimum of a 10-foot landscape buffer along S. Clark Street and Boydstun Avenue with large canopy trees planted at 50-ft intervals and additional landscaping for each property will be provided as well as a park in the rear of the property.

Mr. Gonzales also noted that in the previous work session some of the Commission's concerns as well as the phone calls staff received from citizens were concerning parking. The parking will be located to the rear and will have rear entry two car garages on each lot as well as provide additional parking in the rear for the park and the open space area.

Mr. Gonzales stated he provided the Commission Development Standards that staff was able to put together over the weekend that were provided to the applicant who in turn was able to review to put together the remainder of the draft ordinance. Some of the things that will be included in the ordinance are some controls for the property in order to allow for townhomes not only to include the anti-monotony standards, but also to have controls like you would see in a residential neighborhood such as fence standards, landscaping standards and an HOA. The HOA will maintain the private road, the open space and the park. Mr. Gonzales also pointed out that the ordinance that is being put in place will not affect any other properties that are within PD-52 it is only for this two acre portion.

Mr. Gonzales further stated that staff mailed 250 notices to property owners and residents within 500-feet of the subject property and emailed a notice to the Park Place Homeowner's Associations, which is the only HOA located within 1,500 feet of the subject property as well as posting a sign adjacent to the subject property along Boydstun Avenue and advertised the public hearings in the Rockwall Harold Banner as required by the UDC. Staff received six notices "in favor of" and four notices "opposed to" the request.

Mr. Gonzales advised he, as well as the applicant, are available for questions.

Commissioner Trowbridge asked in what year PD-52 was put in place. Mr. Gonzales stated it was put in place in 2002. Commissioner Trowbridge asked the year the zoning to the east SF-7 which is where Park Place is was established. Mr. Gonzales stated the Park Place Ordinance was put in place a few years after PD-52.

Commissioner Trowbridge asked if there is a minimum size that can be done for a PD, if it is a PD within a PD that is being proposed. Mr. Gonzales stated this is an amendment to this PD that is already established, the PD is not shrinking, the applicant is simply asking for the townhome use to be allowed within the PD-52.

Commissioner Trowbridge asked concerning the development standards that were just added that will be tied down to the ordinance is there something similar to a development standard that can be used as an example. Mr. Gonzales stated development standards that are put in place is that similar to any typical residential plan development, the only difference would be that these are townhomes and although they are still single family residential properties the only difference is that it is higher density.

Chairman Renfro asked what the minimum dwelling square footage was. Mr. Gonzales stated the applicant has indicated that the units will be minimum 2200 square feet.

Chairman Renfro opened the public hearing and asked the applicant to come forward.

Greg Wallace
Mershawn Architects
2313 Ridge Road
Rockwall, TX

Mr. Wallace came forward and stated his client is very agreeable to taking input from the Commission as well as staff in making changes to the project and is very willing to do whatever he can to make this acceptable. He understands some of the opposition was due to parking; however feels that 11 units will not cause a tremendous additional parking for that area or for the street that it's on. He stated he is available for any questions the Commission may have.

Chairman Renfro asked anyone who wished to speak to come forward and do so.

Bill Bricker
505 Westway
Rockwall, TX

Mr. Bricker came forward and stated he represents the Park Place development and is also the President of the HOA for Park Place, although he is not here representing the HOA nor has any input from the HOA, but from a developers standpoint feels the subject property has not been the nicest property for some time and would like to see the best thing at the back entrance to Park Place. Mr. Bricker went on to state he is in favor of proposal feels these townhomes will be fine, and although he had a few concerns initially they have since been addressed. He does not want it to be reverted back to Commercial or Heavy Commercial use if it is approved for change wants it to stay changed. He added that he is in support because he has spent some time looking at these kinds of communities which are all over the metroplex and feels having a component of multi-family when done properly are not only compatible but desirable as well.

Alan Smith
506 Kernoodle Drive
Rockwall, TX

Mr. Smith came forward and stated his opposition to the proposal, he moved to Rockwall for the Old Towne Rockwall. Does not fit the old town Rockwall and does not fit the area. He stated he is in construction and is concerned that what they are showing as proposal is just a photo not the actual plan and feels photos and actual plans are totally different and believes before a decision is made actual documentation needs to be provided.

Chairman Renfro asked staff if plans have been provided. Mr. Gonzales stated that what has been provided and be attached to the ordinance will be the perspective applicant has provided, the anti-monotony will be included in the ordinance to assure that what the applicant is proposing is what will be the final product put on the ground.

Tyler Riddle
307 Park Street
Rockwall, TX

Mr. Riddle came forward and stated his opposition to the proposal. He stated his home was built in 1886 and the reason they bought and moved to Old Towne Historic District is because he knows what he has to go through to do any additions to his personal home which is go through long documentation, and feels that looking at the proposed homes they don't resemble his or

his neighbor's homes within the Historical District, but rather like a Greek development at Texas A&M University. Feels these homes do not add to the feel of keeping Old Towne looking historical but instead making it look modern and does not feel that is a good look to add.

Carol Crow
504 Williams
Rockwall, TX

Ms. Crow came forward and stated her opposition to the request, feels the drawings that were put up of proposal look good considering currently it is an awful looking property but does not conform to the Old Towne Historical District. Ms. Crow stated a year ago there was a proposal for high density townhomes and they had that defeated and is here again with another high density proposal and there is land surrounding the subject property that can keep developing into more high density development if this one is approved.

Jim Buttgen
501 Kernoodle
Rockwall, TX

Mr. Buttgen came forward and stated his opposition for the proposal feels a three story building is not the look the Old Towne community should have as an entrance. He moved into the Old Towne community in 1977 and was one of the first to start restoring the look of the historic district and feels if such homes need to come in possibly should be one story smaller homes but not three stories high densities that would not fit the look he wants to ensure is maintained.

Johnny Johnson
303 N. Clark Street
Rockwall, TX

Mr. Johnson came forward and stated his opposition to the proposal expressed concern of part of the property being on a floodplain. He stated he feels this proposal will impact surrounding school as well as traffic on Clark Street. Mr. Johnson also expressed concern on the removal of trees on the property and would those be replaced.

JoKay Harris Glass
301 Meadowdale
Rockwall, TX

Ms. Glass came forward and stated her family owns the homes from 507-607 S. Clark Street since 1949 and is concerned with flooding issues with an easement she believes should be maintained by the City and currently is not. Chairman Renfro advised Ms. Glass he would try and get those questions answered and referred her to Amy Williams, Assistant City Engineer, who would answer those questions after the meeting. Chairman Renfro asked Ms. Glass for clarification if she was generally opposed or in favor of the proposal. Ms. Glass stated she will be in support if the question of the flooding can be addressed and it wouldn't affect her properties.

Chairman Renfro closed the public hearing and asked the applicant to come forward for rebuttal.

Mr. Wallace came forward and addressed the concern with the water runoff first stating that they are out of the floodplain and any water generated on the property would be detained in a detention pond with slow release and there would not be any additional runoff that would go into the creek to cause problems downstream. Mr. Wallace went on to address the concern in regard to the trees stating that if they are allowed to develop they will have a tree mitigation plan and are retaining all the trees in the back of the property along the creek and the floodplain area as well as roughly 95% of the trees that run along the street.

Chairman Renfro asked staff to explain the tree mitigation plan. Mr. Gonzales reiterated what Mr. Wallace spoke of concerning not building on the floodplain stating there will be no construction on the floodplain and if proposal is approved it would go through site planning and during that phase staff would address the tree mitigation plan. Essentially what that involves is if any hardwoods are removed those are replaced inch per inch and anything that is oak, pecan or elm over a caliper size are replaced at two times the amount this alleviates the removal of some of

the larger trees, however there are standards in the ordinance that include additional landscape if the proposal is approved.

Mr. Wallace also added with concerns stated with proposal being the gateway to Old Towne stating that the subject property is zoned currently Heavy Commercial and allows a tremendous amount of uses that could be much less desirable than eleven townhome units and feels this proposal would be a good transitional project and much more pleasing than some of the heavy commercial uses.

Chairman Renfro closed the public hearing. After doing so a question arose from a citizen in attendance and Chairman Renfro asked for direction from staff as to what to do. Planning Director Ryan Miller advised Chairman Renfro it was at his discretion if he wished to allow question to be heard and allow the applicant to rebut. Chairman Renfro asked the citizen to come forward.

Whitney Abbott
619 Renfro
Rockwall, TX

Ms. Abbott came forward and asked what other possible uses applicant would consider implementing since it is already zoned Heavy Commercial if proposal is denied, would it be storage units or something similar.

Chairman Renfro asked staff to briefly explain what other uses fall into Heavy Commercial to show what an alternative may be.

Mr. Gonzales stated a Heavy Commercial is a more intense use, higher traffic, more noise, more vibration, odors things like that depending on the use that is there. It could be used for rental equipment, as an example the bus barn that is across the street would be one possible use. Mr. Gonzales added that a list of what uses Heavy Commercial allows is available online.

Chairman Renfro asked for the Engineering staff to answer the questions that arose concerning the grading and the floodplain.

Assistant Engineer, Amy Williams, explained that they will be required for detention and everything will be detained back to an existing residential condition and there will not be an increase in the floodplain in elevation or in the flow it will stay exactly the same and they are out of the floodplain and are not allowed to be in there without a study to prove differently. Ms. Williams added that she would be available to talk to Ms. Glass after the meeting with any other question.

Commissioner Whitley asked since subject property is already zoned for Heavy Commercial does that mean that whatever property owner wants to put in there for example a storage building, can be done without having to come before the Planning and Zoning Commission or City Council. Mr. Gonzales stated since the property is zoned Heavy Commercial there are uses by right that the applicant does have available to them but within that PD there are only a handful that are not allowed, but the majority of the uses are allowed by right.

Mr. Miller added that the current PD is Heavy Commercial with additional uses meaning that not only is it allowed to have all the uses Heavy Commercial currently does, but there are additional uses that were earmarked for these particular properties that are above and beyond what Heavy Commercial allows.

Commissioner Trowbridge asked if it would primarily be single family restrictions that would be required if it was a single family development there with the exception of height and specific densities. Mr. Gonzales stated that in a typical residential zoning district the height is 36 feet and in this case the maximum height is 39 feet. Commissioner Trowbridge asked concerning the masonry requirements. Mr. Gonzales stated in the general residential districts it's 80% but it in this case it is 90% masonry required because of the representation that they had for the townhomes it is allowed to have up to 70% hardy plank or some kind of cementous material that would be like a neo traditional design therefore there is some variation in material that will allow individuality to be shown.

Commissioner Trowbridge asked for explanation of how percentages of material applied to what applicant is asking.

Mr. Miller added that variances have been approved in this area and the Old Town area for up to 100% cementous product because the lap siding is more indicative of the existing product in these areas therefore limiting it to 70% is just allowing the applicant to do more than what is typically allow in some of the more traditional housing areas where only 50% is allowed. Mr. Miller went on to state that the Commission does have the discretion to make a recommendation to increase the percentage if the Commission chooses to approve the proposal.

Chairman Renfro asked for any further discussion or motions from the Commission.

Chairman Renfro made motion to approve the item with staff recommendations. Commissioner Fishman seconded the motion which passed by a vote of 4-2 with Commissioners Whitley and Trowbridge dissenting and Commissioner Logan absent.

IV. DISCUSSION ITEMS

9. Z2016-019

Hold a public hearing to discuss and consider a request by Miller Sylvan of JPI on behalf of the owner Gene Lambreth of Pneuma Ventures, LTD for the approval of a zoning change from a Light Industrial (LI) District to a Planned Development District for a multi-family apartment complex on a 42.50-acre tract of land identified as Tract 1-4 of the J. M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-205 By-Pass Overlay (205 BY-OV) District, located east of the intersection of Discovery Boulevard and John King Boulevard, and take any action necessary.

Planning Director, Ryan Miller, stated applicant is present and available for questions.

Matt Brendall
600 E. Las Colinas Blvd.
Irving, TX

Mr. Brendall came forward and gave a brief explanation of the proposal by providing a power point which highlighted the background of JPI as well as main points of the proposal which included that JPI is locally headquartered in DFW in Irving and have been there for over 25 years, and are a fully integrated real estate team which only do luxury multi-family developments. One of the unique aspects of the organization is that they have their own in house construction group which allows for them to be involved throughout the design process and also allows helps control the quality of what is built to a higher degree.

Mr. Brendall expanded on the request stating that one of the things that make their product different from what is currently on the market is the high level of services that are on site such as double the typical amenity space, they deliver about 12,000 feet of amenity spaces and in addition to that, a management team would live on site to help establish a real community feel. Average rent will be $1500. The power point went on to show similar developments JPI has built. Mr. Brendall then turned the presentation over to Mr. Miller Sylvan to discuss the specific site.

Miller Sylvan
600 E. Las Colinas Blvd.
Irving, TX

Mr. Sylvan came forward and gave brief explanation of the concept site plan of the proposal by providing a power point that included a conceptual plan that shows what is being proposed is two phases of multi-family, with each phase consisting of 3 story 360 units which will consist of 60% one bedrooms, 35% two bedrooms, and 5% three bedrooms with 20 to 30% of the units having tuck under private garages. Each phase will have a clubhouse which will be 8 to 10,000 square feet and include a fitness center, Wi-Fi lounge, coffee bar, billiards room, and a theater area. Each unit will have its own balcony, 10 foot high ceilings, stainless steel appliances, granite countertops as well as washer and dryer not just the connections.

Mr. Sylvan stated they have reached out to Lofland Farms and Meadow Creek communities which are south of the property and will be meeting with them in the next week to get feedback from them.

Mr. Miller stated staff provided a draft ordinance in the packet for the Commission to review that contains some of the things that the applicant has identified as zoning requirements as well as some of the City's standards and will bring the Commission something more finalized as the applicant finalizes the concept plan. If approved it will have to go through site plan and at that time it will go through the Parks Board for recommendation to City Council.

Chairman Renfro asked for discussion or questions for staff.

Commissioner Trowbridge asked if tucked under garages would have direct access to the units or to common areas and if hallways are open or air conditioned. Mr. Sylvan stated they would direct to common areas and hallways are open with no air condition.

Commissioner Trowbridge asked if JPI was typically a build and sell or build and hold. Mr. Sylvan stated it depended on the partner that they have, have done it both ways but more recently they have built leased up and sold however they pride themselves in being great developers and builders very good at leasing up properties and whatever management companies that manage before selling will manage it for the buyer, in the last few years with the market as it has been they have leased up and sold, but uncertain for this one will be sold.

Chairman Renfro asked why Rockwall was chosen for this proposal. Mr. Sylvan stated there is a lot of demand in Rockwall and believes what they are proposing is a high end community, high end product that will fit in Rockwall that is an affluent community with empty nesters, young professionals and such that are looking for such product.

Chairman Renfro asked concerning rent survey, if JPI felt that they may be pushing the envelope with the rent they are asking or do they think they are at or below market. Mr. Sylvan stated they typically are pushing the envelope because for what they build they are typically ten to fifteen cents per foot higher than what the next highest community would command but due to the fact they provide more services and amenities than other developments it has proven successful to do so because people are willing to pay for those services and amenities.

Chairman Renfro asked if they had done their due diligence with the Harbor PD-32 as there are 1,072 units that are slated to come in. Mr. Sylvan stated they have but feel this is a different part of town with a different product line.

Chairman Renfro asked what percentage of 1 bedrooms and what square footage they are. Mr. Sylvan stated 1 bedroom are going to take 60% and start at about 650 square feet and go up to 1,100 square feet with the 2 bedroom going to 1,700 square feet. Currently the unit mix is showing 1,000 square foot average and are in the process of doing a deep dive into the market by looking at all the unit types to define where the demand is, but will define that as the process moves forward.

Commissioner Trowbridge asked if the 60% one bedrooms is based on what is thought to be the demand Rockwall demographic supports. Mr. Sylvan stated it was, but currently waiting on the market study which will help refine and it may show that number needs to be bumped up and they will determine that once they analyze it when it they get it in, in a couple of weeks and will provide a copy to the Commission for them to review it as well.

General discussion took place concerning lot mix and density of surrounding areas.

There being no further questions, Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

10. Z2016-022

Hold a public hearing to discuss and consider a request by Mark W. Pross of Pross Design Group, Inc. on behalf of Robert Reece of SPR Packaging, LLC for the approval of a Specific Use Permit (SUP) to allow for a structure that exceeds 60-feet in height in a Light Industrial (LI) District in conjunction with an existing manufacturing facility situated on 10.1893-acre parcel of land identified as Lot 2, Block A, SPR

Packaging Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1480 Justin Road, and take any action necessary

Senior Planner, David Gonzales, gave brief explanation of request stating applicant is requesting an SUP to allow for an extension on to their existing building which is located at the intersection of Justin Road and Industrial Blvd. They are proposing to install three high bay extensions which will be pre-engineered metal panels that will connect. The code requires an SUP for anything that is over 60 feet, after the expansion they will be at 70 feet.

Mr. Gonzales stated applicant was not present but staff is available for questions.

Chairman Renfro asked if

Commissioner McCutcheon asked if there was any direction the Commission could direct applicant to require the addition to blend in the building more as it appears what is being proposed does not fit existing buildings look. Mr. Gonzales stated it was his understanding that in 2006 it was a planned expansion and therefore that area that they are connecting to that is made for it to go up to allow for the expansion.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

Chairman Renfro called a ten minute recess at 7:35 p.m.

Chairman Renfro called the meeting back to order at 7:47 p.m.

11. Z2016-024
Hold a public hearing to discuss and consider a request by Kyle Vrla of Dynamic Engineering Consultants, PC on behalf of the owner Wilson Osee of Osee Properties, LLC for the approval of a zoning change from a Commercial (C) District to a Heavy Commercial (HC) District for a 6.588-acre portion of a larger 24.818-acre tract of land identified as Tract 3-13 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, located south of the intersection of Sids Road and SH-205 [*S. Goliad Street*], and take any action necessary.

Planner, Korey Brooks, asked applicant to come forward and present the case.

Josh Edge
1301 Central Expressway South
Allen, TX

Mr. Edge came forward and stated he represents Dynamic Engineer and gave brief explanation of request stating currently subject property is undeveloped land and while they do represent the owner of the land it is Group One Automotive who represents Rockwall Ford who have a facility off of IH-30. The site is intended to be Rockwall Fords body shop facility; they will take the current body shop facility and move it to subject property to free up more space. The intent of the body and collision facility is not for public access and will be a secured and gated.

Chairman Renfro asked staff to provide a closer look of the map to show exact location to be able to determine if it falls within the 205 Overlay, and if it does what requirements will the applicant have to adhere to.

Mr. Edge added that they will have architectural features to the building to fit the 205 Overlay and fully anticipate meeting all requirements.

Mr. Brooks displayed the map and stated that the Future Land Use map does designate the area as Commercial or Industrial which is defined as intensive commercial industrial uses with large volume traffic therefore the proposed change of zoning does conform to the Future Land Use map.

Mr. Miller added that the requirements for the 205 Overlay are those of a typical overlay which will require a natural stone at 20%, four sided architectural features, 90% masonry, typical requirements that come in at the site plan stage.

Commissioner Lyons asked if all body work would be done indoors. Mr. Edge stated that was correct, all work will be done indoors.

Commissioner McCutcheon asked what type of screening would be provided. Mr. Edge stated they are open to what the Commission recommends, what is currently being discussed is a metal rod iron gate and increasing the landscaping in the front of the building to provide the screening requirements.

Commissioner McCutcheon asked if work would be done with doors open or closed as it may be a concern with the noise. Mr. Edge stated he did not have the answer to that, but would find out and answer the question at the next meeting.

Mr. Miller added that the public hearing for this case will be held the 9th of August.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

12. Z2016-025

Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Interior Subdistrict*, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [*FM-3097*] and Summer Lee Drive, and take any action necessary.

Planning Director, Ryan Miller, asked applicant to come forward and present the case.

J**ason Lentz**
5339 Alpha Road
Dallas, TX

Mr. Leitz came forward and stated he is the Senior Vice President of Development with Atticus Real Estate Services and would be giving a gave brief explanation of request and provided renderings to display. The request is for a 245 unit condo multi-family development in PD-32 consisting of efficiencies, one bedroom, and two bedroom units in a four story elevatored building that will be a wrap product that surrounds a garage in the middle. The unit mix will consist of 8% efficiency units, 60% one bedroom units, and 33% two bedroom two bath units, and no three bedroom units in this product. Will have five story parking structure it is anticipated to have amenity space including a pool on top of the deck that will serve the entire condo project.

Mr. Miller added that as it has been discussed in previous meeting Planned Development 32 is a unique PD in that it involves many different stake holders, several sub districts, all of which have their own uses and their own development challenges as well as their own development standards. This particular property is part of the interior sub district which allows by right the units, and the way the units were made for the entire PD-32 is creating a pool in all of the sub districts of 1162 units and as the developments come in they claim a certain number of those units. According to the Concept Plan, the interior sub district was intended to have apartments in this manner. What is kicking in what is called the PD Development Plan in this case is an interim between zoning because they already have entitlement for the use itself, but in between zoning and site plan, there is the PD Development Plan which gives the Commission discretionary approval, and staff notifies everybody within the property to check for conformance to the Plan. In this case, the use is permitted therefore the intent of the sub district is not being changed, but what is kicking in the Planned Development Plan is simply the roadway that's running which will be changed to a public roadway and that will connect thru, whereas currently there is a gap between property lines. In the Plan it is supposed to be a public roadway, but they are asking to basically to change the street cross section. The cross section

in the Plan calls for parallel parking along the side of the condominium buildings and they are requesting not to put in the parallel parking, just the two lanes of traffic.

Mr. Miller went on to add that by allowing that, it actually does match what the City will be doing with the entry way onto Ridge Road. The applicant will need to present the cross section to the Commission at the next meeting and that will be part of the ordinance and staff will also provide a checklist of how it would conform to the overall PD.

Chairman Renfro asked the applicant what their definition of condo was if they are going to be sold. Mr. Lentz stated they will have condo docs in place but although they are 245 individual units they can be owned by one owner and sublet to individual tenants. Mr. Miller added that what made them condos was that every unit is required to be individually metered.

Commissioner Trowbridge asked if it was a for sale condominium project and would it be operated as multi-family. Mr. Lentz stated it was their plan not to immediately offer it for sale and it would be operated as multi-family and added that they are a long term holder.

Commissioner Trowbridge asked if they have done such projects in the past and where. Mr. Lentz stated they have but would refer that question to Mark Humphreys who is the CEO of Atticus and Humphreys Architects.

Chairman Renfro asked concerning how many 485 square foot units there would be. Mr. Lentz stated there would be 20 of the 245 units that would be 485 square feet. Chairman Renfro asked what the following size is. Mr. Lentz stated thee would be 97 616 square feet one bedroom units with the 485 square feet units being efficiencies. Chairman Renfro asked if the majority would then be one bedroom units. Mr. Lentz stated that was correct.

Chairman Renfro asked where the parking would be. Mr. Lentz stated parking would be located at the parking deck in the interior of the building.

Chairman Renfro asked staff if there was a road that came out to Summer Lee to Ridge Road. Mr. Miller stated there is a roadway that extends around the building and their portion of it on their property extends from Summer Lee to the back southwest corner of the property, they also show the townhome development to the south and in between those two properties there is a property line that follows the roadway and that roadway will extend to their property line and eventually connect to a road system that will take that out to Ridge Road.

Chairman Renfro asked how that roadway would get to Ridge Road. Mr. Miller stated the adjacent property will have a responsibility to build that portion of the roadway to the Hughes property and then the Hughes property to Ridge Road and a portion of it goes thru Glen Hill Way Road right of way.

Commissioner Lyons asked concerning the lot mix, what is done to anticipate the need for the one bedroom and two bedroom units and no three bedroom units. Mr. Lentz stated they will conduct a market study.

Chairman Renfro asked made comment that looking at the Comprehensive Plan, the request is asking for 245 units and what is allocated for that and is 315 currently. Mr. Miller stated there are 1162 units permitted within PD-32, currently Marina Village claimed 399 of those, and the Summer Lee Condominiums which is directly west of this property and belongs to the same interior sub district, claimed 265, but there is no allocation within the sub district itself.

General discussion took place concerning the allocation of the 1162 total units within the PD-32 and how it is broken down.

Commissioner Trowbridge asked if the hallways would be closed and air conditioned. Mr. Lentz stated they would be closed and air conditioned.

Mr. Miller added that the public hearing for this case will be held the 9th of August.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

13. Z2016-026

Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Residential Subdistrict* and within the Scenic Overlay (SOV) District, located north of the intersection of Ridge Road [*FM-740*] and Glen Hill Way, and take any action necessary.

Planning Director, Ryan Miller, asked applicant to discuss the case.

Jason Lentz
5339 Alpha Road
Dallas, TX

Mr. Lentz gave brief explanation of request stating the concept plan currently shows zero lot line homes but the vision is to change that to an attached townhome concept, 36 with an average unit size of 1900 square feet with 1/1/ units going all the way up to 3/2 units. They have done a project similar to what is being proposed in Richardson with part of it being for sale product and some of it was a rental product and have seen success in such projects. Mr. Lentz provided elevations of the townhome product.

Chairman Renfro asked if it will be lease and hold and also sell. Mr. Lentz stated that the plan is for it to be a for sale product.

Mr. Miller added that this is not part of the interior sub district but rather enters into what is called the residential sub district which was intended to be 49 single family zero lot line homes. The use chart allows townhomes by specific use permit, but in order to get the townhomes the intent of the sub district needs to be changed. By going through the PD Development Plan to change the intent of the sub district they are essentially getting the discretionary approval that they need to move forward and therefor will only need to go thru a PD Development Plan.

Mr. Miller went on to add that going back to the 1162 units, the 49 single family zero lot line homes were not a part of the 1162 pool and therefor this would subtract 36 units from the 1162 because it would be changing it from the zero lot line homes product to the townhome product.

Commissioner Trowbridge asked how many of the 1/1 units would there be. Mr. Lentz stated there would be nine of those which will be 1600 square feet.

Mr. Miller added that the public hearing for this case will also be held the 9th of August.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

14. Z2016-027

Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 2.1, *Agriculture (AG) District*; Section 3.3, *Single-Family Residential (SF-16)* District; and Section 3.4, *Single-Family Residential (SF-10) District*, of Article V, *District Development Standards*, of the Unified Development Code for the purpose of increasing the minimum square footage per dwelling unit in these zoning districts, and take any action necessary.

Planning Director, Ryan Miller, gave brief explanation of item stating that on the July 5 City Council meeting after a work session was done at a previous meeting, City Council directed staff to propose a text amendment that would increase some of the minimum square footage sizes of single family home requirements in certain districts, specifically they were looking at the Single Family 10 and the Single Family 16 Districts. What was discussed was that a lot of the PD's have come thru and there were questions as to whether the housing size being required was large enough, but did give staff some clear direction in that they wanted staff to stipulate a Single Family 16, which is a 16,000 square foot lot as having a minimum of 2,400 square foot home and

the Single Family 10 District which has a 10,000 minimum foot square lot to have a minimum 2,200 square foot home.

Mr. Miller further explained that staff brought up the issue with the Agricultural District in the work session, that currently there is no minimum housing size in the Agricultural District and that has presented some issues in the past when people inquire what the minimum size is, therefore staff suggested that they stipulate of minimum size for that District as well and they did direct staff to prepare the text amendment with a 1,600 square foot minimum for that District.

Mr. Miller went on to explain that staff cataloged comparable city's zoning districts, and because everyone calls zoning districts something different and they all have different standards, it was done by minimum lot size and then charted what other cities minimum single family dwelling size was for each of those districts and put together a chart that shows what that was and then put together an average median and mode to show what those numbers are, and that is how staff derived some of the square footages that are being proposed. Mr. Miller added that staff also provided the Commission with a density and dimensional chart that show a breakdown of all of the single family requirements and how the changes being proposed would look in a side by side comparison of other single family residential districts.

Mr. Miller stated this is a discussion period to answer any questions and item will be coming back for a Public Hearing on the 9th of August.

Commissioner Trowbridge asked if by raising the minimums house sizes, would that make the floor density higher. Mr. Miller stated that the density is derived by the minimum lot size therefore a density of two units per acre isn't going to changed based on the size of the house.

Mr. Miller added that what is being proposed does fit within the City's current guidelines which is a 65% lot coverage in most districts and most of the building permits that have come in have been, even on a 10,00 square foot lot, 2,200 square feet or larger very few have been built under the 2,200.

Commissioner McCutcheon asked if this is approved, how would it affect if a new construction would take place in an existing older neighborhood where a 2,200 square foot house would not fit with the existing look would there be a way around it. Mr. Miller stated the majority of the older areas in the City are zoned Single Family 7 and Single Family 10 and therefor only apply to a portion of them.

Mr. Miller added that to point out to Commissioner Trowbridge's point that looking at the various comparable cities, there are two strategies on minimum housing sizes, they're stipulating exact sizes, which the vast majority of cities do, and then there are some like Frisco that do a straight 800 across the board and let the developer, but what is being seen recently is more PD's come in and PD's end up creating their own zoning in a sense and they stipulate their own density and dimensional requirements. What staff uses the base zoning is to act as a guideline to present those standards at the onset of when the PD is being put together and give something to build from for the developer.

Commissioner McCutcheon expressed concern as to how this would affect those not in a PD but that are in the older areas that fall in Single Family 10 District.

Commissioner Lyons asked if it would only affect someone that may tear down an existing home and build a new one they would have to comply with the new minimum standard. Mr. Miller stated that was correct, if it was in a Single Family 10 District.

Chairman Renfro asked staff for clarification as to what Council is trying to accomplish with this amendment. Mr. Miller stated that it may be that due to the current market the City's housing size may be a bit small, the Single Family 10 is currently at 1,800 square feet and they are looking to adjust that to what they feel the direction of the City is calling for.

Commissioner Lyons asked what staffs findings were in the analysis conducted as far as comparing Rockwall to other cities, is the city on the low or high end. Mr. Miller stated Rockwall was a little above the middle to mid-high end.

Commissioner Lyons asked if the Commission could make their own recommendations if they felt 2,200 was too large. Mr. Miller stated that was correct, the Commission can pass along a different recommendation than what is being proposed.

Commissioner Whitley asked what the average size house that is being built in the last two or three years in this size lots, and is the proposal in alignment to what the market is bearing in Rockwall. Mr. Miller stated he did not have that information at hand, but would at the next meeting bring some hard numbers of what in the last couple of years what the average permit sizes are in certain districts as well as providing additional information concerning building permits issued.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

15. SP2016-015

Discuss and consider a request by Jerry Monk of Monk Consulting on behalf of Dr. Steve Arze of Zaph & Ath Properties, LLC for the approval of a site plan for an indoor recreation facility on a 4.88-acre tract of land identified as Tract 4-01 of the N. Butler Survey, Abstract No. 20, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located north of the intersection of Industrial Boulevard and Airport Road, and take any action necessary.

Senior Planner, David Gonzales, gave brief explanation of request stating the property is located across the street from Tuttle Field at the intersection of Airport and Industrial Blvd. This is a site plan where what will be looked at is the photometric plan, building elevations and landscape plan once those come and comments were submitted to the applicant and they have taken care of most of them, but there was one question that will need to be answered by the applicant and that is how the lot lays out, and if it is going to be a phasing plan involved with that or will there be some flag lots because where the lot is located and the other two lots that are there subject property being in the center lot and with one lot behind it, there is no frontage; therefore if there is a phasing plan it would not be a problem but if they are individually owned then frontage will be needed and until that question is resolved may see something different come back. Aside from that, they are minimum amounts of technical items that are required by the applicant to build and the only other thing would be the building elevations where there are several materials that they are using primarily being metal and that is going to take a recommendation from the Planning and Zoning Commission as well as City Council for an exception to the material standards.

Mr. Gonzales stated that the applicant was not present but staff is available for any questions.

Commissioner Lyons asked if this is the same facility as the baseball project that was brought to the Commission a few months back. Mr. Gonzales stated this is a separate project the baseball facility is east of this.

Commissioner Lyons asked what kind of facility this would be. Mr. Gonzales stated it was his understanding that it is going to be a climbing fitness type facility with zip lines and climbing walls and will also have a fencing academy.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

16. Director's Report of post Council meeting outcomes of Planning & Zoning cases.

- ✓ Z2016-017: Text Amendment for Used Motor Vehicle Sales (*2nd Reading*) [*Denied*]
- ✓ Z2016-018: Amendment to Planned Development District 74 (PD-74) (*2nd Reading*) [*Approved*]
- ✓ SP2016-014: Variances for Platinum Self Storage Site Plan [*Approved*]

Planning Director, Ryan Miller, provided a brief update about the outcome of the above referenced case at the City Council meeting. No discussion took place concerning this agenda item.

V. ADJOURNMENT

The meeting adjourned at 8:53 p.m.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2016.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 08/09/2016

APPLICANT: Pat Atkins, *Saddle Star Land Development, Inc.*

AGENDA ITEM: **P2016-023**; *Master Plat for Saddle Star Estates South*

SUMMARY:

Discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (*R. & R. Hance Investments, LP*) for the approval of a master plat/open space plan for the Saddle Star South Subdivision containing 138 single-family residential lots on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of Featherstone Drive John King Boulevard, and take any action necessary.

MASTER PLAT INFORMATION:

- ✓ The Saddle Star South Subdivision is a two (2) phase, master planned community that will be composed of 138 single-family, residential lots on approximately 55.413-acres land. The 138 single-family lots will be a minimum of 70' x 125' lots (*or a minimum of 8,750 SF*), and the development will have a gross residential density of 2.49 units per acre. Additionally, the plan will consist of 12.48-acres of open space (*or ~22.52% of total land area*). A summary of the proposed density and dimensional requirements is as follows:

Table 1: Density and Dimensional Requirements

Minimum Lot Width	70'
Minimum Lot Depth	125'
Minimum Lot Area	8,750 SF
Minimum Front Yard Setback	20'
Minimum Side Yard Setback	5'
Minimum Side Yard Setback (Adjacent to a Street)	10'
Minimum Length of Driveway Pavement	25'
Maximum Height	30'
Minimum Rear Yard Setback	20'
Minimum Area/Dwelling Unit (SF)	2,700 SF
Maximum Lot Coverage	65%
Permitted Encroachment into Required Setbacks	Allowed

- ✓ The purpose of the applicant's request is to provide a master plat that will delineate the sequence and timing of the development and an open space plan that will layout the proposed trails, parkland and amenities center for the subdivision. According to the master plat, this development will involve two (2) phases with Phase 1 containing 86 lots and Phase 2 containing 52 lots. Additionally, the development will incorporate a total of 12.48-acres of non-contiguous open space that will be connected via a trail that runs throughout the development. On the linear greenbelt situated at the center of the development the applicant is showing the construction of a clubhouse/pool area and a community garden. This will be constructed with Phase 2 of the subdivision.

- ✓ The proposed *master plat* generally conforms to the revised concept plan approved with Planned Development District 79 (PD-79) by the City Council on June 6, 2016 under *Case No. Z2016-015* [*Ordinance No. 16-39*].

- ✓ On June 7, 2016 the Parks Board reviewed the proposed master plat/open space master plan and approved a motion to recommend approval of the master plat/open space master plan with the following conditions of approval:

  1) The proposed open space be maintained by the Homeowner's Association (HOA) as a private park.
  2) The proposed trail system be maintained by the HOA as a private trail system.

  This motion passed by a vote of 6-0.

- ✓ Conditional approval of this *master plat* by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the *master plat/open space master plan* for the *Saddle Star South Subdivision* staff would recommend the following conditions:

1) The *master plat* shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments;

2) The applicant shall adhere to the recommendations made by the Parks Board (*stated above*);

3) Any construction resulting from the approval of this *master plat* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

P2016-023 Master Plat for Saddle Star Estates South: Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request for the approval of a master plat/open space plan for the Saddle Star South Subdivision containing 138 single-family residential lots on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, and located on the north side of John King Boulevard east of the intersection of Featherstone Drive John King Boulevard.
I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 For reference include the case number (P2016-023) in the lower right hand corner of all pages on future submittals.
I.4 The Parks Board Meeting for this case will be held on June 7, 2016 at 6:00 PM in the City Council Chambers. Please contact Andy Hesser in the Parks Department, to confirm any additional requirements for this case, at (972) 772-6457.
I.5 The Planning & Zoning Work Session for this case will be held on May 31, 2016 at 6:00 PM in the City Council Chambers.
I.6 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on June 7, 2016; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the June 14, 2016 Planning & Zoning Meeting.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 08/09/2016

APPLICANT: Pat Atkins, *Saddle Star Land Development, Inc.*

AGENDA ITEM: **P2016-024**; *Preliminary Plat for Saddle Star Estates South*

SUMMARY:

Discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (*R. & R. Hance Investments, LP*) for the approval of a preliminary plat for the Saddle Star South Subdivision containing 138 single-family residential lots on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of Featherstone Drive John King Boulevard, and take any action necessary.

PRELIMINARY PLAT INFORMATION:

- ✓ The Saddle Star South Subdivision is a two (2) phase, master planned community that will be composed of 138 single-family, residential lots on approximately 55.413-acres land. The 138 single-family lots will be a minimum of 70' x 125' lots (*or a minimum of 8,750 SF*), and the development will have a gross residential density of 2.49 units per acre. Additionally, the plan will consist of 12.48-acres of open space (*or ~22.52% of total land area*). A summary of the proposed density and dimensional requirements is as follows:

Table 1: Density and Dimensional Requirements

Minimum Lot Width	70'
Minimum Lot Depth	125'
Minimum Lot Area	8,750 SF
Minimum Front Yard Setback	20'
Minimum Side Yard Setback	5'
Minimum Side Yard Setback (Adjacent to a Street)	10'
Minimum Length of Driveway Pavement	25'
Maximum Height	30'
Minimum Rear Yard Setback	20'
Minimum Area/Dwelling Unit (SF)	2,700 SF
Maximum Lot Coverage	65%
Permitted Encroachment into Required Setbacks	Allowed

- ✓ The purpose of the applicant's submittal is to *preliminary plat Phases 1 & 2* of the *Saddle Star South Subdivision*. According to the *preliminary plat*, this development will consist of 138 single-family residential lots in two (2) phases, with *Phase 1* containing 86 lots and *Phase 2* containing 52 lots. Additionally, the development will incorporate a total of 12.48-acres of non-contiguous open space that will be connected via a trail that runs throughout the development. On the linear greenbelt situated at the center of the development, the applicant is showing the construction of a clubhouse/pool area and a community garden. This will be constructed with Phase 2 of the subdivision.

- ✓ The proposed *preliminary plat* generally conforms to the revised concept plan approved with Planned Development District 79 (PD-79) by the City Council on June 6, 2016 under *Case No. Z2016-015* [*Ordinance No. 16-39*].

- ✓ On June 7, 2016 the Parks Board reviewed the proposed master plat and approved a motion to recommend approval of the master plat with the following conditions of approval:

    1) That pro-rata equipment fees of $59,064.00 (*i.e. 138 lots @ $428.00 per lot*) and cash-in-lieu of land fees of $42,090.00 (*i.e. 138 lots @ $305.00 per lot_*) -- *for a total of $101,154.00* -- shall be used to provide private amenities to the 6.846-acre open space situated at the center of the development.

    This motion passed by a vote of 6-0.

- ✓ The Surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for *preliminary plats* as stated in the *Subdivision Ordinance* in the *Municipal Code of Ordinances*, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ✓ Conditional approval of this *preliminary plat* by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the *preliminary plat* for *Phase 1 & 2* of the *Saddle Star South Subdivision* staff would recommend the following conditions of approval:

1) The *preliminary plat* shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments;

2) The applicant shall adhere to the recommendations made by the Parks Board (*stated above*);

3) Any construction resulting from the approval of this *preliminary plat* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Engineering Comments on plat.
Impact fees
4% engineering fees
Need to show NTMWD easement
10' utility easement along the fronts of all lots
Need to bulb out the turn at Rockin H Trail
Need street name between Rockin H Trail and Twin Hills Lane
Need to show and label detention/drainage easement
Show 20' easement along John King for 16" water line
Keep the 16" water line close to the right-of-way on the north side
The 16" water line along John King must tie to the existing 20" water line
Find out if there is anything in the Mt. Zion easement...may can abandon it
Sanitary sewer isn't in the middle of the street. It should be in the parkway
Storm sewer in the middle of the street
Pro-rata on the Stoney Hollow lift station ($345.75/acre)
Need to tie the 16" water line to the existing 12" water line in Quail Run
If 138 lots sewer to Stoney Hollow lift station without any upgrades to the lift station there will not be any capacity for Saddlestar North. The ultimate Stoney Hollow lift station only has capacity for a maximum of 139 lots.
Not lot to lot drainage allowed (see markup)
Drain all on the eastern property line toward the street (see markup)
Existing inlet in John King is not designed for site drainage (see markup)
Make sure you follow the existing drainage map in the John King plans.

(5/19/2016 12:13 PM LS)

1. Please submit cad file (dwg) of the proposed lots and road centerlines for addressing.
2. Tie two corners to NAD83 State Plane Coordinate System (NCTX4202). Also submit survey closure report.
3. Change the street name RANDAS WAY DR to just RANDAS WAY. We do not allow double suffixes.
4. Add letter G to Rockin for Rocking H Trail. (reduces potential for confusion)
5. Change Brandens Dr to Brandens Way. (We have a conflict with a Royse City street).
6. Macys Cir needs to be broke down into 3 different street names.

We do not allow two identical intersection names. The remainingMacys Cir can become Macys Dr.

P2016-024 (Saddle Star Estates South): Please address the following comments (M=Mandatory Comments; I=Informational Comments).

I.1 This is a request for the approval of a preliminary plat for the Saddle Star South Subdivision containing 138 single-family residential lots on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, and located on the north side of John King Boulevard east of the intersection of Featherstone Drive John King Boulevard.

I.2 For questions or comments concerning this case, please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.

M.3 For reference, include the case number (P2016-024) in the lower right hand corner of all pages on future submittals.

M.4 Provide staff with the "Subdivider's Statement." According to the Municipal Code of Ordinances a Preliminary Plat "… shall be accompanied by a written statement [Subdivider's Statement], signed by the subdivider stating the developer will comply with all the city requirements in the proposed subdivision and all such proposals shall conform to or exceed the standards for such improvements prescribed by the city."

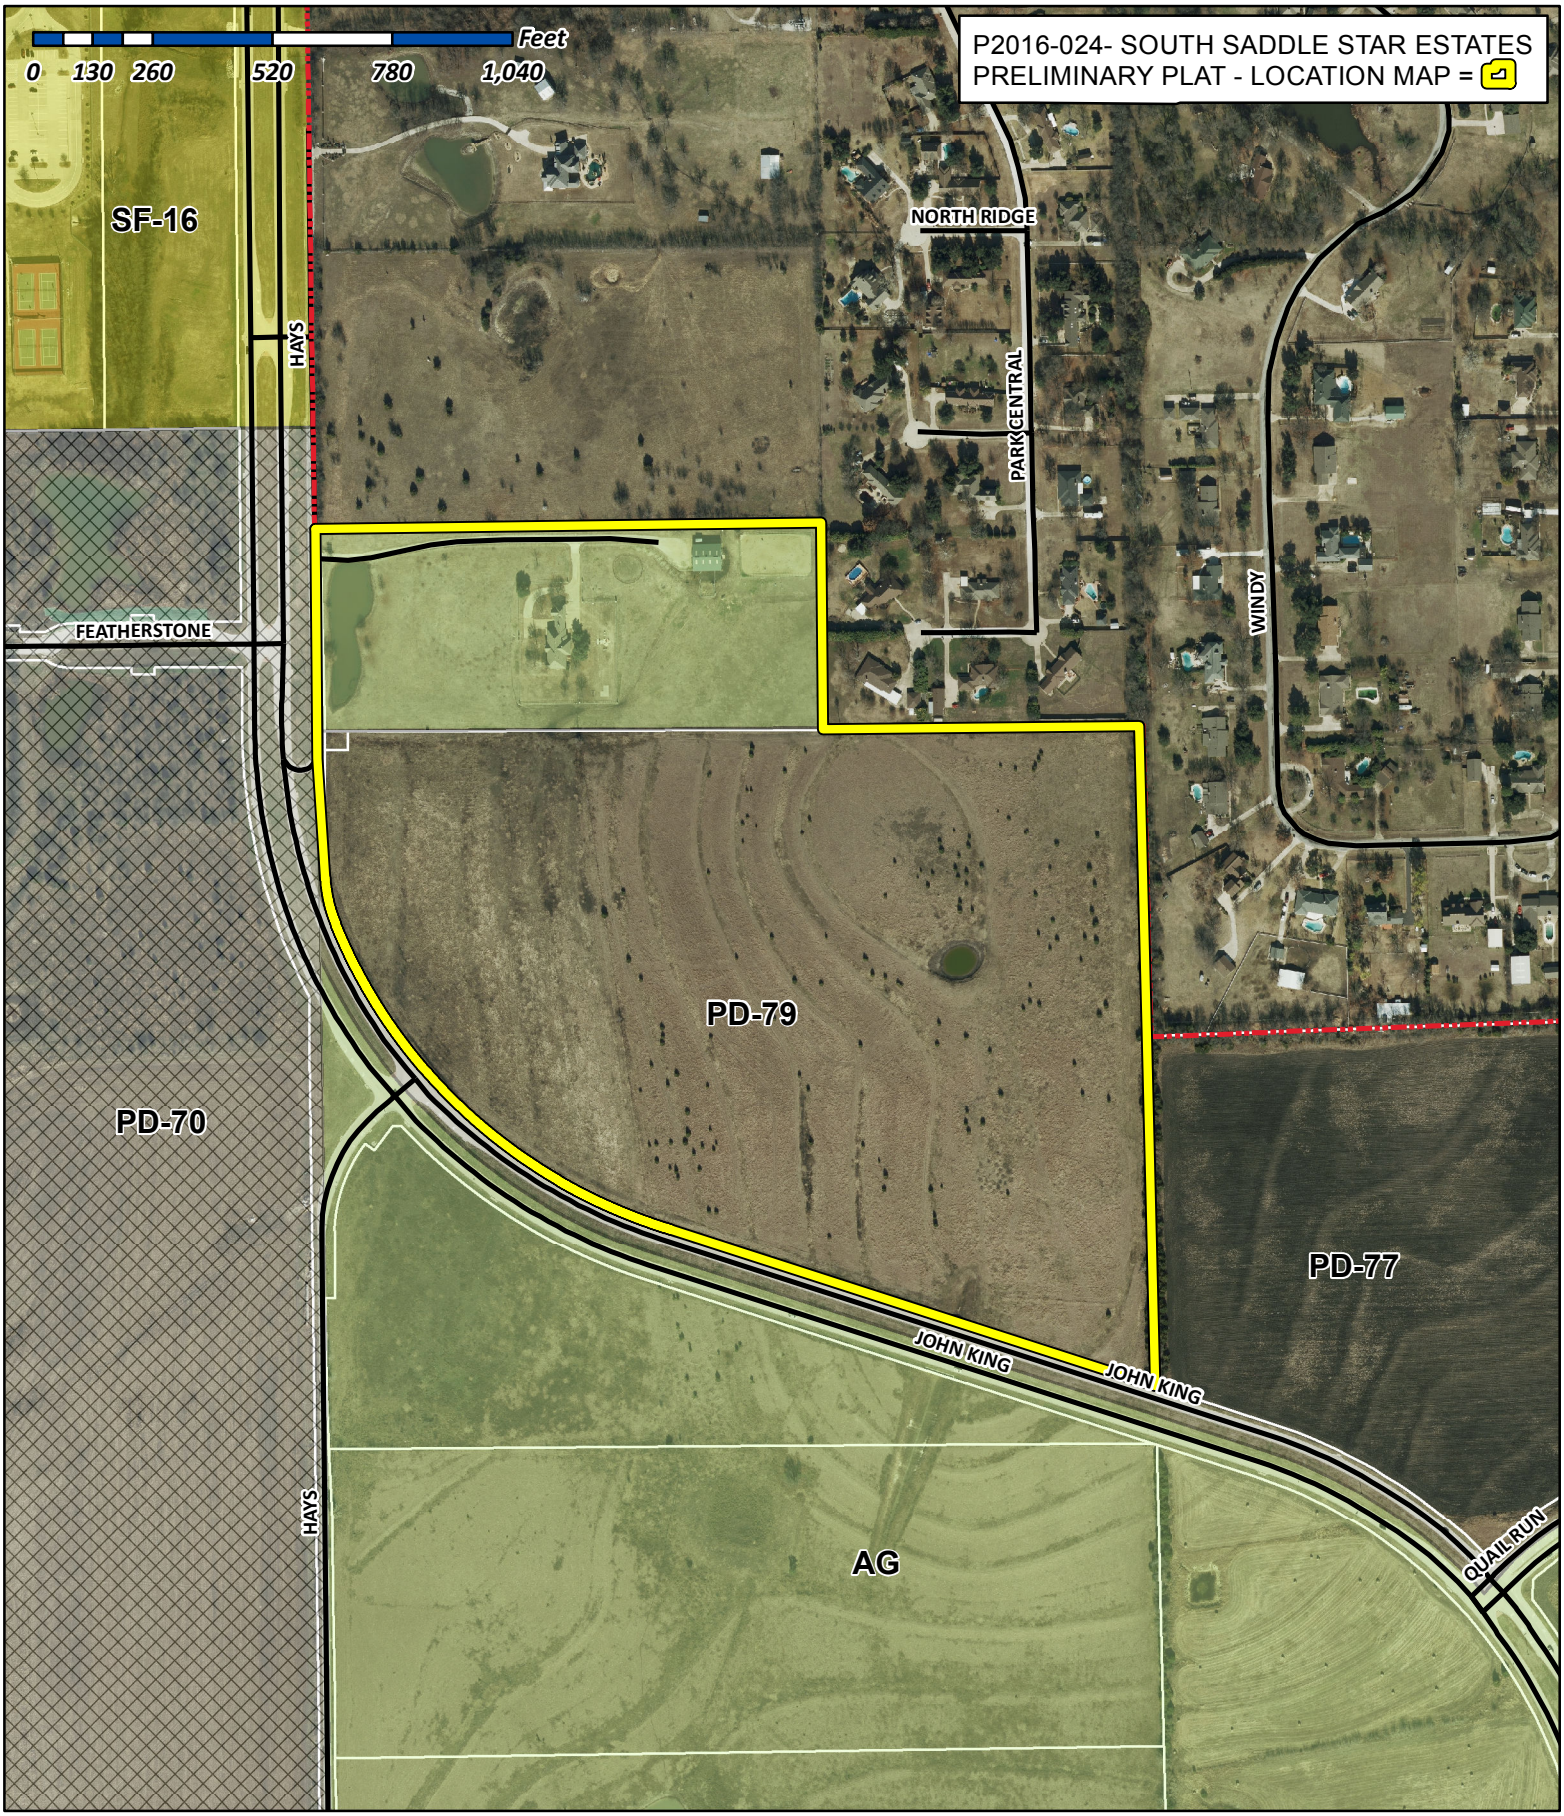
M.5 Please provide a list of all lots by lot and block designation indicating the total size of each lot in SF and the lot width at the front yard building setback.

M.6 On the preliminary plat indicate the street cross sections to be used.

M.7 On Randa's Way Drive please indicate the location of the proposed median.

M.8 On Lot 7, Block B please extend the front yard building setback line behind the existing easement.

M.9 A minimum of a 50-foot landscape buffer is required adjacent to John King Boulevard. Currently portions of the buffer areless than 50-feet. Please make this correction.



M.10 Indicate a Pedestrian Access Easement in the location of the proposed trailhead. Additionally, the ten (10) foot trail that is projected to meander through the 50-foot landscape buffer adjacent to John King Boulevard will need to be put into a Pedestrian Access Easement.

M.11 On the vicinity map indicate the City Limit line.

I.12 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on June 7, 2016; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the June 14, 2016 Planning & Zoning Meeting. The Planning & Zoning Commission work session meeting will be held on May 31, 2016.

I.13 The Parks Board meeting for this case will be held on June 7, 2016.

I.14 The projected City Council Meeting date and subsequent approval for this plat is June 20, 2016.

SHEET 01 OF

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 08/09/2016

APPLICANT: Matt Hibbitt; *SPRY Surveyors*

AGENDA ITEM: **P2016-035**; *Lot 1, Block 1, Carmel Carwash Addition*

SUMMARY:

Discuss and consider a request by Matt Hibbitt of Spry Surveyors on behalf of the owner Racetrac Petroleum, Inc. for the approval of a final plat for Lot 1, Block 1, Carmel Carwash Addition being a 2.059-acre tract of land currently identified as Lot 1, Block 1, Crossings Addition (i.e. 1.004-acres) and a 1.052-acre portion of Lot 1, Block 1, Rockwall Business Park Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2003 S. Goliad Street, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to final plat a portion of Lot 1, Block 1, Rockwall Business Park Addition, and all of Lot 1 Block 1, Crossing Addition into 1 parcel (*i.e. Lot 1 Block 1, Carmel Carwash Addition*) for the purpose of combining two (2) parcels and establishing the necessary fire lane, utility, public access, cross access, detention, and drainage easements for the proposed car wash

- ☑ A site plan (SP2016-008) for a car wash was approved by the Planning and Zoning Commission on May 10, 2016. In addition, City Council approved a variance to allow the tunnels of the car wash to face SH-205 on May 16, 2016.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for final plats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the *final plat* for *Lot 1, Block 1, Carmel Carwash Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *final plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and

with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

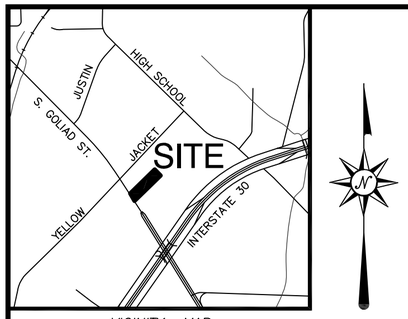
P2016-035 Carmel Carwash Addition Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Matt Hibbitt of Spry Surveyors on behalf of the owner Racetrac Petroleum, Inc. for the approval of a final plat for Lot 1, Block 1, Carmel Carwash Addition being a 2.059-acre tract of land currently identified as Lot 1, Block 1, Crossings Addition (i.e. 1.004-acres) and a 1.052-acre portion of Lot 1, Block 1, Rockwall Business Park Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2003 S. Goliad Street.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (P2016-035) in the lower right hand corner of all pages on future submittals.
M.4 Please indicate the number of proposed lots on the final plat.
M.5 Please change “Lot 1R” to Lot 1.
M.6 Please change “P.O.B.” to Point of Beginning”
M.7 Please show street centerline for S. Goliad Street.
M.8 Please show and label 50-foot setback adjacent to S. Goliad Street.
M.9 Please use standard plat wording as shown in the Development Application Packet.
M.10 Please change “24’ Fire Lane, Utility & Access Easement” label to “24’ Fire Lane, Utility, and Public Access Easement.”
I.11 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any



Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
additional information that is requested by August 11, 2016. The Planning & Zoning meeting date for this case will be August 9, 2016.							
I.12 The projected City Council meeting date and subsequent approval for this plat is August 15, 2016

NOTES

1. It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the city does not constitute and representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit thereon issued, nor shall such approval constitute and representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.

2. This Survey is issued without the benefit of a current title report and is subject to revision upon receipt thereof. Surveyor has done no additional research for possible easements, restrictions or covenants which may affect this property.

3. The Surveyor has not physically located any underground utilities and/or improvements which may be located under or near the subject property.

5. According to the Flood Insurance Rate Map No. 48397C0040L, published by the Federal Emergency Management Agency, dated: September 26, 2008, the surveyed property shown hereon does not lie within any special flood hazard area inundated by the 100-year flood.

6. All bearings shown hereon are according to the Plat of Crossing Addition recorded under Cabinet C, Slide 108, in the Plat Records of Rockwall County, Texas, unless otherwise noted.

7. On the issue date of this survey the surveyed property shown hereon is zoned "C" (Commercial) according to the City of Rockwall zoning ordinance maps. Refer to the City of Rockwall zoning ordinances for minimum and maximum setback requirements.

8. All private drainage systems and detention/drainage systems to be maintained, repaired, and/or replaced by property owner.

SURVEYOR CERTIFICATE

That I, David Carlton Lewis, do hereby certify that I have prepared this plat from an actual and accurate survey of the land, and that the corner monuments shown thereon were properly placed under my personal supervision.

This document shall not be recorded for any purpose. This drawing shall be used for

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 08/09/2016

APPLICANT: Miller Sylvan; *JPI*

AGENDA ITEM: **Z2016-019**; *JPI Condominiums*

SUMMARY:

Hold a public hearing to discuss and consider a request by Miller Sylvan of JPI on behalf of the owner Gene Lambreth of Pneuma Ventures, LTD for the approval of a zoning change from a Light Industrial (LI) District to a Planned Development District for a multi-family apartment complex on a 42.50-acre tract of land identified as Tract 1-4 of the J. M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-205 By-Pass Overlay (205 BY-OV) District, located east of the intersection of Discovery Boulevard and John King Boulevard, and take any action necessary.

PURPOSE:

On July 15, 2016, the applicant submitted an application requesting to rezone a 42.50-acre tract of land from a Light Industrial (LI) District to a Planned Development District for a multi-family apartment complex that will consist of a maximum of 750 units. The subject property, which was annexed into the City on December 3, 1985 by *Ordinance No. 85-69*, is located on the north side of Discovery Boulevard -- *east of the intersection of Discovery Boulevard and John King Boulevard* -- and is currently a vacant tract of land.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is *Rockwall Mini Storage* (*9.90-acres*) and *Park Place RV* (*~4.978-acres*), which are situated within the IH-30 Overlay (IH-30 OV) District and zoned Light Industrial (LI) District. Beyond these industrial uses is Interstate Highway 30 (IH-30).

South: Directly south of the subject property is Discovery Boulevard, which is identified as an M4U (*i.e. minor arterial, four [4] lane, undivided roadway*) on the City's *Master Thoroughfare Plan.* Beyond this arterial are four (1) tracts of land and one (1) parcel of land (i.e. *Peak Pediatric*) zoned Light Industrial (LI) District. South of these use is State Highway 276 (SH-276).

East: Directly east of the subject property is *Phase 1* of the Rockwall Economic Development Corporation's (REDC's) *Technology Park*. This includes an 8.480-acre parcel of land with a ~124,149 SF industrial building situated on it -- *which will be occupied by Pegasus Foods* -- and two (2) vacant tracts of land (*i.e. 1.860-acres & 5.268-acres*). All of these properties are zoned Light Industrial (LI) District.

West: Directly east of the subject property are *Phases 1 & 2* of the *Rockwall Downes Subdivision*, which are zoned Planned Development District 10 (PD-10) for single-family land uses and situated within the SH-205 By-Pass Corridor Overlay (SH 205 BY-OV) District. *Phase 1*

consists of 34 single-family, residential lots and *Phase 2* will consist of 30 single-family, residential lots.

CHARACTERISTICS OF THE REQUEST:

Along with the application, the applicant has submitted a concept plan, conceptual building renderings and development standards for the proposed multi-family apartment complex. The concept plan shows that the proposed 750-unit development will consist of two (2), 360-unit phases. According to this plan, each phase will consist of six (6) separate residential buildings, an 8,500 SF clubhouse and pool area, and an estimated 25%-30% open space. A summary of the proposed product type and unit composition for each phase of the development is as follows:

Table 1A: Unit Composition for Phase I

Unit Name	Unit Type	Minimum Net Unit Area (SF)	Number of Units (#)	Total Area (SF)	Units as Percentage (%)
A1	*One (1) Bedroom*	680 SF	38	25,840 SF	7%
A2	*One (1) Bedroom*	781 SF	62	48,422 SF	13%
A3	*One (1) Bedroom*	863 SF	76	65,588 SF	18%
A4	*One (1) Bedroom*	830 SF	24	19,920 SF	6%
B1	*Two (2) Bedrooms*	1125 SF	50	56,250 SF	16%
B2	*Two (2) Bedrooms*	1223 SF	38	46,474 SF	13%
B3	*Two (2) Bedrooms*	1143 SF	9	10,287 SF	3%
B4	*Two (2) Bedrooms*	1250 SF	3	3,750 SF	1%
B5	*Two (2) Bedrooms*	1299 SF	30	38,970 SF	11%
C1	*Three (3) Bedrooms*	1455 SF	9	13,095 SF	4%
C2	*Three (3) Bedrooms*	1580 SF	3	4,740 SF	1%
C3	*Three (3) Bedrooms*	1480 SF	18	26,640 SF	7%
		Average Net Unit Area:		***1,000 SF***	
		Total Units:	***360***		***100.00%***

Table 1B: Unit Composition for Phase II

Unit Name	Unit Type	Minimum Net Unit Area (SF)	Number of Units (#)	Total Area (SF)	Units as Percentage (%)
A1	*One (1) Bedroom*	680 SF	38	25,840 SF	7%
A2	*One (1) Bedroom*	781 SF	62	48,422 SF	13%
A3	*One (1) Bedroom*	863 SF	76	65,588 SF	18%
A4	*One (1) Bedroom*	830 SF	24	19,920 SF	6%
B1	*Two (2) Bedrooms*	1125 SF	50	56,250 SF	16%
B2	*Two (2) Bedrooms*	1223 SF	38	46,474 SF	13%
B3	*Two (2) Bedrooms*	1143 SF	9	10,287 SF	3%
B4	*Two (2) Bedrooms*	1250 SF	3	3,750 SF	1%
B5	*Two (2) Bedrooms*	1299 SF	30	38,970 SF	11%
C1	*Three (3) Bedrooms*	1455 SF	9	13,095 SF	4%
C2	*Three (3) Bedrooms*	1580 SF	3	4,740 SF	1%
C3	*Three (3) Bedrooms*	1480 SF	18	26,640 SF	7%
		Average Net Unit Area:		***1,000 SF***	
		Total Units:	***360***		***100.00%***

Staff should mention that while the unit composition above does indicate an average net unit area of 1,000 SF, the applicant has requested that language allowing this to be reduced to 950 SF be included in the *PD Ordinance* (*see Section 2 of Exhibit 'C' of the attached draft ordinance*). The applicant has also requested that the minimum unit size for *Phase II* be 600 SF regardless of the 680 SF indicated in the unit composition table above. The purpose of these requests, according to the applicant, is to allow flexibility to adjust the unit mix to account for changes in market demand. Despite these requirements, the total number of units will be limited to 750-units, which translates to a maximum density of 17.64 dwelling units per gross acre of land. Currently, the highest density-zoning district that the City allows is the Multi-Family 14 (MF-14) District, which permits up to 14 dwelling units per gross acre. Since the applicant is proposing to rezone the subject property to a Planned Development District, additional density maybe requested of the City Council; however, this

does remain a discretionary decision, and the City Council does reserve the right to reduce the density of the applicant's request.

Article VI, *Parking and Loading*, of the Unified Development Code (UDC) stipulates that multi-family apartment complexes be parked as follows: 1) one (1) bedroom or efficiency units require 1½ parking spaces per unit, 2) two (2) bedroom units require two (2) parking spaces per unit, and 3) three (3) bedroom units require 2½ parking spaces per unit; however, the applicant is requesting that all units, despite the number of bedrooms, be parked at 1½ parking spaces per unit. This dictates a minimum of 540 parking spaces per phase. The applicant is showing a total of 458 surface parking spaces and 107 garage parking spaces -- *for a total of 565 parking spaces* -- will be provided with each phase. This translates to ~1.57 parking spaces per unit for the total development.

The conceptual building renderings submitted by the applicant appear to be comprised of a mixture of stucco and stone, and will be subject to the architectural requirements stipulated for the SH-205 By-Pass Corridor Overlay (205 BY-OV) District (*e.g. four [4] sided architecture, 90% masonry, and etcetera*); however, the applicant has requested that the natural stone requirement not be included in the *PD Ordinance* to allow the development to incorporate cultured stone. The requirement for the quantity of stone (*i.e. 20%*) has been included in the ordinance (see Section 5(a) *of Exhibit 'C' of the attached draft ordinance*). Staff has incorporated these conceptual building renderings into the *PD Ordinance*, and general conformance -- *pending recommendation by the Architectural Review Board (ARB)* -- has been made a requirement of approval for the site plan.

With all this being said, staff has prepared a *draft ordinance* that includes all pertinent development standards and design guidelines based on the applicant's request. The *draft ordinance* is attached to this case memo for the Planning and Zoning Commission and City Council's review.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The Future Land Use Map, contained within the Comprehensive Plan, designates the subject property for *Technology/Light Industrial* land uses, which "…may include technology, research and development, office, and light industrial uses which may include light manufacturing and/or light assembly …" (*Land Use; Page 21*). The proposed development would require this designation to be changed to a *High Density Residential* designation, which according to the Comprehensive Plan is defined as any use that exceeds three (3) units per acre. In addition, the Comprehensive Plan states that "(h)igh density residential [*land uses*] should be used as a transitional use from commercial (or existing retail) use, or where it will serve as a logical extension of an existing high density development." (*Land Use; Page 17; Policy #9.e*) In this case, the proposed subject property and zoning change do appear to conform to the majority of the Comprehensive Plan's policies and guidelines with regard to the *High Density Residential* designation. In addition, the subject property is situated between the Rockwall Downes Subdivision (*i.e. a residential land use*) and the REDC Technology Park (*i.e. light industrial land uses*) and may serve as a logical transition between the two (2) uses. With this being said, the density being proposed and any change to the *Future Land Use Map* is a discretionary decision for the City Council. Should the City Council approve the applicant's request, staff has included a condition of approval that would amend the Future Land Use Map to reflect the proposed change in land use from a *Technology/Light Industrial* designation to a *High Density Residential* designation.

NOTIFICATION:

On July 22, 2016, staff mailed 26 notices to property owners and residents within 500-feet of the subject property. Staff also emailed notices to the Lofland Farms and Meadow Creek Estates Homeowner's Associations (HOA), which are the only HOA's located within 1,500 feet of the subject property. Additionally, staff posted a sign on the subject property along Discovery Boulevard as required by the Unified Development Code (UDC). At the time this case memo was drafted no responses were received by staff.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to rezone the subject property from a Light Industrial (LI) District to a Planned Development District for an apartment complex, then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) By approving this zoning change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of the subject property from a *Technology/Light Industrial* designation to a *High Density Residential* designation; and,

3) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

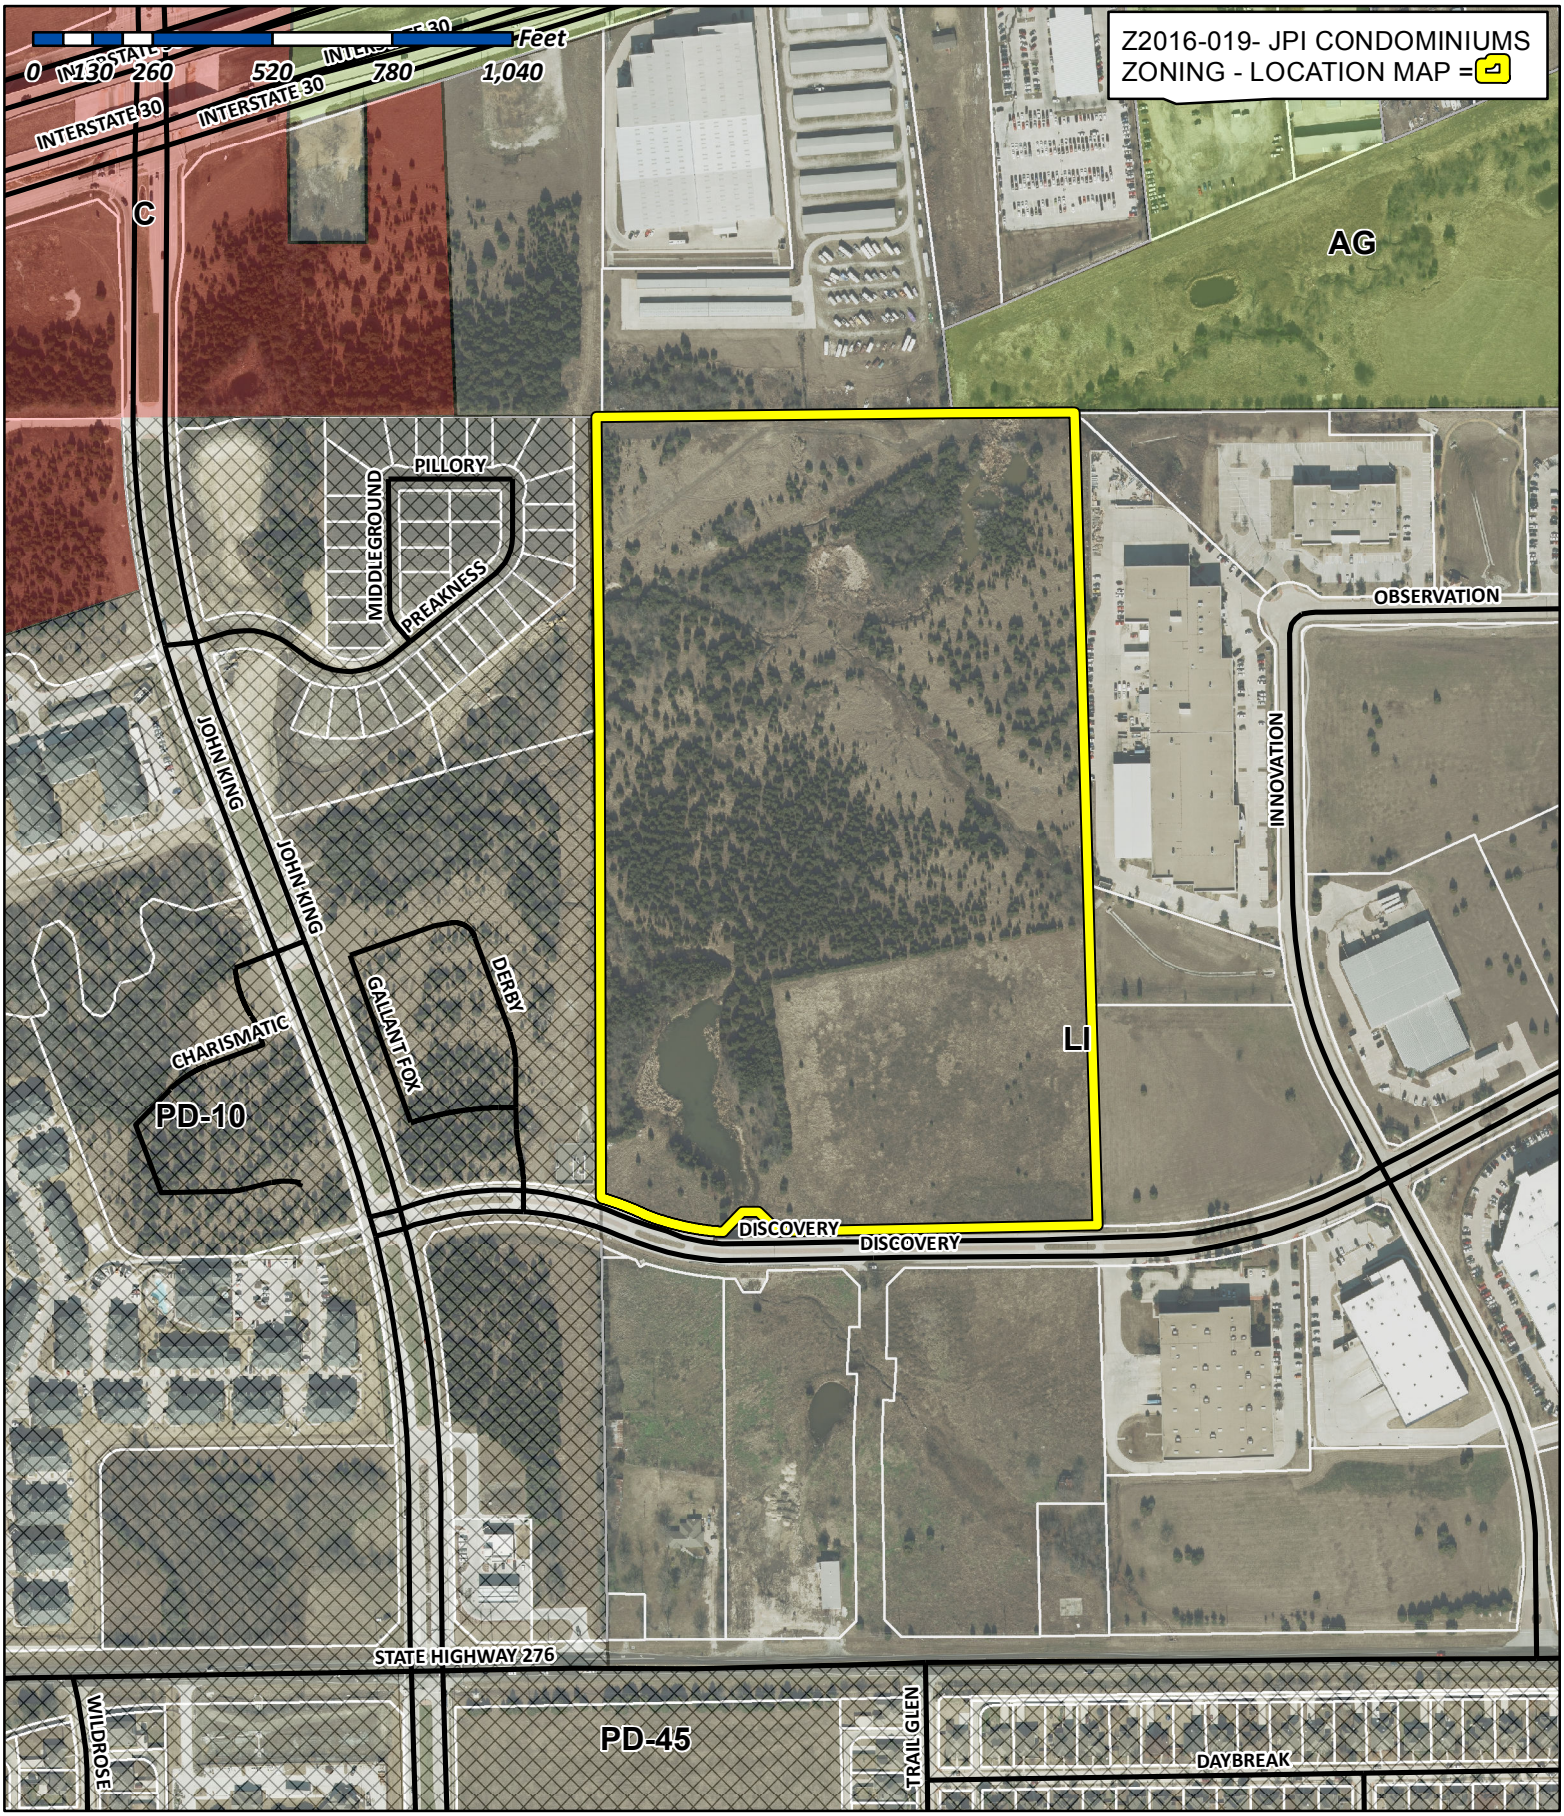
Z2016-019 (JPI Apartments [LI to PD]): Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 Hold a public hearing to discuss and consider a request for the approval of a zoning change from a Light Industrial (LI) District to a Planned Development District for a multi-family apartment complex on a 42.50-acre tract of land identified as Tract 1-4 of the J. M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-205 By-Pass Overlay (205 BY-OV) District, and located east of the intersection of Discovery Boulevard and John King Boulevard.
I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 On all future submittals please include the case number (Z2016-019) in the lower right hand corner.
I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on August 9, 2016.



Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

I.5 If approved an open space master plan will need to be submitted with the final plat laying out all proposed amenities on the site. This will require a recommendation from the Parks Board prior to approval by the City Council with the final plat.

I.6 The Future Land Use Map contained within the Comprehensive Plan currently identifies this property as being designated for Technology/Light Industrial land uses. The proposed use requires the City Council to amend the Future Land Use Map to reflect a High Density Residential land use designation. This will be a condition of approval.

I.7 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that has been requested. Revisions for this case will be due to staff on August 2, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the August 9, 2016 Planning & Zoning Meeting.

I.8 The projected City Council dates for this case are project to be: 1) August 15, 2016 [1st Reading], and 2) September 6, 2016 [2nd Reading].

LEGAL DESCRIPTION
42.55 ACRES

BEING a tract of land situated in the James M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas; and being part of a tract of land described as Tract Three in General Warranty Deed without Title Examination to Pneuma Ventures, L.T.D. recorded in Volume 2924, Page 314 of the Official Public Records of Dallas County, Texas; and being more particularly described as follows:

BEGINNING at the northwest corner of Block C, Rockwall Technology Park, an addition to the City of Rockwall according to the plat recorded in Cabinet E, Page 329 of the Plat Records of Rockwall County, Texas and being in the south line of that tract of land described in Warranty Deed to The Hitt Family Limited Partnership recorded in Volume 1875, Page 238 of said Official Public Records;

THENCE with the west line of said Block C, South 1°33'45" East, a distance of 1767.79 feet the southwest corner of said Block C and being in the north right-of-way line of Discovery Boulevard (an 85-foot wide right-of-way);

THENCE with said north right-of-way line of Discovery Boulevard, the following courses and distances:

South 89°12'13" West, a distance of 687.07 feet to a point for corner;
North 45°47'47" West, a distance of 61.52 feet to a point for corner;
South 89°12'13" West, a distance of 35.13 feet to a point for corner;
South 44°12'13" West, a distance of 59.92 feet to a point at the beginning of a non-tangent curve to the right having a central angle of 21°45'33", a radius of 557.50 feet, a chord bearing and distance of North 75°37'03" West, 210.45 feet;
In a northwesterly direction, with said curve to the right, an arc distance of 211.72 feet to a point at the beginning of a non-tangent curve to the left having a central angle of 5°25'19", a radius of 642.50 feet, a chord bearing and distance of North 67°28'57" West, 60.78 feet;
In a northwesterly direction, with said curve to the left, an arc distance of 60.80 feet to the southeast corner of a tract of land described as Parcel 1 in General Warranty Deed to Rockwall Downes Development, LLC recorded in Instrument No. 20150000005937 of said Official Public Records;

THENCE departing said north right-of-way line of Discovery Boulevard and with the east line of said Parcel 1 and the east line of Block E, Rockwall Downes Phase 1, an addition to the City of Rockwall according to the plat recorded in Cabinet I, Page 187 of said Plat Records, North 0°38'31" West, a distance of 1694.55 feet to the northeast corner of said Block E and in the south line of Lot 1, Block A, LaFon Subdivision, an addition to the City of Rockwall according to the plat recorded in Cabinet B, Page 42 of said Plat Records;

THENCE with the south line of said LaFon Subdivision, the south line of McKeown-Belaustegui Addition, an addition to the City of Rockwall according to the plat recorded in Cabinet E, Page 233 of said Plat Records and said south line of The Hitt Family Limited Partnership tract, North

89°36'02" East, a distance of 1038.82 feet to the **POINT OF BEGINNING** and containing 42.55 acres of land.

The bearings are based on a bearing of North 89°36'02" East for the north line of that tract of land described as Tract Three in the General Warranty Deed without Title Examination to Pneuma Ventures, L.T.D. recorded in Volume 2924, Page 314 of the Official Public Records of Dallas County, Texas.

This document was prepared under 22 TAC §663.21, does not reflect the results of an on the ground survey, and is not to be used to convey or establish interests in real property except those rights and interests implied or established by the creation or reconfiguration of the boundary of the political subdivision for which it was prepared.

PD Development Standards/Rockwall Project

These PD Development Standards apply to the property (the "Property") described on Exhibit "A" attached hereto and made a part hereof for all purposes.

1. Flood Plain as Open Space. The Flood Plain will be maintained as private open space by an Owner/Property Management Company.

2. Site Plan. A Site Plan shall be submitted and approved prior to any application for a building permit. Site Plan shall conform to the requirements of this Ordinance, the City's Engineering Standards, and Fire Code. Modifications may be made to the Concept Plan attached to these standards, provided the modifications meet the requirements of this Ordinance, do not exceed the maximum number of allowable units, meet minimum setbacks provided by MF-14 requirements, and meet Fire Codes.

3. Architectural Review. All projects within the PD shall receive Architectural Review as part of the approval of Site Plans.

4. Conformity with Other Ordinances. Unless in conflict with the standards herein, development shall comply with the standards and procedures established by the City that are in effect at the time of this Ordinance.

5. Streetscape.

Discovery Boulevard

a. **Landscape Buffer.** The landscape buffer along Discovery Boulevard shall be a minimum of twenty (20) feet wide along the entire length of the street frontage. Sidewalk shall be allowed within the buffer as an access easement.

b. **Landscape Buffer Plantings**: Three (3) canopy trees, along with two (2) accent trees shall be required per one hundred (100) feet of right of way along Discovery Boulevard. Canopy trees, accent trees, and shrubs shall be as defined in the City of Rockwall landscape ordinance requirements in effect at the time of this Ordinance.

6. Screening Walls. No continuous solid screening walls shall be constructed adjacent to Discovery Boulevard.

7. Lighting. No light poles shall exceed 20 feet in height. All lighting fixtures shall focus light downward and be contained on site.

8. Land Uses. Multi-Family and recreational uses such as an exercise club, a pool, tennis courts, centralized dining or other similar amenities which are ancillary to the residential shall be the only uses allowed. However, a temporary on-site Real Estate Sales Office shall be allowed provided that it and all the other uses meet the city's ordinance requirements at the time they are permitted.

9. Density. Maximum number of units.

a. Multi-Family. No more than 750 units.

10. **Open Space.** A minimum of 20% of the gross site area, including the floodplain, shall be open space. Open space contributing to this requirement may occur anywhere on the site, floodplain area may count up to 50% of the 20% requirement. No required percentage of open space has to occur in front or alongside buildings, or street frontages.

11. **Masonry Requirement**. Building facades shall contain 90% masonry, excluding windows and doors. For the purposes of this ordinance, masonry shall be defined as brick, stone, cultured stone, cementaceous fiber board (Hardy Plank or similar in 9-inch or smaller width boards) and cementaceous stucco.

12. **Building Height** Building height shall not exceed 60 feet and 3 stories.

13. **Unit Sizes.** The average unit size shall be greater than 900 s.f. and no unit shall be less than 600 s.f.

14. **Parking.** A minimum of 1.5 parking spaces per unit shall be required.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO CHANGE THE ZONING FROM A LIGHT INDUSTRIAL (LI) DISTRICT TO PLANNED DEVELOPMENT DISTRICT XX (PD-XX) FOR A MULTI-FAMILY APARTMENT COMPLEX ON THE SUBJECT PROPERTY, BEING A 42.50-ACRE TRACT OF LAND IDENTIFIED AS TRACT 1-4 OF THE J. M. ALLEN SURVEY, ABSTRACT NO. 2, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Miller Sylvan of JPI on behalf of the owner Gene Lambreth of Pneuma Ventures, LTD for the approval of a zoning change from a Light Industrial (LI) District to a Planned Development District for a multi-family apartment complex on a 42.50-acre tract of land identified as Tract 1-4 of the J. M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 2. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

DRAFT ORDINANCE 08.15.16

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Concept Building Renderings*, contained in *Exhibit 'D'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'D'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City Council, as amended by this ordinance (*including Subsections 5(b) through 5(e) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) PD Site Plan
(2) Open Space/Amenity Plan
(3) Final Plat

(c) *PD Site Plan.* A *PD Site Plan* covering all of the *Subject Property* shall be submitted and shall include a *Site Plan*, *Building Elevations*, *Treescape Plan*, *Landscape Plan* and a *Photometric Plan*. A *PD Site Plan* application may be processed by the City concurrently with an *Open Space/Amenity Plan* for the development.

(d) *Open Space/Amenity Plan.* An *Open Space/Amenity Plan* covering all of the *Subject Property* shall be submitted and shall include a detailed depiction of all proposed public and private amenities. An *Open Space/Amenity Plan* may be processed by the City concurrently with a *PD Site Plan Application* for the development.

(e) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat* for the *Subject Property* shall be submitted for approval.

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City

DRAFT ORDINANCE 05-15-2016

Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 6TH DAY OF SEPTEMBER, 2016.

DRAFT ORDINANCE 08.15.2016

Exhibit 'A':
Legal Description

BEING a tract of land situated in the James M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas; and being part of a tract of land described as Tract Three in General Warranty Deed without Title Examination to Pneuma Ventures , L.T.D. recorded in Volume 2924, Page 314 of the Official Public Records of Dallas County, Texas; and being more particularly described as follows:

BEGINNING at the northwest corner of Block C, Rockwall Technology Park, an addition to the City of Rockwall according to the plat recorded in Cabinet E, Page 329 of the Plat Records of Rockwall County, Texas and being in the south line of that tract of land described in Warranty Deed to The Hitt Family Limited Partnership recorded in Volume 1875, Page 238 of said Official Public Records;

THENCE with the west line of said Block C, South 1°33'45" East, a distance of 1767.79 feet the southwest corner of said Block C and being in the north right-of-way line of Discovery Boulevard (an 85-foot wide right-of-way) ;

THENCE with said north right-of-way line of Discovery Boulevard, the following courses and distances:

South 89°12'13" West, a distance of 687.07 feet to a point for corner;
North 45°47'47" West, a distance of 61.52 feet to a point for corner;
South 89°12'13" West, a distance of 35.13 feet to a point for corner;
South 44°12'13" West, a distance of 59.92 feet to a point at the beginning of a non-tangent curve to the right having a central angle of 21°45'33", a radius of 557.50 feet , a chord bearing and distance of North 75°37'03" West , 210.45 feet ;
In a northwesterly direction, with said curve to the right, an arc distance of 211.72 feet to a point at the beginning of a non-tangent curve to the left having a central angle of 5°25'19", a radius of 642.50 feet, a chord bearing and distance of North 67°28'57" West , 60.78 feet;
In a northwesterly direction, with said curve to the left, an arc distance of 60.80 feet to the southeast corner of a tract of land described as Parcel 1 in General Warranty Deed to Rockwall Downes Development , LLC recorded in Instrument No. 20150000005937 of said Official Public Records;

THENCE departing said north right-of-way line of Discovery Boulevard and with the east line of said Parcel 1 and the east line of Block E, Rockwall Downes Phase 1, an addition to the City of Rockwall according to the plat recorded in Cabinet I, Page 187 of said Plat Records, North 0°38'31" West, a distance of 1694.55 feet to the northeast corner of said Block E and in the south line of Lot 1, Block A, LaFon Subdivision, an addition to the City of Rockwall according to the plat recorded in Cabinet B, Page 42 of said Plat Records;

THENCE with the south line of said LaFon Subdivision, the south line of McKeown-Belaustegui Addition , an addition to the City of Rockwall according to the plat recorded in Cabinet E, Page 233 of said Plat Records and said south line of The Hitt Family Limited Partnership tract, North 89°36'02" East, a distance of 1038.82 feet to the **POINT OF BEGINNING** and containing 42.55 acres of land.

The bearings are based on a bearing of North 89°36'02" East for the north line of that tract of land described as Tract Three in the General Warranty Deed without Title Examination to Pneuma Ventures , LTD recorded in Volume 2924, Page 314 of the Official Public Records of Dallas County , Texas.

This document was prepared under 22 TAC §663.21, does not reflect the results of an on the ground survey , and is not to be used to convey or establish interests in real property except those rights and interests implied or established by the creation or reconfiguration of the boundary of the political subdivision for which it was prepared.

Exhibit 'C':
Development Standards

1. *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Multi-Family 14 (MF-14) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

2. *Unit Composition.* The unit composition for *Phases I & II* shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Tables 1A & 1B* below; however, in no case should the average net unit area decrease below 950 SF for *Phases I* & *II*. In addition, the minimum net unit area of the smallest unit shall not be decreased below 680 SF for *Phase I* and 600 SF for *Phase II*.

Table 1A: Unit Composition for Phase I

3. *Density and Dimensional Requirements.* Unless specifically provided by this Planned Development ordinance, the development standards stipulated by the Multi-Family 14 (MF-14) District and the SH-205 By-Pass Overlay (SH205 BY-OV) District, as specified by Article V, *District Development Standards*, of the Unified Development Code are applicable to all development on the *Subject Property*. The maximum permissible density for the *Subject Property* shall not exceed ***18*** dwelling units per gross acre of land; however, in no case should the proposed development exceed ***750*** units. All lots shall conform to the standards depicted in *Table 2*, which is as follows:

DRAFT ORDINANCE 2016

Table 2: Lot Dimensional Requirements

Minimum Lot Width	60'
Minimum Lot Depth	100'
Minimum Lot Area	10,000 SF
Minimum Lot Area/Unit	2,000 SF
Minimum Front Yard Building Setback	25'
Minimum Side Yard Building Setback	10'
Minimum Rear Yard Building Setback	10'
Minimum Separation Between Main Buildings	20'
Minimum Separation Between a Main Structure to an Accessory Structure	10'
Maximum Height [(1)]	60'
Maximum Lot Coverage	45%
Minimum Landscape	20%

General Notes:

[1]: The height of the building shall be measured from the average elevation of the finished grade along the front of the building to the highest point of the roof or parapet of the building if it is a flat, mansard or shed roof; or to the midpoint of the roof if it is gable, hip or gambrel roof.

4. *Parking and Loading Standards.* A minimum of 1.5 parking spaces per unit shall be required with a minimum of 20% of the unit count being provided as covered parking spaces. Tandem parking spaces (*i.e. spaces in front of garages*) are *NOT* permitted.

5. *Building Standards.* The building elevations shall generally conform to the *Concept Building Renderings* depicted in *Exhibit 'D'* of this ordinance; however, these elevations are subject to change pending recommendations by the City's Architectural Review Board (ARB). In addition, all development on the subject property shall conform to the following building standards:

   (a) *Masonry Requirements.* The minimum masonry requirement for the exterior façades of all buildings shall be 90% (*excluding windows and doors*). For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, cultured stone and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the exterior of the building; however, stucco may not be used within the first four (4) feet above grade on a façade visible from a public street or open space. A minimum of 20% stone is required on all building façades.

   (b) *Roof Design Requirements.* All buildings shall be designed such that no roof mounted mechanical equipment (*i.e. HVAC, satellite, vents, etc.*) shall be visible from any direction. *Note: Screening of mechanical equipment is necessary for all equipment regardless of location (i.e. roof mounted, ground mounted, or otherwise attached to the building and/or located on the site).*

   Screening of roof mounted mechanical equipment and/or other rooftop appurtenances shall be accomplished through the construction of an architectural feature, which is integral to the building's design and ensures that such equipment is not visible from adjacent public rights-of-way.

   (c) *Architectural Requirements.* All buildings shall be architecturally finished on all four (4) sides with the same materials, detailing and features. In addition, all buildings shall be subject to the architectural requirements of the SH-205 By-Pass Overlay (SH205 BY-OV) District contained in Section 6, *Overlay Districts*, of Article V, *District Development Standards*, of the Unified Development Code.

6. *Landscaping and Hardscaping Standards*.

DRAFT
08/15/2016

(a) *Landscape Requirements.* Landscaping shall be reviewed and approved with the *PD Site Plan*. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height. The following tree species are approved for planting within this development:

i) *Canopy/Shade Trees*. Afghan Pine, Bald Cypress, Bur Oak, Cedar Elm, Eastern Red Cedar, Homestead Elm, Lacebark Elm, Little Gem Magnolia, Live Oak, October Glory Maple, Red Oak, Texas Ash, Texas Red Oak.

ii) *Accent/Ornamental/Under-Story Trees*. Desert Willow, Eastern Redbud, Eves Necklace, Mexican Buckeye, Possumhaw Holly, Shangtung Maple, Yaupon Holly.

(b) *Landscape Buffers (Discovery Boulevard).* A minimum of a 20-foot landscape buffer shall be provided along the frontage of Discovery Boulevard, and shall incorporate a minimum of three (3) canopy and two (2) accent trees per 100-feet of linear frontage. The developer shall also be responsible for the construction of sidewalks along Discovery Boulevard.

(c) *Parking Lot Landscaping.* All parking lot landscaping shall conform to the requirements of Article VII, *Landscape Standards*, of the Unified Development Code.

(d) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect.

(e) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the *PD Site Plan* and/or *Opens Space/Amenity Plan*.

7. *Trash Receptacles.* Trash and recycling receptacles shall be four (4) sided, with eight (8) foot walls constructed and cladded with materials matching the primary structures, and have a self-latching gate. All trash and recycling receptacles shall be internal to the site and not be situated within any established building setbacks or landscape buffers.

8. *Open Space.* The development shall consist of a minimum of 20% open space (or a minimum of 8.5-acres), and generally conform to the *Concept Plan* contained in *Exhibit 'B'* of this ordinance. Floodplain acreage may count for up to 50% of the 20% open space requirement. All open space and floodplain shall be maintained as private open space by the owner/property management company.

9. *Screening Fence Standards*. Fences located along the perimeter of roadways, abutting open spaces, greenbelts and parks shall be required to be wrought iron or a tubular steel fence. Wrought iron/tubular steel fences can be a maximum of eight (8) feet in height. *No continuous solid screening walls shall be constructed adjacent to Discovery Boulevard.*

10. *Variances*. The variance procedures and standards for approval that are set forth in the Unified Development Code (UDC) shall apply to any application for variances to this ordinance.

DRAFT 09.13.2016

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 08/09/2016

APPLICANT: Mark Pross of *Pross Design Group, Inc.*

AGENDA ITEM: **Z2016-022;** SPR Packaging (*Structure Exceeding 60-ft Height*)

SUMMARY:

Hold a public hearing to discuss and consider a request by Mark W. Pross of Pross Design Group, Inc. on behalf of Robert Reece of SPR Packaging, LLC for the approval of a Specific Use Permit (SUP) to allow for a structure that exceeds 60-feet in height in a Light Industrial (LI) District in conjunction with an existing manufacturing facility situated on 10.1893-acre parcel of land identified as Lot 2, Block A, SPR Packaging Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1480 Justin Road, and take any action necessary.

BACKGROUND INFORMATION:

The applicant Mark W. Pross of Pross Design Group, Inc., on behalf of Robert Reece of SPR Packaging, LLC, is requesting a Specific Use Permit (SUP) to allow for a structure that exceeds the maximum height requirements within a Light Industrial (LI) District for an existing manufacturing facility. The property is located at the intersection of Justin Road and Industrial Blvd. and is addressed as 1480 Justin Road.

The applicant has indicated that SPR Packaging plans to install three (3) new high-bays for the purpose of placing new equipment (*extruders*) to meet its future manufacturing capabilities. Based on the site plan and the building elevations submitted, the extruders will be placed adjacent to the existing (*60-ft height*) high-bay area, which is located on the north (rear) side of the building. The vertical expansion will be incorporated on top of the existing manufacturing facility, and will increase the height of this portion of the facility by approximately 35-ft. The newly constructed high-bay area will have an overall height of 71-ft. from grade, which will be approximately ten (10) feet higher than the existing, adjacent metal high-bays. It should be noted that the facilities' existing roof structure was designed to extend upward to allow for the requested expansion. The addition will be comprised of pre-engineered metal panels that will match the existing structure. The vertical addition will exceed the 60-ft height limitation established in the Unified Development Code (UDC). According to Section 5.3.C.12 of Article V of the of UDC, the maximum building height for properties within the Light Industrial (LI) District is 120 feet, but any structure exceeding 60-ft shall require an SUP. In this case, the vertical expansion exceeds the 60-ft height limitation by 11-ft and requires an SUP.

Included in your packet is a letter from the applicant requesting the SUP, a site plan indicating the location of the expansion, and building elevations indicating the overall height of the high-bay area. A request for an SUP is a discretionary decision for the Planning and Zoning Commission and City Council.

NOTIFICATION:

On July 22, 2015, staff mailed eleven (11) notices to property owners within 500 feet of the subject property. Staff also sent an e-mail to the Park Place Home Owners Association (HOA),

which is the only HOA within 1500 feet of the subject property participating in the Neighborhood Notification Program. Additionally, staff posted a sign on the property as required by the Unified Development Code (UDC). At the time this report was drafted, staff has not received any notices either "for" or "against" the SUP request.

RECOMMENDATIONS:

Should the Specific Use Permit be approved, staff would offer the following conditions:

1) Adherence to Engineering and Fire Department standards; and,

2) That the height of the high-bays and the overall structure shall not exceed a maximum height of 71-ft, as depicted in the building elevations submitted; and,

3) That the new expansion generally conform to the expansion area depicted in the site plan and building elevations; and,

4) That the City Council reserves the right to review the Specific Use Permit (SUP) any time after the effective date of this ordinance.

5) Any construction or building necessary to complete this request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Hold a public hearing to discuss and consider a request by Mark W. Pross of Pross Design Group, Inc. on behalf of Robert Reece of SPR Packaging, LLC for the approva of a Specific Use Permit (SUP) to allow for a structure that exceeds 60-feet in height in a Light Industrial (LI) District in conjunction with an existing manufacturing facility situated on 10.1893-acre parcel of land identified as Lot 2, Block A, SPR Packaging Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1480 Justin Road, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, August 2, 2016. Please provide three large copies [24" X 36" FOLDED] of the building elevations and one PDF version for a subsequent review by staff:

• On all future plan submittals please include the Case Number (Z2016-021) in the lower right hand corner.

Planning Staff General Comments/Conditions of SUP:

1. The structure must meet all Fire Department, Building Inspections, and Engineering standards.
2. Submittal and approval of a building permit is required prior to consturction of the high bay expansion for extruders.
3. The high bay expansion will generally comply with the approved site plan and building elevations.
4. The high bay expansion area as depicted on the building elevations and site plan is generally not to exceed an over all height of 70 feet.
5. The City Council reserves the right to review the Specific Use Permit granted herein upon the expiration of one (1) year from the date hereof.
6. Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/o

Subject: Neighborhood Noification Program: Notice of zoning request

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on June 3, 2016. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

CITY OF ROCKWALL

ORDINANCE NO. 16-___

SPECIFIC USE PERMIT NO. S-155

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) ALLOWING FOR A STRUCTURE TO EXCEED THE MAXIMUM HEIGHT REQUIREMENT WITHIN A LIGHT INDUSTRIAL (LI) DISTRICT, BEING A 10.1893-ACRE PARCEL OF LAND IDENTIFIED AS LOT 2, BLOCK A, SPR PACKAGING ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, ADDRESSED AS 1480 JUSTIN ROAD, AND MORE SPECIFICALLY DESCRIBED IN EXHIBIT 'A' AND DEPICTED IN EXHIBIT 'B'; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Mark W. Pross of Pross Design Group, Inc. on behalf of Robert Reece of SPR Packaging, LLC for the approval of a Specific Use Permit (SUP) to allow for a structure to exceed sixty (60) feet in height within a Light Industrial (LI) District, being an 10.1893-acre parcel of land identified as Lot 2, Block A of the SPR Packaging Addition, City of Rockwall, Rockwall County, Texas, addressed as 1480 Justin Road, and more specifically described in *Exhibit 'A'* and depicted in *Exhibit 'B'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code (UDC) [Ordinance No. 04-38] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (*SUP*) for a structure exceeding the maximum height for structures within a Light Industrial (LI) District on the *Subject property*; and

Section 2. That the S*ubject Property* shall be developed and used only in the manner and for the purposes described in this Specific Use Permit (*SUP*) ordinance granted herein and shall be subject to the conditions set forth in *Article V, District Development Standards, Section 5.1, Light Industrial*

DRAFT ORDINANCE 08.23.16

(LI) District, and Article V, District Development Standards, Section 5.3.C.12., Maximum Building Height for Light Industrial Districts, of the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting of this zoning change, and as may be amended in the future, and shall be subject to the additional following conditions:

2.1 Operational Conditions

The following conditions pertain to the vertical expansion of the existing facility on the *Subject Property* and conformance to these stipulations is required for continued operations:

1) Adherence to Engineering and Fire Department standards; and,

2) That the height of the high-bays and the overall structure shall not exceed a maximum height of 71-ft, as depicted in the building elevations submitted; and,

3) That the new expansion generally conform to the expansion area depicted in the site plan and building elevations; and,

4) That the City Council reserves the right to review the Specific Use Permit (SUP) any time after the effective date of this ordinance.

5) Any construction or building necessary to complete this request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Section 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

Section 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

Section 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of TWO THOUSAND DOLLARS ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

Section 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

Section 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 08/09/2016

APPLICANT: Kyle Vrla; Dynamic Engineering Consultants, PC

AGENDA ITEM: **Z2016-024**; *Zoning Change C to HC*

SUMMARY:

Hold a public hearing to discuss and consider a request by Kyle Vrla of Dynamic Engineering Consultants, PC on behalf of the owner Wilson Osee of Osee Properties, LLC for the approval of a zoning change from a Commercial (C) District to a Heavy Commercial (HC) District for a 6.588-acre portion of a larger 24.818-acre tract of land identified as Tract 3-13 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, located south of the intersection of Sids Road and SH-205 *[S. Goliad Street],* and take any action necessary.

BACKGROUND INFORMATION AND PURPOSE:

The subject property is a 6.588-acre portion of a larger 24.818-acre tract of land located south of the intersection of Sids Road and SH-205 *[S.Goliad Street].* The intent of the current request is to rezone the property from a Commercial (C) District to a Heavy Commercial (HC) District for the purpose of constructing a major auto repair garage (i.e. auto body shop) which is permitted by right in a Heavy Commercial (HC) District. According to the applicant, the proposed body shop will not be open to the general public. The applicant has stated that vehicles will be taken to the location for service and then returned to the auto dealership (i.e Rockwall Ford) for the customer to pick-up. The remainder of the tract of land is zoned Heavy Commercial (HC) District.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property are two (2) properties. One property is an 8.868-acre parcel zoned PD-44 for commercial land uses, and allowing a commercial trucking operation. Currently, the property has a commercial trucking facility operating on it. The second property is a 1.617-acre parcel of land zoned Commercial (C) District. This property is currently occupied by Fuji Dental Lab.

South: Directly south of the subject property is a 58.72-acre tract of land zoned Commercial (C) District and Heavy Commercial (HC) District that is currently vacant.

East: Directly east of the subject property is remainder of the 24.818-acre tract of land zoned Heavy Commercial (HC) District that is currently vacant.

West: Directly west of the subject property is SH-205 *[S. Goliad Street],* which is designated as a TxDOT 6D on the City's Master Thoroughfare Plan contained in the Comprehensive Plan. Beyond this is the Meadow Creek Park-Foxwood Park and the

Meadow Creek Estates Subdivision. This land is zoned PD-10 for residential land uses.

UNIFIED DEVELOPMENT CODE:

According to the purpose statements stipulated in Section 4.7, *Heavy Commercial (HC) District*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), the Heavy Commercial (HC) District is meant to be utilized as a district that "…provides adequate space and site diversification for commercial establishments that may involve uses that would be objectionable in the other commercial districts or adjacent to residential districts." The UDC goes on to state that this designation is appropriate for properties that have intensive commercial uses and large volumes of retail traffic. Additionally the UDC states that these districts should be buffered so that residential areas are not affected by noise, traffic, litter, late night hours, and other influences that could be harmful to residential areas. In this case, the applicant's property is situated directly adjacent to SH-205 south of the intersection of Sids Road and SH-205, and based on the uses permitted within the district should not create a negative impact with regard to traffic circulation in the area.

With regard to land uses the UDC states the Heavy Commercial (HC) District, "…is commercial in nature, but has some aspects that are similar to industrial uses." Staff has provided a list of the land uses permitted within the Heavy Commercial (HC) District in the attached packet. In addition, the following is a summary of the minimum development standards for a Heavy Commercial (HC) District:

Ordinance Provisions	*Zoning District Standards*
Minimum Lot Area	*10,000 SF*
Minimum Lot Width	*60-Feet[1]*
Minimum Lot Depth	*100-Feet[1]*
Minimum Front Yard Setback	*15-Feet*
Minimum Rear Yard Setback	*10-Feet (0-Feet w/ Fire Rated Wall)*
Minimum Side Yard Setback	*10-Feet (0-Feet w/ Fire Rated Wall)*
Maximum Height	*240-Feet (Greater Than 36-Feet Requires an SUP)*
Max Lot Coverage	*60%*
Minimum Masonry Requirement	*90%[2]*
Floor Area Ratio	*4:1*
Maximum Building Size	*25,000 SF (SUP for Greater Than 25,000 SF)*
Minimum Landscaping Percentage	*10%*
Maximum Impervious Coverage	*85-90%*

Notes: 1. 200-feet when adjacent to IH-30; 2. Including 20% stone.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The Future Land Use Map, adopted with the Comprehensive Plan, designates the subject property for *Commercial/Industrial* land uses, which is defined as a district with intensive commercial/industrial uses and large volumes of retail traffic. This designation is in conformance with the applicant's request to rezone the subject property to a Heavy Commercial (HC) District.

NOTIFICATION:

On July 22, 2016, staff mailed 17 notices to property owners and residents within 500-feet of the subject property. Staff also sent notification to the Flagstone Estates, Meadow Creek Estates, and Hickory Ridge Homeowner's Associations (HOA's), which are the only HOA's located within 1500-feet of the subject property participating in the neighborhood notification program.

Additionally, staff posted a sign along SH-205, which is the only street frontage adjacent to the subject property as required by the Unified Development Code (UDC). At the time this case memo was drafted staff has not received any notices returned.

RECOMMENDATIONS:

Attached to this case memo is a draft ordinance for the Planning and Zoning Commission and the City Council's review. If the applicant's request is approved, a site plan for the proposed auto body shop would be required to be submitted.

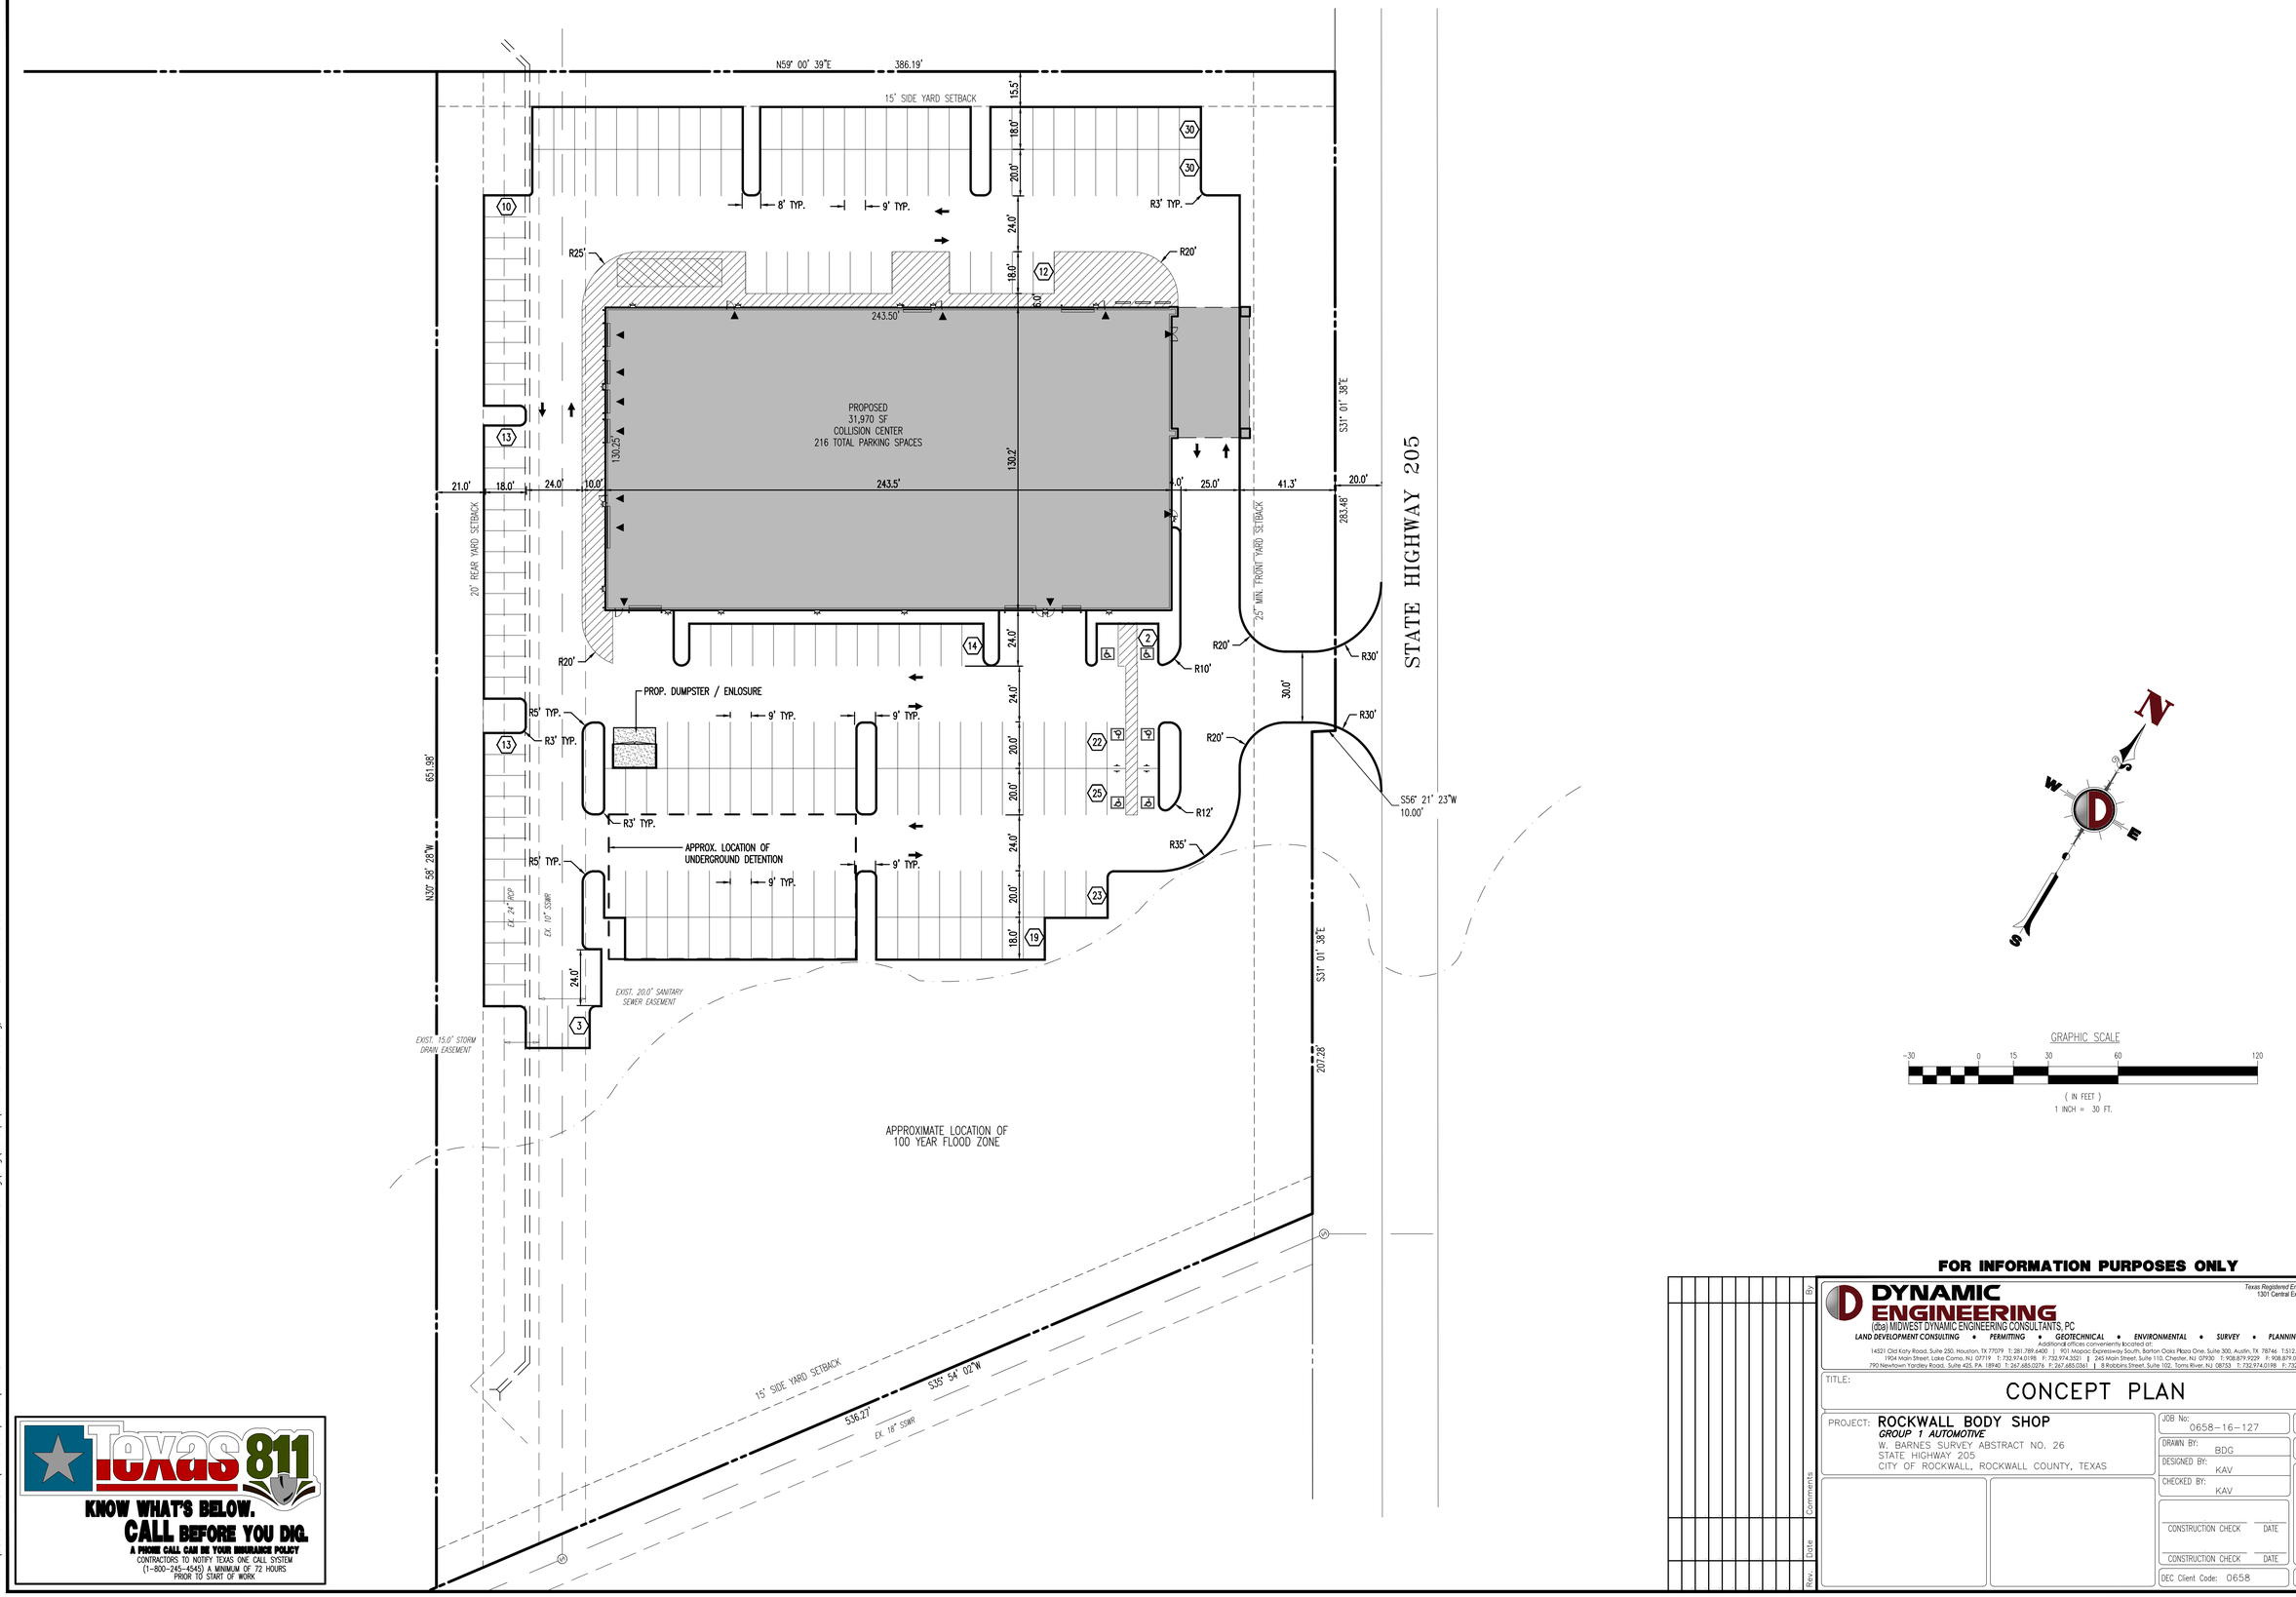
Subject: Neighborhood Noification Program: Notice of zoning request
Date: Wednesday, July 20, 2016 11:22:11 AM

To whom it may concern:



Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on June 3, 2016. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-024- Hold a public hearing to discuss and consider a request by Kyle Vrla of Dynamic Engineering Consultants, PC on behalf of the owner Wilson Osee of Osee Properties, LLC for the approval of a zoning change from a Commercial (C) District to a Heavy Commercial (HC) District for a five (5) acre portion of a larger 24.818-acre tract of land identified as Tract 3-13 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, located south of the intersection of Sids Road and SH-205 [*S. Goliad Street*], and take any action necessary.**

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.

RE: Zoning Change Application
Letter of Explanation
SH-205 between Sids Rd. & Mims Rd.
City of Rockwall
Rockwall County, Texas

To Whom It May Concern,

This letter of explanation is in connection with the Zoning Change Application submitted today, July 14th, 2016 for the property located approximately 765 feet southeast of the intersection of Sids Road and State Highway 205. The current property in question is undeveloped and totals approximately 25 acres with a portion of this area on the south property line within the floodplain. The majority of this site, approximately 20 acres is currently zoned Heavy Commercial (HC) and the remaining five (5) acres, which fronts State Highway 205 is zoned as Commercial (C). This zoning request is being requested to convert the front five (5) acres to Heavy Commercial (HC).

The purpose of the request from Commercial (C) to Heavy Commercial (HC) is to accommodate the development of an Automotive Body Shop for Rockwall Ford, which is currently not allowed within the Commercial district. This facility would be developed as an additional building for Rockwall Ford located at 990 East I-30. The addition of this building will allow the dealership to relocate their current body repair area and free up more space either in their service area or showroom to service more customers at their main facility.

In reviewing the surrounding properties to this re-zoning case, the neighbor to the north is TransAm Trucking which is a freight company that utilizes large trucks and trailers to move goods. On the south side, as described above, the site is bordered by flood plain and heavy tree cover. The west side of the property, which extends back to Sids Road, is currently zoned as Heavy Commercial (HC) as well, which would match with the proposed re-zoning request.

Due to the existing uses and tenants surrounding this site, it's expected that large trucks will often be coming and going nearby the property where the proposed Automotive Body Shop would be located. This truck traffic would not be disruptive to a heavy commercial business like an Automotive Body Shop, but would be disruptive to any retail shop if the property were to remain zoned for commercial use. Additionally, the City of Rockwall Future Land Use Map (11/25/2014) shows the site being used for commercial/industrial purposes, which allows for the development of an Automotive Body Shop.

LEGAL DESCRIPTION

BEING a tract of land situated in the W. Barnes Survey Abstract No. 26, City of Rockwall, Rockwall County, Texas and being a part of that tract as conveyed to Edward B. Tomlinson, II , trustee as recorded in Volume 173 page 984, Deed Records, Rockwall County, Texas and being more particularly described by metes and bounds as follows;

BEGINNING at a 1/2" Iron stake found on the southerly line of Sids Road, said point being the west corner of the Helwig Addition Replat, an addition to the City of Rockwall, as recorded in Cabinet D, Slide 107, of the Plat Records of Rockwall County, Texas.

Thence, South 46 degrees 11 minutes 22 seconds East, along the southwest line of said Helwig Addition, a distance of 350.77 feet to a 1/2" iron stake found for corner.

Thence, South 31 degrees 11 minutes 43 seconds East, along the southwest line of said Helwig addition, a distance of 199.42 feet to the south corner of said addition, a 1/2" iron stake found for corner.

Thence, North 59 degrees 00 minutes 39 seconds East, along the southeast line of said Helwig tract and the Estep Addition, an addition to the City of Rockwall as recorded in Cabinet E, Slide 273, of said Plat Records, a distance of 687.70 feet to the east corner of said Estep Addition and on the southwest right of way of State Highway 205, a 1/2" iron stake found for corner.

Thence, along the southwest R.O.W. line of State Highway No. 205 the following:

South 31 degrees 01 minutes 38 seconds East, a distance of 283.48 feet to a 1/2" iron stake set for corner
South 56 degrees 21 minutes 23 seconds West, a distance of 10.00 feet to a 1/2" iron stake set for corner.
South 31 degrees 01 minutes 38 seconds East, a distance of 207.28 feet to a 1/2" iron stake set for corner.

Thence, leaving State Highway 205 and along the northerly line of a sanitary sewer easement as conveyed to the City of Rockwall the following;

South 35 degrees 54 minutes 02 seconds West, a distance of 536.27 feet to a 1/2" iron stake set for corner
South 72 degrees 32 minutes 39 seconds West, a distance of 356.75 to a 1/2" iron stake set for corner
South 71 degrees 09 minutes 59 seconds West, a distance of 1106.75 feet to a 1/2" iron stake set for corner
South 79 degrees 18 minutes 43 seconds West, a distance of 276.11 feet to a 1/2" iron stake set for corner
North 43 degrees 21 minutes 38 seconds West, a distance of 84.73 feet to a 1/2" iron stake set for corner

Thence, North 44 degrees 08 minutes 53 seconds East, along the southwest line of a tract conveyed to Richard E. Slaughter, Jr. as recorded in Volume 1531 Page 145 and the southwest line of a tract as

conveyed to Rayburn County Elec. Coop. as recorded in Volume 731 Page 263, a distance of 742.10 feet to a 1/2" iron stake found for corner.

Thence, South 46 degrees 20 minutes 42 seconds East, along a tract as conveyed to Rayburn County Elec. Coop. as recorded in Volume 829 page 111, a distance of 166.66 feet to a 1/2" iron stake found for corner;

Thence, North 44 degrees 01 minutes 26 seconds East, along said tract a distance of 523.25 feet to a 1/2" iron stake found for corner

Thence, North 46 degrees 04 minutes 38 seconds West, a distance of 166.61 feet to the north corner of said Rayburn County Elec. Coop. Tract, a 1/2" iron stake found for corner.

Thence, North 44 degrees 00 minutes 56 seconds East, along the southwest line of the Pott Shrigley Addition, a distance of 247.54 feet to the west corner of same, a 1/2" iron rod found for corner.

Thence, North 48 degrees 11 minutes 22 seconds West, along the northeast line of said addition, a distance of 351.38 feet to a 1/2" iron rod found for corner.

Thence, North 43 degrees 57 minutes 56 seconds East, along the southerly line of Sids Road, a distance of 60.00 feet to the POINT OF BEGINNING and containing 24.971 acres of land.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED SO AS TO FURTHER AMEND THE ZONING MAP TO ADOPT A CHANGE IN ZONING FROM A COMMERCIAL (C) DISTRICT TO A HEAVY COMMERCIAL (HC) DISTRICT FOR A 6.588-ACRE PORTION OF A LARGER 24.818-ACRE TRACT OF LAND IDENTIFIED AS TRACT 3-13 OF THE W. H. BARNES SURVEY, ABSTRACT NO. 26, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE SPECIFICALLY DESCRIBED IN *EXHIBIT 'A'* OF THIS ORDINANCE; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF A FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Kyle Vrla of Dynamic Engineering Consultants, PC, on behalf of the owner Wilson Osee of Osee Properties, LLC for the approval of an amendment to the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall to adopt a change in zoning from a Commercial (C) District to a Heavy Commercial (HC) District for a 6.588-acre portion of a larger 24.818-acre tract of land identified as Tract 3-13 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, and more specifically depicted in *Exhibit 'A'* and described in *Exhibit 'B'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, Texas, as heretofore amended, be and the same are hereby amended by amending the zoning map of the City of Rockwall so as to change the zoning of the *Subject Property* from a Commercial (C) District to a Heavy Commercial (HC) District; and

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes provided for a *Heavy Commercial (HC) District* in *Section 1.1, "Use of Land and Buildings,"* of *Article IV, "Permissible Uses"* and *Section 4.7, "Heavy Commercial (HC) District",* of *Article V, "District Development Standards",* of the *Unified Development Code* of the City of Rockwall as heretofore amended, as amended herein by granting of this zoning change, and as may be amended in the future;

DRAFT ORDINANCE 09.06.16

Section 3. That the official zoning map of the City be corrected to reflect the changes in the zoning described herein.

Section 4. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of two thousand dollars ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

Section 5. If any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code of the City of Rockwall, Texas, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable.

Section 6. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be and the same are hereby repealed, and all other ordinances of the City of Rockwall not in conflict with the provisions of this ordinance shall remain in full force and effect.

Section 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ON THIS THE 6TH DAY OF SEPTEMBER, 2016.

_____

Jim Pruitt, *Mayor*

ATTEST:

_____

DRAFT ORDINANCE 09.06.2016

Exhibit “A”
Location Map

DRAFT
09.06.2016

Exhibit "B"
Legal Description

BEING a tract of land situated in the W. Barnes Survey Abstract No. 26, City of Rockwall, Rockwall County, Texas and being a part of that tract as conveyed to Edward B. Tomlinson, II , trustee as recorded in Volume 173 page 984, Deed Records, Rockwall County, Texas and being more particularly described by metes and bounds as follows;

BEGINNING at a 1/2" Iron stake found on the southerly line of Sids Road, said point being the west corner of the Helwig Addition Replat, an addition to the City of Rockwall, as recorded in Cabinet D, Slide 107, of the Plat Records of Rockwall County, Texas.

Thence, South 46 degrees 11 minutes 22 seconds East, along the southwest line of said Helwig Addition, a distance of 350.77 feet to a 1/2" iron stake found for corner.

Thence, South 31 degrees 11 minutes 43 seconds East, along the southwest line of said Helwig addition, a distance of 199.42 feet to the south corner of said addition, a 1/2" iron stake found for corner.

Thence, North 59 degrees 00 minutes 39 seconds East, along the southeast line of said Helwig tract and the Estep Addition, an addition to the City of Rockwall as recorded in Cabinet E, Slide 273, of said Plat Records, a distance of 687.70 feet to the east corner of said Estep Addition and on the southwest right of way of State Highway 205, a 1/2" iron stake found for corner.

Thence, along the southwest R.O.W. line of State Highway No. 205 the following:

South 31 degrees 01 minutes 38 seconds East, a distance of 283.48 feet to a 1/2" iron stake set for corner
South 56 degrees 21 minutes 23 seconds West, a distance of 10.00 feet to a 1/2" iron stake set for corner.
South 31 degrees 01 minutes 38 seconds East, a distance of 207.28 feet to a 1/2" iron stake set for corner.

Thence, leaving State Highway 205 and along the northerly line of a sanitary sewer easement as conveyed to the City of Rockwall the following;

South 35 degrees 54 minutes 02 seconds West, a distance of 536.27 feet to a 1/2" iron stake set for corner
South 72 degrees 32 minutes 39 seconds West, a distance of 356.75 to a 1/2" iron stake set for corner
South 71 degrees 09 minutes 59 seconds West, a distance of 1106.75 feet to a 1/2" iron stake set for corner
South 79 degrees 18 minutes 43 seconds West, a distance of 276.11 feet to a 1/2" iron stake set for corner
North 43 degrees 21 minutes 38 seconds West, a distance of 84.73 feet to a 1/2" iron stake set for corner

Thence, North 44 degrees 08 minutes 53 seconds East, along the southwest line of a tract conveyed to Richard E. Slaughter, Jr. as recorded in Volume 1531 Page 145 and the southwest line of a tract as

DRAFT ORDINANCE 09.06.2016

conveyed to Rayburn County Elec. Coop. as recorded in Volume 731 Page 263, a distance of 742.10 feet to a 1/2" iron stake found for corner.

Thence, South 46 degrees 20 minutes 42 seconds East, along a tract as conveyed to Rayburn County Elec. Coop. as recorded in Volume 829 page 111, a distance of 166.66 feet to a 1/2" iron stake found for corner;

Thence, North 44 degrees 01 minutes 26 seconds East, along said tract a distance of 523.25 feet to a 1/2" iron stake found for corner

Thence, North 46 degrees 04 minutes 38 seconds West, a distance of 166.61 feet to the north corner of said Rayburn County Elec. Coop. Tract, a 1/2" iron stake found for corner.

Thence, North 44 degrees 00 minutes 56 seconds East, along the southwest line of the Pott Shrigley Addition, a distance of 247.54 feet to the west corner of same, a 1/2" iron rod found for corner.

Thence, North 48 degrees 11 minutes 22 seconds West, along the northeast line of said addition, a distance of 351.38 feet to a 1/2" iron rod found for corner.

Thence, North 43 degrees 57 minutes 56 seconds East, along the southerly line of Sids Road, a distance of 60.00 feet to the POINT OF BEGINNING and containing 24.971 acres of land.

DRAFT ORDINANCE 09.06.2016

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 08/09/2016

APPLICANT: Jason Lentz; *Atticus Rockwall, LLC*

AGENDA ITEM: **Z2016-025**; *Harbor Urban Center Condominiums*

SUMMARY:

Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Interior Subdistrict, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [*FM-3097*] and Summer Lee Drive, and take any action necessary.

BACKGROUND:

On September 20, 2010, the City Council passed *Ordinance No. 10-21* [*Planned Development District 32 (PD-32)*], which established a concept plan and development standards for the approximate 78.89-acre tract of land commonly referred to as *PD-32* or the *Harbor District*. Within the approved concept plan, *PD-32* was divided into ten (10) subdistrict that contained individual development and land use standards. The subject property is a 3.453-acre tract of land located within the *Interior Subdistrict*, which -- according to the *PD Ordinance* -- is intended "… to provide an area that can function as either office, residential, or senior living ..."

REQUEST:

On July 15, 2016, the applicant, Jason Lentz, submitted an application proposing to develop the subject property with a 245-unit condominium building and structured parking garage. According to the *Subdistrict Land Use Chart* contained in *Exhibit 'D'* of Planned Development District 32 (PD-32) [*Ordinance No. 10-21*], the *Urban Residential (Condominium Units Only)* land use is permitted *by-right* within the *Interior Subdistrict*. In addition, *Ordinance No. 10-21* states, "(t)hat no more than 1,161 urban residential units shall be allowed in *PD-32*, which may include condominium and/or townhouse units, in addition to a maximum of 49 single-family zero lot line units (*patio homes*)." Currently, 664 of the urban residential units have been entitled (*i.e. Marina Village with 399-units and Summer Lee Condominiums with 265-units*), which leaves a total of 497-units still available. The ordinance does not stipulate a minimum or maximum number of units for any given subdistrict (*i.e. the pool of units is allocated on a first-come-first-serve basis to each development regardless of location as long as condominiums and townhouses are a permitted use within the subdistrict and there are still units available in the pool*).

According to the procedures stipulated in *Section 9.B*, *Procedures*, of *Ordinance 10-21*, this request -- *being in conformance with the Subdistrict Land Use Chart* -- would generally only be subject to *PD Site Plan* approval by the Planning and Zoning Commission; however, the proposed street extending from Summer Lee Drive to the southeastern corner of the subject property does not conform to the *Street Type G* cross section required by the *Streetscape Plan* contained in *Exhibit 'C'* of the ordinance. Taking this into consideration -- *and in conformance with Section 9.A, Development Plans, of Ordinance No. 10-21* -- staff has required the applicant to submit a *PD Development Plan* to allow the City Council discretionary authority over the requested waiver to the streetscape standards.

CHARACTERISTICS OF THE WAIVER REQUEST(S):

The *Streetscape Plan* contained in *Ordinance No. 10-21* calls for a *Street Type G*, which is intended to serve "…as an edge to the open space [*areas of the*] subdistrict …" and connect Summer Lee Drive and Ridge Road [*FM-740*]. Specifically this street section consists of *two-way* traffic on a 24-foot wide street with eight (8) foot parallel parking spaces along the western side of the roadway (*i.e. adjacent to the condominium project*), an eight (8) foot parkway, and eight (8) foot sidewalks on both sides of the street. The total right-of-way width of this street cross section is 60-feet. In lieu of this, the applicant is proposing a modified street cross section that will consist of two-way traffic on a 24-foot wide street with five (5) foot sidewalks on either side of the street, and a one (1) to two (2) foot parkway. The total right-of-way width of the proposed road section will be 36-feet; however, staff should point out that one (1) foot of the sidewalk will be situated outside of the right-of-way. This means that either the right-of-way width will need to be increase to 37-feet or the additional one (1) foot will need to be put into a *Pedestrian Access Easement* at the time of platting. Staff has included this as a condition of approval.

In reviewing this request, staff has identified an additional waiver to *building placement*, which will be required to be approved along with the applicant's request. Specifically, the *Interior Subdistrict* requires a minimum of a five (5) foot building setback and an average of a 20-foot setback along the *Street Type 'G'*, which the applicant is proposing to modify. In this case, the applicant would be requesting a minimum of a one (1) to two (2) foot building setback along this modified street section. Since a waiver to *building placement* is specifically identified in *Section 9.C, Waivers of Design Standards*, of *Ordinance No. 10-21*, it could be granted at the time of site plan approval by the City Council; however, since the modified street section is causing the *PD Development Plan* staff has included it in this request as a condition in the attached draft ordinance.

WAIVER PROCEDURES:

Since this request [*i.e. a request to modify an established street cross section*] does not fall under the waivers listed in *Section 9.C, Waivers of Design Standards*, of *Ordinance No. 10-21*, the waiver is considered to be an amendment to Planned Development District 32 (PD-32), and in accordance with the amendment process staff has prepared a draft ordinance for the City Council's review (*see attached draft ordinance*). In addition, according to *Ordinance No. 10-21*, "(w)aivers may only be approved by the City Council following a recommendation by the Planning and Zoning Commission … (i)n order to approve a waiver the City Council must find that the waiver:

(a) Meets the general intent of the PD District or Subdistrict in which the property is located; and,
(b) Will result in an improved project which will be an attractive contribution to the PD District or Subdistrict; and,
(c) Will not prevent the implementation of the intent of this PD District."

The ordinance also grants the City Council the power to condition any approval to mitigate for potential negative impacts that could result from the approval of a waiver. Staff has provided some conditions for the City Council to review in the *Recommendations* section of this case memo. The conditions have also been placed in the attached draft ordinance. Should the City Council choose to grant the request the applicant will still need to submit a site plan that will be reviewed by the Architectural Review Board (ARB) and the Planning and Zoning Commission. The waiver to the *building placement requirements* is accounted for in the attached draft ordinance.

Staff should point out that if the City Council chooses to deny the request the motion should be based on the street cross section proposed by the applicant and not the land use, as the *Urban Residential (Condominium Units Only)* land use is a permitted *by-right* use in the *Interior Subdistrict*. It should also be mentioned that if the request is denied the applicant does have the ability to submit a site plan for the proposed development, as long as the proposed street cross section is in conformance to the *Streetscape Plan* contained in *Ordinance No. 10-21*.

NOTIFICATION:

On July 22, 2016, staff mailed 84 notices to property owners and residents within 500-feet of the subject property. Staff also emailed notices to the Lakeside Village, Lago Vista and Signal Ridge Homeowner's Associations (HOA), which are the only HOA's located within 1,500-feet of the subject property. Additionally, staff posted a sign on the subject property along Summer Lee Drive as required by the Unified Development Code (UDC). At the time, this case memo was drafted two (2) responses in favor of the request and three (3) responses opposed to the request were received by staff.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request for waivers to the requirements of Planned Development District 32 (PD-32), then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance and which are as follows:

    (a) The north/south public road connecting Summer Lee Drive to the southwest corner of the subject property shall be designed and constructed in accordance with the *Street Type 'G$_1$'* standards stipulated in *Exhibit 'D'* of the attached draft ordinance; and,

    (b) The minimum building setback adjacent to *Street Type 'G$_1$'* shall be two (2) feet. This can be reduced to one (1) foot if the right-of-way width is increased to 37-feet; and,

    (c) Any portion of the sidewalk situated outside of the right-of-way shall be required to be placed within a *Pedestrian Access Easement* on the final plat; and,

    (d) Prior to the submittal of a final plat the applicant shall submit and seek approval of a detailed site plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and the attached draft ordinance, and with the guidelines contained in *Resolution No. 10-40*; and,

    (e) The building elevations submitted with the site plan will require a recommendation from the Architectural Review Board (ARB) prior to approval by the Planning and Zoning Commission (*and City Council if necessary*); and,

    (f) An open space master plan will need to be submitted with the site plan. The open space master plan will need to be reviewed by the Parks Board; and,

    (g) Prior to the issuance of a building permit, the applicant shall submit and seek approval of a final plat.

2) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

(7/21/2016 4:11 PM AA)
Fire Apparatus Access Roadway:
Approved fire apparatus access roads shall be provided for every building. The fire apparatus access road shall extend to within 150 feet of all portions of the facility and all portions of the exterior walls of the first story of the building as measured by an approved route around the exterior of the building or facility.

Exception: The fire code official is authorized to increase the dimension of 150 feet where:

1. The building is equipped throughout with an approved automatic sprinkler system installed in accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3, up to 250-ft.

2. Fire apparatus access roads cannot be installed because of location on property, topography, waterways, nonnegotiable grades or other similar conditions, and an approved alternative means of fire protection is provided.

Multiple-family residential projects having more than 200 dwelling units shall be provided with two separate and approved fire apparatus access roads . Where two access roads are required, they shall be placed a distance apart equal to not less than one half of the length of the maximum overall diagonal dimension of the property or area to be served, measured in a straight line between accesses.

Fire Hydrant Coverage:
All portions of the exterior walls of the first story of the building shall be within 600-ft. of a fire hydrant as measured by an approved route around the exterior of the facility or building.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

Fire Hydrant shall be located within 100-ft. of the Fire Department Connection (FDC) and within 8-ft. of fire apparatus access roadway.

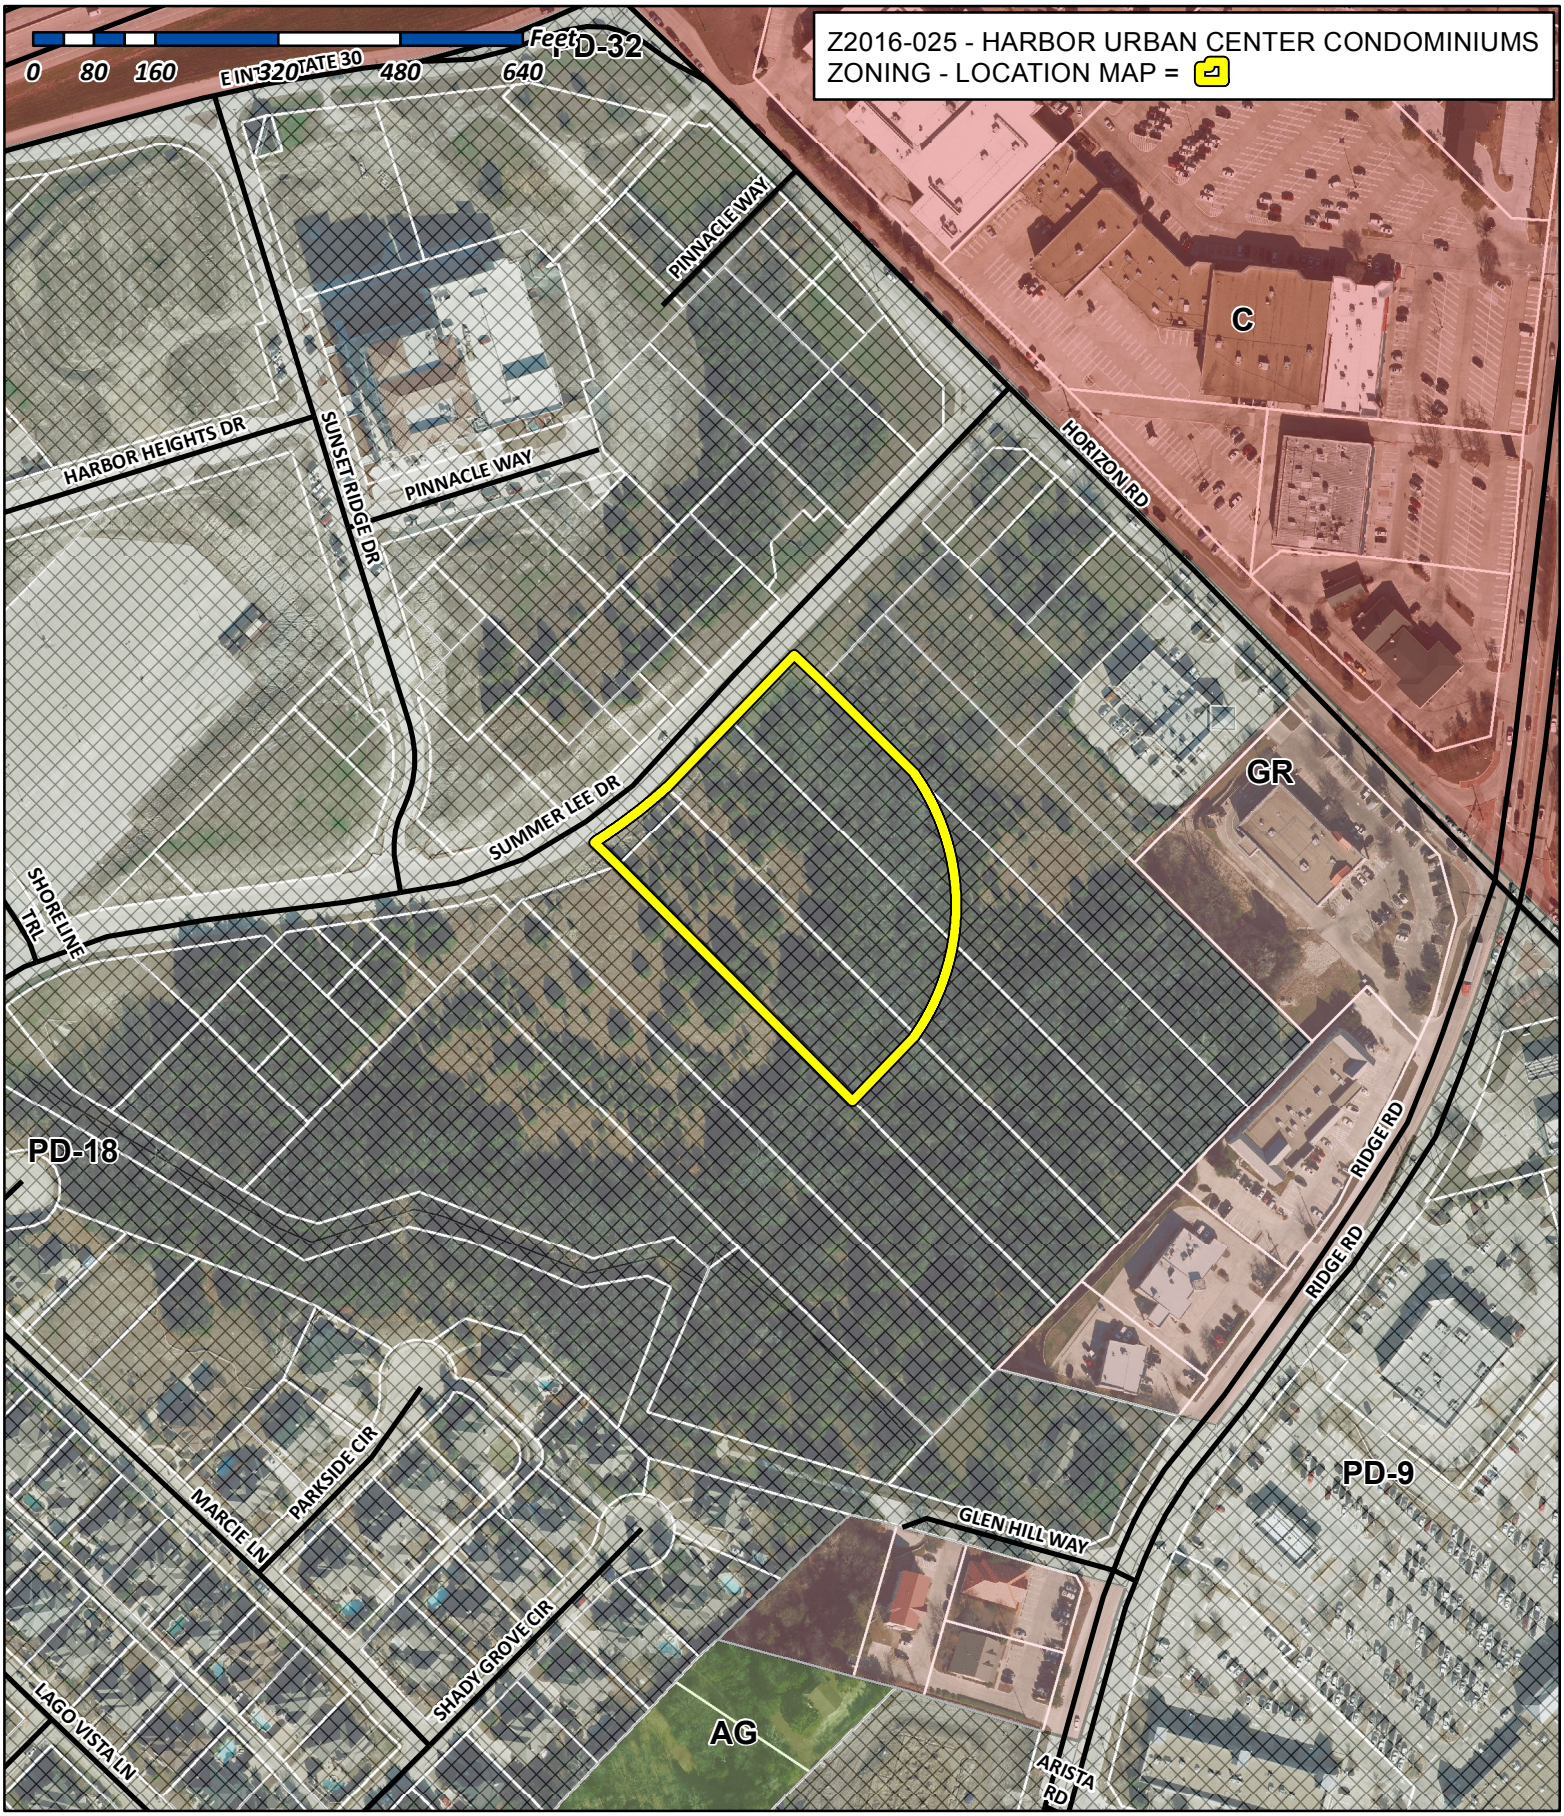
Z2016-025 (PD Development Plan for the Harbor Urban Center Condominiums): Please address the following comments (M= Mandatory Comments; I = Informational Comments).



I.1 This case is for the PD Development Plan establishing a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Residential Subdistrict and within the Scenic Overlay (SOV) District, and located north of the intersection of Ridge Road [FM-740] and Glen Hill Way.
I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 On all future submittals please include the case number (Z2016-025) in the lower right hand corner.
I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on August 9, 2016.
M.5 A legal description covering the area of the townhomes will be required to be submitted prior to the first City Council meeting.
I.6 Per conversations on July 21, 2016, it is staff's understanding that a public roadway ranging from 36 – 40 feet will be established, extending from Summer Lee Drive to the southwestern corner of the subject property.
M.7 Provide a site plan that better delineates the requested development (i.e. remove the townhome data on the right side of the page and the line work not relating to this project).
M.8 Submit four (4) sided elevations of the proposed condominium building. These will be placed in the PD Development ordinance to ensure general conformance is met at the time of site plan (Update 07/21/2016: The applicant stated that the building may be five [5] stories in height. This is permitted but must be established on the submitted building elevations. In addition, the building rendering will need to be updated).
I.9 Please note that the minimumbuilding height for the first floor is 15-feet. This is intended to provide a commercial look to the first floor of the building. It should also be noted that the Planned Development District does allow for mixed use building should the proposed development wish to incorporate commercial or office uses/flex space on the first floor (Note: most commercial and retail uses require the approval of a Specific Use Permit).
I.10 Per Ordinance No. 10-21 all elevations shall be required to be reviewed by the Architectural Review Board (ARB). This review will be required at the time of site plan approval.
I.11 If approved, an open space master plan will be required to be reviewed by the Parks Board prior to City Council approval.
I.12 If approved, the applicant will be required to submit a site plan and final plat for the subject property.
M.13 Based on the applicant's submittal staff would make the following recommendations concerning the proposed townhome development:

1) The development plan should look to incorporate a pedestrian way as required by the Interior Subdistrict's standards. See Page 4 of Resolution No. 10-40 for details on pedestrian ways.
2) The applicant should incorporate streetscape elements into the condominium development. Staff will require a streetscape plan at the time of site plan.
3) With regard to the two (2) interior courtyards depicted on the concept plan please see Page 8 of Resolution No. 10-40 for opportunities to add further amenities to the development.
4) If any portion of the parking garage is going to be visible please be aware that there are requirements contained in Planned Development District 32 (PD-32) to reduce the impact of the exposed parking areas. Additional guidelines are contained on Page 10 of Resolution No. 10-40.

All recommendations are intended to bring the plan closer into conformance with the City's Comprehensive Plan and with the intent of Planned Development District 32 (PD-32).

I.14 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due to staff on August 2, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the August 9, 2016 Planning & Zoning Meeting.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
I.15 The projected City Council dates for this case are project to be: 1) August 15, 2016 [1st Reading], and 2) September 6, 2016 (Tuesday) [2nd Reading].

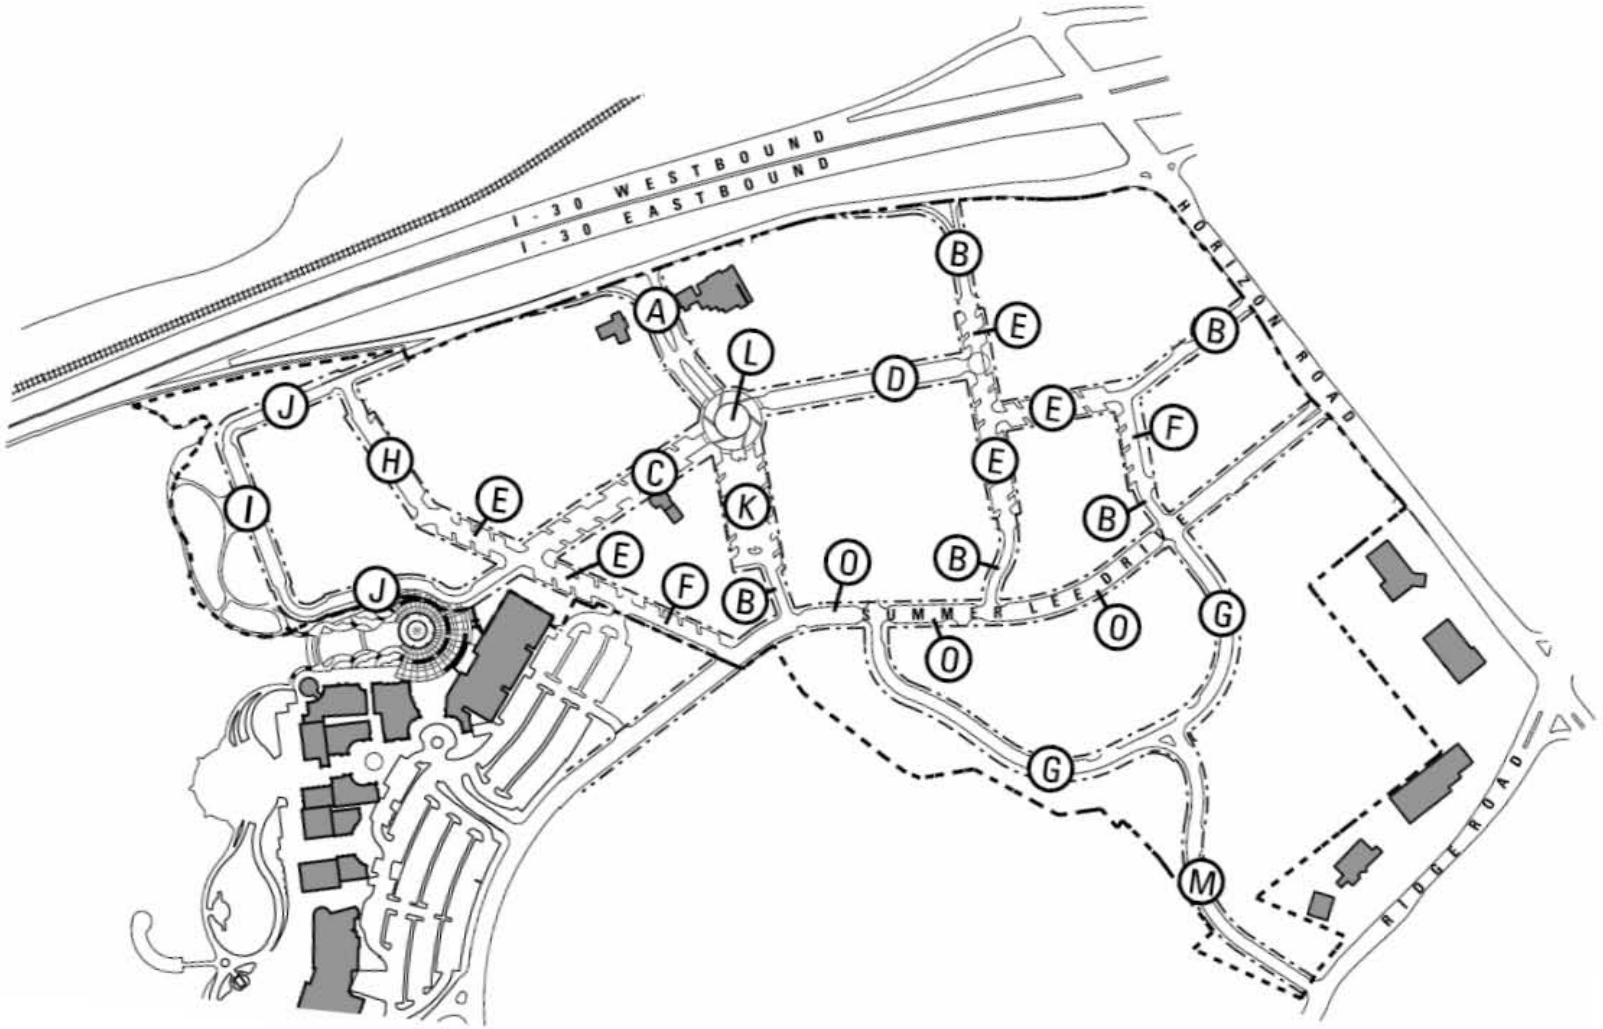
Cc:	Miller, Ryan; Gonzales, David; Brooks, Korey
Subject:	Neighborhood Noification Program: Notice of zoning request
Date:	Wednesday, July 20, 2016 11:22:20 AM

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on June 3, 2016. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-025- Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Interior Subdistrict*, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [*FM-3097*] and Summer Lee Drive, and take any action necessary.**



If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.

Sincerely,

Laura Morales
Planning & Zoning Coordinator

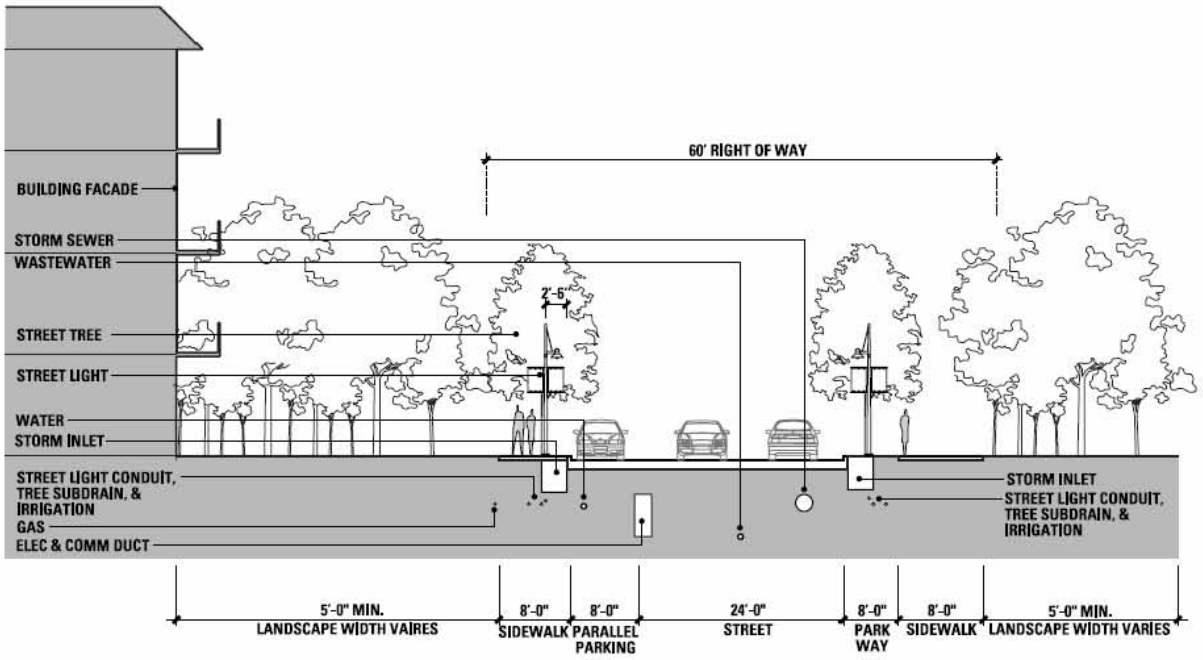
Exhibit C-4 (Page 1 of 18)
Streetscape Plan



STREET TYPES PLAN

STREET TYPE G

Street type 'G' serves as an edge to the open space subdistrict. This street type consists of parallel parking designated on one side of a 24' wide street within a 60' right of way. An 8' wide concrete sidewalk with street trees in 5' x 10' leave outs spaced at 30' O.C. and pedestrian scale street lights spaced at 60' O.C. is provided on the parallel parking side of the street. An 8' wide concrete sidewalk is provided on the open space side of the street with street trees spaced at 30' O.C. and pedestrian scale light fixtures spaced at 60' O.C. within an 8' wide parkway. Existing trees may be preserved within the right of way when possible. Longitudinal slopes on this street type are between 1% and 10%. At street intersections and key pedestrian crossing areas slopes are limited to 2% for accessibility.

INTERIOR SUBDISTRICT

The primary intent of the Interior subdistrict is to provide an area that can function as either office, residential, or senior living use. Key characteristics of this subdistrict include good views of Lake Ray Hubbard and adjacency to open space. Existing slopes within this subdistrict are in the 6% - 10% range. Significant massing of existing trees are also present within this subdisctrict which should be preserved where possible.

Building Placement

Setback (Distance from R.O.W. line)

Summer Lee Drive	20'
Street Type G	5' minimum, 20' minimum average

Building Form

Each building must have a minumum of 30% of the length of its façade fronting Summer Lee Dr located on the 20' setback line.

Maximum Lot Coverage	60%

Notes

When an abutting property with an existing building has windows facing to the side, any new building shall provide at least 10 feet of separation.

Use

Ground Floor

Residential
Office
Senior Living

Upper Floors

Residential
Office
Senior Living

Height

	stories / height
Maximum Building Height	5 / 75'
Minimum 1st floor commercial Height (with other uses above)	15'

Encroachments

Location

Summer Lee Drive	5'
Street Type G	5'

Notes

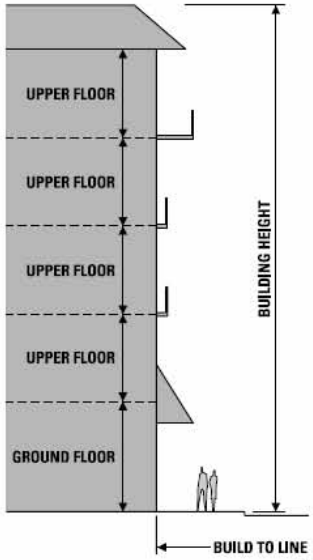
Canopies, awnings, balconies, and roof overhangs may encroach over the BTL as shown in the table above.

Parking

Surface Parking Setback (Distance from R.O.W. line)

Street Type G	10'
Summer Lee Drive	15'

Surface Parking Lots



A maximum of 10% of the total parking for this subdistrict may be surface parking.

Driveways (Maximum number per block face)

Street Type G	3
Summer Lee Drive	2

Pedestrianways (Minimum number per block face)

Street Type G	1
Summer Lee Drive	1

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 32 (PD-32) [*ORDINANCE NO. 10-21*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A DEVELOPMENT PLAN FOR A 3.453-ACRE PORTION OF A LARGER 6.915-ACRE TRACT OF LAND IDENTIFIED AS LOTS 3A, 4A & 5A, ISAAC BROWN ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Jason Lentz of Atticus Real Estate on behalf of Atticus Rockwall, LLC for the approval of a PD Development Plan for a 245 unit, condominium development to be situated within the *Interior Subdistrict* of Planned Development District 32 (PD-32) on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*], as heretofore amended, shall be further amended by amending the *Concept Plan* approved with *Ordinance No. 10-21* and the official zoning map of the City of Rockwall so as to approve a *PD Development Plan* for the *Subject Property*; and,

Section 2. That development of the *Subject Property* shall generally be in accordance with the *PD Development Plan*, depicted in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*; and,

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Concept Building Elevations*, depicted in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of

DRAFT ORDINANCE 08.15.16

approval of the amended zoning classification for the *Subject Property*; and,

Section 4. That the *Subject Property* shall be used only in the manner and for the purposes provided for in Planned Development District 32 (PD-32) [*Ordinance No. 10-21*], the Unified Development Code [*Ordinance No. 04-38*], and in compliance with the following conditions and requirements:

1) The north/south public road connecting Summer Lee Drive to the southwest corner of the subject property shall be designed and constructed in accordance with the *Street Type 'G$_1$'* standards stipulated in *Exhibit 'D'* of this ordinance; and,

2) The minimum building setback adjacent to *Street Type 'G$_1$'* shall be two (2) feet. This can be reduced to one (1) foot if the right-of-way width is increased to 37-feet; and,

3) Any portion of the sidewalk situated outside of the right-of-way shall be required to be placed within a *Pedestrian Access Easement* on the final plat; and,

4) Prior to the submittal of a final plat the applicant shall submit and seek approval of a detailed site plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and this ordinance, and with the guidelines contained in *Resolution No. 10-40*; and,

5) The building elevations submitted with the site plan will require a recommendation from the Architectural Review Board (ARB) prior to approval by the Planning and Zoning Commission (*and City Council if necessary*); and,

6) An open space master plan will need to be submitted with the site plan. The open space master plan will need to be reviewed by the Parks Board; and,

7) Prior to the issuance of a building permit, the applicant shall submit and seek approval of a final plat.

Section 5. The official zoning map of the City of Rockwall, Texas be corrected to reflect the changes in zoning described in this ordinance;

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that

DRAFT ORDINANCE 05.2016

is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 6TH DAY OF SEPTEMBER, 2016.

DRAFT ORDINANCE 08.15.2016

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 08/09/2016

APPLICANT: Jason Lentz; *Atticus Rockwall, LLC*

AGENDA ITEM: **Z2016-026**; *Harbor Urban Center Townhomes*

SUMMARY:

Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Residential Subdistrict and within the Scenic Overlay (SOV) District, located north of the intersection of Ridge Road [FM-740] and Glen Hill Way, and take any action necessary.

BACKGROUND:

On September 20, 2010, the City Council passed *Ordinance No. 10-21* [*Planned Development District 32 (PD-32)*], which established a concept plan and development standards for the approximate 78.89-acre tract of land commonly referred to as *PD-32* or the *Harbor District*. Within the approved concept plan, *PD-32* was divided into ten (10) subdistrict that contained individual development and land use standards. The subject property is a 3.462-acre tract of land located within the *Residential Subdistrict*, which -- according to the *PD Ordinance* -- is "… reserved for zero lot line single family residential housing ... (a) lower volume of traffic in this area of the Harbor District make this subdistrict ideal for single family use."

REQUEST:

On July 15, 2016, the applicant, Jason Lentz, submitted an application for a *PD Development Plan* showing the proposed layout for a 36-unit townhouse development on the 3.462-acre subject property. According to the *Subdistrict Land Use Chart* contained in *Exhibit 'D'* of Planned Development District 32 (PD-32) [*Ordinance No. 10-21*], the *Townhouse* land use requires a Specific Use Permit (SUP) within the *Residential Subdistrict*; however, since the intent of the *Residential Subdistrict* is for the construction of single-family, zero lot line homes -- *with rear entry garages* -- and the applicant's request does not meet this intent, staff has requested that the applicant submit a *PD Development Plan* in conformance with *Section 9.A, Procedures,* of *Ordinance No. 10-21*. Since a *PD Development Plan* acts as an amendment to the *PD Ordinance*, an SUP will not be required if the request is approved by the City Council. In addition, the *PD Development Plan* grants the City Council the same discretionary approval over the development and proposed land use as an SUP.

CHARACTERISTICS OF THE REQUEST:

The concept plan for the *Residential Subdistrict* calls for 49 single-family, zero-lot-line homes fronting on to a *Street Type 'M'*. The *Streetscape Plan* contained in *Exhibit 'C'* of *Ordinance No. 10-21* defines a *Street Type 'M'* as a single-family residential neighborhood street that consists of 50-feet of right-of-way, a 30-foot wide street, and five (5) foot sidewalks provided on both sides of the street. In addition, the *Streetscape Plan* calls for a *Street Type 'N'*, which is intended to serve as an alleyway within the *Residential Subdistrict.*

The *PD Development Plan* submitted by the applicant shows the layout for the proposed townhouse development, which will incorporate private streets and amenities, front entry garages and rows of four (4) to five (5) townhomes. The development will be accessible from two (2) main points of entry, the first from a public roadway that will be constructed (*if approved*) with the Harbor Urban Center Condominiums [*Case No. Z2016-026*] and a future roadway that will connect the Harbor District to Ridge Road [*FM-740*]. The proposed unit mix for the townhouse is as follows:

Table 1: Unit Composition

Unit Name	Unit Type	Minimum Net Unit Area (SF)	Number of Units (#)	Total Area (SF)	Units as Percentage (%)
THA	*1 Bedroom/1.5 Bath*	1,622 SF	9	14,598 SF	25%
THB	*2 Bedroom/ 1.5 Bah*	1,694 SF	11	18,634 SF	31%
THC1	*3 Bedroom/2.5 Bath*	1,882 SF	7	13,174 SF	19%
THC2	*3 Bedroom/Media Room/2.5 Bath*	2,571 SF	3	7,713 SF	8%
THD	*3 Bedroom/2.5 Bath*	2,163 SF	6	12,978 SF	17%
		Average Net Unit Area:		***1,863.81 SF***	
		Total Units:	***36***		***100.00%***

Staff should note that *Ordinance No. 10-21* does not establish minimum unit sizes for residential units within the *Residential Subdistrict*, nor does the ordinance establish design standards for townhouses. The *Residential Policies* contained in *Resolution No. 07-03* [*i.e. the Appendix 'A' of the Comprehensive Plan*] do state that all townhouses *must* have rear-entry garages. In this case, the applicant is proposing to have a front-entry product that will be accessible off a private street. The applicant has stated that the product is designed to have one (1) of the keystone townhouses (*i.e. the townhouses situated on the corner or at the end of a row*) accessible with a side entry garage, which could mitigate some of the concern over a traditional front-entry product. This means that in a row of five (5) townhouses only four (4) will have front-entry garages. This is depicted in the concept building elevations submitted by the applicant and attached to this case memo. In addition, *Resolution No. 07-03* states, "(h)omes should differ in appearance through the use of varying entry features, use of detail and trim, use of materials, articulation and setback." The proposed development is meant to function as an enclosed community and as a result, the applicant is proposing a uniform design scheme. Based on the concept building elevations, the units will be constructed from stone and stucco, and will incorporate varying roof pitches and stone chimneys that help vary the façades of each building. Staff has included the concept building elevations in the attached draft ordinance and general conformance to these elevations is a consider to be a condition of approval.

In granting a *PD Development Plan* within Planned Development District 32 (PD-32) the City Council needs to decide if the proposed development -- *while not meeting the intent of the subdistrict* -- meets the following criteria:

(a) Meets the general intent of the *PD District*; and,
(b) Will result in an improved project which will be an attractive contribution to the *PD District*; and,
(c) Will not prevent the implementation of the intent of this *PD District*.

A *PD Development Plan* is a discretionary approval for the City Council, and should the City Council choose to grant the request this request the applicant will still need to submit a site plan that will be reviewed by the Architectural Review Board (ARB) and the Planning and Zoning Commission.

NOTIFICATION:

On July 22, 2016, staff mailed 52 notices to property owners and residents within 500-feet of the subject property. Staff also emailed notices to the Lago Vista Homeowner's Associations (HOA), which is the only HOA's located within 1,500-feet of the subject property. Additionally, staff posted a sign on the subject property along Summer Lee Drive as required by the Unified Development Code

(UDC). At the time, this case memo was drafted two (2) responses in favor of the request and one (1) response opposed to the request were received by staff.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request for a *PD Development Plan* for Planned Development District 32 (PD-32), then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

    (a) Cross access (*as depicted in Exhibit 'B' of attached draft ordinance*) shall be provided to the property directly north of the subject property;

    (b) Prior to the submittal of a final plat the applicant shall submit and seek approval of a detailed site plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and the attached draft ordinance, and with the guidelines contained in *Resolution No. 10-40*; and,

    (c) The building elevations submitted with the site plan will require a recommendation from the Architectural Review Board (ARB) prior to approval by the Planning and Zoning Commission (*and City Council if necessary*); and,

    (d) An open space master plan will need to be submitted with the site plan. The open space master plan will need to be reviewed by the Parks Board; and,

    (e) Prior to the issuance of a building permit, the applicant shall submit and seek approval of a final plat.

2) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

(7/21/2016 4:13 PM AA)
Fire Apparatus Access Roadway:
Approved fire apparatus access roads shall be provided for every building. The fire apparatus access road shall extend to within 150 feet of all portions of the facility and all portions of the exterior walls of the first story of the building as measured by an approved route around the exterior of the building or facility.

Exception: The fire code official is authorized to increase the dimension of 150 feet where:

1. The building is equipped throughout with an approved automatic sprinkler system installed in accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3, up to 250-ft.

Fire Hydrant Coverage:
All portions of the exterior walls of the first story of the building shall be within 600-ft of a fire hydrant as measured by an approved route around the exterior of the facility or building.

Fire Hydrant shall be located within 100-ft. of the Fire Department Connection (FDC) and within 8-ft. of fire apparatus access roadway.

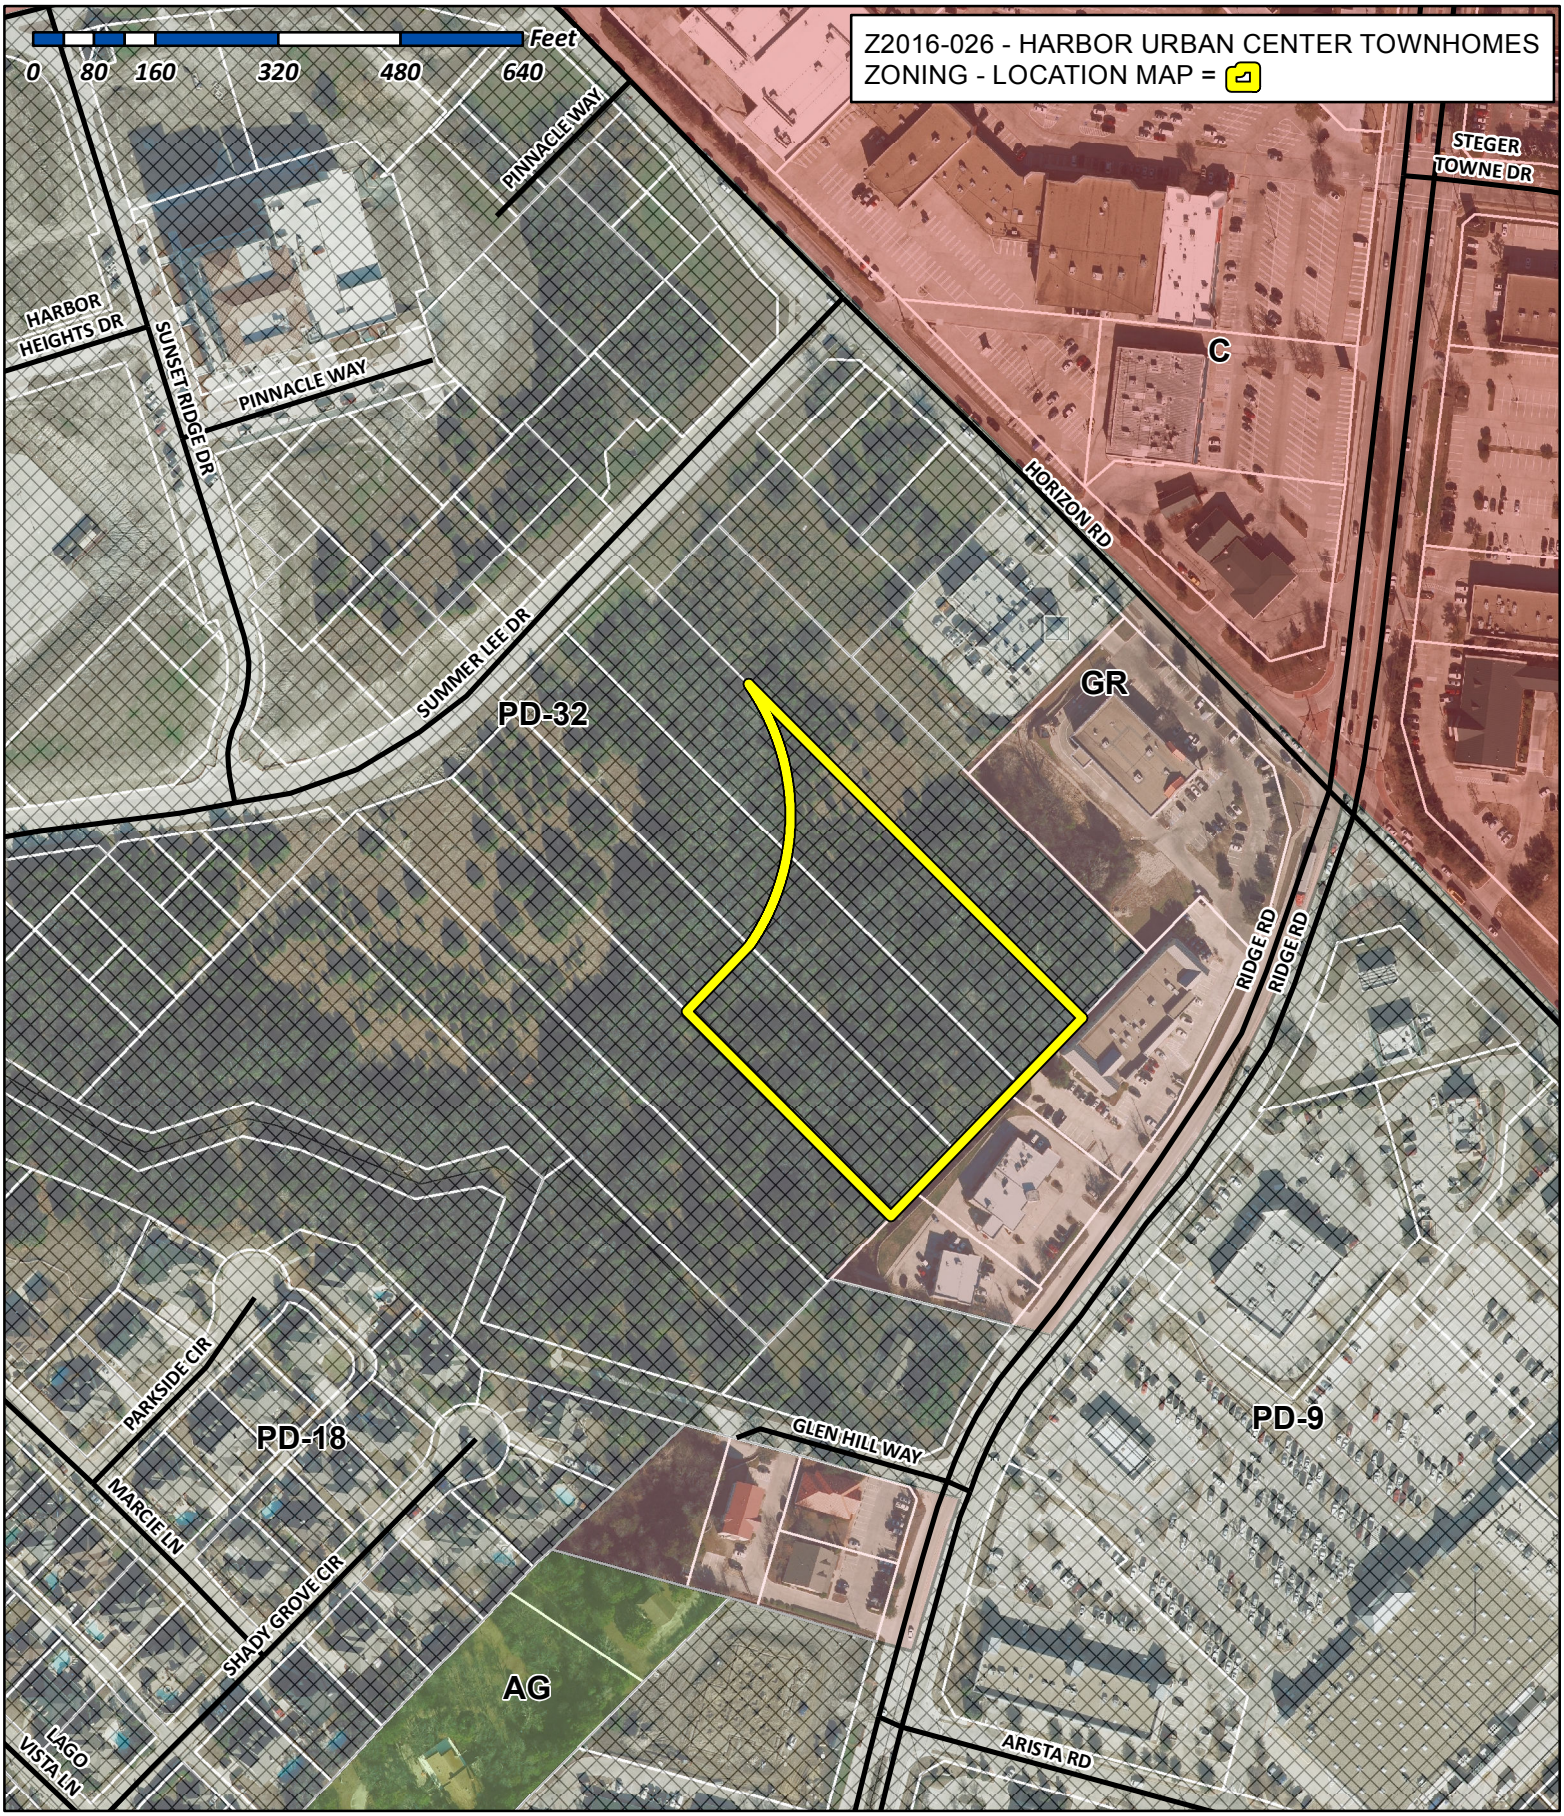
Z2016-026 (PD Development Plan for the Harbor Urban Center Townhomes): Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This case is for the PD Development Plan establishing 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A,

Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Residential Subdistrict and within the Scenic Overlay (SOV) District, and located north of the intersection of Ridge Road [FM-740] and Glen Hill Way.
I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 On all future submittals please include the case number (Z2016-026) in the lower right hand corner.
I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on August 9, 2016.
M.5 A legal description covering the area of the townhomes will be required to be submitted prior to the first City Council meeting.
I.6 According to Ordinance No. 10-21, "…adequate access necessary to serve that development in conformance with the streetscape plan for the Sub-District or with Exhibit C-4 [Streetscape Map] shall be constructed." In this case, the development does not conform to the streetscape map for the district and reduces access for the property to the north. Due to this and the proposed use not conforming to the intent of the Residential Sub-District, staff is requiring a PD Development Plan. According to the use charts contained in PD-32 townhomes require a Specific Use Permit; however, since the project will require City Council to approve a PD Development Plan, which will change the intent of the Sub-District the Specific Use Permit will not be required. Please see staff's recommendations below for strategies to reduce impact within the Sub-District.
M.7 Provide a site plan that betterdelineates the requested development (i.e. remove the condominium data on the right side of the page and the line work not relating to this project -- the roadway that would connect this project to Summer Lee Drive should remain on the plan [roadway referenced below]).
M.8 Submit four (4) sided elevations of the proposed townhomes. These will be placed in the PD Development ordinance to ensure general conformance is met at the time of site plan.
I.9 The submitted rendering does not seem to match the submitted concept plan. The elevation shown on the rendering does not include garages and all buildings adjacent to the roadway have garages [this is also true with regard to the submitted building elevations].
I.10 Per Ordinance No. 10-21 all elevations shall be required to be reviewed by the Architectural Review Board (ARB). This review will be required at the time of site plan approval.
I.11 If approved, an open space master plan will be required to be reviewed by the Parks Board prior to City Council approval at the time of final plat..
I.12 If approved, the applicant will be required to submit a site plan and final plat for the subject property.
M.13 Are these townhomes on individual lots? If they are on individual lots please submit a subdivision plan showing how the development will be subdivided and indicating minimum .lot width and depth. If the development is intended to be one (1) lot please indicate how ownership will be calculated (i.e. as a share of the total development or other). This is needed to establish conformance with the intent of the Sub-District.
M.14 Based on the applicant's submittal staff would make the following recommendations concerning the proposed townhome development:

1) The applicant should consider incorporating alleyways with rear-facing garages. According to the City's Comprehensive Plan "Townhouses should have a minimum required square footage of livable space (e.g. 1,200 SF), with no maximum size … Townhouses mustalso have rear-entry garages."
2) The streets within the development should be public streets to allow connectivity for adjacent properties. Currently, the applicant's plan limits the connectivity of the adjacent property (i.e. the property directly northeast of the subject property), and changes the adjacent property owners ability to conform to the plan (Update 07/21/2016: The applicant has stated that a cross access easement with a stub out to the adjacent property to the north will be provided. This should provide sufficient cross access).
3) The townhome property should connect to the roadway extending adjacent to the condominium project in order to increase connectivity and access to the site. It should also be pointed out that under the current development scheme the townhome site would not be able to be developed until the adjacent properties construct future roadways.
4) The applicant should consider patterning the internal streets of the development off the mew concept contained on Page 5 of Resolution No. 10-40. Staff will review the streetscape elements with the site plan.
5) The applicant should consider incorporating parallel or niche parking to accommodate visitors.
6) The applicant should incorporate streetscape elements into the townhome development. Staff will require a streetscape plan at the time of site plan.



All recommendations are intended to bring the plan closer into conformance with the City's Comprehensive Plan and with the intent of Planned Development

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

District 32 (PD-32).

I.15 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due to staff on August 2, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the August 9, 2016 Planning &Zoning Meeting.

I.16 The projected City Council dates for this case are project to be: 1) August 15, 2016 [1st Reading], and 2) September 6, 2016 (Tuesday) [2nd Reading].

PLEASE RETURN THE BELOW FORM

Case No. Z2016-026: Harbor Urban Center Townhomes

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☑ I am opposed to the request for the reasons listed below.

This area is much too closed in for such an uneventful and wooded area. Big infringement on the beautiful single leaving houses close by. Big bad move.

Name: Vashti Hassanizadeh

Address: 1523 Parkside Circle Rockwall TX 75032

Tex. Loc. Gov. Code, Sec. 211.006 (d) **If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either: (1) the area of the lots or land covered by the proposed change; or (2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.**

Subject: Neighborhood Noification Program: Notice of zoning request
Date: Wednesday, July 20, 2016 11:22:32 AM

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on June 3, 2016. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-026- Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Residential Subdistrict* and within the Scenic Overlay (SOV) District, located north of the intersection of Ridge Road [*FM-740*] and Glen Hill Way, and take any action necessary.**

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.

Sincerely,

Laura Morales
Planning & Zoning Coordinator

RESIDENTIAL SUBDISTRICT

The Residential subdistrict is reserved for zero lot line single family residential housing. A lower volume of traffic in this area of the Harbor District make this subdistrict ideal for single family use. Key characteristics of this subdistrct include adjacency to open space and steep slopes which offer views of the surrounding area. Existing slopes within this subdistrict are in the 6% - 16% range. This subdistrict is predominately vegetated by massing of existing trees which should be preserved when possible.

Building Placement

Build-to-line (Distance from R.O.W. line)		
Street Type M	10'	

Setback (Distance from R.O.W. line)	
Street Type N	5'
Side	8'
Zero Lot Line	0'

A minimum of 50% of the boundary with the Open Space Subdistrict along street type G must be a public street (type M).

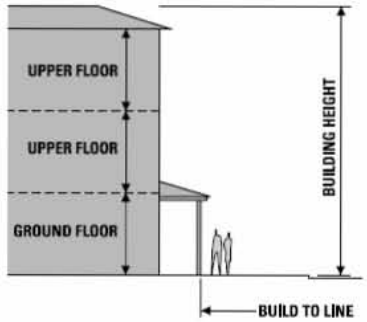
Building Form		
Street Type M façade built to BTL	65%	min.
Maximum Lot Coverage	61%	
Minimum Lot Size	30' x 90'	

Notes

Use

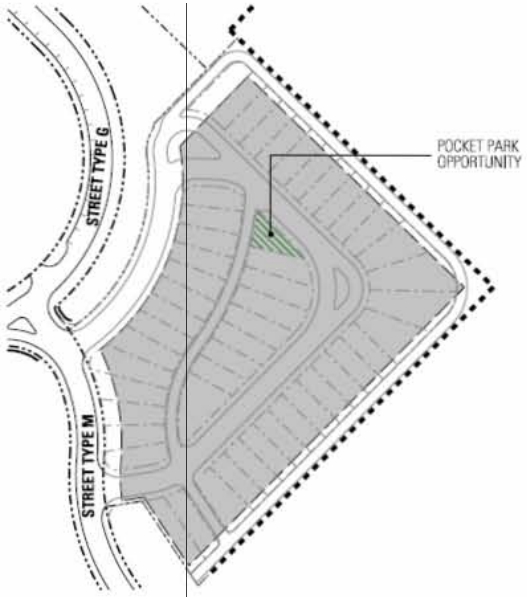
Ground Floor	
	Residential

Upper Floors	
	Residential



Height

	stories / height
Maximum Building Height	3 / 36'



Encroachments

Location	
Front	5'

Notes
Steps, stoops, and roof overhangs may encroach over the BTL as shown in the table above.

3 Story S.F. Residential

RESIDENTIAL SUBDISTRICT

FLOOR PLAN/ELEVATION REPETITION

To avoid repetition and a monotonous look to the subdistrict environment, the following guidelines apply regarding the repetition of floor plans and elevations:

Case 1
When building a house having the **same floor plan** and the **same elevation**, whether on the **same or opposite side** of the street, four (4) full lots must be skipped. Different paint color must be used. See Figure A.

Case 2
When building a house having the **same floor plan** and a **different elevation** on the **same side** of the street, three (3) full lots must be skipped. Different paint color must be used. See Figure B.

Case 3
When building a house having the **same floor plan** and a **different elevation** on the **opposite side** of the street, two (2) full lots must be skipped. Different paint color must be used. See Figure B.

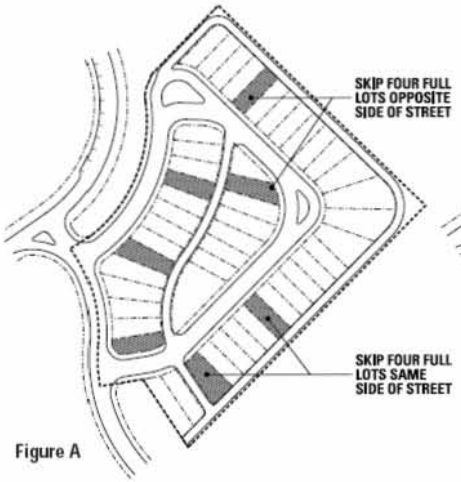


Figure A

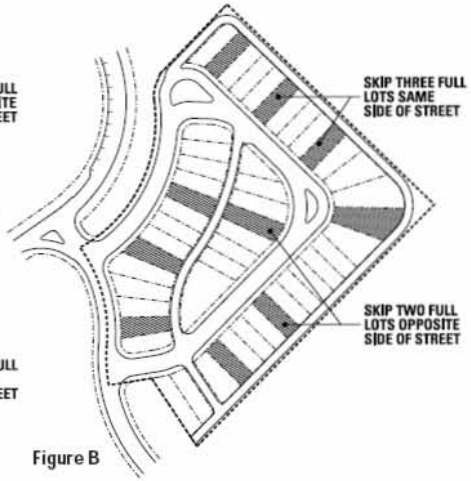

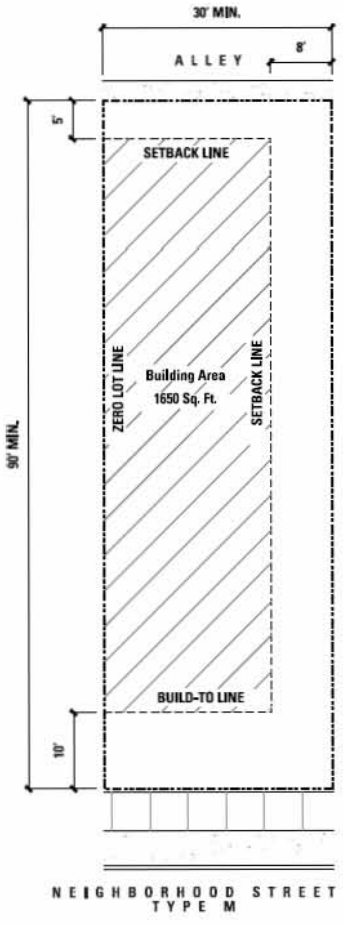

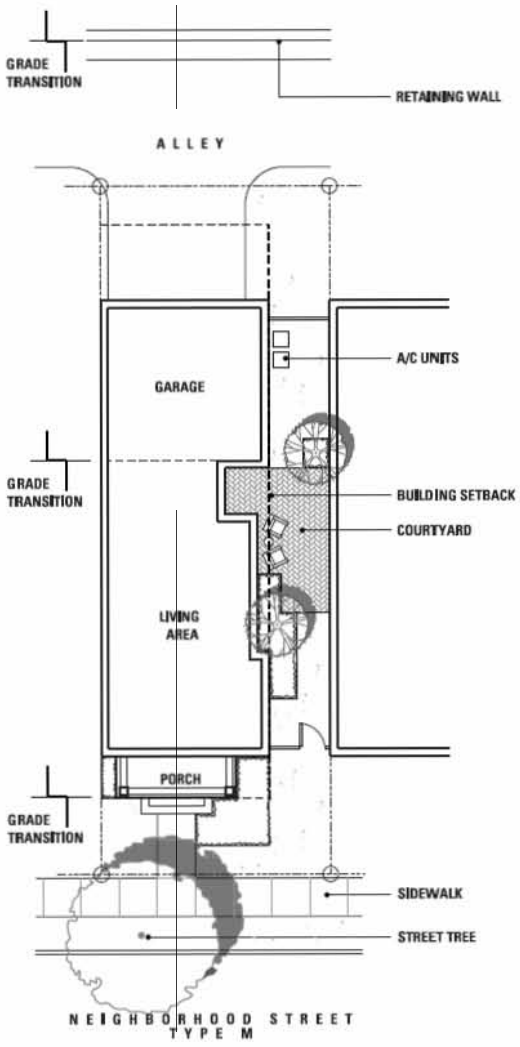

Figure B

RESIDENTIAL SUBDISTRICT

ARCHITECTURAL GUIDELINES

Site Layout, Grading and Drainage

1. Runoff onto adjacent properties is prohibited.

4. Finished floor elevations shall be set in order to provide positive drainage away from all buildings.

5. Create smooth slope transitions, blending with natural grades, with maximum slopes in lawn areas being 4:1.

6. Do not run drainage swales from planting areas across paved areas.

Landscape Structures

1. Basketball goals, play structures, swing sets and similar elements may only be located in side or rear yards.

2. All vertical construction including garages, gazebos, arbors, barbeques and fireplaces must comply with front, side and rear setbacks.

3. Use materials, forms, styles and colors which match or are complementary to the architectural style and detailing of the house.

Pools and Water Features

1. Swimming pools, spas and water features must comply with front, side and rear setbacks. Above grade pools or spas are not permitted.

2. Fencing or design solutions which provide enclosures in accordance with local ordinances and regulations must be provided.

3. Mechanical equipment for pools and spas must be located so as to not be visible from adjacent properties or the street. Locate or enclose equipment to minimize noise intrusion.

Lighting, Utilities and Service

1. Exterior ornamental and accent lighting may be used in moderation to complement landscape and architectural features. Light fixtures shall have appropriate light cutoff shields to prevent unwanted glare to neighboring properties and streets.

2. Post mounted light fixtures and bollard lighting are not permitted. Pathway lighting may be used, limited to 18 inches in height.

3. Colored, fluorescent and neon lighting is prohibited. Obtrusive HID security lighting fixtures are prohibited.

4. Exposed exterior floodlights or wall packs are not permitted.

5. All site utilities shall be underground. Transformers, meters and other utility equipment shall be screened by planting or by architectural means. Avoid clipped hedges around utility boxes.

Irrigation Design

1. Irrigation is required for all home sites and shall be an automatic, underground system with rain and freeze sensors.

2. Design irrigation systems to separately circuit irrigation zones for plant materials having different watering requirements, such as lawns and shrubs.

3. Prevent overspray onto streets, pedestrian walks, driveways and buildings.

Driveways

1. Driveways shall be paved with concrete, pavers, or integrally colored concrete with charcoal grey color. Chemical staining enhancements are not permitted. Driveways may not be painted with an opaque coating.

Garages

1. Garages must be rear loaded from an alley.

2. All garages must hold a minimum of one and a maximum of two cars. Guest parking spaces shall be on street.

Building Massing

1. The house footprint shall be composed of squares and rectangles placed at right angles to one another. The geometry of each of these shapes shall be uninterrupted by adjacent shapes.

2. All building footprints shall be at right angles to the property lines. Compose house forms to create exterior space.

3. Massing may be either symmetrical or asymmetrical. The dominant architectural mass shall be located near the center of the composition.

Roofs

1. The individual shapes which compose the house footprint shall each be roofed by a symmetrical gable, hip, or a simple roof form.

2. The geometry of each roof form shall be uninterrupted by adjacent roof forms. Valleys are discouraged, except for dormers.

Wall Materials

1. Exterior wall materials shall be any of the following:
   A. Fiber cement board siding and shingles, primed and painted, "Hardie" type boards. Siding shall be installed horizontally only, lapped clap board style with narrow lap exposures preferred over wide exposures.
   B. Portland cement stucco with integral color
   C. Brick masonry
   D. Stone masonry
   E. Cast stone masonry
   F. Fireplace masses and chimneys shall be clad in noncombustible materials to match exterior house materials.
   G. Aluminum, masonite, and vinyl siding are not permitted.

2. Exterior wall materials may change at a vertical line which delineates a change in building form, or along horizontal lines.

Exterior Finishes

1. All wood and composite surfaces shall be finished with paint, applied over an appropriate primer. Opaque and semi-opaque stain may be used.

Trim

1. All trim, where used, shall be cement fiber board, cedar, or quality wood products. Trim shall be a minimum 3/4" thick with flat surfaces. Built up assemblies, shaped profiles, and ornamental embellishments are to be avoided.

RESIDENTIAL SUBDISTRICT

ARCHITECTURAL GUIDELINES

Doors

1. All exterior doors shall be wood or metal, hinged, of rail and stile construction, with 1 to 6 panels. Dormers above doors are encouraged. Panels shall be glazed or flat wood (not raised panels). Doors shall be painted.

2. Exterior doors shall be swing type, of solid wood or wood veneer, and shall be painted, or clad in pre-finished metal.

Screen Doors

1. Screen doors are allowed. Screen doors shall be of wood rail and stile construction, with 1 to 6 panels. All panels shall be screened. Screen doors shall be painted.

2. Storm doors are not permitted at the front door but are allowed at side and rear doors.

Garage Doors

1. Garage doors shall be overhead roll-up construction with horizontal insulated metal panels.

2. Garages may have maximum 18 foot wide doors.

Exterior Door Hardware

1. Oversize or overly ornamented door hardware or escutcheon trim plates are not permitted on the front door.

Windows

1. Windows shall be casements, awnings, or double or single hung. Each window shall be glazed by a single panel of insulated glass, or may be divided into no more than 4 panels. Fake mullions are discouraged.

2. Windows may be of wood, thermally broken aluminum or aluminum-clad wood construction. Vinyl or vinyl-clad construction is not permitted.

3. All operable windows shall be equipped with insect screens.

4. Bay windows shall be glazed a minimum of 80% of their width.

Exterior Window Shutters

1. Window shutters are permitted provided they are proportioned to fully cover the windows they would protect. Shutters may be wood or synthetic.

Awnings

1. Window awnings are not permitted, with the exception of shutter awnings.

Glazing

1. Window and door glazing shall be clear, insulated, double-pane, low-emissivity glass. Applied window films are not permitted.

Roofs

1. Roofs may be covered in composite asphalt shingles. Composition shingles must be minimum 25 year dimensional, laminated type. Flat, 3-tab shingles will not be permitted. An example of approved roof shingle type is Tamko "Heritage 30." Standing seam metal roofing and other metal roof types may be used.

2. All roof penetrations, other than chimneys, shall be grouped as far from frontages as possible, shall not be visible from the street and shall be painted as needed to match roof. Skylights shall not be visible from the street.

3. All soffit venting shall be 2 inch continuous venting or perforated "Hardisoffit" panels. No box vents shall be used. No vinyl material may be used.

4. Dormers shall be appropriately proportioned, hip or gable, with a minimum 6/12 pitch. They shall be glazed a minimum of 90% of their face and must be open to the interior roof area beyond.

5. Roof ventilation dormers are permitted only on the side and rear elevations and must be vented a minimum of 90% of their face.

6. Dormers shall have minimum overhangs and eaves. Stucco or "Hardi" Siding or Panels are recommended in dormer gables.

7. All exposed metal flashing shall be unpainted galvalume, paint-grip or galvanized steel.

8. Roof attic vents shall be continuous ridge vents such as "Cool Ridge." Powered attic vents are not allowed. Turbine vents may be allowed by variance, but must not be visible from the street.

9. Satellite dishes and roof antennae shall not be visible from the street.

Chimneys

1. All chimneys must be fitted with a galvanized metal chimney cap with a 'roof' that is the same size and shape as the chimney it covers. The roof form may be flat or hipped.

2. The chimney cap must include metal mesh, screen or grid to prevent animals from entering the chimney. Acceptable products include the series of black galvanized chimney caps by Gelco.

3. Acceptable finishes are natural 'paint-grip' galvanized or painted galvanized.

Rain Gutters

1. Rain gutters and downspouts may be of any profile compatible with the style of the house and roof. Gutters and downspouts shall be located in a way as to not draw attention to themselves.

2. Gutters and downspouts shall be unpainted galvalume, "paint-grip" steel or zinc finishes, although prefinished metal finishes may be permitted.

3. Downspouts shall terminate at splash blocks, gravel, brick or concrete.

Paint

1. All exterior finish coat paint shall be acrylic latex or latex enamel.

RESIDENTIAL SUBDISTRICT

ARCHITECTURAL GUIDELINES

Porch Construction

1. Porch columns shall be wood posts, minimum 6 x 6, painted and free of ornamentation.
2. Porches shall have wood railings. Railing details must be included with plan submissions for approval.
3. Porch floors shall be concrete, stone or brick. Porch construction shall be concrete slab foundation, built as part of the house.
4. Porches and covered balconies may be screened at the rear of the homes only.

Elements Not Permitted

The following list of elements are not permitted in the development:

Window A/C units
Exterior fluorescent lighting
Solar powered landscape lighting
Soffit/cornice lighting visible from a public way
Skylights visible from a public way
Antennas or satellite dishes greater than 18" dia.
Decorative flags - properly displayed American flags are allowed
Concrete statuary visible from public way
Plastic furniture or artificial plants visible from a public way
Asphalt or gravel drives

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 32 (PD-32) [*ORDINANCE NO. 10-21*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A DEVELOPMENT PLAN FOR A 3.462-ACRE PORTION OF A LARGER 6.915-ACRE TRACT OF LAND IDENTIFIED AS LOTS 3A, 4A & 5A, ISAAC BROWN ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Jason Lentz of Atticus Real Estate on behalf of Atticus Rockwall, LLC for the approval of a PD Development Plan for 36 townhomes to be situated within the *Residential Subdistrict* of Planned Development District 32 (PD-32) on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*], as heretofore amended, shall be further amended by amending the *Concept Plan* approved with *Ordinance No. 10-21* and the official zoning map of the City of Rockwall so as to approve a PD Development Plan for the *Subject Property*; and,

Section 2. That development of the *Subject Property* shall generally be in accordance with the *PD Development Plan*, depicted in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*; and,

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Concept Building Elevations*, depicted in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of

DRAFT ORDINANCE 08.30.16

approval of the amended zoning classification for the *Subject Property*; and,

Section 4. That the *Subject Property* shall be used only in the manner and for the purposes provided for in Planned Development District 32 (PD-32) [*Ordinance No. 10-21*], the Unified Development Code [*Ordinance No. 04-38*], and in compliance with the following conditions and requirements:

1) Cross access (*as depicted in Exhibit 'B' of this ordinance*) shall be provided to the property directly north of the subject property;

2) Prior to the submittal of a final plat the applicant shall submit and seek approval of a detailed site plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and this ordinance, and with the guidelines contained in *Resolution No. 10-40*; and,

3) The building elevations submitted with the site plan will require a recommendation from the Architectural Review Board (ARB) prior to approval by the Planning and Zoning Commission (*and City Council if necessary*); and,

4) An open space master plan will need to be submitted with the site plan. The open space master plan will need to be reviewed by the Parks Board; and,

5) Prior to the issuance of a building permit, the applicant shall submit and seek approval of a final plat.

Section 5. The official zoning map of the City of Rockwall, Texas be corrected to reflect the changes in zoning described in this ordinance;

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and

DRAFT ORDINANCE 08.09.2016

the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 6TH DAY OF SEPTEMBER, 2016.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: August 9, 2016

SUBJECT: Z2016-027; *Amendment to the Minimum Square Footage Requirements*

On July 5, 2016, the City Council directed staff to prepare a text amendment increasing the minimum square footage requirements for dwelling units in the Single Family 10 (SF-10) and Single Family 16 (SF-16) Districts. In addition, the Council directed staff to establish a minimum square footage requirement for dwelling units in the Agriculture (AG) District. Specifically, the motion by the City Council directed staff to establish the following:

- ☑ Single Family 16 (SF-16) District: 2,400 SF
- ☑ Single Family 10 (SF-10) District: 2,200 SF
- ☑ Agricultural (AG) District: 1,600 SF

This motion passed by a vote of 5-2, with Council Members White and Lewis dissenting. In accordance, with Section 4.2 of Article XI, *Zoning Related Applications*, of the Unified Development Code (UDC) staff is bringing the proposed amendments forward to the Planning and Zoning Commission for a recommendation to the City Council. Per the Planning and Zoning Commission's request at the work session on July 26, 2016, staff has compiled a summary of all single-family building permits issued, by zoning district, for a period starting on January 1, 2011 and ending July 27, 2016. It should be noted that the square footages contained in this study include non-air-conditioned spaces (*e.g. covered porches, garages, roof overhangs, and etcetera*), and that the UDC requirement is for air-conditioned space only. This means these numbers could vary by an estimated 200 SF – 600 SF. With that being said there is some evidence that the proposed changes would not have an effect on the vast majority of our current single-family permits.

Staff has also included a comparison of comparable city's square footage requirements in similar zoning districts for the Planning and Zoning Commission's review. In addition, staff has prepared a summary of all residential zoning districts' density and dimensional requirements -- *with the proposed modifications* -- for the Planning and Zoning Commission's review. Staff has also attached a draft ordinance with the proposed changes. The anticipated schedule for this text amendment is as follows:

~~Planning and Zoning Work Session: July 26, 2016~~
Planning and Zoning Public Hearing: August 9, 2016
City Council Public Hearing [*1st Reading*]: August 15, 2016
City Council [*2nd Reading*]: September 6, 2016

Staff has sent out a 15-day notice to the Rockwall County News in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC. The publish date of this notice was *Friday, July 22, 2016*.

Notes:

[1]: Public and private open space. Unless otherwise provided by the UDC, a minimum of 20 percent of the gross land area within the entire SF-1 District over five acres shall be devoted to open space, except where floodplain shall count for up to 50% of the 20% open space requirement and shall be consistent with the open space requirements of the city's parks and open space plan. Open space requirements for SF-1 District may be satisfied by public open space shall be dedicated to the city, and shall be approved by the parks board and city council during the platting process. The open space requirement is in addition to the landscaping and buffering requirements.

[2]: Frontage on a Public Street.

[3]: Side on street is treated the same as a front yard building setback.

[4]: Minimum maintenance easement is ten feet. Minimum maintenance easement on the non-zero lot line side, when adjacent to another lot in the same zoning district: five feet (this easement shall be maintained as an open space except upon a finding by the building official that the proposed improvements do not impede the use of said easement for maintenance of the adjoining structure).

[5]: Abutting structures separated by fire retardant walls.

[6]: Townhouses separated by firewall meeting the requirements of the building code may build to the property line where such structures abut.

[7]: Minimum length of driveway pavement from public right-of-way for rear and side yard is 20 feet. Carports and garages are required to be an additional 20 feet behind the front façade of the primary structure.

[8]: An enclosed garage shall not be considered in meeting the off-street parking requirements. For all other uses see Article VI, Parking and Loading, of the UDC.

[9]: Plus a two car garage.

[10]: Two off-street parking spaces plus one garage parking space for each dwelling unit.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTION 2.1, *AGRICULTURE (AG) DISTRICT*; SECTION 3.3, *SINGLE-FAMILY RESIDENTIAL (SF-16) DISTRICT*; AND SECTION 3.4, *SINGLE-FAMILY RESIDENTIAL (SF-10) DISTRICT*, OF ARTICLE V, *DISTRICT DEVELOPMENT STANDARDS*, FOR THE PURPOSE OF INCREASING THE MINIMUM SQUARE FOOTAGE PER DWELLING UNIT IN THE SINGLE FAMILY 10 (SF-10) & SINGLE FAMILY 16 (SF-16) DISTRICTS AND ESTABLISHING A MINIMUM SQUARE FOOTAGE PER DWELLING UNIT IN THE AGRICULTURE (AG) DISTRICT; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Sections 2.1, *Agriculture (AG) District*; Section 3.3, *Single-Family Residential (SF-16) District*; and Section 3.4, *Single-Family Residential (SF-10) District* of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] for the purpose of increasing the minimum square footage per dwelling unit in the Single Family 10 (SF-10) and Single Family 16 (SF-16) Districts, and establish a minimum square footage per dwelling unit in the Agriculture (AG) District; and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That Section 2.1, *Agriculture (AG) District,* of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'A'* of this ordinance.

Section 2. That Section 3.3, *Single-Family Residential (SF-16) District,* of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'B'* of this ordinance.

Section 3. That Section 3.4, *Single-Family Residential (SF-10) District,* of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in

DRAFT ORDINANCE 07.26.16

Exhibits 'C' of this ordinance.

Section 4. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 5. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 6. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 6TH DAY OF SEPTEMBER, 2016.

_____

Jim Pruitt, *Mayor*

DRAFT ORDINANCE 07.26.2016

Section 2.1. Agriculture (AG) District.

A. *Purpose.* The Agricultural District is a reserved area in which the future growth of the city might *occur. It is the intent of this district that agricultural land be held in that use for as long as is* practical and reasonable to promote orderly growth. This zoning is suitable for areas where development is premature because of a lack of utilities, capacity, or service, or where the ultimate land use has not been determined. The zone is also to be used:

1. To protect those areas that are unsuitable for development because, of physical problems or potential health or safety hazards such as flooding. The use of the land would be permanently restricted to low intensity agricultural uses until such time as the property is proven to be suitable for development and is rezoned.

2. To provide a permanent greenbelt to preserve natural areas or open space buffer around uses that might otherwise be objectionable or pose environmental or health hazards.

B. *Permitted Uses*. In general, farming and ranching-related activities and accessory uses, including the owner's single-family dwelling on more than ten acres, shall be allowed. However, no building or land may be used, unless in accordance with the use tables and requirements in article IV, Permissible Uses.

C. *Area Requirements.*

1. Minimum lot area: 43,560 square feet (one acre).
2. Minimum lot frontage on a public street: 100 feet.
3. ***Minimum square footage per dwelling unit: 1,600 square feet.***
4. Minimum lot depth: 200 feet.
5. Minimum depth of front setback: 40 feet.
6. Minimum depth of rear setback: ten feet.
7. Minimum width of side setback.

    a. Internal lot: six feet.

8. Minimum distance between buildings on the same lot or parcel of land: 12 feet.
9. Minimum length of driveway pavement from the public right-of-way on a side or rear yard: 20 feet.
10. Maximum building coverage as a percentage of lot area: N/A.
11. Maximum height of structures: 36 feet.
12. Minimum number of off-street parking spaces required for:

    a. One single dwelling unit: two. An enclosed garage shall not be considered in meeting the off-street parking requirements.
    b. All other uses: see article VI, *Parking and Loading*.

DRAFT ORDINANCE 07-26-2016

Section 3.3. Single-Family Residential (SF-16) District.

A. *Purpose.*

1. This district is considered to be the proper zoning classification for large lot developments for single-family dwelling use. It is intended to be composed of single-family dwellings together with public, denominational and private schools, churches and public parks essential to create basic neighborhood units.
2. Areas that are zoned for this use shall have or provide for water, wastewater, drainage and access to paved streets based on single-family use required by the allowed density.
3. It is intended for areas that are properly buffered from nonresidential uses, and protected from pollution and/or environmental hazards or from high volume of non-single-family traffic.

B. *Permitted Uses.* In general, single-family dwellings together with public, denominational and private schools, churches and public parks essential to create basic neighborhood units, may be allowed. However, no building or land may be used, unless in accordance with the use tables and requirements in Article IV [*of this Unified Development Code*], *Permissible Uses*.

C. *Development Standards.*

1. Minimum lot area: 16,000 square feet.
2. Maximum number of single-family detached dwellings units per lot: one.
3. Minimum square footage per dwelling unit: ~~***1,800***~~ ***2,400*** square feet.
4. Minimum lot frontage on a public street: 90 feet.
5. Minimum lot depth: 100 feet.
6. Minimum depth of front yard setback: 25 feet.
7. Minimum depth of rear yard setback: ten feet.
8. Minimum width of side yard setback:

    a. Internal lot: eight feet.

9. Minimum distance between separate buildings on the same lot or parcel of land: ten feet.
10. Minimum length of driveway pavement from the public right-of-way for rear and side yard: 20 feet.
11. Maximum building coverage as a percentage of lot area: 45 percent.
12. Maximum building height: 36 feet.
13. Minimum number of paved off-street parking spaces required for:

    a. One single-family dwelling unit: two. An enclosed garage shall not be considered in meeting the off-street parking requirements.
    b. For all other uses: see article VI [of this Unified Development Code], *Parking and Loading*.

DRAFT ORDINANCE 07-26-2016

Section 3.4. Single-Family Residential (SF-10) District.

A. *Purpose.*

1. This district comprises a major portion of the existing single-family dwelling development of the city. It is intended to be composed of single-family dwellings together with public, denominational and private schools, churches and public parks essential to create basic neighborhood units.
2. Areas that are zoned for this use shall have or provide for water, wastewater, drainage and transportation capacities based on single-family use required by the allowed density.
3. It is intended for areas that are properly buffered from nonresidential uses, and protected from pollution and/or environmental hazards or from high volume of non-single-family traffic.

B. *Permitted Uses.* In general, single-family dwellings together with public, denominational and private schools, churches and public parks essential to create basic neighborhood units, may be allowed. However, no building or land may be used, unless in accordance with the use tables and requirements in Article IV [*of this Unified Development Code*], *Permissible Uses*.

C. *Development Standards.*

1. Minimum lot area: 10,000 square feet.
2. Maximum number of single-family detached dwellings units per lot: one.
3. Minimum square footage per dwelling unit: ~~***1,500***~~ ***2,200*** square feet.
4. Minimum lot frontage on a public street: 80 feet.
5. Minimum lot depth: 100 feet.
6. Minimum depth of front yard setback: 20 feet.
7. Minimum depth of rear yard setback: ten feet.
8. Minimum width of side yard setback:

    a. Internal lot: six feet.

9. Minimum distance between separate buildings on the same lot or parcel of land: ten feet.
10. Minimum length of driveway pavement from the public right-of-way for rear and side yard: 20 feet.
11. Maximum building coverage as a percentage of lot area: 45 percent.
12. Maximum building height: 36 feet.
13. Minimum number of paved off-street parking spaces required for:

    a. One single-family dwelling unit: two. An enclosed garage shall not be considered in meeting the off-street parking requirements.
    b. For all other uses: see article VI [of this Unified Development Code], *Parking and Loading*.

DRAFT ORDINANCE 07.26.2016

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 08/09/2016

APPLICANT: Jerry Monk of *Monk Consulting*

AGENDA ITEM: **SP2016-015;** Indoor Recreation Facility - *Adventure Sports*

SUMMARY:

Discuss and consider a request by Jerry Monk of Monk Consulting on behalf of Dr. Steve Arze of Zaph & Ath Properties, LLC for the approval of a site plan for an indoor recreation facility on a 4.88-acre tract of land identified as Tract 4-01 of the N. Butler Survey, Abstract No. 20, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located north of the intersection of Industrial Boulevard and Airport Road, and take any action necessary.

PURPOSE:

The applicant is requesting approval of a Site Plan for the purpose of constructing a 12,500 sq. ft. indoor recreation facility (*i.e. Adventure Sports*). The 4.88-acre parcel of land has a total of three (3) lots scheduled to be developed, with two (2) of the lots set for future development. The applicant is proposing the indoor recreation facility on Lot 2 (*i.e. the center lot*). It should be pointed out that the lot configuration depicted on the site plan will need to meet the minimum standards of the Commercial (C) District at the time of platting. This has been added as a condition of approval. The property is zoned Commercial (C) District and is generally located north of the intersection of Industrial Boulevard and Airport Road and is addressed as 1505 Airport Road.

DENSITY AND DIMENSIONAL REQUIREMENTS:

The proposed indoor recreation facility use (*i.e. Adventure Sports*) is permitted by right on the subject property. The site will incorporate a total of 85 parking spaces and has two (2) points of access available from Airport Road, which are *24-ft Firelane, Public Access, and Utility Easements.*

The submitted site plan, building elevations, landscape plan, treescape plan, and photometric plan are in substantial compliance with the technical requirements contained within the Unified Development Code (UDC), with the exception of the conditions listed in the *Recommendations* section of this report.

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*10,000 sq. ft.*	*4.88-Acres; In Conformance*
Minimum Lot Frontage	*60-Feet*	*x>60-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*x>100-Feet; In Conformance*
Minimum Front Yard Setback	*25-Feet*	*x>25-Feet; In Conformance*
Minimum Rear Yard Setback	*30-Feet*	*x>30-Feet; In Conformance*
Minimum Side Yard Setback	*10-Feet*[1]	*x>10-Feet; In Conformance*
Maximum Building Height	*60-Ft w/o SUP*	*29' 4"; In Conformance*
Max Building/Lot Coverage	*40%*	*~5.9%; In Conformance*
Minimum Masonry Requirement	*90%*	*>90%; Exception Request*
Floor Area Ratio	*0.33*	*x<4:1; In Conformance*
Minimum Number of Parking Spaces	*43*	*51 Provided; In Conformance*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*	*X<20%; Exception Request*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Landscaping Percentage	*15%*	*x>15%; In Conformance*
Maximum Impervious Coverage	*85 to 90%*	*<85%; In Conformance*

NOTES: 1. If the adjacent property is predominantly residentially zoned or residentially used, the setback shall be 20 feet.

EXCEPTION REQUESTS:

The applicant is requesting exceptions to the Unified Development Code (*UDC*) for the section outlined below. As a note, an exception request to the UDC requires passage of a simple majority vote of those City Council members present. The code reads as follows:

> **Exterior walls.** *Each exterior wall shall consist of 90 percent masonry materials as defined in article XIII…on walls which are visible from a public street or open space, including a minimum of 20 percent stone.*
>
> *All buildings shall have exterior walls constructed of stone, brick, glass block, tile, cast metal, cast or cultured stone, or a combination of those materials. The use of other cementaceous products (e.g., stucco, Hardy Plank, or other similar materials) shall be limited to 50 percent of the building's exterior finishes…*
>
> *Exceptions to this requirement may be permitted on a case by case basis by the council upon submission and approval of elevation drawings of the subject structure, and material samples.*

The applicant is requesting the following exceptions:

a) *Article V, Section 4.1.A.1 General Commercial District Standards* – An exception to allow for not meeting the 90% (*exterior*) masonry material requirements by allowing metal wall panels to exceed the 10% secondary material requirement for the south (14%), east (60%) and west (38%) elevations as submitted.

b) *Article V, Section 4.1.A.1 General Commercial District Standards* – An exception to allow for not meeting the 20% stone requirements by allowing a reduction in cultured stone for the south (16%), east (17%) and west (13%) elevations as submitted.

A request for an exception to the exterior material requirements is a discretionary decision for the City Council.

RECOMMENDATIONS:

The site plan submitted by the applicant meets all the technical criteria stipulated by the Unified Development Code (UDC) with the exception of the items listed above. Should the Planning and Zoning Commission choose to approve the applicant's request, then the following conditions of approval should be adopted with this case:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) All lots depicted on the site plan will be required to meet the minimum standards of the Commercial (C) District and the approval of this site plan does not vest the lot configuration for Lots 1 and 3.

3) A shared parking agreement will be required at the time of development of Lots 1 and 3 incorporating the three lots within this development and meeting the parking standards for each lot in accordance with the *Article VI, Parking and Loading* standards of the UDC.

4) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Discuss and consider a request by Jerry Monk of Monk Consulting on behalf of Dr. Steve Arze of Zaph & Ath Properties, LLC for the approval of a site plan for an indoor recreation facility on a 4.88-acre tract of land identified as Tract 4-01 of the N. Butler Survey, Abstract No. 20, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located north of the intersection of Industrial Boulevard and Airport Road, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, August 2, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. Label site plan documents with "Case No. SP2016-015" at the lower right corner of each plan.
4. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department.

EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:
1. Art V, Sec. 4.1.A.1 requires each exterior wall to consist of 90% masonry materials,..., including 20% stone on walls which are visible from a public street or open space. South, East & West elevations require a minimum 20% stone and do not meet this standard.
2. Art V, Sec. 4.1.A.1 requires each exterior wall to consist of 90% masonry materials,..., on walls which are visible from a public street or open space. South, East & West elevations do not provide a minimum 90% masonry material and exceed 10% for metal wall panels.

** Approval of exceptions to the exterior materials requested requires passage by a simple majority vote of City Council. **

Please addressthe following Planning Comments for each plan submitted:

Site Plan:

1. Will there be three separate lots developed? If so, provide a lot/phasing plan. Also, this lot and the rear (north) lot will require lot frontage. A minimum of 60-ft width required to create a flag lot for each.
2. Remove the label (By Plat) where indicated.
3. Relabel 24-ft Firelanes as "24-ft Firelane, Public Access & Utility Easement"
4. Dumpster Enclosure: What is the exterior material of the enclosure? The exterior material is to match the primary structure with an opaque gate. Provide a self latching mechanism for the dumpster enclosure gate.

Landscape Plan:
1. Meets the intent of the UDC and is OK as submitted.

Photometric Plan:

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

1. The lighting pole standards are not to exceed a maximum overall heightof 30-ft (includes pole, base, fixtures, etc.) per the UDC standards. Provide detail.
2. Provide cut sheets for all exterior lighting fixtures (e.g. pole lights, wall packs, etc.)
3. All lighting sources are to be directed down and sheilded with a full cut-off or partial cut-off source and a maximum 1 inch reveal in order to control glare.
4. Maximum lighting intensity at the property line is not to exceed 0.2-FC. Resubmit photometric plan and indicate readings to all property lines and in compliance with UDC (i.e. 0.2-FC)

Building Elevations:
1. Provide exterior material percentage calculations for each exterior material and for each elevation (north, south, east, & west).
2. Label the north facing elevation - there are two south elevations.
3. Approval of exceptions by City Council as indicated above.

The following are scheduled meetingdatesthat you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: July 26, 2016 (6:00 p.m.) [Applicant to provide presenation and discuss project]
Planning - Action: August 9, 2016 (6:00 p.m.) [P&Z to take action (i.e. approve, approve with conditions, or deny)

City Council - Action: August 15, 2016 (6:00 p.m.) [FOR EXCEPTION REQUESTS ONLY]

PLANNING	David Gonzales	8/3/2016	8/10/2016	8/3/2016		COMMENTS	See comments

Revised Submittal Comments:

Planning Department General Comments:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).

EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:
1. Art V, Sec. 4.1.A.1 requires each exterior wall to consist of 90% masonry materials,..., including 20% stone on walls which are visible from a public street or open space. South, East & West elevations require a minimum 20% stone and do not meet this standard.
2. Art V, Sec. 4.1.A.1 requires each exterior wall to consist of 90% masonry materials,..., on walls which are visible from a public street or open space. South, East & West elevations do not provide a minimum 90% masonry material and exceed 10% for metal wall panels.

** Approval of exceptions to the exterior materials requested requires passage by a simple majority vote of City Council. **

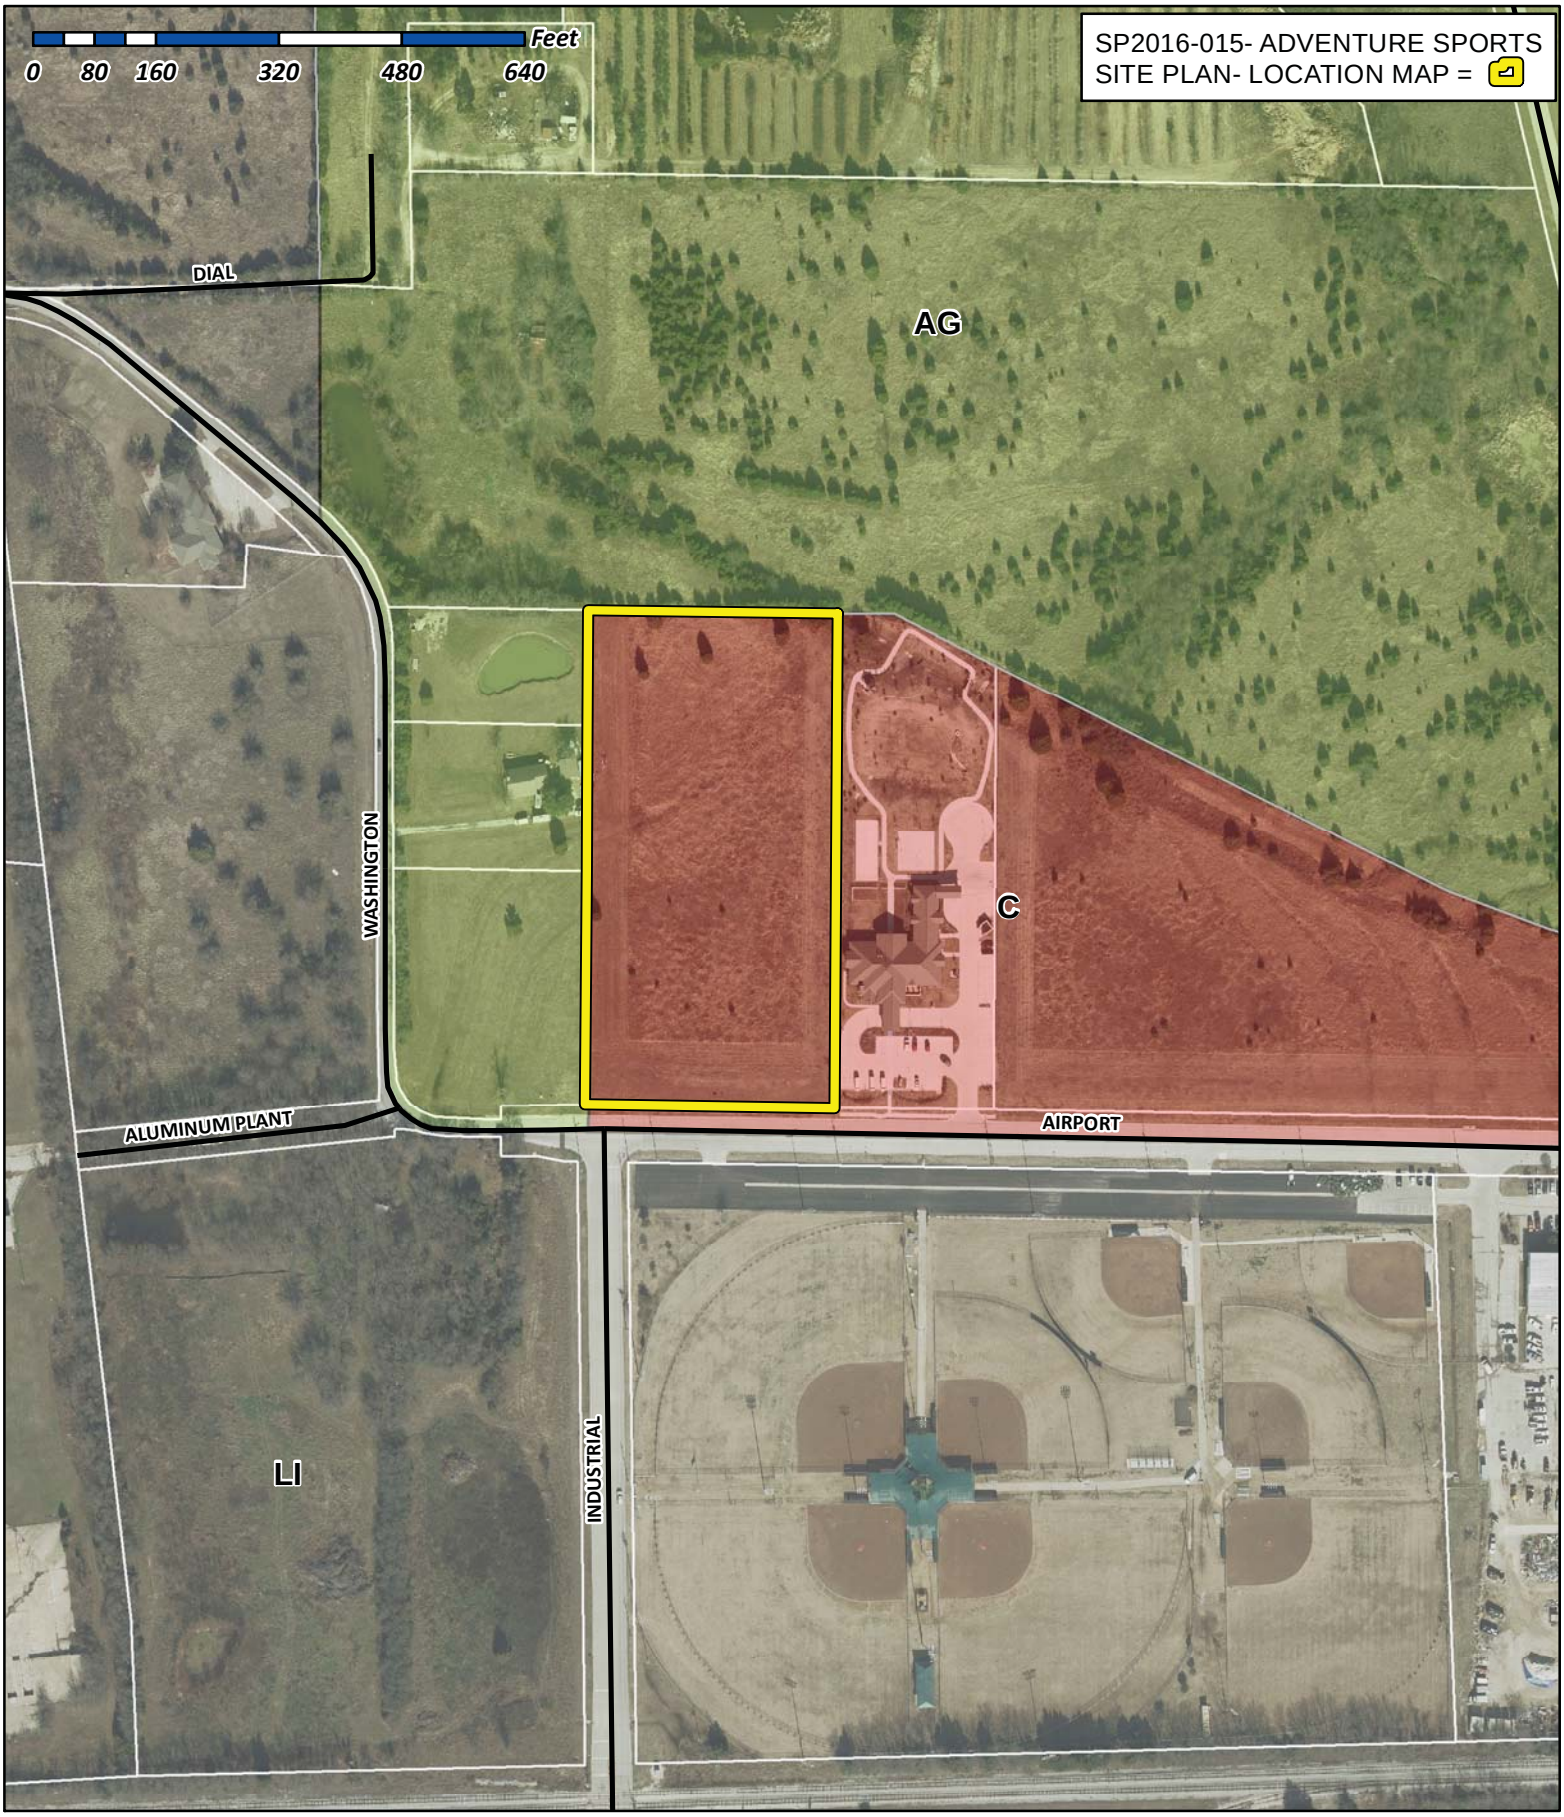
Please addressthe following Planning Comments for each plan submitted:

Site Plan:
1. Meets the intent of the UDC and is OK as submitted.

Landscape Plan:
1. Meets the intent of the UDC and is OK as submitted.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

Photometric Plan:
1. Meets the intent of the UDC and is OK as submitted with the following general comments:
a) The lighting pole standards are not to exceed a maximum overall heightof 30-ft (includes pole, base, fixtures, etc.) per the UDC standards.
b) All lighting sources are to be directed down and sheilded with a full cut-off or partial cut-off source and a maximum 1 inch reveal in order to control glare.

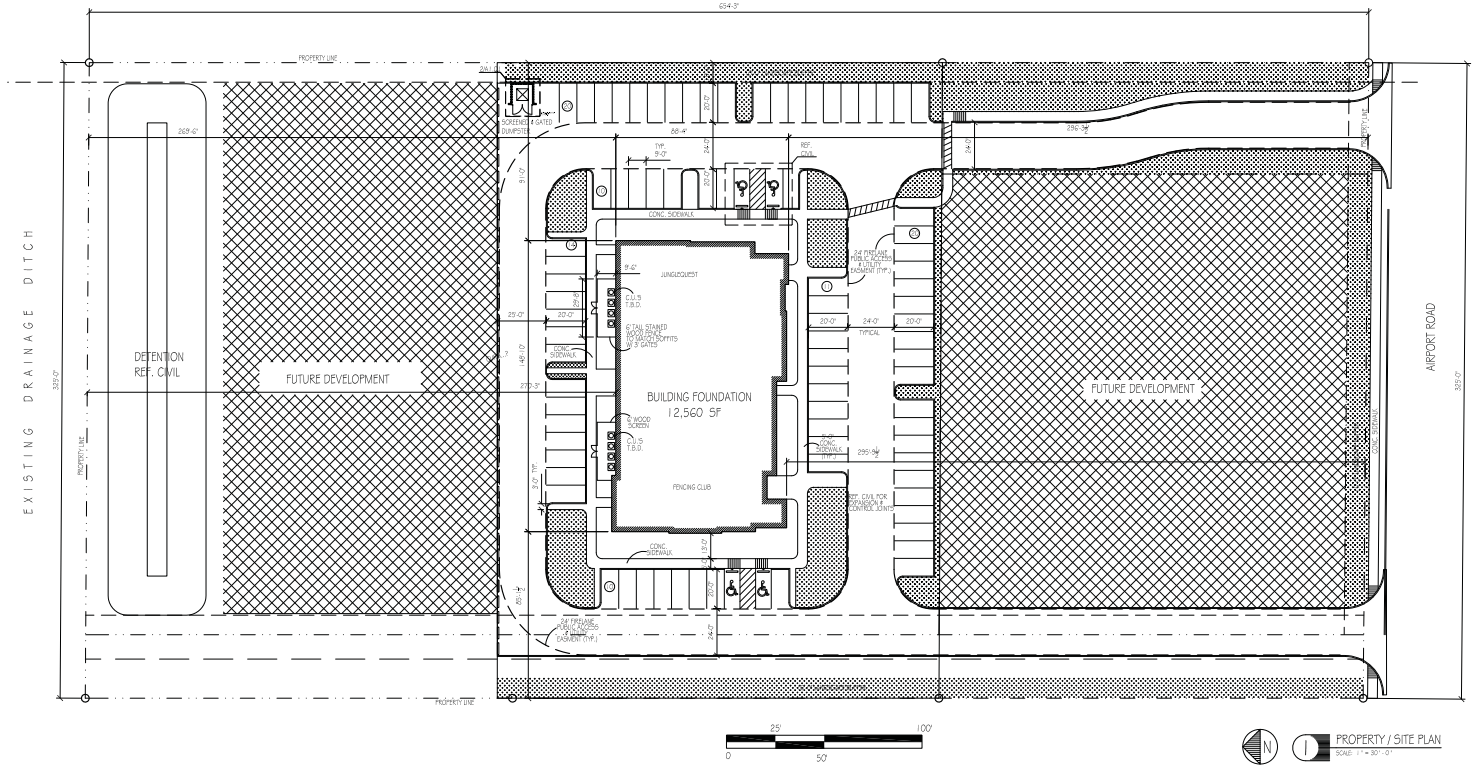


Building Elevations:
1. Other than the request for exceptions to the exterior material requirements as noted above, the plan meets the intent of the UDC and is OK as submitted.

The following are scheduled meetingdatesthat you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Action: August 9, 2016 (6:00 p.m.) [P&Z to take action (i.e. approve, approve with conditions, or deny)



City Council - Action: August 15, 2016 (6:00 p.m.) [FOR EXCEPTION REQUESTS ONLY]

AGENDA
PLANNING AND ZONING COMMISSION WORK SESSION
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
August 30, 2016
6:00 P.M.

CALL TO ORDER

CONSENT AGENDA

1. **Approval of Minutes** for the *August 9, 2016* Planning and Zoning Commission meeting.

2. **P2016-036** **(Korey)**
   Discuss and consider a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Saint George Partners, LTD for the approval of a final plat for Lot 1, Block A, Service King IH-30 Addition being a 3.293-acre tract of land currently described as Tract 7-01 of the J. Lockhart Survey, Abstract No. 134, City of Rockwall, Rockwall County, Texas, located at 1780 E IH-30, zoned Light Industrial (LI) District, situated within the IH-30 Overlay (IH-30 OV) District, and take any action necessary.

3. **P2016-037** **(Korey)**
   Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of D. R. Horton for the approval of an amending plat Lakeview Summit, Phase IV for the purpose of adding utility easements to the 93 residential lots proposed for the 38.056-acre subdivision situated within the J. H. B. Jones Survey, Abstract No. 124 and the Nathan Butler Survey, Abstract No. 21, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 29 (PD-29) for Single-Family 10 (SF-10) District land uses, located north of the intersection of Petaluma Drive and N. Lakeshore Drive, and take any action necessary.

APPOINTMENTS

4. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

ACTION ITEMS

5. Hold an election to elect a Vice-Chairman for the Planning and Zoning Commission.

PUBLIC HEARINGS

6. **Z2016-025** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Interior Subdistrict*, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [*FM-3097*] and Summer Lee Drive, and take any action necessary.

7. **Z2016-026** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Residential Subdistrict* and within the Scenic Overlay (SOV) District, located north of the intersection of Ridge Road [*FM-740*] and Glen Hill Way, and take any action necessary.

DISCUSSION ITEMS

8. **Z2016-023** **(Korey)**
   Hold a public hearing to discuss and consider a request by Kevin Dale Wommack & Pamela McCollum for the approval of an amendment to *Specific Use Permit (SUP) No. S-118* [*Ordinance No. 14-02*] to allow for an accessory building that exceeds the maximum size requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4952-acre tract of land identified as Lot 17, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1970 Copper Ridge Circle, and take any action necessary.

9. **Z2016-028** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Susan Gamez for the approval of a zoning change from an Agricultural (AG) District to Commercial (C) District on a 0.478-acre tract of land identified as Tract 7 of the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the Scenic Overlay (SOV) District, addressed as 2001 Ridge Road, and take any action necessary.

10. **Z2016-029** **(David)**
    Hold a public hearing to discuss and consider a request by Jimmy Strohmeyer of Strohmeyer Architects on behalf of D. W. Bobst of J-BR2, LLC for the approval of a Specific Use Permit (SUP) to allow a retail store with more than 2 gasoline dispensers on a 2.59-acre tract of land being a portion of a larger 7.32-acre tract of land identified as Tract 17-12 of the W. W. Ford Survey, Abstract No. 80, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated at the southwest corner of the intersection of SH-205 [*S. Goliad Street*] and FM-549, and take any action necessary.

11. **P2016-038** **(Korey)**
    Discuss and consider a request by Billy & Autumn Quinton for the approval of a final plat of Lots 1 & 2, Block A, Autumn Addition being a replat of a 0.35-acre tract of land identified as Lot 120, Block F of the B. F. Boydstun Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, addressed as 601 E. Rusk Street, and take any action necessary.

12. **P2016-039** **(Korey)**
    Discuss and consider a request by Jay Maddox of Maddox Survey on behalf of Casey & Andrea Burke for the approval of a final plat of Lots 1 & 2, Block A, Burke Addition being a 2.970-acre tract of land identified as Tract 19 of the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, situated within the Scenic Overlay (SOV) District, addressed as 1406 Ridge Road, and take any action necessary.

13. **SP2016-016** **(David)**
    Discuss and consider a request by Tim Seymore of Seymore Custom Homes, LLC on behalf of James & Robin Meade for the approval of a site plan for the construction of a commercial/industrial building on an existing 2.02-acre commercial/industrial facility identified as Tract 2-22 of the J. R. Johnson Survey, Abstract No. 128, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, addressed as 496 National Drive, and take any action necessary.

14. **SP2016-017** **(David)**
    Discuss and consider a request by Rex Walker of Life Springs Church for the approval of an amended site plan for a church on a seven (7) acre portion of a larger 28.881-acre tract of land identified as Tract 15-01 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 By-Pass Corridor Overlay (SH 205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of John King Boulevard and SH-205, and take any action necessary.

15. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

MINUTES
PLANNING AND ZONING COMMISSION PUBLIC HEARING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
August 9, 2016
6:00 P.M.

I. CALL TO ORDER

Chairman Renfro called the meeting to order at 6:01p.m. The Commissioners present at the meeting were, Commissioners Johnny Lyons, Patrick Trowbridge, Sandra Whitley, Annie Fishman, Tracy Logan and new Commissioner, Mark Moeller. Staff members present were Planning Director, Ryan Miller, Senior Planner, David Gonzales, Planner, Korey Brooks, Planning Coordinator, Laura Morales, Fire Marshall, Ariana Hargrove, and Civil Engineer, Jeremy White.

II. CONSENT AGENDA

1. Approval of Minutes for the July 26, 2016 Planning and Zoning Commission meeting.

2. P2016-023

Discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (*R. & R. Hance Investments, LP*) for the approval of a master plat/open space plan for the Saddle Star South Subdivision containing 138 single-family residential lots on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of Featherstone Drive John King Boulevard, and take any action necessary.

3. P2016-024

Discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (*R. & R. Hance Investments, LP*) for the approval of a preliminary plat for the Saddle Star South Subdivision containing 138 single-family residential lots on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of Featherstone Drive John King Boulevard, and take any action necessary.

4. P2016-035

Discuss and consider a request by Matt Hibbitt of Spry Surveyors on behalf of the owner Racetrac Petroleum, Inc. for the approval of a final plat for Lot 1, Block 1, Carmel Carwash Addition being a 2.059-acre tract of land currently identified as Lot 1, Block 1, Crossings Addition (*i.e. 1.004-acres*) and a 1.052-acre portion of Lot 1, Block 1, Rockwall Business Park Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2003 S. Goliad Street, and take any action necessary.

Commissioner Whitley made motion to approve the consent agenda. Commissioner Fishman seconded the motion, which passed by a vote of 7-0.

III. PUBLIC HEARING ITEMS

5. Z2016-019

Hold a public hearing to discuss and consider a request by Miller Sylvan of JPI on behalf of the owner Gene Lambreth of Pneuma Ventures, LTD for the approval of a zoning change from a Light Industrial (LI) District to a Planned Development District for a multi-family apartment complex on a 42.50-acre tract of land identified as Tract 1-4 of the J. M. Allen Survey, Abstract No. 2, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated within the SH-205 By-Pass Overlay (205 BY-OV) District, located east of the intersection of Discovery Boulevard and John King Boulevard, and take any action necessary.

Planning Director, Ryan Miller, gave brief explanation of item stating the subject property is a 42.5 acre parcel of land located east of the intersection of Discovery Blvd. and John King on the north side of Discovery. It is zoned Light Industrial District and the applicant is requesting to amend the zoning to a Planned Development District for a 750 unit multi-family apartment complex. The surrounding land uses are Rockwall Mini Storage and Park Place RV to the north of the subject property of which both are zoned Light Industrial District followed by IH-30. South of the property is Discovery Blvd followed by several tracts of land zoned Light Industrial District which also includes Peak Pediatric, directly east is the Rockwall Economic Development Corporation Technology Park, Phase I which also is zoned Light Industrial, and directly west of the subject property are Phases I and II of the Rockwall Downs Subdivision. Both of these parcels are zoned Planned Development District 10 for single family land uses.

Mr. Miller went on to state that in looking at the applicants concept plan, they are proposing a 750 unit development which will be broken down into two phases and each phase will consist of two 360 units, 6 separate residential buildings an 8,500 square foot clubhouse and pool area, and the total development will consist of 25-30% open space. Both phases show to have the same unit composition with the units ranging from about 680 square feet to 1,480 square feet and the overall average net unit use will be around 1,000 square feet. However, the applicant has incorporated language in the Planned Development District that allows them to reduce the overall average net unit area down to 950 square feet, as well, as reduce the unit's size for Phase II to 600 square feet. The applicant has stated that the reason is to allow some flexibility within the zoning ordinance to account for any changes in the market. The overall density being proposed is 17.64 units per acre and currently the City's highest multi-family zoning district is MF-14 District which only allows 14 units per acre; however this being a Planned Development District they can request the increased density, but that is a discretionary decision for the Planning and Zoning Commission and City Council.

Mr. Miller went on to state that the other change that deviates from the Code is the applicants request for a parking requirement change. The Unified Development Code stipulates that one bedroom units require 1½ parking space per unit, two bedroom units require two parking spaces per unit, and three bedroom units require 2½ parking spaces per unit; however, the applicant is requesting that all units, despite the number of bedrooms, be parked at 1½ parking space per unit. This dictates a minimum of 540 parking spaces per phase. The applicant is showing a total of 458 surface parking spaces and 107 garage parking spaces for a total of 565 parking spaces and they have also included a requirement in the PD that 20% of the parking spaces will be covered. The applicant also has submitted conceptual building elevations, and although they are conceptual, they have been incorporated into the ordinance and general conformance to those elevations is considered to be a condition of approval. The Architectural Review Board will still need to make recommendations at the time of site plan if the case were to be approved.

Mr. Miller added that in looking at the Comprehensive Plan, the Future Land Use map designates the property for Technology and Industrial uses, and what the applicant is proposing would require the property to be amended to a high density residential designation which is typically defined as anything that exceeds three units per acre, and goes on to state that the high density residential land use should be used as a transitional use from Commercial or where it serves as a logical extension of an existing high density development. In this case, it would be up to the Planning and Zoning Commission and City Council to decide if this would serve this transitional nature being in between the Tech Park and the Rockwall Downs Subdivision. The change to the Future Land Use map has been incorporated into the conditions of approval for the case, and therefore if Planning and Zoning and City Council approve, that change will take effect.

Mr. Miller went on to state that staff sent out 22 notices on July 22nd to property owners and residents within 500-feet of the subject property as well as the Lofland Farms and Meadow Creek HOA's, and at the time the memo was drafted staff did not receive any responses in favor or in opposition to the request.

Mr. Miller advised the Commission that the applicant was present and available for questions.

Chairman Renfro asked if there were any questions for staff.

Commissioner Trowbridge asked for clarification of what was stated concerning the parking spaces exceeding the 1.5 requirement that is being proposed. Mr. Miller explained that the request is for one and a half parking spaces per unit and that is what was put into the PD; however their concept plan shows parking in excess of that at 458 surface parking and 107 garage spaces which totals 565 and exceeds the requirement by 25 spaces.

Commissioner Logan asked if City Council previously had approved the change of the Rockwall Downes from Light Industrial to Residential. Mr. Miller stated that that was the result of a settlement that was done in 2004, that zoning was determined by the settlement that was reached with the Cambridge Company.

Commissioner Lyons asked how much more land was still available for Light Industrial use within this area other than subject property. Mr. Miller stated he did not have the exact figure but added that the Light Industrial designation does extend currently to the other side of the Technology Park to Discovery Lakes with Rochelle Road being the divider. There is also Light Industrial land adjacent to IH-30 and north of that as well as along John King Blvd.

Chairman Renfro opened the public hearing and asked the applicant to come forward.

Matt Brendall
600 E. Las Colinas Blvd.
Irving, TX

Mr. Brendall came forward and stated he is the development partner for the Texas region of JPI and gave brief explanation of request. JPI is a local privately owned company headquartered in DFW for the last 25 years that only builds top of class multi-family communities that have a fully integrated team of professionals including in house construction team which helps control the quality of the product. Over the history of the company they have built over 300 communities throughout the country, and have been most active in the DFW area having built over 50 communities in the area.

Mr. Brendall stated that they pride themselves in delivering the best in class product to the submarkets that they serve and in most instances it's a new product to the markets that they deliver to. It is a combination of high quality finishes, both in the units and in the common areas, it's all a high level of services from the onsite staff, and typically have double the amenity space of the other communities in the sub markets and those amenities are highly programed with many events put on by the management team on site.

Mr. Brendall went on to provide a slide show that featured pictures of communities JPI has built to date in the DFW area. He spoke of choosing the City of Rockwall after doing quite a bit of research and when looking at the demographics they were very favorable for the product they deliver. In recent communities in the DFW area the rents have been about $500 more than the submarkets that they serve, because of the product that is delivered to those markets. They also shopped the most recent multi-family communities that were delivered to the market and after speaking to management it looks to be that Rockwall's occupancy is over 97% occupied, and at looking at the Dallas Metro historical average is 93% putting Rockwall about 4% over the historical average.

Mr. Brendall stated he would give the presentation over to his colleague Miller Sylvan who would discuss the specific site and request.

Miller Sylvan
600 E. Las Colinas Blvd.
Irving, TX

Mr. Sylvan gave brief explanation of request and provided a slide presentation which showed the site plan on the property. He stated the subject property it is a total of about 42 acres with about 15 acres of floodplain mainly on the north side of the site, but cuts through in a few different areas and he feels that could be a deterrent to other uses. In the past they have tried to situate their buildings in areas that can look out onto that green space and in this case they can take advantage of the floodplain. He feels this area is well suited for multi-family, because there is

already a successful multi-family development just across on John King Blvd, it has easy access to IH-30 and he believes it is a very appropriate transition between the lighter intensity single family use to the west and the more intense Technology uses to the east.

Mr. Sylvan went on to explain that it will consist of two phases, 360 units each, three story buildings, with approximately 30% garage parking that would be built one to two years apart. The first phase would be on the western side. They have situated the site plan to so that the buildings front Discovery, as well as, fronting the shared boulevard that would run through both phases. The main components they want to focus when site planning is fronting buildings on green space and focusing on an interconnected system of hike and bike trails. Approximately 70 of the units will have private yards which will allow for residents with pets with this amenity that no other community currently provides. He went on to add that they pride themselves with providing amenities that are not currently on the market such as units with 10 foot ceilings, washer and dryers and side by side appliances, predominately masonry facades, oversized kitchen islands, and the amenity/clubhouse space between 8,000-10,000 square feet which is more than double than what is typically seen in the Rockwall market.

Mr. Sylvan further stated that they appreciated the conversation that took place at the work session at the previous meeting where there was discussion and concern of the unit sizes and the unit mix that were being proposed at that time specifically the need for more two and three bedrooms was discussed, but now that the market study was completed and it was found that there should be a higher percentage of two and three bedrooms and a little bit bigger sizes, from what initially was proposed. He went on to explain that there are seven competitors that the market study identified, and the recommended unit mix from the external market mix is fifty five percent one bedroom, thirty five percent two bedrooms, and ten percent three bedrooms. From those seven competitors the average of those communities has sixty two percent one bedrooms, twenty nine percent two bedrooms and five percent three bedrooms. JPI will be providing fifty five one bedrooms, twenty nine two bedrooms, and ten percent three bedrooms keeping them more heavily weighted towards the two and three bedrooms and less heavily weighted on the one bedrooms as was the recommended unit mix from the market study. The recommended size was 765 square feet for the one bedroom, 950-1275 square feet for the two bedrooms, and 1350-1550 for the three bedrooms, which will be bigger than the average that current communities have.

Chairman Renfro asked to what market is the analysis comparing them to. Mr. Sylvan stated that it is based on seven comparable properties within the Rowlett/Rockwall market that were built between 2008 to now.

Chairman Renfro asked what the smallest unit will be. Mr. Sylvan stated the smallest will be 675 square feet.

Mr. Sylvan went on to describe what the building elevations would be, and provided a slide show showing renderings and different views of what community will look like. He spoke about how they feel the proposal complements surrounding land uses and embraces flood plain and other site constraints.

Commissioner Whitley asked Mr. Sylvan to expand on the 97% lease rate and asked if he felt that percentage is sustainable with as many units as are being proposed. Mr. Sylvan stated he felt it would be sustainable considering if approved they would break ground middle part of 2017 and construction would take a couple years, by the time they would be fully leased would be about three years and that it wouldn't flooding the market with units all at once.

Commissioner Whitley asked if the amenities would be built first to allow the initial tenants the benefit of those. Mr. Sylvan stated that was correct.

Commissioner Whitley asked if JPI would maintain ownership of the property once construction was complete. Mr. Sylvan stated the communities they've built over the last five years JPI has maintained ownership for an average of about six years and follow the lead of their capital partners.

Commissioner Lyons asked what an in house construction team consisted of. Mr. Brendall explained that a lot of developers use a third party construction group where they send in plans

and that company bids it and therefore the construction company is in it for the profit for them, but at JPI the construction team are JPI employees therefore the contract is with themselves making them the developer and the builder which allows them to control the projects more.

Commissioner Moeller expressed concern with the density, looking at 17 units per acre where the City's maximum is 14 units per acre. Mr. Sylvan asked Mr. Miller if he could clarify that some PD's due allow for higher density than the 14 units allowed in the multi-family ordinance. Mr. Miller explained that the Multi-Family 14 ordinance is a straight zoning district but there are some PD's that due incorporate higher densities, that and higher densities can be requested thru the Planned Development District but that is a discretionary call by Planning and Zoning Commission and City Council.

Commissioner Trowbridge asked if any capital partner had been chosen as of yet. Mr. Sylvan stated at this time a partner has not been decided on.

Commissioner Trowbridge asked what the basis is for requesting one and a half parking spaces. Mr. Sylvan stated typically they are one parking space per unit to ensure they have enough parking for all residents and an additional about .2 to .5 spaces per unit to allow for visitors. Feels there is sufficient parking for the use based on their experience, it didn't make sense for them to build more spaces and have them empty.

Chairman Renfro asked anyone who wished to speak concerning the case to come forward and do so, there being no one indicating such, Chairman Renfro asked the applicant to remain at the podium for further questions.

Chairman Renfro expressed concern with the amount of available parking, and was concerned if there isn't sufficient parking made available some of that may spill over to the neighboring streets. He asked how solid the decision to keep the requested ratio was. Mr. Sylvan stated they were flexible, currently they show 1.7 spaces on the plan. The data may have been incorrect on that but, they feel they're sufficiently parked and can bump that number to the City's requirement of 1.67 if needed. Mr. Miller added that comparing the numbers to what is being requested and what the City requires, it would be fifty five parking spaces higher than what is currently being projected.

Commissioner Whitley asked what would happen to the overall plan if the parking is changed. Mr. Miller stated that some of the green space would be narrowed.

General discussion took place concerning parking standard versus requested the City's requirement. Mr. Miller noted that Commission could make the recommendation that the City's parking requirement for multi-family uses be met and that could be incorporated into the ordinance.

Chairman Renfro closed the public hearing and brought the item back to the Commission for discussion.

Commissioner Logan expressed concern and asked for discussion as to how much of the Comprehensive Plan would be changed by adding more multi-family development to the City.

Mr. Miller stated that was what was before the Planning and Zoning Commission, what is being proposed is a zoning change on a piece of property that was designated on the Future Land Use map as a Technology/Industrial property, but with that being said it is zoned Light Industrial and has not developed therefor that is something to weigh on both sides of the issue and that is the discretionary decision before the Commission.

Chairman Renfro commented on the fact that the property does have quite a bit of floodplain and in the past have tried to have other residential builders there but the topography was not suitable. He feels if this is a nice product it would serve as a nice buffer between the subdivision and the technology park.

Commissioner Fishman stated she felt the proposal is a beautiful well thought out plan, but is concerned whether or not Rockwall has the demographic and demand to fill a property of this size.

Commissioner Trowbridge stated he feels that the benefits of the proposal are that it will make a nice transitional use and will provide a nice buffer between the residential and tech park.

Commissioner Whitley asked if notices were sent out to the neighboring properties. Mr. Miller stated that notices were sent to all property owners on the tax roll provided by the Appraisal District and no notices were received back.

Commissioner Lyons made a motion to approve the item with staff recommendations as well as the requirement to meet the City's multi-family parking standard as outlined in the Unified Development Code. Commissioner Trowbridge seconded the motion, which passed by a vote of 6-1, with Commissioner Logan dissenting.

6. Z2016-022

Hold a public hearing to discuss and consider a request by Mark W. Pross of Pross Design Group, Inc. on behalf of Robert Reece of SPR Packaging, LLC for the approval of a Specific Use Permit (SUP) to allow for a structure that exceeds 60-feet in height in a Light Industrial (LI) District in conjunction with an existing manufacturing facility situated on 10.1893-acre parcel of land identified as Lot 2, Block A, SPR Packaging Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1480 Justin Road, and take any action necessary

Senior Planner, David Gonzales, gave brief explanation of request stating that the applicant is requesting a Specific Use Permit to allow for a structure that exceeds the maximum height requirements within a Light Industrial District for an existing manufacturing facility. The property is located at the intersection of Justin Road and Industrial Blvd. and is addressed as 1480 Justin Road.

Mr. Gonzales went on to state that the applicant has indicated that SPR Packaging plans to install three new high-bays for the purpose of placing new equipment extruders to meet its future manufacturing capabilities. Based on the site plan and the building elevations submitted, the extruders will be placed adjacent to the existing 60-ft height high-bay area, which is located on the north rear side of the building. The vertical expansion will be incorporated on top of the existing manufacturing facility, and will increase the height of this portion of the facility by approximately 35-ft. The newly constructed high-bay area will have an overall height of 71-ft. from grade, which will be approximately ten feet higher than the existing, adjacent metal high-bays. It should be noted that the facilities' existing roof structure was designed to extend upward to allow for the requested expansion. The addition will be comprised of pre-engineered metal panels that will match the existing structure. The vertical addition will exceed the 60-ft height limitation established in the Unified Development Code which states that the maximum building height for properties within the Light Industrial District is 120 feet, but any structure exceeding 60-ft shall require an SUP. In this case, the vertical expansion exceeds the 60-ft height limitation by 11-ft and requires an SUP.

Mr. Gonzales further stated that on July 22, 2015, staff mailed eleven notices to property owners within 500 feet of the subject property. Staff also sent an e-mail to the Park Place Home Owners Association and additionally, staff posted a sign on the property. No notices were received back in favor or in opposition of request.

Mr. Gonzales added that the applicant was present and is available for questions.

Chairman Renfro opened the public hearing and asked applicant to come forward.

Mark Cross
5310 Harvest Hill Suite 180
Dallas, TX

Mr. Cross of Cross Design Group came forward and stated he is the architect on the project. They did the original building for SPR in 2006, which was about 50,000-60,000 feet, had the original three high bayed extruders that were 60feet tall. In 2011 they did another expansion of about 120,000 feet and they have been steadily growing since then.

Mr. Cross went on to state that SPR is in the process of putting in $23 million worth of new equipment in the building and the new extruders are higher because technology has improved and they need to go higher in order for the new equipment to fit. The exterior of the building will look exactly like the adjacent section of the building that is metal, everything else is tilt wall.

Commissioner Trowbridge asked reason as to why it needs to be higher than the last version. Mr. Cross stated the primary reason is due to technology and the new equipment that they're ordering requires a higher clear height.

Chairman Renfro asked if anyone wish to speak to come forward and do so, there being no one indicating such Chairman Renfro closed the public hearing and brought the item back to the Commission for discussion.

Commissioner Lyons made a motion to approve the item with staff recommendations. Commissioner Fishman seconded the motion, which passed by a vote of 7-0.

7. Z2016-024

Hold a public hearing to discuss and consider a request by Kyle Vrla of Dynamic Engineering Consultants, PC on behalf of the owner Wilson Osee of Osee Properties, LLC for the approval of a zoning change from a Commercial (C) District to a Heavy Commercial (HC) District for a 6.588-acre portion of a larger 24.818-acre tract of land identified as Tract 3-13 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, located south of the intersection of Sids Road and SH-205 [*S. Goliad Street*], and take any action necessary.

Chairman Renfro stated the applicant made a request to withdraw the case and Planner, Korey Brooks explained a motion would have to be taken by the Commission for case to officially be considered withdrawn.

Chairman Renfro made a motion to withdraw the case. Commissioner Logan seconded the motion which passed by a vote of 7-0.

Chairman Renfro called for a ten minute break at 7:17 p.m.
The meeting reconvened at 7:27 p.m.

8. Z2016-025

Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Interior Subdistrict*, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [*FM-3097*] and Summer Lee Drive, and take any action necessary.

Planning Director, Ryan Miller, gave brief explanation of request stating the subject property is located south of the intersection of Horizon Road and Summer Lee Drive it is a portion of a seven acre property and the actual subject property is about three and a half acres. It is located in Planned Development 32, and as it was discussed at the previous work session is a unique PD, which was established in 2010 by the City Council and is intended to be a form base code which essentially means that it is a code that creates predicable built results using physical building form as the driving principal of the code itself. This is opposed to using land use or separation of land uses such as the Unified Development Code. The PD was built around a concept plan, which was a vision for the entire area that showed how the area was set to develop. It also incorporated a street network plan and a master utility plan and that was to ensure that the infrastructure that was being put in was adequate to support the concept plan that was in place. Additionally a sub-district plan was put which divided the 78 acre Planned Development into ten sub-districts was adopted each of the sub-districts is like a zoning district having its own permitted set of uses allowed within them, they also have their own development standards in the form of a form based code. The sub-districts allow various uses; the Residential is built around the idea of having a pool of units consisting of 1,161 condominium and townhome units are allowed within Planned Development 32 and that number comes from allowing 15 units per acre within the District. Those units were never allocated to any one

individual sub-district rather the way it is structured is if the use allows condominiums or townhomes they can pull from those units on a first come first serve basis. Currently two developments have been approved, Marina Village who was allocated 399 of those units, and Summer Lee Condominiums which was allocated 265 of those units leaving a balance of 497 units.

Mr. Miller went on to explain that the subject property is in what is called an interior sub-district which according to the PD Ordinance is intended to provide an area that can function as either office/residential or senior living. Looking at the use chart the permitted uses within this sub-district the urban residential condominium units only land use is a permitted by right use and with there being a balance of 497 units and the applicant is only requesting 245 units, the use and the number of units is not in question because it is allowed by right which means if a site plan is submitted and all the criteria is met, they would be allowed to proceed. The reason the proposal is before the Commission is tied to the street network, it is tied to the street that runs from Summer Lee to the south western corner of the subject property. Mr. Miller then provided a slide show showing a map of the entire District and included the renderings and street network plan that is in question as well as the streetscape plan that is tied to the district.

Mr. Miller further stated that the Streetscape Plan contained in Ordinance No. 10-21 calls for a Street Type G, which is intended to serve an edge to the open space areas of the sub-district and connect Summer Lee Drive and Ridge Road. Specifically this street section consists of two-way traffic on a 24-foot wide street with eight foot parallel parking spaces along the western side of the roadway, adjacent to the condominium project, an eight foot parkway, and eight foot sidewalks on both sides of the street. The total right-of-way width of this street cross section is 60-feet. In lieu of this, the applicant is proposing a modified street cross section that will consist of two-way traffic on a 24-foot wide street with five foot sidewalks on either side of the street, and a one to two foot parkway. The total right-of-way width of the proposed road section will be 36-feet; however, one foot of the sidewalk will be situated outside of the right-of-way. This means that either the right-of-way width will need to be increase to 37-feet or the additional one foot will need to be put into a Pedestrian Access Easement at the time of platting and that has been included as a condition of approval.

Mr. Miller went on to explain that in reviewing this request, staff has identified an additional waiver to building placement, which will be required to be approved along with the applicant's request. Specifically, the Interior Sub-district requires a minimum of a five foot building setback and an average of a 20-foot setback along the Street Type 'G', which the applicant is proposing to modify. In this case, the applicant would be requesting a minimum of a one to two foot building setback along this modified street section. Since a waiver to building placement is specifically identified in Section 9.C, Waivers of Design Standards, of Ordinance No. 10-21, it could be granted at the time of site plan approval by the City Council; however, since the modified street section is causing the PD Development Plan it has been included in the request as a condition in the draft ordinance. Also, when considering waivers and amendments to Planned Development 32 the City Council, followed by a recommendation from the Planning and Zoning Commission is requested to weigh the request based on three criteria which are 1) does it meet the general intent of the PD District or Sub-district in which the property is located 2) will it result in an improved project which will be an attractive contribution to the PD District or Sub-district; and 3) will the request prevent the implementation of the intent of this PD District.

Mr. Miller further stated that the applicant has provided staff with building elevations for the condominiums which have been tied down to the Planned Development District ordinance and the purpose of putting them in the ordinance and making it a general condition of approval for the site plan is to ensure that what is being proposed with the street cross section is what will be turned in at time of site plan.

Also, Mr. Miller added that on July 22, 2016, staff mailed 84 notices to property owners and residents within 500-feet of the subject property and also emailed notices to the Lakeside Village, Lago Vista and Signal Ridge Homeowner's Associations and additionally, staff posted a sign on the subject property along Summer Lee Drive. Out of the 84 notices sent out two responses in favor of the request and three responses opposed to the request were received by staff.

Mr. Miller stated the applicant is present and available for questions.

Chairman Renfro asked for questions for staff from the Commission.

Commissioner Whitley asked of the notices that were opposed to the request if it appears as if those are not in favor of the project as a whole, but asked if that was something that they were considering or are they just looking to make recommendation of the specific waivers not the project as a whole. Mr. Miller stated that was correct, not the project as a whole.

Chairman Renfro made a general comment stating that he felt the intent and design as it was presented to the Commission several years ago was to provide an environment by the Harbor where vehicles would not be the main circular drive but instead have more pedestrian traffic and he is concerned with narrowing the sidewalks as was the intent of the original design when PD32 was drafted.

Commissioner Logan asked what the ADA requirement for sidewalks was. Mr. Miller stated ADA requirements are 5 foot.

Chairman Renfro asked if the original as it was presented was to have 8 foot sidewalks with an 8 foot parking easement for parallel parking where would the 8 foot sidewalk be located. Mr. Miller brought up a map and explained that it is an 8 foot sidewalk starting at the center of the development, followed by an 8 foot parallel parking on the building side, then a 24 foot street to allow two- way traffic and then an 8 foot parkway followed by an 8 foot sidewalk. And what is being proposed is a 5 foot sidewalk followed by a 2 foot parkway followed by a 24 foot two way traffic street, followed by a 1 foot parkway and a 5 foot sidewalk with one of those feet being outside of the right of way, which has been conditioned for a pedestrian access easement to be put in. What it would be is a 36 foot right of way versus a 60 foot right of way making it a 24 foot difference.

Commissioner Whitley asked by eliminating all of the parallel parking where would those vehicles be parking. Mr. Miller stated they are building a structured parking garage and they will have some head in on street parking as well.

Commissioner Lyons expressed concern that there would not be a landscape buffer between the streets and the buildings.

Chairman Renfro opened the public hearing and asked the applicant to come forward.

Jason Lentz
5339 Alpha Road
Dallas, TX

Mr. Lentz came forward and Chairman Renfro asked what the existing rendering of the sidewalk is as opposed to what is being proposed. Mr. Lentz provided a site plan to show renderings and explained that it had to be done this way because not doing so would require getting onto neighboring property, would be willing to consider other options perhaps a wider sidewalk on the building side to provide more room between the building and the road but pointed out that it is driven by the fact that the site has somewhat of an unusual width.

Chairman Renfro asked if they would be willing to increase the size of the sidewalks. Mr. Lentz stated that they would be willing if there was sufficient room to accommodate that request, but there is not.

Commissioner Whitley asked what the intent of the street in question was since it's coming off of Summer Lee and therefor is not a main road. Is the intent for it to dead end, or is that for future development. Mr. Lentz explained that the plan is to provide access through the townhome development so it will come all the way. Mr. Miller brought up the concept plan summary slide to provide a visual of how that roadway will come through there and how it will provide access and also pointed out to a road that was part of another development as part of the Summer Lee Condominiums, when that was waived the roadway alignment to connect to Ridge Road is required to connect to Ridge Road and the they are putting in a public road that will complete that alignment.

Michael Smith
Humphry's and Partners Architects
5339 Alpha Road
Dallas, TX

Mr. Smith came forward and explained that the reason the building is on the southwest property line is because that is as far as it can go per the fire code which requires to remain at least ten feet off of that property line because they have no control over who builds next to them, and with the building's windows looking in that direction in order to have all that glass for the residents to have the view of the lake it has to be set back off of that property line a certain distance. Mr. Smith also noted that they are proposing a 36 foot right of way and as the building and the site plan have been laid out that is what the maximum that can be done in a public right of way in this location.

Chairman Renfro asked if that 36 foot right of way included two lanes of traffic and how many feet of would those two lanes take. Mr. Smith stated that was correct, and the two lanes would take 24 of the 36 feet. Mr. Smith added that because one side of the building is completely lined up against the creek they would not be opposed to shifting the sidewalk where there would be more on one side of the road than the other, if they could get rid of the sidewalk all together on one side then they could put 12 feet of sidewalk and buffer on the one side of the road, they could move the roadway within the 36 feet. Chairman Renfro asked if they were willing to do that and if it was done, how it would be determined what the best side would be. Mr. Smith stated he felt the best side would be on the pedestrian side against the building and they would be open to make that change and added that 36 feet is worst case scenario where the area curves around the road, there are portions where it will be wider with landscape buffer.

Commissioner Lyons made comment of liking the idea of consolidating the sidewalk to one side.

Commissioner Moeller stated his concern was with the areas that have fewer sidewalks especially in the areas where it curves, how narrow it would be may pose a problem therefor also likes the idea of moving the sidewalk as a safety precaution to the pedestrians.

Commissioner Logan expressed concern at not necessarily how narrow the sidewalk would be but the concern is how narrow the road would be, if a fire truck would be able to get by. Mr. Miller explained that Fire would use both Summer Lee and this roadway that is being proposed as fire lane; the fire truck itself would not be accessing the garage.

Chairman Renfro asked the applicant if making the change of moving the road to create more of a buffer on the other side is something they felt could be done. Mr. Smith stated the change was feasible.

Chairman Renfro asked if there was anyone wishing to speak to come forward and do so.

David Stubblefield
1550 Anna Cade Dr.
Rockwall, TX

Mr. Stubblefield came forward and stated he represents and is present on behalf of the adjoining property owners to the northeast. He stated Mr. Lentz made mention the reason why they have to narrow the right of way and eliminate the parallel parking and narrow the sidewalks was by not doing so would cause him to go onto adjoining property, but after representing the individuals that own that property he was not aware of that and those adjoining property owners would be willing to sell or dedicate the additional property to allow the full width of the street. Mr. Stubblefield went on to state that the adjoining property owners are in favor of the request and support both the condominium and the townhome proposals however pointed out that the sole access into the residential sub-district will be via this road and the now private easement that will go into the rear townhome portion of the property. Mr. Stubblefield showed via the slide on the screen where the cross access portion is the entire residential sub-district and the rear portion is the vast majority but there is between four and five acres of land on either side and the adjoining property owners own the property that is on the northeast side and were previous owners of the property of the southwest side and still hold papers to that and would like to see both of those developed, but there are no public roads now as it is proposed to be a private

easement. Feels a single ordinance can do both amendments to the PD and feels that if it is done that way then the developer would be required to put in streets that would allow for access for the entire residential sub-district and is here tonight to urge on that specific concern.

Mr. Miller added there would be further discussion concerning the cross access during the discussion for the townhome proposal.

Chad Cain
P.O. Box 2345
Rowlett, TX

Mr. Cain came forward and expressed his opposition to the request. He was against the whole development itself originally, and feels should not bend to the will of people that want to develop by making changes to the original plan and does not feel they should be given this deviation. He feels that there is no reason to change from what the original plan for this area was and is highly opposed and urged the Commission to vote against it.

Chairman Renfro asked if there was anyone else who wished to speak to come forward, there being no one indicating such Chairman Renfro closed the public hearing and brought the item back to the Commission for discussion.

General discussion took place concerning Mr. Cain's concerns and questions.

Mr. Miller advised the Commission a motion could be made to continue the public hearing to allow the applicant more time to address the Commission's concerns.

Chairman Renfro made motion to continue the public hearing to the next scheduled meeting which will take place on August 29th. Commissioner Trowbridge seconded the motion, which passed by a vote of 7-0.

9. Z2016-026

Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Residential Subdistrict* and within the Scenic Overlay (SOV) District, located north of the intersection of Ridge Road [*FM-740*] and Glen Hill Way, and take any action necessary.

Planning Director, Ryan Miller, gave brief explanation of request stating that the subject property is directly southeast of the previous case and is located in a different sub-district it is called the residential sub-district and according to the PD ordinance it is reserved for zero lot line single family residential housing due to lower volume of traffic, the ordinance also states that the Harbor District due to a lower volume of traffic makes this ideal for single family uses. In this case the applicant is proposing a 36 unit townhouse development on the 3 ½ subject property. According to the use charts, in the residential sub-district the townhouse use requires a Specific Use Permit, however since the proposed product is a front entry product on potentially private streets that could change the access within the District staff requested that the applicant submit a PD Development Plan which will change the intent of the sub-district and has the same discretionary approval as the Specific Use Permit regard to land use. However, approving the Planned Development Plan will negate the need for the Specific Use Permit and that would be added to the draft ordinance. Looking at the specific development, it will incorporate front entry garages in rows of four to five townhomes which will be a minimum of 1,622 square feet to 2,163 square feet which creates an average size of 1,863 square feet if all the townhomes are taken into account.

Mr. Miller went on to state that Ordinance 10-21 does not establish minimum units sizes or establish design standards for townhouses, however the Comprehensive Plan states that townhouses should have rear entry drives, in this case the applicant is proposing based on the building elevations to offset one of the keystone properties to make it a side entry approach, but the majority of the project will incorporate front entry garages. Additionally the Comprehensive

Plan states that townhomes should have a different appearance through the use of varied details, trim, materials, architecture and setback. However in this case the applicant is proposing an enclosed community and as a result is proposing more of a uniformed design scheme. Concept building elevations have been included in the draft ordinance and conformance to those elevations is considered to be a condition of approval. With regard to the any amendment or waiver to the Planned Development Plan, in this case what's being looked at is the intent of the sub-district and what the Commission is being asked to consider is three criteria which is; if it meets the general intent of the PD District, if it will provide an improved project with an attractive contribution to the District and that it will not prevent the implementation of the intent of the PD District.

Mr. Miller then displayed the site plan for the townhome project on screen and explained that as Mr. Stubblefield referred to during the previous case; staff has made the recommendation to the applicant that they find a way to incorporate access to the adjacent property. It is not a private easement but rather a public access easement that staff has requested the applicant place and it extends from the potential public roadway down in a southeastern direction to a stub out to the adjacent property and that is in an effort to provide access in a similar location as shown on the Concept Plan and to provide an additional point of access to the adjacent property.

Mr. Miller further stated that if the request is approved, the Architectural Review Board would need to review any elevations submitted, however this is a discretionary request for the Planning and Zoning Commission and City Council. Staff mailed 52 notices to property owners and residents within 500-feet of the subject property and emailed notices to the Lago Vista Homeowner's Associations as well as posted a sign on the subject property along Summer Lee Drive. Of the 52 notices mailed out staff received 3 responses in favor and 1 response in opposition.

Mr. Miller provided a map on screen that showed how the project will be laid out in relation to existing developments in the District and stated he as well as the applicant is available for questions.

Chairman Renfro asked for questions for staff from the Commission.

Commissioner Moeller asked if there is an alley along the development, and was the original intent to have rear entry through and alley and now what is being proposed is to get rid of the alley and go front entry. Mr. Miller stated that was correct, the original intent of the residential sub-district was to incorporate 49 zero lot line single family homes that were alley fed, and that plan incorporated two different street types, street type "N" being the alley and street type "M", the applicant is requesting to change the intent of the sub-district to townhomes with front entry garages.

Chairman Renfro asked staff to explain further on what applicant is proposing concerning the building elevations as it appears there is some monotony as being presented. Mr. Miller stated that in this case the applicant is using a more uniformed design scheme because it is an enclosed area, but they are using varying roof pitches, chimney placements that provide some relief in the façade.

Chairman Renfro opened the public hearing and asked the applicant to come forward.

Jason Lentz
5339 Alpha Road
Dallas, TX

Mr. Lentz came forward and stated the purpose of the request is for a 36 townhome development where the PD currently calls for 49 zero lot line single family homes. Explained that they have built this product in the past and have seen a lot of success in this type of development and feels it lends itself well in this area and will serve its intent going form 49 units to 36 units this would lessen the density and would give the area a more community/neighborhood feel. There will be nine one bedroom one bath units that will also include a powder bath and the remaining twenty seven would be two bedroom units, some with a full bath and powder bath and some with two full bathrooms with an average square footage of 1,900 square feet. Mr. Lentz then provided

a color rendering of the elevations on screen that showed a four unit building where some units would have two windows bays and other units would have three window bays anywhere from 24 to 28 feet wide per unit.

Chairman Renfro asked if the garages would be in the rear. Mr. Lentz stated the garages are being placed to where they are facing out to the roadways, not having set alleys for the garages. The front elevations is what they call the side without the garages there would still be a public front door from the side of the building which is what would be the units fenced in front yard.

Chairman Renfro asked what the approximate rent is estimated to be at. Mr. Lentz stated this will be a for sale product.

Commissioner Moeller asked staff if there were front entry garages in place in any development in the City. Mr. Miller stated there were some in PD-10, Stone Creek, as well as in some of the older areas that have front entry garages.

Chairman Renfro asked if anyone wish to speak to come forward and do so.

Chad Cain
PO Box 2345
Rowlett, TX

Mr. Cain came forward came forward and expressed his opposition to the request. Feels the only area of PD-32 slated for residential single family homes does not need to change to a townhome use. Does not think front entry garages are a good fit because of all the vehicles that is all that could be seen when stepping outside one's home instead of a nice landscape. Mr. Cain further expressed his strong opposition of losing the only part set aside for single family homes to allow townhomes and urged the Commission to vote against it.

David Stubblefield
1550 Anna Code Road
Rockwall, TX

Mr. Stubblefield came forward and stated he represents the adjoining property owners who own the property northeast of the subject property and the problem his clients have is that it is a very long slender property. They would like to sell or develop the property but the issue is with the access.

Chairman Renfro asked the applicant to come forward to offer rebuttal.

Mr. Lentz came forward and stated that what they are proposing as opposed to what originally was laid out, is a better fit as it will create less density and a more residential/community feel and feels it will have the same success as others they've built.

Commissioner Trowbridge asked if the land has already been purchased or is it under contract to be developed. Mr. Lentz stated they own a portion of it and under contract with the rest.

Chairman Renfro closed the public hearing and brought the item back to the Commission for discussion.

Chairman Renfro expressed concern that the previous case for the condominiums and the current case run in conjunction with each other and felt that this item should possibly be continued as well to allow the applicant additional time to go over the Commissions concerns.

General discussion took place among the Commission concerning questions that arose concerning the roadway and as to whether or not item should be continued until the next meeting to allow the Commission as well as the applicant additional time to review the information presented and for the applicant to review the Commissions concerns.

Commissioner Trowbridge made a motion to continue the public hearing for item Z2016-026 to the next meeting which will take place on August 30th. Commissioner Lyons seconded the motion, which passed by a vote of 7-0.

10. Z2016-027

Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 2.1, *Agriculture (AG) District*; Section 3.3, *Single-Family Residential (SF-16)* District; and Section 3.4, *Single-Family Residential (SF-10) District*, of Article V, *District Development Standards*, of the Unified Development Code for the purpose of increasing the minimum square footage per dwelling unit in these zoning districts, and take any action necessary.

Planning Director, Ryan Miller, gave brief explanation of item stating that as discussed in the previous meeting, the City Council directed staff to prepare a text amendment to increase the minimum square footage requirement for dwelling units in a Single Family 10 and a Single Family 16 District. In addition they have also directed staff to establish a minimum square footage size for an Agricultural District specifically the information in the ordinance that was provided is to make a change to the Single Family 16 District to a 2,400 square foot minimum dwelling unit and for Single Family 10 District to a 2,200 square foot unit minimum and in an Agricultural District it would establish a 1,600 square foot minimum. At the last meeting when it was initially brought up there were some questions about building permits and staff has since put together a summary of all building permits issued from January 1, 2011 to July 27, 2016 but the building permit information that is taken in contains all areas under roof, whereas the UDC requirement in question is just air condition space that is being taken into account. Staff also provided the Commission a report that was prepared of comparable cities square footage requirements that details zoning districts residential dwelling unit requirements as well as a summary of all residential zoning district density and dimensional requirements.

Mr. Miller went on to state that staff was bringing this forward for the Commission's recommendation to the City Council.

Chairman Renfro asked for any questions for staff from the Commission.

Commissioner Trowbridge asked if what was being proposed is to make the minimum square foot increase on a parcel of land that is not changing, for example a 7,000 square foot lot or a 10,000 square foot lot or go from a smaller house to a larger house. Mr. Miller stated that was correct.

Chairman Renfro opened the public hearing asked if anyone wished to come forward and do so, there being no one indicating such, Chairman Renfro closed the public hearing and brought the item back to the Commission for discussion.

Commissioner Trowbridge expressed concern of putting a bigger house on a same size lot.

Commissioner Trowbridge made motion to deny the item. Motion failed to pass due to there being no second. Chairman Renfro made motion to approve the item with staff recommendations. Commissioner Lyons seconded the motion, which passed by a vote of 6-1 with Commissioner Trowbridge dissenting.

IV. ACTION ITEMS

11. SP2016-015

Discuss and consider a request by Jerry Monk of Monk Consulting on behalf of Dr. Steve Arze of Zaph & Ath Properties, LLC for the approval of a site plan for an indoor recreation facility on a 4.88-acre tract of land identified as Tract 4-01 of the N. Butler Survey, Abstract No. 20, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located north of the intersection of Industrial Boulevard and Airport Road, and take any action necessary.

Senior Planner, David Gonzales, gave brief explanation of request stating that the subject property is north of Industrial Blvd and Airport Road just east of Washington Street and is zoned for Commercial use. The applicant is requesting a site plan approval for a 12,500 square foot indoor recreation facility, which will include rock climbing and a fencing academy. The development is going to involve 4.88 acres and will be three lots that will all eventually have some development on it; the indoor recreation facility will be lot 2 in the center. Mr. Gonzales

pointed out that at time of plating the other two lots, which will be lot 1 and lot 3 meet the requirements for the Commercial District Development Standards.

Mr. Gonzales went on to state concerning the density and dimension requirements, when looking at the site plan, landscape plan and the photometric plan, all those meet the general technical requirements as far as site plan is concerned, however, there are two exceptions to the building elevations that the applicant is requesting. Both have to do with Article V for the General Commercial Districts Standards, one being that the building is required to have 90% masonry construction throughout the building and the other a minimum of 20% stone. On one of the exceptions they are requesting the allowance of metal wall panels that exceed the 10% secondary material requirement and that will be for three elevation sides, they have 14% metal panels, 60% is located on the east, and 38% on the west. The other exception would be for the stone requirement, the applicant is using a ledge stone but the elevations do not meet the 20% requirement, therefore they are asking for the exception to that. The request is to for the south elevations to be 16% the east 17% and the west 13%. The exceptions require recommendation from the Planning and Zoning Commission as well as City Council.

Mr. Gonzales advised the Commission that the applicant was present and available for questions.

Chairman Renfro asked the Commission for questions for staff or the applicant.

Commissioner Whitley expressed concern of a possible problem with glare off of the building as some building in Dallas have had, asked if there would be any potential glare issue with this building. Mr. Gonzales stated there would not be they meet the UDC photometric requirements.

Commissioner Lyons asked if any sample material was provided for the Commission to look at. Mr. Gonzales provided a sample board the applicant submitted.

Stan Crowmardy
Arkon Architects
814 Hall
Seabrook, TX

Commissioner Lyons asked what kind of warranty the stone they would be using would have, and was it real stone. Mr. Crowmardy stated they would be using a combination of cementitious product and brick masonry and believes the warranty to be five years minimum, but added that the product wears just like stone and masonry.

Commissioner Logan asked if the item would be going to Architectural Review Board for review. Mr. Gonzales stated it would not as it is in a Straight Zone District and not within an Overlay District.

Commissioner Whitley made a motion to approve the request with staff recommendations. Commissioner Logan seconded the motion, which passed by a vote of 7-0.

V. DISCUSSION ITEMS

12. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2016-030: Replat for Lots 5 & 6, Block C, Sanger Bros. Addition [*Approved*]
- ✓ P2016-031: Replat for Lots 2 & 3, Block A, Heritage Christian Academy, Phase 2 [*Approved*]
- ✓ P2016-032: Final Plat for Lot 1, Block B, Rockwall Technology Park, Phase IV [*Approved*]
- ✓ P2016-033: Final Plat for Lot 1, Block A, Rockwall Technology Park, Phase IV [*Approved*]
- ✓ P2016-034: Final Plat for Lots 1-3, Block A, Dalton Goliad Addition [*Approved*]
- ✓ Z2016-020: SUP for a Carport at 509 Sunset Hill Drive (*1st Reading*) [*Approved*]
- ✓ Z2016-021: Zoning Amendment to PD-52 for Townhomes (*1st Reading*) [*Approved*]

Planning Director, Ryan Miller, **provided a brief update about the outcome of the above referenced case at the City Council meeting. No discussion took place concerning this agenda item.**

Mr. Miller welcomed new Commissioner Mark Moeller.

VI. ADJOURNMENT

The meeting adjourned at 9:44 p.m.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2016.

_____
Craig Renfro, Chairman

Attest:

_____
Laura Morales, Planning Coordinator

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 08/30/2016

APPLICANT: Matt Claymore; *Claymoore Engineering, Inc.*

AGENDA ITEM: **P2016-036**; *Lot 1, Block A, Service King IH-30 Addition*

SUMMARY:

Discuss and consider a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Saint George Partners, LTD for the approval of a final plat for Lot 1, Block A, Service King IH-30 Addition being a 3.293-acre tract of land currently described as Tract 7-01 of the J. Lockhart Survey, Abstract No. 134, City of Rockwall, Rockwall County, Texas, located at 1780 E IH-30, zoned Light Industrial (LI) District, situated within the IH-30 Overlay (IH-30 OV) District, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to final plat a tract of land [*Tract 7-01 of the J. Lockhart Survey, Abstract No. 134*] into one parcel of land [*Lot 1, Block A, Service King IH-30 Addition*] for the purpose of establishing the necessary fire lane and cross access, drainage and detention, and utility easements.

- ☑ A site plan (SP2016-006) for a *major automotive repair facility* (i.e. Service King Automotive Collision Repair Center) was approved by the Planning and Zoning Commission on May 31, 2016. In addition, City Council approved variances to rooftop mechanical screening requirements, building standards, and four (4) sided architecture requirements stipulated by the SH-205 Overlay (SH-205 OV) District on June 6, 2016.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for final plats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the *final plat* for *Lot 1, Block A, Service King IH-30 Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *final plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and

with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:
STATE OF TEXAS
COUNTY OF ROCKWALL

We, SAINT GEORGE PARTNERS, LTD., the undersigned owner of the land shown on this plat, and designated herein as the SERVICE KING IH-30 ADDITION subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the SERVICE KING IH-30 ADDITION subdivision have been notified and signed this plat. We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall;

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We, my (our) successors and assigns hereby waive any claim, damage, or cause of action that We may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 08/30/2016

APPLICANT: Dub Douphrate; *Douphrate & Associates, Inc*.

AGENDA ITEM: **P2016-037**; Lakeview Summit, Phase IV

SUMMARY:

Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of D. R. Horton for the approval of an amending plat of Lakeview Summit, Phase IV for the purpose of adding utility easements to the 93 residential lots proposed for the 38.056-acre subdivision situated within the J. H. B. Jones Survey, Abstract No. 124 and the Nathan Butler Survey, Abstract No. 21, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 29 (PD-29) for Single-Family 10 (SF-10) District land uses, located north of the intersection of Petaluma Drive and N. Lakeshore Drive, and take any action necessary.

PLAT INFORMATION:

- ☑ The applicant is requesting approval of an amending plat of Lakeview Summit, Phase IV for the purpose of adding utility easements to the 93 residential lots proposed for the subdivision. With this amending plat, no lots are being changed.

- ☑ A replat for Lakeview Summit, Phase IV was approved by the Planning and Zoning Commission on March 16, 2016 [Case No. P2015-007]. Since this time, the applicant has added additional necessary utility easements that were omitted from the filed replat.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for amending plats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the *amending plat* for Lakeview Summit, Phase IV*,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *amending plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and

with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

P2016-037 Lakeview Summit Phase IV Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of D. R. Horton for the approval of an amending plat of Lakeview Summit, Phase IV for the purpose of adding utility easements to the 93 residential lots proposed for the 38.056-acre subdivision situated within the J. H. B. Jones Survey, Abstract No. 124 and the Nathan Butler Survey, Abstract No. 21, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 29 (PD-29) for Single-Family 10 (SF-10) District land uses, located north of the intersection of Petaluma Drive and N. Lakeshore Drive.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (P2016-037) in the lower right hand corner of all pages on future submittals.
M.4 Please check the scale. It doesn't seem to be 1 inch = 100 feet. It seems to be enlarged
M.5 Please change "Access Easement" to "Public Access Easement"
I.6 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by September 7, 2016. The Planning & Zoning meeting date for this case will be August 30, 2016.
I.7 The projected City Council meeting date and subsequent approval for this plat is September 6, 2016.

South 19 degrees 44 minutes 31 seconds East, a distance of 214.56 feet to a 1/2 inch iron rod found for corner on the aforementioned northerly right of way line of North Lakeshore Drive and at the beginning of a curve to the right;

THENCE along said northerly right of way line of North Lakeshore Drive, the following courses and distances:

Along said curve to the right having a central angle of 39 degrees 46 minutes 37 seconds, a radius of 1450.00 feet, a chord distance of 986.55 feet that bears South 59 degrees 44 minutes 34 seconds West, around said curve an arc distance of 1006.65 feet to a 1/2 inch iron rod with cap stamped "D.A.I." found for corner;

South 79 degrees 37 minutes 53 seconds West, a distance of 475.59 feet to a 1/2 inch iron rod found for corner at the beginning of a curve to the right;

Along said curve to the right having a central angle of 01 degree 33 minutes 11 seconds, a radius of 650.00 feet, a chord distance of 17.62 feet that bears South 80 degrees 24 minutes 28 seconds West, around said curve an arc distance of 17.62 feet to a 1/2 inch iron rod found for corner

South 81 degrees 11 minutes 04 seconds West, a distance of 114.45 feet to the POINT OF BEGINNING and containing 1,657,733 square feet or 38.056 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS}
COUNTY OF ROCKWALL}

We, D.R. HORTON–TEXAS, LTD., the owners of the land shown on this plat, and designated herein as the AMENDED PLAT OF LAKEVIEW SUMMIT PHASE IV ADDITION, an addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the AMENDED PLAT OF LAKEVIEW SUMMIT PHASE IV ADDITION, have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Addition upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

OWNER: D.R. HORTON – TEXAS, LTD.

_____ _____
David L. Booth, Assistant V.P. Date

STATE OF TEXAS
COUNTY OF ROCKWALL
Before me, the undersigned authority, on this day personally appeared David L. Booth , known to me to be the person whose name is subscribed to the foregoing instrument, and acknowledged to me that he executed the same for the purpose and consideration therein stated.

Given upon my hand and seal of office this _____day of _____, 2016.

_____
Notary Public in and for the State of Texas

SURVEYORS CERTIFICATE

I, HEREBY CERTIFY, THAT I PREPARED THIS SURVEY PLAT SHOWN HEREON FROM AN ACTUAL SURVEY ON THE GROUND BY ME AND THAT ALL CORNERS ARE MARKED, AND THAT ALL DIMENSIONS SHOWN THEREON ARE TRUE AND CORRECT TO THE BEST OF MY KNOWLEDGE AND BELIEF, AND FURTHERMORE THERE ARE NO ENCROACHMENTS, PROTRUSIONS, IMPROVEMENTS, EASEMENTS, RIGHT–OF– WAY, OR 100 YEAR FLOOD PLAIN AFFECTING THE PROPERTY EXCEPT AS SHOWN THEREON.

WITNESS UNDER MY HAND THIS THE _____ DAY OF _____, 2016.

_____
BRIAN J. MADDOX, R.P.L.S. NO. 5430

APPROVED

I hereby certify that the above and foregoing plat of an addition to the City of Rockwall, Texas, was approved by the City Planning Director of the City of Rockwall on the _____ day of _____, 20____.

This approval shall be invalid unless the approved plat for such addition is recorded in the office of the County Clerk of Rockwall, County, Texas, within one hundred eighty (180) days from said date of final approval.

Said addition shall be subject to all the requirements of the Subdivision Regulations of the City of Rockwall.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 08/30/2016

APPLICANT: Dub Douphrate; *Douphrate & Associates, Inc*.

AGENDA ITEM: **P2016-037**; Lakeview Summit, Phase IV

SUMMARY:

Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of D. R. Horton for the approval of an amending plat of Lakeview Summit, Phase IV for the purpose of adding utility easements to the 93 residential lots proposed for the 38.056-acre subdivision situated within the J. H. B. Jones Survey, Abstract No. 124 and the Nathan Butler Survey, Abstract No. 21, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 29 (PD-29) for Single-Family 10 (SF-10) District land uses, located north of the intersection of Petaluma Drive and N. Lakeshore Drive, and take any action necessary.

PLAT INFORMATION:

- ☑ The applicant is requesting approval of an amending plat of Lakeview Summit, Phase IV for the purpose of adding utility easements to the 93 residential lots proposed for the subdivision. With this amending plat, no lots are being changed.

- ☑ A replat for Lakeview Summit, Phase IV was approved by the Planning and Zoning Commission on March 16, 2016 [Case No. P2015-007]. Since this time, the applicant has added additional necessary utility easements that were omitted from the filed replat.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for amending plats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the *amending plat* for Lakeview Summit, Phase IV*,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *amending plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and

with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

P2016-037 Lakeview Summit Phase IV Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of D. R. Horton for the approval of an amending plat of Lakeview Summit, Phase IV for the purpose of adding utility easements to the 93 residential lots proposed for the 38.056-acre subdivision situated within the J. H. B. Jones Survey, Abstract No. 124 and the Nathan Butler Survey, Abstract No. 21, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 29 (PD-29) for Single-Family 10 (SF-10) District land uses, located north of the intersection of Petaluma Drive and N. Lakeshore Drive.
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (P2016-037) in the lower right hand corner of all pages on future submittals.
M.4 Please check the scale. It doesn't seem to be 1 inch = 100 feet. It seems to be enlarged
M.5 Please change "Access Easement" to "Public Access Easement"
I.6 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by September 7, 2016. The Planning & Zoning meeting date for this case will be August 30, 2016.
I.7 The projected City Council meeting date and subsequent approval for this plat is September 6, 2016.

OWNERS CERTIFICATE

STATE OF TEXAS}
COUNTY OF ROCKWALL}

WHEREAS, D.R. HORTON – TEXAS, LTD., being the owner of a tract of land in the County of Rockwall, State of Texas, said tract being described as follows:

BEING, a tract of land situated in the J.H.B. Jones Survey, Abstract No. 124 and the Nathan Butler Survey, Abstract No. 21, City of Rockwall, Rockwall County, Texas, and being all of Lakeview Summit, Phase IV Replat as recorded in Cabinet I, Slide 221, Plat Records Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

BEGINNING, at a 1/2 inch iron rod with cap stamped "D.A.I." found on the northerly right of way line of North Lakeshore Drive (a 100' right of way) and at the southeast corner of The Fairway Pointe at the Shores, an addition to the City of Rockwall as recorded in Cabinet D, Slide 9 of the Plat Records of Rockwall County, Texas, said point also being on the southwest corner of said Lakeview Summit, Phase IV;

THENCE, leaving the northerly right of way line of North Lakeshore Drive and along the westerly line of said Lakeview Summit, Phase IV, the following courses and distances:

North 00 degrees 12 minutes 37 seconds West, a distance of 775.30 feet to 1/2 inch iron rod with cap stamped "D.A.I." found at the southwest corner of the Butler Cemetery (unrecorded);

North 89 degrees 57 minutes 35 seconds East, a distance of 200.06 feet to a 1/2 inch iron rod found at the southeast corner of said Butler Cemetery;

North 00 degrees 02 minutes 27 seconds West, a distance of 326.70 feet to a 1/2 inch iron rod with cap stamped "D.A.I." found at the northeast corner of said Butler Cemetery;

South 89 degrees 58 minutes 33 seconds West, a distance of 199.70 feet to a 1/2 inch iron rod with cap stamped "D.A.I." found at the northwest corner of said Butler Cemetery and also being on the easterly line of The Shores, Phase III, an addition to the City of Rockwall as recorded in Cabinet C, Slide 99 of said Plat Records;

THENCE North 00 degrees 00 minutes 03 seconds West, along the common line of said The Shores, Phase III with the westerly line of said Lakeview Summit, Phase IV, a distance of 523.11 feet to a 1/2 inch iron rod found for corner;

THENCE North 02 degrees 19 minutes 00 seconds West, continuing along the common line of said The Shores, Phase III with the westerly line of said Lakeview Summit, Phase IV, a distance of 135.23 feet to a 1/2 inch iron rod with cap stamped "D.A.I." found for the northwest corner of said Lakeview Summit, Phase IV;

THENCE leaving the common line of said The Shores, Phase III with the westerly line of said Lakeview Summit, Phase IV and along the northerly and easterly line of said Lakeview Summit, Phase IV the following courses and distances:

North 89 degrees 20 minutes 14 seconds East, a distance of 353.02 feet to a 1/2 inch iron rod with cap stamped "D.A.I." found for corner;

North 85 degrees 31 minutes 37 seconds East, a distance of 176.30 feet to a 1/2 inch iron rod with cap stamped "D.A.I." found for corner;

South 74 degrees 33 minutes 21 seconds East, a distance of 287.09 feet to a 1/2 inch iron rod with cap stamped "D.A.I." found for corner;

South 03 degrees 50 minutes 27 seconds East, a distance of 514.23 feet to a 1/2 inch iron rod with cap stamped "D.A.I." found for corner;

South 04 degrees 30 minutes 33 seconds East, a distance of 267.66 feet to a 1/2 inch iron rod with cap stamped "D.A.I." found for corner;

South 19 degrees 49 minutes 23 seconds East, a distance of 102.53 feet to a 1/2 inch iron rod found for corner

North 65 degrees 23 minutes 46 seconds East, a distance of 238.70 feet to a 1/2 inch iron rod found for corner;

North 78 degrees 35 minutes 27 seconds East, a distance of 154.79 feet to a 1/2 inch iron rod with cap stamped "D.A.I." found for corner;

South 45 degrees 22 minutes 49 seconds East, a distance of 121.83 feet to a 1/2 inch iron rod with cap stamped "D.A.I." found for corner;

South 28 degrees 25 minutes 00 seconds East, a distance of 73.44 feet to a 1/2 inch iron rod with cap stamped "D.A.I." found for corner;

South 19 degrees 44 minutes 31 seconds East, a distance of 214.56 feet to a 1/2 inch iron rod found for corner on the aforementioned northerly right of way line of North Lakeshore Drive and at the beginning of a curve to the right;

THENCE along said northerly right of way line of North Lakeshore Drive, the following courses and distances:

Along said curve to the right having a central angle of 39 degrees 46 minutes 37 seconds, a radius of 1450.00 feet, a chord distance of 986.55 feet that bears South 59 degrees 44 minutes 34 seconds West, around said curve an arc distance of 1006.65 feet to a 1/2 inch iron rod with cap stamped "D.A.I." found for corner;

South 79 degrees 37 minutes 53 seconds West, a distance of 475.59 feet to a 1/2 inch iron rod found for corner at the beginning of a curve to the right;

Along said curve to the right having a central angle of 01 degree 33 minutes 11 seconds, a radius of 650.00 feet, a chord distance of 17.62 feet that bears South 80 degrees 24 minutes 28 seconds West, around said curve an arc distance of 17.62 feet to a 1/2 inch iron rod found for corner

South 81 degrees 11 minutes 04 seconds West, a distance of 114.45 feet to the POINT OF BEGINNING and containing 1,657,733 square feet or 38.056 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS}
COUNTY OF ROCKWALL}

We, D.R. HORTON–TEXAS, LTD., the owners of the land shown on this plat, and designated herein as the AMENDED PLAT OF LAKEVIEW SUMMIT PHASE IV ADDITION, an addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the AMENDED PLAT OF LAKEVIEW SUMMIT PHASE IV ADDITION, have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Addition upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: August 30, 2016

SUBJECT: Z2016-025; *Harbor Urban Center Condominiums*

On August 9, 2016 the Planning and Zoning Commission approved a motion to continue *Case No. Z2016-025* by a vote of 7-0. Since this motion, the applicant has revised the concept plan and street cross sections in an effort to better address the Planning and Zoning Commissions comments and concerns that were raised in this meeting. The new street cross section increases the right-of-way width from 36-feet to 40-feet and reincorporates a row of parallel parking adjacent to the proposed condominium building, in between the sidewalk and the roadway. Beyond the parallel parking spaces is a six (6) foot sidewalk leaving a one (1) foot parkway/building setback. The following are the cross sections related to this case:

Figure 1.1: Street Type 'G' Cross Section from Ordinance No. 10-21

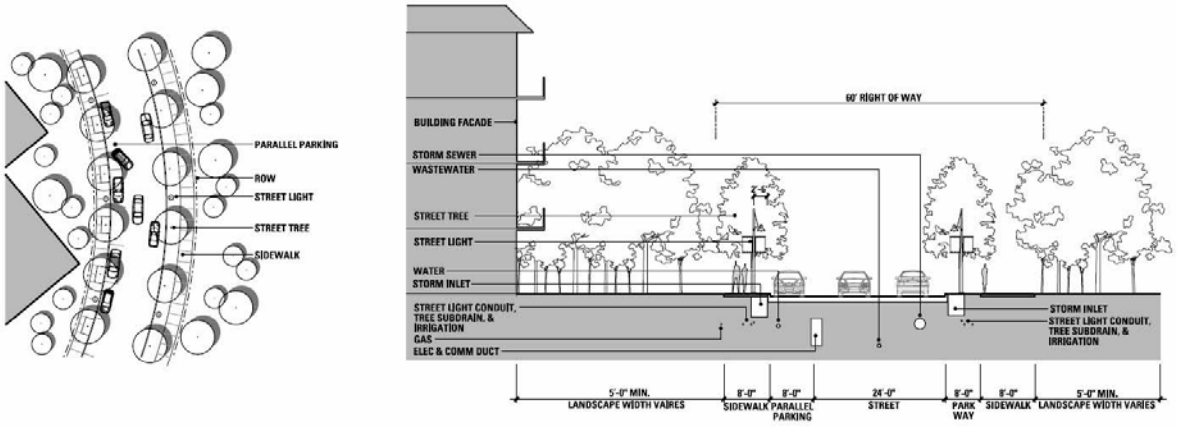

Figure 1.2: Applicant's Proposed Street Cross Section (Current Request; i.e. August 30, 2016)

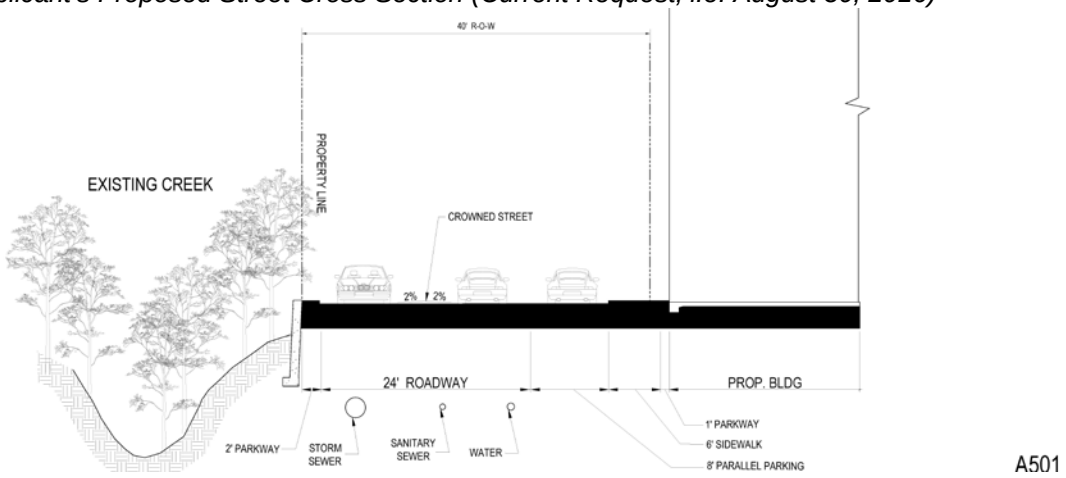

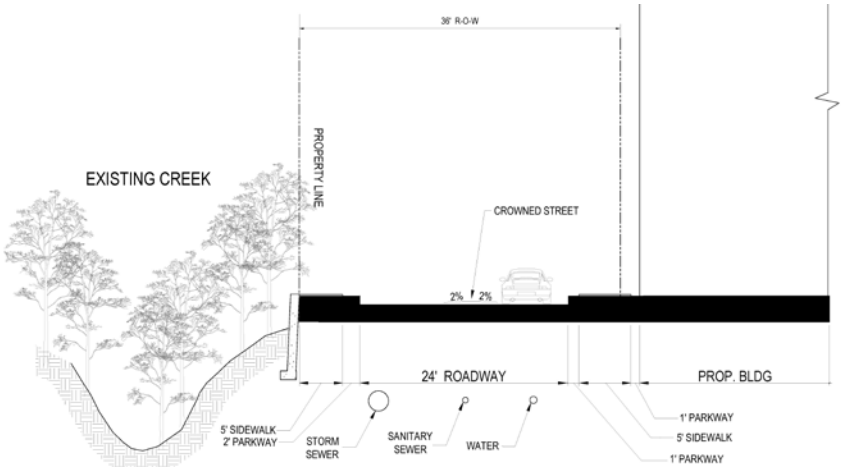

Figure 1.3: Applicant's Proposed Street Cross Section (Original Request; i.e. July 15, 2016)

As was stated at the August 9, 2016 Planning and Zoning Commission meeting the purpose of this PD Development Plan is to allow for changes to the required *Street Type 'G'* cross section required by *Ordinance No. 10-21*. This includes modifications to the street section and the alignment of the roadway. The proposed use, number of units and layout of the building are all permitted *by-right* within the *Interior Subdistrict*. Considering this, staff should point out that the updated concept plan does show a change in the parking design for the proposed condominium building. The previous building incorporated a wrap design (*i.e. the building wraps around the parking garage*), whereas the new building incorporates a podium design (*i.e. the parking garage is located below the condominium units*). This is the same design style utilized by the adjacent Summer Lee Condominiums. The applicant has also reduced the number of units shown on the concept plan from 245 to 228 for the purpose of accommodating the increased right-of-way width. Should the Planning and Zoning Commission have any additional questions staff and the applicant will be available at the meeting.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 08/30/2016

APPLICANT: Jason Lentz; *Atticus Rockwall, LLC*

AGENDA ITEM: **Z2016-025**; *Harbor Urban Center Condominiums*

SUMMARY:

Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Interior Subdistrict, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [*FM-3097*] and Summer Lee Drive, and take any action necessary.

Addendum 08.30.2016: Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing a 228 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Interior Subdistrict, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [FM-3097] and Summer Lee Drive, and take any action necessary.

BACKGROUND:

On September 20, 2010, the City Council passed *Ordinance No. 10-21* [*Planned Development District 32 (PD-32)*], which established a concept plan and development standards for the approximate 78.89-acre tract of land commonly referred to as *PD-32* or the *Harbor District*. Within the approved concept plan, *PD-32* was divided into ten (10) subdistrict that contained individual development and land use standards. The subject property is a 3.453-acre tract of land located within the *Interior Subdistrict*, which -- according to the *PD Ordinance* -- is intended "… to provide an area that can function as either office, residential, or senior living ..."

REQUEST:

On July 15, 2016, the applicant, Jason Lentz, submitted an application proposing to develop the subject property with a 245-unit condominium building and structured parking garage. According to the *Subdistrict Land Use Chart* contained in *Exhibit 'D'* of Planned Development District 32 (PD-32) [*Ordinance No. 10-21*], the *Urban Residential (Condominium Units Only)* land use is permitted *by-right* within the *Interior Subdistrict*. In addition, *Ordinance No. 10-21* states, "(t)hat no more than 1,161 urban residential units shall be allowed in *PD-32*, which may include condominium and/or townhouse units, in addition to a maximum of 49 single-family zero lot line units (*patio homes*)." Currently, 664 of the urban residential units have been entitled (*i.e. Marina Village with 399-units and Summer Lee Condominiums with 265-units*), which leaves a total of 497-units still available. The ordinance does not stipulate a minimum or maximum number of units for any given subdistrict (*i.e. the pool of units is allocated on a first-come-first-serve basis to each development regardless of location as long as condominiums and townhouses are a permitted use within the subdistrict and there are still units available in the pool*).

According to the procedures stipulated in *Section 9.B*, *Procedures*, of *Ordinance 10-21*, this request -- *being in conformance with the Subdistrict Land Use Chart* -- would generally only be subject to *PD Site Plan* approval by the Planning and Zoning Commission; however, the proposed street extending from Summer Lee Drive to the southwestern corner of the subject property does not conform to the *Street Type G* cross section required by the *Streetscape Plan* contained in *Exhibit 'C'* of the ordinance. Taking this into consideration -- *and in conformance with Section 9.A, Development Plans, of Ordinance No. 10-21* -- staff has required the applicant to submit a *PD Development Plan* to allow the City Council discretionary authority over the requested waiver to the streetscape standards.

Addendum 08.30.2016: The proposed number of units have decreased from 245 to 228 (or a decrease of 17 units).

CHARACTERISTICS OF THE WAIVER REQUEST(S):

The *Streetscape Plan* contained in *Ordinance No. 10-21* calls for a *Street Type G*, which is intended to serve "…as an edge to the open space [*areas of the*] subdistrict …" and connect Summer Lee Drive and Ridge Road [*FM-740*]. Specifically this street section consists of *two-way* traffic on a 24-foot wide street with eight (8) foot parallel parking spaces along the western side of the roadway (*i.e. adjacent to the condominium project*), an eight (8) foot parkway, and eight (8) foot sidewalks on both sides of the street. The total right-of-way width of this street cross section is 60-feet. In lieu of this, the applicant is proposing a modified street cross section that will consist of two-way traffic on a 24-foot wide street with five (5) foot sidewalks on either side of the street, and a one (1) to two (2) foot parkway. The total right-of-way width of the proposed road section will be 36-feet; however, staff should point out that one (1) foot of the sidewalk will be situated outside of the right-of-way. This means that either the right-of-way width will need to be increase to 37-feet or the additional one (1) foot will need to be put into a *Pedestrian Access Easement* at the time of platting. Staff has included this as a condition of approval.

In reviewing this request, staff has identified an additional waiver to *building placement*, which will be required to be approved along with the applicant's request. Specifically, the *Interior Subdistrict* requires a minimum of a five (5) foot building setback and an average of a 20-foot setback along the *Street Type 'G'*, which the applicant is proposing to modify. In this case, the applicant would be requesting a minimum of a one (1) to two (2) foot building setback along this modified street section. Since a waiver to *building placement* is specifically identified in *Section 9.C, Waivers of Design Standards*, of *Ordinance No. 10-21*, it could be granted at the time of site plan approval by the City Council; however, since the modified street section is causing the *PD Development Plan* staff has included it in this request as a condition in the attached draft ordinance.

Addendum 08.30.2016: Please see the attached memorandum for an outline of the specific changes to the proposed street cross section.

WAIVER PROCEDURES:

Since this request [*i.e. a request to modify an established street cross section*] does not fall under the waivers listed in *Section 9.C, Waivers of Design Standards*, of *Ordinance No. 10-21*, the waiver is considered to be an amendment to Planned Development District 32 (PD-32), and in accordance with the amendment process staff has prepared a draft ordinance for the City Council's review (*see attached draft ordinance*). In addition, according to *Ordinance No. 10-21*, "(w)aivers may only be approved by the City Council following a recommendation by the Planning and Zoning Commission … (i)n order to approve a waiver the City Council must find that the waiver:

(a) Meets the general intent of the PD District or Subdistrict in which the property is located; and,
(b) Will result in an improved project which will be an attractive contribution to the PD District or Subdistrict; and,
(c) Will not prevent the implementation of the intent of this PD District."

The ordinance also grants the City Council the power to condition any approval to mitigate for potential negative impacts that could result from the approval of a waiver. Staff has provided some conditions for the City Council to review in the *Recommendations* section of this case memo. The conditions have also been placed in the attached draft ordinance. Should the City Council choose to grant the request the applicant will still need to submit a site plan that will be reviewed by the Architectural Review Board (ARB) and the Planning and Zoning Commission. The waiver to the *building placement requirements* is accounted for in the attached draft ordinance.

Staff should point out that if the City Council chooses to deny the request the motion should be based on the street cross section proposed by the applicant and not the land use, as the *Urban Residential (Condominium Units Only)* land use is a permitted *by-right* use in the *Interior Subdistrict*. It should also be mentioned that if the request is denied the applicant does have the ability to submit a site plan for the proposed development, as long as the proposed street cross section is in conformance to the *Streetscape Plan* contained in *Ordinance No. 10-21*.

NOTIFICATION:

On July 22, 2016, staff mailed 84 notices to property owners and residents within 500-feet of the subject property. Staff also emailed notices to the Lakeside Village, Lago Vista and Signal Ridge Homeowner's Associations (HOA), which are the only HOA's located within 1,500-feet of the subject property. Additionally, staff posted a sign on the subject property along Summer Lee Drive as required by the Unified Development Code (UDC). At the time, this case memo was drafted two (2) responses in favor of the request and four (4) responses opposed to the request were received by staff.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request for waivers to the requirements of Planned Development District 32 (PD-32), then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance and which are as follows:

   (a) The north/south public road connecting Summer Lee Drive to the southwest corner of the subject property shall be designed and constructed in accordance with the *Street Type 'G_1'* standards stipulated in *Exhibit 'D'* of the attached draft ordinance; and,

   (b) The minimum building setback adjacent to *Street Type 'G_1'* shall be two (2) feet. This can be reduced to one (1) foot if the right-of-way width is increased to 37-feet; and,

   (c) Any portion of the sidewalk situated outside of the right-of-way shall be required to be placed within a *Pedestrian Access Easement* on the final plat; and,

   (d) Prior to the submittal of a final plat the applicant shall submit and seek approval of a detailed site plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and the attached draft ordinance, and with the guidelines contained in *Resolution No. 10-40*; and,

   (e) The building elevations submitted with the site plan will require a recommendation from the Architectural Review Board (ARB) prior to approval by the Planning and Zoning Commission (*and City Council if necessary*); and,

   (f) An open space master plan will need to be submitted with the site plan. The open space master plan will need to be reviewed by the Parks Board; and,

(g) Prior to the issuance of a building permit, the applicant shall submit and seek approval of a final plat.

2) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Addendum 08.30.2016: The conditions of approval for this case have changed as noted below. These conditions have been incorporated into the attached draft ordinance.

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the Planned Development District ordinance and which are as follows:

(a) The north/south public road connecting Summer Lee Drive to the southwest corner of the subject property shall be designed and constructed in accordance with the Street Type 'G$_1$' standards stipulated in Exhibit 'D' of the attached draft ordinance; and,

(b) The minimum building setback adjacent to Street Type 'G1' shall be one (1) foot; and,

(c) Prior to the submittal of a final plat the applicant shall submit and seek approval of a detailed site plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [as amended] and the attached draft ordinance, and with the guidelines contained in Resolution No. 10-40; and,

(d) The building elevations submitted with the site plan will require a recommendation from the Architectural Review Board (ARB) prior to approval by the Planning and Zoning Commission (and City Council if necessary); and,

(e) An open space master plan will need to be submitted with the site plan. The open space master plan will need to be reviewed by the Parks Board; and,

(f) Prior to the issuance of a building permit, the applicant shall submit and seek approval of a final plat.

2) Any construction resulting from the approval of this zoning change shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

(7/21/2016 4:11 PM AA)
Fire Apparatus Access Roadway:
Approved fire apparatus access roads shall be provided for every building. The fire apparatus access road shall extend to within 150 feet of all portions of the facility and all portions of the exterior walls of the first story of the building as measured by an approved route around the exterior of the building or facility.

Exception: The fire code official is authorized to increase the dimension of 150 feet where:

1. The building is equipped throughout with an approved automatic sprinkler system installed in accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3, up to 250-ft.

2. Fire apparatus access roads cannot be installed because of location on property, topography, waterways, nonnegotiable grades or other similar conditions, and an approved alternative means of fire protection is provided.

Multiple-family residential projects having more than 200 dwelling units shall be provided with two separate and approved fire apparatus access roads . Where two access roads are required, they shall be placed a distance apart equal to not less than one half of the length of the maximum overall diagonal dimension of the property or area to be served, measured in a straight line between accesses.

Fire Hydrant Coverage:
All portions of the exterior walls of the first story of the building shall be within 600-ft. of a fire hydrant as measured by an approved route around the exterior of the facility or building.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

Fire Hydrant shall be located within 100-ft. of the Fire Department Connection (FDC) and within 8-ft. of fire apparatus access roadway.

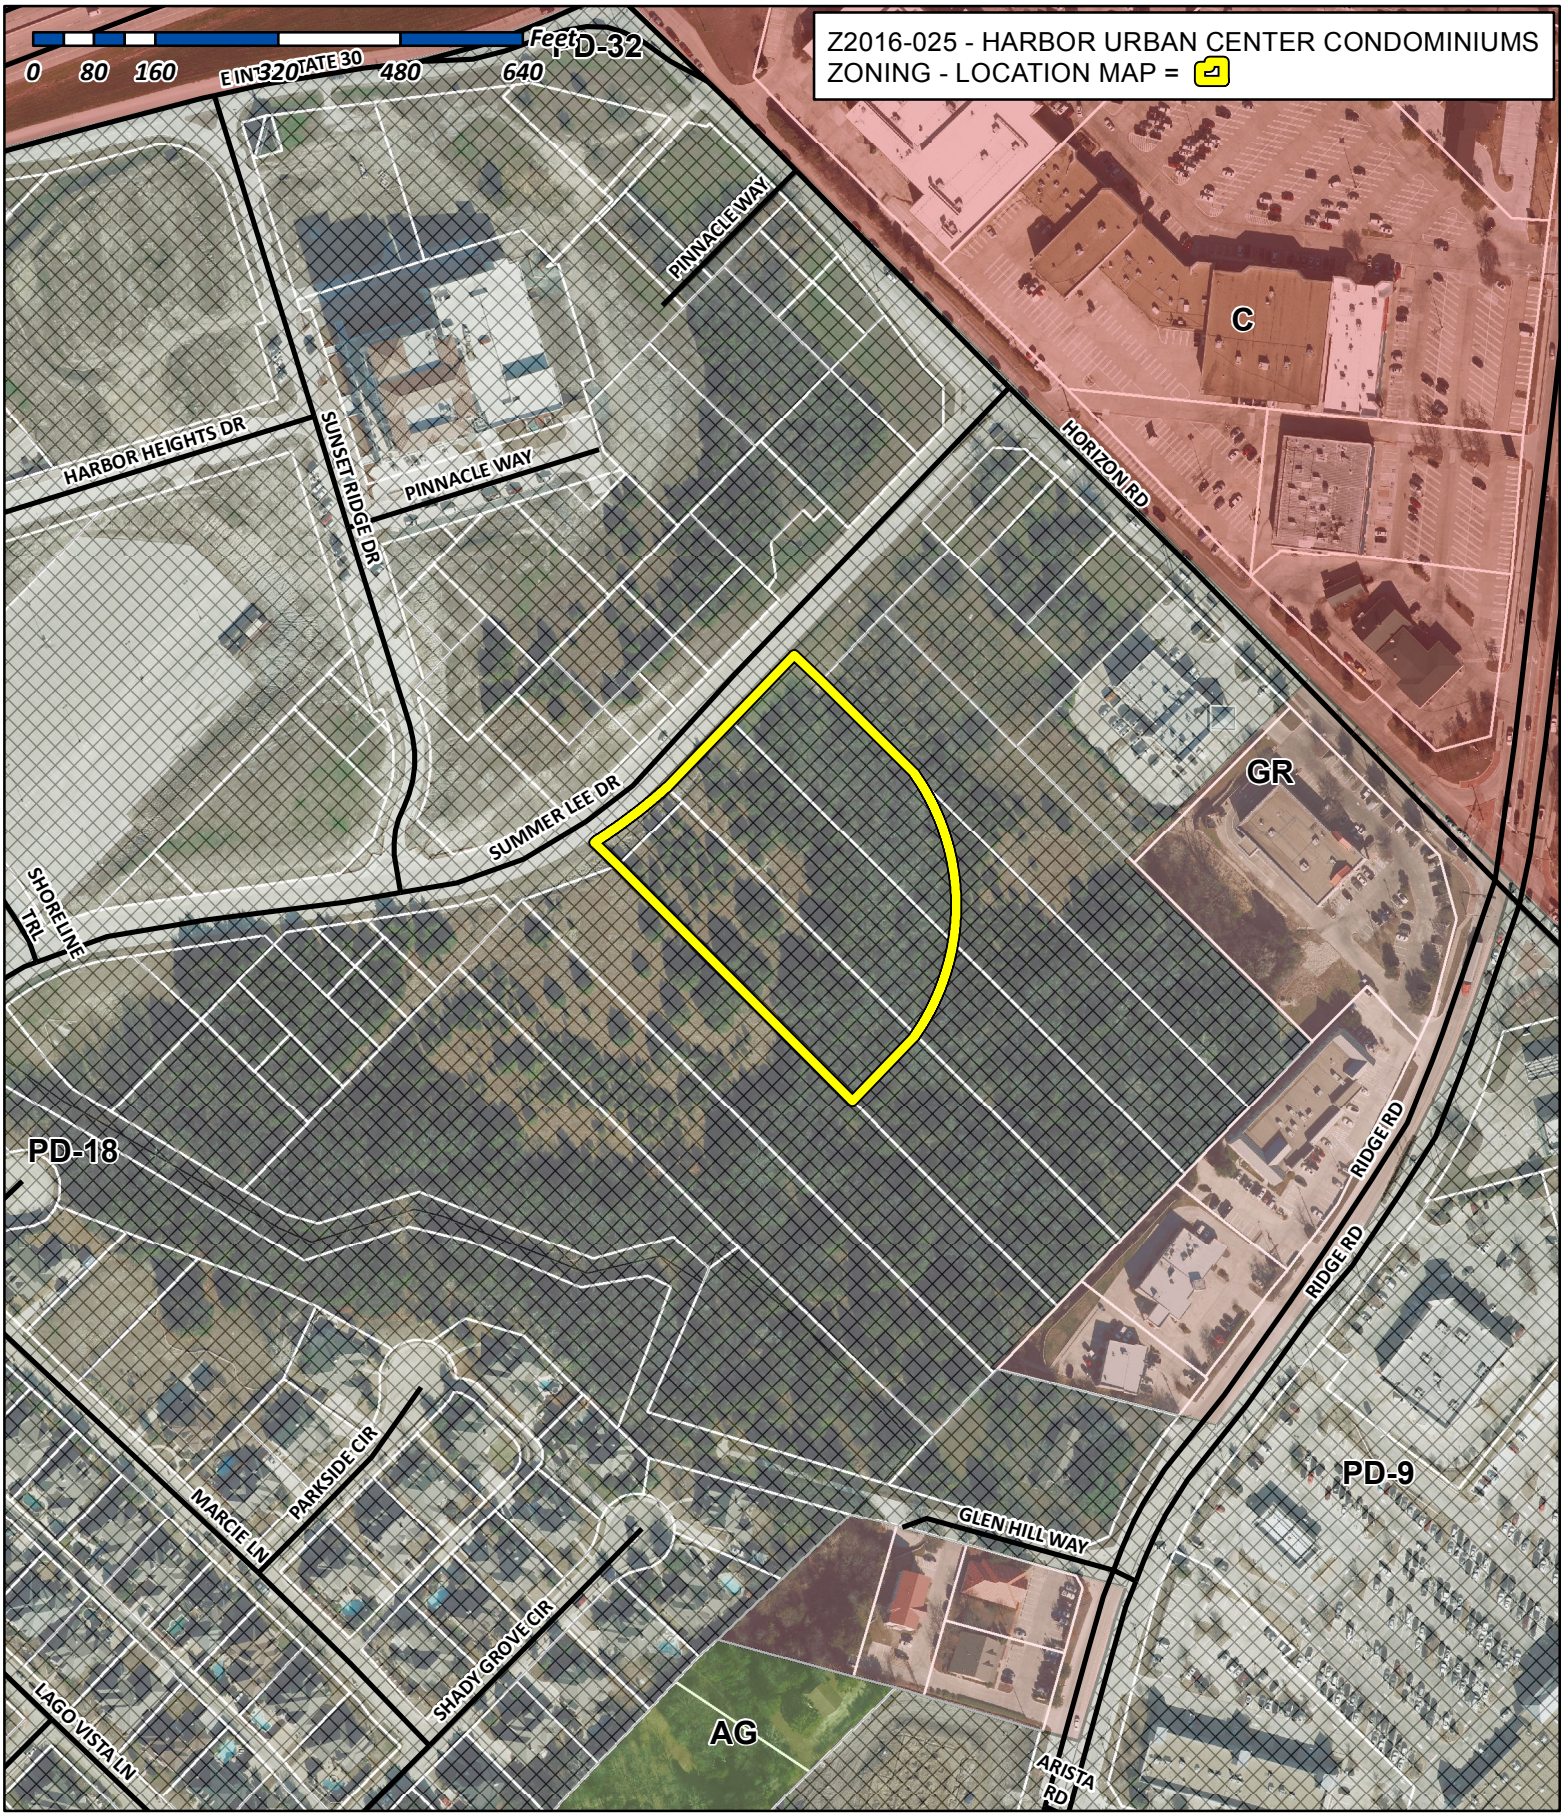
Z2016-025 (PD Development Plan for the Harbor Urban Center Condominiums): Please address the following comments (M= Mandatory Comments; I = Informational Comments).



I.1 This case is for the PD Development Plan establishing a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Residential Subdistrict and within the Scenic Overlay (SOV) District, and located north of the intersection of Ridge Road [FM-740] and Glen Hill Way.
I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 On all future submittals please include the case number (Z2016-025) in the lower right hand corner.
I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on August 9, 2016.
M.5 A legal description covering the area of the townhomes will be required to be submitted prior to the first City Council meeting.
I.6 Per conversations on July 21, 2016, it is staff's understanding that a public roadway ranging from 36 – 40 feet will be established, extending from Summer Lee Drive to the southwestern corner of the subject property.
M.7 Provide a site plan that better delineates the requested development (i.e. remove the townhome data on the right side of the page and the line work not relating to this project).
M.8 Submit four (4) sided elevations of the proposed condominium building. These will be placed in the PD Development ordinance to ensure general conformance is met at the time of site plan (Update 07/21/2016: The applicant stated that the building may be five [5] stories in height. This is permitted but must be established on the submitted building elevations. In addition, the building rendering will need to be updated).
I.9 Please note that the minimumbuilding height for the first floor is 15-feet. This is intended to provide a commercial look to the first floor of the building. It should also be noted that the Planned Development District does allow for mixed use building should the proposed development wish to incorporate commercial or office uses/flex space on the first floor (Note: most commercial and retail uses require the approval of a Specific Use Permit).
I.10 Per Ordinance No. 10-21 all elevations shall be required to be reviewed by the Architectural Review Board (ARB). This review will be required at the time of site plan approval.
I.11 If approved, an open space master plan will be required to be reviewed by the Parks Board prior to City Council approval.
I.12 If approved, the applicant will be required to submit a site plan and final plat for the subject property.
M.13 Based on the applicant's submittal staff would make the following recommendations concerning the proposed townhome development:

1) The development plan should look to incorporate a pedestrian way as required by the Interior Subdistrict's standards. See Page 4 of Resolution No. 10-40 for details on pedestrian ways.
2) The applicant should incorporate streetscape elements into the condominium development. Staff will require a streetscape plan at the time of site plan.
3) With regard to the two (2) interior courtyards depicted on the concept plan please see Page 8 of Resolution No. 10-40 for opportunities to add further amenities to the development.
4) If any portion of the parking garage is going to be visible please be aware that there are requirements contained in Planned Development District 32 (PD-32) to reduce the impact of the exposed parking areas. Additional guidelines are contained on Page 10 of Resolution No. 10-40.

All recommendations are intended to bring the plan closer into conformance with the City's Comprehensive Plan and with the intent of Planned Development District 32 (PD-32).

I.14 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due to staff on August 2, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the August 9, 2016 Planning & Zoning Meeting.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
I.15 The projected City Council dates for this case are project to be: 1) August 15, 2016 [1st Reading], and 2) September 6, 2016 (Tuesday) [2nd Reading].

Worsening of already bad traffic problems along Summer Lee, worsening of existing loss of landscape (Harbor Heights has yet to restore surrounding blighted landscape around it), additional overcrowding of what is supposed to be an upscale community, further intrusion into dwindling wildlife habitats, loss of privacy via loss of tree cover - consider building instead over existing nearby strip mall areas in need of renovation

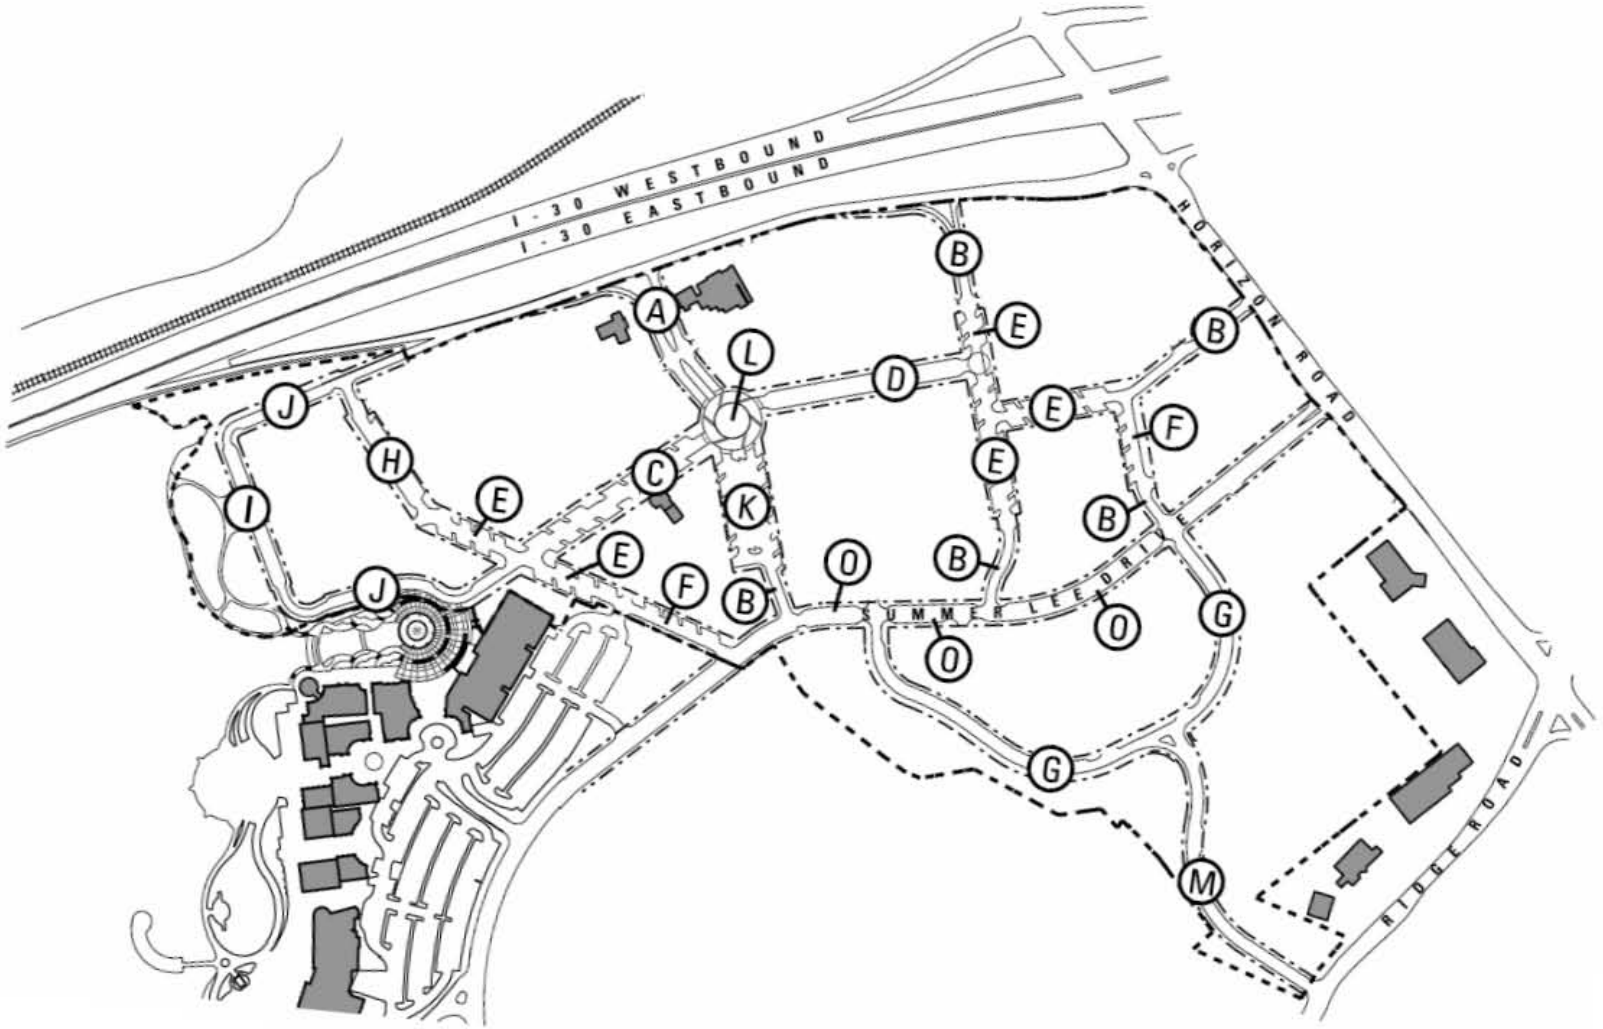
Subject:	Neighborhood Noification Program: Notice of zoning request
Date:	Wednesday, July 20, 2016 11:22:20 AM

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on June 3, 2016. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-025- Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Interior Subdistrict*, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [*FM-3097*] and Summer Lee Drive, and take any action necessary.**



If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.

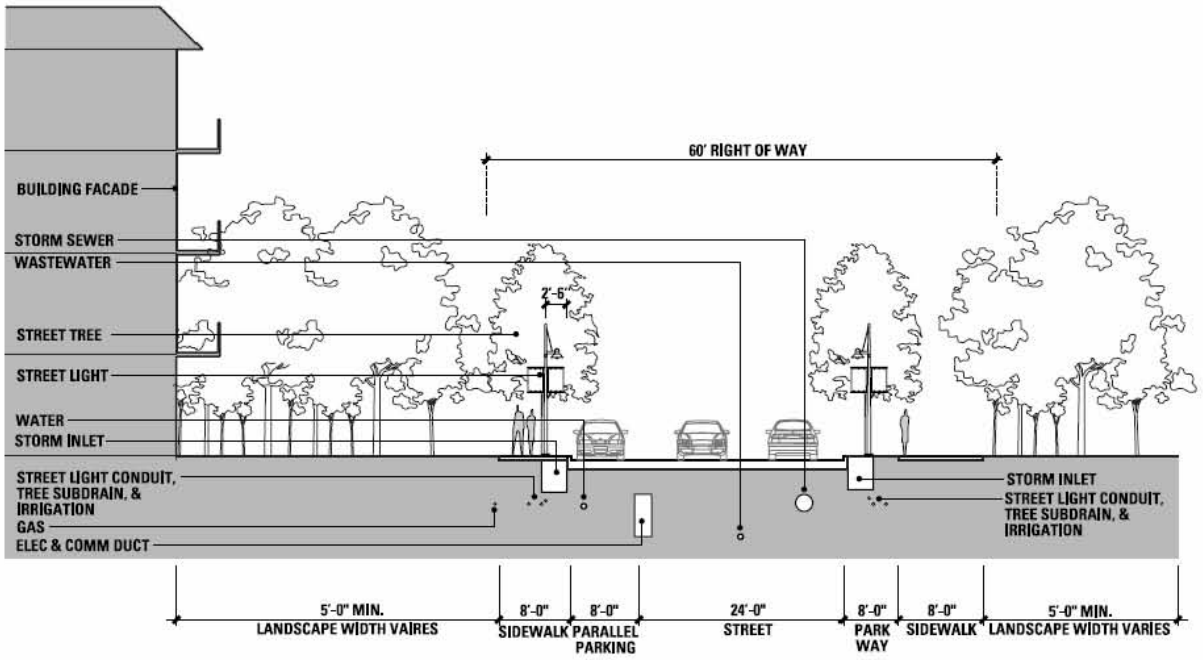
Exhibit C-4 (Page 1 of 18)
Streetscape Plan



STREET TYPES PLAN

STREET TYPE G

Street type 'G' serves as an edge to the open space subdistrict. This street type consists of parallel parking designated on one side of a 24' wide street within a 60' right of way. An 8' wide concrete sidewalk with street trees in 5' x 10' leave outs spaced at 30' O.C. and pedestrian scale street lights spaced at 60' O.C. is provided on the parallel parking side of the street. An 8' wide concrete sidewalk is provided on the open space side of the street with street trees spaced at 30' O.C. and pedestrian scale light fixtures spaced at 60' O.C. within an 8' wide parkway. Existing trees may be preserved within the right of way when possible. Longitudinal slopes on this street type are between 1% and 10%. At street intersections and key pedestrian crossing areas slopes are limited to 2% for accessibility.

INTERIOR SUBDISTRICT

The primary intent of the Interior subdistrict is to provide an area that can function as either office, residential, or senior living use. Key characteristics of this subdistrict include good views of Lake Ray Hubbard and adjacency to open space. Existing slopes within this subdistrict are in the 6% - 10% range. Significant massing of existing trees are also present within this subdisctrict which should be preserved where possible.

Building Placement

Setback (Distance from R.O.W. line)

Summer Lee Drive	20'
Street Type G	5' minimum, 20' minimum average

Building Form

Each building must have a minumum of 30% of the length of its façade fronting Summer Lee Dr located on the 20' setback line.

Maximum Lot Coverage	60%

Notes

When an abutting property with an existing building has windows facing to the side, any new building shall provide at least 10 feet of separation.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 32 (PD-32) [*ORDINANCE NO. 10-21*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A DEVELOPMENT PLAN FOR A 3.453-ACRE PORTION OF A LARGER 6.915-ACRE TRACT OF LAND IDENTIFIED AS LOTS 3A, 4A & 5A, ISAAC BROWN ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Jason Lentz of Atticus Real Estate on behalf of Atticus Rockwall, LLC for the approval of a PD Development Plan for a 228 unit, condominium development to be situated within the *Interior Subdistrict* of Planned Development District 32 (PD-32) on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*], as heretofore amended, shall be further amended by amending the *Concept Plan* approved with *Ordinance No. 10-21* and the official zoning map of the City of Rockwall so as to approve a *PD Development Plan* for the *Subject Property*; and,

Section 2. That development of the *Subject Property* shall generally be in accordance with the *PD Development Plan*, depicted in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*; and,

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Concept Building Elevations*, depicted in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of

DRAFT 09.15.16

approval of the amended zoning classification for the *Subject Property*; and,

Section 4. That the *Subject Property* shall be used only in the manner and for the purposes provided for in Planned Development District 32 (PD-32) [*Ordinance No. 10-21*], the Unified Development Code [*Ordinance No. 04-38*], and in compliance with the following conditions and requirements:

1) The north/south public road connecting Summer Lee Drive to the southwest corner of the subject property shall be designed and constructed in accordance with the *Street Type 'G$_1$'* standards stipulated in *Exhibit 'D'* of this ordinance; and,

2) The minimum building setback adjacent to *Street Type 'G$_1$'* shall be one (1) foot; and,

3) Prior to the submittal of a final plat the applicant shall submit and seek approval of a detailed site plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and this ordinance, and with the guidelines contained in *Resolution No. 10-40*; and,

4) The building elevations submitted with the site plan will require a recommendation from the Architectural Review Board (ARB) prior to approval by the Planning and Zoning Commission (*and City Council if necessary*); and,

5) An open space master plan will need to be submitted with the site plan. The open space master plan will need to be reviewed by the Parks Board; and,

6) Prior to the issuance of a building permit, the applicant shall submit and seek approval of a final plat.

Section 5. The official zoning map of the City of Rockwall, Texas be corrected to reflect the changes in zoning described in this ordinance;

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City

DRAFT ORDINANCE 09.19.2016

Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

DRAFT ORDINANCE 09.13.2016

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: August 30, 2016

SUBJECT: Z2016-026; *Harbor Urban Center Townhomes*

On August 9, 2016, the Planning and Zoning Commission approved a motion to continue *Case No. Z2016-026* by a vote of 7-0. The purpose of the continuation was to allow the applicant time to establish an acceptable roadway cross section and alignment for the roadway proposed with *Case No. Z2016-025*, which will eventually serve this development. Since this motion, the applicant has submitted revisions to *Case No. Z2016-025* intended to address the concerns raised by the Planning and Zoning Commission at the August 9, 2016 meeting. Should the Planning and Zoning Commission have any additional questions staff and the applicant will be available at the meeting.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 08/30/2016

APPLICANT: Jason Lentz; *Atticus Rockwall, LLC*

AGENDA ITEM: **Z2016-026**; *Harbor Urban Center Townhomes*

SUMMARY:

Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Residential Subdistrict and within the Scenic Overlay (SOV) District, located north of the intersection of Ridge Road [FM-740] and Glen Hill Way, and take any action necessary.

BACKGROUND:

On September 20, 2010, the City Council passed *Ordinance No. 10-21* [*Planned Development District 32 (PD-32)*], which established a concept plan and development standards for the approximate 78.89-acre tract of land commonly referred to as *PD-32* or the *Harbor District*. Within the approved concept plan, *PD-32* was divided into ten (10) subdistrict that contained individual development and land use standards. The subject property is a 3.462-acre tract of land located within the *Residential Subdistrict*, which -- according to the *PD Ordinance* -- is "… reserved for zero lot line single family residential housing ... (a) lower volume of traffic in this area of the Harbor District make this subdistrict ideal for single family use."

REQUEST:

On July 15, 2016, the applicant, Jason Lentz, submitted an application for a *PD Development Plan* showing the proposed layout for a 36-unit townhouse development on the 3.462-acre subject property. According to the *Subdistrict Land Use Chart* contained in *Exhibit 'D'* of Planned Development District 32 (PD-32) [*Ordinance No. 10-21*], the *Townhouse* land use requires a Specific Use Permit (SUP) within the *Residential Subdistrict*; however, since the intent of the *Residential Subdistrict* is for the construction of single-family, zero lot line homes -- *with rear entry garages* -- and the applicant's request does not meet this intent, staff has requested that the applicant submit a *PD Development Plan* in conformance with *Section 9.A, Procedures,* of *Ordinance No. 10-21*. Since a *PD Development Plan* acts as an amendment to the *PD Ordinance*, an SUP will not be required if the request is approved by the City Council. In addition, the *PD Development Plan* grants the City Council the same discretionary approval over the development and proposed land use as an SUP.

CHARACTERISTICS OF THE REQUEST:

The concept plan for the *Residential Subdistrict* calls for 49 single-family, zero-lot-line homes fronting on to a *Street Type 'M'*. The *Streetscape Plan* contained in *Exhibit 'C'* of *Ordinance No. 10-21* defines a *Street Type 'M'* as a single-family residential neighborhood street that consists of 50-feet of right-of-way, a 30-foot wide street, and five (5) foot sidewalks provided on both sides of the street. In addition, the *Streetscape Plan* calls for a *Street Type 'N'*, which is intended to serve as an alleyway within the *Residential Subdistrict.*

The *PD Development Plan* submitted by the applicant shows the layout for the proposed townhouse development, which will incorporate private streets and amenities, front entry garages and rows of four (4) to five (5) townhomes. The development will be accessible from two (2) main points of entry, the first from a public roadway that will be constructed (*if approved*) with the Harbor Urban Center Condominiums [*Case No. Z2016-026*] and a future roadway that will connect the Harbor District to Ridge Road [*FM-740*]. The proposed unit mix for the townhouse is as follows:

Table 1: Unit Composition

Unit Name	Unit Type	Minimum Net Unit Area (SF)	Number of Units (#)	Total Area (SF)	Units as Percentage (%)
THA	*1 Bedroom/1.5 Bath*	1,622 SF	9	14,598 SF	25%
THB	*2 Bedroom/ 1.5 Bah*	1,694 SF	11	18,634 SF	31%
THC1	*3 Bedroom/2.5 Bath*	1,882 SF	7	13,174 SF	19%
THC2	*3 Bedroom/Media Room/2.5 Bath*	2,571 SF	3	7,713 SF	8%
THD	*3 Bedroom/2.5 Bath*	2,163 SF	6	12,978 SF	17%
		Average Net Unit Area:		***1,863.81 SF***	
		Total Units:	***36***		***100.00%***

Staff should note that *Ordinance No. 10-21* does not establish minimum unit sizes for residential units within the *Residential Subdistrict*, nor does the ordinance establish design standards for townhouses. The *Residential Policies* contained in *Resolution No. 07-03* [*i.e. the Appendix 'A' of the Comprehensive Plan*] do state that all townhouses *must* have rear-entry garages. In this case, the applicant is proposing to have a front-entry product that will be accessible off a private street. The applicant has stated that the product is designed to have one (1) of the keystone townhouses (*i.e. the townhouses situated on the corner or at the end of a row*) accessible with a side entry garage, which could mitigate some of the concern over a traditional front-entry product. This means that in a row of five (5) townhouses only four (4) will have front-entry garages. This is depicted in the concept building elevations submitted by the applicant and attached to this case memo. In addition, *Resolution No. 07-03* states, "(h)omes should differ in appearance through the use of varying entry features, use of detail and trim, use of materials, articulation and setback." The proposed development is meant to function as an enclosed community and as a result, the applicant is proposing a uniform design scheme. Based on the concept building elevations, the units will be constructed from stone and stucco, and will incorporate varying roof pitches and stone chimneys that help vary the façades of each building. Staff has included the concept building elevations in the attached draft ordinance and general conformance to these elevations is a consider to be a condition of approval.

In granting a *PD Development Plan* within Planned Development District 32 (PD-32) the City Council needs to decide if the proposed development -- *while not meeting the intent of the subdistrict* -- meets the following criteria:

(a) Meets the general intent of the *PD District*; and,
(b) Will result in an improved project which will be an attractive contribution to the *PD District*; and,
(c) Will not prevent the implementation of the intent of this *PD District*.

A *PD Development Plan* is a discretionary approval for the City Council, and should the City Council choose to grant the request this request the applicant will still need to submit a site plan that will be reviewed by the Architectural Review Board (ARB) and the Planning and Zoning Commission.

NOTIFICATION:

On July 22, 2016, staff mailed 52 notices to property owners and residents within 500-feet of the subject property. Staff also emailed notices to the Lago Vista Homeowner's Associations (HOA), which is the only HOA's located within 1,500-feet of the subject property. Additionally, staff posted a sign on the subject property along Summer Lee Drive as required by the Unified Development Code

(UDC). At the time, this case memo was drafted three (3) responses in favor of the request and one (1) response opposed to the request were received by staff.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request for a *PD Development Plan* for Planned Development District 32 (PD-32), then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

   (a) Cross access (*as depicted in Exhibit 'B' of attached draft ordinance*) shall be provided to the property directly north of the subject property;

   (b) Prior to the submittal of a final plat the applicant shall submit and seek approval of a detailed site plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and the attached draft ordinance, and with the guidelines contained in *Resolution No. 10-40*; and,

   (c) The building elevations submitted with the site plan will require a recommendation from the Architectural Review Board (ARB) prior to approval by the Planning and Zoning Commission (*and City Council if necessary*); and,

   (d) An open space master plan will need to be submitted with the site plan. The open space master plan will need to be reviewed by the Parks Board; and,

   (e) Prior to the issuance of a building permit, the applicant shall submit and seek approval of a final plat.

2) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

(7/21/2016 4:13 PM AA)
Fire Apparatus Access Roadway:
Approved fire apparatus access roads shall be provided for every building. The fire apparatus access road shall extend to within 150 feet of all portions of the facility and all portions of the exterior walls of the first story of the building as measured by an approved route around the exterior of the building or facility.

Exception: The fire code official is authorized to increase the dimension of 150 feet where:

1. The building is equipped throughout with an approved automatic sprinkler system installed in accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3, up to 250-ft.

Fire Hydrant Coverage:
All portions of the exterior walls of the first story of the building shall be within 600-ft of a fire hydrant as measured by an approved route around the exterior of the facility or building.

Fire Hydrant shall be located within 100-ft. of the Fire Department Connection (FDC) and within 8-ft. of fire apparatus access roadway.

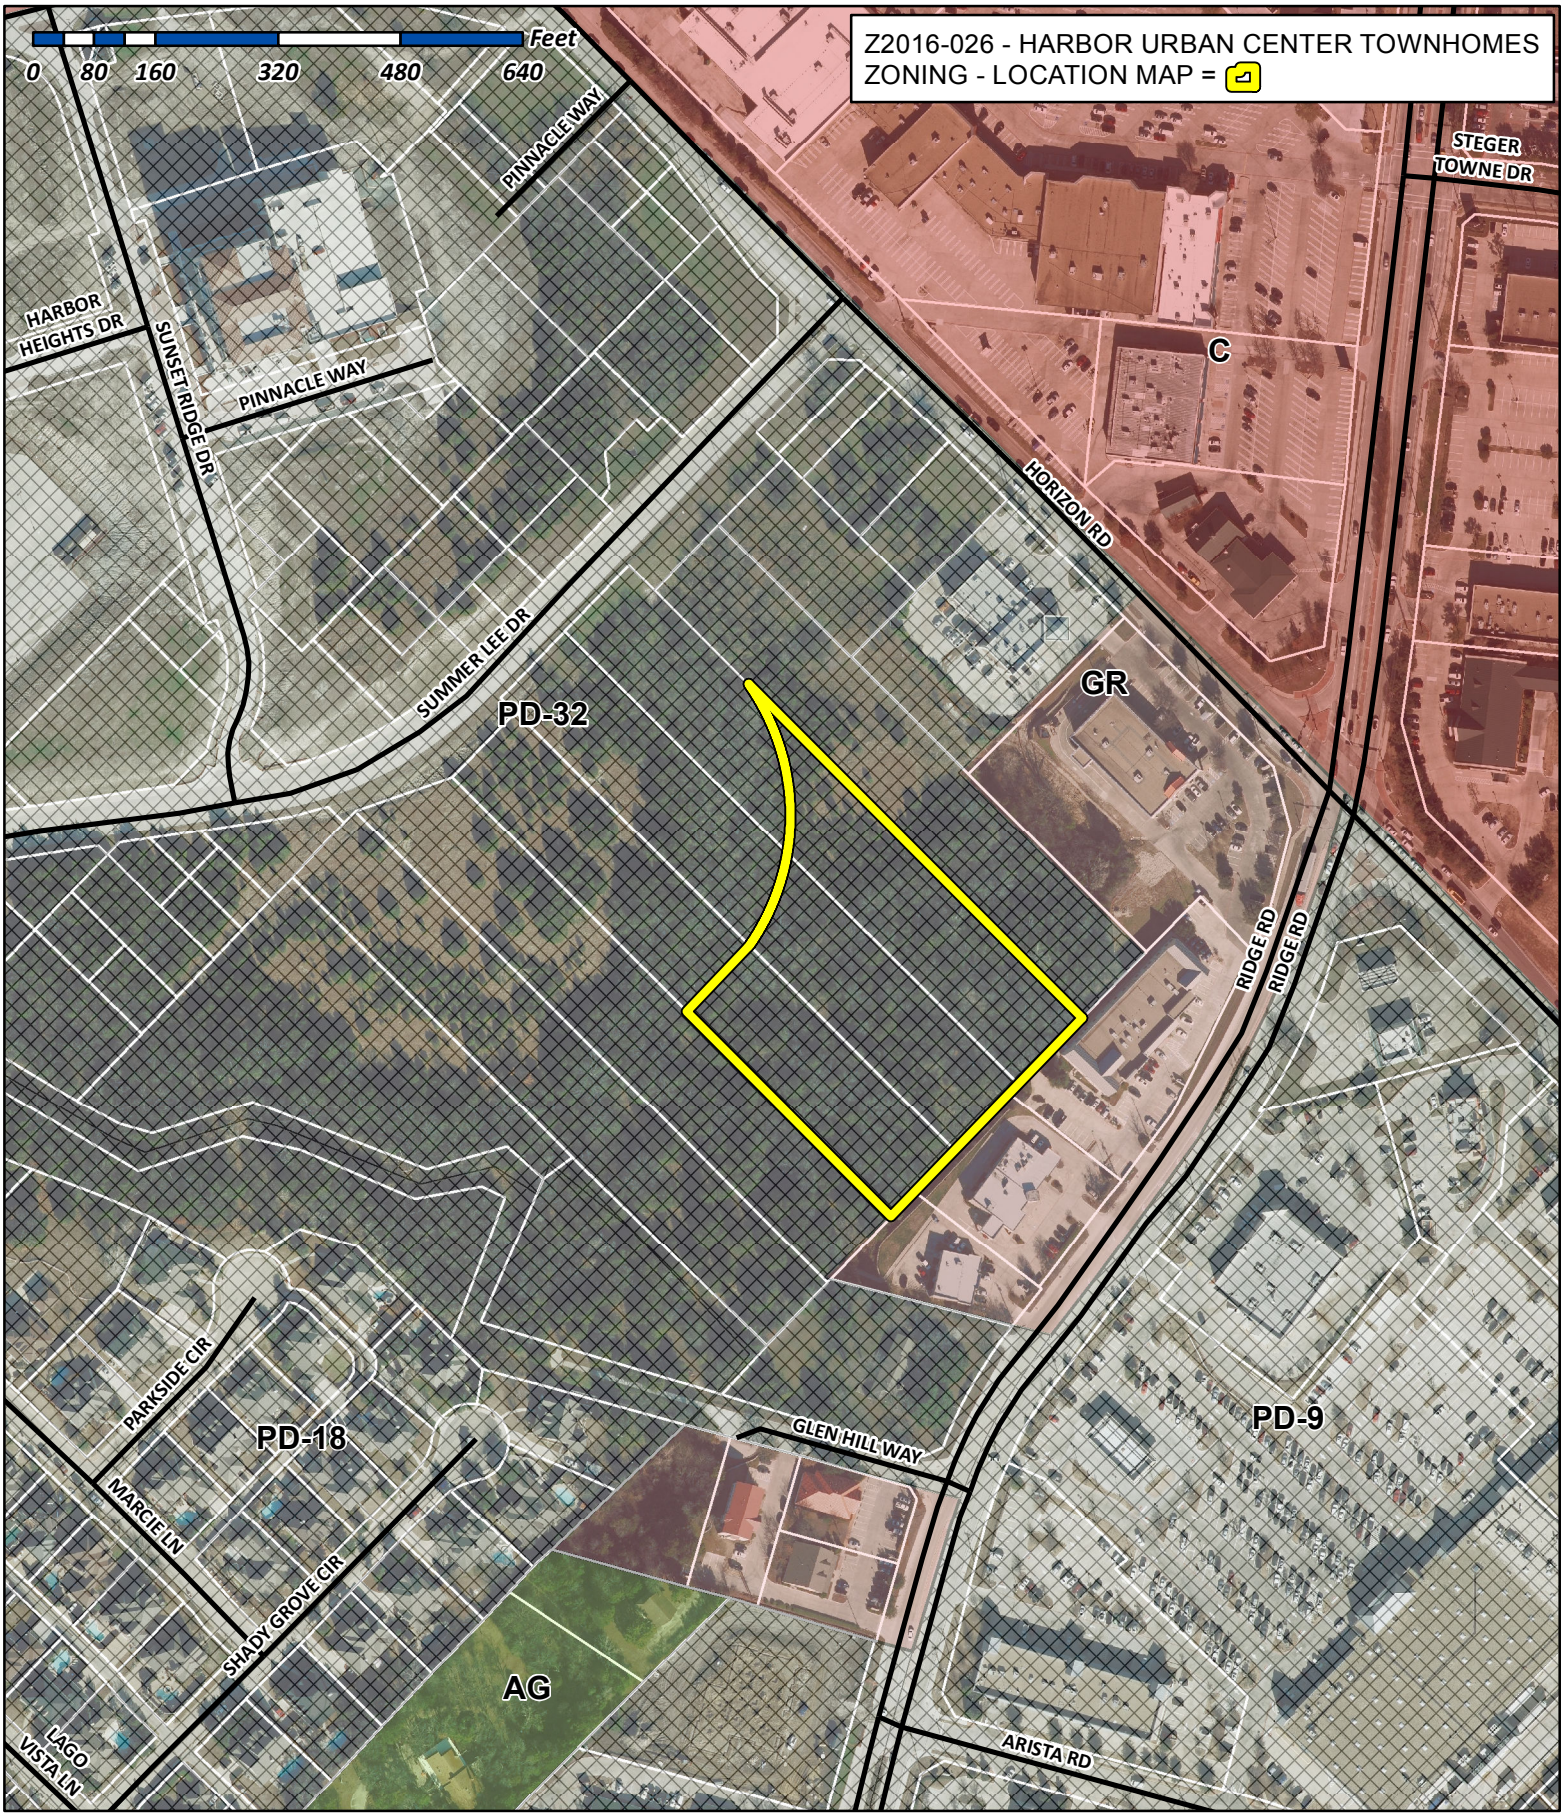
Z2016-026 (PD Development Plan for the Harbor Urban Center Townhomes): Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This case is for the PD Development Plan establishing 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A,

Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Residential Subdistrict and within the Scenic Overlay (SOV) District, and located north of the intersection of Ridge Road [FM-740] and Glen Hill Way.
I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 On all future submittals please include the case number (Z2016-026) in the lower right hand corner.
I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on August 9, 2016.
M.5 A legal description covering the area of the townhomes will be required to be submitted prior to the first City Council meeting.
I.6 According to Ordinance No. 10-21, "…adequate access necessary to serve that development in conformance with the streetscape plan for the Sub-District or with Exhibit C-4 [Streetscape Map] shall be constructed." In this case, the development does not conform to the streetscape map for the district and reduces access for the property to the north. Due to this and the proposed use not conforming to the intent of the Residential Sub-District, staff is requiring a PD Development Plan. According to the use charts contained in PD-32 townhomes require a Specific Use Permit; however, since the project will require City Council to approve a PD Development Plan, which will change the intent of the Sub-District the Specific Use Permit will not be required. Please see staff's recommendations below for strategies to reduce impact within the Sub-District.
M.7 Provide a site plan that betterdelineates the requested development (i.e. remove the condominium data on the right side of the page and the line work not relating to this project -- the roadway that would connect this project to Summer Lee Drive should remain on the plan [roadway referenced below]).
M.8 Submit four (4) sided elevations of the proposed townhomes. These will be placed in the PD Development ordinance to ensure general conformance is met at the time of site plan.
I.9 The submitted rendering does not seem to match the submitted concept plan. The elevation shown on the rendering does not include garages and all buildings adjacent to the roadway have garages [this is also true with regard to the submitted building elevations].
I.10 Per Ordinance No. 10-21 all elevations shall be required to be reviewed by the Architectural Review Board (ARB). This review will be required at the time of site plan approval.
I.11 If approved, an open space master plan will be required to be reviewed by the Parks Board prior to City Council approval at the time of final plat..
I.12 If approved, the applicant will be required to submit a site plan and final plat for the subject property.
M.13 Are these townhomes on individual lots? If they are on individual lots please submit a subdivision plan showing how the development will be subdivided and indicating minimum .lot width and depth. If the development is intended to be one (1) lot please indicate how ownership will be calculated (i.e. as a share of the total development or other). This is needed to establish conformance with the intent of the Sub-District.
M.14 Based on the applicant's submittal staff would make the following recommendations concerning the proposed townhome development:

1) The applicant should consider incorporating alleyways with rear-facing garages. According to the City's Comprehensive Plan "Townhouses should have a minimum required square footage of livable space (e.g. 1,200 SF), with no maximum size … Townhouses mustalso have rear-entry garages."
2) The streets within the development should be public streets to allow connectivity for adjacent properties. Currently, the applicant's plan limits the connectivity of the adjacent property (i.e. the property directly northeast of the subject property), and changes the adjacent property owners ability to conform to the plan (Update 07/21/2016: The applicant has stated that a cross access easement with a stub out to the adjacent property to the north will be provided. This should provide sufficient cross access).
3) The townhome property should connect to the roadway extending adjacent to the condominium project in order to increase connectivity and access to the site. It should also be pointed out that under the current development scheme the townhome site would not be able to be developed until the adjacent properties construct future roadways.
4) The applicant should consider patterning the internal streets of the development off the mew concept contained on Page 5 of Resolution No. 10-40. Staff will review the streetscape elements with the site plan.
5) The applicant should consider incorporating parallel or niche parking to accommodate visitors.
6) The applicant should incorporate streetscape elements into the townhome development. Staff will require a streetscape plan at the time of site plan.



All recommendations are intended to bring the plan closer into conformance with the City's Comprehensive Plan and with the intent of Planned Development

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

District 32 (PD-32).

I.15 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due to staff on August 2, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the August 9, 2016 Planning &Zoning Meeting.

I.16 The projected City Council dates for this case are project to be: 1) August 15, 2016 [1st Reading], and 2) September 6, 2016 (Tuesday) [2nd Reading].

Subject: Neighborhood Noification Program: Notice of zoning request
Date: Wednesday, July 20, 2016 11:22:32 AM

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on June 3, 2016. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-026- Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Residential Subdistrict* and within the Scenic Overlay (SOV) District, located north of the intersection of Ridge Road [*FM-740*] and Glen Hill Way, and take any action necessary.**

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.

Sincerely,

Laura Morales

RESIDENTIAL SUBDISTRICT

The Residential subdistrict is reserved for zero lot line single family residential housing. A lower volume of traffic in this area of the Harbor District make this subdistrict ideal for single family use. Key characteristics of this subdistrct include adjacency to open space and steep slopes which offer views of the surrounding area. Existing slopes within this subdistrict are in the 6% - 16% range. This subdistrict is predominately vegetated by massing of existing trees which should be preserved when possible.

Building Placement

Build-to-line (Distance from R.O.W. line)		
Street Type M	10'	

Setback (Distance from R.O.W. line)	
Street Type N	5'
Side	8'
Zero Lot Line	0'

A minimum of 50% of the boundary with the Open Space Subdistrict along street type G must be a public street (type M).

Building Form		
Street Type M façade built to BTL	65%	min.
Maximum Lot Coverage	61%	
Minimum Lot Size	30' x 90'	

Notes

RESIDENTIAL SUBDISTRICT

FLOOR PLAN/ELEVATION REPETITION

To avoid repetition and a monotonous look to the subdistrict environment, the following guidelines apply regarding the repetition of floor plans and elevations:

Case 1
When building a house having the **same floor plan** and the **same elevation**, whether on the **same or opposite side** of the street, four (4) full lots must be skipped. Different paint color must be used. See Figure A.

Case 2
When building a house having the **same floor plan** and a **different elevation** on the **same side** of the street, three (3) full lots must be skipped. Different paint color must be used. See Figure B.

Case 3
When building a house having the **same floor plan** and a **different elevation** on the **opposite side** of the street, two (2) full lots must be skipped. Different paint color must be used. See Figure B.

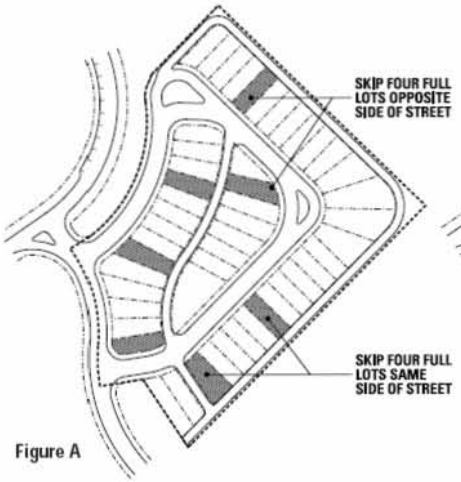

Figure A

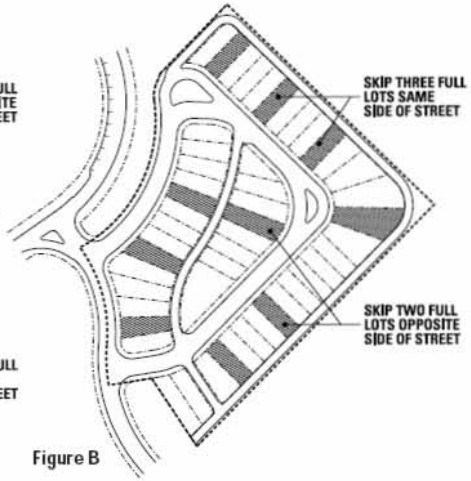

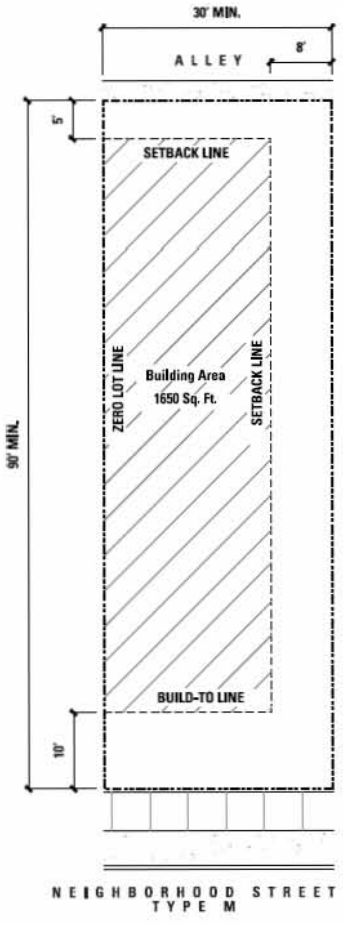

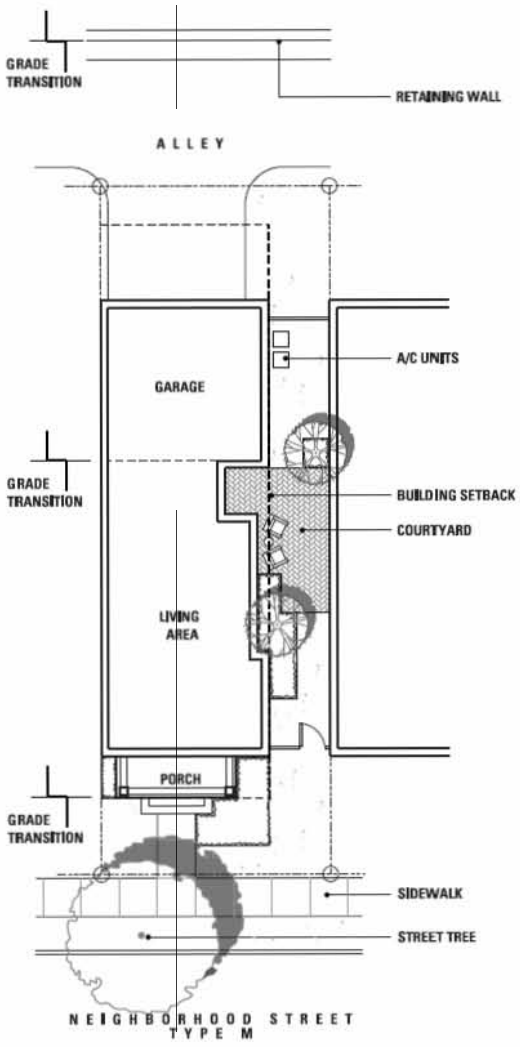

Figure B

RESIDENTIAL SUBDISTRICT

ARCHITECTURAL GUIDELINES

Site Layout, Grading and Drainage

1. Runoff onto adjacent properties is prohibited.

4. Finished floor elevations shall be set in order to provide positive drainage away from all buildings.

5. Create smooth slope transitions, blending with natural grades, with maximum slopes in lawn areas being 4:1.

6. Do not run drainage swales from planting areas across paved areas.

Landscape Structures

1. Basketball goals, play structures, swing sets and similar elements may only be located in side or rear yards.

2. All vertical construction including garages, gazebos, arbors, barbeques and fireplaces must comply with front, side and rear setbacks.

3. Use materials, forms, styles and colors which match or are complementary to the architectural style and detailing of the house.

Pools and Water Features

1. Swimming pools, spas and water features must comply with front, side and rear setbacks. Above grade pools or spas are not permitted.

2. Fencing or design solutions which provide enclosures in accordance with local ordinances and regulations must be provided.

3. Mechanical equipment for pools and spas must be located so as to not be visible from adjacent properties or the street. Locate or enclose equipment to minimize noise intrusion.

Lighting, Utilities and Service

1. Exterior ornamental and accent lighting may be used in moderation to complement landscape and architectural features. Light fixtures shall have appropriate light cutoff shields to prevent unwanted glare to neighboring properties and streets.

2. Post mounted light fixtures and bollard lighting are not permitted. Pathway lighting may be used, limited to 18 inches in height.

3. Colored, fluorescent and neon lighting is prohibited. Obtrusive HID security lighting fixtures are prohibited.

4. Exposed exterior floodlights or wall packs are not permitted.

5. All site utilities shall be underground. Transformers, meters and other utility equipment shall be screened by planting or by architectural means. Avoid clipped hedges around utility boxes.

Irrigation Design

1. Irrigation is required for all home sites and shall be an automatic, underground system with rain and freeze sensors.

2. Design irrigation systems to separately circuit irrigation zones for plant materials having different watering requirements, such as lawns and shrubs.

3. Prevent overspray onto streets, pedestrian walks, driveways and buildings.

Driveways

1. Driveways shall be paved with concrete, pavers, or integrally colored concrete with charcoal grey color. Chemical staining enhancements are not permitted. Driveways may not be painted with an opaque coating.

Garages

1. Garages must be rear loaded from an alley.

2. All garages must hold a minimum of one and a maximum of two cars. Guest parking spaces shall be on street.

Building Massing

1. The house footprint shall be composed of squares and rectangles placed at right angles to one another. The geometry of each of these shapes shall be uninterrupted by adjacent shapes.

2. All building footprints shall be at right angles to the property lines. Compose house forms to create exterior space.

3. Massing may be either symmetrical or asymmetrical. The dominant architectural mass shall be located near the center of the composition.

Roofs

1. The individual shapes which compose the house footprint shall each be roofed by a symmetrical gable, hip, or a simple roof form.

2. The geometry of each roof form shall be uninterrupted by adjacent roof forms. Valleys are discouraged, except for dormers.

Wall Materials

1. Exterior wall materials shall be any of the following:
   A. Fiber cement board siding and shingles, primed and painted, "Hardie" type boards. Siding shall be installed horizontally only, lapped clap board style with narrow lap exposures preferred over wide exposures.
   B. Portland cement stucco with integral color
   C. Brick masonry
   D. Stone masonry
   E. Cast stone masonry
   F. Fireplace masses and chimneys shall be clad in noncombustible materials to match exterior house materials.
   G. Aluminum, masonite, and vinyl siding are not permitted.

2. Exterior wall materials may change at a vertical line which delineates a change in building form, or along horizontal lines.

Exterior Finishes

1. All wood and composite surfaces shall be finished with paint, applied over an appropriate primer. Opaque and semi-opaque stain may be used.

Trim

1. All trim, where used, shall be cement fiber board, cedar, or quality wood products. Trim shall be a minimum 3/4" thick with flat surfaces. Built up assemblies, shaped profiles, and ornamental embellishments are to be avoided.

RESIDENTIAL SUBDISTRICT

ARCHITECTURAL GUIDELINES

Doors

1. All exterior doors shall be wood or metal, hinged, of rail and stile construction, with 1 to 6 panels. Dormers above doors are encouraged. Panels shall be glazed or flat wood (not raised panels). Doors shall be painted.

2. Exterior doors shall be swing type, of solid wood or wood veneer, and shall be painted, or clad in pre-finished metal.

Screen Doors

1. Screen doors are allowed. Screen doors shall be of wood rail and stile construction, with 1 to 6 panels. All panels shall be screened. Screen doors shall be painted.

2. Storm doors are not permitted at the front door but are allowed at side and rear doors.

Garage Doors

1. Garage doors shall be overhead roll-up construction with horizontal insulated metal panels.

2. Garages may have maximum 18 foot wide doors.

Exterior Door Hardware

1. Oversize or overly ornamented door hardware or escutcheon trim plates are not permitted on the front door.

Windows

1. Windows shall be casements, awnings, or double or single hung. Each window shall be glazed by a single panel of insulated glass, or may be divided into no more than 4 panels. Fake mullions are discouraged.

2. Windows may be of wood, thermally broken aluminum or aluminum-clad wood construction. Vinyl or vinyl-clad construction is not permitted.

3. All operable windows shall be equipped with insect screens.

4. Bay windows shall be glazed a minimum of 80% of their width.

Exterior Window Shutters

1. Window shutters are permitted provided they are proportioned to fully cover the windows they would protect. Shutters may be wood or synthetic.

Awnings

1. Window awnings are not permitted, with the exception of shutter awnings.

Glazing

1. Window and door glazing shall be clear, insulated, double-pane, low-emissivity glass. Applied window films are not permitted.

Roofs

1. Roofs may be covered in composite asphalt shingles. Composition shingles must be minimum 25 year dimensional, laminated type. Flat, 3-tab shingles will not be permitted. An example of approved roof shingle type is Tamko "Heritage 30." Standing seam metal roofing and other metal roof types may be used.

2. All roof penetrations, other than chimneys, shall be grouped as far from frontages as possible, shall not be visible from the street and shall be painted as needed to match roof. Skylights shall not be visible from the street.

3. All soffit venting shall be 2 inch continuous venting or perforated "Hardisoffit" panels. No box vents shall be used. No vinyl material may be used.

4. Dormers shall be appropriately proportioned, hip or gable, with a minimum 6/12 pitch. They shall be glazed a minimum of 90% of their face and must be open to the interior roof area beyond.

5. Roof ventilation dormers are permitted only on the side and rear elevations and must be vented a minimum of 90% of their face.

6. Dormers shall have minimum overhangs and eaves. Stucco or "Hardi" Siding or Panels are recommended in dormer gables.

7. All exposed metal flashing shall be unpainted galvalume, paint-grip or galvanized steel.

8. Roof attic vents shall be continuous ridge vents such as "Cool Ridge." Powered attic vents are not allowed. Turbine vents may be allowed by variance, but must not be visible from the street.

9. Satellite dishes and roof antennae shall not be visible from the street.

Chimneys

1. All chimneys must be fitted with a galvanized metal chimney cap with a 'roof' that is the same size and shape as the chimney it covers. The roof form may be flat or hipped.

2. The chimney cap must include metal mesh, screen or grid to prevent animals from entering the chimney. Acceptable products include the series of black galvanized chimney caps by Gelco.

3. Acceptable finishes are natural 'paint-grip' galvanized or painted galvanized.

Rain Gutters

1. Rain gutters and downspouts may be of any profile compatible with the style of the house and roof. Gutters and downspouts shall be located in a way as to not draw attention to themselves.

2. Gutters and downspouts shall be unpainted galvalume, "paint-grip" steel or zinc finishes, although prefinished metal finishes may be permitted.

3. Downspouts shall terminate at splash blocks, gravel, brick or concrete.

Paint

1. All exterior finish coat paint shall be acrylic latex or latex enamel.

RESIDENTIAL SUBDISTRICT

ARCHITECTURAL GUIDELINES

Porch Construction

1. Porch columns shall be wood posts, minimum 6 x 6, painted and free of ornamentation.
2. Porches shall have wood railings. Railing details must be included with plan submissions for approval.
3. Porch floors shall be concrete, stone or brick. Porch construction shall be concrete slab foundation, built as part of the house.
4. Porches and covered balconies may be screened at the rear of the homes only.

Elements Not Permitted

The following list of elements are not permitted in the development:

Window A/C units
Exterior fluorescent lighting
Solar powered landscape lighting
Soffit/cornice lighting visible from a public way
Skylights visible from a public way
Antennas or satellite dishes greater than 18" dia.
Decorative flags - properly displayed American flags are allowed
Concrete statuary visible from public way
Plastic furniture or artificial plants visible from a public way
Asphalt or gravel drives

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 32 (PD-32) [*ORDINANCE NO. 10-21*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A DEVELOPMENT PLAN FOR A 3.462-ACRE PORTION OF A LARGER 6.915-ACRE TRACT OF LAND IDENTIFIED AS LOTS 3A, 4A & 5A, ISAAC BROWN ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Jason Lentz of Atticus Real Estate on behalf of Atticus Rockwall, LLC for the approval of a PD Development Plan for 36 townhomes to be situated within the *Residential Subdistrict* of Planned Development District 32 (PD-32) on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*], as heretofore amended, shall be further amended by amending the *Concept Plan* approved with *Ordinance No. 10-21* and the official zoning map of the City of Rockwall so as to approve a PD Development Plan for the *Subject Property*; and,

Section 2. That development of the *Subject Property* shall generally be in accordance with the *PD Development Plan*, depicted in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*; and,

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Concept Building Elevations*, depicted in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of

DRAFT 09.15.16

approval of the amended zoning classification for the *Subject Property*; and,

Section 4. That the *Subject Property* shall be used only in the manner and for the purposes provided for in Planned Development District 32 (PD-32) [*Ordinance No. 10-21*], the Unified Development Code [*Ordinance No. 04-38*], and in compliance with the following conditions and requirements:

1) Cross access (*as depicted in Exhibit 'B' of this ordinance*) shall be provided to the property directly north of the subject property;

2) Prior to the submittal of a final plat the applicant shall submit and seek approval of a detailed site plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and this ordinance, and with the guidelines contained in *Resolution No. 10-40*; and,

3) The building elevations submitted with the site plan will require a recommendation from the Architectural Review Board (ARB) prior to approval by the Planning and Zoning Commission (*and City Council if necessary*); and,

4) An open space master plan will need to be submitted with the site plan. The open space master plan will need to be reviewed by the Parks Board; and,

5) Prior to the issuance of a building permit, the applicant shall submit and seek approval of a final plat.

Section 5. The official zoning map of the City of Rockwall, Texas be corrected to reflect the changes in zoning described in this ordinance;

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and

Z2016-023 SUP for Accessory Building:
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Kevin Dale Wommack & Pamela McCollum for the approval of an amendment to Specific Use Permit (SUP) No. S-118 [Ordinance No. 14-02] to allow for an accessory building that exceeds the maximum size requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4952-acre tract of land identified as Lot 17, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1970 Copper Ridge Circle.
I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (Z2016-023) in the lower right hand corner of all pages on future submittals.
I.4 Please review the attached draft ordinance prior to the September 13, 2016 Planning & Zoning Commission meeting.
I.5 The Planning and Zoning Worksession is August 30th. The Planning and Zoning Meeting is September 13.
I.6 The projected City Council meeting dates for this case will be September 19, 2016 [1st Reading] & October 3, 2016 [2nd Reading].

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

SPECIFIC USE PERMIT NO. S-118

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [ORDINANCE NO. 04-38] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO AMEND SPECIFIC USE PERMIT NO. S-118 [*ORDINANCE NO. 14-02*] TO ALLOW FOR AN ACCESSORY BUILDING THAT EXCEEDS THE MAXIMUM SIZE REQUIREMENTS ON A 1.50-ACRE PARCEL OF LAND ZONED SINGLE FAMILY ESTATE 1.5 (SFE-1.5) AND IDENTIFIED AS LOT 17, BLOCK B, STERLING FARMS ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Kevin Dale Wommack and Pamela McCollum to amend Specific Use Permit No. S-118 [*Ordinance No. 14-02*] for the purpose of increasing the size of an existing accessory building situated on a 1.50-acre parcel of land, zoned Single Family Estate 1.5 (SFE-1.5) District, and being identified as Lot 17, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, addressed as 1970 Copper Ridge Circle, and being more specifically described in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] and *Ordinance No. 14-02* of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the enactment of this Specific Use Permit (SUP) Ordinance shall supersede all requirements stipulated in *Ordinance No. 14-02*;

Section 2. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit allowing for the establishment of an accessory building that exceeds the maximum size requirements and that does not conform to the minimum masonry requirements for accessory buildings in a Single Family Estate 1.5 (SFE-1.5) District as stipulated by *Article IV, Permissible Uses,* and *Article V, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

Section 3. That the *Subject Property* shall be used only in the manner and for the purposes described in this Specific Use Permit (SUP) ordinance and as specifically set forth in *Section 3.2, Single-Family Estate (SF/E 1.5) District, of Article V, District Development Standards,* of the Unified

DRAFT ORDINANCE 05-16

Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by the granting of this zoning change, and as my be amended in the future, and shall be subject to the additional following conditions:

1) The accessory building shall generally conform to the approved site plan and building elevations depicted in *Exhibits 'A' & 'B'* of this ordinance.

2) The accessory building shall not exceed a maximum size of 1,200 square feet.

3) The accessory building is subject to administrative review in the event that the *Subject Property* is sold, conveyed or altered in any manner.

Section 4. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

Section 5. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

Section 6. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* (*$2,000.00*) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

Section 7. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

Section 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3RD DAY OF OCTOBER, 2016.

Z2016-028 2001 Ridge Road (AG to C):
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of a zoning change from Agricultural (AG) District to Commercial (C) District on a 0.478-acre tract of land identified as Tract 7 of the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the Scenic Overlay (SOV) District, and addressed as 2001 Ridge Road.
I.2 For questions or comments concerning this case, please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 For reference, include the case number (Z2016-028) in the lower right hand corner of all pages on future submittals.
I.4 The Future Land Use Map contained within the City's Comprehensive Plan indicates that the subject property is designated as Medium Density Residential. The proposed zoning does not conform to this designation and will require the City Council to amend the Future Land Use Map to reflect a Commercial designation.
I.5 Based on the submission City Staff would recommend that a less intense zoning (e.g. Residential Office [RO] District) be permitted on the subject property should the Planning and Zoning Commission and City Council choose to approve the request.
I.6 Please review the attached Draft Ordinance prior to the Planning & Zoning Meeting on September 13, 2016.
I.7 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on September 7, 2016; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the September 13, 2016 Planning & Zoning Meeting.
I.8 The projected City Council Meeting dates for this case are as follows: 1) First Reading, September 19, 2016 and 2) Second Reading, October 3, 2016.

Subject:	Neighborhood Noification Program: Notice of zoning request
Date:	Thursday, August 18, 2016 1:25:13 PM

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on June 3, 2016. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-028-Hold a public hearing to discuss and consider a request by Susan Gamez for the approval of a zoning change from an Agricultural (AG) District to Commercial (C) District on a 0.478-acre tract of land identified as Tract 7 of the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the Scenic Overlay (SOV) District, addressed as 2001 Ridge Road, and take any action necessary.**

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.

Sincerely,

Laura Morales

Notes:
*: For the Downtown (DT) District development standards see Section 4.8 of Article V of the Unified Development Code.

[1]: *Special Standards:*
(A) *Sale of Goods.* All business establishments other than those selling a service shall be retail or wholesale service establishments dealing directly with customers.
(B) Business Operations & Storage. All business operations including storage shall be conducted within a completely enclosed building unless specifically authorized for the use as listed. This excludes off-street parking and loading, incidental display of retail items for sale retail outlets where gasoline products are sold and drive-in businesses.

[2]: *Outside Storage:*
(A) All outside storage shall be placed behind the front façade of the main structure. This does not apply to uses that allow incidental display, in which case only the amount of goods necessary for display purposes shall be exempt from this requirement
(B) All outside storage shall be screened from streets and public areas.

[3]: Maximum of 5,000 Sq. Ft. in area, unless otherwise approved through a Specific Use Permit (SUP) by the Planning and Zoning Commission and City Council.

[4]: Maximum of 25,000 Sq. Ft. in area, unless otherwise approved through a Specific Use Permit (SUP) by the Planning and Zoning Commission and City Council.

[5]: Maximum lot area is 43,560 Sq. Ft.

[6]: From future right-of-way as shown on the adopted thoroughfare plan or as actually exists, whichever is greater.

[7]: Parking should not be located between the front façade and the property line.

[8]: *Residential adjacency.* Lots with non-residential uses that have a side or rear contiguous or separated only by an alley, or easement or street, from any residential district must be separated from such residential district by a buffer as defined in Article VIII, Landscape Standards, of the UDC or as approved by the Planning and Zoning Commission.

[9]: Not to exceed 50 Feet.

[10]: Building height may be increased up to 60 Feet if approved through a Specific Use Permit (SUP) by the Planning and Zoning Commission and City Council.

[11]: Building height may be increased up to 240 Feet if approved through a Specific Use Permit (SUP) by the Planning and Zoning Commission and City Council.

[12]: (or) as approved by City Council.

[13]: Exterior walls that are visible from a public street or open space require a minimum of 20% of the 90% to be stone. The use of other cementaceous products (e.g. stucco, Hardy Plank, or other similar materials approved by the building official) shall be limited to 50% of the buildings exterior finishes where it is deemed important as a design feature and where it will be applied under the highest standards for quality and durability.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A CHANGE IN ZONING FROM AN AGRICULTURAL (AG) DISTRICT TO A COMMERCIAL (C) DISTRICT ON A 0.478-ACRE TRACT OF LAND IDENTIFIED AS TRACT 7 OF THE D. ATKINS SURVEY, ABSTRACT NO. 1, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, AND BEING MORE SPECIFICALLY DESCRIBED IN *EXHIBITS 'A', 'B', & 'C'* OF THIS ORDINANCE; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Susan Gamez for a change in zoning from an Agricultural (AG) District to a Commercial (C) District on a 0.478-acre tract of land identified as Tract 7 of the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A', 'B', & 'C'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, Texas, as heretofore amended, be and the same are hereby amended by amending the zoning map of the City of Rockwall so as to change the zoning of the *Subject Property* from an Agriculture (AG) District to a Commercial (C) District; and

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes provided for a *Commercial (C) District* in *Section 1.1, "Use of Land and Buildings,"* of *Article IV, "Permissible Uses"* and *Section 4.5, "Commercial (C) District",* of *Article V, "District Development Standards",* of the *Unified Development Code* of the City of Rockwall as heretofore amended, as amended herein by granting of this zoning change, and as maybe amended in the future;

Section 3. That the official zoning map of the City be corrected to reflect the changes in the zoning described herein.

Section 4. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of two thousand dollars ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

DRAFT ORDINANCE 10.03.2016

Section 5. If any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code of the City of Rockwall, Texas, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable.

Section 6. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be and the same are hereby repealed, and all other ordinances of the City of Rockwall not in conflict with the provisions of this ordinance shall remain in full force and effect.

Section 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3RD DAY OF OCTOBER, 2016.

_____
Jim Pruitt, *Mayor*

ATTEST:

_____
Kristy Cole, *City Secretary*

APPROVED AS TO FORM:

_____
Frank J. Garza, *City Attorney*

(8/19/2016 2:32 PM AW)
All items must be addressed in site planning, engineering, and platting.
Both FM 549 and SH 205 is to have a total of 120' of right-of-way so dedication may be necessary
Need to show a 20' utility easement along FM 549
Need to show a 15' water line easement along H 205
Driveway onto SH 205 doesn't meet City or TXDOT spacing requirements
Driveway onto FM 549 doesn't meet City or TXDOT spacing requirements (unless it is exisiting)
Water not supplied by City of Rockwall
Sanitary sewer is required which may have a pro-rata due
Adhere to all fire department requirements
The drainage under the canopy and from the dumpster area is required to drain to a grease trap if the building is required to have one, and if the building doesn't require one, these areas must drain to an oil/water separator prior to storm system.
Traffic impact analysis is required
Detention is required
No deadend parking
Parking to be 20'x9'

FIRE	Ariana Hargrove	8/15/2016	8/22/2016	8/17/2016	2	APPROVED	see comment

(8/17/2016 2:29 PM AA)
Shall comply with all fire code requirements, including fire sprinkler protection if over 5,000 sq. ft.

PLANNING	David Gonzales	8/15/2016	8/22/2016	8/18/2016	3	COMMENTS	See comments

Hold a public hearing to discuss and consider a request by Jimmy Strohmeyer of Strohmeyer Architects on behalf of D. W. Bobst of J-BR2, LLC for the approval of a Specific Use Permit (SUP) to allow a retail store with more than 2 gasoline dispensers on a 2.59-acre tract of land being a portion of a larger 7.32-acre tract of land identified as Tract 17-12 of the W. W. Ford Survey, Abstract No. 80, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated at the

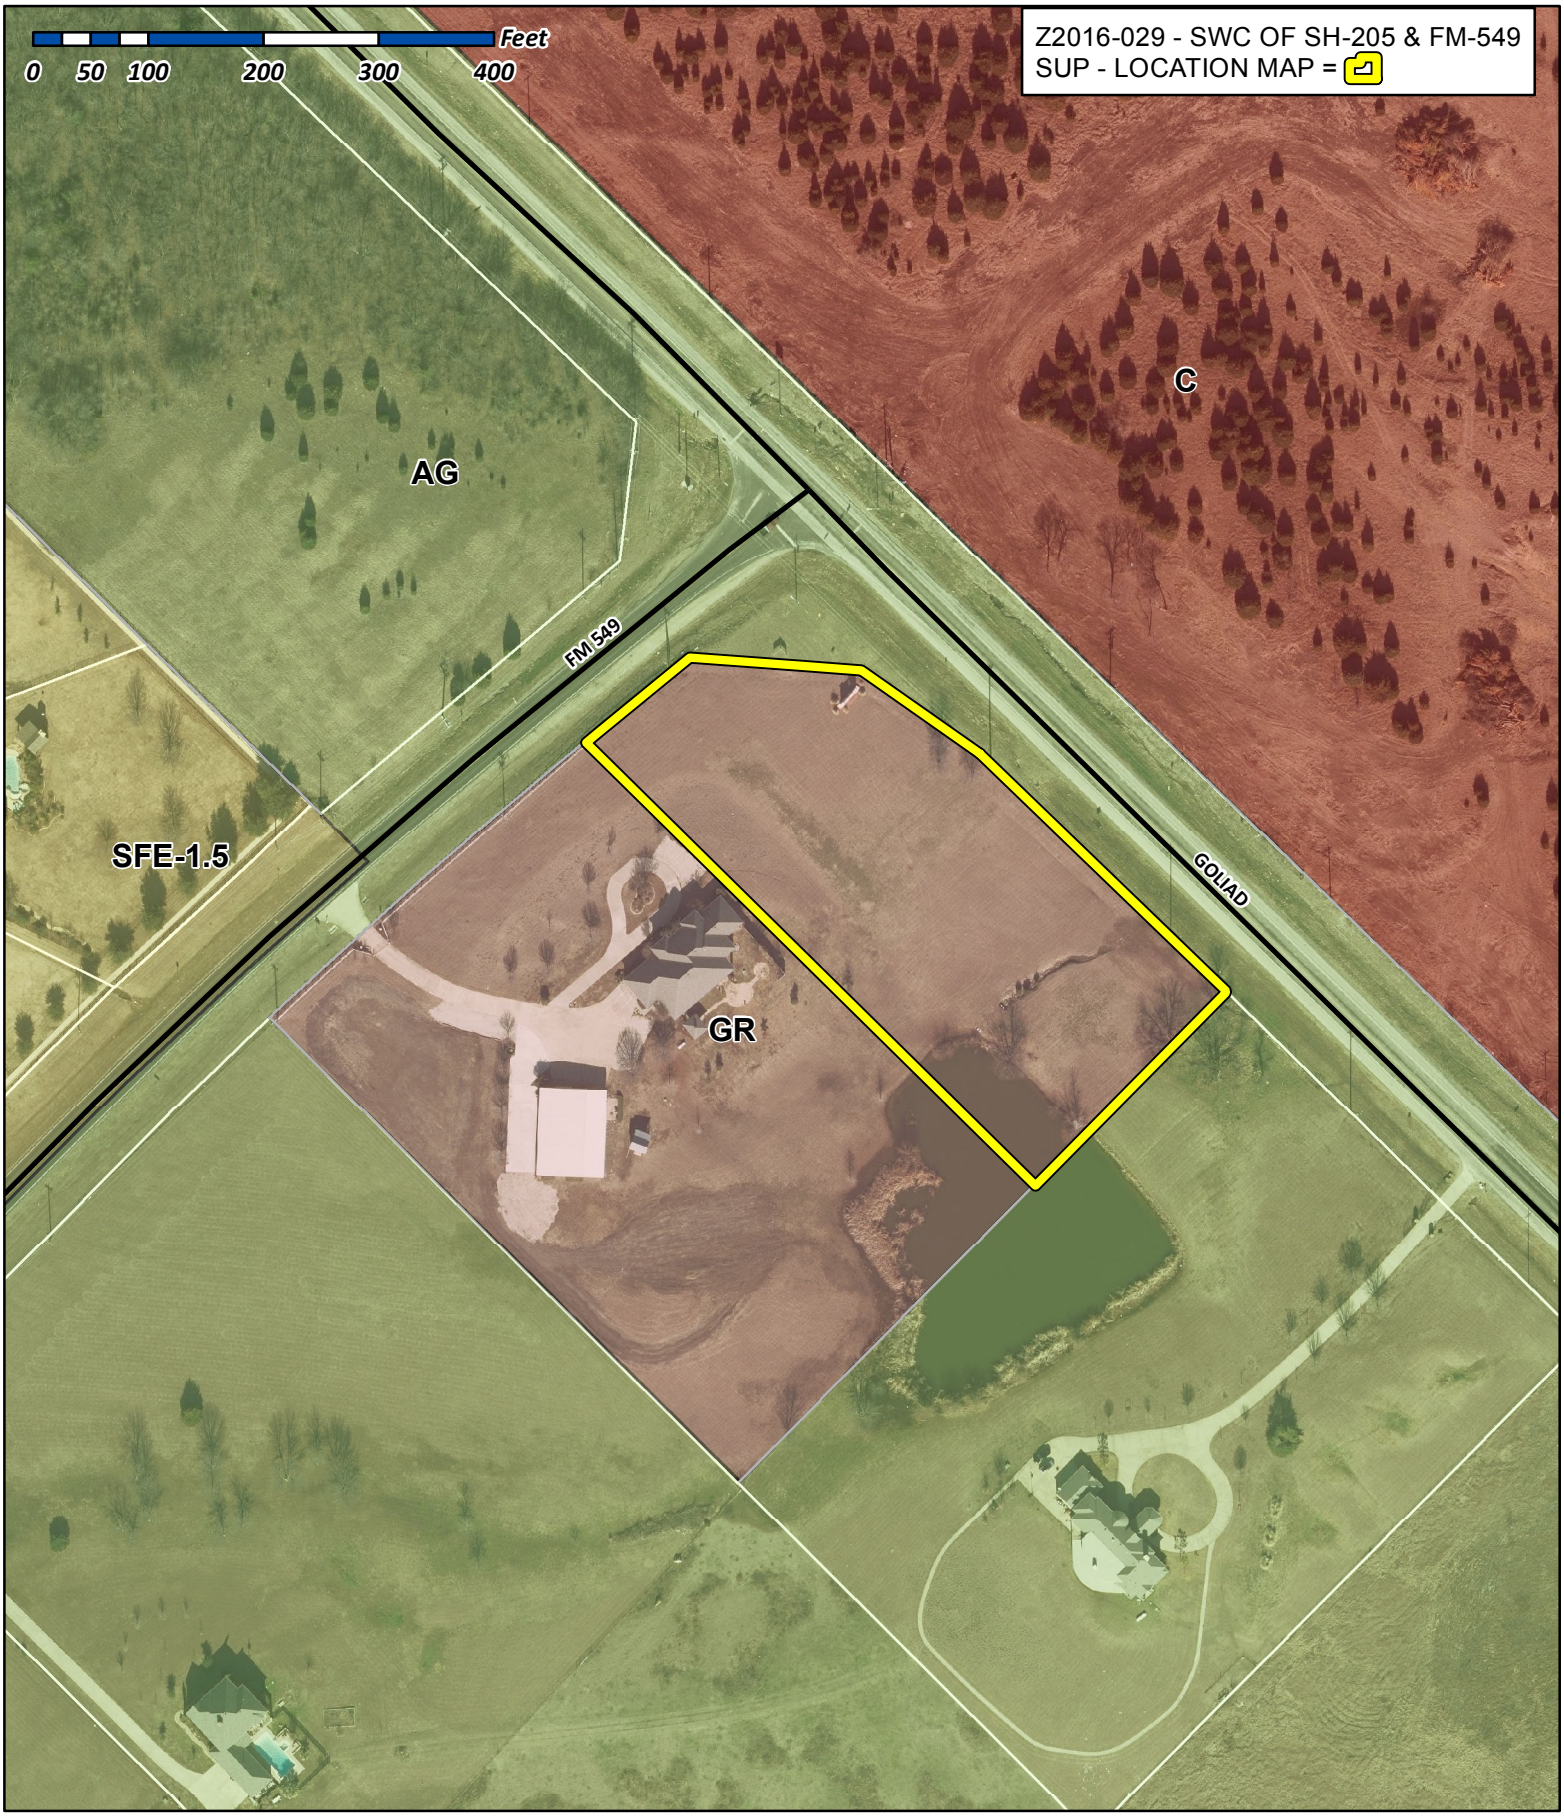
southwest corner of the intersection of SH-205 [S. Goliad Street] and FM-549, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, September 6, 2016. Please provide two large copies [24" X 36" FOLDED] of the Concept Plan and one PDF version for a subsequent review by staff:

• On all future plan submittals please include the Case Number (Z2016-029) in the lower right hand corner.

Planning Staff General Comments/Conditions of SUP:

1. The structure must meet all Fire Department, Building Inspections, and Engineering standards.
2. Submittal and approval of a site plan and final plat (mylars in house for filing purposes) are required prior to the issuance of a Certificate of Occupancy (CO).
3. The development shall be limited to a maximum of eight (8) gasoline dispensers as depicted on the Concept Site Plan.
4. No outside display of merchandise or outside storage shall be permitted on the subject property, with the exception of the following items (which will require approval by the Planning and Zoning Commission during the site plan phase): ice machine, propane cage, and/or DVD rental kiosk.
5. The City Council reserves the right to review the Specific Use Permit granted herein upon the expiration of one (1) year from the date hereof.
6. Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.



You and/or your representative(s) are required to be in attendance for the following scheduled meetings. All meetings will begin at 6:00 p.m. in the City's Council Chambers.

• Please mark your calendar for the scheduled meeting dates as follows:

Planning - Work Session: August 30, 2016 (Presentation/discussion by applicant)

Planning - Public Hearing: September 13, 2016

City Council - Public Hearing: September 19, 2016 [First Reading of Ordinance]
City Council -2nd Reading (if approved): October 3, 2016 (Tuesday)

Subject: Neighborhood Noification Program: Notice of zoning request

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on June 3, 2016. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-029-Hold a public hearing to discuss and consider a request by Jimmy Strohmeyer of Strohmeyer Architects on behalf of D. W. P2016-039 Autumn Addition Please address the following comments (M= Mandatory Comments; I = Informational Comments).

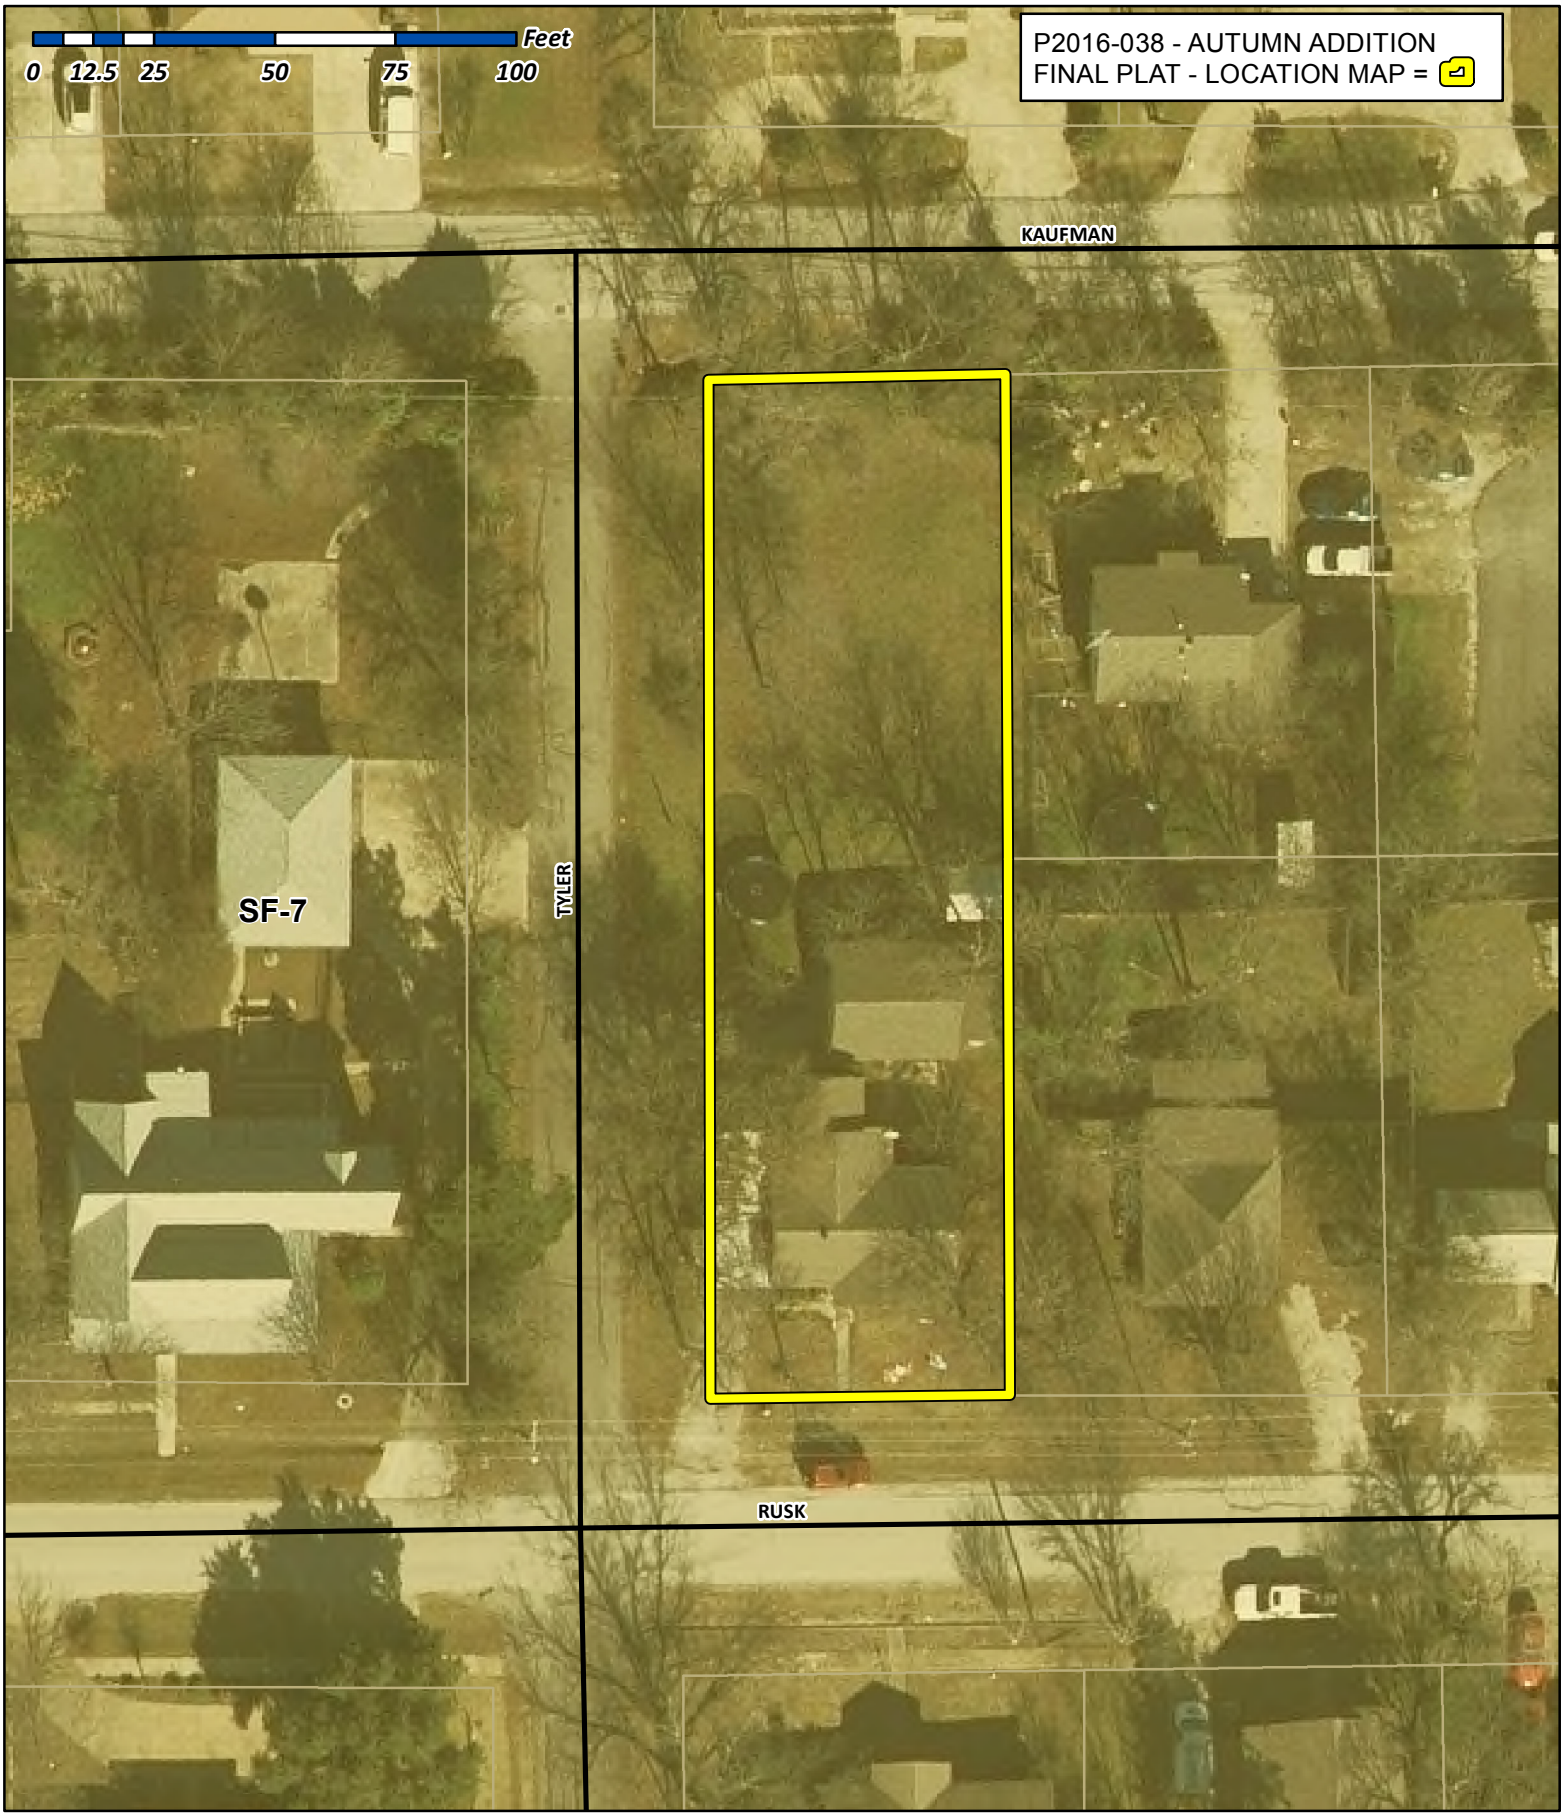
I.1 This a request by Billy & Autumn Quinton for the approval of a final plat of Lots 1 & 2, Block A, Autumn Addition being a replat of a 0.35-acre tract of land identified as Lot 120, Block F of the B. F. Boydstun Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, addressed as 601 E. Rusk Street.

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2016-038) in the lower right hand corner of all pages on future submittals.



M.4 Please add lot and block designation to title block.

M.5 The rear setback is 10-feet. Since the building on the northwest corner of Lot 1 is not 10 feet from the rear property line, it must be removed.

M.6 Please provide the following comment in NOTES "It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.

I.7 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
additional information that is requested by September 7, 2016. The Park Board Meeting is September 7, 2016. The Planning & Zoning Worksession date for this case will be August 30, 2016. The Planning and Zoning Meeting for this case is September 13, 2016.							
I.8 The City Council meeting date and subsequent approval for this plat is September 19, 2016.

OWNER'S CERTIFICATE
(Public Dedication)

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS BILLY AND AUTUMN QUINTON, BEING THE OWNER OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

All that certain lot, tract or parcel of land situated in the B.F. BOYDSTUN SURVEY, ABSTRACT NO. 14, City of Rockwall, Rockwall County, Texas. and being a part of a tract of land as described in a Warranty deed from Martha Bess Snow to Joe T. Lofland, dated March 18, 1946 and being recorded in Volume 41, Page 93 of the Deed Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner at the intersection of the east right-of-way line of N. Tyler Street, a 50 foot right-of-way, and the north right-of-way line of E. Rusk Street, a 50 foot right-of-way, at the southwest corner of said Lofland tract of land;

THENCE N. 00 deg. 42 min. 37 sec. W. along the east right-of-way line of N. Tyler Street, a distance of 200.25 feet to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set in the south right-of-way of E. KAUFMAN STREET, a 50 foot right-of-way, for corner;

THENCE S. 88 deg. 48 min. 52 sec. E. along the south right-of-way of E. KAUFMAN STREET a distance of 75.63 feet to a 1/2" iron pipe found for corner at the northeast corner of said Lofland tract;

THENCE S. 00 deg. 31 min. 57 sec. E. along the east line of said Lofland tract, a distance of 200.00 feet to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner in the north right-of-way line of E. Rusk Street;

THENCE S. 88 deg. 59 min. 31 sec. W. a distance of 75.00 feet to the POINT OF BEGINNING and containing 15,065 square feet or 0.35 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as AUTUMN ADDITION, an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the subdivision have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Roc kwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I , my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exaction's made herein.

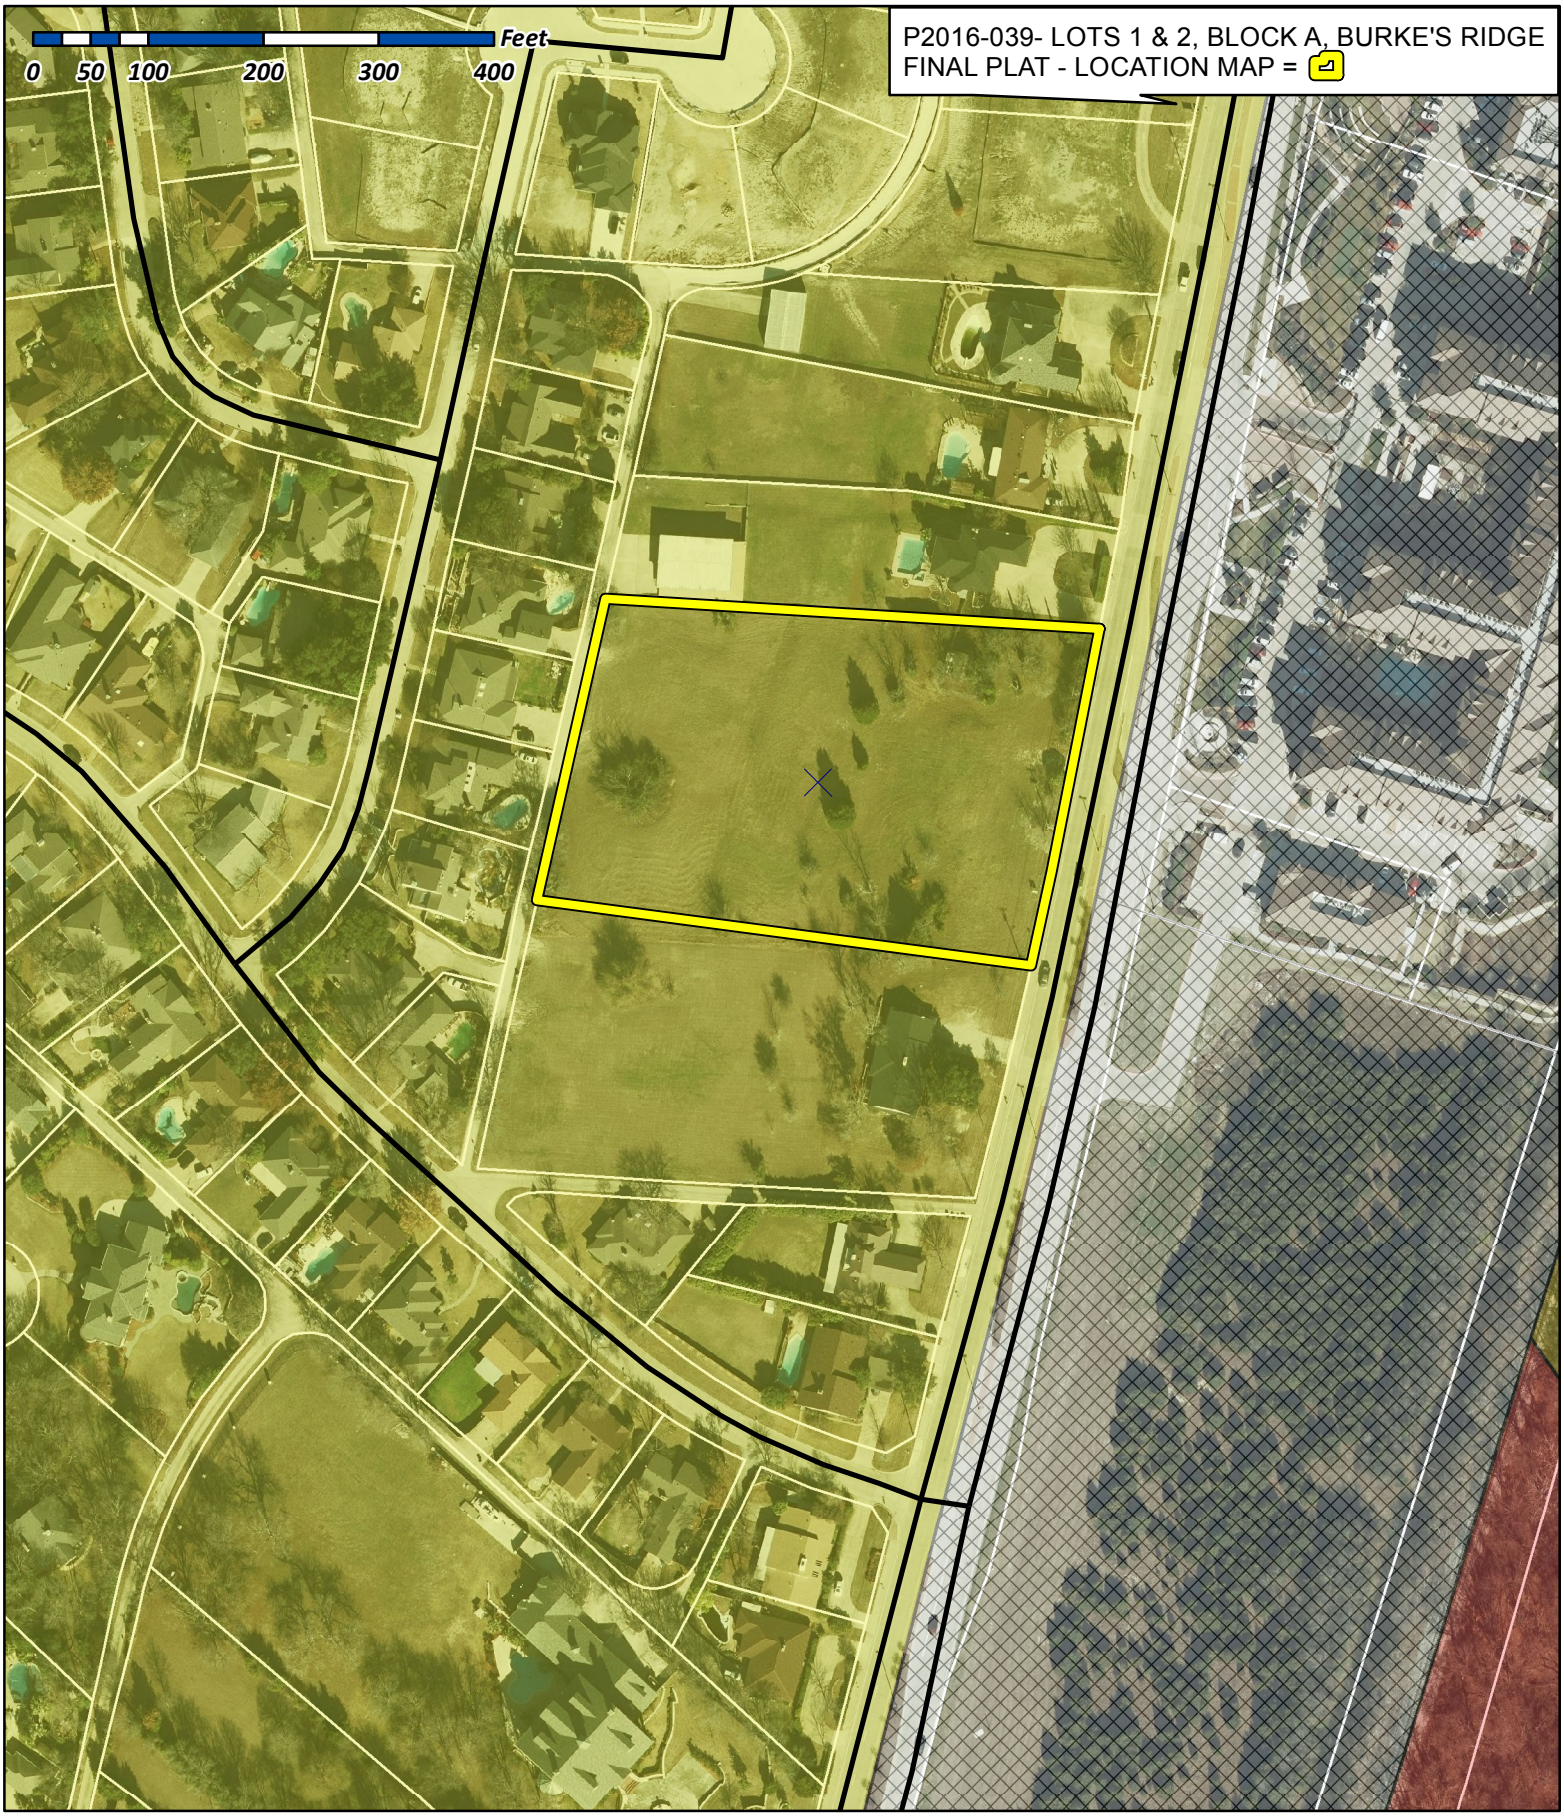
P2016-039 Burkes Ridge Please address the following comments (M= Mandatory Comments; I = Informational Comments).



I.1 This a request by Jay Maddox of Maddox Survey on behalf of Casey & Andrea Burke for the approval of a final plat of Lots 1 & 2, Block A, Burke Addition being a 2.970-acre tract of land identified as Tract 19 of the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, situated within the Scenic Overlay (SOV) District, addressed as 1406 Ridge Road.

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2016-039) in the lower right hand corner of all pages on future submittals.

I.4 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by September 7, 2016. The Park Board Meeting is September 7, 2016. The Planning & Zoning Worksession date for this case will be August 30, 2016. The Planning and Zoning Meeting for this case is September 13, 2016.

I.5 The City Council meeting date and subsequent approval for this plat is September 19, 2016.

SURVEY NOTES:

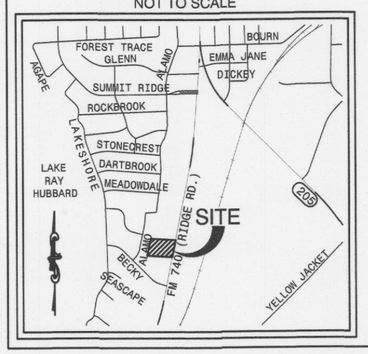
1. THE BASIS OF BEARING FOR THIS SURVEY IS THE TEXAS STATE PLANE, NORTH CENTRAL ZONE (4202), GEODETIC BEARING ESTABLISHED BY GPS MEASUREMENTS TAKEN ON SITE AND REFERENCED TO THE CITY OF ROCKWALL GPS MONUMENT NETWORK.

2. THE SURVEYOR HAS MADE NO INVESTIGATION OR INDEPENDENT SEARCH FOR EASEMENTS, ENCUMBRANCES, OR ANY OTHER FACTS THAT AN ACCURATE AND CURRENT TITLE SEARCH MAY DISCLOSE.

3. THE SURVEYOR, AS REQUIRED BY STATE LAW, IS RESPONSIBLE FOR SURVEYING INFORMATION ONLY AND BEARS NO RESPONSIBILITY FOR THE ACCURACY OF THE ENGINEERING DATA ON THIS PLAT.

FLOOD NOTE:

1. ACCORDING TO THE FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA) - NATIONAL FLOOD INSURANCE PROGRAM (NFIP) - FLOOD INSURANCE RATE MAP (FIRM) - FOR THE ROCKWALL COUNTY, TEXAS AND INCORPORATED AREAS - MAP NO. 48397C0040 L, DATED SEPTEMBER 26, 2008, THE PROPERTY SHOWN HEREON LIES IN ZONE "X" (OTHER AREAS).



2. ZONE "X"(OTHER AREAS) IS DEFINED AS "AREAS DETERMINED TO BE OUTSIDE THE 0.2% ANNUAL CHANCE FLOODPLAIN".

3. THIS FLOOD STATEMENT DOES NOT IMPLY THAT THE PROPERTY AND/OR THE STRUCTURE THEREON WILL BE FREE FROM FLOODING OR FLOOD DAMAGE. ON RARE OCCASIONS, GREATER FLOODS CAN AND WILL OCCUR AND FLOOD HEIGHTS MAY BE INCREASED BY MAN-MADE OR NATURAL CAUSES. THIS FLOOD STATEMENT SHALL NOT CREATE LIABILITY ON THE PART OF THE SURVEYOR.

GENERAL NOTES:

IT SHALL BE THE POLICY OF THE CITY OF ROCKWALL TO WITHHOLD ISSUING BUILDING PERMITS UNTIL ALL STREETS, WATER, SEWER AND STORM DRAINAGE SYSTEMS HAVE BEEN ACCEPTED BY THE CITY. THE APPROVAL OF A PLAT BY THE CITY DOES NOT CONSTITUTE ANY REPRESENTATION, ASSURANCE OR GUARANTEE THAT ANY BUILDING WITHIN SUCH PLAT SHALL BE APPROVED, AUTHORIZED OR PERMIT THEREFORE ISSUED, NOR SHALL SUCH APPROVAL CONSTITUTE ANY REPRESENTATION, ASSURANCE OR GUARANTEE BY THE CITY OF THE ADEQUACY AND AVAILABILITY FOR WATER FOR PERSONAL USE AND FIRE PROTECTION WITHIN SUCH PLAT,AS REQUIRED UNDER ORDINANCE 83-54.

OWNERS DEDICATION

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS }

COUNTY OF ROCKWALL }

That we the undersigned owner's of the land shown on this plat, and designated herein as **BURKE'S RIDGE** to the City of Rockwall, Texas, and whose name's are subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. we further certify that all other parties who have a mortgage or lien interest in the **BURKE'S RIDGE** have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall, or

until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We and our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

Discuss and consider a request by Tim Seymore of Seymore Custom Homes, LLC on behalf of James & Robin Meade for the approval of a site plan for the constructior of a commercial/industrial building on an existing 2.02-acre commercial/industrial facility identified as Tract 2-22 of the J. R. Johnson Survey, Abstract No. 128, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, addressed as 496 National Drive, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, September 7, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans (if required) and a Final Plat (plat must be filed) prior to issuance of a Certificate of Occupancy (CO).
3. Label site plan documents with "Case No. SP2016-016" at the lower right corner of each plan.
4. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department.

EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:

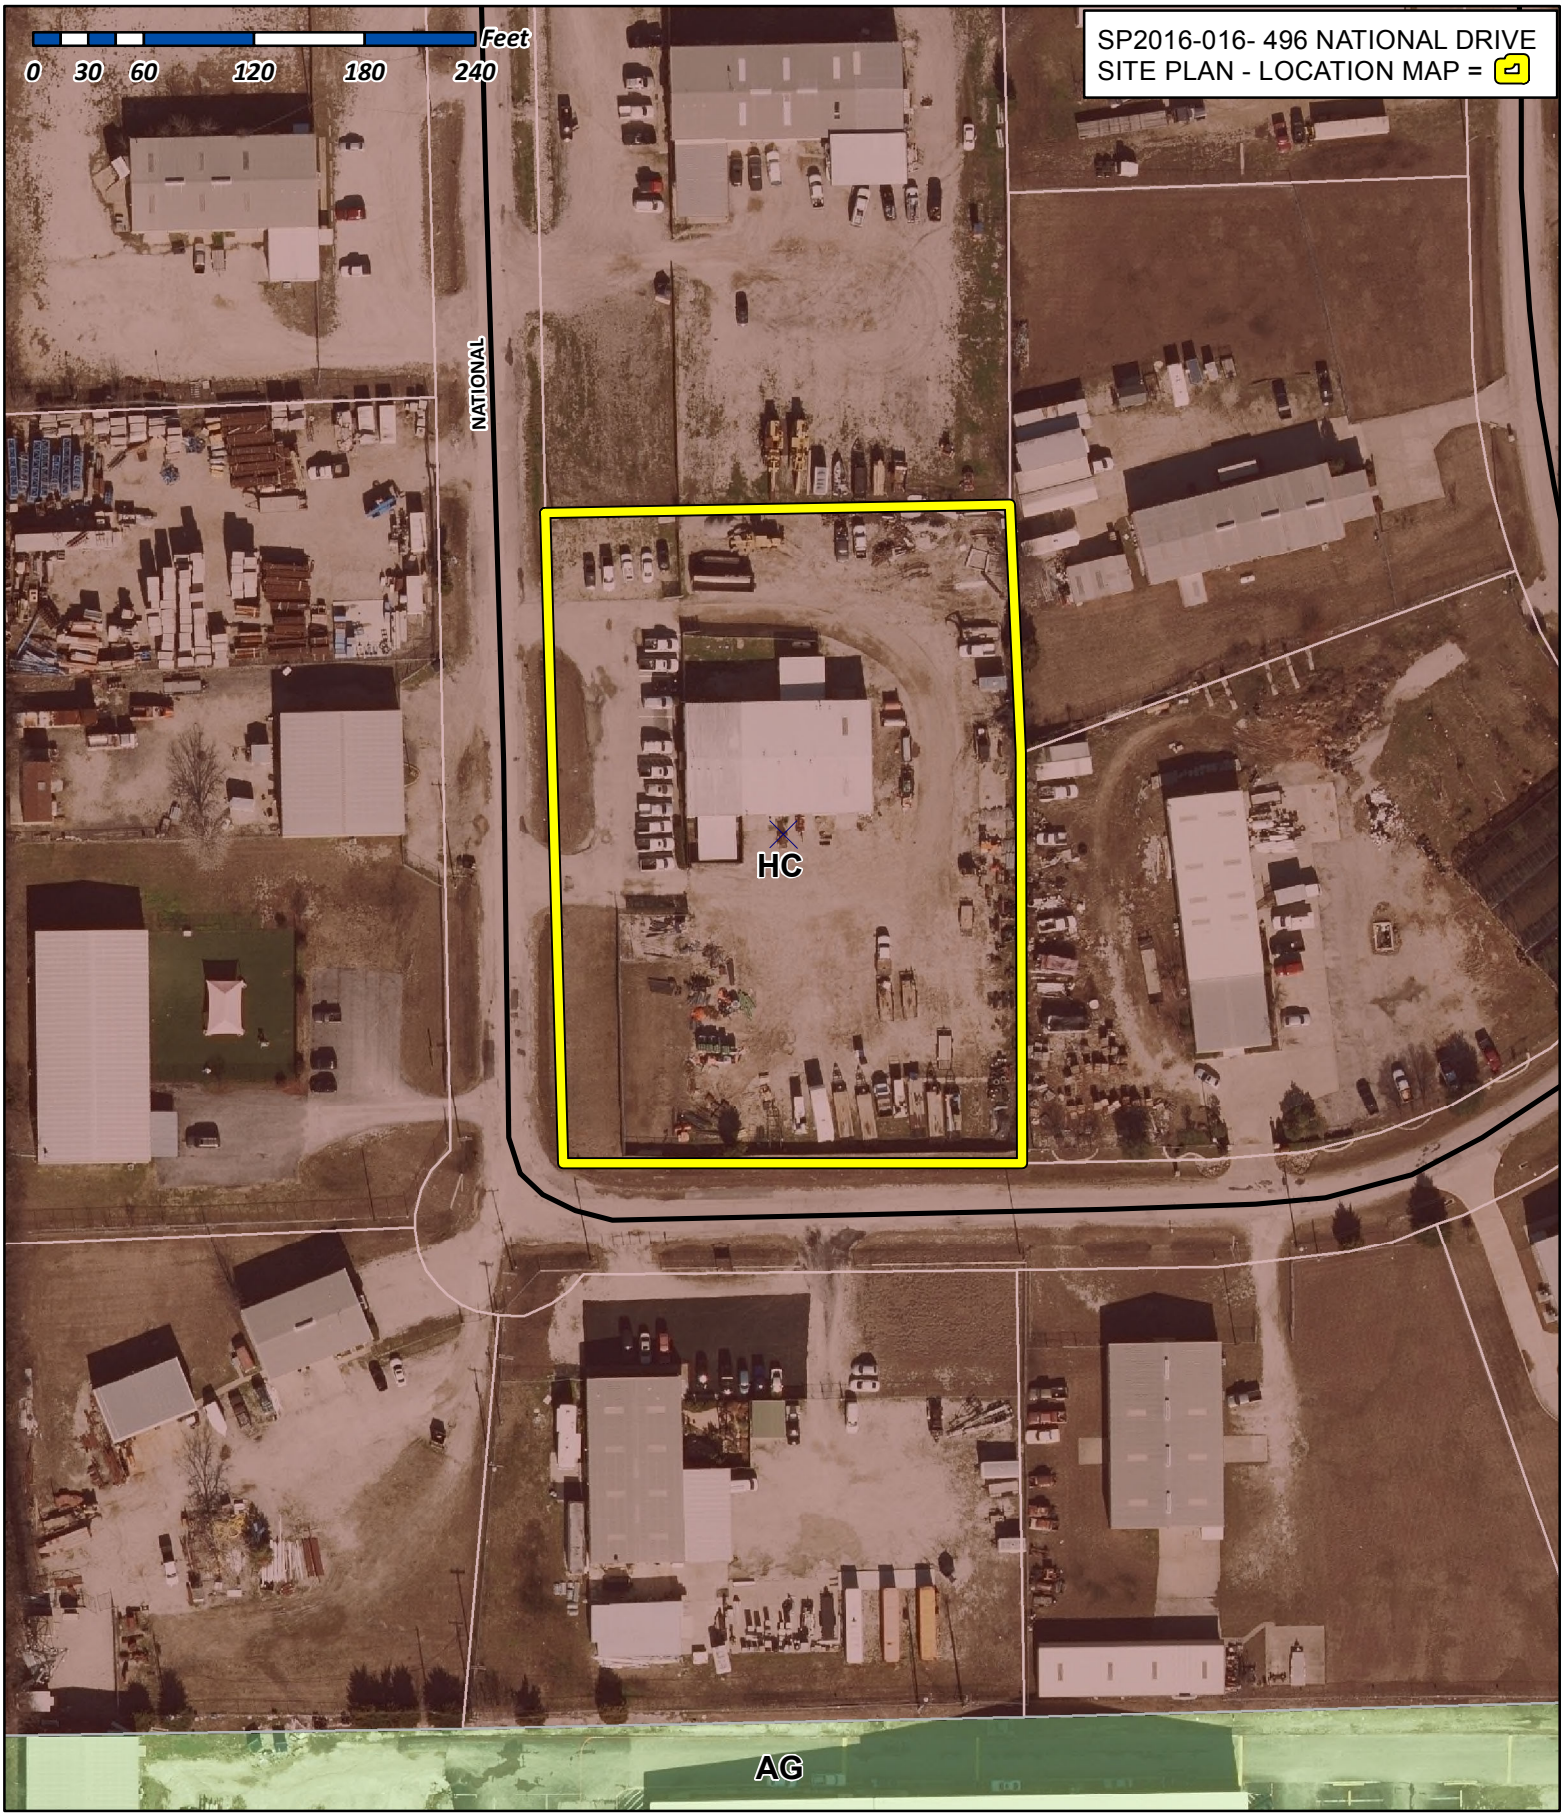
1. Art V, Sec. 4.1.A.1 requires each exterior wall to consist of 90% masonry materials,..., including 20% stone on walls which are visible from a public street or open space. North, South, East & West elevations require a minimum 20% stone and do not meet this standard.
2. Art V, Sec. 4.1.A.1 requires each exterior wall to consist of 90% masonry materials,..., on walls which are visible from a public street or open space. North, South, East & West elevations do not provide a minimum 90% masonry material and exceed 10% secondary materials with the use of metal wall panels.

** Approval of exceptions to the exterior materials requested requires passage by a simple majority vote of City Council. **

Please addressthe following Planning Comments for each plan submitted:

Site Plan:
1. UDC, Article VI Parking and Loading, Sec. 2.3. - Expansion of an existing use - If any building, improvement, or use of land is expanded, the provisions for parking and loading shall be provided for the portion of land use and/or building that has been added. Provide floor plan of the existing building for determination of additional parking spaces required. The proposed (storage) structure requries a minimum of 3 spaces (1:1000).
2. Remove semi-circles from site plan.

Landscape Plan:
1. Are you providing any (additional) landscapeing?

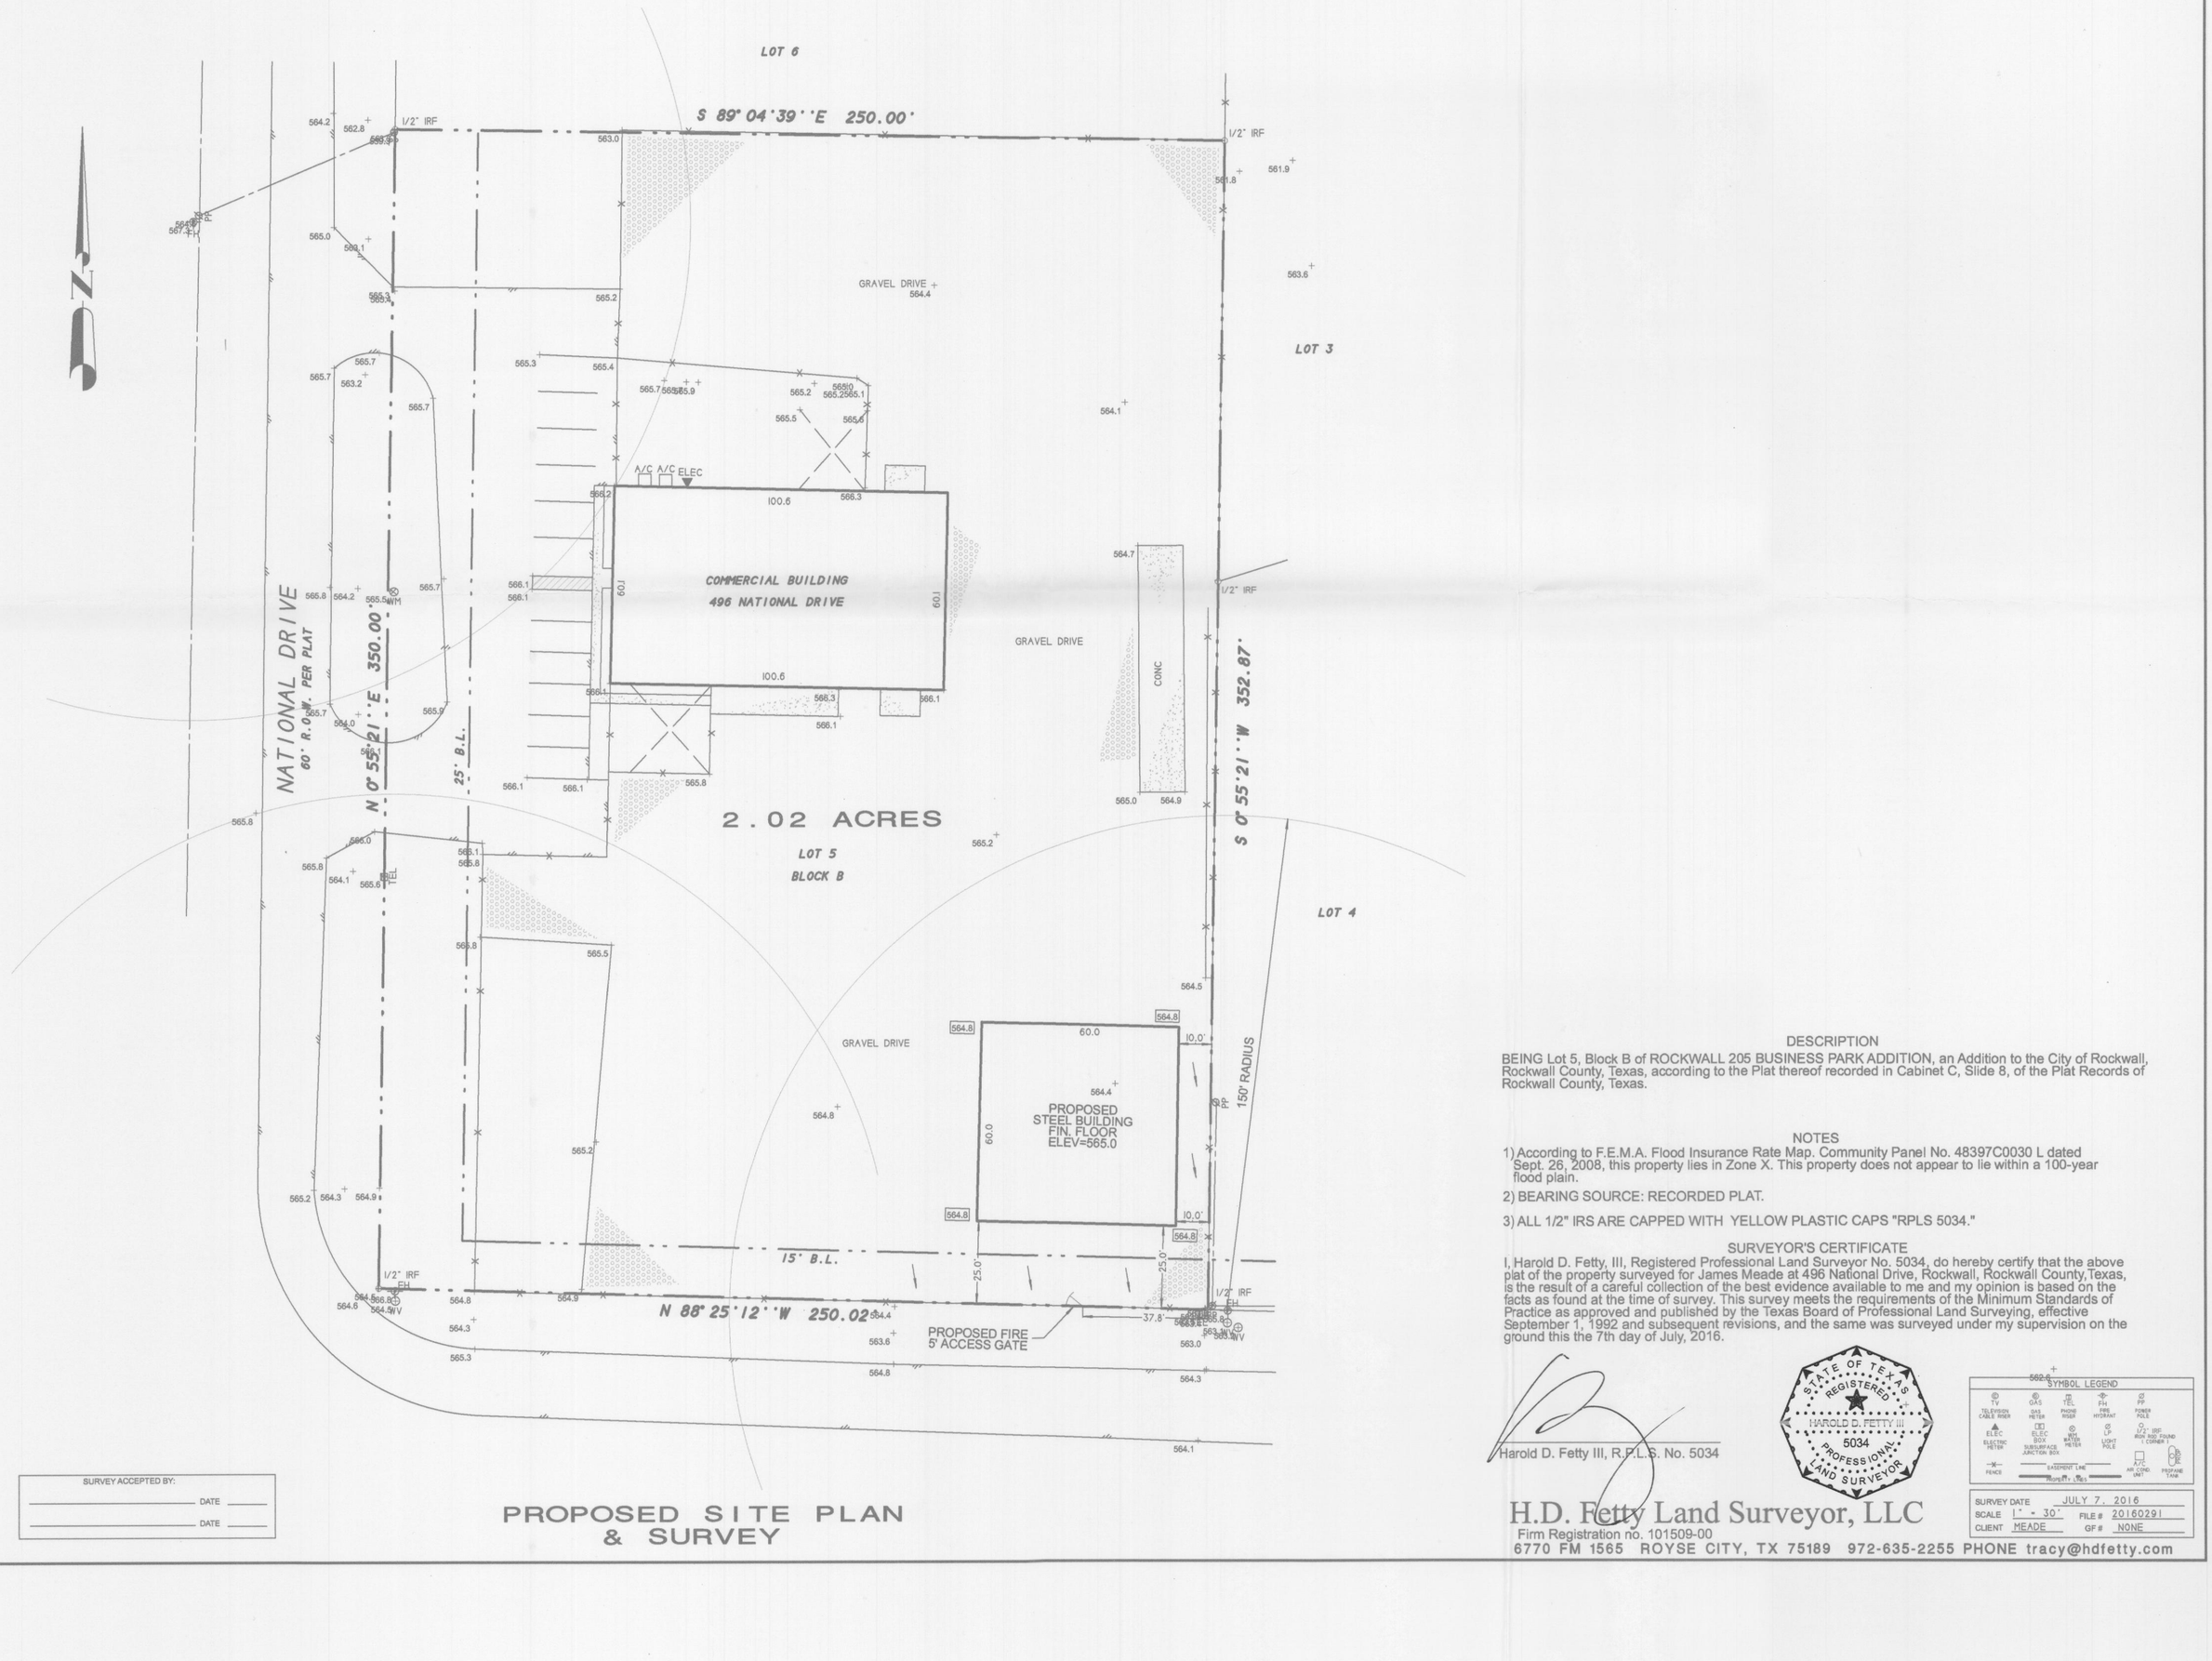


Photometric Plan:
1. Will there be any additional exterior lighting (wall packs, poles, etc.) for the proposed building/site? If so, please provide a photometric plan for the new lighting fixtures meeting city standards.
2. Additional lighting pole standards are not to exceed a maximum overall heightof 30-ft (includes pole, base, fixtures, etc.) per the UDC standards. Provide detail.
3. Provide cut sheets for all exterior lighting fixtures (e.g. pole lights, wall packs, etc.)
4. Any additional lighting sources are to be directed down and sheilded with a full cut-off or partial cut-off source and a maximum 1 inch reveal in order to control glare.
5. Maximum lighting intensity at the property line is not to exceed 0.2-FC. Resubmit photometric plan and indicate readings to all property lines and in compliance with UDC (i.e. 0.2-FC)

Building Elevations:
1. What type of metal wall paneling is being used for the exterior of the proposed structure?
2. Approval of the exceptions to the exterior material standards is required by the City Council as indicated above.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:Planning - Work Session: August 30, 2016 (6:00 p.m.) [Applicant to provide presenation and discuss project]
Planning - Action: September 13, 2016 (6:00 p.m.) [P&Z to take action (i.e. approve, approve with conditions, or deny)



City Council - Action: September 19, 2016 (6:00 p.m.) [FOR EXCEPTION REQUESTS ONLY]

PROPOSED SITE PLAN & SURVEY

DESCRIPTION

BEING Lot 5, Block B of ROCKWALL 205 BUSINESS PARK ADDITION, an Addition to the City of Rockwall, Rockwall County, Texas, according to the Plat thereof recorded in Cabinet C, Slide 8, of the Plat Records of Rockwall County, Texas.

NOTES

1) According to F.E.M.A. Flood Insurance Rate Map. Community Panel No. 48397C0030 L dated Sept. 26, 2008, this property lies in Zone X. This property does not appear to lie within a 100-year flood plain.

2) BEARING SOURCE: RECORDED PLAT.

3) ALL 1/2" IRS ARE CAPPED WITH YELLOW PLASTIC CAPS "RPLS 5034."

SURVEYOR'S CERTIFICATE

I, Harold D. Fetty, III, Registered Professional Land Surveyor No. 5034, do hereby certify that the above plat of the property surveyed for James Meade at 496 National Drive, Rockwall, Rockwall County,Texas, is the result of a careful collection of the best evidence available to me and my opinion is based on the facts as found at the time of survey. This survey meets the requirements of the Minimum Standards of Practice as approved and published by the Texas Board of Professional Land Surveying, effective September 1, 1992 and subsequent revisions, and the same was surveyed under my supervision on the ground this the 7th day of July, 2016.

Typical Roof Ridge

Typical Roof Overhang

BASE DETAIL AT SHEETING LEDGE

GENERAL NOTES

1. Unloading, handling and proper storage of the Stee. Building package is the responsibility of the Erector and/or End User. Roof and wall panels must be kept dry prior to installation. Elevating one end of panel bundles is recommended to encourage drainage in case of rain.

2. Any and all damaged or shorted materials are to be reported within 24 hours of unloading. Check all materials with the Bill of Materials.

3. Unloading of Building Materials should be done with the appropriate lifting equipment such as crane, forklift or Skytrac due to the heavy nature of the parts involved.

4. All bracing, strapping and bridging shown on the erection drawings for this building is a requirement. They shall be installed by the Erector as a permanent part of the structure. It is the responsibility of the Erector to determine and provide temporary bracing to secure the building during the erecting process until permanent bracing can be installed.

5. Claims for correction of alleged misfits will not be allowed unless Southwest Metal Systems has received prior notice thereof and is allowed reasonable time to inspect such alleged misfits. The correction of minor misfits by the use of drift pins to draw the components in line, moderate reaming, shipping and cutting and the replacement of minor shortages of materials are a normal part of the erection process and are not subject to claim. No part of the building may be returned for alleged misfits without the prior approval of Southwest Metal Systems.

6. Jobsite safety is a priority. Erector are to wear OSHA approved hard hats, safety glasses, safety harnesses, gloves and steel toe boots at all times. Fall protection must be provided during roof and wall panel installation. OSHA guidelines and regulations are to be followed in all phases of building erection.

7. Foundation design by others. Anchor bolts shall be set accurately to a tolerance of +/- 1/8" in both elevation and location. All column base plates are set at finish floor elevation unless noted otherwise.

8. Wall insulation if required, is to be kept a minimum of 1 1/2" from the bottom of the wall panel to avoid "wicking" up behind the wall panel.

9. Closure Strips are provided at roof application only (Unless noted on drawings). Inside closure provided at roof eave only when insulation is NOT provided. See details for additional closure applications.

10. Southwest Metal Systems assumes no responsibilities or liabilities for delays or stock charges caused by deliveries not arriving on time.

11. Metal filings and shavings created from the fastener drilling process are to be cleaned off of the roof and wall panels the same day of panel installation. Failure to do so will void the panel's warranty, as metal filings and shavings will rust and damage the finish of the roof and wall panels.

12. Roll Sealant (tacky tape) required on all roof panel laps for roof with slopes of 3:12 and lower.

13. These Drawings are Erection Drawings Only. They are not Construction Documents.

14. Wall panels must be installed with 1 4" clearance from Concrete foundation. Failure to do so voids Wall Panel Warranty.

15. Insulation at base of wall shall be installed in such a manner that does does allow moisture wicking. Fold insulation liner as shown on Base Detail. Failure to do so Voids Wall Panel Warranty.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
BUILDING	John Shannon	8/12/2016	8/19/2016	8/17/2016	5	APPROVED	
ENGINEERING	Amy Williams	8/12/2016	8/19/2016	8/19/2016	7	COMMENTS	See Comment

(8/19/2016 2:00 PM AW)
The fire hydrant by the future building needs to be a minimum of 5' from the building. No structure is allowed in an easement.
The engineering plans will need to be revised to reflect any changes including the relocation of meters and fire service.

FIRE	Ariana Hargrove	8/12/2016	8/19/2016				see comments

(8/17/2016 2:32 PM AA)
Fire Department Connection (FDC) shall be located within 100-ft. of a fire hydrant, facing fire lane, and provided with an unobstructed 5-ft. wide pathway from the fire lane to the connection. (no parking allowed in the 5-ft. pathway, show pathway on plan)

GIS	Lance Singleton	8/12/2016	8/19/2016	8/23/2016	11	APPROVED	
PLANNING	David Gonzales	8/12/2016	8/19/2016	8/17/2016	5	COMMENTS	See comments

Discuss and consider a request by Rex Walker of Life Springs Church for the approval of an amended site plan for a church on a seven (7) acre portion of a larger 28.881-acre tract of land identified as Tract 15-01 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 By-Pass Corridor Overlay (SH 205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of John King Boulevard and SH-205, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, September 7, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Label revised site plan documents with "Case No. SP2016-017" at the lower right corner of each plan.

VARIANCES AND EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:

* 1. Art V, Sec. 6.10.C.1 of the SH 205 BY OV (and the UDC) requires each exterior wall to consist of 90% masonry materials,..., including 20% stone on walls which are visible from a public street or open space. The East elevation requires a minimum 20% stone and does not meet this standard.
* 2. Art V, Sec. 6.10.C.1.a of the SH 205 BY OV (and the UDC) requires each exterior wall to consist of 90% masonry materials,..., on walls which are visible from a public street or open space. The East elevation does not provide a minimum 90% masonry material and exceeds the 10% secondary materials with the use of metal wall panels.
* 3. Art V, Sec. 6.10.C.5 of the SH 205 BY OV (and the UDC) requires that all commercial buildings be architecturally finished on all four sides with the same materials, detailing, and features...the buildings east elevation as submitted is not meeting the minimum requirements.

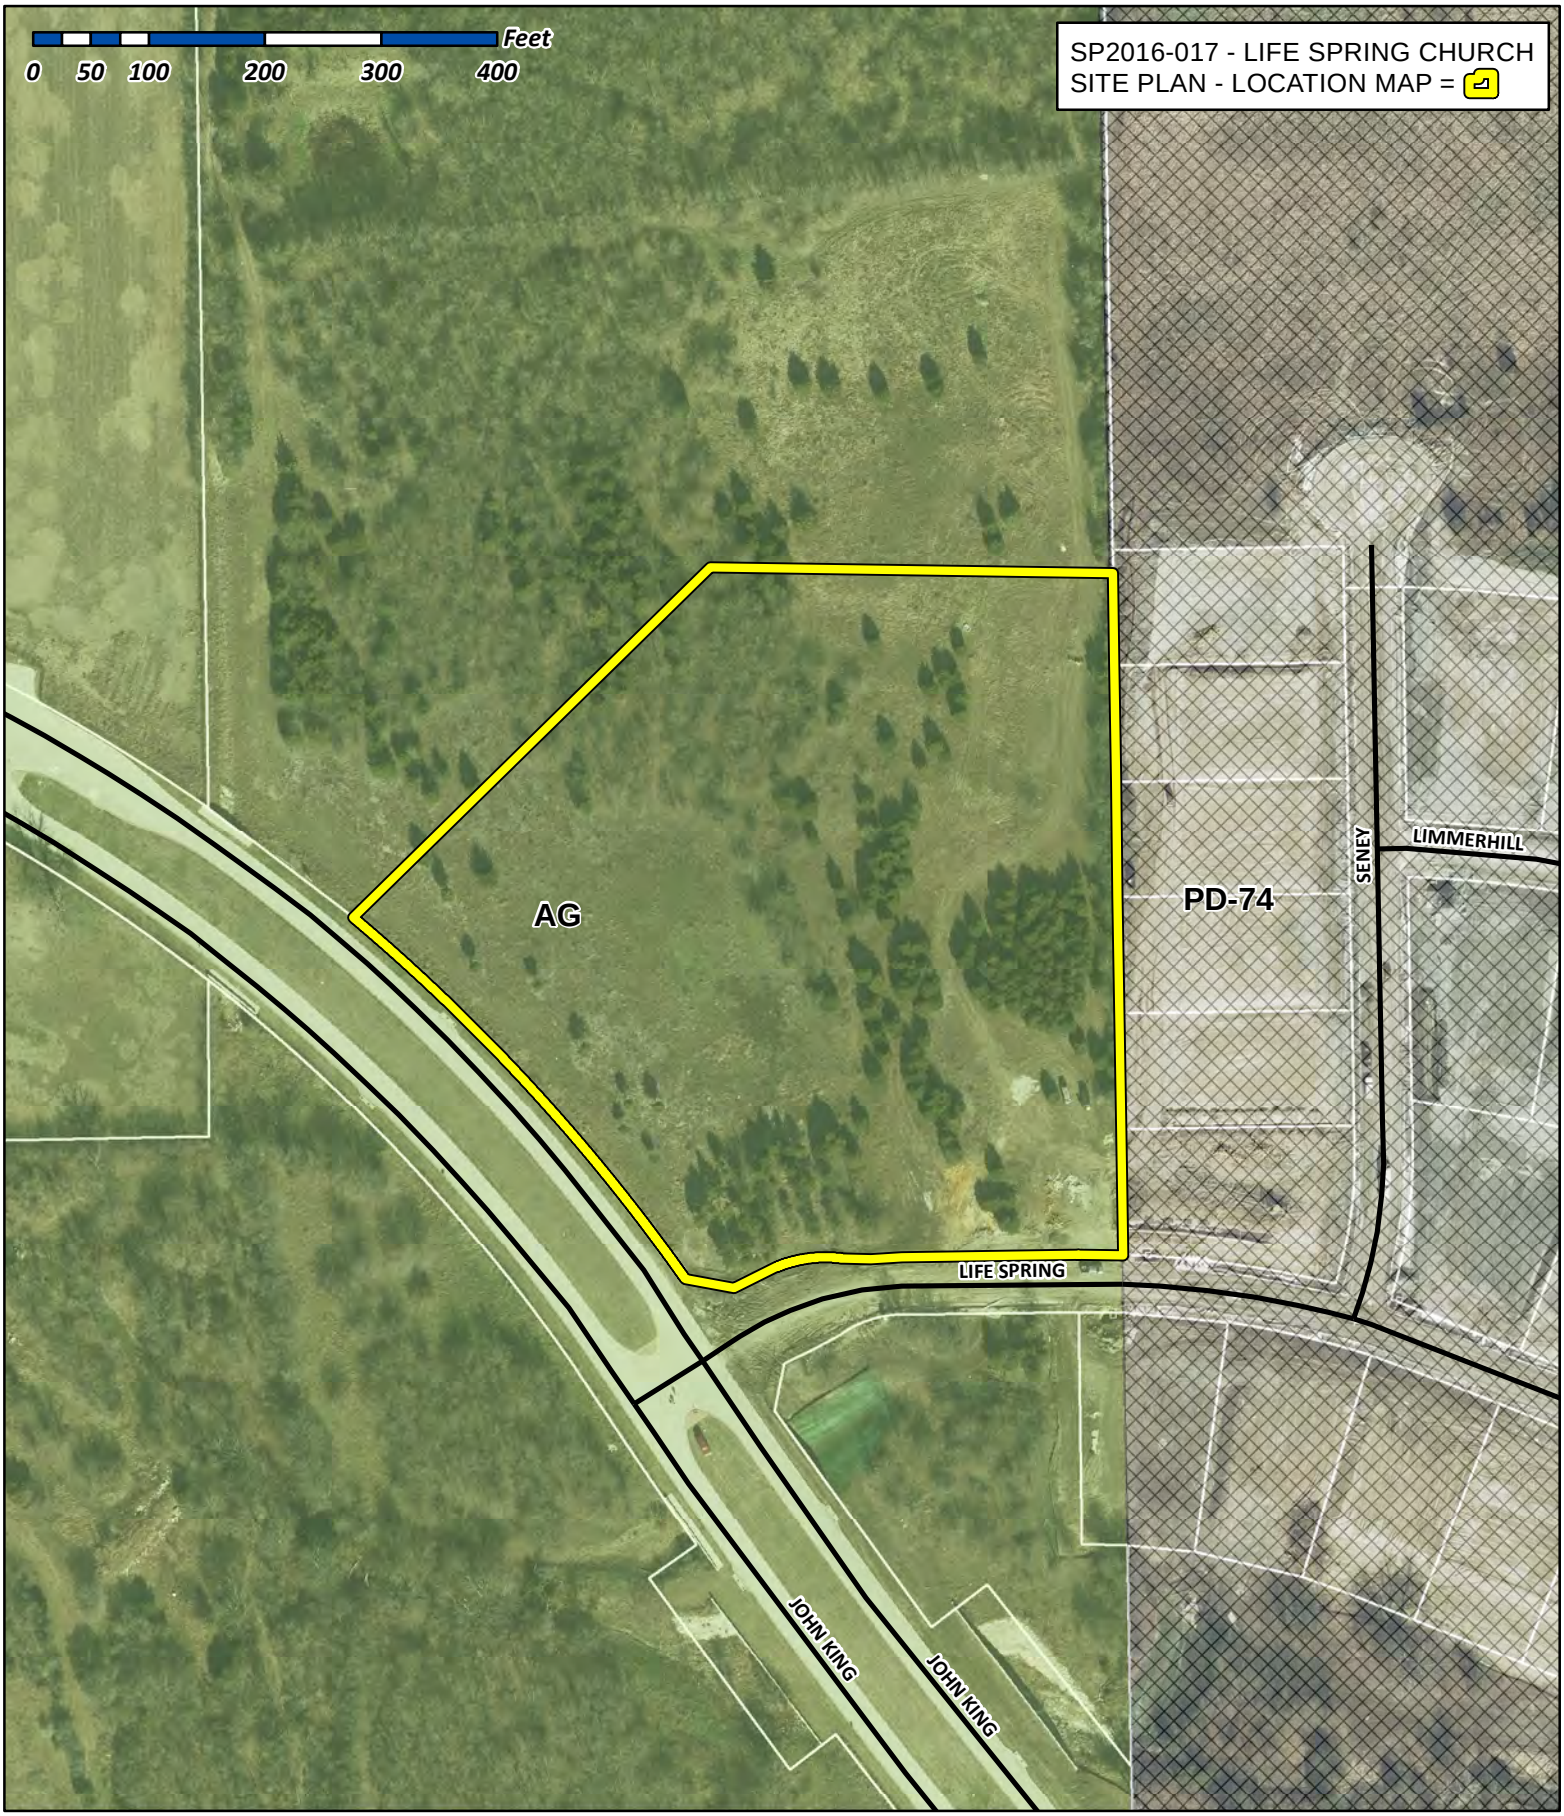
**4. ArtV, Sec. 4.1. of the UDC - Exception to the Horizontal & Vertical Articulation Standards - the buildings north elevation as submitted is not meeting the minimum requirements establish for the General Commercial District Standards. Requires a simple majority vote of council for approval.

* Approval of the variances to the SH 205 By-Pass OV requires passage by a 3/4 majority vote of City Council.

** Approval of the exceptions to the horizontal and vertical articulation standards requires passage by a simple majority vote of City Council.

Please addressthe following Planning Comments for each plan submitted:

Site Plan:
Hatch the area reduced to reflect the future expansion to be considered and label as such for both the building and parking area's (use light gray lines).



Building Elevations:
1. What type of metal paneling is being used for the exterior of the proposed structure?
2. Provide calculation for all exterior materials.
3. Approval of the variances & exceptions as submitted is required by the City Council as indicated above.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: August 30, 2016 (6:00 p.m.) [Applicant to provide presenation and discuss project]
Planning - Action: September 13, 2016 (6:00 p.m.) [P&Z to take action (i.e. approve, approve with conditions, or deny)

City Council - Action: September 19, 2016 (6:00 p.m.) [FOR VARIANCE & EXCEPTION REQUESTS ONLY]

AGENDA
PLANNING AND ZONING COMMISSION PUBLIC HEARING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
September 13, 2016
6:00 P.M.

CALL TO ORDER

CONSENT AGENDA

1. **Approval of Minutes** for the *August 30, 2016* Planning and Zoning Commission meeting.

2. **P2016-038** **(Korey)**
   Discuss and consider a request by Billy & Autumn Quinton for the approval of a final plat of Lots 1 & 2, Block A, Autumn Addition being a replat of a 0.35-acre tract of land identified as Lot 120, Block F of the B. F. Boydstun Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, addressed as 601 E. Rusk Street, and take any action necessary.

3. **P2016-039** **(Korey)**
   Discuss and consider a request by Jay Maddox of Maddox Survey on behalf of Casey & Andrea Burke for the approval of a final plat of Lots 1 & 2, Block A, Burke Addition being a 2.970-acre tract of land identified as Tract 19 of the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, situated within the Scenic Overlay (SOV) District, addressed as 1406 Ridge Road, and take any action necessary.

APPOINTMENTS

4. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

PUBLIC HEARING ITEMS

5. **Z2016-025** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing a 228 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Interior Subdistrict*, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [*FM-3097*] and Summer Lee Drive, and take any action necessary.

6. **Z2016-023** **(Korey)**
   Hold a public hearing to discuss and consider a request by Kevin Dale Wommack & Pamela McCollum for the approval of an amendment to *Specific Use Permit (SUP) No. S-118* [*Ordinance No. 14-02*] to allow for an accessory building that exceeds the maximum size requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4952-acre tract of land identified as Lot 17, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1970 Copper Ridge Circle, and take any action necessary.

7. **Z2016-028** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Susan Gamez for the approval of a zoning change from an Agricultural (AG) District to Commercial (C) District on a 0.478-acre tract of land identified as Tract 7 of the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the Scenic Overlay (SOV) District, addressed as 2001 Ridge Road, and take any action necessary.

8. **Z2016-029** **(David)**
   Hold a public hearing to discuss and consider a request by Jimmy Strohmeyer of Strohmeyer Architects on behalf of D. W. Bobst of J-BR2, LLC for the approval of a Specific Use Permit (SUP) to allow a retail store with more than 2 gasoline dispensers on a 2.59-acre tract of land being a portion of a larger 7.32-acre tract of land identified as Tract 17-12 of the W. W. Ford Survey, Abstract No. 80, City of Rockwall, Rockwall

County, Texas, zoned General Retail (GR) District, situated at the southwest corner of the intersection of SH-205 [*S. Goliad Street*] and FM-549, and take any action necessary.

ACTION ITEMS

9. SP2016-016 **(David)**
Discuss and consider a request by Tim Seymore of Seymore Custom Homes, LLC on behalf of James & Robin Meade for the approval of a site plan for the construction of a commercial/industrial building on an existing 2.02-acre commercial/industrial facility identified as Tract 2-22 of the J. R. Johnson Survey, Abstract No. 128, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, addressed as 496 National Drive, and take any action necessary.

10. SP2016-017 **(David)**
Discuss and consider a request by Rex Walker of Life Springs Church for the approval of an amended site plan for a church on a seven (7) acre portion of a larger 28.881-acre tract of land identified as Tract 15-01 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 By-Pass Corridor Overlay (SH 205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of John King Boulevard and SH-205, and take any action necessary.

DISCUSSION ITEMS

11. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2016-036: Final Plat for Lot 1, Block A, Service King Addition [*Approved*]
- ✓ P2016-037: Amending Plat for Lakeview Summit, Phase IV [*Approved*]
- ✓ Z2016-022: SUP for SPR Packaging (*2nd Reading*) [*Approved*]
- ✓ Z2016-025: Harbor Urban Center Condominiums (*1st Reading*) [*Approved*]
- ✓ Z2016-027: Zoning Amendment to Article V of the UDC (*2nd Reading*) [*Approved*]

ADJOURNMENT

TRAINING SESSION

12. *Planning and Zoning Commission Training Session* **(Ryan)**
A work session will be held in the City Council meeting room immediately following the adjournment of the September 13, 2016 Planning and Zoning Commission work session meeting. The agenda for the training session will include a presentation from staff over Planned Development District 32 (PD-32).

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator of the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 9th day of September, 2016 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MINUTES
PLANNING AND ZONING COMMISSION WORK SESSION
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
August 30, 2016
6:00 P.M.

I. CALL TO ORDER

Chairman Renfro called the meeting to order at 6:15p.m. The Commissioners present at the meeting were, Commissioners Johnny Lyons, Patrick Trowbridge, Sandra Whitley and Tracey Logan. Commissioners absent were Annie Fishman, and Mark Moeller. Staff members present were Planning Director, Ryan Miller, Senior Planner, David Gonzales, Planner, Korey Brooks, Planning Coordinator, Laura Morales and Civil Engineer, Jeremy White.

II. CONSENT AGENDA

1. Approval of Minutes for the August 9, 2016 Planning and Zoning Commission meeting.

2. P2016-036

Discuss and consider a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Saint George Partners, LTD for the approval of a final plat for Lot 1, Block A, Service King IH-30 Addition being a 3.293-acre tract of land currently described as Tract 7-01 of the J. Lockhart Survey, Abstract No. 134, City of Rockwall, Rockwall County, Texas, located at 1780 E IH-30, zoned Light Industrial (LI) District, situated within the IH-30 Overlay (IH-30 OV) District, and take any action necessary.

3. P2016-037

Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of D. R. Horton for the approval of an amending plat Lakeview Summit, Phase IV for the purpose of adding utility easements to the 93 residential lots proposed for the 38.056-acre subdivision situated within the J. H. B. Jones Survey, Abstract No. 124 and the Nathan Butler Survey, Abstract No. 21, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 29 (PD-29) for Single-Family 10 (SF-10) District land uses, located north of the intersection of Petaluma Drive and N. Lakeshore Drive, and take any action necessary.

Chairman Renfro made a motion to pass the consent agenda. Commissioner Lyons seconded the motion which passed by a vote of 5-0, with Commissioners Moeller and Fishman absent.

III. APPOINTMENTS

4. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

The Architectural Review Board representative, Jimmy Strohmeyer, came forward and gave brief summary of recommendations pertaining to the item on the agenda that required architectural review.

IV. ACTION ITEMS

5. Hold an election to elect a Vice-Chairman for the Planning and Zoning Commission.

Chairman Renfro noted this item would be moved to the end of the agenda.

V. PUBLIC HEARINGS

6. Z2016-025

Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing a 245 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated

within the *Interior Subdistrict*, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [*FM-3097*] and Summer Lee Drive, and take any action necessary.

Planning Director, Ryan Miller, gave brief summary of item stating that this case was returning from the last meeting where the public hearing was held and continued by the Planning and Zoning Commission. The property is located in what is called the interior sub-district of Planned Development 32 which does allow condominium buildings by right as well as the number of units being proposed. The issue as was discussed at the previous meeting is the roadway and the proposed cross section. Specifically according to Planned Development District 32 a street type G is required which is defined as a street type that has 8 foot sidewalks and parkways on both sides, parallel parking and a 24 foot travel lane on the interior. An updated submittal was received from the applicant showing an increase to a 40 foot right of way from the 36 foot right of way originally proposed. They also originally had a 24 foot travel lane down the middle but now are bringing back the parallel parking. Also from what the Planning and Zoning Commission recommended in the previous meeting they have moved all the parkway and sidewalk to the side adjacent to the building. Mr. Miller pointed out that they decreased the number of units from 245 units to 228 units due to the building style being changed from a wrap product to a podium build which decreased the footprint size of the building to allow for the increased right of way. The change will not affect the architectural style and the proposed elevations are still being tied down to the draft ordinance.

Mr. Miller further stated that on July 22, 2016, staff mailed 84 notices to property owners and residents within 500-feet of the subject property and emailed notices to the Lakeside Village, Lago Vista and Signal Ridge Homeowner's Associations. Staff received two responses in favor of the request, four in opposition and the majority of the opposition was relating to the use and not the roadway.

Mr. Miller advised the Commission the applicant was present and available for questions.

Chairman Renfro asked the Commission for questions for staff.

Commissioner Trowbridge asked for clarification that what is being approved is just the cross section of the roadway. Mr. Miller stated that was correct and added that it is a Planned Development Plan but the manner in which PD 32 is structured it allows for the Commission to consider changes to the road section through that Planned Development Plan.

Chairman Renfro asked the applicant to come forward.

Jason Lentz
5339 Alpha Road Suite 300
Dallas, TX

Mr. Lentz came forward and stated that after hearing the comments from the Commission at the last meeting their focus was on doing all that they could to integrate all of the comments to come up with a design that they felt worked best not only for them but for the City. After taking the Commissions comments into consideration they came up with a new scheme and made a lot of changes that had not been considered previously. He explained that they are going from a wrapped product with a garage in the middle to a significantly more expensive podium product which has two stories of parking underneath the four stories of apartments. Also the number of units has been decreased from 245 units to 228 units, which allowed the footprint size of the building to decrease allowing for the increasing of the right of way and stay within the way the existing creek sits now, shift the sidewalk over to the building side and bring back the 8 feet of parallel parking which will continue throughout the entire right of way. Mr. Lentz pointed out that there had been some discussion concerning how close the road was to the building. There are 555 linear feet of road and the right of way is only within 5 feet of the building for 140 feet of those 555 feet. The right of way does not hug the building the entire way and that is dictated where the line of the creek bed is.

Mr. Lentz went on to state that those changes were done to address the concerns the Commission had and feels after exploring other options that this scheme is the best suited for a condominium project on this property.

Chairman Renfro expressed concern with the original Planned Development Plan calling for two 8 foot sidewalks as opposed to what is being proposed which is a 6 foot sidewalk on one side and 2 foot on the other making it 10 feet deficient from what the original plan was. He feels it is a walking district therefore the sidewalks are extremely important when it comes to the flow and movement of people and the safety of the citizens. He asked staff if that was what needed to be considered.

Mr. Miller stated what was to be considered is a roadway cross section that does not conform.

Commissioner Lyons asked the applicant concerning 2 foot sidewalk if there would be concrete. Mr. Lentz stated it is a 2 foot buffer parkway not a poured concrete sidewalk. Commissioner Lyons asked if the only walkable sidewalk would be the 6 foot sidewalk on the building side. Mr. Lentz stated that was correct.

Commissioner Whitley asked if there is 6 feet on one side and two on the other of which is not walkable could those two feet be added to the 6 feet to have 8 feet on the side of the building since it is not usable on the other side. Mr. Lentz stated they could make that change.

Commissioner Logan asked what change was done to the cross section from original proposal to what is being brought now. Mr. Miller stated that what they've done is put in the same amount of pavement as the original cross section with the same travel lanes and parallel parking what has changed is the parkways and the sidewalks.

Chairman Renfro opened the public hearing and asked anyone who wished to speak to come forward and do so.

David Stubblefield
1550 Ana Cade
Rockwall, TX

Mr. Stubblefield came forward and stated he is the representative of the property to the north of the subject property and is generally in favor of the proposal but is concerned with the connectivity issues it presents to the surrounding property. He has had several people wanting to develop his client's property to the north as well as the property on the south and each time the City has said that they required a road that connects from Summer Lee up to Ridge Road. Mr. Stubblefield provided a map that showed how the original plan of connectivity would be.

Mr. Miller showed a slide of the Master Plan and stated that the Cemetery Road alignment was what originally was talked about when PD 32 came in couldn't be used because it would cut down the middle of a cemetery and showed on the map what the correct alignment of the roadway is which mirrors the roadway alignment that is being projected by the applicants plans. The issue when Summer Lee Condominiums came in was that it wasn't known where that roadway alignment was going to be at that time and had the applicant for that development indicate generally on the site plan that there would be right of way dedicated, but nothing has been dedicated because that property has not been final platted as of yet.

Mr. Stubblefield asked staff what was the plan for the two properties to connect. Mr. Miller stated once the roadway alignment for street type G comes into play when the property is platted those two points will be connected.

Chad Cain
PO Box 2345
Rowlett, TX

Mr. Cain came forward and expressed his strong opposition to the request. His concerns are with the high density these condominiums will create, shortening the sidewalks, and the connectivity issues it presents that will affect his property. He urged the Commission to vote against it.

Jimmy Strohmeyer
2701 Sunset Ridge
Rockwall, TX

Mr. Strohmeyer came forward and stated he is one of the architects for the Summer Lee Condominiums and one of their concerns looking at the proposed plan is where the road is going because it is coming into a 24 foot dead end fire lane on their site that has a 20 foot retaining wall against the creek. They were aware that a road would come in there eventually but they have are finished engineering and have already submitted engineering plans. He stated that looking at their proposed master they were aware the road would shift some but based it off of City's Master Thoroughfare Plan. He stated he is not for or against the request but is concerned with having a road that goes nowhere.

Chairman Renfro asked staff to address the comments given to help better understand.

Mr. Miller stated when the Summer Lee condominiums came in the City did require them to show future roadway however it was indicated to them that a facilities agreement would be put in place at the time of platting to establish the alignment of that roadway as well as the timing of the roadway which was being tied to when the applicant of that case developed the back side of that property or the adjacent property developed and that was indicated in that cases project comments. The idea was always to establish the alignment when the adjacent properties developed because even though everything is tied down to the Concept Plan, PD32 has many moving parts and there is flexibility of Planning and Zoning and City Council to move those parts in PD Development Plans. It was unsure what development was coming in or when it was coming in and in order to allow flexibility at that time it was felt that in the best interest in all involved to handle things in that manner.

Commissioner Lyons asked for clarification as roadway is built out over time and this request is approved and Summer Lee goes in is the plan to get that back out to Ridge Road to where it is not a dead end. Mr. Miller stated that was correct. Commissioner Lyons asked as other developments come in would they be responsible to build the roadway until it goes out onto Ridge Road. Mr. Miller stated that was correct that roadway would be connected until it generally meets the alignment.

Mr. Miller added that this is a PD Development Plan establishing a roadway crossway, not a site plan. The applicant is only asking for the road section at this time they have not engineered. It is not setting the alignment in stone it is setting the cross section for that roadway. They will need to demonstrate that they are not dead ending a roadway into a retaining wall.

Chairman Renfro noted that Commissioner Moeller arrived at the meeting at 7:12 p.m.

Russell Phillips
2701 Sunset Ridge Drive
Rockwall, TX

Mr. Phillips came forward and gave some background stating he is a developer and part owner for Trend Tower and the land next to the Cinemark was purchased for development for condos. He feels that whatever plan is put into place it need to be taken into consideration the surrounding property owners to make sure the roadway works to tie them all together.

General discussion took place took place concerning what the original intent of PD32's allocation of units for condominium/townhomes.

Chairman Renfro asked if anyone else wished to come forward to speak, there being no one indicating such, Chairman Renfro closed the public hearing and asked the applicant to come forward for rebuttal.

Chairman Renfro expressed concern of traffic concerns if condos/townhomes are all allocated to one area.

Mr. Lentz came forward and stated they were given a set of criteria and concerns at the previous meeting and those concerns have since been addressed. With concern of whether or not it can handle the traffic he feels the road as it relates to the right of way was two lanes, the actual traffic lanes in the right of way was always 24 feet of cars and 8 feet of parallel parking and that has not changed. He stated he believes they have shown a willingness to address the concerns and will continue to work with anyone in any manner that is needed.

Commissioner Lyons expressed concern of moving forward with the request without more knowledge of how it would affect the overall original intent of PD32 and felt the two developers could possibly work together.

Bruce Myers
5339 Alpha Road
Dallas, TX

Mr. Myers came forward and pointed out they are currently only asking for a variance to change the roadway from the original 60 foot to a 40 foot. He stated he understands there is more work to be done but are just seeking approval to move forward with the understanding that given the constraint of where that creek aligns that the be allowed to take away some sidewalk in order to accomplish that.

Commissioner Lyons asked when townhomes are built would they be crossing the creek. Mr. Myers stated they would have to.

Commissioner Trowbridge noted that it comes down to cross section G which was outlined in a PD that was established years ago and the decision the Commission has to make is whether or not the 60 foot sidewalk that was established within the PD can be achieved as proposed by the developer with 40 feet.

Chairman Renfro expressed concern with losing the walkability feel the original intent of the PD established by losing the 20 feet of sidewalk.

Commissioner Lyons expressed concern for safety by making the sidewalk smaller along a creek. He feels that although the developer has made changes to the original proposal taking from the Commissioners concerns at the last meeting he still would like to see more changes with applying the rules the original PD established and is leaning at saying no to the proposal at this time.

Commissioner Logan made comment that if public streets have to be built according to ADA requirements for sidewalks which is 4 feet, but if it appears to be a path it requires a sidewalk would that rule apply to City streets. Mr. Miller stated they would technically meet that by having the sidewalk on one side.

Commissioner Whitley expressed concern that although the Commission does see each case on a case by case individual basis, they are all a piece of a bigger part of the City and although the cases that come forward need to be considered individually, it needs to be thought out how each case will interact and affect each other.

Commissioner Moeller expressed concern of losing the walkability feel that the intent of the original PD32 established for this area.

General discussion took place concerning what direction should be taken.

Commissioner Trowbridge made motion to approve the item. Motion failed to pass due to there being no second. Commissioner Lyons made a motion to continue the public hearing for the next scheduled hearing. Chairman Renfro seconded the motion.

Mr. Miller clarified that according to the UDC action needs to be taken within 60 days of the first public hearing date or the application will be considered withdrawn.

Commissioner Lyons made motion to deny the request. Commissioner Trowbridge seconded the motion which passed by a vote of 4-2, with Commissioner Trowbridge and Logan dissenting and Commissioner Fishman absent.

7. Z2016-026

Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing 36 townhomes on a 3.462-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall

County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Residential Subdistrict* and within the Scenic Overlay (SOV) District, located north of the intersection of Ridge Road [*FM-740*] and Glen Hill Way, and take any action necessary.

Planning Director, Ryan Miller, gave brief explanation of request stating the public hearing on this case was continued from the last meeting based on the alignment of the roadway on case Z2016-025. The subject property is a 3 ½ acre tract of land located within the residential sub-district, which according to what the applicant is proposing which is 36 townhomes the land use charts contained within Ordinance 1021 do allow a townhome use through a Specific Use Permit; however the intent of the residential sub-district is for 49 single family zero lot line homes with rear entry garages and public streets. In light of what the applicant submitted staff felt a PD Development Plan route would be more prudent to what is being proposed since it does not conform to the intent of the residential sub-district. The applicant is proposing 36 townhomes that will range in size from 1,600 square feet to 2,500 square feet. They will be accessible off a to be determined roadway and will extend through the site through a public or private roadway. They will need to provide access to the property directly to the northeast of them. In making that decision it is a discretionary decision to the Planning and Zoning Commission and when looking at granting a PD Development Plan the ordinance requests that the certain criteria be met which are that 1) meets the general intent of the PD District; and, 2) will result in an improved project which will be an attractive contribution to the PD District; and, 3) will not prevent the implementation of the intent of this PD District. Taking that into consideration the Specific Use Permit process is discretionary as well as the PD Development Plan which means the Commission has discretion on the use that is being requested. Should it be approved it will be required to go to the Architectural Review Board and Planning and Zoning Commission during the site plan process.

Mr. Miller went on to state that on July 22, 2016, staff mailed 52 notices to property owners and residents within 500-feet of the subject property and also emailed notices to the Lago Vista Homeowner's Associations which is the only HOA's located within 1,500-feet of the subject property. Staff received three responses in favor of the request and one response opposed to the request was received by staff. Mr. Miller noted that there were no changes from the previous case and the draft ordinance provided remains the same.

Chairman Renfro asked for questions for staff.

Commissioner Logan asked if the property to the northeast would be getting land locked except for the driveway that is on the subject property. Mr. Miller stated they would not be land locked they have the ability to request access off of Summer Lee Drive.

Chairman Renfro asked the applicant to come forward.

Jason Lentz
5339 Alpha Road
Dallas, TX

Mr. Lentz came forward and stated the layout to the townhome portion adjacent to the condos has not changed significantly from the last presentation at the previous meeting. They are still requesting the variance from 49 zero lot line single family homes to 36 townhomes in clusters of 4 to 6 homes each with front entry garages and will range from 1,600 square feet to 2,600 square feet in size. He stated one of the keys is that they are lowering the density of this space where there were 49 homes approved previously to the 36 that are being requested. He believes this product serves this site in a better way. Access will come off of the to be determined roadway and propose to cross the creek for access and run down through the townhome development providing access to the site north.

Chairman Renfro opened the public hearing and asked anyone who wished to speak to come forward.

Chad Cain
PO Box 2345
Rowlett, TX

Mr. Cain came forward and expressed his strong opposition to the request. Stated by approving this request it would be setting a precedent for other similar requests to come forward. He feels the original intent of single family zero lot line homes with rear entry garages should not be changed. He urged the Commission to deny the request.

Chairman Renfro asked the applicant to come forward for rebuttal.

Bruce Myers
5339 Alpha Road
Dallas, TX

Mr. Myers came forward and stated that the original intent of the residential subdivision was to provide single family residences and noted that a townhome is a single family residence. The only differentiation from the original intent is that the townhomes touch one another, where a single family lot has a five foot gap between them. He feels as a development a townhome is a much more attractive look. They are requesting front entry garages which will allow for a yard.

Chairman Renfro closed the public hearing and brought the item back to the Commission for discussion.

Chairman Renfro asked if the townhomes will be sold individually. Mr. Myers stated they would be sold individually.

Commissioner Trowbridge asked if zero lot line homes have a height restriction or is it simply the concept of how it sits on the land. Mr. Miller stated that in the straight zero lot line zoning district it is restricted to 36 feet.

Commissioner Lyons asked how big the front yards would be. Mr. Myers stated it would be approximately 25 feet there would be a driveway with the landscape islands in between the driveways which will be anywhere from 6-12 feet depending on how the garages are spread out. Mr. Myers provided a picture of what it would look like.

Commissioner Whitley asked if there would be an HOA established. Mr. Myers stated there will be a Home Owners Association because there will be common areas.

Commissioner Lyons asked what kind of garage doors they will be utilizing. Mr. Myers stated they have not made a decision on that as of yet.

Commissioner Trowbridge made motion to approve the item. Commissioner Logan seconded the motion, which passed with a by a vote of 4-2 with Commissioner Lyons and Chairman Trowbridge dissenting and Commissioner Fishman absent.

Chairman Renfro called a ten minute recess at 8:30 p.m.

Chairman Renfro called the meeting back to order at 8:47 p.m.

VI. DISCUSSION ITEMS

8. Z2016-023

Hold a public hearing to discuss and consider a request by Kevin Dale Wommack & Pamela McCollum for the approval of an amendment to *Specific Use Permit (SUP) No. S-118* [*Ordinance No. 14-02*] to allow for an accessory building that exceeds the maximum size requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4952-acre tract of land identified as Lot 17, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1970 Copper Ridge Circle, and take any action necessary.

Planner, Korey Brooks, advised the Commission the applicant was present to answer any questions.

Dale Wommack
1970 Copper Ridge Circle
Rockwall, TX

Mr. Wommack came forward and showed picture of existing metal building that is 22x31 feet and stated he would like to continue the length of the building the same size that it is just double the size with an open air pavilion in front of the building.

Commissioner Trowbridge asked if it would be double. Mr. Wommack stated it would be instead of 22x31 feet it will be 22x62 feet.

Chairman Renfro made comment of applicant asking for an SUP therefore a precedent would not be set as it is a case by case basis in requests such as these. Mr. Wommack stated there is an existing SUP for the existing building he requesting to amend it.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

9. Z2016-028

Hold a public hearing to discuss and consider a request by Susan Gamez for the approval of a zoning change from an Agricultural (AG) District to Commercial (C) District on a 0.478-acre tract of land identified as Tract 7 of the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the Scenic Overlay (SOV) District, addressed as 2001 Ridge Road, and take any action necessary.

Planning Director, Ryan Miller, stated applicant was present and available for questions.

Susan Gamez
602 Laurence
Heath, TX

Ms. Gamez came forward and stated her current business Everybody Massage is located at 1024 Ridge Road and she has been at that location for eleven years. She is asking to have the zoning change to allow her to move her business to this new property which is double the size of her current business and would allow her room to grow. She currently has five therapists, five massage rooms and five clients and going at any given time but only has eight parking spaces. She stated she has been looking for years for a property that would be suitable to move and had not been successful in her search until this property became available which she feels is ideal because on one side it is already commercial, it is double the size and also because it maintains a Ridge Road address as her current business has a Ridge Road address.

Chairman Renfro asked if she was unable to move the business without making the zoning change to Commercial.

Mr. Miller stated that the applicant is required to re-zone the property, currently the Future Land Use Map is set up calls out this property as being a Single Family 7 in the future, however the applicant does have commercial adjacencies. Alternatively the Commission could make a recommendation to Council to have it be something more restrictive such as a Residential Office, which that designation would still allow her business.

Commissioner Trowbridge asked the applicant if she will be purchasing the property if it is currently being uses as someone's home. Ms. Gamez stated she has already purchased the property and is currently vacant.

Mr. Miller added that he would be providing the Commission with the zoning requirements for this use on this property for them to review if the zoning is appropriate or if there is another zoning designation that they may want to consider.

Commissioner Whitley asked staff if due to it being secluded what signage would be allowed to draw in the Ridge Road traffic. Mr. Miller stated the applicant would be subject to the City's sign requirements and currently there is not a process nor is off site signage allowed. A sign would be allowed but it would have to be on her property and those requirements have already been discussed with the applicant.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

10. Z2016-029

Hold a public hearing to discuss and consider a request by Jimmy Strohmeyer of Strohmeyer Architects on behalf of D. W. Bobst of J-BR2, LLC for the approval of a Specific Use Permit (SUP) to allow a retail store with more than 2 gasoline dispensers on a 2.59-acre tract of land being a portion of a larger 7.32-acre tract of land identified as Tract 17-12 of the W. W. Ford Survey, Abstract No. 80, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated at the southwest corner of the intersection of SH-205 [*S. Goliad Street*] and FM-549, and take any action necessary.

Senior Planner, David Gonzales, gave brief explanation of request stating that the applicant is requesting a SUP for the eight gasoline dispensers on the corner of SH-20 and FM-549 and added that the applicant was present to answer any question.

Jimmy Strohmeyer
2701 Sunset Hill
Rockwall, TX

Mr. Strohmeyer came forward and gave brief explanation of request stating that the property has been re-platted and have sectioned it off and the corner piece is where they are requesting to put the gas station. He feels it is an ideal location for a convenient/gas station at the corner of SH-205 and FM-549. The reason for the SUP is they are requesting eight dispensers rather than the two dispensers that are rarely seen anymore.

Commissioner Trowbridge asked if it was only limited to the two dispensers and what zoning allowed for more than the two dispensers. Mr. Gonzales stated that within the General Retail Zoning District which is a less intense use it is limited to two dispensers unless a Specific Use Permit is given. Commercial District has no restrictions unless it is within a Planned Development.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

11. P2016-038

Discuss and consider a request by Billy & Autumn Quinton for the approval of a final plat of Lots 1 & 2, Block A, Autumn Addition being a replat of a 0.35-acre tract of land identified as Lot 120, Block F of the B. F. Boydstun Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, addressed as 601 E. Rusk Street, and take any action necessary.

Planner Korey Brooks gave brief explanation of request stating that the applicant is proposing to subdivide one tract of land into two parcels. The reason this is coming before the Commission and not on the consent agenda is because this plat will need to go before the Parks Board on September 7th and once the Parks Board send over their recommendation it will be on the consent agenda at the next Planning and Zoning meeting.

Commissioner Trowbridge asked what the Parks Board would be approving. Mr. Brooks stated the Parks Board is going to establish the Parks fees associated with splitting the lot.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

12. P2016-039

Discuss and consider a request by Jay Maddox of Maddox Survey on behalf of Casey & Andrea Burke for the approval of a final plat of Lots 1 & 2, Block A, Burke Addition being a 2.970-acre tract of land identified as Tract 19 of the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, situated within the Scenic Overlay (SOV) District, addressed as 1406 Ridge Road, and take any action necessary.

Planner, Korey Brooks, gave brief explanation of request stating that as mentioned with the previous plat this item also will need to go before the Parks Board for their recommendation of

park fees, and will be on the consent agenda at the next scheduled Planning and Zoning meeting on September 13th.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

13. SP2016-016

Discuss and consider a request by Tim Seymore of Seymore Custom Homes, LLC on behalf of James & Robin Meade for the approval of a site plan for the construction of a commercial/industrial building on an existing 2.02-acre commercial/industrial facility identified as Tract 2-22 of the J. R. Johnson Survey, Abstract No. 128, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, addressed as 496 National Drive, and take any action necessary.

Senior Planner, David Gonzales, gave brief description of request stating that the subject property is zoned Heavy Commercial and applicant is proposing to have an additional 3,600 square building which is more than half the size of the existing building. Mr. Gonzales advised the Commission the applicant was present and could further explain request and answer any questions.

Tim Seymore
205 Rushcreek
Heath, TX

Mr. Seymore came forward and stated the sole purpose to build the storage building is to store equipment from their erosion control business.

There being no questions, Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

14. SP2016-017

Discuss and consider a request by Rex Walker of Life Springs Church for the approval of an amended site plan for a church on a seven (7) acre portion of a larger 28.881-acre tract of land identified as Tract 15-01 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 By-Pass Corridor Overlay (SH 205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of John King Boulevard and SH-205, and take any action necessary.

Senior Planner, David Gonzales, gave a brief overview of request stating that Life Spring Church has an approved site plan that came before the Commission a year ago at which time the site plan as well as building elevations was approved. At that time the site plan called for a 25,000 square foot building and it went through the Architectural Review Board and had variances approved for articulation to the building. Since then the applicant is currently requesting to amend the building elevations. Mr. Gonzales provided pictures to compare and contrast of what was approved and what the applicant is currently requesting. The Architectural Review Board met with the applicant earlier in the evening and provided comments. Mr. Gonzales advised the Commission the applicant was present to answer any questions.
Kelly Horak
516 Equestrian
Rockwall, TX

Mr. Horak came forward and stated he is present on behalf of Life Spring Church as a consultant. He stated the original project as it was approved was for a 25,000 square foot building but due to budgetary constraints, Mr. Walker and his congregation decided to reduce the size of the building to 16,839 square feet by doing away with the gymnasium in the building. Now that the building has been reduced in size they would like to request to do away with the double slope roof and do a single slope. The future addition of the gymnasium will be a standalone offset higher set building away from the main building that will be screened in the back.

There being no questions, Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

Chairman Renfro brought item number 5 back and asked for discussion or motions for electing a Vice-Chairman and asked if anyone wished to nominate someone or nominate themselves to do so. Commissioners Trowbridge and Lyons both expressed desire to be nominated.

Chairman Renfro made a motion to nominate Commissioner Lyons. Commissioner Logan seconded the motion, which passed by a vote of 6-0, with Commissioner Fishman absent.

15. Director's Report of post Council meeting outcomes of Planning & Zoning cases.

- ✓ P2016-023: Master Plat for the Saddle Star South Subdivision [*Approved*]
- ✓ P2016-024: Preliminary Plat for the Saddle Star South Subdivision [*Approved*]
- ✓ P2016-035: Lot 1, Block 1, Carmel Carwash Addition [*Approved*]
- ✓ SP2016-015: Exception to the Masonry Requirements for Adventure Sports [*Approved*]
- ✓ Z2016-019: Planned Development District for Multi-Family Apartment Complex [*Denied*]
- ✓ Z2016-020: SUP for a Carport at 509 Sunset Hill Drive (*2nd Reading*) [*Approved*]
- ✓ Z2016-021: Zoning Amendment to PD-52 for Townhomes (*2nd Reading*) [*Approved*]
- ✓ Z2016-022: SUP for SPR Packaging, LLC (*1st Reading*) [*Approved*]
- ✓ Z2016-027: Amendment to Sec. 2.1, 3.3 & 3.4 of Article V of the UDC (*1st Reading*) [*Approved*]

Planning Director, Ryan Miller, **provided a brief update about the outcome of the above referenced case at the City Council meeting. No discussion took place concerning this agenda item.**

VII. ADJOURNMENT

The meeting adjourned at 9:24 p.m.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2016.

_____
Craig Renfro, Chairman

Attest:

_____
Laura Morales, Planning Coordinator

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 09/13/2016

APPLICANT: Billy and Autumn Quinton

AGENDA ITEM: **P2016-038**; *Lots 1 & 2, Block A, Autumn Addition*

SUMMARY:

Discuss and consider a request by Billy & Autumn Quinton for the approval of a final plat of Lots 1 & 2, Block A, Autumn Addition being a replat of a 0.35-acre tract of land identified as Lot 120, Block F of the B. F. Boydstun Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, addressed as 601 E. Rusk Street, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to final plat one (1) parcel of land [*Lot 120, Block F, B.F. Boydstun Addition*] into two (2) parcels of land [*Lots 1 & 2, Block A, Autumn Addition*] for the purpose of establishing two (2) parcels.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for final plats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the *final plat* for *Lots 1 & 2, Block A, Autumn Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *final plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

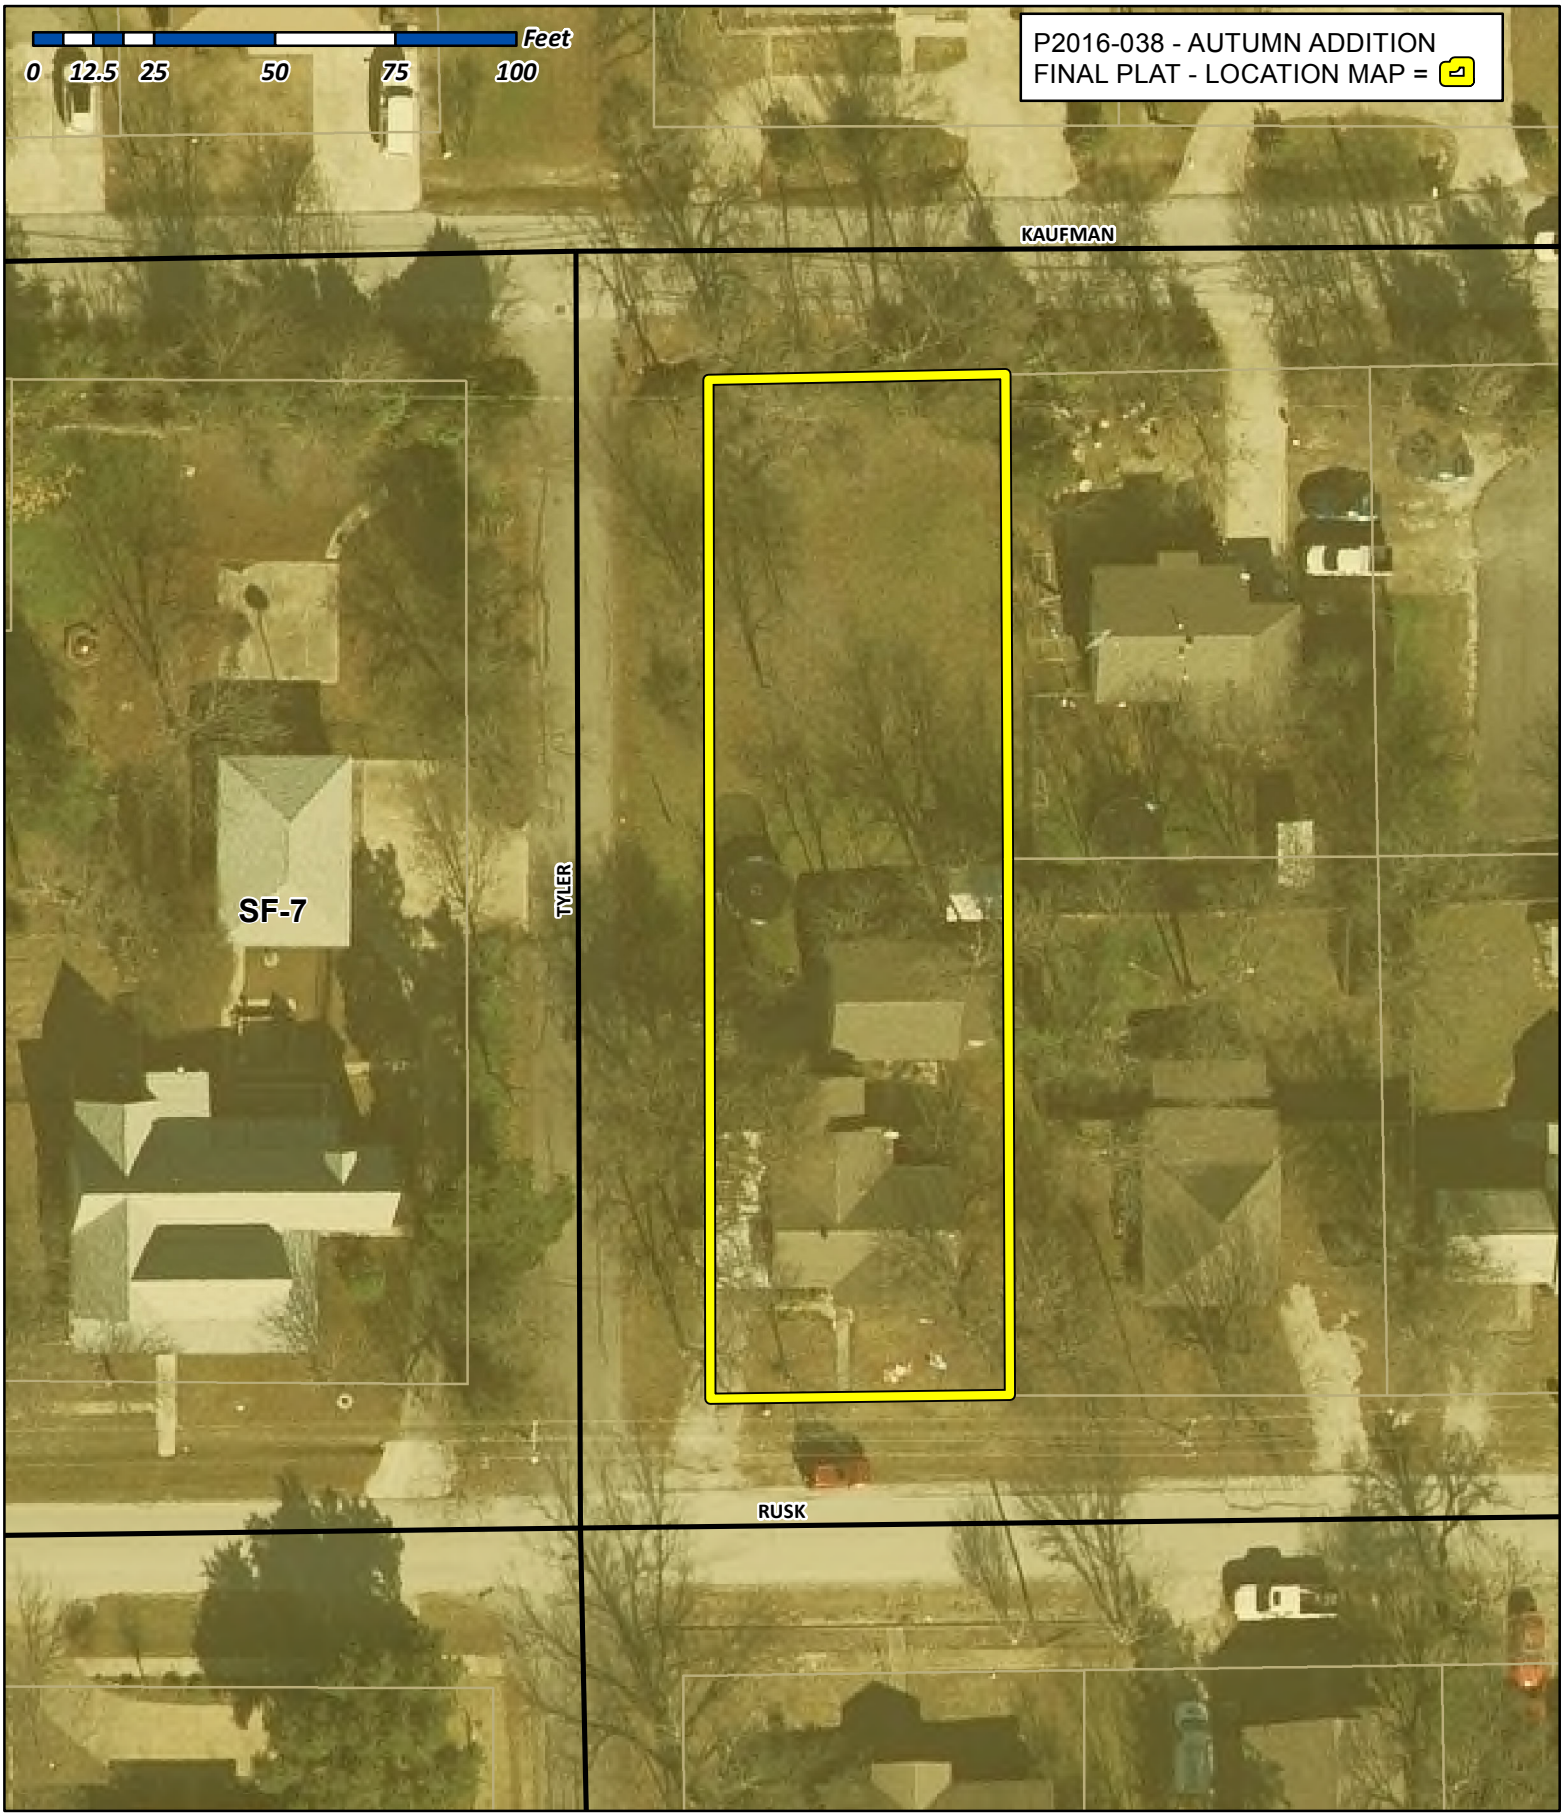
P2016-039 Autumn Addition Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This a request by Billy & Autumn Quinton for the approval of a final plat of Lots 1 & 2, Block A, Autumn Addition being a replat of a 0.35-acre tract of land identified as Lot 120, Block F of the B. F. Boydstun Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, addressed as 601 E. Rusk Street.

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2016-038) in the lower right hand corner of all pages on future submittals.



M.4 Please add lot and block designation to title block.

M.5 The rear setback is 10-feet. Since the building on the northwest corner of Lot 1 is not 10 feet from the rear property line, it must be removed.

M.6 Please provide the following comment in NOTES "It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.

I.7 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any

OWNER'S CERTIFICATE
(Public Dedication)

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS BILLY AND AUTUMN QUINTON, BEING THE OWNER OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

All that certain lot, tract or parcel of land situated in the B.F. BOYDSTUN SURVEY, ABSTRACT NO. 14, City of Rockwall, Rockwall County, Texas. and being a part of a tract of land as described in a Warranty deed from Martha Bess Snow to Joe T. Lofland, dated March 18, 1946 and being recorded in Volume 41, Page 93 of the Deed Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner at the intersection of the east right-of-way line of N. Tyler Street, a 50 foot right-of-way, and the north right-of-way line of E. Rusk Street, a 50 foot right-of-way, at the southwest corner of said Lofland tract of land;

THENCE N. 00 deg. 42 min. 37 sec. W. along the east right-of-way line of N. Tyler Street, a distance of 200.25 feet to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set in the south right-of-way of E. KAUFMAN STREET, a 50 foot right-of-way, for corner;

THENCE S. 88 deg. 48 min. 52 sec. E. along the south right-of-way of E. KAUFMAN STREET a distance of 75.63 feet to a 1/2" iron pipe found for corner at the northeast corner of said Lofland tract;

THENCE S. 00 deg. 31 min. 57 sec. E. along the east line of said Lofland tract, a distance of 200.00 feet to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner in the north right-of-way line of E. Rusk Street;

THENCE S. 88 deg. 59 min. 31 sec. W. a distance of 75.00 feet to the POINT OF BEGINNING and containing 15,065 square feet or 0.35 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as AUTUMN ADDITION, an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the subdivision have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Roc kwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I , my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exaction's made herein.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 09/13/2016

APPLICANT: Jay Maddox; *Maddox Survey*

AGENDA ITEM: **P2016-039**; *Lots 1 & 2, Block A, Burke Addition*

SUMMARY:

Discuss and consider a request by Jay Maddox of Maddox Survey on behalf of Casey & Andrea Burke for the approval of a final plat of Lots 1 & 2, Block A, Burke Addition being a 2.970-acre tract of land identified as Tract 19 of the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, situated within the Scenic Overlay (SOV) District, addressed as 1406 Ridge Road, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to final plat one (1) tract of land [*Tract 19 of the D. Atkins Survey, Abstract No. 1*] into two (2) parcels of land [*Lots 1 & 2, Block A, Burke Addition*] for the purpose of subdividing the tract of land into two (2) parcels.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for final plats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the *final plat* for *Lots 1 & 2, Block A, Burke Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *final plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

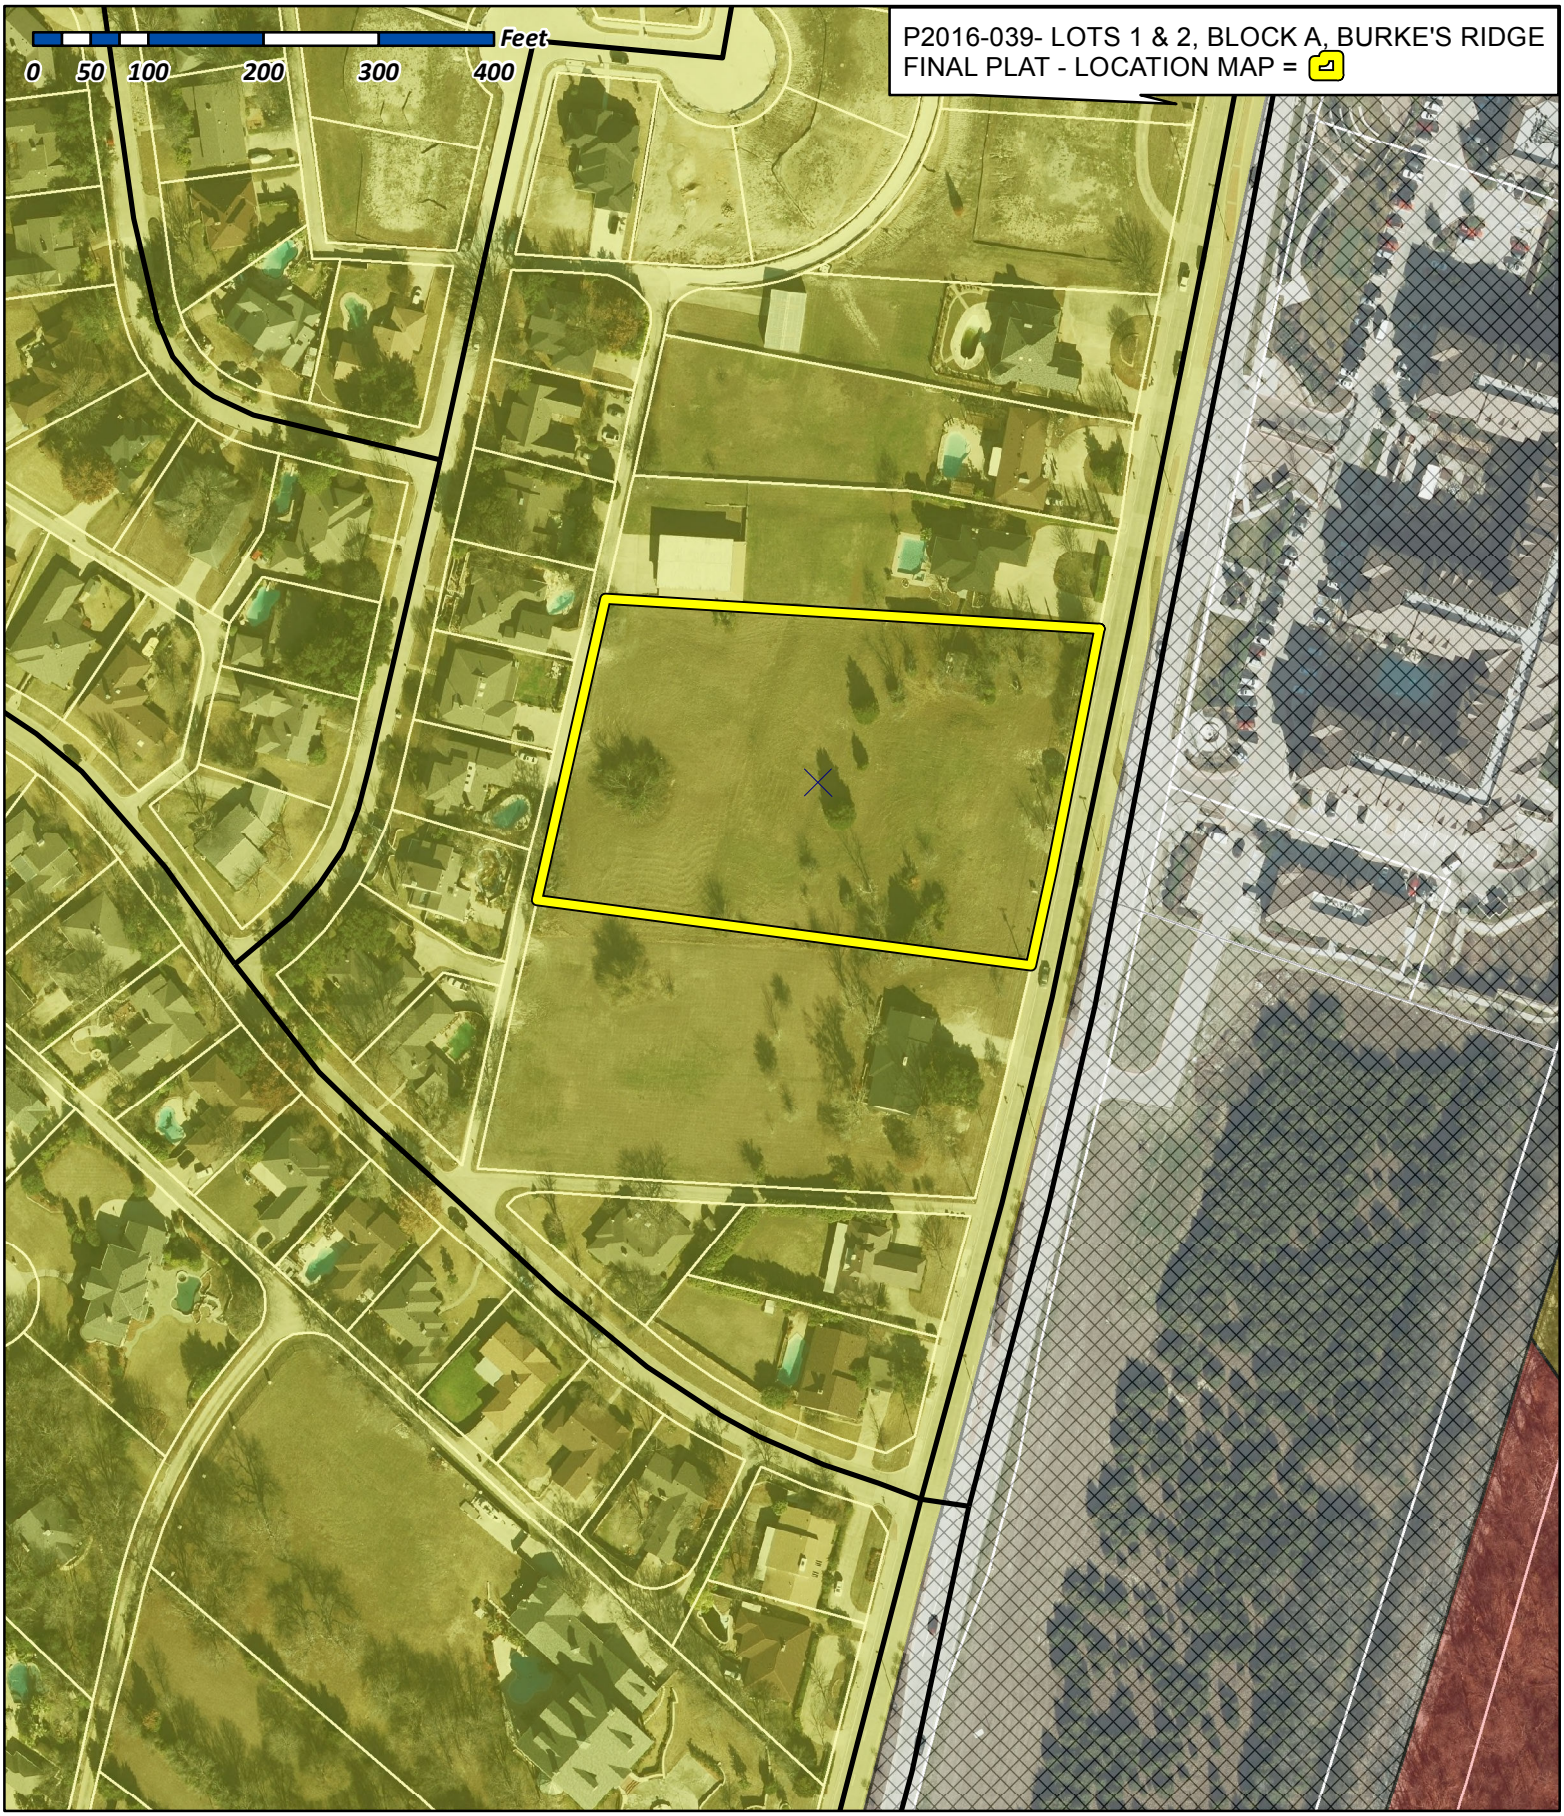
P2016-039 Burkes Ridge Please address the following comments (M= Mandatory Comments; I = Informational Comments).



I.1 This a request by Jay Maddox of Maddox Survey on behalf of Casey & Andrea Burke for the approval of a final plat of Lots 1 & 2, Block A, Burke Addition being a 2.970-acre tract of land identified as Tract 19 of the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, situated within the Scenic Overlay (SOV) District, addressed as 1406 Ridge Road.

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2016-039) in the lower right hand corner of all pages on future submittals.

I.4 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by September 7, 2016. The Park Board Meeting is September 7, 2016. The Planning & Zoning Worksession date for this case will be August 30, 2016. The Planning and Zoning Meeting for this case is September 13, 2016.

I.5 The City Council meeting date and subsequent approval for this plat is September 19, 2016.

OWNERS DEDICATION

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS }

COUNTY OF ROCKWALL }

That we the undersigned owner's of the land shown on this plat, and designated herein as **BURKE'S RIDGE** to the City of Rockwall, Texas, and whose name's are subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. we further certify that all other parties who have a mortgage or lien interest in the **BURKE'S RIDGE** have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall, or

until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We and our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

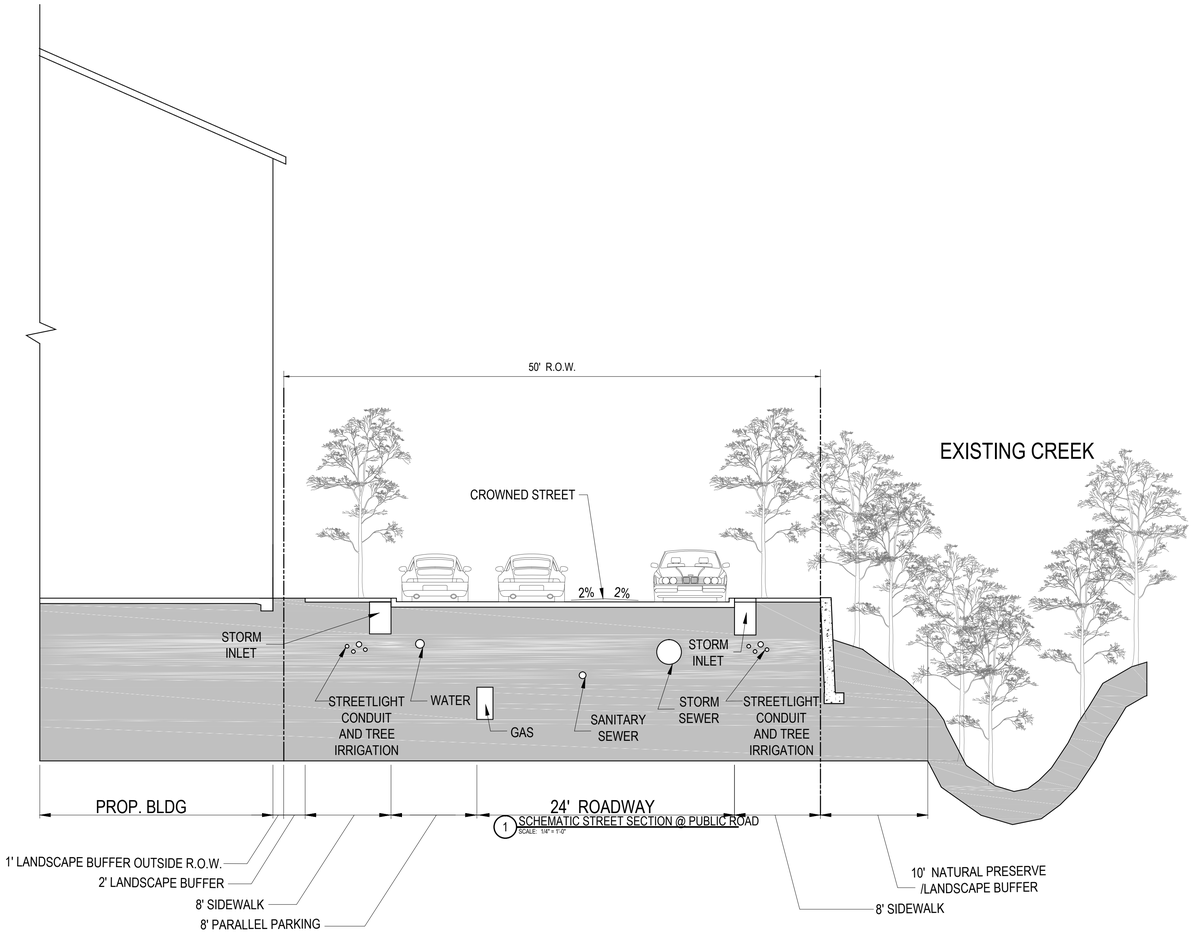
08-5-2016

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

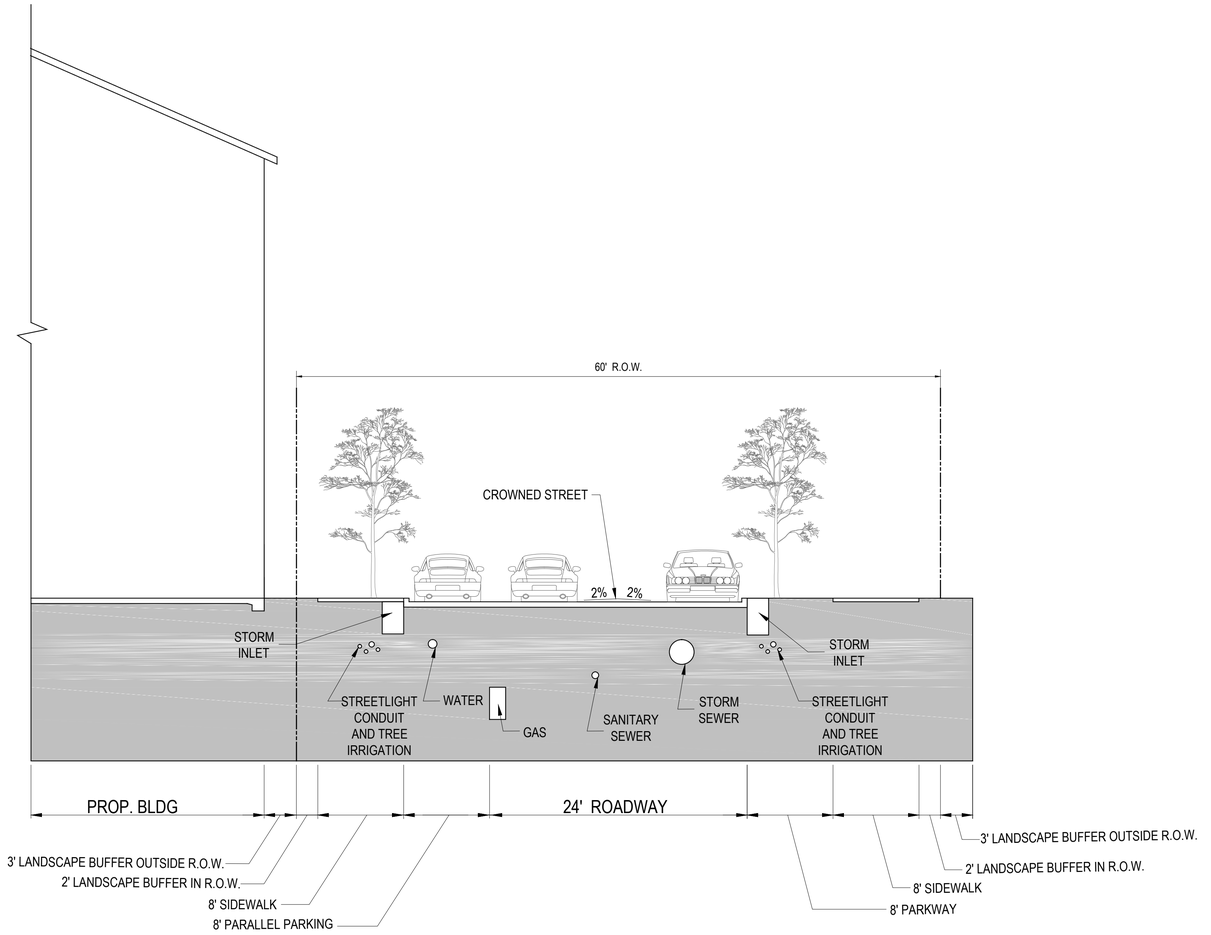
FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: September 13, 2016



SUBJECT: Z2016-025; *Harbor Urban Center Condominiums*

At the September 6, 2016, City Council meeting the applicant proposed a 50-foot street cross section in lieu of the 40-foot street cross section voted on at the August 30, 2016 Planning and Zoning Commission meeting. In response to this change, the City Council voted 6-0 to remand the case back to the Planning and Zoning Commission. As was discussed in past meetings, the applicant is requesting a *PD Development Plan* to change the required *Street Type 'G'* cross section contained in *Ordinance No. 10-21* (*i.e. Planned Development District 32 [PD-32]*). This street cross section calls for eight (8) foot sidewalks and parkways, a 24-foot travel lane and an eight (8) foot parallel parking lane in a 60-foot right-of-way. The new cross section proposed by the applicant proposes eight (8) foot sidewalks, a two (2) foot parkway (*on the northern/western side of the roadway*), a 24-foot travel lane and an eight (8) foot parallel parking lane in a 50-foot right-of-way. The applicant has stated that the adjacent creek inhibits the ability to provide the required street cross section; however, in the applicant's opinion -- *and as was stated at the September 6, 2016 City Council meeting* -- the proposed road section meets the intent of the ordinance because the creek area will be preserved as open space, which mitigates his inability to provide a wider parkway. A *side-by-side* comparison of the two (2) roadways is included in the attached packet.



Based on questions by the Planning and Zoning Commission and the adjacent property owner at the August 30, 2016 Planning and Zoning Commission meeting, staff has reviewed the proposed alignment of the roadway and determined that it does meet the alignment depicted on the *Streetscape Plan* contained in *Ordinance No. 10-21*. It should also be pointed out that the proposed alignment does not increase/change the adjacent property owner's responsibility for completing the roadway. Considering this, it should be noted that the only issue being addressed with the proposed *PD Development Plan* is the amended cross section for *Street Type 'G'*. Staff has included a copy of the proposed concept plan for reference. As was stated previously, since this request [*i.e. a request to modify an established street cross section*] does not fall under the waivers listed in *Section 9.C, Waivers of Design Standards*, of *Ordinance No. 10-21*, the waiver is considered to be an amendment to Planned Development District 32 (PD-32), and in accordance with the amendment process staff has prepared a draft ordinance for the Planning and Zoning Commission and City Council's review (*see attached draft ordinance*). In addition, according to *Ordinance No. 10-21*, "(w)aivers may only be approved by the City Council following a recommendation by the Planning and Zoning Commission … (i)n order to approve a waiver the City Council must find that the waiver:

(a) Meets the general intent of the PD District or Subdistrict in which the property is located; and,
(b) Will result in an improved project which will be an attractive contribution to the PD District or Subdistrict; and,
(c) Will not prevent the implementation of the intent of this PD District."

As was stated previously, this case is a discretionary decision for the Planning and Zoning Commission and City Council.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 32 (PD-32) [*ORDINANCE NO. 10-21*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A DEVELOPMENT PLAN FOR A 3.453-ACRE PORTION OF A LARGER 6.915-ACRE TRACT OF LAND IDENTIFIED AS LOTS 3A, 4A & 5A, ISAAC BROWN ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Jason Lentz of Atticus Real Estate on behalf of Atticus Rockwall, LLC for the approval of a PD Development Plan for a 228 unit, condominium development to be situated within the *Interior Subdistrict* of Planned Development District 32 (PD-32) on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That Planned Development District 32 (PD-32) [*Ordinance No. 10-21*] and the Unified Development Code [*Ordinance No. 04-38*], as heretofore amended, shall be further amended by amending the *Concept Plan* approved with *Ordinance No. 10-21* and the official zoning map of the City of Rockwall so as to approve a *PD Development Plan* for the *Subject Property*; and,

Section 2. That development of the *Subject Property* shall generally be in accordance with the *PD Development Plan*, depicted in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*; and,

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Concept Building Elevations*, depicted in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of

DRAFT 09.15.16

approval of the amended zoning classification for the *Subject Property*; and,

Section 4. That the *Subject Property* shall be used only in the manner and for the purposes provided for in Planned Development District 32 (PD-32) [*Ordinance No. 10-21*], the Unified Development Code [*Ordinance No. 04-38*], and in compliance with the following conditions and requirements:

1) The north/south public road connecting Summer Lee Drive to the southwest corner of the subject property shall be designed and constructed in accordance with the *Street Type 'G$_1$'* standards stipulated in *Exhibit 'D'* of this ordinance; and,

2) The minimum building setback adjacent to *Street Type 'G$_1$'* shall be one (1) foot; and,

3) Prior to the submittal of a final plat the applicant shall submit and seek approval of a detailed site plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and this ordinance, and with the guidelines contained in *Resolution No. 10-40*; and,

4) The building elevations submitted with the site plan will require a recommendation from the Architectural Review Board (ARB) prior to approval by the Planning and Zoning Commission (*and City Council if necessary*); and,

5) An open space master plan will need to be submitted with the site plan. The open space master plan will need to be reviewed by the Parks Board; and,

6) Prior to the issuance of a building permit, the applicant shall submit and seek approval of a final plat.

Section 5. The official zoning map of the City of Rockwall, Texas be corrected to reflect the changes in zoning described in this ordinance;

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City

DRAFT ORDINANCE 09.13.2016

Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 19TH DAY OF SEPTEMBER, 2016.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 09/13/2016

APPLICANT: Kevin Dale Wommack & Pamela McCollum

AGENDA ITEM: **Z2016-023;** 1970 Copper Ridge Circle (*SUP*)

SUMMARY:

Hold a public hearing to discuss and consider a request by Kevin Dale Wommack & Pamela McCollum for the approval of an amendment to Specific Use Permit (SUP) No. S-118 [Ordinance No. 14-02] to allow for an accessory building that exceeds the maximum size requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4952-acre tract of land identified as Lot 17, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1970 Copper Ridge Circle, and take any action necessary.

BACKGROUND INFORMATION

The applicants Kevin Dale Wommack and Pamela McCollum are requesting the approval of an amendment to Specific Use Permit (SUP) No. S-118 to allow for an accessory building that exceeds the maximum size requirements stipulated Article VI, *Permissible Uses*, of the Unified Development Code (UDC). On December 16, 2013, the City Council approved an SUP allowing for an accessory building that does not meet the exterior material requirements for a Single Family Estate (SFE-1.5) District. The current metal building is 22-feet by 31-feet or approximately or 682 sq. ft. The applicants are proposing to expand their current metal building by approximately 30-feet for a building footprint that is 22-feet x 62-feet or 1,364 sq. ft. With the expansion, the accessory building will be approximately 114 sq. ft. larger than the maximum size allowed in a SFE-1.5 District. According to the UDC, the maximum square footage for an accessory building in an SFE-1.5 District is 1,250 sq. ft.

NOTIFICATION:

On August 19, 2016, Staff mailed 36 notices to property owners and occupants within 500-feet of the subject property. Staff also notified the Lofland Farms and Timber Creek Estates HOAs, which are the only HOAs/Neighborhood Organizations that are within 1,500-feet of the subject property and participating in the notification program. Additionally, staff posted a sign on the subject property as required by the Unified Development Code (UDC). At the time this report was drafted, staff had not received any notices returned.

RECOMMENDATIONS:

Should the Planning and Zoning Commission and City Council choose to approve the SUP request, staff would offer the following conditions of approval:

1) The accessory building be subject to the operational conditions contained in the SUP ordinance, which are as follows:

    A. The accessory building shall generally conform to the approved site plan and building elevations depicted in Exhibits ‘A’ & ‘B’ of the attached ordinance.

B. The accessory building shall not exceed a maximum size of 1,364 square feet.

C. The accessory building is subject to administrative review in the event that the Subject Property is sold, conveyed or altered in any manner

2) Any construction or building necessary to complete this request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

SPECIFIC USE PERMIT NO. S-118

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [ORDINANCE NO. 04-38] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO AMEND SPECIFIC USE PERMIT NO. S-118 [*ORDINANCE NO. 14-02*] TO ALLOW FOR AN ACCESSORY BUILDING THAT EXCEEDS THE MAXIMUM SIZE REQUIREMENTS ON A 1.50-ACRE PARCEL OF LAND ZONED SINGLE FAMILY ESTATE 1.5 (SFE-1.5) AND IDENTIFIED AS LOT 17, BLOCK B, STERLING FARMS ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Kevin Dale Wommack and Pamela McCollum to amend Specific Use Permit No. S-118 [*Ordinance No. 14-02*] for the purpose of increasing the size of an existing accessory building situated on a 1.50-acre parcel of land, zoned Single Family Estate 1.5 (SFE-1.5) District, and being identified as Lot 17, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, addressed as 1970 Copper Ridge Circle, and being more specifically described in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] and *Ordinance No. 14-02* of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the enactment of this Specific Use Permit (SUP) Ordinance shall supersede all requirements stipulated in *Ordinance No. 14-02*;

Section 2. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit allowing for the establishment of an accessory building that exceeds the maximum size requirements and that does not conform to the minimum masonry requirements for accessory buildings in a Single Family Estate 1.5 (SFE-1.5) District as stipulated by *Article IV, Permissible Uses,* and *Article V, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

Section 3. That the *Subject Property* shall be used only in the manner and for the purposes described in this Specific Use Permit (SUP) ordinance and as specifically set forth in *Section 3.2, Single-Family Estate (SF/E 1.5) District, of Article V, District Development Standards,* of the Unified

DRAFT ORDINANCE 10.03.2016

Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by the granting of this zoning change, and as my be amended in the future, and shall be subject to the additional following conditions:

1) The accessory building shall generally conform to the approved site plan and building elevations depicted in *Exhibits 'A' & 'B'* of this ordinance.

2) The accessory building shall not exceed a maximum size of 1,364 square feet.

3) The accessory building is subject to administrative review in the event that the *Subject Property* is sold, conveyed or altered in any manner.

Section 4. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

Section 5. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

Section 6. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* (*$2,000.00*) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

Section 7. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

Section 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3RD DAY OF OCTOBER, 2016.

AGENDA ITEM: **Z2016-028**; *2001 Ridge Road (AG to C)*

SUMMARY:

Hold a public hearing to discuss and consider a request by Susan Gamez for the approval of a zoning change from an Agricultural (AG) District to Commercial (C) District on a 0.478-acre tract of land identified as Tract 7 of the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the Scenic Overlay (SOV) District, addressed as 2001 Ridge Road, and take any action necessary.

BACKGROUND INFORMATION AND PURPOSE:

The subject property is a 0.478-acre tract of land identified as 2001 Ridge Road, which is accessible off Ridge Road via Old County Road. The subject property was annexed into the City on September 26, 1960 by *Case No. A1960-004* (*Ordinance No. 60-04*), and was zoned Agricultural (AG) District. Currently, an existing single family home is situated on the subject property. The applicant is requesting to change the zoning of the subject property from an Agricultural (AG) District to a Commercial (C) District for the purpose of converting the existing single family home into a commercial business to accommodate a massage therapist office (*i.e. EveryBody Massage*).

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property are two (2) tracts of land zoned Agricultural (AG) District. The northern most parcel (*i.e. 2005 Ridge Road*) is currently occupied with a single family home. Beyond these parcels is the Spring Sports Complex owned by the Rockwall Independent School District (RISD) and is zoned Single Family 7 (SF-7) District.

South: Directly south of the subject property is a parcel of land (*i.e. 2135 Ridge Road*) zoned Commercial (C) District. This property is occupied by a multi-tenant retail/office building identified as Yellow Jacket Plaza. Beyond this property is the intersection of Ridge Road and W. Yellow Jacket Lane.

East: Directly east of the subject property is the parking areas for the Spring Sports Complex, which are zoned Commercial (C) District. Beyond this is W. Yellow Jacket Road, which is identified as a M4D (*i.e. minor collector, four [4] lane, divided roadway*) according to the City's Master Thoroughfare Plan. West of this thoroughfare is the parking area for Rockwall High School.

West: Directly west of the subject property is Old County Road and additional parking areas for Yellow Jacket Plaza, which are situated on a vacant 9.24-acre tract of land. The property is zoned Commercial (C) District.

UNIFIED DEVELOPMENT CODE:

According to the purpose statements stipulated in Section 4.5, *Commercial (C) District*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), "(t)he Commercial (C) District is established to provide adequate space and site diversification for most types of commercial development …" In addition, the district is intended to "… be the major retail district, with intensive commercial uses and large volumes of retail traffic." The UDC goes on to state that this designation is appropriate for properties that are situated on major collectors and arterials and should be adequately buffered from residential areas. With regard to land use, the UDC states that "(t)he uses specified in this district include most types of retail activity and some wholesale with the exception of those uses which are not compatible with the retail shopping function …" (*i.e. lumberyards, contractor yards, warehousing, and etcetera*). Staff has provided a list of the land uses permitted within the Commercial (C) District in the attached packet. In addition, the following is a summary of the minimum development standards for a property within a Commercial (C) District:

Ordinance Provisions	*Zoning District Standards*
Minimum Lot Area	*10,000 SF*
Minimum Lot Width	*60-Feet*
Minimum Lot Depth	*100-Feet*
Minimum Front Yard Setback	*15-Feet*
Minimum Rear Yard Setback	*10-Feet (0-Feet w/ Fire Rated Wall)*
Minimum Rear Yard Setback Adjacent to Residential	*20-Feet + (½ Height Greater than 36-Feet)*
Minimum Side Yard Setback	*10-Feet (0-Feet w/ Fire Rated Wall)*
Minimum Side Yard Setback Adjacent to Residential	*20-Feet + (½ Height Greater than 36-Feet)*
Maximum Height	*240-Feet (Greater Than 60-Feet Requires SUP)*
Max Lot Coverage	*60%*
Minimum Masonry Requirement	*90%*
Floor Area Ratio	*4:1*
Minimum Landscaping Percentage	*15%*
Maximum Impervious Coverage	*85-90%*

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The Future Land Use Map, adopted with the Comprehensive Plan, designates the subject property for *Medium Density Residential* land uses. Should the City Council approve the applicant's request, staff has included a condition of approval that would amend the Future Land Use Map to reflect the proposed change in land use from a *Medium Density Residential* designation to a *Commercial* designation.

STAFF ANALYSIS:

When looking at the applicant's request it should be noted that the proposed land use, a *Massage Therapist*, is permitted *by-right* in all commercial districts that fall under Section 4, *Commercial Districts*, of Article V, *District Development Standards*, of the UDC. These districts include the Residential-Office (RO), Neighborhood Service (NS), General Retail (GR), Commercial (C), Heavy Commercial (HC), and Downtown (DT) Districts. In addition, when taking into account the intent of the Commercial (C) District as stated above (*i.e. a major retail district with intensive commercial uses and large volumes of retail traffic*) and the fact that the applicant is seeking to repurpose an existing residential structure into a commercial business, the Planning and Zoning Commission and City Council may consider approving a more restrictive zoning classification (*e.g. Residential-Office [RO] or Neighborhood Services [NS] District*). This has been done with similar requests in Planned Development Districts 50, 53 & 69, all of which are zoned as Residential-Office (RO) Districts and which allow the requested use (*i.e. Massage Therapist*). This may also be an appropriate transition of uses from the residential adjacency north of the subject property to the commercial adjacency south of the

subject property. Staff should also note that this will not affect the requested changes to the Future Land Use Map, as all of the districts mentioned above fall under the *Commercial* designation.

Staff has asked the applicant if she would be open to accepting a more restrictive zoning designation as this could be advantageous to her intent, with regard to development standards when converting the existing structure. The applicant has stated a willingness to accept a more restrictive zoning classification if approved by the Planning and Zoning Commission and City Council. For reference staff has included in the attached packet a list of uses permitted within the Residential-Office (RO) District, as well as the districts purpose statements outlined in Section 4.2, *Residential Office (RO) District*, of Article V, *District Development Standards*, of the UDC. Specifically, it should be pointed out that the intent of the Residential Office (RO) District is for "…low intensity office development providing professional, medical and other office services…" and to allow existing residential houses to be "…converted from single-family and two-family residences to low-intensity office uses in order to extend the economic life of these structures…" With this being said, zoning changes are discretionary decisions for the City Council.

NOTIFICATION:

On August 19, 2016, staff mailed 13 notices to property owners and residents within 500-feet of the subject property. Staff also sent a notice to the Turtle Cove and Waterstone Homeowner's Associations (HOA), which are the only HOA's located within 1,500 feet of the subject property. Additionally, staff posted a sign along Ridge Road, which is the closest major roadway adjacent to the subject property as required by the Unified Development Code (UDC). At the time this case memo was drafted staff had not received any notices.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to change the zoning of the subject property from an Agricultural (AG) District to a Commercial (C) District then staff would propose the following conditions of approval:

1) By approving this zoning change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of the subject property from a *Medium Density Residential* designation to a *Commercial* designation; and,

2) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Z2016-028 2001 Ridge Road (AG to C):
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of a zoning change from Agricultural (AG) District to Commercial (C) District on a 0.478-acre tract of land identified as Tract 7 of the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the Scenic Overlay (SOV) District, and addressed as 2001 Ridge Road.
I.2 For questions or comments concerning this case, please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 For reference, include the case number (Z2016-028) in the lower right hand corner of all pages on future submittals.
I.4 The Future Land Use Map contained within the City's Comprehensive Plan indicates that the subject property is designated as Medium Density Residential. The proposed zoning does not conform to this designation and will require the City Council to amend the Future Land Use Map to reflect a Commercial designation.
I.5 Based on the submission City Staff would recommend that a less intense zoning (e.g. Residential Office [RO] District) be permitted on the subject property should the Planning and Zoning Commission and City Council choose to approve the request.
I.6 Please review the attached Draft Ordinance prior to the Planning & Zoning Meeting on September 13, 2016.
I.7 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on September 7, 2016; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the September 13, 2016 Planning & Zoning Meeting.
I.8 The projected City Council Meeting dates for this case are as follows: 1) First Reading, September 19, 2016 and 2) Second Reading, October 3, 2016.

Subject:	Neighborhood Noification Program: Notice of zoning request
Date:	Thursday, August 18, 2016 1:25:13 PM

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on June 3, 2016. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-028-Hold a public hearing to discuss and consider a request by Susan Gamez for the approval of a zoning change from an Agricultural (AG) District to Commercial (C) District on a 0.478-acre tract of land identified as Tract 7 of the D. Sec. 4.5. - Commercial (C) District.

A. *Purpose.*

1. The Commercial District is established to provide adequate space and site diversification for most types of commercial development in the City of Rockwall. Larger shopping centers and most of the existing commercial strips along major arterial roadways would be included in this district. The uses specified in this district include most types of retail activity and some wholesale with the exception of those uses which are not compatible with the retail shopping function. For example, lumberyards, contractor yards, and warehousing with high volumes of truck traffic and low volumes of retail type traffic are not included in this district.
2. This district will be the major retail district, with intensive commercial uses and large volumes of retail traffic. The noise, traffic, litter, late night hours, and other influences that could be harmful to residential areas require adequate buffering from residential areas, and the traffic from such uses should not pass through residential areas, except on arterial or major collectors.
3. Areas should not be zoned to this use unless they are located on or close to arterial or major collectors capable of carrying the additional traffic they will generate, and in areas where there is increased water, fire protection, wastewater and drainage capacity.
4. This zone is the general business zone, and it is intended that most commercial uses fall in this district, with the exception of the heavy commercial type uses. Since the zone is of a general nature, the development standards are less stringent and do not require as high a standard of development as the RO, NS and GR Districts.

B. *Permitted uses.* In general, any retail business, personal service, professional service, or business service conducted within a completely enclosed building, excluding high truck traffic uses, may be allowed. However, no building or land may be used, unless in accordance with the use tables and requirements in article IV, Permissible Uses.

C. *Development standards.*

1. Minimum site size: 10,000 square feet; one acre when adjacent to Interstate 30.
2. Minimum site frontage on a public street: 60 feet; 200 feet when adjacent to Interstate 30.
3. Minimum site depth: 100 feet; 200 feet when adjacent to Interstate 30.
4. Minimum depth of front yard setback: 15 feet from the future right-of-way as shown on the adopted thoroughfare plan or as actually exists, whichever is greater. Parking should not be located between the front facade and the property line.
5. Minimum width of side yard setback:

(Ord. No. 06-14, 4-17-2006)

a. Without fire retardant wall: ten feet, or as required by building and/or fire codes.
b. With fire retardant wall: zero feet.
c. Abutting residentially zoned property: 20 feet plus one-half the building height over 36 feet.

d. In no case shall more than a 50 foot setback be required.

6. Minimum depth of rear yard setback:
   a. Abutting nonresidentially zoned property, with fire retardant wall and alley separating: zero feet.
   b. Without fire retardant wall, or alley: ten feet, or as required by building and/or fire codes.
   c. Abutting residentially zoned property: 20 feet plus one-half the building height over 36 feet.
   d. In no case shall more than a 50 foot setback be required.
7. Minimum distance between detached buildings on the same lot or parcel of land:
   a. Without fire retardant wall: 15 feet.
   b. With fire retardant wall: zero feet.
8. Maximum building coverage as a percentage of lot area: 60 percent.
9. Maximum amount of impervious coverage as a percentage of lot area: 85 to 90 percent. See article VIII.5.12, Required Landscaping.
10. Minimum amount of landscaped area - all development shall comply with article VIII, Landscape Standards.
11. Maximum floor area ratio (FAR): 4:1 (FAR).
12. Maximum building height: 240 feet. Any structure over 60 feet shall require a specific use permit.
13. Minimum number of paved off-street parking spaces required: see article VI, Parking and Loading.
14. Maximum number of entrances and/or exits:
   a. Arterial streets: one per each 200 feet of street frontage per site, or as approved by the city council.
   b. Collector streets: one per each 100 feet of street frontage per site, or as approved by the city council.
   c. Local streets: one per each 50 feet of street frontage per site, or as approved by the city council.
15. Residential adjacency. Lots with nonresidential uses that have a side or rear contiguous or separated only by an alley, or easement or street, from any residential district must be separated from such residential district by a buffer as defined in article VIII, Landscape Standards, or as approved by the city council.
16. Building code. The building code may impose more restrictive development standards depending on the size, use and construction of the structures.

D. *Special standards.*

1. *Sale of goods.* All business establishments other than those selling a service, shall be retail or wholesale service establishments dealing directly with customers. All goods produced on the premises shall be sold on premises where they are produced.
2.

Business operations and storage. All business operations including storage shall be conducted within a completely enclosed building unless specifically authorized for the use as listed. This excludes off-street parking and loading, incidental display of retail items for sale, retail outlets where gasoline products are sold and drive-in businesses.

Sec. 4.2. - Residential Office (RO) District.

A. *Purpose.* The R-O District recognizes the existence of older residential areas of the city where larger houses have been or can be converted from single-family and two-family residences to low-intensity office uses in order to extend the economic life of these structures and allow the owners to justify the expenditures for repairs and modernization. The intent of this district is to allow for low intensity office development providing professional, medical and other office services to residents in adjacent neighborhoods. R-O districts shall have principle access to major or secondary thoroughfares and may serve as an area of transition between residential and high-intensity nonresidential uses or busy arterial thoroughfares

B. *Permitted uses.* In general, low intensity office development providing professional, medical and other office services to residents in adjacent neighborhoods, may be allowed. However, no building or land may be used, unless in accordance with the use tables and requirements in article IV, Permissible Uses.

C. *Development standards.*

1. Minimum lot area: 6,000 square feet.
2. Maximum lot area: 43,560 square feet.
3. Minimum lot frontage on a public street: 60 feet.
4. Minimum lot depth: 100 feet.
5. Minimum depth of front yard setback: 25 feet (from future right-of-way as shown on the adopted thoroughfare plan or as actually exists, whichever is greater) in those instances where an existing structure is converted into an office use.
6. Minimum width of side yard setback: ten feet, except if the adjacent property is predominantly residentially zoned or residentially used, in which case the setback shall be 20 feet.

(Ord. No. 06-14, 4-17-2006)

7. Minimum depth of rear yard setback: 30 feet.
8. Minimum distance between detached buildings on the same lot or parcel of land:
   a. Without fire retardant wall: 15 feet.
   b. With fire retardant wall: zero feet.
9. Minimum requirement for construction materials. For existing structures, no change to exterior walls shall be required. For new structures, each exterior wall shall consist of 90 percent masonry material excluding doors and windows.
10. Maximum building coverage as a percentage of lot area: 40 percent.
11. Maximum floor-area ratio (FAR): 0.33 FAR.
12. Maximum amount of impervious coverage as a percentage of lot area: 75 to 80 percent.
13. Minimum amount of landscaped areas: all development shall comply with article VIII, section 5.12, Required Landscaping.

Amenity open space: seven percent of the interior of the parking lot, not including the setback and buffer development standards, shall be previous land area in association with plantings.

14. Maximum building height: 36 feet.
15. Minimum number of paved off-street parking spaces required: see article VI, Parking and Loading. Off-street parking shall not be permitted in the required setback in this district.
16. Maximum number of entrances and/or exits:
    a. Arterial streets: one per each 200 feet of street frontage per site, or as approved by the city council.
    b. Collector streets: one per each 100 feet of street frontage per site, or as approved by the city council.
    c. Local streets: one per each 50 feet of street frontage per site, or as approved by the city council.
17. Residential adjacency. Lots with nonresidential uses that have a side or rear contiguous or separated only by an alley, or easement or street, from any residential district must be separated from such residential district by a buffer as defined in article VIII, Landscape Standards, or as approved by the planning and zoning commission.
18. Building code. The building code may impose more restrictive development standards depending on the size, use and construction of the structures.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A CHANGE IN ZONING FROM AN AGRICULTURAL (AG) DISTRICT TO A COMMERCIAL (C) DISTRICT ON A 0.478-ACRE TRACT OF LAND IDENTIFIED AS TRACT 7 OF THE D. ATKINS SURVEY, ABSTRACT NO. 1, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, AND BEING MORE SPECIFICALLY DESCRIBED IN *EXHIBITS 'A', 'B', & 'C'* OF THIS ORDINANCE; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Susan Gamez for a change in zoning from an Agricultural (AG) District to a Commercial (C) District on a 0.478-acre tract of land identified as Tract 7 of the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A', 'B', & 'C'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, Texas, as heretofore amended, be and the same are hereby amended by amending the zoning map of the City of Rockwall so as to change the zoning of the *Subject Property* from an Agriculture (AG) District to a Commercial (C) District; and

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes provided for a *Commercial (C) District* in *Section 1.1, "Use of Land and Buildings,"* of *Article IV, "Permissible Uses"* and *Section 4.5, "Commercial (C) District",* of *Article V, "District Development Standards",* of the *Unified Development Code* of the City of Rockwall as heretofore amended, as amended herein by granting of this zoning change, and as maybe amended in the future;

Section 3. That the official zoning map of the City be corrected to reflect the changes in the zoning described herein.

Section 4. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of two thousand dollars ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

DRAFT ORDINANCE 10.03.2016

Section 5. If any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code of the City of Rockwall, Texas, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable.

Section 6. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be and the same are hereby repealed, and all other ordinances of the City of Rockwall not in conflict with the provisions of this ordinance shall remain in full force and effect.

Section 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 3RD DAY OF OCTOBER, 2016.

DRAFT 10/6/2016

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 09/13/2016

APPLICANT: Jimmy Strohmeyer of *Strohmeyer Architects Inc.*

AGENDA ITEM: **Z2016-029;** Retail Store with Gasoline Dispensers – SUP

SUMMARY:

Hold a public hearing to discuss and consider a request by Jimmy Strohmeyer of Strohmeyer Architects on behalf of D. W. Bobst of J-BR2, LLC for the approval of a Specific Use Permit (SUP) to allow a retail store with more than 2 gasoline dispensers on a 2.59-acre tract of land being a portion of a larger 7.32-acre tract of land identified as Tract 17-12 of the W. W. Ford Survey, Abstract No. 80, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated at the southwest corner of the intersection of SH-205 [*S. Goliad Street*] and FM-549, and take any action necessary.

BACKGROUND INFORMATION:

The applicant is requesting the approval of a Specific Use Permit (*SUP*) to allow a retail store with more than two (2) gasoline dispensers on a 2.59-acre tract of land being a portion of a larger 7.32-acre tract of land located at the southwest corner of the intersection of SH-205 and FM-549. The property is currently zoned as General Retail (GR) District. According to the Section 1.1, *Use of Land and Buildings*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), a retail store with more than two (2) gasoline dispensers requires a Specific Use Permit (*SUP*) in a General Retail (GR) District.

As part of the Specific Use Permit (*SUP*) submittal, the applicant has submitted a conceptual site plan indicating a 5,600 sq. ft. retail store with eight (8) fuel dispensers. *The number of fuel dispensers requested would allow for a maximum of 16 vehicles being serviced at any one time.* The site will be accessed from SH-205 and FM-549, providing two (2) points of ingress/egress. If approved, the applicant will be required to submit a site plan and replat the property.

Included in your packet is the applicant's concept plan indicating the location of the proposed site in relation to the overall boundary of the property and a more detailed concept plan indicating the proposed gas station layout. As a note, a request for an *SUP* is a discretionary decision for the Planning and Zoning Commission and the City Council.

NOTIFICATION:

Staff mailed eleven *(11)* notices to property owners and residents within 500 feet of the subject property. Staff also notified one *(1)* HOA/Neighborhood Organization *(Oaks of Buffalo Way)* that is within 1,500 feet participating in the notification program. Additionally, staff posted a sign on the property as required by the Unified Development Code *(UDC).* At the time this report was drafted, staff has received two (2) notices *"opposed to"* the zoning change request.

RECOMMENDATIONS:

Should the Specific Use Permit be approved, staff would offer the following conditions:

1. The development must meet all Fire Department, Building Inspections, and Engineering standards.

2. Submittal and approval of a site plan and final plat (mylars in house for filing purposes) are required prior to the issuance of a building permit.

3. The development shall be limited to a maximum of eight (8) gasoline dispensers as depicted on the Concept Site Plan.

4. No outside display of merchandise or outside storage shall be permitted on the subject property, with the exception of the following items (if approved by the Planning and Zoning Commission during the site plan phase): ice machine, propane cage, and/or DVD rental kiosk.

5. The City Council reserves the right to review the Specific Use Permit granted herein upon the expiration of one (1) year from the date hereof.

6. Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Subject: Case No. Z2016-029: 205 & 549

David,

I am writing regarding the SW corner of 205 & 549. We own the 264 acres SW of and adjacent to the subject property. I am both in favor and opposed to the proposal. I am in favor of commercial development at this site. I believe that one day soon this will be a major commercial intersection, and in turn help support major residential development south of Interstate 30. That said, I do not believe that a freestanding gas station is the highest and best use of this property, nor would it encourage larger, more significant commercial projects in this area.

I believe that it is NOT the city councils responsibility to limit market growth, but it IS their responsibility to insure that the growth that is occurring happens in a high quality manner that allows the best benefits the entire Rockwall community and tax base.

Please provide these comments to the City Council as part of the public hear process.

Thanks you.

Sincerely,

Scott Asbury

Mrs. Morales,
I live in the Oak's of Buffalo Way subdivision. I was just informed that there is a meeting to discuss putting a gas station on the corner of 549 and 250. I am against this, because there is so much traffic on these two roads already. We can hardly get in and out of our subdivision now. I don't know if you have been on 205 in the mornings or after 5 in the evenings but cars are lined up for a mile or more. Sometimes in the middle of the day we have to sit at three lights before we can turn down 549 to get into our neighborhood. The traffic down these two roads are backed up due to not enough lanes to flow. A gas station here would cause accidents because we don't even have turning lanes. The lanes down at this end of 205 only have one lane on each side. When I sit at 205 coming from Lakeshore church to my neighborhood I have to turn left and there is no turning lane so the people that are behind me pass me on the shoulder doing at least 50 or 60 miles an hour and this is dangerous. The eighteen wheelers pass me doing this speed too. We have had several wrecks at this intersection. Putting a gas station here would cause more congestion and wrecks. The roads are not spread out enough for growth on this end right now. I ask that you please vote against this gas station being put on the corner. I would like to have more upscale things down 205 rather then car washes, gas stations, nail salons, and donut shops. It would be great to make 205 like a Legacy Drive with nice restaurants when the roads are widened. Maybe an upscale grocery store like Central Market again when all the roads are widened. We need upscale things here so that we as taxpayers will not have to pay the high taxes that were dumped on us this year. I wanted to retire here, but I may have to move because of the tax increases.
Thank you for all your time in this matter and I appreciate you taking the time to read my email.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 09/13/2016

APPLICANT: Tim Seymore of *Seymore Custom Homes, LLC*

AGENDA ITEM: **SP2016-016;** Commercial/Industrial Facility – *496 National Drive*

SUMMARY:

Discuss and consider a request by Tim Seymore of Seymore Custom Homes, LLC on behalf of James & Robin Meade for the approval of a site plan for the construction of a commercial/industrial building on an existing 2.02-acre commercial/industrial facility identified as Tract 2-22 of the J. R. Johnson Survey, Abstract No. 128, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, addressed as 496 National Drive, and take any action necessary.

PURPOSE:

The applicant is requesting approval of a site plan for the purpose of constructing a 3,600 sq. ft. building that will serve as an additional facility (*for storage purposes*) to an existing ~6,000 sq. ft. building. An amendment to the site plan is required due to the proposed building exceeding 50% of the size of the existing building. The applicant is proposing the new facility to be constructed with 100% metal panels on the exterior. This will require approval of an exception to the exterior material requirements and has been added as a condition of approval. The property is a 2.02-acre parcel of land that is zoned Heavy Commercial (HC) District and is addressed as 496 National Drive.

DENSITY AND DIMENSIONAL REQUIREMENTS:

The proposed storage facility is permitted by right on the subject property. The existing site has a total of 12 parking spaces and requires one (1) additional space. The applicant is requesting a variance to allow for the 12 existing spaces rather than provide an additional space due to the buildings' use as a storage facility. The applicant has stated that the owner is not expanding their existing work force, which eliminates the need for the additional parking space. This variance has also been included as a condition of approval.

Aside from the exterior material exceptions, the variance to the parking standards, and the conditions listed in the *Recommendations* section of this report, the submitted site plan and building elevations are in substantial compliance with the technical requirements contained within the Unified Development Code (UDC).

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*12,500 sq. ft.*	*2.02-Acres; In Conformance*
Minimum Lot Frontage	*100-Feet*	*x=350-Feet; In Conformance*
Minimum Lot Depth	*125-Feet*	*x=250-Feet; In Conformance*
Minimum Front Yard Setback	*25-Feet*	*x>25-Feet; In Conformance*
Minimum Rear Yard Setback	*0-Feet*	*x=10-Feet; In Conformance*
Minimum Side Yard Setback	*0-Feet*[1]	*x=25-Feet; In Conformance*
Maximum Building Height	*60-Ft w/o SUP*[2]	*16-Feet; In Conformance*
Max Building/Lot Coverage	*60%*	*X<60%; In Conformance*
Minimum Masonry Requirement	*90%*	*100% Metal Wall Panels; Exception Request*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Floor Area Ratio	*4:1*	*x<4:1; In Conformance*
Minimum Number of Parking Spaces	*13*	*12 Provided;* *Variance Requested*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*	*100% Metal Wall Panels;* *Exception Request*
Minimum Landscaping Percentage	*15%*	*x>15%; In Conformance*
Maximum Impervious Coverage	*85 to 90%*	*<85%; In Conformance*

NOTES: 1. With fire retardant wall: zero feet plus one-half of the building height over 36 feet.
2. Maximum building height: 240 feet. Any structure over 60 feet shall require a specific use permit.

EXCEPTION AND VARIANCE REQUESTS:

The applicant is requesting exceptions and a variance to the Unified Development Code (*UDC*) for the sections outlined below. As a note, an exception request to the UDC requires passage of a simple majority vote of those City Council members present. The code reads as follows:

Exterior walls. *Each exterior wall shall consist of 90 percent masonry materials as defined in article XIII…on walls which are visible from a public street or open space, including a minimum of 20 percent stone.*

All buildings shall have exterior walls constructed of stone, brick, glass block, tile, cast metal, cast or cultured stone, or a combination of those materials. The use of other cementaceous products (e.g., stucco, Hardy Plank, or other similar materials) shall be limited to 50 percent of the building's exterior finishes…

Exceptions to this requirement may be permitted on a case by case basis by the council upon submission and approval of elevation drawings of the subject structure, and material samples.

The applicant is requesting the following exceptions to the exterior materials:

a. *Article V, Section 4.1.A.1 General Commercial District Standards* – An exception to allow for not meeting the 90% (*exterior*) masonry material requirements by allowing 100% metal wall panels for all elevations as submitted.

b. *Article V, Section 4.1.A.1 General Commercial District Standards* – An exception to allow for not meeting the 20% stone requirements by allowing 100% metal wall panels for all elevations as submitted.

Sec. 2.3. - Expansion of an existing use. *If any building, improvement, or use of land is expanded, the provisions for parking and loading shall be provided for the portion of land use and/or building that has been added. The required parking for is calculated as:*

Existing Nonconforming Building:

1 space per 300 sq. ft. of existing office space = 1,800 sq. ft./300 = 6 spaces
1 space per 1000 sq. ft. of warehouse/storage – 4,200 sq.ft./1,000 = 4 spaces
*** Existing parking spaces = 12 ***

New Facility:

1 space per 1000 sq. ft. of warehouse/storage – 3,600 sq. ft./1000 = 3 spaces

Total Spaces Required = 13 Spaces

The applicant is requesting the following exception to the Off Street Parking Standards.

c. *Article VI, Section 5.1 Off Street Parking Requirements* – A variance to allow for not meeting the minimum off street parking requirement by continuing the use of the 12 existing spaces rather than providing for the additional space.

A request for an exception to the exterior material requirements and variance to the parking requirements are discretionary decisions for the City Council.

RECOMMENDATIONS:

The site plan submitted by the applicant meets all the technical criteria stipulated by the Unified Development Code (UDC) with the exception of the items listed above. Should the Planning and Zoning Commission choose to approve the applicant's request, then the following conditions of approval should be adopted with this case:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) Approval of the exterior material exceptions by the City Council to allow for a 100% metal structure as outlined in this report.

3) Approval of a variance to the off street parking requirements by the City Council to allow for not meeting the off street parking requirements and to continue the use of the 12 existing parking spaces as outlined in this report.

4) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Discuss and consider a request by Tim Seymore of Seymore Custom Homes, LLC on behalf of James & Robin Meade for the approval of a site plan for the constructior of a commercial/industrial building on an existing 2.02-acre commercial/industrial facility identified as Tract 2-22 of the J. R. Johnson Survey, Abstract No. 128, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, addressed as 496 National Drive, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, September 7, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans (if required) and a Final Plat (plat must be filed) prior to issuance of a Certificate of Occupancy (CO).
3. Label site plan documents with "Case No. SP2016-016" at the lower right corner of each plan.
4. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department.

EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:

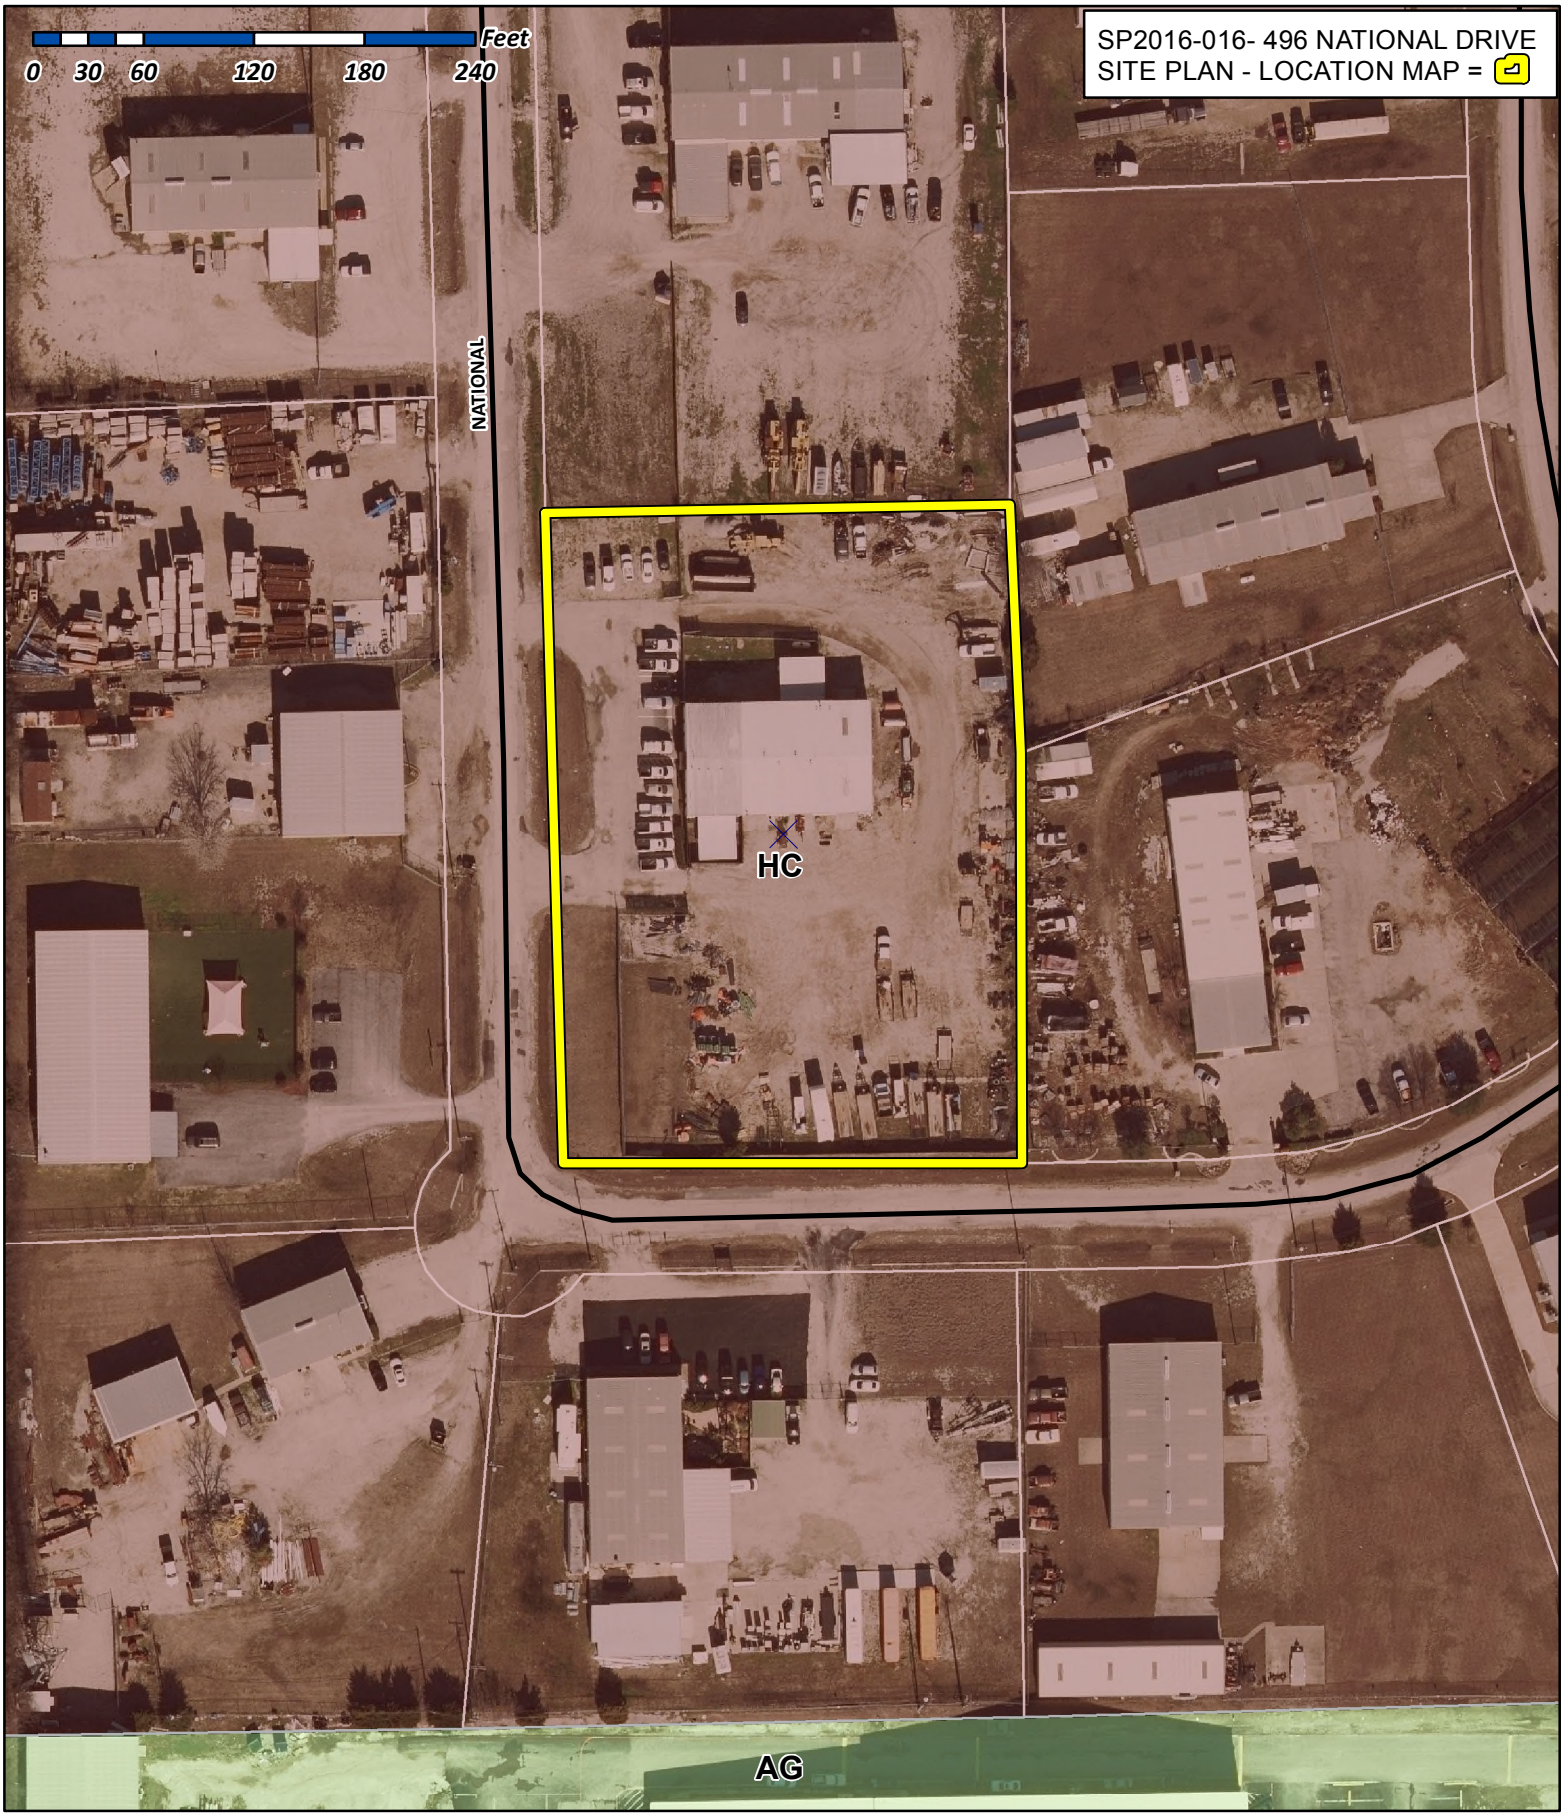
1. Art V, Sec. 4.1.A.1 requires each exterior wall to consist of 90% masonry materials,..., including 20% stone on walls which are visible from a public street or open space. North, South, East & West elevations require a minimum 20% stone and do not meet this standard.
2. Art V, Sec. 4.1.A.1 requires each exterior wall to consist of 90% masonry materials,..., on walls which are visible from a public street or open space. North, South, East & West elevations do not provide a minimum 90% masonry material and exceed 10% secondary materials with the use of metal wall panels.

** Approval of exceptions to the exterior materials requested requires passage by a simple majority vote of City Council. **

Please addressthe following Planning Comments for each plan submitted:

Site Plan:
1. UDC, Article VI Parking and Loading, Sec. 2.3. - Expansion of an existing use - If any building, improvement, or use of land is expanded, the provisions for parking and loading shall be provided for the portion of land use and/or building that has been added. Provide floor plan of the existing building for determination of additional parking spaces required. The proposed (storage) structure requries a minimum of 3 spaces (1:1000).
2. Remove semi-circles from site plan.

Landscape Plan:
1. Are you providing any (additional) landscapeing?



Photometric Plan:
1. Will there be any additional exterior lighting (wall packs, poles, etc.) for the proposed building/site? If so, please provide a photometric plan for the new lighting fixtures meeting city standards.
2. Additional lighting pole standards are not to exceed a maximum overall heightof 30-ft (includes pole, base, fixtures, etc.) per the UDC standards. Provide detail.
3. Provide cut sheets for all exterior lighting fixtures (e.g. pole lights, wall packs, etc.)
4. Any additional lighting sources are to be directed down and sheilded with a full cut-off or partial cut-off source and a maximum 1 inch reveal in order to control glare.
5. Maximum lighting intensity at the property line is not to exceed 0.2-FC. Resubmit photometric plan and indicate readings to all property lines and in compliance with UDC (i.e. 0.2-FC)

Building Elevations:
1. What type of metal wall paneling is being used for the exterior of the proposed structure?
2. Approval of the exceptions to the exterior material standards is required by the City Council as indicated above.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:Planning - Work Session: August 30, 2016 (6:00 p.m.) [Applicant to provide presenation and discuss project]
Planning - Action: September 13, 2016 (6:00 p.m.) [P&Z to take action (i.e. approve, approve with conditions, or deny)

City Council - Action: September 19, 2016 (6:00 p.m.) [FOR EXCEPTION REQUESTS ONLY]

Subject: Re: P&Z Meeting Tonight - National Drive

As per our conversation yesterday you told me that we need one more parking spot to make the building work. My property owner wants to ask for a variance on the extra parking space. He has adequate parking for office personnel and the additional building is not for added employees, it is for equipment storage only.
Thanks, Tim

David,
Will this work for the floor plan of the existing building at 496 National Dr. You said you needed this to calculate parking spaces. There are 12 spaces in front of the building and 6 spaces over to the side front. There is a lot of parking around the building behind the fence. Let me know if you need something other than this.

Mr. Seymore,

Please find attached staff comments for your project in Rockwall. The Planning and Zoning Commission will conduct a work session tonight, Tuesday, August 30th. The meeting will begin at 6:00 p.m. in the City's Council Chambers. You and/or your representative will present your project to the Commission and answer questions they may have regarding the project. If you have any questions prior to the meeting, please let me know.

Thank you,

Typical Roof Ridge

Typical Roof Overhang

BASE DETAIL AT SHEETING LEDGE

GENERAL NOTES

1. Unloading, handling and proper storage of the Stee. Building package is the responsibility of the Erector and/or End User. Roof and wall panels must be kept dry prior to installation. Elevating one end of panel bundles is recommended to encourage drainage in case of rain.

2. Any and all damaged or shorted materials are to be reported within 24 hours of unloading. Check all materials with the Bill of Materials.

3. Unloading of Building Materials should be done with the appropriate lifting equipment such as crane, forklift or Skytrac due to the heavy nature of the parts involved.

4. All bracing, strapping and bridging shown on the erection drawings for this building is a requirement. They shall be installed by the Erector as a permanent part of the structure. It is the responsibility of the Erector to determine and provide temporary bracing to secure the building during the erecting process until permanent bracing can be installed.

5. Claims for correction of alleged misfits will not be allowed unless Southwest Metal Systems has received prior notice thereof and is allowed reasonable time to inspect such alleged misfits. The correction of minor misfits by the use of drift pins to draw the components in line, moderate reaming, shipping and cutting and the replacement of minor shortages of materials are a normal part of the erection process and are not subject to claim. No part of the building may be returned for alleged misfits without the prior approval of Southwest Metal Systems.

6. Jobsite safety is a priority. Erector are to wear OSHA approved hard hats, safety glasses, safety harnesses, gloves and steel toe boots at all times. Fall protection must be provided during roof and wall panel installation. OSHA guidelines and regulations are to be followed in all phases of building erection.

7. Foundation design by others. Anchor bolts shall be set accurately to a tolerance of +/- 1/8" in both elevation and location. All column base plates are set at finish floor elevation unless noted otherwise.

8. Wall insulation if required, is to be kept a minimum of 1 1/2" from the bottom of the wall panel to avoid "wicking" up behind the wall panel.

9. Closure Strips are provided at roof application only (Unless noted on drawings). Inside closure provided at roof eave only when insulation is NOT provided. See details for additional closure applications.

10. Southwest Metal Systems assumes no responsibilities or liabilities for delays or stock charges caused by deliveries not arriving on time.

11. Metal filings and shavings created from the fastener drilling process are to be cleaned off of the roof and wall panels the same day of panel installation. Failure to do so will void the panel's warranty, as metal filings and shavings will rust and damage the finish of the roof and wall panels.

12. Roll Sealant (tacky tape) required on all roof panel laps for roof with slopes of 3:12 and lower.

13. These Drawings are Erection Drawings Only. They are not Construction Documents.

14. Wall panels must be installed with 1 4" clearance from Concrete foundation. Failure to do so voids Wall Panel Warranty.

15. Insulation at base of wall shall be installed in such a manner that does does allow moisture wicking. Fold insulation liner as shown on Base Detail. Failure to do so Voids Wall Panel Warranty.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 09/13/2016

APPLICANT: Rex Walker of *Life Springs Church*

AGENDA ITEM: **SP2016-017;** Life Spring Church – Amended Site Plan

---

SUMMARY:

Discuss and consider a request by Rex Walker of Life Springs Church for the approval of an amended site plan for a church on a seven (7) acre portion of a larger 28.881-acre tract of land identified as Tract 15-01 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 By-Pass Corridor Overlay (SH 205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of John King Boulevard and SH-205, and take any action necessary.

PURPOSE:

The property is zoned *Agricultural (AG) District* and was granted a Specific Use Permit [*SUP Ord. No. 15-21*] on August 3, 2015 to allow for a *Church* development on the seven (7) acre portion of the larger 28.811-acre tract of land. The property is also within the *SH-205 By-Pass Corridor Overlay* (SH205 BY-OV) *District* and is generally located on the north side of John King Boulevard, east of the intersection of John King Boulevard and SH-205.

The applicant is requesting approval of an amended site plan for the purpose of revising the approved elevations by reducing the 25,433 sq. ft. building to a 16,839 sq. ft. building. The applicant will be modifying the exterior appearance of the rear (east) elevation by reducing the massing of the tower elements and by changing the roof to slope towards the rear of the property for drainage purposes. Also, the applicant is proposing to change the front (west) elevation by replacing the standing seam metal roof element (atop the facility) with a stucco parapet wall. If approved, the site plan will indicate the ~6,000 sq. ft. vacated area as '*future expansion'* of the *Church* facility.

VARIANCE REQUESTS:

1. The applicant is requesting a variance to the *Unified Development Code*, *Article V, Section 4.1 General Commercial District Standards*, to allow for not meeting the Horizontal Articulation requirements as established in *Art. V, Sec. 4.1, C.1.a*. and as depicted in the Building Elevations as submitted. The code reads as follows:

C. *Building articulation.*

1. *Requirements.* Facades shall meet the following minimum standards for articulation:

a) *Horizontal articulation.* No building wall shall extend for a distance equal to three times the wall's height without having an offset of 25 percent of the wall's height, and that new plane shall extend for a distance equal to at least 25 percent of the maximum length of the first plane.

Although the applicant has provided contrasting elements depicting offsets for the north, south and east elevations, the offsets do not meet the technical definition for horizontal articulation. It should be noted that the applicant received approval of the same variance on August 17, 2015 [*Case No. SP2015-016*]; however, due the substantial change of the elevations, the applicant is required to make the request for not meeting the technical standards for horizontal articulation once again. The variance requires an approval by a simple majority vote of all council members.

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:

On August 30, 2016, the Architectural Review Board (ARB) reviewed the proposed amended building elevations for the site. General discussion concerning the agenda item took place between the Board Members and city staff. The board expressed concern with the metal panels being used for the rear elevation. They also expressed concern for the lack of horizontal and vertical articulation based on the changes presented.

To address these concerns the board recommended that the applicant not use the metal panel located at the rear, rather use the original building materials that were approved, including the pilasters to give the appearance of horizontal articulation. The board also recommended the applicant add the tower elements back to the rear elevation to provide vertical articulation.

Based on the revised elevations re-submitted, the applicant appears to have met the ARB's recommendations; however, the ARB has requested to review the elevations at the September 13, 2016 meeting in order to provide a recommendation to the Planning and Zoning Commission.

RECOMMENDATIONS:

The amended site plan submitted by the applicant meets all the technical criteria stipulated by the UDC and SH205 BY-OV, with the exception of the variances requested and the items listed below. Should the Planning and Zoning Commission choose to approve the applicant's request, then the following conditions of approval should be adopted with this case:

1) All comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit and to include the following Planning comments;

    a. Approval of the variances requested from the City Council for not meeting the horizontal articulation standards of the *Unified Development Code* as noted in this report.

2) Any construction or building necessary to complete this *Site Plan* request must conform to the requirements set forth by the UDC, the 2009 International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Discuss and consider a request by Rex Walker of Life Springs Church for the approval of an amended site plan for a church on a seven (7) acre portion of a larger 28.881-acre tract of land identified as Tract 15-01 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 By-Pass Corridor Overlay (SH 205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of John King Boulevard and SH-205, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, September 7, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Label revised site plan documents with "Case No. SP2016-017" at the lower right corner of each plan.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

VARIANCES AND EXCEPTIONS FOR CITY COUNCIL TO CONSIDER:

* 1. Art V, Sec. 6.10.C.1 of the SH 205 BY OV (and the UDC) requires each exterior wall to consist of 90% masonry materials,..., including 20% stone on walls which are visible from a public street or open space. The East elevation requires a minimum 20% stone and does not meet this standard.
* 2. Art V, Sec. 6.10.C.1.a of the SH 205 BY OV (and the UDC) requires each exterior wall to consist of 90% masonry materials,..., on walls which are visible from a public street or open space. The East elevation does not provide a minimum 90% masonry material and exceeds the 10% secondary materials with the use of metal wall panels.
* 3. Art V, Sec. 6.10.C.5 of the SH 205 BY OV (and the UDC) requires that all commercial buildings be architecturally finished on all four sides with the same materials, detailing, and features...the buildings east elevation as submitted is not meeting the minimum requirements.

**4. ArtV, Sec. 4.1. of the UDC - Exception to the Horizontal & Vertical Articulation Standards - the buildings north elevation as submitted is not meeting the minimum requirements establish for the General Commercial District Standards. Requires a simple majority vote of council for approval.

* Approval of the variances to the SH 205 By-Pass OV requires passage by a 3/4 majority vote of City Council.

** Approval of the exceptions to the horizontal and vertical articulation standards requires passage by a simple majority vote of City Council.

Please addressthe following Planning Comments for each plan submitted:

Site Plan:
Hatch the area reduced to reflect the future expansion to be considered and label as such for both the building and parking area's (use light gray lines).

Building Elevations:
1. What type of metal paneling is being used for the exterior of the proposed structure?
2. Provide calculation for all exterior materials.
3. Approval of the variances & exceptions as submitted is required by the City Council as indicated above.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Work Session: August 30, 2016 (6:00 p.m.) [Applicant to provide presenation and discuss project]
Planning - Action: September 13, 2016 (6:00 p.m.) [P&Z to take action (i.e. approve, approve with conditions, or deny)

City Council - Action: September 19, 2016 (6:00 p.m.) [FOR VARIANCE & EXCEPTION REQUESTS ONLY]

AGENDA
PLANNING AND ZONING COMMISSION WORK SESSION
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
September 27, 2016
6:00 P.M.

CALL TO ORDER

CONSENT AGENDA

1. **Approval of Minutes** for the *September 13, 2016* Planning and Zoning Commission meeting.

2. **P2016-042** **(David)**
   Discuss and consider a request by Greg Helsel of Spiars Engineering on behalf of the owner Will Shaddock of Master Developers-SNB, LLC for the approval of an amended plat for Phase 1 of the Preserve Subdivision, containing 132 single-family residential lots on a 52.545-acre tract of land identified as the Preserve, Phase 1 Subdivision, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 41 (PD-41) for Single Family 10 (SF-10) District land uses, located at the southeast at corner of the intersection of Highland Drive and East Fork Drive, and take any action necessary.

3. **SP2016-018** **(David)**
   Discuss and consider a request by Greg Wallis of Mershawn Architects on behalf of Natalee Davenport for the approval of a site plan for the purpose of converting an existing single-family home into an office building on a 0.24-acre parcel of land identified as a part of Lot 1, Austin Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 50 (PD-50) for Residential Office (RO) District land uses, situated within the North Goliad Corridor Overlay (NGC OV) District, addressed as 902 N. Goliad Street, and take any action necessary.

APPOINTMENTS

4. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

DISCUSSION ITEMS

5. **Z2016-030** **(Korey)**
   Hold a public hearing to discuss and consider a request by James Shaw for the approval of a Specific Use Permit (SUP) to allow for an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4692-acre parcel of land identified as Lot 14, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1910 Copper Ridge Circle, and take any action necessary.

6. **Z2016-031** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Kasey Weadon of New Craft Brewing, LLC on behalf of the owner Benbrooke Ridge Partners, LP for the approval of an amendment to Planned Development District 1 (PD-1) for the purpose of allowing the *Brewery or Distillery (Excluding Brew Pub)* land use in the Planned Development District, being identified as ~39.5249-acre tract of land situated in the B. J. T. Lewis Survey, Abstract No. 255 and the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, situated within the Scenic Overlay (SOV) District, located on the eastside of Ridge Road south of the intersection of Ridge Road [*FM-740*] and SH-205, and take any action necessary.

7. **Z2016-032** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of BH Balance IV, LLC for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan to allow for additional single-family residential lots and for the purpose of incorporating changes to the development standards contained in Exhibit 'C' of *Ordinance No. 14-26* for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, Texas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary.

8. **P2016-040** **(Korey)**
   Discuss and consider a request by Chad & Lindsay Hudson for the approval of a replat for Lots 7 & 8, Block A, Independence Pass Addition being a replat of a 1.4-acre parcel of land identified as Lot 5, Block A,

Independence Pass Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) for single family land uses, addressed as 107 Independence Place, and take any action necessary.

9. **P2016-043** **(David)**
   Discuss and consider a request by Jay Webb of Dalrock Homes, LLC for the approval of a final plat for Lots 1-10, Block A, Estates on the Ridge Subdivision, containing ten (10) single-family residential lots on an 18.84-acre tract of land identified as Tract 7-04 & 23 of the W. M. Dalton Survey, Abstract No. 72, City of Rockwall, Rockwall County, Texas, situated within the City of Rockwall's Extraterritorial Jurisdiction (ETJ), located at the northwest corner of the intersection of FM-3549 and Cornelius Road, and take any action necessary.

10. **SP2016-019** **(Korey)**
    Discuss and consider a request by Kevin Patel, P. E. on behalf of William Shaddock of Master Developers-SNB, LLC for the approval of a site plan for a daycare facility on a 2.960-acre tract of land identified as Lot 1, Block S, Preserve, Phase 3 Addition and Tract 12 [*1.4376-acres*], A. Hanna Survey, Abstract No. 98, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 41 (PD-41) and Single Family 10 (SF-10) District, addressed as 1292 East Fork Drive, and take any action necessary.

11. **SP2016-020** **(Korey)**
    Discuss and consider a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Cindy Paris of Rockwall Regional Hospital, LLC for the approval of a site plan for a medical office building on a 5.75-acre portion of a larger 17.8321-acre parcel of land being identified as Lot 15, Block A, Presbyterian Hospital of Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, located east of the intersection of Summer Lee Drive and Rockwall Parkway, and take any action necessary.

12. **SP2016-021** **(Korey)**
    Discuss and consider a request by Vinod Sharma of Little Genius of Texas, LLC for the approval of a site plan for a private pre-school facility on a 2.28-acre tract of land identified as Tract 2-3 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for General Retail (GR) District land uses, located at the southeast corner of the intersection of FM-552 and Stone Creek Drive, and take any action necessary.

13. **SP2016-022** **(David)**
    Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Gerald Houser of Colin-G Properties, LTD for the approval of a site plan for the expansion of an existing industrial facility on a 6.19-acre parcel of land identified as Lot 1, Block A, Houser Addition, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, situated within the SH-276 Corridor Overlay (SH-276 OV) District, addressed as 1611 SH-276, and take any action necessary.

14. **SP2016-023** **(David)**
    Discuss and consider a request by Worth Williams of Moore Worth Investments, LLC for the approval of a site plan for a multi-tenant commercial/retail building on a 1.56-acre tract of land being a portion of a larger 6.1091-acre tract of land identified as Tract 8-4 of the J. H. B. Jones Survey, Abstract No. 8-4, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the southwest corner of Quail Run Road and N. Goliad Street [*SH*-205], and take any action necessary.

15. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2016-038: Lots 1 & 2, Block A, Autumn Addition [*Approved*]
- ✓ P2016-039: Lots 1 & 2, Block A, Burke Addition [*Approved*]
- ✓ SP2016-016: Exception and Variance at 496 National Drive [*Approved*]
- ✓ SP2016-017: Variance to the Articulations Requirements for Life Springs Church [*Approved*]
- ✓ Z2016-026: PD Development Plan for Townhomes in PD-32 (*2nd Reading*) [*Approved*]
- ✓ Z2016-023: Amendment to S-118 for 1970 Copper Ridge Circle (*1st Reading*) [*Approved*]
- ✓ Z2016-025: PD Development Plan for Condominiums in PD-32 (*1st Reading*) [*Approved*]
- ✓ Z2016-028: Zoning Change for 2001 Ridge Road (AG to RO) (*1st Reading*) [*Approved*]
- ✓ Z2016-029: SUP for a Gas Station at the SWC of SH-205 & FM-549 (*1st Reading*) [*Approved*]

ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator of the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 23rd day of September, 2016 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

AGENDA
ARCHITECTURAL REVIEW BOARD MEETING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers Conference Room
September 27, 2016
5:00 P.M.

DISCUSSION ITEMS

1. **SP2016-019** **(Korey)**
   Discuss and consider a request by Kevin Patel, P. E. on behalf of William Shaddock of Master Developers-SNB, LLC for the approval of a site plan for a daycare facility on a 2.960-acre tract of land identified as Lot 1, Block S, Preserve, Phase 3 Addition and Tract 12 [*1.4376-acres*], A. Hanna Survey, Abstract No. 98, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 41 (PD-41) and Single Family 10 (SF-10) District, addressed as 1292 East Fork Drive, and take any action necessary.

2. **SP2016-020** **(Korey)**
   Discuss and consider a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Cindy Paris of Rockwall Regional Hospital, LLC for the approval of a site plan for a medical office building on a 5.75-acre portion of a larger 17.8321-acre parcel of land being identified as Lot 15, Block A, Presbyterian Hospital of Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, located east of the intersection of Summer Lee Drive and Rockwall Parkway, and take any action necessary.

3. **SP2016-021** **(Korey)**
   Discuss and consider a request by Vinod Sharma of Little Genius of Texas, LLC for the approval of a site plan for a private pre-school facility on a 2.28-acre tract of land identified as Tract 2-3 of the W. T. Deweese Survey, Abstract No. 71, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 70 (PD-70) for General Retail (GR) District land uses, located at the southeast corner of the intersection of FM-552 and Stone Creek Drive, and take any action necessary.

4. **SP2016-022** **(David)**
   Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Gerald Houser of Colin-G Properties, LTD for the approval of a site plan for the expansion of an existing industrial facility on a 6.19-acre parcel of land identified as Lot 1, Block A, Houser Addition, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, situated within the SH-276 Corridor Overlay (SH-276 OV) District, addressed as 1611 SH-276, and take any action necessary.

5. **SP2016-023** **(David)**
   Discuss and consider a request by Worth Williams of Moore Worth Investments, LLC for the approval of a site plan for a multi-tenant commercial/retail building on a 1.56-acre tract of land being a portion of a larger 6.1091-acre tract of land identified as Tract 8-4 of the J. H. B. Jones Survey, Abstract No. 8-4, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the southwest corner of Quail Run Road and N. Goliad Street [*SH*-205], and take any action necessary.

ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 23rd day of September, 2016, by 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MINUTES

PLANNING AND ZONING COMMISSION PUBLIC HEARING

City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
September 13, 2016
6:00 P.M.

I. CALL TO ORDER

Vice-Chairman Johnny Lyons called the meeting to order at 6:00 p.m. The Commissioners present at the meeting were, Patrick Trowbridge, Sandra Whitley, Tracey Logan, Annie Fishman, and Mark Moeller. Commissioners absent were Chairman Craig Renfro. Staff members present were Planning Director, Ryan Miller, Senior Planner, David Gonzales, Planner, Korey Brooks, Planning Coordinator, Laura Morales, Assistant City Engineer, Amy Williams, Civil Engineer, Jeremy White and Fire Marshall, Ariana Hargrove.

II. CONSENT AGENDA

1. Approval of Minutes for the *August 30, 2016* Planning and Zoning Commission meeting.

2. P2016-038

Discuss and consider a request by Billy & Autumn Quinton for the approval of a final plat of Lots 1 & 2, Block A, Autumn Addition being a replat of a 0.35-acre tract of land identified as Lot 120, Block F of the B. F. Boydstun Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, addressed as 601 E. Rusk Street, and take any action necessary.

3. P2016-039

Discuss and consider a request by Jay Maddox of Maddox Survey on behalf of Casey & Andrea Burke for the approval of a final plat of Lots 1 & 2, Block A, Burke Addition being a 2.970-acre tract of land identified as Tract 19 of the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, situated within the Scenic Overlay (SOV) District, addressed as 1406 Ridge Road, and take any action necessary.

Commissioner Trowbridge made a motion to approve the consent agenda. Commissioner Logan seconded the motion, which passed by a vote of 6-0, with Chairman Renfro absent.

III. APPOINTMENTS

4. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

Vice-Chairman Lyons noted this item would be discussed at the time the case comes up on the agenda.

IV. PUBLIC HEARING ITEMS

5. Z2016-025

Hold a public hearing to discuss and consider a request by Jason Lentz of Atticus Rockwall, LLC for the approval of a PD Development Plan establishing a 228 unit, condo development situated on a 3.453-acre portion of a larger 6.915-acre tract of land identified as Lots 3A, 4A & 5A, Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Interior Subdistrict*, located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [*FM-3097*] and Summer Lee Drive, and take any action necessary.

Planning Director, Ryan Miller, gave a brief explanation of the request stating that at the last City Council meeting the applicant proposed a 50 foot cross section in lieu of the 40 foot that the Planning and Zoning Commission voted on August 30th to deny. In light of the change the City Council chose to remand the case back to the Planning and Zoning Commission to review the 50 foot cross section. The applicant is requesting a PD Development Plan for the purpose of changing the street cross section for the street type G that is required by Ordinance 10-21.

Mr. Miller provided a power point slide which showed a side by side comparison of the proposed cross section and that of the City's street type G that is required by the Ordinance. Street type G is composed of an 8 foot sidewalk and parkway, 24 foot travel lane, 8 foot parallel parking lane and 60 feet of right of way. The proposed cross section proposes an 8 foot sidewalk, 2 foot parkway on the northern western side of the roadway, a 24 foot travel lane, 8 foot parallel parking lane and a 50 foot of right of way. In the City Council meeting the applicant stated that after surveying the property they found that they were able to fit a 50 foot section in and that was what they proposed at City Council, however in the applicant's opinion as was stated at that meeting they believe the proposed road section meets the intent of the Ordinance because the creek adjacent to the roadway will be preserved as open space which mitigates the inability to provide a wider parkway. Mr. Miller went on to explain that as was previously discussed when looking at waivers to the plan, Ordinance 10-21 states it is a discretionary decision for the Planning and Zoning Commission and City Council to consider whether or not the waiver meets the general intent of the PD District in which the property is located, if the proposed project will result in an improvement which will be an attractive contribution to the PD District or Sub-district, and will not prevent the implementation of the intent of this PD District.

Mr. Miller added that staff was available for questions and the applicant was present and available for questions as well.

Vice-Chairman Lyons asked the applicant to come forward.

Jason Lentz
5339 Alpha Road
Dallas, TX

Mr. Lentz came forward and stated that after what they heard at the previous two meetings, the two main objections to the proposed plan was one, the walkability was being decreased by the fact that there was not an 8 foot sidewalk on each side, although an 8 foot sidewalk had been proposed on one side, but would have only a buffer on the other and in addition to that the road did not connect at the correct point to the road to the adjacent property. Once they received the final surveying data they realized they could push the property a little more and had a little more room between the properties boundary and the creek which allowed them to offer a 50 foot right of way versus the 40 foot right of way that was presented previously which was denied. Mr. Lentz provided a slide showing what they are requesting, which is a variance to the landscape buffers within the 60 feet between the building and the outside edge, and instead go to the 50 feet that will still have two 8 foot sidewalks, 8 feet of parallel parking, 24 feet of drive isle and the additional space will be in the preserve natural buffer in the creek. The right of way will fall within the proposed retaining wall and will not be the City's duty to maintain. Also in a discussion with one of the adjacent property owners it was discussed where the road needed to connect and that has since been addressed.

Mr. Lentz went on to state that it is their opinion that they have addressed all of the concerns brought forth by the Commission as previously discussed, the condominiums as they sit are a by right development and the only thing that they are seeking a variance on is related to the right of way and they feel they have maintained the outlook of what was expected when street type G was put together. He added that by proposing 50 feet they have maintained all the intended uses, preserved the walkability of the site, and the overall expectation of the Street type G of PD32.

Vice-Chairman Lyons opened the public hearing and asked anyone who wished to speak to come forward and do so, there being no one indicating such Vice-Chairman Lyons closed the public hearing and brought the item back to the Commission for questions/discussion.

Vice-Chairman Lyons asked Mr. Lentz to come forward for any additional comments or questions from the Commission.

Vice-Chairman Lyons asked concerning the portion that goes into the creek, how many feet is the drop off. Mr. Lentz stated he does not have exact measurements but it is an approximation of the slope, they have hired wetlands consultants who will survey the creek. The slope steeper than what is actually out there; it is more of a gully than it is a deep creek. They do not feel it will

be that deep, the water is jurisdictional but they will do all that is needed to address that it is left alone and preserved.

Mr. Miller added that would be addressed at time of engineering to ensure that proper drainage and detention is provided.

Vice-Chairman Lyons made a motion to approve the item with staff recommendations. Commissioner Trowbridge seconded the motion which passed by a vote of 6-0, with Chairman Renfro absent.

6. Z2016-023

Hold a public hearing to discuss and consider a request by Kevin Dale Wommack & Pamela McCollum for the approval of an amendment to *Specific Use Permit (SUP) No. S-118* [*Ordinance No. 14-02*] to allow for an accessory building that exceeds the maximum size requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.4952-acre tract of land identified as Lot 17, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 1970 Copper Ridge Circle, and take any action necessary.

Planner, Korey Brooks, gave brief explanation of request stating the applicant is requesting to amend an existing Specific Use Permit to allow for an accessory building that exceeds the maximum size requirements specified in the UDC. In December of 2013 the applicants requested an SUP for an accessory building, and the City Council approved that request for a building that does not meet the exterior material requirements to the Single Family Estate 1.5 District. The current metal building is 22-feet by 31-feet or approximately or 682 sq. ft. The applicants are proposing to expand their current metal building by approximately 30-feet for a building footprint that is 22-feet x 62-feet or 1,364 sq. ft. With the expansion, the accessory building will be approximately 114 sq. ft. larger than the maximum size allowed in a SFE-1.5 District.

Mr. Brooks went on to state that on August 19, 2016 staff mailed 36 notices to property owners and occupants within 500-feet of the subject property and also notified the Lofland Farms and Timber Creek Estates Home Owners Associations. Staff received one notice in favor and none opposed.

Mr. Brooks added that staff was available for questions and the applicant was present and available for questions as well.

Vice-Chairman Lyons asked the applicant to come forward.

Dale Wommack
1970 Copper Ridge Circle
Rockwall, TX

Mr. Wommack came forward stating he wants to put an open air awning and use it for storage and put his smoker in there instead of having it on his patio.

Commissioner Trowbridge asked if a business would be running out of the building. Mr. Wommack stated there would not.

Vice-Chairman Lyons opened the public hearing and asked anyone who wished to speak to come forward and do so, there being no one indicating such Vice-Chair Lyons closed the public hearing and brought the item back to the Commission for discussion/questions.

Commissioner Whitley made a motion to approve the item with staff recommendations. Commissioner Fishman seconded the motion which passed by a vote of 6-0, with Chairman Renfro absent.

7. Z2016-028

Hold a public hearing to discuss and consider a request by Susan Gamez for the approval of a zoning change from an Agricultural (AG) District to Commercial (C) District on a 0.478-acre tract of land identified as Tract 7 of the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas,

zoned Agricultural (AG) District, situated within the Scenic Overlay (SOV) District, addressed as 2001 Ridge Road, and take any action necessary.

Planning Director, Ryan Miller, gave a brief explanation of the request stating the subject property is about a half an acre zoned Agricultural District and is located behind a commercial retail center that is zoned Commercial. It was annexed into the City in the 1960's and currently has an existing single family home situated on it. Directly north of the subject property is an agricultural property followed by another agricultural property with a single family home, to the south is a commercial retail center followed by the intersection of Ride Road and Yellow Jacket. Directly north of the subject property is a vacant tract of land as well as the commercial parking area for the commercial shopping center and directly south is the Independent School Districts parking for the Spring Sports Complex. The applicant is requesting to rezone the property to a Commercial District and according to the Unified Development Code; Commercial Districts are intended for major retail and intensive commercial uses with large volumes of retail traffic. The UDC also states that this designation is appropriate for properties that are situated on major collectors and arterials and should be adequately buffered from residential areas.

Mr. Miller went on to state that staff recommended to the applicant to consider the Residential Office District as a possible alternative to the Commercial Districts since the property is set back off of Old County Road off of Ridge Road and is not on a major collector nor is the existing residential structure appropriate for high volume traffic retail uses. The proposed use is allowed in all Commercial Districts, Residential-Office, Neighborhood Service, General Retail, Heavy Commercial, and Downtown Districts. There has been some success in converting single family homes using Residential Office development standards. The applicant has showed a willingness to have a Residential Office designation if approved by the Planning and Zoning Commission and City Council.

Mr. Miller further stated that on August 19, 2016, staff mailed 13 notices to property owners and residents within 500-feet of the subject property and also sent a notice to the Turtle Cove and Waterstone Homeowner's Associations. Staff did not receive any notices in favor or opposed to the request. The Comprehensive Plan designates the three properties as medium densities residential in the future, therefore should the Commission chose to recommend to City Council that the zoning either Residential Office or Commercial be approved it would change the Future Land Use Map to a Commercial District designation.

Mr. Miller added that staff was available for questions and the applicant was present and available for questions as well.

Vice-Chairman Lyons asked the applicant to come forward.

Susan Gamez
602 Laurence Drive
Heath, TX

Ms. Gamez came forward and stated she feels the recommendation for Residential Office designation fits as the business she currently owns off of Ridge Road is in a Residential Office and is already familiar with all the requirements involved.

Vice-Chairman Lyons opened the public hearing and asked if there was anyone wishing to speak to come forward and do so.

RD Vanderslice
1408 S. Lakeshore Drive
Rockwall, TX

Mr. Vanderslice came forward and stated he has been a resident of Rockwall for 42 years and owns several commercial buildings along Ridge Road similar to that of Ms. Gamez. He feels the changing of these properties to commercial has been met with little or no opposition and has improved the properties. He stated he knows Ms. Gamez and believes she runs a good business for over ten years and he feels as a fellow business owner and property owner is in favor of the approval of the request.

Vice-Chairman Lyons closed the public hearing and stated he felt the proposal for a Residential Office designation is a perfect fit for that area rather than Commercial.

Commissioner Fishman made a motion to approve the item with a designation of Residential Office and with staff recommendations. Vice-Chairman Lyons seconded the motion which passed by a vote of 6-0, with Chairman Renfro absent.

8. Z2016-029

Hold a public hearing to discuss and consider a request by Jimmy Strohmeyer of Strohmeyer Architects on behalf of D. W. Bobst of J-BR2, LLC for the approval of a Specific Use Permit (SUP) to allow a retail store with more than 2 gasoline dispensers on a 2.59-acre tract of land being a portion of a larger 7.32-acre tract of land identified as Tract 17-12 of the W. W. Ford Survey, Abstract No. 80, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated at the southwest corner of the intersection of SH-205 [*S. Goliad Street*] and FM-549, and take any action necessary.

Senior Planner, David Gonzales, gave a brief explanation of the case stating that Mr. Jimmy Strohmeyer with Strohmeyer Architects is present to represent the property owner and is requesting a Specific Use Permit for the subject property which is located at the southwest corner of FM-549 and Goliad. The current zoning on the property is General Retail for General Retail land uses. The Specific Use Permit being requested is for a retail operation with more than two gasoline dispensers. Mr. Gonzales provided a slide of the conceptual plan of the site that was submitted by the applicant indicating that they want to have eight dispensers on site which would equate to a maximum of sixteen vehicles that could be serviced at any one time. It will have two points of entry off of FM-549 and SH-205. There will be a slight change to the current concept plan for the entrances that will be moved as they don't currently meet the distance requirements for the City or TXDOT and that will be tied to the Ordinance if the request is approved.

Mr. Gonzales went on to state that staff sent out 11 notices to property owners and residents within 500 feet of the subject property and also notified one HOA, Oaks of Buffalo Way that is within 1,500 feet of the subject property. Staff received four notices back against the proposal.

Mr. Gonzales added that staff was available for questions and the applicant was present and available for questions as well.

Vice-Chairman Lyons asked the applicant to come forth and speak.

Jimmy Strohmeyer
2701 Sunset Ridge
Rockwall, TX

Mr. Strohmeyer came forward and stated FM-549 and SH-205 is a major intersection that is going to be rerouted in the future and feels that this retail store is needed at this corner and is the ideal corner for it and will fit by the traffic that the street improvement will generate at that intersection. This is planning for the future as FM-549 gets rerouted and as this area develops will be a major intersection.

Mr. Gonzales added that the Future Land Use map shows TXDOT will be adding a four lane divided on FM-549.

Vice-Chairman Lyons asked for clarification of how many vehicles per pump. Mr. Strohmeyer stated in the past one pump had only one dispenser whereas now each pump has two dispensers and they are requesting eight pumps, sixteen dispensers that will allow sixteen cars.

Commissioner Trowbridge asked staff what the Future Land Use map designates the subject property and what the use for the adjacent property. Mr. Gonzales stated the subject property is zoned General Retail and the adjacent property is an office use.

Commissioner Moeller asked when the change of the concept plan for the distance of the driveways would be made. Mr. Gonzales stated that those corrections would be done at the time of site plan and they will be involved with engineering to get the proper distances.

Vice-Chairman Lyons asked engineering staff when the projected date for TXDOT to begin that expansion was. Assistant City Engineer Amy Williams stated there was not a set date, but should be about four or five years out.

Vice-Chairman Lyons opened up the public hearing and asked for anyone who wished to speak to come forward and do so, there being no one indicating such Vice-Chairman Lyons closed the public hearing and brought the item back to the Commission for discussion/questions.

Vice-Chairman Lyons asked the reason for asking for the eight pumps. Mr. Strohmeyer they are planning for the future expansion of the road and the need he feels that major intersection will call for.

Vice-Chairman Lyons asked Engineering staff if there was a designated date for when TXDOT

Commissioner Logan expressed concern of going from an estate lots to this use, does not feel it is the right direction for this corner.

Mr. Gonzales added this went from originally being Agriculture to General Retail in 2010 and that was based on the Future Land Use Map and has since evolved.

Commissioner Whitley asked for clarification if it is already zoned General Retail if the issue is simply the number of dispensers that are being requested. Mr. Gonzales stated that by right they can have a General Retail store with two dispensers serving four vehicles. What they are asking for is for the ability to put eight on the property.

Commissioner Whitley asked if the expansion of FM-449 would continue through SH-205 making it a major four corner intersection. Mr. Gonzales stated that was correct.

Commissioner Trowbridge made a motion to approve the item with staff recommendations. Commissioner Whitley seconded the motion which passed by a vote of 6-0, with Chairman Renfro absent.

V. ACTION ITEMS

9. SP2016-016

Discuss and consider a request by Tim Seymore of Seymore Custom Homes, LLC on behalf of James & Robin Meade for the approval of a site plan for the construction of a commercial/industrial building on an existing 2.02-acre commercial/industrial facility identified as Tract 2-22 of the J. R. Johnson Survey, Abstract No. 128, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, addressed as 496 National Drive, and take any action necessary.

Senior Planner, David Gonzales, gave brief explanation of request stating the applicant is requesting an amendment to the site plan is required due to the proposed building exceeding 50% of the size of the existing building. The applicant is proposing the new facility to be constructed with 100% metal panels on the exterior. This will require approval of an exception to the exterior material requirements and has been added as a condition of approval. The property is a 2.02-acre parcel of land that is zoned Heavy Commercial District and is addressed as 496 National Drive. The proposed storage facility is permitted by right on the subject property. The existing site has a total of 12 parking spaces and requires one additional space. The applicant is requesting a variance to allow for the 12 existing spaces rather than provide an additional space due to the buildings' use as a storage facility. The applicant has stated that the owner is not expanding their existing work force, which eliminates the need for the additional parking space. This variance has also been included as a condition of approval.

Mr. Gonzales went on to add that aside from the exterior material exceptions, the variance to the parking standards, and the conditions listed in the recommendations shown in the Commissioners report, the submitted site plan and building elevations are in substantial compliance with the technical requirements contained within the Unified Development Code.

Mr. Gonzales stated the applicant is present and is available for questions.

Vice-Chairman Lyons asked the applicant to come forward.

James Meade
2965 Misty Ridge Lane
Rockwall, TX

Mr. Meade came forward and stated he needs additional storage space and is the reason for his request. The building will not have electricity and will only be used for storage. He does not plan on hiring any additional employees.

Vice-Chairman Lyons opened for any discussion or questions from the Commission.

Vice-Chairman Lyons made a motion to approve the item with staff recommendations. Commissioner Fishman seconded the motion which passed by a vote of 6-0, with Chairman Renfro absent.

10. SP2016-017
Discuss and consider a request by Rex Walker of Life Springs Church for the approval of an amended site plan for a church on a seven (7) acre portion of a larger 28.881-acre tract of land identified as Tract 15-01 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 By-Pass Corridor Overlay (SH 205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of John King Boulevard and SH-205, and take any action necessary.

Senior Planner, David Gonzales, gave brief explanation of request stating that the applicant is requesting approval of an amended site plan for the purpose of revising the approved elevations by reducing the 25,433 sq. ft. building to a 16,839 sq. ft. building. The applicant will be modifying the exterior appearance of the rear east elevation by reducing the massing of the tower elements and by changing the roof to slope towards the rear of the property for drainage purposes. Also, the applicant is proposing to change the front (west) elevation by replacing the standing seam metal roof element atop the facility with a stucco parapet wall. If approved, the site plan will indicate the 6,000 sq. ft. vacated area as future expansion of the Church facility.

Mr. Gonzales went on to state the Architectural Review Board met with the applicant two weeks ago at the previous meeting and discussed the elevations they had submitted on the original site plan and this evening met with the ARB again with some changes and the Board gave a little more direction although they like what was brought in they would like to see some minor changes and the applicant has agreed to what the ARB is recommending. The ARB wants the stone on the north and south elevations to wrap around, that way it blends in and they also want symmetry as shown on the previous elevations that were approved. The applicant will be making those adjustments. Since there are changes to the horizontal articulation from the originally approved site plan that both Planning and Zoning Commission and City Council approved it will require the horizontal articulation to be approved for them to move forward. Approval is for both to amend the site plan and for the variance to the horizontal articulation. They will send changes to staff if it requires ARB to review they can do so.

Mr. Gonzales stated the applicant was present and available for questions as well as staff.

Vice-Chairman Lyons asked for discussion or questions from the Commission for staff.

Commissioner Logan asked when site plan was approved a year ago was there was a variance that was approved for natural vegetation landscaping rather than fencing. Mr. Gonzales stated that was correct the applicant had requested to use live vegetation to screen and that was approved and those trees have since been planted and are now providing some screening along that rear side that face the properties of Breezy Hill.

Vice-Chairman Lyons asked the applicant to come forward.

Rex Walker
2105 Berkdale
Rockwall, TX

Mr. Walker came forward and stated that due to financial restraints they had to do the building in two phases instead of how it was originally proposed building the gymnasium center at a future date. He stated they want to have a nice building that will be nice for the community.

Vice-Chairman Lyons brought the item back to the Commission for discussion or questions. No further questions or discussion took place for this item

Vice-Chairman Lyons made motion to approve the item with staff recommendations. Commissioner Logan seconded the motion which passed by a vote of 6-0, with Chairman Renfro absent.

VI. DISCUSSION ITEMS

11. Director's Report of post Council meeting outcomes of Planning & Zoning cases.

- ✓ P2016-036: Final Plat for Lot 1, Block A, Service King Addition [*Approved*]
- ✓ P2016-037: Amending Plat for Lakeview Summit, Phase IV [*Approved*]
- ✓ Z2016-022: SUP for SPR Packaging (*2nd Reading*) [*Approved*]
- ✓ Z2016-025: Harbor Urban Center Condominiums (*1st Reading*) [*Approved*]
- ✓ Z2016-027: Zoning Amendment to Article V of the UDC (*2nd Reading*) [*Approved*]

Planning Director, Ryan Miller, **provided a brief update about the outcome of the above referenced case at the City Council meeting. No discussion took place concerning this agenda item.**

VII. ADJOURNMENT

The meeting adjourned at 7.08 p.m.

VIII. TRAINING SESSION

12. *Planning and Zoning Commission Training Session*
A work session will be held in the City Council meeting room immediately following the adjournment of the September 13, 2016 Planning and Zoning Commission work session meeting. The agenda for the training session will include a presentation from staff over Planned Development District 32 (PD-32).

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2016.

_____
Craig Renfro, Chairman

Attest:

Laura Morales, Planning Coordinator

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 09/27/2016

APPLICANT: Greg Helsel, *Spiars Engineering*

AGENDA ITEM: **P2016-042** (Preserve Addition Phase 1 – *Amended Plat*)

SUMMARY:

Discuss and consider a request by Greg Helsel of Spiars Engineering on behalf of the owner Will Shaddock of Master Developers-SNB, LLC for the approval of an amended plat for Phase 1 of the Preserve Subdivision, containing 132 single-family residential lots on a 52.545-acre tract of land identified as the Preserve, Phase 1 Subdivision, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 41 (PD-41) for Single Family 10 (SF-10) District land uses, located at the southeast at corner of the intersection of Highland Drive and East Fork Drive, and take any action necessary.

COMMENTS:

- The objective of this request is to amend the final plat by correcting the side yard set-back for Lot 11, Block A from 25-feet to 15-feet. Ordinance No. 01-27 (PD-41) area requirements allow for a single-family lot to have a minimum side yard set-back (where the side yard abuts a street) to have a minimum set-back of 15-feet.

- The property is zoned Planned Development District 41 (PD-41), has an underlying zoning of Single Family 10 (SF-10) District for residential land uses, and is located at the southeast corner of the intersection of Highland Drive and East Fork Drive.

- Conditional approval of this plat by the City Council shall constitute approval subject to the conditions listed in the Recommendations section below.

- With the exception of the items listed in the Recommendation section of this case memo, this amending plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the request for the amending plat, staff would recommend the following conditions of approval:

1) All the technical comments from the Planning, Engineering, and Fire Departments shall be addressed prior to the filing of this amended plat.

2) Any construction resulting from the approval of this amended plat shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

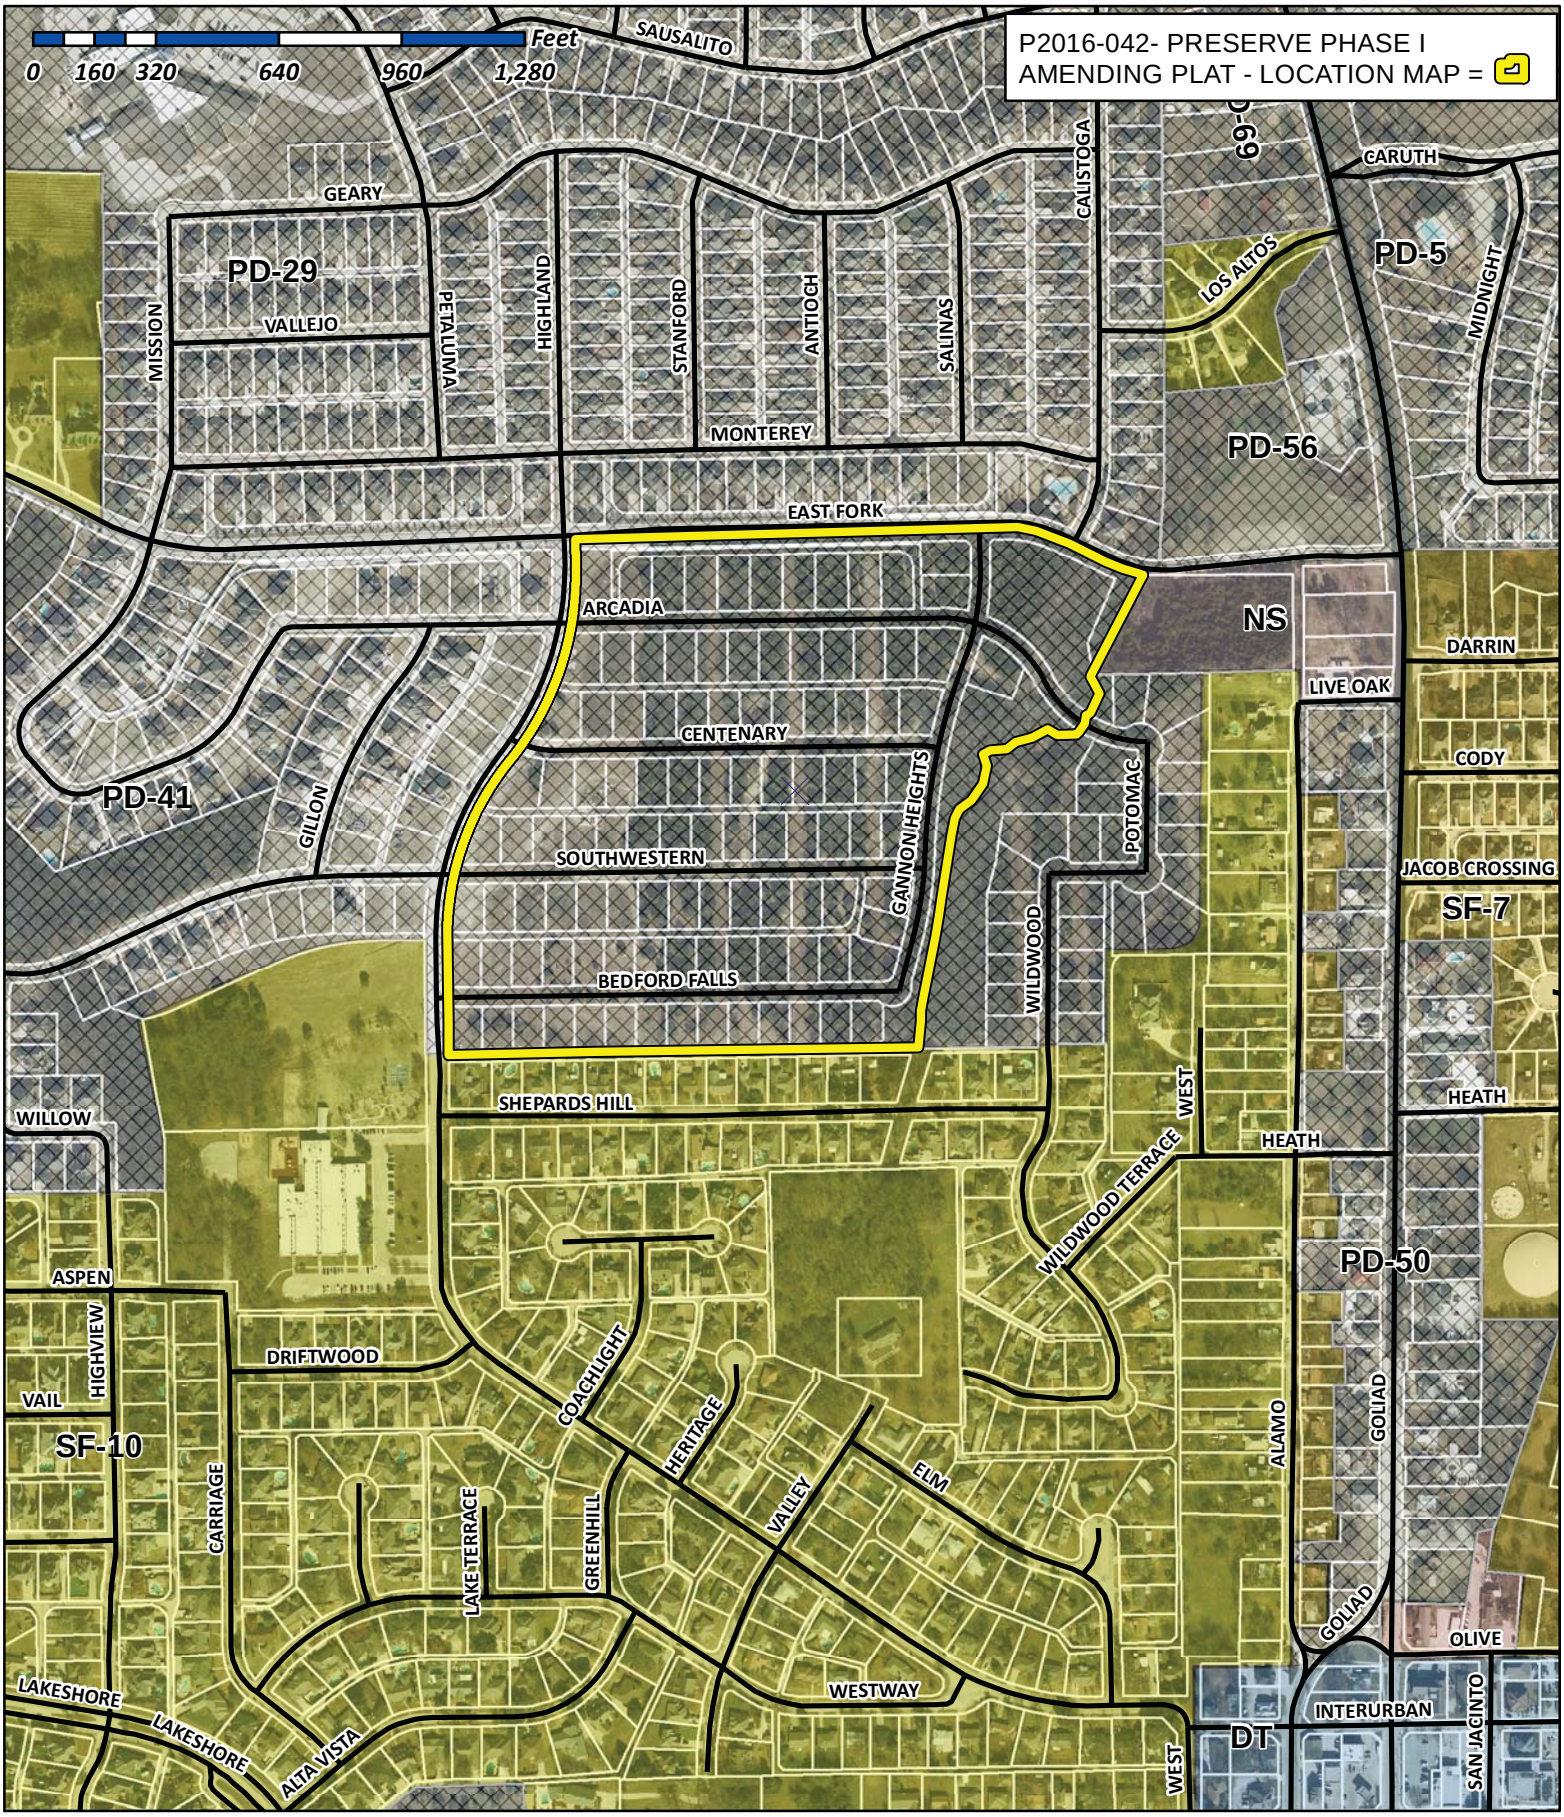
PLANNING COMMENTS - DAVID GONZALES - 09.22.2016

Discuss and consider a request by Greg Helsel of Spiars Engineering on behalf of the owner Will Shaddock of Master Developers-SNB, LLC for the approval of an amended plat for Phase 1 of the Preserve Subdivision, containing 132 single-family residential lots on a 52.545-acre tract of land identified as the Preserve, Phase 1 Subdivision, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 41 (PD-41) for Single Family 10 (SF-10) District land uses, located at the southeast at corner of the intersection of Highland Drive and East Fork Drive, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, October 4, 2016. Please provide two large copies [18" X 24" FOLDED] and one PDF version for a subsequent review by staff:

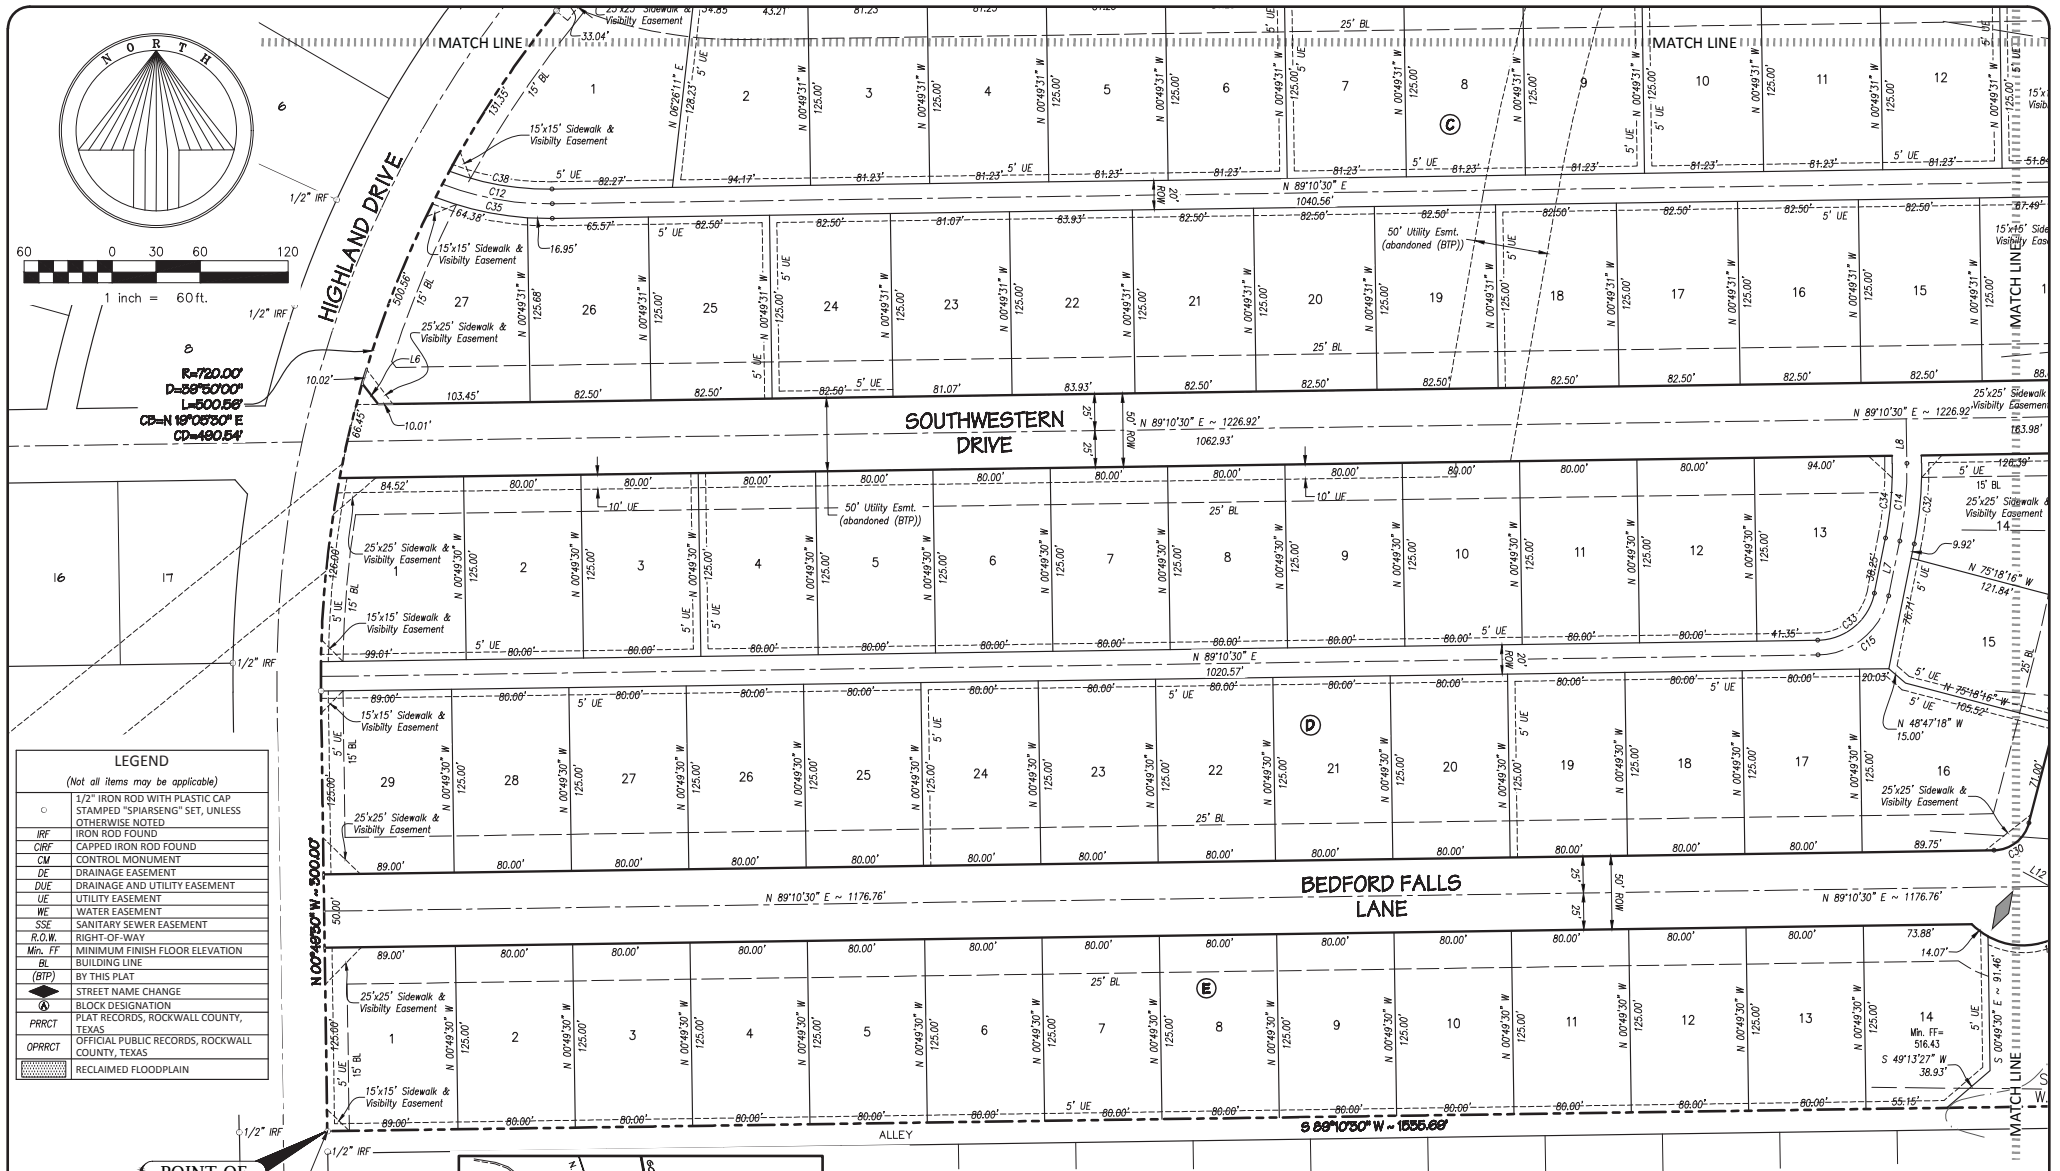


1. Adherence to all Engineering and Fire Department standards shall be required.
2. Provide a label indicating "Case No. P2016-042" on the lower right corner on all pages of the revised plat.
3. Provide Standard Signature Block (P&Z and City Council) on last page.
4. Notary Certificate is not necessary when plat is stamped by Surveyor.

** As a note and once the plat has been approved by the Planning and Zoning Commission and City Council, all staff comments are to be addressed and all revisions resubmitted and approved (by staff) prior toplat submittal on mylar for filing purposes. **

Meeting Dates to Attend (Since this plat request will be placed on the Consent Agenda for both the Planning and City Council meetings, it is not necessary for you to attend; however, staff would recommend that someone be present for the meetings. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Planning - Consent Agenda:September 27, 2016 (6:00 p.m.)



City Council - Consent Agenda: October 3, 2016 (6:00 p.m.)

OWNER'S CERTIFICATE

WHEREAS, MASTER DEVELOPERS SNB, LCC is the owner of a tract of land situated in the J. Jones Survey, Abstract No. 124, City of Rockwall, Rockwall County, Texas, the subject tract being all of The Preserve Phase I, an addition recorded in Cabinet I, Slide 325 of the Plat Records, Rockwall County, Texas (PRRCT), the subject tract being more particularly described as follows:

BEGINNING at a 1/2" iron rod with plastic cap stamped "SPIARSENG" set at the intersection of the east line of Highland Drive, created by the final plat of The Preserve Phase III, an addition recorded in Cabinet G, Slide 193 PRRCT, with the south line of East Fork Drive, a variable width public right-of-way, from which an "X" found in concrete for the southeast corner of Lot 24, Block Q, The Preserve Phase III, bears S 19°52'51" W, 195.40 feet;

THENCE N 87°40'12" E, 225.21 feet along the south line of East Fork Drive to a 1/2" iron rod with plastic cap stamped "SPIARSENG" set;

THENCE N 88°54'10" E, 965.12 feet continuing along the south line of East Fork Drive to a 1/2" iron rod with plastic cap stamped "SPIARSENG" set;

THENCE S 64°16'25" E, 247.93 feet continuing along the south line of East Fork Drive to a 1/2" iron rod with plastic cap stamped "SPIARSENG" set;

THENCE S 23°34'48" W, 194.61 feet departing the south line thereof to a point for corner, and being a westerly corner of a tract conveyed to John Curanovic, recorded in Instrument No. 20030000283034 OPRRCT;

THENCE S 09°28'32" E, 84.77 feet along the west line thereof to a point for corner;

THENCE N 88°37'19" E, 305.26 feet along the south line thereof to a 1/2" iron rod with plastic cap stamped "SPIARSENG" set for the northwest corner of the Garner Addition, an unrecorded addition to the City of Rockwall;

THENCE S 00°46'50" W, 527.68 feet along the west line thereof to a 1/2" iron rod with plastic cap stamped "SPIARSENG" set;

THENCE S 01°28'07" E, 204.50 feet continuing along the west line thereof to a 1/2" iron rod with plastic cap stamped "SPIARSENG" set;

THENCE S 88°52'35" W, passing along the north line of North West Street and Lot 1, Block A, Jameson Addition, an addition recorded in Cabinet F, Page 369 PRRCT, and along the north line of a right-of-way dedication created by said plat, total distance of 254.06 feet to a 1/2" iron rod with plastic cap stamped "SPIARSENG" set;

THENCE S 00°25'30" W, 232.75 feet along the west line of said right-of-way dedication and Lot 1, Block A, Jameson Addition, to a 1/2" iron rod with plastic cap stamped "SPIARSENG" set for the northeast corner of Northshore Phase One, an addition recorded in Cabinet A, Slide 181 PRRCT;

THENCE S 89°10'30" W, 190.05 feet along the north line thereof to a 1/2" iron rod found;

THENCE S 00°30'30" W, 3.38 feet continuing along the north line thereof to a 1/2" iron rod found;

THENCE S 89°10'30" W, 1535.69 feet continuing along the north line thereof to a 1/2" iron rod with plastic cap stamped "SPIARSENG" set on the east line of Highland Drive;

THENCE along the east line of Highland Drive, the following:

N 00°49'30" W, 300.00 feet to a 1/2" iron rod with plastic cap stamped "SPIARSENG" set;

Around a tangent curve to the right having a central angle of 39°50'00", a radius of 720.00 feet a chord of N 19°05'30" E – 490.54 feet an arc length of 500.56 feet to a 1/2" iron rod with plastic cap stamped "SPIARSENG" set;

Around a non-tangent curve to the left having a central angle of 40°05'24", a radius of 780.00 feet, a chord of N 18°57'48" E – 534.70 feet, an arc length of 545.77 feet to a 1/2" iron rod with plastic cap stamped "SPIARSENG" set;

And N 01°05'10" W, 63.44 feet to the POINT OF BEGINNING with the subject tract containing 2,287,985 square feet or 52.525 acres of land.

NOW THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

That We, MASTER DEVELOPERS SNB, LCC, do hereby adopt this plat designating the hereinabove described property as THE PRESERVE PHASE 1, an Addition to the City of Rockwall, and do hereby dedicate to the public use forever the streets and alleys shown thereon and do hereby reserve the easement strips shown on this plat for the mutual use and accommodation of garbage collection agencies and all public utilities desiring to use or using same. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other improvements or growths which in any way endanger or interfere with the construction, maintenance or efficiency of its respective systems on any of these easement strips and any public utility shall at all times have the right of ingress and egress to and from and upon the said easement strip for the purpose of constructing, reconstructing, inspecting, and patrolling, without the necessity at any time of procuring the permission of anyone. This plat approved subject to all platting ordinances, rules, regulations and resolutions of the City of Rockwall, Texas.

Witness our hands at _____ County, Texas, this _____ day of _____, 2016.

September 14, 2016 SEI Job No. 13-141

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 09/27/2016

APPLICANT: Greg Wallis, *Mershawn Architects*

AGENDA ITEM: **SP2016-018;** 902 N. Goliad Street (*PD-50*)

SUMMARY:

Discuss and consider a request by Greg Wallis of Mershawn Architects on behalf of Natalee Davenport for the approval of a site plan for the purpose of converting an existing single-family home into an office building on a 0.24-acre parcel of land identified as a part of Lot 1, Austin Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 50 (PD-50) for Residential Office (RO) District land uses, situated within the North Goliad Corridor Overlay (NGC OV) District, addressed as 902 N. Goliad Street, and take any action necessary.

BACKGROUND:

The applicant is requesting approval of a Site Plan for the purpose of converting an existing 2,439 sq. ft. single-family home into an office building on a 0.24-acre parcel of land. The proposed G*eneral Office* is a use permitted by right within Planned Development District No. 50 (PD-50). The *subject property* is also within the North Goliad Corridor Overly (NGC OV) District, has an underlying zoning of Residential Office (RO) District, and is generally located at 902 N. Goliad Street.

The site will incorporate five (5) parking spaces; meeting PD-50's parking standards of 1 space per 500 sq. ft. for a general office use. The *subject property* will have one (1) point of ingress/egress along Heath Street and will share the driveway with the property to the north via a private cross access easement in order to circulate traffic. Also, the site plan indicates the parking spaces to be located behind the front façade of the building (at the rear boundary of the property) meeting the requirements of PD-50 and the RO district.

Although the site has existing trees and shrubs throughout the property, the applicant intends to provide an additional four (4) caliper inch Live Oak near the front of the property line. Aside from the existing nature of the property (building, landscaping, etc.) and the conditions listed in the *Recommendations* section of this report, the submitted site plan and landscape plan are in substantial compliance with the technical requirements contained within Planned Development District No. 50 (PD-50) and the Unified Development Code (UDC).

RECOMMENDATIONS:

The site plan submitted by the applicant meets all the technical criteria stipulated by the UDC, NGC OV, and PD-50. Should the Planning and Zoning Commission choose to approve the applicant's request, then the following conditions of approval should be adopted with this case:

1) All comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) Any construction or building necessary to complete this *Site Plan* request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

(9/22/2016 12:06 PM AA) Approved, unobstructed fire department access (fire lanes) shall be provided such that all portions of the exterior of the building shall be within 150-feet (as the hose lays) of a fire lane and/or other approved fire apparatus access roadway. The path of measurement shall be along a minimum of a ten feet (10') wide unobstructed pathway with a maximum of a 5% slope around the external walls of the structure. (Obstructions include AC units, shrubs, trees, gates, or other construction or utilities.) Where a portion of the facility or building hereafter constructed or moved into or within the jurisdiction is more than 400 feet from a hydrant on a fire apparatus access road, as measured by an approved route around the exterior of the facility or building, on-site fire hydrants and mains shall be provided. Show location of fire hydrants. An approved water supply capable of supplying the required fire flow for fire protection shall be provided. A water flow test verifying capabilities shall be witnessed by the fire department prior to vertical construction. Fire hydrants utilized to meet the requirements of this section shall be available to fire department personnel with no obstructions whichobstructions, which can notcannot be crossed by fire fighters pulling hose lines. Proposed new fire hydrants shall be indicated on the plans. Existing fire hydrants to be considered for the use shall be indicated on the plans. (Existing fire hydrants on adjacent properties shall not be considered available unless fire apparatus access roads extend between properties and easements are established to prevent obstruction of such roads. Existing fire hydrants on public streets are allowed to be considered as available where streets are not provided with median dividers which cannot be crossed by fire fighters pulling hose lines.)

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [ORDINANCE NO. 04-38] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR AN ACCESSORY BUILDING THAT DOES NOT MEET THE MINIMUM REQUIREMENTS ON A 1.4692-ACRE PARCEL OF LAND ZONED SINGLE FAMILY ESTATE 1.5 (SFE-1.5) AND IDENTIFIED AS LOT 14, BLOCK B, STERLING FARMS ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by James Shaw for the approval for a Specific Use Permit (SUP) for the purpose constructing an accessory building that does not meet the minimum masonry requirements, situated on a 1.4692-acre parcel of land, zoned Single Family Estate 1.5 (SFE-1.5) District, and being identified as Lot 14, Block B, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, addressed as 1910 Copper Ridge Circle, and being more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit allowing for the establishment of a metal accessory building that does not conform to the minimum masonry requirements for accessory buildings in a Single Family Estate 1.5 (SFE-1.5) District as stipulated by *Article IV, Permissible Uses,* and *Article V, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes described in this Specific Use Permit (SUP) ordinance and as specifically set forth in *Section 3.2, Single-Family Estate (SF/E 1.5) District, of Article V, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by the granting of this zoning change, and as my be amended in the future, and shall be subject to the additional following conditions:

DRAFT ORDINANCE 10.17.2016

1) The accessory building shall generally conform to the approved site plan and building elevations depicted in *Exhibits 'A' & 'B'* of this ordinance.

2) The accessory building shall not exceed a maximum size of 1,200 square feet.

3) The accessory building is subject to administrative review in the event that the *Subject Property* is sold, conveyed or altered in any manner.

Section 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

Section 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

Section 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* (*$2,000.00*) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

Section 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

Section 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 7th DAY OF NOVEMBER, 2016.

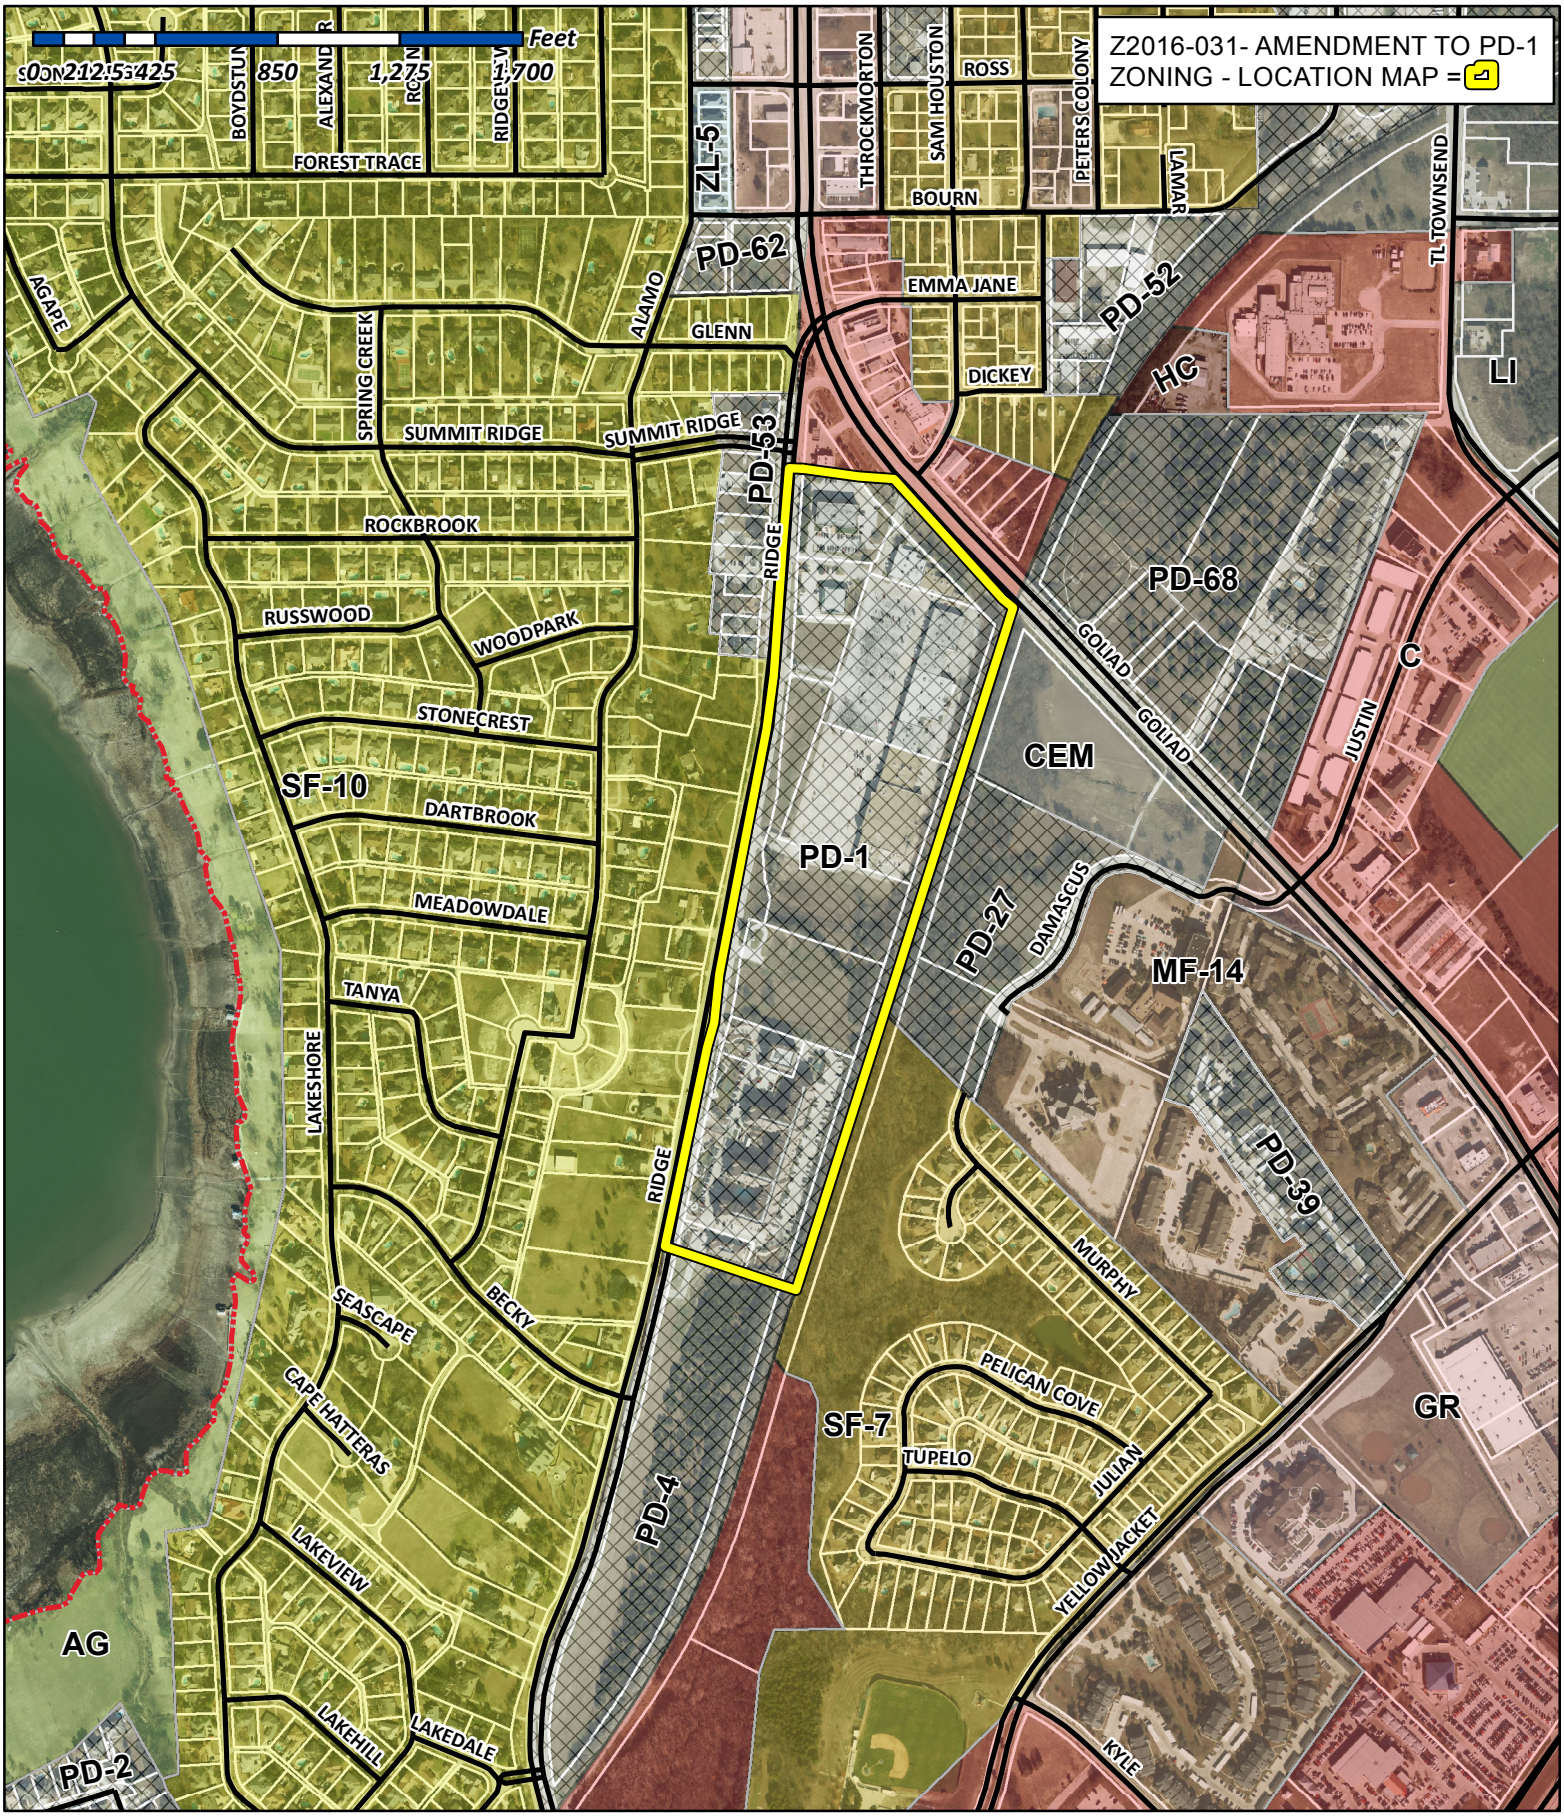
Z2016-031 (Amendment to PD-1): Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This case is for the approval of an amendment to Planned Development District 1 (PD-1) for the purpose of allowing the Brewery or Distillery (Excluding Brew Pub) land use in the Planned Development District, being identified as ~39.5249-acre tract of land situated in the B. J. T. Lewis Survey, Abstract No. 255 and the D. Atkins Survey, Abstract No. 1, City of Rockwall, Rockwall County, Texas, situated within the Scenic Overlay (SOV) District, and located on the eastside of Ridge Road south of the intersection of Ridge Road [FM-740] and SH-205



I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.

M.3 On all future submittals please include the case number (Z2016-031) in the lower right hand corner.

I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on September 27, 2016.

I.5 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due to staff on October 4, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the October 11, 2016 Planning & Zoning Meeting.

I.6 The projected City Council dates for this case are project to be: 1) October 17, 2016 [1st Reading], and 2) November 7, 2016 (Tuesday) [2nd Reading].

PLANNED DEVELOPMENT DISTRICT 1
LEGAL DESCRIPTION

PD1

PLANNED DEVELOPMENT NO. 1
LEGAL DESCRIPTION

BEING an approximate 39.6443 acre tract of land situated in the Eastridge Center Addition, Oreilly Addition, and Rockwall Commons Addition, as recorded in the County of Rockwall, Texas and being more particularly described as follows:

BEGINNING at a point in the south right of way line of State Highway 205 (S. Goliad St) and the most northeastern corner of the Eastridge Center Addition (Plat Date 06/27/1977), said point being the **POINT OF BEGINNING**;

THENCE S.85°55'54"E., a distance of 122.63 feet to a point in the right of way of State Highway 205 (S. Goliad St);
THENCE S.42°16'51"E., a distance of 562.88 feet;
THENCE S.50°16'49"E., a distance of 45.96 feet for a corner;
THENCE S.17°37'07"W., a distance of 574.34 feet along the centerline of the Dallas, Garland and Northeastern Railroad;
THENCE continue southerly along said line, a distance of 902.87 feet;
THENCE S.17°45'42"W., a distance of 1,008.68 feet for a corner;
THENCE N.73°24'37"W., a distance of 57.97 feet;
THENCE N.71°22'39"W., a distance of 378.33 feet;
THENCE N.71°58'06"W., a distance of 42.15 feet for a corner;
THENCE N.11°18'18"E., a distance of 736.84 feet;
THENCE N.10°53'56"E., a distance of 85.39 feet;
THENCE N.11°21'07"E., a distance of 223.50 feet;
THENCE N.10°54'10"E., a distance of 790.62 feet;
THENCE N.07°16'40"E., a distance of 181.57 feet;
THENCE N.04°08'39"E., a distance of 60.22 feet;
THENCE N.04°08'38"E., a distance of 387.24 feet;
THENCE N.04°21'49"E., a distance of 274.21 feet for a corner;
THENCE S.83°09'43"E., a distance of 244.04 feet to the **POINT OF BEGINNING**.
Containing 1,726,906.82 square feet or 39.6443 acres, more or less.

END OF DESCRIPTION.

Kasey Weadon | New Craft BrewCo

1201 Ridge Rd. | Rockwall, TX 75087

Written Request for Rezoning of 1201 Ridge Rd. Rockwall TX 75087 Currently under the ownership of Benbrooke Ridge Partners

---

Rockwall City Council

City of Rockwall

385 S. Goliad St.

Rockwall, TX 75087

September 15 , 2016

To the members of the Rockwall City Council,

New Craft Brewing Company would like to notify the City of Rockwall of our intent to open a micro-brewery at 1201 Ridge Rd in the Ridge Road Shopping Center. At present our business location is not zoned for our required light industrial use. However, with the approval of the planning and zoning commission, New Craft Brewing Company is respectfully requesting a zoning change to allow the manufacturing and distribution of beer for the above address with no further or future land use. The conditional use will be consistent with the goals, objectives, and policies of the comprehensive plan and land regulations as well as all city, state, and federal licensing.

The primary intent of opening our brewery facility is to manufacture beer for distribution and to sell the beer we produce in kegs and cans to retail vendors. The large majority of our sales will be made from the distribution of our product to local and surrounding markets. Our brewery will also have a front of house taproom where customers can come to our location and try our beers. The taproom will serve jointly as a venue which will host various events and functions as well. However, we are foremost a manufacturer of beer, not a restaurant, brewpub, or bar. While in operation, we will allow and encourage patrons to purchase food from local area restaurants and food trucks, but we will not serve food as a means of revenue.

The micro-brewery industry has been explosive in recent years and there is only more room for growth. Breweries of our nature have very positive economic impact on growing suburban cities such as Rockwall. The beer we produce is taxed both in house at the tap and the keg in retail. The tax revenue we generate will be collected and reused in our local community. We can ensure that our brewery will make appropriate use of the zoning change and positively affect the community and public interest.

Respectfully,

[Signature Here]

Kasey Weadon

Owner and Founder of New Craft BrewCo

PD-1

PLANNED DEVELOPMENT DISTRICTS ADOPTED WITH ORIGINAL ORDINANCE AND REFERENCED ON ZONING DISTRICT MAP

PLANNED DEVELOPMENT DISTRICT 1 - Shopping Center and Multiple Family Dwellings (symbol designation PD-1-SC & MF).

Planned Development District permitting uses as prescribed in the Uses Schedule of the Zoning Ordinance for Shopping Center permitting General Retail uses and Multiple Family Dwellings, subject to the approval of a site plan by the Planning and Zonin Commission prior to the issuance of any building permit or certi ficate of occupancy. The Shopping Center shall be developed subject to general retail standards and the housing development for Multiple Family dwellings shall be subject to the MF-2 Multi Family Dwelling standards. Such site plan shall set forth the building areas, offstreet parking, points of access, any screeni walls, open areas, building setback, curbs, sidewalks, drainage facilities indicated as necessary by the location, and provide f the dedication and improvement of any street deemed essential by the Planning and Zoning Commission for access to the property, t adjacent property, or for circulation around the site.

The density, coverage, height, parking and offstreet loadir standards shall be as set forth on the site plan or as specifiec in the "GR" General Retail for the Shopping Center and in the "MF-2" for the Multiple Family area.

The requisite site plan may be approved in whole or in part for one or several ownerships, provided the overall arrangement streets, land uses, utilities and parking applying to the entire tract is coordinated and understood by the various owners.

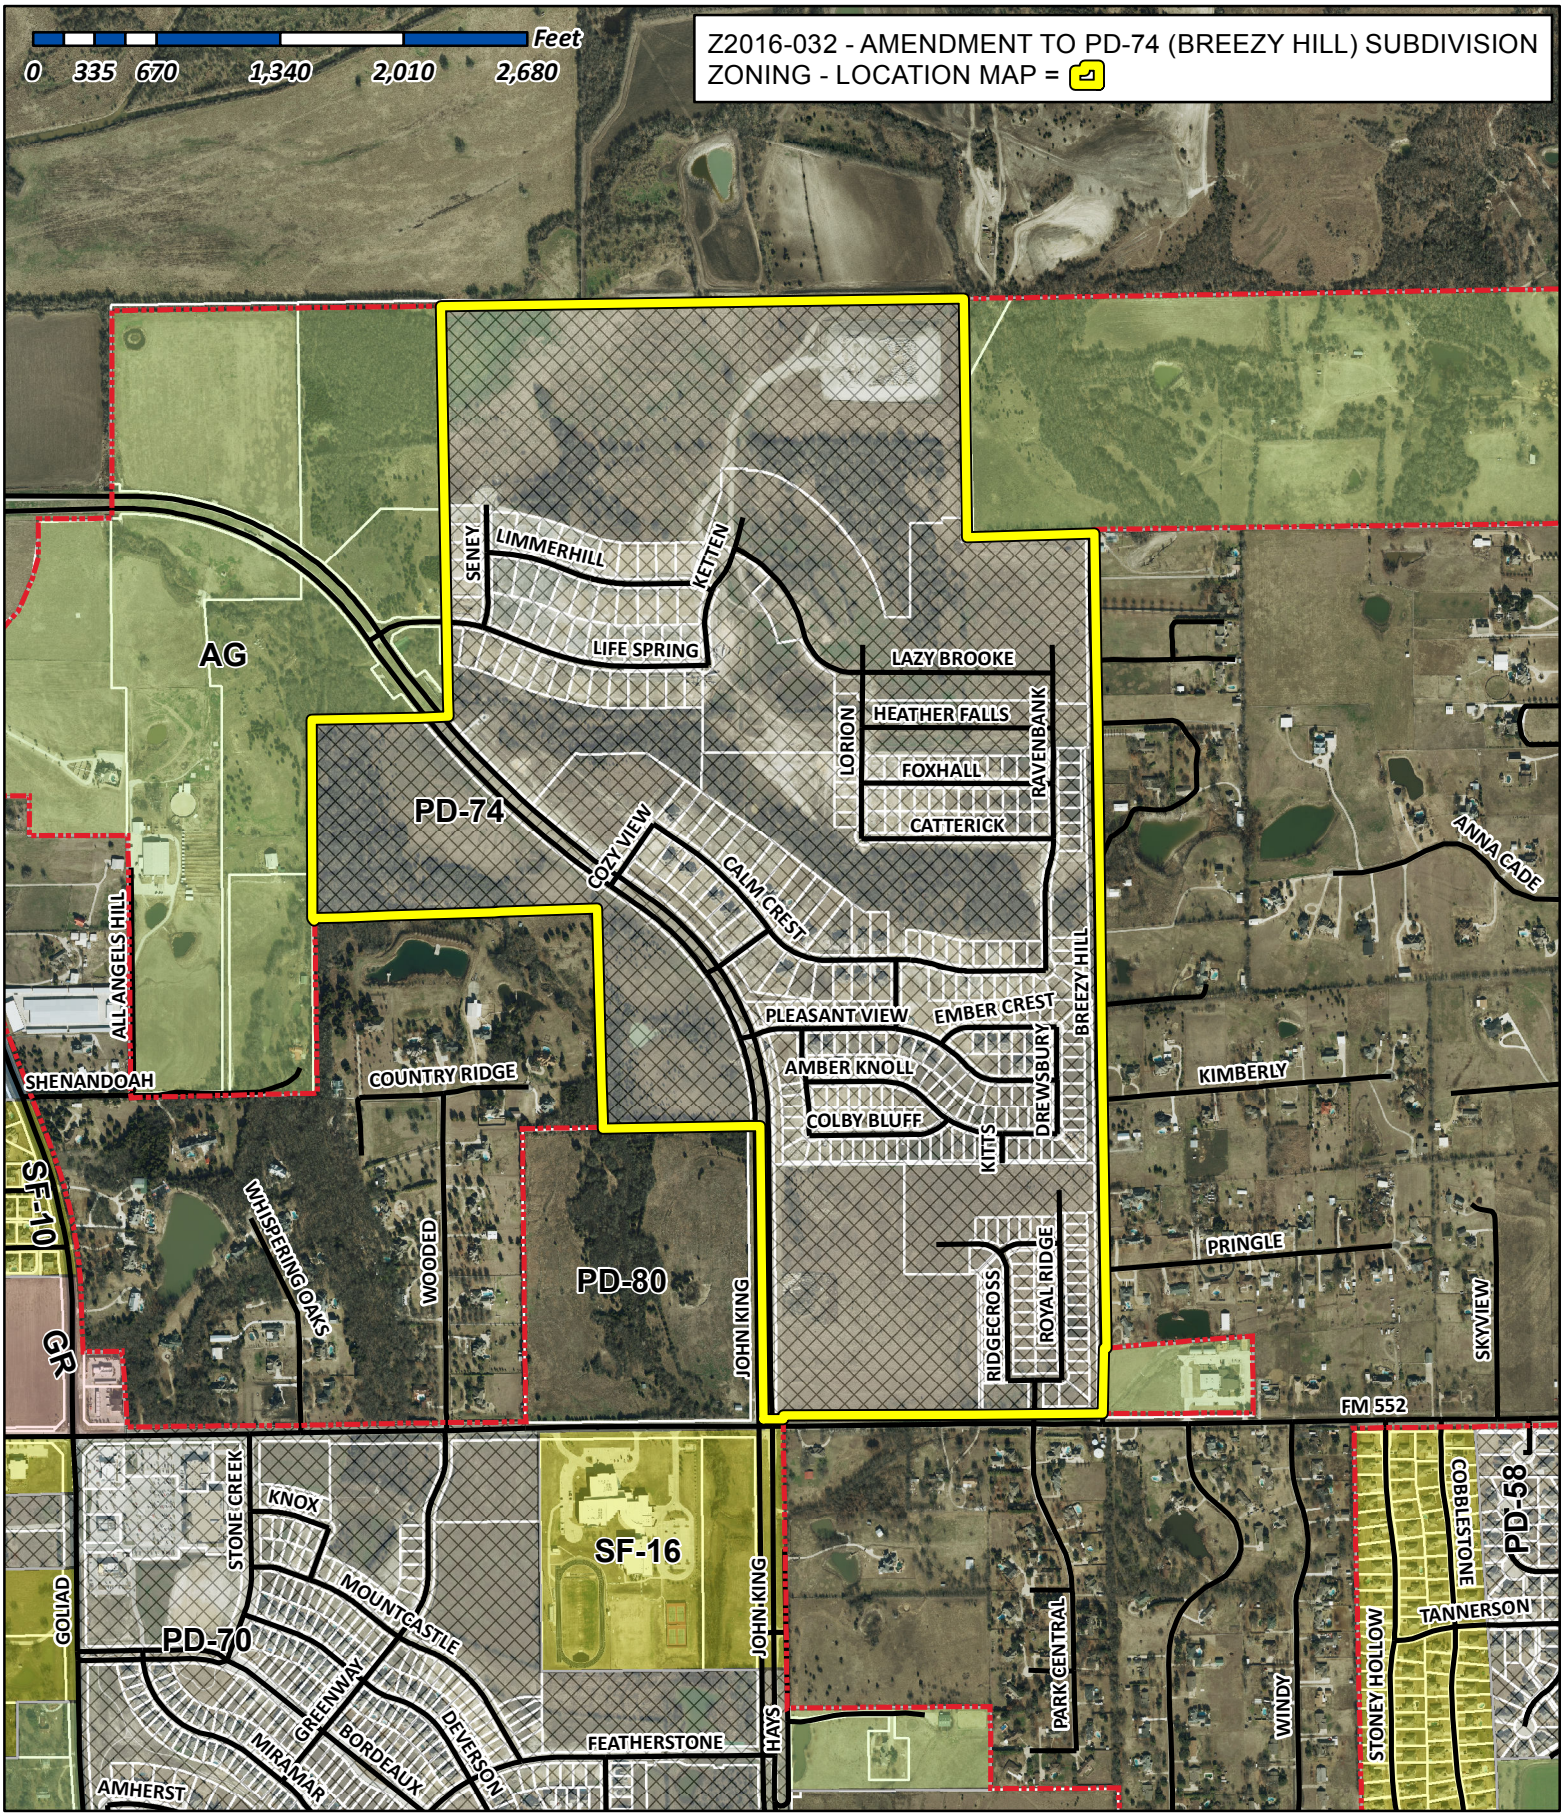
Z2016-032 (Amendment to PD-74 [Breezy Hill Subdivision]): Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This case is for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan to allow for additional single-family residential lots and for the purpose of incorporating changes to the development standards contained in Exhibit 'C' of Ordinance No. 14-26 for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, Texas, and generally located north of FM-552 and west of Breezy Hill Road.



I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.

M.3 On all future submittals please include the case number (Z2016-032) in the lower right hand corner.

I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on September 27, 2016.

I.5 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due to staff on October 4, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the October 11, 2016 Planning & Zoning Meeting.

I.6 The projected City Council dates for this case are project to be: 1) October 17, 2016 [1st Reading], and 2) November 7, 2016 (Tuesday) [2nd Reading].

LEGAL DESCRIPTION

BEING, a tract of land situated in the T.R. Bailey Survey, Abstract No. 30 in the City of Rockwall, Rockwall County, Texas, being out of a 405.184 acre tract, as described in Clerks File No. 2007-00375392 in the Deed Records of Rockwall County, Texas and being more particularly described as follows:

BEGINNING, at a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", at the southwest corner of Breezy Hill Phase IIA & IIB, an addition to the City of Rockwall, as described in Cab. H, Pg. 397-398 in the Plat Records of Rockwall County, Texas, being in the east line of John King Boulevard (120' R.O.W.);

THENCE, South 89° 28'34" East, along the south line of said Breezy Hill Phase IIA & IIB, for a distance of 723.98 feet, to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.";

THENCE, South 00° 31'26" West, departing said south line, for a distance of 600.00 feet, to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.";

THENCE, North 89° 28'34" West, for distance of 722.61 feet, to a 1/2 inch iron rod set with a yellow cap stamped "Corwin Eng. Inc.", being in the east line of said John King Boulevard;

THENCE, North 00° 23'34" East, along the east line of said John King Boulevard, for a distance of 600.00 feet, to the POINT OF BEGINNING and containing 9.962 acres of land.

SURVEYORS CERTIFICATE

I do hereby certify to Breezy Hill 405, Ltd., BH Balance IV, Ltd., Vestor T. Hughes, Jr., Independent Executor of the Estate of W.W. Caruth, Jr. Deceased, that a survey was made on the ground under my supervision in April 2015, and that this map correctly represents the facts found at the time of survey and that this professional service conforms to the current Texas Society of Professional Land Surveyors Standards and Specifications for Category 1A, Condition II Survey.

Infrastructure Statement

Drainage Facilities:
There are natural drainage ways within the project and detention will be required.

Sanitary Sewer Facilities:
This site will utilize lift stations and force mains to send the sewer flows to the existing sewer trunk line located at the intersection of FM 552 and Highway 205

Water Facilities:
There is an existing water line located in FM 552. A new 16"water line will be constructed along John King Boulevard north of FM 552 to service this tract.

Roadway Facilities:
The west side of the project is bounded by John King Boulevard, the south side is bounded by FM 552, the east side is bounded by Breezy Hill Road.

CASE #2015-XXX

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 74 (PD-74) [*ORDINANCE NO. 14-26*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING THE PLANNED DEVELOPMENT CONCEPT PLAN AND THE DEVELOPMENT STANDARDS APPROVED WITH ORDINANCE NO. 14-26, BEING A 405.184-ACRE TRACT OF LAND SITUATED IN THE J. STRICKLAND SURVEY, ABSTRACT NO. 187, T. R. BAILEY SURVEY, ABSTRACT NO. 30 AND THE J. SIMMONS SURVEY, ABSTRACT NO. 190, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY EXHIBIT 'A'; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE..

WHEREAS, the City has received a request by the Noah Flabiano of the Skorburg Company on behalf of Breezy Hill 405, LTD for an amendment to the Planned Development Concept Plan and Development Standards contained within Planned Development District 74 (PD-74) [specifically contained within *Ordinance No. 14-26*] and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, for a 405.184-acre tract of land situated in the J. Strickland Survey, Abstract No. 187, T. R. Bailey Survey, Abstract No. 30 and the J. Simmons Survey, Abstract No. 190, Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 74 [*Ordinance No. 14-26*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 14-26*;

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of

DRAFT ORDINANCE 09.21.16

approval of the amended zoning classification for the *Subject Property*;

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That a master parks and open space plan for the Property, prepared in accordance with this ordinance and consistent with the *Planned Development Concept Plan*, (*Open Space Master Plan*) shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

Section 6. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 5(b) through 5(f) below*), shall be the exclusive procedures applicable to the subdivision and platting of the Property.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in Section 212.009 of the Texas Local Government Code.

1. Open Space Master Plan
2. Master plat
3. PD development plans (*required for retail areas only*)
4. PD site plans
5. Preliminary plats
6. Final plats

(c) A Master Plat application covering all of the *Subject Property*, other than the area designated on the *Planned Development Concept Plan* as *Retail*, shall be submitted and shall identify each phase of development. No master plat application shall be approved until the *Open Space Master Plan* for all of the Property has been approved; however, the *Open Space Master Plan* may be processed by the City concurrently with the master plat application.

(d) A *PD Development Plan* must be approved for the area designated on the Concept Plan as *Retail* prior to submittal of a *PD Site Plan* application and/or a preliminary plat application. No master plat is required for the area designated on the Concept Plan as *Retail*. A traffic impact analysis for the retail tract shall be submitted with the *PD Development Plan* to determine the extent and timing of any recommended facilities and/or improvements to the surrounding roadway network. The traffic impact analysis may be updated with each *PD Site Plan* for the retail tract.

(e) A preliminary plat application shall be submitted for each phase of residential development. A *PD Site* Plan application, including a site plan application for improvements for parkland or trails, may be processed by the City concurrently with a preliminary plat application for that phase of the development.

(f) A *Capital Facilities Agreement* in the form of *Exhibit 'D',* attached hereto and incorporated herein by reference as *Exhibit 'D',* shall be executed by Developer providing for delivery of adequate public facilities and services within the District.

Section 7. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine

DRAFT ORDINANCE 08.22.16

not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 8. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 9. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 10. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 7TH DAY OF NOVEMBER, 2016.

PD Development Standards

TEXT TO BE ADDED TO THE ORDINANCE
~~***TEXT TO BE REMOVED FROM THE ORDINANCE***~~

A. GENERAL REQUIREMENTS

1. *Uses Allowed.* The following uses are permitted for the Property.

   a. *Residential uses*. Uses permitted of right or by special use permit for the Single Family 10 (SF-10) District, as set forth in Article IV, Permissible Uses, of the City of Rockwall Unified Development Code, shall be allowed for areas designated as Single-Family on the Concept Plan, subject to approval of a Special Use Permit if required by the SF-10 District Regulations.

   b. *Non-residential uses*. Non-residential uses shall be allowed only within the area designated as Retail on the approved Concept Plan for the District, and are limited to those uses permitted of right or by special use permit for the General Retail (GR) District subject to approval of a PD Development Plan and PD Site Plan in accordance with the Planned Development District regulations, Article X, Section 2 of the Unified Development Code, and subject to approval of a Special Use Permit if required by the General Retail (GR) District regulations; provided, however, that the following uses are expressly prohibited:

   - ☑ Animal Hospital, Clinic
   - ☑ Convent or Monastery
   - ☑ Hotel or Motel
   - ☑ Hotel, Residence
   - ☑ Cemetery/Mausoleum
   - ☑ Mortuary of Funeral Chapel
   - ☑ Social Service Provider
   - ☑ Billiard Parlor or Pool Hall
   - ☑ Carnival, Circus, or Amusement Ride
   - ☑ Commercial Amusement/Recreation (Outside)
   - ☑ Gun Club, Skeet or Target Range (indoor)
   - ☑ Astrologer, Hypnotist, or Psychic Art and Science
   - ☑ Garden Supply/Plant Nursery
   - ☑ Night Club, Discotheque, or Dance Hall
   - ☑ Secondhand Dealer
   - ☑ Car Wash, Self Service*
   - ☑ Service Station*
   - ☑ Mining and Extraction (Sand, Gravel, Oil & other)
   - ☑ Helipad
   - ☑ Railroad Yard or Shop
   - ☑ Transit Passenger Facility

   ** Not including a convenience store with an accessory car wash use or more than four (4) gas pumps, which accessory uses are permitted by SUP.*

   The following additional use shall be permitted of right in the PD District:

   - ☑ Grocery Store with a maximum building area of one hundred and thirty thousand (130,000) square feet.

   c. *Design of non-residential uses.* The retail area shall be designed to be pedestrian-oriented and easily accessible to adjacent residential neighborhoods. Additionally, the retail area shall be designed and constructed to be integrated with adjacent uses, not separated from them by screening walls or other physical barriers. This will be accomplished by creating paths from adjacent development into the retail area and

DRAFT ORDINANCE 09.20.2016

through the use of landscaping buffers, building design and other urban design elements to create compatibility with the surrounding residential neighborhood.

d. *Density and lot composition*. If the retail develops in accordance with the attached Concept Plan, no more than ~~***742***~~ ***776*** single-family residential dwelling units may be constructed within the Property. Except as provided in subsection (e), single-family residential units shall be allocated by product type in accordance with the following table:

Table 1: Lot Composition

Lot Type	Lot Size Minimum	Lot SF Minimum	Driveway Access	Total Units	Total Dwelling Units (%)
A	60' x 120'	7,200	Front	~~***206***~~ ***186***	~~***27.80***~~ ***23.97%***
B	70' x 120'	8,400	Front	~~***112***~~ ***117***	~~***15.10***~~ ***15.08%***
C	80' x 125'	10,000	Front	326	~~***43.90***~~ ***42.01%***
D	100' x 200'	20,000	Front	~~***98***~~ ***107***	~~***13.20***~~ ***13.79%***
E	***60' x 120'***	***7,200***	***Front***	***40***	***5.15%***
AVERAGE LOT SIZE:		**10,000**			
			MAXIMUM ALLOWED TOTAL UNITS:	~~***742***~~ ***776***	**100%**

e. *Variation in lot composition.* The allocation of single-family dwellings among lot types may deviate from that in subsection (d), provided that the maximum allowed total dwelling units does not exceed ~~***742***~~ ***776*** units, the average lot size for the development is not less than 10,000 sq. ft., and the following rules are met:

(1) Lot types "A & B" may increase not more than 5% in aggregate number.
(2) Lot type "C" shall not be decreased below ~~***42%***~~ ***42.01%*** of the total ~~***742***~~ ***776*** lots.
(3) Lot Type "D" shall not be decreased below ~~***98***~~ ***107*** of the total lots.
(4) Lot Type "E" shall not increase above 40 of the total lots.

2. *Development Standards Applicable.* Except as may be modified by these Development Standards, residential uses shall be subject to the development standards for a (SF-10) Single Family Residential District, as set forth in Article V, District Development Standards for Section 3.4 of the City of Rockwall Unified Development Code; to the development standards in the 205 Bypass Overlay District; and to all supplemental standards contained in the Unified Development Code, including but not limited to the tree preservation regulations in the Unified Development Code.

DRAFT ORDINANCE 09.20.16

B. SPECIAL DEVELOPMENT STANDARDS

1. *Dimensional Standards for Residential Uses*

Table 2: Lot Type Matrix

Lot Types	A	B	C	D	E
Maximum Building Height	36'	36'	36'	36'	***36'***
Minimum Air Conditioned Square Footage	2,200	2,400	2,600 [2]	3,000	***2,200***
Minimum Front Yard Building Setback	20' [4]	20'	20'	40' [3]	***20' [4]***
Minimum Rear Yard Building Setback	10'	10'	15'	15'	***10'***
Minimum Side Yard (*Interior*)	5'	5'	6'	7'	***5'***
Minimum Side Yard Adjacent to a Street	15'	15'	15'	15'	***15'***
Minimum Distance of Driveway (*from Property Line*)	20'	20'	20'	40'	***20'***
Minimum Lot Area (*Square Feet*)	7,200	8,400	10,000	20,000	***7,200***
Minimum Lot Frontage [1]	60'	70'	80'	100'	***60'***

Notes:

[1]: Lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may be reduced by twenty percent (20%) in lot width measured at the front property line provided that the lot width will be met at the front building line. Additionally, the lot depth on lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may be reduced by up to 10 percent (10%) but shall meet the minimum lot size for each lot type as referenced within *Table 1*.

[2]: A maximum of 20% of the lots may have homes not less than 2,500 sq. ft.

[3]: The Director of Planning or his designee may grant a reduction in the required 40-foot front yard building setback of up to five (5) feet for lots situated along cul-de-sacs or curvilinear streets, or where a 40-foot front yard building setback would create an undue hardship on the property.

[4]: Front porch may encroach to within 10-feet of the front property line.

2. *Development Standards for Residential Uses by Lot Product/Type*

a. *Detached Single Family Lot Type A*

Development Standards	
Minimum Lot Size	7,200 SF
Minimum Lot Width (@ Front Building Line)	60'
Minimum Lot Depth	110'
Minimum Lot Width (Corner Lot)	65'
Minimum Side Yard Setback	5'
Minimum Front Yard Building Setback	20'
Minimum Rear Yard Building Setback	10'
Minimum Air Conditioned Square Footage	2,200 SF
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Garages will be allowed to have the garage accessed from the street using traditional "swing" or "J" drive. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. A minimum of 33% of Type 'A' lots shall have 3-car garages.
Maximum Lot Coverage	65%

DRAFT
09.20.16

b. *Detached Single Family Lot Type B*

Development Standards	
Minimum Lot Size	8,400 SF
Minimum Lot Width (@ Front Building Line)	70'
Minimum Lot Depth	120'
Minimum Lot Width (Corner Lot)	75'
Minimum Side Yard Setback	5'
Minimum Front Yard Building Setback	20'
Minimum Rear Yard Building Setback	10'
Minimum Air Conditioned Square Footage	2,400 SF
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Garages will be allowed to have the garage accessed from the street using traditional "swing" or "J" drives. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. A minimum of 33% of Type 'B' lots shall have 3 car garages.
Maximum Lot Coverage	65%

c. *Detached Single Family Lot Type C*

Development Standards	
Minimum Lot Size	10,000 SF
Minimum Lot Width (@ Front Building Line)	80'
Minimum Lot Depth	125'
Minimum Lot Width (Corner Lot)	85'
Minimum Side Yard Setback	6'
Minimum Front Yard Building Setback	20'
Minimum Rear Yard Building Setback	15'
Minimum Air Conditioned Square Footage	2,600 SF [1]
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Traditional "swing" or "J" drive required. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. A minimum of 80% of Type 'C' lots shall have 3 car garages.
Maximum Lot Coverage	65%

Notes:

[1]: A maximum of 20% of the lots may have homes not less than 2,500 sq. ft.

DRAFT ORDINANCE 09.20.2016

d. *Detached Single Family Lot Type D*

Development Standards	
Minimum Lot Size	20,000 SF
Minimum Lot Width (@ Front Building Line)	100'
Minimum Lot Depth	175'
Minimum Lot Width (Corner Lot)	100'
Minimum Side Yard Setback	7'
Minimum Front Yard Building Setback	40' [1]
Minimum Rear Yard Building Setback	15'
Minimum Air Conditioned Square Footage	3,000 SF
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Traditional "swing" or "J" drive required. Single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. 80% of Type D lots shall have a minimum of 3 car garages.
Maximum Lot Coverage	70%

Notes:

[1]: The Director of Planning or his designee may grant a reduction in the required 40-foot front yard building setback of up to five (5) feet for lots situated along cul-de-sacs or curvilinear streets, or where a 40-foot front yard building setback would create an undue hardship on the property.

e. ***Detached Single Family Lot Type E***

Development Standards	
Minimum Lot Size	***7,200 SF***
Minimum Lot Width (@ Front Building Line)	***60'***
Minimum Lot Depth	***110'***
Minimum Lot Width (Corner Lot)	***65'***
Minimum Side Yard Setback	***5'***
Minimum Front Yard Building Setback	***20' (Front porch may encroach to within 10-feet of the front property line)*** [1]
Minimum Rear Yard Building Setback	***10'***
Minimum Air Conditioned Square Footage	***2,200 SF***
Minimum Roof Pitch	***8:12 Except for 4:12 on Porch Roofs***
Minimum Masonry Requirement [Brick, Stone, Cultured Stone, 3-Part Stucco]	***80%***
Garage Orientation [1]	***Garages will be allowed to be accessed from the street; however a minimum driveway length of 20-ft must be provided***
Maximum Lot Coverage	***65%***

Notes:

[1]: The driveways for Lot Type E shall be front-entry facing the street. Swing garages shall not be required for this Lot Type.

3. *Fencing.* All individual residential fencing for lots less than 20,000 square feet shall be cedar standard fencing material (minimum ½" thickness) or better (spruce fencing will not be allowed). All cedar pickets shall be placed on the "public side" facing the street, alley or

DRAFT
09.20.2016

neighboring property. Lots containing 20,000 sq. ft., lots located along perimeter roadways, and lots abutting open spaces, greenbelts and parks shall be required to install tubular steel fencing. Corner lot fencing (adjacent to the street) shall provide masonry columns at forty-five feet (45') off center spacing that begins at the rear property line corner and terminates ten feet (10') behind the front yard building setback line. A maximum six (6') foot solid board on board "panel" cedar fencing shall be allowed between the masonry columns along the side and/or rear yard lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five feet (5'). The property owner shall maintain that portion of the property outside the fence.

4. *Anti-Monotony Features.* Lot types shall incorporate the following elevation features.

Table 3 : Anti-Monotony Matrix

Lot Type	Lot Size (Approx.)	Elevation Features
A	60' x 120'	i., ii., iii.
B	70' x 120'	i., ii., iii.
C	80' x 125'	i., ii., iii.
D	100' x 200'	i., ii., iii.
E	***60' x 120'***	***i., ii.***

i. Exterior facade must be composed of eighty percent (80%) masonry (brick, stone, cultured stone, or three-part stucco). Identical brick blends may not occur to adjacent (side-by-side) properties. Elevations shall not repeat along the fronting or siding streetscape without at least four (4) intervening homes of sufficient dissimilarity (to be determined by the ARC) on the same side of the street and (2) intervening homes on the opposite side of the street). The rear elevation of homes backing to open spaces or thoroughfares shall not repeat without at least two (2) intervening homes of sufficient dissimilarity (to be determined by the ARC). Masonry (brick, stone, cultured stone, or three-part stucco) chimneys shall be required on all homes.

ii. Minimum of 8:12 roof pitch, except for 4:12 roof pitches on porches. For each phase, a maximum of four compatible roof colors may be used. Dimensional shingles shall be used. ~~***Crown molding will be installed in all living and family rooms, unless vaulted or pop-up ceilings are utilized.***~~ No Formica counters in kitchens and bathrooms, no blown acoustic ceilings. No vinyl flooring will be used in kitchens.

iii. For front entry driveway access a traditional "swing" or "J" drive will be used. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only.

5. *Streetscape Landscape.* Prior to issuance of a Certificate of Occupancy, yards for all single-family lots in the District shall be landscaped with large canopy trees.

(1) Two minimum three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of an interior lot.

(2) Two minimum three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of a corner lot and two additional trees of same caliper shall be planted in the side yard facing the street.

(3) For purposes of this section only, the term "front yard" includes the area within the dedicated right-of-way for a parkway immediately adjoining the front yard of the lot.

6. *Master Design Guidelines.* Additional design guidelines specific to each phase of development that shall apply to all single-family dwellings units within that phase of development, shall be submitted to the City prior to issuance of any building permits for that portion of the development.

DRAFT ORDINANCE 05.23.16

C. STANDARDS FOR DISTRICT DESIGN AND CONNECTIVITY

1. *Streetscape Standards for Collectors & Non-Fronting Thoroughfares.* All streets, excluding drives, fire lanes and private parking areas, shall be built according to City of Rockwall street standards. Sidewalks and Hike / Bike trails are to be placed according to city requirements and as set forth in the Open Space Master Plan for the District.

    a. *Buffer-Strip* and Sidewalks (John King Boulevard Overlay District). The landscape buffer strip along John King Blvd shall be as described in the City of Rockwall Unified Development Code, Article V (District Development Standards), Section 6.10 E (Landscape Standards) and be a minimum width of fifty (50) feet as shown on the Planned Development Concept Plan in Exhibit 'B'. Additionally, the developer shall construct a minimum of a ten (10) foot sidewalk, on both sides of John King Boulevard, within the fifty (50) foot landscape buffer strip as recommended by the John King Boulevard Design Concept Plan located in the Comprehensive Plan of the City of Rockwall.
    b. *Buffer-Strip (FM 552).* A landscape buffer strip with a minimum width of fifteen (15) feet shall be provided along the frontage of FM 552, and shall be landscaped with at least one canopy tree per 30-ft and a combination of berms and shrubbery to be reviewed with the PD Site Plan(s) for the retail tract.
    c. *Buffer-Strip (Breezy Hill) Retail.* The minimum buffer width between the proposed retail area and Breezy Hill Rd shall be fifty (50) feet, and shall include a berm with a minimum height of five (5) feet with at least three (3) canopy trees and four (4) accent trees per 100-ft of frontage. A detail of this landscape buffer shall be approved by the Planning and Zoning Commission and City Council at the time of PD Development Plan for the retail tract.
    d. *Buffer-Strip (Breezy Hill) Residential.* A landscape buffer strip with a minimum width of ten (10) feet shall be provided between any residential area and Breezy Hill Rd.
    e. *Irrigation.* Any irrigation installed in landscape areas and public parks must be designed by a Texas licensed irrigator or landscape architect.
    f. *Fencing.* The Association will maintain all common area and perimeter fencing surrounding the Property. Such perimeter fencing shall be composed of six foot (6') tall tubular steel fencing with masonry entry features or such other fencing as may be approved by the City at the time of platting. Perimeter screening may also be accomplished by earthen berms landscaped with living screening. Property owners will maintain all fences constructed on private property.
    g. *Curvilinear Walks.* Walks are to be a minimum of five feet (5') wide to six feet (6') maximum width (hike and bike trail) consistent with the approved Open Space Master Plan. "Collector streets" with or without center medians may incorporate sidewalks six feet (6') in width adjacent to or within "front yard" landscape easements. Walks may meander within parkway and common area; however, edge of walk shall be no closer than four feet (4') from back-of-curb.
    h. *Medians.* Any proposed median openings shall meet the City standards at the time of PD site plan approval.

2. *Lighting.* Light poles shall not exceed twenty feet (20') in height. All light fixtures shall direct light downward and be contained to the site.
3. *Sidewalks.* At a minimum, sidewalks located on lay down curb section streets shall begin four feet (4') behind the back of curb and be five feet (5') in overall width. Sidewalks will not be required on rural street sections.

DRAFT
09.20.16

4. Curbing. Within certain lot types "A, B, & C" "roll up, lay down curbing" may be incorporated in an effort to minimize frequent curb cuts and maximize streetscape continuity, as approved by the City of Rockwall (Engineering Department) with approval of the final plat application.
5. *Buried Utilities.* New distribution power-lines required to serve the Property shall be placed underground, whether such lines are located internally or along the perimeter of the Property, unless otherwise authorized by the City Council. New transmission power-lines, or distribution lines of a size not typically or cost effectively placed underground (3 phase lines), or additional lines that are added to existing poles, may be above ground, if located along the perimeter of the Property, except along the 205 Bypass. Additionally, if such above ground lines are installed along the perimeter of the property and adjacent to non-residential use, then the lines shall be installed behind the non-residential buildings where the installation is possible. The Developer shall not be required to re-locate existing overhead power-lines along the perimeter of the Property. Temporary power-lines constructed across undeveloped portions of the Property to facilitate development phasing and looping may be allowed above ground, but shall not be considered "existing lines" at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph.
6. *Parks and Open Space.*
    a. Residential and retail acreages (net of right-of-way dedication) shall contain no less than 20% open space and.
    b. Allowable open space may include but is not limited to 50% of floodplain, amenity center, public or private parks, trails, natural areas, buffers, traffic circle medians, entry features, common areas (including any Association recreation center or similar facilities) and other features depicted on the Development Plan, as set forth in the Open Space Master Plan prepared in accordance with subparagraph (c) below. Street right of way will not be included as open space. At least 80% of the single-family dwellings within the development shall be located within eight hundred feet (800') of public or private open space. In order to qualify, such open space must be at least one (1) continuous acre in area, not including roadway buffers less than fifty (50') feet in width.
    c. The Developer shall prepare the Open Space Master Plan to be consistent with the approved Development Plan. The purpose of an Open Space Master Plan is to supplement the Development Plan by providing an additional level of detail for public and private open space areas. The Open Space Master Plan shall identify the locations of and improvements to public parks, and other public and private open space or common areas and shall illustrate an integral system of trail improvements that, together with intervening land held by other property owners or the City, is designed to connect residential areas, schools and retail areas within the District to parks and open space within the District and that provides for continuation and connection of the trail system to off-site parks and open space, in accordance with the City's Master Park and Recreation Plan. The Open Space Master Plan shall clearly differentiate public parks from private facilities and common lands to be maintained by the Association. The locations of public parks, school sites and other public and private open space or common areas shown on the Open Space Master Plan shall be in conformance with the Development Plan. The Open Space Master Plan shall include a phasing plan for construction of all trails, parks, common open space and facilities. The Open Space Master Plan shall be considered for approval if it complies with this section, the applicable City regulations, the Development Plan, and generally accepted park-planning practices.
    d. The District shall contain not less than eleven (11) acres of land to be used as public or private parkland. A minimum of eleven (11) contiguous acres shall be dedicated to the City in accordance with the City's Neighborhood Parkland Dedication Ordinance on approval of the final plats for those phases adjacent to or abutting the proposed parkland dedication and will provide access to said parkland area. The remaining parkland area

DRAFT ORDINANCE

will be retained as a private park within the District. Park improvements shall be constructed in accordance with the approved Open Space Master Plan. The site plan incorporating the design of park improvements and hike/bike trail improvements shall be considered for approval with the final plat for the phase of the development containing such improvements. Performance of the obligations in this subparagraph shall be deemed to fully satisfy the City's Neighborhood Parkland Dedication Ordinance regarding land dedication. At the time of recordation of final plats for each phase, the Developer shall pay park improvement fees to the City. These fees shall be held in an escrow account until the parkland is dedicated to the City, at which time the Developer shall inform the City if the Developer wishes to use the escrowed fees as well as future fees to construct park improvements. Prior to construction, said improvements shall be approved by Parks Director, approval not to be unreasonably withheld, and invoices for improvements shall be submitted to Parks Director for approval. Performance of the obligations in this subparagraph shall be deemed to fully satisfy the City's Neighborhood Parkland Dedication Ordinance regarding park development fees, provided that park improvements are installed at a value equal or exceeding the value of park improvement fees for the entire District applicable at that time, or improvement fees are paid. Thereafter, the Developer shall not be responsible for additional parkland dedication or park development fees associated with the Property, except as otherwise may be provided in a capital facilities agreement approved by the City.

7. Developer shall provide a minimum of one (1) retention pond in the District with hard edges and fountain features. The exact configuration and location of the ponds will be determined at development. All retention pond hardedges shall be similar to the hardedge shown on Figure 1 (below).

Figure 1: *Retention Pond with Hardedge.*

8. *Signage.* Permanent subdivision identification signage shall be permitted at all major entry points, in general conformance to the signage shown in Figure 2 & 3 (below). Final design of entry features to be determined with the Planned Development Site Plan.

DRAFT ORDINANCE 08.17.16

Figure 2: *Example of Subdivision Signage Locations*

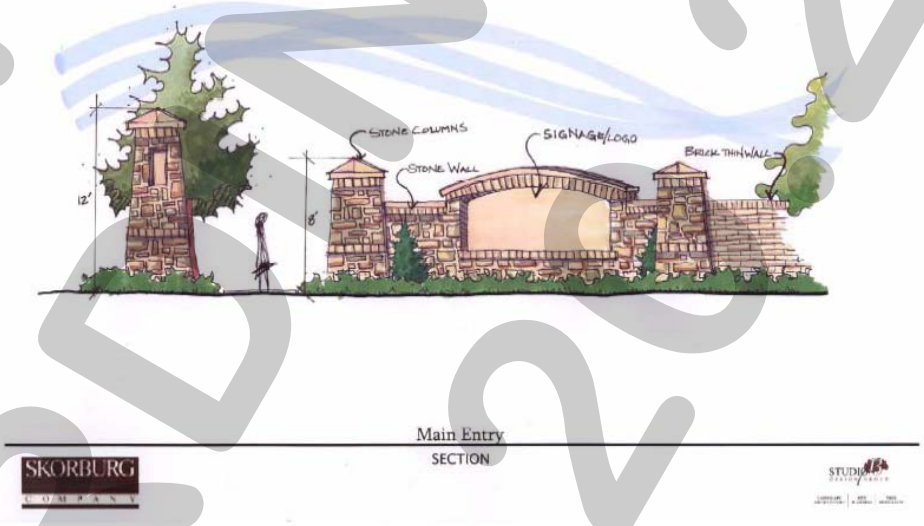

Figure 3: *Example of Subdivision Signage Design Standard*

9. *Variances.* The variance procedures and standards for approval set forth in the Unified Development Code shall apply to any application for variances to this ordinance.
10. *Amenity Center.* Site plan, landscape plan and building elevations for the Amenity Center shall be approved by the Planning and Zoning Commission prior to construction.
11. *Trees.* All trees planted within the District shall be a minimum three (3) inch caliper measured six (6) inches above the root ball.

DRAFT ORDINANCE 09.2016

EXHIBIT 'D': CAPITAL FACILITIES AGREEMENT FOR BREEZY HILL

THIS CAPITAL FACILITIES AGREEMENT (the "Agreement") is by and among the Breezy Hill 405, Ltd, ("Breezy" or "Developer") and the City of Rockwall, Texas ("City" or "Rockwall "),

I. RECITALS

1. Breezy seeks to rezone and subdivide the Property for single-family residential use and certain commercial uses. Breezy shall submit an application to rezone the 405 acres north of FM-552 (the "Property") as a planned development (PD) district for a development currently known as Breezy Hill (the "PD District"),

NOW, THEREFORE, in consideration of the foregoing recitals and mutual covenants contained herein, the Parties hereto agree as follows:

II. ADEQUATE PUBLIC FACILITIES

1. *General Provisions.*

a. *Adequacy Required.* Development of the Property shall be supported with adequate levels of public facilities and services, Adequate facilities and services are those that (i) comply with the applicable City regulations, including this Agreement, and (ii) are consistent with generally accepted engineering and planning practices for similar developments, The Parties agree that the dedication and construction of public improvements, or the contribution of proportionate development fees, required to support development of the Property shall precede or be concurrent with the construction of private improvements to the land, in accordance with the phasing provisions incorporated within this section, or as otherwise may be provided through approval of a master plat.

b. *Proportionality.* The Parties agree that the dedication or construction of public improvements, or the contributions of development fees, provided for in this Agreement are roughly proportional to the nature and extent of the proposed development of the Property on the City's public facilities systems. Breezy hereby covenants not to sue the City for any claim, or otherwise consent to participate in any action against the City arising from any claim by such party or by its affiliates, alleging that application of the adequate facilities requirements set forth in this Part II of the Agreement to the development of the Property, or the imposition of conditions to a plat application for a portion of the Property that are consistent with the requirements of this section, are not roughly proportional to the impacts of the development depicted in the Concept Plan, including but not limited to any action premised upon Tex. Loc. Gov't Code sec. 212.904 or successor statute. Such covenant not to sue touches and concerns the Property, and is a covenant running with the land such that it binds successors-in-interest and assigns of Breezy. Should any successor-in-interest or assign of Breezy other than an affiliate of Breezy assert any of the foregoing claims in a court of competent jurisdiction, in violation of this Subsection 1 (b), with respect to the development of any portion of the Property, the Parties agree that, with respect to such portion of the Property or all of the Property, at the City's option, this Agreement thereupon shall become null and void and any rights that may otherwise have

BLS

DRAFT ORDINANCE 09-19-2016

vested under then existing state law shall be waived upon such event. Breezy further agrees that the City may expressly rely upon the provisions of this paragraph in any certification under section 212.904 and that a court in determining rough proportionality may consider all of the Property. Should Breezy or an affiliate of Breezy violate the covenant not to sue contained in this paragraph, the City may either enforce the covenant or pursue the remedies provided for herein that are applicable to successors or assigns, other than affiliates. As used in this Agreement, the term "affiliate" means any person, corporation, partnership, or other entity controlled by, controlling, or under common control with Breezy.

c. *No Waiver.* The requirements in this Part II shall be considered additional standards and conditions applicable to development within the PD District. Except in the event of a conflict between the standards in this Agreement and other standards applicable within the District, nothing in this Agreement shall be construed as superseding any requirement or standard in the City's subdivision or utility regulations relating to provision of adequate public facilities and services.

2. *Wastewater Services.*

a. *City as Provider.* The City shall be the supplier of wastewater services to the Property.
