I, Laura Morales, Planning & Zoning Coordinator of the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 19th day of February, 2016 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

AGENDA
PLANNING AND ZONING COMMISSION WORK SESSION
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
March 29, 2016
6:00 P.M.

CALL TO ORDER

CONSENT AGENDA

1. **Approval of Minutes** for the *February 23, 2016* Planning and Zoning Commission meeting.

2. **P2016-006** **(Korey)**
   Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Balance I LLC for the approval of a preliminary plat for Breezy Hill, Phase VII containing 10 single-family residential lots on 6.802-acres of land identified as Tract 7-10 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single Family 10 (SF-10) District land uses, situated within the 205 By-Pass Corridor Overlay (205 BY-OV) District, located at the northeast corner of N. John King Boulevard and Cozy View Drive, and take any action necessary.

3. **P2016-007** **(Ryan)**
   Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Balance I LLC for the approval of a preliminary plat for Breezy Hill, Phase VI containing 79 single-family residential lots on 32.020-acre portion of a larger 61.528-acre tract of land identified as Tract 7 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single Family 10 (SF-10) District land uses, generally located northeast of the intersection of N. John King Boulevard and Life Springs Drive, and take any action necessary.

APPOINTMENTS

4. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

PUBLIC HEARING ITEMS

5. **P2016-009** **(Korey)**
   Hold a public hearing to discuss and consider a request by Michael Hunter of the Rockwall Housing Development Corporation for the approval of a residential replat for Lots 1 & 2, Block H, Lake Rockwall Estates East Addition being a 0.27-acre parcel of land currently identified as Lot 984A of the Rockwall Lake Estates #2 Subdivision, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 75 (PD-75) for Single Family-7 (SF-7) District land uses, located at 112 Chris Street, and take any action necessary.

6. **Z2016-006** **(Korey)**
   Hold a public hearing to discuss and consider a request by John Cherry for the approval of a Specific Use Permit (SUP) for a carport on a 1.04-acre tract of land identified as Tract 47 of the R. Ballard Survey, Abstract No. 29, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, addressed as 303 Renfro Street, and take any action necessary.

7. **Z2016-007** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Scott W. Blackwood for the approval of a zoning change from Agricultural (AG) District to a General Retail (GR) District on a 12.493-acre tract of land identified as Tract 17-14 of the W. W. Ford Survey, Abstract No. 80, City of Rockwall, Rockwall County, Texas, located west of the intersection of SH-205 [*S. Goliad Street*] and S. FM-549, addressed as 5205 S. FM-549, and take any action necessary.

ACTION ITEMS

8. **MIS2016-005** **(Korey)**
   Discuss and consider a request by William Laurence for the approval of an exception to the minimum masonry requirements stipulated in Section 3.1, *General Residential District Standards*, of Article V, *District Development Standards*, of the Unified Development Code, for a 0.17-acre parcel of land identified as Lot 1, Block 1, St. Mary's Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, addressed as 508 St. Mary's Street, and take any action necessary.

9. **MIS2016-006** **(David)**
   Discuss and consider the approval of a special request by Ulises Martinez Viveros & Rosita Z. Barron for the construction of a manufactured home that does not meet the minimum standards for square footage and materials as set forth in *Exhibit 'C'* of Planned Development District 75 (PD-75) [*Ordinance No. 09-37*] on a 0.17-acre parcels of land identified as Lot 838A, Rockwall Lake Estates #2 Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 75 (PD-75) for Single Family 7 (SF-7) District land uses, addressed as 120 Blanche Drive, and take any action necessary.

10. **P2016-011** **(David)**
    Discuss and consider a request by Pat Atkins of Saddle Star Land Development, LLC on behalf of the owner Larry Hance for the approval of a master plat/open space plan for the Saddle Star North Subdivision containing 108 single-family residential lots on a 44.56-acre tract of land identified as Tract 3 of the T. R. Bailey Survey, Abstract No. 30, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 80 (PD-80) for Single Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located at the northwest corner of FM-552 and John King Boulevard, and take any action necessary.

11. **P2016-010** **(David)**
    Discuss and consider a request by Pat Atkins of Saddle Star Land Development, LLC on behalf of the owner Larry Hance for the approval of a preliminary plat for the Saddle Star North Subdivision containing 108 single-family residential lots on a 44.56-acre tract of land identified as Tract 3 of the T. R. Bailey Survey, Abstract No. 30, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 80 (PD-80) for Single Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located at the northwest corner of FM-552 and John King Boulevard, and take any action necessary.

DISCUSSION ITEMS

12. **Z2016-008** **(Korey)**
    Hold a public hearing to discuss and consider a request by Darrell Simpson on behalf of Sherri Banuelos for the approval of a Specific Use Permit (SUP) to allow an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.03-acre tract of land identified as Tract 11-5 of the D. Harr Survey, Abstract No. 102, City of Rockwall, Rockwall County, Texas, zoned Single Family One (SF-1) District, addressed as 735 Davis Drive, and take any action necessary.

13. **Z2016-009** **(David)**
    Hold a public hearing to discuss and consider a request by Mohamed Taha for the approval of a Specific Use Permit (SUP) to allow a minor auto repair garage to be established in conjunction with an existing oil/lube change facility located on a 0.2755-acre parcel of land identified as Lot 3, Block B, Rockwall High School Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) District, addressed as 2225 Ridge Road, and take any action necessary.

14. **Z2016-010** **(David)**
    Hold a public hearing to discuss and consider a request by Grey Stogner of Crestview Real Estate on behalf of the owner Tom R. Briscoe of Briscoe Oil, Inc. for the approval of a PD Development Plan for an urgent care facility on a 1.042-acre tract of land identified as Lots 1 & 2, Block A, Briscoe/Hillcrest Addition and Tract 41-2 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Summit Office Subdistrict* and the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of Horizon Road [*FM3097*] and the IH-30 frontage road, and take any action necessary.

15. **Z2016-011** **(Ryan)**
    Hold a public hearing to discuss and consider a request by Fred Hazel of Davis Development on behalf of Jim Kirby of Rockway Partners, LLC for the approval of a zoning change from a Commercial (C) District to a Planned Development District for a multi-family apartment complex on a 17.60-acre tract of land identified as Lots 6-11, Block A, La Jolla Pointe Addition, Phase 2, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, located east of the intersection of Laguna Drive and La Jolla Pointe Drive, and take any action necessary.

16. **P2016-012** **(Korey)**
    Discuss and consider a request by Worth Williams of Moore Worth Investments, LLC on behalf of Jean Voltz of Arkoma Development LLC for the approval of preliminary plat for Lots 1-4, Block A, Lakeshore Commons Addition being a 4.706-acre tract of land identified as Tract 8-4 of the J. H. B. Jones Survey, Abstract No. 124, City of Rockwall, Rockwall County, Texas zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, located at the southwest corner of the intersection of SH-205 [*N. Goliad Street*] and North Lakeshore Drive, situated within the North SH-205 Overlay (N. SH-205 OV) District, and take any action necessary.

17. **SP2016-005** **(Korey)**
    Discuss and consider a request by Jay Holman & Don Silverman of Rockwall 205-552, LLC for the approval of site plan for a retail building on a 1.231-acre portion of a larger 9.183-acre tract of land identified as Tract 4-1 of the T. R. Bailey Survey, Abstract No. 30, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the northwest corner of the intersection of SH-205 [*N. Goliad Street*] and FM-552, and take any action necessary.

Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, located on Rochell Road south of the intersection of Rochell Road the SH-276, and take any action necessary.

9. Z2016-014 (Ryan)

Hold a public hearing to discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of the owner Lakeside Church of Christ of Rockwall for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single Family 10 (SF-10) District land uses on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and located on the north side of Airport Road, west of the intersection of Airport Road and FM3549, and take any action necessary.

10. Z2016-015 (Ryan)

Hold a public hearing to discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (*R. & R. Hance Investments, LP*) for the approval of a zoning amendment to Planned Development District 79 (PD-79) [*Ordinance No. 16-07*] for the purpose of amending the concept plan and incorporating 11.121-acres of land into the existing 44.292-acre development creating a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.

11. Z2016-016 (Ryan)

Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 4, *Southside Residential Neighborhood Overlay (SRO) District*, of Article V, *District Development Standards*, of the Unified Development Code, and take any action necessary.

12. Z2016-017 (Ryan)

Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 1, *Land Use Schedule*, and Section 2.1.8, *Auto and Marine-Related Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code for the purpose of changing the requirements for *Used Motor Vehicle Dealerships*, and take any action necessary.

13. P2016-016 (David)

Discuss and consider a request by Bart Carroll of Carroll Consulting Group, Inc. on behalf of the owner Robert John Crowell of Crowell Development Corporation for the approval of a final plat for Wanda Ridge Estates, Phase 2 containing 45 single-family residential lots on 79.7111-acres identified as Tract 17-3 (*4.679-acres*), Tract 19 (*61.658-acres*), and Tract 42-01 (*13.374-acres*) of the S. McFadgin Survey, Abstract No. 142, Rockwall County, Texas, situated in the City of Rockwall's Extraterritorial Jurisdiction (ETJ), located north of the intersection of Wanda Lane and FM-548, and take any action necessary.

14. SP2016-006 (Ryan)

Discuss and consider a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Michael James of U. V. Real Estate, LP for the approval of a site plan for an *Auto Body Shop* (*i.e. Service King Collision Repair*) on a 3.2039-acre tract of land described as Tract 7-01 of the J. Lockhart Survey, Abstract No. 134, City of Rockwall, Rockwall County, Texas, located at 1780 E IH-30, zoned Light Industrial (LI) District, situated within the IH-30 Overlay (IH-30 OV) District, and take any action necessary.

15. SP2016-007 (David)

Discuss and consider a request by Bryan M. Burger, PE of Burger Engineering, LLC on behalf of the owner Don Silverman of Rockwall 205-552, LLC for the approval of site plan for a grocery store (*i.e. Aldi Food Store*) on a 1.972-acre portion of a larger 9.183-acre tract of land identified as Tract 4-1 of the T. R. Bailey Survey, Abstract No. 30, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the northwest corner of the intersection of SH-205 [*N. Goliad Street*] and FM-552, and take any action necessary.

16. SP2016-008 (Korey)

Discuss and consider a request by Vincent Jarrard of Eurthmic Design Group Architects on behalf of the owner Cameron Bagley of Racetrac Petroleum, Inc. for the approval of site plan for a *car wash/auto detail* facility (*i.e. Carmel Carwash*) on a 1.3-acre tract of land identified as Lot 1, Block 1, Crossings Addition (*i.e. 1.004-acres*) and a 0.296-acre portion of Lot 1, Block 1, Rockwall Business Park Addition, City of Rockwall,

Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2003 S. Goliad Street, and take any action necessary.

17. SP2016-009 **(David)**

Discuss and consider a request by Eric Morff of Cole on behalf of the owner 2804 Ridge, LLC for the approval of site plan for a *restaurant with drive-through* (*i.e. Panera Bread*) on a 0.93-acre parcel of land identified as Lot 2 of the Road Runner Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, addressed as 2804 S. Goliad Street, and take any action necessary.

18. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2016-008: Preliminary Plat for Lots 1-4, Block A, Lakeshore Commons Addition [*Approved*]
- ✓ Z2016-006: SUP for a Carport at 303 Renfro Drive (*2nd Reading*) [*Approved*]
- ✓ Z2016-008: SUP for an Accessory Building at 735 David Drive (*1st Reading*) [*Approved*]
- ✓ Z2016-009: SUP for a Minor Automotive Facility at 2225 Ridge Road (*1st Reading*) [*Approved*]
- ✓ Z2016-010: PD Development Plan for Care Now (*1st Reading*) [*Approved*]
- ✓ Z2016-011: Zoning Change (*Commercial to PD for a Multi-Family Apartment Complex*) [*Withdrawn*]

ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator of the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 22nd day of April, 2016 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

AGENDA
ARCHITECTURAL REVIEW BOARD MEETING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers Conference Room
April 26, 2016
5:00 P.M.

DISCUSSION ITEMS

1. **SP2016-006** **(Ryan)**
   Discuss and consider a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Michael James of U. V. Real Estate, LP for the approval of a site plan for an *Auto Body Shop* (*i.e. Service King Collision Repair*) on a 3.2039-acre tract of land described as Tract 7-01 of the J. Lockhart Survey, Abstract No. 134, City of Rockwall, Rockwall County, Texas, located at 1780 E IH-30, zoned Light Industrial (LI) District, situated within the IH-30 Overlay (IH-30 OV) District, and take any action necessary.

2. **SP2016-007** **(David)**
   Discuss and consider a request by Bryan M. Burger, PE of Burger Engineering, LLC on behalf of the owner Don Silverman of Rockwall 205-552, LLC for the approval of site plan for a grocery store (*i.e. Aldi Food Store*) on a 1.972-acre portion of a larger 9.183-acre tract of land identified as Tract 4-1 of the T. R. Bailey Survey, Abstract No. 30, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the northwest corner of the intersection of SH-205 [*N. Goliad Street*] and FM-552, and take any action necessary.

3. **SP2016-008** **(Korey)**
   Discuss and consider a request by Vincent Jarrard of Eurthmic Design Group Architects on behalf of the owner Cameron Bagley of Racetrac Petroleum, Inc. for the approval of site plan for a *car wash/auto detail* facility (*i.e. Carmel Carwash*) on a 1.3-acre tract of land identified as Lot 1, Block 1, Crossings Addition (*i.e. 1.004-acres*) and a 0.296-acre portion of Lot 1, Block 1, Rockwall Business Park Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2003 S. Goliad Street, and take any action necessary.

4. **SP2016-009** **(David)**
   Discuss and consider a request by Eric Morff of Cole on behalf of the owner 2804 Ridge, LLC for the approval of site plan for a *restaurant with drive-through* (*i.e. Panera Bread*) on a 0.93-acre parcel of land identified as Lot 2 of the Road Runner Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 2804 S. I, Laura Morales, Planning & Zoning Coordinator for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 22nd day of April, 2016, by 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MINUTES

PLANNING AND ZONING COMMISSION WORK SESSION

City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
April 12, 2016
6:00 P.M.

I. CALL TO ORDER

Chairman Renfro called the meeting to order at 6:01 p.m. Present were Commissioner John McCutcheon, Patrick Trowbridge, Johnny Lyons, Annie Fishman, Tracy Logan and Sandra Whitley. Staff members present were Planning Director, Ryan Miller, Senior Planner, David Gonzales, Planner, Korey Brooks, Planning Coordinator, Laura Morales, Assistant Engineer, Amy Williams, Civil Engineer, Jeremy White and Fire Marshal, Ariana Hargrove.

II. CONSENT AGENDA

1. Approval of Minutes for the March 29, 2016 Planning and Zoning Commission meeting.

2. P2016-012

Discuss and consider a request by Worth Williams of Moore Worth Investments, LLC on behalf of Jean Voltz of Arkoma Development LLC for the approval of preliminary plat for Lots 1-4, Block A, Lakeshore Commons Addition being a 4.706-acre tract of land identified as Tract 8-4 of the J. H. B. Jones Survey, Abstract No. 124, City of Rockwall, Rockwall County, Texas zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, located at the southwest corner of the intersection of SH-205 [*N. Goliad Street*] and North Lakeshore Drive, situated within the North SH-205 Overlay (N. SH-205 OV) District, and take any action necessary.

Commissioner McCutcheon made motion to pass the consent agenda. Commissioner Lyons seconded the motion which passed by a vote of 7-0.

III. PUBLIC HEARING ITEMS

3. Z2016-008

Hold a public hearing to discuss and consider a request by Darrell Simpson on behalf of Sherri Banuelos for the approval of a Specific Use Permit (SUP) to allow an accessory building that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 1.03-acre tract of land identified as Tract 11-5 of the D. Harr Survey, Abstract No. 102, City of Rockwall, Rockwall County, Texas, zoned Single Family One (SF-1) District, addressed as 735 Davis Drive, and take any action necessary.

Planner, Korey Brooks, gave brief explanation of request stating that the applicant, Sherry Banuelos is requesting a Specific Use Permit to allow for an accessory building that does not meet the minimum requirements specified in the Unified Development Code According to the section SF-1 in the UDCC no more than two accessory buildings are allowed which are up to 225 square feet in area and 15 feet or less in height, and the exterior cladding contains only materials found on the main structure. The subject property is zoned Single Family 1 District. The proposed accessory building will stand approximately 15-feet in total height and will have a building footprint of 24-feet x 36-feet or approximately 864 square feet. The accessory building will be located behind the main residential structure and not visible from the street. The applicant is requesting a waiver to the size requirement to allow for a building approximately 639 sq. ft. larger than the maximum size allowed in a SF-1 District. The applicant is also requesting a waiver to the masonry requirement to construct the accessory building out of a steel building system with a standing seam metal roof that does not comply with the masonry requirements for an accessory building in an SF-1 District. The applicant plans to extend the current gravel driveway to the accessory building to allow access to the building.

Mr. Brooks also stated that 23 notices to property owners and occupants within 500-feet of the subject property were mailed as well as notification sent to the Rolling Meadows HOA, which is the only HOA/Neighborhood Organization that is within 1,500-feet and participating in the

notification program. Additionally, a sign was posted on the subject property as required by the Unified Development Code. Staff had not received any notices returned.

Chairman Renfro asked the applicant to come forth and speak.

Darrell Simpson
635 Davis Dr.
Rockwall, TX

Mr. Simpson, representative for Ms. Banuelos came forward and said he was available for questions.

Commissioner Trowbridge asked what kind of roof will be on the building. Mr. Simpson stated it will be a white metal roof.

Chairman Renfro opened the public hearing and asked if anyone who wished to come forward and speak to do so. There being no one indicating such, Chairman Renfro closed the public hearing and brought the item back to the Commission for discussion.

Commissioner Trowbridge made motion to pass the item with staff recommendations. Commissioner McCutcheon seconded the motion, which passed by a vote of 7-0.

4. Z2016-009
Hold a public hearing to discuss and consider a request by Mohamed Taha for the approval of a Specific Use Permit (SUP) to allow a minor auto repair garage to be established in conjunction with an existing oil/lube change facility located on a 0.2755-acre parcel of land identified as Lot 3, Block B, Rockwall High School Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) District, addressed as 2225 Ridge Road, and take any action necessary.

Senior Planner David Gonzales gave brief explanation of request stating that the reason for the request for the SUP is for the purpose of allowing outside storage of vehicles for customers that are in need of parts or equipment unavailable at the time of service. These vehicles would be parked/stored at the rear of the building for a period of no more than 48 hours, and should not be visible from Ridge Road when parked behind the building. This facility has been in operation since 1987 and has an approved site plan indicating four diagonal parking spaces. The applicant has provided an amended site plan depicting seven striped head-in parking spaces located at the rear of the building with the possibility of one or two spaces being visible from the sidewalk and right of way. Should the SUP be approved as requested, the Unified Development Code would require screening of the stored vehicles from public streets, sidewalks, and open space. Also, Mr. Taha made a similar request for a SUP in September 2014 and was denied by City Council on November 3, 2014. This item was considered to be denied with prejudice, requiring the applicant to wait for a period of at least one year from the date of denial in order to resubmit the same or similar application.

Mr. Gonzales added that also to consider is the Engineering Departments standards of design and construction regarding parking spaces. Based on the design standards, these parking spaces are to be a minimum 9-ft X 20-ft with a 24-ft wide aisle behind the parking spaces for maneuvering. Based on the proposed design, a turnaround behind the last parking space is required, with no dead-end parking allowed.

Mr. Gonzales further noted that staff mailed twenty-nine notices to property owners and residents within 500 feet of the subject property and also notified one HOA within 1500-feet and posted a sign on the subject property. Three notices were received in opposition of the request. Mr. Gonzales stated Mr. Taha and his attorney were both present and available for questions as well as staff.

Chairman Renfro asked the Commission for any questions for staff.

Commissioner Trowbridge wanted to clarify what was being considered for approval is seven parking spaces of which some can be seen from the road as well as the radius at the end of the parking area for two spaces.

Mr. Gonzales stated the applicant is requesting the seven spaces however with that request a screening mechanism was not part of the request when it was submitted that would need to be discussed. Also concerning the two parking spaces, those would be lost it is fifteen feet that they have to abide by.

Chairman Renfro asked concerning the number of violations applicant has had as there have been several since the opening of his business and from the last time the applicant was before he Commission. Mr. Gonzales stated that from the time the application was received the total amount of citations that have been issued is 33 however since the last Specific Use Permit request where applicant came before the Commission there has been 24 for a total of 33 since Code Enforcement has been involved.

Commissioner Trowbridge asked if this was a Specific Use Permit is within a Scenic Overlay. Mr. Gonzales stated it is.

Chairman Renfro opened the public hearing and asked the applicant to come forward.

Mohamed Taha
4713 One Place Dr.
Garland, TX

Chairman Renfro asked Mr. Taha concerning the violations. Mr. Taha stated the violations began after the last request he made last year where he failed to attend the City Council meeting where request was denied and reason for that was his misunderstanding that once the Planning and Zoning Commission approved that was the final step. Two of the violations were for vehicles that came in overnight after closing both of which were waiting on parts, he explained to Code Officer but according to the Code due to the vehicles being there it was a violation. Mr. Taha went on to explain that at the beginning he was not aware of the Code in its entirety believing that as long as the cars were parked behind the building it was not a violation and that led to citations which he took to court where some were dismissed and then was informed he would be in violation until he came before the Commission and City Council for approval of request that would allow the vehicles to be parked outside.

Commissioner Trowbridge asked if he was the owner of the business and the land. Mr. Taha stated he is only the owner of the business the land owner is his business partner.

Commissioner Lyons asked if any repairs were done to vehicles outside of the building. Mr. Taha stated the work is done inside the bay, occasionally if a tow truck drops off a vehicle that is in need of a part in order to be moved inside the bay that will be done for that purpose.

Commissioner Lyons asked if original request was for four parking spaces, why the change to seven. Mr. Taha stated that due to the increase of business he feels there is need.
Mr. Gonzales added that the original request was for seven as well, but it was the recommendation of Planning and Zoning at that time to approve four.

Heath Grob
106 N. 2nd Street
Rockwall, TX

Mr. Grob came forward stated he is the representative for Mr. Taha and stated the reason for requesting the seven parking spaces is because those spaces are not open to the public, they line up with the bay to allow access in and out from the bay there is no real turning around back there. Concerning the citations, 21 of the citations were just three incidents, there are seven parking spots that is seven tickets per incident. The third time a citation was issued is when Mr. Taha retained him as attorney. Mr. Grob further clarified that the reason Mr. Taha did not attend the last City Council meeting was due to his misunderstanding that he had one meeting left for approval. Concerning the screening of the vehicles Mr. Taha is willing to put a gate that would screen all vehicles from the street, however it does not remedy the visibility of the vehicles to

the three story building that is behind them, and aside from landscaping that is impossible to block, however being that the vehicles would only be parked at night, it should not affect them.

Commissioner Logan asked if the approval was granted where the gate would be built at. Mr. Grob stated it would come along the right side of the building and it would be a six or seven foot gate that would be closed when business is closed for the evening.

Chairman Renfro opened the public hearing and asked anyone who wished to speak to come forward and do so at this time.

Deborah Shultz
1435 Foxwood Lane
Rockwall, TX

Mrs. Shultz came forward and stated she is in favor of the request. She has worked with Mr. Taha in the past when taking her vehicle in for repair and he has been very helpful in working with her as she is a single mom. Her kid's scouting troop has also volunteered to help with any cleaning and such should it be needed in the business. She added her father owned his own business as well and feels it should be allowed that he park within his own property.

Nell Wellborn
810 Lake Meadows Circle
Rockwall, TX

Ms. Wellborn came forward and stated she is in opposition of the request. She believes this Specific Use Permit is going beyond what the City is required to do. She feels this location was not ideal for this type of business, and over the years it has gotten worse instead of better. She doesn't believe the office building that sits behind complains of the visibility issue, however they do complain of employees of Mr. Taha parking in their office due to lack of parking. Ms. Welborn brought pictures she wanted to share but were unable to present them due to a technical problem.

Terri Nevitt
201 Becky Lane
Rockwall, TX

Ms. Nevitt came forward and stated she is in opposition of the request, feels size and location of this business it is too small for the amount of business he is generating, feels he has outgrown the location and should look to relocate to better suite his growth.

Chairman Renfro asked if anyone else wished to speak, there being no one indicating such Chairman Renfro closed the public hearing, brought the item back to the Commission and asked the applicant to come forward to offer any rebuttal.

Mr. Taha stated that concerning the parking for his employees, he contacted the owner of the parking area directly across the street from him and is going to be leasing it to allow for his employees to park there. Concerning the expanding plan currently he has contacted a contractor to do remodeling to keep with Rockwall's standards.

Chairman Renfro asked concerning the possibility that this location has outgrown the location. Mr. Taha stated he is now booking appointments and downloaded a software that allows for him not to book more vehicles than a day can handle, aside from times when he is awaiting parts that are generally not in stock where the vehicles do have to stay.

Commissioner Logan asked if there are three bays, can three vehicles be stored within those. Mr. Taha stated that creates a problem when he opens the business, at the time he opens he would have to move all the vehicles and there are only two employees on staff in the morning therefor having them parked facilitates the opening instead of moving in and out of the bay.

Commissioner McCutcheon brought up that at the time of last request Mr. Taha had said there would be some remodeling to the business at that time, and asked why that had not been done as of yet.

Mr. Taha stated at that time it was not financially feasible, but within this last year business has grown and have now met with the contractor and are going to be moving forward with that.

Commissioner Lyons stated concern with having seven spaces versus the four, the safety concern of fitting seven in such a tight area, he asked for clarification of what size they would be assuming they are not going to be standard sized spaces. Mr. Gonzales stated the engineered design require them to be 9x20 they have to be standard parking spaces unless the Commission approves otherwise. Mr. Taha added that when he first came into the building the parking spaces were not slanted as they are now but were straight. Mr. Lyons added he was leaning for approving four instead of seven.

Chairman Renfro asked for further discussion from the Commission before taking action.

Commissioner Trowbridge stated concern this being in the Scenic Overlay; felt it had to be carefully thought out to keep the integrity of this area.

Chairman Renfro added that outgrowing a business is a good thing that marks success but does agree that there does need to find the balance between helping the citizen as well as keeping the integrity of the Scenic Overlay.

Commissioner McCutcheon also expressed concern if request is turned down, what is being gained from that as it will still be an existing building.

Commissioner Whitley stated concern with the amount of violations, and who would monitor that the vehicles are only stored overnight.

Commissioner Trowbridge asked if item is approved with four spaces versus seven, how the motion would move forward. Mr. Gonzales stated the applicants request is for seven parking spaces, however if the Commission changes that is what would go forward to City Council.

Commissioner Fishman stated her concern is finding balance between the land uses of the location with it being in a Scenic Overlay and having a good Rockwall business that is encouraged but feels this business may have outgrown the location.

Commissioner Lyons made motion to approve with staff recommendations with four slanted parking spaces, without screening. Commissioner McCutcheon made amendment to add the screening. Commissioner Lyons denied the amendment. Commissioner Logan seconded the motion. The motion passed by a vote of 4-3 with Chairman Renfro, Commissioner Whitley and Commissioner McCutcheon dissenting.

5. Z2016-010

Hold a public hearing to discuss and consider a request by Grey Stogner of Crestview Real Estate on behalf of the owner Tom R. Briscoe of Briscoe Oil, Inc. for the approval of a PD Development Plan for an urgent care facility on a 1.042-acre tract of land identified as Lots 1 & 2, Block A, Briscoe/Hillcrest Addition and Tract 41-2 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Summit Office Subdistrict* and the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of Horizon Road [*FM3097*] and the IH-30 frontage road, and take any action necessary.

Senior Planner, David Gonzales, gave brief explanation of request explaining that on September 20, 2010, the City Council passed Ordinance No. 10-21 [Planned Development District 32, which established a concept plan and development standards for the approximate 78.89-acre tract of land commonly referred to as PD-32 or the Harbor District. Within the approved concept plan, PD-32 was divided into ten subdistricts that contained individual development and land use standards. The subject property is a 1.042-acre portion of land located within the Summit Office Subdistrict, which according to the PD Ordinance is intended to capitalize on the superior views of Lake Ray Hubbard by providing mid-rise office buildings. Key characteristics include good visibility and ease of access from Interstate 30 and Horizon Road.

Mr. Gonzales further added that the applicant, Grey Stogner, has submitted an application for the approval of a PD Development Plan indicating a proposed layout for the 1.042-acre tract of land. Based on the applicant's concept plan, a waiver to the building placement requirements

will be required for the purpose of allowing the buildings' easterly facing facade to be situated no more than 60-ft to 70-ft from Horizon Road and for the southerly facing façade to vary from the horizontal articulation standards. It should be noted that the district's intent for the buildings setback from Horizon Road is 150 feet; however, the property has been platted with a 25-ft building setback. Since the applicant is requesting waivers to Ordinance No. 10-21 and the proposed use while being a permitted use does not meet Criteria A of Section 9.C that states it needs to meet the general intent of the PD District or Subdistrict in which the subject property is located, staff has required the applicant to submit a PD Development Plan. Through this process, the City Council retains discretionary approval over the request to ensure that the proposed development does not have a negative impact on adjacent properties.

Mr. Gonzales went on to further explain that the concept plan for the Summit Office Subdistrict calls for pedestrian opportunities extending parallel with Pinnacle Way Drive, which is the primary connector to Horizon Road. Street Type B which is Pinnacle Way Drive calls for a 48-ft right-of-way that includes a 24-ft street section with an 8-ft sidewalk, street trees, and pedestrian scaled streetlights, which meets the requirements outlined in Ord No. 10-21. The plan submitted by the applicant does conform to the majority of the technical requirements of PD-32, with the exception of the building placement requirements and the horizontal articulation standards. According to the ordinance, a minimum of 45% of the building façade facing the proposed Pinnacle Way Drive is to be built to the build-to-line with the remaining portion of the façade to be no less than 2-ft and no greater than 12-ft from the BTL creating horizontal articulation. Although the applicant has provided a recess in the elevation extending to the BTL, it only represents approximately 32% or a 27-ft expanse of the façade rather the 45% or a 38-ft expanse of this plane as required by the ordinance. Another aspect to consider with this request is the abandonment of Hill Top Lane, which bisects the Briscoe property. This right-of-way will be exchanged for the realigned Pinnacle Way Drive. The original intent of Hill Top Lane was to provide cross access for the 1.042-acre property located along the western boundary which is Harbor District Addition, Block A, Lot 4 of the subject property. Access will still be provided through a 24-ft cross access easement to the property and will be dedicated during the platting process. This has been included as a condition of approval in this case memo and in the draft ordinance.

Also, taking the intent of the district into consideration the current plan does seem to conform to the vision stated within the concept plan with respect to the creation of a pedestrian friendly environment along Pinnacle Way Drive. With this being said, the requested waivers for building placement and horizontal articulation along with the abandonment of Hill Top Lane and the issue of cross access to the adjoining property makes this a discretionary approval for the City Council. Should the City Council choose to grant the request the applicant will still need to submit a PD Site Plan that will be reviewed by the Architectural Review Board and the Planning and Zoning Commission.

Mr. Gonzales also advised the Commission that on April 1, 2016, staff mailed 28 notices to property owners and residents within 500 feet of the subject property. Staff also emailed notices to the Lakeside Village and Lago Vista Homeowner's Associations, which are the only HOA's located within 1,500 feet of the subject property and also posted a sign at the corner of the intersection of Sunset Ridge Drive and the IH-30 Frontage Road. Staff has received one response in favor of the PD Development Plan request. Mr. Gonzales added the applicant is present to answer questions as well as staff.

Chairman Renfro asked for questions for staff.

Commissioner Trowbridge asked if land to the left hand corner where the Trend Tower and the parking garage will be contiguous to the neighboring property or is there a property in between the proposed lot. Mr. Gonzales stated future development will happen on that property.

Commissioner Logan asked if standard is 150 foot setback and the depth from Horizon is only 176 feet would it be considered under the current standards not developable. Mr. Gonzales stated the property is platted with a 25 foot setback and looking at the Concept Plan refers to that area as a parking lot but when the three lots are combined then you have a developable piece of property therefor that is the purpose of applicant bringing forward the PD Development Plan for the Commissions consideration. That is reason for built in flexibility.

Chairman Renfro asked if Concept Plan also calls for a midsize office type building. Mr. Gonzales stated it called for a midrise up to eight stories high that is what the intent of the District is to not have a building that goes beyond eight stories. Chairman Renfro added that it called for it to go upward not outward being that the lot is so small.

Planning Director, Ryan Miller added that the way PD 32 was written, it was understood that not all development would conform to the Concept Plan because a Concept Plan was being laid out for the entire district sometimes it involved smaller parcels of land, this being one of them. Therefore within the Concept Plan itself subdistrict were created where the intent was broadly stated and allow this subdistrict does call for a midrise it does allow one story buildings and the use applicant is proposing is allowed by right. What is kicking in the PD Development in this case is the abandonment of Hilltop Lane and the realignment of Pinnacle Way.

Chairman Renfro asked the applicant to come forth and speak.

Matt Moore
1903 Central Drive
Bedford, TX

Mr. Moore came forward and stated both Mr. Gonzales and Mr. Miller gave good explanation of request and the challenges from a development point on this particular piece of property. Advised he is available for any questions from the Commission.

Chairman Renfro opened the public hearing and asked anyone wishing to speak to come forward to do so.

Philip M. Ruais
5900 S. Lake Forest Dr. Suite 200
McKinney, TX

Mr. Ruais came forward and stated he is a representative and attorney for Landa Properties that own 4.59 acres off of Summer Lee Drive stated the only opposition they have to request is that they don't feel it is not an acceptable gateway or entry way for a development for the City of Rockwall in what they are trying to set forth and develop.

Dick Clark
2917 Saratoga Drive
Rockwall, TX

Mr. Clark came forward and stated why an eight story urgent care facility is needed what else would be going into the building and how far away the closest medical facility is from this proposed site were any studies done if another medical facility is needed in the City. Does not feel there is really a necessity to develop on this land at this particular time with this particular product. Mr. Miller added clarification to Mr. Clark stating the building is not going to be eight stories high but instead is the maximum height allowed in the district and applicant is proposing a single story building. Mr. Clark continued to state concern with adding another building will add to traffic and feels that traffic and growth need to be taken into consideration.

Kristen Minth
3406 Lakeside Drive
Rockwall, TX

Mrs. Minth came forward and stated she is in favor of request feels with the changes to the off ramps and previous requests for gas stations in this spot no more gas stations are needed, asks Commission to approve request.

Chairman Renfro closed the public hearing and asked applicant to come forward for any rebuttal.

Mr. Moore came forward and stated with the traffic standpoint he feels it should not be a concern as this use is not a very intense use given the location of IH30 and Horizon and they average about 45 patients a day spread out in the course of a day this use would not be a big traffic

generator as opposed to a gas station or a big store. Mr. Moore added that with concern to whether this use for the Gateway Overlay is an appropriate use, feels it is subject to opinion feels the use is compatible for the area. Care Now would not make the investment in Rockwall if they felt the need was not there and could not be successful. Added he is available for any questions from the Commission.

Chairman Renfro asked concerning Gateway Overlay, what is the client willing to do to offset the removal of existing landscape. Mr. Moore stated they will have interior lot landscaping and whatever else is required to meet the intent of the PD.

Chairman Renfro expressed concern of ability to make left turn from Pinnacle Way extension will traffic is able to take a left turn from Horizon and towards the freeway without a traffic light as people are coming off of and exiting Horizon and turning right, which he feels it will create traffic trouble at certain times of the day.

Commissioner Fishman had concern with whether or not this is the best fit for this land how well will a Care Now fit in the grand scheme of what was intended for this area.

Commissioner Lyons expressed concern of location for this use with only looking at what has been submitted as well as concern with the landscaping and asked if it was known how many urgent care facilities there are currently in Rockwall. Mr. Moore stated if this was approved at the next step they will provide a full landscape plan, and at this time does not know how many other urgent care facilities are in town.

Greg Stogner
12720 Hillcrest Road
Dallas, TX

Mr. Stogner came forward and stated he has worked with Care Now as a developer for about ten years and went on to expand on the Care Now owner that is a family owned business with 29 locations that they own. The difference between urgent care facilities as opposed to a Care Now is that their goal is to be the family practitioner for the community, they get very involved with the community and the difference is that there is always a doctor on duty. The client is very interested in the City of Rockwall. Mr. Stogner added that as far as the concern for the landscaping due to the Gateway Overlay they are willing to work with staff, they are of the mind set of you only get one chance to make a good impression and will it will be heavily landscaped and they will do all that is needed to make it a good looking facility and entry way to meet the standards of Rockwall.

Mr. Gonzales added that Hilltop Lane is a 20 foot right a way and taking a look at how that can be traveled that is one of the purposes of having it exchanged over for Pinnacle Way Drive that would not meet the standards for a street with a 20 foot right a way.

Commissioner McCutcheon asked for clarification of why request is before the Commission is it being mainly for the reason only due to the right a way road swap. Mr. Gonzales stated that is one of the reasons, it is an amendment to PD32 and part of the amendment is to include the abandonment of Hilltop Lane in exchange for the Pinnacle Way Drive. Commissioner McCutcheon went on to express concern with this being the gateway into the City, but feels proposal is better fit than a request for a gas station.

Chairman Renfro expressed concern over this particular use in this prime real estate area in the City and although it is a great developer there is still concern if it does not work and is left vacant.

Commissioner Trowbridge asked how long the lease was for. Mr. Stogner stated it was for twenty years and addressed Chairman Renfros concern of it being in the gateway of the City, but feels it is a low impact one story good looking that will be heavily beautifully landscaped and should that happen, which he feels is not likely, what is left is a usable building.

Commissioner Whitley asked if this development happens will it impede access to the adjacent properties. Mr. Gonzales stated access will be available.

Commissioner Trowbridge made comment of initial concern with the drop of density and the height with request being a less density low building in comparison with what surrounds it, but can see a lot of work has been done from staff comments from work session and feels he is on board with it at this time due to that.

Commissioner Logan asked if the request were to be approved would it be a requirement for the building to have the same type of "Tuscan" look that is in place along that corridor. Mr. Gonzales stated that the Summit Office would require either traditional building style it is in the PD specific to the guidelines or there are two types that are available to the applicant that would be something that would be reviewed at the site plan stage.

Chairman Renfro expressed at this time he is inclined not to support the request and asked for further discussion or a motion.

Commissioner Lyons made motion to approve item with staff recommendations. Commissioner Trowbridge seconded the motion, which passed by a vote of 5-2 with Chairman Renfro and Commissioner Fishman dissenting.

Chairman Renfro called for a five minute recess at 7:58 p.m.

Chairman Renfro called the meeting back to order at 8:11 p.m.

6. Z2016-011

Hold a public hearing to discuss and consider a request by Fred Hazel of Davis Development on behalf of Jim Kirby of Rockway Partners, LLC for the approval of a zoning change from a Commercial (C) District to a Planned Development District for a multi-family apartment complex on a 17.60-acre tract of land identified as Lots 6-11, Block A, La Jolla Pointe Addition, Phase 2, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, located east of the intersection of Laguna Drive and La Jolla Pointe Drive, and take any action necessary.

Planning Director, Ryan Miller, gave brief explanation of item stating On March 11, 2016, the applicant submitted an application requesting to rezone a 17.60-acre tract of land from a Commercial District to a Planned Development District for a multi-family apartment complex that will consist of 272 units. The subject property, which was annexed into the City on November 7, 1960 by Ordinance No. 60-03, is located on the north side of Interstate Highway 30 west of Ridge Road along La Jolla Pointe Drive -- and is currently a vacant tract of land. The subdivision was originally platted in 2003 as La Jolla Pointe Addition, Phase 2 which was Case No. PZ2002-83-001, and was replatted into its current configuration in 2007 Case No. P2006-019.

Mr. Miller further explained that along with the application, the applicant has submitted a concept plan, building elevations and development standards for the proposed multi-family apartment complex. The concept plan shows that the proposed 272-unit apartment complex will consist of eight buildings that range in height from three to four stories, and contain 24-36 units each; with the exception of Building No. 1, which will consist of 49 units. This building will also house a clubhouse/amenity center and the leasing office, with an exterior pool adjacent to the southern building façade. The above unit composition equals a minimum unit size of 1,032 SF. Based on the size of the subject property and the number of units proposed, the requested density will be 15.45 units per acre. Currently, the highest density-zoning district that the City permits is the Multi-Family 14 District, which permits up to 14 units per acre. Since the applicant is proposing to rezone the subject property to a Planned Development District, additional density maybe requested of the City Council; however, this does remain a discretionary decision for the City Council, and the City Council does have the power to reduce the density of the request.

Mr. Miller added that to meet the requirement the concept plan indicates that a mixture of 38 garages and 482 surface parking spaces will be utilized. This will exceed the parking requirement by 16 spaces. The proposed 38 garages will be integrated into the design of the eight buildings and will not incorporate tandem parking spaces.

Mr. Miller went on to state that the concept plan includes the public right-of-way for Carmel Circle, which was dedicated with Case No.'s P2006-019 & P2004-068. The applicant is requesting that the City Council abandon this right-of-way as part of this case. If the City Council chooses to approve this request, staff will begin the abandonment process by establishing the fair market value of the right-of-way and offering one-half of the right-of-way to the adjacent property owners. Staff should point out that currently the subject property excludes an outparcel that is situated at the southwest corner of Carmel Circle and La Jolla Pointe Drive, and that the property owner of this outparcel would have the right to purchase a portion of this right-of-way. This could lead to changes in the concept plan at the time of site plan depending on the adjacent property owner's decision to purchase or not purchase the right-of-way.

Mr. Miller further stated that as part of this submittal, staff has required the applicant to submit a Traffic Impact Analysis. The TIA submitted by the applicant has been forwarded on to the City's consultant for outside review. The building elevations submitted by the applicant show that four different architectural styles will be used for the proposed eight buildings. Each of the buildings will utilize a mixture of stucco, natural cut stone, and brick on the exterior façades, and a combination of standing seam metal and architectural shingles on the roofs. In addition, the elevations conform to the four sided architecture requirements stipulated by the IH-30 Overlay District as stipulated by the UDC. Staff has incorporated these elevations into the Planned Development District Ordinance, and general conformance to these elevations and pending a recommendation by the Architectural Review Board at the time of site plan is a requirement of the proposed zoning district.

Chairman Renfro asked if there were any questions for staff.

Chairman Renfro asked if it met the current comp plan. Mr. Miller stated it generally conforms to the guidelines stipulated by the comp plan there were a couple of recommendations that staff made that are contained in the case memo that were made to the applicant and they did generally conform to those recommendations with the exception of one of the buildings could have been turned closer to the street however there are significant grade issues and therefor that building had to be angled in that manner. Mr. Miller clarified that the concept plan is a series of guidelines and policies and few requests that come before the Commission meet one hundred percent of the Comp Plan. Chairman Renfro added that the future land use map shows this to be Commercial. Mr. Miller stated that it was according to the future land use map.

Chairman Renfro had question regarding the number of units of condos/townhomes that may or may not be coming across from subject property in the Harbor District. Mr. Miller stated there is an allowance for 1,164 condominiums or townhomes in the Harbor District.

Commissioner Trowbridge asked for clarification or examples of what the future land use map use being Commercial could it include retail, or office use. Mr. Miller stated Commercial does allow for retail use

Commissioner Lyons asked what school district this area belongs to. Mr. Miller stated staff does not deal with the school district to answer that question.

Chairman Renfro asked applicant to come forward and speak.

Gene Babb
1220 Blue Bell Ct
Celina, TX

Mr. Babb came forward and gave brief description of request stating this is a family owned business and they have several developments throughout Texas including 2,111 units completed to date in DFW with 3, 728 under construction one hundred percent of their equity is internal and use traditional construction loans and have constructed over 50,000 units since 1995. He went on to add the highlights of the project with a slide show presentation that showed the price targets, details of units and amenities.

Mr. Babb added that he would not go into great detail as Mr. Miller had already gone thru the information but wanted to address the concerns that have been voiced being the majority of the issues being with traffic, the property becoming section 8, home property devaluation, and crime.

Mr. Babb explained that they are currently building in three areas Craig's Ranch in McKinney and the homes in the surrounding area there range from $300,000 up to $1,000,000 and have not heard any feedback that their product has affected the home values there and the same goes for the development in Frisco as well as in Prosper. The issue with traffic, they did conduct an independent traffic study and it stated the traffic is not god and is below what it should be and indicated that our apartment complex would not worsen the already problem with traffic that exists currently and states there is a future interchange that is to be installed between Ridge Road and Horizon and when that happens that will provide much needed relief to this area. With concern to the property getting sold and it becoming a Section 8 community, there are laws in place that would not allow that anytime a Section 8 community is going to be built it has to be hammered out prior to development it cannot be something that is retroactive after the community is built. Mr. Babb went on to add that with the concern of increased crime, statistically is shown that there is more crime in a commercial area, but with the target area for tenants that they have, the credit requirements that are required it will be a high level tenant. Mr. Babb added that Mr. Fred Hazel, the company vice president as well as engineers from the Davis Company that are present if there were any additional questions.

Chairman Renfro asked for questions for applicant from Commission.

Commissioner Trowbridge asked if the units would be three and four stick built stories, would any be basement units and are the hallways enclosed and air-conditioned. Mr. Babb stated there would be no basement units and the hallways would be open and wide which provide a lot of air circulation and also have ceiling fan.

Commissioner Trowbridge asked what the average cost of units would be. Mr. Babb stated it is 1,032 square feet average and at a $1.30 a foot that translates to roughly $1,350 a month with some of the larger units would increase.

Commissioner Logan asked for clarification of the traffic study with it being at a graded level of F which is the worst it can be, and in knowing that why are they opting for this particular location where the traffic is so bad already. Mr. Babb stated traffic is bad everywhere and coming from Atlanta where it is worse, feels traffic for a multi-family is not bad, they like the drive by that comes with traffic and are counting on the future plan for the interchange that will relieve some of the traffic.

Commissioner Fishman asked if they would be retaining ownership over the long term. Mr. Babb stated it was a hard question to answer as sometimes they do and sometimes they don't although they don't build to sell, but being a private company and often times they have private investors that want to purchase their communities and they will sell them and Mr. Davis will re-invest that money back into the company.

Fred Hazel
407 Oxmoor Lake Drive
McDonough, GA

Mr. Hazel came forward came forward and stated to answer that question directly, the community may be sold but would like to point out that the proposed community is what they consider investment grade asset given the rents, the cost to construct, the amenities, if it were sold you would have someone paying a lot of money and therefor you would have someone that is going to maintain the property to maintain the quality of the asset.

Chairman Renfro opened the public hearing and asked if anyone who wished to speak to come forward and do so.

Fred Mosley
2030 Pontchatrain Dr.
Rockwall, TX

Mr. Mosley stated opposition due to the paramount issue being traffic in and out for the people that already live here he has lived at Lakeside Village for the last ten years. Feels it is a challenge today and adding 500-600 vehicles plus service vehicles coming in and out it is going to be near impossible and would like to see their independent study challenged.

Austin Greenberg
3400 Water View
Rockwall, TX

Mr. Greenberg stated he is in opposition of request due to traffic, wants it to stay commercial and although the developer mentioned construction in other communities they are larger communities not one as small as Rockwall. He is also concerned with the school overcrowding this development will add to the school district.

Kristen Minth
3406 Lakeside Drive
Rockwall, TX

Ms. Minth came forward expressed and expressed opposition this development was not preplanned. Transition is not needed it is zoned commercial for a reason and feels it needs to stay as such.

Nick Nichols
3927 Mediterranean
Rockwall, TX

Mr. Nichols expressed opposition due to the impact it will have on the already big problem with the traffic situation. Also impact the construction will have on this area, and also the problem it will cause to accommodate new students that will come.

Jack Willard
3106 Village Dr.
Rockwall, TX

Mr. Willard expressed opposition due to the debris/trash that will be generated off of the parking lot as well as concern with security. Also expressed this will have a negative impact on house value.

Tina Goltia
3311 Lakeside Dr.
Rockwall, TX

Ms. Goltia expressed opposition to the request, moved here from Florida, chose Rockwall due to the quality of schools, sense of community, unique feel town and is concerned with losing the commercial area feel which is the main reason she chose Rockwall, urged the Commission to vote against.

Sean Phiffer
3405 Water View
Rockwall, TX

Mr. Phiffer expressed opposition to the request, feels it is not adequate area it will cause traffic, feels this area should stay commercial and also will cause added crowding to schools.

Bobby Moore
4105 Cabana Court
Rockwall, TX

Mr. Moore came forward and stated opposition due to traffic issues it will create. Also the issues with overcrowding of the schools. He also expressed concern with water runoff it will create. Safety concern with the railroad being nearby as well as the devaluation of house value will be affected.

Pam Watkins
3620 Lakeside Dr.
Rockwall, TX

Ms. Watkins came forward and stated she has lived in Rockwall for the last twenty years and expressed her opposition of the request feels this development does not need to lose the commercial zoning. Also spoke with many people in Lakeside Village who could not be present but asked she express their opposition as well.

Pam Griffin
2324
Rockwall, TX

Ms. Griffin came forward and expressed her opposition with concern for school overcrowding this added development will add. Also is concerned with the safety of their amenities.

Randall Sanders
2920Starboard
Rockwall, TX

Expressed opposition due to the traffic it will create as well as school overcrowd

Linda Allen
3510 Village Drive
Rockwall, TX

Ms. Allen came forward and expressed opposition due to the noise and light pollution as well as school overcrowding.

Julie Ballantine
3018 Bayside Drive
Rockwall, TX

Ms. Ballantine expressed opposition due to the negative impact it will bring to home values surrounding the development.

Jerry Gardner
3412 Augusta Blvd.
Rockwall, TX

Mr. Gardner expressed his opposition due to the overcrowding it will add to the area.

Erv Slovak
3322 Augusta Blvd.
Rockwall, TX

Expressed opposition to the request expressed concern with the look of the development.

Roger Williamson
3402 & 3404Lakeside Dr.
Rockwall, TX

Expressed concern with what drainage issues this will cause, there is already water and flooding issues in Lakeside Village from water running down the hill. As well as the traffic issue.

Paul Hustins
3313 Lakeside Drive
Rockwall, TX

Mr. Hustins came forward and stated opposition due to traffic issues this will create. Also added he agrees with all other concerns that have been voiced.

Dick Clark
2917 Saratoga Drive
Rockwall, TX

Mr. Clark came forward and expressed opposition due to the traffic and property values will be affected as well.

Jackie McLary
3622 Lakeside Drive
Rockwall, TX

Mr. McLary came forward and stated opposition due to traffic issues it will create.

Dick Clark
2917 Saratoga Drive
Rockwall, TX

Mr. Clark came forward and expressed opposition due to the traffic and how the property values will be affected.

Mike Crawford
3620 Lakeside Dr.
Rockwall, TX

Mr. Crawford came forward and stated opposition to the request.

Janell Baker
3616 Hilltop Circle
Rockwall, TX

Ms. Baker expressed opposition to request due to the overcrowding of the schools this will cause.

Jim Kirby
13330 Noel Rd. #622
Dallas, TX

Mr. Kirby expressed opposition due to the problem of water detention the construction of this development will create to the Lakeside Village subdivision.

Phillip Ruais
5900 S. Lake Forest Dr. Suite 200
Dallas, TX

Mr. Ruais who stated he is the representative and attorney for Landa Properties property owner of the small square surrounding area of subject property, and stated she is in opposition due to her no longer having an access point to her property on this road she would be required to create a new access point of La Jolla which will make for further traffic problems.

Chairman Renfro asked staff to clarify that and asked staff to interject. Mr. Miller stated if that right of way is abandoned his property owner would have the ability to purchase one half of that right away should they decline then it would revert back to, and this is only if it approved, the Davis Development Group but they wouldn't be restricted to access to this property she would get a drive access point off of La Jolla Point.

Mr. Ruais added that they would have to use a portion of their property for access in a multifamily use as opposed to a commercial development and urges the Commission to deny the request.

Terry Nevitt
201 Becky Lane
Rockwall, TX

Ms. Nevitt expressed opposition to request feels there are already the needed apartments for Rockwall, and is concerned with property values as well as traffic.

Chairman Renfro closed the public hearing and asked the applicant to come forward and offer a rebuttal.

Mr. Hazel came forward and had addressed comments made of tenants not paying property taxes paid to the community but the community pays taxes. Concerning the issue with light and noise pollution, met with mayor before coming forward and also met with the HOA communities, once constructed visibility will be hard from the neighboring residents. Also there will be storm water studies that will be done to address any water detentions. With concern with the traffic issue, there was a third party review that was done on their independent traffic study.
The security-it is a gated community and therefor feels his tenants will not be motivated to trespass into adjoining comminutes to use their amenities.

Chairman Renfro brought the item back to the Commission for discussion.

Commissioner Trowbridge made comment concerning traffic that although it is zoned commercial and any other building will create traffic as well, the question needs to be what needs to be approved for the land use.

Commissioner Logan stated that she reviewed the traffic study that the developer provided and the City took the time to have it analyzed by a third party but her concern remains that the survey states that it already has the lowest grade possible and it this development would add and doesn't feel she could support request.

Commissioner Lyons stated concerns traffic it would cause, feels traffic should be alleviated before considering a proposal such as this. Also concerned with the impact it will have on the overcrowding of the schools. He also expressed concern of thinking of what possibly could be brought forth if not this.

Chairman Renfro stated he has faith in the traffic study and there is no way to know whether or not it would affect the property value expressed concerns with the condos already approved at the Harbor what will happen to existing apartment complexes if yet another one is approved.

Commissioner Whitley made comment concerning traffic and feels it should be considered and concerns of that of the citizens cannot be minimized. What can be proposed in the future should be considered as well, if a strip mall comes in and sooner or later something will be developed on this property.

Commissioner McCutcheon expressed same general feeling of fellow Commissioners feels this is not the right land use for this particular property to change the use for residential where he feels the majority of people leave that needs to be considered and although it is a good product it is not the right location.

Commissioner Fishman expressed that although it is a good product feels how it will affect the long term use and there is a need to respect the opinion of the already existing residents and if there is such a strong opposition, that needs to be taken into consideration.

Chairman Renfro asked for any further discussion or motion.

Commissioner McCutcheon made motion to deny request. Commissioner Lyons seconded the motion, which passed for denial with a vote of 6-1 with Commissioner Trowbridge dissenting.

IV. ACTION ITEMS

7. SP2016-005

Discuss and consider a request by Jay Holman & Don Silverman of Rockwall 205-552, LLC for the approval of site plan for a retail building on a 1.231-acre portion of a larger 9.183-acre tract of land identified as Tract 4-1 of the T. R. Bailey Survey, Abstract No. 30, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the northwest corner of the intersection of SH-205 [*N. Goliad Street*] and FM-552, and take any action necessary.

Planner, Korey Brooks, gave brief explanation of request stating On March 11, 2016, the applicant submitted an application for a site plan showing the proposed layout of an 11,334 SF retail building on a 1.231-acre parcel of land. The subject property is located north of the northwest corner of the intersection of North Goliad Street and FM 552, and is zoned General Retail within the North SH-205 Overlay District.

Mr. Brooks explained that according to Section 4.4, General Retail District, of Article V, Development Standards, of the Unified Development Code, the proposed use is permitted by-right in the General Retail District, and will not require any additional approvals by the Planning and Zoning Commission. The submitted site plan, building elevations, landscape plan, and photometric plan conform to the technical requirements contained within the Unified Development Code for properties located in a General Retail District and located within the N. SH-205 Overlay District

Mr. Brooks added that on March 29, 2016, the Architectural Review Board reviewed the proposed site plan and building elevations. The ARB stated that the proposed design of the building did not meet the intent of standards stipulated in the North SH-205 Overlay District and asked the applicant to make revisions to the building elevation, specifically the rear elevation of the building needs additional articulation and architectural consideration. This was being requested because this building will be situated in the development so that all four sides are visible. The applicant has submitted revisions for the ARB and staff to review.

Chairman Renfro asked for any questions for staff or applicant there being none Chairman Renfro asked for discussion or a motion.

Commissioner McCutcheon made motion to approve the item with staff recommendations Commissioner Trowbridge seconded the motion, which passed by a vote of 7-0.

V. DISCUSSION ITEMS

8. Director's Report of post Council meeting outcomes of Planning & Zoning cases.

- ✓ P2016-006: Breezy Hill, Phase VII [*Approved*]
- ✓ P2016-007: Breezy Hill, Phase VI [*Approved*]
- ✓ P2016-009: Lots 1 & 2, Block H, Lake Rockwall Estates, East Addition [*Approved*]
- ✓ P2016-010: Preliminary Plat for Saddle Star Estates [*Approved*]
- ✓ P2016-011: Master Plat/Open Space Plan for Saddle Star Estates [*Approved*]
- ✓ Z2016-006: SUP for a Carport at 303 Renfro Drive (*1st Reading*) [*Approved*]
- ✓ Z2016-007: Zoning Change AG to GR for 5205 S. FM-549 (*1st Reading*) [*Withdrawn by Applicant*]
- ✓ MIS2016-005: Masonry Exception for 508 St. Mary's Street [*Approved*]
- ✓ MIS2016-006: Special Exception Request for 120 Blanche Drive [*Approved*]

Planning Director, Ryan Miller, provided a brief update about the outcome of the above referenced case at the City Council meeting. The Commission did not have any questions concerning this agenda item.

VI. ADJOURNMENT

Meeting adjourned at 10:06 p.m.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2016.

_____
Craig Renfro, Chairman

Attest:

_____
Laura Morales, Planning Coordinator

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 04/26/2016

APPLICANT: Alexander Menjivar and Daniel & Lidia Mendez

AGENDA ITEM: **P2016-013**; *Lots 1&2, Block A, Mendez Addition*

SUMMARY:

Discuss and consider a request by Alexander Menjivar and Daniel & Lidia Mendez for the approval of a final plat for Lots 1 & 2, Block A, Mendez Addition being a five (5) acre tract of land identified as Tract 2 of the J. H. Bailey Survey, Abstract No. 45, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-276 Overlay (SH-276 OV) District, addressed as 5143 SH-276, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to subdivide one (1) tract of land (*i.e. Tract 2 [5.06-acres], of the J. H. Bailey Survey Abstract No. 45*) into two (2) parcels of land (*i.e. Lot 1 [approx. 1 acre] & Lot 2 [approx. 4.06 acres],* for the purpose of conveying Lot 2.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

RECOMMENDATIONS:

Staff recommends approval of the final plat for *Lots 1 & 2, Block A, Mendez Addition,* in conformance with the following conditions of approval:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *final plat* shall conform to the requirements set forth by the Unified Development Code, the 2009 International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

P2016-013 (Lots 1 & 2, Block A, Mendez Addition): Please address the following comments (M= Mandatory Comments; I = Informational Comments).

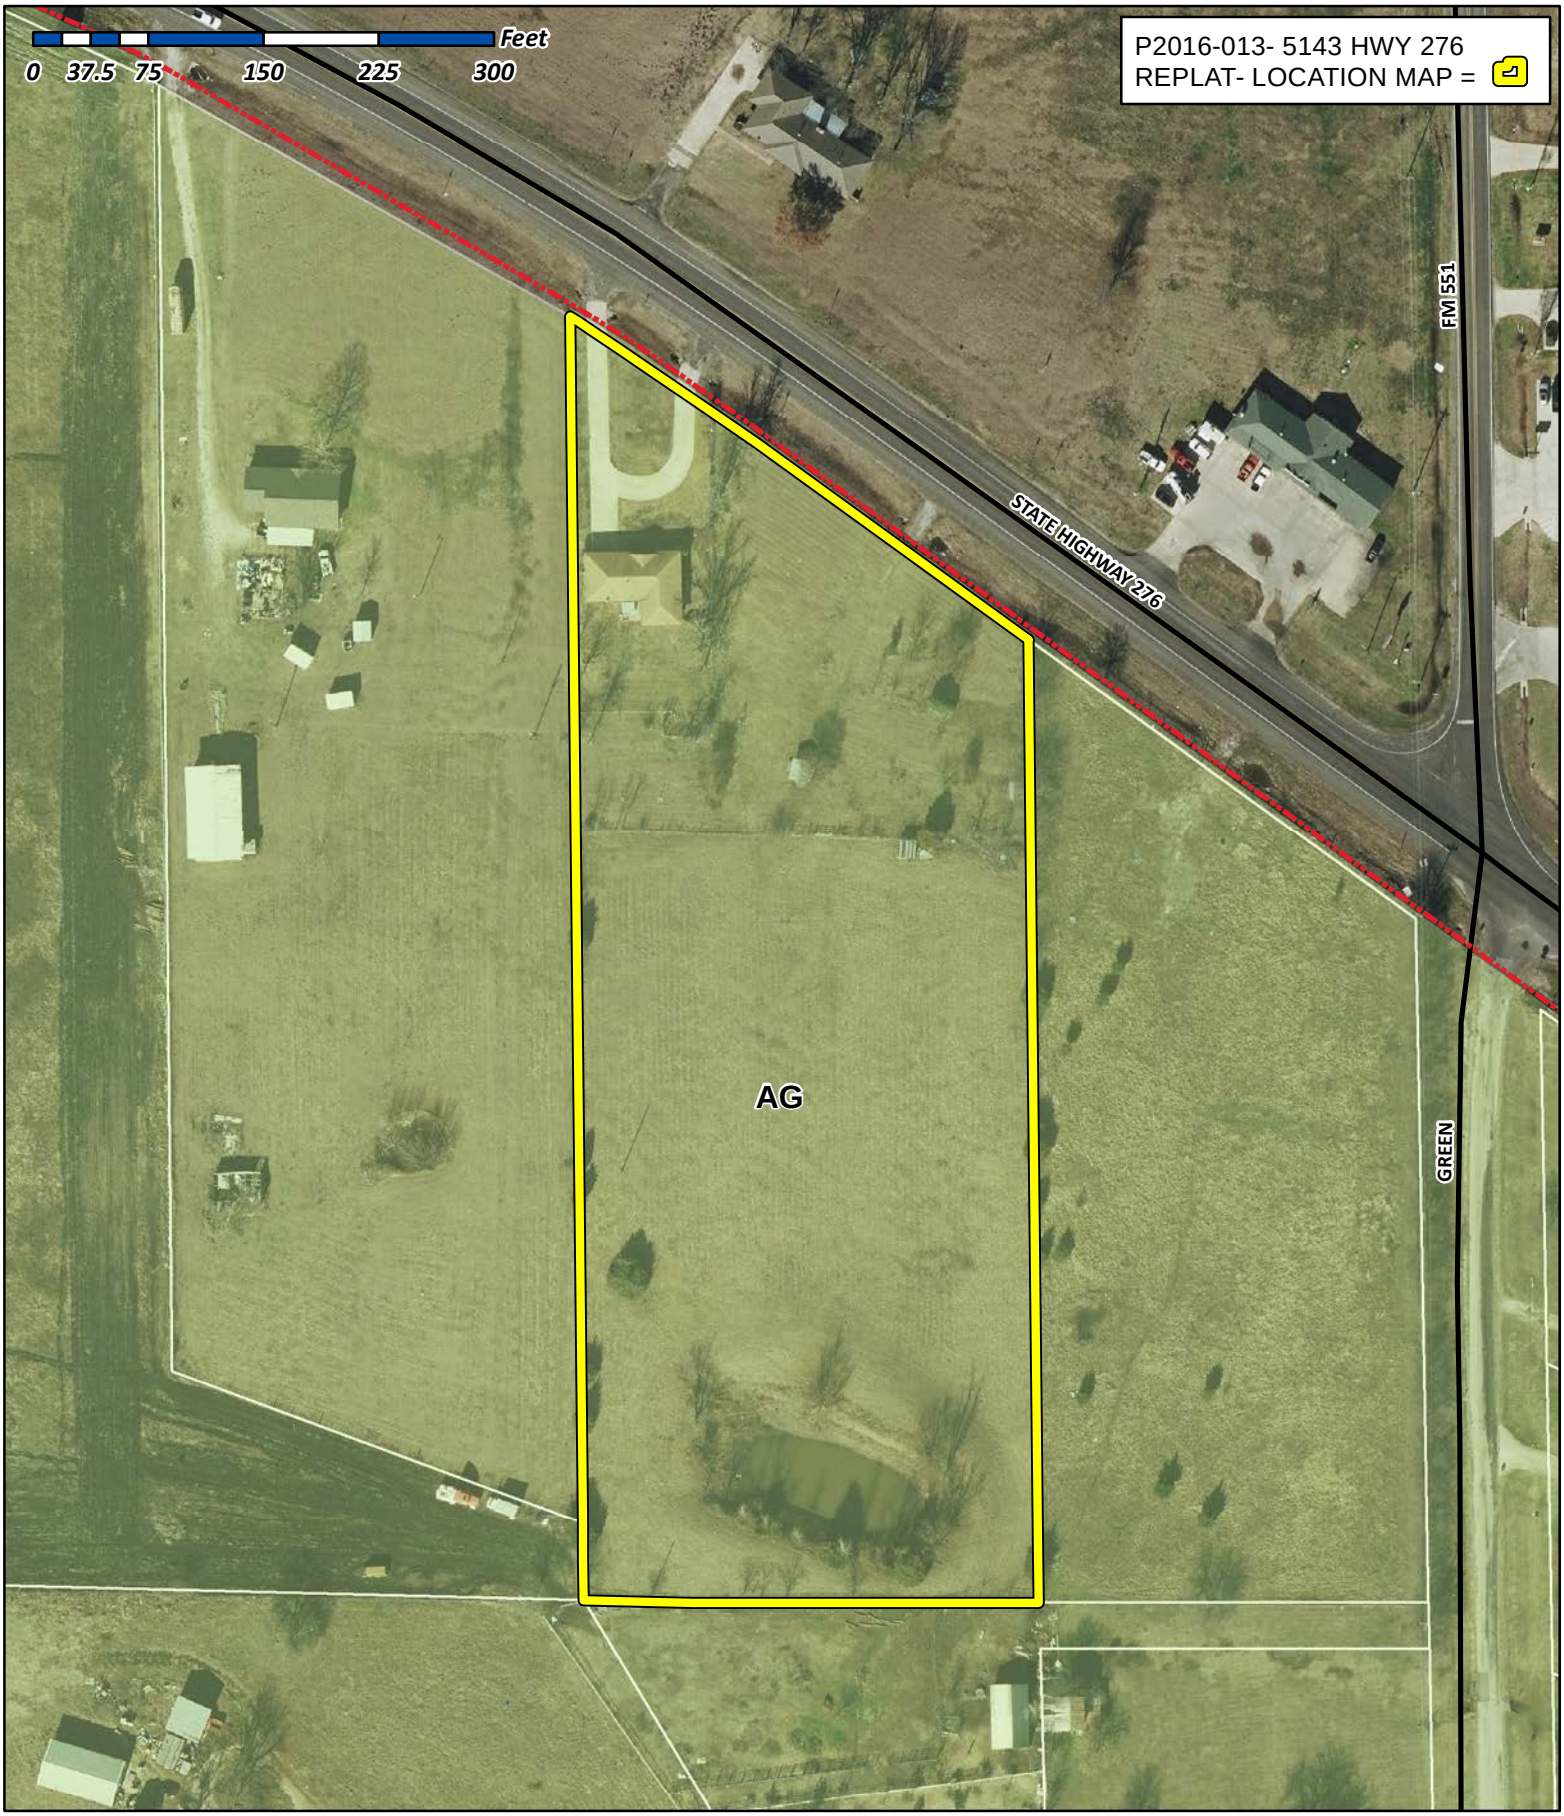
I.1 This is a request for the approval the approval of a final plat for Lots 1 & 2, Block A, Mendez Addition being a five (5) acre tract of land identified as Tract 2 of the J H. Bailey Survey, Abstract No. 45, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-276 Overlay (SH-276 OV) District, addressed as 5143 SH-276

I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (P2016-013) in the lower right hand corner of all pages on future submittals.

M.4 Please change the title block as follows:

Final Plat
Lots 1 & 2, Block A
Mendez Addition
2 Lots, Being 5.06 Acres
J. H. Bailey Survey, Abstract No. 45
City of Rockwall
Rockwall County, Texas

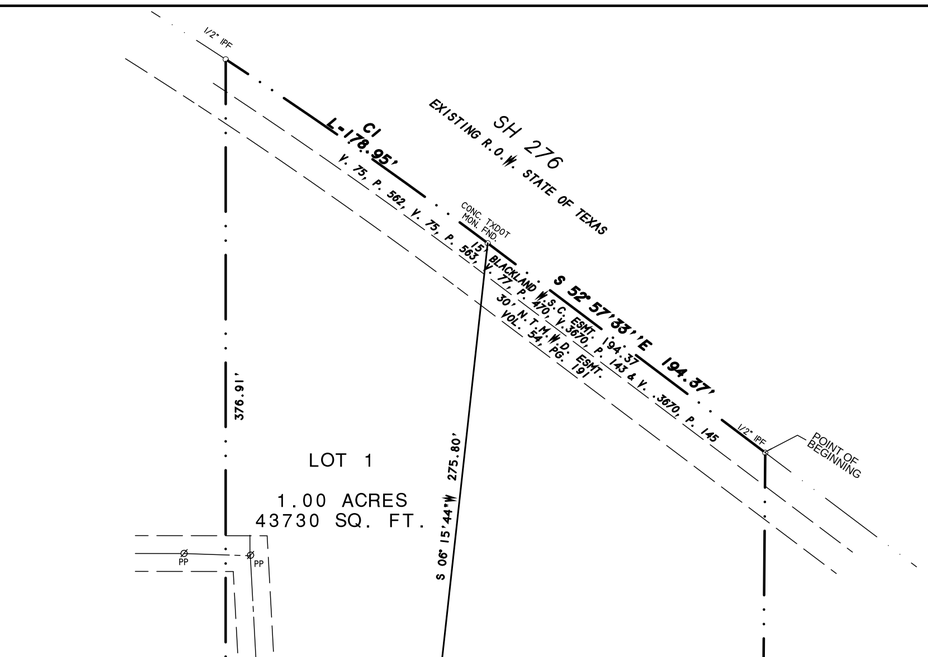


M.5 Please show and label 25-foot build lines where adjacent to a street.

M.6 Please label the right-of-way- wide and street centerline for each street within and adjacent to the development.

M.7 Please check the direction of the coordinate on the East Property Line. It currently says “S° 27’ 25 W 626.10”. This is actually pointing south not west.

I.8 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by May 3, 2016. The Planning & Zoning meeting date for this case will be May 10, 2016.



I.9 The projected City Council meeting date and subsequent approval for this plat is May 16, 2016.

OWNER'S CERTIFICATE
(Public Dedication)

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS DANIEL R. MENDEZ and LIDIA MENDEZ, BEING THE OWNERS OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

All that certain lot, tract or parcel of land situated in the JOHN H. BAILEY, JR SURVEY, ABSTRACT NO. 45, Rockwall County, Texas, and being all of a tract of land as described in a Gift Warranty deed from Lula May Fenter to Sheila F. Peoples and Deborah J. Wrobel, dated January 15, 2014 and being recorded in Document number 20140000000630 of the Official Public Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1" iron pipe found for corner in the southwest right-of-way line of SH 276, at the northeast corner of said Peoples and Wrobel tract, said point also being the northwest corner of a tract of land as described in a Warranty deed to martin Ramirez and Teresa Ramirez, as recorded in Volume 614, Page 120 of the Real Property Records of Rockwall County, Texas;

THENCE S. 00 deg. 27 min. 25 sec. W. a distance of 626.10 feet to a 1/2" iron pipe found for corner;

THENCE N. 89 deg. 02 min. 51 sec. W. a distance of 296.33 feet to a 1' iron pipe found for corner;

THENCE N. 00 deg. 28 min. 42 sec. W. a distance of 50.33 feet to a 1 1/2" iron pipe found for corner;

THENCE N. 00 deg. 00 min. 27 sec. E. a distance of 790.71 feet to a 1/2" iron pipe found for corner in the southwest right-of-way line of Sh 276;

THENCE in a southeasterly direction along a curve to the right having a central angle of 03 deg. 39 min. 20 sec, a radius of 2804.79 feet, a tangent of 89.51 feet, a chord of S. 54 deg. 56 min. 08 sec. E., 178.92 feet along said right-of-way line, an arc distance of 178.95 feet to a concrete TXDOT monument found for corner;

THENCE S. 52 deg. 57 min. 33 sec. E. along said right-of-way line, a distance of 194.37 feet to the POINT OF BEGINNING and containing 220,496 square feet or 5.06 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as MENDEZ ADDITION, an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the subdivision have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Roc kwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I , my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exaction's made herein.

CITY CASE NO. P2016-

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 04/26/2016

APPLICANT: Daniel Stewart of Cates-Clark & Associates, LP

AGENDA ITEM: **P2016-014** (*Rooms To Go; Final Plat*)

SUMMARY:

Discuss and consider a request by Daniel Stewart of Cates-Clark & Associates, LP on behalf of Jeff Finkel of Seaman Development Corporation for the approval of a final plat for Lot 1, Block 1, Rockwall-Pine Addition being a 3.642-acre portion of a larger 14.07-acre tract of land identified as Tract 4 of the J. D. McFarland Survey, Abstract No. 145, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 920 E. IH-30, located southwest of the intersection of Kyle Drive and the E. IH-30 frontage road and take any action necessary.

COMMENTS:

- ✓ The objective of the request is to subdivide a 14.07-acre tract of land creating a 3.642-acre lot for the development of a 40,590 sq. ft. retail facility. The remainder of the land will continue to be vacant. The final plat will establish the necessary fire lane, public access, utility, detention and drainage easements for the new development. A site plan was approved in February of this year for the development of a Room To Go furniture retailer.

- ✓ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions listed in the *Recommendations* section below.

- ✓ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the request for final plat, staff would recommend the following conditions of approval:

1) All staff comments (*Project Plan Review)* provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit and to include the following additional Planning comments;

    a. That adherence to Engineering and Fire Department standards shall be required, and

2) Any construction or building necessary to complete this *Site Plan* request must conform to the requirements set forth by the UDC, the 2009 International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

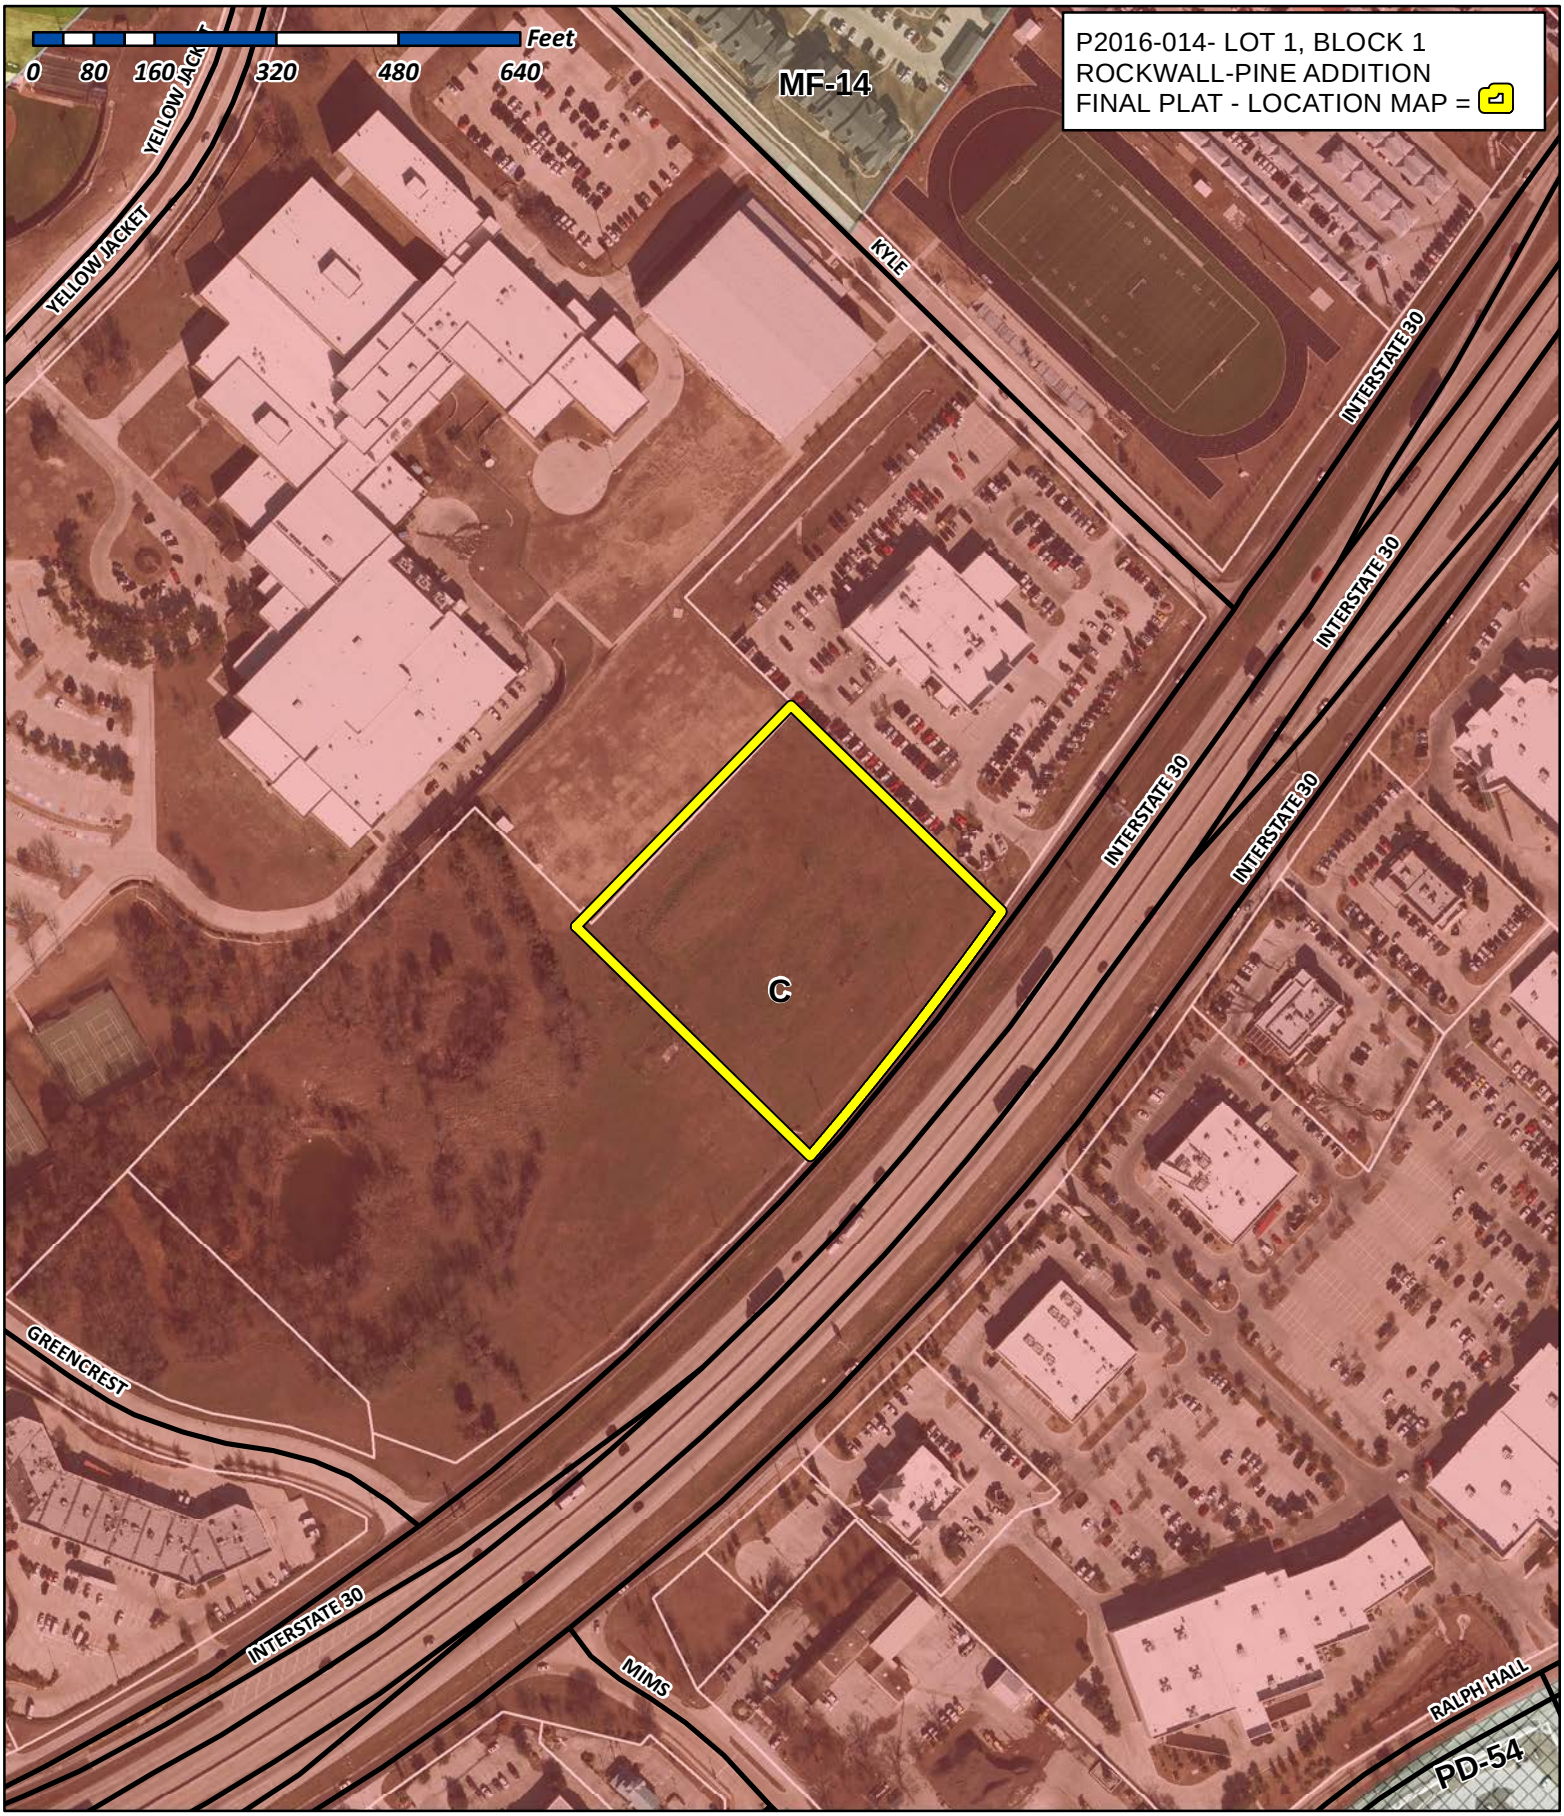
IH-30, located southwest of the intersection of Kyle Drive and the E. IH-30 frontage road and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, May 3, 2016. Please provide three large copies [18" X 24" FOLDED] and one PDF version for a subsequent review by staff:



1. Adherence to all Engineering and Fire Department standards shall be required.
2. Provide a label indicating "Case No. P2016-014" on the lower right corner on all pages of the revised plat.
3. Provide Vol__ & Pg__ for 15' offsite sanitary sewer easement.
4. Surveyor's Certificate - Notary not necessary when stamped by surveyor.

** As a note and once the plat has been approved by the Planning Commission and City Council, all staff comments are to be addressed and all revisions resubmitted and approved by staff prior to plat submittal on mylar for filing purposes. **

Meeting Dates to Attend (Since this plat request will be placed on the Consent Agenda for both the Planning and City Council meetings, it is not necessary for you to attend; however, staff would recommend that someone be present for the meetings. If you have any quesitons regarding this case, please feel free to contact David Gonzales with the Planning Department at 972-771-7745.

OWNER'S CERTIFICATION

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS ROCKWALL RENTAL PROPERTIES LP, BEING THE OWNER OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

BEING a tract or parcel of land situated in the J.D. McFARLAND SURVEY, ABSTRACT NO. 145, City of Rockwall, Rockwall County, Texas and being a portion of a called 14.45 acre tract of land described in a deed to Rockwall Rental Properties LP as recorded in Volume 4076, Page 48 of the Deed Records of Rockwall County, Texas (D.R.R.C.T.) and being more particularly described as follows:

BEGINNING at a 1/2 inch iron rod found at the most easterly northeast corner of said Rockwall Rental tract, same being a southeast corner of Lot 2, Block 1 of Rockwall High School Addition, an addition to the City of Rockwall, as recorded in Slide H, Page 5 of the Plat Records of Rockwall County, Texas (P.R.R.C.T.) and also being in the southwest line of Lot 2, Block 1 of Heritage Buick–Pontiac–GMC Addition, an addition to the City of Rockwall, as described in a plat recorded in Cabinet G, Page 205 (P.R.R.C.T.);

THENCE S 45°25'27" E, coincident with the most easterly northeast line of said Rockwall Rental tract and the southwest line of said Heritage tract, a distance of 367.68 feet to a 1/2 inch iron rod found with a red plastic cap stamped "Peiser & Mankin" for the common southeast corner of said Rockwall Rental tract and the southwest corner of said Heritage tract, in a non–tangent curve to the right in the north Right–of–Way (ROW) line of Interstate 30 (300 foot ROW) as described in a deed to the State of Texas recorded in Volume 59, Page 226 D.R.R.C.T. with a radius of 3669.86 feet, a delta angle of 06°21'52", and a chord that bears S 38°39'31" W, a distance of 407.44 feet;

THENCE along the southeast line of said Rockwall Rental tract, same being the north ROW line of said Interstate 30 an arc length of 407.65 feet to a 5/8 inch iron rod set for corner with a pink plastic cap stamped "Adams Surveying Company LLC" therein;

THENCE N 45°25'27" W, leaving said ROW line, a distance of 407.64 feet to a 5/8 inch iron rod set for corner with a pink plastic cap stamped "Adams Surveying Company LLC";

THENCE N 44°17'11" E, passing a ½ inch iron rod found with a yellow plastic cap stamped "DAI" at a southwest corner of said Rockwall High School tract at a distance of 14.98 feet and continuing on coincident with a northwest line of said Rockwall Rental tract and a southeast line of said Rockwall High School tract for a total distance of 405.28 feet to the POINT OF BEGINNING and containing 3.642 acres of land, more or less.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

We Rockwall Rental Properties LP, a Texas limited Liability Partnership, the undersigned owner(s) of the land shown on this plat, and designated herein as the ROCKWALL–PINE ADDITION subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I (we) further certify that all other parties who have a mortgage or lien interest in the ROCKWALL–PINE ADDITION subdivision have been notified and signed this plat.

I (we) understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I (we) also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said asement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time,procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with therequired base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same madeby a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progresspayments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.
7. Property owner is responsible fpr all maintenance, repair, and/orreplacement of all detention/drainage systems.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 04/26/2016

APPLICANT: Jimmy Strohmeyer; *Strohmeyer Architects, Inc.*

AGENDA ITEM: **P2016-015**; Lots 1&2, Block A, *JBR2 Addition*

SUMMARY:

Discuss and consider a request by Jimmy Strohmeyer of Strohmeyer Architects, Inc. on behalf of JBR-2, LLC for the approval of a final plat for Lots 1 & 2, Block A, JBR2 Addition being a 7.329-acre tract of land identified as Tract 17-12 of the W. W. Ford Survey, Abstract No. 80, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated west of the intersection of SH-205 and FM-549, and take any action necessary.

FINAL PLAT INFORMATION:

- ☑ The objective of this request is to subdivide one (1) tract of land into two (2) parcels of land *(i.e. Lot 1 [approx. 4.739 acres] & Lot 2 [approx. 2.590 acres])* for the purpose of conveying Lot 1.

- ☑ The Surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for *Final Plats* as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this *final plat* by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

RECOMMENDATIONS

If the Planning & Zoning Commission and City Council choose to approve the final plat for Lots 1&2, Block A, JBR2 Addition, staff would recommend the following conditions of approval:

1) The final plat shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments;

2) Any construction resulting from the approval of this final plat shall conform to the requirements set forth by the Unified Development Code (UDC), the 2009 International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

P2016-015 (Lots 1 & 2, Block A, JBR2 Addition): Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 This is a request for the approval the approval of a final plat for Lots 1 & 2, Block A, JBR2 Addition being a 7.329-acre tract of land identified as Tract 17-12 of the W. W. Ford Survey, Abstract No. 80, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated west of the intersection of SH-205 and FM-549
I.2 For questions or comments concerning this case, please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (P2016-015) in the lower right hand corner of all pages on future submittals.
M.4 Please change the title block as follows:

Final Plat
Lots 1 & 2, Block A
JBR2 Addition
2 Lots, Being 7.329 Acres
Situated Within the W.W. Ford Survey, Abstract No. 80
City of Rockwall
Rockwall County, Texas

M.5 Please show and label 25-foot building lines where adjacent to a street.
M.7 Please label the right-of-way width and street centerline for each street adjacent to the development.
M.8 This plat is required to have the seal and signature of the surveyor responsible for the surveying and development and/or the preparation of the plat.
I.9 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested by May 3, 2016. The Planning & Zoning meeting date for this case will be May 10, 2016.
I.10 The projected City Council meeting date and subsequent approval for this plat is May 16, 2016.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS}

COUNTY OF ROCKWALL}

That we the undersigned owner's of the land shown on this plat, and designated herein as the J BR2 ADDITION to the City of Rockwall, Texas, and whose name's are subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. we further certify that all other parties who have a mortgage or lien interest in the J BR2 ADDITION have been notified

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwalls West regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall, or until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We and our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

CASE NO. _____

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 04/26/2016

APPLICANT: Robert R. Varner, Jr. of Townsend Professional Centre, LLC

AGENDA ITEM: **P2016-017** (*Townsend Professional Centre; Replat*)

SUMMARY:

Discuss and consider a request by Robert R. Varner, Jr. of Townsend Professional Centre, LLC for the approval of a replat creating Lots 9, 10, & 11, Block A, Municipal Industrial Park Addition, being a 2.60-acre parcel of land currently identified as Lot 8, Block A, Municipal Industrial Park Addition (*2.29-acres*) and Lot 1, Block A, Corrigan Law Office Addition (*0.31-acres*), City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated west of the intersection of SH-205 and FM-549, and take any action necessary.

COMMENTS:

- ✓ The objective of the request is to combine two (2) existing lots [*Lot 8, Block A, Municipal Industrial Park Addition (2.29-acres) and Lot 1, Block A, Corrigan Law Office Addition (0.31-acres)*] totaling 2.60-acres and subdivide the property into three (3) separate lots for the purpose of conveying a portion of the property; however, the final plat will also establish fire lane, public access, utility, detention and drainage easements necessary to develop the property.

- ✓ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions listed in the *Recommendations* section below.

- ✓ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the request for final plat, staff would recommend the following conditions of approval:

1) All staff comments (*Project Plan Review)* provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit and to include the following additional Planning comments;

    a. That adherence to Engineering and Fire Department standards shall be required, and

2) Any construction or building necessary to complete this *Site Plan* request must conform to the requirements set forth by the UDC, the 2009 International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

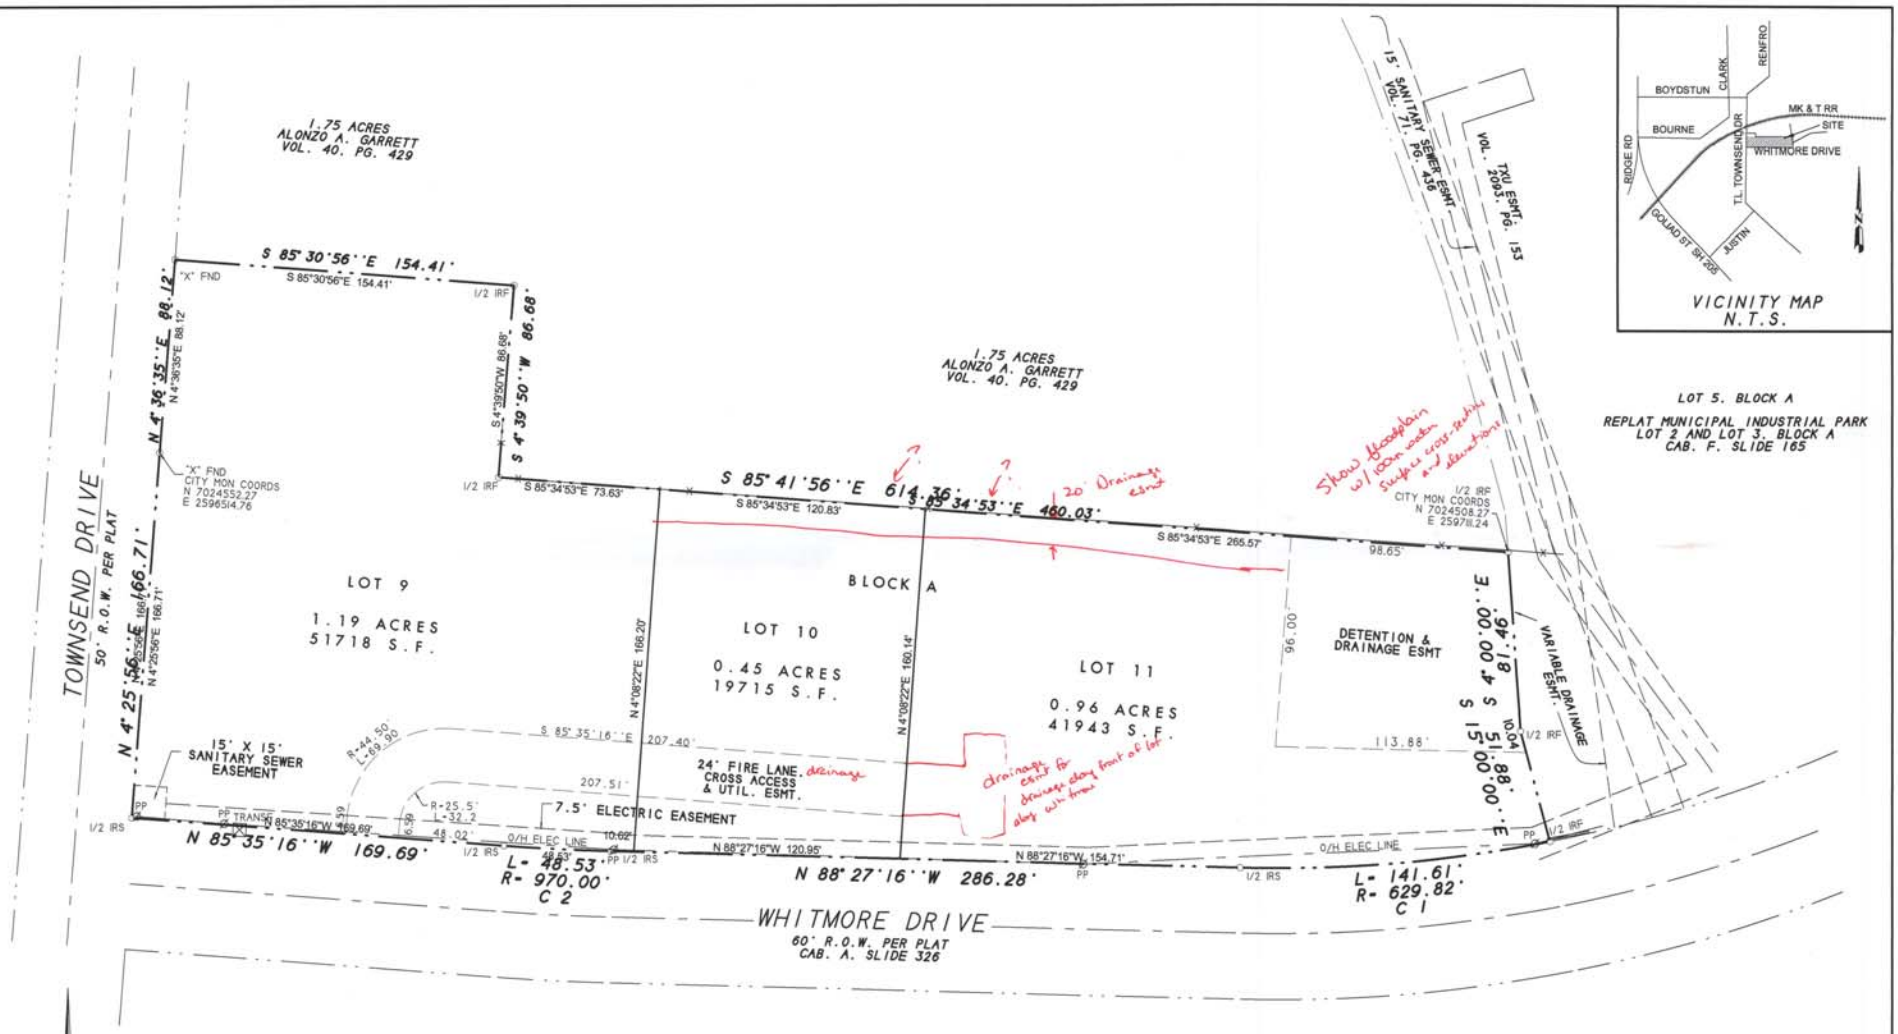
Discuss and consider a request by Robert R. Varner, Jr. of Townsend Professional Centre, LLC for the approval of a replat creating Lots 9, 10, & 11, Block A, Municipal Industrial Park Addition, being a 2.60-acre parcel of land currently identified as Lot 8, Block A, Municipal Industrial Park Addition (2.29-acres) and Lot 1, Block A, Corrigan Law Office Addition (0.31-acres), City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated west of the intersection of SH-205 and FM-549, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, May 3, 2016. Please provide three large copies [18" X 24" FOLDED] and one PDF version for a subsequent review by staff:



1. Adherence to all Engineering and Fire Department standards shall be required.
2. Provide a label indicating "Case No. P2016-017" on the lower right corner on all pages of the revised plat.
3. Change the Title Block to read as follows:
Final Plat
Being a Conveyance Plat establishing 3 lots to be known as
Municipal Industrial Park
Lots 9, 10, and 11, Block A
and Being a replat of
Lot 8, Block A, Municipal Industrial Park and Lot 1, Block A Corrigan Law Office Addition
totalling 2.60 acres (3 lots)
R. Ballard Survey, Abstract No. 29
City of Rockwall, Rockwall County, Texas
4. Add a 'Plat Note" above title block that reads:
a) Conveyance Plat Only: Not for Development
b) A conveyance plat is a map of property approved by the City for the purpose of saleor conveyance in its entirety or interests thereon defined. Lots created by a conveyance plat may not have all necessary publich utilites avaiable for immediate use. No certificate of occupancy shall be issued nor permanent public utility service provided to any lot(s) created by conveyance plat until all required public improvements have been constructed and accepted and a Final Plat, or Replat is filed for record with the county clerk. Selling a portionof property by metes and bounds, except as shown on an approved, filed and accepted Conveyance Plat is a violation of the City's code of ordinance and state law.
5. Change label for 24' Firelane, Cross Access.... to "24' Firelane, Public Access, and Utility Easement" where applicable.
6. Provide all easement information and/or indicate abandonment for the portion known as the Corrigan Law Office Addition.
7. Under the Owners Certificate - provide the legal description.

** As a note and once the plat has been approved by the Planning Commission and City Council, all staff comments are to be addressed and all revisions resubmitted and approved by staff prior to plat submittal on mylar for filing purposes. **

Meeting Dates to Attend (Since this plat request will be placed on the Consent Agenda for both the Planning and City Council meetings, it is not necessary for you to attend; however, staff would recommend that someone be present for the meetings. If you have any quesitons regarding this case, please feel free to contact David Gonzales with the Planning Department at 972-771-7745.

Planning - Action: April 26, 2016 (6:00 p.m.)

City Council - Action: May May 2, 2016 (6:00 p.m.)

OWNER'S CERTIFICATE
(Public Dedication)

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS TOWNSEND PROFESSIONAL CENTRE, LLC. BEING THE OWNER OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

BEING all of Lot 8, Block A, REPLAT MUNICIPAL INDUSTRIAL PARK, LOT 1, BLOCK A, an Addition to the City of Rockwall, Rockwall County, Texas, according to the map or plat thereof; recorded in Cabinet G, Slide 151, of the Map Records of Rockwall County, Texas.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as MUNICIPAL INDUSTRIAL PARK, LOT 9, 10 & 11, BLOCK A, an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Roc kwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exaction's made herein.

ROBERT VARNER, JR. for
TOWNSEND PROFESSIONAL CENTRE, LLC

STATE OF TEXAS
COUNTY OF ROCKWALL

Before me, the undersigned authority, on this day personally appeared ROBERT VARNER, JR. known to me to be the person whose name is subscribed to the foregoing instrument, and acknowledged to me that he executed the same for the purpose and consideration therein stated.

Given upon my hand and seal of office this _____day of _____, _____.

Notary Public in and for the State of Texas My Commission Expires:

7. All detention/drainage facilities to be maintained, repaired, and replaced by property owner

NOTE: It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representa tion, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for w ater for personal use and fire protection within such plat, as required under Ordinance 83-54.

SURVEYOR'S CERTIFICATE

NOW, THEREFORE KNOW ALL MEN BY THESE PRESENTS:

THAT I, Harold D. Fetty, III, R.P.L.S. No. 5034, do hereby certify that I prepared this plat from an actual and accurate survey of the land, and that the corner monuments shown thereon were properly placed under my personal supervision.

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Roc kwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exaction's made herein.

ROBERT VARNER, JR. for
TOWNSEND PROFESSIONAL CENTRE, LLC

STATE OF TEXAS
COUNTY OF ROCKWALL

Before me, the undersigned authority, on this day personally appeared ROBERT VARNER, JR. known to me to be the person whose name is subscribed to the foregoing instrument, and acknowledged to me that he executed the same for the purpose and consideration therein stated.

Given upon my hand and seal of office this _____day of _____, _____.

Notary Public in and for the State of Texas

My Commission Expires:

NOTE: It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any represenla tion, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for w ater for personal use and fire protection within such plat, as required under Ordinance 83-54.

SURVEYOR'S CERTIFICATE

NOW, THEREFORE KNOW ALL MEN BY THESE PRESENTS:

THAT I, Harold D. Fetty, III, R.P.L.S. No. 5034, do hereby certify that I prepared this plat from an actual and accurate survey of the land, and that the corner monuments shown thereon were properly placed under my personal supervision.

(4/22/2016 8:56 AM KB)
Z2016-012 SUP for Retail Building with more than two (2) gasoline dispensers:
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of a Specific Use Permit (SUP) to allow a retail store with more than two (2) gasoline dispensers on a 0.918-acre parcel of land identified as Lot 1, Block A, Mr. M Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, addressed as 2901 Ridge Road.
I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (Z2016-012) in the lower right hand corner of all pages on future submittals.
I.4 Please review the attached draft ordinance prior to the April 26, 2016 Planning & Zoning Commission meeting.
I.5 This property is located within the Scenic Overlay (SOV) and is subject to stricter architectural standards. The structure shall have 90 percent masonry materials, including a minimum 20 percent stone on each exterior wall. Also the building shall be architecturally finished on all four sides with the same materials, detailing, and features.
I.6 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on May 3, 2016; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the May 10, 2016 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on April 26, 2016.
I.7 The projected City Council meeting dates for this case will be May 16, 2016 [1st Reading] & June 6, 2016 [2nd Reading].

Mr. Ryan Miller, AICP
Director of Planning
City of Rockwall
385 South Goliad
Rockwall, TX 75087

RE: SUP Application Kroger Fuel SW575

Mr. Miller:

CEI Engineering, Inc. is requesting a Specific Use Permit for the Kroger proposed fuel station to be located at the SEC of Ridge Road and Horizon Road (2901 Ridge Road). Currently there is an existing 2,264sf EZ-Mart store with 2 MPD dispensers and canopy located onsite. Kroger Fuel is proposing to replace the existing store, pumps, tanks and canopy with an 807sf kiosk, 8 MPD dispensers, new tanks and a new canopy.

Current zoning is PD-9 with a base zoning of GR and within a Scenic Overlay District. A fuel station is allowed in this zoning by a Specific Use Permit. The site plan adheres to the specific setback and other requirements of this district.

If you have any questions please contact me.

Thank you and have a good day.

CEI Engineering, Inc.

Jim Evans, RLA
Asst. Project Manager

PROPERTY DESCRIPTION

STATE OF TEXAS §
COUNTY OF ROCKWALL §

BEING a tract of land situated in the E. TEAL SURVEY, ABSTRACT NO. 207, City of Rockwall, Rockwall County, Texas and being all of Lot 1, Block A, Mr. M Addition, an addition to the City of Rockwall, Rockwall County, Texas according to the plat thereof recorded in Cabinet C, Page 24, Plat Records, Rockwall County, Texas (P.R.R.C.T.), and being more particularly described as follows:

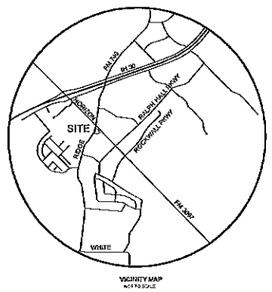
BEGINNING at a TXDOT (Texas Department of Transportation) Brass Monument found for the most northerly corner of Lot 1, Block A, of said Mr. M Addition, said monument also being the northeast end of a corner clip at the intersection of the southwesterly right-of-way line of Ridge Road (F.M. Road 3097, variable width right-of-way) and southeasterly right-of-way line of Ridge Road (F.M. Road 740, variable width right-of-way);

THENCE South 45 deg 40 min 35 sec East, departing said corner clip and along the southwesterly right-of-way line of said Horizon Road and the Easterly line of Lot 1, Block A, of said Mr. M Addition, a distance of 222.12 feet to a 1/2 inch iron rod with red plastic cap stamped "W.A.I." set for corner, from which a TXDOT Aluminum Monument bears, South 84 deg 11 min 36 sec West, a distance of 2.82 feet and a 1/2 inch iron rod found bears North 40 deg 44 min 12 sec West, a distance of 3.77 feet;

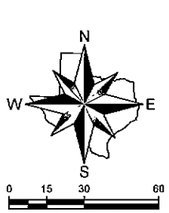
THENCE South 74 deg 35 min 42 sec West, departing the southwesterly right-of-way line of said Horizon Road, along the Southeast line of said Lot 1, the Northwest line of Lot 20, Block A, Horizon Ridge Addition, and addition to the City of Rockwall, Rockwall County, Texas, according to the Plat thereof recorded in Cabinet F, Slide 336, Official Public Records, Rockwall County, Texas, and the Northwest line of Lot 1, Block A, of RDI Retail Addition, an addition to the City of Rockwall, Rockwall County, Texas, according to the Plat thereof recorded in Cabinet D, Slide 369, Official Public Records, Rockwall County, Texas, a distance of 350.75 feet to a TXDOT Brass Monument found for corner, being situated in the southeasterly right-of way line of said Ridge Road and being the beginning of a non-tangent curve to the left having a radius of 623.69 feet, a central angle of 15 deg 47 min 49 sec, a chord bearing of North 26 deg 09 min 20 sec East and a chord length of 171.41 feet;

THENCE along the southeasterly right-of-way of said Ridge Road, the Westerly line of Lot 1, Block A, of said Mr. M Addition, and said non-tangent curve to the left, an arc distance of 171.95 feet to a 1/2 inch iron rod with red plastic cap stamped "W.A.I." set for corner;

THENCE North 18 deg 15 min 25 sec East, continuing along the southeasterly right-of-way of said Ridge Road and the Westerly line of Lot 1, Block A, of said Mr. M Addition, a distance of 76.38 feet to a TXDOT Aluminum Monument found for corner at the southwest end of the said corner clip;



THENCE North 74 deg 35 min 42 sec East, along said corner clip, a distance of 82.72 feet to the POINT OF BEGINNING.



CONTAINING within these metes and bounds 0.918 acres or 40,001 square feet of land, more or less.

Bearings shown hereon are based upon an on-the-ground Survey performed on the 18th day of September, 2014, utilizing a G.P.S. measurement (NAD 83, Texas State Plane, North Central Zone) using City of Rockwall, Control Monuments Reset #1 and R014.

SCHEDULE "B" NOTES

Items corresponding to the Commitment for Title Insurance issued September 19, 2014 by First American Title Insurance Company bearing an effective date of August 27, 2014, GF# 1002-122426-RTT.

1-9. Intentionally omitted, by Surveyor.

The following matters and all terms of the documents creating or offering evidence of the matters:

10a. 20' joint access easements, as shown on plat recorded in Volume C, Page 24, Map Records, Rockwall County, Texas. (Affects the subject property, as shown)

10b. Easement granted by Joe Jones et ux to RCH Water Supply Corporation, filed 12/05/1961, recorded in Volume 64, Page 236, Real Property Records, Rockwall County, Texas, and as shown on plat recorded in Cabinet C, Page 24, Map Records, Rockwall County, Texas. (Affects the subject property, as shown)

10c. Easement granted by J. L. Parker et ux to RCH Water Supply Corporation, filed 12/05/1961, recorded in Volume 64, Page 274, Real Property Records, Rockwall County, Texas. (Affects the subject property, as shown)

10d. Easement granted by JEY Investments to Southwestern Bell Telephone Company, filed 03/26/1999, recorded in Volume 1591, Page 283, Real Property Records, Rockwall County, Texas. (Affects the subject property, as shown)

10e. Easement granted by Lillyan Lolland Duncan to Texas Power & Light Company, filed 11/08/1950, recorded in Volume 46, Page 613, Real Property Records, Rockwall County, Texas. (Due to the age and generalities, this easement could not be plotted, but may affect the subject property)

10f. Easement granted by Robert Wooldridge et ux to Texas Power & Light Company, filed 07/26/1947, recorded in Volume 42, Page 538, Real Property Records, Rockwall County, Texas. (Due to the age and generalities, this easement could not be plotted, but may affect the subject property)

10g-10j. Intentionally omitted, by Surveyor.

The Surveyor has not abstracted the record title and/or easements of the subject property. The Surveyor prepared this survey with the benefit of a title commitment described above and assumes no liability for any easements, right-of-way dedications or other title matters affecting the subject property which may have been filed in the real property records but are not disclosed in said title commitment.

FLOOD NOTE

According to the Federal Emergency Management Agency, Flood Insurance Rate Map Community Panel No. 48397C0040L, dated September 26, 2008, this property is within Flood Zone X.

Zone X - Areas determined to be outside the 0.2% annual chance floodplain. (Areas determined to be outside the 500-year floodplain.)

This flood statement does not imply that the property and/or the structure thereon will be free from flooding or flood damage. On rare occasions, greater floods can and will occur and flood heights may be increased by man-made or natural causes. This flood statement shall not create liability on the part of the surveyor.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

SPECIFIC USE PERMIT NO. S-1XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A RETAIL STORE WITH MORE THAN TWO (2) GASOLINE DISPENSERS AS SPECIFIED IN ARTICLE IV, PERMISSIBLE USES, OF THE UNIFIED DEVELOPMENT CODE, FOR A 0.918 - ACRE TRACT OF LAND ZONED PLANNED DEVELOPMENT DISTRICT 9 (PD-9) FOR GENERAL RETAIL (GR) DISTRICT LAND USES, AND IDENTIFIED AS LOT 1, BLOCK A, MR. M ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Jim Evans of CEI Engineering Associates, Inc. on behalf of Bob Hubbard of EZ Mart Stores, Inc. for the approval of a Specific Use Permit (SUP) to allow a retail store with more than two (2) gasoline dispensers on a 0.918-acre parcel of land identified as Lot 1, Block A, Mr. M Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, and more specifically described in Exhibit 'A' of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That the Unified Development Code of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing for a retail store with more than two (2) gasoline dispensers within Planned Development District 9 (PD-9) as stipulated by Article IV, *Permissible Uses*, of the Unified Development Code for the *Subject Property*.

SECTION 2. That the Specific Use Permit (SUP) shall be subject to the conditions set forth in Planned Development District 9 (PD-9) and ***Article V, Section 4.4, General Retail (GR) District Standards, of the Unified Development Code (Ordinance No. 04-38)*** as heretofore amended, as amended herein by granting of this Specific Use Permit (SUP), and as may be amended in the

PREVIOUS ORDINANCE 04-38

future, and shall be subject to the additional following conditions.

2.1 Conditions for a Certificate of Occupancy (CO)

The following conditions pertain to the development of a retail store with more than two (2) gasoline dispensers on the *Subject Property*, and conformance to these development conditions are required for the issuance of a Certificate of Occupancy (CO):

1) All development on this property shall generally conform to the Concept Plan in *Exhibit 'C'* of this ordinance;

2) No more than eight (8) gasoline dispensers shall be allowed on the *Subject Property; and,*

3) Prior to the approval of a Building Permit a Site Plan generally conforming to the Concept Plan in *Exhibit 'C'* of this ordinance will need to be submitted and approved by the Planning & Zoning Commission, and City Council if necessary.

2.2 Operational Conditions

The following conditions pertain to the operation of a retail store with more than two (2) gasoline dispensers on the subject property, and conformance to these operational conditions are required for continued operations:

1) All operation on this property shall generally conform to the Concept Plan in *Exhibit 'C'* of this ordinance. Additionally, all conditions of Section 2.2 of this ordinance must be satisfied for continued operations.

2) No outside display of merchandise or outside storage shall be permitted on the subject property.

Section 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

Section 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

Section 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of TWO THOUSAND DOLLARS ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

Section 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

Section 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

DRAFT ORDINANCE 04.26.2016

PROPERTY DESCRIPTION

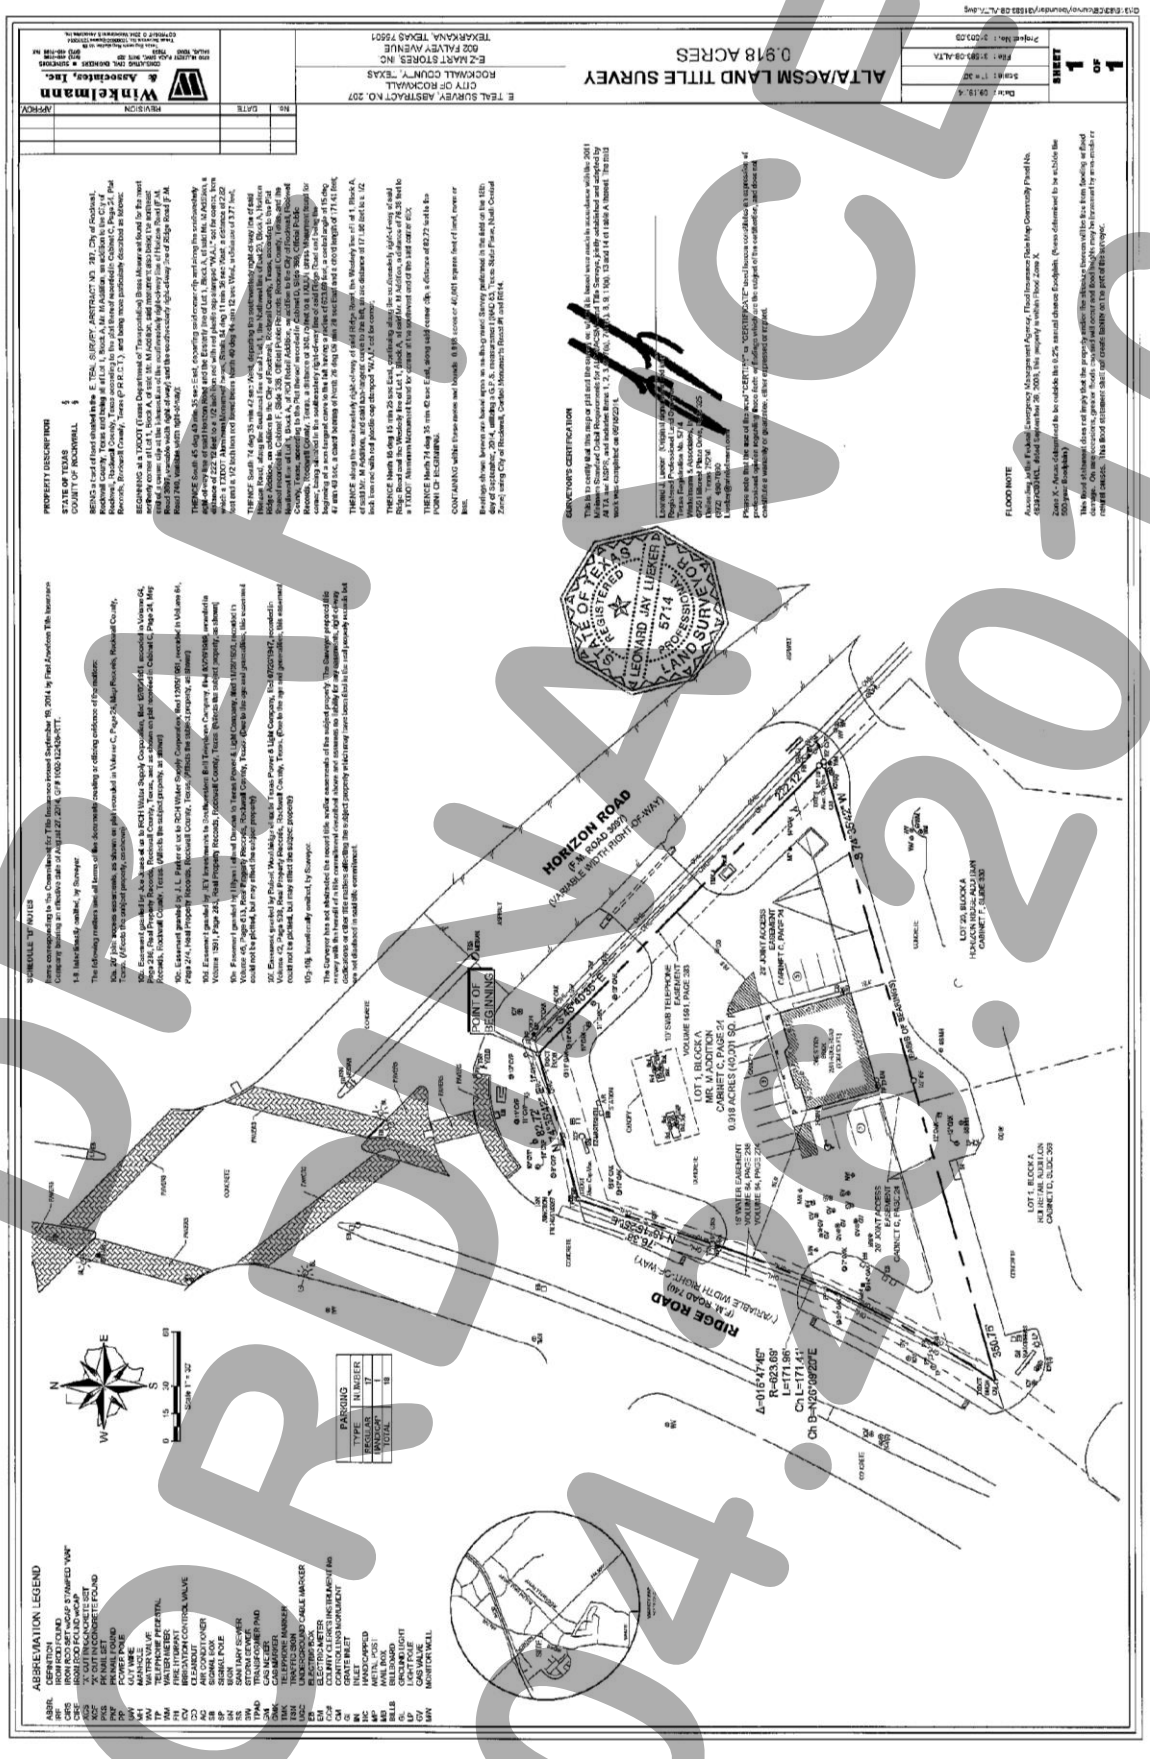
STATE OF TEXAS § COUNTY OF ROCKWALL §

BEING a tract of land situated in the E. TEAL SURVEY, ABSTRACT NO. 207, City of Rockwall, Rockwall County, Texas and being all of Lot 1, Block A, Mr. M Addition, an addition to the City of Rockwall, Rockwall County, Texas according to the plat thereof recorded in Cabinet C, Page 24, Plat Records, Rockwall County, Texas (P.R.R.C.T.), and being more particularly described as follows:

BEGINNING at a TXDOT (Texas Department of Transportation) Brass Monument found for the most northerly corner of Lot 1, Block A, of said Mr. M Addition, said monument also being the northeast end of a corner clip at the intersection of the southwesterly right-of-way line of Ridge Road (F.M. Road 3097, variable width right-of-way) and southeasterly right-of-way line of Ridge Road (F.M. Road 740, variable width right-of-way);

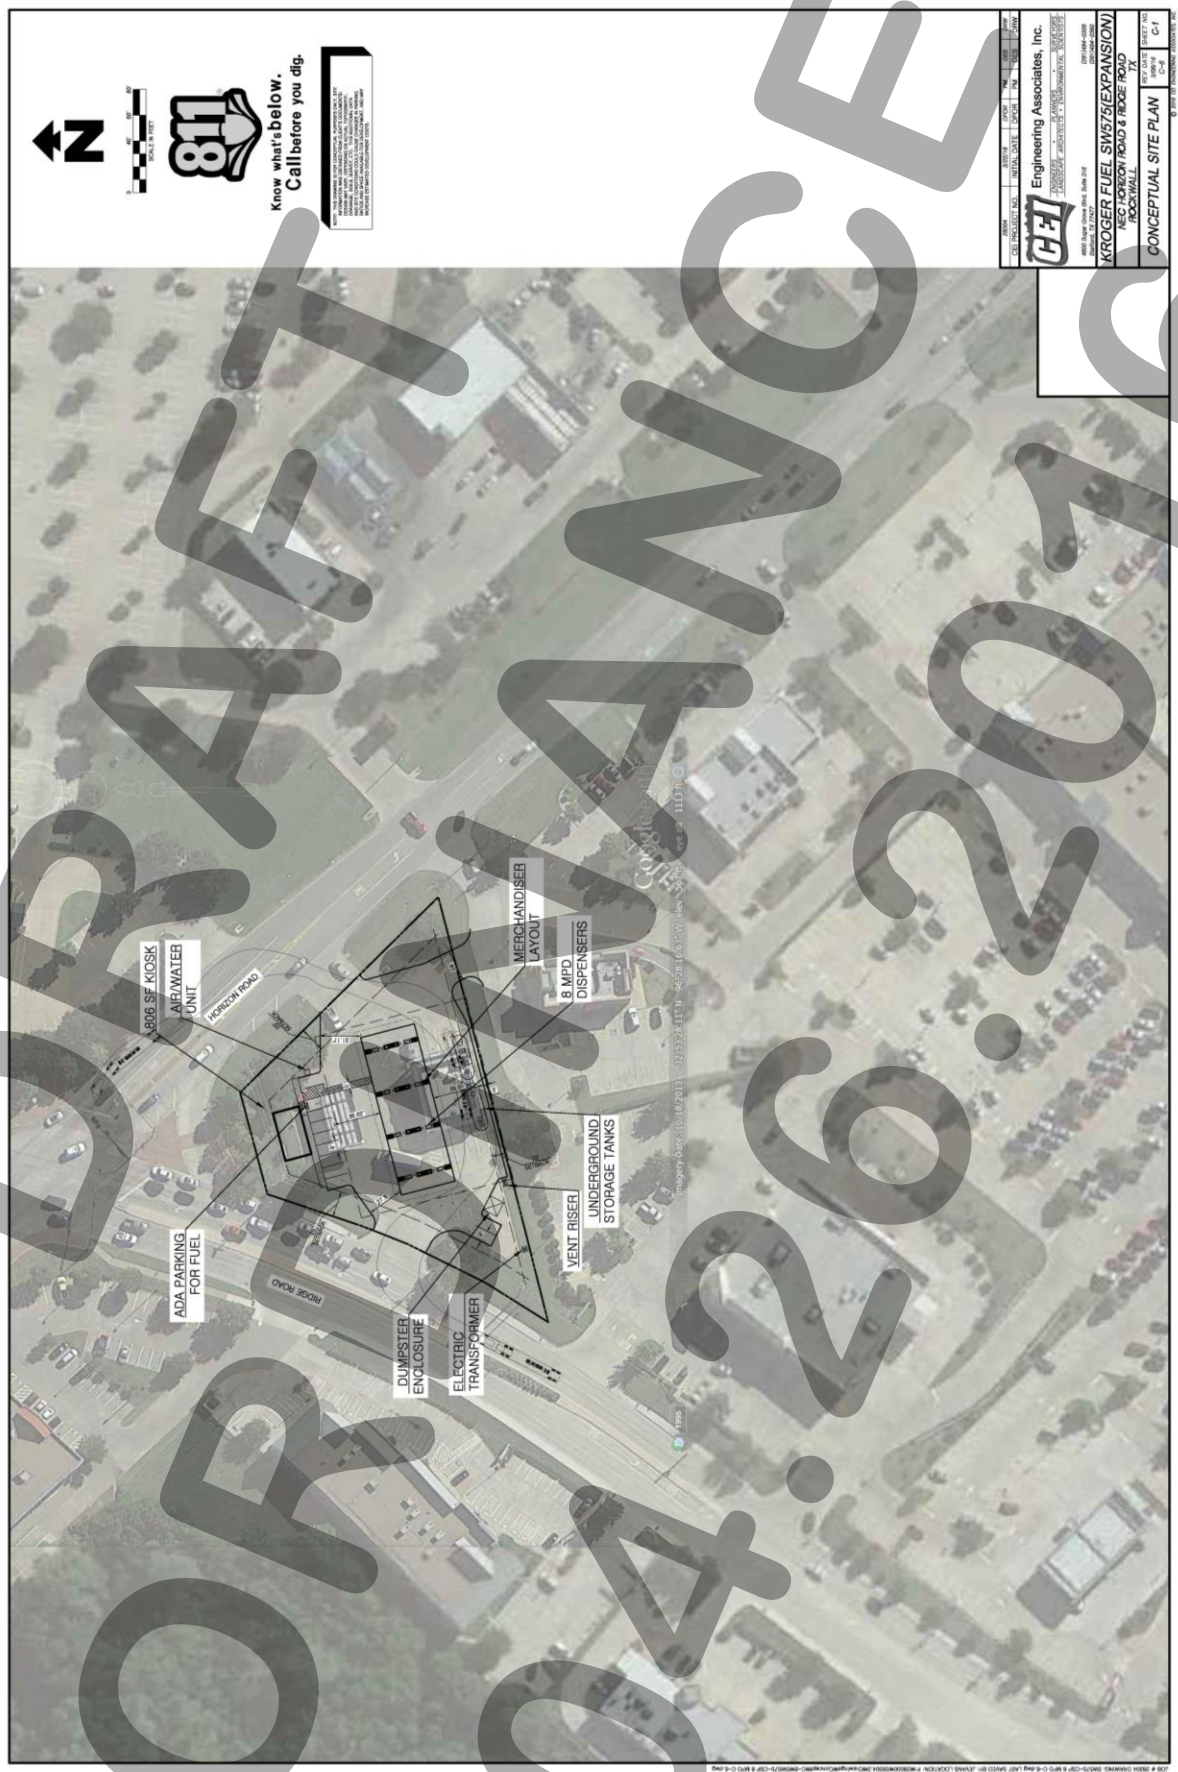
THENCE South 45 deg 40 min 35 sec East, departing said corner clip and along the southwesterly right- of-way line of said Horizon Road and the Easterly line of Lot 1, Block A, of said Mr. M Addition, a distance of 222.12 feet to a 1/2 inch iron rod with red plastic cap stamped “W.A.I.” set for corner, from which a TXDOT Aluminum Monument bears, South 84 deg 11 min 36 sec West, a distance of 2.82 feet and a 1/2 inch iron rod found bears North 40 deg 44 min 12 sec West, a distance of 3.77 feet;

THENCE South 74 deg 35 min 42 sec West, departing the southwesterly right-of-way line of said Horizon Road, along the Southeast line of said Lot 1, the Northwest line of Lot 20, Block A, Horizon Ridge Addition, and addition to the City of Rockwall, Rockwall County, Texas, according to the Plat thereof recorded in Cabinet F, Slide 336, Official Public Records, Rockwall County, Texas, and the Northwest line of Lot 1, Block A, of RDI Retail Addition, an addition to the City of Rockwall, Rockwall County, Texas, according to the Plat thereof recorded in Cabinet D, Slide 369, Official Public Records, Rockwall County, Texas, a distance of 350.75 feet to a TXDOT Brass Monument found for corner, being situated in the southeasterly right-of way line of said Ridge Road and being the beginning of a non-tangent curve to the left having a radius of 623.69 feet, a central angle of 15 deg 47 min 49 sec, a chord bearing of North 26 deg 09 min 20 sec East and a chord length of 171.41 feet;



THENCE along the southeasterly right-of-way of said Ridge Road, the Westerly line of Lot 1, Block A, of said Mr. M Addition, and said non-tangent curve to the left, an arc distance of 171.95 feet to a 1/2 inch iron rod with red plastic cap stamped “W.A.I.” set for corner;

THENCE North 18 deg 15 min 25 sec East, continuing along the southeasterly right-of-way of said Ridge Road and the Westerly line of Lot 1, Block A, of said Mr. M Addition, a distance of 76.38 feet to a TXDOT Aluminum Monument found for corner at the southwest end of the said corner clip;



THENCE North 74 deg 35 min 42 sec East, along said corner clip, a distance of 82.72 feet to the POINT OF BEGINNING.
CONTAINING within these metes and bounds 0.918 acres or 40,001 square feet of land, more or less. Bearings shown hereon are based upon an on-the-ground Survey performed on the 18th day of
September, 2014, utilizing a G.P.S. measurement (NAD 83, Texas State Plane, North Central Zone) using City of Rockwall, Control Monuments Reset #1 and R014.

Hold a public hearing to discuss and consider a request by Garrett Lust of Pointe Land & Development, LLC on behalf of Marven Wu of West Union Investment, Co. fo the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single-Family 10 (SF-10) District land uses on a 81.49-acre parcel of land identified as Tract 16 of the J. A. Ramsey Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, located on Rochell Road south of the intersection of Rochell Road the SH-276, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, May 3, 2016 (three large copies FOLDED and one PDF version) for subsequent review by staff. For questions or comments concerning this case please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com

• On all future submittals please include the Case Number (Z2016-013) in the lower right hand corner.

• Please review the Draft Ordinance prior to the Planning & Zoning Meeting scheduled for May 10, 2015.

• Please make the following corrections/additions to the Concept Plan:

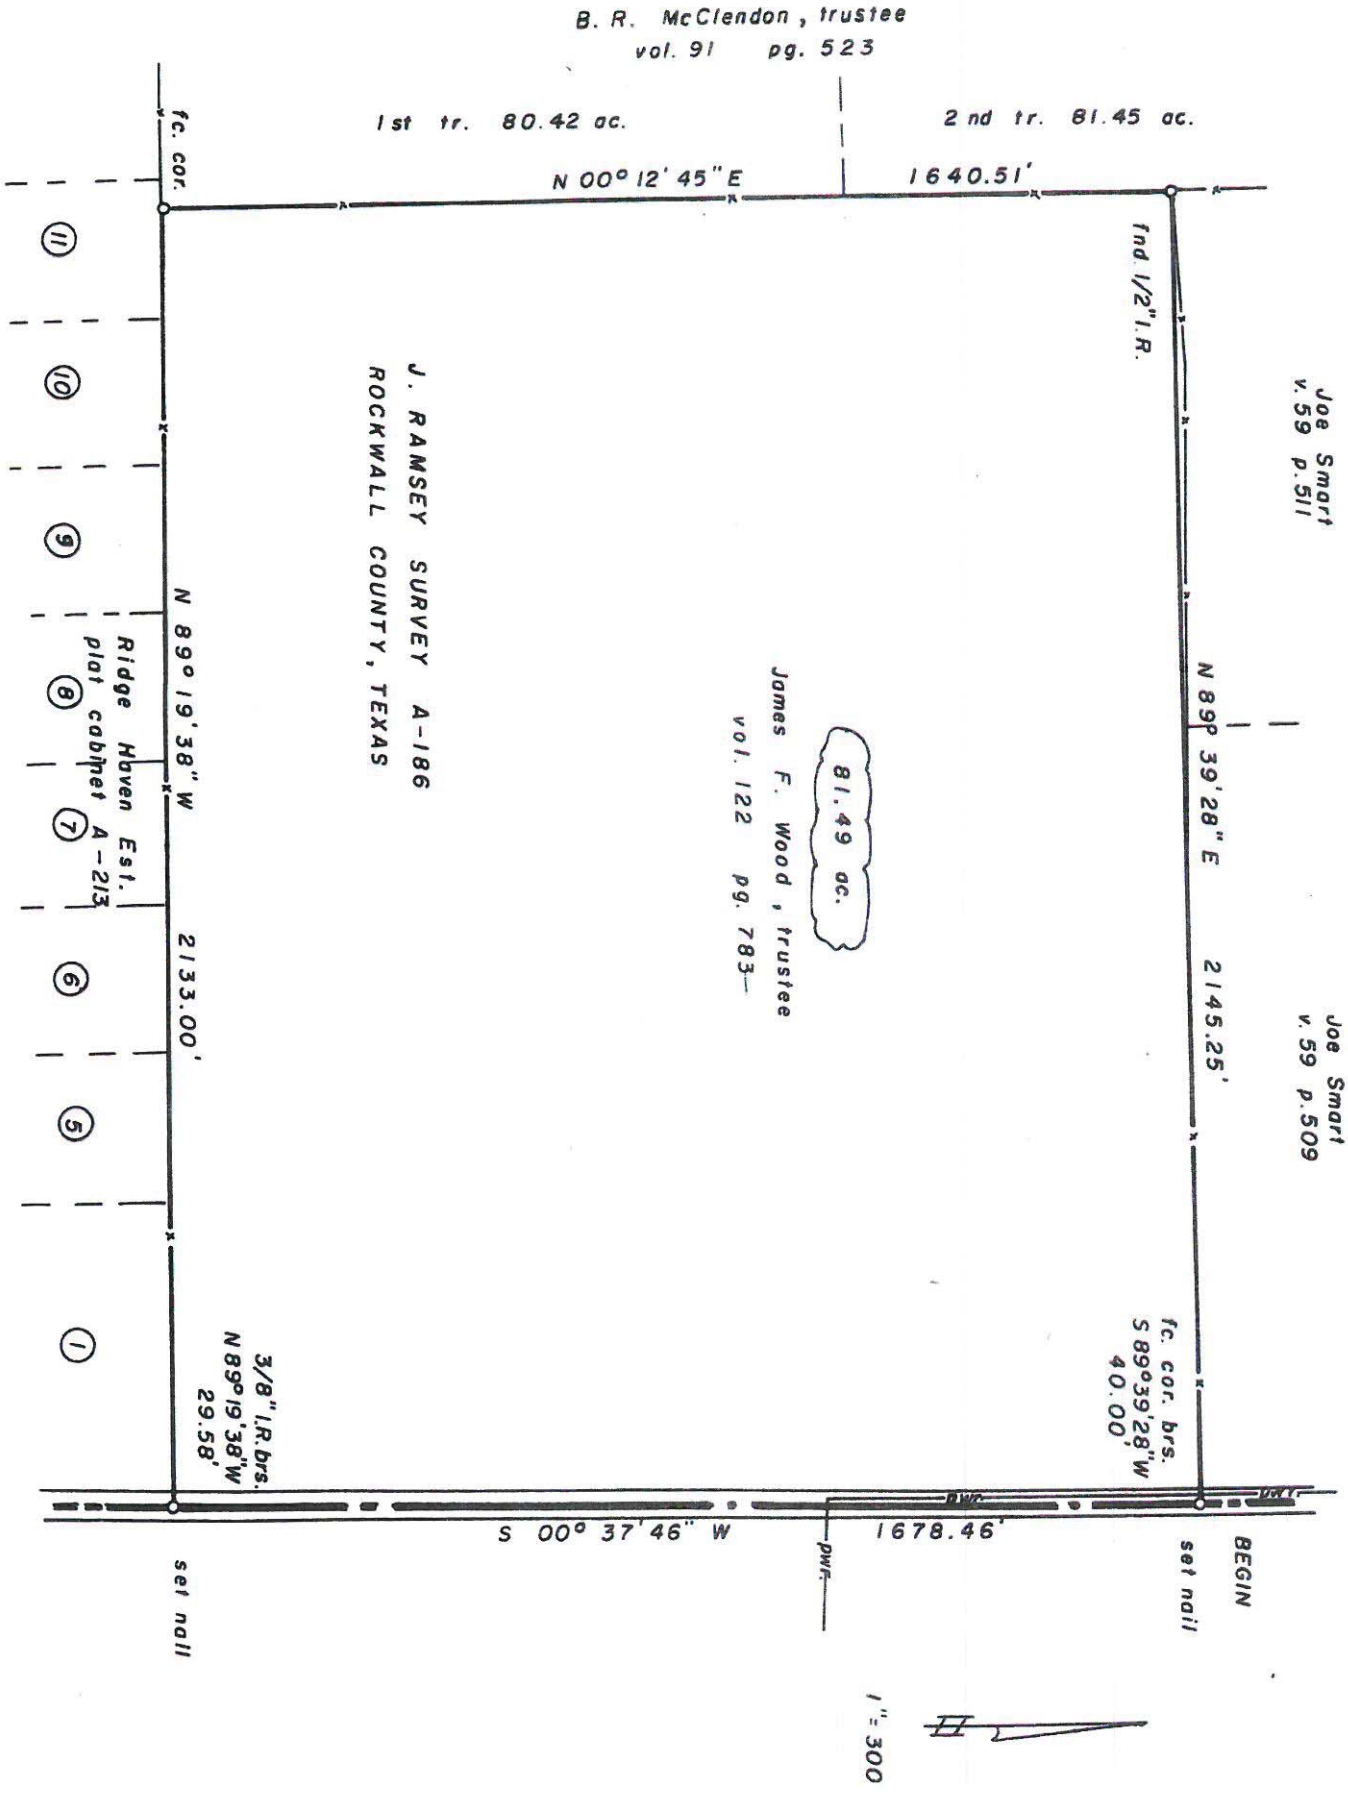
(1) Provide a legend indicating the following at a minimum:
a. Total Acres – #
b. Total Open Space - %
c. Lot Type 'A' – 65' x 125' – 174 Lots
d. Lot Type 'B' – 80' x 125' – 30 Lots
e. Total Number of Lots – 204
f. Maximum Density - 2.503 d.u/acre
(2) Rochelle Estates subdivision name – verify spelling for subdivision (i.e. Rochell or Rochelle). The city street name reflects the associated family name and is spelled without the 'e' on the end.
(3) Provide % of open space for each separate area on the plan (i.e. detention areas, landscape buffer, park area, etc.).
(4) Provide a typical street cross section for the proposed Minor Collector street to be located along the southern portion of the development, as indicated on the City's Thoroughfare Plan.
(5)Provide niche styled parking spaces along the perimeter of the park area for access and convenience of the public.
(6) Provide a label on the landscape buffer along Rochell Road.
(7) Label all streets (e.g. Street A, Street B, etc.)
(8) Provide property owner boundaries and property lines on adjacent properties.
(9) Indicate the City's corporate boundaries on the concept plan.
(10) Remove the statement at lower right indicating "This plan was prepared using...are subject to change without notice."

• The following are a list of Comprehensive Plan (plan) policies that have not been satisfied or could benefit from clarification:

(1) Currently, the concept plan does not indicate the total amount of open space being provided. The minimum amount required is 20% open space (i.e. ~16.298%). Provide the total open space meeting this requirement.
(2) The plan also requires that all lots less than 12,000 sq. ft. must be located within 800-ft of a public park or open space corridor in order to benefit from a property value premium. Provide an exhibit indicating conformance to this requirement.
(3) All residential lots that are 16,000 SF or less should be served by an alley. A request to waive this requirement by the City Council may be approved through the PD Ordinance.

• Please make these revisions and corrections, and provide any additional information that has been requested. Revisions for this case will be due to staff by May 3, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the May 10, 2016 Planning & Zoning Meeting.

• Please mark your calendar for the scheduled meeting dates as follows:



1. Planning and Zoning Work Session: April 26, 2016

2. Planning and Zoning Public Hearing: May 10, 2016

3. City Council dates: a) May 16, 2016 [Public Hearing - 1st Reading],
b) June 2, 2016 [2nd Reading (if approved)].

Rockwall Zoning Change Application - Letter of Explanation

The purpose of this Zoning Application is to amend the Unified Development Code of the City of Rockwall, Texas as previously amended, so as to change the zoning from (AG) Agriculture District to (PD) Planned Development District on an 81.49-acre tract known as abstract 186, J. Ramsey Survey and more specifically described in the attached Zoning Application Exhibits. Our application focuses on zoning to develop a single-family residential community located on Rochelle Rd, south of Highway 276. With this Zoning Application, Pointe Land and Development seeks a variety of lot sizes and home products we feel meet the demands of the home buyers for this area of Rockwall. The proposed (PD) Planned Development District provides single family development criteria for a quality and prestigious community consistent with the developments in this area as well as Rockwall as a whole. Pointe Land & Development will be constructing a new section of Highlands Blvd and Rochelle Rd to improve the quality of roads and access to the area as per Rockwall's Thoroughfare Plan.

Legal Description

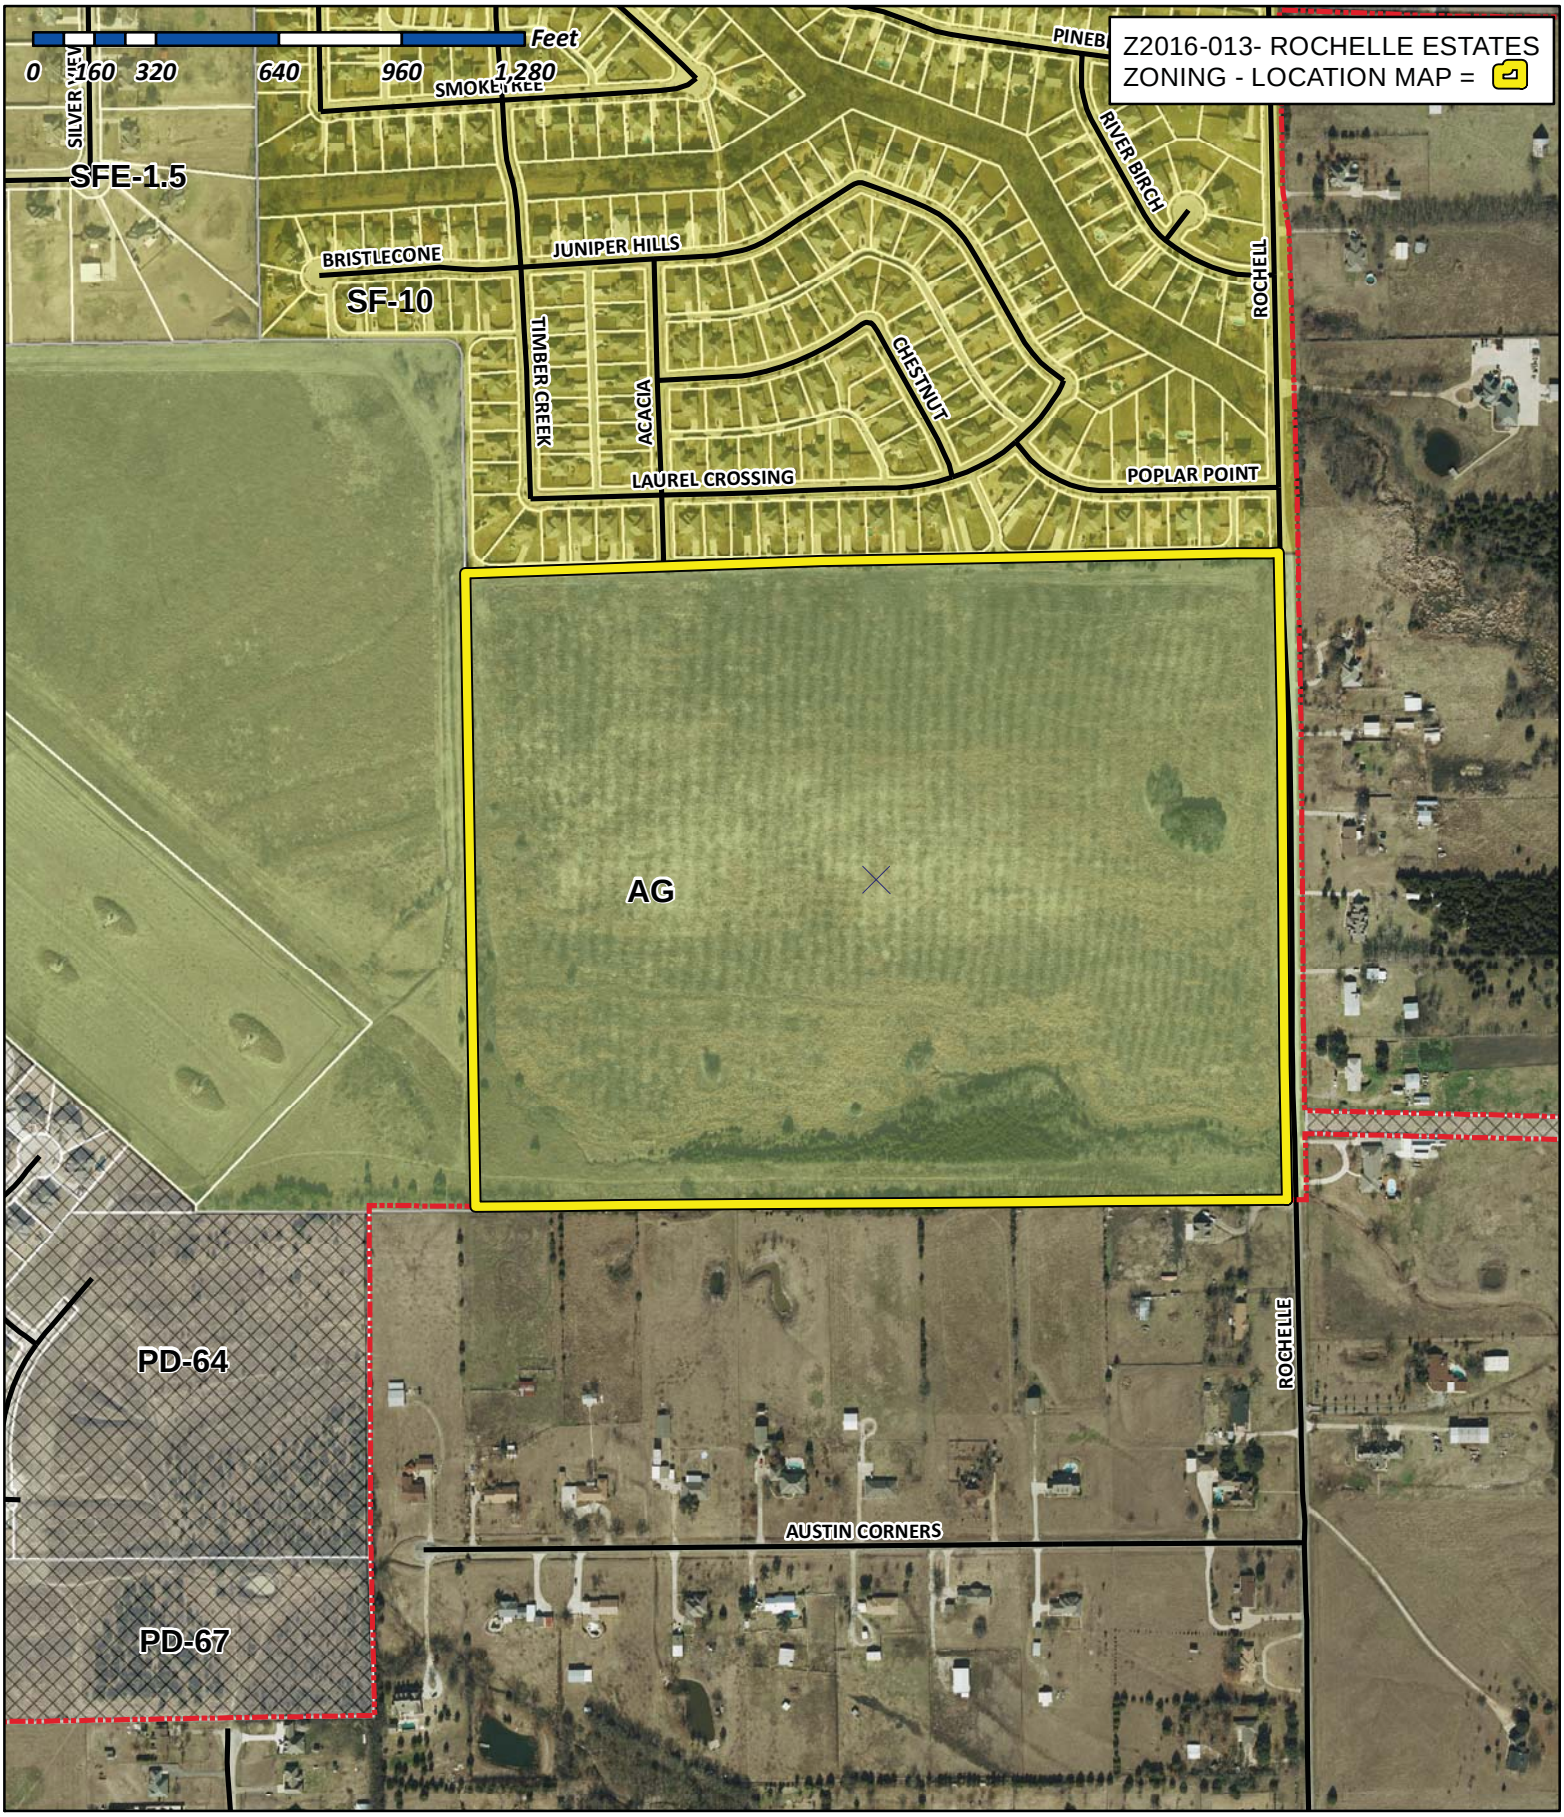
FIELD NOTES

BEING an 81.49 acre tract of land situated in the J. RAMSEY SURVEY A-186 of Rockwall County, Texas and being a part of a once called 405 acre tract described in a deed recorded in Volume D Page 73 and being the same land as described in deed to James F. Wood, Trustee as recorded in Volume 122 Page 783 of the Rockwall County, Deed Records, said 81.49 acre tract being further described as follows;

BEGINNING at a nail set in the center of an existing public road on the East line of the Ramsey Survey and being about South 2874 feet from the Northeast corner of said Ramsey Survey and being the Southeast corner of that certain tract described in deed to Joe Smart as recorded in Volume 59 Page 509 of the Rockwall County, Deed Records from said nail a fence corner bears S 89 deg 39 min 28 sec W 40 feet;

THENCE S 00 deg 37 min 46 sec W along the center of said road and along the East line of the Ramsey Survey 1678.46 feet to the Southeast corner of said 405 acre tract and being the Northeast corner of the Ridge Haven Estates, subdivision as per plat recorded in Glide A 213 of the Rockwall County, Plat Records, from which a 3/8 inch iron rod was found to bear N 89 deg 19 min 38 sec W 29.58 feet;

THENCE N 89 deg 19 min 38 sec W along the North line of said Ridge Haven Estates and along an old fence 2133.00 feet to a fence corner found at the Southeast corner of a called 80.42 acre tract described in a deed to B.R. McClendon as recorded in Volume 91 Page 523 of the Rockwall County, Deed Records;



THENCE N 00 deg 12 min 45 sec East along the East line of said McClendon tract and along an old fence 1640.51 feet to a 1/2 inch iron rod found at a fence corner at an ell corner of that certain tract described in deed to Joe Smart as recorded in Volume 59 Page 511 of the Rockwall County, Deed Records;

THENCE N 89 deg 39 min 28 sec E along the South line of the Smart tracts 2145.25 feet to the point of beginning and containing 81.49 acres of land.

I do hereby certify this plat to be true and correct and to represent a ground survey completed November 17, 1987.

Z2016-014 (Lakeside Church of Christ Tract [AG to PD]): Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 Hold a public hearing to discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of the owner Lakeside Church of Christ of Rockwall for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single Family 10 (SF-10) District land uses on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and located on the north side of Airport Road, west of the intersection of Airport Road and FM3549, and take any action necessary.
I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 On all future submittals please include the case number (Z2016-014) in the lower right hand corner.
I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on May 10, 2016.
M.5 Please submit a legal description for the subject property.
I.6 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due to staff on May 3, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the May 10, 2016 Planning & Zoning Meeting.
I.7 The projected City Council dates for this case are project to be: 1) May 16, 2016 [1st Reading], and 2) June 6, 2016 [2nd Reading].

OWNER'S CERTIFICATE
(Public Dedication)

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS ROCKWALL LAKESIDE CHURCH OF CHRIST, BEING THE OWNER OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

All that certain lot, tract or parcel of land situated in the E.M. ELLIOTT SURVEY, ABSTRACT NO. 77, City of Rockwall, Rockwall County, Texas, and being a part of that 64.88 acres tract of land as described in a Warranty deed from T.B. Moss and wife, Carolyn L. Moss to R.G. Stephens, Joseph Funk, and J.E. Overall, Jr., dated July 21, 1971 and being recorded in Volume 97, Page 420 of the Deed Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner in the North line of said 64.88 acres tract of land, said point being S. 89 deg. 18 min. 40 sec. E., 325.00 feet from the Northwest corner of same, and being in the South line of Lot 6, ROLLING MEADOWS ESTATES, an Addition to the City of Rockwall, Texas, according to the Plat thereof recorded in Cabinet D, Slide 59 of the Plat Records of Rockwall County, Texas, said point also being at the Northeast corner of Lot 22, Greenlee Addition, an Addition to the City of Rockwall, Texas, according to the Plat thereof recorded in Cabinet A, Slide 151 of the Plat Records of Rockwall County, Texas;

THENCE S. 89 deg. 18 min. 40 sec. E. (Controlling bearing line) along the North line of said 64.88 acres tract and the South line of ROLLING MEADOWS ESTATES, a distance of 2096.33 feet to a 1/2" iron rod found for corner in the West right-of-way line of F.M. Highway 549;

THENCE S. 00 deg. 27 min. 08 sec. W. along said right-of-way line, a distance of 561.79 feet to a 3/8" iron rod found for corner at the Northeast corner of a 10.733 acres tract of land as described in a Deed to Cal Gary as recorded in Volume 957, Page 88 of the Real Property Records of Rockwall County, Texas;

THENCE S. 01 deg. 09 min. 28 sec. W. at 773.06 feet pass a 3/8" iron rod found for witness and continuing for a total distance of 793.26 feet to a point for corner in the center of Airport Road;

THENCE N. 88 deg. 50 min. 39 sec. W. along the center of Airport Road, a distance of 952.71 feet to a point for corner at the Southeast corner of Greenlee Addition;

THENCE N. 01 deg. 05 min. 03 sec. E., at 20.00 feet pass a 1/2" iron rod with yellow plastic cap stamped "R.S.C.I. RPLS 5034" set for witness and continuing along the East line of Greenlee Addition for a total distance of 1345.57 feet to the POINT OF BEGINNING and containing 44.29 acres of land.

NOW THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as ROCKWALL LAKESIDE CHURCH OF CHRIST ADDITION an Addition to the City of Rockwall, Texas and whose name is subscribed hereto, hereby dedicated to the use of public forever all streets, alleys parks water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the subdivision have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasional by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exaction's made herein.

Milton Halbert
Milton Halbert

STATE OF TEXAS
COUNTY OF ROCKWALL

Before me, the undersigned authority, on this day personally appeared MILTON HALBERT, known to me to be the person whose name is subscribed to the foregoing instrument, and acknowledged to me that he executed the same for the purpose and consideration therein stated.

Given upon my hand and seal of office this 1st day of July, 2004.

Jenell Lee Strickland
Notary Public in and for the State of Texas

2-16-08
My Commission Expires:

JENELL LEE STRICKLAND
MY COMMISSION EXPIRES
February 16, 2008

NOTE: It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.

SURVEYOR'S CERTIFICATE

NOW THEREFORE KNOW ALL MEN BY THESE PRESENTS:

THAT I, Harold D. Fetty, III, R.P.L.S. No. 5034, do hereby certify that I prepared this plat from an actual and accurate survey of the land, and that the corner monuments shown thereon were properly placed under my personal supervision.

Harold D. Fetty, III
Registered Professional Land Surveyor No. 5034

RECOMMENDED FOR FINAL APPROVAL

Planning and Zoning Commission

7/21/04
Date

APPROVED

I hereby certify that the above and foregoing plat of ROCKWALL LAKESIDE CHURCH OF CHRIST ADDITION, an addition to the City of Rockwall, Texas was approved by the City Council of the City of Rockwall on the 19 day of July, 2004.

This approval shall be invalid unless the approved plat for such addition is recorded in the office of the County Clerk of Rockwall County, Texas, within one hundred eighty (180) days from said date final approval.

Said addition shall be subject to all the requirements of the Subdivision Regulations of the City of Rockwall.

WITNESS OUR HANDS, this 21st day of July, 2004.

CASE • Z2016-000

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO CHANGE THE ZONING FROM AN AGRICULTURAL (AG) DISTRICT TO PLANNED DEVELOPMENT DISTRICT XX (PD-XX) FOR SINGLE FAMILY 10 (SF-10) DISTRICT LAND USES ON THE SUBJECT PROPERTY, BEING A 29.541-ACRE TRACT OF LAND IDENTIFIED AS A PORTION OF LOT 1 AND ALL OF LOT 2, BLOCK A, ROCKWALL LAKESIDE CHURCH OF CHRIST ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Noah Flabiano of the Skorburg Company on behalf of the owner of the property, Lakeside Church of Christ of Rockwall, for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single Family 10 (SF-10) District land uses, on a 29.541-acre tract of land identified as a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 2. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the

DRAFT 05.05.2016

amended zoning classification for the *Subject Property*;

Section 4. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 5(b) through 5(g) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) Open Space Master Plan
(2) Master Plat
(3) PD Site Plan
(4) Preliminary Plat
(5) Final Plat

(c) *Open Space Master Plan.* An *Open Space Master Plan* for the *Subject Property*, prepared in accordance with this ordinance and consistent with the *Planned Development Concept Plan*, (*Open Space Master Plan*) shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

(d) *Master Plat.* A *Master Plat* for the *Subject Property* shall be submitted and shall identify the proposed timing of each phase of the proposed development. A *Master Plat* application may be processed by the City concurrently with a *Open Space Master Plan* for the development.

(e) *PD Site Plan.* A *PD Site Plan* covering all of the *Subject Property* shall be submitted and shall identify all site/landscape/hardscape plan(s) for all open space, neighborhood parks, trail systems, street buffers and entry features. A *PD Site Plan* application may be processed by the City concurrently with a *Preliminary Plat* application for the development.

(f) *Preliminary Plat.* A *Preliminary Plat* covering all of the *Subject Property* shall be submitted and shall include a *Treescape Plan*. A *Preliminary Plat* application may be processed by the City concurrently with a *PD Site Plan* application for the development.

(g) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat*, conforming to the *Preliminary Plat*, for all of the *Subject Property* shall be submitted for approval.

Section 5. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 6. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified

DRAFT ORDINANCE 06.06.2016

Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 7. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 8. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 6TH DAY OF JUNE, 2016.

_____
Jim Pruitt, *Mayor*

ATTEST:

_____
Kristy Cole, *City Secretary*

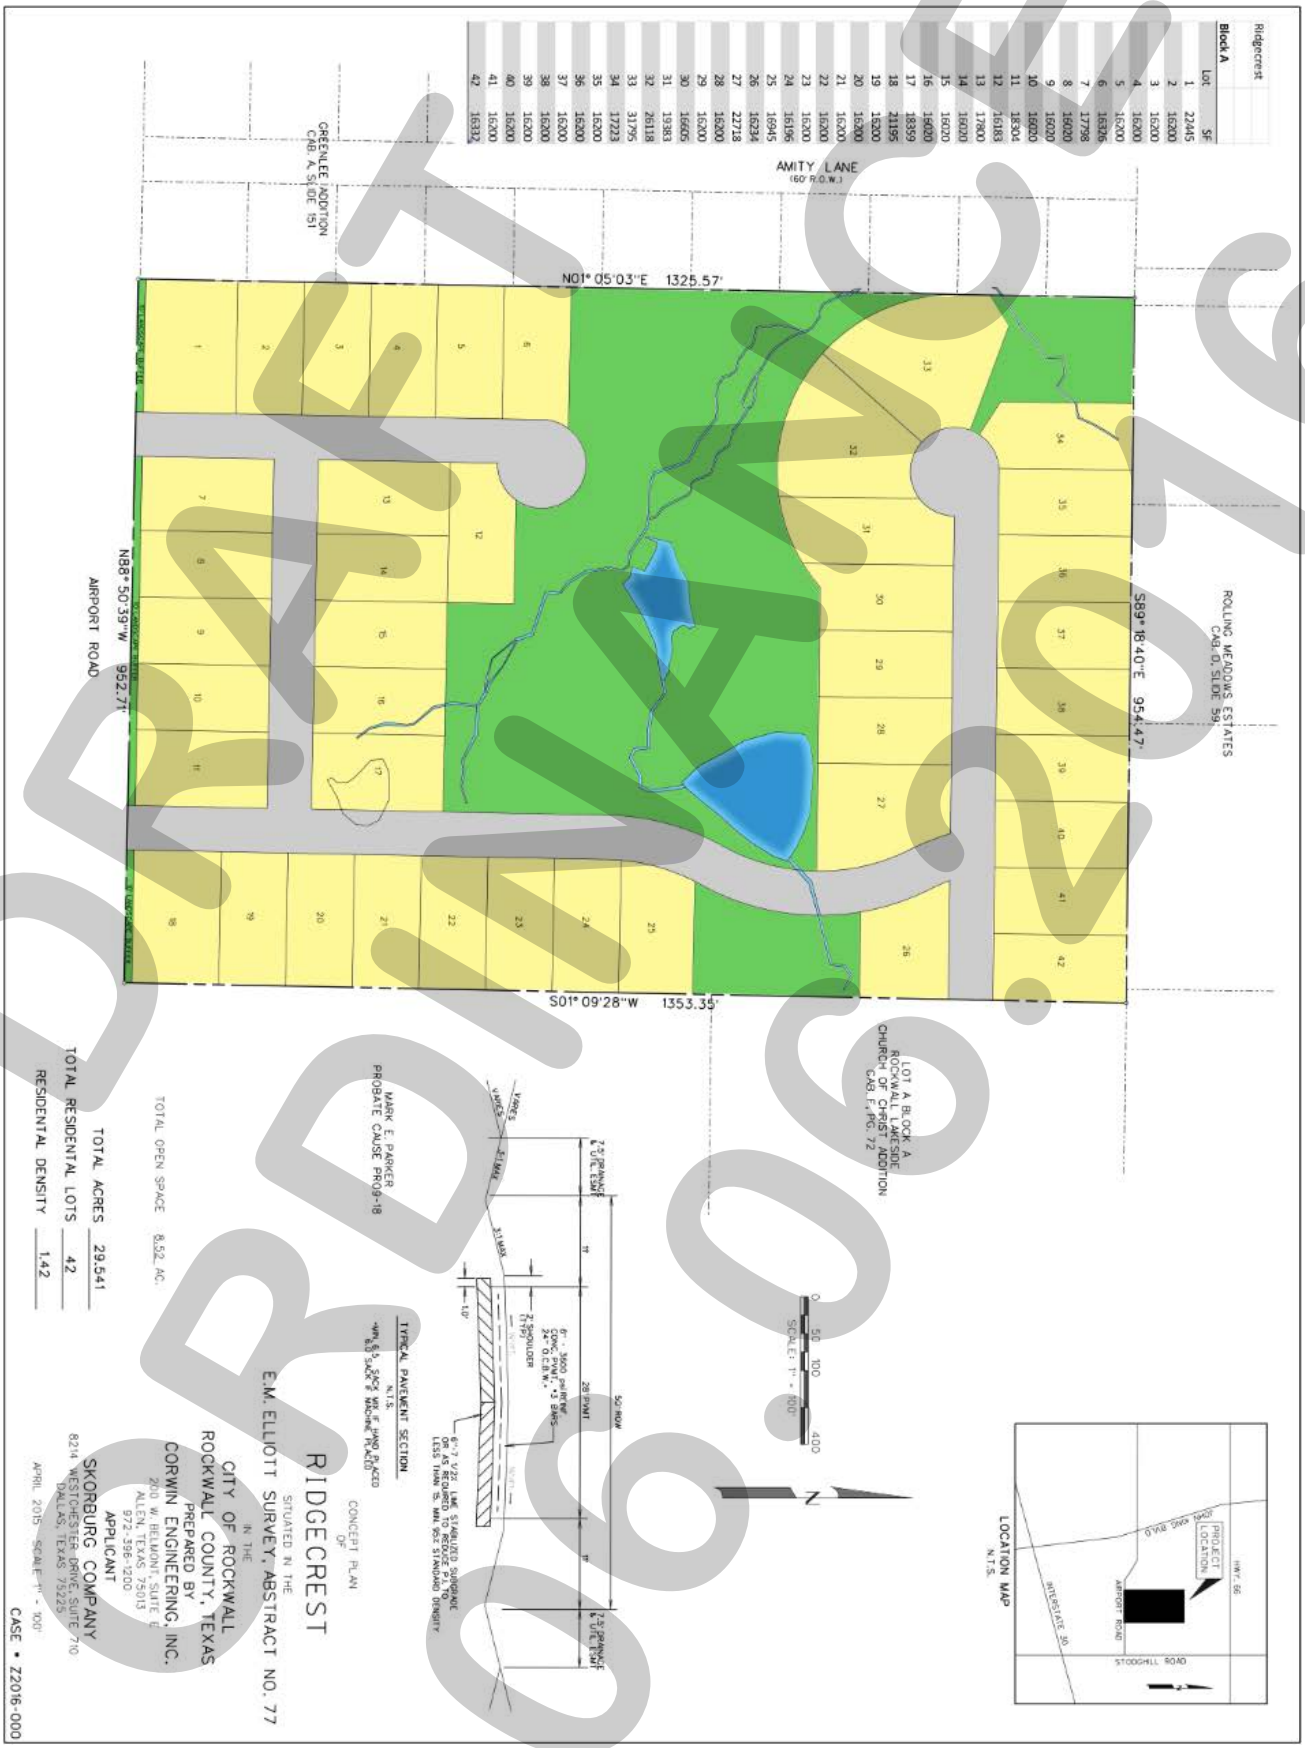
DRAFT ORDINANCE 06.06.2016

Exhibit 'A':
Legal Description

BEING, a tract of land situated in the E.M. Elliott Survey, Abstract No. 77 in Rockwall County, Texas, being all of Lot 2 Block A and a portion of Lot 1 Block A, out of Rockwall Lakeside Church of Christ Addition, an addition to the City of Rockwall, as described in Cabinet F, Slide 72-78, in the Plat Records of Rockwall County, Texas, being more particularly described as follows:

BEGINNING, at a ½ inch iron rod set at the southwest corner of said Rockwall Lakeside Church of Christ Addition and being the southeast corner of Greenlee addition, an addition to the City of Rockwall, as described in Cab. A, Slide 151, in said Plat Records;

THENCE, North 01°05'03" East, along the west line of said Rockwall Lakeside Church of Christ Addition and along the east line of said Greenlee Addition, for a distance of 1325.57 feet, to a ½ inch iron rod set at the northwest corner of said Rockwall Lakeside Church Addition;



THENCE, South 89°18'40" East, along the north line of said Rockwall Lakeside Church Addition, at 894.47 feet, passing the northeast corner of said Lot 2 Block A and the northwest corner of said Lot 1 Block A, for a total distance of 954.47 feet, to a ½ inch iron rod set;

THENCE, South 01°09'28" West, departing said north line, for a distance of 1353.35 feet, to a ½ inch iron rod set at the most southerly southeast corner of said Rockwall Lakeside Church of Christ Addition;

THENCE, North 88°50'39" West, along the south line of said Rockwall Lakeside Church of Christ Addition, for a distance of 952.71 feet, to the *POINT OF BEGINNING* and containing 29.541 acres of land.

Concept Plan

DRAFT
06.06.2016

Exhibit 'C':
PD Development Standards

A. GENERAL REQUIREMENTS

Development Standards.

1. *Permitted Uses.* Unless specifically provided by this *Planned Development Ordinance*, only those uses permitted within the Single Family 10 (SF-10) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are permitted on the *Subject Property*.

2. *Lot Composition and Layout.* The lot layout and composition shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Table 1*, which is as follows:

Table 1: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Dwelling Units (#)*	*Dwelling Units (%)*
A	80' x 100'	15,000 SF	42	100.00%
	Average Lot Size:	15,000 SF		
		Maximum Permitted Units:	*42*	*100.00%*

3. *Density and Dimensional Requirements.* Unless specifically provided by this *Planned Development Ordinance*, the development standards stipulated by the Single Family 10 (SF-10) District, as specified by Article V, *District Development Standards*, of the Unified Development Code are applicable to all development on the *Subject Property.* The maximum permissible density for the *Subject Property* shall not exceed *1.50* dwelling units per gross acre of land; however, in no case should the proposed development exceed *42* units. All lots shall conform to the standards depicted in *Table 2*, which is as follows:

Table 2: Lot Dimensional Requirements

Minimum Lot Width/Frontage [1]	80'
Minimum Lot Depth	100'
Minimum Lot Area	15,000 SF
Minimum Front Yard Setback [2]	20'
Minimum Side Yard Setback	5'
Minimum Side Yard Setback (Adjacent to a Street)	10'
Minimum Length of Driveway Pavement	20'
Maximum Height	36'
Minimum Rear Yard Setback	10'
Minimum Area/Dwelling Unit (SF)	1,800 SF
Maximum Lot Coverage	65%

General Notes:

[1]: Lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may have the front lot width reduced by 20% as measured at the front property line provided that the lot width will be met at the front building line. Additionally, the lot depth on lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may be reduced by up to 10%, but shall meet the minimum lot size for each lot type as referenced within *Table 1*.

[2]: The Director of Planning or his designee may grant a reduction in the required 20-foot front yard building setback of up to five (5) feet for lots situated along cul-de-sacs or curvilinear streets, or where a 20-foot front yard building setback would create an undue hardship on the property.

4. *Building Standards.* All development shall adhere to the following building standards:

(a) *Masonry Requirement.* The minimum masonry requirement for the exterior façades of all buildings shall be 80%. For the purposes of this ordinance the masonry requirement shall be limited to full width brick, natural stone, cast stone, cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*), and stucco (*i.e. three [3] part*

DRAFT
ORDINANCE
08.08.16

stucco or a comparable -- to be determined by staff). Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and/or stucco shall be permitted to be used to meet up to 50% of the masonry requirement.

(b) Roof Pitch. A minimum of an *8:12* roof pitch is required on all structures with the exception of sunrooms and porches, which shall have a minimum of a *4:12* roof pitch.

(c) Garage Orientation. Garages shall oriented in a *traditional swing* (or *j-swing*) or in a front entry configuration. If a front entry garage configuration is utilized that garage shall be located at least 20-feet behind the front building façade. On *traditional swing* (or *j-swing*) garages a second single garage door facing the street is permitted if it is located behind the width of the double garage door.

5. *Anti-Monotony Restrictions.* The development shall adhere to the following anti-monotony standards:

   (1) Identical brick blends or paint colors may not occur on adjacent (*side-by-side*) properties along any block face without at least four (4) intervening homes of differing materials on the same side of the street beginning with the adjacent property and two (2) intervening homes of differing materials on the opposite side of the street.

   (2) Front building elevations shall not repeat along any block face without at least four (4) intervening homes of differing appearance on the same side of the street and two (2) intervening homes of differing appearance on the opposite side of the street. The rear elevation of homes backing to open spaces or Airport Road shall not repeat without at least four (4) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

      (a) Number of Stories
      (b) Permitted Encroachment Type and Layout
      (c) Roof Type and Layout
      (d) Articulation of the Front Façade

   (3) Each phase of the subdivision will allow for a maximum of four (4) compatible roof colors, and all roof shingles shall be an architectural or dimensional shingle (*3-Tab Roofing Shingles are prohibited*).

See the Illustrations on the following page.

DRAFT ORDINANCE 06.06.16

Exhibit 'C':
PD Development Standards

Illustration 1: Properties line up on the opposite side of the street. Where RED are the same.

Illustration 2: Properties do not line up on opposite side of the street. Where RED are the same.

6. *Fencing Standards.* All individual residential fencing and walls shall be architecturally compatible with the design, materials and colors of the primary structure on the same lot, and meet the following standards:

(a) Wood Fences. All wood fences shall be constructed of a standard fencing material (*minimum of ½" thickness or better; spruce fencing will not be allowed*), and use fasteners that are hot dipped galvanized or stainless steel. Wood fences facing onto a street shall be painted and/or stained and sealed with all pickets being placed on the *public side* facing the street. All wood fences shall be smooth-finished, free of burs and splinters, and be a maximum of six (6) feet in height.

(b) Wrought Iron/Tubular Steel. Lots located along the perimeter of roadways (*i.e. Airport Road*), abutting open spaces, greenbelts and parks shall be required to install a wrought iron or tubular steel fence. Wrought iron/tubular steel fences can be a maximum of six (6) feet in height.

7. Landscape and Hardscape Standards.

(1) *Landscape.* Landscaping shall be reviewed and approved with the *PD Site Plan*. All *Canopy/Shade Trees* planted within this development, unless specifically provided by this *PD Ordinance*, shall be a minimum of three (3) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height. The following tree species are approved for planting within this subdivision:

DRAFT ORDINANCE 06.06.2016

(a) Canopy/Shade Trees. Bald Cyprus, Cedar Elm, Texas Red Oak, Homestead Elm, Lace Bark Elm, Alle Elm, Chinese Pistachio, Shumard Oak, Sycamore, and Burr Oak.

(b) Accent/Ornamental/Under-Story Trees. Texas Redbud, Eve's Necklace, Mexican Plum, Downy Hawthorn, Crepe Myrtle, Texas Mountain Laurel, Vitex, and Desert Willow.

(2) *Landscape Buffers.* All landscape buffers and plantings located within the buffers shall be maintained by the Homeowner's Association (HOA).

(a) Landscape Buffer and Sidewalks (Airport Road). A minimum of a 10-foot landscape buffer shall be provided along the frontage of Airport Road (*outside of and beyond any required right-of-way dedication*), and shall incorporate ground cover and one (1) canopy tree per 50-feet of linear frontage.

(3) *Streetscape Landscaping.* Prior to the issuance of a Certificate of Occupancy (CO), all residential, single family lots situated within the proposed subdivision shall be landscaped with canopy trees from the list stipulated by *Section 7(1)* of this ordinance in the following sizes and proportions:

(i) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of an interior lot.
(ii) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of a corner lot and two (2), three (3) inch caliper trees shall be planted in the side yard facing the street.

Note: For the purposes of this section only [i.e. Section 7(3)], the term "front yard" includes the area within the dedicated right-of-way for a parkway immediately adjoining the front yard of the lot.

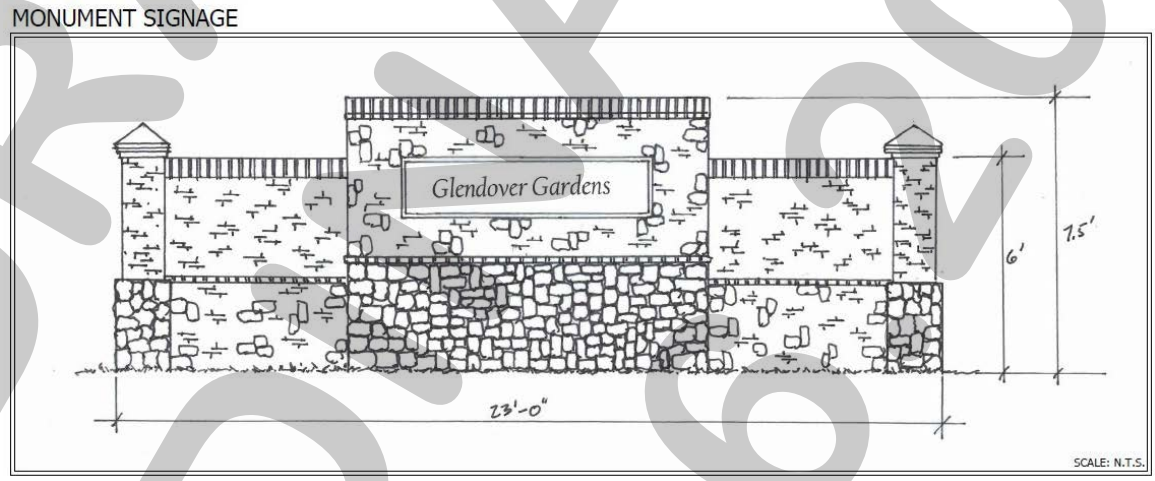
(4) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect and shall be maintained by the Homeowner's Association.

(5) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the *PD Site Plan*.

8. *Street.* All streets (*excluding drives, fire lanes and private parking areas*) shall be built according to City street standards and conform to the street cross section contained in *Exhibit 'B'* of this ordinance.

9. *Lighting.* Light poles shall not exceed 20-feet in total height (*i.e. base and lighting standard*). All fixtures shall be directed downward and be positioned to contain all light within the development area.

10. *Buried Utilities.* New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. New transmission power-lines, or distribution lines of a size not typically or cost effectively placed underground (*i.e. 3-phase lines*), or additional lines that are added to existing poles, may be above ground, if



DRAFT ORDINANCE 06.06.2016

located along the perimeter of the *Subject Property*. The *Developer* shall not be required to re-locate existing overhead power-lines along the perimeter of the *Subject Property*. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be considered *existing lines* at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph. Franchise utilities shall be placed within a ten (10) foot public utility easement behind the sidewalk, between the home and the property line.

11. *Open Space.* The development shall consist of a minimum of *20%* open space (*or 5.9082-acres*), and generally conform to the *Concept Plan* contained in *Exhibit 'B'* of this ordinance. All open space areas shall be maintained by the Homeowner's Association (HOA).

12. *Neighborhood Signage.* Permanent subdivision identification signage shall be permitted at all major entry points for the proposed subdivision and shall generally conform to the signage depicted in *Figure 1* (*below*). Final design and location of any entry features shall be reviewed and approved with the *PD Site Plan*.

Figure 1: *Example of Subdivision Signage Design Standard*

13. *Homeowner's Association (HOA)*. A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of *Section 38-15* of the *Subdivision Regulations* contained within the *Municipal Code of Ordinances* of the City of Rockwall. The HOA shall also maintain all neighborhood parks, trails, open space and common areas, irrigation, landscaping, amenity centers, screening fences associated with this development.

14. *Variances*. The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

Z2016-015 (South Saddle Star Estates PD Amendment): Please address the following comments (M= Mandatory Comments; I = Informational Comments).

I.1 Hold a public hearing to discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (R. & R. Hance Investments, LP) for the approval of a zoning amendment to Planned Development District 79 (PD-79) [Ordinance No. 16-07] for the purpose of amending the concept plan and incorporating 11.121-acres of land into the existing 44.292-acre development creating a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.
I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 On all future submittals please include the case number (Z2016-015) in the lower right hand corner.
I.4 Please review the Draft Ordinance prior to the Planning & Zoning Meeting on May 10, 2016.
M.5 Please change the color between Phases 1 & 2 on the Concept Plan to better distinguish between the two.
M.6 Identify and label the trail head on the Concept Plan.
I.7 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that has been requested. Revisions for this case will be due to staff on May 3, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the May10, 2016 Planning & Zoning Meeting.
I.8 The projected City Council dates for this case are project to be: 1) May 16, 2016 [1st Reading], and 2) June 6, 2016 [2nd Reading].

PROPERTY DESCRIPTION

TRACT 1:

BEING 44.292 acres of land situated in the P.B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and being part of two tracts of land, the "First Tract" being a called 32.5 acres and the "Second Tract" being a called 32 acres, described in a Special Warranty Deed to R & R Hance Investments, L.P., recorded as Instrument No. 2008-00396963 and in Volume 5433, Page 49 of the Deed Records of Rockwall County, Texas (DRRCT), SAVE AND EXCEPT the called "Parcel 16 (Parts 1 and 2)" conveyed to the City of Rockwall, recorded as Instrument No. 2007-00380919 and in Volume 5124, Page 210 (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" capped iron rod stamped, "6081," found for corner in the northeasterly right-of-way line of John Kind Boulevard (120' right-of-way) at the common north corner of said "Part 1" of Parcel 16 and called "Parcel 15" conveyed to the City of Rockwall, recorded as Instrument No. 2009-00424601 and in Volume 5951, Page 84 (DRRCT), said point also being in the common line of said "First Tract" and a called 29.185 acre tract of land conveyed to Gideon Grove Ltd., recorded as Instrument No. 20150000014609 of the Official Public Records of Rockwall County, Texas;

THENCE North 72°06'44" West along the common northeasterly line of said John Kind Boulevard and said Part 1, a distance of 1,126.56 feet to a point for corner at the beginning of a tangent curve to the right, having a radius of 1,140.00 feet and a chord which bears North 44°02'06"West, a distance of 1,073.12 feet;

THENCE in the northwesterly direction along said curve to the right, and last mentioned common line, through a central angle of 56°09'19", an arc distance of 1,117.31 feet to a 1/2" iron rod with a yellow cap stamped, "RPLS 3963," set for corner at the end of said curve and at the most northerly corner of said Part 1;

THENCE North 00°38'27" West continuing along the east right-of-way line of said John Kind Boulevard, a distance of 261.96 feet to a "PK" nail set for corner at the southwest corner of said Part 2;

THENCE North 89°38'44" East along the south line of said Part 2, a distance of 50.00 feet to a 1/2" iron rod with a yellow cap found for the southeast corner thereof;

THENCE North 00°38'27" West along the east line of said Part 2, a distance of 40.00 feet to a 1/2" iron rod with a yellow cap found for the northeast corner thereof in the north line of said Second Tract and being in the south line of a tract of land conveyed to Randy and Gwen Reed, recorded in Volume 260, Page 1 (DRRCT);

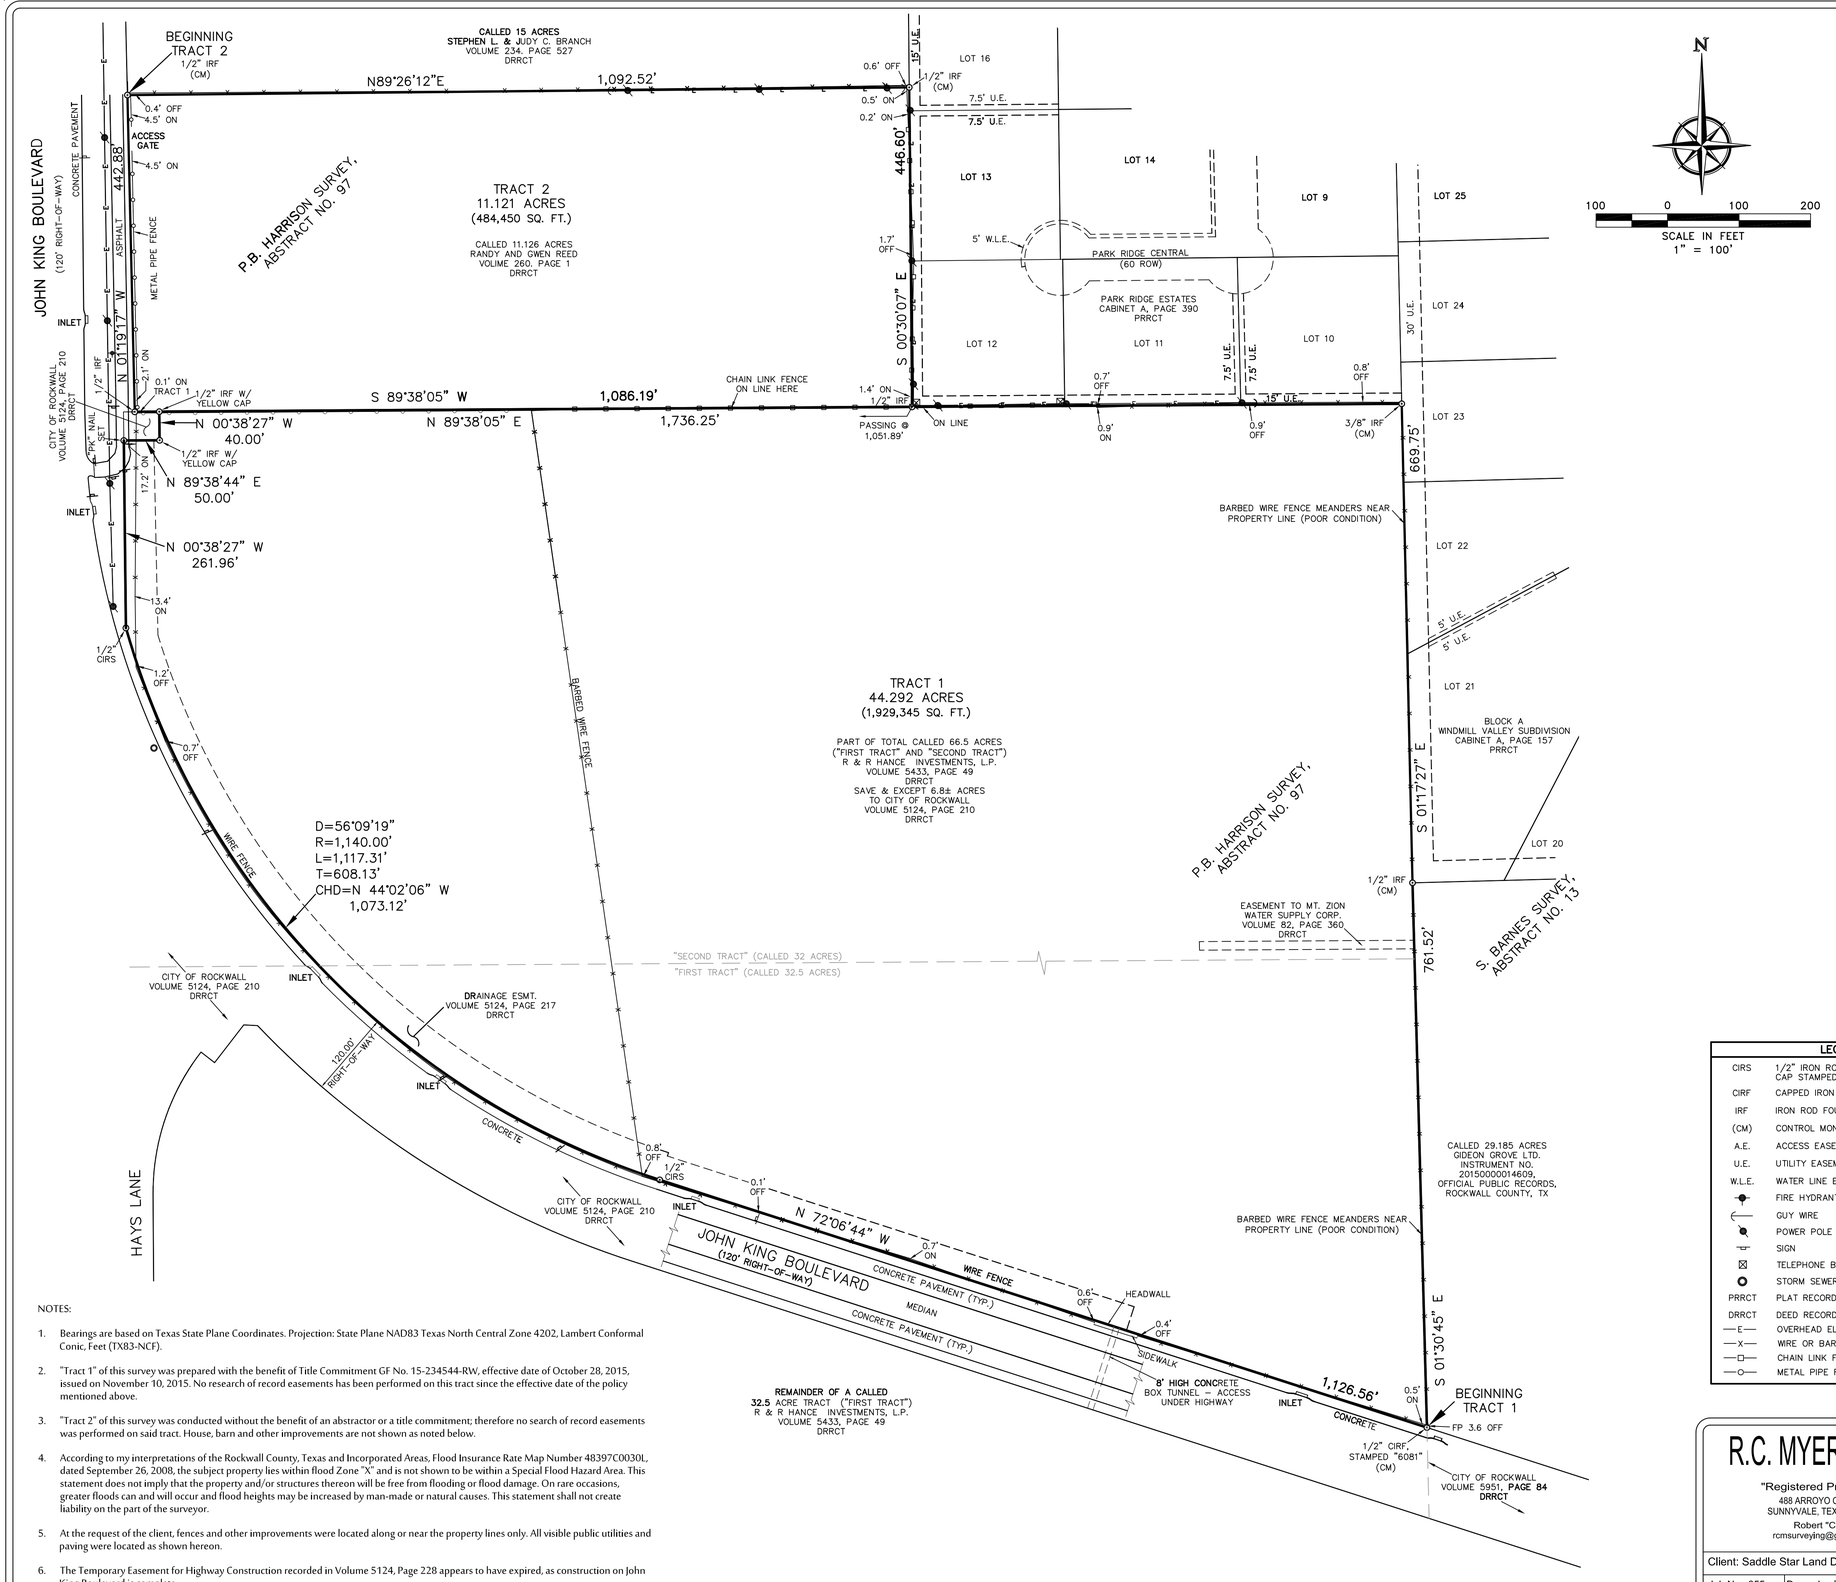
THENCE North 89°38'05" East along the common line of last mentioned tracts, at 1,051.89 feet passing a 1/2" iron rod found for the southeast corner of said Reed tract common to the southwest corner of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT), and continuing along the north line of said Second Tract and the south line of said Park Ridge Estates, a total distance of 1,736.25 feet to a 3/8" iron rod found for the common east corner thereof, and being in the west line of Block A of Windmill Valley Subdivision, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 157 (PRRCT);

THENCE South 01°17'27" East along the common line of said Second Tract and said Block A, a distance of 669.75 feet to a 1/2" iron rod found for the southwest corner of said Block A, and being the northwest corner of said 29.185 acre tract;

THENCE South 01°30'45" East along the west line of said 29.185 acre tract and partially along the east lines of said First Tract and said Second Tract, a distance of 761.52 feet to the PLACE OF BEGINNING and Containing 44.292 acres, or 1,929,345 square feet, of land.

TRACT 2:

BEING 11.121 acres of land situated in the P.B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and being all of a called 11.126 acre tract of land described in a Warranty Deed with Vendor's Lien to Randy Reed and wife, Gwen Reed, recorded in Volume 260, Page 1 of the Deed Records of Rockwall County, Texas (DRRCT), and being more particularly described as follows:



BEGINNING at a 1/2" iron rod found for corner in the east right-of-way line of John Kind Boulevard (120' right-of-way) at the common west corner of said Reed tract and a tract of land conveyed to Stephen L. Branch and Judy C. Branch, recorded in Volume 234, Page 527 (DRRCT);

THENCE North 89°26'12" East along the common line of last mentioned tracts, a distance of 1,092.52 feet to a 1/2" iron rod found for the common east corner thereof, and being in the west line of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT);

THENCE South 00°30'07" East along the common line of said Reed tract and said Park Ridge Estates, a distance of 446.60 feet to a 1/2" iron rod found for the common south corner thereof, and being in the north line of a called 32 acre tract described, in a Special Warranty Deed to R & R Hance Investments, L.P.,as "Second Tract," recorded as Instrument No. 2008-00396963 and in Volume 5433, Page 49 (DRRCT);

THENCE South 89°38'05" West along the common line of said Second Tract and said Reed tract, a distance of 1,086.19 feet to a 1/2" iron rod found at the southwest corner of said Reed tract and being in the east right-of-way line of said John King Boulevard;

THENCE North 01°19'17" West along thewest line of said Reed tract andthe east line of said John King Boulevard, a distance of 442.88 feet to the PLACE OF BEGINNING and Containing 11.121 acres, or 484,450 square feet, of land.

NOTES:

1. Bearings are based on Texas State Plane Coordinates. Projection: State Plane NAD83 Texas North Central Zone 4202, Lambert Conformal Conic, Feet (TX83-NCF).
2. "Tract 1" of this survey was prepared with the benefit of Title Commitment GF No. 15-234544-RW, effective date of October 28, 2015, issued on November 10, 2015. No research of record easements has been performed on this tract since the effective date of the policy mentioned above.
3. "Tract 2" of this survey was conducted without the benefit of an abstractor or a title commitment; therefore no search of record easements was performed on said tract. House, barn and other improvements are not shown as noted below.
4. According to my interpretations of the Rockwall County, Texas and Incorporated Areas, Flood Insurance Rate Map Number 48397C0030L, dated September 26, 2008, the subject property lies within flood Zone "X" and is not shown to be within a Special Flood Hazard Area. This statement does not imply that the property and/or structures thereon will be free from flooding or flood damage. On rare occasions, greater floods can and will occur and flood heights may be increased by man-made or natural causes. This statement shall not create liability on the part of the surveyor.
5. At the request of the client, fences and other improvements were located along or near the property lines only. All visible public utilities and paving were located as shown hereon.
6. The Temporary Easement for Highway Construction recorded in Volume 5124, Page 228 appears to have expired, as construction on John King Boulevard is complete.

PROPERTY DESCRIPTION

TRACT 1:

BEING 44.292 acres of land situated in the P.B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and being part of two tracts of land, the "First Tract" being a called 32.5 acres and the "Second Tract" being a called 32 acres, described in a Special Warranty Deed to R & R Hance Investments, L.P., recorded as Instrument No. 2008-00396963 and in Volume 5433, Page 49 of the Deed Records of Rockwall County, Texas (DRRCT), SAVE AND EXCEPT the called "Parcel 16 (Parts 1 and 2)" conveyed to the City of Rockwall, recorded as Instrument No. 2007-00380919 and in Volume 5124, Page 210 (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" capped iron rod stamped, "6081," found for corner in the northeasterly right-of-way line of John Kind Boulevard (120' right-of-way) at the common north corner of said "Part 1" of Parcel 16 and called "Parcel 15" conveyed to the City of Rockwall, recorded as Instrument No. 2009-00424601 and in Volume 5951, Page 84 (DRRCT), said point also being in the common line of said "First Tract" and a called 29.185 acre tract of land conveyed to Gideon Grove Ltd., recorded as Instrument No. 20150000014609 of the Official Public Records of Rockwall County, Texas;

THENCE North 72°06'44" West along the common northeasterly line of said John Kind Boulevard and said Part 1, a distance of 1,126.56 feet to a point for corner at the beginning of a tangent curve to the right, having a radius of 1,140.00 feet and a chord which bears North 44°02'06"West, a distance of 1,073.12 feet;

THENCE in the northwesterly direction along said curve to the right, and last mentioned common line, through a central angle of 56°09'19", an arc distance of 1,117.31 feet to a 1/2" iron rod with a yellow cap stamped, "RPLS 3963," set for corner at the end of said curve and at the most northerly corner of said Part 1;

THENCE North 00°38'27" West continuing along the east right-of-way line of said John Kind Boulevard, a distance of 261.96 feet to a "PK" nail set for corner at the southwest corner of said Part 2;

THENCE North 89°38'44" East along the south line of said Part 2, a distance of 50.00 feet to a 1/2" iron rod with a yellow cap found for the southeast corner thereof;

THENCE North 00°38'27" West along the east line of said Part 2, a distance of 40.00 feet to a 1/2" iron rod with a yellow cap found for the northeast corner thereof in the north line of said Second Tract and being in the south line of a tract of land conveyed to Randy and Gwen Reed, recorded in Volume 260, Page 1 (DRRCT);

THENCE North 89°38'05" East along the common line of last mentioned tracts, at 1,051.89 feet passing a 1/2" iron rod found for the southeast corner of said Reed tract common to the southwest corner of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT), and continuing along the north line of said Second Tract and the south line of said Park Ridge Estates, a total distance of 1,736.25 feet to a 3/8" iron rod found for the common east corner thereof, and being in the west line of Block A of Windmill Valley Subdivision, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 157 (PRRCT);

THENCE South 01°17'27" East along the common line of said Second Tract and said Block A, a distance of 669.75 feet to a 1/2" iron rod found for the southwest corner of said Block A, and being the northwest corner of said 29.185 acre tract;

THENCE South 01°30'45" East along the west line of said 29.185 acre tract and partially along the east lines of said First Tract and said Second Tract, a distance of 761.52 feet to the PLACE OF BEGINNING and Containing 44.292 acres, or 1,929,345 square feet, of land.

TRACT 2:

BEING 11.121 acres of land situated in the P.B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and being all of a called 11.126 acre tract of land described in a Warranty Deed with Vendor's Lien to Randy Reed and wife, Gwen Reed, recorded in Volume 260, Page 1 of the Deed Records of Rockwall County, Texas (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner in the east right-of-way line of John Kind Boulevard (120' right-of-way) at the common west corner of said Reed tract and a tract of land conveyed to Stephen L. Branch and Judy C. Branch, recorded in Volume 234, Page 527 (DRRCT);

THENCE North 89°26'12" East along the common line of last mentioned tracts, a distance of 1,092.52 feet to a 1/2" iron rod found for the common east corner thereof, and being in the west line of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT);

THENCE South 00°30'07" East along the common line of said Reed tract and said Park Ridge Estates, a distance of 446.60 feet to a 1/2" iron rod found for the common south corner thereof, and being in the north line of a called 32 acre tract described, in a Special Warranty Deed to R & R Hance Investments, L.P.,as "Second Tract," recorded as Instrument No. 2008-00396963 and in Volume 5433, Page 49 (DRRCT);

THENCE South 89°38'05" West along the common line of said Second Tract and said Reed tract, a distance of 1,086.19 feet to a 1/2" iron rod found at the southwest corner of said Reed tract and being in the east right-of-way line of said John King Boulevard;

THENCE North 01°19'17" West along thewest line of said Reed tract andthe east line of said John King Boulevard, a distance of 442.88 feet to the PLACE OF BEGINNING and Containing 11.121 acres, or 484,450 square feet, of land.

Case No. Z-2015-034

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO FURTHER AMEND PLANNED DEVELOPMENT DISTRICT 79 (PD-79) [*ORDINANCE NO. 16-07*] FOR THE PURPOSE OF AMENDING THE CONCEPT PLAN AND INCORPORATING 11.121-ACRES OF LAND INTO THE EXISTING 44.292-ACRE DEVELOPMENT FOR A 55.413-ACRE TRACT OF LAND, ZONED AGRICULTURAL (AG) DISTRICT AND PLANNED DEVELOPMENT DISTRICT 79 (PD-79) FOR SINGLE FAMILY 8.4 (SF-8.4) DISTRICT LAND USES, BEING IDENTIFIED AS TRACTS 1, 1-5 & 2-03 OF THE P. B. HARRISON SURVEY, ABSTRACT NO. 97, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Pat Atkins of Saddle Star Land Development, Inc. on behalf of the owners Randa Hance of R&R Hance Investment, LP and Gwen Reed for the approval of an amendment to Planned Development District 79 (PD-79) [*Ordinance No. 16-07*] for the purpose of amending the *Concept Plan* and incorporating 11.121-acres of land into the existing 44.292-acre tract of land, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single Family 8.4 (SF-8.4) District land uses, being a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 79 [*Ordinance No. 16-07*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 16-07*;

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by

DRAFT ORDINANCE 06.06.2016

granting this zoning change, and as maybe amended in the future;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 5(b) through 5(g) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) Open Space Master Plan
(2) Master Plat
(3) PD Site Plan
(4) Preliminary Plat
(5) Final Plat

(c) *Open Space Master Plan.* An *Open Space Master Plan* for the *Subject Property*, prepared in accordance with this ordinance and consistent with the *Planned Development Concept Plan*, (*Open Space Master Plan*) shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

(d) *Master Plat.* A *Master Plat* for the *Subject Property* shall be submitted and shall identify the proposed timing of each phase of the proposed development. A *Master Plat* application may be processed by the City concurrently with a *Open Space Master Plan* for the development.

(e) *PD Site Plan.* A *PD Site Plan* covering all of the *Subject Property* shall be submitted and shall identify all site/landscape/hardscape plan(s) for all open space, neighborhood parks, trail systems, street buffers and entry features. A *PD Site Plan* application may be processed by the City concurrently with a *Preliminary Plat* application for the development.

(f) *Preliminary Plat.* A *Preliminary Plat* covering all of the *Subject Property* shall be submitted and shall include a *Treescape Plan*. A *Preliminary Plat* application may be processed by the City concurrently with a *PD Site Plan* application for the development.

DRAFT ORDINANCE 06.06.2016

(g) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat*, conforming to the *Preliminary Plat*, for all of the *Subject Property* shall be submitted for approval.

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 6TH DAY OF JUNE, 2016.

Exhibit 'C':
Development Standards

Development Standards.

1. *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Single Family 8.4 (SF-8.4) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

2. *Lot Composition and Layout.* The lot layout and composition shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Table 1*, which is as follows:

Table 1: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Dwelling Units (#)*	*Dwelling Units (%)*
A	70' x 125'	8,750 SF	143	100.00%
		Maximum Permitted Units:	*143*	*100.00%*

3. *Density and Dimensional Requirements.* Unless specifically provided by this Planned Development ordinance, the development standards stipulated by the Single Family 8.4 (SF-8.4) District, as specified by Article V, *District Development Standards*, of the Unified Development Code are applicable to all development on the *Subject Property.* The maximum permissible density for the *Subject Property* shall not exceed *2.53* dwelling units per gross acre of land; however, in no case should the proposed development exceed *143* units. All lots shall conform to the standards depicted in *Table 2*, which is as follows:

Table 2: Lot Dimensional Requirements

Minimum Lot Width [1]	70'
Minimum Lot Depth	125'
Minimum Lot Area	8,750 SF
Minimum Front Yard Setback [2] & [5]	20'
Minimum Side Yard Setback	5'
Minimum Side Yard Setback (Adjacent to a Street) [2] & [5]	10'
Minimum Length of Driveway Pavement	25'
Maximum Height [3]	30'
Minimum Rear Yard Setback [4]	20'
Minimum Area/Dwelling Unit (SF)	2,700 SF
Maximum Lot Coverage	65%
Permitted Encroachment into Required Setbacks [5]	Allowed

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the single family home.

[4]: As measured from the rear yard property line.

[5]: Sunrooms, porches, stoops, bay windows, balconies, masonry clad chimneys, eaves and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to ten (10) feet for any property; however, the encroachment shall not exceed five (5) feet on *Side Yard Setbacks (Adjacent to a Street)* and shall not encroach into public right-of-way [a *Sunroom* is an enclosed room no more than 15-feet in width that has glass on at least 50% of each of the encroaching faces].

DRAFT
ORDINANCE
05.06.2016

4. *Building Standards.* All development shall adhere to the following building standards:

   (a) Masonry Requirement. The minimum masonry requirement for the exterior façades of all buildings shall be 90%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the masonry requirement; however, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) shall be permitted through a Specific Use Permit (SUP) only.

   (b) Roof Pitch. A minimum of an *8:12* roof pitch is required on all structures with the exception of sunrooms and porches, which shall have a minimum of a *4:12* roof pitch.

   (c) Garage Orientation. Garages shall be oriented in a *traditional swing* (or *j-swing*) or in a front entry configuration; however garages oriented toward the street in a front entry configuration must be situated a minimum of 20-feet behind the front building façade of the primary structure. In this case the front façade of the primary structure does not include a permitted encroachment (*e.g. a porch, sunroom, etcetera*) allowed in *Table 2* above. All garage configurations that are not front entry shall meet the requirements of Article VI, *Parking and Loading*, of the Unified Development Code.

5. *Anti-Monotony Restrictions.* The development shall adhere to the *Anti-Monotony Matrix* depicted in *Table 3* below (*for spacing requirements see the illustration below*).

Table 3 : Anti-Monotony Matrix

Lot Type	*Minimum Lot Size*	*Elevation Features*
A	70' x 120'	(1), (2), (3), (4)

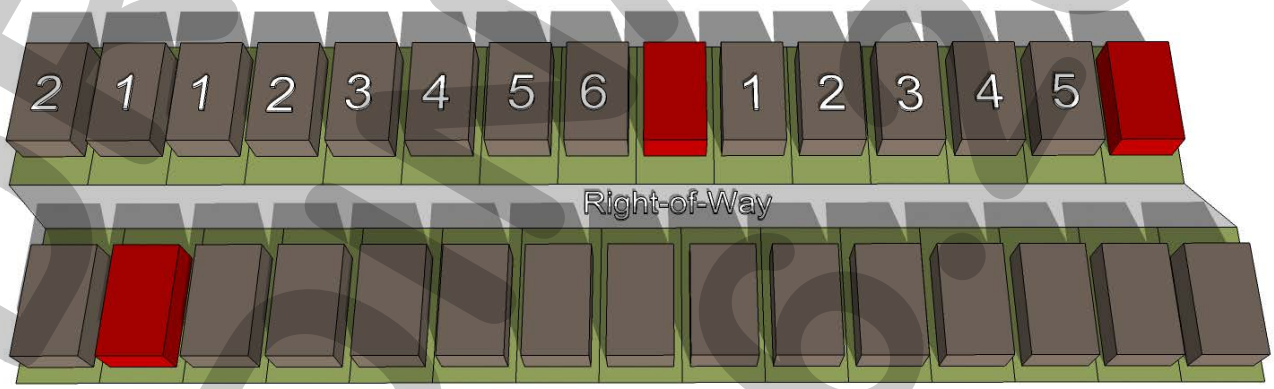
   (1) Identical brick blends or paint colors may not occur on adjacent (*side-by-side*) properties along any block face without at least five (5) intervening homes of differing materials on the same side of the street beginning with the adjacent property and six (6) intervening homes of differing materials on the opposite side of the street.

   (2) Front building elevations shall not repeat along any block face without at least five (5) intervening homes of differing appearance on the same side of the street and six (6) intervening homes of differing appearance on the opposite side of the street. The rear elevation of homes backing to open spaces or on John King Boulevard shall not repeat without at least five (5) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

      (a) Number of Stories
      (b) Permitted Encroachment Type and Layout
      (c) Roof Type and Layout
      (d) Articulation of the Front Façade

   (3) Permitted encroachments (*i.e. porch and sunroom*) elevations shall not repeat or be the same along any block face without at least five (5) intervening homes of sufficient dissimilarity on the same side of the street beginning with the home adjacent to the

DRAFT ORDINANCE 06.13.16



subject property and six (6) intervening homes beginning with the home on the opposite side of the street.

(4) Each phase of the subdivision will allow for a maximum of four (4) compatible roof colors, and all roof shingles shall be an architectural or dimensional shingle (*3-Tab Roofing Shingles are prohibited*).

Illustration 1: Properties line up on the opposite side of the street. Where RED is the subject property.

Illustration 2: Properties do not line up on opposite side of the street. Where RED is the subject property.

6. *Fencing Standards.* All individual residential fencing and walls shall be architecturally compatible with the design, materials and colors of the primary structure on the same lot, and meet the following standards:

(a) Wood Fences. All wood fences shall be constructed of a standard fencing material (*minimum of ½" thickness or better; spruce fencing will not be allowed*), and use fasteners that are hot dipped galvanized or stainless steel. Wood fences facing onto a street shall be painted and/or stained and sealed with all pickets being placed on the *public side* facing the street. All wood fences shall be smooth-finished, free of burs and splinters, and be a maximum of six (6) feet in height.

(b) Wrought Iron/Tubular Steel. Lots located along the perimeter of roadways, abutting open spaces, greenbelts and parks shall be required to install a wrought iron or tubular steel fence. Wrought iron/tubular steel fences can be a maximum of six (6) feet in height.

DRAFT
ORDINANCE
05-06-16

(c) Corner Lots. Corner lots fences (*i.e. adjacent to the street*) shall provide masonry columns at 45-feet off center spacing that begins at the rear of the property line. A maximum of six (6) foot solid *board-on-board panel* fence constructed utilizing cedar fencing shall be allowed between the masonry columns along the side and/or rear lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five (5) feet. The property owner shall be required to maintain both sides of the fence.

(d) Solid Fences (including Wood Fences). All solid fences shall incorporate a decorative top rail or cap detailing into the design of the fence.

7. Landscape and Hardscape Standards.

(1) *Landscape.* Landscaping shall be reviewed and approved with the PD Site Plan. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height. The following tree species are approved for planting within this subdivision:

(a) Canopy/Shade Trees. Bald Cyprus, Cedar Elm, Texas Red Oak, Homestead Elm, Lace Bark Elm, Alle Elm, Chinese Pistachio, Shumard Oak, Sycamore, and Burr Oak.

(b) Accent/Ornamental/Under-Story Trees. Texas Redbud, Eve's Necklace, Mexican Plum, Downy Hawthorn, Crepe Myrtle, Texas Mountain Laurel, Vitex, and Desert Willow.

(2) *Landscape Buffers.* All landscape buffers and plantings located within the buffers shall be maintained by the Homeowner's Association (HOA).

(a) Landscape Buffer and Sidewalks (John King Boulevard). A minimum of a 50-foot landscape buffer shall be provided along the frontage of John King Boulevard (*outside of and beyond any required right-of-way dedication*), and shall incorporate ground cover, a *built-up* berm and/or shrubbery or a combination thereof along the entire length of the frontage. Berms and/or shrubbery shall have a minimum height of 30-inches and a maximum height of 48-inches. In addition, three (3) canopy trees and four (4) accent trees shall be planted per 100-feet of linear frontage. The developer shall also be responsible for the construction of a ten (10) foot sidewalk situated within the 50-foot landscape buffer adjacent to John King Boulevard.

(3) *Streetscape Landscaping.* Prior to the issuance of a Certificate of Occupancy (CO), all residential, single family lots situated within the proposed subdivision shall be landscaped with canopy trees from the list stipulated by *Section 7(1)* of this ordinance in the following sizes and proportions:

(i) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of an interior lot.
(ii) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of a corner lot and two (2), three (3) inch caliper trees shall be planted in the side yard facing the street.

DRAFT ORDINANCE 06.06.16

Note: For the purposes of this section only [i.e. Section 7(3)], the term "front yard" includes the area within the dedicated right-of-way for a parkway immediately adjoining the front yard of the lot.

(4) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect and shall be maintained by the Homeowner's Association.

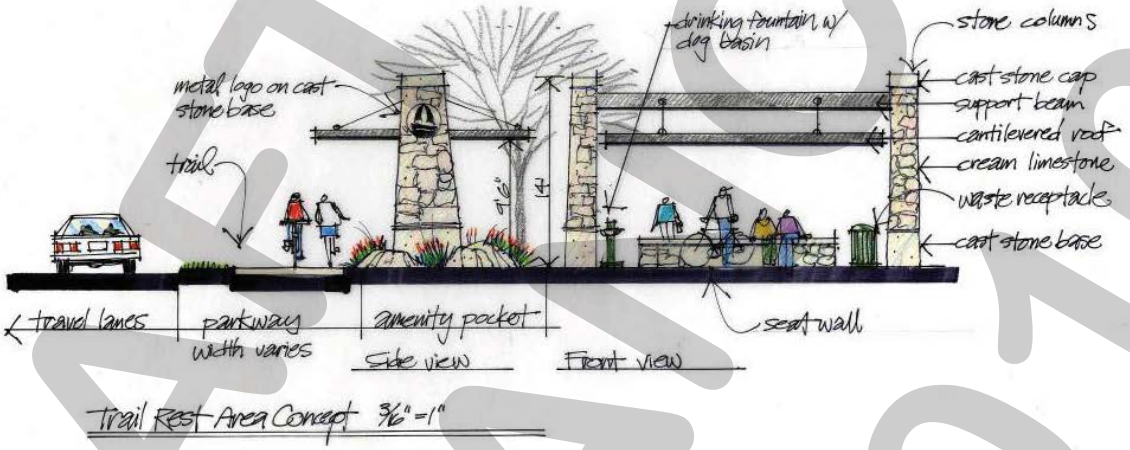
(5) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the PD Site Plan.

8. *Street.* All streets (*excluding drives, fire lanes and private parking areas*) shall be built according to City street standards.

9. *Lighting.* Light poles shall not exceed 20-feet in total height (*i.e. base and lighting standard*). All fixtures shall be directed downward and be positioned to contain all light within the development area.

10. *Sidewalks.* At a maximum, all sidewalks adjacent to a street shall begin two (2) feet behind the right-of-way line and be five (5) feet in overall width.

11. *Buried Utilities.* New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. New transmission power-lines, or distribution lines of a size not typically or cost effectively placed underground (3-phase lines), or additional lines that are added to existing poles, may be above ground, if located along the perimeter of the *Subject Property*. The Developer shall not be required to re-locate existing overhead power-lines along the perimeter of the *Subject Property*. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be considered *existing lines* at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph. Franchise utilities shall be placed within a ten (10) foot public utility easement behind the sidewalk, between the home and the property line.



12. *Open Space.* The development shall consist of a minimum of *20%* open space (*or 11.29-acres*), and generally conform to the *Concept Plan* contained in *Exhibit 'B'* of this ordinance. All open space areas shall be maintained by the Homeowner's Association (HOA).

Continued on Next Page …

DRAFT ORDINANCE 06.06.2016

13. *Trail Rest Area.* The developer shall be responsible for the construction of a *Trail Rest Area* that generally conforms to the rest area depicted in *Figure 1* (*below*).

Figure 1: *Trail Rest Area Concept*

14. *Neighborhood Signage.* Permanent subdivision identification signage shall be permitted at all major entry points for the proposed subdivision. Final design and location of any entry features shall be reviewed and approved with the *PD Site Plan*.

15. *Drainage Standards.* The development shall comply with existing drainage standards including the permissible spread of water in the streets and permissible gutter flow through intersections as outlined in the City of Rockwall's *Standards of Design and Construction* (*approved in August 2003 and updated in October 2007*). The proposed drainage areas, flow patterns, and storm drain system that will be constructed shall be based on the City's drainage criteria and be identified on a *Conceptual Drainage Plan*, which shall be submitted with the *Civil Plans* at the time of *Engineering* submittal. The *Conceptual Drainage Plan* shall be reviewed and approved by the Engineering Department in compliance with engineering standards.

16. *Homeowner's Association (HOA)*. A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of Section 38-15 of the Subdivision Regulations contained within the Municipal Code of Ordinances of the City of Rockwall. The HOA shall also maintain all neighborhood parks, trails, open space and common areas, irrigation, landscaping, screening fences associated with this development.

17. *Variances*. The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

DRAFT ORDINANCE 06.06.2016

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: April 26, 2016

SUBJECT: *Southside Neighborhood Residential Overlay (SRO) District*

On April 4, 2016, the City Council directed staff to initiate a text amendment to Section 4, *Southside Residential Neighborhood Overlay (SRO) District*, of Article V, *District Development Standards*, of the Unified Development Code (UDC) for the purpose of removing the City Council's ability to grant land use without a public process (*i.e. zoning change*). In addition, under the current ordinance any application for a special request must first be brought to the City Council to initiate the request, then to the Planning and Zoning Commission for a recommendation, and finally returning to the City Council for action. Typically, these requests would be taken directly to the Planning and Zoning Commission for recommendation prior to being brought before the City Council.

In accordance, with Section 4.2 of Article XI, *Zoning Related Applications*, of the UDC staff is bringing the proposed amendments forward to the Planning and Zoning Commission for a recommendation to the City Council. Attached to this case memo is a copy of the current ordinance and a copy of the proposed amendments to the UDC. The schedule for this text amendment is as follows:

Planning and Zoning Work Session: April 26, 2016
Planning and Zoning Public Hearing: May 10, 2016
City Council Public Hearing [*1st Reading*]: May 16, 2016
City Council [*2nd Reading*]: June 6, 2016

Staff will send out a 15-day notice to the Rockwall County News in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC.

Current Ordinance:

Article V, District Development Standards, of the Unified Development Code

Section 6. Overlay Districts

Section 4. Southside Residential Neighborhood Overlay (SRO) District

(A) *Purpose*. This overlay district is considered to be the proper zoning classification for smaller lot developments for a single-family dwelling use. It is intended to allow the flexibility necessary for redevelopment while protecting the integrity of the neighborhood.
(B) *Other Requirements*. Any requirements necessary for residential development or use not specifically stated in this section shall comply with the SF-7 District requirements.
(C) *Area Requirements*.

(1) Minimum lot area: 5,000 square feet.
(2) Maximum number of single-family detached dwellings units per lot: one.
(3) Minimum square footage per dwelling unit: 900 square feet.
(4) Minimum lot frontage on a public street: 50 feet.*
(5) Minimum lot depth: 100 feet.*
(6) Minimum depth of front yard setback: 20 feet.*
(7) Minimum depth of rear yard setback: ten feet.*
(8) Minimum width of side yard setback:

(a) Internal lot: six feet.*
(b) Abutting street: 15 feet.*
(c) Abutting an arterial: 20 feet.*

**These setbacks may be varied by the planning and zoning commission and city council upon request of the applicant.*

(9) Minimum distance between separate buildings on the same lot or parcel of land: ten feet.
(10) Minimum length of driveway pavement from the public right-of-way for rear or side yards: 20 feet.
(11) Maximum building coverage as a percentage of lot area: 40 percent.
(12) Maximum building height: 32 feet.
(13) Minimum number of paved off-street parking spaces required for:

(a) One single-family dwelling unit: two. An enclosed garage shall not be considered in meeting the off-street parking requirements.
(b) All other uses: see article V, Parking and Loading.

(D) Consideration of special request in furtherance of neighborhood preservation. The city council may consider special requests in furtherance of neighborhood preservation and enhancement within the established neighborhood preservation overlay district. Such requests may include, but not necessarily be limited to, neighborhood signage plans, use of building materials not otherwise allowed, authorization of specific land uses not otherwise allowed, or other requests submitted for consideration.

Upon receipt of such special requests, the city council shall review same and forward its recommendation to the planning and zoning commission for consideration. Upon recommendations from the planning and zoning commission, the city council may approve requests by amendment of the ordinance designating the neighborhood district. Any such amendment shall preempt any other underlying zoning restrictions in this Unified Development Code. Such special requests may be denied by the city council by passage of a motion to deny.

(Ord. No. 10-14, § 36, 7-6-2010)

Proposed Amendments:

Article V, District Development Standards, of the Unified Development Code

Section 6. Overlay Districts

Section 4. Southside Residential Neighborhood Overlay (SRO) District

(A) *Purpose*. ***The purpose of the Overlay District is to provide the flexibility necessary for allowing infill and redevelopment of the Southside Neighborhood, while maintaining and protecting the character and integrity of the existing neighborhood. ~~This overlay district is considered to be the proper zoning classification for smaller lot developments for a single-family dwelling use. It is intended to allow the flexibility necessary for redevelopment while protecting the integrity of the neighborhood.~~***

(B) *Other Requirements*. Any requirements ***~~necessary for residential development or use~~*** not specifically stated in this section shall comply with the ***Single Family 7 (***SF-7***)*** District requirements.

(C) *Area Requirements*.

(1) Minimum lot area: 5,000 square feet.
(2) Maximum number of single-family detached dwellings units per lot: One.
(3) Minimum square footage per dwelling unit: 900 square feet.
(4) Minimum lot frontage on a public street: 50 feet.***
(5) Minimum lot depth: 100 feet.***
(6) Minimum depth of front yard setback: 20 feet.***

(a) One Single-Family Dwelling Unit: Two ***(2) Parking Spaces***. An enclosed garage shall not be considered in meeting the off-street parking requirements.
(b) All Other Uses: ***~~see article V, Parking and Loading.~~ see Article VI, Parking and Loading, of the Unified Development Code.***

(D) *Consideration of Special Request in Furtherance of Neighborhood Preservation.* The City Council may consider special requests in furtherance of neighborhood preservation and enhancement within the established neighborhood preservation overlay district. Such requests may include, but not necessarily be limited to neighborhood signage plans, ***the*** use of ***alternate*** building materials ***~~not otherwise allowed, authorization of specific land uses not otherwise allowed,~~ reductions in the building setbacks,*** or other requests submitted for consideration ***to the Planning and Zoning Department***.

~~Upon receipt of such special requests, the city council shall review same and forward its recommendation to the planning and zoning commission for~~

~~***consideration. Upon recommendations from the planning and zoning commission, the city council may approve requests by amendment of the ordinance designating the neighborhood district. Any such amendment shall preempt any other underlying zoning restrictions in this Unified Development Code. Such special requests may be denied by the city council by passage of a motion to deny.***~~

Upon receipt of such requests, the Planning and Zoning Commission shall review the case and forward a recommendation to the City Council for consideration. The City Council may approve special request. Any such approval shall preempt any other underlying zoning restrictions in the Unified Development Code. Such special requests may be denied by the City Council by the passage of a motion to deny.

Special requests shall not include any request to change the land use of a property.

(Ord. No. 10-14, § 36, 7-6-2010)

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTION 6.4, *SOUTHSIDE RESIDENTIAL NEIGHBORHOOD OVERLAY (SRO) DISTRICT*, OF ARTICLE V, *DISTRICT DEVELOPMENT STANDARDS*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Section 4, *Southside Residential Neighborhood Overlay (SRO) District,* of Section 6, *Overlay Districts*, of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That Section 4, *Southside Residential Neighborhood Overlay (SRO) District,* of Section 6, *Overlay Districts*, of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'A'* of this ordinance.

Section 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

DRAFT ORDINANCE 05.16

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 6TH DAY OF JUNE, 2016.

_____

Jim Pruitt, *Mayor*

ATTEST:

_____

Kristy Cole, *City Secretary*

APPROVED AS TO FORM:

_____

Frank J. Garza, *City Attorney*

2nd Reading: *June 6, 2016*

DRAFT ORDINANCE 05.16.2016

Section 6.4. Southside Residential Neighborhood Overlay (SRO) District

(A) *Purpose*. The purpose of the Overlay District is to provide the flexibility necessary for allowing infill and redevelopment of the Southside Neighborhood, while maintaining and protecting the character and integrity of the existing neighborhood.

(B) *Other Requirements*. Any requirements not specifically stated in this section shall comply with the Single Family 7 (SF-7) District requirements.

(C) *Area Requirements*.

(1) Minimum lot area: 5,000 square feet.
(2) Maximum number of single-family detached dwellings units per lot: One.
(3) Minimum square footage per dwelling unit: 900 square feet.
(4) Minimum lot frontage on a public street: 50 feet.
(5) Minimum lot depth: 100 feet.
(6) Minimum depth of front yard setback: 20 feet.
(7) Minimum depth of rear yard setback: 10 feet.
(8) Minimum width of side yard setback:

(a) Internal lot: 6 feet.
(b) Abutting street: 15 feet.
(c) Abutting an arterial: 20 feet.

(9) Minimum distance between separate buildings on the same lot or parcel of land: ten feet.
(10) Minimum length of driveway pavement from the public right-of-way for rear or side yards: 20 feet.
(11) Maximum building coverage as a percentage of lot area: 40 percent.
(12) Maximum building height: 32 feet.
(13) Minimum number of paved off-street parking spaces required for:

(a) One Single-family Dwelling Unit: Two (2) Parking Spaces. An enclosed garage shall not be considered in meeting the off-street parking requirements.
(b) All Other Uses: *see Article VI, Parking and Loading, of the Unified Development Code*.

(D) *Consideration of Special Request in Furtherance of Neighborhood Preservation.* The City Council may consider special requests in furtherance of neighborhood preservation and enhancement within the established neighborhood preservation overlay district. Such requests may include, but not necessarily be limited to neighborhood signage plans, the use of alternate building materials reductions in the building setbacks, or other requests submitted for consideration to the Planning and Zoning Department.

Upon receipt of such requests, the Planning and Zoning Commission shall review the case and forward a recommendation to the City Council for consideration. The City Council may approve special request. Any such approval shall preempt any other underlying zoning restrictions in the Unified Development Code. Such special requests may be denied by the City Council by the passage of a motion to deny.

Special requests shall ***not*** include any request to change the land use of a property.

DRAFT ORDINANCE 03.16.2016

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: April 26, 2016

SUBJECT: *Used Automotive Dealerships*

On March 21, 2016, Dallas Cothrum of Master Plan gave a presentation on behalf of his client Echo Park Automotive requesting that the City Council consider amending the zoning code to allow a *Motor Vehicle Dealership, Used (Cars and Light Trucks)* to be permitted within a Light Industrial (LI) District. Specifically, Mr. Cothrum was making this request with the intent of opening up the zoning ordinance to allow Echo Park to establish a used motor vehicle dealership at 1415 & 1501 E. IH-30. Currently, Section 2.1.8, *Auto and Marine-Related Use Conditions,* of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), only permits a *Motor Vehicle Dealership, Used (Cars and Light Trucks)* to be established as an accessory use to *Motor Vehicle Dealership, New (Cars and Light Trucks)*. As a result of this request, the City Council approved a motion to direct staff to initiate a text amendment to allow *Motor Vehicle Dealership, Used (Cars and Light Trucks)* through a Specific Use Permits (SUP) in the Light Industrial (LI) District.

In response to this direction and in accordance with Section 4, *Unified Development Code Text Amendments*, of Article XI, *Zoning Related Applications*, of the UDC, staff has drafted a preliminary text amendment for the Planning and Zoning Commission's review. The proposed text amendment would allow the *Motor Vehicle Dealership, Used (Cars and Light Trucks)* use by SUP in the Light Industrial (LI) District and *by-right* in the Heavy Industrial (HI) District; however, it would restrict the use in the Scenic Overlay (SOV), IH-30 Overlay (IH-30 OV), SH-205 By-Pass Overlay (SH205 BY-OV) FM-549 Overlay (FM-549 OV) and the SH-205 Overlay (SH-205 OV) District except as an ancillary or accessory use to *Motor Vehicle Dealership, New (Cars and Light Trucks)*. In drafting the text amendment, staff took into consideration the following information concerning the *Motor Vehicle Dealership, Used (Cars and Light Trucks)* use:

1) *Comparable Cities.* Staff has done a comparison study of the City's current zoning ordinance compared to comparable City's in the *North Texas Region*. The City's compared in this study were: (1) Plano, (2) McKinney, (3) Frisco, (4) Carrollton, (5) Rowlett, (6) Mesquite, (7) Garland, and (8) Lancaster. Through this study staff has determined that the City's current ordinance is the most restrictive of all the cities surveyed; with the exception of the City of Rowlett, which has the same restrictions as the City of Rockwall. It should be noted that the majority of the cities surveyed require a SUP or a Conditional Use Permit (CUP) in most if not all of the zoning districts that permit the use. In addition, the City of Frisco expressly prohibits the use in certain Overlay Districts on major corridors within the City despite allowing the use in the underlying zoning district. The only city surveyed that added additional land use restrictions was the City of Lancaster. *Attached to this memorandum is a copy of the survey of comparable cities.*

2) *Locations of the Current Motor Vehicle Dealership Facilities.* Staff has also completed a locational analysis showing the locations of all existing new and used motor vehicle dealerships located in the City (*see the attached maps of Rockwall Auto Dealerships*). Currently, the City has 11 new and used motor vehicle dealerships (*i.e. nine (9) new motor*

vehicle dealerships that also have used motor vehicle sales as an ancillary use -- one (1) of which, Fenton Nissan, is currently under construction -- , and two (2) non-conforming used motor vehicle dealerships that pre-date the current zoning ordinance). It should be noted that all nine (9) of the new motor vehicle dealerships are located in the IH-30 Overlay District on property that fronts onto IH-30. The two (2) non-conforming used motor vehicle dealerships are located in the Downtown (DT) District situated in and fronting on SH-205.

3) *Proliferation/Concentration of Automotive Uses.* On January 22, 2008, the City Council approved a text amendment (*i.e. Case No. Z2007-036; Ordinance No. 08-05*) intended to address the proliferation and concentration of automotive uses along IH-30. Specifically, the text amendment changed the *Permissible Land Use Charts* to require a SUP for the use in the Light Industrial (LI) District, which previously had been permitted *by-right*. The case memo provided to the City Council at that time stated the purpose of this action was to protect the undeveloped land, zoned Light Industrial (LI) District that existed along the IH-30 Corridor, and to prevent the concentration of automotive uses in this corridor. As was stated above, all but two (2) of the current locations are located in the IH-30 Corridor. These nine (9) locations are typically in clusters of two (2) and are in close proximity of one another (i.e. ~161-feet to ~2,836-feet of each other) [*see the attached maps of Rockwall Auto Dealerships*].

4) *Ad Valorem Taxes.* It should be noted that according to Section 152.001(2) of the State of Texas *Tax Code* a retail sale does not include the purchase of (1) new motor vehicles from a licensed dealer franchised to resell that type of vehicle, (2) used motor vehicles by a licensed dealer for resale purposes, and (3) new motor vehicles by a licensed franchise dealer for a lease contract. This means that the City does not collect sales tax on the sale or lease of any new or used automobile. In addition, staff has performed a basic fiscal impact analysis comparing the assessed values of the existing eight (8) -- *Fenton Nissan is currently under construction* -- new/used motor vehicle facilities against the City's commercial/retail land uses, which is the predominate use in the IH-30 Overlay (IH-30) District. The analysis performed by staff shows that the eight (8) new/used motor vehicle facilities have a total land footprint of 62.387-acres (*77.138-acres with Fenton Nissan*) adjacent to IH-30, with a total land value of ~22M, a total improvement value of ~18M, and a total assessed value ~40M. This all equals a total $196,381.00 of property taxes paid to the City per year. The total property value per square foot for this use breaks down to $14.89/SF. Performing this same analysis on the City's commercial/retail uses the total property value (*Citywide*) per square foot breaks down to $18.96/SF, or a difference of +$4.07 in favor of retail. This number is assumed to be higher if only the commercial/retail land in the IH-30 Corridor was used, because land value in those areas tend to be higher than the land value Citywide. In addition, the retail/commercial uses include sales tax, which would further widen this disparity. It should also be pointed out that these are new motor vehicle facilities and not used motor vehicle facilities, which is what the current ordinance is proposing to allow.

With all that being said, it should be noted that staff's proposed ordinance does not accommodate the request made by Echo Park Automotive for the property at 1415 & 1501 E. IH-30, which is located within the IH-30 Overlay (IH-30 OV) District; however, for the reasons stated above and to prevent the proliferation/concentration of automotive uses within the City's overlay districts staff has prepared an ordinance prohibiting the use in many of the City's strategic highway corridors. The Planning and Zoning Commission and City Council retain the discretion to amend or redirect staff should the ordinance not be sufficient to properly regulate the use. The City Council also retains the discretion to refrain from changing the ordinance if they see no public benefit from doing so.

In accordance, with Section 4.2 of Article XI, *Zoning Related Applications*, of the UDC staff is bringing the proposed amendments forward to the Planning and Zoning Commission for a recommendation to the City Council. Attached to this case memo are copies of the current

ordinance, the proposed amendments to the UDC, and all studies referenced above. The schedule for this text amendment is as follows:

Planning and Zoning Work Session: April 26, 2016
Planning and Zoning Public Hearing: May 10, 2016
City Council Public Hearing [*1st Reading*]: May 16, 2016
City Council [*2nd Reading*]: June 6, 2016

Staff will send out a 15-day notice to the Rockwall County News in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC.

Article IV, Permissible Uses, of the Unified Development Code
Section 1. Land Use Schedule

Article IV, Permissible Uses, of the Unified Development Code
Section 2. Use Standards
Section 2.1.8 Auto and Marine-Related Use Conditions

Indoor Motor Vehicle Dealership/Showroom, (New and/or Used). The indoor storage of operable automobiles in a fully enclosed building for the purpose of holding such vehicles for sale, lease, distribution, or storage.

1. The sales/storage facility must be a completely enclosed building.
2. Outside display or storage of vehicles shall be prohibited. This includes storing vehicles under canopies/awnings or similar covered structures.
3. All activities shall remain inside the building (*i.e. no detailing, sales activities, et cetera shall be performed outside the building*).
4. Accessory uses may be allowed in compliance with the "Permissible Use Charts" located within *Section 1.1* of this article.

Motor Vehicle Dealerships (New and Used).

1. Used vehicles may only be sold as an ancillary use to new vehicle sales.
2. All outside display of vehicles must be on an approved concrete, or enhanced concrete surface.
3. All vehicle display areas must meet the landscape standards for parking areas.

Motor Vehicle Dealerships (New and Used).

1. Used vehicles may only be sold as an ancillary use to new vehicle sales ***in the Commercial (C) and Heavy Commercial (HC) Districts***.
2. Used vehicle sales may not be located within the Scenic Overlay (SOV), IH-30 Overlay (IH-30 OV), SH-205 By-Pass Overlay (SH205 BY-OV) FM-549 Overlay (FM-549 OV) or the SH-205 Overlay (SH-205 OV) District except as an ancillary use to new vehicle sales.
~~2.~~ 3. All outside display of vehicles must be on an approved concrete, or enhanced concrete surface.
~~3.~~ 4. All vehicle display areas must meet the landscape standards for parking areas.

Survey of Comparable Cities

☑ *City of Plano*

The City of Plano requires *Automobile Dealer (Used)* uses to obtain a Specific Use Permit (SUP) subject to their residential adjacency standards in their Light Commercial (LC), Corridor Commercial (CC) and Central Business-1 (CBD1) Districts. Additionally, they permit the use *by-right* subject to the residential adjacency standards in their Light Industrial-1 (LI1) and Light Industrial-2 (LI2).

☑ *City of Carrollton*

The City of Carrollton allows *Used Car Dealers* in their Light Industrial (LI) District by Specific Use Permit (SUP) and *by-right* in their Heavy Industrial (HI) District. Additionally, they have included another use (i.e. *Used Car Dealers -- indoors only or accessory to new car sales*), which is allowed *by-right* in more zoning districts.

☑ *City of Frisco*

The City of Frisco allows *Automobile Sales, Used* by Specific Use Permit (SUP) in their Highway (HI), Commercial-2 (C-2) and Industrial (I) Districts. In addition, the City has expressly prohibited the use in their US 380 Gateway, Rural Corridor, Main Street and Tollway Overlay Districts.

☑ *City of McKinney*

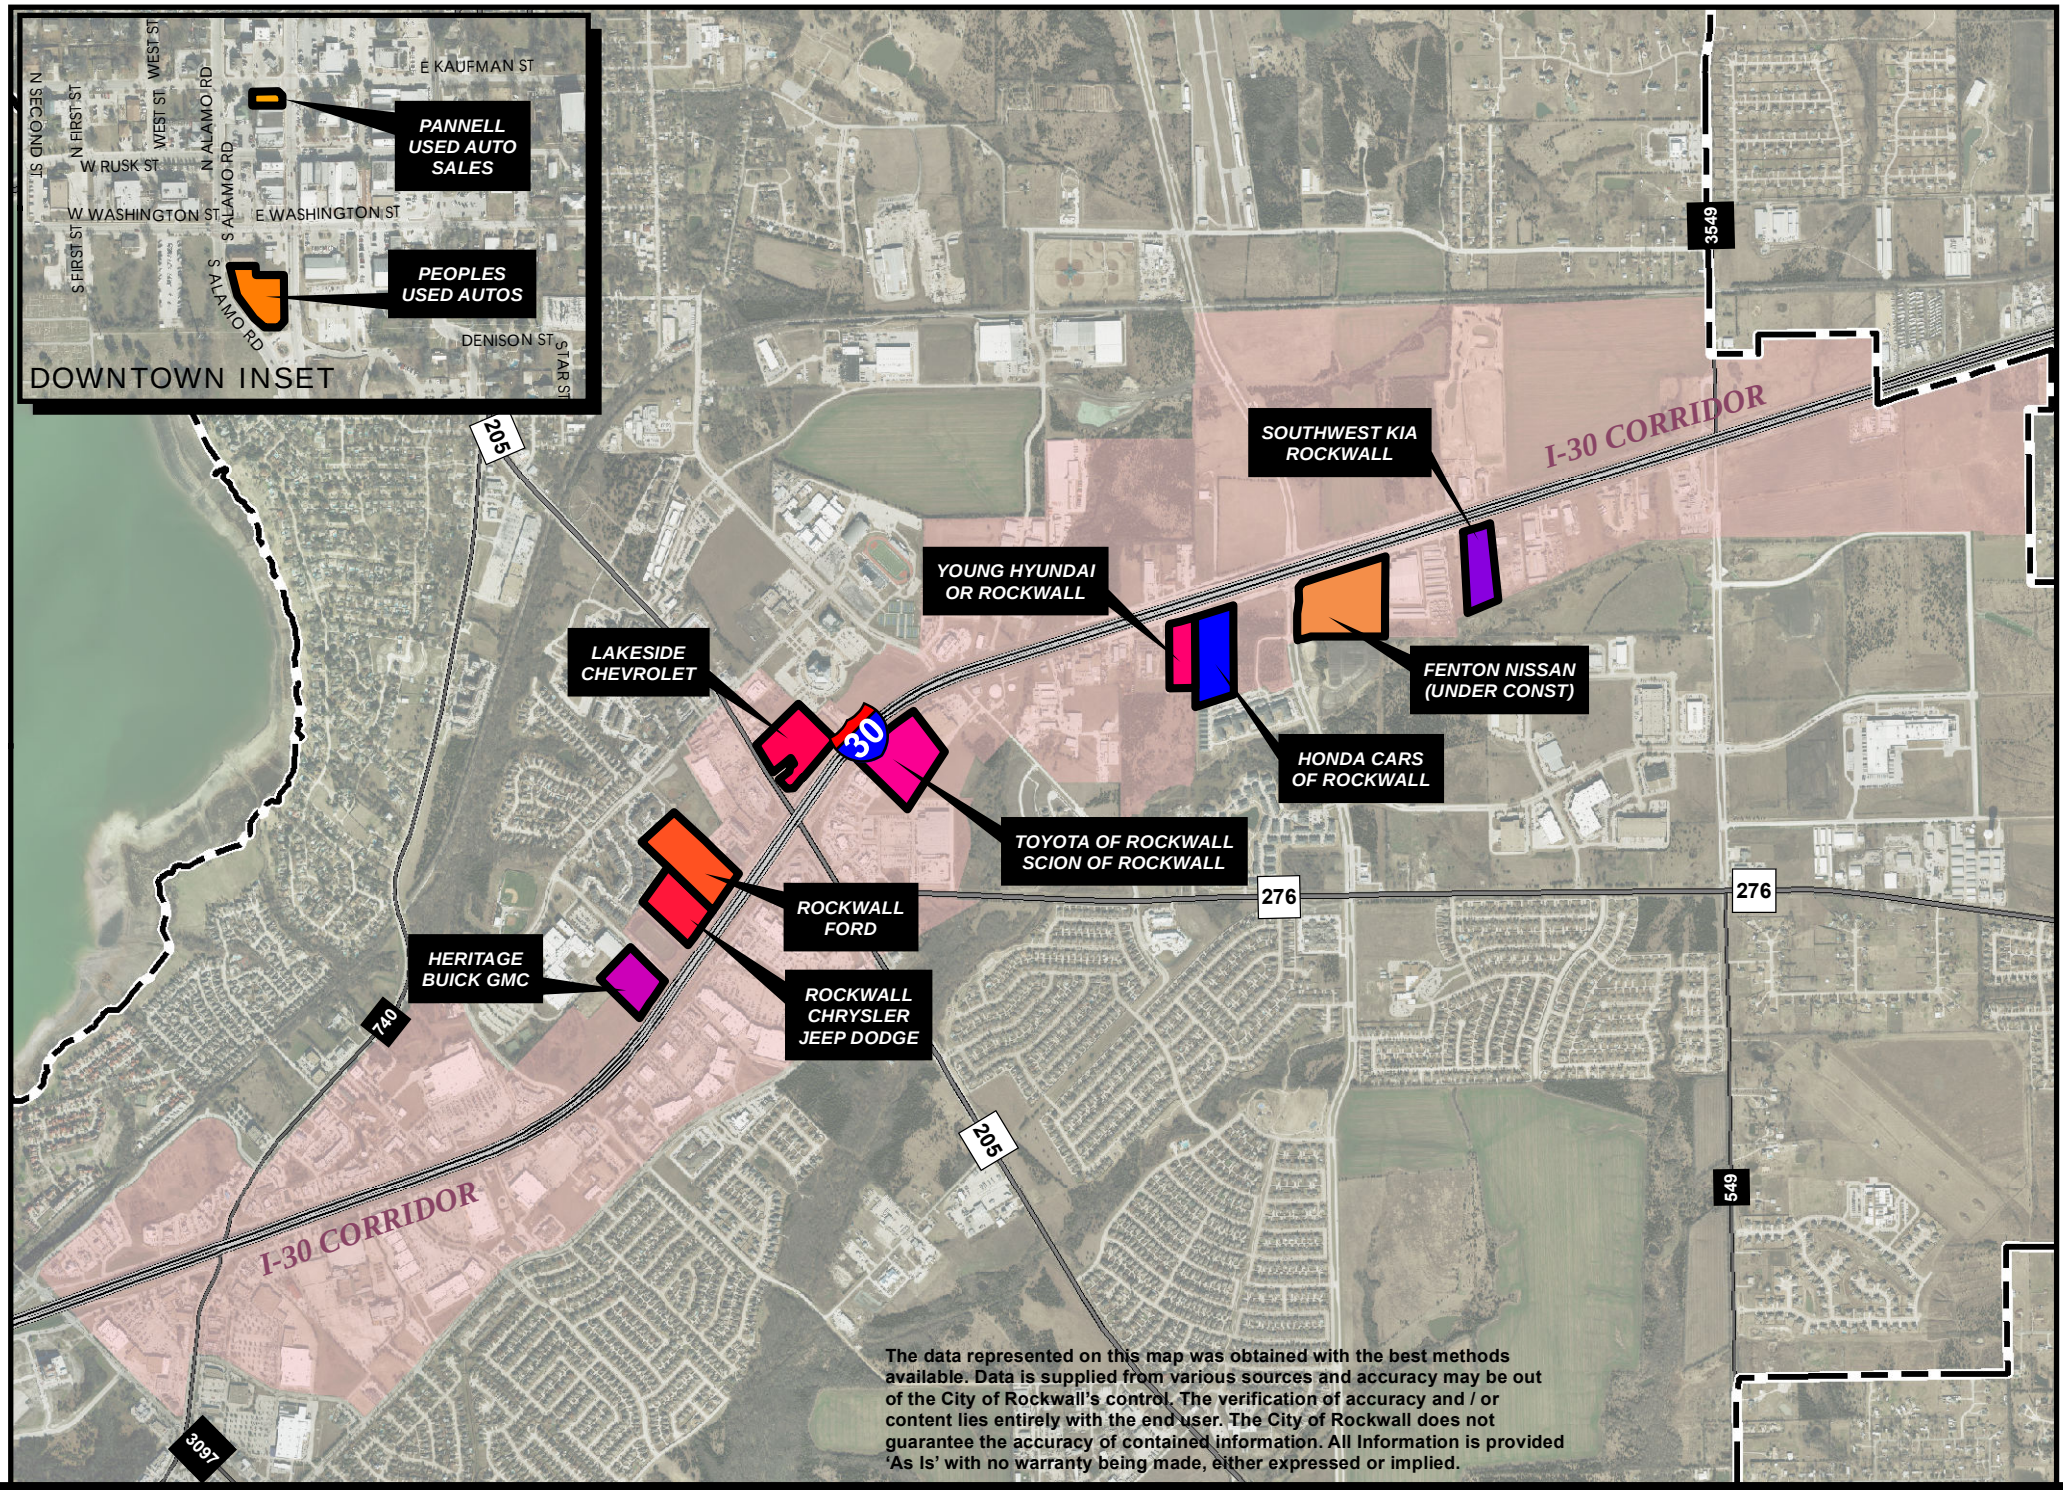
The City of McKinney permits *Automobile, Motorcycle, Boat (Sales, Repair, or Storage) by-right* in the General Business (BG), Commercial (C), Commercial Business (BC), Light Manufacturing (ML), Heavy Manufacturing (MH), Light Industrial (LI), and the Heavy Industrial (HI) Districts; and, by SUP in the Regional Commercial (C3) District.

☑ *City of Rowlett*

The City of Rowlett only allows used vehicle sales as an accessory use to new vehicle sales.

☑ *City of Mesquite*

The City of Mesquite requires a Conditional Use Permit (*i.e. Specific Use Permit*) in their Central Business (CB), Commercial (C) and Industrial (I) Districts.



☑ *City of Garland*

The City of Garland requires a Specific Use Permit (SUP) for *Automobile Sales, New or Used* in the Light Commercial (LC) and Industrial (IN) Districts and permits the use *by-right* in a Heavy Commercial (HC) District.

☑ *City of Lancaster*

The City of Lancaster allows the *Motor Vehicle Dealership, New & Used (Cars and Light Trucks)* land use through a Specific Use Permit in their Commercial Highway (CH) District and *by-right* in their Commercial Services (CS), Light Industrial (LI) and Medium Industrial (MI) Districts. In addition, the following use standards are also required:

1) The area to be used for outside storage and display shall not exceed 50% of the lot area within 100 feet of any adjacent street.
2) All such outside storage and display areas must be permanently paved to City standards.
3) All such outside storage and display areas must be screened along all road frontages with a solid evergreen landscape screen a minimum of three (3) feet in height.
4) All such outside storage and display areas may be lighted with directed exterior lighting that does not glare onto any adjacent roadways.
5) A site plan and landscape plan shall be approved prior to issuance of any Building Permit.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTIONS 1.1 & 2.1.8 OF ARTICLE IV, *PERMISSIBLE USES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Section 1.1, *Use of Land and Buildings*, and Section 2.1.8, *Auto and Marine-Related Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] for the purposes of establishing *Motor Vehicle Dealership, Used (Cars and Light Trucks)* as a standalone use permitted within the Light Industrial (LI) District by Specific Use Permit and *by-right* in the Heavy Industrial (HI) District, and prohibiting the standalone use in certain Overlay Districts; and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That Section 1.1, *Use of Land and Buildings*, and Section 2.1.8, *Auto and Marine-Related Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibit 'A'* of this ordinance;

Section 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 4. That this ordinance shall take effect immediately from and after its passage and the

DRAFT 08.05.2016

publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 6TH DAY OF JUNE, 2016.

Discuss and consider a request by Bart Carroll of Carroll Consulting Group, Inc. on behalf of the owner Robert John Crowell of Crowell Development Corporation for the approval of a final plat for Wanda Ridge Estates, Phase 2 containing 45 single-family residential lots on 79.7111-acres identified as Tract 17-3 (4.679-acres), Tract 19 (61.658-acres), and Tract 42-01 (13.374-acres) of the S. McFadgin Survey, Abstract No. 142, Rockwall County, Texas, situated in the City of Rockwall's Extraterritorial Jurisdiction (ETJ), located north of the intersection of Wanda Lane and FM-548, and take any action necessary.

Please address the following Rockwall County Comments:

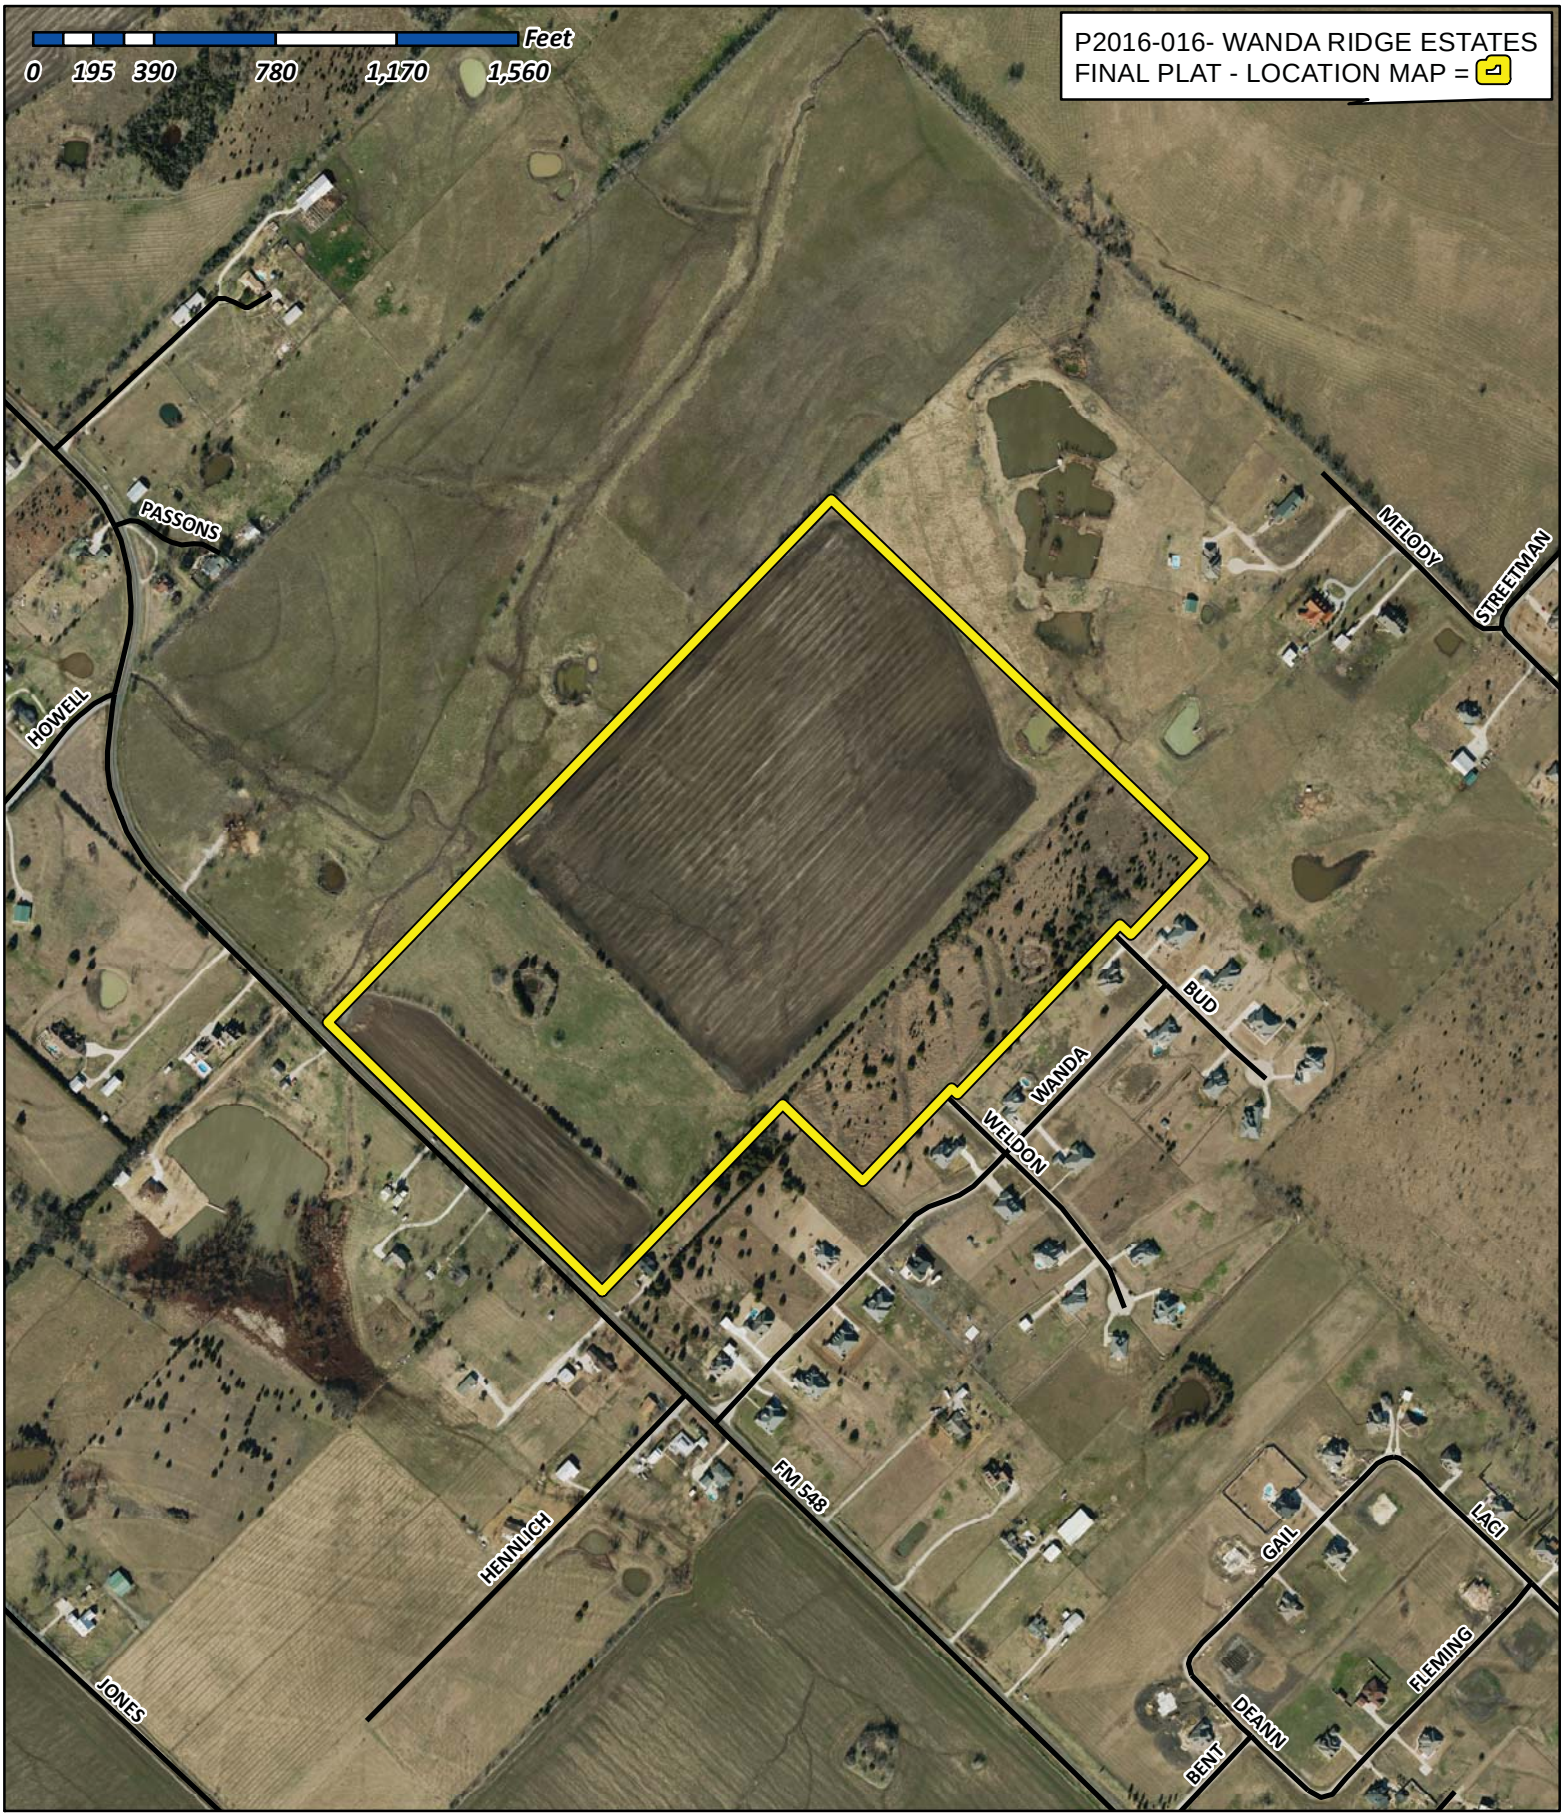
From: Pat NeSmith [mailto:pnesmith@rockwallcountytexas.com]
Sent: Tuesday, April 19, 2016 1:24 PM
To: 'Ron Merritt' <rmerritt@rockwallcountytexas.com>
Subject: RE: Wanda Ridge Estates - Final Plat

I don't have any problem with the plat but will need to see the plans for drainage of water from Weldon St north to Bud St, we have a problem with the flow now. I see an easement on the lot south of Weldon but I don't see a drainage easement on the 2 lots between those streets. There's a big ditch in there now behind the 2 existing houses on Wanda.

I hope all the lot owners with drainage easements on their prop understand what that means. Looks like at least 14 or 15 are going to be affected.

The following City of Rockwall staff comments are to be addressed and resubmitted no later than Tuesday, May 3, 2016. Please provide three large copies [18" X 24" FOLDED] and one PDF version for a subsequent review by staff:

1. Adherence to all Engineering and Fire Department standards shall be required.
2. Provide a label indicating "Case No. P2016-016" on the lower right corner on all pages of the revised plat.
3. Indicate and label the 25-ft Right-of-Way Dedication along FM 548 by hatching the area and providing the total acres being dedicated.
4. Surveyor's Certificate - Notary not necessary when stamped by surveyor.



** As a note and once the plat has been approved by the Planning Commission and City Council, all staff comments are to be addressed and all revisions resubmitted and approved by staff prior to plat submittal on mylar for filing purposes. **

The following are scheduled meeting dates that you and/or your representative(s) should attend in order to answer any questions regarding the final plat. If you have any quesitons regarding this case, please feel free to contact David Gonzales with the Planning Department at 972-771-7745.

COUNTY OF ROCKWALL

Whereas, Crowell Development Co., Inc. is the owner of a tract of land situated in the S. McFadgin Survey, Abstract No. 142, Rockwall County, Texas and being the same 79.7111 acre tract of land as conveyed to Crowell Development Co., Inc. by deed recorded in Volume 4417, Page 152, Deed Records, Rockwall County, Texas, and being more particularly described as follows:

Beginning at a 1/2" capped iron pin found on the northeasterly right-of-way line of Farm to Market Road No. 548 (80' R.O.W.) for the west corner of said 79.7111 acre tract and the south corner of a 97.282 acre tract of land conveyed to Donald Junt and Equity Trust Company Custodian FBO Donald Junt IRA by deed recorded in Volume 2015, Page 18262, Deed Records, Rockwall County, Texas;

Thence, North 45°17'01" East, along the northwest line of said 79.7111 acre tract and the southeast line of said 97.282 acre tract, a distance of 2334.48 feet to a 1/2" capped iron pin found for the north corner of said 79.7111 acre tract and the west corner of a tract of land conveyed to Dwayne Turner by deed recorded in Volume 1676, Page 267, Deed Records, Rockwall County, Texas;

Thence, South 44°47'41" East, along the northeast line of said 79.7111 acre tract, the southwest line of said Turner tract, the southwest line of a 5.781 acre tract of land conveyed to Paul S. Henry and Sonya D. Henry by deed recorded in Volume 2271, Page 324, Deed Records, Rockwall County, Texas, the southeast line of a 5.628 acre tract of land conveyed to Jerry D. Vaughn and Greta Lynn Vaughn by deed recorded in Volume 2050, Page 150, Deed Records, Rockwall County, Texas and the southwest line of a 12.177 acre tract of land conveyed to Michael Darren McWhirter and Karen Jean McWhirter by deed recorded in Volume 1605, Page 293, Deed Records, Rockwall County, Texas, a distance of 1663.08 feet to a 1/2" capped iron pin found for the most northerly east corner of said 79.7111 acre tract and the most northerly corner of Wanda Ridge Estates Phase 1, an addition to Rockwall County, Texas, according to the plat thereof recorded in Cabinet F, Slide 391, Map Records, Rockwall County, Texas;

Thence, southwesterly, along the southeasterly lines of said 79.7111 acre tract and the northwesterly lines of said Wanda Ridge Estates Phase 1 the following:

South 45°12'19" West, a distance of 342.00 feet to a 1/2" capped iron pin found for corner on the northeast right-of-way line of Bud Lane (60' R.O.W.);

North 44°47'41" West, along the northeast line of said Bud Lane, a distance of 46.65 feet to a 1/2" yellow capped iron pin set stamped "CCG INC RPLS 5129" for corner;

South 45°12'19" West, a distance of 754.00 feet to a 1/2" capped iron pin found on the northeast right-of-way line of Weldon Lane (60' R.O.W.);

North 44°47'41" West, along the northeast line of said Weldon Lane, a distance of 26.35 feet to a 1/2" yellow capped iron pin set stamped "CCG INC RPLS 5129" for corner;

South 45°12'19" West, a distance of 414.85 feet to a 1/2" yellow capped iron pin set stamped "CCG INC RPLS 5129" on the north line of Lot 5, of said Wanda Ridge Estates Phase 1;

Thence, North 44°43'57" West, along a southwesterly line of said 79.7111 acre tract and the northeast line of said Lot 5, a distance of 253.01 feet to a 1/2" yellow capped iron pin set stamped "CCG INC RPLS 5129" for the north corner of said Lot 5 and the east corner of a 2 acre tract of land conveyed to Charles E. Harris by deed recorded in Volume 151, Page 681, Deed Records, Rockwall County, Texas;

Thence, North 44°38'17" West, along a southwesterly line of said 79.7111 acre tract and the northeast line of said 2 acre tract, a distance of 104.04 feet to a 3/8" iron pin found for the north corner of said 2 acre tract;

Thence, South 45°17'40" West, along a southeasterly line of said 79.7111 acre tract and the northwest line of said 2 acre tract, a distance of 834.44 feet to a 1/2" yellow capped iron pin set stamped "CCG INC RPLS 5129" on the northeasterly right-of-way line of Farm to Market Road No. 548 (80' R.O.W.) for the south corner of said 79.7111 acre tract and the west corner of said 2 acre tract;

Thence, North 44°19'08" West, along the northeasterly right-of-way line of Farm to Market Road No. 548 (80' R.O.W.) and the southwest line of said 79.7111 acre tract, a distance of 1234.97 feet to the Point of Beginning and containing 3,472,216 square feet or 79.7111 acres of land.

NOW THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

I the undersigned owner of the land shown on this plat, and designated herein as the WANDA RIDGE ESTATES PHASE 2 subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the WANDA RIDGE ESTATES PHASE 2 subdivision have been notified and signed this plat. I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I (we) further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I (we), my (our) successors and assigns hereby waive any claim, damage, or cause of action that I (we) may have as a result of the dedication of exactions made herein.

SP2016-006 (Service King Site Plan): Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of a site plan for an Auto Body Shop (i.e. Service King Collision Repair) on a 3.2039-acre tract of land described as Tract 7-01 of the J. Lockhart Survey, Abstract No. 134, City of Rockwall, Rockwall County, Texas, located at 1780 E IH-30, zoned Light Industrial (LI) District, situated within the IH-30 Overlay (IH-30 OV) District, and take any action necessary.
I.2 For questions or comments concerning this case please contact Ryan Miller in the Planning Department at (972) 772-6441 or email rcmiller@rockwall.com.
M.3 For reference, include the case number (SP2016-006) in the lower right hand corner of all pages on future submittals.
I.4 This property will be required to be replated prior to the issuance of a building permit.
M.5 Submittal Requirements. Please provide a material sample board for the Architectural Review Board to review at their meeting on April 26, 2016. Please submit a Photometric Plan and lighting cut-sheets that meet the City's lighting requirements.
M.6 Site Plan. Adjust the building square footage to include the porta-coche in the front. Building square footage includes all areas under roof.
M.7 Site Plan. Please indicate the dimensions of all walls on the building (i.e. this will include the porta-coche).
M.8 Site Plan. Please show a connection to the cross access easement that abuts the eastern property line (i.e. the KIA dealership). The cross access easement should extend across the subject property.
M.9 Screening. All buildings must be designed such that no roof mounted mechanical equipment, vents, HVAC or satellite dishes shall be visible from any direction. Additionally, all ground mounted equipment must be screened from horizontal view. Please indicate the location of all such equipment on the building elevations (in dashed lines) and/or the site plan, and indicate how the equipment will be screened.
M.10 Dumpster Enclosure. Per the IH-30 Overlay (IH-30 OV) District the dumpster enclosure is required to be constructed utilizing the same materials used on the primary structure and be constructed with eight (8) foot walls. Please make the necessary corrections and show a detail/elevation of the dumpster enclosure.
M.11 Landscaping. Please remove the irrigation plans from the plan set.
M.12 Landscaping. Per the IH-30 OV District three (3) canopy trees and four (4) accent trees are required per 100-linear feet. In addition, canopy trees are to be a minimum of four (4) inch caliper in size and accent trees are required to be a minimum of four (4) feet. Currently, the landscaping shown does not meet this requirement. Please review the ordinance for the trees permitted within the IH-30 OV District.
M.13 Landscaping. A minimum of a 20-foot landscape buffer is required with a combination of a built-up berm and/or shrubbery or a combination thereof is required along the IH-30 right-of-way. Additionally, no parking is permitted within the landscape buffer. Please make the necessary changes.
M.14 Landscaping. All parking spaces are required to be within 80-feet of a tree. Please provide a detail page showing each tree buffered by 80-feet to demonstrate conformance to this requirement.
I.15 Photometric. No light pole, base or combination thereof shall exceed 30-feet in height. Please indicated the mounting height of each lighting standard indicating conformance to the lighting requirements.
I.16 Photometric. Please provide cut-sheets for all exterior lighting (e.g. wall packs, canister lighting, etc.).
M.17 Building Elevations. The IH-30 Overlay (IH-30 OV) District requires a minimum of 20% natural or quarried stone used on each building façade. Please adjust the façade calculations to indicate the amount of stone utilized on each building façade.
M.18 Building Elevations. The proposed building elevations do not meet the minimum horizontal and vertical articulation requirements. Please provide horizontal and vertical off-sets and projects that conform to the articulation formulas in the UDC.
M.19 Building Elevations. The IH-30 OV District requires four (4) sided architecture that has wall faces that are architecturally finished on all four (4) sides with the same materials, detailing and features. The current building elevations do not meet this requirement.
M.20 Variances. Please submit a letter specifically requesting each variance, and providing a rational for the approval of these variances. It should be noted that any variances to the Overlay District requirements require a ¾-majority vote.
I.21 The Architectural Review Board (ARB) meeting for this case will be held on April 26, 2016.
I.22 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on May 3, 2016; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the May 10, 2016 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
on April 26, 2016.							
I.23 If necessary the projected City Council meeting date for this case will be May 16, 2016.

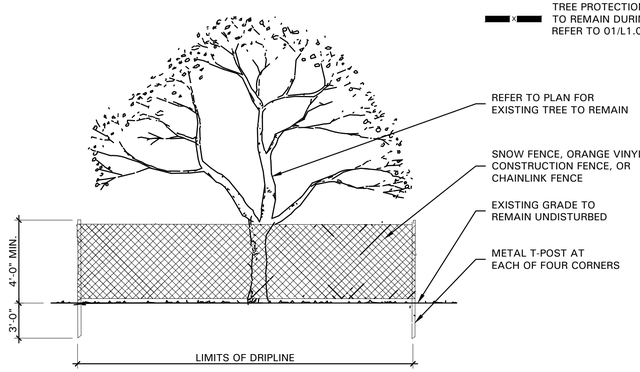
TREE PRESERVATION NOTES



1. EXISTING TREES TO REMAIN SHALL BE PROTECTED DURING CONSTRUCTION FROM TREE STRUCTURE DAMAGE AND COMPACTION OF SOIL UNDER AND AROUND DRIP LINE (CANOPY) OF TREE.
2. IF ANY ROOT STRUCTURE IS DAMAGED DURING ADJACENT EXCAVATION / CONSTRUCTION, NOTIFY OWNER'S AUTHORIZED REPRESENTATIVE IMMEDIATELY. IT IS RECOMMENDED THAT A LICENSED ARBORIST BE SECURED FOR THE TREATMENT OF ANY POSSIBLE TREE WOUNDS.
3. NO DISTURBANCE OF THE SOIL GREATER THAN 4" SHALL BE LOCATED CLOSER TO THE TREE TRUNK THAN 1/2 THE DISTANCE OF THE DRIP LINE TO THE TREE TRUNK. A MINIMUM OF 75% OF THE DRIP LINE AND ROOT ZONE SHALL BE PRESERVED AT NATURAL GRADE.
4. ANY FINE GRADING DONE WITHIN THE CRITICAL ROOT ZONES OF THE PROTECTED TREES MUST BE DONE WITH LIGHT MACHINERY SUCH AS A BOBCAT OR LIGHT TRACTOR. NO EARTH MOVING EQUIPMENT WITH TRACKS IS ALLOWED WITHIN THE CRITICAL ROOT ZONE OF THE TREES.
5. NO MATERIALS INTENDED FOR USE IN CONSTRUCTION OR WASTE MATERIALS ACCUMULATED DUE TO EXCAVATION OR DEMOLITION SHALL BE PLACED WITHIN THE LIMITS OF THE DRIP LINE OF ANY TREE.
6. NO EQUIPMENT MAY BE CLEANED OR TOXIC SOLUTIONS, OR OTHER LIQUID CHEMICALS, SHALL BE DEPOSITED WITHIN THE LIMITS OF THE DRIP LINE OF A TREE, INCLUDING BUT NOT LIMITED TO: PAINT, OIL, SOLVENTS, ASPHALT, CONCRETE, MORTAR, PRIMERS, ETC.
7. NO SIGNS, WIRES OR OTHER ATTACHMENTS, OTHER THAN THOSE OF A PROTECTIVE NATURE, SHALL BE ATTACHED TO ANY TREE.
8. NO VEHICULAR / CONSTRUCTION EQUIPMENT TRAFFIC OR PARKING IS ALLOWED WITHIN THE LIMITS OF THE DRIP LINE OF TREES.
9. BORING OF UTILITIES MAY BE PERMITTED UNDER PROTECTED TREES IN CERTAIN CIRCUMSTANCES. THE MINIMUM LENGTH OF THE BORE SHALL BE THE WIDTH OF THE TREE'S CANOPY AND SHALL BE A MINIMUM DEPTH OF FORTY-EIGHT (48") INCHES.
10. IRRIGATION TRENCHING WHICH MUST BE DONE WITHIN THE CRITICAL ROOT ZONE OF A TREE SHALL BE DUG BY HAND AND ENTER THE AREA IN A RADIAL MANNER.
11. ALL TREES TO BE REMOVED FROM THE SITE SHALL BE FLAGGED BY THE CONTRACTOR WITH BRIGHT RED VINYL TAPE (3" WIDTH) WRAPPED AROUND THE MAIN TRUNK AT A HEIGHT OF FOUR (4') FEET ABOVE GRADE. FLAGGING SHALL BE APPROVED BY OWNER'S AUTHORIZED REPRESENTATIVE PRIOR TO ANY TREE REMOVAL. CONTRACTOR SHALL CONTACT OWNER'S AUTHORIZED REPRESENTATIVE WITH 72 HOURS NOTICE TO SCHEDULE ON-SITE MEETING.
12. ALL TREES TO REMAIN, AS NOTED ON DRAWINGS, SHALL HAVE PROTECTIVE FENCING LOCATED AT THE TREE'S DRIP LINE. THE PROTECTIVE FENCING MAY BE COMPRISED OF SNOW FENCING, ORANGE VINYL CONSTRUCTION FENCING, CHAIN LINK FENCE OR OTHER SIMILAR FENCING WITH A FOUR (4') FOOT APPROXIMATE HEIGHT. THE PROTECTIVE FENCING SHALL BE LOCATED AS INDICATED ON THE TREE PROTECTION DETAIL.
13. WHEN A LOW HANGING LIMB IS BROKEN DURING THE COURSE OF CONSTRUCTION, THE CONTRACTOR SHALL NOTIFY THE OWNER'S AUTHORIZED REPRESENTATIVE IMMEDIATELY. UNDER NO CIRCUMSTANCE SHALL THE CONTRACTOR PRUNE ANY PORTION OF THE DAMAGED TREE WITHOUT THE PRIOR APPROVAL BY THE OWNER'S AUTHORIZED REPRESENTATIVE.

PARKING LOT LANDSCAPING

1. 5% of the interior parking lot shall be landscape.
2. If parking area exceeds 20,000 s.f., one (1) large canopy tree for every ten (10) required parking spaces.

Total interior parking lot area = 40,024 s.f.
Total parking spaces = 117 spaces

Required	Provided
2,001 s.f. (5%)	3,645 s.f. (9%)
(12) trees, 3" cal.	(12) trees, 3" cal.

DETENTION BASINS

1. One (1) large tree per 750 s.f. of dry land area.

DETENTION POND - 8,765 s.f.

Required	Provided
(12) trees, 3" cal.	(12) trees, 3" cal.

PLANT LIST

SYMBOL	BOTANICAL NAME	COMMON NAME	QTY.	SIZE	REMARKS
	TREES				
BC	*Taxodium distichum*	Bald Cypress	12	3" cal.	container grown, 12' ht., 4' spread, 4' branching ht., matching
CP	*Pistacia chinensis*	Chinese Pistache	4	3" cal.	container grown, 12' ht., 4' spread, 4' branching ht., matching
LE	*Ulmus parvifolia 'Sempervirens'*	Lacebark Elm	7	3" cal.	container grown, 12' ht., 4' spread, 4' branching ht., matching
LO	*Quercus virginiana*	Live Oak	5	3" cal.	container grown, 12' ht., 4' spread, 4' branching ht., matching
	SHRUBS/GROUNDCOVER				
AB	*Abelia grandiflora 'Edward Goucher'*	Dwarf Abelia 'Edward Goucher'	11	5 gal.	container full, 24" spread, 36" o.c.
DBH	*Ilex cornuta 'Burfordii Nana'*	Dwarf Burford Holly	26	5 gal.	container full, 24" spread, 36" o.c.
WC	*Euonymus fortunei 'Coloratus'*	Wintercreeper	515	4" pots	container (3) 12" runners min., 12" o.c.
	Cynodon dactylon	Common Bermudagrass			refer to notes

NOTE: ALL TREES SHALL HAVE STRAIGHT TRUNKS AND BE MATCHING WITHIN VARIETIES.
PLANT LIST IS AN AID TO BIDDERS ONLY. CONTRACTOR SHALL VERIFY ALL QUANTITIES ON PLAN.
ALL HEIGHTS AND SPREADS ARE MINIMUMS. ALL PLANT MATERIAL SHALL MEET OR EXCEED REMARKS AS INDICATED.

GENERAL LAWN NOTES

1. CONTRACTOR SHALL COORDINATE OPERATIONS AND AVAILABILITY OF EXISTING TOPSOIL WITH ON-SITE CONSTRUCTION MANAGER.
2. CONTRACTOR SHALL LEAVE LAWN AREAS 1" BELOW FINAL FINISHED GRADE PRIOR TO TOPSOIL INSTALLATION.
3. CONTRACTOR SHALL FINE GRADE AREAS TO ACHIEVE FINAL CONTOURS AS INDICATED ON CIVIL PLANS. ADJUST CONTOURS TO ACHIEVE POSITIVE DRAINAGE AWAY FROM BUILDINGS. PROVIDE UNIFORM ROUNDING AT TOP AND BOTTOM OF SLOPES AND OTHER BREAKS IN GRADE. CORRECT IRREGULARITIES AND AREAS WHERE WATER MAY STAND.
4. ALL LAWN AREAS SHALL BE FINE GRADED, IRRIGATION TRENCHES COMPLETELY SETTLED AND FINISH GRADE APPROVED BY THE OWNER'S CONSTRUCTION MANAGER OR LANDSCAPE ARCHITECT PRIOR TO LAWN INSTALLATION.
5. CONTRACTOR SHALL REMOVE ALL ROCKS 3/4" DIAMETER AND LARGER, DIRT CLODS, STICKS, CONCRETE SPOILS, ETC. PRIOR TO PLACING TOPSOIL AND LAWN INSTALLATION.
6. CONTRACTOR SHALL MAINTAIN ALL LAWN AREAS UNTIL FINAL ACCEPTANCE. THIS SHALL INCLUDE, BUT NOT BE LIMITED TO: MOWING, WATERING, WEEDING, CULTIVATING, CLEANING AND REPLACING DEAD OR BARE AREAS TO KEEP PLANTS IN A VIGOROUS, HEALTHY CONDITION.
7. CONTRACTOR SHALL GUARANTEE ESTABLISHMENT OF ACCEPTABLE TURF AREA AND SHALL PROVIDE REPLACEMENT FROM LOCAL SUPPLY IF NECESSARY.

SOLID SOD NOTES

1. PLANT SOD BY HAND TO COVER INDICATED AREAS COMPLETELY. ENSURE EDGES OF SOD ARE TOUCHING. TOP DRESS JOINTS BY HAND WITH TOPSOIL TO FILL VOIDS.
2. ROLL GRASS AREAS TO ACHIEVE A SMOOTH, EVEN SURFACE, FREE FROM UNNATURAL UNDULATIONS.
3. WATER SOD THOROUGHLY AS SOD OPERATION PROGRESSES.
4. IF INSTALLATION OCCURS BETWEEN SEPTEMBER 1 AND MARCH 1, OVER-SEED BERMUDAGRASS SOD WITH WINTER RYEGRASS, AT A RATE OF FOUR (4) POUNDS PER ONE THOUSAND (1000) SQUARE FEET.

LANDSCAPE NOTES

1. CONTRACTOR SHALL VERIFY ALL EXISTING AND PROPOSED SITE ELEMENTS AND NOTIFY LANDSCAPE ARCHITECT OF ANY DISCREPANCIES. SURVEY DATA OF EXISTING CONDITIONS WAS SUPPLIED BY OTHERS.
2. CONTRACTOR SHALL LOCATE ALL EXISTING UNDERGROUND UTILITIES AND NOTIFY LANDSCAPE ARCHITECT OF ANY CONFLICTS. CONTRACTOR SHALL EXERCISE CAUTION WHEN WORKING IN THE VICINITY OF UNDERGROUND UTILITIES.
3. CONTRACTOR SHALL PROVIDE A MINIMUM 2% SLOPE AWAY FROM ALL STRUCTURES.
4. CONTRACTOR SHALL FINE GRADE AREAS TO ACHIEVE FINAL CONTOURS AS INDICATED. LEAVE AREAS TO RECEIVE TOPSOIL 3" BELOW FINAL FINISHED GRADE IN PLANTING AREAS AND 1" BELOW FINAL FINISHED GRADE IN LAWN AREAS.
5. ALL PLANTING BEDS AND LAWN AREAS SHALL BE SEPARATED BY STEEL EDGING. NO STEEL EDGING SHALL BE INSTALLED ADJACENT TO BUILDINGS, WALKS, OR CURBS. CUT STEEL EDGING AT 45 DEGREE ANGLE WHERE IT INTERSECTS WALKS AND CURBS.
6. TOP OF MULCH SHALL BE 1/2" MINIMUM BELOW THE TOP OF WALKS AND CURBS.
7. ALL LAWN AREAS SHALL BE SOLID SOD BERMUDAGRASS, UNLESS OTHERWISE NOTED ON THE DRAWINGS.
8. ALL REQUIRED LANDSCAPE AREAS SHALL BE PROVIDED WITH AN AUTOMATIC UNDERGROUND IRRIGATION SYSTEM WITH RAIN AND FREEZE SENSORS AND EVAPOTRANSPIRATION (ET) WEATHER-BASED CONTROLLERS AND SAID IRRIGATION SYSTEM SHALL BE DESIGNED BY A QUALIFIED PROFESSIONAL AND INSTALLED BY A LICENSED IRRIGATOR.
9. CONTRACTOR SHALL PROVIDE BID PROPOSAL LISTING UNIT PRICES FOR ALL MATERIAL PROVIDED.
10. CONTRACTOR SHALL BE RESPONSIBLE FOR OBTAINING ALL REQUIRED LANDSCAPE AND IRRIGATION PERMITS.

MAINTENANCE NOTES

1. THE OWNER, TENANT AND THEIR AGENT, IF ANY, SHALL BE JOINTLY AND SEVERALLY RESPONSIBLE FOR THE MAINTENANCE OF ALL LANDSCAPE.
2. ALL LANDSCAPE SHALL BE MAINTAINED IN A NEAT AND ORDERLY MANNER AT ALL TIMES. THIS SHALL INCLUDE MOWING, EDGING, PRUNING, FERTILIZING, WATERING, WEEDING AND OTHER SUCH ACTIVITIES COMMON TO LANDSCAPE MAINTENANCE.
3. ALL LANDSCAPE AREAS SHALL BE KEPT FREE OF TRASH, LITTER, WEEDS AND OTHER SUCH MATERIAL OR PLANTS NOT PART OF THIS PLAN.
4. ALL PLANT MATERIAL SHALL BE MAINTAINED IN A HEALTHY AND GROWING CONDITION AS IS APPROPRIATE FOR THE SEASON OF THE YEAR.
5. ALL PLANT MATERIAL WHICH DIES SHALL BE REPLACED WITH PLANT MATERIAL OF EQUAL OR BETTER VALUE.
6. CONTRACTOR SHALL PROVIDE SEPARATE BID PROPOSAL FOR ONE YEAR'S MAINTENANCE TO BEGIN AFTER FINAL ACCEPTANCE.

NO TREES WITHIN 5'-0" OF ANY UTILITIES

SCALE: 1" = 40'-0"

SECTION 32 9300 - LANDSCAPE

PART 1 - GENERAL

1.1 REFERENCED DOCUMENTS

A. Refer to Landscape Plans, notes, details, bidding requirements, special provisions, and schedules for additional requirements.

1.2 DESCRIPTION OF WORK

A. Work included: Furnish all supervision, labor, materials, services, equipment and appliances required to complete the work covered in conjunction with the landscaping covered in these specifications and landscaping plans, including:

1. Planting (trees, shrubs and grasses)
2. Bed preparation and fertilization
3. Notification of sources
4. Water and maintenance until final acceptance
5. Guarantee

1.3 REFERENCE STANDARDS

A. American Standard for Nursery Stock published by American Association of Nurserymen: 27 October 1980, Edition; by American National Standards Institute, Inc. (Z60.1) – plant material

B. American Joint Committee on Horticultural Nomenclature: 1942 Edition of Standardized Plant Names.

C. Texas Association of Nurserymen, Grades and Standards

D. Hortis Third, 1976 - Cornell University

1.4 NOTIFICATION OF SOURCES AND SUBMITTALS

A. Samples: Provide representative quantities of sandy loam soil, mulch, bed mix material, gravel and crushed stone. Samples shall be approved by Owner's Authorized Representative before use on the project.

1.5 JOB CONDITIONS

A. General Contractor to complete the following punch list: Prior to Landscape Contractor initiating any portion of landscape installation, General Contractor shall leave planting bed areas three (3") inches below final finish grade of sidewalks, drives and curbs as shown on the drawings. All lawn areas to receive solid sod shall be left one (1") inch below the final finish grade of sidewalks, drives and curbs. All construction debris shall be removed prior to Landscape Contractor beginning any work.

B. Storage of materials and equipment at the job site will be at the risk of the Landscape Contractor. The Owner cannot be held responsible for theft or damage.

1.6 MAINTENANCE AND GUARANTEE

A. Maintenance:

1. The Landscape Contractor shall be held responsible for the maintenance of all work from the time of planting until final acceptance by the Owner. No trees, shrubs, groundcover or grass will be accepted unless they show healthy growth and satisfactory foliage conditions.

2. Maintenance shall include watering of trees and plants, cultivation, weeding spraying, edging, pruning of trees, mowing of grass, cleaning up and all other work necessary of maintenance.

3. A written notice requesting final inspection and acceptance should be submitted to the Owner at least seven (7) days prior to completion. An on-site inspection by the Owner's Authorized Representative will be completed prior to written acceptance.

B. Guarantee:

1. Trees, shrubs and groundcover shall be guaranteed for a twelve (12) month period after final acceptance. The Contractor shall replace all dead materials as soon as weather permits and upon notification of the Owner. Plants, including trees, which have partially died so that shape, size, or symmetry have been damaged, shall be considered subject to replacement. In such cases, the opinion of the Owner shall be final.

   a. Plants used for replacement shall be of the same size and kind as those originally planted and shall be planted as originally specified. All work, including materials, labor and equipment used in replacements, shall carry a twelve (12) month guarantee. Any damage, including ruts in lawn or bed areas, incurred as a result of making replacements shall be immediately repaired.

   b. At the direction of the Owner, plants may be replaced at the start of the next year's planting season. In such cases, dead plants shall be removed from the premises immediately.

   c. When plant replacements are made, plants, soil mix, fertilizer and mulch are to be utilized as originally specified and re-inspected for full compliance with the contract requirements. All replacements are to be included under "Work" of this section.

2. The Owner agrees that for the guarantee to be effective, he will water plants at least twice a week during dry periods and cultivate beds once a month after final acceptance.

3. The above guarantee shall not apply where plants die after acceptance because of injury from storms, hail, freeze, insects, diseases, injury by humans, machines or theft.

4. Acceptance for all landscape work shall be given after final inspection by the Owner provided the job is in a complete, undamaged condition and there is a stand of grass in all lawn areas. At that time, the Owner will assume maintenance on the accepted work.

C. Repairs: Any necessary repairs under the Guarantee must be made within ten (10) days after receiving notice, weather permitting. In the event the Landscape Contractor does not make repairs accordingly, the Owner, without further notice to Contractor, may provide materials and men to make such repairs at the expense to the Landscape Contractor.

1.7 QUALITY ASSURANCE

A. General: Comply with applicable federal, state, county and local regulations governing landscape materials and work.

B. Personnel: Employ only experienced personnel who are familiar with the required work. Provide full time supervision by a qualified foreman acceptable to Landscape Architect.

C. Selection of Plant Material:

1. Make contact with suppliers immediately upon obtaining notice of contract acceptance to select and book materials. Develop a program of maintenance (pruning and fertilization) which will ensure the purchased materials will meet and / or exceed project specifications.

2. Substitutions: Do not make plant material substitutions. If the specified landscape material is not obtainable, submit proof of non-availability to Landscape Architect, together with proposal for use of equivalent material. At the time bids are submitted, the Contractor is assumed to have located the materials necessary to complete the job as specified.

3. Landscape Architect will provide a key identifying each tree location on site. Written verification will be required to document material selection, source and delivery schedules to site.

4. Measurements: Measure trees with branches and trunks or canes in their normal position. Do not prune to obtain required sizes. Take caliper measurements six inches above ground for trees up to and including 4" caliper size, and twelve inches above ground for larger sizes. Measure main body of all plant material of height and spread dimensions, do not measure from branch or root tip-to-tip.

5. Owner's Authorized Representative shall inspect all plant material with requirements for genus, species, cultivar / variety size and quality.

6. Owner's Authorized Representative retains the right to further inspect all plant material upon arrival to the site and during installation for size and condition of root balls and root systems, limbs, branching habit, insects, injuries and latent defects.

7. Owner's Authorized Representative may reject unsatisfactory or defective material at any time during the process work. Remove rejected materials immediately from the site and replace with acceptable material at no additional cost to the Owner. Plants damaged in transit or at job site shall be rejected.

1.8 PRODUCT DELIVERY, STORAGE AND HANDLING

A. Preparation:

1. Balled and Burlapped (B&B) Plants: Dig and prepare shipment in a manner that will not damage roots, branches, shape and future development.

2. Container Grown Plants: Deliver plants in rigid container to hold ball shape and protect root mass.

B. Delivery:

1. Deliver packaged materials in sealed containers showing weight, analysis and name of manufacturer. Protect materials from deterioration during delivery and while stored on site.

2. Deliver only plant materials that can be planted in one day unless adequate storage and watering facilities are available on job site.

3. Protect root balls by heeling in with sawdust or other approved moisture retaining material if not planted within 24 hours of delivery.

4. Protect plants during delivery to prevent damage to root balls or desiccation of leaves. Keep plants moist at all times. Cover all materials during transport.

5. Notify Owner's Authorized Representative of delivery schedule 72 hours in advance job site.

6. Remove rejected plant material immediately from job site.

7. To avoid damage or stress, do not lift, move, adjust to plumb, or otherwise manipulate plants by trunk or stems.

PART 2 - PRODUCTS

2.1 PLANTS

A. General: Well-formed No. 1 grade or better nursery grown stock. Listed plant heights are from tops of root balls to nominal tops of plants. Plant spread refers to nominal outer width of the plant, not to the outer leaf tips. Plants will be individually approved by the Owner's Authorized Representative and his decision as to their acceptability shall be final.

B. Quantities: The drawings and specifications are complimentary. Anything called for on one and not the other is as binding as if shown and called for on both. The plant schedule is an aid to bidders only. Confirm all quantities on plan.

C. Quality and size: Plant materials shall conform to the size given on the plan, and shall be healthy, symmetrical, well-shaped, full branched and well rooted. The plants shall be free from injurious insects, diseases, injuries to the bark or roots, broken branches, objectionable disfigurements, insect eggs and larvae, and are to be of specimen quality.

D. Approval: All plants which are found unsuitable in growth, or are in any unhealthy, badly shaped or undersized condition will be rejected by the Owner's Authorized Representative either before or after planting and shall be removed at the expense of the Landscape Contractor and replaced with acceptable plant as specified at no additional cost to the Owner.

E. Trees shall be healthy, full-branched, well-shaped, and shall meet the minimum trunk and diameter requirements of the plant schedule. Balls shall be firm, neat, slightly tapered and well wrapped in burlap. Any tree loose in the ball or with a broken root ball at time of planting will be rejected. Balls shall be ten (10") inches in diameter for each one (1") inch of trunk diameter, measured six (6") inches above ball. (Nomenclature confirms to the customary nursery usage. For clarification, the term "multi-trunk" defines a plant having three (3) or more trunks of nearly equal diameter.)

F. Pruning: All pruning of trees and shrubs, as directed by the Landscape Architect prior to final acceptance, shall be executed by the Landscape Contractor at no additional cost to the Owner.

2.2 SOIL PREPARATION MATERIALS

A. Sandy Loam:

1. Friable, fertile, dark, loamy soil, free of clay lumps, subsoil, stones and other extraneous material and reasonably free of weeds and foreign grasses. Loam containing Dallasgrass or Nutgrass shall be rejected.

2. Physical properties as follows:
   a. Clay – between 7-27 percent
   b. Silt – between 15-25 percent
   c. Sand – less than 52 percent

3. Organic matter shall be 3%-10% of total dry weight.

4. If requested, Landscape Contractor shall provide a certified soil analysis conducted by an approved soil testing laboratory verifying that sandy loam meets the above requirements.

B. Organic Material: Compost with a mixture of 80% vegetative matter and 20% animal waste. Ingredients should be a mix of course and fine textured material.

C. Premixed Bedding Soil as supplied by Vital Earth Resources, Gladewater, Texas; Professional Bedding Soil as supplied by Living Earth Technology, Dallas, Texas or Acid Gro Municipal Mix as supplied by Soil Building Systems, Dallas, Texas or approved equal.

D. Sharp Sand: Sharp sand must be free of seeds, soil particles and weeds.

E. Mulch: Double Shredded Hardwood Mulch, partially decomposed, dark brown. Living Earth Technologies or approved equal.

F. Organic Fertilizer: Fertilaid, Sustane, or Green Sense or equal as recommended for required applications. Fertilizer shall be delivered to the site in original unopened containers, each bearing the manufacturer's guaranteed statement of analysis.

G. Commercial Fertilizer: 10-20-10 or similar analysis. Nitrogen source to be a minimum 50% slow release organic Nitrogen (SCU or UF) with a minimum 8% sulfur and 4% iron, plus icronutrients.

H. Peat: Commercial sphagnum peat moss or partially decomposed shredded pine bark or other approved organic material.

2.3 MISCELLANEOUS MATERIALS

A. Steel Edging: All steel edging shall be 3/16" thick x 4" deep x 16' long with 6 stakes per section, painted black at the factory as manufactured by The J.D. Russell Company and under its trade name DURAEDGE Heavy Duty Steel.

B. Staking Material for Shade Trees: refer to details.

C. Gravel: Washed native pea gravel, graded 1 inch to 1-1/2 inch.

D. Filter Fabric: 'Mirafi Mirascape' by Mirafi Construction Products available at Lone Star Products, Inc., (469) 523-0444 or approved equal.

E. River Rock: 'Colorado' or native river rock, 2" - 4" dia.

F. Decomposed Granite: Base material shall consist of a natural material mix of granite aggregate not to exceed 1/8" diameter in size and shall be composed of various stages of decomposed earth base.

PART 3 - EXECUTION

3.1 BED PREPARATION & FERTILIZATION

A. Landscape Contractor to inspect all existing conditions and report any deficiencies to the Owner.

B. All planting areas shall be conditioned as follows:

1. Prepare new planting beds by scraping away existing grass and weeds as necessary. Till existing soil to a depth of six (6") inches prior to placing compost and fertilizer. Apply fertilizer as per Manufacturer's recommendations. Add six (6") inches of compost and till into a depth of six (6") inches of the topsoil. Apply organic fertilizer such as Sustane or Green Sense at the rate of twenty (20) pounds per one thousand (1,000) square feet.

2. All planting areas shall receive a two (2") inch layer of specified mulch.

3. Backfill for tree pits shall be as follows: Use existing top soil on site (use imported topsoil as needed) free from large clumps, rocks, debris, caliche, subsoils, etc., placed in nine (9") inch layers and watered in thoroughly.

C. Grass Areas:

1. Blocks of sod should be laid joint to joint (staggered joints) after fertilizing the ground first. Roll grass areas to achieve a smooth, even surface. The joints between the blocks of sod should be filled with topsoil where they are evidently gaped open, then watered thoroughly.

3.2 INSTALLATION

A. Maintenance of plant materials shall begin immediately after each plant is delivered to the site and shall continue until all construction has been satisfactorily accomplished.

B. Plant materials shall be delivered to the site only after the beds are prepared and areas are ready for planting. All shipments of nursery materials shall be thoroughly protected from the drying winds during transit. All plants which cannot be planted at once, after delivery to the site, shall be well protected against the possibility of drying by wind and Balls of earth of B & B plants shall be kept covered with soil or other acceptable material. All plants remain the property of the Contractor until final acceptance.

C. Position the trees and shrubs in their intended location as per plan.

D. Notify the Owner's Authorized Representative for inspection and approval of all positioning of plant materials.

E. Excavate pits with vertical sides and horizontal bottom. Tree pits shall be large enough to permit handling and planting without injury to balls of earth or roots and shall be of such depth that,when planted and settled, the crown of the plant shall bear the same relationship to the finish grade as it did to soil surface in original place of growth.

F. Shrub and tree pits shall be no less than twenty-four (24") inches wider than the lateral dimension of the earth ball and six (6") inches deeper than it's vertical dimension. Remove and haul from site all rocks and stones over three-quarter (¾") inch in diameter. Plants should be thoroughly moist before removing containers.

G. Dig a wide, rough sided hole exactly the same depth as the height of the ball, especially at the surface of the ground. The sides of the hole should be rough and jagged, never slick or glazed.

H. Percolation Test: Fill the hole with water. If the water level does not percolate within 24 hours, the tree needs to move to another location or have drainage added. Install a PVC stand pipe per tree planting detail as approved by the Landscape Architect if the percolation test fails.

I. Backfill only with 5 parts existing soil or sandy loam and 1 part bed preparation. When the hole is dug in solid rock, topsoil from the same area should not be used. Carefully settle by watering to prevent air pockets. Remove the burlap from the top ⅓ of the ball, as well as all nylon, plastic string and wire. Container trees will usually be root bound, if so follow standard nursery practice of 'root scoring'.

J. Do not wrap trees.

K. Do not over prune.

L. Mulch the top of the ball. Do not plant grass all the way to the trunk of the tree. Leave the area above the top of the ball and mulch with at least two (2") inches of specified mulch.

M. All plant beds and trees to be mulched with a minimum settled thickness of two (2") inches over the entire bed or pit.

N. Obstruction below ground: In the event that rock, or underground construction work or obstructions are encountered in any plant pit excavation work to be done under this section, alternate locations may be selected by the Owner. Where locations cannot be changed, the obstructions shall be removed to a depth of not less than three (3') feet below grade and no less than six (6") inches below the bottom of ball when plant is properly set at the required grade. The work of this section shall include the removal from the site of such rock or underground obstructions encountered at the cost of the Landscape Contractor.

O. Trees and large shrubs shall be staked as site conditions require. Position stakes to secure trees against seasonal prevailing winds.

P. Pruning and Mulching: Pruning shall be directed by the Landscape Architect and shall be pruned in accordance with standard horticultural practice following Fine Pruning, Class I pruning standards provided by the National Arborist Association.

1. Dead wood, suckers, broken and badly bruised branches shall be removed. General tipping of the branches is not permitted. Do not cut terminal branches.

2. Pruning shall be done with clean, sharp tools.

3. Immediately after planting operations are completed, all tree pits shall be covered with a layer of organic material two (2") inches in depth. This limit of the organic material for trees shall be the diameter of the plant pit.

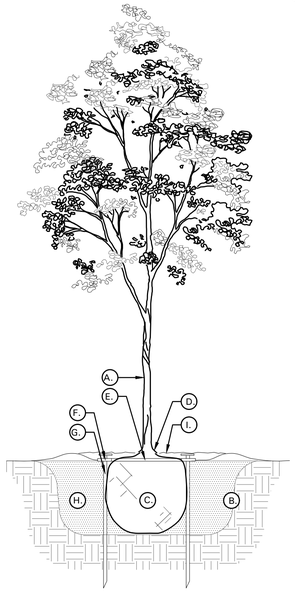
Q. Steel Curbing Installation:

1. Curbing shall be aligned as indicated on plans. Stake out limits of steel curbing and obtain Owners approval prior to installation.

2. All steel curbing shall be free of kinks and abrupt bends.

3. Top of curbing shall be ½" maximum height above final finished grade.

4. Stakes are to be installed on the planting bed side of the curbing, as opposed to the grass side.



5. Do not install steel edging along sidewalks or curbs.

6. Cut steel edging at 45 degree angle where edging meets sidewalks or curbs.

3.3 CLEANUP AND ACCEPTANCE

A. Cleanup: During the work, the premises shall be kept neat and orderly at all times. Storage areas for all materials shall be so organized so that they, too, are neat and orderly. All trash and debris shall be removed from the site as work progresses. Keep paved areas clean by sweeping or hosing them at end of each work day.

END OF SECTION

01 TREE PLANTING DETAIL
NOT TO SCALE

TREE PLANTING DETAIL LEGEND AND NOTES

A. TREE: TREES SHALL CONFORM WITH LATEST AMERICAN STANDARD FOR NURSERY STOCK. www.anla.org

B. TREE PIT: WIDTH TO BE AT LEAST TWO (2) TIMES THE DIAMETER OF THE ROOT BALL CENTER TREE IN HOLE & REST ROOT BALL ON UNDISTURBED NATIVE SOIL.

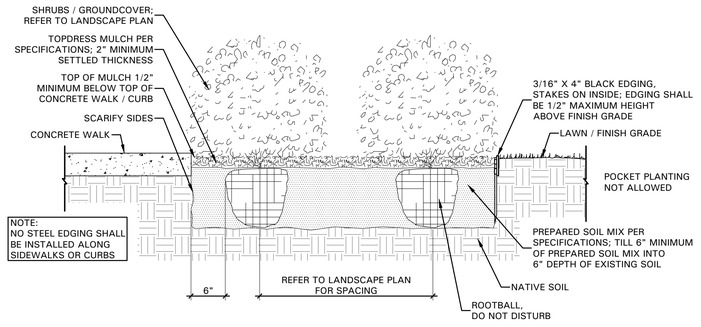
C. ROOT BALL: REMOVE TOP ⅓ BURLAP AND ANY OTHER FOREIGN OBJECT; CONTAINER GROWN STOCK TO BE INSPECTED FOR GIRDLING ROOTS.

D. ROOT FLARE: ENSURE THAT ROOT FLARE IS EXPOSED, FREE FROM MULCH, AND AT LEAST TWO INCHES ABOVE GRADE. TREES SHALL BE REJECTED WHEN GIRDLING ROOTS ARE PRESENT & ROOT FLARE IS NOT APPARENT.

E. ROOTBALL ANCHOR RING: REFER TO MANUFACTURER'S GUIDELINES FOR SIZING. PLACE ROOTBALL ANCHOR RING ON BASE OF ROOTBALL, TRUNK SHOULD BE IN THE CENTER OF THE RING.

F. 'U' BRACKET.

G. NAIL STAKE: REFER TO MANUFACTURER'S GUIDELINES FOR SIZING. INSTALL NAIL STAKES WITH HAMMER OR MALLET FIRMLY INTO UNDISTURBED GROUND. DRIVE NAIL STAKES FLUSH WITH "U" BRACKET ADJACENT TO ROOTBALL (DO NOT DISTURB ROOTBALL).



H. BACKFILL: USE EXISTING NATIVE SOIL (no amendments) WATER THOROUGHLY TO ELIMINATE AIR POCKETS.

I. MULCH: DOUBLE SHREDDED HARDWOOD MULCH 2 INCH SETTLED THICKNESS, WITH 2" HT. WATERING RING; ENSURE THAT ROOT FLARE IS EXPOSED. BELOW GROUND STAKE SHOULD NOT BE VISIBLE.

J. TREE STAKES:
TREE STAKE SOLUTIONS 'SAFETY STAKE' BELOW GROUND MODEL AVAILABLE FROM:
Tree Stake Solutions
ATTN: Jeff Tuley
(903) 676-6143
jeff@treestakesolutions.com

IRRIGATION NOTES

1. THE IRRIGATION CONTRACTOR SHALL COORDINATE INSTALLATION OF THE IRRIGATION SYSTEM WITH THE LANDSCAPE CONTRACTOR SO THAT ALL PLANT MATERIAL WILL BE WATERED IN ACCORDANCE WITH THE INTENT OF THE PLANS AND SPECIFICATIONS.
2. ALL SPRINKLER EQUIPMENT NUMBERS REFERENCE THE WEATHERMATIC EQUIPMENT CATALOG UNLESS OTHERWISE INDICATED.
3. TEN DAYS PRIOR TO START OF CONSTRUCTION, IRRIGATION CONTRACTOR SHALL VERIFY STATIC WATER PRESSURE. IF STATIC PRESSURE IS LESS THAN 65 P.S.I., NOTIFY THE LANDSCAPE ARCHITECT IMMEDIATELY. DO NOT WORK UNTIL NOTIFIED TO DO SO BY OWNER.
4. SLEEVES SHALL BE FURNISHED AND INSTALLED BY GENERAL CONTRACTOR. SLEEVE MATERIAL SHALL BE SCHEDULE 40, SIZE AS INDICATED ON PLAN. REFER TO SLEEVING NOTES.
5. ALL MAIN LINE AND LATERAL LINE PIPING IN PLANTING AND LAWN AREAS SHALL HAVE A MINIMUM OF 12 INCHES OF COVER. ALL PIPING UNDER PAVING SHALL HAVE A MINIMUM OF 18 INCHES OF COVER. CONTRACTOR TO VERIFY LOCAL FREEZE DEPTHS AND ADJUST DEPTH OF COVER ACCORDINGLY.
6. LAWN SPRAY HEADS SHALL BE WEATHERMATIC LX-4 INSTALLED PER DETAIL SHOWN.
7. ROTOR HEADS SHALL BE WEATHERMATIC TURBO INSTALLED PER DETAIL SHOWN. (WITH BUILT-IN CHECK VALVE)
8. NOZZLES SHALL BE WEATHERMATIC 5500 SERIES, UNLESS OTHERWISE NOTED. IRRIGATION CONTRACTOR SHALL SELECT THE PROPER ARC AND RADIUS FOR EACH NOZZLE TO ENSURE 100% AND PROPER COVERAGE OF ALL LAWN AREAS AND PLANT MATERIAL. NO WATER SHALL SPRAY ON BUILDING.
9. ALL NOZZLES IN PARKING LOT ISLANDS AND PLANTING BEDS SHALL BE LOW ANGLE NOZZLES TO MINIMIZE OVER SPRAY ON PAVEMENT SURFACES.
10. ELECTRIC CONTROL VALVES SHALL BE WEATHERMATIC 11000 SERIES INSTALLED PER DETAIL SHOWN. SIZE OF VALVES AS SHOWN ON PLAN. VALVES SHALL BE INSTALLED IN VALVE BOXES LARGE ENOUGH TO PERMIT MANUAL OPERATION, REMOVAL OF SOLENOID AND / OR VALVE COVER WITHOUT ANY EARTH EXCAVATION.
11. QUICK COUPLING VALVES SHALL BE WEATHERMATIC QV75 INSTALLED PER DETAIL SHOWN. SWING JOINTS SHALL BE CONSTRUCTED USING ¾" SCHEDULE 80 ELBOWS. CONTRACTOR SHALL SUPPLY OWNER WITH THREE (3) CH75 COUPLERS AND THREE (3) #10HSL SWIVEL HOSE ELLS AS PART OF THIS CONTRACT.
12. ALL 24 VOLT VALVE WIRING TO BE UF 14 GAUGE SINGLE CONDUCTOR. ALL WIRE SPLICES ARE TO BE PERMANENT AND WATERPROOF.
13. AUTOMATIC CONTROLLER SHALL BE INSTALLED AT LOCATION SHOWN. POWER (120V) SHALL BE LOCATED IN A JUNCTION BOX WITHIN FIVE (5') FEET OF CONTROLLER, LOCATION BY OTHER TRADES. RAIN AND FREEZE SENSORS SHALL BE INSTALLED WITH EACH CONTROLLER.
14. THE DESIGN PRESSURE IS 65 PSI.
15. ELECTRICAL SPLICES AT EACH VALVE AND CONTROLLER ONLY.
16. IRRIGATION IN TEXAS IS REGULATED BY:
    THE TEXAS COMMISSION ON ENVIRONMENTAL QUALITY (TCEQ)
    MC-178 / PO BOX 13087
    AUSTIN, TEXAS 78711-3087
17. TCEQ'S WEBSITE IS WWW.TCEQ.STATE.TX.US.

File No. 2015-147

SECTION 32 8423 - UNDERGROUND IRRIGATION SLEEVES AND UTILITY CONDUITS

PART 1 - GENERAL

1.1 DESCRIPTION

A. Provide underground irrigation sleeves as indicated on the drawings.

1.2 RELATED WORK SPECIFIED ELSEWHERE

A. Section 32 8424 - Irrigation System

1.3 REFERENCED STANDARDS

A. American Society for Testing and Materials:

1. ASTM - D2441 Poly (Vinyl Chloride) (PVC) Plastic Pipe (SD R-PR)
2. ASTM - D2466 Poly (Vinyl Chloride) (PVC) Plastic Pipe Fittings, Socket Type, Schedule 40.
3. ASTM - D2564 Solvent Cements for Poly Vinyl Chloride Plastic Pipe and Fittings.

PART 2 - MATERIALS

2.1 DEFINITIONS

A. Sleeve - A pipe within which another pipe is placed for carrying water or other utilities to be installed.

B. Wire Sleeves – A pipe used to carry low voltage irrigation wires for operation of the electric solenoid valves.

2.2 GENERAL

A. Polyvinyl Chloride Pipe (PVC) - Manufactured in accordance with standards noted herein:

1. Marking and Identification - Permanently marked with SDR number, ASTM standard number, and the NSF (National Sanitation Foundation) seal.
2. Solvent - As recommended by manufacturer to make solvent-welded joints. Thoroughly clean pipe and fittings before applying solvent.

PART 3 - EXECUTION

3.1 INSTALLATION

A. Coverage - Provide twenty-four inches (24") minimum cover over top of sleeve from finish grade.

B. Sleeve Extensions - Extend sleeves one foot (1') past edge of pavement or concrete walls. Install 90 degree elbow on each sleeve end and add additional length of same size pipe to extend above finish grade by twelve inches (12"). Cap pipe ends using duct tape.

3.2 BACKFILL

A. Compaction - Place backfill over sleeves in six (6") inch lifts. Tamp firmly into place taking care not to damage sleeve. Complete backfill and compaction to prevent any future settlement. Compact to 85% Standard Proctor.

B. Damage - Repair any damage resulting from improper compaction including pavement repair and replacement.

END OF SECTION

SECTION 32 8424 - IRRIGATION SYSTEM

PART 1 - GENERAL

1.1 SCOPE

A. Provide complete sprinkler installation as detailed and specified herein, includes furnishing all labor, material, tools, equipment, and related items for the complete and proper installation of the irrigation system as indicated by the Drawings. All costs associated with this installation, including fees for testing and inspections of the system components are the responsibility of the installer of this irrigation system.

B. Work includes but is not limited to:

1. Trenching and backfill.
2. Installation of automatic controlled system.
3. Upon completion of installation, supply as-built drawings showing details of construction including location of mainline piping, manual and automatic valves, electrical supply to valves, and specifically the exact location of automatic valves.

C. All sleeves as shown on plans shall be furnished by General Contractor. Meter and power source shall be provided by General Contractor.

1.2 RELATED WORK SPECIFIED ELSEWHERE

A. Refer to Irrigation Plans for controller, head, and valve locations.

B. Section 32 8423 - Underground Irrigation Sleeves and Utility Conduits

C. Section 32 9300 - Landscape

D. Refer to Landscape Plans, notes, details, bidding requirements, special provisions, and schedules for additional requirements.

1.3 APPLICABLE STANDARDS

A. America Standard for Testing and Materials (ASTM) – Latest edition.

1. D2241 Poly (Vinyl Chloride) (PVC) Plastic Pipe (SDR-PR)
2. D2464 Poly (Vinyl Chloride) (PVC) Plastic Pipe Fittings, Thread, Schedule 80
3. D2455 Poly (Vinyl Chloride) (PVC) Plastic Pipe Fittings, Schedule 40
4. D2467 Poly (Vinyl Chloride) (PVC) Plastic Pipe Fittings, Socket Type, Schedule 80
5. D2564 Solvent Cements for Poly (Vinyl Chloride) (PVC) Plastic Pipe and Fittings
6. D2287 Flexible Poly Vinyl Chloride (PVC) Plastic Pipe
7. F656 Poly Vinyl Chloride (PVC) Solvent Weld Primer
8. D2855 Making Solvent – Cemented Joints with Poly (Vinyl Chloride) (PVC) Pipe and Fittings

1.4 MAINTENANCE AND GUARANTEE

A. The Contractor shall guarantee materials and workmanship for one (1) calendar year after final acceptance by Owner.

B. Guarantee is limited to repair and replacement of defective materials or workmanship, including repair of backfill settlement.

C. Provide maintenance of system, including raising and lowering of heads to compensate for lawn growth, cleaning and adjustment of heads, and raising and lowering of shrub heads to compensate for shrub growth for one (1) year after completion of installation.

1.5 SUBMITTALS

A. Procedure: Comply with Division I requirements.

B. Product Data: The Contractor shall submit five (5) copies of equipment manufacturer's 'cut sheets' and shop drawings for approval by Owner Authorized Representative prior to installation, including, but not limited to the following: sprinkler head, pipe, controller, valves, backflow prevention devices, valve boxes, wire, conduit, fittings, and all other types of fixtures proposed to be installed on the job. The submittal shall include the manufacturer's name, model number, equipment capacity, and manufacturer's installation recommendations, if applicable, for each proposed item.

C. No work covered under this section may begin until the Contractor has submitted the required information. No partial submittal shall be accepted and submittals shall be neatly bound into a brochure and logically organized. After the submittal has been approved, substitutions will not be allowed, except by written consent by the Owner Authorized Representative.

D. Shop drawings include dimensions, elevations, construction details, arrangements, and capacity equipment, as well as manufacturer's installation recommendations.

E. Operating and Maintenance Manuals:

1. Provide three (3) individually bound manuals detailing operating and maintenance requirements for the irrigation system.
2. Manuals shall be delivered to the Owner Authorized Representative no later than ten (10) days prior to completion of the irrigation system.
3. Provide descriptions of all installed materials and systems in sufficient detail to permit maintenance personnel to understand, operate, and maintain the equipment.
4. Provide the following in each manual:
   a. Index sheet with Contractor's name, address, telephone number, and contact name.
   b. Duration of guarantee period. Include warranties and guarantees extended to the Owner by the manufacturer of all equipment.
   c. Equipment list providing the following for each item:
      1) Manufacturer's name
      2) Make and model number
      3) Name and address of local part's representative
      4) Spare parts list in detail
      5) Details operating and maintenance instructions for major equipment.

F. Project Record Documents:

1. Comply with Division I requirements.
2. Locate by written dimension, routing of mainline piping, remote control valves, and quick coupling valves. Locate mainlines by single dimensions from permanent site features provided they run parallel to these elements. Locate valves, intermediate electrical connections, and quick couplers by two dimensions from a permanent site feature at approximately 70 degrees to each other.
3. When dimensioning is complete, transpose work to bond paper.
4. Submit three (3) copies of the completed as-built drawings, along with a CD with PDF files of the same, to the Owner Authorized Representative prior to final acceptance of the work. Mark drawings "Record Prints Showing Significant Changes". Date and sign drawings.

G. Quick Coupler Keys: Provide three (3) coupler keys with boiler drains attached using brass reducer.

H. Controller Keys: Provide three (3) sets of keys to controller enclosure(s).

I. Use of materials differing in quality, size, or performance from those specified shall only be allowed upon written approval of the Landscape Architect. The decision shall be based on comparative ability of material or article to perform fully all purposes of mechanics and general design considered to be possessed by item specified.

J. Bidders desiring to make a substitution for specified sprinklers shall submit manufacturer's catalog sheet showing full specification of each type sprinkler proposed as a substitute, including discharge in GPM maximum allowable operating pressure at sprinkler.

K. Approval of substitute sprinkler shall not relieve Irrigation Contractor of his responsibility to demonstrate that final installed sprinkler system shall operate according to intent of originally designed and specified system.

L. It is the responsibility of the Irrigation Contractor to demonstrate that final installed sprinkler system shall operate according to intent of originally designed and specified system. If Irrigation Contractor notes any problems in head spacing or potential coverage, it is his responsibility to notify the Landscape Architect in writing, before proceeding with work. Irrigation Contractor guarantees 100% coverage of all areas to be irrigated.

1.6 TESTING

A. Perform testing required with other trades, including earthwork, paving, plumbing, electrical, etc., to avoid unnecessary cutting, patching, and boring.

B. Water Pressure: This irrigation system has been designed to operate with a minimum static water pressure indicated on Drawings. The Contractor shall take a pressure reading at each water meter prior to beginning construction. Confirm findings to Owner Authorized Representative in writing. If static pressure varies from pressure stated on drawings, do not start work until notified to do so by Owner Authorized Representative.

1.7 COORDINATION

A. Coordinate installation with other trades, including earthwork, paving, and plumbing to avoid unnecessary cutting, patching and boring.

B. Coordinate to ensure that electrical power source is in place.

C. Coordinate system installation with work specified in other sections and coordinate with Landscape Contractor to ensure plant material is uniformly watered in accordance with intent shown on drawings.

PART 2 - PRODUCTS

2.1 GENERAL

A. Mainline: Mainlines are the piping from water source to operating valves. This portion of piping is subject to surges, being a closed portion of sprinkler system. Hydrant lines are considered a part of sprinkler main.

B. Lateral Piping: Lateral piping is that portion of piping from operating valve to sprinkler heads. This portion of piping is not subject to surges, being an "open end" portion of sprinkler system.

2.2 POLY VINYL CHLORIDE PIPE (PVC PIPE)

A. PVC pipe shall be manufactured in accordance with commercial standards noted herein.

B. Marking and Identification: PVC pipe shall be continuously and permanently marked with the following information: manufacturer's name, pipe size, type of pipe, and material, SDR number, product standard number, and the NSF (National Sanitation Foundation) seal.

C. PVC Pipe Fittings: Shall be of the same material as the PVC pipe specified and shall be compatible with PVC pipe furnished.

2.3 COPPER TUBING

A. Hard, straight lengths of domestic manufacture only. Do not use copper tube of foreign extrusion or any so-called irrigation tubing (thin wall).

2.4 COPPER TUBE FITTINGS

A. Cast brass or wrought copper, sweat - solder type.

2.5 WIRE

A. Type UF with 4/64" thick waterproof insulation which is Underwriter's Laboratory approved for direct underground burial when used in a National Electric Code Class II Circuit (30 volts AC or less).

B. Wire Connectors: Waterproof splice kit connectors. Type DBY by 3M.

2.6 SCHEDULE 80 PVC NIPPLES

A. Composed of Standard Schedule 40 PVC Fittings and PVC meeting noted standards. No clamps or wires may be used. Nipples for heads and shrub risers to be nominal one-half inch (½") diameter by eight (8") inches long, where applicable.

B. Polyethylene nipples six (6") inches long shall be used on all pop-up spray heads.

2.7 MATERIALS - SEE IRRIGATION PLAN

A. Sprinkler heads in lawn area as specified on plan.

B. PVC Pipe: Class 200, SDR 21

C. Copper Tubing (City Connection): Type "M"

D. 24V Wire: Size 14, Type UF

E. Electric valves: Shall be all plastic construction as indicated on plans.

F. Backflow Prevention Device: Refer to drawing requirements and flow valve. Coordinate exact location with General Contractor.

PART 3 - EXECUTION

3.1 INSTALLATION - GENERAL

A. Staking: Before installation is started, place a stake where each sprinkler is to be located, in accordance with drawing. Staking shall be approved by Owner Authorized Representative before proceeding with work.

B. Excavations: Excavations are unclassified and include earth, loose rock, rock or any combination thereof, in wet or dry state. Backfill trenches with material removed, provided that the earth is suitable for compaction and contains no lumps, clods rock, debris, etc. Special backfill specifications, if furnished take preference over this general specification.

C. Backfill: Flood or hand-tamp to prevent after settling. Hand rake trenches and adjoining area to leave grade in as good or better condition than before installation.

D. Piping Layout: Piping layout is diagrammatic. Route piping around trees and shrubs in such a manner as to avoid damage to plantings. Do not dig within ball of newly planted trees or shrubs. In areas where existing trees are present, trenches shall be adjusted on-site to provide a minimum clearance of four (4) feet between the drip line of any tree or trench. The Contractor shall notify the Owner Authorized Representative in writing of a planned change in trench routing from that shown on the drawings.

3.2 PIPE INSTALLATION

A. Sprinkler Mains: Install a four (4") inch wide minimum trench with a minimum of eighteen (18") inches of cover.

B. Lateral Piping: Install a four (4") inch wide minimum trench deep enough to allow for installation of sprinkler heads and valves, but in no case, with less than twelve (12") of cover.

C. Trenching: Remove lumber, rubbish, and large rocks from trenches. Provide firm, uniform bearing for entire length of each pipe line to prevent uneven settlement. Wedging or blocking of pipe shall not be permitted. Remove foreign matter or dirt from inside of pipe before welding, and keep piping clean by approved means during and after laying of pipe.

3.3 PVC PIPE AND FITTING ASSEMBLY

A. Solvent: Use only solvent recommended by manufacturer to make solvent-welded joints. Thoroughly clean pipe and fittings of dirt, dust and moisture before applying solvent.

B. PVC to metal connection: Work metal connections first. Use a non-hardening pipe dope such as Permatex No. 2 on threaded PVC adapters into which pipe may be welded.

3.4 COPPER TUBING AND FITTING ASSEMBLY

A. Clean pipe and fitting thoroughly and lightly sand pipe connections to remove residue from pipe. Attach fittings to tubing in an approved manner using 50-50 soft solid core solder.

3.5 POP-UP SPRAY HEADS

A. Supply pop-up spray heads in accordance with materials list and plan. Attach sprinkler to lateral piping with a semi-flexible polyethylene nipple not less than three (3") inches or more than six (6") inches long.

3.6 VALVES

A. Supply valves in accordance with materials list and sized according to drawings. Install valves in a level position in accordance with manufacturer's specifications. See plan for typical installation of electric valve and valve box.

3.7 WIRING

A. Supply wire from the automatic sprinkler controls to the valves. No conduit will be required for UF wire unless otherwise noted on the plan. Wire shall be tucked under the piping.

B. A separate wire is required from the control to each electric valve. A common neutral wire is also required from each control to each of the valves served by each particular control.

C. Bundle multiple wires and tape them together at ten (10') foot intervals. Install ten (10") inch expansion coils at not more than one hundred (100') foot intervals. Make splices waterproof.

3.8 AUTOMATIC SPRINKLER CONTROLS

A. Supply in accordance with Irrigation Plan. Install according to manufacturer's recommendations.

3.9 TESTING

A. Sprinkler Mains: Test sprinkler main only for a period of twelve (12) to fourteen (14) hours under normal pressure. If leaks occur, replace joint or joints and repeat test.

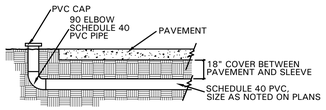
B. Complete tests prior to backfilling. Sufficient backfill material may be placed in trenches between fittings to ensure stability of line under pressure. In each case, leave fittings and couplings open to visual inspection for full period of test.

3.10 FINAL ADJUSTMENT

A. After installation has been completed, make final adjustment of sprinkler system in preparation for Owner Authorized Representative's final inspection.

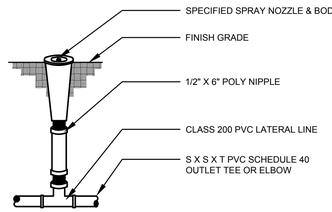
B. Completely flush system to remove debris from lines by removing nozzle from heads on end of lines and turning on system.

C. Check sprinklers for proper operation and proper alignment for direction of throw.



D. Check each section of spray heads for operating pressure and balance to other sections by use of flow adjustment on top of each valve.

E. Check nozzling for proper coverage. Prevailing wind conditions may indicate that arch of angle of spray should be other than shown on drawings. In this case, change nozzles to provide correct coverage and furnish data to Owner Authorized Representative with each change.



3.11 SYSTEM DEMONSTRATION

A. Instruct Owner's personnel in operation and maintenance of system including adjusting of sprinkler heads. Use operation and maintenance manual for basis of demonstration.

CITY OF ROCKWALL

ORDINANCE NO. 16-21

SPECIFIC USE PERMIT NO. S-148

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [ORDINANCE NO. 04-38] OF THE CITY OF ROCKWALL, TEXAS, AS HERETOFORE AMENDED, SO AS TO FURTHER AMEND THE ZONING MAP TO ADOPT A SPECIFIC USE PERMIT (SUP) FOR OUTSIDE STORAGE ON A 3.2039-ACRE TRACT OF LAND ZONED LIGHT INDUSTRIAL (LI) DISTRICT, LOCATED WITHIN THE IH-30 (IH-30 OV) OVERLAY DISTRICT, ADDRESSED AS 1780 E. IH-30 AND DESCRIBED AS TRACT 7-01 OF J. LOCKHART SURVEY, ABSTRACT NO. 134, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Matt Moore of Claymoore Engineering, Inc., representing *Service King Collision Repair*, on behalf of the owner, Mike James of UV Real Estate, LP, for a Specific Use Permit (SUP) allowing for *Outside Storage* in conjunction with a proposed *Auto Repair Garage* (*Major*) [*i.e. Auto Body Shop*] on a 3.2039-acre tract of land zoned Light Industrial (LI) District, located within the IH-30 (IH-30 OV) Overlay District, addressed as 1780 E. IH-30 and identified as Tract 7-01 of the J. Lockhart Survey, Abstract No. 134, City of Rockwall, Rockwall County, Texas and more specifically described in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That the Unified Development Code of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing for *Outside Storage* within a Light Industrial (LI) District located within the IH-30 (IH-30 OV) Overlay District on the *Subject Property*; and

SECTION 2. That the Subject Property shall be used only in the manner and for the purposes described in the Specific Use Permit (SUP) and specifically set forth in *Section 2.1.10, Wholesale, Distribution and Storage, of Article IV, Permissible Uses; Section 5.3, Light Industrial*

(LI) District, and Section 6.6, IH-30 (IH-30 OV) Overlay District, of *Article V, District Development Standards,* of the City of Rockwall Unified Development Code [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting of this zoning change, and as may be amended in the future, and shall be subject to the additional following conditions and compliance standards:

2.1 OPERATIONAL CONDITIONS

The following conditions pertain to the operation of a *Auto Repair Garage (Major)* with outside storage of automobiles on the subject property at 1780 E. IH-30 and conformance to these stipulations are required for continued operations:

1) All development must generally conform to the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance, which shall be incorporated herein by reference.

2) All outside storage and outside overnight storage of vehicles (*excluding equipment, parts and inventory*) shall be screened from adjacent properties and public rights-of-way by a minimum six (6) foot masonry fence. The outside storage of equipment, parts and inventory shall be prohibited.

3) Garage doors or overhead doors shall not face onto a public right-of-way.

4) Vehicles shall not be stored on site for longer than 90 days.

5) All work shall be performed inside an enclosed building.

6) The operation of this site shall conform to all federal, state and local standards and comply with the requirements of Section 2.2, *Compliance Standards*, of this ordinance.

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code, the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP).

SECTION 3. That the official zoning map of the City of Rockwall be corrected to reflect the changes described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section of provision of this ordinance or the application of that section or provision to any person, firm, cooperation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have to adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 7TH DAY OF MARCH, 2016.

Dennis Lewis, Mayor Pro Tem

ATTEST:

Kristy Cole, City Secretary

APPROVED AS TO FORM:

Frank J. Garza, City Attorney

Property Survey w/ Legal Description

SURVEY PLAT

RHODES Surveying ©
WWW.RHODESSURVEYING.COM

BARRY S. RHODES Registered Professional Land Surveyor (972) 475-8940
This is to certify that I have, this date, made a careful and accurate survey on the ground of property located at No. 1780 Interstate Highway 30, in the city of ROCKWALL, ROCKWALL COUNTY Texas

STATE OF TEXAS:
COUNTY OF ROCKWALL:

BEING a tract of land situated in the John Lockhart Survey, Abstract No. 134, Rockwall County, Texas being conveyed to U.V. Real Estate LP as recorded in Volume 6771, Page 1, Deed Records, Rockwall County, Texas and being more particularly described by metes and bounds as follows:

BEGINNING at a ½ inch yellow capped iron rod set for corner being in the South line of Interstate Highway 30, being the Northeast corner of a tract of land conveyed to Ivor and Kathryn Mckeown as recorded Volume 6749, Page 228,Deed Records, Rockwall County, Texas and being the Northwest corner of said U.V. Real Estate tract;

THENCE North 73 degrees 51 minutes 00 seconds East , a distance of 201.50 feet to a ½ inch yellow capped iron rod set for corner being the Northwest corner of a tract of land conveyed to Salehoun Family Limited Partnership as recorded Volume 4605, Page 60, Deed Records, Rockwall County, Texas and being the Northeast corner of said U.V. Real Estate tract;

THENCE South 01 degrees 49 minutes 34 seconds East, a distance of 859.22 feet to a ½ inch iron rod found for corner being in the North line of a tract of land conveyed to Hitt Family Limited Partnership as recorded in Volume 1875, Page 238, Deed Records, Rockwall County, Texas and being the Southeast corner of said U.V. Real Estate tract;

THENCE South 68 degrees 13 minutes 26 seconds West, a distance of 139.25 feet to a ½ inch yellow capped iron rod set for corner being in the East line of said Mckeown tract;

THENCE North 06 degrees 36 minutes 15 seconds West , a distance of 541.16 feet to a ½ inch iron rod set for corner;

THENCE North 05 degrees 17 minutes 51 seconds West, a distance of 318.18 feet to the PLACE OF BEGINNING and containing 3.29 acres of land.

THIS CERTIFICATION DOES NOT TAKE INTO CONSIDERATION ADDITIONAL FACTS THAT AN ACCURATE TITLE SEARCH AND OR EXAMINATION MIGHT DISCLOSE.

The plat hereon is true, correct, and accurate representation of the property as determined by survey, the lines and dimensions of said property being as indicated by the plat: the size, location and type of building and improvements are as shown, all improvements being within the boundaries of the property, set back from property lines the distance indicated.

THERE ARE NO ENCROACHMENTS, CONFLICTS, OR PROTRUSIONS,EXCEPT AS SHOWN.

Discuss and consider a request by Bryan M. Burger, PE of Burger Engineering, LLC on behalf of the owner Don Silverman of Rockwall 205-552, LLC for the approval of site plan for a grocery store (i.e. Aldi Food Store) on a 1.972-acre portion of a larger 9.183-acre tract of land identified as Tract 4-1 of the T. R. Bailey Survey, Abstract No. 30, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the northwest corner of the intersection of SH-205 [N. Goliad Street] and FM-552, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, May 3, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. Label site plan documents with "Case No. SP2016-007" at the lower right corner of each plan.
4. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department.

Variance/Waivers to the Unified Development Code (per submittal):

1. Waiver to Article IV, Sec. 2.1.10, ...Outside Storage: To allow for the outside cart storage area with screening walls as depicted on the Site Plan.

** Variances to the N SH-205 OV requires a 3/4 majority vote of council for approval **

Please addressthe followingPlanning Comments for each plan submitted:

Site Plan:

1. Waiver request to outside cart storage area as listed above.
2. Remove the label (By Plat) where indicated.
3. Relabel 30-ft Firelanes as "30-ft Firelane, Public Access & Utility Easement"

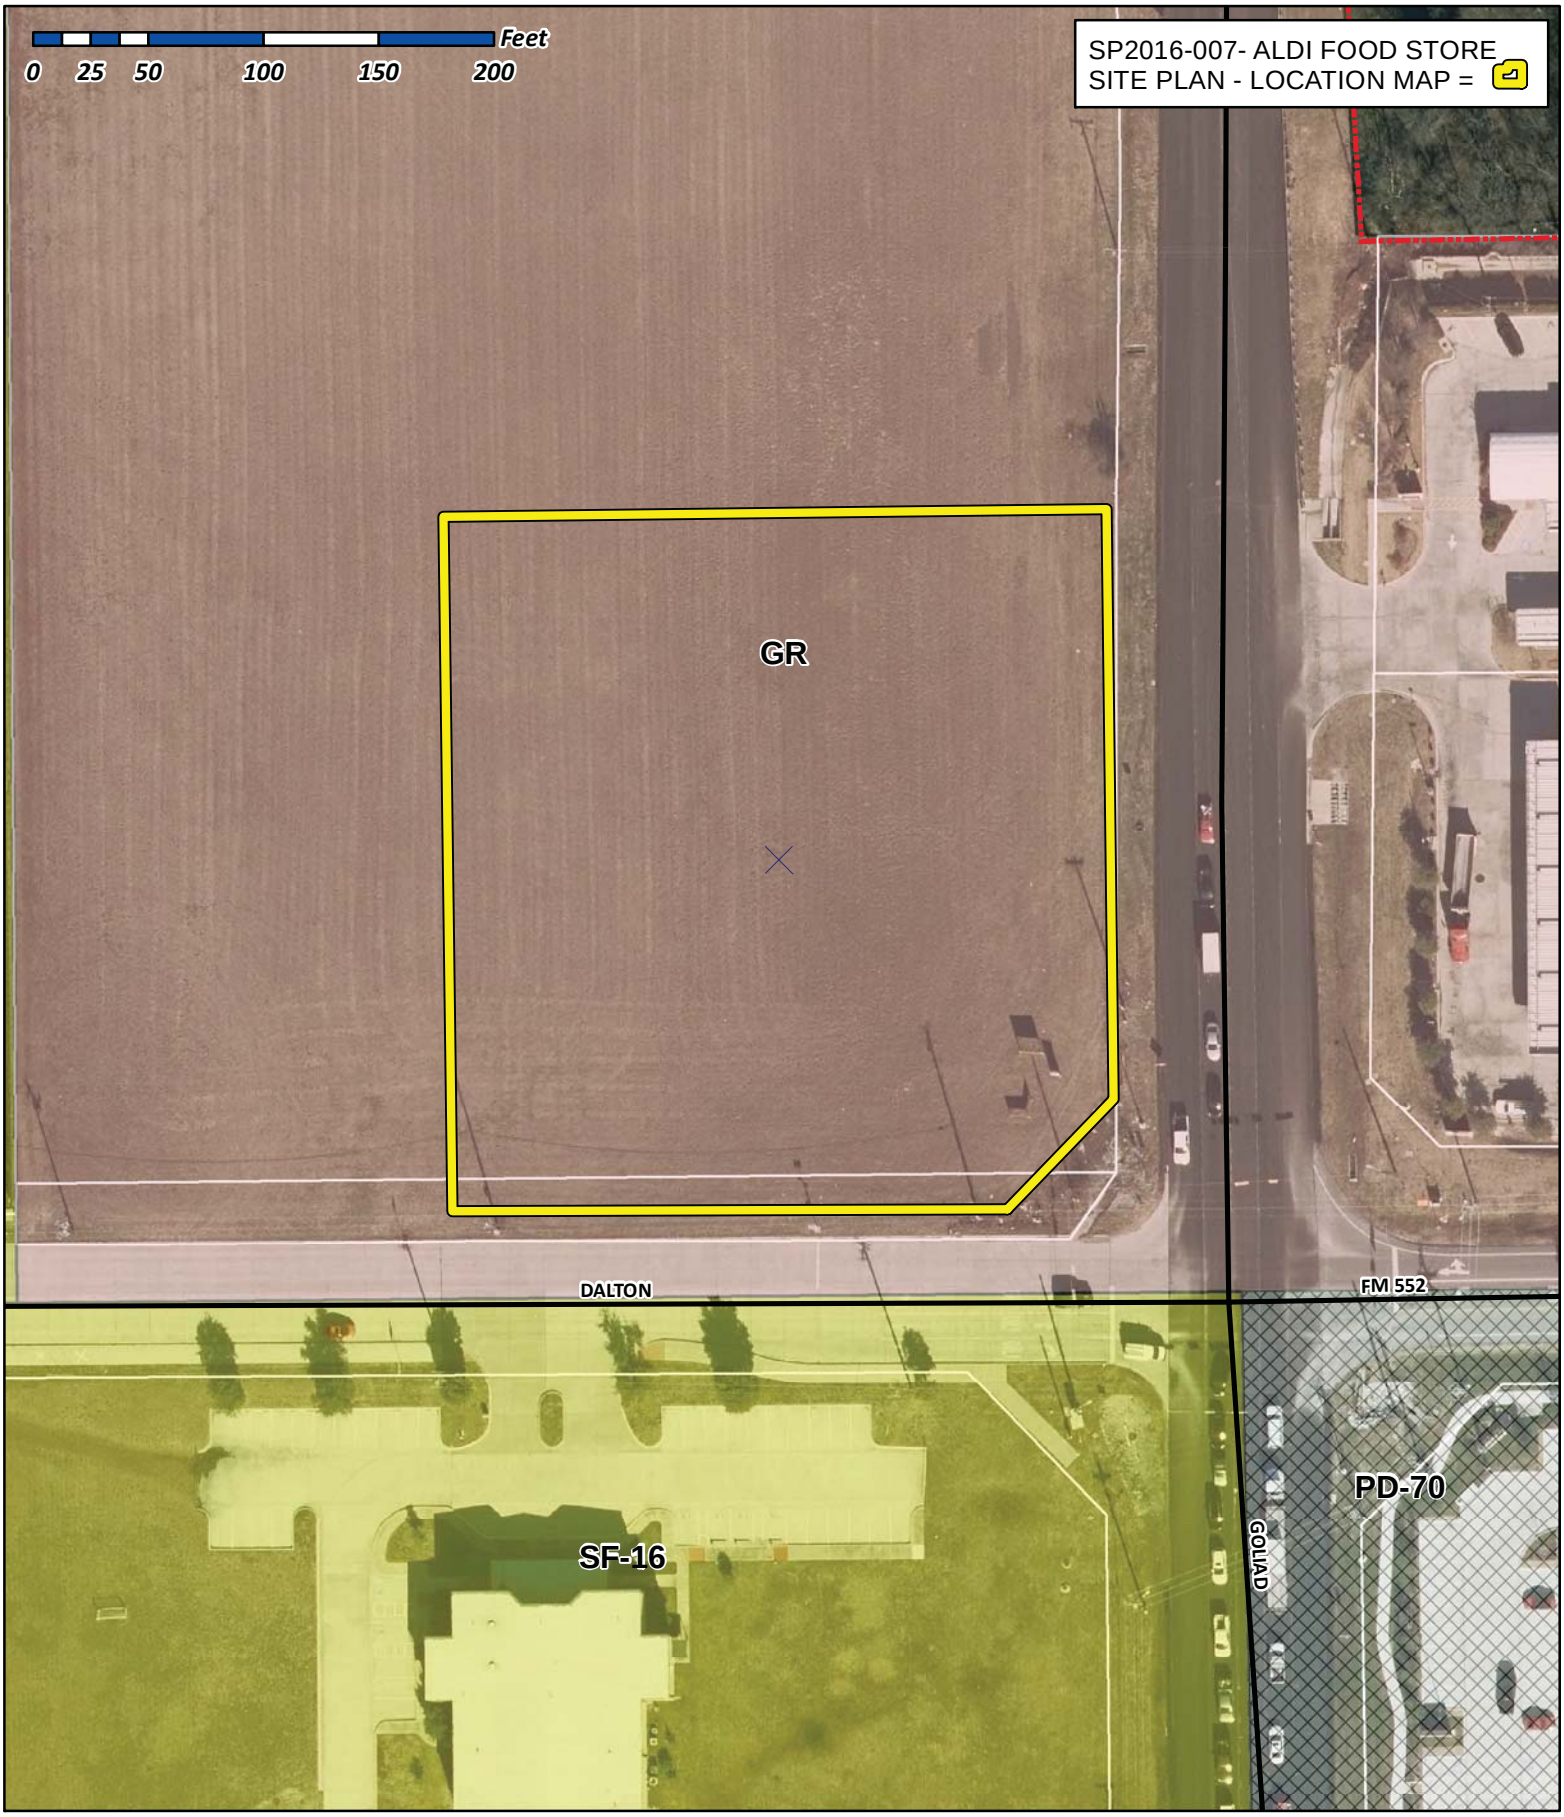
Landscape Plan:
1. Relocate '20-ft Landscape Buffer' so that it is readable.

Photometric Plan:
1. The lighting pole standards are not to exceed a maximum overall height of 20-ft (includes pole, base, fixtures, etc.) per the UDC standards. Provide detail.
2. Provide cut sheets for all exterior lighting fixtures (e.g. pole lights, wall packs, etc.)
3. General Comment: All lighting sources are to be directed down and sheilded with a full cut-off or partial cut-off source and a maximum 1 inch reveal in order to control glare.

Building Elevations:
1. The building elevations are required to be reviewed by the Architectural Review Board prior to approval.

The following are scheduled meetingdatesthat you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case,

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

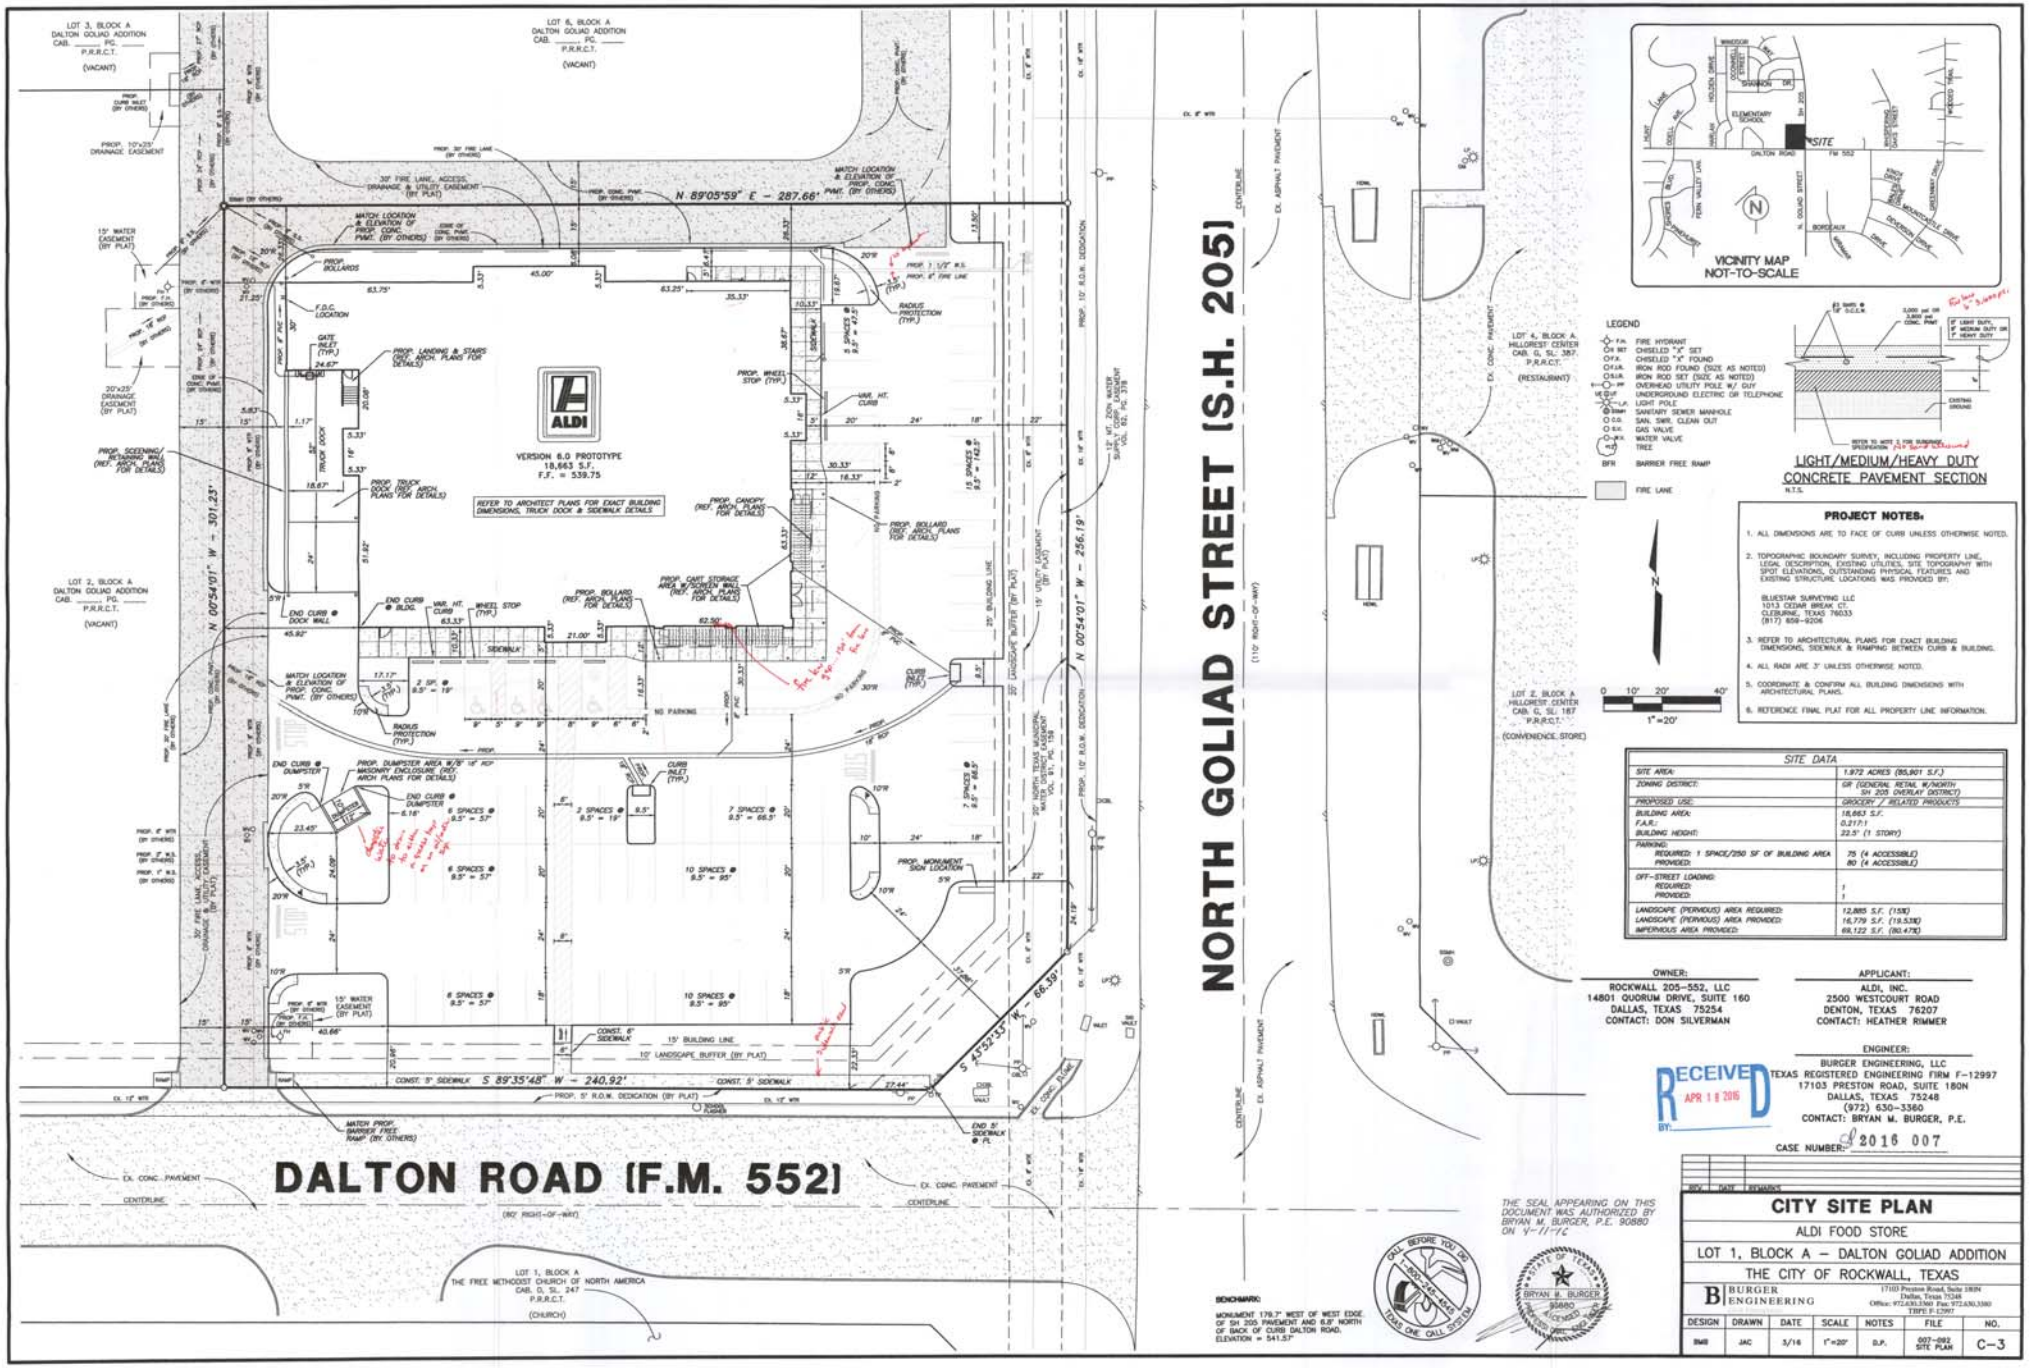


please feel free to contact David Gonzales with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Architecural Review Board - Discussion: April 26, 2016 (5:00 p.m.)

Planning - Discussion: April 26, 2016 (6:00 p.m.)
Planning - Action: May 10, 2016 (6:00 p.m.)



City Council - Action: May 16, 2016 (6:00 p.m.) [FOR VARIANCE & WAIVER REQUESTS ONLY]

LANDSCAPE NOTES

1. *Contractor shall verify all existing and proposed site elements and notify Architect of any discrepancies. Survey data of existing conditions was supplied by others.*
2. *Contractor shall locate all existing underground utilities and notify Architect of any conflicts. Contractor shall exercise caution when working in the vicinity of underground utilities.*
3. *Contractor is responsible for obtaining all required landscape and irrigation permits.*
4. *Contractor to provide a minimum 2% slope away from all structures.*
5. *All planting beds and lawn areas to be separated by steel edging. No steel to be installed adjacent to sidewalks or curbs.*
6. *All landscape areas to be 100% irrigated with an underground automatic irrigation system and shall include rain and freeze sensors.*
7. *All lawn areas to be Solid Sod Bermudagrass, unless otherwise noted on the drawings.*

PLANT LIST

TREES

QTY.	TYPE	COMMON NAME	BOTANICAL NAME	SIZE	REMARKS
9	BC	Bald Cypress	*Taxodium distichum*	4" cal.	container grown, 15' ht., 5' spread min.
8	CE	Cedar Elm	*Ulmus crassifolia*	4" cal.	container grown, 15' ht., 5' spread min.
8	CP	Chinese Pistache	*Pistachia chinensis*	4" cal.	container grown, 15' ht., 5' spread min.
5	TY	Tree Yaupon Holly	*Ilex vomitoria*	6' ht.	B&B, 3 cane, tree form, no cross caring
12	CM1	Crepe Myrtle 'Catawba'	*Lagerstroemia indica 'Catawba'*	6' ht.	container grown, 3-5 cane, no cross caring
5	CM2	Crepe Myrtle 'Hopi'	*Lagerstroemia indica 'Hopi'*	5' ht.	container grown, 3-5 cane, no cross caring

SHRUBS

QTY.	TYPE	COMMON NAME	BOTANICAL NAME	SIZE	REMARKS
169	NPH	Needlepoint Holly	*Ilex cornuta 'Needlepoint'*	5 gal.	container, full plant, 36" o.c.
12	NRS	Nellie R. Stevens Holly	*Ilex sp. ' Nellie R. Stevens'*	5' ht.	container, full to base, 6' o.c.
20	DWM	Dwarf Wax Myrtle 'Dons Dwarf'	*Myrica pusilla*	5 gal.	container, full plant, 36" o.c.

GROUNDCOVERS

QTY.	TYPE	COMMON NAME	BOTANICAL NAME	SIZE	REMARKS
750	WC	Wintercreeper	*Euonymus fortunei coloratus*	4" pots	container, (3) 12" runners min, 12" o.c.
		Common Bermudagrass	*Cynodon dactylon*	roll sod	solid sod, refer to notes

NOTE: Plant list is an aid to bidders only. Contractor shall verify all quantities on plan. All heights and spreads are minimums. All plant material shall meet or exceed remarks as indicated. All trees to have straight trunks and be matching within varieties.

MAINTENANCE NOTES

1. *The Owner, tenant and their agent, if any, shall be jointly and severally responsible for the maintenance of all landscape.*
2. *All landscape shall be maintained in a neat and orderly manner at all times. This shall include mowing, edging, pruning, fertilizing, watering, weeding and other such activities common to landscape maintenance.*
3. *All landscape areas shall be kept free of trash, litter, weeds and other such material or plants not part of this plan.*
4. *All plant material shall be maintained in a healthy and growing condition as is appropriate for the season of the year.*
5. *All plant material which dies shall be replaced with plant material of equal or better value.*
6. *Contractor shall provide separate bid proposal for one year's maintenance to begin after final acceptance.*

GENERAL LAWN NOTES

1. *Fine grade areas to achieve final contours indicated on civil plans.*
2. *Adjust contours to achieve positive drainage away from buildings. Provide uniform rounding at top and bottom of slopes and other breaks in grade. Correct irregularities and areas where water may stand.*
3. *All lawn areas to receive solid sod shall be left in a maximum of 1" below final finish grade. Contractor to coordinate operations with on-site Construction Manager.*
4. *Imported topsoil shall be natural, friable soil from the region, known as bottom and soil, free from lumps, clay, toxic substances, roots, debris, vegetation, stones, containing no salt and black to brown in color.*
5. *All lawn areas to be fine graded, irrigation trenches completely settled, and finish grade approved by the Owner's Construction Manager or Architect prior to installation.*
6. *All rocks 3/4" diameter and larger, dirt clods, sticks, concrete spoils, etc. shall be removed prior to placing topsoil and any lawn installation*
7. *Contractor shall provide (1") one inch of imported topsoil on all areas to receive lawn.*

LANDSCAPE TABULATIONS

SITE REQUIREMENTS (site area 85,901 s.f.)
Requirements: 15% site area to be landscaped

Required	Provided
12,885 s.f. (15%)	16,889 s.f. (19.66 %)

FRONT YARD REQUIREMENTS
Requirements: 50% of required landscape must be located in front yard

Required	Provided
6,442 s.f. (50%)	6,442 s.f.

STREET REQUIREMENTS: SH 205 OVERLAY
Requirements: (3) canopy tree 4" cal. and (4) accent trees, 4' ht. per 100 l.f. of frontage

DALTON ROAD (307.31 l.f.)

Required	Provided
(9) trees, 4" cal.	(9) trees, 4" cal.
(12) trees, 4' ht.	(12) trees, 6' ht.

SECTION 02900 - LANDSCAPE

PART 1 - GENERAL

1.1 REFERENCED DOCUMENTS

Refer to bidding requirements, special provisions, and schedules for additional requirements.

1.2 DESCRIPTION OF WORK

Work included: Furnish all supervision, labor, materials, services, equipment and appliances required to complete the work covered in conjunction with the landscaping covered in these specifications and landscaping plans, including:

1. Planting (trees, shrubs, and grass)
2. Bed preparation and fertilization
3. Notification of sources
4. Water and Maintenance until final acceptance
5. Guarantee

1.3 REFERENCE STANDARDS

A. American Standard for Nursery Stock published by American Association of Nurserymen: 27 October 1980, Edition; by American National Standards Institute, Inc. (260.1) – plant material.

B. American Joint Committee on Horticultural Nomenclature: 1942 Edition of Standardized Plant Names.

C. Texas Association of Nurserymen, Grades and Standards.

D. Hortis Third, 1976 - Cornell University

1.4 NOTIFICATION OF SOURCES AND SUBMITTALS

A. The Contractor shall, within ten (10) days following acceptance of bid, notify the Architect/Owner of the sources of plant materials and bed preparation required for the project.

B. Samples: Provide representative quantities of sandy loam soil, mulch, bed mix material, gravel, and crushed stone. Samples shall be approved by Architect before use on project.

C. Product Data: Submit complete product data and specifications on all other specified materials.

D. Submit three representative samples of each variety of ornamental trees, shrubs, and groundcover plants for Architect's approval. When approved, tag, install, and maintain as representative samples for final installed plant materials.

E. File Certificates of Inspection of plant material by state, county, and federal authorities with Architect, if required.

F. Soil Analysis: Provide sandy loam soil analysis if requested by the Architect.

JOB CONDITIONS

A. General Contractor to complete the following punch list: Prior to Landscape Contractor initiating any portion of landscape installation, General Contractor shall leave planting bed areas three (3") inches below finish grade of sidewalks, drives and curbs as shown on the drawings. All lawn areas to receive solid sod shall be left one (1") inch below the finish grade of sidewalks, drives, and curbs. All construction debris shall be removed prior to Landscape Contractor beginning any work.

B. General Contractor shall provide topsoil as described in Section 02200 - Earthwork.

C. Storage of materials and equipment at the job site will be at the risk of the Landscape Contractor. The Owner cannot be held responsible for theft or damage.

1.6 MAINTENANCE AND GUARANTEE

A. Maintenance:

1. The Landscape Contractor will be held responsible for the maintenance of all work from the time of planting until final acceptance by the Owner. No trees, shrubs, groundcover or grass will be accepted unless they show a healthy growth and satisfactory foliage conditions.
2. Maintenance shall include watering of trees and plants, cultivation, weeding spraying, edging, pruning of trees, mowing of grass, cleaning up and all other work necessary of maintenance.
3. A written notice requesting final inspection and acceptance should be submitted to the Owner at least seven (7) days prior to completion. An on-site inspection by Owner and Landscape Contractor will be completed prior to written acceptance.
4. After final acceptance of installation, the Landscape Contractor will not be required to do any of the above listed work.

B. Guarantee:

1. Trees shall be guaranteed for a twelve (12) month period after acceptance. Shrubs and groundcover shall be guaranteed for twelve (12) months. The Contractor shall replace all dead materials as soon as weather permits and upon notification of the Owner. Plants, including trees, which have partially died so that shape, size, or symmetry has been damaged, shall be considered subject to replacement. In such cases, the opinion of the Owner shall be final.
   a. Plants used for replacement shall be of the same size and kind as those originally planted and shall be planted as originally specified. All work, including materials, labor and equipment used in replacements, shall carry a twelve (12) month guarantee. Any damage, including ruts in lawn or bed areas, incurred as a result of making replacements shall be immediately repaired.
   b. At the direction of the Owner, plants may be replaced at the start of the next year's planting season. In such cases, dead plants shall be removed from the premises immediately.
   c. When plant replacements are made, plants, soil mix, fertilizer and mulch are to be utilized as originally specified and reinspected for full compliance with Contract requirements. All replacements are to be included under "Work" of this section.
2. The Owner agrees that for the guarantee to be effective, he will water plants at least twice a week during dry periods and cultivate beds once a month after final acceptance.
3. The above guarantee shall not apply where plants die after acceptance because of injury from storms, hail, freeze, insects, diseases, injury by humans, machines or theft.
4. Acceptance for all landscape work shall be given after final inspection by the Owner provided the job is in a completed, undamaged condition, and there is a stand of grass in all lawn areas. At this time, the Owner will assume maintenance on the accepted work.

C. Repairs: Any necessary repairs under the Guarantee must be made within ten (10) days after receiving notice, weather permitting, and in the event the Landscape Contractor does not make repairs accordingly, the Owner, without further notice to Contractor, may provide materials and men to make such repairs at the expense of the Landscape Contractor.

1.7 QUALITY ASSURANCE

A. General: Comply with applicable Federal, State, County and Local regulations governing landscape materials and work

B. Personnel: Employ only experienced personnel who are familiar with the required work. Provide full time supervision by a qualified foreman acceptable to Landscape Architect.

C. Selection of Plant Material:

1. Make contact with suppliers immediately upon obtaining notice of contract acceptance to select and book materials. Develop a program of maintenance (pruning and fertilization) which will insure the purchased materials will meet and/or exceed project specifications.
2. Landscape Architect will provide a key identifying each tree location on site. Written verification will be required to document material selection, source and delivery schedules to site.
3. Owner and/or Architect shall inspect all plant materials when reasonable at place of growth for compliance with requirements for genus, species, cultivar/variety, size and quality.
4. Owner and/or Architect retains the right to further inspect all plant material upon arrival at the site and during installation for size and condition of root balls, limbs, branching habit, insects, injuries, and latent defects.
5. Owner and/or Architect may reject unsatisfactory or defective material at any time during the process of work. Remove rejected materials from the site immediately. Plants damaged in transit or at job site shall be rejected.

1.8 PRODUCT DELIVERY, STORAGE AND HANDLING

A. Preparation:

1. Balled and Burlapped (B&B) Plants: Dig and prepare shipment in a manner that will not damage roots, branches, shape, and future development.
2. Container Grown Plants: Deliver plants in rigid container to hold ball shape and protect root mass.

A. Delivery:

1. Deliver packaged materials in sealed containers showing weight, analysis and name of manufacturer. Protect materials from deterioration during delivery and while stored at site.
2. Deliver only plant materials that can be planted in one day unless adequate storage and watering facilities are available on job site.
3. Protect root balls by heeling in with sawdust or other approved moisture retaining material if not planted within 24 hours of delivery.
4. Protect plants during delivery to prevent damage to root balls or desiccation of leaves. Keep plants moist at all times. Cover all materials during transport.
5. Notify Architect of delivery schedule 72 hours in advance so plant material may be observed upon arrival at job site.
6. Remove rejected plant material immediately from site.
7. To avoid damage or stress, do not lift, move, adjust to plumb, or otherwise manipulate plants by trunk or stems.

PART 2 - PRODUCTS

2.1 PLANTS

A. General: Well-formed No. 1 grade or better nursery grown stock. Listed plant heights are from tops of root balls to nominal tops of plants. Plant spread refers to nominal outer width of the plant, not to the outer leaf tips. Plants will be individually approved by the Architect and his decision as to their acceptability shall be final.

B. Quantities: The drawings and specifications are complimentary. Anything called for on one and not the other is as binding as if shown and called for on both. The plant schedule is an aid to bidders only. Confirm all quantities on plan.

C. Quality and size: Plant materials shall conform to the size given on the plan, and shall be healthy, symmetrical, well-shaped, full branched, and well rooted. The plants shall be free from injurious insects, diseases, injuries to the bark or roots, broken branches, objectionable disfigurements, insect eggs and larvae and are to be of specimen quality.

D. Approval: All plant materials shall be subject to the approval of the Owner. All plants which are found unsuitable in growth, or in any unhealthy, badly shaped, or undersized condition, will be rejected by the Landscape Architect, either before or after planting, and shall be removed at the expense of the Landscape Contractor and replaced with acceptable plants as specified.

E. Trees shall be healthy, full-branched, well-shaped and shall meet the trunk diameter and height requirements of the plant schedule. Balls shall be firm, neat, slightly tapered, and well wrapped in burlap. Any tree loose in the ball or with broken ball at time of planting will be rejected. Balls shall be ten (10") inched in diameter for each one (1") inch of trunk diameter, Measured six (6") inched above ball.
Nomenclature conforms to the customary nursery usage: for clarification, the term "multi-trunk" defines a plant having three (3) or more trunks of nearly equal diameter.

F. Pruning: All pruning of trees and shrubs, as directed by the Landscape Architect, shall be executed by the Landscape Contractor at no additional cost to the Owner.

2.2 SOIL PREPARATION MATERIALS

A. Sandy Loam:

1. Friable, fortile, dark, loamy soil, free of clay lumps, subsoil, stones and other extraneous material and reasonably free of weeds and foreign grasses. Loam containing Dallasgrass or Nutgrass shall be rejected.
2. Physical properties as follows:
   Clay – between 7-27 percent
   Silt – between 15-25 percent
   Sand – less than 52 percent
3. Organic matter shall be 3%-10% of total dry weight.
4. If requested, provide a certified soil analysis conducted by an approved soil testing laboratory verifying that sandy loam meets the above requirements.

B. Organic Material: Compost with a mixture of 80% vegetative matter and 20% animal waste. Ingredients should be a mix of course and fine textured material.

C. Premixed Bedding Soil as supplied by Vital Earth Resources, Gladewater, Texas; Professional Bedding Soil as supplied by Living Earth Technology, Dallas, Texas or Acid Gro Municipal Mix as supplied by Soil Building Systems, Dallas, Texas or approved equal.

D. Sharp Sand: Sharp sand must be free of seeds, soil particles and weeds.

E. Mulch: Double Shredded Hardwood Mulch, partially decomposed, dark brown. Living Earth Technologies or approved equal.

F. Organic Fertilizer: Fertilaid, Sustane, or Green Sense or equal as recommended for required applications. Fertilizer shall be delivered to the site in original unopened containers, each bearing the manufacturer's guaranteed statement of analysis.

A. Commercial Fertilizer: 10-20-10 or similar analysis. Nitrogen source to be a minimum 50% slow release organic Nitrogen (SCU or UF) with a minimum 8% sulphur and 4% iron, plus micronutrients.

B. Peat: Commercial sphagnum peat moss or partially decomposed shredded pine bark or other approved organic material.

2.3 MISCELLANEOUS MATERIALS

A. Steel Edging: Shall be Ryerson "Estate Curbing", 1/8" x 4" with stakes 4' on center.

B. Staking Material for Shade Trees:

1. Post: Studded T-Post, #1 Armco with anchor plate; 6'-0" length; paint green.
2. Wire: 12 gauge, single strand, galvanized wire.
3. Rubber hose: 2 ply, fiber reinforced hose, minimum ½ inch inside diameter. Color: Black.

C. Gravel: Washed native pea gravel, graded 1 in. to 1-1/2 in.

D. Filter Fabric: Mirafi 140N by Celanese Fibers Marketing Company, available at Lofland Co., (214) 631-5250 or approved equal.

PART 3 - EXECUTION

3.1 BED PREPARATION & FERTILIZATION

A. Landscape Contractor to inspect all existing conditions and report any deficiencies to the Owner.

B. All planting areas shall be conditioned as follows:

1. Prepare new planting beds by scraping away existing grass and weeds as necessary. Till existing soil to a depth of six (6") inches prior to placing compost and fertilizer. Apply fertilizer as per manufacturers recommendations. Add six (6") inches of compost and till into a depth of six (6") inches of the topsoil. Apply organic fertilizer such as Sustane or Green Sense at the rate of twenty (20) pounds per one thousand (1,000) square feet.
2. All planting areas shall receive a two (2") inch layer of specified mulch.
3. Backfill for tree pits shall be as follows: Use existing top soil on site (use imported topsoil as needed) free from large clumps, rocks, debris, caliche, subsoils, etc., placed in nine (9") inch layers and watered in thoroughly.

C. Grass Areas:

1. Areas to be Solid Sod Bermudagrass: Blocks of sod should be laid joint to joint, (staggered joints) after fertilizing the ground first. Roll grass areas to achieve a smooth, even surface. The joints between the blocks of sod should be filled with topsoil where they are evidently gaped open, then watered thoroughly.
2. Areas to be Hydromulch Common Bermudagrass: Hydromulch with bermudagrass seed at a rate of two (2) pounds per one thousand (1,000) square feet. Use a 4' x 8' batter board against the bed areas.

3.2 INSTALLATION

A. Maintenance of plant materials shall begin immediately after each plant is delivered to the site and shall continue until all construction has been satisfactorily accomplished.

B. Plant materials shall be delivered to the site only after the beds are prepared and area ready for planting. All shipments of nursery materials shall be thoroughly protected from the drying winds during transit. All plants which cannot be planted at once, after delivery to the site, shall be well protected against the possibility of drying by wind and sun. Balls of earth of B & B plants shall be kept covered with soil or other acceptable material. All plants remain the property of the Contractor until final acceptance.

C. Position the trees and shrubs in their intended location as per plan.

D. Notify the Landscape Architect for inspection and approval of all positioning of plant materials.

E. Excavate pits with vertical sides and horizontal bottom. Tree pits shall be large enough to permit handling and planting without injury to balls of earth or roots and shall be of such depth that, when planted and settled, the crown of the plant shall bear the same relationship to the finish grade as it did to soil surface in original place of growth.

F. Shrub and tree pits shall be no less than two (2) feet, twenty-four (24") inches, wider than the lateral dimension of earth ball and six (6") inches deeper than it's vertical dimension. Remove and haul from site all rocks and stones over one (1") inch in diameter. Plants should be thoroughly moist before removing containers.

G. Dig a wide, rough sided hole exactly the same depth as the height of the ball, especially at the surface of the ground. The sides of the hole should be rough and jagged, never slick or glazed.

H. Percolation Test: Fill the hole with water. If the water level does not percolate within 24 hours, the tree needs to move to another location or have drainage added. Install a PVC stand pipe per tree planting detail as approved by the Landscape Architect.

I. Backfill only with 5 parts existing soil or sandy loam and 1 part bed preparation. When the hole is dug in solid rock, topsoil from the same area should not be used. Carefully settle by watering to prevent air pockets. Remove the burlap from the top 1/3 of the ball, as well as all nylon, plastic string and wire mesh. Container trees will usually be pot bound, if so follow standard nursery practice of 'root scoring'.

J. Do not wrap trees.

K. Do not over prune.

L. Mulch the top of the ball. Do not plant grass all the way to the trunk of the tree. Leave the area above the top of the ball and mulch with at least two (2") inches of specified mulch.

M. All plant beds and trees to be mulched with a minimum settled thickness of two (2") inches over the entire bed or pit.

N. Obstruction below ground: In the event that rock, or underground construction work or obstructions are encountered in any plant pit excavation work to be done under this section, alternate locations may be selected by the Owner. Where locations cannot be changed, the obstructions shall be removed to a depth of not less than three (3) feet below grade and no less than six (6") inches below the bottom of ball when plant is properly set at the required grade. The work of this section shall include the removal from the site of such rock or underground obstructions encountered at the cost of the Landscape Contractor.

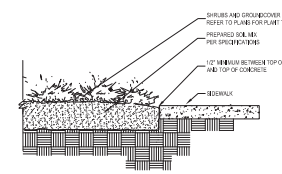
O. Trees and large shrubs shall be staked as site conditions require. Position stakes to secure tree against seasonal prevailing winds.

P. Pruning and Mulching: Pruning shall be directed by the Architect and shall be pruned in accordance with standard horticultural practice following Fine Pruning, Class I pruning standards provided by National Arborist Association.

1. Dead wood or suckers and broken badly bruised branches shall be removed. General tipping of the branched is not permitted. Do not cut terminal branches.
2. Pruning shall be done with clean, sharp tools.
3. Immediately after planting operations are completed, all tree pits shall be covered with a layer of organic material two (2") inches in depth. This limit of the organic material

Q. Steel Curbing Installation:

1. Curbing shall be aligned as indicated on plans. Stake out limits of steel curbing and obtain Owners approval prior to installation.
2. All steel curbing shall be free of kinks and abrupt bends.
3. Top of curbing shall be 3/4" maximum height above grade.
   1. Stakes are to be installed on the planting bed side of the curbing, as opposed to the grass side.
   2. Do not install steel edging along sidewalks.
   3. Cut steel edging at 45 degree angle where edging meets sidewalk.



3.3 CLEANUP AND ACCEPTANCE

A. Cleanup: During the work, the premises shall be kept neat and orderly at all times. Storage areas for all materials shall be so organized that they, too, are neat and orderly. All trash and debris shall be removed from the site as work progresses. Keep paved areas clean by sweeping or hosing at end of each days work.

SOLID SOD NOTES

1. *Fine grade areas to achieve final contours indicated. Leave areas to receive topsoil 3" below finial cleaired grade in planting areas and 1" below final grade in turf areas.*
2. *Adjust contours to achieve positive drainage away from buildings. Provide uniform rounding at top and bottom of slopes and other breaks in grade. Correct irregularities and areas where water may stand.*
3. *All lawn areas to receive solid sod shall be left in a maximum of 1" below final finish grade. Contractor to coordinate operations with on-site Construction Manager.*
4. *Contractor to coordinate with on-site Construction Manager for availability of existing topsoil.*
5. *Plant sod by hand to cover indicated area completely. Insure edges of sod are touching. Top dress joints by hand with topsoil to fill voids.*
6. *Roll grass areas to achieve a smooth, even surface, free from unnatural undulations.*
7. *Water sod thoroughly as sod operation progresses.*
8. *Contractor shall maintain all lawn areas until final acceptance. This shall include, but not limited to: mowing, watering, weeding, cultivating, cleaning and replacing dead or bare areas to keep plants in a vigorous, healthy condition.*
9. *Contractor shall guarantee establishment of an acceptable turf area and shall provide replacement from local supply if necessary.*
10. *If installation occurs between September 1 and March 1, all sod areas to be over-seeded with Winter Ryegrass, at a rate of (4) pounds per one thousand (1000) square feet.*

(4/22/2016 8:58 AM KB)
SP2016-008 (Carmel Car Wash): Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of site plan for a car wash/auto detail facility (i.e. Carmel Carwash) on a 1.3-acre tract of land identified as Lot 1, Block 1, Crossings Addition (i.e. 1.004-acres) and a 0.296-acre portion of Lot 1, Block 1, Rockwall Business Park Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2003 S. Goliad Street.
I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (SP2016-008) in the lower right hand corner of all pages on future submittals.
I.4 This property will be required to be plated prior to the issuance of a building permit.
I.5 This property is located in the SH 205 Overlay (SH-205 OV) District and is subject to stricter architectural/site design standards. Each exterior wall shall consist of 90% masonry including a minimum 20% natural or quarried stone.
M.6 Site Plan. Please provide Material Sample Board with actual samples of proposed materials.
M.7 Site Plan. Please provide color building elevations.
M.8 Site Plan. Please provide perimeter dimensions of all buildings. Indicate the perimeter dimensions in feet.
M.9 Site Plan. Please indicate the distance between all property lines and existing/planned buildings located on the site.
M.10 Site Plan. Please indicate all building setbacks adjacent to right-of-way (i.e. SH. 205).
M.11 Site Plan. All trash and recycling receptacles shall be four-sided with a gate and located outside buffer strips and to the rear of the primary building. The receptacles shall be screen by a minimum 8-foot solid masonry screen and shall utilize similar masonry materialsto the primary structure. Every effort shall be made to screen trash/recycling receptacles from SH 205. Please ensure that the screening wall is 8-feet and add a detail of the dumpster enclosure to show that it is 8-feet in height.
M.12 Site Plan. Please label all adjacent existing and proposed street names (i.e. SH 205)
M.13 Site Plan. Please indicate the street centerline for SH 205.
M.14 Site Plan. Please indicate whether utility equipment will be pad/ground mounted roof mounted. Pad mounted utility equipment shall be screened from horizontal view from any adjacent public street and from any adjacent property. All buildings must be designed so that no roof mounted mechanical equipment shal be visible from any direction.
M.15 Site Plan. Minimum width of side yard setback is 10-feet. Please check setback on the “Plan South” elevation to ensure that the building is 10-feet away from the property line.
I.16 Any above ground storage tanks shall be screened utilizing plantings, berms, or walls matching the main structure.
M.17 Site Plan. Please indicate the widths of the drives entering the car wash.
M.18 Landscape Plan. Please provide the same site data information required in Sec 2.1 Site Plan: Miscellaneous and Density and Dimensional Requirements of this checklist.
M.19 Landscape Plan. Please indicate the application zoning district percentage of landscaping required and provided in addition to the impervious areas vs. the amount of landscaping and open spaces required and provided.
M.20 Landscape Plan. Please make adjustments so that the Impervious Area is no greater than 85% and that the pervious area is at least 15%.
M.21 Landscape Plan. Canopy trees must be at least 4” caliper. Currently the canopy trees are 1-inch below the requirement.
M.22 Landscape Plan. Please indicate the 10’ landscape buffer. Currently there is a 10’ buffer showing adjacent to SH 205, however, it does not specify that it is a landscape buffer.
M.23 Photometric. No light pole, base or combination thereof shall exceed 30-feet in height. Please provide a light detail indicating the height the lighting poles.
M.24 Photometric. Please darken the property lines on the Photometric Plan.
M.25 Photometric. No lighting facilities shall distribute more than 0.2 of one footcandle of light at the property line. Please look at the lighting along the property lines to get this as close as possible to 0.2.
M.26 Photometric. Under canopy lighting, including covered parking, shall not exceed 0.35 of one foot candle. Please look at the lighting for the covered parking to

get this as close as possible to 0.35.

M.27 Photometric. Parking areas are not the exceed a maintained average of 1.5 foot candles at the ground level and shall not distribute more than 0.2 of one foot candle of light upon any adjacent property. Please look at the lighting for the employee parking to get this as close as possible to the requirements.

M.28 Photometric. Please try and make the lighting symbols clearer so that it is easier to distinguish each symbol.

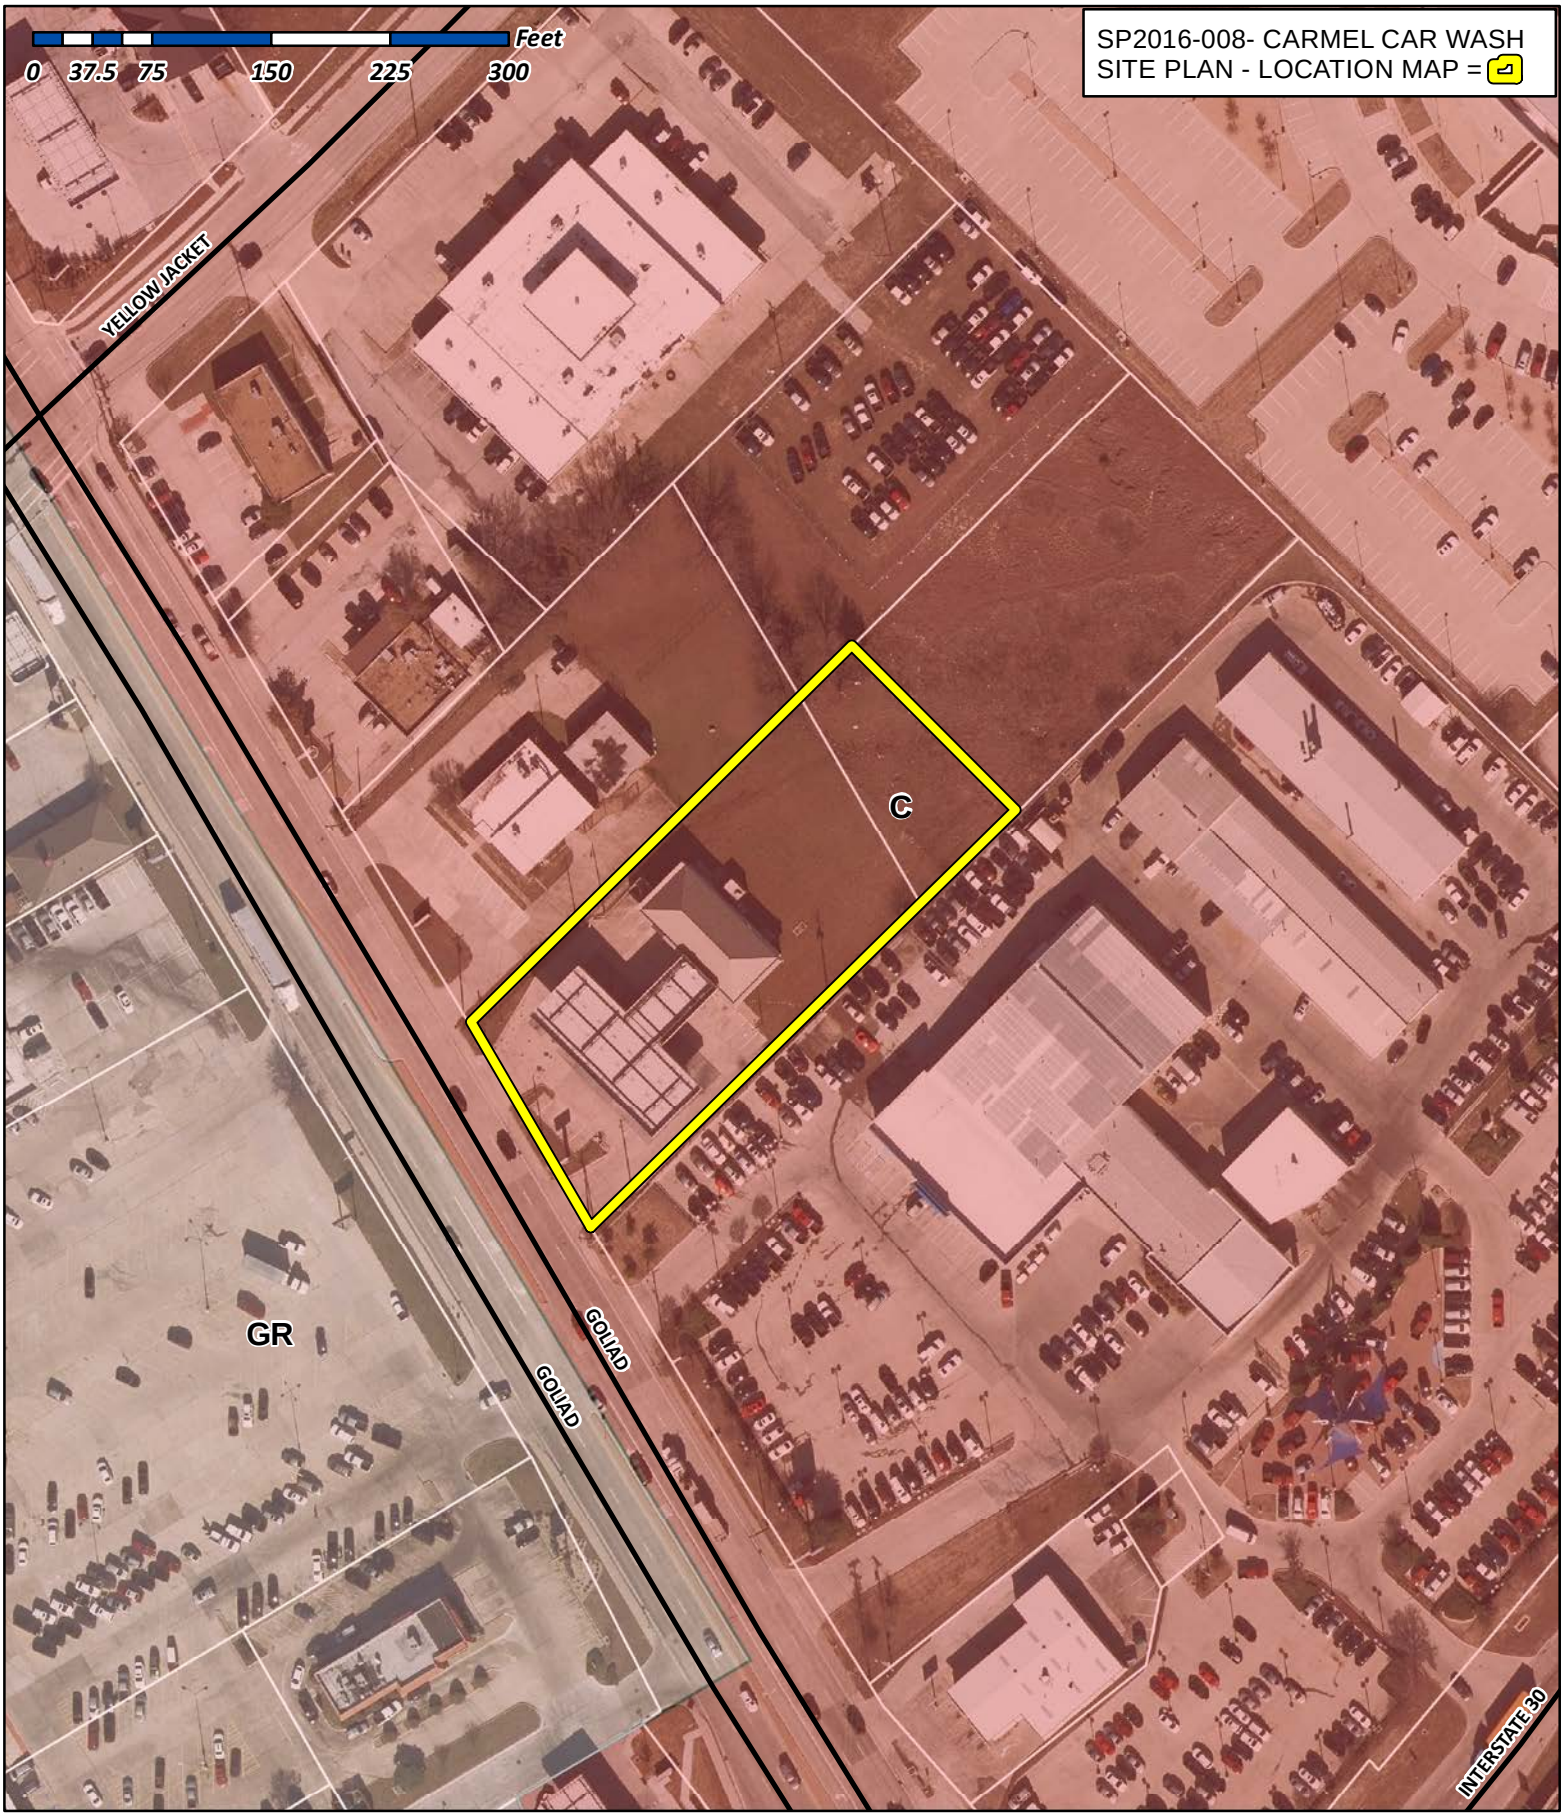
M.29 Photometric. Please provide cut-sheets for all exterior lighting (e.g. wall packs, canister lighting, etc.).

M.30 Building Elevations. Please label all roof mounted mechanical equipment and how these will be screened from view.

M.31 Building Elevations. Please provide a spec on stone used in elevation. Also, please note that smooth-face CMU is not allowed.

M.32 Building Elevations. Please provide a spec of the storage building located on the site.

M.33 Building Elevations. Each exterior wall shall consist of 90 percent masonry material including a minimum of 20 percent natural or quarried stone. Please ensure that the East Elevation includes 90% masonry, including 20% natural or quarried stone, or please apply for a variance from City Council.

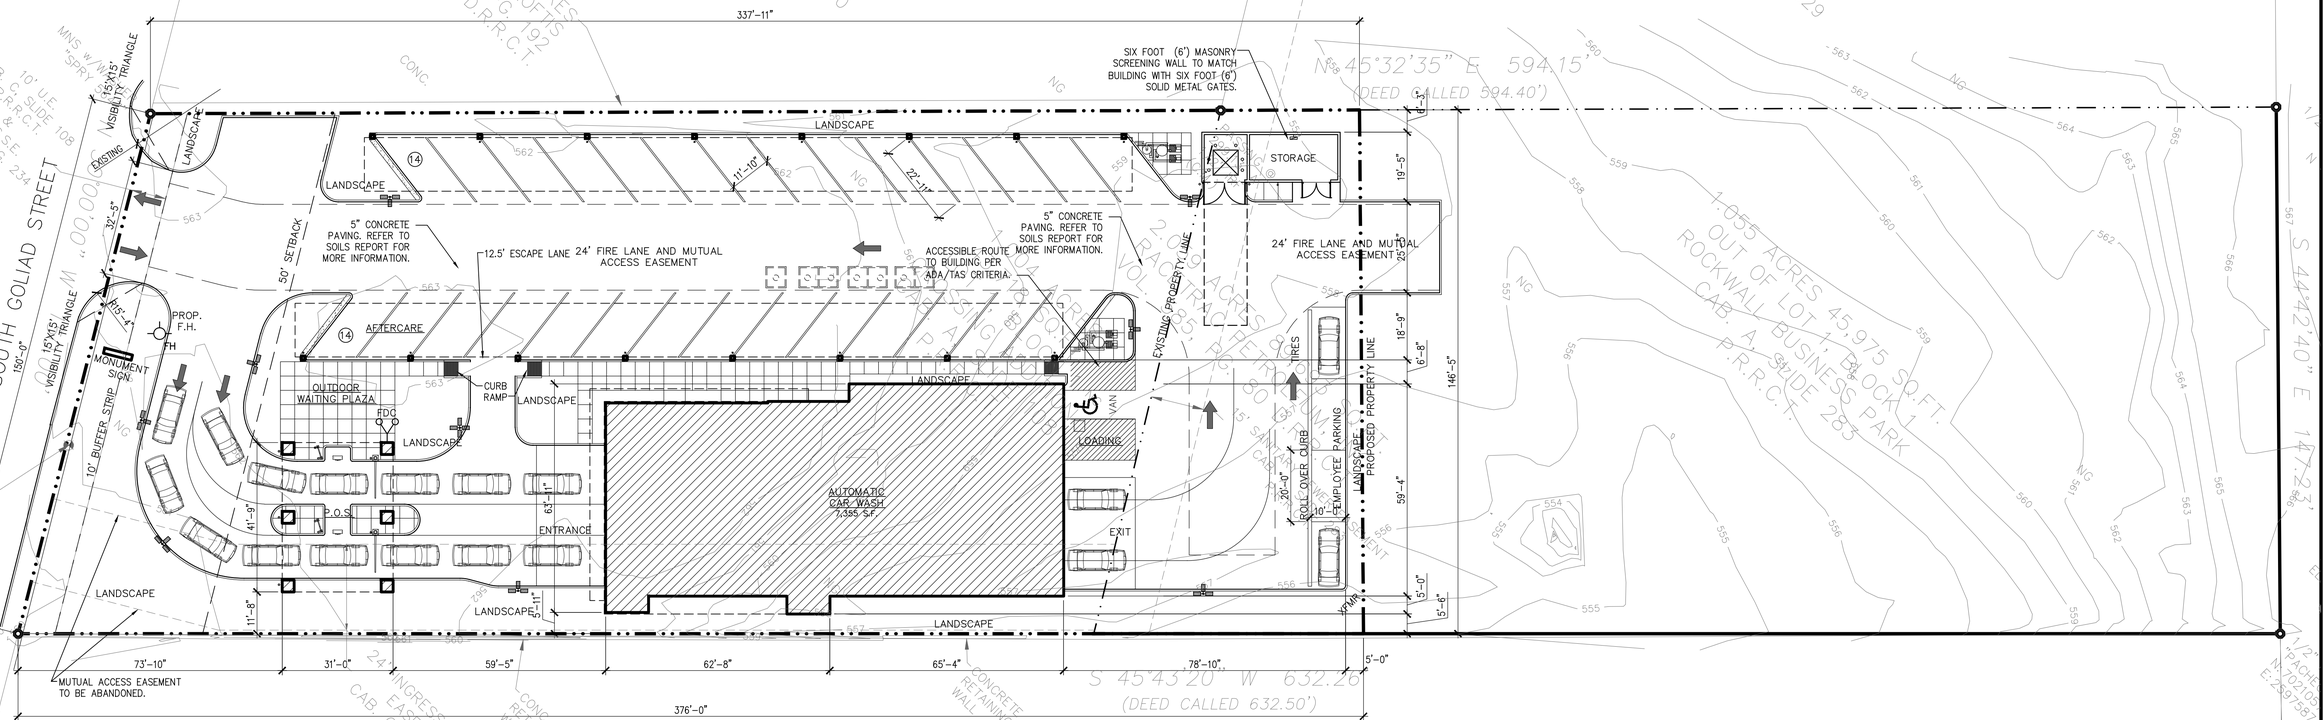


M.34 Building Elevations. Please indicate the parapet wall by dashing in the top of roof deck.

M.35 Building Elevations. Please indicate any additional design elements for the base, wall, or parapets. Be sure to include the location, size, color, and material of any proposed structure.

I.36 The Architectural Review Board (ARB) meeting for this case will be held on April 16, 2016.

I.37 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on April 26, 2016; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the May 10, 2016 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on April 26, 2016.



I.38 If necessary the projected City Council meeting date for this case will be May 16, 2016.

PLAN NORTH

TRUE NORTH

0' 5' 10' 20'

G.C. SHALL INSURE FULL COMPLIANCE WITH THE LATEST REQUIREMENTS OF THE ADA/TAS FOR THIS PROJECT REGARDLESS OF THE INFORMATION THAT MAY BE CONTAINED IN THESE DOCUMENTS.

IRRIGATION NOTES: FOR EXISTING SYSTEM TO BE EXPANDED

1. PROVIDE IRRIGATION SYSTEM DESIGNED BY A LICENSED IRRIGATION CONTRACTOR PER CITY REQUIREMENTS. IRRIGATION PLAN MUST BE SUBMITTED PRIOR TO CONSTRUCTION.

2. VERIFY CONDITION OF DOUBLE CHECK VALVE AT THE METER.

3. NEW CONSTRUCTION: ADJUSTABLE FLOW CONTROLS SHALL BE REQUIRED ON CIRCUIT REMOTE CONTROL. VALVES AND PRESSURE REGULATION COMPONANT(S) SHALL BE REQUIRED WHERE STATIC PRESSURE EXCEEDS MANUFACTURE'S RECOMMENDED OPERATING RANGE.

4. NEW CONSTRUCTION: VALVES AND CIRCUITS SHALL BE SEPARATED BASED ON WATER USE SO THAT TURF AREAS ARE WATERED SEPARATELY FROM SHRUB AND / OR GROUND COVER AREAS.

5. NEW CONSTRUCTION: SPRINKLER HEADS SHALL HAVE MATCHED PRECIPITATION RATES WITHIN EACH CONTROL VALVE CIRCUIT.

6. NEW CONSTRUCTION: SERVICEABLE CHECK VALVES SHALL BE REQUIRED ADJACENT TO PAVED AREAS WHERE ELEVATION DIFFERENCES MAY CAUSE LOW HARD DRAINAGE.

7. NEW CONSTRUCTION: SPRINKLER HEAD SPACING SHALL BE DESIGNED FOR HEAD-TO-HEAD COVERAGE OR HEADS SHALL BE SPACED AS PER MANUFACTURER'S RECOMMENDATIONS AND ADJUSTED FOR PREVAILING WNDS. THE SYSTEM SHALL BE DESIGNED SO THAT IRRIGATION IS NOT APPLIED TO VEHICULAR TRAFFIC LANES, OTHER PAVEMENT OR STRUCTURES.

8. VERIFY ALL EXISTING AUTOMATIC IRRIGATION SYSTEMS ARE EQUIPPED WITH A CONTROLLER CAPABLE OF DUAL OR MULTIPLE PROGRAMMING. CONTROLLERS SHALL HAVE MULTIPLE-CYCLE START CAPACITY AND A FLEXIBLE CALENDAR PROGRAM, INCLUDING THE CAPACITY OF BEING SET TO IRRIGATE EVERY FIVE DAYS. ALL AUTOMATIC IRRIGATION SYSTEMS SHALL BE EQUIPPED WITH A RAIN SENSOR SHUT-OFF DEVICE.

9. IRRIGATION CONSTRUCTION PLANS SHALL INCLUDE A WATER BUDGET. A LAMINATED COPY OF THE WATER BUDGET SHALL BE PERMANENTLY INSTALLED INSIDE THE IRRIGATION CONTROLLER DOOR. WATER BUDGET SHALL INCLUDE:

A. CHART CONTAINING ZONE NUMBER, PRECIPITATION RATE AND GPM.
B. LOCATION OF EMERGENCY IRRIGATION SYSTEM SHUT OFF VALVE.

10. AN AUTOMATIC IRRIGATION SYSTEM WILL BE INSTALLED, TREE IRRIGATION SHALL NOT SHARE THE SAME ZONE, INCLUDING VALVES AND CIRCUITS, AS SHRUBS AND PLANTS DUE TO DIFFERENT WATERING REQUIREMENTS. A MINIMUM OF ONE (1) BUBBLER SHALL BE PROVIDED FOR ALL NEWLY PLANTED TREES. TREES LARGER THAN 4 INCHES IN CALIPER SHALL HAVE TWO (2) BUBBLERS. BUBBLERS SHALL BE LOCATED 2 FEET FROM THE TREE TRUNK.
11. PROVIDE THE OWNER (END USER) WITH A COPY OF ALL WARRANTEES, PRODUCT MANUALS AND AN AS-BUILT DRAWING IN PDF FORMAT OF THE IRRIGATION SYSTEM ON CD AND TWO (2) FULL SIZED HARD COPIES FOR THEIR FILES.

NOTE TO G.C.
ALL FILL PLACED ON THE SITE SHALL RESPECT ALL EXISTING TREES BY ASSURING THAT NO SOIL OR MULCH HAS COVERED UP THE ROOT FLARE OF THE TREES.

THE PLANS PRESENTED HERE COMPLY WITH THE LANDSCAPE AND TREE ORDINANCE.

THERE SHALL BE NO UNSCREENED OUTDOOR STORAGE ON SITE. ALL OUTDOOR STORAGE AND/ OR EQUIPMENT YARDS SHALL BE WITHIN THE BOUNDARY OF A MASONRY SCREEN WALL.

SHEET:
L-1.0
1 OF (2) L SHEETS

All drawing and written material appearing herein constitute original and unpublished work of the architect and may not be duplicated, used or disclosed without written consent of architect.

The Texas Board of Architectural Examiners, PO Box 12337 Austin, Texas has jurisdiction over complaints regarding the profession of persons registered as architects in Texas under the Architects registration law, Article 249b VCTS. Phone 512.305.9000

GENERAL NOTES:

1. ADD OR REMOVE TOPSOIL AS NECESSARY TO ACCOUNT FOR THE INCLUSION OF SOIL AMENDMENTS. SOIL MIXTURE, REF SPECS.
2. TRIANGULARLY SPACE ALL GROUNDCOVERS AT SPACING SHOWN ON PLANS.
3. SAVE MULCHING OF PLANTING BED UNTIL NEAR FINAL ACCEPTANCE.

CONSTRUCTION NOTES:

A. SHRUB – PER PLAN REMOVE ALL LABELS
B. GROUNDCOVER – PER PLAN
C. 3" MIN. CEDAR MULCH. SLOPE FROM HARDSCAPE TO 1" ABOVE HARDSCAPE
D. PLANTING MIX AS SPECIFIED
E. REMOVE CONTAINER PRUNE ANY CIRCLING ROOT

1 PLANTING BED DETAIL N.T.S.

GENERAL NOTES:

1. STABILIZE SOIL BELOW ROOT BALL PRIOR TO PLANTING TO PREVENT TREE FROM SETTLING.
2. TOP OF ROOTBALL SHALL BE 1" TO 2" ABOVE FINISH GRADE
3. ALL WIRE ROPE AND SYNTHETIC MATERIALS SHALL BE REMOVED COMPLETELY FROM ROOTBALL AND REMOVE TOP 1/3 OF BURLAP.

CONSTRUCTION NOTES:

A. TREE.
B. LOOSEN NATIVE BACKFILL
C. WATER RETENTION BASIN.
D. 3" DEPTH OF CEDAR MULCH. REFER TO NOTE REGARDING ROOT FLARE.
E. FINISH GRADE.
*F. NO TREE STAKING REQUIRED.
G. DIG AN "UGLY" HOLE. REFER TO NOTES.

* FOR HIGH WIND LOCATIONS OR IN AREAS WHERE THE GRADE SLOPES EXCEEDS 3:1. FOR LOCATIONS IN MEDIAN SEE BELOW ALIGN IN MEDIANS PARALLEL TO CURB. INSTALL IN FIRM GROUND. SEE STANDARD MEDIAN DETAILS SD-36.

2 ISOLATED TREE PLANTING N.T.S.

GENERAL NOTES:

1. THE OUTSIDE DIAMETER OF THE WATER RETENTION BASIN SHALL BE TWICE THE DIAMETER OF THE SHRUB PLANTING PIT.

CONSTRUCTION NOTES:

A. SHRUB.
B. PLANTING SOIL MIXTURE (REF SPECIFICATIONS)
C. WATER RETENTION BASIN.
D. 3" DEPTH OF CEDAR MULCH.
E. FINISH GRADE.

3 ISOLATED SHRUB PLANTING N.T.S.

All drawings and written material appearing herein constitute original and unpublished work of the architect and may not be duplicated, used or disclosed without written consent of architect.

GENERAL LANDSCAPE NOTES:

1. CONTRACTOR SHALL PROVIDE ALL MATERIALS AND LABOR NEEDED FOR INSTALLATION OF PROPOSED LANDSCAPE MATERIAL. THIS DESIGN AND FUTURE MAINTENANCE SHALL BE CARRIED OUT WITH AND MAINTAINED BY CURRENT ORGANIC GARDENING STANDARDS.

2. ALL PLANT MATERIAL SHALL CONFORM TO THE STANDARDS AS PUBLISHED BY THE CURRENT AMERICAN ASSOCIATION OF NURSERYMEN. ALL PLANT MATERIAL SHALL BE PURCHASED FROM SOURCES AS CLOSE TO THE CONSTRUCTION SIGHT AS POSSIBLE. ALL MUCH SHALL BE PURCHASED FROM LOCAL YARDS THAT USE ONLY NATIVE "ORGANIC" MATERIAL. ALL COMPOST AND MULCH SHALL BE CERTIFIED ORGANIC AND FREE OF CHEMICALS AND PESTICIDES. UNLESS OTHERWISE NOTED ON THE PLANS.

3. ANY CONFLICTS OF TREE LOCATION AND UTILITY LINES, UNDERGROUND OR OVERHEAD SHALL BE BROUGHT TO THE ATTENTION OF THE ARCHITECT AS SOON AS POSSIBLE.

4. NO PLANTING SHALL TAKE PLACE BEFORE FINISHED GRADING HAS BEEN FINISHED AND BED LAYOUTS HAVE BEEN APPROVED BY THE ARCHITECT.

5. THE ARCHITECT AND OR OWNER RESERVES THE RIGHT TO REFUSE ANY PLANT MATERIAL DUE TO UNSATISFACTORY CONDITIONS OF THE PLANT MATERIAL. ALL PLANTS SHALL BE CONTAINER GROWN OR B & B. ALL PLASTIC CONTAINERS SHALL BE REMOVED PRIOR TO PLANTING. ALL PLASTIC CONTAINERS SHALL BE RECYCLED LOCALLY.

6. ALL PLANT MATERIAL SHALL BE WATERED THOROUGHLY TWICE WITHIN THE FIRST 24 HOURS OF PLANTING, THEN ONCE PER WEEK FOR THE FIRST GROWING SEASON.

7. THE CONTRACTOR SHALL PROVIDE A ONE (1) YEAR WARRANTEE ON ALL LANDSCAPE MATERIAL FROM THE DATE OF THE C.O.

8. THE PLANTED AREA SHALL BE IRRIGATED OR SPRINKLERED IN A MANNER THAT WILL NOT ERODE THE TOPSOIL, BUT WILL SUFFICIENTLY SOAK THE SOIL TO A DEPTH OF 6 INCHES. THE IRRIGATION SHALL OCCUR AT FIVE DAY INTERVALS DURING THE FIRST TWO MONTHS. RAINFALL OCCURRENCES OF ½ INCH OR GREATER SHALL POSTPONE THE WATERING SCHEDULE ONE CYCLE.

9. RAISE ALL BEDS 6" TO ALLOW FOR PROPER DRAINAGE. PREPARE ALL BEDS BY ADDING 6" OF ORGANIC COMPOST, ORGANIC FERTILIZER (2 LBS/100 S.F.). ROTO-TILL TO A DEPTH OF 8". TOP DRESS WITH A 3" MINIMUM LAYER OF NATIVE CEDAR MULCH AFTER PLANTING.

10. LAWN PLANTING: REMOVE ALL SURFACE ROCKS OVER 2"ROUND. LIGHTLY TILL OR SCARIFY THE TOP SOIL TO A DEPTH OF 2". LIGHTLY RAKE AND GENTLY SLOPE TO PREVENT PONDING OF WATER. FOR SOD: TURF SHALL BE ROLLED AFTER INSTALLATION AND FERTILIZED WITH AN ORGANIC FERTILIZER SUITABLE FOR NEW,Y PLANTED TURF APPLIED PER THE MANUFACTURER'S RECOMMENDATION. FOR HYDRO-MULCH: PRIOR TO HYDRO-MULCHING SPRAY TOP SOIL WITH "AGISPON" OR "MEDIAN" AND TREAT THE SEED WITH ONE OF THE SAME PRODUCTS. APPLY SEED TO THE GROUND FIRST THEN HYDRO-MULCH OVER THE SEED. AFTER ALL AREAS OF GRASS HAVE BEEN ESTABLISHED APPLY A LIGHT APPLICATION OF ORGANIC FERTILIZER AT THE TIME OF THE FIRST MOWING. PULL ALL VISIBLE WEEDS AT THAT TIME AS WELL.

11. ASIAN JASMINE, IVY OR OTHER NON TURF GROUND COVER: PLANT 12" O.C. MAXIMUM.

12. SHRUBS: SPACE LARGE SHRUBS SUCH AS BURFORD HOLLIES, COTONEASTER AND INDIAN HAWTHORN @ 4'6"-5'0" O.C. SPACE MEDIUM SHRUBS SUCH AS DWARF BURFORD HOLLIES AT 3'0"-3'6" O.C. SPACE SMALL SHRUBS SUCH AS DWARF YAUPON, ORNAMENTAL GRASSES AND NANDINA @ 2' O.C. SPACE ROSES AT 3'6"-4'0" O.C. THE SHRUBS INDICATED ON THE PLANS ARE FOR INFORMATIONAL PURPOSES AND ARE NOT NECESSARILY INTENDED TO BE AN EXACT COUNT OF THE NUMBER OF SHRUBS. THE GENERAL CONTRACTOR SHALL SUPPLY AS MANY SHRUBS AS REQUIRED TO FILL THE AREA DESIGNATED ON THE PLANS SPACED ACCORDING TO THE SPECIFICATIONS.

13. SHRUB PLANTING: THE HOLE SHALL BE DUG THE EXACT DEPTH OF THE HEIGHT ROOT BALL. THE TOP OF THE SHRUB' ROOT SYSTEM SHALL BE EQUAL TO OR SLIGHTLY ABOVE THE FINISHED GRADE. THE G.C. SHALL INSPECT THE ROOT BALL AND DETERMINE THAT SOIL HAS NOT BEEN ADDED ABOVE TO THE TOP OF THE ROOT SYSTEM. IF THIS HAS OCCURRED REMOVE THE SOIL. THE HOLE SHALL BE TWICE THE DIAMETER OF THE CONTAINER. DO NOT LEAVE ANY "SLICK" SIDES OF THE HOLE, THE HOLE SHOULD BE JAGGED ROUGH, MAKE AN "UGLY" HOLE. BACK FILL WITH THE EXISTING SOIL. DO NOT ADD AMENDMENTS TO THE BACK FILL SOIL. MULCH AFTER PLANTING WITH 3" MINIMUM OF SHREDDED NATIVE CEDAR MULCH.

14. TREE PLANTING: THE HOLE SHALL BE DUG THE EXACT DEPTH OF THE HEIGHT ROOT BALL. THE TREES TRUNK FLARE SHALL BE ABOVE THE FINISHED GRADE. THE G.C. SHALL INSPECT THE ROOT BALL AND DETERMINE THAT THE SOIL HAS NOT BEEN ADDED ABOVE THE TRUNK FLARE. IF THIS HAS OCCURRED REMOVE THE SOIL TO EXPOSE THE FLARE BEING MINDFUL OF THE TREES ROOT SYSTEM. THE HOLE SHALL BE TWICE THE DIAMETER OF THE ROOT BALL. DO NOT LEAVE ANY "SLICK" SIDES OF THE HOLE, THE HOLE SHOULD BE JAGGED ROUGH, MAKE AN "UGLY" HOLE. BACK FILL WITH THE EXISTING SOIL. DO NOT ADD AMENDMENTS TO THE BACK FILL SOIL. LEAVE BURLAP ON THE BALL HOWEVER LOOSEN THE BURLAP FROM TRUNK AND REMOVE ANY NYLON PLASTIC COVERING OR STRING OF WIRE MESH. DO NOT WRAP OR STAKE THE PLANT. DO NOT OVER PRUNE. MULCH THE TOP OF THE BALL AFTER PLANTING WITH 3" MINIMUM OF SHREDDED NATIVE CEDAR MULCH. IN GRASS AREAS EXTEND MULCH TO DRIP LINE IF PLANT MINIMUM.

15. ALL WORK SHALL BE PERFORMED ACCORDING TO THE CITY LANDSCAPE ORDINACE(S) AND GUIDELINES.

16. THE CONTRACTOR SHALL PROVIDE THE OWNER WITH A MAINTENANCE SCHEDULE FOR AN ORGANIC PROGRAM TO INCLUDE FERTILIZATION, PRUNING, MOWING, MULCHING, ETC. UPON COMPLETION OF WORK.

17. ALL REQUIRED LANDSCAPE AREAS SHALL BE PERMANENTLY MAINTAINED AND SHALL BE IRRIGATED WITH AN AUTOMATIC CONVENTIONAL IRRIGATION SYSTEM EQUIPPED WITH RAIN AND FREEZE SENSOR CONTROLS. THE IRRIGATION SYSTEM SHALL BE INSTALLED BY A LICENSED IRRIGATOR OR MASTER PLUMBER.

18. THE CONTRACTOR SHALL REMOVE ALL TRASH AND DEBRIS CREATED DURING CONSTRUCTION I.E. BURLAP, CONTAINERS, PLANT TAGS, ETC. ALL PLASTIC CONTAINERS SHALL BE RECYCLED LOCALLY.

19. THE OWNER SHALL CONTINUOUSLY MAINTAIN THE REQUIRED LANDSCAPING IN ACCORDANCE WITH THE LANDSCAPE CODE OF THE LOCAL MUNICIPALITY AND IN ACCORDANCE WITH THE LATEST ORGANIC GARDENING PRACTICES.

20. ALL OUT DOOR MECHANICAL EQUIPMENT SUCH AS COMPRESSORS, UTILITY HUTS, TRANSFORMERS OR OTHER BUILDING SERVICE EQUIPMENT IS REQUIRED TO BE COMPLETELY SCREENED FROM VIEW ON AL SIDES USING A VEGETATIVE SCREEN. IF MECHANICAL EQUIPMENT IS TO BE LOCATED ON THE ROOF OF THE BUILDING IT IS REQUIRED TO BE SCREENED FROM VIEW. REFER TO THE ARCHITECTURAL DRAWINGS FOR MORE INFORMATION FOR LOCATIONS OF ROOFTOP MECHANICAL EQUIPMENT.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
BUILDING	John Shannon	4/15/2016	4/22/2016	4/22/2016	7	APPROVED	
ENGINEERING	Amy Williams	4/15/2016	4/22/2016	4/19/2016	4	COMMENTS	See Comments

(4/19/2016 3:22 PM AW)
Show distances from edges of driveways to the next driveway edge up and downstream
Need to show existing driveways
Need to show drainage/detention easement
Parking adjacent to the building to be 20'x9'
The non-adjacent 90 degree parking is to have a "clear" two foot overhang and it can't be on the adjacent property
Need off-site cross access easement to allow for driveway and dumpster
All concrete to be steel reinforced
Remove one of the angled parking (see markup)
The existing water line shown on the plan is a 1" not an 8". An 8" water line extension will be required to serve the fire coverage/fire hydrant(s) and services.
The dumpster will require a drain for the runoff to drain to the grease trap.
Need to add a note that the dimensions are to face of curbEngineering Comments on plans.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
(4/22/2016 10:53 AM AA) Existing fire hydrants on adjacent properties shall not be considered available unless fire apparatus access roads extend between properties and easements are established to prevent obstruction of such roads. Existing fire hydrants on public streets are allowed to be considered as available where streets are not provided with median dividers which cannot be crossed by fire fighters pulling hose lines.) Access to 2 fire hydrants are listed above will be required to meet the needed fire flow of 1750 gpm/2hr, if not fire sprinklered. Show location of all hydrants being used to meet this requirement. An automatic sprinkler system shall be provided for Group A-2 occupancies where the fire area has an occupant load of 100 or more. Confirm total building occupant load including all seating and staff areas. Additional comment will apply if fire sprinklers are required.

Discuss and consider a request by Eric Morff of Cole on behalf of the owner 2804 Ridge, LLC for the approval of site plan for a restaurant with drive-through (i.e. Panera Bread) on a 0.93-acre parcel of land identified as Lot 2 of the Road Runner Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) & Scenic Overlay (SOV) Districts, addressed as 2804 S. Goliad Street, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, May 3, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. Label site plan documents with "Case No. SP2016-009" at the lower right corner of each plan.
4. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department. The sign plan submitted with this package is considered to be NOT ACCEPTED and therefore is not a part of the approval process for this Site Plan.

Variances to the IH-30 Overlay (IH-30 OV) & Scenic Overlay District Required (per submittal):

1. Variance request to allow for a roof design that does not meet the required pitched roof standard of the IH-30 OV and SOV District standards.

** Variances to the IH-30 OV & SOV requires a 3/4 majority vote of council for approval **

Please address the followingPlanning Comments for each plan submitted:

Site Plan:
1. Re-label Firelane,...etc. as "26-ft Firelane & Public AccessEasement."
2. Dumpster enclosure walls are to be a minimum of 8-ft in height with materials to match the primary structure with an opaque gate and a self latching mechanism. Provide detail and label as such.

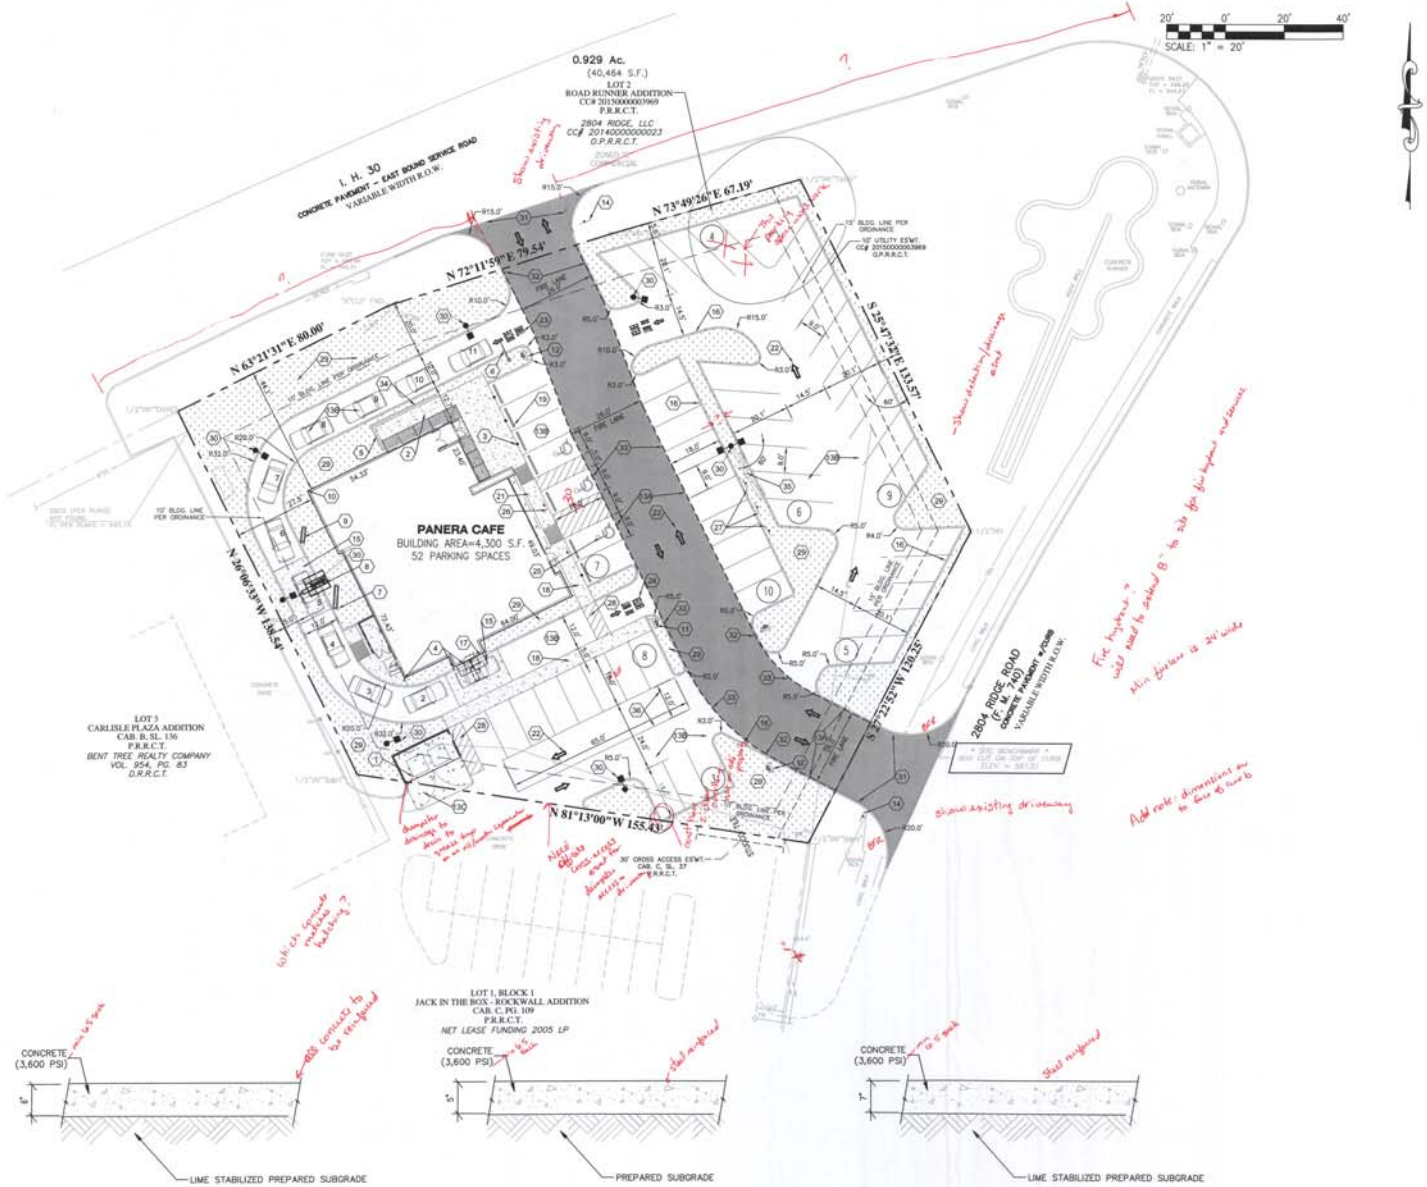
Landscape Plan:
1. Ridge Road is within the SOV and requires four 4" canopy trees and three 4ft height accent trees per 100 linear feet of frontage. Provide a minimum of 3 canopy and 4 accent trees. Also, correct 'Street Frontage Landscapeing' table to reflect the corrections.
2. The OV districts require one row of trees at the perimeter behind the building.

Treescape Plan:
1. The trees to be removed are indicated as cedar trees that are less than 11 inches in diameter; therefore, no tree mitigation is requried for this submittal.

Photometric Plan:
1. The lighting pole standards are not to exceed a maximum overall height of 20-ft (includes pole, base, fixtures, etc.) per the SOV standards. Provide detail indicatig as such.
2. All lighting sources are to be directed down and sheilded with a full cut-off or partial cut-off source and a maximum 1 inch reveal in order to control glare. The cut sheets provide indicate flood lamps and exposed bulbs (wall packs), which are not an approved lighting source. Provide new lighting sources meeting the City's standards.

3. The lighting levels along property lines are not to exceed 0.2-FC in order to reduce glare. The lighting levels are not represented/extended to the property line(s). Resubmit photometric plan in compliance with standards and indicate all property lines.

Building Elevations:
1. All mechanical equipment requires screening from rights-of-way and adjacent properties. Provide detail of screeing mechanism to be used. If RTU's, dash-in on elevations.
2. Variance to the picthed roof standard as listed above.
3. Identify the CMU product on the South Exterior Elevation - Custom CMU heavy block required (e.g. split face, burnished, sand blasted).
4. The building elevations are required to be reviewed by the Architectural Review Board prior to approval.



The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Architecural Review Board - Discussion: April 26, 2016 (5:00 p.m.)

Planning - Discussion: April 26, 2016 (6:00 p.m.)
Planning - Action: May 10, 2016 (6:00 p.m.)

City Council - Action: May 16, 2016 (6:00 p.m.) [FOR VARIANCE REQUESTS ONLY]

1. NEW TRASH ENCLOSURE.
2. NEW PATIO AREA.
3. NEW 4" BOLLARD(S).
4. NEW 6" BOLLARD(S).
5. NEW PATIO HANDRAIL WITH INTEGRATED BOLLARDS.
6. NEW CLEARANCE BAR.
7. NEW MENU BOARD.
8. NEW MENU CANOPY.
9. NEW PREVIEW BOARD.
10. NEW BUILDING MOUNTED CAMERA.
11. NEW "DO NOT ENTER / THANK YOU" SIGN.
12. NEW "DRIVE-THRU" SIGN.
34. NEW HEAVY DUTY CONCRETE PAVEMENT.
38. NEW LIGHT DUTY CONCRETE PAVEMENT.
39. NEW REFUSE AREA CONCRETE PAVEMENT.
14. NEW "STOP" SIGN.
15. NEW CONCRETE PAD WITH SENSOR LOOP.
16. NEW 6" VERTICAL CONCRETE CURB (STANDARD SECTION).
17. NEW 6" VERTICAL CONCRETE CURB (WIDE SECTION).
18. NEW TURNED DOWN CONCRETE WALK.
19. NEW WHEEL STOPS (7 TOTAL).
20. NEW FLARED ACCESSIBLE RAMP WITH TRUNCATED DOMES IN SIDEWALK.
21. NEW PARALLEL ACCESSIBLE RAMP WITH TRUNCATED DOMES IN SIDEWALK.
22. NEW TRAFFIC FLOW ARROW.
23. NEW "DRIVE-THRU" STRIPING AND TRAFFIC FLOW ARROW.
24. NEW "DO NOT ENTER" STRIPING AND TRAFFIC FLOW ARROWS.
25. NEW ACCESSIBLE PARKING PAINTED SYMBOL AND STRIPING (3 TOTAL).
26. NEW ACCESSIBLE PARKING AND FINE SIGN(S) IN BOLLARD (3 TOTAL).
27. NEW RAPID PICK UP SIGNS.
28. NEW PAINTED AISLE.
29. NEW LANDSCAPE AREA.
30. NEW SITE LIGHTING.
31. NEW STANDARD DRIVE APPROACH PER CITY OF ROCKWALL STANDARDS.
32. NEW CURB TO BE PAINTED RED WITH CONTRASTING WHITE LETTERS READING "NO PARKING FIRE LANE" PER ROCKWALL FIRE PROTECTION STANDARDS.
33. NEW RED PAINTED STRIPE WITH CONTRASTING WHITE LETTERS READING "NO PARKING FIRE LANE" PER ROCKWALL FIRE PROTECTION STANDARDS.
34. SEGMENTAL RETAINING WALL.
35. EXISTING PYLON SIGN TO REMAIN AND BE REFACED.
36. NEW 12'X65' LOADING AREA.

GENERAL NOTES:

1. ALL EXISTING TREE LOCATIONS ARE APPROXIMATE AND SHALL BE FIELD VERIFIED BEFORE WORK BEGINS.
2. LANDSCAPE CONTRACTOR TO VERIFY LOCATION OF UNDERGROUND UTILITIES BEFORE BEGINNING WORK.
3. ALL PLANT MATERIAL SHALL BE OF NO. 1 GRADE, FREE FROM PLANT DISEASE, OF TYPICAL GROWTH FOR THE SPECIES, HAVE A HEALTHY, NORMAL ROOT SYSTEM, ROUNDED BRANCHING PATTERN, AND SHALL CONFORM TO THE CODE OF STANDARDS SET FORTH IN THE CURRENT ADDITION OF THE AMERICAN STANDARD FOR NURSERY STOCK.
4. ALL LANDSCAPE SUBSTITUTIONS MUST BE APPROVED BY THE LANDSCAPE ARCHITECT.
5. FORMAL LINES AND GROUPINGS OF A SPECIES OF TREE, SHRUB, GROUNDCOVER SHALL BE MATCHED FOR SIZE, FORM, AND COLOR.
6. ALL BACKFILL IN PLANTING BEDS AND TREE PITS SHALL BE BACKFILLED WITH PLANTING SOIL.
7. ALL TREES OUTSIDE OF PLANT BEDS SHALL BE PLANTED WITH A MULCH RING.
8. ALL LANDSCAPING SHALL BE INSTALLED AS SHOWN ON THE APPROVED PLAN.
9. AT PLANTING, TREE TRUNKS MUST BE STRAIGHT WITH MINIMAL DOGLEGS.
10. PLANTS SHALL BE PROTECTED DURING DELIVERY TO PREVENT DESICCATION OF LEAVES.
11. TREES AND SHRUBS SHOULD BE PLANTED ON DAY OF DELIVERY. IF THIS IS NOT POSSIBLE, THE CONTRACTOR SHALL PROTECT UNPLANTED PLANTS BY KEEPING THEM IN SHADE, WATERED AND PROTECTED WITH SOIL, MULCH OR OTHER ACCEPTABLE MATERIAL.
12. TREES AND SHRUBS SHALL NOT REMAIN UNPLANTED FOR MORE THAN TWO WEEKS.
13. IF PLANTING IN AREAS THAT HAVE BEEN PREVIOUSLY COMPACTED, THE SOIL SHALL BE PROPERLY PREPARED (TILLED AND AMENDED AS NEEDED BASED ON SOIL SAMPLES) TO A DEPTH OF 1 FOOT PRIOR TO INSTALLATION OF LANDSCAPE MATERIAL. SOIL WITHIN INDIVIDUAL PLANTING HOLES SHALL NOT BE AMENDED.
14. WIRE BASKETS, BURLAP WRAPPINGS, ROPE, TWINE OR ANY SIMILAR SHIPPING MATERIALS SHALL BE REMOVED BEFORE PLANTING.
15. ALL DISTURBED AREAS TO BE SODDED UNLESS OTHERWISE NOTED ON PLANS.
16. A SPADE CUT EDGE SHALL BE CREATED AT ALL LOCATIONS WHERE PLANTING BEDS ARE ADJACENT TO GRASS AREAS.
17. SEE CIVIL PLANS FOR TYPE AND LOCATION OF EROSION CONTROL MATERIALS.
18. DECORATIVE GRAVEL SHALL MATCH COLOR OF BUILDING UNLESS OTHERWISE NOTED BY OWNER.
19. THERE ARE NO PROTECTED TREES ONSITE.
20. TREES MUST BE PLANTED AT LEAST 5' FROM WATER,SEWER AND STORM SEWER LINES.
21. IRRIGATION WILL MEET REQUIREMENTS OF UDC.

EcoForm

Project:	PANERA BREAD
Location:	ROCKWELL
Cat.No:	ECF-3-215LA-641A-NW-IS
Type:	S1
Qty:	
Notes:	

EcoForm combines economy with performance in an LED area luminaire. Capable of delivering up to 20,000 lumens or more in a compact, low profile housing, EcoForm offers a new level of customer value. EcoForm features an innovative retrofit arm kit, simplifying site conversions to LED by eliminating the need to drill additional holes in most existing poles. Integral control systems, including motion response and wireless controls are available for further energy savings during off peak hours.

1. Available in 120V–277V Voltages only (UNV, 120, 208, 240 & 277).
2. MR50 and APD-MRO luminaires require one motion sensor per pole, ordered separately. See page 2 for Accessories. Available in 120V or 277V only.
3. ECF-MRI requires outboarded sensor when used with Terminal Block (TB) Option.
4. Contact factory for lead times on warm white.
5. LLC2/LLC3/LLC4 Wireless Controls are not configurable with PC/PCB/PCR5/PCR7 Options. See page 7-8 for more info.
6. Not configurable with Type 5 (5) Optics.
7. Not configurable with 120-277V (UNV) Voltage. Voltage must be specified.
8. Not configurable with 480V (480) Voltage.
9. Not configurable with 3@120 (3@120) Mounting.
10. No adaptor required for 4" round poles. RPAs provided with Black Paint standard.
11. Works with 3-pin or 5-pin NEMA photocell/dimming device.
12. Works with 3-pin or 5-pin NEMA photocell/dimming device and auxiliary connections are not connected (for future use only).
13. If ordered with DIM, APD, MRI, MR50, APD-MRI, APD-MRO, dimming will not be connected to NEMA receptacle.

ECF EcoForm

Site & Area

EcoForm Accessories (order separately)

FS1R-100

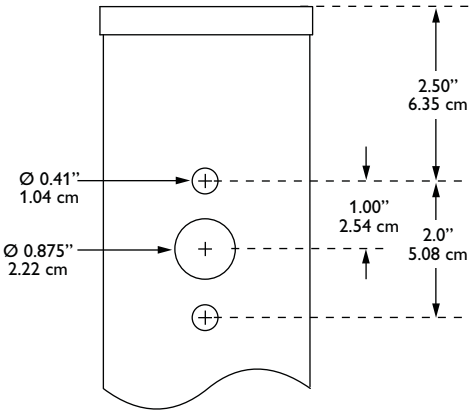
MR hand held programmer

For use with 'MRI' motion response when field programming is required. If desired, only one is needed per job.

MS-A-120V

120V Input Area Motion Sensor

For MR50 (Motion Response) or APD-MRO (Automatic Profile Dimming with Motion Response Override)



MS-A-277V

277V Input Area Motion Sensor

For MR50 (Motion Response) or APD-MRO (Automatic Profile Dimming with Motion Response Override)

Note: Motion Sensors are ordered separately, with one (1) motion sensor required per pole location for MR50 or APD-MRO luminaires. See Luminaire Configuration Information on page 5 for more details. Area motion sensor color is Arctic White. MRI and APD-MRI luminaires include an integral motion sensor.

EcoForm Drill Template (standard arm mount)

LED Wattage and Lumen Values (standard EcoForm luminaire)

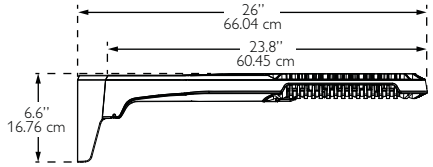
ECF EcoForm



Site & Area

Luminaire Configuration Information

ECF

Philips Gardco EcoForm LED standard luminaire providing constant wattage and constant light output when power to the luminaire is energized.

ECF-DIM

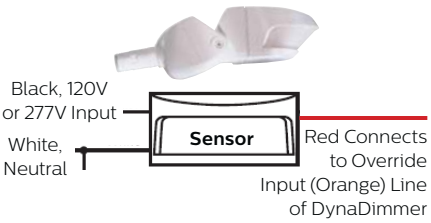
Philips Gardco EcoForm LED luminaire provided with 0-10V dimming for connection to a control system provided by others.

ECF-APD

Philips Gardco EcoForm LED luminaire with Automatic Profile Dimming. Luminaire is provided with a Philips DynaDimmer module, programmed to go to 50% power, 50% light output two (2) hours prior to night time mid-point and remain at 50% for six (6) hours after night time mid-point. Mid-point is continuously recalculated by the Philips DynaDimmer module based on the average mid-point of the last two full night cycles. Short duration cycles, and power interruptions are ignored and do not affect the determination of mid-point.

ECF-APD is available in 120V–277V input only.

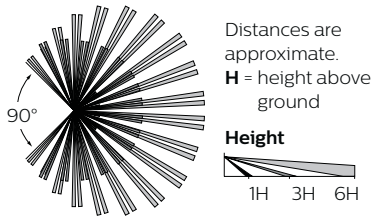
ECF-APD Dimming Profile:



100%	2 hours	6 hours	100%
	50%	50%	
Power On		Mid Point	Power Off

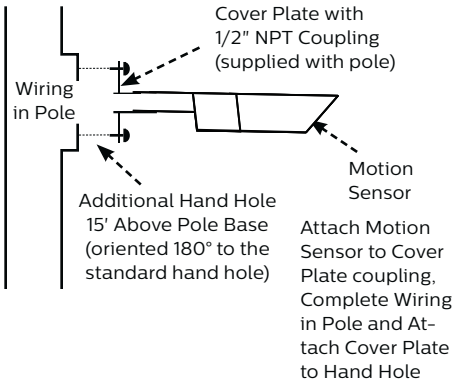
ECF-MR50

Philips Gardco EcoForm LED luminaire with motion response, providing a 50% power reduction on low and a commensurate reduction in light output. The power and light output reduction is accomplished utilizing the Philips DynaDimmer module, programmed for a constant 50% power. Power supplied by the motion sensor connected to the override line on the DynaDimmer takes the luminaire to high setting, 100% power and light output, when motion is detected. The luminaire remains on high until no motion is detected for the motion sensor duration period, after which the luminaire returns to low. Duration period is factory set at 15 minutes, and is field adjustable from 5 minutes up to 15 minutes.



ECF-MR50 is available in 120V–277V input only to the luminaire. Motion sensors require single voltage 120V or 277V input.

The Area PIR motion sensor is the WattStopper EW-200-120-W (120V Input - MSA-120V) or the WattStopper EW-200-277-W (277V Input - MSA-277V.) One motion sensor per pole is required and is ordered separately. Area sensors require single voltage 120V or 277V input.



The area motion detector provides coverage equal to up to 6 times the sensor height above ground, 270° from the front-center of the sensor.

Area PIR Motion Sensor Coverage Pattern:

Motion response requires that the pole include an additional hand hole 15 feet above the pole base, normally oriented 180° to the standard hand hole. For Philips Gardco poles, order the pole with the Motion Sensor Mounting (MSM) option which includes the hand hole and a special hand hole cover plate for the sensor with a 1/2" NPT receptacle centered on the hand hole cover plate into which the motion sensor mounts. Once the motion sensor is connected to the hand hole cover plate, then wiring connections are completed in the pole. The plate (complete with motion sensor attached and wired) is then mounted to the hand hole. If poles are supplied by others, the customer is responsible for providing suitable mounting accommodations for the motion sensor in the pole.

Mounting to a Philips Gardco Pole:

ECF-APD-MRO

Philips Gardco EcoForm LED luminaire with Automatic Profile Dimming, with Motion Response Override. The ECF-APD-MRO combines the benefits of both automatic profile dimming and motion response, using the Philips DynaDimmer module. The luminaire will dim to 50% power, 50% light output, per the dimming profile shown for the ECF-APD. If motion is detected during the time that the luminaire is operating at 50%, the luminaire returns to 100% power and light output. The luminaire remains on high until no motion is detected for the duration period, after which the luminaire returns to low. Duration period is factory set at 15 minutes, and is field adjustable from 5 minutes up to 15 minutes.

Notes:

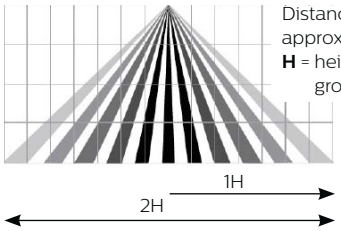
ECF-APD-MRO is available in 120V through 277V input only to luminaire. The motion sensor requires either 120V or 277V input to the motion sensor.

The ECF-APD-MRO has the same pole requirements and utilizes the same motion sensors as the ECF-MR50. The motion sensor mounts and wires identically as well. The ECF-APD-MRO utilizes the identical dimming profile as shown for the ECF-APD.

By combining the benefits of automatic profile dimming and motion response, the ECF-APD-MRO assures maximum energy savings, and insures that adequate light is present if motion is detected.

All motion sensors utilized consume 0.0 watts in the off state.

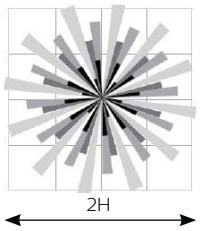
Luminaire Configuration Information (Continued)



ECF-MRI

Luminaires with Motion Response include a LED driver and an integral programmable motion sensor. The motion sensor is set to a constant 50%. When motion is detected, the luminaire goes to 100%. The luminaire remains on high until no motion is detected for the motion sensor duration period, after which the luminaire returns to low. Duration period is factory set at 5 minutes. Available with 120V or 277V only.

Luminaires include a passive infrared (PIR) motion sensor, WattStopper® FSP-211 equipped with an FSP-L3 lens, capable of detecting motion within 20 feet of the sensor, 180° around the luminaire, when placed at a 20 foot mounting height, or mounted on a wall. Available in 120V or 277V input only. Motion sensor off state power is 0.0 watts.



The approximate motion sensor coverage pattern is as shown below.

Side Coverage Pattern

Distances are approximate.
H = height above ground

Top Coverage Pattern

ECF-APD-MRI

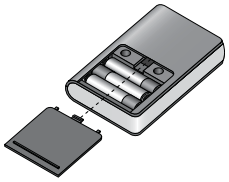
Luminaires with Automatic Profile Dimming and Motion Response Override combine the benefits of both automatic profile dimming and motion response. APD-MRI luminaires utilize Philips DynaDimmer. The luminaire will dim to 50% power, 50% light output, per the dimming profile shown for APD luminaires (see page 4). If motion is detected during the time that the luminaire is operating at 50%, the luminaire goes to 100% power and light output. The luminaire remains on high until no motion is detected for the duration period, after which the luminaire returns to low. Duration period is factory set at 5 minutes.

APD-MRI luminaires are available with 120V or 277V input voltages only.

APD-MRI luminaires use the identical motion sensor as MRI luminaires. See motion sensor details for ECF-MRI.

FS1R-100 Wireless Remote Programming Tool

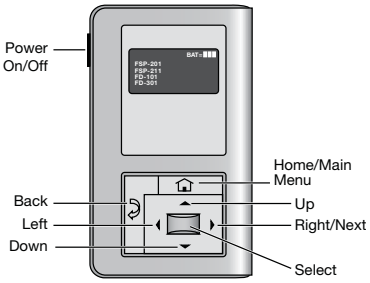
The FS1R-100 Remote Programming Tool accessory permits adjustment of ECF-MRI and ECF-APD-MRI sensor settings, including duration and dimming level on low, without the need to connect any wires to the luminaire.



The FS1R-100 Wireless IR Programming Tool is a handheld tool for setup and testing of WattStopper FSP-211. It provides wireless access to the FSP-211 sensors for setup and parameter changes.

The FS1R-100 display shows menus and prompts to lead you through each process. The navigation pad provides a familiar way to navigate through the customization fields.

Within a certain mounting height of the sensor, the FS1R-100 allows modification of the system without requiring ladders or tools simply with a touch of a few buttons.



The FS1R-100 IR transceiver allows bi-directional communication between the FSP-211 and the FS1R-100 programming tool . Simple menu screens let you see the current status of the system and make changes. It can change FSP-211 sensor parameters such as high/low mode, sensitivity, time delay, cut off and more. With the FS1R-100 you can also establish and store FSP-211 parameter profiles.

The FS1R-100 operates on three standard 1.5V AAA Alkaline batteries or three rechargeable AAA NiMH batteries. The battery status displays in the upper right corner of the display. Three bars next to BAT= indicates a full battery charge. A warning appears on the display when the battery level falls below a minimum acceptable level. To conserve battery power, the FS1R-100 automatically shuts off 10 minutes after the last key press.

You navigate from one field to another using (up) or (down) arrow keys. The active field is indicated by flashing (alternates between yellow text on black background and black text on yellow background.)

Once active, use the Select button to move to a menu or function within the active field. Value fields are used to adjust parameter settings. They are shown in “less-than/greater-than” symbols: <value>. Once active, change them using (left) and (right) arrow keys. In general the up key increments and the down key decrements a value. Selections wrap-around if you continue to press the key beyond maximum or minimum values. Moving away from the value field overwrites the original value. The Home button takes you to the main menu. The Back button can be thought of as an undo function. It takes you back one screen. Changes that were in process prior to pressing the key are lost.More information on the FS1R-100 Remote Programming Tool is available at wattstopper.com.

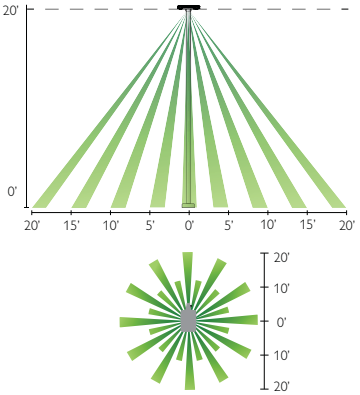
Luminaire Configuration Information – EcoForm with LimeLight

ECF-LLC2

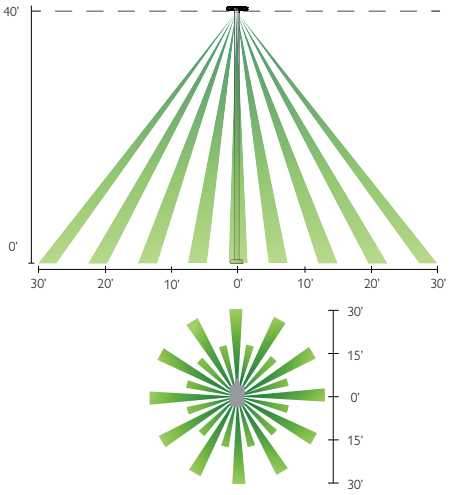
EcoForm with Limelight wireless technology



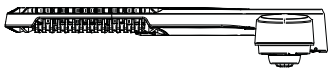
Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #2 lens for 8-15' mounting heights.

ECF-LLC3

EcoForm with Limelight wireless technology



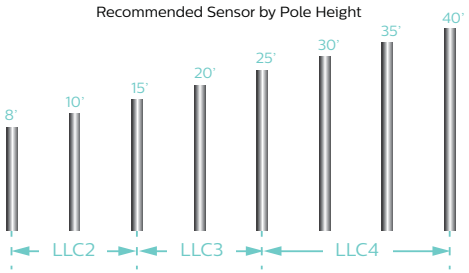
Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #3 lens for 15-25' mounting heights.



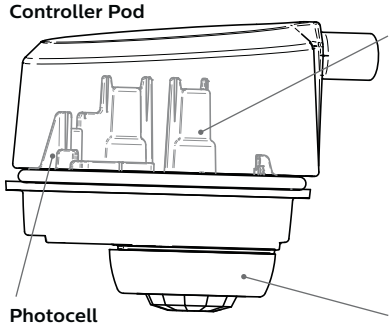
ECF-LLC4

EcoForm with Limelight wireless technology

Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #4 lens for 25-40' mounting heights.



Luminaire Configuration Information – EcoForm with LimeLight



ECF-LLC(#)

With this configuration, the controller pod is mounted to the luminaire arm. One controller is required per luminaire. There are three different motion sensor configurations available. Each one corresponds to the desired mounting height that for your specific application. See motion response detection ranges below.

Controller Pod

Photocell

- Ambient light photocell on every wireless radio that averages the light levels of up to 5 controllers for an accurate reading and optimal light harvesting activity.
- Reports ambient light readings to 1500 Fc.

Wireless Radio

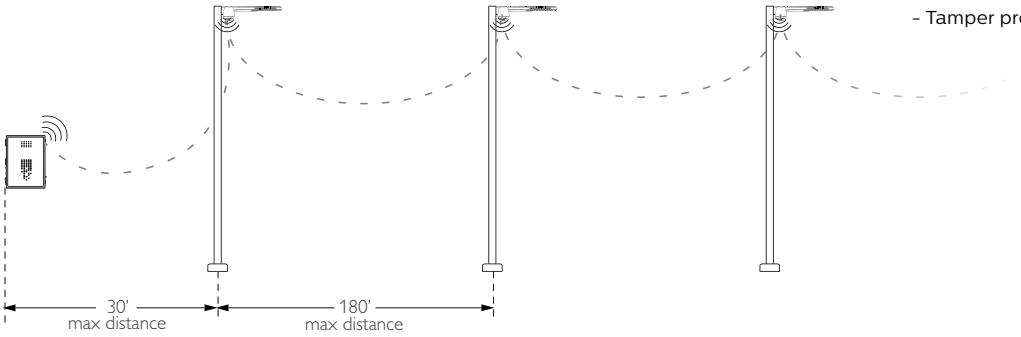
- 1.8 Watts max (no load draw)
- Operating voltage 102-277V RMS
- Communicates using the ZigBee protocol
- Carries out dimming commands from gateway
- Reports internal PCB temperature
- Transmission Systems Operating within the band 2400-2483.5Mhz. IEEE 802.15.4
- ROHS Compliant

Motion Response

- Three different lens configurations
- Detects motion through passive InfraRed sensing technology
- Connects directly to radio through modular jack
- Three different mounting heights and detecion ranges available

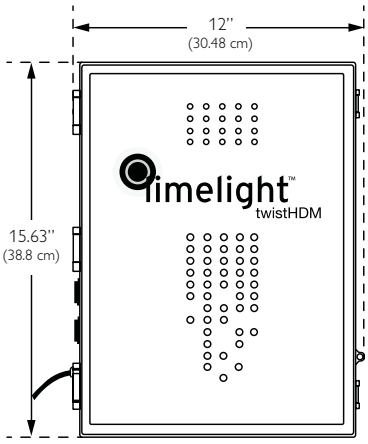
Luminaire Configuration Information – EcoForm with LimeLight (Continued)

Gateway



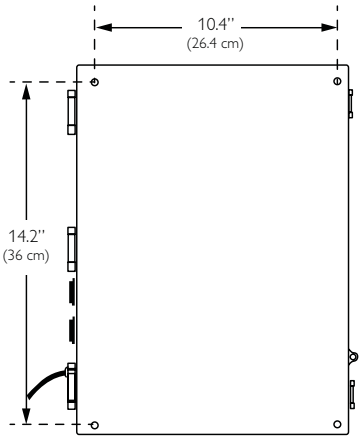
Overview: One gateway is included with the wireless controls system. The gateway opens up communication with the wireless radios installed with the EcoForm luminaires (or pole), allowing you to control your fixtures straight from the web. One LimeLight gateway can communicate with up to 800 fixtures. Typically one unit is required per parking lot.

Installation: Gateway has 4 blind threaded holes on the back side that accept 10-32 screws. Mount spacing is 10.41" across and 14.19" vertical.



Requirements: The gateway must be mounted in a secure on-site location. The gateway requires 120V. Distance of gateway to the first radio varies upon application; contact factory. Strong internet connection required.

Specifications:



- High density RF Mesh coordinator
- Ethernet or wireless internet connection to LimeLight server
- Proprietor of software "rules of operation"
- Watertight Ethernet connections
- Highly protected, long life ac/dc power supply
- Single board, ARM compliant 520Mhz Intel computer.
- Operating Temperature -20°C to 55°C
- Tamper proof housing

ECF EcoForm

Site & Area

Specifications

Housing

One piece die cast aluminum housing with integral arm and separate,self retained hinged, one piece die cast door frame.

IP Rating

LED light engine rated IP66.

Vibration Resistance

EcoForm with Standard Arm carries a 3G vibration rating that conforms to standards set forth by ANSI C136.31. Testing includes vibration to 3G acceleration in three axes, all performed on the same luminaire.

Electrical

Driver efficiency (>90% standard). 120-480V available (restrictions apply). Open/short circuit protection. Optional 0-10V dimming to 10% power. RoHS compliant. Surge protector standard. 10KA per ANSI/IEEE C62.41.2.

LED Board and Array

32, 48, or 64 LEDs. Color temperatures: 3000K, 4000K, 5700K +/- 250K. Minimum CRI of 70. Aluminum metal clad board. RoHS compliant.

LED Thermal Management

The housing design allows the one piece housing to provide excellent thermal management critical to long LED system life.

Energy Saving Benefits

System efficacy up to 95 lms/W with significant energy savings over Pulse Start Metal Halide luminaires. Optional control options provide added energy savings during unoccupied periods.

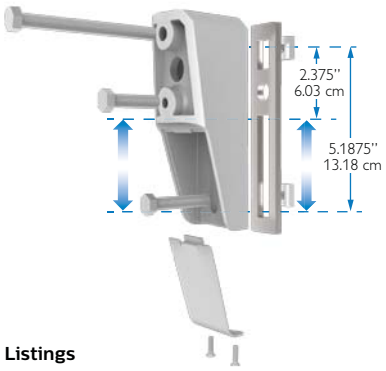
Wireless Controls

The LimeLight wireless Controls System includes: gateway, controller pod (with wireless radio, motion response, and photocell), and commissioning/training. LimeLight is an intelligent web-based system that operates through a high density mesh (HDM) wireless technology. Wireless radios with motion response and photocell sensors are integrated with PureForm luminaires, and enable the fixtures to communicate via the ZigBee protocol. The gateway is a mini computer that connects to the internet, and is located in a secure location. The central LimeLight database channels communication to and from the gateway, allowing data to be viewed or managed through the web-based graphical user interface (GUI). See LimeLight pages for details and technical information.

Motion Sensors

ECF-MR50, ECF-APD-MRO, ECF-MRI, ECF-APD-MRI luminaires may be specified for additional energy savings during unoccupied periods. See pages 4-6 for complete details.

Optical Systems



Type 2, 3, 4, and 5 distributions available. Internal Shield option mounts to LED optics and is available with Type 2, 3, and 4 distributions to control backlight.

Mounting

Standard luminaire arm mounts to 4" round poles. Square pole adapter included with every luminaire. Round Pole Adapter (RPA) required for 3-3.9" poles.

Retrofit Arm Mount

EcoForm features an innovative retrofit arm kit. When specified with the retrofit arm (RAM) option, EcoForm seamlessly simplifies site conversions to LED by eliminating the need for additional pole drilling on most existing poles. RAM will be boxed separately.

Listings

ETL/cETL listed to the UL 1598 standard, suitable for Wet Locations. Suitable for use in ambients from -40° to 40°C (-40° to 104°F). The quality systems of this facility have been registered by UL to the ISO 9001 series standards. All EcoForm luminaires equipped with NW and CW are DesignLights Consortium® qualified.

Finish

Each standard color luminaire receives a fade and abrasion resistant, electrostatically applied, thermally cured, triglycidal isocyanurate (TGIC) textured polyester powdercoat finish. Standard colors include bronze (BRP), black (BLP), white (WP), and natural aluminum (NP). Consult factory for specs on optional or custom colors.

Warranty

EcoForm luminaires feature a 5 year limited warranty. Philips Gardco LED luminaires with LED arrays feature a 5 year limited warranty covering the LED arrays. LED Drivers also carry a 5 year limited warranty. Motion sensors are covered by warranty for 5 years by the motion sensor manufacturer.

LED Performance

Predicted Lumen Depreciation Data[1]				
Ambient Temperature °C	**Driver** (mA)	**Calculated L_{70} Hours[1,2]**	**L_{70} Per TM-21[2,3]**	**Lumen Maintenance % @ 60,000 hours**
Up to 40 °C	Up to 1050 mA	> 350,000 hours	> 60,000 hours	97%

1. Predicted performance derived from LED manufacturer's data and engineering design estimates, based on IESNA LM-80 methodology. Actual experience may vary due to field application conditions.
2. L70 is the predicted time when LED performance depreciates to 70% of initial lumen output.
3. Calculated per IESNA TM21-11. Published L70 hours limited to 6 times actual LED test hours.

EcoForm

Project:	PANERA BREAD
Location:	ROCKWELL
Cat.No:	ECF-5-215LA-641A-NW
Type:	S2
Qty:	1 (DUAL HEAD)
Notes:	

EcoForm combines economy with performance in an LED area luminaire. Capable of delivering up to 20,000 lumens or more in a compact, low profile housing, EcoForm offers a new level of customer value. EcoForm features an innovative retrofit arm kit, simplifying site conversions to LED by eliminating the need to drill additional holes in most existing poles. Integral control systems, including motion response and wireless controls are available for further energy savings during off peak hours.

1. Available in 120V–277V Voltages only (UNV, 120, 208, 240 & 277).
2. MR50 and APD-MRO luminaires require one motion sensor per pole, ordered separately. See page 2 for Accessories. Available in 120V or 277V only.
3. ECF-MRI requires outboarded sensor when used with Terminal Block (TB) Option.
4. Contact factory for lead times on warm white.
5. LLC2/LLC3/LLC4 Wireless Controls are not configurable with PC/PCB/PCR5/PCR7 Options. See page 7-8 for more info.
6. Not configurable with Type 5 (5) Optics.
7. Not configurable with 120-277V (UNV) Voltage. Voltage must be specified.
8. Not configurable with 480V (480) Voltage.
9. Not configurable with 3@120 (3@120) Mounting.
10. No adaptor required for 4" round poles. RPAs provided with Black Paint standard.
11. Works with 3-pin or 5-pin NEMA photocell/dimming device.
12. Works with 3-pin or 5-pin NEMA photocell/dimming device and auxiliary connections are not connected (for future use only).
13. If ordered with DIM, APD, MRI, MR50, APD-MRI, APD-MRO, dimming will not be connected to NEMA receptacle.

ECF EcoForm

Site & Area

EcoForm Accessories (order separately)

FS1R-100

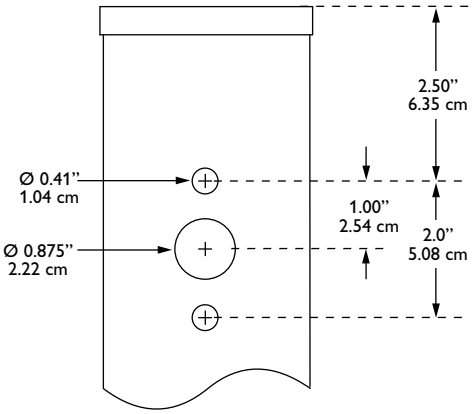
MR hand held programmer

For use with 'MRI' motion response when field programming is required. If desired, only one is needed per job.

MS-A-120V

120V Input Area Motion Sensor

For MR50 (Motion Response) or APD-MRO (Automatic Profile Dimming with Motion Response Override)



MS-A-277V

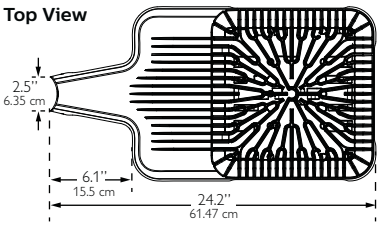
277V Input Area Motion Sensor

For MR50 (Motion Response) or APD-MRO (Automatic Profile Dimming with Motion Response Override)

Note: Motion Sensors are ordered separately, with one (1) motion sensor required per pole location for MR50 or APD-MRO luminaires. See Luminaire Configuration Information on page 5 for more details. Area motion sensor color is Arctic White. MRI and APD-MRI luminaires include an integral motion sensor.

EcoForm Drill Template (standard arm mount)

LED Wattage and Lumen Values (standard EcoForm luminaire)



Order Code (standard units)	Array Quantity	Total LEDs	LED Current (mA)	Average System Watts[1]	LED Selection	Initial Lumens[2]

Luminaire Configuration Information

ECF

Philips Gardco EcoForm LED standard luminaire providing constant wattage and constant light output when power to the luminaire is energized.

ECF-DIM

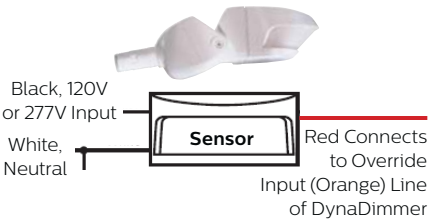
Philips Gardco EcoForm LED luminaire provided with 0-10V dimming for connection to a control system provided by others.

ECF-APD

Philips Gardco EcoForm LED luminaire with Automatic Profile Dimming. Luminaire is provided with a Philips DynaDimmer module, programmed to go to 50% power, 50% light output two (2) hours prior to night time mid-point and remain at 50% for six (6) hours after night time mid-point. Mid-point is continuously recalculated by the Philips DynaDimmer module based on the average mid-point of the last two full night cycles. Short duration cycles, and power interruptions are ignored and do not affect the determination of mid-point.

ECF-APD is available in 120V–277V input only.

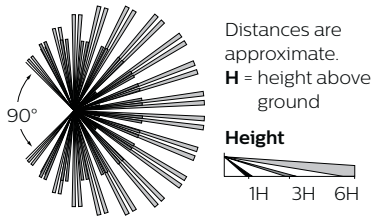
ECF-APD Dimming Profile:



100%	2 hours	6 hours	100%
	50%	50%	
Power On		Mid Point	Power Off

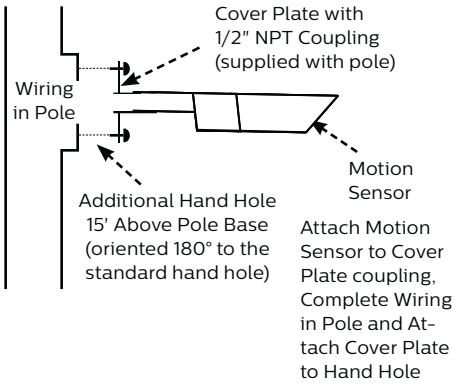
ECF-MR50

Philips Gardco EcoForm LED luminaire with motion response, providing a 50% power reduction on low and a commensurate reduction in light output. The power and light output reduction is accomplished utilizing the Philips DynaDimmer module, programmed for a constant 50% power. Power supplied by the motion sensor connected to the override line on the DynaDimmer takes the luminaire to high setting, 100% power and light output, when motion is detected. The luminaire remains on high until no motion is detected for the motion sensor duration period, after which the luminaire returns to low. Duration period is factory set at 15 minutes, and is field adjustable from 5 minutes up to 15 minutes.



ECF-MR50 is available in 120V–277V input only to the luminaire. Motion sensors require single voltage 120V or 277V input.

The Area PIR motion sensor is the WattStopper EW-200-120-W (120V Input - MSA-120V) or the WattStopper EW-200-277-W (277V Input - MSA-277V.) One motion sensor per pole is required and is ordered separately. Area sensors require single voltage 120V or 277V input.



The area motion detector provides coverage equal to up to 6 times the sensor height above ground, 270° from the front-center of the sensor.

Area PIR Motion Sensor Coverage Pattern:

Motion response requires that the pole include an additional hand hole 15 feet above the pole base, normally oriented 180° to the standard hand hole. For Philips Gardco poles, order the pole with the Motion Sensor Mounting (MSM) option which includes the hand hole and a special hand hole cover plate for the sensor with a 1/2" NPT receptacle centered on the hand hole cover plate into which the motion sensor mounts. Once the motion sensor is connected to the hand hole cover plate, then wiring connections are completed in the pole. The plate (complete with motion sensor attached and wired) is then mounted to the hand hole. If poles are supplied by others, the customer is responsible for providing suitable mounting accommodations for the motion sensor in the pole.

Mounting to a Philips Gardco Pole:

ECF-APD-MRO

Philips Gardco EcoForm LED luminaire with Automatic Profile Dimming, with Motion Response Override. The ECF-APD-MRO combines the benefits of both automatic profile dimming and motion response, using the Philips DynaDimmer module. The luminaire will dim to 50% power, 50% light output, per the dimming profile shown for the ECF-APD. If motion is detected during the time that the luminaire is operating at 50%, the luminaire returns to 100% power and light output. The luminaire remains on high until no motion is detected for the duration period, after which the luminaire returns to low. Duration period is factory set at 15 minutes, and is field adjustable from 5 minutes up to 15 minutes.

Notes:

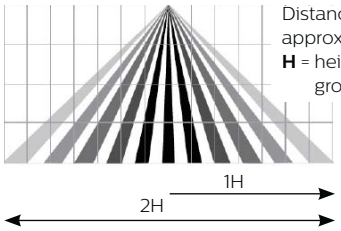
ECF-APD-MRO is available in 120V through 277V input only to luminaire. The motion sensor requires either 120V or 277V input to the motion sensor.

The ECF-APD-MRO has the same pole requirements and utilizes the same motion sensors as the ECF-MR50. The motion sensor mounts and wires identically as well. The ECF-APD-MRO utilizes the identical dimming profile as shown for the ECF-APD.

By combining the benefits of automatic profile dimming and motion response, the ECF-APD-MRO assures maximum energy savings, and insures that adequate light is present if motion is detected.

All motion sensors utilized consume 0.0 watts in the off state.

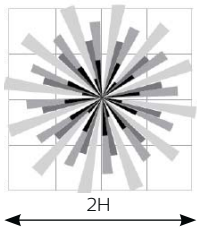
Luminaire Configuration Information (Continued)



ECF-MRI

Luminaires with Motion Response include a LED driver and an integral programmable motion sensor. The motion sensor is set to a constant 50%. When motion is detected, the luminaire goes to 100%. The luminaire remains on high until no motion is detected for the motion sensor duration period, after which the luminaire returns to low. Duration period is factory set at 5 minutes. Available with 120V or 277V only.

Luminaires include a passive infrared (PIR) motion sensor, WattStopper® FSP-211 equipped with an FSP-L3 lens, capable of detecting motion within 20 feet of the sensor, 180° around the luminaire, when placed at a 20 foot mounting height, or mounted on a wall. Available in 120V or 277V input only. Motion sensor off state power is 0.0 watts.



The approximate motion sensor coverage pattern is as shown below.

Side Coverage Pattern

Distances are approximate.
H = height above ground

Top Coverage Pattern

ECF-APD-MRI

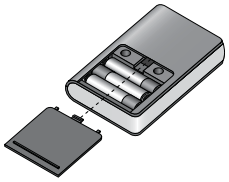
Luminaires with Automatic Profile Dimming and Motion Response Override combine the benefits of both automatic profile dimming and motion response. APD-MRI luminaires utilize Philips DynaDimmer. The luminaire will dim to 50% power, 50% light output, per the dimming profile shown for APD luminaires (see page 4). If motion is detected during the time that the luminaire is operating at 50%, the luminaire goes to 100% power and light output. The luminaire remains on high until no motion is detected for the duration period, after which the luminaire returns to low. Duration period is factory set at 5 minutes.

APD-MRI luminaires are available with 120V or 277V input voltages only.

APD-MRI luminaires use the identical motion sensor as MRI luminaires. See motion sensor details for ECF-MRI.

FS1R-100 Wireless Remote Programming Tool

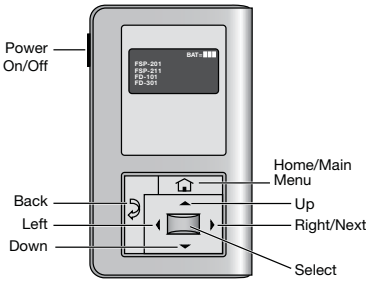
The FS1R-100 Remote Programming Tool accessory permits adjustment of ECF-MRI and ECF-APD-MRI sensor settings, including duration and dimming level on low, without the need to connect any wires to the luminaire.



The FS1R-100 Wireless IR Programming Tool is a handheld tool for setup and testing of WattStopper FSP-211. It provides wireless access to the FSP-211 sensors for setup and parameter changes.

The FS1R-100 display shows menus and prompts to lead you through each process. The navigation pad provides a familiar way to navigate through the customization fields.

Within a certain mounting height of the sensor, the FS1R-100 allows modification of the system without requiring ladders or tools simply with a touch of a few buttons.



The FS1R-100 IR transceiver allows bi-directional communication between the FSP-211 and the FS1R-100 programming tool . Simple menu screens let you see the current status of the system and make changes. It can change FSP-211 sensor parameters such as high/low mode, sensitivity, time delay, cut off and more. With the FS1R-100 you can also establish and store FSP-211 parameter profiles.

The FS1R-100 operates on three standard 1.5V AAA Alkaline batteries or three rechargeable AAA NiMH batteries. The battery status displays in the upper right corner of the display. Three bars next to BAT= indicates a full battery charge. A warning appears on the display when the battery level falls below a minimum acceptable level. To conserve battery power, the FS1R-100 automatically shuts off 10 minutes after the last key press.

You navigate from one field to another using (up) or (down) arrow keys. The active field is indicated by flashing (alternates between yellow text on black background and black text on yellow background.)

Once active, use the Select button to move to a menu or function within the active field. Value fields are used to adjust parameter settings. They are shown in “less-than/greater-than” symbols: <value>. Once active, change them using (left) and (right) arrow keys. In general the up key increments and the down key decrements a value. Selections wrap-around if you continue to press the key beyond maximum or minimum values. Moving away from the value field overwrites the original value. The Home button takes you to the main menu. The Back button can be thought of as an undo function. It takes you back one screen. Changes that were in process prior to pressing the key are lost.More information on the FS1R-100 Remote Programming Tool is available at wattstopper.com.

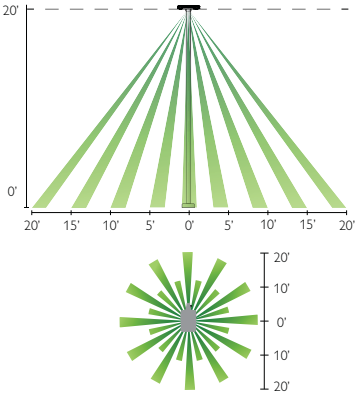
Luminaire Configuration Information – EcoForm with LimeLight

ECF-LLC2

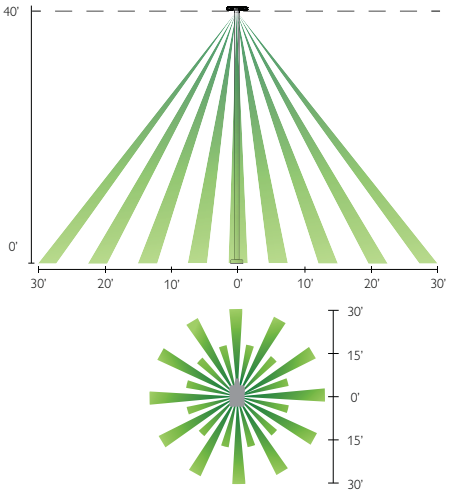
EcoForm with Limelight wireless technology



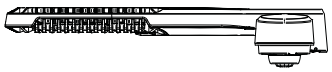
Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #2 lens for 8-15' mounting heights.

ECF-LLC3

EcoForm with Limelight wireless technology



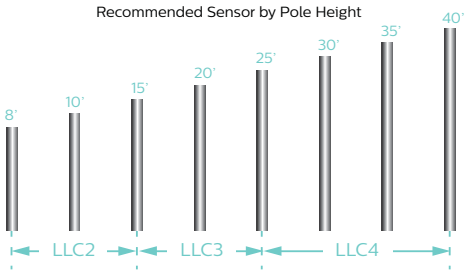
Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #3 lens for 15-25' mounting heights.



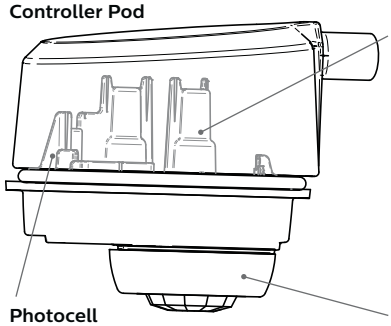
ECF-LLC4

EcoForm with Limelight wireless technology

Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #4 lens for 25-40' mounting heights.



Luminaire Configuration Information – EcoForm with LimeLight



ECF-LLC(#)

With this configuration, the controller pod is mounted to the luminaire arm. One controller is required per luminaire. There are three different motion sensor configurations available. Each one corresponds to the desired mounting height that for your specific application. See motion response detection ranges below.

Controller Pod

Photocell

- Ambient light photocell on every wireless radio that averages the light levels of up to 5 controllers for an accurate reading and optimal light harvesting activity.
- Reports ambient light readings to 1500 Fc.

Wireless Radio

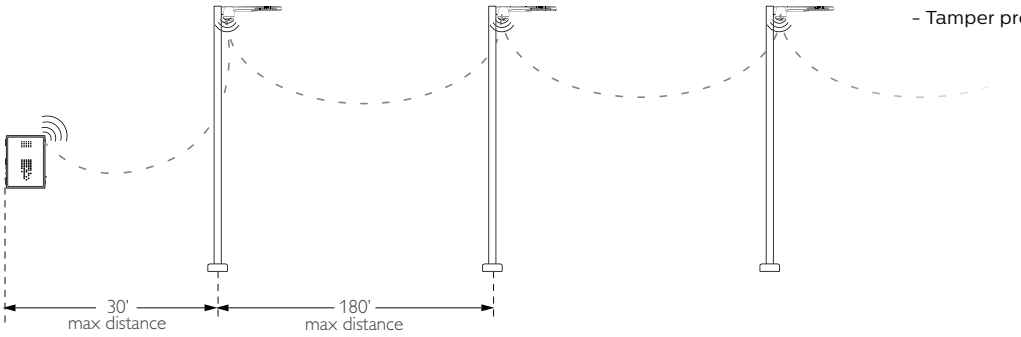
- 1.8 Watts max (no load draw)
- Operating voltage 102-277V RMS
- Communicates using the ZigBee protocol
- Carries out dimming commands from gateway
- Reports internal PCB temperature
- Transmission Systems Operating within the band 2400-2483.5Mhz. IEEE 802.15.4
- ROHS Compliant

Motion Response

- Three different lens configurations
- Detects motion through passive InfraRed sensing technology
- Connects directly to radio through modular jack
- Three different mounting heights and detecion ranges available

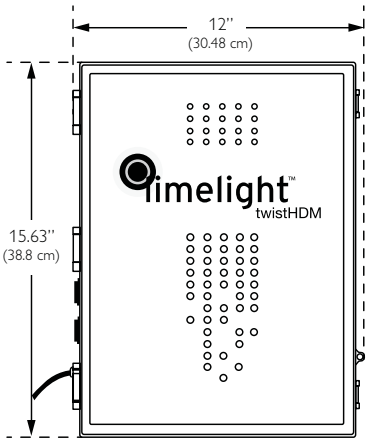
Luminaire Configuration Information – EcoForm with LimeLight (Continued)

Gateway



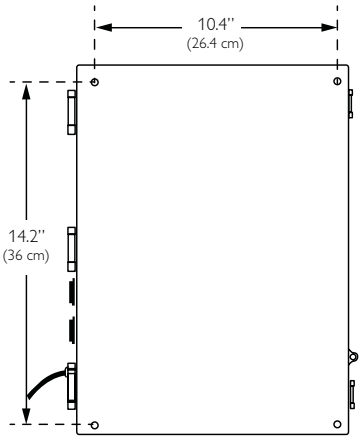
Overview: One gateway is included with the wireless controls system. The gateway opens up communication with the wireless radios installed with the EcoForm luminaires (or pole), allowing you to control your fixtures straight from the web. One LimeLight gateway can communicate with up to 800 fixtures. Typically one unit is required per parking lot.

Installation: Gateway has 4 blind threaded holes on the back side that accept 10-32 screws. Mount spacing is 10.41" across and 14.19" vertical.



Requirements: The gateway must be mounted in a secure on-site location. The gateway requires 120V. Distance of gateway to the first radio varies upon application; contact factory. Strong internet connection required.

Specifications:



- High density RF Mesh coordinator
- Ethernet or wireless internet connection to LimeLight server
- Proprietor of software "rules of operation"
- Watertight Ethernet connections
- Highly protected, long life ac/dc power supply
- Single board, ARM compliant 520Mhz Intel computer.
- Operating Temperature -20°C to 55°C
- Tamper proof housing

ECF EcoForm

Site & Area

Specifications

Housing

One piece die cast aluminum housing with integral arm and separate,self retained hinged, one piece die cast door frame.

IP Rating

LED light engine rated IP66.

Vibration Resistance

EcoForm with Standard Arm carries a 3G vibration rating that conforms to standards set forth by ANSI C136.31. Testing includes vibration to 3G acceleration in three axes, all performed on the same luminaire.

Electrical

Driver efficiency (>90% standard). 120-480V available (restrictions apply). Open/short circuit protection. Optional 0-10V dimming to 10% power. RoHS compliant. Surge protector standard. 10KA per ANSI/IEEE C62.41.2.

LED Board and Array

32, 48, or 64 LEDs. Color temperatures: 3000K, 4000K, 5700K +/- 250K. Minimum CRI of 70. Aluminum metal clad board. RoHS compliant.

LED Thermal Management

The housing design allows the one piece housing to provide excellent thermal management critical to long LED system life.

Energy Saving Benefits

System efficacy up to 95 lms/W with significant energy savings over Pulse Start Metal Halide luminaires. Optional control options provide added energy savings during unoccupied periods.

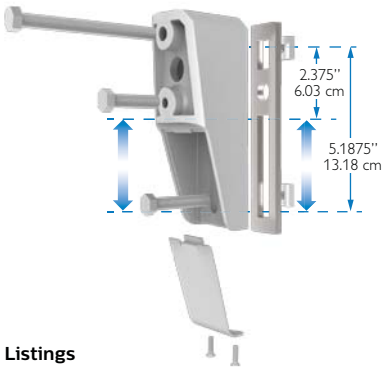
Wireless Controls

The LimeLight wireless Controls System includes: gateway, controller pod (with wireless radio, motion response, and photocell), and commissioning/training. LimeLight is an intelligent web-based system that operates through a high density mesh (HDM) wireless technology. Wireless radios with motion response and photocell sensors are integrated with PureForm luminaires, and enable the fixtures to communicate via the ZigBee protocol. The gateway is a mini computer that connects to the internet, and is located in a secure location. The central LimeLight database channels communication to and from the gateway, allowing data to be viewed or managed through the web-based graphical user interface (GUI). See LimeLight pages for details and technical information.

Motion Sensors

ECF-MR50, ECF-APD-MRO, ECF-MRI, ECF-APD-MRI luminaires may be specified for additional energy savings during unoccupied periods. See pages 4-6 for complete details.

Optical Systems



Type 2, 3, 4, and 5 distributions available. Internal Shield option mounts to LED optics and is available with Type 2, 3, and 4 distributions to control backlight.

Mounting

Standard luminaire arm mounts to 4" round poles. Square pole adapter included with every luminaire. Round Pole Adapter (RPA) required for 3-3.9" poles.

Retrofit Arm Mount

EcoForm features an innovative retrofit arm kit. When specified with the retrofit arm (RAM) option, EcoForm seamlessly simplifies site conversions to LED by eliminating the need for additional pole drilling on most existing poles. RAM will be boxed separately.

Listings

ETL/cETL listed to the UL 1598 standard, suitable for Wet Locations. Suitable for use in ambients from -40° to 40°C (-40° to 104°F). The quality systems of this facility have been registered by UL to the ISO 9001 series standards. All EcoForm luminaires equipped with NW and CW are DesignLights Consortium® qualified.

Finish

Each standard color luminaire receives a fade and abrasion resistant, electrostatically applied, thermally cured, triglycidal isocyanurate (TGIC) textured polyester powdercoat finish. Standard colors include bronze (BRP), black (BLP), white (WP), and natural aluminum (NP). Consult factory for specs on optional or custom colors.

Warranty

EcoForm luminaires feature a 5 year limited warranty. Philips Gardco LED luminaires with LED arrays feature a 5 year limited warranty covering the LED arrays. LED Drivers also carry a 5 year limited warranty. Motion sensors are covered by warranty for 5 years by the motion sensor manufacturer.

LED Performance

Predicted Lumen Depreciation Data[1]

Ambient Temperature °C	Driver (mA)	Calculated L_{70} Hours[1,2]	L_{70} Per TM-21[2,3]	Lumen Maintenance % @ 60,000 hours
Up to 40 °C	Up to 1050 mA	> 350,000 hours	> 60,000 hours	97%

1. Predicted performance derived from LED manufacturer's data and engineering design estimates, based on IESNA LM-80 methodology. Actual experience may vary due to field application conditions.
2. L70 is the predicted time when LED performance depreciates to 70% of initial lumen output.
3. Calculated per IESNA TM21-11. Published L70 hours limited to 6 times actual LED test hours.

EcoForm

Project:	PANERA BREAD
Location:	ROCKWELL
Cat.No:	ECF-2-215LA-641A-NW
Type:	S3
Qty:	1
Notes:	

EcoForm combines economy with performance in an LED area luminaire. Capable of delivering up to 20,000 lumens or more in a compact, low profile housing, EcoForm offers a new level of customer value. EcoForm features an innovative retrofit arm kit, simplifying site conversions to LED by eliminating the need to drill additional holes in most existing poles. Integral control systems, including motion response and wireless controls are available for further energy savings during off peak hours.

1. Available in 120V–277V Voltages only (UNV, 120, 208, 240 & 277).
2. MR50 and APD-MRO luminaires require one motion sensor per pole, ordered separately. See page 2 for Accessories. Available in 120V or 277V only.
3. ECF-MRI requires outboarded sensor when used with Terminal Block (TB) Option.
4. Contact factory for lead times on warm white.
5. LLC2/LLC3/LLC4 Wireless Controls are not configurable with PC/PCB/PCR5/PCR7 Options. See page 7-8 for more info.
6. Not configurable with Type 5 (5) Optics.
7. Not configurable with 120-277V (UNV) Voltage. Voltage must be specified.
8. Not configurable with 480V (480) Voltage.
9. Not configurable with 3@120 (3@120) Mounting.
10. No adaptor required for 4" round poles. RPAs provided with Black Paint standard.
11. Works with 3-pin or 5-pin NEMA photocell/dimming device.
12. Works with 3-pin or 5-pin NEMA photocell/dimming device and auxiliary connections are not connected (for future use only).
13. If ordered with DIM, APD, MRI, MR50, APD-MRI, APD-MRO, dimming will not be connected to NEMA receptacle.

ECF EcoForm

Site & Area

EcoForm Accessories (order separately)

FS1R-100

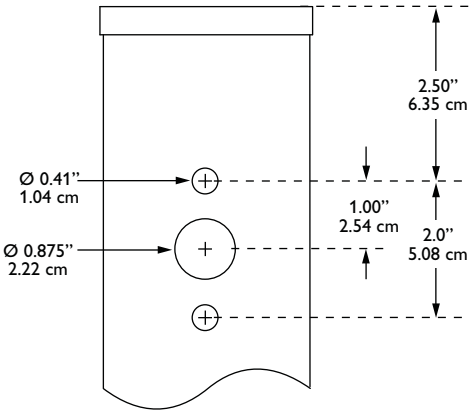
MR hand held programmer

For use with 'MRI' motion response when field programming is required. If desired, only one is needed per job.

MS-A-120V

120V Input Area Motion Sensor

For MR50 (Motion Response) or APD-MRO (Automatic Profile Dimming with Motion Response Override)



MS-A-277V

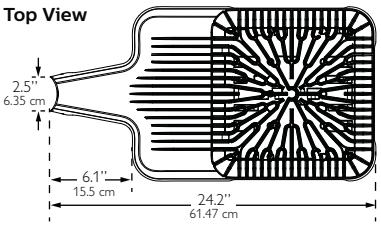
277V Input Area Motion Sensor

For MR50 (Motion Response) or APD-MRO (Automatic Profile Dimming with Motion Response Override)

Note: Motion Sensors are ordered separately, with one (1) motion sensor required per pole location for MR50 or APD-MRO luminaires. See Luminaire Configuration Information on page 5 for more details. Area motion sensor color is Arctic White. MRI and APD-MRI luminaires include an integral motion sensor.

EcoForm Drill Template (standard arm mount)

LED Wattage and Lumen Values (standard EcoForm luminaire)



Order Code (standard units)	Array Quantity	Total LEDs	LED Current (mA)	Average System Watts[1]	LED Selection	Initial Lumens[2]

Luminaire Configuration Information

ECF

Philips Gardco EcoForm LED standard luminaire providing constant wattage and constant light output when power to the luminaire is energized.

ECF-DIM

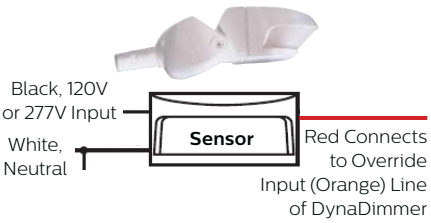
Philips Gardco EcoForm LED luminaire provided with 0-10V dimming for connection to a control system provided by others.

ECF-APD

Philips Gardco EcoForm LED luminaire with Automatic Profile Dimming. Luminaire is provided with a Philips DynaDimmer module, programmed to go to 50% power, 50% light output two (2) hours prior to night time mid-point and remain at 50% for six (6) hours after night time mid-point. Mid-point is continuously recalculated by the Philips DynaDimmer module based on the average mid-point of the last two full night cycles. Short duration cycles, and power interruptions are ignored and do not affect the determination of mid-point.

ECF-APD is available in 120V–277V input only.

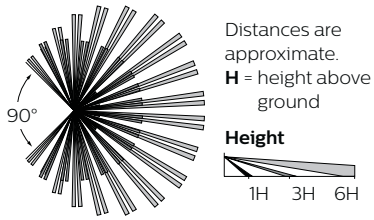
ECF-APD Dimming Profile:



100%	2 hours	6 hours	100%
	50%	50%	
Power On		Mid Point	Power Off

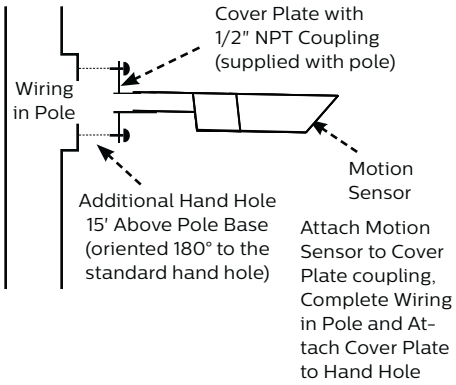
ECF-MR50

Philips Gardco EcoForm LED luminaire with motion response, providing a 50% power reduction on low and a commensurate reduction in light output. The power and light output reduction is accomplished utilizing the Philips DynaDimmer module, programmed for a constant 50% power. Power supplied by the motion sensor connected to the override line on the DynaDimmer takes the luminaire to high setting, 100% power and light output, when motion is detected. The luminaire remains on high until no motion is detected for the motion sensor duration period, after which the luminaire returns to low. Duration period is factory set at 15 minutes, and is field adjustable from 5 minutes up to 15 minutes.



ECF-MR50 is available in 120V–277V input only to the luminaire. Motion sensors require single voltage 120V or 277V input.

The Area PIR motion sensor is the WattStopper EW-200-120-W (120V Input - MSA-120V) or the WattStopper EW-200-277-W (277V Input - MSA-277V.) One motion sensor per pole is required and is ordered separately. Area sensors require single voltage 120V or 277V input.



The area motion detector provides coverage equal to up to 6 times the sensor height above ground, 270° from the front-center of the sensor.

Area PIR Motion Sensor Coverage Pattern:

Motion response requires that the pole include an additional hand hole 15 feet above the pole base, normally oriented 180° to the standard hand hole. For Philips Gardco poles, order the pole with the Motion Sensor Mounting (MSM) option which includes the hand hole and a special hand hole cover plate for the sensor with a 1/2" NPT receptacle centered on the hand hole cover plate into which the motion sensor mounts. Once the motion sensor is connected to the hand hole cover plate, then wiring connections are completed in the pole. The plate (complete with motion sensor attached and wired) is then mounted to the hand hole. If poles are supplied by others, the customer is responsible for providing suitable mounting accommodations for the motion sensor in the pole.

Mounting to a Philips Gardco Pole:

ECF-APD-MRO

Philips Gardco EcoForm LED luminaire with Automatic Profile Dimming, with Motion Response Override. The ECF-APD-MRO combines the benefits of both automatic profile dimming and motion response, using the Philips DynaDimmer module. The luminaire will dim to 50% power, 50% light output, per the dimming profile shown for the ECF-APD. If motion is detected during the time that the luminaire is operating at 50%, the luminaire returns to 100% power and light output. The luminaire remains on high until no motion is detected for the duration period, after which the luminaire returns to low. Duration period is factory set at 15 minutes, and is field adjustable from 5 minutes up to 15 minutes.

Notes:

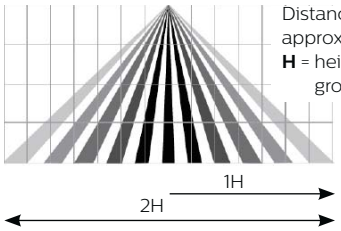
ECF-APD-MRO is available in 120V through 277V input only to luminaire. The motion sensor requires either 120V or 277V input to the motion sensor.

The ECF-APD-MRO has the same pole requirements and utilizes the same motion sensors as the ECF-MR50. The motion sensor mounts and wires identically as well. The ECF-APD-MRO utilizes the identical dimming profile as shown for the ECF-APD.

By combining the benefits of automatic profile dimming and motion response, the ECF-APD-MRO assures maximum energy savings, and insures that adequate light is present if motion is detected.

All motion sensors utilized consume 0.0 watts in the off state.

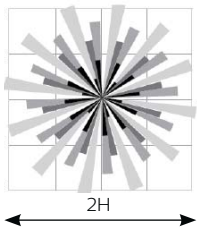
Luminaire Configuration Information (Continued)



ECF-MRI

Luminaires with Motion Response include a LED driver and an integral programmable motion sensor. The motion sensor is set to a constant 50%. When motion is detected, the luminaire goes to 100%. The luminaire remains on high until no motion is detected for the motion sensor duration period, after which the luminaire returns to low. Duration period is factory set at 5 minutes. Available with 120V or 277V only.

Luminaires include a passive infrared (PIR) motion sensor, WattStopper® FSP-211 equipped with an FSP-L3 lens, capable of detecting motion within 20 feet of the sensor, 180° around the luminaire, when placed at a 20 foot mounting height, or mounted on a wall. Available in 120V or 277V input only. Motion sensor off state power is 0.0 watts.



The approximate motion sensor coverage pattern is as shown below.

Side Coverage Pattern

Distances are approximate.
H = height above ground

Top Coverage Pattern

ECF-APD-MRI

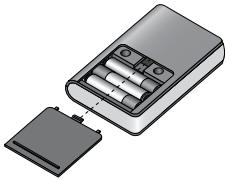
Luminaires with Automatic Profile Dimming and Motion Response Override combine the benefits of both automatic profile dimming and motion response. APD-MRI luminaires utilize Philips DynaDimmer. The luminaire will dim to 50% power, 50% light output, per the dimming profile shown for APD luminaires (see page 4). If motion is detected during the time that the luminaire is operating at 50%, the luminaire goes to 100% power and light output. The luminaire remains on high until no motion is detected for the duration period, after which the luminaire returns to low. Duration period is factory set at 5 minutes.

APD-MRI luminaires are available with 120V or 277V input voltages only.

APD-MRI luminaires use the identical motion sensor as MRI luminaires. See motion sensor details for ECF-MRI.

FS1R-100 Wireless Remote Programming Tool

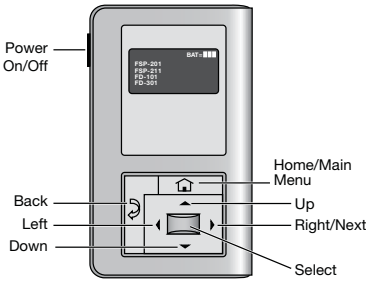
The FS1R-100 Remote Programming Tool accessory permits adjustment of ECF-MRI and ECF-APD-MRI sensor settings, including duration and dimming level on low, without the need to connect any wires to the luminaire.



The FS1R-100 Wireless IR Programming Tool is a handheld tool for setup and testing of WattStopper FSP-211. It provides wireless access to the FSP-211 sensors for setup and parameter changes.

The FS1R-100 display shows menus and prompts to lead you through each process. The navigation pad provides a familiar way to navigate through the customization fields.

Within a certain mounting height of the sensor, the FS1R-100 allows modification of the system without requiring ladders or tools simply with a touch of a few buttons.



The FS1R-100 IR transceiver allows bi-directional communication between the FSP-211 and the FS1R-100 programming tool . Simple menu screens let you see the current status of the system and make changes. It can change FSP-211 sensor parameters such as high/low mode, sensitivity, time delay, cut off and more. With the FS1R-100 you can also establish and store FSP-211 parameter profiles.

The FS1R-100 operates on three standard 1.5V AAA Alkaline batteries or three rechargeable AAA NiMH batteries. The battery status displays in the upper right corner of the display. Three bars next to BAT= indicates a full battery charge. A warning appears on the display when the battery level falls below a minimum acceptable level. To conserve battery power, the FS1R-100 automatically shuts off 10 minutes after the last key press.

You navigate from one field to another using (up) or (down) arrow keys. The active field is indicated by flashing (alternates between yellow text on black background and black text on yellow background.)

Once active, use the Select button to move to a menu or function within the active field. Value fields are used to adjust parameter settings. They are shown in “less-than/greater-than” symbols: <value>. Once active, change them using (left) and (right) arrow keys. In general the up key increments and the down key decrements a value. Selections wrap-around if you continue to press the key beyond maximum or minimum values. Moving away from the value field overwrites the original value. The Home button takes you to the main menu. The Back button can be thought of as an undo function. It takes you back one screen. Changes that were in process prior to pressing the key are lost.More information on the FS1R-100 Remote Programming Tool is available at wattstopper.com.

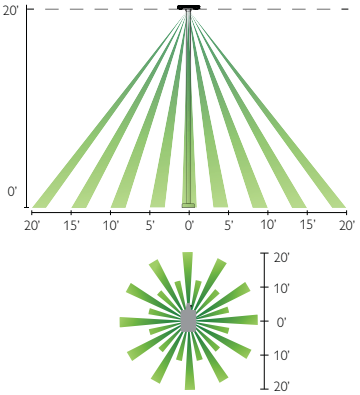
Luminaire Configuration Information – EcoForm with LimeLight

ECF-LLC2

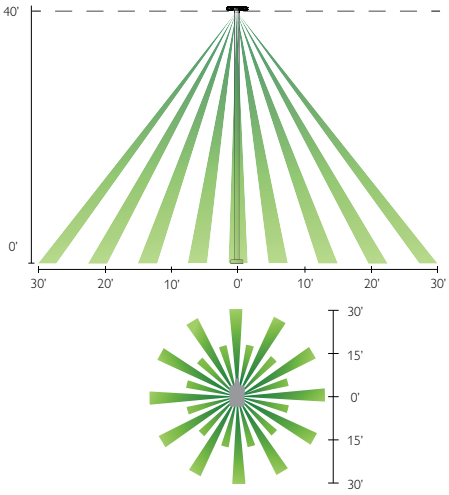
EcoForm with Limelight wireless technology



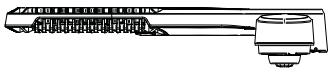
Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #2 lens for 8-15' mounting heights.

ECF-LLC3

EcoForm with Limelight wireless technology



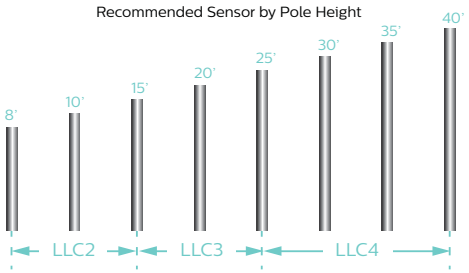
Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #3 lens for 15-25' mounting heights.



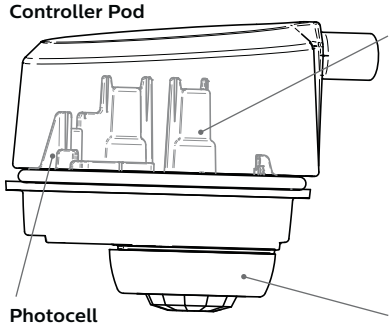
ECF-LLC4

EcoForm with Limelight wireless technology

Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #4 lens for 25-40' mounting heights.



Luminaire Configuration Information – EcoForm with LimeLight



ECF-LLC(#)

With this configuration, the controller pod is mounted to the luminaire arm. One controller is required per luminaire. There are three different motion sensor configurations available. Each one corresponds to the desired mounting height that for your specific application. See motion response detection ranges below.

Controller Pod

Photocell

- Ambient light photocell on every wireless radio that averages the light levels of up to 5 controllers for an accurate reading and optimal light harvesting activity.
- Reports ambient light readings to 1500 Fc.

Wireless Radio

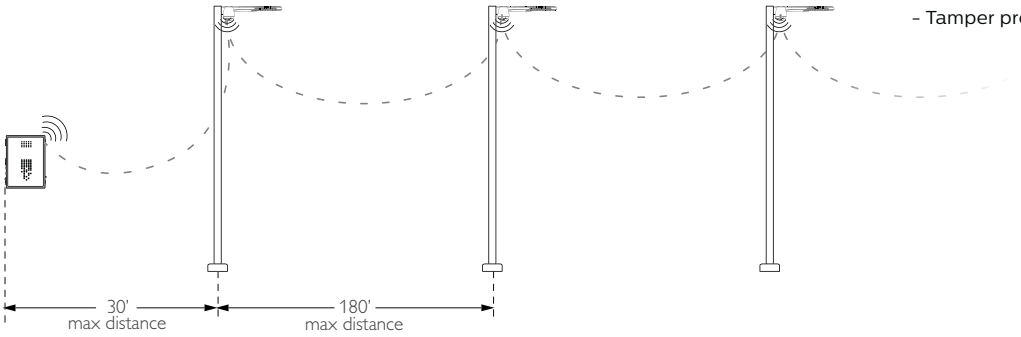
- 1.8 Watts max (no load draw)
- Operating voltage 102-277V RMS
- Communicates using the ZigBee protocol
- Carries out dimming commands from gateway
- Reports internal PCB temperature
- Transmission Systems Operating within the band 2400-2483.5Mhz. IEEE 802.15.4
- ROHS Compliant

Motion Response

- Three different lens configurations
- Detects motion through passive InfraRed sensing technology
- Connects directly to radio through modular jack
- Three different mounting heights and detecion ranges available

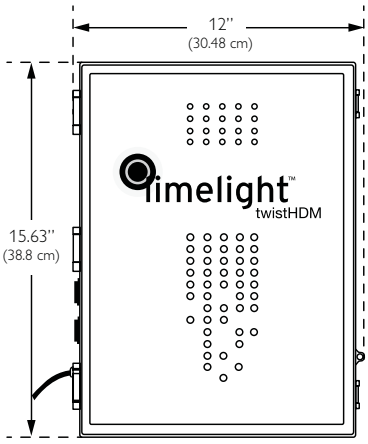
Luminaire Configuration Information – EcoForm with LimeLight (Continued)

Gateway



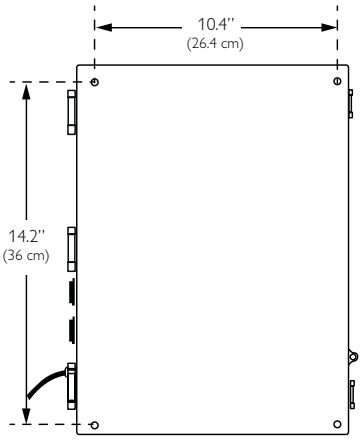
Overview: One gateway is included with the wireless controls system. The gateway opens up communication with the wireless radios installed with the EcoForm luminaires (or pole), allowing you to control your fixtures straight from the web. One LimeLight gateway can communicate with up to 800 fixtures. Typically one unit is required per parking lot.

Installation: Gateway has 4 blind threaded holes on the back side that accept 10-32 screws. Mount spacing is 10.41" across and 14.19" vertical.



Requirements: The gateway must be mounted in a secure on-site location. The gateway requires 120V. Distance of gateway to the first radio varies upon application; contact factory. Strong internet connection required.

Specifications:



- High density RF Mesh coordinator
- Ethernet or wireless internet connection to LimeLight server
- Proprietor of software "rules of operation"
- Watertight Ethernet connections
- Highly protected, long life ac/dc power supply
- Single board, ARM compliant 520Mhz Intel computer.
- Operating Temperature -20°C to 55°C
- Tamper proof housing

ECF EcoForm

Site & Area

Specifications

Housing

One piece die cast aluminum housing with integral arm and separate,self retained hinged, one piece die cast door frame.

IP Rating

LED light engine rated IP66.

Vibration Resistance

EcoForm with Standard Arm carries a 3G vibration rating that conforms to standards set forth by ANSI C136.31. Testing includes vibration to 3G acceleration in three axes, all performed on the same luminaire.

Electrical

Driver efficiency (>90% standard). 120-480V available (restrictions apply). Open/short circuit protection. Optional 0-10V dimming to 10% power. RoHS compliant. Surge protector standard. 10KA per ANSI/IEEE C62.41.2.

LED Board and Array

32, 48, or 64 LEDs. Color temperatures: 3000K, 4000K, 5700K +/- 250K. Minimum CRI of 70. Aluminum metal clad board. RoHS compliant.

LED Thermal Management

The housing design allows the one piece housing to provide excellent thermal management critical to long LED system life.

Energy Saving Benefits

System efficacy up to 95 lms/W with significant energy savings over Pulse Start Metal Halide luminaires. Optional control options provide added energy savings during unoccupied periods.

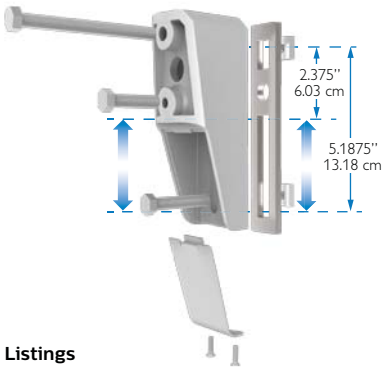
Wireless Controls

The LimeLight wireless Controls System includes: gateway, controller pod (with wireless radio, motion response, and photocell), and commissioning/training. LimeLight is an intelligent web-based system that operates through a high density mesh (HDM) wireless technology. Wireless radios with motion response and photocell sensors are integrated with PureForm luminaires, and enable the fixtures to communicate via the ZigBee protocol. The gateway is a mini computer that connects to the internet, and is located in a secure location. The central LimeLight database channels communication to and from the gateway, allowing data to be viewed or managed through the web-based graphical user interface (GUI). See LimeLight pages for details and technical information.

Motion Sensors

ECF-MR50, ECF-APD-MRO, ECF-MRI, ECF-APD-MRI luminaires may be specified for additional energy savings during unoccupied periods. See pages 4-6 for complete details.

Optical Systems



Type 2, 3, 4, and 5 distributions available. Internal Shield option mounts to LED optics and is available with Type 2, 3, and 4 distributions to control backlight.

Mounting

Standard luminaire arm mounts to 4" round poles. Square pole adapter included with every luminaire. Round Pole Adapter (RPA) required for 3-3.9" poles.

Retrofit Arm Mount

EcoForm features an innovative retrofit arm kit. When specified with the retrofit arm (RAM) option, EcoForm seamlessly simplifies site conversions to LED by eliminating the need for additional pole drilling on most existing poles. RAM will be boxed separately.

Listings

ETL/cETL listed to the UL 1598 standard, suitable for Wet Locations. Suitable for use in ambients from -40° to 40°C (-40° to 104°F). The quality systems of this facility have been registered by UL to the ISO 9001 series standards. All EcoForm luminaires equipped with NW and CW are DesignLights Consortium® qualified.

Finish

Each standard color luminaire receives a fade and abrasion resistant, electrostatically applied, thermally cured, triglycidal isocyanurate (TGIC) textured polyester powdercoat finish. Standard colors include bronze (BRP), black (BLP), white (WP), and natural aluminum (NP). Consult factory for specs on optional or custom colors.

Warranty

EcoForm luminaires feature a 5 year limited warranty. Philips Gardco LED luminaires with LED arrays feature a 5 year limited warranty covering the LED arrays. LED Drivers also carry a 5 year limited warranty. Motion sensors are covered by warranty for 5 years by the motion sensor manufacturer.

LED Performance

Predicted Lumen Depreciation Data[1]

Ambient Temperature °C	Driver (mA)	Calculated L_{70} Hours[1,2]	L_{70} Per TM-21[2,3]	Lumen Maintenance % @ 60,000 hours
Up to 40 °C	Up to 1050 mA	> 350,000 hours	> 60,000 hours	97%

1. Predicted performance derived from LED manufacturer's data and engineering design estimates, based on IESNA LM-80 methodology. Actual experience may vary due to field application conditions.
2. L70 is the predicted time when LED performance depreciates to 70% of initial lumen output.
3. Calculated per IESNA TM21-11. Published L70 hours limited to 6 times actual LED test hours.

EcoForm

Project:	PANERA BREAD
Location:	ROCKWELL
Cat.No:	ECF-5-215LA-641A-NW
Type:	S5
Qty:	2
Notes:	

EcoForm combines economy with performance in an LED area luminaire. Capable of delivering up to 20,000 lumens or more in a compact, low profile housing, EcoForm offers a new level of customer value. EcoForm features an innovative retrofit arm kit, simplifying site conversions to LED by eliminating the need to drill additional holes in most existing poles. Integral control systems, including motion response and wireless controls are available for further energy savings during off peak hours.

1. Available in 120V–277V Voltages only (UNV, 120, 208, 240 & 277).
2. MR50 and APD-MRO luminaires require one motion sensor per pole, ordered separately. See page 2 for Accessories. Available in 120V or 277V only.
3. ECF-MRI requires outboarded sensor when used with Terminal Block (TB) Option.
4. Contact factory for lead times on warm white.
5. LLC2/LLC3/LLC4 Wireless Controls are not configurable with PC/PCB/PCR5/PCR7 Options. See page 7-8 for more info.
6. Not configurable with Type 5 (5) Optics.
7. Not configurable with 120-277V (UNV) Voltage. Voltage must be specified.
8. Not configurable with 480V (480) Voltage.
9. Not configurable with 3@120 (3@120) Mounting.
10. No adaptor required for 4" round poles. RPAs provided with Black Paint standard.
11. Works with 3-pin or 5-pin NEMA photocell/dimming device.
12. Works with 3-pin or 5-pin NEMA photocell/dimming device and auxiliary connections are not connected (for future use only).
13. If ordered with DIM, APD, MRI, MR50, APD-MRI, APD-MRO, dimming will not be connected to NEMA receptacle.

ECF EcoForm

Site & Area

EcoForm Accessories (order separately)

FS1R-100

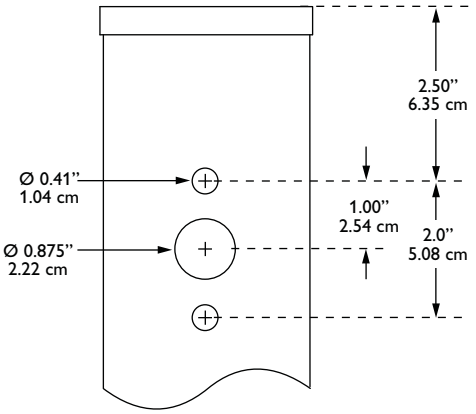
MR hand held programmer

For use with 'MRI' motion response when field programming is required. If desired, only one is needed per job.

MS-A-120V

120V Input Area Motion Sensor

For MR50 (Motion Response) or APD-MRO (Automatic Profile Dimming with Motion Response Override)



MS-A-277V

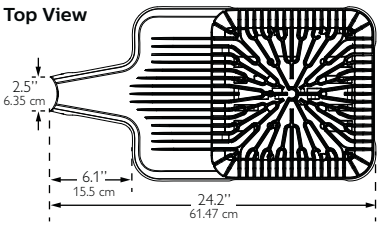
277V Input Area Motion Sensor

For MR50 (Motion Response) or APD-MRO (Automatic Profile Dimming with Motion Response Override)

Note: Motion Sensors are ordered separately, with one (1) motion sensor required per pole location for MR50 or APD-MRO luminaires. See Luminaire Configuration Information on page 5 for more details. Area motion sensor color is Arctic White. MRI and APD-MRI luminaires include an integral motion sensor.

EcoForm Drill Template (standard arm mount)

LED Wattage and Lumen Values (standard EcoForm luminaire)



Order Code (standard units)	Array Quantity	Total LEDs	LED Current (mA)	Average System Watts[1]	LED Selection	Initial Lumens[2]			
						2 Type 2	3 Type 3	4 Type 4	5 Type 5

Luminaire Configuration Information

ECF

Philips Gardco EcoForm LED standard luminaire providing constant wattage and constant light output when power to the luminaire is energized.

ECF-DIM

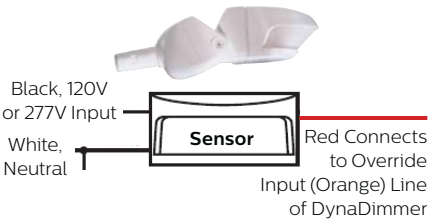
Philips Gardco EcoForm LED luminaire provided with 0-10V dimming for connection to a control system provided by others.

ECF-APD

Philips Gardco EcoForm LED luminaire with Automatic Profile Dimming. Luminaire is provided with a Philips DynaDimmer module, programmed to go to 50% power, 50% light output two (2) hours prior to night time mid-point and remain at 50% for six (6) hours after night time mid-point. Mid-point is continuously recalculated by the Philips DynaDimmer module based on the average mid-point of the last two full night cycles. Short duration cycles, and power interruptions are ignored and do not affect the determination of mid-point.

ECF-APD is available in 120V–277V input only.

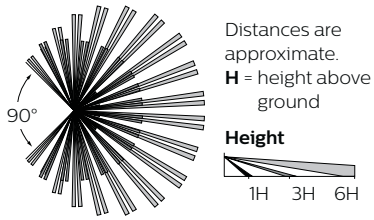
ECF-APD Dimming Profile:



100%	2 hours	6 hours	100%
	50%	50%	
Power On		Mid Point	Power Off

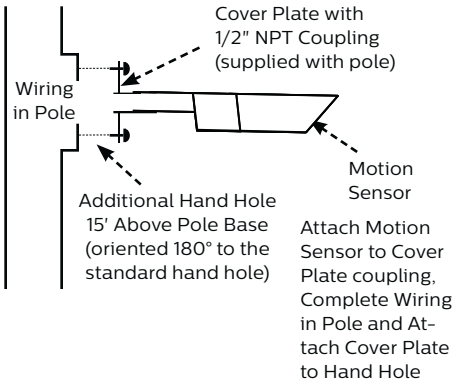
ECF-MR50

Philips Gardco EcoForm LED luminaire with motion response, providing a 50% power reduction on low and a commensurate reduction in light output. The power and light output reduction is accomplished utilizing the Philips DynaDimmer module, programmed for a constant 50% power. Power supplied by the motion sensor connected to the override line on the DynaDimmer takes the luminaire to high setting, 100% power and light output, when motion is detected. The luminaire remains on high until no motion is detected for the motion sensor duration period, after which the luminaire returns to low. Duration period is factory set at 15 minutes, and is field adjustable from 5 minutes up to 15 minutes.



ECF-MR50 is available in 120V–277V input only to the luminaire. Motion sensors require single voltage 120V or 277V input.

The Area PIR motion sensor is the WattStopper EW-200-120-W (120V Input - MSA-120V) or the WattStopper EW-200-277-W (277V Input - MSA-277V.) One motion sensor per pole is required and is ordered separately. Area sensors require single voltage 120V or 277V input.



The area motion detector provides coverage equal to up to 6 times the sensor height above ground, 270° from the front-center of the sensor.

Area PIR Motion Sensor Coverage Pattern:

Motion response requires that the pole include an additional hand hole 15 feet above the pole base, normally oriented 180° to the standard hand hole. For Philips Gardco poles, order the pole with the Motion Sensor Mounting (MSM) option which includes the hand hole and a special hand hole cover plate for the sensor with a 1/2" NPT receptacle centered on the hand hole cover plate into which the motion sensor mounts. Once the motion sensor is connected to the hand hole cover plate, then wiring connections are completed in the pole. The plate (complete with motion sensor attached and wired) is then mounted to the hand hole. If poles are supplied by others, the customer is responsible for providing suitable mounting accommodations for the motion sensor in the pole.

Mounting to a Philips Gardco Pole:

ECF-APD-MRO

Philips Gardco EcoForm LED luminaire with Automatic Profile Dimming, with Motion Response Override. The ECF-APD-MRO combines the benefits of both automatic profile dimming and motion response, using the Philips DynaDimmer module. The luminaire will dim to 50% power, 50% light output, per the dimming profile shown for the ECF-APD. If motion is detected during the time that the luminaire is operating at 50%, the luminaire returns to 100% power and light output. The luminaire remains on high until no motion is detected for the duration period, after which the luminaire returns to low. Duration period is factory set at 15 minutes, and is field adjustable from 5 minutes up to 15 minutes.

Notes:

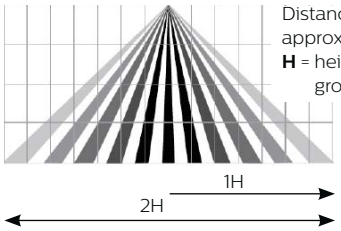
ECF-APD-MRO is available in 120V through 277V input only to luminaire. The motion sensor requires either 120V or 277V input to the motion sensor.

The ECF-APD-MRO has the same pole requirements and utilizes the same motion sensors as the ECF-MR50. The motion sensor mounts and wires identically as well. The ECF-APD-MRO utilizes the identical dimming profile as shown for the ECF-APD.

By combining the benefits of automatic profile dimming and motion response, the ECF-APD-MRO assures maximum energy savings, and insures that adequate light is present if motion is detected.

All motion sensors utilized consume 0.0 watts in the off state.

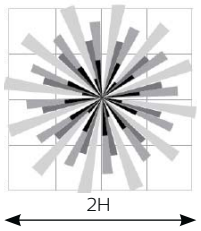
Luminaire Configuration Information (Continued)



ECF-MRI

Luminaires with Motion Response include a LED driver and an integral programmable motion sensor. The motion sensor is set to a constant 50%. When motion is detected, the luminaire goes to 100%. The luminaire remains on high until no motion is detected for the motion sensor duration period, after which the luminaire returns to low. Duration period is factory set at 5 minutes. Available with 120V or 277V only.

Luminaires include a passive infrared (PIR) motion sensor, WattStopper® FSP-211 equipped with an FSP-L3 lens, capable of detecting motion within 20 feet of the sensor, 180° around the luminaire, when placed at a 20 foot mounting height, or mounted on a wall. Available in 120V or 277V input only. Motion sensor off state power is 0.0 watts.



The approximate motion sensor coverage pattern is as shown below.

Side Coverage Pattern

Distances are approximate.
H = height above ground

Top Coverage Pattern

ECF-APD-MRI

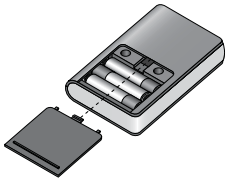
Luminaires with Automatic Profile Dimming and Motion Response Override combine the benefits of both automatic profile dimming and motion response. APD-MRI luminaires utilize Philips DynaDimmer. The luminaire will dim to 50% power, 50% light output, per the dimming profile shown for APD luminaires (see page 4). If motion is detected during the time that the luminaire is operating at 50%, the luminaire goes to 100% power and light output. The luminaire remains on high until no motion is detected for the duration period, after which the luminaire returns to low. Duration period is factory set at 5 minutes.

APD-MRI luminaires are available with 120V or 277V input voltages only.

APD-MRI luminaires use the identical motion sensor as MRI luminaires. See motion sensor details for ECF-MRI.

FS1R-100 Wireless Remote Programming Tool

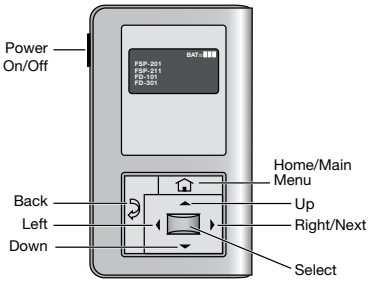
The FS1R-100 Remote Programming Tool accessory permits adjustment of ECF-MRI and ECF-APD-MRI sensor settings, including duration and dimming level on low, without the need to connect any wires to the luminaire.



The FS1R-100 Wireless IR Programming Tool is a handheld tool for setup and testing of WattStopper FSP-211. It provides wireless access to the FSP-211 sensors for setup and parameter changes.

The FS1R-100 display shows menus and prompts to lead you through each process. The navigation pad provides a familiar way to navigate through the customization fields.

Within a certain mounting height of the sensor, the FS1R-100 allows modification of the system without requiring ladders or tools simply with a touch of a few buttons.



The FS1R-100 IR transceiver allows bi-directional communication between the FSP-211 and the FS1R-100 programming tool . Simple menu screens let you see the current status of the system and make changes. It can change FSP-211 sensor parameters such as high/low mode, sensitivity, time delay, cut off and more. With the FS1R-100 you can also establish and store FSP-211 parameter profiles.

The FS1R-100 operates on three standard 1.5V AAA Alkaline batteries or three rechargeable AAA NiMH batteries. The battery status displays in the upper right corner of the display. Three bars next to BAT= indicates a full battery charge. A warning appears on the display when the battery level falls below a minimum acceptable level. To conserve battery power, the FS1R-100 automatically shuts off 10 minutes after the last key press.

You navigate from one field to another using (up) or (down) arrow keys. The active field is indicated by flashing (alternates between yellow text on black background and black text on yellow background.)

Once active, use the Select button to move to a menu or function within the active field. Value fields are used to adjust parameter settings. They are shown in “less-than/greater-than” symbols: <value>. Once active, change them using (left) and (right) arrow keys. In general the up key increments and the down key decrements a value. Selections wrap-around if you continue to press the key beyond maximum or minimum values. Moving away from the value field overwrites the original value. The Home button takes you to the main menu. The Back button can be thought of as an undo function. It takes you back one screen. Changes that were in process prior to pressing the key are lost.More information on the FS1R-100 Remote Programming Tool is available at wattstopper.com.

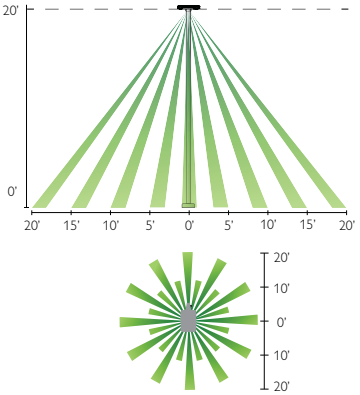
Luminaire Configuration Information – EcoForm with LimeLight

ECF-LLC2

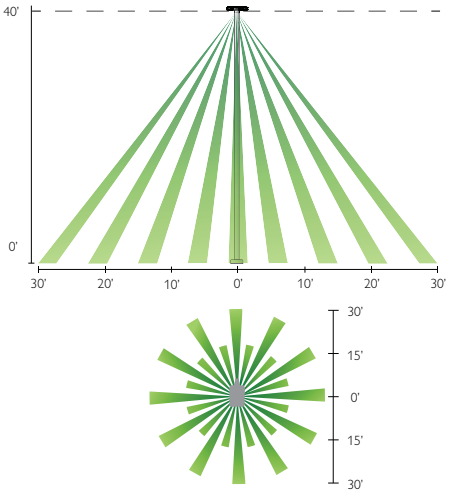
EcoForm with Limelight wireless technology



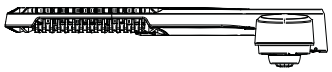
Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #2 lens for 8-15' mounting heights.

ECF-LLC3

EcoForm with Limelight wireless technology



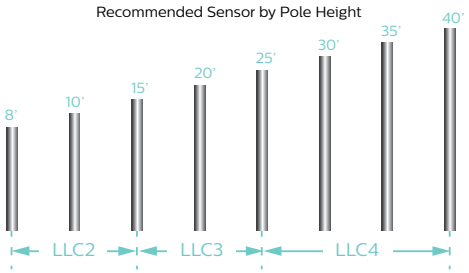
Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #3 lens for 15-25' mounting heights.



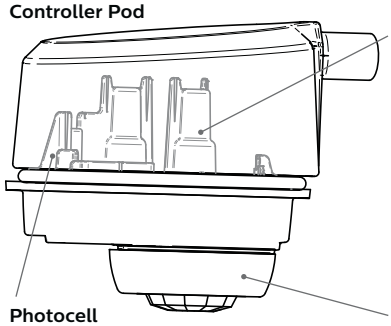
ECF-LLC4

EcoForm with Limelight wireless technology

Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #4 lens for 25-40' mounting heights.



Luminaire Configuration Information – EcoForm with LimeLight



ECF-LLC(#)

With this configuration, the controller pod is mounted to the luminaire arm. One controller is required per luminaire. There are three different motion sensor configurations available. Each one corresponds to the desired mounting height that for your specific application. See motion response detection ranges below.

Controller Pod

Photocell

- Ambient light photocell on every wireless radio that averages the light levels of up to 5 controllers for an accurate reading and optimal light harvesting activity.
- Reports ambient light readings to 1500 Fc.

Wireless Radio

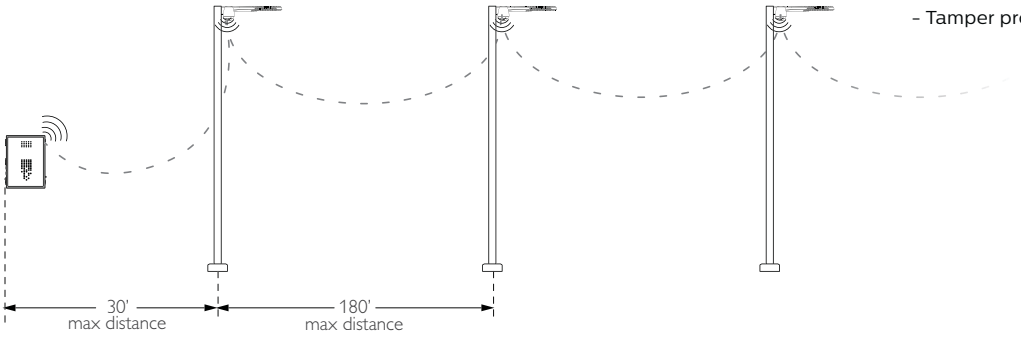
- 1.8 Watts max (no load draw)
- Operating voltage 102-277V RMS
- Communicates using the ZigBee protocol
- Carries out dimming commands from gateway
- Reports internal PCB temperature
- Transmission Systems Operating within the band 2400-2483.5Mhz. IEEE 802.15.4
- ROHS Compliant

Motion Response

- Three different lens configurations
- Detects motion through passive InfraRed sensing technology
- Connects directly to radio through modular jack
- Three different mounting heights and detecion ranges available

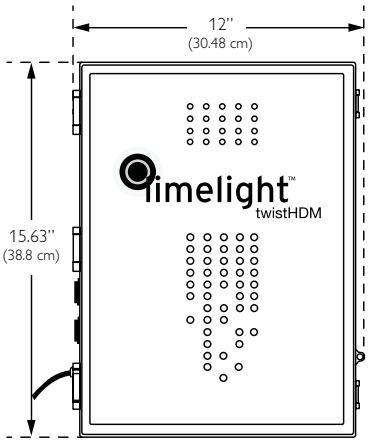
Luminaire Configuration Information – EcoForm with LimeLight (Continued)

Gateway



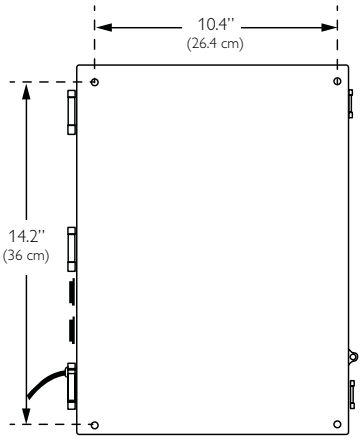
Overview: One gateway is included with the wireless controls system. The gateway opens up communication with the wireless radios installed with the EcoForm luminaires (or pole), allowing you to control your fixtures straight from the web. One LimeLight gateway can communicate with up to 800 fixtures. Typically one unit is required per parking lot.

Installation: Gateway has 4 blind threaded holes on the back side that accept 10-32 screws. Mount spacing is 10.41" across and 14.19" vertical.



Requirements: The gateway must be mounted in a secure on-site location. The gateway requires 120V. Distance of gateway to the first radio varies upon application; contact factory. Strong internet connection required.

Specifications:



- High density RF Mesh coordinator
- Ethernet or wireless internet connection to LimeLight server
- Proprietor of software "rules of operation"
- Watertight Ethernet connections
- Highly protected, long life ac/dc power supply
- Single board, ARM compliant 520Mhz Intel computer.
- Operating Temperature -20°C to 55°C
- Tamper proof housing

ECF EcoForm

Site & Area

Specifications

Housing

One piece die cast aluminum housing with integral arm and separate,self retained hinged, one piece die cast door frame.

IP Rating

LED light engine rated IP66.

Vibration Resistance

EcoForm with Standard Arm carries a 3G vibration rating that conforms to standards set forth by ANSI C136.31. Testing includes vibration to 3G acceleration in three axes, all performed on the same luminaire.

Electrical

Driver efficiency (>90% standard). 120-480V available (restrictions apply). Open/short circuit protection. Optional 0-10V dimming to 10% power. RoHS compliant. Surge protector standard. 10KA per ANSI/IEEE C62.41.2.

LED Board and Array

32, 48, or 64 LEDs. Color temperatures: 3000K, 4000K, 5700K +/- 250K. Minimum CRI of 70. Aluminum metal clad board. RoHS compliant.

LED Thermal Management

The housing design allows the one piece housing to provide excellent thermal management critical to long LED system life.

Energy Saving Benefits

System efficacy up to 95 lms/W with significant energy savings over Pulse Start Metal Halide luminaires. Optional control options provide added energy savings during unoccupied periods.

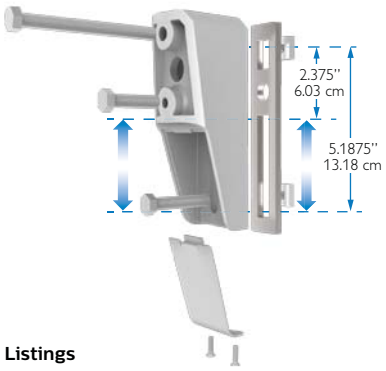
Wireless Controls

The LimeLight wireless Controls System includes: gateway, controller pod (with wireless radio, motion response, and photocell), and commissioning/training. LimeLight is an intelligent web-based system that operates through a high density mesh (HDM) wireless technology. Wireless radios with motion response and photocell sensors are integrated with PureForm luminaires, and enable the fixtures to communicate via the ZigBee protocol. The gateway is a mini computer that connects to the internet, and is located in a secure location. The central LimeLight database channels communication to and from the gateway, allowing data to be viewed or managed through the web-based graphical user interface (GUI). See LimeLight pages for details and technical information.

Motion Sensors

ECF-MR50, ECF-APD-MRO, ECF-MRI, ECF-APD-MRI luminaires may be specified for additional energy savings during unoccupied periods. See pages 4-6 for complete details.

Optical Systems



Type 2, 3, 4, and 5 distributions available. Internal Shield option mounts to LED optics and is available with Type 2, 3, and 4 distributions to control backlight.

Mounting

Standard luminaire arm mounts to 4" round poles. Square pole adapter included with every luminaire. Round Pole Adapter (RPA) required for 3-3.9" poles.

Retrofit Arm Mount

EcoForm features an innovative retrofit arm kit. When specified with the retrofit arm (RAM) option, EcoForm seamlessly simplifies site conversions to LED by eliminating the need for additional pole drilling on most existing poles. RAM will be boxed separately.

Listings

ETL/cETL listed to the UL 1598 standard, suitable for Wet Locations. Suitable for use in ambients from -40° to 40°C (-40° to 104°F). The quality systems of this facility have been registered by UL to the ISO 9001 series standards. All EcoForm luminaires equipped with NW and CW are DesignLights Consortium® qualified.

Finish

Each standard color luminaire receives a fade and abrasion resistant, electrostatically applied, thermally cured, triglycidal isocyanurate (TGIC) textured polyester powdercoat finish. Standard colors include bronze (BRP), black (BLP), white (WP), and natural aluminum (NP). Consult factory for specs on optional or custom colors.

Warranty

EcoForm luminaires feature a 5 year limited warranty. Philips Gardco LED luminaires with LED arrays feature a 5 year limited warranty covering the LED arrays. LED Drivers also carry a 5 year limited warranty. Motion sensors are covered by warranty for 5 years by the motion sensor manufacturer.

LED Performance

Predicted Lumen Depreciation Data[1]

Ambient Temperature °C	Driver (mA)	Calculated L_{70} Hours[1,2]	L_{70} Per TM-21[2,3]	Lumen Maintenance % @ 60,000 hours
Up to 40 °C	Up to 1050 mA	> 350,000 hours	> 60,000 hours	97%

1. Predicted performance derived from LED manufacturer's data and engineering design estimates, based on IESNA LM-80 methodology. Actual experience may vary due to field application conditions.
2. L70 is the predicted time when LED performance depreciates to 70% of initial lumen output.
3. Calculated per IESNA TM21-11. Published L70 hours limited to 6 times actual LED test hours.

AGENDA
PLANNING AND ZONING COMMISSION WORK SESSION
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
May 10, 2016
6:00 P.M.

CALL TO ORDER

CONSENT AGENDA

1. **Approval of Minutes** for the *April 26, 2016* Planning and Zoning Commission meeting.

2. **P2016-016 (David)**
   Discuss and consider a request by Bart Carroll of Carroll Consulting Group, Inc. on behalf of the owner Robert John Crowell of Crowell Development Corporation for the approval of a final plat for Wanda Ridge Estates, Phase 2 containing 45 single-family residential lots on 79.7111-acres identified as Tract 17-3 (*4.679-acres*), Tract 19 (*61.658-acres*), and Tract 42-01 (*13.374-acres*) of the S. McFadgin Survey, Abstract No. 142, Rockwall County, Texas, situated in the City of Rockwall's Extraterritorial Jurisdiction (ETJ), located north of the intersection of Wanda Lane and FM-548, and take any action necessary.

APPOINTMENTS

3. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

PUBLIC HEARING ITEMS

4. **Z2016-012 (Korey)**
   Hold a public hearing to discuss and consider a request by Jim Evans of CEI Engineering Associates, inc. on behalf of Bob Hubbard of EZ Mart Stores, Inc. for the approval of a Specific Use Permit (SUP) to allow a retail store with more than two (2) gasoline dispensers on a 0.918-acre parcel of land identified as Lot 1, Block A, Mr. M Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, and take any action necessary.

5. **Z2016-013 (David)**
   Hold a public hearing to discuss and consider a request by Garrett Lust of Pointe Land & Development, LLC on behalf of Marven Wu of West Union Investment, Co. for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single-Family 10 (SF-10) District land uses on a 81.49-acre parcel of land identified as Tract 16 of the J. A. Ramsey Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, located on Rochell Road south of the intersection of Rochell Road the SH-276, and take any action necessary.

6. **Z2016-014 (Ryan)**
   Hold a public hearing to discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of the owner Lakeside Church of Christ of Rockwall for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single Family 10 (SF-10) District land uses on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and located on the north side of Airport Road, west of the intersection of Airport Road and FM3549, and take any action necessary.

7. **Z2016-015 (Ryan)**
   Hold a public hearing to discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (*R. & R. Hance Investments, LP*) for the approval of a zoning amendment to Planned Development District 79 (PD-79) [*Ordinance No. 16-07*] for the purpose of amending the concept plan and incorporating 11.121-acres of land into the existing 44.292-acre development creating a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.

8. **Z2016-016** (Ryan)
   Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 4, *Southside Residential Neighborhood Overlay (SRO) District*, of Article V, *District Development Standards*, of the Unified Development Code, and take any action necessary.

9. **Z2016-017** (Ryan)
   Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 1, *Land Use Schedule*, and Section 2.1.8, *Auto and Marine-Related Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code for the purpose of changing the requirements for *Used Motor Vehicle Dealerships*, and take any action necessary.

ACTION ITEMS

10. **SP2016-006** (Ryan)
    Discuss and consider a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Michael James of U. V. Real Estate, LP for the approval of a site plan for an *Auto Body Shop* (*i.e. Service King Collision Repair*) on a 3.2039-acre tract of land described as Tract 7-01 of the J. Lockhart Survey, Abstract No. 134, City of Rockwall, Rockwall County, Texas, located at 1780 E IH-30, zoned Light Industrial (LI) District, situated within the IH-30 Overlay (IH-30 OV) District, and take any action necessary *[Postponed to the May 31, 2016 Planning and Zoning Work Session Meeting]*.

11. **SP2016-007** (David)
    Discuss and consider a request by Bryan M. Burger, PE of Burger Engineering, LLC on behalf of the owner Don Silverman of Rockwall 205-552, LLC for the approval of site plan for a grocery store (*i.e. Aldi Food Store*) on a 1.972-acre portion of a larger 9.183-acre tract of land identified as Tract 4-1 of the T. R. Bailey Survey, Abstract No. 30, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the northwest corner of the intersection of SH-205 [*N. Goliad Street*] and FM-552, and take any action necessary.

12. **SP2016-008** (Korey)
    Discuss and consider a request by Vincent Jarrard of Eurthmic Design Group Architects on behalf of the owner Cameron Bagley of Racetrac Petroleum, Inc. for the approval of site plan for a *car wash/auto detail* facility (*i.e. Carmel Carwash*) on a 1.3-acre tract of land identified as Lot 1, Block 1, Crossings Addition (*i.e. 1.004-acres*) and a 0.296-acre portion of Lot 1, Block 1, Rockwall Business Park Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2003 S. Goliad Street, and take any action necessary.

13. **SP2016-009** (David)
    Discuss and consider a request by Eric Morff of Cole on behalf of the owner 2804 Ridge, LLC for the approval of site plan for a *restaurant with drive-through* (*i.e. Panera Bread*) on a 0.93-acre parcel of land identified as Lot 2 of the Road Runner Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, addressed as 2804 S. Goliad Street, and take any action necessary.

14. **SP2016-010** (David)
    Discuss and consider a request by Glen Cox for the approval of site plan for an *office building* on a 2.60-acre tract of land identified as Lot 1, Block A, Corrigan Law Office Addition [*0.31-acres*] and Lot 8, Block A, Municipal Industrial Park Addition [*2.29-acres*], City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 805, 815 & 821 T. L. Townsend Drive, and take any action necessary.

15. **SP2014-011** (Ryan)
    Discuss and consider a request by Tom Pritchett on behalf of Channell Commercial Corporation for the approval of an amended site plan allowing for an alternative landscape plan for an *office and industrial facility* on an 18.763-acre parcel of land being identified as Lot 1, Block A, Channell Subdivision, City of Rockwall, Rockwall County, Texas, being zoned Light Industrial (LI) District, situated within the SH-205 By-Pass Corridor Overlay (205 BY-OV) District, addressed as 1700 John King Boulevard, and take any action necessary.

DISCUSSION ITEMS

16. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2016-013: Lots 1 & 2, Block A, Mendez Addition [*Approved*]
- ✓ P2016-014: Lot 1, Block 1, Rockwall-Pine Addition [*Approved*]
- ✓ P2016-015: Lots 1 & 2, Block A, JBR2 Addition [*Approved*]
- ✓ P2016-017: Lots 9, 10 & 11, Block A, Municipal Industrial Park Addition [*Approved*]
- ✓ Z2016-008: SUP for an Accessory Building at 735 David Drive (*2nd Reading*) [*Approved*]
- ✓ Z2016-009: SUP for a Minor Automotive Facility at 2225 Ridge Road (2nd *Reading*) [*Approved*]
- ✓ Z2016-010: PD Development Plan for Care Now (2nd *Reading*) [*Approved*]

ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator of the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 6th day of May, 2016 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

AGENDA
ARCHITECTURAL REVIEW BOARD MEETING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers Conference Room
May 10, 2016
5:00 P.M.

DISCUSSION ITEMS

1. **SP2016-007** **(David)**
   Discuss and consider a request by Bryan M. Burger, PE of Burger Engineering, LLC on behalf of the owner Don Silverman of Rockwall 205-552, LLC for the approval of site plan for a grocery store (*i.e. Aldi Food Store*) on a 1.972-acre portion of a larger 9.183-acre tract of land identified as Tract 4-1 of the T. R. Bailey Survey, Abstract No. 30, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the northwest corner of the intersection of SH-205 [*N. Goliad Street*] and FM-552, and take any action necessary.

2. **SP2016-008** **(Korey)**
   Discuss and consider a request by Vincent Jarrard of Eurthmic Design Group Architects on behalf of the owner Cameron Bagley of Racetrac Petroleum, Inc. for the approval of site plan for a *car wash/auto detail* facility (*i.e. Carmel Carwash*) on a 1.3-acre tract of land identified as Lot 1, Block 1, Crossings Addition (*i.e. 1.004-acres*) and a 0.296-acre portion of Lot 1, Block 1, Rockwall Business Park Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2003 S. Goliad Street, and take any action necessary.

3. **SP2016-009** **(David)**
   Discuss and consider a request by Eric Morff of Cole on behalf of the owner 2804 Ridge, LLC for the approval of site plan for a *restaurant with drive-through* (*i.e. Panera Bread*) on a 0.93-acre parcel of land identified as Lot 2 of the Road Runner Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 2804 S. Goliad Street, and take any action necessary.

ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 6th day of May, 2016, by 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MINUTES

PLANNING AND ZONING COMMISSION WORK SESSION

City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
April 26, 2016
6:00 P.M.

I. CALL TO ORDER

Chairman Renfro called the meeting to order at 6:07 p.m. Present were Commissioner John McCutcheon, Patrick Trowbridge, Johnny Logan, Tracy Logan and Sandra Whitley. Absent was Commissioner Annie Fishman. Staff members present were Planning Director, Ryan Miller, Senior Planner, David Gonzales, Planner, Korey Brooks, Planning Coordinator, Laura Morales, Assistant Engineer, Amy Williams, Civil Engineer, Jeremy White and Fire Marshal, Ariana Hargrove.

II. CONSENT AGENDA

1. Approval of Minutes for the April 12, 2016 Planning and Zoning Commission meeting.

2. P2016-013
Discuss and consider a request by Alexander Menjivar and Daniel & Lidia Mendez for the approval of a final plat for Lots 1 & 2, Block A, Mendez Addition being a five (5) acre tract of land identified as Tract 2 of the J. H. Bailey Survey, Abstract No. 45, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-276 Overlay (SH-276 OV) District, addressed as 5143 SH-276, and take any action necessary.

3. P2016-014
Discuss and consider a request by Daniel Stewart of Cates-Clark & Associates, LP on behalf of Jeff Finkel of Seaman Development Corporation for the approval of a final plat for Lot 1, Block 1, Rockwall-Pine Addition being a 3.642-acre portion of a larger 14.07-acre tract of land identified as Tract 4 of the J. D. McFarland Survey, Abstract No. 145, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 920 E. IH-30, located southwest of the intersection of Kyle Drive and the E. IH-30 frontage road and take any action necessary.

4. P2016-015
Discuss and consider a request by Jimmy Strohmeyer of Strohmeyer Architects, Inc. on behalf of JBR-2, LLC for the approval of a final plat for Lots 1 & 2, Block A, JBR2 Addition being a 7.329-acre tract of land identified as Tract 17-12 of the W. W. Ford Survey, Abstract No. 80, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated west of the intersection of SH-205 and FM-549, and take any action necessary.

5. P2016-017
Discuss and consider a request by Robert R. Varner, Jr. of Townsend Professional Centre, LLC for the approval of a replat creating Lots 9, 10, & 11, Block A, Municipal Industrial Park Addition, being a 2.60-acre parcel of land currently identified as Lot 8, Block A, Municipal Industrial Park Addition (*2.29-acres*) and Lot 1, Block A, Corrigan Law Office Addition (*0.31-acres*), City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated west of the intersection of SH-205 and FM-549, and take any action necessary.

Chairman Renfro made a motion to pass the consent agenda. Commissioner McCutcheon seconded the motion which passed by a vote of 6-0, with Commissioner Fishman absent.

III. APPOINTMENTS

6. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

ARB representative came forward and gave brief explanation of recommendation pertaining to the items on the agenda that required architectural review.

No discussion took place concerning this item.

IV. DISCUSSION ITEMS

7. Z2016-012

Hold a public hearing to discuss and consider a request by Jim Evans of CEI Engineering Associates, inc. on behalf of Bob Hubbard of EZ Mart Stores, Inc. for the approval of a Specific Use Permit (SUP) to allow a retail store with more than two (2) gasoline dispensers on a 0.918-acre parcel of land identified as Lot 1, Block A, Mr. M Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, and take any action necessary.

Planner, Korey Brooks stated applicant was present and available for questions.

Jeremy Eve
3030 LBJ Ste 100
Dallas, TX

Mr. Eve came forward and stated he is a consultant for Kroger on the project to demolish the existing EZ Mart gas station to build an 806 square foot building gas station with 8 dispensers and a canopy and will have 13 parking spaces. Additionally it will have a dumpster enclosure. They will keep the existing entrances. Received comments from staff and are prepared to address them without a problem.

Chairman Renfro asked for questions for applicant from the Commission.

Commissioner Trowbridge asked if number of pumps was 8 and of parking spaces were 13. Applicant stated that was correct.

Chairman Renfro asked if the gas pumps would be shielded from the store. Applicant stated that was correct.

Chairman Renfro asked if there would be a store or a booth as in the existing Kroger has already. Applicant stated it will be a convenient store.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

8. Z2016-013

Hold a public hearing to discuss and consider a request by Garrett Lust of Pointe Land & Development, LLC on behalf of Marven Wu of West Union Investment, Co. for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single-Family 10 (SF-10) District land uses on a 81.49-acre parcel of land identified as Tract 16 of the J. A. Ramsey Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, located on Rochell Road south of the intersection of Rochell Road the SH-276, and take any action necessary.

Senior Planner, David Gonzales stated applicant was present and available for questions.

Jason White
(No address given)

Mr. White came forward and stated he was one of the engineers with Jones and Carter representing the applicant. Mr. White gave brief explanation of request feels request for zoning change will fit with existing surrounding residential subdivisions. He spoke concerning amenities and park area. They have received comments from staff and are prepared to address those.

Commissioner Trowbridge asked how many acres and density. Mr. White stated the total is 81.5 acres and 224 residential lots total open space would be 22.3 percent.

Garrett Lust
(No address given)

Mr. Lust came forward and added they are staying with 2.5 units max density although ordinance states it to be 2.0 clauses within that allow for that and due to the proposal of the park feels it is acceptable to request that change.

Commissioner Trowbridge asked what density was in PD 69 which surrounds the area Mr. Gonzales stated he would provide that information at the next meeting.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

9. Z2016-014
Hold a public hearing to discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of the owner Lakeside Church of Christ of Rockwall for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single Family 10 (SF-10) District land uses on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and located on the north side of Airport Road, west of the intersection of Airport Road and FM3549, and take any action necessary.

Noah Fabiano
8214 Westchester Suite 710
Dallas, TX

Mr. Fabiano came forward and gave brief explanation of request discussing concept plan, development standards and an overall representation of the product.

Chairman Renfro asked for questions for applicant from Commission.

Commissioner Lyons had concerned of loss of sidewalks and narrower streets by doing open swales.

There being no questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

10. Z2016-015
Hold a public hearing to discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (*R. & R. Hance Investments, LP*) for the approval of a zoning amendment to Planned Development District 79 (PD-79) [*Ordinance No. 16-07*] for the purpose of amending the concept plan and incorporating 11.121-acres of land into the existing 44.292-acre development creating a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.

Planning Director, Ryan Miler, stated there is currently an annexation going forward and it will be going to City Council for a 2nd reading before it goes forward to the Public Hearing therefor staff felt comfortable bringing it forward. Also stated Mr. Atkins was present and available for questions.

Pat Atkins
3076 Hays Ln.
Rockwall, TX

Mr. Atkins came forward and stated the annexation has taken time and the process of completion of the final 11 acres completes the masterplan and addresses the open space concern and density is now addressed. Mr. Atkins added he has received staffs comments and will address them.

Mr. Miller added that when it came thru the first time and the original PD was approved at that time the Commissioner's concern was with the open space being only 17percent, now with this addition it is at 20 percent or in excess of that, this is an amendment to the current PD79. Mr. Miller added that currently the garage offset standard is 20 feet from the front façade, but the applicant is requesting for it to be 5 feet but it will meet the same standards that were approved in the Summerset Parks Subdivision he will have the ability to encroach into the front with the porches and sunroom which will provide that buried setback in the front.

There being no questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

Chairman Renfro stated items 11 and 12 on the agenda would be moved to the end of the agenda.

11. Z2016-016
Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 4, *Southside Residential Neighborhood Overlay (SRO) District*, of Article V, *District Development Standards*, of the Unified Development Code, and take any action necessary.

Planning Director, Ryan Miller, recently did a text amendment to PD75, which is the Lake Rockwall Estate Subdivision, to take out a clause that allowed Council to approve land use without a zoning process. There are two places where that exact language exists; the other is in the Southside Residential Neighborhood District. Council has directed staff to amend that ordinance and take that language out, and also in addition, under the current ordinance any application for a special request must first be brought to the City Council to initiate the request, then to the Planning and Zoning Commission for a recommendation, and finally returning to the City Council for action. Typically, these requests would be taken directly to the Planning and Zoning Commission for recommendation prior to being brought before the City Council. That has since been corrected and staff can now intake an application and bring it directly to the Planning and Zoning Commission for a recommendation and then to City Council. It is a discussion and the ordinance will be brought at the next meeting.

Commissioner Trowbridge asked for clarification of what the intent was when first it was first drafted and the striking of certain language. Mr. Miller stated with both Lake Rockwall Estates and the Southside Residential Overlay Districts the idea was that this being the older parts of town, these lots are already established and the idea was to provide flexibility with the understanding that older ordinances intended to regulate this area as we move forward and standards and product that people are putting in change we need to accommodate these areas and some of the existing lots due to the size would need to be accommodated to.

No further discussion took place concerning this agenda item.

12. Z2016-017
Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 1, *Land Use Schedule*, and Section 2.1.8, *Auto and Marine-Related Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code for the purpose of changing the requirements for *Used Motor Vehicle Dealerships*, and take any action necessary.
Planning Director, Ryan Miller, gave brief explanation requested that City Council to allow thru a SUP for the allowance of Used Motor Vehicle Dealerships.
The majority of the cities

Planning Director, Ryan Miller, stated that on the City Council meeting that took place on March 21, 2016 a perspective applicant came forward and requested that City Council look into changing the current use chart to allow used motor vehicle dealerships in a Light Industrial District thru a Specific Use Permit. The way the ordinance is currently set up used car

dealerships are only allowed as an ancillary or accessory use to new auto dealerships, with the thinking that this will provide some controls going forward and it will also provide a certain type of product.

Mr. Miller further stated that City Council did direct staff to look into how other cities approach this use and potentially amending the code to allow used car dealerships in the Light Industrial Districts. In order to achieve this, staff first did comparable cities analysis and looked at their code. What was found is that the majority of the cities that allow the use do so thru a Specific Use Permit, Rockwall currently has the most restrictive ordinance with the exception of Rowlett. After the comparable cities analysis was completed, staff also did a locational analysis for Rockwall's existing Auto Motor facilities, and what was found is that the all of these facilities, with the exception of two non-conforming one that exist in the downtown area, are situated along the IH30 corridor and based on that information staff also put together a fiscal impact analysis.

Mr. Miller went on to state that in 2007 a change was made to the way the City allows New Car Dealerships in the certain Districts that allows them the code was amended to require a Specific Use Permit, whereas before they were allowed by right in the Light Industrial District for the prevention of concentration of these dealerships along the IH30 corridor and also because there was an abundance of Light Industrial Land remaining in that corridor in the undeveloped areas. An ordinance was prepared, essentially it would not accommodate what the applicant is requesting, it would allow for the use in the Light Industrial with an SUP but it would prevent it to go into the Overlay Districts which is similar to what the City of Frisco did with their ordinance.

Mr. Miller added that even though staff was directed to look into this, the Commission may chose to leave the current ordinance in place and that recommendation can be given to the Council or a different recommendation can be given by the Commission with the information staff provided. Mr. Miller added this was brought to the work session for discussion before it goes to public hearing and to City Council and is available for any question.

Chairman Renfro commented on not being in favor of inviting used dealerships aside from the ones that are currently in place, other than those that are indoor such as one that came in not long ago. Mr. Miller added that used vehicle sales are currently allowed but they have to be internal to the building and cannot have any outside.

Commissioner Trowbridge asked if of the nine dealerships along the IH30 corridor any of those came in after the change requiring the SUP. Mr. Miller stated that three of those came in after the change was put in place.

Commissioner Whitley asked if this request was passed would it affect the existing used car dealerships that are in the downtown area. Mr. Miller stated it would not, as they are considered legally non-conforming.

Commissioner Lyons asked if this is passed, would it allow used car dealerships to go in anywhere in the Light Industrial District with the Specific Use Permit. Mr. Miller stated it would prohibit it within the Overlay Districts.

Commissioner Trowbridge asked where is the perspective applicant asking to come in with the used car dealership. Mr. Miller stated he would defer to the Public Hearing where the applicant will probably make a presentation. Mr. Miller added it is not site specific what is being proposed is regulating a use for the entire City.

No further discussion took place concerning this agenda item.

13. P2016-016

Discuss and consider a request by Bart Carroll of Carroll Consulting Group, Inc. on behalf of the owner Robert John Crowell of Crowell Development Corporation for the approval of a final plat for Wanda Ridge Estates, Phase 2 containing 45 single-family residential lots on 79.7111-acres identified as Tract 17-3 (*4.679-acres*), Tract 19 (*61.658-acres*), and Tract 42-01 (*13.374-acres*) of the S. McFadgin Survey, Abstract No. 142, Rockwall County, Texas, situated in the City of Rockwall's Extraterritorial Jurisdiction (ETJ), located north of the intersection of Wanda Lane and FM-548, and take any action necessary.

Senior Planner, David Gonzales, gave brief description of request, stating it is being brought before the Commission because it is in the ETJ there have been a few things that have been highlighted as far as comments in the staff report, have met with the surveyor who will bring back those comments and make the needed changes then it will go to the county judge for his signature.

There being no questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

14. SP2016-006

Discuss and consider a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Michael James of U. V. Real Estate, LP for the approval of a site plan for an *Auto Body Shop* (*i.e. Service King Collision Repair*) on a 3.2039-acre tract of land described as Tract 7-01 of the J. Lockhart Survey, Abstract No. 134, City of Rockwall, Rockwall County, Texas, located at 1780 E IH-30, zoned Light Industrial (LI) District, situated within the IH-30 Overlay (IH-30 OV) District, and take any action necessary.

Planning Director, Ryan Miller, stated this came before the Commission as an SUP a few meetings ago and did receive it for outside storage now they are moving forward with the site plan phase and added that the applicant was present and available for questions.

Jeff Carroll
750 IH30
Rockwall, TX

Mr. Carroll came forward and stated after meeting with ARB this evening and they had one comment to add a mansard roof and flipping it to the front to tie into the canopy but that will be Service Kings decion if that can be done. Mr. Carroll added that Service King has reduced the building size 5,000 square feet from the site plan approval process due to the cost of the retaining wall.

Chairman Renfro asked if it had canopies. Mr. Carroll stated there is one located in the front that serves as a drive thru for pickup.

Commissioner Trowbridge asked concerning the cost of the retaining wall and losing the square footage. Mr. Carroll stated it was a decision Service King took to reduce it.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

15. SP2016-007

Discuss and consider a request by Bryan M. Burger, PE of Burger Engineering, LLC on behalf of the owner Don Silverman of Rockwall 205-552, LLC for the approval of site plan for a grocery store (*i.e. Aldi Food Store*) on a 1.972-acre portion of a larger 9.183-acre tract of land identified as Tract 4-1 of the T. R. Bailey Survey, Abstract No. 30, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the northwest corner of the intersection of SH-205 [*N. Goliad Street*] and FM-552, and take any action necessary.

Senior Planner, David Gonzales advised the Commission the applicant was present and available for questions.

Brian Burger
17103 Preston Road
Dallas, TX

Mr. Burger came forward and gave brief explanation of request and stated staff has given their recommendations and have those have been addressed.

There being no questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

16. SP2016-008

Discuss and consider a request by Vincent Jarrard of Eurthmic Design Group Architects on behalf of the owner Cameron Bagley of Racetrac Petroleum, Inc. for the approval of site plan for a *car wash/auto detail* facility (*i.e. Carmel Carwash*) on a 1.3-acre tract of land identified as Lot 1, Block 1, Crossings Addition (*i.e. 1.004-acres*) and a 0.296-acre portion of Lot 1, Block 1, Rockwall Business Park Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2003 S. Goliad Street, and take any action necessary.

Planner, Korey Brooks advised the Commission the applicant was present and available for questions.

Benson Gerard
11700 Preston Road
Dallas, TX

Mr. Gerard came forward and gave brief explanation of request stating it is for an express car wash. The owner has several units in Dallas and runs a very good operation the incorporate a lot of landscaping. It will be 22 percent on the proposed site. They have gone through staff's comments as well as the ARB comments and address those.

Commissioner Logan asked if there is no median opening. Mr. Gerard stated they are eliminating one of the curb cuts and make the existing one on the right side wider.

Commissioner Trowbridge what the setback was. Mr. Gerard stated it is a fifty foot setback for their use. Commissioner Trowbridge asked if the exit will be in the rear and go out through the front and will the vacuums be on the right side facing the Veterinary office. Mr. Gerard stated that was correct.

Commissioner McCutcheon if there are any stipulations on the facing of the bays. Mr. Brooks stated the applicant is requesting a variance that will allow the bays to face SH205.

Mr. Miller added that they will propose a cultured stone and will bring a sample of that at the next ARB meeting and they will get a recommendation from the Board, but the Commission is the approving body for cultured stone.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

17. SP2016-009

Discuss and consider a request by Eric Morff of Cole on behalf of the owner 2804 Ridge, LLC for the approval of site plan for a *restaurant with drive-through* (*i.e. Panera Bread*) on a 0.93-acre parcel of land identified as Lot 2 of the Road Runner Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, addressed as 2804 S. Goliad Street, and take any action necessary.

Senior Planner, David Gonzales, advised the Commission the applicant was present and available for any questions.

Justin Kanoker
3630 Gyer Road
St. Louis, MO

Applicant came forward and gave brief explanation of request stating it is approximately a one acre parcel and will be putting a 4300 square foot building with eleven car stacked drive thru with 52 proposed parking spots. The hours of operation will be 7 days a week 6am to 9pm. It will have approximately 100 seats inside for dining and 20 seats in the outside patio.

Commissioner Trowbridge asked concerning color renderings if the store would be similar to existing stores. Applicant provided picture that showed color of product and full masonry and brick behind the Panera Bread signs and will provide full perspective renderings in the next meeting.

Commissioner Logan asked concerning parking layout will the old concrete be salvaged. Applicant stated they will be doing the entire lot concrete but the majority will be replaced.

Applicant stated they have received staff comments and will review and address those.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

18. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

Laura Morales, Planning Coordinator

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 05/10/2016

APPLICANT: Bart Carroll of *Carroll Consulting Group, Inc*.

AGENDA ITEM: **P2016-016**; Wanda Ridge Estates, Ph 2 (*ETJ Final Plat*)

SUMMARY:

Discuss and consider a request by Bart Carroll of Carroll Consulting Group, Inc. on behalf of the owner Robert John Crowell of Crowell Development Corporation for the approval of a final plat for Wanda Ridge Estates, Phase 2 containing 45 single-family residential lots on 79.7111-acres identified as Tract 17-3 (*4.679-acres*), Tract 19 (*61.658-acres*), and Tract 42-01 (*13.374-acres*) of the S. McFadgin Survey, Abstract No. 142, Rockwall County, Texas, situated in the City of Rockwall's Extraterritorial Jurisdiction (ETJ), located north of the intersection of Wanda Lane and FM-548, and take any action necessary.

PLAT INFORMATION:

- ✓ The purpose of the applicant's request is to final plat 45 single-family residential lots on a 79.7111-acre tract of land situated within the City of Rockwall's Extraterritorial Jurisdiction (ETJ). The development will be known as the Wanda Ridge Estates, Phase 2 Subdivision. The development will be located north of the intersection of Wanda Lane and FM-548.

- ✓ Per the *Interlocal Cooperation Agreement* between the City of Rockwall and Rockwall County, any property situated within Rockwall County in the City's Extraterritorial Jurisdiction (ETJ) is subject to the City's subdivision regulations. In addition, the City of Rockwall is the governing body responsible for approving said plats upon a recommendation/comment from the County's designated representative. In this case, the plat has been reviewed by Rockwall County and the majority of the County's comments are to be addressed during the civil engineering submittal process.

- ✓ The Surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for plats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ✓ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the Recommendation section below.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the final plat as requested, staff would offer the following conditions:

1) All staff comments (Project Plan Review) provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit and to include the following additional Planning comments;

a. That adherence to Engineering and Fire Department standards shall be required, and

2) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the 2009 International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Please address the following Rockwall County Comments:

From: Pat NeSmith [mailto:pnesmith@rockwallcountytexas.com]
Sent: Tuesday, April 19, 2016 1:24 PM
To: 'Ron Merritt' <rmerritt@rockwallcountytexas.com>
Subject: RE: Wanda Ridge Estates - Final Plat

I don't have any problem with the plat but will need to see the plans for drainage of water from Weldon St north to Bud St, we have a problem with the flow now. I see an easement on the lot south of Weldon but I don't see a drainage easement on the 2 lots between those streets. There's a big ditch in there now behind the 2 existing houses on Wanda.

I hope all the lot owners with drainage easements on their prop understand what that means. Looks like at least 14 or 15 are going to be affected.

The following City of Rockwall staff comments are to be addressed and resubmitted no later than Tuesday, May 3, 2016. Please provide three large copies [18" X 24" FOLDED] and one PDF version for a subsequent review by staff:

1. Adherence to all Engineering and Fire Department standards shall be required.
2. Provide a label indicating "Case No. P2016-016" on the lower right corner on all pages of the revised plat.
3. Indicate and label the 2.5-ft Right-of-Way Dedication along FM 548 by hatching the area and providing the total acres being dedicated.
4. Surveyor's Certificate - Notary not necessary whenstamped by surveyor.

** As a note and once the plat has been approved by the Planning Commission and City Council, all staff comments are to be addressed and all revisions resubmitted and approved by staff prior to plat submittal on mylar for filing purposes. **

The following are scheduled meeting dates that you and/or your representative(s) should attend in order to answer any questions regarding the final plat. If you have any quesitons regarding this case, please feel free to contact David Gonzales with the Planning Department at 972-771-7745.

Planning - Work Session: April 26, 2016 (6:00 p.m.)

Planning - Action: May 10, 2016 (6:00 p.m.)

OWNER'S CERTIFICATE

STATE OF TEXAS
COUNTY OF ROCKWALL

Whereas, Crowell Development Co., Inc. is the owner of a tract of land situated in the S. McFadgin Survey, Abstract No. 142, Rockwall County, Texas and being the same 79.7111 acre tract of land as conveyed to Crowell Development Co., Inc. by deed recorded in Volume 4417, Page 152, Deed Records, Rockwall County, Texas, and being more particularly described as follows:

Beginning at a 1/2" capped iron pin found on the northeasterly right-of-way line of Farm to Market Road No. 548 (80' R.O.W.) for the west corner of said 79.7111 acre tract and the south corner of a 97.282 acre tract of land conveyed to Donald Junt and Equity Trust Company Custodian FBO Donald Junt IRA by deed recorded in Volume 2015, Page 18262, Deed Records, Rockwall County, Texas;

Thence, North 45°17'01" East, along the northwest line of said 79.7111 acre tract and the southeast line of said 97.282 acre tract, a distance of 2334.48 feet to a 1/2" capped iron pin found for the north corner of said 79.7111 acre tract and the west corner of a tract of land conveyed to Dwayne Turner by deed recorded in Volume 1676, Page 267, Deed Records, Rockwall County, Texas;

Thence, South 44°47'41" East, along the northeast line of said 79.7111 acre tract, the southwest line of said Turner tract, the southwest line of a 5.781 acre tract of land conveyed to Paul S. Henry and Sonya D. Henry by deed recorded in Volume 2271, Page 324, Deed Records, Rockwall County, Texas, the southeast line of a 5.628 acre tract of land conveyed to Jerry D. Vaughn and Greta Lynn Vaughn by deed recorded in Volume 2050, Page 150, Deed Records, Rockwall County, Texas and the southwest line of a 12.177 acre tract of land conveyed to Michael Darren McWhirter and Karen Jean McWhirter by deed recorded in Volume 1605, Page 293, Deed Records, Rockwall County, Texas, a distance of 1663.08 feet to a 1/2" capped iron pin found for the most northerly east corner of said 79.7111 acre tract and the most northerly corner of Wanda Ridge Estates Phase 1, an addition to Rockwall County, Texas, according to the plat thereof recorded in Cabinet F, Slide 391, Map Records, Rockwall County, Texas;

Thence, southwesterly, along the southeasterly lines of said 79.7111 acre tract and the northwesterly lines of said Wanda Ridge Estates Phase 1 the following:

South 45°12'19" West, a distance of 342.00 feet to a 1/2" capped iron pin found for corner on the northeast right-of-way line of Bud Lane (60' R.O.W.);

North 44°47'41" West, along the northeast line of said Bud Lane, a distance of 46.65 feet to a 1/2" yellow capped iron pin set stamped "CCG INC RPLS 5129" for corner;

South 45°12'19" West, a distance of 754.00 feet to a 1/2" capped iron pin found on the northeast right-of-way line of Weldon Lane (60' R.O.W.);

North 44°47'41" West, along the northeast line of said Weldon Lane, a distance of 26.35 feet to a 1/2" yellow capped iron pin set stamped "CCG INC RPLS 5129" for corner;

South 45°12'19" West, a distance of 414.85 feet to a 1/2" yellow capped iron pin set stamped "CCG INC RPLS 5129" on the north line of Lot 5, of said Wanda Ridge Estates Phase 1;

Thence, North 44°43'57" West, along a southwesterly line of said 79.7111 acre tract and the northeast line of said Lot 5, a distance of 253.01 feet to a 1/2" yellow capped iron pin set stamped "CCG INC RPLS 5129" for the north corner of said Lot 5 and the east corner of a 2 acre tract of land conveyed to Charles E. Harris by deed recorded in Volume 151, Page 681, Deed Records, Rockwall County, Texas;

Thence, North 44°38'17" West, along a southwesterly line of said 79.7111 acre tract and the northeast line of said 2 acre tract, a distance of 104.04 feet to a 3/8" iron pin found for the north corner of said 2 acre tract;

Thence, South 45°17'40" West, along a southeasterly line of said 79.7111 acre tract and the northwest line of said 2 acre tract, a distance of 834.44 feet to a 1/2" yellow capped iron pin set stamped "CCG INC RPLS 5129" on the northeasterly right-of-way line of Farm to Market Road No. 548 (80' R.O.W.) for the south corner of said 79.7111 acre tract and the west corner of said 2 acre tract;

Thence, North 44°19'08" West, along the northeasterly right-of-way line of Farm to Market Road No. 548 (80' R.O.W.) and the southwest line of said 79.7111 acre tract, a distance of 1234.97 feet to the Point of Beginning and containing 3,472,216 square feet or 79.7111 acres of land.

NOW THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

I the undersigned owner of the land shown on this plat, and designated herein as the WANDA RIDGE ESTATES PHASE 2 subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the WANDA RIDGE ESTATES PHASE 2 subdivision have been notified and signed this plat. I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I (we) further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I (we), my (our) successors and assigns hereby waive any claim, damage, or cause of action that I (we) may have as a result of the dedication of exactions made herein.

APPROVED:

I hereby certify that the above and foregoing plat of an addition to the City of Rockwall, Texas, was approved by the City Council of the City of Rockwall on the _____ day of _____, 2016.

This approval shall be invalid unless the approved plat for such addition is recorded in the office of the County Clerk of Rockwall, County, Texas, within one hundred eighty (180) days from said date of final approval.

WITNESS OUR HANDS, this _____ day of _____, 2016.

_____ _____ _____
Mayor, City of Rockwall City Secretary City Engineer

_____
Rockwall County Judge Date

General Notes:

1) It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 05/10/2016

APPLICANT: Jim Evans; *CEI Engineering*

AGENDA ITEM: **Z2016-012**; EZ-Mart Stores, Inc.

SUMMARY:

Hold a public hearing to discuss and consider a request by Jim Evans of CEI Engineering Associates, inc. on behalf of Bob Hubbard of EZ Mart Stores, Inc. for the approval of a Specific Use Permit (SUP) to allow a retail store with more than two (2) gasoline dispensers on a 0.918-acre parcel of land identified as Lot 1, Block A, Mr. M Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, addressed as 2901 Ridge Road and take any action necessary.

PURPOSE AND CHARACTERISTICS OF THE REQUEST:

The applicant is requesting the approval of a Specific Use Permit (SUP) to allow a retail store with more than two (2) gasoline dispensers on a 0.918-acre parcel of land located at the southeast corner of Ridge Road and Horizon Road. This property is currently zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses. According to the Section 1.1, *Use of Land and Buildings*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC) a retail store with more than two (2) gasoline dispensers requires a Specific Use Permit (SUP) in a General Retail (GR) District.

As part of the Specific Use Permit (SUP) submittal the applicant has submitted a conceptual site plan showing that there will be no changes to the traffic pattern adjacent to major streets; however, the applicant will be adding cross access to the properties to the south to facilitate the flow of traffic through the shopping center. Additionally, the current use of the property--a retail store with two (2) gasoline dispensers or a gas station--will not change. Currently there is an existing 2,264 sq. ft. EZ-Mart store with two (2) gasoline dispensers and a canopy located on site. The applicant is proposing to replace the existing store, pumps, tanks, and canopy with an 804 sq. ft. kiosk, eight (8) gasoline dispensers, new tanks, and a new canopy. It should be noted that this Kroger gas station will be located less than 1,000-feet away from an existing Kroger grocery store and gas station.

With the exception of the proposed additional gas pumps, the applicant's request conforms to all applicable requirements; however, granting a Specific Use Permit (SUP) is a discretionary act to the City Council. If approved, the applicant will be required to submit a site plan and replat conforming to all applicable requirements. Contained in the attached packet is a copy of the applicant's letter, a concept plan, and draft ordinance.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are all follows:

North: Directly north of the subject property is the intersection of Horizon Road and Ridge Road which are identified as an *M4D (major collector, four [4] lane divided highway)* in the City's *Master Thoroughfare Plan*.

South: Directly south of the subject property is a restaurant (*i.e. Panda Express*), a drug store (*i.e. Walgreens*), a bank (*i.e. Bank of America*), and a grocery store with a fueling station (*i.e. Kroger*). This area is all part of the same Planned Development as the subject property and is zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses.

East: Directly east of the subject property is Horizon Road which is identified as an M4D (*minor arterial, four [4] lane, divided roadway*] on the City's *Master Thoroughfare Plan*. Beyond this thoroughfare is a bank (*i.e. American National Bank*) and is zoned Commercial (C) District.

West: Directly west of the subject property is Ridge Road, which is identified as an M4D (minor arterial, four [4] lane, divided roadway] on the City's *Master Thoroughfare Plan*. Beyond this is a small shopping center and is zoned General Retail (GR) District.

NOTIFICATION:

On April, 26, 2016 staff sent 38 notices to property owners/residents within 500-feet of the subject property. Staff also mailed notices to Lago Vista HOA, which is the only HOA/Neighborhood association that is within 1,500-feet and participation in the notification program. Additionally, staff posted a sign on the subject property as required by the Unified Development Code (UDC). At the time this report was drafted, staff has not received any notices returned.

RECOMMENDATIONS:

Should the Planning and Zoning Commission and City Council choose to approve the SUP request, staff would offer the following conditions of approval:

1) The *gas station* be subject to the following operational conditions:

   A) All development on this property shall generally conform to the Concept Plan in *Exhibit 'C'* of the attached ordinance;

   B) All operation on this property shall generally conform to the Concept Plan in *Exhibit 'C'* of the attached ordinance; and,

   C) No more than eight (8) gasoline dispensers shall be allowed on the *Subject Property*.

   D) Prior to the approval of a Building Permit a Site Plan generally conforming to the Concept Plan in *Exhibit 'C'* of the attached ordinance will need to be submitted and approved by the Planning & Zoning Commission, and City Council if necessary.

E) No outside display of merchandise or outside storage shall be permitted on the *Subject Property.*

2) Any construction or building necessary to complete this request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Z2016-012 SUP for Retail Building with more than two (2) gasoline dispensers:
Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of a Specific Use Permit (SUP) to allow a retail store with more than two (2) gasoline dispensers on a 0.918-acre parcel of land identified as Lot 1, Block A, Mr. M Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, addressed as 2901 Ridge Road.
I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.
M.3 For reference, include the case number (Z2016-012) in the lower right hand corner of all pages on future submittals.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
I.4 Please review the attached draft ordinance prior to the April 26, 2016 Planning & Zoning Commission meeting. I.5 This property is located within the Scenic Overlay (SOV) and is subject to stricter architectural standards. The structure shall have 90 percent masonry materials, including a minimum 20 percent stone on each exterior wall. Also the building shall be architecturally finished on all four sides with the same materials, detailing, and features. I.6 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on May 3, 2016; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the May 10, 2016 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on April 26, 2016. I.7 The projected City Council meeting dates for this case will be May 16, 2016 [1st Reading] & June 6, 2016 [2nd Reading].

RE: SUP Application Kroger Fuel SW575

Mr. Miller:

CEI Engineering, Inc. is requesting a Specific Use Permit for the Kroger proposed fuel station to be located at the SEC of Ridge Road and Horizon Road (2901 Ridge Road). Currently there is an existing 2,264sf EZ-Mart store with 2 MPD dispensers and canopy located onsite. Kroger Fuel is proposing to replace the existing store, pumps, tanks and canopy with an 807sf kiosk, 8 MPD dispensers, new tanks and a new canopy.

Current zoning is PD-9 with a base zoning of GR and within a Scenic Overlay District. A fuel station is allowed in this zoning by a Specific Use Permit. The site plan adheres to the specific setback and other requirements of this district.

If you have any questions please contact me.

Thank you and have a good day.

CEI Engineering, Inc.

Jim Evans, RLA
Asst. Project Manager

PROPERTY DESCRIPTION

STATE OF TEXAS §
COUNTY OF ROCKWALL §

BEING a tract of land situated in the E. TEAL SURVEY, ABSTRACT NO. 207, City of Rockwall, Rockwall County, Texas and being all of Lot 1, Block A, Mr. M Addition, an addition to the City of Rockwall, Rockwall County, Texas according to the plat thereof recorded in Cabinet C, Page 24, Plat Records, Rockwall County, Texas (P.R.R.C.T.), and being more particularly described as follows:

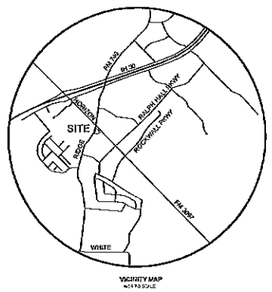
BEGINNING at a TXDOT (Texas Department of Transportation) Brass Monument found for the most northerly corner of Lot 1, Block A, of said Mr. M Addition, said monument also being the northeast end of a corner clip at the intersection of the southwesterly right-of-way line of Ridge Road (F.M. Road 3097, variable width right-of-way) and southeasterly right-of-way line of Ridge Road (F.M. Road 740, variable width right-of-way);

THENCE South 45 deg 40 min 35 sec East, departing said corner clip and along the southwesterly right-of-way line of said Horizon Road and the Easterly line of Lot 1, Block A, of said Mr. M Addition, a distance of 222.12 feet to a 1/2 inch iron rod with red plastic cap stamped "W.A.I." set for corner, from which a TXDOT Aluminum Monument bears, South 84 deg 11 min 36 sec West, a distance of 2.82 feet and a 1/2 inch iron rod found bears North 40 deg 44 min 12 sec West, a distance of 3.77 feet;

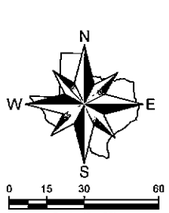
THENCE South 74 deg 35 min 42 sec West, departing the southwesterly right-of-way line of said Horizon Road, along the Southeast line of said Lot 1, the Northwest line of Lot 20, Block A, Horizon Ridge Addition, and addition to the City of Rockwall, Rockwall County, Texas, according to the Plat thereof recorded in Cabinet F, Slide 336, Official Public Records, Rockwall County, Texas, and the Northwest line of Lot 1, Block A, of RDI Retail Addition, an addition to the City of Rockwall, Rockwall County, Texas, according to the Plat thereof recorded in Cabinet D, Slide 369, Official Public Records, Rockwall County, Texas, a distance of 350.75 feet to a TXDOT Brass Monument found for corner, being situated in the southeasterly right-of way line of said Ridge Road and being the beginning of a non-tangent curve to the left having a radius of 623.69 feet, a central angle of 15 deg 47 min 49 sec, a chord bearing of North 26 deg 09 min 20 sec East and a chord length of 171.41 feet;

THENCE along the southeasterly right-of-way of said Ridge Road, the Westerly line of Lot 1, Block A, of said Mr. M Addition, and said non-tangent curve to the left, an arc distance of 171.95 feet to a 1/2 inch iron rod with red plastic cap stamped "W.A.I." set for corner;

THENCE North 18 deg 15 min 25 sec East, continuing along the southeasterly right-of-way of said Ridge Road and the Westerly line of Lot 1, Block A, of said Mr. M Addition, a distance of 76.38 feet to a TXDOT Aluminum Monument found for corner at the southwest end of the said corner clip;



THENCE North 74 deg 35 min 42 sec East, along said corner clip, a distance of 82.72 feet to the POINT OF BEGINNING.



CONTAINING within these metes and bounds 0.918 acres or 40,001 square feet of land, more or less.

Bearings shown hereon are based upon an on-the-ground Survey performed on the 18th day of September, 2014, utilizing a G.P.S. measurement (NAD 83, Texas State Plane, North Central Zone) using City of Rockwall, Control Monuments Reset #1 and R014.

THENCE North 74 deg 35 min 42 sec East, along said corner clip, a distance of 82.72 feet to the POINT OF BEGINNING.

CONTAINING within these metes and bounds 0.918 acres or 40,001 square feet of land, more or less.

Bearings shown hereon are based upon an on-the-ground Survey performed in the field on the 18th day of September, 2014, utilizing a G.P.S. measurement (NAD 83, Texas State Plane, North Central Zone) using City of Rockwall, Control Monuments Reset #1 and R014.

SURVEYOR'S CERTIFICATION

This is to certify that this map or plat and the survey on which it is based were made in accordance with the 2011 Minimum Standard Detail Requirements for ALTA/ACSM Land Title Surveys, jointly established and adopted by ALTA and NSPS, and includes Items 1, 2, 3, 4, 7(a), 7(b1), 8, 9, 11(a), 13 and 14 of Table A thereof. The field work was completed on 09/18/2014.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

SPECIFIC USE PERMIT NO. S-1XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A RETAIL STORE WITH MORE THAN TWO (2) GASOLINE DISPENSERS AS SPECIFIED IN ARTICLE IV, PERMISSIBLE USES, OF THE UNIFIED DEVELOPMENT CODE, FOR A 0.918 - ACRE TRACT OF LAND ZONED PLANNED DEVELOPMENT DISTRICT 9 (PD-9) FOR GENERAL RETAIL (GR) DISTRICT LAND USES, AND IDENTIFIED AS LOT 1, BLOCK A, MR. M ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Jim Evans of CEI Engineering Associates, Inc. on behalf of Bob Hubbard of EZ Mart Stores, Inc. for the approval of a Specific Use Permit (SUP) to allow a retail store with more than two (2) gasoline dispensers on a 0.918-acre parcel of land identified as Lot 1, Block A, Mr. M Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 9 (PD-9) for General Retail (GR) District land uses, and more specifically described in *Exhibit* 'A' of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that Planned Development District 9 (PD-9) and the Unified Development Code of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That the Planned Development District 9 (PD-9) and the Unified Development Code of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing for a retail store with more than two (2) gasoline dispensers within Planned Development District 9 (PD-9) as stipulated by Article IV, *Permissible Uses*, of the Unified Development Code for the *Subject Property.*

SECTION 2. That the Specific Use Permit (SUP) shall be subject to the conditions set forth in Planned Development District 9 (PD-9) and ***Article V, Section 4.4, General Retail (GR) District Standards, of the Unified Development Code (Ordinance No. 04-38)*** as heretofore amended, as amended herein by granting of this Specific Use Permit (SUP), and as may be amended in the future, and shall be subject to the additional following conditions.

2.1 Conditions for a Certificate of Occupancy (CO)

DRAFT ORDINANCE 04.26.16

The following conditions pertain to the development of a retail store with more than two (2) gasoline dispensers on the *Subject Property*, and conformance to these development conditions are required for the issuance of a Certificate of Occupancy (CO):

1) All development on this property shall generally conform to the Concept Plan in *Exhibit 'C'* of this ordinance;

2) Prior to the approval of a Building Permit a Site Plan generally conforming to the Concept Plan in *Exhibit 'C'* of this ordinance will need to be submitted and approved by the Planning & Zoning Commission, and City Council if necessary.

2.2 Operational Conditions

The following conditions pertain to the operation of a retail store with more than two (2) gasoline dispensers on the subject property, and conformance to these operational conditions are required for continued operations:

1) All operation on this property shall generally conform to the Concept Plan in *Exhibit 'C'* of this ordinance.

2) No more than eight (8) gasoline dispensers shall be allowed on the *Subject Property; and,*

3) No outside display of merchandise or outside storage shall be permitted on the subject property.

Section 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

Section 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

Section 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of TWO THOUSAND DOLLARS ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

Section 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

Section 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 16th DAY OF MAY, 2016.

Exhibit A: Legal Description

PROPERTY DESCRIPTION

STATE OF TEXAS § COUNTY OF ROCKWALL §

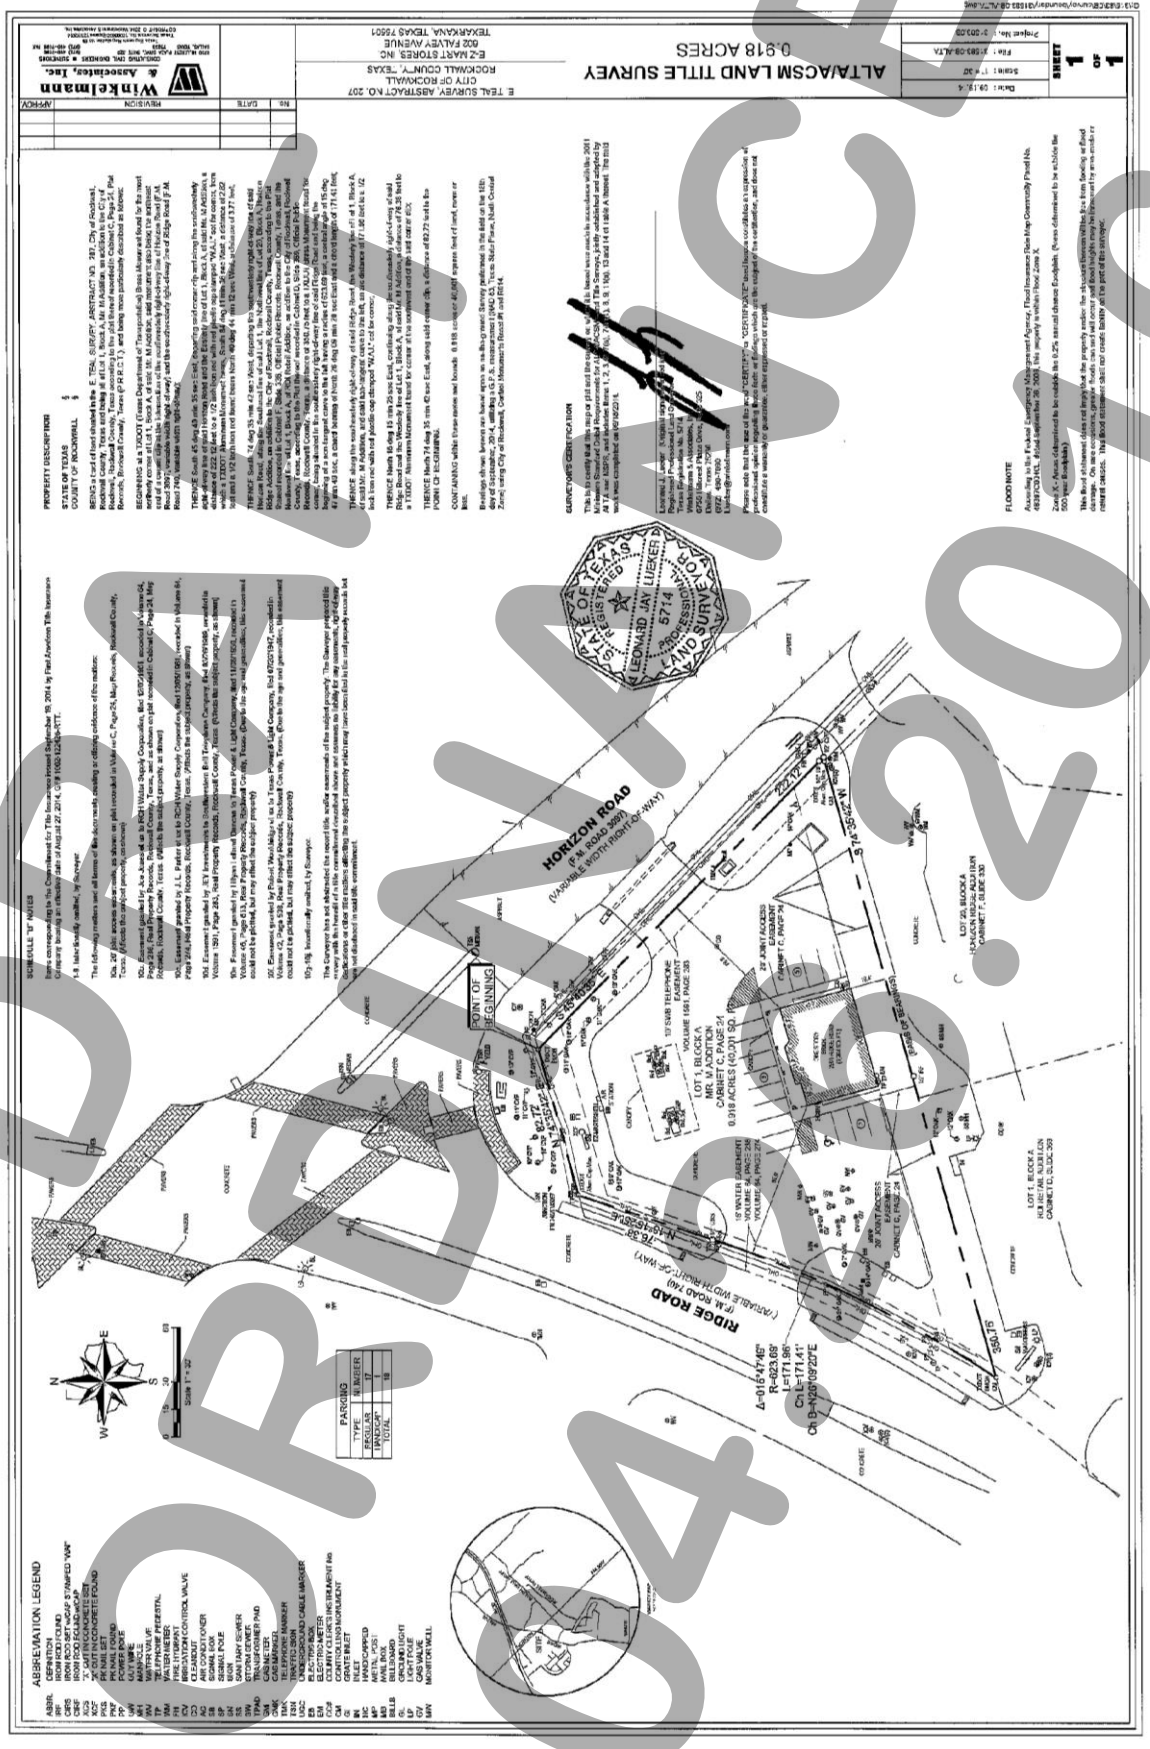
BEING a tract of land situated in the E. TEAL SURVEY, ABSTRACT NO. 207, City of Rockwall, Rockwall County, Texas and being all of Lot 1, Block A, Mr. M Addition, an addition to the City of Rockwall, Rockwall County, Texas according to the plat thereof recorded in Cabinet C, Page 24, Plat Records, Rockwall County, Texas (P.R.R.C.T.), and being more particularly described as follows:

BEGINNING at a TXDOT (Texas Department of Transportation) Brass Monument found for the most northerly corner of Lot 1, Block A, of said Mr. M Addition, said monument also being the northeast end of a corner clip at the intersection of the southwesterly right-of-way line of Ridge Road (F.M. Road 3097, variable width right-of-way) and southeasterly right-of-way line of Ridge Road (F.M. Road 740, variable width right-of-way);

THENCE South 45 deg 40 min 35 sec East, departing said corner clip and along the southwesterly right- of-way line of said Horizon Road and the Easterly line of Lot 1, Block A, of said Mr. M Addition, a distance of 222.12 feet to a 1/2 inch iron rod with red plastic cap stamped "W.A.I." set for corner, from which a TXDOT Aluminum Monument bears, South 84 deg 11 min 36 sec West, a distance of 2.82 feet and a 1/2 inch iron rod found bears North 40 deg 44 min 12 sec West, a distance of 3.77 feet;

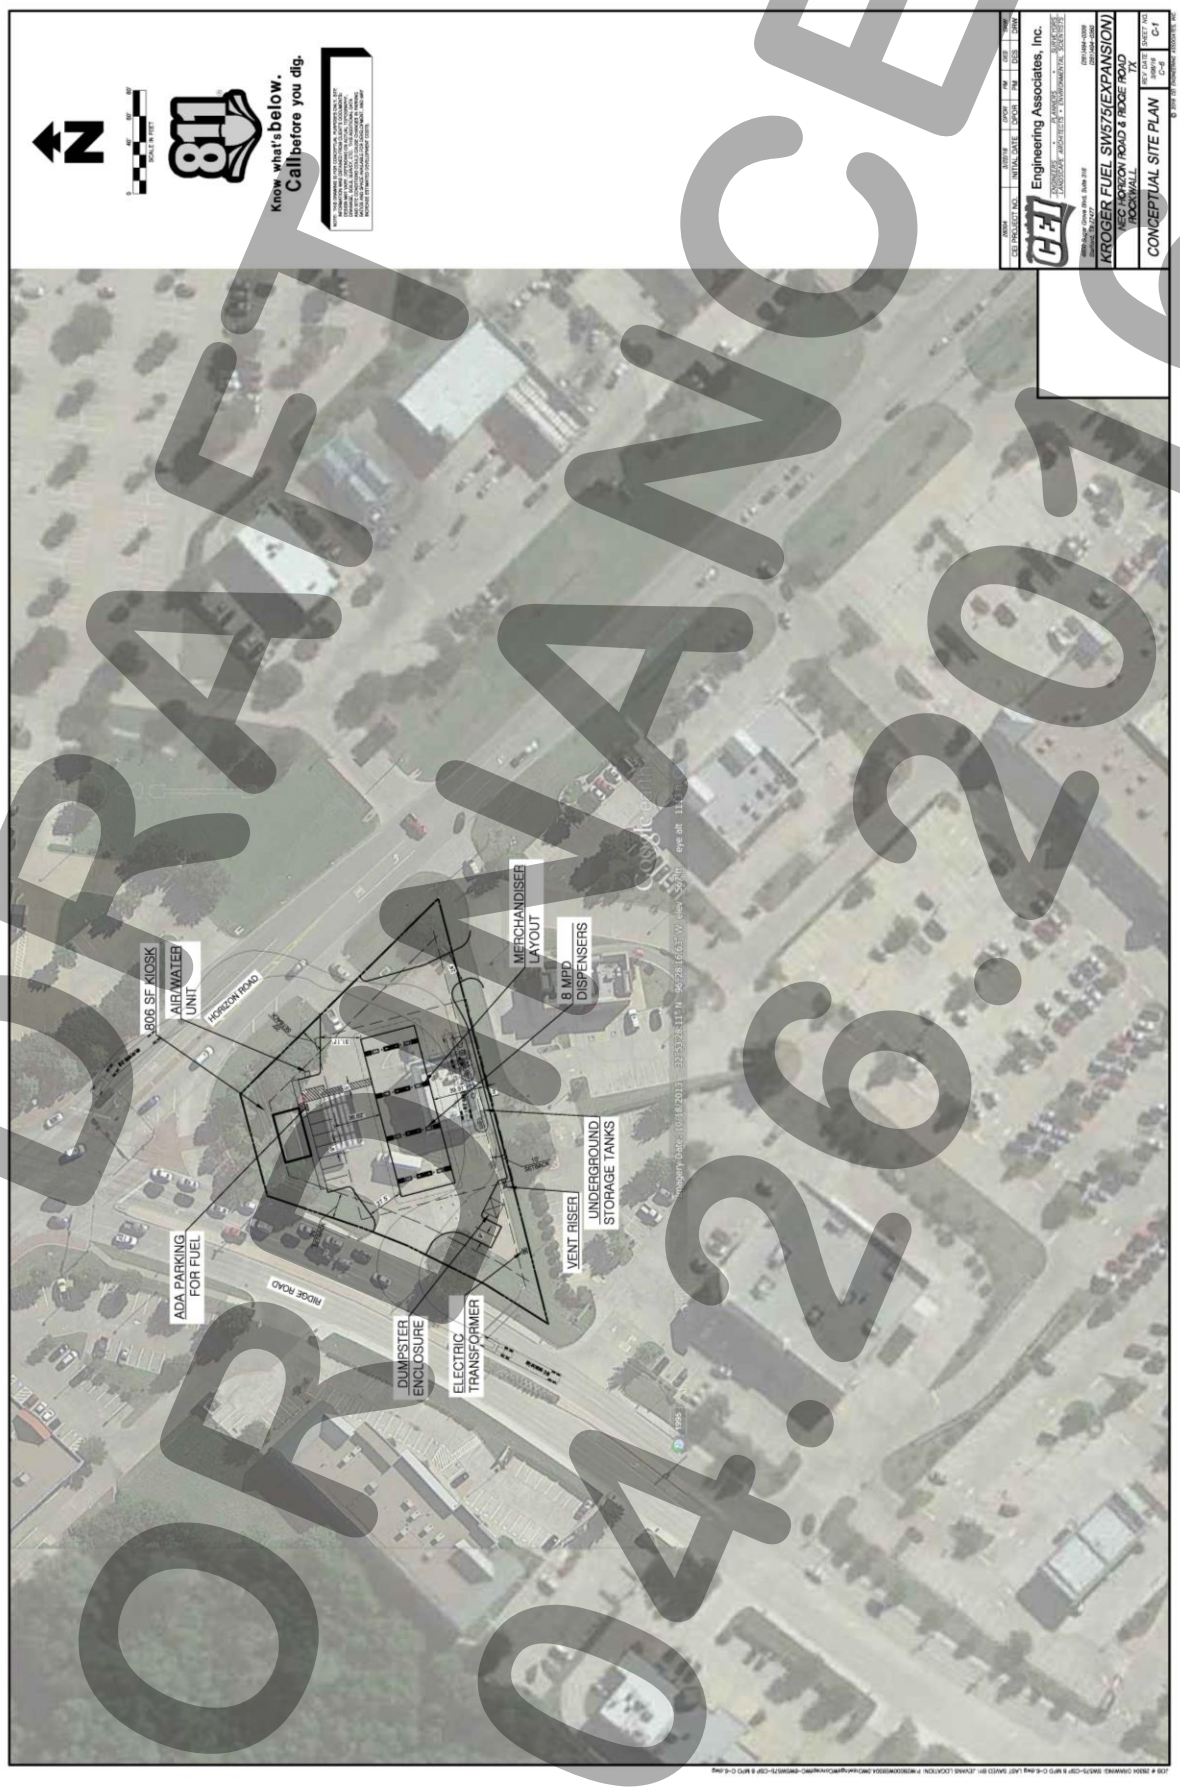
THENCE South 74 deg 35 min 42 sec West, departing the southwesterly right-of-way line of said Horizon Road, along the Southeast line of said Lot 1, the Northwest line of Lot 20, Block A, Horizon Ridge Addition, and addition to the City of Rockwall, Rockwall County, Texas, according to the Plat thereof recorded in Cabinet F, Slide 336, Official Public Records, Rockwall County, Texas, and the Northwest line of Lot 1, Block A, of RDI Retail Addition, an addition to the City of Rockwall, Rockwall County, Texas, according to the Plat thereof recorded in Cabinet D, Slide 369, Official Public Records, Rockwall County, Texas, a distance of 350.75 feet to a TXDOT Brass Monument found for corner, being situated in the southeasterly right-of way line of said Ridge Road and being the beginning of a non-tangent curve to the left having a radius of 623.69 feet, a central angle of 15 deg 47 min 49 sec, a chord bearing of North 26 deg 09 min 20 sec East and a chord length of 171.41 feet;

THENCE along the southeasterly right-of-way of said Ridge Road, the Westerly line of Lot 1, Block A, of said Mr. M Addition, and said non-tangent curve to the left, an arc distance of 171.95 feet to a 1/2 inch iron rod with red plastic cap stamped "W.A.I." set for corner;



THENCE North 18 deg 15 min 25 sec East, continuing along the southeasterly right-of-way of said Ridge Road and the Westerly line of Lot 1, Block A, of said Mr. M Addition, a distance of 76.38 feet to a TXDOT Aluminum Monument found for corner at the southwest end of the said corner clip;

THENCE North 74 deg 35 min 42 sec East, along said corner clip, a distance of 82.72 feet to the POINT OF BEGINNING.



CONTAINING within these metes and bounds 0.918 acres or 40,001 square feet of land, more or less.

Bearings shown hereon are based upon an on-the-ground Survey performed on the 18th day of
September, 2014, utilizing a G.P.S. measurement (NAD 83, Texas State Plane, North Central Zone) using City of Rockwall, Control Monuments Reset #1 and R014.

DRAFT ORDINANCE 04-16-16

ORDINANCE
04.18.2016

DRAFT ORDINANCE 04.26.2016

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 05/10/2015

APPLICANT: Garrett Lust of *Pointe Land Development, LLC*

AGENDA ITEM: **Z2016-013**; Terracina Estates *(AG to PD)*

SUMMARY:

Hold a public hearing to discuss and consider a request by Garrett Lust of Pointe Land & Development, LLC on behalf of Marven Wu of West Union Investment, Co. for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single-Family 10 (SF-10) District land uses on a 81.49-acre parcel of land identified as Tract 16 of the J. A. Ramsey Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, located on Rochell Road south of the intersection of Rochell Road the SH-276, and take any action necessary

PURPOSE AND CHARACTERISTICS OF THE REQUEST:

On April 15, 2016, the applicant submitted an application requesting to rezone an 81.49-acre tract of land from an Agricultural (AG) District to a Planned Development District for a single-family, residential subdivision that will consist of 204 single-family lots. The subject property, which was annexed into the City on October 4, 2010 by Ordinance No. 10-27, is located south of the intersection of Rochell Road and SH-276, adjacent to Timber Creek Estates Subdivision. The property is currently vacant land that is zoned Agricultural (AG) District.

According to the concept plan, it is the intent of the development to provide 204 single-family residential lots that are to be a minimum of 8,125 sq. ft. (*i.e. 65' x 125' lots*) in area. The development will provide an approximately nine (9)-acre public park located at the southern portion of the development. In addition, the *Concept Plan* shows the inclusion of 18.97-acres of net open space (*or 23.3%*) exceeding the minimum 20% requirement. Staff has included these as development requirements within the Planned Development District Ordinance. In addition, the applicant has also indicated that a minimum of a 15-foot landscape buffer will be provided along Rochell Road and a minimum 10-ft landscape buffer along the proposed minor collector street (Street H) with large canopy trees planted along the perimeter of each roadway at 50-ft intervals. The applicant will also include a minimum of a five (5) foot sidewalk that will be constructed within the rights-of-way.

A summary of the requested density and dimensional requirements is as follows:

Table 2: Lot Dimensional Requirements

Lot Type (see Concept Plan) ►	***A***	***B***
Minimum Lot Width [1]	65'	80'
Minimum Lot Depth	125'	125'
Minimum Lot Area	8,125 SF	10,000 SF
Minimum Front Yard Setback [2]	20'	20'
Minimum Side Yard Setback	5'	5'
Minimum Side Yard Setback (Adjacent to a Street) [2]	10'	10'
Minimum Length of Driveway Pavement	25'	25'
Maximum Height [3]	36'	36'
Minimum Rear Yard Setback [4]	10'	10'
Minimum Area/Dwelling Unit (SF)	1,400 SF	1,800 SF
Maximum Lot Coverage	65%	65%

General Notes:

[1]: *The minimum lot width shall be measured at the Front Yard Building Setback.*

[2]: *The location of the Front Yard Building Setback as measured from the front property line.*

[3]: *The Maximum Height shall be measured to the eave or top plate (whichever is greater) of the single family home.*

[4]: *As measured from the rear yard property line.*

Waivers to Code Requirements:

It should be noted that the development standards contained within the PD Ordinance deviate from the requirements of the Engineering Department's Standards of Design and Construction Manual and the Unified Development Code (UDC) in the following ways:

1) According to the Engineering Department's Standards of Design and Construction Manual, "(t)he City Council may waive the residential alley requirement upon determination by the Council, if it is in the best interest of the City." Currently, the applicant is requesting to allow J-Swing and/or Front Entry garages that comply with Article VI, Parking and Loading, of the Unified Development Code (UDC) in lieu of alleys. This requirement has been waived for other subdivisions throughout the City when the PD Ordinance conforms to the requirements stipulated by the UDC.

2) According to the Unified Development Code, Section 4. – Residential Parking, Sec. 4.1., A, "...single-family…parking garages must be located at least 20 feet behind the front building facade for front entry garages, unless it is a "J-Swing" garage where the garage door is perpendicular to the street." The applicant is proposing a maximum of 90% of the lots to be front entry styled garages with a minimum of 10% being a traditional swing or J-swing configuration.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is the Timber Creek Subdivision. This property is zoned for Single Family 10 (SF-10) District land uses.

South: Directly south of the subject property are the corporate limits of the City. The adjacent property is an unincorporated area containing single family home sites fronting onto Austin Corners, a neighborhood street.

East: Directly east of the subject property are the corporate limits of the City. The adjacent property is an unincorporated area containing single family home sites fronting onto Rochell Road.

West: Directly west of the subject property is an approximately 80-acre vacant tract of land that is zoned Agricultural (AG) District.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The Future Land Use Map contained within the Comprehensive Plan designates the subject property as Low Density Residential land uses. According to the Comprehensive Plan, the Low Density Residential designation is generally defined as single family development consisting of less than 2 units per acre; however, a density up to 2.5 units per gross acre may be allowed within a Planned Development district that includes the dedication and/or development of additional amenities that exceed the minimum standards for residential Planned Developments. These amenities may include but not limited to parks and open space, neighborhood amenity centers, development of trails and parks in flood plains, municipal parks and/or recreation facilities, etc. In this case, the applicant is proposing a density of 2.50 units per gross acre and is proposing an approximately nine (9)-acre public park incorporating an eight (8)-ft concrete hike and bike trail system, a playground area, plaza,

picnic area, covered pavilion, and other features as depicted on the *Park Concept Plan*. This will be the developments primary amenity.

The proposed zoning does appear to conform to the majority of the Comprehensive Plan's policies and guidelines with the exception of the required proximity of residential lots less than 12,000 sq. ft. to a neighborhood oriented park or open space. The Comprehensive Plan's policy requires the lots to be no further than 800-ft from a public park or open space in order to benefit from a property value premium. An approximation of no more than 24 lots (*or 11.7% of the lots*) located in the North West quadrant of the development are not within the 800-ft. minimum distance requirement. With this being said, the proposed Concept Plan is a discretionary decision for the City Council.

NOTIFICATION:

On April 29, 2016, staff mailed 102 notices to property owners and residents within 500-feet of the subject property. Staff also emailed notices to the Timber Creek and Fontana Ranch Homeowner's Associations (HOA's), which are the only HOA's located within 1,500 feet of the subject property. Additionally, staff posted a sign adjacent to the subject property along Rochell Road and advertised the public hearings in the Rockwall Harold Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted, staff has received one (1) notice "not in favor of" the request.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to rezone the subject property from an Agricultural (AG) District to a Planned Development District, then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Hold a public hearing to discuss and consider a request by Garrett Lust of Pointe Land & Development, LLC on behalf of Marven Wu of West Union Investment, Co. fo the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single-Family 10 (SF-10) District land uses on a 81.49-acre parcel of land identified as Tract 16 of the J. A. Ramsey Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, located on Rochell Road south of the intersection of Rochell Road the SH-276, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, May 3, 2016 (three large copies FOLDED and one PDF version) for subsequent review by staff. For questions or comments concerning this case please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com

• On all future submittals please include the Case Number (Z2016-013) in the lower right hand corner.

• Please review the Draft Ordinance prior to the Planning & Zoning Meeting scheduled for May 10, 2015.

• Please make the following corrections/additions to the Concept Plan:

(1) Provide a legend indicating the following at a minimum:
a. Total Acres – #
b. Total Open Space - %
c. Lot Type 'A' – 65' x 125' – 174 Lots
d. Lot Type 'B' – 80' x 125' – 30 Lots
e. Total Number of Lots – 204
f. Maximum Density - 2.503 d.u/acre
(2) Rochelle Estates subdivision name – verify spelling for subdivision (i.e. Rochell or Rochelle). The city street name reflects the associated family name and is spelled without the 'e' on the end.
(3) Provide % of open space for each separate area on the plan (i.e. detention areas, landscape buffer, park area, etc.).
(4) Provide a typical street cross section for the proposed Minor Collector street to be located along the southern portion of the development, as indicated on the City's Thoroughfare Plan.
(5)Provide niche styled parking spaces along the perimeter of the park area for access and convenience of the public.
(6) Provide a label on the landscape buffer along Rochell Road.
(7) Label all streets (e.g. Street A, Street B, etc.)
(8) Provide property owner boundaries and property lines on adjacent properties.
(9) Indicate the City's corporate boundaries on the concept plan.
(10) Remove the statement at lower right indicating "This plan was prepared using...are subject to change without notice."

• The following are a list of Comprehensive Plan (plan) policies that have not been satisfied or could benefit from clarification:

(1) Currently, the concept plan does not indicate the total amount of open space being provided. The minimum amount required is 20% open space (i.e. ~16.298%). Provide the total open space meeting this requirement.
(2) The plan also requires that all lots less than 12,000 sq. ft. must be located within 800-ft of a public park or open space corridor in order to benefit from a property value premium. Provide an exhibit indicating conformance to this requirement.
(3) All residential lots that are 16,000 SF or less should be served by an alley. A request to waive this requirement by the City Council may be approved through the PD Ordinance.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

• Please make these revisions and corrections, and provide any additional information that has been requested. Revisions for this case will be due to staff by May 3, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible to give staff ample time to review the case prior to the May 10, 2016 Planning & Zoning Meeting.

• Please mark your calendar for the scheduled meeting dates as follows:

1. Planning and Zoning Work Session: April 26, 2016

2. Planning and Zoning Public Hearing: May 10, 2016

3. City Council dates: a) May 16, 2016 [Public Hearing - 1st Reading],
b) June 2, 2016 [2nd Reading (if approved)].

PLANNING	David Gonzales	5/4/2016	5/11/2016	5/4/2016		COMMENTS	See comments

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

The following staff comments are to be addressed and resubmitted no later than Tuesday, May 17, 2016 (three large copies FOLDED and one PDF version) for subsequent/final review by staff. For questions or comments concerning this case please contact David Gonzales in the Planning Department at (972) 772-6488 or email dgonzales@rockwall.com

• On all future submittals please include the Case Number (Z2016-013) in the lower right hand corner.

• Adherence to the Parks Board Recommendations as follows:

>>Discuss and consider a proposed Park Concept Plan on an 81.49 acre parcel of land located on Rochelle Rd south of the intersection of Rochelle Rd the SH-276 and take any action necessary.<<

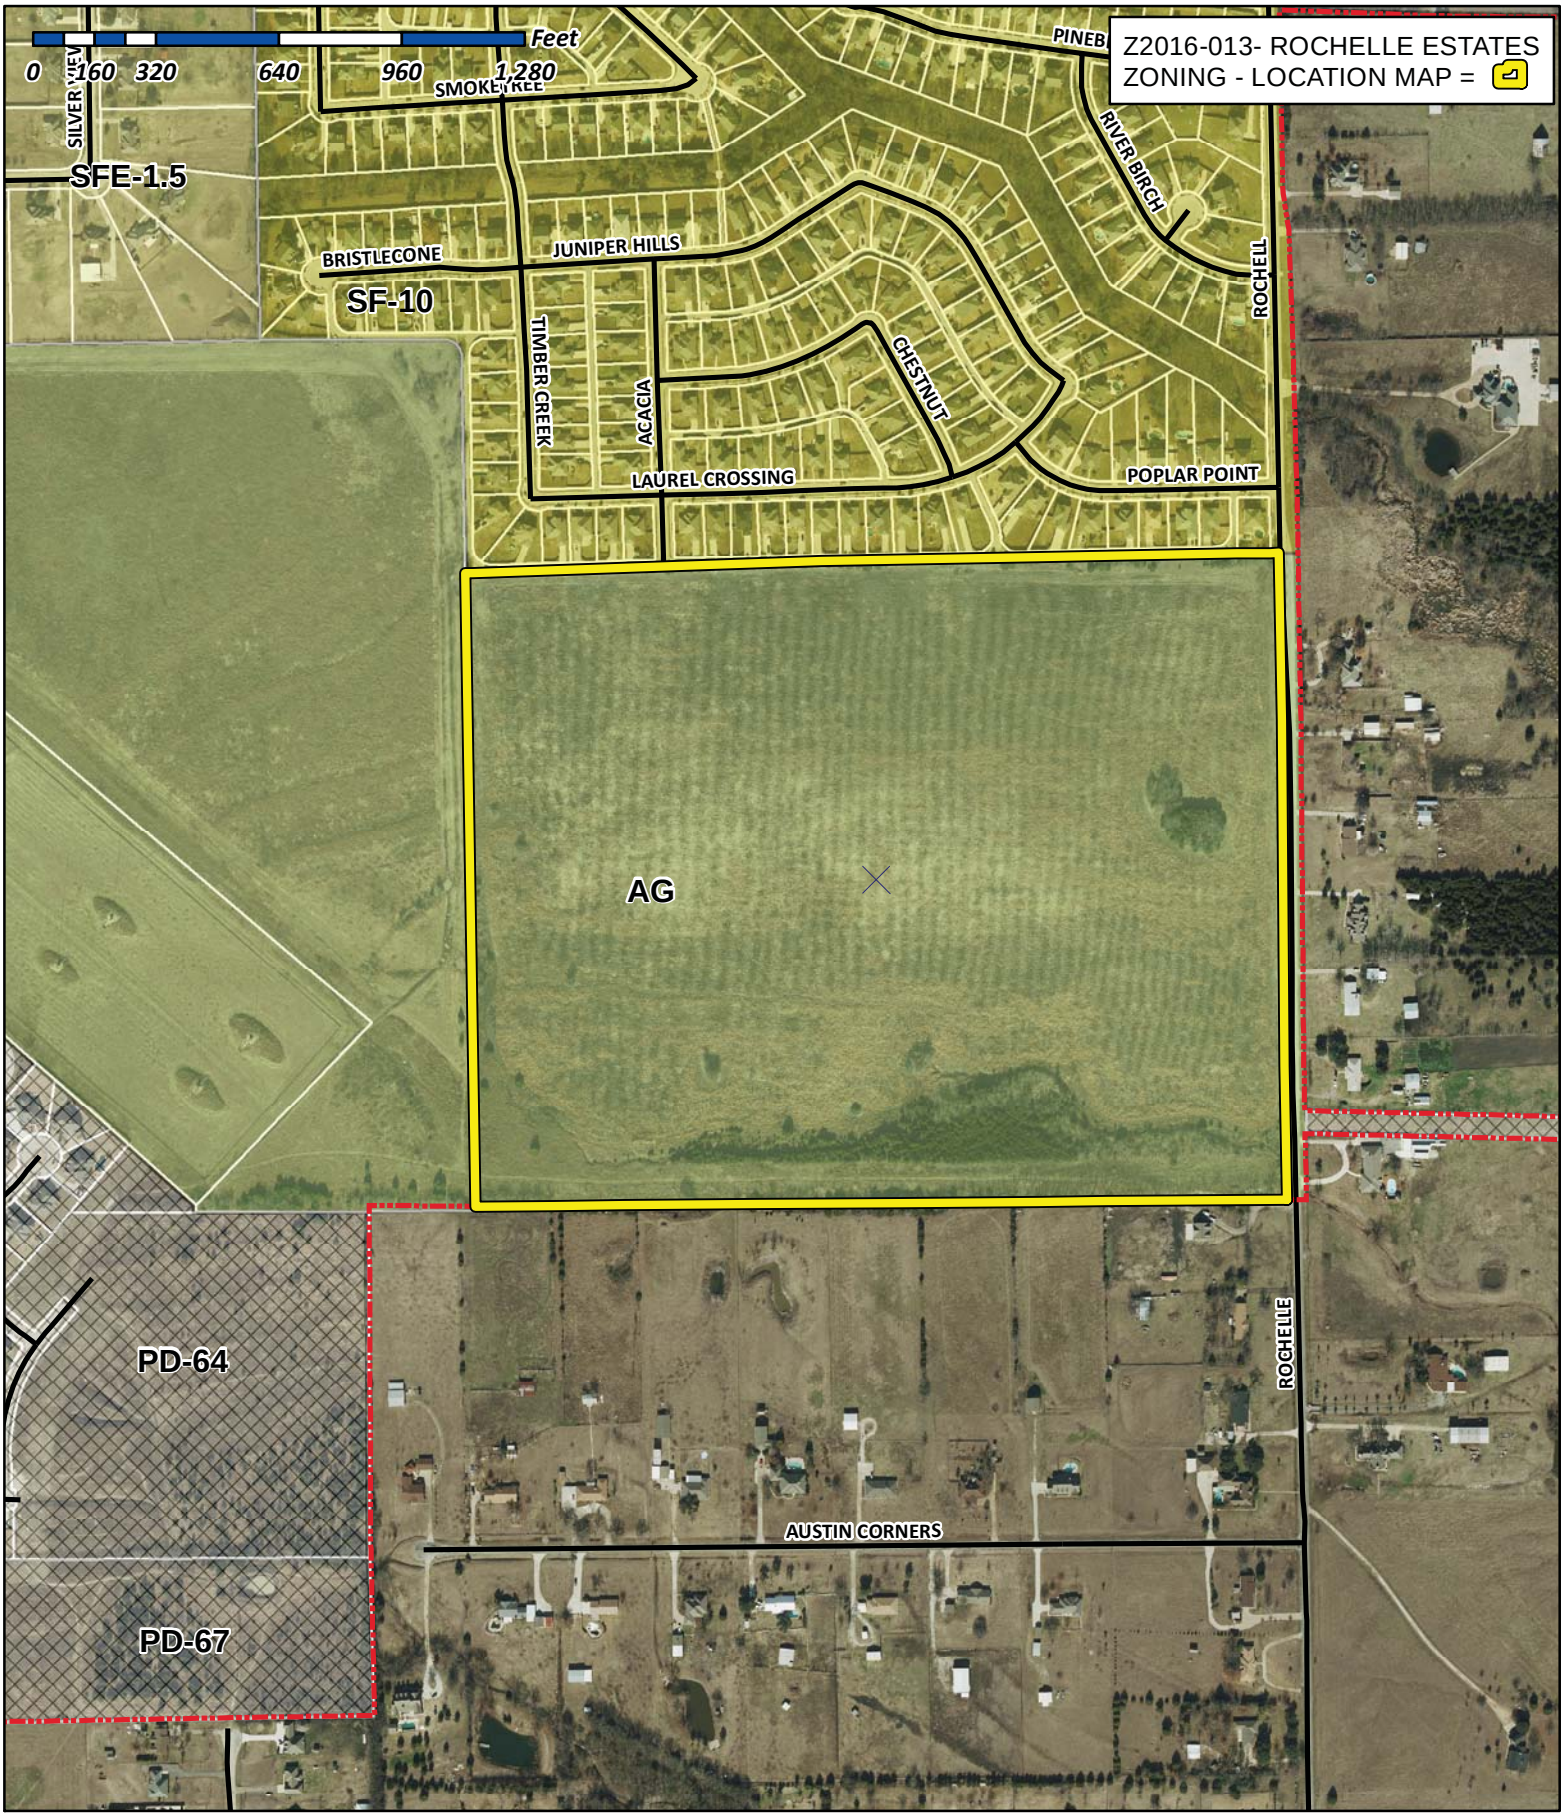
Park Board approved the proposal along with the following documents and would like P&Z to consider:

(1) Accepting the 9+/- acre park land but not the detention pond as public park to be maintained by the City once it is fully built and turf is established.
(2) All final amenities that are proposed must be first approved by staff and Park Board for approval to ensure that our standards for construction and design are being met. This includes the site furniture, irrigation system, trail, pavilion, playground equipment, fall zone surfacing and playground border.
(3) Require some off street parking bump-outs to include an ADA stall.
(4) Pro-rata equipment fees owed for the number of proposed lot can be used towards the cost of the park improvements.
(5) Cash in lieu of land fees are not required in this case.

• Please make the following corrections/additions to the Concept Plan:

(1) Correct the Concept Plans' parking spaces for the park to indicate niche styled parking spaces along the perimeter of the park area as indicated on the Park Concept Plan.
(2) Provide and label a 10-ft landscape buffer adjacent to 'Street H' and indicate large canpoy trees spaced 50-ft apart along the proposed minor collector street.
(3) Indicate and label the City's corporate boundaries on the concept plan (along Rochell Rd & the southern boundary of the development).

• The following are a list of Comprehensive Plan (plan) policies thathavenot been satisfied or could benefit from clarification:



(1) The plan requires that all lots less than 12,000 sq. ft. to be located within 800-ft of a public park or open space corridor. There are approximately 18 - 24 lots adjacent to Acacia Dr., Street A & Street K that may not meet this requirement. A request to waive this requirement by the City Council may be approved through th PD Ordinance.
(2) All residential lots that are 16,000 SF or less should be served by an alley. A request to waive this requirement by the City Council may be approved through the PD Ordinance.

• Please make these revisions and corrections, and provide any additional information that has been requested. Revisions for this case will be due to staff by May 17, 2016 by no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible. All outstanding items will be listed and considered for conditional approval should the request be approved by City Council.

• Please mark your calendar for the scheduled meeting dates as follows:

1) Planning and Zoning Public Hearing: May 10, 2016

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks
2) City Council dates: a) May 16, 2016 [Public Hearing - 1st Reading], b) June 2, 2016 [2nd Reading (if approved)].

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2016-013: Rochelle Estates

Hold a public hearing to discuss and consider a request by Garrett Lust of Pointe Land & Development, LLC on behalf of Marven Wu of West Union Investment, Co. for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single-Family 10 (SF-10) District land uses on a 81.49-acre parcel of land identified as Tract 16 of the J. A. Ramsey Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, located on Rochell Road south of the intersection of Rochell Road the SH-276, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 5/10/2016 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 5/16/2016 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **5/16/2016** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

Subject: FW: Case No. Z2016-013

From: Phillip and Holly Nott [mailto:hollyphil99@gmail.com]
Sent: Wednesday, May 04, 2016 5:23 PM
To: Planning
Subject: Case No. Z2016-013

To Whom it May Concern,

I am opposed to this zoning request for the following reasons:

1. In my opinion Rochelle Road is currently not able to handle the traffic that a 250 home development would bring. At the very least it would certainly require a traffic light at Rochelle and 276.

2. It would most likely increase traffic thru our neighborhood, Timber Creek Estates, from traffic trying to avoid traffic at the intersection of Rochelle and 276.

3. It would cause more traffic at the intersection of 276 and 549.

Thank you for your consideration.

Phillip Nott

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 05/10/2016

APPLICANT: Noah Flabiano, *Skorburg Company*

AGENDA ITEM: **Z2016-014**; *Ridgecrest Subdivision (AG to PD)*

SUMMARY:

Hold a public hearing to discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of the owner Lakeside Church of Christ of Rockwall for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single Family 10 (SF-10) District land uses on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and located on the north side of Airport Road, west of the intersection of Airport Road and FM3549, and take any action necessary.

PURPOSE:

On April 15, 2016, the applicant submitted an application requesting to rezone a 29.541-acre tract of land from an Agricultural (AG) District to a Planned Development District for a single-family, residential subdivision that will consist of 42 single-family residential lots. The property -- *which was annexed into the City on March 16, 1998 by Ordinance No. 98-10* -- is located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is Rolling Meadows Estates, which is an eighteen (18) unit single-family subdivision on an 83.844-acre tract of land zoned Single Family Estate 4.0 (SFE-4.0) District. Beyond this development are several large tracts of land zoned Agricultural (AG) District.

South: Directly south of the subject property is Airport Road followed by three (3) parcels of land zoned Agricultural (AG) District.

East: Directly east of the subject property is Lakeside Church of Christ of Rockwall, which is situated on a ~16.0-acre parcel of land. Additionally, there are several residential properties on various tracts of land. All the properties east of the subject property are zoned Agricultural (AG) District.

West: Directly west of the subject property is Greenlee Addition, which is a twenty-two (22) unit single-family subdivision on approximately a ten (10) acre tract of land zoned Single Family 10 (SF-10) District. West of this development is Airport Acres, which is a twenty (20) unit single-family subdivision on approximately ten (10) acres of land zoned Single Family 10 (SF-10) District.

CHARACTERISTICS OF THE REQUEST:

Along with the application, the applicant has submitted a concept plan and development standards for the proposed residential subdivision. The concept plan shows the layout of the subdivision, which will have two (2) access points off Airport Road. In addition, the development will stub out access to the church property to the east for a possible future connection point to FM-3549. According to the concept plan, the development will consist of 42, 80' x 100' lots (*i.e. a minimum of 15,000 SF*), and have a gross residential density of 1.42 units/acre. The subdivision will incorporate 8.52-acres of open space (*or ~28.84%*) that will be situated in the center of the development. A summary of the proposed development standards is as follows:

Minimum Lot Width/Frontage [1]	*80'*
Minimum Lot Depth	*100'*
Minimum Lot Area	*15,000 SF*
Minimum Front Yard Setback [2]	*40'*
Minimum Side Yard Setback	*5'*
Minimum Side Yard Setback (Adjacent to a Street)	*10'*
Minimum Length of Driveway Pavement	*20'*
Maximum Height	*36'*
Minimum Rear Yard Setback	*10'*
Minimum Area/Dwelling Unit (SF)	*1,800 SF*
Maximum Lot Coverage	*65%*

General Notes:

[1]: Lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may have the front lot width reduced by 20% as measured at the front property line provided that the lot width will be met at the front building line. Additionally, the lot depth on lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may be reduced by up to 10%, but shall meet the minimum lot size for each lot type as referenced within *Table 1*.

[2]: The Director of Planning or his designee may grant a reduction in the required 40-foot front yard building setback of up to five (5) feet for lots situated along cul-de-sacs or curvilinear streets, or where a 40-foot front yard building setback would create an undue hardship on the property.

The applicant is proposing to utilize a rural street cross section that will have a 50-foot right-of-way and be composed of 28-feet of pavement leading into an eleven (11) foot bar ditch/drainage area -- *with a 3:1 [2%] minimum slope* -- followed by a 7½-foot utility easement adjacent to the right-of-way. This is the same street cross section that was incorporated in the Breezy Hill Subdivision. In addition, the applicant has consented to the same 40-foot front yard building setback that was approved for the Breezy Hill Subdivision. It should also be noted that the proposed zoning ordinance incorporates similar anti-monotony standards that were used in Planned Development District 70 (PD-70) [*i.e. the Stone Creek subdivision*] and Planned Development District 74 (PD-74) [*i.e. the Breezy Hill subdivision*]. *Copies of the proposed PD Concept Plan and PD Development Standards have been provided in the attached packet for the City Council and Planning and Zoning Commission's review.*

Waivers to Code Requirements:

It should be noted that the development standards contained within the PD Ordinance deviate from the requirements of the Engineering Department's *Standards of Design and Construction* Manual in the following ways:

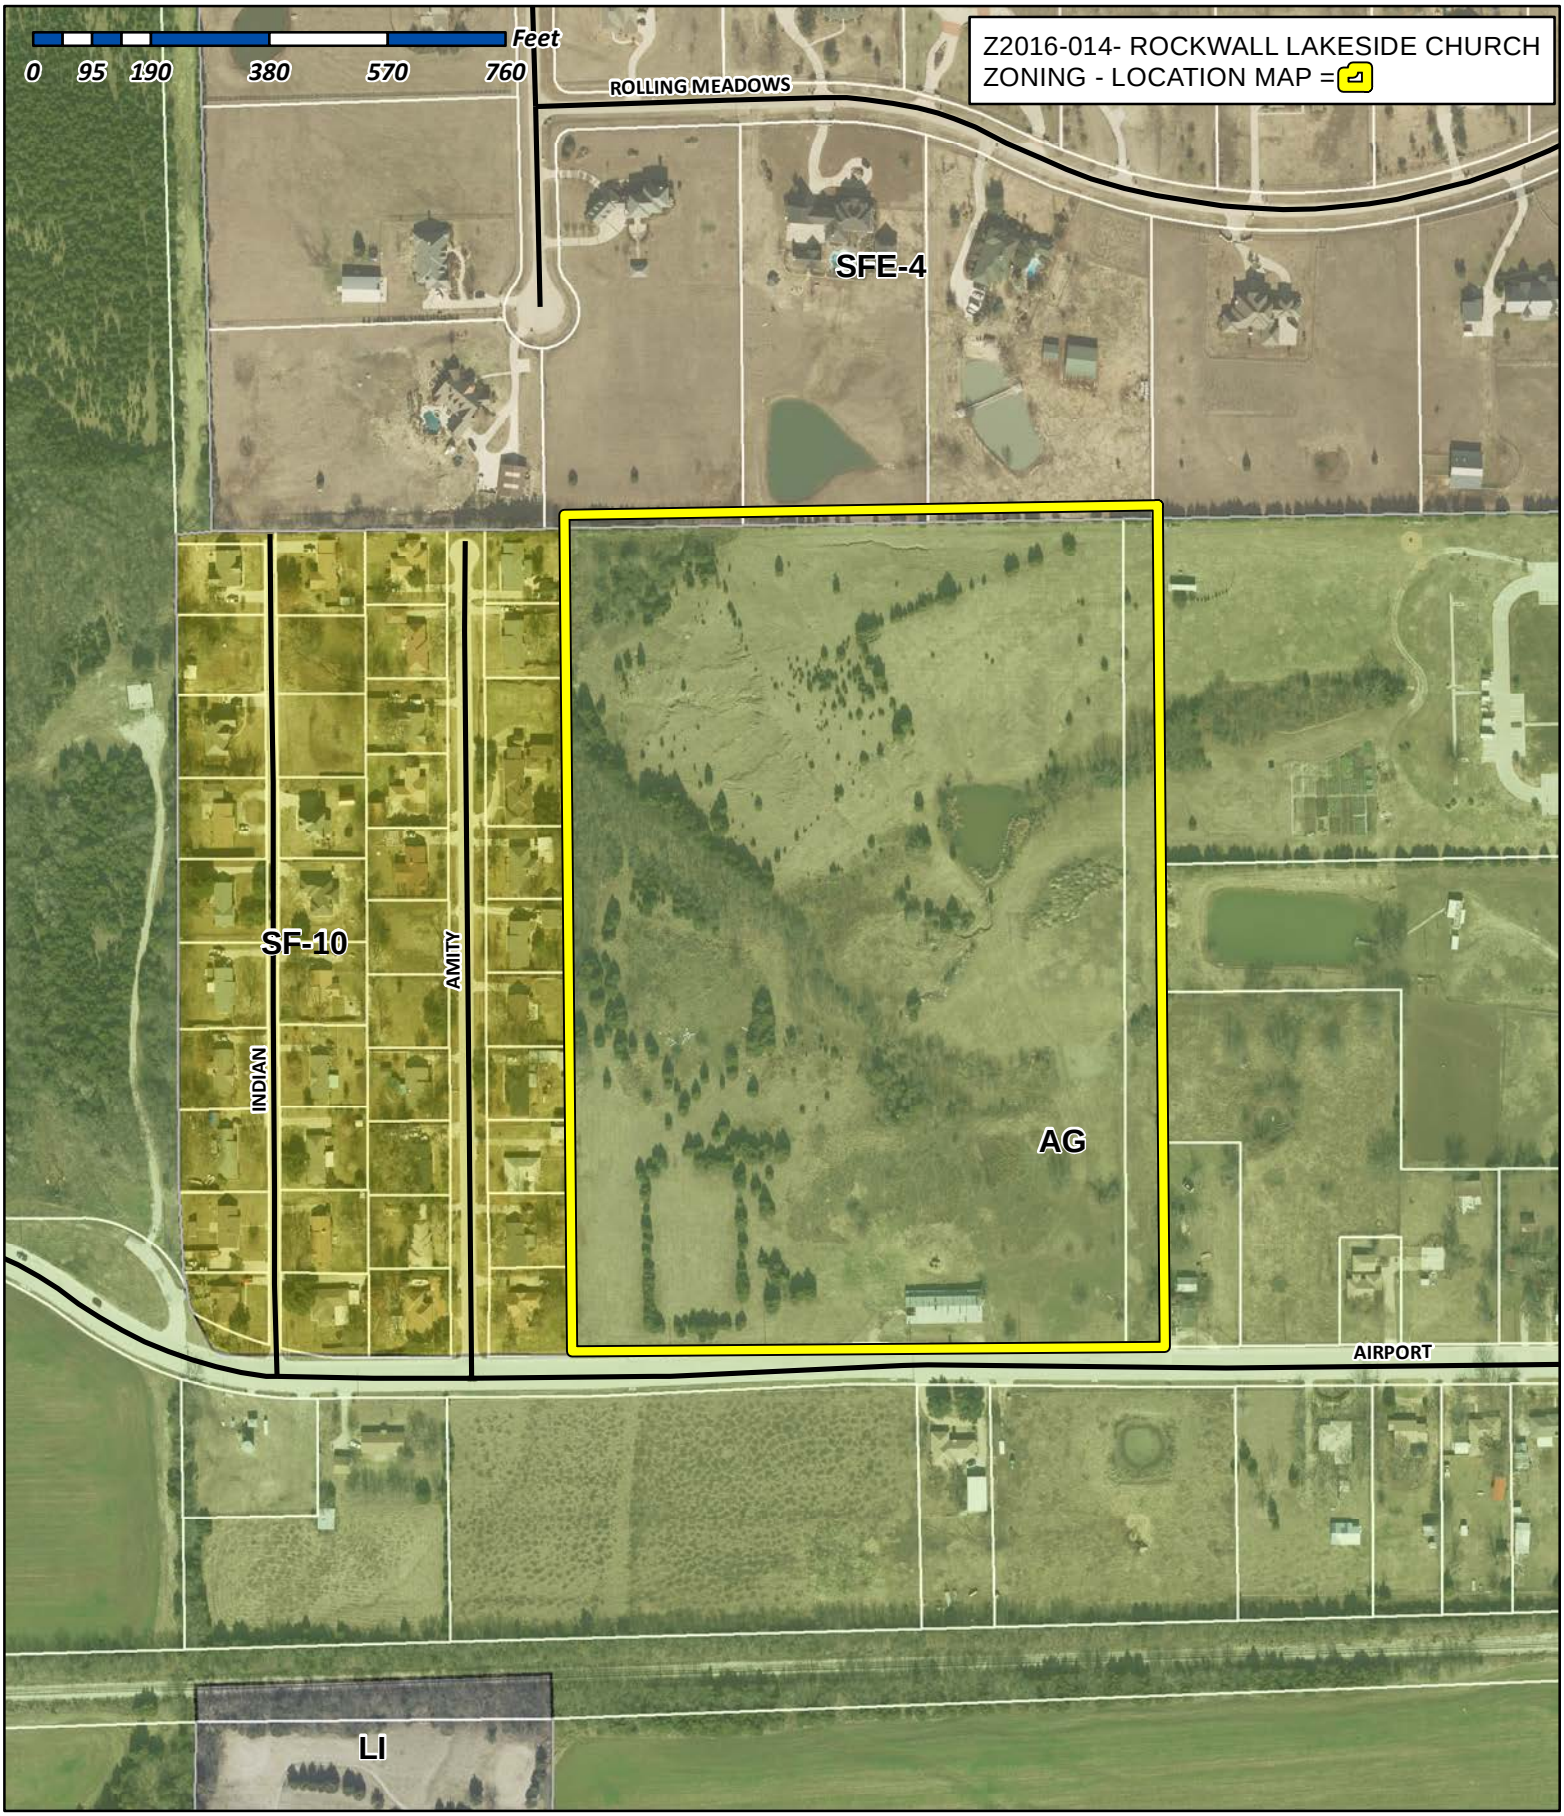
1) According to the Engineering Department's *Standards of Design and Construction* Manual, "(t)he City Council may waive the residential alley requirement upon determination by the Council, if it

is in the best interest of the City." Currently, the applicant is requesting to allow *J-Swing* and/or *Front Entry* garages in lieu of alleys. The proposed *Front Entry* garages will conform to the requirements of the Unified Development Code (UDC) and be situated 20-feet behind the front façade of the primary structure. It should be pointed out that the alley requirement has been waived for other subdivisions throughout the City.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The Future Land Use map, approved with the Comprehensive Plan, shows the subject property as being designated for *Low Density Residential* land uses. According to the Comprehensive Plan, *Low Density Residential* areas are "generally defined as less than two (2) units per acre; however, a density up to two-and-one-half (2½) units per gross acre may be allowed within a residential Planned Development District …" The applicant's request for a subdivision of less than 2½ units/acre (*i.e. 1½ units/acre*) is in conformance with the Future Land Use map designation and the Comprehensive Plan. In addition, *Resolution No. 07-03 -- approved on January 16, 2016 and codified into the City's Comprehensive Plan as Exhibit 'A'* -- outlines the City's residential development policies. The proposed concept plan and development standards submitted by the applicant are generally in conformance with these policies and the greater policies of the Comprehensive Plan. With this being said, the Comprehensive Plan does state that "(w)here residential uses in a Planned Development abut an existing development, the PD lots should be at least the same size as the existing lots or be buffered by open space, trails, walkways, natural screening or a roadway." As a result, staff did recommend to the applicant that they increase the size of the lots adjacent to the Rolling Meadows Estates, which is a Single Family Estates 4.0 (SFE-4.0) District consisting of lots that are a minimum of four (4) acres in size. As an alternative, staff also suggested that a minimum of a ten (10) foot landscape buffer with trees 20-feet on center could be provided adjacent to this area to meet the Comprehensive Plan requirements. At this time, the applicant has not incorporated staff's recommendations.

NOTIFICATION:



On April 29, 2016, staff mailed 72 notices to property owners and residents within 500-feet of the subject property. Staff also emailed notices to the Rolling Meadow Estates Homeowner's Associations (HOA), which is the only HOA located within 1,500 feet of the subject property. Additionally, staff posted a sign along Airport Road, and advertised the public hearings in the Rockwall Harold Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted one (1) response in favor of the request and one (1) response against the request had been received by staff.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to change the zoning of the subject property from an Agricultural (AG) District to a Planned Development District, then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2016-014: Ridgecrest Subdivision

Hold a public hearing to discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of the owner Lakeside Church of Christ of Rockwall for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single Family 10 (SF-10) District land uses on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and located on the north side of Airport Road, west of the intersection of Airport Road and FM3549, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 5/10/2016 at 6:00 p.m.**, and the City Council will hold a public hearing on **Monday, 5/16/2016 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

Ryan Miller
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **5/16/2016** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

MORE INFORMATION ON THIS CASE CAN BE FOUND ON THE CITY'S WEBSITE: HTTPS://SITES.GOOGLE.COM/SITE/ROCKWALLPLANNING/DEVELOPMENT-CASES

PLEASE RETURN THE BELOW FORM

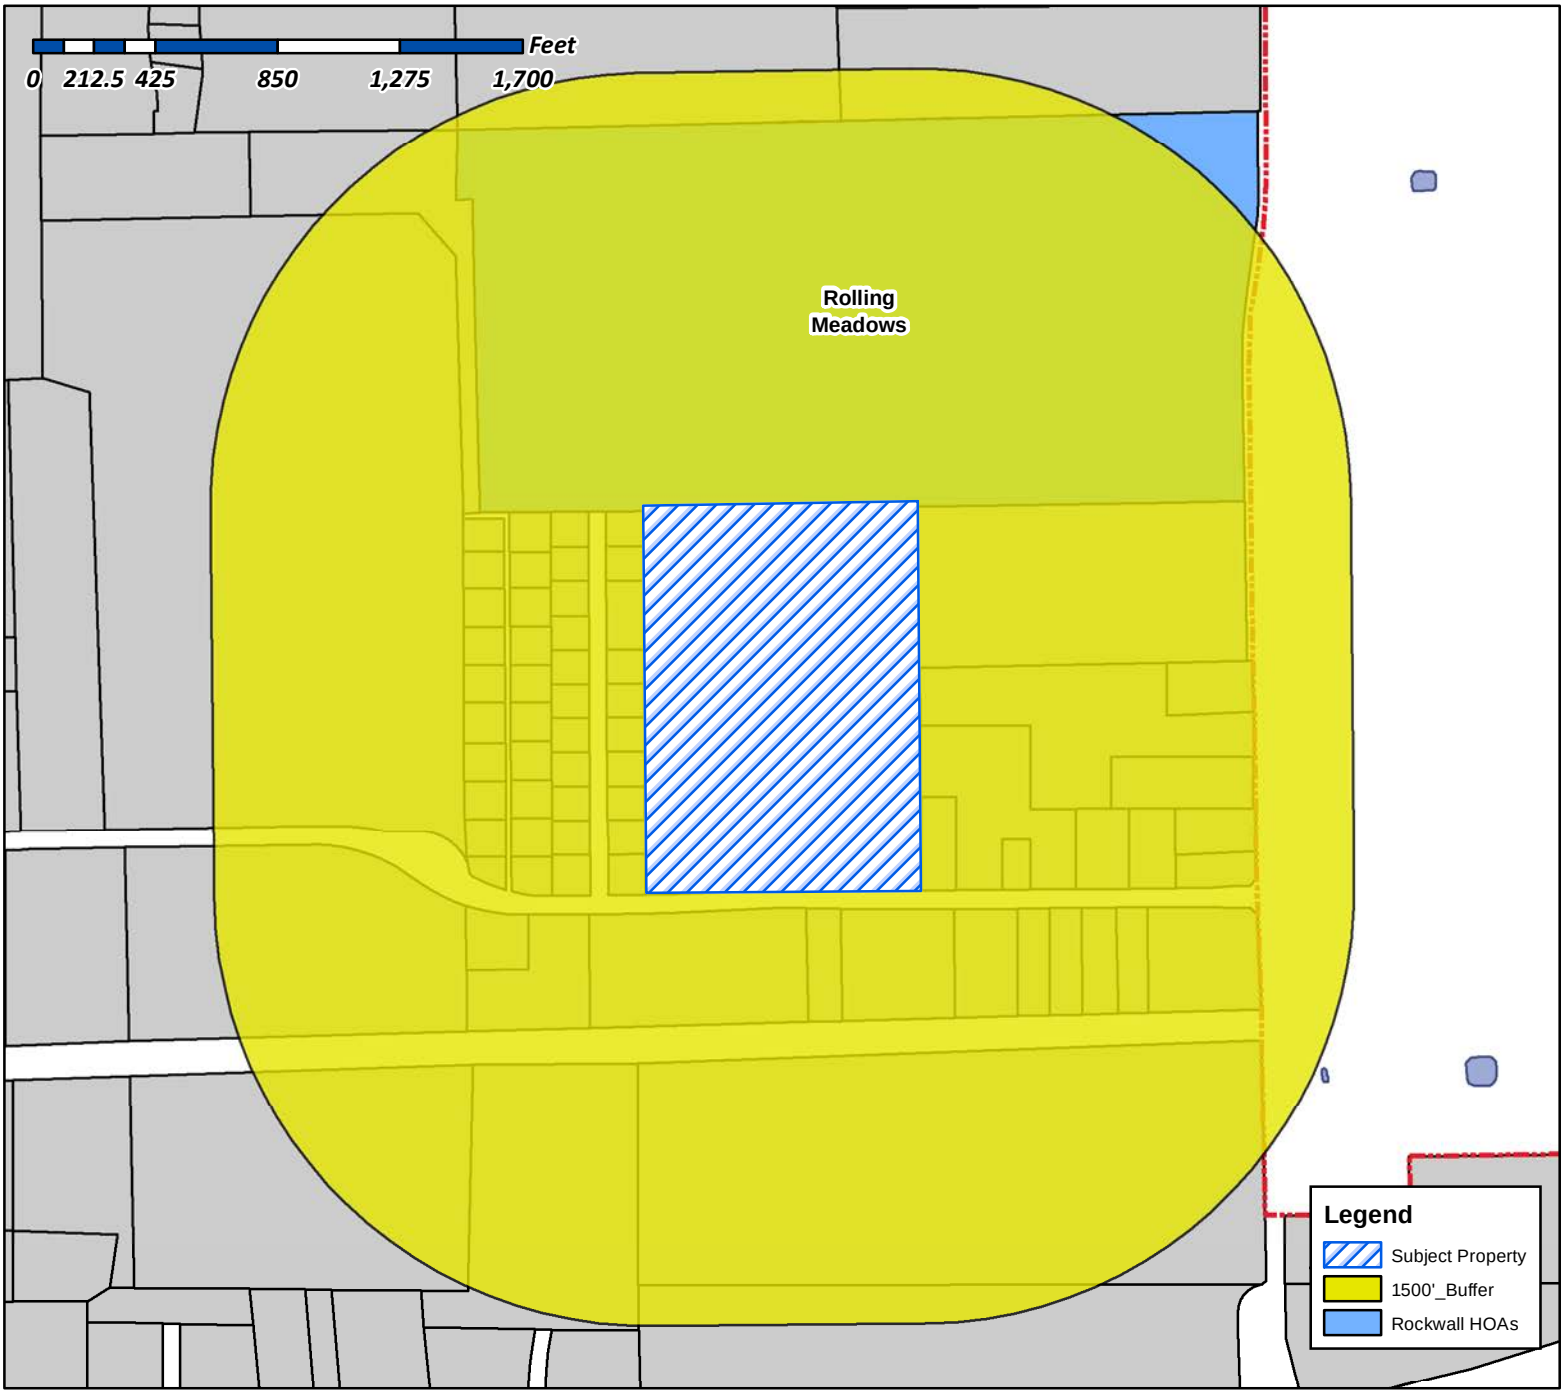
Case No. Z2016-014: Ridgecrest Subdivision

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☒ I am opposed to the request for the reasons listed below.

Name: Amy Harrell
Address: 10 Amity, Rockwall, TX 75087



Tex. Loc. Gov. Code, Sec. 211.006 (d) If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either: (1) the area of the lots or land covered by the proposed change; or (2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.

PLEASE SEE LOCATION MAP OF SUBJECT PROPERTY ON THE BACK OF THIS NOTICE

Subject: Neighborhood Notification Program: Notice of Zoning Request
Date: Thursday, April 28, 2016 2:19:34 PM

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on *April 29, 2016*. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases.

OWNER'S CERTIFICATE
(Public Dedication)

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS ROCKWALL LAKESIDE CHURCH OF CHRIST, BEING THE OWNER OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

All that certain lot, tract or parcel of land situated in the E.M. ELLIOTT SURVEY, ABSTRACT NO. 77, City of Rockwall, Rockwall County, Texas, and being a part of that 64.88 acres tract of land as described in a Warranty deed from T.B. Moss and wife, Carolyn L. Moss to R.G. Stephens, Joseph Funk, and J.E. Overall, Jr., dated July 21, 1971 and being recorded in Volume 97, Page 420 of the Deed Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner in the North line of said 64.88 acres tract of land, said point being S. 89 deg. 18 min. 40 sec. E., 325.00 feet from the Northwest corner of same, and being in the South line of Lot 6, ROLLING MEADOWS ESTATES, an Addition to the City of Rockwall, Texas, according to the Plat thereof recorded in Cabinet D, Slide 59 of the Plat Records of Rockwall County, Texas, said point also being at the Northeast corner of Lot 22, Greenlee Addition, an Addition to the City of Rockwall, Texas, according to the Plat thereof recorded in Cabinet A, Slide 151 of the Plat Records of Rockwall County, Texas;

THENCE S. 89 deg. 18 min. 40 sec. E. (Controlling bearing line) along the North line of said 64.88 acres tract and the South line of ROLLING MEADOWS ESTATES, a distance of 2096.33 feet to a 1/2" iron rod found for corner in the West right-of-way line of F.M. Highway 549;

THENCE S. 00 deg. 27 min. 08 sec. W. along said right-of-way line, a distance of 561.79 feet to a 3/8" iron rod found for corner at the Northeast corner of a 10.733 acres tract of land as described in a Deed to Cal Gary as recorded in Volume 957, Page 88 of the Real Property Records of Rockwall County, Texas;

THENCE S. 01 deg. 09 min. 28 sec. W. at 773.06 feet pass a 3/8" iron rod found for witness and continuing for a total distance of 793.26 feet to a point for corner in the center of Airport Road;

THENCE N. 88 deg. 50 min. 39 sec. W. along the center of Airport Road, a distance of 952.71 feet to a point for corner at the Southeast corner of Greenlee Addition;

THENCE N. 01 deg. 05 min. 03 sec. E., at 20.00 feet pass a 1/2" iron rod with yellow plastic cap stamped "R.S.C.I. RPLS 5034" set for witness and continuing along the East line of Greenlee Addition for a total distance of 1345.57 feet to the POINT OF BEGINNING and containing 44.29 acres of land.

NOW THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as ROCKWALL LAKESIDE CHURCH OF CHRIST ADDITION an Addition to the City of Rockwall, Texas and whose name is subscribed hereto, hereby dedicated to the use of public forever all streets, alleys parks water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the subdivision have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasional by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exaction's made herein.

Milton Halbert
Milton Halbert

STATE OF TEXAS
COUNTY OF ROCKWALL

Before me, the undersigned authority, on this day personally appeared MILTON HALBERT, known to me to be the person whose name is subscribed to the foregoing instrument, and acknowledged to me that he executed the same for the purpose and consideration therein stated.

Given upon my hand and seal of office this 1st day of July, 2004.

Jenell Lee Strickland
Notary Public in and for the State of Texas

2-16-08
My Commission Expires:

JENELL LEE STRICKLAND
MY COMMISSION EXPIRES
February 16, 2008

NOTE: It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 83-54.

SURVEYOR'S CERTIFICATE

NOW THEREFORE KNOW ALL MEN BY THESE PRESENTS:

THAT I, Harold D. Fetty, III, R.P.L.S. No. 5034, do hereby certify that I prepared this plat from an actual and accurate survey of the land, and that the corner monuments shown thereon were properly placed under my personal supervision.

Harold D. Fetty, III
Registered Professional Land Surveyor No. 5034

RECOMMENDED FOR FINAL APPROVAL

Planning and Zoning Commission

7/21/04
Date

APPROVED

I hereby certify that the above and foregoing plat of ROCKWALL LAKESIDE CHURCH OF CHRIST ADDITION, an addition to the City of Rockwall, Texas was approved by the City Council of the City of Rockwall on the 19 day of July, 2004.

This approval shall be invalid unless the approved plat for such addition is recorded in the office of the County Clerk of Rockwall County, Texas, within one hundred eighty (180) days from said date final approval.

Said addition shall be subject to all the requirements of the Subdivision Regulations of the City of Rockwall.

WITNESS OUR HANDS, this 21st day of July, 2004.

Mayor, City of Rockwall

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO CHANGE THE ZONING FROM AN AGRICULTURAL (AG) DISTRICT TO PLANNED DEVELOPMENT DISTRICT XX (PD-XX) FOR SINGLE FAMILY 10 (SF-10) DISTRICT LAND USES ON THE SUBJECT PROPERTY, BEING A 29.541-ACRE TRACT OF LAND IDENTIFIED AS A PORTION OF LOT 1 AND ALL OF LOT 2, BLOCK A, ROCKWALL LAKESIDE CHURCH OF CHRIST ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from Noah Flabiano of the Skorburg Company on behalf of the owner of the property, Lakeside Church of Christ of Rockwall, for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single Family 10 (SF-10) District land uses, on a 29.541-acre tract of land identified as a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 2. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the

DRAFT ORDINANCE 05.16

amended zoning classification for the *Subject Property*;

Section 4. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 5(b) through 5(g) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) Open Space Master Plan
(2) Master Plat
(3) PD Site Plan
(4) Preliminary Plat
(5) Final Plat

(c) *Open Space Master Plan.* An *Open Space Master Plan* for the *Subject Property*, prepared in accordance with this ordinance and consistent with the *Planned Development Concept Plan*, (*Open Space Master Plan*) shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

(d) *Master Plat.* A *Master Plat* for the *Subject Property* shall be submitted and shall identify the proposed timing of each phase of the proposed development. A *Master Plat* application may be processed by the City concurrently with a *Open Space Master Plan* for the development.

(e) *PD Site Plan.* A *PD Site Plan* covering all of the *Subject Property* shall be submitted and shall identify all site/landscape/hardscape plan(s) for all open space, neighborhood parks, trail systems, street buffers and entry features. A *PD Site Plan* application may be processed by the City concurrently with a *Preliminary Plat* application for the development.

(f) *Preliminary Plat.* A *Preliminary Plat* covering all of the *Subject Property* shall be submitted and shall include a *Treescape Plan*. A *Preliminary Plat* application may be processed by the City concurrently with a *PD Site Plan* application for the development.

(g) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat*, conforming to the *Preliminary Plat*, for all of the *Subject Property* shall be submitted for approval.

Section 5. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 6. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified

DRAFT ORDINANCE 05.16.16

Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 7. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 8. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 6TH DAY OF JUNE, 2016.

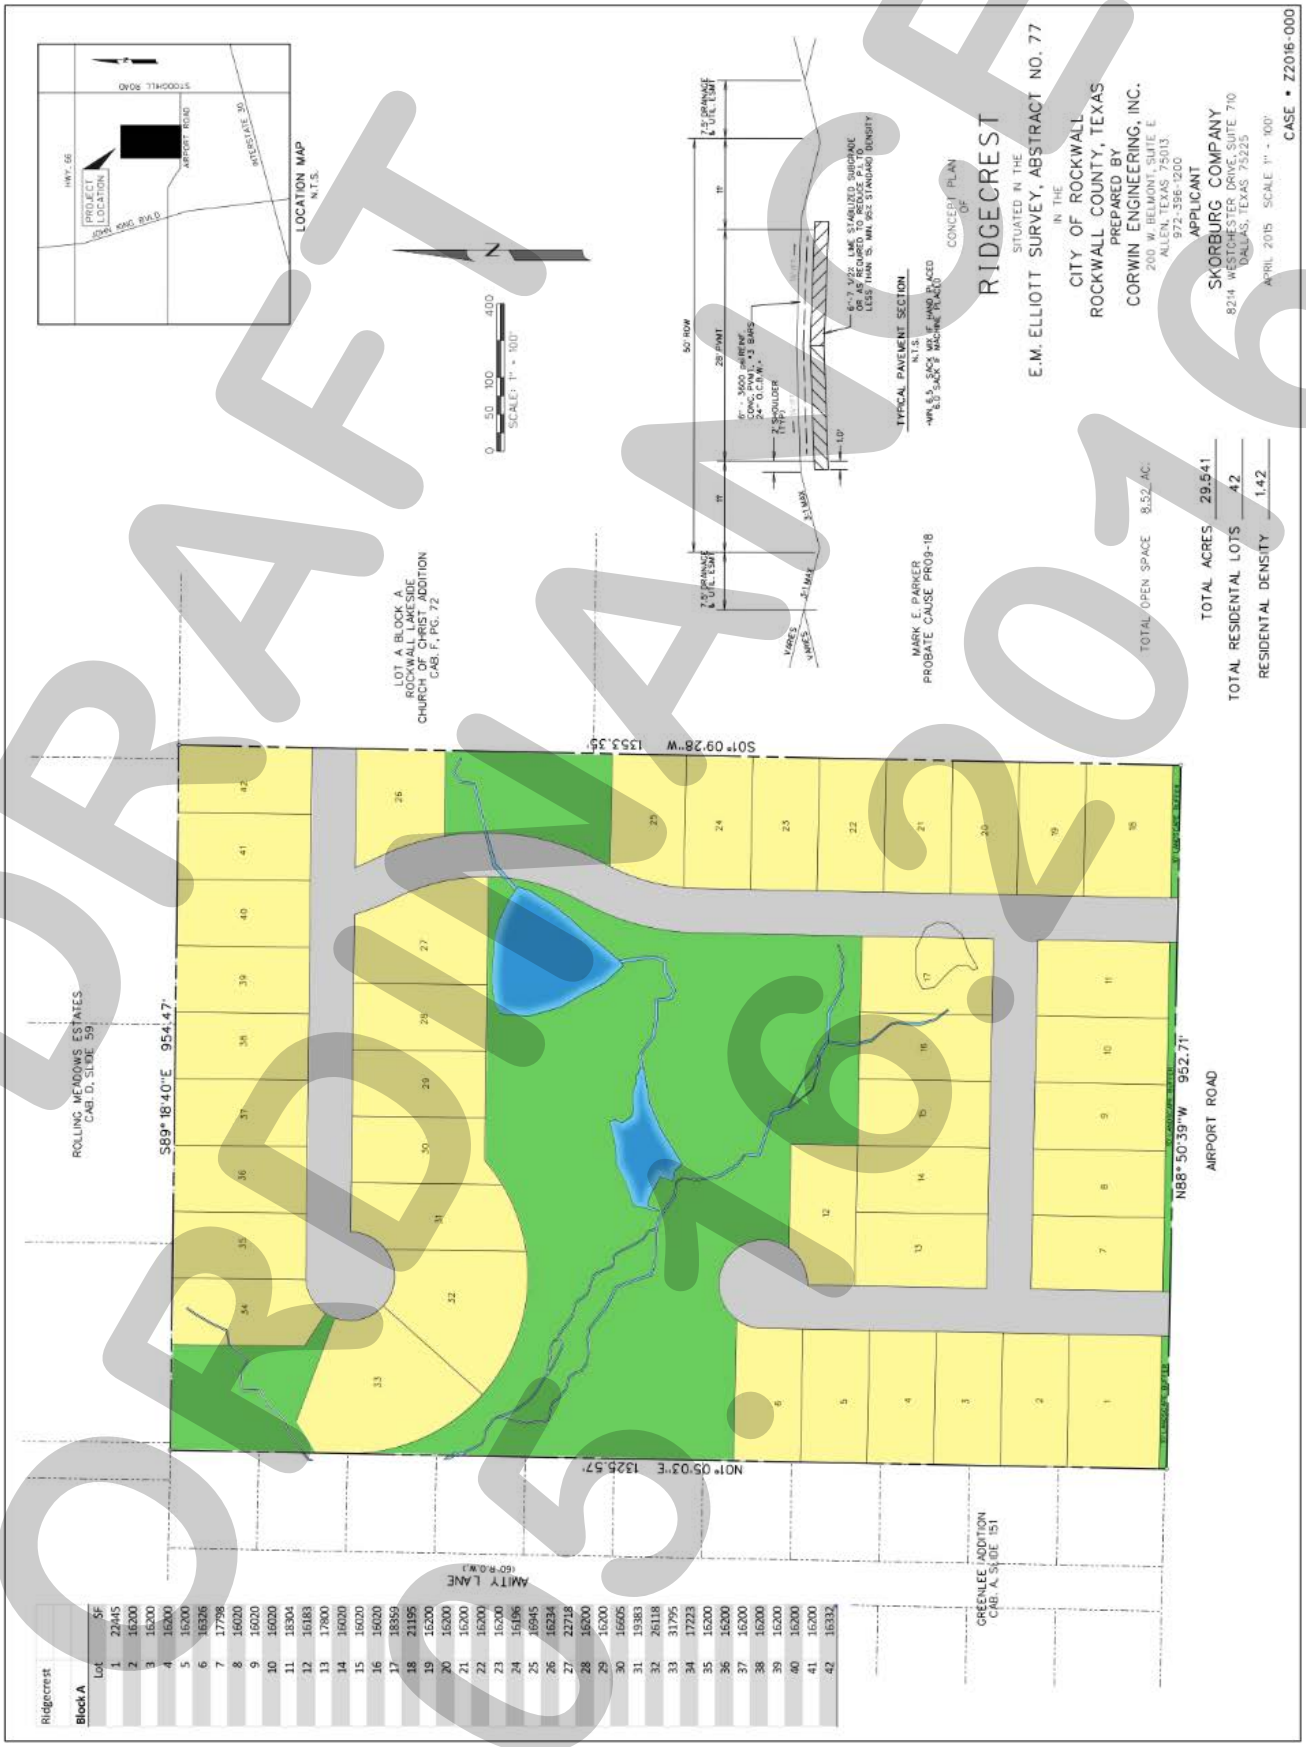
DRAFT ORDINANCE 05.16.2016

Exhibit 'A':
Legal Description

BEING, a tract of land situated in the E.M. Elliott Survey, Abstract No. 77 in Rockwall County, Texas, being all of Lot 2 Block A and a portion of Lot 1 Block A, out of Rockwall Lakeside Church of Christ Addition, an addition to the City of Rockwall, as described in Cabinet F, Slide 72-78, in the Plat Records of Rockwall County, Texas, being more particularly described as follows:

BEGINNING, at a ½ inch iron rod set at the southwest corner of said Rockwall Lakeside Church of Christ Addition and being the southeast corner of Greenlee addition, an addition to the City of Rockwall, as described in Cab. A, Slide 151, in said Plat Records;

THENCE, North 01°05'03" East, along the west line of said Rockwall Lakeside Church of Christ Addition and along the east line of said Greenlee Addition, for a distance of 1325.57 feet, to a ½ inch iron rod set at the northwest corner of said Rockwall Lakeside Church Addition;



THENCE, South 89°18'40" East, along the north line of said Rockwall Lakeside Church Addition, at 894.47 feet, passing the northeast corner of said Lot 2 Block A and the northwest corner of said Lot 1 Block A, for a total distance of 954.47 feet, to a ½ inch iron rod set;

THENCE, South 01°09'28" West, departing said north line, for a distance of 1353.35 feet, to a ½ inch iron rod set at the most southerly southeast corner of said Rockwall Lakeside Church of Christ Addition;

THENCE, North 88°50'39" West, along the south line of said Rockwall Lakeside Church of Christ Addition, for a distance of 952.71 feet, to the *POINT OF BEGINNING* and containing 29.541 acres of land.

DRAFT ORDINANCE 05.16.2016

Exhibit 'B':
Concept Plan

DRAFT
ORDINANCE
5.16.16

Exhibit 'C':
PD Development Standards

A. GENERAL REQUIREMENTS

Development Standards.

1. *Permitted Uses.* Unless specifically provided by this *Planned Development Ordinance*, only those uses permitted within the Single Family 10 (SF-10) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are permitted on the *Subject Property*.

2. *Lot Composition and Layout.* The lot layout and composition shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Table 1*, which is as follows:

Table 1: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Dwelling Units (#)*	*Dwelling Units (%)*
A	80' x 100'	15,000 SF	42	100.00%
	Average Lot Size:	15,000 SF		
		Maximum Permitted Units:	*42*	*100.00%*

3. *Density and Dimensional Requirements.* Unless specifically provided by this *Planned Development Ordinance*, the development standards stipulated by the Single Family 10 (SF-10) District, as specified by Article V, *District Development Standards*, of the Unified Development Code are applicable to all development on the *Subject Property.* The maximum permissible density for the *Subject Property* shall not exceed *1.50* dwelling units per gross acre of land; however, in no case should the proposed development exceed *42* units. All lots shall conform to the standards depicted in *Table 2*, which is as follows:

Table 2: Lot Dimensional Requirements

Minimum Lot Width/Frontage [1]	80'
Minimum Lot Depth	100'
Minimum Lot Area	15,000 SF
Minimum Front Yard Setback [2]	40'
Minimum Side Yard Setback	5'
Minimum Side Yard Setback (Adjacent to a Street)	10'
Minimum Length of Driveway Pavement	20'
Maximum Height	36'
Minimum Rear Yard Setback	10'
Minimum Area/Dwelling Unit (SF)	1,800 SF
Maximum Lot Coverage	65%

General Notes:

[1]: Lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may have the front lot width reduced by 20% as measured at the front property line provided that the lot width will be met at the front building line. Additionally, the lot depth on lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may be reduced by up to 10%, but shall meet the minimum lot size for each lot type as referenced within *Table 1*.

[2]: The Director of Planning or his designee may grant a reduction in the required 40-foot front yard building setback of up to five (5) feet for lots situated along cul-de-sacs or curvilinear streets, or where a 40-foot front yard building setback would create an undue hardship on the property.

4. *Building Standards.* All development shall adhere to the following building standards:

(a) *Masonry Requirement.* The minimum masonry requirement for the exterior façades of all buildings shall be 80%. For the purposes of this ordinance the masonry requirement shall be limited to full width brick, natural stone, cast stone, cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*), and stucco (*i.e. three [3] part*

DRAFT ORDINANCE 05.16.16

stucco or a comparable -- to be determined by staff). Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and/or stucco shall be permitted to be used to meet up to 50% of the masonry requirement.

(b) Roof Pitch. A minimum of an *8:12* roof pitch is required on all structures with the exception of sunrooms and porches, which shall have a minimum of a *4:12* roof pitch. Roofs in the front and rear of the house maybe a minimum of 5:12 roof pitch.

(c) Garage Orientation. Garages shall oriented in a *traditional swing* (or *j-swing*) or in a front entry configuration. If a front entry garage configuration is utilized that garage shall be located at least 20-feet behind the front building façade. On *traditional swing* (or *j-swing*) garages a second single garage door facing the street is permitted if it is located behind the width of the double garage door.

5. *Anti-Monotony Restrictions.* The development shall adhere to the following anti-monotony standards:

   (1) Identical brick blends or paint colors may not occur on adjacent (*side-by-side*) properties along any block face without at least four (4) intervening homes of differing materials on the same side of the street beginning with the adjacent property and two (2) intervening homes of differing materials on the opposite side of the street.

   (2) Front building elevations shall not repeat along any block face without at least four (4) intervening homes of differing appearance on the same side of the street and two (2) intervening homes of differing appearance on the opposite side of the street. The rear elevation of homes backing to open spaces or Airport Road shall not repeat without at least four (4) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

   (a) Number of Stories
   (b) Permitted Encroachment Type and Layout
   (c) Roof Type and Layout
   (d) Articulation of the Front Façade

   (3) Each phase of the subdivision will allow for a maximum of four (4) compatible roof colors, and all roof shingles shall be an architectural or dimensional shingle (*3-Tab Roofing Shingles are prohibited*).

See the Illustrations on the following page.

DRAFT ORDINANCE 05.16.2016

Illustration 1: Properties line up on the opposite side of the street. Where RED are the same.

Illustration 2: Properties do not line up on opposite side of the street. Where RED are the same.

6. *Fencing Standards.* All individual residential fencing and walls shall be architecturally compatible with the design, materials and colors of the primary structure on the same lot, and meet the following standards:

   (a) Wood Fences. All wood fences shall be constructed of a standard fencing material (*minimum of ½" thickness or better; spruce fencing will not be allowed*), and use fasteners that are hot dipped galvanized or stainless steel. Wood fences facing onto a street shall be painted and/or stained and sealed with all pickets being placed on the *public side* facing the street. All wood fences shall be smooth-finished, free of burs and splinters, and be a maximum of six (6) feet in height.

   (b) Wrought Iron/Tubular Steel. Lots located along the perimeter of roadways (*i.e. Airport Road*), abutting open spaces, greenbelts and parks shall be required to install a wrought iron or tubular steel fence. Wrought iron/tubular steel fences can be a maximum of six (6) feet in height.

7. Landscape and Hardscape Standards.

(1) *Landscape.* Landscaping shall be reviewed and approved with the *PD Site Plan*. All *Canopy/Shade Trees* planted within this development, unless specifically provided by this *PD Ordinance*, shall be a minimum of three (3) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height. The following tree species are approved for planting within this subdivision:

DRAFT ORDINANCE 05.16

(a) Canopy/Shade Trees. Bald Cyprus, Cedar Elm, Texas Red Oak, Homestead Elm, Lace Bark Elm, Alle Elm, Chinese Pistachio, Shumard Oak, Sycamore, and Burr Oak.

(b) Accent/Ornamental/Under-Story Trees. Texas Redbud, Eve's Necklace, Mexican Plum, Downy Hawthorn, Crepe Myrtle, Texas Mountain Laurel, Vitex, and Desert Willow.

(2) *Landscape Buffers.* All landscape buffers and plantings located within the buffers shall be maintained by the Homeowner's Association (HOA).

(a) Landscape Buffer and Sidewalks (Airport Road). A minimum of a 10-foot landscape buffer shall be provided along the frontage of Airport Road (*outside of and beyond any required right-of-way dedication*), and shall incorporate ground cover and one (1) canopy tree per 50-feet of linear frontage.

(3) *Streetscape Landscaping.* Prior to the issuance of a Certificate of Occupancy (CO), all residential, single family lots situated within the proposed subdivision shall be landscaped with canopy trees from the list stipulated by *Section 7(1)* of this ordinance in the following sizes and proportions:

(i) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of an interior lot.
(ii) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of a corner lot and two (2), three (3) inch caliper trees shall be planted in the side yard facing the street.

Note: For the purposes of this section only [i.e. Section 7(3)], the term "front yard" includes the area within the dedicated right-of-way for a parkway immediately adjoining the front yard of the lot.

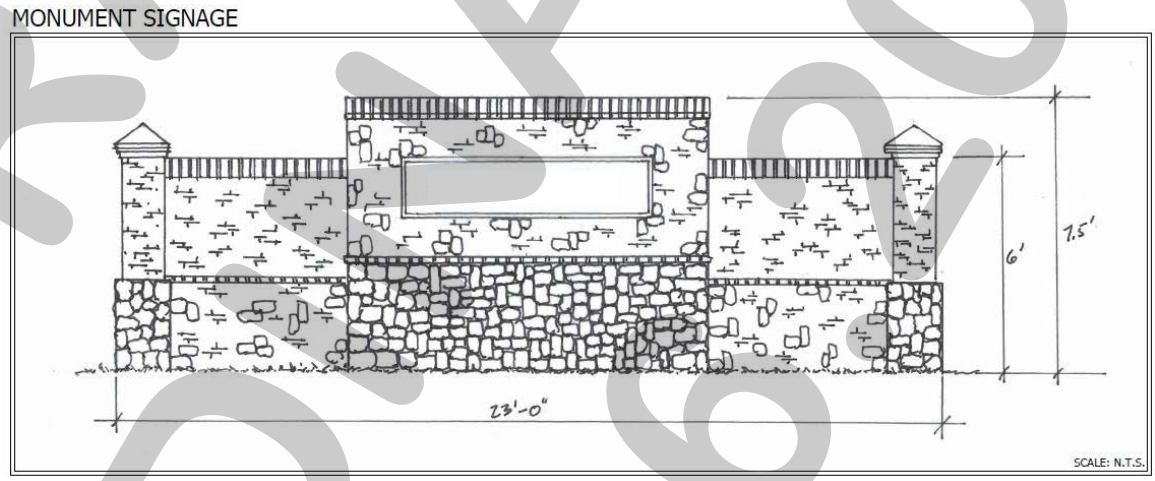
(4) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect and shall be maintained by the Homeowner's Association.

(5) *Hardscape*. Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the *PD Site Plan*.

8. *Street.* All streets (*excluding drives, fire lanes and private parking areas*) shall be built according to City street standards and conform to the street cross section contained in *Exhibit 'B'* of this ordinance.

9. *Lighting.* Light poles shall not exceed 20-feet in total height (*i.e. base and lighting standard*). All fixtures shall be directed downward and be positioned to contain all light within the development area.

10. *Buried Utilities.* New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. New transmission power-lines, or distribution lines of a size not typically or cost effectively placed underground (*i.e. 3-phase lines*), or additional lines that are added to existing poles, may be above ground, if



DRAFT ORDINANCE 05.16.2016

located along the perimeter of the *Subject Property*. The *Developer* shall not be required to re-locate existing overhead power-lines along the perimeter of the *Subject Property*. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be considered *existing lines* at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph. Franchise utilities shall be placed within a ten (10) foot public utility easement behind the sidewalk, between the home and the property line.

11. *Open Space*. The development shall consist of a minimum of *20%* open space (*or 5.9082-acres*), and generally conform to the *Concept Plan* contained in *Exhibit 'B'* of this ordinance. All open space areas shall be maintained by the Homeowner's Association (HOA).

12. *Neighborhood Signage.* Permanent subdivision identification signage shall be permitted at all major entry points for the proposed subdivision and shall generally conform to the signage depicted in *Figure 1* (*below*). Final design and location of any entry features shall be reviewed and approved with the *PD Site Plan*.

Figure 1: *Example of Subdivision Signage Design Standard*

13. *Homeowner's Association (HOA)*. A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of *Section 38-15* of the *Subdivision Regulations* contained within the *Municipal Code of Ordinances* of the City of Rockwall. The HOA shall also maintain all neighborhood parks, trails, open space and common areas, irrigation, landscaping, amenity centers, screening fences associated with this development.

14. *Variances*. The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

DRAFT ORDINANCE 03.16

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 05/10/2016

APPLICANT: Pat Atkins, *Saddle Star Land Development, Inc.*

AGENDA ITEM: **Z2016-015**; *Saddle Star Estates South (Amendment to PD-79)*

SUMMARY:

Hold a public hearing to discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (R. & R. Hance Investments, LP) for the approval of a zoning amendment to Planned Development District 79 (PD-79) [Ordinance No. 16-07] for the purpose of amending the concept plan and incorporating 11.121-acres of land into the existing 44.292-acre development creating a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.

BACKGROUND:

On January 4, 2016, the City Council approved Planned Development District 79 (PD-79) [*Case No. Z2015-034*], which rezoned the 45.292-acre subject property from an Agricultural (AG) District to a Planned Development District for a single-family, residential subdivision that consisted of 113 single-family lots. As part of this case, the applicant indicated that an additional 11.121-acre tract of land -- *situated in the City's Extraterritorial Jurisdiction (ETJ)* -- would be incorporated into the subdivision after the property had been annexed. On May 16, 2016, the City Council is scheduled to approve the voluntary annexation of the 11.121-acre tract of land [*A2016-001*] -- *the first reading was on April 18, 2016* --, which will be designated as an Agricultural (AG) District upon annexation. In accordance with the original intent of the request, the applicant has submitted an application requesting to amend Planned Development District 79 (PD-79) to incorporate the newly annexed land into the subdivision. This will increase the number of lots in the subdivision from 113 to 138.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is the City's corporate boundaries followed by two (2) large tracts of land situated within the City's Extraterritorial Jurisdiction (ETJ).

South: Directly south of the subject property is John King Boulevard, which is identified as a P6D (*principle arterial, six [6] lane, divided roadway*) on the City's *Master Thoroughfare Plan*. Beyond this are several tracts of vacant land zoned Agricultural (AG) District.

East: Directly east of the subject property is a 29.192-acre vacant tract land zoned Planned Development District 77 (PD-77) for Single Family 10 (SF-10) District land uses. Beyond this are several single-family homes zoned Agricultural (AG) District.

West: Directly south of the subject property is John King Boulevard, which is identified as a P6D (*principle arterial, six [6] lane, divided roadway*) on the City's *Master Thoroughfare Plan*.

Beyond this arterial is a vacant property zoned Planned Development District 70 (PD-70) for Single Family 10 (SF-10) District land uses. This is the remainder of the Stone Creek Subdivision.

CHARACTERISTICS OF THE REQUEST:

Along with the application, the applicant has submitted a revised concept plan showing the layout of the additional 25 single-family lots. All 138 lots will be a minimum of 70' x 125' (or 8,750 SF). The development will maintain the ~2.49 units/acre approved with the original PD ordinance. In addition, the applicant will be increasing the percentage of open space from ~17% to ~22.63%, and will be incorporating an amenities center and community garden area. A summary of the proposed development standards is as follows:

Minimum Lot Width [1]	70'
Minimum Lot Depth	125'
Minimum Lot Area	8,750 SF
Minimum Front Yard Setback [2] & [5]	20'
Minimum Side Yard Setback	5'
Minimum Side Yard Setback (Adjacent to a Street) [2] & [5]	10'
Minimum Length of Driveway Pavement	25'
Maximum Height [3]	30'
Minimum Rear Yard Setback [4]	20'
Minimum Area/Dwelling Unit (SF)	2,700 SF
Maximum Lot Coverage	65%
Permitted Encroachment into Required Setbacks [5]	Allowed

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the single family home.

[4]: As measured from the rear yard property line.

[5]: Sunrooms, porches, stoops, bay windows, balconies, masonry clad chimneys, eaves and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to ten (10) feet for any property; however, the encroachment shall not exceed five (5) feet on *Side Yard Setbacks (Adjacent to a Street)* and shall not encroach into public right-of-way [a *Sunroom* is an enclosed room no more than 15-feet in width that has glass on at least 50% of each of the encroaching faces].

Waivers to Code Requirements:

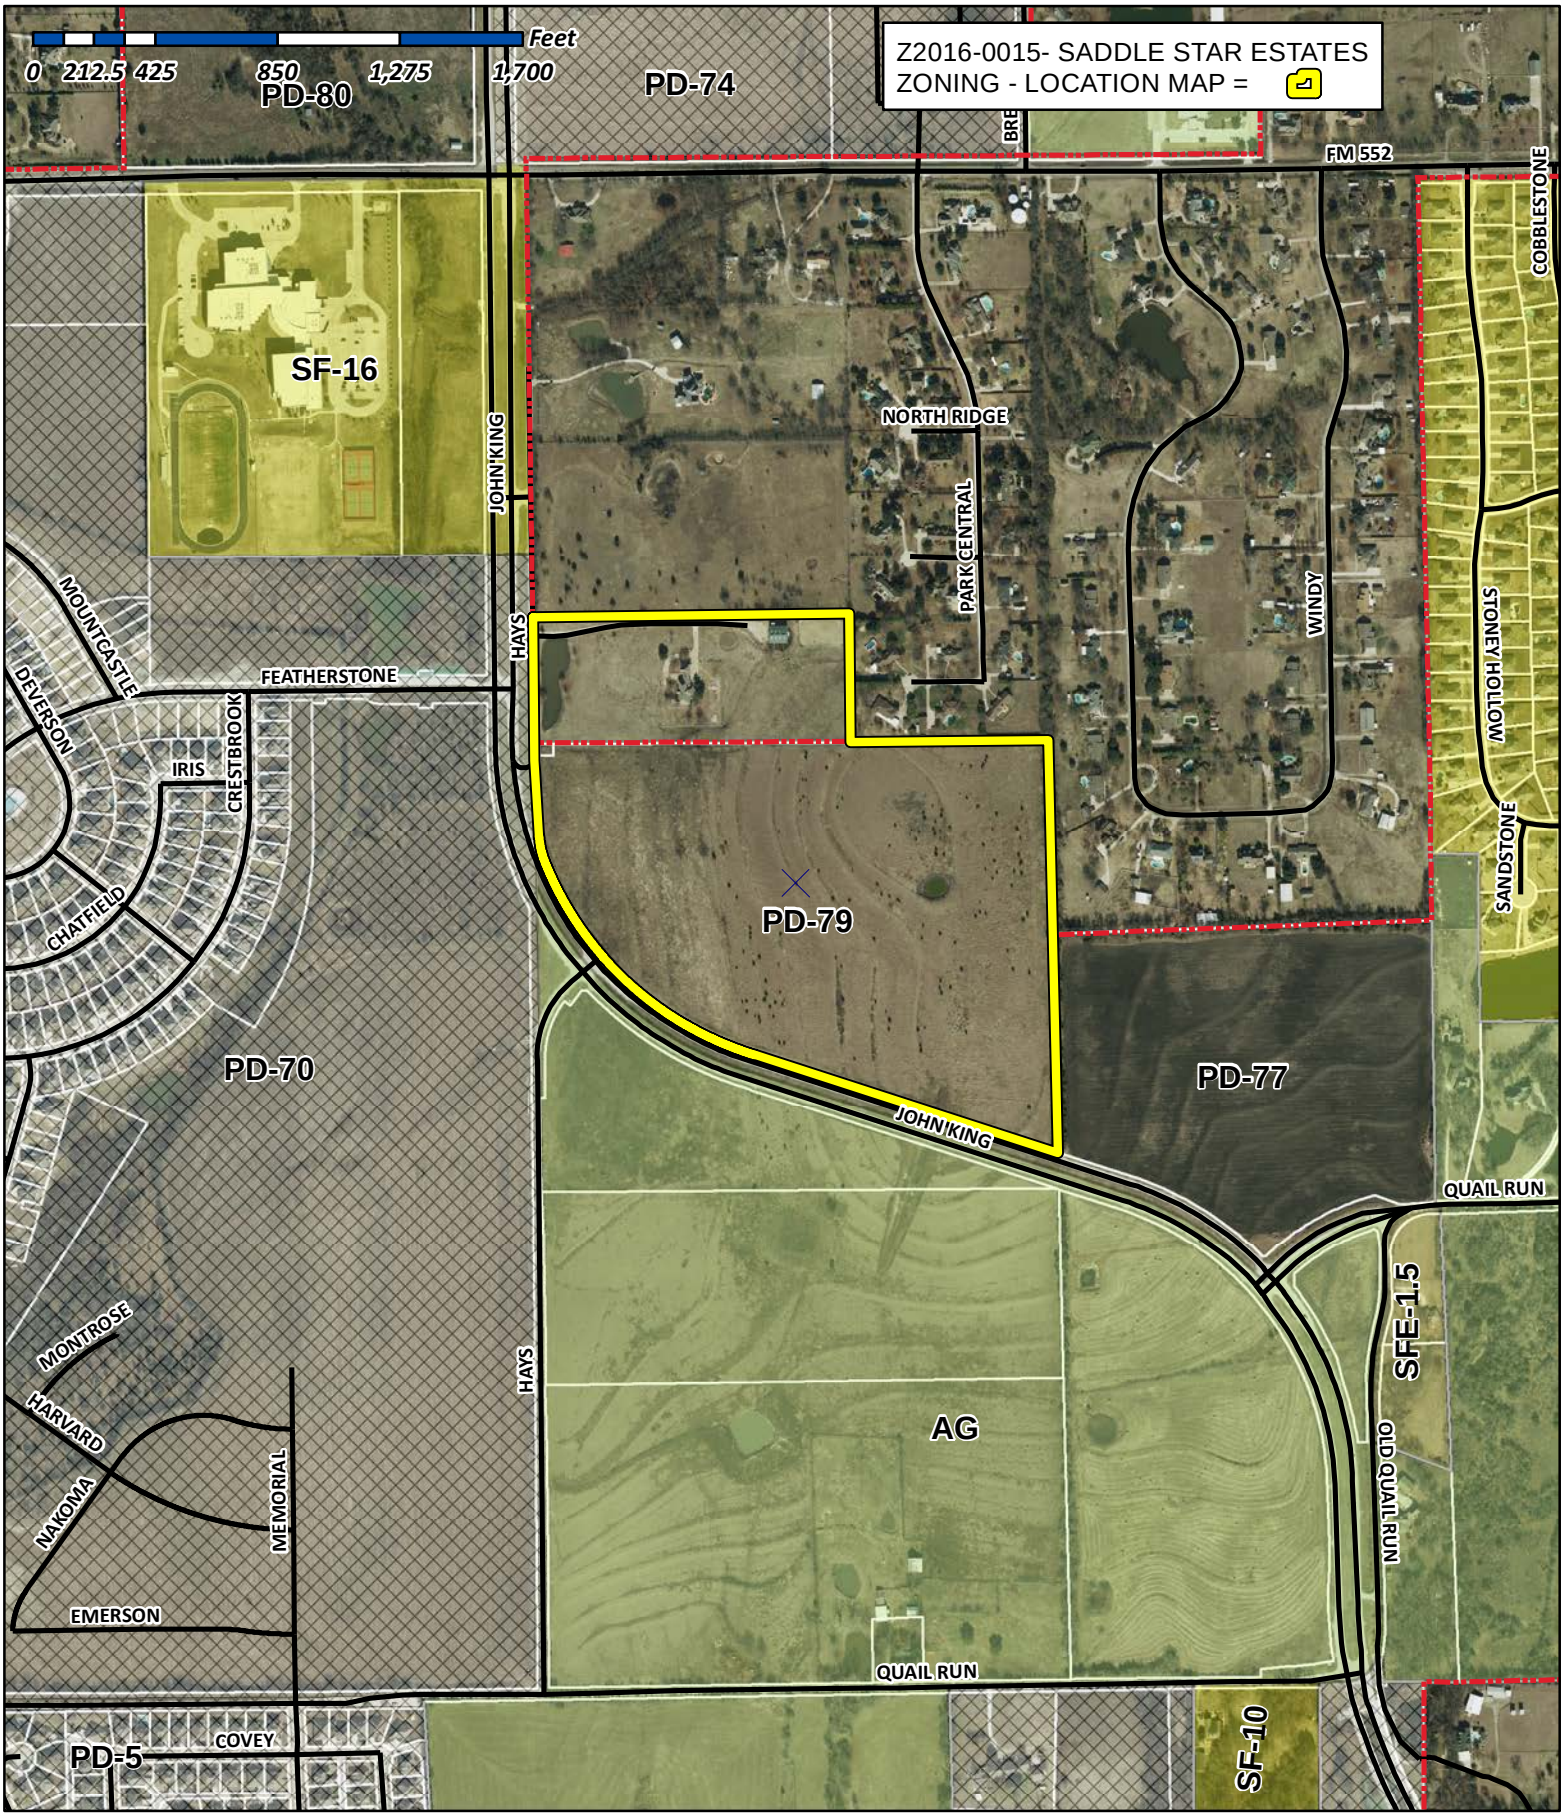
It should be noted that as part of the PD amendment, the applicant is requesting to change the garage orientation to allow a minimum of a five (5) foot offset between the front façade of the primary structure and the garage. Currently, Section 4(c) of *Exhibit 'C'* of *Ordinance No. 16-07* -- *in conformance with Section 4, Residential Parking, of Article VI, Parking and Loading, of the Unified Development Code* -- requires a minimum of a 20-foot offset between the front façade of the primary structure and the garage. It should be noted that this same request was approved in the Somerset Park Subdivision (*i.e. PD-63*), and that the approved/proposed PD ordinance (*i.e. Ordinance No. 16-07*) incorporates many of the same components as Planned Development District 63 (PD-63) [*Ordinance No. 14-49*]. Specifically, with regard to the permitted encroachment into the front yard building setback, which is intended to provide variation and articulation in the front façade of the proposed houses.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The proposed zoning change does not change the proposed land use of the property and the applicant's request remains in conformance to the *Low Density Residential* land use designation indicated on the Future Land Use Map of the Comprehensive Plan. Moreover, according to the

Comprehensive Plan, *Low Density Residential* areas are "generally defined as less than two (2) units per acre; however, a density up to two-and-one-half (2½) units per gross acre may be allowed within a residential Planned Development District …" The Unified Development Code (UDC) expands this statement by stating that additional amenities (*e.g. parks, open space, amenity centers, schools, trails, etcetera*) that exceed the minimum requirements would qualify a development for a density bonus of up to two-and-one-half (2½) units per acre [*Sec. 1.2, Art. X; UDC*]. In this case, the applicant has provided additional open space and single loaded many the lots so that a good portion of properties will face on to an open space. Taking this into consideration and that the applicant's revised concept plan (1) does not change the density from ~2.49 units/acre, and (2) increases the open space and amenity in the area; brings the request further into conformance with the Comprehensive Plan.

NOTIFICATION:



On April 29, 2016, staff mailed three (3) notices to property owners and residents within 500-feet of the subject property. Staff also emailed notices to the Stoney Hollow and Stone Creek Homeowner's Associations (HOA's), which are the only HOA's located within 1,500 feet of the subject property. Additionally, staff posted a sign along John King Boulevard, and advertised the public hearings in the Rockwall Harold Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted no responses were received by staff.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to amend Planned Development District 79 (PD-79), then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Subject: Neighborhood Notification Program: Notice of Zoning Request
Date: Thursday, April 28, 2016 2:23:46 PM

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on *April 29, 2016*. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases.

Z2016-015
Hold a public hearing to discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (*R. & R. Hance Investments, LP*) for the approval of a zoning amendment to Planned Development District 79 (PD-79) [*Ordinance No. 16-07*] for the purpose of amending the concept plan and incorporating 11.121-acres of land into the existing 44.292-acre development creating a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard south of Featherstone Drive, and take any action necessary.

PROPERTY DESCRIPTION

TRACT 1:

BEING 44.292 acres of land situated in the P.B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and being part of two tracts of land, the "First Tract" being a called 32.5 acres and the "Second Tract" being a called 32 acres, described in a Special Warranty Deed to R & R Hance Investments, L.P., recorded as Instrument No. 2008-00396963 and in Volume 5433, Page 49 of the Deed Records of Rockwall County, Texas (DRRCT), SAVE AND EXCEPT the called "Parcel 16 (Parts 1 and 2)" conveyed to the City of Rockwall, recorded as Instrument No. 2007-00380919 and in Volume 5124, Page 210 (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" capped iron rod stamped, "6081," found for corner in the northeasterly right-of-way line of John Kind Boulevard (120' right-of-way) at the common north corner of said "Part 1" of Parcel 16 and called "Parcel 15" conveyed to the City of Rockwall, recorded as Instrument No. 2009-00424601 and in Volume 5951, Page 84 (DRRCT), said point also being in the common line of said "First Tract" and a called 29.185 acre tract of land conveyed to Gideon Grove Ltd., recorded as Instrument No. 20150000014609 of the Official Public Records of Rockwall County, Texas;

THENCE North 72°06'44" West along the common northeasterly line of said John Kind Boulevard and said Part 1, a distance of 1,126.56 feet to a point for corner at the beginning of a tangent curve to the right, having a radius of 1,140.00 feet and a chord which bears North 44°02'06"West, a distance of 1,073.12 feet;

THENCE in the northwesterly direction along said curve to the right, and last mentioned common line, through a central angle of 56°09'19", an arc distance of 1,117.31 feet to a 1/2" iron rod with a yellow cap stamped, "RPLS 3963," set for corner at the end of said curve and at the most northerly corner of said Part 1;

THENCE North 00°38'27" West continuing along the east right-of-way line of said John Kind Boulevard, a distance of 261.96 feet to a "PK" nail set for corner at the southwest corner of said Part 2;

THENCE North 89°38'44" East along the south line of said Part 2, a distance of 50.00 feet to a 1/2" iron rod with a yellow cap found for the southeast corner thereof;

THENCE North 00°38'27" West along the east line of said Part 2, a distance of 40.00 feet to a 1/2" iron rod with a yellow cap found for the northeast corner thereof in the north line of said Second Tract and being in the south line of a tract of land conveyed to Randy and Gwen Reed, recorded in Volume 260, Page 1 (DRRCT);

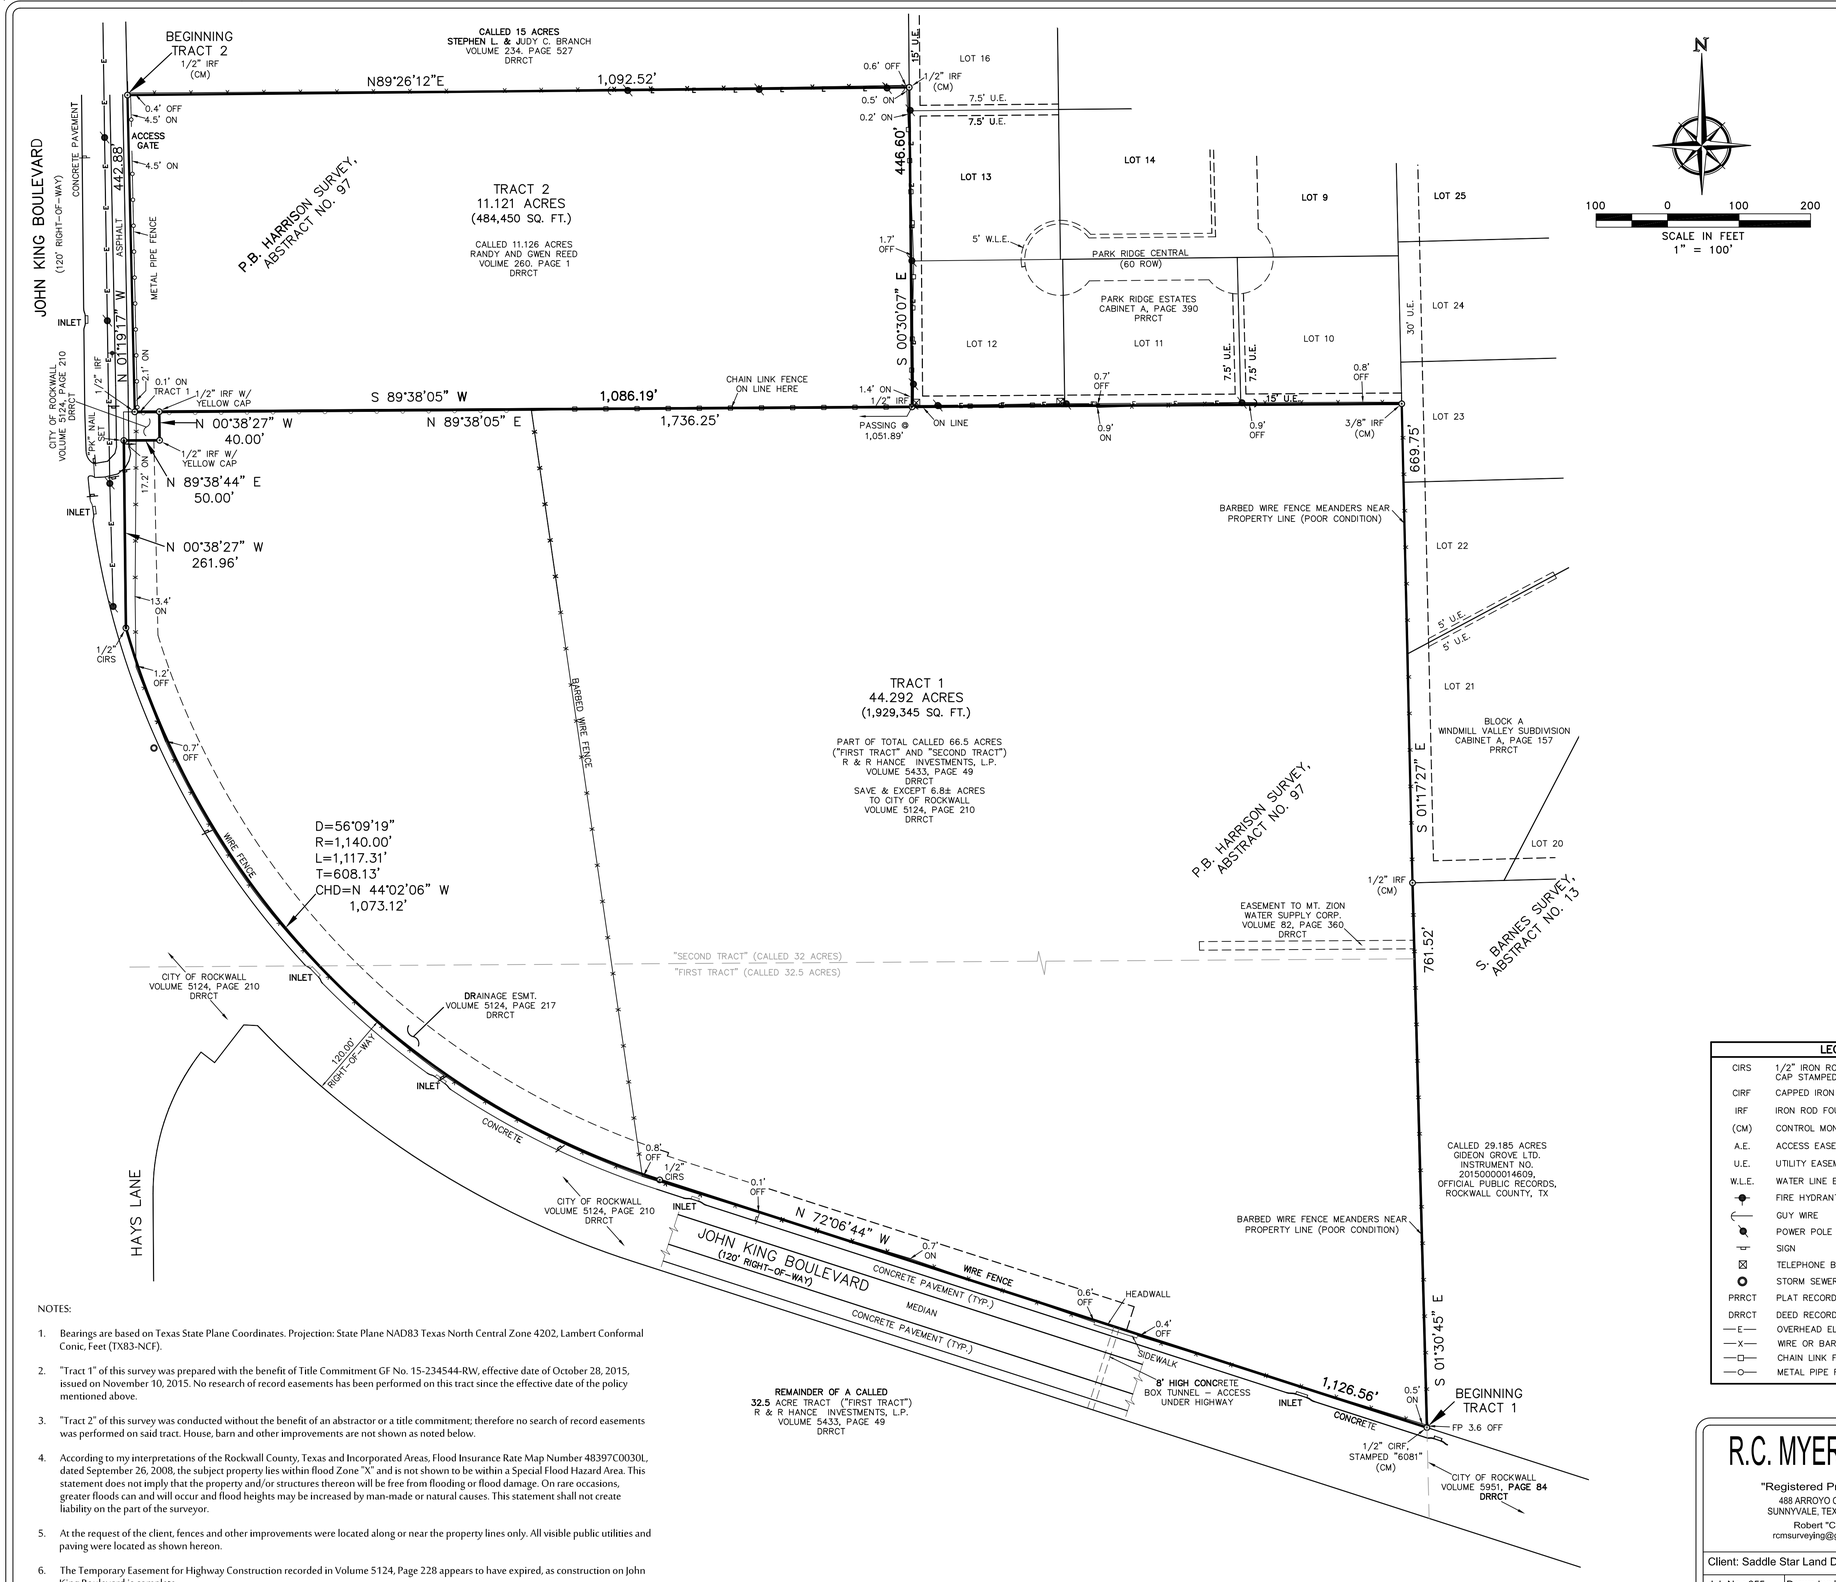
THENCE North 89°38'05" East along the common line of last mentioned tracts, at 1,051.89 feet passing a 1/2" iron rod found for the southeast corner of said Reed tract common to the southwest corner of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT), and continuing along the north line of said Second Tract and the south line of said Park Ridge Estates, a total distance of 1,736.25 feet to a 3/8" iron rod found for the common east corner thereof, and being in the west line of Block A of Windmill Valley Subdivision, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 157 (PRRCT);

THENCE South 01°17'27" East along the common line of said Second Tract and said Block A, a distance of 669.75 feet to a 1/2" iron rod found for the southwest corner of said Block A, and being the northwest corner of said 29.185 acre tract;

THENCE South 01°30'45" East along the west line of said 29.185 acre tract and partially along the east lines of said First Tract and said Second Tract, a distance of 761.52 feet to the PLACE OF BEGINNING and Containing 44.292 acres, or 1,929,345 square feet, of land.

TRACT 2:

BEING 11.121 acres of land situated in the P.B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and being all of a called 11.126 acre tract of land described in a Warranty Deed with Vendor's Lien to Randy Reed and wife, Gwen Reed, recorded in Volume 260, Page 1 of the Deed Records of Rockwall County, Texas (DRRCT), and being more particularly described as follows:



BEGINNING at a 1/2" iron rod found for corner in the east right-of-way line of John Kind Boulevard (120' right-of-way) at the common west corner of said Reed tract and a tract of land conveyed to Stephen L. Branch and Judy C. Branch, recorded in Volume 234, Page 527 (DRRCT);

THENCE North 89°26'12" East along the common line of last mentioned tracts, a distance of 1,092.52 feet to a 1/2" iron rod found for the common east corner thereof, and being in the west line of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT);

THENCE South 00°30'07" East along the common line of said Reed tract and said Park Ridge Estates, a distance of 446.60 feet to a 1/2" iron rod found for the common south corner thereof, and being in the north line of a called 32 acre tract described, in a Special Warranty Deed to R & R Hance Investments, L.P.,as "Second Tract," recorded as Instrument No. 2008-00396963 and in Volume 5433, Page 49 (DRRCT);

THENCE South 89°38'05" West along the common line of said Second Tract and said Reed tract, a distance of 1,086.19 feet to a 1/2" iron rod found at the southwest corner of said Reed tract and being in the east right-of-way line of said John King Boulevard;

THENCE North 01°19'17" West along thewest line of said Reed tract andthe east line of said John King Boulevard, a distance of 442.88 feet to the PLACE OF BEGINNING and Containing 11.121 acres, or 484,450 square feet, of land.

NOTES:

1. Bearings are based on Texas State Plane Coordinates. Projection: State Plane NAD83 Texas North Central Zone 4202, Lambert Conformal Conic, Feet (TX83-NCF).
2. "Tract 1" of this survey was prepared with the benefit of Title Commitment GF No. 15-234544-RW, effective date of October 28, 2015, issued on November 10, 2015. No research of record easements has been performed on this tract since the effective date of the policy mentioned above.
3. "Tract 2" of this survey was conducted without the benefit of an abstractor or a title commitment; therefore no search of record easements was performed on said tract. House, barn and other improvements are not shown as noted below.
4. According to my interpretations of the Rockwall County, Texas and Incorporated Areas, Flood Insurance Rate Map Number 48397C0030L, dated September 26, 2008, the subject property lies within flood Zone "X" and is not shown to be within a Special Flood Hazard Area. This statement does not imply that the property and/or structures thereon will be free from flooding or flood damage. On rare occasions, greater floods can and will occur and flood heights may be increased by man-made or natural causes. This statement shall not create liability on the part of the surveyor.
5. At the request of the client, fences and other improvements were located along or near the property lines only. All visible public utilities and paving were located as shown hereon.
6. The Temporary Easement for Highway Construction recorded in Volume 5124, Page 228 appears to have expired, as construction on John King Boulevard is complete.

May 3, 2016 Scale:1" = 120' Case No. Z-2016-015

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO FURTHER AMEND PLANNED DEVELOPMENT DISTRICT 79 (PD-79) [*ORDINANCE NO. 16-07*] FOR THE PURPOSE OF AMENDING THE CONCEPT PLAN AND INCORPORATING 11.121-ACRES OF LAND INTO THE EXISTING 44.292-ACRE DEVELOPMENT FOR A 55.413-ACRE TRACT OF LAND, ZONED AGRICULTURAL (AG) DISTRICT AND PLANNED DEVELOPMENT DISTRICT 79 (PD-79) FOR SINGLE FAMILY 8.4 (SF-8.4) DISTRICT LAND USES, BEING IDENTIFIED AS TRACTS 1, 1-5 & 2-03 OF THE P. B. HARRISON SURVEY, ABSTRACT NO. 97, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Pat Atkins of Saddle Star Land Development, Inc. on behalf of the owners Randa Hance of R&R Hance Investment, LP and Gwen Reed for the approval of an amendment to Planned Development District 79 (PD-79) [*Ordinance No. 16-07*] for the purpose of amending the *Concept Plan* and incorporating 11.121-acres of land into the existing 44.292-acre tract of land, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single Family 8.4 (SF-8.4) District land uses, being a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 79 [*Ordinance No. 16-07*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 16-07*;

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by

DRAFT 05.16.16

granting this zoning change, and as maybe amended in the future;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 5(b) through 5(g) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) Open Space Master Plan
(2) Master Plat
(3) PD Site Plan
(4) Preliminary Plat
(5) Final Plat

(c) *Open Space Master Plan.* An *Open Space Master Plan* for the *Subject Property*, prepared in accordance with this ordinance and consistent with the *Planned Development Concept Plan*, and shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

(d) *Master Plat.* A *Master Plat* for the *Subject Property* shall be submitted and shall identify the proposed timing of each phase of the proposed development. A *Master Plat* application may be processed by the City concurrently with a *Open Space Master Plan* for the development.

(e) *PD Site Plan.* A *PD Site Plan* covering all of the *Subject Property* shall be submitted and shall identify all site/landscape/hardscape plan(s) for all open space, neighborhood parks, trail systems, street buffers and entry features. A *PD Site Plan* application may be processed by the City concurrently with a *Preliminary Plat* application for the development.

(f) *Preliminary Plat.* A *Preliminary Plat* covering all of the *Subject Property* shall be submitted and shall include a *Treescape Plan*. A *Preliminary Plat* application may be processed by the City concurrently with a *PD Site Plan* application for the development.

DRAFT ORDINANCE 05-16-2016

(g) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat*, conforming to the *Preliminary Plat*, for all of the *Subject Property* shall be submitted for approval.

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 6TH DAY OF JUNE, 2016.

DRAFT ORDINANCE 05.16.16

Exhibit 'A':
Legal Description and Survey

TRACT 1:

BEING 44.292 acres of land situated in the P. B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and being part of two tracts of land, the "*First Tract*" being a called 32.5 acres and the "*Second Tract*" being a called 32 acres, described in a Special Warranty Deed to R & R Hance Investments, LP., recorded as Instrument No. 2008-00396963 and in Volume 5433, Page 49 of the Deed Records of Rockwall County, Texas (DRRCT), SAVE AND EXCEPT the called "Parcel 16 (Parts 1 and 2)" conveyed to the City of Rockwall, recorded as Instrument No. 2007-00380919 and in Vol u me 5124, Page 210 (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" capped iron rod stamped, "6081," found for corner in the northeasterly right-of-way line of John King Boulevard (120' right-of-way) at the com mon north corner of said "Part 1" of Parcel 16 and called "Parcel 15" conveyed to the City of Rockwall, recorded as Instrument No. 2009-00424601 and in Volume 5951, Page 84 (DRRCT), said point also being in the common line of said "First Tract" and a called 29.185 acre tract of land conveyed to Gideon Grove Ltd., recorded as Instrument No. 20150000014609 of the Official Public Records of Rockwall County, Texas;

THENCE North 72°06'44" West along the common northeasterly line of said John King Boulevard and said Part 1, a distance of 1,126.56 feet to a point for corner at the beginning of a tangent curve to the right, having a radius of 1,140.00 feet and a chord which bears North 44° 02' 06" West, a distance of 1,073.12-feet;

THENCE in the northwesterly direction along said curve to the right, and last mentioned common line, through a central angle of 56°09'19", an arc distance of 1,117.31-feet to a 1/2" iron rod with a yellow cap stamped, "RPLS 3963," set for corner at the end of said curve and at the most northerly corner of said Part 1;

THENCE North 00°38'27" West continuing along the east right-of-way line of said John King Boulevard, a distance of 261.96 feet to a "PK" nail set for corner at the southwest corner of said Part 2;

THENCE North 89°38'44" East along the south line of said Part 2, a distance of 50.00 feet to a 1/2" iron rod with a yellow cap found for the southeast corner thereof;

THENCE North 00°38'27" West along the east line of said Part 2, a distance of 40.00 feet to a 1/2" iron rod with a yellow cap found for the northeast corner thereof in the north line of said Second Tract and being in the south line of a tract of land conveyed to Randy and Gwen Reed, recorded in Volume 260, Page 1 (DRRCT);

THENCE North 89°38'05" East along the common line of last mentioned tracts, at 1,051.89 feet passing a 1/2" iron rod found for the southeast corner of said Reed tract com mon to the southwest corner of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT), and continuing along the north line of said Second Tract and the south line of said Park Ridge Estates, a total distance of 1,736.25 feet to a 3/8" iron rod found for the com mon east corner thereof, and being in the west line of Block A of Wind mill Valley Subdivision, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 157 (PRRCT);

THENCE South 01°17'27" East along the common line of said Second Tract and said Block A, a distance of 669.75 feet to a 1/2" iron rod found for the southwest corner of said Block A, and being the northwest corner of said 29.185 acre tract;

THENCE South 01°30'45" East along the west line of said 29.185-acre tract and partially

DRAFT ORDINANCE 03.16

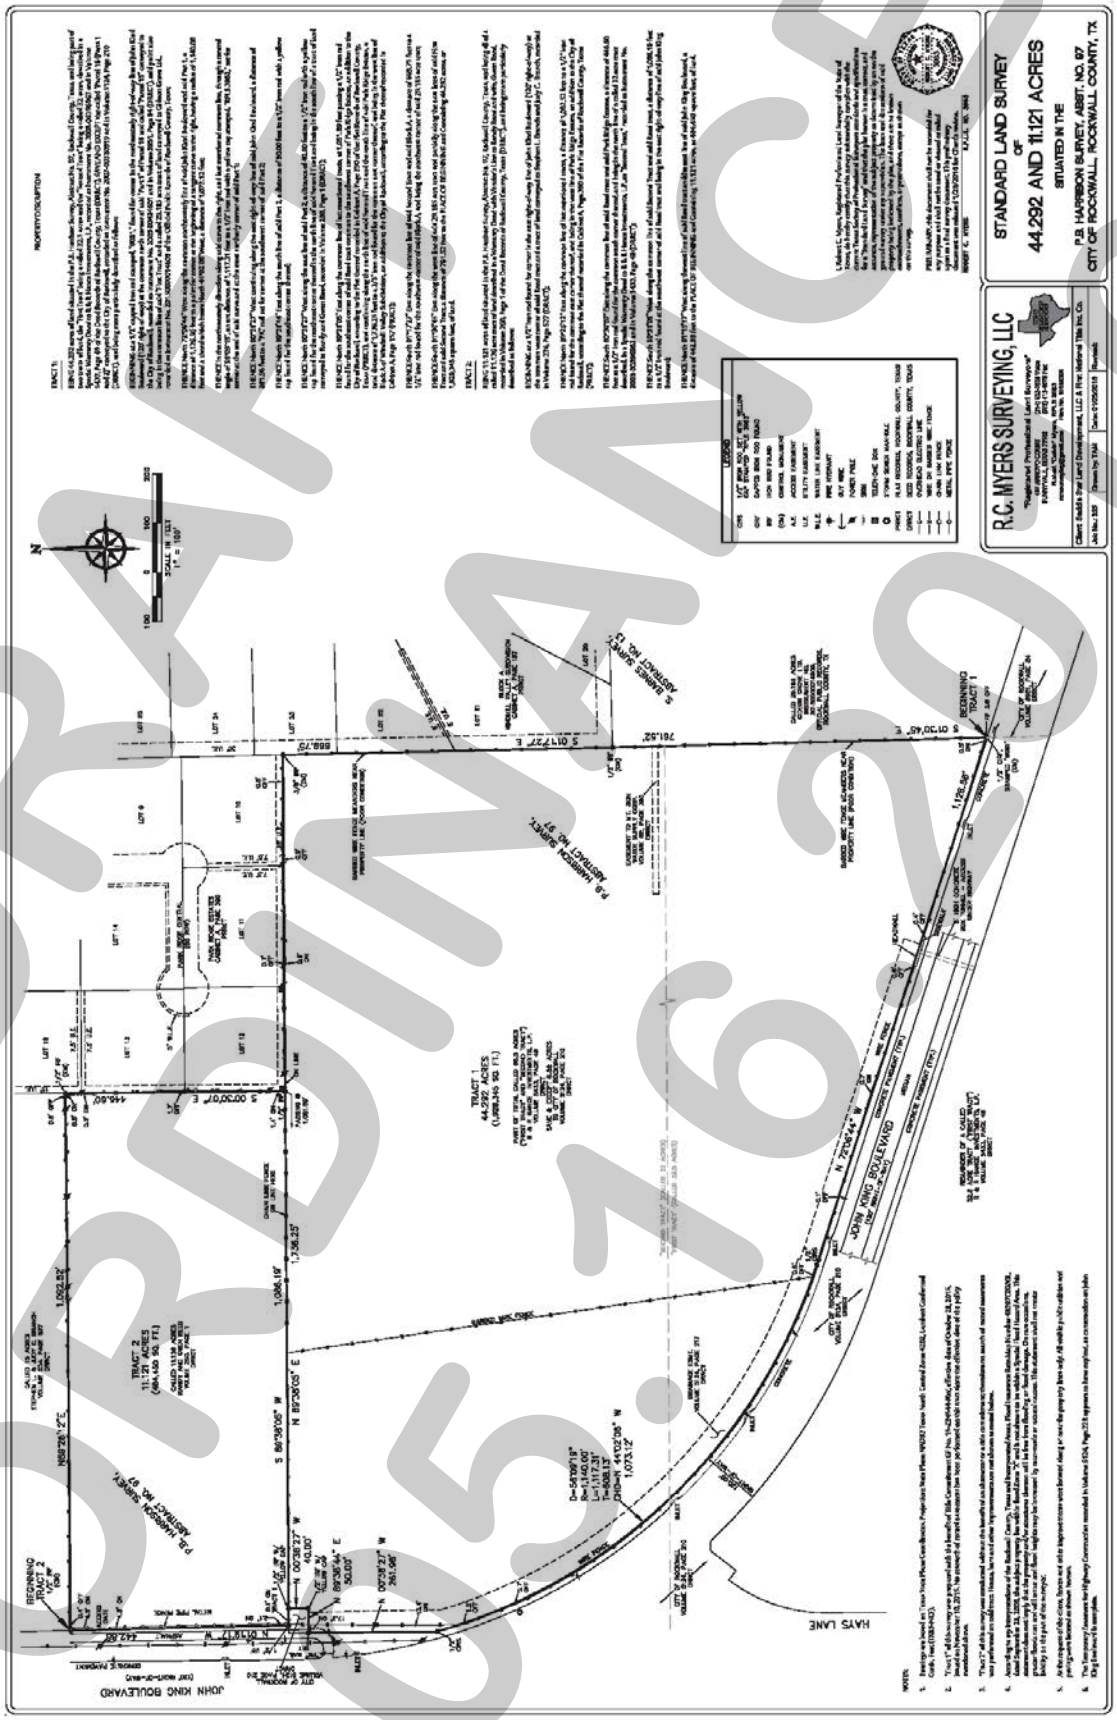
along the east lines of said First Tract and said Second Tract, a distance of 761.52 feet to the PLACE OF BEGINNING and Containing 44.292 acres, or 1,929,345 square feet, of land.

TRACT 2:

BEING 11.121 acres of land situated in the P. B. Harrison Survey, Abstract No. 97, Rockwall County, Texas, and being all of a called 11.126 acre tract of land described in a Warranty Deed with Vendor's Lien to Randy Reed and wife, Gwen Reed, recorded in Volume 260, Page 1 of the Deed Records of Rockwall County, Texas (DRRCT), and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner in the east right-of-way line of John King Boulevard (120' right-of-way) at the common west corner of said Reed tract and a tract of land conveyed to Stephen L. Branch and Judy C. Branch, recorded in Volume 234, Page 527 (DRRCT);

THENCE North 89°26'12" East along the common line of last mentioned tracts, a distance of 1,092.52-feet to a 1/2" iron rod found for the common east corner thereof, and being in the west line of Park Ridge Estates, an addition to the City of Rockwall, according to the Plat thereof recorded in Cabinet A, Page 390 of the Plat Records of Rockwall County, Texas (PRRCT);



THENCE South 00°30'07" East along the common line of said Reed tract and said Park Ridge Estates, a distance of 446.60 feet to a 1/2" iron rod found for the common south corner thereof, and being in the north line of a called 32 acre tract described, in a Special Warranty Deed to R & R Hance Investments, L.P., as "*Second Tract*," recorded as Instrument No. 2008-00396963 and in Volume 5433, Page 49 (DRRCT);

THENCE South 89°38'05" West along the common line of said Second Tract and said Reed tract, a distance of 1,086.19-feet to a 1/2" iron rod found at the southwest corner of said Reed tract and being in the east right-of-way line of said John King Boulevard;

THENCE North 01°19'17" West along the west line of said Reed tract and the east line of said Joh n King Boulevard, a distance of 442.88-feet to the PLACE OF BEGINNING and Containing 11.121-acres, or 484,450 square feet, of land.

Exhibit 'B':
Concept Plan

DRAFT
05.16

Exhibit 'C':
Development Standards

Development Standards.

1. *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Single Family 8.4 (SF-8.4) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

2. *Lot Composition and Layout.* The lot layout and composition shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* and stated in *Table 1*, which is as follows:

Table 1: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Dwelling Units (#)*	*Dwelling Units (%)*
A	70' x 125'	8,750 SF	138	100.00%
		Maximum Permitted Units:	*138*	*100.00%*

3. *Density and Dimensional Requirements.* Unless specifically provided by this Planned Development ordinance, the development standards stipulated by the Single Family 8.4 (SF-8.4) District, as specified by Article V, *District Development Standards*, of the Unified Development Code are applicable to all development on the *Subject Property.* The maximum permissible density for the *Subject Property* shall not exceed *2.49* dwelling units per gross acre of land; however, in no case should the proposed development exceed *138* units. All lots shall conform to the standards depicted in *Table 2*, which is as follows:

Table 2: Lot Dimensional Requirements

Minimum Lot Width [1]	70'
Minimum Lot Depth	125'
Minimum Lot Area	8,750 SF
Minimum Front Yard Setback [2] & [5]	20'
Minimum Side Yard Setback	5'
Minimum Side Yard Setback (Adjacent to a Street) [2] & [5]	10'
Minimum Length of Driveway Pavement	25'
Maximum Height [3]	30'
Minimum Rear Yard Setback [4]	20'
Minimum Area/Dwelling Unit (SF)	2,700 SF
Maximum Lot Coverage	65%
Permitted Encroachment into Required Setbacks [5]	Allowed

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the single family home.

[4]: As measured from the rear yard property line.

[5]: Sunrooms, porches, stoops, bay windows, balconies, masonry clad chimneys, eaves and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to ten (10) feet for any property; however, the encroachment shall not exceed five (5) feet on *Side Yard Setbacks (Adjacent to a Street)* and shall not encroach into public right-of-way [a *Sunroom* is an enclosed room no more than 15-feet in width that has glass on at least 50% of each of the encroaching faces].

DRAFT 04.19.2016

4. *Building Standards.* All development shall adhere to the following building standards:

   (a) Masonry Requirement. The minimum masonry requirement for the exterior façades of all buildings shall be 90%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the masonry requirement; however, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) shall be permitted through a Specific Use Permit (SUP) only.

   (b) Roof Pitch. A minimum of an *8:12* roof pitch is required on all structures with the exception of sunrooms and porches, which shall have a minimum of a *4:12* roof pitch.

   (c) Garage Orientation. Garages shall be oriented in a *traditional swing* (or *j-swing*) or in a front entry configuration; however garages oriented toward the street in a front entry configuration must be situated a minimum of five (5) feet behind the front building façade of the primary structure. In this case the front façade of the primary structure does not include a permitted encroachment (*e.g. a porch, sunroom, etcetera*) allowed in *Table 2* above. All garage configurations that are not front entry shall meet the requirements of Article VI, *Parking and Loading*, of the Unified Development Code.

5. *Anti-Monotony Restrictions.* The development shall adhere to the *Anti-Monotony Matrix* depicted in *Table 3* below (*for spacing requirements see the illustration below*).

Table 3 : Anti-Monotony Matrix

Lot Type	*Minimum Lot Size*	*Elevation Features*
A	70' x 120'	(1), (2), (3), (4)

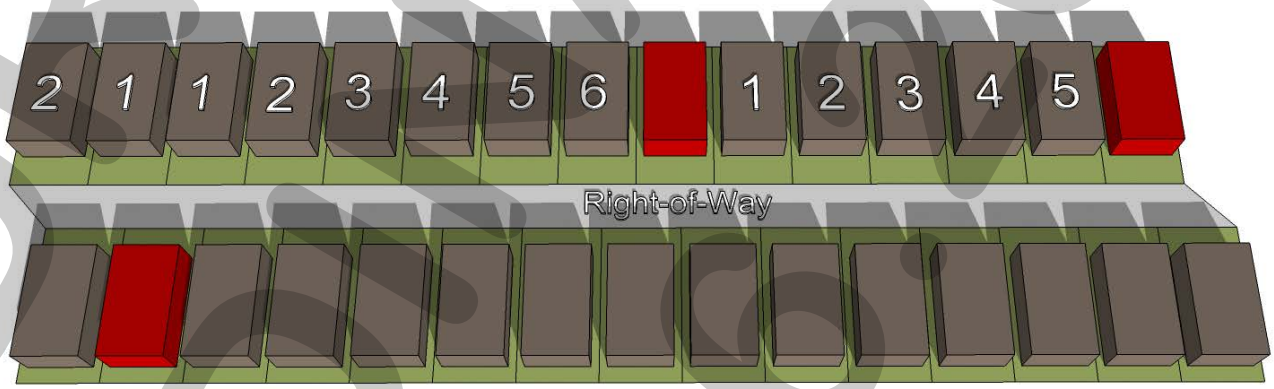
(1) Identical brick blends or paint colors may not occur on adjacent (*side-by-side*) properties along any block face without at least five (5) intervening homes of differing materials on the same side of the street beginning with the adjacent property and six (6) intervening homes of differing materials on the opposite side of the street.

(2) Front building elevations shall not repeat along any block face without at least five (5) intervening homes of differing appearance on the same side of the street and six (6) intervening homes of differing appearance on the opposite side of the street. The rear elevation of homes backing to open spaces or on John King Boulevard shall not repeat without at least five (5) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

   (a) Number of Stories
   (b) Permitted Encroachment Type and Layout
   (c) Roof Type and Layout
   (d) Articulation of the Front Façade

(3) Permitted encroachments (*i.e. porch and sunroom*) elevations shall not repeat or be the same along any block face without at least five (5) intervening homes of sufficient dissimilarity on the same side of the street beginning with the home adjacent to the

DRAFT NOT FOR PRINT 05.16.2016



subject property and six (6) intervening homes beginning with the home on the opposite side of the street.

(4) Each phase of the subdivision will allow for a maximum of four (4) compatible roof colors, and all roof shingles shall be an architectural or dimensional shingle (*3-Tab Roofing Shingles are prohibited*).

Illustration 1: Properties line up on the opposite side of the street. Where RED is the subject property.

Illustration 2: Properties do not line up on opposite side of the street. Where RED is the subject property.

6. *Fencing Standards.* All individual residential fencing and walls shall be architecturally compatible with the design, materials and colors of the primary structure on the same lot, and meet the following standards:

(a) Wood Fences. All wood fences shall be constructed of a standard fencing material (*minimum of ½" thickness or better; spruce fencing will not be allowed*), and use fasteners that are hot dipped galvanized or stainless steel. Wood fences facing onto a street shall be painted and/or stained and sealed with all pickets being placed on the *public side* facing the street. All wood fences shall be smooth-finished, free of burs and splinters, and be a maximum of six (6) feet in height.

(b) Wrought Iron/Tubular Steel. Lots located along the perimeter of roadways, abutting open spaces, greenbelts and parks shall be required to install a wrought iron or tubular steel fence. Wrought iron/tubular steel fences can be a maximum of six (6) feet in height.

DRAFT ORDINANCE

(c) Corner Lots. Corner lots fences (*i.e. adjacent to the street*) shall provide masonry columns at 45-feet off center spacing that begins at the rear of the property line. A maximum of six (6) foot solid *board-on-board panel* fence constructed utilizing cedar fencing shall be allowed between the masonry columns along the side and/or rear lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five (5) feet. The property owner shall be required to maintain both sides of the fence.

(d) Solid Fences (including Wood Fences). All solid fences shall incorporate a decorative top rail or cap detailing into the design of the fence.

7. Landscape and Hardscape Standards.

(1) *Landscape.* Landscaping shall be reviewed and approved with the PD Site Plan. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height. The following tree species are approved for planting within this subdivision:

(a) Canopy/Shade Trees. Bald Cyprus, Cedar Elm, Texas Red Oak, Homestead Elm, Lace Bark Elm, Alle Elm, Chinese Pistachio, Shumard Oak, Sycamore, and Burr Oak.

(b) Accent/Ornamental/Under-Story Trees. Texas Redbud, Eve's Necklace, Mexican Plum, Downy Hawthorn, Crepe Myrtle, Texas Mountain Laurel, Vitex, and Desert Willow.

(2) *Landscape Buffers.* All landscape buffers and plantings located within the buffers shall be maintained by the Homeowner's Association (HOA).

(a) Landscape Buffer and Sidewalks (John King Boulevard). A minimum of a 50-foot landscape buffer shall be provided along the frontage of John King Boulevard (*outside of and beyond any required right-of-way dedication*), and shall incorporate ground cover, a *built-up* berm and/or shrubbery or a combination thereof along the entire length of the frontage. Berms and/or shrubbery shall have a minimum height of 30-inches and a maximum height of 48-inches. In addition, three (3) canopy trees and four (4) accent trees shall be planted per 100-feet of linear frontage. The developer shall also be responsible for the construction of a ten (10) foot sidewalk situated within the 50-foot landscape buffer adjacent to John King Boulevard.

(3) *Streetscape Landscaping.* Prior to the issuance of a Certificate of Occupancy (CO), all residential, single family lots situated within the proposed subdivision shall be landscaped with canopy trees from the list stipulated by *Section 7(1)* of this ordinance in the following sizes and proportions:

(i) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of an interior lot.

DRAFT NOT ORDINANCE 05.16.16

(ii) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of a corner lot and two (2), three (3) inch caliper trees shall be planted in the side yard facing the street.

Note: For the purposes of this section only [i.e. Section 7(3)], the term "front yard" includes the area within the dedicated right-of-way for a parkway immediately adjoining the front yard of the lot.

(4) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect and shall be maintained by the Homeowner's Association.

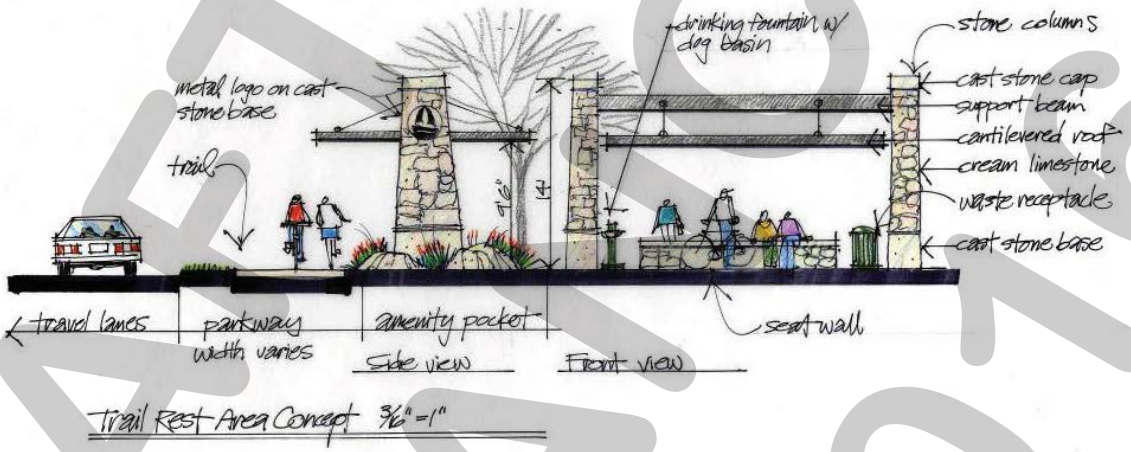
(5) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the PD Site Plan.

8. *Street.* All streets (*excluding drives, fire lanes and private parking areas*) shall be built according to City street standards.

9. *Lighting*. Light poles shall not exceed 20-feet in total height (*i.e. base and lighting standard*). All fixtures shall be directed downward and be positioned to contain all light within the development area.

10. *Sidewalks.* At a maximum, all sidewalks adjacent to a street shall begin two (2) feet behind the right-of-way line and be five (5) feet in overall width.

11. *Buried Utilities.* New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. New transmission power-lines, or distribution lines of a size not typically or cost effectively placed underground (3-phase lines), or additional lines that are added to existing poles, may be above ground, if located along the perimeter of the *Subject Property*. The *Developer* shall not be required to re-locate existing overhead power-lines along the perimeter of the *Subject Property*. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be considered *existing lines* at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph. Franchise utilities shall be placed within a ten (10) foot public utility easement behind the sidewalk, between the home and the property line.



12. *Open Space.* The development shall consist of a minimum of *20%* open space (*or 11.29-acres*), and generally conform to the *Concept Plan* contained in *Exhibit 'B'* of this ordinance. All open space areas shall be maintained by the Homeowner's Association (HOA).

Continued on Next Page …

DRAFT ORDINANCE 03.16

13. *Trail Rest Area.* The developer shall be responsible for the construction of a *Trail Rest Area* that generally conforms to the rest area depicted in *Figure 1* (*below*).

Figure 1: *Trail Rest Area Concept*

14. *Neighborhood Signage.* Permanent subdivision identification signage shall be permitted at all major entry points for the proposed subdivision. Final design and location of any entry features shall be reviewed and approved with the *PD Site Plan*.

15. *Drainage Standards.* The development shall comply with existing drainage standards including the permissible spread of water in the streets and permissible gutter flow through intersections as outlined in the City of Rockwall's *Standards of Design and Construction* (*approved in August 2003 and updated in October 2007*). The proposed drainage areas, flow patterns, and storm drain system that will be constructed shall be based on the City's drainage criteria and be identified on a *Conceptual Drainage Plan*, which shall be submitted with the *Civil Plans* at the time of *Engineering* submittal. The *Conceptual Drainage Plan* shall be reviewed and approved by the Engineering Department in compliance with engineering standards.

16. *Homeowner's Association (HOA)*. A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of Section 38-15 of the Subdivision Regulations contained within the Municipal Code of Ordinances of the City of Rockwall. The HOA shall also maintain all neighborhood parks, trails, open space and common areas, irrigation, landscaping, screening fences associated with this development.

17. *Variances*. The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

DRAFT ORDINANCE 03.07.16

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: May 10, 2016

SUBJECT: *Southside Neighborhood Residential Overlay (SRO) District*

On April 4, 2016, the City Council directed staff to initiate a text amendment to Section 4, *Southside Residential Neighborhood Overlay (SRO) District*, of Article V, *District Development Standards*, of the Unified Development Code (UDC) for the purpose of removing the City Council's ability to grant land use without a public process (*i.e. zoning change*). In addition, under the current ordinance any application for a special request must first be brought to the City Council to initiate the request, then to the Planning and Zoning Commission for a recommendation, and finally returning to the City Council for action. Typically, these requests would be taken directly to the Planning and Zoning Commission for recommendation -- *first* -- prior to being brought before the City Council. As was discussed in the Planning and Zoning Commission Work Session on April 26, 2016, staff has also taken this opportunity to update the purpose statement of the overlay district. These changes are target at better clarifying the purpose and intent of the district.

In accordance, with Section 4.2 of Article XI, *Zoning Related Applications*, of the UDC staff is bringing the proposed amendments forward to the Planning and Zoning Commission for a recommendation to the City Council. Attached to this case memo is a copy of the current ordinance and a copy of the proposed amendments to the UDC. The schedule for this text amendment is as follows:

~~Planning and Zoning Work Session: April 26, 2016~~
Planning and Zoning Public Hearing: May 10, 2016
City Council Public Hearing [*1st Reading*]: May 16, 2016
City Council [*2nd Reading*]: June 6, 2016

Staff has sent out a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC. This notice was published in the Rockwall Herald Banner on *April 29, 2016*.

Current Ordinance:

Article V, District Development Standards, of the Unified Development Code

Section 6. Overlay Districts

Section 4. Southside Residential Neighborhood Overlay (SRO) District

(A) *Purpose*. This overlay district is considered to be the proper zoning classification for smaller lot developments for a single-family dwelling use. It is intended to allow the flexibility necessary for redevelopment while protecting the integrity of the neighborhood.
(B) *Other Requirements*. Any requirements necessary for residential development or use not specifically stated in this section shall comply with the SF-7 District requirements.
(C) *Area Requirements*.

(1) Minimum lot area: 5,000 square feet.
(2) Maximum number of single-family detached dwellings units per lot: one.
(3) Minimum square footage per dwelling unit: 900 square feet.
(4) Minimum lot frontage on a public street: 50 feet.*
(5) Minimum lot depth: 100 feet.*
(6) Minimum depth of front yard setback: 20 feet.*
(7) Minimum depth of rear yard setback: ten feet.*
(8) Minimum width of side yard setback:

(a) Internal lot: six feet.*
(b) Abutting street: 15 feet.*
(c) Abutting an arterial: 20 feet.*

**These setbacks may be varied by the planning and zoning commission and city council upon request of the applicant.*

(9) Minimum distance between separate buildings on the same lot or parcel of land: ten feet.
(10) Minimum length of driveway pavement from the public right-of-way for rear or side yards: 20 feet.
(11) Maximum building coverage as a percentage of lot area: 40 percent.
(12) Maximum building height: 32 feet.
(13) Minimum number of paved off-street parking spaces required for:

(a) One single-family dwelling unit: two. An enclosed garage shall not be considered in meeting the off-street parking requirements.
(b) All other uses: see article V, Parking and Loading.

(D) Consideration of special request in furtherance of neighborhood preservation. The city council may consider special requests in furtherance of neighborhood preservation and enhancement within the established neighborhood preservation overlay district. Such requests may include, but not necessarily be limited to, neighborhood signage plans, use of building materials not otherwise allowed, authorization of specific land uses not otherwise allowed, or other requests submitted for consideration.

Upon receipt of such special requests, the city council shall review same and forward its recommendation to the planning and zoning commission for consideration. Upon recommendations from the planning and zoning commission, the city council may approve requests by amendment of the ordinance designating the neighborhood district. Any such amendment shall preempt any other underlying zoning restrictions in this Unified Development Code. Such special requests may be denied by the city council by passage of a motion to deny.

(Ord. No. 10-14, § 36, 7-6-2010)

Proposed Amendments:

Article V, District Development Standards, of the Unified Development Code

Section 6. Overlay Districts

Section 4. Southside Residential Neighborhood Overlay (SRO) District

(A) *Purpose*. ***The purpose of the Overlay District is to provide the flexibility necessary for allowing infill and redevelopment of the Southside Neighborhood, while maintaining and protecting the character and integrity of the existing neighborhood. ~~This overlay district is considered to be the proper zoning classification for smaller lot developments for a single-family dwelling use. Upon receipt of such requests, the Planning and Zoning Commission shall review the case and forward a recommendation to the City Council for consideration. The City Council may approve special request. Any such approval shall preempt any other underlying zoning restrictions in the Unified Development Code. Such special requests may be denied by the City Council by the passage of a motion to deny.

Special requests shall not include any request to change the land use of a property.

(Ord. No. 10-14, § 36, 7-6-2010)

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTION 6.4, *SOUTHSIDE RESIDENTIAL NEIGHBORHOOD OVERLAY (SRO) DISTRICT*, OF ARTICLE V, *DISTRICT DEVELOPMENT STANDARDS*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Section 4, *Southside Residential Neighborhood Overlay (SRO) District,* of Section 6, *Overlay Districts*, of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That Section 4, *Southside Residential Neighborhood Overlay (SRO) District,* of Section 6, *Overlay Districts*, of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'A'* of this ordinance.

Section 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

DRAFT ORDINANCE 05.16

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 6TH DAY OF JUNE, 2016.

_____

Jim Pruitt, *Mayor*

ATTEST:

_____

Kristy Cole, *City Secretary*

APPROVED AS TO FORM:

_____

Frank J. Garza, *City Attorney*

1st Reading: *May 16, 2016*

2nd Reading: *June 6, 2016*

DRAFT ORDINANCE 05.16.2016

Section 6.4. Southside Residential Neighborhood Overlay (SRO) District

(A) *Purpose*. The purpose of the Overlay District is to provide the flexibility necessary for allowing infill and redevelopment of the Southside Neighborhood, while maintaining and protecting the character and integrity of the existing neighborhood.

(B) *Other Requirements*. Any requirements not specifically stated in this section shall comply with the Single Family 7 (SF-7) District requirements.

(C) *Area Requirements*.

(1) Minimum lot area: 5,000 square feet.
(2) Maximum number of single-family detached dwellings units per lot: One.
(3) Minimum square footage per dwelling unit: 900 square feet.
(4) Minimum lot frontage on a public street: 50 feet.
(5) Minimum lot depth: 100 feet.
(6) Minimum depth of front yard setback: 20 feet.
(7) Minimum depth of rear yard setback: 10 feet.
(8) Minimum width of side yard setback:

(a) Internal lot: 6 feet.
(b) Abutting street: 15 feet.
(c) Abutting an arterial: 20 feet.

(9) Minimum distance between separate buildings on the same lot or parcel of land: ten feet.
(10) Minimum length of driveway pavement from the public right-of-way for rear or side yards: 20 feet.
(11) Maximum building coverage as a percentage of lot area: 40 percent.
(12) Maximum building height: 32 feet.
(13) Minimum number of paved off-street parking spaces required for:

(a) One Single-family Dwelling Unit: Two (2) Parking Spaces. An enclosed garage shall not be considered in meeting the off-street parking requirements.
(b) All Other Uses: *see Article VI, Parking and Loading, of the Unified Development Code*.

(D) *Consideration of Special Request in Furtherance of Neighborhood Preservation.* The City Council may consider special requests in furtherance of neighborhood preservation and enhancement within the established neighborhood preservation overlay district. Such requests may include, but not necessarily be limited to neighborhood signage plans, the use of alternate building materials reductions in the building setbacks, or other requests submitted for consideration to the Planning and Zoning Department.

Upon receipt of such requests, the Planning and Zoning Commission shall review the case and forward a recommendation to the City Council for consideration. The City Council may approve special request. Any such approval shall preempt any other underlying zoning restrictions in the Unified Development Code. Such special requests may be denied by the City Council by the passage of a motion to deny.

Special requests shall ***not*** include any request to change the land use of a property.

DRAFT ORDINANCE 03.16.2016

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: May 10, 2016

SUBJECT: *Used Automotive Dealerships*

On March 21, 2016, Dallas Cothrum of Master Plan gave a presentation on behalf of his client Echo Park Automotive requesting that the City Council consider amending the zoning code to allow a *Motor Vehicle Dealership, Used (Cars and Light Trucks)* to be permitted within a Light Industrial (LI) District. Specifically, Mr. Cothrum was making this request with the intent of opening up the zoning ordinance to allow Echo Park to establish a used motor vehicle dealership at 1415 & 1501 E. IH-30. Currently, Section 2.1.8, *Auto and Marine-Related Use Conditions,* of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), only permits a *Motor Vehicle Dealership, Used (Cars and Light Trucks)* to be established as an accessory use to a *Motor Vehicle Dealership, New (Cars and Light Trucks)*. As a result of this request, the City Council approved a motion to direct staff to initiate a text amendment to allow *Motor Vehicle Dealership, Used (Cars and Light Trucks)* through a Specific Use Permit (SUP) in the Light Industrial (LI) District.

In response to this direction and in accordance with Section 4, *Unified Development Code Text Amendments*, of Article XI, *Zoning Related Applications*, of the UDC, staff has drafted a preliminary text amendment for the Planning and Zoning Commission's review. The proposed text amendment would allow the *Motor Vehicle Dealership, Used (Cars and Light Trucks)* use by SUP in the Light Industrial (LI) District and *by-right* in the Heavy Industrial (HI) District; however, it would restrict the use in the Scenic Overlay (SOV), IH-30 Overlay (IH-30 OV), SH-205 By-Pass Overlay (SH205 BY-OV) FM-549 Overlay (FM-549 OV) and the SH-205 Overlay (SH-205 OV) District except as an ancillary or accessory use to *Motor Vehicle Dealership, New (Cars and Light Trucks)*. In drafting the text amendment, staff took into consideration the following information concerning the *Motor Vehicle Dealership, Used (Cars and Light Trucks)* use:

1) *Comparable Cities.* Staff has done a comparison study of the City's current zoning ordinance compared to comparable City's in the *North Texas Region*. The City's compared in this study were: (1) Plano, (2) McKinney, (3) Frisco, (4) Carrollton, (5) Rowlett, (6) Mesquite, (7) Garland, and (8) Lancaster. Through this study staff has determined that the City's current ordinance is the most restrictive of all the cities surveyed; with the exception of the City of Rowlett, which has the same restrictions as the City of Rockwall. It should be noted that the majority of the cities surveyed require a SUP or a Conditional Use Permit (CUP) in most if not all of the zoning districts that permit the use. In addition, the City of Frisco expressly prohibits the use in certain Overlay Districts on major corridors within the City despite allowing the use in the underlying zoning district. The only city surveyed that added additional land use restrictions was the City of Lancaster. *Attached to this memorandum is a copy of the survey of comparable cities.*

2) *Locations of the Current Motor Vehicle Dealership Facilities.* Staff has also completed a locational analysis showing the locations of all existing new and used motor vehicle

dealerships located in the City (*see the attached maps of Rockwall Auto Dealerships*). Currently, the City has 11 new and used motor vehicle dealerships (*i.e. nine (9) new motor vehicle dealerships that also have used motor vehicle sales as an ancillary use -- one (1) of which, Fenton Nissan, is currently under construction -- , and two (2) non-conforming used motor vehicle dealerships that pre-date the current zoning ordinance*). It should be noted that all nine (9) of the new motor vehicle dealerships are located in the IH-30 Overlay District on property that fronts onto IH-30. The two (2) non-conforming used motor vehicle dealerships are located in the Downtown (DT) District situated in and fronting on SH-205.

As depicted in this analysis, new automotive dealerships currently represent 11% of the total IH-30 freeway frontage. In addition, they tend to locate on or close to major intersections within the City (*i.e. John King Boulevard and SH-205*). They also tend to locate directly adjacent to existing automotive sales facility, sometimes creating clusters. Concern over these agglomerations or groups was addressed by the City Council in 2007, when they added a discretionary approval component for all new automotive dealerships (*this is addressed below*).

3) *Proliferation/Concentration of Automotive Uses.* On January 22, 2008, the City Council approved a text amendment (*i.e. Case No. Z2007-036; Ordinance No. 08-05*) intended to address the proliferation and concentration of automotive uses along IH-30. Specifically, the text amendment changed the *Permissible Land Use Charts* to require a SUP for *Motor Vehicle Dealership, New (Cars and Light Trucks)* in the Light Industrial (LI) District, which previously had been permitted *by-right*. The case memo provided to the City Council at that time stated the purpose of this action was to protect the undeveloped land, zoned Light Industrial (LI) District that existed along the IH-30 Corridor, and to prevent the concentration of automotive uses in this corridor. As was stated above, all but two (2) of the current locations are located in the IH-30 Corridor. These nine (9) locations are typically in clusters of two (2) and are in close proximity of one another (*i.e. ~161-feet to ~2,836-feet of each other*) [*see the attached maps of Rockwall Auto Dealerships*].

4) *Ad Valorem Taxes.* It should be noted that according to *Section 152.001(2)* of the State of Texas *Tax Code* a retail sale does not include the purchase of (1) new motor vehicles from a licensed dealer franchised to resell that type of vehicle, (2) used motor vehicles by a licensed dealer for resale purposes, and (3) new motor vehicles by a licensed franchise dealer for a lease contract. This means that the City does not collect sales tax on the sale or lease of any new or used automobile. In addition, staff has performed a basic fiscal impact analysis comparing the assessed values of the existing eight (8) -- *Fenton Nissan is currently under construction* -- new/used motor vehicle facilities against the City's commercial/retail land uses, which is the predominate use in the IH-30 Overlay (IH-30) District. The analysis performed by staff shows that the eight (8) new/used motor vehicle facilities have a total land footprint of 62.387-acres (*77.138-acres with Fenton Nissan*) adjacent to IH-30, with a total land value of ~22M, a total improvement value of ~18M, and a total assessed value ~40M. This all equals a total $196,381.00 of property taxes paid to the City per year. The total property value per square foot for this use breaks down to $14.89/SF. Performing this same analysis on the City's commercial/retail uses the total property value (*Citywide*) per square foot breaks down to $18.96/SF, or a difference of +$4.07. This number is assumed to be higher if only the commercial/retail land in the IH-30 Corridor is used, because land value in this area tends to be higher than the land value Citywide. In addition, the retail/commercial uses include sales tax, which would further widen this disparity. It should also be pointed out that these are new motor vehicle facilities and not used motor vehicle facilities, which is what the current ordinance is proposing to allow.

5) *Land Use Considerations.* In researching comparable City's, staff observed highway corridors in several neighboring communities where new motor vehicle dealership sites have transitioned into primarily used motor vehicle dealerships. This is an important observation when considering the long-term vision for the City's primary entry and retail corridor.

With all that being said, it should be noted that staff's proposed ordinance does not accommodate the request made by Echo Park Automotive for the property at 1415 & 1501 E. IH-30, which is located within the IH-30 Overlay (IH-30 OV) District; however, for the reasons stated above and to prevent the proliferation/concentration of automotive uses within the City's overlay districts staff has prepared an ordinance prohibiting the use in many of the City's strategic highway corridors. The Planning and Zoning Commission and City Council retain the discretion to amend or redirect staff should the ordinance not be sufficient to properly regulate the use. The City Council also retains the discretion to refrain from changing the ordinance if they see no public benefit from doing so.

In accordance, with Section 4.2 of Article XI, *Zoning Related Applications*, of the UDC staff is bringing the proposed amendments forward to the Planning and Zoning Commission for a recommendation to the City Council. Attached to this case memo are copies of the current ordinance, the proposed amendments to the UDC, and all studies referenced above. The schedule for this text amendment is as follows:

~~Planning and Zoning Work Session: April 26, 2016~~
Planning and Zoning Public Hearing: May 10, 2016
City Council Public Hearing [*1st Reading*]: May 16, 2016
City Council [*2nd Reading*]: June 6, 2016

Staff has sent out a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC. This notice was published in the Rockwall Herald Banner on *April 29, 2016*.

Motor Vehicle Dealerships (New and Used).

1. Used vehicles may only be sold as an ancillary use to new vehicle sales ***in the Commercial (C) and Heavy Commercial (HC) Districts***.
2. Used vehicle sales may not be located within the Scenic Overlay (SOV), IH-30 Overlay (IH-30 OV), SH-205 By-Pass Overlay (SH205 BY-OV) FM-549 Overlay (FM-549 OV) or the SH-205 Overlay (SH-205 OV) District except as an ancillary use to new vehicle sales.
~~2.~~ 3. All outside display of vehicles must be on an approved concrete, or enhanced concrete surface.
~~3.~~ 4. All vehicle display areas must meet the landscape standards for parking areas.

Survey of Comparable Cities

☑ *City of Plano*

The City of Plano requires *Automobile Dealer (Used)* uses to obtain a Specific Use Permit (SUP) subject to their residential adjacency standards in their Light Commercial (LC), Corridor Commercial (CC) and Central Business-1 (CBD1) Districts. Additionally, they permit the use *by-right* subject to the residential adjacency standards in their Light Industrial-1 (LI1) and Light Industrial-2 (LI2).

☑ *City of Carrollton*

The City of Carrollton allows *Used Car Dealers* in their Light Industrial (LI) District by Specific Use Permit (SUP) and *by-right* in their Heavy Industrial (HI) District. Additionally, they have included another use (i.e. *Used Car Dealers -- indoors only or accessory to new car sales*), which is allowed *by-right* in more zoning districts.

☑ *City of Frisco*

The City of Frisco allows *Automobile Sales, Used* by Specific Use Permit (SUP) in their Highway (HI), Commercial-2 (C-2) and Industrial (I) Districts. In addition, the City has expressly prohibited the use in their US 380 Gateway, Rural Corridor, Main Street and Tollway Overlay Districts.

☑ *City of McKinney*

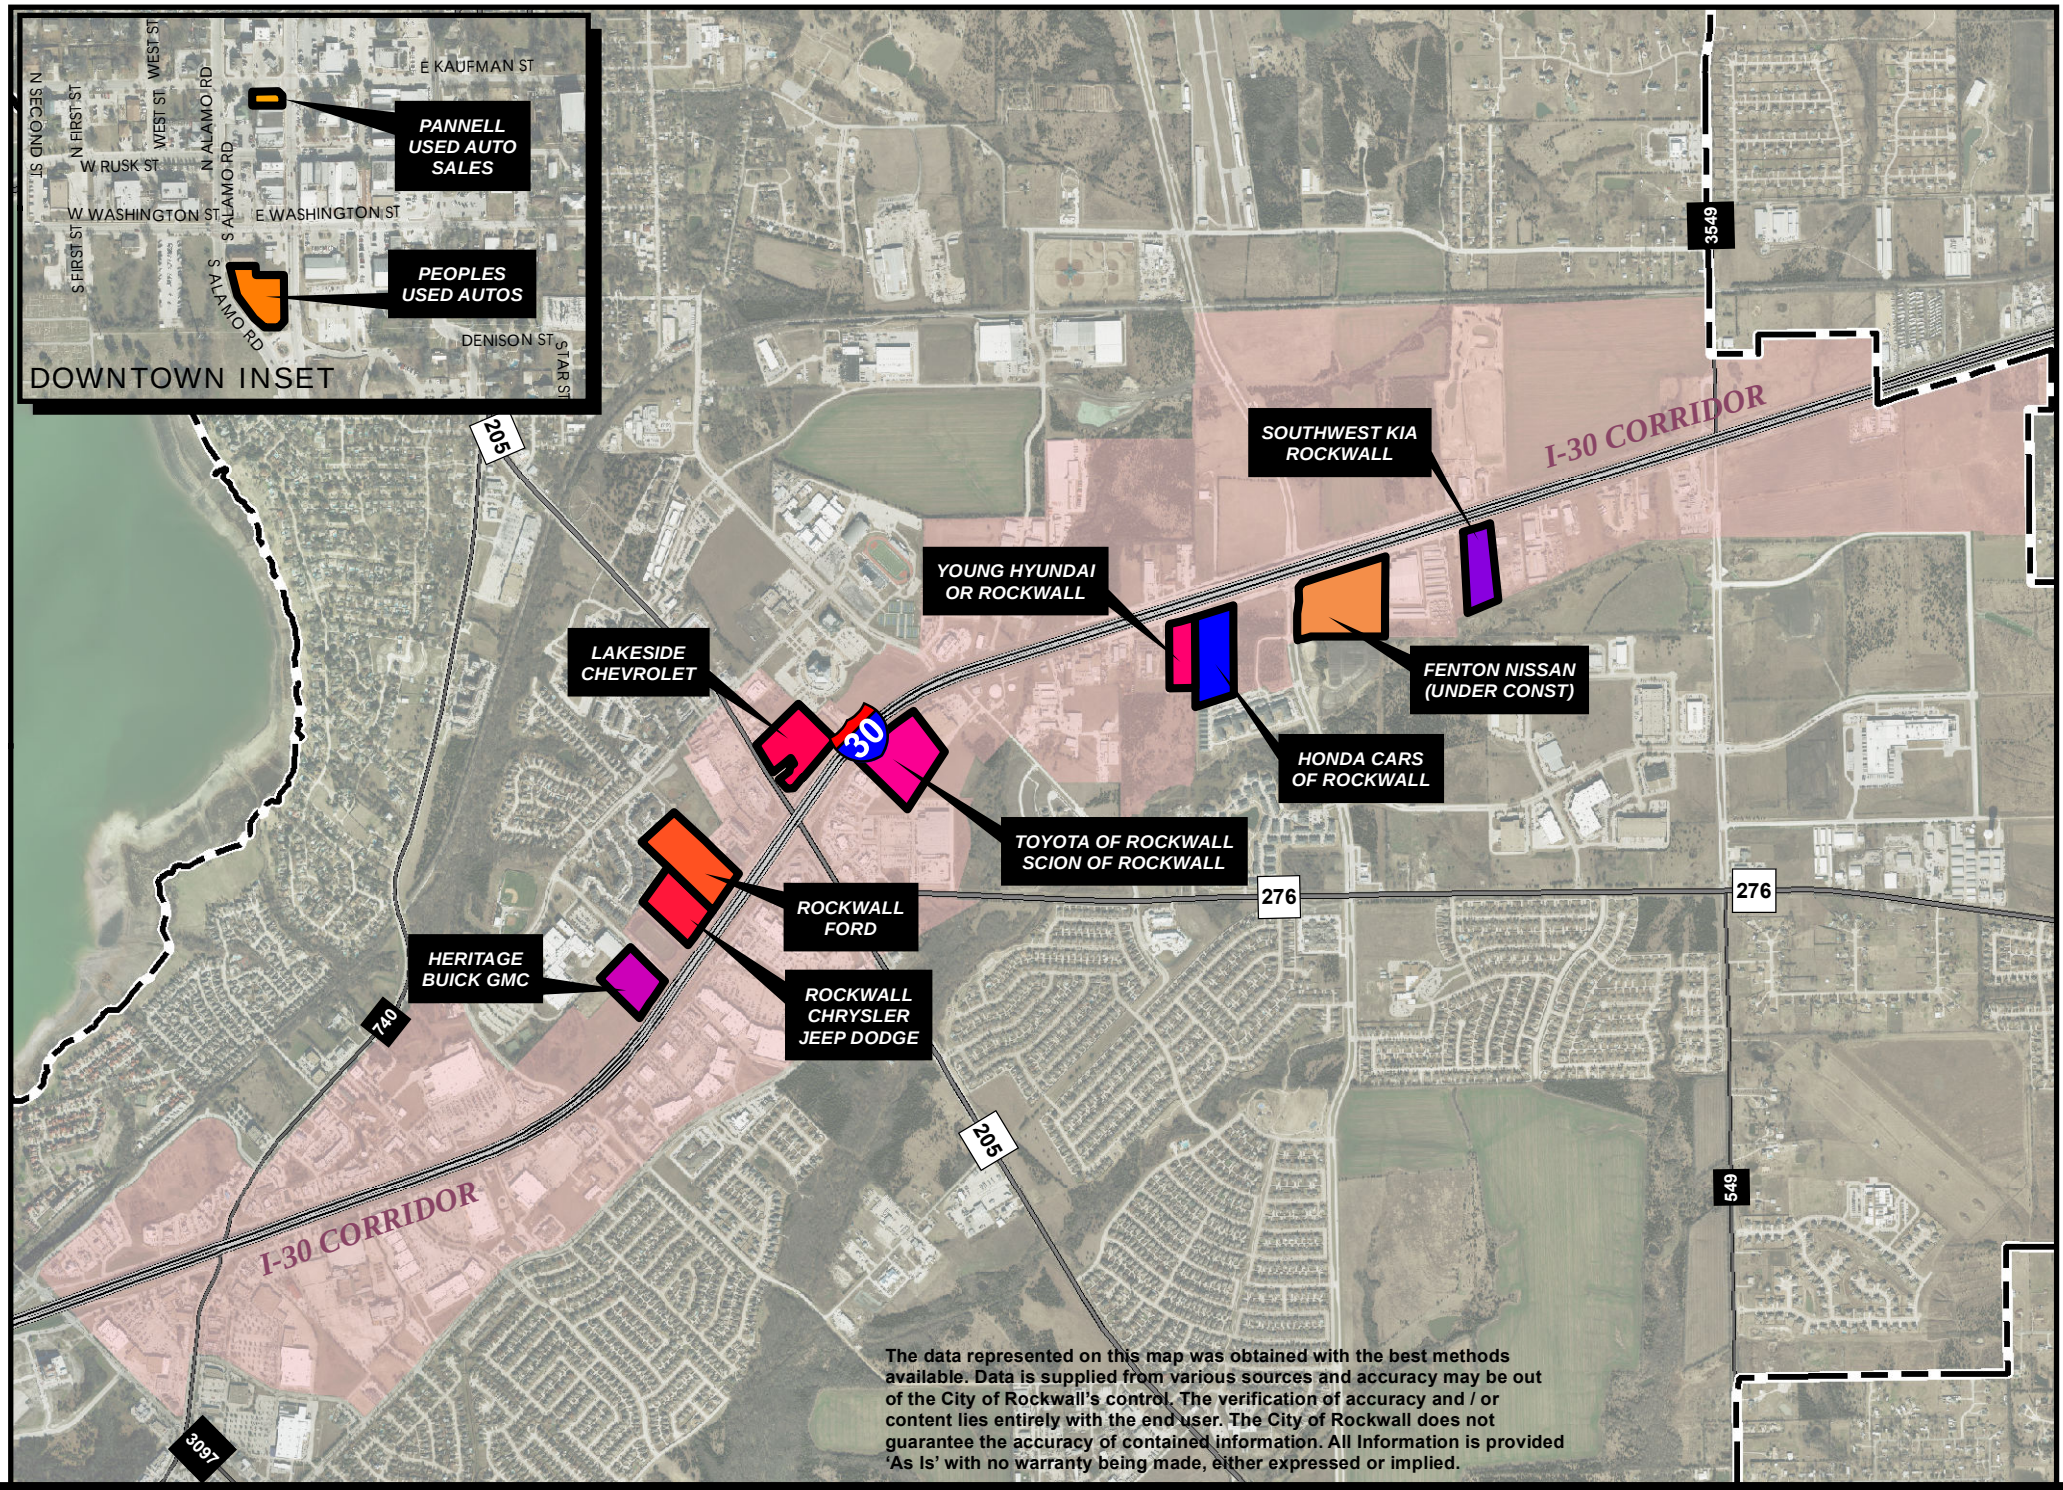
The City of McKinney permits *Automobile, Motorcycle, Boat (Sales, Repair, or Storage) by-right* in the General Business (BG), Commercial (C), Commercial Business (BC), Light Manufacturing (ML), Heavy Manufacturing (MH), Light Industrial (LI), and the Heavy Industrial (HI) Districts; and, by SUP in the Regional Commercial (C3) District.

☑ *City of Rowlett*

The City of Rowlett only allows used vehicle sales as an accessory use to new vehicle sales.

☑ *City of Mesquite*

The City of Mesquite requires a Conditional Use Permit (*i.e. Specific Use Permit*) in their Central Business (CB), Commercial (C) and Industrial (I) Districts.



☑ *City of Garland*

The City of Garland requires a Specific Use Permit (SUP) for *Automobile Sales, New or Used* in the Light Commercial (LC) and Industrial (IN) Districts and permits the use *by-right* in a Heavy Commercial (HC) District.

☑ *City of Lancaster*

The City of Lancaster allows the *Motor Vehicle Dealership, New & Used (Cars and Light Trucks)* land use through a Specific Use Permit in their Commercial Highway (CH) District and *by-right* in their Commercial Services (CS), Light Industrial (LI) and Medium Industrial (MI) Districts. In addition, the following use standards are also required:

1) The area to be used for outside storage and display shall not exceed 50% of the lot area within 100 feet of any adjacent street.
2) All such outside storage and display areas must be permanently paved to City standards.
3) All such outside storage and display areas must be screened along all road frontages with a solid evergreen landscape screen a minimum of three (3) feet in height.
4) All such outside storage and display areas may be lighted with directed exterior lighting that does not glare onto any adjacent roadways.
5) A site plan and landscape plan shall be approved prior to issuance of any Building Permit.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTIONS 1.1 & 2.1.8 OF ARTICLE IV, *PERMISSIBLE USES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Section 1.1, *Use of Land and Buildings*, and Section 2.1.8, *Auto and Marine-Related Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] for the purposes of establishing *Motor Vehicle Dealership, Used (Cars and Light Trucks)* as a standalone use permitted within the Light Industrial (LI) District by Specific Use Permit and *by-right* in the Heavy Industrial (HI) District, and prohibiting the standalone use in certain Overlay Districts; and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That Section 1.1, *Use of Land and Buildings*, and Section 2.1.8, *Auto and Marine-Related Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibit 'A'* of this ordinance;

Section 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 4. That this ordinance shall take effect immediately from and after its passage and the

DRAFT 08.05.2016

publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 6TH DAY OF JUNE, 2016.

Article IV, Permissible Uses, of the Unified Development Code
Section 2. Use Standards
Section 2.1.8 Auto and Marine-Related Use Conditions

Indoor Motor Vehicle Dealership/Showroom, (New and/or Used). The indoor storage of operable automobiles in a fully enclosed building for the purpose of holding such vehicles for sale, lease, distribution, or storage.

1. The sales/storage facility must be a completely enclosed building.
2. Outside display or storage of vehicles shall be prohibited. This includes storing vehicles under canopies/awnings or similar covered structures.
3. All activities shall remain inside the building (*i.e. no detailing, sales activities, et cetera shall be performed outside the building*).
4. Accessory uses may be allowed in compliance with the "Permissible Use Charts" located within *Section 1.1* of this article.

Motor Vehicle Dealerships (New and Used).

1. Used vehicles may only be sold as an ancillary use to new vehicle sales ***in the Commercial (C) and Heavy Commercial (HC) Districts***.
2. Used vehicle sales may not be located within the Scenic Overlay (SOV), IH-30 Overlay (IH-30 OV), SH-205 By-Pass Overlay (SH205 BY-OV) FM-549 Overlay (FM-549 OV) or the SH-205 Overlay (SH-205 OV) District except as an ancillary use to new vehicle sales.
~~2.~~ 3. All outside display of vehicles must be on an approved concrete, or enhanced concrete surface.
~~3.~~ 4. All vehicle display areas must meet the landscape standards for parking areas.

DRAFT ORDINANCE 06.06.2016

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: May 10, 2016

SUBJECT: SP2016-006; *Service King Site Plan*

The applicant, Matt Moore of Claymoore Engineering, Inc., has requested that action on the site plan for the *Service King: Automotive Collision Repair Center* be postponed until the ***May 31, 2016*** Planning and Zoning Commission Work Session meeting. The purpose of this postponement is to allow the applicant more time to address staff's comments. This will not require any action of the Planning and Zoning Commission.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 05/10/2016

APPLICANT: Bryan Burger, P.E. of *Burger Engineering, Inc*.

AGENDA ITEM: **SP2016-0007;** *Aldi Food Store*

SUMMARY:

Discuss and consider a request by Bryan M. Burger, PE of Burger Engineering, LLC on behalf of the owner Don Silverman of Rockwall 205-552, LLC for the approval of site plan for a grocery store (*i.e. Aldi Food Store*) on a 1.972-acre portion of a larger 9.183-acre tract of land identified as Tract 4-1 of the T. R. Bailey Survey, Abstract No. 30, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, located at the northwest corner of the intersection of SH-205 [*N. Goliad Street*] and FM-552, and take any action necessary.

PURPOSE:

The applicant is requesting approval of a Site Plan for the purpose of constructing a 18,663 sq. ft. grocery store (i.e. Aldi Food Store). The 1.972-acre portion of land is zoned General Retail (GR) District and is within the North SH-205 Overlay (N SH-205 OV) District, and is generally located at the corner of the intersection of SH-205 [*N. Goliad Street*] and FM-552.

DENSITY AND DIMENSIONAL REQUIREMENTS:

The proposed grocery store (i.e. Aldi Food Store) is a use permitted by right. The site will incorporate a total of 80 parking spaces and has one (1) point of access available from the FM-552 by way of a 30-ft Firelane, Public Access, Drainage & Utility Easement.

The submitted site plan, building elevations, landscape plan, treescape plan, and photometric plan are in substantial compliance and conform to the technical requirements contained within the Unified Development Code (UDC) and the North SH-205 Overlay (N SH-205 OV) District, with the exception of the conditions as listed in the *Recommendations* sections of this report.

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*6,000 SF*	*1.972-Acres; In Conformance*
Minimum Lot frontage	*60-Feet*[1]	*x>268-Feet; In Conformance*

Minimum Front Yard Setback	*15-Feet*	*x>15-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*[2]	*x>10-Feet; In Conformance*
Minimum Side Yard Setback	*10-Feet*[3]	*x>10-Feet; In Conformance*
Maximum Building Height	*60-Ft w/o SUP*	*27' 6"; In Conformance*
Max Building/Lot Coverage	*40%*	*~21.7%; In Conformance*
Minimum Masonry Requirement	*90%*	*>90%; In Conformance*
Floor Area Ratio	*4:1*	*0.217:1; In Conformance*
Minimum Number of Parking Spaces	*75*	*80 Provided; In Conformance*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*	*x>20%; In Conformance*
Minimum Landscaping Percentage	*15%*	*15.2%; In Conformance*
Maximum Impervious Coverage	*85 to 90%*	*x<85%; In Conformance*

NOTES:
1. Minimum site frontage when adjacent to IH-30 .
2. Without fire retardant wall, or alley: ten feet, or as required by building and/or fire codes.
3. a. Without fire retardant wall: ten feet, or as required by building and/or fire codes, b. With fire retardant wall: zero feet.

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:

On April 26, 2016, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. General discussion concerning the agenda item took place between the board members and city staff. The board expressed concern with the large projections of the front and rear elevations as not providing interest and requested to see more detail with the overall appearance of the building. To address these concerns the ARB recommended that the applicant incorporate a recessed pattern within the large projections. The ARB also recommended the applicant provide a contrasting solider course banding element around the building and green wall (metal trellis) elements similar to the existing Aldi on Ridge Road. Finally, the ARB requested that the canopy and glass on the front elevation extend to the large projection creating additional interest for the front elevation due to its visibility. The ARB requested to review the revised elevations in order to provide a recommendation to the Planning and Zoning Commission during the next scheduled meeting to be held on May 10, 2016.

RECOMMENDATIONS:

The site plan submitted by the applicant meets all the technical criteria stipulated by the UDC, and N SH-205 OV District. Should the Planning and Zoning Commission choose to approve the applicant's request, then the following conditions of approval should be adopted with this case:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

The following staff comments are to be addressed and resubmitted no later than Tuesday, May 3, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. Label site plan documents with "Case No. SP2016-007" at the lower right corner of each plan.
4. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department.

Waivers to the Unified Development Code (per submittal):

1. Waiver to Article IV, Sec. 2.1.10, ...Outside Storage: To allow for the outside cart storage area with screening walls as depicted on the Site Plan.

Please addressthe followingPlanning Comments for each plan submitted:

Site Plan:

1. Waiver request to outside cart storage area as listed above.
2. Remove the label (By Plat) where indicated.
3. Relabel 30-ft Firelanes as "30-ft Firelane, Public Access & Utility Easement"

Landscape Plan:
1. Relocate '20-ft Landscape Buffer' so that it is readable.

Photometric Plan:
1. The lighting pole standards are not to exceed a maximum overall heightof 20-ft (includes pole, base, fixtures, etc.) per the UDC standards. Provide detail.
2. Provide cut sheets for all exterior lighting fixtures (e.g. pole lights, wall packs, etc.)
3. General Comment: All lighting sources are to be directed down and sheilded with a full cut-off or partial cut-off source and a maximum 1 inch reveal in order to control glare.

Building Elevations:
1. The building elevations are required to be reviewed by the Architectural Review Board prior to approval.

The following are scheduled meetingdatesthat you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Architecural Review Board - Discussion: April 26, 2016 (5:00 p.m.)

Planning - Discussion: April 26, 2016 (6:00 p.m.)
Planning - Action: May 10, 2016 (6:00 p.m.)

City Council - Action: May 16, 2016 (6:00 p.m.) [FOR VARIANCE & WAIVER REQUESTS ONLY]

LANDSCAPE NOTES

1. Contractor shall verify all existing and proposed site elements and notify Architect of any discrepancies. Survey data of existing conditions was supplied by others.
2. Contractor shall locate all existing underground utilities and notify Architect of any conflicts. Contractor shall exercise caution when working in the vicinity of underground utilities.
3. Contractor is responsible for obtaining all required landscape and irrigation permits.
4. Contractor to provide a minimum 2% slope away from all structures.
5. All planting beds and lawn areas to be separated by steel edging. No steel to be installed adjacent to sidewalks or curbs.
6. All landscape areas to be 100% irrigated with an underground automatic irrigation system and shall include rain and freeze sensors.
7. All lawn areas to be Solid Sod Bermudagrass, unless otherwise noted on the drawings.

PLANT LIST

TREES

QTY.	TYPE	COMMON NAME	BOTANICAL NAME	SIZE	REMARKS
9	BC	Bald Cypress	*Taxodium distichum*	4" cal.	container grown, 15' ht., 5' spread min.
8	CE	Cedar Elm	*Ulmus crassifolia*	4" cal.	container grown, 15' ht., 5' spread min.
8	CP	Chinese Pistache	*Pistachia chinensis*	4" cal.	container grown, 15' ht., 5' spread min.
5	TY	Tree Yaupon Holly	*Ilex vomitoria*	6' ht.	B&B, 3 cane, tree form, no cross caring
12	CM1	Crepe Myrtle 'Catawba'	*Lagerstroemia indica 'Catawba'*	6' ht.	container grown, 3-5 cane, no cross caring
5	CM2	Crepe Myrtle 'Hopi'	*Lagerstroemia indica 'Hopi'*	5' ht.	container grown, 3-5 cane, no cross caring

SHRUBS

QTY.	TYPE	COMMON NAME	BOTANICAL NAME	SIZE	REMARKS
169	NPH	Needlepoint Holly	*Ilex cornuta 'Needlepoint'*	5 gal.	container, full plant, 36" o.c.
12	NRS	Nellie R. Stevens Holly	*Ilex sp. ' Nellie R. Stevens'*	5' ht.	container, full to base, 8' o.c.
20	DWM	Dwarf Wax Myrtle 'Dons Dwarf'	*Myrica pusilla*	5 gal.	container, full plant, 36" o.c.

GROUNDCOVERS

QTY.	TYPE	COMMON NAME	BOTANICAL NAME	SIZE	REMARKS
15	TV	Trumpet Vine	*Campsis radicans*	5 gal.	container, (6) 36" runners min.
1020	WC	Wintercreeper	*Euonymus fortunei coloratus*	4" pots	container, (3) 12" runners min. 12" o.c.
		Common Bermudagrass	*Cynodon dactylon*	roll sod	solid sod, refer to notes

NOTE: Plant list is an aid to bidders only. Contractor shall verify all quantities on plan. All heights and spreads are minimums. All plant material shall meet or exceed remarks as indicated. All trees to have straight trunks and be matching within varieties.

MAINTENANCE NOTES

1. The Owner, tenant and their agent, if any, shall be jointly and severally responsible for the maintenance of all landscape.
2. All landscape shall be maintained in a neat and orderly manner at all times. This shall include mowing, edging, pruning, fertilizing, watering, weeding and other such activities common to landscape maintenance.
3. All landscape areas shall be kept free of trash, litter, weeds and other such material or plants not part of this plan.
4. All plant material shall be maintained in a healthy and growing condition as is appropriate for the season of the year.
5. All plant material which dies shall be replaced with plant material of equal or better value.
6. Contractor shall provide separate bid proposal for one year's maintenance to begin after final acceptance.

GENERAL LAWN NOTES

1. Fine grade areas to achieve final contours indicated on civil plans.
2. Adjust contours to achieve positive drainage away from buildings. Provide uniform rounding at top and bottom of slopes and other breaks in grade. Correct irregularities and areas where water may stand.
3. All lawn areas to receive solid sod shall be left in a maximum of 1" below final finish grade. Contractor to coordinate operations with on-site Construction Manager.
4. Imported topsoil shall be natural, friable soil from the region, known as bottom and soil, free from lumps, clay, toxic substances, roots, debris, vegetation, stones, containing no salt and black to brown in color.
5. All lawn areas to be fine graded, irrigation trenches completely settled, and finish grade approved by the Owner's Construction Manager or Architect prior to installation.
6. All rocks 3/4" diameter and larger, dirt clods, sticks, concrete spoils, etc. shall be removed prior to placing topsoil and any lawn installation
7. Contractor shall provide (1") one inch of imported topsoil on all areas to receive lawn.

LANDSCAPE TABULATIONS

SITE REQUIREMENTS (site area 85,901 s.f.)
Requirements: 15% site area to be landscaped

Required	Provided
12,885 s.f. (15%)	16,889 s.f. (19.66 %)

SECTION 02900 - LANDSCAPE

PART 1 - GENERAL

1.1 REFERENCED DOCUMENTS

Refer to bidding requirements, special provisions, and schedules for additional requirements.

1.2 DESCRIPTION OF WORK

Work included: Furnish all supervision, labor, materials, services, equipment and appliances required to complete the work covered in conjunction with the landscaping covered in these specifications and landscaping plans, including:

1. Planting (trees, shrubs, and grass)
2. Bed preparation and fertilization
3. Notification of sources
4. Water and Maintenance until final acceptance
5. Guarantee

1.3 REFERENCE STANDARDS

A. American Standard for Nursery Stock published by American Association of Nurserymen: 27 October 1980, Edition; by American National Standards Institute, Inc. (260.1) – plant material.

B. American Joint Committee on Horticultural Nomenclature: 1942 Edition of Standardized Plant Names.

C. Texas Association of Nurserymen, Grades and Standards.

D. Hortis Third, 1976 - Cornell University

1.4 NOTIFICATION OF SOURCES AND SUBMITTALS

A. The Contractor shall, within ten (10) days following acceptance of bid, notify the Architect/Owner of the sources of plant materials and bed preparation required for the project.

B. Samples: Provide representative quantities of sandy loam soil, mulch, bed mix material, gravel, and crushed stone. Samples shall be approved by Architect before use on project.

C. Product Data: Submit complete product data and specifications on all other specified materials.

D. Submit three representative samples of each variety of ornamental trees, shrubs, and groundcover plants for Architect's approval. When approved, tag, install, and maintain as representative samples for final installed plant materials.

E. File Certificates of Inspection of plant material by state, county, and federal authorities with Architect, if required.

F. Soil Analysis: Provide sandy loam soil analysis if requested by the Architect.

JOB CONDITIONS

A. General Contractor to complete the following punch list: Prior to Landscape Contractor initiating any portion of landscape installation, General Contractor shall leave planting bed areas three (3") inches below finish grade of sidewalks, drives and curbs as shown on the drawings. All lawn areas to receive solid sod shall be left one (1") inch below the finish grade of sidewalks, drives, and curbs. All construction debris shall be removed prior to Landscape Contractor beginning any work.

B. General Contractor shall provide topsoil as described in Section 02200 - Earthwork.

C. Storage of materials and equipment at the job site will be at the risk of the Landscape Contractor. The Owner cannot be held responsible for theft or damage.

1.6 MAINTENANCE AND GUARANTEE

A. Maintenance:

1. The Landscape Contractor will be held responsible for the maintenance of all work from the time of planting until final acceptance by the Owner. No trees, shrubs, groundcover or grass will be accepted unless they show a healthy growth and satisfactory foliage conditions.
2. Maintenance shall include watering of trees and plants, cultivation, weeding spraying, edging, pruning of trees, mowing of grass, cleaning up and all other work necessary of maintenance.
3. A written notice requesting final inspection and acceptance should be submitted to the Owner at least seven (7) days prior to completion. An on-site inspection by Owner and Landscape Contractor will be completed prior to written acceptance.
4. After final acceptance of installation, the Landscape Contractor will not be required to do any of the above listed work.

B. Guarantee:

1. Trees shall be guaranteed for a twelve (12) month period after acceptance. Shrubs and groundcover shall be guaranteed for twelve (12) months. The Contractor shall replace all dead materials as soon as weather permits and upon notification of the Owner. Plants, including trees, which have partially died so that shape, size, or symmetry has been damaged, shall be considered subject to replacement. In such cases, the opinion of the Owner shall be final.
   a. Plants used for replacement shall be of the same size and kind as those originally planted and shall be planted as originally specified. All work, including materials, labor and equipment used in replacements, shall carry a twelve (12) month guarantee. Any damage, including ruts in lawn or bed areas, incurred as a result of making replacements shall be immediately repaired.
   b. At the direction of the Owner, plants may be replaced at the start of the next year's planting season. In such cases, dead plants shall be removed from the premises immediately.
   c. When plant replacements are made, plants, soil mix, fertilizer and mulch are to be utilized as originally specified and reinspected for full compliance with Contract requirements. All replacements are to be included under "Work" of this section.
2. The Owner agrees that for the guarantee to be effective, he will water plants at least twice a week during dry periods and cultivate beds once a month after final acceptance.
3. The above guarantee shall not apply where plants die after acceptance because of injury from storms, hail, freeze, insects, diseases, injury by humans, machines or theft.
4. Acceptance for all landscape work shall be given after final inspection by the Owner provided the job is in a completed, undamaged condition, and there is a stand of grass in all lawn areas. At this time, the Owner will assume maintenance on the accepted work.

C. Repairs: Any necessary repairs under the Guarantee must be made within ten (10) days after receiving notice, weather permitting, and in the event the Landscape Contractor does not make repairs accordingly, the Owner, without further notice to Contractor, may provide materials and men to make such repairs at the expense of the Landscape Contractor.

1.7 QUALITY ASSURANCE

A. General: Comply with applicable Federal, State, County and Local regulations governing landscape materials and work

B. Personnel: Employ only experienced personnel who are familiar with the required work. Provide full time supervision by a qualified foreman acceptable to Landscape Architect.

C. Selection of Plant Material:

1. Make contact with suppliers immediately upon obtaining notice of contract acceptance to select and book materials. Develop a program of maintenance (pruning and fertilization) which will insure the purchased materials will meet and/or exceed project specifications.
2. Landscape Architect will provide a key identifying each tree location on site. Written verification will be required to document material selection, source and delivery schedules to site.
3. Owner and/or Architect shall inspect all plant materials when reasonable at place of growth for compliance with requirements for genus, species, cultivar/variety, size and quality.
4. Owner and/or Architect retains the right to further inspect all plant material upon arrival at the site and during installation for size and condition of root balls, limbs, branching habit, insects, injuries, and latent defects.
5. Owner and/or Architect may reject unsatisfactory or defective material at any time during the process of work. Remove rejected materials from the site immediately. Plants damaged in transit or at job site shall be rejected.

1.8 PRODUCT DELIVERY, STORAGE AND HANDLING

A. Preparation:

1. Balled and Burlapped (B&B) Plants: Dig and prepare shipment in a manner that will not damage roots, branches, shape, and future development.
2. Container Grown Plants: Deliver plants in rigid container to hold ball shape and protect root mass.

A. Delivery:

1. Deliver packaged materials in sealed containers showing weight, analysis and name of manufacturer. Protect materials from deterioration during delivery and while stored at site.
2. Deliver only plant materials that can be planted in one day unless adequate storage and watering facilities are available on job site.
3. Protect root balls by heeling in with sawdust or other approved moisture retaining material if not planted within 24 hours of delivery.
4. Protect plants during delivery to prevent damage to root balls or desiccation of leaves. Keep plants moist at all times. Cover all materials during transport.
5. Notify Architect of delivery schedule 72 hours in advance so plant material may be observed upon arrival at job site.
6. Remove rejected plant material immediately from site.
7. To avoid damage or stress, do not lift, move, adjust to plumb, or otherwise manipulate plants by trunk or stems.

PART 2 - PRODUCTS

2.1 PLANTS

A. General: Well-formed No. 1 grade or better nursery grown stock. Listed plant heights are from tops of root balls to nominal tops of plants. Plant spread refers to nominal outer width of the plant, not to the outer leaf tips. Plants will be individually approved by the Architect and his decision as to their acceptability shall be final.

B. Quantities: The drawings and specifications are complimentary. Anything called for on one and not the other is as binding as if shown and called for on both. The plant schedule is an aid to bidders only. Confirm all quantities on plan.

C. Quality and size: Plant materials shall conform to the size given on the plan, and shall be healthy, symmetrical, well-shaped, full branched, and well rooted. The plants shall be free from injurious insects, diseases, injuries to the bark or roots, broken branches, objectionable disfigurements, insect eggs and larvae and are to be of specimen quality.

D. Approval: All plant materials shall be subject to the approval of the Owner. All plants which are found unsuitable in growth, or in any unhealthy, badly shaped, or undersized condition, will be rejected by the Landscape Architect, either before or after planting, and shall be removed at the expense of the Landscape Contractor and replaced with acceptable plants as specified.

E. Trees shall be healthy, full-branched, well-shaped and shall meet the trunk diameter and height requirements of the plant schedule. Balls shall be firm, neat, slightly tapered, and well wrapped in burlap. Any tree loose in the ball or with broken ball at time of planting will be rejected. Balls shall be ten (10") inched in diameter for each one (1") inch of trunk diameter, Measured six (6") inched above ball.
Nomenclature conforms to the customary nursery usage: for clarification, the term "multi-trunk" defines a plant having three (3) or more trunks of nearly equal diameter.

F. Pruning: All pruning of trees and shrubs, as directed by the Landscape Architect, shall be executed by the Landscape Contractor at no additional cost to the Owner.

2.2 SOIL PREPARATION MATERIALS

A. Sandy Loam:

1. Friable, fortile, dark, loamy soil, free of clay lumps, subsoil, stones and other extraneous material and reasonably free of weeds and foreign grasses. Loam containing Dallasgrass or Nutgrass shall be rejected.
2. Physical properties as follows:
   Clay – between 7-27 percent
   Silt – between 15-25 percent
   Sand – less than 52 percent
3. Organic matter shall be 3%-10% of total dry weight.
4. If requested, provide a certified soil analysis conducted by an approved soil testing laboratory verifying that sandy loam meets the above requirements.

B. Organic Material: Compost with a mixture of 80% vegetative matter and 20% animal waste. Ingredients should be a mix of course and fine textured material.

C. Premixed Bedding Soil as supplied by Vital Earth Resources, Gladewater, Texas; Professional Bedding Soil as supplied by Living Earth Technology, Dallas, Texas or Acid Gro Municipal Mix as supplied by Soil Building Systems, Dallas, Texas or approved equal.

D. Sharp Sand: Sharp sand must be free of seeds, soil particles and weeds.

E. Mulch: Double Shredded Hardwood Mulch, partially decomposed, dark brown. Living Earth Technologies or approved equal.

F. Organic Fertilizer: Fertilaid, Sustane, or Green Sense or equal as recommended for required applications. Fertilizer shall be delivered to the site in original unopened containers, each bearing the manufacturer's guaranteed statement of analysis.

A. Commercial Fertilizer: 10-20-10 or similar analysis. Nitrogen source to be a minimum 50% slow release organic Nitrogen (SCU or UF) with a minimum 8% sulphur and 4% iron, plus micronutrients.

B. Peat: Commercial sphagnum peat moss or partially decomposed shredded pine bark or other approved organic material.

2.3 MISCELLANEOUS MATERIALS

A. Steel Edging: Shall be Ryerson "Estate Curbing", 1/8" x 4" with stakes 4' on center.

B. Staking Material for Shade Trees:

1. Post: Studded T-Post, #1 Armco with anchor plate; 6'-0" length; paint green.
2. Wire: 12 gauge, single strand, galvanized wire.
3. Rubber hose: 2 ply, fiber reinforced hose, minimum ½ inch inside diameter. Color: Black.

C. Gravel: Washed native pea gravel, graded 1 in. to 1-1/2 in.

D. Filter Fabric: Mirafi 140N by Celanese Fibers Marketing Company, available at Lofland Co., (214) 631-5250 or approved equal.

PART 3 - EXECUTION

3.1 BED PREPARATION & FERTILIZATION

A. Landscape Contractor to inspect all existing conditions and report any deficiencies to the Owner.

B. All planting areas shall be conditioned as follows:

1. Prepare new planting beds by scraping away existing grass and weeds as necessary. Till existing soil to a depth of six (6") inches prior to placing compost and fertilizer. Apply fertilizer as per manufacturers recommendations. Add six (6") inches of compost and till into a depth of six (6") inches of the topsoil. Apply organic fertilizer such as Sustane or Green Sense at the rate of twenty (20) pounds per one thousand (1,000) square feet.
2. All planting areas shall receive a two (2") inch layer of specified mulch.
3. Backfill for tree pits shall be as follows: Use existing top soil on site (use imported topsoil as needed) free from large clumps, rocks, debris, caliche, subsoils, etc., placed in nine (9") inch layers and watered in thoroughly.

C. Grass Areas:

1. Areas to be Solid Sod Bermudagrass: Blocks of sod should be laid joint to joint, (staggered joints) after fertilizing the ground first. Roll grass areas to achieve a smooth, even surface. The joints between the blocks of sod should be filled with topsoil where they are evidently gaped open, then watered thoroughly.
2. Areas to be Hydromulch Common Bermudagrass: Hydromulch with bermudagrass seed at a rate of two (2) pounds per one thousand (1,000) square feet. Use a 4' x 8' batter board against the bed areas.

3.2 INSTALLATION

A. Maintenance of plant materials shall begin immediately after each plant is delivered to the site and shall continue until all construction has been satisfactorily accomplished.

B. Plant materials shall be delivered to the site only after the beds are prepared and area ready for planting. All shipments of nursery materials shall be thoroughly protected from the drying winds during transit. All plants which cannot be planted at once, after delivery to the site, shall be well protected against the possibility of drying by wind and sun. Balls of earth of B & B plants shall be kept covered with soil or other acceptable material. All plants remain the property of the Contractor until final acceptance.

C. Position the trees and shrubs in their intended location as per plan.

D. Notify the Landscape Architect for inspection and approval of all positioning of plant materials.

E. Excavate pits with vertical sides and horizontal bottom. Tree pits shall be large enough to permit handling and planting without injury to balls of earth or roots and shall be of such depth that, when planted and settled, the crown of the plant shall bear the same relationship to the finish grade as it did to soil surface in original place of growth.

F. Shrub and tree pits shall be no less than two (2) feet, twenty-four (24") inches, wider than the lateral dimension of earth ball and six (6") inches deeper than it's vertical dimension. Remove and haul from site all rocks and stones over one (1") inch in diameter. Plants should be thoroughly moist before removing containers.

G. Dig a wide, rough sided hole exactly the same depth as the height of the ball, especially at the surface of the ground. The sides of the hole should be rough and jagged, never slick or glazed.

H. Percolation Test: Fill the hole with water. If the water level does not percolate within 24 hours, the tree needs to move to another location or have drainage added. Install a PVC stand pipe per tree planting detail as approved by the Landscape Architect.

I. Backfill only with 5 parts existing soil or sandy loam and 1 part bed preparation. When the hole is dug in solid rock, topsoil from the same area should not be used. Carefully settle by watering to prevent air pockets. Remove the burlap from the top 1/3 of the ball, as well as all nylon, plastic string and wire mesh. Container trees will usually be pot bound, if so follow standard nursery practice of 'root scoring'.

J. Do not wrap trees.

K. Do not over prune.

L. Mulch the top of the ball. Do not plant grass all the way to the trunk of the tree. Leave the area above the top of the ball and mulch with at least two (2") inches of specified mulch.

M. All plant beds and trees to be mulched with a minimum settled thickness of two (2") inches over the entire bed or pit.

N. Obstruction below ground: In the event that rock, or underground construction work or obstructions are encountered in any plant pit excavation work to be done under this section, alternate locations may be selected by the Owner. Where locations cannot be changed, the obstructions shall be removed to a depth of not less than three (3) feet below grade and no less than six (6") inches below the bottom of ball when plant is properly set at the required grade. The work of this section shall include the removal from the site of such rock or underground obstructions encountered at the cost of the Landscape Contractor.

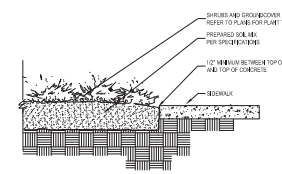
O. Trees and large shrubs shall be staked as site conditions require. Position stakes to secure tree against seasonal prevailing winds.

P. Pruning and Mulching: Pruning shall be directed by the Architect and shall be pruned in accordance with standard horticultural practice following Fine Pruning, Class I pruning standards provided by National Arborist Association.

1. Dead wood or suckers and broken badly bruised branches shall be removed. General tipping of the branched is not permitted. Do not cut terminal branches.
2. Pruning shall be done with clean, sharp tools.
3. Immediately after planting operations are completed, all tree pits shall be covered with a layer of organic material two (2") inches in depth. This limit of the organic material

Q. Steel Curbing Installation:

1. Curbing shall be aligned as indicated on plans. Stake out limits of steel curbing and obtain Owners approval prior to installation.
2. All steel curbing shall be free of kinks and abrupt bends.
3. Top of curbing shall be 3/4" maximum height above grade.
   1. Stakes are to be installed on the planting bed side of the curbing, as opposed to the grass side.
   2. Do not install steel edging along sidewalks.
   3. Cut steel edging at 45 degree angle where edging meets sidewalk.



3.3 CLEANUP AND ACCEPTANCE

A. Cleanup: During the work, the premises shall be kept neat and orderly at all times. Storage areas for all materials shall be so organized that they, too, are neat and orderly. All trash and debris shall be removed from the site as work progresses. Keep paved areas clean by sweeping or hosing at end of each days work.

SOLID SOD NOTES

1. *Fine grade areas to achieve final contours indicated. Leave areas to receive topsoil 3" below finial cleaired grade in planting areas and 1" below final grade in turf areas.*
2. *Adjust contours to achieve positive drainage away from buildings. Provide uniform rounding at top and bottom of slopes and other breaks in grade. Correct irregularities and areas where water may stand.*
3. *All lawn areas to receive solid sod shall be left in a maximum of 1" below final finish grade. Contractor to coordinate operations with on-site Construction Manager.*
4. *Contractor to coordinate with on-site Construction Manager for availability of existing topsoil.*
5. *Plant sod by hand to cover indicated area completely. Insure edges of sod are touching. Top dress joints by hand with topsoil to fill voids.*
6. *Roll grass areas to achieve a smooth, even surface, free from unnatural undulations.*
7. *Water sod thoroughly as sod operation progresses.*
8. *Contractor shall maintain all lawn areas until final acceptance. This shall include, but not limited to: mowing, watering, weeding, cultivating, cleaning and replacing dead or bare areas to keep plants in a vigorous, healthy condition.*
9. *Contractor shall guarantee establishment of an acceptable turf area and shall provide replacement from local supply if necessary.*
10. *If installation occurs between September 1 and March 1, all sod areas to be over-seeded with Winter Ryegrass, at a rate of (4) pounds per one thousand (1000) square feet.*

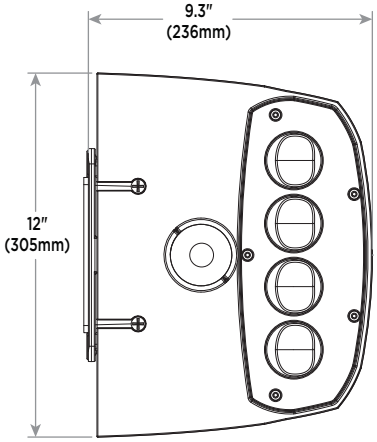
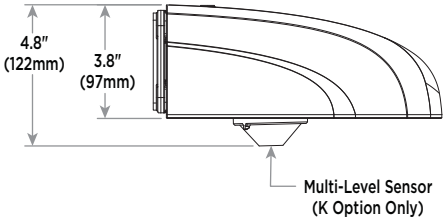
XSP Series XSPWA03

XSPW™ Wall Pack Luminaire – Wall Mount – Type III

Type: L21



Product Description



XSPW has a slim, low profile design intended for outdoor wall mounted applications. The rugged lightweight aluminum housing and mounting box are designed for installation over standard and mud ring single gang J-Boxes. The luminaire allows for through-wired or conduit entry from the top, bottom, sides and rear. The housing design is intended specifically for LED technology including a weathertight LED driver compartment and thermal management. Optic design features industry-leading NanoOptic Precision Delivery Grid™ system in multiple distributions.

Performance Summary

- Utilizes BetaLED® Technology
- NanoOptic® Precision Delivery Grid™ optic
- Made in the U.S.A. of U.S. and imported parts
- **CRI:** Minimum 70 CRI
- **CCT**: 4000K (+/- 300K), 5700K (+/- 500K)
- **Limited Warranty**: 10 years on luminaire

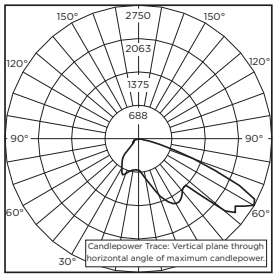
Product Specifications

CONSTRUCTION & MATERIALS

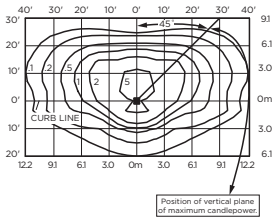
- Slim, low profile design
- Luminaire housing specifically designed for LED applications with advanced LED thermal management and driver
- Luminaire moutning box designed for installation over standard and mud ring single gang J-Boxes
- Luminaire can also be direct mounted to a wall and surface wired
- Secures to wall with four 3/16" (5mm) screws (by others)
- Conduit entry from top, bottom, sides, and rear
- Designed and UL approved for easy through-wiring
- Designed for downlight applications only
- Features an ultra-durable silver powder topcoat, providing excellent resistance to corrosion, ultraviolet degradation and abrasion.

ELECTRICAL SYSTEM



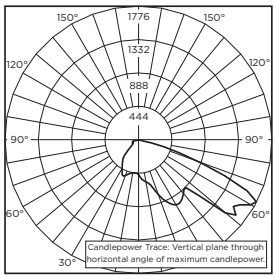
- **Input Voltage:** 120–277V, 50/60Hz, Class 2 output
- **Power Factor:** > 0.9 at full load
- **Total Harmonic Distortion:** < 20% at full load
- Integral 10kV surge suppression protection standard
- To address inrush current, slow blow fuse or type C/D breaker should be used

REGULATORY & VOLUNTARY QUALIFICATIONS



- cULus Listed
- Suitable for wet locations
- Product qualified on the DesignLights Consortium ("DLC") Qualified Products List ("QPL")
- 10kV surge suppression protection tested in accordance with IEEE/ANSI C62.41.2
- Luminaire tested to withstand 5,000 hours of elevated ambient salt fog conditions as defined in ASTM Standard B 117
- Meets Buy American requirements within ARRA

Photometry



All published luminaire photometric testing performed to IESNA LM-79-08 standards by a NVLAP certified laboratory.

CPY Series

CPY250™ LED Canopy/Soffit Luminaire

Type: L22

Product Description

The CPY250™ LED Canopy/Soffit Luminaire has an extremely thin profile constructed of rugged cast aluminum. It can be surface mounted easily from below the canopy deck and also has the ability to be pendant mounted or hook & cord mounted. Direct imaging of the LEDs is eliminated with a highly efficient patterned flat or 0.91" (23mm) drop glass lens.

Applications: Petroleum canopies, CNG fueling stations, low-medium bay general lighting, soffits

Performance Summary

Made in the U.S.A. of U.S. and imported parts

CRI: Minimum 70 CRI

CCT: 4000K (+/- 300K), 5700K (+/- 500K) Standard

Limited Warranty: 10 years on luminaire

IP66 Rated (Direct Mount only)

Product Specifications

CONSTRUCTION & MATERIALS

- Slim, low profile design
- Easy mounting and servicing from below the deck
- Luminaire housing is constructed of rugged cast aluminum with integral heat sink specifically designed for LED
- Direct mount is suitable for use in single or double skin canopies with a minimum 4.0" (102mm) wide panels and a minimum 22 gauge, 0.030" (0.7mm) canopy thickness
- Direct mount luminaire mounts directly to the canopy deck with the drilling of a single 2.0" (51mm) to 4.0" (102mm) round hole, is secured in place with self-sealing screws that provide water-tight seal and includes 3/4" (19mm) conduit entry for direct wire feed
- Hook and cord mount includes a 3' (9.1m) cord out of the fixture and is intended to hang from the single hook
- Pendant mount includes J-Box for customer wiring and is intended to be mounted by 3/4 IP pendant (by others)
- Features an ultra-durable silver powder topcoat, providing excellent resistance to corrosion, ultraviolet degradation and abrasion.
- **Weight:** 12.5 lbs. (5.7kg)

ELECTRICAL SYSTEM

- **Input Voltage:** 120-277V or 347-480V (A and B Input Power Designators only), 50/60Hz, Class 1 drivers
- **Power Factor:** > 0.9 at full load
- **Total Harmonic Distortion:** < 20% at full load
- Integral 6kV surge suppression protection standard
- To address inrush current, slow blow fuse or type C/D breaker should be used
- **Operating Temperature Range:** A Input Power Designator: -40˚C - +40˚C (direct mount to plywood), -40˚C - +45˚C (direct mount to sheet metal/suspended); B Input Power Designator: -40˚C - +35˚C (plywood), -40˚C - +40˚C (sheet metal/suspended); C Input Power Designator: -40˚C - +45˚C (plywood), -40˚C - +50˚C (sheet metal/suspended)
  WARNING: Exceeding maximum operating temperature may result in thermal foldback

REGULATORY & VOLUNTARY QUALIFICATIONS

- cULus listed
- Suitable for wet locations when ordered with DM mount
- Suitable for damp locations when ordered with HC & PD mounts
- Enclosure rated IP66 per IEC 60529 when ordered with DM mount
- Consult factory for CE Certified products
- 6kV surge suppression protection tested in accordance with IEEE / ANSI C62.41.2
- DLC qualified when ordered with A & B input power designators. Please refer to http://www.designlights.org/QPL for most current information
- Luminaire tested to withstand 5,000 hours of elevated ambient salt fog conditions as defined in ASTM Standard B 117
- Meets Buy American requirements within ARRA
- Dark Sky Friendly, IDA Approved. Please refer to http://www.darksky.org/ for most current information
- RoHS compliant when ordered with DM mount
- Class I, Division II Hazardous Location rated when ordered with the following SKUs: CPY250 A DM D B-UL WH, CPY250 A DM F B-UL WH, CPY250 A DM D B-UH WH and CPY250 A DM F B-UH WH. Consult factory for additional details

Type: L31 / L32 / L33 / L34

Product Description

The OSQ™ Area/Flood luminaire blends extreme optical control, advanced thermal management and modern, clean aesthetics. Built to last, the housing is rugged cast aluminum with an integral, weathertight LED driver compartment. Versatile mounting configurations offer simple installation. Its slim, low-profile design minimizes wind load requirements and blends seamlessly into the site providing even, quality illumination. 'A' Input power designator is a suitable upgrade for HID applications up to 250 Watt. 'J' Input power designator is a suitable upgrade for HID applications up to 400 Watt.

Applications: Parking lots, walkways, campuses, car dealerships, office complexes, and internal roadways

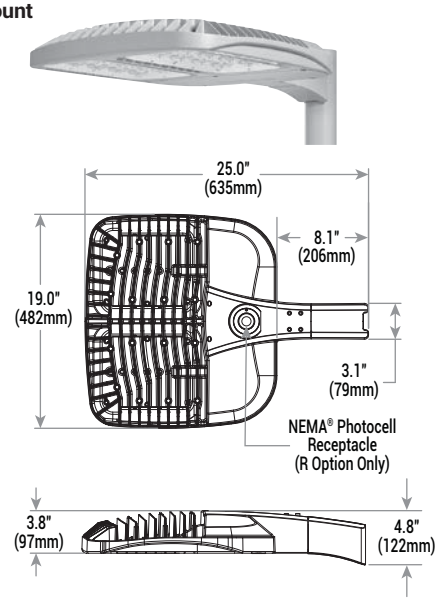
Performance Summary

Utilizes BetaLED® Technology

NanoOptic® Precision Delivery Grid™ optic

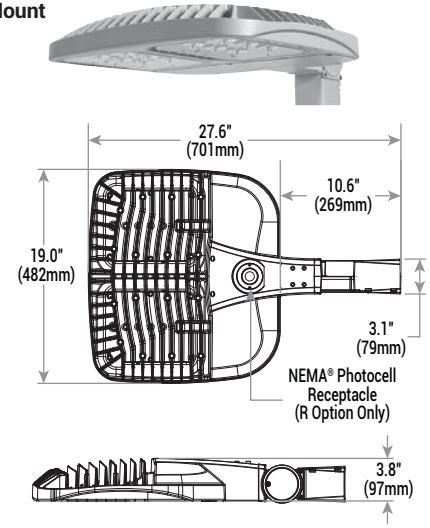
Made in the U.S.A. of U.S. and imported parts

CRI: Minimum 70 CRI (4000K & 5700K); 80 CRI (3000K)



CCT: 3000K (+/- 300K), 4000K (+/- 300K), 5700K (+/- 500K)

Limited Warranty: 10 years on luminaire



Accessories

Field-Installed	
Backlight Shield OSQ-BLSMF – Front facing optics	OSQ-BLSMR – Rotated optics

DA Mount

AA Mount

Ordering Information

Fully assembled luminaire is composed of two components that must be ordered separately:
Example: **Mount:** OSQ-AA CS + **Luminaire:** OSQ A NM 2ME A 40K-UL CS

Mount (Luminaire must be ordered separately)	
OSQ- DA	CS
OSQ-AA Adjustable Arm **OSQ-DA** Direct Arm	**Color Option:** **CS** Silver

Luminaire (Mount must be ordered separately)

* Available with Backlight Shield when ordered with field-installed accessory (see table above)

Product Specifications

CONSTRUCTION & MATERIALS

- Slim, low profile design minimizes wind load requirements
- Luminaire housing is rugged die cast aluminum with an integral, weathertight LED driver compartment and high performance heat sink
- Convenient interlocking mounting method on direct arm mount. Mounting adapter is rugged die cast aluminum and mounts to 3-6" (76-152mm) square or round pole, secured by two 5/16-18 UNC bolts spaced on 2" (51mm) centers
- Mounting for the adjustable arm mount adapter is rugged die cast aluminum and mounts to 2" (51mm) IP, 2.375" (60mm) O.D. tenon
- Adjustable arm mount can be adjusted 180˚ in 2.5˚ increments
- Designed for uplight and downlight applications
- Features an ultra-durable silver powder topcoat, providing excellent resistance to corrosion, ultraviolet degradation and abrasion.
- **Weight:** 26.5 lbs. (12kg)

ELECTRICAL SYSTEM

- **Input Voltage:** 120-277V or 347-480V, 50/60Hz, Class 1 drivers
- **Power Factor :** > 0.9 at full load
- **Total Harmonic Distortion:** < 20% at full load
- Integral 10kV surge suppression protection standard
- To address inrush current, slow blow fuse or type C/D breaker should be used

REGULATORY & VOLUNTARY QUALIFICATIONS

- cULus Listed
- Suitable for wet locations
- Enclosure rated IP66 per IEC 60529 when ordered without R option
- Consult factory for CE Certified products
- Pending certification to ANSI C136.31-2001, 3G bridge and overpass vibration standards
- 10kV surge suppression protection tested in accordance with IEEE/ANSI C62.41.2
- Luminaire tested to withstand 5,000 hours of elevated ambient salt fog conditions as defined in ASTM Standard B 117
- Meets Buy American requirements within ARRA
- DLC qualified when ordered with 30K (5ME, 5SH optics), 40K (2ME, 3ME, 4ME, 5ME, 5SH optics), or 57K (2ME, 3ME, 4ME, 5ME, 5SH optics). Please refer to http://www.designlights.org/QPL for most current information

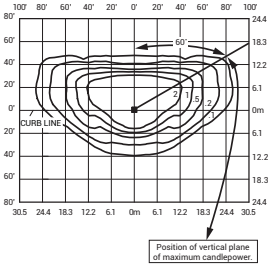
[1] Lumen maintence values at 25˚C (77˚F) are calculated per TM-21 based on LM-80 data and in-situ luminaire testing
[2] In accordance with IESNA TM-21-11, Projected Values represent interpolated value based on time durations that are within six times (6X) the IESNA LM-80-08 total test duration (in hours) for the device under testing ((DUT) i.e. the packaged LED chip)
[3] In accordance with IESNA TM-21-11, Calculated Values represent time durations that exceed six times (6X) the IESNA LM-80-08 total test duration (in hours) for the device under testing ((DUT) i.e. the packaged LED chip)



Photometry

All published luminaire photometric testing performed to IESNA LM-79-08 standards by a NVLAP certified laboratory. To obtain an IES file specific to your project consult: http://www.cree.com/lighting.

SHAFT

- ASTM A-500 Grade B carbon steel
- Minimum 46,000 P.S.I. yield strength
- Drilled top includes removable cap
- Tenon top includes 2-3/8″ O.D. x 4.0″ H x .25″ Thick tenon

BASE PLATE

- ASTM A-36 hot rolled carbon steel
- Minimum 36,000 P.S.I. yield strength
- Removable Base Cover
- 8.0″ Square Base Plate (4″ Poles)
- 11.0″ Square Base Plate (5″ Poles)
- 0.75″ Thick Base Plate (11ga. Poles)
- 0.75″ Thick Base Plate (7ga. 4″ Poles)
- 1.0″ Thick Base Plate (7ga. 5″ Poles)
- ø8.0-9.0″ Bolt Circle (4″ Poles)
- ø10.5–11.5″ Bolt Circle (5″ Poles)
- 1.0″ Bolt Holes (11ga. Poles)
- 1.25″ Bolt Holes (7ga. Poles)
- 5.66″ – 6.36″ Bolt Pattern Measurement (4″ poles)
- 7.43″ – 8.13″ Bolt Pattern Measurement (5″ Poles)

ANCHOR BOLTS

- F1554 Grade
- Minimum 55,000 P.S.I. yield strength
- Fully galvanized
- 20.0″ L x 0.75″ Dia. J Bolts (11ga. Poles)
- 40.0″ L x 1.0″ Dia. J Bolts (7ga. Poles)
- Includes two hex nuts and two flat washers

HAND HOLE

- 3.0″ x 5.0″ Hand Hole w/ Cover
- Located 14.0″ above base

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 05/10/2016

APPLICANT: Vincent Jarrard; *Eurthmic Design Group Architects*

AGENDA ITEM: **SP2016-008;** Carmel Car Wash

Discuss and consider a request by Vincent Jarrard of Eurthmic Design Group Architects on behalf of the owner Cameron Bagley of Racetrac Petroleum, Inc. for the approval of site plan for a car wash/auto detail facility (i.e. Carmel Carwash) on a 1.3-acre tract of land identified as Lot 1, Block 1, Crossings Addition (i.e. 1.004-acres) and a 0.296-acre portion of Lot 1, Block 1, Rockwall Business Park Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2003 S. Goliad Street, and take any action necessary.

PURPOSE:

The applicant is requesting approval of a Site Plan for the purpose of constructing a 7,355 sq. ft. *Car Wash* facility. The 1.020-acre parcel is zoned Commercial (C) District, is within the SH-205 Overlay (SH-205 OV) District, and is located at 2003 N. Goliad Street, just north of the intersection of SH-205 and IH-30.

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Section 4.5, *Commercial (C) District,* of Article V, *District Development Standards*, of the Unified Development Code (UDC), the proposed use *(i.e. a car wash facility*) is a use permitted by right, with certain conditions for front setback and entrance and exits regarding the tunnel orientation, and will not require any additional approvals from the Planning and Zoning Commission. The submitted site plan, landscape plan, and photometric plan conform to the technical requirements contained within the Unified Development Code (UDC) for properties located in a Commercial (C) District and located within the N. SH-205 Overlay (N. SH-205 OV) District. A summary of the density and dimensional requirements of the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*10,000 SF*	*>50,000 SF; In Conformance*
Minimum Lot frontage	*60-Feet*	*~150-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*~337-Feet; In Conformance*
Minimum Front Yard Setback	*25-Feet[1]*	*~50-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet[2]*	*x>5-Feet; In Conformance*
Minimum Side Yard Setback	*10-Feet[3]*	*x>10-Feet; In Conformance*
Maximum Building Height	*60-Ft w/o SUP*	*21-Ft; In Conformance*
Max Building/Lot Coverage	*60%*	*28.97%; In Conformance*
Minimum Masonry Requirement	*90%*	*>90%; In Conformance*
Floor Area Ratio	*4:1*	*x>1:1; In Conformance*
Minimum Number of Parking Spaces	*30*	*33 Provided; In Conformance*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*	*X<20%; Exception Requested*
Minimum Landscaping Percentage	*15%*	*21.58%; In Conformance*
Maximum Impervious Coverage	*85%*	*78.42%; In Conformance*

NOTES: 1. The car wash must be setback a minimum of 50-ft from street frontage. 2. Without fire retardant wall, or alley: ten feet, or as required by building and/or fire codes. 3. a. Without fire retardant wall: ten feet, or as required by building and/or fire codes, b. With fire retardant wall: zero feet.

If the applicant platted this property as shown, it would result in the remaining portion of the lot not having frontage on a public street, which is not permitted in any district; therefore the applicant will be required to plat the two lots as one (1) lot unless the City Council approves a variance during the platting process. If additional property is acquired that can be combined with the back portion of the lot to allow it to have frontage on a public street, the property can be replatted without the variance requirement.

VARIANCES AND EXCEPTIONS:

Based on the applicant's submittal, staff has identified the following exceptions:

1) Architectural Standards:

A) *Masonry Requirements.* According to Section 6.11, *North SH 205 Corridor Overlay (N-SH205 OV) District,* of Article V, *District Development Standards*, of the Unified Development Code (UDC) each exterior wall shall consist of 90 percent masonry materials, excluding doors and windows, excluding cast stone and cultured stone, on walls which are visible from a public street or open space, including a minimum of 20 percent natural or quarried stone. The applicant is requesting to use cultured stone instead of natural/quarried stone. Staff has been provided a material sample and specifications that will be presented to the Architectural Review Board (ARB) for their recommendation.

The Planning and Zoning Commission may consider the use of high quality manufactured or cultured stone if the following standards of manufacturing and warranty apply to the product;

i. That the manufacturing molds should be made from actual stones and each piece should complement each other having the right shape, texture, size, and detail of natural stone;

ii. That the overtones of color should be integrated into the stone during the molding process, while the base color of the stone is blended entirely throughout;

iii. That highly skilled artisans should be utilized to hand paint each piece in order to give each stone depth and variation of color;

iv. That the use of the highest quality synthetic minerals oxides should be used to infuse the surface with rich, authentic tones; and

v. That the manufactured stone product shall have a minimum warranty of 75 years.

The cultured stone that the applicant is proposing does not meet the minimum warranty requirement; however, the stone provided by the applicant does carry a 50-year warranty. Additionally, this brand of stone (not the style) has been utilized in other parts of the city. With the being said, the approval of an exception to use cultures stone is a discretionary decision for the Planning and Zoning Commission. Staff will provide a sample at the meeting for the Planning and Zoning Commission to review.

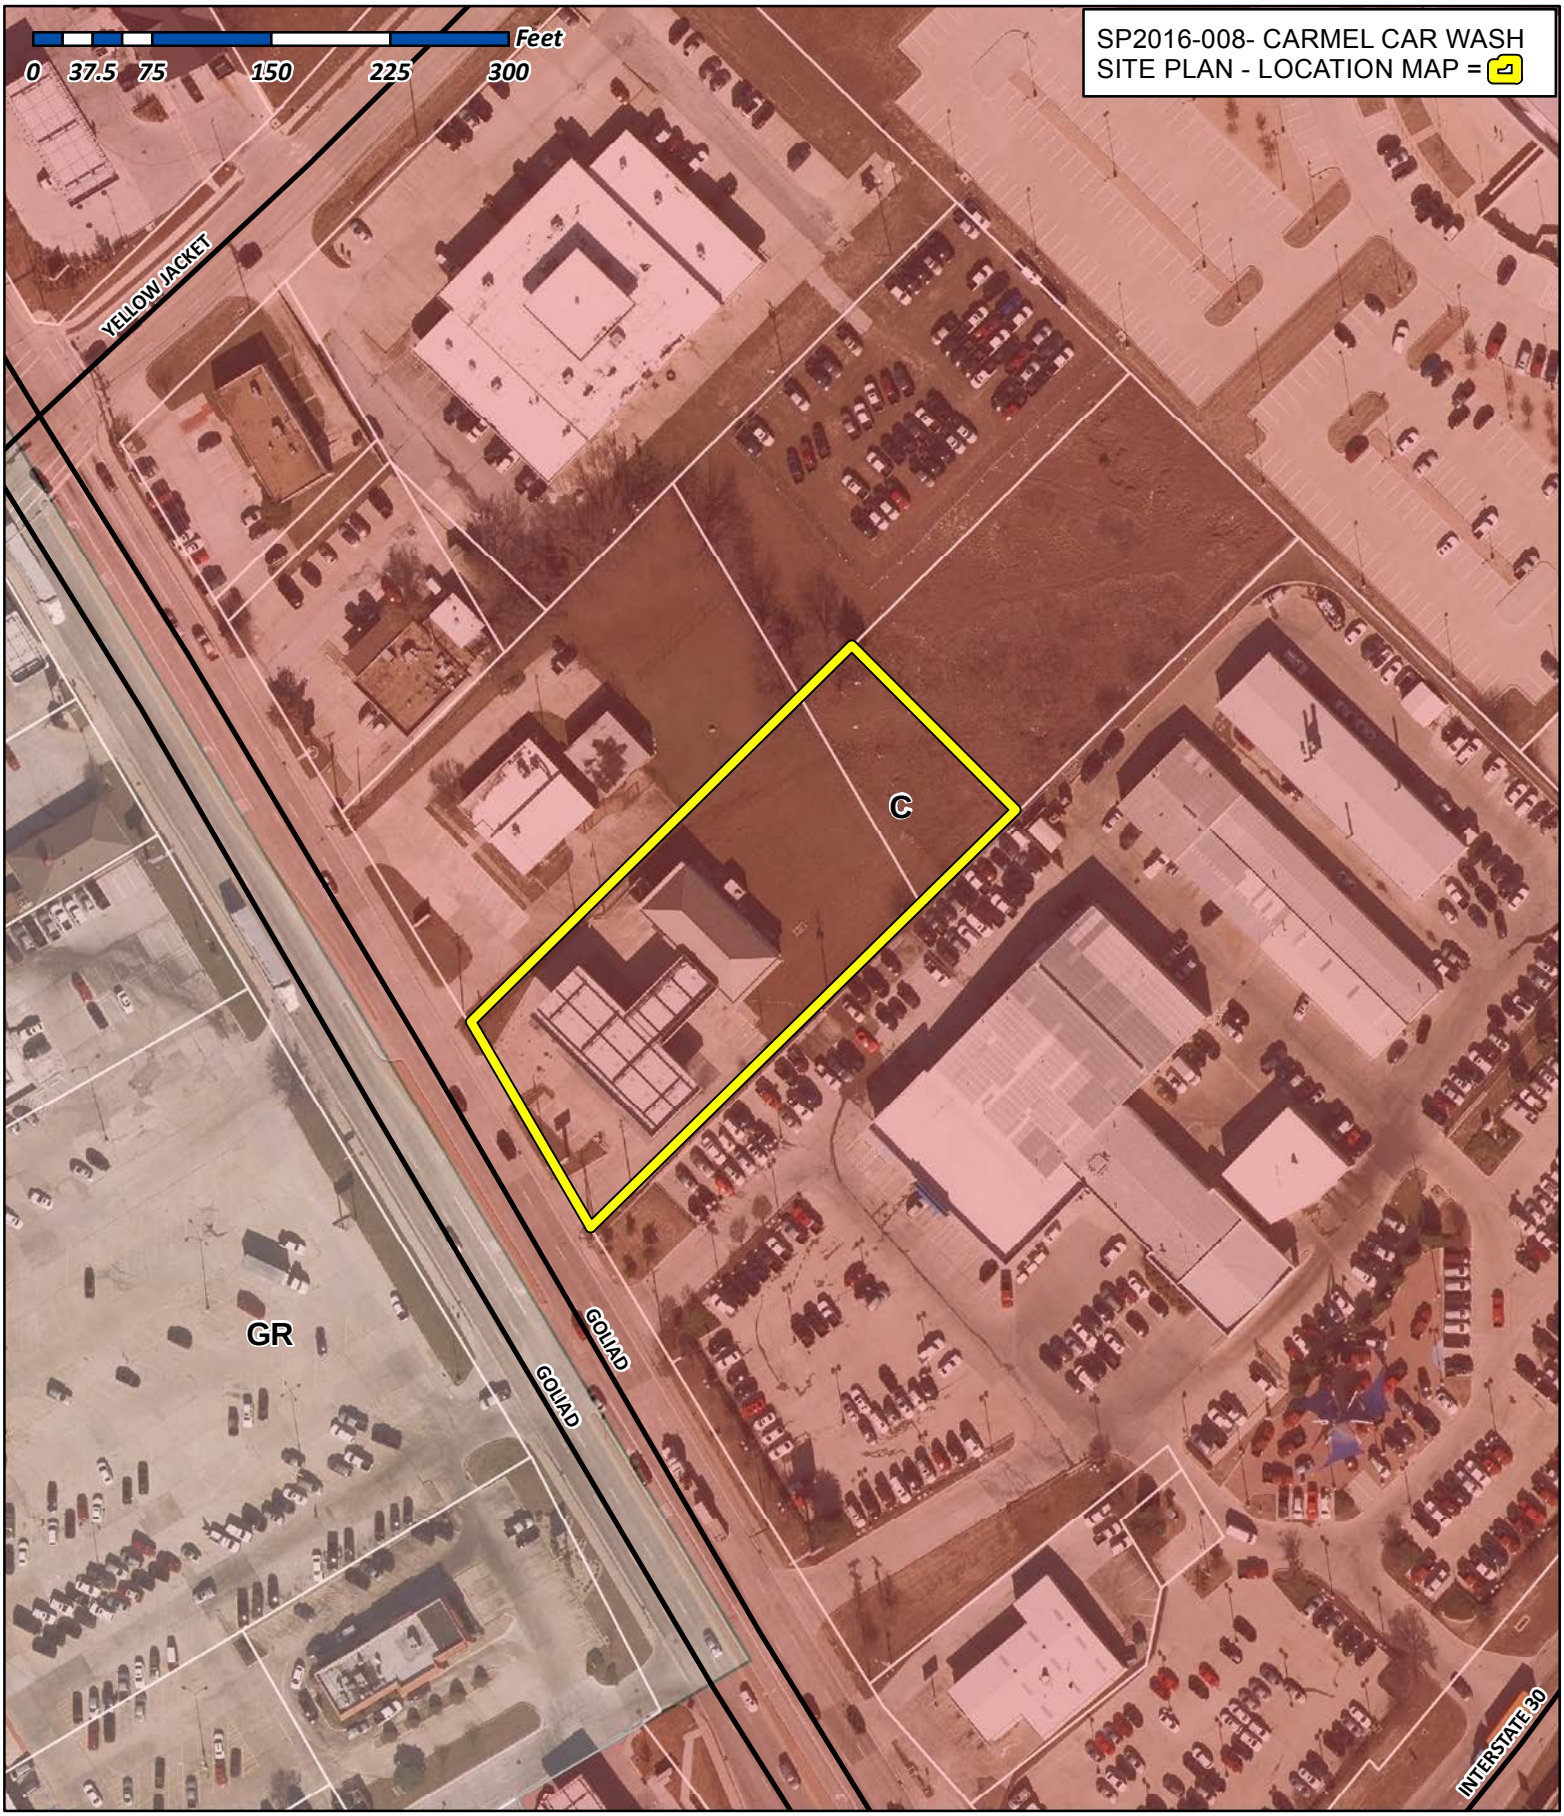
Based on the applicant's submittal, staff has identified the following variances:

1) Site Plan:

A) *Carwash/auto detail.* According to Section 2.1.8, *Auto and Marine-Related Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC)

entrances and exits to the car wash shall not directly face any public street. In this case, the applicant is requesting to have the tunnels of the car wash face SH-205; however, they will be shielded by the point of sale pavilion, and landscaping will be added to help mitigate for requested variance.

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:



On April 26, 2016, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. General discussion concerning the agenda item took place between the Board Members and city staff. The board expressed concern with the use of fabric for the canopies and requested for the canopies to be fabricated from metal to match the louvers on the main structure. In addition, the application indicated they will be using a cultured stone in lieu of the required natural stone. The applicant will provide a sample of the cultured stone at the May 10, 2016 ARB meeting for the ARB's recommendation to the Planning and Zoning Commission.

RECOMMENDATIONS:

If the Planning & Zoning Commission chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All technical comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

SP2016-008 (Carmel Car Wash): Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request for the approval of site plan for a car wash/auto detail facility (i.e. Carmel Carwash) on a 1.3-acre tract of land identified as Lot 1, Block 1, Crossings Addition (i.e. 1.004-acres) and a 0.296-acre portion of Lot 1, Block 1, Rockwall Business Park Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 2003 S. Goliad Street.

I.2 For questions or comments concerning this case please contact Korey Brooks in the Planning Department at (972) 772-6434 or email kbrooks@rockwall.com.

M.3 For reference, include the case number (SP2016-008) in the lower right hand corner of all pages on future submittals.

I.4 This property will be required to be plated prior to the issuance of a building permit.

I.5 This property is located in the SH 205 Overlay (SH-205 OV) District and is subject to stricter architectural/site design standards. Each exterior wall shall consist of 90% masonry including a minimum 20% natural or quarried stone.

M.6 Site Plan. Please provide Material Sample Board with actual samples of proposed materials.

M.7 Site Plan. Please provide color building elevations.

M.8 Site Plan. Please provide perimeter dimensions of all buildings. Indicate the perimeter dimensions in feet.

M.9 Site Plan. Please indicate the distance between all property lines and existing/planned buildings located on the site.

M.10 Site Plan. Please indicate all building setbacks adjacent to right-of-way (i.e. SH. 205).

M.11 Site Plan. All trash and recycling receptacles shall be four-sided with a gate and located outside buffer strips and to the rear of the primary building. The receptacles shall be screen by a minimum 8-foot solid masonry screen and shall utilize similar masonry materials to the primary structure. Every effort shall be made to screen trash/recycling receptacles from SH 205. Please ensure that the screening wall is 8-feet and add a detail of the dumpster enclosure to show that it is 8-feet in height.

M.12 Site Plan. Please label all adjacent existing and proposed street names (i.e. SH 205)

M.13 Site Plan. Please indicate the street centerline for SH 205.

M.14 Site Plan. Please indicate whether utility equipment will be pad/ground mounted roof mounted. Pad mounted utility equipment shall be screened from horizontal view from any adjacent public street and from any adjacent property. All buildings must be designed so that no roof mounted mechanical equipment shal be visible from any direction.

M.15 Site Plan. Minimum width of side yard setback is 10-feet. Please check setback on the "Plan South" elevation to ensure that the building is 10-feet away from the property line unless you have a fire retardant wall.

I.16 Any above ground storage tanks shall be screened utilizing plantings, berms, or walls matching the main structure.

M.17 Site Plan. Please indicate the widths of the drives entering the car wash.

M.18 Landscape Plan. Please provide the same site data information required in Sec 2.1 Site Plan: Miscellaneous and Density and Dimensional Requirements of this checklist.

M.19 Landscape Plan. Please indicate the application zoning district percentage of landscaping required and provided in addition to the impervious areas vs. the amount of landscaping and open spaces required and provided.

I.20 Landscape Plan. Please ensure that the Impervious Area is no greater than 85% and that the pervious area is at least 15%.

M.21 Landscape Plan. Canopy trees must be at least 4" caliper. Currently the canopy trees are 1-inch below the requirement.

M.22 Landscape Plan. Please indicate the 10' landscape buffer. Currently there is a 10' buffer showing adjacent to SH 205, however, it does not specify that it is a landscape buffer.

M.23 Photometric. No light pole, base or combination thereof shall exceed 20-feet in height. Please provide a light detail indicating the height the lighting poles.

M.24 Photometric. Please darken the property lines on the Photometric Plan.

M.25 Photometric. No lighting facilities shall distribute more than 0.2 of one footcandle of light at the property line. Please look at the lighting along the property lines to get this as close as possible to 0.2.

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

M.26 Photometric. No lighting facilities shall distribute more than 20 of one footcandle of light on the remainder of the property. Please look at the lighting at the entrance of the property and try to get it as close as possible to 20 FC.

M.27 Photometric. Parking areas are not the exceed a maintained average of 1.5 foot candles at the ground level and shall not distribute more than 0.2 of one foot candle of light upon any adjacent property. Please look at the lighting for the employee parking to get this as close as possible to the requirements.

M.28 Photometric. Please try and make the lighting symbols clearer so that it is easier to distinguish each symbol.

M.29 Photometric. Please provide cut-sheets for all exterior lighting (e.g. wall packs, canister lighting, etc.).

M.30 Building Elevations. Please label all roof mounted mechanical equipment and how these will be screened from view.

M.31 Building Elevations. Please provide a spec on stone used in elevation. Also, please note that Custom concrete masonry units (normal or heavy weight blocks with an integral color that is sandblasted, burnished or has a split face) are allowed.

M.32 Building Elevations. Please provide a spec of the storage building located on the site.

M.33 Building Elevations. Each exterior wall shall consist of 90 percent masonry material including a minimum of 20 percent natural or quarried stone. Please ensure that the East Elevation includes 90% masonry, including 20% natural or quarried stone,or please apply for a variance from City Council.

M.34 Building Elevations. Please indicate the parapet wall by dashing in the top of roof deck.

M.35 Building Elevations. Please indicate any additional design elements for the base, wall, or parapets. Be sure to include the location, size, color, and material of any proposed structure.

M.36 Building Elevations. Any carwash with entrances and exits to a carwash that directly face any public street shall require a variance.

M.37 Building Elevations. The wall on the south side of the building as well as the canopies will need to be 1-hour fire rating or they will need to be setback 10'.

I.37 The Architectural Review Board (ARB) meeting for this case will be held on April 26, 2016.

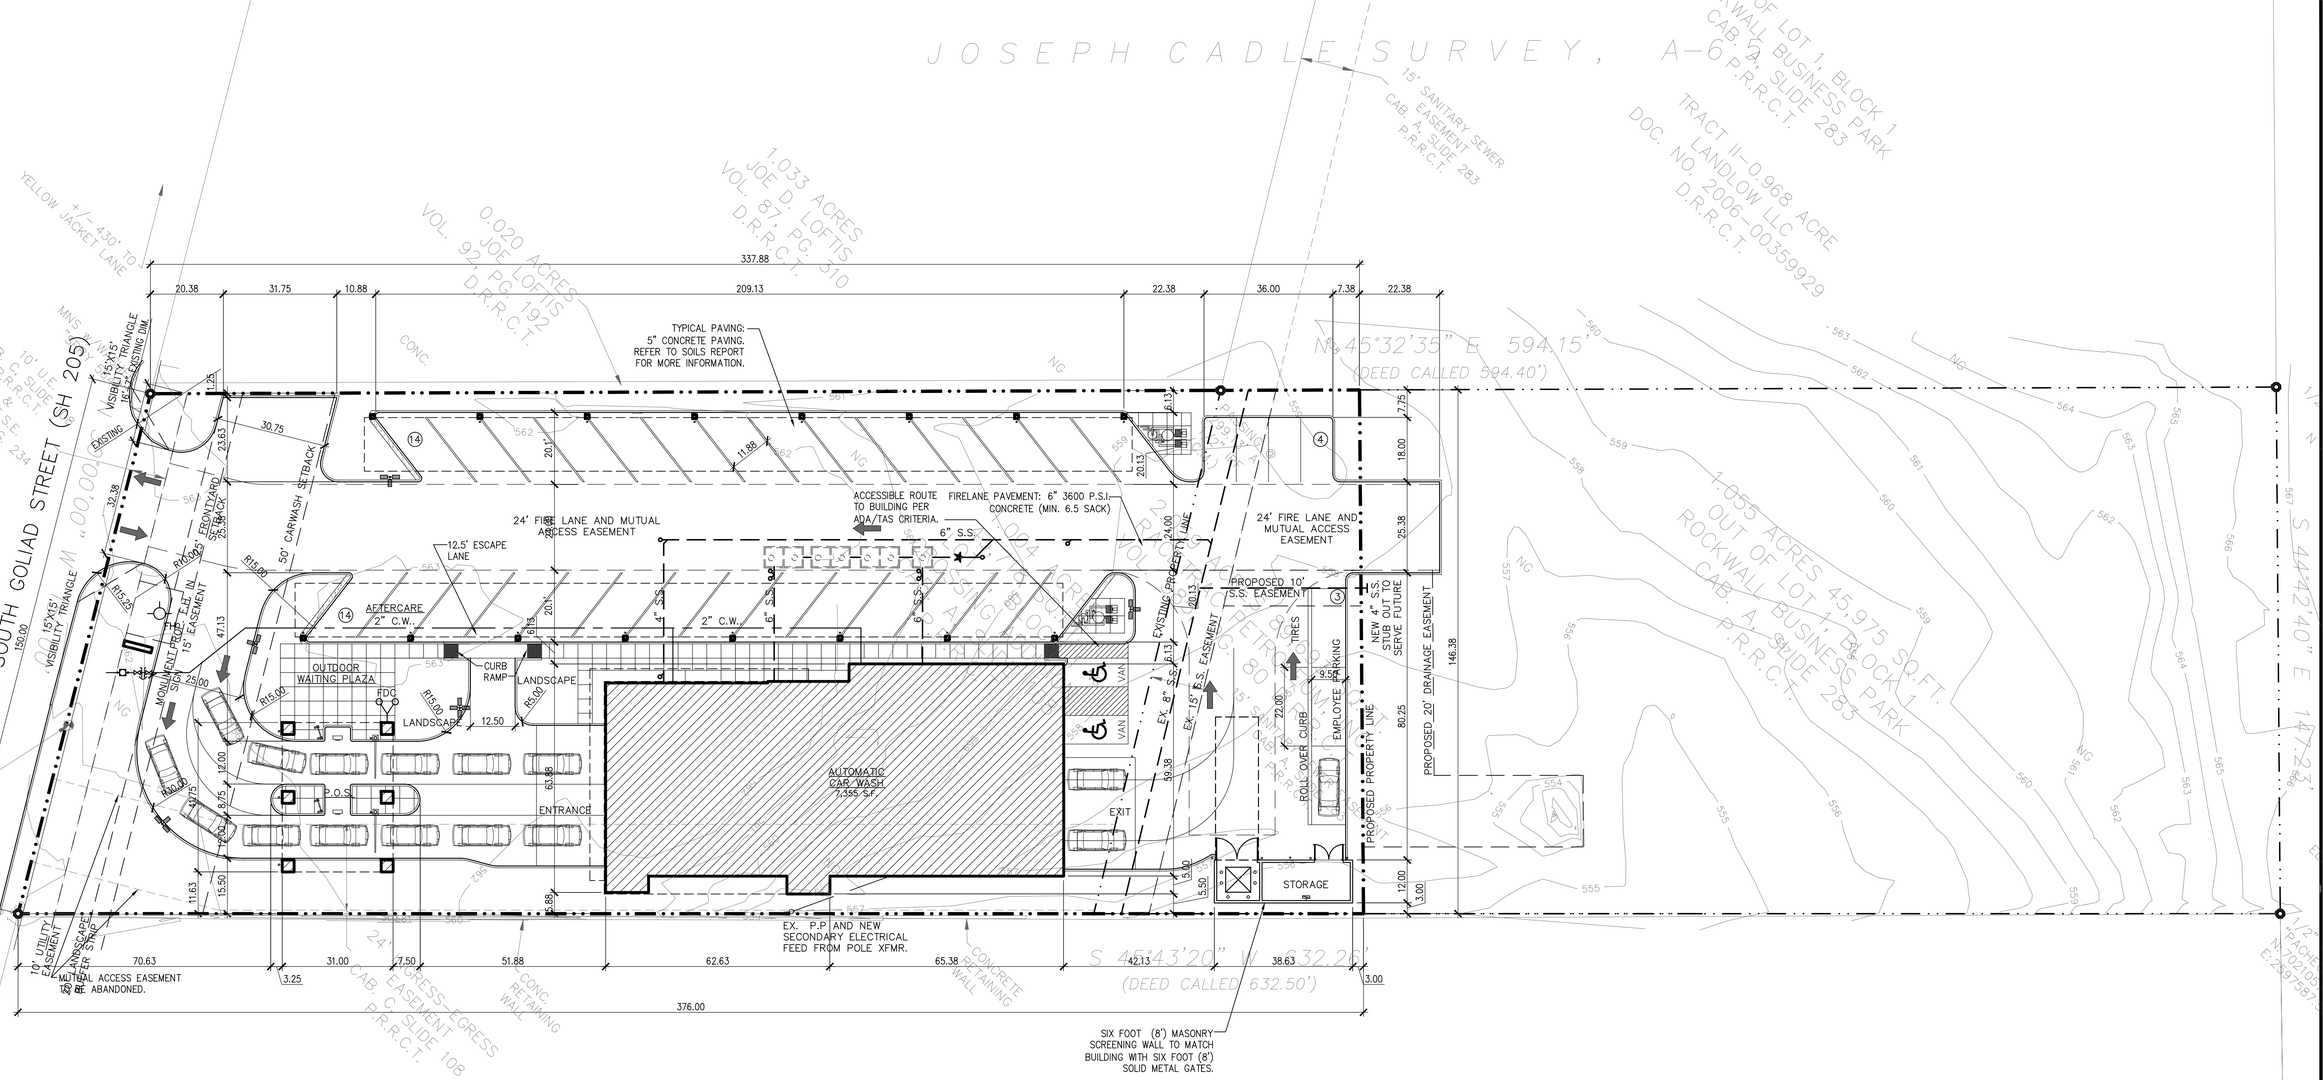
I.38 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on May 3, 2016; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the May 10, 2016 Planning & Zoning Meeting. The Planning & Zoning Work Session meeting will be held on April 26, 2016.

I.39 If necessary the projected City Council meeting date for this case will be May 16, 2016.

PLANNING	Korey Brooks	5/6/2016	5/13/2016	5/6/2016		COMMENTS	See Comments

SP2016-008 (Carmel Car Wash): Please address the following comments (M= Mandatory Comments; I = Informational Comments)

M.1 Site Plan. The Site plan indicates "SIX FOOT (8') MASONRY SCREENING WALL TO MATCH BUILDING WITH SIX FOOT (8') SOLID METAL GATES" for the dumpster. You have the correct height (8') but you mention SIX instead of EIGHT.



I.2 This property will not be allowed to be platted as shown since it will not have frontage to a major public street. Applicant is proposing to plat both lots as one.

M.3 Site Plan. Canopies over vacuum stations are still fabric. ARB will more than likely comment on this. Also, this fabric needs a 1-hour fire rating unless the vacuum canopies are setback 10' from the north property line. I am aware of some companies that do provide fire-resistant canopies. If you already have fire-resistant canopies, please provide us with the spec. If the material changes, we will need the spec on that material to show that is it 1-hr fire rated.

I.4 The Architectural Review Board (ARB) meeting for this case will be held on May 10, 2016.

I.5 Staff has identified the aforementioned items necessary to continue the submittal process. Please make these revisions and corrections, and provide any additional information that is requested. Revisions for this case will be due on May 13, 2016; however, it is encouraged for applicants to submit revisions as soon as possible to give staff ample time to review the case prior to the May 10, 2016

I.6 The Planning & Zoning Meeting for this case will be May 10, 2016 and the City Council meeting date for this case will be May 16, 2016.

1 LANDSCAPE PLAN 1" = 20'-0"

PLAN NORTH

TRUE NORTH

G.C. SHALL INSURE FULL COMPLIANCE WITH THE LATEST REQUIREMENTS OF THE ADA/TAS FOR THIS PROJECT REGARDLESS OF THE INFORMATION THAT MAY BE CONTAINED IN THESE DOCUMENTS.

IRRIGATION NOTES: FOR EXISTING SYSTEM TO BE EXPANDED

1. PROVIDE IRRIGATION SYSTEM DESIGNED BY A LICENSED IRRIGATION CONTRACTOR PER CITY REQUIREMENTS. IRRIGATION PLAN MUST BE SUBMITTED PRIOR TO CONSTRUCTION.
2. VERIFY CONDITION OF DOUBLE CHECK VALVE AT THE METER.
3. NEW CONSTRUCTION: ADJUSTABLE FLOW CONTROLS SHALL BE REQUIRED ON CIRCUIT REMOTE CONTROL. VALVES AND PRESSURE REGULATION COMPONANT(S) SHALL BE REQUIRED WHERE STATIC PRESSURE EXCEEDS MANUFACTURE'S RECOMMENDED OPERATING RANGE.
4. NEW CONSTRUCTION: VALVES AND CIRCUITS SHALL BE SEPARATED BASED ON WATER USE SO THAT TURF AREAS ARE WATERED SEPARATELY FROM SHRUB AND / OR GROUND COVER AREAS.
5. NEW CONSTRUCTION: SPRINKLER HEADS SHALL HAVE MATCHED PRECIPITATION RATES WITHIN EACH CONTROL VALVE CIRCUIT.
6. NEW CONSTRUCTION: SERVICEABLE CHECK VALVES SHALL BE REQUIRED ADJACENT TO PAVED AREAS WHERE ELEVATION DIFFERENCES MAY CAUSE LOW HARD DRAINAGE.
7. NEW CONSTRUCTION: SPRINKLER HEAD SPACING SHALL BE DESIGNED FOR HEAD-TO-HEAD COVERAGE OR HEADS SHALL BE SPACED AS PER MANUFACTURER'S RECOMMENDATIONS AND ADJUSTED FOR PREVAILING WNDS. THE SYSTEM SHALL BE DESIGNED SO THAT IRRIGATION IS NOT APPLIED TO VEHICULAR TRAFFIC LANES, OTHER PAVEMENT OR STRUCTURES.
8. VERIFY ALL EXISTING AUTOMATIC IRRIGATION SYSTEMS ARE EQUIPPED WITH A CONTROLLER CAPABLE OF DUAL OR MULTIPLE PROGRAMMING. CONTROLLERS SHALL HAVE MULTIPLE-CYCLE START CAPACITY AND A FLEXIBLE CALENDAR PROGRAM, INCLUDING THE CAPACITY OF BEING SET TO IRRIGATE EVERY FIVE DAYS. ALL AUTOMATIC IRRIGATION SYSTEMS SHALL BE EQUIPPED WITH A RAIN SENSOR SHUT-OFF DEVICE.
9. IRRIGATION CONSTRUCTION PLANS SHALL INCLUDE A WATER BUDGET. A LAMINATED COPY OF THE WATER BUDGET SHALL BE PERMANENTLY INSTALLED INSIDE THE IRRIGATION CONTROLLER DOOR. WATER BUDGET SHALL INCLUDE:
   A. CHART CONTAINING ZONE NUMBER, PRECIPITATION RATE AND GPM.
   B. LOCATION OF EMERGENCY IRRIGATION SYSTEM SHUT OFF VALVE.
10. AN AUTOMATIC IRRIGATION SYSTEM WILL BE INSTALLED, TREE IRRIGATION SHALL NOT SHARE THE SAME ZONE, INCLUDING VALVES AND CIRCUITS, AS SHRUBS AND PLANTS DUE TO DIFFERENT WATERING REQUIREMENTS. A MINIMUM OF ONE (1) BUBBLER SHALL BE PROVIDED FOR ALL NEWLY PLANTED TREES. TREES LARGER THAN 4 INCHES IN CALIPER SHALL HAVE TWO (2) BUBBLERS. BUBBLERS SHALL BE LOCATED 2 FEET FROM THE TREE TRUNK.
11. PROVIDE THE OWNER (END USER) WITH A COPY OF ALL WARRANTEES, PRODUCT MANUALS AND AN AS-BUILT DRAWING IN PDF FORMAT OF THE IRRIGATION SYSTEM ON CD AND TWO (2) FULL SIZED HARD COPIES FOR THEIR FILES.

NOTE TO G.C.
ALL FILL PLACED ON THE SITE SHALL RESPECT ALL EXISTING TREES BY ASSURING THAT NO SOIL OR MULCH HAS COVERED UP THE ROOT FLARE OF THE TREES.

THE PLANS PRESENTED HERE COMPLY WITH THE LANDSCAPE AND TREE ORDINANCE.

THERE SHALL BE NO UNSCREENED OUTDOOR STORAGE ON SITE. ALL OUTDOOR STORAGE AND/ OR EQUIPMENT YARDS SHALL BE WITHIN THE BOUNDARY OF A MASONRY SCREEN WALL.

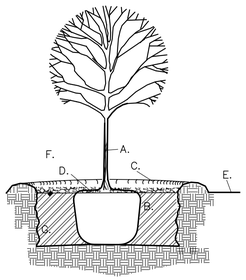
SHEET:
L-1.0
1 OF (2) L SHEETS

All drawings and written material appearing herein constitute original and unpublished work of the architect and may not be duplicated, used or disclosed without written consent of architect.

The Texas Board of Architectural Examiners, PO Box 12337 Austin, Texas has jurisdiction over complaints regarding the profession of persons registered as architects in Texas under the Architects registration law, Article 249b VCTS. Phone 512.305.9000



GENERAL NOTES:

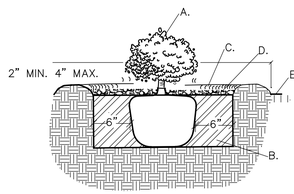
1. ADD OR REMOVE TOPSOIL AS NECESSARY TO ACCOUNT FOR THE INCLUSION OF SOIL AMENDMENTS. SOIL MIXTURE, REF SPECS.
2. TRIANGULARLY SPACE ALL GROUNDCOVERS AT SPACING SHOWN ON PLANS.
3. SAVE MULCHING OF PLANTING BED UNTIL NEAR FINAL ACCEPTANCE.

CONSTRUCTION NOTES:

A. SHRUB – PER PLAN REMOVE ALL LABELS
B. GROUNDCOVER – PER PLAN
C. 3" MIN. CEDAR MULCH. SLOPE FROM HARDSCAPE TO 1" ABOVE HARDSCAPE
D. PLANTING MIX AS SPECIFIED
E. REMOVE CONTAINER PRUNE ANY CIRCLING ROOT
E. FLATWORK OR PAVING WHERE APPLICABLE.

1 PLANTING BED DETAIL N.T.S.

GENERAL NOTES:



1. STABILIZE SOIL BELOW ROOT BALL PRIOR TO PLANTING TO PREVENT TREE FROM SETTLING.
2. TOP OF ROOTBALL SHALL BE 1" TO 2" ABOVE FINISH GRADE
3. ALL WIRE ROPE AND SYNTHETIC MATERIALS SHALL BE REMOVED COMPLETELY FROM ROOTBALL AND REMOVE TOP 1/3 OF BURLAP.

CONSTRUCTION NOTES:

A. TREE.
B. LOOSEN NATIVE BACKFILL
C. WATER RETENTION BASIN.
D. 3" DEPTH OF CEDAR MULCH. REFER TO NOTE REGARDING ROOT FLARE.
E. FINISH GRADE.
*F. NO TREE STAKING REQUIRED.
G. DIG AN "UGLY" HOLE. REFER TO NOTES.

* FOR HIGH WIND LOCATIONS OR IN AREAS WHERE THE GRADE SLOPES EXCEEDS 3:1. FOR LOCATIONS IN MEDIAN SEE BELOW ALIGN IN MEDIANS PARALLEL TO CURB. INSTALL IN FIRM GROUND. SEE STANDARD MEDIAN DETAILS SD-36.

2 ISOLATED TREE PLANTING N.T.S.

GENERAL NOTES:

1. THE OUTSIDE DIAMETER OF THE WATER RETENTION BASIN SHALL BE TWICE THE DIAMETER OF THE SHRUB PLANTING PIT.

CONSTRUCTION NOTES:

A. SHRUB.
B. PLANTING SOIL MIXTURE (REF SPECIFICATIONS)
C. WATER RETENTION BASIN.
D. 3" DEPTH OF CEDAR MULCH.
E. FINISH GRADE.

3 ISOLATED SHRUB PLANINTG N.T.S.

All drawings and written material appearing herein constitute original and unpublished work of the architect and may not be duplicated, used or disclosed without written consent of architect.

GENERAL LANDSCAPE NOTES:

1. CONTRACTOR SHALL PROVIDE ALL MATERIALS AND LABOR NEEDED FOR INSTALLATION OF PROPOSED LANDSCAPE MATERIAL. THIS DESIGN AND FUTURE MAINTENANCE SHALL BE CARRIED OUT WITH AND MAINTAINED BY CURRENT ORGANIC GARDENING STANDARDS.

2. ALL PLANT MATERIAL SHALL CONFORM TO THE STANDARDS AS PUBLISHED BY THE CURRENT AMERICAN ASSOCIATION OF NURSERYMEN. ALL PLANT MATERIAL SHALL BE PURCHASED FROM SOURCES AS CLOSE TO THE CONSTRUCTION SIGHT AS POSSIBLE. ALL MUCH SHALL BE PURCHASED FROM LOCAL YARDS THAT USE ONLY NATIVE "ORGANIC" MATERIAL. ALL COMPOST AND MULCH SHALL BE CERTIFIED ORGANIC AND FREE OF CHEMICALS AND PESTICIDES. UNLESS OTHERWISE NOTED ON THE PLANS.

3. ANY CONFLICTS OF TREE LOCATION AND UTILITY LINES, UNDERGROUND OR OVERHEAD SHALL BE BROUGHT TO THE ATTENTION OF THE ARCHITECT AS SOON AS POSSIBLE.

4. NO PLANTING SHALL TAKE PLACE BEFORE FINISHED GRADING HAS BEEN FINISHED AND BED LAYOUTS HAVE BEEN APPROVED BY THE ARCHITECT.

5. THE ARCHITECT AND OR OWNER RESERVES THE RIGHT TO REFUSE ANY PLANT MATERIAL DUE TO UNSATISFACTORY CONDITIONS OF THE PLANT MATERIAL. ALL PLANTS SHALL BE CONTAINER GROWN OR B & B. ALL PLASTIC CONTAINERS SHALL BE REMOVED PRIOR TO PLANTING. ALL PLASTIC CONTAINERS SHALL BE RECYCLED LOCALLY.

6. ALL PLANT MATERIAL SHALL BE WATERED THOROUGHLY TWICE WITHIN THE FIRST 24 HOURS OF PLANTING, THEN ONCE PER WEEK FOR THE FIRST GROWING SEASON.

7. THE CONTRACTOR SHALL PROVIDE A ONE (1) YEAR WARRANTEE ON ALL LANDSCAPE MATERIAL FROM THE DATE OF THE C.O.

8. THE PLANTED AREA SHALL BE IRRIGATED OR SPRINKLERED IN A MANNER THAT WILL NOT ERODE THE TOPSOIL, BUT WILL SUFFICIENTLY SOAK THE SOIL TO A DEPTH OF 6 INCHES. THE IRRIGATION SHALL OCCUR AT FIVE DAY INTERVALS DURING THE FIRST TWO MONTHS. RAINFALL OCCURRENCES OF ½ INCH OR GREATER SHALL POSTPONE THE WATERING SCHEDULE ONE CYCLE.

9. RAISE ALL BEDS 6" TO ALLOW FOR PROPER DRAINAGE. PREPARE ALL BEDS BY ADDING 6" OF ORGANIC COMPOST, ORGANIC FERTILIZER (2 LBS/100 S.F.). ROTO-TILL TO A DEPTH OF 8". TOP DRESS WITH A 3" MINIMUM LAYER OF NATIVE CEDAR MULCH AFTER PLANTING.

10. LAWN PLANTING: REMOVE ALL SURFACE ROCKS OVER 2"ROUND. LIGHTLY TILL OR SCARIFY THE TOP SOIL TO A DEPTH OF 2". LIGHTLY RAKE AND GENTLY SLOPE TO PREVENT PONDING OF WATER. FOR SOD: TURF SHALL BE ROLLED AFTER INSTALLATION AND FERTILIZED WITH AN ORGANIC FERTILIZER SUITABLE FOR NEW,Y PLANTED TURF APPLIED PER THE MANUFACTURER'S RECOMMENDATION. FOR HYDRO-MULCH: PRIOR TO HYDRO-MULCHING SPRAY TOP SOIL WITH "AGISPON" OR "MEDIAN" AND TREAT THE SEED WITH ONE OF THE SAME PRODUCTS. APPLY SEED TO THE GROUND FIRST THEN HYDRO-MULCH OVER THE SEED. AFTER ALL AREAS OF GRASS HAVE BEEN ESTABLISHED APPLY A LIGHT APPLICATION OF ORGANIC FERTILIZER AT THE TIME OF THE FIRST MOWING. PULL ALL VISIBLE WEEDS AT THAT TIME AS WELL.

11. ASIAN JASMINE, IVY OR OTHER NON TURF GROUND COVER: PLANT 12" O.C. MAXIMUM.

12. SHRUBS: SPACE LARGE SHRUBS SUCH AS BURFORD HOLLIES, COTONEASTER AND INDIAN HAWTHORN @ 4'6"-5'0" O.C. SPACE MEDIUM SHRUBS SUCH AS DWARF BURFORD HOLLIES AT 3'0"-3'6" O.C. SPACE SMALL SHRUBS SUCH AS DWARF YAUPON, ORNAMENTAL GRASSES AND NANDINA @ 2' O.C. SPACE ROSES AT 3'6"-4'0" O.C. THE SHRUBS INDICATED ON THE PLANS ARE FOR INFORMATIONAL PURPOSES AND ARE NOT NECESSARILY INTENDED TO BE AN EXACT COUNT OF THE NUMBER OF SHRUBS. THE GENERAL CONTRACTOR SHALL SUPPLY AS MANY SHRUBS AS REQUIRED TO FILL THE AREA DESIGNATED ON THE PLANS SPACED ACCORDING TO THE SPECIFICATIONS.

13. SHRUB PLANTING: THE HOLE SHALL BE DUG THE EXACT DEPTH OF THE HEIGHT ROOT BALL. THE TOP OF THE SHRUB' ROOT SYSTEM SHALL BE EQUAL TO OR SLIGHTLY ABOVE THE FINISHED GRADE. THE G.C. SHALL INSPECT THE ROOT BALL AND DETERMINE THAT SOIL HAS NOT BEEN ADDED ABOVE TO THE TOP OF THE ROOT SYSTEM. IF THIS HAS OCCURRED REMOVE THE SOIL. THE HOLE SHALL BE TWICE THE DIAMETER OF THE CONTAINER. DO NOT LEAVE ANY "SLICK" SIDES OF THE HOLE, THE HOLE SHOULD BE JAGGED ROUGH, MAKE AN "UGLY" HOLE. BACK FILL WITH THE EXISTING SOIL. DO NOT ADD AMENDMENTS TO THE BACK FILL SOIL. MULCH AFTER PLANTING WITH 3" MINIMUM OF SHREDDED NATIVE CEDAR MULCH.

14. TREE PLANTING: THE HOLE SHALL BE DUG THE EXACT DEPTH OF THE HEIGHT ROOT BALL. THE TREES TRUNK FLARE SHALL BE ABOVE THE FINISHED GRADE. THE G.C. SHALL INSPECT THE ROOT BALL AND DETERMINE THAT THE SOIL HAS NOT BEEN ADDED ABOVE THE TRUNK FLARE. IF THIS HAS OCCURRED REMOVE THE SOIL TO EXPOSE THE FLARE BEING MINDFUL OF THE TREES ROOT SYSTEM. THE HOLE SHALL BE TWICE THE DIAMETER OF THE ROOT BALL. DO NOT LEAVE ANY "SLICK" SIDES OF THE HOLE, THE HOLE SHOULD BE JAGGED ROUGH, MAKE AN "UGLY" HOLE. BACK FILL WITH THE EXISTING SOIL. DO NOT ADD AMENDMENTS TO THE BACK FILL SOIL. LEAVE BURLAP ON THE BALL HOWEVER LOOSEN THE BURLAP FROM TRUNK AND REMOVE ANY NYLON PLASTIC COVERING OR STRING OF WIRE MESH. DO NOT WRAP OR STAKE THE PLANT. DO NOT OVER PRUNE. MULCH THE TOP OF THE BALL AFTER PLANTING WITH 3" MINIMUM OF SHREDDED NATIVE CEDAR MULCH. IN GRASS AREAS EXTEND MULCH TO DRIP LINE IF PLANT MINIMUM.

15. ALL WORK SHALL BE PERFORMED ACCORDING TO THE CITY LANDSCAPE ORDINACE(S) AND GUIDELINES.

16. THE CONTRACTOR SHALL PROVIDE THE OWNER WITH A MAINTENANCE SCHEDULE FOR AN ORGANIC PROGRAM TO INCLUDE FERTILIZATION, PRUNING, MOWING, MULCHING, ETC. UPON COMPLETION OF WORK.

17. ALL REQUIRED LANDSCAPE AREAS SHALL BE PERMANENTLY MAINTAINED AND SHALL BE IRRIGATED WITH AN AUTOMATIC CONVENTIONAL IRRIGATION SYSTEM EQUIPPED WITH RAIN AND FREEZE SENSOR CONTROLS. THE IRRIGATION SYSTEM SHALL BE INSTALLED BY A LICENSED IRRIGATOR OR MASTER PLUMBER.

18. THE CONTRACTOR SHALL REMOVE ALL TRASH AND DEBRIS CREATED DURING CONSTRUCTION I.E. BURLAP, CONTAINERS, PLANT TAGS, ETC. ALL PLASTIC CONTAINERS SHALL BE RECYCLED LOCALLY.

19. THE OWNER SHALL CONTINUOUSLY MAINTAIN THE REQUIRED LANDSCAPING IN ACCORDANCE WITH THE LANDSCAPE CODE OF THE LOCAL MUNICIPALITY AND IN ACCORDANCE WITH THE LATEST ORGANIC GARDENING PRACTICES.

20. ALL OUT DOOR MECHANICAL EQUIPMENT SUCH AS COMPRESSORS, UTILITY HUTS, TRANSFORMERS OR OTHER BUILDING SERVICE EQUIPMENT IS REQUIRED TO BE COMPLETELY SCREENED FROM VIEW ON AL SIDES USING A VEGETATIVE SCREEN. IF MECHANICAL EQUIPMENT IS TO BE LOCATED ON THE ROOF OF THE BUILDING IT IS REQUIRED TO BE SCREENED FROM VIEW. REFER TO THE ARCHITECTURAL DRAWINGS FOR MORE INFORMATION FOR LOCATIONS OF ROOFTOP MECHANICAL EQUIPMENT.

Lumark

DESCRIPTION

The Lumark Wal-Pak wall luminaire provides traditional architectural style with high performance energy efficient illumination. Rugged die-cast aluminum construction, stainless steel hardware along with a sealed and gasketed optical compartment make the Wal-Pak virtually impenetrable to contaminants. IP66 Rated. Three available lamp sources including patented energy efficient LED, pulse start metal halide and high pressure sodium. UL/cUL wet location listed. The Wal-Pak wall luminaire is ideal for pathway illumination, building entrances, vehicle ramps, schools, tunnels, stairways and loading docks.

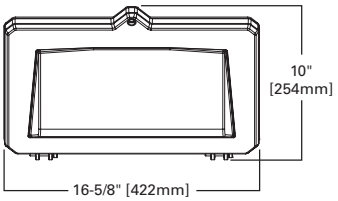
SPECIFICATION FEATURES

Housing
Rugged one-piece die-cast aluminum housing and hinged, removable die-cast aluminum door. One-piece silicone gasket seals the optical chamber. UL 1598 wet location listed and IP66 ingress protection rated.

Electrical
Ballasts, LED driver and related electrical components are hard mounted to the die-cast housing for optimal heat sinking and operating efficiency. Wiring is extended through a silicone gasket at the back of the housing. Three 1/2" threaded conduit entry points allow for thru-branch wiring. LED thermal management system incorporates both conduction and natural convection to transfer heat rapidly away from LED source. Integral LED electronic driver incorporates internal fusing designed to withstand a 6kV surge test and is Class 2 rated for 120-277V with an operating temperature of -40° to 55°C. Wal-Pak LED systems maintain greater than 93% of the initial light output after 72,000 hours of operation. UL listed HID high power factor ballasts are Class H insulation rated (high pressure sodium: 150, 250, 400W [-40°C / -40°F]. High efficiency HID ballasts are available in 120, 208, 240, 277, 347 and 480V.

Optical
Highly reflective anodized aluminum reflectors provide high efficiency illumination. Optical assemblies include impact resistant borosilicate refractive glass, and full cutoff IESNA compliant configurations. Patented, solid state LED luminaires are thermally optimized with three lumen packages. HID models are offered in horizontal medium or mogul-based metal halide [MP] or high pressure sodium [HP] lamps.

Door Assembly
Single point, captive stainless steel hardware secures the removable hinged door allowing for ease of installation and maintenance. Door assembly is hinged at the bottom for easy removal, installation and re-lamping.



Finish
Finished in five-stage super TGIC polyester powder coat paint, 2.5 mil nominal thickness for superior protection against fade and wear. Standard color is bronze. Additional colors available in white, grey, bronze, black, dark platinum and graphite metallic. Consult your lighting representitive at Eaton for a complete selection of standard colors.

NOTES:
1. DesignLights Consortium Qualified and classified for both DLC Standard and DLC Premium, refer to www.designlights.org for details.
2. Fixture color is standard bronze unless optional color is specified.
3. Small housing offered for 175W and below for LED models. Large housing for 250W-400W. Clear glass is standard for full cutoff door types except for LD. LD full cutoff door is standard with Solite® glass.
4. LED packages based on 70 CRI / 5000K package at 25°C ambient. Pulse start metal halide 175W and below are medium-base, all others are mogul-base.
5. See voltage chart for descriptions. 5T available in 400W MH models only. 90°C Rated wire required for thru-branch wiring for units 175W and lower. 105°C Rated wire required for thru-branch wiring for units 200W and higher. Thru-branch wiring is rated for 40°C for LD and 175W and below. Higher wattage thru-branch wiring is rated for use in 25°C ambient operating environments.
6. Not available with thru-branch wiring. LED will be supplied with integral step down transformer.
7. Available with 70-150W MP lamps. All electronic ballasts are universal 120-277V.
8. Not all options can be combined. Only one emergency or battery back-up option available within the fixture. LD models utilize EMLED-CD options only for battery back-up.
9. Q or EM not available with LD or E electronic ballast. Minimum 70W for HID wattages.
10. EMLED-CD available with B models only. For use in 25°C ambient operating temperature environments. Specify 120V or 277V. EMLED-CD minimum -20°C/-4°F. Battery pack is a UL recognized component.

COOPER LIGHTING - LUMARK®

DESCRIPTION

The Lumark Canopy Light combines lasting durability and excellent photometrics. CSA certified for wet locations. The Canopy Light mounts quickly to a variety of surfaces, making it ideal for covered walkways, convenience store/service station canopies and enclosed parking areas.

Catalog #		Type
Project		
Comments		Date
Prepared by		

SPECIFICATION FEATURES

Construction
HOUSING: CL housing is constructed of heavy-gauge aluminum. CS housing is constructed of durable steel welded construction. GASKET: Fully gasketed door frame seals out contaminants. DOOR: Hinged door provides easy access for maintenance and relamping and door can be removed to simplify installation.

Electrical
BALLAST: High power factor ballast with class H insulation. CL construction is listed for 40°C ambient environments. CS construction is listed for 25°C ambient environments.

Optics
Optical system features an injection-molded prismatic lens with internal prisms and white highly reflective internal surface.

Finish
Weather- and abrasion-resistant white polyester powder coat finish.

Lumark

DESCRIPTION

The Tribute Pole and Fixture Combo features all you need for easy selection and installation for poles and fixtures. Including the quality die-cast Tribute area luminaire and 8" arm complete with lamp, square straight steel pole and necessary anchorage. Available in single and dual fixture combinations. The Tribute and Pole Combo is ideal for parking areas, access roadways and other general off street area/site lighting applications.

Catalog #		**Type**
Project		
Comments		**Date**
Prepared by		

SPECIFICATION FEATURES

Construction
Rugged, one-piece, die-cast aluminum housing and door frame finished in dark bronze polyester powder paint. One-piece silicone gasket protects the optical chamber from performance degrading contaminants. One stainless spring latch and two stainless steel hinges allow tool-less opening and removal of door frame. U.L. Listed and CSA certified for wet locations.

Pole
Shaft is one-piece construction ASTM A500 grade "B" steel, shot blasted and finished in dark bronze polyester powder coat. Anchor base is fabricated from ASTM grade steel. ASTM A366 steel full base cover is provided to enclose base plate and anchor bolts. Anchor bolts are per ASTM A576 with two nuts, two flat washers, and one lock washer. Hardware and threaded portion of bolt are hot dip galvanized. 3" hook for 3/4" bolt. 4" hook for 1" bolt.

Electrical
Ballast and related electrical componentry are hard mounted to die-cast housing for optimal heat transfer and operating efficiency.

Reflector
Hydroformed anodized aluminum eflector offered in an adjustable Type II/III or a Type IV distribution. Optical modules are field rotatable in 90° increments and offered standard with medium or mogul-base lampholders.

Mounting
Extruded 8" aluminum arm features internal bolt guides for easy positioning of fixture during installation to pole.

Finish
Housing and arm finished in a five-stage premium TGIC bronze polyester powder coat paint.

SECTION 04 70 00

MANUFACTURED MASONRY VENEER

GENERAL NOTES TO SPECIFIER:

THIS SPECIFICATION SECTION HAS BEEN PREPARED TO ASSIST DESIGN PROFESSIONALS IN THE PREPARATION OF PROJECT OR OFFICE MASTER SPECIFICATIONS. IT FOLLOWS GUIDELINES ESTABLISHED BY THE CONSTRUCTION SPECIFICATIONS INSTITUTE (CSI), AND THEREFORE MAY BE USED WITH MOST MASTER SPECIFICATION SYSTEMS WITH MINOR EDITING.

EDIT CAREFULLY TO SUIT PROJECT REQUIREMENTS. MODIFY AS NECESSARY AND DELETE ITEMS THAT ARE NOT APPLICABLE. VERIFY THAT REFERENCED SECTION NUMBERS AND TITLES ARE CORRECT. (NUMBERS AND TITLES REFERENCED ARE BASED ON *MASTERFORMAT*, 2004 EDITION).

THIS SECTION ASSUMES THE PROJECT MANUAL WILL CONTAIN COMPLETE DIVISION 1 DOCUMENTS INCLUDING SECTIONS 01 25 13–PRODUCT SUBSTITUTION PROCEDURES, 01 33 00–SUBMITTAL PROCEDURES, 01 62 00–PRODUCT OPTIONS, 01 66 00–PRODUCT STORAGE AND HANDLING REQUIREMENTS, 01 74 00–CLEANING AND WASTE MANAGEMENT, 01 77 00–CLOSEOUT PROCEDURES, AND 01 78 00–CLOSEOUT SUBMITTALS. CLOSE COORDINATION WITH DIVISION 1 SECTIONS IS REQUIRED. IF THE PROJECT MANUAL DOES NOT CONTAIN THESE SECTIONS, ADDITIONAL INFORMATION SHOULD BE INCLUDED UNDER THE APPROPRIATE ARTICLES.

THIS IS A CLOSED PROPRIETARY SPECIFICATION.

NOTES TO THE SPECIFIER ARE CONTAINED IN BOXES AND SHOULD BE DELETED FROM FINAL COPY.

GREY HIGHLIGHTED TEXT AND NOTES RELATE TO LEED® PROJECTS AND CAN BE DELETED IF THE PROJECT IS NOT INTENDED TO ATTAIN LEED® CERTIFICATION. CREDIT REFERENCES REFER TO LEED® FOR NEW CONSTRUCTION, V2.2.

OPTIONAL ITEMS REQUIRING SELECTION BY THE SPECIFIER ARE ENCLOSED WITHIN BRACKETS, E.G. [35] [40] [45]. MAKE APPROPRIATE SELECTIONS AND DELETE OTHERS.

ITEMS REQUIRING ADDITIONAL INFORMATION ARE UNDERLINED BLANK SPACES, E.G. _____ .

OPTIONAL PARAGRAPHS REQUIRING SELECTION OF ONE OF THE OPTIONS ARE SEPARATED BY "OR" WITHIN A BOX, E.G.

OR

BOLD FACE TEXT IDENTIFIES OPTIONAL PARAGRAPHS AND FEATURES THAT MAY BE INCLUDED OR DELETED DEPENDING ON PROJECT REQUIREMENTS. CONVERT THE BOLD FACE TEXT TO REGULAR TEXT WHEN INCLUDING THESE PARAGRAPHS OR FEATURES. WHEN DELETING A PARAGRAPH, BE CERTAIN THAT ALL SUBPARAGRAPHS ARE ALSO DELETED.

REVISE FOOTER TO SUIT PROJECT/OFFICE REQUIREMENTS.

ELECTRONIC VERSIONS OF THIS SPECIFICATION UTILIZE AUTOMATIC PARAGRAPH NUMBERING.

PART 1 - GENERAL

1.01 SUMMARY

A. Section Includes: Portland cement based manufactured [stone] [and] [brick] veneer and trim.

C148-0608 ©2008 ELDORADO STONE LLC

1.03 SUBMITTALS

A. Reference Section 01 33 00–Submittal Procedures; submit following items:
1. Product Data.
2. Samples:
a. Standard sample board consisting of small-scale pieces of veneer units showing full range of textures and colors.
b. Full range of mortar colors.
3. Verification Samples: Following initial sample selection submit "laid-up" sample board using the selected stone and mortar materials and showing the full range of colors expected in the finished Work; minimum sample size: 3 by 3 feet (1 by 1 m).
4. Quality Assurance/Control Submittals:
a. Qualifications:
1) Proof of manufacturer qualifications.
2) Proof of installer qualifications.
b. Regulatory Requirements: Evaluation reports.
c. Veneer manufacturer's installation instructions.
d. Installation instructions for other materials.
5. LEED® Submittals:
a. Credit MR 5.1, 5.2 Regional Materials:
1) Provide distance between Project site and extraction site.
2) Provide distance between Project site and final manufacturing location.

MANUFACTURED MASONRY CAN ALSO CONTRIBUTE TO CREDIT EA 1 FOR OPTIMIZING ENERGY PERFORMANCE AND CREDITS ID 1.1-1.4 FOR INNOVATION IN DESIGN, HOWEVER, NO SPECIFIC SUBMITTALS ARE REQUIRED IN THIS SECTION.

B. Closeout Submittals: Reference Section 01 78 00–Closeout Submittals; submit following items:
1. Maintenance Instructions.
2. Special Warranties.

1.04 QUALITY ASSURANCE

A. Qualifications:
1. Manufacturer Qualifications: Licensee of Eldorado Stone, LLC.
2. Installer Qualifications: Experienced mason familiar with installation procedures for manufactured veneer.

B. Certifications:

1. **ICC Evaluation Service – Evaluation Report ER-3568.**
2. **NES Evaluation Service- Evaluation Report NER 602.**
3. **LARR – Research Report RR25589**
4. **HUD – Material Release Number 910**
5. **UL – Classification listing in Building Materials Directory: UL 546T (F8002).**

C. Field Sample:

COMPLETE FOLLOWING SUBPARAGRAPH TO INCLUDE DESIRED DETAILS SUCH AS CORNERS, TRIM, MORTAR JOINTS AND JOINT DETAILS ABUTTING OTHER MATERIALS.

1. Prepare [4 by 4 foot (1200 by 1200 mm)] [__ by __ foot (____ by ____ mm)] sample at a location on the structure as selected by the Architect. Use approved selection sample materials and colors. Include _____.
2. Obtain Architect's approval.
3. Protect and retain sample as a basis for approval of completed manufactured stone work. Approved sample may be incorporated into completed work.

1.05 DELIVERY, STORAGE, AND HANDLING

A. Reference Section 01 66 00–Product Storage and Handling Requirements.

B. Follow manufacturer's instructions.

1.06 PROJECT/SITE CONDITIONS

A. Environmental Requirements: When air temperature is 40 degrees F (4.5 degrees C) or below, consult local building code for Cold-Weather Construction requirements.

1.07 WARRANTY

A. Special Warranty: Manufacturer's standard warranty coverage against defects in materials when installed in accordance with manufacturer's installation instructions.

PART 2 - PRODUCTS

2.01 MANUFACTURER

A. Eldorado Stone, LLC
1370 Grand Ave., Bldg. B
San Marcos, CA 92078

Tel: (800) 925-1491
Fax: (760) 736-8890
E-Mail: customerservice@eldoradostone.com
Website: www.eldoradostone.com

INSERT NAME, ADDRESS AND CONTACT INFORMATION OF LOCAL DISTRIBUTOR BELOW.

1. Manufacturer's Distributor:

IF PROJECT UTILIZES ONLY ONE TYPE OF STONE, INSERT THE NAME OF THE PRODUCT IN THE BLANK SPACE BELOW AND DELETE THE SECOND SELECTION. IF MORE THAN ONE TYPE OF STONE IS REQUIRED, DELETE THE FIRST SELECTION AND VERIFY THAT STONE TYPES ARE NOTED ON DRAWINGS.

B. Product: [_____ veneer] [Veneer types as shown on Drawings].

C. Substitutions: None Allowed.

2.02 MATERIALS

A. Stone Veneer:

SELECT DESIRED PROFILE FROM THE ELDORADO STONE WEBSITE PRODUCTS DROP DOWN MENU; CLICK ON "STONE VENEER" THEN CLICK ON THE APPROPRIATE REGION. INSERT PROFILE BELOW.

1. Profile: _____. Include matching corner pieces.

SELECT DESIRED STONE ACCENTS FROM THE ELDORADO STONE WEBSITE PRODUCTS DROP DOWN MENU; CLICK ON "STONE ACCENTS." INSERT DESIRED ACCENTS BELOW AND INSERT TEXTURE IF REQUIRED. VERIFY THAT DIMENSIONS, IF REQUIRED, ARE SHOWN ON THE DRAWINGS.

2. Stone Accents: _____.
   a. Color: [Buckskin] [Earth] [Smoke] [Taupe] [As shown on Drawings].
   b. Texture: _____.

B. Brick Veneer:

SELECT DESIRED PROFILE AND COLOR FROM THE ELDORADO STONE WEBSITE ELDORADO BRICK; CLICK ON "BRICK," THEN CLICK ON "VIEW ALL BRICK PROFILES." INSERT PROFILE AND COLOR BELOW.

1. Profile: _____. Include matching corner pieces.
   a. Color: _____.

SELECT DESIRED BRICK ACCENTS FROM THE ELDORADO STONE WEBSITE DROP ELDORADO BRICK; CLICK ON "ACCENTS." INSERT DESIRED ACCENTS BELOW. CLICK ON "CHOOSE ACCENTS' COLORS" TO SELECT COLOR. VERIFY THAT DIMENSIONS, IF REQUIRED, ARE SHOWN ON THE DRAWINGS.

2. Brick Accents: _____.
   a. Color: [Match brick] [_____] [As shown on Drawings].

C. Veneer Unit properties: Precast veneer units consisting of portland cement, lightweight aggregates, and mineral oxide pigments.
   1. Compressive Strength: ASTM C 192 and ASTM C 39, 5 sample average: greater than 1,800 psi (12.4MPa).
   2. Shear Bond: ASTM C 482: 50 psi (345kPa).
   3. Water Absorption: UBC Standard 15-5: Less than 22 percent.
   4. Freeze-Thaw Test: ASTM C 67: Less than 3 percent weight loss and no disintegration.
   5. Thermal Resistance: ASTM C 177: 0.473 at 1.387 inches thick

EDIT MATERIALS PER BUILDING CODE REQUIREMENTS. DELETE FROM THIS SECTION IF SPECIFIED IN OTHER SECTIONS.

D. Moisture Barrier: [ASTM D 226, Type 1, No. 15, non-perforated asphalt-saturated felt paper] [UBC Standard 14-1, kraft waterproof building paper].

E. Reinforcing: [ASTM C 847, 2.5lb/yd^2 (1.4kg/m^2) galvanized expanded metal lath] [ASTM C 847, 3.4lb (1.8 kg/m^2) galvanized 3/8" rib lath] [ASTM C 1032, 18 gauge (1.3 mm) woven wire mesh] complying with code agency requirements for the type of substrate over which stone veneer is installed.

F. Mortar:
   1. Cement: Any cement complying with ASTM C 270.

2. Lime: ASTM C 207.
3. Sand: ASTM C 144, natural or manufactured sand.
4. Color Pigment: ASTM C 979, mineral oxide pigments.
5. Water: Potable.
6. Pre-Packaged Latex-Portland Cement Mortar: ANSI A118.4.

G. Bonding Agent: Exterior integral bonding agent meeting [ASTM C 932] [ASTM C 1059 Type II]

H. Sealer: Water based silane or siloxane masonry sealer, [clear] [semi-gloss].

2.03 MORTAR MIXES

A. Standard Installation (Grouted Joints):
1. Mix mortar in accordance with [ASTM C 270, Type N or S] [or] [Eldorado Stone, LLC mortar preparation instructions].
a. Add color pigment in grout joint mortar in accordance with pigment manufacturer's instructions.

OR

A. Jointless/Dry-Stacked Installation:
1. Mix mortar in accordance with Eldorado Stone Corp. ["Suggested Mix"] [or] ["Alternate Mix"] mortar preparation instructions.
a. Add color pigment in accordance with pigment manufacturer's instructions.

PART 3 - EXECUTION

3.01 EXAMINATION

A. Examine substrates upon which work will be installed.

B. Coordinate with responsible entity to perform corrective work on unsatisfactory substrates.

C. Commencement of work by installer is acceptance of substrate.

3.02 PREPARATION

A. Protection: Protect adjacent work from contact with mortar.

B. Surface Preparation: Prepare substrate in accordance with manufacturer's installation instructions for the type of substrate being covered.

3.03 INSTALLATION

A. Install and clean stone in accordance with manufacturer's installation instructions for Standard Installation (Grouted Joint) or Jointless/Dry-Stacked installation as specified above.

B. Apply sealer in accordance with sealer manufacturer's installation instructions.

3.04 FIELD QUALITY CONTROL

A. Manufacturer's Field Services: Manufacturer's Field Service Representative shall make [one] [two] [_____] periodic site visits for installation consultation and inspection as requested by Owner.

3.05 CLEANING

A. Reference Section 01 74 00–Cleaning and Waste Management.

B. Remove protective coverings from adjacent work.

C. Cleaning Veneer Units:
   1. Wash with soft bristle brush and water/granulated detergent solution.
   2. Rinse immediately with clean water.

D. Removing Effloresence:
   1. Allow veener to dry thoroughly.
   2. Scrub with soft bristle brush and clean water.
   3. Rinse immediately with clean water; allow to dry
   4. If efflorescence is still visible, repeat above procedure using a solution of 1 part household vinegar and 5 parts water.
   5. Rinse immediately with clean water.

END OF SECTION[1]

Revised: February 12, 2007

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 05/10/2016

APPLICANT: Eric Morff of *Cole*

AGENDA ITEM: **SP2016-009;** *Panera Bread*

SUMMARY:

Discuss and consider a request by Eric Morff of Cole on behalf of the owner 2804 Ridge, LLC for the approval of site plan for a *restaurant with drive-through* (*i.e. Panera Bread*) on a 0.93-acre parcel of land identified as Lot 2 of the Road Runner Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, addressed as 2804 S. Goliad Street, and take any action necessary.

PURPOSE:

The applicant is requesting approval of a Site Plan for the purpose of constructing a 4,300 sq. ft. restaurant with a drive-through facility (i.e. Panera Bread). The 0.93-acre parcel of land is zoned Commercial (C) District, is within the IH-30 Overlay (IH-30 OV) and the Scenic Overlay (SOV) Districts, and is generally located on the southwest corner of IH-30 and Ridge Road and is addressed as 2804 S. Goliad Street.

DENSITY AND DIMENSIONAL REQUIREMENTS:

The proposed restaurant with a drive-through facility (i.e. Panera Bread) is a use permitted by right. The site will incorporate a total of 51 parking spaces and has two (2) points of access available from the IH-30 frontage road and Ridge Road by way of a 26-ft Firelane and Public Access Easement.

The submitted site plan, building elevations, landscape plan, treescape plan, and photometric plan are in substantial compliance and conform to the technical requirements contained within the Unified Development Code (UDC), IH-30 Overlay (IH-30 OV) and Scenic Overlay (SOV) Districts, with the exception of the conditions as listed in the Recommendations section of this report.

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*One (1) Acre*	*0.93-Acres; Lot of Record*
Minimum Lot frontage	*200-Feet*[1]	*x>200-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*x>100-Feet; In Conformance*
Minimum Front Yard Setback	*25-Feet*	*x>25-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*[2]	*x>10-Feet; In Conformance*
Minimum Side Yard Setback	*10-Feet*[3]	*x>10-Feet; In Conformance*
Maximum Building Height	*60-Ft w/o SUP*	*22' 0"; In Conformance*
Max Building/Lot Coverage	*60%*	*~10.5%; In Conformance*
Minimum Masonry Requirement	*90%*	*>90%; In Conformance*
Floor Area Ratio	*4:1*	*x<4:1; In Conformance*
Minimum Number of Parking Spaces	*43*	*51 Provided; In Conformance*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*	*x>20%; Cultured Stone*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Landscaping Percentage	*15%*	*x>15%; In Conformance*
Maximum Impervious Coverage	*85 to 90%*	*<67%; In Conformance*

NOTES:
1. Minimum site frontage when adjacent to IH-30 .
2. Without fire retardant wall, or alley: ten feet, or as required by building and/or fire codes.
3. a. Without fire retardant wall: ten feet, or as required by building and/or fire codes, b. With fire retardant wall: zero feet.

VARIANCES AND EXCEPTIONS REQUESTS:

The applicant is requesting variances to the *Unified Development Code* (UDC) for the sections outlined below. As a note, a variance request to the UDC requires passage of a simple majority vote by the City Council for approval; however, a variance to the *IH-30 OV* and the *SOV Districts* requires passage by a ¾ majority vote of those City Council members present. The requests are as follows:

a) *Article V, Section 4.1 General Commercial District Standards* – A variance to allow for not meeting the Building Articulation requirements for vertical articulation as established in *Art. V, Sec. 4.1, C.1.b.* of the Unified Development Code *(UDC).*
[Simple Majority Vote]

b) *Article V, Section 6.1 General Overlay District Standards* – A variance to allow for not meeting the Pitched Roof standards for buildings less than 6,000 sq. ft. in area as established in *Section 6.6, C.2* of the *IH-30 OV District* and *Section 6.8, D.2*. of the *SOV* District of *Art. V,* of the Unified Development Code (*UDC*).
[¾ Majority Vote]

Also to consider and based on the applicant's submittal, staff has identified the following exception for the Planning and Zoning Commission to consider:

1) Architectural Standards:

A) *Masonry Requirements.* According to Section 6.6, C.1.a, IH-30 Overlay *(IH-30 OV)* and Section 6.8, D.1.a, Scenic Overlay *(SOV)* Districts, of Article V, *District Development Standards*, of the Unified Development Code (UDC) each exterior wall shall consist of 90 percent masonry materials, excluding doors and windows, excluding cast stone and cultured stone, on walls which are visible from a public street or open space, including a minimum of 20 percent natural or quarried stone. The applicant is requesting to use cultured stone instead of natural/quarried stone. Staff has been provided a material sample and specifications that will be presented to the Architectural Review Board (ARB) for their recommendation.

The Planning and Zoning Commission may consider the use of high quality manufactured or cultured stone if the following standards of manufacturing and warranty apply to the product;

i. That the manufacturing molds should be made from actual stones and each piece should complement each other having the right shape, texture, size, and detail of natural stone;

ii. That the overtones of color should be integrated into the stone during the molding process, while the base color of the stone is blended entirely throughout;

iii. That highly skilled artisans should be utilized to hand paint each piece in order to give each stone depth and variation of color;

iv. That the use of the highest quality synthetic minerals oxides should be used to infuse the surface with rich, authentic tones; and

v. That the manufactured stone product shall have a minimum warranty of 75 years.

The cultured stone that the applicant is proposing does not meet the minimum warranty requirement; however, the stone provided by the applicant does carry a 50-year warranty. Additionally, this brand of stone (not the style) has been utilized in other parts of the city. With this being said, the approval of an exception to use cultured stone is a discretionary decision for the Planning and Zoning Commission. Staff will provide a sample at the meeting for the Planning and Zoning Commission to review.

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:

On April 26, 2016, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. General discussion concerning the agenda item took place between the board members and city staff. The board was generally pleased with the project and did not request any changes; however, the board did request to see color elevations and/or a color rendering. The ARB will provide a recommendation to the Planning and Zoning Commission during the next scheduled meeting to be held on May 10, 2016.

RECOMMENDATIONS:

The site plan submitted by the applicant meets all the technical criteria stipulated by the UDC, and IH-30 OV and SOV Districts. Should the Planning and Zoning Commission choose to approve the applicant's request, then the following conditions of approval should be adopted with this case:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

(4/19/2016 3:22 PM AW)
Show distances from edges of driveways to the next driveway edge up and downstream
Need to show existing driveways
Need to show drainage/detention easement
Parking adjacent to the building to be 20'x9'
The non-adjacent 90 degree parking is to have a "clear" two foot overhang and it can't be on the adjacent property
Need off-site cross access easement to allow for driveway and dumpster
All concrete to be steel reinforced
Remove one of the angled parking (see markup)
The existing water line shown on the plan is a 1" not an 8". An 8" water line extension will be required to serve the fire coverage/fire hydrant(s) and services.
The dumpster will require a drain for the runoff to drain to the grease trap.
Need to add a note that the dimensions are to face of curbEngineering Comments on plans.

Discuss and consider a request by Eric Morff of Cole on behalf of the owner 2804 Ridge, LLC for the approval of site plan for a restaurant with drive-through (i.e. Panera Bread) on a 0.93-acre parcel of land identified as Lot 2 of the Road Runner Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) & Scenic Overlay (SOV) Districts, addressed as 2804 S. Goliad Street, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, May 3, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. Label site plan documents with "Case No. SP2016-009" at the lower right corner of each plan.
4. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department. The sign plan submitted with this package is considered to be NOT ACCEPTED and therefore is not a part of the approval process for this Site Plan.

Variances to the IH-30 Overlay (IH-30 OV) & Scenic Overlay District Required (per submittal):

1. Variance request to allow for a roof design that does not meet the required pitched roof standard of the IH-30 OV and SOV District standards.

** Variances to the IH-30 OV & SOV requires a 3/4 majority vote of council for approval **

Please address the followingPlanning Comments for each plan submitted:

Site Plan:
1. Re-label Firelane,...etc. as "26-ft Firelane & Public AccessEasement."
2. Dumpster enclosure walls are to be a minimum of 8-ft in height with materials to match the primary structure with an opaque gate and a self latching mechanism. Provide detail and label as such.

Landscape Plan:
1. Ridge Road is within the SOV and requires four 4" canopy trees and three 4ft height accent trees per 100 linear feet of frontage. Provide a minimum of 3 canopy and 4 accent trees. Also, correct 'Street Frontage Landscapeing' table to reflect the corrections.
2. The OV districts require one row of trees at the perimeter behind the building.

Treescape Plan:
1. The trees to be removed are indicated as cedar trees that are less than 11 inches in diameter; therefore, no tree mitigation is requried for this submittal.

Photometric Plan:
1. The lighting pole standards are not to exceed a maximum overall height of 20-ft (includes pole, base, fixtures, etc.) per the SOV standards. Provide detail indicatig as such.
2. All lighting sources are to be directed down and sheilded with a full cut-off or partial cut-off source and a maximum 1 inch reveal in order to control glare. The cut sheets provide indicate flood lamps and exposed bulbs (wall packs), which are not an approved lighting source. Provide new lighting sources meeting the City's standards.
3. The lighting levels along property lines are not to exceed 0.2-FC in order to reduce glare. The lighting levels are not represented/extended to the property line(s). Resubmit photometric plan in compliance with standards and indicate all property lines.

Building Elevations:
1. All mechanical equipment requires screening from rights-of-way and adjacent properties. Provide detail of screeing mechanism to be used. If RTU's, dash-in on elevations.
2. Variance to the picthed roof standard as listed above.
3. Identify the CMU product on the South Exterior Elevation - Custom CMU heavy block required (e.g. split face, burnished, sand blasted).
4. The building elevations are required to be reviewed by the Architectural Review Board prior to approval.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Architecural Review Board - Discussion: April 26, 2016 (5:00 p.m.)

Planning - Discussion: April 26, 2016 (6:00 p.m.)
Planning - Action: May 10, 2016 (6:00 p.m.)

City Council - Action: May 16, 2016 (6:00 p.m.) [FOR VARIANCE REQUESTS ONLY]

PLANNING	David Gonzales	5/4/2016	5/11/2016	5/4/2016		COMMENTS	See comments

The following staff comments are to be addressed and resubmitted no later than Tuesday, May 17, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent/final review by staff:

Please address the following Planning Comments for each revised plan submitted:

Site Plan:
1. Dumpster enclosure walls are to be a minimum of 8-ft in height with materials to match the primary structure with an opaque gate and a self latching mechanism. Provide detail and label as such. ARCHITECTURAL PLAN NOT PROVIDED AS INDICATED.

Photometric Plan:
1. The cut sheets provided indicate flood lamps, which are not an approved lighting source. Where are the flood lamps located and how are they oriented?

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

2. The lighting levels along all property lines are not to exceed 0.2-FC. Please re-review levels exceeding this standard and resubmit photometric plan in compliance with the Unified Development Code requirement.

Building Elevations:
1. All mechanical equipment requires screening from rights-of-way and adjacent properties. Provide detail of screeing mechanism to be used. If RTU's, dash-in on elevations. ARCHITECTURAL PLAN NOT PROVIDED AS INDICATED.
2. Identify the CMU product on the South Exterior Elevation - Custom CMU heavy block required (e.g. split face, burnished, sand blasted). ARCHITECTURAL PLAN NOT PROVIDED AS INDICATED.

Please make these revisions and corrections, and provide any additional information that has been requested. Revisions for this case will be due to staff by May 17, 2016 no later than 3:00 p.m.; however, staff encourages the applicant to submit revisions as soon as possible. All outstanding items will be listed and considered for conditional approval should the request be approved by the Planning and Zoning Commission and the City Council.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case,please feel free to contact David Gonzales with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Architecural Review Board - Discussion: May 10, 2016 (5:00 p.m.)

Planning - Action: May 10, 2016 (6:00 p.m.)

City Council - Action: May 16, 2016 (6:00 p.m.) [FOR VARIANCE REQUESTS ONLY]

GENERAL NOTES:

1. ALL EXISTING TREE LOCATIONS ARE APPROXIMATE AND SHALL BE FIELD VERIFIED BEFORE WORK BEGINS.
2. LANDSCAPE CONTRACTOR TO VERIFY LOCATION OF UNDERGROUND UTILITIES BEFORE BEGINNING WORK.
3. ALL PLANT MATERIAL SHALL BE OF NO. 1 GRADE, FREE FROM PLANT DISEASE, OF TYPICAL GROWTH FOR THE SPECIES, HAVE A HEALTHY, NORMAL ROOT SYSTEM, ROUNDED BRANCHING PATTERN, AND SHALL CONFORM TO THE CODE OF STANDARDS SET FORTH IN THE CURRENT ADDITION OF THE AMERICAN STANDARD FOR NURSERY STOCK.
4. ALL LANDSCAPE SUBSTITUTIONS MUST BE APPROVED BY THE LANDSCAPE ARCHITECT.
5. FORMAL LINES AND GROUPINGS OF A SPECIES OF TREE, SHRUB, GROUNDCOVER SHALL BE MATCHED FOR SIZE, FORM, AND COLOR.
6. ALL BACKFILL IN PLANTING BEDS AND TREE PITS SHALL BE BACKFILLED WITH PLANTING SOIL.
7. ALL TREES OUTSIDE OF PLANT BEDS SHALL BE PLANTED WITH A MULCH RING.
8. ALL LANDSCAPING SHALL BE INSTALLED AS SHOWN ON THE APPROVED PLAN.
9. AT PLANTING, TREE TRUNKS MUST BE STRAIGHT WITH MINIMAL DOGLEGS.
10. PLANTS SHALL BE PROTECTED DURING DELIVERY TO PREVENT DESICCATION OF LEAVES.
11. TREES AND SHRUBS SHOULD BE PLANTED ON DAY OF DELIVERY. IF THIS IS NOT POSSIBLE, THE CONTRACTOR SHALL PROTECT UNPLANTED PLANTS BY KEEPING THEM IN SHADE, WATERED AND PROTECTED WITH SOIL, MULCH OR OTHER ACCEPTABLE MATERIAL.
12. TREES AND SHRUBS SHALL NOT REMAIN UNPLANTED FOR MORE THAN TWO WEEKS.
13. IF PLANTING IN AREAS THAT HAVE BEEN PREVIOUSLY COMPACTED, THE SOIL SHALL BE PROPERLY PREPARED (TILLED AND AMENDED AS NEEDED BASED ON SOIL SAMPLES) TO A DEPTH OF 1 FOOT PRIOR TO INSTALLATION OF LANDSCAPE MATERIAL. SOIL WITHIN INDIVIDUAL PLANTING HOLES SHALL NOT BE AMENDED.
14. WIRE BASKETS, BURLAP WRAPPINGS, ROPE, TWINE OR ANY SIMILAR SHIPPING MATERIALS SHALL BE REMOVED BEFORE PLANTING.
15. ALL DISTURBED AREAS TO BE SODDED UNLESS OTHERWISE NOTED ON PLANS.
16. A SPADE CUT EDGE SHALL BE CREATED AT ALL LOCATIONS WHERE PLANTING BEDS ARE ADJACENT TO GRASS AREAS.
17. SEE CIVIL PLANS FOR TYPE AND LOCATION OF EROSION CONTROL MATERIALS.
18. DECORATIVE GRAVEL SHALL MATCH COLOR OF BUILDING UNLESS OTHERWISE NOTED BY OWNER.
19. THERE ARE NO PROTECTED TREES ONSITE.
20. TREES MUST BE PLANTED AT LEAST 5' FROM WATER,SEWER AND STORM SEWER LINES.
21. IRRIGATION WILL MEET REQUIREMENTS OF UDC.

EcoForm

Project:	PANERA BREAD
Location:	ROCKWELL
Cat.No:	ECF-3-215LA-641A-NW-IS
Type:	S1
Qty:	
Notes:	

EcoForm combines economy with performance in an LED area luminaire. Capable of delivering up to 20,000 lumens or more in a compact, low profile housing, EcoForm offers a new level of customer value. EcoForm features an innovative retrofit arm kit, simplifying site conversions to LED by eliminating the need to drill additional holes in most existing poles. Integral control systems, including motion response and wireless controls are available for further energy savings during off peak hours.

1. Available in 120V–277V Voltages only (UNV, 120, 208, 240 & 277).
2. MR50 and APD-MRO luminaires require one motion sensor per pole, ordered separately. See page 2 for Accessories. Available in 120V or 277V only.
3. ECF-MRI requires outboarded sensor when used with Terminal Block (TB) Option.
4. Contact factory for lead times on warm white.
5. LLC2/LLC3/LLC4 Wireless Controls are not configurable with PC/PCB/PCR5/PCR7 Options. See page 7-8 for more info.
6. Not configurable with Type 5 (5) Optics.
7. Not configurable with 120-277V (UNV) Voltage. Voltage must be specified.
8. Not configurable with 480V (480) Voltage.
9. Not configurable with 3@120 (3@120) Mounting.
10. No adaptor required for 4" round poles. RPAs provided with Black Paint standard.
11. Works with 3-pin or 5-pin NEMA photocell/dimming device.
12. Works with 3-pin or 5-pin NEMA photocell/dimming device and auxiliary connections are not connected (for future use only).
13. If ordered with DIM, APD, MRI, MR50, APD-MRI, APD-MRO, dimming will not be connected to NEMA receptacle.

ECF EcoForm

Site & Area

EcoForm Accessories (order separately)

FS1R-100

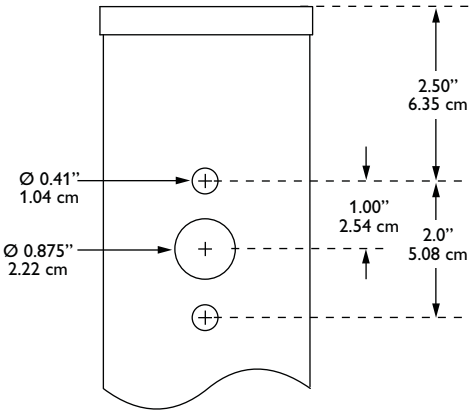
MR hand held programmer

For use with 'MRI' motion response when field programming is required. If desired, only one is needed per job.

MS-A-120V

120V Input Area Motion Sensor

For MR50 (Motion Response) or APD-MRO (Automatic Profile Dimming with Motion Response Override)



MS-A-277V

277V Input Area Motion Sensor

For MR50 (Motion Response) or APD-MRO (Automatic Profile Dimming with Motion Response Override)

Note: Motion Sensors are ordered separately, with one (1) motion sensor required per pole location for MR50 or APD-MRO luminaires. See Luminaire Configuration Information on page 5 for more details. Area motion sensor color is Arctic White. MRI and APD-MRI luminaires include an integral motion sensor.

Luminaire Configuration Information

ECF

Philips Gardco EcoForm LED standard luminaire providing constant wattage and constant light output when power to the luminaire is energized.

ECF-DIM

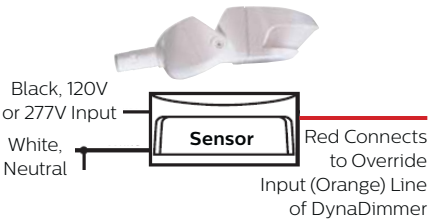
Philips Gardco EcoForm LED luminaire provided with 0-10V dimming for connection to a control system provided by others.

ECF-APD

Philips Gardco EcoForm LED luminaire with Automatic Profile Dimming. Luminaire is provided with a Philips DynaDimmer module, programmed to go to 50% power, 50% light output two (2) hours prior to night time mid-point and remain at 50% for six (6) hours after night time mid-point. Mid-point is continuously recalculated by the Philips DynaDimmer module based on the average mid-point of the last two full night cycles. Short duration cycles, and power interruptions are ignored and do not affect the determination of mid-point.

ECF-APD is available in 120V–277V input only.

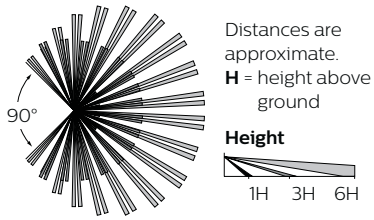
ECF-APD Dimming Profile:



100%	2 hours	6 hours	100%
	50%	50%	
Power On		Mid Point	Power Off

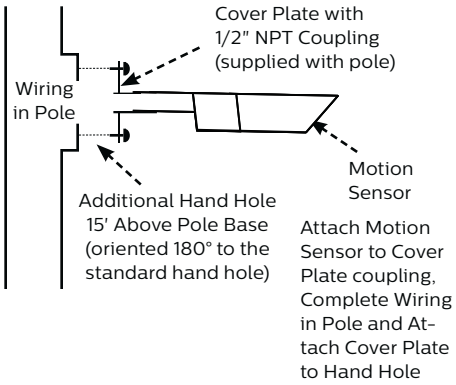
ECF-MR50

Philips Gardco EcoForm LED luminaire with motion response, providing a 50% power reduction on low and a commensurate reduction in light output. The power and light output reduction is accomplished utilizing the Philips DynaDimmer module, programmed for a constant 50% power. Power supplied by the motion sensor connected to the override line on the DynaDimmer takes the luminaire to high setting, 100% power and light output, when motion is detected. The luminaire remains on high until no motion is detected for the motion sensor duration period, after which the luminaire returns to low. Duration period is factory set at 15 minutes, and is field adjustable from 5 minutes up to 15 minutes.



ECF-MR50 is available in 120V–277V input only to the luminaire. Motion sensors require single voltage 120V or 277V input.

The Area PIR motion sensor is the WattStopper EW-200-120-W (120V Input - MSA-120V) or the WattStopper EW-200-277-W (277V Input - MSA-277V.) One motion sensor per pole is required and is ordered separately. Area sensors require single voltage 120V or 277V input.



The area motion detector provides coverage equal to up to 6 times the sensor height above ground, 270° from the front-center of the sensor.

Area PIR Motion Sensor Coverage Pattern:

Motion response requires that the pole include an additional hand hole 15 feet above the pole base, normally oriented 180° to the standard hand hole. For Philips Gardco poles, order the pole with the Motion Sensor Mounting (MSM) option which includes the hand hole and a special hand hole cover plate for the sensor with a 1/2" NPT receptacle centered on the hand hole cover plate into which the motion sensor mounts. Once the motion sensor is connected to the hand hole cover plate, then wiring connections are completed in the pole. The plate (complete with motion sensor attached and wired) is then mounted to the hand hole. If poles are supplied by others, the customer is responsible for providing suitable mounting accommodations for the motion sensor in the pole.

Mounting to a Philips Gardco Pole:

ECF-APD-MRO

Philips Gardco EcoForm LED luminaire with Automatic Profile Dimming, with Motion Response Override. The ECF-APD-MRO combines the benefits of both automatic profile dimming and motion response, using the Philips DynaDimmer module. The luminaire will dim to 50% power, 50% light output, per the dimming profile shown for the ECF-APD. If motion is detected during the time that the luminaire is operating at 50%, the luminaire returns to 100% power and light output. The luminaire remains on high until no motion is detected for the duration period, after which the luminaire returns to low. Duration period is factory set at 15 minutes, and is field adjustable from 5 minutes up to 15 minutes.

Notes:

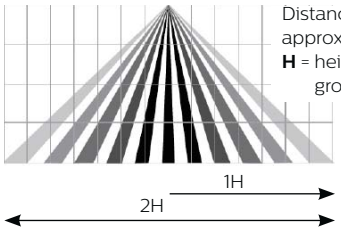
ECF-APD-MRO is available in 120V through 277V input only to luminaire. The motion sensor requires either 120V or 277V input to the motion sensor.

The ECF-APD-MRO has the same pole requirements and utilizes the same motion sensors as the ECF-MR50. The motion sensor mounts and wires identically as well. The ECF-APD-MRO utilizes the identical dimming profile as shown for the ECF-APD.

By combining the benefits of automatic profile dimming and motion response, the ECF-APD-MRO assures maximum energy savings, and insures that adequate light is present if motion is detected.

All motion sensors utilized consume 0.0 watts in the off state.

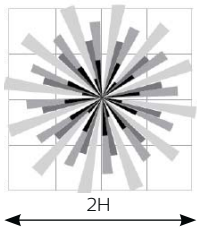
Luminaire Configuration Information (Continued)



ECF-MRI

Luminaires with Motion Response include a LED driver and an integral programmable motion sensor. The motion sensor is set to a constant 50%. When motion is detected, the luminaire goes to 100%. The luminaire remains on high until no motion is detected for the motion sensor duration period, after which the luminaire returns to low. Duration period is factory set at 5 minutes. Available with 120V or 277V only.

Luminaires include a passive infrared (PIR) motion sensor, WattStopper® FSP-211 equipped with an FSP-L3 lens, capable of detecting motion within 20 feet of the sensor, 180° around the luminaire, when placed at a 20 foot mounting height, or mounted on a wall. Available in 120V or 277V input only. Motion sensor off state power is 0.0 watts.



The approximate motion sensor coverage pattern is as shown below.

Side Coverage Pattern

Distances are approximate.
H = height above ground

Top Coverage Pattern

ECF-APD-MRI

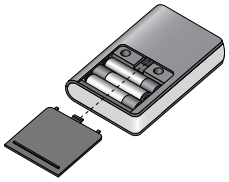
Luminaires with Automatic Profile Dimming and Motion Response Override combine the benefits of both automatic profile dimming and motion response. APD-MRI luminaires utilize Philips DynaDimmer. The luminaire will dim to 50% power, 50% light output, per the dimming profile shown for APD luminaires (see page 4). If motion is detected during the time that the luminaire is operating at 50%, the luminaire goes to 100% power and light output. The luminaire remains on high until no motion is detected for the duration period, after which the luminaire returns to low. Duration period is factory set at 5 minutes.

APD-MRI luminaires are available with 120V or 277V input voltages only.

APD-MRI luminaires use the identical motion sensor as MRI luminaires. See motion sensor details for ECF-MRI.

FS1R-100 Wireless Remote Programming Tool

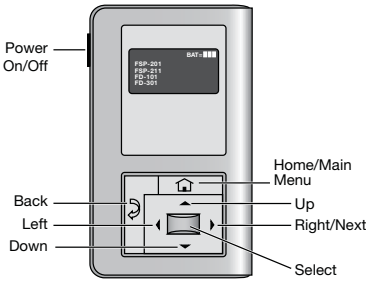
The FS1R-100 Remote Programming Tool accessory permits adjustment of ECF-MRI and ECF-APD-MRI sensor settings, including duration and dimming level on low, without the need to connect any wires to the luminaire.



The FS1R-100 Wireless IR Programming Tool is a handheld tool for setup and testing of WattStopper FSP-211. It provides wireless access to the FSP-211 sensors for setup and parameter changes.

The FS1R-100 display shows menus and prompts to lead you through each process. The navigation pad provides a familiar way to navigate through the customization fields.

Within a certain mounting height of the sensor, the FS1R-100 allows modification of the system without requiring ladders or tools simply with a touch of a few buttons.



The FS1R-100 IR transceiver allows bi-directional communication between the FSP-211 and the FS1R-100 programming tool . Simple menu screens let you see the current status of the system and make changes. It can change FSP-211 sensor parameters such as high/low mode, sensitivity, time delay, cut off and more. With the FS1R-100 you can also establish and store FSP-211 parameter profiles.

The FS1R-100 operates on three standard 1.5V AAA Alkaline batteries or three rechargeable AAA NiMH batteries. The battery status displays in the upper right corner of the display. Three bars next to BAT= indicates a full battery charge. A warning appears on the display when the battery level falls below a minimum acceptable level. To conserve battery power, the FS1R-100 automatically shuts off 10 minutes after the last key press.

You navigate from one field to another using (up) or (down) arrow keys. The active field is indicated by flashing (alternates between yellow text on black background and black text on yellow background.)

Once active, use the Select button to move to a menu or function within the active field. Value fields are used to adjust parameter settings. They are shown in “less-than/greater-than” symbols: <value>. Once active, change them using (left) and (right) arrow keys. In general the up key increments and the down key decrements a value. Selections wrap-around if you continue to press the key beyond maximum or minimum values. Moving away from the value field overwrites the original value. The Home button takes you to the main menu. The Back button can be thought of as an undo function. It takes you back one screen. Changes that were in process prior to pressing the key are lost.More information on the FS1R-100 Remote Programming Tool is available at wattstopper.com.

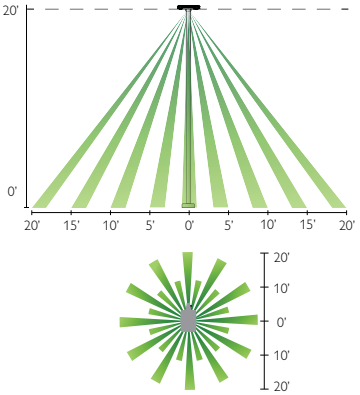
Luminaire Configuration Information – EcoForm with LimeLight

ECF-LLC2

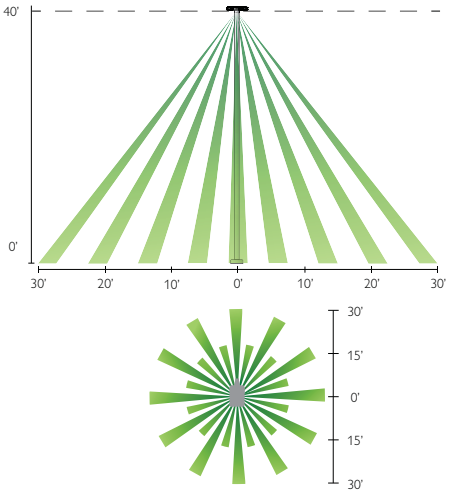
EcoForm with Limelight wireless technology



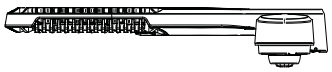
Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #2 lens for 8-15' mounting heights.

ECF-LLC3

EcoForm with Limelight wireless technology



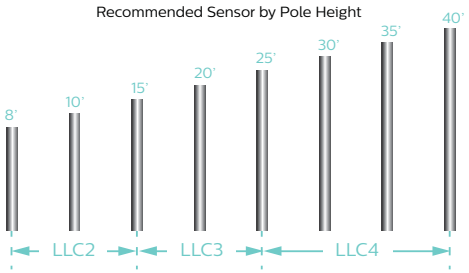
Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #3 lens for 15-25' mounting heights.



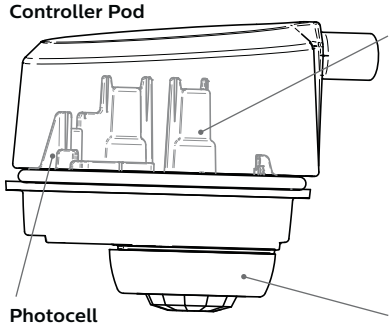
ECF-LLC4

EcoForm with Limelight wireless technology

Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #4 lens for 25-40' mounting heights.



Luminaire Configuration Information – EcoForm with LimeLight



ECF-LLC(#)

With this configuration, the controller pod is mounted to the luminaire arm. One controller is required per luminaire. There are three different motion sensor configurations available. Each one corresponds to the desired mounting height that for your specific application. See motion response detection ranges below.

Controller Pod

Photocell

- Ambient light photocell on every wireless radio that averages the light levels of up to 5 controllers for an accurate reading and optimal light harvesting activity.
- Reports ambient light readings to 1500 Fc.

Wireless Radio

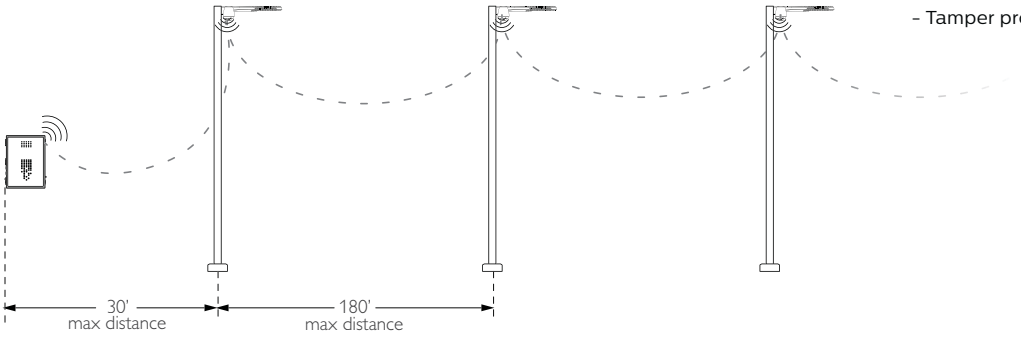
- 1.8 Watts max (no load draw)
- Operating voltage 102-277V RMS
- Communicates using the ZigBee protocol
- Carries out dimming commands from gateway
- Reports internal PCB temperature
- Transmission Systems Operating within the band 2400-2483.5Mhz. IEEE 802.15.4
- ROHS Compliant

Motion Response

- Three different lens configurations
- Detects motion through passive InfraRed sensing technology
- Connects directly to radio through modular jack
- Three different mounting heights and detecion ranges available

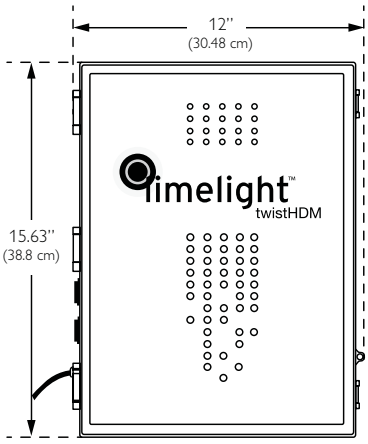
Luminaire Configuration Information – EcoForm with LimeLight (Continued)

Gateway



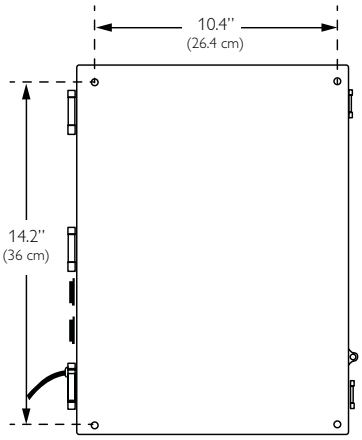
Overview: One gateway is included with the wireless controls system. The gateway opens up communication with the wireless radios installed with the EcoForm luminaires (or pole), allowing you to control your fixtures straight from the web. One LimeLight gateway can communicate with up to 800 fixtures. Typically one unit is required per parking lot.

Installation: Gateway has 4 blind threaded holes on the back side that accept 10-32 screws. Mount spacing is 10.41" across and 14.19" vertical.



Requirements: The gateway must be mounted in a secure on-site location. The gateway requires 120V. Distance of gateway to the first radio varies upon application; contact factory. Strong internet connection required.

Specifications:



- High density RF Mesh coordinator
- Ethernet or wireless internet connection to LimeLight server
- Proprietor of software "rules of operation"
- Watertight Ethernet connections
- Highly protected, long life ac/dc power supply
- Single board, ARM compliant 520Mhz Intel computer.
- Operating Temperature -20°C to 55°C
- Tamper proof housing

ECF EcoForm

Site & Area

Specifications

Housing

One piece die cast aluminum housing with integral arm and separate,self retained hinged, one piece die cast door frame.

IP Rating

LED light engine rated IP66.

Vibration Resistance

EcoForm with Standard Arm carries a 3G vibration rating that conforms to standards set forth by ANSI C136.31. Testing includes vibration to 3G acceleration in three axes, all performed on the same luminaire.

Electrical

Driver efficiency (>90% standard). 120-480V available (restrictions apply). Open/short circuit protection. Optional 0-10V dimming to 10% power. RoHS compliant. Surge protector standard. 10KA per ANSI/IEEE C62.41.2.

LED Board and Array

32, 48, or 64 LEDs. Color temperatures: 3000K, 4000K, 5700K +/- 250K. Minimum CRI of 70. Aluminum metal clad board. RoHS compliant.

LED Thermal Management

The housing design allows the one piece housing to provide excellent thermal management critical to long LED system life.

Energy Saving Benefits

System efficacy up to 95 lms/W with significant energy savings over Pulse Start Metal Halide luminaires. Optional control options provide added energy savings during unoccupied periods.

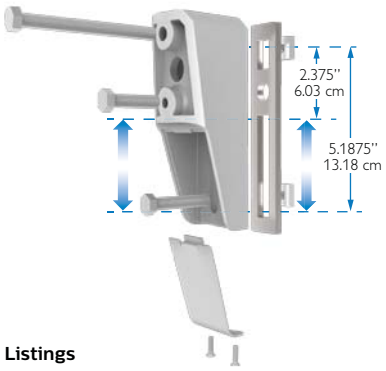
Wireless Controls

The LimeLight wireless Controls System includes: gateway, controller pod (with wireless radio, motion response, and photocell), and commissioning/training. LimeLight is an intelligent web-based system that operates through a high density mesh (HDM) wireless technology. Wireless radios with motion response and photocell sensors are integrated with PureForm luminaires, and enable the fixtures to communicate via the ZigBee protocol. The gateway is a mini computer that connects to the internet, and is located in a secure location. The central LimeLight database channels communication to and from the gateway, allowing data to be viewed or managed through the web-based graphical user interface (GUI). See LimeLight pages for details and technical information.

Motion Sensors

ECF-MR50, ECF-APD-MRO, ECF-MRI, ECF-APD-MRI luminaires may be specified for additional energy savings during unoccupied periods. See pages 4-6 for complete details.

Optical Systems



Type 2, 3, 4, and 5 distributions available. Internal Shield option mounts to LED optics and is available with Type 2, 3, and 4 distributions to control backlight.

Mounting

Standard luminaire arm mounts to 4" round poles. Square pole adapter included with every luminaire. Round Pole Adapter (RPA) required for 3-3.9" poles.

Retrofit Arm Mount

EcoForm features an innovative retrofit arm kit. When specified with the retrofit arm (RAM) option, EcoForm seamlessly simplifies site conversions to LED by eliminating the need for additional pole drilling on most existing poles. RAM will be boxed separately.

Listings

ETL/cETL listed to the UL 1598 standard, suitable for Wet Locations. Suitable for use in ambients from -40° to 40°C (-40° to 104°F). The quality systems of this facility have been registered by UL to the ISO 9001 series standards. All EcoForm luminaires equipped with NW and CW are DesignLights Consortium® qualified.

Finish

Each standard color luminaire receives a fade and abrasion resistant, electrostatically applied, thermally cured, triglycidal isocyanurate (TGIC) textured polyester powdercoat finish. Standard colors include bronze (BRP), black (BLP), white (WP), and natural aluminum (NP). Consult factory for specs on optional or custom colors.

Warranty

EcoForm luminaires feature a 5 year limited warranty. Philips Gardco LED luminaires with LED arrays feature a 5 year limited warranty covering the LED arrays. LED Drivers also carry a 5 year limited warranty. Motion sensors are covered by warranty for 5 years by the motion sensor manufacturer.

LED Performance

Predicted Lumen Depreciation Data[1]				
Ambient Temperature °C	**Driver** (mA)	**Calculated L_{70} Hours[1,2]**	**L_{70} Per TM-21[2,3]**	**Lumen Maintenance % @ 60,000 hours**
Up to 40 °C	Up to 1050 mA	> 350,000 hours	> 60,000 hours	97%

1. Predicted performance derived from LED manufacturer's data and engineering design estimates, based on IESNA LM-80 methodology. Actual experience may vary due to field application conditions.
2. L70 is the predicted time when LED performance depreciates to 70% of initial lumen output.
3. Calculated per IESNA TM21-11. Published L70 hours limited to 6 times actual LED test hours.

Notes:	

EcoForm combines economy with performance in an LED area luminaire. Capable of delivering up to 20,000 lumens or more in a compact, low profile housing, EcoForm offers a new level of customer value. EcoForm features an innovative retrofit arm kit, simplifying site conversions to LED by eliminating the need to drill additional holes in most existing poles. Integral control systems, including motion response and wireless controls are available for further energy savings during off peak hours.

1. Available in 120V–277V Voltages only (UNV, 120, 208, 240 & 277).
2. MR50 and APD-MRO luminaires require one motion sensor per pole, ordered separately. See page 2 for Accessories. Available in 120V or 277V only.
3. ECF-MRI requires outboarded sensor when used with Terminal Block (TB) Option.
4. Contact factory for lead times on warm white.
5. LLC2/LLC3/LLC4 Wireless Controls are not configurable with PC/PCB/PCR5/PCR7 Options. See page 7-8 for more info.
6. Not configurable with Type 5 (5) Optics.
7. Not configurable with 120-277V (UNV) Voltage. Voltage must be specified.
8. Not configurable with 480V (480) Voltage.
9. Not configurable with 3@120 (3@120) Mounting.
10. No adaptor required for 4" round poles. RPAs provided with Black Paint standard.
11. Works with 3-pin or 5-pin NEMA photocell/dimming device.
12. Works with 3-pin or 5-pin NEMA photocell/dimming device and auxiliary connections are not connected (for future use only).
13. If ordered with DIM, APD, MRI, MR50, APD-MRI, APD-MRO, dimming will not be connected to NEMA receptacle.

ECF EcoForm

Site & Area

EcoForm Accessories (order separately)

FS1R-100

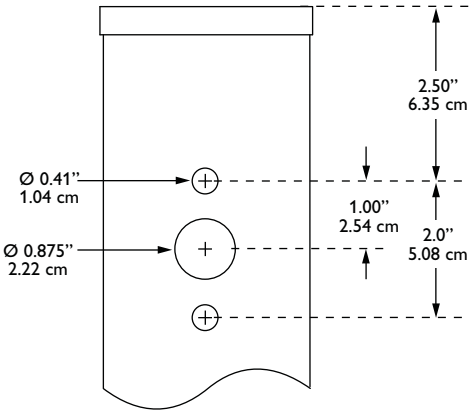
MR hand held programmer

For use with 'MRI' motion response when field programming is required. If desired, only one is needed per job.

MS-A-120V

120V Input Area Motion Sensor

For MR50 (Motion Response) or APD-MRO (Automatic Profile Dimming with Motion Response Override)



MS-A-277V

277V Input Area Motion Sensor

For MR50 (Motion Response) or APD-MRO (Automatic Profile Dimming with Motion Response Override)

Note: Motion Sensors are ordered separately, with one (1) motion sensor required per pole location for MR50 or APD-MRO luminaires. See Luminaire Configuration Information on page 5 for more details. Area motion sensor color is Arctic White. MRI and APD-MRI luminaires include an integral motion sensor.

ECF

Philips Gardco EcoForm LED standard luminaire providing constant wattage and constant light output when power to the luminaire is energized.

ECF-DIM

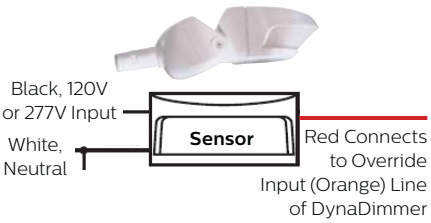
Philips Gardco EcoForm LED luminaire provided with 0-10V dimming for connection to a control system provided by others.

ECF-APD

Philips Gardco EcoForm LED luminaire with Automatic Profile Dimming. Luminaire is provided with a Philips DynaDimmer module, programmed to go to 50% power, 50% light output two (2) hours prior to night time mid-point and remain at 50% for six (6) hours after night time mid-point. Mid-point is continuously recalculated by the Philips DynaDimmer module based on the average mid-point of the last two full night cycles. Short duration cycles, and power interruptions are ignored and do not affect the determination of mid-point.

ECF-APD is available in 120V–277V input only.

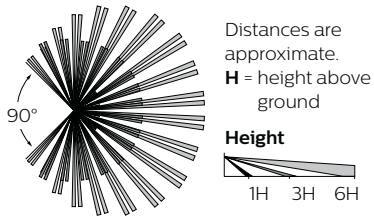
ECF-APD Dimming Profile:



100%	2 hours	6 hours	100%
	50%	50%	
Power On		Mid Point	Power Off

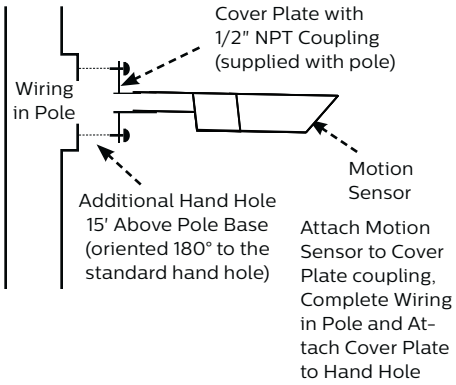
ECF-MR50

Philips Gardco EcoForm LED luminaire with motion response, providing a 50% power reduction on low and a commensurate reduction in light output. The power and light output reduction is accomplished utilizing the Philips DynaDimmer module, programmed for a constant 50% power. Power supplied by the motion sensor connected to the override line on the DynaDimmer takes the luminaire to high setting, 100% power and light output, when motion is detected. The luminaire remains on high until no motion is detected for the motion sensor duration period, after which the luminaire returns to low. Duration period is factory set at 15 minutes, and is field adjustable from 5 minutes up to 15 minutes.



ECF-MR50 is available in 120V–277V input only to the luminaire. Motion sensors require single voltage 120V or 277V input.

The Area PIR motion sensor is the WattStopper EW-200-120-W (120V Input - MSA-120V) or the WattStopper EW-200-277-W (277V Input - MSA-277V.) One motion sensor per pole is required and is ordered separately. Area sensors require single voltage 120V or 277V input.



The area motion detector provides coverage equal to up to 6 times the sensor height above ground, 270° from the front-center of the sensor.

Area PIR Motion Sensor Coverage Pattern:

Motion response requires that the pole include an additional hand hole 15 feet above the pole base, normally oriented 180° to the standard hand hole. For Philips Gardco poles, order the pole with the Motion Sensor Mounting (MSM) option which includes the hand hole and a special hand hole cover plate for the sensor with a 1/2" NPT receptacle centered on the hand hole cover plate into which the motion sensor mounts. Once the motion sensor is connected to the hand hole cover plate, then wiring connections are completed in the pole. The plate (complete with motion sensor attached and wired) is then mounted to the hand hole. If poles are supplied by others, the customer is responsible for providing suitable mounting accommodations for the motion sensor in the pole.

Mounting to a Philips Gardco Pole:

ECF-APD-MRO

Philips Gardco EcoForm LED luminaire with Automatic Profile Dimming, with Motion Response Override. The ECF-APD-MRO combines the benefits of both automatic profile dimming and motion response, using the Philips DynaDimmer module. The luminaire will dim to 50% power, 50% light output, per the dimming profile shown for the ECF-APD. If motion is detected during the time that the luminaire is operating at 50%, the luminaire returns to 100% power and light output. The luminaire remains on high until no motion is detected for the duration period, after which the luminaire returns to low. Duration period is factory set at 15 minutes, and is field adjustable from 5 minutes up to 15 minutes.

Notes:

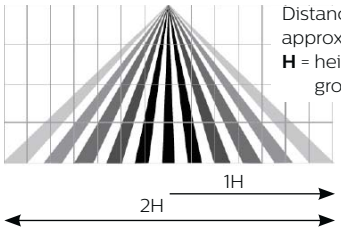
ECF-APD-MRO is available in 120V through 277V input only to luminaire. The motion sensor requires either 120V or 277V input to the motion sensor.

The ECF-APD-MRO has the same pole requirements and utilizes the same motion sensors as the ECF-MR50. The motion sensor mounts and wires identically as well. The ECF-APD-MRO utilizes the identical dimming profile as shown for the ECF-APD.

By combining the benefits of automatic profile dimming and motion response, the ECF-APD-MRO assures maximum energy savings, and insures that adequate light is present if motion is detected.

All motion sensors utilized consume 0.0 watts in the off state.

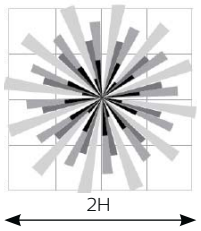
Luminaire Configuration Information (Continued)



ECF-MRI

Luminaires with Motion Response include a LED driver and an integral programmable motion sensor. The motion sensor is set to a constant 50%. When motion is detected, the luminaire goes to 100%. The luminaire remains on high until no motion is detected for the motion sensor duration period, after which the luminaire returns to low. Duration period is factory set at 5 minutes. Available with 120V or 277V only.

Luminaires include a passive infrared (PIR) motion sensor, WattStopper® FSP-211 equipped with an FSP-L3 lens, capable of detecting motion within 20 feet of the sensor, 180° around the luminaire, when placed at a 20 foot mounting height, or mounted on a wall. Available in 120V or 277V input only. Motion sensor off state power is 0.0 watts.



The approximate motion sensor coverage pattern is as shown below.

Side Coverage Pattern

Distances are approximate.
H = height above ground

Top Coverage Pattern

ECF-APD-MRI

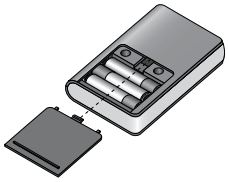
Luminaires with Automatic Profile Dimming and Motion Response Override combine the benefits of both automatic profile dimming and motion response. APD-MRI luminaires utilize Philips DynaDimmer. The luminaire will dim to 50% power, 50% light output, per the dimming profile shown for APD luminaires (see page 4). If motion is detected during the time that the luminaire is operating at 50%, the luminaire goes to 100% power and light output. The luminaire remains on high until no motion is detected for the duration period, after which the luminaire returns to low. Duration period is factory set at 5 minutes.

APD-MRI luminaires are available with 120V or 277V input voltages only.

APD-MRI luminaires use the identical motion sensor as MRI luminaires. See motion sensor details for ECF-MRI.

FS1R-100 Wireless Remote Programming Tool

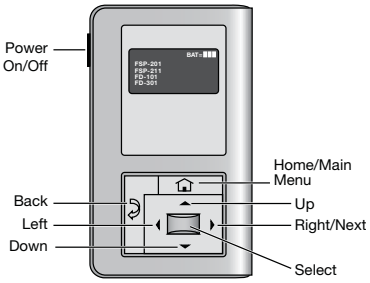
The FS1R-100 Remote Programming Tool accessory permits adjustment of ECF-MRI and ECF-APD-MRI sensor settings, including duration and dimming level on low, without the need to connect any wires to the luminaire.



The FS1R-100 Wireless IR Programming Tool is a handheld tool for setup and testing of WattStopper FSP-211. It provides wireless access to the FSP-211 sensors for setup and parameter changes.

The FS1R-100 display shows menus and prompts to lead you through each process. The navigation pad provides a familiar way to navigate through the customization fields.

Within a certain mounting height of the sensor, the FS1R-100 allows modification of the system without requiring ladders or tools simply with a touch of a few buttons.



The FS1R-100 IR transceiver allows bi-directional communication between the FSP-211 and the FS1R-100 programming tool . Simple menu screens let you see the current status of the system and make changes. It can change FSP-211 sensor parameters such as high/low mode, sensitivity, time delay, cut off and more. With the FS1R-100 you can also establish and store FSP-211 parameter profiles.

The FS1R-100 operates on three standard 1.5V AAA Alkaline batteries or three rechargeable AAA NiMH batteries. The battery status displays in the upper right corner of the display. Three bars next to BAT= indicates a full battery charge. A warning appears on the display when the battery level falls below a minimum acceptable level. To conserve battery power, the FS1R-100 automatically shuts off 10 minutes after the last key press.

You navigate from one field to another using (up) or (down) arrow keys. The active field is indicated by flashing (alternates between yellow text on black background and black text on yellow background.)

Once active, use the Select button to move to a menu or function within the active field. Value fields are used to adjust parameter settings. They are shown in “less-than/greater-than” symbols: <value>. Once active, change them using (left) and (right) arrow keys. In general the up key increments and the down key decrements a value. Selections wrap-around if you continue to press the key beyond maximum or minimum values. Moving away from the value field overwrites the original value. The Home button takes you to the main menu. The Back button can be thought of as an undo function. It takes you back one screen. Changes that were in process prior to pressing the key are lost.More information on the FS1R-100 Remote Programming Tool is available at wattstopper.com.

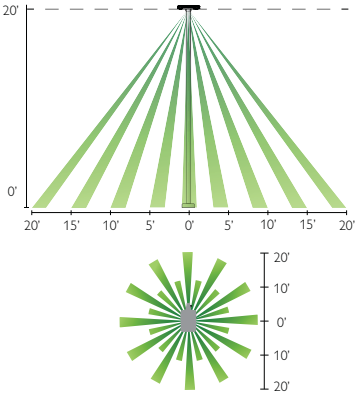
Luminaire Configuration Information – EcoForm with LimeLight

ECF-LLC2

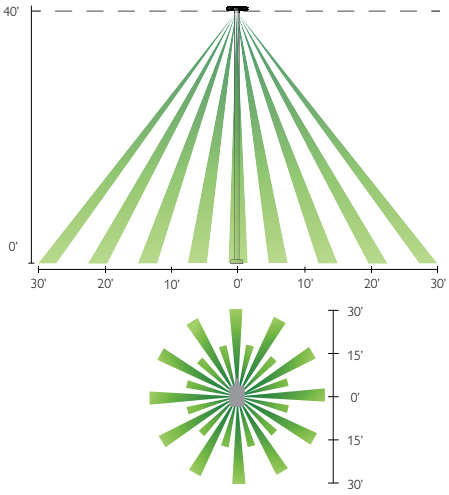
EcoForm with Limelight wireless technology



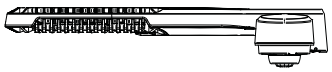
Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #2 lens for 8-15' mounting heights.

ECF-LLC3

EcoForm with Limelight wireless technology



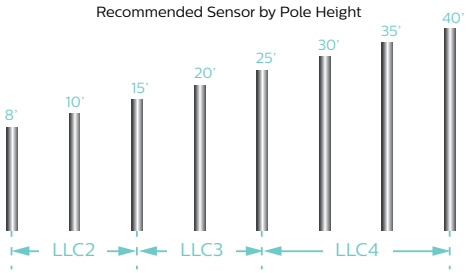
Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #3 lens for 15-25' mounting heights.



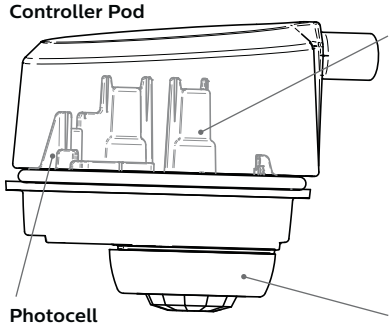
ECF-LLC4

EcoForm with Limelight wireless technology

Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #4 lens for 25-40' mounting heights.



Luminaire Configuration Information – EcoForm with LimeLight



ECF-LLC(#)

With this configuration, the controller pod is mounted to the luminaire arm. One controller is required per luminaire. There are three different motion sensor configurations available. Each one corresponds to the desired mounting height that for your specific application. See motion response detection ranges below.

Controller Pod

Photocell

- Ambient light photocell on every wireless radio that averages the light levels of up to 5 controllers for an accurate reading and optimal light harvesting activity.
- Reports ambient light readings to 1500 Fc.

Wireless Radio

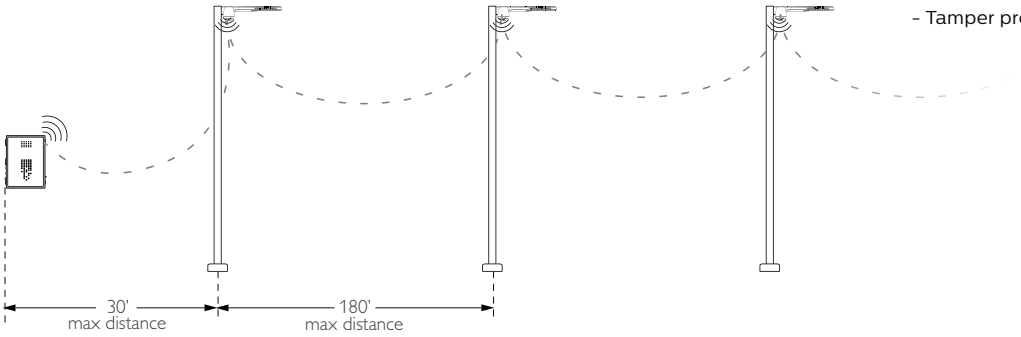
- 1.8 Watts max (no load draw)
- Operating voltage 102-277V RMS
- Communicates using the ZigBee protocol
- Carries out dimming commands from gateway
- Reports internal PCB temperature
- Transmission Systems Operating within the band 2400-2483.5Mhz. IEEE 802.15.4
- ROHS Compliant

Motion Response

- Three different lens configurations
- Detects motion through passive InfraRed sensing technology
- Connects directly to radio through modular jack
- Three different mounting heights and detecion ranges available

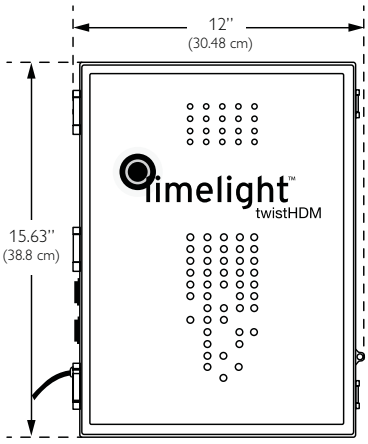
Luminaire Configuration Information – EcoForm with LimeLight (Continued)

Gateway



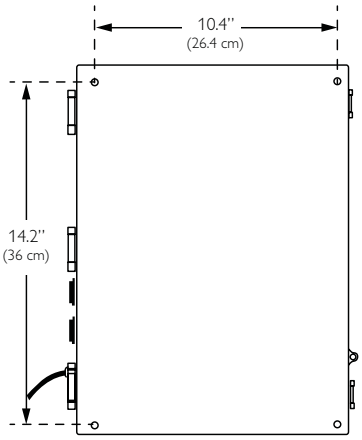
Overview: One gateway is included with the wireless controls system. The gateway opens up communication with the wireless radios installed with the EcoForm luminaires (or pole), allowing you to control your fixtures straight from the web. One LimeLight gateway can communicate with up to 800 fixtures. Typically one unit is required per parking lot.

Installation: Gateway has 4 blind threaded holes on the back side that accept 10-32 screws. Mount spacing is 10.41" across and 14.19" vertical.



Requirements: The gateway must be mounted in a secure on-site location. The gateway requires 120V. Distance of gateway to the first radio varies upon application; contact factory. Strong internet connection required.

Specifications:



- High density RF Mesh coordinator
- Ethernet or wireless internet connection to LimeLight server
- Proprietor of software "rules of operation"
- Watertight Ethernet connections
- Highly protected, long life ac/dc power supply
- Single board, ARM compliant 520Mhz Intel computer.
- Operating Temperature -20°C to 55°C
- Tamper proof housing

ECF EcoForm

Site & Area

Specifications

Housing

One piece die cast aluminum housing with integral arm and separate,self retained hinged, one piece die cast door frame.

IP Rating

LED light engine rated IP66.

Vibration Resistance

EcoForm with Standard Arm carries a 3G vibration rating that conforms to standards set forth by ANSI C136.31. Testing includes vibration to 3G acceleration in three axes, all performed on the same luminaire.

Electrical

Driver efficiency (>90% standard). 120-480V available (restrictions apply). Open/short circuit protection. Optional 0-10V dimming to 10% power. RoHS compliant. Surge protector standard. 10KA per ANSI/IEEE C62.41.2.

LED Board and Array

32, 48, or 64 LEDs. Color temperatures: 3000K, 4000K, 5700K +/- 250K. Minimum CRI of 70. Aluminum metal clad board. RoHS compliant.

LED Thermal Management

The housing design allows the one piece housing to provide excellent thermal management critical to long LED system life.

Energy Saving Benefits

System efficacy up to 95 lms/W with significant energy savings over Pulse Start Metal Halide luminaires. Optional control options provide added energy savings during unoccupied periods.

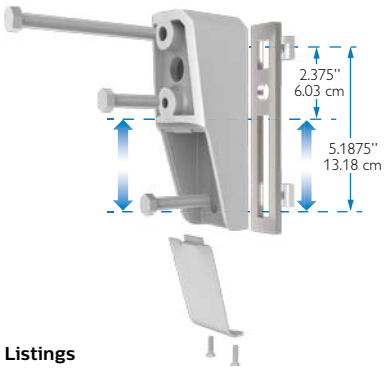
Wireless Controls

The LimeLight wireless Controls System includes: gateway, controller pod (with wireless radio, motion response, and photocell), and commissioning/training. LimeLight is an intelligent web-based system that operates through a high density mesh (HDM) wireless technology. Wireless radios with motion response and photocell sensors are integrated with PureForm luminaires, and enable the fixtures to communicate via the ZigBee protocol. The gateway is a mini computer that connects to the internet, and is located in a secure location. The central LimeLight database channels communication to and from the gateway, allowing data to be viewed or managed through the web-based graphical user interface (GUI). See LimeLight pages for details and technical information.

Motion Sensors

ECF-MR50, ECF-APD-MRO, ECF-MRI, ECF-APD-MRI luminaires may be specified for additional energy savings during unoccupied periods. See pages 4-6 for complete details.

Optical Systems



Type 2, 3, 4, and 5 distributions available. Internal Shield option mounts to LED optics and is available with Type 2, 3, and 4 distributions to control backlight.

Mounting

Standard luminaire arm mounts to 4" round poles. Square pole adapter included with every luminaire. Round Pole Adapter (RPA) required for 3-3.9" poles.

Retrofit Arm Mount

EcoForm features an innovative retrofit arm kit. When specified with the retrofit arm (RAM) option, EcoForm seamlessly simplifies site conversions to LED by eliminating the need for additional pole drilling on most existing poles. RAM will be boxed separately.

Listings

ETL/cETL listed to the UL 1598 standard, suitable for Wet Locations. Suitable for use in ambients from -40° to 40°C (-40° to 104°F). The quality systems of this facility have been registered by UL to the ISO 9001 series standards. All EcoForm luminaires equipped with NW and CW are DesignLights Consortium® qualified.

Finish

Each standard color luminaire receives a fade and abrasion resistant, electrostatically applied, thermally cured, triglycidal isocyanurate (TGIC) textured polyester powdercoat finish. Standard colors include bronze (BRP), black (BLP), white (WP), and natural aluminum (NP). Consult factory for specs on optional or custom colors.

Warranty

EcoForm luminaires feature a 5 year limited warranty. Philips Gardco LED luminaires with LED arrays feature a 5 year limited warranty covering the LED arrays. LED Drivers also carry a 5 year limited warranty. Motion sensors are covered by warranty for 5 years by the motion sensor manufacturer.

LED Performance

Predicted Lumen Depreciation Data[1]				
Ambient Temperature °C	**Driver** (mA)	**Calculated L_{70} Hours[1,2]**	**L_{70} Per TM-21[2,3]**	**Lumen Maintenance % @ 60,000 hours**
Up to 40 °C	Up to 1050 mA	> 350,000 hours	> 60,000 hours	97%

1. Predicted performance derived from LED manufacturer's data and engineering design estimates, based on IESNA LM-80 methodology. Actual experience may vary due to field application conditions.
2. L70 is the predicted time when LED performance depreciates to 70% of initial lumen output.
3. Calculated per IESNA TM21-11. Published L70 hours limited to 6 times actual LED test hours.

EcoForm combines economy with performance in an LED area luminaire. Capable of delivering up to 20,000 lumens or more in a compact, low profile housing, EcoForm offers a new level of customer value. EcoForm features an innovative retrofit arm kit, simplifying site conversions to LED by eliminating the need to drill additional holes in most existing poles. Integral control systems, including motion response and wireless controls are available for further energy savings during off peak hours.

1. Available in 120V–277V Voltages only (UNV, 120, 208, 240 & 277).
2. MR50 and APD-MRO luminaires require one motion sensor per pole, ordered separately. See page 2 for Accessories. Available in 120V or 277V only.
3. ECF-MRI requires outboarded sensor when used with Terminal Block (TB) Option.
4. Contact factory for lead times on warm white.
5. LLC2/LLC3/LLC4 Wireless Controls are not configurable with PC/PCB/PCR5/PCR7 Options. See page 7-8 for more info.
6. Not configurable with Type 5 (5) Optics.
7. Not configurable with 120-277V (UNV) Voltage. Voltage must be specified.
8. Not configurable with 480V (480) Voltage.
9. Not configurable with 3@120 (3@120) Mounting.
10. No adaptor required for 4" round poles. RPAs provided with Black Paint standard.
11. Works with 3-pin or 5-pin NEMA photocell/dimming device.
12. Works with 3-pin or 5-pin NEMA photocell/dimming device and auxiliary connections are not connected (for future use only).
13. If ordered with DIM, APD, MRI, MR50, APD-MRI, APD-MRO, dimming will not be connected to NEMA receptacle.

ECF EcoForm

Site & Area

EcoForm Accessories (order separately)

FS1R-100

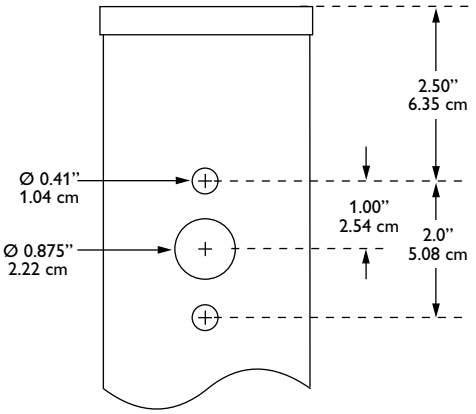
MR hand held programmer

For use with 'MRI' motion response when field programming is required. If desired, only one is needed per job.

MS-A-120V

120V Input Area Motion Sensor

For MR50 (Motion Response) or APD-MRO (Automatic Profile Dimming with Motion Response Override)



MS-A-277V

277V Input Area Motion Sensor

For MR50 (Motion Response) or APD-MRO (Automatic Profile Dimming with Motion Response Override)

Note: Motion Sensors are ordered separately, with one (1) motion sensor required per pole location for MR50 or APD-MRO luminaires. See Luminaire Configuration Information on page 5 for more details. Area motion sensor color is Arctic White. MRI and APD-MRI luminaires include an integral motion sensor.

Luminaire Configuration Information

ECF

Philips Gardco EcoForm LED standard luminaire providing constant wattage and constant light output when power to the luminaire is energized.

ECF-DIM

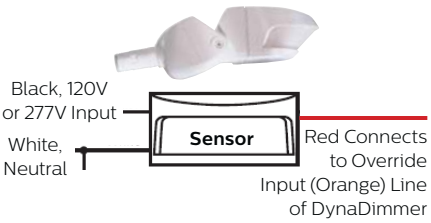
Philips Gardco EcoForm LED luminaire provided with 0-10V dimming for connection to a control system provided by others.

ECF-APD

Philips Gardco EcoForm LED luminaire with Automatic Profile Dimming. Luminaire is provided with a Philips DynaDimmer module, programmed to go to 50% power, 50% light output two (2) hours prior to night time mid-point and remain at 50% for six (6) hours after night time mid-point. Mid-point is continuously recalculated by the Philips DynaDimmer module based on the average mid-point of the last two full night cycles. Short duration cycles, and power interruptions are ignored and do not affect the determination of mid-point.

ECF-APD is available in 120V–277V input only.

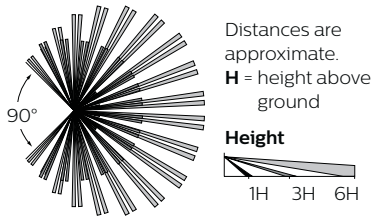
ECF-APD Dimming Profile:



100%	2 hours	6 hours	100%
	50%	50%	
Power On		Mid Point	Power Off

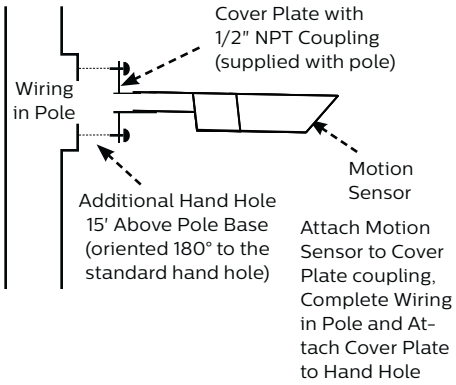
ECF-MR50

Philips Gardco EcoForm LED luminaire with motion response, providing a 50% power reduction on low and a commensurate reduction in light output. The power and light output reduction is accomplished utilizing the Philips DynaDimmer module, programmed for a constant 50% power. Power supplied by the motion sensor connected to the override line on the DynaDimmer takes the luminaire to high setting, 100% power and light output, when motion is detected. The luminaire remains on high until no motion is detected for the motion sensor duration period, after which the luminaire returns to low. Duration period is factory set at 15 minutes, and is field adjustable from 5 minutes up to 15 minutes.



ECF-MR50 is available in 120V–277V input only to the luminaire. Motion sensors require single voltage 120V or 277V input.

The Area PIR motion sensor is the WattStopper EW-200-120-W (120V Input - MSA-120V) or the WattStopper EW-200-277-W (277V Input - MSA-277V.) One motion sensor per pole is required and is ordered separately. Area sensors require single voltage 120V or 277V input.



The area motion detector provides coverage equal to up to 6 times the sensor height above ground, 270° from the front-center of the sensor.

Area PIR Motion Sensor Coverage Pattern:

Motion response requires that the pole include an additional hand hole 15 feet above the pole base, normally oriented 180° to the standard hand hole. For Philips Gardco poles, order the pole with the Motion Sensor Mounting (MSM) option which includes the hand hole and a special hand hole cover plate for the sensor with a 1/2" NPT receptacle centered on the hand hole cover plate into which the motion sensor mounts. Once the motion sensor is connected to the hand hole cover plate, then wiring connections are completed in the pole. The plate (complete with motion sensor attached and wired) is then mounted to the hand hole. If poles are supplied by others, the customer is responsible for providing suitable mounting accommodations for the motion sensor in the pole.

Mounting to a Philips Gardco Pole:

ECF-APD-MRO

Philips Gardco EcoForm LED luminaire with Automatic Profile Dimming, with Motion Response Override. The ECF-APD-MRO combines the benefits of both automatic profile dimming and motion response, using the Philips DynaDimmer module. The luminaire will dim to 50% power, 50% light output, per the dimming profile shown for the ECF-APD. If motion is detected during the time that the luminaire is operating at 50%, the luminaire returns to 100% power and light output. The luminaire remains on high until no motion is detected for the duration period, after which the luminaire returns to low. Duration period is factory set at 15 minutes, and is field adjustable from 5 minutes up to 15 minutes.

Notes:

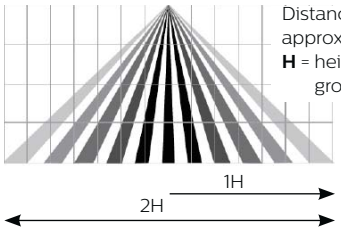
ECF-APD-MRO is available in 120V through 277V input only to luminaire. The motion sensor requires either 120V or 277V input to the motion sensor.

The ECF-APD-MRO has the same pole requirements and utilizes the same motion sensors as the ECF-MR50. The motion sensor mounts and wires identically as well. The ECF-APD-MRO utilizes the identical dimming profile as shown for the ECF-APD.

By combining the benefits of automatic profile dimming and motion response, the ECF-APD-MRO assures maximum energy savings, and insures that adequate light is present if motion is detected.

All motion sensors utilized consume 0.0 watts in the off state.

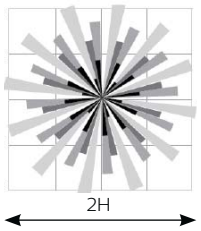
Luminaire Configuration Information (Continued)



ECF-MRI

Luminaires with Motion Response include a LED driver and an integral programmable motion sensor. The motion sensor is set to a constant 50%. When motion is detected, the luminaire goes to 100%. The luminaire remains on high until no motion is detected for the motion sensor duration period, after which the luminaire returns to low. Duration period is factory set at 5 minutes. Available with 120V or 277V only.

Luminaires include a passive infrared (PIR) motion sensor, WattStopper® FSP-211 equipped with an FSP-L3 lens, capable of detecting motion within 20 feet of the sensor, 180° around the luminaire, when placed at a 20 foot mounting height, or mounted on a wall. Available in 120V or 277V input only. Motion sensor off state power is 0.0 watts.



The approximate motion sensor coverage pattern is as shown below.

Side Coverage Pattern

Distances are approximate.
H = height above ground

Top Coverage Pattern

ECF-APD-MRI

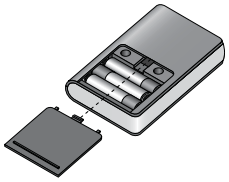
Luminaires with Automatic Profile Dimming and Motion Response Override combine the benefits of both automatic profile dimming and motion response. APD-MRI luminaires utilize Philips DynaDimmer. The luminaire will dim to 50% power, 50% light output, per the dimming profile shown for APD luminaires (see page 4). If motion is detected during the time that the luminaire is operating at 50%, the luminaire goes to 100% power and light output. The luminaire remains on high until no motion is detected for the duration period, after which the luminaire returns to low. Duration period is factory set at 5 minutes.

APD-MRI luminaires are available with 120V or 277V input voltages only.

APD-MRI luminaires use the identical motion sensor as MRI luminaires. See motion sensor details for ECF-MRI.

FS1R-100 Wireless Remote Programming Tool

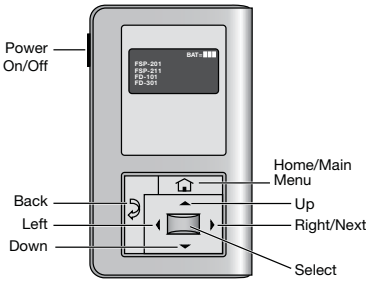
The FS1R-100 Remote Programming Tool accessory permits adjustment of ECF-MRI and ECF-APD-MRI sensor settings, including duration and dimming level on low, without the need to connect any wires to the luminaire.



The FS1R-100 Wireless IR Programming Tool is a handheld tool for setup and testing of WattStopper FSP-211. It provides wireless access to the FSP-211 sensors for setup and parameter changes.

The FS1R-100 display shows menus and prompts to lead you through each process. The navigation pad provides a familiar way to navigate through the customization fields.

Within a certain mounting height of the sensor, the FS1R-100 allows modification of the system without requiring ladders or tools simply with a touch of a few buttons.



The FS1R-100 IR transceiver allows bi-directional communication between the FSP-211 and the FS1R-100 programming tool . Simple menu screens let you see the current status of the system and make changes. It can change FSP-211 sensor parameters such as high/low mode, sensitivity, time delay, cut off and more. With the FS1R-100 you can also establish and store FSP-211 parameter profiles.

The FS1R-100 operates on three standard 1.5V AAA Alkaline batteries or three rechargeable AAA NiMH batteries. The battery status displays in the upper right corner of the display. Three bars next to BAT= indicates a full battery charge. A warning appears on the display when the battery level falls below a minimum acceptable level. To conserve battery power, the FS1R-100 automatically shuts off 10 minutes after the last key press.

You navigate from one field to another using (up) or (down) arrow keys. The active field is indicated by flashing (alternates between yellow text on black background and black text on yellow background.)

Once active, use the Select button to move to a menu or function within the active field. Value fields are used to adjust parameter settings. They are shown in “less-than/greater-than” symbols: <value>. Once active, change them using (left) and (right) arrow keys. In general the up key increments and the down key decrements a value. Selections wrap-around if you continue to press the key beyond maximum or minimum values. Moving away from the value field overwrites the original value. The Home button takes you to the main menu. The Back button can be thought of as an undo function. It takes you back one screen. Changes that were in process prior to pressing the key are lost.More information on the FS1R-100 Remote Programming Tool is available at wattstopper.com.

ECF EcoForm

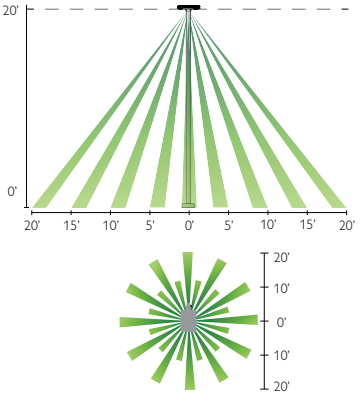
Luminaire Configuration Information – EcoForm with LimeLight

ECF-LLC2

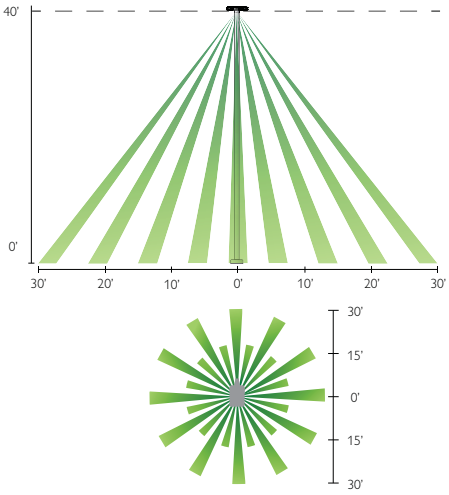
EcoForm with Limelight wireless technology



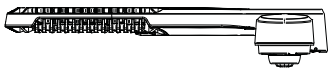
Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #2 lens for 8-15' mounting heights.

ECF-LLC3

EcoForm with Limelight wireless technology



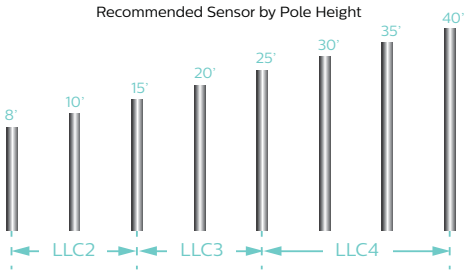
Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #3 lens for 15-25' mounting heights.



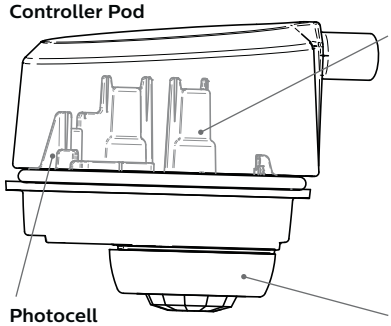
ECF-LLC4

EcoForm with Limelight wireless technology

Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #4 lens for 25-40' mounting heights.



Luminaire Configuration Information – EcoForm with LimeLight



ECF-LLC(#)

With this configuration, the controller pod is mounted to the luminaire arm. One controller is required per luminaire. There are three different motion sensor configurations available. Each one corresponds to the desired mounting height that for your specific application. See motion response detection ranges below.

Controller Pod

Photocell

- Ambient light photocell on every wireless radio that averages the light levels of up to 5 controllers for an accurate reading and optimal light harvesting activity.
- Reports ambient light readings to 1500 Fc.

Wireless Radio

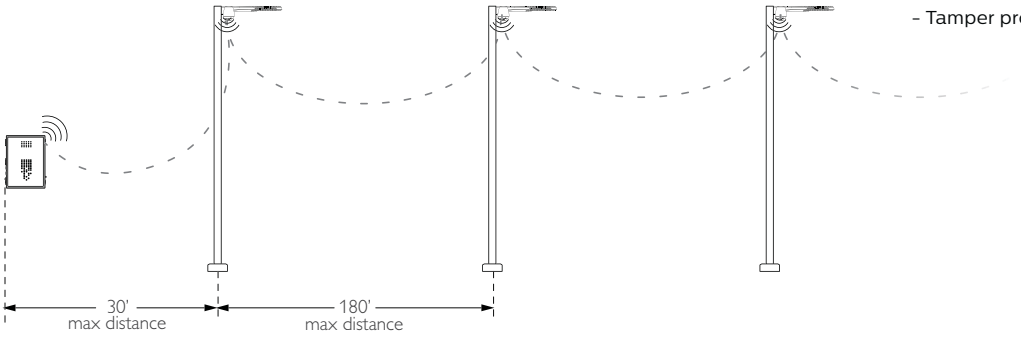
- 1.8 Watts max (no load draw)
- Operating voltage 102-277V RMS
- Communicates using the ZigBee protocol
- Carries out dimming commands from gateway
- Reports internal PCB temperature
- Transmission Systems Operating within the band 2400-2483.5Mhz. IEEE 802.15.4
- ROHS Compliant

Motion Response

- Three different lens configurations
- Detects motion through passive InfraRed sensing technology
- Connects directly to radio through modular jack
- Three different mounting heights and detecion ranges available

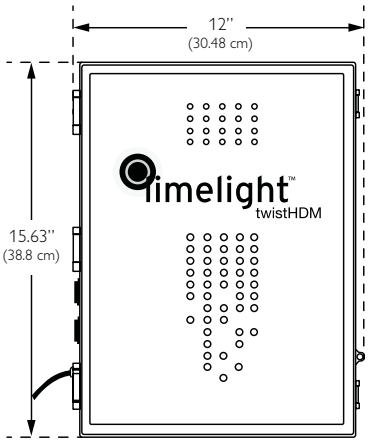
Luminaire Configuration Information – EcoForm with LimeLight (Continued)

Gateway



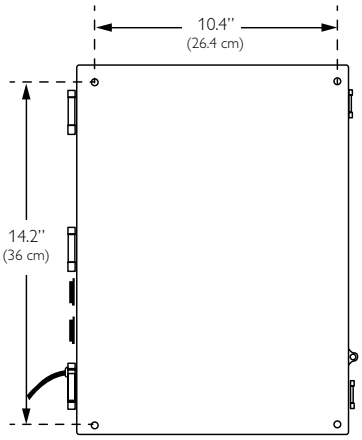
Overview: One gateway is included with the wireless controls system. The gateway opens up communication with the wireless radios installed with the EcoForm luminaires (or pole), allowing you to control your fixtures straight from the web. One LimeLight gateway can communicate with up to 800 fixtures. Typically one unit is required per parking lot.

Installation: Gateway has 4 blind threaded holes on the back side that accept 10-32 screws. Mount spacing is 10.41" across and 14.19" vertical.



Requirements: The gateway must be mounted in a secure on-site location. The gateway requires 120V. Distance of gateway to the first radio varies upon application; contact factory. Strong internet connection required.

Specifications:



- High density RF Mesh coordinator
- Ethernet or wireless internet connection to LimeLight server
- Proprietor of software "rules of operation"
- Watertight Ethernet connections
- Highly protected, long life ac/dc power supply
- Single board, ARM compliant 520Mhz Intel computer.
- Operating Temperature -20°C to 55°C
- Tamper proof housing

ECF EcoForm

Site & Area

Specifications

Housing

One piece die cast aluminum housing with integral arm and separate,self retained hinged, one piece die cast door frame.

IP Rating

LED light engine rated IP66.

Vibration Resistance

EcoForm with Standard Arm carries a 3G vibration rating that conforms to standards set forth by ANSI C136.31. Testing includes vibration to 3G acceleration in three axes, all performed on the same luminaire.

Electrical

Driver efficiency (>90% standard). 120-480V available (restrictions apply). Open/short circuit protection. Optional 0-10V dimming to 10% power. RoHS compliant. Surge protector standard. 10KA per ANSI/IEEE C62.41.2.

LED Board and Array

32, 48, or 64 LEDs. Color temperatures: 3000K, 4000K, 5700K +/- 250K. Minimum CRI of 70. Aluminum metal clad board. RoHS compliant.

LED Thermal Management

The housing design allows the one piece housing to provide excellent thermal management critical to long LED system life.

Energy Saving Benefits

System efficacy up to 95 lms/W with significant energy savings over Pulse Start Metal Halide luminaires. Optional control options provide added energy savings during unoccupied periods.

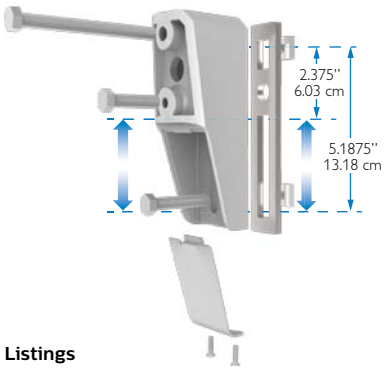
Wireless Controls

The LimeLight wireless Controls System includes: gateway, controller pod (with wireless radio, motion response, and photocell), and commissioning/training. LimeLight is an intelligent web-based system that operates through a high density mesh (HDM) wireless technology. Wireless radios with motion response and photocell sensors are integrated with PureForm luminaires, and enable the fixtures to communicate via the ZigBee protocol. The gateway is a mini computer that connects to the internet, and is located in a secure location. The central LimeLight database channels communication to and from the gateway, allowing data to be viewed or managed through the web-based graphical user interface (GUI). See LimeLight pages for details and technical information.

Motion Sensors

ECF-MR50, ECF-APD-MRO, ECF-MRI, ECF-APD-MRI luminaires may be specified for additional energy savings during unoccupied periods. See pages 4-6 for complete details.

Optical Systems



Type 2, 3, 4, and 5 distributions available. Internal Shield option mounts to LED optics and is available with Type 2, 3, and 4 distributions to control backlight.

Mounting

Standard luminaire arm mounts to 4" round poles. Square pole adapter included with every luminaire. Round Pole Adapter (RPA) required for 3-3.9" poles.

Retrofit Arm Mount

EcoForm features an innovative retrofit arm kit. When specified with the retrofit arm (RAM) option, EcoForm seamlessly simplifies site conversions to LED by eliminating the need for additional pole drilling on most existing poles. RAM will be boxed separately.

Listings

ETL/cETL listed to the UL 1598 standard, suitable for Wet Locations. Suitable for use in ambients from -40° to 40°C (-40° to 104°F). The quality systems of this facility have been registered by UL to the ISO 9001 series standards. All EcoForm luminaires equipped with NW and CW are DesignLights Consortium® qualified.

Finish

Each standard color luminaire receives a fade and abrasion resistant, electrostatically applied, thermally cured, triglycidal isocyanurate (TGIC) textured polyester powdercoat finish. Standard colors include bronze (BRP), black (BLP), white (WP), and natural aluminum (NP). Consult factory for specs on optional or custom colors.

Warranty

EcoForm luminaires feature a 5 year limited warranty. Philips Gardco LED luminaires with LED arrays feature a 5 year limited warranty covering the LED arrays. LED Drivers also carry a 5 year limited warranty. Motion sensors are covered by warranty for 5 years by the motion sensor manufacturer.

LED Performance

Predicted Lumen Depreciation Data[1]				
Ambient Temperature °C	**Driver** (mA)	**Calculated L_{70} Hours[1,2]**	**L_{70} Per TM-21[2,3]**	**Lumen Maintenance % @ 60,000 hours**
Up to 40 °C	Up to 1050 mA	> 350,000 hours	> 60,000 hours	97%

1. Predicted performance derived from LED manufacturer's data and engineering design estimates, based on IESNA LM-80 methodology. Actual experience may vary due to field application conditions.
2. L70 is the predicted time when LED performance depreciates to 70% of initial lumen output.
3. Calculated per IESNA TM21-11. Published L70 hours limited to 6 times actual LED test hours.

Notes:	

EcoForm combines economy with performance in an LED area luminaire. Capable of delivering up to 20,000 lumens or more in a compact, low profile housing, EcoForm offers a new level of customer value. EcoForm features an innovative retrofit arm kit, simplifying site conversions to LED by eliminating the need to drill additional holes in most existing poles. Integral control systems, including motion response and wireless controls are available for further energy savings during off peak hours.

1. Available in 120V–277V Voltages only (UNV, 120, 208, 240 & 277).
2. MR50 and APD-MRO luminaires require one motion sensor per pole, ordered separately. See page 2 for Accessories. Available in 120V or 277V only.
3. ECF-MRI requires outboarded sensor when used with Terminal Block (TB) Option.
4. Contact factory for lead times on warm white.
5. LLC2/LLC3/LLC4 Wireless Controls are not configurable with PC/PCB/PCR5/PCR7 Options. See page 7-8 for more info.
6. Not configurable with Type 5 (5) Optics.
7. Not configurable with 120-277V (UNV) Voltage. Voltage must be specified.
8. Not configurable with 480V (480) Voltage.
9. Not configurable with 3@120 (3@120) Mounting.
10. No adaptor required for 4" round poles. RPAs provided with Black Paint standard.
11. Works with 3-pin or 5-pin NEMA photocell/dimming device.
12. Works with 3-pin or 5-pin NEMA photocell/dimming device and auxiliary connections are not connected (for future use only).
13. If ordered with DIM, APD, MRI, MR50, APD-MRI, APD-MRO, dimming will not be connected to NEMA receptacle.

ECF EcoForm

Site & Area

EcoForm Accessories (order separately)

FS1R-100

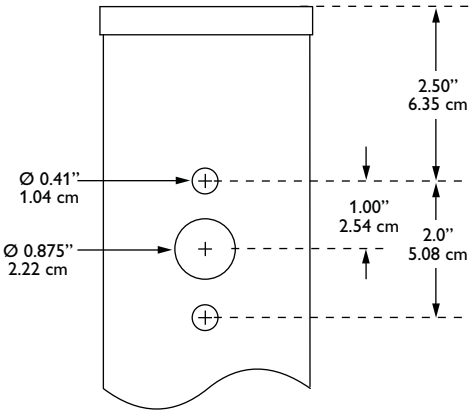
MR hand held programmer

For use with 'MRI' motion response when field programming is required. If desired, only one is needed per job.

MS-A-120V

120V Input Area Motion Sensor

For MR50 (Motion Response) or APD-MRO (Automatic Profile Dimming with Motion Response Override)



MS-A-277V

277V Input Area Motion Sensor

For MR50 (Motion Response) or APD-MRO (Automatic Profile Dimming with Motion Response Override)

Note: Motion Sensors are ordered separately, with one (1) motion sensor required per pole location for MR50 or APD-MRO luminaires. See Luminaire Configuration Information on page 5 for more details. Area motion sensor color is Arctic White. MRI and APD-MRI luminaires include an integral motion sensor.

Luminaire Configuration Information

ECF

Philips Gardco EcoForm LED standard luminaire providing constant wattage and constant light output when power to the luminaire is energized.

ECF-DIM

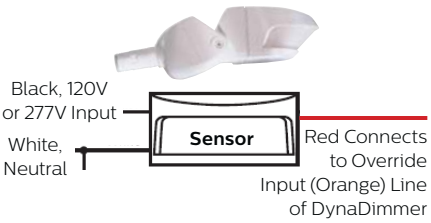
Philips Gardco EcoForm LED luminaire provided with 0-10V dimming for connection to a control system provided by others.

ECF-APD

Philips Gardco EcoForm LED luminaire with Automatic Profile Dimming. Luminaire is provided with a Philips DynaDimmer module, programmed to go to 50% power, 50% light output two (2) hours prior to night time mid-point and remain at 50% for six (6) hours after night time mid-point. Mid-point is continuously recalculated by the Philips DynaDimmer module based on the average mid-point of the last two full night cycles. Short duration cycles, and power interruptions are ignored and do not affect the determination of mid-point.

ECF-APD is available in 120V–277V input only.

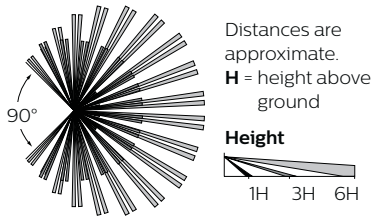
ECF-APD Dimming Profile:



100%	2 hours	6 hours	100%
	50%	50%	
Power On		Mid Point	Power Off

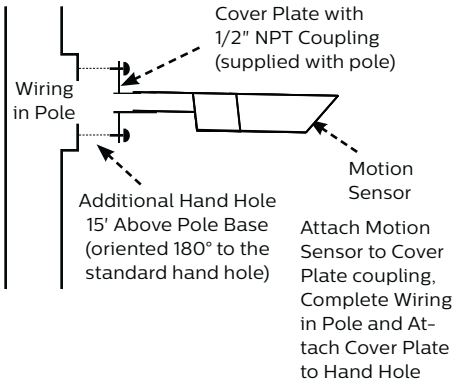
ECF-MR50

Philips Gardco EcoForm LED luminaire with motion response, providing a 50% power reduction on low and a commensurate reduction in light output. The power and light output reduction is accomplished utilizing the Philips DynaDimmer module, programmed for a constant 50% power. Power supplied by the motion sensor connected to the override line on the DynaDimmer takes the luminaire to high setting, 100% power and light output, when motion is detected. The luminaire remains on high until no motion is detected for the motion sensor duration period, after which the luminaire returns to low. Duration period is factory set at 15 minutes, and is field adjustable from 5 minutes up to 15 minutes.



ECF-MR50 is available in 120V–277V input only to the luminaire. Motion sensors require single voltage 120V or 277V input.

The Area PIR motion sensor is the WattStopper EW-200-120-W (120V Input - MSA-120V) or the WattStopper EW-200-277-W (277V Input - MSA-277V.) One motion sensor per pole is required and is ordered separately. Area sensors require single voltage 120V or 277V input.



The area motion detector provides coverage equal to up to 6 times the sensor height above ground, 270° from the front-center of the sensor.

Area PIR Motion Sensor Coverage Pattern:

Motion response requires that the pole include an additional hand hole 15 feet above the pole base, normally oriented 180° to the standard hand hole. For Philips Gardco poles, order the pole with the Motion Sensor Mounting (MSM) option which includes the hand hole and a special hand hole cover plate for the sensor with a 1/2" NPT receptacle centered on the hand hole cover plate into which the motion sensor mounts. Once the motion sensor is connected to the hand hole cover plate, then wiring connections are completed in the pole. The plate (complete with motion sensor attached and wired) is then mounted to the hand hole. If poles are supplied by others, the customer is responsible for providing suitable mounting accommodations for the motion sensor in the pole.

Mounting to a Philips Gardco Pole:

ECF-APD-MRO

Philips Gardco EcoForm LED luminaire with Automatic Profile Dimming, with Motion Response Override. The ECF-APD-MRO combines the benefits of both automatic profile dimming and motion response, using the Philips DynaDimmer module. The luminaire will dim to 50% power, 50% light output, per the dimming profile shown for the ECF-APD. If motion is detected during the time that the luminaire is operating at 50%, the luminaire returns to 100% power and light output. The luminaire remains on high until no motion is detected for the duration period, after which the luminaire returns to low. Duration period is factory set at 15 minutes, and is field adjustable from 5 minutes up to 15 minutes.

Notes:

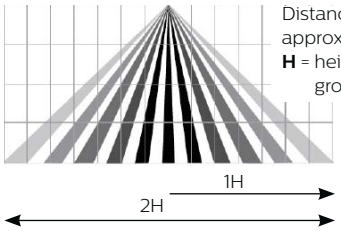
ECF-APD-MRO is available in 120V through 277V input only to luminaire. The motion sensor requires either 120V or 277V input to the motion sensor.

The ECF-APD-MRO has the same pole requirements and utilizes the same motion sensors as the ECF-MR50. The motion sensor mounts and wires identically as well. The ECF-APD-MRO utilizes the identical dimming profile as shown for the ECF-APD.

By combining the benefits of automatic profile dimming and motion response, the ECF-APD-MRO assures maximum energy savings, and insures that adequate light is present if motion is detected.

All motion sensors utilized consume 0.0 watts in the off state.

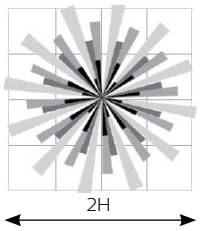
Luminaire Configuration Information (Continued)



ECF-MRI

Luminaires with Motion Response include a LED driver and an integral programmable motion sensor. The motion sensor is set to a constant 50%. When motion is detected, the luminaire goes to 100%. The luminaire remains on high until no motion is detected for the motion sensor duration period, after which the luminaire returns to low. Duration period is factory set at 5 minutes. Available with 120V or 277V only.

Luminaires include a passive infrared (PIR) motion sensor, WattStopper® FSP-211 equipped with an FSP-L3 lens, capable of detecting motion within 20 feet of the sensor, 180° around the luminaire, when placed at a 20 foot mounting height, or mounted on a wall. Available in 120V or 277V input only. Motion sensor off state power is 0.0 watts.



The approximate motion sensor coverage pattern is as shown below.

Side Coverage Pattern

Distances are approximate.
H = height above ground

Top Coverage Pattern

ECF-APD-MRI

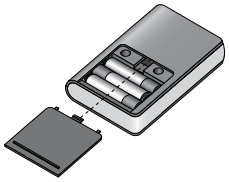
Luminaires with Automatic Profile Dimming and Motion Response Override combine the benefits of both automatic profile dimming and motion response. APD-MRI luminaires utilize Philips DynaDimmer. The luminaire will dim to 50% power, 50% light output, per the dimming profile shown for APD luminaires (see page 4). If motion is detected during the time that the luminaire is operating at 50%, the luminaire goes to 100% power and light output. The luminaire remains on high until no motion is detected for the duration period, after which the luminaire returns to low. Duration period is factory set at 5 minutes.

APD-MRI luminaires are available with 120V or 277V input voltages only.

APD-MRI luminaires use the identical motion sensor as MRI luminaires. See motion sensor details for ECF-MRI.

FS1R-100 Wireless Remote Programming Tool

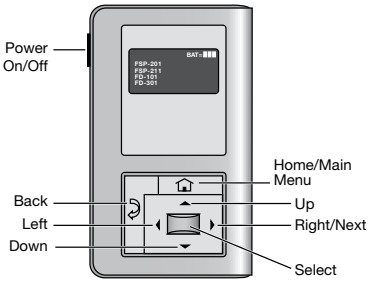
The FS1R-100 Remote Programming Tool accessory permits adjustment of ECF-MRI and ECF-APD-MRI sensor settings, including duration and dimming level on low, without the need to connect any wires to the luminaire.



The FS1R-100 Wireless IR Programming Tool is a handheld tool for setup and testing of WattStopper FSP-211. It provides wireless access to the FSP-211 sensors for setup and parameter changes.

The FS1R-100 display shows menus and prompts to lead you through each process. The navigation pad provides a familiar way to navigate through the customization fields.

Within a certain mounting height of the sensor, the FS1R-100 allows modification of the system without requiring ladders or tools simply with a touch of a few buttons.



The FS1R-100 IR transceiver allows bi-directional communication between the FSP-211 and the FS1R-100 programming tool . Simple menu screens let you see the current status of the system and make changes. It can change FSP-211 sensor parameters such as high/low mode, sensitivity, time delay, cut off and more. With the FS1R-100 you can also establish and store FSP-211 parameter profiles.

The FS1R-100 operates on three standard 1.5V AAA Alkaline batteries or three rechargeable AAA NiMH batteries. The battery status displays in the upper right corner of the display. Three bars next to BAT= indicates a full battery charge. A warning appears on the display when the battery level falls below a minimum acceptable level. To conserve battery power, the FS1R-100 automatically shuts off 10 minutes after the last key press.

You navigate from one field to another using (up) or (down) arrow keys. The active field is indicated by flashing (alternates between yellow text on black background and black text on yellow background.)

Once active, use the Select button to move to a menu or function within the active field. Value fields are used to adjust parameter settings. They are shown in “less-than/greater-than” symbols: <value>. Once active, change them using (left) and (right) arrow keys. In general the up key increments and the down key decrements a value. Selections wrap-around if you continue to press the key beyond maximum or minimum values. Moving away from the value field overwrites the original value. The Home button takes you to the main menu. The Back button can be thought of as an undo function. It takes you back one screen. Changes that were in process prior to pressing the key are lost.More information on the FS1R-100 Remote Programming Tool is available at wattstopper.com.

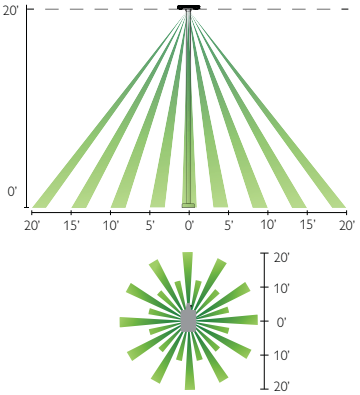
Luminaire Configuration Information – EcoForm with LimeLight

ECF-LLC2

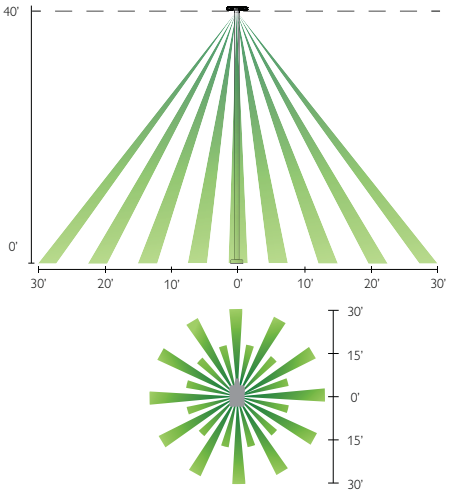
EcoForm with Limelight wireless technology



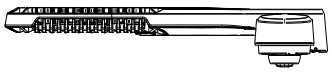
Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #2 lens for 8-15' mounting heights.

ECF-LLC3

EcoForm with Limelight wireless technology



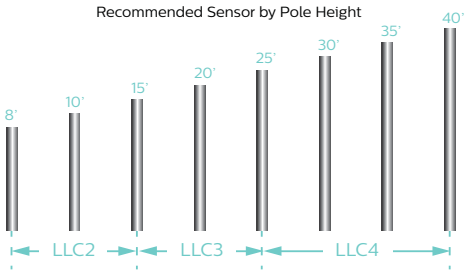
Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #3 lens for 15-25' mounting heights.



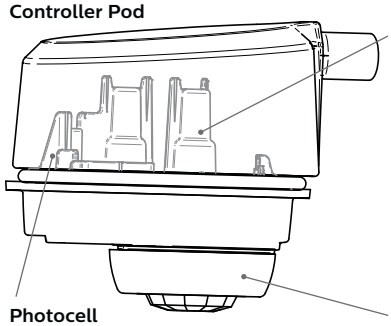
ECF-LLC4

EcoForm with Limelight wireless technology

Controller pod attached to luminaire arm and includes radio, photocell and motion sensor with #4 lens for 25-40' mounting heights.



Luminaire Configuration Information – EcoForm with LimeLight



ECF-LLC(#)

With this configuration, the controller pod is mounted to the luminaire arm. One controller is required per luminaire. There are three different motion sensor configurations available. Each one corresponds to the desired mounting height that for your specific application. See motion response detection ranges below.

Controller Pod

Photocell

- Ambient light photocell on every wireless radio that averages the light levels of up to 5 controllers for an accurate reading and optimal light harvesting activity.
- Reports ambient light readings to 1500 Fc.

Wireless Radio

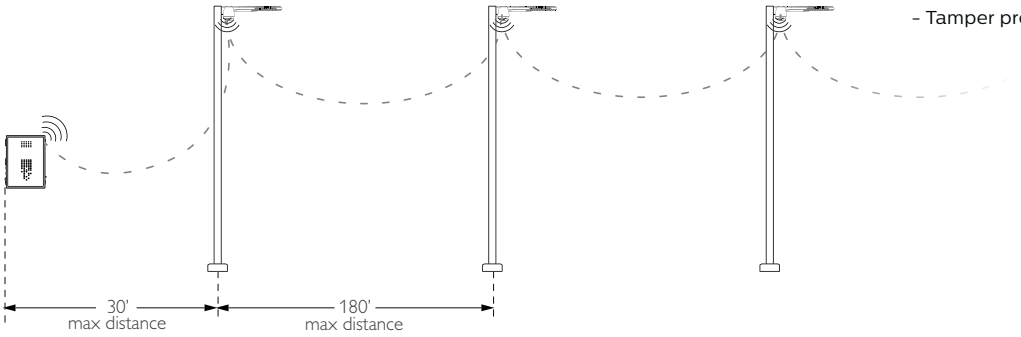
- 1.8 Watts max (no load draw)
- Operating voltage 102-277V RMS
- Communicates using the ZigBee protocol
- Carries out dimming commands from gateway
- Reports internal PCB temperature
- Transmission Systems Operating within the band 2400-2483.5Mhz. IEEE 802.15.4
- ROHS Compliant

Motion Response

- Three different lens configurations
- Detects motion through passive InfraRed sensing technology
- Connects directly to radio through modular jack
- Three different mounting heights and detecion ranges available

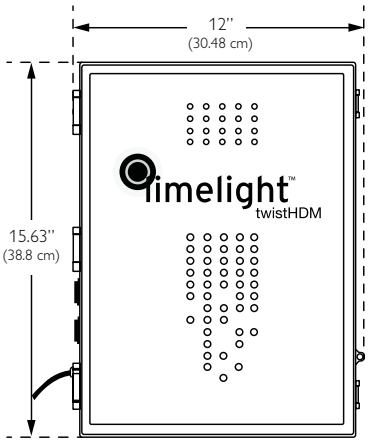
Luminaire Configuration Information – EcoForm with LimeLight (Continued)

Gateway



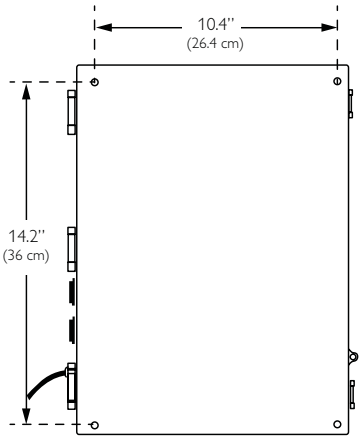
Overview: One gateway is included with the wireless controls system. The gateway opens up communication with the wireless radios installed with the EcoForm luminaires (or pole), allowing you to control your fixtures straight from the web. One LimeLight gateway can communicate with up to 800 fixtures. Typically one unit is required per parking lot.

Installation: Gateway has 4 blind threaded holes on the back side that accept 10-32 screws. Mount spacing is 10.41" across and 14.19" vertical.



Requirements: The gateway must be mounted in a secure on-site location. The gateway requires 120V. Distance of gateway to the first radio varies upon application; contact factory. Strong internet connection required.

Specifications:



- High density RF Mesh coordinator
- Ethernet or wireless internet connection to LimeLight server
- Proprietor of software "rules of operation"
- Watertight Ethernet connections
- Highly protected, long life ac/dc power supply
- Single board, ARM compliant 520Mhz Intel computer.
- Operating Temperature -20°C to 55°C
- Tamper proof housing

Side View

ECF EcoForm

Site & Area

Specifications

Housing

One piece die cast aluminum housing with integral arm and separate,self retained hinged, one piece die cast door frame.

IP Rating

LED light engine rated IP66.

Vibration Resistance

EcoForm with Standard Arm carries a 3G vibration rating that conforms to standards set forth by ANSI C136.31. Testing includes vibration to 3G acceleration in three axes, all performed on the same luminaire.

Electrical

Driver efficiency (>90% standard). 120-480V available (restrictions apply). Open/short circuit protection. Optional 0-10V dimming to 10% power. RoHS compliant. Surge protector standard. 10KA per ANSI/IEEE C62.41.2.

LED Board and Array

32, 48, or 64 LEDs. Color temperatures: 3000K, 4000K, 5700K +/- 250K. Minimum CRI of 70. Aluminum metal clad board. RoHS compliant.

LED Thermal Management

The housing design allows the one piece housing to provide excellent thermal management critical to long LED system life.

Energy Saving Benefits

System efficacy up to 95 lms/W with significant energy savings over Pulse Start Metal Halide luminaires. Optional control options provide added energy savings during unoccupied periods.

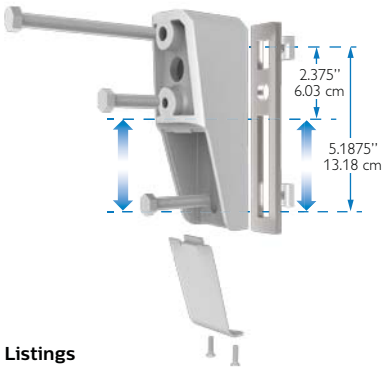
Wireless Controls

The LimeLight wireless Controls System includes: gateway, controller pod (with wireless radio, motion response, and photocell), and commissioning/training. LimeLight is an intelligent web-based system that operates through a high density mesh (HDM) wireless technology. Wireless radios with motion response and photocell sensors are integrated with PureForm luminaires, and enable the fixtures to communicate via the ZigBee protocol. The gateway is a mini computer that connects to the internet, and is located in a secure location. The central LimeLight database channels communication to and from the gateway, allowing data to be viewed or managed through the web-based graphical user interface (GUI). See LimeLight pages for details and technical information.

Motion Sensors

ECF-MR50, ECF-APD-MRO, ECF-MRI, ECF-APD-MRI luminaires may be specified for additional energy savings during unoccupied periods. See pages 4-6 for complete details.

Optical Systems



Type 2, 3, 4, and 5 distributions available. Internal Shield option mounts to LED optics and is available with Type 2, 3, and 4 distributions to control backlight.

Mounting

Standard luminaire arm mounts to 4" round poles. Square pole adapter included with every luminaire. Round Pole Adapter (RPA) required for 3-3.9" poles.

Retrofit Arm Mount

EcoForm features an innovative retrofit arm kit. When specified with the retrofit arm (RAM) option, EcoForm seamlessly simplifies site conversions to LED by eliminating the need for additional pole drilling on most existing poles. RAM will be boxed separately.

Listings

ETL/cETL listed to the UL 1598 standard, suitable for Wet Locations. Suitable for use in ambients from -40° to 40°C (-40° to 104°F). The quality systems of this facility have been registered by UL to the ISO 9001 series standards. All EcoForm luminaires equipped with NW and CW are DesignLights Consortium® qualified.

Finish

Each standard color luminaire receives a fade and abrasion resistant, electrostatically applied, thermally cured, triglycidal isocyanurate (TGIC) textured polyester powdercoat finish. Standard colors include bronze (BRP), black (BLP), white (WP), and natural aluminum (NP). Consult factory for specs on optional or custom colors.

Warranty

EcoForm luminaires feature a 5 year limited warranty. Philips Gardco LED luminaires with LED arrays feature a 5 year limited warranty covering the LED arrays. LED Drivers also carry a 5 year limited warranty. Motion sensors are covered by warranty for 5 years by the motion sensor manufacturer.

LED Performance

Predicted Lumen Depreciation Data[1]				
Ambient Temperature °C	**Driver** (mA)	**Calculated L_{70} Hours[1,2]**	**L_{70} Per TM-21[2,3]**	**Lumen Maintenance % @ 60,000 hours**
Up to 40 °C	Up to 1050 mA	> 350,000 hours	> 60,000 hours	97%

1. Predicted performance derived from LED manufacturer's data and engineering design estimates, based on IESNA LM-80 methodology. Actual experience may vary due to field application conditions.
2. L70 is the predicted time when LED performance depreciates to 70% of initial lumen output.
3. Calculated per IESNA TM21-11. Published L70 hours limited to 6 times actual LED test hours.

TYPE: _____

DESCRIPTION

Wallpack with cutoff glare shield. All aluminum precision die cast construction with tempered glass lens. 30° cutoff strip included. Lamp supplied.

SPECIFICATIONS

Cutoff Lens:
Tempered glass.

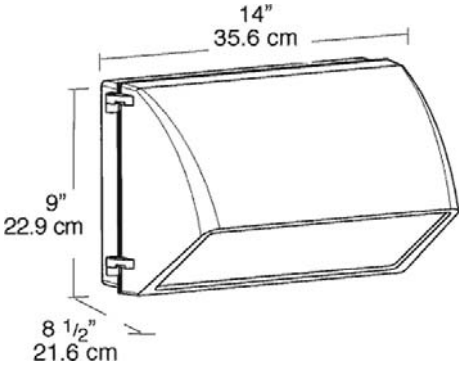
Finish:
Chip and fade resistant polyester powder coating.

Housing:
Die cast aluminum, 1/2" NPS tapped holes top, both sides and back for conduit or photocontrol. Hinged refractor frame. Continuous silicone rubber gasket.

Reflector:
Specular anodized aluminum, removable for installation. Symmetrical light pattern maximizes distance between fixtures.

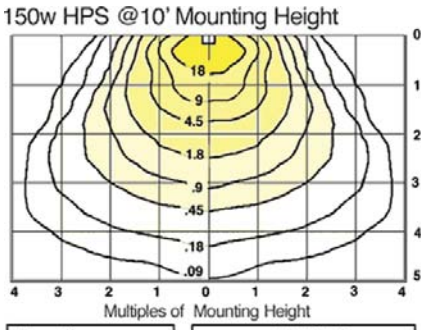
Ballast Minimum Starting Temperature:
-22

Refractor:
Prismatic optics designed to minimize glare and throw light down and out. Heat resistant borosilicate glass.



UL Listing:
Suitable for wet locations. HID fixtures can be wired with 90° C supply wiring if supply wires are routed 3" away from ballast.

Patents:
RAB sensor and fixture designs are protected under U.S. and International Intellectual Property laws



Color:
Bronze

Weight:
9.62

AIMING RANGE

Housing: One piece die-cast low copper aluminum in a cylindrical shape with integral cooling fins over the entire length, and .100″ minimum wall thickness. One piece silicone gasket between housing and lens frame.

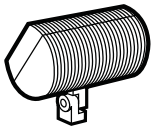
Lens Frame: One piece die-cast low copper aluminum with integral cooling fins, .100″ minimum wall thickness, mates with housing to create a continuous cylindrical shape. ⁵⁄₃₂″ thick clear tempered glass lens is sealed to the lens frame by a one piece stamped silicone gasket. Lens frame secures to housing by two stainless steel recessed captive allen-head screws.

Swivel: Die-cast aluminum with integral locking teeth providing 6° adjustment intervals and ½″ NPSM plus solid brass locknut for mounting. Clear anodized prior to chromate conversion coating for added corrosion resistance.

Fasteners: Stainless steel, recessed captive allen-head screws.

Reflector: Specular Alzak® aluminum optical components mounted to aluminum frame.

Socket: 4KV porcelain medium base (T-10 Incandescent and H.I.D.); T-4 Mini-can (Halogen); 13w GX23-2 2-pin base, 42w GX24q-3 4-pin base (Fluorescent).



Ballast: All electrical components are UL and CSA recognized with leads extending out of the swivel splice compartment. Normal power factor ballast rated -32°F starting (13 watt Twin Tube Fluorescent); High power factor ballast rated 0°F starting (42 watt Triple Tube Fluorescent); Reactor - High power factor with starting temperatures of -40°F. for HPS and -20°F. for MH lamp modes. For MH/120 volt, a step-up transformer is provided. For HPS/277 volt, a step-down transformer is provided (H.I.D.).

Finish: Super TGIC thermoset polyester powder coat paint, 2.5 mil nominal thickness, applied over a chromate conversion coating; 2500 hour salt spray test endurance rating. Standard colors are Black, Dark Bronze, Light Gray, Platinum Silver, Verde Green or White. Custom colors are available and subject to additional charges, minimum quantities and longer lead times. Consult representative.

Certification: UL Listed to U.S. and Canadian safety standards for wet locations. Fixture manufacturer shall employ a quality program that is registered to ISO 9001 standard.

CAUTION: Fixtures must be grounded in accordance with local codes or the National Electrical Code. Failure to do so may result in serious personal injury

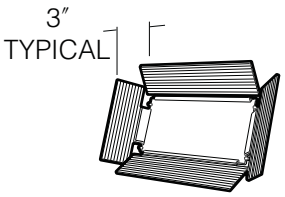
Fixture Options

Ordered Separately from Fixture

Barn Doors



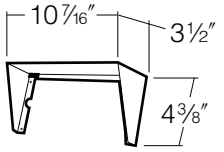
Cat. No. **(see right)**
☐ **No Option**

Extruded aluminum, fully adjustable doors with anti-reflection baffles. Individually swiveled and secured on a stainless steel frame. Easily attaches to pre-drilled holes in the lens frame with stainless steel screws. Provides beam and glare control.

CAUTION: Not recommended for ground mounted fixtures in vandal prone areas.

Cat. No.

☐ **BD-CFL/BL-P** Black
☐ **BD-CFL/DB-P** Dark Bronze
☐ **BD-CFL/LG-P** Light Gray
☐ **BD-CFL/PS-P** Platinum Silver
☐ **BD-CFL/WH-P** White



Fixed Hood

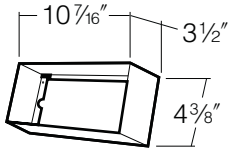
Cat. No. **(see right)**
☐ **No Option**

Formed .062 thick aluminum. Easily attaches to pre-drilled holes in the lens frame with stainless steel screws. Provides moderate shielding for glare control.

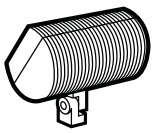
Cat. No.

☐ **FH-CFL/BL-P** Black
☐ **FH-CFL/DB-P** Dark Bronze
☐ **FH-CFL/LG-P** Light Gray
☐ **FH-CFL/PS-P** Platinum Silver
☐ **FH-CFL/WH-P** White

Full Shield



Cat. No. **(see right)**
☐ **No Option**



Formed .062 thick aluminum. Easily attaches to pre-drilled holes in the lens frame with stainless steel screws. Provides moderate shielding for glare control.

CAUTION: Do not use in locations where leaves and trash can collect inside shield.

Cat. No.

☐ **FS-CFL/BL-P** Black
☐ **FS-CFL/DB-P** Dark Bronze
☐ **FS-CFL/LG-P** Light Gray
☐ **FS-CFL/PS-P** Platinum Silver
☐ **FS-CFL/WH-P** White

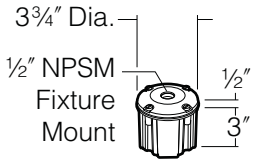
Mounting Options
Ordered Separately from Fixture

Brass In-Grade Architectural Junction Box
Cat. No. **(see right)**
☐ **No Option**

Die-cast brass with ½″ NPSM fixture mount and die-cast cover. Internal set screw provided for locking position. 21 cu in. internal volume.

☐ **JBR-2** (2) ½″ NPT in bottom
☐ **JBR-3** (2) ¾″ NPT in bottom
☐ **JBR-21** (2) ½″ NPT in sides, (2) ½″ NPT in bottom
☐ **JBR-24** (4) ½″ NPT in sides, (2) ½″ NPT in bottom

NOTE: All side taps provided with plugs.



25 Year Limited Warranty:

Solid brass Junction Boxes are warranted for 25 years, from date of sale, against manufacturing defects and failure due to corrosion.

Application Notes

- Creates a flush-mounted appearance.
- May be cast in concrete for increased stability.

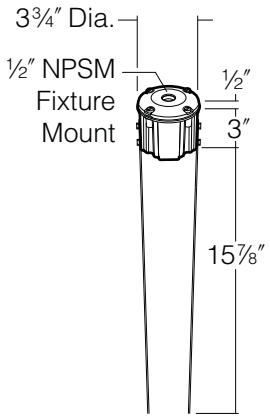
CAUTION: Fixture stem and swivel must not contact soil or standing water. Provide drainage away from Junction Box.

Brass In-Grade Staked Junction Box
Cat. No. **(see right)**
☐ **No Option**

Die-cast brass with ½″ NPSM fixture mount and die-cast cover. Internal set screw provided for locking position. 21 cu in. internal volume.

☐ **JBR30** (2) ½″ NPT in bottom, (2) 19″ long stakes
☐ **JBR32** (2) ½″ NPT in bottom, 9′ (SJTW-A) 3 wire cord and plug.

NOTE: JBR32 for use with incandescent, halogen, and fluorescent fixtures only.



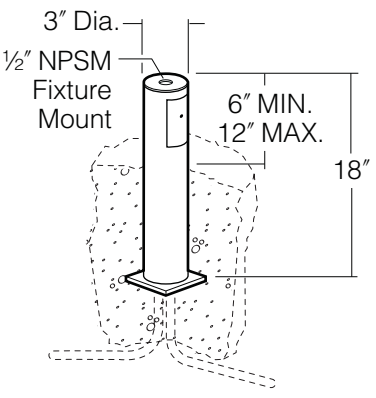
25 Year Limited Warranty:

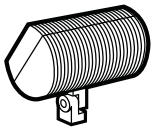
Solid brass Junction Boxes are warranted for 25 years, from date of sale, against manufacturing defects and failure due to corrosion.

Application Notes

- Creates a flush-mounted appearance.
- May be cast in concrete for increased stability.

CAUTION: Fixture stem and swivel must not contact soil or standing water. Provide drainage away from Junction Box.



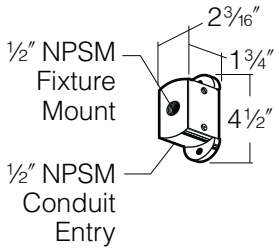


Stanchion Mount
Cat. No. **(see right)**
☐ **No Option**

3″ O.D. by .188″ wall cast low copper aluminum with ½″ NPSM fixture mount and hand hole with flush cover. Internal set screw fixture lock accessible through hand hole. Internal ground lug supplied with installed lead.

Cat. No.

☐ **SM18/BL-P** Black
☐ **SM18/DB-P** Dark Bronze
☐ **SM18/LG-P** Light Gray
☐ **SM18/PS-P** Platinum Silver
☐ **SM18/WH-P** White

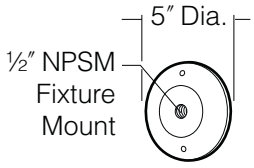


Mounting Options
Ordered Separately from Fixture

Surface Mount
Cat. No. **(see right)**
☐ **No Option**

Cast low copper aluminum with mounting ears for wood screw attachment to tree or wood structure. 5.5 cu in. splice area with gasketed cover. ½″ NPSM fixture mount and ½″ NPSM conduit or cord seal entry.

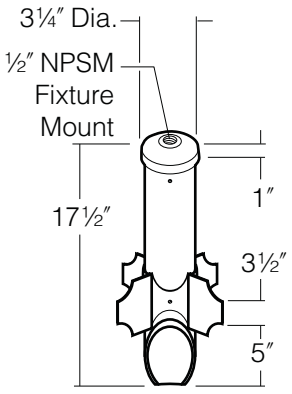
NOTE: Surface mount can be connected to conduit or outdoor cord with a waterproof cord seal (by others).



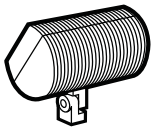
Cat. No.
☐ **J-27N/BL-P** Black
☐ **J-27N/DB-P** Dark Bronze
☐ **J-27N/LG-P** Light Gray
☐ **J-27N/PS-P** Platinum Silver
☐ **J-27N/WH-P** White

Architectural Wall Mount
Cat. No. **(see right)**
☐ **No Option**

Die-cast low copper aluminum with ½″ NPSM fixture mount. Internal set screw provided for locking position. Canopy attaches to stainless steel wall plate for mounting to any standard electrical outlet box.



Cat. No.
☐ **JW/BL-P** Black
☐ **JW/DB-P** Dark Bronze
☐ **JW/LG-P** Light Gray
☐ **JW/PS-P** Platinum Silver
☐ **JW/WH-P** White



PowerPost™ by
Engineered Products Co.
Cat. No. ☐ **EP17**
☐ **No Option**

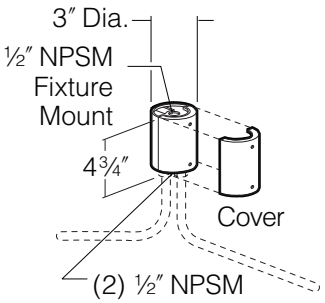
PVC fixture molded in black with ½″ NPT mount is corrosion free and UV resistant. Replaces EMT, conduit connectors and weatherproof boxes. 100% shatter resistant against denting and cracking. Angled bottom to eliminate cable congestion.

NOTE: Should be used with a UL listed fixture and grounding means (i.e., third wire) suitable for use in wet locations.

Mounting Options

Ordered Separately from Fixture

Architectural Junction Box



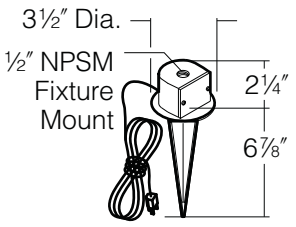
Cat. No. **(see right)**
☐ **No Option**

Die-cast low copper anodized aluminum cylindrical body and matching cover with ½″ NPSM fixture mount. One piece molded silicone cover gasket. Captive countersunk cover screws. Internal set screw provided for locking position. Two ½″ NPSM in bottom, 17 cu in. internal volume.

CAUTION: Junction Box must be installed high enough to avoid contact with soil or standing water.

Cat. No.

☐ **JB1/BL-P**	Black
☐ **JB1/DB-P**	Dark Bronze
☐ **JB1/LG-P**	Light Gray
☐ **JB1/PS-P**	Platinum Silver
☐ **JB1/WH-P**	White



Portable Spear Mount

Cat. No. ☐ **J-25N**
☐ **No Option**

Cast iron with ½″ NPSM fixture mount. Hot dip galvanized finish. 5.5 cu in. splice compartment. 9′ (SJTW-A) 3 wire cord and plug.

NOTE: For use with incandescent, halogen, and fluorescent fixtures only.

2" SSL WALL-MOUNT ACCENT

WMA2
LED

The 2" SSL Wall-mount Accent luminaire employs solid state technology to provide small scale LED solutions for canopy and sign lighting. All components are encapsulated inside a single small and attractive enclosure designed for superior thermal performance in weather resistant applications. Offered in a choice of light output levels, finishes, and color temperatures with a range of mounting and light control accessories, 2" SSL Accent will perform as specified. It's aluminum construction and solid-state light source will provide years of efficient service.

PROJECT:

TYPE:

Construction:
- Separately sealed optical chamber and integral driver chamber IP67
- Easy "two-screw" integral driver access, does not disturb optical chamber seal
- Epoxy encapsulated electrical wire pass-through anti-wicking barrier
- Flush lens prevents puddles/water deposits in upward facing applications
- Yoke mount provides 360˚ horizontal, 200˚ vertical adjustment
- Locking horizontal pivot system to yoke features all stainless steel construction for exceptional strength
- Knurled knob tool-less vertical aiming lock, with tamper-resistant tooled locking after final aiming
- Black satin polyester powder paint is standard, Type 3 marine-grade anodized finish optional
- Finned heat-sink housing provides exceptional thermal management

10 year limited warranty

RA4LRM

4" LED Recessed Downlight: Remodel Housing

Catalog No. RA4RLM-127K

Type

Project

Specifications/Features

Housing/Mounting

Specification grade 4" remodel housing, 5-1/4" O.D. plaster ring flange.
4-7/8" Ceiling opening. Works in ceiling thicknesses from 1/2" – 2".
16 Gauge galvanized steel housing with die-cast aluminum heat sink.
Requires minimum 3" clearance around fixture from insulation material.
Thermal protection provided in case of improper insulation use.
Heavy duty steel plaster ring is secured to ceiling by three (3) spring clamps.
LED drivers are fully accessible from below the ceiling, and with the spring-latch housing attachment, can be easily removed.
Quick-connect LED light engine enables easy installation and removal.

Electrical

UL8750 and Class 2 Compliant; RoHS Compliant, US only.
Output over voltage, over-current and short circuit protection.
Approved for through-circuit wiring. Max.: (4) 12 AWG (2in/2out).
Pre-wired junction box with convenient screwdriver pry-outs. (4) 1/2" concentric knockouts.

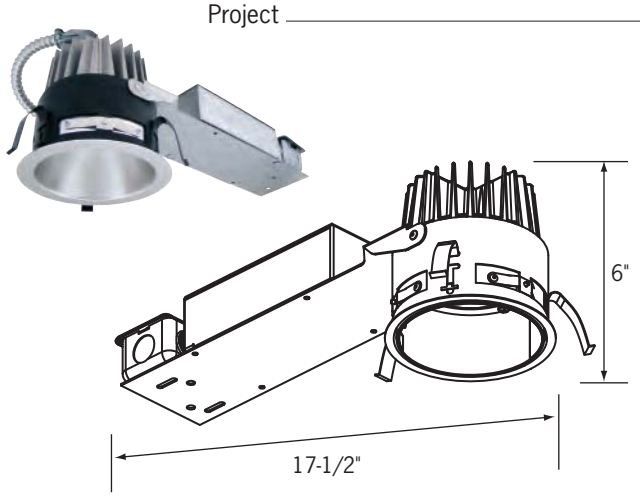
Lamp

Light engine consists of a high output multi-chip LED array arranged into a single LED package, enabling precise optical control without requiring lensing to diffuse multiple LED sources.
Excellent fixture-to-fixture color consistency within a 3-step MacAdam Ellipse tolerance.

Dimming

All RA4LRM downlights are available for non-dimming and dimming applications.
For non-dimming applications, use driver option D2.

Trims



Specification Grade trims are available in several different styles and finishes for your space. Featuring a high quality Alzak™ finish; optically designed for reduced glare while maintaining maximum lumen output. See attached trim spec sheet for information and details.

Warranty

This complete fixture is covered by Con-Tech's full five (5) year replacement guarantee after date of purchase.

Labels/Usage

CSAus Certified to UL Standards. Suitable for damp locations.
CSA Certified to UL Standards. Refer to trim spec sheet for Canada compliant trims.
Assembled in the USA.

Ceiling Opening: 4-7/8"
Ceiling Thickness: 1/2" – 5/8"

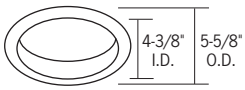
4" LED Recessed Downlight Trims

Catalog No CTR4327L

Type _____

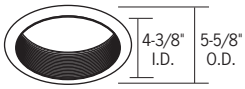
Project _____



Specification Grade Specular Reflector

Specification grade specular reflector: narrow beam clear, medium beam clear, wide beam clear, platinum, or white. OD: 5-5/8"; ID: 4-3/8"
Approved for use in U.S.; for Canadian approved trim add "–C" after finish code. Only the "–C" version is wet location certified for U.S. and Canada.

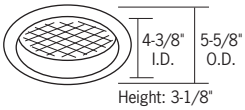
CST4322LN-CLR - Narrow Beam, Clear Reflector
CST4322LM-CLR - Medium Beam, Clear Reflector
CST4322LW-CLR - Wide Beam, Clear Reflector
CST4322L-PL - Platinum Reflector
CST4322L-WHT - White Reflector



Two Piece Reflector Trim

Two piece reflector: clear or white upper reflector, clear or platinum lower cone; Includes (1) LF20-CL glass lens. OD: 5-5/8"; ID: 3-1/2"
Approved for use in U.S. and Canada when glass lens is installed (in dry or wet locations).

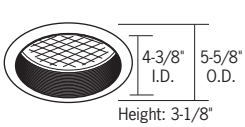
CTR4321L-CLR-(CLR,PL) - Clear Reflector
CTR4321L-WHT-(CLR,PL) - White Reflector



Two Piece Reflector/Baffle Trim

Two piece reflector: clear or white upper reflector, black or white lower baffle; Includes (1) LF20-CL glass lens. OD: 5-5/8"; ID: 3-1/2"
Approved for use in U.S. and Canada when glass lens is installed (in dry or wet locations).

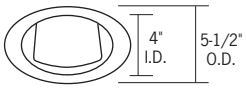
CTR4321L-CLR-(B,P) - Clear Reflector
CTR4321L-WHT-P-(B,P) - White Reflector



Two Piece Reflector Trim with Lens

Two piece reflector/baffle: Clear or white upper reflector, clear or platinum lower cone; regressed prismatic convex lens, Wet Location Listed. OD: 5-5/8"; ID: 3-7/8"
Approved for use in U.S. and Canada.

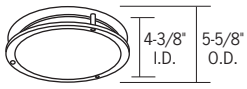
CTR4327L-CLR-(CLR,PL) - Clear Reflector
CTR4327L-WHT-(CLR,PL) - White Reflector



Two Piece Reflector/Baffle Trim with Lens

Two piece aluminum reflector and baffle with lens: Clear or white upper reflector, black or white lower baffle with regressed prismatic convex glass lens; 1-1/2" Regress. Wet Location Listed. OD: 5-5/8"; ID: 3-7/8"
Approved for use in U.S. and Canada.

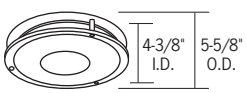
CTR4327L-CLR-(B,P) - Clear Reflector
CTR4327L-WHT-P-(B,P) - White Reflector



Lensed Wall Wash Trim

Lensed Wall Wash Trim; Clear, Platinum or White Reflector. OD: 5-1/2"; ID: 4"
Approved for use in U.S. and Canada.

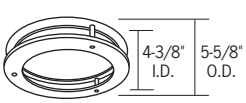
CTR4323L-CLR - Clear Reflector
CTR4323L-PL - Platinum Reflector
CTR4323L-WHT - White Reflector



Floating Glass Trim

Floating glass disc; clear or white reflector. 1-1/4" Drop from ceiling. Glass OD: 6-1/16".
Approved for use in U.S. and Canada.

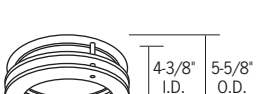
CTR4325L-(CLR,WHT)-P



Floating Glass Ring

Floating glass ring; clear or white reflector. 1-1/4" Drop from ceiling; 3-1/2" center hole. Glass OD: 6-1/16".
Approved for use in U.S.; for Canadian approved trim, add "–C" after the finish code. Only the "–C" version is wet location certified for both U.S. and Canada.

CTR4326L-(CLR,WHT)-P



Floating Single Acrylic Ring

Single sandblasted floating colored acrylic ring supported by three (3) posts. Clear or white reflector. 1-1/2" Drop from ceiling. Acrylic Ring OD: 6-7/8"; ID: 4-3/8".
Approved for use in U.S.; for Canadian approved trim, add "–C" after the finish code. Only the "–C" version is wet location certified for both U.S. and Canada.

CTR4324L-(CLR,WHT)-P
1AR4(B,F,G,R,Y)

Floating Double Acrylic Ring

Stacked floating colored, sandblasted acrylic rings supported by three (3) posts. Clear or white reflector. 2-3/4" Drop from ceiling. Acrylic Ring OD: 6-7/8"; ID: 4-3/8".
Approved for use in U.S.; for Canadian approved trim, add "–C" after the finish code. Only the "–C" version is wet location certified for both U.S. and Canada.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 05/10/2016

APPLICANT: Glen Cox

AGENDA ITEM: **SP2016-010;** *815 T. L. Townsend*

SUMMARY:

Discuss and consider a request by Glen Cox for the approval of site plan for an *office building* on a 2.60-acre tract of land identified as Lot 1, Block A, Corrigan Law Office Addition [*0.31-acres*] and Lot 8, Block A, Municipal Industrial Park Addition [*2.29-acres*], City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 805, 815 & 821 T. L. Townsend Drive, and take any action necessary.

PURPOSE:

The applicant is requesting approval of a Site Plan for the purpose of constructing a 4,988 sq. ft. office building adjacent to the existing office building located at 815 T. L. Townsend Drive. The 2.60-acre tract of land is zoned Light Industrial (LI) District and is generally located at the intersection of T. L. Townsend Drive and Whitmore Drive and is addressed as 805, 815 & 821 T. L. Townsend Drive.

DENSITY AND DIMENSIONAL REQUIREMENTS:

The proposed office building is permitted by right and could have been approved administratively by staff; however, the proposed site plan does not meet the necessary parking for the site and requires a shared parking agreement. This agreement requires approval by City Council prior to issuance of a building permit or certificate of occupancy. The site plan indicates approximately ten (10) parking spaces on site, with additional spaces located on the adjacent property. The site requires a minimum of seventeen (17) parking spaces for the use. By combining the existing office parking spaces (14) and the future buildings parking spaces (23), a total of forty-seven (47) parking spaces will be provided for the development. A shared parking agreement for the office complex will assure that adequate parking will be provided, which will exceed the minimum standards by four (4) parking spaces for the proposed office use.

The submitted site plan, building elevations, and landscape plans are in substantial compliance and conform to the technical requirements contained within the Unified Development Code (UDC). With the exception of the required parking agreement and the conditions as listed in the *Project Plan Review* as attached to this report, the site plan meets the intent of the UDC.

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*12,000*	*0.45-Acres; In Conformance*
Minimum Lot frontage	*100-Feet*[1]	*x>200-Feet; In Conformance*
Minimum Lot Depth	*125-Feet*	*x>100-Feet; In Conformance*
Minimum Front Yard Setback	*25-Feet*	*x>25-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*[2]	*x>10-Feet; In Conformance*
Minimum Side Yard Setback	*15-Feet*[3]	*x>10-Feet; In Conformance*
Maximum Building Height	*120-ft; 60-ft w/o SUP*	*28' 8"; In Conformance*
Max Building/Lot Coverage	*60%*	*~25.5%; In Conformance*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Masonry Requirement	*90%*	*x>90%; In Conformance*
Floor Area Ratio	*2:1*	*x<2:1; In Conformance*
Minimum Number of Parking Spaces	*17*	*10 Provided; Requires Waiver*
Minimum Stone Requirement	*20% ea facade*	*x>20%; In Conformance*
Minimum Landscaping Percentage	*10%*	*x>10%; In Conformance*
Maximum Impervious Coverage	*90% to 95%*	*<90%; In Conformance*

NOTES:
1. Minimum site frontage when adjacent to IH-30 .
2. Without fire retardant wall, or alley: ten feet, or as required by building and/or fire codes.
3. Without fire retardant wall: 15 feet plus one-half of the building height over 36 feet.

VARIANCES AND EXCEPTION REQUEST:

The applicant is requesting an exception to the *Unified Development Code* (UDC) for the section outlined below. As a note, an exception request of the UDC requires passage of a simple majority vote of those members present of the City Council for approval. The request is as follows:

a) *Article VI, Location of commercial parking and loading spaces.* An exception to allow for not meeting the parking requirements for a development as established in *Art. VI, Section 3.3* of the Unified Development Code *(UDC)* and requiring approval of an off-site parking agreement. The UDC reads as follows:

Off-site parking agreement.

1. When the required off-street parking spaces are not located on the same lot with the building or use served, or when the required off-street parking spaces are provided collectively or used jointly by two or more establishments, a written agreement which ensures the retention of such spaces for this purpose, and for a period of not less than two years, shall be drawn and executed by the parties concerned, approved as to form by the city attorney, and filed with the application for a building permit or certificate of occupancy if a change in use is involved.

2. If the off-site parking is terminated for any reason, then alternative parking meeting the standards of this article, shall be required, or the property shall lose its certificate of occupancy.

It should be noted that the parking agreement requires a discretionary approval of the City Council. If approved, staff would recommend that the parking agreement be signed and fully executed prior to the submittal of civil engineering plans.

RECOMMENDATIONS:

Should the Planning and Zoning Commission choose to approve the applicant's request, then the following conditions of approval should be adopted with this case:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

   a. Approval of an off-site parking agreement by the City Council prior to the submittal of civil engineering plans.

2) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other

applicable regulatory requirements administered and/or enforced by the state and federal government.

The following staff comments are to be addressed and resubmitted no later than Tuesday, May 3, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

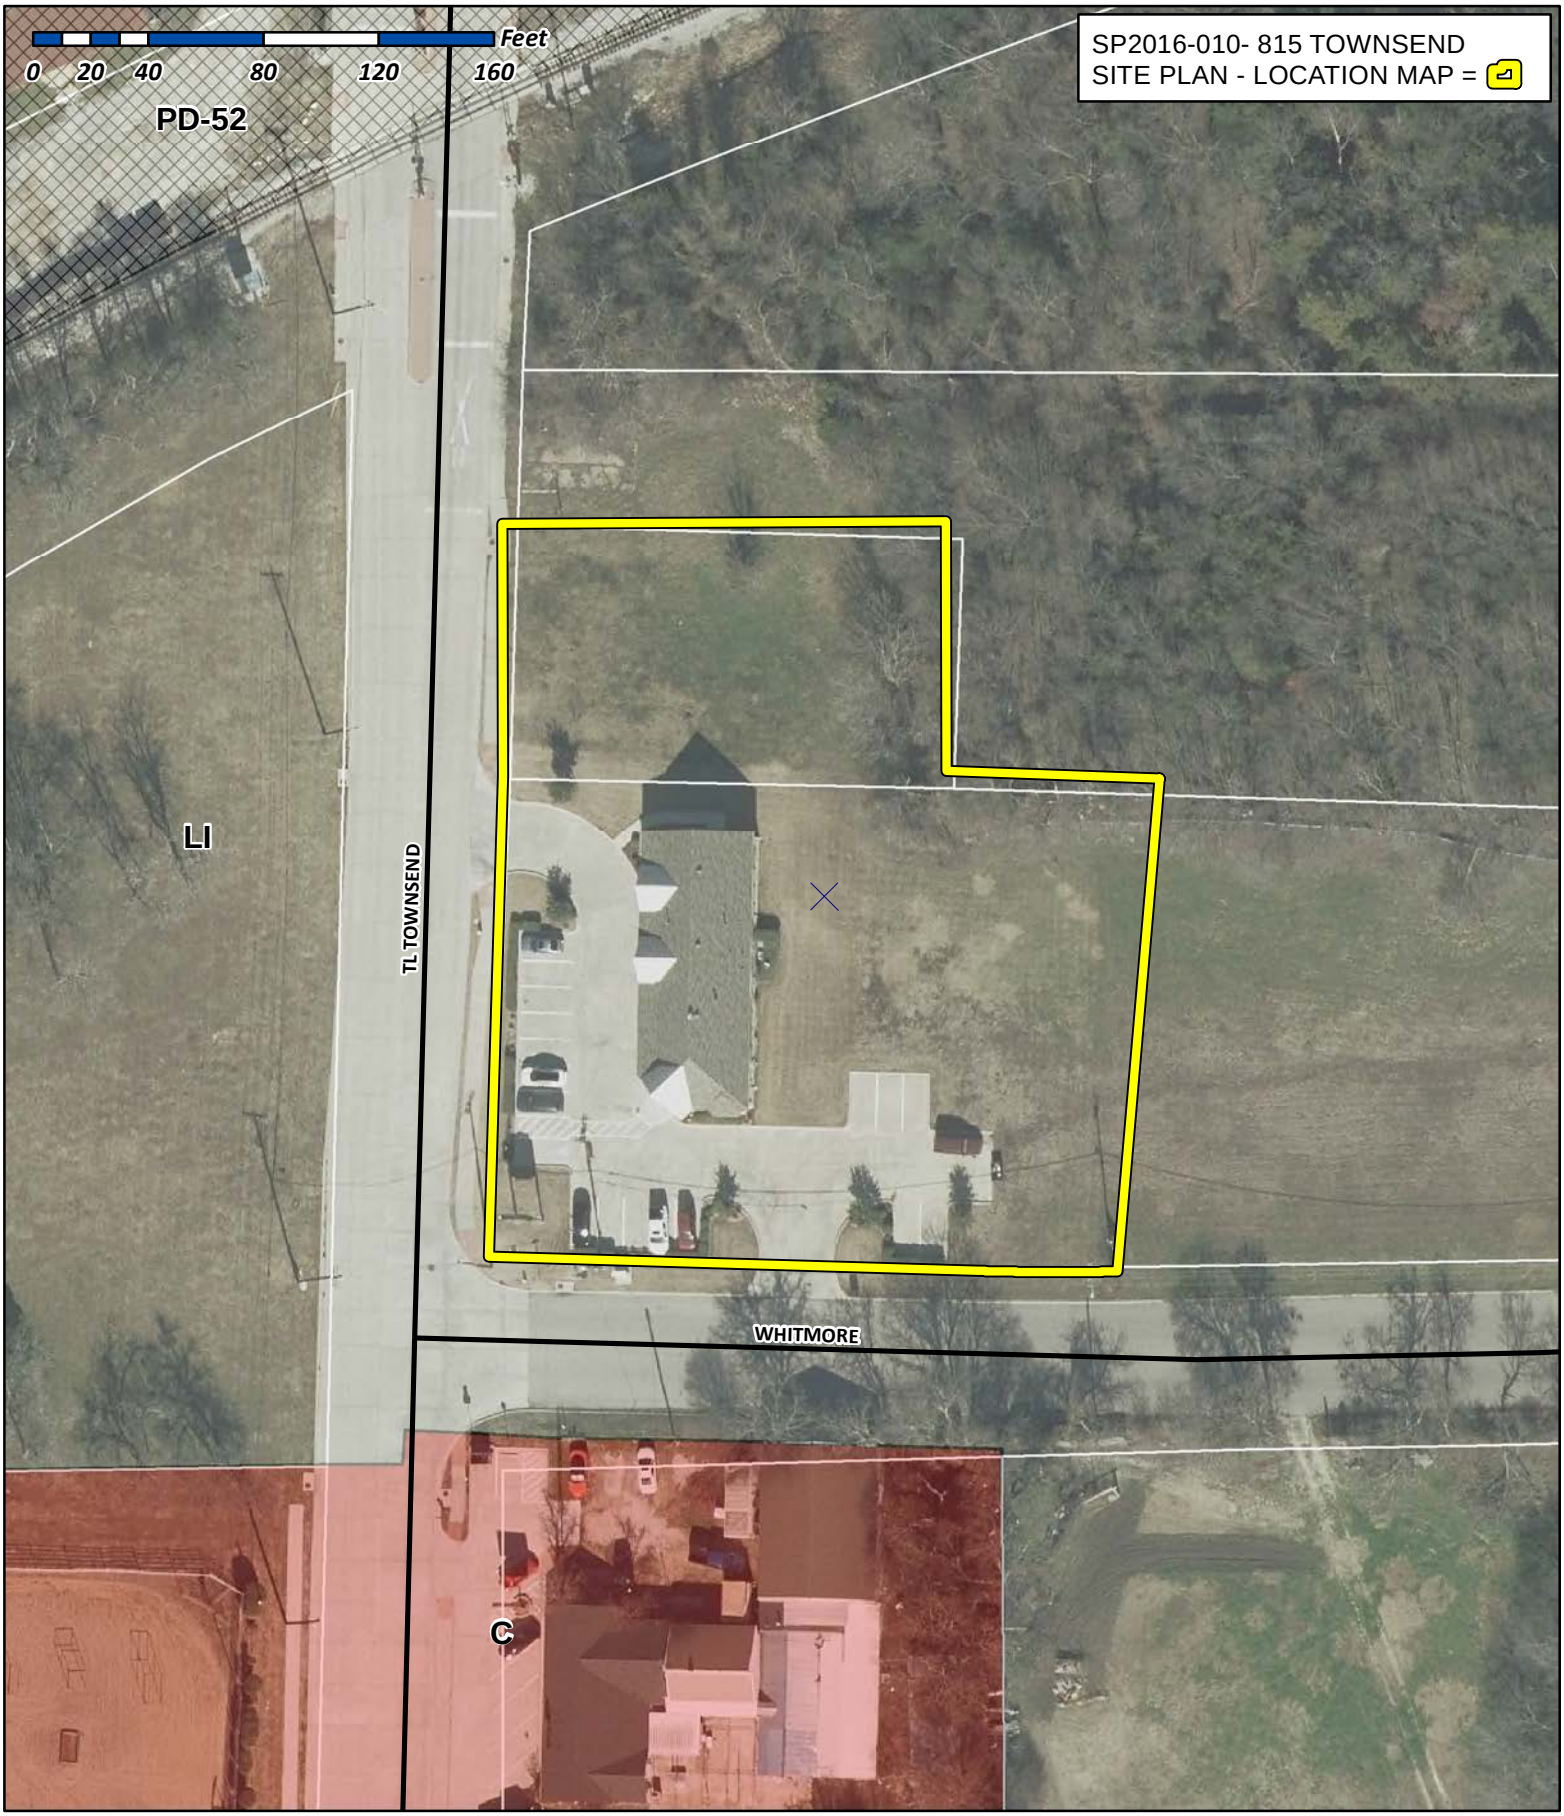
1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final/Replat Plat prior to issuance of a Certificate of Occupancy (CO).
3. Label site plan documents with "Case No. SP2016-010" at the lower right corner of each plan.
4. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department.

Please address the following Planning Comments for each plan submitted:

Site Plan:
1. Re-label Firelane,...etc. as "24-ft Firelane, Public Access, & Drainage Easement" including the 'Future Development' lot.
2. Use a gray scale for the area labeled as "Future Development', including the parking area not being considered with this submittal.
3. Indicated the outer extremes (with arrows) of the Detention Area to the east and relabel as "Detention & Drainage Easement."
4. Replat & abandon easements not necessary to the future development of the Corrigan Law Offfice addition [Reference SP2013-008].
5. According to the UDC, Article VI, Sec. 3.3, a parking agreement must be approved by the City Council prior to the issuance of a building permit or certificate of occupancy. ** Requires a simple majority vote of council for approval **
6. Correct 'Parking Requirements' legend to include the required future development parking space totals.

Landscape Plan:
1. Chage the minimum caliper inch requirement to reflect a minimum of 3" caliper for each 20,000 sq.ft.

Photometric Plan:
1. A photometric plan meeting the standards established in the UDC must be submitted for all exterior lights to be used on the property. Provide cut sheets for all exterior lighting sources, and a detail of the lighting pole standards to be used.



Building Elevations:
1. The building elevations submitted meet the intent of the UDC.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Action: May 10, 2016 (6:00 p.m.)

City Council - Action: May 16, 2016 (6:00 p.m.) [FOR APPROVAL OF THE PARKING AGREEMENT]

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: May 10, 2016

SUBJECT: SP2014-011; *Channell Alternative Landscape Plan*

On July 8, 2014, the Planning and Zoning Commission approved a site plan for a 295,910 SF office, manufacturing and warehouse facility identified as the future corporate headquarters for the *Channell Commercial Corporation*. As part of this case, a landscape plan conforming to the requirements for a property situated in the SH-205 By-Pass Overlay (SH-205 BY OV) District and a Light Industrial (LI) District was approved. The applicant has since requested to change the landscape plan on the grounds that the previously approved plan does not scale well in relation to the building and the intersection at Justin Road and John King Boulevard. Specifically, the applicant has stated that under the current plan, the building appears to be too close to John King Boulevard and that by changing the landscape plan -- *by adding berms and alternative plantings* -- the look and scale of the site can be improved.

The new plan submitted by the applicant proposes planting 22 canopy trees along John King Boulevard and 29 canopy trees along Justin Road. The canopy trees will be a mixture of Cedar Elm and Live Oak Trees. This conforms to the Unified Development Code (UDC) requirement of three (3) canopy trees per 100-linear feet of street frontage along John King Boulevard and one (1) canopy tree per 50-linear feet of frontage along Justin Road. In lieu of the accent trees required along John King Boulevard (*i.e. four [4] accent trees per 100-linear feet of street frontage*) the applicant is proposing to plant 71, 100-gallon/4-inch caliper Nellie R. Stevens (*i.e. evergreen screening shrub*), 33 of which will be located along John King Boulevard and 38 adjacent to Justin Road. The applicant will also be incorporating 17, eight (8) foot tall Crepe Myrtle Trees in front of the building adjacent to the intersection of John King Boulevard and Justin Road.

As part of this alternative landscape plan, the applicant is requesting that the Planning and Zoning Commission and City Council waive the tree proximity requirement for parking spaces. According to Section 5.9, *Parking Lot Landscaping*, of Article VIII, *Landscape Standards*, of the UDC, "(n)o required parking space may be located more than 80-feet from the trunk of a large canopy tree." In this case, the applicant is proposing to phase in triangular shade structures that would inhibit the ability to plant trees in the landscape medians located in the parking areas. It should be noted that the vast majority of the parking areas meet this requirement; however, there are a few parking spaces adjacent to Justin Road, and a larger parking area on the north side of the property that will not meet this requirement.

Another aspect of the revised landscape plan is the inclusion of an amphitheater and public meeting space that will be incorporated adjacent to Justin Road (*west of the roundabout entryway*). This public meeting space is surrounded by a concrete wall that will visually match the exterior of the building. This type of wall will also be utilized in the front of the property concealing a curvilinear plaza below the curtain wall on the front façade of the building. A berm will also be utilized at the corner of Justin Road and John King Boulevard to give the illusion of depth to the site.

In previous cases, the City Council has approved alternative landscape plans -- *like the one being proposed* -- when they find that the proposed plan meets the spirit and intent of the landscape ordinance. It should be noted that a ¾-majority vote would be required to approve the plan since some of the landscaping requirements are tied to overlay district standards. In the attached packet staff has provided the alternate landscape plan, a proposed hardscape plan, and renderings of plan for the Planning and Zoning Commission's review. The projected City Council date for this case will be ***Monday, May 16, 2016***.

BERMUDA SOD NOTES

1. WATER SETTLE ALL TRENCHING ON SITE IN SOD AREA.
2. SITE SOIL TO BE TILLED, 6" DEEP BY MECHANICAL TILLER, BREAKING DOWN CLODS TO MAX 1" SIZES. REMOVING ALL ROCKS OVER 1" DIA AND DEBRIS IN ALL AREAS.
3. LEVEL TO DRAIN FINE GRADE SMOOTH TO DRAIN. FINISH WITH LARGE HAND RAKE SURFACE.
4. INSTALL 1" COMPOST, RAKE SMOOTH.
5. APPLY SLOW RELEASE FERTILIZER, PER MANUFACTURER INSTRUCTIONS.
6 INSTALL SOD, IN LARGE ROLLS, STAGGERING EDGES AND FITTING WITH NO GAPS ARE ALLOWED.
7. WATER (3) TIMES A DAY (4) FOUR MINUTES A DAY FOR 7 DAYS TO NOT LET ROOTS DRY OUT. ADJUST TIME AS REQUIRED TO NOT OVER WATER.
8. CONTRACTOR TO MAINTAIN GRASS AND INCLUDE (1) ONE MOWING IN BASE BID AFTER SOD REACHES 1.5"–2" HIGH..

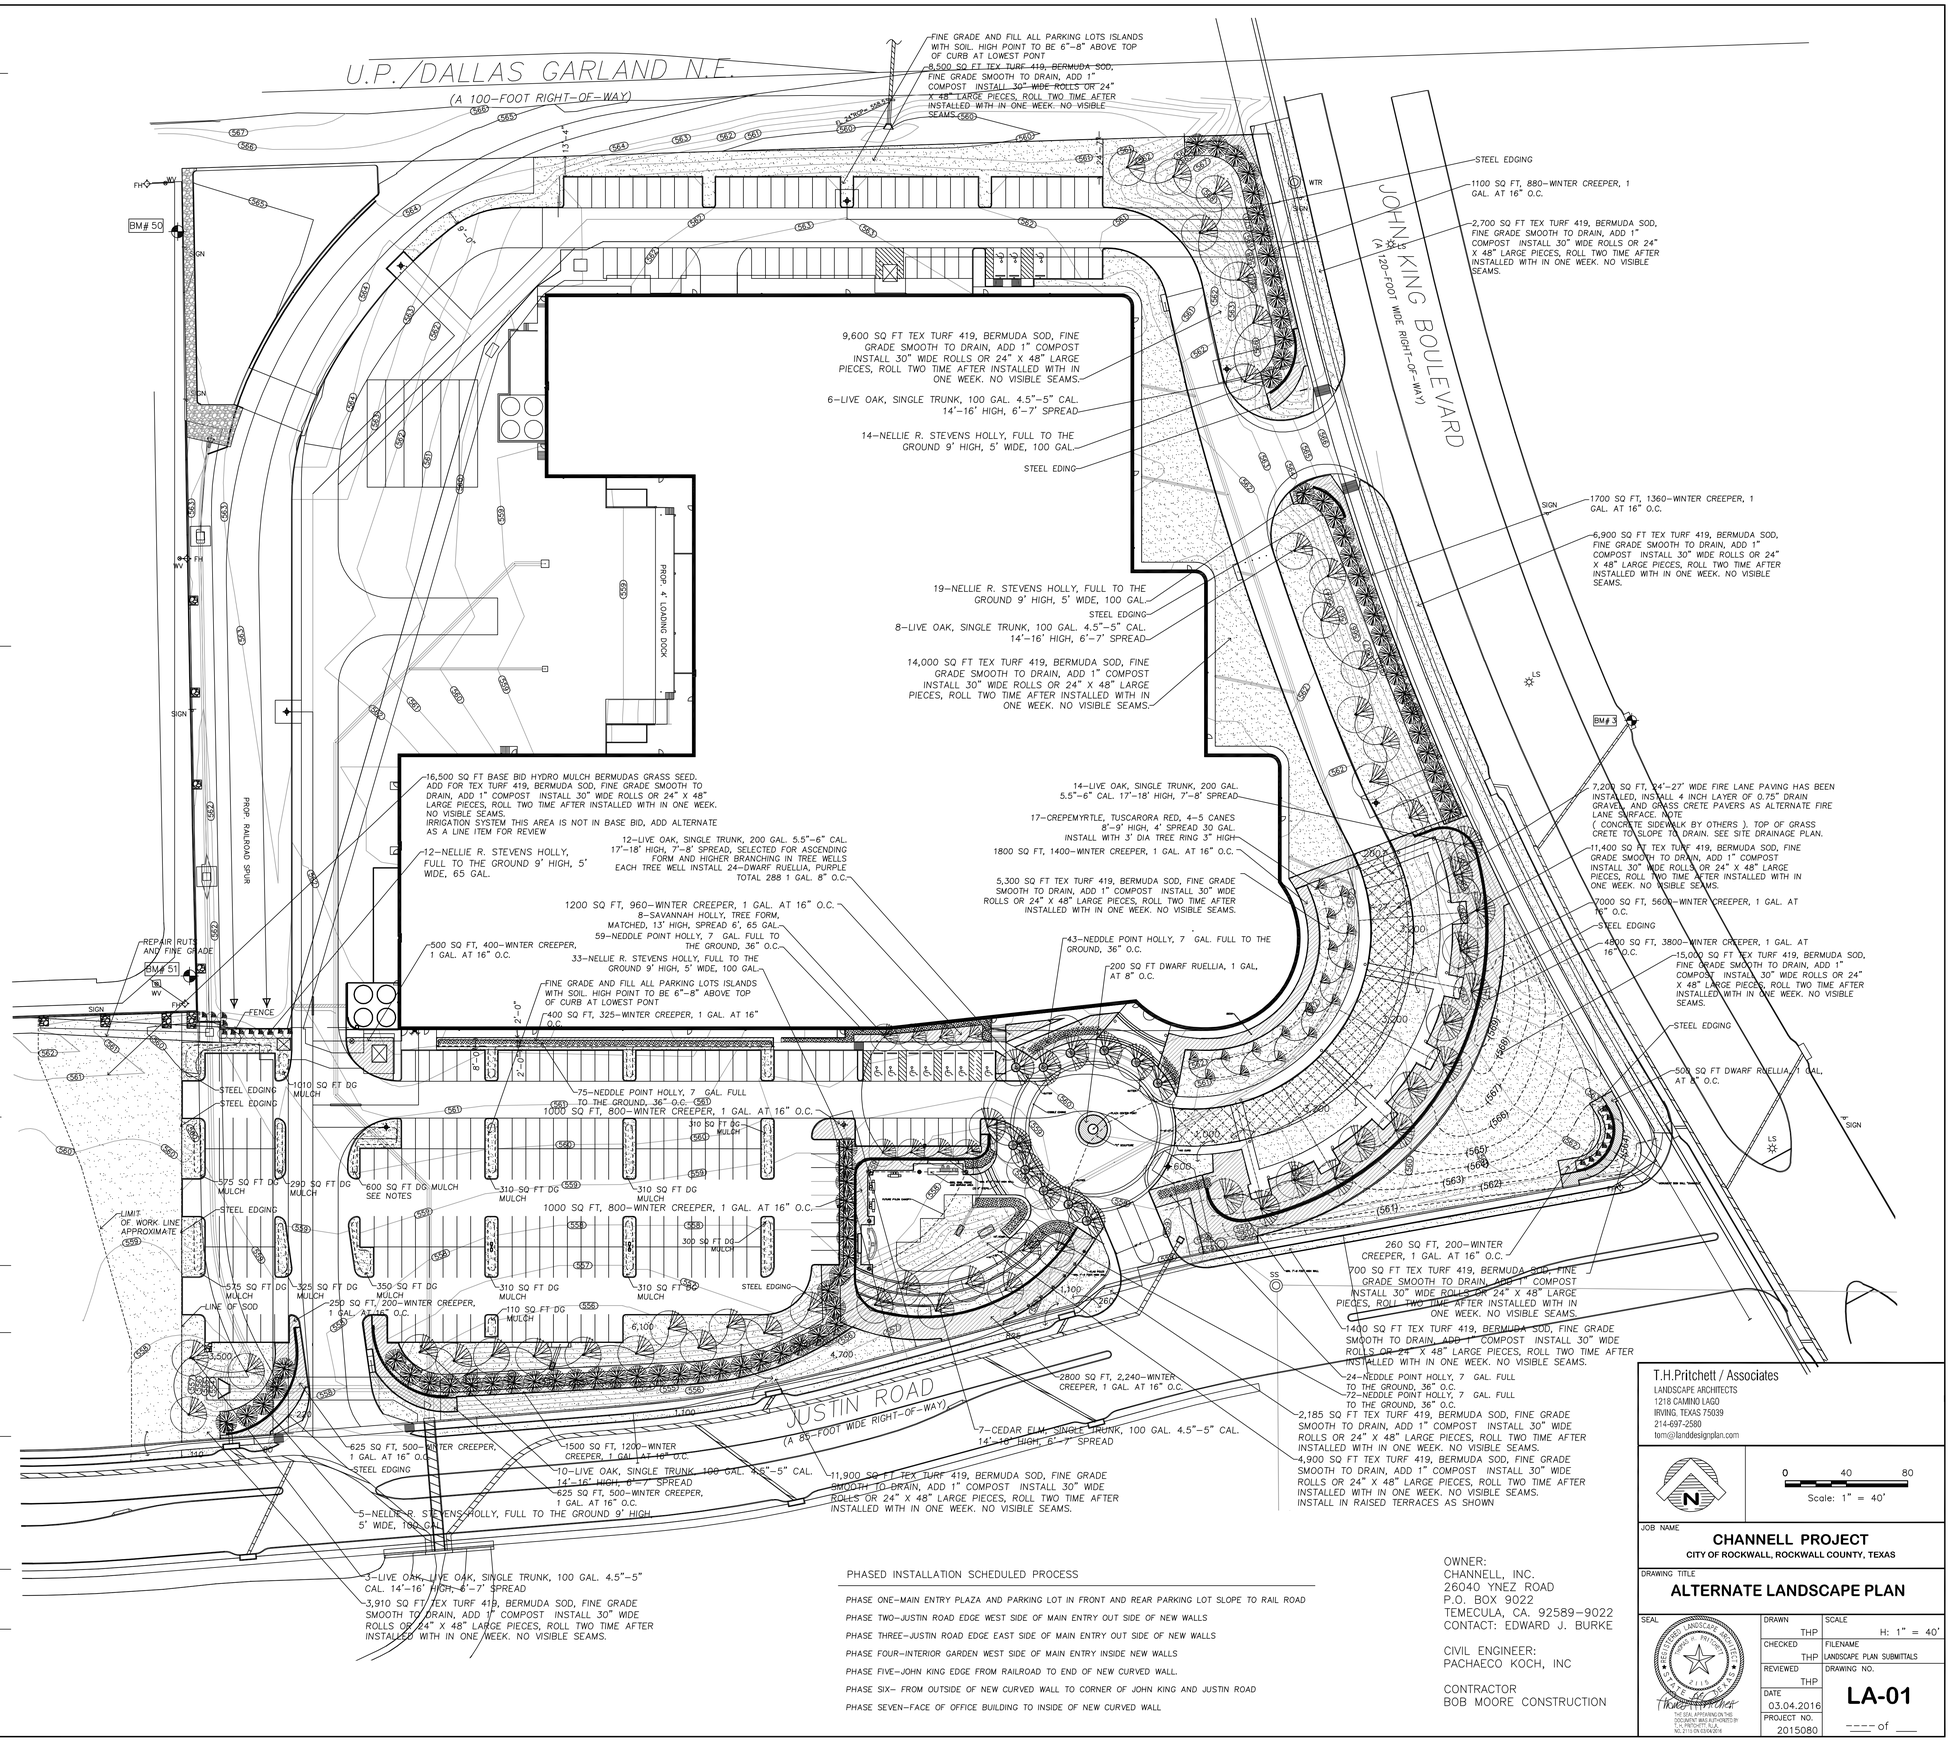
LANDSCAPE IRRIGATION WARRANTEE

1. LANDSCAPE CONTRACTOR SHALL WARRANTEE ALL PLANT MATERIAL FOR A PERIOD OF ONE YEAR FROM TIME OF FINAL ACCEPTANCE AND PAYMENT OF THE COMPLETED WORK.
2. IRRIGATION SYSTEM SHALL BE WARRANTED FOR ONE YEAR PARTS AND LABOR FOR NEW ITEMS.

ROOT BARRIERS AT UTILITIES AND PAVING EDGES

1. NO TREE SHALL BE PLANTED WITHIN 5 FEET OF ALL UTILITIES WATER, SEWER, ELEC, CABLE, STORM, ECT.
2. ROOT BARRIERS ARE REQUIRED ON ALL TREES WITHIN UTILITY EASEMENTS AND AT EDGE OF PAVING WITHIN 5 FEET. PROVIDE ON ALL TREES SHOWN, UNLESS NOTED
3. DEEP ROOT BARRIERS, 1–800–458–7668, INSTALL UB–48–2 PER SPECIFICATIONS AT EACH TREE ON SIDE OF PAVING OR UTILITY. INCLUDE 2" WIDE TRENCH OF 3/4" DRAIN GRAVEL ON OUT SIDE OF BARRIER, 24" DEEP. BARRIER TO EXTEND 1" ABOVE GRADE.

CITY OF ROCKWALL MAINTENANCE NOTE;



MAINTENANCE: THE CURRENT OWNER AND SUBSEQUENT OWNERS OF THE LANDSCAPED PROPERTY, OR MANAGER OR AGENT OF THE OWNER, SHALL BE RESPONSIBLE FOR MAINTENANCE OF ALL THE LANDSCAPED AREAS AND MATERIALS, REQUIRED BUFFER YARD AREAS AND MATERIALS AND REQUIRED SCREENING MATERIALS. SAID AREAS MUST BE MAINTAINED O AS TO PRESENT A HEALTHY, NEAT AND ORDERLY APPEARANCE AT ALL TIMES AND SHALL BE KEPT FREE OF REFUSE AND DEBRIS. MAINTENANCE WILL INCLUDE REPLACEMENT OF ALL DEAD PLANT MATERIAL IF THAT MATERIAL WAS USED TO MEET THE REQUIREMENTS OF THE UDC. ALL SUCH PLANTS SHALL BE REPLACED WITHIN (6) SIX MONTHS OF NOTIFICATION, OR BY THE NEXT PLANTING SEASON, WHICH EVER COMES FIRST. A PROPERTY/HOMEOWNERS ASSOCIATION MAY ASSUME RESPONSIBILITY FOR MAINTENANCE OF COMMON AREAS.

IRRIGATION AFFIDAVIT

ALL REQUIRED LANDSCAPE AREAS SHALL BE PROVIDED WITH AN AUTOMATIC UNDERGROUND IRRIGATION SYSTEM WITH RAIN AND FREEZE SENSORS AND EVAPOTRANSPORATIVE (ET) WEATHER BASED CONTOLLERS ANS SAID IRRIGATION SYSTEM SHALL BE DESIGNED BY A QUALIFIED PROFESSIONAL AND INSTALLED LICENSED IRRIGATOR.

BIDDING NOTES

1. SEE LANDSCAPE PLAN AND ALTERNATE BIDS NOTED FOR SOLID SOD, HYDRO–MULCH.
2. BIDDERS TO PROVIDE SEPARATE BID TO INCREASE SIZES OF TREES NOTED BELOW AS ADD ALTERNATES– PROVIDE COST ABOVE THE BASE BID COST FOR EACH ITEM.
   LIVE OAK BASE BID 100 GAL. ADD FOR 200 GAL.
   CEDAR ELM BASE BID 100 GAL. ADD FOR 200 GAL.
   SAVANNAH HOLLY BASE BID 65 GAL. ADD FOR 100 GAL.
   NELLIE R. STEVENS BASE BID 100 GAL. ADD FOR 200 GAL.
   WINTER CREEPER BASE BID 1 GAL. DEDUCT FOR 4" POTS

AGENDA
PLANNING AND ZONING COMMISSION WORK SESSION
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
May 31, 2016
6:00 P.M.

CALL TO ORDER

CONSENT AGENDA

1. **Approval of Minutes** for the *May 10, 2016* Planning and Zoning Commission meeting.

2. **P2016-021** **(Korey)**
   Discuss and consider a request by Robert A. Howman of Glenn Engineering on behalf of James Watson of the Rockwall Independent School District for the approval of a preliminary plat for Lot 1, Block A, Rockwall – CCA Addition being a 173.00-acre tract of land identified as Tract 7-1 of the W. H. Baird Survey, Abstract No. 25, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 By Pass Corridor (SH-205 BY OV) District, situated south of the intersection of SH-276 and John King Boulevard, and take any action necessary.

3. **P2016-022** **(Korey)**
   Discuss and consider a request by Rick Bates of RLK Engineering, Inc. on behalf of James Watson of the Rockwall Independent School District for the approval of a preliminary plat for Lot 1, Block 1, Dobbs Elementary Addition being a 17.464-acre tract of land identified as a portion of Rockwall School Addition No. 1, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated at the northeast corner of the intersection of E. Washington Street and S. Clark Street, and take any action necessary.

4. **P2016-026** **(David)**
   Discuss and consider a request by Debra Cox of JDJR Engineers & Consultants, Inc. on behalf of Don French of the First Baptist Church of Rockwall for the approval of a replat for Lot 6, Block M, Sanger Brothers Addition being a 1.8046-acre tract of land identified as Lots 1-5, Block M, Sanger Brothers Addition, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, located at the southwest corner of the intersection of W. Ross Street and S. Goliad Street [*SH-205*], and take any action necessary.

APPOINTMENTS

5. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

PUBLIC HEARING ITEMS

6. **Z2016-013** **(David)**
   Hold a public hearing to discuss and consider a request by Garrett Lust of Pointe Land & Development, LLC on behalf of Marven Wu of West Union Investment, Co. for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single-Family 10 (SF-10) District land uses on a 81.49-acre parcel of land identified as Tract 16 of the J. A. Ramsey Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, located on Rochell Road south of the intersection of Rochell Road the SH-276, and take any action necessary.

ACTION ITEMS

7. **SP2016-006** **(Ryan)**
   Discuss and consider a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Michael James of U. V. Real Estate, LP for the approval of a site plan for an *Auto Body Shop* (*i.e. Service King Collision Repair*) on a 3.2039-acre tract of land described as Tract 7-01 of the J. Lockhart Survey, Abstract No. 134, City of Rockwall, Rockwall County, Texas, located at 1780 E IH-30, zoned Light Industrial (LI) District, situated within the IH-30 Overlay (IH-30 OV) District, and take any action necessary.

DISCUSSION ITEMS

8. **Z2016-017** **(Ryan)**
   Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 1, *Land Use Schedule*, and Section 2.1.8, *Auto and Marine-Related Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code for the purpose of changing the requirements for *Used Motor Vehicle Dealerships*, and take any action necessary.

9. **Z2016-018** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Jeff Parker of the Skorburg Company on behalf of BH Balance IV, LLC for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan to allow for additional single-family residential lots and for the purpose of incorporating changes to the development standards contained in *Exhibit 'C'* of *Ordinance 14-26* for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, Texas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary.

10. **P2016-020** **(David)**
    Discuss and consider a request by Cameron Slown of FC Cuny Corporation on behalf of Randal Currington of Fontanna Ranch Phase II, LP for the approval of a final plat for Phase II of the Fontanna Ranch Subdivision containing 49 single-family residential lots on a 19.167-acre tract of land identified as Tract 5 of the J. A. Ramsey Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 64 (PD-64) for Single Family 16 (SF-16) land uses, generally located east of FM-549 and south of SH-276, and take any action necessary.

11. **P2016-023** **(Ryan)**
    Discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (*R. & R. Hance Investments, LP*) for the approval of a master plat/open space plan for the Saddle Star South Subdivision containing 138 single-family residential lots on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of Featherstone Drive John King Boulevard, and take any action necessary.

12. **P2016-024** **(Ryan)**
    Discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (*R. & R. Hance Investments, LP*) for the approval of a preliminary plat for the Saddle Star South Subdivision containing 138 single-family residential lots on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of Featherstone Drive John King Boulevard, and take any action necessary.

13. **SP2016-012** **(David)**
    Discuss and consider a request by Chet Leugers, PE of Pacheco Koch on behalf of Michael Hampton of the Rockwall Economic Development Corporation for the approval of a site plan for a warehouse/manufacturing facility on a 30.6-acre portion of a larger 86.806-acre tract of land identified as Tract 1 of the H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the northwest corner of Discovery Boulevard and Data Drive, and take any action necessary.

14. **SP2016-013** **(David)**
    Discuss and consider a request by Clay Cristy of ClayMoore Engineering on behalf of the owner Tom R. Briscoe of Briscoe Oil, Inc. for the approval of a *PD Site Plan* for an urgent care facility on a 1.042-acre tract of land identified as Lots 1 & 2, Block A, Briscoe/Hillcrest Addition and Tract 41-2 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Summit Office Subdistrict and the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of Horizon Road [FM3097] and the IH-30 frontage road, and take any action necessary.

15. **SP2016-014** **(Korey)**
    Discuss and consider a request by Ron Valk of Platinum Storage Rockwall, LLC on behalf of Shawn Valk of Platinum Construction for the approval of site plan for a multi-tenant office/warehouse facility on a 2.692-

acre parcel of land identified as Lot 3, Block A, Platinum Storage Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, located on the west side of T. L. Townsend Drive, south of the intersection of T. L. Townsend Drive and IH-30, and take any action necessary.

16. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2016-016: Final Plat for Wanda Ridge Estates Addition [*Approved*]
- ✓ Z2016-012: SUP for a Retail Store w/ Fuel Sales at 2901 Ridge Road (*1st Reading*) [*Approved*]
- ✓ Z2016-013: Zoning Change from AG to PD for Terracina Estates [*Postponed June 6, 2016 Meeting*]
- ✓ Z2016-014: Zoning Change from AG to PD for the Ridgecrest Subdivision (*1st Reading*) [*Approved*]
- ✓ Z2016-015: Amendment to PD-79 (*1st Reading*) [*Approved*]
- ✓ Z2016-016: Text Amendment to the SRO District (*1st Reading*) [*Approved*]
- ✓ Z2016-017: Text Amendment for Used Motor Vehicle Sales [*Postponed to the June 6, 2016 Meeting*]
- ✓ SP2016-008: Variances for Carmel Car Wash [*Approved*]
- ✓ SP2016-009: Variances for Panera Bread [*Approved*]
- ✓ SP2016-010: Parking Agreement for 805, 815 & 821 T. L. Townsend Drive [*Approved*]
- ✓ SP2014-011: Alternate Landscape Plan for Channell Commercial Corporation [*Approved*]

ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 772-6406 for further information.

I, Laura Morales, Planning & Zoning Coordinator of the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 27th day of May, 2016 at 5:00 p.m., and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

AGENDA
PLANNING AND ZONING COMMISSION PUBLIC HEARING
City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
June 14, 2016
6:00 P.M.

CALL TO ORDER

CONSENT AGENDA

1. **Approval of Minutes** for the *May 31, 2016* Planning and Zoning Commission meeting.

2. **P2016-020** **(David)**
   Discuss and consider a request by Cameron Slown of FC Cuny Corporation on behalf of Randal Currington of Fontanna Ranch Phase II, LP for the approval of a final plat for Phase II of the Fontanna Ranch Subdivision containing 49 single-family residential lots on a 19.167-acre tract of land identified as Tract 5 of the J. A. Ramsey Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 64 (PD-64) for Single Family 16 (SF-16) land uses, generally located east of FM-549 and south of SH-276, and take any action necessary.

3. **P2016-028** **(Ryan)**
   Discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of the owner Lakeside Church of Christ of Rockwall for the approval of a master plan/ open space plan for the Ridgecrest Subdivision containing 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.

4. **P2016-029** **(Ryan)**
   Discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of the owner Lakeside Church of Christ of Rockwall for the approval of a preliminary plat for the Ridgecrest Subdivision containing 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.

APPOINTMENTS

5. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

PUBLIC HEARING ITEMS

6. **Z2016-017** **(Ryan)**
   Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 1, *Land Use Schedule*, and Section 2.1.8, *Auto and Marine-Related Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code for the purpose of changing the requirements for *Used Motor Vehicle Dealerships*, and take any action necessary.

7. **Z2016-018** **(Ryan)**
   Hold a public hearing to discuss and consider a request by Jeff Parker of the Skorburg Company on behalf of BH Balance IV, LLC for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan to allow for additional single-family residential lots and for the purpose of incorporating changes to the development standards contained in *Exhibit 'C'* of *Ordinance 14-26* for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, Texas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary.

ACTION ITEMS

8. **MIS2016-008** **(Korey)**
   Discuss and consider a request by Theresa and Ronald Briones for the approval of an exception to the minimum masonry requirements stipulated in Section 3.1, *General Residential District Standards*, of Article V, *District Development Standards*, of the Unified Development Code, for a 0.248-acre parcel of land identified as part of Lot 7, Block 5, Garner Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 905 N. Alamo Street/906 N. West Street, and take any action necessary.

9. **SP2015-018** **(David)**
   Discuss and consider a request by Brad Williams of Winstead PC on behalf of RaceTrac for the approval of an amended site plan for a retail store with gasoline sales on a 2.46-acre parcel of land identified as Lots 1R & 2R of the Woods at Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) District, located at the southeast corner of the intersection of Ridge Road and Yellow Jacket Lane, and take any action necessary.

10. **SP2016-012** **(David)**
    Discuss and consider a request by Chet Leugers, PE of Pacheco Koch on behalf of Michael Hampton of the Rockwall Economic Development Corporation for the approval of a site plan for a warehouse/manufacturing facility on a 30.6-acre portion of a larger 86.806-acre tract of land identified as Tract 1 of the H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the northwest corner of Discovery Boulevard and Data Drive, and take any action necessary.

11. **SP2016-013** **(David)**
    Discuss and consider a request by Clay Cristy of ClayMoore Engineering on behalf of the owner Tom R. Briscoe of Briscoe Oil, Inc. for the approval of a *PD Site Plan* for an urgent care facility on a 1.042-acre tract of land identified as Lots 1 & 2, Block A, Briscoe/Hillcrest Addition and Tract 41-2 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the *Summit Office Subdistrict* and the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of Horizon Road [FM3097] and the IH-30 frontage road, and take any action necessary.

12. **SP2016-014** **(Korey)**
    Discuss and consider a request by Ron Valk of Platinum Storage Rockwall, LLC on behalf of Shawn Valk of Platinum Construction for the approval of site plan for a multi-tenant office/warehouse facility on a 2.692-acre parcel of land identified as Lot 3, Block A, Platinum Storage Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, located on the west side of T. L. Townsend Drive, south of the intersection of T. L. Townsend Drive and IH-30, and take any action necessary.

DISCUSSION ITEMS

13. Director's Report of post Council meeting outcomes of Planning & Zoning cases **(Ryan)**.

- ✓ P2016-021: Preliminary Plat for Lot 1, Block A, Rockwall CCA Addition [*Approved*]
- ✓ P2016-022: Preliminary Plat for Lot 1, Block 1, Dobbs Elementary Addition [*Approved*]
- ✓ P2016-026: Lot 6, Block M, Sanger Brothers Addition [*Approved*]
- ✓ SP2016-006: Variances for Service King Collision Repair [*Approved*]
- ✓ Z2016-012: SUP for Kroger Gas Station at 2901 Ridge Road (*2nd Reading*) [*Approved*]
- ✓ Z2016-013: Terracina Estates (AG to PD) (*1st Reading*) [*Approved*]
- ✓ Z2016-014: Ridgecrest Subdivision (AG to PD) (2nd *Reading*) [*Approved*]
- ✓ Z2016-015: Amendment to Planned Development District 79 (PD-79) (2nd *Reading*) [*Approved*]
- ✓ Z2016-016: Text Amendment to Southside Residential Neighborhood Overlay (SRO) District (2nd *Reading*) [*Approved*]

MINUTES

PLANNING AND ZONING COMMISSION WORK SESSION

City Hall, 385 South Goliad, Rockwall, Texas
Council Chambers
May 31, 2016
6:00 P.M.

I. CALL TO ORDER

Chairman Renfro called the meeting to order at 6:01 p.m. Present were, Commissioners Patrick Trowbridge, Johnny Lyons, Tracy Logan, and Annie Fishman. Absent were Commissioners Sandra Whitley and John McCutcheon Staff members present were Planning Director, Ryan Miller, Senior Planner, David Gonzales, Planner, Korey Brooks, Planning Coordinator, Laura Morales, Assistant Engineer, Amy Williams, Civil Engineer, Jeremy White and Fire Marshall, Ariana Hargrove.

II. CONSENT AGENDA

1. Approval of Minutes for the May 10, 2016 Planning and Zoning Commission meeting.

2. P2016-021
Discuss and consider a request by Robert A. Howman of Glenn Engineering on behalf of James Watson of the Rockwall Independent School District for the approval of a preliminary plat for Lot 1, Block A, Rockwall – CCA Addition being a 173.00-acre tract of land identified as Tract 7-1 of the W. H. Baird Survey, Abstract No. 25, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, situated within the SH-205 By Pass Corridor (SH-205 BY OV) District, situated south of the intersection of SH-276 and John King Boulevard, and take any action necessary.

3. P2016-022
Discuss and consider a request by Rick Bates of RLK Engineering, Inc. on behalf of James Watson of the Rockwall Independent School District for the approval of a preliminary plat for Lot 1, Block 1, Dobbs Elementary Addition being a 17.464-acre tract of land identified as a portion of Rockwall School Addition No. 1, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated at the northeast corner of the intersection of E. Washington Street and S. Clark Street, and take any action necessary.

4. P2016-026
Discuss and consider a request by Debra Cox of JDJR Engineers & Consultants, Inc. on behalf of Don French of the First Baptist Church of Rockwall for the approval of a replat for Lot 6, Block M, Sanger Brothers Addition being a 1.8046-acre tract of land identified as Lots 1-5, Block M, Sanger Brothers Addition, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, located at the southwest corner of the intersection of W. Ross Street and S. Goliad Street [*SH-205*], and take any action necessary.

Chairman Renfro made a motion to pass the consent agenda. Commissioner Lyons seconded the motion, which passed by a vote of 5-0, with Commissioners Whitley and McCutcheon absent.

III. APPOINTMENTS

5. Appointment with Architectural Review Board representative to receive the Board's recommendations and comments for items on the agenda requiring architectural review.

The Architectural Review Board representative, Ashlei Neill, came forward and gave brief summary of recommendations pertaining to the items on the agenda that required architectural review.

IV. PUBLIC HEARING ITEMS

6. **Z2016-013**

Hold a public hearing to discuss and consider a request by Garrett Lust of Pointe Land & Development, LLC on behalf of Marven Wu of West Union Investment, Co. for the approval of a zoning change from an Agricultural (AG) District to a Planned Development District for Single-Family 10 (SF-10) District land uses on a 81.49-acre parcel of land identified as Tract 16 of the J. A. Ramsey Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, located on Rochell Road south of the intersection of Rochell Road the SH-276, and take any action necessary.

Senior Planner, David Gonzales, gave brief explanation of request and reminded the Commission this was a continuation of the public hearing and that the applicant requested a continuation at the May 10, 2016 meeting. The applicant is requesting a Planned Development for Teracina Estates located along Rochell Road, which is at the City's corporate limits. East and south of the subject property is outside the City limits. North of the subject property is Timber Creek Estates and to the west is an approximately 80-acre vacant tract of land that is zoned Agricultural District and further west is Fontanna Ranch.

Mr. Gonzales also pointed out that according to the concept plan, it is the intent of the development to provide 204 single-family residential lots, with two different lot types of which will be a minimum of 8,125 sq. ft., 65' x 125' lots in area and 80'x125'. The primary lot will have approximately 184 lots and the remaining 30 will be the larger lots. The development will provide an approximately nine 9-acre public park located at the southern portion of the development. In addition, the Concept Plan shows the inclusion of 18.97-acres of net open space or 23.3% that is exceeding the minimum 20% requirement. Staff has included these as development requirements within the Planned Development District Ordinance. In addition, the applicant has also indicated that a minimum of a 15-foot landscape buffer will be provided along Rochell Road. A minimum 10-ft landscape buffer along the proposed minor collector street, shown as Street H, is required, with large canopy trees planted along the perimeter of each roadway at 50-ft intervals. However, the applicant is seeking a waiver to this requirement for Street H due to the amenities provided for in the 9-acre public park such as an 8-foot wide trail system, a pavilion a plaza. The applicant will also include a minimum of a five-foot sidewalk that will be constructed within the rights-of-way. The proposed park has been through the Parks Board and was approved.

Mr. Gonzales further explained that the proposed zoning does appear to conform to the majority of the Comprehensive Plan's policies and guidelines but the applicant is requesting three waivers. One is for front entry drives even with the front façade of the home; the Code requires parking garages must be located at least 20 feet behind the front building facade for front entry garages, unless it is a J-Swing garage where the garage door is perpendicular to the street. Part of the PD request is to allow for 20% j-swing. At the last meeting the applicant had proposed 10% j-swing, and there was discussion between the applicant and the Commission. The applicant is now proposing 20% j-swing product as a minimum and the maximum would be the front entry garages. Mr. Gonzales noted that would cover two of the waivers that would be built in the PD Ordinance.

Mr. Gonzales went on to state the third waiver concerns the park plan, the Code requires a street landscape buffer-strip with a minimum width of ten feet, must be provided along the entire length of the property to be developed that is adjacent to a major arterial or collector street in numbers equal to one tree for each 50 feet of street frontage. Based on the Planned Development Concept Plan, Street H will be built as a minor collector in conformance with the City's Master Thoroughfare Plan. The UDC does allow the Planning and Zoning Commission and City Council to consider alternative landscaping requirements upon finding that the resulting landscape will provide an improved amenity for both the general public and users of the facility being landscaped. To achieve this, the applicant is proposing a 9-acre public park with lots being single loaded on Street H, in conformance with the Comprehensive Plan.

Mr. Gonzales also explained that the Future Land Use Map contained within the Comprehensive Plan designates the subject property as Low Density Residential land uses. According to the Comprehensive Plan, the Low Density Residential designation is generally defined as single family development consisting of less than 2 units per acre; however, a density up to 2.5 units per gross acre may be allowed within a Planned Development district that includes the

dedication and/or development of additional amenities that exceed the minimum standards for residential Planned Developments. These amenities may include but not limited to parks and open space, neighborhood amenity centers, development of trails and parks in flood plains, municipal parks and/or recreation facilities, etc. In this case, the applicant is proposing a density of 2.50 units per gross acre and is proposing an approximately nine 9-acre public park incorporating an eight 8-ft. concrete hike and bike trail system, a playground area, plaza, picnic area, covered pavilion, and other features as depicted on the Park Concept Plan. This will be the developments primary amenity. The proposed zoning does appear to conform to the majority of the Comprehensive Plan's policies and guidelines with the exception of the required proximity of residential lots less than 12,000 sq. ft. to a neighborhood oriented park or open space. The Comprehensive Plan's policy requires the lots to be no further than 800-ft from a public park or open space in order to benefit from a property value premium. An approximation of no more than 24 lots or 11.7% of the lots located in the North West quadrant of the development are not within the 800-ft. minimum distance requirement. With this being said, the proposed Concept Plan is a discretionary decision for the City Council.

Mr. Gonzales went on to state staff mailed 102 notices to property owners and residents within 500-feet of the subject property. Staff also emailed notices to the Timber Creek and Fontana Ranch Homeowner's Associations which are the only HOA's located within 1,500 feet of the subject property. Additionally, staff posted a sign adjacent to the subject property along Rochell Road and advertised the public hearings in the Rockwall Harold Banner. Staff has received two notices "not in favor of" the request.

Mr. Gonzales clarified that the purpose for the continuance of the meeting was for the garage orientation and the size of the product that the applicant is providing and those changes have been made to the ordinance. The applicant increased the size of the homes for each lot type from 1,400 square feet for lot type A to 1,800 square foot as a minimum and on lot type B those have been increased to 2,000 square feet also, the increase in the number of j-swing garages. Mr. Gonzales stated the applicant was present and staff was available for questions, and advised the public hearing remains open.

Chairman Renfro asked the applicant to come forth and speak.

Garrett Lust
6860 North Dallas Parkway
Dallas, TX

Mr. Lust came forward and explained the decision to increase from the 10% originally proposed to 20% for the j-swing garages was because they knew the 10% was not acceptable to the City and felt they have catered to the other requests as far as increasing the minimum required home size, and increasing the j-swings. He went on to explain that the biggest issue with the increased number of j-swings is taking away the 20 feet of the back yard for the homeowners. They would like to limit the number of j-swings to let the homeowners decide if they would want that layout or not.

Commissioner Trowbridge asked if the 20% still allow for anti-monotony such as the patterns in the front of the homes, will it still be able to differentiate. Mr. Lust stated they plan to uphold all the anti-monotony standards put in place and would like to use the j-swing as something to break up the monotony, prefer to have the homeowner be the deciding factor in that. It can also be discussed with the builder how that is handled generally to avoid the monotony.
Chairman Trowbridge asked how many builders will be in the development. Mr. Lust stated currently they are anticipating for it to be a two builder program. Commissioner Trowbridge commented on how each builder usually has a stock set of plans, asked how many plans were they looking at having. Mr. Lust stated that according to the lot size options the builder will have a set of plans for each lot size and each plan is customizable, but at this time cannot say amount of plans each builder will come with for each lot.

Planning Director, Ryan Miller, added that there is an anti-monotony standards in the Planned Development District that they will have to abide by, however, discussion concerning builders is not discussed during the zoning phase.

Mr. Lust added that they have included a clause knowing the importance for the City the issue with the j-swing garage is to avoid the monotony of the front façade of the streetscape, the

clause will state that all of the garage doors must be made with cedar construction which improves the overall look of the front of the house of the front entry designs.

Chairman Renfro asked concerning the percentage of j-swing garages if those would be spread out evenly throughout the subdivision. Mr. Lust stated they have not put in place a plan for that as of yet. Chairman Renfro asked if the homes in the front would be wider, Mr. Lust stated they are 65 foot lots the ones towards the north that are adjacent to Timber Creek property are the 80 foot lots and that was done to create a transition between Timber Creek and the requested subdivision. Mr. Lust stated they do envision for the 80 foot lots to have more of the j-swing garages layout options because it gives a wider range which makes for a better layout.

Mr. Lust went on to state that they are requesting a 5 foot side setback on the 65 foot lots to allow for a j-swing design.

Commissioner Fishman asked if it was still the 23% open space. Mr. Lust stated yes, open space has not changed. Commissioner Fishman also expressed concern over the traffic on Rochell Road, asked if there had been any traffic studies done. Mr. Lust stated that at this time they are under the impression that a traffic study is not necessary for this size development; however they are planning to improve Rochelle Road onto their property line and will match to the development to the north which is Timber Creek. Mr. Lust also noted that it is his understanding that in 2018 TXDOT has plans to expand Hwy 276 and there will be a light there and it would be improved.

Commissioner Lyons asked what the lot mix and percentage for j-swing for Timber Creek Subdivision. Mr. Lust stated it is 80 foot lots and Timber Creek is rear entry is all alley ways no j-swing garages.

Chairman Renfro stated the public hearing was still open and asked if there was anyone who wished to speak to come forth and do so, there being no one indicating such; Chairman Renfro closed the public hearing and brought the item back to the Commission for discussion.

Commissioner Logan expressed concern with the percentage of j-swing garages being requested, feels it is too many front facing garages close to the street expressed concern in the developer offering the suggestion to the builder to make the garages cedar but with there not being a Code to enforce that is not convinced enough to give variance. Mr. Gonzales stated that requirement of cedar garages will be built into the ordinance if approved.

Chairman Renfro asked the applicant to come forward.

Chairman Renfro expressed concern with the percentage only being 20 for the j-swing garages, is not inclined to approve with such a low percentage asked the applicant if there would be consideration to go with a higher percentage. Mr. Lust stated they would consider doing 30% j-swing.

Commissioner Logan expressed concern with allowing so many variances that do not meet the master plan, believes it is the developers responsibility to adhere to the standards that we want for our community. Mr. Lust stated that concerning the variances she mentioned, it is only one that they are doing lot layout and type would be the minimum percentage of j-swing, the only others would be the landscape buffer and the front entry instead of the alley ways.
Commissioner Logan asked if the Parks Department was happy with the variance for the back northwest lots not being close to any of the open space. Mr. Gonzales advised when the Parks Board met they approved the plan with the stipulation that the City will not maintain the park until it becomes fully turfed as well as other stipulations for the amenities. Mr. Lust added they wanted to build the park through the major thoroughfare because it will be a district park.

Commissioner Trowbridge expressed liking of the Park, but believes the concern is the amount of the j-swing garages would be willing to make a motion with the 30% increase the applicant stated they would be willing to do.

Commissioner Trowbridge made a motion to pass the request with the amended 30 percent increase for the j-swing garage requirement. Commissioner Fishman seconded the motion which passed by a vote of 5-0, with Commissioners Whitley and McCutcheon absent.

Chairman Renfro noted Commissioner McCutcheon arrived at the meeting at 6:35 p.m.

V. ACTION ITEMS

7. SP2016-006

Discuss and consider a request by Matt Moore of Claymoore Engineering, Inc. on behalf of Michael James of U. V. Real Estate, LP for the approval of a site plan for an *Auto Body Shop* (*i.e. Service King Collision Repair*) on a 3.2039-acre tract of land described as Tract 7-01 of the J. Lockhart Survey, Abstract No. 134, City of Rockwall, Rockwall County, Texas, located at 1780 E IH-30, zoned Light Industrial (LI) District, situated within the IH-30 Overlay (IH-30 OV) District, and take any action necessary.

Senior Planner, Ryan Miller, gave brief explanation of request stating that On March 7, 2016, the City Council approved a Specific Use Permit to allow for outside storage on the 3.2039-acre subject property. This case specifically allowed the outside storage of automobiles in the IH-30 Overlay District. As part of this case, the City Council approved a recommendation by the Planning and Zoning Commission requiring a six foot masonry fence, non-precast fence. In response to this approval, the applicant submitted an application for a site plan showing the proposed layout of the 18,475 SF major automotive repair facility on April 15, 2016. The subject property is located within the IH-30 Overlay District, east of John King Boulevard, on the southern side IH-30 Frontage Road and is zoned Light Industrial District.

Mr. Miller went on to state the requested land use is permitted by right within the Light Industrial District and with the Specific Use Permit being approved no additional approvals will be needed by the Planning and Zoning Department or the City Council with the exception of the variances the applicant is requesting. And aside from the variances, the photometric plan, landscape plan and the site plan all conform to the technical requirements. The variances specifically relate to the building construction and are one, to the screening requirements. The applicant is requesting a variance to allow two vent stacks to project out of the rear of the building it will serve as ventilation for the paint booths. These vent stacks are depicted on the building elevations, and the applicant has submitted a letter stating that they will be 2'-4" in diameter and extend above the parapet wall by eight feet. The applicant has stated any type of screening would make the building look unbalanced. This is an Overlay District requirement therefore the variance will require a ¾-majority vote of the City Council to be approved.

Mr. Miller went on to state that the second variance is to the Building Standards specifically the materials. Currently the materials being provided are CMU, Austin stone and stucco. Stucco is allowed up to 50% of the masonry requirement however the applicant is showing about 51-58% on various facades and that does exceed the maximum permitted by the Code and the applicant is requesting a variance for that as well. Also, Mr. Miller explained, the four sided architecture requirement, which is made up of the horizontal and vertical articulation as well as the material requirements. In this case the applicant is requesting a variance due to the fact that the building doesn't meet the horizontal or vertical articulation nor does it incorporate the same materials on all four sides. The back wall is basically flat and is only composed of CMU. The applicant has stated that the purpose behind not meeting the stone requirement on that back wall is because it will not be visible.

Mr. Miller further explained that the Comprehensive Plan state that Planning and Zoning and City Council should consider pro-active methods to encourage high quality and inspiring architecture throughout the City particularly on undeveloped sites that are highly visible on the IH30 frontage road. The subject property is within the IH30 Overlay District; however any variances to the Unified Development Code are a discretionary decision to the Planning and Zoning Commission and City Council.

Mr. Miller went on to state that the Architectural Review Board reviewed the proposed site plan and building elevations. The ARB requested that the applicant provide a mansard roof structure extending from the mid-point of the building to the front canopies adjacent to IH-30. The purpose of this request was to provide balance to the building while breaking up the monotony of the roofline. The applicant has stated that due to the cost of the requested improvements they will not be able to accommodate the ARB's recommendation. As a result, the ARB cannot recommend approval of the requested variances. Also, concerning one of the recommendations, currently the applicant is showing a six foot masonry dumpster enclosure but the Overlay

District requires an eight foot. It wasn't a requested variance in the letter provided by the applicant but that was added to the recommendation section in the Commissions case memo.

Mr. Miller advised the applicant was present and staff was available for questions.

Chairman Renfro asked applicant to come forth and speak.

Jeff Carrol
Carrol Architects
705 E. IH30
Rockwall, TX

Mr. Carroll came forward and stated he took the from the previous Planning and Zoning work session on the Architectural Board's recommendation to add a masonry roof from the mid-section back towards the front section to Service King and they were reluctant to do that, mainly due to a cost stand point, and although that is not a viable reason, but Mr. Carrol added that considering the site work that is being done with the adding of the masonry screened wall and various other issues that have come with the site, that was the reason for being unable to accept that recommendation at this time.
Mr. Carrol went on to explain the exhaust vents for the paint booths are eight feet tall and the para pet wall is four feet tall that would stick out four or five feet about the para pet since it is just an exhaust there is no smoke, heat type thing. Those pipes what has been found is that they are less distracting and will blend in with the sky as they are a silver color as opposed if a screen is put around them. The exhaust vents would also be approximately 300 feet away from IH-30 because the paint booths are in the back part of the building.

Concerning the stucco percentage Mr. Carol explained that when it was re-evaluated the front elevation they came up with the 58% and felt it was close enough and wanted to move forward with that because they feel the product they are bringing is an A product to Rockwall and so far is the most dressed up Service King that they have put out so far and is asking for the Commission's recommendation to move forward.

Commissioner Trowbridge asked how wide the back wall is. Mr. Carrol stated for the horizontal and vertical articulation it is being met in the front and on the two side walls, but on the back since it is so deep and narrow and is 90 feet wide.

Commissioner Lyons asked if any HVAC equipment would be on the roof. Mr. Carrol stated it would all be on the roof and would be below the para pet wall that was raised will cover the equipment. Commissioner Lyons also asked if the vent stacks are being left silver, Mr. Carrol stated they would be and Service King has done studies concerning that and have found silver reflects the light and blends in better than paint.

Chairman Renfro brought the item back to the Commission for discussion, questions or motions.

Commissioner Lyons made motion to pass the item with staff recommendations. Commissioner Fishman seconded the motion, which passed by a vote of 6-0, with Commissioner Whitley absent.

VI. DISCUSSION ITEMS

8. Z2016-017

Hold a public hearing to discuss and consider a City initiated zoning request for the approval of a text amendment to Section 1, *Land Use Schedule*, and Section 2.1.8, *Auto and Marine-Related Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code for the purpose of changing the requirements for *Used Motor Vehicle Dealerships*, and take any action necessary.

Planning Director, Ryan Miller, gave brief explanation of item stating that on May 16th staff brought forward an ordinance proposing to allow the motor vehicle used use by Specific Use Permit in a Light Industrial District and by right in a Heavy Industrial District however the ordinance also restricted the use in certain Overlay Districts in the City. The City Council did deny that and directed staff to bring back a text amendment allowing the use by Specific Use

Permit in the Light Industrial District only. In accordance with that staff has provided the Commission with a draft ordinance that would basically change what was proposed in the previous meeting to allow that use only by Specific Use Permit in a Light Industrial District.

Mr. Miller went on to explain that the item will be brought back for action on the June 14th meeting and is available for any questions.

Commissioner McCutcheon asked for clarification of the new draft as opposed to the previous one that was brought to them in the last meeting. Mr. Miller explained that currently the code only allows the used automotive dealership as an ancillary use to a new motor vehicle dealership which is currently allowed by right in a Commercial District and by SUP in a Light Industrial District. What staff has been directed to prepare is to allow this use as a standalone use in a Light Industrial District through a Specific Use Permit only.

Chairman Renfro asked if the use can be allowed within the Overlay Districts. Mr. Miller stated that was what was proposed in the previous draft ordinance that was voted down by City Council and staff was directed to bring it back to allow it in a Light Industrial by a Specific Use Permit.

General discussion took place concerning allowing the use within the Overlay Districts.

Commissioner McCutcheon asked if a map could be provided at the next meeting to show where Light Industrial areas are within the City. Mr. Miller stated he could provide the Commission with that and include it in the packets for their review.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

9. Z2016-018

Hold a public hearing to discuss and consider a request by Jeff Parker of the Skorburg Company on behalf of BH Balance IV, LLC for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan to allow for additional single-family residential lots and for the purpose of incorporating changes to the development standards contained in *Exhibit 'C'* of *Ordinance 14-26* for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, Texas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary.

Chairman Renfro asked the applicant to come forward.

Rich Darragh
8214 Westchester Drive suite 710
Dallas, TX

Mr. Darragh came forward and stated they are still working on a final plan and the PD but will have more details as they move forward and will provide those at the next scheduled meeting. But basically they are looking to rezone the Commercial they already have at the southwest corner of Breezy Hill, are looking to rezone it to 50'x 120's and the approximate numbers will be 47 lots, front entry with a minimum of 20 homes not less than 2,500 square feet.

Commissioner Trowbridge asked if what was being done is taking out a commercial spot and replacing it with residential. Mr. Darragh stated they are making the commercial area smaller due to not finding buyers with the size it is currently they want to make it smaller make it more marketable to the commercial buyers and continue the transitional zoning. Commissioner Trowbridge asked the size of that commercial lot. Mr. Darragh stated it is 19 ½ acres.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

10. P2016-020

Discuss and consider a request by Cameron Slown of FC Cuny Corporation on behalf of Randal Currington of Fontanna Ranch Phase II, LP for the approval of a final plat for Phase II of the Fontanna Ranch Subdivision containing 49 single-family residential lots on a 19.167-acre tract of land identified as Tract 5 of the J. A. Ramsey Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 64 (PD-64) for Single Family 16 (SF-16) land uses, generally located east of FM-549 and south of SH-276, and take any action necessary.

Senior Planner, David Gonzales, reminded the Commission that the preliminary plat for this item was re-instated December of 2015 and now can move forward with Phase II.

Chairman Renfro asked applicant to come forward.

Cameron Slown
FC Cunny Corporation
(No address given)

Mr. Slown came forward and stated this is the second phase of the Fontanna Ranch development and the only difference from what was presented in the preliminary plat and now is the extension of Guadalupe Drive to the northeast. There have been some adjustments in the detention area, but aside from that it is similar to what was presented before.

Mr. Gonzales added Guadalupe Drive will extend to the Terracina Estates and is what was being referred to as street H.

There being no questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

11. P2016-023

Discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (*R. & R. Hance Investments, LP*) for the approval of a master plat/open space plan for the Saddle Star South Subdivision containing 138 single-family residential lots on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of Featherstone Drive John King Boulevard, and take any action necessary.

Planning Director, Ryan Miller, gave brief explanation of the case stating the master and preliminary plat are what is being brought forward as the zoning was approved at the previous meeting. The master shows that it will be plated in two phases and will be incorporating the ten foot walking trail along the John King Blvd. as well as construct a trail head and will also be providing an amenity center, community garden and a private park area.

Mr. Miller added this will be taken to the Parks Board, and that is why it came before the Commission in the work session and will bring the Park Boards recommendation at the June 14th meeting.

There being no questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

12. P2016-024

Discuss and consider a request by Pat Atkins of the Saddle Star Land Development, LLC on behalf of the owners Gwen Reed and Randa Hance (*R. & R. Hance Investments, LP*) for the approval of a preliminary plat for the Saddle Star South Subdivision containing 138 single-family residential lots on a 55.413-acre tract of land identified as Tracts 1, 1-5 & 2-03 of the P. B. Harrison Survey, Abstract No. 97, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District and Planned Development District 79 (PD-79) for Single-Family 8.4 (SF-8.4) District land uses, situated within the SH-205 By-Pass Overlay (SH-205 BY-OV) District, located on the north side of John King Boulevard east of the intersection of Featherstone Drive John King Boulevard, and take any action necessary.

Chairman Renfro noted this agenda item would be combined with the previous item, P2016-023.

13. SP2016-012

Discuss and consider a request by Chet Leugers, PE of Pacheco Koch on behalf of Michael Hampton of the Rockwall Economic Development Corporation for the approval of a site plan for a warehouse/manufacturing facility on a 30.6-acre portion of a larger 86.806-acre tract of land identified as Tract 1 of the H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the northwest corner of Discovery Boulevard and Data Drive, and take any action necessary.

Chairman Renfro asked applicant to come forward.

Michael Hampton
REDC

Mr. Hampton came forward stated he is the Director of Project Development with the REDC and is here with several members of the applicants team. He stated the REDC owns about 400 acres at the Rockwall Technology Park and roughly about half of that is vacant including the 30 acre piece at the hard corner of Discovery and Data. The REDC has been working for several months with Pride Industries and the REDC Board of directors approved a contract with them and an agreement to recruit their very large project which they are very excited to bring to Rockwall. They have received staff's comments and there are technical issues that will be corrected and revisions will be sent back to staff. They want to get feedback from staff as there are variances that the applicant is requesting primarily with the architectural side of things, which is not too uncommon for these large manufacturing facilities.

Mr. Hampton further stated they will be asking for a parking variance the provided parking that they are proposing is about 132 spots, and although this is a large facility, there will be about 140 employees thru 3 shifts it is operated 24 hours a day, will only have a limited amount of employees at a time and therefor did not want to propose a large amount of parking. They will also be asking for a screening variance, on the east side of the building there is truck areas that instead of a 14 foot wall there, they are proposing a berm as well as a hedge of cedar trees and some streetscape trees along Data Drive. They felt after talking to staff that was a preferred more attractive look.

Mr. Hampton went on to explain there is also a detention pond on the northwest side of the site. The REDC is developing a regional detention pond and currently are about half way into the design on that and with the contract are obligated to try and get that in in conjunction with this project, therefor that pond may or may not be the case even if applicant does build it, it may be a temporary pond and are requesting not to put the trees in only to have to pull them out and that is another variance they will be requesting. The other three that have been identified are all dealing with the architectural side. Mr. Hampton provided pictures of the applicant's most recent construction to show what the end product would look like and it will be one that will fit in at the Technology Park.

Commissioner Trowbridge asked what will be manufactured and if it would be just one tenant. Mr. Hampton stated Pride is a corrugating manufacturer and this facility will be corrugating and converting facility for cardboard and various packaging containers.

Commissioner McCutcheon asked if everything will be done internal, aside from the trucks backing up. Mr. Hampton stated it would all be internal.

Chairman asked what the total square footage of the building was and how many parking spots there were. Mr. Hampton stated it is 389,000 square feet.
Mr. Gonzales answered, and stated they are providing 132 spaces, 9x20 and what is required is 309 however they are providing additional parking spaces for the tractor trailers making the total 334, however those are not viewed as typical parking spaces and that is the purpose for the variance but is not an unusual request.

Chairman Renfro expressed concern for long term planning, for reuse of this property if the building were to become obsolete.

Mr. Miller stated since it was a discussion item he would add that this type of variance has been approved in several other buildings when a shift plan is provided and what is being seen industry wide is a need for less employees and therefore the City's parking requirement may be a little high for manufacturing type business.

Commissioner Trowbridge asked what percentage of office it would have. Mr. Hampton stated it would be about 4 or 5 percent of office space.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

14. **SP2016-013**
Discuss and consider a request by Clay Cristy of ClayMoore Engineering on behalf of the owner Tom R. Briscoe of Briscoe Oil, Inc. for the approval of a *PD Site Plan* for an urgent care facility on a 1.042-acre tract of land identified as Lots 1 & 2, Block A, Briscoe/Hillcrest Addition and Tract 41-2 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Summit Office Subdistrict and the IH-30 Overlay (IH-30 OV) District, located at the southwest corner of Horizon Road [FM3097] and the IH-30 frontage road, and take any action necessary.

Chairman Renfro asked the applicant to come forward.

Greg Stogner
12720 Hillcrest suite 650
Dallas, TX

Mr. Stogner came forward and gave brief summary of request stating it is for an Urgent Care facility Care Now would be the tenant, it is 6,235 square feet they do meet the landscape standards, it's owned by HCA Hospital Corporation of America. Mr. Stogner went on to say he has built about 25 of them and it is a good company with good people.

Chairman Renfro asked concerning Architectural Review Boards comments. Mr. Stogner stated they went through the four sided architecture and looking at PD 32 as to what that is and the defined tem of the four sided architectural is not a defined term in there but it does say to have a dual entrance appearance, but in this case it causes confusion because looking at north, south, east and west and will be calling Horizon true east so Horizon would be the entrance that is east and that is where you would have stone as looking at elevation number 5 then you have accent brick and racing stripes on the side facing Trend HR that would be what would be called the west side and then the north side because that is at IH-30 that is where they would be putting the stone. The Architectural Review Board wanted to have the stone there changed to brick lift up the para pet as it is and on elevation two which would be towards Pinnacle Way to make that, what he would call turn the stone down the two windows and meet the architectural offset to the left that is seen by the front door which they do plan on adding.

Staff showed pictures of elevations on screen to allow visual of what applicant was discussing.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

15. SP2016-014
Discuss and consider a request by Ron Valk of Platinum Storage Rockwall, LLC on behalf of Shawn Valk of Platinum Construction for the approval of site plan for a multi-tenant office/warehouse facility on a 2.692-acre parcel of land identified as Lot 3, Block A, Platinum Storage Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, located on the west side of T. L. Townsend Drive, south of the intersection of T. L. Townsend Drive and IH-30, and take any action necessary.

Chairman Renfro asked the applicant to come forward.

Annalyse Olsen
1834 S. FM551
Fate, TX

Ms. Olson came forward and came forward and stated they are requesting to build an office warehouse park on a property that is connecting to a storage facility that they are currently finishing construction on. The two buildings combined will be 20,800 square feet, the eastern property is 8,800 square feet and the back building is 12,000 square feet.

Planner, Korey Brooks, added that on the south elevation of both of the buildings they are currently not meeting the vertical or horizontal articulation requirements and will be requesting a variance but they will not be visible from public view and additionally the trees off Townsend will help screen that as well. The Architectural Review Board suggested turning the northern building the other direction and have both buildings face each other and possibly have a court yard in the middle so as to not have one building doesn't front the back of the other building. The applicant is going to look into the request and find out if that will be feasible for them to do.

Mr. Brooks went on to state that additionally the Architectural Review Board wanted more vertical articulation on the north elevation of the building and the applicant is proposing raising the middle piece two to three feet to break up the monotony of the two buildings.

Mr. Brooks also explained each suite will have a separate tenant and will have office space and warehouse space.

Chairman Renfro asked if each entrance would be for each individual tenant. Mr. Brooks stated they would be separate suits for each individual tenant.

Commissioner Trowbridge asked if they own and operate storage facilities and has the zoning been changed recently on this particular property. Ms. Olson stated they primarily do own storage facilities. Mr. Miller added that recently the property was subdivided and the applicant had to get a variance to do that due to Platinum Storage who is currently under construction doesn't have frontage on a public street and had to get approval thru Planning and Zoning as well as City Council.

Commissioner Trowbridge asked what kind of business they foresee will be renting the offices. Ms. Olsen stated she believes it will be possibly landscapers, contractors and such. Commissioner Trowbridge also asked how many suites there would be. Ms. Olson stated there would be four in the front and five in the back and Platinum Storages offices will take up half of the front of the building.

Commissioner Lyons asked how much square footage was each suite. Ms. Olson stated she did not have that information but will provide it at the next meeting.

There being no further questions Chairman Renfro indicated the case will return to the Commission for action at the next scheduled meeting.

16. Director's Report of post Council meeting outcomes of Planning & Zoning cases.

- ✓ P2016-016: Final Plat for Wanda Ridge Estates Addition [*Approved*]
- ✓ Z2016-012: SUP for a Retail Store w/ Fuel Sales at 2901 Ridge Road (*1st Reading*) [*Approved*]
- ✓ Z2016-013: Zoning Change from AG to PD for Terracina Estates [*Postponed June 6, 2016 Meeting*]
- ✓ Z2016-014: Zoning Change from AG to PD for the Ridgecrest Subdivision (*1st Reading*) [*Approved*]
- ✓ Z2016-015: Amendment to PD-79 (*1st Reading*) [*Approved*]
- ✓ Z2016-016: Text Amendment to the SRO District (*1st Reading*) [*Approved*]
- ✓ Z2016-017: Text Amendment for Used Motor Vehicle Sales [*Postponed to the June 6, 2016 Meeting*]
- ✓ SP2016-008: Variances for Carmel Car Wash [*Approved*]
- ✓ SP2016-009: Variances for Panera Bread [*Approved*]
- ✓ SP2016-010: Parking Agreement for 805, 815 & 821 T. L. Townsend Drive [*Approved*]
- ✓ SP2014-011: Alternate Landscape Plan for Channell Commercial Corporation [*Approved*]

Planning Director, Ryan Miller, provided a brief update about the outcome of the above referenced case at the City Council meeting. General discussion over Case No. Z2016-017 and procedural requirements for cases took place between the Planning Director and the Commission.

VII. ADJOURNMENT

The meeting adjourned at 7:48 p.m.

PASSED AND APPROVED BY THE PLANNING & ZONING COMMISSION OF THE CITY OF ROCKWALL, Texas, this _____ day of _____, 2016.

_____
Craig Renfro, Chairman

Attest:

_____
Laura Morales, Planning Coordinator

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 06/14/2016

APPLICANT: Cameron Slown of FC Cuny Corporation

AGENDA ITEM: **P2016-020** Final Plat for *Fontanna Ranch Phase II*

SUMMARY:

Discuss and consider a request by Cameron Slown of FC Cuny Corporation on behalf of Randal Currington of Fontanna Ranch Phase II, LP for the approval of a final plat for Phase II of the Fontanna Ranch Subdivision containing 49 single-family residential lots on a 19.167-acre tract of land identified as Tract 5 of the J. A. Ramsey Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 64 (PD-64) for Single Family 16 (SF-16) land uses, generally located east of FM-549 and south of SH-276, and take any action necessary.

PLAT INFORMATION:

- ✓ The objective of this request is to establish 49 single-family residential lots for the Fontanna Ranch, Phase II Subdivision. The property is zoned Planned Development District No. 64 (PD-64) which has an underlying zoning of Single Family 10 (SF-10) District for residential land uses and is generally located generally located east of FM-549 and south of SH-276.

- ✓ the Preliminary Plat for Fontanna Ranch was reinstated in January of this year for the purpose of constructing Phase II. The proposed development complies with the Master Thoroughfare Plan showing the extension of Guadalupe Drive in an eastward fashion, eventually connecting with the currently proposed Terracina Estates *Street H* [*see case Z2016-013*] that extends to Rochell Road.

- ✓ On June 7, 2016, the Parks Board reviewed the *Final Plat* and made a recommendation to approve the plat with the following conditions:

    a) Payment of cash in lieu of land fees is due at final plat approval in the amount of $318.00 per lot (or $15,582.00).

    b) Payment of pro-rata equipment fees is due at final plat approval in the amount of $446.00 per lot (or $21,854.00).

    NOTE: This condition has been added to the conditions of approval below.

- ✓ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions listed in the *Recommendations* section below.

- ✓ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the request for final plat, staff would recommend the following conditions of approval:

1) All staff comments (*Project Plan Review)* provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) Adherence to Parks Board and Parks Department requirements for Park District No. 22 and 49 single family residential lots for Fontanna Ranch, Phase II.

3) Any construction resulting from the approval of this final plat shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Discuss and consider a request by Cameron Slown of FC Cuny Corporation on behalf of Randal Currington of Fontanna Ranch Phase II, LP for the approval of a final plat for Phase II of the Fontanna Ranch Subdivision containing 49 single-family residential lots on a 19.167-acre tract of land identified as Tract 5 of the J. A. Ramsey Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 64 (PD-64) for Single Family 16 (SF-16) land uses, generally located east of FM-549 and south of SH-276, and take any action necessary

The following staff comments are to be addressed and resubmitted no later than Tuesday, June 7, 2016. Please provide three large copies [18" X 24" FOLDED] and one PDF version for a subsequent review by staff:

1. Adherence to all Engineering and Fire Department standards shall be required.
2. Provide a label indicating "Case No. P2016-020" on the lower right corner on all pages of the revised plat.
3. Tie at least 2 corners to city monumentation and label as such.
4. Minimum 80-ft frontage required per PD-64 standards. The following lots are identified as not meeting the minimum 80-ft frontage. Indicate and label where the front building line will meet the 80-ft frontage requirement for each of the following lots or adjust lot lines accordingly to meet the 80-ft frontage: Lot 11 of Blk F, & Lot 6 of Blk H.
5. Provide a label for visibility clips. Provide detail.
6. Relabel Lot 24, Block F Open Space as "Drainage & Detention Easement."
7. Surveyor's Certificate - Notary not necessary when stamped by surveyor.
8. Fontanna Ranch Ph II located within Park District No. 22 - Parks Board meeting to be held on June 7th at 6:00 p.m. in the City's Council Chambers. Adherence to Parks Board recommendations.

** As a note and once the plat has been approved by the Planning and Zoning Commission and City Council, all staff comments are to be addressed and all revisions resubmitted and approved (by staff) prior to plat submittal on mylar for filing purposes. **

Meeting Dates to Attend: Although it is not mandatory, staff would recommend that someone be present for all meetings scheduled below in the event there are questions from either P&Z, Parks Board or City Council. If you have any quesitons regarding this case, please feel free to contact David Gonzales, AICP with the Planning Department at 972-771-7745.

Planning - Work Session: May 31st, 2016 (6:00 p.m.)

Parks Board - Action: June 7, 2016 (6:00 p.m.)

Planning - Action: June 14, 2016 (6:00 p.m.)

City Council - Action: June 20, 2016 (6:00 p.m.)

CASE NO. (P2016-020)

OWNERS DEDICATION

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS}
COUNTY OF ROCKWALL}

I the undersigned owner of the land shown on this plat, and designated herein as the FONTANNA RANCH PHASE II to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the FONTANNA RANCH PHASE II addition have been notified and signed this plat.
I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwalls West regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

7. The property owner(s)/HOA shall be responsible for maintenance, repair and replacement all of the detention/drainage systems.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 06/14/2016

APPLICANT: Noah Flabiano, *Skorburg Co.*

AGENDA ITEM: **P2016-028**; *Master Plat for the Ridgecrest Subdivision*

SUMMARY:

Discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of the owner Lakeside Church of Christ of Rockwall for the approval of a master plan/ open space plan for the Ridgecrest Subdivision containing 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.

MASTER PLAT INFORMATION:

☑ The Ridgecrest Subdivision will consist of 45 single-family lots on 28.941-acres of land for an overall density of 1.55-units/acre. The development will incorporate a rural street cross section and larger font yard, building setback (*i.e. 40-foot*) to give the appearance of a bucolic or rural neighborhood setting. The development will also incorporate ~24.68% open space or 7.144-acres. A summary of the proposed density and dimensional requirements is as follows:

Table 2: Lot Dimensional Requirements

Minimum Lot Width/Frontage	*80'*
Minimum Lot Depth	*100'*
Minimum Lot Area	*15,000 SF*
Minimum Front Yard Setback	*40'*
Minimum Side Yard Setback	*5'*
Minimum Side Yard Setback (Adjacent to a Street)	*10'*
Minimum Length of Driveway Pavement	*20'*
Maximum Height	*36'*
Minimum Rear Yard Setback	*10'*
Minimum Area/Dwelling Unit (SF)	*1,800 SF*
Maximum Lot Coverage	*65%*

☑ On June 8, 2016, the Parks Board reviewed the proposed master plat and open space plan and recommended the following:

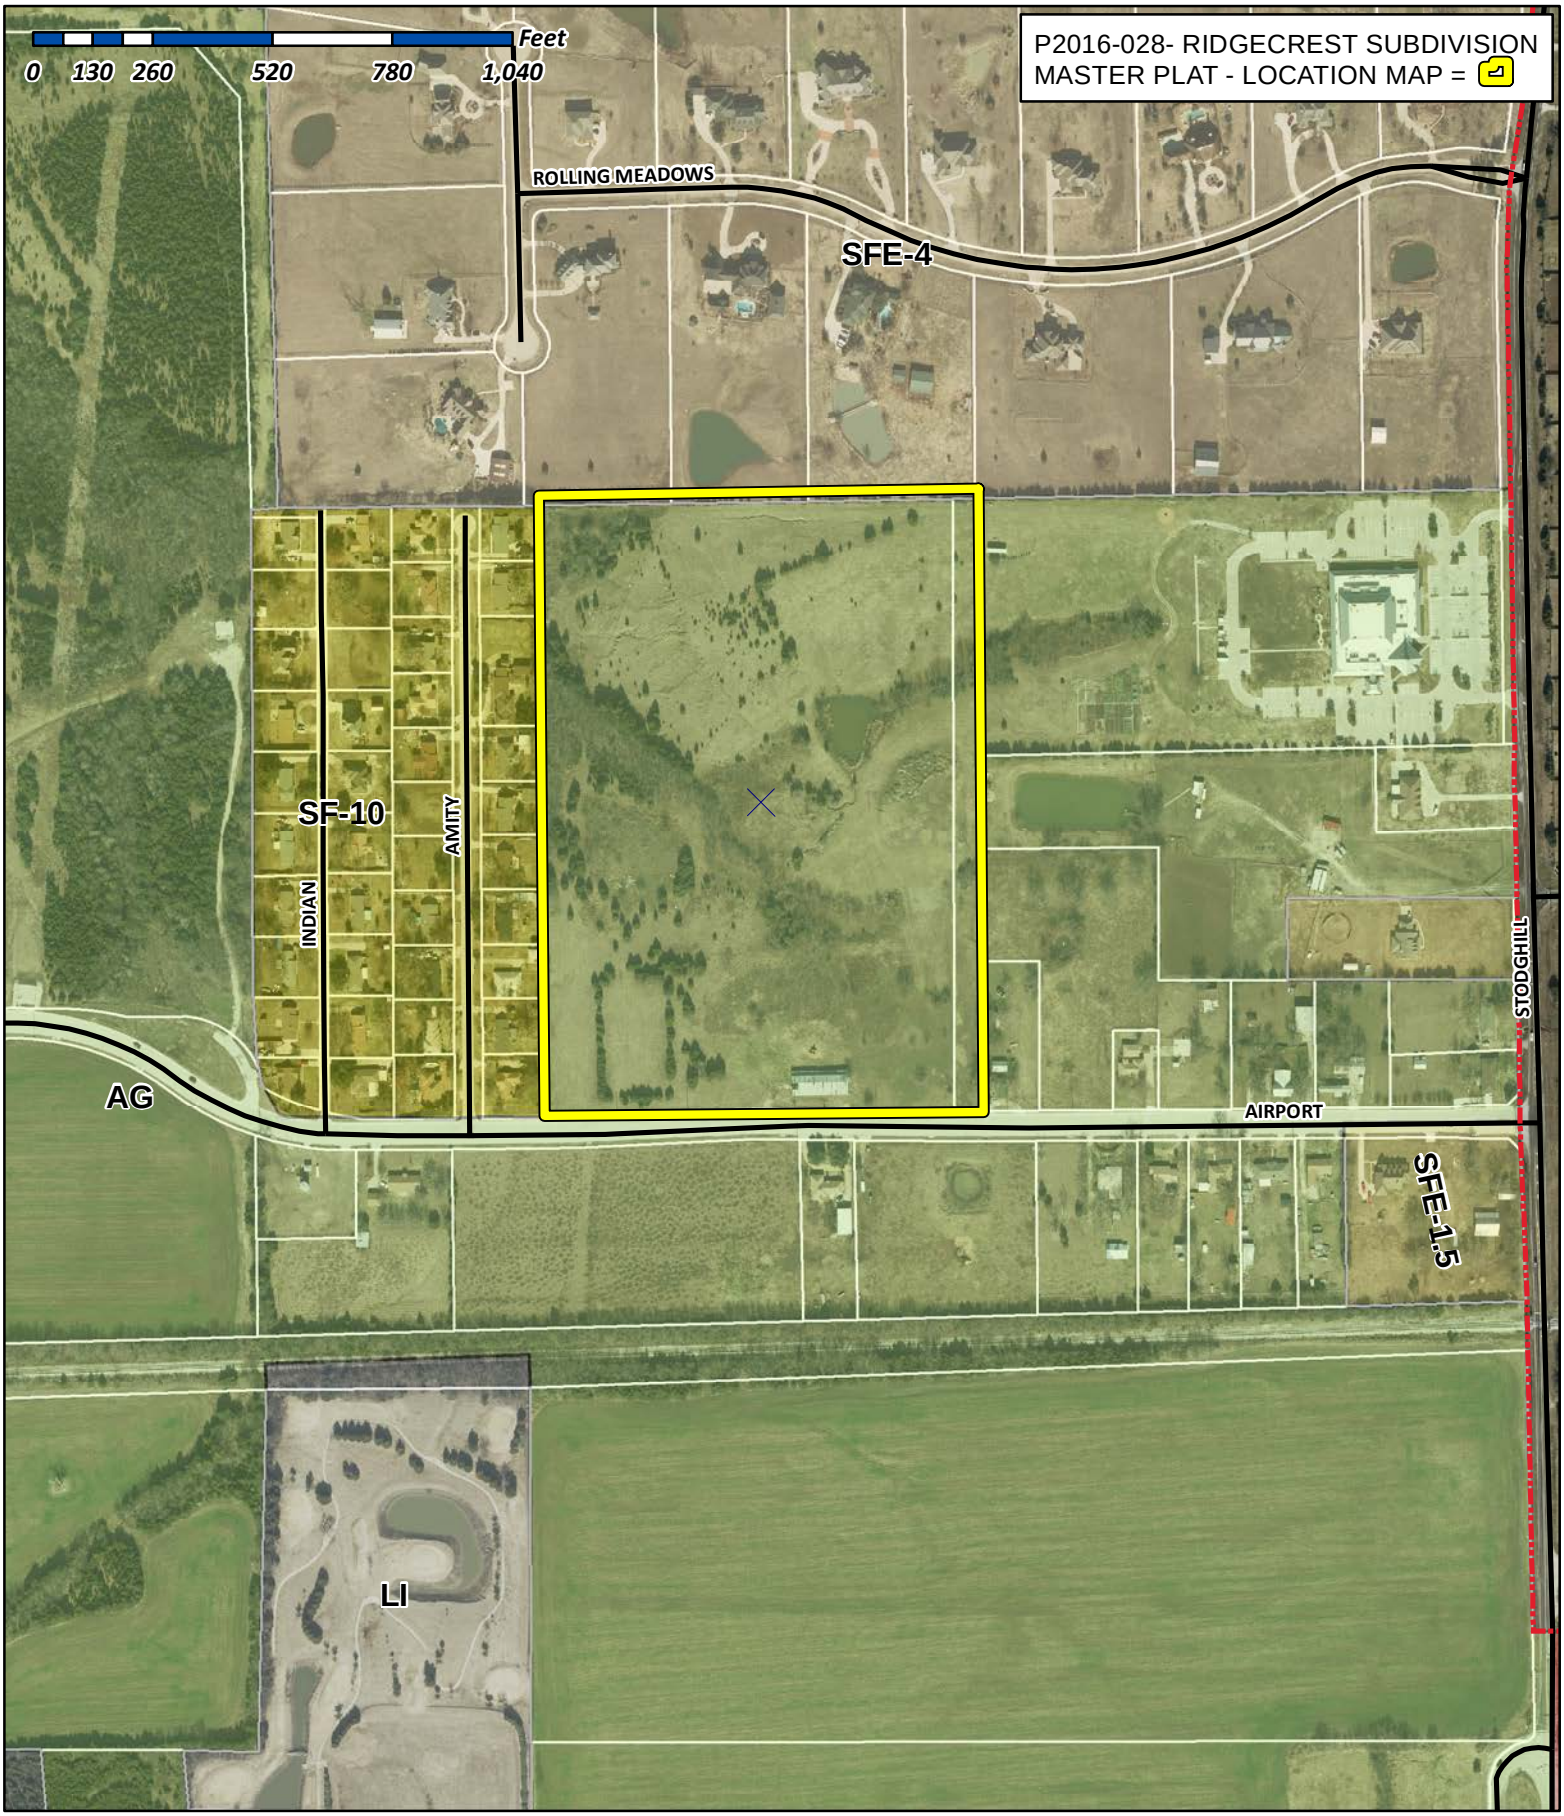
1) The City will accept dedication of Lot 14, Block A (*Open Space/Drainage Easement*) as a public parkland; and,

2) The pro-rata equipment fees of $54,225.00 (*i.e. 45 lots @ $1,205.00*) maybe used to provide amenity in the proposed public parkland; and,

3) The Parks Board will review a final amenity package at the time of final plat.

- ☑ The submitted master plat and open space plan conform to the concept plan and development standards contained in Planned Development District 81 (PD-81) [*Ordinance No. 16-42*], which was approved by the City Council on June 6, 2016 under *Case No. Z2016-014*. *In conjunction with the submittal of this master plat and open space plan, the applicant has submitted a preliminary plat (Case No. P2016-029).*

- ☑ The applicant has completed the majority of the technical revisions requested by staff, and this master plat, conforming to the requirements for *master plats* as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.



RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the master plat for the *Ridgecrest Subdivision* staff would recommend the following conditions:

1) The master plat shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments;

2) The applicant shall adhere to the recommendations made by the Parks Board (*stated above*);

3) Any construction resulting from the approval of this *master plat* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 06/14/2016

APPLICANT: Noah Flabiano, *Skorburg Co.*

AGENDA ITEM: **P2016-029**; *Preliminary Plat for the Ridgecrest Subdivision*

SUMMARY:

Discuss and consider a request by Noah Flabiano of the Skorburg Company on behalf of the owner Lakeside Church of Christ of Rockwall for the approval of a preliminary plat for the Ridgecrest Subdivision containing 45 single-family residential lots on a 29.541-acre parcel of land being a portion of Lot 1 and all of Lot 2, Block A, Rockwall Lakeside Church of Christ Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 81 (PD-81), located on the north side of Airport Road, west of the intersection of Airport Road and FM-3549, and take any action necessary.

PRELIMINARY PLAT INFORMATION:

☑ The Ridgecrest Subdivision will consist of 45 single-family lots on 28.941-acres of land for an overall density of 1.55-units/acre. The development will incorporate a rural street cross section and larger font yard, building setback (*i.e. 40-foot*) to give the appearance of a bucolic or rural neighborhood setting. The development will also incorporate ~24.68% open space or 7.144-acres. A summary of the proposed density and dimensional requirements is as follows:

Table 2: Lot Dimensional Requirements

Minimum Lot Width/Frontage	*80'*
Minimum Lot Depth	*100'*
Minimum Lot Area	*15,000 SF*
Minimum Front Yard Setback	*40'*
Minimum Side Yard Setback	*5'*
Minimum Side Yard Setback (Adjacent to a Street)	*10'*
Minimum Length of Driveway Pavement	*20'*
Maximum Height	*36'*
Minimum Rear Yard Setback	*10'*
Minimum Area/Dwelling Unit (SF)	*1,800 SF*
Maximum Lot Coverage	*65%*

☑ The purpose of the applicant's submittal is to preliminary plat all 45 single-family, residential lots and the 7.144-acres of private parkland and open space. In addition to the preliminary plat the applicant has also submitted a preliminary water, sanitary sewer and storm water plan establishing that the developer can provide adequate utilities to service the proposed development. *In conjunction with the submittal of this preliminary plat, the applicant has submitted a master plat and open space plan (Case No. P2016-028).*

☑ The submitted preliminary plat conforms to the concept plan and development standards contained in Planned Development District 81 (PD-81) [*Ordinance No. 16-42*], which was approved by the City Council on June 6, 2016 under *Case No. Z2016-014*.

☑ On June 8, 2016, the Parks Board reviewed the proposed preliminary plat and recommended the following:

1) The City will accept dedication of Lot 14, Block A (*Open Space/Drainage Easement*) as a public parkland; and,

2) The pro-rata equipment fees of $54,225.00 (*i.e. 45 lots @ $1,205.00*) maybe used to provide amenity in the proposed public parkland; and,

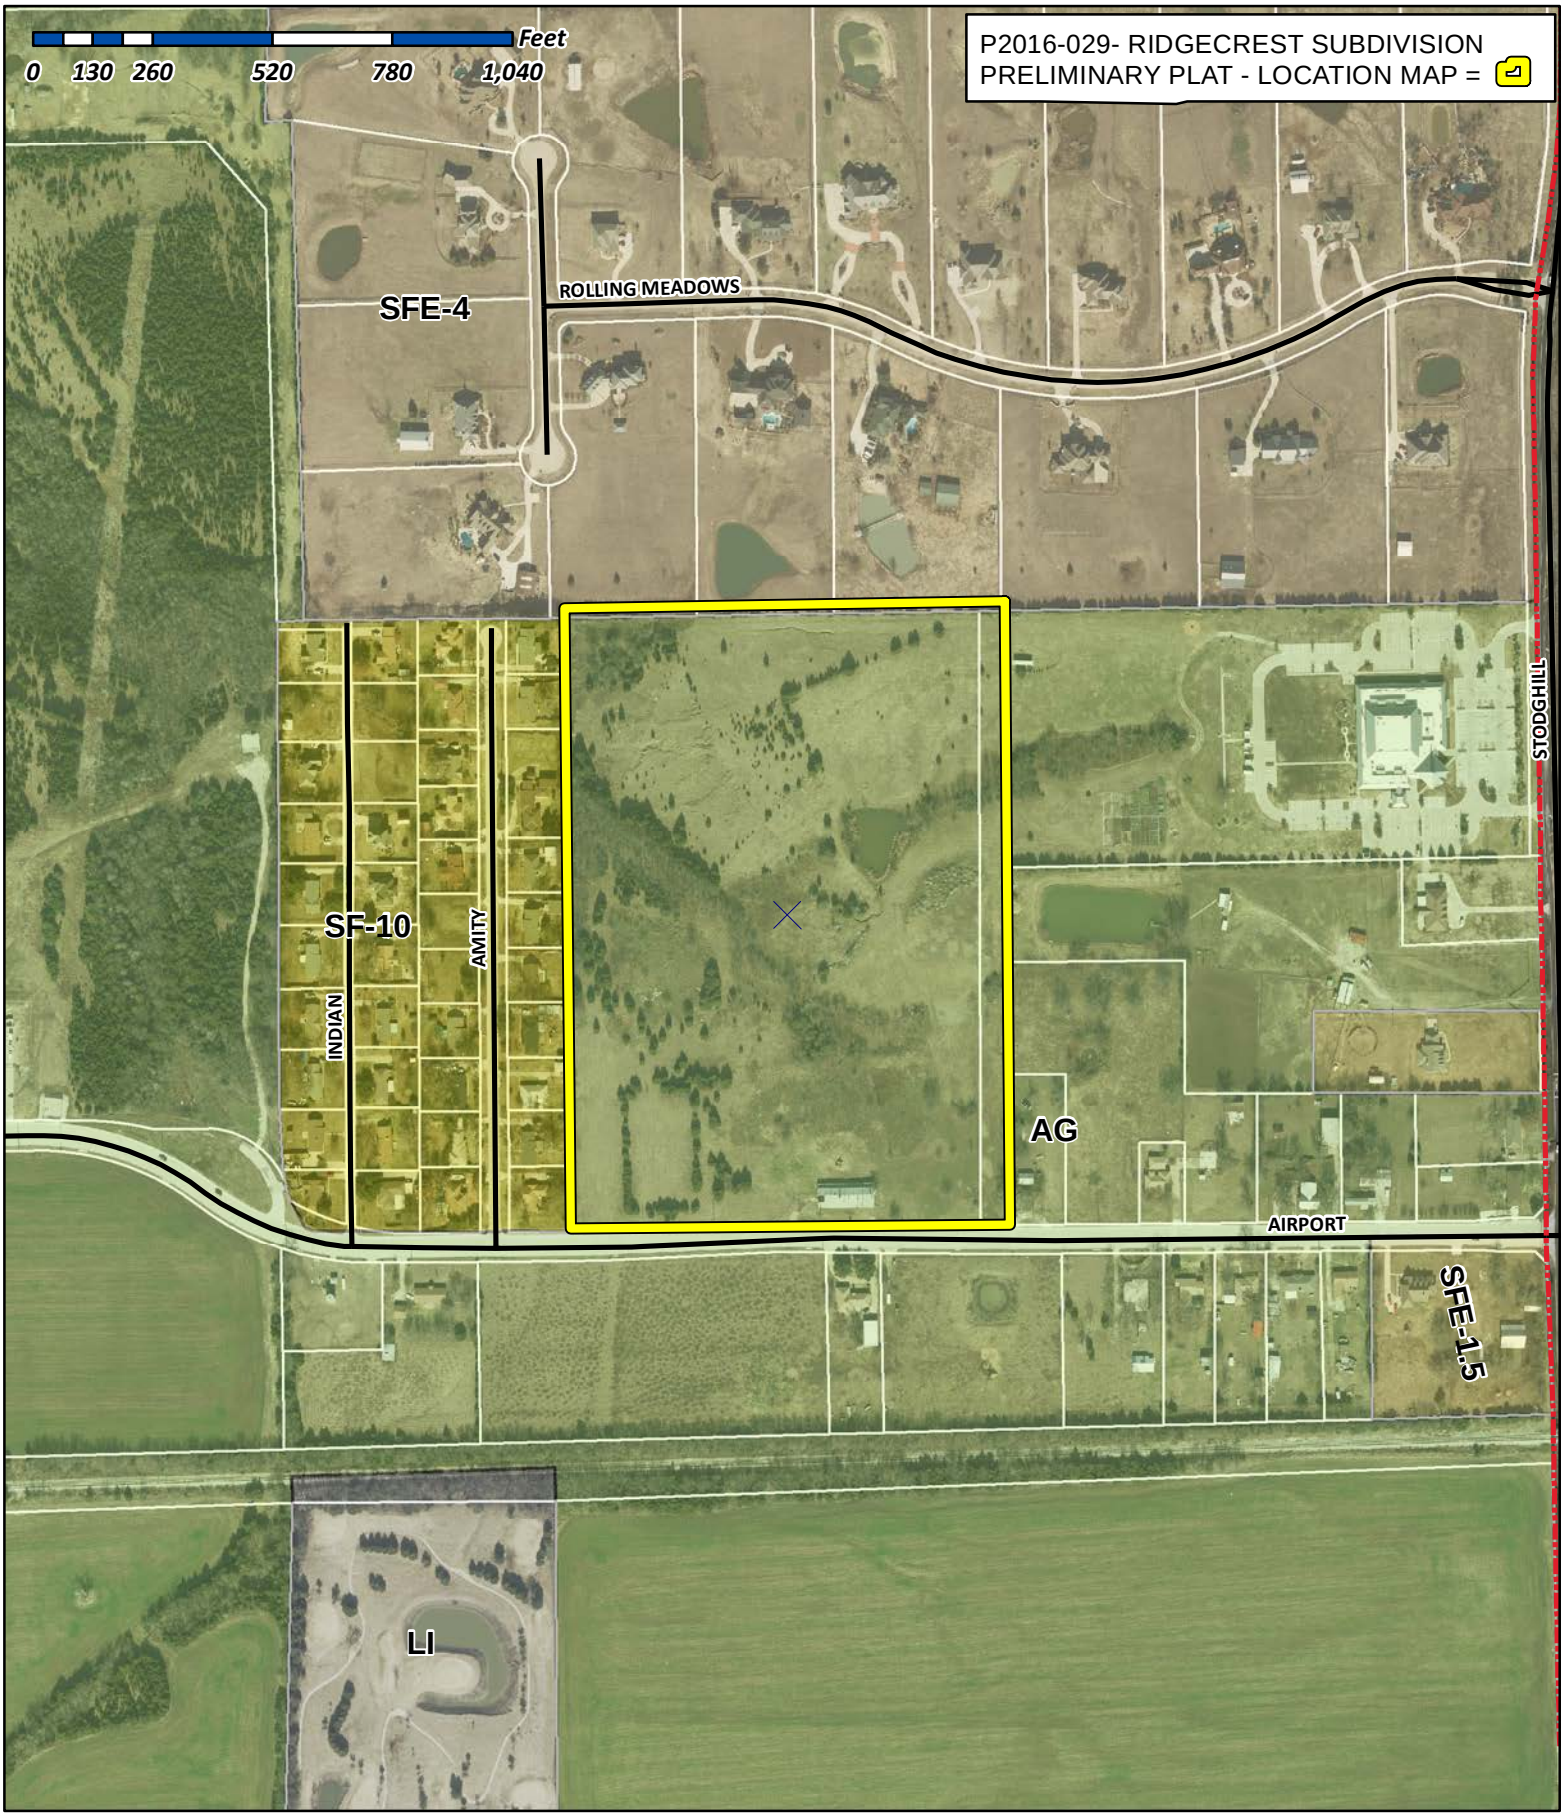
3) The Parks Board will review a final amenity package at the time of final plat.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for *Preliminary Plats* as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the preliminary plat for the *Ridgecrest Subdivision* staff would recommend the following conditions of approval:



1) The preliminary plat shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments;

2) In conformance with Planned Development District 81 (PD-81) [*Ordinance No. 16-42*] a site plan shall be submitted and approved prior to the approval of a final plat;

3) A treescape plan for the entire development shall be submitted and approved prior to the issuance of any grading permits;

4) The preliminary plat shall conform to the recommendations made by the Parks Board; and,

5) Any construction resulting from the approval of this preliminary plat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

CASE •

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

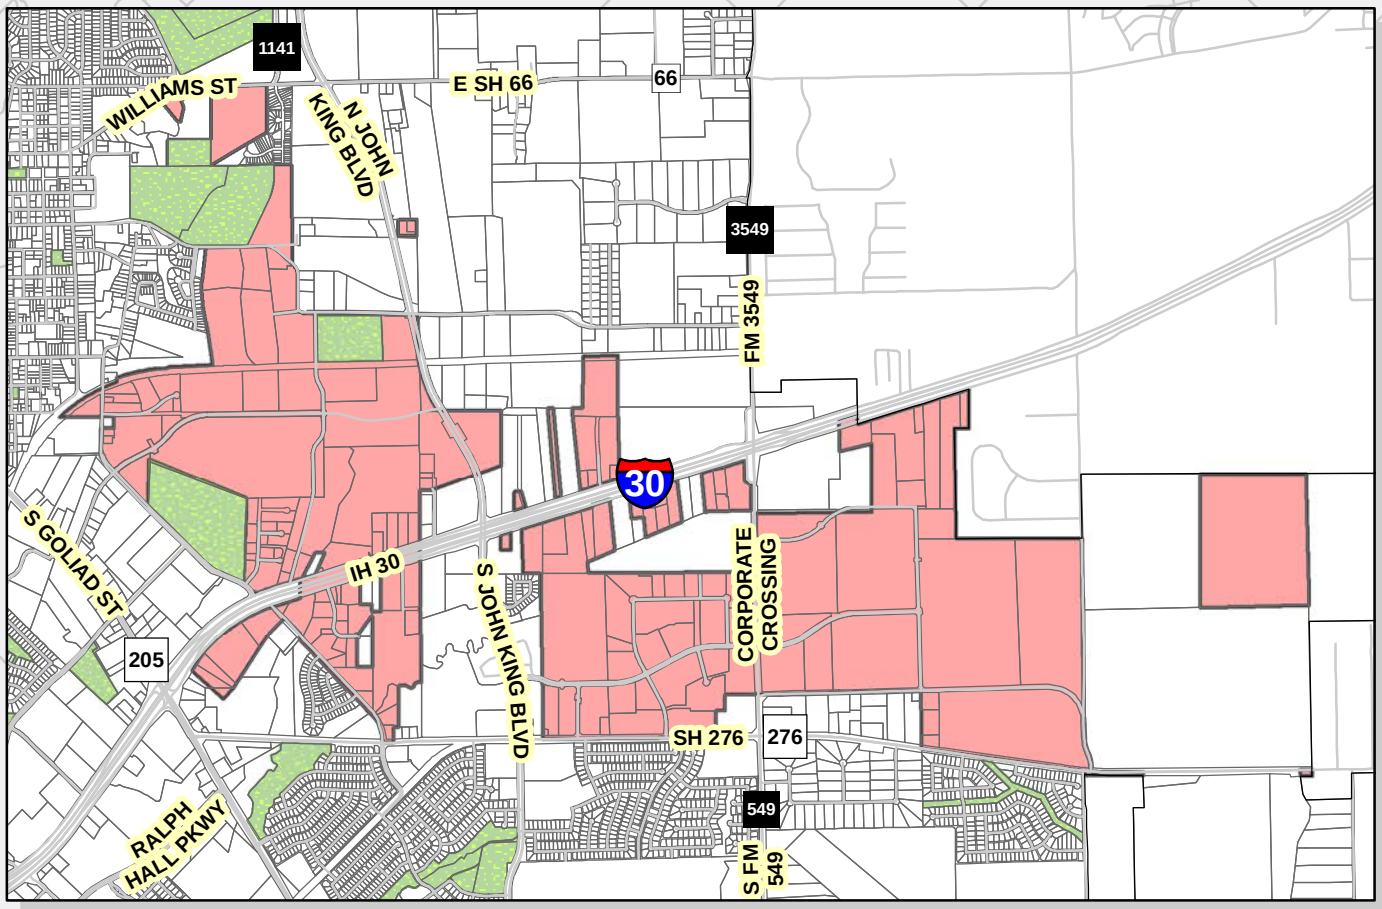
FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: June 14, 2016

SUBJECT: *Used Automotive Dealerships*

On May 16, 2016, staff brought forward an ordinance to the City Council proposing to allow the *Motor Vehicle Dealership, Used (Cars and Light Trucks)* use by SUP in the Light Industrial (LI) District and *by-right* in the Heavy Industrial (HI) District; however, the ordinance also restricted the use in certain overlay districts within the City. This ordinance was denied by the City Council by a vote of 6-1, with Mayor Pruitt dissenting. As part of this motion staff was directed to draft an ordinance that conformed to the motion made by the City Council on March 21, 2016. This motion was to allow a *Motor Vehicle Dealership, Used (Cars and Light Trucks)* in a Light Industrial (LI) District by a Specific Use Permit (SUP). Attached to this memorandum is an ordinance that if approved would make this change to the Unified Development Code (UDC). At the behest of the Planning and Zoning Commission, staff has also attached a map depicting all property zoned Light Industrial (LI) District within the City of Rockwall.

In accordance, with Section 4.2 of Article XI, *Zoning Related Applications*, of the Unified Development Code (UDC) staff is bringing the proposed amendments forward to the Planning and Zoning Commission for a recommendation to the City Council. The schedule for this text amendment is as follows:



~~Planning and Zoning Work Session: May 31, 2016~~
Planning and Zoning Public Hearing: June 14, 2016
City Council Public Hearing [*1st Reading*]: June 20, 2016
City Council [*2nd Reading*]: July 7, 2016

Staff has sent out a 15-day notice to the Rockwall County News in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTIONS 1.1 & 2.1.8 OF ARTICLE IV, *PERMISSIBLE USES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Section 1.1, *Use of Land and Buildings*, and Section 2.1.8, *Auto and Marine-Related Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] for the purpose of establishing *Motor Vehicle Dealership, Used (Cars and Light Trucks)* as a standalone use permitted within the Light Industrial (LI) District by Specific Use Permit; and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That Section 1.1, *Use of Land and Buildings*, and Section 2.1.8, *Auto and Marine-Related Use Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibit 'A'* of this ordinance;

Section 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

Section 2. Use Standards
Section 2.1.8 Auto and Marine-Related Use Conditions

Indoor Motor Vehicle Dealership/Showroom, (New and/or Used). The indoor storage of operable automobiles in a fully enclosed building for the purpose of holding such vehicles for sale, lease, distribution, or storage.

1. The sales/storage facility must be a completely enclosed building.
2. Outside display or storage of vehicles shall be prohibited. This includes storing vehicles under canopies/awnings or similar covered structures.
3. All activities shall remain inside the building (*i.e. no detailing, sales activities, et cetera shall be performed outside the building*).
4. Accessory uses may be allowed in compliance with the "Permissible Use Charts" located within *Section 1.1* of this article.

Motor Vehicle Dealerships (New and Used).

1. Used vehicles may only be sold as an ancillary use to new vehicle sales ***in the Commercial (C), Heavy Industrial (HI) and Heavy Commercial (HC) Districts***.
2. All outside display of vehicles must be on an approved concrete, or enhanced concrete surface.
3. All vehicle display areas must meet the landscape standards for parking areas.

DRAFT ORDINANCE 07.05.2016

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 6/14/2016

APPLICANT: Jeff Parker, *Skorburg Company*

AGENDA ITEM: **Z2016-018**; *Breezy Hill Amendments (PD-74)*

SUMMARY:

Hold a public hearing to discuss and consider a request by Jeff Parker of the Skorburg Company on behalf of BH Balance IV, LLC for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan to allow for additional single-family residential lots and for the purpose of incorporating changes to the development standards contained in *Exhibit 'C'* of *Ordinance 14-26* for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, Texas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary.

BACKGROUND:

The property was annexed in 2008 after three (3) years of litigation that lead to the execution of a Chapter 212 Development Agreement. In accordance with this agreement, the property was zoned to Planned Development District 74 (PD-74) on April 20, 2009 with the intention of being a master planned residential community that offered tracts of land designated for retail/office, residential, and institutional land uses. The approval of this zoning change altered the existing 212 Development Agreement -- *which originally permitted 810 single-family residential lots and did not contain any retail acreage* -- to include 658 single-family residential lots and a 59-acre tract of land designated for general retail land uses. The retail tract of land is located at the northeast corner of the intersection of FM-552 and John King Boulevard.

On October 1, 2012 the City Council approved an amendment to Planned Development District 74 (PD-74) modifying the concept plan to remove the school sites that were originally required by the *Facilities Agreement* and adjust the lot mix accordingly [*i.e. increasing the number of lots from 658 to 691*]. The lot mix was again increased on July 7, 2014 from 691 lots to 742 lots for the purpose of incorporating two (2) additional phases (*i.e. Phases IXA & IXB*) and to reduce the land designated as commercial/retail from 59.4-acres to 33.7-acres (see *Figure 1* for the adjusted lot mix).

Figure 1: Current Lot Mix

Lot Types	*A*	*B*	*C*	*D*
Typical Lot Frontage (Feet)	*60*	*70*	*80*	*100*
Typical Lot Depth (Feet)	*120*	*120*	*125*	*200*
Minimum Lot Size (Sq. Ft.)	*7,200*	*8,400*	*10,000*	*20,000*
Number of Units	*206*	*112*	*326*	*98*
Dwelling Unit %	*27.80%*	*15.10%*	*43.90%*	*13.20%*

On March 13, 2015, the applicant submitted an alternate concept plan depicting a reduction in the number of acres designated for retail land uses from 33.7-acres to 19.49-acres for the purpose of amending Planned Development District 74 (PD-74) to include an additional residential phase of 50' x 120' lots (*i.e. minimum of 6,000 SF*). In addition, this case proposed

raising the number of lots from 742 to 762, but maintain a density of 2.0-units/acre. This case [*Case No. Z2015-013*] was denied by the City Council on May 4, 2015.

PURPOSE:

In accordance with Section 8.3 of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) -- *which restricts a similar application for the period of one (1) year from the denial date* -- the applicant has submitted an application requesting to amend Planned Development District 74 (PD-74) [*Ordinance No. 14-26*] to approve an alternate concept plan and development standards. Specifically, the applicant is requesting to reduce the number of acres designated for retail land uses from 33.7-acres to 19.49-acres for the purpose incorporating an additional residential phase that will be composed of 50' x 120' lots (*i.e. minimum of 6,000 SF*).

CHARACTERISTICS OF THE REQUEST:

The 14.21-acres of land that the applicant is proposing to remove from the retail acreage will establish a new phase of the Breezy Hill Subdivision that will contain 47 single-family homes. The new phase will be located north of the remaining retail acreage, adjacent to Phase IIA. These new homes will be constructed on 50' x 120' lots that will be a minimum of 6,000 square feet in size. The development standards for this new lot type (identified below in *Figure 2* as *Lot Type 'E'*) are taken directly from the zoning ordinance that regulates the Stone Creek Subdivision (*i.e. Planned Development District 70 [PD-70]*) and are similar to the remaining lot types in Planned Development District 74 (PD-74) with respect to the development standards. The only major difference in this lot type will incorporate forward facing garages. This is primarily due to the difficulty of incorporating a *'J' Swing* or *Traditional Swing* driveway on a 50-foot lot.

Figure 2: Proposed Lot Mix

Lot Types	*A*	*B*	*C*	*D*	*E*
Typical Lot Frontage (Feet)	*60*	*70*	*80*	*100*	*50*
Typical Lot Depth (Feet)	*120*	*120*	*125*	*200*	*120*
Minimum Lot Size (Sq. Ft.)	*7,200*	*8,400*	*10,000*	*20,000*	*6,000*
Number of Units	*206*	*112*	*326*	*98*	*47*
Dwelling Unit %	*26.11%*	*14.20%*	*42.32%*	*12.42%*	*5.96%*

Considering the proposed new lot type and the proposed changes to the lot mix, the total number of single-family lots will be increased from 742 to 789. This proposed change increases the density from ~2.0-units/acre to ~2.07-units/acre (*i.e. currently the subdivision has 742 lots on ~379-acres, and the applicant is proposing 789 lots on ~381-acres*). With the exception of the proposed changes to the concept plan and lot mix tables, and subsequent changes to accommodate the new lot type, the applicant is not requesting any additional changes to Planned Development District 74 (PD-74).

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

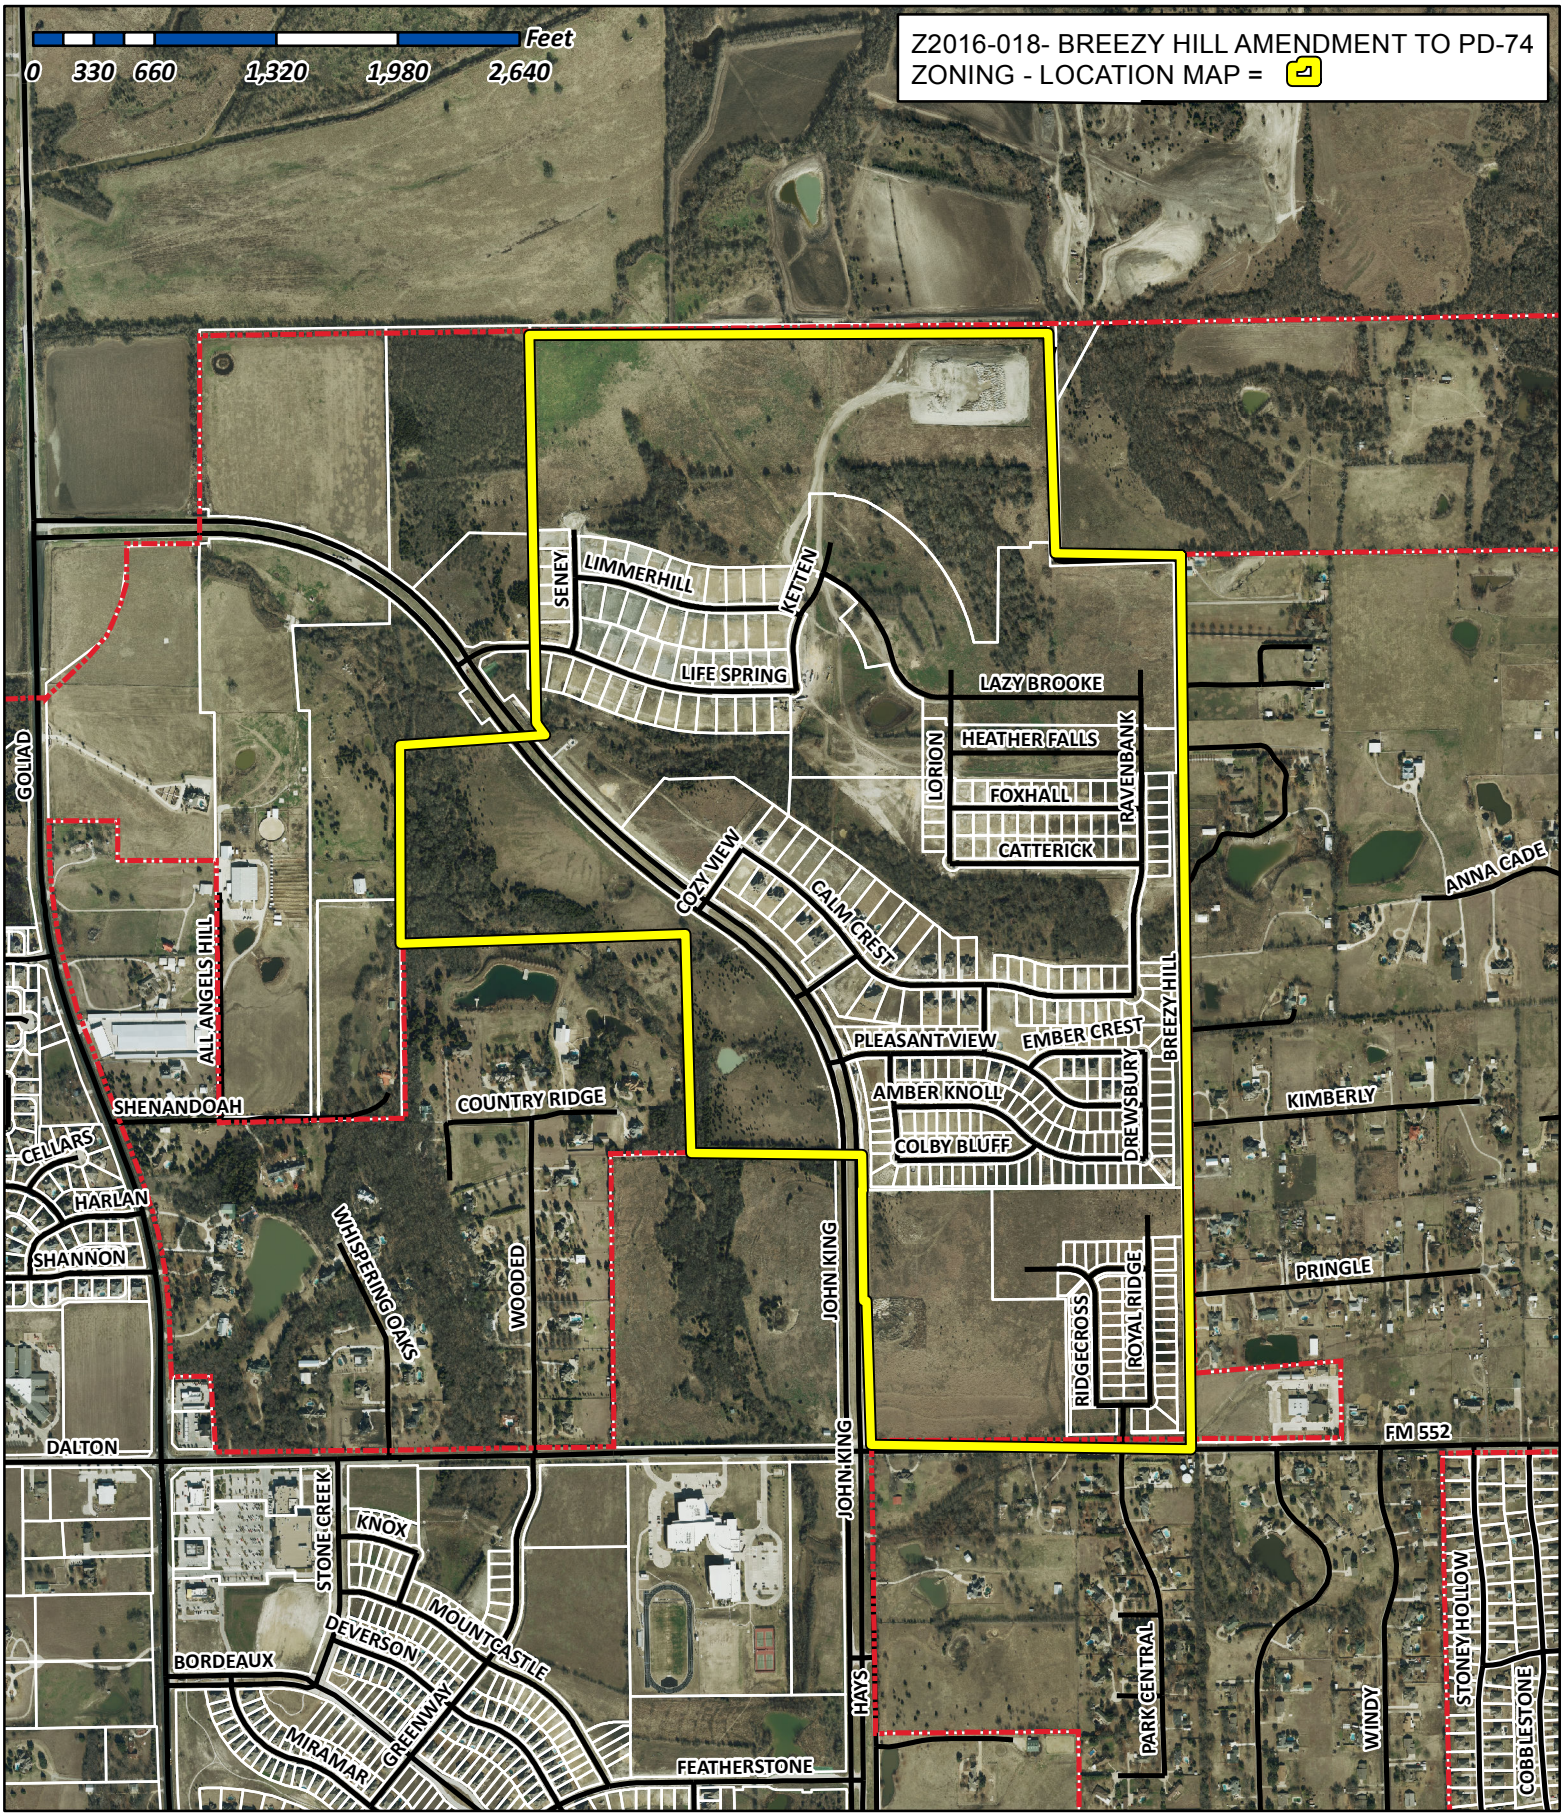
The Future Land Use Map contained within the Comprehensive Plan designates the subject property for *Commercial* land uses. Should the City Council approve the applicant's request, the Future Land Use Map will be amended to reflect the proposed changes in land use from a *Commercial* designation to a *Low Density Residential* designation. *This has been added to the conditions of approval contained in the Recommendations section of this case memo.*

NOTIFICATION:

On May 27, 2016, staff mailed 364 notices to property owners and residents within 500-feet of the subject property. Staff also emailed a notice to the Stoney Hollow and Breezy Hill Homeowner's Associations (HOA's), which are the only HOA's located within 1,500 feet of the subject property. Additionally, staff posted a sign at the corner of FM-552 and John King Boulevard, and advertised the public hearings in the Rockwall Harold Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted staff had received five (5) responses in opposition to the zoning change.

RECOMMENDATIONS:

If the Planning and Zoning Commission recommends approval of the applicant's request to amend Planned Development District 74 (PD-74) then staff would propose the following conditions of approval:



1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) By approving this zoning change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of the subject property from a *Commercial* designation to a *Low Density Residential* designation;

3) Prior to accepting a final plat for the proposed phase (*i.e. depicted in purple of the PD Concept Plan*) the applicant shall be required to administratively amend the PD site plan in order to show all necessary entry features/signage, landscaping and hardscaping proposed for the new phase;

4) Prior to accepting a preliminary plat for the proposed phase (*i.e. depicted in purple of the PD Concept Plan*) the applicant shall be required to administratively amend the preliminary plat for Phases IXA & IXB to show the new street layout; and,

5) Any construction resulting from the approval of this *zoning amendment* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

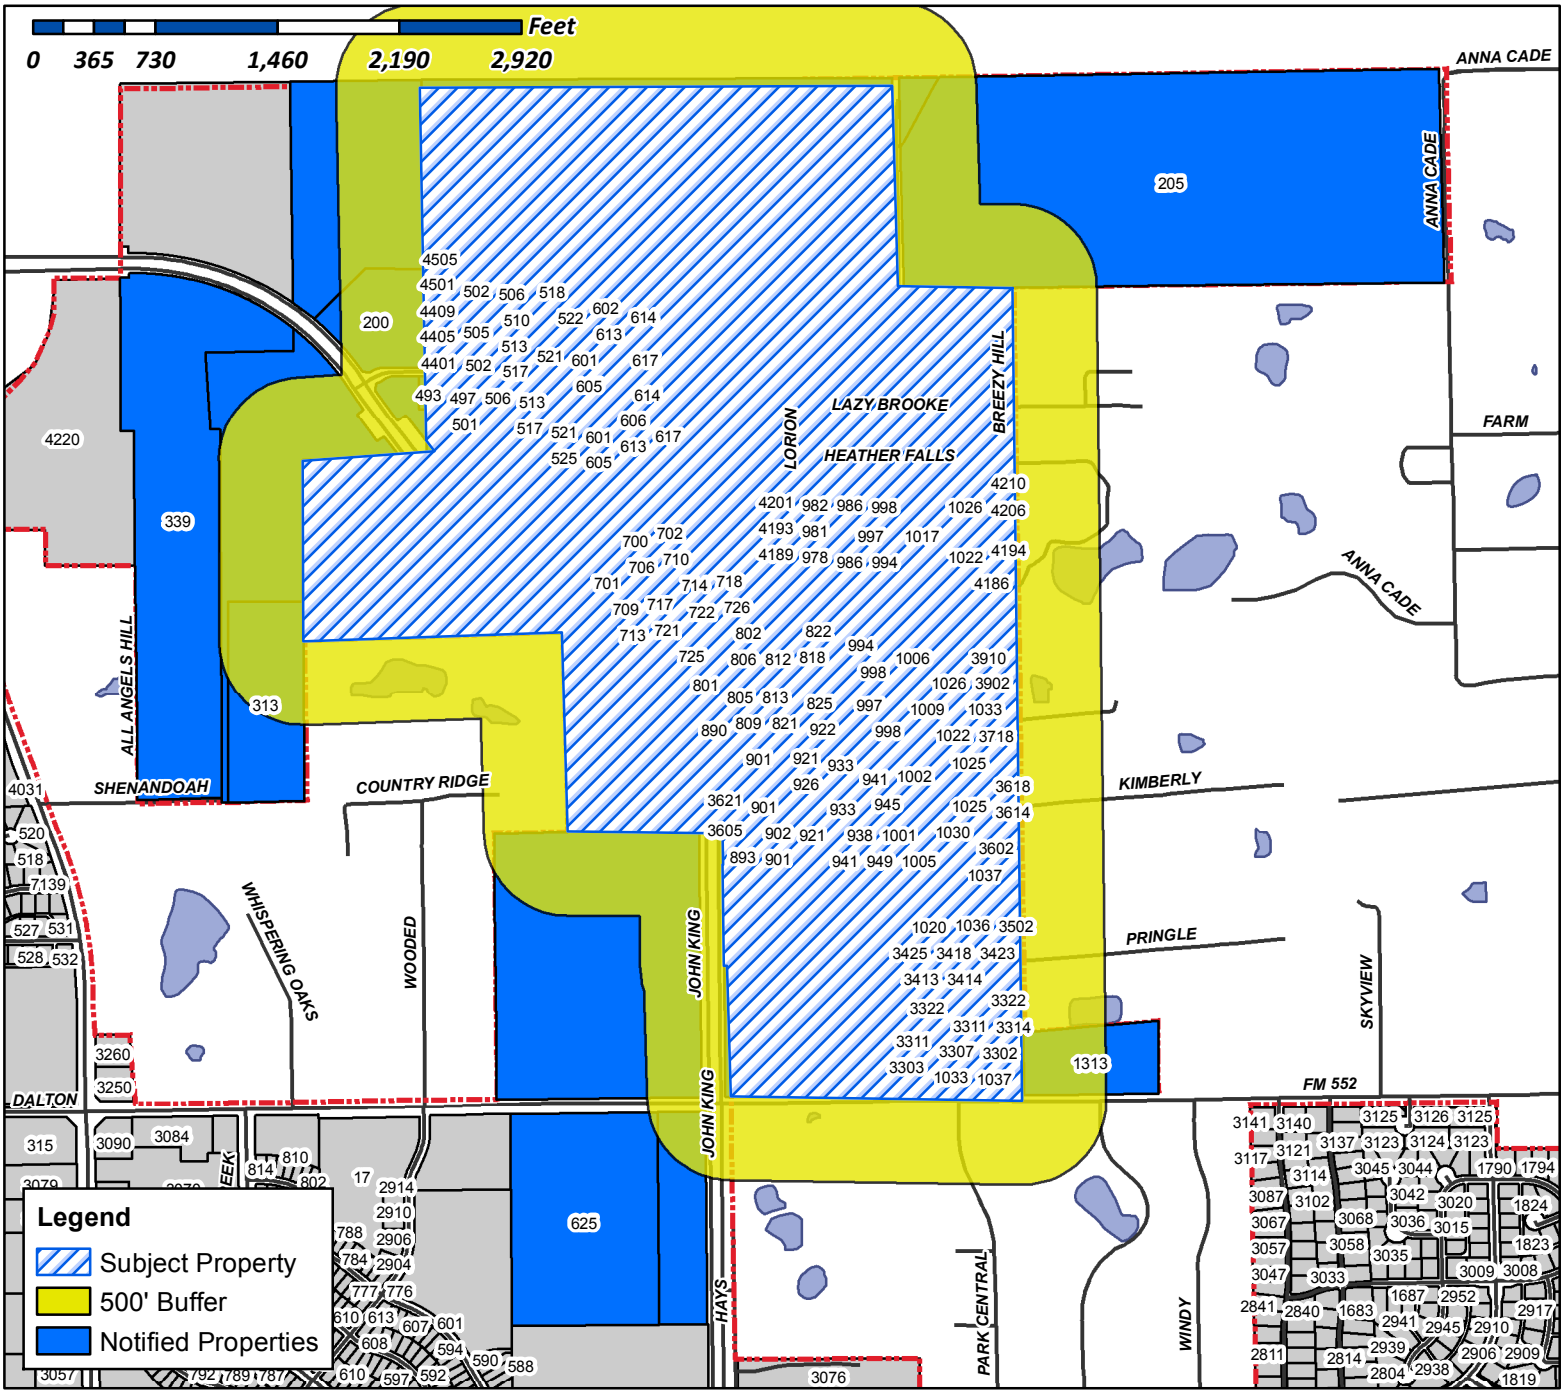
Subject:	Neighborhood Noification Program: Notice of zoning request
Date:	Thursday, May 26, 2016 5:02:02 PM

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on June 3, 2016. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-018Hold a public hearing to discuss and consider a request by Jeff Parker of the Skorburg Company on behalf of BH Balance IV, LLC for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan to allow for additional single-family residential lots and for the purpose of incorporating changes to the development standards contained in *Exhibit 'C'* of *Ordinance 14-26* for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, Texas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary.**

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.



Sincerely,

Laura Morales
Planning & Zoning Coordinator

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2016-018: Breezy Hill Amendment to PD-74

Hold a public hearing to discuss and consider a request by Jeff Parker of the Skorburg Company on behalf of BH Balance IV, LLC for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan to allow for additional single-family residential lots and for the purpose of incorporating changes to the development standards contained in Exhibit 'C' of Ordinance 14-26 for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, Texas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 6/14/2016 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 6/20/2016 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

Ryan Miller
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **6/20/2016** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

MORE INFORMATION ON THIS CASE CAN BE FOUND ON THE CITY'S WEBSITE: HTTPS://SITES.GOOGLE.COM/SITE/ROCKWALLPLANNING/DEVELOPMENT-CASES

PLEASE RETURN THE BELOW FORM

Case No. Z2016-018: Breezy Hill Amendment to PD-74

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☐ I am opposed to the request for the reasons listed below.

Name:

Address:

Tex. Loc. Gov. Code, Sec. 211.006 (d) If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either: (1) the area of the lots or land covered by the proposed change; or (2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.

PLEASE SEE LOCATION MAP OF SUBJECT PROPERTY ON THE BACK OF THIS NOTICE

PLEASE RETURN THE BELOW FORM

Case No. Z2016-018: Breezy Hill Amendment to PD-74

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☒ I am opposed to the request for the reasons listed below.

- Purchased home with the understanding that the smallest lots would be 60' per Email with Drees Builder.
- Have already invested significant dollars in property improvements and believe 50' lots would drive down property values across Breezy Hill.

Name: Darrin & Becky Massey

Address: 929 Pleasant View Drive, Rockwall, TX 75087

Tex. Loc. Gov. Code, Sec. 211.006 (d) **If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either: (1) the area of the lots or land covered by the proposed change; or (2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.**

Case No. Z2016-018: Breezy Hill Amendment to PD-74

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☒ I am opposed to the request for the reasons listed below.

I am opposed to increasing the number of 50' lots. The area needs to retain green spaces. I am not opposed to the standards or the original planned approval. I would just like to see more green space.

Name: Michael Agostini

Address: 1010 CALM CREST Rockwall TX 75087

Fyi, I double checked to make sure 522 Limmerhill Drive was sent a notice, and one was sent.

From: Chris Moore [redacted]
Sent: Friday, June 03, 2016 8:55 AM
To: Planning
Subject: Zoning Changes

To Whom It May Concern:

This email is in regards to the proposed changes regarding the Breezy Hill plans to include a section of smaller homes on smaller lots. I understand this will be discussed with the city council on 6/20.

We just recently closed on a home in Breezy Hill and did not receive the form that was mailed to homeowners. We are writing our objections/concerns here in lieu of the form.

We have been residents of the north part of Rockwall since 2008 and my wife has been a teacher with RISD since 2002. When the plans for Breezy Hill were announced with larger lots and more space we sold our home in the Castle Ridge subdivision to jump on the opportunity. The driver to build in Breezy Hill was to have the opportunity to have more space.

The north part of Rockwall has plenty of subdivisions with smaller homes and smaller lots already including the new phase for Castle Ridge, Stone Creek, and Caruth Lakes. More smaller lots and smaller homes is not needed.

The demand is there for larger homes and larger lots. If you look at the phase of Breezy Hill that has the 100'X200' lots it is already almost completely sold out. The phases of Breezy Hill with larger lots have been moving well. Stone Creek slowed down when the larger lots of Breezy Hill opened up. These are factual observations not opinions.

I would argue that Rockwall would continue to benefit by having some balance and leaving the Breezy Hilly plan alone to exclude smaller lots and smaller homes like is now being proposed.

I am happy to discuss further and be involved in any way.

Regards,
Chris Moore

Cc: nancycfontaine@yahoo.com
Subject: Case Number 22016-018 BreezyHill

To all members of the planning department, city council and Mayor of Rockwall,

My husband and I purchased our home in Breezy Hill last October, relocating from the state of Michigan. One of the reasons we chose the area and sub division was due to the larger lot sizes in Breezy Hill in relation to the size of lots elsewhere.

Needless to say we are opposed to the request of the developer to decrease lot sizes in the upcoming phases of the sub division to 50 ' lots. We and others paid a premium price for our homes based on the planned density of homes. A reduction in lot size would alter the density and reduce property values.

We understand the developer requested smaller lots previously and was denied. We and the neighbors of Breezy Hill are requesting the same outcome this time- a denial of the request.

Thank you,

Nancy and Norman Fontaine

Date: Wednesday, June 08, 2016 8:29:20 AM

-----Original Message-----
From: Nancy Parkes [redacted]
Sent: Tuesday, June 07, 2016 9:17 PM
To: Planning
Subject: Case # Z2016-018 Breezy Hill Amendment to PD-74

Please let this serve as my opposition to the above proposed zoning change.

Changing the zoning to allow smaller homes on smaller lots will decrease the value of neighborhood. This neighborhood was built to be higher level and we have all paid a premium to have larger lots and many of the homes have higher standard of fixtures and additions that were not given to homes on smaller lots. One cannot compare the homes starting at 1700 square foot to the majority of homes in this neighborhood. Please do to allow the zoning to change to include the smaller homes on the smaller lots. Allow this neighborhood to keep its premium quality as we have all paid for it.

Infrastructure Statement

Drainage Facilities:
There are natural drainage ways within the project and detention will be required.

Sanitary Sewer Facilities:
This site will utilize lift stations and force mains to send the sewer flows to the existing sewer trunk line located at the intersection of FM 552 and Highway 205

Water Facilities:
There is an existing water line located in FM 552. A new 16"water line will be constructed along John King Boulevard north of FM 552 to service this tract.

Roadway Facilities:
The west side of the project is bounded by John King Boulevard, the south side is bounded by FM 552, the east side is bounded by Breezy Hill Road.

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 74 (PD-74) [*ORDINANCE NO. 14-26*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING THE PLANNED DEVELOPMENT CONCEPT PLAN AND THE DEVELOPMENT STANDARDS APPROVED WITH ORDINANCE NO. 14-26, BEING A 405.184-ACRE TRACT OF LAND SITUATED IN THE J. STRICKLAND SURVEY, ABSTRACT NO. 187, T. R. BAILEY SURVEY, ABSTRACT NO. 30 AND THE J. SIMMONS SURVEY, ABSTRACT NO. 190, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY EXHIBIT 'A'; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE..

WHEREAS, the City has received a request by the Jeff Parker of the Skorburg Company on behalf of Breezy Hill 405, LTD for an amendment to the Planned Development Concept Plan and Development Standards contained within Planned Development District 74 (PD-74) [specifically contained within *Ordinance No. 14-26*] and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, for a 405.184-acre tract of land situated in the J. Strickland Survey, Abstract No. 187, T. R. Bailey Survey, Abstract No. 30 and the J. Simmons Survey, Abstract No. 190, Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 74 [*Ordinance No. 14-26*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 09-19, 12-26 & 14-26*;

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of

PRINT OF ORDINANCE 05.03.16

approval of the amended zoning classification for the *Subject Property*;

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That a master parks and open space plan for the Property, prepared in accordance with this ordinance and consistent with the *Planned Development Concept Plan*, (*Open Space Master Plan*) shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

Section 6. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 5(b) through 5(f) below*), shall be the exclusive procedures applicable to the subdivision and platting of the Property.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in Section 212.009 of the Texas Local Government Code.

1. Open Space Master Plan
2. Master plat
3. PD development plans (*required for retail areas only*)
4. PD site plans
5. Preliminary plats
6. Final plats

(c) A Master Plat application covering all of the *Subject Property*, other than the area designated on the *Planned Development Concept Plan* as *Retail*, shall be submitted and shall identify each phase of development. No master plat application shall be approved until the *Open Space Master Plan* for all of the Property has been approved; however, the *Open Space Master Plan* may be processed by the City concurrently with the master plat application.

(d) A *PD Development Plan* must be approved for the area designated on the Concept Plan as *Retail* prior to submittal of a *PD Site Plan* application and/or a preliminary plat application. No master plat is required for the area designated on the Concept Plan as *Retail*. A traffic impact analysis for the retail tract shall be submitted with the *PD Development Plan* to determine the extent and timing of any recommended facilities and/or improvements to the surrounding roadway network. The traffic impact analysis may be updated with each *PD Site Plan* for the retail tract.

(e) A preliminary plat application shall be submitted for each phase of residential development. A *PD Site* Plan application, including a site plan application for improvements for parkland or trails, may be processed by the City concurrently with a preliminary plat application for that phase of the development.

(f) A *Capital Facilities Agreement* in the form of *Exhibit 'D',* attached hereto and incorporated herein by reference as *Exhibit 'D',* shall be executed by Developer providing for delivery of adequate public facilities and services within the District.

Section 7. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine

DRAFT ORDINANCE 08.08.16

not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 8. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 9. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 10. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 5TH DAY OF JULY, 2016.

PD Development Standards

TEXT TO BE ADDED TO THE ORDINANCE
~~***TEXT TO BE REMOVED FROM THE ORDINANCE***~~

A. GENERAL REQUIREMENTS

1. *Uses Allowed.* The following uses are permitted for the Property.

   a. *Residential uses*. Uses permitted of right or by special use permit for the (SF-10) Single Family Residential District, as set forth in Article IV, Permissible Uses, of the City of Rockwall Unified Development Code, shall be allowed for areas designated as Single-Family on the Concept Plan, subject to approval of a Special Use Permit if required by the SF-10 District Regulations.

   b. *Non-residential uses*. Non-residential uses shall be allowed only within the area designated as Retail on the approved Concept Plan for the District, and are limited to those uses permitted of right or by special use permit for the (GR) General Retail District subject to approval of a PD Development Plan and PD Site Plan in accordance with the Planned Development District regulations, Article X, Section 2 of the Unified Development Code, and subject to approval of a Special Use Permit if required by the GR District Regulations; provided, however, that the following uses are expressly prohibited:

   - ☑ Animal Hospital, Clinic
   - ☑ Convent or Monastery
   - ☑ Hotel or Motel
   - ☑ Hotel, Residence
   - ☑ Cemetery/Mausoleum
   - ☑ Mortuary of Funeral Chapel
   - ☑ Social Service Provider
   - ☑ Billiard Parlor or Pool Hall
   - ☑ Carnival, Circus, or Amusement Ride
   - ☑ Commercial Amusement/Recreation (Outside)
   - ☑ Gun Club, Skeet or Target Range (indoor)
   - ☑ Astrologer, Hypnotist, or Psychic Art and Science
   - ☑ Garden Supply/Plant Nursery
   - ☑ Night Club, Discotheque, or Dance Hall
   - ☑ Secondhand Dealer
   - ☑ Car Wash, Self Service*
   - ☑ Service Station*
   - ☑ Mining and Extraction (Sand, Gravel, Oil & other)
   - ☑ Helipad
   - ☑ Railroad Yard or Shop
   - ☑ Transit Passenger Facility

   ** Not including a convenience store with an accessory car wash use or more than four (4) gas pumps, which accessory uses are permitted by SUP.*

   The following additional use shall be permitted of right in the PD District:

   - ☑ Grocery Store with a maximum building area of one hundred and thirty thousand (130,000) square feet.

   c. *Design of non-residential uses.* The retail area shall be designed to be pedestrian-oriented and easily accessible to adjacent residential neighborhoods. Additionally, the retail area shall be designed and constructed to be integrated with adjacent uses, not separated from them by screening walls or other physical barriers. This will be accomplished by creating paths from adjacent development into the retail area and

DRAFT ORDINANCE 06.09.2016

through the use of landscaping buffers, building design and other urban design elements to create compatibility with the surrounding residential neighborhood.

d. *Density and lot composition*. If the retail develops in accordance with the attached Concept Plan, no more than ~~***742***~~ ***789*** single-family residential dwelling units may be constructed within the Property. Except as provided in subsection (e), single-family residential units shall be allocated by product type in accordance with the following table:

Table 1: Lot Composition

Lot Type	Lot Size Minimum	Lot SF Minimum	Driveway Access	Total Units	Total Dwelling Units (%)
A	60' x 120'	7,200	Front	206	~~***27.80***~~ ***26.11%***
B	70' x 120'	8,400	Front	112	~~***15.10***~~ ***14.20%***
C	80' x 125'	10,000	Front	326	~~***43.90***~~ ***41.32%***
D	100' x 200'	20,000	Front	98	~~***13.20***~~ ***12.42%***
E	***50' x 120'***	***6,000***	***Front***	***47***	***5.96%***
AVERAGE LOT SIZE:		**10,000**			
			MAXIMUM ALLOWED TOTAL UNITS:	~~***742***~~ ***789***	**100%**

e. *Variation in lot composition.* The allocation of single-family dwellings among lot types may deviate from that in subsection (d), provided that the maximum allowed total dwelling units does not exceed ~~***742***~~ ***789*** units, the average lot size for the development is not less than 10,000 sq. ft., and the following rules are met:

(1) Lot types "A & B" may increase not more than 5% in aggregate number.
(2) Lot type "C" shall not be decreased below ~~***42%***~~ ***41.32%*** of the total ~~***742***~~ ***789*** lots.
(3) Lot Type "D" shall not be decreased below 98 of the total lots.
(4) Lot Type "E" shall not increase above 47 of the total lots.

2. *Development Standards Applicable.* Except as may be modified by these Development Standards, residential uses shall be subject to the development standards for a (SF-10) Single Family Residential District, as set forth in Article V, District Development Standards for Section 3.4 of the City of Rockwall Unified Development Code; to the development standards in the 205 Bypass Overlay District; and to all supplemental standards contained in the Unified Development Code, including but not limited to the tree preservation regulations in the Unified Development Code.

DRAFT ORDINANCE 06.09.2016

B. SPECIAL DEVELOPMENT STANDARDS

1. *Dimensional Standards for Residential Uses*

Table 2: Lot Type Matrix

Lot Types	A	B	C	D	E
Maximum Building Height	36'	36'	36'	36'	***36'***
Minimum Air Conditioned Square Footage	2,200	2,400	2,600 [2]	3,000	***1,800***
Minimum Front Yard Building Setback	20' [4]	20'	20'	40' [3]	***15'*** [4]
Minimum Rear Yard Building Setback	10'	10'	15'	15'	***10'***
Minimum Side Yard (*Interior*)	5'	5'	6'	7'	***5'***
Minimum Side Yard Adjacent to a Street	15'	15'	15'	15'	***15'***
Minimum Distance of Driveway (*from Property Line*)	20'	20'	20'	40'	***20'***
Minimum Lot Area (*Square Feet*)	7,200	8,400	10,000	20,000	***6,000***
Minimum Lot Frontage [1]	60'	70'	80'	100'	***50'***

Notes:

[1]: Lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may be reduced by twenty percent (20%) in lot width measured at the front property line provided that the lot width will be met at the front building line. Additionally, the lot depth on lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may be reduced by up to 10 percent (10%) but shall meet the minimum lot size for each lot type as referenced within *Table 1*.

[2]: A maximum of 20% of the lots may have homes not less than 2,500 sq. ft.

[3]: The Director of Planning or his designee may grant a reduction in the required 40-foot front yard building setback of up to five (5) feet for lots situated along cul-de-sacs or curvilinear streets, or where a 40-foot front yard building setback would create an undue hardship on the property.

[4]: Front porch may encroach to within 10-feet of the front property line.

2. *Development Standards for Residential Uses by Lot Product/Type*

a. *Detached Single Family Lot Type A*

Development Standards	
Minimum Lot Size	7,200 SF
Minimum Lot Width (@ Front Building Line)	60'
Minimum Lot Depth	110'
Minimum Lot Width (Corner Lot)	65'
Minimum Side Yard Setback	5'
Minimum Front Yard Building Setback	20'
Minimum Rear Yard Building Setback	10'
Minimum Air Conditioned Square Footage	2,200 SF
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Garages will be allowed to have the garage accessed from the street using traditional "swing" or "J" drive. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. A minimum of 33% of Type 'A' lots shall have 3-car garages.
Maximum Lot Coverage	65%

DRAFT
ORDINANCE
06.09.2016

b. *Detached Single Family Lot Type B*

Development Standards	
Minimum Lot Size	8,400 SF
Minimum Lot Width (@ Front Building Line)	70'
Minimum Lot Depth	120'
Minimum Lot Width (Corner Lot)	75'
Minimum Side Yard Setback	5'
Minimum Front Yard Building Setback	20'
Minimum Rear Yard Building Setback	10'
Minimum Air Conditioned Square Footage	2,400 SF
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Garages will be allowed to have the garage accessed from the street using traditional "swing" or "J" drives. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. A minimum of 33% of Type 'B' lots shall have 3 car garages.
Maximum Lot Coverage	65%

c. *Detached Single Family Lot Type C*

Development Standards	
Minimum Lot Size	10,000 SF
Minimum Lot Width (@ Front Building Line)	80'
Minimum Lot Depth	125'
Minimum Lot Width (Corner Lot)	85'
Minimum Side Yard Setback	6'
Minimum Front Yard Building Setback	20'
Minimum Rear Yard Building Setback	15'
Minimum Air Conditioned Square Footage	2,600 SF [1]
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Traditional "swing" or "J" drive required. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. A minimum of 80% of Type 'C' lots shall have 3 car garages.
Maximum Lot Coverage	65%

Notes:

[1]: A maximum of 20% of the lots may have homes not less than 2,500 sq. ft.

DRAFT ORDINANCE 06.09.2016

d. *Detached Single Family Lot Type D*

Development Standards	
Minimum Lot Size	20,000 SF
Minimum Lot Width (@ Front Building Line)	100'
Minimum Lot Depth	175'
Minimum Lot Width (Corner Lot)	100'
Minimum Side Yard Setback	7'
Minimum Front Yard Building Setback	40' [1]
Minimum Rear Yard Building Setback	15'
Minimum Air Conditioned Square Footage	3,000 SF
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Traditional "swing" or "J" drive required. Single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. 80% of Type D lots shall have a minimum of 3 car garages.
Maximum Lot Coverage	70%

Notes:

[1]: The Director of Planning or his designee may grant a reduction in the required 40-foot front yard building setback of up to five (5) feet for lots situated along cul-de-sacs or curvilinear streets, or where a 40-foot front yard building setback would create an undue hardship on the property.

e. ***Detached Single Family Lot Type E***

Development Standards	
Minimum Lot Size	***6,000 SF***
Minimum Lot Width (@ Front Building Line)	***50'***
Minimum Lot Depth	***110'***
Minimum Lot Width (Corner Lot)	***55'***
Minimum Side Yard Setback	***5'***
Minimum Front Yard Building Setback	***15'***
Minimum Rear Yard Building Setback	***10'***
Minimum Air Conditioned Square Footage	***1,800 SF***
Minimum Roof Pitch	***8:12 Except for 4:12 on Porch Roofs***
Minimum Masonry Requirement [Brick, Stone, Cultured Stone, 3-Part Stucco]	***80%***
Garage Orientation	***Garages will be allowed to be accessed from the street; however a minimum driveway length of 20-ft must be provided***
Maximum Lot Coverage	***75%***

DRAFT
06.09.2016

3. *Fencing.* All individual residential fencing for lots less than 20,000 square feet shall be cedar standard fencing material (minimum ½" thickness) or better (spruce fencing will not be allowed). All cedar pickets shall be placed on the "public side" facing the street, alley or neighboring property. Lots containing 20,000 sq. ft., lots located along perimeter roadways, and lots abutting open spaces, greenbelts and parks shall be required to install tubular steel fencing. Corner lot fencing (adjacent to the street) shall provide masonry columns at forty-five feet (45') off center spacing that begins at the rear property line corner and terminates ten feet (10') behind the front yard building setback line. A maximum six (6') foot solid board on board "panel" cedar fencing shall be allowed between the masonry columns along the side and/or rear yard lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five feet (5'). The property owner shall maintain that portion of the property outside the fence.
4. *Anti-Monotony Features.* Lot types shall incorporate the following elevation features.

Table 3 : Anti-Monotony Matrix

Lot Type	Lot Size (Approx.)	Elevation Features
A	60' x 120'	i., ii., iii.
B	70' x 120'	i., ii., iii.
C	80' x 125'	i., ii., iii.
D	100' x 200'	i., ii., iii.
E	***50' 120'***	***i., ii.***

i. Exterior facade must be composed of eighty percent (80%) masonry (brick, stone, cultured stone, or three-part stucco). Identical brick blends may not occur to adjacent (side-by-side) properties. Elevations shall not repeat along the fronting or siding streetscape without at least four (4) intervening homes of sufficient dissimilarity (to be determined by the ARC) on the same side of the street and (2) intervening homes on the opposite side of the street). The rear elevation of homes backing to open spaces or thoroughfares shall not repeat without at least two (2) intervening homes of sufficient dissimilarity (to be determined by the ARC). Masonry (brick, stone, cultured stone, or three-part stucco) chimneys shall be required on all homes.
ii. Minimum of 8:12 roof pitch, except for 4:12 roof pitches on porches. For each phase, a maximum of four compatible roof colors may be used. Dimensional shingles shall be used. Crown molding will be installed in all living and family rooms, unless vaulted or pop-up ceilings are utilized. No Formica counters in kitchens and bathrooms, no blown acoustic ceilings. No vinyl flooring will be used in kitchens.
iii. For front entry driveway access a traditional "swing" or "J" drive will be used. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only.

5. *Streetscape Landscape.* Prior to issuance of a Certificate of Occupancy, yards for all single-family lots in the District shall be landscaped with large canopy trees.

(1) Two minimum three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of an interior lot.
(2) Two minimum three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of a corner lot and two additional trees of same caliper shall be planted in the side yard facing the street.
(3) For purposes of this section only, the term "front yard" includes the area within the dedicated right-of-way for a parkway immediately adjoining the front yard of the lot.

DRAFT ORDINANCE 05.03.2016

6. *Master Design Guidelines.* Additional design guidelines specific to each phase of development that shall apply to all single-family dwellings units within that phase of development, shall be submitted to the City prior to issuance of any building permits for that portion of the development.

C. STANDARDS FOR DISTRICT DESIGN AND CONNECTIVITY

1. *Streetscape Standards for Collectors & Non-Fronting Thoroughfares.* All streets, excluding drives, fire lanes and private parking areas, shall be built according to City of Rockwall street standards. Sidewalks and Hike / Bike trails are to be placed according to city requirements and as set forth in the Open Space Master Plan for the District.

    a. *Buffer-Strip* and Sidewalks (John King Boulevard Overlay District). The landscape buffer strip along John King Blvd shall be as described in the City of Rockwall Unified Development Code, Article V (District Development Standards), Section 6.10 E (Landscape Standards) and be a minimum width of fifty (50) feet as shown on the Planned Development Concept Plan in Exhibit 'B'. Additionally, the developer shall construct a minimum of a ten (10) foot sidewalk, on both sides of John King Boulevard, within the fifty (50) foot landscape buffer strip as recommended by the John King Boulevard Design Concept Plan located in the Comprehensive Plan of the City of Rockwall.
    b. *Buffer-Strip (FM 552).* A landscape buffer strip with a minimum width of fifteen (15) feet shall be provided along the frontage of FM 552, and shall be landscaped with at least one canopy tree per 30-ft and a combination of berms and shrubbery to be reviewed with the PD Site Plan(s) for the retail tract.
    c. *Buffer-Strip (Breezy Hill) Retail.* The minimum buffer width between the proposed retail area and Breezy Hill Rd shall be fifty (50) feet, and shall include a berm with a minimum height of five (5) feet with at least three (3) canopy trees and four (4) accent trees per 100-ft of frontage. A detail of this landscape buffer shall be approved by the Planning and Zoning Commission and City Council at the time of PD Development Plan for the retail tract.
    d. *Buffer-Strip (Breezy Hill) Residential.* A landscape buffer strip with a minimum width of ten (10) feet shall be provided between any residential area and Breezy Hill Rd.
    e. *Irrigation.* Any irrigation installed in landscape areas and public parks must be designed by a Texas licensed irrigator or landscape architect.
    f. *Fencing.* The Association will maintain all common area and perimeter fencing surrounding the Property. Such perimeter fencing shall be composed of six foot (6') tall tubular steel fencing with masonry entry features or such other fencing as may be approved by the City at the time of platting. Perimeter screening may also be accomplished by earthen berms landscaped with living screening. Property owners will maintain all fences constructed on private property.
    g. *Curvilinear Walks.* Walks are to be a minimum of five feet (5') wide to six feet (6') maximum width (hike and bike trail) consistent with the approved Open Space Master Plan. "Collector streets" with or without center medians may incorporate sidewalks six feet (6') in width adjacent to or within "front yard" landscape easements. Walks may meander within parkway and common area; however, edge of walk shall be no closer than four feet (4') from back-of-curb.
    h. *Medians.* Any proposed median openings shall meet the City standards at the time of PD site plan approval.

2. *Lighting.* Light poles shall not exceed twenty feet (20') in height. All light fixtures shall direct light downward and be contained to the site.

DRAFT
09.12.16

3. *Sidewalks.* At a minimum, sidewalks located on lay down curb section streets shall begin four feet (4') behind the back of curb and be five feet (5') in overall width. Sidewalks will not be required on rural street sections.
4. Curbing. Within certain lot types "A, B, & C" "roll up, lay down curbing" may be incorporated in an effort to minimize frequent curb cuts and maximize streetscape continuity, as approved by the City of Rockwall (Engineering Department) with approval of the final plat application.
5. *Buried Utilities.* New distribution power-lines required to serve the Property shall be placed underground, whether such lines are located internally or along the perimeter of the Property, unless otherwise authorized by the City Council. New transmission power-lines, or distribution lines of a size not typically or cost effectively placed underground (3 phase lines), or additional lines that are added to existing poles, may be above ground, if located along the perimeter of the Property, except along the 205 Bypass. Additionally, if such above ground lines are installed along the perimeter of the property and adjacent to non-residential use, then the lines shall be installed behind the non-residential buildings where the installation is possible. The Developer shall not be required to re-locate existing overhead power-lines along the perimeter of the Property. Temporary power-lines constructed across undeveloped portions of the Property to facilitate development phasing and looping may be allowed above ground, but shall not be considered "existing lines" at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph.
6. *Parks and Open Space.*
    a. Residential and retail acreages (net of right-of-way dedication) shall contain no less than 20% open space and.
    b. Allowable open space may include but is not limited to 50% of floodplain, amenity center, public or private parks, trails, natural areas, buffers, traffic circle medians, entry features, common areas (including any Association recreation center or similar facilities) and other features depicted on the Development Plan, as set forth in the Open Space Master Plan prepared in accordance with subparagraph (c) below. Street right of way will not be included as open space. At least 80% of the single-family dwellings within the development shall be located within eight hundred feet (800') of public or private open space. In order to qualify, such open space must be at least one (1) continuous acre in area, not including roadway buffers less than fifty (50') feet in width.
    c. The Developer shall prepare the Open Space Master Plan to be consistent with the approved Development Plan. The purpose of an Open Space Master Plan is to supplement the Development Plan by providing an additional level of detail for public and private open space areas. The Open Space Master Plan shall identify the locations of and improvements to public parks, and other public and private open space or common areas and shall illustrate an integral system of trail improvements that, together with intervening land held by other property owners or the City, is designed to connect residential areas, schools and retail areas within the District to parks and open space within the District and that provides for continuation and connection of the trail system to off-site parks and open space, in accordance with the City's Master Park and Recreation Plan. The Open Space Master Plan shall clearly differentiate public parks from private facilities and common lands to be maintained by the Association. The locations of public parks, school sites and other public and private open space or common areas shown on the Open Space Master Plan shall be in conformance with the Development Plan. The Open Space Master Plan shall include a phasing plan for construction of all trails, parks, common open space and facilities. The Open Space Master Plan shall be considered for approval if it complies with this section, the applicable City regulations, the Development Plan, and generally accepted park-planning practices.
    d. The District shall contain not less than eleven (11) acres of land to be used as public or private parkland. A minimum of eleven (11) contiguous acres shall be dedicated to the

DRAFT ORDINANCE

City in accordance with the City's Neighborhood Parkland Dedication Ordinance on approval of the final plats for those phases adjacent to or abutting the proposed parkland dedication and will provide access to said parkland area. The remaining parkland area will be retained as a private park within the District. Park improvements shall be constructed in accordance with the approved Open Space Master Plan. The site plan incorporating the design of park improvements and hike/bike trail improvements shall be considered for approval with the final plat for the phase of the development containing such improvements. Performance of the obligations in this subparagraph shall be deemed to fully satisfy the City's Neighborhood Parkland Dedication Ordinance regarding land dedication. At the time of recordation of final plats for each phase, the Developer shall pay park improvement fees to the City. These fees shall be held in an escrow account until the parkland is dedicated to the City, at which time the Developer shall inform the City if the Developer wishes to use the escrowed fees as well as future fees to construct park improvements. Prior to construction, said improvements shall be approved by Parks Director, approval not to be unreasonably withheld, and invoices for improvements shall be submitted to Parks Director for approval. Performance of the obligations in this subparagraph shall be deemed to fully satisfy the City's Neighborhood Parkland Dedication Ordinance regarding park development fees, provided that park improvements are installed at a value equal or exceeding the value of park improvement fees for the entire District applicable at that time, or improvement fees are paid. Thereafter, the Developer shall not be responsible for additional parkland dedication or park development fees associated with the Property, except as otherwise may be provided in a capital facilities agreement approved by the City.

7. Developer shall provide a minimum of one (1) retention pond in the District with hard edges and fountain features. The exact configuration and location of the ponds will be determined at development. All retention pond hardedges shall be similar to the hardedge shown on Figure 1 (below).

Figure 1: *Retention Pond with Hardedge.*

8. *Signage.* Permanent subdivision identification signage shall be permitted at all major entry points, in general conformance to the signage shown in Figure 2 & 3 (below). Final design of entry features to be determined with the Planned Development Site Plan.

DRAFT ORDINANCE

Figure 2: *Example of Subdivision Signage Locations*

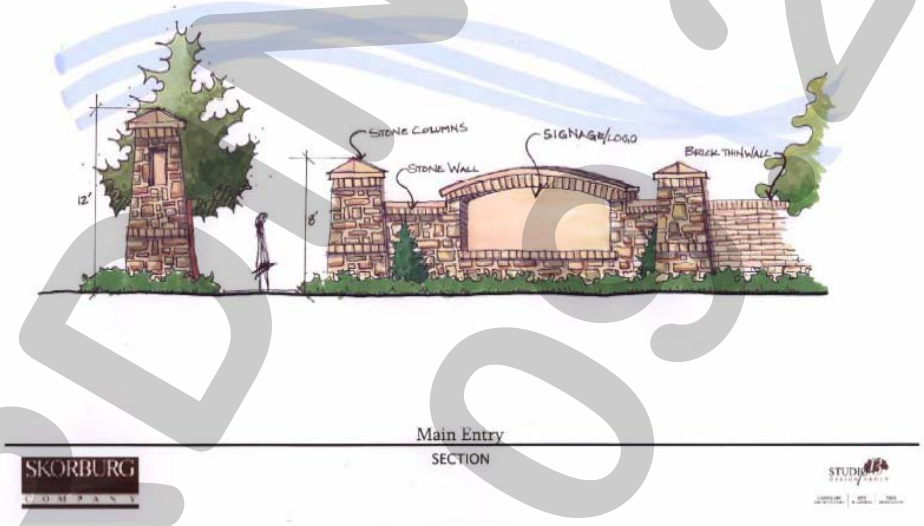

Figure 3: *Example of Subdivision Signage Design Standard*

9. *Variances.* The variance procedures and standards for approval set forth in the Unified Development Code shall apply to any application for variances to this ordinance.
10. *Amenity Center.* Site plan, landscape plan and building elevations for the Amenity Center shall be approved by the Planning and Zoning Commission prior to construction.
11. *Trees.* All trees planted within the District shall be a minimum three (3) inch caliper measured six (6) inches above the root ball.

DRAFT ORDINANCE 09.2016

EXHIBIT 'D': CAPITAL FACILITIES AGREEMENT FOR BREEZY HILL

THIS CAPITAL FACILITIES AGREEMENT (the "Agreement") is by and among the Breezy Hill 405, Ltd, ("Breezy" or "Developer") and the City of Rockwall, Texas ("City" or "Rockwall "),

I. RECITALS

1. Breezy seeks to rezone and subdivide the Property for single-family residential use and certain commercial uses. Breezy shall submit an application to rezone the 405 acres north of FM-552 (the "Property") as a planned development (PD) district for a development currently known as Breezy Hill (the "PD District"),

   NOW, THEREFORE, in consideration of the foregoing recitals and mutual covenants contained herein, the Parties hereto agree as follows:

II. ADEQUATE PUBLIC FACILITIES

1. *General Provisions.*

   a. *Adequacy Required.* Development of the Property shall be supported with adequate levels of public facilities and services, Adequate facilities and services are those that (i) comply with the applicable City regulations, including this Agreement, and (ii) are consistent with generally accepted engineering and planning practices for similar developments, The Parties agree that the dedication and construction of public improvements, or the contribution of proportionate development fees, required to support development of the Property shall precede or be concurrent with the construction of private improvements to the land, in accordance with the phasing provisions incorporated within this section, or as otherwise may be provided through approval of a master plat.

   b. *Proportionality.* The Parties agree that the dedication or construction of public improvements, or the contributions of development fees, provided for in this Agreement are roughly proportional to the nature and extent of the proposed development of the Property on the City's public facilities systems. Breezy hereby covenants not to sue the City for any claim, or otherwise consent to participate in any action against the City arising from any claim by such party or by its affiliates, alleging that application of the adequate facilities requirements set forth in this Part II of the Agreement to the development of the Property, or the imposition of conditions to a plat application for a portion of the Property that are consistent with the requirements of this section, are not roughly proportional to the impacts of the development depicted in the Concept Plan, including but not limited to any action premised upon Tex. Loc. Gov't Code sec. 212.904 or successor statute. Such covenant not to sue touches and concerns the Property, and is a covenant running with the land such that it binds successors-in-interest and assigns of Breezy. Should any successor-in-interest or assign of Breezy other than an affiliate of Breezy assert any of the foregoing claims in a court of competent jurisdiction, in violation of this Subsection 1 (b), with respect to the development of any portion of the Property, the Parties agree that, with respect to such portion of the Property or all of the Property, at the City's option, this Agreement thereupon shall become null and void and any rights that may otherwise have

BLS

DRAFT ORDINANCE 06-20-16

vested under then existing state law shall be waived upon such event. Breezy further agrees that the City may expressly rely upon the provisions of this paragraph in any certification under section 212.904 and that a court in determining rough proportionality may consider all of the Property. Should Breezy or an affiliate of Breezy violate the covenant not to sue contained in this paragraph, the City may either enforce the covenant or pursue the remedies provided for herein that are applicable to successors or assigns, other than affiliates. As used in this Agreement, the term "affiliate" means any person, corporation, partnership, or other entity controlled by, controlling, or under common control with Breezy.

c. *No Waiver.* The requirements in this Part II shall be considered additional standards and conditions applicable to development within the PD District. Except in the event of a conflict between the standards in this Agreement and other standards applicable within the District, nothing in this Agreement shall be construed as superseding any requirement or standard in the City's subdivision or utility regulations relating to provision of adequate public facilities and services.

2. *Wastewater Services.*

a. *City as Provider.* The City shall be the supplier of wastewater services to the Property.

b. *Line Extensions.* The Developer shall extend wastewater mains sufficient to serve each phase of development within the PD District, sized in accordance with the City's master plan for wastewater facilities and constructed in accordance with the phasing schedule approved in conjunction with the Developer's master plat application. The Developer shall design and construct a lift station in order to serve the development within the PD District. The Developer shall be entitled to pro-rata fees for the costs of over-sizing the lift station from other future developments using the lift station, calculated on a per acreage basis. Developer also shall be eligible for credits against, wastewater impact fees otherwise due for construction of improvements identified and included in the City's wastewater improvements plan for impact fees, in accordance with the City's then existing impact fee regulations. Provisions for City participation in oversize costs, rebate of pro-rata fees or provision of impact fee credits shall be set forth in a facilities and reimbursement agreement between the Developer and the City.

c. *Payment of Impact Fees.* Wastewater impact fees shall be paid at rates and at the times provided for in the City's then existing impact fee regulations.

3. *Water Services*

a. *City as provider.* The City shall be the supplier of water services to the Property. The City represents that it has sufficient capacity to serve the Property.

b. *Line Extensions.* The Developer shall extend water mains sufficient to serve each phase of development within the PD District, sized in accordance with

BJ

DRAFT ORDINANCE 06.05.2016

the City's master plan for water facilities and constructed in accordance with the phasing schedule approved in conjunction with the Developer's master plat application. The Developer shall be eligible for City participation in the costs of over-sizing water distribution mains or appurtenances that serve other land in addition to the Property, in accordance with the City's standard policies, or for collection of pro-rata fees for such facilities. Developer also shall be eligible for credits against, water impact fees otherwise due for construction of improvements identified and included in the City's water improvements plan for impact fees, in accordance with the City's then existing impact fee regulations. Provisions for City participation in oversize costs, rebate of pro rata fees or provision of impact fee credits shall be set forth in a facilities and reimbursement agreement between the' Developer and the City.

c. *Payment of Impact Fees.* Water impact fees shall be paid at rates and at the times provided for in the City's then existing impact fee regulations.

4. *Road Improvements.* The Developer shall make the following road improvements.

a. *John King Boulevard (Highway 205 Bypass).* The Developer shall have no obligation with respect to construction of John King Blvd. other than as outlined herein regarding payment of road impact fees.

b. *FM-552 Improvements.* The Developer shall dedicate rights-of-way for and construct turn lanes and acceleration/deceleration lanes concurrent with construction of any road on the Property that intersects FM 552, in accordance with City and TXDOT standards and specifications at the time of development of adjoining property.

c. *Breezy Hill Road Improvements.* The Developer shall dedicate a minimum of twenty-five feet (25') of right-of-way or such right-of-way as is needed to construct a twenty-four foot (24') concrete rural section of Breezy Hill Road and appurtenances adjacent to the Property, together with a two-foot (2') asphalt or concrete shoulder on either side of the concrete section, the total not to exceed twenty-eight feet (28') in width, from the northern point of Breezy Hill Road adjacent to the Property, to FM-552, as shown on the Development Plan. The Developer also shall dedicate and improve a minimum landscape buffer of ten feet (10') for the residential tract and fifty feet (50') for the retail tract, adjacent to the right-of-way for Breezy Hill Road, designed in accordance with the requirements of a PD District then in effect for a rural collector. The bar ditch that abuts the buffer strip, designed to a maximum slope of 3: 1, shall not encroach into the required ten-foot or fifty-foot buffer area, except to the extent that the buffers exceed ten feet (10') in width. The Developer shall dedicate right-of-way for Breezy Hill Road and the landscape buffer at the time of final plat approval for any lot abutting Breezy Hill Road. Developer shall construct Breezy Hill Road in conjunction with the retail tract that is final platted adjacent to Breezy Hill Road. Breezy Hill Road will be constructed from the northernmost intersection created by any portion of the retail tract being platted, south to FM-552. Developer shall install any

BL)

DRAFT ORDINANCE 06.08.2016

DRAFT ORDINANCE 06.09.2016

EXHIBIT 'D': CAPITAL FACILITIES AGREEMENT FOR BREEZY HILL

needed expansion of existing culverts created by such construction or the development, of such retail tract.

d. *Payment of Roadway Impact Fees.* Roadway impact fees shall be paid at rates and at the times provided for in the City's then existing impact fee regulations. Construction costs incurred by Developer for roadway improvements in this Agreement that are included in the City's roadway improvements plan for impact fees shall be credited against roadway impact fees otherwise due, in accordance with the City's impact fee regulations.

5. *Drainage Improvements.* Dedication of rights-of-way for and construction of drainage improvements shall be provided as specified in conditions imposed with approval of the master plat for development within the PD District and in accordance with City standards and specifications.

6. *Parks and Open Space.*

a. The Developer or a property owners association shall maintain public parklands and improvements within the development for a period of three (3) months from the completion and acceptance of the improvements. Thereafter, the City shall assume responsibilities for maintenance. All open space and improvements which are not dedicated as parkland to the City shall be maintained as common areas in perpetuity by the property owners association for the PD District. Additionally, the property owners association shall maintain Developer-installed landscaping areas in public rights-of-way and public drainage ways internal to and adjacent to the Property.

III. GENERAL PROVISIONS

1. Notice on Sale. The Developer shall provide the City with notice of the sale of any tract or parcel within the District that has not been platted at the following address:

Rockwall City Manager
Rockwall City Hall
385 S. Goliad Street
Rockwall, TX 75087

2. *Recording.* This Agreement is intended to run with the land, and shall be recorded in the Real Property Records, Rockwall County, Texas.

3. *Term of Agreement.* This Agreement shall terminate two (2) years following the City's acceptance of the dedication and construction of the public improvements described herein serving the last phase of development within the PD District, after which the City agrees, upon the request of the Developer to execute a termination of this Agreement in recordable form. Any reimbursements for payment of impact fees shall not expire.

4. *Effective Date.* This Agreement shall take effect upon the date of its execution by the last of the Parties to the Agreement; provided, however, that Breezy shall execute this Agreement no later than five (5) business days following the

BU

effective date of the PD zoning ordinance for the Property. If Breezy fails to execute this Agreement within such period, this Agreement shall become null and void, and unless a subsequent agreement, acceptable to the City and the Developer, is agreed to, the City may thereafter deny any PD site plan, master plat or other plat application on grounds that the application is not supported by adequate public facilities and services.

5. *Severability.* Invalidation of any provision of this Agreement by judgment or court order shall not invalidate any of the remaining provisions which shall remain in full force and effect, unless such remaining provisions are an integral part of the invalid provisions or the invalid provision is necessary to give effect to the remaining provisions.

6. *Enforcement.* This Agreement may be enforced by the Parties by any proceeding at law or in equity. Failure to do so shall not be deemed a waiver to enforce the provisions of this Agreement thereafter.

7. *Venue.* Venue for this Agreement shall be in Rockwall County, Texas.

8. *Execution.* This Agreement may be separately executed in individual counterparts, and upon execution, shall constitute one and the same instrument.

9. *Amendment.* This Agreement may only be amended in writing upon mutual consent of the City and the Developer.

10. *Joint preparation.* This Agreement shall be deemed to have been jointly prepared by all Parties hereto, and no ambiguity of this Agreement shall be construed against any party based upon the identity of the author of this Agreement or any portion thereof.

11. *Recitals Incorporated.* Statements and representations contained herein are to be considered contractual in nature and not merely recitations of fact. The Recitals contained in Part I of this Agreement hereby are expressly incorporated into this Agreement by reference.

12. *Construction.* All references herein in the singular shall be construed to include the plural where applicable, the masculine to include the feminine and neuter genders.

13. *Authority.* Each of the signatories to this Agreement represents and warrants that he is authorized to execute this Agreement and bind his principals to the terms and provisions hereof. Each Party warrants that any action required to be taken in order for this Agreement to be binding on it has been duly and properly taken prior to the execution of this Agreement.

14. *Conflicts.* In the event of a conflict between this Agreement and any provision of the Unified Development Code, the City Code, or any City ordinance, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this Agreement, the standards in this Agreement shall control.

BLJ

DRAFT ORDINANCE 06.09.2016

EXHIBIT 'D': CAPITAL FACILITIES AGREEMENT FOR BREEZY HILL

15. *No Waiver*. Developer retains the right to challenge the application of any City impact fee regulations to the Property solely on the basis that such regulations fail to comply with Chapter 395 of the Texas Local Government Code, as amended. If Developer prevails in such a claim, impact fees shall be applied to the development of the Property and paid by the Developer, as applicable, in accordance with the court order.

DRAFT ORDINANCE 06.09.2016

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 6/14/2016

APPLICANT: Jeff Parker, *Skorburg Company*

AGENDA ITEM: **Z2016-018**; *Breezy Hill Amendments (PD-74)*

SUMMARY:

Hold a public hearing to discuss and consider a request by Jeff Parker of the Skorburg Company on behalf of BH Balance IV, LLC for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan to allow for additional single-family residential lots and for the purpose of incorporating changes to the development standards contained in *Exhibit 'C'* of *Ordinance 14-26* for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, Texas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary.

BACKGROUND:

The property was annexed in 2008 after three (3) years of litigation that lead to the execution of a Chapter 212 Development Agreement. In accordance with this agreement, the property was zoned to Planned Development District 74 (PD-74) on April 20, 2009 with the intention of being a master planned residential community that offered tracts of land designated for retail/office, residential, and institutional land uses. The approval of this zoning change altered the existing 212 Development Agreement -- *which originally permitted 810 single-family residential lots and did not contain any retail acreage* -- to include 658 single-family residential lots and a 59-acre tract of land designated for general retail land uses. The retail tract of land is located at the northeast corner of the intersection of FM-552 and John King Boulevard.

On October 1, 2012 the City Council approved an amendment to Planned Development District 74 (PD-74) modifying the concept plan to remove the school sites that were originally required by the *Facilities Agreement* and adjust the lot mix accordingly [*i.e. increasing the number of lots from 658 to 691*]. The lot mix was again increased on July 7, 2014 from 691 lots to 742 lots for the purpose of incorporating two (2) additional phases (*i.e. Phases IXA & IXB*) and to reduce the land designated as commercial/retail from 59.4-acres to 33.7-acres (see *Figure 1* for the adjusted lot mix).

Figure 1: Current Lot Mix

Lot Types	*A*	*B*	*C*	*D*
Typical Lot Frontage (Feet)	*60*	*70*	*80*	*100*
Typical Lot Depth (Feet)	*120*	*120*	*125*	*200*
Minimum Lot Size (Sq. Ft.)	*7,200*	*8,400*	*10,000*	*20,000*
Number of Units	*206*	*112*	*326*	*98*
Dwelling Unit %	*27.80%*	*15.10%*	*43.90%*	*13.20%*

On March 13, 2015, the applicant submitted an alternate concept plan depicting a reduction in the number of acres designated for retail land uses from 33.7-acres to 19.49-acres for the purpose of amending Planned Development District 74 (PD-74) to include an additional residential phase of 50' x 120' lots (*i.e. minimum of 6,000 SF*). In addition, this case proposed

raising the number of lots from 742 to 762, but maintain a density of 2.0-units/acre. This case [*Case No. Z2015-013*] was denied by the City Council on May 4, 2015.

PURPOSE:

In accordance with Section 8.3 of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) -- *which restricts a similar application for the period of one (1) year from the denial date* -- the applicant has submitted an application requesting to amend Planned Development District 74 (PD-74) [*Ordinance No. 14-26*] to approve an alternate concept plan and development standards. Specifically, the applicant is requesting to reduce the number of acres designated for retail land uses from 33.7-acres to 19.49-acres for the purpose incorporating an additional residential phase that will be composed of 50' x 120' lots (*i.e. minimum of 6,000 SF*).

CHARACTERISTICS OF THE REQUEST:

The 14.21-acres of land that the applicant is proposing to remove from the retail acreage will establish a new phase of the Breezy Hill Subdivision that will contain 47 single-family homes. The new phase will be located north of the remaining retail acreage, adjacent to Phase IIA. These new homes will be constructed on 50' x 120' lots that will be a minimum of 6,000 square feet in size. The development standards for this new lot type (identified below in *Figure 2* as *Lot Type 'E'*) are taken directly from the zoning ordinance that regulates the Stone Creek Subdivision (*i.e. Planned Development District 70 [PD-70]*) and are similar to the remaining lot types in Planned Development District 74 (PD-74) with respect to the development standards. The only major difference in this lot type will incorporate forward facing garages. This is primarily due to the difficulty of incorporating a *'J' Swing* or *Traditional Swing* driveway on a 50-foot lot.

Figure 2: Proposed Lot Mix

Lot Types	*A*	*B*	*C*	*D*	*E*
Typical Lot Frontage (Feet)	*60*	*70*	*80*	*100*	*50*
Typical Lot Depth (Feet)	*120*	*120*	*125*	*200*	*120*
Minimum Lot Size (Sq. Ft.)	*7,200*	*8,400*	*10,000*	*20,000*	*6,000*
Number of Units	*206*	*112*	*326*	*98*	*47*
Dwelling Unit %	*26.11%*	*14.20%*	*42.32%*	*12.42%*	*5.96%*

Considering the proposed new lot type and the proposed changes to the lot mix, the total number of single-family lots will be increased from 742 to 789. This proposed change increases the density from ~2.0-units/acre to ~2.07-units/acre (*i.e. currently the subdivision has 742 lots on ~379-acres, and the applicant is proposing 789 lots on ~381-acres*). With the exception of the proposed changes to the concept plan and lot mix tables, and subsequent changes to accommodate the new lot type, the applicant is not requesting any additional changes to Planned Development District 74 (PD-74).

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

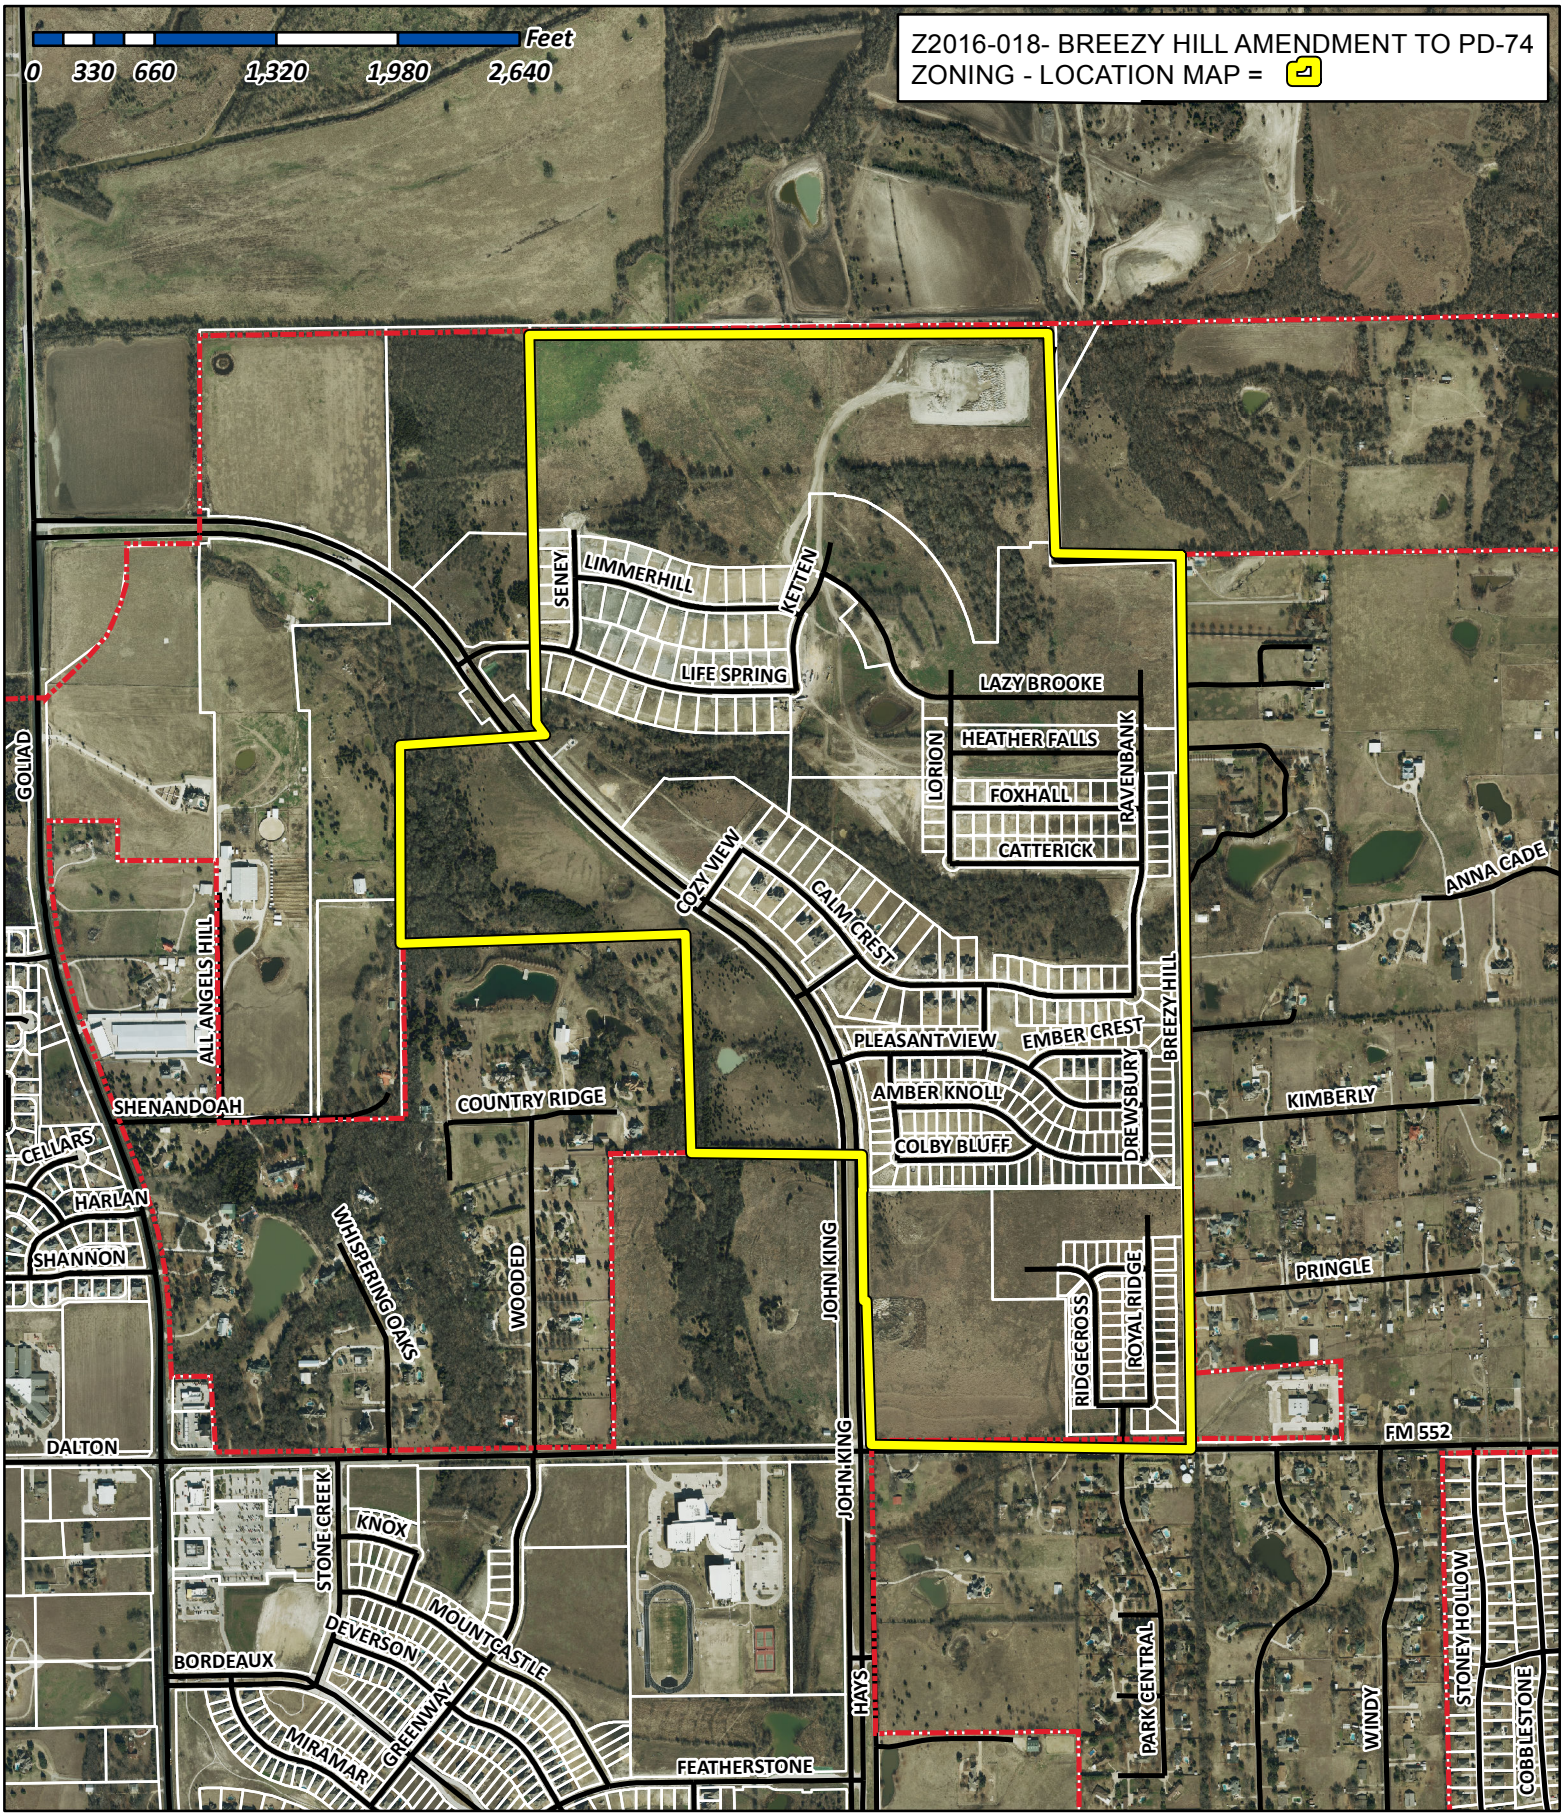
The Future Land Use Map contained within the Comprehensive Plan designates the subject property for *Commercial* land uses. Should the City Council approve the applicant's request, the Future Land Use Map will be amended to reflect the proposed changes in land use from a *Commercial* designation to a *Low Density Residential* designation. *This has been added to the conditions of approval contained in the Recommendations section of this case memo.*

NOTIFICATION:

On May 27, 2016, staff mailed 364 notices to property owners and residents within 500-feet of the subject property. Staff also emailed a notice to the Stoney Hollow and Breezy Hill Homeowner's Associations (HOA's), which are the only HOA's located within 1,500 feet of the subject property. Additionally, staff posted a sign at the corner of FM-552 and John King Boulevard, and advertised the public hearings in the Rockwall Harold Banner as required by the Unified Development Code (UDC). At the time this case memo was drafted staff had received five (5) responses in opposition to the zoning change.

RECOMMENDATIONS:

If the Planning and Zoning Commission recommends approval of the applicant's request to amend Planned Development District 74 (PD-74) then staff would propose the following conditions of approval:



1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) By approving this zoning change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of the subject property from a *Commercial* designation to a *Low Density Residential* designation;

3) Prior to accepting a final plat for the proposed phase (*i.e. depicted in purple of the PD Concept Plan*) the applicant shall be required to administratively amend the PD site plan in order to show all necessary entry features/signage, landscaping and hardscaping proposed for the new phase;

4) Prior to accepting a preliminary plat for the proposed phase (*i.e. depicted in purple of the PD Concept Plan*) the applicant shall be required to administratively amend the preliminary plat for Phases IXA & IXB to show the new street layout; and,

5) Any construction resulting from the approval of this *zoning amendment* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

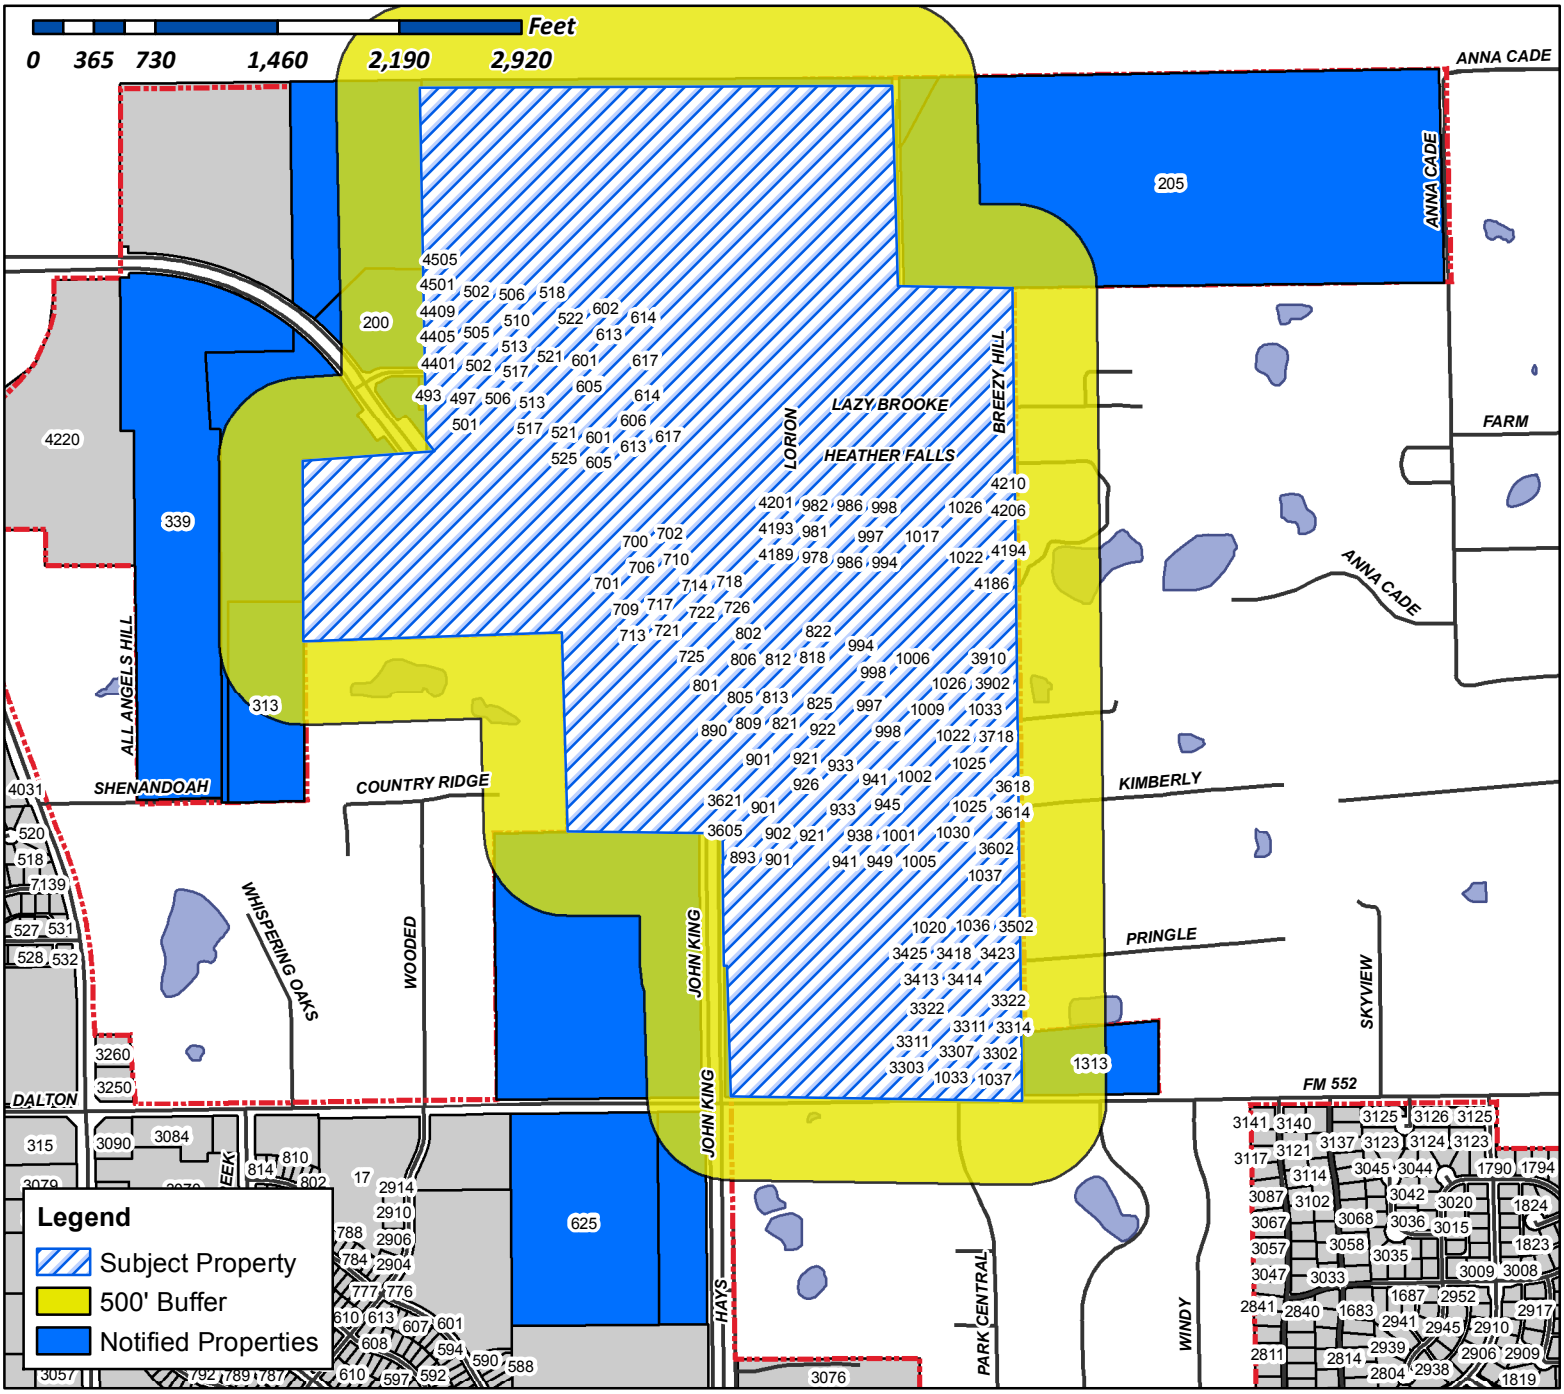
From:	Morales, Laura
To:	[redacted]
Cc:	Miller, Ryan
Subject:	Neighborhood Noification Program: Notice of zoning request
Date:	Thursday, May 26, 2016 5:02:02 PM

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner on June 3, 2016. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2016-018Hold a public hearing to discuss and consider a request by Jeff Parker of the Skorburg Company on behalf of BH Balance IV, LLC for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan to allow for additional single-family residential lots and for the purpose of incorporating changes to the development standards contained in *Exhibit 'C'* of *Ordinance 14-26* for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, Texas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary.**

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.



Sincerely,

Laura Morales
Planning & Zoning Coordinator

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2016-018: Breezy Hill Amendment to PD-74

Hold a public hearing to discuss and consider a request by Jeff Parker of the Skorburg Company on behalf of BH Balance IV, LLC for the approval of a zoning amendment to Planned Development District 74 (PD-74) to amend the concept plan to allow for additional single-family residential lots and for the purpose of incorporating changes to the development standards contained in Exhibit 'C' of Ordinance 14-26 for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, Rockwall, Rockwall County, Texas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 6/14/2016 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 6/20/2016 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

Ryan Miller
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **6/20/2016** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

MORE INFORMATION ON THIS CASE CAN BE FOUND ON THE CITY'S WEBSITE: HTTPS://SITES.GOOGLE.COM/SITE/ROCKWALLPLANNING/DEVELOPMENT-CASES

PLEASE RETURN THE BELOW FORM

Case No. Z2016-018: Breezy Hill Amendment to PD-74

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☐ I am opposed to the request for the reasons listed below.

Name:

Address:

Tex. Loc. Gov. Code, Sec. 211.006 (d) If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either: (1) the area of the lots or land covered by the proposed change; or (2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.

Case No. Z2016-018: Breezy Hill Amendment to PD-74

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☒ I am opposed to the request for the reasons listed below.

- Purchased home with the understanding that the smallest lots would be 60' per Email with Drees Builder.
- Have already invested significant dollars in property improvements and believe 50' lots would drive down property values across Breezy Hill.

Name: Darrin & Becky Massey

Address: 929 Pleasant View Drive, Rockwall, TX 75087

Case No. Z2016-018: Breezy Hill Amendment to PD-74

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☒ I am opposed to the request for the reasons listed below.

I am opposed to increasing the number of 50' lots. The area needs to retain green spaces. I am not opposed to the standards or the original planned approval. I would just like to see more green space.

Name: Michael Agostini

Fyi, I double checked to make sure 522 Limmerhill Drive was sent a notice, and one was sent.

From: Chris Moore [redacted]
Sent: Friday, June 03, 2016 8:55 AM
To: Planning
Subject: Zoning Changes

To Whom It May Concern:

This email is in regards to the proposed changes regarding the Breezy Hill plans to include a section of smaller homes on smaller lots. I understand this will be discussed with the city council on 6/20.

We just recently closed on a home in Breezy Hill and did not receive the form that was mailed to homeowners. We are writing our objections/concerns here in lieu of the form.

We have been residents of the north part of Rockwall since 2008 and my wife has been a teacher with RISD since 2002. When the plans for Breezy Hill were announced with larger lots and more space we sold our home in the Castle Ridge subdivision to jump on the opportunity. The driver to build in Breezy Hill was to have the opportunity to have more space.

The north part of Rockwall has plenty of subdivisions with smaller homes and smaller lots already including the new phase for Castle Ridge, Stone Creek, and Caruth Lakes. More smaller lots and smaller homes is not needed.

The demand is there for larger homes and larger lots. If you look at the phase of Breezy Hill that has the 100'X200' lots it is already almost completely sold out. The phases of Breezy Hill with larger lots have been moving well. Stone Creek slowed down when the larger lots of Breezy Hill opened up. These are factual observations not opinions.

I would argue that Rockwall would continue to benefit by having some balance and leaving the Breezy Hilly plan alone to exclude smaller lots and smaller homes like is now being proposed.

I am happy to discuss further and be involved in any way.

Regards,
Chris Moore

Cc: nancycfontaine@yahoo.com
Subject: Case Number 22016-018 BreezyHill

To all members of the planning department, city council and Mayor of Rockwall,

My husband and I purchased our home in Breezy Hill last October, relocating from the state of Michigan. One of the reasons we chose the area and sub division was due to the larger lot sizes in Breezy Hill in relation to the size of lots elsewhere.

Needless to say we are opposed to the request of the developer to decrease lot sizes in the upcoming phases of the sub division to 50 ' lots. We and others paid a premium price for our homes based on the planned density of homes. A reduction in lot size would alter the density and reduce property values.

We understand the developer requested smaller lots previously and was denied. We and the neighbors of Breezy Hill are requesting the same outcome this time- a denial of the request.

Thank you,

Nancy and Norman Fontaine

Subject: Case # Z2016-018 Breezy Hill Amendment to PD-74

Please let this serve as my opposition to the above proposed zoning change.

Changing the zoning to allow smaller homes on smaller lots will decrease the value of neighborhood. This neighborhood was built to be higher level and we have all paid a premium to have larger lots and many of the homes have higher standard of fixtures and additions that were not given to homes on smaller lots. One cannot compare the homes starting at 1700 square foot to the majority of homes in this neighborhood. Please do to allow the zoning to change to include the smaller homes on the smaller lots. Allow this neighborhood to keep its premium quality as we have all paid for it.

Infrastructure Statement

Drainage Facilities:
There are natural drainage ways within the project and detention will be required.

Sanitary Sewer Facilities:
This site will utilize lift stations and force mains to send the sewer flows to the existing sewer trunk line located at the intersection of FM 552 and Highway 205

Water Facilities:
There is an existing water line located in FM 552. A new 16"water line will be constructed along John King Boulevard north of FM 552 to service this tract.

Roadway Facilities:
The west side of the project is bounded by John King Boulevard, the south side is bounded by FM 552, the east side is bounded by Breezy Hill Road.

CASE #2015-XXX

CITY OF ROCKWALL

ORDINANCE NO. 16-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 74 (PD-74) [*ORDINANCE NO. 14-26*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING THE PLANNED DEVELOPMENT CONCEPT PLAN AND THE DEVELOPMENT STANDARDS APPROVED WITH ORDINANCE NO. 14-26, BEING A 405.184-ACRE TRACT OF LAND SITUATED IN THE J. STRICKLAND SURVEY, ABSTRACT NO. 187, T. R. BAILEY SURVEY, ABSTRACT NO. 30 AND THE J. SIMMONS SURVEY, ABSTRACT NO. 190, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY EXHIBIT 'A'; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE..

WHEREAS, the City has received a request by the Jeff Parker of the Skorburg Company on behalf of Breezy Hill 405, LTD for an amendment to the Planned Development Concept Plan and Development Standards contained within Planned Development District 74 (PD-74) [specifically contained within *Ordinance No. 14-26*] and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, for a 405.184-acre tract of land situated in the J. Strickland Survey, Abstract No. 187, T. R. Bailey Survey, Abstract No. 30 and the J. Simmons Survey, Abstract No. 190, Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 74 [*Ordinance No. 14-26*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 09-19, 12-26 & 14-26*;

Section 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of

PRINT OF ORDINANCE 05.03.16

approval of the amended zoning classification for the *Subject Property*;

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That a master parks and open space plan for the Property, prepared in accordance with this ordinance and consistent with the *Planned Development Concept Plan*, (*Open Space Master Plan*) shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

Section 6. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 5(b) through 5(f) below*), shall be the exclusive procedures applicable to the subdivision and platting of the Property.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in Section 212.009 of the Texas Local Government Code.

1. Open Space Master Plan
2. Master plat
3. PD development plans (*required for retail areas only*)
4. PD site plans
5. Preliminary plats
6. Final plats

(c) A Master Plat application covering all of the *Subject Property*, other than the area designated on the *Planned Development Concept Plan* as *Retail*, shall be submitted and shall identify each phase of development. No master plat application shall be approved until the *Open Space Master Plan* for all of the Property has been approved; however, the *Open Space Master Plan* may be processed by the City concurrently with the master plat application.

(d) A *PD Development Plan* must be approved for the area designated on the Concept Plan as *Retail* prior to submittal of a *PD Site Plan* application and/or a preliminary plat application. No master plat is required for the area designated on the Concept Plan as *Retail*. A traffic impact analysis for the retail tract shall be submitted with the *PD Development Plan* to determine the extent and timing of any recommended facilities and/or improvements to the surrounding roadway network. The traffic impact analysis may be updated with each *PD Site Plan* for the retail tract.

(e) A preliminary plat application shall be submitted for each phase of residential development. A *PD Site* Plan application, including a site plan application for improvements for parkland or trails, may be processed by the City concurrently with a preliminary plat application for that phase of the development.

(f) A *Capital Facilities Agreement* in the form of *Exhibit 'D',* attached hereto and incorporated herein by reference as *Exhibit 'D',* shall be executed by Developer providing for delivery of adequate public facilities and services within the District.

Section 7. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine

DRAFT ORDINANCE 08.08.16

not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 8. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 9. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 10. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 5TH DAY OF JULY, 2016.

_____
Jim Pruitt, *Mayor*

ATTEST:

_____
Kristy Cole, *City Secretary*

APPROVED AS TO FORM:

_____
Frank J. Garza, *City Attorney*

PD Development Standards

TEXT TO BE ADDED TO THE ORDINANCE
~~***TEXT TO BE REMOVED FROM THE ORDINANCE***~~

A. GENERAL REQUIREMENTS

1. *Uses Allowed.* The following uses are permitted for the Property.

   a. *Residential uses*. Uses permitted of right or by special use permit for the (SF-10) Single Family Residential District, as set forth in Article IV, Permissible Uses, of the City of Rockwall Unified Development Code, shall be allowed for areas designated as Single-Family on the Concept Plan, subject to approval of a Special Use Permit if required by the SF-10 District Regulations.

   b. *Non-residential uses*. Non-residential uses shall be allowed only within the area designated as Retail on the approved Concept Plan for the District, and are limited to those uses permitted of right or by special use permit for the (GR) General Retail District subject to approval of a PD Development Plan and PD Site Plan in accordance with the Planned Development District regulations, Article X, Section 2 of the Unified Development Code, and subject to approval of a Special Use Permit if required by the GR District Regulations; provided, however, that the following uses are expressly prohibited:

   - ☑ Animal Hospital, Clinic
   - ☑ Convent or Monastery
   - ☑ Hotel or Motel
   - ☑ Hotel, Residence
   - ☑ Cemetery/Mausoleum
   - ☑ Mortuary of Funeral Chapel
   - ☑ Social Service Provider
   - ☑ Billiard Parlor or Pool Hall
   - ☑ Carnival, Circus, or Amusement Ride
   - ☑ Commercial Amusement/Recreation (Outside)
   - ☑ Gun Club, Skeet or Target Range (indoor)
   - ☑ Astrologer, Hypnotist, or Psychic Art and Science
   - ☑ Garden Supply/Plant Nursery
   - ☑ Night Club, Discotheque, or Dance Hall
   - ☑ Secondhand Dealer
   - ☑ Car Wash, Self Service*
   - ☑ Service Station*
   - ☑ Mining and Extraction (Sand, Gravel, Oil & other)
   - ☑ Helipad
   - ☑ Railroad Yard or Shop
   - ☑ Transit Passenger Facility

   ** Not including a convenience store with an accessory car wash use or more than four (4) gas pumps, which accessory uses are permitted by SUP.*

   The following additional use shall be permitted of right in the PD District:

   - ☑ Grocery Store with a maximum building area of one hundred and thirty thousand (130,000) square feet.

   c. *Design of non-residential uses.* The retail area shall be designed to be pedestrian-oriented and easily accessible to adjacent residential neighborhoods. Additionally, the retail area shall be designed and constructed to be integrated with adjacent uses, not separated from them by screening walls or other physical barriers. This will be accomplished by creating paths from adjacent development into the retail area and

DRAFT ORDINANCE 06.09.2016

through the use of landscaping buffers, building design and other urban design elements to create compatibility with the surrounding residential neighborhood.

d. *Density and lot composition*. If the retail develops in accordance with the attached Concept Plan, no more than ~~***742***~~ ***789*** single-family residential dwelling units may be constructed within the Property. Except as provided in subsection (e), single-family residential units shall be allocated by product type in accordance with the following table:

Table 1: Lot Composition

Lot Type	Lot Size Minimum	Lot SF Minimum	Driveway Access	Total Units	Total Dwelling Units (%)
A	60' x 120'	7,200	Front	206	~~***27.80***~~ ***26.11%***
B	70' x 120'	8,400	Front	112	~~***15.10***~~ ***14.20%***
C	80' x 125'	10,000	Front	326	~~***43.90***~~ ***41.32%***
D	100' x 200'	20,000	Front	98	~~***13.20***~~ ***12.42%***
E	***50' x 120'***	***6,000***	***Front***	***47***	***5.96%***
AVERAGE LOT SIZE:		**10,000**			
			MAXIMUM ALLOWED TOTAL UNITS:	~~***742***~~ ***789***	**100%**

e. *Variation in lot composition.* The allocation of single-family dwellings among lot types may deviate from that in subsection (d), provided that the maximum allowed total dwelling units does not exceed ~~***742***~~ ***789*** units, the average lot size for the development is not less than 10,000 sq. ft., and the following rules are met:

(1) Lot types "A & B" may increase not more than 5% in aggregate number.
(2) Lot type "C" shall not be decreased below ~~***42%***~~ ***41.32%*** of the total ~~***742***~~ ***789*** lots.
(3) Lot Type "D" shall not be decreased below 98 of the total lots.
(4) Lot Type "E" shall not increase above 47 of the total lots.

2. *Development Standards Applicable.* Except as may be modified by these Development Standards, residential uses shall be subject to the development standards for a (SF-10) Single Family Residential District, as set forth in Article V, District Development Standards for Section 3.4 of the City of Rockwall Unified Development Code; to the development standards in the 205 Bypass Overlay District; and to all supplemental standards contained in the Unified Development Code, including but not limited to the tree preservation regulations in the Unified Development Code.

DRAFT ORDINANCE 06.09.2016

B. SPECIAL DEVELOPMENT STANDARDS

1. *Dimensional Standards for Residential Uses*

Table 2: Lot Type Matrix

Lot Types	A	B	C	D	E
Maximum Building Height	36'	36'	36'	36'	***36'***
Minimum Air Conditioned Square Footage	2,200	2,400	2,600 [2]	3,000	***1,800***
Minimum Front Yard Building Setback	20' [4]	20'	20'	40' [3]	***15'*** [4]
Minimum Rear Yard Building Setback	10'	10'	15'	15'	***10'***
Minimum Side Yard (*Interior*)	5'	5'	6'	7'	***5'***
Minimum Side Yard Adjacent to a Street	15'	15'	15'	15'	***15'***
Minimum Distance of Driveway (*from Property Line*)	20'	20'	20'	40'	***20'***
Minimum Lot Area (*Square Feet*)	7,200	8,400	10,000	20,000	***6,000***
Minimum Lot Frontage [1]	60'	70'	80'	100'	***50'***

Notes:

[1]: Lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may be reduced by twenty percent (20%) in lot width measured at the front property line provided that the lot width will be met at the front building line. Additionally, the lot depth on lots fronting onto curvilinear streets, cul-de-sacs and eyebrows may be reduced by up to 10 percent (10%) but shall meet the minimum lot size for each lot type as referenced within *Table 1*.

[2]: A maximum of 20% of the lots may have homes not less than 2,500 sq. ft.

[3]: The Director of Planning or his designee may grant a reduction in the required 40-foot front yard building setback of up to five (5) feet for lots situated along cul-de-sacs or curvilinear streets, or where a 40-foot front yard building setback would create an undue hardship on the property.

[4]: Front porch may encroach to within 10-feet of the front property line.

2. *Development Standards for Residential Uses by Lot Product/Type*

a. *Detached Single Family Lot Type A*

Development Standards	
Minimum Lot Size	7,200 SF
Minimum Lot Width (@ Front Building Line)	60'
Minimum Lot Depth	110'
Minimum Lot Width (Corner Lot)	65'
Minimum Side Yard Setback	5'
Minimum Front Yard Building Setback	20'
Minimum Rear Yard Building Setback	10'
Minimum Air Conditioned Square Footage	2,200 SF
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Garages will be allowed to have the garage accessed from the street using traditional "swing" or "J" drive. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. A minimum of 33% of Type 'A' lots shall have 3-car garages.
Maximum Lot Coverage	65%

DRAFT
ORDINANCE
06.09.2016

b. *Detached Single Family Lot Type B*

Development Standards	
Minimum Lot Size	8,400 SF
Minimum Lot Width (@ Front Building Line)	70'
Minimum Lot Depth	120'
Minimum Lot Width (Corner Lot)	75'
Minimum Side Yard Setback	5'
Minimum Front Yard Building Setback	20'
Minimum Rear Yard Building Setback	10'
Minimum Air Conditioned Square Footage	2,400 SF
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Garages will be allowed to have the garage accessed from the street using traditional "swing" or "J" drives. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. A minimum of 33% of Type 'B' lots shall have 3 car garages.
Maximum Lot Coverage	65%

c. *Detached Single Family Lot Type C*

Development Standards	
Minimum Lot Size	10,000 SF
Minimum Lot Width (@ Front Building Line)	80'
Minimum Lot Depth	125'
Minimum Lot Width (Corner Lot)	85'
Minimum Side Yard Setback	6'
Minimum Front Yard Building Setback	20'
Minimum Rear Yard Building Setback	15'
Minimum Air Conditioned Square Footage	2,600 SF [1]
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Traditional "swing" or "J" drive required. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. A minimum of 80% of Type 'C' lots shall have 3 car garages.
Maximum Lot Coverage	65%

Notes:

[1]: A maximum of 20% of the lots may have homes not less than 2,500 sq. ft.

DRAFT ORDINANCE 06.09.2016

d. *Detached Single Family Lot Type D*

Development Standards	
Minimum Lot Size	20,000 SF
Minimum Lot Width (@ Front Building Line)	100'
Minimum Lot Depth	175'
Minimum Lot Width (Corner Lot)	100'
Minimum Side Yard Setback	7'
Minimum Front Yard Building Setback	40' [1]
Minimum Rear Yard Building Setback	15'
Minimum Air Conditioned Square Footage	3,000 SF
Minimum Roof Pitch	8:12 Except for 4:12 on Porch Roofs
Minimum Masonry Requirement [*Brick, Stone, Cultured Stone, 3-Part Stucco*]	80%
Garage Orientation	Traditional "swing" or "J" drive required. Single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only. 80% of Type D lots shall have a minimum of 3 car garages.
Maximum Lot Coverage	70%

Notes:

[1]: The Director of Planning or his designee may grant a reduction in the required 40-foot front yard building setback of up to five (5) feet for lots situated along cul-de-sacs or curvilinear streets, or where a 40-foot front yard building setback would create an undue hardship on the property.

e. ***Detached Single Family Lot Type E***

Development Standards	
Minimum Lot Size	***6,000 SF***
Minimum Lot Width (@ Front Building Line)	***50'***
Minimum Lot Depth	***110'***
Minimum Lot Width (Corner Lot)	***55'***
Minimum Side Yard Setback	***5'***
Minimum Front Yard Building Setback	***15'***
Minimum Rear Yard Building Setback	***10'***
Minimum Air Conditioned Square Footage	***1,800 SF***
Minimum Roof Pitch	***8:12 Except for 4:12 on Porch Roofs***
Minimum Masonry Requirement [Brick, Stone, Cultured Stone, 3-Part Stucco]	***80%***
Garage Orientation	***Garages will be allowed to be accessed from the street; however a minimum driveway length of 20-ft must be provided***
Maximum Lot Coverage	***75%***

DRAFT
06.09.2016

3. *Fencing.* All individual residential fencing for lots less than 20,000 square feet shall be cedar standard fencing material (minimum ½" thickness) or better (spruce fencing will not be allowed). All cedar pickets shall be placed on the "public side" facing the street, alley or neighboring property. Lots containing 20,000 sq. ft., lots located along perimeter roadways, and lots abutting open spaces, greenbelts and parks shall be required to install tubular steel fencing. Corner lot fencing (adjacent to the street) shall provide masonry columns at forty-five feet (45') off center spacing that begins at the rear property line corner and terminates ten feet (10') behind the front yard building setback line. A maximum six (6') foot solid board on board "panel" cedar fencing shall be allowed between the masonry columns along the side and/or rear yard lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five feet (5'). The property owner shall maintain that portion of the property outside the fence.
4. *Anti-Monotony Features.* Lot types shall incorporate the following elevation features.

Table 3 : Anti-Monotony Matrix

Lot Type	Lot Size (Approx.)	Elevation Features
A	60' x 120'	i., ii., iii.
B	70' x 120'	i., ii., iii.
C	80' x 125'	i., ii., iii.
D	100' x 200'	i., ii., iii.
E	***50' 120'***	***i., ii.***

i. Exterior facade must be composed of eighty percent (80%) masonry (brick, stone, cultured stone, or three-part stucco). Identical brick blends may not occur to adjacent (side-by-side) properties. Elevations shall not repeat along the fronting or siding streetscape without at least four (4) intervening homes of sufficient dissimilarity (to be determined by the ARC) on the same side of the street and (2) intervening homes on the opposite side of the street). The rear elevation of homes backing to open spaces or thoroughfares shall not repeat without at least two (2) intervening homes of sufficient dissimilarity (to be determined by the ARC). Masonry (brick, stone, cultured stone, or three-part stucco) chimneys shall be required on all homes.
ii. Minimum of 8:12 roof pitch, except for 4:12 roof pitches on porches. For each phase, a maximum of four compatible roof colors may be used. Dimensional shingles shall be used. Crown molding will be installed in all living and family rooms, unless vaulted or pop-up ceilings are utilized. No Formica counters in kitchens and bathrooms, no blown acoustic ceilings. No vinyl flooring will be used in kitchens.
iii. For front entry driveway access a traditional "swing" or "J" drive will be used. Second single garage door facing street is permitted behind (width) of double garage door in "swing" or "J" configuration only.

5. *Streetscape Landscape.* Prior to issuance of a Certificate of Occupancy, yards for all single-family lots in the District shall be landscaped with large canopy trees.

(1) Two minimum three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of an interior lot.
(2) Two minimum three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of a corner lot and two additional trees of same caliper shall be planted in the side yard facing the street.
(3) For purposes of this section only, the term "front yard" includes the area within the dedicated right-of-way for a parkway immediately adjoining the front yard of the lot.

DRAFT ORDINANCE 05.03.2016

6. *Master Design Guidelines.* Additional design guidelines specific to each phase of development that shall apply to all single-family dwellings units within that phase of development, shall be submitted to the City prior to issuance of any building permits for that portion of the development.

C. STANDARDS FOR DISTRICT DESIGN AND CONNECTIVITY

1. *Streetscape Standards for Collectors & Non-Fronting Thoroughfares.* All streets, excluding drives, fire lanes and private parking areas, shall be built according to City of Rockwall street standards. Sidewalks and Hike / Bike trails are to be placed according to city requirements and as set forth in the Open Space Master Plan for the District.

    a. *Buffer-Strip* and Sidewalks (John King Boulevard Overlay District). The landscape buffer strip along John King Blvd shall be as described in the City of Rockwall Unified Development Code, Article V (District Development Standards), Section 6.10 E (Landscape Standards) and be a minimum width of fifty (50) feet as shown on the Planned Development Concept Plan in Exhibit 'B'. Additionally, the developer shall construct a minimum of a ten (10) foot sidewalk, on both sides of John King Boulevard, within the fifty (50) foot landscape buffer strip as recommended by the John King Boulevard Design Concept Plan located in the Comprehensive Plan of the City of Rockwall.
    b. *Buffer-Strip (FM 552).* A landscape buffer strip with a minimum width of fifteen (15) feet shall be provided along the frontage of FM 552, and shall be landscaped with at least one canopy tree per 30-ft and a combination of berms and shrubbery to be reviewed with the PD Site Plan(s) for the retail tract.
    c. *Buffer-Strip (Breezy Hill) Retail.* The minimum buffer width between the proposed retail area and Breezy Hill Rd shall be fifty (50) feet, and shall include a berm with a minimum height of five (5) feet with at least three (3) canopy trees and four (4) accent trees per 100-ft of frontage. A detail of this landscape buffer shall be approved by the Planning and Zoning Commission and City Council at the time of PD Development Plan for the retail tract.
    d. *Buffer-Strip (Breezy Hill) Residential.* A landscape buffer strip with a minimum width of ten (10) feet shall be provided between any residential area and Breezy Hill Rd.
    e. *Irrigation.* Any irrigation installed in landscape areas and public parks must be designed by a Texas licensed irrigator or landscape architect.
    f. *Fencing.* The Association will maintain all common area and perimeter fencing surrounding the Property. Such perimeter fencing shall be composed of six foot (6') tall tubular steel fencing with masonry entry features or such other fencing as may be approved by the City at the time of platting. Perimeter screening may also be accomplished by earthen berms landscaped with living screening. Property owners will maintain all fences constructed on private property.
    g. *Curvilinear Walks.* Walks are to be a minimum of five feet (5') wide to six feet (6') maximum width (hike and bike trail) consistent with the approved Open Space Master Plan. "Collector streets" with or without center medians may incorporate sidewalks six feet (6') in width adjacent to or within "front yard" landscape easements. Walks may meander within parkway and common area; however, edge of walk shall be no closer than four feet (4') from back-of-curb.
    h. *Medians.* Any proposed median openings shall meet the City standards at the time of PD site plan approval.

2. *Lighting.* Light poles shall not exceed twenty feet (20') in height. All light fixtures shall direct light downward and be contained to the site.

DRAFT
09.12.16

3. *Sidewalks.* At a minimum, sidewalks located on lay down curb section streets shall begin four feet (4') behind the back of curb and be five feet (5') in overall width. Sidewalks will not be required on rural street sections.
4. Curbing. Within certain lot types "A, B, & C" "roll up, lay down curbing" may be incorporated in an effort to minimize frequent curb cuts and maximize streetscape continuity, as approved by the City of Rockwall (Engineering Department) with approval of the final plat application.
5. *Buried Utilities.* New distribution power-lines required to serve the Property shall be placed underground, whether such lines are located internally or along the perimeter of the Property, unless otherwise authorized by the City Council. New transmission power-lines, or distribution lines of a size not typically or cost effectively placed underground (3 phase lines), or additional lines that are added to existing poles, may be above ground, if located along the perimeter of the Property, except along the 205 Bypass. Additionally, if such above ground lines are installed along the perimeter of the property and adjacent to non-residential use, then the lines shall be installed behind the non-residential buildings where the installation is possible. The Developer shall not be required to re-locate existing overhead power-lines along the perimeter of the Property. Temporary power-lines constructed across undeveloped portions of the Property to facilitate development phasing and looping may be allowed above ground, but shall not be considered "existing lines" at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph.
6. *Parks and Open Space.*
    a. Residential and retail acreages (net of right-of-way dedication) shall contain no less than 20% open space and.
    b. Allowable open space may include but is not limited to 50% of floodplain, amenity center, public or private parks, trails, natural areas, buffers, traffic circle medians, entry features, common areas (including any Association recreation center or similar facilities) and other features depicted on the Development Plan, as set forth in the Open Space Master Plan prepared in accordance with subparagraph (c) below. Street right of way will not be included as open space. At least 80% of the single-family dwellings within the development shall be located within eight hundred feet (800') of public or private open space. In order to qualify, such open space must be at least one (1) continuous acre in area, not including roadway buffers less than fifty (50') feet in width.
    c. The Developer shall prepare the Open Space Master Plan to be consistent with the approved Development Plan. The purpose of an Open Space Master Plan is to supplement the Development Plan by providing an additional level of detail for public and private open space areas. The Open Space Master Plan shall identify the locations of and improvements to public parks, and other public and private open space or common areas and shall illustrate an integral system of trail improvements that, together with intervening land held by other property owners or the City, is designed to connect residential areas, schools and retail areas within the District to parks and open space within the District and that provides for continuation and connection of the trail system to off-site parks and open space, in accordance with the City's Master Park and Recreation Plan. The Open Space Master Plan shall clearly differentiate public parks from private facilities and common lands to be maintained by the Association. The locations of public parks, school sites and other public and private open space or common areas shown on the Open Space Master Plan shall be in conformance with the Development Plan. The Open Space Master Plan shall include a phasing plan for construction of all trails, parks, common open space and facilities. The Open Space Master Plan shall be considered for approval if it complies with this section, the applicable City regulations, the Development Plan, and generally accepted park-planning practices.
    d. The District shall contain not less than eleven (11) acres of land to be used as public or private parkland. A minimum of eleven (11) contiguous acres shall be dedicated to the

DRAFT ORDINANCE

City in accordance with the City's Neighborhood Parkland Dedication Ordinance on approval of the final plats for those phases adjacent to or abutting the proposed parkland dedication and will provide access to said parkland area. The remaining parkland area will be retained as a private park within the District. Park improvements shall be constructed in accordance with the approved Open Space Master Plan. The site plan incorporating the design of park improvements and hike/bike trail improvements shall be considered for approval with the final plat for the phase of the development containing such improvements. Performance of the obligations in this subparagraph shall be deemed to fully satisfy the City's Neighborhood Parkland Dedication Ordinance regarding land dedication. At the time of recordation of final plats for each phase, the Developer shall pay park improvement fees to the City. These fees shall be held in an escrow account until the parkland is dedicated to the City, at which time the Developer shall inform the City if the Developer wishes to use the escrowed fees as well as future fees to construct park improvements. Prior to construction, said improvements shall be approved by Parks Director, approval not to be unreasonably withheld, and invoices for improvements shall be submitted to Parks Director for approval. Performance of the obligations in this subparagraph shall be deemed to fully satisfy the City's Neighborhood Parkland Dedication Ordinance regarding park development fees, provided that park improvements are installed at a value equal or exceeding the value of park improvement fees for the entire District applicable at that time, or improvement fees are paid. Thereafter, the Developer shall not be responsible for additional parkland dedication or park development fees associated with the Property, except as otherwise may be provided in a capital facilities agreement approved by the City.

7. Developer shall provide a minimum of one (1) retention pond in the District with hard edges and fountain features. The exact configuration and location of the ponds will be determined at development. All retention pond hardedges shall be similar to the hardedge shown on Figure 1 (below).

Figure 1: *Retention Pond with Hardedge.*

8. *Signage.* Permanent subdivision identification signage shall be permitted at all major entry points, in general conformance to the signage shown in Figure 2 & 3 (below). Final design of entry features to be determined with the Planned Development Site Plan.

DRAFT ORDINANCE

Figure 2: *Example of Subdivision Signage Locations*

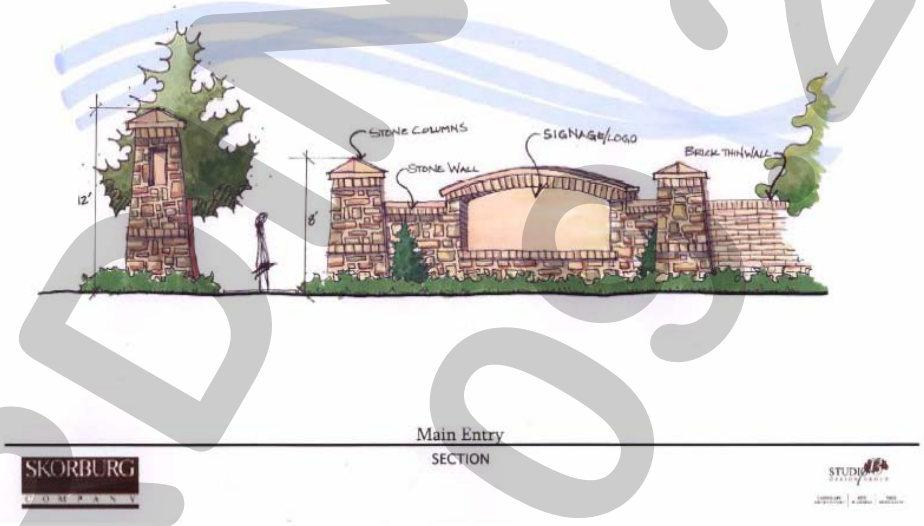

Figure 3: *Example of Subdivision Signage Design Standard*

9. *Variances.* The variance procedures and standards for approval set forth in the Unified Development Code shall apply to any application for variances to this ordinance.
10. *Amenity Center.* Site plan, landscape plan and building elevations for the Amenity Center shall be approved by the Planning and Zoning Commission prior to construction.
11. *Trees.* All trees planted within the District shall be a minimum three (3) inch caliper measured six (6) inches above the root ball.

DRAFT ORDINANCE 09.2016

EXHIBIT 'D': CAPITAL FACILITIES AGREEMENT FOR BREEZY HILL

THIS CAPITAL FACILITIES AGREEMENT (the "Agreement") is by and among the Breezy Hill 405, Ltd, ("Breezy" or "Developer") and the City of Rockwall, Texas ("City" or "Rockwall "),

I. RECITALS

1. Breezy seeks to rezone and subdivide the Property for single-family residential use and certain commercial uses. Breezy shall submit an application to rezone the 405 acres north of FM-552 (the "Property") as a planned development (PD) district for a development currently known as Breezy Hill (the "PD District"),

   NOW, THEREFORE, in consideration of the foregoing recitals and mutual covenants contained herein, the Parties hereto agree as follows:

II. ADEQUATE PUBLIC FACILITIES

1. *General Provisions.*

   a. *Adequacy Required.* Development of the Property shall be supported with adequate levels of public facilities and services, Adequate facilities and services are those that (i) comply with the applicable City regulations, including this Agreement, and (ii) are consistent with generally accepted engineering and planning practices for similar developments, The Parties agree that the dedication and construction of public improvements, or the contribution of proportionate development fees, required to support development of the Property shall precede or be concurrent with the construction of private improvements to the land, in accordance with the phasing provisions incorporated within this section, or as otherwise may be provided through approval of a master plat.

   b. *Proportionality.* The Parties agree that the dedication or construction of public improvements, or the contributions of development fees, provided for in this Agreement are roughly proportional to the nature and extent of the proposed development of the Property on the City's public facilities systems. Breezy hereby covenants not to sue the City for any claim, or otherwise consent to participate in any action against the City arising from any claim by such party or by its affiliates, alleging that application of the adequate facilities requirements set forth in this Part II of the Agreement to the development of the Property, or the imposition of conditions to a plat application for a portion of the Property that are consistent with the requirements of this section, are not roughly proportional to the impacts of the development depicted in the Concept Plan, including but not limited to any action premised upon Tex. Loc. Gov't Code sec. 212.904 or successor statute. Such covenant not to sue touches and concerns the Property, and is a covenant running with the land such that it binds successors-in-interest and assigns of Breezy. Should any successor-in-interest or assign of Breezy other than an affiliate of Breezy assert any of the foregoing claims in a court of competent jurisdiction, in violation of this Subsection 1 (b), with respect to the development of any portion of the Property, the Parties agree that, with respect to such portion of the Property or all of the Property, at the City's option, this Agreement thereupon shall become null and void and any rights that may otherwise have

BLS

DRAFT ORDINANCE 06-20-16

vested under then existing state law shall be waived upon such event. Breezy further agrees that the City may expressly rely upon the provisions of this paragraph in any certification under section 212.904 and that a court in determining rough proportionality may consider all of the Property. Should Breezy or an affiliate of Breezy violate the covenant not to sue contained in this paragraph, the City may either enforce the covenant or pursue the remedies provided for herein that are applicable to successors or assigns, other than affiliates. As used in this Agreement, the term "affiliate" means any person, corporation, partnership, or other entity controlled by, controlling, or under common control with Breezy.

c. *No Waiver.* The requirements in this Part II shall be considered additional standards and conditions applicable to development within the PD District. Except in the event of a conflict between the standards in this Agreement and other standards applicable within the District, nothing in this Agreement shall be construed as superseding any requirement or standard in the City's subdivision or utility regulations relating to provision of adequate public facilities and services.

2. *Wastewater Services.*

a. *City as Provider.* The City shall be the supplier of wastewater services to the Property.

b. *Line Extensions.* The Developer shall extend wastewater mains sufficient to serve each phase of development within the PD District, sized in accordance with the City's master plan for wastewater facilities and constructed in accordance with the phasing schedule approved in conjunction with the Developer's master plat application. The Developer shall design and construct a lift station in order to serve the development within the PD District. The Developer shall be entitled to pro-rata fees for the costs of over-sizing the lift station from other future developments using the lift station, calculated on a per acreage basis. Developer also shall be eligible for credits against, wastewater impact fees otherwise due for construction of improvements identified and included in the City's wastewater improvements plan for impact fees, in accordance with the City's then existing impact fee regulations. Provisions for City participation in oversize costs, rebate of pro-rata fees or provision of impact fee credits shall be set forth in a facilities and reimbursement agreement between the Developer and the City.

c. *Payment of Impact Fees.* Wastewater impact fees shall be paid at rates and at the times provided for in the City's then existing impact fee regulations.

3. *Water Services*

a. *City as provider.* The City shall be the supplier of water services to the Property. The City represents that it has sufficient capacity to serve the Property.

b. *Line Extensions.* The Developer shall extend water mains sufficient to serve each phase of development within the PD District, sized in accordance with

BJ

DRAFT ORDINANCE 06.05.2016

the City's master plan for water facilities and constructed in accordance with the phasing schedule approved in conjunction with the Developer's master plat application. The Developer shall be eligible for City participation in the costs of over-sizing water distribution mains or appurtenances that serve other land in addition to the Property, in accordance with the City's standard policies, or for collection of pro-rata fees for such facilities. Developer also shall be eligible for credits against, water impact fees otherwise due for construction of improvements identified and included in the City's water improvements plan for impact fees, in accordance with the City's then existing impact fee regulations. Provisions for City participation in oversize costs, rebate of pro rata fees or provision of impact fee credits shall be set forth in a facilities and reimbursement agreement between the' Developer and the City.

c. *Payment of Impact Fees.* Water impact fees shall be paid at rates and at the times provided for in the City's then existing impact fee regulations.

4. *Road Improvements.* The Developer shall make the following road improvements.

a. *John King Boulevard (Highway 205 Bypass).* The Developer shall have no obligation with respect to construction of John King Blvd. other than as outlined herein regarding payment of road impact fees.

b. *FM-552 Improvements.* The Developer shall dedicate rights-of-way for and construct turn lanes and acceleration/deceleration lanes concurrent with construction of any road on the Property that intersects FM 552, in accordance with City and TXDOT standards and specifications at the time of development of adjoining property.

c. *Breezy Hill Road Improvements.* The Developer shall dedicate a minimum of twenty-five feet (25') of right-of-way or such right-of-way as is needed to construct a twenty-four foot (24') concrete rural section of Breezy Hill Road and appurtenances adjacent to the Property, together with a two-foot (2') asphalt or concrete shoulder on either side of the concrete section, the total not to exceed twenty-eight feet (28') in width, from the northern point of Breezy Hill Road adjacent to the Property, to FM-552, as shown on the Development Plan. The Developer also shall dedicate and improve a minimum landscape buffer of ten feet (10') for the residential tract and fifty feet (50') for the retail tract, adjacent to the right-of-way for Breezy Hill Road, designed in accordance with the requirements of a PD District then in effect for a rural collector. The bar ditch that abuts the buffer strip, designed to a maximum slope of 3: 1, shall not encroach into the required ten-foot or fifty-foot buffer area, except to the extent that the buffers exceed ten feet (10') in width. The Developer shall dedicate right-of-way for Breezy Hill Road and the landscape buffer at the time of final plat approval for any lot abutting Breezy Hill Road. Developer shall construct Breezy Hill Road in conjunction with the retail tract that is final platted adjacent to Breezy Hill Road. Breezy Hill Road will be constructed from the northernmost intersection created by any portion of the retail tract being platted, south to FM-552. Developer shall install any

BL)

DRAFT ORDINANCE 06.08.2016

DRAFT ORDINANCE 06.09.2016

EXHIBIT 'D': CAPITAL FACILITIES AGREEMENT FOR BREEZY HILL

needed expansion of existing culverts created by such construction or the development, of such retail tract.

d. *Payment of Roadway Impact Fees.* Roadway impact fees shall be paid at rates and at the times provided for in the City's then existing impact fee regulations. Construction costs incurred by Developer for roadway improvements in this Agreement that are included in the City's roadway improvements plan for impact fees shall be credited against roadway impact fees otherwise due, in accordance with the City's impact fee regulations.

5. *Drainage Improvements.* Dedication of rights-of-way for and construction of drainage improvements shall be provided as specified in conditions imposed with approval of the master plat for development within the PD District and in accordance with City standards and specifications.

6. *Parks and Open Space.*

a. The Developer or a property owners association shall maintain public parklands and improvements within the development for a period of three (3) months from the completion and acceptance of the improvements. Thereafter, the City shall assume responsibilities for maintenance. All open space and improvements which are not dedicated as parkland to the City shall be maintained as common areas in perpetuity by the property owners association for the PD District. Additionally, the property owners association shall maintain Developer-installed landscaping areas in public rights-of-way and public drainage ways internal to and adjacent to the Property.

III. GENERAL PROVISIONS

1. Notice on Sale. The Developer shall provide the City with notice of the sale of any tract or parcel within the District that has not been platted at the following address:

Rockwall City Manager
Rockwall City Hall
385 S. Goliad Street
Rockwall, TX 75087

2. *Recording.* This Agreement is intended to run with the land, and shall be recorded in the Real Property Records, Rockwall County, Texas.

3. *Term of Agreement.* This Agreement shall terminate two (2) years following the City's acceptance of the dedication and construction of the public improvements described herein serving the last phase of development within the PD District, after which the City agrees, upon the request of the Developer to execute a termination of this Agreement in recordable form. Any reimbursements for payment of impact fees shall not expire.

4. *Effective Date.* This Agreement shall take effect upon the date of its execution by the last of the Parties to the Agreement; provided, however, that Breezy shall execute this Agreement no later than five (5) business days following the

BU

effective date of the PD zoning ordinance for the Property. If Breezy fails to execute this Agreement within such period, this Agreement shall become null and void, and unless a subsequent agreement, acceptable to the City and the Developer, is agreed to, the City may thereafter deny any PD site plan, master plat or other plat application on grounds that the application is not supported by adequate public facilities and services.

5. *Severability.* Invalidation of any provision of this Agreement by judgment or court order shall not invalidate any of the remaining provisions which shall remain in full force and effect, unless such remaining provisions are an integral part of the invalid provisions or the invalid provision is necessary to give effect to the remaining provisions.

6. *Enforcement.* This Agreement may be enforced by the Parties by any proceeding at law or in equity. Failure to do so shall not be deemed a waiver to enforce the provisions of this Agreement thereafter.

7. *Venue.* Venue for this Agreement shall be in Rockwall County, Texas.

8. *Execution.* This Agreement may be separately executed in individual counterparts, and upon execution, shall constitute one and the same instrument.

9. *Amendment.* This Agreement may only be amended in writing upon mutual consent of the City and the Developer.

10. *Joint preparation.* This Agreement shall be deemed to have been jointly prepared by all Parties hereto, and no ambiguity of this Agreement shall be construed against any party based upon the identity of the author of this Agreement or any portion thereof.

11. *Recitals Incorporated.* Statements and representations contained herein are to be considered contractual in nature and not merely recitations of fact. The Recitals contained in Part I of this Agreement hereby are expressly incorporated into this Agreement by reference.

12. *Construction.* All references herein in the singular shall be construed to include the plural where applicable, the masculine to include the feminine and neuter genders.

13. *Authority.* Each of the signatories to this Agreement represents and warrants that he is authorized to execute this Agreement and bind his principals to the terms and provisions hereof. Each Party warrants that any action required to be taken in order for this Agreement to be binding on it has been duly and properly taken prior to the execution of this Agreement.

14. *Conflicts.* In the event of a conflict between this Agreement and any provision of the Unified Development Code, the City Code, or any City ordinance, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this Agreement, the standards in this Agreement shall control.

BLJ

DRAFT ORDINANCE 06.09.2016

EXHIBIT 'D': CAPITAL FACILITIES AGREEMENT FOR BREEZY HILL

15. *No Waiver*. Developer retains the right to challenge the application of any City impact fee regulations to the Property solely on the basis that such regulations fail to comply with Chapter 395 of the Texas Local Government Code, as amended. If Developer prevails in such a claim, impact fees shall be applied to the development of the Property and paid by the Developer, as applicable, in accordance with the court order.

DRAFT ORDINANCE 06.09.2016

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 06/14/2016

APPLICANT: Theresa and Ronald Briones

AGENDA ITEM: **MIS2016-008**; *Masonry Exception (905 N. Alamo Street)*

SUMMARY:

Discuss and consider a request by Theresa and Ronald Briones for the approval of an exception to the minimum masonry requirements stipulated in Section 3.1, General Residential District Standards, of Article V, District Development Standards, of the Unified Development Code, for a 0.248-acre parcel of land identified as part of Lot 7, Block 5, Garner Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 905 N. Alamo Street/906 N. West Street, and take any action necessary.

CHARACTERISTICS OF REQUEST:

The applicant is requesting to construct a new home on the vacant lot at 905 N. Alamo Street utilizing 100% Hardy Plank® or a similar siding material. The subject property is located just north of the intersection of Heath Street and N. Alamo Street and is zoned Single Family 10 (SF-10) District. According to Section 3.1, *General Residential District Standards*, of Article V, *District Development Standards*, of the Unified Development Code the minimum masonry (*i.e. brick, stone -- natural, cast or cultured -- glass block, tile and/or CMU*) requirement for exterior walls on structures that are 120 square feet or greater is 80%; with a maximum of 50% of this masonry requirement being permitted to be Hardy Plank®, stucco or a similar cementaceous material. Additionally, the code states that, "(e)xceptions to these requirements … may be permitted on a case-by-case basis by the City Council upon submission and approval of elevation drawings of the subject structure, and materials samples." The applicant has submitted building elevations and photos of other homes in the neighborhood that have Hardy Board or similar siding. Additionally, the applicant has stated in a letter submitted to staff that the purpose of requesting the masonry exception is to match the materials and architectural style of the adjacent properties. Staff should note that the majority of the structures on the adjacent properties utilize 100% vinyl/wood siding or a similar cementaceous lap siding material.

RECOMMENDATIONS:

If the City Council chooses to approve the applicant's request staff would recommend the following conditions:

1) Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

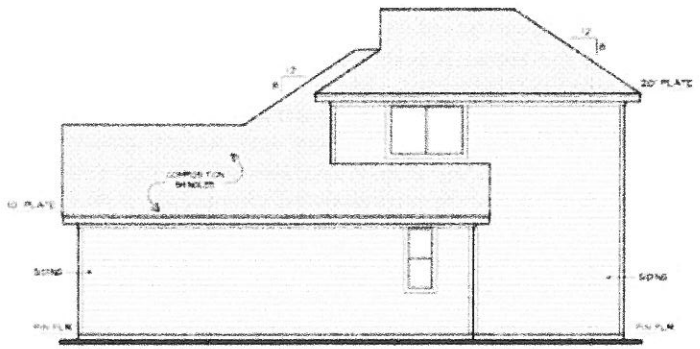
June 1, 2016

Planning Division
City of Rockwall
Rockwall, TX

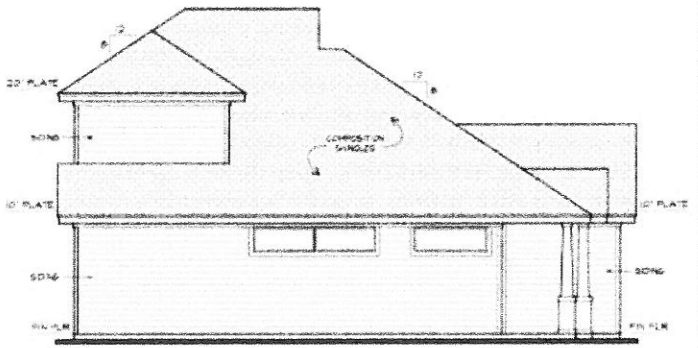
To Whom It May Concern:

We are planning to build on an empty lot with the following address: 905 N. Alamo, Rockwall, TX 75087. Our builder, Mr. Greg Dean, has informed us that in that block new construction are required to have at least 60% brick for the exterior walls/facade.



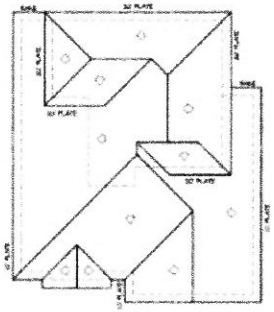
We respectfully request if we can be given a variance on that requirement considering that houses in that neighborhood has siding and we really would like to blend in with the neighborhood.

Attached is a copy of the house plan (elevations) and also photos of houses in the said neighborhood for your perusal.



Hoping for a favorable action on this matter.

Sincerely,



Theresa and Ronald Briones

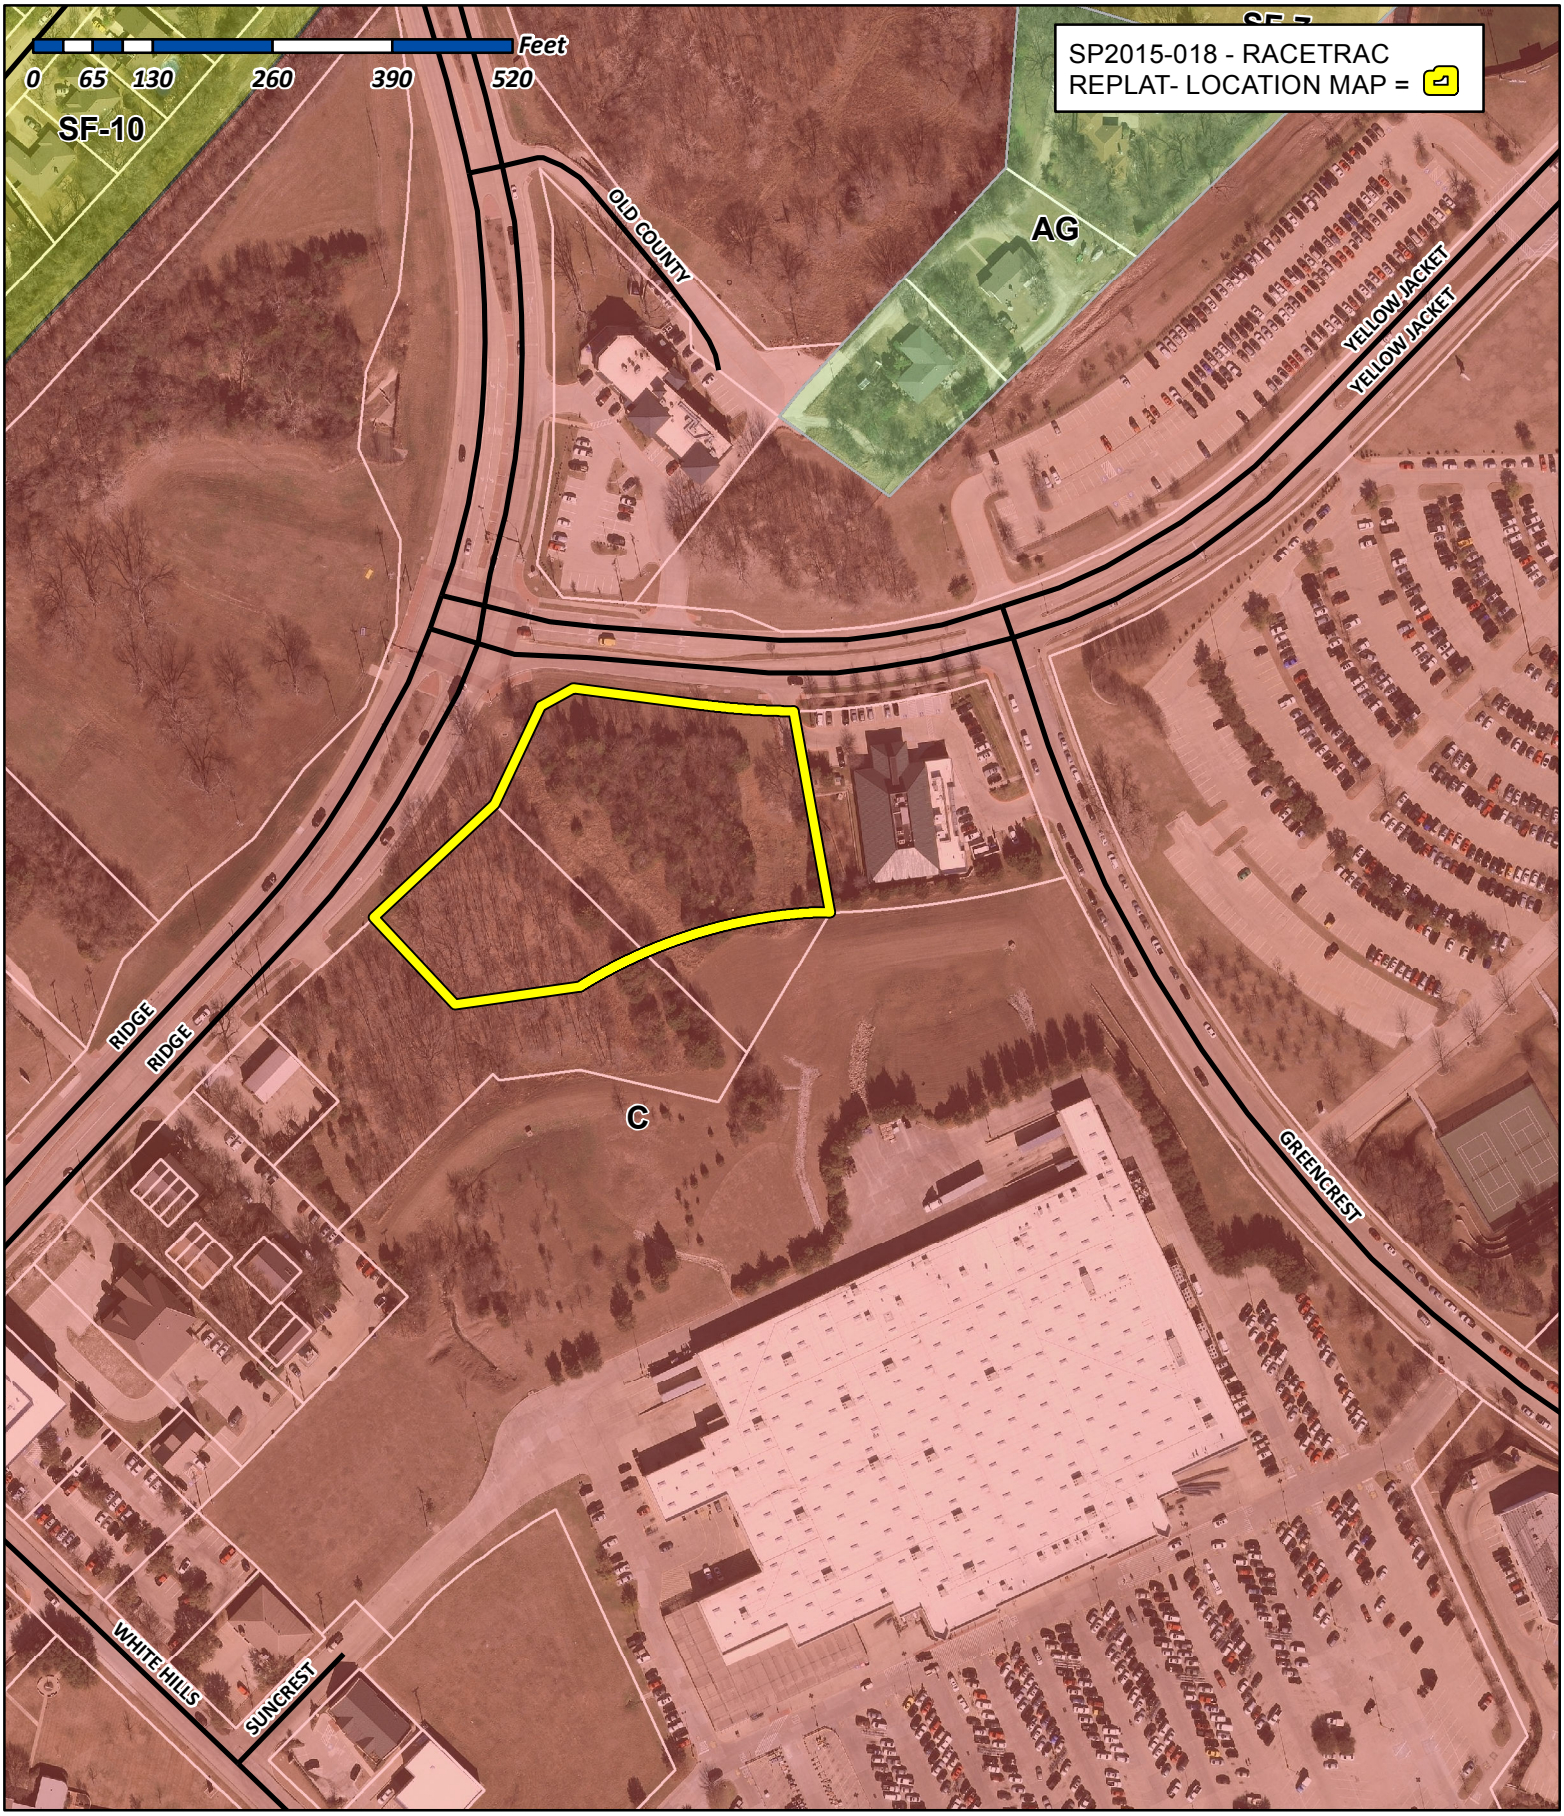
CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

CC: David Gonzales, *Senior Planner*



DATE: June 14, 2016

SUBJECT: **SP2015-018;** *RaceTrac Site Plan Amendment*

On December 10, 2013, the Planning and Zoning Commission approved a site plan (*Case No. SP2013*-002) for a *RaceTrac Gas Station* on the subject property at the southeast corner of the intersection of Ridge Road and Yellow Jacket Lane. This site plan was amended on December 21, 2015 by the City Council after the then applicant -- *Dimension Group* -- requested that a variance to the secondary materials be approved allowing the building to exceed the 10% secondary material requirement for the purpose of allowing EFIS and TrexBoard®. At the time of approval, the applicant submitted elevations showing approximately 14% secondary materials (*18% as calculated by the ordinance -- i.e. excluding doors and windows*).

Since this approval, RaceTrac has amended their use of TrexBoard® in favor of a composite/compressed board (*i.e. compact wood*) and altered their prototypical building elevations to incorporate an enclosed dining area. Typically, these changes can be handled administratively; however, in making the changes the applicant, Brad Williams of Winstead PC, is requesting permission to increase the amount of secondary materials for the purpose of accommodating the enclosed dining space (*i.e. adding five [5] additional pillars -- indicated on the attached elevations*). These changes increase the amount of secondary materials from 18% to 21%, thus increasing the non-conformity of the variance. Due to this change and since the applicant is proposing a new material (*i.e. compact board*) staff is taking the changes back to the Architectural Review Board (ARB), Planning and Zoning Commission and City Council. It should be noted that for council to approve this variance it will require a ¾-majority vote as it is a requirement of the Scenic Overlay (SOV) District.

Included in the attached packet is a copy of the approved elevations, the revised/proposed elevations and a color rendering. In addition, staff has placed a spec sheet on the compact wood product. Staff will also bring a material sample of both products for the ARB, Planning and Zoning Commission and City Council's review.

Compact Wood
INTERIOR & EXTERIOR SURFACES

Technical Data Sheet

Compact Wood 101

WHAT IS IT?
Compact Wood LLC has combined the strength and durability of solid compact/ phenolic with the warmth and beauty of natural wood to create Compact Wood.

SPECIES
Available in over 100 species with 20 Quick Ship species in 4' 3" x 10' x 1/2" sheets.

CUSTOM
Custom width, thicknesses, species and stain available for a 20 sheet minimum.

FIRE RATING
All thicknesses 1/2" and greater are Class A (ASTM-84) as standard. Thinner boards available as Class A.

Compact Wood

Compact Wood is a solid, decorative, self-supporting wood panel avalable for interior an exterior surfaces.

USES FOR COMPACT WOOD
Typical applications include horizontal and vertical solutions such as wall panels, toilet and dressing room partitions, lockers, table tops and counters, shelving, desktops, window sills, signage and wayfinding and wall protection components.

Compact Wood exhibits the following properties:

- Excellent resistance to fire - Class A
- Very high surface and edge impact resistance
- High resistance to chemicals and organic solvents
- Excellent moisture and water resistance
- Excellent hygiene characteristics
- Outstanding self-supporting properties
- Good dimensional stability and flatness
- Simple and quick fabrication
- No need for edging and adhesives
- High resistance to stress cracking
- Excellent resistance to termites

Outstanding strength and high machinability combine to make Compact Wood the real wood building board solution for all wood applications.

The outstanding surface and strength characteristics of Compact Wood makes it ideal to use in clean rooms, damp areas where moisture is a concern and rooms where sanitary issues are a concern. The surface is not adversely affected by moisture and is easy to clean with mild disinfectants. Compact Wood is not susceptible to mold, corrosion, rust or rot.

THICKNESSES
Full sheets are supplied in 1/2" thickness. Other thicknesses are available as a custom.

SHEET SIZES
Available in 4'3" x 10' sheets as standard. Larger sizes available to order.

EDGE DETAILS
Full sheets are supplied with clean cut edges. Cut to size and finished components are available direct from Compact Wood LLC with a variety of edge profiles either polished or clean cut.

CORE COLOR
The standard core color is brown. Black and solid color cores are available.

FABRICATION
Fabricators and millworkers can cut and machine CompactWood with traditional woodworking tools and best practices.

Compact Wood LLC also offers a full fabrication service including simple and complex custom CNC machined components with holes, grooves, custom edge profiles and metal inserts and connectors.

Compact Wood LLC, 8725 Placida Road, Suite C7, Placida, Florida 33946 p 855.966.3925 www.compactwood.com

Compact Wood Technical Data Sheet

Compact Wood's limited warranty is for one full year from the date of purchase. In the case of fabricated components manufactuted by CompactWood LLC, the warranty is extended to three full years.

Compact Wood warranties Compact Wood sheets against swelling, delamination or warpage caused by humidity or proper maintenance.

Swelling must be more than 10 % of nominal panel thickness. Warpage must be more than 5 mm per every linear meter, and not due to an installation that has limited the panel's expansion.Delamination must not be caused by damage or chipping to the panel's edge.

Compact Wood LLC's warranty is limited to the replacement only of defective sheets or fabricated components manufactured by Compact Wood LLC. This Limited Warranty does NOT cover the cost of any labor or freight costs associated with any replacement

COMPOSITION
Compact Wood is manufactured by pressing melamine impregnated natural wood veneer over phenolic impregnated kraft sheets at pressures over 1000 psi pressure and temperatures of approximately 300 degrees F (149 degrees C). The decorative surface is the same on both surfaces to provide a flat and dimensionally stable board.

Fabrication
Conditioning, Cutting, and Drilling
Compact Wood should be allowed to acclimate for 72 hours before fabrication and assembly. Best conditions are approximately 23 degrees C (73 degrees F) and a relative humidity of 45 % to 55 %. When cutting, the rate of feed will depend on the thickness of the panel and the required quality of the cut. Chipping of the lower surface may be avoided by altering the angle at which the blade emerges. The use of a scoring blade avoids this problem altogether. The saw blade marks may be eliminated on the edge by using a router with a 2-flute straight bit or a solid carbide spiral bit.

Carbide-tipped saw and router blades should be used for cutting. Cutting blades should be kept very sharp and a hold-down used to prevent vibration. The edges may be polished with a lemon oil furniture polish to obtain a semi-gloss finish.

Drill oversize holes for screws or bolts. The drill diameter should be at least 0.05 mm (0.002") larger than the specified diameter of the hole. Secure objects to the surface of the laminate with self-tapping screws in predrilled holes. With self-tapping screws, the hole must always be predrilled with the diameter of the hole being smaller than the external diameter of the screw. The depth of the hole must be at least 1 mm greater than the depth of penetration of the screw. The finer the thread, the firmer the screw holding.

Compact Wood can be fabricated with traditional woodworking tools and techniques.

Inspection
Compact Wood must be inspected prior to fabrication or installation to ensure sheets are clean and free of surface defects. Protective peel coat should be removed prior to inspection.

Joinery Techniques and Hardware - Request copies of Ambienta product brochures for information on wall panel, toilet partition and locker systems using Compact Wood.

Fabricators of phenolic toilet partitions, lockers, wall panels and other phenolic based systems can machine Compact Wood sheets in the same way as they machine thier existing phenolic stocks.

Hardware such as self drilling screws and threaded inserts and fasteners work extremely well in Compact Wood and the hardware can be furnished with the sheets.

Cutouts
To avoid stress cracking, do not use square-cut inside corners. All cutouts should be routed or filed to ensure smooth edges. A radius of 1/4" or larger in the corners is recommended to minimize stress cracking for an inner side of 10" or less. This radius must gradually be increased for openings with a longer inner side.

Industry Practices
Material, equipment, and workmanship should conform to industry standard practices, conditions, procedures and recommendations as specified by ANSI/NEMA LD-3-2000, Standard for High-Pressure Decorative Laminates, Annex A, Application, Fabrication, and Installation or Architectural Woodworking Institute (AWI) "Architectural Woodwork Quality Standards, Guide Specifications and Quality Certification Program".

Compact Wood Technical Data Sheet

Transportation and Storage

Compact Wood should always be transported on flat, stable pallets. Secure the panels so that they do not slip. Make sure panels do not slide over each other during loading and unloading operations. Lift them by hand or with means of a suction cup hoisting device. Dirt, foreign bodies and sharp edges rubbing against the surface can cause damage. Store the panels in a closed place where normal climatic conditions are guaranteed. Stack the panels on top of each other on a flat base. Never stand the panels on edge. The protective film, if applied, must be removed simultaneously from both surfaces.

Care and Maintenance

Compact Wood sheets have a hard, durable melamine surface and will maintain their attractive appearance longer than most other decorative surfacing materials and requires minimal maintenance. The decorative surface may be cleaned with warm water and a mild soap or detergent using a damp cloth or sponge. Difficult stains such as coffee and tea can be removed using a mild household and a soft bristle brush with a household cleaning detergent. Do not use abrasive pads, scouring powders or cleaners as they may permanently dull or scratch the laminate surface making it susceptible to staining. Harsh chemicals such as oven cleaners, drain cleaner and acids and strong alkalis can etch and discolor the decorative surface. Follow our "Care and Cleaning of Laminates Guide"

Meet Nature's Newest Force

Compact Wood is the most impact-resistant, architectural grade wood solution available for both interior and exterior applications. Born from science and nature, the solid panels are manufactured from thermally used materia s that create a compound that is impact, chemica and ater resistant he end resu t is a visua y stunning materia that will stand the test of time in infinite design possibilities.

COMPOSITION

Compact Wood is made by pressing melamine coated wood veneer over phenolic coated kraft sheets at over 300° F and 1000 psi.

SPECIES

Compact Wood is available in 20 Quick Ship species. For a minimum order of 20 sheets, over 100 species are available in 8-10 weeks.

SHEET SIZES

Compact Wood is available in 51"x120" standard sheets. The product may be cut down to smaller sizes with traditional woodworking tools.

THICKNESS

Compact Wood is available in 1/2" Quick Ship sheets. For a minimum order of 20 sheets, 1/4", 1/2" and 3/4" thick sheets are available in 8-10 weeks.

EDGE DETAILS

Full sheets are supplied with clean cut edges. Finished edges on cut to size sheets are available in a variety of polished or clean edge details.

CORE COLOR

Compact Wood is available in brown core sheets. For a minimum order of 20 sheets, Black and solid color cores are available in 8-10 weeks.

FABRICATION

Compact Wood offers full fabrication services including complex components such as grooves, connectors, edge profiles and connectors.

FIRE RATING

All Compact Wood sheets 1/2" and greater are Class A Fire Rated (ASTM-84) standard. Thinner boards are available as Class A.

COMMON USES

Typical applications include bathroom partitions, lockers, table-tops, shelving, signage, counters, window sills, wall protection and cladding.

Compact Wood's limited warranty is for one full year from date of purchase. Compact Wood warranties Compact Wood sheets against swelling, delamination or warpage caused by humidity or proper maintenance. Swelling must be more than 10 % of nominal panel thickness. Warpage must be more than 5 mm per every linear meter and not due to an installation that has limited the panel's expansion. Delamination must not be caused by damage or chipping to the panel's edge.

CITY OF ROCKWALL
PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 06/14/2016

APPLICANT: Chet Leugers, PE of Pacheco Koch

AGENDA ITEM: **SP2016-012;** Warehouse/Manufacturing Facility (*Pratt Industries*)

SUMMARY:

Discuss and consider a request by Chet Leugers, PE of Pacheco Koch on behalf of Michael Hampton of the Rockwall Economic Development Corporation for the approval of a site plan for a warehouse/manufacturing facility on a 30.6-acre portion of a larger 86.806-acre tract of land identified as Tract 1 of the H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the northwest corner of Discovery Boulevard and Data Drive, and take any action necessary.

PURPOSE:

Pratt Industries is a Georgia-based corrugated packaging company that operates as a 100% recycling company for certain paper mills within the United States. With the help of the Rockwall Economic Development Corporation (REDC) they are proposing to construct a 389,500 SF warehouse/manufacturing facility within the Rockwall Technology Park. The proposed site plan shows the facility being situated on a 30.6-acre portion of a larger 86.806-acre tract of land identified as Tract 1 of the H. B. Jones Survey, Abstract No. 125. The property, which is currently vacant, is zoned Light Industrial (LI) District and is located at the northwest corner of Discovery Boulevard and Data Drive.

DENSITY AND DIMENSIONAL REQUIREMENTS:

The proposed warehouse/manufacturing facility (i.e. *Pratt Industries*) is a use permitted by-right within the LI District. The site has two (2) points of access available from Discovery Boulevard and one (1) point from Data Drive for a total of three (3) ingress/egress driveways, in addition, the site will incorporate a total of 132 parking spaces for the operation. This will require a variance to allow for a deficiency of 258 parking spaces.

The submitted site plan, building elevations, landscape plan, treescape plan, and photometric plan are in substantial compliance and conform to the technical requirements contained within the Unified Development Code (UDC), with the exception of the variance requests and conditions in the Recommendations section of this report.

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*12,500 SF*	*30.03-Acres; In Conformance*
Minimum Lot frontage	*100-Feet*	*x>100-Feet; In Conformance*
Minimum Lot Depth	*125-Feet*	*x>125-Feet; In Conformance*
Minimum Front Yard Setback	*25-Feet*	*x>25-Feet; In Conformance*
Minimum Rear Yard Setback	*0-Feet + ½ H*[1]	*x>20-Feet; In Conformance*
Minimum Side Yard Setback	*0-Feet + ½ H*[1]	*x>20-Feet; In Conformance*
Maximum Building Height	*120-Ft* [2]	*40' 0"; In Conformance*
Max Building/Lot Coverage	*60%*	*~10.5%; In Conformance*
Minimum Masonry Requirement	*90%*	*>90%; In Conformance*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Floor Area Ratio	*2:1*	*x<4:1; In Conformance*
Minimum Number of Parking Spaces	*390*	*132 Provided; Variance*
Minimum Stone Requirement	*20% ea facade*	*X=0%; Variance*
Minimum Landscaping Percentage	*10% v*	*x>10%; In Conformance*
Maximum Impervious Coverage	*85 to 90%*	*<57.36%; In Conformance*

NOTES:
1. With fire retardant wall: zero feet plus ½ of the buildings height over 36-ft.
2. Any structure over 60-ft will require a specific use permit.

TREESCAPE PLAN:

The applicant has provided a treescape plan indicating a total of 3,744 caliper inches being removed from the site, the vast majority of which are Cedar trees. Cedar and Hackberry trees that are 11 inches dbh or larger, shall be replaced at 50 percent of the total caliper inches being removed; however, Cedar and Hackberry trees that are less than 11 inches dbh shall not be considered a protected tree. In this case, there are a total 2,617 caliper inches considered to be non-protected trees. Also being removed from the site are two (2) elm trees that are considered to be feature trees and are protected. These total 18 caliper inches. Feature trees may not be removed without approval of the Planning and Zoning Commission and are required to be replaced on an inch for inch basis. Taking into account the protected trees being removed, the total mitigation required for the site is 576 inches. The applicant's landscape plan depicts the provision of 192 three (3) inch caliper trees, leaving a balance of zero inches due, which satisfies the tree mitigation requirements.

VARIANCES AND EXCEPTIONS REQUESTS:

The applicant is requesting variances to the *Unified Development Code* (UDC) for the sections outlined below. As a note, approval of a variance request to the UDC requires passage of a simple majority vote of City Council. With this being said, the approval of an exception(s) or variance to the UDC is a discretionary decision for the City Council. The requests are as follows:

1) *Parking*. According to Section 6.5, *Table 3*, of Article VI, *Parking and Loading Standards* of the UDC and based on the proposed site plan the development of a 389,500 SF warehouse facility has a total parking requirement of 390 parking spaces (*i.e. 1/1,000 SF of warehouse area*). Currently, the site plan indicates 132 parking spaces to be provided; however, the applicant has stated that the facility will use less parking than is required based on the maximum number of employees that will be on site. It should be noted that the applicant can provide an exhibit indicating potential on-site parking spaces for future use should this be needed. *A variance to the parking requirements will require a simple majority vote by the City Council for approval.*

2) *Tilt Wall*. According to Section 5.1, *General Industrial District Requirements*, of Article V, *District Development Standards*, of the UDC all buildings located within an industrial district are required to have an exterior that is a minimum of 90% masonry (*i.e. brick, stone or a cementaceous material [x≤50%]*); however, exceptions to this requirement for the purpose of allowing concrete tilt wall may be permitted on a case-by-case basis by the City Council. The applicant is requesting a variance for the purpose of utilizing 100% concrete tile wall construction. *A variance to allow for tilt wall will construction requires a simple majority vote by the City Council for approval.*

3) *Building Materials.* According to Section 5.1, *General Industrial District Requirements*, of Article V, *District Development Standards*, of the UDC buildings are required to be constructed of 90% masonry materials (*i.e. brick, stone, etc.*) of which *a minimum of 20% shall include natural or quarried stone on walls visible from a public street or open space.* In

this case, the proposed building will be 100% tilt wall construction, which currently is not an approved masonry building material and is only permitted on a case-by-case basis by the City Council. *A variance to allow for not meeting the minimum masonry/stone requirements requires a simple majority vote by the City Council for approval.*

4) *Articulation*. According to Section 5.1, *General Industrial District Requirements*, of Article V, *District Development Requirements*, of the UDC all buildings located within an industrial district are required to incorporate horizontal and vertical offsets in wall planes on façades adjacent to public streets for the purpose of breaking up flat wall planes and creating visual interest in a building's façade. The articulation requirements are based on formulas contained within the UDC. The applicant is requesting variances to both the horizontal and vertical articulation requirements. *A variance to the articulation requirements will require a simple majority vote by the City Council for approval.*

5) *Screening Requirement.* According to Section 6.4, of Article VI, *Off-Street Loading Requirements*, of the UDC, loading spaces are required to be a minimum of 12' x 65' with a 14' height [wall] for screening purposes. In this case, the applicant is proposing to use approximately 100 eastern red cedars and a berm for screening purposes. The 3-inch caliper trees will be planted along the parking area's adjacent to the northern and eastern [*Data Drive*] property lines. *A variance to allow for live screening as proposed on the landscape plan rather than a 14-ft screening wall will require a simple majority vote by the City Council for approval.*

6) *Detention Basin Landscaping*. According to *Section 5.12, Required Landscaping, C. Detention Basins,* of *Article VIII, Landscape Standards*, of the UDC requires the detention basin be landscaped in a natural manner using ground cover, grasses, and shrubs including a minimum of one (1) tree per 750 SF of dry land area. The applicant is requesting to not landscape the detention area since its purpose is to be used on a temporary basis. It should be noted that the REDC is proposing a regional detention pond that will eliminate the need for this on-site detention basin. *A variance to the landscaping requirements for the detention basin will require a simple majority vote by the City Council for approval.*

RECOMMENDATIONS:

The site plan submitted by the applicant meets all the technical criteria stipulated by the UDC with the exception of the variances as requested. Should the Planning and Zoning Commission choose to approve the applicant's request, then the following conditions of approval should be adopted with this case:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Discuss and consider a request by Chet Leugers, PE of Pacheco Koch on behalf of Michael Hampton of the Rockwall Economic Development Corporation for the approval of a site plan for a warehouse/manufacturing facility on a 30.6-acre portion of a larger 86.806-acre tract of land identified as Tract 1 of the H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the northwest corner of Discovery Boulevard and Data Drive, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, June 7, 2016. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. Label site plan documents with "Case No. SP2016-012" at the lower right corner of each plan.
4. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department.

Variances and/or Exceptions per submittal:

1. To allow for not meeting the Horizontal & Vertical articulation standards for the facades facing the street(s) as outlined in the Unified Development Code.
2. To allow for not meeting the required parking spaces (parking reduction) for the development.
3. To alow for not meeting the landscaping of the detention area (1 - three caliper inch tree per 750 sq. ft. of dry detention area).
4. To allow for not meeting the 14-ft screening wall standard to screen the parking of the tractor/trailers by using eastern red cedars along the eastern and northern property lines as depicted on the landscape plan.
5. To allow for tilt-up wall construction.
6. To allow for not meeting the 20% stone requirement on wallvisible from a public street or open space.

** Variances and/or exceptions as requested requires approval of a simple majority vote by the City Council.

Please address the followingPlanning Comments for each plan submitted:

Site Plan:
1. Re-label all firelanes as "XX-ft Firelane & Public Access Easement."
2. Is there a trash dumpster? If so, where is it located? Dumpster enclosure walls are to be a minimum of 6-ft in height with materials to match the primary structure; including the use of an opaque gate and a self latching mechanism. Provide detail and label as such.
3. Where are the loading docks? Article VI, Sec. 6.5 requires a minimum of 6 loading docks - 12-ft x 65-ft with a minimum 14-ft screening wall. Provide detail.
4. Under Site Plan Notes: A) No. 3 - Remove "and street frontages" Lighting levels are not to exceed 0.20-FC at the property line(s). B) No. 4 - Under Zone X, No. 2 Gross Building Area: remove "Car Wash" and relabel use.
5. What is the 60-ft tall silo being used for? What type of material is being used & what color will the silo be?
6. Based on the buildings' footprint, an exception to the horizontal articulation standards is required.
7. Based on the parking provided, an exception will be required in order to reduce the minimum amount required. Also, will need to the total square footage for the office area and recalculate the parking based on 1 space per 300 sq. ft. for office and 1 space per 1000 sq. ft. for the remainder of the building.

Landscape Plan:
1. Article VII, Sec. 5.12,C. - requires a minimum of 1 tree per 750 sq. ft. of dry area within the detention pond. Will there be trees planted in this area?
2. The eastern red cedars being proposed as screening for the parking area of the tractor/trailers along the eastern and northern property lines require a variance to allow for not meeting the 14-ft screening wall standard.

Treescape Plan:
1. The 576 inches being removed are accounted for inthe landscape plan provided leaving a zero balance; therefore, the tree mitigation is considered to be satisfied for this submittal.
2. Removal of the two (2) elm trees requires approval of the Planning and Zoning Commission prior to removal.

Photometric Plan:
1. The lighting pole standards are not to exceed a maximum overall height of 30-ft (includes pole, base, fixtures, etc.) per the UDC standards. Provide detail.
2. The lighting levels along property lines are not to exceed 0.2-FC in order to reduce glare. The lighting levels are not represented/extended to all property line(s) and appear to be excessive. Resubmit photometric plan in compliance with the City's standard and indicate lighting levels to all property lines.

Building Elevations:
1. All roof-top mechanical equipment requires screening from rights-of-way and adjacent properties. Provide a roof plan indicating location of units and dash-in RTU's on elevations. Provide detail of screeing mechanism to be used. Based on the elevations submitted, a line of sight study may need to be provided in order to determine visibility of RTU's from property lines.
2. Provide exterior material calculations for each elevation.
3. Plans are not scaled as labeled (30 scale). Provide proper scale for elevations (engr or architect).
4. Are there any other detailing of the elevations to be used; accents, articulated elements, revels, stamped concrete walls, etc?
5. Requires approval of a variance by City Council for not meeting the vertical articulation standards for the walls facing a public street (i.e. southern & eastern facing elevations).
6. Requires approval of an exception to the masonry standards by the City Council for:
A) to allow for the use of concrete tilt-up wall construction, and
B) to allow for not meeting the 20% stone requirement for walls facing a public street or open space (i.e. southern & eastern facing facades).
7. Are the elevations submitted considered "color elevations?"If not, can you provide color elevations.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Discussion: May 31, 2016 (6:00 p.m.)
Planning - Action: June 14, 2016 (6:00 p.m.)

City Council - Action: June 20, 2016 (6:00 p.m.) [VARIANCE AND/OR EXCEPTION REQUESTS ONLY]

PLANNING | David Gonzales | 6/8/2016 | 6/15/2016 | 6/9/2016 | 1 | APPROVED | See conditions of approval

Planning Department General Comments as Acknowledged:

1. Adherence to Engineering and Fire Department standards shall be required.
2. Submittal and approval of a Civil Engineering Plans and filing of Final Plat prior to issuance of a Certificate of Occupancy (CO).
3. All exterior signage requries submittal and approval of a separate building permit through the Building Inspections Department.

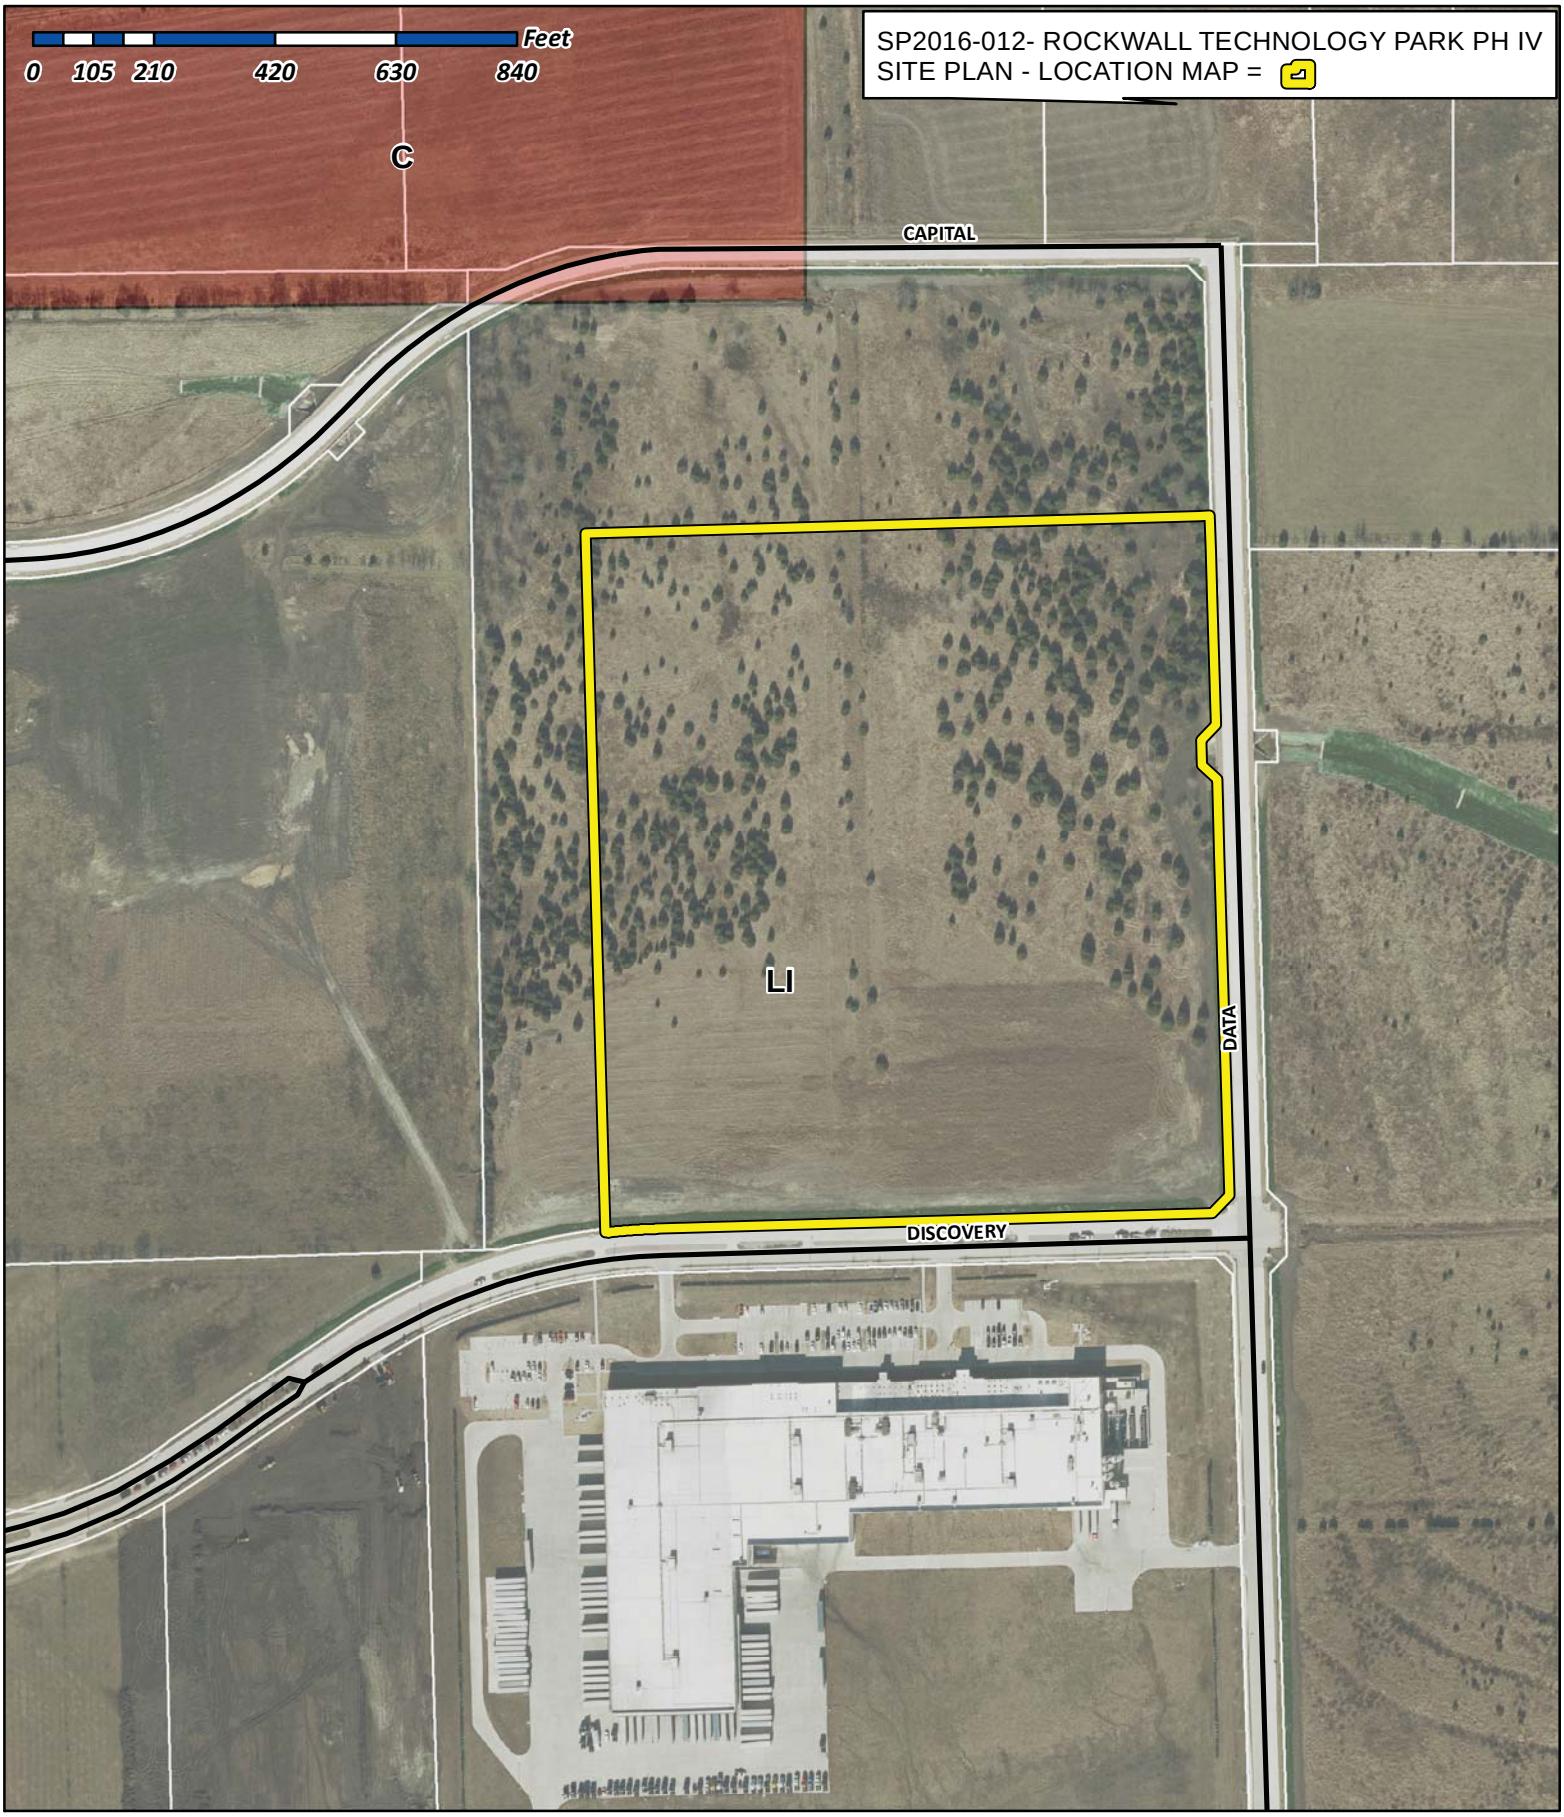
Based on the revised plans submitted, please address/acknowledge the following Planning Department Comments for each plan indicated:

Site Plan:

Type of Review / Notes	Contact	Sent	Due	Received	Elapsed	Status	Remarks

1. Variance requests as acknowledged in response letter and staff's report.

Landscape Plan:
1. Variance requests as acknowledged in response letter and staff's report.



Building Elevations:
1. Variance requests as acknowledged in response letter and staff's report.

The following are scheduled meeting dates that you and/or your representative(s) should attend regarding the Site Plan. If you have any quesitons regarding this case, please feel free to contact David Gonzales with the Planning Department at 972-771-7745.

Meeting Dates to Attend:

Planning - Action: June 14, 2016 (6:00 p.m.)

City Council - Action: June 20, 2016 (6:00 p.m.) [VARIANCE AND/OR EXCEPTION REQUESTS ONLY]

RE: 30.035-acre Manufacturing Facility, Rockwall Technology Park Phase IV

Mr. Miller:

Please accept this letter as authorization by the Rockwall Economic Development Corporation (REDC) to allow for Pacheco Koch to submit a site plan review application for the above-referenced project, which is located at the northwest corner of Discovery Blvd and Data Dr in the Rockwall Technology Park. As noted on Pacheco Koch's application, the REDC is the current owner of the subject property, but has an approved contract with a developer that intends to acquire the property and develop it for manufacturing use.

We appreciate your assistance with this project, and look forward to working closely with you and the rest of the City staff during the entitlement, permitting and construction process to bring forward another high quality corporate citizen to the Rockwall community.

Sincerely,

Michael Hampton, AICP
Director of Project Development
Rockwall Economic Development Corporation

Re: **ROCKWALL TECHNOLOGY PARK PHASE IV**
Pratt Manufacturing Facility
Rockwall, Texas

Dear Mr. Gonzales:

This letter is to notify you that the enclosed City Site Plan has been revised in accordance with your May 16, 2016, Review Memorandum. The following items have been addressed as per the referenced review

CITY SITE PLAN CASE NO: SP2016-012:

ENGINEERING COMMENTS

1. Need a letter from the Soil Conservation allowing detention in their existing lake.

   Response: We are currently working with NRCS Personnel to obtain an updated letter.

2. Show fire line 10' from all other utilities including other water lines.

   Response: Addressed on City Site Plan as requested.

3. Show dimensions (20' x 9') for the head to head parking.

   Response: Addressed on City Site Plan as requested.

4. Make sure all fire hydrants have 5' clear around them (including parking spaces and landscaping.

   Response: Addressed on City Site Plan as requested.

5. Show barrier free ramp at the corner of Data and Discovery

   Response: Addressed on City Site Plan as requested.

6. Show distance from Data Drive to the first driveway to the west along Discovery (minimum of 150' from edge of paving to edge of paving.

   Response: Addressed on City Site Plan as requested.

7. Add a note to the landscape plans: "No trees to be planted within 5' of any utility and shrub/light poles must be placed 4' behind the curb of 18' parking spaces.

   Response: Addressed as requested on Landscape Plans.

Planning Department General Comments to be addressed:

1. Adherence to Engineering and Fire Department standards shall be required.

   Response: Acknowledged.

2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).

   Response: Acknowledged.

3. Label site plan documents with "Case No. SP2016-012" at the lower right corner of each plan.

   Response: Addressed as requested on City Site Plan and Landscape Plans.

4. All exterior signage requires submittal and approval of a separate building permit through the Building Inspections Department.

   Response: Acknowledged.

Variances and/or Exceptions per submittal:

1. To allow for not meeting the Horizontal & Vertical articulation standards for the facades facing the street(s) as outlined in the Unified Development Code.

2. To allow for not meeting the required parking spaces (parking education) for the development.

3. To allow for not meeting the landscaping of the detention area (1 – three caliper inch tree per 750 sq. ft. of dry detention area).

4. To allow for not meeting the 14-ft screening wall standard to screen the parking of the tractor/trailers on by using eastern red cedars along the eastern and northern property lines as depicted on the landscape plan.

5. To allow for tilt-up wall construction.

6. To allow for not meeting the 20% stone requirement on wall visible from a public street or open space.

Variances and/or exceptions as requested requires approval of a simple majority vote by the City Council.

Response: Requested variances to be on 06/20/2016 City Council Agenda.

Site Plan:

1. Re-label all firelanes as "XX-ft Firelane & Public Access Easement."

   Response: Addressed as requested on City Site Plan.

2. Is there a trash dumpster? If so, where is it located? Dumpster enclosure walls are to be a minimum of 6-ft in height with materials to match the primary structure; including the use of an opaque gate and a self latching mechanism. Provide detail and label as such.

   Response: A trash compactor is located on the interior of the building. There will be no exterior dumpsters or dumpster enclosures.

3. Where are the loading docks? Article VI, Sec. 6.5 requires a minimum of 6 loading docks - 12-ft x 65-ft with a minimum 14-ft screening wall. Provide detail.

   Response: Loading docks are called out on the site plan as requested. All loading docks are in compliance with City standards as noted above and a variance has been requested for the required 14' screen wall. See attached architectural plan for dock dimensions.

4. Under Site Plan Notes: A) No. 3 - Remove "and street frontages" Lighting levels are not to exceed 0.20-FC at the property line(s). B) No. 4 - Under Zone X, No. 2 Gross Building Area remove "Car Wash" and relabel use.

   Response: Site plan has been revised as requested.

5. What is the 60-ft tall silo being used for? What type of material is being used& what color will the silo be?

   Response: The silo will be white and used to store corn starch.

6. Based on the buildings' footprint, an exception to the horizontal articulation standards is required.

   Response: Requested variance to be on 06/20/2016 City Council Agenda.

7. Based on the parking provided, an exception will be required in order to reduce the minimum amount required. Also, will need to the total square footage for the office area and recalculate the parking based on 1 space per 300 sq. ft. for office and 1 space per 1000 sq. ft. for the remainder of the building.

   Response: Requested variance to be on 06/20/2016 City Council Agenda.

Landscape Plan:

1. Article VII, Sec. 5.12, C. - requires a minimum of 1 tree per 750 sq. ft. of dry area within the detention pond. Will there be trees planted in this area?

   Response: Requested variance to be on 06/20/2016 City Council Agenda.

2. The eastern red cedars being proposed as screening for the parking area of the tractor/trailers along the eastern and northern property lines require a variance to allow for not meeting the 14-ft screening wall standard.

   Response: Requested variance to be on 06/20/2016 City Council Agenda.

Treescape Plan:

1. The 576 inches being removed are accounted for in the landscape plan provided leaving a zero balance; therefore, the tree mitigation is considered to be satisfied for this submittal.

   Response: Acknowledged.

2. Removal of the two (2) elm trees requires approval of the Planning and Zoning Commission prior to removal.

   Response: Acknowledged.

Photometric Plan:

1. The lighting pole standards are not to exceed a maximum overall height of 30-ft (includes pole, base, fixtures, etc.) per the UDC standards. Provide detail.

   Response: Light standards have been revised to meet this requirement. See attached revised Photometric Plan.

2. The lighting levels along property lines are not to exceed 0.2-FC in order to reduce glare. The lighting levels are not represented/extended to all property line(s) and appear to be excessive. Resubmit photometric plan in compliance with the City's standard and indicate lighting levels to all property lines.

   Response: See attached revised Photometric Plan.

Building Elevations:

1. All roof-top mechanical equipment requires screening from rights-of-way and adjacent properties. Provide a roof plan indicating location of units and dash-in RTU's on elevations. Provide detail of screening mechanism to be used. Based on the elevations submitted, a line of site study may need to be provided in order to determine visibility of RTU's from property lines.

   Response: Roof plan and photos of example facility are attached. Rooftop units will be screened by parapet walls as shown in the photos.

2. Provide exterior material calculations for each elevation.

   Response: Exterior material is fully composed of concrete tilt-wall.

3. Plans are not scaled as labeled (30 scale). Provide proper scale for elevations (engr or architect).

   Response: Building elevations are shown at 30 scale. See attached.

4. Are there any other detailing of the elevations to be used; accents, articulated elements, revels, stamped concrete walls, etc?

   Response: Per the attached photos/renderings, the elevations will incorporate color changes and architectural features to generate visual interest.

5. Requires approval of a variance by City Council for not meeting the vertical articulation standards for the walls facing a public street (i.e. southern& eastern facing elevations).

   Response: Requested variance to be on 06/20/2016 City Council Agenda.

6. Requires approval of an exception to the masonry standards by the City Council for:
   A) to allow for the use of concrete tilt-up wall construction, and
   B) to allow for not meeting the 20% stone requirement for walls facing a public street or open space (i.e. southern& eastern facing facades).

   Response: Requested variance to be on 06/20/2016 City Council Agenda.

7. Are the elevations submitted considered "color elevations?" If not, can you provide color elevations.

   Response: Color renderings and example photos of existing buildings are attached.

If you have any questions or need any additional information, please call at your earliest convenience.

Sincerely,

Chet T. Leugers, P.E.

SITE PLAN NOTES

1. A SEPARATE SIGN PERMIT WILL BE REQUIRED FOR ALL SIGNS.
2. THE INTENT OF THIS PLAN IS TO SHOW THE CONCEPTUAL DRAINAGE DESIGN FOR THE PROPOSED PROJECT AS PART OF THE SITE PLAN APPROVAL PROCESS ONLY AND SHALL NOT BE CONSTRUCTED AS A FINAL DESIGN.
3. LIGHTING LEVELS ARE NOT TO EXCEED 0.20-FC AT THE PROPERTY LINE(S).
4. SUBJECT PROPERTY IS SHOWN ON THE NATIONAL FLOOD INSURANCE PROGRAM FLOOD INSURANCE RATE MAP FOR ROCKWALL COUNTY, TEXAS AND INCORPORATED AREAS, MAP NO. 48397C0045L, COMMUNITY-PANEL NO. 480455300045 L, EFFECTIVE DATE: SEPTEMBER 26, 2008. ALL OF THE SUBJECT PROPERTY IS SHOW TO BE LOCATED IN ZONE "X" ON SAID MAP. THE LOCATION OF THE SAID FLOODZONES BASED ON SAID MAP IS APPROXIMATE AND IS NOT LOCATED ON THE GROUND. RELEVANT ZONES ARE DEFINED ON SAID PAM AS FOLLOWS:

   UNDER ZONE X - OTHER AREAS: AREAS DETERMINED TO BE OUTSIDE 100--YEAR FLOOD PLAIN.

1. PROPOSED USE:
   INDUSTRIAL FACILITY
2. GROSS BUILDING AREA:
   INDUSTRIAL BUILDING: 389,500 SF
   NUMBER OF STORIES: 1
3. BUILDING HEIGHT:
   MAX BUILDING HEIGHT=40'-4"
4. PARKING REQUIRED:
   PARKING RATIO = 1 SPACE PER 1,000 SF OF BUILDING
   TOTAL REQUIRED = 390 SPACES
5. PARKING PROVIDED:
   PROPOSED REGULAR PARKING = SPACES
   PROPOSED H.C. PARKING = 6 SPACES
   TOTAL PROVIDED = 126+8 = 132 SPACES
6. SITE COVERAGE:

TOTAL SITE:	1,308,325 SF (30.035 AC)
BUILDING:	389,500 SF (8.94 AC)
PAVEMENT:	360,422 SF (8.27 AC)
LANDSCAPE:	558,403 SF (12.82 AC)
BUILDING COVERAGE:	29.8% < 60.0% MAX
PAVEMENT COVERAGE:	27.5%
LANDSCAPE COVERAGE:	42.7%
PERCENT IMPERVIOUS:	57.3% < 85.0%-90.0% MAX

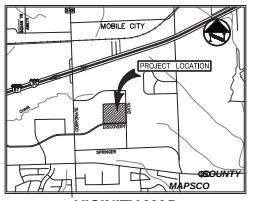
PLANTING GENERAL NOTES



1. ALL PLANTS SHALL BE SET OUT FOR APPROVAL BY THE OWNER'S REPRESENTATIVE PRIOR TO INSTALLATION.
2. FINE GRADING SHALL BE PERFORMED IN ALL AREAS TO BE LANDSCAPED. FINE GRADING SHALL INCLUDE THE REMOVAL OF DEBRIS, ROCKS, ETC. FROM THE SITE AND INSURE POSITIVE DRAINAGE IN ALL AREAS.
3. THE CONTRACTOR SHALL LOCATE ALL UTILITIES AND EASEMENTS IN THE FIELD PRIOR TO COMMENCEMENT OF WORK. CONTRACTOR IS RESPONSIBLE FOR ANY DAMAGE TO UTILITIES DURING THE COURSE OF CONSTRUCTION.
4. WRITTEN DIMENSIONS SHALL GOVERN OVER SCALED DIMENSIONS.
5. IT IS PREFERABLE THAT NO TREE BE STAKED. HOWEVER, CONDITIONS AND PLANT MATERIAL SIZE MAY NECESSITATE STAKING. THE OWNER'S REP SHALL DETERMINE IF SUPPORT IS NEEDED AND SHALL DIRECT THE CONTRACTOR ACCORDINGLY.
6. THE CONTRACTOR SHALL REFER TO THE SPECIFICATIONS FOR ADDITIONAL INFORMATION AND REQUIREMENTS ASSOCIATED WITH THE LANDSCAPE AND ACCESSORIES.
7. ALL PLANT MATERIALS SHALL MEET ANSI Z60.1 STANDARDS FOR CALIPER, HEIGHT AND ROOT BALL SIZE. ANY MATERIALS THAT DO NOT MEET OR EXCEED SUCH STANDARDS SHALL BE REJECTED AND REPLACED AT THE CONTRACTOR'S EXPENSE.
8. BALLED AND BURLAPPED TREES SHALL HAVE THE TOP HALF OF THE WIRE BASKET REMOVED. THE BURLAP SHALL BE REMOVED TO THE GREATEST EXTENT POSSIBLE, USING A KNIFE TO CUT AND REMOVE THE BOTTOM HALF UNDER THE WIRE BASKET THAT REMAINS.

Cree Edge™ Series

LED High Output Area/Flood Luminaire featuring Cree TrueWhite® Technology

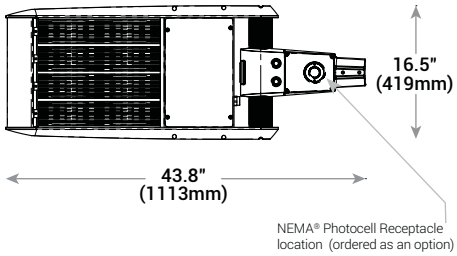
Product Description

The Cree Edge™ High Output Area/Flood luminaire is designed to deliver high lumen packages with precise optical control. The unit features a slim, low profile design that minimizes wind load and a rugged die cast aluminum adjustable arm that mounts to a horizontal or vertical 2" (51mm) IP, 2.375-2.50" (60-64mm) O.D. steel tenon. Tenon length must be a minimum of 3.75" (95mm). The direct mount bracket accessory allows for further mounting flexibility. Available with Cree TrueWhite® Technology, the Cree Edge™ High Output helps to beautifully render true colors and deliver value beyond energy savings.

Applications: Auto dealerships, parking lots, campuses, facade lighting, high-mast and general site lighting applications

Performance Summary

- Utilizes Cree TrueWhite® Technology on 5000K Luminaires
- Patented NanoOptic® Product Technology
- Made in the U.S.A. of U.S. and imported parts
- **CRI:** Minimum 70 CRI (4000K & 5700K); 90 CRI (5000K)
- **CCT:** 4000K (+/- 300K), 5000K (+/- 300K), 5700K (+/- 500K) standard
- **Limited Warranty†:** 10 years on luminaire/10 years on Colorfast DeltaGuard® finish



† See http://lighting.cree.com/warranty for warranty terms

Product Specifications

CREE TRUEWHITE® TECHNOLOGY

A revolutionary way to generate high-quality white light, Cree TrueWhite® Technology is a patented approach that delivers an exclusive combination of 90+ CRI, beautiful light characteristics and lifelong color consistency, all while maintaining high luminous efficacy – a true no compromise solution.

CONSTRUCTION & MATERIALS

- Slim, low profile, minimizing wind load
- Luminaire sides are rugged die cast aluminum with integral, weathertight LED driver compartments and high performance heat sinks
- Adjustable arm that mounts to a horizontal or vertical 2" (51mm) IP, 2.375-2.50" (60-64mm) O.D. steel tenon. Tenon length must be a minimum of 3.75" (95mm)
- Surface-mount directly to a vertical or horizontal surface with direct mount bracket (refer to Tenons and Brackets table on page 12)
- Luminaire may be field adjusted for use in uplight position. Please refer to installation instructions for details
- Extruded aluminum adjustable mounting shaft
- Luminaire is adjustable from horizontal 90˚ towards pole and 120˚ away from pole
- Exclusive Colorfast DeltaGuard® finish features an E-Coat epoxy primer with an ultra-durable powder topcoat, providing excellent resistance to corrosion, ultraviolet degradation and abrasion. Silver, bronze, black, and white are available
- **Weight:** See weight charts on pages 1 and 13

ELECTRICAL SYSTEM

- **Input Voltage:** 120-277V or 347-480V, 50/60Hz, Class 1 drivers
- **Power Factor:** > 0.9 at full load
- **Total Harmonic Distortion:** < 20% at full load
- Integral 10kV surge suppression protection standard
- To address inrush current, slow blow fuse or type C/D breaker should be used
- **Maximum 10V Source Current:** 120 LED: 0.40mA; 240 LED: 0.80mA

REGULATORY & VOLUNTARY QUALIFICATIONS

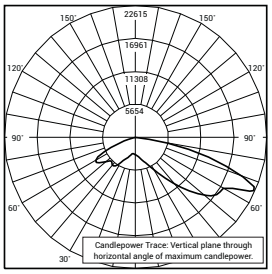
- cULus Listed
- Suitable for wet locations
- Consult factory for CE Certified products
- 10kV surge suppression protection tested in accordance with IEEE/ANSI C62.41.2
- Meets FCC Part 15, Subpart B, Class A standards for conducted and radiated emissions
- Certified to ANSI C136.31-2001, 3G bridge and overpass vibration standards
- DLC qualified. Exceptions apply when ordered with backlight control, 5000K CCT with 1000mA drive current, or 5000K CCT with 700mA drive current and 2M, 3M or 70 optics. Please refer to www.designlights.org/QPL for most current information
- Luminaire and finish endurance tested to withstand 5,000 hours of elevated ambient salt fog conditions as defined in ASTM Standard B 117
- Meets Buy American requirements within ARRA
- Dark Sky Friendly, IDA Approved. Please refer to www.darksky.org/ for most current information
- RoHS compliant. Consult factory for additional details

Electrical Data*

LED Count (x10)	System Watts 120-480V	Total Current					
		120V	208V	240V	277V	347V	480V
700mA							
12	267	2.24	1.29	1.12	0.99	0.80	0.58
24	533	4.49	2.57	2.24	1.97	1.62	1.16
1000mA							
12	421	3.61	2.06	1.80	1.61	1.25	0.90
24	831	7.16	4.04	3.54	3.14	2.50	1.81

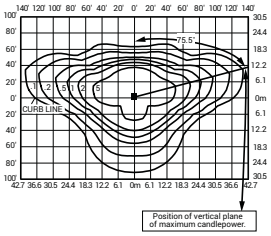
* Electrical data at 25˚C (77˚F). Actual wattage may differ by +/- 10% when operating between 120-480V +/- 10%

Recommended Cree® Edge High Output Series Lumen Maintenance Factors (LMF)[1]



Ambient	Initial LMF	25K hr Projected[2] LMF	50K hr Projected[2] LMF	75K hr Calculated[3] LMF	100K hr Calculated[3] LMF
5˚C (41˚F)	1.04	0.99	0.97	0.95	0.93
10˚C (50˚F)	1.03	0.98	0.96	0.94	0.92
15˚C (59˚F)	1.02	0.97	0.95	0.93	0.91
20˚C (68˚F)	1.01	0.96	0.94	0.92	0.90
25˚C (77˚F)	1.00	0.95	0.93	0.91	0.89

[1] Lumen maintenance values at 25˚C are calculated per TM-21 based on LM-80 data and in-situ luminaire testing
[2] In accordance with IESNA TM-21-11, Projected Values represent interpolated value based on time durations that are within six times (6X) the IESNA LM-80-08 total test duration (in hours) for the device under testing ((DUT) i.e. the packaged LED chip)
[3] In accordance with IESNA TM-21-11, Calculated Values represent time durations that exceed six times (6X) the IESNA LM-80-08 total test duration (in hours) for the device under testing ((DUT) i.e. the packaged LED chip)



Photometry

All published luminaire photometric testing performed to IESNA LM-79-08 standards by a NVLAP accredited laboratory. To obtain an IES file specific to your project consult: www.cree.com/Lighting/Tools-and-Support/Exterior-IES-Configuration-Tool
