Total City Debt Obligations Secured by a Tax Rate: \$112,120,000

August 11, 2023

Mayor Trace Johannesen Members of the Rockwall City Council City of Rockwall, Texas

Mayor Johannesen and Councilmembers:

The following pages outline the Proposed Budget for the City of Rockwall for the upcoming fiscal year, October 1, 2023 to September 30, 2024. The budget includes the revenues and expenses the City anticipates over the next year, and has been prepared in conformity with the City Charter requirements and our conservative approach to preparing the annual operating budget.

As always, the City aims to provide exceptional services and the resources to accommodate the rapid growth of our community, while also maintaining a low tax rate relative to our surrounding communities. City staff has compiled this budget in accordance with fiscally conservative principles, while keenly aware of the needs of our growing City.

The local economy has been strong with significant growth in non-construction related revenues. Sales tax revenue is running well ahead of projections made this time last year. The City's financial condition is strong and continuing to further improve. The sales tax revenue is the highest in the City's history, exceeding our budget projections by 5.17% fiscal year-to-date. As stated before, this growth is due in part to changes in the way online purchases are taxed and distributed to the taxing entities as well as growth in all sectors of the economy in this city, region, and state. We remain a regional shopping destination and our residents continue to support our local merchants. In comparing to other cities, we find our per-capita sales tax revenue well ahead of others similarly situated cities in the Metroplex. We cannot begin to assume that we will continue to see such strong growth as we go into the prolonged I-30 construction work.

The City's strong financial position going into FY2024 allows staff to continue to provide residents and businesses with outstanding public safety and top-notch parks amenities while focusing on the continual updating of our facilities and street maintenance needs.

Adopted Tax Rate

This budget proposes a tax rate of 27.0245 cents per hundred dollars of assessed value. This is a decrease of 2.22 cents from the previous fiscal year. The decreased tax rate represents the City's efforts to maintain a low tax rate, while maximizing the benefits provided to residents and businesses within the City. Of this tax rate, approximately 59% will be dedicated to operations and maintenance in the General Fund, and 41% will be allocated to debt service.

State legislatures, a few years ago, added new terminology and modifications to the process for tax rate calculations. The No New Revenue Rate ("NNR") is the rate that keeps tax revenues from existing properties the same as the preceding year. The estimated NNR rate for the upcoming fiscal year is 29.2678 cents per hundred dollars of assessed value. The Voter Approved Tax Rate ("VATR") allows for a 3.5% increase in tax revenue as the highest rate a council can impose without prior approval by voters. However, cities may add any portion of the unused VATR for a fiscal year to the VATR of the following year. This privilege extends for up to three years but has not been something we have chosen to pursue.

The average taxable value for a single-family homestead is \$392,425. This is an increase of 8.2% from the previous year's average of \$362,742. With a property tax rate of 27.0245 cents, the municipal tax paid on the average single-family home will be \$1,061. This is a decrease of \$1 from the previous year's average tax bill to property owners.

Adopted General Fund Expenditures

The General Fund accounts for any expenditures related to traditional government services, such as Administration, Public Safety, Parks and Recreation, Engineering, and Municipal Court. Revenues supporting the General Fund are generated from sources such as sales tax, franchise fees, building permit fees, ad valorem property taxes, and Court fines.

General fund revenues for this fiscal year total \$52,018,750, an increase of 5.825% from the prior budget. The sales tax rate remains at 8.25%, the maximum allowed by state law. Of that amount, 1.5% is allocated to the City's general fund and 0.5% to the economic development corporation. With this rate, the City is projected to generate \$27,050,000 in sales tax revenue for the general fund, which is the same as the amended sales tax budget for fiscal year 2023. We experienced double digit increases 9 of 12 months in FY2022 we've only experienced that 2 of the 11 months this fiscal year. We can't responsibly project large increases again and balance a budget based on it. Projecting flat revenues remains the most conservative approach.

Operating expenditures in the general fund total \$51,126,500, a 5.86% increase from the prior year budget. The available ending fund balance for fiscal year 2023 is projected to be \$29,138,946, leaving 221 days or 7.33 months of expenditures in reserve. The City's policy allows for reserves in excess of 3.5 months of recurring expenditures be available for use to fund capital projects, capital equipment, or other one-time purchases. This year's budget reserve is solidly

within the City's overall policy. Reserves of this size will allow the City to build capital projects such as a new fire station from reserves rather than paying debt service.

The following points outline the financial commitments and priorities of the General Fund for the upcoming fiscal year.

The single largest expense a service organization such as a City has is the compensation of our employees. The economic conditions that we have experienced with high inflation and rising interest costs has a significant impact on our employees and our ability to retain them. We have employees who drive significant distances and bear the extra cost of fuel in their daily commutes. Many of these long-tenured employees have highly marketable knowledge and skills we simply do not want to lose. The following budget document is heavier on employee compensation and lighter on new positions and equipment. We continue to strive to retain our workforce and attract new employees as we have several difficult to fill positions – in Police but also in Public Works. Both areas are highly important and very hard to fill with qualified candidates.

In preparing the adopted budget, we again surveyed our market cities. After several years of aggressive increases the increases have slowed but are still in the 2% - 4% range across our market. We are proposing significant additional salary increases in the coming year and need to do so in order to be competitive in our hiring and retention efforts.

Police Officers	4.5%	Market adjustment
Police Sergeants	2.5%	Market adjustment
Police Lieutenants	3.5%	Market adjustment
Firefighters	7.0%	Market adjustment
Fire Drivers	4.5%	Market adjustment
Fire Captains	2.0%	Market adjustment
Communication Dispatchers	7.5%	Market adjustment
Non-sworn city employees	2.5%	Market adjustment

These market adjustments are in addition to the city's merit-based pay system which includes step raises and top-out pay for solid work performance throughout the year.

Personnel Additions:

- <u>Police</u>: The fiscal year 2024 budget includes a new Lieutenant position as well as administrative assistance in CID. In addition, a new Community Services Officer will be staffed to assist with the workload of all the events and community interactions of this division.
- <u>Harbor Maintenance</u>: In addition to the Harbor this small team of two maintains all of the Downtown public areas. We are adding two maintenance workers to assist.

Facilities Changes:

<u>PD South</u>: While we begin the process of studying our space needs and developing a comprehensive plan to address our current and future facilities we have a great need for additional space today. In FY2022 we leased office space in the Rockwall Technology Park for Police Community Service and Traffic divisions. Additional space in the building is coming available this Fall. Staff proposes to lease this space to move other Police divisions including CID to that building freeing up much needed area in the Police Station for Patrol and other uniformed functions. We also need office space for Fire Administration in Station #1 now and Fire Marshal personnel who are currently working in the living quarters of Station #3. The Chief's are collaborating on the best ways to use the space coming available in order to meet their needs for many years to come. There will be costs associated with moving in this space which are being calculated at this time and will be presented to Council before the final decision on the lease is made.

• Street Operations: The adopted budget includes an approximate 7.7% increase in maintenance projects. This includes both asphalt and concrete street repair projects which extend the useful life of our roadways. Much of this increase is specifically slated for extension of city sidewalks to promote walkability to the Downtown area as well as access to schools. This will not be a large-scale addition of sidewalks; rather this is intended to fill in gaps where sidewalks start and end without a logical stopping point.

• <u>Major Equipment Purchases</u>: As mentioned previously, City policy provides that reserves in excess of 3.5 months of recurring operating expenditures may be used for capital purchases. A list is included behind this transmittal.

While the adopted budget accounts for the most-anticipated needs of each department, revenue patterns and expenditures are monitored throughout the budget period to allow for spending adjustments where needed. This will be especially important as we gauge the impact of the I-30 construction on retail sales.

Water and Sewer Fund

The City anticipates entering FY23 with \$13,957,163 in the Water and Wastewater Fund's working capital balance. Revenues are expected to be \$40,044,050 with \$41,518,450 in expected expenses.

The Fund's balance allows for 123 days of reserve for operating expenses. This is well ahead of the City's policy of 60 days of working capital in reserve. The balance allows funding for maintenance and future projects to ensure that the City's infrastructure continues to support the Water and Wastewater needs of residents.

The most notable Water and Wastewater expense in the adopted budget remain attributable to unfunded federal mandates. In addition, 76% of our water and wastewater expenditures are out of our control and determined by NTMWD.

In Water Operations, the EPA has required water systems to inspect water mains and service lines on private property to catalog the presence of lead pipes. This will then result in the development of a lead service line replacement plan. We do not expect to find many but are in the two-year process of inspecting every property in the City. This is an unfunded federal requirement that will approach \$400,000 over the inspection period. Also, we need to begin the engineering process to prepare to paint the Southside Water Tower. The painting may involve moving cell antennas and we must ensure that the cell service for the area will not be impacted. This may entail temporary trucks. This is the oldest water tower in our system so we will need to have it inspected to determine if other repairs need to be completed during the painting process. Painting it is estimated to cost about \$1million so we will budget that in the next fiscal year.

NTMWD is proposing a significant increase in treated water due in large part to the expense associated with Bois d' Arc lake and treatment plant. While it is not finalized until the Board meets in September the projected increase is 8.8%.

Sewer Operations includes \$162,000 for continuation of the Capacity Monitoring (CMOM) inspection which is another EPA program and is a ten-year program to complete. The largest portion of the Sewer Operations budget though is attributable to the debt service for the interceptor line that carries wastewater from Rockwall to Mesquite and the operation of the two treatment plants in Rockwall all of which are increasing in cost due in large part to the increased prices for chemicals and electricity. The South sewer treatment plant is aging and requires some capital upgrades to keep it operating a few more years. We intend to close both the Squabble and Buffalo treatment plants when the capacity in the interceptor line increases sufficiently to allow all wastewater to go to the Mesquite plant. This date has been a moving target.

Recreation Development Fund

The Recreation Development Fund is financed by fees from recreation programs and concession agreements with the marinas, which operate in the takeline. The funds are used to support the creation of new parks and recreation programs and enhancement of parks amenities. The adopted budget includes funds for parking lot lighting replacement at Harry Myers and Kidzone, and rehab work on the Hickory Ridge Pickleball Courts and basketball courts, as well as Shores Park playground. New furniture at the Harry Myers Community Building is proposed as well.

Hotel Occupancy Tax Fund

The Hotel Occupancy Tax Fund is financed by a 7% tax on hotel rooms and short-term rentals within the City. The funds from this tax are used to support projects promoting the tourism industry and marketing the city as a leisure destination.

Fund revenues for FY2024 are expected to be more than \$1,800,000. The reserves are projected to exceed \$1,699,735 at the end of FY2023. Hotel occupancies have been strong this year and the associated tax revenue illustrates this. The area hotels were hard hit by the decline in travel due to COVID but have all rebounded. Area organizations have submitted funding applications, which will be reviewed by the HOT subcommittee with their recommendation for funding presented to the Council in September.

Risk Management

The Human Resources department monitors the City's risk management function and they focus on workforce safety training and risk mitigation efforts on the worker safety component. The effort to monitor the liability claims has been managed within the departments themselves. While we have seen improvement in Auto claims which has been due to the combined efforts on the part of HR and department leader's focus. Auto Damage coverage had increased by 24% in FY2023 but was flat for FY2024.

Property and Liability Insurance rates have increased again due to our claims experience combined with the ever-increasing cost and availability of repair parts. Property insurance premiums have increased by 15%, and liability premiums have increased by 9%.

Conclusion

The above sections highlight the major portions of the FY2024 adopted budget. The department directors provided their insight and subject matter expertise into the development of this budget. Their support in the completion of this lengthy project cannot be overstated. The Finance Department staff including Misty Farris worked many hours to prepare the presentation format of the budget and their efforts must be recognized both in the budget setting process and throughout the year to assist the departments in managing their budgets. City staff and directors look forward to working with the Council in further development, approval, and implementation of this budget.

Respectfully submitted,

Mary Smil

Mary Smith City Manager

Consulting

Trott Communication – The City's consultants are sometimes needed to advise on issues related to the radio system. Request: \$4,000.

Professional Tower Climbers – the city owns 3 separate towers and needs to have climbers perform maintenance on them, such as tighten equipment, assess and repair, and change light bulbs. Request: \$12,800

Total: \$16,800

Notes: Generators	Notes:	Generat	ors			

This funding in FY2024 will bring that project to completion. It will ultimately have taken two full years to finish this effort.

Council approved adding a generator to PD South but that project will not see any activity or invoicing until FY2024 so that appropriation is moved to FY2024.

CITY MANAGER'S COMMENTS: Approved from General Fund Reserves

Police Training Supplies

We request a \$14,000 increase to the yearly recurring training supplies budget. Ammunition, simunition, and lesslethal munitions have significantly increased in price over the past two years along with freight shipping rates. Ammunition requirements for the police academy have also increased over the past two years. The training supplies budget has not seen an increase during this time.

CITY MANAGER'S COMMENTS: Approved

347	GENERAL MAINTENANCE SUPPLIES	18,194	13,400	13,400	15,900

Drone Maintenance Funds

We request an additional \$2500 in recurring funds for routine drone maintenance. These funds will be utilized to purchase replacement batteries, parts, and pay for minor repairs. Drone batteries with heavy use quickly diminish in capacity and flight time. Drones also require regular replacement of propellers to ensure safe operation.

Cellular Phones for Traffic

The Patrol Division is requesting \$3,400 for 4 cellular phone packages. These phones will be issued to the officers assigned to the Traffic Unit. Officers assigned to the Traffic Unit are classified as Investigators due to their responsibilities for conducting fatal crash investigations and criminal investigations related to motor vehicles.

CITY MANAGER'S COMMENTS: Approved

Notes:

Notes:

Crisis Negotiation Phone Line

We request an additional \$600 in recurring expenses for the addition of a cellular phone. The additional cellular phone will be utilized primarily for crisis negotiators but can secondarily serve patrol and narcotics functions where it is critical calls and text messages are recorded.

Notes:	Administrative Assistant				
The Criminal Investigation Division is requesting to add a civilian Administrative Assistant to the Department.					
While the position will tentatively re-	port to the Criminal Investigation Division Lieutenant, it will also serve the				
Patrol Division with administrative	functions currently handled by officers, detectives, records staff, supervisors and				
managers. This position will allow the	nose personnel to focus on primary functions related to their job. Anticipated				
job duties will include: answering ge	neral questions via phone and email for officers and detectives related to calls				
for service/active cases, manage pap	perwork and workflows related to hiring/onboarding, help manage training and				
personnel records, create agendas fo	or and take minutes at various divisional meetings, coordinate the collection and				
submission of timesheets to finance	, prepare check requests and purchase orders as needed, and other job-related				
functions.

CONTRACTUAL

231 SERVICE MAINTENANCE CONTRACTS 44,349 84,100

Notes: Maintenance Agreements \$1,200 subscriptions for Narcotics Investigations requiring advanced tracking for evidence collection and intelligence gathering through our partnership with the Drug Enforcement Administration/TASK Force Officer Position has necessitated the Criminal Investigation \$11,450 Cellbrite Premium Software This will expand our capabilities of examining cellular devices. This will provide 35 advanced actions for the department to use against locked devices in hopes of extracting necessary evidence in sensitive cases. This software is most effective in defeating and examining locked Android devices. Over the past three years, 287 cell phones have been examined forensically. 65% of those examinations were on android devices. \$13,150 FARO Warranty and Maintenance To purchase a 3-year hardware warranty and a 3-year software maintenance contract for the FARO Laser Scanner. The police department purchased the Faro Laser Scanner during the 2020 fiscal year. The device provides forensic mapping capabilities for crime scene investigations. The hardware warranty includes annual calibration which is required to ensure the integrity of the device when used as a criminal investigations tool. The integrity of the device is important during court testimony. The software maintenance agreement will provide software updates when they are made available.

\$4,500 Physical/Cloud Analyzer Software

Requesting an increase to add to our physical analyzer software so that data stored in the cloud can be analyzed along with a device extraction. In many forensic cell phone examinations, data that may have been deleted from the phone may be recovered from cloud storage. This upgrade would enable us to complete this sort of examination., further enhancing our forensic data-gathering ability and prosecutorial success.

\$3,200 Upgrade Cellbrite Analyzer Harwarer

uupgrade our current Cellebrite UFED Touch 2 Analyzer with a Cellebrite Touch 3. After 2023, Cellebrite will no longer support the UFED Touch 2 which will make our current hardware obsolete. Cellbrite, its software and hardware components are critical in digital forensic investigations.

Notes:Increase Investigative SuppliesThis account is used to help sustain and replenish investigative supplies commonly used to process crime scenes and
purchase needed items to support investigations such as Narcotics Field Testing, Protective Latex Gloves, digital
storage devices for large phone dumps, and many other commonly used investigative supplies. Utilization of this
account can be hard to predict since it is based on case activity for any given year. However, the current allotted
amount was depleted 7 months into the current budget. The Criminal Investigation Division is requesting a
permanent \$5,000.00 increase to the Investigation year.

Cellbrite Operator Training

The Criminal Investigation Division is requesting a one-time allotment of \$3,700.00 to train an additional user for the Cellebrite Forensic Cell Phone Examination platform. This user will be allocated to the DEA Tactical Field Officer position to help meet an identified need in our on-going partnership with the DEA in Narcotics Investigations and Asset Sharing.

CITY MANAGER'S COMMENTS: Approved

Notes:

Notes:	Increase Tuition & Training
The Criminal Investigation Divisi	on is requesting a permanent increase in the Tuition & Training budget of \$6,700.
The current budgeted amount is \$	\$8,300 for a unit with an authorized strength of 18 positions. Increased costs
ssociated with training and trave	l related to training in order to sharpen/increase skill levels in a highly technical
nvestigative age makes an increas	se in this line item necessary. The requested increase will bring the total designated
mount to \$15,000 which more a	ppropriately provides training funds for a division of this size.

Notes:Roadway Impact Fee StudySection 395.052(a) of the Texas Local Government Code requires that a municipality that imposes an impact fee must
update the land use assumptions and capital improvements plan at least every five (5) years. Staff is requesting
\$50,000 in funding to initiate an update of the City's Roadway Impact Fees in accordance Section 395.052(a) of the
TLGC. Staff should note -- that as was done in 2013 & 2019, staff will be preparing the Land Use Assumptions
Report in-house, which will help lower the costs of this objective.

CAPITAL				
603 BUILDINGS	-	_	-	60,100

Notes:Building Improvements\$30,000 to replace the current wood awnings in the play yard. Iron support beams and industrial awnings would be
a better long-term solution to help provide protection from the elements.

\$30,100 to replace the current chain link fencing in the dog runs behind the building. The animals can reach each other through gaps in the fence and cause injuries. Others can climb the fence and escape and wildlife can get in.

CITY MANAGER'S COMMENTS: Approved from General Fund Reserves

610 FURNITURE & FIXTURES

 Notes:
 Industrial Appliances

 \$16,000 to replace the current residential size Washer and Dryer with Industrial size machines. The current machines run 10 hours each day to keep up and it would be more efficient to have XXL size load capacity.

 \$8,900 to replace the current sanitization machine which has been deemed not repairable. Staff is handwashing all dishes in extremely hot water. It would be more effective to have a new sanitizing machine for all dishes and toys.

 CITY MANAGER'S COMMENTS: Approved

623 VEHICLES

Notes:	Trailer Wrap				
\$10,000 to remove and	replace the extremely faded	wrap on the Ado	ption trailer.

MEMORANDUM

- TO: Mayor and Council Members
- FROM: Mary Smith, City Manager

DATE: August 11, 2023

SUBJECT: Ad Valorem Taxes

The certified assessed value is \$8,964,484,128 and includes senior values of \$1,013,859,956 and new improvements of \$254,806,868. The certified value reflects an increase of 8.01% over the prior year of which 3.07% is from new values. The new values is the highest recorded in a single year by more than \$30million over last year's highest ever.

A tax rate of 27.0245 cents per hundred dollars of assessed value was used to prepare the 2023-24 Adopted Annual Budget.

The City's debt service rate is calculated to be 10.23 cents and the proposed operations rate would be 16.7945 cents for a proposed combined rate of 27.0245 cents per hundred dollars of assessed value. A penny on the tax rate generates <u>\$896,484</u>. Our No New Revenue Tax Rate is 27.0245 cents and the Voter Approval Rate is 29.5058 cents.

No New Revenue Rate (formerly known as the Effective Rate) – is the rate needed to collect the same tax dollars as FY23.

Voter Approval Rate – is the rate above which the City would need to hold an election to ratify the tax rate. The legislature allows up to 3.5% increase in revenue for maintenance and operations. Anything over that amount requires an election. This was formerly known as the Rollback Rate.

Public Hearings and Rate Adoption

The Truth in Taxation procedures requires one public hearing if the tax rate increases revenue by an amount over the amount calculated as the No New Revenue rate. The adopted tax rate does not require tax rate public hearings.

The City Charter requires a public hearing on the adopted budget, which can be conducted at the September 5th Council meeting and will be advertised as such. Adoption of the tax rate and budget will be included on the September 18th Council agenda.

MEMORANDUM

TO: Mayor and Council Members

FROM: Mary Smith, City Manager

DATE: August 11, 2023

SUBJECT: Harbor Debt Analysis

The Appraisal District has reported the certified assessed values in the Harbor TIF Zone. Valuations totaled \$233,654,870, resulting in a captured value of \$218,342,420. This is a valuation increase of 26.19%. Taxes on the captured value are revenues to the Zone. The City has committed 100% of taxes on the captured value to the TIF. City property taxes to the Zone should total \$590,050.

100% of the City's sales tax generated in the TIF is revenue to the zone. Sales taxes in the TIF are on pace to be up 5% as we complete FY2023. Sales taxes projections for fiscal year 2024 will be held flat compared to FY2023 to be conservative.

MEMORANDUM

- TO: Mayor and Council Members
- FROM: Mary Smith, City Manager

DATE: August 11, 2023

SUBJECT: Water / Wastewater Rates

North Texas Municipal Water District while still finalizing the budget for treated water for 202 is projecting an increase in the treated water rate by as much as thirty cents (.30) per thousand gallons. The District expects to raise the rate to \$3.69 per thousand gallons of treated water. This is the second increase in the last two years due in large part to the economic conditions and supply chain issues as well the new lake and treatment plant coming online.

The charges for Wastewater treatment by the District are increasing from the original 2023 budget. Specifically, we are anticipating an 20.7% increase for the regional interceptor line due to the capacity needs to facilitate the transfer of wastewater to the treatment plant in Mesquite. The rate for regional sewer treatment is increasing 11.6%. The treatment cost at the two Rockwall plants is increasing 29.7% for the North plant and increasing 14.7% for the South plant. Construction work continues on the parallel line to the Mesquite treatment plant with construction expected to conclude in 2024. Rockwall partners with Heath and Forney on the wastewater line to the Mesquite plant and Mclendon Chisholm is a customer of Rockwall's with flow into the line under an agreement with that city.

The City has two primary criteria when setting rates. The City's policy is to maintain a 60-day working capital (reserves) balance. The City's reserves will be closer to 150 days. Historically we have set rates and budgets based on periods of normal weather and consumption, not the extremes that can occur. The weather and consumption patterns have been anything but normal for the past decade and 2023 is no exception. Despite the extremely hot temperatures and dry conditions this summer our water consumption decreased slightly. We consumed about 95% of our minimum demand. District volume calculations will be finalized shortly.

Overall operations budgets for fiscal year 2024 increased by 6.37% and while revenues are projected to increase as we continue to grow the number of accounts for both water and sewer we will not be able to absorb these increases on the sewer side of the operations without an increase in rates. This will be subject to change based on final budget adoption by the District since those expenses are the largest we have in either the water or the wastewater operations.

Wholesale Customers

Our wholesale customer rates are determined in a separate study. These rates are designed to completely cover our cost of providing wholesale water. Blackland and RCH Water Supply Corporations will be subject to a rate increase based on those study findings and most specifically the increased treated water rate from NTMWD. Blackland continues to work toward becoming a direct customer of the NTMWD. They are in the process of acquiring rights of way for their new line to connect to the District. At that time, we will transfer the maximum gallons they have purchased historically from our minimum demand to their new minimum demand with the District. The status of RCH going direct to NTMWD is undetermined at this time.

The City of Heath's contract with Rockwall provides for rate increases as NTMWD adjusts the District's rate to member cities and includes a minimum take or pay provision, which was implemented in FY2017. Heath did not meet their minimum demand level this year so the increase will be in the rate only.

	Notes:	New EPA Regulations
--	--------	---------------------

Phase II \$118,000 (FY 2023)

On December 16, 2021, the EPA adopted new regulations to the Lead and Copper Rules (LCR), with a compliance date set for October 16, 2024. The new rules and regulations require water systems to inventory all services, mains, and private water lines from the City's connection to homes and buildings to determine if lead lines are present. This inventory also requires the City to determine if any galvanized pipes are connected or had previously been connected to lead lines in the past.

There are two other actions that water systems must complete by the LCR's October 16, 2024 compliance date a Lead Service Line Replacement Plan (LSLR) and a revised Tap Sampling Plan (TSP) for residents and the addition of sampling at schools and daycares. The LSLR plan would describe the procedure for systems to conduct lead service line replacements in accordance with the LCR. The (TSP) would identify the locations and methods for systems to conduct tap sampling following the LCR.

We have proposed assistance from a consulting firm to complete this task in two phases over the next two years to meet the requirements of the new LCR rules by October 16, 2024. Phase I was approved for FY 2023 budget year at an estimated cost of 271,500. Budge year 2024 will complete Phase II with an estimated cost of \$118,000.

Notes:Mixers for Eastside Water Yard\$56,040 Mixers are needed at the two ground storage tanks at the water yard on I 30. The mixer will thoroughly mix
the water in the tanks to create consistent disinfectant residual throughout. A few years ago, the City installed a
mixer in the ground storage tank at Heath Street that drastically improved the water quality by mixing the water in
the tank, creating a consistent disinfectant residual throughout.

CITY MANAGER'S COMMENTS: Approved

Notes:	VT SCADA Implementation			
\$43,500 This software p	rogram will replace the outdated Supervisory Control and Data Acquisition (SCADA)			
system that runs the sew	ver and water systems. The current antiquated system operates from four different programs			
from separate vendors, which often need to work better together and cause significant communication problems.				
VT SCADA is a single-i	nstalled program with one license that does all the functions of the four-separate license.			
The new program's cost	will be split with water.

Turf and lighting \$205,000

\$20,000 Hickory Ridge Artificial Turf conversion

This request is for the conversion of turfgrass to artificial turf around perimeter of pickleball courts. This conversion was made at Harry Myers in 2023 and resolved all ongoing maintenance issues and player complaints.

\$50,000 Kidzone Solar Lighting\$45,000 Harry Myers East Parking Solar Lighting\$90,000 Harry Myers Middle Parking Solar Lighting

This request is for solar lighting at the Kidzone Playground and Harry Myers Parking lots. This will eliminate the need for electric bills. The middle parking at Harry Myers has no lighting, the east parking lot has 2 light that light less than 10% of the parking lot and Kidzone has no lighting on the most popular park amenity in the city. Not only will this allow extended use until park closes, but improve safety after hours.

624	POLICE EQUIPMENT	56,533	56,950	212,950	55,500

Notes:	Crisis Negotiation Phone
\$5,000 Crisis Negotiations mobile ph	one

The cost includes all service fees and training. The addition of this mobile device application service will provide the crisis negotiation team a new primary device for conducting negotiations. The phone is capable of covertly providing Negotiators with the GPS location of the suspect along with live-streaming the phone's camera. The current system is approximately 15 years old and is unable to be repaired due to outdated technology. The new device stores all video, audio, and text messaging communication in a cloud-based evidence storage solution.

CITY MANAGER'S COMMENTS: Approved

Notes:Infrared Illuminator and Laser\$31,000 for a one-time purchase of (8) infrared illuminator and laser aiming devices. Currently, the SWAT Team
lacks the equipment necessary to effectively utilize entry rifles in a covert fashion with night vision goggles. This
equipment will also allow the team to identify operational units without exposing officers to potential harm. This
equipment will dramatically improve team capabilities in the dark and provide officers with a tool to enhance
safety.

CITY MANAGER'S COMMENTS: Approved

Notes:

Thermal Imaging Drone

\$19,500 Thermal imaging drone

The addition of a drone capable of thermal imaging, mapping, and visible imagery will assist in search and rescue operations as well as crime scene and accident photography. While our current equipment does have thermal imaging, its' use is limited to low altitudes and has low resolution. The Drone Unit has successfully located fleeing felons and runaway children on several occasions. Drone operators have assisted other agencies with large area searches, documented fatality accidents, and provided crowd observation for large city events.

CITY OF ROCKWALL MEMORANDUM

TO: Mary Smith, City Manager FROM: Shawn Yerks, Director of Human Resources CC: Joey Boyd, Asst. City Manager DATE: July 31, 2023

City's Health & Welfare Programs SUBJECT:

General Overview

The City of Rockwall has partnered with Holmes Murphy since January 2012 for broker and consultant services to ensure the City stays informed on local healthcare trends, vendor alternatives, expected cost projections, Healthcare Reform and other legal and legislative topics that impact the City's health plan. In January of 2017, the City changed thirdparty administrators for administration of the health plan from Group & Pension Administrators, Inc. (GPA) to Cigna. The results show that this was a prudent decision due to improved network access, provider discounts, medical management, improved Pharmacy contract, and lower overall administrative fees.

Health Care Cost Summary

As the table below indicates, like other Employers the City has experienced a continued rise in healthcare claims and costs since the 2014 plan year, but overall claims costs have decreased since the move to Cigna due to improved network access and discounts. Based on paid claims through June 2023, it is projected that the 2023 claim expense will be higher than the 2022 expenses indicated below, due primarily to higher than usual large claims. For the last 12 months, there have been twelve (12) claims that were paid which were in excess of \$25,000, including 5 which were over \$200,000. The City purchases Stop Loss insurance from Cigna annually that reimburses the City for any individual claim that exceeds \$105,000 in any plan year. This insurance helps to manage volatility from the large claims which are cyclical each year.

	History of Claims Cost:					
Cal. Year	Claims Cost	Annual Cost PEPY	# of EEs @ YR End			
2014	\$2,425,875	\$10,279	236			
2015	\$2,914,258	\$12,143	240			
2016	\$2,889,527	\$12,040	240			
2017	\$2,143,055	\$8,607	249			
2018	\$2,000,568	\$8,099	247			
2019	\$1,793,897	\$6,795	269			
2020	\$1,632,063	\$6,000	274			
2021	\$1,933,245	\$6,783	288			
2022	\$2,177,851	\$7,484	299			

. C 01 . .

Prescription Benefits Plan

The table below shows that the City of Rockwall's prescription claims increased significantly in 2016. For the last two (2) Plan years, the costs per year have average \$842K which is an +11% increase when compared to the average annual costs for 2019 & 2020. Some of this is due to increased headcount (see Health Care Employees covered). Overall, Pharmacy costs and increases have outpaced other medical related expenses since these benefits were not impacted by Covid-related shutdowns, or deferred services during the Pandemic. The normative benchmark for Pharmacy trend for 2022-23 is currently between +8% to 12% for the next plan year, driven primarily from new expensive Specialty Drugs. Cigna is working to lower this trend through its Prescription Drug Formulary which incentivizes members to try alternate

lower costs drugs first, prior to selecting the more costly prescription alternative. Worth noting is that the City's historical Pharmacy trend Per Employee Per Month (PEPM) has been +3.5% since 2019 which is lower than other local Employers.

PLAN YEAR	RX EXPENSE PAID	% INCREASE/DECREASE
2014	\$624,073	+21.5%
2015	\$594,363	-5%
2016	\$741,688	+24.8%
2017	\$662,776	-10.6%
2018	\$662,906	0.0%
2019	\$698,900	+5.0%
2020	\$787,121	+12.6%
2021	\$894,567	+12.2%
2022	\$790,052	-11.7%

Note: Claims cost does not include Admin Fees.

Administrative Fees

The City also pays administrative fees to Cigna to administer the Medical, Pharmacy, Dental and Vision benefits. As mentioned before, the City purchases Stop Loss Insurance to protect it against large claims, which are included in the below administrative fees.

For 2023, the estimated fees paid annually to Cigna for these services based on current covered employees is:

Cigna Administrative fees: \$862,705

Stop Loss insurance premiums for large individual claims continues to be one of the biggest challenges that all employers face due to the inherent uncertainty of these claims, the fact that employers now have unlimited Lifetime Maximums, and that few carriers are in the market to insure these claims. Municipal employers have additional challenges due to the presence of certain high-risk employee groups and potential retirees.

Healthcare Reform

The City also pays fees related to the Affordable Care Act (Healthcare Reform), which is required for all employers, public and private.

For 2023, the actual fees paid were, based on 2022 enrollment:

> Patient Centered Outcomes Research Institute (PCORI) Fee - \$1,582 annually.

These fees were budgeted in the 2023 funding rates, but paid in July of 2023.

Pre-65 Retiree Insurance

Texas Municipal Employers are required to offer coverage to their Pre-65 retirees in accordance with Local Government Code 175. Employers can require retirees to pay for this coverage, and/or provide some subsidy to pay for coverage. In the recent past, the City provided equivalent coverage to our early Retirees through the Texas Municipal League (TML) via Fully Insured options. In November of 2022 the City was informed by TML that this program would no longer be available to our early Retirees. As a result of this last minute notice, the City decided to provide access for these employees to the current Self-funded plan that is available to Active employees.

Due to risk of these Retirees (higher claims costs) there are very limited options available to employers for this group. Because of this, most Texas Municipal employers are focusing on improving engagement of this group of former employees, including making them aware of external marketplace alternatives which could save them money.

CITY OF ROCKWALL MEMORANDUM

TO: Mary Smith, City Manager

FROM: Shawn Yerks, Director of Human Resources

CC: Joey Boyd, Asst. City Manager

DATE: July 31, 2023

SUBJECT: Employee Safety Program

In 1990, the City issued Certificates of Obligation for \$2,000,000 to fund a self-insured workers' compensation program. The bond issue was paid off in August 2000. Claims processing is managed by the Texas Municipal League with the City paying deductible expenses up to \$100,000 per occurrence, with an aggregate exposure of \$300,000.

The City's self-funded Risk Management Program includes many components that have worked well together over the past several years to ensure and promote a safe work environment for all our employees. These include: *job placement assessments, drug/alcohol testing, job evaluation & site assessments, job specific safety training, incident investigation and reporting, workplace inspections, risk assessments and analysis* conducted by TMLIRP.

The HR staff reviews the claims data to identify potential trends in the following areas: *types of injuries, injuries occurring within certain job classifications, injuries resulting from types of equipment or specific job tasks, severity of claims, number of "days lost",* and *costs.* In addition, employees are encouraged to report *incidents <u>without</u> injuries* to assist in tracking and identifying potential safety hazards that can be corrected pro-actively.

The reportable incidents have decreased from 91 to 41, the number of days away from work decreased from 362 to 131 and the days on restricted or light duty have increased from 139 to 297. Most of the total days for restricted or light duty are due to three cases in the Police department. Please be advised the numbers for FY22/23 will change due to not having the full FY23 data. This data was current as of July 31, 2023.

This year's payments are in most part attributable to three significant claims in FY2022 for which payments are being finalized in FY2023. The data fully supports the recommendation to fund the safety incentive to employees.

Fiscal Year	Total # of EE Receiving A Pay Check	Reportable Incidents	Non- Reportable Incidents	Total Days Away From Work	Indemnity Incurred	Total Days Restricted Duty (Light Duty)	Medical Costs Incurred	Sum of Expense Incurred	Total Loss for Rockwall
17/18	302	25	65	87	\$ 47,788	297	\$ 60,248	\$ 6,387	\$ 114,423
18/19	345	32	32	50	\$ 22,724	222	\$ 55,063	\$ 6,508	\$ 84,295
19/20	334	52	27	75	\$ 43,570	218	\$ 44,617	\$ 5,970	\$ 94,157
20/21	371	59	46	240	\$ 89,494	55	\$ 88,920	\$ 18,921	\$ 197,335
21/22	386	91	34	362	\$ 137,301	139	\$ 190,413	\$ 9,849	\$ 337,563
*22/23	393	41	13	131	\$ 55,792	297	\$ 77,711	\$ 4,147	\$ 137,650

The City has achieved great results over the majority of the past 25 years in managing claim costs.

MEMORANDUM

- TO: Mary Smith, City Manager
- FROM: Jeffrey Widmer, Director of Building Inspections and Code Enforcement

DATE: July 31, 2023

SUBJECT: Population Estimates

COG reported our 1/1/2023 population as 51,054. In keeping with adopted policy, we have calculated the population estimate for 1/1/2024. We averaged 16 single-family permits per month from 1/1/23 - 6/30/23. Typically, we have taken a conservative approach and assumed we will continue to issue the same average number of permits for the remainder of the calendar year. Using this premise, we will estimate year-end to be about 192 single-family homes completed. COG recognizes 2.883 residents per single-family dwelling and an occupancy factor of .945 in the City of Rockwall. We added 491 multi-family units in 2022 and expect to see 591 completed in 2023 since a couple of the current projects will still be under construction and not ready for occupancy. COG recognizes 2.014 residents per multi-family unit with an occupancy rate of .934.

Population projections will be recalculated when the final census numbers are available late this year.

1/1/23 COG Population Estimate 180 X 2.883 X .945 = 293 X 2.014 X .934 =	 Single family Multi-family

1/1/24 Population Estimate52,128

Using this methodology the City 1/1/2024 population may be 52,128
